A. Requested Fiscal Year 2021 Base Appropriation Act Language

For drug interdiction and counter-drug activities of the Department of Defense, for transfer to appropriations available to the Department of Defense for military personnel of the reserve components serving under the provisions of title 10 and title 32, United States Code; for operation and maintenance; for procurement; and for research, development, test and evaluation, \$769,629,000: *Provided*, That the funds appropriated under this heading shall be available for obligation for the same time period and for the same purpose as the appropriation to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority contained elsewhere in this Act.

B. Global Trends and Threats

Today's criminal networks are fluid, striking new alliances with other networks around the world and engaging in a wide range of illicit activities, including support for terrorism and the malign activities of state adversaries and non-state actors. Transnational criminal organizations (TCOs) and their enterprises are connected and empowered by information systems technologies, making cyber-enabled crime a substantially greater concern. The future trajectory of TCOs is disconcerting, as they seek to penetrate new markets with goods and services, and expand their spheres of influence using corruption and violence.

The worldwide production of heroin, cocaine, and methamphetamine is at record levels. U.S. mortality from potent synthetic opioids doubled in 2017, and synthetic opioids have become a key cause of U.S. drug deaths. Mexican criminal groups supply much of the heroin, cocaine, and methamphetamine that crosses the U.S.-Mexico border. China-based suppliers ship fentanyl and fentanyl precursors to Mexico, Canada, and U.S.-based distributors or sell directly to consumers via the Dark Web. China and India are the primary suppliers of precursor chemicals necessary to produce cocaine, heroin, methamphetamine, and synthetic opioids. In Afghanistan, the drug trade and opium production remain a critical funding stream for the Taliban and other illicit actors.

Mexican TCOs remain the greatest criminal threat to the United States. The Sinaloa and the Jalisco New Generation Cartel (CJNG) are the most powerful of the nine major Mexican TCOs, both with global reach. In Central America, gangs and other regional illicit networks conduct illicit drug smuggling and weapons trafficking. Gang violence and other criminal activity corrupts police, soldiers, the judiciary, and other law enforcement agents despite police and judicial reforms. The Dominican Republic continues to grow as a key transshipment country for illicit drugs destined for the United States, where Dominican TCOs continue to expand operations.

Challenges to U.S. interests are not limited to western hemisphere actors. In Africa, terrorist insurgent forces, transnational organized crime and nation state competitors pose a persistent threat across the African continent and blend over to the Western hemisphere. Terrorist organizations, such as al-Qaeda in the Islamic Maghreb (AQIM), Boko Haram and others, engage in illicit activities involving kidnapping for ransom, and taxing illicit flows to fund criminal networks, which has helped facilitate illicit activities throughout the African continent and connect them on a global scale.

Russia, China, Iran, and North Korea utilize blended forms of global competition, including criminal and cyber means, to achieve their national objectives. To support its global objectives, North Korea employs a complex overseas financing and procurement system designed to raise the funds and materials North Korea needs for its regime's security and weapons programs.

The convergence of TCOs, terrorist organizations, and insurgent groups reflects a growing symbiosis of illicit activities, a national and global security concern. Terrorist and insurgent groups such as Islamic State of Iraq and Syria (ISIS), the Taliban, al-Shabaab, and the Fuerzas Armadas Revolucionarias de Colombia (FARC) are among the non-state actors that leverage the use of violence and other illicit activities to undermine the security of the United States and other nations. Hezbollah is perhaps the best-organized and most business-savvy terrorist organization; it relies on global facilitators engaged in illicit drugs, arms, and counterfeit trafficking, and money laundering for financing and support.

Given the significant responsibilities of our military service members and civilian personnel, deterring and detecting drug abuse, and ensuring a drug-free workplace, are also essential to maintaining DoD readiness. As illegal and prescription drugs have become increasingly available within our communities, a top Department priority is to resource responsive and effective deterrence programs to prevent illegal drug use and prescription drug misuse by the workforce.

C. Strategic Objectives

The Department's statutory mission to detect and monitor aerial and maritime transit of illicit drugs toward the United States remains a priority. By performing this mission, DoD helps deter, disrupt, and defeat potential threats before they reach the United States. This includes supporting interagency and international efforts to target TCOs at their source, and building international partnerships to prevent transnational threat networks from undermining sovereign governments, decreasing regional stability, and threatening the United States. The priorities identified below address a range of functional and regional threats, including long-standing challenges posed by illicit drug trafficking, other forms of transnational organized crime, and transnational terrorism financed by illicit means.

DoD seeks to:

- Disrupt and degrade the flow of heroin, fentanyl and amphetamine-type like stimulants, chiefly from Mexico, by fusing intelligence and disrupting links among drug trafficking and transnational criminal organizations, with a focus on the Sinaloa Cartel and Jalisco New Generation Cartel networks.

- Disrupt and degrade the flow of Afghan heroin supporting terrorist and criminal groups, focused on the Taliban/Haqqani network, and the downstream illicit drug trade through East Africa.
- Build Colombia and Peru's capacities to detect and interdict illicit trafficking, including drugs, precursor chemicals, and profits.
- Support interagency partners in stopping the flow of fentanyl from China and elsewhere into the United States, Mexico, and Central America, and degrade the unlawful diversion and smuggling of chemical precursors from Asia to the Western Hemisphere.
- Promote stability in Central America and the Dominican Republic through enhanced security across the air, land, and maritime domains to improve foreign partners' abilities to degrade drug trafficking and other illicit threat networks.
- Disrupt illicit trafficking and related criminal networks that threaten European and Asian security by working with U.S. and foreign law enforcement and security services, focusing on Russian and Chinese affiliated TCOs.
- Support interagency and law enforcement partners in order to disrupt North Korean efforts to circumvent sanctions compliance and utilize illicit financial activities.

These priorities support the National Security Strategy, the National Defense Strategy, and DoD key responsibilities: guarantee the security of the nation's citizens and the nation's territory, enable U.S. interagency counterparts, and prioritize assistance to partners who are aligned with U.S. interests.

D. DoD Drug Interdiction and Counter-Drug Activities Appropriations and Program Management

Since fiscal year 1989, the DoD Drug Interdiction and Counter-drug Activities appropriation has been the principal means used to finance the Department's counter-Drug (CD) and Drug Demand Reduction (DDR) activities. The funds are appropriated to the Department's Counter-Drug Central Transfer Account (CTA) which provides for centralized budgeting and oversight, while allowing funds to be executed across the entire range of DoD departments, commands, and combat support agencies. In accordance with 31 U.S.C. §1105(a)(26) and 21 U.S.C. §1703(c), this budget justification describes and provides a consolidated view of DoD contributions to the National Drug Control Program as executed by this appropriation.

The Deputy Assistant Secretary of Defense for Counternarcotics and Global Threats (DASD CN>), with the oversight of the Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict, and with direction from the Under Secretary of Defense for Policy, provides policy guidance and oversight, resource allocation, and program assessment functions for the

Department's CD, counter-transnational organized crime (CTOC), and counter threat finance (CTF) activities. This portfolio includes resources budgeted under Budget Activity 01, Counter-Drug Support; Budget Activity 03, National Guard Counter-Drug Program; and Budget Activity 04, National Guard Counter-Drug Schools Program.

For DDR programs, the Office of Drug Demand Reduction, by direction of the Executive Director for Force Resiliency, and with oversight by the Under Secretary of Defense for Personnel and Readiness, provides policy oversight and guidance, resource allocation, and reviews and monitors Military Services and Defense Agencies' program execution and effectiveness. DDR programs are mandated by Executive Order 12564, 10 U.S.C. §978, other guidance contained in DoD Directives and Instructions, and the Federal Register. This portfolio includes resources budgeted under Budget Activity 02, Drug Demand Reduction Program.

Resources requested within Budget Activities 01, 03, and 04, of the Drug Interdiction and Counter-Drug Activities appropriation, support requirements presented by the Combatant Commands, Military Services, and Combat Support Agencies. DASD (CN>) validates requirements on a recurrent basis via its annual planning, programming, and budgeting process. Each program is evaluated to ensure alignment with the evolving threat environment, Combatant Commands' requirements, adherence to legislative authorities and policy guidance, and support of the Department's strategic and performance objectives. In addition to informing programmatic and budgetary decision-making, the DASD CN> performance measurement system adheres to the Office of National Drug Control Policy's (ONDCP) Performance Reporting System requirements, the Office of Management and Budget Circular A-11 performance budget guidance, as well as statutory mandates required by the Government Performance and Results Act of 1993.

Based on changes to DoD authorities, as enacted by the National Defense Authorization Act (NDAA) of FY 2017, certain CD foreign capacity building programs, including training and equipping activities, are now required to be financed by funds authorized and appropriated to the Defense Security Cooperation Agency (DSCA) under 10 U.S.C. §333. Therefore, FY 2021 funding for CD-related activities to be executed under §333 has been requested separately in the FY 2021 DSCA operation and maintenance budget for security cooperation activities.

Budget Activity 01: Counterdrug Support (Overseas Contingency Operations)

I. Description of Activities Financed:

The Counterdrug (CD) Support, Overseas Contingency Operations (OCO) budget activity funds DoD support to interagency and international efforts to disrupt, degrade, and dismantle illicit drug trafficking and related illicit threat networks that pose the greatest danger to regional security and stability; contain and reduce the illicit drug flows from Afghanistan; and reduce the flow of illicit drug proceeds from the region which are used to finance regional terrorist activities. CD OCO finances programs to: build and sustain the CD capabilities of Afghanistan, neighboring Central Asian States, and other regional partner countries to confront illicit drug trafficking and other illicit trafficking; support the integration of interagency and international lines of effort to respond to these persistent threats; support intelligence and evidence-driven operations; and lastly, support activities to counter threat finance and transnational criminal networks, particularly those that direct profits toward the funding of insurgent and terrorist activities. Funding supports CD operations performed by the Afghanistan Special Mission Wing (SMW) to increase the reach of drug interdiction forces and deny freedom of action to traffickers in remote areas. The SMW, which includes supported PC-12 fixed wing and Mi-17 rotary wing aircraft, provides air mobility to Afghan law enforcement organizations and security forces conducting CD operations, and supports other missions including counterterrorism (CT), quick reaction force insertion, casualty evacuation, and ammunition resupply. CD OCO also supports the Counternarcotics Police of Afghanistan (CNPA) and its DEA-vetted and special purpose units including the National Interdiction Unit (NIU), Sensitive Investigative Unit (SIU), and Technical Investigative Unit (TIU). Activities financed by this request include, but are not limited to: contracted aircraft maintenance, logistics support, and spares; base security; establishment and operation of bases of operations or training facilities; transportation of personnel, supplies, or equipment; small-scale construction, and intelligence analysis support.

Primary Authorities: 10 U.S.C. §284 and §1022 National Defense Authorization Act for 2004, as amended.

II. Force Structure Summary:

The Office of the Deputy Assistant Secretary of Defense for Counternarcotics and Global Threats, by direction of the Under Secretary of Defense for Policy, and with oversight by the Assistant Secretary of Defense for Special Operations/Low-Intensity Conflict, provides policy oversight, guidance, resources, and effects measurement for DoD CD, counter-transnational organized crime (CTOC), and counter threat finance (CTF) programs and activities. Individual programs and activities are designed, planned, and executed by U.S. Central Command. The U.S. Army and U.S. Air Force provide program execution support and fiscal oversight of programs financed by this budget activity.

Fiscal Year (FY) 2021 Budget Estimates
Budget Activity 02: Drug Demand Reduction Program

I. Description of Activities Financed:

The Drug Demand Reduction budget activity funds programs to ensure the dangers of drug abuse and misuse within DoD are understood, prevented, identified, and treated in order to keep the fighting force at the highest levels of readiness. Prevention, education, and outreach programs focus on DoD's military and civilian communities and are designed to raise awareness of the adverse consequences of illicit drug use and prescription drug misuse on job performance, safety, health, family stability, fiscal security, and employment opportunities. Programs include illicit drug awareness and life-skills training for Service members and their families with a focus on maintaining readiness by ensuring a drug free workforce and workplace. Outreach services include programs to assist military and civilian employees in locating DoD and local civilian agency resources to address substance abuse, dependency, or addiction. In addition to prevention and outreach efforts, this budget activity funds personnel, supplies, and materials that support installation level random drug testing specimen collection for all military service members, civilian personnel in testing designated positions, and pre-employment testing for applicants for military and civilian service. DoD operates five forensic drug testing laboratories (U.S. Army, Fort Meade, MD; U.S. Army, Tripler AMC, HI; U.S. Navy, Great Lakes IL; U.S. Navy, Jacksonville, FL; and U.S. Air Force, Lackland, TX). These laboratories conduct urinalysis testing for the presence of illegal drugs, novel synthetic drugs, and unauthorized prescription medications listed in the DoD drug test panel. Funding supports laboratory personnel costs and overhead expenses related to test reagents, disposable supplies, and support services. The Fort Meade forensic testing laboratory is certified by the Substance Abuse and Mental Health Services Administration (SAMHSA) to analyze specimens from DoD Agency civilians and civilian applicants in testing designated positions (TDP) under the Drug-Free Workplace Program. The Great Lakes, IL forensic testing laboratory processes urinalysis samples for all military applicants from 65 Military Entrance Processing Stations (MEPS) worldwide. The Lackland, TX forensic testing laboratory processes the majority of National Guard Bureau (NGB) Service member specimens.

Primary Authorities: 10 U.S.C. §978, 5 U.S.C. §7301.

Drug Interdiction and Counter-Drug Activities
Fiscal Year (FY) 2021 Budget Estimates
OP-5, Consolidated Performance Summary

B. Exhibit OP-5, Consolidated Performance Summary

The Department of Defense delivers global support to the nation's CD and CTOC efforts by detecting and monitoring aerial and maritime drug threats bound for the United States, supporting U.S. and international partner operations and information sharing, conducting global intelligence and counter threat finance analyses, and encouraging a drug-free workplace through drug demand reduction (DDR) programs.

Measures of performance assigned to these activities are used by decision makers to: observe progress and measure actual results for comparison to expected results and operational objectives; guide the allocation of counterdrug and counter transnational organized crime budgetary resources during the annual planning, programming, budgeting, and execution process; provide management and oversight of DoD counterdrug and countering transnational organized crime programs; and facilitate communications and engagements with internal and external stakeholders.

The National Drug Control Budget, published by the Office of National Drug Control Policy (ONDCP), is assembled by agency Budget Decision Unit (BDU). The FY 2021 DoD Drug Interdiction and Counter-Drug Activities budget request supports one BDU, titled *Drug Interdiction and Counterdrug Activities*, and supports Base funded DoD requirements. Although there is no FY 2021 request for BDU 2, titles *Overseas Contingency Operations*, FY 2019 performance results have been provided below and on the following pages. Information regarding DoD measures of performance associated with BDUs *not* funded by this appropriation (e.g. Operations Tempo) may be found within the ONDCP National Drug Control Budget. Selected examples of FY 2019 qualitative and quantitative program performance results are provided in the following table, and accompanying narrative, to communicate DoD's continued progress toward achieving operational objectives in support of the National Drug Control Program:

Selected Measures of Performance

Fiscal Year (FY) 2021 Budget Estimates
OP-5, Consolidated Performance Summary

1. Budget Decision Unit 1: Drug Interdiction and Counterdrug Activities

Measure 1: Percentage of total global illicit trafficking events, as estimated by interagency and international intelligence activities, detected and successfully handed-off to interdiction and apprehension assets by Joint Interagency Task Force South.

DoD contributes to National Drug Control Strategy supply reduction goals by acting as the single lead agency for detecting and monitoring aerial and maritime transit of illicit drugs into the United States. USOUTHCOM's Joint Interagency Task Force-South (JIATF-S) facilitates drug interdiction by leveraging cued intelligence and other sources. The task force detects, monitors, and then hands-off potential targets to U.S. and international law enforcement agencies that possess the authorities to conduct the subsequent interdiction and apprehension.

In FY 2019, JIATF-S logged 7,713 Critical Movement Alerts (CMAs) comprised of initial intelligence submissions, of which 7,278 were Drug Movement Alerts (DMAs), a subset of CMAs that capture an impending or ongoing illicit drug movement. During quarterly Consolidated Counterdrug Data Base (CCDB) vetting conferences, each interagency partner-submitted event is examined to ensure strict adherence to agreed-upon criteria as defined in the CCDB User's Manual. This process resulted in the designation of 3,056 validated JIATF-S maritime events for FY 2019.

Of the 3,056 JIATF-S validated DMAs, JIATF-S was able to target 590 (19%). Target in this context, is the act of searching for illicit conveyances with JIATF-S controlled resources such as, aircraft, ships, helicopters, etc. The remaining 2,466 events (81%) were not targeted primarily due to the lack of allocated air and maritime law enforcement interdiction resources.

Of the 590 targeted events, 306 (52%) were categorized as "eyes-on" detections of illicit conveyances by U.S. or partner nation (PN) D&M assets. Of these, 221 were successfully handed-off to U.S. or PN law enforcement I&A assets. This resulted in an FY 2019 success rate of 72% for seizures and/or disruptions once an illicit target was detected, falling short of the 80% target.

JIATF-S is a critical force multiplier for U.S. law enforcement agencies for evidence collection, grand jury proceedings, indictments, and extraditions leading to the interdiction or arrest of key drug trafficking organization (DTO) members, Consolidated Priority Organization Targets (CPOT), and the disruption of prioritized transnational threat networks. Below are JIATF-S operations related FY 2019 law enforcement seizure statistics as compared to FY 2018:

- Arrests/Detainees: 745, decreased by 8%
- Conveyances (vessels and aircraft): 228, decreased by 5%
- Cocaine: 280 MT, increased by 7 MT (\$5.6B loss to traffickers)
- Marijuana: 24 MT, increased by 71% (\$51M loss to traffickers)
- Heroin: 0 KG

OP-5, Consolidated Performance Summary

Measure 2: DoD military personnel testing positive for drug use.

The DoD Drug Demand Reduction Program (DDRP) was mandated in 1981 and given the mission to deter DoD personnel from abusing illicit drugs or misusing prescription drugs. The program components include compulsory random drug testing with punitive consequences and anti-drug education and outreach programs. The effectiveness of this program is measured by monitoring the prevalence of drug use from drug testing statistics published annually with a 2% or less urine drug positive rate for military personnel, and a 1% urine drug positive rate for DoD civilians in Testing Designated Positions. These goals were established as Well-Being of the Force Indicators in 2008¹. An additional source of determining the effectiveness of the DDRP is the DoD Survey of Health Related Behaviors. The DoD survey is conducted every three years as an additional measure of effectiveness because it is independent from the drug testing program. The specific metric from the survey monitored is self-reported use of illicit drugs and misuse of prescription drugs within the past 30 days.

Measure 3: DoD civilian personnel testing positive for drug use.

DoD is on track to keep the illicit drug positive rate below 2% for military personnel and below 1% for civilian personnel, despite the Department expanding the drug testing panel to include commonly-abused prescription drugs and synthetic marijuana (a.k.a. Spice). DoD policy is to ensure 100% random urine drug testing of every Service member annually. Given the success of DoD's civilian drug testing program, the random testing rate for civilians in testing-designated positions will be 50% of the workforce per year.

2. Budget Decision Unit 2: Overseas Contingency Operations

Measure 1: Indian Ocean Heroin Removal by Combined Task Force-150

In FY 2019, RNIFC provided information to regional law enforcement partners and Combined Task Force-150 (CTF-150) that resulted in 36 narcotics seizures. Approximately 3,045 kilograms (kg) of heroin were confiscated, exploited for intelligence, and destroyed. In addition to heroin, CTF-150 ships also confiscated and destroyed approximately 66,253 kg of hashish, and 64.4 kg of methamphetamines. According to Drug Enforcement Administration (DEA) estimates, approximately \$67.4M in revenue was denied DTOs and their associated insurgent and extremist partners as a result of the combined heroin, hashish, and meth seizures. Heroin accounts for roughly \$32M of the total; hashish \$33.7M; and methamphetamine \$1.7M.

¹ Established in response to OUSD (P&R) Memorandum, "Well-Being of the Force Indicators," dated 3 March 2008. Goals were set at values substantially lower than what was reported in DoD Surveys of Health Related Behavior Among Military Personnel.

Measure 2: Afghanistan Special Mission Wing (SMW) Counterdrug Missions

This measure supports trend analysis and serves as a measure of SMW effectiveness. SMW performs several types of flight missions such as CD, counterterrorism, training, administrative, and maintenance. This measure is used by management to assess the level of CD operations and performance relevant to other SMW missions and activities. It is also used by management when considering annual program and budget requests. SMW-provided airlift enabled the seizure or destruction of 278,081 kilograms of narcotics, and 3,144 liters of precursor chemicals. According to DEA estimates, this equated to \$79.2M in denied revenue to DTOs and VEOs. Additionally, 39 persons were captured and another 24 neutralized.
