Requested Date of Congressional Approval: July 31, 2026

Military Construction, Navy and Marine Corps

Reprogramming Request

Installation: Various Worldwide Locations

Project: Data Processing Facility (P557)

Authorization: National Defense Authorization Act for Fiscal Year 2026,
Public Law 119-60

Project Description: Constructs an operational facility to accommodate program growth in the communications analysis systems that support the maritime undersea surveillance mission.

Estimated Cost (\$000):

Previously Appropriated	57,190
Previously Reprogrammed	0
Requested Reprogramming	12,808
Total Estimated Cost	69,998

Project Description: This project will construct an operational facility to accommodate program growth in the communications analysis systems that support the maritime undersea surveillance mission.

Justification: The requirement for additional funding due to cost escalations is primarily attributable to site access and a constrained labor market. Initial project estimates did not adequately capture the fiscal impact of the site's geographic isolation coupled with its specific security requirements. Consequently, logistical expenditures and the risk premiums associated with the secure transport of materials have significantly surpassed original funding allocations. The site's remote location and lack of local housing infrastructure compel contractors to offer significant wage premiums to attract and retain a qualified workforce. These compounding labor factors, in addition to the current deficit of skilled and security cleared technicians and construction professionals, have escalated costs well beyond the estimated requirements.

A 10 U.S.C. §2853 cost variation notification is not required.

Source of Funds: Savings from the following project will fund this requirement:

(Dollars in Thousands)

<u>Location/Project</u>	<u>Fiscal Year</u>	<u>Amount Appropriated</u>	<u>Current Working Estimate</u>	<u>Proposed Reprogramming</u>
Joint Region Marianas, Guam PDI/CTC: X-Ray Wharf Berth ^{1/}	2026	31,000	18,192	12,808
Total:				12,808

^{1/} \$103.8 million was appropriated for the X-Ray Wharf Berth project in FY 2022.
