

COMPTROLLER

UNDER SECRETARY OF WAR

1100 DEFENSE PENTAGON
WASHINGTON, DC 20301-1100

AUG 10 2001

The Honorable John Carter
Chairman
Subcommittee on Military Construction,
Veterans Affairs, and Related Agencies
Committee on Appropriations
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Chairman:

The purpose of this letter is to request committee approval of the proposed reprogramming of funds for the projects and amounts shown below. Detailed justification for the project is enclosed.

#	<u>Service/Agency/Installation</u>	<u>Project</u>	<u>Program</u>	<u>Request (\$)</u>
	<u>Army</u>			
1	Worldwide Unspecified	Design	2025	10,000,000
	<u>Air Force</u>			
2	Hanscom Air Force Base, MA	NC3 Acquisition Management Facility	2022	14,065,241

A similar letter is being sent to the Chair of the Senate Subcommittee on Military Construction, Veterans Affairs, and Related Agencies. Thank you for your continued support of Defense programs.

Sincerely,

Michael T. Powers
Acting

Requested Date of Congressional Action: September 15, 2026

Military Construction, Army Reserve

Reprogramming Request

Installation: Worldwide Unspecified

Project: Design

Authorization: National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2025,
Public Law (P.L.) 118-159

Estimated Cost (\$000):

Previously Appropriated	31,508
Previously Reprogrammed	0
Requested Reprogramming	10,000
Total Estimated Cost	41,508

Project Description: These design funds support parametric, concept, and final design phases for various major military construction projects. The United States Army Corps of Engineers Louisville District will execute this funding for design, architect-engineer contracts, and administrative support. Crucially, these resources enable the final review, advertisement, and advancement of projects to final design, and initiate outyear project designs.

Justification: This reprogramming request is essential to supporting Army Reserve design priorities. These funds are critical to advance parametric and conceptual designs for emergent, high-priority Army Reserve military construction projects. By maturing these early design phases, the Army Reserve gains validated cost estimates, refined project scope, and mitigates execution risks.

A 10 U.S.C. §2807 notification of cost increase for architectural and engineering services and construction design related to Army Reserve projects, dated August 3, 2026, was submitted to the congressional committees.

Source of Funds: Savings from the following projects will fund this requirement:

(Dollars in Thousands)

<u>Location/Project</u>	<u>Fiscal Year</u>	<u>Amount Appropriated</u>	<u>Current Working Estimate</u>	<u>Proposed Reprogramming</u>
Dobbins Air Reserve Base, GA Army Reserve Center	2025	78,000 ^{1/}	65,615 ^{2/}	10,000

^{1/} Authorized in the FY 2025 NDAA, Public Law 118-159, December 23, 2024, and funded in the Full-Year Continuing Appropriations and Extensions Act, 2025, Public Law 119-4, March 15, 2025.

^{2/} Project was awarded on September 19, 2025, for \$62,769,886 at the full scope of work and all options. A subsequent modification for the waterline and traffic circle increased the Current Working Estimate to \$65,615,008.

Requested Date of Congressional Action: September 10, 2026

Military Construction, Air Force

Reprogramming Request

Installation: Hanscom Air Force Base, MA

Project: NC3 Acquisitions Management Facility

Authorization: National Defense Authorization Act for Fiscal Year 2022 (P.L. 117-81)

Estimated Cost (\$000):

Previously Appropriated	66,000
Previously Reprogrammed	0
Requested Reprogramming	14,065
Total Estimated Cost	80,065

Project Description: This project constructs a new Acquisitions Management Facility and replaces the existing Central Shipping/Receiving and Hazardous Materials (HAZMAT) facilities. The Acquisitions facility will be a three-story building, while the new Central Shipping/Receiving facility will replace a single-story facility (B1110) and a two-story facility (B1152). The new single-story HAZMAT facility will replace B1729.

Justification: The cost increase is due to escalating costs for labor, materials, and equipment due to inflation, and the local construction market. A previous attempt to award the construction contract did not result in a contract due to costs above the appropriated amount.

Source of Funds: Savings from the following project will fund this requirement:

(Dollars in Thousands)

<u>Location/Project</u>	<u>Fiscal Year</u>	<u>Amount Appropriated</u>	<u>Current Working Estimate</u>	<u>Proposed Reprogramming</u>
Spangdahlem AFB, ERI: F/A-22 Low Observable/Composite Repair Facility	2022	22,625	0 ^{1/}	14,065
Total:				14,065

^{1/} A 10 U.S.C. §2853 cancellation notification was submitted to the congressional committees on July 1, 2026 (Att 2).
