**B. Description of Operations Financed**

Funds the Department of War's Drug Interdiction and Counter-Drug Activities, Defense appropriation's four budget activities: Budget Activity 01) Counter-Narcotics Support, Budget Activity 02) Drug Demand Reduction Program, Budget Activity 03) National Guard Counter-Drug Program, and Budget Activity 04) National Guard Counter-Drug Schools.

Counter-Narcotics Support budget activities includes activities such as detection and monitoring, intelligence analysis, and small-scale construction aimed at the national priority to identify, disrupt, and degrade those transnational criminal networks that pose the greatest threats to U.S. national security.

Drug Demand Reduction Program budget activities include prevention, education, and outreach to ensure the dangers of drug abuse and misuse within the Department of War are understood, prevented, identified, and treated to keep the fighting force at the highest levels of readiness.

National Guard Counter-Drug Program budget activities support State National Guard assistance to Federal, State, tribal, and local law enforcement agencies, and community-based organizations in efforts to disrupt and degrade illicit drug production and trafficking within the United States.

National Guard Counter-Drug Schools budget activities fund the operation of five National Guard Counter-Drug schools which provide Counter-Drug and related counter transnational organized crime courses of instruction to Federal, State, local, and community-based organizations from the 50 states, four territories, and the District of Columbia.

The funds are appropriated to the Department's Central Transfer Account titled "Drug Interdiction and Counter-Drug Activities, Defense". The Central Transfer Account provides for centralized budgeting and oversight while allowing funds to be executed across the entire range of Department of War Military Departments,

Combatant Commands, and Combat Support Agencies. The account plays a critical role in strengthening the Department's commitment to securing the nation's borders and aligning with Federal partners to defend our territorial integrity. Through strategic support and joint operations, it helps repel and disrupt the flow of illicit drugs threatening the Homeland and undermining regional stability.

Under the authority contained in Section 1022 of the FY2004 National Defense Authorization Act, as amended, Department of War components funded by the Central Transfer Account may also, under certain conditions, support other departments and agencies working to counter terrorism and transnational organized crime without a nexus to drug trafficking. Although activities conducted under Section 1022 represent a small part of the Department's overall Counter-Drug effort, this authority is used to enable significant effects against the operations and finances of terrorists and transnational organized crime groups that threaten the national security of the United States.

### **C. Global Threats and Trends**

The National Defense Strategy directs the Department of War to defend the Homeland, including by sealing our borders and repelling forms of invasion including narcotics trafficking. The Department of War Counter-Drug activities implement Executive Orders 14157 ("Designating Cartels and Other Organizations as Foreign Terrorist Organizations and Specially Designated Global Terrorists") and 14167 ("Clarifying the Military's Role in Protecting the Territorial Integrity of the United States"). Drug trafficking, transnational organized crime (to include criminal groups designated as Foreign Terrorist Organizations), and other illicit threat networks continue to pose a serious and persistent threat to the security, health, and safety of the American people. Illicit threat networks include terrorists, criminals, proliferators, and adversary states that present unprecedented asymmetrical threats to U.S. interests at home and abroad. Only through a unified effort with interagency and foreign partners can we address these complex challenges.

According to provisional data from the Centers for Disease Control and Prevention National Center for Health Statistics as of March 2026, predicted drug overdose deaths in the United States have continued their significant downward trend. For the 12-month period ending in October 2025, the Centers for Disease Control and Prevention latest Vital Statistics Rapid Release (published March 11, 2026) predict approximately 71,542 overdose deaths, a decline of 17.1% compared to the previous year. This follows an even sharper drop in 2024, which saw a record 24% annual decline (totaling roughly 79,384 deaths), marking a definitive shift after two decades of rising fatalities. While synthetic opioids—primarily fentanyl—and psychostimulants like methamphetamines remain the leading drivers of these trends, deaths involving synthetic opioids saw their first major sustained decrease during this period. Health officials attribute the "unprecedented" progress to expanded naloxone distribution, better access to medication-assisted treatment, and evolving shifts in the illicit drug supply.

The Sinaloa Cartel and Jalisco New Generation Cartel, now designated as Foreign Terrorist Organizations, are the primary groups producing illicit synthetic drugs and trafficking these drugs into the United States. These and other cartels produce illicit drugs in clandestine laboratories in Mexico using precursor chemicals and pill presses sourced from companies in China and India. Much of the fentanyl is pressed into pills resembling legitimate medication and sold to customers in the United States through social media platforms and messaging applications. These cartels rely on business relationships with drug trafficking organizations in the United States that handle the distribution and sale of drugs, and with Chinese money laundering networks to move drug money quickly and consistently from the United States to Mexico. The cartels not only fuel the drug poisoning deaths in the United States but also commit egregious acts of violence, threatening the security and stability of our partners across the Western Hemisphere.

**Department of War  
Fiscal Year (FY) 2027 Budget Estimates  
Drug Interdiction and Counter-Drug Activities, Defense  
Introductory Statement (Appropriation Highlights)**

China's semi-permissive legal environment allows it to remain a global hub of illicit activities. Specifically, China's role in permitting or enabling drug trafficking and illicit activities, including economic crimes, money laundering, illicit drug trafficking, wildlife trafficking, trafficking in natural resources, and the illicit procurement of sensitive technologies, has only grown in recent years. China has also proven adept at exploiting the instability and insecurity created by transnational organized crime as it seeks to increase its influence around the world. India's role as a source for precursor chemicals has grown in recent years as criminal networks exploit India's underregulated chemical industry. Iran and its affiliated networks blend state, economic, criminal, and cyber means to achieve its national objectives. Russian and other Eurasian transnational criminal organizations continue to thrive within and outside their borders, including in the United States. The Russian government has shown a capacity and willingness to use criminal means to achieve Russia's global objectives.

Terrorist organizations and violent extremist organizations remain a threat to U.S. national security. Terrorists such as Hezbollah, Islamic State of Iraq and Syria, al-Shabaab, and al-Qaeda-affiliated groups such as Jama'at Nusrat al-Islam wal-Muslimin in the Sahel often engage in criminal activities to fund their attacks, leverage criminal facilitators to move weapons and people, and navigate the global financial system using the same methodologies as transnational criminal organizations such as money laundering and informal value transfers.

Given the significant responsibilities of our military service members and civilian personnel, deterring and detecting drug abuse, and ensuring a drug-free workplace are essential to maintaining Department of War readiness. As illegal and prescription drugs have become increasingly available within our communities and more states legalize marijuana, a top Department priority is to resource responsive and effective deterrence programs to prevent illegal drug use and prescription drug misuse by the workforce.

#### **D. Strategic Objectives**

The Department's statutory mission to detect and monitor aerial and maritime transit of illicit drugs toward the United States remains a priority. By performing this mission, the Department of War helps secure the homeland by deterring, disrupting, and degrading potential threats before they reach the United States. This includes supporting interagency and international efforts to target transnational criminal organizations at their source and building international partnerships to prevent transnational threat networks from undermining regional stability and threatening U.S. interests. The priorities identified below address a range of functional and regional threats, including longstanding challenges posed by illicit drug trafficking, other forms of transnational organized crime, and transnational terrorism financed by illicit means. For some activities, depending on the nature of the activity and the authority used, the Department of War may have a lead or supporting role. The goal of the Department of War Counter-Drug program is to disrupt and degrade the production and trafficking of illicit drugs and precursors, with a primary focus on defending the U.S. southern border and maritime approaches. Counter-Drug funded components should use the following priorities as a guide when developing and executing operations, activities, and investments.

- Enhance the effectiveness, operational flexibility, and agility of the detection and monitoring mission, with a focus on a) acquiring innovative, scalable platforms and cross-cutting capabilities leading to immediate interdiction; b) leveraging the Department's network of enduring and contingency locations in the Western Hemisphere to support multiple homeland defense missions; and c) integrating with other United States Government Counter-Drug assets/architecture/operations to close seams among Combatant Command in the maritime approaches to the United States.

Introductory Statement (Appropriation Highlights)**

- Disrupt[1] and degrade[2] the operational capacity of cartels, foreign terrorist organizations, and transnational criminal organizations, with a focus on supporting Homeland Security Task Forces.
- Target illicit synthetic drug supply chains from China, India, or other countries that are responsible for the flow of precursor chemicals, new psychoactive substances, pill presses, counterfeit dies, and other equipment used in the manufacturing of dangerous opioids, methamphetamines, and counterfeit pills into the Western Hemisphere.
- Target foreign terrorist organizations and transnational criminal organizations financial networks, with a focus on networks exploiting the global financial system utilizing trade and service-based money laundering, false invoicing, and the use of crypto currency, Hawalas, and the Chinese Underground Banking System.
- Support increased burden sharing by focusing support on partner nation law enforcement and security forces that collaborate with U.S. law enforcement (e.g. Sensitive Investigative Units and Transnational Criminal Investigative Units), with an emphasis on security forces actively contributing to counter-cartel and foreign terrorist organization efforts.
- Support efforts to disrupt and degrade the global networks of Western Hemisphere-based drug cartels and foreign terrorist organizations in Europe, Africa, and Asia, as well as priority transnational criminal organizations based in those regions.
- Support efforts—to include enabling maritime interdiction—that disrupt and degrade terrorist funding and supply chains, with a focus on al-Shabaab, Al-Qaeda and its affiliates, Islamic State of Iraq and Syria and its affiliates, the Haqqani network, and Iran-affiliated organizations.

These priorities support the Administration’s Drug Policy Priorities, the National Defense Strategy, and Department of War key responsibilities: protect the homeland and guarantee the security of the nation’s citizens and territory; enable United States interagency counterparts; and prioritize assistance to partners who are aligned with United States interests.

[1] Temporarily interrupt or reduce the effectiveness or efficiency of an illicit network or activity e.g., the bulk transportation of illicit drugs or other contraband, chemical precursors, the financial proceeds of illicit trade, the detention, arrest, or seizure of suspects and evidentiary items.

[2] Temporarily reduce the effectiveness or efficiency of drug trafficking and transnational criminal organizations systems, efforts, or means. Drug trafficking and transnational criminal organizations are unable to function as a global organization and regress into groups whose expansion is held in check by local and regional security forces, law enforcement, or other element of national power.

Introductory Statement (Appropriation Highlights)**

**E. Drug Interdiction and Counter-Drug Activities, Defense Appropriation and Program Management Background**

Since Fiscal Year 1989, the Department of War Drug Interdiction and Counter-Drug Activities, Defense appropriation has been the principal means to finance the Department's Counter-Drug and Drug Demand Reduction activities. The funds are appropriated to the Department's Counter-Drug Central Transfer Account, which provides for centralized budgeting and oversight while allowing funds to be executed across the entire range of the Department of War Counter-Drug funded components.

In accordance with 31 U.S.C. §1105(a)(26) and 21 U.S.C. §1703(c), this budget justification describes and provides a consolidated view of Department of War contributions to the National Drug Control Strategy and various Executive Orders executed under this appropriation.

The Deputy Assistant Secretary of War for Counternarcotics and Stabilization Policy, with the oversight of the Assistant Secretary of War for Special Operations and Low-Intensity Conflict, and with direction from the Under Secretary of War for Policy, provides policy guidance and oversight, resource allocation, and program assessment functions for the Department's Counter-Drug, Counter Transnational Organized Crime[3], and Counter Threat Finance[4] activities.

This portfolio includes resources budgeted under Budget Activity 01, Counter-Narcotics Support; Budget Activity 03, National Guard Counter-Drug Program; and Budget Activity 04, National Guard Counter-Drug Schools Program.

For the Drug Demand Reduction Program, the Office of Drug Demand Reduction, by direction of the Executive Director for Force Resiliency, and with oversight by the Under Secretary of War for Personnel and Readiness, provides policy oversight and guidance, resource allocation, and reviews and monitors the Combatant Commands, Military Departments, and Combat Support Agencies program execution and effectiveness. Drug Demand Reduction programs are mandated by Executive Order 12564, 10 U.S.C. §978, other guidance contained in Department of War Directives and Instructions, and the Federal Register. This portfolio includes resources budgeted under Budget Activity 02, Drug Demand Reduction Program.

Resources requested within Budget Activities 01, 03, and 04 of the Drug Interdiction and Counter-Drug Activities appropriation are aligned to priorities detailed in Executive Order 14157 "Designating Cartels And Other Organizations As Foreign Terrorist Organizations And Specially Designated Global Terrorists," Executive Order 14159 "Protecting the American People Against Invasion," Executive Order, 14167, "Clarifying the Military's Role in Protecting the Territorial Integrity of the United States," the National Defense Strategy, and other national-level strategy and guidance documents.

These resources also support requirements presented by the Combatant Commands, Military Departments, and Combat Support Agencies. The Deputy Assistant Secretary of War for Counternarcotics and Stabilization Policy validates requirements on a recurrent basis via an annual planning, programming, and budgeting process. Each program is reviewed and evaluated to ensure alignment with the evolving threat environment, Administration priorities, the Department's strategic objectives, Combatant Commands mission requirements, adherence to legislative authorities, and policy guidance.

**Personnel Summary Explanations**

Active Military Strength reflects manpower support to Counter-Narcotics Support program and the Drug Demand Reduction program, funded by the Military Departments.

Estimates represent Reservists, Civilians, and Contractors who are funded annually from the Drug Interdiction and Counter-Drug Activities, Defense appropriation, a Central Transfer Account, to the Military Departments and Defense Agencies.

Civilian net increase of +5 FTEs due to positions being coded as exempt for the FY 2026 Efficiency - Workforce Optimization initiative. This initiative reduces civilian personnel full-time equivalents and funding to optimize the workforce in compliance with Executive Order 14210, "Implementing the President's Department of Government Efficiency Workforce Optimization Initiative."

**IV. Performance Criteria and Evaluation Summary:**

The Department of War supports the nation's Counterdrug and Counter Transnational Organized Crime efforts as the lead for the detection and monitoring of aerial and maritime drug threats bound for the United States, supporting U.S. law enforcement partners through planning, intelligence analysis, linguistic support, threat finance intelligence, and other activities per 10 U.S.C 284(b). Support to foreign law enforcement may include small-scale construction, linguistic support and transportation support.

Measures of performance assigned to these activities are used by decision makers to observe progress and measure actual results in comparison to expected results and operational objectives; guide the allocation of counterdrug and counter transnational organized crime budgetary resources during the annual planning, programming, budgeting, and execution process; provide management and oversight of Department of War counterdrug and countering transnational organized crime programs; and facilitate communications and engagements with internal and external stakeholders.

The National Drug Control Budget, published by the Office of National Drug Control Policy, is assembled by agency Budget Decision Unit. The Fiscal Year 2027 Department of War Drug Interdiction and Counter-Drug Activities, Defense budget request supports one Budget Decision Unit, titled *Drug Interdiction and Counterdrug Activities*. Information regarding measures of performance that are compiled and monitored by the Deputy Assistant Secretary of War for Counternarcotics and Stabilization Policy, but *not* funded by this appropriation (Military Services Operations Tempo), may be found in the Office of National Drug Control Policy National Drug Control Budget. Selected Fiscal Year 2025 qualitative and quantitative program performance results are provided in the following table, and accompanying narrative, to communicate Department of War's continued progress toward achieving operational objectives in support of the National Drug Control Program. These measures, including data sources, goals, and results are subject to a Department of War Inspector General Attestation Review at least once every three years to ensure quality standards are reliability.

**Selected Measures of FY 2025 Performance**

**Budget Decision Unit 1 – Drug Interdiction and Counterdrug Activities**

Goal: The supply of illicit substances into the United States is reduced.

	<b><u>FY 2025 Target</u></b>	<b><u>FY 2025 Achieved</u></b>
Measure 1: Narcotics and Transnational Crime Support Center support to Interagency Priority Cases	49 cases	57 cases
Measure 2: Percentage of Detected Events Successfully Handed-off to Interdiction and Apprehension Resources	80%	79%

**Measure 1: Narcotics and Transnational Crime Support Center support to Interagency Priority Cases.**

The Department of War counterdrug Enterprise-Wide Intelligence programs broadly support and enhance the capabilities of the Department of War components in performing counterdrug, counter transnational organized crime, and counter threat finance missions to help U.S. and international law enforcement partners deter, disrupt, and defeat global drug-trafficking, illicit finance, transnational crime, and terrorist activities. The Narcotics and Transnational Crime Support Center facilitates tailored analytical support to law enforcement, interagency and Department of War efforts to address transnational organized crime issues by providing intelligence analysis support, as requested, to active cases and operations.

**Department of War**  
**Fiscal Year (FY) 2027 Budget Estimates**  
**Drug Interdiction and Counter-Drug Activities, Defense**  
**Detail by Subactivity Group 1FU1, Counter-Narcotics Support**

In Fiscal Year (FY) 2025, the Narcotics and Transnational Crime Support Center supported 57 high-priority operations, exceeding its target of 49 by 14%. Notably, 128 of 152, or 84%, of Narcotics and Transnational Crime Support Centers total supported operations were focused against Administration priorities and Executive Orders including Mexican Cartels designated as Foreign Terrorist Organization and Specially Designated Global Terrorist to include illicit drug supply chains and illicit financing. Through increased outreach with select law enforcement agencies, the Narcotics and Transnational Crime Support Center increased its support to new Homeland Security Task Force designated cases from 0 in FY 2024 to 12 in FY 2025. These Homeland Security Task Force cases supplant former Homeland Security Investigations HOMECORT and Homeland Security Investigations Strategic Network Dismantlement Project cases, as well as subsume many Organized Crime Drug Enforcement Task Forces designations.

**Measure 2: Percent of Detected Events Successfully Handed-off to Interdiction and Apprehension Resources**

Percentage of Western Hemisphere illicit trafficking events, as estimated by interagency and international intelligence activities, detected and successfully handed-off to interdiction and apprehension arrests by Joint Interagency Task Force-South. A successful hand-off is defined as positive communications with Interdiction and Apprehension resources providing cueing about a drug trafficking target.

In FY 2025, Joint Interagency Task Force-South's detection and monitoring efforts led to the seizure of over 450 metric tons of cocaine while also remanding 219 traffickers to Department of Justice custody. Performance measure results indicate a high level of efficiency and effectiveness in command and control, with nearly 80% of detected events successfully handed off to interdiction resources. While slightly shy of its 80% (79%) performance target for FY 2025, Joint Interagency Task Force-South demonstrated a considerable improvement over the 70% achieved in FY 2024. To improve performance, Joint Interagency Task Force-South focused on enhancing internal processes for more rapid information sharing with partners and leveraging innovative technologies to optimize detection capabilities. The strategic deployment of U.S. Government assets such as maritime patrol aircraft to the Galapagos Islands, as well as a late Fiscal Year surge in U.S. Coast Guard and U.S. Navy assets, also helped contribute to positive performance this year.

**Personnel Summary Explanations:**

Active Military Strength reflects manpower support to Counter-Narcotics Support program, funded by the Military Departments.

Estimates represent Reservists, Civilians, and Contractors who are funded annually from the Drug Interdiction and Counter-Drug Activities, Defense appropriation, a Central Transfer Account, to the Military Departments and Defense Agencies.

Civilian net increase of +5 FTEs due to positions being coded as exempt for the FY 2026 Efficiency - Workforce Optimization initiative. This initiative reduces civilian personnel full-time equivalents and funding to optimize the workforce in compliance with Executive Order 14210, "Implementing the President's Department of Government Efficiency Workforce Optimization Initiative."

**I. Description of Operations Financed:**

The Drug Demand Reduction budget activity funds programs to ensure the dangers of drug abuse and misuse within the Department of War are understood, prevented, identified, and treated to keep the fighting force at the highest levels of readiness. Prevention, education, and outreach programs focus on Department of War's military and civilian communities designed to raise awareness of the adverse consequences of illicit drug use and prescription drug misuse on job performance, safety, health, family stability, fiscal security, and employment opportunities. Programs include illicit drug awareness and life-skills training for Service members and their families with a focus on maintaining readiness by ensuring a drug free workforce and workplace. Outreach services include programs to assist military and civilian employees in locating Department of War and local civilian agency resources to address substance abuse, dependency, or addiction. In addition to prevention and outreach efforts, this budget activity funds personnel, supplies, and materials that support installation level random drug testing specimen collection for all military service members, civilian personnel in testing designated positions, and pre-employment testing for applicants for military and civilian service. The Department of War operates five forensic drug testing laboratories (U.S. Army, Fort Meade, MD; U.S. Army, Tripler AMC, HI; U.S. Navy, Great Lakes IL; U.S. Navy, Jacksonville, FL; and U.S. Air Force, Lackland, TX). These laboratories conduct urinalysis testing for the presence of illegal drugs, novel synthetic drugs, and unauthorized prescription medications listed in the Department of War drug test panel. Funding supports laboratory personnel costs and overhead expenses related to test reagents, disposable supplies, and support services. The Fort Meade forensic testing laboratory is certified by the Substance Abuse and Mental Health Services Administration to analyze specimens from Department of War Agency civilians and civilian applicants in testing designated positions under the Drug-Free Workplace Program. The Great Lakes, IL forensic testing laboratory processes urinalysis samples for all military applicants from 65 Military Entrance Processing Stations worldwide. The Lackland, TX forensic testing laboratory processes the majority of National Guard Bureau Service member specimens.

**IV. Performance Criteria and Evaluation Summary:**

The Department of War Drug Demand Reduction Program enables operational readiness and safety of the Total Force by deterring drug abuse through random drug testing; surveillance of emerging drug threats; prevention, education, and outreach efforts.

Measures of performance assigned to these activities are used by decision makers to: observe progress and measure actual results in comparison to expected results and operational objectives; guide the allocation of counterdrug and counter transnational organized crime budgetary resources during the annual planning, programming, budgeting, and execution process; provide management and oversight of Department of War counterdrug and countering transnational organized crime programs; and facilitate communications and engagements with internal and external stakeholders.

The National Drug Control Budget, published by the Office of National Drug Control Policy, is assembled by agency Budget Decision Units. The FY 2027 Department of War Drug Interdiction and Counter-Drug Activities, Defense budget request supports one Budget Decision Unit, titled *Drug Interdiction and Counterdrug Activities*. Information regarding measures of performance that are compiled and monitored by the Under Secretary of War for Personnel and Readiness, may be found in the Office of National Drug Control Policy National Drug Control Budget. Selected examples of FY 2025 qualitative and quantitative program performance results are provided in the following table, and accompanying narrative, to communicate Department of War's continued progress toward achieving operational objectives in support of the National Drug Control Program. These measures, including data sources, goals, and results are subject to a Department of War Inspector General Attestation Review at least once every three-years to ensure quality standards and reliability.

**Measure 1: Department of War military personnel testing positive for drug use.**

The Department of War's Drug Demand Reduction Program was mandated in 1981 and given the mission to deter Department of War personnel from abusing illicit drugs or misusing prescription drugs. The program components include compulsory random drug testing with punitive consequences and anti-drug education and outreach programs. The effectiveness of this program is measured by monitoring the prevalence of drug use from drug testing statistics published annually with a 2% or less urine drug positive rate for military personnel and to ensure 100% urine drug testing of every Service member is conducted annually. These goals were established as Well-Being of the Force Indicators in 2008 [1]. An additional source of determining the effectiveness of the Drug Demand Reduction Program is the Department of War Survey of Health-Related Behaviors. The Department of War survey is conducted every three years as an additional measure of effectiveness because it is independent from the drug testing program. The specific metric from the survey monitored is self-reported use of illicit drugs and misuse of prescription drugs within the past 30 days.

In Fiscal Year 2025 the percent of military personnel testing positive for drug use was 1.43%, 0.57% below the goal of 2% with a random testing rate of 176%.

**Measure 2: Department of War civilian personnel testing positive for drug use.**

The Department of War is on track to keep the illicit drug positive rate below 1% for civilian personnel, despite the Department expanding the drug testing panel to include commonly abused prescription drugs and synthetic marijuana (also known as Spice). Given the success of Department of War's civilian drug testing program, the random testing rate for civilians in testing-designated positions will be 50% of the workforce per year.

In Fiscal Year 2025 the percent of civilian personnel testing positive for drug use was 0.55%, 0.45% below the goal of 1% with a random testing rate of 53%.

**IV. Performance Criteria and Evaluation Summary:**

32 U.S.C. § 112, National Guard, Drug Interdiction and Counter-Drug Activities authorized the Department of War to provide support to United States law enforcement agencies (Federal, State, Local, Tribal, and Coalition-Based Organizations), to detect and disrupt drug trafficking and other illicit threat network activities. Key Performance Indicator: The Department of War National Guard Counter-Drug Programs support to the High Intensity Drug Trafficking Area programs is a highlight/point of interest for The Office of National Drug Control Policy and Congress. The program provides active analytical support to the 33 regional High Intensity Drug Trafficking Areas enabling a persistent support mechanism for U.S. law enforcement partners to target, deter and disrupt illicit actors. Beginning in 2023 the Department of War initiated two new performance metrics to track National Guard support to the High Intensity Drug Trafficking Areas. The first metric measures the overall number of High Intensity Drug Trafficking Area missions supported and the second tracks the number of National Guard supported High Intensity Drug Trafficking Area-centric drug seizures conducted.

**Measures of Performance**

	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>
National Guard Support to High Intensity Drug Trafficking Area Missions	1,088	1,701	1,701
National Guard Support to High Intensity Drug Trafficking Area-centric Drug Seizures	1,013	1,574	1,574

From FY 2024 to FY 2025, the number of National Guard State-Level support to National Guard Support to High Intensity Drug Trafficking Area missions increased by 56%. This growth is attributed to several factors, including improved data entry processes, increased program funding realized late in FY 2024 and sustained into FY 2025, and the inclusion of the Drug Demand Reduction mission. As a supporting entity, the National Guard's involvement in National Guard Support to High Intensity Drug Trafficking Area missions remains contingent on National Guard Support to High Intensity Drug Trafficking Area requirements. The National Guard Bureau will continue to prioritize support for National Guard Support to High Intensity Drug Trafficking Areas through enhanced national-level engagement, regional coordination, and updated State Plans guidance. Additionally, National Guard Support Leading to Drug Seizures increased by 55% from FY 2024 to FY 2025. This rise in seizure activity is primarily due to improved data entry processes and increased mission support. The reporting does not specify seizure quantities or the total number of incidents. Moving forward, the National Guard Bureau will continue to enhance database management practices to best quantify the contributions of National Guard counterdrug support to the National Guard Support to High Intensity Drug Trafficking Areas.

32 United States Code, Section 112, paragraph e: "e) End Strength Limitation.-(1) Except as provided in paragraph (2), at the end of a fiscal year there may not be more than 4,000 members of the National Guard". The National Guard allocation of the 4,000 members is 3,750 members to the National Guard Counter-Drug Program and 250 members to the National Guard Counter-Drug Schools. Historically, funding has been provided by a Congressional add.

**I. Description of Operations Financed:**

The National Guard Counter-Drug Schools budget activity funds the operation of five National Guard Counterdrug Schools as authorized by §901 of the Office of National Drug Control Policy Reauthorization Act of 2006, as amended, and as identified in plans submitted by host State Governors to the Secretary of War in accordance with 32 USC §112(c). The five schools supported by the program are: 1) Midwest Counterdrug Training Center at Camp Dodge, IA; 2) Multijurisdictional Counterdrug Task Force Training program at Camp Blanding, FL; 3) Northeast Counterdrug Training Center at Fort Indiantown Gap, PA; 4) Regional Counterdrug Training Academy at Naval Air Station Meridian, MS and; 5) Western Regional Counterdrug Training Center at Camp Murray, WA. The schools leverage existing Department of War infrastructure and capacity to provide no-cost counterdrug training to Federal, State, Local, and Tribal Law Enforcement agencies, as well as community-based organizations and military personnel to build U.S. partner capabilities and capacities to conduct enhanced operations against illicit drug trafficking networks, cartels, and transnational criminal organizations that threaten U.S. national security interest and the public safety of U.S. citizens. Funds support reserve military pay for Army and Air National Guard personnel, supplies, maintenance, and other administrative costs.

**Ex. Ord. No. 12564. Drug-Free Federal Workplace**

Ex. Ord. No. 12564, Sept. 15, 1986, 51 F.R. 32889, provided:

I, RONALD REAGAN, President of the United States of America, find that:

Drug use is having serious adverse effects upon a significant proportion of the national work force and results in billions of dollars of lost productivity each year;

The Federal government, as an employer, is concerned with the well-being of its employees, the successful accomplishment of agency missions, and the need to maintain employee productivity;

The Federal government, as the largest employer in the Nation, can and should show the way towards achieving drug-free workplaces through a program designed to offer drug users a helping hand and, at the same time, demonstrating to drug users and potential drug users that drugs will not be tolerated in the Federal workplace;

The profits from illegal drugs provide the single greatest source of income for organized crime, fuel violent street crime, and otherwise contribute to the breakdown of our society;

The use of illegal drugs, on or off duty, by Federal employees is inconsistent not only with the law-abiding behavior expected of all citizens, but also with the special trust placed in such employees as servants of the public;

Federal employees who use illegal drugs, on or off duty, tend to be less productive, less reliable, and prone to greater absenteeism than their fellow employees who do not use illegal drugs;

The use of illegal drugs, on or off duty, by Federal employees impairs the efficiency of Federal departments and agencies, undermines public confidence in them, and makes it more difficult for other employees who do not use illegal drugs to perform their jobs effectively. The use of illegal drugs, on or off duty, by Federal employees also can pose a serious health and safety threat to members of the public and to other Federal employees;

**Fiscal Year (FY) 2027 Budget Estimates**  
**Drug Interdiction and Counter-Drug Activities, Defense**  
**Exhibit PB-44 Authorities**  
**5 U.S.C. §7301: Presidential Regulations**

The use of illegal drugs, on or off duty, by Federal employees in certain positions evidences less than the complete reliability, stability, and good judgment that is consistent with access to sensitive information and creates the possibility of coercion, influence, and irresponsible action under pressure that may pose a serious risk to national security, the public safety, and the effective enforcement of the law; and

Federal employees who use illegal drugs must themselves be primarily responsible for changing their behavior and, if necessary, begin the process of rehabilitating themselves.

By the authority vested in me as President by the Constitution and laws of the United States of America, including section 3301(2) of Title 5 of the United States Code, section 7301 of Title 5 of the United States Code, section 290ee-1 of Title 42 of the United States Code, deeming such action in the best interests of national security, public health and safety, law enforcement and the efficiency of the Federal service, and in order to establish standards and procedures to ensure fairness in achieving a drug-free Federal workplace and to protect the privacy of Federal employees, it is hereby ordered as follows:

Section 1. *Drug-Free Workplace.* (a) Federal employees are required to refrain from the use of illegal drugs.

(b) The use of illegal drugs by Federal employees, whether on duty or off duty, is contrary to the efficiency of the service.

(c) Persons who use illegal drugs are not suitable for Federal employment.

Sec. 2. *Agency Responsibilities.* (a) The head of each Executive agency shall develop a plan for achieving the objective of a drug-free workplace with due consideration of the rights of the government, the employee, and the general public.

(b) Each agency plan shall include:

(1) A statement of policy setting forth the agency's expectations regarding drug use and the action to be anticipated in response to identified drug use;

(2) Employee Assistance Programs emphasizing high level direction, education, counseling, referral to rehabilitation, and coordination with available community resources;

(3) Supervisory training to assist in identifying and addressing illegal drug use by agency employees;

(4) Provision for self-referrals as well as supervisory referrals to treatment with maximum respect for individual confidentiality consistent with safety and security issues; and

(5) Provision for identifying illegal drug users, including testing on a controlled and carefully monitored basis in accordance with this Order.

Sec. 3. *Drug Testing Programs.* (a) The head of each Executive agency shall establish a program to test for the use of illegal drugs by employees in sensitive positions. The extent to which such employees are tested and the criteria for such testing shall be determined by the head of each agency, based upon the nature of the agency's mission and its employees' duties, the efficient use of agency resources, and the danger to the public health and safety or national security that could result from the failure of an employee adequately to discharge his or her position.

(b) The head of each Executive agency shall establish a program for voluntary employee drug testing.

(c) In addition to the testing authorized in subsections (a) and (b) of this section, the head of each Executive agency is authorized to test an employee for illegal drug use under the following circumstances:

(1) When there is a reasonable suspicion that any employee uses illegal drugs;

(2) In an examination authorized by the agency regarding an accident or unsafe practice; or

(3) As part of or as a follow-up to counseling or rehabilitation for illegal drug use through an Employee Assistance Program.

(d) The head of each Executive agency is authorized to test any applicant for illegal drug use.

Sec. 4. *Drug Testing Procedures.* (a) Sixty days prior to the implementation of a drug testing program pursuant to this Order, agencies shall notify employees that testing for use of illegal drugs is to be conducted and that they may seek counseling and rehabilitation and inform them of the procedures for obtaining such

assistance through the agency's Employee Assistance Program. Agency drug testing programs already ongoing are exempted from the 60-day notice requirement. Agencies may take action under section 3(c) of this Order without reference to the 60-day notice period.

(b) Before conducting a drug test, the agency shall inform the employee to be tested of the opportunity to submit medical documentation that may support a legitimate use for a specific drug.

(c) Drug testing programs shall contain procedures for timely submission of requests for retention of records and specimens; procedures for retesting; and procedures, consistent with applicable law, to protect the confidentiality of test results and related medical and rehabilitation records. Procedures for providing urine specimens must allow individual privacy, unless the agency has reason to believe that a particular individual may alter or substitute the specimen to be provided.

(d) The Secretary of Health and Human Services is authorized to promulgate scientific and technical guidelines for drug testing programs, and agencies shall conduct their drug testing programs in accordance with these guidelines once promulgated.

*Sec. 5. Personnel Actions.* (a) Agencies shall, in addition to any appropriate personnel actions, refer any employee who is found to use illegal drugs to an Employee Assistance Program for assessment, counseling, and referral for treatment or rehabilitation as appropriate.

(b) Agencies shall initiate action to discipline any employee who is found to use illegal drugs, *provided that* such action is not required for an employee who:

(1) Voluntarily identifies himself as a user of illegal drugs or who volunteers for drug testing pursuant to section 3(b) of this Order, prior to being identified through other means;

(2) Obtains counseling or rehabilitation through an Employee Assistance Program; and

(3) Thereafter refrains from using illegal drugs.

(c) Agencies shall not allow any employee to remain on duty in a sensitive position who is found to use illegal drugs, prior to successful completion of rehabilitation through an Employee Assistance Program. However, as part of a rehabilitation or counseling program, the head of an Executive agency may, in his or her discretion, allow an employee to return to duty in a sensitive position if it is determined that this action would not pose a danger to public health or safety or the national security.

(d) Agencies shall initiate action to remove from the service any employee who is found to use illegal drugs and: (1) Refuses to obtain counseling or rehabilitation through an Employee Assistance Program; or

(2) Does not thereafter refrain from using illegal drugs.

(e) The results of a drug test and information developed by the agency in the course of the drug testing of the employee may be considered in processing any adverse action against the employee or for other administrative purposes. Preliminary test results may not be used in an administrative proceeding unless they are confirmed by a second analysis of the same sample or unless the employee confirms the accuracy of the initial test by admitting the use of illegal drugs.

(f) The determination of an agency that an employee uses illegal drugs can be made on the basis of any appropriate evidence, including direct observation, a criminal conviction, administrative inquiry, or the results of an authorized testing program. Positive drug test results may be rebutted by other evidence that an employee has not used illegal drugs.

(g) Any action to discipline an employee who is using illegal drugs (including removal from the service, if appropriate) shall be taken in compliance with otherwise applicable procedures, including the Civil Service Reform Act [Pub. L. 95-454, see Tables for classification].

(h) Drug testing shall not be conducted pursuant to this Order for the purpose of gathering evidence for use in criminal proceedings. Agencies are not required to report to the Attorney General for investigation or prosecution any information, allegation, or evidence relating to violations of Title 21 of the United States Code received as a result of the operation of drug testing programs established pursuant to this Order.

*Sec. 6. Coordination of Agency Programs.* (a) The Director of the Office of Personnel Management shall:

(5) In cooperation with the Secretary of Health and Human Services and heads of Executive agencies, mount an intensive drug awareness campaign throughout the Federal work force.

(b) The Attorney General shall render legal advice regarding the implementation of this Order and shall be consulted with regard to all guidelines, regulations, and policies proposed to be adopted pursuant to this Order.

(c) Nothing in this Order shall be deemed to limit the authorities of the Director of Central Intelligence under the National Security Act of 1947, as amended [50 U.S.C. 3001 et seq.], or the statutory authorities of the National Security Agency or the Defense Intelligence Agency. Implementation of this Order within the Intelligence Community, as defined in Executive Order No. 12333 [50 U.S.C. 3001 note], shall be subject to the approval of the head of the affected agency.
