CHAPTER 15

DEFENSE REVOLVING FUNDS ACCOUNTING REPORT
[ACCOUNTING REPORT (MONTHLY) 1307]

1.0 GENERAL

1.1 Purpose

This chapter prescribes the reporting requirements and policies to follow when preparing the Defense [Revolving Funds \(DRF\)](#) Accounting Report [Accounting Report (Monthly) 1307] (AR(M) 1307) and is applicable to all [Department of Defense \(DoD\) Revolving Funds](#).

1.2 Authoritative Guidance

The chapter addresses the basic internal reporting requirements identified in Title 10, United States Code, section 2208 ([10 U.S.C. § 2208](#)), which requires the Secretary of Defense, with respect to the [revolving](#) funds of each Defense Agency, and the Secretary of each military department, to provide for separate accounting, reporting, and auditing of funds and activities managed through the [revolving](#) funds.

2.0 REPORTING

2.1 Report Content

2.1.1. The [DRF](#) AR(M) 1307 consists of three principal internal accounting statements.

2.1.1.1. [Statement of Financial Position](#). The Statement of Financial Position discloses the reporting entity's assets, liabilities, and net position.

2.1.1.2. [Statement of Cash Flow](#). The Statement of Cash Flow discloses the reporting entity's cash flows from operations, adjustments, and appropriations and cash transfers with an explanation of the changes in cash or cash equivalents for the reporting period.

2.1.1.3. [Statement of Operations](#). The Statement of Operations discloses the results of the reporting entity's operations for the reporting period, including changes in the entity's net position from the end of the prior reporting period.

2.1.2. [Volume 1, Chapter 2, "Federal Accounting Standards Hierarchy"](#) contains the Federal Accounting Standards Advisory Board hierarchy of accounting principles and standards used to prepare the [DRF](#) AR(M) 1307.

2.1.3. [Volume 1, Chapter 4, "Standard Financial Information Structure"](#) contains guidance on the Standard Financial Information Structure that supports requirements for budgeting, financial accounting, cost/performance, [interoperability](#) and external reporting needs across the DoD.

* 2.1.4 [Volume 3, Chapter 19](#), "Defense Working Capital Fund" outlines the policies and procedures for managing budget execution for the DWCF and other revolving funds within the Department of Defense.

* 2.1.5. [Volume 11B, Chapter 3](#), "Defense Working Capital Fund – Budgetary Resources" outlines the definition of budgetary resources within the context of the DRF, including new budget authority, unobligated balances, reimbursements, and recoveries.

* 2.1.6. [Volume 11B, Chapter 11](#), "Reimbursements and Revenue Recognition – Defense Working Capital Funds" contains guidance on DRF reimbursement and revenue recognition, outlines the authorization and process for reimbursable obligations, the accounting treatment of offsetting collections and how funds are earned through the sale of goods and services.

2.1.7. The DRF AR(M) 1307 is the official internal management report document for financial accounting and is a source document for the annual financial statements. The [United States Standard General Ledger \(USSGL\)](#), on which the report is based, is updated at least annually and posted by the Bureau of the Fiscal Service (Fiscal Service). The DoD Standard [Chart of Accounts](#) provides normal account balance information. The DoD USSGL Transaction Library provides detailed general ledger transactions and posting business rules for accounting standardization that supports the preparation of financial statements.

2.1.8. The AR(M) 1307 is prepared based on the activity's proprietary trial balances. An exception is the inclusion of obligation data in some items in Part VI, "Capital Program," and Part VII, "Inventory Management Report - Supply Management Activity," of the Statement of Operations.

2.1.8.1. The AR(M) 1307 provides accounting and inventory data for financial reporting and identifies the proprietary position of DRF activities. The AR(M) 1307 complements information provided in the Standard Form [\(SF\) 133](#), Report on Budget Execution and Budgetary Resources, which is prepared by using the activity's budgetary trial balances. Although the AR(M) 1307 and SF 133 run independently of one another, they should reconcile at the summary level. Refer to Volume 3, Chapter 19 for additional guidance.

2.1.8.2. Use standard reconciliations, such as budgetary to proprietary relationships described in [Volume 1, Chapter 7](#), "Department of Defense Standard Chart of Accounts," to verify the integrity of reported data.

2.2 Reporting Requirement

2.2.1. [Applicability](#). Table 15-1 contains a listing of DRF financial reporting activities. Within Table 15-1, an asterisk (*) symbol indicates the lowest level for which individual AR(M) 1307 reports are required. DRF activities may generate the AR(M) 1307 at different levels to manage their business effectively. Table 15-1 identifies the levels for which consolidated AR(M) 1307 reports are required with a pound (#) symbol. Each DoD Component DRF activity must produce consolidated reports.

2.2.2. Report Formats. Use the financial report formats provided in Forms 15-1 through 15-8 to prepare reports. Reports produced by Automated Data Processing (ADP) equipment may be substituted for the formats illustrated. Submit the following reports:

2.2.2.1. Statement of Financial Position;

2.2.2.2. Statement of Cash Flow; and

2.2.2.3. Statement of Operations;

2.2.2.3.1. Part I - Statement of Operations identifies the cumulative year-to-date Net Operating Results (NOR) and the Recoverable NOR. Recoverable NOR is the amount that can be recovered in the activity's rates;

2.2.2.3.2. Part II - Changes in Net Position identifies the arithmetic difference between the total assets and total liabilities recognized on a component entity's balance sheet;

2.2.2.3.3. Part III - Cost of Goods Sold identifies the value of inventory sold or services provided. It does not provide a value for total obligations incurred;

2.2.2.3.4. Part IV - Expenses identifies detailed expense information by category. Not all expenses represent claims against budgetary resources;

2.2.2.3.5. Part V - Recoverable Operating Results reconciles NOR to the operating results that may be used for rate-setting purposes;

2.2.2.3.6. Part VI - Capital Program identifies the approved program, obligations, disbursements, and collections for the Capital Program by fiscal year (FY); and

2.2.2.3.7. Part VII - Inventory Management Report - Supply Management Activity reports inventory management data for the Supply Management and Commissary Resale [DRF](#) activities.

2.2.3. Frequency of Reports. Unless otherwise specified by the Office of the Under Secretary of Defense (Comptroller) (OUSD(C)), prepare and submit the AR(M) 1307 reports monthly. Submit regular reports in accordance with due dates established by the Defense Finance and Accounting Service (DFAS) and consistent with the requirements of OUSD(C).

2.2.4. Distribution

2.2.4.1. Consolidated DoD Component and [DRF](#) Activity Reports. Submit a copy of consolidated [DRF](#) activity reports to the:

2.2.4.1.1. Director for Operations, Office of the Deputy Comptroller (Program/Budget (P/B)), OUSD(C);

2.2.4.1.2. Offices of the Assistant Secretary of the Army, Navy, and Air Force (Financial Management and Comptroller); the Defense Commissary Agency (DeCA) Comptroller; and Comptrollers of Other Defense Activities (e.g. The Defense Logistics Agency (DLA) Comptroller); and

2.2.4.1.3. Management Command responsible for the oversight of the DRF activity, if requested by a DoD Component.

2.2.4.2. Activity Level Reports. Submit a copy of DRF activity level reports to the:

2.2.4.2.1. Offices of the Assistant Secretary of the Army, Navy, and Air Force (Financial Management and Comptroller); the DeCA Comptroller; and Comptrollers of Other Defense Activities if requested by a DoD Component;

2.2.4.2.2. Management Command responsible for the oversight of the DRF activity, if requested by a DoD Component; and

2.2.4.2.3. DRF activity, disclosing any adjustments made to the financial data submitted by that activity.

2.3 Detailed Instructions

2.3.1. The instructions to the AR(M) 1307 identify the specific data, and appropriate source of that data, for amounts entered into each line of each report.

2.3.2. Report amounts in thousands of dollars (\$000) for all parts of the report and related footnotes (i.e., \$1,000 = \$1; \$10,000 = \$10; and \$100,000 = \$100).

2.3.3. Include footnotes with each report for lines requiring identification of the nature of specific extraordinary amounts or abnormal balances.

2.3.4. Allocate or assign adjustments for amounts otherwise accounted for or reported at the DoD Component level to the applicable DRF activities. Similarly, allocate or assign adjustments for amounts otherwise submitted for or reported at the DRF activity level to the applicable individual activities. DFAS will make such allocations in accordance with the direction received from the DoD Components. Where reasonable, allocate all such adjustments to individual activities. Show adjustments made at the DRF activity level separately as a DRF activity adjustment. Recognize adjustments at the DRF activity level (DRF activity adjustment) until the transactions can be allocated to the individual activities. All DRF activity adjustments must be zero at year-end. Enter adjustments allocated to the individual activity level into the activity's installation level accounting records. Record the adjustments in accordance with the guidance contained in [Chapter 2](#), "Financial Reports Roles and Responsibilities."

2.3.5. Do not retroactively implement policies that could have a significant adverse impact on the accuracy and integrity of financial reports without a clear offsetting benefit, or unless directed by an external authority such as Congress.

2.3.6. Base the report submissions on current FY data. All references to “year” apply to FY.

2.3.7. Entities are only required to report lines on the AR(M) 1307 in which there is current activity or activity from a prior period.

2.3.8. Use the USSGL accounts cited as general guidance to populate each line. DoD requires the use of the DoD Standard Reporting Chart of Accounts in all accounting systems for all appropriations and funds. Detailed account mapping is included in the Defense Departmental Reporting System (DDRS). Volume 1, Chapter 7 prescribes the requirements of the USSGL.

2.3.9. Base the report submissions on the bulk file format and attributes outlined in the Governmentwide Treasury Account Symbol Adjusted Trial Balance System ([*GTAS*](#)). The GTAS format includes both budgetary and proprietary USSGL accounts, however, the AR(M) 1307 is based upon proprietary USSGL accounts with few exceptions.

3.1 General

The Statement of Financial Position, Form 15-1, discloses the reporting entity's assets, liabilities, and net position.

3.2 Heading

Complete the heading of the form to indicate: the reporting DoD Component, the reporting DRF activity, the reporting period (month), and the calendar year.

3.3 Line Item Instructions

Instructions for the content of each line item are as follows:

3.3.1. Section Heading – ASSETS. The “Assets” section identifies items owned by the Federal Government which have probable (more likely than not) economic benefits that can be obtained or controlled by a Federal Government entity. Fiduciary activities that fall under the guidance of Statement of Federal Financial Accounting Standards (SFFAS) 31, “Accounting for Fiduciary Activities,” are not part of the net position.

3.3.2. Line 1 – Fund Balance with Treasury. Report the aggregate amount of the entity's accounts with the Department of the Treasury (Treasury) for which the entity has the authority to make expenditures and pay liabilities. Establish accounts to identify disbursements and collections applicable to the operating and capital programs to comply with 10 U.S.C. § 2208, which requires DoD to establish a capital asset subaccount. Report the balance by the specified applicable categories.

3.3.3. Line 1.a – Funds Collected – Operating Program. Report the portion of the balance of the following account as it relates to funds collected for the operating program during the current FY:

101000 Fund Balance with Treasury (Funds Collected – Operating Program)

3.3.4. Line 1.b – Funds Collected - Capital Program. Report the portion of the balance of the following account as it relates to funds collected for the capital program during the current FY. Base the amount of collections allocated from the operating program to the capital program on the activity's DRF-funded depreciation expenses and capital surcharge. In all cases, at the end of the FY, the amount collected must be sufficient to ensure the ending Fund Balance with Treasury-Capital Program is not negative. See Volume 11B, Chapter 3 for additional guidance on transfers of budget authority. Line 1.b will agree with the collections reported in Column 11, “Collections - This Fiscal Year,” of Part VI, “Capital Program,” of the Statement of Operations.

101000 Fund Balance with Treasury (Funds Collected – Capital Program)

3.3.5. Line 1.c – Funds Disbursed - Operating Program. Report the portion of the balance of the following account as it relates to funds disbursed for the operating program during the current FY:

101000 Fund Balance with Treasury (Funds Disbursed – Operating Program)

3.3.6. Line 1.d – Funds Disbursed – Capital Program. Report the portion of the balance of the following account as it relates to funds disbursed for the capital program this FY. Line 1.d will agree with the disbursements reported in Column 8, “Disbursements - This Fiscal Year,” of Part VI, “Capital Program,” of the Statement of Operations.

101000 Fund Balance with Treasury (Funds Disbursed – Capital Program)

3.3.7. Line 1.e – Funds Transferred In (Out). Report the portion of the balance of the following account as it relates to funds transferred in or out during the current FY:

101000 Fund Balance with Treasury (Current Year Transfers)

3.3.8. Line 1.f – Funds with Treasury – Operating Program. Report the portion of the balance of the following accounts as they relate to funds held by the Treasury for the operating program. Report the beginning FY balance of the operating program account, which is the net of prior year funds collected and disbursed related to operating programs.

101000 Fund Balance with Treasury (Funds with Treasury – Operating Program)
109000 Fund Balance with Treasury While Awaiting a Warrant **or Mandated Non-Expenditure Transfer** (If applicable, under a continuing resolution authority)

3.3.9. Line 1.g – Funds with Treasury – Capital Program. Report the portion of the balance of the following account as it relates to funds held by the Treasury for the capital program. Report the beginning FY balance of the capital program account, which is the net of prior year funds collected and disbursed related to capital programs.

101000 Fund Balance with Treasury (Funds with Treasury – Capital Program)

3.3.10. Line 2 – Cash on Hand and Other Monetary Assets. Cash on hand and other monetary assets consists of: (a) coins, paper currency, and readily negotiable instruments, such as money orders, checks, and bank drafts on hand or in transit for deposit; (b) amounts on demand deposit with banks or other financial institutions including nonconfirmed collections and disbursements; (c) investments held outside of Treasury; and (d) foreign currencies, which, for accounting purposes, will be translated into U.S. dollars at the exchange rate on the financial statement date. Report the balance of the following accounts:

111000	Undeposited Collections
113000	Funds Held Outside of Treasury – Budgetary
119000	Other Cash
119500	Other Monetary Assets
120000	Foreign Currency

3.3.11. Line 3 – Accounts Receivable, Net. Accounts receivable are amounts due from others when the right to receive funds accrues **because** of performance of services, delivery of goods, or court-ordered assessments. Line 3 is a summary line for Lines 3.a, “Accounts Receivable, Intragovernmental,” through 3.d, “Accounts Receivable, Non-Federal, Undistributed.”

3.3.12. Line 3.a – Accounts Receivable, Intragovernmental. Report the portion of the balance of the following accounts due from other Federal Agencies:

131000	Accounts Receivable (except as reported on Line 3.b)
131900	Allowance for Loss on Accounts Receivable
134000	Interest Receivable – Not Otherwise Classified
136000	Penalties and Fines Receivable – Not Otherwise Classified
137000	Administrative Fees Receivable – Not Otherwise Classified

3.3.13. Line 3.b – Accounts Receivable, Intragovernmental, Undistributed. Report the portion of the balance of the following account as it relates to accounts receivable from other Federal Agencies recorded for undistributed collections. Undistributed collections represent the difference between the amount of collections reported to DFAS by the Treasury finance network and the amount of collections recorded by operating level activities.

131000	Accounts Receivable (except as reported on Line 3.a)
--------	--

3.3.14. Line 3.c – Accounts Receivable, Non-Federal. Report the portion of the balance of the following accounts as they relate to accounts receivable from non-federal agencies and entities:

131000	Accounts Receivable (except as reported on Line 3.d)
131900	Allowance for Loss on Accounts Receivable
134000	Interest Receivable – Not Otherwise Classified
134700	Allowance for Loss on Interest Receivable – Not Otherwise Classified
136000	Penalties and Fines Receivable – Not Otherwise Classified
136700	Allowance for Loss on Penalties and Fines Receivable – Not Otherwise Classified
137000	Administrative Fees Receivable – Not Otherwise Classified
137700	Allowance for Loss on Administrative Fees Receivable – Not Otherwise Classified

3.3.15. Line 3.d – Accounts Receivable, Non-Federal, Undistributed. Report the portion of the balance of the following account as it relates to undistributed accounts receivable balances from non-federal agencies and entities. Undistributed collections represent the difference between the amount of collections reported to DFAS by the Treasury finance network and the amount of collections recorded by operating level activities.

131000 Accounts Receivable (except as reported on Line 3.c)

3.3.16. Line 4 – Advances Paid and Prepayments. The amount reported on this line will agree with the amount reported on Line 5, “Advances and Prepayments,” of the “Supplemental Budget Execution Information Report,” which is available in the Budgetary module of DDRS. This report provides additional reporting line items to amounts reported on the SF 133. Report the balance of the following account:

141000 Advances and Prepayments

3.3.17. Line 5 – Inventories, Net. Inventory is tangible personal property that is: (a) held for sale; (b) in the process of production for sale; (c) consumed in the production of goods for sale or in the provision of services for a fee; (d) held for repair; or (e) excess, obsolete, and unserviceable. [SFFAS 3](#), “Accounting for Inventory and Related Property,” sets the accounting principles under which Federal entities account for and report inventory and related property balances. Line 5 is a summary line for Lines 5.a, “Inventory Items,” and 5.b, “Allowance for Gains (or Losses) on Inventories.”

3.3.18. Line 5.a – Inventory Items. [Line 5.a is a summary line for the selected most appropriate inventory valuation method.](#) Report the amount of inventory maintained in the following accounts:

152100	Inventory Purchased for Resale
152200	Inventory Held in Reserve for Future Sale
152300	Inventory Held for Repair
152400	Inventory – Excess, Obsolete, and Unserviceable
152500	Inventory – Raw Materials
152700	Inventory – Finished Goods

3.3.19. Line 5.b – Allowance for Gains (or Losses) on Inventories. Report the portion of the balance in the following account as it relates to the estimated cost to repair damage, and to gains (or losses), on inventories. Report a credit balance as a negative amount (deduct) and debit balance as a positive amount (add).

152900 Inventory – Allowance

3.3.20. Line 6 – Work-in-Process. [DRF](#) work-in-process is the amount of direct, indirect, and general and administrative costs assigned or otherwise properly allocated to a final cost objective (generally, a job order), or the amount of incremental billings for Supply Management

manufactured inventory. Prior to completion of final cost objects, either in their entirety or as discrete elements, allocate all costs to work-in-process.

3.3.20.1. When recognizing revenue on a percentage-of-completion basis, record the portion of work-in-process associated with the recognized revenue as cost of goods sold. Line 6 applies to [DRF](#) activities that accumulate costs to a final cost objective (generally, a job order), such as those within the Depot Maintenance, Research and Development (R&D), and Base Support [DRF](#) activities. Line 6 will agree with the amount reported on Line 1.g, “Minus: Ending Work-In-Process,” of Part III, “Cost of Goods Sold,” [on](#) the Statement of Operations.

3.3.20.2. Non-supply reporting entities are to bill for work-in-process balances before the reporting cycle closes, and therefore, work-in-process is expected to be zero for these activities on the AR(M) 1307. The work-in-process for supply accounts represent progress payments incurred for manufactured items. Provide explanations in the footnotes when non-supply work-in-process is not zero. Timely billing helps ensure resources are available to cover [DRF](#) costs. See [Volume 4, Chapter 16](#), “Revenue, Other Financing Sources, Gains and Losses” and [SFFAS 7](#), “Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting,” for additional guidance relating to revenue recognition. Report the portion of the balance in the following accounts as they relate to work-in-process:

152600	Inventory – Work-in-Process
152900	Inventory – Allowance

3.3.21. Line 7 – Operating Materials and Supplies, Net. Operating materials and supplies are tangible personal property [that organizations consume](#) in [their](#) normal course of operations. See [Volume 4, Chapter 4](#), “Inventory and Related Property” for the recognition and valuation of [Operating materials and supplies](#). Line 7 can be applicable to any [DRF](#) activity. Report the balance of the following accounts:

151100	Operating Materials and Supplies Held for Use
151200	Operating Materials and Supplies Held in Reserve for Future Use
151300	Operating Materials and Supplies – Excess, Obsolete, and Unserviceable
151400	Operating Materials and Supplies – Held for Repair
151600	Operating Materials and Supplies – In Development
151900	Operating Materials and Supplies – Allowance

3.3.22. Line 8 – Property, Plant, and Equipment, Net. Property, plant, and equipment (PP&E) are tangible assets that: (1) have an estimated useful life of two or more years; (2) are not intended for sale in the ordinary course of business; and (3) are intended to be used or available for use by the entity.

3.3.22.1. [SFFAS 6](#), “Accounting for Property, Plant, and Equipment,” outlines accounting standards for Federally owned PP&E. Line 8 is the cost basis, net of depreciation, of the activity’s real and personal property, i.e., land, structures and facilities,

construction-in-progress, purchased and self-developed software, equipment, and related improvements that have been capitalized.

3.3.22.2. Report DoD real property as follows:

3.3.22.2.1. Construction-In-Progress. The funding entity accumulates and reports construction-in-progress for real property (including improvements) in the construction-in-progress accounts until the asset or improvement is placed in service. When the asset or improvement is placed in service, the funding entity removes the construction-in-progress balance and recognizes the asset. The funding entity then transfers the asset or improvement to the host entity, if the host entity is different than the funding entity.

3.3.22.2.2. In-Service Assets. Report real property on the financial statements of the Military Department or Washington Headquarters Services on whose installation a real property asset is located. A Military Department revolving fund can report real property on its financial statements if it has jurisdiction over an installation.

3.3.22.2.3. Land. Reporting responsibilities for land follow the same rules as other real property. However, reporting entities without an unmodified audit opinion value existing land at zero dollars and expense future land acquisitions.

3.3.22.2.4. Capitalized Improvements. The funding entity accumulates and reports the costs of capitalized improvements until the improvement to an asset is placed in service, at which time it will be transferred to the entity responsible for reporting the real property base asset. Complete the heading of the form to indicate: the reporting DoD Component, the reporting DRF activity, the reporting period (month), and the calendar year.

5.3 Line Item Instructions

Instructions for the content of each line item are as follows:

5.3.1. Section Heading – REVENUES AND FINANCING SOURCES. The “Revenues and Financing Sources” section presents inflows of or other increases in assets, decreases in liabilities, or a combination of both resulting in an increase in the government's net position during the reporting period.

5.3.2. Line 1 – Appropriated Capital Used. Appropriations, primarily for War Reserve Material and Commissary Operations, may be provided directly to the DRF. Use USSGL account 570000, “Expended Appropriations,” to record an amount equal to accrued expenses (versus outlays) of appropriated funds provided directly to the Fund. The purpose of the account is to match current period expenses to the appropriated funds used to finance those expenses. Record amounts in account 570000 equal to the amount of program expenses but do not include any expenses applicable to revenue accounts other than account 570000. In other words, record expenses incurred against an appropriation made directly available to the DRF separately from expenses incurred against ordinary DRF reimbursable financing. 152900 Inventory – Allowance

7.3.19. Line 2.h – Minus: Inventory Losses (Gains) Realized. The realization of most inventory gains (and losses) are recognized through reduction of the unrealized holding gains (and losses) accounts as a result of sales; that is, those gains (and losses) are realized when inventory items are sold and recognized in the cost of goods sold.

7.3.19.1. However, increases (or decreases) in inventory occurring because of disposal and events other than sales also result in an adjustment (increase or decrease) of the unrealized holding gains (or losses) accounts. As those inventory increases (or decreases) are not the result of sales, they should not affect the cost of goods sold. (Immaterial losses are charged to cost of goods sold.)

7.3.19.2. Therefore, remove the value of those gains (or losses) from the cost of goods sold and report on Line K.4, “Net Other Inventory (Gains) Losses,” of Part IV “Expenses,” of the Statement of Operations. Report the portion of the balance of the following accounts related to (gains) losses on inventory identified in the following breakdown:

721000	Losses on Disposition of Assets – Other
729000	Other Losses

7.3.19.2.2. Other Inventory Losses, Non-Supply Management:

729000 Other Losses

7.3.20. Line 2.i – Minus: Ending Inventory. Report the end of period inventory value of the following accounts:

152100	Inventory Purchased for Resale
152200	Inventory Held in Reserve for Future Sale
152300	Inventory Held for Repair
152400	Inventory – Excess, Obsolete, and Unserviceable
152500	Inventory – Raw Materials

152700 Inventory – Finished Goods

7.3.21. Line 2.j – Plus: Ending Allowance for Unrealized Holding Gains (Losses). Report the portion of the balance in the following account as it relates to allowance for unrealized holding gains (losses):

7.3.22. Line 2.k – Minus: Transfers Out of Inventory. Report the portion of the balance in the following account as it relates to inventory transferred out of the activity:

573000 Financing Sources Transferred Out Without Reimbursement

7.3.23. Line 2.l – Plus: Transfers In of Inventory. Report the portion of the balance in the following account as it relates to inventory transferred into the activity:

572000 Financing Sources Transferred In Without Reimbursement

7.3.24. Line 2.m – Equals: Cost of Goods Sold. Line 2.m is a summary line for Lines 2.c, “Equals: Adjusted Beginning Inventory,” through Line 2.l, “Plus: Transfers In of Inventory.”

9.1 General

Part V - Recoverable Operating Results, Form 15-7, discloses differences, if any, between NOR reported on Part I, "Statement of Operations," of the Statement of Operations and the operating results that may be used in the budget formulation of stabilized billing rates. As a matter of policy, any amounts that a DoD Component requests to include in or exclude from its DRF rates, whether identified in the OUSD(C) guidance as permissible or requested by the DoD Component, must be adequately documented and quantified. Further, all such amounts must be explicitly approved by OUSD(C) prior to being included in or excluded from the report.

9.2 Heading

Complete the heading of the form to indicate: the reporting DoD Component, the reporting DRF activity, the reporting period (month), and the calendar year.

9.3 Line Item Instructions

Instructions for the content of each line item are as follows:

9.3.1. Line 1 – Net Operating Results (NOR). Enter the amount reported on Line 11, "Net Operating Results (NOR)," of Part I, "Statement of Operations," of the Statement of Operations.

9.3.2. Line 2 – Deferred Operating Results (Gains/Losses) Net

9.3.2.1. Data reported on this line, and its sub-lines, unless otherwise specified, are restricted to specific exclusions approved by OUSD(C)(P/B).

9.3.2.2. These exclusions include amounts determined to be adjustments for the difference between the historical and LAC inventory valuations. Attribute this difference to the value of inventory reflected in the cost of goods sold at historical cost versus the value of inventory at LAC. Use this difference on the AR(M) 1307 to adjust the NOR to Net Recoverable Operating Results based on replacement costs that preserve the revolving funds ability to replenish stock.

9.3.2.3. Line 2 is a summary line for Lines 2.a, "Net (Gains) Losses on Disposal of Excess Inventory (+/-)," through 2.g, "Other Approved Gains and Losses (must be footnoted)." The activity, management command of the reporting DRF activity, or the DoD Component departmental level will provide, or approve, amounts reported on monthly activity reports.

9.3.3. Line 2.a – Net (Gains) Losses on Disposal of Excess Inventory (+/-). Line 2.a applies only to Supply Management Activities. Report gains (or losses, if applicable) on potential excess/actual inventory for which OUSD(C)(P/B) has approved an exclusion. Report the portion of the balance in the following accounts related to net (gains) losses on the disposal of excess inventory:

711000	Gains on Disposition of Assets – Other
719000	Other Gains
721000	Losses on Disposition of Assets – Other
729000	Other Losses

9.3.4. Line 2.b – Disposal of Equipment/Capital Assets (-). Report losses (or gains, if applicable) realized upon the disposal of excess equipment and other capital assets when OUSD(C)(P/B) has approved the exclusion. Do not report losses (or gains) on excess equipment and other capital assets due to BRAC on this line. Report the losses (or gains) on excess equipment and other capital assets due to BRAC on Line 2.c, “Non–Reimbursable Base Closure (BRAC) Costs.” Report the amount of losses (or gains) related to the disposal of equipment and capital assets in the following accounts:

711000	Gains on Disposition of Assets – Other
721000	Losses on Disposition of Assets – Other

9.3.5. Line 2.c – Non-Reimbursable Base Closure (BRAC) Costs (+/-). Report losses (or gains, if applicable) in excess of reimbursement that are a result from a base closure when OUSD(C)(P/B) has approved the exclusion. Report the amount of losses (or gains) related to BRAC costs in the following accounts:

711000	Gains on Disposition of Assets – Other
719000	Other Gains
721000	Losses on Disposition of Assets – Other
729000	Other Losses

9.3.6. Line 2.d – Capital Asset Surcharge (-). Adjust capital asset surcharge amounts, positive or negative, included in revenue in order to avoid either the return of an apparent gain (or loss) in the development of the subsequent year rate structure. Leave this line blank when there is no capital surcharge revenue.

9.3.6.1. Include a capital asset surcharge in customer rates only if approved by OUSD(C)(P/B). A capital asset surcharge might be approved when the amount of depreciation expense of existing capital assets included in stabilized rates is either less (or greater) than the budgeted Capital Program.

9.3.6.2. As the capital asset surcharge does not have an offsetting expense, in isolation from other transactions, it is expected to result in a gain (or loss) to NOR. Deduct the gain (or loss) from NOR to prevent its return or charge to customers in subsequent years through adjusted rates. Capital asset surcharge amounts may be reported without prior approval of

OUS(D)(C)(P/B). Report the amount of revenue related to capital asset surcharges in the following accounts:

510000	Revenue From Goods Sold
520000	Revenue From Services Provided

9.3.7. Line 2.e – Cash Surcharge. Similar to capital asset surcharges, activities may include a cash surcharge in their rates. Report the amount of revenue related to cash surcharges in the following accounts:

510000	Revenue From Goods Sold
520000	Revenue From Services Provided

9.3.8. Line 2.f – Inventory Replenishment. Report the difference between the historical cost and LAC for inventory valuation. Report the amount of revenue related to inventory replenishment in the following accounts:

510000	Revenue From Goods Sold
719000	Other Gains
729000	Other Losses

9.3.9. Line 2.g – Other Approved Gains and Losses (must be footnoted). Report the approved gains (or losses) in the following accounts. Exclude amounts already listed in Lines 2.a, “Net (Gains) Losses on Disposal of Excess Inventory,” through 2.f, “Inventory Replenishment.”

510000	Revenue From Goods Sold
520000	Revenue From Services Provided
570000	Expended Appropriations – Used – Accrued
671000	Depreciation, Amortization, and Depletion
685000	Employer Contributions to Employee Benefit Programs Not Requiring Current Year Budget Authority (Unobligated)-
711000	Gains on Disposition of Assets – Other
719000	Other Gains
721000	Losses on Disposition of Assets – Other
729000	Other Losses
760000	Changes in Actuarial Liability

9.3.10. Line 3 – Depreciation, Non-DRF Acquired PP&E. Report the amount of depreciation from non-DRF acquired PP&E identified as an asset capitalized on Line 1.D.(1).d, “Minus: Depreciation, Non-DRF Acquired PP&E,” of Part II, “Changes in Net Position,” of the Statement of Operations. Report the amount on Line I, “Depreciation - Non-DRF Acquired PP&E,” of Part IV, “Expenses,” of the Statement of Operations, minus any gains and losses. See Volume 4, Chapters 24 through 28 for additional guidance relating to the recovery of depreciation.

9.3.11. Line 4 – Net Recoverable Operating Results from Current Year Operations. Line 4 is a summary line for Lines 1, “NET OPERATING RESULTS (NOR),” through 3, “Depreciation, Non-DRF Acquired PP&E.”

9.4 Year-End Procedures

9.4.1. At FY end, close the NOR to Cumulative Results of Operations. Since part of that amount may be a non-recoverable deferred amount and an amount related to depreciation for non-DRF acquired PP&E, identify those amounts separately in financial records with attributes.

9.4.2. The amount reported on Line 2, “Deferred Operating Results (Gains/Losses) Net,” will be the opposite of Line 1.B.(2).d, “Plus or Minus: Net Operating Results,” of Part II, “Changes in Net Position,” of the Statement of Operations during the FY and closed to deferred Cumulative Results of Operations during the year-end close process.

9.4.3. Report the amount from Line 3, “Depreciation, Non-DRF Acquired PP&E,” on Line 1.D.(1).d, “Minus: Depreciation, Non-DRF Acquired PP&E,” of Part II, “Changes in Net Position,” of the Statement of Operations during the FY. Close this amount to Line 1.D.(1).a, “Assets Capitalized – Beginning of Period,” of Part II during the year-end close process.

9.4.4. Report the amount from Line 4, “Net Recoverable Operating Results from Current Year Operations,” on Line 1.B.(1).d, “Plus or Minus: Net Operating Results,” of Part II during the FY. Close this amount to Cumulative Results of Operations – Recoverable during the year-end close process.

10.1.1. Part VI - Capital Program, Form 15-8, reflects the approved program, obligations, disbursements, and collections for each FY of the program. A capital asset for this report must meet the Working Capital Fund Investment Threshold for the program year reported and have a useful life of 2 years or greater.

10.1.2. For reporting purposes, define the reporting period as the year-to-date amounts, i.e., amounts reported since the end of the prior FY to the end of the reporting month shown in the heading. Report balances for each program year in Part VI until the program's obligations, disbursements, and collections equal.

10.2 Heading

Complete the heading of the form to indicate: the reporting DoD Component, the reporting DRF activity, the reporting period (month), and the calendar year.

10.3 Columnar Instructions

The contents of the columns will be as follows:

10.3.1. Program Year (Column 1). Separate FY program identification is required. Identify all prior FYs separately until the obligations, disbursements, and collections equal. Arrange the FY programs in consecutive order, starting with the least current FY program.

10.3.2. Approved Program – Original Program (Column 2). The original program amount will be capital authority approved for the reporting FY on the initial Annual Operating Budget (AOB) for the FY. Report the carryover from prior FYs as part of the initial program for that year. The amount reported will not change in subsequent years. Show the changes in the Capital Program amount in Column 3, "Approved Program – Program Adjustments."

10.3.3. Approved Program – Program Adjustments (Column 3). Report adjustments (generally, deductions) to the initial approved Capital Program amounts in this column. Disclose adjustments to the initial approved program amounts in the AOBs for a subsequent program year. The amount reported in this column may change annually as of the beginning of a FY but will not change during a FY except at year-end. At year-end, the amount reported in this column will change to allow the value of Column 4, "Approved Program – Current Program," to equal Column 7, "Obligations – Total."

10.3.4. Approved Program – Current Program (Column 4). Column 4 is a summary column for Columns 2, "Approved Program – Original Program," and 3, "Approved Program-Program Adjustments." These amounts are subject to the provisions of [31 U.S.C. §1517\(a\)](#).
