INTRODUCTION

The Department of War (DoW) 7000.14-R, DoW Financial Management Regulation (FMR) is issued under the authority of DoD Instruction 7000.14, "DoD Financial Management Policy." The ***DoW FMR*** directs statutory and regulatory financial management requirements, systems, and functions for all appropriated and nonappropriated, working capital, revolving, and trust fund activities.

VOLUMES

No.	Title

00	Glossary

APPLICABILITY

The DoW FMR applies to the Office of the Secretary of War, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the DoW Office of the Inspector General, the Defense Agencies, the DoW Field Activities, and all other organizational entities within the DoW (hereinafter referred to collectively as "DoW Components").

PARAGRAPH STRUCTURE

The paragraph numbering system is consistent across the Regulation. The section and paragraph levels are 2-digits, and there are five additional subparagraph level designators formulated as follows:

SECTION	PARAGRAPH	SUBPARAGRAPHS
1.0	1.1	1.1.1.1.1

INFORMATION REQUIREMENTS

DoW Components should forward recommended changes to this Regulation through appropriate channels to the Office of the Under Secretary of War (Comptroller) (OUSW(C)), Office of the Deputy Chief Financial Officer (ODCFO). Requests for deviations from or exceptions to this Regulation must be submitted via formal memorandum through your organization's appropriate coordination and approval process to the OUSW(C), ODCFO. The memorandum must provide justification and supporting documentation as applicable. Mailing address:

VOLUME 1

GENERAL FINANCIAL MANAGEMENT INFORMATION, SYSTEMS AND REQUIREMENTS

1.0 GENERAL

1.1 Purpose

Volume 1 establishes the foundational framework for all financial management activities within the Department of War (DoW). It defines the roles and authority of the Under Secretary of War (Comptroller)/Chief Financial Officer (USW(C)/CFO) and prescribes the mandatory policies to ensure financial data is timely, accurate, and useful for decision-making. To achieve this, the volume mandates the application of federal accounting principles and standards, as well as conformity with standard lines of accounting, to ensure consistency across all DoW Components. Furthermore, Volume 1 provides the Department's policy for achieving substantial compliance with the Federal Financial Management Improvement Act of 1996 (FFMIA) and for standardizing systems and data through the War Data Platform (WDP). This volume also establishes the USW(C) Financial Management Awards Program to formally recognize individuals and teams who make significant contributions to improving financial management within the Department. Lastly, this volume establishes the requirements for the proper retention of financial records.

1.2 Authoritative Guidance

Refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary of terms document on the FMR webpage.

1.4 Procedures

Refer to the Volume 1 Supplemental document listed throughout this volume.

2.0 CHIEF FINANCIAL OFFICER OF THE DEPARTMENT OF WAR

2.1 CFO Appointment

The USW(C)/CFO (also the DoW CFO) is appointed by the President and confirmed by the U.S. Senate and acts as the principal advisor to the Secretary of War (SecWar) on all budgetary and fiscal matters. The USW(C)/CFO must possess demonstrated ability in general management, knowledge of, and extensive practical experience in financial management practices in large governmental or business entities.

2.2 Roles and Responsibilities

The DoW CFO's duties are extensive and cover all aspects of financial operations with the DoW. To perform these duties (as illustrated in Table 1-1 in the Volume 1 Supplemental), the DoW CFO is granted significant authority under the CFO Act of 1990. This includes the power to: (a) access all DoW materials, including records, reports, and audits related to financial programs; (b) request information or assistance from any federal, state, or local government entity; and (c) enter contracts with public or private agencies for services like financial analysis and statement preparation.

2.3 Chief Financial Officers Council

The DoW CFO serves on the Chief Financial Officers Council (CFOC), which includes key financial leaders from major federal agencies, the Office of Management and Budget (OMB), and the Treasury. It is the federal government's primary leadership body established to improve financial management, strengthen stewardship, and modernize financial systems across agencies.

2.4 DoW Staff Organizations

The DoW CFO oversees several key organizations and directorates responsible for the day-to-day financial operations of the DoW. Key leadership roles are described in subparagraphs 2.4.1-2.4.5.

2.4.1. Deputy CFO (DCFO): Under the CFO Act, the DoW must have a DCFO who reports directly to the DoW CFO on financial management. This role is a career-reserved position within the Senior Executive Service, and the SecWar must appoint an individual with demonstrated ability in accounting, budget execution, financial and management analysis, systems development, and at least six years of practical financial management experience in large government entities. The DCFO is responsible for overseeing and implementing accounting policy, improving financial management, and performing other financial management functions for the DoW on a day-to-day basis. Three directorates support the DCFO:

2.4.1.1. The Directorate for Financial Systems Modernization and Innovation (FSM&I) is responsible for improving enterprise-wide performance and data-driven decision-making by accelerating digital transformation, process improvement, and the use of data analytics.

2.4.1.2. The Directorate for Financial Improvement and Audit Remediation (FIAR) is responsible for audit oversight, management, and liaison functions. It supports Components in remediating audit findings and develops the annual FIAR Plan to address and correct financial deficiencies. The directorate also manages the Defense-wide Statement of Assurance process, implements the Federal Manager's Financial Integrity Act program, and advocates for the USW(C)/CFO in various interagency and DoW forums.

2.4.1.3. The Directorate for Financial Management Policy and Reporting (FMPR) is responsible for developing, promulgating, implementing, and interpreting DoW-wide accounting and finance policies. It provides oversight of DoW Components' financial operations and systems,

administers this Regulation, and prepares the DoW Agency Financial Report (AFR) and consolidated financial statements. Furthermore, FMPR manages the DoW Payment Integrity and Antideficiency Act programs and facilitates the adoption of improved financial processes and systems across the Department.

2.4.2. Deputy Comptroller (Program/Budget): The Deputy Comptroller (Program/Budget) is responsible for overseeing and implementing budgetary functions within the DoW on a day-to-day basis.

2.4.2.1. The Directorate for Investment is responsible for advising the Deputy Comptroller (Program/Budget) on all matters: Procurement; Research, Development, Test, and Evaluation; the National Intelligence Program; and the Defense Acquisition Board program.

2.4.2.2. The Directorate for Military Personnel and Construction is responsible for advising the Deputy Comptroller (Program/Budget) on all matters on operating and maintaining the U.S. military force structure to include active, reserve, and retired military; Defense Health Program; military construction; family housing; homeowners assistance; North Atlantic Treaty Organization infrastructure; Base Realignment and Closure; and Real Property Maintenance.

2.4.2.3. The Directorate for Operations is responsible for advising the Deputy Comptroller (Program/Budget) on all matters on operating and maintaining the U.S. military force structure to include active and reserve military personnel and civilian personnel. This directorate is also responsible for advising on all matters on Contingency and International programs.

2.4.2.4. The Directorate for Program and Financial Control is responsible for budget review tracking, the submission of the automated defense budget for the President's budget, maintenance of the budget databases, apportionment of funds, reprogramming and transfer of funds, obligation and outlay forecasting and tracking, budget concepts and scorekeeping, and information system support.

2.4.3. Director, Defense Finance and Accounting Service (DFAS): The DFAS Director is the principal executive for DoW finance and accounting requirements, responsible for consolidating, standardizing, and integrating all accounting functions and systems.

2.4.4. Director, Defense Contract Audit Agency (DCAA): The DCAA Director performs all necessary contract audits for the DoW and provides financial advisory services for contracts and subcontracts.

2.5 DoW Components.

Heads of the DoW Components must direct and manage financial management activities within their respective Components, consistent with the policies, requirements, principles, standards, procedures, and practices prescribed by the USD(C)/CFO, and other internal policies as prescribed by the Heads of the other DoW Components.

3.0 FEDERAL ACCOUNTING STANDARDS HIERARCHY

3.1 Hierarchy of Accounting Standards

3.1.1. The Federal Accounting Standards Advisory Board's (FASAB) Statement of Federal Financial Accounting Standards (SFFAS) is the Generally Accepted Accounting Principles (GAAP) applicable to the federal government and must be followed by all federal agencies in reporting under the Government Management Reform Act of 1994. DoW Components must adhere to the GAAP hierarchy prescribed in SFFAS 34. The sources of generally accepted accounting principles are categorized in descending order of authority in Table 1-2.

3.1.2. If the accounting treatment for a transaction or event is not specified by a pronouncement or established in practice as described in Table 1-2, a federal reporting entity should first consider accounting principles for similar transactions or events within categories in Table 1-2 before considering Other Accounting Literature discussed in subparagraph 3.2.1.

3.1.3. A federal reporting entity should not follow the accounting treatment specified in accounting principles for similar transactions or events in cases in which those accounting principles either (a) specifically prohibit the application of the accounting treatment to the particular transaction or event or (b) indicate that the accounting treatment should not be applied to other transactions or events by analogy.

Table 1-2 Sources of Guidance by Level of Authority

Level of Authority	**Source of Guidance**
Highest Authority	• FASAB SFFAS and Interpretations.
Secondary Authority	• FASAB Technical Bulletins • American Institute of Certified Public Accountants (AICPA) Audit and Accounting Guides (if cleared by FASAB)
Tertiary Authority	• Technical Releases from FASAB's Accounting Standards Implementation Committee (ASIC)
General Guidance	• Implementation guides published by FASAB staff. • Widely recognized and prevalent practices within the federal government.

3.2 Other Pronouncements and Practices

3.2.1. Other Accounting Literature include (a) FASAB Concepts Statements; (b) AICPA Industry Audit and Accounting Guides that have not specifically been made applicable to federal reporting entities by FASAB; (c) pronouncements of other accounting and financial reporting standards-setting bodies, such as the Financial Accounting Standards Board or Governmental Accounting Standards Board; (d) publications of professional associations or regulatory agencies; and (e) accounting textbooks, handbooks, and articles.

3.2.2. The appropriateness of other accounting literature depends on its relevance to circumstances, the specificity of the guidance, and the general recognition of the issuer or author as an authority. FASAB Concepts Statements would normally be more influential than other sources in this category.

3.3 Communication and Coordination Protocol

3.3.1. For all matters related to federal accounting standards, the single point of contact is the OUSW(C), Office of the Deputy CFO (ODCFO), FMPR Directorate. Formal and informal requests addressed to FASAB or the ASIC for an interpretation, clarification, technical guidance, implementation guidance, or other information regarding SFFAS must be submitted through the OUSW(C), ODCFO, FMPR Directorate. Any correspondence representing the official DoW position on matters such as FASAB Exposure Drafts must be submitted through the ODCFO and signed by the DoW CFO, DCFO, or Assistant DCFO (ADCFO).

3.3.2. Individuals submitting responses to exposure drafts must clearly indicate in the correspondence that the opinions expressed are those of the individual and do not represent the official position of DoW. DoW components including the Defense Intelligence Agency, the National Geospatial-Intelligence Agency, and the National Security Agency providing input to non-DoW entities (like the Office of the Director of National Intelligence) must coordinate with the ODCFO to ensure completeness and clarify that the input is not an official DoW position.

3.3.3. Participation in FASAB and ASIC Task Forces is critical to ensuring that DoW's views are considered as accounting standards and guidance are formulated. To ensure complete coverage by DoW, Task Force participants should notify the OUSW(C), ODCFO, FMPR and FIAR Directorates.

4.0 FEDERAL FINANCIAL MANAGEMENT IMPROVEMENT ACT COMPLIANCE

4.1 DoW FFMIA Compliance Requirements

4.1.1. To substantially comply with FFMIA, management and auditors must consider the degree to which a system's performance prevents the Department from meeting the FFMIA requirements. Auditors must apply OMB Bulletin 24-02 (or its latest version) and the Government Accountability Office (GAO) Financial Audit Manual (FAM) Volumes 2 and 3, in combination with the results of their own independent testing and the documentation provided by DoW management, to determine compliance with FFMIA. If noncompliant, the auditor's report must thoroughly document the findings, including the nature and extent of the problem, its root cause, and the responsible organization. The report must also include relevant comments from any responsible officer or employee and outline the recommended corrective actions and the implementation time frame.

4.1.2. The selection of applicable Federal Information System Controls Audit Manual (FISCAM) controls is governed by the FM Overlay developed by OUSW(C). All DoW Components must implement the FM Overlay for systems relevant to the Internal Control over Reporting (ICOR)-Financial Reporting (FR), and Financial Systems (FS) as defined in the DoW

ICOR-FR & FS Guide. The DoW ICOR-FR & FS Guide identifies the FISCAM as the methodology to be used for performing information technology (IT) control assessments and audits. It groups IT controls into two categories, general controls (GC) and business process (BP) controls. Compliance is enforced during the controls selection phase of the assessment and authorization processes in the Enterprise Mission Assurance Support Service (eMASS) system or other software/tools implemented for this purpose.

4.1.3. The annual Defense Business Systems (DBS) Certification Guidance memorandum, consistent with 10 U.S.C. § 2222(g), requires DoW Components with priority or covered ICOR-FR & FS DBS to substantially comply with FFMIA controls for relevant financial business events (operational activities). These activities, which occur within the DoW business enterprise architecture (BEA), are detailed in the WDP FM Functions – Requirements Matrix (requires WDP Qlik access) and document alignment to the three FFMIA reporting requirements.

4.1.4. Federal Financial Management System Requirements (FFMSR). The U.S. Treasury has integrated the Federal Financial Management System Requirements (FFMSRs) into the Financial Management Capability Framework (FMCF), which is part of the broader Federal Integrated Business Framework (FIBF). This change means that FFMSRs are now documented as and synonymous with Federal Financial Management Business Capabilities (FFM BCs), each with a designated "FFM" ID number.

4.1.5. Federal Accounting Standards. All DoW budgetary and proprietary financial events must be recorded according to the accounting standards set by the FASAB. These standards are incorporated into the FMCF and aligned to the DoW BEA operational activities. The GAO FAM provides procedural guidance for testing compliance with these accounting standards.

4.1.6. USSGL at the Transaction Level. The Department's financial management systems (both financial and mixed systems) must maintain accounting data at the transaction level for every DoW financial event (budgetary and proprietary). These financial events must be recorded in accordance with the United States Standard General Ledger (USSGL) guidance in the TFM and the DoW USSGL transaction library. Every financially relevant transaction (automated or manual) must generate accurate and compliant postings to the relevant budgetary and proprietary general ledger accounts, in accordance with the DoW USSGL rules. The GAO FAM provides procedural guidance for testing compliance with these USSGL requirements.

4.1.7. Compliance Determination Framework. DoW management may determine whether a system is FFMIA-compliant by using OMB Circular A-123, Appendix D. Based on this framework, the Department developed the "FM Systems – FFMIA Scorecard" in the WDP. This scorecard provides an "auditor perspective" and helps identify systems that have findings from internal or external audits.

4.2 FFMIA Compliance Responsibilities

4.2.1. Office of the Under Secretary of War (Comptroller). The OUSW(C), supported by the DCFO through its subordinate organizations (FSM&I, FIAR, and FMPR Directorates), is responsible for providing Department-wide oversight of substantial compliance with the FFMIA requirements.

4.2.1.1. OUSW(C) must annually report to OMB the progress made towards resolving identified deficiencies and such progress must be discussed in the DoW Components remediation plan, capital planning and investment control plans, risk management plan, and other planning documents, when applicable. The findings or analysis of noncompliance must be included with a discussion of ongoing remediation activities. Progress towards resolving the deficiencies must not be construed as substantial compliance with FFMIA.

4.2.1.2. Remediation plans are expected to bring the Department's financial management systems into substantial compliance no later than three years after the date a noncompliance determination is made by OUSW(C) or its auditors. However, if OUSW(C), with the concurrence of OMB, determines that the Department's financial management systems cannot be brought into substantial compliance within three years, the DoW Component (in consultation with OUSW(C)) may specify a longer period. In either case, the DoW Component must designate a DoW Component official responsible for bringing the DoW Component's financial management systems into substantial compliance by the date specified in the DoW Information Technology Portfolio Repository (DITPR) and for reporting progress to FSM&I (acting on behalf of the Defense Business Council) on a scheduled basis.

4.2.1.3. The ODCFO is responsible for governing the enterprise FFMIA oversight program. The ODCFO is also responsible for developing and implementing financial improvement audit strategies, monitoring auditors' findings, and providing internal control training to improve the quality and security of financial information. Additionally, the ODCFO is responsible for developing and interpreting DoW-wide accounting and finance policies, ensuring consistency with laws and regulations, and overseeing financial integrity initiatives such as the Standard Financial Information Structure (SFIS) USSGL program.

4.2.1.3.1. FSM&I Directorate. Annually, FSM&I publishes the oversight schedule and other FFMIA substantial compliance details, consistent with OMB Circular A-123, Appendix D, and the DoW A-123 Implementation Handbook for DoW Components, to be executed in support of FFMIA compliance. FSM&I is responsible for reporting the progress of the DoW financial management information technology roadmap and overall FFMIA compliance within the Statement of Assurance (SOA) section of the DoW Agency Financial Report (AFR).

4.2.1.3.2. FIAR Directorate. The FIAR Directorate develops, publishes, and issues detailed financial improvement audit strategies, methodologies, and implementation guidance. The FIAR Directorate establishes the ICOR-FR & FS systems inventory subject to FFMIA compliance reporting, monitors auditors' findings and recommendations around FFMIA compliance, provides internal control training to reporting entities on improving the design and operating effectiveness of IT controls, and publishes the results of the Department's SOA for FFMIA within the DoW AFR.

4.2.1.3.3. FMPR Directorate. The FMPR Directorate develops, publishes, implements, and interprets DoW-wide accounting and finance policies. The FMPR Directorate oversees financial integrity programs such as the DoW SFIS and USSGL, and validates that the DoW FMR is consistent with applicable laws and guidance.

4.2.2. Chief Information Officer of the Department of War. The CIO executes and governs information technology oversight.

4.2.2.1. Deputy CIO for Information Enterprise (IE) establishes information technology policy and guidance for the infrastructure components of the DoW IE to include networks, computers, and software. The IE directorate also maintains the DoW BEA and oversees DBS compliance with all applicable laws, including Federal accounting, financial management, and reporting requirements. See 10 U.S.C. § 2222 for additional guidance.

4.2.2.2. Deputy CIO for Cybersecurity (CS) is responsible for providing expert policy, technical, program, and Defense-wide oversight on all aspects and matters related to DoW CS. The CS Directorate oversees the risk management framework for DoW systems. Refer to DoD Instruction (DoDI) 8501.01 for additional guidance.

4.2.2.3. Deputy CIO for Resources and Analysis provides guidance on the information technology/cyberspace activities budget submission. Refer to Volume 2 for additional guidance.

4.2.3. Director of Administration and Management (DA&M). The DA&M is the principal management office for the SecWar responsible for optimizing the business environment across the DoW enterprise. DA&M executes the DoW Enterprise Risk Management and Internal Controls Over Reporting - Operations programs, providing resources and assistance with evaluating and managing risk. The DA&M delivers program management, oversight, security services, and support functions that enable uninterrupted operations of the Department Headquarters.

4.2.4. DoW Components. DoW Components must establish and maintain financial management systems that substantially comply with the requirements of FFMIA Section 803(c). DoW-owned ICOR-FR & FS relevant systems must be developed and maintained to generate reliable, timely, and consistent information necessary for the Department to comply with FFMIA requirements and enable the preparation of accurate, reliable, and timely financial statements and other required financial and budget reports using information generated by the financial management systems. DoW Component management must annually test and report on financial management systems for FFMIA compliance and establish compensating controls for business events determined to be noncompliant.

4.2.4.1. DoW Components must maintain records of systems and transactional data that substantially comply with applicable FFMIA requirements. Applicable FM systems must annually assess/test compliance to maintain complete and accurate data in:

4.2.4.1.1. DITPR. DoW Components must ensure their financial system portfolio is accurately reported in DITPR. DoW financial systems must review, report, and update appropriately all applicable DITPR FFMIA reporting requirements and DoW business enterprise architecture operational activity aligned to federal financial management functions on an annual basis in accordance with 10 U.S.C. § 2222(g). DoW Components must ensure their FM systems align with the applicable financial events represented in the DoW BEA as operational activities, end-to-end processes, and capabilities, and that the systems comply with the controls associated with the DoW BEA operational activity. Refer to the TFM Volume 1, Part 6, Chapter 9500. DoW Component FFMIA oversight officials and system owners must ensure that their FM system's current level of compliance with each applicable FFMIA requirement is recorded in DITPR and is consistent with their Annual SOA reporting.

4.2.4.1.2. FIAR Systems Database (FSD). DoW Components must utilize FSD to identify, capture, and report on the universe of ICOR-FR relevant systems to support internal controls, financial audits, executive leadership, and Congressional reporting requirements. DoW Component FFMIA oversight officials and system owners must ensure their FM system's current overall compliance with FFMIA is recorded in the FSD and asserted in their annual SOA reporting.

4.2.4.1.3. WDP. DoW Components must provide budgetary and proprietary transactional data to the WDP from FM systems and ensure their WDP common data models remain complete and accurate.

4.2.4.1.4. DoW Information Technology Investment Portal (DITIP). DoW Components must report compliance with the DoW Auditability Requirements in the investment certification module of DITIP as required by 10 U.S.C. § 2222 and consistent with the DBS Annual Certification Guidance memorandum. For ICOR-FR & FS DBS, refer to the Volume 1 Supplemental document for applicable reporting criteria.

4.2.4.1.5. Notice of Findings and Recommendations (NFR) Database. DoW Components must ensure complete, accurate, and timely corrective action plans (CAP) are established and recorded in the NFR Database. This includes IT and non-IT NFRs from stand-alone financial statement audits and Statement on Standards for Attestation Engagements (SSAE) No. 18 Examinations. Intelligence community DoW Components with stand-alone financial statement audits are exempted from this requirement. DoW Component officials must ensure their IT budget reflects the funding needed to complete all milestones identified in the CAP to address/close potential vulnerabilities identified by the open NFRs.

4.2.4.1.6. eMASS and FM Overlay. eMASS is a comprehensive solution that supports the Federal Information Security Management Act of 2002 (FISMA) and cybersecurity oversight and management. Features include dashboard reporting, control scorecard measurement, and the generation of a system security authorization package to support system authorization decisions. The FM Overlay helps DoW Components efficiently and consistently meet the RMF- and controls-based financial statement audit expectations for ICOR-FR & FS-relevant systems. DoW Components that use eMASS are required to apply the FM Overlay to all ICOR-FR & FS systems eMASS records. DoW Components that use other software or tools to

support FISMA compliance and cybersecurity oversight and management are likewise required to implement and apply the reporting requirements of the FM Overlay to all ICOR-FR & FS relevant systems.

4.2.4.2. DoW Components must ensure the applicable FFMIA requirements are included in their pre-acquisition requirements documentation, and applicable FFMIA requirements are implemented with the deployment of new financial management solutions (manual or automated) as well as included in acquisition strategies for commercial off-the-shelf and software-as-a-service solutions consistent with DoDI 5000.75.

4.2.4.3. DoW Components must ensure the system portfolio and remediation plans are consistent with modernization priorities identified in 44 U.S.C. §3601.

4.2.4.4. DoW Components are required to assess and identify all Service Providers that are relevant to their internal control over financial reporting and obtain copies of the applicable System and Organization Controls (SOC 1) Reports. DoW Components are also required to design, document, and implement effective controls to address the applicable Complementary User Entity Controls and, when relevant, the applicable Complementary Subservice Organization Controls in the applicable SOC 1 Reports. This includes reviewing the Service Providers' and Hosting Organizations' FFMIA assessment results and addressing any deficiencies identified by the Service Providers/Hosting Organizations that may impact the DoW Component's internal controls.

4.2.4.5. DoW Component oversight officials must ensure all DBS, both priority/non-priority and covered/non-covered, that are not substantially compliant with FFMIA are conditioned and remediated consistent with 10 U.S.C. § 2222, and/or have substantiated compensating controls for areas of noncompliance.

4.2.5. Service Providers. Service Providers must develop and maintain FFMIA compliance assessment and remediation plans in coordination with the use of DoW Components (user entities). For each financial system and mixed system managed by a Service Provider, a Memorandum of Agreement (MOA) or other suitable agreement must be established with each using DoW Component. As part of the MOA, compliance testing must be conducted to support end-to-end business process testing of the DoW Component (user entity). For systems covered by a SSAE No. 18 Examinations, Service Providers must provide DoW Components (user entities) with a SOC 1 Report.

4.2.6. Hosting Organizations. Hosting Organizations, internal to DoW (e.g., Defense Information System Agency) and external to DoW (e.g., commercial Cloud Service Providers), are responsible for most of the ITGC across the computing environment where many financial, personnel, and logistics applications reside and often provide a SOC 1 Report. For Service Providers and DoW Components to rely on automated controls and documentation within these applications, controls must be appropriately and effectively designed and operated.

4.2.7. Inspector General. The DoW Office of the Inspector General (IG) performs FFMIA compliance evaluations and reports to Congress instances and reasons when the Department has not met the intermediate target dates established in the remediation plan required under FFMIA Section 803(c). Additionally, the IG oversees many of the DoW's financial statement audits conducted by independent public accounting firms.

5.0 STANDARD FINANCIAL INFORMATION STRUCTURE

5.1 SFIS

The SFIS is a comprehensive data structure that supports requirements for budgeting, financial accounting, cost/performance, interoperability, and external reporting needs across the DoW enterprise. As a common business language, SFIS standardizes financial reporting across DoW by shifting the focus from appropriation categories to program-based accounting, enabling revenues and expenses to be reported by programs aligned with major goals. This structure enables decision-makers to compare program activities and costs across the Department efficiently and provides a consistent basis for valuing all DoW programs, assets, and liabilities.

5.1.1. SFIS compliance is mandatory for all modern accounting and financial systems that process financial transactions, while older legacy systems are evaluated on a case-by-case basis. As an enterprise-wide standard, SFIS categorizes financial information to enable decision-makers to compare programs across the DoW. This ensures the data is detailed enough for effective retrieval and auditing and aligns with federal standards for high-level financial statements

5.1.2. Systems must adhere to all SFIS Business Rules and post data element transactions using the required USSGL accounts and accounting standards. To guide implementation and verify compliance, DoW Component program managers are required to use the official SFIS checklist.

5.2 The DoW Standard Line of Accounting (SLOA)/Accounting Classification

SLOA/Accounting Classification is a specific subset of SFIS data that ensures accurate accounting transactions and interoperability between different systems. The SLOA/Accounting Classification requirement applies to all systems that handle business events with accounting impacts, from initial commitment to final disbursement, including logistics, contracting, and civilian pay and military pay.

5.2.1. To be compliant, systems must manage SLOA data as discrete elements and adhere to all applicable SFIS Business Rules. For legacy accounting systems and financial business feeder systems scheduled for retirement, the implementation of SFIS and SLOA/Accounting Classification is considered on a case-by-case basis, based on its potential impact on audit readiness.

5.2.2. Systems that support the financial management purchasing process such as contracts, intergovernmental orders, and payroll must be interoperable with SLOA/Accounting Classification data elements. All supporting transactions must be posted to the target accounting system using the proper USSGL accounts and accounting standards. For legacy systems with scheduled retirement, a transaction broker and/or translation services may be used to convert non-SFIS data elements into the required SFIS format.

5.3 SFIS Compliant Trial Balance

Target accounting systems must interface with the DDRS using an SFIS Compliant Trial Balance. The SFIS Compliant Trial Balance must meet all necessary USSGL and DoW financial reporting requirements.

5.4 Roles and Responsibilities

5.4.1. The OUSW(C) serves in a leadership role and establishes policy for the development of DoW enterprise business and financial systems, including SFIS implementation across DoW. The OUSW(C) is responsible for managing SFIS financial data elements; publishing and maintaining the SFIS resources repository; and collaborating with DoW Components and Enterprise Resource Planning (ERP) integration teams to properly implement SFIS. Serving as the primary office of responsibility for actions stemming from governing bodies like the Deputy's Management Action Group, Defense Business Council, and the Investment Review Board, the OUSW(C) provides expert business and financial system insight.

5.4.2. The Office of the Chief Information Officer leads the extraction and analysis of data to support business reform as well as leads the operation of a DoW-wide data governance body to oversee the preparation, extraction, and provision of common, transparent enterprise data throughout the business enterprise, including coordination on all data standards, including SFIS, cost management, and overall data management.

5.4.3. DoW Components are responsible for implementing SFIS for all applicable systems and ensuring interoperability between systems that have a financial impact. DoW Components must use the SFIS Compliance Checklist to assess and maintain SFIS compliance. In addition, DoW Components must ensure that all financial management systems (as defined in the Glossary) provide complete, reliable, consistent, and timely budgetary and proprietary transaction-level information. This data must be properly recorded in the general ledgers of the accounting systems of record to produce auditable budgetary, proprietary, and managerial cost accounting reports for both internal and external stakeholders.

5.4.4. The DCFO is responsible for maintaining the SFIS values library and ensuring all service provider applications and enterprise financial management systems are compliant with SFIS.

5.4.5. The SFIS web page contains several resources that define the SFIS requirements and provides tools to assist with compliance. Refer to the procedural document for a list of these resources, as well as a SFIS Compliance Summary table.

6.0 DEPARTMENT OF WAR STANDARD CHART OF ACCOUNTS

6.1 The DoW Standard Chart of Accounts (SCOA)

The SCOA is comprised of budgetary and proprietary USSGL accounts and related DoW standard account extensions required for consistent USSGL implementation, Component trial balance consolidation, and compliance with OMB and Treasury budgetary and financial reporting requirements. The OUSW(C)/CFO issues enterprise-wide implementation guidance to (a) reduce customization of accounting systems; (b) eliminate departmental reporting system translations and account value crosswalks; (c) improve comparability of data across accounting systems; and (d) improve consolidation of data across accounting systems for DoW-wide reporting.

6.1.1. The basic SCOA structure consists of a 6-digit USSGL account number followed by a period and a 4-digit DoW account extension. SGL accounts with an extension of ".9000" (e.g., 101000.9000, 211000.9000) are identified as Treasury-level USSGL accounts. SGL accounts with extensions other than .9000 are DoW-specified accounts. The basic structure of the DoW SCOA follows that of the USSGL. The basic 6-digit structure of the USSGL consists of:

100000	Assets
200000	Liabilities
300000	Net Position
400000	Budgetary
500000	Revenue and Other Financing Sources
600000	Expenses
700000	Gains/Losses/Miscellaneous Items
800000	Memorandum

6.1.2. The DoW USSGL Transaction Library establishes enterprise-wide implementation requirements and provides a framework with detailed transaction and posting rules for updating existing financial systems and deploying new accounting systems. The library is a decomposition of the accounting transactions from the TFM, Part 1, Section III USSGL Supplement, that provides both budgetary and proprietary accounting entries for events occurring throughout the federal government. The library organizes generalized Treasury USSGL business event transactions into appropriate pairings of budgetary, proprietary, and memorandum accounts uniquely identified by DoW Transaction Codes (DTCs).

6.1.2.1. Components must not group multiple DTCs into one transactional posting, so that the individual transaction posts separately and supports each business event and is uniquely identified in the business process. While Component financial systems are not required to store and maintain the exact DTC reference used in the library for each posted transaction, Component or agency financial systems must maintain a chart of accounts and utilize general ledger posting logic that produces the same business event result as the DoW USSGL Transaction Library.

6.1.2.2. The SCOA, USSGL Transaction Library, Account Attribute Alignment File, and Tie-Points are updated as applicable following each corresponding Treasury update to ensure DoW policy aligns with the current USSGL Supplement.

6.1.3. All DoW accounting systems must report financial transactions to the Defense Department Reporting System (DDRS) using the account structure of the SCOA. Detailed attribute alignment at the SGL account level is updated concurrently with the SCOA.

6.1.3.1. Components must implement the SCOA to satisfy both internal and external reporting requirements. For external reporting, all budgetary and proprietary financial reporting data are summarized in DDRS into the six-digit USSGL accounts and GTAS standard attributes.

6.1.3.2. Components must ensure systems provide complete, reliable, consistent, and timely budgetary and proprietary transaction-level information and are recorded in accounting systems of record general ledgers to produce auditable budgetary, proprietary, and managerial cost accounting reports for internal and external stakeholders.

6.2 Budgetary and Proprietary Accounts

6.2.1. The SGL account structure provides a self-balancing set of budgetary accounts to record the appropriation, apportionment, allotment, allocation, commitment, obligation, and expenditure process. Debit and credit normal balance indicators drive the SCOA, so debits should always equal credits. The budgetary total and budgetary resources accounts should always equal the total status of budgetary resources accounts.

6.2.2. The SGL account structure provides a self-balancing set of proprietary accounts to report the results of operations and net position. Proprietary asset and liability accounts cover the collection and disbursement of funds, the proper classification of assets (e.g., Fund Balance with Treasury (FBwT), receivables, advances and prepayments, inventory, and fixed assets), and the recognition and proper classification of liabilities. Revenue and expense accounts measure the realization of revenues from the sale of goods and services, and the recognition of costs, including gains and losses through the use and consumption of assets. Total asset accounts should always equal total liability accounts plus net position.

6.2.3. Accurate posting of budgetary and proprietary transactions to the SGL enables budgetary, proprietary, and managerial cost accounting essential for good stewardship, proper financial control over resources, and financial reporting.

6.3 SCOA SGL Accounts

The SCOA identifies SGL accounts applicable to General Fund, Working Capital Fund (WCF), and Special and Trust Funds. The SCOA also identifies those USSGL accounts that do not apply to the DoW. Component accounting systems must, at a minimum, incorporate the SGL accounts and posting logic for applicable business processes and transactions. For example, general fund accounting systems must include, at a minimum, accounts designated as applicable to general funds, and not those restricted to working capital or special/trust fund systems. Similarly, WCF accounting systems must include accounts designated as applicable to WCF but not those accounts restricted to general or special/trust fund systems. Combined systems handling both general and WCF must include general ledger accounts for both, but not those restricted to special/trust fund systems. Components are not required to add accounts designated as not applicable for DoW.

6.4 Attributes For Treasury Reporting

The required account attributes for Treasury reporting of both budgetary and proprietary account information are defined in the TFM USSGL Supplement, Section IV. The data structure, syntax, and allowable values for those attributes are detailed in the SFIS Matrix and the SCOA Attribute Alignment File, both of which are located on the SFIS web page. When implementing general ledger accounts, all their assigned attributes must be included and correctly aligned.

6.5 Exemption Request

Components may request an exemption from standard DoW account alignment for certain SGL accounts if their specific mission area's business processes and transactions justify it. Additionally, Component system owners are required to review existing accounts and submit any changes to the OUSW(C)/CFO within 30 days of the annual SCOA update.

6.6 Recording Internal Fund Distributions

The SCOA includes five specific accounts for recording internal fund distributions within direct program authority. Refer to Volume 3 for policy on the use and application of these accounts at the Department and execution levels. Funds distribution guidance for the Military Services and Office of the SecWar Treasury Index-97 organizations is located at SFIS under the "DoW Accounting Scenarios" section.

7.0 UNDER SECRETARY OF WAR (COMPTROLLER) FINANCIAL MANAGEMENT AWARDS PROGRAM

7.1 Military and Civilian Members

Military and civilian members who make outstanding contributions to the improvement of DoW Financial Management may be recognized. Recognition for significant contribution(s) during the preceding calendar year, in the form of a memento such as an engraved plaque, is presented to the individual and team within each award category. Award categories include:

7.1.1. Contributions to Workforce Development at the Headquarters and Major Command level and Below Major Command level for both individual and team awards;

7.1.2. Contributions to Taxpayer Dollar Optimization at the Headquarters and Major Command level and Below Major Command level for both individual and team awards;

7.1.3. Contributions to Financial Integrity and Audit Results at the Headquarters and Major Command level and Below Major Command level for both individual and team awards;

7.1.4. Contributions to End-to-End Business Environment Optimization at the Headquarters and Major Command level and Below Major Command level for both individual and team awards;

7.1.5. Contributions to Data-Driven Decision-Making at the Headquarters and Major Command level and Below Major Command level for both individual and team awards; and

7.1.6. Contributions to Financial Management in a Contingency Operation at any level for both individual and team awards.

7.2 The Salute to Excellence in Government Service Awards

The Salute to Excellence in Government Service Awards specifically allow the USW(C) to recognize exceptional contributions made throughout the past calendar year in savings (recognizes actions that resulted in a significant savings to the taxpayer) and innovation (recognizes actions that resulted in significant innovations in financial management). The Financial Management Awards Program Board will recommend award winners to USW(C) based on the nominations submitted in the categories in subparagraphs 7.1.1 through 7.1.6.

7.3 Program Applicability

The program applies to any military member or DoW civilian employee of the Office of the Secretary of War, the Military Departments, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the DoW, the Defense Agencies, the DoW Field Activities, and all other organizational entities within the DoW. The individual or team's accomplishment must have occurred within the preceding calendar year.

7.4 Nomination Eligibility

Any military member or DoW civilian employee (to include Reserve Components) is eligible for nomination. General/Flag Officers, Senior Executive Service members, and contractors cannot be nominated for individual awards, but can be named and recognized as members of team awards.

7.5 Nomination Process

For details on the nomination process, including Award Levels, Types, and Categories, as well as Responsibilities and Award Criteria and Nomination Information, refer to the Volume 1 Supplemental.

8.0 ADVANA FM – COMMON ENTERPRISE DATA AND FINANCIAL MANAGEMENT ANALYTICS FOR THE DEPARTMENT OF WAR

8.1 Enterprise Data And Analytics Platform

The Enterprise Data And Analytics Platform, formally Advana, is the official DoW repository of common enterprise data, mandated by 10 U.S.C. §4506. To better align with Departmental priorities, its functions have been focused on two primary interconnected components:

8.1.1. The War Data Platform (WDP), maintained by the Chief Digital and Artificial Intelligence Office (CDAO), is the centralized data repository platform for the Department. The WDP serves as the authoritative, secure, and scalable data repository, ingesting and standardizing data from across the enterprise to support the National Defense Strategy.

8.1.2. Advancing Analytics for Financial Management (Advana-FM), governed by the OUSW(C), is the specific program that leverages the data within the WDP to achieve the Department's FM and audit goals. Its purpose is to provide specific decision-support analytics, reconciliation tools, and data products necessary to meet the Congressional and SecWar mandates for a clean financial audit.

8.1.3. The use of the WDP will ensure that any performance measure or data product that relies on DoW data originates from an authoritative source of transaction-level detail.

8.2 OUSW(C) ADVANA-FM Responsibilities

8.2.1. Leverage data within the WDP as a strategic asset for ADVANA-FM, connecting it with advancing technology to continuously advance analytic capabilities required to achieve full auditability across the Department.

8.2.2. Maintain alignment of ADVANA-FM capabilities and products with the functional requirements of FM and audit user communities as continuous development occurs, partnering with the appropriate officials to establish enterprise standards.

8.2.3. Acquire, incorporate, and standardize data to support the business domain areas that align with the organizational structure of the Department and the responsibilities of DoW Components.

8.2.4. Manage data sharing agreements with system owners to ensure data provided to the WDP is timely and accurate. Extract data from the relevant systems to facilitate DoW-wide analysis and management of business operations, and execute controls over data management.

8.2.5. Provide reasonable assurance to ADVANA-FM data consumers that data controls are clearly defined and executed in accordance with control objectives.

8.2.6. Maintain regulated security over the ADVANA-FM system and its data and ensure compliance with user access security requirements and DoW continuity of operations policy and planning.

8.2.7. Ensure sensitive activity data is secure and complies with DoW security classification guidance.

8.3 DoW Component ADVANA-FM Responsibilities

8.3.1. Provide authoritative source-level transactional data to the WDP from all DoW business systems daily, using the most cost-effective and secure methods available. The authoritative source-level transactional data must be obtained and imported by the WDP from the business system in which the data originated (i.e., not a separate data Warehouse or data lake but the system that originated the transaction). Where a strategy does not exist to provide such data, one must be developed in partnership with OUSW(C), ODCFO, FSM&I Directorate.

8.3.2. Sign agreements that govern accurate and timely transmission of data. DoW Components are responsible for defining business rules that map source data elements to the ADVANA-FM common data model. The ADVANA-FM common data model includes, but is not limited to, the Standard Financial Information Structure, the Procurement Data Standard, and subsequent domain-specific data models under development.

8.3.3. Use the ADVANA-FM for delivery of its Universe of Transactions to any entity that issues an audit request, data call request, or other bona fide requirement for reconciled transaction details.

8.3.4. Use the ADVANA-FM Feeder to General Ledger Reconciliations Audit Workbooks – Monthly reconciliations between disbursing, obligation, funding, and entitlement financial management systems and general ledger accounting systems.

8.3.5. Use the General Ledger to Unadjusted Trial Balance Reconciliations Audit Workbooks – Quarterly reconciliations between general ledger accounting systems and their unadjusted trial balance.

8.3.6. Use the Unadjusted Trial Balance to Adjusted Trial Balance Reconciliations Audit Workbooks – Quarterly reconciliations between the unadjusted trial balance and the adjusted trial balance within the Defense Departmental Reporting System (DDRS).

8.3.7. Use ADVANA-FM to reconcile FBwT.

8.3.8. Provide functional assistance to the ADVANA-FM, when necessary, to reconcile DoW Components' general ledger data to outputs from the DDRS and other required data reconciliations.

8.4 ADVANA-FM Business Domains

ADVANA-FM acquires, incorporates, and standardizes data to support the various business domain areas across the Department. Business domain examples include Acquisition Analytics, Budget Analytics, Executive Analytics, Health Analytics, Logistics and Supply Chain Analytics, People Analytics, Procurement Analytics, Readiness Analytics, among others.

9.0 FINANCIAL RECORDS RETENTION

9.1 Records Retention Policy Applicability.

This policy identifies the proper retention period for financial records that support financial transactions and financial statement balances, or that are necessary to document evidence of effective internal controls over financial reporting (e.g., reviews and approvals). This policy does not apply to related management records, such as maintenance logs, and other documents important for proper management of DoW operations but incidental to the support of financial transactions and balances, unless the records are being used as secondary evidence to support financial transactions and balances.

9.2 Record Retention Requirements.

National Archives and Records Administration (NARA) GRS 1.1 provides disposition authority for records created and received while carrying out an agency's financial management and reporting responsibilities. Financial management includes procuring goods and services, paying bills, collecting debts, accounting for all financial transactions, and monitoring net worth.

9.2.1. GRS 1.1 covers financial transactions as an administrative function common to all agencies, including but not limited to records of grants and cooperative agreements; financial transactions and reporting records; and contract records maintained by Federal agencies. However, GRS 1.1 does not cover all financial records and transactions conducted by DoW components. Personnel must coordinate with their DoW Component Records Management Program to ensure they meet all agency records management requirements. Examples include but are not limited to (a) contractor-maintained contract records which FAR governs, Part 4, Subpart 4.7; (b) student loan collection; or (c) seeking reimbursement for Superfund cleanups.

9.2.2. Supporting a financial statement audit is an example of "business use" where documentation must be retained for a longer period than required by NARA to preclude a scope limitation. During an audit, management must furnish a written representation regarding the availability of all financial records and related data, and the auditors must obtain a reasonable basis for an opinion. These guidelines must be supplemented by professional judgment that considers the specific circumstances related to each financial transaction.

9.2.3. For records supporting financial statement audits and held for purposes other than a financial statement audit that require a longer retention period, continue to follow appropriate DoW Component's document retention guidance. At a minimum, Components must comply with NARA and the DoW Component Records Management Program requirements

9.2.4. Consult your DoW Component Federal Records Officer for additional guidance regarding record retention. NARA approves all records identified in DoW's Component Records Disposition Schedules, which can contain additional financial records used in DoW business operations that are not listed in the NARA GRS.

9.3 Documentation Requirements:

DoW Component financial transaction records must be prepared, retained, and, at a minimum, support the following:

9.3.1. Authority. Evidence that the transaction was approved and/or certified in accordance with established requirements.

9.3.2. Amount. Evidence of transaction dollar values.

9.3.3. Date. Evidence of transaction dates to ensure transactions are recorded in the proper accounting period.

VOLUME 2
BUDGET FORMULATION AND PRESENTATION

1.0 GENERAL

1.1 Overview

1.1.1. Volume 2 provides general guidance on the formulation and submission of the budget requests to the Office of the Secretary of War (OSW) for the program and budget review submission, presentation, and justification of the budget requests to the Congress. It is intended as a comprehensive reference book on budget matters of the Department of War (DoW). Budget policy memoranda issued throughout the year, special instructions, and nonrecurring requirements unique to that year's budget cycle will provide any necessary changes or revisions to this standing document. The provisions of Volume 2 apply to all DoW military and specified civil functions. Data requirements established by this volume are exempt from the requirement for assignment of a Report Control Symbol.

1.1.2. Required budget exhibits and formats, corresponding instructions, procedures, and automated submission requirements can be found in the DoW FMR Volume 2 Supplemental, hereby referred to as Volume 2 procedures. For budget terminologies and definitions, refer to the Volume 2 glossary.

1.2 Purpose

Volume 2 provides budget and funding policies, exceptions to policies, general guidance on justification material, budget automation requirements, and specific guidance by appropriations, programs, and/or activities. This volume also contains business rules for Combatant Commands (CCMDs) on governing financial management arrangements. The scope and provisions in this volume apply to the OSW, the Military Departments (MILDEPs), the Defense Agencies, the CCMDs, and any other Defense Agencies and DoW Field Activities (hereafter referred to as "Components") that manage program and budget resources.

1.3 Authoritative Guidance

Refer to the authoritative guidance document posted on the FMR webpage.

2.0 GENERAL BUDGET SUBMISSION POLICIES

2.1 Funding Policies

2.1.1. Appropriations and Budget Activity Structure

Appropriation accounts form the structure of the President's Budget request and are the basis for congressional action. The appropriations are further organized into budget activities of appropriations with programs, projects, or activities for similar purposes. The criteria for determining expense and investment costs to support management of the DoW's programs, projects or activities, resource requirements are organized and categorized consistently within the

appropriation and budget activity structure. The following paragraphs provide guidance for categorizing resource requirements into the various appropriations.

2.1.2. Policy for Expense and Investment Costs

2.1.2.1. DoW policy requires cost definition criteria that can be used in determining the content of the programs and activities that comprise the defense budget. The primary reasons for these distinctions are to allow for more informed resource allocation decisions and to establish criteria for determining which costs are appropriate to the various defense appropriations.

2.1.2.2. The cost definition criteria contained in this policy are only applicable to the determination of the appropriation to be used for budgeting and execution. Cost definitions for accounting purposes are contained in the glossary of terms and definitions.

2.1.2.3. Costs budgeted in the Operation and Maintenance (O&M) and Military Personnel appropriations are considered expenses. Costs budgeted in the Procurement and Military Construction (MILCON) appropriations are considered investments. Costs budgeted in the Research, Development, Test, and Evaluation (RDT&E), Base Realignment and Closure, and Family Housing appropriations include both expenses and investments. Definitions for costs within the Defense Revolving Funds, (e.g., Defense Working Capital Funds (DWCF) and other WCF such as Defense Counterintelligence and Security Agency) are provided in the Volume 2 glossary. See Office of Management and Budget (OMB) Circular No. A-11 for more information regarding Revolving Funds.

2.1.2.4. Items procured from the DWCFs will be treated as expenses in all cases except when intended for use in production lines, weapon system outfitting, government furnished material (GFM) on new procurement contracts, for installation as part of a weapon system modification, major reactivation, or major service life extension, or otherwise provided by statute.

2.1.3. Full Funding of Procurement Programs

2.1.3.1. General Definition. A budgeting rule that requires the total estimated cost of a military useable end item, be funded in the fiscal year in which the item is procured. Under the full funding policy, the entire procurement cost of a weapon or piece of military equipment will be funded in the year in which the item is budgeted. An end item budgeted in a fiscal year cannot depend upon a future year's funding to complete the procurement. Regulations governing the full funding policy are also available in OMB Circular No. A-11.

2.1.3.1.1. The full funding policy is intended to prevent the use of incremental funding, wherein the cost of a weapon system is divided into two or more annual portions or increments. Thus, full funding provides disciplined approach for program managers to execute their programs within cost and available funding.

2.1.3.1.2. There are two general exceptions to the full funding policy. One permits the use of Advance Procurement (AP) funding for components or parts of an item that have long production lead times. The other permits advance procurement funding for Economic

Order Quantity (EOQ) procurement, which normally occurs in programs that have been approved for multiyear procurement (MYP). AP funding is used routinely and extensively in the procurement of components for major end items due to manufacturing and production lead times. The use of MYP must be approved by the Congress on a program-by-program basis. Congressional approval permits DoW to use a single contract to procure multiple copies of a given item that are scheduled to be procured across a series of years. MYP arrangements are governed by Title 10, United States Code, Section 3501 (10 U.S.C. § 3501). EOQ procurement involves procuring multiple copies of a key component of a weapon covered by an MYP at the start of the MYP period to achieve significantly reduced costs on that component.

2.1.3.2. Policy for Full Funding. The total estimated cost of a complete, military useable end item or construction project must be fully funded in the year it is procured. There are two basic policies concerning full funding.

2.1.3.2.1. The basic policy for full funding is to provide funds in the budget for the total estimated cost of a complete, military usable end item to document the dimensions and cost of a program.

2.1.3.2.2. Exceptions to the basic policy are advance procurement for long lead-time items, advance EOQ procurement, and MILCON projects with a total cost over $250 million. EOQ may be used only in connection with multiyear procurements. Advance procurement and EOQ efforts must be identified in an Exhibit P-10, Advance Procurement, for the Budget Estimate Submission and the President's Budget request. Annually, the OUSW(C) requests exception to policy, via official memorandum, before the President's Budget submission.

2.1.4. Multiyear Procurement

10 U.S.C. § 3501 and the annual DoW Appropriations Act require certain guidelines for approval, initiation, and execution of a multiyear contract. Multiyear Procurement (MYP) is a generic term describing the process, planning, and contract under which the government may contract for the purchase of supplies or services for more than one, but not more than five unless specifically approved in statutory language, program years. Such a contract may provide that performance during the second and subsequent years of the contract is contingent upon the appropriation of funds and may provide for a cancellation payment to be made to the contractor if such appropriations are not made. MYPs are budgeted and funded annually. MYP approval is predicated on:

2.1.4.1. Substantial Savings. The use of a multiyear contract may result in substantial savings of the total anticipated costs of carrying out the program through annual contracts.

2.1.4.2. Stability of Requirement. The minimum need for the property to be purchased is expected to remain substantially unchanged during the contemplated contract period in terms of production rate, procurement rate, and total quantities.

2.1.4.3. Stability of Funding. There is a reasonable expectation that throughout the contemplated contract period, the head of the agency will request funding for the contract at the level required to avoid contract cancellation.

2.1.4.4. Stable Design. There is a stable design for the property to be acquired, and the technical risks associated with such property are not excessive.

2.1.4.5. Realistic Cost Estimates. The estimates of the cost of the contract and the anticipated cost avoidance through the use of a multiyear contract are realistic.

2.1.4.6. National Security. Use of a multiyear contract will promote the national security of the United States.

2.1.4.7. In addition to the approval criteria, Congress requires that:

2.1.4.7.1. MYP contracts cannot be initiated for any system or component thereof if the value of the MYP contract would exceed $500 million unless specifically provided for in an Appropriations Act and an Act other than an Appropriations Act.

2.1.4.7.2. Proposed legislation and funding must accompany the MYP request in the President's Budget submission; or the MYP request must be formally submitted as a budget amendment.

2.1.4.7.3. Funds appropriated for the purchase of an end item under a multi-year contract may only be used for a complete and usable end item.

2.1.4.7.4. Funds appropriated for advanced procurement under a multi-year contract may only be used to fund the long lead items necessary for a complete and usable end item planned and budgeted for a subsequent fiscal year. Advanced procurement funds may also be used for EOQ procurements in connection with a multi-year contract when authorized by law.

2.1.4.7.5. Congressional defense committees must be notified at least 30 days in advance of a proposed contract award that: employs EOQ procurements in excess of $20 million in any 1 year of the contract; employs advance procurement leading to a multi-year procurement contract that employs EOQ procurement in excess of $20 million in any 1 year; or includes an unfunded contingent liability in excess of $20 million.

2.1.4.7.6. A multi-year procurement contract cannot be initiated for which the EOQ advance procurement is not funded at least to the limits of the government’s liability.

2.1.4.7.7. A multi-year procurement contract must provide for production at not less than the minimum economic rate given the existing tooling and facilities.

2.1.4.7.8. A present value analysis must be used to determine the present value, or real worth, of the multi-year savings. Comparing the multi-year contracting approach to a conventional annual-buy approach derives the savings requirements.

2.1.4.7.9. The Secretary of War (SecWar) must certify to the Congress that the support costs associated with the multiyear procurement with a value greater than $500 million are fully funded within the Future Years Defense Program (FYDP). Components must submit the certification letter to the OUSW(C)) at least 30 days prior to the anticipated contract award for approval, signature, and transmittal to the congressional defense committees.

2.1.4.7.10. Multi-year procurement contracts may provide for cancellation provisions to the extent that such provisions are necessary and in the best interests of the United States. The cancellation provisions may include consideration of both recurring and nonrecurring costs of the contractor associated with the production of the items to be delivered under the contract but may not include recurring costs associated with unfunded units. The Agency Head and the Under Secretary of War (Comptroller) (USW(C)) must approve the inclusion of recurring costs in a cancellation ceiling.

2.1.4.7.11. Before any multiyear procurement contract that contains a clause setting forth a cancellation ceiling in excess of $100 million may be awarded, the head of the agency concerned must give written notification of the proposed contract and of the proposed cancellation ceiling for that contract to the congressional defense committees. The contract may not be awarded until the end of a 30-day waiting period beginning on the date of such notification. MYP contracts cannot be terminated without a 10-day prior notification to the congressional defense committees.

2.1.5. DoW Requirements

2.1.5.1. The item should be technically mature, normally having completed RDT&E (including development testing, or equivalent) and Initial Operational Test & Evaluation (IOT&E), with relatively few changes in item design anticipated. Deliveries of production items will indicate that the underlying technology is stable. This does not mean that changes will not occur but that the estimated cost of such changes is not anticipated to drive total costs beyond the proposed funding profile.

2.1.5.2. Estimates should be based on prior cost history for the same or similar items or proven cost estimating techniques. Normally, production assets should have been delivered to obtain actual costs for the comparisons (exceptions include satellites and ships).

2.1.5.3. With the exception of funding for EOQ procurement and advance procurement for long lead-time items as defined in this document, multi-year procurement contracts will comply with full funding. The full funding policy applies to each individual year of the multiyear contract. Multi-year contracts cannot be used as a vehicle for incrementally funding the items across the fiscal years covered by the contract. The production lots on the contract must be the same as those described in the budget and advance procurement cannot be used to achieve a higher production rate for the end item. Funds cannot be “borrowed” from the amounts budgeted for items in the early fiscal years of a multi-year contract to begin work on items not budgeted until later fiscal years of the contract.

2.1.5.4. The inclusion of recurring costs in cancellation ceilings is an exception to normal contract financing arrangements and requires approval by the Agency Head (Refer to FAR 17.106-3(e)) and the USW(C).

2.1.5.5. An exception, to be approved by the USW(C), is needed to structure a contract with an unfunded cancellation ceiling. Justification explaining why an unfunded cancellation ceiling is the chosen acquisition strategy should be provided. This justification should specify what costs comprise the unfunded cancellation ceiling and why these costs are not funded under the full funding policy.

2.1.5.6. In keeping with the DoW policy of not relying upon industry to finance the cost of Defense programs, even on a temporary basis, the use of unfunded cancellation ceilings on multi-year contracts must be rare and not be unreasonably large relative to the total budget for any individual fiscal year.

2.1.5.7. Funds obligated for multiyear contracts must be sufficient to cover any potential termination costs. The costs of cancellation or termination may be paid from:

2.1.5.7.1. Appropriations originally available for the performance of the contract concerned;

2.1.5.7.2. Appropriations currently available for procurement of the type of property concerned, and not otherwise obligated; or

2.1.5.7.3. Funds appropriated for those payments.

2.1.6. Buy-to-Budget for Acquisition of End Items

Pursuant to 10 U.S.C. § 3069, the head of an agency making the acquisition may acquire a higher quantity of the end item than the quantity specified in applicable Appropriations Acts if the following conditions are met:

2.1.6.1. The agency has an established requirement for the end item that is expected to remain substantially unchanged throughout the period of the acquisition.

2.1.6.2. It is possible to acquire the higher quantity of the end item without additional funding because of production efficiencies or other cost reductions.

2.1.6.3. The amount of funds used for the acquisition of the higher quantity of the end item will not exceed the amount provided under that law for the acquisition of the end item.

2.1.6.4. The amount provided is sufficient to ensure that each unit of the end item acquired within the higher quantity is fully funded as a complete end item.

2.1.7. Noncompetitive Acquisitions

The acquisition of additional quantities is limited to not more than 10 percent of the quantity approved in the justification and approval prepared pursuant to 10 U.S.C. § 3069.

2.1.8. Competitive Acquisitions

Congressional notification is not required for congressional acquisitions unless the end item being acquired in a higher quantity is an end item under a tactical missile program or a munitions program. For non-competitive acquisitions, the agency head must notify the congressional defense committees of the decision not later than 30 days after the date of the decision.

2.1.9. Transportation

2.1.9.1. First Destination Transportation (FDT) is the transportation required to deliver new, an upgraded model, or recapitalized production items from the manufacturer's plant or source of procurement to the first point of delivery where the Component takes possession and/or ownership of that item. The procurement source, as used herein, is any supplier outside the DoW supply system or any DoW industrial activity that fabricates new materiel. The procurement source or the first point of delivery may be in the Continental United States (CONUS) or overseas. FDT is not applicable to components or items reworked by an industrial activity. In the case where the Government accepts the production item at the manufacturer's plant or source of production and legally owns the item, FDT extends to the first point of delivery for either use or storage by the Component. For shipments destined to overseas locations that will enter the Defense Transportation System, FDT terminates at the port of embarkation (CONUS or overseas).

2.1.9.2. Second Destination Transportation (SDT) is any transportation other than FDT.

2.1.9.3. Budgeting Responsibilities for Transportation

2.1.9.3.1. Transportation of Supply Management Materiel of the DWCFs. Transportation among the 50 states is financed by the supply management business area responsible for the shipment. Transportation of supply management standard items overseas is financed by the appropriation or fund ordering the materiel if within the definition of FDT, otherwise it is financed as SDT. Transportation of DWCF nonstandard items overseas is financed in the same manner as transportation of standard items overseas except for items that are shipped on a free-on-board (FOB) destination basis. In this case, the overseas shipment transportation cost is included in the cost of the nonstandard item and no additional transportation charges should be incurred for the overseas shipment.

2.1.9.3.2. Transportation of Items Procured by Other Than Procurement and O&M Appropriations, or DWCFs. In general, FDT is financed by the appropriation, which financed acquisition of the item; i.e., RDT&E appropriations for RDT&E materiel and MILCON appropriations for items that are shipped to support such military construction projects. All over-ocean shipment of subsistence items financed by the Military Personnel appropriations is considered as an exception and is financed as SDT.

2.1.9.3.3. Transportation of Items Procured by Procurement Appropriations. FDT is normally financed by the Procurement appropriation that financed

acquisition of the item. SDT is normally financed by the O&M appropriations. The following additional guidance applies:

2.1.9.3.3.1. Transportation costs integral to production contract price such as FOB destination charges are considered part of the end item unit price and are financed by the procurement appropriation that financed acquisition of the item.

2.1.9.3.3.2. All transportation of government furnished equipment and GFM prior to installation into an end item is considered FDT and is financed by the procurement appropriation that financed acquisition of the item.

2.1.9.3.3.3. The transportation of items that are not owned by DoW - such as nuclear materials and warheads that the Department of Energy (DOE) provides to the DoW, but the DOE retains ownership - is considered FDT and is financed by the procurement appropriation that financed the acquisition of the end item into which the item will be incorporated.

2.1.9.3.4. Transportation of Items Procured by O&M Appropriations. Transportation is financed by the O&M appropriation according to the FDT and SDT definitions.

2.1.10. Engineering Change Orders

Engineering change orders should be funded commensurate with the level of risk in the program.

2.1.11. Factory Training

Factory training course costs for initial cadre training are considered investment costs and should be budgeted and funded in the investment appropriation and the specific program used to procure the development, acquisition, or modification of the related end item. Temporary Duty travel costs of military or civilian personnel attending factory training courses are funded in the O&M appropriations. Factory training courses acquired for end items no longer in production are to be funded in the O&M appropriations.

2.1.12. Interim Contractor Support (ICS)

ICS is the maintenance and support of a new weapon system provided by a commercial vendor pending transition to organic support, contractor logistics support, or a combination of both. Because ICS is a major component of the initial logistics support of a newly fielded system and integral to program acquisition, ICS funding requirements should be budgeted in the Procurement appropriations. However, ICS is intended to provide support for the brief period between initial item deployment and the permanent organic support. All acquisition strategies should attempt to minimize ICS requirements and duration. ICS will only be funded in Procurement appropriations until the organic support date specified in the acquisition program baseline is achieved. Continued funding of ICS after the baseline support transition date will be approved on an exception basis.

2.1.13. Commercial Off-the-Shelf (COTS) and Non-Developmental Item (NDI) Procurement

Items purchased directly from a commercial source that can be utilized without alteration or modification are classified as COTS or NDI. All COTS and NDIs, including the first article and associated first article acceptance testing should be funded in the Procurement or O&M appropriations, as determined by the Expense and Investment criteria. If an end item requires design and development to accept the COTS or NDI, or if OT&E is required to determine military suitability and effectiveness; or if Live Fire Test and Evaluation is required to determine whether the COTS/NDI possesses survivability and lethality characteristics needed by operational forces, then the entire effort is not COTS or NDI, and funding for that effort should be budgeted in RDT&E. If a COTS or NDI is required for RDT&E test purposes, the cost is funded in RDT&E.

2.1.14. Spares and Repair Parts

This section provides instructions applicable to funding requests for spares and repair parts procured with direct appropriations in the Procurement Title.

2.1.14.1. Initial Spares and Repair Parts. Initial spares and repair parts will include those repairable components, assemblies, and subassemblies required as initial stockage at all levels including the pipeline to permit fielding of new end items. Whole spare engines will be classified as initial spares through the life of system.

2.1.14.2. War Reserve Spares and Repair Parts. War reserve materiel (WRM) spares and repair parts for initial stockage will be budgeted in replenishment except for whole spare engines in accordance with the definitions. See subparagraph 2.1.22, DWCFs - War Reserve Materiel, for additional budgeting WRM policies.

2.1.14.3. The O&M accounts will finance the purchase of depot level repairables and consumable repair parts, primarily through the DWCF, for maintenance of all Class IX equipment (excluding medical peculiar repair parts).

2.1.14.4. Spares budgeting can be aggregated by weapon system except for Selected Acquisition Report systems.

2.1.15. Direct Budget Plan

This plan includes those items of materiel to be purchased for delivery to service inventory and those procurement programs that support the acquisition of materiel for United States Forces. Financing for the direct budget plan is derived from: new budget authority provided by the Congress and the transfer of resources from other appropriations. A portion of DoW materiel acquisition costs may also be funded by offsetting collections from materiel sold for replacement under the authority of 22 U.S.C. Chapter 39. Such collections represent proceeds providing direct resources and there is no specified time limit for the replacement under this authority. However, the replacement may require prior congressional approval. When dealing with reimbursements involving the sale of materiel, three situations can arise:

2.1.15.1. Sale for Replacement with Like Items. Replacement of materiel using proceeds from sales is authorized under 22 U.S.C. Chapter 39 without further congressional approval, so long as the item sold will be replaced with an item of the identical type, model, and series or a modified version of the same basic model. For an ammunition item, replacement with any round that provides the same warfighting mission capability is authorized, provided the round to be purchased has been previously approved by the Congress for procurement, and the inventory objective presented to the Congress is not exceeded. Obligations to replace the assets will be recognized as direct obligations.

2.1.15.2. Sale for Replacement with Dissimilar or Modified Items Requiring Congressional Approval. In this situation, an item of materiel is sold and will require replacement to compensate DoW inventories for the resultant loss of capability or readiness. Because of one or more circumstances, the replacement item will not be identical to the item sold. It must, however, be a later series or modified version of the same basic model or an acceptable substitute item used in the requirements computations.

2.1.15.3. Proceeds from Materiel Sales with No Intention to Replace. All other proceeds for items not replaced will be deposited into Miscellaneous Receipts of the United States Treasury.

2.1.15.3.1. Items sold from inventory with a unit cost less than $5,000 will be treated as a replacement with like item if an improved model of the same end item is being procured, it provides the same warfighting capability, and the inventory objective presented to Congress is not exceeded.

2.1.15.3.2. If an item is eligible for replacement and is not replaced, the reimbursement should be treated as a "free asset." In this situation, an item of materiel is sold and will not require replacement. All free assets from FMS transactions are required to be deposited into the United States Treasury Miscellaneous Receipts or the Special Defense Acquisition Fund as defined in Volumes 3 and 15.

2.1.16. Reimbursable Budget Plan

This plan includes those items of materiel to be purchased for delivery to and use by customers. Financing for the reimbursable budget plan is derived from:

2.1.16.1. Customer orders received for items (not stocked by or purchased for procuring service use) to be purchased for direct delivery to a customer. (Direct citation of customer funds for procurement against this type of order is encouraged where common components and/or common assembly with service production of similar items are not involved.)

2.1.16.2. Customer orders received or to be received, for items common to the procuring service and customer for direct delivery to the customer.

2.1.16.3. Where the materiel item will be made available from on-order quantities under an existing contract of a MILDEP, the sales transactions will be reflected as reimbursable

transactions. The quantities and costs of the replacement procurement will be included in the reimbursable program.

2.1.16.4. Where the materiel item will be made available directly from a contract awarded after the date of the sales agreement and the contract includes a particular quantity of the item to fulfill the sales agreement, the transaction will be reflected as a direct cite transaction.

2.1.17. Budgeting for Information Technology (IT) and Automated Information Systems

2.1.17.1. IT and Automated Information Systems that are not embedded in weapons systems and/or major end item procurements are budgeted according to the investment and expense criteria (see paragraph 2.1) and the appropriation or fund's purpose.

2.1.17.2. The correct appropriation for budgeting an IT effort is dependent on the activity and the underlying tasks that make up the IT effort. RDT&E activities and Revolving Fund activities follow unique procedures as noted in the following paragraphs. All other activities budget for IT efforts based solely on the underlying purpose for the IT effort.

2.1.17.3. An IT effort may require funding for more than one appropriation. The underlying purpose for each discrete task within an IT effort determines the correct appropriation for budgeting of that task. An effort that is so broadly defined that it contains separate tasks appropriate to budgeting in different appropriations should be separated into discrete tasks, each of which is budgeted in the correct appropriation.

2.1.18. Appropriation Determination

2.1.18.1. RDT&E Appropriations. Development, test, and evaluation requirements, including designing prototypes and processes, should be budgeted in the RDT&E appropriations. The RDT&E funds should be used to develop major upgrades increasing the performance envelope of existing systems, purchase test articles, and conduct developmental testing and/or initial operational test and evaluation prior to system acceptance. In general, all developmental activities involved in bringing a program to its objective system are to be budgeted in RDT&E.

2.1.18.1.1. Reaching the objective system, as defined in the requirements documents, is a critical determinate. Some software programs, particularly those following a spiral or incremental development pattern, may be approved for initial fielding even though the early capability is below the objective system requirements. The follow-on development and test activities required to reach the objective system performance will be budgeted in RDT&E.

2.1.18.1.2. COTS systems that require engineering design, integration, test, and evaluation to achieve the objective performance will be budgeted in RDT&E.

2.1.18.1.3. The acquisition, operation and maintenance of IT systems that are used exclusively to support RDT&E activities will be budgeted and funded within an RDT&E appropriation.

2.1.18.2. Procurement Appropriations. Acquiring and deploying a complete system with a cost of $350,000 or more is an investment and should be budgeted in a Procurement appropriation. Complete system cost is the aggregate cost of all components (e.g., equipment, integration, engineering support, and software) that are part of, and function together, as a system to meet an approved documented requirement. For modification efforts, only the cost of the upgrade (e.g., new software, hardware, and technical assistance) is counted towards the investment threshold. The total cumulative cost of the system is not considered when deciding what appropriation to use to fund modernization.

2.1.18.2.1. Procurement of fully developed and tested modification kits and associated installation, including technical assistance is financed from Procurement appropriations. Equipment purchased after successful system testing and a favorable fielding decision is funded with procurement dollars.

2.1.18.2.2. Proprietary software carries a copyright from the vendor that prohibits duplication or modification. Essentially, the purchaser is buying a license from the vendor to use the software on a particular system. Proprietary software is an investment, subject to the expense-investment criteria, unless it is financed on an "annual fee" basis. In the latter case, it is an expense item properly financed in RDT&E or O&M.

2.1.18.3. O&M Appropriations. Expenses incurred in continuing operations and current services are budgeted in the O&M appropriations. Modernization costs under $350,000 are considered expenses, as are one-time projects such as developing planning documents and studies.

2.1.18.3.1. Software releases categorized as iterations on the basic release and not involving significant performance improvements or extensive testing are considered a maintenance effort. Minor improvements in software functionality which are accomplished during routine maintenance may also be O&M funded.

2.1.18.3.2. Items purchased from a commercial source that can be used without modification (e.g., COTS and nondevelopmental items) will be funded in either the Procurement or O&M appropriations, as determined by the expense and investment criterion.

2.1.18.4. Pursuant to 10 U.S.C. § 2208 (k) (2), the IT systems developed and acquired through Defense Revolving Funds will be reflected in the Capital Budget if the system is $250,000 or more, unless otherwise specified in law. Systems costing less than $250,000 are funded through the Operating Budget.

2.1.18.5. Capitalization of Software Cost. For accounting purposes, the total cost of software should be capitalized when the total cost of the system exceeds the Department's capitalization threshold amount. Capitalization of software is not dependent on the appropriation used to fund its purchase or development. Further information on capitalization may be found in Volume 4, section 7.

2.1.19. RDT&E Appropriations

2.1.19.1. RDT&E will finance research, development, test, and evaluation efforts performed by contractors and government employees, including procurement of end items, weapons, equipment, components, materials and services required for development of equipment, material, or computer application software. Additional information on Development Test and Evaluation (DT&E) and OT&E are provided in subparagraph 2.1.21.5. (Test Articles and Test Support).

2.1.19.2. RDT&E will finance the operation of research and development (R&D) installations and activities engaged in the conduct of R&D programs, including direct and indirect efforts, expense, and investment costs.

2.1.19.3. RDT&E will finance the acquisition or construction of industrial facilities costing less than $4 million at Government-owned, Government-operated (GOGO) facilities under the criteria of DoD Directive (DoDD) 4275.5 as provided for under 10 U.S.C. § 2805 (unspecified minor construction). Use of RDT&E funds for acquisition and construction at contractor owned or contractor operated government facilities is authorized under 10 U.S.C. § 2353.

2.1.19.4. Pursuant to 10 U.S.C. § 2810, military construction projects for innovation, research, development, test, and evaluation may be financed with RDT&E appropriations.

2.1.20. RDT&E - Related Appropriations

2.1.20.1. Equipment and material approved for production and intended for operational use or inventory upon delivery will be funded in the procurement appropriations. Product improvement within the current performance envelope on systems in production will be funded in the procurement appropriations as long as no development or operational tests by an independent operational test agency are required.

2.1.20.2. Family housing construction and operation and maintenance at R&D installations and activities will be funded in the Family Housing appropriations.

2.1.20.3. Expenses of headquarters R&D management, organizational management analyses, test and evaluation for system sustainment personnel and command support, and product improvement within the current performance envelope for systems out of production will be funded in the O&M appropriations.

2.1.21. RDT&E - Specific Determinations

Additional details on the determination of proper funding for specific items or efforts are provided in the following paragraphs.

2.1.21.1. Organizational Funding Criteria

2.1.21.1.1. The RDT&E appropriation will finance expenses and investments for the operation and maintenance of R&D organizations, equipment (including R&D aircraft, ships, and ship-type vehicles), installations and activities (including those operated by contract).

2.1.21.1.2. Expenses for the support of tenant activities will be funded in accordance with the following:

2.1.21.1.2.1. Expenses for the support of tenant activities at R&D installations and activities will be RDT&E funded by the host activity, pending the establishment of reimbursable arrangements. Subsequent to the establishment of reimbursable arrangements, expenses for the support of the tenant will be funded by the tenant or as mutually agreed with the host.

2.1.21.1.2.2. Where reimbursable arrangements exist, expenses for the support of R&D activities or organizations that are tenant activities at installations having a primary function other than research, development, test, and evaluation will be funded by RDT&E.

2.1.21.1.2.3. Expenses for the support of R&D activities or organizations which are tenant activities at installations having a primary function other than R&D will be funded by the host, pending the establishment of reimbursable arrangements.

2.1.21.1.3. Expenses of R&D management and administrative organizations at major systems commands, headquarters organizations, and administrative organizations at DoW component departmental headquarters levels (except for the Direct Report Program Manager – Golden Dome, the Defense Advanced Research Projects Agency and the Missile Defense Agency) will be financed in the O&M appropriations.

2.1.21.1.4. Expenses and investments for the operation and maintenance of major range and test facilities, as defined under DoDD 3200.11, that conduct developmental and operational testing as a primary mission as determined by workload, will be financed by the RDT&E appropriation. Major range and test facilities that primarily support testing after system acceptance for operational use or training exercises will be financed in the O&M appropriations.

2.1.21.1.5. Costs of evaluating organizational structure and distribution of function, administrative operating policies, procedures, methods and systems (management studies) and applications of the management sciences to improve effectiveness in carrying out assigned functions are financed in the O&M appropriations.

2.1.21.1.6. Expenses of operational military forces having a primary mission other than R&D and not specifically assigned to R&D that may, from time to time, be engaged in or support R&D activities, will be funded in the O&M appropriations.

2.1.21.2. Facilities Construction and Modification. When it is determined that DoW financing of real property projects is required, the projects will be programmed, budgeted, and financed as follows:

2.1.21.2.1. GOGO Facility on Military Installations. When GOGO property will be constructed on a military installation, such construction will normally be financed as a MILCON project. Construction of facilities using RDT&E appropriations is limited to $150 million per fiscal year, pursuant to 10 U.S.C. § 2805 (unspecified minor construction). All minor construction must result in a complete and usable facility. In no event are two or more construction projects or minor and major construction projects to be contrived to be a usable facility. Construction projects at R&D installations and activities whose costs are greater than $4 million will be financed by the MILCON appropriation in accordance with section 7.

2.1.21.2.2. Government-Owned, Contractor-Operated (GOCO) Facility

2.1.21.2.2.1. When the GOCO facility is on a military installation (post, camp, station, or base), the primary funding is the MILCON appropriation. However, if the facilities are contractor-operated, and the contractor is solely responsible for the complete and total operation and maintenance of the facility complex, construction may be financed in Procurement or RDT&E in accordance with DoDD 4275.5 and 10 U.S.C. § 2353 criteria. New construction or improvements having general utility are not authorized under 10 U.S.C. § 2353.

2.1.21.2.2.2. When GOCO facilities are constructed on government property other than a military installation, the Procurement or RDT&E appropriation will finance the construction in accordance with DoDD 4275.5 criteria.

2.1.21.2.3. Contractor-Owned, Contractor-Operated Facility. Pursuant to 10 U.S.C. § 2353, a research or development contract may provide for the acquisition, construction, or furnishing of facilities and equipment that are necessary for the performance of the contract to the contractor. Improvements having general utility or new construction are not authorized under 10 U.S.C. § 2353. Facilities that would not be readily removable or separable without unreasonable expense may not be installed or constructed on property not owned by the government, unless the contract contains:

2.1.21.2.3.1. A provision to reimburse the government for the fair value of the facilities;

2.1.21.2.3.2. An option for the government to acquire the underlying land; or

2.1.21.2.3.3. An alternative provision that protects the interests of the United States in the facilities.

2.1.21.2.4. All proposed RDT&E real property facilities will be identified to Congress in accordance with Volume 2, section 6.

2.1.21.2.5. The Family Housing appropriations will provide for Family Housing construction and Family Housing O&M at R&D installations and activities.

2.1.21.3. Equipment. RDT&E appropriations will finance the development, design, purchase, installation, and acceptance testing of equipment or instrumentation required to support RDT&E activities. Costs of specialized equipment and instrumentation required for the support of RDT&E contractor effort at GOCO activities will be financed in RDT&E. DoDD 4275.5 applies. Installation costs include directly related foundations, shielding, environmental control, weather protection, structural adjustments, utilities, and assets. Installation costs are excluded from RDT&E financing if the effort is accomplished concurrently with a MILCON project, and in these instances, the MILCON appropriation finances the installation cost. To the extent that equipment installation occurs at a government activity and the cost exceeds $4 million, no new facility or physical outer dimension expansion to an existing facility can result from an RDT&E funded equipment installation project.

2.1.21.4. Establishment of Pilot Line and Tooling Requirements

2.1.21.4.1. The costs associated with establishing an initial pilot line, which are necessary to acquire a limited number of representative items for test purposes, including the test items, will be financed by RDT&E. All items and costs associated with maintaining the initial pilot line beyond the quantity sufficient to test for operational acceptability will be financed from other appropriations.

2.1.21.4.2. When an end item under development has also been approved for procurement, operational use, or included in the force structure, then hard tooling requirements common to both the development and procurement phases will be financed by Procurement appropriations. When an end item under development has not been approved for procurement, operational use, or included in the force structure, then tooling and other preliminary production facilities required to produce realistic development items for test and evaluation will be financed by RDT&E, even though such tooling and facilities might later be used for production.

2.1.21.5. Test Articles and Test Support

2.1.21.5.1. As a general rule, the procurement of test articles and test support, including "Special Support" costs and "Command Support" costs (see Glossary of Terms – RDT&E), for all RDT&E tests preceding and leading to acceptance for operational use will be RDT&E funded. Test articles and components or materials to be assembled into test articles must be budgeted in accordance with the need for them in the development and test program. Purchases of fully configured or near fully configured test articles (e.g., off-the-shelf drones) should be budgeted in accordance with the need for full units to test.

2.1.21.5.1.1. Development and preproduction prototypes (RDT&E financed) will be used for DT&E, including scientific, technical and weapons effects tests. DT&E programs must provide complete and reliable data that can be used to estimate the military utility of new items as a basis for considering decisions to continue engineering development. To this end, it is essential to plan, program, budget, and fund for an adequate number

of R&D articles for development, test and evaluation that will be fabricated, manufactured, or produced in a realistic preliminary production manner and thus provide such data.

2.1.21.5.1.2. Development and preproduction prototypes (RDT&E financed) will be used for OT&E. When used, they must be sufficiently representative of the expected production items to provide from OT&E a valid estimate of production items operational effectiveness and suitability (including compatibility, interoperability, reliability, maintainability, and logistic and training requirements).

2.1.21.5.1.3. Low Rate Initial Production (LRIP) assets. LRIP, as part of the Major Capability Acquisition procedures in DoD Instruction (DoDI) 5000.85, provides production-configured or representative articles for operational test (RDT&E funded; establishes an initial production base for the system (procurement funded); and permits an orderly increase in production rate for the system (procurement funded). If the asset will be used for developmental or operational testing by an independent operational test agency, then it should be procured with RDT&E funds. The LRIP quantity will be determined as part of the Production and Deployment approval (Milestone C). RDT&E funds will be budgeted to procure items required for operational tests to facilitate testing of LRIP assets. LRIP test articles must be specifically identified in the budget documentation. Should LRIP items beyond the test quantity be required, they would need to be included in the Milestone C decision and a determination made at that time. Special guidance relating to the transition of ships and space systems from RDT&E to Procurement is provided in subparagraphs 2.1.21.8.

2.1.21.5.2. Testing that is not associated with RDT&E, or testing conducted after fielding or acceptance for operational use, such as the examples noted in subparagraphs 3.13.3.5.2.1 through 3.13.3.5.2.4, will be financed in the procurement or O&M appropriations, as appropriate.

2.1.21.5.2.1. Acceptance, quality control, and surveillance testing of articles obtained for other than RDT&E purposes.

2.1.21.5.2.2. Routine testing in connection with logistic support.

2.1.21.5.2.3. Testing related to the operation and maintenance of equipment and material acquired for use under appropriations other than RDT&E.

2.1.21.5.2.4. Testing required to prove the capability of facilities to produce items which have been approved for production will be funded by procurement as part of the initial acquisition cost.

2.1.21.5.3. The acquisition of commercial or non-developmental items for testing and operational evaluation that do not require RDT&E engineering, design or integration effort will be financed by O&M or procurement appropriations (as determined by the Expense and Investment criteria). O&M appropriations will finance personnel and command support costs for test and evaluation of commercial and non-developmental items by field units for doctrine, operational, or organizational purposes. If the commercially available item is modified and

requires testing prior to approval for service use or inventory, it will be funded in RDT&E as are all developmental items.

2.1.21.5.4. Articles (including end items, weapons, equipment, major test vehicles such as ballistic missile boosters or upper stages, components and materials) of types regularly procured to meet established general requirements such as operational training, operational use, or inventory which are assigned or allocated on a priority basis for use in support of approved R&D programs and which are not consumed in testing, may be financed by Procurement or O&M appropriations using the expense and investment criteria. In addition, excess items that can be made available on a priority basis from existing inventory will be reassigned for use in R&D test and evaluation programs without reimbursement. However, all items expected to be consumed in R&D test and evaluation will be financed by RDT&E appropriations.

2.1.21.5.5. Consumable rounds of ammunition or rounds of similar tactical missiles otherwise procured in quantity for inventory under existing procedures, may be issued on a priority basis for use in R&D testing without reimbursement.

2.1.21.5.6. The acquisition of test articles will be financed by O&M or Procurement appropriations (as determined by the Expense and Investment criteria), and personnel and command support costs will be financed by O&M appropriations for all test and evaluation (T&E) subsequent to acceptance for operational use and T&E to demonstrate the operational employment or develop operational tactics (i.e., subsequent to RDT&E efforts).

2.1.21.6. Modification and Refurbishment of Test Articles

2.1.21.6.1. Costs associated with modifying or reconfiguring an existing item for R&D test purposes will be funded in RDT&E. When an item that has been diverted from another use is not consumed in R&D testing, any costs necessary to return the item to serviceable condition or to its pre-existent configuration will be financed in RDT&E.

2.1.21.6.2. If an article initially acquired with RDT&E funds as part of an RDT&E test effort is still available at the completion of the test program, it may be reassigned for operational use or inventory. The cost to modify such an article for operational use would be borne by the Procurement and O&M appropriations, as appropriate.

2.1.21.7. Product Improvement

2.1.21.7.1. Product improvement of major end items and major components of major end items currently in production or in the operational inventory, is subject to the following:

2.1.21.7.1.1. Redesign of an item to increase the current performance envelope, including related development, test and evaluation effort, will be financed in RDT&E.

2.1.21.7.1.2. Engineering services or related manufacturing efforts applied to an item currently in production to extend its useful military life within the current performance envelope should be funded by procurement appropriations as long as no DT or OT&E by an independent operational test agency is required. If DT or OT&E by an independent operational test agency is required, RDT&E finances the improvement. The phrase "an item currently in production" implies that the item has end item procurement funding in the year the product improvement effort will take place. The determination that the improvement is “within the current performance envelope” and that “no DT or OT&E by an independent operational test and evaluation agency is required” should be determined after formal coordination with the Director, OT&E.

2.1.21.7.1.3. Engineering services or related manufacturing efforts applied to an out-of-production, but still operational item to extend its useful military life within the current performance envelope should be financed by O&M appropriations as long as no DT or OT&E by an independent operational test agency is required. If DT or OT&E is required by an independent operational test agency, RDT&E finances the improvement. The determination that the improvement is “within the current performance envelope” and that “no DT or OT&E by an independent operational test and evaluation agency is required” should be determined after formal coordination with the Director, OT&E.

2.1.21.7.2. While existing off-the-shelf equipment may be procured with procurement funds, items that require engineering design, integration, test, or evaluation effort must be procured with RDT&E funds in sufficient numbers to support such effort.

2.1.21.7.3. Costs of fully developed and tested modification kits and associated installation costs should be financed from procurement appropriations. If DT or OT&E by an independent operational test agency is required, RDT&E finances the RDT&E effort and the kits required for RDT&E testing. Procurement funds would then be used to procure the follow-on kits.

2.1.21.7.4. Aircraft engine component improvement costs are budgeted in RDT&E appropriations to provide for continuing improvements in the aircraft engines in the areas including but not limited to reliability, maintainability, durability, correction of Service-revealed deficiencies, safety of flight, and time-between-overhaul. Component Improvement is established at the point in time when:

2.1.21.7.4.1. There has been a Government acceptance of the first procurement funded engine, and

2.1.21.7.4.2. The engine has successfully completed stringent qualification or verification testing to demonstrate initial production suitability subject to:

2.1.21.7.4.2.1. Compliance with contractual specifications, performance guarantees, and military specifications, as applicable to individual Component requirements;

2.1.21.7.4.2.2. Completion of endurance testing representative of the anticipated Service use to include completion of specified post test inspections, certification, and penalty runs;

2.1.21.7.4.2.3. Demonstration of prescribed performance capability; and

2.1.21.7.4.2.4. Accomplishment of prescribed durability, reliability, and environmental testing.

2.1.21.8. Ships and Ship-type Vehicles

2.1.21.8.1. An experimental test bed type of ship or an experimental ship will be financed by RDT&E appropriations. This will include all such experimental ships required to support an approved R&D program or for the purpose of experimenting with new or radical ship concepts or to demonstrate the military usefulness of new ship designs, configurations or fabrication techniques, when the ship-type test vehicle itself can be predicted to be consumed or expended in testing, or to have little or no operational usefulness in the force structure. Prototype ships, when designated by the SecWar, are included.

2.1.21.8.2. A ship of demonstrated, conventional concept and design having a high probability of military usefulness and inclusion in the force structure, even though first of a class, will be constructed using procurement funds. A ship of demonstrated conventional concept and design temporarily or permanently assigned from inventory to support R&D effort will be furnished without reimbursement, but the cost of providing all R&D types of equipment or instrumentation, the cost of "nonstandard" modifications of the ship required to make the ship suitable for R&D support, and the cost of any related restoration to conventional or operational ship conditions upon release from assignment to R&D, will be financed by RDT&E appropriations.

2.1.21.8.3. Preliminary or contract design for new ship construction will be financed by RDT&E appropriations, including contractor and field activity effort costs. Detail design for ships appropriate for procurement funding will be funded by procurement accounts.

2.1.21.8.4. Land-based or sea-based combat system test installations will be financed by RDT&E appropriations.

2.1.21.9. Space Systems. The following guidance describes the circumstances in which RDT&E funds may be used for the acquisition of operational space systems.

2.1.21.9.1. Satellites. Because satellites are normally placed into operational use rather than expended in testing, the early satellites or first launch of a new design may be financed with either RDT&E or Procurement appropriations as provided below.

2.1.21.9.1.1. Funding Determination. For programs in which satellites are launched individually, the first two satellites may be financed with either RDT&E or Procurement appropriations. The third and subsequent satellites will in all cases be financed with

Procurement appropriations. For programs in which multiple satellites are launched with a single rocket (including proliferated constellations), the satellites comprising the first launch may be financed with either RDT&E or Procurement appropriations depending upon which budgetary approach is most consistent with the contract structure. Satellites for the second and subsequent launches will in all cases be financed with Procurement appropriations.

2.1.21.9.1.2. Full Funding and Advance Procurement. The full funding policy will apply to all satellites budgeted in Procurement appropriations. Advance procurement funding can only be used to purchase specialized long-lead components that take an exceptionally long time to build and the total advance procurement funding for a satellite should not exceed 20 percent of the unit cost of the satellite.

2.1.21.9.1.3. Exceptions. Exceptions to this policy must be submitted in writing to OUSW(C) for approval and must be signed by the Service Financial Management Executive and Service Acquisition Executive. Exception packages must identify the specific satellites for which the exception is requested and must demonstrate, with supporting evidence from the program's approved acquisition strategy, a developmental basis for RDT&E financing. Acceptable bases are limited to: (a) the satellites incorporate a new or materially modified design that has not been finalized and that requires further engineering design, integration, or developmental testing to reach the objective system; or (b) the satellites are the minimum quantity required to constitute a testable increment for the system or constellation that cannot be completed on the ground. A request to avoid the budgetary effects of the full funding policy, including funding profile or affordability considerations, does not constitute an acceptable basis. Exception packages must also state the quantity of satellites covered and the planned point of transition of the balance of the program, including replenishment units, to Procurement appropriations. For approved exceptions to policy, RDT&E budget exhibits must clearly reflect the quantity of satellites funded based on annualized quantities, blocks of satellites, or launch events.

2.1.21.9.2. Ground Control and Ground Processing Systems. The design and implementation of ground control and ground processing systems is an integral part of the development of new satellite systems. The entire cost of the primary ground system (including but not limited to off-the-shelf workstations, and power supplies, but not including MILCON) will normally be financed with RDT&E appropriations. The cost of backup ground systems must be financed with procurement appropriations, and the full funding policy applies.

2.1.21.9.3. User Terminals. User terminals for space systems transition from RDT&E to procurement in the same manner as non-space-related communications and electronics equipment.

2.1.21.10. Joint Test and Evaluation (JT&E)

2.1.21.10.1. The JT&E program provides quantitative information used for analyses of joint military capabilities and to develop potential options for increasing military effectiveness. The program is complimentary to, rather than part of the acquisition process. A JT&E project brings two or more Military Services or other Components together to: assess Service system interoperability in joint operations; evaluate joint technical and operational

concepts, and recommend improvements; increase joint mission capability, using quantitative data for analysis; validate testing methodologies that have joint applications; improve modeling and simulation validity with field exercise data; provide feedback to the acquisition and joint operations communities; and improve joint tactics, techniques, and procedures. JT&E projects focus on improving the warfighter's capability to conduct joint military operations with existing equipment. DOT&E manages the JT&E program and coordinates with Combatant Commanders, the Joint Staff, and the Services to ensure warfighter involvement.

2.1.21.10.2. DOT&E funds the costs incurred for the direction, supervision, and performance of activities that are unique to the needs of the JT&E projects. When directed as Executive Agent for a particular JT&E project, the Component, Service, or CCMD is responsible for ensuring that all resources necessary for the successful accomplishment of the JT&E project are available to the Joint Test Director (JTD). This includes administrative, management and facilities support for the JTD. The Executive Agent support costs (O&M, Procurement, and RDT&E) are to be programmed and budgeted in accordance with established procedures.

2.1.21.11. Manufacturing Technology. The DoW Manufacturing Technology program, which demonstrates factory application of new or improved technology in producing defense items, will be financed in the RDT&E appropriations.

2.1.21.12. Development Efforts Related to Future Leased Services. When the provider of a leased service that will ultimately be financed in O&M requires initial funding to design or develop major changes or improvements to meet the government's requirement for that service, then the costs of such development efforts will be financed in RDT&E.

2.1.21.13. Subsystem Integration into Weapon Systems. R&D necessary for the integration of subsystems into weapon systems should be financed from the weapon system program. For example, the R&D cost of integrating an electronic warfare black box into an aircraft should be borne by the aircraft R&D program.

2.1.21.14. Engineering change orders should be funded commensurate with the level of risk in the program.

2.1.22. RDT&E - Incremental Programming and Budgeting Basis

The incremental budgeting policy provides that only those funds required for work in a given fiscal year will be included in the RDT&E budget request for that fiscal year for most classes of effort. The annual budget estimates for RDT&E projects and programs, including Director, Operational Test and Evaluation (DOT&E) programs, are to be prepared on an incrementally programmed basis (as opposed to the fully funded program basis used in preparing procurement budget estimates.) DoW Components will develop and present budget requests for DoW projects and programs in accordance with the principles and guidance in Volume 2 procedures.

2.1.22.1. There are requirements in which there is no logical way to divide the work. At times, it is clearly unfeasible to limit the contract to a shorter period, or the planned technical effort is such that no responsible contractor can be found who will accept a contract for

a less-than-completion increment. For these types of efforts that take longer than 12 months but less than 18 months, the DoW Component Comptroller may approve financing the total requirement in 1 fiscal year.

2.1.22.2. Budgeting for Termination Liability on Incrementally Funded RDT&E Contracts. The legal requirements of the Antideficiency Act and the long-standing policy of not committing a successor Congress to a course of action both make it necessary that the unliquidated obligation for an incrementally funded, multiple-year contract be sufficient at all times to cover the cost of terminating that contract for the convenience of the Government. Budgeting to cover termination liability will not increase the total amount budgeted for the program. It will require that the distribution of funds by fiscal year be shifted more towards the earlier years of the contract than if funds had been budgeted only to cover the actual bill to be paid in each year. The distribution of funds by fiscal year will be such that, if a contract is terminated at any point during the fiscal year, all termination costs can be financed from the unliquidated obligation on the contract without recourse to reprogramming of funds, supplemental appropriations, or awaiting the appropriation of funds for the succeeding fiscal year's funding increment. All programs must adhere to this policy with the following two exceptions, both of which are to be used rarely.

2.1.22.3. Special Termination Cost Clause (STCC). DoD FAR Parts 249.501-70 and 252.249-7000 permit the use of STCC in fixed-price incentive contracts and incrementally funded cost reimbursement contracts. If contracts containing STCC are terminated before completion, the special termination charges are covered by the unobligated balance of the applicable appropriation, subject to any congressional approval required for reprogramming. The extent to which the STCC can be used is limited to the ability of the DoW Component to cover expected termination costs from unobligated balances. A recordable obligation under the STCC arises when the contract is actually terminated. If a proposed STCC would require an above threshold reprogramming action when a program is terminated, the approval to use the STCC must be obtained from the OUSW(C) before the contract or contract modification is awarded. All STCCs, regardless of dollar amount, require prior notification of the House and Senate Appropriations Committees.

2.1.22.4. Statutory Waivers. The Department is not required to budget for, or obligate funds sufficient to cover, termination liability in connection with an incrementally-funded RDT&E contract if Congress has exempted the program or contract from that requirement. When this situation arises, the budget exhibits for the program must clearly indicate the value of the unfunded termination liability by year for the current year, budget year, and the outyears covered by the FYDP.

2.1.23. Revolving Funds - Operating Budget

The operating budget represents the annual operating costs of an activity or component, including depreciation and amortization expenses. See section 10 for additional information regarding operating budget for Revolving Funds (e.g., DWCFs).

2.1.24. Revolving Funds/DWCF – Mobilization/Surge Costs

2.1.24.1. Separate funding is provided for those costs related to mobilization and wartime surge capacity that would not otherwise be incurred to meet peacetime requirements. The prices of services and products provided to peacetime customers exclude these costs to more appropriately reflect consistent pricing between competing activities. Similarly, better visibility of surge or readiness requirements is provided to decision makers at every level. These "mobilization" costs, although funded and justified as direct appropriations to component budgets, are elements of business area costs and must be fully justified on the SM-3 and/or Fund-30 exhibits.

2.1.24.2. Unutilized and underutilized plant capacity (UPC) that is associated with the ability to satisfy a projected surge capability is considered a mobilization requirement to be funded by appropriated funds provided by the DoW Component having management responsibility for the Fund activity. Costs applicable to unutilized plant and equipment, such as depreciation, or maintenance, are not to be charged to the customers of the Fund activity.

2.1.24.3. The justification for costs related to mobilization and wartime surge capacity must identify the scenario assumptions or other basis for the requirement under which these costs were calculated. Additionally, a description of how these costs will be collected and accounted for in execution must be provided. The UPC Fund-30 exhibit will support the request for UPC Funding.

2.1.24.4. Refer to section 10 for additional information regarding Mobilization/ Surge Costs.

2.1.25. Revolving Funds/DWCF – War Reserve Materiel

War reserves are procured and maintained to meet wartime requirements as determined by the Strategic Planning Guidance (SPG). A direct appropriation to the Working Capital Fund in the Components' budget may provide funding instead of through customer rates. However, since the war reserve materiel will be under the management of supply management businesses, war reserve requirements will also be described and justified on the SM-3a exhibit. In addition, the Components will prepare exhibit SM-6 War Reserve Material to justify WRM Requirements. Section 10 provides detailed requirements and guidance.

2.1.26. Revolving Funds/DWCF – Military Personnel Costs

2.1.26.1. Military personnel assigned to DWCF activities will be included in the total cost of operations of DWCF activities at civilian equivalent rates and reflected in the stabilized rates charged to customers. This policy is based on the concept of total costing, which is designed to ensure that the total cost of producing products and services is being identified to both DWCF activities and customers.

2.1.26.2. The amount expensed for military personnel by DWCF activities and the amount reimbursed to the appropriate military personnel will be the same as the amount budgeted. The budget amount will equal the average end strength multiplied by the civilian equivalency rate

for each grade. The average end strength for the budget year(s) will be calculated using the average fill rate for the three prior years. The fill rate is calculated by dividing actual average strength by the authorized end strength for each grade. No adjustments will be made to the DWCF cost of operations to reflect the actual cost of military personnel employed by DWCF activities.

2.1.26.3. Refer to Volume 2 procedures for additional information regarding budget, formulation, execution, and reimbursement procedures.

2.1.27. Revolving Funds - Full Recovery of Costs/Setting Prices

2.1.27.1. All WCF business areas are required to set their prices based upon full cost recovery, including all general and administrative support provided by others. Prices are established through the budget process. Except for Public-Private Partnerships at Depot Maintenance Activities and other special circumstances specified in Volumes 2 and 11, prices remain fixed during the year of execution; actual costs are evaluated against revenue generated by workload at established prices; and the financial condition of the business assessed accordingly. Section 10 specifies pricing guidance for sales by DoW depot maintenance activities to private sector entities as part of depot maintenance public-private partnership agreements. Profits or losses will be determined at the end of the year and will be employed as a basis for evaluating operating efficiency.

2.1.27.2. Prices for every DoW Component business activity are established for each fiscal year. Once established, these prices are held constant (stabilized) through program execution unless fund balances require an out-of-cycle rate change. This stabilized rate policy serves to protect customers from unforeseen inflationary increases and other cost uncertainties and better assures customers that they will not have to reduce programs to pay for potentially higher than anticipated prices. In turn, this policy allows activities to execute the budgeted program level and permits a more effective utilization of fund resources.

2.1.27.3. Prices for the budget year(s) will be set to recover costs over the long run. This means that prices will be set to achieve an Accumulated Operating Result (AOR) of zero. During budget execution, business areas will likely have either a positive or negative Net Operating Result. Accordingly, prices in the budget year will be set to either increase to recover actual/projected losses or decrease to return or give back actual/projected gains in the budget year(s).

2.1.27.4. An activity group may request that AOR balances be adjusted via Non-Recoverable AOR or recovered or returned in out years beyond the budget year as a Deferred AOR. Any such request must be included in the budget submission and must demonstrate that the request will not adversely affect the cash balance of the activity group. A phased recovery schedule must be provided with any Deferred AOR request. The Revolving Funds and Integration Director will provide final approval regarding Non-Recoverable or Deferred AOR requests.

2.1.27.5. In the supply management businesses, the price setting process will be consistent with the rate changes approved during the budget review.

2.1.27.6. Refer to section 10 for additional information regarding full recovery of costs and the setting of prices.

2.1.28. Unplanned Gains/Losses

Under Special Circumstances, the Revolving Funds rules for pricing and operating loss recovery or gain distribution may be waived if one or more of the following conditions exist.

2.1.28.1. Fund Liquidity. Fund managers are expected to maintain a monthly total cash balance within their planned control limits. In general, activities will recover losses and return gains via rates set in the budget process for the budget year. However, if cash balances are projected to significantly breach the control limits, the Revolving Funds and Integration Director, or Service Fund Managers with the written permission of the Revolving Funds and Integration Director, may direct out of cycle rate adjustments or surcharges at any time to restore cash within the cash operating range. See section 10 for additional information regarding cash management policy.

2.1.28.2. Depot Maintenance Additional Requirements. Unplanned depot losses recouped in subsequent years may be financed with prior year funds from the customer provided all other criteria associated with prior year upward obligations are met.

2.1.28.3. Contingency or Emergency Operations. Fund managers may waive pricing and financing requirements to facilitate Department operations during times of war or other national emergencies. Notification of Fund Managers actions must be provided in writing to the Revolving Funds and Integration Director within 30 days of the event.

2.1.29. Public-Private Partnerships at DWCF Depot Maintenance Activities

2.1.29.1. Pricing guidance and requirements for sales of goods and services by DoW depot maintenance activities to private entities engaged in public-private partnerships are set forth in section 10. In general, such prices are subject to the requirements with the exception that the prices may be based upon the most recent actual and projected costs applicable to the workload, rather than upon approved stabilized billing rates. Rates and prices to private entity partners may also be tailored to include only those direct and indirect production overhead costs that contribute to the finished product or service. However, full General and Administrative (G&A) costs will continue to be allocated on the same basis as for DoW customers.

2.1.29.2. Fixed pricing of sales to private party entity partners, including multiyear fixed price agreements, is authorized when production costs can be reasonably predicted and the risk of future operating losses is not significant. Such fixed prices may include provisions for adjustments to accommodate the effect of scope-of-work changes, annual inflation, and specified contingencies. When future production costs or risks cannot be reasonably predicted, cost reimbursable pricing is more appropriate.

2.1.30. Revolving Funds – Capital Budgeting

2.1.30.1. Budgetary resources for capital investments will be separately identified in an approved capital budget. Capital investments, such as unspecified minor construction, automatic data processing equipment or software, and other equipment, will be justified within the capital budget. Refer to section 10 for additional information regarding capital budgeting. Once the Revolving Funds activity capitalized an asset, the asset will continue to be reported as a capital asset and depreciated until the book value of the asset reaches zero or its salvage value, as appropriate. See Volume 4 for additional information regarding accounting policy for capitalization thresholds.

2.1.30.2. Depreciation. All capital assets owned by activities in the Fund will be depreciated or amortized by the individual Component business area. Depreciation will be on a straight-line basis and based on the acquisition cost, less residual value when residual value is expected to be 10 percent or more of the acquisition cost, including installation and related costs. Refer to Volume 4, for additional information regarding accounting policy for depreciation.

2.1.31. Revolving Funds - Base Support

2.1.31.1. Interservice and intragovernmental support agreements, as identified in DoDI 4000.19, is reimbursable by the Revolving Fund activity to the extent that the specified support for the activity increases the host activity's direct costs (i.e., incremental direct cost). Costs associated with common use infrastructure are non-reimbursable, except for support provided solely for the benefit of one or more tenants. Support costs that are charged to a tenant Revolving Fund activity (i.e., reimbursable cost) must be measurable and directly attributable to the Revolving Fund activity. Indirect costs will not be included in reimbursement charges, except those included in stabilized rates charged for Revolving Funds mission products and services. Host activities (suppliers of base support) are permitted to waive reimbursement from tenants who use or benefit from available support without appreciably increasing the host activities' costs (i.e., revenues would be less than the anticipated expense of billing and disbursing funds).

2.1.31.2. Revolving Fund activities that use any of the common base support functions identified in DoDI 4000.19 (Interservice and Intragovernmental Support) are to reimburse host activities for this support. Reimbursement for Revolving Funds mission products and services (e.g., depot supply, depot maintenance, public works center services, information processing, communications, and software development) must be based on the approved stabilized rate. Other support incidental to the Revolving Fund activity's primary mission or purpose will be budgeted and reimbursed based on direct costs measurable and directly attributable to the Revolving Fund activity. Only the incremental change in cost attributable to the Revolving Fund activity (incremental direct cost) must be chargeable to the Revolving Fund activity. Indirect costs are not to be included as a cost to the Revolving Fund activity.

2.1.31.3. Refer to section 10 for additional information regarding base support budget exhibits.

2.1.32. Revolving Funds - Dual Funded Organizations

2.1.32.1. A dual funded organization is an organization that is funded (including reimbursable funding) by both Revolving Fund and other appropriations or accounts. In those instances where a function is funded with a combination of both Revolving Fund and appropriated funds, the function initially will be funded in its entirety either by the Revolving Fund or by appropriated funds. The determination of whether the particular function initially will be funded by the Revolving Fund or appropriated funds will be based on the predominance of definable units of measure for the function. Examples of definable units of measure include workload, productive hours, outputs, or ultimate use. The appropriation or account initially funding the function must be reimbursed by the other account(s) at the same unit of measure as was used to determine the initial funding source. The amount of reimbursement must be determined based on the relative portion of that unit of measure attributable to each part of the organization (or funding source) involved.

2.1.32.2. This policy does not change the policy for reimbursement for base support services provided by the Revolving Fund to tenant activities. The DoDI 4000.19 and section 2.1.31 provide guidance for funding base support services.

2.1.33. Prohibition on Parking of Funds

10 U.S.C. § 2773b specifically prohibits a DoW officer or employee from directing the designation of funds for a particular purpose in the President's Budget submission, or in the budget justification materials submitted in support of the budget, with the knowledge or intent that such funds will not be used for the designated purpose. Further, violation of this prohibition will be treated as a violation of the Antideficiency Act.

2.1.34. Use of O&M Funds under Contingency Construction Authority (CCA)

Pursuant to 10 U.S.C. § 2804, the criteria and procedures for the use of O&M funds under CCA (also known as Section 2808 Authority) are listed in Volume 3, section 15.

2.2 Program and Budget Review Submission

2.2.1. The internal annual Planning, Programming, Budgeting, and Execution (PPBE) process will guide the Department's strategy development, identification of needs for military capabilities, program planning, resource estimation and allocation, acquisition, and other decision processes. The PPBE process will continue to be the single link throughout the DoW that integrates and influences all internal decision processes. The annual budget will include the Strategic Planning Guidance (SPG), a Joint Programming Guidance (JPG), a Program Review, and a Budget Review. Program Decision Memoranda (PDMs) will implement Program Review decisions. Program Budget Decisions (PBDs) will implement Budget Review decisions.

2.2.2. The OUSW(C) and the Director of Cost Assessment and Program Evaluation (DCAPE) guidance memorandum transmitted in the Spring of each year will provide specialized instructions such as program basis for the estimates, key assumptions to be used, and special supporting material requirements. In addition, "supplementary instructions" memoranda issued

on an "as needed" basis (usually in July/August) will be limited to specific instructions which amplify guidance included in the OUSW(C) memorandum and in this volume. The use of other memoranda to transmit program and budget guidance will be restricted to new or nonrecurring requirements.

2.2.3. The Director of National Intelligence (DNI) will issue the guidance for development of the National Intelligence Program (NIP) and the NIP program and budget review submission. Additional details are found in section 16.

2.2.4. The instructions for submitting certain summary schedules are provided in the Volume 2 procedures. The instructions for back-up material tailored to each appropriation or fund category are provided in subsequent sections. Materials required by OMB Circular No. A-11, which are not otherwise required by Volume 2, will be submitted in accordance with that Circular, unless specific exception is granted by the OMB.

2.2.5. The OUSW(C) will provide a budget work schedule on a memorandum at the beginning of each budget formulation cycle. This schedule will show the dates and processes to be used for planning the various phases involved in the formulation process.

2.2.6. Program and budget review exhibits will be identified in the program and budget review guidance for each submission cycle. In most cases, submissions will include data input through the OUSW(C) budget formulation systems. The process is addressed in Volume 2 procedures.

2.2.7. Pursuant to 31 U.S.C. § 1105, the DoW prepares in advance of the required President's Budget (PB) submission to Congress. The OUSW(C) and DCAPE provide technical guidance for the program and budget data submission requirements. These offices maintain and administer web-based applications for a timely and consistent submission process.

2.2.8. All program and budget estimates, submission formats and required exhibits are found in Volume 2 procedures.

2.3 CCMD Business Rules (Joint Task Assignment Process (JTAP))

2.3.1. Financial Management Arrangements

As a business rule governing financial management arrangements between CCMD Support Agents (CCSAs) and CCMDs, the OSW will establish initial funding for new CCMD missions. The OSW will establish and provide funding for new missions assigned by the Secretary or Deputy Secretary as part of the JTAP process and in conjunction with the PPBE processes. CCSAs must maintain funding for the directed CCMD missions and adjust CCMD accounts across the FYDP consistent with the OSW/OMB approved inflation indices. CCMDs will be subjected to a proportionate share (on a percentage basis) of total CCSA reductions from undistributed congressional and/or OSW general reductions.

2.3.2. Adjustments of Funds

All Service business and efficiency reductions require prior CCMD or OSW approval to ensure they do not impede the conduct of directed missions. CCSAs will pre-coordinate any Service-initiated reductions to CCMD resources with the CCMD s during each phase of the PPBE process for all years in the FYDP, and Service-initiated reductions will not be applied to any CCMD funds without the prior approval of the CCMD or the OSW staff. OUSW(C), OSW CAPE, Joint Staff, CCMDs and CCSAs will meet annually to validate, and adjudicate as necessary, all adjustments to CCMD resources. The OUSW(C) will review and coordinate CCSA budget exhibits that specifically pertain to CCMD resources with CCMDs prior to approval and publication to ensure that CCSAs have fully complied with PBD or PDM direction.

2.3.3. Visibility of CCMD Directed Missions and Other Costs

CCSAs must ensure adequate visibility of CCMD directed missions and other costs for each O&M funded CCMD. A minimum of two Sub Activity Groups (SAG)s within each MILDEP's active components' O&M appropriation will be established as Mission Funding (one or more SAGs) and Headquarters and Headquarters Support Funding (single SAG). Budget and execution structure for USTRANSCOM will continue to follow the normal Working Capital Fund business area structure. The United States Special Operations Command and the United States Cyber Command budget structures are not governed by the guidance in section 2.2.

3.0 MILITARY PERSONNEL APPROPRIATIONS

Military Personnel and Medicare-Eligible Retiree Health Care Fund Contribution appropriations finance statutory military pay, allowances, and entitlements; Retired Pay Accrual (RPA); Thrift Savings Plan (TSP) Service member and matching contributions; Continuation Pay (CP); special and incentive pays; permanent change of station (PCS) entitlements; and the required MERHCF contribution for Active and Reserve Component Service members. Program and budget estimates must reflect the most current military personnel strength plans provided by the Military Departments, including projected average strength for each fiscal year. Estimates must also reflect statutory pay rates, statutory formulas, and compensation policies issued by the Office of the Under Secretary of War for Personnel and Readiness. Detailed exhibit requirements are provided in the Volume 2 procedures.

4.0 OPERATION AND MAINTENANCE APPROPRIATIONS

Operation and Maintenance appropriations support baseline and overseas operations. Refer to the Volume 2 procedures for detailed guidance.

5.0 PROCUREMENT APPROPRIATIONS

5.1 Preparations

5.1.1. General Guidance. This section provides guidance for the preparation of procurement appropriation backup material required to support the Budget Estimates Submission (BES) and the President's budget request. The procurement accounts should also submit

applicable exhibits required by other sections of this volume. The Components will also submit any exhibits required by the OMB Circular No. A-11.

5.1.2. Specific Guidance. The budget justification material should be unclassified. All classified material must be submitted separately. Components must include a P-40 Budget Justification exhibit for special access programs (SAPs) that are not labeled as secret. The P-40 exhibits for SAPs must only include funding streams and cite the following justification: "This program is reported in accordance with 10 U.S.C. § 119(a)(1) in the Special Access Program Annual Report to Congress." All other (non-intel and non-SAP) classified funding requests must be identified (submit a one page P-40 exhibit) within unclassified justification budget materials. Refer to Volume 2 procedures for exhibit formats, templates, and additional instructions.

5.2 Transmittal Clearance

MILDEPs and Defense Agencies are responsible for clearing the justification material with the Washington Headquarters Services, Defense Office of Prepublication and Security Review, prior to transmittal to OMB and the congressional committees.

6.0 RESEARCH, DEVELOPMENT, TEST AND EVALUATION APPROPRIATIONS

6.1 General Guidance

Unless otherwise specified, this guidance applies to all RDT&E appropriations and to all budgets. The budget justification material should be unclassified. All classified material must be submitted separately. Components must include a R-2 RDT&E Budget Justification exhibit for special access programs (SAPs) that are not labeled as secret. The R-2 exhibits for SAPs must only include funding streams and cite the following justification: "This program is reported in accordance with 10 U.S.C. § 119(a)(1) in the Special Access Program Annual Report to Congress." All other (non-intel and non-SAP) classified funding requests must be identified (i.e., submit a one page R-2 exhibit) within unclassified justification budget materials.

6.2 RDT&E Budget Activities

The RDT&E budget activities are broad categories reflecting different types of RDT&E efforts. The categories are provided in subparagraphs 6.2.1 through 6.2.8 below. The acquisition milestones identified in the definitions are established by DoWI 5000.02, "Operation of the Adaptive Acquisition Framework." Acquisition program developmental criteria and administrative requirements for each milestone are set forth in this instruction.

6.2.1. Budget Activity 1, Basic Research. Basic research is systematic study directed toward greater knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind. It includes all scientific study and experimentation directed toward increasing fundamental knowledge and understanding in those fields of the physical, engineering, environmental, and life sciences related to long-term national security needs. It is farsighted high payoff research that provides the basis for technological progress. Basic research may lead to: (a) subsequent applied research and advanced technology developments in Defense-related technologies, and (b) new and improved

military functional capabilities in areas such as communications, detection, tracking, surveillance, propulsion, mobility, guidance and control, navigation, energy conversion, materials and structures, and personnel support. Program elements in this category involve pre-Milestone A efforts.

6.2.2. Budget Activity 2, Applied Research. Applied research is systematic study to understand the means to meet a recognized and specific need. It is a systematic expansion and application of knowledge to develop useful materials, devices, and systems or methods. It may be oriented, ultimately, toward the design, development, and improvement of prototypes and new processes to meet general mission area requirements. Applied research may translate promising basic research into solutions for broadly defined military needs, short of system development. This type of effort may vary from systematic mission-directed research beyond that in Budget Activity 1 to sophisticated breadboard hardware, study, programming and planning efforts that establish the initial feasibility and practicality of proposed solutions to technological challenges. It includes studies, investigations, and non-system specific technology efforts. The dominant characteristic is that applied research is directed toward general military needs with a view toward developing and evaluating the feasibility and practicality of proposed solutions and determining their parameters. Applied Research precedes system specific technology investigations or development. Program control of the Applied Research program element is normally exercised by general level of effort. Program elements in this category involve pre-Milestone B efforts, also known as Concept and Technology Development phase tasks, such as concept exploration efforts and paper studies of alternative concepts for meeting a mission need.

6.2.3. Budget Activity 3, Advanced Technology Development (ATD). This budget activity includes development of subsystems and components and efforts to integrate subsystems and components into system prototypes for field experiments and/or tests in a simulated environment. Budget Activity 3 includes concept and technology demonstrations of components and subsystems or system models. The models may be form, fit, and function prototypes or scaled models that serve the same demonstration purpose. The results of this type of effort are proof of technological feasibility and assessment of subsystem and component operability and producibility rather than the development of hardware for service use. Projects in this category have a direct relevance to identified military needs. Advanced Technology Development demonstrates the general military utility or cost reduction potential of technology when applied to different types of military equipment or techniques. Program elements in this category involve pre-Milestone B efforts, such as system concept demonstration, joint and Service-specific experiments or Technology Demonstrations and generally have Technology Readiness Levels of 4, 5, or 6. (For further discussion on Technology Readiness Levels, see the Assistant Secretary of War for Research and Engineering's Technology Readiness Assessment (TRA) Guidance.) Projects in this category do not necessarily lead to subsequent development or procurement phases but should have the goal of moving out of Science and Technology (S&T) and into the acquisition process within the FYDP. Upon successful completion of projects that have military utility, the technology should be available for transition.

6.2.4. Budget Activity 4, Advanced Component Development and Prototypes (ACD&P). Efforts necessary to evaluate integrated technologies, representative modes, or prototype systems in a high fidelity and realistic operating environment are funded in this budget activity. The

ACD&P phase includes system specific efforts that help expedite technology transition from the laboratory to operational use. Emphasis is on proving component and subsystem maturity prior to integration in major and complex systems and may involve risk reduction initiatives. Program elements in this category involve efforts prior to Milestone B and are referred to as advanced component development activities and include technology demonstrations. Completion of Technology Readiness Levels 6 and 7 should be achieved for major programs. Program control is exercised at the program and project level. A logical progression of program phases and development and/or production funding must be evident in the FYDP.

6.2.5. Budget Activity 5, System Development and Demonstration (SDD). System Development and Demonstration (SDD) programs have passed Milestone B approval and are conducting engineering and manufacturing development tasks aimed at meeting validated requirements prior to full-rate production. This budget activity is characterized by major line item projects, and program control is exercised by review of individual programs and projects. Prototype performance is near or at planned operational system levels. Characteristics of this budget activity involve mature system development, integration, demonstration to support Milestone C decisions, conducting live fire test and evaluation, and initial operational test and evaluation of production representative articles. A logical progression of program phases and development and production funding must be evident in the FYDP consistent with the Department's full funding policy.

6.2.6. Budget Activity 6, RDT&E Management Support. This budget activity includes management support for research, development, test, and evaluation efforts and funds to sustain and/or modernize the installations or operations required for general research, development, test, and evaluation. Test ranges, military construction, maintenance support of laboratories, operation and maintenance of test aircraft and ships, and studies and analyses in support of the RDT&E program are funded in this budget activity. Costs of laboratory personnel, either in-house or contractor operated, would be assigned to appropriate projects or as a line item in the Basic Research, Applied Research, or ATD program areas, as appropriate. Military construction costs directly related to major development programs are included in this budget activity.

6.2.7. Budget Activity 7, Operational System Development. This budget activity includes development efforts to upgrade systems that have been fielded or have received approval for full rate production and anticipate production funding in the current or subsequent fiscal year. All items are major line item projects that appear as RDT&E Costs of Weapon System Elements in other programs. Program control is exercised by review of individual projects. Programs in this category involve systems that have received approval for Low Rate Initial Production (LRIP). A logical progression of program phases and development and production funding must be evident in the FYDP, consistent with the Department's full funding policy.

6.2.8. Budget Activity 8, Software and Digital Technology Pilot Programs

6.2.8.1. Software and Digital Technology Pilot Program requirements for funding in BA 8 include software, electronic tools, systems, applications, resources, acquisition of services, business process re-engineering activities, functional requirements development, technical evaluations, and other activities in direct support of acquiring, developing, deploying, sustaining, enhancing, and modernizing Software Digital Technology Pilot Programs.

6.2.8.2. Pilot programs may purchase Commercial off the Shelf (COTS) software, tools, and services necessary to meet the program's requirements.

6.2.8.3. Software and Digital Technology Pilot Programs may be nominated to Under Secretary of War for Acquisition and Sustainment. Approved pilot program nominations will be submitted with the President's Budget request.

6.2.8.4. A system project participating in the Pilot Program may be removed from BA 8 if the project has not been successful in meeting criteria established for the Pilot Program.

6.3 Establishing RDT&E Program Elements

6.3.1. The program element is the primary data element in the FYDP and is the major aggregation, at which RDT&E efforts are organized, budgeted, and reviewed. All funding associated with a major system new start must be identified in a unique program element. Requests to establish program elements should be forwarded to OSW CAPE for coordination and approval.

6.3.2. In general, the coding symbology identifies the RDT&E budget activity for the program element. Program elements in RDT&E budget activities 1 through 6 will have "06" in the first two positions; "06" indicates it is part of Major Force Program 6, Research and Development. The third and fourth position will identify the specific budget activity (e.g., 0602 is an RDT&E budget activity 2 program element). Program elements in RDT&E budget activity 7 reflect the Major Program of the fielded system in the first two positions (e.g., "01" indicates a strategic system).

7.0 MILITARY CONSTRUCTION/FAMILY HOUSING APPROPRIATIONS

7.1 Applicable Accounts

This section provides guidance for budget formulation and congressional justification of Military Construction (MILCON), Family Housing, Homeowners' Assistance Program (HAP), North Atlantic Treaty Organization (NATO) Security Investment Program, Family Housing Improvement Fund (FHIF), Military Unaccompanied Housing Improvement Fund (MUHIF), and Military Housing Privatization Initiative (MHPI) Investments and Credit Financing appropriations. This section also covers specific back-up material requirements for these accounts and provides additional specific guidance for the back-up material required for MILCON, Family Housing, Homeowners' Assistance Program and NATO Security Investment Program appropriations.

7.2 Family Housing Program Policies and Guidelines

7.2.1. Policy

7.2.1.1. It is DoW Policy: 1) to provide Military Family Housing for military families and for eligible civilian families only when suitable housing in the community does not exist; 2) to provide for the housing and support services, as authorized by law, that are necessary to meet the requirements of the DoW; 3) that the program must be financed and managed in the

most cost effective and efficient manner possible in order to support these requirements and to maximize the use of available program resources; 4) that the program must include the provision of assistance to all military personnel and certain eligible civilians in locating and utilizing privately owned housing including leasing; 5) that the program must include, within available resources, the provision of Government-owned or leased family housing and furnishings (referred to as Defense Family Housing Property); and 6) that the program must include the efficient and effective financial and program management of Defense Family Housing Property, including acquisition, privatization, operation, improvement, maintenance, debt financing, leasing, and family housing support programs.

7.2.1.2. The Family Housing Program encompasses Military Family Housing as defined and authorized by the provisions of 10 U.S.C. Chapter 169 and includes all DoW Component family housing in the Defense Family Housing Property Account, leases of real property utilized by DoW Components for family housing, and associated family housing support services programs.

7.2.2. Responsibilities

7.2.2.1. The USW(A&S) is responsible for program management as set forth in the DoDI 4165.63, and DoD Manual (DoDM) 4165.63, which also addresses Unaccompanied Housing. 10 U.S.C. § 2851a established the Assistant Secretary of War for Energy, Installations, and Environment (ASW(EI&E)) as the DoW Chief Housing Officer (CHO). The CHO oversees family and unaccompanied housing under the jurisdiction of the DoW or acquired or constructed under the MHPI. The Office of the Deputy Assistant Secretary of War for Housing (ODASW(H)) carries out the day-to-day responsibilities of the CHO with respect to the creation and administration of policies and processes regarding privatized, DoW-owned, and DoW-controlled family and unaccompanied housing. The ODASD(H) also has responsibility for overseeing the HAP. The USW(C) is responsible for financial management, program budget policies, program accounting policies, and financial reporting. As prescribed by the USW(C), the Director, Defense Finance and Accounting Service, is responsible for central accounting and financial reporting for the program. As prescribed by DoDI 4165.63, the Secretaries of the MILDEPs and the Directors of the Defense Agencies are responsible for execution of the program for personnel under their respective jurisdictions, including program and financial management, accounting and reporting.

7.2.2.2. In the financial management and execution of the program, DoW Components must conduct program budget formulation, presentation, and execution in accordance with the guidance and provisions contained in this section and adhere to the program accounting and financial reporting guidance and provisions contained in Volume 4.

7.2.3. Family Housing Objectives, Procedures, and the Administration / Management of Program Funds.

Refer to Volume 2 procedures for the appropriate instructions.

7.3 Uniform Budget and Fiscal Accounting Classification

7.3.1. MILCON Appropriations. Accomplish programming, budgeting, financing, and accounting for the MILCON Program under an account structure uniformly used for these purposes by all DoW Components. The uniform account structure and scope of each account prescribed for the administration of the MILCON Program are as follows:

7.3.1.1. Major Functional Category: Construction. The Immediate Subordinate Accounts include: Major Construction, Minor Construction, Design,

7.3.1.2. Major Functional Category. NATO Security Investment Program includes contributions for the United States share of the cost of multilateral programs for the acquisition and construction of military facilities and installations (including international military headquarters) and for the related expenses for the collective defense of the North Atlantic Treaty Area. 10 U.S.C. § 2806 pertains to contributions for NATO Security Investment Program.

7.3.1.3. Immediate Subordinate Account: Minor Construction. Includes any construction project not otherwise authorized by law having a cost equal to or less than $9,000,000. Minor construction projects costing more than $750,000 may not be carried out unless 10 U.S.C. § 2805 requirements are met. This includes advance approval by the Secretary concerned, and notification to the Congress if the project amount is more than $4,000,000. An unspecified MILCON project costing not more than $4,000,000 may be funded from appropriations available for O&M.

7.3.1.4. Immediate Subordinate Account: Design. Includes architectural and engineering services, construction design, working drawings, specifications and estimates for construction projects. 10 U.S.C. § 2807 pertains to architectural and engineering services and construction design.

7.3.2. Family Housing. DoW Components will use the uniform account structure established for programming, budgeting, financing and accounting for the family housing program. Administer the account structure to provide program and financial control of the family housing program consistent with applicable statutes. The uniform account structure and scope of each account for the family housing program are as follows:

7.3.2.1. Major Functional Category: Construction. The Immediate Subordinate Accounts include: New Construction (by Installation and Project), Construction Improvements (formerly Post Acquisition Construction), and Design.

7.3.2.2. Major Functional Category: O&M. The Immediate Subordinate Accounts include: Operation (Subaccounts: Management, Services, Furnishings, and Miscellaneous) Housing Privatization Support, Maintenance of Real Property Facilities, Leasing, Utilities, and Mortgage Insurance Premiums (or also known as Servicemen's Mortgage Insurance Premiums).

7.3.2.3. Major Functional Category: FHIF. Includes activities required for family housing in connection with the MHPI program planning, execution, accounting and financial

reporting, and administration of contracts entered under the authorities of 10 U.S.C. Chapter 169, Subchapter IV.

7.3.2.4. Major Functional Category: MUHIF. Includes activities required for unaccompanied housing in connection with the MHPI program planning, execution, accounting and financial reporting, and administration of contracts entered under the authorities of 10 U.S.C. Chapter 169, Subchapter IV.

7.3.3. Homeowners' Assistance Fund, Defense Responsibilities

7.3.3.1. The Department of the Army, which has been assigned the overall responsibility for the administration and management of the DoW HAP by DoDD 4165.50E, will submit budget estimates.

7.3.3.2. Each Component is responsible for including sufficient resources in its budget to fund HAP costs related to the Component's actions associated with base closures, realignments, and force reductions. Develop the level of resources required to fund HAP costs in consultation with the Army, HAP executive agent. Separately identify and submit budget estimates for HAP costs in the Component' Base Realignment and Closure (BRAC) submissions for HAP costs associated with realignments and closures and in the O&M submission for non-BRAC related HAP costs.

7.3.4. NATO Security Investment Program Responsibilities

The OUSW(A&S) has been assigned overall responsibility for the oversight and management of the NATO Security Investment Program by DoDD 2010.05, thereby responsible for submitting the corresponding budget estimates.

7.3.5. NATO Security Investment Program Expansion Costs

Refer to Volume 2 procedures for the appropriate submission and instructions.

7.3.6. FHIF/MUHIF Program

Refer to Volume 2 procedures for the appropriate submission and instructions.

7.3.7. MHPI Investments and Credit Financing

7.3.7.1. The Federal Credit Reform Act of 1990 and OMB Circular No. A-11 require credit financing and investment information for privatization projects to be reflected in the President's budget. OMB Circular No. A-11, Part 5, Section 85 (Federal Credit) explains the credit financing information required for the President's budget. On an annual basis, OMB sends out Budget Data Requests (BDR) for Credit Re-estimates, MAX Schedule updates, and Credit Supplemental Reporting information for the President's Budget (for PY, CY, and BY).

7.3.7.2. Annually, the OUSW(C), Program Budget, MPC and the ODASD(H) jointly issue a "Consolidated MHPI Data Call for the Fiscal Year 20BY President's Budget" that supports the upcoming OMB BDRs for both Federal credit and non-credit financing aspects of

MHPI, including the development of the Fiscal Year (FY) 20CY Credit Subsidy Re-estimates, Credit Supplement Report Exercise information, and OMB MAX A-11 database inputs for the FY20 BY President's Budget (PB). OUSW(C) P/B MPC will retain responsibility for providing OMB with required MHPI Federal credit and non-Federal credit data for the FY 20BY PB. ODASD(H) will perform OSD-level reviews of MHPI programmatic data and related files, providing technical instructions with corresponding templates and feedback to the Services regarding their submissions to OUSW(C) P/B MPC.

7.3.8. For procedures covering applicable appropriations/program funds in subparagraphs 7.3.1 to 7.3.7 and budget formulation, refer to the appropriate section of the Volume 2 procedures.

8.0 BASE REALIGNMENT AND CLOSURE APPROPRIATIONS

8.1 Authority

Defense Authorization Amendments and Base Closure and Realignment Act, Public Law (PL) 100-526, established the Defense Base Closure Account (Part I) as a mechanism to provide the required funding to implement the approved recommendations of the Base Closure and Realignment Commissions. PL 101-510, Title XXIX, Defense Base Closure and Realignment Act of 1990, established Base Closure Account 1990 (Part II), the FY 2002 National Defense Authorization Act (NDAA) established the DoD Base Closure Account 2005 (BRAC 2005), and Section 2711 of the FY 2013 NDAA established the DoD Base Closure Account, which directed the transfer of remaining balances from all three previous BRAC accounts. Funding approved by Congress in these Accounts is appropriated and authorized in a lump sum amount and may be spent for construction, planning and design, civilian severance pay, civilian permanent change in station, transportation of things, and other costs related to the realignment or closure of the subject bases. The management structure of the program is described below.

8.2 Guidance

8.2.1. The Assistant Secretary of War (Sustainment) is responsible for issuing policy for management of the BRAC program and overseeing the DoW Components' execution of the program.

8.2.2. To properly account for and manage appropriated fund resources, the DoD Base Closure Accounts were established on the books of the Treasury to aid the DoW Components in the closure and realignment of certain military installations. Treasury has assigned account symbol 097-0103 to identify the DoD Base Closure Account - Part I, 097X0510 to identify DoD Base Closure Account 1990 - Part II, Part III, and Part IV, 097X0512 to identify DoD Base Closure Account 2005, and 097X0516 to identify DoD Base Closure Account (consolidated).

8.2.3. The USW(C) makes funds available to DoW Components based on their official financial plans. Financial plans are prepared by DoW Components in cooperation with and at the direction of the program manager, the ASW(Sustainment). The DoW Components' financial plans and the subsequent allocation of funds are supported by detailed, line-item military and family housing construction justification. Separate narrative explanations for other planned expenditures are also submitted to the USW(C) in sufficient detail to support the DoW Component's financial

plan. Each DoW Component is allocated funds based upon its official budget justification and financial plan.

8.2.4. All closures and realignments must be completed no later than the end of the six-year implementation period beginning on the date on which the President transmitted to Congress the report containing the recommendations of such closures or realignments.

8.2.5. Section 2711 of FY 2013 NDAA established a new appropriation (097X0516) as DoD Base Closure Account. Funds in this account shall be available only to incur new obligations for environmental restoration, property management and disposal, and other caretaker costs at closed or realigned installations and for the purpose of recording, adjusting and liquidating obligations properly chargeable to the account under 31 U.S.C. § 1553. With the enactment of the FY 2014 NDAA (PL 113-66, dated December 26, 2013), the previous DoD BRAC accounts (097X0510 and 097X0512) remain as no-year accounts, and must be accounted for similarly to an expired appropriation. Unobligated balances from 0510 and 0512 accounts were transferred to the new BRAC account (0516) in January 2014.

8.3 Fiscal Accounting Classification

The account classification structure for the Base Closure Account, Defense is prescribed in Volume 12, section 13.

9.0 FACILITIES SUSTAINMENT AND RESTORATION/MODERNIZATION

9.1 Authority

9.1.1. Facility Sustainment Restoration and Modernization is covered under the following accounts: Operation and Maintenance Appropriations, Research, Development, Test, and Evaluation Appropriations, Defense Working Capital Funds, Military Construction appropriations, Transfer or Disposal of DoD Real Property, Lease of DoD Real Property, and DoD Overseas Military Facility Investment Recovery Account.

9.1.2. For appropriation specific policy refer to appropriation section of this document. Section 4 provides guidance related to Operation and Maintenance costs and O&M exhibits. Section 6 provides guidance related to Research, Development, Test, and Evaluation appropriations, Section 7 provides guidance related to Military Construction, and Section 10 provides guidance related to the Defense Working Capital Fund.

9.1.3. Additional details are provided in Volume 2 procedures.

10.0 DEFENSE WORKING CAPITAL BUDGET JUSTIFICATION ANALYSIS

10.1 Intragovernmental Revolving Funds

The DoW operates five Defense Intragovernmental Revolving Funds, which comprises many accounts, sub-accounts, and activity groups.

10.1.1. The Intragovernmental Revolving Fund accounts consist of the:

10.1.1.1. Defense Working Capital Fund (DWCF), which includes:

Department of the Army Working Capital Fund (WCF);

Department of the Navy WCF;

Department of the Air Force WCF;

Defense Commissary Agency (DeCA) WCF;

Defense-Wide Working Capital Fund (DWWCF)

Defense Logistics Agency (DLA) WCF

Defense Information Services Agency (DISA) WCF

Defense Finance and Accounting Service (DFAS) WCF

10.1.1.2. Building Maintenance Fund (BMF);

10.1.1.3. Pentagon Reservation Maintenance Revolving Fund (PRMRF);

10.1.1.4. Defense Counterintelligence and Security Agency (DCSA) WCF; and

10.1.1.5. National Defense Stockpile Transaction Fund (NDSTF).

10.1.2. This section also applies to the s Surcharge Collections, Sales of Commissary Stores, Defense account (DeCA Surcharge Fund). This trust fund, managed by DeCA, is subject to apportionment by the OMB. The Revolving Funds Directorate administers the Annual Operating Budget (AOB) for the DeCA Surcharge Fund upon apportionment. Refer to section 11 for additional information regarding the DeCA Surcharge Fund.

10.1.3. Authoritative Guidance. The National Security Act of 1947, as amended 10 U.S.C. § 2208, and other provisions of 10 U.S.C. § 131 provide the Department's revolving fund authority. The BMF, and DCSA WCF were established under 10 U.S.C. § 2208 as separate and distinct revolving funds and therefore are not part of the DWCF. The PRMRF was established by the 1991 NDAA and codified in 10 U.S.C. § 2674. The NDSTF was codified in 50 U.S.C. § 98h while the DeCA Surcharge Fund was codified in 10 U.S.C. § 2484(d)(h).

10.2 Defense Revolving Funds

10.2.1. Cash Management Policy

10.2.1.1. Cash Balance. DoW Components must maintain a positive cash balance sufficient to meet operating, capital investment, and other justified requirements throughout the year and to support continuing requirements into the subsequent year. Each DoW Component and subordinate activity, command, or business line must establish a cash requirement based on business events, trends, activities, and risks relevant to its operations and manage that cash balance in compliance with all applicable laws and guidelines at the lowest level where transactions occur. This process is formalized through the DoW Component's required submission of budget exhibits (Fund-13, and Fund-13b) that outline plans to maintain cash balances within a required operating range and above a specified lower control limit at the end of each budget year. Cash managers at all levels should use available mitigation strategies to control cash flow, such as negotiating the timing of customer order receipts, controlling the timing of supplier disbursements; and requesting policy waivers, like an out of cycle rate adjustment, from the OUSW(C) Revolving Funds Director to maintain/or reduce the cash balance.

10.2.1.2. Cash Thresholds. All DoW Components will construct required cash plans using specific methods as outlined in the associated DoW Revolving Fund, Fund-13 Exhibit procedure guidance.

10.2.1.3. Cash Transfers. Transfers of cash between RF activities, whether directed internally by the Components, departmental guidance, or congressional direction, will be included in all the affected activities' budget (Fund-13). Cash transfers between Military Department's WCFs (e.g., Army to Air Force) or between the DWCF and appropriation-funded activities require Congressional approval.

10.2.2. Advance Billings

10.2.2.1. The total amount of advance billings executed by the Department for a fiscal year may not exceed the amount specified in 10 U.S.C. § 2208 (l) or as amended by public law. 10 U.S.C. § 2208, paragraph (l)(4) provides that advance billing for background investigations and related services performed by the Defense Counterintelligence and Security Agency is not subject to Section 2208's congressional notification requirements and dollar limitations. 10 U.S.C. § 2208, paragraph (I)(3)(B) provides that advance billing for relief efforts following a declaration of a major disaster or emergency under the Robert T. Stafford Disaster Relief and Emergency Assistance Act is not subject to Section 2208's dollar limitations.

10.2.2.2. Components may use advance billings of customers as a cash mitigation strategy. The OUSW(C) or the MILDEP, as applicable, must notify Congress in writing within 30 days after the end of the month in which the advance billing occurred. The notification must explain the reasons for the advance billing, as well as an analysis of the effects of the advanced billing on both military readiness and the customer. Military Departments must send this notification directly to Congress and provide a copy to the Revolving Fund Directorate, while Defense Agencies must submit their requests to the Revolving Fund Directorate to notify Congress on their behalf.

10.2.2.3. With the exception of the DCSA, advance billing requires authorization within the activity's AOB. Components must request this authority and, if approved, the Advanced Billing Authority will be added to their AOB as a note disclosure. The note disclosure must explicitly state the amount the cumulative total of the advance billing is related to a declaration of a major disaster or emergency under the Stafford Act.

10.2.2.4. Advance payments received from non-federal entities are not subject to 10 U.S.C. § 2208, advance billing limitations, and are required by Volume 11. The billing of customers by Supply Management Activities upon shipment rather than delivery is also not subject to the advance billing limitations.

10.2.3. Capital Investment Program (CIP) Policy

10.2.3.1. The legal requirements related to the CIP are found in 10 U.S.C. § 2208, paragraphs (k), (m), and (o). The legal requirements for unspecified minor military construction projects are found in 10 U.S.C. § 2805.

10.2.3.2. With the exception of major military construction and items listed in subparagraphs 10.2.3.3, 10.2.3.4., and 10.2.3.8, acquisition of all capital assets for use by activities within the revolving funds can be financed using contract authority. Components may not use the CIP to establish a new or expand an existing organic capability except as specifically justified in the President's Budget Request (Exhibit Fund-9b, "Capital Investment Justification").

10.2.3.3. Revolving Fund activities outside the DWCF that are not authorized contract authority (e.g. the PRMRF) must build the full cost of capital investments into their rate structure to ensure funds are available prior to obligation.

10.2.3.4. The CIP consists of the following four major categories of assets: (1) Automated Data Processing Equipment (ADPE); (2) Non-ADPE Equipment; (3) Software Development, whether internally or externally developed; and 4) Minor Construction.

10.2.3.5. The RF Capital Budget specifically excludes the following items, which must be financed by appropriated funds.

10.2.3.5.1. Major Range and Test Facility (MRTF) installations (equipment and minor construction) that meet the DoW Investment capitalization criteria in accordance with 10 U.S.C. § 2208, paragraph (k);

10.2.3.5.2. Military and tenant support functions;

10.2.3.5.3. Major weapons systems (such as aircraft, ships, tanks, barges, etc.), and general-purpose passenger type vehicles;

10.2.3.5.4. Equipment and minor construction projects for mobilization requirements, but not used during peacetime operations;

10.2.3.5.5. Equipment initially procured and usually furnished as part of a weapons system and/or support system including modifications (includes initial common support equipment for depot maintenance support of new weapons systems);

10.2.3.5.6. Materiel is normally funded by appropriated funds and provided to contractors as Government-Furnished Materiel (GFM). The customer must use appropriated funds to purchase the GFM and provide it at no cost to the WCF;

10.2.3.5.7. Minor construction projects for non-RF activity or military support functions;

10.2.3.5.8. Construction and facility investment projects that exceed the amount specified in 10 U.S.C. § 2805 for funding under O&M appropriations;

10.2.3.5.9. Environmental projects financed or submitted for funding by the applicable Environmental Restoration Transfer appropriation;

10.2.3.5.10. Capital Investments for morale, welfare, and recreation activities; and

10.2.3.5.11. Such other exclusions as may be approved by the USW(C).

10.2.3.6. RF activities are authorized to use the CIP to purchase capital assets meeting the criteria in 10 U.S.C. § 2208, paragraph (k). The AOB permits an RF activity to obligate contract authority to purchase capital assets prior to receiving funded customer orders and collecting cash from customers. Those obligations must be funded by offsetting collections since cash does not come with contract authority. Unobligated Contract Authority does not carry into the subsequent fiscal year.

10.2.3.7. As an administrative control of resources subject to the rules of the Antideficiency Act, which is codified in 31 U.S.C. §§ 1341, 1342, and 1517, the AOBs provide a specific amount of contract authority for the CIP. Therefore, obligations may not exceed the amount provided on the AOB.

10.2.3.8. The RF customers may procure capital assets through direct appropriations for use by a RF activity. However, these assets remain the property of the customer and will be recorded as General Property, Plant, and Equipment (GPP&E) on the customers financial statements; the capital asset will not be recorded as GPP&E assets on revolving fund financial statements unless the asset is transferred to RF ownership.

10.2.3.9. WCF activities must recover costs to purchase capital assets by including a Capital Investment Recovery (CIR) factor in rates billed to customers. The revenue collected from the CIR is used to liquidate the contract authority used to procure the CIP asset. If the WCF activity does not have enough revenue to fully liquidate the contract authority, it must, at a minimum, liquidate enough to cover any cash outlays related to CIP. In addition to the CIR, a capital surcharge might be applied to collect cash for the capital outlay if the existing minimum balances are not sufficient to provide adequate budgetary resources to offset budgetary claims.

10.2.3.10. The following budget exhibits are required to document an activity's capital budget request: (1) Exhibit Fund-9a, "Capital Investment Summary"; (2) Exhibit Fund-9b, "Capital Investment Justification," and (3) Exhibit Fund-9c, "Capital Budget Execution."

10.2.3.11. Each proposed CIP project must be reviewed to ensure that it satisfies the required criteria for justification and backup.

10.2.3.11.1. The acquisition of a capital asset meets the Department's long-range planning and programming objectives and satisfies a documented need for capability to perform valid operations, functions, or services that cannot be performed as effectively or economically using existing equipment and facilities or by contract.

10.2.3.11.2. The acquisition of a capital asset complies with policies and regulations governing the acquisition and management of facilities, special tooling, and special test equipment as established by DoDD 4275.5, "Acquisition and Management of Industrial Resources," as well as other applicable policies and regulations governing the lease and acquisition of equipment and facilities.

10.2.3.11.3. The workload projections used to justify capital purchases take into account the results of inter-service decisions, workload posture planning decisions, readily available commercial alternatives, and other reasonable options available for accomplishing applicable workload.

10.2.3.11.4. The acquisition of a capital asset accomplishes the objective for which it is justified. The criteria are: improved efficiency (savings) or effectiveness of operations; replacement of unsafe (locally determined by an authorized safety representative), beyond economical repair, or inoperative and unusable assets; and environmental, hazardous waste reduction, or regulatory agency (state, local, or Federal) mandated requirements.

10.2.3.12. A formal pre-investment economic analysis or cost comparison analysis must be completed and maintained by the originating office prior to capital budget submissions, reprogramming requests, or project substitutions across the four investment categories (ADPE, Non-ADPE, Software, and Minor Construction).

10.2.3.12.1. Formal economic analyses are required for projects of $5,000,000 or more, while cost comparison analyses are required for projects under $5,000,000.

10.2.3.12.2. Cost comparison analyses (under $5,000,000) must be prepared in constant base-year dollars, presenting yearly differential costs for up to a 6-year evaluation period.

10.2.3.12.2.1. Documentation must define objectives, functional processes, workload projections, feasible alternatives, total/differential costs, expected monetary benefits, assumptions, estimating methods, and data sources.

10.2.3.12.2.2. The payback period, expressed in tenths of years, is the primary economic ranking indicator.

10.2.3.12.3. Formal economic analyses ($5,000,000 or more) must be prepared on a net present value (NPV) basis over the project's expected economic life, displaying costs in constant, discounted, and current dollars. This analysis must comply with applicable DoW or Component guidance as well as functional program guidance.

10.2.3.12.3.1. Documentation requires the same core elements as a cost comparison analysis, plus sensitivity/uncertainty analysis of key parameters and the identification of both intangible and quantifiable benefits (outputs achieved per investment dollar).

10.2.3.12.2. The Benefit-to-Investment Ratio (BIR) is the primary ranking indicator—calculated using discounted constant dollars as an index value rounded to two decimal places, where a BIR greater than one indicates the project is cost-beneficial and larger ratios indicate greater advantage—and must compare alternatives in terms of all expected monetary benefits (including whole and partial manpower productivity savings and other cost avoidance) over the total project life under evaluation, with the payback period considered as a secondary ranking factor.

10.2.3.12.4. The Savings-to-Investment Ratio (SIR) must be calculated using discounted dollars for Automated Information Systems to compare actual budget savings against investment costs.

10.2.3.12.5. A post-investment analysis is required upon project completion to evaluate actual costs and benefits against initial projections.

10.2.3.12.6. Exemptions from these requirements apply to environmental, hazardous waste, or regulatory mandates, higher DoW or Component authority directives that preclude alternatives, or specific DoW waivers (e.g., equipment age/condition replacement criteria).

10.2.3.13. Internal Use Software as defined in DoDI 5000.76 must be budgeted and capitalized as part of the hardware it runs on. In contrast, systems application software must be budgeted for separately, either as a direct expense or as a capital investment if it meets the criteria for a capital asset, with all new acquisitions and improvements budgeted on a per-project basis. The costs associated with the software development phase are capitalized as part of the capital budget. The preliminary design (e.g., costs prior to Milestone 0, Concept Exploration and Definition, etc.) and post implementation costs (e.g., Data conversions, application maintenance, training, documentation, etc.) are expensed as part of the operating budget. Furthermore, in accordance with 10 U.S.C. § 2222 and DoDI 5000.75, those with projected spending over $250 million or more over the FYDP for Priority Defense Business Systems or $25 million or more for Fourth Estate Defense Business Systems over the FYDP, must be approved by the Defense Business Council (DBC) and obtain certification by the DoW CIO before any funds can be obligated.

10.2.3.13.1. To account for the potential unpredictability in costs and scheduling during the development phase, any software initially planned or developed outside a Revolving Fund activity may not transfer into the revolving fund until both the preliminary design and developmental phases are completed, and the software has entered full production in the post

implementation phase. This ensures that only software that is fully developed and operational is transferred into the RF. Once transferred, the fully recoverable costs will be expensed as part of the operating budget.

10.2.3.13.2. Only include those software development or acquisition efforts for the benefit of the activity in the RF capital budget submissions. Software developed or acquired for a specific customer order should be charged to and reimbursed by the requesting customer.

10.2.3.13.3. Software projects may be accomplished in modules. A module is an application that may be operated or used independent of other modules within a system. Where an entire system consists of more than one severable module, request funding for each severable module in the year that the module is started. Funding requests must be sufficient to complete the module. If several modules make up a complete ADP system, show the cost of all modules related to the system.

10.2.3.14. Unspecified minor military construction projects costing more than the threshold established in 10 U.S.C. § 2805 must be funded within the DoW Component's Military Construction appropriation.

10.2.3.14.1. However, under 10 U.S.C. § 2805(c), O&M funds can be used for unspecified minor construction projects costing not more than the threshold established therein is available for RF-funded unspecified minor construction. Projects that have estimated costs that exceed the thresholds established in 10 U.S.C. § 2208 and not been previously documented in the budget (Exhibit Fund-9b, "Activity Capital Investment Summary") must be approved through the Congressional notification process or in a subsequent budget and displayed as an adjustment on the Exhibit Fund-9c, "Capital Budget Execution." The approval will be reflected in the Component's Annual Operating Budget.

10.2.3.14.2. Laboratory Revitalization Program projects must be for the revitalization and recapitalization of Defense laboratories owned by the U.S. and under the jurisdiction of the SecWar or a MILDEP. In accordance with 10 U.S.C. § 2805, paragraph (d)(3) any projects using the Laboratory Revitalization Program requires the concerned Secretary to provide the appropriate Congressional committees a 14-day notification prior to obligation of funds. Fund activities designated to participate in the DoW Laboratory Revitalization Program must obtain prior approval from the Director or Deputy Director for Revolving Funds for all projects estimated to exceed the thresholds established in 10 U.S.C. § 2208 so that those projects can be specifically identified in the capital program within the AOB prior to project execution.

10.2.3.14.3. Capital investment costs financed in the minor construction portion of the capital budget include project planning and design costs associated with minor construction projects. Planning and design costs are not included as part of the statutory threshold for minor construction projects.

10.2.3.15. DoW Components may reprogram RF capital funds between their sub-activities, or CIP categories and their projects within the DoW component. There is no minimum or maximum limit on this type of reprogramming. Capital reprogramming between CIP

categories and projects within the same RF sub-activity does not require the written approval of the OUSW(C) Revolving Funds Director or Deputy Director in the form of a signed AOB. The following approval levels, and dollar threshold, apply to changes to projects approved in the capital budget including reprogramming, substitutions, cancellations, and additions:

10.2.3.15.1. Fund managers may approve transfers between the ADP Equipment and Software categories or among their individual projects once they obtain certification from the approval authority as directed in the guidance displayed in DoDI 5000.75.

10.2.3.15.2. Fund managers may approve transfers between the Non-ADP Equipment and Minor Construction categories or among their individual projects.

10.2.3.15.3. CIP transfers between DWCF activities within a DoW Component (e.g., supply to non-supply) must be approved by the Director or Deputy Director for Revolving Funds, in the form of a signed AOB, before the transfer is executed.

10.2.3.15.4. Components must charge capital obligation adjustments to the program year cited in the President's Budget for the original project. The prior year capital investment program limitation is equal to actual obligations on September 30 of that fiscal year plus adjustments approved by the OUSW(C) Revolving Funds Director or Deputy Director to the prior year program. Fund managers may request approval to carry over authority for any unobligated capital projects before the end of the fiscal year.

10.2.3.15.5. Capital obligation authority may be adjusted for prior year within scope increases provided that there is contract authority available to finance the increase. Before making such increases, the Component must have equal off reductions (deobligations) of current year capital authority to finance the prior year increase. Prior approval from the Director or Deputy Director for Revolving Funds is only required if cumulative adjustments exceed 20 percent of the total CIP budget of the current fiscal year. All adjustments should be documented in the activity's next AOB but will not require a new AOB solely for such documentation.

10.2.3.15.6. For current fiscal year capital projects that will not obligate by September 30, components must request in writing permission to carry over these projects via a memo to the Director or Deputy Director for Revolving Funds. If the Director or Deputy Director for Revolving Funds approves the request in a signed memorandum, the approved carry over amounts for projects not obligated by the end of the fiscal year will be carried forward to the next fiscal year's AOB.

10.2.4. Mobilization/Surge Costs and War Reserve Materiel

10.2.4.1. War Reserve Materiel. The DWCF activities must identify all costs related to maintaining a capacity to meet mobilization requirements. These costs are not considered normal operating costs and may be reimbursed by direct appropriations so that customer rates are not burdened by contingency requirements. Obligations for the procurement of war reserve materiel must be funded by a direct appropriation to the WCF with one exception; if Congress is notified, and a cost recovery rate is included in the rates, contract authority may be used. Such appropriated amounts for secondary items must be reflected as a separate goal within

the applicable Supply Management or Commissary Resale activity AOB. Use the SM-6 "War Reserve Materiel" exhibit to justify War Reserve Materiel Requirements.

10.2.4.2. Unutilized and Underutilized Plant Capacity. Unutilized/Underutilized Plant Capacity (UPC) represents costs associated with maintaining facilities to meet surge capacity needed for mobilization or war. The UPC is a mobilization requirement budgeted in and funded by Operation and Maintenance appropriated funds of the DoW Component responsible for the activity's management. Do not include UPC costs in the WCF rate structure. As a general rule, UPC funding includes the pro-rata facilities support costs for any month in which 1) mobilization facilities are not used or 2) facilities are used 20 percent or less of available workdays.

10.2.4.2.1. Mobilization expenses related to UPC may include both maintenance and labor costs related to mobilization.

10.2.4.2.2. Each non-supply DWCF activity should prepare a UPC Budget Exhibit (Fund-30). This exhibit documents total capacity, Unutilized Capacity Index, justification, and cost used in developing the request for UPC. All non-supply DWCF activities should complete the three capacity-index metrics found in Part I of the exhibit. Any non-supply activity requesting UPC funding will also complete the funded UPC line in Part I and the UPC justification in Part II of the exhibit.

10.2.4.2.3. Industrial Mobilization Costs. The Army established a category of costs that includes both UPC and underutilized facilities cost called "Industrial Mobilization Cost." The Army will use the Exhibit Fund-30, "Underutilized Plant Capacity" to justify their Industrial Mobilization Costs.

10.2.4.3. Airlift Readiness Account (ARA). The U.S. Transportation Command (USTRANSCOM) must maintain sufficient airlift capability to respond to transportation requirements for a wide variety of mobilization conditions. This requirement exists in both peacetime and contingency environments. To the extent customer revenue is insufficient to support the costs of maintaining this capability; the Air Force must provide appropriated funds from the ARA. USTRANSCOM will coordinate with military services and Combatant Commanders to understand airlift workload requirements and adjustments to workload projections on a routine basis. USTRANSCOM must provide the Air Force with the budgeted ARA amount that will be part of the Transportation Working Capital Fund Budget Estimate Submission (BES) and President's Budget with enough lead time for the Air Force to incorporate in its budget submissions. The Air Force must submit a matching amount in its BES and President's Budget submission within its Operation & Maintenance account. USTRANSCOM must submit the Fund-8, "Air Mobility Command Common User Services" exhibit to justify the ARA requirement. The USTRANSCOM will record as a funded order and revenue.

10.2.5. Military Personnel

10.2.5.1. Components must use the civilian-equivalent rates provided by the OUSW(C) Revolving Funds Director to price military labor at WCF activities. The difference

between the civilian-equivalent costs, included in the WCF budget, and the actual military personnel cost must be budgeted directly in the appropriate military personnel appropriation.

10.2.5.2. The amount expensed for military personnel by WCF activities and the amount reimbursed to the appropriate military personnel appropriation must equal the amount budgeted. No adjustments will be made to the WCF cost of operations to reflect the actual cost of military personnel employed by WCF activities. Military Departments having military personnel assigned to other Components, must provide to each Component the number of work years that should be included in the WCF budget submission. The WCF activities that augment their manpower requirements with National Guard or Reserve personnel, to include those participating in the Personnel Force Innovation program, must reimburse the appropriate military personnel appropriation at the WCF civilian-equivalency rates.

10.2.6. Full Recovery of Costs and the Setting of Prices

10.2.6.1. Managers of RF activities within each Component will set their prices based on full cost recovery, including all general and administrative support. Prices are established by the budget process and are represented at the aggregate level in the form of a composite rate. Prices and corresponding rates should remain fixed during the year of execution (exceptions are listed in Volume 11). Prior to execution, Components will conduct a review of prices changes for all National Item Identification Numbers to mitigate any unintended impact on customer buying power. Customers may request price challenges in accordance with DoDM 4140.01 Volume 9, section 6.2 and dispute bills between DoW Components in accordance with the process outlined in DoW FMR Volume 11. This stabilized price policy serves to protect customers from unforeseen inflationary increases and other cost uncertainties and better assures customers that they will not have to reduce programs to pay for potentially higher -than-anticipated prices. In turn, this policy allows activities to execute the budgeted program level and permits a more effective use of RF resources.

10.2.6.2. Except in unusual circumstances, prices for the budget year will be set to break even over the long run at the sub-activity level. Generally, this means that prices will be set to achieve an AOR of zero in the budget year, provided that cash and budgetary resources are available to support the adjustments. If unusual circumstances have put a severe strain on cash such that projected cash levels are below the lower limit of the operating range, the RF activity may consider planning for a positive AOR in the budget year. However, the AOR balance will either be off-set in the budget by deferring the AOR balance into the subsequent budget year or as a nonrecoverable AOR in the Fund-14. In budget execution, activities will incur either a positive or negative operating result. Accordingly, activities will adjust their budget year prices by increasing their rates to recover actual or projected losses of budgetary resources or decreasing their rates for the customers to account for excess cash resources or projected budgetary gains to customers. An activity may request recovery of AOR outside the budget year. This request must be included in the budget submission and must demonstrate that the alternative recovery period will not adversely affect the cash balance of the activity. A phased recovery schedule must be provided with the budget.

10.2.6.3. WCF rules for pricing and operating loss recovery or gain distribution may be waived or deferred if one or more of the following conditions exist.

10.2.6.3.1. Fund Liquidity: Component fund managers must maintain a positive cash balance throughout the year. The cash requirement developed on the exhibit, Fund 13b, Cash Requirements, provides a management guide for maintaining cash sufficiency.

10.2.6.3.2. Depot Maintenance Additional Requirements: If Component cash balances are projected to be sufficient by the end of the budget year, depot maintenance activities will recoup losses and return gains in the budget year. However, if cash balances will be outside the cash operating range, an out-of-cycle rate adjustment or surcharges may be directed, to restore cash to appropriate levels, at any time in accordance with subparagraph 10.2.6.3.1. Components may recoup unplanned depot losses in subsequent years with prior year resources. Prior to employing this financing method, components must notify the OUSW(C) Revolving Funds Director in writing of actions being taken and provide evidence all other criteria for prior year upward obligations are met.

10.2.6.3.3. A WCF activity operating overseas may experience significant operating losses or gains due to changes in foreign currency exchange rates. The WCF activities are not eligible to participate directly in the Foreign Currency Fluctuations, Defense (FCF,D) (97-X-0803) and the Foreign Currency Fluctuations – Construction, Defense (FCF-C,D) (97-X-0801) accounts.

10.2.6.3.4. In addition to spreading contract costs when developing rates for all customers, the RF activities may incur and recover costs for contracts awarded specifically to fill the requirements of one customer by charging that customer an amount equivalent to the RF activity's expense in funding, awarding, and administering the contract. During the year, price changes must be in accordance with Volume 11, section 25.

10.2.6.3.5. Unbillable costs and operational losses that cannot be billed to an identifiable customer or that were generated from unforeseen cost overruns are to be treated as costs in the fiscal year in which the costs were incurred. The resulting operating losses must be included in calculating net and accumulated operating results.

10.2.6.3.6. Unless approved in writing by the Director or Deputy Director for Revolving Funds as an out-of-cycle rate adjustment, the prices must be consistent with the rates set for all activity products, goods, or services approved during the budget review and documented in a memorandum signed by the USW(C), or designated representative.

10.2.6.3.7. Users must pay for the goods and services provided by all WCF activities, including deployment or other emergency response for military or humanitarian assistance. Consistent with this policy, third party collections for transportation provided in response to a Request-for-Assistance (RFA) from another government agency are prohibited. The Military Department that controls the equipment or personnel is responsible for reimbursing USTRANSCOM. It is then the responsibility of the Military Department that accepted the RFA to collect any required reimbursements due that Military Department by the requesting government agency.

10.2.6.3.7.1. The only exception to this policy is when the Joint Chiefs of Staff orders USTRANSCOM to transport non-U.S. equipment or personnel, such as for

non-reimbursed support to the United Nations. In these specific cases, the costs are covered by the respective military branches: the Army pays for Surface Deployment and Distribution Command, the Navy for Military Sealift Command, and the Air Force for Air Mobility Command. While billing can be centralized for convenience, invoices must be forwarded to the responsible Military Department within 30 days of the mission's start. These departments are required to pay all bills, including those for transportation, in a timely manner.

10.2.6.3.7.2. This guidance does not apply to contingency operations designated by the SecWar as a "National Contingency Operation" under 10 U.S.C. § 127. These operations are governed by separate rules, which are issued at the time of their designation

10.2.6.3.8. Base Realignment and Closure (BRAC)-Related Costs. Costs incurred in implementing the recommendations of the BRAC Commissions will be funded by the appropriate BRAC account and are not to be included in the rates and costs of businesses within the Fund. The WCF activities may incur BRAC expenses prior to receiving an allocation of BRAC funding; however, all costs properly charged against the BRAC account must be reimbursed with BRAC funds. The WCF activities may not expend funds prior to complying with the notification requirements imposed by law with respect to the obligation of BRAC funds. The BRAC account must reimburse all costs incurred by WCF activities to carry out BRAC prior to the end of the fiscal year in which costs were incurred. Prior year, current year, or budget year operating losses in WCF are not to be budgeted in the base closure accounts. Costs attributable to base closure actions at WCF activities to be budgeted in BRAC may include:

10.2.6.3.8.1. BRAC directed reductions-in-force, separation incentives, plant closures, layaway or custody costs, or other BRAC-related expenses, such as all costs not associated with a valid work order during the year of closure.

10.2.6.3.8.2. Environmental restoration and mitigation, to include reducing, removing, and recycling hazardous waste, and removing unsafe building debris.

10.2.6.3.8.3. Planning, to include conducting such advance planning and design as may be required to transfer from an activity being closed to another military installation.

10.2.6.3.8.4. Outplacement assistance in relocating, training, or providing other necessary assistance to civilian employees employed by the Department at installations being closed.

10.2.6.3.8.5. Community programs, to include economic adjustment assistance to a community in which the closed base is located, or community planning assistance to the community to which functions will be transferred as a result of closure of a military installation.

10.2.6.3.9. BRAC and WCF Rates. Overhead, not specific to BRAC and not in support of producing goods or services for customers, will be financed in the year the costs are incurred with the Components' Operation and Maintenance (O&M) appropriations. The WCF

losses occurring in years prior to closure will be recovered through the rate structure to the extent that there are new customer orders. When there are no new customer orders in the budget year, the Component responsible for the activity incurring the loss will finance, as a pass through from O&M appropriations to the WCF, all overhead not included in rates supported by ongoing work or prior year losses to be recovered in the budget year. All costs at a closing activity in the year of closure that are not associated with a valid work order or are not valid BRAC costs are O&M costs and must be budgeted in the fiscal year when they will be incurred.

10.2.6.3.10. BRAC-Related Permanent Change of Station (PCS) Moves for WCF Activities. Costs incurred to recruit and hire civilian personnel (including associated PCS costs) to fill vacant positions at an activity that is being transferred from a closing or realigning installation to another military installation in accordance with a BRAC recommendation may properly be considered BRAC costs under the Base Closure and Realignment Act of 1990. As a matter of Department policy, however, BRAC funds will not be used for such costs except in the case of WCF activities, which may temporarily charge such costs against the WCF, provided the WCF is reimbursed with BRAC or O&M funds by the end of the fiscal year in which the costs are incurred.

10.2.6.3.11. Eligible and Ineligible Costs. BRAC accounts are intended to cover specific expenses directly related to the closure or realignment, including: (a) reductions -in -force and separation incentives; (b) environmental restoration and hazard removal; (c) planning and design for transferring functions; (d) outplacement and training assistance for civilian employees; and (e) economic and planning assistance for affected communities. However, BRAC funds cannot be used to cover prior, current, or budget-year operating losses within the WCF.

10.2.6.4. Funding of Civilian Voluntary Separation Incentive Program will be financed and included in stabilized rates for civilian separation incentive requirements of assigned employees unless they must be offered because of a directed BRAC action, in which case the appropriate BRAC account will fund the civilian separation incentive.

10.2.6.5. WCF activities operating as tenants must reimburse the host installation for any base support services listed in Exhibit Fund-22, but only to the extent that their presence directly increases the host's costs. This reimbursement must follow the guidelines outlined in DoDI 4000.19 for support agreements. Costs for WCF mission products and services (e.g., depot supply, depot maintenance, facility engineering services, information processing, communications, and software development) should be based on the approved stabilized rate. However, for other incidental support, the WCF activity can only be charged for the measurable, incremental direct costs it creates. Overhead costs cannot be passed on to the WCF activity. All budgeted costs for these services, whether from the host or tenant perspective, must be documented on Exhibit Fund-22 in the fall budget submission.

10.2.6.6. The labor costs for first-line supervisors – those in official positions directly overseeing non-supervisory employees – are typically charged as an indirect production cost to the cost center they manage. However, there are two exceptions. First, if a supervisor's entire time is dedicated to a single project, their costs are handled differently. Second, if a supervisor is temporarily assigned to perform direct, hands-on work, their time must be classified

as direct labor and charged to the specific job order. This policy does not apply to subordinate leaders like "crew chiefs" or "team leaders." For more detailed guidance on labor cost accounting, refer to Volume 11.

10.2.6.7. A management headquarters is a discrete organization or part of an organization that has authority over the management of the WCF activity. The OSD and Service Departmental activities normally do not have this direct responsibility. All the major systems/logistics organizations in the Services include headquarters elements directly supporting WCF activities that should be funded or reimbursed by the WCF activities.

10.2.6.8. Costs for discrete WCF management headquarters organizations and parts of organizations that perform direct WCF management headquarters functions can be financed directly in the WCF or reimbursed by the WCF activity (whichever is more practical). In addition, Components may allocate significant costs for common support functions, such as counsel or personnel services, at WCF management headquarters to other users based on workload percentages in those functions.

10.2.6.9. Dual-Funded Organizations are organizations that are funded (including reimbursable funding) by both the WCF and other appropriations or accounts. In instances where a non-management headquarters function is funded with a combination of WCF and General Fund (GF), the function initially will be funded in its entirety by either the WCF or GF, based on the preponderance of definable units of measure for the function (e.g., workload, productive hours, outputs, or ultimate use).

10.2.6.9.1. The entity that initially funds a shared function should be reimbursed by the other users for their proportional share of the cost. The reimbursement amount is based on the same metric (e.g., workload, hours) used to determine who paid the initial cost.

10.2.6.9.2. Initial Funding Rule. The part of the organization (or funding source provided) initially funding the function should be reimbursed for appropriate amounts by other parts of the organization (or financing sources or customers) involved, based on the unit of measure that was used to determine which organization or funding source would provide initial funding; and the amount of reimbursement should be based on the relative portion of that unit of measure attributable to each part of the organization or funding source involved. If the part of an organization that is within the WCF accounts for more than 50 percent (e.g., 60 percent) of the unit of measure for a function shared with the part of the organization funded through appropriated funds, then the WCF portion of the organization initially would fund all of the costs of performing that function. However, the applicable part of the organization funded through General Funds would reimburse the WCF for, and be allocated, the remainder of the costs (e.g., 40 percent).

10.2.6.9.3. This policy does not apply to base support services. The reimbursement amount for these services provided by the WCF to tenant activities must be determined according to the policies outlined in DoDI 4000.19.

10.2.6.10. When an RF activity purchases a capital asset that is also used by a GF entity, the RF activity must capitalize the asset and bill the GF user at a rate that recovers both capital investment and operating costs. Conversely, if a GF entity purchases an asset that is also

used by an RF activity, the GF entity will capitalize it and may bill the RF activity for operating costs, but it is strictly prohibited from billing for the asset's depreciation.

10.2.6.11. When a work order or project is canceled or reduced in scope after a DWCF activity has commenced work or incurred costs, the RF activity should charge the customer for the direct and indirect production costs incurred, plus the applied overhead plus costs associated with the cancellation or reduction. Volume 11 provides specific guidance for the types of directly associated cancellation or reduction costs that can be charged to customers.

10.2.6.12. Write-offs of unusual or infrequently occurring losses are not chargeable against AOR and should not be recovered through increases in customer rates unless recovery of a cash loss or outlays is required and in accordance with accounting policies. Examples of unusual or infrequently occurring losses not recovered in rates include losses resulting from the disposal or divestiture of capital budget items that have not been fully depreciated at the time they are taken out of service due to BRAC action; or losses associated with systematic inventory reductions by disposal of assets associated with force drawdowns. Only unusual or infrequently occurring write-offs that require a cash resource will be separately identified in the Component's budget submission using the Fund-14, "Revenue and Expenses" exhibit.

10.2.6.13. Net Operating Results (NOR) Adjustments. There are instances where additional adjustments to the Fund-14 and NOR are required. For example: Cash Transfers in and out of the fund not directly related to operational performance (Direct Appropriations associated with natural disasters, humanitarian relief, pandemics, cash infusions, and reprogramming actions e.g., transfers in/out) may use below-the-line adjustments to the NOR to adjust for transfers that are not directly related to operational performance and subsequently does not support returning or collecting AOR.

10.2.6.14. All requests (to include justification) for NOR and/or AOR non-recoverable or deferred adjustments must be submitted in writing via a memorandum format to the FMOA Director for approval prior to or concurrent with the Budget Estimate Submission.

10.2.6.15. Methods for Rate Setting for RF Activities. All DWCF activities will establish rates using the following a multiple step process detailed in Volume 2 procedures.

10.2.6.15.1. Percentage Markup on Cost. A cost recovery percentage is applied to the purchase or repair cost of secondary supply items to recover overhead costs and other pricing adjustments. This method is typically used for supply management DWCF activities.

10.2.6.15.2. Direct Labor Hour (DLH). A specific dollar value, including all direct costs, overhead, and other pricing adjustments, is charged per DLH associated with the completion of a customer order. This method is typically used for industrial DWCF activities (i.e., depot maintenance, ordnance, and research and development).

10.2.6.15.3. Specific Unit of Output. RF activities that provide services via numerous outputs that do not have a common measure for calculation will establish separate rates for each output. When multiplied by projected customer workload for each output, the rates will produce revenue that approximates, to the extent possible, recovery of the full cost, including

approved adjustments, of providing the specific outputs (e.g., transportation, finance and accounting, information systems, and base support). This includes direct systems reimbursement.

10.2.6.16. Standard Fuel Price (SFP). During the budget development cycle, the Revolving Funds Directorate will establish the standard fuel price (SFP) for use by the Defense agencies and military departments to develop their fuel estimates for the budget. The Revolving Funds Directorate will use the OMB economic assumptions (EA) and the refined product costs experienced by the department to develop the SFP. The SFP consists of the refined fuel cost and the non-product cost, which includes cost for Sustainment, Restoration and Modernization (SRM), terminal operations, transportation, operations and product losses. During the year of execution, the SFP may be set at the budgeted rate or may be adjusted due to updated economic assumptions from OMB, the latest refined product cost experienced by the Department, changes in projected product costs, or the DLA Energy cash balance. The OUSW(C) must approve the SFP that will be used for the budget and changes thereafter.

10.2.7. Public-Private Partnerships at Depot Maintenance Activities

10.2.7.1. Guidance. Conditions for the sale of goods and services to non-DoW entities must be based on specific statutory authority. Pursuant to the authority granted to the SecWar by 10 U.S.C. § 2208(h) to prescribe regulations for DWCF activities and the use of inventories, this DoW guidance clarifies existing legal authority applicable in specific circumstances. The guidance set forth in this section:

10.2.7.1.1. May not be used to compete for non-defense related work;

10.2.7.1.2. Does not apply when otherwise precluded by public law;

10.2.7.1.3. Does not apply to products or services produced under work-share arrangements in which a DoW sponsor assigns work and separately funds the DoW depot maintenance activity and the private sector entity; and

10.2.7.1.4. May be used for sales to private sector entities only when the transaction is part of an arrangement that is officially recognized as a depot maintenance public -private partnership.

10.2.7.2. Sales Prices. To minimize potential DoW operating losses or gains, sales prices to private sector entities in depot maintenance public-private partnership relationships may be tailored to the most recent actual and projected costs, rather than the approved stabilized billing rates charged to DoW customers (10 U.S.C. § 2474). Tailored rates or prices charged for sales to private sector partners, if used, must ensure full cost recovery for the work involved in producing the specific products and services. Such tailored rates and prices must include: (a) all direct costs, (b) production or shop overhead costs that contribute to the final product and (c) a full allocation of General and Administrative (G&A) overhead costs, distributed on the same basis as for DoW customers. (Since G&A overhead costs cannot be attributed to specific products or services, there is no basis to include or exclude specific items of cost from prices charged to customers.). Exceptions to DWCF pricing policy for sales to private sector parties in depot maintenance

partnership arrangements, do not change the requirement that sales prices include unfunded costs, as prescribed in Volume 11.

10.2.7.3. Fixed Pricing. The DoW is authorized to sell goods and services to private sector partners using a fixed-price model, which can include multi-year agreements, provided that the work is well-defined and costs are predictable. This practice helps private partners forecast their expenses and allows for better use of DoW maintenance depot capacity. For projects where costs are uncertain, a cost-reimbursable model is more appropriate. Additionally, the DoW may accept incremental advance payments when the scope and risk associated with a contract make it a suitable option. Multiyear fixed price agreements are authorized when future production costs can be reasonably predicted and the potential for future losses and gains are minimal. Prices may be fixed at a predetermined level taking into account future year escalation factors like pay rate changes, general inflation, and the number of units produced. Multiyear fixed price agreements may also incorporate other pricing techniques such as establishment of a base price with provisions for economic price adjustments to accommodate inflation.

10.2.8. Military Clothing Items and Individual Equipment

The DLA Supply Management Activity procures military clothing and equipment (uniforms, combat equipment, tents, tool sets and kits, hand tools, and cleaning equipment and supplies) and bills users at standard prices. The Military Services are responsible for budgeting these items through the appropriate channels: the Military Personnel appropriation for new clothing bag items and the O&M appropriation for new organizational equipment. These budgets must be sufficient to cover the initial purchase and inventory, although funds can be reprogrammed if items are needed before the budget is formally approved. A replacement item is considered "new" if its cost increases by more than 10 percent compared to the item it replaces.

10.3 Budget Justification Material

Each Revolving Fund will submit justification material to the OUSW(C), Revolving Funds Directorate, in preparation for submitting the President's budget request to the Congress following a review and approval by the OUSW(C) and the OMB. The following chart provides the required exhibits by Revolving Fund activity:

				4930.01		4930.02				4930.03				4930.04		4930.5					4932	4950	4931	4555	8164

11.0 OFFSETTING RECEIPTS

11.1 Program and Budget Submission

Each MILDEP must include offsetting receipts in their annual program and budget submission. Refer to Volume 2 procedures for instructions consistent with the provisions of the OMB Circular No. A-11.

11.2 Accounting Policies

Refer to Volume 11 for guidance relating to the DoW accounting for offsetting receipts.

12.0 DEFENSE HEALTH PROGRAM

The Defense Health Program appropriation encompasses three sub-accounts: Operations and Maintenance (O&M); Procurement; and Research, Development, Test, and Evaluation (RDT&E). Program and budget estimates must reflect the most current actual execution and

rigorous projections across the three periods of availability for each fiscal year. Detailed exhibit requirements are provided in Volume 2 procedures.

13.0 DEFENSE ENVIRONMENTAL RESTORATION

13.1 Applicability

The MILDEPs and applicable Defense Agencies with Defense Environmental Restoration Program (DERP) requirements use transfer account appropriations to fund DERP eligible cleanup activities at active installations and Formerly Used Defense Sites (FUDS) properties. Base Realignment and Closure (BRAC) appropriations to fund cleanup activities are addressed in section 7.

13.2 Environmental Restoration Account

This section directs readers to applicable guidance covering program and budget formulation for the Department's combined Program and Budget Review and congressional justification for Environmental Restoration Account (ERA) appropriations. Readers are also directed to guidance for programming, budgeting, and performance data necessary to meet reporting requirements, respond to congressional concerns, and conform to OMB guidance to link the Department's budget to the DERP performance goals for active installations and FUDS properties.

13.3 Eligible Appropriations

The appropriations eligible to receive funds from the Defense Environmental Restoration Transfer Accounts and their corresponding source for specific policies are O&M, Procurement, and RDT&E.

13.4 Procedures

All program and budget estimates, submission formats and required exhibits are found in Volume 2 procedures.

14.0 DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

14.1 DoW Counternarcotics Budget Activities

The DoW Counternarcotics program provides appropriation for four budget activities, as listed in sections 14.1.1 through 14.1.4. The funds are appropriated to the Department's Central Transfer Account (CTA) titled "Drug Interdiction and Counter-Drug Activities, Defense." Although appropriated as an O&M account, the CTA has the authority to transfer funds to other appropriations (e.g., RDT&E or Procurement) for execution. This centralized structure supports unified budgeting and oversight while enabling execution across the entire range of DoW MILDEPs, CCMDs, and Combat Support Agencies.

14.1.1. Counter-Narcotics Support. This budget activity includes detection and monitoring of aerial and maritime transit, and countering the production, trafficking, and use of illegal drugs into the United States.

14.1.2. Drug Demand Reduction Program. This budget activity includes prevention, education, and outreach to ensure the dangers of drug abuse and misuse within the DoW are understood, prevented, identified, and treated to keep the fighting force at the highest levels of readiness.

14.1.3. National Guard Counter-Drug Program. This budget activity support State National Guard assistance to Federal, State, tribal, and local law enforcement agencies, and community-based organizations in efforts to disrupt and degrade illicit drug production and trafficking within the United States.

14.1.4. National Guard Counter-Drug Schools. This budget activity funds the operation of five National Guard counter-drug schools, which provide counter-drug and related counter transnational organized crime courses of instruction to Federal, State, local and community-based organizations from the 50 states, three territories, and the District of Columbia.

14.2 Responsibilities

The Office of the Deputy Assistant Secretary of War (Counternarcotics and Global Threats) (ODASW(CNGT)) is responsible for all submission requirements for this program. DoW Components are responsible for providing all needed input to ODASW(CNGT), consistent with the submission requirements and due dates established by ODASW(CNGT).

14.3 Procedures

All program and budget estimates, submission formats and required exhibits are found in Volume 2 procedures.

15.0 OVERSEAS COST REPORT

Section 8125 of the Fiscal Year 1989 DoD Appropriations Act (PL 100-463), as codified in 10 U.S.C. § 113, requires that the DoW separately identify the amounts necessary for payment of all personnel, operations, maintenance, facilities, and support costs for all DoW overseas military units and the costs of supporting all dependents who accompany DoW personnel outside the United States. Refer to the Volume 2 procedures for guidance on OP-53 Exhibit (Overseas Funding) requirements.

16.0 INTELLIGENCE PROGRAMS/ACTIVITIES

16.1 National Intelligence Program (NIP)

16.1.1. NIP Scope. The NIP provides integrated intelligence that covers broad aspects of national policy and national security. The portion of the NIP contained in the DoW Budget contributes substantially to meeting Defense intelligence requirements and may also contain programs/activities in support of elements of the United States Government outside the DoW.

16.1.2. NIP Classification. The Office of the Director of National Intelligence (ODNI) determines classification of U.S. Intelligence funding and manpower information, pursuant to EO 12958, Section 1.5(c); EO 12333, Section 1.5(g), and the DNI's authorities under the National Security Act of 1947.

16.1.2.1. NIP resource information in all DoW databases must be classified as shown in subparagraphs 17.1.2.2 thru 17.1.2.5 unless other specific NIP program guidance in effect requires higher classification. NIP resource information for military construction and family housing for defense agencies are exempt and must be maintained and presented as unclassified.

16.1.2.2. Information which, standing alone or in aggregate, reveals any Program Element (PE) total or DoW Component total funding or manpower requirements of any program in the NIP will be classified SECRET.

16.1.2.3. Information that permits the disclosure of any PE total or the funding or manpower requirements of any program in the NIP, for example, through a subtractive process, will be classified SECRET.

16.1.2.4. Whenever NIP funding and manpower information is combined with other unclassified programs in such a way as to effectively mask the NIP resource PE total, such combined resource PE total may be treated as unclassified.

16.1.2.5. Forward requests for clarification of the foregoing classification guidance to the Office of the Under Secretary of War for Intelligence and Security (OUSW(I&S)). The OUSW(I&S) will coordinate questions of application with the ODNI and disseminate responses to all interested DoW Components.

16.1.3. NIP Budget Submissions. DoW Components with NIP Special Program Codes (SPCs) will prepare and provide NIP Congressional Budget Justification Books (CBJB) in accordance with guidance provided by the ODNI. Coordinate Decision Documents affecting elements of the NIP with the ODNI, the OUSW(C) and the OUSW(I&S). The OUSW(C), Program/Budget (P/B), Investment Directorate will ensure that the DNI Chief Financial Officer (CFO) has an opportunity to review and provide comments.

16.1.3.1. The DoW Components will implement ODNI's Intelligence Community Directive 104 and Military Personnel Resources Programming and Budgeting Policies and Procedures when developing NIP military personnel cost estimates for the budget submission.

16.1.3.2. The CBJB will incorporate an Intelligence Community (IC) project to PE crosswalk exhibit at the R-1, P 1, and OP-1 levels to help satisfy continuous congressional budget reconciliation and visibility requirements. DoW Components must continue to show steady, measurable progress toward achieving fully captured, whole, distinct, NIP data elements for all appropriations RDT&E; Procurement (PROC); O&M; MILCON; and Military Personnel (MILPERS)) identified by NIP SPC. NIP resources will not be shared or aligned to Non-NIP PEs.

16.1.3.3. The ODNI will deliver one hardcopy and compact disk (CD) of NIP program and budget materials prescribed by the ODNI to the OUSW(C), P/B, Investment Directorate, Pentagon, Room 3C749, at the same time they are delivered to the OMB.

16.1.4. NIP Classified Appeals

16.1.4.1. Classified appeals may supplement actions included in the overall Defense Appeal where security considerations have dictated a less than complete justification. Prepare classified appeals at the appropriate level of classification to fully explain and justify the action. The ODNI will determine the appeals format and content.

16.1.4.2. Classified appeals will be consistent with the SecWar policy direction as articulated by the OUSW(C) and, in the case of appeals to legislative provisions, also as articulated by the Office or the General Counsel and the Deputy SecWar. Coordinate all NIP appeals with the OUSW(I&S), the OUSW(C) and the OMB before release to the House Permanent Select Committee on Intelligence (HPSCI), the Senate Select Committee on Intelligence, the House Appropriations Committee (HAC), and the Senate Appropriations Committee (SAC).

16.2 Military Intelligence Program (MIP)

16.2.1. MIP Scope. The MIP consists of programs, projects, or activities that support the SecWar's intelligence, counterintelligence, and related responsibilities as outlined in DoDD 5205.12. This includes those intelligence and counterintelligence programs, projects, or activities that provide capabilities to meet warfighters' operational and tactical requirements more effectively. The term excludes capabilities associated with a weapons system whose primary mission is not intelligence, along with all, programs, projects, and activities under the NIP.

16.2.2. MIP Classification. MIP projects, individual PEs and line items may be classified or unclassified according to content, unless disclosure of such a total would allow derivation of classified totals. The total DoW funding for MIP is classified SECRET. Intelligence project resource data will be sorted, aggregated, and used in different ways. It is essential that DoW Components comply with DoW Financial Management Sensitive Activities Security Classification Guidance and the OUSW(I&S) and the OUSW(C) receive DoW Component current SCGs to avoid inadvertent, unauthorized disclosure of classified information. Additionally, DoW Components are responsible for reviewing and validating their project level classification and include SCG compliance statements in their Congressional Justification Book (CJB) validation memorandum submitted to OUSW(I&S).

16.2.3. MIP Budget Submissions

16.2.3.1. The OUSW(I&S) will provide complementary MIP CJB guidance. The CJB is a functional aggregation of the MIP portion of the DoW request, containing program justification and resource highlights that must be consistent with and directly auditable to all DoW justification materials (e.g., R-2, P-40, OP-5) and any other DoW justification books that address the same resources.

16.2.3.2. The OUSW(I&S) will task DoW Components annually to provide SCG for each project, along with a citation of the source of classification and any other security classification guidance unique to the organization that may be pertinent to the MIP.

16.2.3.3. Each DoW Component identified in DoDD 5205.12, with resources delineated by SPC 296, 355, 365, or 398 will prepare DoW justification materials for each appropriation. Classified justification materials will contain sufficient detail needed to fully justify the classified portion of the request, without the use of supplemental justification materials.

16.2.3.4. The CJB will incorporate a MIP project to PE crosswalk exhibit at the R-1, P 1, and O-1 levels to help satisfy continuous congressional budget reconciliation and visibility requirements. DoW Components must comply with achieving fully captured, whole, distinct, MIP data elements for all appropriations (RDT&E, PROC, O&M, MILCON, and MILPERS) identified by SPC 296, 355, 365, or 398. MIP resources will not be shared or aligned to non-MIP PEs.

16.2.3.5. DoW Components will submit one hardcopy and PDFs of their classified R-2, P-40 or OP-5 and the OUSW(I&S) will deliver one final MIP hardcopy and PDFs of all volumes directly to the OUSW(C), P/B Investment Directorate, Pentagon, Room 3C749, at the same time as the unclassified details. The OUSW(C) will review and combine all DoW Component classified exhibits (SECRET and TOP SECRET) as a classified Defense-wide volume exhibit before releasing to OMB.

16.2.4. MIP Classified Appeals

16.2.41. Classified appeals may supplement actions included in the overall Defense Appeal where security considerations have dictated a less than complete justification. Prepare classified appeals at the appropriate level of classification necessary to fully explain and justify the action. Unclassified MIP appeals will follow normal procedures per additional guidance.

16.2.4.2. Classified Appeals will be completely consistent with the SecWar policy direction as articulated by the OUSW(C) and, in the case of appeals to legislative provisions, also as articulated by the Office of the General Counsel and the Deputy SecWar. The OUSW(I&S) will prepare classified appeals for the MIP and must coordinate with the OUSW(C), the ODNI CFO and the OMB before release to the House Armed Services Committee, Senate Armed Services Committee, HAC, and SAC, and HPSCI.

17.0 INFORMATION TECHNOLOGY (INCLUDING CYBERSPACE ACTIVITIES)

17.1 Office of Primary Responsibility

Within the office of the Chief Information Officer (CIO) of the DoW, the Deputy CIO for Resources and Analysis (DCIO(RA)) is responsible for collecting, assembling, and reporting of the Department's Information Technology and Cyberspace Activities (IT/CA) budget for the purposes of submitting complete and accurate IT/CA justification materials to the OMB and the

Congress. DoW CIO DCIO(RA) will issue annual supplemental guidance that addresses detailed and amplifying submission requirements, relevant changes, and submission due dates.

17.2 Applicability

The IT/CA budget submission materials apply to the Office of the SecWar (OSW), the MILDEPs (including their National Guard and Reserve Components), the Joint Staff, the CCMDs, the DoW Inspector General, the Defense Agencies and Field Activities, the Joint Service Schools, the Defense Health Program, and the Court of Military Appeals.

18.0 OTHER SPECIAL ANALYSES

This section introduces DoW budget formulation and congressional back-up information requirements for various special interest areas not covered in the preceding sections. The exhibit requirements cover resources crossing DoW appropriations and are generally functional in nature. Exhibits are required for program review, budget review, and congressional justification/presentation submissions. Detailed information on submission requirements, exhibit or material preparation, and special instructions on the review processes are provided in Volume 2 procedures.

18.1 Combating Terrorism

The data collected for Combating Terrorism through reporting process will be used to comply with congressional and OMB reporting requirements. The Department will also use the data to evaluate the Components' combating terrorism efforts during program and execution reviews. Office responsibilities and definitions specific to Combating Terrorism are provided in Volume 2 procedures.

18.2 Major Range and Test Facility Base

The Major Range and Test Facility Base (MRTFB) exhibit formats submitted in support of the Program and Budget Review submission are the same as those submitted to the Director, DoW Test Resource Management Center (TRMC) in support of the President's Budget except that the President's Budget submission will not include updates to any of the Direct (User) funding or MILCON information on any exhibit to include Exhibit 2D, Source of Direct Funds, in whole. This guidance applies to the activities included in the MRTFB, as defined in DoDD 3200.11. Budget estimates will be in accordance with the applicable funding policy for the required appropriation or account.

18.3 Test and Evaluation Funding

The DOT&E is charged with oversight of the DoW T&E resources and funding of T&E by each major DoW program. Modifications to the instructions in Volume 2 procedures, requests for deviations from their provisions, or requests for their clarification or applicability should be directed to and coordinated with DOT&E and OUSW(C) Program and Budget.

18.4 Financial Management Activities

Information on funding levels for financial management activities is required for oversight and review of component resources devoted to these activities and to ensure that their use is in accordance with the government-wide 5-year financial management plan prepared by OMB as required by the Chief Financial Officers Act of 1990. It fulfills the requirements outlined in OMB Circular No. A-11, Sections 130 and 150, which govern apportionment reporting and administrative control of funds.

18.5 Federal Credit Programs

Credit programs in the DoW consist of direct loans and guaranteed loans. Submission requirements and definitions specific to the DoW credit programs are provided in Volume 2 procedures. Agencies can also refer to OMB Circular No. A-11 for a more detailed explanation of terminology and budget instructions.

18.6 Other Interest Areas

The Congress or OMB has prioritized areas of special interest that require submission of additional budget justification material, with requirements extending beyond a single appropriation. The list and corresponding instructions for these exhibits are provided either in Volume 2 procedures or OUSW(C) guidance for the budget review and/or the President's Budget submission.

VOLUME 3

BUDGET EXECUTION – AVAILABILITY AND USE OF BUDGETARY RESOURCES

1.0 GENERAL

1.1 Overview

1.1.1. Volume 3 provides general guidance on the execution of the budget, specifically for availability and use of the budgetary resources, for the Office of the Secretary of War (OSW). Budget policy memoranda issued throughout the year, special instructions, and nonrecurring requirements unique to that year's budget cycle will provide any necessary changes or revisions to this standing document. The provisions of Volume 3 apply to all DoW military and specified civil functions.

1.1.2. Volume 3 also provides budget policies; general guidance on supporting material, and budget execution submission formats in addition to specific guidance by appropriations, programs, and activities. Required budget exhibits and formats, corresponding instructions, procedures, and automated submission requirements can be found in the Volume 3 Supplemental Document.

1.2 Purpose

This volume provides budget execution policies, exceptions to policies, and proposed changes, specifically related to the availability and use of budgetary resources. This volume also contains guidance for governing budget execution business rules and financial management arrangements. The scope and provisions in this volume apply to the OSW, the Military Departments (MILDEPs), the Defense Agencies, the Combatant Commands, and any other Defense Agencies or DoW Field Activities (hereafter referred to as "Components") that manage program and budget resources.

1.3 Authoritative Guidance

Refer to the authoritative guidance document.

2.0 APPORTIONMENT / REAPPORTIONMENT AND FUNDS DISTRIBUTION

2.1 Responsibilities

2.1.1. Office of Management and Budget (OMB). The administrative control of all government funds is legally mandated through an apportionment process, as required by 31 U.S.C. §§ 1512 and 1513. The OMB manages and approves these apportionments at the Treasury appropriation fund symbol (TAFS) level. All appropriation requests must follow the guidance in OMB Circular No. A-11, Section 120, which also identifies certain exemptions. OMB may grant additional exemptions under its authority in 31 U.S.C. § 1516.

2.1.2. OUSW(C)/Program and Budget (P/B). Following OMB's approval, the OUSW(C) P/B allocates funds to the Military Services and Defense Agencies for execution. The OUSW(C)

P/B is responsible for the initial distribution of all funds to Military Services and Defense Agencies. This is accomplished via funds authorization documents (FADs) after the funds have been apportioned. The assigned OUSW(C) P/B analyst for each appropriation account will allocate funds to the Military Services and/or the Defense Agencies via FADs. Funds in transfer-only accounts are not available for obligation or outlay and are not distributed directly. Instead, they are moved to the recipient appropriation's FAD using the reprogramming procedures outlined in section 6 (Reprogramming of DoW Appropriated Funds).

2.1.3. OUSW(C) Program and Financial Control (P&FC) Directorate. The OUSW(C) P&FC manages the complete apportionment lifecycle. It submits all requests to OMB and processes all approved apportionments. All appropriations must be apportioned unless exempt per OMB Circular No. A-11 or 31 U.S.C. § 1516. P&FC processes authorized exemptions and maintains a comprehensive list of exempt accounts for the DoW.

2.2 Provisions

2.2.1. Accounts must be reapportioned before obligating any upward adjustment of budgetary resources that is greater than $400,000 or 2 percent, whichever is lower. Unobligated balances in unexpired accounts must be reapportioned every year. Expired accounts are not apportioned, and transfer-only accounts are generally exempt from apportionment. Refer to the OMB Circular No. A-11, Section 120. All reapportionments must be validated against the most current SF 133 (Report on Budget Execution and Budgetary Resources).

2.2.2. For Surcharge Collections, Sales of Commissary Stores - Trust Revolving Fund, the 10 U.S.C. § 2685 permits obligation of anticipated proceeds from the adjustments or surcharges authorized by 10 U.S.C. § 2685.

2.2.3. OMB automatically apportions certain funds in accordance with OMB Circular No. A-11 Section 120.41 for newly enacted appropriations in accordance with the Interim Apportionment Authority for Initial Appropriations Act.

2.2.4. If an appropriations act is not signed into law by October 1, Congress may pass a Continuing Resolution (CR) to temporarily fund government operations. Multiple CRs may be necessary, and each must be signed by the President to become law, until the final annual appropriations act is passed.

2.2.5. Apportionments to record the sale and replacement of assets under Section 21 of the Apportionments and the Arms Export Control Act require actions codified at 22 U.S.C. § 2761.

2.2.6. For rescissions and deferrals, available budgetary resources may be withheld from obligation or expenditure through impoundment, either permanently (rescission) or temporarily (deferral) under conditions set forth in 31 U.S.C. § 1512 and the Congressional Budget and Impoundment Control Act (2 U.S.C. §§ 683 and 684). Refer to OMB Circular No. A-11 for information and definitions of rescissions and deferrals.

3.0 APPROPRIATION TRANSFER AUTHORITIES

Congress grants authority for the transfer of funds between appropriations, with most DoW transfers occurring in accordance with the annual Appropriations Act and the National Defense Authorization Act (NDAA). The Secretary of War (SecWar) also possesses General Transfer Authority (GTA) for unforeseen, high-priority military needs, provided the item was not previously denied by Congress and Congress is promptly notified. OMB approval may also be required depending on the legal source of authority. To ensure timely action, the Office of the Under Secretary of War (Comptroller) (OUSW(C)) maintains and publishes periodic status reports on transfer actions.

3.1 Responsibilities and Authorizations

3.1.1. DoW Components must formally submit all proposals to transfer funds to the OUSW(C) and state the specific statutory authority that permits the action. Once approved, the originating DoW Component is fundamentally responsible for executing transfers.

3.1.2. The SecWar provides the ultimate authority and amounts for most transfers, contingent upon the existence of certain conditions as provided in DoD Directive (DoDD) 5118.03. This authority may be delegated to the USW(C). Furthermore, all transfer documents processed to the Treasury must cite the legal authority for the transfer, including any required determinations or approvals.

3.1.3. A transfer cannot be executed without the required approval from the OMB.

3.2 Authority for Transfers Affecting Budget Availability

3.2.1. Congressionally Directed Transfers. The DoW Appropriations Act provides direct authority for DoW Components to execute specified fund transfers.

3.2.2. GTA. The SecWar may transfer funds for unforeseen, high-priority military needs, provided the item was not previously denied by Congress.

3.2.3. Transfers Between Working Capital Funds. Transfers between working capital funds are permitted, but no funds may be obligated for war reserve materials without prior Congressional notification.

3.2.4. Transfer of Military Construction (MILCON) Appropriations. The SecWar has the authority to transfer MILCON funds to other MILCON or Family Housing accounts, where they must be used for the same purpose and time period.

3.2.5. Transfer Accounts. The DoW recognizes certain accounts (e.g., Environmental Restoration, Drug Interdiction and Counter-Drug Activities) established by law as dedicated "Transfer Accounts."

3.2.6. Transfer of Funds and Personnel for Functional Transfers Within the DoW. When a function is reassigned within the DoW, the necessary funds and personnel positions may also be

transferred, and the funds must be used for their original purpose as established under the authority of 10 U.S.C. §§ 125 and 126.

3.2.7. Transfer of Funds for Functional Transfers Between Government Agencies. In accordance with the authority granted by 31 U.S.C. § 1531, the DoW adheres to the legal framework governing the transfer of appropriations when a function is moved to or from another federal agency.

3.2.8. Limitation on Transfer of Funds to Other Departments and Agencies. Pursuant to 10 U.S.C. § 2215, DoW policy prohibits the transfer of funds designated for military functions to any other federal department or agency. This policy applies to transfers made under any provision of law enacted after November 29, 1989. An exception to this policy is permitted only when the transfer is certified to be in the national security interest of the United States.

3.3 Transfer Provisions

3.3.1. Reprogramming Actions. A reprogramming action (DD 1415) must be executed for any non-congressionally directed fund transfer that results in an increase or decrease between DoW appropriations.

3.3.2. Processing of Treasury Non-Expenditure Transfers (NETs). The mechanism for moving funds between accounts at the Treasury for an approved transfer is the Treasury Non-Expenditure Transfer (NET). NETs between DoW accounts will not be processed without a directing memorandum from the OUSW(C). However, this policy does not require prior OUSW(C) approval for certain exceptions, including functional transfers initiated by a non-DoW agency or transfers of obligational authority to a designated transfer account in another agency. The directing OUSW(C) memorandum serves as the official policy instrument for the transfer, must contain all information necessary for proper execution and reporting, and will confirm which office is responsible for any required Congressional notification.

3.3.3. Notification to Congress. DoW policy mandates compliance with all statutory requirements for reporting transfers to Congress. For functional transfers, a distinction applies: the transfer of funds under 10 U.S.C. § 126 does not require Congressional notification. However, the transfer of the function itself, pursuant to 10 U.S.C. § 125, must be reported to Congress if it results in the substantial reduction or elimination of a major weapons system.

3.3.4. Apportionment and Reapportionment Schedules. In accordance with OMB Circular No. A-11, DoW policy requires all transfers to be reflected on the Apportionment and Reapportionment Schedule (SF 132). While certain specified transfers (e.g., Foreign Currency Fluctuations, Environmental Restoration) result in automatic apportionment for the gaining and losing accounts, those accounts designated as "only for transfer" are exempt from apportionment, as specified in OMB Circular No. A-11, section 120.5.

3.3.5. Guidance on SF 133 Treatment. With agreement from OUSW(C) and OMB, transfers may be anticipated on the SF 133 report once all statutory requirements are met, even before the NET action is complete. This is an exception to standard guidance in OMB Circular No. A-11.

3.3.6. Funding Authorization Documents (FAD). Program adjustments from transfers must be reflected in a FAD, as determined by the OUSW(C)'s cognizant P/B appropriation director.

4.0 FUNCTIONAL TRANSFERS

4.1 Statutory Authority

Under 10 U.S.C. § 125, the SecWar is authorized to transfer, reassign, consolidate, or abolish any function within the Department. When this occurs, 10 U.S.C. § 126 permits the transfer of associated appropriations and civilian employees, provided the SecWar determines they are needed and the President grants approval (as delegated to the OMB).

4.2 Provisions

4.2.1. Fund Adjustments. DoW policy dictates that current-year functional transfer funding adjustments should primarily be reimbursable. Direct fund transfers are only to be requested when reimbursement presents serious burdens or significant financial amounts.

4.2.2. Transfer of Funds. DoW policy requires the receiving DoW Component to initiate a fund transfer request when necessitated by a functional transfer under 10 U.S.C. § 125. The request must comply with the requirements of 10 U.S.C. § 126 and be based on a mutually agreed-upon amount between the involved DoW Components.

5.0 SPECIAL MILITARY CONSTRUCTION/ FAMILY HOUSING FUND RELEASE PROCEDURES

5.1 Fund Approval

It is the policy of the DoW that fund approval for military construction and family housing construction accounts must be formally requested by the cognizant MILDEP. The cognizant MILDEP must submit a request to the OUSW(C) P/B, Military Personnel and Construction Directorate.

5.2 OUSW(C) Review

It is the policy of the OUSW(C) to issue a formal fund approval to the requesting Component after its review, granting obligational authority corresponding to the amounts approved.

5.3 Document Approval

It is a critical DoW policy that the final fund approval document limits a Component’s authority to incur obligations. No obligations may be incurred prior to the receipt of this document or in amounts that exceed the authority granted within it.

5.4 Submission Requirements

It is DoW policy that a formal fund release request is required under several specific circumstances: for the initial fund authorization, to request the release of funds previously placed on withhold by OUSW(C), and to provide support for an approved apportionment/reapportionment schedule (SF 132) or a formal above-threshold reprogramming action.

6.0 REPROGRAMMING AND DOW APPROPRIATED FUNDS

6.1 Transfer Authority

The DoW requires specific transfer authority for any movement of funds between appropriations or their legal subdivisions. This authority is established through several distinct mechanisms.

6.1.1. General Transfer Authority (GTA). This is contained in the annual DoW Appropriations Act (e.g., Section 8005 of Public Law 119-75). GTA is also authorized in the annual National Defense Authorization Act (e.g., Section 1001 of Public Law 119-60). The use of GTA is subject to the SecWar's determination that the action is in the national interest and requires approval from the Office of Management and Budget (OMB). OMB concurrence on the use of GTA is documented on a SecWar Determination letter.

6.1.2. Foreign Currency Fluctuations (FCF). Policy also provides specific FCF authority through public laws (e.g., Public Law 95-457 and 10 U.S.C. § 2779).

6.1.3. Special Transfer Authorities. Policy recognizes additional special transfer authorities for unique situations, as provided in various Sections of Title 10 U.S.C. (e.g., 10 U.S.C. § 127a), other annual defense acts, and specific authorities for Intelligence Programs.

6.2 General Reprogramming Policies

6.2.1. DoW's Three-Form Process Policy. The DD Form 1414 establishes the financial baseline, detailing the budget's complete history and footnoting all items of special congressional interest. To execute changes, the DD Form 1415 is used to either request prior congressional review for fund realignments or to document internal transfers for audit purposes. Finally, for transparency, a cumulative DD Form 1416 report is submitted to show the final program status after all adjustments; this report is provided quarterly for Procurement and RDT&E appropriations and annually for Military Personnel and Operation and Maintenance (O&M) appropriations.

6.2.2. Reprogramming Actions Submitted for Congressional Review. The DoW submits certain reprogramming actions for congressional review. These reprogramming actions enable the DoW to adapt funding to emergent, unforeseen operational requirements, urgent procurement needs, technology advancement opportunities, or other critical mission requirements in the execution of DoW programs. Further, it is expressly prohibited to request reprogramming into an effort that has been denied by Congress. However, this prohibition does not apply to the entire line-item of a congressional denial; only the specific effort. A DD Form 1415-1, Prior Approval Reprogramming, is required by DoW policy for actions that: increases the procurement quantity of a major end item (unless specifically authorized by congressional language, in which case a

DD 1415-3 is used); affects an item designated as a matter of special congressional interest; or uses GTA (unless reclassification of a program is required for proper execution of an appropriation). Pursuant to 10 U.S.C. § 2214 and the annual Appropriations Act, GTA itself has limitations and may only be used under the "higher priority" conditions. In rare instances involving the movement of funds between special interest items within the same line item, policy allows for a letter notification to Congress instead of a formal DD 1415-1

6.2.3. Internal Reprogramming Actions. The DoW must use a DD Form 1415-3, Internal Reprogramming, as an audit-trail document for several types of internal fund movements that do not require prior congressional review. This policy applies to three main areas.

6.2.3.1. First, it applies to the reclassification of funds to a different line item, program element, or appropriation for proper execution, so long as the substance of the program remains unchanged. If such a reclassification uses GTA (as defined in the annual appropriation bill), then the signed Letter Apportionment satisfies the same intent as a Secretary of War Determination Letter and OMB concurrence is satisfied through the approved apportionment.

6.2.3.2. Second, it applies to reprogramming funds to or from designated Transfer Accounts, such as Environmental Restoration, Drug Interdiction and Counter-Drug Activities, and Foreign Currency Fluctuations, which are generally exempt from the use of GTA.

6.2.3.3. Third, policy dictates the use of a DD 1415-3 for approving increases to procurement quantities for major end items when the action falls below the threshold for a prior review reprogramming.

6.3 Congressional Notification

6.3.1. Letter Notifications to Congress. The DoW requires advance letter notification to Congress before initiating certain below-threshold actions that do not otherwise require a formal prior review reprogramming. This policy applies to:

6.3.1.1. The creation of new procurement line items or development programs costing less than $20 million and $10 million, respectively;

6.3.1.2. The initiation of safety programs or modifications costing less than $20 million; and

6.3.1.3. The termination of procurement or RDT&E programs that also fall below these same $20 million and $10 million thresholds, as long as the parent program element or line item is not entirely eliminated.

6.3.1.4. This policy also extends to identifying specific line items to satisfy other congressionally established transfer notification requirements.

6.3.2. Failure to Provide Proper Notification. Recurring general provisions in DoW Appropriations Acts prohibit the use of reprogrammed funds to initiate a new program, project, or activity. An exception is made only if the program must be undertaken immediately in the interest

of national security and after prior written notification is provided to the congressional defense committees.

6.4 Approvals and Responsibilities

6.4.1. Congressional Committee Approval of DD 1415 Requests. As a matter of policy, DoW requires congressional defense committees' review before a Prior Approval Reprogramming Action (DD 1415-1) can be implemented. A critical aspect of this policy is the strict prohibition against obligating or committing funds for a requested reprogramming prior to receiving this congressional review. Furthermore, DoW policy prohibits using a series of below-threshold reprogramming actions as a workaround to finance an increase that was specifically denied by Congress. However, policy does permit the use of below-threshold authority to finance increases that were approved by Congress but could not be funded during the initial implementation due to a lack of approved sources, provided the action does not violate other reprogramming limitations.

6.4.2. OMB Approval. For prior approval actions, OMB must approve the transmittal before it is sent to the congressional defense committees.

6.4.3. OUSW(C), Deputy Comptroller, Program/Budget (P/B). The SecWar's determination authority on transfers due to national interest is delegated to the Deputy Comptroller, P/B. The OUSW(C) sends OMB-approved transmittals to the congressional defense committees. After Congress responds and implementation is finalized, the OUSW(C) is responsible for obtaining the formal OMB apportionment for the transfer and issuing a formal implementation memorandum to the DoW Components to document the action and authorize its execution. This policy ensures that a clear, official record exists before any funds are moved and that all necessary documentation, such as transfer authorizations and approval documents, are properly disseminated.

6.4.2. DoW Components. The DoW Assistant Secretary (Financial Management and Comptroller) of a MILDEP or the Comptroller of a Defense Agency must formally submit all proposed DD 1415 reprogramming actions. Policy dictates that these actions must be submitted electronically and are due by the 5th workday of the month for inclusion in the monthly submission. DoW Components must address the following requirements:

6.4.2.1. Required DD Forms, Formats, and Templates. The SecWar has delegated the authority to signal reprogramming actions to the USW(C). The OUSW(C) Program and Financial Control Directorate manages the reprogramming process. Refer to the Supplemental Document for the required DD Forms, formats, and templates.

6.4.2.2. Notification – Investment Programs. When a prior approval reprogramming for investment programs is required to initiate a new start or to terminate a program, a copy should also be provided to the Office of the Under Secretary of War for Acquisition and Sustainment. The following DoW policies apply when considering a prior approval for a new start.

6.4.2.2.1. RDT&E. A new start program for RDT&E involves the creation of a new program element or project, or major component thereof, not previously justified by the Department and funded by Congress through the normal budget process.

6.4.2.2.2. Procurement. A new start program for Procurement involves the creation of a new procurement line item or major component thereof, not previously justified by the Department and funded by Congress through the normal budget process.

6.4.2.2.3. MILPERS and O&M. Due to the characteristics of Military Personnel and Operation and Maintenance programs, new starts seldom occur in those appropriations. New starts in these appropriations would be significant new programs, efforts, or activities that have not been explicitly justified to the Congress in budget justification material.

6.4.2.2.4. Follow-on Funding. The Department will not approve a new start reprogramming request unless follow-on funding for the subsequent fiscal years is already budgeted or programmed.

6.4.2.2.5. Extension Exception. Extending an ongoing, previously justified RDT&E or Procurement effort into a subsequent fiscal year does not constitute a new start; rather it is treated as a continuation of the prior-year program.

6.4.2.3. Notification – National Intelligence Program (NIP) or Military Intelligence Program (MIP). For any reprogramming action that involves NIP or MIP resources, policy requires coordination with the Office of the Director for National Intelligence (ODNI) and the Under Secretary of War for Intelligence and Security. Pursuant to 50 U.S.C. § 3024(d)(1)(B), consultation with the ODNI Chief Financial Officer is required before reprogramming funds are made available for the MIP. To ensure transparency without compromising security, any reprogramming action posted publicly must not identify intelligence resources. A separate statement in the transmittal letter must clarify if such resources are affected.

6.4.2.4. Annual Omnibus. Any reprogramming actions submitted outside of the annual Omnibus must be limited to critical, unforeseen, and time-sensitive requirements.

6.4.2.5. Clearance for Public Posting. Since all reprogramming actions are posted on the public website after implementation is complete, the final documents (i.e., DD 1415-1 Prior Approval, DD 1415-3 Internal Reprogramming, and Letter Notifications to Congress) must receive clearance from the Defense Office of Prepublication and Security Review.

6.5 Other DoW Reprogramming Policies

6.5.1. Alternate Letters or Revised Actions for New Sources. The DoW allows for the submission of new funding sources if a congressional committee concurs with a reprogramming increase but denies the proposed sources. However, policy strictly prohibits submitting alternate sources for increases that were denied by the committees, except in the most unusual circumstances. The USW(C) has the authority to appeal a committee's decision on a reprogramming action. Any subsequent action related to a reprogramming, including appeals or proposals for new sources, is subject to the same formal procedures as the original submission.

6.5.2. Withdrawal of Reprogramming Actions. It is the policy of the DoW that if a reprogramming action submitted to Congress is no longer required, it may be formally withdrawn from consideration. This policy applies when circumstances change, such as when too much time has passed for the action to be executed or when the proposed funding sources are needed for

higher-priority reprogramming. Policy dictates that the withdrawal notification must provide a sufficient rationale to the congressional committees to justify retracting the original request.

6.5.3. DD 1416, Report of Programs. The DD Form 1416, Report of Programs, is the official DoW report reflecting the status of all programs after enacted budgets, supplementals, rescissions, and all reprogramming actions are incorporated. To ensure financial consistency, DD 1416 data must reconcile with the DD 1002 report. For procurement programs aggregated into an "Items Less Than $5 Million" line item, any cost growth must be accommodated within that line's total below-threshold reprogramming authority (not to exceed the $20 million or 20 percent limit). The basis for calculating below-threshold percentage decreases in Procurement and RDT&E appropriations is the original appropriation adjusted for any enacted supplementals and rescissions. Reimbursable program or order amounts are not required unless reimbursable funding was used for the direct program.

6.5.4. Reprogramming of Intelligence Resources. DoW policy for reprogramming intelligence resources is divided into two categories:

6.5.4.1. NIP. Pursuant to 50 U.S.C. § 3024, the DNI has final approval authority to approve fund transfers and all such actions require prior approval from the House Permanent Select Committee on Intelligence (HPSCI), Senate Select Committee on Intelligence (SSCI), House Appropriations Committee (HAC), and Senate Appropriations Committee (SAC).

6.5.4.2. MIP. Standard DoW reprogramming policies apply, with additional specific guidance in DoDD 5205.12. Pursuant to 50 U.S.C. § 3024(d)(1)(B), OUSW(C) must consult with the DNI's Chief Financial Officer before reprogramming any MIP funds, Finally, to satisfy 50 U.S.C. § 3094 and as a matter of committee relations, the Department provides the SSCI with information copies of any reprogramming actions occurring into or within the MIP.

6.5.5. Reprogramming of Special Access Programs (SAP). The annual DoW Appropriations Act states: "Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in session in advance to the congressional defense committees." This means that to start a new SAP, the DoW must inform the relevant congressional committees at least 30 legislative days before doing so.

6.5.6. Below-Threshold Reprogramming Actions. DoW policy allows Components to use below-threshold reprogramming for unforeseen, high-priority requirements. These cumulative actions must net to zero and are prohibited from exceeding established monetary thresholds or initiating new start programs. Using this authority to fund an increase specifically denied by Congress is prohibited. However, it may be used to fund an increase that Congress approved but could not be implemented due to a lack of sources, provided this is done with advance written notification and does not violate other limitations. A policy exception to the normal thresholds also exists for funding adjustments related to canceled accounts, as governed by 31 U.S.C. § 1551 et seq.

6.5.7. Replacement Of Items Sold From Inventory. This section is applicable to items sold to foreign governments under the Arms Export Control Act, 22 U.S.C. § 2761. Sales to domestic

buyers (Federal or non-Federal) are governed by Title 41 of the Code of Federal Regulations (CFR) Part 102-39.

6.5.7.1. Current budget policy prohibits using proceeds from asset sales to acquire a non-like replacement item (one not of identical type, model, and series) without obtaining congressional review. The DoW secures this requisite approval by submitting a prior approval reprogramming action to the congressional defense committees.

6.5.7.2. The DoW treats the replacement of certain small-dollar-value items sold from inventory as a "like replacement," even if the replacement is not of the identical type, model, and series. This policy applies only if all of the following conditions are met: the original item has a unit cost of less than $5,000; the replacement is an improved model of the same end item that performs the same warfighting capability; and procuring the replacement does not cause the inventory objective presented to Congress to be exceeded. This policy is intended to reduce unnecessary paperwork. Finally, policy dictates that the amount applied toward the replacement item may not be increased beyond the proceeds generated from the sale of the original item.

6.5.7.3. It is the policy of the DoW that a prior approval reprogramming action is required when an item sold from inventory is replaced with an item that is not identical (i.e., not a "like replacement"). Policy permits such a replacement only if the new item is a later series or modified version of the same basic model, or if it is an acceptable substitute used against the same inventory objective. If congressional review is obtained, the offsetting collections from the sale may then be used to procure the replacement. Furthermore, in accordance with OMB Circular No. A-11, the procurement of such a replacement item must be classified as a direct obligation.

6.5.7.4. When seeking congressional concurrence to use proceeds for non-like replacement items, Components must submit the DD 1415-1 as a distinct, stand-alone reprogramming request. This can be done either as a separate submission or as a separate part within the regular monthly reprogramming action, but it must not be combined with other types of reprogramming requirements.

6.5.8. Reprogramming Policy for Closing Appropriation Accounts (31 U.S.C. § 1551 et seq).

6.5.8.1. Out-of-Scope Contract Changes. It is DoW policy that when currently available appropriations are used to fund out-of-scope contract changes, normal reprogramming procedures and thresholds apply. Policy dictates that these changes be funded from the current corresponding program line. If no such line exists, a new one will be created, and the standard reprogramming threshold procedures for new starts will apply. Any existing line item can serve as the funding source, but it will also be subject to normal reprogramming thresholds.

6.5.8.2. Canceled Appropriation Accounts. DoW policy allows currently available appropriations to fund obligations that would have been properly chargeable to a now-canceled account. This is strictly limited by policy to one percent of the current appropriation or the unexpended balance of the canceled account, whichever is lower. Critically, policy dictates that normal reprogramming procedures and thresholds do not apply to these specific actions. All such

charges must be reflected in a line item titled "Canceled Appropriation Account Adjustments" on the DD 1416, Report of Programs.

6.5.8.3. Expired Appropriations. It is DoW policy that an expired appropriation remains available for recording, adjusting, and liquidating obligations properly chargeable to it until the account is officially closed under the authority of 31 U.S.C. § 1552. This includes funding within-scope contract changes. Pursuant to 10 U.S.C. § 8683, specific policy, allows expired O&M, Navy appropriations to be used for certain scope changes in ship overhaul and repair. For the Shipbuilding and Conversion, Navy (SCN) appropriation, policy allows for additional obligations to be incurred after the normal 5-year availability period for final-stage construction work, as typically provided by language in the annual DoW Appropriations Act (e.g., Section 8075 of Public Law 113-235). Further, investment appropriations lose their line-item character in the expired period. Therefore, upward obligation adjustments may be made citing sources from other line-items within the same appropriation.

7.0 REPROGRAMMING OF MILITARY CONSTRUCTION AND FAMILY HOUSING APPROPRIATED FUNDS

7.1 General Policy

The DoW has flexibility from Congress to adjust funding for approved military construction and family housing programs to meet changing conditions. However, the DoW must seek approval from the relevant congressional committees for these reprogramming actions. Such adjustments are typically required to respond to emergencies, replace damaged facilities, accommodate price increases, or implement specific congressional provisions. This process ensures that while DoW missions are supported, the use of appropriations remains consistent with congressional intent.

7.2 Authority and Approval

7.2.1. The OUSW(C) must approve all proposed reprogramming actions for military construction and family housing.

7.2.2. Prior congressional approval is mandatory for significant actions, including cost increases that exceed 25 percent of the project's base or $6 million (whichever is less), any funding increase to a project previously reduced in scope by Congress, and for specific circumstances like emergency construction under 10 U.S.C. § 2803 or the restoration of damaged facilities under 10 U.S.C. § 2854.

7.2.3. Prior approval is generally not required for actions below the thresholds specified in Section 7.2.2, projects funded by Environmental Restoration accounts, when cost increases are solely due to final contractor claim settlements, or when reprograming funds between or among family housing operation and maintenance accounts (though a new FAD for family housing remains required under specific conditions).

7.2.4. The policy strictly prohibits reprogramming requests for projects that are unauthorized, have been specifically denied by Congress, or attempt to initiate major unauthorized programs.

7.2.5. The policy also permits split-year funding, allowing a project to be financed with funds from multiple program years, and provides a mechanism for the OUSW(C) to appeal unfavorable congressional committee decisions.

7.3 Procedures

Refer to Volume 3 Supplemental Document for guidance on the appropriate submission and instructions.

8.0 STANDARDS FOR RECORDING AND REVIEWING COMMITMENTS AND OBLIGATIONS

This section prescribes the requirements for determining the amount and accounting period in which commitments and obligations must be recorded under various circumstances. Departmental standards for recording transactions in the execution level budgetary accounts are in Section 12.

8.1 Recording of Commitments

A commitment must cite a Standard Line of Accounting (SLOA) in accordance with Volume 1 and must be recorded in the general ledger in accordance with the United States Standard General Ledger (USSGL) Standard Financial Information Structure ***(SFIS)*** Transaction Library in Volume 1.

8.2 Validating Commitments

When drafting contracts, procurement officials may modify the description of deliverable goods and services or contract line-item structure used on a funded purchase request. However, if these changes are substantial, there is a risk the goods and services procured no longer align with the purpose set forth in the purchase request for which the commitment was certified. To mitigate this risk, certifying officials must conduct an automated pre-award validation with the contract issuing organizations to validate that committed funds remain available and suitable for the draft award's intended purpose. This check must also ensure that the data in the accounting and procurement systems are sufficiently aligned to facilitate line-item traceability between commitments and obligations, to facilitate payment. The structure must support posting obligations and line items with different accounting treatments that must be segregated. This transaction may be performed via the Global Exchange system using system agnostic data standards.

8.3 Obligation Responsibilities

31 U.S.C. § 1501, "Documentary Evidence Requirement for Government Obligations," directs that amounts must be recorded as obligations only when supported by documented evidence. The office that incurs an obligation must provide, within five calendar days of the date the obligation is incurred, a copy of the obligating document(s), via electronic mail, fax, or other documented means, to the office responsible for recording the obligation. The office that is responsible for recording the obligation must record the obligation in the official accounting records within five calendar days of receipt of such documentation, information, or data. Timely

and accurate recording of obligations facilitates the disbursing officer's ability to verify fund availability before authorizing a timely payment.

8.4 Recording Obligations

8.4.1. All business and financial events resulting in an obligation must cite a SLOA in accordance with Volume 1 and must be recorded in the general ledger in accordance with the SFIS Transaction Library in accordance with Volume 1.

8.4.2. When recording obligations under this section, utilize the following principles:

8.4.2.1. Documented Evidence. An amount must be recorded as an obligation only when supported by documentary evidence of the transaction. A verbal order or agreement must be reduced to writing before the obligation may be recorded. When the amount is not known or cannot be feasibly ascertained at the time it is recorded, the best estimate must be used. Document the best estimate to include relevant inputs, assumptions, and calculations. In accordance with Volume 1, retain evidence to support the transaction.

8.4.2.2. Ten-Day Rule. Record obligations in the official accounting records at the time a legal obligation is incurred, i.e., contract is signed. In all instances, obligations must be recorded within 10 calendar days following the day that an obligation is incurred (to include obligations incurred when invoices are overpaid or duplicate payments are made). Notwithstanding the ten-day rule, record all obligations (per line of accounting) in the official accounting records in the same month in which the obligation is incurred. If an obligation is not recorded within the specified timeframe, follow section 8.16.

8.5 Recording Contract Obligations

Offices generating contract obligations in the form of a contract, order, or modification; must provide official evidence of the obligations, and other supporting documents, to the office responsible for recording the obligation, via electronic format as defined in the Defense Federal Acquisition Regulation Supplement (***DFARS***) Procedures, Guidance, and Information ***(PGI) 204.201***, and in accordance with the SFIS data elements required in Volume 1, and posting logic in Volume 1. Load obligations manually, within five calendar days from the signature date on the contract or contract modification, based on the official obligating documents in the Electronic Document Access System, if the transactions fail to upload electronically. If the contract contains errors, omissions or deficiencies that prevent posting, a Contract Deficiency Report must be created to document the deficiency and request corrective action in accordance with ***PGI 204 270-2.***

8.5.1. Contracts or Orders for Goods, Supplies, or Services to Meet Bona Fide Need. DoW Components must determine that the goods, supplies, or services required under contracts, or orders placed obligating an annual or multiple year appropriation, are intended to meet a bona fide need of the period for which funds were appropriated. Additionally, a buying activity's project order must serve a bona fide need that exists in the fiscal year in which the project order is issued; otherwise, a valid obligation is not accomplished. Bona fide need generally is a determination of the buying activity and not that of the selling/performing activity. A selling activity must refuse to accept a project order if it is obvious the project order does not serve a need existing in the fiscal

year in which issued. Such determinations must consider estimated current consumption; the requirements that may be foreseen for future years based upon the procurement lead-time; authorized stock levels; and authorized mobilization reserves. It is not intended that the bona fide need of the fiscal year rule be construed to preclude procurement lead-time. If, a provision of law makes such appropriations available for payments under contracts for specified services for periods beyond the period for which the appropriation otherwise is available, the contract for such services extending into the ensuing period (fiscal year) may be charged to the appropriation current at the time that the contract is signed. Obligate funds for each option period after funds become available. Obligations must be consistent with all normal limitations on the obligation of appropriated funds, such as the bona fide needs rule, period of availability, and type of funds. See Volume 11.

8.5.1.1. Execution Requirements Under Contracts or Orders. Contracts entered into or orders placed for goods, supplies, or services must be executed only with bona fide intent that the contractor (or other performing activity) must commence work and perform the contract without unnecessary delay.

8.5.1.2. Execution of Standard Commercial Items. For standard commercial items readily available from other sources, the bona fide needs rule cannot be satisfied based on the delivery, production or manufacturing lead-time exception to the bona fide needs rule if the materials were obtainable by another source before funds expired. See Volume 11.

8.5.1.3. Delivery Withhold. If the contractor is directed to withhold delivery until after the lead-time, then there is not a bona fide need for the item in the current fiscal year and funds for the next fiscal year must be used.

8.5.2. Service Contracts. Service contracts may be either severable or non-severable. Services are generally chargeable to the appropriation current at the time the services are rendered. The contract is thereby, established in a manner that defines the contractors level of responsibility to provide a specified level of effort for a stated period. The determination to charge the appropriation current on the date the contract is let, or to charge the funds current at the time services are rendered, depends upon whether the services are "severable" or "entire." A contract that is considered entire or non-severable is charged to the fiscal year current when it was let even though performance may extend into the next fiscal year. Service contracts that are considered severable must be charged to the fiscal year in which the services are rendered and may not cross fiscal years, absent statutory authority. There is no precise formula or rule that determines whether a contract is severable or entire. Each case must be determined by the terms and circumstances involved. Non-severable services may occur at a contract line item level as defined in ***DFARS 204.7101.*** Refer to the Volume 3 Supplemental Document for severable and non-severable services guidance.

8.6 Determining Scope of Work Changes

8.6.1. Responsibilities for Making Determinations. In making a determination, the contracting officer must apply appropriate provisions of the FAR, the DFARS, legal principles applicable to scope changes, and the provisions of this Regulation.

8.6.2. Standards for Making Determinations. Statutes and DoW policies for the use of appropriations limit the period of availability to fund new obligations.

8.6.3. Increases in Quantities. Changes in the quantity of the major items called for in a contract generally are a change in contract scope and not authorized under the "Changes" clause.

8.6.4. Increases in Required Levels of Service Performance. Any modification of a service contract requiring additional deliverable services is a change in scope.

8.7 Due Diligence

Fund holders, entrusted by components (buyer/receiving organizations) with administrative subdivisions of funds, ensure appropriated funds are used consistently with the intent, time, purpose, amount, and bona fide need for which the funds were provided. Fund holders must exercise due diligence in committing, obligating, de-committing, and de-obligating funds and generating inter- and intra-governmental orders through prescribed practices and oversight of documentation including contract, invoice, disbursement, and relevant supporting information. Fund holders must effectively collaborate with mission stakeholders including accountants, contracting officers, program managers, and logistics personnel.

8.8 Recording Judgment Fund Obligations

The Judgment Fund is available for court judgments and Justice Department compromise settlements of actual or imminent litigation against the government. Judgment Fund awards and settlement must be funded on a non-reimbursable basis for various types of litigation identified in ***31 U.S.C. § 1304,*** "Judgments, Awards, and Compromise Settlements." Section 1304 and the Contract Disputes Act of 1978, ***41 U.S.C. § 7108*****, "**Payment of Claims," provide that awards and settlements involving appropriated fund contracts are payable from the Judgment Fund, subject to reimbursement from agency appropriations. The Fund also is available for awards and settlements involving discriminatory conduct by an Agency (such as DoW) under statutes identified in the Notification and Federal Employee Antidiscrimination and Retaliation Act of 2002*,"* commonly known as the No FEAR Act. Reimbursement of No FEAR Act Judgments. As provided for in 5 CFR § 724, Subpart A, DoW Components must reimburse the Judgment Fund for all judgments resulting from discrimination and No FEAR Act claims covered under authority of ***5 U.S.C. § 2301***. Reimbursements under the No FEAR Act include reimbursements for payments of judgments, awards, or settlements with respect to discrimination and whistleblower protection cases.

8.9 Recording Government-Wide Commercial Purchase Card Obligations

Record obligations for Government-Wide Commercial Purchase Cards in the amounts placed for orders for goods or services. For additional information on purchase cards, see the DoW Government Charge Card Guide.

8.10 Intra-Governmental Requisitions and Orders Placed with DoW Components or Other U.S. Government Agencies

The Treasury's ***G-Invoicing*** system is used to negotiate, broker, and electronically store the General Terms and Conditions (GT&C) and activity between buyers and sellers for inter- and intra-governmental reimbursable transactions. The standard Interagency Agreement form is comprised of two forms, the GT&C (FS Form 7600A) and the Order Requirements and Funding Information (Order) (FS Form 7600B). When trading partners enter orders in the G-Invoicing system, the partners leverage data in the common repository to improve accuracy in accounting and reporting. Refer to the Volume 3 Supplemental for guidance on Reimbursable Procurement, Direct Cite Procurements, Reimbursable Orders with other DoW Activities, and Modifying Reimbursable Orders.

8.11 Orders Placed with (Or Through) Defense Working Capital Fund Activities

The DoW has authority under ***10 U.S.C. § 2208*** and ***2210***, to establish Defense Working Capital Fund (DWCF) activities to finance inventories of its supply chain management business areas and provide working capital for industrial and commercial type activities. Activities funded through DWCFs perform work for others under several different authorities. These authorities include the Project Order Act for depots, the Economy Act for reimbursable and direct citation procurements, and supply management operations (stock fund operations) that use DWCF contract authority to acquire assigned items of supply for other DoW Components. Direct citation orders placed with a DWCF must adhere to Volume 11 requirements. DWCF activities performing commercial type services charge stabilized rates rather than charges based on Economy Act actual cost methodologies. Activities performing DWCF operations can identify the transactional authority for work performed for others. Under 10 U.S.C. § 2208 and 2210, the DWCF is used for two different types of activities to include stock funds (supplies) plus goods and services. An order placed with a DWCF activity may only be for a bona fide need of the period for which the buying activity's appropriation is available.

8.12 Personal Services and Benefits Obligations

8.12.1. Obligations Recorded for Payments to Military and Civilian Employees. Record obligations for the amounts payable to military services members and civilian employees in the month in which earned. These obligations must be supported by written administrative determinations of the amounts of the liabilities incurred for personal services based on payroll or personnel records .

8.12.2. Obligations Recorded for Subsistence In Kind. Record an obligation for subsistence in kind based on requisitions and orders, or on a written administrative determination of the estimated cost of subsistence furnished by others.

8.12.3. Obligations Recorded for Annual and Sick Leave of DoW Employees. Obligate annual leave for Department employees when it becomes due and payable as terminal leave or when otherwise specifically authorized by law, rather than at the time the leave is earned. Sick leave is obligated, costed, and paid when used.

8.12.4. Obligations Recorded for Severance Pay to U.S. Government Civilians and Foreign National Employees. Record obligations for severance pay for U.S. Government civilian employees and foreign national employees (such as those German nationals covered by the German Tariff Agreement) on a pay period by pay period basis; that is, at the time the severance pay becomes payable, regardless of the time it is disbursed.

8.12.5. Obligations Recorded for Severance Pay Under Specified Conditions

8.12.5.1. Record obligations for severance pay after an employee has been separated and specified conditions (such as those set forth in the German Tariff Agreement) have been met. The organization that terminates the employment of such individuals is responsible for recording and reporting the severance pay obligation. If the liability for any form of severance pay is significant, reasonable estimates must be made and an unfunded liability recorded and reported in accordance with the Governmentwide Treasury Account Symbol Adjusted Trial Balance System.

8.12.5.2. In accordance with other foreign country contracts and agreements, certain foreign national employees earn a separation allowance, also sometimes called "severance pay" in some contracts and agreements, from inception of or during their employment. See the Volume 3 Supplemental for information.

8.13 Permanent Change of Station Obligations Recorded

At the time Permanent Change of Station (PCS) orders are issued for civilian and military personnel, record obligations against current appropriations for all U.S. Government authorized reimbursable expenses incidental to relocation and for estimated bookings of household goods movement and storage. The only exception is the obligation of costs for non-temporary contract commercial storage of household goods, which must be obligated either in the period in which the service is rendered or to the appropriation current at the contract award. Record an adjustment to the obligation based on the costs itemized on the traveler's settlement voucher.

8.14 Temporary Duty Travel Obligations Recorded

Tentative obligations for temporary duty travel must be recorded from written administrative determinations, based on the travel authorizations issued, for the estimated transportation to be purchased and the estimated reimbursement to be earned by the traveler for per diem allowances, use of privately owned vehicles, and incidental travel expenses. When travel is performed under a blanket authorization (with the itinerary not definite), the amount of the tentative obligation recorded in the current month must not exceed the estimate of the travel expenses to be incurred to the end of the current month. When the period covered by the travel authorization extends beyond the end of the fiscal year, and the travel costs are being paid by means of an annual appropriation or the final year of availability of a multiple year appropriation, the amount of the recorded obligation must be the cost of transportation purchased and reimbursements earned to the end of the fiscal year.

8.15 Other Obligations

8.15.1. Loan Agreements. As required by ***2 U.S.C. § 661***, new direct loan obligations may be incurred only to the extent that budget authority to cover costs is provided in advance. When a direct loan obligation is incurred, its cost (i.e., the estimated long-term cost of the loan to the government) is obligated against the "program account" established for the loan program. Actual funding of the direct loan is made through a revolving, non-budget "financing account." Refer to Treasury's BFS, USSGL ***Credit Reform Accounting*** guidance for detailed guidance covering obligation and disbursement of funds for direct and guaranteed loans.

8.15.2. Grants and Subsidies Obligations Recorded. Record the obligation amount of a grant or subsidy when supported by documentary evidence as directed in the Volume 3 Supplemental.

8.15.3. Bid Protests or Other Challenges. Pursuant to the provisions of ***31 U.S.C. § 1558,*** funds available at the time of protest or other action filed in connection with a solicitation for, proposed award of, or award of such contract, remain available for obligation for 100 calendar days after the date on which the final ruling is made on the protest or other action. See The Volume 3 Supplemental Document for more information on bid protests and other challenges.

8.15.4. Foreign Currency Fluctuations.

8.15.4.1. The Foreign Currency Fluctuations Appropriation was established to eliminate losses or gains to programs caused by fluctuation of specified foreign currency exchange rates from rates used in budget formulation. DWCF foreign currency fluctuations are absorbed by the incurring DWCF business area, not the foreign currency account. Contractual obligations or other obligations payable in the specified foreign currencies may not be adjusted until disbursements are made from the appropriation account involved. See Volume 6.

8.15.4.2. When foreign currencies not specified in the Foreign Currency Fluctuations Appropriation account are involved, any adjustments to cost at the time of payment must be supplemented with adjustments made at year-end and may be made at any other time a significant change occurs in order to avoid over or under obligation of an allotment.

8.15.5. Security Guard and Firefighting Services

8.15.5.1. ***10 U.S.C. § 2465*** prohibits the obligation or expenditure of appropriated funds for the purpose of entering into a contract for the performance of firefighting or security guard functions at any military installation or facility in the U.S., including Alaska and Hawaii. See the Volume 3 Supplemental Document for exceptions to this prohibition.

8.15.5.2. ***10 U.S.C. § 2687***, the Defense Base Closure and Realignment Act of 1990, as amended, authorizes special procedures for providing security guard (or firefighting) services 180 days before an installation closes under the Base Realignment and Closure initiative.

8.16 Unrecorded Obligations

8.16.1. Dollar Threshold for Obligations Identified as Not Recorded. Apply the following guidance when the accounting office identifies an obligation incurred but not recorded in the official accounting records, and the accounting office is in possession of a valid obligating document (as specified in paragraph 8.16.2).

8.16.2. Document Verification

8.16.2.1. The accounting office must verify the document was not previously recorded under the applicable obligation reference number indicated.

8.16.2.2. The accounting office must verify if the obligation was recorded at an amount less than the face value of the obligating document or Electronic Data Interchange (EDI) representation.

8.16.3. Recording

8.16.3.1. DFAS must immediately record an obligation if the dollar amount is $2,500 or less.

8.16.3.2. If the dollar amount is greater than $2,500, the accounting office must provide the appropriate DoW Component financial manager with a copy of the obligating document(s) via e-mail, fax, upload, or use other means (retaining proof of transmission and receipt of the notification), to document the official document repository. Allow 10 calendar days for the financial manager to record the obligation or demonstrate the obligation was previously recorded. The accounting office must record the obligation on behalf of the financial manager if, within 10 calendar days, the financial manager has accounted for the obligation, the obligation is accurate, the applicable obligation was not previously recorded, or has not recorded the obligation in the accounting records.

8.16.3.3. Whenever the accounting office records an obligation for any amount, the appropriate funds holder must be notified immediately but not later than 10 calendar days of the obligation being recorded. This notification must be via e-mail, fax, electronic upload, or other documented means used for the document repository. Additionally, whenever the accounting office records an obligation, the recording must be uniquely identified, formally approved by the individual designated to provide approval authority, and cross-referenced to the obligating document. The processed obligating document must be similarly annotated. It is acceptable for an automated system to identify the source of a DFAS recorded obligation.

8.16.3.4. DoW Components must promptly record all obligations consistent with standards set forth in section 3.0. The over-recording and under-recording of obligated amounts is equally improper, as either makes it impossible to determine the actual status of an appropriation and may lead to violations of the Antideficiency Act. Over-recording and under-recording will also call into question the accuracy of agency financial statements and the propriety certifications on reports of obligations provided to Congress pursuant to ***31 U.S.C. § 1108(c)*** and ***1501(b).***

8.16.4. Expired Funds. If the agency has incurred a valid, unrecorded obligation in the prior year, prior year funds must be used. Current appropriations are not available to fund this obligation. If insufficient funds remain in the prior years' appropriation, the agency must seek a supplemental or deficiency appropriation and must further consider the possibility the Antideficiency Act (31 U.S.C. § 1341) has been violated.

8.17 Internal Controls

8.17.1. Departmental Responsibilities. In accordance with its responsibility for implementing effective internal controls, the Assistant Secretaries and Comptrollers must establish standard procedures for Departmental/Agency level monitoring and review of all obligations and commitments. These reviews must be formally documented in Standard Operating Procedures (SOP).

8.17.2. Funds Holder Responsibilities

8.17.2.1. For the buyer/receiving component, the funds holder must review and validate commitments and obligations as financial transactions occur.

8.17.2.2. Quarterly, the fund holder must reconcile all obligations incurred during the period to include amounts recorded in the general ledger to contracting system records and/or obligating documents such as contracts and modifications.

8.17.2.2.1. The fund holder must document and investigate all differences.

8.17.2.2.2. The fund holder must alert the financial managers of any variances. The financial manager must review the funds holder's documentation and assess whether an adjustment to the general ledger is required.

8.17.2.3. The use of "bulk" (estimated) obligations requires periodic monitoring and reconciliation of estimated obligations to the related disbursement transactions and the recording of appropriate adjustments to the estimated obligations based on the disbursement amounts. Limit the use of bulk obligations as Antideficiency Act violations may occur in the absence of adequate procedures for monitoring and reconciling disbursements.

8.17.2.3.1. Bulk obligations must not be used for materiel requisitioned by Defense Logistics Management Standards or Military Standard Logistics Systems transaction processing. Establishing an obligation for the proper amount for each line item under a unique requisition document number is essential for the timely and automated processing of interfund and non-interfund bills at the detail, line item level. Failure to do so may delay processing and increase workload for both DFAS and Component personnel.

8.17.2.3.2. DoW Components that establish business processes for requisitioning outside their customer's Component sponsored supply system, via internet ordering applications, must provide automated processes for their customers to record line item obligations for each requisition. DoW Components that authorize personnel to initiate orders outside of the Component sponsored supply system must incorporate source of supply automated processes for establishing line item obligations for each requisition.

8.17.3. Supporting Documentation. Prior to recording an obligation, the financial manager responsible for the official accounting records of the funds holder must have supporting documentation. Information on supporting documentation can be found in the Volume 3 Supplemental Document.

8.17.4. Segregation of Duties. To ensure proper internal controls within the responsible financial management office, the duty of approving, certifying, and recording an obligation or order acceptance must be separate from posting a receiving report(s) and certifying acceptance and payment(s) for that obligation. In instances where Management determines that segregation of duties is not practical, additional mitigating controls must be identified and implemented in accordance with Volume 5.

8.17.5. Antideficiency Act Violations. When the financial manager records an obligation in accordance with this policy and it results in an apparent Antideficiency Act violation, that office immediately must initiate research to include consulting with the funds holder. See the Volume 3 Supplemental for more guidance.

8.18 Review of Dormant Accounts

8.18.1. 31 U.S.C. § 1554 mandates an annual certification of unliquidated obligations (ULOs). DoW Components will implement and maintain a documented internal process for the regular, risk-based review of dormant commitments and ULOs. The risk-based review aligns our internal controls with federal law, which mandates an annual certification of ULOs, and with the risk-based assessment principles championed by the Office of Management and Budget (OMB) and the Government Accountability Office (GAO). DoW Components must also review their Unfilled Customer Orders (UFCOs). UFCOs reviews are to monitor your reimbursable activities.

8.18.2. While Components have the flexibility to design their own procedures, the process must, at a minimum, prioritize the review of dormant transactions based on risk factors such as:

Age: Transactions with no activity for more than 90 days; Materiality: High-dollar value transactions relative to the Component's overall ULO and UFCO balance; Other Risk Indicators: Transactions with known issues, problematic contract types, or those approaching their expiration or cancellation date.

8.18.3. Documentation: Components are not required to submit a report of this activity to OUSW(C) but must maintain sufficient documentation of their risk-based review process and remediation actions for audit purposes.

9.0 ACCOUNTING REQUIREMENTS FOR EXPIRED AND CLOSED ACCOUNTS

9.1 Expired Accounts

Both the obligated and unobligated balances of an expired DoW appropriation must remain available for the purpose of recording, adjusting, and liquidating obligations that are properly chargeable to that specific account until it is officially closed.

9.2 Closed/Cancelled Accounts

In accordance with 31 U.S.C. § 1552(a), any collections authorized for a DoW appropriation but not received before the account is closed must be deposited in the Treasury as miscellaneous receipts. For indefinite appropriations, policy derived from 31 U.S.C. § 1555 dictates that the account must be closed if no disbursements have been made for two consecutive fiscal years and the President or SecWar determines its purpose has been fulfilled.

9.3 Contract Change Provisions

The DoW must differentiate between contract changes and other obligation adjustments. Adjustments for items such as incentive fees or inflation are not considered contract changes and may be charged to applicable expired (but not yet canceled) accounts. For contract changes resulting from a contracting officer's final decision under the Contract Disputes Act, the policy is to apply the specific obligation adjustment rules. If a litigation judgment is paid from the Judgment Fund, it creates a new agency obligation to reimburse the fund. A specific policy, authorized by 10 U.S.C. § 8683, permits the use of expired appropriations for new obligations to cover unusual cost overruns on ship overhauls, maintenance, and repair. This authority is limited and cannot be used beyond the fifth fiscal year following the appropriation's expiration.

9.4 Shipbuilding and Conversion, Navy

The DoW Shipbuilding and Conversion, Navy (SCN) appropriation, while normally available for obligation for five years, is subject to a period of "extended availability." This policy, established through language in the annual appropriation act, allows for new obligations to be incurred after the initial five-year period for limited purposes, such as engineering services, tests, and other work required in the final stages of ship construction. The official period of availability for the entire appropriation is ultimately determined by the latest Obligation Work Limiting Date (OWLD) for the last vessel funded by that specific SCN appropriation. After this date, the appropriation enters a standard five-year expired status before cancellation.

9.5 Obligation Adjustment for a Contract Change Greater Than $4 Million

An obligation must be adjusted for a contract change on an expired appropriation, where the contractor must perform additional work, and can only be incurred after approval from the Under Secretary of War (Comptroller) (USW(C)). This approval is required if the obligation would cause the total charges for a single program, project, or activity to exceed $4 million in a fiscal year. Policy grants a specific exception for the Secretary of the Navy, who may treat this limitation as $10 million for Navy Operation and Maintenance funds used for ship overhauls.

9.6 Obligation Adjustment for a Contract Change Equal to or Greater than $25 Million

It is the policy of the DoW that any obligation adjustment of $25 million or more in a fiscal year, which is for a contract change on an expired appropriation requiring additional contractor work, is subject to special handling. This policy requires that the USW(C), as the designee of the SecWar, must first submit a formal notice of intention to the Armed Services and Appropriations Committees of both the Senate and the House of Representatives. The obligation may not be incurred until 30 days have passed from the submission of this notice, provided no committee has

registered a disapproval. The policy also mandates that this notice must include the legal basis and policy reasons for making the obligation.

9.7 Replacement Contracts

The DoW must permit the use of expired funds to finance a replacement contract only if a specific set of conditions is met. First, there must be a continuing bona fide need for the goods or services, and the original contract must have been made in good faith. Second, the original contract must have been terminated either for default or for the convenience of the Government under specific circumstances (e.g., a court order or a formal determination that the award was improper due to explicit evidence that the award was erroneous and the determination is documented with appropriate findings of fact and of law). Third, the replacement contract must be for the same size and scope as the original and must be executed without undue delay. If any of these conditions are not met, policy dictates that current year funds must be used. Furthermore, if a replacement action will cause the obligation to exceed the unliquidated balance of the original contract by $4 million, it is policy that the action must first be approved by the USW(C). If the excess amount is $25 million or more, policy requires that a notice of intention be submitted to the congressional oversight committees at least 30 days prior to obligating the funds.

9.8 Obligation Adjustments or Payments from Current Appropriations for Closed/Cancelled Accounts

The DoW must use a sub-class account when using current appropriations to pay for obligations from a closed/canceled account. This policy mandates that such obligations are only recorded in the current account when payment is imminent in the current fiscal year. To ensure transparency, these adjustments must be clearly identified on the DD 1416, "Report of Programs." However, policy dictates that no formal reprogramming action is required for these specific adjustments, even if they cause a line item to exceed its normal reprogramming threshold.

9.9 Current Appropriations Used for Expired Appropriations with Insufficient Obligation Authority

If an expired appropriation has a negative unliquidated balance (insufficient funds), an obligation or adjustment may be charged by the DoW to a current appropriation for the same purpose. However, policy strictly prohibits charging a current appropriation if a sufficient balance actually exists in the expired account. If a subsequent review finds that sufficient funds were, in fact, available in the expired account, any charge made against the current account must be reversed. Furthermore, policy dictates that this action can only be taken if the obligation is not properly chargeable to any other current DoW appropriation under the transitional provisions of 31 U.S.C. § 1553(b)(1). Finally, the total amount charged to a current appropriation under this policy may not exceed an amount equal to one percent of the total appropriation for that current account.

9.10 Collection Credits After an Account is Closed/Cancelled

Valid accounts receivables with negative unliquidated obligations must not be written off simply because an associated appropriation has closed or canceled. Policy dictates that these proprietary accounts must be maintained until the debt is either settled by the debtor or properly

closed in accordance with the guidance in Volume 4. Furthermore, as required by 31 U.S.C. § 1552, if collections that were authorized to be credited to an account are received after that account has closed, it is policy that those funds must be deposited into the Treasury as miscellaneous receipts.

9.11 Exceptions to an Account's Period of Availability for Adjusting and Liquidating Obligations

9.11.1. All appropriation accounts are subject to standard closure and cancellation requirements unless specifically exempted by statute. In accordance with 31 U.S.C. § 1557, a provision in an appropriations act can exempt an account and fix its period of availability for expenditure only for a specific FY. To be valid, such a statutory provision must identify the specific account, state that it remains available for recording and adjusting obligations and explicitly extend the availability of its obligated balances. Policy dictates that this special authority should only be requested when historical data shows that paying old balances from current funds would regularly exceed the one percent limitation or would severely impact the current program. In the absence of a specific legislative extension, it is DoW policy that Components may request a re-appropriation of closed/canceled balances, and any resulting re-appropriation is to be treated as new budget authority.

9.11.2. Availability for expenditure of a specific account may be changed only through specific legislation. This authority should only be requested when historical data shows that paying old balances from unexpired funds would regularly exceed the one percent limitation or would severely impact a current program. In the absence of specific legislative authority to extend an account, it is DoW policy that Components may request a re-appropriation of closed/canceled balances. Policy dictates that the receipt of a re-appropriation is to be treated as adding new budget authority.

9.12 Antideficiency Act Violations

DoW Components must investigate and report potential Antideficiency Act (ADA) violations when limitations are exceeded. An ADA violation can occur when an obligation from an expired account with insufficient funds is charged to a current appropriation. Detailed ADA investigation and reporting policy is specified in Volume 14.

9.13 Control, Reporting, and Certification Requirements

9.13.1. In accordance with 31 U.S.C. § 1554(a), any audit requirement, limitation on obligations, or reporting requirement applicable to an appropriation continues to apply even after its period of availability for new obligations has expired and after the account has been officially closed. If an appropriation act contains a limitation on the obligation of funds for a program, project or activity, or other purpose; that limitation continues during the five-year period after the period of availability for new obligations expires. DoW policy also mandates that Components must establish and test internal controls to ensure an adequate review of obligated balances, as required by OMB Circular No. A-123, Appendix A. Proper general ledger controls must be maintained for all valid unpaid obligations and accounts receivable in closed/canceled accounts. Policy dictates that closed/canceled obligations can only be posted to unexpired accounts when a

disbursement is imminent in the current year. All related records must be maintained according to the policy in Volume 1.

9.13.2. Under the provisions of 31 U.S.C. § 1554, the SecWar (or his designee) must submit a comprehensive annual report to the President and the Secretary of the Treasury concerning the status of appropriation accounts (unliquidated obligations, unobligated balances, closed/cancelled balances, and adjustments). This report must include an itemization of appropriation accounts, a descriptive list of each appropriation, details of payments made from current accounts for closed account obligations (per 31 U.S.C. § 1553), and identification of all balances that were closed/canceled on September 30th (per 31 U.S.C. § 1552(a)). The report must also identify any indefinite appropriations that were closed because their purpose was fulfilled (per 31 U.S.C. § 1555). A key policy element is the requirement for a certification from the DoW Components that all obligated balances reflect properly existing obligations and that all expenditures were proper.

9.14 Other Requirements

9.14.1. Apportionment Procedures. The SF 132, "Apportionment and Reapportionment Schedule," must include a footnote stating that up to one percent of the original appropriation or the unobligated balance, whichever is less, may be used for obligation adjustments from closed/canceled accounts. If a supplemental appropriation is enacted, a reapportionment of this one percent amount may be requested.

9.14.2. Unliquidated Obligations. All unliquidated balances in expired accounts must be reviewed prior to an account's closure, and any amount not supported by documentary evidence must be de-obligated. Financial and program managers at all levels are responsible for ensuring all transactions are appropriately concluded. This includes ensuring that if services or materials remain undelivered at the time of expiration, they are subsequently delivered or, if not, that action is taken to terminate the contractual obligations to maintain the integrity of the funds. Furthermore, policy requires that uncompleted contracts, uncollected receivables, and uncollected travel or pay advances must be actively reviewed to ensure their validity.

9.14.3. Payments After Closure/Cancellation of Appropriations. Payment against a closed/canceled appropriation is prohibited until the disbursing office obtains a currently available appropriation from the funding activity. Finally, the write-off of an uncollectible reimbursement receivable is treated as a reclassification to a direct program obligation, and the specific accounting entries can be found in the DoW USSGL Transaction Library.

9.14.4. Closing/Cancelling an Account with a Negative Balance. DoW Components must clear the negative balance and establish a receivable for the amount of the negative balance before the account can be closed.

9.14.5. Accounting for Uncollectible Accounts Receivable in Closed/Cancelled Accounts. When an appropriation account is closed or canceled, the corresponding budgetary accounts for its accounts receivable must also be closed, and this action does not change the total obligations within those budgetary accounts. A key policy is the treatment of uncollectible receivables: the

write-off of an uncollectible reimbursement receivable must be treated as a reclassification of that obligation from the reimbursable program to a direct program obligation.

9.14.6. Correction of Reporting Errors in Closed/Cancelled Accounts. The DoW must permit the correction of two specific categories of errors in closed/canceled accounts: clerical errors (such as misplaced decimals or transposed digits) and errors made in classifying a payment prior to account closure that were not discovered until after. In accordance with OMB Circular No. A-11, section 130.16, policy requires that certain complex correction requests must be supported by a written, standalone legal opinion from the Component's Office of General Counsel. This applies when the request involves the redistribution of offsetting collections or gross outlays between a closed Treasury Appropriation Fund Symbol (TAFS) and an expired TAFS.

10.0 UNMATCHED DISBURSEMENTS, NEGATIVE UNLIQUIDATED OBLIGATIONS, AND IN-TRANSIT DISBURSEMENTS

10.1 Matching Disbursements to Obligation

A disbursement must be matched to its corresponding, detail-level obligation and recorded as promptly as current systems and business practices permit. Many obligations and disbursements are matched automatically via the Department's various system interfaces. However, some obligations and disbursements are required to be manually matched, mainly due to non-automated processes or the rejection of transactions by automated systems. When a disbursement is recorded in the accounting system but not matched to an obligation, the disbursement results in a UMD. When a disbursement is recorded in the accounting system and is matched to an obligation, but the amount of the disbursement exceeds the amount on the recorded obligation, the amount of the disbursement in excess of the applicable obligation results in a NULO. After performing due diligence research IAW section 1105, obligations must be established and recorded for all UMDs and NULOs no later than September 30 of the year that the cited appropriation is scheduled to be closed regardless of the date that the disbursement was made. Fund holders must participate in the resolution of both UMDs and NULOs as both affect funds availability and have Antideficiency Act (ADA) implications. UMDs and NULOs must be also be included in the Dormant Accounts Review.

10.1.1. UMD and NULO Research Requirement. Research and correction actions must begin as soon as it is apparent that a disbursement transaction has resulted in a UMD or a NULO. The accounting office involved must immediately determine whether the disbursement is a valid charge to the fund holder, and whether a matching obligation transaction is recorded under a different or incorrect document number. If the disbursement is not a valid charge to the fund holder, the accounting office and the fund holder must reject the disbursement. If a matching obligation is recorded under an incorrect document number, the fund holder must immediately correct the document number, thus allowing for the proper matching of the disbursement to its corresponding, detail-level obligation. If an accounting adjustment affects a contract payment, contract reconciliation must be performed IAW Volume 10.

10.1.2. Record an Obligation for Unresolved UMDs and NULOs. Immediately notify the fund holder of applicable UMDs or NULOs. If research efforts fail and the condition is not corrected, advise the fund holder of the requirement to establish a matching obligation within the

timeframes delineated in paragraph 110501. If the fund holder fails to record an obligation, the accounting office must elevate the issue IAW subparagraphs 110501.A.3 or 110501.B.4 as applicable.

10.1.3. Establish Obligations for UMDs and NULOs at the Transaction Level. Disbursements must be matched to their corresponding obligation at the detail transaction level. After performing due research, obligations recorded for UMDs and NULOs must be recorded at the detail transaction level as follows:

10.1.3.1. An obligation in the amount of the disbursement must be recorded at the transaction level for UMDs.

10.1.3.2. An obligation adjustment in the amount of the disbursement in excess of the applicable obligation must be recorded at the transaction level for NULOs.

10.2 Overaged UMDs/NULOs

10.2.1. Current and Expired Accounts

10.2.1.1. Unobligated overaged NULOs and UMDs have the first claim to the unobligated balances in any of the current and expired accounts. New obligations, or new upward obligation adjustments, may be executed only when and to the extent that there is an unobligated balance remaining in an account after all overaged NULOs and UMDs have been obligated. Thus, no new obligations or obligation adjustments may be incurred in the account to the extent that unobligated balances in such accounts are zero, or overaged NULOs and UMDs (if they are obligated) when added to obligated balances, would exceed the availability in such accounts.

10.2.1.2. DoW Components may continue to research overaged NULOs and UMDs without the need to initiate an investigation of a potential ADA violation.

10.2.1.3. If an account is obligated fully (but not overobligated) and has unresolved overaged NULOs and UMDs that, if obligated, would exceed the availability in an account, payments may continue, provided the account is not in danger of exceeding the unexpended balance (resulting in an overdisbursement). If an overdisbursement occurs, payments from the account must stop immediately, and the DoW Component involved must accomplish actions required for a potential ADA violation IAW Volume 14.

10.2.1.4. Should a new obligation or obligation adjustment be incurred in an account that has been obligated fully as a result of unresolved, overaged UMDs or NULOs, such an obligation must be recorded even though it will result in recorded obligations in excess of available resources.

10.2.1.5. Must not be construed as authorizing a delay in (1) the recording of an executed obligation that would result in an overobligation or (2) the requirement to conduct an investigation of a potential ADA violation that results from any action other than the sole requirement to obligate amounts for UMDs and NULOs.

10.2.3. Accounts Closed/Scheduled to Close at Fiscal Year-End

10.2.3.1. Obligations must be established no later than September 30 by all DoW Components for all UMDs, NULOs and in-transit transactions in appropriations scheduled to close at the end of the current fiscal year.

10.2.3.2. If such obligations result in obligations in an excess of available funds, the DoW Components must resolve the negative balance and report to Treasury within two months but no later than the end of the current fiscal year.

10.2.3.3. If the account is not returned to a positive balance within 60 days, the DoW Component involved must accomplish actions required for initial identification and investigation of a potential ADA violation IAW Volume 14.

10.2.3.4. Each administrative subdivision of an appropriation carries with it the responsibility for any potential or actual ADA violation. A DoW Component has the right to modify the number or level of administrative subdivisions within an appropriation before the closure of an appropriation. However, once an appropriation closes, no further modification or change may be made in the number or level of administrative subdivisions. Further, the modification of number or level of subdivision does not override the requirements in Volume 6 regarding the level of reporting on the *Appropriation Status by Fiscal Year Program and Subaccounts (Accounting Report Monthly 1002)*.

10.2.3.5. A new cash disbursement, which would be chargeable (both as to purpose and amount) to an appropriation except that the appropriation is closed, must be paid from an appropriation that currently is available for the same purpose. However, a proposed payment may not exceed the:

10.2.3.5.1. Unexpended balance of the closed appropriation.

10.2.3.5.2. Unobligated balance of the currently available appropriation charged.

10.2.3.5.3. One percent limitation, discussed in subparagraph 110402.F.

10.2.3.6. The cumulative amount of payments charged to a currently available appropriation, because the original appropriation(s) that otherwise would have been charged has been closed, may not exceed one percent of the total amount appropriated to the currently available appropriation being charged. If it exceeds the one percent limit, the office funding the proposed payment (contract) must contact the Military Department Assistant Secretary for Financial Management and Comptroller (FM&C) or Defense Agency Comptroller for referral to the OUSW(C), Deputy Chief Financial Officer (DCFO) for appropriate disposition.

10.2.3.7. Corrections of payments involving closed appropriations must be processed as inter- and intra-appropriation adjustments. Such corrections generally do not require the obligation of currently available funds or deposits to the Treasury miscellaneous receipts account if the payment occurred before the closure of the applicable appropriation, or appropriations available for new obligation already have been charged properly.

10.2.3.8. Inter- and intra-appropriation adjustments to correct accounting records must not be accomplished by using a cash disbursement or cash collection.

10.2.3.9. A potential ADA violation must be reported and a preliminary investigation initiated if posting an adjustment to a current, expired or closed appropriation would result in either (1) a negative unobligated balance or (2) disbursements that are in excess of the amount appropriated, at either the appropriation level or a portion thereof that has been subdivided. See Volume 14 for ADA investigations and reporting requirements.

10.2.3.10. Perpetual balances of unobligated amounts and unliquidated amounts must be maintained for each closed appropriation. If the unobligated balance or unexpended balance in a closed appropriation is negative, a potential ADA violation has occurred and must be reported and investigated.

10.2.3.11. All disbursements and collections, or adjustments to disbursements and collections, involving current, expired, or closed appropriations, must be reported to Treasury. However, a correction in which both the debit and credit entry cite a closed appropriation is not reported to Treasury.

10.2.4. Expenditure Controls. The DoW Components must work with accounting and disbursing offices to implement effective controls to prevent over-expenditures in accounts that may be in an over-obligated position or that have UMD or NULO balances that exceed the unobligated balance in the account. This action is necessary because normal controls for determining expenditure availability are based on the unexpended balance of the obligations.

10.3 Request to Discontinue UMD/NULO Research

10.3.1. Research Decision

UMDs and NULOs may continue to be researched notwithstanding the obligation of funds. For transactions of $2,500 or less, the decision to continue (or discontinue) research is at the discretion of the fund holder. For transactions over $2,500, the Military Department Assistant Secretaries (FM&C) or Defense Agency Comptroller, may require the fund holder to continue research action. If continued research is required of the fund holder, written approval to discontinue research must be obtained from the Military Department Assistant Secretaries (FM&C) or Defense Agency Comptroller for transactions over $2,500. However, once the required obligation or obligation adjustment has been recorded for a UMD or NULO, DFAS must discontinue reporting the UMD or NULO regardless of whether research efforts continue.

10.3.2. Reporting Continued Research Efforts

After the research is accomplished by the accounting office and the fund holder, and the researched UMDs and NULOs are properly resolved, and/or required obligations or obligation adjustments are recorded, further research or reporting of such UMDs or NULOs is not required. If a fund manager and/or the accounting office later identify the need for an additional adjustment or correction and provide the appropriate adjusting/correcting document, the appropriate adjustment/correction must be recorded.

10.4 Correction/Posting Disbursements – Foreign Military Sales Trust Fund

Special Notification Requirements

10.4.1. If the accounting office has not been able to resolve the transactions after discovery of the UMD or NULO condition, the transactions must be forwarded to the fund holder for resolution. For FMS, both the Defense Security Cooperation Agency (DSCA) and the fund holder must be involved in the resolution. Notify the fund holder that he or she must fund the transaction if the transaction is not properly matched within the specified timeframes. If required, prepare a draft case modification for DSCA countersignature.

10.4.2. Due to FMS case management requirements, disbursements and disbursement adjustments involving FMS funds must be coordinated with DFAS. DFAS will establish notification and approval procedures.

10.5 Processing In-Transit Disbursements

Required Documentation

10.5.1. The applicable disbursing office or entitlement activity must use either electronic or hard copy-based processes to provide detailed supporting documentation (supplemental information) to the applicable disbursing center, accounting center, or accounting office. If adequate detailed accounting data is transmitted electronically, it is not necessary to forward paper copies unless specifically requested for a particular transaction.

10.5.2. The applicable disbursing office or entitlement activity must ensure that each in-transit disbursement transaction is supported by documentation that identifies the disbursing office and/or entitlement activity, cycle number, voucher number, appropriation/fiscal year, sub-allocation holder identifier, amount, accounting office code, obligation document number, and other information that identifies the obligation, as applicable.

10.6 Reporting Requirements

10.6.1. Data Collection Requirements. DFAS is responsible for collecting and consolidating data and reporting on the amounts and the status of UMDs, NULOs, and in-transit disbursements.

10.6.2. Monthly Reporting Requirements. The DoW Component accounting offices must transmit a status report identifying all disbursement transactions that have not been matched to an obligation to DFAS Headquarters monthly. DFAS will specify the format and detail reporting requirements.

10.7 Record Retention

DoW Components, and supporting accounting offices, must maintain an audit trail with adequate records to substantiate all transactions, amounts and actions taken with respect to the research and clearing of UMDs, NULOs, and in-transit disbursements. This includes but is not limited to determinations that selected transactions meet the criteria for discontinuing further

research, and detail and summary records of adjustments. Components must maintain these records to ensure an adequate audit trail and to respond to inquiries from organizations internal and external to the Department. See Volume 1 for DoW policy on record retention.

11.0 POLICIES GOVERNING THE USE OF THE "FEED AND FORAGE" AUTHORITY OF SECTION 3732, REVISED STATUTES (41 U.S.C. § 6301)

11.1 General Policies

11.1.1. 41 U.S.C. § 6301 authorizes MILDEPs to incur obligations for certain necessities (e.g., clothing, subsistence, medical supplies) beyond available appropriations, not exceeding current fiscal year needs.

11.1.2. 10 U.S.C. § 2204 requires the SecWar to approve scheduled obligation rates to prevent overdrafts and deficiencies, though it does not prohibit legally authorized deficiencies.

11.1.3. Volume 14 (implementing 31 U.S.C. § 1517(a)) establishes the basic administrative control system for appropriations. This system aims to restrict obligations and expenditures to available amounts or apportionments, and to fix responsibility for violations.

11.2 Provisions

11.2.1. The DoW must strictly limit its use of the authority granted by 41 U.S.C. § 6301 to emergency circumstances only. The demands of these circumstances must be such that immediate action is imperative and cannot be delayed long enough to obtain sufficient funds through normal means. Furthermore, this emergency authority will not be used to circumvent the system of administrative controls for appropriations established under 31 U.S.C. § 1517(a).

11.2.2. It is not considered practicable to define specifically the conditions and circumstances which conceivably could constitute an emergency. Each instance in which the authority of 41 U.S.C. § 6301 will be used must be determined on a case-by-case basis.

11.3 Funds Administration

Funds will be administered according to the system of administrative controls in Volume 14. This ensures that responsible officials can take timely action to prevent over-obligation of any fund subdivision, regardless of the authority granted by 41 U.S.C. § 6301.

11.4 Over-obligation

11.4.1. The over-obligation of any apportioned appropriation or fund, or any subdivision thereof, for procurement of those items in paragraph 11.1 is considered a violation of the Antideficiency Act. Two exceptions include over-obligations made during an emergency in accordance with established provisions, provided that: (1) procurements do not exceed the necessities required to relieve the emergency, and (2) these necessities do not exceed the needs of the current fiscal year.

11.4.2. When the authority of 41 U.S.C. § 6301 is used to create an over-obligation, the responsible individual must certify in writing that three specific conditions existed. These conditions are: an emergency existed within the spirit and intent of 41 U.S.C. § 6301; the over-obligation was created to meet the necessities of the period; and it was not feasible to obtain sufficient funds in advance.

11.4.3. The over-obligation must be certified and fully disclosed in the fiscal reports to the next higher level of command, indicating that the over-obligation was incurred under authority of 41 U.S.C. § 6301.

11.5 Reporting Procedures

Refer to the Supplemental Document for details on reporting all obligations incurred under 41 U.S.C. § 6301.

12.0 RECEIPT AND DISTRIBUTION OF BUDGETARY RESOURCES – DEPARTMENT LEVEL

12.1 Appropriations

Congress grants appropriations as the legal authority to incur obligations and make Treasury payments for specified purposes. An appropriations act is the most common form of budget authority and must be explicitly stated, not inferred. The availability of an appropriation is determined by its period of availability, phase of availability, and the specified amount.

12.1.1. Period of Availability. The time in which budget authority is available to incur new obligations. This period of availability is categorized into several types. One-Year (Annual) Authority is the budget authority that is available for obligation only during a single, specified fiscal year, such as that for most Operations and Maintenance appropriations. Multiple Year (Multi-Year) Authority is budget authority that is available for a period longer than one fiscal year, such as for RDT&E (most are 2 years) or Procurement (3 years), Shipbuilding and Conversion, Navy appropriation (5 years), and Military construction appropriations (5 years). No-year Authority is budget authority which remains available for obligation indefinitely and Congressionally Directed Spending, which occurs when Congress designates a portion of an appropriation for a particular purpose through legislative language within an appropriation.

12.1.2. Phases of Availability. All annual and multi-year appropriations pass through three distinct phases of availability. First is the current or unexpired phase, during which the budget authority is available for incurring new obligations, making new grants, signing new contracts, and making disbursements to liquidate the obligations. The current or unexpired phase continues for the set period of availability. No-year authority remains current until fully obligated and disbursed or returned to the general fund of the Treasury. This is followed by the expired phase, a five-year period where funds are no longer available for new obligations but can be used to adjust and liquidate existing ones, although legislation can extend this period. Finally, the appropriation enters the canceled phase. At this point, no payments can be made from the canceled appropriation, and any remaining balance is canceled. On September 30 of the fifth fiscal year after the period of availability for obligation ends for a fixed appropriation account, the account must be closed and any remaining balance is canceled (whether obligated or unobligated). Policy

does allow for an exception, per 31 U.S.C. § 1553, where valid obligations from a canceled account may be paid from a current appropriation, if these payments are strictly limited to one percent of the total current appropriation or are not chargeable to another expired account.

12.1.3. Determination of Amount. DoW policy recognizes that the amount of budget authority is determined by legislative language and falls into two categories. Definite Authority is the most common and is granted as a specific sum or a "not to exceed" amount. Indefinite Authority does not state a specific sum; instead, the amount is determined by a variable factor, such as the receipts collected from a certain source, the specific amount of which is determinable only at some future date, or it may appropriate such sums as may be necessary for a given purpose.

12.1.4. Reappropriations. Statutory authority that extends the availability of unobligated budget authority that has expired or is about to expire.

12.1.5. Exceptions. Contract authority is an exception to the general rule that appropriations provide budget authority for new obligations. It allows obligations for a specific purpose, time, and amount, as defined by statute, but remains unfunded and lacks a Treasury cash balance. Agencies must always replace or liquidate contract authority using subsequent budgetary resources, typically through offsetting collections credited to the Defense Working Capital Fund (DWCF). The liquidating appropriation itself does not grant new obligational authority.

12.1.6. Continuing Resolution (CR). A continuing resolution (CR) is a joint resolution that provides continuing appropriations for a fiscal year when regular appropriation bills have not been passed and a program's appropriations are about to or have expired, or when the President has vetoed congressionally passed appropriations bills. A CR does not appropriate a specific sum but instead makes funds available under the same terms and conditions as the prior year's appropriation act, though it may establish new conditions. Funding is available for obligation only until the CR's specified end date or until the regular appropriation is enacted, whichever comes first. For detailed guidance, refer to OMB Circular No. A-11, Section 123.

12.1.7. Funding Lapse or Gap. A lapse in an agency’s appropriations occurs when Congress fails to enact regular appropriations, a CR, or needed supplemental appropriations.

12.1.8. Appropriation Warrants. The DoW must recognize that an Appropriation Warrant, issued by the Secretary of the Treasury, is the official document that establishes the amount and period of availability of funds an agency is authorized to withdraw from the Treasury following the enactment of an appropriation. Policy dictates that under a Continuing Resolution (CR), warrants are generally not issued until the regular appropriation bill is passed. An exception to this policy is made for long-term or full-year CRs, or for those covering specific mandatory federal payments, as detailed in the Treasury Financial Manual (TFM) Volume 1, Part 2, Chapter 2000.

12.1.9. Classification of Appropriations. All departmental-level appropriations and other budgetary resources must be classified by appropriation account, fiscal year, and any obligation or expenditure limitations. This classification must be at the level of detail required by OSW for appropriation and fund status reporting, as specified in Volume 6. The policy is to classify appropriations in various ways based on their purpose, such as by time period, spending limits, or

authorized programs and availability to incur obligations. The official representation of this classification is the appropriation account symbol.

12.1.10. Recording an Appropriation. DoW policy states that an appropriation is not available as a financing source or budgetary resource until it has been apportioned by OMB. As soon as funds are made available for apportionment (even if a Treasury Warrant has not been issued or the full amount has not been apportioned), it is policy to recognize them in the capital as "unexpended appropriations" and among assets as "funds with Treasury." Policy further dictates that this "unexpended appropriations" account should be reduced as appropriations are used and adjusted for any other changes, such as rescissions or transfers. These accounting principles are governed by the Federal Accounting Standards Advisory Board (FASAB) Handbook, specifically the Statement of Federal Financial Accounting Standards (SFFAS) 7.

12.2 Apportionments and Reapportionments

12.2.1. The DoW must adhere to the apportionment process, which is the OMB-approved plan to allocate budgetary resources as defined by 31 U.S.C. § 1513(b). An apportionment is legally binding, and policy dictates that any obligation or expenditure that exceeds an apportionment is an Antideficiency Act violation (per 31 U.S.C. § 1517) and must be reported. Policy also requires that apportionments cannot be obligated until the amounts have been formally allotted according to OMB-approved funds control regulations. Programs must be apportioned and executed in accordance with all applicable laws, and obligations must be reconciled against the fiscal year in which the expenses were incurred. Not all appropriations are apportioned. Policy recognizes that some budgetary resources may be withheld pending rescission, deferred, or are otherwise exempt.

12.2.2. Special Circumstances. During a Continuing Resolution (CR), policy requires agencies to adhere to OMB apportionments in the same way they do for regular appropriations. Typically, OMB will automatically apportion funds under a CR. For indefinite budget authority, if actual available amounts are less than anticipated, it is policy to deduct the difference from the apportioned amounts unless a different treatment is specified or a reapportionment is initiated. Per OMB Circular No. A-11 (Section 120), a downward reapportionment for reduced budgetary resources is not required unless OMB specifically directs it.

12.3 Contract Authority – Other Budgetary Authorizations

12.3.1. Congress finances federal programs by granting budgetary authority, which enables agencies to incur financial obligations that lead to government outlays. As defined by the Congressional Budget Act, budgetary authority encompasses not only appropriations but also contract authority, borrowing authority, and spending authority from offsetting collections.

12.3.2. Contract authority, granted by Congress through an authorizing statute, allows an agency to incur obligations in advance of an appropriation. These obligations are typically liquidated by anticipated receipts or offsetting collections. Per 41 U.S.C. § 6301, no expenditures can be made against these obligations until funds are either specifically appropriated or otherwise become available. Contract authority can be current or permanent, definite or indefinite, and its period of availability will align with the fiscal year covered by the appropriation act. Definite

authority is a legally prescribed amount of new authority for the fiscal year. Authority is considered definite when the law provides a specific ceiling or a "not to exceed" amount. Indefinite authority is not predetermined; instead, the amount of authority is equal to the new obligations incurred during the fiscal year. Though typically accounted for through a no-year appropriation, it must be apportioned each fiscal year. Current authority requires congressional appropriations action on the request for new budget authority for the year involved. Permanent authority becomes available through standing law without further congressional appropriation once the budget is transmitted. Permanent indefinite authority is open-ended in both period and amount, with examples including 31 U.S.C. § 1304 (Payment of Judgments) and 31 U.S.C. § 1322(b)(2) (Refunding Erroneous Collections). Guidance for emergency military procurement (per 41 U.S.C. § 6301 and FAR), Working Capital Fund authority, and foreign military sales also fall under this category.

12.4 Transfer of Funds

When legally authorized, budgetary authority can be withdrawn from one appropriation and credited to another account or a working fund. Such a transfer is recorded as either an expenditure transfer (involving an outlay) or a nonexpenditure transfer (not involving an outlay). These transfers between appropriations, which must always be authorized by law, are used to redistribute unobligated balances for reasons such as reorganizations, congressionally authorized funding changes, or shifts in the purpose of the funds.

12.4.1. Anticipated Transfers. Appropriation transfers can be anticipated and recorded in advance. An anticipated transfer itself grants no obligation authority; it is treated as authority available for apportionment and prior-year authority and current-year authority are kept separate. Obligation authority only becomes available after the transfer is accomplished and the funds are apportioned by OMB. An agreement must be maintained between the transferring and receiving accounts, and both must record the transfer in the same accounting period. Once a transfer is accomplished, budgetary and proprietary control shifts to the receiving appropriation.

12.4.2. Expenditure Transfer. This is a transfer typically made when it benefits the transferring account. Policy dictates how these transfers are recorded: as an obligation and an outlay in the transferring account, and as an offsetting collection or receipt in the receiving account. Since expenditure transfers are treated as payments and collections, they are not applicable to departmental-level accounting entities. An expenditure transfer includes withdrawals and credits not defined as nonexpenditure, transfers between budgetary and nonbudgetary Treasury accounts such as general fund accounts and deposit accounts, and adjustments to correct errors in previous expenditure transactions.

12.4.3. Nonexpenditure Transfers. This is a transaction that does not involve an outlay but is instead recorded as a decrease in budget authority or unobligated balances in the transferring account and a corresponding increase in the budgetary authority or unobligated balances gaining account. This type of transfer category includes two specific types of actions: a transfer of estimates, which is a proposal to shift the funding of an activity between budget accounts without transferring the actual budgetary resources, and an allocation, which is a legally authorized delegation of authority from one agency to another to obligate funds.

12.4.4. Reprogramming. Shifting of funds for purposes other than those originally specified by Congress or to reclassify funds for proper execution.

12.4.4.1. Below Threshold Reprogramming Action. Action that provides DoW Components with the flexibility to realign funds within congressionally prescribed limits, and approved funding to satisfy unfunded requirements.

12.4.4.2. Above Threshold Reprogramming Actions. Action of reallocating funds when established congressional approval thresholds are exceeded, which requires prior approval from congressional committees. In addition, the Department uses internal reprogramming actions to transfer funds from various accounts that Congress has established with its own specific transfer authority (e.g., Environmental Restoration) or to realign/transfer funds for proper execution of a congressionally approved program.

12.5 Reappropriations

Congressional action that continues the availability of all or part of the unobligated portion of budget authority that has expired or would otherwise expire. Policy dictates that reappropriations of expired balances are to be recorded as new budget authority in the year they become available. If the balance in the losing appropriation is insufficient to cover the transfer, the reappropriation may be delayed or canceled. Decisions to delay or not make a reappropriation transfer require written notification to the USW(C), within five working days of the determination. It is also policy that reappropriations providing funds to a fiscal year for which they were not previously available constitute new budget authority and therefore require a Treasury Warrant. Reappropriations of unexpired balances or those that take effect in a future fiscal year are reported as balance transfers in the year they become newly available for obligation. Unobligated balances must be withdrawn in the losing accounts from operating activities. However, an exception is made when the operating activity includes both the gaining and losing accounts and the intent is simply to extend the availability of funds for the same purpose. In this case, a formal withdrawal is not required.

12.6 Internal Fund Distributions

Apportionments are subdivided and formally distributed through a hierarchy of allotments, sub allotments, allocations, and suballocations. Detailed requirements for these subdivision levels are established in Volume 14, in accordance with OMB Circular No. A-11, Appendix H. A critical policy is that any formal subdivision of funds must carry with it all the same statutory and other limitations that were applicable to the original apportionment. Policy also requires that all formal distributions of funds must be made in writing, with the specific format determined by the issuing entity.

12.7 Interagency Distributions

For distributions of budgetary resources between agencies (interagency distributions), it is policy to use separate accounts to track the distribution and ensure the recipient agency is responsive to the issuing agency. From a consolidated accounting standpoint, policy mandates that both the issuing and receiving agencies must record the distribution in the same accounting

period. Reference Volume 11 for overarching policies regarding policies work performed or materials provided between the DoW and other Federal Agencies.

12.8 Withdrawals and Expired Balances

Withdrawal as an administrative action to remove unobligated funds from availability, as distinct from a legal rescission by Congress. A Restoration is the administrative action to make those withdrawn funds available again. A key policy, based on 31 U.S.C. § 1555, is that funds can only be withdrawn when an account closes; budget authority cannot be withdrawn from open accounts.

12.8.1. Expired Balances. Expired balances retain their fiscal year identity for five years. During this time, it is policy that the unobligated balance can only be used to adjust obligations that were incurred when the appropriation was available; it cannot be used for new obligations. After the five-year period, any remaining balances must be transferred to account 4350, Canceled Authority. A strict policy is that canceled amounts cannot be restored.

12.8.2. Nature of Expired Authority Account. Account 465000, Allotments – Expired Authority, is not a fund balance. Its purpose is to serve as a budgetary resource to ensure valid obligations from expired accounts can be met without requiring new congressional action. While transfers in and out of this account do not affect the Treasury's cash position, related proprietary transactions do impact the Fund Balance with Treasury (account 101000).

12.9 Indefinite Appropriations

It is the policy of the DoW to recognize indefinite appropriations as a type of appropriation where a definite amount is not stated but is instead determined by subsequent events, such as the collection of receipts. An example of this is the receipts under the Federal Account Symbol and Title 5095.001, Sale of Hunting and Fishing Permits, Military Reservations, are permanently appropriated for the Army to spend under appropriation account 21X5095, Wildlife Conservation, Military Reservations, Army. Policy dictates that these funds, even if based on the collection of receipts, cannot be accessed until the Treasury issues a warrant or the authorized amount may be specified as the amount obligated for a specific purpose. It is also policy that anticipated amounts from indefinite appropriations must be reported as "anticipated budgetary resources" until the funds are realized. A critical element of this policy is that these anticipated balances, while reported on the SF 133, should not be recorded as currently available for obligation.

12.10 Other Account Adjustments and Closing

12.10.1. Account Adjustments. At the end of the availability period, all undistributed or unobligated budget authority at the execution level must be returned to the departmental level for financial reporting.

12.10.2. Notification from Lower Levels. It is the policy of the DoW that the departmental-level accounting entity must be informed of specific adjustments and account balances from intermediate and execution levels for financial reporting purposes, as specified in Volume 6. This policy ensures transparency and accuracy in financial reporting across all levels.

12.10.3. Account Closing. At year-end, the Treasury requires specific post-closing entries to be made to certain accounts. These closing transactions are critical for financial management, serving to establish beginning balances for accounts with no fiscal year activity and to zero out balances that recorded current-year activity. For direct funds, record unobligated budget authority for unexpired appropriations, close unobligated balances to expired authority, reduce realized appropriations by rescinded appropriations, and close both accomplished and realized appropriation transfers. No closing entries must be made for the reimbursable program at the departmental level.

13.0 RECEIPT AND DISTRIBUTION OF BUDGETARY RESOURCES INTERMEDIATE-LEVEL

13.1 Standards for Recording and Distribution

Many DoW Components, like the Military Departments, are structured in three or more echelons. Budget authority for General Fund direct appropriations is recorded at the Department level (Headquarters), issued to intermediate-level organizations (Major Commands), and then distributed to execution-level organizations (field level) for program implementation. This section sets the standards for recording the receipt and distribution of direct budgetary resources using intermediate-level accounts. These accounts track fund distributions (like allotments) from the Department level to intermediate organizations and then down to execution activities. The guidance in this section does not apply to two-tiered structures (e.g., Defense-wide appropriations) or to reimbursable budget authority, which is covered in Volume 11.

13.2 Required Notification and Reporting

The intermediate-level accounting activity must notify the department-level accounting entity of direct program authority that is not distributed to the execution-level (account 456000, Funds Available for Allotment). After preparation of the prescribed budget execution reports, accounting entries must be made, at the expiration of the period of availability (PoA) for obligation, to close expended amounts to the authorizing account for the expenditures and to withdraw any remaining program authority.

14.0 RECEIPT AND DISTRIBUTION OF BUDGETARY RESOURCES – EXECUTION LEVEL

Execution-level budgetary and proprietary accounts track the receipt of funds from higher authorities, such as the OSW, and their subsequent distribution, including the subdivision of the allotment (sub allotment, allocation, or suballocation) between a major command and an execution-level activity or among execution-level activities. This section establishes the standards for recording these financial activities, including allotments, commitments, and obligations, which often require entries in both budgetary and proprietary accounts. This section outlines the accounting standards for receiving and executing allotments, commitments, obligations, reimbursements, and borrowing authority.

14.1 Budget Execution Requirements

According to DoW policy, formal subdivisions of budgetary authority, such as allotments, sub allotments, allocations, and suballocations authorize the receiving entity to incur obligations up to a specified amount. These subdivisions must include the same statutory limitations and availability constraints as the original apportionment from the OMB. To ensure congressional intent is met, accounting entities are required to track the obligations and expenditures of any funds designated for a specific purpose.

14.2 Budgetary Commitments

An agreement with the OMB requires commitment accounting for Procurement, Military Construction, and Research, Development, Test, and Evaluation (RDT&E) appropriations. However, this is not required for small purchases if they are not significant to the overall management of funds. While commitment accounting is optional for Operation and Maintenance, military personnel, and revolving fund accounts, agencies may use it if it proves cost-effective. All commitments represent an administrative reservation of funds, and any outstanding commitments must be closed or canceled by the end of the period when the appropriation is available for new obligations, as they cannot exist in an expired appropriation account.

14.3 Obligations

Obligations are legally binding commitments that will require payments. They represent the amounts of orders placed, contracts awarded, and services received which will require payment in the same or future period. These amounts also include obligations that organizations did not previously record and adjustments for any differences between previously recorded obligations and the actual payments made to liquidate them. Furthermore, any reductions or cancellations of prior-year obligations in no-year and unexpired multi-year accounts must be reported in budget execution reports, see Volume 6.

14.4 Reimbursements and Refunds

14.4.1. Reimbursable obligations are those financed by offsetting collections for goods and services provided, which must be authorized by law to be credited to a specific appropriation or fund account. The USW(C) authorizes this reimbursable authority through budget formulation and statutory authorization of the budget. Generally, unless an exception applies, collections are deposited into the Treasury as miscellaneous receipts. To record an obligation and an outlay in the current fiscal year for returned cash advances, other offsetting collections, or special or trust fund receipts received in a prior fiscal year, follow the guidelines in OMB Circular No. A-11.

14.4.2. Refunds, such as those for overpayments or payments made in error, are treated as reductions to previously recorded expenditures. Any amounts collected that exceed the refund amount, such as interest or penalties, must be deposited in the Treasury as miscellaneous receipts. It is important to note that items returned to Defense Working Capital Fund (DWCF) supply activities are classified as recoveries, not refunds. Except for refunds, agencies must deposit such collections in the Treasury as miscellaneous receipts unless a law authorizes the deposit to an appropriation or fund. Agencies may credit refunds related to the use of Government purchase and travel cards, as well as Government travel arranged by Government Contracted Travel

Management Centers, to the Operation and Maintenance and Research, Development, Test, and Evaluation accounts that are current when they receive the refunds. Volume 11 contains the general policy statements regarding work performed or materials provided between the DoW and other Federal agencies.

14.4.3. Anticipated Reimbursements. Anticipated reimbursements are estimates of funds expected to be earned during the fiscal year and are subject to OMB apportionment based on customer orders or services received or provided. This authority does not grant the power to incur obligations; a customer order must be formally accepted to create obligational authority, unless specifically authorized by statute. The allotment of anticipated reimbursable authority only provides the authority to accept reimbursable orders, not to obligate funds. It is the accepted customer order that provides the actual obligation authority. With written approval from the OMB a DoW Component can treat its reimbursable authority as "automatic," which removes the need for it to be specifically allotted. OMB approval is granted when the criteria for automatic apportionment are met, as outlined in Volume 3.

14.4.4. Customer Orders. Obligational authority is established only when a customer order is formally accepted in writing. Volume 11outlines the written requirements used to document these requests and acceptances. Unfilled customer orders represent the value of accepted agreements within the U.S. Government to provide goods and services on a reimbursable basis. While an allotment of reimbursable authority is necessary to accept orders, it does not grant obligational authority on its own. For transactions with the public, payment must be collected in advance unless a specific statute permits otherwise. When handling reimbursable orders between federal agencies, if both entities use multi-year appropriations, the performing agency must record the obligation against its own multi-year account with a corresponding period of availability. However, if the agencies' appropriation accounts have different lifecycles (e.g., a one-year appropriation filling a multi-year order), the transaction must be handled in accordance with OMB Circular No. A-11. For specific guidance on Economy Act orders, refer to Volume 11.

14.4.5. Unearned Revenue. Unearned revenue is payment received before goods or services are delivered.

14.5 Earned Reimbursements

An earned reimbursement is recognized when a performing organization renders actual or constructive performance on a reimbursable order. At this point, compound entries are made to record performance and earnings in both budgetary and proprietary accounts. Generally, all cost elements outlined in Volume 11 must be recovered through these reimbursements, although other DoW issuances may authorize different billing prices.

14.6 Borrowing Authority

Borrowing authority is a form of budget authority that allows an entity to incur obligations and make payments for specified purposes using borrowed money. When the U.S. Government acquires property subject to a mortgage, the mortgage balance is included in the accrued expenditures. Conversely, when it sells a property and a buyer assumes the mortgage, that balance is included in accrued revenues. The government may also hold a second mortgage, which is

treated as revenue from the sale. Officials must ensure that the total acquisition cost of the property and the mortgage assumed align with Volume 6.

14.7 Account Adjustments

14.7.1. At the end of the fiscal year, DoW Components must ensure their obligational authority and recorded obligations are accurately stated based on the most current information available. This involves a thorough review and adjustment of all open financial transactions.

14.7.2. Adjustments to Expiring Accounts. At fiscal year-end, all outstanding commitments in expiring appropriation accounts must be canceled, as commitments are not permitted in expired accounts. For completed customer orders, any obligational authority from reimbursable authority that exceeded the actual cost of performance must be restored. Any earned amounts that remain uncollected from an expiring account must be moved to a miscellaneous receipt account for future deposit. Additionally, any unused cash advances from non-Federal customers must be returned.

14.7.3. Adjustments to Canceled Appropriation Accounts. Officials must cancel all obligations (undelivered orders and unpaid obligations) and uncollected reimbursements before making normal closing entries.

14.7.4. Report Preparation and Closing. After completing all adjustments, prepare budget execution reports as specified in Volume 6. Once the reports are finished, close the obligational and reimbursable authority.

14.8 Expired and Canceled Accounts

For five years after an appropriation expires for new obligations, its remaining balances can be used to adjust and liquidate obligations properly chargeable to that account. On September 30th of the fifth fiscal year, any remaining obligated and unobligated balances must be canceled, rendering them unavailable for any purpose. If an obligation needs to be paid from a canceled appropriation, it can be charged to a current appropriation available for the same purpose. However, the total of all such payments from the current appropriation is limited to the lesser of the unexpended balance of the canceled, the unexpired, unobligated balance of the currently available appropriation, or one percent of the original amount of the current appropriation.

14.9 Expired Authority

Expired authority includes both unobligated balances and obligated but unliquidated balances in appropriations where the period for incurring new obligations has ended. Separate accounts must be maintained for each expired appropriation for five years after its period of availability for obligation ends.

14.10 Canceled Authority

On September 30th of the fifth fiscal year after an appropriation's period of availability ends, the agency must close the fixed appropriation account and cancel any remaining balance (whether obligated or unobligated) in the account must be closed, and any remaining balance is

canceled. After this point, the funds are no longer available for any obligation or expenditure. However, the obligational status of the canceled account must be continuously maintained. Any collections that were authorized but not received before the account was closed must be deposited into the Treasury as miscellaneous receipts. If it becomes necessary to pay an obligation from a canceled account, a current appropriation available for the same purpose may be used. When using a current appropriation to pay for an obligation from a canceled appropriation, the payment is limited to the lesser of: The unexpended balance of the canceled appropriation; the unexpired, unobligated balance of the current appropriation; or one percent of the current appropriation being charged. If payments exceed this 1 percent limit, the agency must seek additional authority from Congress. Furthermore, if cash collections do not cover reimbursable obligations from a canceled account, those obligations must be paid using the direct unobligated authority that existed in the account when it was closed.

15.0 ACCOUNTING REQUIREMENTS FOR MILITARY CONSTRUCTION PROJECTS

A military construction project encompasses all necessary work to create a complete and usable facility or a complete and usable improvement to an existing facility, including any portion specifically authorized by law. The authority to carry out such a project includes a broad scope of activities, such as surveys and site preparation; the acquisition, conversion, rehabilitation, and installation of facilities; the acquisition and installation of equipment and appurtenances integral to the project; the acquisition and installation of supporting facilities like utilities; and all planning, supervision, administration, and overhead incident to the project.

15.1 Authorization Requests

Guidance for submitting military construction projects for authorization is provided by the Assistant Secretary of War for Energy, Installations, and Environment (ASW(Sustainment)), in conjunction with the OUSW(C). Authorization requests are limited to work expected to be executed within the requested fiscal year. These requests must be supported by detailed data on the project's physical capacity, estimated costs, and location. This information must be accompanied by comparative data on existing property and future projects, along with details on approved missions and forces. Finally, the request must distinguish the portion of the project for immediate authorization from any portion being deferred.

15.2 Authorization Guidance and Restrictions

Congressional authorization acts for major construction programs typically set cost limits for each installation or type of work. Overruns may be authorized within stated percentages, provided the total appropriation is not exceeded. Major construction projects require specific authorization in a military construction authorization act unless the work is carried out under other legal authorities, such as those provided in 10 U.S.C. § 2803-2805. Conversely, minor military construction projects cannot exceed the statutory cost limits defined in 10 U.S.C. § 2805 without specific Congressional approval. The general authority to carry out a military construction project is provided by 10 U.S.C. § 2802.

15.3 Appropriation Requests

The authorization and appropriation process for individual Military Family Housing projects is governed by 10 U.S.C. Chapter 169, Subchapter II. Military construction appropriations are generally available for obligation for five fiscal years. All appropriation requests must be consistent with existing or pending authorizations and must include specific budget estimates for projects requiring legislative authorization. For reprogramming, all requests must align with the amounts appropriated for specific projects, and the total reprogrammed amount cannot exceed the total annual appropriation. Funds may be sourced from projects completed under budget; however, the amount available for reprogramming from any single project is limited to the new total cost that was included in the estimate provided to Congress.

15.4 Obligation and Expenditure Restrictions

In accordance with DoW policy, all appropriated funds are subject to regulations regarding the administrative control of funds and the provisions of the Antideficiency Act. An adequate system of funds control must be established to ensure projects are executed consistently with their authorized purpose and within available funding. While the cost estimate for a project approved by Congress is not a separate statutory cost limitation, any major physical or financial changes to previously approved projects must be reported in advance to the House and Senate Appropriations Committees and the House National Security and Senate Armed Services Committees for their approval after proper clearance within the Department and OMB. Limitations are applied at the project level for major construction and at the budget activity level for minor construction, planning, and design. DoW Components have limited authority to realign resources between projects, and all separate cost limitations imposed by congressional or administrative action must be observed at every level of program execution.

15.4.1. Intergovernmental Construction Work or Services

15.4.1.1. When performing construction or services for another DoW Component or federal agency, Military Departments must use reimbursable agreements under the Economy Act whenever practical. This requires using the latest versions of the standard Interagency Agreement forms (FS Form 7600A and FS Form 7600B), which must mandate periodic billings supported by cost documentation. All DoW Components must also comply with Federal Intragovernmental Data Standards, whether using Treasury's G-Invoicing system, other enterprise systems, or completing the forms manually.

15.4.1.2. In accordance with DoW policy, any Construction Agent wishing to use suballotments instead of the standard FS Forms 7600A/B must first submit a detailed action plan to the Deputy Chief Financial Officer (DCFO) and receive approval. If approved, the agent is then required to adhere to strict financial management and reporting standards to ensure financial integrity, auditability, and proper accounting for all project costs from funding receipt through asset transfer and contract close-out. This includes using independently validated financial systems, providing complete and reconciled monthly trial balances to customers and the Defense Finance and Accounting Service (DFAS), and maintaining full transparency of their end-to-end business processes for all military construction projects.

15.4.1.2.1. To ensure financial integrity, use independently validated financial management systems that are compliant with both the Federal Information System Controls Audit Manual (FISCAM) and the Federal Financial Management Improvement Act (FFMIA). The system must meet all relevant control objectives, including both Information Technology General Controls and application controls to be FISCAM Compliant. The system must meet federal financial management system requirements (e.g., the OMB Circulars A-127 and A-130), applicable federal accounting standards (e.g., SFFAS, OMB Bulletin 19-03), and the U.S. Standard General Ledger (USSGL) at the transaction level to be FFMIA Compliant.

15.4.1.2.2. Monthly, U.S. Standard General Ledger (USSGL) and Standard Financial Information Structure (SFIS) compliant trial balances must be provided to each customer and to the Defense Finance and Accounting Service (DFAS), which include both budgetary and proprietary accounts. These trial balances must be reconciled to the suballotment universe of transactions; end-to-end feeder systems such as contract writing, entitlement, and Accountable Property Systems of Record; the Defense Departmental Reporting System (DDRS) unadjusted and adjusted trial balances; and Program Budget Accounting System funding authorizations.

15.4.1.2.3. For both major and minor Military Construction projects, you must provide comprehensive end-to-end business process and system walkthroughs, including process flows and narratives. This documentation must cover the entire project lifecycle, from the receipt of funding through the final asset transfer and contract close-out. Crucially, the process must demonstrate how all direct and indirect costs are accumulated in a construction-in-progress account, in accordance with SFFAS 6, "Accounting for Property, Plant, and Equipment." Furthermore, you must provide supporting transaction documents, such as contracts, invoices, or receiving documents, rate settlement calculations, DoD **(DD) Form 1354**, Transfer and Acceptance of DoW Real Property, and support for DDRS or accounting system Journal Vouchers, within five days of a customer request. Finally, you are required to work with customer auditors to identify and correct any audit findings, including those related to the system.

15.4.1.3. Provide a reconciliation of progress billings to actual construction in progress and provide sufficient supporting documentation for the reconciliation at least monthly.

15.4.1.4. DoW Construction Agents may perform work or services for another DoW Component or other Federal agency (i.e. Federal Emergency Management Agency) when construction or services work is a response to an emergency, under suballotments.

15.4.1.5. Funding for construction work by the transfer of appropriation accounts or by advances of funds is prohibited. Direct citation of funds (i.e. direct charge by the performing unit and/or activity to the funds of the ordering unit and/or activity) is also prohibited.

15.4.2. When work is performed on a reimbursable basis under a construction appropriation, all activities must conform to established policies. Reimbursements earned are considered an additional source of obligational authority for the appropriate budget program. Cost limitations for the performance of work must be strictly observed as defined by the terms of the customer orders received. The management and control of reimbursable programs, including budgeting and use of funds, is retained at the Military Department level.

15.4.3. The authority for the Army, Navy, and Air Force to procure architectural and engineering (A&E) services for public works and utilities projects is provided by 10 U.S.C. § 7540, 8612, and 9540. These statutes limit the cost of A&E services from outside sources to no more than 10 percent of the project's estimated cost. This 10 percent limitation excludes costs for activities such as design reviews, advertisements, preparation of invitations for bids, requests for proposals, land survey, soils and/or other investigations and model studies, determination of program or project requirements, design development criteria, environmental impact statements and supporting data, or travel and per diem.

15.5 Planning and Design

Under 10 U.S.C. § 2807, the Secretary is authorized to obtain architectural and engineering (A&E) services and perform construction design for military construction, family housing projects, and projects undertaken in connection with the authority provided under 10 U.S.C. § 2854 not otherwise authorized by law. These design activities can proceed without specific congressional authorization for the project, as long as the estimated design costs do not exceed $1 million. If the estimated costs for these services exceed $1 million, the Secretary must notify the appropriate congressional committees before obligating funds. The funds can only be obligated after a 14-day waiting period following this notification pursuant to 10 U.S.C. § 480. This requirement applies to both active and reserve components.

15.6 Scope of a Military Construction Project

In accordance with DoW policy, all land acquisitions, regardless of their cost, are categorized as military construction projects. A military construction project encompasses all construction or authorized contributions required to create a complete, usable facility or an improvement to an existing one, as specifically authorized by law. Military construction project funding includes only equipment that is installed in and becomes a permanent part of the real property. All production equipment and movable equipment are specifically excluded from military construction project funding.

15.6.1. Construction work must be consolidated into single projects under specific conditions. All construction on a real property facility that serves the same or a related functional purpose must be treated as a single project. For multi-use facilities, all concurrent construction in contiguous areas must also be treated as a single project, even if the functions are unrelated. Similarly, any construction common to the facility as a whole or to areas with related purposes is considered one project. An exception exists for multi-use facilities, where construction may be divided into separate projects, but only if each resulting project can be clearly defined and produces a complete and usable facility.

15.6.2. When construction is performed concurrently with repair or maintenance work as part of an integrated undertaking, the construction portion may be treated as a separate project. When this occurs, the construction portion becomes subject to all cost limitations, notification requirements, and other regulations that apply to standard construction projects.

15.6.3. In accordance with DoW policy, the decision to define related construction efforts as either a single project or multiple projects requires formal approval at the highest level within

the respective Military Department. This ensures strategic oversight and proper scoping of construction work.

15.7 Certifications of Costs

A formal certification of costs is required for all military construction projects. This document must detail the project's total cost, with breakdowns for each structure and by category: planning and design, supervision, construction, and real property installed equipment (RPIE). It must also identify the funding sources, including the fund type and lines of accounting, and the responsible funding organization. To formally transfer accountability, the certification must be signed by authorized representatives from both the construction agent and the acquiring entity, typically the Real Property Accountable Officer. A copy of the completed certification must be retained for record-keeping.

15.8 Project Files

A project file must be maintained for every construction project, serving as a complete historical record from its inception to completion. The construction agent is responsible for holding these historical project files and is required to provide copies to the acquiring entity.

15.9 Military Construction Projects

Specified military construction projects, or "major military construction," include any acquisition, construction, addition, expansion, extension, conversion, alteration, or replacement of facilities that exceed the legal maximum for a minor construction project, or any project, regardless of cost, approved as a specific line item in the Military Construction budget request. A major construction project includes surveys, demolition, and site preparation; the acquisition, conversion, rehabilitation and installation of facilities and integral equipment; the installation of supporting facilities and utilities; and all associated supervision, administration, overhead, and design support. Specifically excluded from major construction are those activities identified as minor construction, planning and design, or supporting activities.

15.10 Unspecified Minor Military Construction

15.10.1. Projects involving acquisition of new construction, addition, expansion, extension, alteration, conversion, replacement, or installation to permanent or temporary facilities (excluding family quarters) are considered minor construction when their cost does not exceed the statutory limits specified in 10 U.S.C. § 2805 (Active Components) or 10 U.S.C. § 18233a (Reserve Components), and they are not included as a specific line item in the budget request.

15.10.2. For other than family housing facilities, when the cost of a project is less than the amount specified in 10 U.S.C. § 2805, the project must be financed from unspecified minor construction appropriations; operations and maintenance (O&M) appropriations; research, development, test and evaluation (RDT&E) appropriations; working capital fund resources; or other resources, as appropriate. The funding source does not influence the financial statement capitalization requirements.

15.10.3. Minor construction projects previously disapproved or deleted by Congress from being proposed under minor construction authority. Each project must result in a complete real property facility or improvement. The policy also mandates that, to the maximum extent possible, each project must align with the installation master plan. Full disclosure of the project's relationship to the master plan and any further planned construction is required. Lastly, the policy strictly prohibits incremental construction through a series of minor projects.

15.10.4. Congressional notification is required before starting certain minor construction projects. For projects exceeding the cost limits in 10 U.S.C. § 18233a, funds cannot be obligated until the appropriate congressional committee approves the project. For unspecified minor construction projects costing more than $2 million, as defined in 10 U.S.C. § 2805, the Secretary concerned must notify the appropriate committees of Congress of the decision to undertake the project, including its justification and estimated cost. A mandatory waiting period must be observed after notification before work can begin.

15.10.5. When determining if a project qualifies as minor construction under 10 U.S.C. § 2805, planning and design costs are excluded. DoW Components cannot use materials, supplies, items of installed capital equipment on a non-reimbursable basis for their own minor construction projects. Prerequisites for establishing a project include identifying the result and its correlation with the installation master plan. While absolute criteria for defining a separate minor construction project are not prescribed, any project undertaken must be consistent with the statute's intent.

15.11 Emergency and Contingency Construction

In accordance with DoW policy, 10 U.S.C. § 2808 grants the SecWar the authority to undertake military construction projects during a declared war or a national emergency that requires the use of the Armed Forces. These projects must be necessary to support the use of the Armed Forces and may only be funded using the total amount of unobligated military construction funds, including those for family housing. The Chairman of the Joint Chiefs of Staff must certify that any such project is consistent with theater basing plans and operational requirements. Any subsequent increases to the estimated project costs require coordination with the OUSW(C). This emergency authority automatically terminates at the end of the war or national emergency. Additional guidance is contained in DoDD 3025.18 and DoDD 4270.5.

15.11.1. Emergency Construction. Under the authority of 10 U.S.C. § 2803 and as further guided by DoDD 4270.5, the Secretaries of the Military Departments and Directors of Defense Agencies may carry out emergency major construction projects after notifying Congress. This authority is strictly reserved for projects that are vital to national security, health, safety, or the environment, and where the urgency is so great that deferral to the next Military Construction Authorization Act would be inconsistent with those interests. Emergency construction projects must be financed with unobligated military construction funds, and the maximum amount that can be obligated by each Military Department in a fiscal year is established in 10 U.S.C. § 2803. These projects are subject to the same restrictions and cost treatment as major construction projects. It is important to note that there is no provision for emergency construction for the Reserve Components.

15.11.2. Contingency Construction. 10 U.S.C. § 2804 and annual Military Construction Appropriation Acts authorize projects of an urgent nature to be funded from the Contingency Construction Account without specific prior congressional authorization. A project financed under this authority requires a determination that deferring it to the next Military Construction Authorization Act would be inconsistent with national security or the national interest. The use of this authority requires approval by the SecWar and written notification to the appropriate committees of Congress. Additional policy guidance is contained in DoDD 4270.5, and further requirements for the use of these funds in the U.S. Central Command and U.S. Africa Command Areas of Responsibility are prescribed in an OUSW(C) policy memorandum.

15.12 Environmental Response Actions

In accordance with DoW policy, the authority for environmental response actions is provided under 10 U.S.C. Chapter 160. The SecWar or the Secretary of a Military Department may carry out an environmental restoration project if it is determined to be necessary under Chapter 160 or the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA). Any construction, development, conversion, or extension of a structure, and any installation of equipment, included in an environmental restoration project may not be considered military construction. The sole source of funds for these activities is the Environmental Restoration Account (Treasury Fund Symbol ***X0810), except for certain Base Realignment and Closure (BRAC) sites, which must use the applicable DoW base closure account. It is policy that funds from an Environmental Restoration Account cannot be used for the payment of fines or penalties except as provided in 10 U.S.C. § 2703.

15.13 Restoration or Replacement of Damaged or Destroyed Facilities

Under the authority of 10 U.S.C. § 2854, the Secretaries of the Military Departments and the SecWar may repair, restore, or replace a facility that has been damaged or destroyed, even if specific legislative authorization and appropriation have not been provided for that purpose. These restoration or replacement projects must be financed using unobligated funds from existing appropriations.

15.14 Defense Access Roads

Under the authority of 23 U.S.C. § 210, the defense access roads program allows the federal government to fund its fair share of highway improvements essential for national defense. This includes providing access to military reservations and defense industry sites, replacing public highways closed by military activities, and repairing highway damage caused by military maneuvers or the construction of missile sites. The program also covers ensuring missile routes can support transporter-erector vehicles and repairing damage from recurrent flooding and sea-level fluctuation that impacts access to a military installation. Defense access roads, including bridges and tunnels, provide access to military reservations, to defense industries and defense industry sites, and to the sources of raw materials when such roads are certified as important to the national defense by the SecWar or such other official as the President may designate. However, roads located entirely within the boundaries of a military reservation are not eligible for these funds and must be financed through other military construction programs, emergency construction, or

minor construction programs, as applicable. Similarly, projects on the regular Federal-Aid Primary System are generally not eligible.

15.15 Relocatable Buildings

Under DoD Instruction 4165.56, relocatable buildings may be acquired and used within DoW when they are the most feasible and economical solution for short-term facility needs (typically 5 years or less) arising from peak missions, deployments, or other urgent requirements. They may also be used when the duration of a requirement is uncertain or when a recurring mobile need exists, such as the need to move a field office to different sites on a training range. Relocatable buildings can be classified as either personal property (equipment) or real property. As Personal Property, they are acquired with O&M, RDT&E, or Procurement funds. Costs for setup, disassembly, maintenance, and transport are treated as expenses and charged to appropriate appropriations. As Real Property, they are funded with either O&M or Military Construction funds, depending on the total acquisition cost, which includes the completely assembled building and all site work. Buildings that do not meet the definition of "relocatable" must be acquired as military construction. Site preparation for relocatable buildings that results in real property improvements is classified as construction.

15.16 Efforts Financed by Military Construction Appropriations

15.16.1. Funded Costs. In accordance with DoW policy, major design and construction costs are funded from applicable military construction appropriations. These costs include all materials, services, transportation, and labor (excluding U.S. military labor) relevant to the project. This funding also covers Real Property Installed Equipment (RPIE), unless it was obtained on a non-reimbursable basis from another federal entity. Additionally, identifiable installation overhead, supervision and inspection charges from USACE or NAVFAC, travel and per diem for personnel, planning and design costs for specified major construction projects, and the cost of remediating unknown environmental contamination within the project's footprint are all included. The policy also allows for the inclusion of costs for the operation and maintenance of government equipment used on the project.

15.16.2. Overhead Expenses. All military construction program overhead expenses, including work for others, are initially financed from the performing military construction appropriation and then distributed to the respective projects. This overhead includes costs for personal services and support, contract administration, program and project management (including post-construction evaluation), technical direction, land planning studies or reports, appraisal, and title search after congressional authorization of a land acquisition or exchange, and any other project management and administration costs not otherwise specified.

15.16.3. Reimbursable Project Costs. In accordance with DoW policy, the appropriation that is financing a construction project is required to reimburse any other appropriation that initially covered its costs. This ensures that all project costs are ultimately charged to the correct funding source.

15.17 Related Costs Financed by Other than Military Construction Appropriations

15.17.1. Unfunded Costs. Unfunded costs" that contribute to a military construction project must be capitalized as part of the property's value, even though they are financed by appropriations other than military construction and are not reimbursed. These unfunded costs include expenses financed from military personnel appropriations, the depreciation of government-owned equipment calculated at an hourly rate per Volume 11, and unfunded civilian fringe benefits as prescribed in Volume 11. They also encompass gifts, in-kind considerations, and materials or Real Property Installed Equipment (RPIE) obtained as non-reimbursable from other federal entities. However, DoW Components are prohibited from using their own materials or equipment on their own minor construction projects on a non-reimbursable basis. Additionally, when determining compliance with cost limits for minor construction projects under 10 U.S.C. § 2805, planning and design costs are specifically excluded.

15.17.2. Advance Planning. Activities are performed before a construction project receives its funding and design authorization of a construction project by the military component. These activities are not to be performed under the authority for military construction project planning and design (such as 10 U.S.C. § 2807). Advance planning costs are explicitly excluded when determining compliance with cost limits for minor construction projects. For accounting purposes, advance planning costs are to be expensed in the period they are incurred. Advance planning activities include, but are not limited to: Developing project requirements and master plans; Exploring project alternatives and creating rough drawings; Conducting management studies, conceptual analyses, and site studies; Developing and validating project documentation; and Preparing engineering analyses and environmental impact assessments.

15.17.3. Minor Construction. For minor construction projects (excluding family housing) that cost less than the limit in 10 U.S.C. § 2805, funding must come from appropriate sources such as unspecified minor construction, O&M, RDT&E, or working capital fund appropriations.

15.17.4. Family Housing. All family housing construction projects must be funded from applicable family housing appropriations. Refer to Volume 2.

15.17.5. Equipment and Relocatable Items. Items classified as movable equipment, not integral to a facility, must be financed from O&M, RDT&E, Procurement, or working capital fund appropriations. This includes production, technical, and training equipment, as well as relocatable items like prefabricated screens, partitions, and false floors. The cost of any building alterations required to install this movable equipment, including temporary wall or roof removal and secondary utility connections, must also be funded from these same appropriation sources.

15.17.6. Recycling Programs. Projects for pollution abatement, energy conservation, and occupational safety and health may be funded from sources other than the military construction appropriation. This is permissible when the project cost is derived from recyclable material sales, as per Volume 11 and 10 U.S.C. § 2577, and does not exceed 50 percent of the statutory maximum for minor construction projects.

15.18 Recognition and Reporting Requirements

15.18.1. Acceptance of Real Property. The acceptance and transfer of real property, both within DoW and between other federal agencies, must be formally documented. The DD Form 1354 is designated as the basic source document for this process. To execute this policy, the process for documenting real property acceptance and transfer is detailed in Unified Facilities Criteria (UFC) 1-300-08.

15.18.2. Accounting Recognition. Under DoW policy, capitalization is the process of recognizing the total costs of property, plant, and equipment in the financial records. An asset is capitalized if it has an estimated useful life of two years or more, is not intended for sale in the ordinary course of operations, is acquired or constructed for use by the entity, and its recorded cost meets or exceeds the DoW capitalization threshold (Refer to Volume 4). All significant costs related to the construction or acquisition of an asset, including unfunded costs and all costs incurred after project approval and funding authorization, must be capitalized. The source of funding has no bearing on this requirement. Costs incurred during the advance planning phase are not capitalized; they must be expensed in the period they are incurred. Similarly, if a project is abandoned, all costs incurred up to that point must be expensed.

15.19 Financial Reporting

15.19.1. Accounting Entries. The U.S. Standard General Ledger (USSGL) must be used in all DoW accounting systems to summarize and report costs and obligations for all appropriations and funds. The management of any activity performing a construction project is responsible for ensuring that all significant costs, both funded and unfunded, are recorded for the project and that all costs subject to capitalization are included in the real property asset accounts property records, and reports submitted to the OSW and the Congress. The policy also mandates that cost accounting systems for construction projects must be integrated as a subsidiary ledger of the general accounting system. Furthermore, policy for managerial cost accounting is prescribed in Volume 4.

15.19.2. Financial Reports. DoW policy requires that accounting records be designed to allow for the accurate and timely summarization of financial transactions from a single, unified system of accounts. The data produced must be in the formats prescribed for official budget and financial reports. Additionally, these records must be designed and maintained in a way that facilitates audits of project amounts.

16.0 TRUST FUNDS

16.1 Applicability and General Information

This section highlights the policies applicable to trust funds. Current accounts include the (1) National Security Education Trust Fund and the (2) Surcharge Collections, Sales of Commissary Stores, Defense. The complete list of fund accounts and titles is available via the Federal Account Symbols and Titles (The FAST Book) at: https://fiscal.treasury.gov/accounting/fast-book. Section 20 of OMB Circular No. A-11 provides additional information on related terms and concepts. Refer to the Supplemental Documents for DoW execution responsibilities and other requirements.

16.2 Authority

Trust Funds are authorized to incur obligations and expend receipts that OMB has exempted from apportionment. However, the National Security Education Trust Fund and the Surcharge Collections, Sales of Commissary Stores, Defense trust revolving fund, are subject to apportionment by OMB. Each trust fund must be viewed as a unique fund in light of any special provisions in the trust agreement or the enabling legislation. Trust funds have been assigned account symbols between 8000 and 8999. Within this range, trust revolving funds have been assigned symbols between 8400 and 8499.

16.3 Provisions

16.3.1. The Corpus. The term "corpus" commonly refers to the resources available as capital in a fund. Capital resources are provided to commence or increase the size of a fund. The initial corpus is usually provided by a direct appropriation to form a nucleus of resources used to acquire items needed to perform the mission of a fund. Existing resources, transferred as capitalized assets, may also serve the same purpose as an appropriation to start, increase the size, or replace significant losses of a public enterprise or trust fund.

16.3.2. Revenues. DoW trust funds generate revenues from the sale of goods or services to customers. Customer reimbursements replenish the corpus for resources obligated and expended to fulfill the customers' orders.

16.3.3. Apportionment. For trust funds that OMB apportioned, the ability to incur obligations is limited to the amount officially apportioned. Budgetary resources and authority available for apportionment include new budget authority, unobligated balances available from the prior fiscal year, spending authority from offsetting collections, recoveries of prior year obligations, restorations, and contract authority.

16.3.3.1. The apportionment of spending authority, commonly referred to as "reimbursable authority," reflects anticipated reimbursements. It does not authorize a trust fund to obligate its apportioned reimbursable program in excess of the funded orders received from within the Federal Government and advances received for orders outside the Federal Government.

16.3.3.2. Assets. Physical assets such as inventories or buildings and equipment are not budgetary resources because they do not provide a direct monetary source for outlays that liquidate budgetary transactions (i.e., obligations). Therefore, such assets do not increase the amount of obligation authority available when calculating unobligated balances.

16.3.3.3. Contract Authority. Contract authority provides legal authority to enter into contracts and incur obligations before budgetary resources are available. Obligations incurred using contract authority may not be liquidated until funded by offsetting collections or other budgetary resources. The apportionment limits the amount of contract authority available for obligation.

16.3.3.4. Antideficiency Act. Incurring or authorizing obligations in excess of apportioned budgetary resources is a potential violation of the Antideficiency Act that must be

reported with DoDD 7200.1. This reporting requirement applies even if the fund holds other unapportioned resources or other assets greater than the amount of the deficiency.

16.3.3.4. To avoid these violations, each DoW Component using a fund to finance activities is responsible for maintaining a positive cash balance and restricting obligations to the amount authorized in its AOB or FAD. The OUSW(C) will evaluate Component requests to adjust obligation limits based on the merit of the justification, as long as Congress has not imposed a specific limitation. When a fund's financial execution deviates significantly from its plan, management actions must be taken to either bring execution back into alignment with the plan or revise the plan to reflect more realistic expectations.

17.0 DEFENSE WORKING CAPITAL FUNDS

17.1 General Purpose and Sources of Funds

Under the authority of 10 U.S.C. § 2208, the Defense Working Capital Fund (DWCF) is established to provide goods and services to other DoW activities and authorized non-DoW entities. The customers of the DWCF may include any DoW element, non-DoW federal agencies, and, when authorized by law, private parties, foreign governments, state and local governments, and certain U.S. manufacturers assemblers, or developers authorized by 10 U.S.C. §§ 2208(h), 2563, and 7543. Direct appropriations (such as Procurement or O&M) may be used to start a DWCF activity, fund readiness costs not related to its operating mission, or to increase its size or replace significant losses. Direct appropriations can also be provided for specific purposes like war reserve materiel or overseas contingency operations and expanded inventory requirements, or other purposes as approved by the OUSW(C) Director, Revolving Funds and Integration (RFI). While a direct appropriation increases the Fund Balance with Treasury (FBwT) and budgetary resources, it does not impact the cumulative results of operations. These direct appropriations may be available for obligation in subsequent fiscal years. Alternatively, existing resources from other accounts may be transferred to a working capital fund as capitalized assets for the same purposes. The receipt of the appropriation provides an immediate infusion of cash to the FBwT and the appropriation amount used must be accounted for and reflected on accounting records (AR 1307) and budgetary reports (SF 133).

17.2 Revenues

The DWCF generates revenues predominantly from appropriations used by federal agencies to purchase goods or services. The DWCF uses the revenue collected from these "customers" to pay for the resources required to produce the specific goods or service documented on the customer order. That is, the DWCF uses resources from funded customer orders to replenish its corpus for resources expended to fulfill those customer orders.

17.3 Customer Orders

Customer orders (funded requests for goods or services) provide budgetary resources necessary to finance operations for non-supply management activities, and to liquidate contract authority. Budgetary resources are recognized from customer orders that obligate budgetary resources of another federal government activity, and from cash advances from non-federal customers, to include orders from non-appropriated fund instrumentalities. Customers ordering

from the DWCF must adhere to all statutory limitations on their appropriated funds. Placing an order with the DWCF does not expand or change the original appropriation's availability, and customers cannot use the DWCF to indirectly perform actions they are not permitted to do directly. The ordering activity holds the primary responsibility for determining the applicability of the funds they cite on an order. However, if instances arise when it is apparent that the ordering appropriation is not appropriate for the purpose provided, then the DWCF activity should return the order with a request for an applicable appropriation citation. 10 U.S.C. § 2208 restricts cash advances to the DWCF from federal government activities to $1 billion and only when operating resources significantly fall below outlay requirements.

17.4 Obligation authority

Obligation authority is the authority to incur costs, on behalf of the federal government, that will result in a disbursement from the FBwT. The OMB apportions obligation authority to the OUSW(C) via an SF 132, Apportionment and Reapportionment Schedule. This authority, which is limited to the amount approved during the budget review plus any in-year amendments, is requested by the OUSW(C) RFI Directorate. The approved apportionment restricts the authority to incur obligations and serves as the source document for the Annual Operating Budget (AOB). Budgetary resources available for apportionment include budget authority (direct appropriations), unobligated balances brought forward (i.e., unfilled customer orders), spending authority from offsetting collections (i.e., Reimbursements for goods and services provided and/or other income), recoveries of prior year obligations, restorations, and contract authority.

17.4.1. When an activity receives budgetary resources from more than one source (spending authority from offsetting collections, direct appropriation, contract authority), the receiving activity must maintain records that will enable it to control and report separately the transactions relating to each type of source (per OMB Circular No. A-11). Budgetary resources may be received at any level of an organization from the individual activity up to the Departmental level.

17.4.2. Federal customer orders and cash advances generate spending authority from offsetting collections (Reimbursable Authority). These budgetary resources are apportioned from the OMB to DWCF non-supply management activities for operating costs. The acceptance of a customer order requires that the performing entity agree in writing to perform the work for the customer entity. The apportionment of reimbursable authority applies to DWCF (97X4930) non-supply activities and all other DoW Revolving Funds.

17.4.2.1. The apportionment of reimbursable authority is considered “anticipated” and a DWCF non-supply management activity may not obligate more than the total amount of orders received from Federal entities plus advances received for orders from authorized entities external to the Federal government (i.e. state, local, and foreign governments). Specific authorization to obligate above orders received and cash advances may be approved by a signed AOB if other resources are available at the DWCF sub-account level. A DWCF activity should not obligate above all resources available to that specific entity without prior approval of the OUSW(C) Director, RFI, to ensure that budgetary resources are available at the sub-account level.

17.4.2.2. The anticipated reimbursable program authority does not provide obligation authority. Therefore, a non-supply activity should not obligate more than what has been accepted in customer orders and other financing resources available. Recording anticipated reimbursable program authority only documents that reimbursable orders will be accepted. The accepted reimbursable order provides obligation authority. The total amount of anticipated reimbursable authority is recorded on the AOB for reconciling purposes.

17.4.2.3. The AOB does not restrict the amount of reimbursable orders that can be accepted. Reimbursable orders may exceed the anticipated amount without recording a negative anticipated order on the SF 133. Activities should request a new AOB when customer orders in the year of execution are expected to exceed the anticipated amount or obligations are expected to exceed the current authorization.

17.4.2.4. With respect to DWCF budget execution, contract authority is only used in supply management operations and capital investment programs. Contract authority must be apportioned. For supply management operations, if reimbursements from offsetting collections exceed apportioned contract authority, the difference cannot be obligated unless additional contract authority is issued by OMB because such operations are not provided automatically apportioned reimbursable authority. This may be characterized as either an unapportioned balance of a revolving fund or a restrictive withholding. The unapportioned balance preserves a portion of the fund's capital so it may continue to revolve or represent those resources not scheduled for obligation within a fiscal year. Prior year de-obligations of contract authority are automatically re-apportioned to the DWCF in the current year. Prior year de-obligation of contract authority used for a capital investment program (CIP) may only be used to cover additional costs in programs for that specific fiscal year and may not be used to cover additional current year costs unless approved in writing by the OUSW(C) Director, RFI.

17.5 Antideficiency Act

The incurring of obligations (or authorizing the incurrence of obligations) in excess of apportioned budgetary resources and other financing resources must be reported as a potential violation of the Antideficiency Act, as required in Volume 14.

17.5.1. Commitments for goods or services to be obligated in the following year may be incurred in excess of apportioned budgetary resources only if obligations are not incurred in excess of apportioned budgetary resources. There is no restriction on commitment amounts for DoW revolving fund activities.

17.5.2. The AOB also includes administrative restrictions on the use of obligation authority specific to that activity's operation.

17.6 Assets

Physical assets such as inventories or buildings and equipment are not considered budgetary resources because they do not provide a direct monetary source for outlays that liquidate budgetary transactions (obligations). Such assets, therefore, do not increase the amount of obligation authority available when calculating unobligated balances. Changes in inventory valuation and unexpected gains in inventory (such as items being found on an installation) do not

generate budgetary resources but are currently accounted for in the Net Operating Result (NOR) on the (AR) 1307 report. The NOR for budget purposes must reconcile budgetary resources and claims against those resources (obligations).

17.7 Execution Requirements

17.7.1. SF 132 Apportionment. The SF 132 provides the legal authority to incur obligations against the receipt of customer orders or contract authority in anticipation of receipt of customer orders. Details and explanations on preparing the SF 132 can be found in OMB Circular No. A-11, Preparation, Submission and Execution of the Budget.

17.7.1.1. The DWCF is apportioned new budget authority in the form of direct appropriations, unobligated balances brought forward, spending authority from offsetting collections and contract authority. The FBwT is not apportioned because the financing resources have already been encumbered by obligations and the unencumbered balance is factored into unobligated balances brought forward.

17.7.1.2. All other revolving funds outside of the DWCF are apportioned spending authority from offsetting collections and unobligated balances brought forward.

17.7.2. Contract Authority. Contract authority is the legal authority to enter into contracts and incur obligations ***before*** budgetary resources are available. The initial apportionment of contract authority for a fiscal year is typically the operating budget for supply management activities, and for both supply and non-supply management activities is the CIP reflected in the budget year column of last year's President's budget.

17.7.2.1. Supply management activities receive contract authority for a variability target, which represents an amount of contract authority to be held in reserve by the OUSW(C) to ensure continuity of operations for fluctuations in materiel costs and/or increased customer orders. The OUSW(C) provides requested adjustments from the initial apportionment to OMB, reflecting revised estimates displayed in the current year column of the President's budget submission most recently provided to Congress. The OUSW(C) may also request other adjustments that reflect significant changes experienced in budget execution.

17.7.2.2. Contract authority is available for obligation within the fiscal year for which it is provided. Contract authority is unfunded and, therefore, obligations incurred through use of contract authority may not be liquidated (i.e., paid) until funded by offsetting collections or other resources credited to the DWCF. Contract authority does not authorize outlays; the activity reports it on the SF 133 to ensure obligations do not exceed apportioned amounts from OMB. Budgetary resources should be sufficient at the DWCF activity level to ensure disbursements are funded.

17.7.3. Annual Operating Budget. The OUSW(C) RFI Directorate issues initial AOBs for each Component's DWCF activities prior to the beginning of the fiscal year. The AOB identifies an operating budget, operating results, unit cost targets, and capital investment limitations (subject to 31 U.S.C. § 1517) for each DWCF activity.

17.7.3.1. Each Component/Agency is responsible for taking actions to remain solvent and allow operations (disbursements) to continue. It is a potential violation of the Antideficiency Act (31 U.S.C. § 1517) if the FBwT is below zero at the sub-account level.

17.7.3.2. Non-supply management activities will maintain a positive budgetary resource balance (i.e., obligations will not exceed budgetary resources). Obligations exceeding total budgetary resources available to non-supply management activities, and obligations exceeding issued contract authority on the AOB, are potential violations of the Antideficiency Act (31 U.S.C. § 1517).

17.7.3.3. Cash balances may be used when negative operating results are authorized on the AOB or by action of the OUSW(C) RFI Directorate. However, the AOB of a DWCF activity does not authorize it to use cash balances associated with another DWCF activity financed within the same DWCF sub-account. It is the responsibility of the DoW Component to ensure that adequate financing or budgetary resources have been allocated to a specific DWCF activity, and to obtain timely authorization for negative operating results for non-supply management activities.

17.7.3.4. In addition to statutory restrictions, the Department may further restrict budget authority through apportionment or administrative action. These administrative limitations cannot alter statutory restrictions but can only further constrain the purpose, amount, or time for which budgetary resources may be used. DoW Components must adhere to these administrative divisions of resources and/or a subdivision of budgetary resources provided to a DWCF activity. When an administrative limitation is imposed, obligations must remain below that limit even if they are lower than the total available budgetary resources. Any such limitation must be clearly stated in a signed, written document.

17.7.3.5. If a DWCF activity has insufficient budgetary resources, the manager cannot assume that funds exist elsewhere within the sub-account. Instead, the manager must request an increase in authority from the OUSW(C) Director, RFI, and defer any additional obligations until sufficient resources are available.

17.7.3.6. Segregation of Budgetary Resources. When an activity receives budgetary resources from more than one source, the receiving activity must maintain records which will enable it to control separately the transactions relating to each source.

17.7.3.7. Claims Against Budgetary Resources. To accurately determine budgetary resources available for obligation, a DWCF entity must use its budgetary accounts, as proprietary accounts alone are insufficient. Non-budgetary assets like inventory and even a positive FBwT do not guarantee availability, as these resources may be encumbered by existing claims such as accounts payable or undelivered orders and unpaid accrued expenditures. Similarly, some budgetary accounts, like anticipated customer orders, do not represent a budgetary resource available for obligation. The true balance of budgetary resources available for obligation, which accounts for administrative restrictions and other withheld amounts, can be determined from the data reported on the SF 133.

17.7.4. Budgetary Resources. Key principles govern the management of budgetary resources within the DWCF. Earned reimbursements are the amount of customer orders that have been filled. In the case of orders from the public, including state and local governments, the amount is limited to the amount of the cash advance received. Earned reimbursements should not exceed the amount of individual customer orders and letters of intent, commanders' orders, congressionally mandated actions, and other emergency situations. It is also a policy that obligations cannot be incurred unless available resources—such as apportioned contract authority, direct appropriations, or accepted customer orders—exceed the proposed obligation. Incurring obligations beyond available resources may constitute a violation of the Antideficiency Act. Finally, when authorized, non-expenditure transfers of funds will either increase or decrease the available budgetary resources, depending on the direction of the transfer. Detailed guidance on the Report of Budgetary Execution and Budgetary Resources (SF 133) can be found in Appendix F of OMB Circular No. A-11.

17.7.5. DFAS Reporting. The DFAS Accounting Report (AR) 1307 is the official internal document for financial accounting and the source for annual financial statements. The amounts on its Statement of Financial Position and Statement of Cash Flows must reconcile to the SF 133. For supply activities, Part VII of the report provides budgetary, accounting, and inventory data used to develop internal benchmarks and metrics for operational effectiveness and efficiency.

17.7.6. Execution Review. The financial performance of each DWCF activity is subject to formal review by OUSW(C) leadership. This review compares the activity's operational results to its plans for disbursements, collections, revenue, expenses, net operating results, and unit costs. The purpose of this policy is to ensure that financial operations are proceeding according to plan. If significant deviations are identified, management action may be required to either bring execution back into line with the plan or revise the plan to be more consistent with current and realistic financial expectations.

17.7.7. Adjusting Component Resources. Components may request adjustments to their targets or capital budget limitations from the OUSW(C) RFI Directorate based on budget execution. These requests will be evaluated on their merits, and unless precluded by congressional limitations, will be approved or disapproved.

VOLUME 4

ACCOUNTING POLICY

1.0 GENERAL

1.1 Purpose

Volume 4 provides accounting policies, general guidance on supporting material, and specific guidance by appropriations, programs, and activities for the Office of the Secretary of War (OSW). Accounting policy memoranda issued throughout the year, special instructions, and nonrecurring requirements unique to that year's budget cycle will provide any necessary changes or revisions to this standing document. The provisions of Volume 4 apply to the OSW, the Military Departments, the Defense Agencies, the Combatant Commands, and any other Defense Field Offices or Activities (hereafter referred to as "Components") that manage programs. Volume 4 Supplemental contains corresponding instructions and procedures.

1.2 Authoritative Guidance

Refer to the Volume 4 authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary on the FMR webpage.

1.4 Procedures

Refer to the Supplemental document listed throughout this volume.

2.0 FINANCIAL CONTROL OF ASSETS

2.1 Asset Characteristics

An asset has two essential characteristics: it embodies probable future economic benefits or services, and the Department of War (DoW) owns or controls access to these benefits, allowing it to obtain, deny, or regulate access for other entities. The Component must record entries for accounting events for assets simultaneously in both the proprietary and budgetary accounts.

2.2 Noncash Assets

Noncash assets are valued promptly, once DoW acquires, takes possession, or exercises accounting control. For purposes of this paragraph, promptly means by the entity's fiscal year-end.

2.3 Entity Versus Non-Entity Assets

DoW Components report entity assets separately from non-entity assets in the financial statements. DoW Components use entity assets in their operations. The DoW Component determines how entity assets are used and must use them to meet statutory obligations. DoW Components may hold non-entity assets but not use them in their operations. A DoW Component may act as a fiduciary by maintaining non-entity assets for the Treasury, other government agencies, or non-federal entities. DoW Components must report both entity and custodial or managed non-entity assets in the financial statements. However, DoD Components must not recognize fiduciary non-entity assets on the Balance Sheet, according to SFFAS 31; refer to the Volume 4 Supplemental for more information.

2.4 Intragovernmental Versus Public Transactions

Transactions with other Non-DoW Federal Agencies and other DoW Components create intragovernmental assets. Similarly, transactions with non-federal entities create public assets, where "public" refers to domestic and foreign persons and organizations outside the U.S. Government.

3.0 ACCOUNTING FOR CASH AND FUND BALANCES WITH TREASURY

3.1 Cash

Recognize cash, including imprest funds, as an asset in accordance with Statement of Federal Financial Accounting Standards (SFFAS) 1. The Component must translate foreign currencies into U.S. dollars at the exchange rate on the financial statement date. Use the appropriate accounts to record transactions for Fund Balance with Treasury (FBwT) or foreign currency transactions. Refer to the USSGL Treasury Financial Manual (TFM) Supplement and the DoW USSGL Transaction Library.

3.2 Funds Held Outside of Treasury (FHOT)

Cash and Investments Held Outside of the Treasury (CIHO), also known as FHOT. Report entity and non-entity cash in accordance with SFFAS 1. Deposit funds from non-federal sources in anticipation of an order (that is, an advance) should be classified in accordance with SFFAS 31.

3.3 Restricted Cash

Laws, regulations, or agreements impose cash deposit restrictions. All non-entity cash has restrictions. Entity cash may also be subject to restrictions for specific purposes, and financial reports must disclose the reasons and nature of these restrictions.

3.4 Foreign Currency

Account for foreign currencies in subsidiary accounts separate from U.S. currency.

Report foreign currencies at the U.S. dollar equivalent using the exchange rates prescribed by the Secretary of the Treasury. Disclose in the financial statement notes that foreign currency is

not freely exchangeable. Accounting entities may prepare financial statements for their use. These entity-level statements will be translated into U.S. dollars when used to prepare departmental financial statements. See Volume 6 for additional foreign currency information.

3.5 Reconciliation

3.5.1. All federal agencies must reconcile their FBwT account with the detailed transactions posted to the general ledger on a regular and recurring basis. Additionally, all federal agencies must compare the FBwT balance with the available funds recorded on the Central Accounting Reporting System (CARS) Account Statement. This ensures all disbursements, collections, and intragovernmental transactions in CARS have supporting Agency Location Code (ALC)/ Disbursing Station Symbol Numbers (DSSN) details. This policy ensures the integrity and accuracy of the FBwT balance, which represents the available funds authorizing an entity to make expenditures and pay liabilities. Agencies must promptly disclose, identify, resolve, and correct all errors, losses, and gains. They can consider the reconciliation complete only after they identify all differences, assign accountability, explain any differences, and record the necessary adjustments.

3.5.2. Undistributed amounts are amounts reported to the Treasury that have not been posted to the appropriate obligation in a Component's general ledger or vice versa. Undistributed amounts can result from timing, invalid LOA, or invalid TAS information, among other reasons. Unsupported undistributed amounts are not yet researched/reconciled to supporting documentation. A "forced balance entry" made into a suspense account to match the Treasury's control total cannot be considered by an agency as an adequate reconciliation of the FBwT USSGL accounts 101000 and 109000. Policy strictly requires that personnel research all differences at the detail-voucher level to identify the underlying causes. For further guidance, refer to the Financial Audit Manual, Volume 2; Office of Management and Budget (OMB) Circular No. A-136; and the Volume 4 Supplemental.

3.6 Universe of Transactions (UoT)

The FBwT UoT comprises all valid funding, disbursements, collections, and transfers within a specific period. These transactions directly affect appropriation account balances as reported to Treasury, recorded in the entity's general ledger, and presented in its financial reports.

3.7 Deposit Fund Activity

Deposit fund activities are external to the budget process and are reviewed by Auditors during the DoW's FBwT reconciliation. Collections for these funds originate from the public and are unrelated to prior U.S. Government obligations. The DoW Treasury Index (TI) (defined in the Federal Account Symbols and Titles (FAST Book) designates the entity responsible for reporting the deposit fund liability, irrespective of the funds' source. To support accurate DoW financial statements and prevent commingling of rights or obligations, the Treasury component holding the funds must report the liability.

3.8 TI-97 Deposit Fund Liabilities Account

DoW Components must review deposit fund accounts quarterly to ensure the funds align with legal authority and maintain a positive balance, taking corrective action when necessary. If a disbursing officer over-disburses a fund, they must promptly report an Antideficiency Act (ADA) violation to OMB. When establishing deposit accounts with the Treasury, the responsible DoW entity must track, reconcile, and report all activity on the standalone financial statements of TI-97 Components. This requirement applies if the activity meets Treasury criteria, is material to a Component that prepares standalone financial statements (per OMB Bulletin 24-01 or statute), and has support from a unique statutory authorization. The DoW Office of Inspector General (OIG) will track, reconcile, report, and audit any deposit fund activity not meeting these criteria as part of the DoW consolidated audit. Refer to the Volume 4 Supplemental for more information.

3.9 Accounting for Cash and Investments Held Outside of Treasury

DoW policy, guided by TFM Chapter 3400 (FHOT), dictates the accounting and reporting for all CIHO. Components may temporarily hold cash using any DoW Treasury Appropriation Fund Symbol, subject to the restrictions noted in TFM Chapter 3400 and Volume 5. They must record all CIHO transactions, including Burden Sharing funds, using USSGL transaction code B150 and the FHOT Business Event Type Code, and report them on financial statements per Volume 6. Components are responsible for the oversight and monitoring of all FHOT. In this reconciliation, the Component must align the cash it reports on the Statement of Accountability with the CARS Account Statement and its own internal accounting records and financial statements. Component-level Standard Operating Procedures (SOPs) must detail the roles of service providers.

3.10 Cash Audits and Reviews

Managers supervising personnel who handle cash must maintain appropriate accounting and internal controls to ensure that all disbursements and collections are lawful, proper, and accurate. Policy requires auditors to conduct both announced and unannounced audits to verify personnel properly account for funds, do not exceed requirements, and protect them from loss or misuse. It is management's responsibility to assess vulnerability and determine audit frequency in accordance with DoD Instruction (DoDI) 5010.40. Furthermore, policy mandates that managers must investigate and report any unauthorized use, irregularity, or improper accounting for a cash fund.

3.11 Defense Revolving Fund

The Defense Working Capital Funds (DWCF) FBwT (account 097X4930) is an intragovernmental revolving fund with five Treasury sub-accounts. Each sub-account entity and the activities below it must report their FBwT. The Defense-wide DWCF centralizes funds for Defense Agencies: entities with excess collections contribute to the pool, while those with excess disbursements draw from it. Additional cash management policy is in Volume 2. Program Managers may realign DWCF balances to activity or installation levels but are strictly prohibited from transferring more than the available balance at the transferring DWCF Sub-Allocation Holder Identifier (SAHI). Cash at the Treasury account level must always be sufficient to pay liabilities.

Revolving fund cash management responsibilities are detailed in Volume 2. Personnel must immediately investigate and report any transaction causing a negative balance as a possible ADA violation as prescribed in Volume 14 and 31 United States Code (U.S.C.) § 1341.

3.12 FBwT Transactions

3.12.1. The current FBwT equals the fiscal year's (FY) opening balance plus cumulative collections, appropriations, and transfers-in, minus cumulative withdrawals, transfers-out, and disbursements. Record a collection or disbursement when documentary evidence, such as a Treasury Statement of Differences (SOD) or a voucher, provides support. For Revolving Fund activities, 10 U.S.C. § 2208(m) mandates that Components segregate cash collections and disbursements between operating programs and capital programs. (Refer to Volume 2 for more details).

3.12.2. Record customer advances or prepayments as a liability, per SFFAS 1 and OMB Circular No. A-11. Offsetting collections credited to expenditure accounts automatically offset outlays and budget authority. For more information, refer to Volume 3.

3.13 Reconciliation Roles and Responsibilities.

3.13.1. Under Secretary of War (Comptroller) (OUSW(C)) ODCFO, Financial Systems Modernization and Innovation (FSM&I) Directorate is responsible for the design, development, operation, and maintenance of the Advana FBwT application (see Volume 1).

3.13.2. Defense Finance and Accounting Service (DFAS) is responsible for ensuring the accuracy and integrity of FBwT reporting and reconciliation. This includes a policy mandate for DFAS to ensure that information submitted to Treasury on the Standard Form (SF) 224 and SF 1219 for ALC/DSSNs where DFAS is the Designated Agent matches Treasury records. A key policy is that all Cash Management Report (CMR) reconciling items and variances must be cleared within 60 business days unless they are deemed immaterial in total, with materiality being defined by SFFAS 1 as an omission or misstatement likely to influence a reasonable person's judgment.

3.13.3. Components are responsible for the accurate management of their FBwT. This includes ensuring the accuracy of transaction information reported to Treasury on forms such as the SF 224 and SF 1219 for ALCs that serve as the Designated Agent. A fundamental policy is to ensure a valid LOA is present on all original obligating documents throughout the procure-to-pay process. Furthermore, the relationship between Components, FSM&I, and DFAS must be formalized through documented support agreements, such as Memorandums of Agreement (MOAs) or Service Level Agreements, in accordance with DoDI 4000.19.

3.13.4. Reconciliation Requirements

3.13.4.1. Treasury requires monthly reconciliation of FBwT accounts to Treasury-reported as outlined in TFM Volume I, Part 2, Chapter 5100 and its Supplement. At the same time,

audit issue guidance is provided in the Government Accountability Office (GAO)/ Council of the Inspectors General on Integrity and Efficiency Financial Audit Manual.

3.13.4.2. DoW Components, in conjunction with DFAS, must perform detailed monthly reconciliations of their FBwT accounts (USSGL 101000 and 109000). This reconciliation must be comprehensive, performed at the voucher level, and encompass all fiscal years, all fund types, all TI-097 SAHIs, and all activity, including suspense accounts. Policy dictates that Components acting as ALC Designated Agents are responsible for correcting any differences between their submissions to Treasury and DFAS within 15 business days of being notified. Furthermore, a key policy is that both DFAS and DoW Components must demonstrate they have effective controls in place to ensure that amounts reported to Treasury reconcile with both disbursing and accounting systems.

3.13.5. Treasury Budget Clearing (Suspense) Accounts

Budget Clearing Accounts are temporary TAS established by the Bureau of the Fiscal Service (BFS) to temporarily hold unidentified transactions with a reasonable presumption that the funds belong to a federal agency. A critical policy is that effective FBwT reconciliations depend on the timely clearing of these Treasury suspense accounts. Policy also dictates that DoW Components are ultimately responsible for maintaining transaction records in general ledgers.

3.13.6. Reconciliation of FBwT for Comparison of Transactions

3.13.6.1. The DoW must compare transactions at a detailed level sufficient to specifically identify differences when reconciling FBwT to support accurate FBwT general ledger accounts and Treasury totals.

3.13.6.2. Components must comply with all operational requirements and deadlines for transaction reconciliation. A monthly, voucher-level reconciliation is mandatory, with a strict deadline of 30 calendar days following the end of the month being reconciled. Policy requires that Components have established processes to assign, track, age, research, and resolve all differences monthly at the voucher-level detail. A key policy is that all undistributed amounts, suspense items, and SOD balances must be cleared within 60 business days. For any items exceeding this timeframe, it is policy that the reason for the delay must be investigated and documented. Finally, policy mandates that both Service Provider supervisory and Component reviews and approvals must be completed within 10 business days after all identified differences are resolved.

3.13.6.3. Components are required to address all critical areas and key control points in the end-to-end FBwT reconciliation process. A key performance indicator for this policy is that Components must achieve a 99 percent complete match rate each month for each of these key control points.

3.13.7. FBwT – CARS Account Statement Reconciliation

Component must reconcile transactions to the beginning balance, net activity, and ending balance on the CARS Account Statement. However, this specific policy requirement does not

currently apply to Defense Agencies and Field Activities that are part of shared TAS. For those TI-97 components, the policy is that they must reconcile their FBwT balances individually to the internal TI-97 CMR, with support from DFAS as their service provider. It is DFAS's responsibility under this policy to reconcile the totals of all TI-97 components to the Treasury.

3.13.8. Undistributed Collections and Undistributed Disbursements

3.13.8.1. Undistributed collections and undistributed disbursements must be recorded and reported at the lowest organizational level.

3.13.8.2. Undistributed transactions at the sub-account level must be researched and cleared within 60 business days, with no unidentified balances remaining at year-end. Policy also dictates that Component-level undistributed adjustments should be limited at year-end by completing all necessary research and reconciliation.

3.13.8.3. It is the policy of the DoW that DFAS must identify all collections and disbursements at the lowest identifiable level.

3.13.8.4. Undistributed collections and disbursements must accurately reflect the proper FBwT as contained in finance network reports.

3.13.9. Requirement for Written Procedures

Components must maintain current written SOPs, narratives, and process maps in accordance with the Managers' Internal Control Program (as outlined in DoDI 5010.40). This policy ensures the proper documentation of reconciliation processes. A key policy also requires that these SOPs include evidence of dated supervisory review and approval, certifying that it is correct and accurate. Furthermore, policy mandates that written procedures differentiate the journal entry for unsupported undistributed amounts from those that can be supported, as this practice is essential for efficient cash reconciliation management and audit support.

3.13.10. Expenditure and Receipt Accounts Annual Review

All expenditure and receipt accounts reported by the Treasury must be reviewed and validated annually to ensure the TAS are valid.

3.14 TI-97 Deposit Fund Liabilities

TI-97 Deposit Fund Liabilities Account Structures. Refer to the Volume 4 Supplemental.

3.15 FBwT Balances Brought Forward

Supporting FBwT Balances Brought Forward (formerly Annex 1). Refer to the Volume 4 Supplemental.

4.0 INVESTMENTS AND OTHER ASSETS

4.1 Accounting Policy for Investments and Other Assets

DoW investments and other assets must be recognized and recorded in accordance with SFFAS 1. Accounting events must be reported according to the requirements in TFM Chapter 4300 and OMB Circular A-136 using the accounting entries specified in the DoW Standard Chart of Accounts (SCOA) and Standard Financial Information Structure (SFIS) Transaction Library, unless otherwise stated.

4.2 Investments and Other Assets

DoW is authorized to invest in Federal securities, which include non-marketable par value Treasury securities, market-based Treasury securities, marketable Treasury securities, and securities issued by other Federal entities. Use "Other Assets" to record the value of assets not otherwise classifiable to a specific asset account. Establish applicable subsidiary accounts as necessary to meet management and reporting needs. Source documents for entries to this account include receiving reports and journal vouchers.

4.3 Nonmarketable Par Value Treasury Securities

Nonmarketable par value Treasury securities are special-issue debt securities that the U.S. Treasury issues to federal entities at face value (par value).

4.4 Market-Based Treasury Securities Expected to Be Held to Maturity

Market-based Treasury securities expected to be held to maturity are debt securities that the U.S. Treasury issues to federal entities without statutorily determined interest rates. Their prices and interest rates mimic the terms of marketable Treasury securities.

4.5 Market-Based Treasury Securities

Marketable Treasury securities, including Treasury bills, notes, and bonds, are initially offered to the public by the Treasury and can then be bought and sold on securities exchanges. Their bid and ask prices are publicly quoted by the marketplace.

4.6 Recognition of Investments in Federal Securities

The policy for accounting for securities dictates that when an acquisition is made in exchange for nonmonetary assets, the acquired securities must be recognized at the fair market value (FMV) of either the securities acquired or the assets given up, whichever is more definitively determinable. If the acquisition cost differs from the security's face value, it must be recorded at the acquisition cost, with any premium or discount treated as a contra account to the debt security. Specifically, Treasury securities are to be carried at their acquisition cost, adjusted for any amortization as explained in SFFAS 1. For all other investments, the policy mandates they be carried on the Balance Sheet at acquisition cost adjusted for the amortization of any premium or

discount, with two exceptions: market value must be used if there is an intent to sell the securities before maturity or if there has been a reduction in value that is considered more than temporary.

4.7 Disposition of Treasury Securities

DoW Components must maintain a subsidiary account for each trust fund that invests in U.S. Treasury securities. The disposition of a U.S. Treasury security may result in a gain or loss. A comparison of principal proceeds, the book value of a U.S. Treasury security, and any remaining unamortized premium or discount will determine whether there is a gain or loss. Unless otherwise provided for by law, securities held by DoW trust funds are U.S. Treasury securities. The Treasury issues no certificates.

4.8 Interest and Amortization

The disposition of a U.S. Treasury security may result in a premium or discount. If a premium or discount exists, the carrying amount, or original purchase cost, of the investments must be adjusted in each reporting period to reflect the amortization of the premium or discount. Premiums and discounts must be amortized over the life of the Treasury security using the interest method. The amount of amortization of discount or premium is the difference between the effective interest recognized for the period and the nominal interest for the period as stipulated in the Treasury security. Income derived from U.S. Treasury securities other than Treasury bills must be the interest stated on the face of the securities adjusted for the amortized premium or discount. For Treasury bills, the difference between the purchase price and the price received at sale or maturity is income. Source documents for entries to this account must include amortization schedules and journal vouchers.

4.9 Use of Other Investments

4.9.1. When authorized, an investment under the provisions of 10 U.S.C § 2875 may take the form of an acquisition of a limited partnership interest, a purchase of stock or other equity instruments, a purchase of bonds or other debt instruments, or any combination of such forms of investment.

4.9.2. The DoW is authorized to invest in joint ventures with private developers for military housing construction and improvement under the Military Housing Privatization Initiative (MHPI), in accordance with 10 U.S.C § 2875. These long-term partnerships, known as Public-Private Partnerships (P3s) or Alternative Financing Arrangements, are defined as risk-sharing arrangements or transactions lasting more than five years between public and private sector entities.

4.10 Reporting Other Investments

P3s for the MHPI can be financed through appropriated funds, non-appropriated funds, third-party financing, or private capital. All MHPI financing events and relevant disclosures must be reported in the DoW financial statements to ensure transparency regarding project financial conditions.

4.11 Recognition and Measurement of Other Investments

4.11.1. A comprehensive evaluation of each operating agreement and a full assessment of the relationship with each partner organization must be conducted for MHPI agreements and P3s. The evaluation will support the determination of the appropriate accounting treatment for each MHPI project. A majority ownership interest exists when an organization has over 50 percent of the voting rights or net residual assets. If an entity is expected to assume more than 50 percent of another entity's expected losses or gains, it should either consolidate or disclose that entity. Refer to SFFAS 47. An entity that effectively controls another through investment decisions and economic benefits, yet is exposed to less than 50% of its losses or gains, is generally subject to disclosure rather than consolidation. Military Departments are responsible for monitoring, reporting on, and disclosing the financial condition and significant risks of their equity investments in MHPI entities. Per SFFAS 47, an organization is considered a consolidation entity based on a holistic assessment of four main characteristics: it is (1) financed by non-exchange revenue, (2) governed by Congress or the President, (3) imposes risks and rewards on the federal government, and (4) provides goods and services on a non-market basis. Not all characteristics must be met for this classification. Entities that are deemed consolidation entities are considered federal reporting entities and must apply GAAP as defined by SFFAS 34.

4.11.2. After applying SFFAS 47 guidelines, disclosures for MHPI projects must be evaluated under SFFAS 49. Their purpose is to help users understand the nature and risks of P3s, direct loans, and loan guarantees. Disclosures for reporting entities must detail the nature of their relationship, the relevant activities during the period, and their future exposure to risks and rewards. Disclosure entities, which often provide goods and services on a market basis (i.e., at prices set in a competitive marketplace between willing buyers and sellers), differ from consolidation entities. Although the GAAP hierarchy for federal reporting may not fully apply, information from disclosure entities remains crucial for accountability and federal financial reporting objectives. Refer to SFFAS 49 for guidance. The Military Departments and DFAS must use established accounting transaction codes in the DoW Transaction Library to record the primary accounting entries to recognize P3 contributions and any collections received upon dissolution of an arrangement that are not available for use without further Congressional action. Refer to the tables within the procedural guidance. The Military Department is required to obtain all agreements and supporting documentation for its equity investments in MHPI Limited Partnerships (LPs) and Limited Liability Companies (LLCs). This documentation is essential for supporting operating, lockbox, and revenue agreements, as well as transactions related to investment dissolution, the sale of government shares, or any other financial activities involving DoW equity investments. Additionally, the Military Departments must provide the DFAS with details of any other financially impactful transactions. Refer to Volume 4 Supplemental, Tables 4-3 to 4-8, for more details. Footnote disclosures are also required, including equity-method income/loss, descriptions of termination or default events, and supporting documentation for each disclosure.

4.12 Ground Lease

A ground lease may be provided with property and cash to an LP/LLC to facilitate property development. This ground lease is not treated as a separate transaction from the initial property transfer because they are highly interdependent; the project's success relies on the lease, and the

commitment to build is a material inducement for the lease, often for a nominal rent. In accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 606, because the property transfer and ground lease are not distinct services, no separate accounting entries are required for the ground lease. Instead, the FMV of the ground lease is considered an integral part of the property's total FMV.

4.13 Recognition and Measurement of Direct Loans

See Volume 12 for additional guidance on the recognition and measurement of direct loans, the liability associated with loan guarantees, and the cost of direct loans and loan guarantees.

5.0 RECEIVABLES

5.1 Recognition

Receivables must be recognized in accordance with SFFAS 1. The Component must establish a receivable when it does not receive payment in advance or at the time it recognizes revenue. Receivables must be recorded during the month they are earned from the sale of goods and services or when an event determines a debt is owed to DoW. Accounting records for receivables must include all transactions that occurred during the reporting period. Any events not previously recorded due to error or oversight must be recorded immediately. Accounts receivable and unfilled orders without an advance must be recognized as valid budgetary resources when they are from other federal entities. Conversely, policy dictates that absent specific statutory authority, accounts receivable and unfilled orders without an advance from public/non-federal entities must not be recognized as valid budgetary resources. Components must maintain all supporting documentation for receivables within the applicable accounting system, and these records must be retained in accordance with the guidance in their DoW Component records retention requirements.

5.2 Advance Payments

In general, an advance payment is required for public orders, including state and local governments, except for fuel, as the sale of petroleum products to the public is covered by fuel purchasing agreements. An advance equivalent to the actual or estimated cost of goods and services must accompany the order. If amounts are sufficient, Military Departments may use their own appropriated fund budgetary resources to perform a reimbursable order for a NAFI without an advance. However, they must not recognize budgetary resources for the order until the account receivable is paid. An advance payment from foreign governments for FMS is held and recorded in the FMS Trust Fund or investment accounts that can be drawn on to meet the foreign government's FMS obligations. Under the statutory authority of 22 U.S.C. § 2767, the DoW may record a budgetary resource for non-federal orders without an advance. However, a critical element of this policy is that Components must receive prior approval from the OUSW(C) before accepting the order and recording the budgetary resource. Additional information regarding budgetary resources may be found in Volumes 3, 4, and 11 for DWCF's policy on receipt of advances on orders from public/non-federal entities.

5.3 Collection of Receivables

Proactively pursue the collection of all receivables from DoW Components, federal agencies, and the public. A receivable is normally due 30 days from the date of the invoice or demand letter, unless a different due date is established by statute, contract, or a notice of indebtedness. The responsible office must initiate collection actions as soon as payment becomes due. For more information on due process, refer to Volume 16. Funds must be collected in the appropriation that earned the funds, or in the case of a refund, into the appropriation from which the excess payment was made, unless otherwise specified by law. In accordance with 42 U.S.C. § 2651, amounts recovered from a liable third party for a service member's injury or disease must be credited to current operating funds. Funds recovered for medical care are credited to the facility that provided the care or activity that provided the care and treatment, while funds recovered for loss of duty are credited to the service member's assigned command, activity, or unit. In accordance with 10 U.S.C. § 1095, collections from third parties for medical services must be recorded in the fiscal year they are received, regardless of when the service was provided. Any agency that receives collections after an appropriation has been canceled must deposit them into Treasury Account 3200.

5.4 Allowance Account and Aging

The Component must estimate and record an allowance for uncollectible accounts receivable for both public and intragovernmental customers. However, policy explicitly states that no such allowance will be recorded for non-loan interest, penalties, or administrative (IPA) charges. The aging of receivables (delinquency) begins one day after the due date for both public and intragovernmental receivables.

5.5 Interest Penalties, and Administrative Receivables

The DoW assesses IPA charges on delinquent debts. The full amount of a delinquent debt is defined as the sum of the principal, accrued program interest, and any other penalties or administrative charges. Per 31 U.S.C. § 3717, interest must be recognized on outstanding accounts receivable against persons and entities. Policy dictates that interest accrues from the first day of delinquency and continues to accrue until it is officially waived or the debt is closed. However, debts owed by other federal agencies are exempt from these IPA charges. All interest receivables are to be classified as non-entity receivables. It is also a key accounting policy that companies must record an interest receivable when they earn the income, not when they receive it. The detailed IPA policy can be found in Volume 16.

5.6 Payment Application

The Federal Claims Collection Standards, 31 Code of Federal Regulations (CFR) 901.9(f), mandate the application of partial or installment payments.

5.7 General Ledger Accounting

Receivables must be developed, maintained, and reported using USSGL accounts, with the first six digits conforming to the USSGL chart. DoW mandates the use of its SCOA, which, along

with accounting transactions for collections and receivables, is detailed in the DoW USSGL Transaction Library available on the SFIS webpage.

5.8 Internal Controls

The DoW must adhere to the internal control standards prescribed in DoDI 5010.40 when establishing and collecting receivables. This includes maintaining major categories of receivables to ensure clear and full disclosure (debtor, amount, age, and type of debt). Policy requires that subsidiary records be reconciled to the control accounts monthly. Furthermore, it is policy that proper internal controls must ensure the accurate and timely recording of transactions, appropriate documentation and retention, authorization only by personnel acting within their scope of authority, and effective management. A critical policy mandates the separation of duties for authorizing, processing, recording, reviewing transactions, and handling related assets, ensuring no single individual controls all key aspects of a transaction.

5.9 Erroneous, Invalid, and Unsubstantiated Accounts Receivable

Adjust the accounting records and return any funds collected to the debtor if it is determined that no debt was owed and that it should not have been classified as accounts receivable. If a billing Component cannot produce the necessary evidence to establish a receivable and voluntary repayment is not obtained, it is policy to reverse the original entries. The Component must remove all erroneous, invalid, and unsubstantiated accounts receivable from the general ledger. Any internal control failures or process weaknesses identified during research must be addressed and corrected.

5.10 Canceled Appropriations

Accounts Receivable Offices (AROs) must retain all outstanding receivables in residual records even after an appropriation cancels. Even with canceled appropriations, the DoW must continue to pursue the collection of outstanding receivables. When a receivable is collected after its associated appropriation has canceled, the procedure dictates that the collection is recorded in Treasury miscellaneous receipt account 3200, "Collections of Receivables From Canceled Accounts."

5.11 Nonappropriated Fund Instrumentalities Receivables

Classify receivables from NAFIs as public transactions. A key policy is that, except for individual debt, delinquent NAFI debt will not be referred to the Debt Management Office (DMO) or to the Treasury for collection assistance. Refer to Volumes 13 and 16 for more information on NAFI debt.

5.12 Foreign Military Sales Receivables

Classify receivables from the FMS Trust Fund (appropriation 97 11X8242) as federal transactions, while other Security Assistance receivables, such as those from the Foreign Military Financing Program (appropriation 11(FY) 1082), are to be recorded and reported as

intragovernmental. A key policy is that delinquent FMS accounts receivable will not be referred to the DMO or Treasury for collection assistance. Refer to Volumes 15 and 16 for more information on FMS debt.

5.13 Non-FMS Foreign Government Receivables

The ARO will initiate initial billings for non-FMS foreign government accounts receivable. See Volume 16 for additional information.

5.14 Retention of Documentation

Supporting documentation for all actions taken on each accounts receivable must be maintained.

5.15 Undistributed Collection Balances

All undistributed collection balances held in Treasury suspense accounts F3875 and F3885 must be analyzed and reconciled monthly. Policy dictates that all differences must be cleared within 60 days, except for specific suspense accounts identified by Treasury as exempt from this requirement. For any items that remain unresolved beyond 60 days, it is policy to conduct an investigation and document the reason for the delay.

5.16 Public Receivables

Receivables due from the public are DoW claims (or claims from another federal entity) against non-federal entities, including individuals and organizations outside the U.S. Government. These receivables arise from sales of goods/services when no advance payment is received, or from refunds due to the DoW. Credit management and debt collection policies and procedures are delineated across several volumes of the DoW FMR. Specifically, Volume 16 addresses debt collection from individuals, and Volume 5 covers policies and procedures for the physical loss of funds, including investigations into accounts receivable resulting from improper payments. For collecting debts from military members or civilian employees through salary offset, refer to Volumes 7 and 8. These volumes also cover the collection of child support, alimony, or commercial debts via garnishment or involuntary offset. Commercial or contractor debt collection policies are in Volume 16 supplemented by the Federal Acquisition Regulation (FAR) Subpart 32.6, which prescribes procedures for contract debts, interest charges, deferrals, and compromises. Finally, policies for collecting debts from foreign entities are provided in Volume 16.

5.17 Receivables from the Sale of Goods and Services to the Public

Upon receiving a collection voucher, the ARO must record in accordance with the Volume 4 Supplemental.

5.18 Refunds Receivable

Refunds to appropriations represent amounts collected from outside sources for payments made in error, overpayments, or adjustments for previous amounts disbursed. These refunds must be directly related to previously recorded expenditures and serve as reductions to those expenditures. Policy dictates that there is no separate account for refunds receivable in the USSGL; instead, refunds receivable are treated as accounts receivable, and DoW Components must recognize and report them in their financial statements. Refunds received must be deposited to the credit of the appropriation or fund account that was charged with the original obligation. Examples of refunds receivable include, but are not limited to: salary overpayments; overpayments to commercial concerns due to erroneous billings, incorrect invoices, or contract default; amounts due for rejected/returned items; recovery due on canceled contractual services for unused portions; advance travel payments for canceled travel; amounts payable for "due U.S." travel vouchers; amounts due from advance payments for contractual purposes; and amounts due from employees on leave without pay for their share of benefits. Refer to OMB Circular A-11 for additional details.

5.19 Collection Actions

The DoW must age all accounts receivable to manage collection actions properly. A receivable is considered due 30 days from the date of the invoice or demand letter, unless a different due date is established by statute, contract, or a notice of indebtedness. Policy dictates that uncollected public vendor debts and individual out-of-service debts under $25 are not referred for further collection action and must be collected or written off within one year of delinquency, unless mandated otherwise by public law. In accordance with the Debt Collection Improvement Act and the Digital Accountability and Transparency Act, all valid and legally enforceable public receivables over 120 days are delinquent to the Treasury for collection. Several exceptions to this requirement include debts that are in litigation, part of an asset sales program, with a private collection contractor, collected via internal offset, or foreign government or NAFI debts. Terminating a collection action on a debt returned by the Treasury as uncollectible for debts under $100,000 requires coordination with the Fund Holder. For debts between $100,000 and $500,000, Treasury approval is required. For debts of $500,000 or more, termination of collection action must be approved by the Department of Justice. For additional detailed guidance, refer to Volume 16.

5.20 Establishment of Allowance for Loss on Accounts Receivable

5.20.1. AROs must recognize and record projected debt losses for public and intragovernmental accounts receivable in the general ledger by setting up an allowance for uncollectible accounts. This policy ensures that receivables are recognized at their net realizable value (NRV) by accurately estimating potential losses.

5.20.2. An allowance for estimated uncollectible receivable amounts must be recognized when it is "more likely than not" (meaning more than a 50 percent chance of loss) that the receivables will not be totally collected, as required by SFFAS 1. This policy applies to both intragovernmental and nonfederal/public entity receivables, as clarified by Technical Bulletin (TB) 2020-1. Furthermore, an allowance for loss on accounts receivable must be re-estimated annually and whenever new information indicates that the latest estimate is no longer accurate.

5.20.3. Losses due to uncollectible receivables must be measured through a systematic methodology based on an analysis of groups of receivables, with the option to isolate individual receivables for a separate allowance calculation. The total allowance for loss on accounts receivable will be the sum of these individual and grouped calculations. Any provision to increase or decrease this allowance will result in an adjustment to nonexchange revenue rather than a bad-debt expense. For receivables under $100,000, policy requires separating them into groups with similar risk characteristics. The methodology for determining the percentages applied to these groups must be based on the history of bad-debt expense over the last three years and applied consistently from year to year. Exceptions to this three-year average due to abnormal circumstances must be approved by the OUSW(C). For each receivable of $100,000 or more, the policy mandates an individual analysis to determine the loss allowance. Components with a low number of receivables or a large number of small dollar receivables may lower the $100,000 threshold for individual analysis, provided the methodology remains consistent.

5.20.4. For intragovernmental receivables, entities must not recognize an allowance for uncollectible accounts for debts up to and including two years delinquent. After two years, or if the debt is older, DoW policy mandates a 100 percent allowance for uncollectible intragovernmental accounts. For public debt, policy is to allow no allowance for uncollectible accounts (0 percent) for aging categories less than 90 days. Conversely, a 100 percent allowance is applied to public debt in aging categories with a maturity greater than 2 years. When one Component sub-allots funds to another, policy dictates that the Component executing the funds is responsible for establishing the allowance for loss on accounts receivable. Finally, it is policy that receivable write-offs must be processed through the allowance for uncollectible accounts.

5.21 Write-off and Close-Out of Public Accounts Receivable

According to governing policy, largely derived from OMB Circular A-129, any public delinquent debt that has not been collected within two years must be written off, unless a specific justification is documented and approved by OMB and Treasury. This policy strictly prohibits the write-off of intergovernmental receivables. To write off a public receivable, the Component must debit the allowance for uncollectible accounts and credit the receivable account; policy forbids a direct write-off. After a write-off, the debt must be classified as either "Currently Not Collectible" (CNC) or "Closed-Out." To be classified as CNC, a public debt must be $25 or more, all prior collection actions must have been pursued, and it must be deemed cost-effective to continue collection efforts. CNC debts must be maintained in an inactive administrative file, remain eligible for Treasury's collection programs, and continue to be reported on the Treasury Report on Receivables (TROR). Once a debt is closed out, it is considered final and cannot be reactivated, barring any further administrative or legal action, though the government can still accept voluntary repayments. Furthermore, the DoW is responsible for reporting these canceled debts to the Internal Revenue Service when they meet reporting criteria, with the DFAS Enterprise Solutions and Standards Vendor Pay Tax Office handling this for vendor and contractor debts. Refer to Volumes 4 and 16 Supplemental documents.

5.22 Intragovernmental Receivables

5.22.1. Receivables due from DoW Components or other federal entities are intragovernmental receivables and must be reported separately from receivables due from public entities in the financial statements. All materials sold or services furnished between government entities must be formally authorized and documented in a support agreement. Any uncollected amounts from these reimbursable sales are to be recorded as accounts receivable. A key policy distinction for these intragovernmental transactions, governed by the Economy Act, is the handling of budgetary resources. Unlike orders from non-federal entities, DoW organizations with reimbursable authority may recognize a budgetary resource immediately upon accepting a funded order from another federal agency. This is because the customer agency obligates its own funds at the time of order placement. Consequently, this policy allows DoW organizations to incur obligations to fill such orders without requiring an advance payment or burdening their own budgetary resources. Refer to Volume 11 for more information on intragovernmental receivables.

5.22.2. DoW Performing Entity Responsibilities

The performing entity (seller) is fundamentally responsible for ensuring that all costs for completed work are promptly recorded as revenue and receivable, and that these amounts are quickly billed and collected from the ordering entity. This policy of timely recording is critical to enable Treasury to perform its required intragovernmental eliminations. Furthermore, a critical policy prohibits DoW activities from performing new reimbursable work for any federal agency that is 90 days or more in arrears on previous payments; however, this restriction can be waived by the OUSW(C) if deemed in the national interest. Policy also dictates that any disputed charges be reviewed promptly and that all obligations and accrued expenditures be supported by a reimbursable agreement or other proof of payment due. For detailed accounting guidance, personnel are directed to refer to official manuals such as the TFM Volume 1.

5.22.3. DoW Ordering Agency Responsibilities

The ordering agency has the primary responsibility for ensuring that all charges for a performing activity are valid. This means amounts due must directly correspond to the reimbursable orders and must be substantiated by a supporting order, contract, and evidence of performance. A key policy is that any identified internal control failures or process weaknesses discovered during research must be formally addressed and corrected to prevent future errors. All evidence from this research must be documented and maintained by the organization.

5.22.4. Management of Collection Actions

All aging accounts receivable transactions are eligible for collection actions, with the delinquency date set to one day after the initial due date. All charges from transactions within the DoW or with other federal agencies must be recorded as accounts receivable in the month they are earned. To streamline billing, DoW prohibits providers from accepting G-Invoicing Inter-Agency Agreement Forms 7600A/B if the interfund billing system can be used, and it forbids manual billing unless specifically approved by the Deputy Chief Financial Officer (DCFO). Regarding disputes, a buyer is generally prohibited from charging back or rejecting a charge unless authorized by the formal dispute resolution process. An exception exists for Intra-Governmental Payment

and Collection (IPAC) transactions, which can be rejected within 30 days, but only for four valid reasons: billing for more than the agreed amount, duplicate/erroneous billing, lack of supporting documentation, or an expired 7600A/B or appropriation. For transactions outside the DoW, IPAC is the preferred billing and collection method. If an IPAC transaction is rejected, policy requires that the receivable be reestablished and that adjustments be made to the appropriation's FBwT.

5.22.5. Non-Interfund Dispute Process

5.22.5.1. The ARO is responsible for managing all intragovernmental debt within the DoW, a process overseen by the OUSW(C). A critical policy is that this type of debt cannot be referred to an external debt collection activity. The full settlement of any disputed charge must be completed within a strict 180-day timeline from the date of the original charge. For disputed amounts of $2,500 or less, the buyer may accept the charge without dispute or dispute it only if the process is cost-effective. For larger disputes, the buyer and seller work together for the first 60 days to find a solution, with assistance available from DFAS. If unresolved, the buyer assembles a formal dispute package for the seller with assistance from DFAS. If a dispute resolution concludes that the buyer does not have to pay, the seller must adjust their financial records accordingly: for current fiscal year activity, revenue must be decreased, expenses and direct obligations must be increased; for material receivables from a prior year, a prior period adjustment must be used; and for immaterial prior year receivables, current year revenues can be reduced.

5.22.5.2. Disputes between the DoW and other federal agencies must be handled in accordance with I-TFM-2-4700. Dispute resolution will involve the program offices, the accounting offices, the contracting officer, and the agency's CFO, as appropriate. A MOA will be signed by the CFOs of each department and agency to acknowledge that department's or agency's active participation in the dispute resolution process. All disputes must be documented in writing with clear reasoning. Trading partners are strictly prohibited from charging back or rejecting transactions that comply with I-TFM-2-4700, and they may not create new transactions to circumvent it. Disputes are categorized into two types: those arising from differing accounting treatments and those from contractual disagreements. A key policy for contractual disputes is that the buyer may establish a monetary threshold of no more than $100,000 per order. If a disputed amount is under this threshold and the buyer chooses not to pursue the dispute, they are obligated to pay the amount. Missing indicative data (such as order numbers, TAS, BETC, amounts, or BPN numbers for both trading partners) on a transaction constitutes a valid cause for a contractual dispute.

5.22.5.3. DoDI 1015.15 requires certain categories of NAFIs to reimburse appropriated funds (APF) for goods and services provided. This relationship must be formalized in a reimbursement agreement, such as a Memorandum of Understanding, and signed by authorized representatives from both the APF and NAFI. At a minimum, this agreement must define either the fixed price for the goods and services or the methodology for determining that price. Policy dictates that the due date for any bill is 30 days from the bill's date. A key financial policy is that while Military Departments may use their own appropriated funds to perform work for a NAFI without an advance, they are prohibited from recognizing any budgetary resources for that order until the NAFI has actually paid the account receivable.

5.23 Reporting Receivables Due From the Public

Components must submit the quarterly TROR. The ARO, in conjunction with the Component, must report public receivables in accordance with the TROR guidance on the Treasury website.

5.24 Reporting Receivables in DoW Financial Statements

Accounts receivable must be reported on the quarterly financial statements. A key aspect of this policy is ensuring data integrity through reconciliation. Public accounts receivable balances reported on the financial statements must be reconciled with the corresponding balances in the Governmentwide Treasury Account Symbol (GTAS) system (non-Federal attribute). These balances must also be reconciled with the amounts reported on the TROR. Furthermore, a fundamental policy for consolidated reporting is that all intragovernmental accounts receivable balances must be eliminated.

5.25 Crediting and Accounting for Disputed Collections Under the Contract Disputes Act of 1978

5.25.1. When a contractor pays a debt but simultaneously disputes it (or indicates they will), that collected amount cannot be accounted for as a final settlement. As soon as a collection is made under a disputed status, interest, penalties, and any other administrative fees immediately cease to accrue. A designated Treasury deposit account must be credited with the collected funds and hold them pending the final disposition of the contractor's dispute. Furthermore, there must be continuous, mutual communication among the responsible disbursing officer, the DMO, the contracting officer, and any other relevant authorities regarding all actions affecting these disputed collections.

5.25.2. In accordance with 10 U.S.C. § 3863, disputed collections received and credited must be separately accounted for and remain available, regardless of the closing of an appropriation or fund account, for payment of any settlement of the claim by the parties, any judgment rendered in the contractor’s favor on an appeal of the decision on the claim to the Armed Services Board of Contract Appeals (ASBCA), or any judgment rendered in the contractor’s favor in an action on that claim in a court of the U.S. Availability of the disputed collection expires 90 days after the expiration of the period for bringing an action on that claim in the U.S. Court of Federal Claims under section 41 U.S.C. § 7104(a), if within those 90 days, no appeal on the claim is commenced at the ASBCA and that no action on the claim is commenced in a court of the U.S.

5.25.3. If not expiring, then availability of the disputed collected amounts expires in the case of a settlement of a claim, 90 days after the date of the settlement or in the case of a judgment rendered on the claim in an appeal to the ASBCA or an action in a court of the U.S, 90 days after the date on which the judgment becomes final and rendered not appealable.

5.25.4. While a disputed amount is being separately accounted for, it can only be obligated or expended for the purpose of settling that specific claim. If it is determined that all or part of the collection is repayable to the contractor, including payment or adjustment of interest or fees,

whether by settlement or judgment, that amount must be disbursed promptly to the contractor. This includes prompt reimbursement to the Treasury Judgment Fund, if applicable. The foregoing disbursed amounts must be charged to the deposit account X6501. A critical financial policy dictates the source of funds for interest payments: any interest that has accrued since the collection and is ordered to be paid as part of the final resolution must be charged to a currently available appropriation account.

5.25.5. Upon the expiration of the availability period for a disputed collection, any funds that have not been obligated or expended must be withdrawn and credited to the appropriate accounts. If an amount was credited to the deposit account for an appropriation or fund account that closed for reasons other than those described under 31 U.S.C. § 1552(a) or 31 U.S.C. § 1555, then the principal amount collected must be properly credited to that appropriation or fund account and an adjustment made of the amounts of the contract(s) for which the disputed collection arose. Any amounts for interest and fees must be credited to the appropriate Treasury Miscellaneous Receipts accounts. A core principle of this policy is that the records for the closed appropriation and any associated unclosed contracts must be adjusted to accurately reflect the outcome, ensuring that all obligated and unobligated balances are correct.

6.0 INVENTORY AND RELATED PROPERTY

This section provides DoW accounting guidance for inventory, Operating Materials and Supplies (OM&S), and stockpile materials. Management must ensure that all related transactions are recorded in the general ledger in accordance with requirements from the Department of the Treasury and other federal mandates. Furthermore, adequate supporting source documentation, such as contracts, invoices, and receiving reports, payment vouchers, material-return documents, transfer documents, inventory documents, issue and shipping documents, sales records, and documented gains and losses, must be retained for all entries. Tangible items with a useful life of two or more years not intended for consumption or sale in the ordinary course of operations and intended to be used or available for use are classified as General Equipment. Refer to Volume 6 for detailed requirements on preparing and presenting notes to the financial statements for Inventory and Related Property. Except for provisions related to the National Stockpile Fund (NSF), all of the provisions in this section apply to the Working Capital Fund (WCF). Except for provisions related to Inventory, Supply Management Activities, and Stockpile Materials, all provisions in this section apply to the General Fund (GF).

6.1 Valuation Concepts

6.1.1. Historical cost includes all appropriate purchase, transportation, and production costs incurred to bring items to their current condition and location and excludes abnormal costs. Abnormal costs are expenses that significantly exceed the standard cost to purchase and place a new item with similar features and useful life into service (e.g., excessive handling, expedited delivery, and rework costs due to defects or errors). Expense abnormal costs in the period in which they are incurred. For donated, repaired, or remanufactured items, policy dictates that the Component must value them at their fair value when they become serviceable. Recognize differences between fair value and any amounts surrendered in exchange for the item as a gain or loss.

6.1.2. Inventory valuation requires that ending balances and the cost of goods sold must be determined by applying one of three cost flow assumptions: First-In, First-Out; Weighted Average Cost; or Moving Average Cost (MAC). As a policy alternative, any other valuation method compliant with Generally Accepted Accounting Principles (GAAP) is permissible, provided that its results reasonably approximate one of the three specified historical cost methods.

6.2 Net Realizable Value (NRV)

DoW Components must write down the value of any inventory, OM&S, or stockpile materials that are classified as Excess, Obsolete, and Unserviceable (EOU) to their expected NRV. Excess stock exceeds the demand or requirements for normal operations. Stock becomes obsolete when changes in technology, laws, customs, or operations make it unusable, while damaged stock is considered unserviceable if disposal is more economical than repair. In these cases, as well as for stockpile materials experiencing permanent decline, damage, or decay, DoW Components are required to write down their value to the estimated NRV. NRV is defined as the estimated recoverable amount from selling or disposing of an item, after accounting for any associated costs. It is also policy that when items are transferred to the Defense Logistics Agency (DLA) Disposition Services (except those handled through a Qualified Recycling Program), the NRV is generally considered to be zero, as no proceeds are typically received. Refer to Defense Logistics Manual 4000.25 for details on how to dispose of EOU using DLA Disposition Services.

6.3 Held for Repair

Inventory or OM&S Held for Repair may be accounted for using either the Allowance Method or the Direct Method. Regardless of the method chosen, a core policy is that management must retain supporting documentation for the estimated repair costs, in accordance with their DoW Component records retention requirements. Refer to Volume 4 Supplemental for information on the approved methods.

6.4 Alternative Valuation Methodologies for Establishing Opening Balances

6.4.1. An alternative valuation method, guided by SFFAS 48 and Technical Release (TR) 18, is available for establishing opening balances for Inventory, OM&S, and stockpile materials. However, this option can be used only once per line item for each reporting entity and is intended solely to establish and document those initial balances. For serially managed items, such as grocery and household product inventories, the specific identification method may be used. Using this method, the Component directly links each identifiable item to its precise cost. Before using this alternative method, a DoW Component must validate that it is fully prepared to comply with all accounting requirements, including the recognition, measurement, presentation, and disclosure rules outlined in SFFAS 3.

6.4.2. When a component cannot apply the historical cost approach outlined in SFFAS 3 to establish opening balances for inventory, OM&S, or stockpile materials, it is acceptable to use a "deemed cost" as a substitute for the reporting period. Deemed cost is an acceptable valuation method for the reporting period when the reporting entity makes an unreserved assertion that its financial statements, or one or more line items within inventory, OM&S, and stockpile materials,

are presently fairly in accordance with GAAP. An unreserved assertion is an unconditional statement. Deemed cost may be determined using a variety of methods, including Standard (Selling) Price, Fair Value, Latest Acquisition Cost, or Replacement Cost. It can also be based on an Estimated Historical Cost, which uses reasonable estimation techniques, or the Actual Historical Cost, which is the original price paid for the asset. See Volume 4 Supplemental for more information on these methodologies.

6.4.3. When using a deemed cost to establish opening balances, a component must identify and report all valuation methods in its financial statement notes and retain supporting documentation, including any necessary sampling techniques. A critical step is to adjust any existing gains or losses in related allowance accounts to zero. Once established, this new opening balance is considered consistent with SFFAS 3 requirements and is integrated into ongoing inventory calculations, such as a MAC, with no future distinction required. Record the difference between the prior value adjusted for any related allowance account value and the new deemed cost must be recorded as a prior period adjustment due to a change in accounting principles, with the adjustment made to the beginning balance of cumulative results of operations in the statement of changes in net position for the period that the change is made, in accordance with the reporting requirements under paragraph 13 of FASAB SFFAS 21. Finally, the nature of this change and its effect on balances in the current period must be disclosed in the financial statements, but this disclosure need not be repeated in subsequent periods unless the statements are presented for comparative purposes.

6.5 Inventory - (Applicable to WCF Only)

6.5.1. Recognition of Inventory

Components recognize inventory at the point they receive title or take delivery of the goods, as specified by the contract or agreement. Title may be received at the origin (FOB shipping point) upon shipment, or at the destination (FOB destination) upon physical delivery. Additionally, constructive delivery can occur when contract terms stipulate that title has been transferred to the recipient even before the physical items arrive.

6.5.2. Reconciliations

All Components are required to maintain accurate inventory records, necessitating a comprehensive reconciliation between their general ledger inventory line items and detailed inventory accountability records at least quarterly. This policy further dictates that all such reconciliations must encompass data from all relevant Enterprise Resource Management system modules (such as Warehouse, Inventory, and Financial Management) and extend to all inventory owned by the entity, irrespective of its physical custody (e.g., inventory managed by contractors or the DLA). A fundamental policy outcome is that any discrepancies identified must be researched and resolved in a timely manner, and that, subsequently, appropriate system and business process controls must be implemented to reduce future errors proactively.

6.5.3. Physical Inventory Counts

Activities are required to conduct physical counts of their inventories at least annually, generally as of the fiscal year-end, in accordance with the Defense Logistics Management Standards Volume 2. Note that auditors will likely attend and observe counts for any inventories that management has deemed material. Following the count, the general ledger must be adjusted to reflect any differences found between the ledger balances and the physical inventory. All adjustments must be supported by developed and maintained audit documentation. For inventory held by contractors, the necessary documentation, such as receipts, shipments, losses, and disposals, is available in the Procurement Integrated Enterprise Environment Government Furnished Property Module. Invoices occasionally list fewer or more items ordered than the actual count of inventory items received. If resolving the difference is not economical, record a loss or gain.

6.6 War Reserve Materiel (WRM)

WRM is a strategic stockpile of essential items and munitions intended to sustain military operations until resupply is available. This inventory includes operating and training stocks in addition to regular peacetime assets. Financially, WRM is primarily funded through direct appropriations to the WCF; however, critical items such as ammunition and major end items are funded through the procurement appropriations of the Components and Defense Agencies. Although it is held in reserve by DoW Components, its acquisition and storage are indistinguishable from regular inventory. The policy allows for this materiel to be transferred to the U.S. Armed Forces without reimbursement to meet mobilization needs, and it also permits DoW Components to sell WRM if authorized. The value of these reserve items is recorded using the same accounting principles as peacetime inventory.

6.7 Work-In-Process

WCF manufacturing activities must record all operating costs for tasks lasting more than one month in a "work-in-process" (WIP) account. This is required to accurately segregate long-term costs from current period expenses, ensuring compliance with GAAP. The inventory WIP account is used to accumulate all direct and indirect costs, including General & Administrative expenses, required to complete a job or customer order. Related costs attributed to an order include costs for additions, alterations, improvements, rehabilitations, and replacements of fixed assets; maintenance costs; manufacturing or fabricating costs for an end item or product; and costs of producing an output. Upon completion or termination of an order, all related costs must be transferred out of the WIP account, and billing must occur immediately, regardless of customer acceptance. A gain or loss must be recognized if the final costs differ from customer funding, and any probable losses must be recognized proportionally over the life of the contract. If an order terminates prior to completion, the Component must expense the accumulated costs.

6.8 Supply Management Activities - (Applicable to WCF Only)

6.8.1. Supply Management Activities manage inventory held for sale to other DoW Components or activities and items procured for sale to members of the Armed Forces and other individuals or organizations when authorized by legislation, including the Army, Navy, Air Force,

DLA, and the Defense Commissary Agency for commissary resale. This guidance also applies to DLA Disposition Services, which handles redistribution or disposal of items, including sales to the public and other Federal customers. Examples of items managed by supply management activities include food, military clothing, fuel, and preventive medicine. Supply Management Activities also cover Depot Maintenance or Industrial Operations activities that use items to produce goods or services for a fee. The USW(C) and the Under Secretary of War for Acquisition and Sustainment (USW(A&S)) may designate items for procurement by supply management and reassign management responsibility between DoW Components.

6.8.2. A supply management activity is authorized to sell items to a broad range of entities, including other federal government activities, DoW-sponsored nonappropriated funding programs, and State Department-sponsored employee commissaries located outside the U.S. Sales are also authorized for foreign governments with established contractual relationships, federal government contractors holding specific purchasing contracts or utilizing the Replenishment Parts Purchase or Borrow Program, and members of the Armed Forces and other individuals legally authorized to purchase commissary and clothing items. Additionally, the activity can sell to private-sector purchasers, state or local governments purchasing non-excess property, provided such sales are authorized by law, and to any other entity specifically authorized by duly appointed officials. Refer to 40 U.S.C. Chapter 5, Section 503.

6.9 Issues Without Reimbursement

6.9.1. Issue or Transfer. DoW Components may not issue or transfer a supply management activity item without a funded customer order unless specifically authorized in the following section. DoW Components will not account for these events in the same manner as a normal sale, except when they need to establish an allowance for loss on accounts receivable.

6.9.2. Domestic Civil Emergency. DoW officials may issue a supply management activity item without immediate reimbursement when they provide an immediate response to save lives, prevent human suffering, or mitigate great property damage within the U.S. by temporarily employing the resources under their control in accordance with DoD Directive (DoDD) 3025.18.

6.9.3. Civil Disturbances. Upon specific authorization by the President in accordance with applicable law, a supply management activity may issue an item without immediate reimbursement when action is taken to control a civil disturbance in accordance with the policies and procedures provided in DoDD 3025.18.

6.9.4. Foreign Disaster Relief (FDR). A supply management activity item may be issued without immediate reimbursement when the State Department is responsible for initiating and financing FDR efforts, as authorized by the Foreign Assistance Act of 1961. Within the DoW, the Director of the Defense Security Cooperation Agency (DSCA) serves as the lead for the FDR program's management and budget matters. Furthermore, the Commander of the U.S. Transportation Command is responsible for ensuring that DoW activities can support the transportation requirements of FDR operations. All procedures related to issuing supply management materiel for FDR are to be performed in accordance with DoDD 5100.46.

6.9.5. North Atlantic Treaty Organization (NATO) Country. A NATO country may receive a supply management activity item without reimbursement under a replacement-in-kind arrangement. Nonreimbursable issues under this authority are changed to a reimbursable activity within 12 months if not replaced by the NATO country.

6.9.6. Military Emergency. Under emergency provisions in 10 U.S.C. § 127, the Secretary of War (SecWar), the Inspector General of the DoW, or the Secretary of a military department (within their department) may issue a supply management activity item without immediate reimbursement. The issuing Secretary or the Inspector General may certify the amount of any advisable expenditure without specifying it, and this certificate suffices to cover the expenditure. The SecWar may waive the description requirement due to extraordinary circumstances affecting the national security of the U.S. When funding becomes available to cover the costs of the emergency, the supply management activity receives reimbursement for outstanding accounts receivable.

6.9.7. War Reserve Assets (WRA). A supply management activity may issue an item designated as WRA, without a funded customer order, when it has approved the issuance to satisfy the requirements for mobilizing the U.S. Armed Forces.

6.9.8. Deficiencies in War Reserve Requirements. A supply management activity item may be issued, without reimbursement, when an item is issued to satisfy war reserve requirement deficiencies or between activities within the supply management activity.

6.9.9. Items Nearing End of Shelf Life. If a supply management activity item is not a WRA, the personnel responsible may issue the item at any price or without reimbursement when the item has 6 months or less of remaining shelf life, and the item manager approves the item to be issued on a less-than-cost basis.

6.9.10. Logistical Management Transfers. Logistical management transfers or reassignments occur when funding appropriations for an item change.

6.9.11. Logistical Management Transfers Between Supply Management Activities. Supply management activities transfer inventory on hand without reimbursement. However, wholesale and retail supply activities are authorized to reimburse each other when on-hand retail inventory is transferred back to the wholesale item manager's inventory control points, in accordance with DoW credit policies.

6.10 Loans and Leases

6.10.1. Supply management activities may only lend or lease items specified in this section for the stated purpose. Accountability for inventory on loan remains with the activity that lends the material, and it is valued in the same manner as inventory on hand. The recipient must cover all transportation, packing, crating, and handling costs associated with borrowing or leasing the item. Additionally, the recipient must pay all costs necessary to restore the item to its original condition upon returning it, or pay for the item if it is not returned within the approved loan or lease period.

6.10.2. Property may be lent or leased to the following recipients:

6.10.2.1. DoW Funded Customers. Supply management activities may lend an item to a DoW funded customer for a maximum of 120 days to support an approved training exercise, a military emergency, or a natural disaster.

6.10.2.2. U.S. Secret Service. Supply management activities may lend an item to the U.S. Secret Service for a maximum of 120 days for purposes prescribed under the policies and procedures in DoDD 3025.13.

6.10.2.3. Civilian Law Enforcement Officials. DoDI 3025.21 prescribes the DoW regulations for supporting civilian law enforcement agencies, ensuring such support is consistent with military preparedness and legal limitations. The Under Secretary of War for Policy governs the defense support of civilian law enforcement agencies and coordinates policy with Federal departments and agencies, State, local, and tribal agencies, and DoW Components. Supply management activities may lend equipment, base facilities, or research facilities to a civilian law enforcement activity for up to 120 days for purposes prescribed by the policies and procedures in DoDI 3025.21.

6.10.2.4. State and Local Governments. Supply management activities may lend an item to a state or local Government for up to 120 days for a specific purpose, per DoDI 3025.21.

6.10.2.5. National Veterans' Organizations. Supply management activities may lend items (e.g., cots, blankets, pillows, mattresses, bed sacks, and other supplies) to a recognized national veterans' organization to support a national or state convention or a regional youth athletic or recreational tournament sponsored by the veterans' organization under the authority of 10 U.S.C. § 2551.

6.10.2.6. American National Red Cross. Supply management activities may lend an item to an organization formed by the American National Red Cross for instruction and practice needed to aid the Army, Navy, or Air Force in time of war under the authority of 10 U.S.C. § 2552. Supply management activities require the immediate return of equipment loaned.

6.10.2.7. Inaugural Committee. Supply management activities may lend an item to the Presidential and the congressional Joint Inaugural Committee to support an inauguration of the President of the United States for a maximum period of nine days beyond the inauguration ceremony under the authority of 10 U.S.C. § 2553.

6.10.2.8. Boy Scout Jamborees. Supply management activities may lend cots, blankets, commissary equipment, flags, refrigerators, and other equipment to the Boy Scouts of America for the use of Scouters and officials attending any national or world Boy Scout Jamboree under the authority of 10 U.S.C. § 2554. Services and expendable medical supplies may be furnished without reimbursement.

6.10.2.9. Shelter for the Homeless, Incidental Services. Under 10 U.S.C. § 2556, the Secretary of a Military Department may make installations available to shelter the homeless in

cooperation with state, local, and charitable organizations. Incidental services such as utilities, bedding, security, transportation, facility renovations, minor repairs, and property liability insurance can also be provided, provided they do not interfere with military preparedness. Excess DoW items can only be issued to shelters.

6.10.2.10. Humanitarian Relief. Supply management activities may make nonlethal excess supplies available for transfer to the Secretary of Homeland Security for its distribution for humanitarian relief, domestic emergency assistance, and homeless veterans' assistance under the authority of 10 U.S.C. § 2557.

6.10.2.11. Foreign Countries or International Organizations. Supply management activities may lease or loan an item to an eligible foreign country or international organization under the authority of the Arms Export Control Act. The Director, DSCA, oversees DoW's worldwide security cooperation efforts, ensuring the timely transfer of defense articles and services to meet strategic objectives. DSCA also holds fiduciary responsibility for the financial management of the FMS Trust Fund and reporting for its security cooperation programs. Refer to Volume 15 and DoDD 5105.65.

6.10.2.12. Other Leases. Supply management activities may lease or loan a non-excess supply management activity item to an organization when the SecWar or the Secretary of a Military Department has determined that the item is under control of the Secretary, not needed for DoW use during the proposed lease period, and the lease will promote the national defense or public interest under the authority of 10 U.S.C. § 2667. The lease may not exceed five years, unless the Secretary concerned determines that a lease for a longer period will promote national defense or be in the public interest. Additional lease conditions are covered within Volume 12.

6.11 Government Furnished Material (GFM)

GFM may be issued by the item manager to a contractor, another DoW, or a Federal government activity to be maintained as stock for issue, consumption, or repair. When the Component issues GFM to a contractor, the GFM becomes subject to the requirements of the FAR and Defense Federal Acquisition Regulation Supplement.

6.12 Supply Management Activity Transfers

6.12.1. Assistant Secretary of War for Sustainment oversees procedures to optimize supply support resources between providers and customers, establishes integrated materiel management processes to reduce redundant items, and provides timely support to customers.

6.12.2. Transfers In Without Reimbursement. A supply activity may assume management responsibility and capitalize supply inventories that were financed by other appropriations and funds as permitted by 10 U.S.C. § 2208 and DoD Manual (DoDM) 4140.26. A supply management activity may receive capital from the SecWar by capitalizing inventories but not make credits to an appropriation-funded activity for capitalized inventories as provided in 10 U.S.C. § 2208. However, stock withdrawal authorizations may be approved.

6.12.3. Transfers of Reimbursable Procurements. The supply management activity may record a liability for an item transferred from a non-WCF account only if (1) the item is undelivered at the time of the transfer, and (2) the transferring organization's obligation for the item resulted from a reimbursable order from a customer. The customer must transfer appropriated funds to the supply management activity to liquidate the liability.

6.12.4. Stock Withdrawal Authorizations. A transferring activity may not have funds to purchase an item after transferring an item from an appropriation-funded activity to a supply management activity. Therefore, the transferring activity may request that the USD(C) approve an authorization for issues without reimbursement, as part of the formal budget submission to Congress. The supply management activity must issue items on a reimbursable basis when the fiscal year has passed. The supply management activity must record a stock withdrawal authorization as a transfer-out, a reduction of inventory held for sale, and the difference is reported as a realization of holding gain/loss.

6.12.5. Logistical Management Transfers. Logistical management transfers occur when changes are made to the funding appropriation for an item.

6.13 Depot Level Reparables

6.13.1. Reparables are items that have reached the end of their lifecycle but can be restored or remanufactured. Reparables are considered when the computed inventory level requirements are met. The Department's depot-level repair program for inventory replenishment and resale acts as a remanufacturing process for financial management and accounting purposes.

6.13.2. Exchange Transaction. Many DoW Components obtain items for remanufacturing through an exchange transaction. In this transaction, they sell a serviceable item at the standard price in exchange for (1) cash and (2) an item that needs rebuilding or repair (carcass). The supply management team may record two separate transactions to represent the financial event or bill the customer at the exchange price, which is the standard price minus any credit if the requisitioning activity states that a reparable item will be returned. If the impaired item (carcass) has not been received at the time of the exchange, the organization records the item as "Inventory Held for Repair (Remanufacture Due In)." Serviceable Depot Level Reparables are recorded at historical cost. If the customer does not return a reparable item within 90 days of the exchange sale for continental United States (CONUS) customers or within 120 days for customers outside the continental United States (OCONUS), the supply management team must reverse the credit they previously allowed and bill the customer.

6.13.3. Supply management activities may place orders and obligate funds for repair/remanufacture work placed with a contractor or a government repair facility. The carcass will remain in the Supply Management activity "Inventory Held for Repair (Remanufacturing)" account while the item is repaired/remanufactured.

6.13.4. The Department's depot-level repair program for inventory replenishment and resale acts as a remanufacturing process for financial management and accounting purposes.

6.14 Return of Items to the Supply Management Activity

6.14.1. A customer within the Federal Government, including DoW contractors, may return an item to a supply management activity according to 22 U.S.C. § 2761. The proceeds will be credited to current applicable appropriations and will be available for expenditure for the same purposes as those appropriations. Customers cannot receive inventory credits for returns because inventory is capitalized.

6.14.2. The Arms Export Control Act permits the return of defense articles from a foreign country or international organization under specified conditions if the defense article was previously transferred to that country or organization under 22 U.S.C. § 2761, is not significant military equipment (as defined in 22 U.S.C. § 2794), and is fully functioning without needing repair or rehabilitation.

6.14.3. According to 10 U.S.C. § 2208(g), a department, activity, or agency may return supplies to working-capital funds, and it can charge the appraised value to that working-capital fund.

6.14.4. An item manager may grant credit for a returned item after receipt, inspection, and classification of the item. A return that stratifies to a war reserve inventory requirement does not qualify for credit. The amount of the credit for the return of a fully serviceable consumable or reparable item or the return of a carcass when not part of an exchange transaction and within the approved acquisition objective level must not exceed the current standard price of the returned item less the current fiscal year's approved cost recovery elements. If the supply management activity granted credit before taking ownership or receiving the returned item, and if the item is not received within 90 days from a CONUS customer or 120 days from an OCONUS customer, the supply management activity must bill the customer for the credit it previously recorded. Additionally, the stockage point may choose to bill the customer for costs incurred due to the non-receipt of the item. The supply management activity may grant a credit to a customer at standard price for defective items when a customer's quality deficiency report has been validated, including specification defects. Credits may be applied against future customer demands for items in the current fiscal year, or credited directly to the customer's current-year available funds.

6.14.5. The supply management activity must fund transportation and other shipping costs for items approved for return from customers. Shipping costs include packing, crating, handling, transportation, port loading, and unloading. The supply management activity must not fund shipping and transportation costs for items that have not been approved for customer return.

6.14.6. Return of an item, whether issuable or not issuable, reverses the sale's effect on the Cost of Goods Sold. Activities record receipt of a returned item regardless of whether the customer receives credit.

6.15 OM&S - (Applicable to General Fund (GF) and WCF)

6.15.1. OM&S Types

6.15.1.1. OM&S consists of tangible personal property that organizations consume in their normal operations. Title 41, section 101-8.705 of the CFR defines a normal operation as the "operation of a program or activity without significant changes that would inhibit meeting objectives". OM&S applies to GF and WCF. OM&S includes Held for Use, Held in Reserve for Future Use, EOU, Held for Repair, In Development, In Transit, and Long Range Ballistic Missiles (LRBM). OM&S excludes inventory, stockpile materials, and items acquired for use in constructing real property or in assembling equipment. Refer to the supporting Volume 4 Supplemental for details supporting OM&S Types.

6.15.1.2. LRBMs, including Intercontinental Ballistic Missiles and Submarine Launched Ballistic Missiles, must be reported as OM&S for financial reporting purposes. These missiles are considered OM&S because they are frequently used, are consumable and cannot be reused after consumption, are similar in nature to other missiles classified as OM&S, and are broken down and stored as separate parts. Nuclear warheads remain the property of the Department of Energy (DOE). DOE reports the warheads as OM&S.

6.15.2. Recognition and Valuation of OM&S

The consumption method of accounting for the recognition of expenses must be applied for OM&S. If OM&S (1) are not significant amounts, (2) are in the hands of the end user for use in normal operations, or (3) it is not cost-beneficial to apply the consumption method of accounting, then the purchases method may be applied to OM&S. An end user is any component of a reporting entity that obtains goods for direct use in the component's normal operations. Generally, material at an end user is not transferred to another location for consumption. Components of a reporting entity, including contractors, that maintain or stock OM&S for future issuance are not end users.

6.15.2.1. Consumption Method. Recognize and report OM&S as assets on the balance sheet when produced or purchased. The contract between the buyer and the seller determines when title passes. If the contract between the buyer and the seller is silent regarding passage of title, title is assumed to pass upon delivery of the goods. The contract terms determine whether delivery is made or constructive delivery occurs. Under the Consumption method, OM&S are valued at historical cost or on a basis that reasonably approximates historical cost. Valuation must be adjusted for EOU or expected repair. In addition, alternative valuation methodologies may be used to establish beginning balances.

6.15.2.2. Purchases Method. Expense OM&S when produced or purchased. This method is an alternative to the consumption method and requires formal justification.

6.16 Stockpile Materials - (Applicable To Revolving Fund Only)

The National Defense Stockpile, authorized by the Strategic and Critical Stock Piling Act (50 U.S.C. Subchapter III), holds materials essential for national defense or conservation, to avoid

reliance on foreign sources during emergencies. While National Defense Authorization Acts permit the buying and selling of specific materials (including medicine) and set quantity and revenue levels for selling material, no new acquisitions are allowed if more than 99% of the current inventory is already authorized for sale.

6.16.1. Roles and Responsibilities

6.16.1.1. The DLA Strategic Materials Directorate administers the acquisition, storage, management, and disposal of inventory (including medicine) currently maintained in the National Defense Stockpile Transaction Fund (NDSTF). The NDSTF's Treasury Federal account symbol is 97X4555. The NDSTF is a continuing fund that finances the operations of the National Defense Stockpile and Defense National Stockpile Center (DNSC).

6.16.1.2. DLA records and reports stockpile materials within the NDSTF. The NDSTF's Treasury Federal account symbol is 97X4555.

6.16.1.3. The DFAS maintains accounting requirements and procedures, performs financial and general ledger accounting, and prepares external accounting reports for the NDSTF.

6.16.2. Recognition and Valuation of Stockpile Materials

Stockpile materials are accounted for using the consumption method and are reported as assets when produced or purchased.

6.16.3. Material Acquisition

All acquisitions of material for the National Defense Stockpile are proposed in the Annual Materials Plan, which is subject to approval by Congress and the subsequent authorization of funding. Material purchase contracts are recorded as obligations against the current-year acquisition program and reflect the contract date. Additional costs, including initial testing, increase the material's cost for inventory valuation purposes.

6.16.4. Material Upgrade

The Annual Material Plan includes the program for upgrading existing National Defense Stockpile material. Contractors perform the upgrade services, and DoW Components obligate funds from the current-year budget for the program.

6.16.5. Material Disposals

Various materials in the National Defense Stockpile may become obsolete or exceed current defense stockpiling needs. The National Defense Stockpile Act authorizes the disposal of such material within the Annual Material Plan and as authorized within the budget program for the NDSTF.

6.16.6. Exchange Transactions

Materials can be offered as like material, as payment in kind, or in exchange for other material, for amounts due for material upgraded or acquired. These transactions are accounted for as exchange disposals, and the original cost of the material is removed from inventory and recorded as the cost of exchange disposals. All sales and disposals are billed shortly after the sales agreement is made, or as of the scheduled delivery or pickup time for the material. Credits earned for material received and accepted by the DNSC are used to pay for material shipped when it is disposed of during an exchange settlement.

6.16.7. Inventory Adjustments

Inventory adjustments are made when necessary due to events such as physical counts, material movements, or disposals. All adjustments must be documented and approved by the appropriate authorities such as the DNSC Administrator, delegated inventory officials, or a board of survey, depending on the adjustment's nature and size, before they are recorded in the accounting system.

6.16.8. Research Grants

The NDSTF receives appropriations to award grants to universities, colleges, and research institutions.

6.16.9. Relationship of General Ledger Accounts to Logistic Supply Condition Codes and Stratifications. Refer to Volume 4 Supplemental section 6.16.9 for more information on supply condition codes.

7.0 GENERAL AND RIGHT-TO-USE PROPERTY, PLANT AND EQUIPMENT (GPP&E)

GPP&E consists of tangible assets that: have an estimated useful life of two years or more; are not intended for sale in the ordinary course of operations; and are acquired or constructed to be used or available for use by the entity. Account for GPP&E in accordance with FASAB SFFAS 6, “Accounting for Property, Plant, and Equipment.”

7.1 REAL PROPERTY

The United States Standard General Ledger (USSGL) contains the real property general ledger accounts listed in Volume 1, and the DoW USSGL Transaction Library specifies the accounting entries. Unless otherwise stated, this section applies to all DoW Components, both GF and WCF activities.

7.1.1. Accounting for Real Property
7.1.1.1. Descriptions for real property refer to Volume 4 Supplemental.
7.1.1.2. Characteristics of Real Property
7.1.1.3. Real Property Assets (RPAs)
7.1.1.4. Inclusions
7.1.1.5. Exclusions

7.1.1.6. Valuation

7.1.1.6.1. Recorded cost includes all amounts paid to bring the asset to its form and location suitable for its intended use. The recorded cost for capitalized assets is depreciated or expensed depending on the acquisition cost. Non-capital assets are expensed when acquired and do not depreciate. Capitalization does not depend on whether the Component uses appropriated funds or WCFs.

7.1.2. Method of Acquisition or Transfer Determines Recorded Cost. Refer to Volume 4 Supplemental section 7.1.2 for more information.

7.1.3. Alternative Valuation for Establishing Opening Balances

7.1.3.1. Applicability and Considerations. This section applies for the reporting period when the reporting entity is presenting financial statements, or one or more line items, following GAAP promulgated by FASAB either (1) for the first time or (2) after a period during which existing systems could not provide the information necessary for producing such GAAP-based financial statements without using the alternative methods. The SFFAS 50 alternative valuation for establishing opening balances for General PP&E is available only once per line item to each reporting DoW Component. Therefore, prior to establishing opening balances, the DoW Components must validate that they are prepared to account for and comply with the SFFAS 6 recognition, measurement, presentation, and disclosure requirements for real property.

7.1.3.2. Deemed Cost - Existing real property assets (RPAs) with deemed cost equal to or over the current real property capitalization threshold and remaining book values are recorded as a part of the opening balance. DoW Components must apply the applicable capitalization threshold to their entire population of real property retroactively, irrespective of the capitalization thresholds in effect for years prior to October 1, 2013. DoW Components must include all relevant prior period adjustments and note disclosures in their annual financial statements in accordance with SFFAS 50. DoW Components must perform additional analytical procedures to identify assets that have been improperly capitalized or expensed. Examples include searching for RPAs with values of $0 or $1, or reviewing for an erroneous additional zero that incorrectly places the asset above the capitalization threshold. DoW Components using the deemed cost methodology must include a disclosure in their financial statements. The disclosure must describe the alternate valuation method used to establish the financial statement opening balances. Include an unreserved assertion that one or more line items are presented fairly in accordance with GAAP. The disclosure does not need to specifically identify the amount of the deemed cost of real property included in the opening balances.

7.1.4. Recognition

7.1.4.1. DoW Components must recognize Real Property Assets (RPAs) for financial statement accountability. RPAs that meet or exceed the established capitalization thresholds must be capitalized and depreciated/amortized. The DoW capitalization threshold for real property is $15,000,000 for General Fund (GF) and $1,000,000 for Working Capital Fund (WCF) activities. Transitional Guidance: Components adopting these thresholds must coordinate

with the ODCFO for specific application instructions. Components are eligible to retain existing balances below the Departments capitalization threshold, or apply a lower threshold for component-level reporting, with DCFO approval. Capitalization thresholds may be applied prospectively for components with established opening balances, whereas entities that establish opening balances using deemed cost must apply them retrospectively. Components must review Construction-in-Progress (CIP) projects and make appropriate adjustments during adoption.

7.1.4.2. Recognition Responsibility

7.1.4.2.1. DoW Components must report real property facilities located on their installations. Under 10 U.S.C. § 2682, the SecWar designates the military department's jurisdiction over real property facilities. DoW Components with jurisdiction over RPAs report the assets on the GF financial statements. (see FASAB TB 20172). 10 U.S.C. § 2674 and DoDD 5110.04 delegate jurisdiction over its facilities to Washington Headquarters Services (WHS). The DoW Components' WCF financial statements include real property if the WCF has jurisdiction over a specific installation. The RPA Command Claimant Code identifies the Service organization that has direct command authority over an RPA. This code must be reviewed whenever tenant agreements change. The RPA Financial Reporting Organization Code identifies the organization responsible for reporting and depreciating the original asset, capital improvement, or both on its financial statements.

7.1.4.2.2. The Host Installation must report real property on its financial statements where the RPA is located, or as identified on the OSW-approved Enduring Location Master List for real property outside the U.S. The OSW identifies jurisdiction in the consolidated real property database. The Office of the Assistant Secretary of War (OASW) Acquisition and Sustainment (A&S) (Energy, Installations and Environment) maintains and manages the database. The OASW A&S helps resolve financial reporting responsibility disputes between Host Installations. Non-DoW entities report their funded RPAs located on a DoW installation.

7.1.4.2.3. One reporting DoW Component must treat assets assigned to/from another reporting DoW Component as transfers of assets per SFFAS 7.

7.1.4.2.4. Financial reporting responsibility includes all aspects of financial reporting and disclosures, including footnote disclosures, Deferred Maintenance & Repair (DM&R), and other RSI.

7.1.4.2.5. Financial reporting documentation must establish the reporting entity's rights and obligations. Records reflecting the Host Installation jurisdiction, inter- and intra-agency agreements, and host-tenant relationships are examples.

7.1.4.2.6. The DoW's and the Federal Government's overall accounting records must not be duplicative. Where doubt exists as to which DoW Component recognizes the RPA, the DoW Components involved must reach agreement on which entity records the asset for financial reporting purposes. If an agreement cannot be reached, the involved parties must refer the matter to OASW (Sustainment) for resolution. Requesters must accompany requests for resolution with adequate supporting documentation and submit them through the DoW Component Financial Management and Comptroller.

7.1.5. Treatment. For the treatment of real property, refer to the Volume 4 Supplemental document.

7.1.6. Construction In Progress. The Funding DoW Components must report construction costs for a capital asset anticipated to meet the capitalization criteria of the Host Installation in CIP until the capital asset is complete. Once complete and placed in service, the Host Installation reports and depreciates the asset on the GF's financial statements. The WCF financial statements report real property if it has jurisdiction over a specific installation.

7.1.7. Intra-DoW Transfers. Both parties must agree to and document the transfer (e.g., DD Form 1354). The transferor must provide adequate and appropriate supporting documentation for financial statement reporting. Financial reporting information must be maintained with the asset throughout its lifecycle. When DoW Components have different capitalization thresholds, previously capitalized assets by the transferring DoW Component remain capitalized and will depreciate after transfer, regardless of the new financial reporting entity's capitalization threshold. Assets previously expensed by the transferring DoW Component must remain expensed within the new entity. The receiving DoW Components must include the assets in their Accountable Property System of Record (APSR) as accountable real property.

7.1.8. Memorandum of Agreement. All DoW Component tenants must have a MOA with the Host Installations. An MOA establishes rights and obligations between the Host Installation and the DoW Component using the RPA. All tenants must maintain a list of occupied real property facilities and facilities for which operations, maintenance, or improvement is the tenant's responsibility (see DoDI 4000.19 for DoW policy on intra-departmental support).

7.1.9. WCF Capital Recovery Rate and Accounting Treatment. Refer to the Volume 4 Supplemental.

7.1.10. Inter-Entity Costs

7.1.10.1. SFFAS 55 requires recognition of significant inter-entity costs among and between federal agencies by business-type activities (e.g., WCFs). Unless otherwise directed by the OMB, non-business-type activities may elect not to recognize inter-entity costs, but personnel benefits and U.S. Department of the Treasury (Treasury) Judgment Fund settlements must be recognized. DoD elected not to recognize imputed costs and corresponding financing, aside from the exceptions stated in this subparagraph.

7.1.10.2. WCFs or other business-like activities must impute costs. These imputed costs include depreciation expense, estimated depreciation expense for WCF-funded RPAs and improvements subsequently posted to the GF, and depreciation expense or other costs for assets not funded by the WCF. See the ODCFO SFIS webpage for imputed costs journal entries (transaction code E402). The decision tree in the Volume 4 Supplemental document illustrates what RPA-related costs must be imputed and reported by a DoW Component for business-type activity (e.g., WCF). Accounting for imputed costs in the decision tree applies only to business-type activities (e.g., WCFs).

7.1.11. Accounting for Real Property Outside of the U.S.

7.1.11.1. As used in this section, U.S. means the 50 States of the U.S., the District of Columbia, and the commonwealths, territories, and possessions of the U.S. DoW Components occupy and use real property facilities outside of the U.S. DoW's rights to real property outside of the U.S. are different from those within the U.S. For financial reporting purposes, a DoW Component that occupies and uses facilities outside of the U.S. is covered by paragraph 7.1.11.2 and the Supplemental.

7.1.11.2. The Host Installation financial statements report DoW real property that is not located on a DoW installation (including property located on an installation of a host nation) identified on the OSW-approved Enduring Location Master List (which the Office of the Under Secretary of War for Policy maintains and manages) when all of the criteria are met. See Volume 4 Supplemental for the required criteria in Section 7.1.11.

7.1.12. Disclosure Requirements for Land and Permanent Land Rights.

7.1.12.1. DoW Components must disclose, in the notes to their financial statements, referencing the Balance Sheet, the number of acres of General PP&E land and permanent land rights (where the types of land rights are conducive to measurement in acres) held as of the period of their first audited financial statement. This acreage amount must be reported separately from the DoW Component's Stewardship Land. There are no disclosure requirements for General PP&E land rights that are not measured in acres when establishing opening balances. The disclosure requirements for land and permanent land rights must be presented in accordance with SFFAS 59. Existing disclosures must continue.

7.1.12.2. DoW Components must disclose the number of acres of General PP&E land and land rights measured in acres held at the beginning of each reporting period, the number of acres added during the period, the number of acres disposed of during the period, and the number of acres held at the end of each reporting period.

7.1.13. Capital Improvements. For Land and Permanent Land Rights, capital improvements are covered in the Volume 4 Supplemental document.

7.1.13.1. The DoW Component that reports the improved RPA reports capital improvements (including leasehold improvements).

7.1.13.2. Maintenance and repair costs are not considered capital improvements, regardless of the capitalization threshold.

7.1.14. Depreciation

7.1.14.1. The recorded cost of real property and capital improvements must be depreciated over the shorter of (1) the period benefited, or (2) the asset's useful life. Depreciation is the systematic and rational allocation of the recorded cost of an asset, less its estimated salvage/residual value, over its estimated useful life.

7.1.14.2. Capitalized amounts, as well as associated amounts of accumulated depreciation and depreciation expense, must be reflected in DoW financial statements. Recognize depreciation expense for all capitalized general PP&E. Estimates of useful life for RPAs must consider factors such as usage, physical wear and tear, and technological change. To compute depreciation on DoW RPAs, specific useful lives are prescribed.

7.1.14.3. The placed-in-service date (PISD) triggers the depreciation calculation (regardless of whether it is used). Depreciation is generally based on the Month Available for Service method. The month the asset was available for use is used to calculate depreciation expense for the first year.

7.1.14.4. Components must use only the straight-line method of depreciation for RPAs. Straight-line depreciation expense is calculated as the recorded cost (less salvage value, if applicable) divided by the asset's useful life based on the useful lives.

7.1.14.5. If an asset remains in use longer than its estimated useful life, it must be retained in the APSR, as well as the accounting records, and reflect both its recorded cost and accumulated depreciation until disposition of the asset.

7.1.14.6. WCF activities must depreciate RPAs in accordance with this section guidance, whether such assets are procured through the WCF activity's Capital Purchase/Investment Program budget or depreciation is included in rates charged to customers. The WCF activities may recognize and depreciate assets differently for financial statement reporting purposes than for WCF rate development and budget presentation. All WCF real property depreciation must be expensed on the Statement of Net Cost, included in accumulated depreciation amounts on the Balance Sheet, and reported in the "Defense Working Capital Fund Accounting Report (Monthly) 1307 (AR(M)1307)." Depreciation recorded on real property that was neither acquired nor replaced through the use of DWCF resources must be classified as non-recoverable for rate-setting purposes and reported on the AR(M)1307. DWCF rates charged to customers are based on guidance in Volume 2 and Volume 11.

7.1.14.7. Annex 1 Scenarios I and II in the Volume 4 Supplemental document illustrate the depreciation methodology for capital improvements and the underlying RPA.

7.1.14.8. Impairment. For more information on impairment, refer to the Volume 4 Supplemental document.

7.1.15. Removal/Disposal

7.1.15.1. FASAB TR 14 defines removal from service as an event that terminates the use of a real property asset. Removal from service may occur due to various factors, such as damage or obsolescence, or because the asset is identified as excess to mission needs. For a removal to be considered permanent, two business events must occur: (1) the asset's use is terminated, and (2) there is documented evidence of the decision to permanently remove the asset from service. If only one of these two events has occurred, the action is considered an other-than-permanent removal.

7.1.15.2. If an asset no longer provides service in the entity's operations, but the DoW Component has not permanently removed it from service, the Component must account for the asset as an 'other than permanent' removal. Continuing low-level maintenance provides evidence of this 'other than permanent' removal status. The value of these assets does not change, and the Component must continue to depreciate them.

7.1.15.3. The DoW Component no longer depreciates assets it has permanently removed from service. A permanent removal occurs when the DoW Component documents its decision to dispose of an asset. Upon permanent removal, the Component must remove the recorded cost and accumulated depreciation/amortization from the accounts and record the asset at its NRV (see SFIS webpage Transaction Code C613). NRV is the estimated amount the Component can recover from selling or otherwise disposing of an item, less the estimated costs of completion, holding, and disposal. The Component must recognize any difference between the Net Book Value (NBV) and the asset's expected NRV as a gain or loss. The Component must also evaluate the expected NRV at the end of each fiscal year and recognize any change as a gain or loss.

7.1.15.4. When an asset is sold, donated, or demolished, the asset must be written off, and the difference between disposal proceeds and the asset's NBV must be recognized as a gain or loss. The legally enforceable disposal obligation date is the disposal date. It is the demolition contract's start date. For transfers to a non-DoW entity and sales, it is the instrument endorsement or the operation end date, whichever comes later. For natural disasters, it is the date of complete loss.

7.1.16. Additional Considerations

7.1.16.1. Use of Canceled TAS.

7.1.16.2. Supporting Documentation.

7.1.16.3. Physical Inventories of Real Property

7.1.16.3.1. The Military Departments and WHS must reconcile, at least annually, their real property inventory records with all other DoW Components that occupy, operate, or maintain facilities or land for which the Military Departments or WHS have real property accountability. This reconciliation ensures both parties maintain accurate records of the asset's use, location, and basic characteristics. In the final review, the host installation must ensure it accurately reports all assets in its APSR.

7.1.16.3.2. DoW Components must perform an inspection of each RPA record, including a physical inspection of each RPA, every 5 years; however, RPAs designated with historic status must be reviewed and physically inspected every 3 years and reported in accordance with DoDI 4715.16. Assets identified with RPA Historic Status Code - "Eligible for the purposes of a Program Alternative – ELPA" do not require inspection every 3 years, and may follow the regular 5-year inspection schedule in accordance with DoDI 4165.14.

7.1.16.4. Deferred Maintenance & Repairs

7.1.16.4.1. FASAB SFFAS 42 defines Deferred Maintenance and Repairs (DM&R) as maintenance and repairs that the Component did not perform when scheduled, instead delaying them to a future period. DM&R includes preventive maintenance; replacement of parts, systems, or components; and other activities the Component must perform to preserve or maintain the asset in working condition.

7.1.16.4.2. Measurement

7.1.16.4.2.1. The values reported for DM&R must be consistent with the Facility Condition Index ratings and Facility Plant Replacement Values.

7.1.16.4.2.2. DoW Components must determine acceptable condition standards and which DM&R measurement methods to apply. They must consistently apply these condition standards and measurement methods. If the DoW Components determine that changes are necessary, they must document the rationale for the change(s) and the related impact on the DM&R estimate.

7.1.16.4.2.3. DoW Components must measure DM&R for capitalized, non-capitalized, and fully depreciated real property. They must include DM&R for inactive real property when they report the asset with an operational status of 'caretaker' or 'non-functional.' The DM&R measurement must account for both funded and unfunded delayed maintenance and repairs. The Component must ensure the data does not include DM&R funded with NAFs' commissary surcharge or from non-DoW sources.

7.1.16.4.3. Required Supplemental Information. The Host Installation reporting real property must report DM&R material amounts as RSI. See Volume 6 for required RSI reporting.

7.1.16.5. Financial Statement Disclosure Reporting and Representation Requirements.

7.1.16.5.1. DoW Components reporting real property must reference the Balance Sheet note disclosing information about the reported RPAs.

7.1.16.5.2. The management representation letter provided to the IPA (for audited DoW Components), and the financial statement notes must fully and completely disclose how reported real property complies with this section’s policies.

7.1.16.5.3. DoW Components must disclose in the financial statement notes when a host nation/foreign government provides real property without reimbursement, and that the financial statements do not contain amounts for these properties. The agreement’s general nature must be disclosed. The host nation/foreign government’s geographic location must not be disclosed.

7.1.16.5.4. In accordance with SFFAS 55, DoW Components must disclose in the financial statement notes that inter-entity (imputed) costs are recognized for business-type activities (if applicable), employee benefits, and claims to be settled by the Treasury Judgment Fund. Other federal entities provide these goods and services at no cost or at a cost less than the full cost, as applicable. Unreimbursed costs of goods and services other than those identified in the preceding sentence are not included in DoW financial statements.

7.1.16.5.5. Refer to Volume 6 for additional disclosure reporting requirements.

7.2 GENERAL EQUIPMENT

7.2.1. Accounting for General Equipment

Transferred Equipment. Transfers of equipment must adhere to the cost recorded for general equipment transferred from another DoW Component or Federal agency as the cost recorded on the transferring entity's books for the general equipment, net of any accumulated depreciation (i.e., net book value). To prevent intergovernmental transaction elimination issues, the receiving DoW component must ensure the transfer-in amount it records aligns with the document it received from the transferring agency. If the receiving DoW Component cannot reasonably ascertain those amounts, the cost of the asset will be its fair value at the time of transfer. Accountability for general equipment transferred between entities must comply with DoDI 5000.64. Refer to DoDI 1225.06 for equipment transfers by entities other than DoW and Reserve Components.

7.2.2. Valuation. Refer to the Volume 4 Supplemental.

7.2.3. Alternate Valuation Methods for Establishing Opening Balances.

7.2.3.1. The alternative valuation methods for establishing opening balances for general PP&E are available only once to each reporting entity. Therefore, prior to the establishment of opening balances for general equipment, DoW Components must validate that they account for and comply with the recognition, measurement, presentation, and disclosure requirements for general equipment at historical cost in accordance with FASAB SFFAS 6, as amended by SFFAS 50. Components must prepare and retain documentation to support compliance with the recognition, measurement, presentation, and disclosure requirements to meet audit requirements. When a Component cannot apply historical cost as outlined in SFFAS 6, Deemed Cost is acceptable to estimate the initial amounts (historical cost) to establish the opening balances for general equipment.

7.2.3.2. When evaluating general equipment for the purpose of establishing opening balances, DoW Components must apply the applicable capitalization threshold to their entire population of general equipment retroactively.

7.2.3.3. DoW Components must calculate a gross value and an accumulated depreciation value for General Equipment assets when establishing opening balances using Deemed Cost.

7.2.3.4. DoW component reporting entities applying deemed cost in establishing opening balances for general PP&E must disclose in the notes to their financial statements that they used an alternative valuation method and describe the methods used in the first reporting period in which the reporting entity makes an unreserved assertion that its financial statements, or one or more line items, are presented fairly in accordance with GAAP. An unreserved assertion is an unconditional statement. Financial statements or, as applicable, reports on line items of subsequent periods need not repeat this disclosure, unless the financial statements for which deemed cost was applied in establishing opening balances are presented for comparative purposes. No disclosure of the distinction or breakout of the amount of deemed cost of general PP&E included in the opening balance is required.

7.2.3.5. Refer to the Volume 4 Supplemental for deemed cost estimates.

7.2.3.5.1. Replacement Cost. The amount required for an entity to replace the remaining service potential of an existing asset in a current transaction at the reporting date, including the amount that the entity would receive from disposing of the asset at the end of its useful life.

7.2.3.5.2. Estimated Historical Cost (initial amount). A reasonable estimate of historical (acquisition) cost.

7.2.3.5.3. Fair Value. The amount at which an asset or liability could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

7.2.3.6. DoW Components that anticipate substantial use of replacement cost or fair value methodologies for equipment valuation must contact the OUSW(C))/ ODCFO and the Office of the Deputy Assistant Secretary of War for Logistics prior to committing significant resources to these methods.

7.2.3.7. Refer to the Volume 4 Supplemental for estimated historical cost.

7.2.4. Recognition

7.2.4.1. Recognition requires appropriate accounting treatment (expense or capitalization with depreciation) and reporting of capitalized amounts and accumulated depreciation on the DoW Component's financial statements.

7.2.4.2. Recognition Responsibility. The entity that has accountability for a general equipment asset, as defined in DoDI 5000.64, has financial reporting responsibility for that asset from purchase or construction, upon transfer of title (receipt, delivery, or acceptance), and through disposal, or when another entity takes physical accountability for the asset.

7.2.4.3. Recognition Uncertainty. The DoW and the Federal Government must ensure that the accounting records are not duplicative. In situations where doubt exists about which DoW Component must recognize an item, the DoW Components involved must reach an agreement with the other applicable DoW Components or Federal agencies on which entity will record the item for financial reporting purposes. Disputes between DoW Components regarding accountability for an asset under DoDI 5000.64 guidelines may be resolved by contacting the Office of the Deputy Assistant Secretary of War for Logistics.

7.2.4.4. Recognition Timing. Recognition of general equipment for financial reporting purposes must occur upon delivery to the acquiring DoW Component. Delivery occurs when the title passes to the customer. Delivery or constructive delivery must be made in accordance with the contract terms.

7.2.4.5. Capitalization Thresholds. The DoW capitalization threshold for general equipment is $15,000,000 for General Fund (GF) and $500,000 for Working Capital Fund (WCF) activities. DoW Components must capitalize general equipment with a recorded cost that equals or exceeds these applicable thresholds, provided the asset has a useful life of at least two years, and depreciate the cost over its useful life. Conversely, Components must expense general equipment with a recorded cost below the applicable threshold or with a useful life of less than 2 years, except for items acquired as part of a qualifying bulk purchase. Transitional Guidance: Components adopting these thresholds must coordinate with the ODCFO for specific application instructions. Capitalization thresholds may be applied prospectively for components with established opening balances, whereas entities that establish opening balances using deemed cost must apply them retrospectively. Components are eligible to retain existing balances below the Departments capitalization threshold, or apply a lower threshold for component-level reporting, with DCFO approval.

7.2.4.6. DoW Components must capitalize special tooling, special test equipment, and other similar equipment items that meet or exceed the appropriate capitalization threshold with a useful life of at least two years at the time of delivery. Per SFFAS 6, general equipment must be recognized when title passes to the acquiring entity or when it is delivered to the entity or an agent of the entity. The component must recognize the general equipment acquired by the contractor on behalf of the DoW Component, for which the Government will ultimately hold title.

7.2.4.7. Bulk Purchases.

7.2.4.7.1. Each DoW Component must establish guidance on applying DoW capitalization thresholds to its bulk purchases. DoW Components must document their rationale for the accounting treatment of bulk purchases and retain the documentation for audit purposes in accordance with their DoW Component records retention requirements.

7.2.4.7.2. For financial accounting, a bulk purchase is a single contractual/purchase arrangement of multiple like general equipment items within a fiscal year. For bulk purchases made under a single, multi-year contractual/purchase arrangement, DoW Components must consider aggregate purchases on a fiscal-year basis.

7.2.4.7.3. The DoW Component must consider whether period costs on the Statement of Net Costs would be materially overstated and/or asset values on the Balance Sheet would be materially understated by expensing bulk purchases. SFFAS 1 defines materiality as the degree to which an item's omission or misstatement in a financial statement makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or the misstatement. To determine materiality, the DoW Component must exercise appropriate and reasonable professional judgment.

7.2.4.7.4. In the instance where more than one DoW Component has the authority to place orders under the same contractual/purchase arrangement, the component must consider only those orders it funds for purposes of bulk purchase evaluation and not those funded by other DoW Components.

7.2.4.8. CIP. Funding DoW Components must report and record constructed general equipment in the CIP account (when expected to meet capitalization criteria of the component that will own the asset) until they complete and place it in service, at which time they must transfer the balance to the general equipment USSGL account. The CIP account accumulates costs of new construction of general PP&E and capital improvements while the asset is under construction. CIP accounts include all costs incurred in construction (i.e., direct labor, direct materials, supervision, inspection, and overhead).

7.2.4.9. Accounting for General Equipment Outside of the United States. The "United States" is defined as the 50 States of the United States, the District of Columbia, and the commonwealths, territories, and possessions of the United States. DoW's rights to general equipment outside of the United States may be different from those within the United States. For financial reporting purposes, a DoW Component that uses general equipment outside of the United States must adhere to the following guidance:

7.2.4.9.1. DoW Components must recognize a general equipment asset on their financial statements in accordance with the guidance provided throughout the other provisions of this section if the DoW Component purchases the general equipment asset outside of the host nation/foreign country to which it is bringing the general equipment.

7.2.4.9.2. DoW Components must evaluate any foreign legal restrictions or terms of any agreement with the host nation/foreign government to determine the accounting treatment if a DoW Component both purchases and uses the general equipment in the foreign country as follows:

7.2.4.9.3. If a general equipment acquisition is not funded/purchased by DoW but instead provided by the host nation/foreign government and the terms and use of the general equipment are set out in an agreement between the DoW Component and the host nation/foreign government, the DoW Component will recognize the general equipment as a right-to-use leased asset. Refer to Volume 4 Supplemental section 7.3.

7.2.4.9.4. SFFAS 4 and SFFAS 55 address imputed costs between Federal agencies. The concept of imputed costs does not apply to activities between a DoW Component

and a host nation/foreign government. Therefore, a DoW Component will not record imputed costs for the use of general equipment, for which it does not pay directly or pay through reimbursement, provided by international organizations (e.g., NATO) or host nations/foreign governments.

7.2.4.9.5. The DoW Component must record accountable general equipment it uses in an APSR, including those that have not been capitalized for accounting and financial reporting purposes in accordance with DoDI 5000.64.

7.2.4.9.6. The DoW Component must record an expense for any maintenance and sustainment costs that they incur or will incur relating to the general equipment paid for. Maintenance and sustainment costs refer to costs that do not meet the criteria for capitalization of an improvement.

7.2.5. Capital Improvements are modifications, modernizations, upgrades, remanufacturing, and enhancements and must be capitalized when the improvement increases the asset's useful life by two or more years, or increases the asset's capability, or increases its capacity or size, and when the cost of the improvement equals or exceeds the capitalization threshold. If capital improvements do not meet these two criteria, they must be expensed. If the capital improvement extends the useful life of the underlying general equipment asset by two years or more, the DoW Component must capitalize and depreciate the improvement alongside the original general equipment over the revised estimated useful life. If the costs of capital improvements do not extend the useful life of an existing general equipment asset but enhance its capacity and have a useful life of two years or more, the DoW Component must capitalize and depreciate these costs over the lesser of the estimated useful life of the improvement or the remaining estimated economic useful life of the underlying general equipment asset.

7.2.6. Depreciation

7.2.6.1. Depreciation is the systematic and rational allocation of the recorded cost of an asset, less its estimated salvage or residual value, over its estimated useful life. The DoW entity must depreciate the recorded cost of capitalized general equipment and capital improvements.

7.2.6.2. Capitalized amounts, as well as associated amounts of accumulated depreciation and depreciation expense, must be reflected in DoW financial statements. The depreciable basis of an asset is the recorded cost reduced by the asset’s salvage value (if applicable).

7.2.6.3. The event that triggers the calculation of depreciation is the date of receipt shown on the asset receiving document in cases where no installation is required; the date installed (if required); or the date the asset is available for use, also known as the acceptance date.

7.2.6.4. If an asset remains in use longer than its estimated useful life, it must be retained in the APSR, as well as the accounting records, and reflect both its recorded cost and accumulated depreciation until disposition of the asset.

7.2.6.5. WCF activities must depreciate general equipment assets in accordance with the guidance in this section for financial reporting purposes without regard to whether assets are procured through a WCF activity's Capital Purchase/Investment Program budget or whether depreciation for such assets is included in rates charged to customers.

7.2.6.5.1. The recognition of general equipment assets and depreciation of such assets by WCF activities may differ for financial statement reporting purposes from amounts used for WCF rate development and budget presentation.

7.2.6.5.2. DWCF rates charged to customers are based on guidance in Volume 2 and Volume 11.

7.2.7. Impairment - Refer to the Procedures document for more information.

7.2.8. Removal/Disposal

7.2.8.1. FASAB TR 14 paragraph 8 defines removal from service as an event that terminates the use of a general equipment asset. Removal from service may occur because of a change in the manner or duration of use, a change in technology, obsolescence, damage from natural disasters or use in operations, or identification as excess to mission needs. Permanent removal from service is evident from the DoW Component's documented decision to dispose of an asset by selling, scrapping, recycling, donating, or demolishing the asset.

7.2.8.2. Removals from service must be considered other than permanent unless the asset's use is terminated and there is documented evidence of the DoW Component's decision to permanently remove the asset from service, or if only one of the two business events has occurred, permanent removal from service has not occurred.

7.2.8.3. When an asset is disposed of (e.g., by selling, scrapping, recycling, donating, or demolishing the asset), the asset must be written off, and the difference between any disposal proceeds and the asset's net book value must be recognized as a gain or loss. Disposals of general equipment will be conducted in accordance with DoDM 4160.21.

7.2.8.3.1. The disposal start date is the calendar date of a legally enforceable and recognizable obligation to complete the disposal action. For demolitions, this represents the demolition contract's start date. For transfers to a non-DoW entity and sales, this represents the date on which the instrument is endorsed, or the operation is ceased, whichever comes later. For natural disasters, this represents the actual incident date if the asset is a complete loss.

7.2.8.3.2. All disposals or retirements must be supported as of the date the general equipment leaves the custody of the DoW Component to provide an adequate audit trail for the disposal of the asset. The execution of certain disposal events will generate financial or administrative accountability transactions.

7.2.8.4. Plant clearance officers follow the direction of the FAR Subpart 45.6, Defense Federal Acquisition Regulation Supplement (DFARS) Subpart 245.6, and DFARS

Procedures, Guidance, and Information (PGI) 245.602-70. Following the plant clearance officer's acceptance of an inventory disposal schedule, the property must be screened for reutilization DoW-wide. Surplus personal property with commercial value that is processed through the reutilization screening process without success may be sold. Proceeds of any sale of surplus property are to be credited to the Treasury as miscellaneous receipts, unless otherwise provided by statute or the contract or any subcontract thereunder authorizing the proceeds to be credited to the price or cost of the work per 40 U.S.C. § 571 and § 574, FAR 45.604-3.

7.2.9. Additional Considerations

7.2.9.1 Use of Canceled TAS, Refer to the Volume 4 Supplemental.

7.2.9.2 Documentation Requirements

7.2.9.2.1. Financial transactions in the accounting system, general ledger accounts, the APSR, and/or other systems must be supported by source documents affecting the Component's investment in the general equipment.

7.2.9.2.2. All general equipment acquisitions, whether by purchase, transfer from other agencies, donation, or other means, must be supported as of the date of delivery and acceptance (including acceptance where constructive receipt has occurred) by the DoW Component.

7.2.9.2.3. Items must be assigned a dollar value (i.e., acquisition cost) when recording the general equipment item in the APSR and/or accounting system. The dollar value must be supported by appropriate documentation describing the reasons for changes in asset value or physical attributes resulting from a new acquisition or capital improvement.

7.2.9.2.4. DoW Components must retain supporting documents for the cost of general equipment assets in accordance with their DoW Component records retention requirements. Documentation (original documents and/or hard and electronic copies of the originals) must be maintained in a designated location during the applicable retention period to support audit compliance.

7.2.9.2.5. The APSR and/or other systems must be designed to support procurement and utilization decisions, including decisions related to identifying potential excess general equipment that may be available for reuse, transfer to other DoW Components, or made available for disposal in accordance with current DoW regulations and other regulatory requirements.

7.2.9.3. Physical Inventories of General Equipment

7.2.9.3.1. DoW Components must perform periodic physical inventories of general equipment in accordance with DoDI 5000.64.

7.2.9.3.2. All DoW Components (i.e., Military Departments, Washington Headquarters Service, and Other Defense Organizations) must reconcile their APSR to their

financial statements (or to their trial balance if financial statements are not required to be prepared) quarterly.

7.2.9.3.3. While conducting physical inventories, DoW components should consider if any general equipment shows potential evidence of impairment and if any general equipment does not appear to be in use, where it has not been used for a significant period.

7.2.9.4. Deferred Maintenance and Repairs. For more information, refer to the Volume 4 Supplemental document.

7.2.9.5 Disclosure Requirements

7.2.9.5.1. DoW Components with general equipment must reference a note on the Balance Sheet that discloses information about the reported general equipment assets. Note 1 of the financial statements must include a disclosure related to the DoW Component's general equipment reporting accounting policy. DoW Components must state that they are financially reporting on property for which they have accountability, in accordance with DoDI 5000.64. Additionally, DoW Components must disclose that they may use assets to complete their mission that are reported in the financial statements of another DoW Component. See Volume 6 for the specific disclosure requirements.

7.2.9.5.2. DoW Components must disclose in the notes to the financial statements those instances where they are using general equipment provided by a host nation/foreign government without reimbursement by DoW to the host nation/foreign government, as applicable, that (1) The DoW Component is utilizing general equipment provided by and owned by a host nation/foreign government in its operations OCONUS without reimbursement by DoW to the host nation/foreign government The DoW Component is utilizing general equipment provided by and owned by a host nation/foreign government in its OCONUS operations without reimbursement by DoW to the host nation/foreign government, and there are no amounts recorded in the financial statements related to these assets, and (2) the general nature of the agreement with the host nation/foreign government is not intended or recommended to disclose the geographic location of the foreign government/host nation.

7.3 ACCOUNTING FOR LEASES

This policy outlines DoW's accounting for leases, covering instances in which DoW is both a lessee and a lessor, in accordance with SFFAS 54. This policy does not apply to leases of internal use software (IUS), leases of assets under construction, or budgetary accounting for capital leases and lease purchases, as detailed in OMB Circular A-11.

7.3.1. Short-Term Leases (Non-Intragovernmental)

7.3.1.1. Lessee Treatment of Short-Term Leases. A DoW Component, as the lessee, must recognize short-term lease payments as an expense based on the payment provisions of the contract or agreement and standards regarding recognition of accounts payable and other related amounts. The DoW Component (lessee) must recognize an asset if payments are made in advance of the reporting period to which they relate or liability for rent due and unpaid at the end

of the reporting period to which they relate. Rental increases, rental decreases, lease incentives, and lease concessions must be recognized when incurred as increases/reductions to lease rental expenses.

7.3.1.2. Lessor Treatment of Short-Term Leases. A DoW Component, as the lessor, must recognize short-term lease payments as revenue based on the payment provisions of the contract or agreement and standards regarding recognition of accounts receivable and other related amounts. The DoW Component (lessor) must recognize a liability if payments are received in advance of the reporting period to which they relate or an asset for rent due and to be received after the reporting period to which they relate. Rental increases, rental decreases, lease incentives, and lease concessions must be recognized when incurred as increases/reductions to lease rental income.

7.3.2. Contracts or Agreements That Transfer Ownership

If a contract or agreement (a) transfers ownership of the underlying asset to a lessee by the end of the term and (b) does not contain termination options (other than a non-probable cancellation clause), then the lessee must report it as an asset purchase, or the lessor must report it as a financed asset sale. For this purpose, options to purchase the underlying asset prior to the transfer of ownership are not considered options to terminate.

7.3.3. Intragovernmental Leases

7.3.3.1. Any lease, regardless of the lease term, that meets the definition of an intragovernmental lease must follow the following accounting and disclosure guidance.

7.3.3.2. Lessee Treatment of Intragovernmental Leases

7.3.3.2.1. Lease Payments. A DoW Component, as the lessee must recognize lease payments, including lease-related operating costs (for example, maintenance, utilities, and taxes) paid to the lessor, as expenses based on the payment provisions of the contract or agreement and standards regarding recognition of accounts payable and other related amounts. Prepaid rent or rent payable must be recognized as an asset or liability, respectively, and an expense must be recognized in the appropriate reporting period based on the specifics of the lease provisions.

7.3.3.2.2. Leasehold Improvements. Leasehold improvements that meet or exceed the capitalization threshold and are placed in service at or after the beginning of the lease term must be amortized over the useful life (the normal operating life in terms of utility to the lessee) of the leasehold improvement, but no longer than the expected lease term. This recognition is consistent with PP&E capital improvements outlined in SFFAS 6.

7.3.3.2.3. Disclosures. A DoW Component as the lessee must disclose the following regarding intragovernmental lease activities (which may be grouped for purposes of disclosure): (1) a general description of significant intragovernmental leasing arrangements, including general lease terms with any applicable specific intragovernmental requirements; and (2) annual lease expense in total and by major underlying asset category.

7.3.3.3. Lessor Treatment of Intragovernmental Leases

7.3.3.3.1. Lease Payments. A DoW Component, as the lessor must recognize lease receipts, including lease-related operating costs (for example, maintenance, utilities, or taxes) received from the lessee as income based on the provisions of the contract or agreement and standards regarding recognition of accounts receivable and other related amounts. Rent paid in advance, or a lease receivable, must be recognized as a liability or asset, respectively, and income must be recognized in the appropriate reporting period based on the specifics of the lease provisions.

7.3.3.3.2. Lessor Improvements. Lessor improvements, which are elements of the leased property that meet or exceed the capitalization threshold, must be capitalized and depreciated by the lessor over their useful life. This accounting treatment aligns with the lessor's handling of PP&E and is consistent with the capital improvement guidelines outlined in SFFAS 6.

7.3.3.3.3. Disclosures. Lessors must disclose the following regarding intragovernmental lease activities (which may be grouped for purposes of disclosure): (1) a general description of significant leases; and (2) future lease payments that are to be received to the end of the lease term for each of the five subsequent fiscal years and in five-year increments thereafter.

7.3.3.4. Other Considerations for Lessees and Lessors

7.3.3.4.1. Fixed Rental Increases/Decreases. Rental increases/decreases may be fixed in the lease and take place over time (for example, be based on such factors as anticipated increases/decreases in costs or anticipated appreciation/depreciation in property values, but the amount of the increase/decrease is specified in the lease), or they may be contingent on future events.

7.3.3.4.2. Variable Rental Increases/Decreases. Rental increases/decreases may also be variable and based on future changes in specific economic factors on which lease payments are based, for example, future sales or usage activity levels or future inflation/deflation (tied to a specific economic indicator where the specific amount of the change is not known).

7.3.3.4.3. Treatment of Rental Increases/Decreases, and Lease Incentives/Concessions. Rental increases/decreases and lease incentives/concessions must be recognized by the lessee and lessor when incurred as increases/reductions to lease rental expense and income, respectively.

7.3.3.4.4. Initial Direct Lease Costs. Initial direct lease costs incurred by the lessee must be expensed when incurred. Initial direct lease costs incurred by the lessor must be expensed when incurred.

7.3.4. Lessee Recognition, Measurement, and Disclosure for Leases Other than Short-Term Leases, Contracts or Agreements that Transfer Ownership, and Intragovernmental Leases.

7.3.4.1. At the commencement of the lease term, a DoW Component as the lessee must recognize a lease liability and a leased asset for leases other than short-term leases, contracts, or agreements that transfer ownership, and intragovernmental leases that meet the capitalization thresholds. For leases that do not meet the capitalization threshold, a lease expense must be recognized in the current period.

7.3.4.2. Lease Liability. A lessee must initially measure the lease liability at the present value of payments expected to be made during the lease term.

7.3.4.3. Variable payments must be recognized as an expense in the reporting period in which those payments are incurred. However, any portion of these variable payments that is fixed in-substance must be included in the lease liability.

7.3.4.4. Interest Rate. The future lease payments must be discounted using the interest rate the lessor charges the lessee. If the interest rate is not stated in the lease, it must be based on the interest rate on marketable Treasury securities at the commencement of the lease term (or at the subsequent financial reporting date), with a similar maturity to the term of the lease (as determined by the Treasury).

7.3.4.5. Remeasurement of Lease Liability. The lessee must remeasure the lease liability at subsequent financial reporting dates if one or more of the following changes have occurred at or before that financial reporting date, based on the most recent lease contract or agreement before the changes, and if the changes individually or in the aggregate are expected to significantly affect the amount of the lease liability since the previous measurement.

7.3.4.6. Lease Asset. A lessee must initially measure the lease asset as the sum of the following:

7.3.4.6.1. The amount of the initial measurement of the lease liability;

7.3.4.6.2. Lease payments made to the lessor (e.g., prepaid rents) at or before the commencement of the lease term, less any lease incentives; and

7.3.4.6.3. Initial direct lease costs that are necessary to place the lease asset into service.

7.3.4.6.4. A lease asset must be amortized systematically and rationally over the shorter of the lease term or the useful life of the underlying asset, except as provided in the following subparagraph.

7.3.4.6.5. If a lease contains a purchase option that the lessee has determined is probable of being exercised, the lease asset must be amortized over the useful life of the underlying asset. However, if the underlying asset will be capitalizable and non-depreciable in the reporting period the purchase option is expected to be exercised, the lease asset must not be

amortized. If the underlying asset will be non-capitalizable in the reporting period the purchase option is expected to be exercised, the lease asset must be amortized over the remaining lease term.

7.3.4.6.6. The lease asset generally must be adjusted by the same amount when the lease liability is remeasured. However, if this change reduces the carrying value of the lease asset to zero, any remaining amount must be reported in the statement of net cost as a gain. Changes arising from amendments to a lease contract or agreement must be accounted for under the provisions of lease terminations and modifications.

7.3.4.6.7. Leased assets are subject to SFFAS 44, Accounting for Impairment of General Property, Plant, and Equipment Remaining in Use. Refer to volume 4 Supplemental for more information.

7.3.4.7. Lease Term. The lease term for a lessee is the noncancelable period of the lease, plus any probable additional periods, based on all relevant factors, that it will be included. This includes periods covered by a lessee's option to extend the lease if it is likely they will exercise it. It also includes periods following a lessee's option to terminate the lease if it is probable they will not exercise that option.

7.3.4.8. Disclosure Requirements for Lessees

Lessees must disclose lease activities (which may be grouped for purposes of disclosure), other than short-term leases, contracts or agreements that transfer ownership, and intragovernmental leases.

7.3.5. Lessor Recognition, Measurement, and Disclosures for Leases Other than Short-Term Leases, Contracts or Agreements that Transfer Ownership, and Intragovernmental Leases

7.3.5.1. At the commencement of the lease term, a DoW Component as the lessor must recognize a lease receivable and unearned revenue for leases other than short-term leases, contracts or agreements that transfer ownership, and intragovernmental leases. The lessor must report any initial direct lease costs it incurs as an expense of the period.

7.3.5.2. Lease Receivable. A lessor initially must measure the lease receivable at the present value of lease payments to be received for the lease term, reduced by any provision for uncollectible amounts.

7.3.5.3. Variable payments based on the future performance of the lessee or usage of the underlying asset must not be included in the measurement of the lease receivable. Rather, those payments must be recognized as revenue in the reporting period to which those payments relate. However, any payments that are fixed in-substance must be included in the lease receivable.

7.3.5.4. Amounts to be received under residual value guarantees (that are not fixed in-substance) must be recognized as a receivable and revenue when (a) a guarantee payment is required (as agreed to by the lessee and lessor) and (b) the amount can be reasonably estimated. Amounts to be received for the exercise price of a purchase option or penalty for lease termination must be recognized as a receivable and revenue when those options are exercised.

7.3.5.5. Interest Rate. The future lease payments to be received must be discounted using the interest rate the lessor charges the lessee. If the interest rate is not stated in the lease, it must be based on the interest rate on marketable Treasury securities at the commencement of the lease term (or at the subsequent financial reporting date), with a similar maturity to the term of the lease (as determined by the U.S. Department of the Treasury).

7.3.5.6. A lessor must remeasure the lease receivable if certain changes occur that are expected to affect its amount significantly. These triggers include a change in the lease term, a change in the interest rate the lessor charges, or the resolution of a contingency that fixes previously variable payments. When remeasuring due to a change in the lease term or interest rate, the lessor must also update the discount rate. Additionally, if a remeasurement is already triggered, the receivable must be adjusted for any significant change in an index or rate used for variable payments, though a change in an index or rate by itself does not require remeasurement. It is important to note that changes resulting from an amendment to the lease contract are handled separately under the provisions for lease modifications and terminations.

7.3.5.7. Unearned Revenue

7.3.5.7.1. A lessor must initially measure the unearned revenue to include the following: (1) the amount of the initial measurement of the lease receivable, and (2) lease payments received from the lessee at or before the commencement of the lease term that relates to future periods (for example, the final month's rent), less (3) any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term.

7.3.5.7.2. A lessor subsequently must amortize the unearned revenue, recognizing it as earned revenue, systematically and rationally over the term of the lease. The unearned revenue generally must be adjusted using the same amount as the change resulting from the remeasurement of the lease receivable. However, if the change reduces the carrying value of the unearned revenue to zero, any remaining amount must be reported in the statement of net cost as a loss.

7.3.5.8. Underlying Asset. A lessor must not derecognize the asset (PP&E) underlying the lease. A lessor must continue to apply other applicable guidance to the underlying asset, including depreciation and impairment. However, if the lease contract or agreement requires the lessee to return the asset in its original or enhanced condition, a lessor must not depreciate the asset during the lease term.

7.3.5.9. Lease Term. The lessor's lease term consists of the noncancelable period plus any additional periods where there is significant evidence that the lessor will act to extend the term. This includes periods covered by a lessor's option to extend, if evidence suggests they will exercise it, and periods following a lessor's option to terminate, if evidence suggests they will not exercise it. When determining the total term, options must be evaluated chronologically, with the lessee's options being considered first. If a decision is made not to add a period based on one option, subsequent options are considered.

7.3.5.10. Disclosure Requirements for Lessors. Lessors must disclose lease activities (which may be grouped for purposes of disclosure), other than short-term leases, contracts or agreements that transfer ownership, and intragovernmental leases.

7.3.6. Lease Incentives and Lease Concessions

7.3.6.1. Lease incentives and lease concessions reduce the amount that a lessee is required to pay for a lease. For leases other than short-term leases and intragovernmental leases, lease incentives and lease concessions that provide payments to, or on behalf of, a lessee at or before the commencement of a lease term are included in the initial measurement by directly reducing the amount of the lease asset.

7.3.6.2. Lease incentive and lease concession payments to be provided after the commencement of the lease term must be accounted for by lessees and lessors as reductions of lease payments for the periods in which the incentive or concession payments will be provided. Those payments must be measured by lessees consistently with the lessee's lease liability and by lessors consistently with the lessor's lease receivable. Accordingly, lease incentive and lease concession payments to be provided after the commencement of the lease term are included in the initial measurement and any remeasurement if they are fixed or fixed in-substance, whereas variable or contingent lease incentive or lease concession payments are not included in the initial measurement.

7.3.6.3. Lessor improvements that are made to or on behalf of the lessee without additional cost to the lessee must be accounted for by the lessee and the lessor consistent with other lease incentives and lease concessions. As leasehold improvements are paid for (financed) by the lessee, leasehold improvements would not be considered a lease incentive or concession received from the lessor.

7.3.7. Contracts or Agreements with Multiple Elements

7.3.7.1. Lessors and lessees may enter into contracts or agreements that contain multiple elements, such as a contract or agreement that contains both a lease element and a non-lease element, or a lease that contains multiple underlying assets.

7.3.7.2. If a lessor or lessee enters into a contract or agreement that contains both a lease and non-lease elements (such as maintenance services for the building), the lease and non-lease elements must be accounted for as separate contracts or agreements unless the contract or agreement if any prices for individual elements appear to be unreasonable or it is not practicable to determine the best estimate for price allocation for some or all elements in a contract or agreement. In this instance, some or all elements in a contract or agreement must be accounted for as a single lease unit.

7.3.7.3. If a lease involves multiple underlying assets and the assets have different lease terms, the lessor and lessee must account for each underlying asset as a separate lease element. An exception exists if the contract or agreement does not include prices for individual elements or if any of those prices appear to be unreasonable.

7.3.7.4. To allocate the contract or agreement price to the different elements, lessors and lessees must first use any prices for individual elements that are included in the contract or agreement, as long as the price allocation does not appear to be unreasonable based on the terms of the contract or agreement and professional judgment, maximizing the use of observable information, for example, using readily available observable stand-alone prices.

7.3.7.5. If multiple elements are accounted for as a single lease unit, the accounting for that unit must be based on the primary lease element within that unit. For example, the primary lease element's lease term must be used for the unit if the lease elements have different lease terms.

7.3.8. Contract or Agreement Combinations

7.3.8.1. Contracts or agreements that are entered into at or near the same time with the same counterparty must be considered to be part of the same lease contract or agreement if either of the following criteria is met: (1) the contracts or agreements are negotiated as a package with a single objective; and (2) the amount of consideration to be paid in one contract or agreement depends on the price or performance of the other contract or agreement.

7.3.8.2. If multiple contracts or agreements are determined to be part of the same lease contract or agreement, that contract or agreement must be evaluated in accordance with the guidance for contracts or agreements with multiple elements.

7.3.9. Lease Terminations and Modifications

7.3.9.1. Provisions of a lease contract or agreement can be amended while in effect, with common changes including price adjustments, term extensions or reductions, and the addition or removal of an underlying asset. The Component treats an amendment as a lease modification unless the lessee's right to use the asset decreases, in which case it considers the amendment a partial or full lease termination. In contrast, exercising an existing option, such as an option to extend or terminate the lease, is not considered an amendment but instead follows the guidance for remeasurement.

7.3.9.2. Lease Terminations. The lessee and lessor must account for an amendment during the reporting period resulting in a decrease in the lessee's right to use the underlying asset (for example, the lease term is shortened, or the number of underlying assets is reduced) as a partial or full lease termination.

7.3.9.3. Lease Modifications. A lease modification is treated as a new, separate lease if it adds an asset not included in the original agreement and the corresponding increase in lease payments is reasonable. If the modification is not accounted for as a separate lease, both the lessee and lessor must adjust their accounting.

7.3.10. Subleases

A sublease involves three parties: the original lessor, the original lessee (who becomes the sub-lessor), and the new lessee. The original lessor and the new lessee continue to apply general lessor and lessee guidance, respectively. Additionally, the lessor transactions related to the sublease must be disclosed separately from the lessee transactions related to the original lease.

7.3.11. Sale-Leaseback Transactions

7.3.11.1. Sale-leaseback transactions involve the sale of an underlying asset by the owner and a lease of the property back to the seller (original owner). A sale-leaseback must include a transaction that qualifies as a sale to be eligible for sale-leaseback accounting. A sale-leaseback transaction that does not include a transaction that qualifies as a sale must be accounted for as a borrowing by both the seller-lessee and the buyer-lessor. Refer to SFFAS 7.

7.3.11.2. In a sale-leaseback transaction, the sale and lease portions are treated as separate transactions. The difference between the capital asset's carrying value and its net sale proceeds is typically reported as unearned revenue or deferred expense, recognized systematically over the lease term in the statement of net cost. However, if the lease qualifies as short-term, this difference must be recognized immediately.

7.3.11.3. A sale-leaseback transaction is considered to have off-market terms if there is a significant difference between: (a) the sales price and the estimated fair value of the asset; or (b) the present value of the contractual lease payments and the estimated present value of what the lease payments for that asset would be at a market price, whichever of the two differences is more readily determinable.

7.3.11.4. A seller-lessee must disclose the terms and conditions of sale-leaseback transactions as part of the disclosures required of a lessee. A buyer-lessor must disclose the terms and conditions as part of the disclosures required of a lessor.

7.3.12. Lease-Leaseback Transactions

In a lease-leaseback transaction, an asset is leased by one party (first party) to another party and then leased back to the first party. A lease-leaseback transaction must be displayed in the financial statements as a net transaction. Both parties to a lease-leaseback transaction must disclose the amounts of the lease and the leaseback separately.

7.3.13. Capitalization Thresholds

Table 7-1 outlines the applicable capitalization thresholds for the underlying assets (PP&E) that are applied to the lease assets.

Table 7-1 Capitalization Threshold

Entity	Capitalization Threshold
Army Corps of Engineers Buildings and Structures Related to Hydropower	Capitalized regardless of cost
Army Corps of Engineers General PP&E Other than Buildings and Structures Related to Hydropower	$25,000
All Other DoW General Fund Entities General Equipment and Real Property*	$15,000,000
All Other DoW Working Capital Fund Entities Real Property*	$1,000,000
All Other DoW Working Capital Fund Entities General Equipment*	$500,000

7.3.14. Intragovernmental Leasehold Reimbursable Work Agreements

7.3.14.1. For intragovernmental reimbursable leasehold work agreements, the customer-lessee is normally expected to be the predominant beneficiary of the acquisition, construction, improvement, and/or alteration to the underlying asset.

7.3.14.2. The provider-lessor would not be expected to derive significant residual economic benefits or services from such reimbursable work under these types of agreements. The provider-lessor must expense the costs incurred for the reimbursable work and recognize the amounts received as reimbursement as intragovernmental revenue.

7.3.14.3. However, for acquisitions, construction, improvements, and/or alterations under an intragovernmental reimbursable leasehold work agreement with an expected useful life beyond the remaining lease term and for which the provider-lessor is expected to derive a significant level of residual economic benefits and services from the reimbursable work, the customer-lessee would not be considered the predominant beneficiary. The customer-lessee and provider-lessor must refer to the following guidance.

7.3.14.3.1. Customer-Lessee. Federal entity that pays for the acquisition, construction, or improvement of an asset provided by a "provider-lessor" on a reimbursable basis. Initially, the customer-lessee must recognize an intragovernmental reimbursable work asset for the amount payable for reimbursable work acquisition, construction, improvement, and/or alteration costs. This asset is then amortized as an expense systematically over the shorter of the remaining lease term or the useful life of the asset or improvement. Customer-lessees are also required to disclose a general description of their significant reimbursable work agreement activities.

7.3.14.3.2. Provider-lessor. Federal entity that handles the acquisition, construction, or improvements of an underlying asset for a customer-lessee on a reimbursable

basis. Initially, the provider-lessor must recognize an intragovernmental unearned revenue liability for the amount receivable for this work. This liability is then recognized as revenue systematically over the shorter of the remaining lease term or the useful life of the asset or improvement. Additionally, provider-lessors are required to disclose a general description of their significant reimbursable work agreement activities.

7.3.15. Additional Considerations

7.3.15.1. Standard General Ledger Accounts

The USSGL accounts used to report DoW lease entries are provided in the Transaction Library and Standard Reporting Chart of Accounts available on the Office of the DCFO SFIS web page.

7.3.15.2. Recognition Uncertainty

When there is uncertainty as to which DoW Component should record an item, the involved parties must first attempt to reach an agreement. If they cannot, the matter must be referred to the ODCFO, OUSW(C) for resolution, accompanied by adequate supporting documentation submitted through the Financial Management and Comptroller (FM&C) of the submitting Military Department or Defense Agency. As a general rule, the DoW Component that procures a leased item of PP&E is the one that must initially record the transaction. However, if a different DoW Component ultimately uses and benefits from that leased asset, the responsibility for recognizing the lease asset must be re-evaluated.

7.3.15.3. Bulk Acquisitions Through Leases

To determine proper recognition of bulk acquisitions through leases, the acquisition cost of all like items leased under multiple leases with a single lessor within a fiscal year must be totaled, and the resulting total must be considered against the lease criteria for capitalization and the capitalization threshold.

7.3.15.4. Accounting for OCONUS Real Property Leases and Managed by the Department of State.

For real property leases that are managed by the Department of State, the Department of State's Bureau of the Comptroller and Global Financial Services will provide relevant lease data to any agencies that occupy real property overseas and will allocate the residential housing pool lease balances (i.e., liability, corresponding right to use asset, and amortization) across the participating agencies.

7.3.15.5. Use of Canceled TAS

Capitalized assets must be reported and remain in GTAS even after the original purchasing TAS has expired and been canceled.

7.3.15.6. Supporting Documentation

DoW Components must support all financial transactions related to leases with source documents reflecting every transaction that affects their investment in the leased asset. The Component must maintain this documentation from the date it takes custody of the asset, link it to the appropriate unique identifier(s), and retain it so it is readily available in accordance with Volume 1. The documents must include sufficient information on the physical quantity, location, and unit cost of the underlying PP&E to support changes in the lease asset's value or physical attributes resulting from new leases, leasehold improvements, impairments, modifications, and terminations. These records must identify and classify PP&E that the Component has capitalized and must enable periodic, independent verification through physical inventories. Furthermore, the Component must integrate and reconcile the Accountable Property System of Record (APSR) with its accounting systems, USSGL accounts, and physical counts. This accountability extends to all PP&E the Department possesses, including leased property held by contractors, and the Component must also account for any improvements made to these leased assets.

7.3.15.7. Physical Inventories of PP&E

DoW Components must perform periodic physical inventories of real property and general equipment in accordance with DoDI 4165.14 and DoDI 5000.64, respectively.

7.3.15.8. Reporting Requirements

DoW Components with leased PP&E must reference a note on the Balance Sheet that discloses information about the reported assets. See Volume 6 for the specific reporting requirements.

7.3.15.9. Environmental Liabilities/Cleanup Costs

The lease agreement must clearly identify the party responsible for environmental liabilities/cleanup costs.

7.4 INTERNAL USE SOFTWARE

This details the DoW accounting policy for IUS, which is a subset of General PP&E. General PP&E, per SFFAS 10, includes IUS and consists of tangible and intangible assets that (1) have an estimated service life of two years or more; (2) are not intended for sale in the ordinary course of business; and (3) are intended to be used or available for use by the entity. The IUS general ledger accounts are listed in the government-wide USSGL contained in Volume 1. The accounting entries for these accounts and the DoW SCOA are specified in the DoW USSGL. Unless otherwise stated, this section is applicable to all DoW Components, including WCF activities.

7.4.1. “Software” includes the application and operating system programs, procedures, rules, and any associated documentation pertaining to the operation of a computer system or program. Most often, software is an integral part of an overall system(s) having interrelationships between software, hardware, personnel, procedures, controls, and data. IUS is software that is

acquired or developed to meet the entity's internal or operational needs (intended purpose). It is a stand-alone application, or the combined software components of an information technology system that can consist of multiple applications, modules, or other software components integrated and used to fulfill the entity's internal or operational needs (software type).

7.4.2. IUS can be purchased from commercial off-the-shelf (COTS) vendors and be ready for use with little or no changes, internally developed by employees of DoW, including new software and existing or purchased software that is modified with or without a contractor's assistance; or contractor-developed software that a DoW Component paid a contractor to design, program, install, and implement, including new software and the modification of existing or purchased software.

7.4.3. IUS includes software that is used to operate an entity's programs (e.g., financial and administrative software, including that used for project management), used to produce the entity's goods and to provide services (e.g., maintenance work order management and loan servicing); and developed or obtained for internal use and subsequently provided to other Federal Entities with or without reimbursement.

7.4.4. Integrated (embedded) software is not IUS.

7.4.4.1. IUS excludes computer software that integrates with and is necessary for operating General PP&E, rather than performing an application.

7.4.4.2. Software that a DoW Component uses in conjunction with equipment is distinct from integrated or embedded software. The Component can consider this software as IUS if it meets the following criteria: the Component developed the software separately from the equipment; the equipment does not require the software to perform its core purpose and functions; and the Component does not know the quantity of equipment items on which it will install the software.

7.4.4.3. Additionally, the Component may treat software as a separate IUS asset, rather than as integrated or embedded software, when it develops the software separately and installs it on several assets at different times. For example, the Component can treat anti-ballistic missile software that it installs on multiple radar systems at different times as a separate IUS asset, provided the software meets the capitalization threshold.

7.4.4.4. DoW Components may purchase IUS as part of a package of products and services (e.g., training, maintenance, data conversions, reengineering, site licenses and rights to future upgrades and enhancements). They must allocate costs based on the relative fair values of the IUS and the services if the costs are not readily separable between the IUS and the services on the invoice. They must capitalize the cost of the IUS (assuming it meets the capitalization criteria) and expense the cost of the training/maintenance. They must expense non-IUS costs (e.g., training and maintenance services) that are not susceptible to allocation between maintenance and relatively minor enhancements.

7.4.5. USSGL Accounts

7.4.5.1. The DoW Components must record IUS transactions to general ledger accounts in the financial statements required by the Treasury and other reporting requirements mandated by Congress and OMB. The USSGL Transaction Library outlines detailed posting transactions, and the DoW SCOA provides detailed account descriptions. The DoW SCOA is located on the ODCFO SFIS webpage.

7.4.5.2. DoW Components may elect to create subaccounts within their general ledger systems to track software under development at a detailed level; however, the internal subaccounts must summarize to one USSGL/DoW account.

7.4.5.3. Management must retain adequate supporting source documentation for entries in accordance with Volume 1.

7.4.6. Valuation

Record the acquisition and other costs necessary to make the software operable.

7.4.7. Alternative Valuation Methodology for Establishing Opening Balances

7.4.7.1. Establishing Opening Balances for IUS

7.4.7.1.1. The alternative valuation method for establishing opening balances for IUS described in FASAB SFFAS 50: Amending SFFAS 6, SFFAS 10, SFFAS 23, and Rescinding SFFAS 35 is available only once to each reporting entity. Therefore, prior to the establishment of IUS opening balances, DoW Components must validate that they are prepared to account for and comply with the recognition, measurement, presentation, and disclosure requirements for IUS in accordance with FASAB SFFAS 10.

7.4.7.1.2. DoW Components must identify any IUS that they have capitalized prior to establishing opening balances, including capitalized development costs. All DoW Components that have not previously undergone a financial statement audit in which they received an unmodified (i.e., "clean") audit opinion will exclude the value of all IUS, including development costs, from opening balances of General Property, Plant, and Equipment on their Balance Sheet. A DoW Component that has received a "clean" audit opinion should continue to account for IUS, including development costs, in accordance with FASAB SFFAS 10 and will not reduce their balances to zero.

7.4.7.1.3. Entries in the DoW Component accounting systems/records to record IUS opening balances at zero are subject to the reporting requirements under paragraph 13 of FASAB SFFAS 21, Amendment of SFFAS 7. Accordingly, reflect the entries as a change in accounting principle. Document and support any adjustments to assist ongoing audit efforts.

7.4.7.2. Financial Statement Disclosure Requirements

DoW Components that adjust their opening IUS balances must disclose in their financial statements that they used an alternative valuation method in establishing their opening balances.

7.4.7.3. Prospective Accounting for IUS

7.4.7.3.1. DoW Components must capitalize IUS costs for IUS in-service and IUS in development in accordance with the provisions of FASAB SFFAS 10 after recording the opening balances at zero. This capitalization requirement includes IUS development costs incurred after the establishment of opening balances for projects started prior to the establishment of opening balances. DoW Components must have sufficient source documentation to support the capitalized amounts of IUS based on actual historical cost. DoW Components must apply the provisions of FASAB SFFAS 10 regarding amortization and impairment to any unamortized capitalized cost of the IUS.

7.4.7.3.2. DoW Components must fully implement the systems, internal controls, processes, and procedures to be compliant with accounting for IUS under FASAB SFFAS 10. They must also periodically review and update the documentation of the systems, processes, and procedures as needed.

7.4.8. Recognition

7.4.8.1. DoW Components must recognize all acquired IUS for accountability and financial reporting purposes. Recognition requires the proper accounting treatment (expense or capitalization with amortization) and the reporting of capitalized amounts and accumulated amortization on the appropriate DoW Component's financial statements.

7.4.8.2. Recognition Responsibility

7.4.8.2.1. The DoW Component's financial reporting responsibility can be determined using two-tier criteria:

7.4.8.2.1.1. Exclusive/sole Use. When a DoW Component is the exclusive/sole user of capitalized IUS, it will report the IUS on its Balance Sheet. If there is no exclusive/sole user, the DoW Component must apply the second criteria.

7.4.8.2.1.2. Control. If an exclusive/sole user does not exist, the DoW Component that controls the IUS will have financial reporting responsibility. Evidence of control can include funding the software maintenance, exercising access control, and prioritizing enhancements.

7.4.8.2.2. DoW Components that possess and/or control IUS items that materially contribute to the Component's mission must maintain accounting and financial reporting for such items, regardless of the organization that originally acquired or provided the

funding for the items. If a DoW Component prepares financial statements, it must appropriately recognize IUS in its financial statements.

7.4.8.3. Recognition Uncertainty

To prevent duplicative accounting records, DoW Components must agree as to which entity will recognize an item when there is doubt. The process and terms of this agreement must be formally documented in a MOA, which will then serve as the official supporting documentation. If DoW Components cannot reach an agreement, they must refer the matter to the ODCFO, OUSW(C) for resolution. DoW Components must submit requests for resolution with adequate supporting documentation to assist in resolving the matter, and they should send these requests through the FM&C of their respective Military Department or Defense Agency.

7.4.8.4. Recognition Timing

7.4.8.4.1. Recognition of the COTS IUS for financial reporting purposes must occur no later than the technical acceptance of the software.

7.4.8.4.2. Record IUS in development anticipated to meet capital criteria in the IUS in Development account during the design, development, and testing phases. DoW Components must recognize the IUS asset, transfer capital costs to the IUS account, and establish accountability in the APSR after completing technical acceptance testing.

7.4.8.4.2.1. Larger and more complex software systems, such as Enterprise Resource Planning systems, are developed and placed in service over time. After successfully testing a module or component of a software project, the Component must move costs from IUS in Development to IUS and begin amortization.

7.4.8.4.2.2. If the use of a module is dependent on the completion of another module(s), move costs from IUS in Development to IUS when both that module and the other module(s) have successfully completed testing.

7.4.8.4.3. For IUS assets acquired by a contractor on behalf of a DoW Component, recognize the software upon completion of the technical acceptance testing by the contractor performing the service, or by the DoW Component. Record contract financing payments (e.g., progress payments, performance-based payments, and commercial interim payments) made to a contractor prior to completion of final technical acceptance testing in a Software in Development account until the IUS is placed in service. Capitalize upon completion of technical acceptance testing.

7.4.8.5. Capitalization Threshold, Criteria, and Cost Treatment

7.4.8.5.1. The current IUS capitalization threshold for all DoW Components is $250,000. However, DoW Intelligence Community Entities may elect to use a capitalization threshold of $1 million. The capitalization threshold described above is for financial reporting purposes.

7.4.8.5.2. DoW Components must apply the treatment of costs based on the nature of the costs incurred, not the exact sequence of the work.

7.4.8.5.3. The capitalized costs of internally developed software should be limited to costs incurred:

7.4.8.5.3.1. After the DoW Component authorizes and commits to a software project and believes that it is more likely than not that the project will be completed and the software will be used to perform the intended function(s), and it will have an estimated service life of two years or more; and

7.4.8.5.3.2. After the completion of the planning and requirements phase (i.e., project evaluation, concept testing, and evaluation of alternatives) as evidenced by a documented approval decision.

7.4.8.5.4. Technical acceptance testing is testing undertaken to verify if a software product meets technical specifications. Capitalize technical acceptance testing costs after technical acceptance; expense operational testing, evaluation, and other functional testing.

7.4.8.5.5. Capitalize the amounts paid to a COTS vendor for the software.

7.4.8.6. Documentation

7.4.8.6.1. DoW Components must assign a dollar value (i.e., recorded cost) to the IUS when recording the acquisition of IUS in the APSR and/or accounting system. Appropriate documentation must be available to support the dollar value.

7.4.8.6.2. To establish proper PP&E financial control when acquiring IUS from another DoW Component or Federal Agency, the acquiring DoW Component must request from the losing DoW Component or other Federal Agency, the necessary source information and financial transfer documents, to include a unique identifier(s) for the software(s); location; original acquisition cost(s); cost of enhancements; the date the software was developed, or acquired; the estimated useful life; the amount of accumulated amortization; and other relevant information linked to that software. If this information is not available, the gaining and losing entities must develop and document a reasonable estimate to support the financial transfer of the software.

7.4.8.6.3. Capitalized IUS costs must have sufficient supporting documentation, including support for costs incurred in the development of the IUS. DoW Components must provide narratives, software architectural documentation, user manuals, and other similar documents to substantiate whether they treat the IUS as separate IUS assets, supporting the functionality of the components/modules of a software system.

7.4.8.7. Joint Ventures

If two or more entities, including at least one entity outside of the DoW, develop the IUS through a joint venture, the DoW Component must capitalize the IUS asset if it meets the criteria

for capitalization, based on its share of the development cost in relation to the capitalization threshold. The DoW Component only capitalizes the portion it funded if it meets the criteria for capitalization.

7.4.8.8. Bulk Purchases of Software Applications/Programs

7.4.8.8.1. Bulk purchases must be considered if they materially affect the fiscal year financial statements during which they were purchased. Bulk purchases of software with an aggregate cost that exceeds the capitalization threshold must be capitalized.

7.4.8.8.2. When multiple acquisitions of the same IUS application(s)/programs (for example, spreadsheets, word processing programs, etc.) or modules or components of a software system are made as part of a single contract within a fiscal year, the purchases must be added together to determine whether they meet the capitalization threshold. Purchases made on a single contract during separate fiscal years are to be considered separately. DoW Components must not split bulk purchases into multiple transactions with the intent of avoiding capitalization.

7.4.8.8.3. Bulk purchases of licensed IUS with terms less than two years in length do not need to be considered for capitalization.

7.4.8.9. Software Licenses

7.4.8.9.1. Software licenses grant the license holder the right to use the software for a specific time period. After this period expires, the license holder must renew the license or purchase a new one to continue using the software. License agreements to use software come in many forms and vary in length of the license period. Software licenses can be term or perpetual.

7.4.8.9.1.1. Term licenses provide DoW Components the right to use IUS for a specified period of time. Capitalize or expense term-licensed IUS.

7.4.8.9.1.2. Perpetual software licenses allow the DoW Component to use the software indefinitely in exchange for an upfront cost, which they can pay as a one-time payment or finance over a set period. Apply capitalization criteria if the license is perpetual to determine whether to capitalize or expense.

7.4.8.9.2. The IUS can be expensed if the license term is less than two years, the license cost (excluding any maintenance agreements) is less than the capitalization threshold, or the aggregate cost of a bulk license purchase (excluding any maintenance agreements) is less than the capitalization threshold.

7.4.8.9.3. A license agreement may include executory costs for maintenance and technical support. DoW Component judgment should apply in determining what portions of license fees are attributable to software capitalizable costs versus executory costs. DoW Components may also want to consider having each license agreement specifically identify

the various costs throughout the license life cycle, for example, initial license, maintenance, and enhancement.

7.4.8.9.4. Additional guidance regarding accounting for license agreements includes:

7.4.8.9.4.1. Expense maintenance costs agreed to as part of the initial license agreement in the period they are incurred;

7.4.8.9.4.2. Expense "True-up" costs associated with unlimited license agreements or enterprise licenses that may occur (depending on the agreement terms) at the end of each year to reconcile and account for the actual quantity of users; and

7.4.8.9.4.3. Expense software upgrades from annual maintenance and security assurance agreements; do not capitalize as enhancements or separate assets.

7.4.8.10. Cloud and Other Subscription-Based Services

7.4.8.10.1. A cloud computing service is any resource that is accessible over the Internet. It has the following essential characteristics: on-demand self-service, broad network access, resource pooling, rapid elasticity, and measured service.

7.4.8.10.2. When a DoW Component pays regular subscription fees to access and use software from a non-DoW entity, it should expense subscription costs in the period incurred. This scenario is a service and does not constitute an IUS asset for the DoW Component.

7.4.8.10.3. A subscription arrangement using a cloud with a non-DoW entity can result in DoW-owned IUS if the using DoW Component takes possession, or can take possession of a software application without incurring a significant penalty. DoW Components must capitalize this IUS if it meets the capitalization criteria.

7.4.8.10.4. When a cloud or subscription arrangement exists between DoW Components, the Component that owns the software will report it as IUS. The subscribing DoW Component(s) will expense any fees paid for the service in the period incurred.

7.4.8.10.5. If a cloud computing arrangement includes a software license, the customer must account for the software license element of the arrangement consistent with the acquisition of other software licenses. SFFAS 10 is not applicable to a cloud computing arrangement that does not convey a contractual right to the IUS or to ones that do not include an IUS license. The entity that develops and owns the software, platform, or infrastructure used in the cloud computing arrangement would account for the software development in accordance with SFFAS 10. If the funding to develop cloud computing is shared among entities without clear ownership, the service provider entity that receives funding and is responsible for maintaining the software, platform, or infrastructure must account for the software in accordance with SFFAS 10 and the full cost/inter-entity cost requirements of SFFAS 4.

7.4.8.11. Shared Services

7.4.8.11.1. Shared services is a mission or support function provided by one business unit to other business units within or between organizations. The funding and resourcing of the service is shared, and the providing entity effectively becomes an internal/external service provider.

7.4.8.11.2. There are three types of shared service structures in the Federal Government:

7.4.8.11.2.1. Intra-agency. Intra-agency shared services include those provided within the boundaries of a specific organization, such as a Federal Department or Agency, to that organization's internal units. Intra-agency shared services would be those between one DoW Component and another DoW Component.

7.4.8.11.2.2. Inter-agency. Inter-agency shared services are those provided by one Federal Organization to other Federal Organizations that are outside of the provider's organizational boundaries. Inter-agency shared services would be those between one DoW Component and another Federal Agency/Organization outside of DoW.

7.4.8.11.2.3. Commercial. Commercial shared services are those provided by private vendors.

7.4.8.11.3. For intra-agency shared services, a cost allocation methodology could be developed in accordance with SFFAS 4. For inter-agency shared services and commercial shared services, the service provider entity that owns (receives funding/responsible for maintaining) the software must account for the software in accordance with SFFAS 10. In the event that the entity receiving the service (the customer) has the contractual right to take possession of the software at any time during the hosting period without significant penalty, and it is feasible for the customer to either run the software on its own hardware or contract with another party unrelated to the vendor to host the software. The customer must account for the software in accordance with SFFAS 10.

7.4.8.11.4. If the shared service arrangement includes a software license, the DoW Component must account for the software license element of the arrangement consistent with the acquisition of their other software licenses. SFFAS 10 is not applicable to a shared service arrangement that does not convey a contractual right to the IUS or to ones that do not include an IUS license.

7.4.8.12. Accountable Records of IUS

DoW Components must establish accountable records for all government IUS. Account for IUS that meet the criteria for capitalization in an APSR. DoW Components must also establish and maintain accountability records for IUS that do not meet the criteria for capitalization in either an APSR or approved managerial system through disposition or transfer. Managerial systems must contain all general data elements contained in a data-compliant APSR. In addition, managerial systems must document controls and procedures in place that are sufficient to withstand potential

audit scrutiny and support the audit requirement of a complete universe of assets. The primary Accountable Property Officer (APO) or designated delegate should grant managerial system approval. See DoDI 5000.76.

7.4.9. IUS Enhancements

7.4.9.1. DoW Components must capitalize an enhancement that increases the capability of the IUS when its cost meets or exceeds the capitalization threshold.

7.4.9.2. Evaluate modules together as one enhancement if one module is dependent upon another to function. DoW Components must amortize all costs of an enhancement that they have capitalized based on the IUS capitalization criteria, including any costs they carry over or allocate from the original software, over the enhancements' estimated useful life, which should not exceed five years.

7.4.9.3. DoW Components must begin to accumulate costs for enhancements when these enhancements are more likely than not to produce new capabilities; and the project phase in which the costs are being incurred and the nature of the cost meet the criteria for capitalization treatment; and the estimated total cost of the enhancement meets the IUS capitalization threshold.

7.4.9.4. DoW Components must separately account for enhancements in a manner that allows them to specifically identify and support each capitalized enhancement made to the IUS.

7.4.9.5. Expense an enhancement to IUS that meets or exceeds the capitalization threshold to correct a design flaw, and in effect doubles its useful life, in the period incurred, unless the enhancement adds new capabilities to the software. However, the useful life of the IUS is subject to adjustment and must reflect the enhancement.

7.4.9.6. Expense the cost of minor enhancements resulting from ongoing systems maintenance or incurred solely to repair a design flaw without adding additional capabilities in the period incurred. Examples of minor enhancements include updating data tables, web-enabling, customizing reports, or changing graphic user interfaces. Expense enhancements that extend the useful life of the software without adding significant capabilities. However, in instances where the useful life of IUS is extended, DoW Components must adjust the amortization.

7.4.9.7. A specific software development project may include expenditures for enhancements and maintenance that the Component cannot easily separate but can reasonably and consistently allocate. As one approach, the Component can use a ratio based on the projected work hours for development phase activities relative to other types of work. The Component must apply this ratio to determine which expenditures to capitalize, provided the expenses meet the other capitalization criteria. The Component must apply this basis for allocating costs consistently and in accordance with GAAP.

7.4.9.8. Retain documentation related to IUS enhancement decisions, such as the justification for capitalizing the enhancement, a change of useful life, and the amount to capitalize.

7.4.9.9. Only capitalize the cost of enhancements to more than one IUS asset as identified by a unique identifier, when performed under a single contract or work order that cannot be specifically identified by asset, if the allocated cost per IUS equals or exceeds the appropriate DoW capitalization threshold and the enhancements are more likely than not to add additional capability to the existing software.

7.4.9.10. When a single IUS undergoes more than one enhancement as part of a single overall effort to increase its functionality and/or useful life, the Component must capitalize the sum of the enhancement costs if the total equals or exceeds the appropriate DoW capitalization threshold. The Component must follow this requirement even when it funds the enhancements separately. The Component must capitalize the enhancements once it determines that it is more likely than not that the enhancements will result in significant new capabilities.

7.4.10. Maintenance and Repair

7.4.10.1. Maintenance and repair costs are not capital enhancements, regardless of whether the cost equals or exceeds the DoW capitalization threshold. Maintenance and repairs are activities directed toward keeping IUS assets in an acceptable condition so that they continue to provide services and achieve their expected useful life.

7.4.10.2. When determining whether to capitalize the IUS, do not include the costs of maintenance agreements purchased with a software license in the historical cost of the IUS. If DoW Components cannot distinguish maintenance costs from the cost of the license itself, they must use reasonable and documented estimating methods. Do not capitalize upgrades included in annual maintenance and security assurance agreements.

7.4.11. Amortization

7.4.11.1. Amortization is the systematic and rational allocation of the acquisition cost of an IUS over its estimated useful life. During the planning phase of IUS development, the DoW Component must determine the useful life based on how long it expects the IUS to provide economic benefit or service potential. The Component must document its decision regarding the useful life, a decision it must make with input from personnel who are familiar with the software's technical characteristics and planned use. For IUS acquired for R&D with no alternative future use, the Component must amortize the cost over the period of the project, as opposed to applying the normal life-cycle amortization.

7.4.11.2. DoW Components must amortize the recorded cost of capitalized IUS and enhancements to IUS. They must also reflect these capitalized amounts, as well as the associated accumulated amortization and amortization expense, in their financial statements.

7.4.11.3. DoW Components must document the PISD for both acquired IUS and developed IUS. Documentation of PISDs is critical in determining when to start amortization of capitalized IUS costs. IUS is considered placed in service when final technical acceptance testing is completed. The point at which this milestone is reached can vary for different types of software acquisitions.

7.4.11.4. When replacing the IUS with new software, expense the unamortized cost of the old IUS when the new IUS successfully completes testing. No adjustments will be made to the previously recorded amortization. Treat any additions to the book value or changes in useful life prospectively. Account for the change during the period of the change and future periods.

7.4.11.5. Account for all IUS in an APSR.

7.4.11.6. The program office must retain proper supporting documentation to justify the estimated useful life of the program.

7.4.11.7. In the case of IUS assets, after the successful completion of the final technical acceptance testing, the calculation of amortization is based on the date the asset is installed and placed in service (regardless of whether it is actually used).

7.4.11.8. DoW policy permits the use of only the straight-line method of amortization. Calculate straight-line amortization expense based on the recorded cost divided equally among accounting periods during the software's useful life based on recovery periods. The salvage value for all capitalized IUS for the DoW Components should be zero.

7.4.11.9. Retain the IUS asset in APSR if it remains in use longer than its estimated useful life, as well as the accounting records, and reflect both its recorded cost and accumulated amortization until disposition of the software.

7.4.11.10. WCF activities are required to recognize and amortize IUS assets without regard to whether such assets are procured through a WCF activity's Capital Purchase/Investment Program budget or whether amortization for such assets is included in rates charged to customers. The recognition of IUS assets and the amortization of such assets by WCF activities therefore may be different for financial statement reporting purposes than the amortization amounts used for WCF rate development and budget presentation. All IUS asset amortization of WCF activities must be recognized as an expense on the Statement of Net Cost, reflected in the Statement of Changes in Net Position, included in accumulated amortization amounts on the Balance Sheet, and reported in the "Defense Working Capital Fund Accounting Report [Accounting Report (Monthly) 1307] (AR(M)1307)." Accounting Report 1307 is described in Volume 6. Amortization recorded on IUS assets that were not acquired nor will be replaced through the use of DWCF resources must be classified as non-recoverable for rate-setting purposes and reported appropriately on the AR(M)1307. DWCF rates charged to customers are based on guidance in Volume 2 and Volume 11.

7.4.12. Impairment

7.4.12.1. The Component must recognize and measure an impairment when one of the following events occurs and is related to post-implementation/operational IUS assets:

7.4.12.1.1. The IUS asset is no longer expected to provide substantive service potential and will be removed from service; or

7.4.12.1.2. A significant reduction occurs in the software's or software module's capabilities, functions, or uses.

7.4.12.2. If the impaired software is to remain in use, the loss due to impairment must be measured as the difference between the book value and either:

7.4.12.2.1. The cost to acquire software that would perform similar remaining functions (i.e., the unimpaired functions) or, if that is not feasible;

7.4.12.2.2. The portion of the book value attributable to the remaining functional elements of the software.

7.4.12.3. Recognize the loss upon impairment and reduce the book value of the asset accordingly. If amounts cannot be determined, the DoW Component should continue to amortize the book value over the remaining useful life of the software. Document and retain this decision and associated analyses.

7.4.12.4. If the DoW Component removes the impaired IUS asset from use, it must measure the loss as the difference between the book value and the NRV, if any. The Component must recognize the loss upon impairment and reduce the asset's book value accordingly. Finally, the Component must transfer the NRV, if any, to an appropriate asset account and hold it there until it disposes of the software and realizes the amount.

7.4.12.5. When a DoW Component determines it is more likely than not that it will not complete a developmental software project, the Component must stop capitalizing costs and must immediately expense any costs it has already capitalized for that project.

7.4.12.6. When an IUS developmental software project is suspended pending management's evaluation as to whether to resume or terminate the project, the software development cost may remain capitalized in an IUS in Development account (USSGL 183200) as long as it is more likely than not that the developmental software project will eventually be completed and that the cost incurred or expected to be incurred meets the capitalization threshold. Reevaluate the status of the project periodically and write off capitalized costs if management concludes that it is more likely than not that the software will not be placed in service in the future.

7.4.12.7. Recognize and report the loss from impairment, if any, in the Statement of Net Cost in the period in which the DoW Component concludes that the impairment is both (1) a significant decline in service utility and (2) expected to be permanent. Include such losses in program costs or costs not assigned to programs. A general description of the IUS for which an impairment loss is recognized, the nature (e.g., damage or obsolescence) and amount of the impairment, and the financial statement classification of the impairment loss must be disclosed in the notes to the financial statements in the period the impairment loss is recognized if the amount is significant to the financial statements.

7.4.12.8. Report the impairment loss net of any associated recovery of the NRV when the recovery and loss occur in the same fiscal year. Report recoveries in subsequent fiscal years as revenue or other financing source, as appropriate. Disclose the amount and financial statement classification of recoveries in the notes to the financial statements.

7.4.12.9. Account for the costs incurred to replace or restore the lost service utility of impaired IUS remaining in use in accordance with applicable standards (i.e., recognized according to the nature of the costs incurred and the appropriate capitalization threshold).

7.4.13. Removal/Disposal

7.4.13.1. In TR 14, FASAB defines removal from service as an event that terminates the use of a General PP&E asset. DoW Component Heads must establish and maintain effective policies and procedures for the removal (disposal or transfer) of IUS assets.

7.4.13.2. If an IUS's normal use is terminated (i.e., it no longer provides service in the operations of the entity) but the DoW Component has not yet decided to permanently remove the IUS from service, the removal from service is considered other than permanent. Other than permanent removal from service is evidenced by activities such as continuing low-level maintenance to sustain the IUS in a recoverable status or until reutilization efforts are exhausted.

7.4.13.3. If (1) an IUS's use is terminated and (2) the DoW Component has documented its decision to permanently remove the IUS from service, the removal from service must be accounted for as permanent. Permanent removal from service is evident from the DoW Component's documented decision to dispose of an IUS by selling, recycling, or donating the IUS.

7.4.13.4. When an IUS is disposed of (e.g., by selling, recycling, donating, or destruction), the IUS must be written off from the financial records and financial statements, and the difference between any disposal proceeds and the IUS's net book value must be recognized as a gain or loss.

7.4.13.5. Upon authorized disposition, APOs are responsible for ensuring that all IUS asset dispositions and transfers are properly recorded in the APSR or managerial system, including updating the asset's status to "Disposed," recording the date and method of disposition. The reason for disposition or transfer of IUS assets must be properly documented. The APO retains all supporting documentation per record retention policies. Refer to DoDI 5000.76 for additional information.

7.4.14. Additional Considerations

7.4.14.1. Use of Canceled TAS. Capitalized assets are required to be reported and remain in GTAS after the original purchasing TAS has expired and been canceled. If a capitalized asset has not been moved to a "C" TAS, GTAS will provide a "C" TAS on the GTAS Super Master Account File (SMAF) for each fund family represented on the SMAF. The system-generated "C" TAS will have three components: the three-digit agency identifier, availability type "C", and a four-digit main account. All DoW Components must use the "C" availability type TAS to report

capitalized assets. Assets may be moved to a C TAS at any time from the purchase date to the date the original purchasing fund is canceled. Refer to the TFM, Part 2, Chapter 4700.

7.4.14.2. Supporting Documentation. Entries to record financial transactions in accounting system general ledger accounts and/or the supporting subsidiary accountable property records and/or systems must:

7.4.14.2.1. Be supported by source documents that reflect all transactions affecting the DoW Component's investment in the IUS.

7.4.14.2.2. Support all acquisitions, whether by purchase, transfer from other agencies, donation, or other means, as of the date the DoW Component takes custody of the IUS with supporting documents.

7.4.14.2.3. Support all disposals or retirements as of the date the IUS leaves the custody of the DoW Component to provide an adequate audit trail for the disposal of an asset. The execution of certain disposal events will generate financial or administrative accountability transactions.

7.4.14.2.4. Retain documents that support the recorded cost of IUS assets by the DoW Component in accordance with their DoW Component records retention requirements. Maintain documentation in a readily available location during the applicable retention period to permit the validation of information pertaining to the asset, such as the purchase cost, purchase date, and cost of enhancements. The documentation must also be linked to the appropriate unique identifier(s).

7.4.14.3. Include sufficient information indicating the quantity. location, and unit cost of the IUS. Designate the accountable property records to be of maximum assistance in making procurement and utilization decisions, including decisions related to identifying potential excess IUS that may be available for reuse, transfer to other DoW Components, or made available for disposal in accordance with current DoW regulations and other regulatory requirements.

7.4.14.4. Identify and classify IUS that were capitalized, recorded in the APSR and accounting system, and reported in the financial statements.

7.4.14.5. Be based on the same documents to ensure that entries to the accounting and accountable property records are the same. This will ensure that the property accountability records are integrated and subsidiary to the accounting system, and those records can be reconciled with the accounting system.

7.4.14.6. Include documents used to accumulate the cost of developmental projects. Each document must be linked to the appropriate asset unique identifier.

7.4.14.7. Include all IUS possessed by the Department (to include property held by others) and IUS of others held by DoW through seizure, forfeiture, loss, or abandonment.

7.4.14.8. Provide information to identify and account for capitalized enhancements to IUS.

7.4.15. Reporting Requirements

DoW Components with IUS should reference a note on the Balance Sheet that discloses information about the reported IUS assets. See Volume 6 for the specific reporting requirements.

7.5 HERITAGE ASSETS, MULTI-USE HERITAGE ASSETS, AND STEWARDSHIP LAND

7.5.1. This section establishes the accounting policy and requirements for financial control over heritage assets, multi-use heritage assets, and stewardship land. Volume 1 discusses the applicable general ledger accounts listed in the USSGL. The DoW USSGL Transaction Library contains both the DoW SCOA and the accounting entries for these PP&E accounts. DoW Components must recognize all acquired heritage assets, multi-use heritage assets, and stewardship land for accountability (in accordance with DoDI 4165.14, DoDI 4165.70, and DoDI 5000.64) and financial reporting purposes. Unless otherwise stated, all DoW Components, including WCF activities, must follow this section.

7.5.2. Heritage Assets

7.5.2.1. Heritage assets are PP&E that experts consider unique due to their historical or natural significance, cultural, educational, or artistic importance, or significant architectural characteristics.

7.5.2.2. Heritage assets consist of (1) collection-type assets, such as objects gathered and maintained for exhibition (e.g., museum collections, art collections, and library collections); and (2) non-collection-type assets (e.g., memorials, monuments, buildings, and archeological sites). Cultural resources and historic properties, defined in DoDI 4715.16, may be categorized as heritage assets for financial reporting purposes if they have the attributes of heritage assets described in this definition.

7.5.2.3. Heritage assets are generally expected to be preserved indefinitely.

7.5.2.4. The cost or value must not serve as a factor when deciding if an asset must be classified as a heritage asset.

7.5.2.5. If a particular asset is listed on the National Register of Historic Places, it is heritage in nature. If it is not listed on the National Register of Historic Places, refer to cultural resources and collections policies, published registers, and consult with DoW subject matter experts (i.e., the DoW cultural resources or museum staff) when making this assessment. Designation of a PP&E asset (including such assets as museum, library, and art collections) as a heritage asset can be done at any time in its life cycle, based on the application of evaluation criteria by qualified staff.

7.5.2.6. Historic significance may be identified if a property/asset meets at least one of the following criteria adapted from the National Register of Historic Places as determined by the relevant DoW Component with concurrence by the relevant State Historic Preservation Officer, or as determined by the guidelines of the National Register of Historic Places in 36 CFR, Part 60, Section 60.4:

7.5.2.6.1. Association with historic events or activities that have made a significant contribution to the broad patterns of history (e.g., battles, development of military technology, prehistoric cultural patterns);

7.5.2.6.2. Association with the lives of significant historic persons (e.g., important military leaders, political leaders, inventors);

7.5.2.6.3. Distinctive design or physical characteristics of a type, period, or method of construction (e.g., work representative of a particular approach to military design or a particular type or style of architecture or engineering); or that represents the work of a master (e.g., work of a master architect, landscape architect, planner, or engineer); or that possess high artistic values (e.g., artwork that a recognized artist commissioned to commemorate military history); or that represents a significant and distinguishable entity whose components may lack individual distinction (e.g., a formative example of standardized planned military housing); or

7.5.2.6.4. Have yielded or may be likely to yield important information about prehistory or history (e.g., an archeological site on a military installation).

7.5.2.7. Ordinarily, cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years are not considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that meet the criteria, or if they fall within the following categories:

7.5.2.7.1. A religious property deriving primary significance from architectural or artistic distinction or historical importance; or

7.5.2.7.2. A building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or

7.5.2.7.3. A birthplace or grave of a historical figure of outstanding importance if there is no appropriate site or building directly associated with their productive life.

7.5.2.7.4. A cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or

7.5.2.7.5. A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived; or

7.5.2.7.6. A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own exceptional significance; or

7.5.2.7.7. A property achieving significance within the past 50 years if it is of exceptional importance.

7.5.2.8. As contrasted with multi-use heritage assets, heritage assets are not used predominantly in general government operations. Heritage assets having an incidental (i.e., not significant or predominant) use in government operations are not considered and are not classified as multi-use heritage assets; they are simply heritage assets.

7.5.2.9. Some heritage assets will meet the definitions of, and be considered and reported as, both heritage assets and stewardship land. Such reporting would not be considered duplication as the type of information reported on the physical unit would be different for each category of stewardship asset (i.e., heritage assets and stewardship land).

7.5.3. Acquisition/Valuation

Expense the cost of acquiring heritage assets in the period incurred. The cost must include all costs incurred to bring the asset to a form and location suitable for its intended use.

7.5.4. Recognition and Measurement

7.5.4.1. Recognize the cost of acquiring, improving, reconstructing, or renovating heritage assets on the Statement of Net Cost for the period in which the cost is incurred. Include all costs incurred to bring the asset to its current condition and location.

7.5.4.2. Do not recognize revenue for heritage assets acquired through donation or devise (a will or clause of a will disposing of property).

7.5.4.3. Transfers of heritage assets from one DoW Component to another or to another Federal agency do not affect the net cost of operations or net position of either entity.

7.5.5. Removal/Disposal

Heritage Assets can be removed from service or otherwise disposed of.

7.5.6. Disclosure Requirements

The DoW Component that has control over the heritage asset must report information about the heritage assets in its financial statement note disclosures as set forth in SFFAS 29. Disclosures must include physical units of measure.

7.5.7. Multi-Use Heritage Assets

7.5.7.1. Heritage assets may in some cases serve two purposes: (i) a heritage function and (ii) a government operations function. In cases where a heritage asset serves two purposes, and the predominant use of the asset is in general government operations, officials must consider and classify the heritage asset as a multi-use heritage asset.

7.5.7.2. The costs of acquisition, improvement, or renovation of multi-use heritage assets must be capitalized as general PP&E and depreciated if the costs equal or exceed the DoW capitalization threshold. Expenses are the costs that do not equal or exceed the capitalization threshold.

7.5.7.3. Assets classified as multi-use heritage assets and acquired through donation or devise must be recognized as general PP&E at the fair value of the assets at the time received, and the amount must be recognized as non-exchange revenues as defined in SFFAS 7.

7.5.7.4. When a Federal entity transfers a multi-use heritage asset to another (including between DoW Components or between a DoW Component and another Federal entity), the receiving entity must recognize it as a transfer-in and an additional financing source. The transferring entity must recognize a transfer-out. The receiving entity must record the value at the transferring entity's net book value for the multi-use heritage asset.

7.5.7.5. Capital improvements or enhancements to multi-use heritage assets must be capitalized in accordance with general PP&E.

7.5.7.6. The recorded cost of capitalized multi-use heritage assets must be depreciated in accordance with the general PP&E guidance.

7.5.7.7. Multi-use heritage assets are subject to the same impairment ruleset as general PP&E.

7.5.7.8. Multi-use heritage assets must be removed and disposed of in accordance with the general PP&E guidance.

7.5.8. Disclosure Requirements

Multi-use heritage assets require additional descriptive information in the heritage asset note disclosure as set forth in SFFAS 29. Multi-use heritage assets are to be reported in both the principal financial statements (in dollars) as general PP&E and in the heritage asset note disclosure (in physical units). Disclosures must include physical units of measure.

7.5.9. Use of Canceled TAS

Multi-use heritage assets are required to be reported in the Treasury's GTAS.

7.5.10. Stewardship Land

7.5.10.1. Stewardship land includes both public domain and acquired land and land rights owned by the Federal Government intended to be held indefinitely but not acquired for or in connection with the acquisition or construction of real property facilities. Stewardship land also includes areas reserved, managed, planned, used, or acquired for forests and parks, recreation and conservation, and wildlife habitat and grazing. It encompasses land used for the conservation or preservation of cultural and historic sites, for ancillary revenue-generating activities like mineral development, and as buffer zones for security, flood management, and noise and viewsheds. While DoW stewardship lands support environmental conservation, they also support military readiness. To prepare for global challenges, soldiers conduct training in deserts, forests, wetlands, and coastal areas.

7.5.10.2. Land rights such as easements or rights-of-way that are for an unspecified period of time or unlimited duration are considered permanent land rights in perpetuity. Temporary land rights are those land rights that are for a specified period of time or limited duration.

7.5.10.3. The DoW defines "Acquired for or in connection with the acquisition or construction of real property facilities" as land or land rights acquired with the intent to construct general PP&E, and land or land rights acquired in combination with general PP&E. DoW or a DoW Component must account for and report land and land rights they own and acquired for or in connection with real property facilities as general PP&E. They must expense the cost of acquiring stewardship land in the period incurred. This cost must include all expenses necessary to bring the asset to a form and location suitable for its intended use.

7.5.11. Recognition and Measurement

7.5.11.1. Recognize the cost of the acquisition of stewardship land as an expense on the Statement of Net Cost for the period in which the cost is incurred. The cost must include all costs to prepare stewardship land for its intended use (e.g., grading the land or razing a building).

7.5.11.2. In some cases, land may be acquired along with existing facilities. Consult with Component cultural resources staff to determine how to treat the acquisition cost of the facility. Facilities to be used in operations must be treated as an acquisition of stewardship land if the value of the facility is insignificant, or its acquisition is merely a byproduct of the acquisition of the land. Facilities of significant value that have an operating use (e.g., a constructed hotel or employee housing block) must be treated as general PP&E (real property or multi-use heritage assets) by identifying the cost attributable to the facilities and segregating it from the cost of stewardship land acquired.

7.5.11.3. Do not recognize revenue for stewardship land acquired through donation or devise.

7.5.11.4. Transfers of stewardship land from one DoW Component to another or to another Federal agency do not affect the net cost of operations or net position of either entity.

7.5.12. Removal/Disposal

Stewardship land can be removed from service and subject to disposal.

7.5.13. Disclosure Requirements

7.5.13.1. Land classified as stewardship land is reported as basic information within the financial statements of the DoW Component responsible for such land and subject to units of measure.

7.5.13.2. All heritage assets, multi-use heritage assets, and stewardship land acquired by DoW Components must be recognized for accountability (in accordance with DoDI 4165.14, DoDI 4165.70, and DoDI 5000.64) and financial reporting purposes.

7.5.14. Supporting Documentation

7.5.14.1. Entries to record financial transactions in accounting system general ledger accounts and the APSR and/or other systems, as well as information to be included in financial statement note disclosures, must be supported by source documents that reflect all transactions affecting the DoW Component's stewardship investment in the PP&E.

7.5.14.2. All acquisitions, whether by purchase, transfer from other agencies, donation, or other means, must be supported as of the date the DoW Component accepts the heritage assets, multi-use heritage assets and/or stewardship land. Documentation, where applicable, must be readily available to support the changes in asset value or physical attributes as a result of new acquisition or capital improvement.

7.5.14.3. When definitive documentation for stewardship land and/or heritage assets is not available, management must identify and use alternative methods for supporting management's assertions for these assets.

7.5.14.4. All disposals or retirements must be supported as of the date the PP&E leaves the custody of the DoW Component to provide an adequate audit trail for the disposal of the asset. The execution of certain disposal events will generate financial or administrative accountability transactions.

7.5.15. Policies and Procedures

DoW Components must document the identification, categorization, and method used to physically quantify the assets to ensure consistent reporting for all similar heritage assets and stewardship land.

7.5.16. Physical Units of Measure

Physical units of measure are necessary to meet disclosure requirements described in SFFAS 29.

7.5.17. Accountable Property System of Record

The APSR and/or other systems must be designed to support procurement and utilization decisions, including decisions related to identifying general PP&E that may transfer to other DoW Components, or made available for disposal in accordance with current DoW regulations and other regulatory requirements.

7.5.18. Physical Inventories

DoW Components must perform periodic physical inventories of heritage assets and multi-use heritage assets in accordance with DoDI 5000.64 and DoDI 4165.14. Periodic physical inventories of stewardship land must be performed in accordance with DoDI 4165.14.

7.5.19. Deferred Maintenance and Repairs

7.5.19.1. DM&R refers to scheduled or necessary maintenance that an organization has postponed. In general, personnel perform maintenance and repairs to keep assets in an acceptable condition. These activities include preventive maintenance and the replacement of parts or systems to preserve the asset. However, these activities specifically exclude those that expand an asset's useful life, capacity, or capability, or otherwise upgrade it for significantly different or greater uses.

7.5.19.2. DoW Components must determine acceptable condition standards and which DM&R measurement methods to apply. Condition standards and measurement methods must be consistently applied. If the DoW Component determines that it must make changes, it must document the rationale and any impact the changes will have on the DM&R estimates.

7.5.19.3. Amounts for DM&R may be measured using condition assessment surveys, life-cycle cost forecasts, or other similar methods.

7.5.19.4. Disclosure Requirements

DoW Components must report material amounts of DM&R in the notes to the financial statements. Refer to Volume 6.

8.0 ADVANCES

A Component may issue advances or prepayments for anticipated expenses or for goods and services not yet received. These amounts are reduced when related goods or services are received, contract terms are met, progress is made under a contract, or anticipated expenses are realized. Per 31 U.S.C. § 3324, law or the President specifically authorizes advances. For financial reporting, these transactions are treated as assets and liabilities, with intragovernmental transactions accounted for separately. All advances and prepayments must be supported by a detailed audit trail with information to show the period the advances were made, the budget authority for the advances, the period the advances were liquidated, and the related approving authorities.

8.1 Accounting for Advances and Prepayments

8.1.1. Advances and prepayments must comply with the law or regulation requirements. Organizations or individuals (other than DoW employees requesting travel advances) requesting advances must demonstrate that all external financing sources have been exhausted before DoW Components authorize an advance. Prepayments are recurrent transactions that do not provide financing as a precondition of performance.

8.1.2. Accounting activities must account for and segregate capitalized assets and expenses into separate line items. Record advances and prepayments paid out as assets. Record advances and prepayments received as liabilities.

8.1.3. A receivable is established when revenue is recognized, and payment has not been received in advance.

8.1.4. Amounts of advances and prepayments that are subject to refund (for example, a settled travel claim indicating the traveler owes part of the advance to the government) must be transferred to accounts receivable.

8.1.5. A quarterly review of dormant accounts is required for sound internal controls to increase each DoW Component's ability to use available appropriations before they expire and ensure remaining open obligations are valid and liquidated before the appropriations are canceled. This increases mission readiness for the DoW.

8.2 Recoveries and Adjustments

Components must recover unneeded and unused balances as soon as information indicates they are excess to the original purposes. Unused advance and prepayment recoveries received the same year as the original obligation are recorded as recoupments. Collections are recoveries of unused advances and prepayments of prior-year obligations. Refer to the SFIS to decompose DoW USSGL accounting transactions for recoveries and adjustments.

8.3 Contract Financing Payments

The Government authorizes disbursements of monies to a contractor prior to the acceptance of supplies or services for contract financing payments in accordance with FAR 32.001. Contract financing payments include advance payments, performance-based payments, commercial advances, interim payments, progress payments based on cost, progress payments based on a percentage or stage of completion, and interim payments under a cost reimbursement contract. Contract financing payments are more fully discussed in Volume 10.

8.4 Grant Awards and Cooperative Agreements

DoW Components account for advance payments to award recipients (including amounts drawn against letters of credit) until the recipient has performed under the grant or agreement. Once the recipient has performed, the assisting agency must record an expense equal to the cost of the services performed or costs incurred and reduce the advance account by a like amount.

Periodically, the advances must be reconciled with the supporting transaction documentation. Refer to Volumes 10 and 12.

8.5 Advances to Foreign Countries

As authorized by 10 U.S.C. § 2396, DoW appropriations may be used to make advance payments to foreign countries. These advances can be used to comply with local laws and ministerial regulations of a foreign country, pay for rent, tuition, and public utilities, or provide funds to a friendly nation's military for their pay, allowances, and necessary supplies and services.

8.6 Advances in Military Pay

Military pay advances, which cover allowances for subsistence and housing, are authorized only to alleviate financial hardship for members who are mobilized, ordered to a distant station, or deployed on a ship for over 30 days. For complete details, refer to Volume 7.

8.7 Advances in Civilian Pay

Refer to Volume 8 for civilian personnel pay advances including foreign post assignment advances, advance payments to evacuees, newly hired employees, and employees relocating within the U.S. or its territories.

8.8 Advances as Imprest Funds

Imprest Funds are cash advances from a Disbursing Officer to a cashier, charged against a specific LOA. Although considered "Cash Held Outside of Treasury," they are treated as "entity cash" because they are tied to an entity's specific LOA.

8.9 Travel Advances

A commander- or supervisor-approved travel order must be issued before military members or civilian personnel travel unless an urgent or unusual situation prevents prior issuance. Do not authorize cash travel advances unless an exception is granted. Record the maximum advance amount authorized on the travel order. The traveler must not exceed the limit specified in the travel order. Personnel who are not eligible for a Government Travel Charge Card may obtain travel advances only via electronic funds transfer. The commander or supervisor, in coordination with the Disbursing Officer, may authorize cash advances in limited situations where no other process is available to accomplish the mission. A DoW traveler must submit a travel claim voucher within five working days of return.

8.10 Inventory Bid Deposits

Bid deposits for inventory sales are recorded as advances. The advance account is relieved either by recording sales proceeds upon delivery to successful buyers or by refunding the deposit and canceling the sale.

9.0 LIABILITIES

A liability is a probable future outflow or sacrifice of resources stemming from past transactions or events. This includes amounts owed for received items or services, incurred expenses (like personnel costs), assets where title has transferred (even if in transit), ongoing shipbuilding costs, and cash received but not yet earned. Liabilities also encompass obligations that the Component incurs from grants, pensions, benefits, awards, and other forms of indebtedness.

9.1 Recognition Criteria

Pursuant to SFFAS 5, liability recognition begins by determining if the event is transaction-based (exchange or nonexchange) or other. Refer to the procedural guidance. Liabilities from government-related events are recognized when the resource outflow is probable and measurable. Contingent liabilities are either recorded/reported as liabilities or disclosed in footnotes, based on their probability and the capability to estimate resource outflow.

9.2 Reporting and Disclosures

As required by SFFAS 1, intragovernmental liabilities must be reported separately from those with nonfederal entities. Accounting events must be recorded in accordance with the DoW USSGL Transaction Library and reported in accordance with the regulations promulgated by the Treasury and the OMB. In line with OMB Circular A-136, liabilities are classified into three categories: covered by budgetary resources, not covered by budgetary resources, and not requiring budgetary resources. The Component must disclose any liabilities not covered by budgetary resources. Refer to Volume 6.

10.0 ACCOUNTS PAYABLE

10.1 Accounts Payable Recognition – General

DoW Components must recognize an accounts payable liability for unpaid goods upon accepting title, whether delivered or in transit. For commercially available goods, accounts payable generally arises upon physical delivery, receipt, and formal title transfer. However, for custom-built facilities or equipment, recognition occurs upon formal acceptance. Accounts payable must be accurately recorded and properly documented, with 48 CFR §§ 52.247.29 – 52.247.49 governing recording timing. If exact amounts are unavailable at quarter-end, Components must estimate the accounts payable. Economically justified discounts, whether contractual or on invoices, should be applied when recognizing accounts payable (refer to Volume 10 for details). Audit evidence of "receipt" must document the items/services, quantities, date received, and authorizing official's signature. This evidence must also include calculations or the basis for estimated accrued amounts. Sensitive information, such as Personally Identifiable Information or proprietary data, may be redacted or aggregated. Finally, robust internal controls for all transactions (intragovernmental, interfund, and public) must be developed, implemented, and validated. Receipt and acceptance of goods and services must be performed and documented solely by authorized personnel.

10.2 Accounts Payable Recognition – Estimating the Accrual

10.2.1. Estimate and record an accrual when definitive amounts or invoices are not available, but the requirements for recording an accounts payable liability exist. The Component must reverse the estimate and record a more definitive amount when more complete data becomes available.

10.2.2. Components must have effective controls in place to ensure that a payable is not duplicated when an invoice is subsequently received for the same procured goods or services.

10.2.3. Show the calculations and data used to compute the amounts in the supporting documents (or mechanized program(s) used for the accrual estimates). This documentation must also identify who prepared the estimate, the date prepared, and who received and reviewed/approved the estimate. Ensure that the documentation is of sufficient quality to allow an external auditor to understand and verify the basis, value, and rationale for the recorded amount. Maintain this documentation for auditors to validate that the review was performed and approved by management.

10.3 Accounts Payable Recognition – Quarterly Accruals

10.3.1. To assist in developing more accurate financial statements, at least quarterly, Components must accrue all procurements in which DoW has received a measurable benefit from, or ownership title to, but have not been documented due to the lack of a receiving report or invoice. If the Component cannot obtain all necessary information from the contracting representatives within the 21 days allowed for the preparation of quarterly financial statements, the Component must use the best available information to estimate the accrual.

10.3.2. Components must also accrue temporary duty (TDY) travel taken, not yet disbursed, or otherwise accounted for as an accounts payable liability at least quarterly. Additionally, Components must record an accounts payable liability for TDY travel that crosses two or more accounting quarters on an estimated/proportional basis, if significant. Record the accrued liability in the applicable accounting period, supported with appropriate documentation (or mechanized programs) that clearly shows the calculations and data used to compute the liability amount.

10.3.3. Components must accrue Permanent Change of Station (PCS) travel taken, not yet disbursed, or otherwise accounted for as a liability, as an accounts payable liability at least quarterly. Additionally, Components must record an accounts payable liability for PCS travel that crosses two or more accounting quarters on an estimated/proportional basis, if significant. Accrue the liability in the applicable accounting period. Support the liability with appropriate documentation (or mechanized programs) that clearly shows the calculations and data used to compute the amount.

10.3.4. Fixed-price construction contracts containing progress payment provisions based upon the percentage or stage of completion require special consideration when recording the accounts payable liability. The accounts payable accrual must include any amounts being withheld from the contractor pending acceptance and completion, or for other contract administration reasons, as per the terms of the contract. The contracting officer or their designee must maintain the supporting documentation and be prepared to provide it to DFAS or auditors to support the

accounts payable amount. The Component acquires an asset during each accounting period based on constructive or de facto receipt and thus must recognize/record an accounts payable during each accounting period to reflect the accumulation of that asset.

10.4 Accounts Payable Recognition – Availability of Funds

Components must not delay recognizing an accounts payable liability pending the availability of funds. The Components must disclose the accounts payable not covered by budgetary resources in the financial statement notes. (Refer to Volume 6). A potential violation of the ADA may exist if the payable amount exceeds the total availability of funds. Refer to Volume 14 for the financial management policy regarding an ADA violation.

10.5 Intragovernmental Purchases

10.5.1. Procuring a good or service from another DoW Component or Federal entity is an intragovernmental purchase under the TFM Chapter 4700. Payables due to Components or other Federal entities are intragovernmental payables and must be reported separately from payables due to public entities. Note that OMB Circular A-11 uses the term "intergovernmental" for transactions between or among accounts of Federal entities and that transactions with non-appropriated fund instrumentalities are reported as transactions with the public. The Treasury considers both interdepartmental and intradepartmental transactions to be subsets of intragovernmental transactions.

10.5.2. Components must record accounts payable liability for intragovernmental purchases in the appropriate accounting period to recognize the receipt of goods or services ordered regardless of the document used in placing the order (e.g., Forms 7600A and 7600B, MIPR, project order, or Reimbursable Work Order (RWO)). Components must ensure the liability is recorded during the accounting period that the benefit was received and not delayed pending receipt of a corresponding interagency billing or subsequent payment thereof. Documentation supporting the amount recorded must clearly show the basis (description of the good, quantity, and amount; for services, description of the service, labor hours, and amount) for the payable amount recorded (e.g., MIPR, project order, RWO, reciprocal agreement) and proof of receipt. The documentation must also be of sufficient quality to allow an independent third party, such as an external auditor, to understand and verify the basis, value, and rationale for recorded amounts.

10.5.3. DoW Components must ensure an accounts payable liability is also recorded when the goods are received, or the buying DoW Component has gained title to an asset.

10.6 Late Payment Interest

Components must record in accounts payable an amount for prompt payment interest and other penalties incurred on late payments as required under terms of the non-federal contract. Refer to Volume 10 for the policy on late payment interest and penalties.

10.7 Refunds Due

DoW Components must record an accounts payable liability to reflect the refunds due but not paid at the end of the reporting period, when applicable.

10.8 Monetary Credits

10.8.1. If the DoW entity exercises this authority, it must also record an accounts payable liability during the period the benefit from the property or services is received. When monetary credits are used for exchange transactions, the DoW entity must record an accounts payable liability equal to the value of the monetary credit.

10.8.2. Specific statutes authorize DoW entities to issue monetary credits as compensation for property or services received from non-federal entities. These monetary credits give the seller the agreed-upon value of the acquired property or received service. The credit holder may apply them later to reduce an amount owed (by the holder) in other, sometimes unrelated, transactions with the government.

10.8.3. Components must ensure the documentation supporting the accounts payable entry specifically identifies the property or services received, the date received, the name and signature of the DoW receiving official, and includes the bilateral agreement between the non-federal entity and designated DoW representative establishing the agreed-upon value. Components must also ensure the documentation is of sufficient quality to allow an independent third party, such as an external auditor, to understand and verify the basis, value, and rationale for the recorded amount.

10.9 Closed Appropriations

When an appropriation account is closed, any remaining balance in the account must be canceled and unavailable for obligation or expenditure for any purpose. However, legitimately incurred obligations that have not been paid at the time an appropriation is canceled must be reinstated to canceled payables and paid out of a current unexpired appropriation that is available for obligation for the same purpose as the closed account.

10.10 Liquidating Accounts Payable

Accounts payable recorded when a particular good or service is received must be liquidated when the liability created by the payable is settled.

10.11 Reviewing Accounts Payable Balances

10.11.1. The accounting office must review and reconcile all accounts payable balances to the transaction detail level in supporting accounting systems each quarter.

10.11.2. The accounts payable recorded for acceptable final performance on a contract or order must remain in the account until liquidated through proper payment, or until receipt of contractual or legal documents that remove the remaining liability. Continued non-receipt of an invoice on firm-fixed-price contracts may extinguish the contractor's right to payment and relieve

DoW's obligation to pay for the un-invoiced goods or services. Components must ensure the accounts payable amounts written off contain sufficient documentation to allow an independent third party, such as an external auditor, to verify the basis, value, and rationale for the write-off. Refer to Volume 3 for a policy associated with dormant commitments and unliquidated obligations eligible for closeout on physically complete contracts.

10.11.3. The accounting office must investigate accounts payable debit balances over $100. These debit (abnormal) balances may result from any number of circumstances (e.g., duplicate payments and unrecorded accounts payable). Components must fully document subsequent adjustments to correct the abnormal balance. This documentation must be available for review by the independent auditors if necessary. If the investigation of a debit balance discloses an overpayment or under-recouped funds related to a contract or vendor payment, the accounting office must coordinate with the responsible entitlement and disbursing offices to pursue collection or recoupment. Refer to Volume 10 for additional details.

10.11.4. If the accounting office cannot match a performance report or invoice with a corresponding obligation, a breakdown of fund control processes and a material weakness in internal controls may exist. If posting a transaction to accounts payable does not disclose a corresponding obligation, this may be evidence that either a contract has not been awarded or a posting error has occurred.

10.11.5. These transactions are defined as, and based on the USSGL Crosswalk, map to the accounts payable line of the balance sheet. Refer to Volume 3 for disbursements in-transit policy.

10.12 Accounts Payable Document Retention

All documentation in support of accounts payable entries and adjustments must be readily available for review by auditors, management, and other DoW Component financial management personnel. The documentation retention policy is contained in the DoW Component records retention office.

11.0 PERSONNEL RELATED LIABILITIES

11.1 Accounting Policy

In accounting for personnel-related liabilities, adhere to established standards by updating entries based on current pay adjustments, leave balances, benefit levels, and changes in benefit rules. Available budgetary resources do not limit accrued personnel-related amounts. DoW Components must calculate imputed costs based on the annual Office of Personnel Management (OPM) Benefits Administration Letter for the Civil Service Retirement System (CSRS), Federal Employees Retirement System (FERS), Federal Employees Health Benefits Program, and Federal Employee Group Life Insurance Program. Refer to Volume 6 for required financial statement disclosure guidance.

11.2 Accounting for Personnel Entitlements

11.2.1. Accrue the DoW military and civilian employees' cost of services, including overtime, when a pay period does not coincide with the end of an accounting period.

11.2.2. Record probable and estimable annuities, adjudicated claims, and benefit payments as of the end of the applicable accounting period.

11.2.3. Accrue bonuses and awards, if material, in the accounting period earned. Components assess the materiality threshold.

11.2.4. When DoW employees accrue paid leave, Components incur an expense and a liability for the salary payable when the leave is taken.

11.2.5. Accrue all unused annual leave (including restored leave, compensatory time, and credit hours earned) and associated fringe benefit costs. For financial statement purposes, reflect all pay increases and unused leave balances at least quarterly. Unused annual leave in GF is typically unfunded until used, but must be funded in WCFs.

11.2.6. Personnel should not accrue sick leave, home leave, or compensatory time for travel, as the DoW does not reimburse unused balances. These entitlements are expensed as taken.

11.2.7. Accrue Social Security, retirement funds, Thrift Savings Plan (TSP), and group health and life insurance programs in the same manner as gross compensation (refer to Volume 8).

11.2.8. Accrue other benefits such as relocation-related real estate costs and personnel allowances in the period earned.

11.2.9. Accrue payments to the OPM for reemployed annuitants and severance pay for former employees in the same manner as gross compensation.

11.2.10. Accrue recruitment and relocation bonuses and retention allowances in the period earned.

11.3 Pensions

11.3.1. Pension benefits include all retirement, disability, and survivor benefits financed through a pension plan, including unfunded pension plans. Three defined benefit retirement plans: CSRS, FERS, and Military Retirement System (MRS) cover DoW civilian and military employees.

11.3.2. Recognize the pension liability when the employee's services are rendered and report the liability in the Components' financial statements.

11.3.3. Defined contribution plans (e.g., TSP) do not create pension liabilities.

11.3.4. Components recognize a pension expense equaling the employee service cost for the applicable accounting period, less employee contributions, if any, for DoW Civilian pension plans (CSRS and FERS).

11.3.5. Calculate the pension expense and liability using actuarial estimates for MRS. Refer to Volume 12 for more information.

11.3.6. Maintain official communication between OPM and the DoW Office of the Actuary to support pension expense and any related liability.

11.4 Other Retirement Benefits

11.4.1. An employer provides Other Retirement Benefits (ORB) outside the pension plan to a former employee or the employee's beneficiary upon retirement. ORB includes all retirement benefits other than pension plan benefits, such as retirement health care benefits.

11.4.2. Recognize the ORB liability when the employee's services are rendered. Report the liability in the Components' financial statements.

11.4.3. Account for and report the ORB expense, such as medical costs for retirees, in the Component financial reports in a manner similar to that used for pensions.

11.5 Other Postemployment Benefits

11.5.1. Components provide Other Postemployment Benefits (OPEB) to former or inactive employees (e.g., temporarily laid off or disabled), their beneficiaries, and covered dependents, outside of traditional pension or ORB plans. These benefits can include salary continuation, severance, counseling, training, continued healthcare/other benefits, unemployment compensation, workers' compensation, and veterans' disability compensation paid by the employer entity.

11.5.2. For OPEB, such as those under the Federal Employees' Compensation Act (FECA), recognize expense and liability when a future outflow or other sacrifice of resources is probable and measurable based on events occurring on or before the reporting date.

11.5.3. FECA provides workers' compensation benefits to federal employees injured in the performance of duty. Workers' compensation benefits include wage-loss benefits for total or partial disability, monetary benefits for permanent loss or loss of use of a body part, medical benefits, and vocational rehabilitation. Agencies' direct reimbursements finance the FECA program.

11.5.4. The FECA fund pays benefits on behalf of Federal entities as costs are incurred and bills the entity annually for the previous period. Include annual budget estimates for the fiscal year beginning in the next calendar year equal to the costs (approximately 15 months) for the appropriation-funded agencies.

11.5.5. The Department of Labor sends each agency the actuarial liability estimates for future workers' compensation benefit amounts for both the current and prior years. The current amount is the new balance in the Actuarial FECA Liability.

11.5.6. The Actuarial FECA Liability entry must be supported by specific documentation.

11.6 Auditability and Internal Procedures

Each Component must develop and implement internal operating procedures to ensure complete, consistent, timely, accurate, valid, and relevant financial data. The Component must also maintain appropriate supporting records to provide an appropriate footnote disclosure in the financial statements if personnel-related liabilities are unfunded. Components must disclose according to Volume 6.

12.0 COMPONENT DEBT

Debt incurred by DoW Components is generally associated with direct and guaranteed loans, and housing programs determined to be necessary to carry out the DoW's mission, including mortgage agreements accepted pursuant to the Family Housing Program (FHP) and the Homeowners Assistance Fund (HAF).

12.1 Loans and Loan Guarantees

The Department must pay the debt on direct loans if borrowers (e.g., foreign governments, county or city governments, ship owners, or housing builders) default. For loan guarantees, the Department must pay the amount of outstanding principal guaranteed. The accounting policy for loans and loan guarantees is provided in Volume 12.

12.2 Housing Program Debt

12.2.1. Family Housing Program. The Defense FHP offers housing referral services to military and civilian families, which include managing private rentals for overseas personnel, leasing private housing, and guaranteeing rental, mortgage, and mortgage insurance payments on privately owned homes.

12.2.2. Homeowners Assistance Fund. Under 42 U.S.C. § 3374, the SecWar can aid owners of one- or two-family dwellings near military installations slated for closure, in part or whole. This assistance may involve acquiring negotiated title to their properties from the owners. This statute establishes the HAF, which receives its funding through annual Congressional appropriations. DoDD 4165.50E outlines the overall policy for the HAP. Detailed guidance on HAP benefits, domestic and foreign, is provided in regulations published by the Secretary of the Army (as the DoW Executive Agent for HAP) and codified in 32 CFR Part 239.

12.3 Accounting Policy for Debt Associated with Housing Programs

The liability for amounts owed on housing acquired under FHP and HAP programs will be equal to (1) borrowings from other Federal Agencies and the public to construct or acquire the

properties, or (2) the mortgages assumed when title passes to the DoW. Liabilities for borrowings from other Federal Agencies and non-federal organizations will be recorded at the amounts obtained. Amounts paid to financial organizations to obtain the borrowings must be treated as a current period operating expense.

13.0 OTHER LIABILITIES

Components report these liabilities on the Balance Sheet as "other liabilities" as they are often immaterial and therefore do not warrant separate reporting. See Volume 6 for financial reporting requirements for other liabilities. Each Component must develop and implement internal operating procedures to implement this overarching policy in a manner that ensures accurate, complete, and relevant financial data.

13.1 Unearned Revenue

13.1.1. Advances and Prepayments

Advances and prepayments are amounts received in advance for goods and services that will be delivered at a future date. When advance fees or payments are received by DoW Components, such as for large-scale, long-term projects, revenue should not be recognized until the goods and services are provided (regardless of whether the fee or payment is refundable. Liability for advances and prepayments includes advances received that are transfers of assets from the public and other federal entities to cover future expenses or the acquisition of other assets. The DoW Components receiving an advance or prepayment must record the amount received as a liability until payment is earned (goods or services have been delivered or contract terms met). After the payment is earned (performance has occurred), the DoW Components must record the appropriate amount as revenue and reduce advances and prepayments liability accordingly.

13.1.2. The two major activities for which DoW receives advances are as follows:

13.1.2.1. Reimbursable Activities. DoW provides services to other federal agencies and to the public on a reimbursable basis. When a non-federal customer enters into a reimbursable agreement with DoW, the customer is required to pay for services in advance unless exempted by law. Generally, non-DoW entities are required to pay in advance.

13.1.2.2. DWCF Activities. The appropriation language for DoW's DWCF permits the fund to receive advances for supplies and services. Therefore, the DWCF business entities may be advanced funds identified in the DWCF customer orders during the fiscal year, as required, to enable the DWCF activity to pay for its costs of operation.

13.2 Nonfiduciary Deposit Funds

13.2.1. Deposit funds are, in general, monies that do not belong to the Federal Government. Nonfiduciary deposit funds are deposit funds that do not meet the definition and characteristics of fiduciary activities in SFFAS 31. While awaiting disposition, nonfiduciary deposit funds are reported separately on the entity's financial statements.

13.2.2. Deposit funds must be recorded as a liability because those assets do not belong to the Federal Government. The liability includes, but is not limited to, currency and coin on hand, cash on deposit at designated depositories (excluding Disbursing Officer held cash), negotiable instruments on hand, military payment certificates, and unsupported undistributed collections. Such funds are not available for paying salaries, grants, or other expenses of the Federal Government.

13.2.3. See TFM Volume I for more details on deposit fund accounts and the Treasury's FAST Book for a full list of DoW deposit accounts.

13.3 Clearing Accounts

Clearing accounts represent amounts known to belong to the Federal Government but held temporarily in this account until additional information is collected for the disposition or reclassification of these amounts. Clearing accounts may be used to record unmatched transactions from the public when there is a reasonable presumption that the amounts belong to a Federal Government account other than miscellaneous receipts in the Treasury or to record unmatched transactions between Federal agencies, including IPAC transactions.

13.4 Contingent Liabilities

A contingent liability must be recognized in financial reports if a past event (e.g., contract breach) makes a probable and measurable future resource outflow. This applies when a legal claim is likely to be settled in the claimant's favor, and a settlement amount can be estimated. If a specific amount within a range is the best estimate, that amount is recognized; otherwise, the minimum amount in the range is recognized, with the nature and range of the contingency disclosed. If these recognition conditions aren't met, but a loss is at least reasonably possible, the contingent liability should be disclosed in the financial statement notes.

13.5 Legal contingencies

13.5.1. Legal contingencies arise from litigation, claims, and assessments. It is the Component management's responsibility, with legal counsel's advice, to assess the likelihood of adverse outcomes for legal cases and decide whether to recognize them as liabilities and to disclose them in the notes to the financial statements.

13.5.2. In accordance with SFFAS 5 and SFFAS 12, the only available categories to assess contingent losses based on the likelihood of the loss are Probable, Reasonably Possible, and Remote. When legal counsel cannot indicate whether the unfavorable outcome is probable or remote (e.g., unable to express an opinion), the Component should categorize the outcome as Reasonably Possible and disclose the notes to the financial statements.

13.6 Contract Progress Payments

When a DoW contractor requests a progress payment, a measurable liability is created for the DoW. Progress payment requests expected to be paid within one year are recorded as

"Accounts Payable." The estimated amount of costs incurred by the contractor expected to remain unpaid for over a year until asset delivery is recorded as "Other Liabilities."

14.0 ENVIRONMENTAL AND DISPOSAL LIABILITIES

14.1 Recognize Environmental and Disposal Liabilities

The Component must recognize environmental and disposal liabilities on the financial statements as a result of past transactions or events when the future outflows or expenditures of resources for environmental cleanup, closure, and/or disposal actions are probable and can be reasonably estimated.

14.2 Liability And Expense Recognition

The liability and expense should be recognized when both (1) Congress has appropriated or authorized resources, and (2) an exchange occurs (contractor performs repairs), or nonexchange amounts are unpaid as of the reporting date (direct payments to disaster victims), whichever applies, in accordance with SFFAS 5.

14.3 Liabilities for Environmental Cleanup

Refer to SFFAS 5 to address liabilities for environmental cleanup resulting from an accident, natural disaster, or other one-time occurrence. Refer to SFFAS 6 for the standards related to the timing of recognition of environmental and disposal liabilities and related inter-period operating expenses. Disclosure of the total estimated cost is required

14.4 Cleanup Costs

Cleanup costs associated with government-acknowledged events (such as toxic waste damage caused by nonfederal entities and natural disasters) do not meet the definition of a “liability” until, and to the extent that, the government formally acknowledges financial responsibility for the cost from the event and an exchange or nonexchange transaction has occurred.

14.5 Estimating Cleanup Cost

Cleanup costs must be estimated when the associated Property, Plant, and Equipment (PP&E) is placed in service. The estimate must be referred to as the “estimated total cleanup cost. As the Component pays cleanup costs, it must recognize the payments as a reduction in the liability for cleanup costs. These include the cost of PP&E or other assets acquired for use in cleanup activities. Refer to SFFAS 6 to recognize the total cleanup cost for Stewardship PP&E and general PP&E. The estimated environmental and disposal liabilities associated with the total cleanup cost for Stewardship PP&E must be consistent with the treatment of the acquisition cost of Stewardship PP&E (i.e., expensing in the period placed in service). Refer to SFFAS 6 for the estimated environmental and disposal liabilities associated with PP&E placed in service after September 30, 1997. Refer to SFFAS 5 to recognize the liability for the estimated cleanup cost if the environmental and disposal liability is not associated with an asset having a useful life. No

amounts may be recognized as expense in the period of implementation. The amounts involved must be disclosed and, to the extent possible, the amount associated with current and prior periods should be noted. The offsetting charge for any liability for asbestos-related cleanup costs related to general PP&E in service at the date of implementation must be made to the net position of the entity. The amount of the adjustment must be shown as a "change in accounting principle" in any statement of changes in net position that may be required.

14.5.1. Estimates must be evaluated and revised periodically (at least annually) to account for material changes due to inflation or deflation and changes in regulations, plans, and/or technology.

14.5.2. For asbestos (both friable and non-friable) related environmental and disposal liabilities associated with PP&E, the initial date of the standard implementation is the effective date for the systematic liability recognition. Asbestos-related environmental and disposal liabilities associated with PP&E placed in service after September 30, 2012, must be systematically recognized over the remaining useful life of the PP&E.

14.5.3. Environmental and disposal liabilities that are unique in nature have different recognition criteria.

14.5.3.1. An environmental and disposal liability for military range cleanup, including unexploded ordnance, arises only after a formal decision to close the range or if hazardous waste migrates off-range. This guidance is based on the Environmental Protection Agency's (EPA) conditional exemption (40 CFR 266.202), which excludes military munitions used for their intended purpose—such as training military personnel or explosives and munitions emergency response specialists, research and development (R&D), and on-range destruction during clearance—from the definition of solid waste. However, this exemption does not cover on-range disposal or burial of munitions and contaminants that are not a result of product use.

14.5.3.2. Environmental and disposal liabilities for conventional munitions are recognized for the total estimated disposal cost when they are determined to be excess or obsolete as of the financial reporting date. As consumable inventory, a liability for conventional munitions only arises when they become excess or obsolete, requiring special disposal actions. Obsolescence occurs when munitions are no longer needed due to changes in technology, laws, or operations. The determination of excess or obsolete status must be supported by documentation of management's decision to permanently remove the asset from service and terminate its use.

14.5.3.3. Environmental and disposal liabilities for both stockpile and non-stockpile chemical agents and munitions, including those that are buried, must be recognized when the probable and reasonably estimable criteria have been met with TR2. Under 50 U.S.C. § 1521, the DoW is required to dispose of all chemical weapons and materiel, which includes the existing stockpile as well as non-stockpile items like binary chemical weapons, miscellaneous chemical warfare materiel, recovered chemical weapons, and former production facilities. Proper action is also necessary to mitigate the risks to human health and the environment from buried chemical agents and munitions.

14.5.3.4. When an entity permanently removes an asset from service, it must recognize the full environmental cleanup cost liability for its disposal, closure, or shutdown. If the removal is not permanent, or if there is no documented decision to permanently remove an asset from service, the full liability for cleanup costs associated with PP&E is not recorded, and the liability and associated cleanup costs continue to accumulate.

14.5.3.5. Overseas environmental and disposal liabilities, which are cleanup, closure, and/or disposal costs from operating overseas installations, are governed by DoDI 4715.08 and international agreements (per DoDD 5530.3). Considered "Government Related Events" under SFFAS 5, these liabilities are recognized when the event creating them occurs. The specific requirements for recognition are based on applicable SFFAS standards, DoW Issuances (like DoDI 4715.05), and international agreements.

14.5.3.6. When estimating the disposal cost of assets containing hazardous waste, stakeholders may recognize non-environmental costs that are considered immaterial to the total cost of removing or disposing of the asset(s) as an environmental and disposal liability.

14.5.3.7. Both friable and non-friable asbestos-related cleanup, closure, and/or disposal costs must be estimated in accordance with TB 2006-1**,** as amended by TB 2011-2. Asbestos-related cleanup, closure, and/or disposal costs are the expenses associated with removing, containing, or disposing of asbestos-containing materials from property or the materials themselves. These costs are incurred during the permanent or temporary closure or shutdown of associated PP&E, typically when cleanup is deferred until the end of an asset's useful life or performed at regular intervals.

14.5.4. When multiple reporting entities are involved with general PP&E and its cleanup, accounting responsibility is clearly defined. Federal Accounting Standards Advisory Board (FASAB) Interpretation 9 clarifies that during the asset's useful life, the entity that owns the asset must recognize inter-period operating costs and accrue the cleanup liability within the financial statements. At the time of transfer, the asset and its associated liability are derecognized by the original owner and recognized by the entity designated responsible for cleanup.

14.5.5. Changes in environmental and disposal liability cost estimates are recognized as current period expenses, with corresponding liability adjustments. Current period cleanup costs are also expensed and accrued as an environmental and disposal liability. Material error corrections from prior period operations require a prior period adjustment, restating comparative financial statements, and are reflected in the Statement of Changes in Net Position without current period expense recognition. Such adjustments, including those for estimated liabilities, arise from mistakes or misuse of facts that materially misstate financial statements. Disclosures must include involved amounts, noting current and prior period allocations where possible. Immaterial adjustments are recognized as current period events.

14.5.6. The risk of material misstatement of accounting estimates normally varies with the complexity and subjectivity associated with the process, the availability and reliability of relevant data, the number and significance of assumptions made, and the degree of uncertainty associated with those assumptions.

14.6 Environmental and Disposal Liability Estimates

14.6.1. Environmental and disposal liabilities are generally developed based on accounting estimates, because the extent of the environmental cleanup, closure, and/or disposal costs cannot be determined until completing cleanup/disposal operations. The accounting estimates are subject to Statement on Auditing Standards No 122/AU-C Section 540. Organizations that prepare accounting estimates must retain adequate documentation of quality review, estimator and reviewer qualifications, data sources, estimating methodologies, substantiation including the cost models, and internal control procedures.

14.6.2. The environmental cleanup, closure, and/or disposal costs that are probable and reasonably estimable must be estimated based on site-specific information using engineering estimates, comparison with similar sites, contaminants, equipment, parametric methodologies, or cost models validated in accordance with DoDI 5000.61. Once the DoW Component generates a cost estimate, the liability must be recognized and any uncertainty disclosed in the notes to the financial statements.

14.6.2.1. A cost estimate produced from a site-specific study is generally more reliable because it is based directly on environmental conditions at the site. However, understanding that DoW Components often include multiple sites on an individual contract, supporting documentation required to justify individual unpaid obligation transaction-level details does not need to be at the site level.

14.6.2.2. If a site-specific study is not available, the Component must assess if the site is similar to others where remediation has been completed, or a comprehensive study exists. If there is no investigation or comparable site data, costs are not considered reasonably estimable. In this case, the DoW Component should recognize the anticipated costs of future studies as an environmental and disposal liability until a site-specific study is completed.

14.6.2.3. If an acceptable cleanup technology is not available to address the site, then the Component must recognize the estimate to contain the hazardous waste and other relevant costs, such as the costs for future studies, as an environmental and disposal liability. The Component must also disclose the range of uncertainty in the notes to the financial statement.

14.6.2.4. When using cost models for environmental and disposal liability estimates, Components must accumulate relevant and reliable data, ensure estimates are prepared by qualified personnel and reviewed/approved by the appropriate authorities, and sustain the model's use by regularly compiling documentation to support cost factors (at least annually). This documentation must be available for audit. Decisions to update cost factors should be based on the impact of new information. Components must also compile documentation supporting the reasonableness of cost factors used by estimation software, obtain assurance from the service provider that the software has been validated, and compare prior estimates with actual results to assess the reliability of both the estimation process and the reasonableness of estimates developed.

14.6.3. Environmental and disposal liability estimates must be developed to include all event-driven environmental liability sites in the current asset/site universe and must include all

asset-driven cleanup, closure, and/or disposal costs. Environmental and disposal liability estimates must be comprehensive, encompassing a wide range of potential costs. These include the compensation and benefits for government personnel directly involved, the cost of employing external contractors and consultants, and direct disposal costs such as demilitarization, material handling, and transportation. Estimates must also cover the costs of any dedicated facilities, machinery, and equipment, along with their associated operating and maintenance expenses, and any R&D for alternative remediation technologies. Furthermore, the calculation must include payments to regulatory agencies, permits and licenses, planning and design efforts, and costs to restore landscaping damaged by remediation. For the Defense Environmental Restoration Program, which is a statutorily defined program, associated program management costs must be included in the liability. These costs, which cannot be attributed to individual sites, are to be reported as rolled-up cost-to-complete estimates at the program level, covering the Future Years Defense Program (FYDP) and beyond; post-FYDP costs are estimated by applying the average percentage of program management costs from the FYDP to the remaining site-level requirements. All of these various cost estimates must be supported with appropriate documentation. Refer to DoDM 4715.20.

14.6.4. Environmental and disposal liability estimates must be reviewed annually and revised when there is evidence that significant changes in the cost measurement have occurred, such as changes in scope, ownership, regulation, or technology. The Component must retain contracts and invoices supporting the transaction-level details for combined multiple sites to support future audit requirements.

14.6.5. A portion of estimated total cleanup costs must be recognized as an expense during each period the PP&E is in operation. This must be accomplished systematically and rationally based on use of the physical capacity of the associated PP&E, whenever possible. If physical capacity is not applicable or estimable, the estimated useful life of the associated PP&E may serve as the basis for systematic and rational recognition of expense and accumulation of the liability.

14.6.6. Components must establish and maintain a complete and current universe of environmental and disposal liabilities.

14.6.7. After an initial baseline has been established, DoW Components must maintain site universes.

14.6.8. Components must establish and maintain environmental and disposal liability universe baselines for event-driven and asset-driven environmental and disposal liabilities:

14.6.8.1. Event-driven environmental and disposal liabilities. Components define the history, timeline, and activities employed in the environmental surveys to demonstrate that a due care approach was taken, in accordance with TR 2, to establish an initial baseline using current factors (e.g., technology, cost, and the regulatory environment. Documentation must be readily available to support the baseline, allowing auditors to verify the completeness of established cleanup site universes.

14.6.8.2. Asset-driven environmental and disposal liabilities. Refer to SFFAS 6. If an environmental and disposal liability applies to only a subset of the PP&E asset universe,

Components must first review the entire universe and justify excluding non-applicable subcategories.

14.6.9. DoW Components must identify and account for environmental and disposal liabilities that are non-routine at the time of equipment disposal, in accordance with TR 11.

14.7 Environmental and Disposal Liability Disclosures

14.7.1. Financial statement disclosures provide pertinent information in notes or narratives about the amounts reported on the face of the financial statements. Refer to Volume 6. Disclosure requirements for liabilities, including environmental and disposal liabilities, differ depending on the underlying event and the probability and measurability (reasonably estimable) of loss. Key determinants of probable are the likelihood of contamination, whether the contamination is government-related, whether the government is legally liable or the government acknowledges the financial responsibility, and whether remediation technology exists. The classifications of likelihood are probable, reasonably possible, and remote.

14.7.2. Environmental and disposal liabilities meeting the criteria in TR 2 for “probable” and “reasonably estimable” must be recognized on the Balance Sheet. The recognition of environmental and disposal liabilities requires disclosure.

14.7.3. Environmental and disposal liabilities that don't meet the “probable” and "reasonably estimable" criteria for recognition, but for which there's a reasonable possibility of loss, are considered contingent liabilities.

14.7.4. DoW Components must disclose Intragovernmental Liabilities Not Covered by Budgetary Resources separately from Liabilities Covered by Budgetary Resources in accordance with Volume 6. Liabilities Covered by Budgetary Resources are liabilities incurred that are covered by realized budgetary resources as of the Balance Sheet date. Budgetary resources encompass not only new budget authority but also other resources available to cover liabilities for specified purposes in a given year. Available budgetary resources include new budget authority, unobligated balances of budgetary resources at the beginning of the year or net transfers of prior year balances during the year, spending authority from offsetting collections (credited to an appropriation or fund account); and recoveries of unexpired budget authority through downward adjustments of prior year obligations.

14.7.4.1. Liabilities are considered covered by budgetary resources if they are to be funded by permanent indefinite appropriations, which have been enacted and signed into law and are available for use as of the Balance Sheet date, provided that OMB may apportion the resources without further action by the Congress and without a contingency having to be met first.

14.7.4.2. Liabilities Not Covered by Budgetary Resources include liabilities incurred for which revenues or other sources of funds necessary to pay the liabilities have not been made available through Congressional appropriations or current earnings of the reporting entity.

14.7.5. DoW reports environmental litigation liabilities separately from other environmental and disposal liabilities in the notes to the financial statements. DoW Components must report estimates of certified third-party damage claims that are probable or reasonably possible.

14.7.6. Documentation to support the environmental and disposal liability recognition and disclosures, including management reviews, must be retained for the life of the liability. Once the liability has been eliminated, the documentation must be retained according to applicable retention and disposal instructions in their DoW Component records retention requirements.

14.8 Accounting Procedures for Recording Environmental and Disposal Liabilities

Refer to the SFIS and Volume 1 for the requirements for Standard Line of Accounting (SLOA)/Accounting Classification compliance for DoW business systems to meet statutory requirements and additional requirements implemented by the OMB and the Treasury. Environmental and disposal liabilities reported in the financial statements must reflect the liability as of the Balance Sheet date (i.e., as of September 30, or as of June 30), not an earlier date. Thus, when the annual evaluation of the environmental and disposal liabilities is performed as of a date earlier than September 30, DoW Components must develop, document, and execute a process for performing roll forward procedures. These procedures are to determine if any changes that meet the "probable" and "reasonably estimable" criteria occurring during the roll forward period have a significant impact on the estimates to be reported as of September 30.

14.8.1. Roll Forward Procedures: Environmental and disposal liabilities reported in the financial statements must reflect the liability as of the Balance Sheet date (i.e., as of September 30, or as of June 30), not an earlier date. Thus, when the annual evaluation of the environmental and disposal liabilities is performed as of a date earlier than September 30, DoD Components must develop, document, and execute a process for performing roll forward procedures. Refer to the Supplemental for more information on roll forward procedures.

14.8.2. Refer to the Supplemental for more information.

14.8.3. Quantitative Determination of Significant Amounts in the Roll Forward Period.

15.0 PAYMENT INTEGRITY

The DoW Payment Integrity portfolio comprises separate Payment Integrity programs that report improper payment and unknown payment risk assessments or statistical estimates. These programs include disbursements related to pay and benefits, commercial goods and services, health care, military retirement, and travel, which collectively encompass the majority of payments made by DoW annually in accordance with the Payment Integrity Information Act of 2019 (PIIA). Refer to the Federal Government PaymentAccuracy.gov website for a complete listing of DoW Payment Integrity programs. PIIA repealed the Improper Payments Information Act of 2002, the Improper Payments Elimination and Recovery Act of 2010, the Improper Payments Elimination and Recovery Improvement Act of 2012, and the Fraud Reduction and Data Analytics Act of 2015. The requirements for compliance with PIIA are described in the OMB Circular A-123, Appendix C, and OMB Circular A-136, or their successor publications.

15.1 Program Payment Integrity Activities by Phase

15.1.1. The Component categorizes programs with annual outlays exceeding $10 million as either Phase 1 or Phase 2. A program is designated as Phase 1 if its combined total of improper and unknown payments is unlikely to surpass the statutory threshold. This threshold is defined as either 1) payments exceeding both 1.5% of program outlays and $10 million annually, or 2) payments exceeding $100 million, irrespective of the improper payment percentage.

15.1.2. Phase 1 Payment Integrity Activities Performed by the DoW Components. PIIA requires that federal agencies assess all programs with annual outlays greater than $10,000,000 for IP risk at least once every three years. The purpose of an improper payment (IP) risk assessment is to adequately conclude whether the program is likely to make total annual IPs plus unknown payments (UP) above or below the statutory threshold and thus may be susceptible to significant improper payments for the given year. The results of the IP risk assessment help identify weaknesses in internal controls that, if strengthened, could prevent future IPs and UPs from occurring. Establishing and maintaining effective internal controls, including an internal control system that prevents IPs and UPs from being made and promptly detects and recovers any IPs that are determined to be recoverable, should be a priority.

15.1.3. Phase 2 Payment Integrity Activities Performed by the DoW Components. If a program's risk assessment determines that its annual improper and unknown payments are likely to exceed the statutory threshold, it enters 'Phase 2'. In the following fiscal year, the program must report statistically valid estimates for both improper and unknown payments to reflect the total annual amount for the program.

15.1.3.1. Programs reporting IPs for the first time must produce a Sampling and Estimation Methodology Plan (S&EMP). A program’s S&EMP should have a mechanism for identifying, accounting for, and estimating the annual IPs and the annual UPs separately. Once a program has submitted a S&EMP to OMB, the program does not need to resubmit a S&EMP unless an update to the plan is warranted (i.e., if the program is impacted by any significant legislative, funding, structural, or guidance changes).

15.1.3.2. Programs must perform an adequate reconciliation of any population, such as the disbursement systems used in the creation of the S&EMP. The reconciliation process should be documented in the S&EMP.

15.1.3.3. If a program is in Phase 2, has established a baseline, and reports an IP and UP estimate that is below the statutory threshold, it will automatically move back into Phase 1 the following FY unless the OIG of DoW issued a noncompliance finding for the program in the previous year and that the finding demonstrated that the program IP and UPs estimate was inaccurate and inappropriate given the program characteristics.

15.1.4. Components must sample, conduct post-payment reviews, estimate the amount of improper payments and unknown payments using statistically valid sampling methodologies, and report improper payments and unknown payments to the OUSW(C) for reporting in the consolidated Agency Financial Report (AFR) and the annual OMB Payment Integrity data call.

15.2 Compliance With PIIA Requirements

The OIG DoW, on an annual basis, will evaluate the Department's compliance with the requirements under PIIA. The Department is not considered compliant under PIIA if one or more of its programs are found non-compliant with one or more PIIA requirements. If the OIG DoW determines that a program is non-compliant for any requirement, then the final OIG report must provide concrete recommendations to the program or DoW Component with specific actions the program must take to achieve compliance with the requirement. DoW Intelligence Agencies that have a standalone PIIA Compliance audit conducted by their own Inspector General are excluded from incorporation into the Department's overall PIIA portfolio that is reported publicly, OUSW(C), FMPR Payment Integrity team maintains executive oversight and the DoW Intelligence Agencies must follow the Office of the Director of National Intelligence, National Intelligence Program, PIIA guidelines and reporting requirements. Classified payments are excluded from public reporting. The PIIA requirements are:

15.2.1. Publish a Payment Integrity section in the Other Information section of the consolidated DoW AFR for the most recent fiscal year and post the consolidated AFR and any accompanying materials required by OMB. DoW Components are not required to include payment integrity information in their individual AFRs. DoW Components must include the following statement under the Payment Integrity section in their individual AFRs: "DoW reports payment integrity information (i.e., improper payments) at the agency-wide level in the consolidated DoW Agency Financial Report.

15.2.2. Conduct a program-specific risk assessment for each DoW program or activity and adequately conclude whether the program is likely to make IPs plus UPs above or below the statutory threshold.

15.2.3. Publish IP and UP estimates for programs susceptible to significant improper and unknown payments in the accompanying materials to the consolidated DoW AFR.

15.2.4. Publish corrective action plans (CAPs) for each program susceptible to significant improper and unknown payments for which an estimate above the statutory threshold was published in the accompanying materials to the annual financial statement.

15.2.5. Publish a reduction target for each DoW program that has reported IP and UP estimates above the statutory threshold, demonstrated improvements to payment integrity or reached a tolerable improper payment or unknown payment rate, and develop a plan to meet the established reduction target.

15.2.6. Report an IP and UP estimate of less than 10 percent for each DoW program and activity for which an IP and UP estimate was published in the accompanying materials to the annual financial statement.

15.3 OUSW(C) Roles and Responsibilities

15.3.1. FMPR Directorate Role

The DCFO Financial Management Policy Reporting (FMPR) Directorate manages the DoW Payment Integrity portfolio. The FMPR Directorate provides oversight to the DoW Components to ensure compliance with the authoritative guidance on Payment Integrity. Additionally, FMPR must be notified by the audit agency of any stand-alone audits regarding Payment Integrity.

15.3.2. The FMPR Directorate holds a wide range of responsibilities related to Payment Integrity within the DoW. The Directorate must interpret and guide DoW Components to ensure compliance with authoritative regulations. The FMPR Directorate also coordinates efforts to reduce monetary loss, compiling and submitting quarterly reports to OMB for any high-priority programs that project over $100 million in improper payments. A key part of their role is to establish and report baselines for payment integrity, then work with DoW Components to set reduction targets and develop plans to meet them. They are responsible for reviewing and consolidating all payment integrity data from the Components, reporting the final results in the consolidated DoW AFR and to OMB through the Annual Data Call. Furthermore, the FMPR Directorate prepares and submits all DoW-wide reports on Payment Integrity and serves as the primary liaison for annual OIG DoW and Government GAO audits, ensuring timely information transmission and implementation of auditor recommendations. They also provide administrative and technical support to the DoW PIIA Senior Accountable Officials Steering Committee, which oversees the Payment Integrity program. Finally, the FMPR Directorate is responsible for keeping the Payment Integrity policy within the DoW Financial Management Regulation current and for retaining all documentation submitted by DoW Components, in accordance with official financial records retention policies. For additional information on FMPR retention requirements, refer to OSW Records Disposition Schedules.

15.4 DoW Component Roles/Responsibilities

15.4.1. The DoW Components ensure that their payments are valid, accurate, and complete. Additionally, the DoW Components ensure that their payments are subjected to post-payment reviews that align with the Department's Payment Integrity lines of effort.

15.4.2. For each DoW program under Phase 1, conduct a program-specific risk assessment to determine if the DoW program or activity is susceptible to significant improper payments.

15.4.3. For each DoW program under Phase 2 that has been determined to be susceptible to significant improper payments, develop a statistically valid S&EMP. In addition, implement the S&EMP to produce statistically valid improper payment and unknown payment estimates for all DoW programs and activities determined to be susceptible to significant improper payments. Report annual results of improper payments and unknown payments to OUSW(C), FMPR, for adjudication, consolidation, and reporting in the Payment Integrity section of the consolidated DoW AFR and to OMB through their Annual Data Call.

15.4.4. For programs or activities determined to be susceptible to significant improper payments and unknown payments above the statutory threshold designated by OMB, identify the root causes of improper payments and unknown payments and develop cost-effective CAPs that eliminate the root causes of improper payments and unknown payments and prevent and reduce improper payments and unknown payments. Submit results on a quarterly basis to OUSW(C), FMPR, for consolidation and reporting in accordance with OMB for high-priority programs. High-priority programs must provide quarterly Payment Integrity Scorecard reporting on PaymentAccuracy.gov.

15.4.5. Implement a cost-effective payment recovery program to recover improper overpayments that resulted in monetary losses.

15.4.6. Support the annual OIG DoW performance audit and relevant GAO audits in a timely manner by furnishing all required provided-by-client documentation, providing responses to auditor's inquiries, and implementing auditor recommendations. Provide support for all ad-hoc requests from external oversight bodies (i.e., OMB, GAO, and Congress). Notify OUSW(C), FMPR of any stand-alone audits regarding Payment Integrity that directly impact their Component. Retain documentation submitted by the DoW Components.

15.5 OMB Circular No. A-123 Appendix C

DoW Components must implement the requirements in OMB Circular No. A-123, Appendix C, or its successor publication.

15.6 OMB Circular No. A-136

15.6.1. The Department must implement the requirements in OMB Circular No. A-136, or its successor publication. The Department must complete the annual OMB Data Call and include a link to PaymentAccuracy.gov in its consolidated AFR. Key responsibilities include contacting OMB by September 1st to gain access to the Data Call and reviewing its guidance to determine applicable requirements. If recovery audits are conducted and the contractor recommends actions to prevent overpayments, the Department should report on these actions in the AFR.

15.6.2. High-priority programs are required to provide in the annual consolidated DoW AFR a summary of their payment integrity activities and results.

16.0 REVENUE AND OTHER FINANCING SOURCES, GAINS AND LOSSES

16.1 Revenue

16.1.1. The DoW generates revenue from its normal operations and may experience gains or losses from unusual or nonrecurring transactions. Revenue is defined as an inflow of resources that the government either demands, earns, or receives as a donation, resulting in an increase in assets, a decrease in liabilities, or both, which ultimately increases the Net Position. A prime example of how a decrease in liabilities impacts revenue is the reduction of "Liabilities for Advances and Prepayment" after the delivery of goods or services.

16.1.2. Exchange and Nonexchange Revenues

16.1.2.1. DoW activities (WCF within the Military Departments and Other Defense Organizations, and construction agents) earn exchange revenues when they provide goods and services at cost to other government entities and the public. They must recognize revenue at the actual price received or receivable as soon as the value is delivered and post exchange revenue at the actual price that is received or receivable under the established pricing arrangement.

16.1.2.2. Nonexchange revenues are inflows of resources that the government demands or receives by donation.

16.1.2.3. Cost of goods sold must be recorded when exchange revenues are generated by providing goods and services. Costs must be recorded in the appropriate accounts, such as Cost of Goods Sold for Inventory Sales or Operating Expenses/Program Costs for services sales. The cost of goods sold account is discussed in Section 17.

16.1.2.4. Nonappropriated Funds (NAF) Activity Revenues must be accounted for in accordance with Volume 13. NAF Activities are not included in federal financial statements and are non-federal activities for budgetary and proprietary accounting purposes. They follow the standards of the FASB rather than FASAB.

16.1.2.5. Refunds are recoveries of overpayments and can result from errors in paying invoices or items returned to the vendor, not revenue.

16.1.3. Reimbursements and Collections

16.1.3.1. The Component requires specific legal authority to retain collections from providing reimbursable goods and services; otherwise, all funds collected must be transferred to a miscellaneous receipt account. The expenses incurred for this work must be recorded in full and cannot be reduced or offset by reimbursements. See Volume 11 for additional information about reimbursements.

16.1.3.2. The Component must record revenue in the financial records, collect it promptly, and deposit it in the appropriate Treasury account.

16.2 Exchange Revenue Recognition and Measurement

16.2.1. Exchange revenues are earned when both parties in a transaction sacrifice and receive value, such as with user charges or intragovernmental cost reimbursements. The revenue recognized from these transactions is the price received or receivable for the exchange.

16.2.2. Revenue from advance payments must be deferred until the related goods or services are provided. Upon receipt, these funds must be recorded as an increase to cash and a liability, such as "unearned revenue," and this liability is only cleared once performance is complete.

16.2.3. A receivable must be recorded when revenue is recognized, and payment is not received. If the full amount is not expected due to credit losses, returns, allowances, or price redeterminations, bad debt expense must be recognized. An appropriate allowance for estimated bad debts must be established.

16.3 Exchange Revenue Disclosures

16.3.1. Each DoW Component that provides goods or services to the public or another government agency must disclose information about exchange revenue.

16.3.2. If increased prices for the exchange revenue may cause reduced demand, the entity must provide an estimate of the possible revenue foregone and provide calculation assumptions.

16.4 Nonexchange Revenue Recognition and Measurement

16.4.1. Nonexchange revenues, such as taxes, fines, and donations, stem from the government's power to demand payment. They are recognized in the financial results of operations only when a specifically identifiable, legally enforceable claim exists, collection is probable, and the amount is measurable. Detailed guidance on reporting these revenues can be found in Volume 6.

16.4.2. Donations from non-federal entities, whether financial, such as cash or securities, or non-financial, such as land or buildings, are recognized as nonexchange revenue at their estimated fair market value. However, no value is recognized for donations of heritage assets or stewardship land, unless they are classified as multi-use heritage assets, which must be recorded at fair market value.

16.4.3. The Component must deposit collections not authorized for retention as miscellaneous receipts into the Treasury's GF, regardless of whether they are exchange or nonexchange revenue. If the underlying asset is predominantly nonexchange, the revenue is nonexchange. While the collecting entity is responsible for measuring any nonexchange revenue, it is the legally entitled recipient entity that must formally recognize it, as detailed in SFFAS 7.

16.5 Nonexchange Revenue Disclosures

Each DoW Component must disclose nonexchange revenue.

16.6 Other Financing Sources

The DoW Component must categorize appropriations used, asset transfers from other government entities, and imputed financing from cost subsidies as “other financing sources.”

16.6.1. Appropriations

DoW Components do not consider appropriations a financing source until they use them. When appropriations are available for apportionment, the Component recognizes them in its capital accounts as ‘unexpended appropriations.’ The Component then reduces this balance as it

uses the funds or makes adjustments for changes like rescissions and transfers. The Component recognizes the net change in unexpended appropriations as a change in its net position. Once used, appropriations become a financing source in determining the net results of operations. DoW Components 'use' appropriations when they receive goods and services, provide benefits and grants (which the Component provides when grantees meet the requirements), and establish the related liability.

16.6.2. Imputed Financing

16.6.2.1. Government entities frequently receive goods and services from other government entities without fully reimbursing them or incur costs like pensions that are paid by other entities. These transactions create imputed costs for the provider and imputed financing for the recipient. Recognizing these imputed costs and their corresponding offsets is crucial when such costs contribute to government goods or services provided for a fee.

16.6.2.2. WCFs must recognize these subsidized costs as an imputed financing source equal to the imputed cost. This offsets any effect of imputed cost on net results of operations for the period.

16.6.2.3. GFs do not recognize imputed financing. However, OMB requires GFs to recognize certain imputed costs. These exceptions include: employee pension, post-retirement health, and life insurance benefits; postemployment benefits for terminated and inactive employees, such as unemployment and workers' compensation under the Federal Employees' Compensation Act; and losses from litigation proceedings that the Treasury Judgment Fund pays.

16.6.2.4. DoW Component imputed costs can include military personnel costs, retirement benefits, other postemployment benefits, unreimbursed tenant's costs, and unreimbursed environmental cleanup costs, when administered outside the DoW reporting entity.

16.7 Transfers

For unreimbursed intragovernmental asset transfers, the receiving entity must recognize a transfer-in as an additional financing source, while the transferring entity recognizes a transfer-out as a decrease in its result of operations. The transfer must be recorded at the asset's book value; if the book value is unknown, the asset's estimated fair market value on the transfer date is used. Trading partners should record reciprocal transfers in the same accounting period to avoid reconciliation differences. Refer to the procedures for more on PP&E transfers and refer to OMB Circular A-11 for guidance on the budgetary impact of transfers.

16.8 Gains or Losses

16.8.1. The Component must recognize gains or losses for unusual or nonrecurring transactions, such as the sale, exchange, or disposition of government assets (excluding inventory held for sale). A loss is also recognized when inventory is reclassified as excess, obsolete, or unserviceable because its value falls below its acquisition cost. The difference between an asset's sale proceeds and its book value is recognized as a gain or loss upon sale. This principle applies to assets, PP&E, receivables, and investments where the selling entity retains the proceeds.

16.8.2. Base Realignment and Closure gains and losses are discussed in Volume 12.

16.8.3. Record unrealized holding gains/losses on securities available for sale in accordance with FASAB's ASC 321-10-35; fair value hedges, cash flow hedges, and accounting for a hedge of a net investment in a foreign operation under ASC 815-20-25; and foreign currency matters under ASC 830-10.

16.9 Volume 4 Appendix

Refer to the appendix within the Supplemental. The appendix provides accounting standards used for classifying transactions that finance the DoW cost of operations and a significant number of lesser transactions aligned to SFFAS 7. This appendix is divided into the following groups: nonexchange transactions; exchange transactions that produce revenue; other financing sources; revaluation gains and losses; and transactions not recognized as revenues, gains, or other financing sources.

17.0 EXPENSES AND MISCELLANEOUS ITEMS

Expenses represent a cash outlay, consumption of assets, and/or the incurrence of liabilities during a period of providing goods, rendering services, or carrying out other normal operating activities related to the entity's programs and missions, which results in a decrease in the entity's net position. Accounting systems must be capable of reporting transactions in sufficient detail to support budget preparation and cost accounting requirements.

17.1 Exceptions to Cash Outlays

While most expenses require cash outlays, exceptions include depreciation, other losses, and bad debt expenses. Miscellaneous non-cash items can also arise from extraordinary transactions, prior period adjustments, and changes in actuarial liabilities.

17.2 Unusual or Nonrecurring Transactions

Costs from extraordinary or unexpected events are classified as miscellaneous items. However, unusual or nonrecurring transactions, or those from an entity's incidental activities, should be recognized as a gain or loss rather than revenue or expense.

17.3 Budgetary Accounts

An expense typically involves the use of budgetary or other resources. When goods and services are ordered and received, they are recorded as expended authority in the budgetary accounts and as an expense in the proprietary accounts, supporting financial control over resources and accurate accounting during budget execution.

17.4 DWCF Expenses

The treatment of expenses by some DWCF activities differs compared to the treatment of appropriation-funded activities. Expenses are costs accumulated in asset accounts such as

Construction in Progress (CIP) or Inventory Work in Process and are subsequently billed to customers. Expenses are also costs to the activity or cost center, similar to appropriated funded activities. Refer to Volume 11 for DWCF policy.

17.5 Presentation in Financial Statements

17.5.1. Expense Recognition

Expenses are commonly reported at the time they are incurred, not when invoices are received. Goods and services (costs) acquired from or provided to other government trading partners or programs (i.e., intragovernmental) must be recorded separately from those purchased from nonfederal entities (i.e., the public).

17.5.2. Program Costs

Program costs, as required by Volume 6 for the Statement of Net Cost, encompass the full costs of program outputs, including direct costs, costs directly traced or allocated on a cause-and-effect basis, and nonproduction costs. These costs must also include services provided by other entities, even if not fully reimbursed, and costs paid by other entities that accounting standards require to be recognized within the financial statements.

17.5.3. Production and Nonproduction Costs

The Component must report costs related to the production of outputs separately from nonproduction costs on the Statement of Net Cost. Nonproduction costs are reported as a separate item in the financial statements and are addressed in the SFFAS 4.

17.5.3.1. The cost of acquiring, constructing, improving, reconstructing, or renovating heritage assets. Costs associated with multi-use heritage assets are capitalized and depreciated over the expected useful life if they meet the capitalization criteria.

17.5.3.2. The acquisition cost of acquiring stewardship land.

17.5.3.3. The cost of maintenance not performed but delayed to a future period (deferred maintenance) reported in the Required Supplementary Information (RSI) section of the financial statements. Refer to Volume 6.

17.5.4. Expenses and Miscellaneous Items

Operating expenses, which include personnel costs, contractual services, and OM&S, can also include allocations of prior capital outlays (depreciation/amortization) or cost recovery for operations. Also known as program costs, these expenses are tied to specific programs or functions and often require a budgetary entry to record obligations from the unexpended obligation (undelivered order) to the expended authority (delivered order). Examples include personnel, travel, communications, contractual services, and other program expenses. DWCF activities typically record these expenses to a cost of goods sold account to match costs with revenue.

17.5.5. Property, Plant and Equipment

Costs for PP&E acquired or constructed for a project must be capitalized if the acquisition cost exceeds the Department's threshold, the items are not for sale in the ordinary course of operations, are intended for entity use, and have a life expectancy of over two years. Conversely, an asset may be expensed if it falls below the purchasing agency's capitalization threshold or has a useful life of less than two years, even if acquired from another federal agency.

17.5.6. Work in Process Account

WIP accounts must accumulate the costs of goods or services. The WIP cost amounts and applicable inventory accounts serve as the basis for calculating the cost of goods sold.

17.5.7. Depreciation, Amortization and Depletion Account

Depreciation, Amortization and Depletion are used to record the allocation of the cost of an asset (tangible or intangible) over the period of time benefited or the asset's useful life.

17.5.8. Benefits Expense

17.5.8.1. The employer's contribution to various employee benefit programs including retirement funds, life insurance, Voluntary Separation Incentive Payments (VSIP), FECA, unemployment, Social Security, and Medicare, constitutes a benefit expense. This expense must be recorded in the entity's General Ledger by the program and/or administering agency as it is incurred for benefit payments.

17.5.8.2. Employer contributions to the Thrift Savings Plan are nonfederal expenses. The account must be supported by subsidiary accounts to show the types of transactions for which entitlement benefits were incurred.

17.5.8.3. Administrative expenses incurred for benefit payments are generally nonfederal expenses. This includes (but is not limited to) costs for retirement, life insurance, health insurance, VSIP, FECA, unemployment, entitlements, and insurance guarantees (i.e., flood insurance).

17.5.9. Cost of Goods Sold Account

The cost of goods sold account is used to record the cost of goods or services sold from inventory by various DoW activities, including DWCF activities and other entities authorized to provide services to federal and nonfederal organizations. While predominantly used by revolving fund activities, this account must also be used by appropriated fund activities to support their reimbursable programs.

7.5.10. Imputed Costs Account

All DoW activities receiving goods or services without reimbursement from outside their reporting entity must use the Imputed Cost account. Refer to SFFAS 55 for the recognition of

significant inter-entity costs among federal agencies for business-type activities. Business-type activities, like the DWCF, are self-sustaining, financing operations through exchange revenues.

17.5.11. Future Funded Expenses

Future funded expenses are accrued expenses requiring future year appropriations. Examples include accrued annual leave (except for WCFs), accrued workers' compensation, upward re-estimates for credit reform loan programs, and projected future cleanup costs for hazardous materials associated with PP&E.

17.5.12. Expense Transactions Not Requiring Budgetary Resources

Some expense transactions, such as depreciation, imputed costs (paid by other entities), or future-funded expenses, do not require the use of current budgetary resources. For these, only proprietary accounts are used, often allocating costs over multiple reporting periods.

17.5.13. Losses

Losses are associated with transactions not incurred in the normal operation of the organization (such as the loss on the disposal of property).

17.5.13.1. Losses on Disposition of Assets Account

The Losses on Disposition of Assets account is used to record a loss incurred on the disposition of DoW-owned assets. Such losses can result from the sale, exchange, casualty, or retirement of assets. Losses are reported net of any received proceeds.

17.5.13.2. Components of Losses on Disposition of Assets Account

The Losses on Disposition of Assets account must be used only by DoW Components authorized to dispose of DoW property; however, any DoW Component having control over personal and real property may incur such losses due to events beyond its control. The effect of such losses must be recorded in Losses on Disposition of Assets in the Statement of Net Cost.

17.5.13.3. Other Losses

Other Losses must be used to record the loss on assets resulting from events other than disposition, such as investment losses and miscellaneous losses.

17.5.14. Extraordinary Items

Events are classified as extraordinary items when they are both unusual and infrequent, considering the entity's operating environment. The total amount of all extraordinary items is included in the Statement of Net Cost's applicable Gross Program Cost or Non-Production Cost lines, and their nature and amount must be disclosed in the financial statements.

17.5.15. Prior Period Adjustments

Circumstances may arise requiring an entity to adjust prior period financial statements due to a change in accounting principle or correction of a material error. Such circumstances include the retrospective application of a change in accounting principle or the correction of a material error in prior period financial statements pursuant to SFFAS 21. Refer to Volume 6 for information on reporting prior period adjustments in the financial statements.

17.5.15.1. Change in Accounting Principle

A change in accounting principle involves adopting a new, preferable GAAP, including new federal financial accounting standards, to produce more accurate and meaningful financial statements and disclosures. The term "accounting principle" encompasses both the principles themselves and their application methods. Unless otherwise specified in the transition instructions section of a new federal financial accounting standard, the cumulative effect of the change on prior periods should be reported as a change in accounting principle, with the adjustment made to the beginning balance of the cumulative results of operations in the Statement of Changes in Net Position. The nature of the changes in accounting principle and its effect on relevant balances should be disclosed in the current period. Financial statements of subsequent periods need not repeat the disclosure.

17.5.15.2. Correction of Errors

If material errors are discovered after financial statements have been issued, corrections must be made. For comparative statements, the error should be corrected in the earliest affected period presented by adjusting individual financial statement amounts. If the error occurred before the earliest period shown, its cumulative effect should be reported as a prior period adjustment to the beginning balance of cumulative results of operations in the Statement of Changes in Net Position for the earliest period presented. The nature of the error and the effect of its correction must be disclosed. Importantly, prior period financial statements should only be restated for errors that would have caused them to be materially misstated.

18.0 MANAGERIAL COST ACCOUNTING

18.0.1. Managerial cost accounting standards provide reliable and timely information on the full cost of federal programs, projects, activities, and outputs. This information is the foundation for accurate and consistent cost accounting, and it clarifies the relationship between cost accounting, financial reporting, and budgeting. Cost accounting information is also crucial for DoW program managers and stakeholders, aiding in informed decisions regarding budget control, performance measurement, pricing, program evaluations, and economic choices. As an integral part of the financial management system, managerial cost accounting concepts provide a basis for accounting, recognition, and measurement.

18.0.2. The five fundamental elements of managerial cost accounting are as follows: First, costs of activities must be accumulated and reported on a regular basis for management information purposes. Second, responsibility segments should be established to match costs with outputs. Third, the full costs of government goods and services need to be determined. Fourth,

the costs of goods and services provided among Federal entities must be recognized. Finally, appropriate costing methodologies should be used to accumulate and assign costs to outputs. Agencies have flexibility in designing a cost accounting methodology that meets both internal and external user needs. Refer to SFFAS 4.

18.0.3. Managerial cost accounting helps an organization determine at what point a program might experience a cost overrun given its current spending plan. It also clarifies the full costs to deliver goods and services by organization, line of business, or region. Ultimately, this information provides insight into how effectively the organization is managing its resources for mission success and cost efficiency, and how well it has met its strategic goals with the resources available.

18.1 Assignment and Methodologies

Managers must establish appropriate procedures for collection, measurement, analysis, interpretation, and communication of consistent cost information with a system or the use of cost assignment approaches that link financial expenses to an organization's outputs. The primary method for assigning costs is by directly tracing them whenever feasible and economically practical. If direct tracing isn't possible, costs should be assigned based on a cause-and-effect relationship or, as a last resort, allocated on a reasonable and consistent basis. While no specific costing methodology is mandated by SFFAS 4, the standard requires that once a methodology for accumulating and allocating costs is chosen, it must be used consistently and guided by the USSGL and the SFIS.

18.2 Systems, Sources and Cost Finding

18.2.1. A system is a continuous and systematic process designed to accumulate and assign costs from a common data source to various objects, either routinely or as managers require. This data source can include a wide variety of financial and non-financial information to support cost, financial, and budgetary accounting.

18.2.2. When data systems cannot provide the necessary cost information, or for non-recurring needs like budget estimates and special analyses, personnel can use cost-finding techniques such as analytical or sampling methods and special studies. These techniques should not, however, replace consistent and regular managerial cost reporting when it is available.

18.3 Reporting and Analysis

Reporting and analysis of reliable cost information offers a deeper understanding of programs, including their costs, changes over time, and overall efficiency. This data supports budgetary, financial, and managerial decisions. Aligning planned and actual performance data brings additional benefits, such as capturing the full costs of products and manpower, creating transparency in pricing, and ensuring consistent reporting for historical analysis and forecasting.

18.4 Users

All stakeholders, regardless of their function, require accurate reporting to identify cash, disbursements, collections, and the full cost of resources, activities, capabilities, and operations. For DoW Reporting Components, this is particularly crucial for making better decisions at the cost element level, knowing the cost of operations and activities, and linking budget planning to actual expenditures. This level of reporting also enables responses to both external and internal cost inquiries and makes costs visible to DoW leadership, component leadership, operational commanders, and program managers.

18.4.1. Internal Users

Government managers are the primary users of cost information, as they are responsible for carrying out program objectives. Program managers use this data to control costs, make resource acquisition decisions, improve the efficiency of program activities, and prepare budget proposals for agency heads and Congress. Concurrently, financial managers, including accountants and budget analysts, rely on cost information to calculate unit costs, analyze variances, formulate standard costs, compile financial reports, and analyze cost behavior for decisions such as whether to buy or lease. Additionally, franchise activity managers use it to set prices or reimbursements. At the executive level, government leaders utilize cost information to evaluate overall program performance, assess future resource requirements for financial plans and budgets, and develop proposals to the President and Congress on resource allocations and program modifications.

18.4.2. External Users

Congress uses cost information to make policy decisions, set program priorities, and allocate resources through the appropriations process. This data allows them to compare alternative courses of action, make authorization decisions by assessing costs and benefits, and evaluate program outcomes. Citizens, including the news media and interest groups, use this same information to assess the efficiency and effectiveness of how those resources are allocated.

18.4.3. Decision Making

To interpret cost data effectively, it is crucial to distinguish between direct and indirect, fixed and variable, and full and relevant costs. The availability of accurate, detailed historical cost information is essential for providing insight into budgets, cost estimates, and performance metrics. This information allows organizations to manage spend plans, understand the full cost of delivering goods and services, and make informed decisions regarding budget control, performance measurement, pricing, program evaluations, and economic choices.

18.4.4. Budget and Cost Control

Budget planning and control serves an important function within the Federal Government. Managers use historical and current costs of program activities as a basis in estimating future budgets and to measure actual performance against established goals. Once budgets are approved and executed, current cost information serves as budget feedback. DoW financial managers use

this feedback from the current cost-to-budget analysis to control and reduce costs, as well as to find and avoid waste. Organizations should produce a Statement of Net Cost (actual to budget) in accordance with Volume 6.

18.4.5. Performance Measurement

18.4.5.1. Federal Agencies must improve financial management and accountability as mandated by the CFO Act, Government Performance and Results Act, the Government Management Reform Act, and the Federal Financial Management Improvement Act. As mandated, program managers must establish performance goals based on the direct and indirect costs of programs, and align strategic resources to results as documented within the annual performance plans. The leading practice in performance management is to measure "outcomes," which are the actual results or goals. Managerial cost accounting provides the detailed performance data that leadership needs to determine if an organization is achieving its desired outcomes. By defining clear cost goals, managers can deploy resources more efficiently to achieve the desired performance.

18.4.5.2. An annual performance plan connects measurements for major activities, goods, and services to anticipated resource levels. In the budget formulation process, managers link federal resources to results. Managerial cost accounting requires that all federal resources, including both direct and indirect costs, are factored into planning. A complete performance report must include all direct and indirect costs.

18.4.5.3. Performance measurement can be viewed as the government equivalent of private sector profitability measurements. Cost should be combined with an effectiveness measure, such as the percent of a goal achieved at a level of expected performance, to improve the accuracy of the output.

18.4.5.4. As suggested by SFFAS 4, measuring cost is an integral part of measuring performance for efficiency and cost effectiveness. Efficiency is measured by relating outputs to inputs, often expressed as cost per unit of output.

18.5 Reimbursements and Fee/Price Setting

Management uses essential cost information to set prices and user fees for government goods and services. In the Federal Government, however, pricing is a policy matter, often governed by statutory provisions, regulations, or departmental policies. For specific guidance, refer to SFFAS 4, OMB Circular A-25, and for more information on WCF see Volumes 3 and 11.

18.6 Program Evaluations

The cost of federal resources is a critical factor in policy decisions regarding program authorization, modification, or discontinuation, although these decisions are often subject to policy constraints. Such evaluations require consideration of both social and economic costs and benefits, sometimes necessitating advice from external entities. The Office of the Director, Cost Assessment and Program Evaluation (CAPE), provides independent analytic advice on all aspects

of the Defense program, including alternative weapon systems, force structures, and the cost-effectiveness of defense systems.

18.7 Economic Choice Decisions

As noted in SFFAS 4, agencies and programs often face decisions involving choices among alternative actions, such as whether to do a project in-house or contract it out, to accept or reject a proposal, or to continue or discontinue a good or service. Making these decisions requires cost comparisons among available alternatives.

18.8 Cost Assignment and Costing Methodology

SFFAS 4 requires managers to accumulate costs by responsibility segment and resource type, track outputs produced, and assign the full cost of all resources to those outputs using consistent costing methodologies. Management should evaluate alternative costing methods and select the method with the best results considering its operating environment and economic feasibility. In accordance with SFFAS 4, the costing methodology, once adopted, should be used consistently so that cost information can be compared from year to year. This requirement does not preclude necessary improvements and refinements to the system or methodology, so long as the effect of any change is documented and explained.

18.9 Cost Accumulation

SFFAS 4 states that cost accumulation is the process of collecting cost data in an organized way and that the accumulation is for costs incurred within each responsibility segment and does not include costs incurred by other supporting segments. Refer to Volume 4 Supplemental for more information.

18.10 Cost Assignment Authoritative Guidance

18.10.1. Cost assignment is the process that identifies the accumulated costs to cost objects (an activity or item whose cost is measured). Refer to Volume 1 and the SFIS resources web page for cost assignment authoritative guidance. SFFAS 4 details the approaches for assigning costs to outputs.

18.10.2. Agencies and responsibility segments select the appropriate cost assignment approach based on their operational needs. Operational needs tend to follow historic practices (if reliable historic data is available); however, cost assignment approaches can change if the operating environment or regulations change.

18.10.3. Responsibility segments that produce a single output assign all production costs directly to that output. For segments that provide intermediate goods or supporting services, the costs are assigned to the receiving segments. Similarly, inter-entity costs are assigned to the responsibility segments that use the goods and services from other federal entities, and the receiving entity must formally recognize these costs.

18.10.4. It is a requirement to document changes to a cost assignment approach. Documenting changes may also require noting in the financial statements. It is important to maintain a consistent cost assignment approach, where possible, for reporting and pricing efforts.

18.11 Direct Tracing

Direct tracing applies to resources used directly in producing an output, such as materials, direct employee effort, and dedicated facilities. This method can also be used for specific resources from outside entities. In some cases, support costs that are normally classified as indirect (such as IT support or equipment maintenance) can be "directly traced" if they are tracked to a single, specific task via dedicated job orders or work codes.

18.12 Cause and Effect Basis

When direct tracing of costs to a final output is not feasible, a cause-and-effect basis can be used. This method assigns costs to intermediate activities and then allocates those activity costs to the outputs that required them. This approach is most effective when production is consistent and should not be used if a clear relationship between the cost and the final output cannot be established.

18.13 Cost Allocation

18.13.1. Cost allocation is the process of assigning costs that cannot be directly traced or assigned using the cause-and-effect basis. General and Administrative services used by various common segments apply cost allocation to assign costs to benefiting cost objects. Cost allocation provides the least detail in costs incurred and is used for indirect costs only.

18.13.2. The Component allocates General and Administrative support costs first to the segments and then to the outputs of that segment on a pro rata basis.

18.13.3. The usual basis for cost allocations is the relevant common denominator or the allocation base. The basis of cost allocation may include the number of employees, direct hours worked, or the amount of direct costs incurred in segments. Grouped costs should be accumulated and assigned using a consistent and relevant base. The allocation frequency and base should remain consistent to allow cost comparison over a period of time.

18.13.4. Cost allocations are typically based on a relevant common denominator, or allocation base, such as the number of employees, direct hours worked, or direct costs incurred. Costs should be grouped and assigned using a consistent and relevant base. To facilitate cost comparison over time, the allocation frequency and base should remain consistent.

18.13.5. Costs accumulated for intermediate cost objects must be homogeneous. Examples include human resource departments, program management offices, and general and administrative offices.

18.14 Costing Methodologies and Cost Behaviors

The costing methodologies described in paragraphs 18.15 through 18.18 are not mutually exclusive nor all-inclusive and can be utilized in combination based on the objective, job order, or process costing and can be applied to both ABC and standard costing systems.

18.15 Job Order Costing

Job order costing is a methodology where the system accumulates and assigns costs to discrete jobs.

18.15.1. In a job order costing system, different products with varying degrees of production time and different amounts of direct materials consumed are tracked separately by work orders. Job order costing provides more control, less estimation, and more direct and reliable allocation of costs.

18.15.2. Direct materials and supplies owned by the performing activity, acquired from a WCF or from an inventory account financed by appropriated funds, are charged to a job order in accordance with established costing procedures for the segment.

18.15.3. The structure for job order data must be consistent with SFIS.

18.15.4. Each identified cost object is assigned a job order number, creating a framework similar to a Work Breakdown Structure for tracking and reporting. This number is used to accumulate direct labor, direct materials, and overhead costs for each specific job. For detailed DoW-specific transactions, refer to the DoW USSGL Transaction Library, ensuring consistency with Volume 1. Refer to Volume 11 for reimbursable policies for activities financed by annual appropriations and WCFs.

18.16 Process Costing

18.16.1. Process costing accumulates costs by individual processing cost center. These processing cost centers are involved in a continuous flow of effort, with each center contributing towards the completion of the end products. The output of a processing center becomes the input of the next processing cost center or becomes a part of the end product.

18.16.2. Process costing is appropriate for production of goods or services when production involves a regular pattern of processes, the output consists of homogeneous units, and all units are produced through the same process procedures.

18.16.3. Each cost center accumulates costs, assigns the costs to its outputs, and calculates the unit cost of its output.

18.17 Standard Costing

Standard costs are predetermined or expected costs applied to activities, services, or products on a per-unit basis, serving as a goal to compare against actual costs. A standard cost is

a fixed price per unit that specifies both the non-financial resources required for a task (such as hours or materials) and the expected financial cost, covering direct materials, direct labor, and indirect costs. For more information on Reimbursable Operations and WCF activities, refer to Volume 11.

18.18 Activity Based Costing (ABC)

ABC focuses on activities of a production cycle, based on the premise that output requires activities to produce, and activities consume resources. ABC uses cost drivers to assign costs through activities to outputs. The ABC cost assignment process is a two-stage process. The first stage assigns the cost of resources to activities. The second stage assigns activity costs to outputs. Job order or process costing would be costing activities that occur in the production of a final output. ABC can be used in conjunction with job order costing or process costing.

18.19 Data Systems, Data Sources and Cost Finding

Financial accounting, budgeting, and managing are three essential components of accountability. Data systems are the source of cost and programmatic information used for reporting. SFFAS 4 requires that each reporting entity accumulate and report the cost of activities on a regular basis. Data system-based reporting should be prioritized over cost-finding reports to ensure the routine collection of reliable data from a common source. These systems integrate information from various organizational segments, such as accounting, time records, and asset data, to provide comprehensive cost information. A data system can also incorporate evaluation and decision-support information derived from prior reporting and feedback. DoW data systems, to the extent practicable, should be integrated with an organization's accounting, budgetary, and financial system(s). Data systems will support cost analyses used to compare actual to anticipated costs. To meet managerial cost accounting needs, data systems should use uniform and basic cost, transactional, or programmatic data. Refer to SFFAS 4.

18.20 Data Sources

Data sources, whether internal or external, must be relevant to the reporting segment, retain data for historical reference and forecasting, and be regularly checked for accuracy and reliability and dispositioned IAW the DoW Components or NARA records retention schedules. Per SFFAC 1, the focus is on developing GAAP standards for reporting on the financial operations, financial position, and financial condition of the Federal Government and its component entities and other useful financial information. Although data sources must adapt to changing operational needs, they must also conform to standards like Objectives of Federal Financial Reporting (OFFR), SFIS, and SLOA to support consistent and useful federal financial reporting.

18.21 Cost, Budget, and Financial System Relationships

Proper financial management requires that cost, budget, and financial systems work closely together to provide useful information. Per FASAB, OFFR should consider the needs of both internal and external users, the decisions they make, and the information they need. The

established data systems must follow the DoW USSGL Transaction Library and DoW SCOA for consistency of the cost information.

18.22 Cost Finding

Cost finding is a tool that uses analytical or sampling methods to generate cost data when a data system is insufficient, particularly for projects with limited scopes or for analyzing indirect costs. These techniques are used to create special-purpose reports for financial decisions, such as planning for replacement or capital costs. However, cost finding is not a substitute for a robust data system. Its use should be limited, with a clear timeframe for updating the report. As actual data becomes available and normalized, it should replace the cost-finding report.

18.23 Cost Finding Application

18.23.1. Cost findings generated manually outside of the standard reporting tools should utilize an established managerial cost accounting data system where possible. The process must be thoroughly documented. Documentation must be sufficient to replicate the cost finding process used with consistent results.

18.23.2. Within the DoW, cost finding techniques will be used to compare costs of different organizational units or operations performing the similar output.

18.23.3. Cost finding techniques are used for a number of different circumstances. A cost accounting system is not in place for full cost of a cost objective, the data system does not have the full costs incurred to provide an output or product, activities do not have formal cost accounting capability as part of their financial management system, and the cost of an item has not been recorded in the accounting system and that the item is being transferred, sold, or recorded in the accounting system for the first time.

18.23.4. When the purpose of a cost finding includes the preparation of an internal report or an external report for another Federal agency or non-Federal organization, GF and WCF Components should follow the guidance contained in Volume 11 to ensure that all applicable costs are considered. When the purpose is to establish the cost of an activity associated with the Security Cooperation Program, managers and users will follow the guidance contained in Volume 15.

18.24 Cost Finding Requirements

Cost finding techniques must be repeatable and set up in a manner that is consistent with similar prior cost finding reports in the cost collection approach and align with the SFIS Business Rules. A thoroughly documented cost-finding approach requires identifying the cost objects or outputs (intermediate and final) to which techniques will apply, alongside the relevant funds (WCF, GF) and involved organizations, detailing tasks performed by each. It must also specify applicable cost elements, outline specific cost-finding techniques with selection criteria, and describe how these techniques will estimate the cost object. The documented statement and related work papers should be retained. Refer to their DoW Component records retention requirements for document retention and audit readiness.

18.25 Pricing for a Cost Finding Report

18.25.1. Pricing elements (labor, materials and overhead) for cost finding reports are estimates based on prior same or similar purchases, projects, or programs. When pricing for a cost finding primarily uses financial system data, it improves the accuracy and confidence in the estimate. Common elements such as labor, raw materials, and materiel are examples of standard costs found in financial systems.

18.25.2. Information available from CAPE, such as full cost of manpower and defense employment and purchase projection system, is available to support pricing of labor costs. In addition to base pay, these sources provide additional costs related to labor, including fringe benefits and training.

18.25.3. Materials and supply pricing tools are also available from CAPE. These tools can support costs for common purchase items. Pricing for materials and supplies should include the full cost of procurement, which can include material handling and destination charges.

18.25.4. A pricing Basis of Estimate (BoE) will vary for services provided by a GF Component versus a WCF Component. A WCF-financed activity must include general and administrative costs and other overhead in a BoE to satisfy requirements for full cost recovery. Under reimbursable policies set forth in Volume 11, DoW activities that finance reimbursable operations using annual appropriations generally do not include such costs in charges to customer activities within the DoW.

19.0 NET POSITION

Net Position, the difference between total assets and total liabilities on a balance sheet, represents the U.S. Government's net investment in the DoW. It can be either positive or negative. For DoW-wide financial statements, Net Position must include all departmental operations, including GFs, WCFs, and Special and Trust funds. This section contains the general policy for accounting for the Net Position of the U.S. Government within the DoW. Posting entries and account listings for the Net Position accounts are provided in the "DoW USSGL Transaction Library" and "DoW Standard Reporting Chart of Accounts," respectively, which are available on the Office of the DCFO SFIS web page.

19.1 Accounting Policy for Net Position

19.1.1. Activities Financed by Appropriations

For activities financed by appropriations, operational results must be recorded as reductions to the Unexpended Appropriations account on a per-transaction basis, while the equity impact is reflected in the Cumulative Results of Operations account. New appropriations increase the Unexpended Appropriations account, while expenditures or withdrawals reduce it.

19.1.2. Activities Financed by Revenues

For activities financed by revenue, operational results directly increase or decrease the Cumulative Results of Operations account, a process that includes asset transfers recognized as financing sources. In contrast, appropriations received for a specific purpose are held in the Unexpended Appropriations account and are only recognized as a financing source when used.

19.2 Recognition in Financial Statements

The Component reporting entity's Net Position accounts are Unexpended Appropriations and Cumulative Results of Operations, and each must be shown in the consolidated Balance Sheet and Statement of Changes in Net Position. Refer to Volume 6.

19.2.1. Unexpended Appropriations

Unexpended appropriations, encompassing both undelivered orders and unobligated balances, must be consistently reported on both the Balance Sheet and the Statement of Changes in Net Position. If material, unexpended appropriations from Dedicated Collections require separate disclosure on the Balance Sheet and reconciliation with the financial statement notes, as mandated by OMB Circular A-136.

19.2.2. Cumulative Results of Operations

Cumulative results of operations represent the net results of operations since inception, inclusive of prior-period adjustments, donations, and non-reimbursed asset transfers. This amount must be identical on both the Balance Sheet and the Statement of Changes in Net Position. Furthermore, if material, any portion attributable to Funds from Dedicated Collections must be separately disclosed on the Balance Sheet and reconciled to the notes as required by SFFAS 27.

19.3 Accounting for Net Position

Transactions affecting net position frequently require a posting to both the proprietary and the budgetary accounts. Refer to the "DoW USSGL Transaction Library".

19.4 Correction of an Error or a Change in Accounting Principle

Financial statement errors arising from mathematical mistakes, misapplication of accounting principles, or the misuse of facts existing at the time of preparation must be corrected if they are discovered after issuance and are material to the statements.

19.5 Changes in Accounting Principles

A change in accounting principle involves switching from one GAAP to another, justifiable as preferable, and includes adopting new federal accounting standards. Unless a new standard's transition instructions specify otherwise, any such change impacting prior-period financial statements may require adjustment.

VOLUME 5

DISBURSING POLICY

1.0 GENERAL

1.1 Purpose

Volume 5 establishes the financial management policy governing disbursing operations across the Department of War, including the appointment, authority, and accountability of disbursing and certifying officials; the collection, safeguarding, and disbursement of public funds; and the control and reporting of those funds. It states the binding policy only; procedures, implementation guidance, definitions, and data tables reside in the companion documents identified below.

1.2 Authoritative Guidance

Please refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Please refer to the Glossary of terms document on the FMR webpage.

1.4 Procedures

Please refer to the procedures document listed throughout this volume.

2.0 PURPOSE, ORGANIZATION, AND DUTIES

2.1 GENERAL

2.1.1. This volume establishes disbursing requirements, principles, standards, responsibilities, and pecuniary liability standards for disbursing officers (DOs), certifying officers (COs), and other accountable officials throughout the DoW. If new legislation conflicts with Volume 5, the highest-level guidance governs.

2.1.2. This volume is issued under the authority of DoD Instruction (DoDI) 7000.14, DoW Financial Management Policy, implements the Treasury Financial Manual (TFM) Volume I, and establishes disbursing policy throughout the DoW. It applies to the Secretary of Defense (SecDef), Military Departments, Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, Combatant Commands, DoW Inspector General, Defense Agencies, and DoW Field Activities (collectively, DoW Components).

2.1.3. Send recommended changes and exceptions to policy through appropriate channels to the Office of the Under Secretary of Defense (Comptroller) (OUSD(C))/Chief Financial Officer (CFO). Coordinate requests for deviations from or exceptions to Volume 5 with the Accounting and Finance Policy, Strategy, Policy and Requirements (SPR) Directorate, Defense Finance and Accounting Service (DFAS) Indianapolis (DFAS-ZPTA/IN), 8899 East 56th Street, Indianapolis, IN 46249-0050, dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil.

2.1.4. Use of Volume 5

2.1.4.1. Volume 5 prescribes the use of specific forms (see the DoD (DD) Forms Management Program). DoW Components using systems and producing their own forms in lieu of those prescribed that were in operation at Volume 5's initial issuance (December 16, 1993) may continue using those systems and forms until DoW implements a single standard disbursing system. A DoW Component electing to use a computer-generated version of a prescribed DD Form must use an exact replica of that form or submit a request for exception per DoD 7750.08, DoW Forms Management Program Procedures, to the address in subparagraph 2.1.3.

2.2 ORGANIZATION

2.2.1. DFAS-ZPTA/IN is under the direction, authority, and control of the Director, SPR. This division:

2.2.1.1. Develops and promulgates standard DoW disbursing policy and cash management guidance.

2.2.1.2. Responds to all inquiries pertaining to disbursing policy and cash management within DoW.

2.2.1.3. Initiates, changes, and implements DoW disbursing policy and cash management guidance per Treasury regulations.

2.2.1.4. Acts as the point of contact for all non-criminal investigating officers regarding loss of funds investigations.

2.2.1.5. Performs technical reviews of relief-of-liability cases for DoW Components and activities, including the quarterly minor loss reports.

2.2.2. DoW Component Heads, through command channels, ensure that DOs in their commands follow this volume. Commanders monitor disbursing operations and require DOs and Deputy DOs (DDOs) under their purview to adhere to Volume 5. Commanders ensure DOs are

accountable for Funds Held Outside of Treasury (FHOT) and report transactions per I TFM 2-3400. DOs, in turn, direct disbursing operations accordingly.

2.2.3. Commanders ensure that COs, DAOs, and payment review officials in their commands follow Section 6.0, subparagraph 6.3.5.

2.3 ACCOUNTABILITY AND RESPONSIBILITY

2.3.1. Accountable individuals have personal and pecuniary liability for their acts involving the expenditure and receipt of public funds (see Section 6.0, paragraph 6.7, and Section 7.0, paragraph 7.3).

2.3.2. Accountable individuals whose duties pertain to the disbursement of public funds must be knowledgeable of and adhere to applicable laws.

2.3.3. Accountable individual, accountable official, and accountable officer are used synonymously throughout Volume 5. The term "accountable official" is used in 31 U.S.C. § 3527 to refer to the class of officers or employees of an agency who are pecuniarily liable for repayment of losses or deficiencies of public money, vouchers, checks, securities, or records. Appoint such officials using a DD Form 577, Appointment/Termination Record - Authorized Signature. Only officers and employees of an agency are eligible for appointment as accountable officials (see Section 3.0, subparagraph 3.1.1).

2.3.3.1. Disbursing officials include DOs, DDOs, and subordinate disbursing agents, paying agents, cashiers, change fund custodians, collection agents, and imprest fund cashiers. Under 31 U.S.C. § 3321(c)(2), the SecDef must designate personnel of an agency as disbursing officials to disburse public money available for expenditure by the agency (see Section 3.0, subparagraph 3.1.2).

2.3.3.2. Under 31 U.S.C. § 3325(a)(1), "a disbursing official in the executive branch of the United States Government shall disburse money only as provided by a voucher certified by the head of the executive agency concerned, or an officer or employee of the executive agency having written authorization from the head of the agency to certify vouchers." A DoW agency cannot disburse a payment unless a properly appointed CO certifies it. These statutory COs must be officers or employees of the Federal agency concerned and are accountable because, unless granted relief, they are pecuniarily liable under 31 U.S.C. § 3528(a) for any payments they erroneously certified. Appointment as a CO is a precondition to enforcement of pecuniary liability under 31 U.S.C. § 3528(a) (see Section 6.0, paragraph 6.4.1).

2.3.3.3. In certifying payments, DoW's statutory COs often must rely on information and data provided by agency systems and by other personnel. For this reason,

Congress authorized DoW to impose potential pecuniary liability on an additional class of agency officers and employees: those formally appointed as a DAO under 10 U.S.C. § 2773a. The SecDef may designate any DoW civilian employee or member of the U.S. armed forces under the Secretary's jurisdiction as a DAO. DAOs are responsible for providing COs with information, data, or services the CO directly relies upon in certifying vouchers for payment. Title 10 U.S.C. § 2773a does not mandate that DoW organizations appoint DAOs to perform such activities; instead, appointing DAOs to perform any particular function or class of functions is an option available to management for inclusion in the risk management and internal control program (see subparagraph 2.3.5).

2.3.3.4. In deciding whether to appoint foreign nationals in overseas areas as COs and DAOs, organizations must consider whether enforcement of pecuniary liability of such individuals to the United States is precluded, as a legal or practical matter, by status of forces agreements, other international agreements, or local laws. If enforcement is not precluded by such agreements or local laws, foreign national direct hire employees are eligible for appointment as both COs and DAOs because the agency is the legal employer and such individuals qualify as officers or employees of the United States. If not constrained by such agreements or local law, DoW can enforce pecuniary liability against these employees because it has statutory authority to withhold amounts from their pay accounts.

2.3.3.5. Foreign national indirect hire employees cannot be appointed as COs or DAOs because the United States cannot enforce pecuniary liability by unilaterally setting off indebtedness against their pay accounts and because the agency is not the legal employer. However, this regulation does not prohibit organizations from assigning indirect hire employees to duties that DAOs otherwise would perform, nor does it mandate that organizations appoint DAOs to provide the information or data, or perform services relied upon by COs to certify payment vouchers. Organizations operating in overseas areas may permit or assign foreign national indirect hire employees to perform such operational duties without appointing them as DAOs if adequate internal controls are in place to support voucher certification.

2.3.3.6. Do not appoint contractors and contractor support personnel as DAOs or COs.

2.3.4. DoW implemented procedures for reporting Funds Held Outside of Treasury (FHOT), also known as Cash and Investments Held Outside Treasury. This guidance requires agencies to record cash obtained from the Treasury General Account to a DoW Treasury Appropriation Fund Symbol (TAFS) at the time of withdrawal, and applies to both monthly and daily reporters to Treasury's Central Accounting Reporting System (see I TFM 2-3400). FHOT refers to physical cash held by a DO, DDO, or paying agent in a vault or in a Limited Depository Account under the responsibility of the DO. DoW requires cash in

domestic or foreign currency for essential operations and contingency missions when electronic funds transfer methods are inappropriate or unavailable. DOs are accountable to the Treasury for all daily and monthly reported FHOT transactions. FHOT reporting, or assigning cash to a DoW TAFS in any manner, does not affect DO accountability. DOs continue to use all existing funds control processes.

2.3.5. Risk Management and Internal Control (RMIC) are specific policies, procedures, and activities an organization establishes and implements to manage risk. They are the methods by which an organization governs its activities to accomplish its mission and are required by OMB Circular A-123, Management's Responsibility for Internal Control, which implements 31 U.S.C. § 3512(c)(1). DOs implement these controls to eliminate opportunities to conceal errors or irregularities and assign work so that no one individual controls multiple phases of a transaction. Inspections and audits of disbursing offices must include a review of RMIC to determine their adequacy, compliance, and effectiveness.

2.3.5.1. Management determines the applicability of these RMIC standards at the operational level.

2.3.5.1.1. Control Environment. Management and employees establish and maintain an environment throughout the organization that sets a positive and supportive attitude toward internal control and conscientious management.

2.3.5.1.2. Risk Assessment. Provide for an assessment of the risks the organization faces from both external and internal sources.

2.3.5.1.3. Control Activities. RMIC activities ensure the implementation of management's directives and must be effective and efficient in achieving an organization's control objectives.

2.3.5.1.4. Information and Communications. Record and communicate information to management and others within an organization who need it, in a form and within a time frame that enables them to carry out their internal control and other responsibilities.

2.3.5.1.5. Monitoring. Assess the quality of performance over time and ensure the findings of audits and other reviews are promptly resolved.

2.3.5.2. Separation of duties precludes errors or attempts at fraud or embezzlement from going undetected. Internal controls generally require a four-way separation of the contracting, receiving, voucher certification, and disbursing functions. Assign key duties to different individuals to minimize the risk of loss to the Government, including certification of fund availability; contracting (obligating the Government); authorizing, approving, and recording

transactions; issuing or receiving assets; certifying and making payments; preparing and signing checks; and reviewing or auditing payments.

2.3.5.2.1. Do not assign DOs duties that create potential conflicts of interest (see Section 3.0, subparagraph 3.3.4).

2.3.5.2.2. Separation of duties is not always practical or possible due to time constraints, work force shortages, or the use of electronic systems. Commanders and DOs must be aware of situations where valid, long-standing separation of duties cannot be achieved, recognize that internal controls have been weakened as a result, and make every effort to mitigate the risks. For example, payments and collections through the Intra-governmental Payment and Collection (IPAC) system can occur outside the disbursing work center without weakening internal controls because the payee is always another Federal agency and recovery of an improper payment is assured; likewise, financial systems that allow adjustments to data outside the normal application include appropriate controls and audit trails for those adjustments. Other situations may require closer scrutiny. Report all situations of inability to separate appropriate responsibilities to the DO's commander, with a request for a waiver and recommendations to mitigate the risks.

2.3.5.3. Personnel may use electronic and digital signatures to receive, accept, and certify financial documents processed through automated information systems.

2.3.5.4. Titles 15 U.S.C. § 7001 and 15 U.S.C. § 7021 require that any of these media a person uses to sign (for example, certify) a financial document be unique to that person; under that person's sole control or custody; linked to the data signed throughout their processing so that if any of the data are changed the electronic or digital signature is invalidated; and capable of being verified by the paying DO.

2.3.6. Personnel involved in the payment certification and disbursement processes must preclude payments to ineligible recipients. Several tools aid this effort, among them the Specially Designated Nationals List maintained by Treasury's Office of Foreign Assets Control, a list of individuals and entities covered by Executive Order 13224, Blocking Property and Prohibiting Transactions with Persons Who Commit, Threaten to Commit, or Support Terrorism. Do not initiate, certify, or make payments, or draw checks or warrants payable, to individuals or organizations on this list (see also I TFM 4A-2030).

3.0 DISBURSING OFFICES, OFFICERS, AND AGENTS

3.1 GENERAL

3.1.1. Under 31 U.S.C. § 3321(c)(2), the Secretary of War may designate DoW personnel as disbursing officials to disburse public money available for expenditure. To disburse money, an

activity must request establishment of a disbursing office. When establishing disbursing offices and appointing accountable positions, DoW Components must apply the internal control guidelines in subparagraph 3.3.2.

3.1.2. Official funds must be received and disbursed by order or on the authority of the commanding officer, except when a superior in the chain of command directs otherwise or the Comptroller General of the United States sanctions it. Under 31 U.S.C. § 3325, DoW DOs may disburse public funds on receipt of properly certified vouchers.

3.2 POLICY

3.2.1. Request for Establishment of a Disbursing Office

3.2.1.1. An activity requesting to establish a disbursing office at a new activity, or an activity receiving disbursing services from an external source, sends a memorandum through its chain of command. The memorandum must also address appointment of the DO and of agents who regularly receive and maintain custody of public funds. The DO may appoint any officer, enlisted member, or civilian employee the DO considers satisfactory as an agent.

3.2.2. Disbursing Station Symbol Number (DSSN)

3.2.2.1. DSSNs are permanent, and are either open or closed. Coordinate proposed changes to the designation or location (mailing address) of an operating DSSN, including tactical deployment, with the Total Force Pay Directorate, Compliance and Analysis Division (DFAS-IN/JTDC), dfas.indianapolis-in.jjf.mbx.essdisbursing@mail.mil, who will advise Fiscal Service.

3.2.2.2. The DSSN must appear on all payments, collection vouchers, and Treasury and limited depositary account (LDA) checks the disbursing activity processes.

3.2.3. A DO who disburses taxable funds must ensure that entitlement activities receiving payments have secured an Employer Identification Number (EIN) to report taxable income, or income and withholdings.

3.2.4. A DO activating a disbursing office must notify Fiscal Service, Check Reconciliation Branch, through DFAS-IN/JTDC by memorandum immediately on commencing disbursing operations. The memorandum must include the name of the disbursing activity, the assigned DSSN, the DO's name and rank or grade, the account opening date, and the first and last serial numbers of all blank Treasury checks on hand in each check range. Send a copy to the supporting DFAS site.

3.3 APPOINTING DOS, DEPUTY DOS (DDOS), AND OTHER ACCOUNTABLE OFFICIALS

3.3.1. To ensure proper security and accounting for public funds, assign responsibility to receive, maintain custody of, and disburse or otherwise dispose of public funds to a limited number of authorized persons.

3.3.2. Use DD Form 577, Appointment/Termination Record-Authorized Signature, to appoint accountable officials. The form does not allow simultaneous multiple appointments and is the only document required to support this type of appointment. Send a copy of the DD 577 and the required original specimen signature specified in subparagraph 3.4.4.1 to DFAS-IN/JTDC for the DO's files.

3.3.3. Exceptions

3.3.3.1. An individual who occasionally receives public funds need not be formally appointed as an accountable official. Funds may be received at times, locations, and circumstances that preclude any advance arrangement for their receipt, and at some activities collections are too infrequent to make a formal designation practical. A person who is not formally designated but receives funds must promptly forward them to the servicing disbursing office or to another formally designated person.

3.3.3.2. A DO at a DFAS site may hold appointments to more than one DSSN and may serve concurrently as a DDO to other DFAS DOs. Each DDO appointed by a DFAS DO may serve under one or more of the appointing DO's assigned DSSNs and may serve more than one DFAS DO concurrently. A DO or DDO at a DFAS site who holds multiple DSSN appointments must complete a separate DD 577 for each applicable DSSN.

3.3.3.3. A DO and DDOs aboard Navy vessels may serve concurrently in other accountable positions (for example, ship's stores officer or food service officer) when the ship's manpower authorization does not provide Supply Corps officers for each accountable function.

3.3.3.4. When directed by appropriate authority, DOs, DDOs, and their agents may accept, safeguard, account for, and dispose of personal funds and valuables received for safekeeping. Where personnel resources are limited, a person serving as a DO or other accountable official may also serve as a safekeeping custodian at the commander's discretion.

3.3.4. Except as specifically authorized, do not assign a DO the additional duties of order-approving authority, certifying officer, custodian of any fund, or any other conflict-of-interest assignment.

3.3.5. Terminate appointments using Section IV of the appointing DD 577.

3.4 DOs

3.4.1. To be eligible for appointment as a DO, an individual must be a U.S. citizen and must have previous experience as a DO or have completed, or agreed to complete, the specific DO training the appointing authority defines.

3.4.2. The commander, director, or equivalent appoints a DO using a DD 577.

3.4.3. Terminate a DO appointment using Section IV of the appointing DD 577.

3.4.4. Submission

3.4.4.1. Before commencing disbursing operations, a DO and all appointed DDOs must determine which of their given names or initials comprise their official signatures and must use them on all checks, vouchers, correspondence, and official documents pertaining to the DoW, Government Accountability Office (GAO), and Treasury. Send the DD 577 and Fiscal Service (FS) 3023 to DFAS-IN/JTDC using permanent dark blue, blue-black, or black fade-resistant ink that is not readily soluble in water.

3.4.4.2. If checks will be drawn on a depositary other than the Treasury, send the DO's official signature, and those of DDOs authorized to sign depositary checks, to the depositary. An officer whose signature is known to the depositary must certify the forms.

3.4.4.3. A DO or DDO may change an official signature by submitting a new FS 3023 to DFAS-IN/JTDC.

3.4.5. Immediately on commencing disbursing duties, a DO who activates a new disbursing office, reactivates a disbursing office, or relieves another DO must prepare a memorandum that includes the name of the disbursing activity; the assigned DSSN; the DO's name and rank or grade; the account opening date; and the beginning and ending serial numbers of all blank Treasury checks on hand in each check range. If applicable, also include the relieved DO's name and rank or grade. Keep the original memorandum in the disbursing office and send copies to DFAS-IN/JTDC and the supporting DFAS site.

3.4.6. Transfer of Disbursing Duty

3.4.6.1. The outgoing and incoming DOs establish the date to transfer accountability, subject to command approval. Because a full Central Accounting Reporting System (CARS) daily reporter reports accountability daily, a transfer of disbursing duty need not occur on the last day of the month, as it must for CARS non-daily reporters. In a daily reporting environment, the Standard Form (SF) 1219, Statement of Accountability, need not be submitted to the Treasury.

3.4.6.1.1. Verify and transfer all documentation supporting balances in clearing accounts **F3880 (Unavailable Check Cancellations and Overpayments (Suspense)), **F3875 (Budget Clearing Account (Suspense)), and **F3885 (Undistributed Intra-governmental Payments), which the TFM requires be cleared to the proper appropriations or funds as expeditiously as possible. To clear account **F3880, the outgoing DO must present a detailed list of individual subsidiary transactions, supporting documentation, and current status. The documented evidence must include certification that the DO or designated DDO personally reviewed the account balances within the last month.

3.4.6.1.2. Validate unreconciled differences, such as check issue and deposit discrepancies and Intra-governmental Payment and Collection system differences. Also ensure that the outgoing DO's accountability, the balance amount on DD 2657, Daily Statement of Accountability, reconciles with the DO Cash Treasury Account Symbol (TAS) on the daily CARS Account Statement. If the outgoing DO cannot provide documentation supporting the unreconciled items, the DO must process the discrepancies as losses or overages of funds.

3.4.6.2. On relief from disbursing duty, the outgoing DO must follow the Supplemental Guidance, subparagraph 3.3.2.

3.4.6.3. The incoming DO must ensure that all reconciliation of the account is accomplished, documented, and verified before signing for the accountability.

3.4.6.3.1. If a signature medium cannot be obtained before the transfer date, the incoming DO may request DFAS-IN/JTDC to authorize use of the outgoing DO's medium until a new one arrives, to allow continued operation of the disbursing office. The incoming DO is accountable and pecuniarily liable for payments made on or after the date of transfer of accountability.

3.4.6.3.2. The incoming DO must appoint at least one DDO and send the DD 577 and FS 3023 to DFAS-IN/JTDC, and must appoint agents, cashiers, and other accountable officials as necessary.

3.4.6.3.3. The incoming DO must verify the adequacy of safekeeping facilities for funds, blank checks, stored value cards, and other accountable documents. If facilities are inadequate, the DO must report the deficiencies to the commander and request proper facilities (see Section 4.0, paragraph 4.2).

3.4.6.3.4. The incoming DO must change all safe combinations.

3.4.6.3.5. The incoming DO must review cash-on-hand requirements. If the current cash holding authority is valid, the DO may retain it until the normal resubmission date;

otherwise, the DO must submit a new cash holding authority request as soon as possible after assuming the account. (see Section 4.0, subparagraph 4.3.1.2.).

3.5 DDOs

3.5.1. An officer, enlisted member, or civilian employee who is a U.S. citizen and acceptable to the DO may be appointed as a DDO.

3.5.2. DOs appoint their DDOs using the DD 577.

3.5.3. A DO may terminate a DDO's appointment at any time by completing Section IV of the appointing DD 577. When a DO is relieved from disbursing duties, the DO revokes the appointments of all DDOs. In all cases, send a copy of the DD 577 to DFAS-IN/JTDC. If another individual will succeed a DDO, send a copy of the appointing DD 577 and FS 3023 for the new DDO, with the copy of the notice of revocation, to DFAS-IN/JTDC. If a DDO appointment is terminated for cause, include the reason for termination when sending the DD 577 to DFAS-IN/JTDC.

3.6 CHANGE IN THE STATUS OF DOs OR DDOs

3.6.1. During an authorized absence, the DO remains accountable for the account unless or until it is officially transferred. Accountability need not be transferred unless, in the DO's judgment, not doing so would impair proper supervision. The DO must maintain an adequate system of controls to avoid errors and must ensure those controls are implemented and effective. For relief of liability to be considered, the DO must show clearly what the procedures were and how they were implemented during the absence (for example, records must show that any loss was not the result of bad faith or lack of reasonable care).

3.6.2. Death, Disability, or Removal of a DO

3.6.2.1. When a DO dies, becomes disabled, or is removed from disbursing duty for cause (including unauthorized absence), a DDO, under 10 U.S.C. § 2773, may continue to disburse under the DO's accounts through the last day of the second month after the month of death, disability, or removal. If there is more than one DDO, the commander, DFAS Director, or designee designates one DDO to disburse in the DO's name.

3.6.2.2. On the death, disability, or removal of a DO, the commander, DFAS Director, or designee must:

3.6.2.2.1. Seizes and seals all disbursing spaces, keys, property, and safes to ensure the security of the funds, property, and spaces involved.

3.6.2.2.2. Appoints a board of at least three disinterested but qualified persons to inventory the vouchers, funds, and property on hand.

3.6.2.2.3. Appoints, based on the disbursing needs of the activity:

3.6.2.2.3.1. A qualified person (normally a DDO) to take charge of the DO's vouchers, funds, and property and perform as acting DO until regular relief reports or is appointed, or until the last day of the second month following the date of death, disability, or removal.

3.6.2.2.4. Notifies the supporting DFAS site of all actions taken and provides an information copy to DFAS-IN/JTDC.

3.6.2.3. The appointed board inventories all public funds, including advances to deputies, agents, and cashiers; vouchers evidencing receipt, transfer, or disbursement of funds; safekeeping deposits; stored value cards, if applicable; and property of the DO, in the presence of the immediate custodians and the appointed custodian, acting DO, or incoming DO. The board must also verify that the departed DO's accountability balance on the DD 2657 is reconciled with the DO Cash TAS on the daily CARS Account Statement. If no documentation supports the unreconciled items, the incoming DO processes the discrepancies as losses (Section 7.0, paragraph 7.4) or overages (Section 7.0, paragraph 7.8) of funds.

3.6.2.3.1. The board verifies all official records to confirm that cash on hand agrees with the records, verifies that all checks and stored value cards issued in the current accounting period are properly accounted for, and inventories blank checks to determine whether any are missing.

3.6.2.3.2. All members of the board prepare and certify an original and four copies of the inventory as true and accurate. The board turns over all public funds and property certified on the inventory to the appointed custodian, acting DO, or incoming DO. The incoming DO retains a copy of the inventory report, provides the original to the commander, and provides a certified or notarized copy to each board member.

3.6.2.4. On receipt of the original inventory, the custodian assumes custody of the public funds and property held by the former DO. The custodian may conduct no transactions other than collections. When the disabled DO returns or a new, permanent DO reports, the custodian and the DO inventory and transfer all vouchers, funds, and property per the relief procedures.

3.6.2.5. The DDO appointed to serve as the acting DO performs, and is accountable for, all official duties that would have been required of the DO, including submitting financial

reports for the DO as of the date of death, disability, or unauthorized absence. The reports include only those vouchers actually paid by the former DO. The DDO submits the reports in the name of the former DO.

3.6.2.6. The DDO signs all checks drawn in the manner normally used. If the volume of checks warrants, the acting DO may use the former DO's signature plates. The acting DO is accountable and pecuniarily liable for all payments and official acts after the death, disability, or unauthorized absence of the DO.

3.6.2.7. If the commander appoints an individual as DO to relieve the deceased, disabled, or removed DO, the incoming DO is responsible for performing all actions required in subparagraph 6.2.3 and for rendering financial reports in their own name.

3.6.2.8. The commander should protect the rights of a deceased, disabled, or removed DO, and of the custodian, acting DO, or incoming DO, so that responsibility for any differences discovered during settlement of the accounts may be assigned to the appropriate individual. The acting or incoming DO completes the vouchers, closes the accounts, maintains custody of records, and renders the final reports of the outgoing DO. That individual signs documents prepared in connection with the administration and settlement of the outgoing DO's accounts as follows: _____ (Name of Disbursing Officer) By_____ Acting (appointed per 10 U.S.C. § 2773). The commander of an exonerated DO restored to duty after arrest, suspension, or other disability directs a second inventory to be taken by the restored DO and the custodian, acting DO, or incoming DO. The guidance in subparagraph 3.4.6.1 on transfer of accountability from an outgoing to an incoming DO applies.

3.6.2.9. On the death, disability, unauthorized absence, arrest, or other emergency absence of a DDO at a branch disbursing office, the local commander advises the DO as expeditiously as possible. Depending on the circumstances, the DO requests the local commander to appoint a board to inventory the DDO's accountability and property and to appoint a suitable person to take custody of the accountability and property until the DO can take an inventory. If practical, the DO takes an inventory of the accountability and property in the presence of a competent witness.

3.7 OTHER AGENTS OF DOs

3.7.1. Officers, enlisted members, or civilian employees satisfactory to both the appointing officer and the DO may be appointed as agents (for example, disbursing agents (DA), cashiers, paying agents (PA), collection agents, change fund custodians, imprest fund cashiers). No agent may be appointed or used over the protest of the accountable DO, serve concurrently in any other accountable position, or be charged with handling or custody of any other funds.

3.7.1.1. DOs' agents are pecuniarily liable under accountable official laws for losses of public funds in their possession. When appointing agents, appointing authorities should carefully consider appointing non-U.S. citizens as accountable officials, because in some instances foreign nationals and other non-U.S. citizens may be precluded from being held pecuniarily liable for losses of funds (see Section 2.0, subparagraph 2.3.3.4).

3.7.1.2. For security, do not allow an excessive number of individuals to have access to public funds.

3.7.1.3. After an individual ceases to serve in an appointed position, the DO maintains the appointing documents for the retention period per the guidance in Section 16.0, paragraph 16.8. Appointments as agents of DOs are effective only while the DO continues to serve as DO of that disbursing activity.

3.7.1.4. The appointing officer terminates appointments when appropriate (for example, when the DO is relieved, when the agent ceases to perform the duties for which appointed, or for cause), using Section IV of the original appointing DD 577.

3.7.2. DAs

3.7.2.1. A DA is a DO's agent who is not a DDO. A DA's responsibilities may include all duties, assignments, and functions of a DDO except the authority to sign Treasury checks.

3.7.2.2. The appropriate major command or Defense Agency establishes DA positions in writing.

3.7.2.3. The DO appoints DAs per paragraph 3.3, which includes the appointee's acknowledgement. The DO sends the original copy to the DA, a copy to the office where the duties are performed, and retains a copy on file.

3.7.3. Cashiers

3.7.3.1. An officer, enlisted member, or civilian employee with working knowledge of cash functions and operations, and acceptable to the DO, may be appointed as a cashier. The DO should also obtain a credit report, if access to a credit reporting service is available, charging the associated costs to the Operations and Maintenance funds available to the activity. The DO must safeguard credit reports against unauthorized access.

3.7.3.2. Cashiers disburse, collect, and account for cash and perform other duties as required concerning the receipt, custody, safeguarding, and preparation of checks. A cashier may prepare DO accountability reports, but the DO, DDO, or DA must personally validate them.

3.7.3.3. The DO appoints cashiers per paragraph 3.3, which includes the appointee's acknowledgement. The DO sends the original copy to the cashier, a copy to the office where the duties are performed, and retains a copy on file.

3.7.3.4. A cashier may not:

3.7.3.4.1. Sign checks;

3.7.3.4.2. Accept checks drawn (and endorsed to the cashier) in the name of the DO, DDO, or DA to procure and disburse cash for any purpose;

3.7.3.4.3. Prepare billing documents and accept collections for the same items. This restriction also applies to a DA performing cashier duties.

3.7.3.4.4. Prepare vouchers that they will later pay; and

3.7.3.4.5. Prepare vouchers on days when they perform cashier functions.

3.7.4. PA

3.7.4.1. Commanders appoint PAs only when adequate payment, check cashing, or currency conversion services are not otherwise available (see paragraph 3.3). Appointments are for a specific transaction or time period. Do not appoint PAs solely as a convenience when a DO, DDO, DA, or cashier can make the required transactions. In unusual situations (for example, when payments or currency conversions must be made at remote locations where use of checks is not feasible), the DO may request a remote location commander to appoint a PA to make the necessary payments for and in the name of the DO from cash advanced for that purpose.

3.7.4.2. PAs may not act as certifying officers (see Section 6.0, subparagraph 6.3.4) or purchasing officers. Escort officers serving as PAs for expenses related to official travel likewise may not be purchasing officers. See Section 2.0, subparagraph 2.3.5.2 for guidance on separation of duties and Section 6.0, subparagraph 6.3.1.2 for guidance on micro-purchases in contingency operations.

3.7.5. Collection Agents

3.7.5.1. Commanders may establish collection agent positions to receive funds derived from functions such as hospitalization fees and other charges at medical facilities (for example, communication charges; rentals and other charges at housing developments; fees for research or reproduction of records; safekeeping deposits where the DO does not perform the safekeeping function; and similar functions when appropriate).

3.7.5.2. The commander appoints collection agents per paragraph 3.3. Unless revoked by the appointing authority, collection agent appointments remain in effect through succeeding appointing authorities.

3.7.6. Change Fund Custodians

3.7.6.1. A change fund custodian receives a change fund from the parent DO, safeguards it, is pecuniarily liable for any loss, and makes change for sales transactions. The commander provides a detailed description of the duties to be performed.

3.7.6.2. The sales activity commander (for example, commissary or hospital) establishes the position.

3.7.6.3. The activity commander or designee appoints a change fund custodian per paragraph 3.3 in coordination with the parent DO.

3.7.7. The activity commander appoints an imprest fund cashier per paragraph 3.3 to make authorized cash payments for materials and non-personal services, maintain custody of funds, and file periodic vouchers to account for and replenish the imprest fund. An imprest fund cashier may be an officer, enlisted person, or civilian employee who is not responsible for originating, approving, or processing imprest fund requirements. An imprest fund cashier (or alternate) may not have access to or control of more than one fund. The commander keeps the appointing document and the approval to establish the imprest fund in a permanent file, and furnishes two copies to the cashier and one copy each to the DO and the installation or activity contracting office (see paragraph 3.9).

3.7.8. Alternate Agents

3.7.8.1. When required, one or more alternate agents may be designated to serve only during the absence of an appointed primary agent. Alternate agents for DDOs are not permitted. The official authorized to appoint the primary agent also appoints alternates per paragraph 3.3. When serving in place of the primary, the alternate agent is subject to all regulations applicable to the primary. Alternate agents may not merge funds received with those of the primary agent and must maintain separate records to establish the amount for which each is responsible. Alternate agents may not handle public funds concurrently with the primary.

3.7.8.2. Under paragraph 3.3, a commander may appoint an alternate imprest fund cashier to provide service during a principal's absence. Appointment requirements for principal cashiers apply to alternate cashiers. On the principal's return, the alternate returns paid receipts, subvouchers, and residual cash to the DO.

3.7.8.2.1. In planned absences of the principal cashier and with the appointing official's written authorization, the principal may advance cash to the alternate in any amount up to the limit of the fund, using a DD 1081 for the advance.

3.7.8.2.2. In the unforeseen absence of the principal cashier, the DO may advance funds to the alternate in the normal manner. These funds are in addition to the amount advanced to the principal under the established fund but may not exceed the authorized amount of the fund.

3.7.9. On the death, disability, or unauthorized absence of an agent, the appropriate commander follows subparagraph 3.6.2. for deputies at branch offices but appoints relieving agents following procedures applicable to the position involved. For an imprest fund cashier, the relieving imprest fund cashier prepares the final voucher.

3.8 DEACTIVATING OR CLOSING A DSSN

3.8.1. Deactivation

3.8.1.1. To eliminate monthly financial and checking account reports during inactivity, the DO deposits all currency, coin, and negotiable instruments; closes the LDA and, if applicable, properly disposes of all undeliverable checks; submits the memorandum required to close a disbursing office, noting the account is closed temporarily; and retains blank Treasury check stock for reactivation (see Section 8.0, subparagraph 8.2.4. for inventory and storage requirements). A DO preparing an office for closure ensures the DO's accountability balance on the DD 2657 and the DO Cash TAS in CARS are reconciled (Agency Location Code settlement). The DO may reopen that same DSSN at any time by submitting the report of commencement of disbursing operations. A DO may not close a DSSN temporarily if any cash or documents representing cash are on hand. Any assets on hand, including deficiencies such as dishonored checks or losses of funds, require monthly submission of an SF 1219.

3.8.1.2. The supporting DFAS site designates another disbursing office as the settlement office to handle uncleared transactions for the closed office.

3.8.1.3. The DO must:

3.8.1.3.1. Notify all affected activities, agencies, commercial concerns (including LDAs when applicable), and individuals of the disbursing office deactivation date and the name and location of the settlement office to which all accounts will be transferred;

3.8.1.3.2. Notify Fiscal Service by memorandum through DFAS-IN/JTDC that the disbursing office is being deactivated pending closure. Include the DSSN, date of deactivation, the office to which accounts and records have been or will be forwarded for

settlement, and the last check number of each check range issued by the DSSN. Also include the date and check number of the last check signed in each check range by each DDO where separate check series are assigned to DDOs at branch offices. Send a copy of the memorandum to the supporting DFAS site. Once a disbursing office is reported to Fiscal Service as being in settlement status, it may not be reopened or transferred without Fiscal Service approval. Once the settlement office meets all requirements in paragraph 3.8 to close the disbursing office, Treasury closes the DSSN permanently.

3.8.2. A DO preparing an office for closure ensures no discrepancies exist in the DO's accountability. The supporting DFAS site reviews all accounts transferred to settlement offices and may order collection action against a relieved DO who submits a disbursing account with unresolved deficiencies in the accountability (for example, dishonored personal checks, unconfirmed deposits, check issue records and reports, physical losses of funds, and unresolved open debit items in **F3875, **F3880, and **F3885 clearing accounts).

3.8.3. Only the Treasury may close a DSSN. Follow the policies in paragraph 3.8 to pursue closing a disbursing office permanently. Once closed, a disbursing office may be used only for settlement purposes. To reopen the office, the DO must request and receive reactivation approval from the Fiscal Service through DFAS-IN/JTDC. The Fiscal Service must also approve a new check range.

3.9 IMPREST FUNDS

3.9.1. Imprest funds are generally not authorized for DoW activities. Exceptions are allowed for contingency and classified operations. Submit specific requests for exception per Section 2.0, subparagraph 2.1.3, with adequate justification, and demonstrate that a government purchase card, third party draft, purchase card convenience check, government travel card, or other reasonable alternative is not feasible for the situation. Agencies authorized to disburse imprest funds must classify imprest fund transactions using the established TAS/Business Event Type Code (TAS/BETC). DOs advancing or receiving funds from an imprest fund cashier treat the transactions like advances to other accountable agents. The Shared Accounting Module website provides Enterprise Reference Data for the TAS/BETCs. In lieu of imprest funds, use the government purchase card for micro-purchases of supplies or services and the government travel card for travel payments formerly made from imprest funds. If an imprest fund is authorized, the DO and the imprest fund cashier keep a copy of the signed authorization to establish and maintain the fund. Detailed regulations concerning establishing, using, and accounting for imprest funds, including the responsibilities of designated imprest fund cashiers and alternates are in:

3.9.1.1. I TFM 4A-30165;

3.9.1.2. GAO Policy and Procedures Manual for Guidance of Federal Agencies, Title 7, Fiscal Guidance, Section 7.0; and

3.9.1.3. The Federal Acquisition Regulation Part 13, subpart 13.305.

3.9.2. Safeguard cash and disbursement documents at all times (for example, in safes or locked cash drawers) as prescribed in Section 4.0. The imprest fund cashier maintains a location on the installation or activity that is organizationally and physically convenient for making payments to vendors or carriers. Do not commingle imprest funds with other cash funds, such as disbursing funds, change funds, or cash receipts for other funds. The imprest fund cashier must be able to account for the full amount of funds held at any time. The responsible imprest fund cashier is accountable to the advancing DO for receipts or subvouchers supporting temporarily unreimbursed expenditures from any imprest fund, together with the cash on hand, in support of the total amount of the fund, and is subject to review by the DO at any time.

3.10 SETTLEMENT OF DO ACCOUNTS

3.10.1. Responsibility to clear outstanding items in the accounts of a DO relieved from disbursing duty is normally assigned to a designated settlement office. The DO of that office (the settlement officer) follows this guidance to resolve discrepancies in a relieved DO's accountability. All correspondence and vouchers the settlement officer initiates show the name and DSSN of the accountable officer and the date and number of the voucher or account, and are signed "By (name of settlement officer), Settlement Officer for (name and DSSN of accountable officer)." Normally, the settlement officer is also responsible for other residual disbursing functions, such as issuing stop payment requests, performing records research for claims against the government, and clearing all suspense accounts.

3.10.1.1. In all instances, the relieved DO is responsible for resolving deficiencies before relief, if possible. If a deficiency exists in a relieved DO's account, no action appears to have been taken to remove it from the accountability, and no relief request is pending, the settlement officer initiates collection action against the accountable DO.

3.10.1.2. At non-tactical disbursing stations, settlement duties are normally the relieving DO's responsibility. When such a station closes, the supporting DFAS site designates another non-tactical disbursing station within the site's area to assume the closed station's disbursing operations and perform the settlement function.

3.10.1.3. For naval vessels and tactical units, the servicing DFAS site performs the duties of settlement officer for relieved DOs whether or not the disbursing function of the vessel or unit is closed.

3.10.2. Despite the appointment of a settlement officer, the relieved DO remains responsible for accounting for all funds expended while performing disbursing duties. Transfer of disbursing records under paragraph 3.10 relieves the DO only of the paperwork incident to settling the account. Accountability for illegal, incorrect, or improper payments that cannot be adjusted despite the settlement officer's diligence remains with the DO. The relieved DO, at all times, keeps the settlement officer informed of current mailing address and answers inquiries on settlement of outstanding items, furnishing any advice or suggestions that may aid prompt and complete clearance.

3.10.3. The settlement officer is the incumbent DO. Subparagraphs 10.3.1 through 10.3.5 apply only to non-tactical DOs (within and outside the continental United States) performing settlement functions for previous DOs of the same disbursing activity and DSSN to which the settlement DO is assigned. In addition to accounting for and taking settlement action on deficiencies that occurred during a former DO's incumbency and were unresolved on the date of relief, the settlement officer may be required to establish or increase deficiencies in the former DO's account. Most transactions to establish, increase, reduce, or remove deficiencies in the former DO's account resemble the routine transactions of a DO.

3.10.3.1. To keep a complete history of the settlement process, the settlement officer maintains a record of actions taken to clear deficiencies in separate settlement folders for each former DO. The settlement folders must be available to the next relieving DO.

3.10.3.2. Losses of funds in a former DO's account that were unresolved on the date of relief are recorded and reported until resolved.

3.10.3.3. Other accountability items are unresolved deficiencies in a former DO's account that cannot be classified as check issue overdrafts or losses of funds. These items are reported until resolved. Overpayments caused by negotiation of both the original and recertified check are addressed in Section 8.0, paragraph 8.13.

3.10.3.4. This subparagraph applies only to DOs designated to settle the accounts of DOs of tactical units or naval vessels relieved from disbursing duty and the accounts of former DOs of closed disbursing stations. These settlement officers perform settlement functions for a DSSN other than the one to which they are assigned as a DO. Transactions to the former DO's account resemble the routine transactions of a DO.

3.10.3.4.1. Any transaction affecting a relieved DO's accountability, including initial establishment of the settlement account, requires the settlement officer to submit monthly financial reports for the relieved DO. The settlement officer submits the financial reports to the servicing DFAS site in the same manner as other financial reports.

3.10.3.4.2. To keep a complete history of the settlement process, the settlement officer maintains a record of actions taken to clear deficiencies in separate settlement folders for each former DO. The settlement folders must be available to the next relieving DO as part of the relief process.

3.10.3.5. Normally, preparing and processing vouchers to settle a former DO's accounts does not affect the settlement officer's disbursing account. The settlement officer maintains a separate series of locally assigned voucher numbers (for example, C0001 for collections and D0001 for disbursements) for settlement transactions. These collection and disbursement voucher numbers must not be taken from the voucher-number logs of the DO at the settlement activity. The settlement officer does not maintain the DD 2657 for the former DO.

3.10.3.6. The settlement officer submits financial reports for a former DO every month until the former DO's accountability is cleared. The documents normally required are a supplemental SF 1219, appropriate copies of the deposit ticket or debit voucher, and any supporting disbursement or collection vouchers prepared. The general requirements in paragraph 16.7 govern preparation and submission of financial reports. In addition to the normal distribution, one additional copy of each document is forwarded to the servicing DFAS site. Each document clearly identifies the name and DSSN of the former DO and the name and address of the settlement officer preparing the reports. Documents requiring a signature are signed "By (name of settlement officer), settlement officer for (name and DSSN of accountable officer)."

3.10.4. Settlement Procedures for Naval Vessels

3.10.4.1. Even though the DO assigned to a naval vessel does not perform settlement functions, the incumbent DO must perform certain actions to assist the designated settlement officer. The incumbent DO follows the actions prescribed in paragraph 3.10 for each described transaction received after the date of relief that affects the accountability of the relieved DO.

3.10.4.2. Debit vouchers issued by a general depositary or the Treasury for dishonored personal checks, forged Treasury checks, or dual negotiation of both the original and recertified Treasury checks are not recorded in the current DO's accountability unless the accounts of the DO accountable for the deficiency are subject to the 90-day retention period described in Section 16.0, subparagraph 16.8.1., or the drawer or endorser of the dishonored check is locally available for collection action. If neither condition applies, the current DO forwards the debit voucher and copies of all related documents by email to the servicing DFAS site with a cover letter stating that the accountability should be recorded against the previous DO's account. If follow-up action initiated by the relieved officer recovers funds, the relieving officer forwards the funds as an exchange-for-cash Treasury check to the servicing DFAS site.

4.0 OBTAINING AND SAFEGUARDING PUBLIC FUNDS

4.1 CASH OPERATIONS

4.1.1. A commander, director, equivalent civilian head, or designee may approve cash holding authority (CHA) for DOs, DDOs, agents, and cashiers within their commands. The Defense Finance and Accounting Service (DFAS) Director or designee approves requests for DFAS DOs. DFAS DDOs, agents, and cashiers outside the main DFAS disbursing office may hold cash at personal risk, with the amount subject to approval of the parent DO and the local activity commander based on their responsibility to safeguard public funds. Keep cash on hand at the minimum amount necessary to meet normal requirements. Approving authorities must review each request to ensure good cash management procedures are in effect.

4.1.2. Determining Cash Requirements

4.1.2.1. When special circumstances require a DO to increase the CHA beyond the authorized limit (for example, operational contingencies), the DO must describe the circumstances and duration of the expected need in the request to increase cash held at personal risk. If the circumstances are more than temporary (over 30 days) or are expected to become permanent, the DO must re-compute the CHA and submit a new request based on the anticipated services.

4.1.2.2. DOs and their agents may hold cash collections for operating requirements within their CHA. Cash collections that increase cash on hand above the authorized limit must be deposited immediately (see Section 12.0, subparagraph 12.8.2.).

4.1.3. Requests for Approval

4.1.3.1. A DO requests a CHA from the approving authority cited in subparagraph 4.1.1. Do not include scheduled payday cash requirements (for example, the amount required to cash payday paychecks) in a request. The approving authority must ensure the requested amount follows the guidance in the Supplemental Guidance paragraph 4.2 and that management controls exist for routine reviews of cash requirements. Submit requests semiannually, allowing enough time for CHA authority to become effective on October 1 and April 1 of each year. Also submit a request whenever a review of cash requirements results in a major change.

4.1.3.2. A CHA request includes the amount to be held personally by the DO and the DO's DDOs, agents, cashiers, and other custodians of public funds, but not amounts held by authorized imprest fund cashiers and change fund custodians, which receive separate approval. The approving authority approves all requests by endorsement and returns them to the DO for retention. To preclude compromise of classified information, CHA requests for emergency and extraordinary expense funds may omit security items (for example, duty station, description of

payments, or facility location), but the DO must keep this information on file for review by cleared personnel.

4.1.4. Funds that qualify as cash held at personal risk, also known as DO's cash, include U.S. and foreign currency and coin, imprest funds, change funds, cash with agents (for example, a PA), negotiable checks (not check stock), and cash on deposit in an LDA. The Central Accounting Reporting System (CARS) DO cash Treasury Account Symbol (TAS) balance must never exceed the approved CHA amount or the day's ending cash on hand.

4.1.4.1. A DO that maintains physical cash associated with a DD 1131, Cash Collection Voucher, must cite the appropriate Standard Line of Accounting, including the TAS/Business Event Type Code (TAS/BETC), for the collection transaction. Multiple collection vouchers may be consolidated under one end-of-day transaction reported to Treasury only if they fall under the same program TAS/BETC and Agency Location Codes. The DO must ensure any consolidated transactions have an audit trail that can be validated at the individual transaction level.

4.1.4.2. A DO or other accountable official leaving the disbursing activity or arriving to pick up $10,000 and above must notify the commander and the security police through the command or other duty officer. The DO must provide the time of departure, destination, estimated time of return, amount, and the source or disposition of the funds, as appropriate, for entry in the ship or station log.

4.1.4.3. The commander of the installation requesting cash is always, responsible for securing that cash. Deciding whether to have an armed escort, the number of escorts, and the type of transportation is a command responsibility. The commander should consider the amount of cash, distance and terrain, and the type of transportation and local security forces available.

4.1.4.4. An accountable official (DO, DDO, agent, cashier, or other custodian of public funds) who has signed for the cash is pecuniarily liable for it, pending its return to the DO. An accountable official who believes the command has not provided adequate security may refuse to disburse the funds and return them to the DO.

4.1.4.5. The accountable official must verify all cash received before acceptance. Verify unsealed money by actual count before acceptance or immediately upon receipt of shipment. The DO or DDO, at their own risk, may bundle-count sealed new money bricks presented with the FRB's packaging intact. When opening a bundle, verify it immediately with individuals present to witness both the breaking of the seal and the count. The accountable official must report discrepancies immediately by issuing a claim to Treasury via the bank that provided the money, identifying the bundle or brick in question and including a signed statement from the witnesses. For a disapproved claim, follow the request for relief of liability procedures in Section

7.0, paragraph 7.6. Verify and accept cash shipped to the accountable official in front of witnesses immediately upon receipt, depending on how the money is packaged.

4.1.4.6. Charge bank fees and shipping costs incurred when procuring U.S. or foreign currency to the disbursing activity's operating fund account.

4.1.4.7. Under 31 U.S.C. § 3341, a DO of the U.S. Government may sell government warrants, checks, drafts, or obligations not the property of the official at a premium, or dispose of the proceeds, only if the official deposits the premium and the proceeds in the Treasury or with a depositary for the credit of the government. Credit General Fund Accounts XX 3220, General Fund Proprietary Receipts, Not Otherwise Classified, All Other, for the USD equivalent (USDE).

4.1.4.8. DOs may obtain cash by transfer from another DO without issuing an exchange-for-cash check only upon the relief of a DO and only from the DO being relieved (see Section 3.0, subparagraph 3.4.6).

4.1.5. A TAS is established for each DoW Component to document the balance of DO cash held outside the Treasury. DOs operating in a CARS daily reporting environment must classify each cash transaction with the DO Cash TAS. DFAS Accounting sites use monthly SF 1219 data to report the DO Cash to the proper TAS.

4.1.6. DOs must reconcile daily all transactions reported on the DD 2657 and the DO Cash TAS reflected on the CARS daily account statement. To facilitate reconciliation, DOs must maintain a log of all cash transactions, annotating the DO Cash TAS associated with each transaction. The log of cash transactions must include:

4.1.6.1. The DD 2659, Voucher Control Log; and

4.1.6.2. The detailed deposit activity report; or

4.1.6.3. A system generated report from the disbursing system.

4.2 SAFEGUARDING CASH AND RELATED DOCUMENTS

4.2.1. All accountable officials are responsible for safeguarding public funds. DOs should minimize the number of accountable officials required to store public funds. Use the most secure container, vault, or safe available to safeguard, in order of priority, currency, undelivered checks, negotiable instruments, paid vouchers, blank U.S. Treasury and LDA checks, signature media, valuables (see Section 17.0, paragraph 17.3), and other records. The command security program must consider the maximum amount of each of these items normally on hand at any time. Store classified material separately from public funds and documents.

4.2.2. Responsibilities

4.2.2.1. The responsibilities of the Commander include:

4.2.2.1.1. Approves a DO's request to hold cash at personal risk and ensures unannounced quarterly verification of cash and other assets in the disbursing office (see Appendix A).

4.2.2.1.2. Provides every individual entrusted with public funds a vault, safe, or other adequate secure facility (for example, a strongbox) for the exclusive use of the assigned individual. If separate safes are not possible, furnish separate locked compartments in a safe, or separate strongboxes stored in a safe or vault. Always store public funds separately from other funds.

4.2.2.1.3. Develops a security program and publishes it in a command instruction or notice. The security program must provide adequate protection for the maximum amount of public funds and related documents and instruments on hand at any given time.

4.2.2.1.4. Ensures personnel protection is included in the overall disbursing security program, including periodic review of the adequacy of security measures in place and semiannual testing of the security equipment for proper operation.

4.2.2.1.5. Provides armed guards to escort public funds to and from the disbursing office and, when necessary, acquires an armored car service using locally available mission funds (see subparagraph 4.1.4.3.).

4.2.2.1.6. Provides fire protection of government facilities and funds.

4.2.2.2. DOs must safeguard all public funds they collect or have in their custody or control, and are accountable and subject to pecuniary liability for their loss. DOs must not lend, use, deposit, or exchange public funds in their possession for other funds except as specifically allowed by law. DOs must secure public funds until ordered by proper authority to transfer or disburse them. When DOs receive orders for transfer or payment, they must execute transactions and perform all other duties imposed by law or regulation in conformity to the law. In a disaster, DOs should secure and preserve the accounts of all personnel, public money, and other papers and property in order of importance as circumstances permit.

4.2.2.3. DOs, DDOs, agents, cashiers, custodians, or alternates with custody of public funds must assign each person a separate secured container. Although all appointed or assigned accountable officials are liable for any loss of public funds in their custody, the DO holds overall responsibility and is subject to pecuniary liability, jointly or severally, for any losses associated with these personnel. DOs must therefore ensure that all DDOs, agents, cashiers,

imprest fund cashiers, and other custodians of public funds are fully aware of their responsibilities to properly handle and protect public funds. The DO or designee must personally inspect office security at least semiannually, keeping a record of each inspection, to ensure that:

4.2.2.3.1. Vaults and safes must not be accessible to unauthorized persons (for example, limit access to vaults using vault day gates to which only authorized personnel have the keys);

4.2.2.3.2. Cash exceeding the amount required and authorized for official purposes must be deposited promptly;

4.2.2.3.3. Windows and doors must be limited and barred or always locked after business hours;

4.2.2.3.4. Access to the working area must be marked conspicuously with "AUTHORIZED PERSONNEL ONLY." Conduct transactions from a cage, room, or counter enclosure constructed to provide a physical barrier to normal traffic with minimal interference from other office activities and personnel;

4.2.2.3.5. Security devices for check-signing machines, digitized signature media, meters, and plates must always be in the custody of the DO or authorized DDOs;

4.2.2.3.6. Internal office procedures must be established and implemented to provide adequate controls on all undelivered and returned checks. Assign responsibility for checks, including receipt, holding, and final distribution, in writing;

4.2.2.3.7. The commander must be made aware of any security shortfalls or breaches, and of any request for adequate safeguarding facilities previously denied. Inform the supporting DFAS site of unresolved facility issues that affect the ability to safeguard public funds;

4.2.2.3.8. All DDOs, agents, cashiers, and custodians must receive written and oral instructions on the proper care and handling of cash and other accountable documents. The DO should keep an affidavit from each accountable individual attesting to receipt of such instructions;

4.2.2.3.9. All cash, blank Treasury and LDA checks, and related items must be kept in a vault, safe, or security container that meets the minimum-security standards prescribed in subparagraph 4.2.4.;

4.2.2.3.10. All safes and security containers aboard ships and on installations that are on rollers or weigh less than 750 pounds must be stored in a vault or secured to prevent movement;

4.2.2.3.11. A vault, safe, or security container visible from the exterior of the office must be illuminated;

4.2.2.3.12. The combinations of all vaults, safes, and security containers must be changed at least once every 6 months and upon relief, transfer, separation, or discharge of the accountable official. The accountable official must not share the combination or key with anyone and must place the combination of each safe and the duplicate key of each strong box in separate sealed, signed, and dated envelopes so that an unauthorized opening can be detected. The DO must keep the sealed envelopes of all accountable officials in their safe or vault and must deliver the combination or keys to their own safe or vault to the commander, security officer, or another designated official for retention. Authorized personnel may access the sealed combinations only in an emergency requiring the opening of the safe or vault;

4.2.2.3.13. A record of combination changes, dated and signed by the accountable official, must be kept inside each vault, safe, or container;

4.2.2.3.14. To limit the possibility of the combination being observed, the dial to the vault, safe, or container must be concealed by a shield made of suitable material;

4.2.2.3.15. The name and phone number of the accountable official must be posted on the inside of the vault, safe, or container. DOs may use an SF 701, Activity Security Checklist, or an SF 702, Security Container Check Sheet, as appropriate, to help control and safeguard public funds stored in vaults, safes, or containers. If the forms are not available, post a unique container number and a "24 hour" duty phone number on the outside of the vault, safe, or container so duty personnel can contact the accountable official;

4.2.2.3.16. Keys to the workspace or disbursing office must be strictly controlled. Keep a record identifying who has keys and when they were issued and surrendered; and

4.2.2.3.17. All security equipment must be tested at least every 6 months for proper operation. Keep a record of the tests.

4.2.3. Intrusion Detection Systems (IDS)

4.2.3.1. Maintain and regularly test a system maintenance program to ensure the alarm system operates properly. Protect against bypassing the alarm system consistent with DoW requirements.

4.2.4. Storage Containers

4.2.4.1. When possible, provide a disbursing office a built-in, fire-resistant vault with at least a three-position, dial-type combination lock, with the door and vault able to resist fire for a minimum of two hours. Store all safes containing funds, and when possible the instruments and documents cited in subparagraph 3.4.2, in the vault. Follow the DoW Physical Security Equipment Guide, UG-2045-SHR, when constructing new vaults, doors, and intrusion devices.

4.2.4.2. When vaults are not available, DOs, DDOs, agents, cashiers, and other custodians of public funds must use combination three-tumbler-lock, tool-resistant safes available through General Services Administration (GSA) Global Supply or GSA Federal Supply Schedules (FSS) to store public funds. If such a safe is not available, use a field safe secured properly to an immovable object, and post a guard in an unsecured building at the direction of the commander. Store irreplaceable checks, bonds, or other perishable records in combination three-position, dial-type, insulated, built-in fire-resistant money cabinets or safes. For temporary storage, use Class 5 file cabinets with three-position, dial-type, built-in combination locks to protect against forced entry. File cabinets with steel lock bars or without forced-entry protection are not adequate.

4.2.4.3. DoW Component security and resource-protection programs must ensure compliance with the following minimum requirements for storing currency, negotiable instruments, and paid vouchers. Previously approved storage containers currently in use may continue to be used. The Naval Sea Systems Command may designate specific containers for use on Navy ships.

4.2.4.3.1. Under $7,500, commanders establish the requirements. Any security container or burglary-resistant safe listed in subparagraph 3.4.1.1.2 is acceptable.

4.2.4.3.2. For $7,500 to $50,000, use a security container with a Class 1 or Class 5 rating, or a burglary-resistant safe with at least an Underwriters Laboratories classification of TL-15 and a Group 1R combination lock.

4.2.4.3.3. For $50,000 or more, use a burglary-resistant safe or vault with at least an Underwriters Laboratories classification of TL-30 and a Group 1R combination lock.

4.2.4.4. Blank checks, signature media, and personal valuables held for safekeeping (see Section 17.0) are not part of a DO's accountability. Store them in a security container with at least a Class 1 or Class 5 rating, or a burglary-resistant safe, separate from the one used to store the items listed in subparagraph 3.4.2.1.

4.3 ADVANCING CASH TO AGENTS

4.3.1. Deputy Disbursing Officers (DDOs), Agents, and Cashiers

4.3.1.1. DOs advance cash for official use to their DDOs, agents, and cashiers on a DD 1081, Statement of Agent Officer's Account, by cash disbursement, by EFT, or by exchange-for-cash checks with instructions to negotiate the checks only as funds are needed. The DO must report un-negotiated checks as funds with agents; DDOs, agents, or cashiers report them as "Cash on Hand." Monthly, the DO must report funds in the custody of DDOs, agents, and cashiers, both in the main disbursing office and outside it, on the SF 1219 (see Section 16.0, paragraph 16.6).

4.3.1.2. Under normal conditions, do not advance an amount of cash to a DDO, agent, or cashier that exceeds the CHA. Cash may be entrusted to DDOs, agents, or cashiers in other amounts when required to maintain efficient operations (for example, during the authorized absence of the DO and on paydays). The total amount held by the DO, DDOs, agents, and cashiers must not exceed the DO's CHA.

4.3.1.3. Each DDO, agent, or cashier must store entrusted cash in a safe or adequate container assigned for their exclusive use. Only the assigned DDO, agent, or cashier may know the combination of the safe or container. If the commander deems it necessary to access the safe or container, open it and verify the contents.

4.3.1.4. DDOs, agents, and cashiers entrusted with official funds must balance the cash in their custody daily using the DD 2665, Daily Agent Accountability Summary, as the permanent record of balancing (see Section 16.0, paragraph 16.3). The DO must ensure that each DDO, agent, or cashier is aware of the frequency for balancing and submitting the DD 1081, and must use it as a summary of cash transactions and as a receipt for cash and vouchers on hand. Each DO must submit a DD 1081 no less frequently than monthly. A DDO, agent, or cashier who will be absent for more than 5 workdays must return all funds and accountable documents to the DO with properly executed DD 2665s and DD 1081s before departure, reporting any shortage or overage immediately.

4.3.1.5. DDOs, agents, and cashiers in the main disbursing office must account for all negotiable instruments, collection and disbursement vouchers, and other accountable documents on a DD 2665 and turn them in daily to the DO under cover of a DD 1081. They must retain currency collected over and above currency disbursed only when authorized by the DO and only if total funds held are within the limitations of the cash holding authority. The DD 1081 also serves as a receipt for funds remaining in the official's custody. When additional funds are required because disbursements exceed collections or for other authorized transactions, the DO may replenish funds in the net amount of acceptable vouchers and negotiable instruments delivered with the DD 2665s and DD 1081s. The DO prepares a DD 1081 for the amount of funds advanced (see Section 16.0, paragraph 16.4).

4.3.1.6. DDOs, agents, or cashiers not under the same command as the DO must deposit negotiable instruments whenever possible (for example, an investigative service or support

center, intelligence command, or U.S. Defense Attache Office). If a deposit is $5,000 or more, mail or present the deposit to the nearest FRB or its branch. Transmit deposit tickets, collection and disbursement vouchers, and other accountable documents electronically, or send them by mail or messenger to the DO. Account for the transactions on a DD 2665 with a cover DD 1081. The DO may determine that the volume of transactions is small enough to allow a single monthly DD 1081.

4.3.1.7. Identify transactions made by other than the DO by the name of the DDO, agent, or cashier. The DO determines the method to be used. Identify negotiable instruments cashed by someone other than the DO per Section 5.0, subparagraph 5.2.4.3.

4.3.2. DOs must furnish PAs written instructions to ensure they observe pertinent disbursing procedures, including safeguarding funds; identifying payees and obtaining their signatures; requiring vouchers, documents, and certifications; and returning funds and vouchers.

4.3.2.1. Complete a DD 1081 to document the cash entrusted to PAs authorized to make payments, currency conversions, or check cashing transactions. The DO must establish and implement controls to preclude advancing amounts in excess of requirements for the assigned mission or other anticipated valid requirements. PAs must not commingle cash advanced to them with any other funds and must not advance it to any other person.

4.3.2.2. Normally, PAs must not retain advanced cash overnight but must promptly return the paid vouchers, negotiable instruments, and residual cash to the DO with a properly completed DD 1081. When circumstances require a PA to retain cash overnight, follow the custody requirements in paragraph 4.2 and return the paid vouchers, negotiable instruments, and residual cash as soon as possible after making the authorized payments, normally within 24 hours. The DO must notify the PA's commander when the PA fails to make a prompt return or if a loss of funds or vouchers occurs.

4.3.3. Agents of Friendly Foreign Nations

4.3.3.1. DoW DOs may advance cash to DOs, cashiers, or other members of a friendly foreign nation's armed force to disburse pay and allowances to their members if the President has made an agreement with the foreign country under 10 U.S.C. 2396(b)(2). An advance may also be used to allow that armed force to purchase necessary supplies and services under a basic intergovernmental agreement negotiated per DoD Instruction 5530.03, International Agreements, including coordination with the Combatant Commander involved, the U.S. Ambassador or Chief of Diplomatic Mission, the DoW General Counsel, and the governments of the friendly foreign nation and the United States.

4.3.3.2. A supplemental agreement must establish:

4.3.3.2.1. The type of personal identification required for a DO or individual member when drawing an advance of funds;

4.3.3.2.2. The maximum amount that may be advanced to an individual;

4.3.3.2.3. Protection for the lender nation against loss from fluctuating exchange rates;

4.3.3.2.4. The address of the respective settlement offices to which the lender nation DO forwards receipts for fund advances with requests for reimbursement;

4.3.3.2.5. Procedures for local settlement when feasible or, if not feasible, between the signatory nation's representatives in Washington, DC, or another designated location;

4.3.3.2.6. That settlement may be in cash or by check, and in the type of currency used to make the advance. Make settlement in the lender nation's medium of exchange (when possible); and

4.3.3.2.7. Other provisions local conditions may require.

4.3.3.3. A DO advances cash only against the signed receipt of the individual armed force member receiving the advance, and only for the following purposes and under the following conditions:

4.3.3.3.1. To a DO of a friendly foreign nation's armed force wanting to provide pay and allowances for troops or purchase necessary supplies and services. The receiving DO must present proper personal identification, and the unit must be serving in an area where personnel temporarily cannot obtain funds from their own nation; or

4.3.3.3.2. To individual armed force members of a friendly foreign nation in need of funds, serving in an area temporarily separated from their units when that force's DO is not available to make payments. These individuals must be identifiable as members of a friendly foreign nation's armed force covered by an intergovernmental advance agreement.

4.3.3.4. The receipt must include the name, rank, service number, title, organization, and country of the individual receiving the advance; the purpose for which the advance is needed; the type and amount of currency advanced; the prevailing rate of exchange to one USD at the time of the advance, if applicable; and the name, rank, organization, and address of the DO making the advance.

4.3.3.5. Payment of rewards to assist in combating terrorism is authorized by 10 U.S.C. § 127b. When payment of these rewards by U.S. personnel is not practical, DOs may

advance cash to agents of friendly foreign nations' armed forces to make the payments. The international agreement and authorities in subparagraph 4.3.3.1 do not apply.

4.3.3.6. Agents of friendly foreign nations appointed under Section 3.0, paragraph 3.7 are agents of the DOs who advance cash to them. Commanders and DOs have the same oversight and internal control responsibilities for these agents as for U.S. PAs. DOs may advance cash to properly appointed PAs only in amounts required to pay specific approved reward payments to identified payees.

4.3.4. Change Funds

4.3.4.1. When a clothing sales store, government laundry, or other appropriated fund activity selling property or services requires cash for making change, the activity's officer in charge requests that the commander establish a change fund. After approval, the commander or designee appoints a change fund custodian. The appointing document specifies the amount of cash the DO or DO's agent advances. When advancing the fund, the DO or agent issues the custodian written instructions covering the custodian's responsibility for safeguarding the cash and their pecuniary liability for losses. The DO or agent providing disbursing service to the installation or activity provides the authorized advance and records it in their accountability as cash in the custody of government cashiers.

4.3.4.2. A change fund may not exceed $250 for each cash register operated in an activity. When a cash register has more than one drawer, each drawer may be considered a register. The commander may authorize additional amounts consistent with good cash management principles. With the commander's approval, authorized collecting agents may also serve as change fund custodians to facilitate making change.

4.3.4.3. A commander may authorize an additional $50 for each cash register and an amount not to exceed $500 for each accountable medical services' change fund custodian. For extended operations (such as Sunday operations) with limited or no banking support, a commander may approve an additional amount up to $50 per cash register.

4.3.4.4. The DO or agent prepares a DD 1081. The custodian signs and returns the original to the DO or agent for the amount advanced, returns all cash on termination of the appointment, and prepares a DD 1081 to document the return; the DO or agent acknowledges receipt by signature on the duplicate copy and returns it to the custodian. A DO or agent may recall a change fund to verify the DO's or agent's cash, then re-advances the funds after verification. The cash verification team must conduct unannounced inspections, including cash counts of change funds, at least quarterly.

4.3.4.5. The custodian follows Section 7.0 and immediately informs the officer who advanced the funds of any fund irregularity (such as a shortage or overage).

4.3.5. Imprest funds are authorized only as an exception to this volume. See Section 3.0, subparagraph 3.9.1.

4.4 SHIPMENT OF PUBLIC FUNDS

4.4.1. Authority and Methods

4.4.1.1. Shipment of valuables is authorized by the Government Losses in Shipment Act (40 U.S.C. Chapter 173). Shipments are insured under this authority; do not purchase supplementary insurance.

4.4.1.2. A DO may ship public funds to deposit into an official checking account; deliver funds to another DO as an exchange-for-cash transaction; ship damaged or mutilated currency; and obtain funds from a bank or another DO by exchange of a check-for-cash.

4.4.1.3. Ship public funds in a manner that provides the greatest possible protection against risk of loss, destruction, or damage to the funds.

4.4.1.3.1. Do not use certified mail to ship currency and coins. Use government conveyance or railway express only for currency or coin of excessive weight or bulk.

4.4.1.3.2. Transfers between DOs afloat using airlift (helicopter) or high line are also authorized during underway replenishment at sea; attach a buoy or other reliable flotation device to the container to aid any required recovery.

4.4.1.4. In addition to the accounting documents required for transfers and deposits of public funds, and to provide the record Treasury regulations require, describe each shipment of funds in detail on a DD 165, Shipment of Funds.

4.4.2. Shipment of Funds

4.4.2.1. Use a DD 165 to ship coin or currency, regardless of the amount. This form is not required for shipments for deposit to the Treasury or to a bank if the shipment consists only of checks and money orders and the record of instruments deposited required by Section 12.0, paragraph 12.8 is otherwise maintained. The shipping DO keep the retained copy of the DD 165, the registry or other carriers' receipts, and any other documents incident to the shipment until assured the shipment is complete and no claims actions will be initiated.

4.4.2.2. When a shipment's weight or bulk makes other methods impracticable, government conveyance may be used. The DO makes the necessary arrangements and receives the bill of lading for delivery with the shipment. In all cases, the DO is the shipper and the consignee is responsible for receipt of the funds. The DO is responsible for direct delivery to the carrier and for obtaining a receipt on a copy of the bill of lading.

4.4.2.3. Shipment of funds by commercial armored car service is authorized when it is cost effective and offers the greatest protection against loss. Charge the cost to the operations and maintenance or working capital funds available to the DO.

4.4.3. Action by Consignee

4.4.3.1. On receipt of a copy of a DD 165 as notice of shipment, the consignee (the intended recipient or authorized official designated by the receiving activity) is responsible for arranging to receive the shipment. On receipt, the consignee ensures the shipment is opened and inspected by one or more responsible employees, signs the original DD 165, and returns it to the shipping officer as a receipt. If a courier made the shipment, the consignee signs and returns a copy of the DD 165 to the courier as acknowledgment of receipt.

4.4.3.2. When the shipment represents funds for deposit, the consignee completes the deposit ticket and returns the required copies to the DO. The consignee immediately advises the shipping officer of any difference between the DD 165 and the actual shipment at opening. If the shipment fails to arrive in due course, the consignee immediately notifies the shipping officer and the post office or other carrier's office that arranged delivery, and immediately notifies the shipping officer of any damage. All of the consignee's findings in such cases are a matter of record subject to inspection in any necessary investigation.

4.4.4. The consignor (shipper) takes prompt action to trace a shipment of funds for which a signed DD 165 is not received within a reasonable time. The consignor initiates telephone or message contact with the consignee to ensure compliance with subparagraph 4.5.3.

4.4.5. Accountability for public funds rests with the consignor until the consignee has received and verified all cash listed on the DD 165. If funds shipped as prescribed are lost, destroyed, or damaged, the shipping officer sends an immediate written report to the Bureau of Public Debt (BPD), Division of Financial Management, Department of the Treasury, Room 201, PO Box 1328, Parkersburg, WV 26106-1328. The shipping officer also notifies the agent in charge of the nearest U.S. Secret Service (USSS) office, the appropriate investigative service, and the local post office or local carrier office to place a tracer on the shipment, and takes any other action necessary to facilitate recovery. The shipping officer sends a copy of the report to the consignee and to DFAS Indianapolis, ATTN: (DFAS-ZPTC/IN), 8899 E. 56th Street, Indianapolis, IN, or email to dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil. If the loss,

destruction, or damage is $10,000 or more, or delay in reporting might delay the government's recovering the shipment, the shipping officer sends the report with written confirmation of the shipment's details.

4.4.6. Recovery Action

4.4.6.1. Recovery action is the responsibility of the officer accountable for the lost or damaged shipment. When an exchange-for-cash check has been issued, this responsibility and accountability rest with the shipping bank or DO (consignor). Accountability for the check remains with the check-issuing DO (consignee), who reports the amount on the SF 1219 as funds in transit. The consignee determines the shipping officer's actions and monitors the subsequent investigative process.

4.4.6.2. For cash lost in transit to a depositary, accountability rests with the shipping DO, who takes the reporting and recovery actions required under Section 7.0, paragraph 7.4. The shipping DO records the loss on Line 7.3, Losses of Funds, on the SF 1219. If the DO is reassigned before recovery can be effected, the relieving DO does not take responsibility for the loss but records it on Line 9.3, Losses of Funds, on the SF 1219. The relieving officer also ensures that necessary claims are properly filed and that the proceeds from the claims are properly applied against the loss.

4.4.6.3. The DO acts to recover the amount of lost negotiable instruments under Section 12.0, subparagraph 12.8.3.5. If this recoups the full amount of a lost deposit, do not file the claims described in subparagraph 4.5.4. If it does not result in full recovery, the DO may request relief of liability for the unrecovered portion, supported by copies of all correspondence pertaining to the unsuccessful recovery action.

4.4.6.4. The DO sends claims for the value of lost currency shipments exceeding $100 to the Secretary of the Treasury through the supporting DFAS site. The DO ensures:

4.4.6.4.1. The proof of claim includes satisfactory proof of loss, destruction, or damage. The claim must include the original DD 165, which will be returned after the claim is adjusted. The DO ensures all applicable blocks on the form are complete and the form is signed, or the BPD will not process the claim. The consignor (shipping officer) submits a statement concerning the loss, destruction, or damage to the shipment or any part of it.

4.4.6.4.2. If the consignee receives a shipment with contents not intact, the statement describes the circumstances of the condition in which the shipment was received and the manner of inspection and verification of its contents. The claim must also include affidavits covering the loss, destruction, or damage from the consignee and the carrier, as well as statements and recommendations of the investigating officers.

4.4.6.4.3. For lost shipments where an exchange-for-cash check was issued to an FRB or another DO, the check-issuing DO requests that the shipping officer provide copies of all documentation. All necessary and reasonable steps to recover the lost, destroyed, or damaged shipment must continue after filing the claim. DOs ensure that all recoveries and refunds received after favorable consideration of the claim are turned over to the Treasury. See Title 31, Code of Federal Regulations (CFR), part 361 for claims under the Government Losses in Shipment Act.

4.4.6.5. The BPD grants claims for relief for lost, damaged, or destroyed shipments only if the shipping officer strictly followed prescribed procedures. If a claim is denied, the accountable DO may either make restitution of the missing funds or submit a request for relief of liability under Section 7.0. The request will be adjudicated and U.S. laws and regulations applicable to accountable official liability. If a claim is approved, the BPD sends a refund via the Intra-governmental Payment and Collection (IPAC) system. The DO must provide an agency location code before transmission. If no IPAC capability exists, contact the supporting DFAS site.

4.4.7. Unfit U.S. Currency and Coin

4.4.7.1. At least three disinterested persons must inventory damaged or mutilated U.S. currency or fragments recovered from inadvertent wartime destruction or peacetime catastrophes affecting DoW property and personnel (for example, aircraft crashes, ship sinking, building explosions, chemical spills). These persons normally can determine the currency value; if they cannot, the DO sends a BEP Form 5283, Request for Examination of Mutilated Currency for Possible Redemption, with the currency to the BEP for a value determination. The form and shipping instructions are on the BEP web page. The DO must insure the shipment and request a return receipt.

4.5 WEAPONS-FOR-CASH PROGRAM

4.5.1. The weapons-for-cash program requires Secretary of War authorization. The senior operational commander provides funding authorization for weapons procurement. The total amount advanced to PAs under this program must not exceed this authorization. The commander must adjust the authorization before providing additional funds.

4.5.2. Each disbursement requires proper accounting. Use an SF 44, Purchase Order-Invoice-Voucher, or other available chain-of-custody receipt. Each seller's receipt must include the seller's name and (if possible) identification number, the weapon description and serial number, and the amount disbursed. The PA must ensure the seller's signature appears on the receipt. Prepare the original and three copies of the disbursement document (seller's receipt): provide the original and one copy to the DO, attach one copy to the weapon for inventory control, and give one copy to the seller.

4.6 COUNTERFEIT OR ALTERED U.S. CURRENCY

4.6.1. A DO must confiscate U.S. currency presented for exchange or for payment of an obligation to the United States that the DO determines is counterfeit or altered, give the person presenting it a receipt showing the type, denomination, and amount confiscated, and obtain information from that person about the currency's source. The DO delivers the currency, by letter of transmittal with all available information, to either a representative of the appropriate investigative service (if available) or the nearest military security agency, obtaining a receipt in either case. Because such currency is suspect, no entries in the DO's accounts are required.

4.6.2. Detected After Acceptance

4.6.2.1. On discovering counterfeit currency, the DO must request reimbursement from the source from which it was received and follow paragraph 4.7. No loss to the DO accrues, and no entries in the DO's accounts are required.

4.6.2.2. If the source of counterfeit currency is unknown, or is known but reimbursement is not obtained, the DO delivers the currency, with a detailed report of all known circumstances, to either a representative of the appropriate investigative service (if available) or the nearest military security agency, obtaining a receipt in either case. The DO must send the currency receipt, with a signed copy of the DO's report by memorandum stating why reimbursement was not obtained, through the DO's commander to DFAS-ZPTC/IN, and report it on the SF 1219 as a physical loss of funds.

4.6.3. When a bank operating a Treasury General Account (TGA) notifies a DO that currency the DO deposited is suspected to be counterfeit, the DO must reimburse the TGA for that currency and obtain a receipt describing the currency and stating that it is suspected to be counterfeit and has been withdrawn from circulation. The TGA surrenders any suspected counterfeit currency to the USSS and provides depositors a photocopy of Secret Service Form 1604, Counterfeit Note Report, or other documentation. The DO contacts the USSS to confirm whether the surrendered currency is counterfeit and must ensure the TGA processes a deposit ticket for the amount the USSS determines is not counterfeit, crediting that amount to the appropriation that funded the loss. The DO reports the amount the USSS determines is counterfeit on the SF 1219 as a physical loss of funds.

4.7 EMERGENCY DISPOSITION

4.7.1. DoW Component heads must develop and maintain contingency plans and standby procedures to dispose of cash and other assets under emergency conditions. These plans must address emergency conditions, emergency destruction, sudden destruction, and accounting for destroyed cash and other assets, and must include internal controls to minimize the risks of fraud,

waste, and abuse. Emergency operations include, but are not limited to, combat and peacekeeping operations, humanitarian assistance efforts, noncombatant evacuation operations, disaster relief efforts, and disposal of contaminated cash.

4.7.2. Policy

4.7.2.1. Under conditions that may require the evacuation, disposal, or destruction of cash and other assets, commanders execute their contingency plans. DOs or their designees must evacuate cash and other assets under these conditions (for example, in anticipation of enemy action) to a designated safe haven, such as a secured vault or safe.

4.7.2.1.1. On initial notification of a threat that may require the destruction of cash and other assets, the DO, DDO, or other designee must determine cash requirements, recall or purchase excess cash, and evacuate it and other assets held at personal risk to a designated safe haven. If the DO, DDO, or commander determines that capture of these assets is possible, the responsible official must secure them to minimize the risk of capture or destroy them following subparagraph 4.7.2.1.2.

4.7.2.1.2. If capture of funds is inevitable, burn paper currency, checks, and other burnable documents completely to ashes. If burning is not possible, use chemical decomposition, shredding, or pulping. The alternative methods must render the items non-negotiable by completely destroying their original character and appearance.

4.7.2.1.3. Dispose of coins and other valuable non-burnable items by scattering them in deep bodies of water or physically destroying them when possible. When no suitable bodies of water are present, discreetly bury these items in the ground. Coins may also be fused or mutilated to make them unrecognizable. Fragment and scatter bars, ingots, and other units of precious or valuable substances to make their recovery impossible or at least uneconomical.

4.7.2.2. The DO/DDO prepares an original and three copies of a DD Form 2669, Destruction Schedule for Currency, for all U.S. currency to be destroyed, noting the reason in the space provided. For full or partial packages of new currency, note the beginning and ending serial numbers of each denomination. Three persons must witness the destruction: U.S. commissioned or noncommissioned officers, or U.S. Government civilian employees who are U.S. citizens. The DO/DDO may serve as the third witness only if one of the other two witnesses is senior in rank to the DO/DDO. Witnesses must enter their name, rank or grade, and signature in the spaces provided. A DO/DDO serving as a witness completes block 5 and the applicable section of block 8. Indicate the method of destruction in the space provided for the witnesses' certifications.

4.7.2.3. When ordered by the commander, these activities deliver their U.S. cash to the nearest DoW DO/DDO in exchange for a U.S. Treasury check, and the DO is then accountable for the cash. If an exchange cannot be made, the activity custodians or managers prepare a destruction schedule similar to the DD 2669 and, after verification, burn the currency to ashes in the presence of at least one activity representative and two U.S. commissioned or noncommissioned officers or U.S. Government civilian employees.

4.7.2.4. If foreign cash must be destroyed, the appropriate authority (for example, a NAF custodian, MBF, or other activity manager) transports it to the nearest DoW DO/DDO and exchanges it for a receipt stating that the foreign currency is accepted for safekeeping and that neither the DO/DDO nor the U.S. Government is accountable for loss or destruction resulting from the existing emergency. A DO/DDO who has accepted the currency and coin and needs to use it for operational requirements issues a U.S. Treasury exchange-for-cash check to the appropriate authority for the USDE of the foreign funds purchased. If destruction becomes necessary and time permits, the DO/DDO prepares a DD 2669. When an exchange cannot be made, the appropriate authority prepares a destruction schedule similar to the DD 2669 and, after verification, burns the currency to ashes.

4.7.2.5. DOs/DDOs in areas of elevated tension must anticipate the possibility of emergency destruction and maintain procedures to rapidly inventory and destroy their cash and other assets. If there is not enough time to destroy all funds held by the DO/DDO, prioritize the destruction in the following order:

4.7.2.5.1. U.S. and foreign cash, and negotiable instruments carried as cash in the DO's accounts;

4.7.2.5.2. Blank U.S. Treasury checks;

4.7.2.5.3. Blank LDA checks;

4.7.2.5.4. Currency, negotiable instruments, and other valuables held for safekeeping;

4.7.2.5.5. Coins; and

4.7.2.5.6. Other valuables (e.g., signature media).

4.7.2.6. When currency and coins are destroyed by explosion, fire, sinking of a vessel, or aircraft accident, the accountable DO prepares a written statement identifying the circumstances of the destruction and sends it, with a request for relief of liability, to DFAS-ZPTC/IN. If the DO does not survive the disaster that destroyed the funds, the officer

designated to settle the account acts on the DO's behalf by reconstructing the DO's accountability and initiating the appropriate requests for relief.

4.7.2.7. DOs must account for destroyed currency, coin, and negotiable instruments held as public funds by recording them on the DD 2657 and the SF 1219 and attaching copies of the supporting DD 2669 to both forms.

5.0 ACCOMMODATION EXCHANGE

5.1 GENERAL

5.1.1. 31 U.S.C. § 3342 allows DOs to provide check cashing and accommodation exchange services when authorized by the appropriate commander (a theater commander, base or installation commander, commanding officer or officer-in-charge, director of a supporting Defense Finance and Accounting Service (DFAS) site, or equivalent civilian head in the DO's chain of command) for eligible individuals (see subparagraph 5.2.3).

5.2 EXCHANGE OF CASH FOR NEGOTIABLE INSTRUMENTS

5.2.1. Policy

5.2.1.1. In the United States, a commander may request the Director, DFAS or designee to authorize a DO to cash negotiable instruments. Submit requests, with justification, to DFAS, Enterprise Solutions and Standards, Disbursing (DFAS-JJFKCB/IN), 8899 E. 56th Street, Indianapolis, IN 46249-0050.

5.2.1.2. In overseas areas and for ships afloat, a commander may authorize the DO to cash negotiable instruments. The command must have a written check cashing policy approved by the theater commander or designee identifying the services offered and the personnel eligible to receive them. The policy must provide that the DO may deny check cashing privileges to anyone based on the non-availability of cash or personnel resources. Resources must be available to provide these services without impacting levels of other financial services (for example, primary disbursing and related functions).

5.2.2. A DO may cash U.S. Treasury checks, money orders, traveler's checks, third-party checks, state and local government checks, credit card checks, business checks, and personal checks payable in U.S. dollars for eligible payees. These instruments may be processed through the Over-the-Counter Channel Application (OTCnet) (see Section 12.0, paragraph 8.1). DO accountability is not affected until the checks are reported in Treasury's OTCnet. The DO must use the appropriate DO Cash Treasury Account Symbol (TAS) and the appropriate Business Event Type Code (BETC) when depositing accommodation exchange transactions.

5.2.3. Personnel permanently assigned to units in the area served by the DO are eligible for check cashing services. These include:

5.2.3.1. Members of the U.S. Armed Forces;

5.2.3.2. Civilian employees of the U.S. Government who are U.S. citizens;

5.2.3.3. A veteran hospitalized or living in an institution operated by an agency;

5.2.3.4. Contractors and their employees engaged in U.S. Government projects are eligible only if the contractor is a U.S. firm and the employee is a U.S. citizen:

5.2.3.4.1. The company's on-site representative must furnish the DO with a list of employees authorized to cash personal checks and enter into a written agreement. The agreement must stipulate that the DO will suspend check cashing privileges for that company's employees if the DO receives a dishonored check written by a company employee and the DO cannot collect for the dishonored check; and

5.2.3.4.2. The DO will notify the company representative when a dishonored check is received from one of its employees and suspend check cashing services for all the company's employees. The suspension remains in effect until the DO collects on the dishonored check. The check cashing agreement is permanently terminated if the DO is unable to collect the dishonored check within 30 calendar days from the notification to the company representative;

5.2.3.5. U.S. citizens who are employees of authorized nongovernment agencies operating with U.S. Government agencies, (e.g., the American Red Cross);

5.2.3.6. Dependents of the personnel named in subparagraph 5.2.3, as defined in 31 U.S.C. § 3342(b)(3)(A)-(B) and the Definitions Chapter.

5.2.3.6.1. At a U.S. installation at which adequate banking facilities are not available, and

5.2.3.6.2. Holding proper identification and powers of attorney and who possess valid DoW identification cards; or

5.2.3.6.3. Ordered to safe haven posts due to emergency evacuation (see Section 14.0, subparagraph 14.3.2 for accommodation restrictions), and

5.2.3.6.4. In the case of negotiation of negotiable instruments, if the dependent's sponsor (as defined in the Definitions Chapter) authorizes, in writing, the presentation of negotiable instruments to the DO for negotiation.

5.2.3.7. Third-country national civilian employees under contract to the U.S. Government as contractors or subcontractors employed by U.S. firms engaged in U.S. Government projects in foreign countries with U.S. Treasury checks or U.S. dollar checks issued by the contractors;

5.2.3.8. A Federal credit union operating on U.S. military installations in a foreign country but only if that country does not permit contractor operated military banking facilities (MBF) to operate on installations;

5.2.3.9. Personnel on temporary duty or temporary additional duty (TDY/TAD) are eligible when approved by a DO's commander. These personnel must provide the DO a copy of their TDY/TAD orders and any other items of identification the DO may require;

5.2.3.10. An authorized agent, authorized by a properly executed power of attorney, is eligible for personal checks drawn on the account of a member, personal checks drawn on joint accounts to which the member is a party, and other checks drawn in favor of the member. The agent must present valid identification during all transactions. Restrictions that apply to benefiting members also apply to their agents under the terms of the executed DoD (DD) Form 2761, Personal Check Cashing Agreement, which serves as a power of attorney; or

5.2.3.11. A member of the military forces of an allied or coalition nation who is participating in a combined operation, combined exercise, or combined humanitarian or peacekeeping mission with the Armed Forces of the United States is eligible only if:

5.2.3.11.1. Such disbursing official action for members of the military forces of that nation is approved by the senior United States military commander assigned to that operation, exercise, or mission; and

5.2.3.11.2. That nation has guaranteed payment for any deficiency resulting from such disbursing official action.

5.2.4. Commanders and other individuals in the chain of command are responsible for implementing and maintaining internal controls that preclude the fraudulent issuance and cashing of negotiable instruments. At a minimum:

5.2.4.1. All instruments are endorsed, "Pay to the Order of the Disbursing Officer, (name of ship, station, activity, unit, disbursing station symbol number, or the DFAS site);"

5.2.4.2. The payee(s) sign or endorse each instrument in the presence of the DO, a Deputy DO (DDO), the DO's authorized agent, or a cashier;

5.2.4.3. The identity of the DDO, DO's agent, or cashier cashing the instrument must be clearly identifiable on that instrument, and the person cashing the instrument may be held pecuniarily liable if the instrument is altered or forged. The DO may also be held pecuniarily liable if the instrument becomes nonnegotiable and their identity is not apparent; and

5.2.4.4. The person cashing a negotiable instrument must verify the identity of the person(s) presenting the instrument. Record the payee or endorser identification (for example, legible name, social security number (SSN), phone number, and identification card number and duty station, if applicable) on the negotiable instrument so recovery can be made if the instrument is dishonored. A DO may use the DD 2761 as an alternative to annotating this information on a check, which alleviates identity-theft concerns created by exposing the SSN. Attach a photocopy of the negotiated check to the DD 2761 and file it for records retention.

5.3 CASHING PERSONAL CHECKS

5.3.1. Check Cashing

5.3.1.1. All authorized military and appropriated fund civilian personnel who request check cashing privileges must consent in writing to immediate collection against their pay for the total of any dishonored check. Dishonored checks are not delinquent debts. The DO has no authority to assess a service charge (penalty) but must recover any insufficient fund charges assessed on the DO by financial institutions.

5.3.1.2. Immediate deduction from the pay account is authorized for the face value of the dishonored check(s) plus any charges assessed against the DO by a financial institution for their processing.

5.3.1.3. The DO may not use partial payments as a means of resolving a dishonored check.

5.3.1.4. When a check is returned for a contract employee, the DO must immediately seek reimbursement from the company employee, as indicated in the employee's company agreement.

5.3.1.5. If a military member or DoW civilian employee is separated or has resigned and cannot be located to make restitution, the DO follows paragraph 5.5.

5.3.1.6. Writing checks in advance of the availability of funds (floating a check) is illegal. Deny check cashing privileges to individuals who abuse it by writing checks against insufficient funds.

5.3.1.7. Retain check cashing documents as follows:

5.3.1.7.1. The DO keeps the original signed DD 2761 for all personal checks honored.

5.3.1.7.2. For all dishonored checks, keep the original DD 2761 with the dishonored check file until resolved. If the consent statement is stamped on the front of the check and the check is dishonored, the DO, deputies, agents, or cashiers make copies of the front and back (if applicable) of the check. Keep a copy of the check, along with a copy of the agreement if the individual is a contractor, until the matter is resolved.

5.3.2. Limitations

5.3.2.1. Commanders establish maximum amounts for cashing personal checks by authorized personnel or their agents. In overseas areas where personnel of two or more Services are operating, the senior commander ensures a uniform policy to provide check cashing privileges within sound financial management practices. The policy and applicable limits are based on the circumstances of the local economy and cost-of-living. The supporting DO should publish deviations from established command maximum limits for each exception.

5.3.2.2. The DO provides a copy of an authorization to exceed the established limit when requesting removal of deficiencies involving uncollectible insufficient-fund checks and associated charges that financial institutions may assess for personal checks cashed (see paragraph 5.4). Personal checks being cashed must be drawn in multiples of 5 dollars unless local conditions make that increment impractical. U.S. Treasury checks or checks issued by banks or other similar financial institutions may be cashed without regard to a dollar amount.

5.3.2.3. Checks must be drawn on U.S. financial institutions, overseas branches of U.S. banks or credit unions, or overseas MBFs operated under U.S. Government contract. Checks must also be payable in U.S. dollars through U.S. banks or credit unions, including banks located in the Commonwealth of Puerto Rico, U.S. Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands. The DO establishes the days and hours during which check cashing service is available and makes appropriate notification of any changes.

5.3.3. A DO of a naval vessel may cash personal checks for crew members when the vessel is in a U.S. port and adequate check cashing facilities are neither available nor adequate for nonresidents of the area. A non-tactical disbursing activity in the United States may provide check

cashing service when a unit, squadron, or detachment without a DO or disbursing capability is performing TDY/TAD away from its permanent station or homeport where adequate check cashing facilities are not available. This authority applies when units, squadrons, or detachments are engaged in training or exercises that preclude use of available check cashing facilities. For situations not described in paragraph 5.2, a commander may request the Director, DFAS or designee to authorize check cashing services. Submit the request following subparagraph 5.2.1.1.

5.4 ACCOUNTABILITY FOR DISHONORED CHECKS

5.4.1. DOs who accept checks from external activities for the sale or transfer of something of value (for example, property disposal sales, clothing sales, commissary sales, ships stores, or housing offices) that a depositary later returns unpaid on a debit voucher must record the debit voucher on the DD 2657, Daily Statement of Accountability, as a reduction of deposits, prepare a reverse collection voucher as a reduction of reimbursements, and send one copy of the collection voucher and one copy of the dishonored check to the collection activity concerned. All dishonored checks returned by the Treasury on a debit voucher are automatically classified back to the TAS annotated on the OTCnet deposit ticket. Collection activities are responsible for pursuing collection action per their regulations and Volume 16. Because these checks were collected into an appropriation and then reversed, there is no deficiency in the DO's accountability.

5.4.2. Checks accepted from external activities or to satisfy an obligation (debt) due the United States do not impact the DO Cash TAS and are classified under a program TAS. DOs who accept checks to satisfy a debt to the United States (for example, overpayment of travel allowances) that are later returned unpaid by a depositary must follow subparagraph 5.4.1. The activity responsible for originating the charge (for example, military pay or travel pay) reestablishes the debt based on the dishonored check and the reverse collection voucher and pursues collection action per their regulations and Volume 16. A DO who is the collecting officer for these dishonored checks initiates collection action following Volume 16. Because these checks were collected into an appropriation and then reversed, there is no deficiency in the DO's accountability.

5.4.3. Checks accepted in check cashing transactions authorized by 31 U.S.C. § 3342 that are later returned unpaid by a depositary on a debit voucher must be recorded on the DD 2657 as decreases to deposits and increases to dishonored checks receivable. Dishonored checks related to accommodation exchange transactions impact the DO Cash TAS and stay on the DO accountability until recouped or until the uncollectible receivable is processed for removal from accountability as provided in Section 7.0, subparagraph 7.4.2.1.1. Unlike the checks in paragraphs 4.1 and 4.2, treat these as erroneous payments because public funds have been disbursed. DOs pursue collection of these checks following section 3.0 and Volume 16, Chapter 2, section 2.0. If the checks become uncollectible, the DO reports the losses and requests removal of the deficiencies through the Loss of Funds Team, DFAS Accounting and Finance Policy Division, DFAS

Indianapolis (DFAS-ZPTA), Location 211X, 8899 E. 56th Street, Indianapolis, IN 46249 (see paragraph 5.5).

5.5 REMOVAL OF DEFICIENCIES

5.5.1. Request for Removal

5.5.1.1. Upon notification that a check has been dishonored, start collection action immediately and pursue it through recovery. If the DO has followed the check cashing policy and collection requirements in paragraph 5.3 and Volume 16, removal of deficiencies normally is authorized under 31 U.S.C. § 3342. If the debtor is no longer employed, in the military service, or is an inactive reservist, and all attempts to collect have been exhausted, the DO sends a written request for removal of the deficiency to DFAS-ZPTA through their command channels.

5.5.1.2. If the DO has followed the check cashing policy and collection requirements in paragraph 5.3 and Volume 16, removal of deficiencies normally is authorized under 31 U.S.C. § 3342. If DFAS-ZPTA approves removal of the deficiency, it sends the requesting DO a memorandum authorizing a charge to Treasury Account Symbol ***6763, Gains and Deficiencies on Exchange Transactions. The removal-of-deficiency transaction impacts the DO Cash TAS. Process the removal of deficiency with a Classification Transactions and Accountability transaction citing account ***6763 and BETC and the appropriate DO Cash TAS/BETC. The DO sends a copy of the memorandum to the activity to which it submits financial reports. DFAS-ZPTA advises the Debt and Claims Management Office to continue attempts to recover the debt and, if successful, credit the appropriation charged when the deficiency is removed as a result of successful debt recovery. If DFAS-ZPTA does not authorize removal, the deficiency cannot be charged to account ***6763, and the DO can either repay the loss or request relief of liability as prescribed in Section 7.0, section 6.0.

5.5.2. If a dishonored check held in the disbursing office is lost, treat it as a physical loss of funds (see Section 7.0, paragraph 7.4).

5.5.3. If a forged check is processed and paid, a loss-of-funds investigation is required (see Section 7.0, paragraph 7.4). If the investigation cannot identify the forger, or if recovery from this person cannot be accomplished, the DO, DDO, agent, or cashier who cashed the forged instrument is liable for the loss but may be eligible for relief of liability (see Section 7.0, paragraph 7.6). The DO, DDO, agent, or cashier may submit a request for relief of liability to DFAS-ZPTA for the improper payment. The request should include a copy of the investigation results, all related documents, and a description of the procedures used to preclude forgery.

5.6 REDEEMING SAVINGS BONDS IN OVERSEAS AREAS

5.6.1. MBFs are authorized to redeem savings bonds in overseas areas. Where none are available, DOs may request this authorization through their chain of command. This is the only situation where DOs may redeem savings bonds. Disbursing offices with current authority to redeem savings bonds may continue this service provided no change in area support by a local MBF has occurred.

5.6.2. Cashing Bonds

5.6.2.1. The DO authorized to redeem savings bonds must use the savings bond calculator on the Treasury Direct website. Series EE and I Bonds issued after February 2003 must be at least 12 months old, based on the date of issue, before the DO may redeem them.

5.6.2.2. The DO issues an IRS Form 1099-INT, Interest Income, to recipients of $10 or more in interest paid on redeemed savings bonds. This form includes the amount of interest paid; the name, address, and Taxpayer Identification Number (usually the bondholder's SSN); the name of the person paid; and other information needed by the IRS. DOs are prohibited from cashing bonds for individuals who refuse to furnish their SSN. Because individuals redeeming bonds may change their address before calendar year-end without notification, DOs should furnish the form to the recipient at the time of the transaction.

6.0 CERTIFYING OFFICERS, DEPARTMENTAL ACCOUNTABLE OFFICIALS, AND REVIEW OFFICIALS

6.1 GENERAL

6.1.1. Authoritative Guidance

6.1.1.1. Under 31 U.S.C. § 3325(a)(1) and (b), a DoW disbursing official may disburse money only as provided by a voucher certified by the Secretary of Defense (SecDef), a DoW officer or employee, or a member of the U.S. Armed Forces having written SecDef authorization to certify vouchers.

6.1.1.2. Under 10 U.S.C. § 2773a, the SecDef may designate any DoW civilian employee or member of the U.S. Armed Forces under the Secretary's jurisdiction as a DAO. DAOs must provide COs with information, data, or services the CO directly relies on to certify payment vouchers.

6.2 POLICY

6.2.1. DoD Directive 5118.03 delegates authority to appoint COs (under 31 U.S.C. § 3325(a)(1) and (b)) and DAOs (under 10 U.S.C. § 2773a) to the USD(C). This volume re-delegates that authority to DoW Component Heads, who may further re-delegate it. See Section 3.0, paragraph 3.3 for who may be appointed to positions of accountability to the U.S.

6.2.1.1. Under the separation-of-duties principle in Section 2.0, subparagraph 2.3.5.2, DOs, their deputies, and agents may neither be appointed as, nor appoint, COs for payments they will eventually make. See subparagraph 6.3.1.2 for conditions that may require deviation.

6.2.1.1.1. DOs and DDOs may certify cover vouchers supported by properly certified sub-vouchers. See Section 10.0, subparagraph 10.4.8.

6.2.1.1.2. Where a DO supervises separate computation and disbursing functions, computation section personnel may be COs. In limited situations (e.g., afloat units, noncombatant evacuations, contingency operations, training exercises), disbursing office personnel may be appointed as COs. Make these appointments through command channels, excluding the DO, and describe the circumstances in Item 7 of the appointing DD Form 577.

6.2.1.2. Certification of Funds Availability vs. Certification of a Payment Voucher

6.2.2. Certification

6.2.2.1. As key funds control personnel, resource managers must certify funds availability before goods or services are ordered, based on funding authorizations that allow incurring obligations the U.S. Government will pay at a future date (see subparagraph 6.3.2). This does not create pecuniary liability under 31 U.S.C. § 3527 or § 3528 (see subparagraph 6.7.1) but may have Antideficiency Act implications (see Volume 14).

6.2.2.2. Certification of a voucher for payment is an attestation by a properly appointed and trained CO that a voucher is correct and proper for payment. It normally occurs before payment but may occur simultaneously with receipt and payment, particularly in tactical situations. Only persons properly appointed on a DD 577 may make these certifications. See paragraphs 6.5 and 6.7.

6.3 RESPONSIBILITIES

6.3.1. DoW Component Heads or their designees, as appointing authorities:

6.3.1.1. May appoint COs and DAOs, other than themselves, and terminate appointments when required (see subparagraph 6.4.1);

6.3.1.2. Oversee the appointees and their execution of the duties in subparagraphs 6.3.4 and 6.3.5. For micro-purchases supporting contingency operations, balancing mission accomplishment with acceptable risk and cost benefit may require deviating from the separation-of-duties and internal-control principles in Section 2.0, subparagraphs 2.3.5 and 2.3.5.2, and the policy in subparagraph 6.2.1.2. Deviations are at the commander's discretion; the commander must recognize the increased risk of errors, theft, and fraud from merging payment-certification responsibilities with other functions and must make every effort to mitigate those risks. Mitigation tools include post-payment reviews, rotation of duties, reviews of financial data, and management or external reports. The micro-purchase threshold is defined in Federal Acquisition Regulation Subpart 2.101; and

6.3.1.3. Implement controls to effect timely appointment terminations.

6.3.2. Supervisors must ensure subordinate COs and DAOs are trained in their responsibilities, including initial and annual refresher training (see subparagraphs 6.3.4.1.2 and 6.3.5.2); periodically review their performance for compliance with regulations, policies, and procedures, including local standard operating procedures; review appointments annually for validity and current status; and make appropriate change recommendations to appointing authorities.

6.3.3. Resource managers or other key fund control personnel maintaining a funds-control system are responsible for certifying funds availability and assigning proper funding citations on commitment and obligating documents. They should coordinate with requiring officials (e.g., program managers, contracting officers, engineers) to verify that requests comply with applicable funding statutes, that the obligating document lists capital and expensed items on different line items, and that delivery of supplies or the service period of performance aligns with the lifecycle of the associated funds so the obligation meets the bona fide need rules in Volume 3. A certification of funds availability is not a certification for payment (see subparagraph 6.2.2 and Volume 14).

6.3.4. COs

6.3.4.1. CO qualifications:

6.3.4.1.1. Must have knowledge of the subject matter, background, or experience in preparing a payment voucher; in appropriations and other funds and accounting classifications; and in the payment process (e.g., location of designated paying and accounting offices). See subparagraph 6.2.2;

6.3.4.1.2. Must complete an approved "Certifying Officer Legislation" training course applicable to their mission area before appointment, complete refresher training annually, and provide proof of completion to their supervisor. Evidence of completing this training is required before performing as a CO. On-the-job training is not acceptable.

6.3.4.2. COs must ensure the automated and manual processes supporting their voucher certifications reasonably satisfy I TFM 4A-2000, and must also:

6.3.4.2.1. Check the accuracy of facts stated on a voucher and in supporting documents and records, and may rely on data from reliable automated systems certified as compliant with the Federal Financial Management Improvement Act of 1996 (FFMIA) (see Volume 1);

6.3.4.2.2. Verify the accuracy of a voucher's computation before certification;

6.3.4.2.3. Determine the legality of a proposed payment from the appropriation or fund cited on the voucher (see Section 2.0, paragraph 2.3.6 for prohibited-payment policy);

6.3.4.2.4. Ensure a legal obligation to pay exists (e.g., a contract);

6.3.4.2.5. Ensure the payee has fulfilled the prerequisites to payment (e.g., an invoice, receiving report, approved travel claim);

6.3.4.2.6. Ensure the payment is legal under the appropriation or fund involved (e.g., the correct appropriation and fiscal year);

6.3.4.2.7. Seek advance decisions on questionable vouchers (see Section 13.0, paragraph 13.2);

6.3.4.2.8. Repay a payment that is:

6.3.4.2.8.1. Determined to be erroneous (e.g., illegal, improper, or incorrect) due to an inaccurate or misleading certification;

6.3.4.2.8.2. Prohibited by law; or

6.3.4.2.8.3. Not a legal obligation of the fund or appropriation cited; unless the payment is recovered by collection or offset from the payee or another source, (e.g., collected from a DAO or relief is granted under subsections (b) or (c) of 31 U.S.C. § 3528; also see Section 7.0, subparagraph 7.6.3.3);

6.3.4.2.9. Respond timely to a reviewing official's questionable-payment inquiry; and

6.3.4.2.10. Include the payee's Tax Identification Number (for businesses) or Social Security Number (for individuals).

6.3.4.3. This section applies to DoW employees appointed as Treasury COs who are delegated authority to certify the disbursement of funds and to schedule and classify domestic and international payments the Bureau of the Fiscal Service disburses, as authorized by the Treasury Disbursing Office.

6.3.4.3.1. COs who certify Treasury-disbursed payments must be appointed using Bureau of the Fiscal Service Form 210CO, Designation for Certifying Officer, not the DD 577, unless also serving as a CO for DoW payments disbursed by a Non-Treasury Disbursement Office (NTDO). Treasury-appointed CO designations are valid for one year from the effective date unless revoked earlier. See I TFM 4A-3000 for requirements and forms for scheduling payments disbursed by the Bureau of the Fiscal Service.

6.3.4.3.2. All accountable officials are subject to the pecuniary liability standard under 31 U.S.C. §§ 3527 and 3528 (see Section 7.0, subparagraph 7.1.2). Treasury COs are pecuniarily liable when a fiscal irregularity occurs, based on the "presumption of negligence," whether the payment was disbursed by the Treasury or an NTDO.

6.3.5. DAOs

6.3.5.1. In performing their duties, DAOs are responsible for providing COs with information, data, or services to support the payment certification process. Their unique mission-area responsibilities require supervisors and appointing officials to decide whether DAO appointments are required and to clearly define each DAO's functions. Appointing DAOs is not mandatory; persons whose duties may support a DAO appointment include receiving officials, contracting officers, personnel who make payment eligibility determinations, time and attendance personnel, and travel approving officials. Consider personnel in the following areas for appointment as DAOs:

6.3.5.1.1. Purchase Card Program. Approving officials may be appointed as COs with the additional responsibilities in subparagraph 6.3.4.2. Other purchase card program personnel may be appointed as DAOs (see Volume 10).

6.3.5.1.2. Personnel Programs. Personnel officers must ensure accurate and timely input of personnel data supporting payments.

6.3.5.2. DAOs must complete approved training applicable to their mission areas within two weeks of appointment, complete refresher training annually, and provide a copy of their training completion certificate to their supervisor. Evidence of completing this training is required before performing as a DAO.

6.3.6. AIS administrators operate and maintain the automated systems supporting the entitlement, certifying, and disbursing processes so those systems meet prescribed functional requirements, maintain data integrity, and prevent unauthorized access. They must also ensure the systems they administer are certified as FFMIA-compliant (see Volume 1).

6.4 DD 577

6.4.1. Appointing authorities appoint and terminate COs and DAOs using a DD 577, identifying as necessary the types of payments to be certified (e.g., vendor pay, purchase card, CBAs, travel, transportation, military and civilian pay) and, if appropriate, the entitlement systems involved. Avoid "various" and similar generalities when identifying voucher types. If desired, include the reviewing official's organization on the appointment. The effective date of an Appointee Acknowledgment (Item 15 or 16a-Digital) may not be earlier than the Appointing Authority date (Item 12).

6.4.1.1. Include the appointee's DoW Identification Number (employee number for a direct-hire, non-U.S. citizen outside the U.S.), name, organization, and position. Limit access to any personally identifiable information to those who require it to perform their duties and who follow the Privacy Act of 1974 (5 U.S.C. § 552a).

6.4.1.2. When appointing employees outside the U.S. who are precluded by local law, treaty, or status of forces agreement from being held pecuniarily liable to the U.S. (see Section 2.0, subparagraph 2.3.3.4), make an appropriate comment in Item 7.

6.4.1.3. Appointees acknowledge their appointment in Section III and may not re-delegate their appointed authority.

6.4.1.4. Appointments remain in force until terminated by an appointee's reassignment or for cause. An appointing authority's reassignment does not affect existing appointments.

6.4.1.5. COs who certify vouchers electronically (e.g., Defense Travel System) must submit the DD 577 electronically.

6.4.1.6. COs who certify manual vouchers or submit manual certifications of electronic payments must submit original, manually signed DD 577s (see subparagraph 6.4.1.1) or supplemental documents to support electronic DD 577 submissions.

6.4.1.7. These forms cannot be amended, and pen-and-ink changes are not authorized. Any change (e.g., altering the types of vouchers to be certified) requires terminating the existing appointment and preparing a new one.

6.4.1.8. Terminate appointments using Section IV and submit the DD 577 to all recipients who received copies of the original appointment.

6.4.2. Distribution

6.4.2.1. CO Appointments. Ensure the training required by subparagraph 3.4.1.2 is complete before submission.

6.4.2.2. DAO Appointments. Appointing authorities must ensure the training required by subparagraph 3.5.2 is complete, keep the signed original DD 577s, and send copies to the offices that certify vouchers. Offices and organizations that rely on DAOs must establish and implement mechanisms to identify and communicate with them.

6.5 CERTIFICATION

6.5.1. All payments from appropriated funds must be certified (excluding intra-governmental); see the Government Accountability Office (GAO) Policy and Procedures Manual, section 6.5. Before certifying and submitting vouchers to DOs for payment, COs must review them to ensure the information agrees with all supporting documentation. See Section 10.0, subparagraph 10.4.2 for voucher certification requirements and Volume 1 for records retention policy.

6.5.2. COs certify to (not "for" or "on behalf of") DOs or their agents that vouchers are correct and proper for payment from the appropriations or other funds cited on them or on supporting vouchers, and that the proposed payments are legal, proper, and correct (see subparagraph 6.3.4.2). They may certify individual vouchers or a file of several vouchers (see subparagraph 6.5.3). Manual certifications require the CO's signature and typed or printed name, date, and dollar amount. Submit manually certified vouchers to the disbursing office by mail or fax.

6.5.3. Batch certification attests that a file contains a specified number of payments totaling a specific dollar amount equal to the total of the vouchers in the file, and that each voucher has been certified as correct and proper for payment. Pecuniary liability attaches to the original CO for each payment. The person who certifies the file is pecuniarily liable for vouchers in that file not previously individually certified. Once a file is input, a DO processes each payment separately.

6.5.4. More than one CO may be involved with a given payment; this is "successive certification." The successive CO's actions do not diminish the responsibility of the officer who certified the original voucher. If the officer who certifies an additional related voucher differs from the one who certified the original, the first CO is pecuniarily liable for the correctness of the original voucher and the successive CO is pecuniarily liable only for the additional voucher(s). If a voucher is certified and then changed (e.g., to take a discount or add interest penalties), the CO certifying the legality, propriety, and correctness of the changes is pecuniarily liable only for the payments based on those changes.

6.5.5. Altering a certified voucher invalidates the certification. A DO who determines that a certified payment voucher is improper must return it for correction and a new certification. However, post-payment printing and scanning of paid vouchers that were properly certified electronically do not invalidate the original certifications.

6.5.6. Translation of accounting data for a certified voucher is acceptable as long as the correct appropriation or funds involved align with the appropriation or funds cited on the legal obligation to make the payment (e.g., a contract). The translation process must be auditable and reliable, so the certified line of accounting can be mapped to the translated line of accounting. See Volume 1 for more on data translation. DOs and COs may rely on data from reliable automated systems certified as FFMIA-compliant.

6.6 RANDOM REVIEW OF DISBURSEMENT VOUCHERS

6.6.1. Payment review officials are not subject to pecuniary liability because they are not in accountable positions. State their responsibilities in their position descriptions and performance standards, or appoint them by means other than a DD 577.

6.6.2. Examination Requirements

6.6.2.1. Title 7 of the GAO Manual, which implements 31 U.S.C. § 3521(b)(1), requires pre-payment examination of payments over $2,500. For payments of $2,500 or less, statistical sampling procedures may be used instead of examining all payments (see subparagraph 6.6.3). Several publications provide guidance on statistical sampling and pre- and post-payment reviews, including GAO/Accounting and Information Management Division report 21.3.2 (May 2000), Streamlining the Payment Process While Maintaining Effective Internal Control; OMB Circular No. A-123, Management's Responsibility for Enterprise Risk Management and Internal Control; and Appendix C to OMB A-123, Requirements for Effective Estimation and Remediation of Improper Payments. GAO reports provide examples for the pre- and post-payment phases, but no single procedure suits every type of disbursing system.

6.6.2.2. Pre-payment reviews may occur any time before payment, at the stage of the voucher-preparation process management judges most appropriate. These reviews ensure vouchers are substantiated by documentation for lawful and proper payment; under manual processing systems, they include verifying the accuracy of computation.

6.6.2.3. Pre-payment review officials who determine that proposed or actual certified payments are of questionable legality, propriety, or correctness must send inquiries to the COs challenging the decision to certify those payments and must keep files of these inquiries and any received from other sources. Inquiries must be resolved within 30 days.

6.6.3. Statistical Sampling Plans

6.6.3.1. DoW Components may use statistical sampling plans for vouchers not exceeding $2,500. Agencies must establish their own dollar limitations within that maximum, based on a cost/benefit analysis of their voucher-examining operations. A CO who uses an approved pre-payment statistical sampling procedure and reviews only the sampled vouchers as a basis for certification must identify the vouchers selected for review. A DoW Component that determines an alternate voucher-examining plan is required must send a written request through the Director, DFAS, to the USD(C) for approval under subparagraph 6.6.3.3. The request must identify the reason for the alternate plan, including a description of the plan, alternate statistical sampling procedures, and a business case showing savings without jeopardizing the Government's interest.

6.6.3.2. Sampling plans must be statistically valid and adhere to technical guidelines in professional Federal and non-Federal texts and publications. Each plan must include the purpose, scope, review frequency, a definition of the population from which the sample will be selected, the sample size and element selection method, procedures to analyze the sampled records, and methods to document and report the results. Sampling plans require review and approval (in most cases, original preparation) by qualified statisticians before submission for final approval. Review and update them periodically to reflect the most recent occurrence-rate trends and to allow population estimates within predetermined sampling probability and precision levels.

6.6.3.3. The Director, DFAS, or designee approves statistical sampling plans for payment vouchers DFAS processes and ensures their implementation at locations for which DFAS is responsible. The USD(C) approves statistical sampling plans for other DoW Components, whose officials ensure implementation.

6.7 PECUNIARY LIABILITY

6.7.1. COs and DOs, but not DAOs, are automatically pecuniarily liable when a fiscal irregularity occurs, based on the "presumption of negligence" under 31 U.S.C. § 3527. A fiscal

irregularity is either a physical loss of cash, vouchers, negotiable instruments, or supporting documents, or an erroneous (e.g., illegal, improper, or incorrect) payment. Physical losses generally apply only to DOs and their agents. Under 28 U.S.C. § 2512, DOs must prove they were neither negligent nor the proximate cause of the irregularity to gain relief of liability. See Section 7.0 for policy on relief and liability of accountable officers.

6.7.1.1. Under 31 U.S.C. § 3325, DOs are pecuniarily liable for payments not made per the vouchers certified to them and for errors in their accounts. DOs who make payments per the certifications of properly appointed COs may be relieved of their liability.

6.7.1.2. Under 31 U.S.C. § 3528, COs are pecuniarily liable for payments resulting from improper certifications.

6.7.1.3. DAOs are not subject to the presumption of negligence but may be held pecuniarily liable under 10 U.S.C. § 2773a(c) for illegal, improper, or incorrect payments resulting from information, data, or services they negligently provide to COs and on which the COs relied to certify payment vouchers. A DAO's pecuniary liability for such losses to the U.S. may be individual or joint and several with that of other liable U.S. officers, employees, or members of the uniformed services.

6.7.2. Under 31 U.S.C. § 3521(c), COs and DOs who pursue diligent collection action are not pecuniarily liable for payments on vouchers in a population subject to sampling but not reviewed. See Section 7.0, paragraph 7.5, for a fraudulent or suspected fraudulent payment.

7.0 PHYSICAL LOSSES OF FUNDS, ERRONEOUS PAYMENTS, AND OVERAGES

7.1 GENERAL

7.1.1. An accountable official is a member of the U.S. Armed Forces or a DoW civilian employee responsible for or having custody of government funds. Accountable officials include certifying officers and departmental accountable officials (DAO) and disbursing officers (DOs), deputy DOs (DDOs), cashiers, imprest fund cashiers, change fund custodians, paying agents, and collection agents. Accountable officials are personally liable for the physical loss or improper payment of funds for which they are accountable unless granted relief. The Secretary of War decision to grant or deny relief is binding. The Secretary of War has delegated authority to the Director, DFAS, to determine whether to grant or deny all requests for relief of liability, and the Director, DFAS, has re-delegated this authority to the Director of Strategy, Policy and Requirements (DFAS-ZP).

7.1.2. All accountable officials are subject to the pecuniary liability standard under Title 31, U.S.C. Except for the DAO, an accountable official's basic legal liability arises

automatically by virtue of the loss, regardless of fault or negligence. Relief is a separate process that considers the official's lack of fault or negligence, to the extent authorized by the following:

7.2 DEFINITIONS

7.2.1. A physical LoF can be minor or major. A minor loss is a physical loss of less than $750 without evidence of theft or fraud within the disbursing office.

7.3 DISCOVERY OF PHYSICAL LOSS OR ERRONEOUS PAYMENT

Any person who believes an official entrusted with public funds is misusing those funds, or who suspects a fraudulent erroneous payment, must notify the Commander having jurisdiction over the alleged offender within 24 hours of discovery. A physical LoF does not initially affect the DO's Cash Treasury Account Symbol (TAS). The LoF is maintained as part of the DO's accountability and does not affect that balance until recovery, recoupment, or relief of liability is granted.

7.4 PHYSICAL LOSSES

7.4.1. Responsibilities

7.4.1.1. On notification of a possible loss, the DO must:

7.4.1.1.1. Report the loss in writing to the Commander if the loss is not resolved within 24 hours of discovery and is a major physical loss; and

7.4.1.1.2. Request the Commander to direct an immediate audit of all disbursing assets by a Cash Verification Team, per Appendix A, to confirm that a loss has occurred.

7.4.1.2. On notification of a possible loss, the Commander must request that the Cash Verification Team audit the DO's account. If the discrepancy is not resolved and qualifies as a major LoF, report the loss to the DFAS LoF Team within 24 hours, sent to the Disbursing Policy mailbox (dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil) or by mail to the LoF Team, DFAS Accounting and Finance Policy Division, DFAS Indianapolis (DFAS-ZPTC), Location 211X, 8899 E. 56th Street, Indianapolis, IN 46249. When the Commander commands the DDO, agent, or cashier, a copy of the report must be provided to the DO.

7.4.2. Accounting for Physical LoF

7.4.2.1. All physical losses, major or minor, discovered in the DO's account, including those incurred by deputies, agents, cashiers, imprest fund cashiers, and change fund custodians, must be recorded on the DD 2657 using an Optional Form (OF) 1017-G, Journal Voucher, to document the movement of money from one line to another. All losses must continue to be shown on the DD 2657 and the Standard Form (SF) 1219, Statement of Accountability, until the loss is recovered, recouped, or relief of liability is granted. Foreign currency loss must be converted and recorded in U.S. Dollar equivalent (USDE) using the exchange rate at the time the loss occurred.

7.4.2.2. Forward the DD 2667 to the LoF Team within 5 calendar days after the end of each month, sent to the Disbursing Policy mailbox (dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil) or by mail to the LoF Team, DFAS Accounting and Finance Policy Division, DFAS Indianapolis (DFAS-ZPTC), Location 220V, 8899 E. 56th Street, Indianapolis, IN 46249.

7.4.2.3. Physical losses of funds incurred by DDOs, disbursing agents, cashiers, paying agents, collection agents, imprest fund cashiers, or change fund custodians are physical losses within the agent's accountability documents. The DO must be notified of all physical losses as soon as possible, must reduce the DD 2657 for that agent, and must record the loss on the cumulative DD 2667.

7.4.2.4. For a change fund or imprest fund loss, the DO must record the amount of the loss on the DD 2667 and DD 2657.

7.4.2.5. For a counterfeit currency loss, the DO must record the amount of the loss on the DD 2667 and DD 2657.

7.4.3. An investigation is required for all physical LoF unless the loss is recouped, recovered, or paid back.

7.4.3.1. The type of loss determines the type of investigation required.

7.4.3.1.1. For a loss of $300 or less with no fraud, the DO or DDO (if the DO is not co-located with the DDO) conducts the investigation and completes the written investigatory report. If the loss is attributable to the DO, the primary DDO conducts the investigation and the report. Under no circumstances may the official incurring the loss prepare their own written investigatory report. In all cases, the report must be completed and submitted to the DFAS LoF Team within 30 days from discovery of the loss.

7.4.3.1.2. For a loss over $300 with no fraud, the Commander must appoint an IO to conduct the investigation and complete the written investigatory report. The appointed

official must be someone other than the DO or disbursing office personnel (for example, a member of the Cash Verification Team) and must have knowledge of disbursing office operations, especially the required internal controls, pertinent laws, and applicable directives. In all cases, the report must be completed and submitted through the Commander to the DFAS LoF Team within 30 days from discovery of the loss.

7.4.3.1.3. An IO must be appointed to conduct a formal investigation of a major physical loss.

7.4.3.1.3.1. The following individuals have the authority to appoint an IO: the Commander of the DO who incurred the loss; and for DFAS sites, the Director of the DO who incurred the loss.

7.4.3.1.3.1.1. When the accountable official and the DO are not in the same location, the Commander over the accountable official must appoint the IO.

7.4.3.1.3.1.2. When the Commander is not authorized to convene an investigation, the Commander must request an investigation through the chain of command.

7.4.3.1.3.2. The Commander must provide a copy of the official appointment notification to the DFAS LoF Team within 5 days of appointment.

7.4.3.1.3.2.1. The investigation must be completed and submitted to the DFAS LoF Team within 90 days from discovery of the loss.

7.4.3.1.3.3. An IO must be a commissioned officer (O-3 or above) or a civilian employee senior in rank or grade to the person(s) under investigation and must:

7.4.3.1.3.3.1. Not have a vested interest in the outcome of the investigation.

7.4.3.1.3.3.2. Not be in the chain of command of the DO or accountable officials involved in the irregularity; and

7.4.3.1.3.3.3. Have knowledge of financial accounting controls and pertinent laws and directives. Use Comptroller personnel only when there is no feasible alternative to appoint an IO from another organizational element. The comptroller, staff judge advocate, or DFAS Office of General Counsel (DFAS-HG) must provide technical guidance to IOs who lack extensive investigative or financial backgrounds.

7.4.3.1.3.4. If the IO recommends denial of relief to the DO or any other accountable official(s) pecuniarily liable for the loss, the IO must provide a copy of the report to those officials.

7.4.3.1.3.5. The IO must report the status of the investigation every 30 days through the Commander to the DFAS LoF Team.

7.4.3.1.3.6. When extraordinary circumstances require an extension to complete the ROI, the IO may request an extension from the Commander. The Commander must notify the DFAS LoF Team of any authorized extensions.

7.4.3.1.3.7. Unless granted an extension, the IO must submit the ROI through the Commander (who appointed the IO) to the DFAS LoF Team within 90 days after discovering the loss.

7.4.3.1.3.8. Upon receiving the ROI from the IO, the Commander must:

7.4.3.1.3.8.1. Immediately review the ROI for compliance;

7.4.3.1.3.8.2. Determine if the ROI is complete; if not, return it to the IO explaining the discrepancies and request further documentation or information. The Commander must notify the DFAS LoF Team if the ROI cannot be completed and submitted within 90 days from discovery of the loss.

7.4.3.1.3.8.3. The Commander must forward to the DFAS LoF Team any documentation or information that becomes available after the ROI has been forwarded. If there is evidence of fraudulent or wrongful conduct under investigation by authorized law enforcement, the investigative entities may request the Commander to withhold the report until their investigation is complete. If so, the Commander must continue to follow up on the status of their investigation and advise the DFAS LoF Team of the status every 30 days. Copies of the investigative reports may be added as exhibits before forwarding the report through the chain of command to DFAS.

7.4.3.2. DFAS LoF Team (DFAS-ZPTC) must

7.4.3.2.1. Review the ROI upon receipt; and

7.4.3.2.2. Forward the final decision to the appropriate individuals and, where individuals are held liable, must inform them of their right to submit a rebuttal.

7.4.4. Funding

7.4.4.1. Appropriated funds must be made available to remove the deficiency from the DO's SF 1219 if the losses are not recovered. This includes when relief of liability is denied and recoupment cannot be made from the accountable official, or when relief of liability is granted.

7.4.4.1.1. If the accountable official responsible for the LoF was a DFAS employee or a military member assigned to DFAS when the loss occurred, DFAS must identify the necessary appropriation and funding to resolve the loss.

7.4.4.1.2. If the accountable official responsible for the LoF was a military member or employee of another DoW Component when the loss occurred, that DoW Component must identify the necessary appropriation and funding to resolve the loss.

7.4.4.2. The DO must clear the LoF from the DD 2667 and DD 2657 based on the instructions given by DFAS.

7.5 ERRONEOUS PAYMENTS (ILLEGAL, INCORRECT, AND IMPROPER)

7.5.1. Responsibilities

7.5.1.1. Upon notification of a fraudulent or suspected fraudulent erroneous payment, the Commander must:

7.5.1.1.1. Notify the DFAS LoF Team within 24 hours of notification, through the chain of command;

7.5.1.1.2. Appoint an IO to conduct a formal investigation;

7.5.1.1.3. Ensure the investigation is completed and forwarded to the DFAS LoF Team within 90 days from the appointment of the IO.

7.5.1.2. Upon notification of a fraudulent or suspected fraudulent erroneous payment, the DO must:

7.5.1.2.1. Determine if the erroneous payment occurred due to fraudulent actions of accountable officials under the direct cognizance or control of the DO and, if so, prepare a DD Form 1131, Cash Collection Voucher, transferring the amount of the fraudulent payment back into the appropriation from which it disbursed, increase the DD 2657 if the loss is a predecessor loss, and record the loss on the DD 2667.

7.5.1.2.2. If the erroneous payment occurred due to fraudulent actions of individuals not under the direct cognizance or control of the DO, the payment(s) must remain charged to the appropriation originally charged.

7.5.1.3. Upon notification of an erroneous payment, the certifying officer must:

7.5.1.3.1. Ensure collection action is taken against the recipient of the payment, per Volume 16. This may require submission of the debt to the DO or other responsible area.

7.5.1.3.2. Notify the Commander if the recipient of the erroneous payment does not voluntarily repay the amount owed.

7.5.1.4. The DO does not need to take any action if the erroneous payment was properly certified.

7.5.1.5. If the erroneous payment was not properly certified:

7.5.1.5.1. The DO must ensure collection action is taken against the recipient of the payment, per Volume 16. This may require submission of the debt to another responsible area. If the erroneous payment is recouped from the recipient, collect the proceeds into the appropriation originally charged, unless the appropriation is canceled. If the appropriation is canceled, refer to Volume 4 for disposition of the collection.

7.5.1.6. Upon notification of an erroneous payment, the Commander must:

7.5.1.6.1. Determine whether a formal or an informal investigation is required;

7.5.1.6.2. Appoint an IO; and

7.5.1.6.3. Ensure the investigation is completed and submitted to the DFAS LoF Team.

7.5.2. Investigation of Erroneous Payments

7.5.2.1. Formal investigations are required when:

7.5.2.1.1. Fraud is suspected on the part of the payee, disbursing office personnel, certifying officer, or any other accountable official; or

7.5.2.1.2. The Commander determines it to be necessary.

7.5.2.2. The investigation must be submitted to the DFAS LoF Team through the Commander who appointed the IO within 90 days of the IO's appointment.

7.5.2.3. The IO must prepare investigatory comments.

7.5.2.4. The investigation must be submitted to the DFAS LoF Team within 60 days of the Commander's notification of the erroneous payment.

7.5.3. When feasible, all actions required to reach a determination of liability for a LoF due to an erroneous payment should be completed within 3 years after the SF 1219 is certified.

7.5.4. Generally, the DO will not carry an erroneous payment as a LoF on the SF 1219, because an appropriation was charged when the payment was disbursed. Exceptions to this general rule occur when Treasury applies check-issue overdrafts against a disbursing station symbol number, or when an accountable official under the direct cognizance or control of the DO made a fraudulent payment.

7.5.4.1. If the erroneous payment is recovered from the recipient, credit the amount recouped or collected to the appropriation initially charged, unless the appropriation is canceled. Refer to Volume 4 for disposition of the collection of a canceled appropriation.

7.5.4.2. If the erroneous payment cannot be recovered from the recipient and relief of liability has been denied, the loss must be collected from the DO, certifying officer, and/or accountable official(s) involved. Credit the collection proceeds to the appropriation originally charged unless the appropriation is canceled. For disposition of the collection of a canceled appropriation, refer to Volume 4.

7.5.4.3. The amount of the erroneous payment must remain charged to the appropriation it originated from when: relief of liability is granted, or recovery attempts from the recipient are unsuccessful.

7.5.4.4. If an adjustment to the appropriation account to which the payment was charged is necessary, the amount of the erroneous payment must be charged as stated in 31 U.S.C. § 3527(d)(1).

7.5.5. Retain all documents with the facts of the case to ensure proper response to audits conducted by the Government Accountability Office.

7.6 REQUEST FOR RELIEF

7.6.1. Requests for relief must be in the form of a memorandum and submitted within 30 days after the investigation is completed. A copy of the IO's report must be attached to the request for relief. Erroneous payments paid through the Treasury Direct Disbursing process follow the same process as those paid through a DoW disbursing office. Accountable officials must submit their request for relief as follows.

7.6.1.1. DOs. Submit the request for relief through the Commander or DFAS site director to the DFAS LoF Team.

7.6.1.2. DOs Settling Accounts of Former DOs. Submit the request for relief on behalf of a former DO to the DFAS LoF Team.

7.6.1.3. DDOs, Disbursing Agents, Cashiers, Certifiers. Submit requests for relief through the DO responsible for the account to the DFAS LoF Team.

7.6.2. Evidence Required for Granting Relief

7.6.2.1. An accountable official is strictly liable for any erroneous payment or physical LoF placed in the official's care, subject to relief of liability. If the Government establishes that a loss has occurred, strict liability applies to the accountable official involved. The accountable official bears the burden of proving that it is more likely than not that the official: was not negligent; or official's fault or negligence was not the proximate cause of the loss.

7.6.2.2. Generally, the findings of a related court of inquiry, investigation, court-martial, or other proceedings (including endorsements) will provide the information required for the loss. When such information is not available, the requestor must supply the required information for consideration in the request for relief and/or the forwarding endorsements. Failure to include all required information could contribute to unfavorable consideration of a request for relief.

7.6.2.3. Each addressee in the requestor's chain of command (including the DO) must provide a forwarding endorsement. The endorsement must include a specific opinion as to whether the loss occurred while the accountable official was in the line of duty and regarding fault or negligence, and a specific recommendation on granting or denying relief.

7.6.3. The general authority to relieve accountable officials from liability of a physical loss is stipulated in 31 U.S.C. § 3527.

7.6.4. The general authority to relieve accountable officials from liability of an erroneous payment is stipulated in 31 U.S.C. § 3527(b)(1)(B), which incorporates by reference 31 U.S.C. § 3528(b)(1)..

7.7 DECISIONS ON LIABILITY

7.7.1. If relief is granted, the DFAS LoF Team will provide a memorandum with instructions for removing the deficiency or authority to leave the payment charged to the original appropriation.

7.7.2. If relief is denied, the DFAS LoF Team will advise the accountable official(s) of the decision and of their right to submit a rebuttal. The rebuttal must be submitted to the DFAS LoF Team within 30 days of notification of the adverse determination. Based on the additional information received, the team will recommend to the Director, Strategy, Policy and Requirements, through the DFAS Office of General Counsel, whether to affirm or reverse the previous decision.

7.7.2.1. If the decision is reversed, the DFAS LoF Team will advise the accountable official(s) accordingly and provide the DO instructions for removal of the LoF or authority to leave the payment charged to the original appropriation.

7.7.2.2. If the decision stands, the DFAS LoF Team will advise the Commander and/or DO to take immediate collection action against the accountable official(s). Cash recouped from a loss and retained for future operating use does not impact the DO Cash TAS balance. Volume 16 provides guidance for completing collection of irregularities.

7.8 OVERAGES OF PUBLIC FUNDS

7.8.1. Do not offset an overage of funds against a physical LoF unless the relation between the two is obvious (e.g., foreign currency on hand is short and U.S. currency on hand is over by equal USDE amounts). Do not offset overages against shortages if the shortage and overage occur on different business days. An overage of funds must be collected into the DO's accountability and reported by CTA transactions to Treasury's Budget Clearing Account (Suspense), F3875, citing the collection Business Event Type Code (BETC) along with the DO Cash TAS/BETC. If the proper location of the overage cannot be determined, the overage must be transferred to Treasury's Forfeiture of Unclaimed Money and Property, R1060, using a CTA transaction. Track overages by recording each occurrence on a separate DD 2667, maintained specifically for overages. Start a new DD 2667 for overages at the beginning of each quarter.

7.8.2. Overages of funds that are $750 or more must be reported to the Commander. However, unless there is an indication of fraud or other criminal act, there is no requirement to report or investigate as in losses of funds. A copy of the DD 2667 must be retained with the original voucher transferring the funds to the R1060 account.

8.0 U.S. TREASURY CHECKS

8.1 POLICY

8.1.1. Drawing and Dating Checks

8.1.1.1. Inscribe checks drawn on the Treasury to the payee by name, or to a financial institution for credit to the named payee's account, except for checks drawn as exchange-for-cash. Never make a check payable to "Cash."

8.1.1.2. DOs must not issue checks in payment of salaries before completion of the service for which payment is made or before the scheduled payday, unless authorized (for example, advance pay). A DoW Component may mail checks to payees before a military or civilian payday to ensure payments are available when due. When mailing a check before payday, do not date it before the scheduled payday. Agencies using this delivery method must have internal controls that alert the DO when a payee becomes ineligible for scheduled pay (for example, unauthorized absence or separation) and ensure pay intercept procedures can be initiated.

8.1.1.3. A check may be drawn to the order of a legal representative of the estate of a deceased person (for example, "John K. Smith, Executor of the estate of James R. Jones"). Do not make a check payable "to the estate of" a decedent or to a deceased person.

8.1.1.4. A check may be drawn to the order of a legally appointed committee, guardian, or other legal representative of a mentally incompetent payee when specifically authorized (see Volumes 7A).

8.1.1.5. The payee may authorize another person to receive a Treasury check by a specific power of attorney that clearly states the holder is entitled to receive the check on the payee's behalf. The person receiving the check signs his or her own name on the voucher followed by "Attorney-in-Fact for" and the name of the person granting the power of attorney. The DO verifies the holder's identity and keeps a copy of the power of attorney. Process payments to a power of attorney holder that require "secret" or "confidential identity" using a cover voucher insert. Transmit a copy of the original voucher and of the power of attorney to the supporting DFAS site for handling and storage.

8.1.1.6. Signing blank checks is prohibited.

8.2 PROCUREMENT OF TREASURY CHECKS

8.2.1. The DFAS Enterprise Solutions and Standards Directorate's Tax and Disbursing Division (DFAS-IN/JTDCO) is the sole check sourcing agency for DoW activities. Contact DFAS-IN/JTDCO for current check formats, the procedure for obtaining check stock, and advice on alternative payment methods (DFAS-IN, 8899 E. 56th Street, Indianapolis, IN 46249-2700; dfas.indianapolis-in.jjf.mbx.ess-disbursing@mail.mil). To ensure continuity of operations, DOs must not allow check stock to fall below a 6-month supply, must seek replenishment at the 9-month level, and a DO at a newly established DSSN must request check stock at least 4 months before disbursing operations begin.

8.2.2. Receipt of Treasury Checks

8.2.2.1. If a check shipment contains more than one check with the same serial number, in addition to notifying DFAS-IN/JTDCO, the DO must destroy each check bearing a duplicate number. Because the remaining checks bearing those serial numbers may be issued normally, do not report the duplicate check serial numbers as zero-dollar amounts in the check issue report. Mark the duplicate numbered checks "Void - Not Negotiable" and destroy them locally within 30 days.

8.2.2.2. If checks are discovered missing during receipt verification or at any time thereafter, notify both DFAS-IN/JTDCO and the nearest DoW Component investigative service for referral and liaison with the U.S. Secret Service (USSS).

8.2.3. Count checks transferred between DOs as part of the relief from disbursing duty process by both the transferring and receiving parties when they are not in the original packages (see Section 3.0, subparagraph 3.4.6.1.3).

8.2.4. Security, Storage, and Issuance of Blank Checks

8.2.4.1. Store blank Treasury checks in a secure container (see Section 4.0, paragraph 4.2) in the DO's or deputy DO's (DDO) safe or under lock and key. The DO or designee ensures storage conditions prevent deterioration of the check surface tint and design, which are sensitive to moisture, light, and heat, and may accept checks of satisfactory color and strength and obtain a replacement supply if deterioration occurs later. Give only one individual primary responsibility for maintaining the check stock and related control records, and limit others' access to occasions when the designated custodian is absent.

8.2.4.2. The DO or designee maintains control of the check stock and is always accountable for it. Under joint custody, the DO or designee ensures no break in accountability occurs, providing access to the check stock during brief or unexpected absences of the individual with normal day-to-day responsibility for it.

8.2.4.2.1. The DO or designee maintains a blank check control log for each series of checks to keep a perpetual inventory of checks on hand and control their release. The DO or designee must examine the log daily to ensure all checks drawn and returned unused are accounted for and that no checks have been removed without authority.

8.2.4.2.2. Use the prescribed blank check control log:

8.2.4.2.2.1. The DO or designee issues blank checks to check writers from the check stock in blocks of appropriate size by serial number and monitors the return of blank, voided, or spoiled checks to the vault. The DO or designee also uses the control log to

control issuance and return of checks between the DO and sites external to the disbursing office that prepare checks.

8.2.4.2.2.2. The DO or designee must obtain receipts for checks issued. The designee in charge of working checks must keep a record of checks issued daily to each clerk, examine daily the record of checks drawn and returned unused to account for checks issued, and ensure no checks are removed without authority.

8.2.4.2.2.3. The DO or designee must inventory the check stock at least once every 90 days. Count individually the checks in any open container, and open and individually count any damaged or tampered cartons. Keep a record of the on hand inventory in the disbursing office and provide it to the cash verification team for attachment to the quarterly cash verification report (see Appendix A).

8.2.4.2.3. When blank checks are lost or stolen:

8.2.4.2.3.1. The DO or designee immediately notifies the Commander, the nearest USSS office (by email or telephone), and Fiscal Service at (304) 480-7777. Confirm by letter to Fiscal Service's Physical Security Branch, 6505 Belcrest Road, Suite 613, Hyattsville, MD 20782, with copies to the USSS, the appropriate DoW Component investigative service, DFAS-IN/JTDCO, and appropriate local banks. Include the DSSN, the ICNs or serial numbers of the checks, complete information on the loss or theft, and the date the loss was referred to the USSS for investigation.

8.2.4.2.3.2. If the loss involves a range of consecutive serially numbered checks, report only the beginning and ending serial numbers of the range. Void all checks discovered missing, lost, or stolen before issuance, and report the circumstances per I TFM 4-5040.20.

8.3 ISSUANCE OF TREASURY CHECKS

8.3.1. Check Preparation

8.3.1.1. Issue checks in strict numeric sequence within each series. Essential check information includes place and date of issue, DSSN, serial number, payee, amount, drawer signature, designation of title, and other identifying information. Do not print legends such as "Salaries and Expenses" or "Drawn for Above Object" on the face of a check. Check explanations (for example, exchange-for-cash or salary) and other special information unique to a disbursing activity may be entered at the bottom of the check to the left of the signature area; keep extraneous data to a minimum. Use spaces on the printed check form only for their intended purposes, and

do not leave any space unfilled in a manner that would allow or facilitate alterations or additions that could lead to forgery or fraud.

8.3.1.2. A completed check must have an orderly appearance and good legibility for accurate reading in rapid handling; avoid overprinting, intersecting, and crowding. No check may be issued for more than $99,999,999.99; when the total payment exceeds that amount, issue two or more checks totaling the required payment. No deviation in check writing procedures is permitted unless authority is first obtained from DFAS-IN/JTDCO (see I TFM 4-5000).

8.3.2. Check Print Requirements

8.3.2.1. Data printed or typewritten on checks must be permanent and unaffected by erasure, smudging, moisture, handling, the passage of time, or other methods that might intentionally or unintentionally remove or alter the printing without affecting the check itself.

8.3.2.1.1. Impact printers may be used. Laser printers that fuse the toner into the check may be used. Do not use laser printers that only lay an image on the paper surface. Do not use correctable ribbons for manual check preparation, as they lack the permanence required to protect against undetectable alteration.

8.3.3. DOs must not release checks with erasures, alterations, overprinting, or imperfect figures or letters. Spoil or void such checks and issue replacements.

8.3.4. Each DO must maintain a record of checks issued under their DSSN. The record must contain at least these data elements: payee, amount, DSSN, check serial number, and date of the check. Other information (purpose, document number, voucher number, local identification code) is optional and at the issuing DO's discretion. The record may be kept on paper or an electronic medium designed for data processing.

8.4 CHECK-SIGNING MACHINES

8.4.1. Select check-signing machines that meet Treasury regulations and standards (see I TFM 4-5045.20). Impact check signers using rubber signature dye, or approved laser check printers containing digitized signatures, may be used. The machines must have the following features:

8.4.1.1. Use a key controlled DO signature feature or a removable computer chip containing the digitized signature for laser check printers with digitized facsimile signature capability. Keep the key or the chip controlling the signature capability in a locked safe or vault, or under other equally effective safeguards, when not in use.

8.4.2. Signature Media

8.4.2.1. Normally, a DO and authorized DDOs use only one signature medium. A DO or DDO may obtain multiple signature media only with DFAS-IN/JTDCO approval, and requests for additional media must include justification of the need. If the check-signing machine uses one set of two plates for signing, additional media require DFAS-IN/JTDCO approval.

8.4.2.2. DFAS-IN/JTDCO will not accept facsimile signatures that do not meet required standards. Design facsimile signature media so that the frame or border enclosing the facsimile signature is a single wavy line containing no identifying characteristics. The signature impression must have sharp lines, a continuous and homogeneous deposit of ink, no filling, and no pronounced ribbon pattern.

8.4.2.3. After receiving the signature media, the DO whose signature is reproduced runs 14 specimens of each facsimile signature, certifies two copies as true facsimiles, and mails all 14 copies to DFAS-IN/JTDCO with a memorandum requesting approval of the facsimile to sign checks. The approval reply authorizes use of the check-signing machine. If the specimens do not match, or the medium does not meet required standards, DFAS-IN/JTDCO advises DFAS-IN/ZTA and requests correction. Do not sign checks by facsimile signature before receiving DFAS-IN/JTDCO approval.

8.4.2.4. The DO must establish and implement controls to prevent unauthorized use of signature media. Maintain custody receipts for all signature media held by authorized deputies, keep a record of each run of checks through the check signer, and reconcile that record with the report of checks issued. When not in use, keep signature media in an approved safe or vault. If the signature media are not removable from the check-signing machine, keep the machine keys in an approved safe or vault.

8.4.2.5. Only the DO or designated DDOs should sign checks using signature media. When necessary for efficient operation of the disbursing office, the DO may authorize, in writing, the holder of a specified position other than a DDO to perform this function. Do not appoint individuals as DDOs solely to sign checks by signature media.

8.4.2.6. If a signature medium is withdrawn from service (for example, it will not be used again, the DO is retiring, or the medium is unserviceable), destroy it locally. The destruction must be performed by someone other than the DO and witnessed by two individuals equal to or senior in rank to the DO.

8.4.2.6.1. Before destruction, the DO verifies the signature plate number or the serial number of the digitized signature medium and witnesses the information on the certificate of destruction.

8.4.2.7. If a digitized medium containing the DO's signature is destroyed and that signature had been loaded to a printer or check signer software, the DO verifies that the signature has been permanently removed from the printer or check signer software. The destruction must be performed by someone other than the DO and witnessed by two individuals equal to or senior in rank to the DO. The DO signs the certificate of destruction only after the medium is actually destroyed. Immediately after destruction, give the certificate identifying the specific plate and date of destruction to the DO and to the federal entity official responsible for maintaining specimen signature files. Follow applicable federal and industry information technology regulatory requirements and standards when destroying an electronic file of a facsimile signature (see I TFM 4-5025.20).

8.5 PROMPT DELIVERY OF CHECKS

8.5.1. Once checks are prepared, deliver them promptly to payees. DoW requires participation in the direct deposit program for all newly enlisted, reenlisted, appointed (commissioned), or retired military personnel and all newly hired civilian personnel. Title 31, U.S.C. § 3332 requires that contractors be paid by EFT.

8.5.2. Safeguarding and Handling

8.5.2.1. Properly safeguard checks, handling them as few times and by as few people as practical.

8.5.2.2. Ensure proper custody, signing, and delivery of checks. If checks are handed to payees, require that payees identify themselves. Use the payee identification process in Section 10.0, subparagraph 10.4.3.

8.5.2.3. Promptly return to the disbursing office any checks not delivered within the time the DO specifies.

8.5.2.4. Keep checks in a safe, vault, or locked fireproof cabinet pending distribution or return to the DO.

8.5.2.5. Designate in writing the personnel engaged in pay delivery activities and supervise them to help prevent unauthorized, fraudulent, or other irregular activities.

8.5.3. The normal method of check delivery is by mail through the USPS to payees' residential mailing addresses or post office boxes. At overseas activities, payees' organizational addresses are treated as their residential mailing addresses; organizational addresses are otherwise not valid. When mail delivery is impractical, commanders or their designees may provide specific locations where payees may receive their checks. If checks are mailed to specific locations for

delivery, the DO appoints a person in writing at each location to deliver the checks as a designated third party.

8.5.4. Outside the Continental United States (OCONUS)

8.5.4.1. Under Title 31, Code of Federal Regulations, 211.1 (31 CFR § 211.1), the Secretary of the Treasury prohibits agencies from sending checks to the Republic of Cuba (except to the Naval Base, Guantanamo Bay) and the Democratic People's Republic of Korea (North Korea). DOs instead withhold payment and establish the liability on their books. See the Treasury's Office of Foreign Assets Control website for a complete listing of designated nationals and blocked persons.

8.5.5. Personal delivery of multiple checks may be impractical for the DO, or mailing them to addresses of record may not be expedient. In those circumstances, the DO may deliver or mail checks to a designated third party for distribution. A third party is any individual authorized to distribute a quantity or bulk shipment of checks to payees. A person who maintains pay accounts or prepares checks is not authorized to distribute checks.

8.5.5.1. A DO may appoint individuals to serve as third parties for bulk check delivery; Fiscal Service (FS) Form 210DA, Designation for Agent to Receive and Deliver Checks, is available for this purpose. A DO may appoint one or more alternates to prevent distribution delays when the designee is absent, and alternates may also assist in check distribution when conditions warrant. The DO must ensure appointments are revoked when an appointee transfers, when bulk delivery is no longer needed, or as other circumstances warrant.

8.5.5.2. Package bulk shipments of prepared checks separately from other correspondence and send them by registered mail. Send bulk shipments for a unit or group of units to a third party for distribution or delivery to payees, or reship them to another third party for delivery where the military unit is located. Include the checks, transmittal letter, and documentation needed for the specific payments.

8.5.5.3. Designated third parties may not release checks to anyone other than the designated payee. When payees are absent at the time of delivery, see subparagraph 8.5.5.5 for handling checks.

8.5.5.4. When advance payments are issued for witnesses subpoenaed for trial, a representative from a DoW Component investigative agency, or a judge advocate charged with serving the subpoena, delivers the checks when the payees are absent at the time of delivery.

8.5.5.5. Unless otherwise directed, return checks for payees not present to the DO before the close of business that day. Inform absent payees to call the disbursing office to receive

them. If locked fireproof file cabinets or safes are available, the DO may authorize the designated third party to hold undelivered checks for a specified short period. When payees are on extended leave or absence, return their checks to the DO for disposition. Return checks found to be in error to the DO, and the DO issues a new check to the payee after appropriate corrective action.

8.6 EXCHANGE-FOR-CASH CHECKS

8.6.1. Report all exchange-for-cash checks through PIR, citing the DO Cash TAS and the proper BETC code. Spoiled exchange-for-cash checks not yet reported to Treasury are not affected by daily reporting and must follow the guidance in subparagraph 8.8.1. Resolve spoiled checks already reported to Treasury by one of the following methods.

8.6.1.1. Accommodation exchange-for-cash checks are allowed only when satisfactory banking facilities do not exist, and are typically only OCONUS. In OCONUS areas and for ships afloat, the DO's commander may authorize cashing negotiable instruments (see Section 5.0, subparagraph 5.2.1.2.). DOs may prepare and issue these checks for official purposes to a DDO, agent, or cashier as an advance of cash; to the USPS for remitting collections for the sale of postal money orders; or to Western Union for remitting collections for personal messages of military personnel transmitted over DoW communications facilities to points inside the continental United States (CONUS).

8.6.1.2. The DO issues these checks to advance cash to a DDO, agent, or cashier. Checks issued as advances must be endorsed to the order of the bank or other institution furnishing the cash, or, when cashed by another DO, to that officer by title and activity rather than by name, as "Pay to the order of the Disbursing Officer (name of ship, station, activity, or unit)." Make checks issued to remit collections for the sale of postal money orders or personal messages payable to the DO, USPS, or Western Union, as appropriate.

8.6.1.3. See subparagraph 8.9.5.1. for guidance on disposition of canceled available checks. Deposit exchange-for-cash checks in the Over-the-Counter Channel Application (OTCnet) using the DO Cash TAS.

8.6.1.4. Exchange-for-cash checks that are lost, stolen, or destroyed must follow the unavailable check cancellation (UCC) guidance: enter a Standard Form (SF) 1184, UCC, using the DCRM's UCC subsystem with stop reason code "D" (for stop reason codes, see I TFM 4-7055.20c, Appendix 1) and, on receipt, process a Classification Transactions and Accountability (CTA) transaction reducing both the budget clearing account **F3880 (UCC and Overpayments, Suspense) and the DO cash account.

8.6.2. Do not show the name of the remitter or identifying references to invoices on exchange-for-cash checks. DOs may draw these checks payable to themselves, a DDO, or an agent

to obtain operating cash. When authorized in writing by the DO, DDOs may draw these checks payable to themselves to obtain operating cash.

8.6.3. Cash Belonging to Deceased or Missing Persons

8.6.3.1. Exchange cash found in the personal effects of a person who has died or is missing in action for a Treasury check. Make the Treasury check payable to the payee designated by the officer having custody of the personal effects. State the purpose for which the check is drawn as "Exchange-for-cash; personal effects of (name, rank or rate, file or service number)." Draw a separate check for safekeeping deposits of each person (see Section 17.0, paragraph 17.3).

8.6.3.2. Collect cash found in the personal effects of a person whose whereabouts are unknown, including absentees and deserters, into a deposit fund account. Funds held in a deposit fund for more than 1 year may be transferred to account 20X6133 (Payment of Unclaimed Moneys) or to account R1060 (Forfeitures of Unclaimed Money and Property). Make a separate collection for safekeeping deposits of each person.

8.6.4. Do not cancel exchange-for-cash checks issued for advances to DDOs, agents, or cashiers and returned to the DO as "not required." The payee's endorsement on the check is not required. The DO endorses the check and deposits it as prescribed in Section 12.0, subparagraph 12.6.5. DOs may not accept the return of exchange-for-cash checks from any payee other than a DDO, agent, or cashier. Other exchange-for-cash checks are issued to the purchaser and must be negotiated by the payee.

8.6.5. Exchange-for-Cash Checks Lost, Stolen, or Destroyed

8.6.5.1. When the payee of an exchange-for-cash check reports the check as lost, stolen, or destroyed, the DO follows paragraph 8.10. For UCC, the DO may not issue a recertified payment to the payee before receiving credit for the original check from the Treasury, because the original check was issued in exchange-for-cash rather than for an entitlement chargeable to an appropriation.

8.6.5.2. For lost, stolen, or destroyed exchange-for-cash checks issued to advance cash, the DDO, agent, or cashier remains accountable for the cash.

8.6.5.2.1. The DDO, agent, or cashier accounts for the check as a loss of funds. A DO may replace the lost check with a recertified payment check, or a new advance of cash, if the DO considers it necessary due to operational requirements.

8.6.5.2.2. If the lost check is later negotiated after Treasury cancellation (in which case Treasury reverses the previous credit), the DDO, agent, or cashier is accountable for the original lost check and must re-establish the loss of funds.

8.7 CHECK ISSUE DISCREPANCIES

8.7.1. Treasury accepts only one issue/paid record for any given DSSN and check serial number, and will issue a debit voucher to charge the disbursing office for a second check received for payment with the same DSSN and check serial number. If a DO receives a debit voucher for a duplicate check to which the payee is entitled, the DO requests that NPIRC reverse the debit voucher for the correct check serial number of the duplicate check. The DO must also provide a copy of the debit voucher to NPIRC (see I TFM 4-6040.10).

8.7.2. SF 1219, Statement of Accountability Adjustments

8.7.2.1. A common reason for an SF 1219 adjustment made by the DO is a prior-month check issue adjustment. Do not report prior-month check issues as current-month checks issued, because this causes check issue discrepancies for both issue months. An SF 1219 adjustment is necessary to realign the check issue reporting to the proper issue month.

8.7.3. Underdrafts and overdrafts are illegal, incorrect, or improper payment irregularities in the DO's account. The DO has the authority and the means to correct underdrafts. Overdrafts frequently are not within the DO's power to correct. If a check issue overdraft results in an overpayment of a payee, the overpayment amount is an erroneous payment debt. When the DO has attempted to contact the payee and failed, or the payee has been notified and has neither the ability nor the inclination to make restitution, the DO must transfer the debt to the supporting DFAS site for further collection action. To meet relief of liability standards, the DO must transfer uncollectible overdrafts to the supporting DFAS site within 180 days. After the debt is transferred, the DO may request relief of liability for the illegal, incorrect, or improper payment (see Section 7.0).

8.8 SPOILED AND VOIDED CHECKS

8.8.1. When a check is spoiled during the issue process, the DO must void the check. Spoiled checks are treated as voided checks. The DO must void a check that is misprinted or mutilated during the issue process, or is determined not to be a proper payment and has not been reported as a check issue with a dollar amount greater than zero. The DO must report destroyed unused and lost or stolen blank checks as voids. The DO must render voided checks non-negotiable by typing or stamping the words "Void - Not Negotiable. No Check Issued Under This Number." If a DO cannot report the voided checks as required, it must email Fiscal Service at RRB.OSD-NPIRC-PM@fiscal.treasury.gov (see I TFM 4-6030).

8.8.1.1. A check reported to the Treasury as a valid check in a dollar amount greater than zero may not be voided under any circumstances. The DO stamps the check "Not Negotiable - For Deposit Only. Credit of Agency Location Code ######." The DO deposits the check using OTCnet to credit the proceeds to the appropriation from which it was issued and processes the check as either an available check or UCC, as appropriate, per paragraph 8.9.

8.8.2. The DO must store spoiled and voided checks in the vault or safe, segregated from other checks.

8.8.3. The DO must destroy spoiled and voided checks locally as soon as possible, per the destruction guidance in paragraph 8.14.

8.9 AVAILABLE CHECK CANCELLATIONS

8.9.1. The Competitive Equality Banking Act of 1987 (CEBA) amended 31 U.S.C. § 3328 and created 31 U.S.C. § 3334, which establish time limits on the payability of Treasury checks. CEBA affects the time allowed for negotiating Treasury checks, initiating and processing claims, recovering monies from financial institutions, and requesting replacement check payments. The underlying obligations for which Treasury checks were issued are not affected. CEBA does not impose the same payability restrictions on check payments made from limited depositary accounts. CEBA requires that Treasury checks be negotiated within 1 year of their issue dates. A DO may cancel checks within this 1-year period when the check is drawn under the DO's own DSSN, under the account of a predecessor DO of the same activity and DSSN, or under an account being settled by the DO. A DO may not cancel a check over 1 year old. Checks may be canceled when the disbursing account is closed or current, or the proceeds are for repayment to an appropriation or fund account that is current or expired (see I TFM 4-7030).

8.9.2. Exceptions Include:

8.9.2.1. The DO stamps checks recovered or returned to its possession after being submitted for a UCC with "Not Negotiable, Previously Treated as Canceled SF 1184 dated ######." The DO retains these checks for 90 days and then shreds them. A DO receiving a returned check for an activity or DSSN no longer in operation stamps the check "Not Negotiable" and sends it to the successor or settlement DO.

8.9.3. The DO must keep a record of undeliverable checks on DD Form 2658, Returned and Undeliverable Check/Bond Record. An electronic system is acceptable to record undeliverable checks if it includes all the same information as DD 2658. The DO provides the information or a copy of DD 2658 to agents, cashiers, and appropriate entitlement offices for their use. The DO must not remove undelivered checks from the safe or vault or allow deputies, agents, or cashiers to hold them except for immediate delivery to payees or for cancellation and deposit.

8.9.3.1. DOs must keep undeliverable checks in a safe or vault, filing them in an order best suited for ready identification when claimed, or for mailing upon obtaining a proper address. At a minimum, DOs must:

8.9.3.1.1. Open mail with returned Treasury checks in the presence of two people.

8.9.3.1.2. Limit access to the returned Treasury checks processing area.

8.9.3.1.3. Secure the checks in a locked container if there is a delay between when the checks are received and when they are defaced.

8.9.3.2. The issuing DSSN must promptly cancel checks payable to deceased military members and credit the value to the individual's pay account pending payment to a properly designated beneficiary.

8.9.3.3. When a DO is relieved by another DO, or the DSSN is deactivated and disbursing for that activity is assumed by another activity due to consolidation, transfer of function, or other reason, the relieving DO or gaining activity must assume custody of and process the undelivered checks. If the DO is transferred from disbursing duty without a relief, or the disbursing function is not assumed by another activity, the DO must process the undelivered checks as collections on SF 1098, Schedule of Canceled or Undelivered Checks, and deposit them whether or not the three-workday holding period has elapsed.

8.9.3.4. When canceling a military pay and allowances check, the DO must ensure the adjustment is also processed on the member's Master Military Pay Account.

8.9.3.5. When canceling a check in payment of civilian pay, the DO must notify the payroll office to make the appropriate payroll adjustment.

8.9.4. SF 1098

8.9.4.1. The DO must credit a check that is undelivered, within three workdays of receipt in the disbursing office, to the appropriation originally charged using an SF 1098 prepared in triplicate.

8.9.4.2. If the proper appropriation to be credited cannot be determined immediately, the DO collects the amount of the check into account **F3875 (Budget Clearing Account, Suspense). The DO includes on the SF 1098 all available information on the identity and location of the payee and keeps a copy of the documentation in a separate file to support each item in the suspense account. The DO must act aggressively to identify the proper appropriation and remove the item from the suspense account as soon as possible. If the proper appropriation

remains unknown after 60 days, the DO must transfer the funds to Treasury's miscellaneous receipt account **R1060 on an SF 1081, Voucher and Schedule of Withdrawals and Credits.

8.9.5. Disposition of Canceled Available Checks

8.9.5.1. The DO must ensure each canceled check is defaced by stamping the legend "Not Negotiable" in a color other than black (preferably red) and in a size prominent enough to remove all possibility of negotiation.

8.9.5.2. Checks received for cancellation do not need to be deposited daily but must be canceled within three business days of receipt. These checks may be held in the DO's safe or vault pending preparation of a consolidated deposit ticket. Where check deposit volume is minimal, or where electronic deposits using OTCnet are not available, the DO must send deposits to the Federal Reserve Bank (FRB) no later than the 25th of the month of receipt. Checks received after the 25th of the month may be retained and deposited the following month. All CONUS DOs deposit canceled Treasury checks with the nearest FRB. DOs in Alaska, Hawaii, and foreign countries deposit them with the general depositary normally used for deposits-for-credit to the Treasury's General Account. See Section 12.0, subparagraph 12.8.2. for deposit reconciliation requirements.

8.9.6. When a claim is received for the proceeds of a canceled available check, and all or part of the amount is due to the claimant, the disbursing office that collected and deposited the original undeliverable check pays the claim on payroll or other vouchers prepared, processed, and certified the same as a current payment. This does not preclude the issuing DO from canceling an undeliverable military paycheck so the member may be paid at a new duty station. The DO uses an SF 1034, Public Voucher for Purchases and Services Other than Personal, to make these payments and charges them to the accounting data credited on an SF 1098, referencing the original undeliverable check by serial number, amount, DSSN, month, year, and account in which it was collected. The DO pays claims received for items transferred to the **R1060 account from the 20X1807 (Refund of Moneys Erroneously Received and Covered) account.

8.10 UCC

8.10.1. The DO cancels unavailable Treasury checks less than 12 months old as lost, stolen, mutilated, or not received by the payee, and also cancels when the DO determines the payee is not entitled to the proceeds. To file a non-receipt claim against a Treasury check, the DO must submit a UCC online through TCIS or via file transmission (see I TFM 4-7045.10). Treasury credits canceled checks to account **F3880 through the Intra-governmental Payment and Collection (IPAC) system. The DO uses a CTA transaction to move the funds out of account **F3880 to the proper program TAS, deposit fund account, or DO Cash TAS along with the proper adjustment BETC code. Such situations include death of the payee before the check issue date,

non-receipt of a recertified payment when the original check has been received and cashed, and receipt of both a cash payment and a check payment for the same entitlement.

8.10.1.1. Checks unavailable to the payee or the DO, and for which entitlement to the payment exists, may be replaced by a new check called a recertified payment check. Such a payment bears a new check serial number and is vouchered, certified, and recorded as a new disbursement. The DO must control, cross-reference, and track original and recertified payments indefinitely, or until both have been paid, recovered and destroyed, or canceled.

8.10.2. The DO must maintain DD 2662, Recertified Payment Register, to provide the necessary cross-reference and control over UCCs. An electronic log is acceptable if it contains the same information as the form (see Volume 1, for records retention).

8.10.3. SF 1184

8.10.3.1. An SF 1184 is required for all cancellations. Bulk losses of original checks require the preparation of a separate SF 1184 for each check.

8.10.3.1.1. Use this form to stop payment, obtain photocopies, or check the payment status of unavailable Treasury checks. Input stop reason codes to designate the desired action. Although this form attempts to stop payment on a check, there is no true stop payment action. The payee may still negotiate the check, and the DO is responsible to recoup the money.

8.10.3.1.2. If a check is presented for payment after Treasury has given the DO a credit to the **F3880 account, Treasury reverses the credit and provides the DO the documentation, including a photocopy of the paid check. The DO must then research and take the appropriate corrective action, including collection efforts when dual negotiation has occurred. See Supplemental Guidance, subparagraph 8.11.2. for guidance on preparing and submitting an SF 1184, and paragraph 8.10.8 for handling the credits and reversals of credit in the **F3880 account.

8.10.4. Claims of Non-receipt, Destruction, Loss, or Theft

8.10.4.1. The DO sends the FS 1133, the FS 3858, the photocopy of the check, and any other supporting documentation for the claim to Treasury for processing. If the payee files an FS 1133 to claim forgery or unauthorized endorsement against the check, a recertified payment is not authorized before receipt of a Claims Disposition Notice (CDN) from the Treasury.

8.10.5. DD Form 2660, Statement

8.10.5.1. A payee who reports the loss, theft, mutilation, or non-receipt of a Treasury check must submit a written statement to the DO. DD 2660 is the preferred form for the

required statement, but a DO may accept a signed letter from the payee in lieu of DD 2660, provided the letter contains the required information and the certification statement found on DD 2660.

8.10.5.2. A payee who submits a statement in lieu of DD 2660 must include the payee's name, SSN, and address; the member's name and SSN if different from the payee; type of payment entitlement; whether the check was received and, if so, whether it was lost, stolen, destroyed, or mutilated; whether the check was endorsed by the payee or had a limited endorsement such as "for deposit only"; the circumstances surrounding the loss, theft, destruction, or mutilation if the check was received; and the payee's signed statement of certification. The statement must contain the signed certification statement exactly as cited in blocks 12-15 on DD 2660. Failure to include this statement could hinder collection efforts if a dual negotiation occurs. If the payee negotiated both checks, the statement could also be used to establish fraudulent intent.

8.10.5.3. Upon receipt of the signed statement, the issuing DO or settlement officer completes the information required to identify the check (issue date, check number, amount, and voucher number). Before entering an SF 1184, the DO must verify the check has not been returned as undeliverable.

8.10.5.4. If the check was re-mailed at a later date, the DO notifies the payee of the later mailing date and allows two weeks' delivery time before processing the claim of non-receipt. If the check has not been returned and enough time has passed for mail delivery, the DO uses the information on DD 2660 to enter an SF 1184 for the unavailable check. The DO must not submit an SF 1184 involving non-receipt of future dated checks, such as those issued for pay and allowance entitlements, before the date of payment.

8.10.5.5. The DO must not enter an SF 1184 involving non-receipt until the third working day after the check payment date.

8.10.5.6. The DO sends a copy of the claimant's DD 2660, or other written statement, and a copy of the SF 1184 documentation to the appropriate entitlement area, which must certify that the entitlement for payment still exists before the DO may issue a recertified payment.

8.10.6. DAS

8.10.6.1. Except for the transmittal documents, Treasury returns a DAS on every SF 1184 received. An essential control technique is for DOs to keep a complete file of submitted SF 1184s. Periodic review of the file shows, either by copy of the DAS or by copy of the agency receipt of batch transmittals, that Treasury received and processed all submissions. The DO must

follow up incomplete file items within 30 days through the supporting DFAS site by telephone and, if necessary, by submitting a second SF 1184 (see I TFM 4-7045.20).

8.10.6.2. Once Treasury issues a DAS with a status indicating "check canceled; crediting agency," future requests to cancel or obtain photocopies of the canceled check receive the response "outstanding check was canceled; agency credited." A photocopy of the check is not available until the check is presented for payment through the banking system. Therefore, once a disbursing office has received a DAS with a status code of "Outstanding," no additional SF 1184s may be submitted for that check number. If the original check is presented through the banking system for payment, the DO receives notification that Treasury has reversed the credit to the **F3880 account. Treasury then provides a photocopy of the original check and the claim forms FS 1133 and FS 3858.

8.10.7. Authorization to Issue Recertified Payments

8.10.7.1. Treasury delegates authority to DOs to replace checks they originally issued, including checks lost, stolen, or destroyed in transit or after receipt by applicable payees (see 31 CFR 245 and 31 CFR 248). DOs may issue a recertified payment when the SF 1184 is prepared, based on available facts. Subject to the restrictions that follow, DOs may issue recertified payments as replacements for original checks at any time beginning with submission of the SF 1184. The circumstances of each unavailable check govern this timing.

8.10.7.2. Do not issue a recertified payment check if:

8.10.7.2.1. The payee of the original check is not entitled to the proceeds;

8.10.7.2.2. The payee died before the original check issue date;

8.10.7.2.3. Insufficient mail time has lapsed from the date the original check was mailed or re-mailed to allow for its delivery and possible return;

8.10.7.2.4. The payee has an outstanding obligation which the payment can offset; or

8.10.7.2.5. The original check is more than 12 months old.

8.10.7.3. Before issuing a recertified payment, consider all circumstances involving high-dollar-value unavailable checks, payees in adverse actions that could result in early discharge or termination, or nonpermanent employees with no vested retirement benefits or sustained work history. Also consider the payee's ability to repay in cases of double negotiation and the possibility of offsetting a double negotiation against money other than salary due to the payee. For deactivated and closed DSSNs:

8.10.7.3.1. The designated settlement office normally issues these payments. In some situations (for example, consolidation), the DO supporting the activity that assumed disbursing and accounting responsibility for the deactivated or closed office may issue a recertified payment for that office; and

8.10.7.3.2. Except as prescribed in paragraph 8.8, issue recertified payments only as a disbursement from the appropriation charged for the original check or, if that appropriation is no longer available, a current appropriation available for the same general purpose, subject to limitations on its use.

8.10.7.4. Delays in issuing checks may affect military and civilian employees' personal financial affairs, DoW relations with private business, and other intangible benefits, so immediate issuance of replacement checks may be appropriate. DOs may use stop reason code "A" on the SF 1184 to support immediate issuance replacing undelivered, lost, stolen, mutilated, or destroyed original checks issued under their DSSN if less than 31 days have elapsed since the check issue date.

8.10.7.5. Submit UCCs using stop reason code "D" or "G," and issue a recertified payment only after Treasury reports the check status as outstanding.

8.10.7.6. Do not issue a recertified payment check when the DAS from Treasury indicates the check status is paid (see subparagraph 8.10.11).

8.10.8. Accounting for Recertified Payments

8.10.8.1. Treasury provides credits for canceled unavailable checks and charges from negotiation of previously canceled unavailable checks through budget clearing account **F3880. This account is restricted to unavailable check transactions; do not use it for any other purpose. It holds credit or chargeback amounts only pending identification of the appropriation or fund charged for the original check issuance. Do not charge the **F3880 account directly for any payment; transfer amounts in this account to the original appropriation as quickly as possible. Do not allow transactions in this account to become stale or unidentifiable, because an unidentifiable balance may result in a DO loss of funds and associated pecuniary liability.

8.10.8.2. Treasury transfers to the **F3880 account via IPAC. By the end of each month, DOs must reconcile their CARS activity by TAS/BETC to their internal accounting system of record and reclassify any transactions to the correct TAS/BETC in the CARS CTA Statement if necessary. After reporting a credit or charge to the **F3880 account on its internal accounting records, the DO must prepare a JV to clear that credit or charge from the account, returning the funds to the appropriation or fund account the DO identifies. Any credit or charge processed after

the Treasury Receivable Accounting and Collection System closes on the last business day of the month is accounted for in the next accounting month.

8.10.8.3. Under 31 U.S.C. § 3334(a)(2), return canceled check proceeds to the appropriation(s) charged when the check(s) were originally issued, and treat the canceled check(s) as account(s) payable. Within 15 days of receipt, DFAS-IN and DFAS-CL send the check cancellation and credit detail information to the disbursing office that issued the check(s) (except as noted in subparagraph 8.10.9.1.) and to that office's supporting accounting office. Send any reversal of previous Treasury cancellation credits in the same manner to the applicable disbursing and accounting offices.

8.10.8.4. The DO reviews the **F3880 account monthly to ensure necessary actions are taken to clear these transactions. Each time the DO's account is transferred, the incoming DO validates balances in this account. If the departing DO cannot provide the incoming DO with documentation supporting the **F3880 items, the departing DO processes the unsupported items as losses of funds under Section 7.0.

8.10.8.5. On receipt of a DAS indicating cancellation credit or reversal information from the supporting DFAS site, the DO researches the check issue data submitted to Treasury to confirm the accuracy of the detail (for example, the DSSN, check serial number, date of issue, and issue amount), which must agree with the original check issue data reported to Treasury. Research any discrepancy to determine its cause and correct it. For a reversal, the DO determines whether a dual negotiation occurred by verifying the status of the replacement check, then submits an SF 1184 on the replacement check using stop reason code "F" for non-entitlement.

8.10.8.5.1. If the check for the recertified payment is outstanding, the DO receives a credit offsetting the charge for the reversal previously received. If the check has been paid, the DO receives a photocopy of the paid check, a claim form, and a claims document. If both the original and recertified payment checks have been negotiated, the DO begins collection action as outlined in subparagraph 8.10.11. The disbursing office must also notify the appropriate entitlement or subject matter area (for example, military pay, civilian pay, travel pay, or commercial accounts payable), and provide a copy of the DAS, when Treasury returns a credit because the check was not negotiated or reverses a credit previously received.

8.10.8.5.2. The DO requests the accounting department re-obligate funds to cover issuance of a recertified payment. Once assured that funds are re-obligated and available, the DO may issue a recertified payment check citing the original appropriation. If the original appropriation is closed, use a current year appropriation for the same or similar purpose.

8.10.8.5.3. When Treasury provides a reclamation credit, the DO requests the accounting department re-obligate funds to cover issuance of a recertified payment.

8.10.8.6. When notified that an unavailable check has been canceled, the credit received, and a recertified payment requested, the appropriate entitlement or subject matter area determines whether the liability for the underlying obligation is valid before preparing a recertified payment. A recertified payment is prohibited if the entitlement to payment no longer exists.

8.10.8.7. All recertified payments (including immediate replacements under stop reason code "A") must be vouchered, certified by a certifying officer, and charged to the appropriation or fund charged for the original payment. Making a recertified payment under the first two provisions listed in this paragraph requires establishing an accounts receivable, supported by a copy of the SF 1184 and/or the DAS, in the appropriation or fund for the amount due on cancellation of the original check. Recertified payments may be made when the disbursing office submits the SF 1184.

8.10.9. Preparation and Disposition of Replacement Checks

8.10.9.1. When a payee returns a replacement check after the original check it replaced is found and negotiated by the payee, cancel the replacement check on an SF 1098 and credit the proceeds to the appropriation charged when it was issued. Deposit the check with the nearest FRB or branch on a deposit ticket as prescribed in paragraph 10.4. Transfer the **F3880 chargeback from Treasury for the negotiated original check to the appropriation charged when the original check was issued.

8.10.10. CFIF

8.10.10.1. The CFIF is a revolving fund established under 31 U.S.C. § 3343 to settle payee/claimant claims of non-receipt when an original check has been fraudulently negotiated. Only Fiscal Service may adjudicate forgery claims against Treasury checks. A claim against the CFIF is governed by the 1-year statute of limitations in the CEBA; a forgery claim must be presented within 1 year from the date the check was issued, or the claim is barred and the payee is not entitled to payment from the CFIF. The DO must submit an SF 1184 on the check within 13 months from the check issue date.

8.10.11. Collections of Double Negotiations

8.10.11.1. A double negotiation occurs when an original check and its replacement have both been reported as paid by Treasury. The loss occurs on negotiation of the replacement check; the order in which the checks are cashed is irrelevant. A double negotiation is an illegal or improper payment for purposes of pecuniary liability. The DO initiates collection action to recover illegal or improper payments made by the DO's office. If the payee separates from government service, the DO remains responsible to pursue collection action. Collections for illegal or improper payments are normally one-time cash refunds or lump-sum collections by salary offset and do not

warrant installment liquidation. Limit installment repayments to cases of extreme personal hardship.

8.10.11.2. When Treasury notifies a DO that it has reversed a credit to the **F3880 account from a previous cancellation, the DO researches the situation to determine whether a double negotiation occurred by checking the payment status of the replacement check. Once a Treasury response confirms a double negotiation, the DO immediately begins collection action. In each case, afford the payee the due process rights of collection specified in Volume 16. Recovery is most effective when the DO presents the payee a photocopy of the paid original and replacement check and a copy of the claimant's signed statement acknowledging the payee was not entitled to both payments. Due process rights include the opportunity to contest the validity of the debt; in double negotiation, the payee's right to complete an FS 1133 provides this opportunity.

8.10.11.3. If the payee asserts that one of the checks was negotiated over a forged endorsement, delay collection until the NPIRC adjudicates the payee's forgery claim. If the NPIRC determines the check was forged, the payee does not owe the debt. If the NPIRC denies the claim, the full amount of the check is due and subject to immediate collection. If the payee fails to provide the properly completed FS 1133 within the period allowed to show why the debt is not owed, the payee is deemed to have acknowledged the debt and the DO takes immediate collection action. In either situation, complete collection action within 90 days of receiving the DAS from Treasury indicating the canceled unavailable original check has been paid, or within 90 days of receiving the CDN from Fiscal Service indicating the forgery claim is denied.

8.10.11.4. The DO documents all attempts to collect illegal or improper payments. If all reasonable steps have been taken and the illegal or improper payment becomes uncollectible within the 90-day time limit, the DO transfers the debt to the office designated to pursue collection of uncollectible debts (see Volume 16 for debt collection processes). Although the debt is transferred for further collection action, the DO remains pecuniarily liable for the illegal or improper payment until the debt is collected or relief is granted (see subparagraph 8.10.11.).

8.10.11.5. Double negotiations could indicate fraudulent intent or misrepresentation. A DO who suspects this reports the situation using the guidance in Section 7.0, for possible investigative or disciplinary action. Pursue collection action as specified in Volume 16.

8.10.12. A DO may request relief of liability for uncollectible illegal or improper payments under 31 U.S.C. § 3527 (see Section 7.0).

8.10.13. The payment recertification process is subject to the same management controls as other routine disbursements. The same individual must not authorize, process, and review recertified payment transactions.

8.10.13.1. The minimum acceptable separation of duties consists of: preparation of the SF 1184 by one individual; review and approval of the DD 2660 and SF 1184 by the DO or a DDO; preparation and certification of a disbursement voucher by an individual in the appropriate entitlement area; review and approval of the voucher with supporting documentation by a first line supervisor other than the DO or DDO authorizing the transaction; and authorization of the disbursement by the DO or a DDO.

8.10.13.2. When the disbursement voucher is prepared in disbursing because of automated disbursing system limitations, or because the entitlement and disbursing functions are combined into one unit (as at small activities and most tactical units), the DO must ensure that preparing the SF 1184, preparing the disbursement voucher, reviewing the transaction and supporting documents, and preparing the check are performed by different individuals.

8.11 TREASURY CHECKS CANCELED UNDER LIMITED PAYABILITY

8.11.1. Treasury checks issued on or after October 1, 1989 bear the legend "Void After 1-Year," and Treasury declines payment of checks not negotiated to a financial institution within 1-year of their issue dates. Stamp checks returned to the disbursing office as no longer negotiable "Void - Not Negotiable" and shred them after confirming receipt of the limited payability cancellation credit. Treasury checks issued before October 1, 1989 were mass canceled; shred them without confirming receipt of a limited payability cancellation credit.

8.11.2. A claim on a Treasury check is barred unless presented to the issuing agency within 1-year after its issue date. DOs must reject as time-barred all claims against Treasury checks not received before the 12-month period of negotiability expires. DOs must notify claimants that claims of nonpayment of the underlying obligation must be filed with the appropriate entitlement office (for example, the contracting officer for vendors or commercial payees, or the military pay, civilian pay, or travel office). Under 31 U.S.C. § 3702(e), the Secretary of War may waive this time limitation on canceled checks for claims under $25,000.

8.11.3. Accounting

8.11.3.1. Under 31 U.S.C. § 3334(a)(2), DFAS-IN, DFAS-CL, and DFAS-CO must return the proceeds from canceled checks to the appropriation that originally paid them and treat the proceeds as accounts payable. Within 15 days of receipt, they must send the check cancellation and credit detail to both the disbursing office that issued the check and the supporting

accounting office, and must forward any Treasury reversal of previous cancellation credits to the applicable disbursing and accounting offices.

8.11.3.2. Upon receiving the detailed limited payability cancellation credit or reversal information from DFAS-IN, DFAS-CL, and DFAS-CO, the DO must research the check issue data submitted to confirm the detail is accurate (for example, the DSSN, check serial number, date of issue, and issue amount), all of which must agree with the original check issue data reported when the check was issued. The DO must determine the cause of any discrepancy and correct it.

8.11.3.2.1. The DO must also research disbursing records to determine whether a claim of loss, theft, or non-receipt has been filed on the canceled check, including whether the check was previously replaced by a recertified or other payment. The disbursing office must notify the appropriate entitlement area (for example, military pay, civilian pay, travel pay, or commercial accounts payable) that Treasury has returned the credit because the check was not negotiated within the prescribed period.

8.11.3.2.2. On request of an entitlement area, the DO must perform the verifications described in subparagraph 8.9.5.1. and advise the entitlement area whether the original Treasury check was canceled, negotiated, or previously replaced.

8.11.4. Claims

8.11.4.1. If the payee submitted a timely claim and has not been paid, the claim must be sent through the appropriate Component's Assistant Secretary for Financial Management to the General Counsel of the DoW requesting a waiver of the statute of limitations. If the General Counsel determines the claimant is entitled to payment, and a payment voucher with supporting documentation is sent to the disbursing office, the DO determines whether to issue a replacement check.

8.11.4.2. On receipt of a claim approved by the designated settlement authority, a certified payment voucher from the appropriate entitlement area, and the proper supporting documentation, the issuing DO (or the officer assigned to settle accounts for the issuing DO) issues the replacement check.

8.12 HOLDER-IN-DUE-COURSE

8.12.1. Lost-in-Transit Check Lost-in-transit

8.12.1.1. If a DO receives a request to reissue a check that has not been canceled and is less than 1-year old, the DO must return the request to the financial institution and advise it to submit the request to the FRB Atlanta, Government Check Adjustment Department.

8.13 CHECK ISSUE REPORTING

8.13.1. Disbursing offices must report detailed check issue transmittals to the Treasury in Level 8 format to update TCIS with check issue detail. The DoW uses DCRM for direct submission of the check issue detail to the Treasury.

8.13.2. Submission Requirements

8.13.2.1. DOs must submit all check issue transmittals to the Treasury no later than the close of business at the end of the week in which the issue dates occur and at month end. DOs who submit through their supporting DFAS site must ensure the DFAS site receives their check issue data at least weekly and at month end.

8.13.2.2. Failure to report check issue data timely increases the risk of loss from banking system errors, check alterations, and counterfeits. If a loss from an altered or counterfeit check occurs because of delinquent check issue reporting, the DO may be held liable for the loss. Until check issue data is reported in TCIS, the Treasury will not recognize the check as issued or process claims or limited payability cancellation credits against it, and cannot complete a final reconciliation and clearance of the DO's account. If the DO is habitually delinquent for 60 days or more, the Treasury may suspend further print orders for blank Treasury check stock until all delinquent reporting is accepted into TCIS.

8.13.3. The disbursing office is responsible for ensuring the check issue data submitted to the Treasury is accurate. DOs must notify their supporting DFAS site immediately after finding an error and must correct all errors before the file transfer process. Once TCIS accepts an erroneous check issue transmittal, the file cannot be deleted. If an erroneous data file has been sent to DCRM but not yet forwarded to the Treasury, place the whole file in a "replace" or "suspended" status and contact the local DCRM manager or supporting DFAS site immediately to change the file from accepted status in DCRM.

8.13.4. Voided Checks

8.13.4.1. Report voided checks as zero-dollar amounts in the proper sequence with other checks issued in the same check range. A DO who reports check issue detail by sending it to another disbursing office for conversion or upload to DCRM must ensure the voided checks are reported and clearly marked. Stamp or mark the hardcopy check issue listing to show that a check is voided with a zero-dollar amount, and do not obliterate the serial number of the voided check from the listing. If a voided check has not been dated, report a date to facilitate check issue reporting. DOs submitting their own check issue data to the Treasury must include the serial numbers and dates of voided checks in the transmission with zero-dollar values.

8.13.4.2. A DO who erroneously reported a voided check with a dollar value greater than zero, and the check is under 1-year old, must initiate corrective action as soon as the error is discovered, without waiting to receive the FMS 5206, and must send Treasury a written request to adjust the check issue detail in TCIS.

8.13.4.3. If the issue date of the erroneously reported check is over 1-year old, the voided check cannot be adjusted in TCIS, and Treasury will issue a limited payability credit for it. On receipt of the credit in the **F3880 account, the DO must report the check as a check issue on the monthly SF 1219 and debit the **F3880 account to clear the limited payability credit.

8.14 DESTROYING CHECKS

8.14.1. DOs must not destroy unwanted or excess blank check stock that is otherwise still usable without first contacting DFAS-IN/JTDCBO.

8.14.2. Destroy checks by burning or shredding. Checks destroyed by burning must be burned completely. Checks destroyed by shredding must be reduced to fragments no larger than 1/8 inch wide and 3½ inches long, using a crosscut shredder as Treasury requires. Use the burning method only, subject to environmental regulations, when a disbursing office does not have shredding equipment. In either case, prepare a certificate of destruction (see Figure 8-2 in the Supplemental Guidance).

8.14.3. The DO and at least one witness must examine the checks to verify they are the actual checks to be destroyed, verify the check numbers and DSSN against the certificate of destruction, and sign the certificate only after witnessing the actual destruction.

8.14.4. The DO must notify the Fiscal Service of the destruction of blank check stock by emailing the certificate to RRB.OSD-NPIRC-PM@fiscal.treasury.gov, and must keep a copy in the DO's blank check inventory control records (see I TFM 4-5040.50b).

9.0 COLLECTIONS

9.1 GENERAL

9.1.1. Under 31 U.S.C. § 3302(c), DoW DOs must deposit public money not held for current expenditure in the Treasury or with a depositary designated by the Secretary of the Treasury.

9.2 TYPES OF COLLECTIONS

9.2.1. Receipts are collections into a Treasury miscellaneous receipt or other legally authorized account or fund. DOs collect them into their accountability using a DD Form 1131,

Cash Collection Voucher, and recognize them by the absence of a fiscal/program year in the accounting classification. Disbursing from a receipt account is not authorized. Adjusting out an over-collection requires processing a collection voucher as a negative receipt.

9.2.2. Reimbursements are amounts earned and collected for property sold or services furnished to U.S. Government agencies or to the public, amounts collected from outside sources for payments made in error, overpayments, or adjustments for previous amounts disbursed. They are recognizable by the presence of an accounts receivable sales code within the accounting classification and shown as positive amounts on the DD 1131. A "negative reimbursement" occurs when a reimbursement is over collected and requires a return of funds to the remitter and is vouchered as a bracketed (negative) amount on a DD 1131.

9.2.3. Refunds are recoveries of payments collected into a DO's accountability as positive amounts on a DD 1131 using the same accounting classification as the original disbursement voucher, or as offsets shown as bracketed amounts on disbursement vouchers; they reduce disbursements rather than constitute collections. Report refunds documented on collection vouchers on the DD 2657, Daily Statement of Accountability, separately from those occurring as negative disbursements, which are reported as net of disbursements. Do not report refunds separately on the SF 1219, Statement of Accountability, but include them in net disbursements.

9.3 COLLECTION TRANSACTIONS

9.3.1. Collections are transactions that increase a DO's accountability but do not apply to acquiring U.S. and foreign currencies through purchase with dollars or accommodation exchange transactions. All collection vouchers reported in DoW business systems must meet standard line-of-accounting requirements. DOs must document collections on the appropriate collection forms and verify and record them in the accounting records. Funds not creditable to appropriations (for example, recoveries of losses of funds or dishonored checks) are not collections because they do not change a DO's accountability.

9.3.1.1. Any portion of the cash associated with a DD 1131 not deposited the same day but collected into the DO's accountability must be reported as a CTA transaction, which feeds the CARS daily account statement and increases both the DO Cash TAS and the program TAS on the collection voucher. DOs may consolidate multiple collection vouchers under one transaction reported to Treasury if they share the same TAS/BETC and agency location codes. DOs must ensure consolidated transactions retain an audit trail that can be validated at the individual-transaction level.

9.3.2. Accept cash, checks, or other recognized credit instruments payable on demand, including certified or uncertified personal checks, corporate checks, bank drafts, Treasury checks with issue dates less than 1 year old, postal money orders, money orders issued by banks or other

financial establishments, credit union share drafts, and warrants payable on demand. Draw these negotiable instruments in favor of a DO's official capacity (position title, not name). Visa and MasterCard credit and debit cards are acceptable when presented for payment at locations participating in the Card Acquiring Service.

9.3.2.1. Commanders may authorize commissary officers to accept Treasury checks from authorized patrons to pay for sales when banks and other facilities cannot furnish check-cashing services, but may not authorize or require DOs or their agents to advance additional change funds to commissary officers to cash those checks. Commissaries may use the cash they receive for this purpose.

9.3.2.2. DOs must establish procedures to control receipt and processing of checks and other negotiable instruments received by mail. An individual independent of the collection function must receive these remittances and must not be the same individual who maintains the accounts receivable records. DOs must establish controls using the DD 2658, Returned and Undeliverable Check/Bond Record, or another effective method to record the transmittal of instruments between functional areas.

9.3.3. DOs may acknowledge collections made by remote cashiers only upon receipt of certification of the actual monetary amounts.

9.3.4. Performance

9.3.4.1. DOs receiving remittances (for example, checks, bank drafts, and money orders) as deposits for performance or bid bonds must deposit them immediately in deposit fund account X6501, to be held pending settlement with the contractor.

9.3.4.2. Under 31 CFR part 225, contractors may deposit certain U.S. bonds with contracting officers instead of furnishing corporate or individual sureties on performance and payment bonds. DOs may not accept these bonds, whether electronic or hardcopy, for other than temporary safekeeping (for example, overnight or over a weekend). For temporary safekeeping, DOs may provide space in a safe or vault by placing the bonds and related documentation in a sealed package indicating custodianship and giving the contracting officer a receipt for the package. The contracting officer is responsible for transferring the bonds to the FRB.

9.3.5. Negotiable Instruments

9.3.5.1. Remitters must make checks and other negotiable instruments payable to the order of the specific organization maintaining the account to be credited, not to the Treasury. If a check is made payable to the Treasury, accept and process it immediately. Do not accept

checks payable to a DO or to federal government employees, whether by check or through electronic means.

9.3.5.2. Keep limited depositary accounts in the name of the activity to which the DO is assigned. Instruct the remitter not to inscribe instruments payable to the DO by activity name.

9.4 ISSUANCE OF RECEIPTS FOR COLLECTIONS

9.4.1. Turning in Funds

9.4.1.1. Individuals other than DOs, DDOs, cashiers, or agents who receive funds belonging to the United States (including funds held in trust) must promptly turn them over to their supporting DO or deposit them in an authorized general depositary. These individuals, who may work within commissary, property disposal, personnel, and other offices authorized to receive funds due the United States, are responsible for safeguarding funds in their possession pending deposit or turn-in. Collecting officers number documents sequentially by fiscal year. The DO, DDO, or agent receiving the funds signs and returns two copies of each DD 1131 (other than the original) to the collecting officer and distributes additional copies as required.

9.4.1.2. A DO, DDO, agent, or cashier receiving a collection directly from a remitter prepares a collection voucher for the amount collected, and the supporting DFAS site determines the number of copies to give the remitter. Issue receipts for payment of bills received by mail only if the remitter requests it. Furnish receipts only for amounts received and verified by actual count. DOs, DDOs, and agents may not use subject verification to issue receipts, give receipts in blank, or accept receipts in blank.

9.4.1.3. Where an automated system is used, cashiers may sign receipts in their own name; otherwise, DOs, DDOs, or agents must personally sign the receipts. Signatures are not required for collection vouchers electronically validated by an approved public key infrastructure method. Before signing, the cashier or collecting official must ensure that remittances are authorized collections in the correct amounts. The person accepting the remittance must not be the same person updating the accounts receivable record.

9.4.2. Collections by Agent Officers

9.4.2.1. Agents of appointing DOs may sign receipts for funds.

9.5 RECORDING AND CONTROLLING COLLECTIONS

9.5.1. Unless the supporting DFAS site directs otherwise, the affected functional area maintains a pending payment file and an associated copy of the uncollected billing documents, and

sends the original and duplicate copy to the customer from whom reimbursement is expected. Arrange the files in the order most convenient to the person maintaining them, and reconcile the file quarterly to the accounts receivable subsidiary ledgers.

9.5.2. Process an overage in a DO's account as a collection to F3875 no later than the business day after the overage occurs. Resolve overages no later than the fifth business day after the end of each quarter or, upon the DO's relief from disbursing duty, no later than the fifth business day following the date of relief. Consider collections and returns from agents when determining the source of an overage. When the reasons for an overage are explained and there is reasonable assurance no claim will be made, credit it directly to the Treasury's receipt account R1060, Forfeiture of Unclaimed Money and Property.

9.5.3. Maintain a daily DD 2659, Voucher Control Log, for collection vouchers the disbursing office receives or prepares. The DO determines the functional areas and assigns individuals to maintain this form. Assign each functional area or branch disbursing office a separate series of voucher numbers. Include the collection voucher number, the remitter's identity (name of the remitting individual or organization), the amount, and the instrument of remittance (for example, check, cash, traveler's check, EFT, or a no-pay adjustment). Annotate a check or EFT trace number in column d, OTHER.

9.5.4. When a remitter overpays an amount due by $1.00 or less, collect the overpayment into receipt account 1099 (Fines, Penalties, and Forfeitures, Not Otherwise Classified), and refund it only if the remitter requests. If a payee underpays an amount due by $1.00 or less, prepare an SF 1080 charging the DoW Component's Operations and Maintenance account and credit the applicable appropriation or receivable for the underpayment. Do not pursue collection action for underpayments of $1.00 or less.

9.5.5. Agencies not co-located with or supported by a disbursing office that receive collections must do the following.

9.5.5.1. Use a log to control collections from the time of receipt until they are transmitted to the disbursing office. At a minimum, show the date of receipt, remitter, check or money order number, collection voucher number, amount of collection, and date transmitted to the disbursing office.

9.5.5.2. Prepare a collection voucher the same day the DoW Component receives the collection.

9.5.5.3. Safeguard the collection and supporting documents.

9.6 DOCUMENTING AND PROCESSING COLLECTIONS

9.6.1. Verification of Funds Received

9.6.1.1. Functional areas must ensure that collections are proper, that vouchers have complete and accurate data, and that required copies are available. A disbursing office that detects an improperly prepared voucher returns it to the functional area for correction.

9.6.1.2. Include the purpose of a collection (for example, contract lease, applicable regulation, schedule, cost list, or other document that authorizes the collection) on, or as an attachment to, a collection voucher. If a sales contract is involved, cite the contract in the reference information. If the purpose of a collection cannot be determined, account for it in F3875 and F3885 (Budget Clearing Account (Suspense)) or in Shared Accounting Module default clearing accounts F3500 for proprietary payments and collections and F3502 for IPAC, as appropriate.

9.6.1.2.1. Transfer to account 20X6133, Payment of Unclaimed Moneys, amounts of $25 or more held for more than 1 year that are authorized to be refundable but cannot be refunded because the individual's location is unknown.

9.6.1.2.2. Transfer to R1060 unclaimed amounts of less than $25, or amounts of $25 or more held for more than 1 year, for which the rightful owner can be neither identified nor located.

9.6.1.3. DOs must ensure the legibility of all copies of vouchers prepared for distribution.

9.6.2. Signature on Collection Vouchers

9.6.2.1. DOs, DDOs, or agent officers must sign original collection vouchers in permanent, non-erasable ink; this duty may not be delegated or reassigned. Officers using cash-control machines or mechanized equipment to validate vouchers are exempt from this requirement, except when a DD 1131 is processed for further action by a disbursing office not collocated with the processing office, so long as the machines and their controls meet minimum security and audit requirements. The DO or DDO controls the keys for these machines. Digital signatures may also be used following the guidance in Section 2.0, subparagraph 3.6.3.

9.6.2.2. The DO must implement controls to ensure that all funds received by the cashier are accounted for properly. The DO or DDO holds copies of the vouchers bearing the cashier's initials and, in making daily settlement with the cashier at the end of the business day, uses these copies to determine whether the amounts the cashier reported were proper. The receiving officer's signature is required where applicable. The DO or certifying officer, as applicable, signs transfer, cancellation, or adjustment vouchers (SF 1081) and an SF 1098,

Schedule of Canceled or Undelivered Checks. If the same voucher is both a disbursement and a collection, the disbursement is the original subject to the signature requirements in subparagraph 9.6.2, and the collection is a copy that does not require a signature.

9.6.3. Preparation of Documents Used to Transmit Funds

9.6.3.1. An officer depositing or transmitting funds to a disbursing office prepares the proper forms. Except for collections from over-the-counter sales (for example, commissaries), include the remitter's name, the specific authority for the collection, and information sufficient for the DO to identify the collection and confirm the correct amount on each collection document. The preparing officer also furnishes the complete accounting classification as prescribed, the fiscal code (including the Disbursing Station Symbol Number of the station maintaining the appropriation cited), and the country code when the collection is made in an overseas area.

10.0 DISBURSEMENTS

10.1 GENERAL

10.1.1. Overview

10.1.1.1. All disbursements must be supported by disbursement vouchers (for example, SF 1080; SF 1081; SF 44, U.S. Government Purchase Order-Invoice-Voucher; or SF 1034, Public Voucher for Purchases and Services Other Than Personal). A disbursement voucher may combine a payment and a collection by voucher deduction (for example, a civilian payroll voucher crediting deductions for federal tax, U.S. savings bonds, and civil service retirement to the appropriate accounts, with net pay disbursed to the payee).

10.1.1.1.1. A disbursement voucher for a payment to a non-federal entity that creates pecuniary liability under 31 U.S.C. § 3527 or 31 U.S.C. § 3528 must be certified by an appointed Certifying Officer who has completed Certifying Officer Legislation (COL) training, per 31 U.S.C. § 3325(a)(1) and (b) (see Section 6, subparagraph 6.1.1.). A disbursement voucher that transfers funds between appropriations or funds, makes payments entirely within the Federal government, or does not support or execute a subsequent payment transaction does not require a COL certified Certifying Officer.

10.1.1.1.2. Report EFT disbursements (including International Treasury Services for payments in foreign currencies) and U.S. Treasury check disbursements to the Payment Information Repository, citing the proper Treasury Account Symbol (TAS)/Business Event Type Code (BETC).

10.1.1.1.3. Report a no check/voucher for transfer by using a Classification Transactions and Accountability (CTA) transaction, citing the proper two-sided credit and debit entries with the proper TAS/BETC.

10.1.1.1.4. Report cash and LDA check disbursements by using a CTA transaction citing the Disbursing Officers' (DOs') Cash TAS/BETC and the program TAS/BETC listed on the disbursement voucher. DOs may consolidate multiple disbursement vouchers under one transaction reported to Treasury if they fall under the same TAS/BETC and Agency Location Code (ALC). DOs must ensure consolidated transactions have an audit trail that can be validated at the individual transaction level.

10.1.2. DoW authorizes DOs, under 31 U.S.C. § 3321(c)(2), to disburse public funds on receipt of vouchers certified by an appointed certifying officer (see 31 U.S.C. § 3325 and Section 6.0, subparagraph 6.1.1.).

10.2 POLICY

10.2.1. Legality and Propriety

10.2.1.1. Examine payment transactions for legality, propriety, limitations, and time frames under the statutes governing the various classes of expenditures, and for validity under general provisions of law.

10.2.1.2. A DO may request an advance decision on the propriety of any prospective payment, following the procedure in each section's standard operating procedure (see Section 13.0, paragraph 13.2). DOs are not pecuniarily liable for payments they make based on advance decisions.

10.2.2. Substantiating Vouchers

10.2.2.1. Unless otherwise mandated by law, each transaction by an officer, agent, or employee of the U.S. Government that requires payment of money from the Treasury, or payment by a DO or agent, requires a written or approved electronically signed document, or series of documents, that includes a complete record of the transaction.

10.2.2.2. Each disbursing office that processes disbursements must maintain a detailed written agreement with its supporting Federal Reserve Bank (FRB), Treasury's fiscal agent. The DO must implement internal controls to confirm that the FRB successfully receives EFT payment files.

10.2.2.3. A DO need not make payment merely on the submission of formal evidence. If the facts do not justify payment, the DO must require a reasonable explanation or further evidence.

10.2.3. Using public funds to pay the expenses of a commission, council, board, or other similar body is prohibited by 31 U.S.C. § 1346 unless the creation of the body has been specifically authorized by law.

10.2.4. A DO generally may not make advance payments, prepayments, or overpayments of public monies; 31 U.S.C. § 3324, the Joint Travel Regulations, and Volumes 5, 7A, 8, 9, and 10 allow limited advances and prepayments.

10.2.5. Payments to Third Parties

10.2.5.1. Unless specifically authorized by law, monies the government owes to an individual are not subject to attachment, garnishment, or other legal processes. Do not certify or make payment to a third party even if the payee requests it. This restriction applies to all funds, including those held in trust by the DoW.

10.2.5.2. A civilian employee or military member may file a bankruptcy petition under 11 U.S.C. § 109, and the bankruptcy court may order the individual's pay sent to the bankruptcy trustee. Such payments are proper, and DOs incur no additional liability as a result (see Volume 8 for civilian employees and Volume 7A for military members).

10.2.5.3. Under 31 U.S.C. § 3332, Federal wage, salary, and retirement payments must be made by EFT to financial organizations for credit to payees' accounts (see also Volume 7A; Volume 8; and Volume 9).

10.2.6. Claims not founded on contracts, expressed or implied, but on merely equitable or moral grounds, are permitted only after direct authorization by Congress.

10.2.7. The government is self-insured (or bonded). Neither a DO nor any of the DO's agents may insure public funds or property.

10.2.8. Absent specific statutory authority, a DO may not pay for municipal services (for example, police and fire protection) if those services must be furnished to private citizens at no cost (see Volume 10).

10.2.9. Certified Disbursement Vouchers

10.2.9.1. DoW authorizes DOs, under 31 U.S.C. § 3321(c)(2), to disburse public funds on receipt of vouchers certified by an appointed certifying officer. When the disbursement

voucher is certified by someone independent of the disbursing process, the DO has discretion to make the payment.

10.2.9.1.1. Certified vouchers must contain complete and accurate data, though content may vary slightly by disbursement type and form used. Write signatures and other information that become integral parts of original vouchers in permanent, non-erasable ink. Handwritten information must be legible. Approved electronic signatures are acceptable.

10.2.9.1.2. Return certified vouchers requiring correction to the functional area. Disbursing office personnel may not make these corrections. Corrected vouchers require recertification before disbursement.

10.2.9.1.3. Accept a legible copy of a signed travel voucher and its supporting documents, received in lieu of the original, for processing and payment as if it were the original. This includes copies received by facsimile transmission or scanned images forwarded via email.

10.2.9.2. Certified disbursement vouchers must contain the following minimum essential data:

10.2.9.2.1. voucher heading/date;

10.2.9.2.2. accounting classification;

10.2.9.2.3. the total amount;

10.2.9.2.4. the method of disbursement;

10.2.9.2.5. the individual or organization entitled to the payment.

10.2.9.3. A DO is pecuniarily liable for payments based on forged or fraudulent vouchers. A DO, Deputy DO (DDO), agent, or cashier who makes such a payment may request relief of liability (see Section 7.0).

10.3 DISBURSEMENT FORECASTING

10.3.1. Treasury's Bureau of the Fiscal Service (Fiscal Service) manages the government's daily cash position. DOs must follow current Fiscal Service guidance for reporting their anticipated aggregate level of planned disbursements for each disbursing method (for example, wire, Automated Clearing House (ACH), check). Forecasting is also addressed in I TFM 4A-4025.

10.4 DISBURSEMENT VOUCHERS

10.4.1. Keep a DD 2659, Voucher Control Log, daily for disbursement vouchers received or prepared in the disbursing office. The log must include the disbursement voucher number, payee name, amount, form of payment (for example, EFT, check, cash), and check/EFT trace number under "other." The log ensures all vouchers enter the accountability records and serves as a cross check against the DD 2657, Daily Statement of Accountability, and DD 2665, Daily Agent Accountability Summary: it compares vouchers paid by check to total checks written and vouchers paid by cash to cashier paid vouchers, associates returned and undeliverable checks with applicable vouchers, and transmits vouchers showing numbers used, unused, or voided.

10.4.2. Certification of Vouchers

10.4.2.1. The applicable entitlement areas (military, civilian, travel, and vendor pay) must ensure that all payments are proper, prepare the correct number of copies, and ensure that all vouchers contain complete and accurate data.

10.4.2.2. Certifying officers must examine payment vouchers before certification to confirm that the information agrees with all supporting documentation.

10.4.2.3. DOs must have access to the DD 577, Appointment/Termination Record - Authorized Signature, to verify that vouchers submitted for payment were certified by persons authorized to certify them, and must disburse money only on vouchers certified by authorized certifying officers. A disbursing office that detects an improperly prepared voucher must return it to the functional area for correction and recertification.

10.4.3. An individual entitled to a payment (the payee) must receive the cash and sign the voucher. All cash payments require receipts; do not prepare duplicate receipts. DOs or their agents making cash payments must positively identify the payee using the photograph on the payee's DoW Common Access Card; other acceptable identification includes a driver's license and other identification normally accepted in the banking community to cash checks or bonds. The responsibility for payee identification may not be delegated. The exchange of currency and the receipt for it must be simultaneous. Requiring receipts in advance of actual cash payments is prohibited.

10.4.4. Responsible entitlement areas must send or deliver cash payment vouchers to the cashier area. Payees may hand carry vouchers when distance between the entitlement area and cashier area makes delivery impractical, but only if the total voucher amount is inscribed in words on the bottom of the voucher (for example, "sixty dollars and twenty cents"). Space words or enter lines to preclude alteration by inserting additional words, particularly at the start of the writing.

10.4.4.1. If the voucher deduction block is used on a payment voucher, the cashier must verify that it contains an appropriation and that the total to be paid is net of any deductions. After verifying these items, the cashier must initial the original voucher to identify who made the payment.

10.4.4.2. Cashiers must obtain the payee's signature in the space provided, or for multiple payments, on the sub-voucher or supporting documentation. The payee signs for receipt of cash using permanent, non-erasable ink; facsimile signatures and signatures in pencil are unacceptable. When payee signatures are on a sub-voucher or supporting documentation, annotate the "payee signature block" on the cover voucher with "See attached." Positively identify payees before making payments, comparing the voucher signature to identification cards or other acceptable identification. The signature form must match the payee as shown on the voucher. In the signature block, the payee must sign the first name, additional initials if any, then the surname, except as explained in the following subparagraphs.

10.4.4.2.1. A payee unable to write may indicate receipt of payment by signing an "X." A disinterested party, whose address must appear on the form, must witness it. If the payee is physically unable to write and asks someone to sign in his or her presence, a disinterested witness must verify the signature, which is then regarded as the payee's signing. File a physician's note addressing the payee's inability to sign with the original disbursement voucher.

10.4.4.2.2. Do not pay a mentally disabled payee who cannot comprehend a signature except in the presence of an appointed legal guardian. File certified copies of the court papers appointing the legal guardian with the original disbursement voucher. The legal guardian signs the payee's name followed by his or her own signature as legal guardian. On future payments, refer to the first disbursement voucher by DO voucher number and date paid to substantiate the guardianship. If the payee is in an asylum, file the superintendent's certificate that the payee was alive when payment was due with each disbursement voucher.

10.4.5. Check Disbursement Vouchers, Manual Voucher Processing Responsible

10.4.5.1. Make checks payable to the payee stated on the disbursement voucher. Number disbursing vouchers sequentially, using the lowest check number to pay the lowest numbered disbursement voucher or the first name on a payroll, to keep an unbroken sequence that supports check issue auditing and reporting. Consolidate multiple same day payments to the same payee into one check. DOs must ensure that inscribed checks duplicate the voucher information and may review this before or after signing the checks. The DO must ensure appropriate records are completed to control check writing. Automated systems producing disbursement vouchers must contain edit and validation controls so the exact voucher information passes to the check printer.

10.4.5.2. Entry of check numbers on automated disbursement vouchers is not required if the voucher processing system maintains complete audit trails between disbursement vouchers and hard copy records.

10.4.6. Do not collect an overpayment to a payee. Prepare an SF 1080 to charge the DoW Component Operation and Maintenance account and credit the appropriation originally charged for the payment. Do not issue a supplemental payment when a payee is underpaid unless the payee requests it.

10.4.7. Transmittal of Vouchers and Recording

10.4.7.1. DDOs, agents, and cashiers must include payment vouchers on the DD 2665 as prescribed in Section 16.0, subparagraph 16.2.1.2., and settle with the DO at the end of each business day.

10.4.8. The disbursing office supervisor must not routinely certify vouchers for payment but may certify cover vouchers supported by properly certified sub-vouchers. In those cases, the approving official of the supporting documentation must not be the cover voucher certifier. If an emergency requires the deputy, who also supervises the disbursing office, to certify a voucher not supported by certified sub-vouchers, the DO or another DDO must date and sign the voucher with a statement such as "Payment approved by Lieutenant John Doe, Disbursing Officer". For adequate internal control, neither the disbursing office supervisor nor other disbursing office personnel may input data into the computerized accounting system.

10.4.9. Deferred vouchers are paid vouchers not recorded in an accounting system, usually vouchers paid by an agent that must be returned for correction or paid by an agent but not yet examined by a DO. They do not impact the DO Cash TAS until processed. Responsible entitlement areas must act promptly to clear them and must keep a chronological record of actions taken, showing the expected clearance date. DOs or their DDOs must review those actions weekly to ensure prompt correction of irregularities causing deferment.

10.4.10. Classified Payments

10.4.10.1. A DO making payments classified for security purposes must prepare a covering disbursement voucher that contains no information requiring a security classification. On the original and all copies, show only the payee's name and address, amount, date of payment, complete accounting data, voucher number, check number, DO's name, DSSN, and disbursing office payment data in the "Paid By" (or "Brief") block. Payments under classified contracts must include instructions requiring the supplier to limit invoice information so supplies or services are identifiable only by reference to the contract. The DO (for collateral classified programs) or the

voucher preparing office (for special access programs) must allow access to classified documents only to persons who need it to perform official duties.

10.4.10.2. Personnel who process classified documents must hold a security clearance equal to or higher than the documents they process. DOs or voucher preparing offices must assign duties so that only a minimum number of persons need access to classified information. Mark and store classified documents per prescribed security regulations. Do not attach classified essential supporting documents, invoices, or certificates to the original disbursement voucher; instead, identify them by the DO's name, voucher number, DSSN, and account period. Retain them at the paying disbursing office (for collateral classified programs) or the voucher preparing office (for special access programs) with other classified material. Include one of the following statements in the voucher portion describing the articles or services purchased:

10.4.10.3. Distribute the original and required copies of the covering disbursement voucher in the normal manner. Do not attach the classified supporting documents.

10.4.11. Use a DD 281, Voucher for Emergency or Extraordinary Expense Expenditures, to make payments from contingency funds.

10.4.12. Hand Carrying Disbursement Vouchers

10.4.12.1. Send payment vouchers prepared outside the disbursing office to the disbursing office so the payee cannot access them.

10.4.13. EFT Payments

10.4.13.1. EFT payments go to the FRB on debit vouchers showing the date payment is due. The DO must implement internal controls to confirm the FRB receives the payment files successfully and on schedule, and must retain the memorandum copy of the debit voucher. DOs that transmit payment files electronically use the FRB's summary of ACH activity report instead of the debit voucher; in either case, the FRB issues a confirmation debit voucher to the DO. For an EFT transaction, record the debit voucher as a negative deposit, with the payroll, travel, or vendor payment recorded as a gross disbursement.

10.4.13.2. When a financial institution returns one or more EFT/ACH payments to a paying office, the DO must prepare and process a collection voucher to account for the returned funds, crediting the appropriation from which they were originally disbursed. EFT returns must be submitted back to the originating ALC, crediting the TAS from which they were originally disbursed. Record the collection on the DD 2657 with an offsetting transaction for the FRB deposit ticket. The DO must notify the appropriate entitlement area by providing a copy of the collection

voucher and any rejection information received, such as the reject code (see Treasury's Green Book, Section 5, for payment rejection codes). The entitlement area must track, monitor, and research the cause of the return and provide a recertified voucher to initiate an appropriate EFT/ACH payment within 5 business days.

10.4.13.3. When notified of the death of a military retiree or annuitant, the DFAS Cleveland (DFAS-CL) DO must contact the decedent's bank to request the return of all payments made since the death. The DFAS-CL DO has three years from the date of the Financial Management Service (FMS) Form 133, Notice of Reclamation, to submit FMS 135, ACH Reclaims (see Treasury's Green Book, Section 6, for detailed instructions).

10.5 DEPOSIT FUND AND BUDGET CLEARING ACCOUNTS

10.5.1. Disposition of Funds in Deposit Fund Accounts

10.5.1.1. For withdrawal applied to an appropriation, receipt account, or other deposit fund account, use an SF 1081 for the disbursement and collection and submit it as substantiation for either or both. The SF 1081 must not be used for check or cash payment.

10.5.1.2. Only one deposit fund account may be charged on a single voucher. Submit charges to accounts F0109, Federal Tax Withheld from Payments to Nonresident Aliens, and F3875, Budget Clearing Account (Suspense), on separate vouchers.

10.5.2. F3875, Budget Clearing Account (Suspense)

10.5.2.1. After determining the proper disposition of funds in this account, transfer the amount on an SF 1080 or SF 1081 to the proper account and explain the charges on that form (see I TFM 2-5135 for guidance on using F3875). Use this account to hold unidentifiable collections temporarily for no more than 60 days, or use other business processes approved by the Fiscal Service. Payment from the F3875 suspense account is prohibited.

10.5.2.2. When the accounting office notifies the DO and requests the documentation needed to process a rejected transaction, the DO must send the requested documentation to the accounting office within 30 days.

10.5.2.2.1. When supporting documentation is maintained locally, the DO must send it to the accounting office immediately.

10.5.3. Overages

10.5.3.1. For an overage that should not have been accounted for as a collection, the responsible functional area prepares an SF 1034 payable to "Adjustments" to reverse the

erroneous collection and permit proper accounting. Do not issue a check or cash payment for this voucher.

10.6 PAYMENTS IN SUPPORT OF ADVANCE PAYMENT POOL AGREEMENTS

Advance payment pool agreements may be established under FAR 32.408 and DFARS 232.470 to finance performance of more than one contract held by a single contractor. Cash advanced to a contractor must be reported on the DD 2657 and reflected on the DO Cash TAS until the money is returned or disbursed. Follow Volume 10 for processing advance payments.

11.0 SMART CARDS FOR FINANCIAL APPLICATIONS

11.1 POLICY ON SMART CARD UTILIZATION

11.1.1. DFAS has management and oversight responsibility for the functional aspects and use of financial Smart Cards within the DoW, except for GSA SmartPay products. Written DFAS approval is required for all pilot and full rollout Smart Card usage (e.g., stored value or debit) employing single-purpose or multifunctional applications. This chapter follows I TFM 4-9000; Treasury guidance supersedes any conflicting information in this chapter.

11.1.2. Smart Card Program Approval

11.1.2.1. To establish a new Smart Card program, a DoW agency must submit a request for approval to DFAS-Indianapolis Center, Enterprise Solutions and Standards, Disbursing (DFAS-IN/JJFKCD). A separate request is required for each financial application.

11.1.2.2. An approval request must indicate whether the program is a pilot effort or a full rollout program.

11.1.2.2.1. Pilot programs are temporary and must operate for no less than 90 days and no more than 180 days. Pilots test card programs before full rollout.

11.1.2.2.2. Full rollout programs are non-temporary and must operate longer than 180 days. A full rollout should follow a pilot.

11.1.2.3. An approval request must be submitted as an application package to DFAS-IN/JJFKCD and must be completed before approval of any pilot or full rollout. The package must include the items below.

11.1.2.3.1. The agency headquarters, or designated representative, should request approval of the pilot or full rollout program via memorandum. It should be addressed to DFAS, Enterprise Solutions and Standards;

11.1.2.3.2. All pilot and full rollout programs are required to submit a completed DoW Financial Smart Card Application;

11.1.2.3.3. The CONOPS document should contain guidance on the use of the Smart Card program by the agency;

11.1.2.3.4. The package must contain copies of coordination documentation, including the agency or component leadership's and servicing Disbursing Officer's (DO) endorsement of memoranda;

11.1.2.3.5. A copy of the letter designating the agency Smart Card project manager must be submitted with each package. See subparagraph 11.1.4 for information on project managers; and

11.1.2.3.6. If the request is to move from a pilot Smart Card program to a full rollout, include an analysis showing:

11.1.2.3.6.1. Any savings realized from the pilot program;

11.1.2.3.6.2. How the pilot program is an improvement over the pre-pilot environment; and

11.1.2.3.6.3. The results of relevant performance measures used during the pilot and proposed for the full rollout.

11.1.3. Fiscal Service and the implementing agency must establish a memorandum of understanding (MOU) before implementing a new Smart Card program. The MOU sets the program terms, the respective responsibilities of the agency and Fiscal Service, the program and card types, the funding schedule, and the fees and costs each party pays.

11.1.4. Agency Smart Card Project Manager

11.1.4.1. The agency must designate a Smart Card project manager and alternate in writing before implementing a Smart Card program.

11.1.4.2. The agency must specifically identify the tasks for which the Smart Card project manager is responsible. The project manager must manage the Smart Card program and the activities in this chapter per the MOU between Fiscal Service and the agency, the Smart Card

standard operating procedures (SOPs) and other instructional documents, and program-specific policies and procedures the agency develops in consultation with Fiscal Service.

11.1.5. Smart Card AO(s)

11.1.5.1. The agency must designate one or more Smart Card accountable officials (AOs). If the AO is already appointed as a Disbursing Officer (DO), Deputy DO (DDO), or Disbursing Agent and the card-program responsibilities fall within that appointment, no additional appointment documentation is needed. Otherwise, the agency must appoint the AO by Letter of Appointment or DD Form 577, which lists the individual's responsibilities; a further letter is required when the individual no longer serves as the AO.

11.1.5.2. The agency must specifically identify the tasks for which the Smart Card AOs are responsible and must segregate those duties appropriately per agency policy. As applicable, AOs carry the duties and liability of a certifying officer or a DO, depending on the AO's designation, under 31 U.S.C. §§ 3322, 3325, and 3528 and other applicable laws. The AOs must manage the Smart Card program and the activities in this chapter per the MOU, the Smart Card SOPs and other instructional documents, and program-specific policies and procedures the agency develops with Fiscal Service.

11.1.6. DoW agencies responsible for the card programs in this chapter must develop and maintain detailed SOPs that comply with all current applicable regulations and cover all aspects of their card program for daily operations and contingencies.

11.1.7. The DO is accountable for physical loss of funds and for overage of Smart Card funds. If a loss or overage occurs, the DO or designated representative must follow the guidance in Section 7.0.

11.1.8. The program point of contact and designated agency representatives must establish procedures to determine card usage and a secure method of card delivery.

11.1.9. Smart Card stock must be treated like blank check stock. Storage and security requirements for blank check stock are in Section 8.0, subparagraph 8.2.4.

11.1.10. For all stored value and combination cards reported lost, stolen, damaged, or malfunctioning, a locally produced list must be created for audit purposes. If a Smart Card is reported lost, damaged, or malfunctioning, follow the procedures in the applicable MOU and SOPs; for the U.S. Debit Card, contact Fiscal Service's financial agent.

11.1.11. Agencies participating in a Smart Card program must do the following.

11.1.11.1. Include a process for reporting and educating Smart Card cardholders on how to promptly report any loss, theft, fraudulent, and unauthorized use of Smart Cards, PINs, passwords, or other security breach or malfunction involving the Smart Card program to Treasury or Treasury's financial or fiscal agent, and to the agency Smart Card Project Manager;

11.1.11.2. Aggressively investigate and prosecute (or assist in investigations, and prosecutions of) end-user theft, fraud, unauthorized use, or improper use of the Smart Card service that occur in agencies' areas of operation, and assist in obtaining restitution for the party suffering the loss;

11.1.11.3. Ensure that appropriate anti-money laundering controls and procedures are in place, to document the flow of monies onto or off a Smart Card; and

11.1.11.4. When a funds pool is used to fund an SVC; compensate the SVC funds pool for losses that result from theft, fraud, unauthorized use or other improper use of SVC equipment or resources for which agencies are responsible; unless the funds pool has been reimbursed from other sources, or the Treasury determines that such compensation is unnecessary or does not serve the SVC program's best interests.

11.1.12. Audit Requirements

11.1.12.1. An initial inventory must be completed and recorded on receipt of Smart Cards from Fiscal Service or other designated representatives, and a signed receipt must be provided to the issuing representative. The DO or designated representative must complete an SVC inventory log when releasing Smart Card stock to authorized personnel and when monitoring returns of unused cards, and must maintain a copy of the signed receipt.

11.1.12.2. At least once every calendar month, the DO or designated representative must inventory all Smart Cards secured in the vault, counting open containers individually and by unique sequential number. Damaged or tampered containers must be opened, and all cards must be individually counted and their unique sequential numbers verified. The disbursing office must retain a detailed inventory record showing total cards on hand and unique sequential numbers by card type. At least once each calendar quarter, the agency's cash verification team must conduct an unannounced verification of any Smart Card stock (e.g., U.S. Debit Cards, EagleCash, EZpay), covering cards received, issued, returned, and on hand, and a copy of the inventory must be attached to their quarterly cash verification report.

11.2 DAILY REPORTING REQUIREMENTS FOR STORED VALUE CARD

The scenarios that follow impact the DO Cash TAS and must be properly reported to Treasury.

11.2.1. Issued cards may be funded by personal check, cash, split pay, or transfer from the cardholder's home financial institution. Funding through split pay or the cardholder's home financial institution does not impact the DO's accountability/DO Cash TAS; funding by personal check or cash increases the DO's accountability/DO Cash TAS.

11.2.2. Before departing a deployed environment or ship, or being separated from active duty, a cardholder may transfer remaining value to their home financial institution or request a cash-out from the DO paid in cash or by U.S. Treasury check. Vendors using a POS terminal may request a cash-out equal to their POS terminal transactions. Transfer of value to a home financial institution does not impact the DO's accountability/DO Cash TAS; cash-out transactions decrease it.

11.3 U.S. DEBIT CARD PROGRAM (USDC)

11.3.1. Card Funds Access After implementation of the USDC program, the agency disburses payments to a card account and the funds are accessed via a debit card issued to a Federal payment recipient. Cards may be funded through a Card Funding Account (CFA) owned by the agency and held by the financial agent, through EFT via the ACH network, or by utilizing the Automated Standard Application for Payments system to authorize the financial agent to draw down agency funds. Funds held in a CFA must be reflected in the DO Cash TAS. DOs establish funds in a CFA through an EFT for Cash and record the funds on the DD 2657. Disbursements out of the CFA must be reported as cash disbursements.

12.0 ELECTRONIC COMMERCE AND DEPOSIT OF PUBLIC FUNDS

12.1 GENERAL

12.1.1. Per 31 U.S.C. §§ 3302 and 3322, disbursing officers (DO) may deposit public funds and draw public funds from the Treasury or a depositary only as necessary to make payments. Additional statutes, regulations, and other guidance are referenced under each section of this chapter.

12.2 ELECTRONIC FUNDS TRANSFER (EFT)

12.2.1. Per 31 U.S.C. § 3332, EFT is mandatory within the DoW. Exceptions are provided in I TFM 4A-2000.

12.2.2. Payment and payroll files must transmit to the Federal Reserve Bank (FRB) by electronic file transmission.

12.2.3. Official Authorization List (OAL) for the FRB

12.2.3.1. Each DO must validate the contact form for the DO's office at least annually. If changes are required, follow the process in the FRB Service guidance on the FRB Services web page in Table S.4 (Sending Point and Service Provider Contact form). Once completed, send a copy to DFAS, Enterprise Solutions and Standards, Disbursing (DFAS-IN/JJFKCD), 8899 East 56th Street, Indianapolis, IN 46249-2700 (dfas.indianapolis-in.jjf.mbx.ess-disbursing@mail.mil), and submit the original to the Fiscal Service, who will sign and forward it to the FRB.

12.3 CARD ACQUIRING SERVICE (CAS)

12.3.1. Activities participating in the CAS must comply with I TFM 5-7000 when processing credit and debit card transactions. To establish a processing relationship, activities must complete and submit the Card Acquiring Service Application (CASA) to Fiscal Service for approval. Before submission, activities must coordinate with their servicing DO.

12.3.2. All activities must settle (balance or reconcile) daily, regardless of the amount accumulated that day. Activities that fail to settle electronically every day must pay the assessed non-qualifying interchange fee. The network bank informs the activity of its cutoff times for deposits. In an electronic environment, settlement should occur through an Electronic Data Capture/Point of Sale during the day, or once at the close of business, to meet the deposit cutoff time.

12.3.3. Based on the report requirements in the participation agreement with the network bank, the network bank makes reports of the merchant's credit and debit card activity available electronically to the participating DoW activity (merchant). The summary details deposit dates, deposit dollar amounts, number of transactions processed, adjustment charges, and chargebacks. The activity must use this report to reconcile any differences between the report and accounting system entries. The activity must also reconcile the report with the DoD (DD) Form 1131, Cash Collection Voucher, submitted to the DO or Deputy DO, and with the deposit information posted in the Collection Information Repository (CIR).

12.3.4. Each participating DoW activity must establish internal control procedures to ensure the credit and debit card transaction documentation supporting all DD 1131s submitted to the DO is properly safeguarded. The activity must make the documentation available for the DO's quarterly cash verification board, the collection agent audit board, and other audit purposes.

12.4 INTRA-GOVERNMENTAL PAYMENT AND COLLECTION (IPAC) SYSTEM

12.4.1. Originating the IPAC Transactions

12.4.1.1. A collection or disbursement voucher (e.g., DD 1131; Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds; or SF 1034, Public Voucher for Purchases and Services Other than Personal) must be prepared for each bill or payment entered in the system and processed through the DO in the same manner as other vouchers, except that no check or cash payment is sent or received.

12.4.1.2. DoW IPAC transactions require three additional data elements beyond the Treasury required information: when initiating a payment or collection in IPAC, the sender Business Event Type Code (BETC), receiver BETC, and receiver Treasury Account Symbol (TAS) are required for every transaction. An ALC may also require specific or descriptive data necessary to process the transaction completely; this information should be in the Buy-Sell Agreement agreed upon by the participating ALCs. See I TFM 2-5135 for TAS/BETC reporting of accounts F3500 (Collections and/or Payments Default) and 3502 (IPAC Default). Agencies must correctly reclassify, in the Classification Transactions and Accountability, all system defaulted transactions to a valid receipt or expenditure TAS by the third business day following the close of the accounting month.

12.4.2. The IPAC system is available through the last day of each month to enter bills or transfers for that month. However, unless the Buy-Sell Agreements set a different cutoff date and time, agencies must not process new transactions during the last five business days of the month, to avoid month-end accounting problems. When revising Trading Partner Agreements (TPA) to incorporate the five-workday cutoff, agencies must use Fiscal Service Forms 7600A and 7600B as the Department continues to migrate toward G-Invoicing. Each DoW reporting entity must apply the General Terms and Conditions (GT&Cs) for intragovernmental transaction account reconciliation, derived from I TFM 2-4700, to all transactions with internal DoW trading partners currently using G-Invoicing for GT&Cs. Cancelling year transactions must also conform to the fiscal year (FY) cutoff requirement in paragraph 12.9.

12.4.3. Recording IPAC Transactions

12.4.3.1. DoW financial reporting entities should include IPAC in intra-governmental transactions and must develop and implement internal controls to ensure receipt and acceptance is properly documented. Entities must make this documentation available within the timeframe an auditor prescribes when requested during audits.

12.5 PAY.GOV

12.5.1. Implementation

12.5.1.1. Before implementing Pay.gov, activities must obtain the approval of the servicing DO.

12.6 DEPOSITS OF FUNDS

Under 31 U.S.C. § 3302, custodians of money (e.g., DOs) holding cash or negotiable instruments in excess of either current requirements or the amount authorized to be held at personal risk, whichever is less, must make a prompt deposit in an authorized depositary of the Treasury for credit to the Treasurer of the United States. This does not apply to instruments to be returned to remitters in the form received (e.g., deposits of unsuccessful bidders for the sale of government property). Process all physically received negotiable instrument deposit transactions through the Over-the-Counter Channel Application (OTCnet) and cite a valid TAS and BETC at the time of the deposit.

12.6.1. Cash collected and deposited before the end of the business day does not impact the DO Cash TAS. Deposited funds must cite the appropriate TAS/BETC that appears on the DD 1131.

12.6.2. Cash reflected on the DD 2657, Daily Statement of Accountability (on the ending accountability and deposited lines), must cite the DO Cash TAS/BETC at the time of the deposit.

12.6.3. OTCnet

12.6.3.1. Process all physically received negotiable instrument deposit transactions through OTCnet. Agencies unable to use OTCnet for deposits of negotiable instruments due to contingency operations must establish depositary arrangements with US Bank's Mail-In Treasury General Account (MITGA) through the FRB of St. Louis. This includes the deposit of commercial checks and U.S. Treasury checks. For more information on MITGA, see subparagraph 12.6.5.1.2.

12.6.3.2. At a minimum, Block 6 of the OTCnet deposit ticket must identify the depositing entity's name and location and the deposit preparer's name, email address, and phone number. The extent of additional information required in Block 6 is at the discretion of the DO.

12.6.3.3. After scanning items in OTCnet, retain the scanned negotiable instruments until you verify they reside within OTCnet and a good image is on file. This verification must take place within 14 calendar days. Secure scanned items awaiting approval in an approved manner (see Section 4.0, paragraph 4.2). Once verified, destroy the negotiable instruments.

12.6.4. Depositaries

12.6.4.1. III TFM 2-1000 describes general depositaries as commercial banks or other financial institutions designated and authorized by the Treasury to maintain a demand account in its name to accept deposits to the TGA. These depositaries are designated only where needed to receive deposits of public funds for credit to the TGA or to furnish cash to DOs for

official disbursements. If more than one bank is authorized at a base, station, installation, or command, the local commander must give equal recognition when recommending designation of authorized financial institutions as TGA depositaries. After Treasury approval, the commander should reasonably distribute official financial transactions among the approved depositaries. Deposit public funds only in a financial institution approved as a general depositary, except as shown in subparagraph 8.2.4, and mail deposits to a TGA only when given specific Treasury authorization.

12.6.4.2. DOs formally request authorization to deposit collections with a general depositary, or change from one authorized depositary to another, per I TFM 5-2000. This requirement also covers instances when on-base banks or credit union offices undergo changes such as acquisitions or mergers. Send the completed request, no later than 35 calendar days before the desired deposit start date, to the DoW Banking and Credit Union Office by email to dfas.dscc.jjf.mbx.dod-financial-institutions-tga@mail.mil for review, coordination, and submission to the FRB of St. Louis.

12.6.4.3. The DO must advise DFAS-JJF/CO of the date on which the need for a general depositary ceases to exist, and the reason.

12.6.4.4. Limited depositaries are designated only to receive deposits made by or on behalf of DOs for credit to their official non-symbol checking accounts maintained with such depositaries. Limited depositaries may not accept deposits for credit to the Treasury. For additional information on limited depositary accounts, see Section 15.0.

12.6.5. Deposit Requirements

12.6.5.1. Deposit all funds received for credit to the Treasury's account promptly.

12.6.5.1.1. Agencies must deposit receipts totaling $5,000 or more on the same business day received, before the depositary cutoff time. Make deposits as late as possible before the cutoff time to maximize daily deposit amounts. Collections totaling less than $5,000 may be accumulated and deposited when the total reaches $5,000. However, make deposits by Thursday of each week, regardless of the amount accumulated. For additional information, review I TFM 5-2065.

12.6.5.1.2. Send mailed deposits to US Bank's MITGA rather than to the FRB. The MITGA receives deposits of commercial checks, U.S. Treasury checks, and, at the direction of the DO, cash. Before mailing deposits, the DO must establish depositary arrangements with US Bank's MITGA through the FRB of St. Louis. Once approved, establish the MITGA within OTCnet and use OTCnet in conjunction with the MITGA. When using the MITGA during contingencies (when OTCnet is not available), the DO must contact the FRB of St. Louis to obtain

permission to mail a deposit. Once approved, the requestor receives a special form to complete and mail with the deposit. The former SF 215 (manually prepared deposit ticket) may not be used.

12.6.5.1.3. For Navy vessels at sea, when daily mail service is not available, receipts consisting only of personal checks, money orders, and other negotiable instruments may accumulate up to $5,000 before they must be deposited, provided a deposit of all receipts on hand is made at least once each week. The DO prepares the deposits for mailing by registered mail and delivers them to the military post office onboard. The DO may not hold negotiable instruments pending arrival at the next scheduled port of call. Regardless of the total amount, the interval since the last deposit, and the type of instruments on hand, DOs on board naval vessels must make a deposit on the last regular business day before leaving port and on the first regular business day after returning to port for any at sea period exceeding 1 week.

12.6.5.2. Deposit negotiable instruments (e.g., personal checks, traveler's checks, cash, and money orders) payable in U.S. dollars for credit to the Treasury's account at an approved general depositary. DOs may deposit Treasury Checks at Military Banking Facilities overseas.

12.6.5.3. Checks drawn on foreign banks in U.S. dollars, payable through a bank in the United States, must have an American Bankers Association (ABA) routing and transit number (RTN) printed on the item and be magnetic ink character recognition encoded with a U.S. bank's ABA RTN at the bottom left side of the check. Group these checks on a single deposit ticket and deposit them as described in subparagraph 8.3.2.1.

12.6.5.4. In conjunction with OTCnet, deposit cash, checks, drafts, or money orders in person with an authorized TGA. If an in person cash deposit is impracticable at an authorized TGA, the next most preferred method is by armored car. The least preferred method of depositing cash is by registered mail to the MITGA. Because delivery confirmation may require an additional fee to request a copy of the signature record with return receipt, the DO must ensure funding is available. Charge costs for a cashier's check or money order to operations and maintenance or working capital funds available to the DO. If cash must be mailed, the cash must be either double wrapped or placed in an inner and outer container. Deposit damaged or mutilated currency per Section 4.0, subparagraph 4.4.7.

12.6.5.5. Agent officers or any authorized collection officer may make deposits on behalf of the DO when an approved designated depositary is available. These individuals must use OTCnet for deposits.

12.6.5.6. When an approved designated depositary is not available, agent officers or any authorized collecting officers may send cash to the DO by conversion to postal money order, bank money order, or cashier's check. Pay the fee for purchase of the cashier's check or postal/bank money order in cash at the time of purchase and attach the receipt to the DD 1131. Deduct the

cost of the cashier's check or postal/bank money order from the total amount collected. Show in the body of the DD 1131 the total amount collected, the fee for the cashier's check or postal/bank money order, the net collection, the bank, and the date of the money order.

12.6.5.7. When using the OTCnet Deposit Reporting function, all negotiable instruments in payment of an obligation due the United States, regardless of the payee to which drawn, must be endorsed on the back in the 1 1/2 inch space along the trailing edge. Insert the component's name (e.g., Army, Navy, or DFAS) first and then the 4-digit disbursing activity's DSSN in the blank following "DSSN." Enter these manually, mechanically, or as part of the stamp. Enter the date of the deposit in the blank following "Date" to correspond with the bank's business day. See subparagraph 8.3.1.

12.6.5.8. Do not accept checks with conditional endorsements (e.g., "Payment in Full"). Return these checks to the drawers and advise them that the DoW cannot legally accept conditional endorsements.

12.6.5.9. DOs must keep a complete record of negotiable instruments mailed or presented to depositaries, consisting of scanned or photocopied images of both sides of each instrument. If imaging is not possible, prepare a typed or written list showing the source, financial institution on which drawn, type of instrument, serial number, payee, maker, endorser (name of person from whom received when other than the drawer), date drawn, and amount. Copies of collection vouchers or other documents showing the same data are acceptable. Because the DO bears pecuniary liability for an item lost in banking channels when the maker cannot be identified for replacement, the DO must retain these images or lists in active files until CIR confirms receipt of the deposit.

12.6.5.10. When a negotiable instrument is lost, whether before or after deposit, the DO must adjust the affected accounts and immediately request that the maker stop payment and replace it with a new check or other form of payment. DOs must inform members of their legal obligation for the check and offer them another opportunity to replace it. If the military member refuses, the DO may pursue involuntary collection action against the member's pay, as with any other debt.

12.6.5.11. A DO who is transferred or reassigned without being relieved by another DO must deposit all funds before the transfer or reassignment occurs. This includes all funds held by deputies, agents, or cashiers, including imprest and change funds. The DO must report each deposit made during the period, including the final deposit.

12.6.6. Deposit Transactions

12.6.6.1. The DO must immediately record all debit vouchers received on the DD 2657 and include them in the SF 1219 for the month received. Depositaries may process a debit voucher to charge the depositing DSSN when a check is returned unpaid or lost after deposit, and depositaries and the Treasury may issue debit vouchers for other valid charges against a DO's account, such as exchange fees and collection charges on foreign instruments deposited.

12.6.6.2. DOs must comply with debit vouchers received from a depositary whenever any one of these conditions exists: the deposit including the lost or dishonored check was made during the incumbency of the current DO; the deposit was made during the incumbency of a DO whose account is in the 90-day local retention period; or the maker or endorser of the lost or dishonored check is locally available for collection action. If none apply, the current DO must forward the debit voucher by cover letter to the activity designated to settle the former DO's account, and must also send either the original dishonored check returned by the depositary or, for lost checks, a copy of the relevant abstract from the listing of instruments deposited. The cover letter must include the most recent information on the present location and status of the maker or endorser, and the DO must send a copy of the cover letter to the issuing depositary.

12.7 PAYMENT INFORMATION REPOSITORY (PIR)

12.7.1. Reconciliation of EFT Transactions

12.7.1.1. DOs must reconcile their EFT payment data, such as EFT debit vouchers, with PIR. If the purpose of an EFT transaction cannot be determined at the point of origin (time of transaction), the DO must credit either F3875 and F3885 (Budget Clearing Account (Suspense)) or Shared Accounting Module default clearing accounts F3500 for proprietary payments and collections and F3502 for Intra-Governmental Payment and Collection, as appropriate, and follow the guidance in Volume 4.

12.8 CIR

12.8.1. DOs must confirm deposits using CIR. For guidance on deposit reconciliation, see subparagraph 12.8.2.

12.8.2. Deposit Reconciliation – General

12.8.2.1. DOs or their designees must reconcile DoW financial system data daily with CARS and maintain a manual or mechanized subsidiary record of all debit voucher differences. If the purpose of a deposit cannot be determined at the point of origin (time of transaction), the DO must credit either F3875 and F3885 (Budget Clearing Account (Suspense)) or Shared Accounting Module default clearing accounts F3500 for proprietary payments and

collections and F3502 for Intra-Governmental Payment and Collection, as appropriate, and follow the guidance in Volume 4.

12.8.2.2. CARS reporters must ensure there are no uncleared statements of differences before becoming a "Full" CARS daily reporter. Agencies that use the online application within CARS for interagency billings and payments for goods and services no longer receive a statement of difference report (formerly Financial Management Service (FMS) Form 6652) and are no longer required to follow the FMS 6652 guidance. The Treasury compares the value of deposits and debit vouchers reported on DOs' activity reports to those reported through CIR.

12.8.2.3. Treat all differences that have not been reconciled within 60 days of the transaction, and that are validated as meeting the criteria of an actual physical loss of funds, as a loss or overage of funds with the associated pecuniary liability prescribed in Section 7.0. Do not treat timing differences or reporting errors as a loss of funds, but the DFAS site must pursue aggressive action to clear the differences with appropriate offsetting transactions, through the departmental level, Treasury, or agency, within 60 days of the offsetting transaction.

12.8.2.4. DOs must strictly follow the preparation requirements for deposit tickets and debit vouchers and must report all deposit tickets and debit vouchers promptly and properly.

12.8.2.5. Once deposit tickets are released to a depositary, the documents cannot be recalled, corrected, or resubmitted, and the Treasury prescribes specific instructions to approved depositaries on adjusting errors discovered after the day of deposit. DOs must take aggressive action to reconcile or clear all differences as rapidly as possible after the Treasury notifies them that a difference exists.

12.8.2.6. To maintain control, the DO or the DO's designees must monitor deposit activity daily using CIR and maintain a manual or mechanized subsidiary record of all deposit differences. They must review the record of differences at least weekly to ensure the differences clear, and must retain the evidentiary documentation supporting the review for the retention period in Section 16.0, paragraph 16.2. These records need not be certified. Each time there is a change of DOs, the incoming DO must validate the unresolved differences. If the departing DO cannot provide the incoming DO with documentation supporting the unresolved items, the departing DO must process the unsupported items as a loss or overage of funds (see Section 7.0).

12.8.3. Deposit Reconciliation – Discrepancies

12.8.3.1. If the depositary does not confirm a deposit presented by mail within a reasonable period of time, the DO must initiate follow-up action with the depositary to determine the deposit's status. A reasonable period of time is the normal mailing time from the date mailed

to the depositary until the deposit is confirmed, based on past experience, and tactical DOs must consider unit movement schedules and locations when the deposit was mailed. In any event, the DO must initiate follow-up action within 30 days from the date of mailing a deposit.

12.8.3.2. A follow-up request to a depositary must include a copy of the applicable deposit ticket and a description or copies of the instruments in the deposit. The depositary provides confirmation information in response. If the depositary acknowledges receipt of the deposit but refuses to report the transaction to the Treasury, the DO must provide written notification, with copies of all correspondence and documents involved, to DFAS-JJF/CO, which then pursues resolution through the Treasury and provides the DO written instructions on additional actions to take.

12.8.3.3. Depositaries generally prepare debit vouchers only to adjust erroneous amounts on deposit tickets and debit vouchers, to return dishonored negotiable instruments, or to adjust deposit tickets for counterfeit currency, and all debit vouchers depositaries prepare are reported automatically to the Treasury. Unless the DSSN on the debit voucher is not the DSSN of the DO receiving it, the DO must record the debit voucher on receipt and include it in the detailed deposit activity report. This requirement applies regardless of whether the debit voucher is deemed erroneous or the reason for the charge needs further clarification.

12.8.3.4. Daily CIR monitoring alerts the DO that a depositary has issued a debit voucher. The DO must confirm the information in CIR and include the debit voucher on the DD 2657 and detailed deposit activity report during the month of receipt. The DO must report the debit voucher using the month and year of issue reported by the depositary in CIR, not the month and year in which it is being recorded. Section II, Part B, Column (3) of the SF 1219 must indicate the actual month and year of the debit voucher as reported by the depositary, and the detailed deposit activity report must use the same actual month and year.

12.8.3.5. If a transaction occurs near the end of the month and the DO cannot process and report it in the transaction month, a deposit difference will occur. To correct it, the DO must obtain the transaction documentation and process both the payment and the debit voucher on the DD 2657, SF 1219, and detailed deposit activity report during the current month. The DO must report the debit voucher using the actual month and year of the payment reported by the depositary in CIR, not the month and year in which it is being reported, and must include it in the detailed deposit activity report using that actual month and year.

12.8.3.6. Daily CIR monitoring alerts the DO that the depositary has issued a new debit voucher. DOs using depositaries that routinely process debit vouchers this way should contact the depositary in writing to request an explanation and ask that the depositary process the debit vouchers the DO provides with the payment files. If the depositary refuses to process the DO's debit vouchers, the DO must provide written notification, with copies of all correspondence

and documents, to DFAS-JJF/CO, which will pursue resolution through the Treasury and provide the DO written instructions on any additional actions to take.

12.9 CLOSED/CANCELLED ACCOUNTS

On September 30 of the fifth fiscal year after the period of availability for an obligation of a fixed appropriation account ends, the account must be closed and any remaining balance, whether obligated or unobligated, must be cancelled and is thereafter not available for obligation or expenditure for any purpose, unless exempt by a provision of an appropriation law. Collections authorized or required to be credited to an appropriation account but not received before the account closes must be deposited in the Treasury as miscellaneous receipts per 31 U.S.C. Sec 1552(a). All cancelling-year transactions, such as transactions to be paid from an appropriation cancelling at the end of the current fiscal year, must be submitted to DFAS no later than September 15 each year, or the business day before when September 15 falls on a weekend.

13.0 QUESTIONABLE AND FRAUDULENT CLAIMS

13.1 GENERAL

13.1.1. This chapter establishes policy for processing questionable and fraudulent claims presented for certification or payment that a Certifying Officer (CO) or Disbursing Officer (DO) believes to be illegal or improper. Determining potentially fraudulent claims is the responsibility of the CO and DO. The CO and DO must research claims and base their determinations on the criteria in this chapter and the legal opinions of the supporting Staff Judge Advocates (SJA) or other legal counsel. A fraudulent claim is any intentional deception designed to unlawfully deprive the United States of something of value or to secure from the United States a benefit, privilege, allowance, or consideration to which a claimant is not entitled. This chapter also addresses a CO's, DO's, or head of an agency's right to request an advance decision from the appropriate authority.

13.1.2. Authoritative Guidance

13.1.2.1. Under Title 31, United States Code (U.S.C.), section 3529 (31 U.S.C. § 3529), a CO, DO, or head of an agency may request an advance decision on the propriety of any prospective payment from an authorized official. This authority does not cover legal decisions on payments already made or hypothetical cases.

13.2 ADVANCE DECISIONS

13.2.1. The submitter of an application states the facts and evidence supporting the reasons for the request and on which to base the decision. An application must generally include a specific claim or voucher. The submitter sends applications through the Office of General Counsel (OGC) of the DoW Component or the DFAS to the DoW Deputy General Counsel (Fiscal) (DoW

DGC(F)) for determination. The affected Component or DFAS OGC must attach a legal memorandum discussing the legality of the proposed payment under the circumstances. The responsible activity, DFAS site, or appropriate OGC may return cases involving entitlement questions already clearly decided authoritatively, with a determination that no advance decision is necessary. A submitter may resubmit such a determination through the responsible activity for reconsideration.

13.2.2. An advance decision is conclusive for the specific payment involved on the question presented. Although an advance decision is conclusive only for the specific payment reviewed, COs must use the principles cited in the decision when making future entitlement decisions.

13.3 FALSE, FICTITIOUS, OR FRAUDULENT CLAIMS

13.3.1. If there is reason to suspect that a claim presented for certification or payment contains fraudulent information, the CO must request that their commander or comparable authorized civilian initiate an investigation into the suspected fraud. A DO who suspects that a certified voucher is fraudulent must return it to the CO. The requirement to request an investigation applies regardless of the dollar value. Once the investigation and legal review by the supporting SJA or other legal counsel are complete, the investigating officer (IO) gives the CO and DO a copy of the completed report of investigation (ROI). See Section 7.0 for ROI guidance.

13.3.1.1. If the ROI does not support a finding of fraud, the CO may certify the voucher for payment of all amounts to which the claimant is entitled. The CO must document the reasons for the determination and maintain the documentation in the CO's records.

13.3.1.2. If the ROI confirms that some items of the claim are fraudulent, the claimant may submit to the CO a new claim for the items the ROI identified as not fraudulent. A claimant who protests the determination of fraud and insists on payment of the entire claim may submit a new claim for the items denied because of fraud. The CO processes the reclamation for the disallowed items as prescribed in subparagraph 13.3.3.

13.3.2. A CO or DO who suspects that a claim was paid based on fraudulent information or documents must review the retained copy of the claim to determine whether it contains false information.

13.3.2.1. A CO or DO who suspects that a paid claim is fraudulent must inform his or her commander or comparable authorized civilian, who then initiates an investigation of the suspected fraud regardless of the dollar value involved. See Section 7.0 for ROI guidance. After the investigation, the supporting SJA or OGC reviews it for legal sufficiency. The IO then gives the CO and DO each a copy of the final ROI.

13.3.2.2. On learning of an improper payment based on suspected fraud, the CO or DO sends an ROI to the supporting DFAS site through their commander or comparable authorized civilian equivalent. The ROI must include a basic statement of the irregularity, the date, amount, and identification of the individuals involved. On completion of the final recovery, investigative, or other negative action, the CO or DO advises the supporting DFAS site.

13.3.2.3. If the CO determines that some or all items of a paid claim are fraudulent, the CO may not certify any of the items for repayment.

13.3.2.4. Losses resulting from fraudulent acts are improper payments, except losses within the disbursing office. The DO leaves them charged to the appropriations cited on the payment vouchers (see Section 7.0). Any losses, regardless of the dollar amount, where there is evidence of fraud within the disbursing office (for example, embezzlement or fraudulent acts by disbursing personnel) are physical losses (see Section 7.0).

13.3.3. Reclamation of Items Disallowed or Recovered Due to Fraud

13.3.3.1. The CO sends reclamations for items disallowed or recouped due to fraud through the appropriate office in his or her chain of command to the DoW DGC(F). For a claim denied in its entirety, submit the original claim. Send the completed claim with a cover letter or memorandum from the CO stating why the claim is fraudulent, with the statement: "I have not certified and will not certify this claim for payment unless authorized by competent authority." Include the original and two copies of all supporting documents and the orders with all endorsements for a travel claim, and a copy of the paid voucher for the items free of fraud.

13.3.3.2. A CO may not certify a reclamation claim for any or all of an amount recovered by the government due to an illegal or improper payment of any voucher item obtained by fraud or misrepresentation processed under subparagraph 13.3.3.

13.3.3.2.1. The CO or DO must send paid fraudulent claims to the appropriate pay office and local OGC or SJA for referral to the Defense Criminal Investigative Service or military criminal investigative organization. Recover payments based on substantiated claims of fraud by direct repayment from the employee through salary offset or by other procedures in Volume 16. The CO or DO may take no further action on the paid fraudulent claim until OGC or SJA gives the CO or DO specific processing and disposition instructions.

13.3.3.2.2. Under 37 U.S.C. § 1007(c) and the guidance in this chapter, the CO or DO collects debts owed by military members. When a debtor requests reconsideration of a fraud determination, the creditor organization submits the debtor's evidence or statements to the local SJA for review.

14.0 FOREIGN DISBURSING OPERATIONS

14.1 GENERAL

14.1.1. Overview

14.1.1.1. Where U.S. currency use is prohibited or diplomatic or financial considerations make it inadvisable, the senior commander must consult other U.S. military commanders and U.S. Department of State (DoS) representatives in the area to determine the local government's foreign currency control regulations, and must issue instructions that conform to DoS procedures and those local regulations. Disbursing Officers (DOs) must follow the disbursing guidance in Section 10.0 on voucher certification and substantiation before executing payment transactions, including advances, equitable claims, and payments to third parties.

14.1.1.2. The same policies governing domestic disbursements apply to foreign currency disbursements. Except where U.S. diplomatic or financial relations make use of the U.S. dollar (USD) inadvisable, U.S. currency or Treasury checks are the only media of exchange for:

14.1.1.2.1. Basic salaries, special and incentive pay, and allowances (e.g., subsistence and housing) in USDs for U.S. military personnel stationed overseas;

14.1.1.2.2. Salaries and differentials to similarly situated U.S. citizen civilian personnel in fulfillment of U.S. contractual or statutory obligations in USDs;

14.1.1.2.3. Per diem;

14.1.1.2.4. Travel expenses; and

14.1.1.2.5. Purchases from appropriated and nonappropriated fund activities located in the foreign currency area.

14.1.1.3. A disbursement voucher may serve as both a payment voucher and a collection voucher for transactions involving setoff or deduction to recover an amount owed by the payee, with the net amount due disbursed to the payee. All disbursements must be supported by formal disbursement vouchers (see Section 10.0, paragraph 4.0). The Volume 1 financial records retention requirements apply to contingency operations.

14.1.1.4. International Treasury Services (ITS.gov), the U.S. Department of Treasury's comprehensive international payment and collection system, is the preferred method to issue foreign currency payments electronically and to issue international USD wire transfer payments.

14.2 EXCHANGE OF U.S. DOLLARS FOR FOREIGN CURRENCY

14.2.1. When it is not practical to use ITS.gov, or the DO does not have a limited depositary account (LDA) in the currency to be paid, the DO may acquire foreign currency. An appointed DO may obtain foreign currency only for official purposes, such as paying U.S. Government creditors and exchanging foreign currency or other negotiable instruments for which the DO is accountable. Foreign currency obtained may be held as currency or in an LDA (see Section 15.0). DOs may obtain foreign currency from the sources in subparagraph 14.2.2 and from sources authorized by the government of the country concerned. When DOs exchange USDs for foreign currency, the following guidelines apply:

14.2.1.1. Exchange foreign currency only when it is needed for immediate funding requirements. DOs must ensure that payment for foreign currency purchases is made on the value date.

14.2.1.2. Speculation in foreign currency is prohibited.

14.2.1.3. Any change in program costs resulting from foreign currency use in international financial arrangements is the responsibility of the involved U.S. or foreign program agencies.

14.2.1.4. Foreign currency must not be purchased by forward contracts directly from foreign governments, private firms, or individuals at a negotiated rate without prior Treasury authorization. Submit such requests through DFAS, Disbursing Policy (DFAS-ZPTA), 8899 East 56th Street, Indianapolis, IN 46249-0500 (dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil).

14.2.1.5. Limit DO foreign currency holdings in a safe, vault, or LDA to no more than a seven-business-day requirement, unless the Treasury authorizes an increase (see Section 15.0, subparagraph 15.3.10.2.1). This limit includes foreign currency held by all authorized deputies, agents, and cashiers within the disbursing office and at remote locations.

14.2.1.6. Acquire foreign coins only to fill specific needs or when received as change incident to an official cash payment in foreign funds.

14.2.1.7. Prepare foreign currency reports per paragraph 7.0.

14.2.2. Procurement of foreign currency from U.S. Government or commercial sources requires a certificate or statement showing the amount purchased, the rate of exchange, the amount of USDs paid, the date, and the source or seller. Include the certificate or statement with the monthly financial reports. DOs may use ITS.gov to acquire foreign currency via electronic funds transfer. Each exchange voucher must be submitted in support of the disbursing office accounts

and attached to the monthly Standard Form (SF) 1219, Statement of Accountability. A DO may also obtain foreign currency from the following sources:

14.2.2.1. Other U.S. Government sources include DoW DOs, U.S. DOs (USDOs), cashiers at American Embassies, or the Federal Reserve Bank of New York (FRBNY). Normally, the DO draws a U.S. Treasury exchange-for-cash check and endorses it to the order of the officer furnishing the foreign exchange. When foreign currency is purchased from a USDO or an American Embassy cashier, the check may be issued to the American Embassy. When foreign currency is purchased from the FRBNY, the DO makes appropriate shipping arrangements; and

14.2.2.2. DoW Military Banking Facility (MBF). When possible, DOs can purchase foreign currency from a MBF (includes funds for LDAs) using a U.S. Treasury exchange-for-cash check.

14.2.3. Absent ready access to the Federal Reserve System, the DO may request Treasury approval to establish currency custody LDAs with the government's contractor-operated MBF. The DO must settle daily with the MBF. Report the balance held in custody accounts on the Custody or Contingency Cash line of the DoW DD Form 2657, Daily Statement of Accountability, reflected in the DO Cash Treasury Account Symbol (TAS), and on the SF 1219.

14.2.4. Subject to subparagraph 3.3.4, DOs may purchase foreign currency from individuals. DOs may also receive foreign currency as refunds from foreign vendors or in payment for sale of excess foreign property per DoD Manual (DoDM) 4160.21-V1. Foreign currency sales receipts from post offices, exchanges, commissaries, and other nonappropriated fund activities are not collections by the disbursing office, but may be acquired by purchase only to the extent necessary to acquire foreign exchange for the LDA.

14.3 FOREIGN EXCHANGE TRANSACTIONS

14.3.1. Policies for Financial Transactions

14.3.1.1. Withdraw dollars from the Treasury on behalf of any program management organization only as needed, based on the recipient organization's funding requirements to carry out the project.

14.3.1.2. Negotiate dollar outlays as close as possible to the need for current program expenditure to support international programs requiring U.S. funding.

14.3.1.3. Obtain the U.S. Government share of funding required to support a program by appropriation, with no part derived from interest earned on U.S. contributions. DoW Components must ensure that any interest earned is deposited promptly to the Treasury General

Fund Receipt Account 3220 (General Fund Proprietary Receipts, Not Otherwise Classified, All Other).

14.3.1.4. Consider the fiscal needs and funding policy concerns of each participating country or international organization, provided that U.S. Government cash management policies are not compromised.

14.3.1.5. Accommodate the financial policies of each participating country or organization to the maximum extent feasible. Except for arrangements entered into solely to implement U.S. international monetary policy, retain USDs in the Treasury until actually required for immediate disbursement, to minimize interest cost on the public debt.

14.3.1.6. Act on requests from a foreign country or international organization for the temporary deposit and safekeeping of USDs in trust in a Treasury account on their own merit. Base the decision on the reason for the request, the specific financial arrangements proposed, and the relevant U.S. Government political and general financial considerations. All requests must include a recommendation from the local commander and be submitted to DFAS-ZPTA/IN (dfas.indianapolis-in.zpf.mbx.disbursingdebtmanagementpolicy@mail.mil).

14.3.1.7. DoW Components must not invest funds on behalf of a foreign country or international organization when receipt of such funds serves as a basis for creating contract obligation authority for the DoW Component or other U.S. Government department or agency.

14.3.1.8. DoW Components must ensure that their administrative practices do not compromise application of these general policies in negotiations with foreign countries and international organizations.

14.3.2. Accommodation Exchange Services

14.3.2.1. Commanders may approve and implement accommodation exchange services only after determining that:

14.3.2.1.1. Contract MBFs, other on-base financial institutions, exchanges, commissaries, or U.S. Postal facilities cannot fulfill the needs of DoW personnel;

14.3.2.1.2. The DO or agent has an immediate need for the foreign currency repurchased; or

14.3.2.1.3. Resources are available to provide these services without impacting levels of other financial services (e.g., primary disbursing and related functions).

14.3.2.2. When satisfactory local banking facilities are not available to conduct accommodation transactions, and after the commander approves a written check cashing policy, DOs may use official funds to:

14.3.2.2.1. Disburse foreign currency for checks, drafts, bills of exchange, and other instruments payable in USDs; and

14.3.2.2.2. Cash foreign currency checks drawn by accountable officers of the U.S. on non-symbol checking accounts for the same currency in which drawn, when the currency is needed by the officer for official purposes.

14.3.2.3. MBFs normally make accommodation exchanges of foreign currency at installations served under the DoW MBF contract, and DOs providing accommodation exchange services in those countries obtain needed foreign currency from the MBF at the accommodation rate. DoW personnel must not receive accommodation exchange service from USDOs or Treasury DOs in areas where DoW DOs provide those services; DoW personnel assigned or attached to U.S. embassy duty may use available embassy cashier services. DOs, agents, and cashiers making these accommodation exchanges must maintain the DD Form 2664, Currency Exchange Record, Record of Individual Exchange Transactions, daily to ensure implementation of the requirements in paragraph 7.0.

14.3.2.4. DOs are prohibited from purchasing foreign currency from individuals in areas served by MBFs under DoW contract. In areas not served by contract MBFs, DOs may purchase foreign currency or instruments payable in foreign currency in exchange for USDs or dollar instruments before an individual's departure on home leave or completion of a foreign assignment. When making such purchases, DOs must comply with the following:

14.3.2.4.1. If the foreign currency presented does not exceed the sum of the individual's salary and allowances for two biweekly pay periods, it may be purchased without requiring any documentation from the departing individual.

14.3.2.4.2. If the foreign currency presented exceeds the amount authorized in subparagraph 3.3.4.1, the requestor must submit a written application to the commander for approval of the purchase. The application must include a statement describing the source of the currency and a statement affirming that none of it was acquired in violation of the local regulations or exchange control laws of the country concerned.

14.3.2.4.3. The purchase of foreign currency with USDs must consider the DO's immediate foreign currency disbursing requirements. A DO may suspend making accommodation exchanges for such time and to the extent necessary to carry out other responsibilities.

14.3.2.4.4. Purchase the foreign currency at the prevailing market rate.

14.3.2.4.5. Keep a DD 2664 daily to reflect the amount and source of purchased funds.

14.3.2.5. The appropriate commander establishes foreign currency accommodation exchange services for dependents of DoW personnel at safe haven areas to which they were ordered by competent authority in an emergency evacuation. These services must be consistent with the amount of exchanges authorized for dependents of U.S. personnel employed by other U.S. Government agencies.

14.4 CURRENCY RATE OF EXCHANGE

14.4.1. Prevailing Rate of Exchange

14.4.1.1. Unless otherwise authorized by the Treasury, carry all foreign currency, including amounts held in LDAs, at the prevailing rate of exchange. Foreign currency acquired without purchase includes burdensharing contributions made in host nation currency and held in accounts authorized by 10 U.S.C. § 2350j. Compute disbursements for official expenditures or accommodation exchange transactions to avoid gains or deficiencies due to exchange rate fluctuations to the extent possible. If no rate of exchange is established by agreement between the U.S. Government and the foreign country, or where no MBF is available, conduct foreign currency transactions at the prevailing rate using the recomputed rate of exchange per subparagraph 14.4.2.

14.4.1.2. When purchasing from sources other than the U.S. Government, DOs must acquire foreign exchange at the best rate available (e.g., fixed or non-fixed legal rate) in the currency in which the exchange will be expended. Follow DoS regulations or the currency-control laws of the country where the currency will be used. Draw Treasury checks to obtain foreign exchange from commercial sources in favor of the DO and endorse them to the order of the banking institution or commercial enterprise providing the funds.

14.4.1.2.1. The best fixed legal rate to the U.S. Government, depending on the circumstances in each country, may be any officially established buying rate for dollars, including diplomatic rates or special rates established by agreement with the country's authorities. When a fixed legal rate prevails, purchase foreign exchange at the best applicable rate for the particular transaction. Purchases at fixed legal rates may be made without obtaining bids, but a statement signed by the seller must evidence each purchase and set forth the pertinent data: the date, amount of purchase, and exchange rate. The DO must retain the statement as a supporting document with the SF 1219 (see Section 16.0, paragraph 16.8).

14.4.1.2.2. When rates legally applicable to the particular transaction are not fixed, or when such rates are fixed but the use of other rates is also legal for the transaction, DOs must purchase foreign exchange at the best obtainable rate. When foreign exchange can be purchased at a non-fixed legal rate, DOs must solicit bids from at least three sources if available.

14.4.1.2.2.1. When practical, solicit bids from sources outside the country of the currency involved. Accept the bid providing the most beneficial exchange rate to the U.S. Government. The DO must include a copy of the certified and accepted bid as a supporting document with the financial reports and keep a copy to substantiate the place of purchase if some of the currency is eventually sold through commercial channels. The DO must retain documentation of the most beneficial bid, accepted and certified, with the SF 1219.

14.4.2. The DO must recompute the operating rate of exchange when the rate of exchange of newly acquired foreign currency differs from that of the DO's current balance. The DO then disburses from the account using the recomputed rate of exchange.

14.4.2.1. Credit gains or charge deficiencies due to rounding to account 6763 (Gains and Deficiencies on Exchange Transactions) using DD Form 1131, Cash Collection Voucher, or SF 1034, Public Voucher for Purchases and Services Other Than Personal, as appropriate. Attach a Certificate of Adjustment, as prescribed in subparagraph 14.4.2.1, to the voucher to support the transaction.

14.4.2.2. The DO or DDO must prepare and sign a Certificate of Adjustment Due to Rounding when a minor gain or deficiency results.

14.4.2.3. Any change in the prevailing rate of exchange causes a gain or deficiency by revaluation because the USD value of the foreign currency changes, except when using the method in subparagraph 14.4.2.1. Whenever possible, revalue the foreign currency on hand (including LDAs) at the beginning of the business day on which a rate change occurs. Determine the new USD value by dividing the total foreign currency on hand (including LDAs) by the new exchange rate, and determine whether a gain or deficiency by revaluation occurred by comparing the USD value at the old rate to the USD value at the new rate. Because DOs carry foreign currency held in the disbursing account at the USD value, adjust that value by the gain or deficiency (loss), recording the revaluation as a collection or disbursement transaction in the DO's account.

14.4.2.4. Gains and deficiencies may occur due to rounding or revaluation. Except when using the method in subparagraph 14.4.2.1, credit foreign currency gains using a DD 1131 and charge foreign currency deficiencies using an SF 1034. Report gains and deficiencies through Classification Transactions and Accountability, citing an increase or decrease to account 6763, the DO Cash TAS, and the proper Business Event Type Codes. Calculate gain/deficiency values for each currency individually by DO/DDO/agent/cashier to keep personal accountability accurate.

DOs may consolidate the net change for all currencies on a single DD 1131 or SF 1034, as appropriate.

14.4.2.5. Code all credits and charges to account 6763 as USD transactions. Use account 6763 only for gains and deficiencies due to foreign currency revaluations. Account 6763 has no relationship with the Foreign Currency Fluctuations, Defense (FCFD) or the Foreign Currency Fluctuations, Construction, Defense (FCFCD) accounts, which are used for differences between the budgeted foreign currency rates at which obligations are recorded and the rates at which they are liquidated. Reflect the FCFD and FCFCD portions of foreign currency disbursements separately on disbursement vouchers as charges to the appropriate foreign currency centrally-managed allotment account established for that purpose.

14.4.2.6. Service members stationed overseas are authorized an advanced overseas housing allowance for security deposits to obtain leased housing. As authorized by the Defense Travel Management Office, the supporting DO pays the necessary amount in the appropriate local currency and charges the appropriate military pay appropriation for the USDE. The preferred method for paying the advanced housing allowance is an LDA check in the local currency of the area involved.

14.4.2.7. The supporting finance office must maintain a tracking system, either by input into the master military pay account (MMPA) or by manual methods, showing the amount of the advance paid in local currency, the USDE, and the exchange rate on the date of payment.

14.4.2.8. At lease termination, service members return the total deposit in local currency to the supporting disbursing office in exchange for a receipt. The supporting disbursing office credits the USDE, based on the rate of exchange in effect on the date of return, to the appropriation charged when the deposit was advanced; compares that rate with the rate in effect on the date of the advance; and posts any gain or deficiency (loss) due to currency fluctuation as a charge or credit, as appropriate, to the current military pay appropriation.

14.4.2.9. If the security deposit was paid in USD, the service member takes the full value of the security deposit in foreign currency to the MBF, converts it to U.S. currency, obtains a receipt indicating the exchange rate, and turns in the U.S. currency and receipt to the disbursing office. The disbursing office prepares a collection voucher for credit to the appropriate military pay appropriation, indicates return of the security deposit, verifies with the MMPA or local record whether a gain or deficiency occurred at the current exchange rate, and prepares the appropriate voucher to credit or debit the gain or deficiency to the appropriate military pay appropriation. The office must ensure the member does not experience any gain or deficiency due to foreign currency fluctuations.

14.5 USE OF FOREIGN CURRENCIES FOR TRANSPORTATION

14.5.1. To the maximum extent possible, use U.S.-owned foreign currencies for transportation when certified air carriers are available and will accept such currencies in payment for U.S. Government-financed, commercial, foreign air transportation of persons or property. Review DoD Directive 4500.09E, Transportation and Traffic Management, for guidance on using these air carriers and determining their availability. When issuing and exchanging Government Transportation Requests (GTRs), Government Bills of Lading (GBLs), transportation warrants, or other procurement documents, state clearly 'PAYMENT IN (foreign currency)' on the form; otherwise, the carrier may demand payment in USD.

14.5.2. In the 'BILL TO' portion of the GTR, GBL, transportation warrant, or other procurement document, DOs must include the name of the requesting agency, address to be billed, and instruction on payment in foreign currency.

14.6 DISPOSITION OF FOREIGN CURRENCY AND NEGOTIABLE INSTRUMENTS

14.6.1. DOs may use foreign currency for payments to foreign personnel and vendors. For miscellaneous advance payments, see Volume 10.

14.6.2. When possible, transfer excess foreign currency to other DoW DOs, USDOs, U.S. Embassies, or accountable officers in a locality with immediate disbursing needs. When the collection of foreign currency causes a noninterest-bearing LDA to exceed immediate disbursing requirements, see Section 15.0, subparagraph 15.3.10.2.1.

14.6.2.1. A DO may sell excess foreign currency to an MBF whenever the currency cannot be sold to another DoW DO. The selling DO uses the MBF buy rate as the rate of exchange on the date it sends the currency to the MBF and accounts for any gain or deficiency due to exchange rate fluctuations when it receives the USD from the MBF.

14.6.2.2. If foreign currency cannot be sold to a DoW DO or MBF, a DO may sell it through commercial channels. If the rate of exchange has been established by agreement between the U.S. and the foreign country, sell or otherwise dispose of the foreign currency for U.S. currency or USD checks at the established rate of exchange.

14.6.2.2.1. For this type of sale, the bank or other entity buying the foreign currency must provide a statement showing the amount of USD supplied, the rate of exchange, the amount of foreign currency received, the date, and the name and address of the bank or entity. The recipient's representative signs the statement, and the DO includes it with the financial reports. A DO may also conduct foreign currency sale transactions with a bank or entity approved by the

Treasury (e.g., an MBF) to establish LDAs in the currency purchased (see Section 15.0, paragraph 15.3).

14.6.2.2.2. When the rate of exchange is not established by agreement between the U.S. and the foreign country, or when no bank or entity is approved by the Treasury to establish LDAs, use a DD 2668 to request at least three bids from reputable banking institutions or dealers in foreign exchange, if available. Sell the foreign currency to the bidder submitting the most beneficial bid, as certified by a commissioned officer other than the DO; the DO accepts the bid and includes it with the financial reports to support gains or deficiencies in foreign currency transactions.

14.6.2.3. If disposition is not possible through a DoW DO or an MBF, follow guidance in I TFM-5-6000 for depositing foreign currency and checks drawn on foreign banks.

14.6.3. Dishonored foreign instruments received by DoW DOs are subject to the regular debt collection procedures. DOs must request removal of dishonored-item deficiencies for instruments received that become uncollectible (see Section 5.0, subparagraph 5.5.1).

14.6.4. DOs must take every possible precaution to prevent acceptance of mutilated foreign currency as a collection, payment, or exchange transaction. A DO holding mutilated foreign currency must contact local banks or fiscal authorities to arrange the exchange of mutilated or unfit currency for fit currency.

14.6.5. DOs must take every possible precaution to prevent acceptance of counterfeit currency as a collection. If the collection is counterfeit, see section 2030.50 in I TFM 5-2000. If no agreement exists with the foreign government, ship the currency to the appropriate investigative agency or nearest military security agency. Obtain a receipt for the currency and account for it in the DO's records in the same manner prescribed in Section 4.0, paragraph 4.6 for counterfeit U.S. currency. A DO at fault in acquiring counterfeit foreign currency is accountable for the value of the currency and must submit a request for relief of liability per the process in Section 7.0, paragraph 7.6. This is the same process used for accountability for receipt of counterfeit U.S. currency.

14.7 RECORDS AND REPORTS

14.7.1. Treat transactions involving foreign currency as cash transactions and follow the same principles and guidelines established for controlling U.S. currency. DOs, DDOs, agents, and cashiers who engage in foreign currency transactions (e.g., collections, disbursements, and accommodation exchanges) must document them on the DD Form 2663, Foreign Currency Control Record. This form shows current balances of foreign currency on hand (all foreign currency held

by cashiers, in the vault, or by other agents of the DO) and in LDAs, as well as the detailed transactions that increase or decrease these balances.

14.7.2. Maintain separate DD 2663s for each type of foreign currency used (e.g., Kuwaiti Dinar, Euro, and Japanese Yen). Also maintain a separate DD 2663 for accommodation exchange foreign currency carried at an exchange rate different from that used for disbursements. DOs may maintain separate DD 2663s for foreign currency on hand and in LDAs.

14.7.3. Foreign Currency Reports

14.7.3.1. Include with the foreign currency reports a cover sheet with the following headings: Country of Currency; Monetary Unit; Number of Units Purchased; Total Dollar Outlay; and Memorandum-Dollar Outlay for Accommodation Exchanges. Reports are due within 15 calendar days after the close of each quarter to the supporting DFAS site. Reports may be combined and submitted as one report.

14.7.3.1.1. The Cumulative Report of Foreign Currency Purchased With USD From Sources Outside the U.S. Government is cumulative for the fiscal year. Include the amounts acquired through accommodation exchange transactions as well as purchases from banks and other dealers in currency exchange.

14.7.3.1.2. The Report of the Balance of Foreign Currency Held Under Dollar Accountability is due by the end of each quarter to the same DFAS site as the cumulative report. It may be combined with the cumulative report.

14.7.3.1.3. The Report of Foreign Exchange Received by DOs and Credited Immediately to Miscellaneous Receipt Accounts of the Treasury is a cumulative report of outside purchases and a quarterly report of balances of foreign currency on hand. These funds are received for items such as fees and services and are immediately purchased by DOs with appropriated funds for their operating needs. Exclude repayments to appropriations.

14.7.3.2. DFAS sites must consolidate the DOs' quarterly reports and forward them to DFAS, Departmental Reporting Directorate, Treasury Division, Reporting Operations Branch, Column 334Z-1, 8899 E. 56th Street, Indianapolis, IN 46249, in time for delivery to the Treasury 45 calendar days after the close of each quarter.

14.7.3.3. Report foreign currency balances held in USDE on the SF 1219, including those in LDAs.

15.0 LIMITED DEPOSITARY CHECKING ACCOUNTS

15.1 GENERAL

15.1.1. If Treasury's International Treasury Services (ITS.gov) will not support mission requirements, DoW disbursing officers (DOs) may maintain official limited depositary accounts (LDAs) for check or electronic funds transfer (EFT) payments in foreign currencies with banks Treasury designates as "Depositaries of Public Moneys of the United States." LDAs are cash and investments held outside Treasury funds and must be reflected in the DO Cash Treasury Account Symbol. LDA transactions follow the same reporting process to the Payment Information Repository (obtaining funds) and to Classification Transactions and Accountability (cash disbursement and collections) as U.S. dollar transactions, and must be recorded on the DD 2657, Daily Statement of Accountability, and the SF 1219, Statement of Accountability.

15.2 SOLICITATION

15.2.1. Overview

15.2.1.1. When anticipating a new LDA, a DO (or designated deputy DO (DDO)) confers with the local U.S. Embassy or Consulate to determine which banks meet the criteria, then solicits all American-owned and leading local financial institutions in the area to find the most beneficial arrangement. The solicitation must be competitive, letting all banks submit written information on identical questionnaires or requests for banking proposals. To determine the most beneficial arrangement, a DO weighs, in descending order of importance: (1) standard operating services minimally required; (2) customary local banking practices (for example, telex cost or armored car service); and (3) other special services a particular country or circumstance may require (for example, payment of interest on the account or waiver of miscellaneous charges). The required services must include capability to honor payments to payees in outlying areas, processing of checks and, if possible, EFTs and deposits, provision of a daily or a monthly bank statement as needed, and acceptance of the DO's funding procedures.

15.2.1.2. DOs must ensure LDA banks are valid, reflect a high level of American ownership, and are financially secure, dependable, and reliable, to avoid losses and protect U.S. Government funds. Unsolicited proposals to operate an existing LDA may be received at any time, and the LDA is open to all interested financial institutions.

15.2.2. After selecting a reliable financial institution with beneficial banking arrangements, a DO must send a request for approval and designation of an LDA to DFAS Enterprise Solutions and Standards (ESS) Disbursing, Indianapolis (DFAS-JJFKCD/IN), 8899 E. 56th Street, Column 301S, Indianapolis, IN 46249

(dfas.indianapolis-in.jjf.mbx.ess-disbursing@mail.mil). ESS Disbursing reviews the request and sends it to Treasury's Bureau of the Fiscal Service before the account is established.

15.2.2.1. Requests for U.S. dollar (USD) accounts must include documentation showing the DO requested and received a commitment from the proposed bank to pledge collateral. If the bank agrees to pledge collateral, the DO may request a USD operating account; otherwise, the DO may request only a USD zero-balance account.

15.3 ESTABLISHING AND MAINTAINING AN LDA

15.3.1. Once Treasury approves a request, establish the LDA in the name of the assigned DO, DDO, or another agent the DO designates. Limit authority to sign checks drawn on the LDA to the DO and other appointed DDOs or agents. A DO who transacts business in multiple foreign currencies must establish and maintain a separate LDA for each currency.

15.3.2. The commander must certify by letter the name and rank of the DO assigned to the activity, stating that the DO is authorized to maintain an LDA with official U.S. funds in the name of the activity. If the LDA custodian is a DDO or another agent of the DO, the commander's letter must identify that DDO or agent and:

15.3.2.1. Certifies that the account is subject to checks issued by the DO, other appointed DDOs or agents, and their successors in the office;

15.3.2.2. Includes signature specimens of the DOs and authorized DDOs and agents, and a certification that the signatures are those of the personnel authorized to transact business with the limited depositary (LD); and

15.3.2.3. Requests the bank acknowledge acceptance by endorsement of the letter, in triplicate. The bank should retain the original letter and return two copies to the activity.

15.3.3. Blank LD Checks

15.3.3.1. Control and safeguard blank LD checks the same way as Treasury checks under Section 8.0, subparagraph 8.2.4. If LD checks are lost or stolen, the DO must immediately notify the LD of the serial numbers, place stop-payments against them, and submit copies of the stop-payment requests with the next original LD reports.

15.3.4. Preparation of LD Checks

15.3.4.1. DOs must maintain a record of all LD checks issued, including payee names, voucher numbers, amounts (in the check's currency), check serial numbers, check dates, and the activity name under which the account is established. Other information about the purpose

of the checks and local identification codes is optional at the issuing DO's discretion. The record may be on paper, electronic, or data-processing media. Keep a separate record for each LDA, and include records of check issues with the retained disbursing records.

15.3.5. When a payment is made with an LD check, enter the notation "LD Check No. X" on the disbursement voucher. A receipt is not generally required for a check payment, but local laws may bar LD checks drawn outside the United States from being returned to the drawer. In those cases, show evidence of receipt of the payment on the voucher on which the LD check payment appears.

15.3.6. Before mailing any LD checks outside the country in which the LD is located, the DO must verify that doing so is not prohibited by the Status of Forces Agreements or the banking laws of the countries involved (see Section 8.0, subparagraph 8.5.4).

15.3.7. When an irregularity occurs after check delivery and the check is still outstanding, the DO must stop payment on the check and provide a complete report of the facts with the stoppage request. If the irregularity is discovered after the check is paid, the DO must notify the depositary of the irregularity.

15.3.8. Some LDs pay interest on LDAs. When possible, the DO must obtain interest on the LDA, canvassing the market for the highest interest rate legally available consistent with disbursing requirements, and must monitor interest-bearing accounts to ensure interest is paid timely under the agreements between the DO and the banks. When notified that interest has been credited, the DO prepares a DD Form 1131, Cash Collection Voucher, crediting receipt account 3220 (General Fund Proprietary Receipts, Not Otherwise Classified, All Other) for the U.S. dollar equivalent (USDE) of the interest, and records the transaction as both a collection and an increase.

15.3.9. Keep daily LDA balances as near zero as possible and maintain them solely to support disbursing requirements. Draw LDA checks against new deposits only after the LD confirms the deposits. If foreign currency collections cause a non-interest-bearing LDA to exceed a 5-to-7 business day supply and all attempts to sell the currencies to other DOs are exhausted, the DO must sell the foreign currency for USDs for deposit to a bank designated as a Treasury General Depositary, or request a waiver per subparagraph 3.10.2.2. LDAs approved to hold funds beyond the 5-to-7 business day supply do not require a balance reduction but must comply with any stipulations in the LDA request approval (see paragraph 2.2.1). Do not use LDA balances, or the forfeiture of potential interest earnings, to subsidize banking services otherwise funded through the appropriation process.

15.3.10. Review of LDA

15.3.10.1. Commanders must require review of the LDAs a DO maintains to ensure compliance with this chapter. The cash verification team (see Appendix A) performs this unannounced review quarterly, upon transfer of accountability to a successor DO, before the outgoing DO departs the command, upon deactivation of the LDA, or upon a change in the designated settlement office.

15.3.10.2. DOs must review LDAs on a continuing basis to ensure:

15.3.10.2.1. Balances must not exceed immediate needs (typically a 5-to-7 business day supply). Transfer excess funds beyond the immediate need to other DoW DOs, State Department U.S. DOs, or a U.S. Embassy; withdraw and deposit the funds with Treasury; or obtain Treasury approval to exceed the 5-to-7 business day supply. Waivers to exceed the 5-to-7 business day supply must be requested from Treasury (see I TFM 4A-30140.20). Contact DFAS-JJFKCD/IN at the email address in subparagraph 15.2.2 for procedural guidance on waiver requests.

15.3.10.2.2. At least every three years, for each account, the DO must determine whether it would be cost effective to solicit competitive proposals from all American-owned and leading local financial institutions in the area to secure the most beneficial banking agreement.

15.3.10.2.3. Watch for significant events that affect the designated bank (for example, bank closure). Upon learning of such an event, the DO must immediately notify Treasury's Over-the-Counter Revenue Collection Division through DFAS-JJFKCD/IN at the email address in subparagraph 15.2.2.

15.3.11. See Volume 12 for the overall policy and responsibilities for accepting, receiving, using, and reporting burdensharing and relocation monetary contributions to the DoW. DOs must include any burdensharing and relocation monetary contributions held in an LDA in the semiannual cash holding authority requests (see Section 4.0, subparagraph 4.1.3) and in their ending accountability on the DD 2657 and the DO Cash Treasury Account Symbol. Burdensharing and monetary contributions held in an LDA in excess of the 5-to-7 business day supply must be approved with the original LDA request or require an approved waiver from Treasury.

15.4 VOIDED AND SPOILED LD CHECKS

15.4.1. Treat original LD checks that are not to be issued as voided or spoiled. Void LD checks with writing errors (for example, a wrong name or amount), checks physically damaged during preparation, and checks for which the entitlement area has withdrawn the voucher. Mark these checks conspicuously to prevent their negotiation, whether in error or through fraud. Prepare

separate listings of voided and spoiled checks monthly and attach them to the SF 1149, Statement of Designated Depositary Account.

15.4.2. The functional area authorizing payment of a voucher may request that a check be voided. The DO bases that decision on the payee's non-entitlement to payment or an error in the way the check was drawn. Do not report voided checks as issued in the DO's check report. Upon deciding to void a check, render it non-negotiable. Do not store voided checks in the safe or vault of the DO or any deputy or agent. At the end of each month, prepare a listing entitled "Voided Checks" showing the accounting month, the LD name, and the LDA number, and send the listing with the originals of all voided checks with the monthly SF 1149.

15.4.3. Spoiled Checks

15.4.3.1. Replace a spoiled check with the next available serially numbered check, entering the same information that appeared on the original check except for the check serial number and the issue date. Render the original check non-negotiable.

15.5 TRANSFERRING PROCEEDS OF LD CHECKS

15.5.1. An uncurrent LD check is one that has not been negotiated through the LD one fiscal year after the fiscal year in which it was issued, except where local laws require a shorter negotiable period. The amount of these checks must be transferred to Treasury or credited to the original appropriation. A transfer of LDA check proceeds may arise from undeliverable checks or checks due to deceased or incapacitated payees.

15.5.2. The DO who issued the original check, a successor DO, or a settlement officer designated by the supporting DFAS site must transfer proceeds of uncurrent checks to Treasury each October.

15.5.2.1. The DO must immediately give a copy of the uncurrent check listing to the LD, request that it place stop-payments on all listed checks, and instruct the LD to advise any payee presenting a listed check to submit it to the disbursing office for transmittal to and settlement by the Department of the Treasury, Bureau of the Fiscal Service, Attn: Fiscal Accounting, Budget Reporting Branch, 3201 Pennsy Drive, Building E, Landover, MD 20785.

15.5.3. Transferring Proceeds

15.5.3.1. Hold undeliverable LD checks only until the DO determines they cannot be delivered with the information available, but no longer than 60 days from the date of issue.

15.5.3.2. Record undeliverable LD checks on a DD 2658, Returned and Undeliverable Check/Bond Record, including a complete description of the checks, the disbursing

voucher numbers, the dates the checks were returned, the disposition of the checks, the disbursing official authorizing the disposition, and the disposition dates. The DO, DDO, or a third person with the DO's written authorization must approve disposition of undelivered checks.

15.5.3.3. Protect undeliverable LDA checks held in the disbursing office the same as cash, and file them in the order best suited for easy retrieval and identification.

15.5.4. Claims for the Proceeds of Undeliverable Checks

15.5.4.1. When there is any question of law or fact, send claims for the proceeds of undeliverable checks to DoW, Office of the General Counsel (OGC), 1600 Defense Pentagon, Washington, DC 20301-1600.

15.6 CANCELING LD CHECKS

15.6.1. Cancel LDA checks when their proceeds are not due to payees or their estates but are for credit to an appropriation or fund account. The procedure to cancel these checks depends on whether the account is open or closed, whether the check is current or uncurrent, and whether the check is available or unavailable to the DO maintaining the LDA. Contact DFAS-JJFKCD/IN at the email address in paragraph 15.2.2 for procedural guidance and processing instructions.

15.6.2. If a payee or the payee's estate is not entitled to a check, only the functional area that submitted the certified payment may request the DO to cancel it. Except as provided in this paragraph, use an SF 1098 to list and report all such canceled checks. Where practicable, the functional area that authorized the original payment prepares the SF 1098.

15.7 REPLACING MISSING, MUTILATED, AND FORGED LD CHECKS

15.7.1. On receipt of a claim for a check reported as not received, lost, stolen, destroyed, mutilated, forged, or defaced, the DO must determine from the LD or from retained records whether the check is outstanding. The DO issues a replacement check under this chapter only when the check is reported outstanding and unpaid before the end of the fiscal year following the fiscal year it was issued, and the issuance involves no question of law or fact.

15.7.2. The payee or other claimant must notify the DO in writing (with signature) when a check has been lost, stolen, mutilated, or destroyed and request that payment on the check be stopped. The notification must provide all information available on the check. The federal agency must attempt to obtain a replacement without an Agreement of Indemnity. When a replacement cannot be obtained without an Agreement of Indemnity, the agency requests one from Fiscal Service; the specific documents required for an indemnification request are listed in I TFM 5-5035.20.

15.7.3. This guidance for claims on paid checks applies to all LDAs. The payee must immediately notify the DO in writing (with signature) when a check has been paid on a forged endorsement, providing all available information identifying the forged check. The payee completes the Financial Management Service (FMS) Form 1133, Claim Against the United States for the Proceeds of a Government Check, and returns it to the DO who issued the original check within 90 days of the date on the FMS 1133.

15.7.4. If the original LD check is recovered before a replacement check is issued, suspend the replacement action and request that the LD remove the stop-payment against the original check, which the payee may then negotiate. If the replacement check has already been released, render the original check non-negotiable.

15.7.5. Referral to DoW Office of General Counsel

15.7.5.1. Send cases involving questions about a payee's or owner's entitlement to a substitute or settlement check, and cases where the court has appointed no legal representative for a deceased or incapacitated payee or owner, through command legal channels to the DoW OGC. Include an assessment or determination from the appropriate entitlement area about the underlying obligation. Before referring a case, see paragraph 15.6.

15.7.5.2. Send cases involving any question of law or fact through command legal channels for settlement action.

15.7.5.3. Send cases involving checks outstanding more than one fiscal year after the fiscal year in which they were issued through command legal channels for settlement. Include an undertaking of indemnity for the proceeds of a lost, stolen, destroyed, mutilated, or defaced LD check; the check in question, when available, or any identifiable portions of it; and any other supporting documentation.

15.7.6. The DO must retain approved claims and supporting documents, or copies where the originals have been transferred to the supporting DFAS site, as part of the retained records.

15.8 ADJUSTMENT OF CHECK-ISSUE DISCREPANCIES

Internal, Government Accountability Office, or other agency audits, or DO-initiated control measures, disclose LD check-issue discrepancies. These LDA differences are chargeable to DOs, and the DO must make and record adjustments immediately upon discovery. This guidance does not apply to voided, spoiled, or canceled LDA checks, which are addressed in paragraphs 15.4 and 15.5. These discrepancies occur when: the LD pays a check in an amount different from the disbursement voucher and the record of checks issued; the disbursing office draws a check to the wrong payee; the disbursing office issues a check in an amount different from

the disbursement voucher; the disbursing office voids, spoils, or cancels a valid check in error while simultaneously issuing a check that was the subject of an action to void, spoil, or cancel; or the payee advises of a possible overpayment or underpayment. Contact DFAS-JJFKCD/IN at the email address in subparagraph 15.2.2 for procedural guidance and processing instructions.

15.9 LDA TRANSACTION DOCUMENTATION

DOs must implement controls to assure that LD checks are drawn in strict conformance to certified disbursement vouchers. LDAs are part of the DO's accountability for public funds. The DO must maintain complete and accurate records and make them available for audit to ensure the integrity of the LDAs. Treat a loss from a bank failure as a physical loss (see Section 7.0). Contact DFAS-JJFKCD/IN at the email address in subparagraph 15.2.2 for procedural guidance and processing instructions.

15.10 TRANSFERRING AND CLOSING AN LDA

LDAs that are closed or transferred must be reconciled. Before attempting to reconcile an LDA, the DO's agent serving as LDA custodian contacts the LD and requests a current statement of the account and, if available, all paid LD checks since the last regular statement. Reconcile the account by preparing an SF 1149. Contact DFAS-JJFKCD/IN at the email address in subparagraph 15.2.2 for procedural guidance and processing instructions.

16.0 DISBURSING OFFICER ACCOUNTABILITY REPORTS

16.1 GENERAL

16.1.1. Overview

16.1.1.1. All disbursing officers (DOs) are accountable to the U.S. Department of the Treasury (Treasury) for the cash and cash equivalent items (including receivables) in their possession. DOs must submit financial reports to support DoW accountability to the U.S. Government for all public funds collected and disbursed. These reports are the basis for official audits and settlement of accounts by the U.S. Government Accountability Office and provide information to maintain administrative accounting controls.

16.1.1.2. DOs maintain daily accountability on the DD Form 2657, Daily Statement of Accountability. The DO's official monthly accountability is recorded and reported on the Standard Form (SF) 1219, Statement of Accountability. DOs report disbursement and collection transactions on both the DD 2657 and the SF 1219, with collections reported net of disbursements on the SF 1219. Every DO must keep detailed records of all transactions, and these records must be available for examination by authorized representatives. Daily reporting does not affect the use and distribution of the DD 2657; SF 1219; DD 2665, Daily Agent Accountability

Summary; and DD 1081, Statement of Agent Officer's Account. DOs must continue to submit financial reports to supporting DFAS sites based on each site's instructions.

16.2 POLICY

16.2.1. Balancing of Accounts

16.2.1.1. DOs keep documents representing cash in their vault or safe and account for them daily on the DD 2657 and monthly on the SF 1219. The DD 2657 is the permanent written record of the DO's daily balance of cash in possession. When accounts are inspected, DOs must present the DD 2657 to the inspectors for examination.

16.2.1.2. Deputy DOs (DDOs), cashiers, and disbursing agents perform most DO cash transactions. The DO or primary DDO balances all DDOs, cashiers, disbursing agents, paying agents, and collection agents daily using the DD 2665. The DD 2665 is the report of their accountability to the DO, and the DO or primary DDO prepares it from a physical count of all cash and negotiable instruments in their possession.

16.2.2. DDOs, cashiers, and disbursing agents who are geographically distant from the DO (for example, a DO in Indiana and an agent in Afghanistan) must still record transactions by preparing a DD 2665, but they need not submit the DD 2665 to the DO daily. DOs establish the timing of agent turn-ins for their operations. Agent turn-ins must include all DD 2665s, supporting documentation (such as collection vouchers, disbursement vouchers, and deposit tickets), and the DD 1081.

16.2.3. DOs aboard Navy vessels balance their cash using the DD 2657. DDOs, cashiers, and disbursing agents must use the DD 2665 to balance at least weekly, immediately before and after each payday, on the last day of each month, and anytime the DO suspects an irregularity has occurred. When workload and staffing conditions allow, DOs aboard Navy vessels should balance cash accounts for all DDOs, cashiers, and disbursing agents daily.

16.3 DAILY AGENT ACCOUNTABILITY SUMMARY (DD 2665)

The DD 2665 is a stand-alone document that provides a complete picture of a DDO's, cashier's, or disbursing agent's accountability transactions from day to day. Each DDO, cashier, and disbursing agent prepares a DD 2665 for each day during which they transact business. It must summarize that day's business and record the transactions in U.S. dollar values. Paying agents appointed to work with contracting for contingency operations prepare a DD 2665 on the day they turn in all their business to the DO. Avoid a turn-in during the middle of a business day when possible. If a turn-in is required mid-day, prepare a DD 2665 up to and including the turn-in period, then prepare another DD 2665 for the rest of the business day.

16.4 STATEMENT OF AGENT OFFICER'S ACCOUNT (DD 1081)

16.4.1. Agent officers (DOs, cashiers, and disbursing agents) prepare a DD 1081 as a summary of cash transactions and a receipt for cash and vouchers on hand between DOs and their agent officers. The form is prepared when a DO advances funds to an agent and to summarize cash transactions for the period covered by the turn-in. When agent officers settle their account, the DO or principal DDO verifies the DD 1081, signs the original and a copy, keeps the original and supporting documents, and returns the signed copy to the agent officer. The DO or principal DDO must perform a physical count of cash at the time of the turn-in or settlement. The agent officer keeps the signed copy as a record of the opening cash balance for the next period of duty and for record purposes if the account is balanced to zero.

16.4.2. Subject to the parent DO's approval, paying agents in remote operational contingency locations may transmit electronically scanned or facsimile copies of the DD 1081 to the parent disbursing office. A paying agent is solely responsible to ensure that all documentation is legible and that:

16.4.2.1. The scanned or facsimile copies were produced from original documents and cannot be altered;

16.4.2.2. The copies are retained until the applicable retention period expires; and

16.4.2.3. Access to the images is limited to authorized personnel. When paying agents transmit documents electronically, the DO must verify the electronic submissions are in fact from the paying agent. The DO is responsible to ensure that adequate internal controls are implemented to prevent posting duplicate items when receiving electronic and original documents from the operational contingency location. The DO must also provide for the confirmation and acceptance of digitally signed documents and the return of the accepted DD 1081 to the agent.

16.5 DAILY STATEMENT OF ACCOUNTABILITY (DD 2657)

The DD 2657 summarizes the total disbursements and collections made during the business day by the DO and all DDOs, cashiers, and disbursing agents. Section I of the DD 2657 reflects the total DO accountability to the Treasury at the end of each business day. If disbursing operations were to cease, the total amount listed in Section I for the last operational business day would be the amount that the Treasury would seek to recover from the DO.

16.6 STATEMENT OF ACCOUNTABILITY (SF 1219)

In a daily reporting environment, the SF 1219 is no longer required to be submitted to the Treasury. DOs may continue to complete and submit the SF 1219 at month's end to DFAS for reporting requirements based on each site's instructions. The SF 1219 continues to reconcile

deposits, collections, disbursements, and cash balances with Treasury monthly. DOs must still balance to the Treasury monthly account statement, which summarizes the financial activities of federal agencies. DoW has established processes for creating and reconciling the SF 1219 monthly. There is no warrant or apportionment for DO cash and no formal funds control system documentation that legally places responsibility on the DO for the cash; the SF 1219 is a recognized means of establishing responsibility for a specific, verified balance at a point in time. It aligns with accounting reporting cycles (the Governmentwide Treasury Account Symbol Adjusted Trial Balance System bulk file submission), which transmits the end-of-month balance in the DO Cash account(s) and must match the sum of the SF 1219s for each Service to facilitate reconciliation with the general ledger.

16.7 FINANCIAL REPORTS

16.7.1. Overview

16.7.1.1. DOs submit financial reports to DFAS on a calendar-month basis, except for months during which accountability begins or ends on other than the first or last day of a month.

16.7.1.1.1. For a new disbursing office, the accounting period begins on the first day official business is transacted. When one DO relieves another, the accounting period for the relieved officer ends on the date of relief, and the accounting period for the relieving officer normally begins on the next calendar day. Whenever possible, relief of a DO should occur on the last day of a month to avoid submitting an additional set of financial reports for that month.

16.7.1.1.2. An accounting period may not extend beyond the end of a calendar month. Exceptions may occur when a DO is relieved from disbursing duty before the last day of a month or commences disbursing duty on other than the first day of a month. The first day of the accounting period coincides with the date of commencement of disbursing duty notification forwarded under Section 3.0. For any month during which accountability ends because of a Disbursing Station Symbol Number closing, the DO must submit the financial reports from the first day of the month through the date of closing.

16.7.1.2. DOs may submit supplemental reports to Treasury to adjust prior-period reporting, correct original reporting, or report additional current-month transactions.

16.7.1.3. DOs submit financial reports to the supporting DFAS site based on each site's instructions.

16.7.2. When a DDO, cashier, disbursing agent, paying agent, collection agent, or imprest fund cashier has a physical loss of funds, forward the DD 2667 to DFAS-ZPTC/IN within five calendar days after the end of each month (see Section 7.0, subparagraph 7.4.2.2).

16.8 DISBURSING OFFICE RECORDS

16.8.1. DoW Record Retention

16.8.1.1. DOs must apply the most stringent record retention requirements to support accounting records of initial entries and support records such as checks, electronic fund transfers, and invoices, and must keep them until all outstanding issues are resolved. Before disposing of contingency operations documents, DOs must contact their legal counsel about document retention beyond the NARA and DoW guidance for financial records. Records must be available and accessible to all authorized users. A DO or designated settlement official must keep records to complete the reconciliation of payment or collection discrepancies until resolved.

16.8.2. Other Records

16.8.2.1. The requirement to retain original records applies to any record a DO receives that accompanies payment or collection transactions or supports financial reports. It applies to both paper and electronic records kept as original supporting documents at both the functional and disbursing offices. Certifying officials send electronic payment files only to the DO and keep supporting documentation per the guidance referenced in subparagraph 16.8.1. For Foreign Military Sales document record retention, see Volume 15.

16.8.2.1.1. The disbursing office must put hardcopy and electronic records storage controls in place to ensure that only authorized personnel have access to any paper documents and electronic images.

16.8.2.2. Individual records may be unclassified, but when information is aggregated the security classification (and storage requirement) may change. Per DoD Instruction 5200.48, Controlled Unclassified Information (CUI), unclassified records do not require special security or storage controls and may be stored in open files or cabinets. Store these records with controls that readily identify:

16.8.3. Transfer

16.8.3.1. Transfer all disbursing office records to the incoming (relieving) DO as part of the relief process described in Section 3.0, subparagraph 3.4.6. When a disbursing office is deactivated, package and mail all disbursing office records to the office designated to settle the accounts.

16.8.3.2. When a DO of a tactical unit or naval vessel is relieved from disbursing duty, the incoming DO keeps the outgoing DO's disbursing records for 90 days from the date of relief. After the 90-day period, the incoming DO packages the disbursing records and sends them to the supporting DFAS site or alternate site designated by DFAS for retention until the required

retention period expires. For deployed units, the 90-day period begins after the unit or vessel returns to homeport.

16.8.3.3. When a DO of a tactical unit or naval vessel is relieved from disbursing duty due to deactivation of the disbursing office, or when a vessel or unit is decommissioned from service, the DO must package and send all disbursing office records to the supporting DFAS site or alternate site designated for retention.

17.0 SAFEKEEPING FUNDS AND VALUABLES FOR INDIVIDUALS AND MORALE, WELFARE, AND RECREATION ACTIVITIES

17.1 GENERAL

17.1.1. DoW disbursing officers (DOs), deputy DOs (DDOs), and agents may accept cash and checks from individuals and morale, welfare, and recreation (MWR) activities for which safe custody otherwise would not be available. When a DO, DDO, or agent is unavailable, or when it is impractical for one of them to accept and account for safekeeping deposits, a commander may appoint and terminate any military member or DoW civilian employee as a safekeeping custodian to accept and account for safekeeping deposits using a separate DD Form 577, Appointment/Termination Record - Authorized Signature.

17.1.1.1. Keep safekeeping deposits in a secured safe and establish procedures to maintain accountability. Treat funds accepted for safekeeping as funds held in trust for which the United States is accountable, but not within the DO's financial accountability reported to the U.S. Department of the Treasury (Treasury) on the SF 1219, Statement of Accountability.

17.1.1.2. Deposits and withdrawals are subject to local command regulations that establish necessary and proper restrictions on the time, place, and frequency of deposits and withdrawals and the types of objects classified as valuables. Impose controls to prevent interruption of the activity's priority fiscal operations, such as special and regular payroll activities. Do not allow safekeeping services to be abused by depositing objects not usually afforded additional protection. Limit deposited valuables to funds; negotiable instruments including bonds, credit cards, travelers' checks, and checkbooks; and objects classified as jewelry having intrinsic value requiring additional protection. Items such as wallets, snapshots, keys, or items lacking intrinsic value are prohibited.

17.1.1.3. Commanders appoint custodians responsible for the proper handling of and accounting for safekeeping deposits. Appointments must state the specific duties the custodian is authorized to perform. Pecuniary liability does not attach to safekeeping deposits because they are not public funds. Paragraph 17.2 applies to the safekeeping of nonappropriated funds (NAF) for MWR activities. Losses of NAF are not recorded on the DO's SF 1219. If a loss occurs, notify

the depositor of their right to submit a claim for reimbursement under applicable DoW Component regulations. The depositor need not defer submission of a claim to await findings of any investigation initiated to determine responsibility for the loss.

17.1.1.4. When the volume or nature of safekeeping deposit transactions warrants, the custodian may formally appoint an assistant custodian for initial receipt and temporary custody of safekeeping deposits pending their delivery to the designated custodian. Provide separate safekeeping facilities for the assistant custodian. Cover all custody transfers between the custodian and assistant custodian with a receipt. An assistant custodian is responsible for proper accounting and handling, including receipt and delivery of safekeeping deposits to a permanent custodian. Process losses under subparagraph 17.1.1.3.

17.1.1.5. Receive and handle safekeeping deposits of postal funds under the Military Postal Service (DoD Instruction 4525.09), identifying these as postage stamp fund or postal money order fund, as applicable, on the safekeeping deposit receipt.

17.1.1.6. Follow subparagraph 17.2.1 to receive and handle safekeeping deposits of funds by military banking facilities, NAF custodians, and other DoW-sponsored activities. Identify on the safekeeping deposit receipt the deposit, the depositing agency, and the custodian making the deposit.

17.2 SAFEKEEPING OF NONAPPROPRIATED FUNDS FOR MWR ACTIVITIES

17.2.1. Custodians may collocate funds when the volume of safekeeping deposits warrants and it is desirable to accommodate more than one deposit or withdrawal transaction in non-individual safekeeping deposit accounts at non-tactical activities. Place the deposits in a separate container identified as safekeeping funds to prevent commingling with official funds. At activities other than Navy ships, if the total value of collocated safekeeping funds on hand is large, a bank checking account may be established (see subparagraph 17.2.2).

17.2.1.1. In addition to individual ledger sheets, the custodian keeps a cash-on-hand ledger control sheet, entering the amount of each deposit in the debit column and the total amount on deposit by all depositors in the balance column. If preferred, the custodian may make a daily summary posting to the ledger control sheet showing inclusive deposit numbers. The balance of the ledger control sheet must agree with the combined balances of the individual depositors' ledger sheets.

17.2.1.2. The depositor presents the original deposit receipt(s) to the custodian when requesting a full or partial withdrawal of the funds on deposit. Before releasing the funds requested, the custodian confirms the depositor's account balance and obtains a signature in the applicable section of the retained copy of the DD 2674, verifying it against the signature on the

deposit record or the individual ledger sheet. For a full withdrawal, the custodian voids the original DD 2674 in the presence of the depositor. A depositor may make up to three partial withdrawals of a safekeeping deposit. If the deposit is not withdrawn in full after two requests, the custodian voids the original DD 2674 and issues a new DD 2674 for the new deposit amount. The custodian enters the withdrawal as a credit in the depositor's individual ledger sheet and the custodian's ledger control sheet. Instead of individual entries, the custodian may post a daily summary showing inclusive withdrawal numbers on the ledger control sheet.

17.2.1.2.1. Return the identical currency the depositor presented when the deposit is withdrawn. For example, a deposit made in Japanese Yen cannot be withdrawn in U.S. dollars.

17.2.2. Bank Accounts

17.2.2.1. Custodians of commingled safekeeping funds, with command approval, may establish and maintain a checking account in a local bank or credit union (insured by either the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund, as appropriate) for the deposit of safekeeping funds if the amount available for deposit is large enough to preclude the payment of service charges or other fees. The financial institution collateralizes funds in excess of the insured limits per Title 31, Code of Federal Regulations, Part 202. Establish the account in the name of the disbursing activity, the safekeeping fund, and the custodian (for example, "U.S. Naval Activity, Boston, MA, Safekeeping Deposit Fund, Lieutenant J. A. Hancock, SC, U.S. Navy, Custodian"). Loans or investments from safekeeping deposit funds are prohibited.

17.2.2.2. All checks must be serially pre-numbered. Maintain a complete record of all checks drawn, deposits made to the safekeeping checking account, and a running account balance in the checkbook. Reconcile statements from the financial institution immediately upon receipt and file them with the bank ledger control sheet. Mark spoiled checks as "VOID" and file them in sequence.

17.2.2.3. Deposit checks, money orders, and cash received for safekeeping to the authorized account, except for cash required to be kept on hand to meet safekeeping withdrawal requirements. Checks and money orders may be accepted for deposit, subject to collection. Withdrawals are not authorized until enough time has elapsed for the checks and money orders to clear through the banking system.

17.2.2.4. Draw checks for withdrawals of safekeeping funds on the safekeeping deposit fund account whenever practical. Checks may be drawn on the safekeeping fund account only for payment to a depositor for withdrawal, an authorized transfer of a depositor's account to another activity, replenishment of cash-on-hand (through an exchange-for-cash check) needed to meet safekeeping withdrawal requirements, or transfer of unclaimed monies.

17.2.2.5. Checks drawn on the safekeeping deposit fund account must bear the following stamped endorsement on the reverse side: "This check is not valid unless presented for payment within 12 months from its date of issue." If a check is canceled, the custodian confirms the stop payment action with the financial institution and credits the depositor's safekeeping account for the amount of the canceled check. The custodian must make an effort to locate the depositor and make the payment.

17.2.2.6. If the depositor cannot be located, close the account by drawing a check payable to the Treasury for deposit. For amounts less than $25, the custodian prepares a DD 1131, Cash Collection Voucher, and credits account 1060, Forfeitures of Unclaimed Money and Property. For amounts of $25 or more, the custodian credits account 20X6133, Payment of Unclaimed Moneys (T), Treasury. Ensure the deposit uses the Treasury Account Symbol that matches the DD 1131 along with the Business Event Type Code for collateral. Include all available information on the identity and location of the depositor on the collection voucher. The custodian presents the check and DD 1131 to the DO for collection. Send any claim later received for the funds to the supporting DFAS site for processing, with a copy of the related DD 1131.

17.2.2.7. In addition to the cash-on-hand ledger control sheet, the custodian keeps a separate ledger control sheet for cash-in-bank. When cash, checks, or money orders are deposited in the bank, the custodian debits the cash-in-bank ledger control sheet and credits the cash-on-hand ledger control sheet. Post exchange-for-cash checks as credits to the bank ledger control sheet and debits to the cash-on-hand ledger control sheet. Post withdrawals by check as credits to the bank ledger control sheet and debits to the individual ledger sheet. The sum of the cash-in-bank and cash-on-hand ledger control sheets must agree with the combined balances of the individual depositors' ledger sheets.

17.3 SAFEKEEPING OF PERSONAL FUNDS AND VALUABLES OF INDIVIDUALS

17.3.1. A depositor wishing to withdraw a deposit presents the original DD 2674 to the custodian, who verifies the depositor's signature and determines that the serial number, date, and description correspond with the data on the retained copy of the form. The depositor acknowledges receipt of the deposit by entering their signature and the date of withdrawal in the space provided on the retained copy of the DD 2674. The custodian destroys the original DD 2674 in the presence of the depositor. If the receipt has been lost, the custodian may return the deposit to the depositor only after being satisfied of the depositor's identity and entitlement to the deposit. The entries on the DD 2674 constitute the official record of the deposit. The depositor must withdraw the entire deposit at the time of withdrawal. Partial withdrawals are not authorized, but a new deposit in a new amount is authorized subject to any restrictions prohibiting unreasonable repeated deposits.

17.3.2. If a depositor is transferred before withdrawing safekeeping deposits, the custodian delivers the depositor's cash balance to the DO in exchange for a Treasury check payable to the

depositor. Send the check and the depositor's valuables (if any) with a letter of transmittal to the commander of the activity to which the depositor transferred, for delivery to the depositor. Include in the transmittal letter all available details about the depositor and request acknowledgement of receipt. Insert data on the transfer on the file copy of the DD 2674.

17.3.3. To process deposits and withdrawals of funds and valuables, an officer or any other person the commander designates must accompany an incapacitated person to witness and sign each transaction. Deliver receipts for safekeeping deposits to the commander.

17.3.4. The custodian delivers cash on deposit to the DO in exchange for a Treasury check payable to the payee the commander-appointed officer (or inventory board) designates to take custody of the depositor's personal effects. Draw the Treasury check as "Exchange-for-Cash, Safekeeping Deposit No. ____, name, rank or rate, SSN." Deliver the check and any depositor valuables to the appointed officer (or inventory board) for disposition under applicable DoW Component regulations. Obtain a receipt for the check and any valuables transferred under these instructions. Enclose a retained copy of the DD 2674 with a notation describing the disposition, and destroy the receipt portion of the DD 2674, if available.

17.4 BALANCING AND VERIFICATION OF SAFEKEEPING DEPOSITS

17.4.1. The safekeeping custodian balances all safekeeping deposits on the last day of each month. The cash-on-hand and any safekeeping fund bank account balance must equal the total of the amounts credited in all the active depositors' accounts shown on the retained copies of the DD 2674s, or the individual ledger sheets and ledger control sheet. The custodian certifies on the ledger control sheet that balancing was accomplished.

17.4.2. Verification

17.4.2.1. At unannounced intervals, at least once during each calendar quarter, a cash verification team the commander appoints verifies safekeeping deposits in the presence of the custodian (see Appendix A, "Quarterly Verification of Cash and Other Assets"). Include the results of the verification in the report of verification to the commander.

17.4.2.2. By accepting custody of safekeeping funds, the United States is accountable for them and assumes a trust responsibility for their care and safekeeping, even though it has no beneficial interest in them. The custodian must promptly report any shortage or overage of safekeeping deposits to the commander, who takes actions similar to those prescribed in Section 7.0 for a shortage or overage of public funds.

17.4.3. In preparation for being relieved of custodial duties, the outgoing custodian must balance safekeeping deposits, prepare a duplicate list of all active deposits, and give the list and

all active deposits to the relieving custodian, who must then verify all deposits and receipts. The outgoing custodian must transfer the DD 2674 and any other records of commingled deposits to the relieving custodian. If a checking account is maintained, the outgoing custodian must reconcile it and transfer it to the relieving custodian, arranging the transfer with the financial institution.

VOLUME 6

REPORTING POLICY AND FORM AND CONTENT OF THE DEPARTMENT OF WAR AUDITED FINANCIAL STATEMENTS

1.0 GENERAL

1.1 Purpose

1.1.1. Volume 6 defines the reporting policy and roles and responsibilities in the preparation and issuance of financial reports, footnotes, and required supplementary information for Department of War (DoW) Components. DoW Components and the Defense Finance and Accounting Service (DFAS) are responsible for the proper and consistent preparation of financial reports at the DoW Component departmental, intermediate, and installation level. DoW Components, in coordination with DFAS, are responsible for establishing memoranda of agreement/understanding (MOAs/MOUs) or similar signed documents that outline the services to be performed by DFAS and related responsibilities.

1.1.2. In some instances, DoW Components prepare their own financial reports without accounting support from DFAS. Ultimately, each DoW Component is responsible for the accuracy and completeness of financial information in the reports that present the financial effects of its operations. In these instances, when DFAS does not have responsibility for financial report preparation, the reporting entity must fulfill the responsibilities assigned in this Volume at both the DFAS and DoW Component levels. The requirements for the audited or interim financial statements addressed in the Office of Management and Budget (OMB) Circular A-136 are contained in Volume 6 Supplemental document for DoW reporting entities.

1.1.3. The policies within this Volume apply to all DoW Components. This includes entities whose departmental, intermediate, and installation-level financial reports are prepared by DFAS, as well as DoW Components and organizations operating Enterprise Resource Planning (ERP) systems under an approved DFAS agreement. It also encompasses designated Components that prepare their own financial reports (e.g., the United States Army Corps of Engineers) and organizations required to perform independent accounting due to security considerations.

1.2 Authoritative Guidance

Refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the glossary on the FMR webpage.

1.4 Procedures

Refer to the Supplemental listed throughout this Volume.

2.0 FINANCIAL REPORTS, ROLES, AND RESPONSIBILITIES

2.1 Stewardship and General Responsibilities

The U.S. Congress provides resources to finance the programs, missions, and functions of the DoW and its Components. Financial reports are tools for displaying the status and use of resources at a point in time. DoW Components and DFAS, as their service provider, have a responsibility to ensure that financial information is accurate and timely so managers can make sound decisions and exercise proper stewardship over these resources. Refer to the "DoW Internal Control Over Financial Reporting Guide" for additional information on roles and responsibilities for internal controls over financial reporting.

2.2. Reporting Schedules

2.2.1. DFAS must establish procedures requiring joint development of report preparation schedules with DoW Components according to the timeframes established by the U.S. Department of the Treasury (Treasury), Bureau of the Fiscal Service, Governmentwide Treasury Account Symbol (GTAS). DFAS and DoW Components must work to resolve issues identified during the report preparation process in accordance with the GTAS schedule.

2.2.2. Reporting schedules for reports provided to external recipients must include the opportunity to present a draft of the report to the DoW Component for review and approval prior to release to the recipients.

2.3 Journal Voucher Adjustments

2.3.1. Journal Vouchers (JVs) are summary-level adjustments to trial balance data recorded in financial reporting or general ledger systems. JVs may be manually entered or processed systematically based on a predefined set of programming criteria. JV documentation must include sufficient evidence to substantiate the audit trail of the adjustment.

2.3.2. JVs are required for several reasons, including instances when subsidiary records do not reconcile with the financial balances, transactions need correction, and adjustments are required to align obligations, accruals, or expenses with the liquidation amounts for receipts, acceptances, and/or disbursements. JVs do not include transactions and processes used to record detailed amounts in subsidiary ledgers as standard business transactions.

2.4 Certifications

2.4.1. DoW Component/Reporting Entity. A reporting entity is an organization represented by financial information in a financial statement or report and may be a DoW Component or a subordinate command/organization. For example, a reporting entity may include an individual command or activity, such as a shipyard or a supply depot, or it could encompass several activities within a business area, such as all shipyards or aircraft depot maintenance activities in a Military Department. A reporting entity can also be at a DoW Component level.

2.4.1.1. The reporting entity, rather than DFAS, is responsible for annual certifications required in the implementation of Title 31, United States Code, section 1501(a). See Chapter 4, "Appropriations and Fund Status Reports," for additional information related to year-end reporting.

2.4.1.2. Reporting entities having working capital funds are responsible for signing the Accounting Report (Monthly) (AR(M)) 1307, Defense Working Capital Fund Accounting Report addressed in Section 9.

2.4.2. DFAS. DFAS's role in processing financial data and preparing financial reports for DoW Components includes certain responsibilities. Accordingly, DFAS will provide the following to the DoW Component:

2.4.2.1. Assurances and certifications, when requested, to the reporting entity regarding the quality of accounting and report preparation services performed for the DoW Component;

2.4.2.2. Signed monthly, quarterly, and semiannual reports on behalf of the DoW Component following review and approval by the DoW Component. An exception is the AR(M) 1307, which the DoW Component is required to sign.

2.4.2.3. A certification provided by the chief of the applicable reports section confirming accuracy of the balances reported on the AR(M) 1307.

3.0 REPORT OF OUTLAYS, RECEIPTS, AND ADJUSTED TRIAL BALANCES

3.1 DoW entities submit monthly outlay and receipt information to the Treasury's Fiscal Service via the Central Accounting Reporting System (CARS). This data is combined with adjusted trial balances (ATBs) from the GTAS to generate financial reports. DoW entities are responsible for reconciling the information between these two systems to ensure accuracy and provide a clear audit trail for the reporting period. The policies in this section apply to all DoW entities that prepare and submit these consolidated reports. For additional instructions and guidance regarding CARS and GTAS reporting, refer to the Volume 6 Supplemental document.

3.2 CARS Reporting

CARS handles Treasury-level accounting and reporting for all federal agencies and is the system of record for Fiscal Service. CARS captures and records TAS information for payments, deposits, and intragovernmental transactions and provides agencies with daily status of their Fund Balance with Treasury. All agencies must use the CARS Modules and submit the CARS TAS/Business Event Type Code (BETC) reporting classification for each payment, deposit, and intragovernmental transaction. The CARS Glossary identifies and defines the reporting processes and data elements used by CARS reporters. For additional instructions and guidance related to CARS reporting, refer to the Volume 6 Supplemental document.

3.3 GTAS Reporting

3.3.1. Fiscal Service administers and maintains GTAS to facilitate preparation and consolidation of the Financial Report of the United States Government (FR). Within GTAS, reporting entities submit both proprietary and budgetary data simultaneously in the Bulk File Format. Systemic edits validate data across both budgetary and proprietary reporting, including the Governmentwide Accounting System Account Statement. Reporting entities reconcile GTAS data with amounts reported in CARS to verify the accuracy of reported balances. Agencies must ensure that the data in their Agency Financial Reports matches exactly the data reported in GTAS and the defense financial reporting system as of the GTAS close date. For additional instructions and guidance related to GTAS reporting, refer to the Volume 6 Supplemental document.

3.3.2. The FR provides a comprehensive view of the Federal Government's financial position and condition, its revenues and costs, assets and liabilities, and other obligations and commitments. The FR includes consolidated financial statements and related disclosures, as well as reports on stewardship responsibilities. ITFM 2-4700 and OMB Circular A-136 describe how agencies provide data to the FR through GTAS. For additional instructions and guidance related to the FR, refer to the Volume 6 Supplemental document.

3.3.3. The Digital Accountability and Transparency Act (DATA Act) mandates that federal agencies report financial and payment data according to standards set by the Treasury and OMB. The goal is to make federal spending information more accessible and reliable for improved oversight and decision-making. To ensure compliance, agencies are guided by the DATA Quality Playbook and must provide accurate financial reports through GTAS, which enables the submission of data required by the DATA Act.

4.0 APPROPRIATION AND FUND STATUS REPORTS

4.1 Reporting Requirements and Policy

This section prescribes the reporting requirements and policy to follow when preparing appropriation and fund status reports at the departmental level. These reports identify, for the DFAS and its customers, the status of accounting transactions on a monthly, quarterly, and annual basis. This section does not prescribe the reporting requirements of the intermediate command and installation levels. The provisions apply to all DoW Components and cover fund types included in Section 79 of OMB Circular A-11.

4.2 Reporting

4.2.1. The report formats for the appropriation and fund status-type reports are identified within the respective paragraphs. For sample fund status reports, see Volume 6 Supplemental document.

4.2.2. Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS).

4.2.2.1. The Department of the Treasury (Treasury), Bureau of the Fiscal Service (Fiscal Service), administers and maintains GTAS to facilitate the preparation and consolidation of the Financial Report of the U.S. Government. Reporting Agencies upload both proprietary and budgetary data to GTAS in the Bulk File Format. Refer to Section 3 for DoW policy related to the submission of financial data using GTAS.

4.2.2.2. Consolidation entities are required to submit requests for new Treasury symbols to be used in GTAS reporting to the OUSW (C), Program/Budget (P/B), Program and Financial Control (P&FC) Directorate (an organization within P/B), along with justification that cites the specific authorizing legislation. P&FC will review requests and coordinate with OMB and the Treasury to establish new accounts when authorized.

4.2.3. Standard Financial Information Structure

Appropriation and fund status reporting utilizes the data structure and reporting elements outlined in the Standard Financial Information Structure (SFIS). SFIS is a comprehensive data structure that supports requirements for budgeting, financial accounting, cost/performance, and external reporting needs across DoW. See Volume 1 for additional information on SFIS reporting.

4.3 Year-End Reporting

4.3.1. This section contains an overview of reporting unexpended appropriation and fund balances required by TFM, Volume I, Part 2, Chapter 4700. Unexpended appropriations include the amount of unobligated appropriations and undelivered orders outstanding for Congressional appropriations provided to the Department.

4.3.2. Year-End Reporting pertains to all DoW consolidation entities uploading unexpended balances of appropriation accounts to Fiscal Service through GTAS.

4.3.3. Consolidation entities utilize GTAS and the Fiscal Service Year-End Module to report unexpended balances of appropriation accounts. Fund holders are responsible for verifying the accuracy of reported balances and providing final confirmation of amounts reported in GTAS to DFAS Accounting Standards and Reporting, Budget Execution Analysis via signed documentation for electronic certification.

4.4 Report on Budget Execution And Budgetary Resources

4.4.1. The Standard Form (SF) 133, Report on Budget Execution and Budgetary Resources, shows the status of budgetary resources and details how funds are obligated and spent. The report is intended for use, with other available information, in reviewing apportionments and the U.S. Government's budgetary programs, in managing the rate of incurring obligations and outlays, and as a basis for initiating requests for reapportionments and transfers. See Section 130.1 of OMB A-11 for additional uses of SF 133 data. For additional support and instructions for DoW Components for the SF 133, refer to the Volume 6 Supplemental document.

4.4.2. The compilation of an agency's SF 133s must agree with the agency's Statement of Budgetary Resources (SBR). OMB Circular A-11 identifies the few differences between the SF 133 and SBR.

4.4.3. Amounts reported in the fourth quarter SF 133 must be consistent with information reported to Treasury as part of the year-end closing procedures and based on actual accounting information pursuant to 31 U.S.C. § 3512. Actuals submitted to OMB for inclusion in the President's annual budget, which is submitted to Congress, will agree with those submitted to Treasury and reported on the fourth quarter SF 133.

4.5 Report On Reimbursements And Refunds (Accounting Report (Monthly) (AR(M)) 725)

The AR(M) 725 identifies supplemental budget execution data for reimbursements and refunds, including their sources and the fiscal year (FY) programs being executed. The AR(M) 725 identifies reimbursable activities during the reporting period and includes refunds of prior-year orders from direct appropriations. For additional support and instructions for DoW Components for the AR(M) 725, refer to the Volume 6 Supplemental document.

4.6 Appropriation Status by Fiscal Year Program And Subaccounts (AR(M) 1002)

The AR(M) 1002 includes the preparation and submission of reports on the application and status of appropriation and other fund accounts. The reports present budget execution data on obligational authority for FY programs executed at budgetary subdivisions not listed on SF 133. Program value, obligation, unobligated balance, unexpended balance, and expenditure balance data integrity, by line item, must be maintained throughout an account's unexpired and expired availability periods. Expired account adjustments, which move resources between Budget Line Items (BLI), must reflect the appropriate change to that line item's program value amount, obligations, unobligated balance, unexpended balance, and expenditure data on the AR(M) 1002. For additional support and instructions for DoW Components for the AR(M) 1002, refer to the Volume 6 Supplemental document.

4.7. Special Instructions for Selected Accounts

47.2.1. Obligation Limitation for Annual Accounts. Each year, Title VIII of the DoW Appropriations Act requires a certification that not more than 20 percent of the appropriations in that act, which are limited for obligation during the current FY, will be obligated during the last 2 months of the FY. The exception to this policy is the Reserve Components' record obligations for support of active-duty training or the Reserve Officers Training Corps' record obligations for summer camp training.

4.7.2.2. Certification. Each year, DoW Components must provide one of the following certifications, depending upon the level of obligations incurred, on the July AR(M) 1002 for those annual appropriations to which the limitation applies:

4.7.2.2.1. In determining direct obligational authority, the number of transfers in or out within the applicable DoW Appropriations Act will be considered. This

certification is usually referred to as the "80/20" criterion. If obligations are 80 percent or more of direct authority, the certification will be as follows:

> "I hereby certify that direct obligations have been incurred equal to or in excess of 80 percent of the funds subject to the congressional limitation on year-end spending."

4.7.2.2.2. If obligations are less than 80 percent, then the certification will be as follows:

> "I hereby certify that action has been taken to assure that not more than 20 percent of the funds subject to the congressional limitation on year-end spending remains available for obligation during the remainder of the FY."

4.8 Reporting Obligation and Outlay Data Purpose

4.8.1. Consolidation entities will report obligation and outlay planning and execution data to OUSW(C) (P/B) P&FC for monitoring the planned monthly execution of approved DoW programs.

4.8.2. OUSW(C) updates requirements for planning data on an annual basis. Specific report formats are updated annually by memorandum to the Assistant Secretaries of the Military Departments' Financial Management and Comptroller (FM&C). OUSW(C) also updates the requirements for execution data annually. Specific report formats are updated annually by memorandum to DFAS.

4.8.3. Report on the SF 133 monthly totals for obligation and outlay execution data. These reports, provided monthly by DFAS to OUSW(C) and the Military Departments, must be consistent with data reported to the Treasury via GTAS. These reports must be available to DoW consolidation entities.

4.8.4. Planning and execution data for obligations and outlays applies to DoW Components with respect to obligations incurred for all military functions, including obligations incurred in connection with related allocation and transfer appropriation accounts. This includes all DoW Military accounts as well as related receipt accounts.

5.0 FOREIGN CURRENCY REPORTS

5.1 Reporting Policy

This section establishes reporting policy for tracking all transactions that increase or decrease the foreign currency fluctuation (FCF) accounts. FCF, Defense (FCF, D), and FCF, Construction, Defense (FCF, C, D) appropriations were established by Congress to reduce the adverse impact of FCF losses on the DoW operating budget.

5.2 Program Management

The provisions of this section apply to all DoW Components unless a specific written exception has been granted by the OUSW(C).

5.2.1. FCF Key Terms refer to the Volume 6 Supplemental.

5.2.2. FCF, D

5.2.2.1. Congress authorized the FCF, D appropriation (TAS 97X0801) to manage foreign currency net gains and losses in the DoW Operation and Maintenance (O&M) and Military Personnel (MILPERS) appropriations. As net gains from O&M and MILPERS are realized by de-obligation of the unneeded portion of the direct program, transfer the gains to FCF, D. Funds held in FCF, D will be transferred to O&M and MILPERS to cover net losses. Charge net gains or losses from foreign currency exchange rate fluctuations funded by FCF, D to the same FY as the underlying obligation. In areas participating in the FCF program, the occurrence of a gain or loss on an FCF transaction is an expected, normal component of an obligation; therefore, treat it as an ordinary event. Record the gain or loss on an FCF transaction using current USSGL accounts for Other Gains (USSGL account 719000) and Other Losses (USSGL account 729000).

5.2.2.2. Under 10 U.S.C. § 2779, funds previously transferred from the Foreign Currency Fluctuations, Defense (FCF, D) appropriation can be moved back if they are no longer needed to hedge against currency fluctuations. This transfer must take place no later than the end of the second fiscal year following the year in which the funds were originally made available. Additionally, any return transfer is limited to ensure that the total balance of the FCF and D appropriation does not exceed $970 million.

5.2.3. FCF, C, D

5.2.3.1. In FY 1987, Congress enacted the current authority for an FCF appropriation to protect DoW Military Construction, Family Housing, and North Atlantic Treaty Organization (NATO) infrastructure programs from substantial gains or losses resulting from foreign currency fluctuation. The title of this appropriation is FCF, C, D TAS 97X0803.

5.2.3.2. The FCF, C, D appropriation was initially capitalized by transferring unobligated balances from the family housing and military construction appropriations. Pursuant to authority conferred by recurring annual Military Construction Appropriations Act general provisions, unobligated balances from family housing and military construction appropriation accounts may be transferred into FCF, C, D during the 5 years after the appropriations expire for original obligation purposes. As FCF gains are realized by de-obligation of the unneeded portion of the direct program, transfer the gains to FCF, C, D. Funds held in FCF, C, D will be transferred to family housing and military construction to cover net losses. Charge net gains or losses from foreign currency exchange rate fluctuations, funded by FCF, C, D, to the same FY as the underlying obligation. In areas participating in the FCF program, the occurrence of a gain or loss on an FCF transaction is an expected, normal component of an obligation; therefore, treat it as an ordinary event. Record the gain or loss on an FCF transaction using current USSGL accounts for Other Gains (USSGL account 719000) and Other Losses (USSGL account 729000).

5.2.3.3. OUSW(C) must approve all amounts transferred from this appropriation to other appropriations available for construction.

5.2.3.4. For additional information on specific Accounting Scenarios for Gains and Losses on Foreign Currency Rate Fluctuations under 097*0803, refer to the following OUSW(C) DCFO Memo titled "Accounting Scenario for Gains and Losses on Foreign Currency Rate Fluctuations under DoW Centrally Managed Account 097*0803, Foreign Currency Fluctuation, Construction, Defense," dated September 29, 2023.

5.2.4. Standards

5.2.4.1. The FCF, D and FCF, C, D appropriations are not available to finance cost increases resulting from changes in the scope of programs, inflation increases, or other such changes, nor to finance Prompt Payment Act interest payments. Other important provisions of the FCF appropriations relate to obligation/expenditure limitations and to financial accounting requirements for foreign currency exchange fluctuations.

5.2.4.1.1. Authorizations or limitations now or hereafter contained within appropriations or other provisions of law limiting the amounts that may be obligated or expended will be increased to the extent necessary to reflect fluctuation in foreign currency exchange rates from those used in preparing the applicable budget submission.

5.2.4.1.2. Contracts or other obligations entered into that are payable in foreign currencies may be recorded as obligations based on currency exchange rates used in preparing budget submissions, as amended by Congress, and adjustments to reflect fluctuation in such rates will be recorded as disbursements are made.

5.2.4.2. Funds transferred from the FCF appropriation CMAs will be available for funding accounts established within the applicable O&M, construction, family housing, or NATO infrastructure appropriations to cover losses or account for gains in direct programs due to fluctuation in foreign exchange rates. Base these transfers on need, funds available to cover such losses DoW-wide, and other budgetary considerations. Consequently, such losses may not be fully funded.

5.2.4.3. DoW Components will record foreign currency obligations at the installation level in dollars, at the budgeted rate, or at the congressionally established budget exchange rate for direct program of affected appropriations as reflected in applicable committee reports or the appropriate appropriation acts.

5.2.4.3.1. OUSW(C) will provide these rates to the DoW Components.

5.2.4.3.2. Foreign currency obligations are those obligations that are either payable in specified foreign currency or payable in dollars, the amount of which is determined by the rate of exchange.

5.2.4.3.3. When payment is made, charge the variance between the budget rate and the current rate directly to the applicable FCF account. If the transaction results in a gain, credit the FCF account in the amount de-obligated from the original FCF, C, D obligation. For example, a military construction project was included in the FY 2017 President's Budget (PB). Funds for the project were obligated in FY 2018 using FY 2017 funds, and all the project expenditures were disbursed in FY 2019. In this example, record the obligations in the accounting system using the FY 2017 budget rates. There would be no effect on the military construction FCF account prior to FY 2019 since no disbursements were made until FY 2019. The foreign currency reports for each of those years, however, would identify accrued variances, i.e., the differences between the project obligations carried at the FY 2017 budget rate and those valued at the current exchange rate. Use this accrued variance to identify the projected disbursement requirements of the component FCF account. The realized foreign currency variance would be recorded against the military construction FCF account for FY 2017 at the time of the actual disbursements.

5.2.4.4. The DFAS Service Component central accounting activities will determine the total foreign currency unliquidated obligations at the budget exchange rate provided by OUSW(C) for each appropriation, and identify and accumulate both favorable and unfavorable variances. The supporting activity will also determine the "accrued variance" at the end of each month by comparing unliquidated obligations at the budget rate with those at the current rate, using the exchange rate on the last day of the month. The accrued variance will never be obligated in the official accounting documents.

5.2.4.5. Each DoW Component holding an FCF account is responsible for establishing internal controls and carefully monitoring funds availability at all times, as Antideficiency Act provisions apply to each FCF account. Establish controls to reserve sufficient funds within the appropriation's availability to finance projected disbursement requirements for the FCF account. For family housing and construction, a 6-month requirement is recommended. Should FCF account funding availability drop below that level, take immediate action to avoid over-obligation. Such action will include providing additional funds from current accounts and, if necessary, advising all disbursing officers to cease payments from the FCF account without prior certification until funding is obtained. Do not take any action that presumes relief through a transfer of funds from the FCF appropriations because of the limited capital available in these accounts.

5.2.4.6. OUSW(C) publishes a monthly report of specific currencies in the FCF program and associated exchange rates. OUSW(C) may add and remove currencies as conditions warrant. The OUSW(C) Financial Management Reports site provides FCF reports that include the list of currencies, the applicable budget rate, and the current-period adjusting rate.

5.3 Reporting Requirements

5.3.1. Appropriation Transfers

OUSW(C) manages the FCF, D and FCF, C, D appropriations and instructs the DFAS Departmental Reporting Directorate-Indianapolis on the amount of the funds to transfer to and

from the applicable appropriations. DFAS-Indianapolis transfers the designated amounts by means of a Standard Form 1151, Nonexpenditure Transfer Authorization.

5.3.2. General Reporting Guidance

5.3.2.1. Other than calculating the monthly accrued variance described in subparagraph 2.4.4, no further adjustment to the original obligation is necessary until disbursement is made or until the appropriation is closed.

5.3.2.2. FCF requirements described in this section do not apply to reimbursable programs. The performing activity will continue to accept reimbursable orders, incur obligations, and bill for reimbursement at the current foreign currency exchange rate using the requirements found in Volume 1. 1 However, when the performing activity and the benefiting activity are DoW organizations, the performing activity will notify the benefiting activity of the amounts obligated that require payment in foreign currency. The benefiting activity will record that portion of its obligation for direct programs at the budget rate in the manner prescribed in subparagraph 2.4.3. Record the realized variance determined at the time of the disbursement in the respective FCF account of the benefiting activity.

5.3.2.3. Do not adjust normal operating budgets or other funding documents issued for the affected appropriations by DoW Components for foreign currency exchange rate fluctuation.

5.3.2.4. Prior to closing the financial records at year-end, each component holding an FCF account will review the status of that account. Transfer net gains in an FCF account to the applicable FCF appropriation. Components will also determine the portion of the losses that the FCF account can absorb and transfer to the FCF appropriation any remaining balances that are not required.

5.3.2.5. FCF requirements described in this section do not apply to Gains and Deficiencies on Exchange Transactions, Army (TAS 21 6763 and TAS 021 6763); Gains and Deficiencies on Exchange Transactions, Navy (TAS 17 6763 and TAS 017 6763); Gains and Deficiencies on Exchange Transactions, Air Force (TAS 57 6763 and TAS 057 6763); and Gains and Deficiencies on Exchange Transactions, Treasury (TAS 20 6763 and TAS 020 6763). Volume 5 provides guidance on deficiencies as well as on gains and losses from revaluation.

5.3.2.6. FCF requirements described in this section do not apply to Burdensharing funds received from other countries. See Volume 12 for guidance regarding Burdensharing funds.

5.3.3. Report Error Correction

Service components and OUSW (Personnel & Readiness) (OUSW(P&R)) Military Compensation Policy are responsible for ensuring the completeness and accuracy of monthly report submissions to the DFAS Departmental Reporting Directorate-Indianapolis. DFAS forwards the consolidated reports to the Office of the Deputy Comptroller (Program/Budget) (ODC(P/B)), OUSW(C), which also conducts a review of submitted reports for completeness and accuracy. ODC(P/B), OUSW(C) will notify the applicable data submitter if data correction is

required. The applicable data submitter is responsible for data correction and resubmission through the DFAS Departmental Reporting Directorate-Indianapolis to ODC(P/B), OUSW(C).

5.4 FCF Reporting Roles and Responsibilities

5.4.1. Accounting Report (Monthly) 1506 (AR(M) 1506) – Foreign Currency Fluctuations, War Report (O&M).

5.4.1.1. DFAS Departmental Reporting Directorate-Indianapolis is responsible for submitting the consolidated monthly report to the ODC(P/B), OUSW(C).

5.4.1.2. The DFAS Service Component central accounting activities, DoW Education Activity (DoWEA), Defense Security Cooperation Agency, Defense Health Agency (DHA), and Defense Media Activity will provide a monthly report to DFAS Departmental Reporting Directorate, Indianapolis using the format in the Volume 6 Supplemental document.

5.4.2. FCF, D Report (MILPERS)

5.4.2.1. Foreign currency rate variances increase or decrease the value of allowances paid to service members. To maintain the value of that portion of allowances members receive to purchase foreign currency, adjust allowances to offset increases or decreases in foreign currency rates. For purposes of FCF, D transfers, the calculated effect on MILPERS disbursements resulting from changes in foreign currency rates (foreign currency variance) is the difference between the dollars required for the allowance at budget exchange rates and the current allowance rates. However, FCF, D transfers are approved only for Cost-of-Living Allowances (COLA) and Overseas Housing Allowances (OHA).

5.4.2.2. DFAS Departmental Reporting Directorate-Indianapolis is responsible for submitting this consolidated monthly report to the ODC(P/B), OUSW(C).

5.4.3. DD-COMP (M) 1761 – Foreign Currency Fluctuation, Construction, Defense Report.

5.4.3.1. DFAS Departmental Reporting Directorate-Indianapolis is responsible for submitting this consolidated monthly report to ODC(P/B), OUSW(C).

5.4.3.2. The DFAS Service Component central accounting activities, DoWEA, DHA, Defense Logistics Agency (DLA), and U.S. Special Operations Command will provide a monthly report to the DFAS Departmental Reporting Directorate-Indianapolis using the format in the Volume 6 Supplemental document.

6.0 ACCOUNTING AND REPORTING FOR OPERATION AND MAINTENANCE OF THE FAMILY HOUSING PROGRAM

6.1 This section overviews a uniform accounting structure for Family Housing Operation and Maintenance (O&M) to consistently identify, accumulate, and report program costs across all DoW Components. Mandated by Congress with its own distinct appropriation, this structure

separates Family Housing O&M funding from other O&M programs. This uniformity is essential for enabling program, budget, and cost comparisons across the DoW. All obligations for Family Housing O&M must be charged to this specific appropriation, and the specified cost identification methods are designed to be efficient while forming the basis for all required reporting. For specific procedures, terms, account structure and content, and requirements, refer to the Volume 6 Supplemental document.

6.2 Reporting of O&M of Family Housing

This policy applies to all DoW Components that support military family housing under the Family Housing Program. Military Departments' Housing Privatization support costs associated with the Military Housing Privatization Initiative (MHPI) Program, such as assessments/studies; portfolio, program, and asset management; construction oversight; consultant fees; and other administrative costs, including Civilian manpower for oversight, are funded by the Family Housing O&M appropriation and fall within the parameters of this policy. The OUSW for Acquisition and Sustainment (OUSW(A&S)) and DFAS MHPI Program administrative support costs are separately budgeted, accounted for, and reported in the Defense-wide Family Housing Improvement Fund (FHIF) and Military Unaccompanied Housing Improvement Fund (MUHIF) Program accounts.

6.2.1 Internal Control

Management must develop and implement internal control techniques to ensure effective control over and accountability for the resources charged to this program and for the full and prompt receipt of all proceeds from reimbursements for rents, service charges, and disposal or handling of excess family housing property.

6.2.2. Responsibility of DoW Components

The DoW Components responsible for operating and maintaining family housing facilities are required to prepare the reports described in this section. Administrators of Housing programs under MHPI are required to prepare these reports for the FHIF and MUHIF program accounts. The FHIF and MUHIF Financing accounts, however, require only the Standard Form (SF) 133, Report on Budget Execution and Budgetary Resources.

7.0 INTERNATIONAL BALANCE OF PAYMENTS REPORTING AND ESTIMATING

7.1 This section establishes the policies and requirements for DoW Components to account for and report international transactions, including grants and credits to foreign countries. This reporting is required to provide the U.S. International Balance of Payments (IBOP) data that the Departments of Commerce and Treasury require for financial control. For additional information on procedures, key terms, report formats, and other guidelines, refer to the Volume 6 Supplemental document.

7.2 IBOP Reporting Overview

7.2.1. Applicability and Scope

7.2.1.1. These requirements apply to the OSD, the Military Departments (Army, Navy, Air Force, Marine Corps), Defense Agencies (including the Military Postal Service Agency (MPSA) and nonappropriated fund activities), and DoW Field Activities (hereafter referred to collectively as "DoW Components"). DoW Components are responsible for reporting transactions affecting the IBOP. Each DFAS main site (Indianapolis, Columbus, and Cleveland) is responsible for consolidating the data for the DoW Components and submitting a final report to the Department of Commerce. While DFAS reports a majority of the IBOP data, the Department of Commerce may identify specific information to be reported directly by select DoW components.

7.2.1.2. The requirements cover all transactions that relate to the IBOP report, including specified data on DoW assets and liabilities abroad and foreign currency transactions, DoW international investments, Foreign Military Sales, transfers of property and services abroad, and foreign grants and credits. This section's requirements apply to all transactions, regardless of payment method (e.g., U.S. dollars, foreign currency, and purchase card) accounted for in any of the following:

7.2.1.2.1. Expenditures from or reimbursements to U.S. dollar appropriation and fund accounts (general and special funds, public enterprise funds, deposit funds, and trust fund accounts for military and civilian functions); Transfer appropriation accounts including Foreign Military Sales; General fund receipt accounts established by the Treasury for collection of miscellaneous receipts for which the DoW has billing and collecting responsibility; Expenditures or receipts of foreign currencies charged or credited to other than U.S. dollar appropriation and fund accounts (such as DoW Foreign Currency (Foreign Transaction (FT) accounts)); Receipts or donations of commodities or services; Transfers under special drawdown authority of the President, Excess Defense Articles (EDA) program, or international treaties; Nonappropriated fund activities, such as commissaries, post exchanges, and officers' clubs; and MPSA transactions, such as meters (including Postage Validation Imprinters Sales), stamps, and money orders.

7.2.2. The IBOP report must be prepared, at a minimum, quarterly and is due to the Department of Commerce no later than 45 calendar days following the end of the quarter. The report may be prepared and submitted monthly, if desired, based on system capability. DFAS Operations Directorates will provide specific due dates to their respective DFAS Sites.

7.3 Policy

It is DoW policy to operate overseas activities efficiently and effectively and to reduce the balance of payments impact of these activities, when such reductions are consistent with U.S. national security goals and objectives. To support this policy, the Department maintains a mechanism to manage and control DoW transactions that enter the IBOP. This system provides for:

7.3.1. DoW-wide accounting for and reporting of IBOP transactions;

7.3.2. Evaluation and explanation of DoW IBOP transactions;

7.3.3. Use of uniform criteria, definitions, and requirements to report IBOP transactions; and

7.3.4. Integration of IBOP management and the overall system of management within the Department.

7.4 Responsibilities

7.4.1. Heads of the DoW Components must:

7.4.1.1. Develop procedures for implementing the reporting requirements;

7.4.1.2. Ensure reports and required data are submitted on time and are complete and accurate; and

7.4.1.3. Identify, for the Department of Commerce, the office responsible for submitting required data and points of contact within respective organizations that can both provide supplemental information on specific IBOP transactions and resolve problems associated with collecting and processing data.

7.4.2. The DFAS Site Directors must:

7.4.2.1. Administer and monitor, as necessary, the reporting requirements for their field reporting offices;

7.4.2.2. Ensure the requirements prescribed are uniformly implemented;

7.4.2.3. Work with other DFAS Sites to provide technical assistance on collecting required data and preparing reports. Each DFAS Site acts as the focal point for the assigned reporting organizations (sites) in providing technical assistance; and

7.4.2.4. Ensure reports are submitted directly to the Bureau of Economic Analysis, U.S. Department of Commerce, and include all data required by Directive 19.

7.5. For IBOP Reporting Guidelines, refer to Volume 6 Supplemental.

8.0 DEPOT MAINTENANCE REPORTING

8.1 The Depot Maintenance Cost System (DMCS)

The DoW maintains a core depot-level maintenance and repair capability in support of mission-essential weapon systems and other military equipment needed to directly support operational requirements and enable the armed forces to execute the strategic and contingency plans prepared by the Chairman of the Joint Chiefs of Staff. This section overviews the Depot Maintenance Cost System (DMCS) requirements for providing a comprehensive accounting

of DoW depot maintenance workloads. Refer to the Volume 6 Supplemental document for the procedures, supporting documents, and example reports.

8.2 Depot Maintenance Reporting Requirements

8.2.1. Scope

8.2.1.1 DoW Components must satisfy these requirements regarding reporting the accomplishment and status of DoW depot maintenance workloads in: DoW depot maintenance facilities; Private-sector facilities; DoW and Federal Government facilities; and State, local, and foreign government facilities.

8.2.1.2. These requirements apply to all depot maintenance workloads, regardless of DoW funding source, e.g., Defense Working Capital Fund (DWCF), Research and Development, Procurement, General Purpose Forces, Special Operations Forces, Operation and Maintenance, or other appropriations; or non-DoW funding source, such as work done for private-sector customers or other federal, state, local, and foreign governments.

8.2.1.3 Additional guidance is provided in the Volume 6 Supplemental document on the following: DoW Major Depot Maintenance Activities; Reporting Activity Identifying Codes; DMCS Input File; Work Breakdown Structure Codes; and Work Performance Category (WPC) Codes.

8.3 Depot Maintenance Cost Data Collection

The uniform recording, accumulation, and reporting of costs incurred in depot maintenance operations document the use of DoW resources to assist management in measuring productivity and efficiency, developing and using performance measurement and cost standards, and identifying areas in need of increased management emphasis. In addition, the data will assist in assessing total DoW maintenance capability, capacity duplication, and opportunities for interservice support of maintenance workloads.

8.4 Managerial Use of Depot Maintenance Cost Data, refer to Volume 6 Supplemental.

8.5 DMCS Reporting Requirements and Responsibilities

8.5.1. The DMCS reporting requirements contained in this section, including any subsequent data and format revisions, are the responsibility of the Deputy Assistant Secretary of War for Materiel Readiness (DASD (MR)), OUSW A&S. The DASD (MR) must provide the data revisions and report format changes to the OUSW(C), Financial Management Policy and Reporting (FMPR), for publication in subsequent revisions of this section. The senior official responsible for logistics in each DoW Component is required to report in a timely manner. The Assistant Secretary responsible for financial management in the Military Departments (or equivalent in other DoW Components) must provide complete and accurate financial data to the report preparer in sufficient time for report submission.

8.5.2. The depot maintenance cost report required by this section applies to all Military Services and other DoW activities that perform depot maintenance tasks internally or outsource depot maintenance tasks to external organizations or contractors through contractual agreements.

8.6 DMCS Data Submission Process

Annual DMCS data submissions must be provided to DASD (MR) or its designated agent, no later than December 31 following the end of the fiscal year. Reporting requirement symbol AP-MP(A)1397 is assigned to this reporting requirement. Refer to the Volume 6 Supplemental document for the procedures, supporting documents, and example reports for the DMCS Data Submission Process for Depot Maintenance Reporting.

9.0 DEFENSE REVOLVING FUNDS ACCOUNTING REPORT [ACCOUNTING REPORT (MONTHLY) 1307]

9.1 Defense Revolving Funds (DRF) Accounting Report (AR(M) 1307) Policy

This section provides an overview of the reporting requirements and policies for preparing the Defense Revolving Funds (DRF) Accounting Report (AR(M) 1307). In accordance with 10 U.S.C. § 2208, these policies apply to all DoW Revolving Funds and mandate that the Secretary of War and the Secretaries of each Military Department ensure separate accounting, reporting, and auditing for activities managed through these funds.

9.2 DRF AR(M) 1307 Reporting

9.2.1. Report Content

9.2.1.1. The DRF AR(M) 1307 consists of three principal internal accounting statements.

9.2.1.1.1. Statement of Financial Position. The Statement of Financial Position discloses the reporting entity's assets, liabilities, and net position.

9.2.1.1.2. Statement of Cash Flow. The Statement of Cash Flow discloses the reporting entity's cash flows from operations, adjustments, and appropriations and cash transfers, with an explanation of the changes in cash or cash equivalents for the reporting period.

9.2.1.1.3. Statement of Operations. The Statement of Operations discloses the results of the reporting entity's operations for the reporting period, including changes in the entity's net position from the end of the prior reporting period.

9.2.2. The DRF AR(M) 1307 is the official internal management report document for financial accounting and is a source document for the annual financial statements. The USSGL, on which the report is based, is updated at least annually and posted by the Fiscal Service. The DoW Standard Chart of Accounts provides normal account balance information. The DoW USSGL Transaction Library provides detailed general ledger transactions and posting business rules for accounting standardization, supporting the preparation of financial statements.

9.2.3. The AR(M) 1307 is prepared based on the activity's proprietary trial balances. An exception is the inclusion of obligation data in some items in Part VI and Part VII of the Statement of Operations.

9.2.3.1. The AR(M) 1307 provides accounting and inventory data for financial reporting and identifies the proprietary position of DRF activities. The AR(M) 1307 complements information provided in the Standard Form (SF) 133, which is prepared by using the activity's budgetary trial balances. Although AR(M) 1307 and SF 133 run independently, they should reconcile at the summary level. Refer to Volume 3 for additional guidance.

9.2.3.2. Use standard reconciliations, such as budgetary to proprietary relationships described in Volume 1, to verify the integrity of reported data.

9.2.3.3. Other supporting guidance can be found in Volume 3 and Volume 11 related to Defense Revolving Funds.

9.3 DRF AR(M) 1307 Reporting Requirement

9.3.1. Applicability. Each DoW Component DRF activity must produce consolidated reports. DRF activities may generate the AR(M) 1307 at different levels to manage their business effectively. Refer to the Volume 6 Supplemental document for the table that identifies the levels for which consolidated AR(M) 1307 reports are required with a pound (#) symbol.

9.3.2. Other Reporting Requirements. Do not retroactively implement policies that could have a significant adverse impact on the accuracy and integrity of financial reports, unless there is a clear offsetting benefit or unless directed by an external authority such as Congress. Refer to the Volume 6 Supplemental document for additional DRF AR(M) 1307 reporting requirements.

9.3.3. Report Formats. Use the financial report formats provided in the Volume 6 Supplemental document. Reports produced by Automated Data Processing (ADP) equipment may be substituted for the formats illustrated.

9.3.4. Frequency of Reports. Unless otherwise specified by the OUSW(C), prepare and submit the AR(M) 1307 reports monthly. Submit regular reports in accordance with due dates established by the DFAS and consistent with the requirements of OUSW(C).

9.3.5. Distribution and Responsibilities

9.3.5.1. Consolidated DoW Component and DRF Activity Reports. Submit a copy of consolidated DRF activity reports to the:

9.3.5.1.1. Director for Operations, ODC (P/B), OUSW(C);

9.3.5.1.2. Offices of the Assistant Secretary of the Army, Navy, and Air Force (FM&C); the Defense Commissary Agency (DeCA) Comptroller; and Comptrollers of Other Defense Activities (e.g., DLA Comptroller); and

9.3.5.1.3. Management Command responsible for the oversight of the DRF activity, if requested by a DoW Component.

9.3.5.2. Activity Level Reports. Submit a copy of DRF activity level reports to the:

9.3.5.2.1. Offices of the Assistant Secretary of the Army, Navy, and Air Force (FM&C); the DeCA Comptroller; and Comptrollers of Other Defense Activities if requested by a DoW Component;

9.3.5.2.2. Management Command responsible for the oversight of the DRF activity, if requested by a DoW Component; and

9.3.5.2.3. DRF activity, disclosing any adjustments made to the financial data submitted by that activity.

9.4 Detailed Instructions for AR(M) 1307

Detailed Instructions refer to the Volume 6 Supplemental document Section 9.4.

9.5 The Statement Of Financial Position

Format Of The Statement of Financial Position: refer to the Volume 6 Supplemental document, Section 9.5.

10.0 INTRODUCTION TO THE FORM AND CONTENT OF THE FINANCIAL STATEMENTS

10.1 Annual Audited Financial Statements

Under Public Law 101-576 (the Chief Financial Officers Act of 1990), Public Law 103-356 (the Government Management Reform Act of 1994), and 31 U.S.C. § 3515, the DoW is required to produce annual audited financial statements for all its accounts and activities, including both agency-wide and separate reporting entity statements. As directed by the OMB and defined in SFFAS 47, these statements must fully disclose the DoW's financial position and operational results. The primary objectives are to enable Congress, agency managers, and the public to assess management performance and stewardship, to improve the Department's overall management, and to integrate budget and financial information to support more effective program management.

10.1.1. The accounting policy and related requirements prescribed by this section are in accordance with the applicable provisions of: OMB Circular A-136, 31 U.S.C. § 3515, DoW Financial Statements Audit Guide; and DFAS Financial Reporting Guidance.

10.1.2. This section outlines the required form and content for both quarterly unaudited and annual audited financial statements applicable to all DoW consolidation entities. Refer to the Volume 6 Supplemental document for the level for consolidated reporting, additional authoritative

standards for statement format and disclosures, and other requirements. This section requires that all accounting transactions comply with the accounting standards hierarchy in Volume 1.

10.2 Required Reporting Requirements

Authoritative guidance requires the preparation of annual audited financial statements for the period ending September 30 of each fiscal year and quarterly unaudited financial statements for the periods ending December 31, March 31, and June 30 of each fiscal year. The Department must submit unaudited interim financial statements to OMB 21 business days after the end of the third quarter of the fiscal year and Notes to the Financial Statements 45 business days after the end of the third quarter of the fiscal year. Annual audited financial statements are due to OMB, the Treasury, the GAO, and Congress in accordance with OMB Circular A-136. Exceptions for DoW Components in their first year of a clean audit opinion may present their audited financial statements as a single-year statement. Additionally, all components receiving a standalone audit and a clean audit opinion may submit their audited financial statements by the last day of February following the end of the fiscal year. DoW Components must coordinate their exception request with their Inspector General and OUSW(C) DCFO.

10.3 Reporting Entities

10.3.1. The financial statement consolidation entities include the DoW consolidation entities, OMB required entities, Senate Select Committee on Intelligence (SSCI) consolidation entities, and non-OMB consolidation entities. For additional requirements for each consolidation entity, refer to the Volume 6 Supplemental document.

10.3.2. Disclosure entities are those non-DoW entities required to be disclosed in the footnotes to the consolidated financial statements but are not included in the primary financial statements of the Department. Additional information on the disclosure entities is available in the Volume 6 Supplemental document.

10.4 Audit Compliance

10.4.1. OUSW(C) Audit Requirements

10.4.1.1. OMB-required consolidation entities and non-OMB consolidation entities are required to comply with the FIAR requirements and other guidance issued by the OUSW(C).

10.4.1.2. Each Component, after completing its assertion of auditability, and with the advice of the DoW Office of the Inspector General (OIG), must establish an audit committee to oversee its financial audit.

10.4.1.2.1. The purpose of the audit committee is to establish audit requirements, identify contract deliverables, monitor the execution of the contract, and identify and assist with resolution of obstacles to an unmodified audit opinion.

10.4.1.2.2. Once DoW Component consolidation entities are deemed auditable, the audit committee's focus should be on ensuring a forum exists to address ongoing accounting and auditing issues.

10.4.1.2.3. Audit committees for OMB-required consolidation entities must include a representative of DoW OIG.

10.4.2. OMB Audit Requirements

Audits of Federal financial statements are conducted in accordance with the requirements found in the annually updated OMB Bulletin, "Audit Requirements for Federal Financial Statements." These provisions apply to audits of financial statements of executive departments, agencies, government corporations, and certain components of these agencies. The Bulletin reflects changes resulting from other revised OMB guidance, including OMB Circular A-136.

10.5 Content of Annual Audited And Quarterly Unaudited Financial Statements

10.5.1. The OMB, in collaboration with the CFO Council and others, developed the required formats. The resulting annual audited financial statements must be organized as shown in Table 6-2. The annual audited financial statements of the OMB-required consolidation entities must be comprised of four major sections. Non-OMB consolidation entities not identified elsewhere in this section are to follow the requirements outlined in the Volume 6 Supplemental document.

10.5.2. The quarterly unaudited financial statements required for third and fourth quarters must be comprised of the principal statements and notes to the principal statements and, if applicable, supporting consolidating and/or combining statements. Although the first and second quarter principal statements must be prepared, the preparation of accompanying notes for the first and second quarters is not required.

10.5.3. The 4 required major sections and the sequence of their presentation are as follows:

10.5.3.1. Agency Head Transmittal Letter

10.5.3.2. Management's Discussion and Analysis (MD&A)

10.5.3.3. Financial Section; and

10.5.3.4. Other Information

10.5.4. The accompanying subsections of the Financial Section are as follows:

10.5.4.1. CFO Message;

10.5.4.2. Audit Report;

10.5.4.3. Principal Statements; which includes the Balance Sheet (Consolidated); Statement of Net Cost (Consolidated); Statement of Changes in Net Position (Consolidated); and Statement of Budgetary Resources (Combined)

10.5.4.4. Notes to the Principal Statements and

10.5.4.5. Required Supplementary Information (RSI)

11.0 GENERAL INSTRUCTIONS FOR THE FINANCIAL STATEMENTS

11.1 Responsibilities

11.1.1. The primary responsibility for the financial statements rests with the reporting entity's management. Responsibility for preparation of the principal statements and notes, however, may be shared with the accounting organization responsible for maintaining the financial records of the reporting entity. The responsible official must ensure that: (1) known business processes/systems that could materially impact the financial statements are communicated; (2) all necessary data that originates in nonfinancial processes and systems (e.g., inventory and property data) is provided; (3) consolidating/combining statements are reviewed and analyzed; and (4) feedback is provided to the entity's supporting accounting organization as required or upon request.

11.1.2. The roles and responsibilities of reporting entities and service providers, as well as the processes they must follow to achieve audit readiness, are detailed in the DoW Financial Statement Audit Requirements and Overview Guide (DoW Common Access Card (CAC) required).

11.1.3. Additionally, the DoW Financial Reporting Guidance (CAC enabled) establishes other financial reporting requirements to assist in achieving full auditability. These financial reporting requirements and timelines are detailed within the guidance.

11.2 Other General Instructions for The Financial Statements

For additional information on the general required procedures, preparation and submission, and other responsibilities for the financial statements, Management Representation Letter (MRL), the Legal Counsel Response (LCR), and Management Schedules of Information (MSIs), as required by the OMB and other departmental guidance, refer to the Volume 6 Supplemental document.

12.0 AGENCY FINANCIAL REPORT SECTIONS

The AFR must include the Agency Head Transmittal Letter, MD&A, Financial Section, and Other Information (OI). OUSW(C) prepares and submits the consolidated, Agency-wide AFR and a separate Annual Performance Report (APR). Subcomponents are not required to prepare an APR. If they decide to prepare an APR, subcomponents are not required to prepare an OI but may choose to do so. For additional information on the requirements for DoW Tier 1 consolidation entities referenced in Section 10, subcomponents must prepare and submit an AFR to the OUSW(C). The AFR must include the following that conform to OMB Circular A-136: Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, Statement of Budgetary Resources, General Notes to the Financial Statements, and Required Supplementary Information.

13.0 GENERAL ADJUSTMENTS, ELIMINATIONS, AND RECONCILIATION REQUIREMENTS FOR INTRAGOVERNMENTAL BALANCES

Intra-Governmental Transactions (IGT) or balances result from business activities conducted between two federal entities or Federal Program Agencies (FPAs). When these transactions occur, these federal entities are called trading partners. The accurate reporting of reciprocal balances and the proper elimination of reciprocal activity between trading partners require accurate documentation of accounting events. Imbalances occur when trading partners are unable to account for and reconcile differences with one another. All DoW consolidation entities are required to report intragovernmental account balances in their financial statements, eliminate appropriate intra-DoW balances, and classify intragovernmental account balances by category and level. Refer to the Volume 6 Supplemental document for general instructions for trading partner exchange of data, eliminating intragovernmental transactions from the DoW quarterly and annual financial statements, and providing elimination information to the Treasury for use in preparing the Governmentwide financial statements.

CHAPTER 1

BASIC PAY

1.0 GENERAL

1.1 Purpose

This chapter prescribes the criteria for determining creditable service for military members; provides examples for computing valid creditable service; states periods of service that are not creditable for pay purposes; cites conditions for the payment of military pay entitlements; explains the computation of leave and conditions for leave accrual; and provides for situations where enlistments are not valid. Tables 1-1 through 1-15, outlining various conditions in which military pay is payable for all grades of military personnel, are at the end of this chapter. See Chapter 26 for entitlement to Basic Allowance for Housing (BAH), and Chapter 25, Table 25-1 or the ***Basic Allowance for Subsistence (BAS)*** table for payments.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with, the United States Code (U.S.C.). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 CREDITABLE SERVICE

2.1 Service Which is Creditable

2.1.1. General

2.1.1.1. The several military pay and personnel systems use a variety of dates to determine various entitlements. Among them is the date that denotes how much service a member has for the purpose of determining longevity pay rates. The Army refers to this as the "pay entry basic date," the Navy and Marine Corps refer to this as the "pay entry base date," while the Air Force calls it the "pay date." This chapter will refer to this data element as the "basic pay date," which is defined as reflecting all service that is creditable towards longevity.

2.1.1.2. The member's servicing personnel office is responsible for providing, when necessary, a statement of service that can include the basic pay date, total active federal military service date, total commissioned federal military service date, and a variety of other dates, depending on the nature of the individual member's service. This Regulation details only the computation of the basic pay date, since Military Service personnel regulations control the computation of all other dates.

2.1.2. Computation of Creditable Service. For most members who enter and serve on active duty without a break in service, the basic pay date is the date the member enters active or inactive service. If, however, there is a break in service, the time between periods of service usually is not included. Also, there are statutory periods when service in a particular component may not be counted. Conversely, there are periods for which some members are given constructive service, even though they were not actually serving on active or inactive duty. Use subparagraphs 2.1.3 through 2.1.5 to compute the basic pay date when there has been a break in service of any kind or if there is a need to include constructive service.

2.1.3. Creditable Service Periods. Include active or inactive service in any of the following components without restriction:

2.1.3.1. Regular service in the Army, Air Force, Navy, Coast Guard, and Marine Corps;

2.1.3.2. Army, Naval, Marine Corps, Air Force, and Coast Guard Reserve;

2.1.3.3. Army of the United States (service without specification of a component);

2.1.3.4. Army National Guard;

2.1.3.5. Army National Guard of the United States;

2.1.3.6. National Guard;

2.1.3.7. National Guard of the United States;

2.1.3.8. Air Force of the United States (service without specification of a component);

2.1.3.9. Air National Guard;

2.1.3.10. Air National Guard of the United States;

2.1.3.11. Nurse Corps and Nurse Corps Reserve of the Public Health Service; or

2.1.3.12. Public Health Service and Reserve Corps of the Public Health Service.

2.1.4. Other Creditable Service (with restrictions noted in this subparagraph and in subparagraph 2.2.1). Include the following periods of service:

2.1.4.1. Officer, deck officer, or junior engineer service in the National Oceanic and Atmospheric Administration, including similar periods of service in the former Corps of the Environmental Science Services Administration and the U.S. Coast and Geodetic Survey;

2.1.4.2. Service on a Military Service retired list, temporary disability retired list, or honorary retired list of any Uniformed Service or service as a member of the Fleet Reserve or Fleet Marine Corps Reserve;

2.1.4.3. Any period of service during which a member is entitled to retired, retirement, or retainer pay from any Uniformed Service;

2.1.4.4. Service as a cadet or midshipman at a military academy is always creditable service for an enlisted member who is not commissioned. For a prior service member, he/she reverts back to his/her enlisted status to complete their enlistment contract. See Table 1-1 to determine whether such service is creditable for commissioned and warrant officers;

2.1.4.5. Credit the time when an enlisted member is retained after the expiration of term of service of an Armed Force for medical care or hospitalization for disease or injury incident to service. Do not credit such periods of service if the underlying medical condition requiring medical care or hospitalization was due to the member's misconduct;

2.1.4.6. Service otherwise creditable that is performed before a member reaches the statutory age for enlistment, unless the enlistment contract was voided or invalidated for fraud;

2.1.4.7. Active service performed as a temporary member of the U.S. Coast Guard Reserve;

2.1.4.8. Service terminated by desertion or dishonorable discharge unless the enlistment was fraudulent and was voided for that reason;

2.1.4.9. Periods of service when a member is detailed to and receiving pay and allowances from any other agency of the United States, even though accruing military pay, and allowances is suspended;

2.1.4.10. Service as a member of the Army, Navy, or Air Force Reserve Officers' Training Corps (ROTC), provided the member has concurrent Selected Reserve (drilling status) for duty performed on or after August 1, 1979. Also, see subparagraph 2.1.4.14;

2.1.4.11. Service as an officer, Army field clerk, flight officer, aviation midshipman, or enlisted member of a uniformed service;

2.1.4.12. Service as an enlisted member in a Reserve Component, including Ready Reserve service (inactive and active) under the Delayed Entry (Enlistment) Program (DEP), before beginning active duty or an initial period of Active Duty Training (ADT), provided the Reserve enlistment was entered into before January 1, 1985. As of January 1, 1985, the following restrictions went into effect as and when stated:

2.1.4.12.1. For enlistments in a Reserve Component under ***Title 10, U.S.C., section 12103***(b) or (d), including enlistments under a DEP, that were entered

into between January 1, 1985, and November 28, 1989, the period served in the Reserve Component before beginning active duty or an initial period of ADT is not creditable; or

2.1.4.12.2. For enlistments entered into on or after November 29, 1989:

2.1.4.12.2.1. A period of enlisted service in a Reserve Component under 10 U.S.C. § 12103(b) or (d), including inactive service under a DEP, is creditable service only if the member performs Inactive Duty Training (IDT) before beginning active duty or an initial period of ADT; or

2.1.4.12.2.2. Service performed as an enlisted member in a Reserve Component under ***10 U.S.C. § 513***, other than a period of active duty, is not creditable service; or

2.1.4.13. Any period of service which was creditable under any federal statute in effect on January 10, 1962.

2.1.4.14. Prior provisions of law excluded the Simultaneous Membership Program from creditable service for commissioned officers, effective October 13, 1964. Title ***10 U.S.C. § 2106*** amended these provisions to provide service credit retroactive to August 1, 1979. These amendments resulted in no increase in pay, retired pay, or retainer pay before the date of enactment, September 23, 1996. Service in the program for enlisted members who retain that status remains creditable under all provisions.

2.1.5. Constructive Service

2.1.5.1. Some medical and dental officers are entitled to extra credit for longevity purposes to reflect the time spent in medical or dental school. Medical and dental officers must meet one or more of the following criteria to be entitled to the constructive credit.

2.1.5.1.1. On or before September 15, 1981, the officer already had the constructive service credit, then the credit is not lost if there is a break in service either before or after that date. This criterion is applicable to Public Health Service officers.

2.1.5.1.2. On or before September 14, 1981, the individual was enrolled in either the Armed Forces Health Professions Scholarship Program (AFHPSP) or in the Doctor of Medicine (DOM) program at the Uniformed Services University of Health Sciences (USUHS), completed that program, and was appointed as a medical or dental officer.

2.1.5.1.3. On or before September 14, 1981, the individual was participating in a program that credited years of service and led to an appointment as an officer in the Army, Navy, Air Force, or Marine Corps.

2.1.5.2. Medical and dental officers, who meet the criteria in subparagraph 2.1.5.1, are entitled to 4 years of constructive service credit. Also, those medical officers who have completed a medical internship or its equivalent, or who entered military status while serving such an internship, are entitled to a fifth year of constructive service credit.

2.1.5.3. Where a member is entitled to service credit for a period covered by the constructive credit, reduce the constructive service credit by an amount equal to the actual service credit.

Example 1: An individual completed dental school on June 11, 1977, and accepted a commission as a dental officer on August 3, 1977. The member was credited with 4 years of constructive service and a basic pay date of August 3, 1973.

Example 2: An individual completed a medical internship on June 30, 1979, and accepted a commission as a medical officer on August 11, 1979. The member was credited with 5 years of constructive service and a basic pay date of August 11, 1974.

Example 3: An individual entered medical school in 1970 and accepted a commission on January 12, 1972. He graduated from medical school on June 10, 1974, and completed a civilian residency during the period from July 1, 1974, through June 30, 1975. Compute basic pay date as follows:

First, compute dual status period, which is the period of time between the date of commission and date of graduation:

	YR	MO	DAY
Graduated:	74	06	10
Commission Date:	72	01	12
Dual Status Period:	02	04	28+1 (inclusive day)

Then, compute constructive service credit, which is the 4 years constructive credit less the time already credited as commissioned service:

Maximum Constructive Service Credit:	03	11	30 (4 years)
Less Dual Status Time:	02	04	29
Constructive Credit:	01	07	01

The member's basic pay date was 1 year, 7 months, and 1 day before his commission date of January 12, 1972, or June 11, 1970.

Example 4: The scenario is the same as in the previous subparagraph, except the member accepted a commission on July 12, 1974, after starting the internship. The member was entitled to 5 years of constructive service credit instead of 4 years:

	YR	MO	DAY
Date Finished Internship:	75	06	30
Commission Date:	74	07	12
Dual Status Period:	00	11	18+1 (inclusive day)

Maximum Constructive Service Credit:	04	11	30 (5 years)
Less Dual Status Time:	00	11	19
Constructive Credit:	04	00	11

The member's basic pay date was 4 years, no months, and 11 days before his commission date, or July 1, 1970.

Example 5: An officer commissioned on November 19, 1962, entered dental school on September 9, 1970, and graduated on May 28, 1974. To compute constructive service credit:

First, compute dual status:

	YR	MO	DAY
Graduated:	74	05	28
Started School:	70	09	09
Dual Service:	03	08	19+1 (inclusive day)

Then, deduct the dual service from the 4-year constructive credit period to arrive at net constructive service credit:

	YR	MO	DAY
Maximum Constructive Service Credit:	03	11	30 (4 years)
Less Dual Service:	03	08	20
Constructive Credit:	00	03	10

Change the member's basic pay date to 3 months and 10 days before the previous one (November 19, 1962) to August 10, 1962.

2.2 Service Not Creditable

2.2.1. General. Do not use any service that is not listed as creditable service to compute a basic pay date. The following list includes a few types of service that are not creditable:

2.2.1.1. The time served in an enlistment that is terminated, voided, or invalidated as fraudulent;

2.2.1.2. The time served as a commissioned officer in the Philippine Army;

2.2.1.3. The period of time a member was on the Emergency Officers' Retired List;

2.2.1.4. The time an individual was a member of a state, home, or territorial guard;

2.2.1.5. The time an individual was a member of the inactive National Guard. This does not apply to an individual who was a member of the National Guard Reserve and the National Guard of the United States. Time during which the individual had dual status, enlisted or commissioned, in the inactive National Guard and the National Guard of the United States is creditable;

2.2.1.6. The time, subsequent to September 14, 1981, a member serves while enrolled in the AFHPSP and Financial Assistance Program (FAP), or while a DOM student at the USUHS. Use any service creditable on the date of the officer's entry into DOM USUHS to compute the officer's basic pay for longevity purposes while a USUHS student, not to exceed the maximum rate of O-1 pay (Table 1-7) or O-1E pay (Table 1-8), as applicable, or the rate of pay of the member's former pay grade, if greater, as outlined in subparagraph 3.3.1. For the most current pay rates, see the ***Military Basic Pay*** tables on DFAS.MIL;

2.2.1.7. The time served in a Reserve Component before beginning active duty or an initial period of ADT for enlistment in a Reserve Component under 10 U.S.C. § 12103(b) or (d) that was entered into between January 1, 1985, and November 28, 1989;

2.2.1.8. For enlistments entered into on or after November 29, 1989:

2.2.1.8.1. A period of enlisted service in a Reserve Component under 10 U.S.C. § 12103(b) or (d), including inactive service under a DEP, if the member does not perform IDT before beginning active duty or an initial period of ADT; or

2.2.1.8.2. Service performed as an enlisted member in a Reserve Component under 10 U.S.C. § 513, other than a period of active duty; or

2.2.1.9. For an officer, the time served while attending a military service academy including the U.S. Merchant Marine Academy.

NOTE: The midshipmen attending the U.S. Merchant Marine Academy sign contracts to join the enlisted Navy Reserve on the day they enter the Academy. Students who attend one of the six state Merchant Marine college programs and who receive a Naval ROTC scholarship are treated the same as any Naval ROTC cadet or midshipmen. Students who attend one of the six state Merchant Marine college programs and who join the Navy after graduation from one of the programs are treated as any other member who joins the Navy.

2.2.2. Effect of Lost Time Absence From Duty on Creditable Service

2.2.2.1. Prior to February 11, 1996, a commissioned or warrant officer was entitled to credit for every day in a commissioned or warrant status, without regard to an absence of any kind, whether authorized or unauthorized, and including confinement prior to and during trial. In addition, absence during which a member was serving on active duty as an enlisted member was creditable if the enlisted member also held a commission as a Reserve officer. After February 10, 1996, a commissioned or warrant officer may not count the following periods of absence for any purpose other than that of computing length of service for basic pay:

2.2.2.1.1. Desertion;

2.2.2.1.2. Absence from organization, station, or duty for more than 1 day without proper authority, as determined by proper authority;

2.2.2.1.3. Confinement by military or civilian authorities for more than 1 day in connection with a trial, whether before, during, or after the trial; or

2.2.2.1.4. The officer's inability for more than 1 day, as determined by competent authority, to perform assigned duties because of the officer's intemperate use of drugs or alcoholic liquor, or because of disease or injury resulting from the officer's misconduct.

2.2.2.2. See Table 1-2 to determine the creditability for absence while in an enlisted status.

2.3 Active Enlisted and/or Warrant Officer Service for Members in Basic Pay Grades O-1E, O-2E, or O-3E

2.3.1. Service Counted

2.3.1.1. General. Commissioned officers with over 4 years of prior active service as an enlisted member, warrant officer, or combined service in both grades are entitled to count such service for purposes of computing basic pay for longevity purposes. Such prior service includes all active service, in either the Regular or Reserve Component or both (i.e., ADT in enlisted or warrant officer status, annual Reserve training duty, and full-time National Guard duty). Service on active duty or ADT and IDT for at least 4 years and 1 day satisfies the over 4 years of service requirement under this section.

2.3.1.2. Creditable Prior Enlisted Service. Commissioned officers in pay grades O-1, O-2, or O-3 who are credited with over 4 years (i.e., at least 4 years and 1 day) of prior active service as an enlisted member are entitled to the special rate of basic pay for pay grade O-1E, O-2E, or O-3E.

2.3.1.3. Creditable Prior Warrant Officer Service. Commissioned officers in pay grades O-1, O-2, or O-3 who are credited with over 4 years (i.e., at least 4 years and 1 day) of prior active service as a warrant officer are entitled to the special rate of basic pay for pay grade O-1E, O-2E, or O-3E.

2.3.1.4. Creditable Combined Prior Service. Effective October 1, 1993, commissioned officers in pay grades O-1, O-2, or O-3 who are credited with over 4 years (i.e., at least 4 years and 1 day) of combined prior active service as an enlisted member and warrant officer are entitled to the special rate of basic pay for pay grade O-1E, O-2E, or O-3E.

2.3.1.5. Creditable Service for Certain Reserve Commissioned Officers. Effective January 1, 2002, commissioned officers in pay grades O-1, O-2, and O-3 who are paid from funds appropriated for Reserve personnel and credited with 1,460 points for retirement computed under

10 U.S.C. § 12732(a)(2) for service as a warrant officer and/or enlisted member, which requires a minimum of 50 points annually, are entitled to the special rate of basic pay for pay grade O-1E, O-2E, or O-3E.

2.3.1.6. Creditable Service for Certain Commissioned Officers. Effective November 24, 2003, the restriction that members must be paid from reserve appropriated funds to qualify for the special rate of basic pay for pay grades O-1E, O-2E, and O-3E based upon creditable service points is eliminated. Therefore, effective that date, commissioned officers in pay grades O-1 through O-3 with more than 1,460 points computed under 10 U.S.C. § 12732(a)(2) for service as a warrant officer and/or an enlisted member, which requires a minimum of 50 points annually, are entitled to the special rate of pay.

2.3.1.7. Leap Year. Reserve Component members who perform duty during a leap year earn a point for the extra day of duty in the month of February under 10 U.S.C. § 12732(a)(2). A leap year represents 1 year of service for basic pay purposes. Thus, the extra point does not qualify the member for having earned the equivalent of over 4 years of active service, and the member would not be eligible for the O-1E, O-2E, or O-3E rate of basic pay. The member would have to serve more than 4 years of active service to qualify for the special rate of basic pay.

2.3.1.8. Creditable Service While Graduate Students at USUHS. The Secretary of Defense will establish such selection procedures, service obligations, and other requirements as the Secretary considers appropriate for graduate students (other than DOM students) in a postdoctoral, postgraduate, or technological institute established pursuant to *10 U.S.C. § 2113*(e). The subparagraph 2.2.1.8 does not apply to graduate students.

2.3.2. Service Not Counted. In computing active service, do not count:

2.3.2.1. Active service in a dual status (temporary officer/permanent enlisted) in the Navy or Marine Corps;

2.3.2.2. Service as a National Guard technician; or

2.3.2.3. Except for periods of active duty service performed while a USUHS DOM student, time served as a DOM student at USUHS. See subparagraph 2.2.1.8 and applicable notes to Tables 1-7, 1-8, and the Basic Pay tables on DFAS.MIL.

2.4 Computation of Creditable Service

2.4.1. Computing a Basic Pay Date

2.4.1.1. All basic pay date computations start from the date of the member's most recent entry on duty without a break in service. Use the following dates:

2.4.1.1.1. For enlisted members, the date of enlistment, but see subparagraph 2.1.4.12 for service under a DEP;

2.4.1.1.2. For officers, the date of acceptance of a commission. The date of acceptance for officers graduating from a Military Service academy is the date of graduation; or

2.4.1.1.3. For officers entitled to count service as an acting assistant surgeon, intern, or hospital steward in the Public Health Service or the Public Health Marine Hospital Service, the date of acceptance of the appointment. Do not count service performed before that date.

2.4.1.2. After determining initial basic pay date, compute creditable service for all service prior to that date. Use the following to compute basic pay date. If the member had any periods of service during which there was lost time, do not use those periods here. Instead, compute according to subparagraph 2.4.1.3.

2.4.1.2.1. List beginning dates of service for each separate period of service, without changing any of them, and add them together.

2.4.1.2.2. List all ending dates. If the day is the 31st day of the month, change it to 30. If the day is February 28 in a non-leap year, change it to February 30 for computation purposes. If the day is February 29, change it to February 30 for computation purposes. Do not change February 28 of a leap year to February 30. Add all ending dates together.

2.4.1.2.3. Subtract the beginning day result from the ending day result.

2.4.1.2.4. For each non-continuous period of service, add 1 day to account for inclusive days. Explanation: Any period of service is at least one day. If, for example, the member had one day of service on January 17, 2016, the computation would look like this:

Example:	YR	MO	DAY
Ending Day:	16	01	17
Less Beginning Day:	16	01	17
	00	00	00

It is necessary to add 1 day for inclusive days to avoid this erroneous answer.

2.4.1.2.5. Convert to full years, months, and days. The result is years of service creditable for pay purposes.

Example: Member served as follows:

	From:	To:
Active Duty Army (Enlisted)	Jan 1, 93	Feb 29, 96
Army National Guard (Commissioned)	Jun 1, 96	May 26, 03
Air National Guard (Commissioned)	Aug 1, 05	Mar 31, 10
U.S. Air Force (Commissioned)	Apr 1, 10	Jun 4, 17

Beginning dates:			Ending Dates:		
YR	MO	DAY	YR	MO	DAY
1993	01	01	1996	02	30
1996	06	01	2003	05	26
2005	08	01	2017	06	04
5994	15	03	6016	13	60

Convert February 29, 1996, to February 30, 1996, since 1996 was a leap year.

Convert March 31, 2010, to March 30, 2010, since the 31st day of a month does not count as an ending date, though it would count as a beginning date. The period from August 1, 2005, through June 4, 2017, is continuous, so it is all included in the third line of the computation.

Subtract total of beginning dates from the total of ending dates:

YR	MO	DAY	
6016	13	60	(total of ending dates)
6015	25	60	(borrowed 12 months from year column)
5994	15	03	
21	10	57	

Add 1 day for each of the 3 periods used in the computation. The result is 21 years, 10 months, and 60 days, which converts to exactly 22 years of creditable service.

2.4.1.3. Regarding computations involving lost time, if a member has lost time, compute the creditable service for the period served separately. Add the results to any creditable service computed separately under subparagraph 2.4.1.2.

2.4.1.3.1. When there is a period of lost time that has not been made good, compute the lost time on a 30-day month basis, but if the lost time begins on the 31st day of a month, include that day as a lost day. Compute as follows.

Determine the years, months, and days of lost time and deduct that amount from the total service during the period.

Example: A member enlisted for 4 years on July 18, 2012, but was absent without leave (AWOL) from February 10, 2015, through March 16, 2015. The member received a hardship discharge on August 10, 2015, without making up the lost time. The member reenlisted February 20, 2017. Compute creditable service and basic pay date as follows.

First compute the lost time.

	YR	MO	DAY
Ended AWOL:	15	03	16
Began AWOL:	15	02	10
Lost Time:	00	01	06+1 (inclusive day)

Then compute first period of service.

Discharged:	15	08	10
Entered Active Duty:	-12	07	18
Subtotal:	03	00	22+1 (inclusive day)
Deduct Lost Time:	-00	01	07
Creditable Service:	02	11	16

Subtract 2 years, 11 months, and 16 days from reenlistment date of February 20, 2017, to arrive at a new basic pay date of March 4, 2014.

2.4.1.3.2. A member who makes good the lost time does so on a day-to-day basis. When the member makes good on lost time and completes the enlistment or contract period, compute the period of lost time on both a 30-day month basis and a day-to-day basis and use the result that is most advantageous to the member. To illustrate, if a member is AWOL on March 30 through April 1, it would be 3 days on the day-to-day basis but only 2 days on a 30-day month basis. Compute creditable service as follows (and separately from periods of service which do not have lost time).

2.4.1.3.2.1. First step: Compute total lost time on both a 30-day basis and a day-to-day basis. Convert the day-to-day basis computation to years, months and days, and compare it to the computation on the 30-day basis. Discard the one which shows a higher total of days lost.

2.4.1.3.2.2. Second step: Compute the gross amount of service during the period by subtracting the entry date from the discharge date and adding 1 day for inclusive day.

2.4.1.3.2.3. Third step: Subtract the lost time from the result of the second step. If the result is at least as long as the enlistment contract, use that amount. If the result is less than the enlistment contract, increase it to equal the enlistment contract.

2.4.1.3.2.4. Fourth step: Add this creditable service to any other periods and use the total to figure the member's basic pay date.

Example 1: Assume the member in the example in subparagraph 2.4.1.3 had not received a hardship discharge; instead, he or she had completed the enlistment contract, including making good the lost time. He made up the 35 days of lost time computed on a day-to-day basis. The days served to make good the lost time were July 18-31, 2016 (14 days) and August 1-21, 2016 (21 days).

When the member reenlists on February 20, 2017, compute creditable service as follows:

YR	MO	DAY	
16	08	21	(ending date of the last period of service)
-12	07	18	(beginning date of the last period of service)
04	01	03	+1(inclusive day)

The result is 4 years, 1 month and 4 days before deducting lost time. Note that the lost time computed on a 30-day month basis was 37 days, but was only 35 days when computed on a day-to-day basis. Subtract the 35 days lost time from the period of service computed.

YR	MO	DAY
04	01	04
-00	01	05
03	11	29 (total service)

The result is less than the enlistment contract of 4 years, but since the member completed the enlistment contract, he or she is entitled to credit for the entire 4 years. Set basic pay date at February 20, 2013, when the member reenlists on February 20, 2017.

Example 2: A member enlisted on July 18, 2012, for 4 years. She was AWOL from July 28, 2015, through September 3, 2015, which is 38 days on a day-to-day basis (July 28-31, 4 days; August 1-31, 31 days; and September 1-3, 3 days). She is discharged on August 24, 2016, after making good the 38 days of bad time by serving July 18-31 (14 days) and August 1-24 (24 days).

Step 1. When she reenlists on February 20, 2017, compute prior service as follows:

YR	MO	DAY	
16	08	24	(ending date of the last period of service)
-12	07	18	(beginning date of the last period of service)
04	01	06+1	(inclusive day)

The result is 4 years, 1 month and 7 days before deducting lost time.

Step 2. Lost time on a day-to-day basis was 38 days. Compute lost time on a 30-day month basis as:

July 28-31, 2015,	03 days
August 1-30, 2015,	30 days
September 1-3, 2015,	03 days
Total	36 days

Step 3. Following the rule set out in step 2, deduct the lost time in the manner most beneficial to the member.

YR	MO	DAY	
04	01	07	(service before deducting lost time)
-00	01	06	(lost time)
04	00	01	

Step 4. Set the basic pay date at February 19, 2013, when the member reenlists on February 20, 2017.

2.4.1.4. Regarding adjusting the basic pay date when a member has lost time, lost time does not change an officer's basic pay date (See paragraph 2.2.2). When an enlisted person returns to duty after a period of lost time, add the number of days lost time to the member's basic pay date to reflect the lost time."

Example: An enlisted member with no prior service enlisted on July 18, 2015. He was AWOL from February 10, 2017, through March 16, 2017. When the member returns to duty status, change his basic pay date as follows:

Compute lost time:

February 10-30	21 days
March 1-16	16 days
	37 days lost time

YR	MO	DAY	
15	07	18	(original basic pay date)
+00	01	07	
15	08	25	

The new basic pay date is August 25, 2015.

2.4.2. Procedure When Basic Pay Date Falls on February 29. When basic pay date falls on February 29, entitlement to longevity increases begins on March 1 in non-leap years and on February 29 in leap years.

3.0 COMPUTATION OF PAY

3.1 Basic Pay Entitlements

3.1.1. When Entitled to Basic Pay. The pay of Military Service members is prescribed by law. Current basic pay rates are contained in Tables 1-7, 1-8, 1-9, 1-10, and on the Basic Pay tables on DFAS.MIL. Members are entitled to receive pay according to their pay grades and years of service if they are:

3.1.1.1. On active duty in a pay status; and

3.1.1.2. Not prohibited by law from receiving such pay.

3.1.2. Employment of Members in Another Capacity

3.1.2.1. Employment Under the Government

3.1.2.1.1. Unless otherwise provided by law (such as during the period a member is on terminal leave pending retirement, separation, or release from active duty under honorable conditions), a member may not be employed in another capacity by the government and receive pay, other than the pay and allowances that accrue by reason of the military status. A member may be employed, however, on a voluntary basis during off-duty hours in connection with non-appropriated fund activities.

3.1.2.1.2. Under agreements such as that between the DoD and the Agency for International Development (AID) of the Department of State, military members may be detailed to agencies such as AID for certain types of service for specified periods. As provided in pertinent agreements, members that are detailed are entitled to the pay and allowances of employees of the agency (AID Foreign Service personnel, in the case of that agency) holding comparable positions. Such members are paid by the agency in which service is performed, not by the Military Service involved.

3.1.2.2. Acceptance or Holding Civil Office

3.1.2.2.1. An officer of an Armed Force on active duty may not be employed on civil functions if the civil duties separate the member from the parent organization or interfere with the performance of military duties. This applies to employment on civil works or internal improvements, by an incorporated company, or as acting paymaster or disbursing agent of the Bureau of Indian Affairs.

3.1.2.2.2. Unless otherwise provided by law, an officer of a Regular Component of the Army, Navy, Air Force, or Marine Corps may not hold a civil office by election or appointment under the United States, a territory, possession, or state. Acceptance of such position terminates the officer's appointment and any further entitlement to receive pay and allowances whether or not the officer continues to fulfill the duties as an officer subsequent to accepting the office.

3.1.2.3. Medical Officers. Medical officers on active duty who receive any compensation or stipend payments for services they perform as interns or resident physicians in private or public institutions (state, county, municipal, or privately owned hospitals) receive such payments for the benefit of the United States. Collect these payments from medical officers for deposit to the U.S. Treasury.

3.1.3. Formal Acceptance of Appointment by Officers

3.1.3.1. Pay and allowances generally accrue from the date of acceptance of appointment as an officer. The normal method of acceptance is taking the oath of office. Commencement of travel in compliance with an order is considered acceptance for pay purposes, but payment will not be made until formal signing of the oath of office. See Table 1-3 for specifics and for graduates of the academies.

3.1.3.2. An officer need not take the oath of office upon promotion if the service has been continuous since the last oath.

Note: See Table 1-4 for other situations regarding effective dates for promotions or restoration of grade.

3.1.4. Restriction Against Dual Payments

3.1.4.1. Except as prescribed in subparagraph 3.1.4.3, a Reserve member who is entitled to disability compensation or a pension from the Department of Veterans Affairs (VA) because of earlier military service, and who performs military duty for which the member is entitled to compensation, may elect to receive either of the following for the period of military duty:

3.1.4.1.1. Payments for the VA disability compensation or pension; or

3.1.4.1.2. If the member specifically waives those payments, the pay and allowances authorized by law for the duty the member is performing.

3.1.4.2. Except as prescribed in subparagraph 3.1.4.3, a Reserve member who is entitled to retired or retainer pay because of earlier military service, and who performs military duty for which the member is entitled to compensation, may elect to receive either of the following for the period of military duty:

3.1.4.2.1. Payments of the pay and allowance authorized by law for the duty the member is performing; or

3.1.4.2.2. If the member specifically waives those payments, the retired or retainer pay to which the member is entitled.

3.1.4.3. A Reserve member who is called to active duty for a period of more than 30 days in time of war or national emergency generally ceases to be entitled to payments based on earlier military service until the period of active duty ends and is entitled to the pay and allowances authorized by law for the duty the member is performing. However, where the payments based on earlier military service exceed the payments for the active duty, the member may receive the former payments instead.

3.1.5. Posthumous Promotions. Members may be promoted posthumously. The amount of bonus, gratuity, pay, or allowances is not changed by these promotions. This payment restriction does not apply to promotions of members while in a missing status where a determination by the Secretary of the Military Department concerned is subsequently made that the member died before the date of the promotion.

3.1.6. Corrections of Military Record. Members who are separated from active service, but later retroactively restored to active duty by administrative record correction action, become entitled to retroactive military pay and allowances for the period of restoration subject to the following: The purpose of such a record correction is to restore the member to the same position the member would have had if he or she had not been separated from military service, without awarding an unearned windfall. When settling such an account, the earnings received from civilian employment during the period of restoration to active duty must be deducted from the net balance of military pay and allowances otherwise due. Any amount of civilian earnings in excess of the net balance of retroactive military pay and allowances otherwise due will not be collected so as not to place the member in debt. Additionally, amounts paid to a member for military retired pay, separation pay, severance pay, and/or VA pension or compensation during what is now a period of active duty under a record correction must be taken into account when determining the amount of retroactive military pay and allowances due, if they have not otherwise been recouped or accounted for. To the extent authorized by law and regulation, amounts found due must be reduced by the amount of any existing indebtedness to the government arising from military service.

3.2 Computing Monthly Pay

3.2.1. Monthly Pay

3.2.1.1. Service of 30 Days or More. Compute monthly compensation as if each month had 30 days. When service begins on an intermediate day of the month, pay for the actual number of days served during that calendar month, but only through the 30th day of that month. If active military service begins on the 31st day of any month, compensation does not accrue for that day. Any person who enters active service during February and serves until the end of the month is entitled to pay for 1 month (30 days), less the prorated amount for the number of days expired before entry on duty. If the service ends before the last day of February, pay the member only for the actual number of days served.

3.2.1.2. Service of Less Than 30 Days. Members of the Uniformed Services entitled to receive compensation for continuous periods of less than 1 month are entitled to pay and allowances for each day of the period at the rate of 1/30 of the monthly amount of such pay and allowances. Include the 31st day of a calendar month in the computation. Members who are obligated to serve on active duty for 30 days or more, but who were released before performing such active duty for at least 30 days, are entitled to receive pay and allowances on a day-to-day basis.

3.2.2. Absence Without Pay

3.2.2.1. Deduct 1/30 of 1 month's pay for each day's absence in a non-pay status.

3.2.2.2. No pay is lost for unauthorized absence on the 31st day of a month, except when it is the first day of absence or when the member is paid for the day under subparagraph 3.2.1.2.

3.2.2.3. Absence in a non-pay status on the 28th of February in a non-leap year result in loss of pay for 3 days. If the member is absent only on the 28th day of February in a leap year, deduct the pay for 1 day for the 28th. If the absence occurs on the 29th of February, deduct pay for 2 days. When payment is made under subparagraph 3.2.1.2, on the basis of each day served, deduct only for the actual period of unauthorized absence.

3.2.3. Annual Salary. Annual salary is divided into 12 equal installments. One installment represents the pay for each calendar month. The daily rate is 1/30 of the monthly rate. The instructions in subparagraph 3.2.1 for monthly pay also apply to annual salary.

3.2.4. Basic Pay Rates. Tables 1-7 through 1-10 contain monthly rates of basic pay and are listed on the Basic Pay tables on DFAS.MIL.

3.3 Saved Pay and Allowances

3.3.1. Enlisted. An enlisted member who accepts an appointment as an officer will, following appointment, be paid the greater of:

3.3.1.1. The pay and allowances to which such member would be entitled if the member had remained in the last enlisted grade held before appointment as an officer and continued to receive increases in pay and allowances authorized for that grade; or

3.3.1.2. The pay and allowances to which the member thereafter becomes entitled as an officer.

3.3.2. Warrant Officers. A warrant officer who accepts an appointment as a commissioned officer will, following appointment, be paid the greater of:

3.3.2.1. The pay and allowances to which the member thereafter becomes entitled as a commissioned officer;

3.3.2.2. The pay and allowances to which such member would be entitled if the member had remained in the last warrant officer grade held before appointment as a commissioned officer and continued to receive increases in pay and allowances authorized for that grade; or

3.3.2.3. In the case of an officer who was formerly an enlisted member, the pay and allowances to which entitled, under subparagraph 3.3.1.1, before appointment as an officer.

3.3.3. Prior Service Medical Students. Members selected to participate as DOM students at the USUHS, or in the AFHPSP and FAP, who have prior active service, including members who have had a break in service, in a pay grade with years of service greater than the rate of second lieutenant or ensign, will be authorized saved pay for the basic pay rate of the former grade. The

former basic pay rate will be increased on January 1 of each year by the average percentage increase authorized for that year. The member will continue to receive the former pay rate until the date, occurring before or after graduation or participation in the program, that the member's actual grade and years of service basic pay rate exceeds the former grade rate. This saved pay provision applies only to basic pay. The member's other pay entitlements will be paid at the member's actual grade and years of service.

3.3.4. Restrictions

3.3.4.1. Except for prior service DOM students discussed in subparagraph 3.3.3, a member entitled to saved pay is not authorized the pay for one grade and an allowance for another grade.

3.3.4.2. The saved pay amount may be reduced when the member loses entitlement to specific items. However, these specific items will be included in saved pay if the member again qualifies for such items (See subparagraph 3.3.4.7.).

3.3.4.3. In the case of the Navy or Marine Corps, a member in a temporary appointment is not entitled to saved pay because of a permanent promotion.

3.3.4.4. BAH may be continued as an item of saved pay and will be paid whenever it is not forfeited because the member is assigned to government quarters.

3.3.4.5. For enlisted members, BAS is the alternative for subsistence in kind. Since officers are not authorized subsistence in kind, a member eligible for saved pay is entitled to the appropriate BAS rate (including the "when permitted to mess separately rate" even when subsistence in kind otherwise would be provided or made available) under the conditions prevailing for enlisted members at their permanent station. Credit BAS at the "when permitted to mess separately rate" at all times, except when the member would otherwise be entitled to a different rate (See Chapter 25, paragraph 2.2.).

3.3.4.6. For appointments accepted before January 6, 2006, special duty assignment pay, incentive pay for hazardous duty, special pay for diving duty, special pay for sea duty, and hardship duty pay may be retained as an item of saved pay only for as long as the member continues to perform the duty and would be eligible to receive payment had the member remained in the former status.

3.3.4.7. For appointments accepted on or after January 6, 2006, in determining the amount of pay and allowances of a grade formerly held by an officer who was an enlisted member and accepted an appointment as an officer, the following special and incentive pays may be considered only so long as the officer continues to perform the duty that creates the entitlement to, or eligibility for, that pay and would otherwise be eligible to receive that pay in the former grade:

3.3.4.7.1. Incentive pay for hazardous duty;

3.3.4.7.2. Submarine duty pay;

3.3.4.7.3. Special pay for diving duty;

3.3.4.7.4. Hardship duty pay;

3.3.4.7.5. Career sea pay;

3.3.4.7.6. Special pay for service as a member of a Weapons of Mass Destruction Civil Support Team;

3.3.4.7.7. Assignment incentive pay;

3.3.4.7.8. Special pay for duty subject to hostile fire or imminent danger;

3.3.4.7.9. Special pay or bonus for an extension of duty at a designated overseas location;

3.3.4.7.10. Foreign language proficiency bonus; and

3.3.4.7.11. Critical skill retention bonus.

3.3.4.8. The enlisted cash clothing allowances prescribed in Chapter 29 may not be included in the saved pay computation if the officer is entitled to the initial uniform allowance prescribed in Chapter 30, section 2.0.

3.3.4.9. Family Separation for Housing (FSH) may be continued as an item of saved pay under the same conditions as BAH (see subparagraph 3.3.4.4). If the member was entitled to FSH due to an enforced separation from the member's family at the time of appointment, the allowance may be included in the computation of saved pay until the entitlement ends. FSH may be reinstated for future periods if the member again qualifies for FSH due to an enforced separation from the family. Similarly, other items of overseas station allowance and/or special or incentive pay may be reinstated if a member again qualifies for them.

3.3.4.10. Effective January 6, 2006, the following special and incentive pays are dependent on a member being in an enlisted status and may not be considered in determining the amount of pay and allowances of a grade formerly held by an officer:

3.3.4.10.1. Special duty assignment pay;

3.3.4.10.2. Reenlistment bonus;

3.3.4.10.3. Enlistment bonus; and

3.3.4.10.4. Critical skill incentive pay (see Chapter 22, section 5.0).

3.3.5. Breaks in Service. A break in service (e.g., released from active duty or discharged) does not disqualify an officer for the saved pay and allowances entitlements of this section.

3.4 Increased Basic Pay During a Period of Service Essential to the Public Interest

3.4.1. Entitlement to Increased Basic Pay. This section applies only to enlisted members of the Regular Navy or Marine Corps, or Naval or Marine Corps Reserve, whose enlistments expire while serving on a naval vessel in foreign waters.

3.4.1.1. Retention in Service. Such members may be retained on active duty until the naval vessel returns to the Continental United States (CONUS) if the period of retention is determined "service essential to the public interests." The senior officer present afloat makes this determination.

3.4.1.2. Pay and Allowances. During the period of retention, except in time of war, members are entitled to regular pay and allowances, plus a 25-percent increase in the basic pay, to which they were entitled on the day before the period of retention began.

3.4.2. Members Not Eligible for Increase

3.4.2.1. Enlisted members are not entitled to the increased basic pay if retained on active duty after the expiration of enlistment:

3.4.2.1.1. At shore stations;

3.4.2.1.2. On ships on duty in waters in or around possessions and territories of the United States;

3.4.2.1.3. On ships on duty in ports or waters within the sovereign jurisdiction of the United States;

3.4.2.1.4. Due to lack of transportation; or

3.4.2.1.5. Merely because it is desirable to continue their services, or some benefit may be derived there from.

3.4.2.2. A member of the Naval Reserve or Marine Corps Reserve is not entitled to the 25-percent increase while retained beyond the period of obligated service as distinguished from normal date of expiration of enlistment.

3.4.3. Restrictions in Use. Do not use the 25-percent increase in computing:

3.4.3.1. Cash settlement for unused leave on discharge;

3.4.3.2. Physical disability or temporary disability retired pay;

3.4.3.3. Disability severance pay; or

3.4.3.4. Reenlistment bonus.

3.4.4. Termination of Increase in Basic Pay. The 25-percent increase in basic pay continues through date of:

3.4.4.1. Discharge, if the member is discharged within 30 days after arrival in CONUS; or

3.4.4.2. Transfer to a hospital for treatment (See Table 1-5, rule 19 for the date of termination of normal pay and allowances.).

3.5 Allowable Travel Time for Reserve Members Called to or Released From Active Duty

3.5.1. Pay and Allowances Entitlement for Allowable Travel Time

3.5.1.1. Reserve members called to active duty are entitled to active duty pay and allowances for the time allowed for necessary travel from:

3.5.1.1.1. Home to a first duty station; or

3.5.1.1.2. Last duty station to home (except when released from active duty for retirement or dismissal, when discharged, or upon resignation).

3.5.1.2. Pay and allowances for allowable travel time is an earned entitlement. The payment for the return home may be made upon the member's release from such duty without regard to actual performance of the travel. If the member dies after payment, but before payment would otherwise be due, no part of the payment will be recovered by the United States.

3.5.2. Terms and Special Conditions

3.5.2.1. Allowable travel time is considered active duty for all purposes normally ascribed to active duty. The computation of allowable travel time, whether actual or constructive will:

3.5.2.1.1. For periods of active duty of 30 days or less, be based upon the rules contained in Table 1-6; or

3.5.2.1.2. For periods of active duty of more than 30 days, be based upon the rules and provisions in Chapter 57.

3.5.2.2. A member of a Reserve Component is entitled to active duty pay and allowances for allowable travel time, if any, when:

3.5.2.2.1. Ordered to perform ADT;

3.5.2.2.2. Performing authorized IDT immediately before or after ADT at or near the same site; or

3.5.2.2.3. Receiving orders that direct performance of necessary travel to and from the ADT site immediately before and after combined ADT/IDT. The travel date will be specified in the active duty orders. Full retirement point credit is earned for the period of IDT performed.

4.0 ABSENCE FROM DUTY, EFFECT ON PAY, AND ALLOWANCES

4.1 Authorized Leave

4.1.1. Authority. All Military Service members on active duty for 30 consecutive days or more are entitled to accrue leave under applicable Military Service leave regulations. While on authorized leave, they are entitled to full pay and allowances except as otherwise provided in Table 1-11.

4.1.2. Applicable Service Leave Regulations. Applicable Military Service leave regulations are:

4.1.2.1. Army - ***Army Regulation 600-8-10***;

4.1.2.2. Navy - ***Military Personnel Manual 1050-010***;

4.1.2.3. Air Force and Space Force - Department of the Air Force Instruction ***36-3003***; and

4.1.2.4. Marine Corps - ***Marine Corps Order 1050.3J***.

4.1.3. Pay and Allowances During Leave

4.1.3.1. Entitlement. See Table 1-11.

4.1.3.2. Full Pay and Allowances Defined. This term means (includes) the following:

4.1.3.2.1. Basic pay;

4.1.3.2.2. Special pays;

4.1.3.2.3. Incentive pay for hazardous duty;

4.1.3.2.4. BAS (enlisted leave rations);

4.1.3.2.5. BAH;

4.1.3.2.6. Personal money allowances;

4.1.3.2.7. Clothing maintenance allowances;

4.1.3.2.8. Family separation allowances; and

4.1.3.2.9. Station allowances (CONUS Cost of Living Allowance (See Chapter 67); and Overseas Cost of Living Allowance and Temporary Lodging Allowance (See Chapter 68).

4.1.4. Advance Leave Carryover or Change to Excess Leave (Effective November 14, 1986)

4.1.4.1. When Carryover Allowed. Members may elect to carry all or part of an advance leave balance over to a new term of service when discharged for the purpose of:

4.1.4.1.1. Reenlisting within 24 hours of discharge or extending an enlistment; or

4.1.4.1.2. Accepting an appointment as a warrant or commissioned officer of the Armed Forces. Carryover will not exceed the number of days or fraction of days the member will accrue in the new enlistment or term of service or 30 days, whichever is less.

Example 1: A member's current term of service ends April 30, 2015. The member reenlists for 6 years on March 1, 2015, and has a 5.0-day advance leave balance. The 5.0-day advance leave balance can be carried into the new term of service.

Example 2: A member's current term of service ends September 30, 2015. On May 1, 2015, the member agrees to serve a 12-month extension and has a 12.5-day advance leave balance that will be offset by leave accrual through September 30, 2015. Between May 1, 2015, and September 30, 2015, the member was charged for 30 days of leave. When the extension became operative (October 1, 2015), the member could elect to carry the 30.0-day advance leave balance into the new term of service (12-month extension).

4.1.4.2. Excess Leave. Advance leave becomes excess leave and requires collection of pay and allowances under the following conditions:

4.1.4.2.1. Discharge for the purpose of reenlisting, extending an enlistment, or accepting a warrant or commission, and advance leave exceeds 30 days;

4.1.4.2.2. Advance leave balance exceeds that which will accrue in the new enlistment or term of service (for example, enlistment or extension(s)), including when an agreement to extend is cancelled by the Military Service. If an agreement to extend is cancelled by the member for the purpose of immediate reenlistment, collect the advance under subparagraph 4.4.1.2.1, if applicable;

4.1.4.2.3. Relief from active duty;

4.1.4.2.4. Appointment as a cadet or midshipman at a Service academy;

4.1.4.2.5. Death; or

4.1.4.2.6. Return from a period of leave that was in excess of the number of days of leave and fractions thereof that the member will accrue before the normal expiration of current enlistment or term of active service. The term of an extension(s) will be considered when determining the normal expiration of current enlistment or term of active service. Extension(s) will be considered from the date the member agrees to the extension(s). Excess leave properly charged before the date a member extends a term of service (reenlistment, appointment or agrees to extend voluntarily or is involuntarily extended) will not be affected and under no circumstances will pay and allowances previously collected be refunded (See subparagraph 4.1.5 when it is known at the time leave is granted that the member will be in excess leave status).

Example 3: A member's current term of service ended on March 31, 2016. The member reenlisted for 6 years on January 1, 2015, and had a 35.5-day advance leave balance. The member carried 30.0 days of advance leave into the new term of service. The remaining 5.5-day advance leave balance changes to excess leave and requires immediate collection of pay and allowances. Subparagraph 4.1.5 applies.

Example 4: Same as example 2, except that the member took 34 days of leave between May 1, 2015, and September 30, 2015. Since a maximum of 30.0 days of advance leave could be carried into the new term of service (12-month extension), immediate collection of pay and allowances for the remaining 4.0 days was required when the leave was used. Subparagraph 4.1.5 applies.

4.1.4.3. Amount to be Collected. Compute collection under subparagraph 4.1.4.2 on the basis of pay and allowances received by the member during the period of leave involved.

4.1.5. Pay and Allowances During Excess Leave. Members on excess leave are not entitled to pay and allowances. Apply as follows.

4.1.5.1. When the complete period of leave is granted as excess leave, pay and allowance accrual will be stopped beginning with the first day of leave.

4.1.5.2. When a portion of the leave is granted as advance leave and a portion granted as excess leave, pay and allowance accrual will be stopped beginning with the first day of excess leave. Members in an excess leave status are considered to have a rate of pay.

4.1.6. Leave Pending Review of Certain Court-Martial Convictions. Under regulations prescribed by the Secretary of the Military Department concerned, members sentenced to unsuspended dismissal or unsuspended dishonorable or bad-conduct discharge by court-martial may be required to take leave pending review of their conviction as provided by the Uniform Code of Military Justice ***(UCMJ) Article 76a***,

4.1.6.1. Such leave will be charged against any accrued leave to the member's credit on the day before the day such leave begins unless the member elects to be paid for accrued leave under Chapter 35, subparagraph 2.1.2.

4.1.6.1.1. If the member does not elect to be paid for accrued leave or does not have sufficient accrued leave to cover the total period of leave required to be taken, the leave not covered by accrued leave will be charged as excess leave.

4.1.6.1.2. If the member elects to be paid for accrued leave, the entire period of leave will be charged as excess leave and pay, and allowances will not accrue for such period except under the provisions of subparagraph 4.1.6.2.

4.1.6.2. A member required to take leave under Article 76a, UCMJ, whose sentence by court-martial to dismissal or dishonorable or bad-conduct discharge is set aside or disapproved on appellate review, will accrue pay and allowances for the period of leave charged as excess leave (except for any day of accrued leave for which the member has been paid under subparagraph 4.1.6.1.2.), unless a rehearing or new trial is ordered and dismissal or dishonorable or bad-conduct discharge results from the rehearing or new trial and such dismissal or discharge is later executed.

4.1.6.2.1. Computation of Payment. The amount of gross pay and allowances accrued under this subparagraph will be reduced by the total gross income from wages, salaries, tips, other personal service income, unemployment compensation, and public assistance benefits from any government agency during the period the member is deemed to have accrued gross pay and allowances. The total gross income, however, cannot reduce the amount of gross pay and allowances to the extent that the member becomes indebted to the government.

4.1.6.2.1.1. Approved Sentence Does Not Include Reduction. Pay and allowances under this section will be paid in the pay grade held by the member on the day before the day on which the court-martial sentence was approved by the convening authority.

4.1.6.2.1.2. Approved Sentence Includes Reductions. If the pay grade of the member was reduced to a lower grade as a result of the court-martial sentence, and the reduction has not been set aside, disapproved, or otherwise vacated, pay and allowances accrued under this paragraph will be paid at the lower pay grade.

4.1.6.2.2. Time of Payment

4.1.6.2.2.1. Payment will be made within 60 days from the date of the order setting aside or disapproving the sentence by court-martial to a dismissal or a dishonorable or bad-conduct discharge if no rehearing or new trial has been ordered.

4.1.6.2.2.2. Payment will be made within 180 days from the date of the order setting aside or disapproving the sentence by court-martial to a dismissal or a dishonorable or bad-conduct discharge if a rehearing or new trial has been ordered, but charges have not been referred to a rehearing or new trial within 120 days from the date of that order.

4.1.6.2.2.3. If a rehearing or new trial has been ordered, and a dismissal or a dishonorable or bad-conduct discharge is not included in the result of the rehearing

or new trial, payment will be made within 60 days of the date of the announcement of the result of such rehearing or new trial.

4.1.6.2.2.4. If a rehearing or new trial has been ordered, and a dismissal for a dishonorable or bad-conduct discharge is included as the result of such rehearing or new trial, but such dismissal or discharge is not later executed, payment will be made within 60-days of the date of the order which set aside, disapproved, or otherwise vacated such dismissal or discharge.

4.1.6.2.2.5. If a member who is entitled to be paid under this section fails to provide sufficient information in a timely manner regarding his/her income when such information is requested under subparagraph 4.1.6.3, the periods of time prescribed in this paragraph will be extended until 30 days after the date on which the member provides the requested information.

4.1.6.3. In all cases where payment must be made under subparagraph 4.1.6.2, the member solely is responsible for providing the information as to all sources and amounts of income received by the member during periods of required appellate leave. Pay will be computed only on the basis of a written record.

4.1.6.3.1. For periods where the member was employed, information as to all sources and amounts of income should include, at a minimum, copies of all pertinent:

4.1.6.3.1.1. Federal income tax returns;

4.1.6.3.1.2. Employer statements of income earned from wages, salaries, tips; and

4.1.6.3.1.3. Documentation of other personal service income.

4.1.6.3.2. For periods where the member has been unemployed, the member must submit an affidavit or written evidence of lack of employment and, at a minimum, copies of all pertinent:

4.1.6.3.2.1. Documentation to verify the duration of unemployment compensation;

4.1.6.3.2.2. Public assistance benefits received from any government agency;

4.1.6.3.2.3. Federal income tax returns; and

4.1.6.3.2.4. Any other documentation required by the Service concerned.

NOTE: The burden of proving the existence of a valid claim against the United States is on the member asserting the claim. A member must prove by clear and convincing evidence on the written record that the U.S. DoD is liable under the law for the amount claimed.

4.2 Unauthorized Absence and Other Lost Time

4.2.1. Effect on Pay and Allowances. The types of unauthorized absences, and other lost time, and their effect on pay and allowances are shown in Table 1-12 (Compute forfeitures of pay and allowances as instructed in subparagraph 3.2.2).

4.2.2. Unauthorized Absence and Desertion

4.2.2.1. Determination by Court-Martial. A member found guilty of unauthorized absence by a court-martial, forfeits pay and allowances for the period of absence. An acquittal (or disapproval by the reviewing authority, in case of conviction) affects only the disciplinary aspects of the absence. It does not prevent an administrative determination that the member was AWOL.

4.2.2.2. Administrative Determination of Unauthorized Absence. When a member is in an unauthorized absence status, an administrative determination must be made as to whether the absence was unavoidable. Table 1-13 contains rules for determining whether the absence was unavoidable. If it is not excused as unavoidable, the member forfeits pay and allowances for the period of absence. This applies even though a court-martial finds the member not guilty of a charge of unauthorized absence, or when a finding of guilty has been disapproved by the reviewing authority.

4.2.2.3. Discharge for Desertion. A discharge for desertion is conclusive evidence of desertion for the purpose of forfeiture of pay, even in the absence of trial by court-martial.

4.2.2.4. Dropped From Rolls. A commissioned officer of the Army or Air Force, who is dropped from the rolls by the President for absence without authority for 3 months, forfeits all pay due or to become due. Pay and allowances due at the time the officer is dropped from the rolls, however, will be used to satisfy debts due the United States and its instrumentalities.

4.2.2.5. Disposition of Forfeitures as a Result of Desertion. When an enlisted member, warrant officer, or limited duty officer forfeits pay as a result of desertion, deposit the gross amount of such forfeited pay to the Armed Forces Retirement Home Trust Fund. Do not, however, deposit this pay beyond the expiration of term of enlistment for enlisted members.

4.2.3. Computing Periods of Unauthorized Absence. Unauthorized absence of 24 consecutive hours or less does not affect pay or allowances. This applies even though the absence involves parts of 2 days. When the period of unauthorized absence exceeds 24 consecutive hours, use Table 1-14 to determine the first and last day of the period of absence.

4.2.4. Absence in the Hands of Civil Authorities

4.2.4.1. General. Pay the member all pay and allowances earned through the day before the first day of unauthorized absence. If the member is delivered to civil authorities by military authorities, he or she is entitled to all pay and allowances earned through the day prior to the date of such delivery. For entitlement to pay and allowances during confinement, see Table 1-12, rules 4, 5, and 6.

* 4.2.4.2. Finding of Insanity. An administrative determination under the rules contained in Table 1-13 must be made as to whether the absence was unavoidable when a member is found not guilty by reason of insanity by a civil court and committed under applicable Federal or State law for an indefinite period of time. Table 1-12 contains rules for determining the effect of absences on pay and allowances.

4.2.4.3. Work Release Program. In some states and local jurisdictions, a person convicted and sentenced to a term of civil confinement may be released from the confinement facility to the cognizance of an employer during the normal workday. Work release, job rehabilitation, or employment retention programs of this type generally are conducted for the purpose of providing prisoners a means to continue support of their dependents and to demonstrate that they are capable of self-rehabilitation. When members are paroled to military authorities under a "work release" or similar program, they are entitled to pay and allowances for each day of full duty performed commensurate with their grade and military specialty.

4.2.5. Absence Due to Disease

4.2.5.1. When Pay Is Forfeited. See Table 1-12, rule 3.

4.2.5.2. When Pay Is Not Forfeited. Pay is not forfeited for absence from duty caused by:

4.2.5.2.1. An injury;

4.2.5.2.2. A disease, except under Table 1-12, rule 3;

4.2.5.2.3. Simple drunkenness, if not coupled with chronic alcoholism or intemperate use of habit-forming drugs; or

4.2.5.2.4. Venereal disease, whether or not due to misconduct.

4.2.5.3. Personal Expense Money. A member whose pay is forfeited under Table 1-12, rule 3 for more than 1 month is entitled to $5 for personal expenses for each full month that he or she forfeits pay. This payment will be made even though the member is indebted to the United States. The term "full month" is the period from a date in 1 month through the preceding date in the following month. For example, July 3 through August 2 is 1 month.

4.2.6. Military Confinement. Pay and allowances accrue to a member in military confinement except when:

4.2.6.1. Confined by military authorities, for civil authorities. See Table 1-12, rules 6 and 8;

4.2.6.2. Pay and allowances are forfeited by court-martial sentence. See Chapter 48 and Table 1-12, rule 10; and

4.2.6.3. The term of enlistment expires. See subparagraph 4.2.7.

4.2.7. Term of Enlistment Expires

4.2.7.1. General. Pay and allowances accrue to a member upon return to a full-duty status. Full duty is attained when a member, not in confinement, is assigned useful and productive duties (as opposed to duties prescribed by regulations for confinement facilities) on a full-time basis which are not inconsistent with the grade, length of service, and military occupational specialty (MOS). While placement in the same MOS is not essential, the decision to place a member in that MOS or to assign the member available duties consistent with the grade and service rests with the appropriate military commander.

4.2.7.2. Absentee Returned to Military Control. An absentee who surrenders or is apprehended after a term of enlistment has expired is not entitled to pay and allowances until restored to a full-duty status for the purpose of making good the lost time. While held in retention, a member may be assigned duties as prescribed by regulations governing detained prisoners without being returned to full-duty status.

4.2.7.3. Enlistment Expires Before Trial. An enlisted member retained in the Military Service for the purpose of trial by court-martial is not entitled to pay for any period after the expiration of the enlistment unless acquitted or the charges are dismissed, or the member is retained in or restored to a full-duty status.

4.2.7.4. Confined Awaiting Trial by Court-Martial. If a member is confined awaiting court-martial trial when the enlistment expires, pay and allowances end on the date the enlistment expires. If the member is acquitted when tried, pay and allowances accrue until discharge.

4.2.7.5. Confined Serving Court-Martial Sentence. If a member is confined serving a court-martial sentence when the enlistment expires, pay and allowances end on the date the enlistment expires unless the sentence is completely overturned or set aside as specified in Chapter 48. Pay and allowances will not accrue again until the date the member is restored to a full-duty status.

4.2.7.6. Confined While in a Status of Being Held in the Service to Make Up Lost Time. If confined while in a status of being held in the Military Service to make up lost time, an enlisted member continues in a pay status, except to the extent that pay may be forfeited by

court-martial, the same as during the regular enlistment period. This pay status terminates if the member is in confinement on the date the normal term of service as extended to make up lost time would have expired, even if restored to duty at a later date.

4.2.7.7. Confinement Deferred or Prisoner Restored to Duty. A prisoner in a non-pay status is entitled to pay and allowances when service of sentence to confinement is deferred or the member is restored to a full-duty status. The date restored to duty is the date the member reported present for duty.

4.2.7.8. Absentee Confined Upon Return to Military Control. An enlisted member whose term of enlistment has expired while in a status of absence without leave or desertion is not entitled to pay and allowances upon return to military control while confined awaiting trial and disposition of the case if the conviction becomes final and the member has not been returned to a full-duty status. A member, however, who is returned to military control and restored to full duty for the purpose of making good the lost time before being confined to await trial, continues in a pay status except to the extent that pay may be forfeited by court-martial, the same as during the regular enlistment period. This pay status terminates if the member is in confinement on the date the normal term of service is extended to make up lost time would have expired, even if he or she is restored to duty at a later date.

4.2.7.9. Confined Under Sentence of Death. The pay and allowances of a member, serving in confinement under sentence of death and pending completion of the appellate review of the record of trial, do not accrue after the expiration of the enlistment.

4.2.7.10. Appellate Review of Court-Martial Sentence. A confined member who is pending appellate review of his or her court-martial sentence is not entitled to pay and allowances after the expiration of term of enlistment, unless the conviction is completely overturned or set aside.

4.2.8. Reserve Officer Absent From Duty. A Reserve officer whose term of active service expires while confined as a result of court-martial action continues to be entitled to pay and allowances, except when forfeited under an approved sentence of a court-martial or a period of service is terminated by proper orders.

5.0 PAYMENT IN CASES OF VOID, VOIDABLE, OR REJECTED ENLISTMENTS OR INDUCTIONS

5.1 Voidability of Contract

A fraudulent contract of enlistment or induction is not void but is voidable at the option of the government. When the government becomes aware of the fraud, it may void the contract or waive the objection and allow the contract to stand (See Table 1-15.).

5.2 Fraudulent Enlistments – Pay and Allowances

Members under investigation, or determined to be serving in fraudulent enlistments, are due pay and allowances for periods shown in Table 1-15.

5.3 Travel Payments

See ***Joint Travel Regulation***, Chapter 5, Paragraph 051007.

5.4 Disbursing Officer Entitled to Credit

A disbursing officer is entitled to credit for proper payments to a member who fraudulently enlisted if payments were made without the knowledge of the fraud and before the government rescinded the contract.

5.5 Failure to Discover Physical Condition of Enlistee or Inductee

Failure to discover that the physical condition of an enlistee or inductee was such as would warrant rejection for military service does not deprive member of right to pay and allowances or of the status of being entitled to basic pay (See Table 1-15.).

6.0 FINANCIAL INSTITUTION CHARGES

6.1 Reimbursement

Reimbursement of financial institution charges may be authorized. Authorized reimbursements are limited to overdraft charges or minimum balance, or average balance charges levied by the financial institution because of an administrative or mechanical error on the part of the government that causes pay to be deposited late or in an incorrect manner or amount.

6.2 Non – Reimbursement

Charges by financial institutions resulting from erroneous information provided by the member or the financial institution to a military pay office are not the liability of the government and will not be reimbursed.

6.3 Definitions

6.3.1. Financial Institutions. For the purpose of this section, a financial institution is defined as a bank, savings and loan association, or similar institution or a credit union chartered by the United States or a state.

6.3.2. Pay. For the purpose of this section, pay is defined as basic pay, allowances, bonuses, special and incentive pays.

7.0 MILITARY PAYDAYS

7.1 Payday

The payday is the first calendar day of the month after the month in which the entitlement was earned. This does not preclude one payment in midmonth for any element of compensation.

7.2 Exception

Except for payrolls otherwise payable on October 1, if the payday falls on a Saturday, Sunday, or federal legal holiday, payment is authorized on the preceding workday, but not more than 3 days before the scheduled payday. This exception applies to foreign holidays recognized abroad by U.S. Forces. It also applies to payments made to members upon separation from the Military Service through retirement or discharge when the last day of active duty falls on a Saturday, Sunday, or federal legal holiday.

7.3 Determination

For payrolls otherwise payable on October 1, the DoD Comptroller will determine if the payroll may be dated in September.

Table 1-1. Service as Cadet or Midshipman - Officers

RULE	When a member currently serving as an officer has had service as a cadet or midshipman in	to which appointed	and member	then the period involved is
1	any of the military academies		held no concurrent enlisted and/or Reserve status	not creditable.
2	any of the military academies	after June 25, 1956	had an enlistment contract or period of obligated service that was not terminated	not creditable.
3	any of the military academies		concurrently retained a commission or warrant in the Army or Air Force Reserve	creditable.
4	any of the military academies	on or after January 1, 1953	concurrently retained a commission or warrant in the Naval Reserve	creditable.

Table 1-2. Absence from Duty in Enlisted Status

RULE	When the absence is	and	then the period of absence is
1	authorized leave or authorized excess leave		creditable.
2	unauthorized absence of more than 1 day (24 consecutive hours) (including detention of Army or Air Force members by or for civil authorities)	is administratively excused as unavoidable	creditable.
3	unauthorized absence of more than 1 day (24 consecutive hours) (including detention of Army or Air Force members by or for civil authorities)	is not administratively excused as unavoidable	not creditable (note 1).
4	civil detention of a Navy or Marine Corps member	occurred before July 24, 1956, and the member was not acquitted or released without trial, and without making restitution	not creditable (note 1).
5	civil detention of a Navy or Marine Corps member	occurred on or after July 24, 1956, and the member was absent under sentence or awaiting (and during) trial which resulted in conviction (note 2)	not creditable (note 1).
6	inability to perform duty for more than 1 day (24 consecutive hours) because of intemperate use of alcohol or drugs, or disease or injury resulting from misconduct		not creditable (note 1).
7	desertion		not creditable (note 1).
8	because of confinement for more than 1 day (24 consecutive hours) while awaiting trial (if the trial results in conviction) or confinement as the result of a court-martial sentence (note 3)	the member was a member of the Army or Air Force	not creditable (note 1).
9	absence of a Navy or Marine Corps member because of confinement of more than 1 day (24 consecutive hours) while awaiting trial (if the trial results in conviction) or confinement as the result of a court-martial sentence	the confinement occurred on or after July 24, 1956 (note 3)	not creditable (note 1).
10	absence of a Navy or Marine Corps member because of confinement of more than 1 day (24 consecutive hours) while awaiting trial (if the trial results in conviction) or confinement as the result of a court-martial sentence	the confinement occurred before July 24, 1956	(note 4).

Table 1-2. Absence from Duty in Enlisted Status (Continued)

NOTES:

1. Prior to February 11, 1996, absence during which a member was serving on active duty as an enlisted member and was also a Reserve officer is creditable. After February 10, 1996, a commissioned or warrant officer may not count the periods of absence for any purpose other than for computing length of service for basic pay. Also, see subparagraph 2.2.2.
2. If the member is released without trial or acquitted, or if conviction is set aside on legal grounds (as distinguished from clemency), the period of absence is creditable. If the member is released upon agreement to make restitution, or is later convicted by court-martial on the same facts, the period of absence is not creditable.
3. The period spent in confinement is creditable when the member is acquitted, or the sentence is set aside or disapproved.
4. The period of absence is not creditable only if the confinement was under general court-martial sentence and/or while waiting (and during) trial which resulted in a sentence by a general court-martial to confinement and total loss of pay and allowances.

Table 1-3. When Active Duty Pay Begins

RULE	When a person is	in the	and	then active duty pay and allowances	
				begin on:	are authorized for:
1	originally appointed as a permanent officer	Regular Army, Navy, Air Force, or Marine Corps (note 1)		the date of formal acceptance of appointment (see subparagraph 3.1.3).	
2	an enlisted member temporarily appointed to a warrant or commissioned officer grade	Navy or Marine Corps		the date of formal acceptance of appointment (see subparagraph 3.1.3).	
3	an enlisted member or warrant officer on active duty appointed to a commissioned officer grade under *10 U.S.C. § 12201*	Reserve	continues on active duty in that commissioned officer grade	the date of formal acceptance of appointment (see subparagraph 3.1.3).	
4	enlisted, reenlisted, or inducted	Regular Army, Navy, Air Force, or Marine Corps		the date of enlistment, reenlistment, or induction.	
5	a service academy graduate commissioned as a second lieutenant or ensign	Regular Army or Air Force		the date of graduation (note 2).	
6	a service academy graduate commissioned as a second lieutenant or ensign	Regular Navy or Marine Corps		the date of formal acceptance of appointment.	
7	a reserve or retired member called or recalled to active duty	Regular Army, Navy, Air Force, or Marine Corps		the date member necessarily complies with active duty order (note 3).	

Table 1-3. When Active Duty Pay Begins (Continued)

RULE	When a person is	in the	and	then active duty pay and allowances	
				begin on:	are authorized for:
8	a temporary officer (without component) called to active duty	Army or Air Force		the date member necessarily complies with active duty orders (note 3).	
9	a reserve or retired member ordered to active duty to take a physical examination incident to being ordered to active duty for more than 30 days	Regular Army, Navy, Air Force, or Marine Corps		the date member necessarily complies with active duty orders (note 3).	period of the examination, and allowable travel time in connection therewith (notes 3, 4, 5, and 6).
10	an Army National Guard or Air National Guard member called into federal service	Army or Air Force	the period of federal service is 30 days or less	the date on which the member, in person or by authorized telephonic or electronic means, contacts the member's unit.	
11	an Army National Guard or Air National Guard member called into federal service	Army or Air Force	the period of federal service is more than 30 days or an indefinite period	the date member necessarily complies with active duty orders (notes 3 and 7).	
12	a separated Service academy cadet required to serve a period of enlisted active duty	Regular Army, Navy, Air Force, or Marine Corps		the date following date of approval of cadet’s separation from the academy.	

Table 1-3. When Active Duty Pay Begins (Continued)

NOTES:

1. Original appointments include officers appointed from warrant officer, enlisted member, or civilian status.
2. Pay accrues from date of graduation, even though appointment is issued and accepted at later date.
3. See paragraph 3.5 and Table 1-6 for allowable travel time to include in computation. Pay and allowances do not accrue if the member begins travel or reports earlier than the travel time necessary to comply with the active duty orders.
4. If member passes the physical examination, pay and allowances accrue for travel time to first duty station when later ordered to active duty for more than 30 days.
5. If the member fails the physical examination, pay and allowances accrue for period required for the examination and travel time to and from the examination.
6. If the member is ordered to active duty solely to take a physical examination, not incident to being ordered to active duty, active duty pay, and allowances do not accrue.
7. Pay status does not begin if the Army National Guard or Air National Guard member is unable to respond to the call to active duty because of illness or other reason.

Table 1-4. Increases in Pay on Promotion or Restoration of Grade

RULE	When member is a(n)	and action is	in the	and	then effective date of increase in pay and allowances
1	officer	designation of special assignment under *10 U.S.C. § 601(a)*	Army, Air Force, or Marine Corps as General or Lt General; or Navy as Admiral or Vice Admiral		is the date officer assumes the designated duty (note 1).
2	Reserve officer not on the active duty list	promotion to grade above O-2	Navy or Marine Corps		is the date officer becomes eligible for promotion to the higher grade.
3	Reserve officer not on the active duty list	promotion to grade O-2	Navy or Marine Corps		is the date of rank.
4	officer	promotion to grade above O-1	Uniformed Services		is the effective date of the promotion.
5	Reserve officer on active duty (other than for training) (but not on the active duty list)	permanent promotion to a higher Reserve grade	Army or Air Force	officer is ordered to serve on active duty in the higher permanent Reserve grade	is the effective date of orders to serve on active duty in the higher permanent Reserve grade (note 2).
6	Reserve officer on active duty (other than for training) (but not on the active duty list)	permanent promotion to a higher Reserve grade	Army or Air Force	officer is serving on active duty and assigned to a position requiring a grade equal to or higher than the grade to which promoted	is the effective date of orders or letter announcing promotion (note 3).
7	Reserve officer on active duty (other than for training) (but not on the active duty list)	temporary promotion to a higher Reserve grade	Army or Air Force	officer is serving on active duty and assigned to a position requiring a grade equal to or higher than the grade to which promoted	is the effective date of orders announcing promotion; or date shown in special orders confirming verbal orders.
8	enlisted member	advancement in rank or rating	Navy	effective date is specified in the letter authorizing the advance	is the effective date as stated, or date of the letter, whichever is later (note 4).

Table 1-4. Increases in Pay on Promotion or Restoration of Grade (Continued)

RULE	When member is a(n)	and action is	in the	and	then effective date of increase in pay and allowances
9	enlisted member	advancement in rank or rating	Navy	effective date is not stated in letter	is the date advance was actually affected, but not before date member's commander receives the authority (note 4).
10	enlisted member	advancement in rank or rating	Marine Corps	effective date is specified in the directive authorizing the advance	is the effective date as stated in the directive or date of the directive, whichever is later (note 4).
11	enlisted member	advancement in rank or rating	Marine Corps	promotion is not effected by directive	is the date certificate of appointment is signed by issuing authority (note 4).
12	enlisted member	appointment or promotion to a higher grade	Army or Air Force		1. is the date cited in orders, or date of orders, whichever is later (note 5); or 2. is the date of oral appointment or promotion, if later confirmed in writing (note 4).
13	enlisted member	restoration of former grade		reason for reduction was non-judicial punishment	may be retroactive to date of reduction.
14	enlisted member	restoration of former grade		reason for reduction was inefficiency	is the date of restoration orders.

Table 1-4. Increases in Pay on Promotion or Restoration of Grade (Continued)

NOTES:

1. If the officer's assignment is terminated because of:
   a. Assignment to another position also designated a special assignment: the officer will continue to draw the pay rate of the terminated assignment through the day before assuming the new position.
   b. Hospitalization: the officer will continue to draw the pay rate of the terminated assignment for the full period of hospitalization, but for not more than 180 days.
   c. Retirement: the officer will continue to draw the pay rate of the terminated position through the day before retirement, but for not more than 90 days.
2. A retroactive amendment of active duty orders is authority to serve in the higher grade from date of the amendment only. Increased pay and allowances are authorized from that date. Such orders do not create entitlement to increased pay and allowances for the retroactive period.
3. A retroactive promotion date is to be used only for consideration of seniority and time in grade for future promotions. Such orders do not create entitlement to increased pay and allowances for the period between the eligibility date for promotion and the effective date of the promotion order or letter. The effective date of promotion for purposes of entitlement to increased pay and allowances must not be earlier than the date the officer is assigned to a position requiring a grade equal to or higher than the grade to which promoted.
4. An appointment, promotion, or advancement to a higher grade with an effective date beyond the expiration date of the current enlistment and which is contingent upon the member's extension of enlistment or reenlistment, entitles the member to increased pay and allowances from the effective date of extension or reenlistment, whichever is later. Payment for the higher rank or rating is not authorized for a period prior to date of current enlistment.
5. This restriction does not prevent payment to enlisted members for retroactive promotions or advancements that are made pursuant to ***10 U.S.C. § 1552***(a)(2) (retroactive promotion or advancement without decision of the Board for Correction of Military Records), effective October 23, 1992.

Table 1-5. Termination or Reduction of Active Duty Pay and Allowances

RULE	If member is in the	and status is an	and action is	and reason for retention is	then pay and allowances are authorized through date
1	Regular Army, Navy, Marine Corps, or Air Force	officer holding permanent appointment	resignation, discharge, or dismissal		1. shown as official date of separation in official notice; or 2. officer receives official notice, if no official date of separation is shown (note 1).
2	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	discharge or dismissal from permanent status		of termination of appointment.
3	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	resignation		of termination of appointment.
4	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	transfer to Fleet Reserve, or Fleet Marine Corps Reserve (note 2)		before date placed on the retired list.
5	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	involuntary retirement under Officer Personnel Act of 1947		before date placed on the retired list.
6	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	retirement on last day of month after month member completed 30 years of active service		before date placed on the retired list.
7	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	retirement, other than as shown in rules 5 and 6; includes physical disability retirement		before date placed on the retired list.
8	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	permanent appointment as an officer		before date of acceptance of permanent appointment.

Table 1-5. Termination or Reduction of Active Duty Pay and Allowances (Continued)

RULE	If member is in the	and status is an	and action is	and reason for retention is	then pay and allowances are authorized through date
9	Regular Army, Navy, Marine Corps, or Air Force	officer holding temporary appointment or promotion	termination of appointment for any other reason		of termination of appointment.
10	Army, Navy, Marine Corps, or Air Force Reserve	officer or enlisted member	release from active duty		of allowable travel time after release (see Table 1-6).
11	Army, Navy, Marine Corps, or Air Force Reserve	officer or enlisted member	release from active duty for retirement		before date placed on retired list.
12	Army, Navy, Marine Corps, or Air Force Reserve	officer or enlisted member	discharge, dismissal, or a resignation		shown in official separation notice, or date member receives official notice of separation.
13	Army, Navy, Marine Corps, or Air Force	enlisted member	retirement (including physical disability retirement)		before date placed on retired list.
14	Army, Navy, Marine Corps, or Air Force	enlisted member	transfer to Fleet Reserve or Fleet Marine Corps Reserve		of transfer.
15	Army, Navy, Marine Corps, or Air Force	enlisted member	discharge		of discharge (note 3).
16	Army, Navy, Marine Corps, or Air Force	enlisted member	retention in service after expiration of term of service (note 4)	convenience of the government	of the period of retention.
17	Army, Navy, Marine Corps, or Air Force	enlisted member	retention in service after expiration of term of service (note 4)	to make good lost time	of the period of retention, if retained in full-duty status or if authorized to perform duty.

Table 1-5. Termination or Reduction of Active Duty Pay and Allowances (Continued)

RULE	If member is in the	and status is an	and action is	and reason for retention is	then pay and allowances are authorized through date
18	Army, Navy, Marine Corps, or Air Force	enlisted member		probation after confinement	of the probation period, if duty is performed during such period.
19	Army, Navy, Marine Corps, or Air Force	enlisted member		medical care or hospitalization (with member's consent)	of release from medical care or hospitalization (note 5).
20	Army, Navy, Marine Corps, or Air Force	enlisted member		service is essential to public interest (see paragraph 3.4)	of discharge (note 6).
21	Army, Navy, Marine Corps, or Air Force	enlisted member		court-martial action	see subparagraph 4.2.7.
22	Army, Navy, Marine Corps, or Air Force	enlisted member	demotion (administrative)		before date of demotion orders at the higher rate; and at the reduced rate on and after date of demotion orders.
23	Army, Navy, Marine Corps, or Air Force	officer or enlisted member	death		of death.
24	Army, Navy, Marine Corps, or Air Force	officer or enlisted member	revoking a promotion (erroneous promotion through administrative error)		before date of discovery at the higher rate; at the reduced rate on or after date of discovery (note 7).
25	Army, Navy, Marine Corps, or Air Force	officer or enlisted member	retirement	late delivery of retirement orders	retirement orders are delivered, or member is notified that retirement orders were issued.

Table 1-5. Termination or Reduction of Active Duty Pay and Allowances (Continued)

NOTES:

1. Discharge orders do not relieve the government of its obligation to an officer. The officer must have received actual or constructive notice by the effective date, unless the officer willfully avoids notice of separation. If kept in Military Service without fault, in ignorance of an order of dismissal, the officer is entitled to all salaries and benefits of the office. If held in Military Service under orders after the date shown in separation orders, the officer is entitled to pay if there is nothing in the records showing non-entitlement.
2. A member who reverts from a temporary officer appointment to a permanent enlisted or warrant officer grade is entitled, if otherwise proper, to the active duty pay and allowances of the temporary officer grade through and including the date of reversion.
3. Includes discharge for underage enlistment. Does not include discharge for fraudulent contract of enlistment (See section 5.0.).
4. A member whose enlistment is extended involuntarily by law comes under rule 15, not rules 16-21.
5. If medical care or hospitalization was due to member's misconduct, pay and allowances terminate on date of expiration of term of Military Service.
6. See subparagraph 3.4.4 for date of termination of the 25 percent increase in basic pay.
7. An erroneous promotion is later voided by revoking promotion orders (certificates of appointment or other documents used by the Military Service concerned to administratively effect promotions) from the original effective date. Payment of the pay and allowances of the higher grade through the date prior to the date of discovery is contingent, in each case, upon an administrative determination of the commander, that service performed while serving in the higher grade may be regarded as service performed in a "de facto" status; that is, the member was promoted by competent authority and performed duties of the higher grade (See procedural regulations of the Military Service concerned).

Table 1-6. Allowable Travel Time – Travel Between Places Within the United States

RULE	If order to active duty is for	and travel by (note 1)	then travel time allowed is	using (notes 3 and 4).
1	30 days or less	all transportation is reasonably available	computed on the basis of air transportation (not more than 1 day for travel between places within the CONUS) (note 2)	actual commercial air schedules and including the actual or estimated time to travel to and from air terminal(s) (but not more than 2 hours for each trip).
2	30 days or less	air transportation is not reasonably available for entire travel	computed as if actually performed by public surface transportation	actual schedules of fastest available mode.

NOTES:

1. When the air terminal is within 50 miles of the active duty station and direct or connecting flights are obtainable within 50 miles of the place from which ordered to active duty.
2. Additional time may be allowed when there is an actual delay in air travel. The delay must have been due to reasons beyond the control of the member, such as mechanical failure, adverse weather conditions, excess passenger load, cancelled flights, illness of other passengers, or other circumstances.
3. Travel is not expected to start or end between midnight and 0600.
4. Travel days will not exceed the computed travel time. In the computation of travel time, use existing commercial schedules to determine the latest departure time that would permit arrival at the duty station on the reporting date and hour. On release from active duty, use earliest schedule after release, which would permit arrival home by fastest available means, without regard to actual performance of travel. A member of a Reserve Component is entitled to active duty pay and allowances for allowable travel time per subparagraph 3.5.2 when member:
   a. is ordered to perform ADT;
   b. performs authorized IDT immediately before or after ADT at or near the same site; and
   c. receives orders, which direct performance of necessary travel to and from the ADT site immediately before and after combined ADT/IDT. The travel date will be specified in the active duty orders. Full retirement point credit is earned for the period of IDT performed.

*Table 1-7. Monthly Rates of Basic Pay – Commissioned Officers, Academy Cadets and Midshipmen and ROTC Members - Effective January 1, 2024
For the most current rates, see Basic Pay table on DFAS.MIL.

Table 1-7. Monthly Rates of Basic Pay – Commissioned Officers, Academy Cadets and Midshipmen and ROTC Members - Effective January 1, 2024 (Continued)

NOTES:

1. Basic pay rate for Academy Cadets/Midshipmen and ROTC members/applicants is $1,339.50.
2. The amount of the maximum combat zone tax exclusion in effect for a qualifying month equals the sum of the basic pay for the senior enlisted member payable (Table 1-10, note 3) and the maximum amount of hostile fire or imminent danger pay ($225) actually payable to the officer for the qualifying month.
3. For rank titles, see Volume 7A Comparable Grades.
4. Basic pay is limited to the rate of basic pay for level II of the Executive Schedule in effect during calendar year 2024, which is $18,491.70 per month for officers at pay grades O-7 through O-10. This includes officers serving as:
   a. Chairman or Vice Chairman of the Joint Chiefs of Staff;
   b. Chief of Staff of the Army;
   c. Chief of Naval Operations;
   d. Chief of Staff of the Air Force;
   e. Commandant of the Marine Corps;
   f. Chief of Space Operations;
   g. Commandant of the Coast Guard;
   h. Chief of the National Guard Bureau; or
   i. Commander of a unified or specified combatant command (as defined in ***10 U.S.C. § 161(c)***).
5. Basic pay for pay grades O-6 and below is limited to the rate of basic pay for Level V of the Executive Schedule during calendar year 2024, which is $15,000.00.
6. O-1, O-2, and O-3 rates do not apply to commissioned officers who have been credited with over 4 years (i.e., at least 4 years and 1 day) of active duty service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer.
7. These rates or, when applicable, the O-1E rates in Table 1-8 apply during periods of active service while as a DOM student of the USUHS. Also see subparagraph 2.2.1.6.

*Table 1-7A. Monthly Rates of Basic Pay – Commissioned Officers, Academy Cadets and Midshipmen and ROTC Members - Effective January 1, 2025
For the most current rates, see Basic Pay table on DFAS.MIL.

Table 1-7A. Monthly Rates of Basic Pay – Commissioned Officers, Academy Cadets and Midshipmen and ROTC Members - Effective January 1, 2025 (Continued)

NOTES:

1. Basic pay rate for Academy Cadets/Midshipmen and ROTC members/applicants is $1,399.80.
2. The amount of the maximum combat zone tax exclusion in effect for a qualifying month equals the sum of the basic pay for the senior enlisted member payable (Table 1-10A, note 3) and the maximum amount of hostile fire or imminent danger pay ($225) actually payable to the officer for the qualifying month.
3. For rank titles, see Volume 7A Comparable Grades.
4. Basic pay is limited to the rate of basic pay for level II of the Executive Schedule in effect during calendar year 2025, which is $18,808.20 per month for officers at pay grades O-7 through O-10. This includes officers serving as:
   a. Chairman or Vice Chairman of the Joint Chiefs of Staff;
   b. Chief of Staff of the Army;
   c. Chief of Naval Operations;
   d. Chief of Staff of the Air Force;
   e. Commandant of the Marine Corps;
   f. Chief of Space Operations;
   g. Commandant of the Coast Guard;
   h. Chief of the National Guard Bureau; or
   i. Commander of a unified or specified combatant command (as defined in ***10 U.S.C. § 161(c)***).
5. Basic pay for pay grades O-6 and below is limited to the rate of basic pay for Level V of the Executive Schedule during calendar year 2025, which is $15,258.30.
6. O-1, O-2, and O-3 rates do not apply to commissioned officers who have been credited with over 4 years (i.e., at least 4 years and 1 day) of active duty service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer.
7. These rates or, when applicable, the O-1E rates in Table 1-8 apply during periods of active service while as a DOM student of the USUHS. Also see subparagraph 2.2.1.6.

*Table 1-8. Monthly Rates of Basic Pay – Commissioned Officers Credited With Over 4 Years of Active Duty Enlisted and/or Warrant Officer Service - Effective January 1, 2024
For the most current rates, see Basic Pay table on DFAS.MIL.

NOTES:

1. The amount of the maximum combat zone tax exclusion in effect for a qualifying month equals the sum of the basic pay for the senior enlisted member (grade E-9) payable (Table 1-10, note 3) and the amount of hostile fire or imminent danger pay ($225) actually payable to the officer for the qualifying month.
2. For rank titles, see Volume 7A Comparable Grades.
3. Creditable service to be taken into account for purposes of this table is active service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer, in the case of a commissioned officer on active duty who is paid from funds appropriated for active-duty personnel; or a commissioned officer on active Guard and Reserve duty. Effective November 24, 2003, creditable service to be taken into account for purposes of this table in the case of a commissioned officer is service as an enlisted member or as a warrant officer, or as both an enlisted member and a warrant officer, for which more than 1,460 points have been credited to the officer for the purposes of 10 U.S.C. § 12732(a)(2).
4. These rates do not apply to DOM students of the USUHS who do not have over 4 years (i.e., at least 4 years and 1 day) of active duty service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer. See the Basic Pay – Officers table for applicable rates. DOM USUHS students with over 4 years of prior enlisted and/or warrant officer service are entitled to the O-1E rate of basic pay in this table during such active duty periods. Also see subparagraphs 2.2.1.6.

NOTES:

1. The amount of the maximum combat zone tax exclusion in effect for a qualifying month equals the sum of the basic pay for the senior enlisted member (grade E-9) payable (Table 1-10A, note 3) and the amount of hostile fire or imminent danger pay ($225) actually payable to the officer for the qualifying month.
2. For rank titles, see Volume 7A Comparable Grades.
3. Creditable service to be taken into account for purposes of this table is active service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer, in the case of a commissioned officer on active duty who is paid from funds appropriated for active-duty personnel; or a commissioned officer on active Guard and Reserve duty. Effective November 24, 2003, creditable service to be taken into account for purposes of this table in the case of a commissioned officer is service as an enlisted member or as a warrant officer, or as both an enlisted member and a warrant officer, for which more than 1,460 points have been credited to the officer for the purposes of 10 U.S.C. § 12732(a)(2).
4. These rates do not apply to DOM students of the USUHS who do not have over 4 years (i.e., at least 4 years and 1 day) of active duty service as an enlisted member or as a warrant officer or as both an enlisted member and a warrant officer. See the Basic Pay – Officers table for applicable rates. DOM USUHS students with over 4 years of prior enlisted and/or warrant officer service are entitled to the O-1E rate of basic pay in this table during such active duty periods. Also see subparagraphs 2.2.1.6.

*Table 1-9. Monthly Rates of Basic Pay – Warrant Officers - Effective January 1, 2024
For the most current rates, see Basic Pay table on DFAS.MIL.

Table 1-10. Monthly Rates of Basic Pay – Enlisted Members Effective January 1, 2024 (Continued)

NOTES:

1. For rank titles, see Volume 7A Comparable Grades.
2. Basic pay for senior enlisted member (grade E-9) is $10,294.80 regardless of years of service while serving as:
   a. Senior Enlisted Advisor of the Chairman, Joint Chiefs of Staff;
   b. Sergeant Major of the Army;
   c. Master Chief Petty Officer of the Navy;
   d. Chief Master Sergeant of the Air Force;
   e. Sergeant Major of the Marine Corps;
   f. Chief Master Sergeant of the Space Force;
   g. Master Chief Petty Officer of the Coast Guard; or
   h. Senior Enlisted Advisor to the Chief of the National Guard Bureau.
3. If a member is placed on terminal leave pending retirement immediately following the completion of service as the senior enlisted member of a Military Department, the member is entitled to the higher senior enlisted pay $10,294.80 up to a maximum of 60 days. If a member is hospitalized, and during or immediately before such hospitalization, completed service as the senior enlisted member of that Military Department's Armed Force, the member will continue to be entitled, for not more than 180 days while so hospitalized, to the rate of basic pay authorized for a senior enlisted member.
4. Must have 4 months of active duty or more.
5. Basic pay for an E-1 with less than 4 months of active duty is $1,865.10.

Table 1-10B. Monthly Rates of Basic Pay – Enlisted Members Effective April 1, 2025 (Continued)

NOTES:

1. For rank titles, see Volume 7A Comparable Grades.
2. Basic pay for senior enlisted member (grade E-9) is $10,758.00 regardless of years of service while serving as:
   a. Senior Enlisted Advisor of the Chairman, Joint Chiefs of Staff;
   b. Sergeant Major of the Army;
   c. Master Chief Petty Officer of the Navy;
   d. Chief Master Sergeant of the Air Force;
   e. Sergeant Major of the Marine Corps;
   f. Chief Master Sergeant of the Space Force;
   g. Master Chief Petty Officer of the Coast Guard; or
   h. Senior Enlisted Advisor to the Chief of the National Guard Bureau.
3. If a member is placed on terminal leave pending retirement immediately following the completion of service as the senior enlisted member of a Military Department, the member is entitled to the higher senior enlisted pay $10,758.00 up to a maximum of 60 days. If a member is hospitalized, and during or immediately before such hospitalization, completed service as the senior enlisted member of that Military Department's Armed Force, the member will continue to be entitled, for not more than 180 days while so hospitalized, to the rate of basic pay authorized for a senior enlisted member.
4. Must have 4 months of active duty or more.
5. Basic pay for an E-1 with less than 4 months of active duty is $2,144.10.

Table 1-11. Authorized Absence - Effect on Pay and Allowances

RULE	When member is absent from duty	and	then the member is	and the period of absence is
1	on authorized leave	such leave is: a. ordinary accrued leave; b. emergency leave; c. reenlistment leave; or d. delay en route	entitled to otherwise proper credit of full pay and allowances during the period of absence	charged as leave.
2	on authorized leave	such leave is advanced accrued leave	entitled to otherwise proper credit of full pay and allowances during the period of absence	charged against leave as it accrues (note 1).
3	on authorized leave	such leave is: a. graduation leave; b. sick or convalescent leave; c. pass or liberty; or d. proceed time	entitled to otherwise proper credit of full pay and allowances during the period of absence	not chargeable against leave.
4	at home on Permanent Change of Station (PCS) orders awaiting final action on physical evaluation board proceedings		entitled to pay and allowances as follows: a. basic pay; b. special pay (if a health professional officer); c. BAS for officers and enlisted (as applicable) (note 2); d. BAH (note 3); and e. clothing maintenance allowance	chargeable to leave to the extent possible (note 4).
5	on excess leave		not entitled to pay and allowances (note 5)	not chargeable to accrued leave (note 6).

Table 1-11. Authorized Absence - Effect on Pay and Allowances (Continued)

RULE	When member is absent from duty	and	then the member is	and the period of absence is
6	on authorized educational leave of absence not to exceed 2 years, or 3 years if pursuing a program of education in the health care profession		entitled to basic pay (member is not entitled to BAH, BAS, or any other pay and allowance to which member might otherwise be entitled for period of leave of absence)	not chargeable to accrued leave.
7	on authorized rest and recuperative absence for not more than 30 days for extending duty under Chapter 14, section 3.0	blank	entitled to otherwise proper credit of full pay and allowances during the period of absence (note 7)	not chargeable to accrued leave.

NOTES:

1. See subparagraph 4.1.4 for collection requirements when advance leave is changed to excess leave.
2. Enlisted members are entitled to BAS at the rate shown in Chapter 25, Table 25-1 or the Basic Allowance for Subsistence (BAS) table except for days of leave specifically authorized by the PCS orders. Pay BAS at the rate shown in Chapter 25, subparagraph 2.2.2.3 for the PCS order-authorized leave period.
3. Members without dependents are entitled to BAH as prescribed in subparagraph 4.1.3.2.5.
4. A negative leave balance, which existed prior to the member being ordered home continues until separation or retirement and will be collected as excess leave.
5. A member separating effective March 1, whose separation leave period through February 28 (or through February 29 during leap year) results in excess leave, is not entitled to pay and allowances for February 29 and 30 (or for February 30 during leap year). These days are not considered days of excess leave; however, the member is considered to be in a non-pay status through February 30. See subparagraph 3.2.2.

Table 1-11. Authorized Absence - Effect on Pay and Allowances (Continued)

NOTES (continued):

6. Under ***DoD Instruction (DoDI) 1327.06, "Leave and Liberty Policy and Procedures,"*** a member does not accrue leave during periods of excess leave (here referred to as "nonaccrual"). Computation of the number of days involved in an excess leave balance, which accounts for this nonaccrual may result in a total which includes a fraction. Effective with leave taken on or after Feb 1, 1987, the total is not rounded to eliminate the fraction when pay and allowances are collected for excess leave. The fractional one-half day is considered to occur on the first day of the excess leave involved. Collect pay and allowances for the number of days, to include fractional days.
7. Member is not entitled to special pay under Chapter 14, section 2.0.

Table 1-12. Unauthorized Absence and Other Lost Time - Effect on Pay and Allowances

RULE	When member is absent from duty	and	then the member
1	without authority, (AWOL) or excess leave, delays en route, pass or liberty	the absence is excused as unavoidable	is entitled to otherwise proper credits of pay and allowances (note 1).
2	without authority, (AWOL) or excess leave, delays en route, pass or liberty	the absence is not excused as unavoidable	is not entitled to pay and allowances (note 2).
3	for more than 24 consecutive hours as a result of a disease	the disease is caused by and immediately follows intemperate use of alcoholic liquors or habit-forming drugs	is entitled to allowances but not to basic pay, special, or incentive pay (note 3).
4	in confinement by civil authorities	is being detained as a witness before a civil court	is entitled to otherwise proper credits of pay and allowances.
5	in confinement by civil authorities	the absence is excused as unavoidable (see Table 1-13)	is entitled to otherwise proper credits of pay and allowances.
6	in confinement by civil authorities	the absence is not excused as unavoidable (see Table 1-13)	is not entitled to pay and allowances, except for that part of the period that is covered by authorized leave, liberty, or pass (note 4).
7	in confinement by military authorities for a foreign civil offense	is not considered “constructively absent” from duty (note 5)	is entitled to otherwise proper credits of pay and allowances.
8	in confinement by military authorities for a foreign civil offense	is considered “constructively absent” from duty (note 6)	is not entitled to pay and allowances except for that part of the period that is covered by authorized leave, unless the absence is excused as unavoidable (see Table 1-13).
9	in military confinement (other than for civil authorities)	is awaiting trial by court-martial or serving a sentence of confinement which did not include a forfeiture of pay	is entitled to otherwise proper credits of pay and allowances.
10	in military confinement (other than for civil authorities)	is serving a court-martial sentence which includes a forfeiture of pay and allowances	is entitled to pay and allowances accruing before the date the sentence was approved by the convening authority and to any unforfeited pay and allowances accruing after that date.

Table 1-12. Unauthorized Absence and Other Lost Time – Effect on Pay and Allowances (Continued)

RULE	When member is absent from duty	and	then the member
11	as a deserter	is found guilty of deserting by court-martial or is administratively discharged for desertion or dies prior to return to military control or while awaiting trial by court-martial for the charge of desertion	forfeits all pay and allowances including that due on the first day of desertion (note 7).
12	without authority for 3 months while serving as an Army or Air Force officer	is dropped from the rolls by the President	forfeits all pay and allowances due or to become due (note 7).

NOTES:

1. Enlisted members are entitled to BAS at the rate prescribed when permission to ration separately is granted unless they were subsisted at government expense.
2. See Chapter 26, for entitlement to BAH in a non-pay status. See Chapter 10 for entitlement to Hostile Fire Pay, which is payable in full for each month in which qualification is made.
3. A member is not entitled to pay or allowances for period of hospitalization after expiration of enlistment.
4. A member is not entitled to pay and allowances if granted a pass or liberty to serve civil confinement.
5. In any case where the commander of the military installation retains the discretionary authority to decide to incarcerate a member (or to merely restrict to the duty station and assign to perform useful and productive duties on a full-time basis), such member will not be considered as being "constructively absent" for the purposes of entitlement to pay and allowances.
6. Under existing DoD policy and Status of Forces Agreements, the U.S. Commander always retains discretionary authority to incarcerate or restrict a Military Service member to the installation when such a member is pending civil charges, even in cases where incarceration or restriction is requested by foreign authorities. Such member is not considered as being "constructively absent" for the purpose of entitlement to pay and allowances.
7. Pay and allowances due on date of desertion and on date an officer was dropped from the rolls will be used to satisfy debts due the United States and its instrumentalities.

*Table 1-13. Rules for Determining Whether Absence Is Unavoidable

RULE	When member is absent from duty	and	and	then absence may
1	in confinement by civil authorities or by military authorities for civil authorities	is tried and acquitted		be excused as unavoidable.
2	in confinement by civil authorities or by military authorities for civil authorities	charges are dismissed or member is released (or dies) without trial	it is clear that arrest and detention were not due to member's misconduct	be excused as unavoidable.
3	in confinement by civil authorities or by military authorities for civil authorities	is released without trial upon agreement to make restitution or reparation for the alleged offense	the commander determines that absence was not due to member's misconduct	be excused as unavoidable.
4	in confinement by civil authorities or by military authorities for civil authorities	is admitted to bail and trial is postponed indefinitely	it is apparent that the case will not be prosecuted	be excused as unavoidable.
5	in confinement by civil authorities or by military authorities for civil authorities	was released because the case was discontinued by the prosecutor or plaintiff or because the jury failed to agree		be excused as unavoidable.

Table 1-13. Rules for Determining Whether Absence Is Unavoidable (Continued)

RULE	When member is absent from duty	and	and	then absence may
6	in confinement by civil authorities or by military authorities for civil authorities	is tried and convicted		not be excused as unavoidable.
7	in confinement by civil authorities or by military authorities for civil authorities	is released under bond (not in a full-duty status) pending appeal of the case to a higher court	the appeal does not result in acquittal	not be excused as unavoidable.
8	in confinement by civil authorities or by military authorities for civil authorities	is discharged because of imprisonment or conviction by a civil court		not be excused as unavoidable.
9	in confinement by civil authorities or by military authorities for civil authorities	confinement is due to failure to obey a decree of a civil court		not be excused as unavoidable.
*10	in confinement by civil authorities	is tried and found not guilty by reason of insanity	the court orders commitment of the member under applicable Federal or State law	be excused as unavoidable.
11	without authority, (AWOL) or excess leave	the absence could not have been avoided by the member or by military authorities	the absence was not due to member's misconduct	be excused as unavoidable.
12	over pass or liberty	the absence could not have been avoided by the member or by military authorities	the absence was not due to member's misconduct	be excused as unavoidable.
13	over pass or liberty	the absence could have been prevented by member or by military authorities		not be excused as unavoidable.

Table 1-14. Computing Periods of Unauthorized Absence

RULE	When a member	and he/she is in the	and the hour of expiration of leave, pass, or liberty, or authorized travel	and the member	then
1	leaves the post of duty, place of service, or organization without authority	Army, Air Force, Navy or Marine Corps		remains absent more than 24 consecutive hours	the day of departure will be counted as the first day of unauthorized absence.
2	fails to report to the organization or post of duty on the last day of authorized leave, pass, or liberty, or authorized travel time	Navy, or Marine Corps	is before 2400 hours as specified in leave orders	does not report on or before the specified hour of the following day	the last day of leave, pass, or liberty, or authorized travel time is the first day of unauthorized absence.
3	fails to report to the organization or post of duty on the last day of authorized leave, pass, or liberty, or authorized travel time	Navy, or Marine Corps	is 2400 hours as specified in leave orders		the day following the last day of leave, pass, or liberty, or authorized travel time is the first day of unauthorized absence.
4	fails to report to the organization or post of duty on the last day of authorized leave, pass, or liberty	Navy, or Marine Corps	is not specified in leave orders	does not report before normal duty hours of the following day (note)	the day following the last day of leave, pass, or liberty is the first day of unauthorized absence.
5	fails to report to the organization or post of duty on the last day of authorized leave, pass, or liberty	Army or Air Force	is not specified in leave orders	does not report before normal duty hours of the following day (note)	the day following the last day of leave, pass, or liberty is the first day of unauthorized absence.

Table 1-14. Computing Periods of Unauthorized Absence (Continued)

RULE	When a member	and he/she is in the	and the hour of expiration of leave, pass, or liberty, or authorized travel	and the member	then
6	fails to report to the organization or post of duty by 2400 hours on the last day of authorized travel time	Army, Air Force, Navy, or Marine Corps	is not specified in orders		the day following the last day of authorized travel time is the first day of unauthorized absence.
7	is AWOL	Army, Air Force, Navy, or Marine Corps		returns to the place of duty, or organization, or otherwise to the jurisdiction of the Armed Forces	the day before the member's return is the last day of unauthorized absence.

NOTE:

The unauthorized absence begins at the normal duty hour. No unauthorized absence exists unless the member remains absent for more than 24 hours after the beginning of the normal duty hour.

*Table 1-15. Void, Voidable, or Rejected Enlistments or Inductions – Pay and Allowances

RULE	When an individual	and	then pay and allowances
1	is under investigation for a fraudulent enlistment or induction		will continue to be paid until a determination of fraud is made.
2	is determined to be serving under a fraudulent enlistment or induction; or enlists in the Army or Air Force before 17, and the government discovers the defect after the member reaches minimum age; or enlists in the Army or Air Force while 17 without parent's or guardian's consent	the government neither voids the enlistment or induction nor waives the fraud (or defect)	are suspended (including unpaid pay and allowances) from the date the disbursing officer is notified of the determination of fraud until the government either voids the enlistment or induction or allows it to stand.
3	is determined to be serving under a fraudulent enlistment or induction; or enlists in the Army or Air Force before 17, and the government discovers the defect after the member reaches minimum age; or enlists in the Army or Air Force while 17 without parent's or guardian's consent	the government voids the enlistment or induction	will not be paid (note 1).
4	is determined to be serving under a fraudulent enlistment or induction; or enlists in the Army or Air Force before 17, and the government discovers the defect after the member reaches minimum age; or enlists in the Army or Air Force while 17 without parent's or guardian's consent	the government waives the fraud (or defect)	continue and the service is as valid as that of any other member.
5	enlists in the Army or Air Force before 17 , and the government discovers the defect before the member reaches minimum age		do not accrue between date of notification to disbursing officer and date of discharge (note 1).
6	enlists in the Army or Air Force while 17 , without parent's or guardian's consent	is discharged upon application of parent or guardian	accrue to include the date of discharge or release.

*Table 1-15. Void, Voidable, or Rejected Enlistments or Inductions – Pay and Allowances (Continued)

RULE	When an individual	and	then pay and allowances
7	enlists in the Navy or Marine Corps while under the minimum statutory age (17)		accrue to include the date of discharge or release.
***8**	was judicially declared to have been mentally incapacitated before entry on active duty	is released from military control for such reason	do not accrue for any part of the period involved (note 2).
***9**	was not judicially declared to be mentally incapacitated before entry on active duty but is later found to have been mentally incapacitated at the time of entry on active duty	is released from military control for such reason	accrue from the time of entry on active duty until release from military control.
10	enlisted or inducted into the Military Service is discovered by Military Service medical authorities to have been medically unfit for induction at the time of entrance into the Military Service		accrue from the time of entry on active duty through the date of release from military control.

NOTES:

1. Individual retains amounts received before disbursing officer is notified, if otherwise proper.
2. Individual retains amounts received while performing active duty before release from military control.

CHAPTER 2

REPAYMENT OF UNEARNED PORTION OF BONUSES AND OTHER BENEFITS

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to the repayment of unearned portions of bonuses and other benefits. A member who enters into a written agreement with specified service conditions for receipt of a bonus, special or incentive pay, educational benefits, stipend, or similar payment (hereinafter referred to as "pay or benefit") is entitled to the full amount of the pay or benefit if the member fulfills the required conditions. Failure to fulfill the conditions specified in the written agreement will result in termination of the agreement, and the member will be required to repay the unearned portion of the pay or benefit. Such repayment will be pursued unless the member's failure to fulfill the specified conditions is due to circumstances determined reasonably beyond the member's control. Conditions under which repayment will not be sought are set forth in section 3.0.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), Title 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 POLICY

2.1 Payment Disposition

The Secretary of the Military Department concerned may establish, by regulation, procedures for determining the amount of the repayment required. Service regulations will apply the rules in Table 2-1 for disposition of unearned portions of the pay or benefit.

2.2 Use of Separation Designator Codes (SPD) in Effecting the Repayment of Unearned Portion of Bonuses and Other Benefits

SPD codes are used to track and analyze the reasons that Service members separate from military service and to assist in the review, development, and monitoring of separation policies and programs. Additionally, SPD codes are used to ensure standardized pay actions are consistent with separation policies. While automated processes are critical, it is also important to recognize and allow Secretaries of the Military Departments to exercise their delegated authority to change pay actions on a case-by-case basis. Therefore, when the Secretary of a Military Department concerned wishes to exercise delegated authority to change a pay action for the designated SPD code assigned to the member's DoD (DD) Form 214, the Secretary concerned submits the

requested exception to policy (ETP) to the Director of Military Compensation in the Office of the Assistant Secretary of Defense (OASD) for Manpower and Reserve Affairs (M&RA) for approval. The approved ETP is submitted to the Defense Finance and Accounting Service (DFAS) for processing. It is important for the Military Departments to treat Service members similarly at separation, so this authority to change the designated pay action should be used sparingly.

2.3 Definition

The term "service," as used in this chapter, refers to an obligation willingly undertaken by a member of the uniformed services in exchange for a pay or benefit offered by the Secretary of Defense or the Secretary of the Military Department concerned to do one or more of the following:

2.3.1. Remain on active duty;

2.3.2. Remain in an active status in a Reserve Component;

2.3.3. Perform duty in a specified skill, with or without a specified qualification or credential;

2.3.4. Perform duty at a specified location; or

2.3.5. Perform duty for a specified period of time.

2.4 Bankruptcy

An obligation to repay a pay or benefit to the United States is, for all purposes, a debt owed to the United States. A discharge in bankruptcy does not discharge a person from such debt if the discharge order is entered less than 5 years after:

2.4.1. The date of the termination of the agreement or contract on which the debt is based; or

2.4.2. The date of the termination of service on which the debt is based, in the absence of such agreement or contract.

3.0 REPAYMENT AND NON-REPAYMENT CONDITIONS

3.1 Conditions Under Which Repayment Will Be Sought

3.1.1. When the conditions of a written agreement are not fulfilled and repayment is determined appropriate, the member will be required to repay the United States the unearned portion of a pay or benefit. In cases other than death of a member, the Secretary of the Military Department concerned will advise DFAS of the disposition of any unearned portion of a pay or benefit.

3.1.2. Repayment will be sought, and any unpaid balances may not be paid to members who incur a disability because of their misconduct.

3.2 Delegation of Authority

The Secretary of the Military Department concerned may, through regulation, delegate the authority to make repayment determinations consistent with the criteria set forth in section 3.0, but not below the O-6 or equivalent level. If delegated, then the Military Departments will specify the level and the scope of the authorized delegation in implementing regulations.

3.3 Conditions Under Which Repayment Will Not Be Sought

As a general rule, repayment action may not be pursued in situations in which the member's inability to fulfill specified service conditions related to a pay or benefit is due to circumstances determined reasonably beyond the member's control. Payment of any unpaid portion of pay or benefit will be subject to the rules in Table 2-1, which in appropriate circumstances provide discretion to the Secretary of the Military Department concerned to pay unearned portions based on case-by-case determinations.

3.3.1. Repayment will not be sought, and any remaining unpaid portion of a pay or benefit due to a member under a written agreement that existed at the time of the member's death, which was not the result of the member's misconduct, is payable as a lump sum in the settlement of the decedent's final military pay entitlements.

3.3.2. Repayment will not be sought and any remaining unpaid portion of a pay or benefit due to a member under a written agreement will be paid at the time of separation or retirement for a disability incurred in the line of duty in a combat zone designated by the President of the United States or the Secretary of Defense, or in a combat-related operation designated by the Secretary of Defense, and/or for a combat-related disability.

3.3.3. Subject to the enlistment authorities and the relevant regulations of the Secretary of the Military Department concerned, a member who was paid a bonus or special pay for a period of enlistment in a Military Department, who is discharged for immediate reenlistment or appointment in a Military Department for which no bonus or special pay is paid, may be considered to have completed the full term of service specified in the former enlistment contract, provided the term of the latter reenlistment or appointment includes the remaining period of service from the former enlistment. The member's enlistment bonus or special pay entitlements will be addressed prior to discharge from a Military Department.

3.3.4. Repayment will not be sought, and the Secretary of the Military Department concerned will not pay any remaining unpaid portion of a pay or benefit under the following circumstances, unless otherwise authorized by the Secretary of the Military Department concerned under subparagraph 3.4.2.

3.3.4.1. The member's employment in another military specialty or assignment rotation is directed;

3.3.4.2. The member's military specialty or assignment is phased out or eliminated;

3.3.4.3. The member's military specialty or assignment is otherwise affected by force structure or other mission essential requirements; or

3.3.4.4. The member is separated from service under a hardship separation or sole survivor discharge.

3.3.5. Pursuant to ***Title 10, U.S.C. section 1171***, enlisted members who are discharged within 12 months before the expiration of an enlistment, reenlistment, or extension of enlistment are considered to have completed the terms of the enlistment, reenlistment, or extension of enlistment for which the bonus was paid. Thus, recoupment is not required for the unearned portion of the pay or benefit arising from the early discharge. The Military Departments are responsible for determining whether a member's early discharge is made pursuant to 10 U.S.C. § 1171 and advising DFAS of the determination.

*3.4 Conditions Under Review by the Secretary of the Military Department

3.4.1. In instances involving a member's separation for medical reasons, not falling under ***10 U.S.C. Chapter 61*** or ***section 1413a(e)***, which were not the result of the member's misconduct, the Secretary of the Military Department concerned has the discretion to determine whether to require repayment of the unearned portion of pay or benefit or to pay an unpaid balance of a pay or benefit.

3.4.2. Under circumstances not specifically mentioned in this chapter, if a member under a written agreement for a pay or benefit does not fulfill the service conditions for the pay or benefit, repayment of unearned portions will be sought, and any unpaid portion will not be paid. However, the Secretary of the Military Department concerned has the discretion to, at some point in the process, grant an exception based on a case-by-case determination that requiring repayment of an unearned portion, or refraining from paying any unpaid portion would be:

3.4.2.1. Contrary to a personnel policy or management objective;

3.4.2.2. Against equity and good conscience; or

3.4.2.3. Contrary to the best interest of the United States.

Table 2-1. Disposition of Unearned Portions of Bonuses, Special Pay, Educational Benefits, or Stipends

RULE	If a member under a written agreement for a pay or benefit	and	then repayment of the unearned portion of the pay or benefit	and	any unpaid pay, or benefit under 10 U.S.C. or 37 U.S.C.
1	Dies, through no misconduct of the member		will not be sought		will be paid in the member's final pay.
2	Incurs an injury or illness, through no misconduct of the member, that precludes the member from fulfilling the service conditions specified in the written agreement	the member is separated or retired for disability under *10 U.S.C., Chapter 61*	will not be sought	if such separation or retirement is for a disability incurred in the line of duty in a combat zone designated by the President of the United States or the Secretary of Defense, or in a combat-related operation designated by the Secretary of Defense, and/or involves a combat-related disability as defined in *10 U.S.C. § 1413a(e)*	will be paid to the member upon separation.
3	Incurs an injury or illness, through no misconduct of the member, that precludes the member from fulfilling the service conditions specified in the written agreement	the member is separated, other than as described in Rule 2, for medical reasons as a result of an injury or illness	will not be sought, unless the Secretary of the Military Department concerned determines that repayment of the unearned portion is appropriate due to a personnel policy or management objective, equity or good conscience, or it is in the best interest of the United States		will not be paid, unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E.
4	Incurs an injury or illness, through no misconduct of the member, that precludes the member from fulfilling the service conditions specified in the written agreement	the member continues in service in another capacity	will not be sought if the Secretary of the Military Department concerned determines that to recoup the unearned portion would be contrary to a personnel policy or management objective, equity or good conscience, or contrary to the best interest of the United States		will not be paid, unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E.

Table 2-1. Disposition of Unearned Portions of Bonuses, Special Pay, Educational Benefits, or Stipends (Continued)

RULE	If a member under a written agreement for a pay or benefit	and	then repayment of the unearned portion of the pay or benefit	and	any unpaid pay, or benefit under 10 U.S.C. or 37 U.S.C.
5	Is an enlisted member paid a bonus or special pay and is discharged for immediate reenlistment or appointment in a Military Department for which no bonus or special pay is paid	the term of the latter reenlistment or appointment includes the remaining period of service from the former enlistment	will not be sought if the Secretary of the Military Department concerned determines that to recoup the unearned portion would be contrary to a personnel policy or management objective, against equity or good conscience, or contrary to the best interest of the United States		will not be paid unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E. *(In this case, the member may be considered to have completed the full term of service on the former enlistment contract.)*
6	Is directed by the Service concerned to transfer into another military specialty or assignment rotation		will not be sought		will not be paid, unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E.
7	Is in a military occupational specialty or assignment that is phased out or eliminated, or otherwise affected by a force structure or other mission essential requirement		will not be sought		will not be paid, unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E.
8	Is separated from service under a hardship separation or a sole survivor discharge		will not be sought		will not be paid, unless the Secretary of the Military Department concerned makes a determination consistent with Rule 9, Column E.

Table 2-1. Disposition of Unearned Portions of Bonuses, Special Pay, Educational Benefits, or Stipends (Continued)

RULE	If a member under a written agreement for a pay or benefit	and	then repayment of the unearned portion of the pay or benefit	and	any unpaid pay, or benefit under 10 U.S.C. or 37 U.S.C.
9	Does not fulfill the service conditions for the pay or benefit under any other circumstances		will be sought, unless the Secretary of the Military Department concerned, at some point in the process makes a case-by-case determination that to require repayment of an unearned portion of the pay or benefit would be contrary to a personnel policy or management objective, against equity or good conscience, or contrary to the best interest of the United States		will not be paid unless the Secretary of the Military Department concerned, at some point in the process, makes a case-by-case determination that to refrain from paying an unpaid portion of the pay, benefit, or student loan would be contrary to a personnel policy or management objective, against equity or good conscience, or contrary to the best interest of the United States.

CHAPTER 3

SPECIAL PAY – OFFICERS ONLY

1.0 GENERAL

1.1 Purpose

The Secretaries of the Military Departments may pay a bonus or special pay to persons or officers, as appropriate, to support accession and retention efforts for a designated military specialty, career field, unit, grade, or to meet some other condition or conditions of service imposed by the Secretary of the Military Department concerned. This chapter establishes policy pertaining to the payments of bonuses or special pay in support of accession and retention efforts.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 GENERAL BONUS AUTHORITY FOR OFFICERS

2.1 Authority

Title 37, U.S.C., section 332 (***37 U.S.C. § 332***) and the DoD Instruction (DoDI) 1304.34, General Bonus Authority for Officers, dated July 11, 2016, provides the general bonus authority for bonuses referenced in sections 3.0, 4.0, 5.0, and 6.0. The Secretaries concerned may pay these bonuses to a person, member, or officer in the Military Services who:

2.1.1. Accepts a commission or appointment as an officer in a Military Service;

2.1.2. Affiliates as an officer with a Reserve Component (RC) of a Military Service;

2.1.3. Agrees to remain on active duty (AD) or in an active status for a specified period as an officer in a Military Service;

2.1.4. Transfers between the Regular Component and the Ready Reserve of the same Military Service, or vice versa; or

2.1.5. Transfers from a Regular Component or the Ready Reserve of a Military Service to a Regular Component or the Ready Reserve of another Military Service, subject to the approval of the Secretary with jurisdiction over the Military Service to which the member is transferring.

2.2 Eligibility

In accordance with paragraph 2.1, the Secretary concerned may only pay a bonus to a person or officer who:

2.2.1. Signs a written agreement with the Secretary concerned to serve for a specified period in a designated career field, skill, unit, or grade, or meets some other condition or conditions of service imposed by the Secretary;

2.2.2. Successfully completes training and becomes qualified in a designated skill or career field, if completion of such training and technical qualification forms the basis for which the bonus is paid;

2.2.3. Qualifies pursuant to any additional criteria prescribed by the Secretary concerned;

2.2.4. Meets any additional eligibility criteria outlined in sections 3.0, 4.0, 5.0, and 6.0;

2.2.5. Is not in receipt of an accession, retention, reserve affiliation, or transfer bonus, in accordance with ***37 U.S.C. Chapter 5, Subchapter I***, for the same activity, skill, or period of service;

2.2.6. Will not exceed the mandatory retirement or high-year tenure date during the specified period of obligated service for which the bonus is paid; and

2.2.7. Is not serving a service obligation, except as noted in paragraph 2.8.

2.3 Additional Guidelines

2.3.1. An officer is not eligible for a bonus, under DoDI 1304.34, if previously discharged or released from AD or military service in an active status based on a determination of misconduct, substandard duty performance, or moral or professional dereliction.

2.3.2. In accordance with ***37 U.S.C. § 371***, an officer may not receive a bonus or incentive pay under 37 U.S.C. Chapter 5, Subchapter I and ***37 U.S.C. Chapter 5, Subchapter II***, for the same activity, skill, or period of military service.

2.3.3. An officer may receive only one bonus pursuant to paragraph 2.1 for the duration of the service obligation period, unless explicitly exempt in statute or DoDI 1304.34.

2.3.4. An officer may not receive more than $300,000 (or $150,000, in the case of a non-Active Guard Reserve officer in the RC) in combined bonus payments authorized under DoDI 1304.34 during the course of the officer's career. The Military Service may not exceed these payment caps unless specifically authorized by the Assistant Secretary of Defense for Manpower and Reserve Affairs (ASD (M&RA)).

2.3.5. An officer receiving pre-commissioning compensation in accordance with *10 U.S.C. § 2106*, and *10 U.S.C. § 2107* and *10 U.S.C. § 2107a*, or financial assistance through a loan repayment program under *10 U.S.C. § 16201*, *10 U.S.C. § 16301*, *10 U.S.C. § 16302*, or *10 U.S.C. § 16303*, is not eligible for a bonus pursuant to DoDI 1304.34 until the military service obligation (MSO) is completed.

2.3.6. An officer receiving a bonus in accordance with *37 U.S.C. § 333* and *37 U.S.C. § 334*, is not eligible for a bonus pursuant to DoDI 1304.34 for the same skill and period of service.

2.3.7. An officer receiving a bonus in accordance with *37 U.S.C. § 335*, is not eligible for a bonus pursuant to DoDI 1304.34 for the same period of obligated service.

2.3.8. Existing bonus contracts under 37 U.S.C. Chapter 5, Subchapter I, will remain in effect through the preexisting termination dates.

2.4 Payment Method

2.4.1. The Secretary concerned will establish the method of payment for the bonus (i.e., lump sum or periodic installments).

2.4.2. The Secretary concerned may make payment based on training milestones, proportional length of service, or lump sum. However, the Secretary will not pay an officer any portion of a skill bonus before awarding of the military skill specialty, if completion of such training and technical qualification forms the basis for which the bonus is paid.

2.4.3. Officers will receive their initial bonus payments based on the terms and conditions of their bonus agreements.

2.5 Amount

The bonus amount paid by the Secretary concerned will be fixed on acceptance of the agreement by the Secretary and may only be paid prospectively. The bonus paid may not exceed the following amounts, unless otherwise approved by the ASD (M&RA):

2.5.1. $60,000 for a minimum 4-year service obligation for an officer or person who accepts a commission or appointment as an officer in a Military Service, as described in subparagraph 2.1.1;

2.5.2. $10,000 for a minimum 3-year service obligation for an officer, as described in subparagraph 2.1.2;

2.5.3. $25,000 for each year of obligated service as an officer in a Regular Component for retention, as described in subparagraph 2.1.3;

2.5.4. $12,000 for each year of obligated service as an officer in an RC for retention, as described in subparagraph 2.1.3; or

2.5.5. $10,000 for a transfer, as described in subparagraphs 2.1.4 and 2.1.5.

2.6 Specific Rule for Designated Military Skills or Career Fields

The following are specific procedures, requirements, and conditions related to an accession, affiliation, retention, or transfer bonus paid to an officer for a period of obligated service in a designated military skill or career field:

2.6.1. The period of obligated service will include normal skill progression, as defined by the Secretary concerned (e.g., attending courses in professional military education) and any other advanced training or education related to a designated military skill.

2.6.2. The Secretary concerned may pay a conversion bonus to an officer who agrees to convert to a designated military skill in which there is a shortage of trained and qualified officers. The bonus may be payable in a lump sum upon approval and completion of the conversion training by the Secretary concerned.

2.6.2.1. The officer must agree to serve for not less than 3 years on AD or in an active status in the Selective Reserve (SELRES) in that military skill or career field.

2.6.2.2. The officer must serve in the pay grade of O-3 or below with no more than 8 years of commissioned military service at the time the officer enters into the conversion contract, as computed in accordance with ***37 U.S.C. § 205***.

2.6.2.3. The officer must have completed all service obligations previously incurred for receipt of an accession or retention bonus, in accordance with 37 U.S.C. § 332, or critical skills retention bonus, in accordance with ***37 U.S.C. § 355***, at the time the officer begins training for conversion to the new skill.

2.6.2.4. The bonus amount may not exceed the retention bonus amounts listed in paragraph 5.4.

2.6.3. Officers receiving skill-based bonuses are expected to serve in an assignment for which the skill is required. For service obligations of at least 36 months, the Secretary concerned may curtail the assignment requirements to a period of 2 years based on the needs of the Military Service. The Secretary concerned will establish assignment criteria and procedures that limit the circumstances in which such a period of obligated military service may be curtailed and will specify such other appropriate conditions of military service, consistent with 37 U.S.C. § 332(b)(2) and paragraph 2.2. Additionally, the Secretary will:

2.6.3.1. Ensure that military personnel centers identify, monitor, and review such obligated military service curtailments;

2.6.3.2. Approve any curtailment of the assignment criteria that involves more than one consecutive assignment in a military skill other than that which was designated for purposes of the bonus. This responsibility may be delegated no lower than the grade of major general or rear admiral (upper half); and

2.6.3.3. Ensure that any request for curtailment is:

2.6.3.3.1. Clearly justified based on the needs of the Military Department concerned; and

2.6.3.3.2. Not granted on a routine basis.

2.7 Repayment

A person or officer who receives a bonus in accordance with 37 U.S.C. § 332, and fails to complete the period of obligated service or other conditions of service specified in the written agreement for which the bonus is paid, must repay any unearned portion of the bonus in accordance with the provisions of ***37 U.S.C. § 373*** and Chapter 2.

2.8 Service Obligations

2.8.1. An officer who has a service obligation is not eligible for a bonus under DoDI 1304.34, except when the officer:

2.8.1.1. Serves his or her initial service obligation incurred at time of commissioning or appointment in accordance with DoDI 1304.25, "Fulfilling the Military Service Obligation (MSO);"

2.8.1.2. Incurs a service obligation due to a permanent change in duty station or promotion;

2.8.1.3. Incurs a service obligation for attending and completing professional military education or government-funded education courses (this exception does not apply to undergraduate education); or

2.8.1.4. Incurs a service obligation as a result of transferring Post 9-11 GI Bill benefits.

2.8.2. For the situations described in subparagraphs 2.8.1.1 through 2.8.1.3, the service obligations may run concurrently for bonuses offered under DoDI 1304.34. For subparagraph 2.8.1.4, the Secretary concerned will determine if the service obligation is concurrent or consecutive.

2.8.3. Excluding the situations described in subparagraph 2.8.1:

2.8.3.1. The Military Department may offer a bonus under DoDI 1304.34 up to 1 year from completion of an officer's service obligation.

2.8.3.2. The bonus may not be paid until completion of the previous service obligation.

2.8.3.3. The service obligation for a new bonus will begin on the date of the agreement or completion of a previous service obligation, whichever date is later.

2.9 Non-Availability

2.9.1. Officers of the SELRES who incur a period of authorized absence approved by the Secretary concerned or are transferred to the Standby Reserve in accordance with DoD Directive 1200.7, will have their bonuses suspended during this period and will not be entitled to bonus payments. The Secretary concerned will determine this period of time on a case-by-case basis.

2.9.2. The Secretary concerned may reinstate RC officers in the bonus program who are subsequently reassigned in the SELRES to a skill for which they had previously contracted, if they extend their MSO so they are able to serve the full original bonus agreement period.

2.9.3. Officers' entitlement to subsequent payments will resume on the adjusted anniversary date of satisfactory and creditable SELRES service, as appropriate. The Secretary concerned will adjust the anniversary date for periods of authorized absence. Failure to meet reinstatement criteria in a capacity that was previously agreed on will result in termination of the bonus and in repayment, as appropriate.

3.0 ACCESSION BONUS

3.1 General

An accession bonus offers a monetary incentive for a person (including a Service member) to accept a commission or appointment as an officer and serve for a specified period on AD or in an active status in a Military Service.

3.1.1. An accession bonus is authorized when an individual executes a written agreement and agrees to serve for a minimum 4-year period in:

3.1.1.1. A designated military skill or career field;

3.1.1.2. A unit;

3.1.1.3. A grade; or

3.1.1.4. Some other role that meets a condition or conditions imposed by the Secretary concerned.

3.1.2. The procedures described in sections 2.0 and 3.0, as well as any additional conditions and requirements prescribed by the Secretary concerned, govern the award and administration of an accession bonus.

3.2 Additional Accession Bonus Eligibility Requirements

In addition to meeting the minimum eligibility requirements listed in paragraph 2.2, an eligible person must:

3.2.1. Meet the qualification standards listed in DoDI 1304.26 for a commission or appointment;

3.2.2. Be an initial recipient of a commission or appointment in a Regular Component or RC;

3.2.3. Have completed all previous service obligations incurred as a result of receiving a bonus or special pay while serving as an enlisted Service member or Reserve Officer Training Course cadet or midshipmen;

3.2.4. Not have received:

3.2.4.1. Pre-commissioning compensation under 10 U.S.C. §§ 2106, 2107, and 2107a;

3.2.4.2. Financial assistance through a loan repayment program in accordance with 10 U.S.C. §§ 16201, 16301, 16302, or 16303; or

3.2.4.3. An accession bonus in accordance with ***37 U.S.C. § 324*** and ***37 U.S.C. § 330***; and

3.2.5. Accept a service obligation on AD or in the SELRES for at least 4 years.

3.3 Restrictions

3.3.1. An officer may receive only one officer accession bonus during a career. An officer accessed from the enlisted ranks is eligible for an accession bonus as an officer or warrant officer.

3.3.2. An officer reappointed in a Military Service after resignation or termination of a commission or appointment from an earlier period of military service is not eligible for an accession bonus.

3.3.3. An officer may not receive an accession bonus and a transfer bonus for the same period of military service.

3.3.4. An officer may not receive an accession bonus and an affiliation bonus for the same period of military service.

3.4 Amount

The amount of an accession bonus under DoDI 1304.34 may not exceed $60,000 for a minimum 4-year period of obligated service, nor may it exceed an annual amount of $15,000.

3.5 Payment Method

The method of payment will be consistent with paragraph 2.5.

3.6 Non-Availability

In the event an RC officer becomes unavailable, the provisions in paragraph 2.9 will apply.

3.7 Duration of Authority

Unless reauthorized by Congress, an officer accession bonus may not be paid after the date listed on the ***Duration of Authority*** table, located on DFAS.MIL, unless an officer accession agreement was entered into prior to the date on the table.

4.0 RC AFFILIATION BONUS

4.1 General

The RC affiliation bonus offers a monetary incentive for an officer to affiliate with the SELRES of a Military Service.

4.1.1. The bonus is authorized when an officer affiliates with the SELRES of a Military Service and agrees to serve for a specified period of not less than 3 years of obligated service in a military skill designated critical by the Secretary concerned or not less than 3 years of obligated service in a specific SELRES unit or officer pay grade to meet manpower shortages in the specific SELRES unit or officer pay grade. Additionally, the Secretary concerned may, with the officer's consent, convert the officer to a designated career field or military skill in which there is a shortage of trained and qualified personnel.

4.1.2. The procedures described in sections 2.0 and 4.0, as well as any additional conditions and requirements prescribed by the Secretary concerned, govern the award and administration of an RC affiliation bonus.

4.2 Additional RC Affiliation Bonus Eligibility Requirements

In addition to meeting the minimum eligibility requirements in paragraph 2.2, an eligible officer must execute an agreement to serve as an officer in the SELRES for a service obligation of at least 3 years and have fewer than 15 years of qualifying military service towards a regular or non-regular retirement, in accordance with DoDI 1215.07. The officer must also:

4.2.1. Be serving in the Ready Reserve or Standby Reserve of a Military Service; or

4.2.2. Be serving or have served in the Regular Component for a period of more than 30 days and have been released under honorable conditions.

4.3 Additional Guidelines

4.3.1. Individuals may receive more than one affiliation bonus in a career, though not for the same military skill, grade, or unit.

4.3.2. An officer may receive an affiliation bonus and transfer bonus as long as the officer serves the service obligations for each bonus consecutively. See section 6.0 for additional information on transfer bonuses.

4.3.3. Officers signing up for an affiliation bonus and a transfer bonus at the same time will incur an additional 12-month service obligation rather than an additional 24-month service obligation, as otherwise prescribed. The minimum service obligation for an officer receiving both bonuses is 4 years.

4.4 Amount

The maximum affiliation bonus may not exceed $10,000 for a minimum 3-year service obligation.

4.5 Payment Method

4.5.1. The method of payment will be consistent with paragraph 2.5.

4.5.2. An affiliation bonus begins to accrue on the date the eligible officer is assigned to a unit or position in the SELRES.

4.6 Non-Availability

In the event an RC officer becomes unavailable, the provisions in paragraph 2.9 will apply.

4.7 Duration of Authority

Unless reauthorized by Congress, an officer affiliation bonus may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless an officer affiliation agreement was entered into prior to the date on the table.

5.0 RETENTION BONUS

5.1 General

A retention bonus under DoDI 1304.34 provides a monetary incentive that may be offered by the Military Department to retain adequate numbers of qualified officers.

5.1.1. Specifically, the bonus may be used by the Military Department to obtain the voluntary extension of an officer's service in exchange for an agreement to serve for a specified period in a designated military skill, career field, unit, or grade or to meet some other condition or conditions imposed by the Military Department concerned.

5.1.2. The procedures described in sections 2.0 and 5.0, as well as additional conditions and requirements prescribed by the Secretary concerned, govern the award and administration of the retention bonus.

5.1.3. In order to meet the designated military skill or career field criteria, the Secretary concerned may, with the officer's consent, convert the officer to a designated career field or military skill in which there is a shortage of trained and qualified personnel.

5.1.4. Officers appointed into a Military Service after a period of disenrollment, discharge, or separation who meet the eligibility requirements in paragraphs 2.2 and 5.2 may be eligible for a retention bonus.

5.2 Additional Retention Bonus Eligibility Requirements

In addition to the eligibility requirements in paragraph 2.2, an eligible officer must:

5.2.1. Have completed a minimum of 4 years of active commission service or qualifying service for an RC officer, in accordance with DoDI 1215.07; and

5.2.2. Agree to remain on AD or in an active status for a period of at least 2 years.

5.3 Restrictions

5.3.1. An officer is not eligible for a retention bonus if, at the start of the period of additional obligated service, the officer:

5.3.1.1. Has between 16 and 19 years of active commissioned service or qualifying service, in accordance with DoDI 1215.07 for an RC officer; or

5.3.1.2. Is retirement eligible with more than 22 years of active commissioned service or qualifying service in accordance with DoDI 1215.07.

5.3.2. The service obligation for a retention bonus may not extend an officer's service beyond 25 years of active commissioned service or qualifying service, in accordance with DoDI 1215.07 for an RC officer.

5.3.3. Officers who have transferred their Post-9/11 GI Bill or Montgomery GI Bill-SELRES education benefits to a dependent or spouse in accordance with DoDI 1341.13, are eligible for a retention bonus as specified in DoDI 1304.34. The Secretary concerned will determine if the service obligation for both the retention bonus and GI Bill transfer is served concurrently or consecutively.

5.4 Amount

The Secretary of the Military Department may prorate bonus amounts for retention requests greater than 2 years. The additional service time will be calculated on a monthly basis at a rate equal to 1/12th the annual amount. The maximum retention bonus may not exceed:

5.4.1. $25,000 for each year of obligated service in a Regular Component; or

5.4.2. $12,000 for each year of obligated service in an RC.

5.5 Payment Method

The method of payment will be consistent with paragraph 2.5.

5.6 Non-Availability

In the event an RC officer becomes unavailable, the provisions of paragraph 2.9 will apply.

5.7 Duration of Authority

Unless reauthorized by Congress, an officer retention bonus may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless an officer retention agreement was entered into prior to the date on the table.

6.0 TRANSFER BONUSES

6.1 Intra-Service Transfer

The Intra-Service transfer bonus provides a monetary incentive for an officer to transfer from the Regular Component of a Military Service to the Ready Reserve (and vice versa, however mobilization does not constitute an intra-service transfer) of the same Service to meet manning requirements. The Secretaries concerned may pay a bonus to an officer who agrees to transfer from the Regular Component to the Ready Reserve (and vice versa) and agrees to serve for a specified period in a designated military skill, career field, unit, or grade, or to meet other conditions imposed by the Secretary concerned.

6.1.1. The procedures described in section 2.0 and paragraph 6.1, as well as any additional conditions and requirements prescribed by the Secretary of the Military Department concerned, govern the award and administration of the transfer bonus.

6.1.2. All transfers among Military Service components will be conducted in accordance with DoDI 1300.04.

6.1.3. To be eligible for an intra-service transfer bonus, an officer must meet the following additional eligibility requirements:

6.1.3.1. The officer has fulfilled all service obligations satisfactorily within the officer's current Regular Component or RC;

6.1.3.2. The officer meets the qualification criteria for the transfer bonus of the Regular Component or RC of the Military Service to which the officer is transferring;

6.1.3.3. The officer must agree to remain in the component of the Military Service for which the transfer bonus is offered for a minimum of 2 years; and

6.1.3.4. The officer must have fewer than 15 years of active time.

6.1.4. Affiliation and Transfer Bonus

6.1.4.1. The Secretaries concerned may offer an intra-service transfer bonus in conjunction with an affiliation bonus.

6.1.4.2. Officers receiving both bonuses incur an additional 12-month service obligation for a minimum service obligation of 4 years.

6.1.4.3. Table 3-1 lists the intra-service transfers for which the Military Departments may offer a bonus.

6.2 Inter-Service Transfer

The Inter-Service transfer bonus provides a monetary incentive for an officer to transfer to another Military Service to meet manning requirements of that Military Service. The Secretaries concerned may pay a bonus to an officer who agrees to transfer to and serve in another Military Service for a specified period in a designated military skill, career field, unit, or grade or to meet some other condition(s) imposed by the Secretary of the gaining Military Department.

6.2.1. The procedures described in section 2.0 and paragraph 6.2, as well as any additional conditions and requirements prescribed by the Secretary of the Military Department concerned, govern the award and administration of the transfer bonus.

6.2.2. Transfers between Military Services include officers transferring from the Regular Component or the Ready Reserve of a Military Service to the Regular Component or the Ready Reserve of a different Military Service.

6.2.3. Officer transfers between Military Services will be conducted in accordance with DoDI 1300.04.

6.2.4. In order to successfully transfer, an officer must:

6.2.4.1. Qualify for retention in the Military Service to which the officer is transferring;

6.2.4.2. Have fulfilled all MSOs satisfactorily within the officer's current Regular Component or RC;

6.2.4.3. Meet the qualification criteria established by the Secretary of the Military Department with jurisdiction over the Military Service to which the officer is transferring;

6.2.4.4. Agree to sign a written agreement to remain in the Military Service for which the transfer bonus is offered for a minimum 3-year period; and

6.2.4.5. Have fewer than 15 years of active service time.

6.2.5. Affiliation and Transfer Bonus

6.2.5.1. The Secretary concerned may offer an inter-service transfer bonus in conjunction with an affiliation bonus.

6.2.5.2. Officers receiving both bonuses incur an additional 12-month service obligation for a minimum MSO of 4 years.

6.2.5.3. Table 3-2 lists the inter-service transfers for which a bonus may be offered.

6.3 Restrictions

An officer receiving separation pay in accordance with ***10 U.S.C., Chapter 59***, is not eligible for a transfer bonus.

6.4 Amount

A transfer bonus may not exceed $10,000.

6.5 Payment Method

The method of payment will be consistent with paragraph 2.5.

6.6 Non-Availability

In the event an RC officer becomes unavailable, the provisions of paragraph 2.9 will apply.

6.7 Duration of Authority

Unless reauthorized by Congress, an officer transfer bonus may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless an officer transfer agreement was entered into prior to the date on the table.

7.0 SPECIAL PAYS FOR NUCLEAR-QUALIFIED OFFICERS (NAVY ONLY)

*7.1 Nuclear Power Accession Bonus Program

7.1.1. Eligibility

7.1.1.1. Nuclear Officer Accession Bonus. An accession bonus is payable to officers or prospective officers who are selected for officer naval nuclear- propulsion training and execute a written agreement to participate in a program of training for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants. Payment is authorized upon acceptance of the written agreement.

7.1.1.2. Nuclear Career Accession Bonus. Officers who are on AD and who successfully complete the nuclear propulsion-training program, leading to qualification for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants, are eligible for payment of the nuclear career accession bonus.

7.1.2. Payment. Payment procedures and bonus rates for this program are contained in Chief of Naval Operations Instruction (OPNAVINST) 7220.11J paragraph 7.c, paragraph 8.b, and enclosure 1 paragraphs 1.a and 1.b.

7.1.3. Repayment. An officer, who receives an accession bonus and does not commence or satisfactorily complete the nuclear power training, will be subject to the repayment provisions of 37 U.S.C. § 373, and Chapter 2.

7.1.4. Duration of Authority. A nuclear power accession bonus may not be paid to any person after the date on the Duration of Authority table. No payments will be made after the termination date unless the entitlement commenced prior to that date.

*7.2 Nuclear Officer Continuation Bonus (COBO)

7.2.1. Entitlement. The Secretary of the Navy may pay Nuclear Officer COBO to nuclear-qualified officers who agree to remain on AD for a specified period beyond their existing service obligation.

7.2.2. Eligibility. Officers who meet the criteria defined in OPNAVINST 7220.11J are eligible to receive COBO upon acceptance of their written agreement to remain on AD in connection with supervision, operation, and maintenance of naval nuclear propulsion plants.

7.2.3. Payment. The amount payable may not exceed $75,000 for each 12-month period. The payment procedures, rates and effective dates are contained in the governing regulation, OPNAVINST 7220.11J, paragraph 9.c and enclosure 1 paragraph 1.c.

7.2.4. Repayment. An officer who receives a bonus and fails to complete the period of obligated service or other conditions of service specified in the written agreement for which the

bonus is paid, may be subject to repayment of any unearned portion of the bonus in accordance with the provisions of 37 U.S.C. § 373, Chapter 2, and OPNAVINST 7220.11J.

7.2.5. Duration of Authority. A nuclear officer continuation bonus may not be paid to any person after the date on the Duration of Authority table. No payments will be made after the termination date unless the entitlement commenced prior to that date.

7.3 Nuclear Career Annual Incentive Pay (AIP)

7.3.1. Purpose. The Secretary of the Navy may pay Nuclear Career AIP to nuclear-trained and nuclear-qualified officers who are on AD and who complete their initial service requirement, and to nuclear-trained and nuclear-qualified limited duty and warrant officers who serve in an assignment with duties in connection with direct supervision, operation, or maintenance of naval nuclear propulsion plants.

7.3.2. Eligibility. AIP is paid annually to nuclear-trained and qualified officers who remain on AD for a specified period and who meet the eligibility criteria set forth in OPNAVINST 7220.11J.

7.3.2.1. Warrant Officers in pay grades W-2 through W-5 and Officers in pay grades O-1 through O-6 are eligible for AIP. Officers serving in a period of obligated service associated with paragraph 7.2 are not eligible for AIP during that period of their obligated service.

7.3.2.2. In order to be eligible for AIP (or a pro rata portion thereof), for any nuclear service year, an officer must be qualified for duties in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants on 30 September.

7.3.3. Payment. Under 37 U.S.C. § 333(d)(1)(B), Nuclear Career AIP may not exceed $25,000 for each 12-month period of qualifying service. The current payment procedures and rates are contained in the governing regulation, OPNAVINST 7220.11J paragraph 10.c and enclosure 1 paragraph 1.d.

NOTE: An officer of the U.S. Navy who is not on AD on the last day of a nuclear service year may be paid AIP on a pro rata basis if otherwise qualified, unless termination of AD or loss of qualifications was voluntary or was the result of his own misconduct.

7.4 Prototype Shift Engineer Incentive Pay (SEIP)

7.4.1. Entitlement. The Secretary of the Navy may pay SEIP to nuclear-trained and nuclear-qualified officers who have completed their initial service requirement and remain on AD for a specified period while maintaining current technical qualifications, as approved by the Secretary, for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants.

7.4.2. Eligibility. Nuclear-trained submarine and surface warfare officers who meet the criteria defined in OPNAVINST 7220.11J, are eligible to receive SEIP while assigned to a

qualifying billet and qualified for duty in connection with the supervision, operation, and maintenance of naval nuclear propulsion plants.

7.4.3. Payment. Officers who meet the eligibility criteria for SEIP in OPNAVINST 7220.11J paragraph 11.a are eligible for SEIP at the start of their shift engineer tour. The payment procedures and monthly rate is specified in OPNAVINST 7220.11J, paragraph 11.b and enclosure 1 paragraph 1.e.

7.4.4. Repayment. An officer, who fails to commence or satisfactorily complete a shift engineer tour will be subject to the repayment provisions of 37 U.S.C. § 373 and Chapter 2. Specific exclusions from recoupment are listed in OPNAVINST 7220.11J.

8.0 COMMAND PAY

8.1 Purpose

Command pay is designed to recognize officers assigned as commanding officers in operational leadership positions of unusual responsibility which are of a critical nature to a Military Service. The Secretary concerned may designate positions under his or her jurisdiction that are authorized command pay.

8.2 Eligibility

Secretaries concerned will establish eligibility criteria based on Service-specific needs but will consider paygrade, level of responsibility, and the operational nature of the assignment.

8.3 Amount

Secretaries of the Military Departments concerned will establish monthly rates, but the amount of command pay per month will not exceed $150.

8.4 Restrictions

8.4.1. No more than 10 percent of the number of officers on AD in a Military Service in paygrades O-4 through O-6 may be paid command pay.

8.4.2. Command pay is not authorized for more than one officer per unit, except for the dates of assumption of and relief from command.

CHAPTER 5

HEALTH PROFESSIONS OFFICER (HPO) SPECIAL AND INCENTIVE PAY

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to establish policy pertaining to Health Professions Special and Incentive (HPS&I) Pay.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with, the ***DoD Instruction (DoDI) 6000.13***. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 PROVISIONS

Each HPS&I pay is in addition to any other pay or allowance to which an HPO is eligible except as specified in sections 3.0 through 8.0.

2.1 Consolidated Special Pays (CSP)

HPOs may be paid special pay at the rate for the specialty for which they are fully qualified. The specialty or subspecialty must be the same for all pays received. The HPO may only receive Incentive Pay (IP) and a Retention Bonus (RB) for one specialty, even if the HPO holds qualifications in two or more specialties. The IP and RB must be effective on the same date. The eligibility for each HPS&I pay is described in sections 3.0 through 8.0.

2.2 Restrictions

2.2.1. The amount of HPS&I pay is not included in computing the amount of any increase in pay or in computing retired, separation, severance, or readjustment pays.

2.2.2. An officer receiving a health profession bonus is not eligible to receive a payment pursuant to ***Title 37, United States Code (U.S.C.), section 332*** for the same period of obligated service.

2.2.3. An officer receiving health professions IP is not eligible to receive a payment pursuant to ***37 U.S.C. § 353*** for the same skill and period of service.

2.2.4. An officer receiving Board Certification Pay (BCP) is not eligible to receive a payment pursuant to 37 U.S.C. § 353(b) for the same skill and period of service covered by the certification.

2.3 Eligibility

To be eligible to participate in the CSP, an HPO must:

2.3.1. Not have reached the mandatory retirement or removal date due to age or years of service and complete any additional service obligation incurred before the individual's mandatory retirement or removal date, unless granted a waiver;

2.3.2. Have a current, valid, and unrestricted license or approved waiver;

2.3.3. Maintain all licensing, credentialing, and specialty qualifications;

2.3.4. Meet privileging requirements; and

2.3.5. Sign a service agreement indicating:

2.3.5.1. The amount of bonus or pay;

2.3.5.2. The method of payment of the bonus or pay;

2.3.5.3. The period of obligated service for the bonus or pay;

2.3.5.4. Whether the service will be performed on Active Duty (AD) or in active status in a Reserve Component (RC);

2.3.5.5. The type or conditions of the service; and

2.3.5.6. The circumstances that may result in termination of the agreement and repayment of any unearned portion of the bonus or pay if the officer fails to fulfill the conditions of the bonus or pay, to include an unfulfilled service obligation or eligibility requirement.

3.0 ACCESSION BONUS (AB)

3.1 Eligibility

To be eligible for an AB, an individual must:

3.1.1. Meet the eligibility criteria itemized in paragraph 2.3;

3.1.2. Be a graduate of an accredited school in a health profession;

3.1.3. Be qualified for an appointment as a commissioned officer in a regular or RC of a Uniformed Service (an individual must accept an appointment as an HPO before the bonus will be paid);

3.1.4. Execute a written agreement to accept an appointment as an HPO of the Army, Navy, or Air Force to serve on AD in a regular component or in an active status in a RC in a health profession for a specified period;

3.1.5. When appointed, have completed the service obligation for receipt of financial assistance from the DoD to pursue a course of study in a health profession. This includes, but is not limited to, participants and former participants of the:

3.1.5.1. Reserve Officers' Training Corps;

3.1.5.2. Armed Forces Health Professions Scholarship Program;

3.1.5.3. Financial Assistance Program;

3.1.5.4. Uniformed Services University of the Health Sciences; and

3.1.5.5. Other commissioning programs;

3.1.6. Have been honorably discharged or released from any prior service;

3.1.7. Be qualified in the specialty to which appointed; and

3.1.8. Have been discharged from any Uniformed Service at least 24 months before execution of the written agreement to receive an AB, and no longer hold an appointment, if a former HPO.

3.2 Amounts

AB amounts are listed in Table 5-1. For the most current rates, see the ***HPO AB*** table on DFAS.MIL.

4.0 CRITICALLY SHORT WARTIME SKILLS ACCESSION BONUS (CSWSAB)

4.1 Eligibility

To be eligible for CSWSAB, an individual must:

4.1.1. Meet the eligibility criteria itemized in subparagraphs 3.1.1 through 3.1.8;

4.1.2. Be fully qualified in the critically short wartime specialty to which appointed; and

4.1.3. Have been discharged from any Uniformed Service at least 24 months before execution of the written agreement to receive a CSWSAB, and no longer hold an appointment, if a former HPO.

4.2 Amounts

CSWSAB amounts are listed in Table 5-2. For the most current rates, see the ***CSWSAB*** table on DFAS.MIL.

5.0 BCP

5.1 Eligibility

5.1.1. HPOs must:

5.1.1.1. Meet the eligibility criteria itemized in paragraph 2.3;

5.1.1.2. Be serving in an Active Component (AC) or RC of a Military Service and entitled to basic pay under ***37 U.S.C. § 204*** or compensation pursuant to ***37 U.S.C. § 206***;

5.1.1.3. Be serving on AD or in an active Reserve status in a designated health professional clinical specialty;

5.1.1.4. Have a post-baccalaureate degree in a clinical specialty (a post master's certificate acceptable to the Secretary concerned can satisfy this requirement); and

5.1.1.5. Be certified by a professional board in a designated health profession clinical specialty.

5.1.2. All Officers, to include General/Flag officers at the rank of O-7 and above, are eligible for the BCP.

5.2 Amount

The annual amount payable is $8,000, to be prorated monthly.

6.0 IP

6.1 General Provisions

6.1.1. IP When Not Participating in an RB Agreement. Subject to acceptance by the Secretary concerned, an HPO who is eligible for and not in an existing RB agreement, and who is no longer obligated pursuant to a previous IP agreement, may enter into a new 1-year IP agreement at the rate in the HPS&I pay plan. IP agreements must be for at least 1 year and cannot be prorated. If, during the IP agreement, the HPO becomes eligible for a higher IP, the HPO may terminate and renegotiate at that higher rate, obligating for at least a year from the date of renegotiation.

6.1.2. IP When Participating in an RB Agreement. An HPO who enters into an RB contract may also be eligible for IP for the same specialty at the amount in the HPS&I pay plan. An HPO who elects this option will continue IP eligibility, at the rate in effect at the time the RB agreement is effective, for each active year of the RB contract. Any renegotiation of either the RB or IP will require signing a new RB contract at the annual rate in effect at the time of signature, with an obligation that ends after the obligation of the original agreement.

6.1.3. Effective Date. The effective date of the IP agreement will be calculated from the date the member completes the qualifying training plus 3 months.

6.2 Eligibility

6.2.1. To be eligible for IP, an HPO must be:

6.2.1.1. Serving in an AC or RC of a Military Service and entitled to basic pay under 37 U.S.C. § 204 or compensation pursuant to 37 U.S.C. § 206;

6.2.1.2. Serving on AD or in an active Reserve status in a designated health professional specialty; and

6.2.1.3. Eligible as prescribed in paragraph 2.3;

6.2.2. Medical Corps and Dental Corps Officers at the rank of O-7 and above are eligible for the HPO IP at the General Medical Officer (GMO) or General Dental Officer rate, respectively. All other General/Flag officers are authorized the HPO IP rate for their credentialed specialty.

6.3 Amounts

Annual payment amounts for IP contracts are listed in Tables 5-3 through 5-6 and paid in equal monthly payments. For the most current IP rates, see the ***Dental Corps BCP IP/RB***, ***Medical Corps BCP IP/RB***, ***Nurse Corps BCP IP/RB***, and ***Specialty IP/RB*** tables on DFAS.MIL.

7.0 RB

7.1 General Provisions

7.1.1. Subject to acceptance by the Secretary concerned, an HPO with an RB contract pursuant to ***37 U.S.C. Chapter 5, Subchapter II***, may request termination of that contract to enter into a new RB contract with an equal or longer obligation at the RB annual rate in effect at the time of execution of the new contract. The new obligation period will not retroactively cover any portion or period that was executed in accordance with the prior contract.

7.1.2. The Secretary concerned may pay an RB to HPOs based on their clinical specialty or subspecialty regardless of their ability to spend appropriate time in a clinical setting.

*7.2 Eligibility

The Secretary concerned may pay an RB to HPOs based on their clinical specialty or subspecialty regardless of their ability to spend appropriate time in a clinical setting. To be eligible for an RB, an HPO must:

7.2.1. Meet the eligibility criteria itemized in paragraph 2.3;

7.2.2. Have completed qualifications for the specialty or subspecialty for which the RB is being paid before the beginning of the fiscal year during which a written agreement is executed;

7.2.3. Enter into a written agreement, accepted by the Secretary concerned, to remain on AD or in an active status in an RC as an HPO for 2, 3, 4, or 6 years;

7.2.4. Be below the grade of O-7; and

7.2.5. Meet one of the following requirements:

7.2.5.1. Have completed any AD or reserve duty service commitment incurred for any and all pre-commissioning education and training; or

7.2.5.2. Have completed the service obligation for an AB (an individual eligible for an AB may decline the AB and accept the RB).

7.3 Amounts

Annual payment amounts for AC RB contracts are listed in Tables 5-3 through 5-6. For the most current AC RB rates, see the ***Dental Corps RC AB/RB***, ***Medical Corps RC AB/RB***, ***Nurse Corps RC AB/RB***, and ***Specialties RC AB/RB*** tables on DFAS.MIL.

8.0 RC

8.1 AB

8.1.1. To be eligible for an AB, a RC participant must:

8.1.1.1. Execute a written agreement to remain a satisfactory participant in the Selected Reserves (SELRES) in accordance with ***DoDI 1215.13***;

8.1.1.2. Be qualified in a critical skill identified on the RC HPS&I Pay Plan; and

8.1.1.3. Meet the provisions outlined in paragraphs 2.3 and 3.1.

NOTE: An HPO in the SELRES who transfers to the Individual Ready Reserve or Standby Ready Reserve is not eligible for payments and will have the special pay suspended during this period.

8.1.2. Payment amounts for RC AB contracts are listed in Tables 5-7 through 5-10. For the most current RC AB rates, see the Dental Corps RC AB/RB, Medical Corps RC AB/RB, Nurse Corps RC AB/RB, and Specialties RC AB/RB tables on DFAS.MIL.

8.2 Affiliation Bonus for RC (AFBRC)

8.2.1. Eligibility

To be eligible for an AFBRC, an HPO must:

8.2.1.1. Meet the eligibility criteria itemized in paragraph 2.3;

8.2.1.2. Be serving on AD, or have served on AD, and have a DoD (DD) Form 214, "Certificate of Release or Discharge from Active Duty," that verifies an honorable discharge or release;

8.2.1.3. Provide the original DD 214 (copy 1 or copy 4), or a reproduction with a certified true-copy stamp, and the appropriate Federal Government authenticating seal imprinted for each period of service;

8.2.1.4. Be qualified to hold an appointment as an HPO;

8.2.1.5. Be qualified in the specialty in which they agree to serve;

8.2.1.6. Execute a written agreement to serve 3 years in the SELRES; and

8.2.1.7. Not have previously received an AB in the SELRES, unless granted a waiver.

8.2.2. Amount

The Secretary concerned may pay an AFBRC up to $10,000 to eligible officers.

8.2.3. Restrictions

An officer receiving a health profession bonus is not eligible to receive a payment pursuant to 37 U.S.C. § 332 for the same period of obligated service.

8.3 BCP

8.3.1. Eligibility

An HPO must meet the provisions outlined in paragraph 5.1.

8.3.2. Payment

If eligible, a RC member will be paid at the daily rate of one-thirtieth of the BCP monthly rate as defined in paragraph 5.2 for any period in which the member is entitled to basic pay under 37 U.S.C. § 204 or compensation pursuant to 37 U.S.C. § 206.

8.4 IP

8.4.1. Eligibility

An HPO must meet the provisions outlined in paragraph 6.2.

8.4.2. Payment

If eligible, an RC member will be paid at the daily rate of one-thirtieth of the IP monthly rate for any period in which the member is entitled to basic pay under 37 U.S.C. § 204 or compensation pursuant to 37 U.S.C. § 206. See paragraph 6.3.

8.5 RB

8.5.1. Eligibility

To be eligible for an RB, an HPO must meet the provisions outlined in paragraph 7.1.

8.5.2. Payment

Payment amounts for RC RB contracts are listed in Tables 5-7, through 5-10. For the most current RC RB rates, see the Dental Corps RC AB/RB, Medical Corps RC AB/RB, Nurse Corps RC AB/RB, and Specialties RC AB/RB tables on DFAS.MIL.

9.0 TERMINATION

9.1 Reasons

The Secretary concerned may terminate, at any time, an HPO special pay agreement. The Secretary concerned will establish regulations that specify the conditions and procedures for termination, and they will be included in the written service agreement for the specific special pay. Reasons for termination may include, but are not necessarily limited to:

9.1.1. Loss of privileges;

9.1.2. Court-martial conviction;

9.1.3. Failure to maintain a current, valid, and unrestricted license or approved waiver; or

9.1.4. Reasons that are in the best interest of the Military Department.

9.2 Proration

If an agreement for one or more special pays is terminated, the HPO will be paid on a pro-rata basis for the portion served until the official date of termination.

9.3 Repayment

An HPO who fails to maintain the eligibility requirements for a special pay, does not complete the obligation period for the pay, or whose pay is terminated by the Secretary concerned, as described in paragraph 8.1, will be subject to the repayment provisions of ***37 U.S.C. § 373*** and Chapter 2. These repayment authorities will be stipulated in the written service agreement.

9.4 Reinstatement

If an HPO's special pay is terminated due to failure to maintain a valid license, the member can become eligible for special pays again. Once the HPO's license is reinstated and eligibility is re-established, the HPO may negotiate new contractual special pay agreements. Regardless of whether the HPO receives special pays, the HPO will be held responsible for the original contracted special pay service obligation until completed or until involuntary separation from military service occurs.

9.5 Duration of Authority

Unless reauthorized by Congress, a special pay or incentive pay set forth in this chapter may not be paid for service provided after the date listed on the ***Duration of Authority table*** unless a written agreement for the special pay or incentive pay was entered into prior to the date on the table.

*Table 5-1. AB Effective October 1, 2024
For the most current rates, see the Health Professions AB table on DFAS.MIL.

NURSE	AB 3-Year Obligation	AB 4-Year Obligation
Any Specialty	$30,000	$50,000

Urology	$51,000	$20,000	$30,000	$55,000	N/A

NOTES:

1. GMO aerospace medicine training: Physicians who have completed the AMP courses.
2. Physicians who are trained in a primary specialty and have completed the AMP Course (AMP, United States Air Force) or Undersea Medical Officer Training (United States Navy) are eligible for a $3,000 increase in IP and RB above their primary specialty rates.
3. The annual IP amount for the 4-year Neurosurgery retention agreement is $80,000.
4. Physicians who are trained in a primary specialty and have completed RAM are eligible for a $5,000 increase in IP and RB above their primary specialty rates.
5. Requires primary specialty in General Surgery or as listed:
   a. Cardio Thoracic Surgery;
   b. Colon Rectal Surgery;
   c. Fellowship trained Orthopedic Surgeons;
   d. Oncology Surgery;
   e. Organ Transplant;

Table 5-4. Medical Corps IP and RB (Continued)

f. Pediatric Surgery;
g. Plastic Surgery;
h. Trauma/Critical Care Surgery; or
i. Vascular Surgery.

6. Internal medicine nuclear medicine physicians only.
7. All internal medicine/pediatric fellowship-trained subspecialties not listed separately.
8. All family medicine fellowship trained subspecialties.
9. Physicians who are fellowship trained in:
   a Ophthalmology;
   b. Otolaryngology;
   c. Obstetrics/gynecology; and
   d. Urology.

NOTES:

1. For the most current rates, see the Medical Corps IP and RB table on DFAS.MIL. These amounts are the maximum allowed by the Department of Defense. For service specific amount consult with your personnel office.
2. GMO Aerospace Medicine Training: Physicians who have completed the Aerospace Medicine Primary courses.
3. GMO Undersea Medicine Training: Physicians who have completed the Undersea Medicine Officer courses.
4. Physicians who are trained in a primary specialty and have completed the Aerospace Medicine Primary Course (AMP, USAF) or Undersea Medical Officer Training (USN) are eligible for a $3,000 increase in Incentive Pay and Retention Bonus above their primary specialty rates.
5. The annual IP amounts for Neurosurgery are $102,000 for a four-year retention agreement and $120,000 for a six-year retention agreement.
6. Physicians who are residency-trained in a specialty other than RAM, who have also completed RAM, are eligible for a $5,000 increase in both IP and RB above their non-RAM specialty rates.

Table 5-4A. Medical Corps IP and RB Effective October 1, 2025 (Continued)
NOTES (Continued):

7. Requires primary specialty in General Surgery or as listed:
   a. Cardio Thoracic Surgery;
   b. Colorectal Surgery;
   c. Fellowship trained Orthopedic Surgeons;
   d. Oncology Surgery;
   e. Organ Transplant;
   f. Pediatric Surgery;
   g. Plastic Surgery;
   h. Trauma/Critical Care Surgery; or
   i. Vascular Surgery.
8. Internal Medicine and Nuclear medicine physicians only.
9. All Internal Medicine/Pediatric fellowship-trained subspecialties not listed separately.
10. All Family Medicine fellowship trained subspecialties.
11. Physicians who are trained in:
   a Ophthalmology;
   b. Otolaryngology;
   c. Obstetrics/Gynecology; and
   d. Urology.

CHAPTER 8

SPECIAL PAY - SPECIAL DUTY ASSIGNMENT PAY

1.0 GENERAL

1.1 Purpose

Special Duty Assignment Pay (SDAP) may be awarded to Service members for the performance of duty in an assignment, location, or unit designated, where the assigned duties are determined to be extremely demanding, involving an unusual degree of responsibility or difficulty, or requiring special qualifications.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), Title 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 SDAP

2.1 Eligibility

The Secretaries of the Military Departments concerned will establish eligibility criteria based on Service-specific needs and will consider paygrade, level of responsibility, and the operational nature of the assignment.

2.1.1. Army. See the Army SDAP message ALARACT 084/2021 – Corrected Fiscal Year 2022 SDAP Biennial Review Results, October 22, 2021.

2.1.2. Navy. See Chief of Naval Operations Instructions ***(OPNAVINST) 1160.6C***.

2.1.3. Air Force and Space Force. See Air Force Instruction ***(AFI) 36-3012***.

2.1.4. Marine Corps. See Marine Corps Order ***(MCO) 7220.12R***.

2.2 Additional Guidelines

2.2.1. The Secretary of the Military Department may pay a special duty pay to a member of the Active or Reserve Component of the Uniformed Service who:

2.2.1.1. Is entitled to basic pay under ***37 U.S.C. § 204***, or compensation under ***37 U.S.C. § 206***; and

2.2.1.2. Performs duties in an assignment, location, or unit designated, and under the conditions of service specified by the Secretary concerned.

2.2.2. SDAP will be in addition to any other pay or allowances a Service member may be receiving, except where otherwise stated.

2.2.3. Awarding new agreements for assignment and special duty pays under 37 U.S.C., Chapter 5, Subchapter I, was discontinued after October 1, 2017. Existing agreements under 37 U.S.C., Chapter 5, Subchapter I, will remain in effect and payments may continue through the agreed-upon date.

2.3 Restrictions

2.3.1. A member of a Reserve Component entitled to pay under 37 U.S.C. § 206 and authorized for special duty pay may be paid an amount of SDAP that is proportionate to the compensation received by the member for inactive duty training. The member may be awarded an amount at $1/30^{th}$ of the prescribed monthly rate of the special duty pay for the performance of each authorized period of inactive duty training with pay.

2.3.2. The Secretary of the Military Department concerned may increase, decrease, or abolish SDAP for any skill or assignment at any time and will establish restrictions and limitations to the pay through Service regulations.

2.3.3. Assignment and special duty pays are not to be continuous in nature and should be for a specified period. However, back-to-back assignment and special duty pays are authorized as long as the Service member continues to meet Service regulations and perform duties in assignments designated for the pay.

2.3.4. A member may receive multiple assignment and special duty pays. However, a Service member may not receive multiple pays for the same purpose and period of service.

2.4 Amount

2.4.1. Assignment and special duty pays may be paid in monthly, installment, or lump sum amounts, but may not exceed the amount listed in subparagraph 2.4.2. The combination of assignment and special duty pays may not exceed an average monthly amount of $3,500, unless otherwise authorized by the Assistant Secretary of Defense for Manpower and Reserve Affairs.

2.4.2. The Secretaries of the Military Departments concerned will establish monthly rates, but the maximum amount of SDAP per month will not exceed $750.

2.5 Repayment

A member who receives SDAP in accordance with ***37 U.S.C. § 352***, and fails to fulfill the eligibility requirements for receipt of such pay, will be subject to the repayment provisions of ***37 U.S.C. § 373***.

3.0 ENTITLEMENT

3.1 Service Designations

Designations of military specialties and assignments for SDAP are in the applicable regulations of the Military Service concerned.

3.2 Written Agreement

3.2.1. Discretionary for Monthly Payments. The Secretary of the Military Department concerned may require a Service member to enter into a written agreement with the Secretary in order to qualify for the payment of assignment pay or special duty pay on a monthly basis. If used, the written agreement will specify the period for which the assignment pay, or special duty pay will be paid and the monthly rate.

3.2.2. Non-discretionary for Installment or Lump Sum Payments. The Secretary of the Military Department concerned will require a Service member to enter into a written agreement with the Secretary in order to qualify for installment or lump sum payments of assignment pay or special duty pay. The written agreement will specify the period for which the Service member will receive assignment pay or special duty pay, the amount of each periodic installment or lump sum, and the repayment policy under paragraph 2.5.

4.0 CONDITIONS OF ENTITLEMENT

4.1 Effect of SDAP on Other Computations

SDAP is not used in the computation for an enlistment bonus, severance pay, separation pay, or cash settlement of accrued leave.

4.2 Tax

SDAP is subject to withholding of income tax, but not subject to withholding of Federal Insurance Contributions Act taxes.

4.3 Duration of Authority

Unless reauthorized by Congress, SDAP may not be paid for service provided after the date listed on the ***Duration of Authority*** table for SDAP unless an SDAP agreement was entered into prior to the date on the table.

CHAPTER 9

ACTIVE-DUTY ENLISTED MEMBERS ENLISTMENT, REENLISTMENT AND RETENTION BONUSES

1.0 GENERAL

1.1 Purpose

This chapter establishes DoD policy guidance pertaining to active-duty enlistment, reenlistment, and retention bonuses.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code (U.S.C.), section 331 (***37 U.S.C. § 331***). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

1.3 Repayment

1.3.1 For each of the bonuses described in this chapter, a member who does not complete the agreed term of service or who does not otherwise meet the conditions of service for the bonus will be subject to the repayment provisions of Chapter 2.

1.3.2. A member who is discharged 12 months or less before the expiration of enlistment or extension of enlistment in accordance with ***10 U.S.C. § 1171*** may be considered to have completed the terms of enlistment or extension of enlistment for which the bonus was paid. For all other early discharges, the Military Departments will determine and advise when repayment is not required.

1.4 Duration of Authority

Unless reauthorized by Congress, no bonus described in this chapter may be paid for service provided after the date listed on the ***Duration of Authority*** table for that bonus unless an agreement was entered into prior to the date on the table.

2.0 ENLISTMENT BONUS

2.1 Eligibility

An enlistment bonus is authorized for individuals who enlist in a Military Service for a specific period and, if applicable, for service in a military skill that is experiencing critical personnel shortages as designated by the Secretary of the Military Department concerned. The individual must meet the qualifications listed in subparagraphs 2.1.1 through 2.1.8:

2.1.1. Possess a high school diploma, a completion or attendance certificate in lieu of a high school diploma, or a General Educational Development program certificate;

2.1.2. The individual must be an initial enlistee who enlists in a Regular Component of the Military Service. An initial enlistee is a person who has either never served or has served and was released from such service before completing the basic training requirements of the Service of which the person was a member, and the service was characterized as either honorable or uncharacterized;

2.1.3. Enlist for at least 2 years or extend an initial period of obligated service to a total of at least 2 years in a Regular Component of a Military Service and serve for a specified period of obligated service in at least one of the following categories:

2.1.3.1. A designated military skill,

2.1.3.2. Career field,

2.1.3.3. Unit,

2.1.3.4. Grade, or

2.1.3.5. Other condition or conditions imposed by the Under Secretary of Defense (Personnel and Readiness) (USD (P&R)) or the Secretary of the Military Department concerned;

2.1.4. Execute a written agreement with the Secretary of the Military Department concerned that specifies the:

2.1.4.1. Amount of the bonus;

2.1.4.2. Method of bonus payment - lump sum amount or periodic installments;

2.1.4.3. Period of obligated service; and

2.1.4.4. Designated military skill or specialty, career field, unit, grade, or such other condition or conditions of service imposed by the Secretary of the Military Department concerned;

2.1.5. Not have previously received an enlistment bonus, a retention bonus, an affiliation bonus, or a transfer bonus for the same period of service;

2.1.6. Not have previously received and not be eligible to receive a Selective Retention Bonus (SRB) under section 3.0 or a Critical Skill Retention Bonus (CSRB) under section 4.0;

2.1.7. Successfully complete training and become technically qualified in a designated skill if completion of such training and technical qualification forms the basis under which the bonus is paid; and

2.1.8. Meet any additional military service specific eligibility criteria and quality standards established by the Secretary of the Military Department concerned.

*2.2 Amount

The Secretary of the Military Department concerned will determine the amount of the enlistment bonus awarded for a designated military skill. The bonus payment for a designated military skill or cumulative amount of enlistment bonuses to any individual is not to exceed $75,000 for a minimum 2-year service obligation. This amount is authorized from January 11, 2024, to January 10, 2027.

2.3 Computation

The Secretaries of the Military Departments are required to establish rules of computation for enlistment bonuses.

2.4 Method of Payment

2.4.1. The bonus may be paid either in periodic installments or a single lump sum. The timing of the initial payment is at the discretion of the Secretary of the Military Department concerned, except that it must not be paid before the member completes basic recruit training. For individuals enlisted for specialties requiring formal training, the Service concerned may withhold the initial payment until the individual completes the training and qualifies in the military skill, so the bonus serves as an incentive to complete the training needed to qualify in the skill.

2.4.2. If paid in installments, after the initial payment, the remainder of the bonus must be paid in equal, periodic installments.

3.0 SRB

3.1 Eligibility

The Secretary of the Military Department concerned may designate a unit, grade, or impose such other condition or conditions of service with respect to the SRB, as determined necessary to mitigate a significant current or projected personnel shortage or changing force structure requirements. An SRB based on unit, grade, or such other condition or conditions of service are subject to USD (P&R) approval. The member must:

3.1.1. Serve in a pay grade E-3 or higher;

3.1.2. Reenlist for a period of at least 3 years or voluntarily extend an enlistment for a period of at least 1 year on active duty;

3.1.3. Execute a written agreement with the Secretary of the Military Department concerned that specifies the:

3.1.3.1. Amount of the bonus;

3.1.3.2. Method of bonus payment - lump sum amount or periodic installments;

3.1.3.3. Period of obligated service; and

3.1.3.4. Designated military skill, career field, unit, or grade, or such other condition or conditions of service imposed by the Secretary of the Military Department concerned;

3.1.4. Agree to serve for a specified period in at least one of the following reenlistment or extension categories:

3.1.4.1. A designated military skill,

3.1.4.2. Career field,

3.1.4.3. Unit,

3.1.4.4. Grade, or

3.1.4.5. Other condition or conditions imposed by the Secretary of the Military Department concerned;

3.1.5. Meet skill qualification prior to payment of the SRB for a member transferring into a designated military skill;

3.1.6. Qualify under any additional eligibility criteria prescribed by the Secretary of the Military Department concerned;

3.1.7. Not be in receipt of an enlistment bonus, a retention bonus, an affiliation bonus, or a transfer bonus for the same period of service; and

3.1.8. In addition to the eligibility requirements in subparagraphs 3.1.1 through 3.1.7, an enlisted service member serving under an indefinite reenlistment must:

3.1.8.1. Be in the pay grade of E-5 or above;

3.1.8.2. Have 10 or more years of military service; and

3.1.8.3. Sign an agreement to remain on active duty for a period of at least 3 years.

3.2 Limitations

3.2.1. A re-entry or reenlistment must occur no later than 3 months (or within a lesser period if so prescribed by the Secretary of the Military Department concerned) after the date of discharge or release from active duty.

3.2.2. Veterans with more than a 3-month but less than a 4-year break in active duty may qualify for a broken service, or a prior service re-entry, SRB program in accordance with regulations prescribed by the Secretary of the Military Department concerned.

3.2.3. Re-enlistees reentering active duty must provide documentation of a break in active-duty service greater than 24 hours. Acceptable documentation of the break in service includes the original DoD (DD) Form 214, Certificate of Release or Discharge from Active Duty, (copy 1 or copy 4) or a reproduction of the DD 214, with a certified true-copy stamp and appropriate Federal Government authenticating seal imprinted thereon, or other official documentation verifying the member's satisfactory participation for all periods of prior service. The 24-hour period begins on the day following the date of discharge or separation.

3.2.4. Members with prior enlisted service and subsequent service as an officer, who were discharged or released from active duty and who, within 3 months after discharge or release from active duty as an officer, reenlist in the same Regular Component of a Military Service in which they previously served as an enlisted member may be eligible for an SRB. The individual must meet all other requirements established in paragraphs 3.1 and 3.2.

3.2.5. Service members may be eligible for an SRB if they extend their existing service obligation for a minimum of 12 months.

3.2.6. Members who reenlist or voluntarily extend an enlistment to obtain sufficient obligated service to participate in a program leading to commissioned or warrant officer status are not eligible for an SRB.

3.2.7. A member is not eligible for an SRB if the member was discharged or released from active duty or service in an active status based upon a determination of misconduct, substandard duty performance, or moral or professional dereliction.

3.2.8. An SRB may be paid to an enlisted member up to 28 years of active duty or service The Deputy Assistant Secretary of Defense for Military Personnel Policy may waive this restriction based upon a request and justification submitted by the Secretary of the Military Department concerned.

3.2.9. Generally, a member may not use any preexisting period of obligated service to satisfy an obligated service requirement under an SRB agreement, unless such service is determined by the Secretary of the Military Department concerned to be consistent with the requirements of ***37 U.S.C. § 371***; and

3.2.9.1. Such preexisting period of obligated service is necessary for the member to qualify for continuous submarine duty incentive pay and is service for which no bonus was previously authorized or payable; or

3.2.9.2. Such preexisting period of obligated service includes no more than a 2-year period of an unserved voluntary extension of enlistment for which no bonus was previously

authorized or payable, and the member agrees to an additional 2-year period of obligated service in connection with the SRB.

*3.3 Amount

The SRB may not exceed $30,000 for each year of obligated service in a Regular Component. The maximum amount for an SRB is $180,000. The statutory limit was increased to $50,000 for each year of obligated service. However, pursuant to DoD policy, the SRB amount is limited to $30,000 for each obligated year of service.

3.3.1. The Secretary of the Military Department concerned must determine the amount of the SRB based on a business case model that targets the retention of adequate levels of enlisted personnel in a reenlistment or extension category.

3.3.2. Members may receive more than one SRB for a career, but the total combined SRB payments over a career must not exceed $360,000.

3.3.3. SRB amounts may be prorated for extension requests greater than one year and reenlistments greater than 3 years. The additional service time will be calculated on a monthly basis at a rate equal to 1/12th the annual amount.

3.4 Computation

The Secretaries of the Military Departments are required to establish and publish the rules for computing the SRB.

3.5 Method of Payment

The bonus may be paid either in periodic installments or a single lump sum. If the Secretary of the Military Department concerned elects to pay SRBs in installments:

3.5.1. The installment amount will be at the discretion of the Secretary of the Military Department concerned, and may be paid at the time of reenlistment, or at the beginning of the member's service commitment for the voluntary extension of enlistment. All payments must be made before the member completes a total of 28 years of service.

3.5.2. An initial installment to a member who reenlists after a break in active-duty service greater than 24 hours is to be made no earlier than 30 days after arrival at the first permanent duty station following reenlistment.

3.5.3. Where there is lost time, the subsequent installment payments will be delayed by the number of days of lost time.

3.5.4. Discharge for the purpose of immediate reenlistment does not affect a member's entitlement to subsequent SRB installment payments.

3.6 Additional Obligated Service

Additional obligated service is defined as any active service commitment beyond an existing contractual service agreement. Existing contractual service agreements include enlistments, extensions of enlistment, and reenlistments.

3.7 Changes and Termination of Awards

3.7.1. The Military Departments will notify USD (P&R) of any changes to a Military Department's SRB guidance under the enlisted bonus program. The Secretary of the Military Department concerned will issue an announcement that fully describes the change along with an effective date. The amount of the SRB offered after the date of such change may not exceed that authorized under 37 U.S.C. § 331(c).

3.7.2. Members agreeing to retrain and reenlist for a different specialty may be paid a bonus in the amount offered at the time of the agreement or upon completion of the training, whichever is greater. If after completion of the training a bonus is no longer offered for the skill, the bonus amount at the time of the agreement will be awarded to the Service member.

4.0 CSRB

4.1 Eligibility

An enlisted member of the Armed Forces, who is serving on active duty in a Regular Component and is qualified in a critical military skill designated by the Secretary of Defense, may be paid a retention bonus as provided in this section, if the member is not serving on an indefinite enlistment and reenlists or voluntarily extends the enlistment for at least 1 year.

4.2 Limitations

4.2.1. A retention bonus may not be given under paragraph 4.1 to a member of the Armed Forces who has completed more than 25 years of active duty or who will complete the 25th year before the end of the period of active duty or active status for which the bonus is offered. This limitation does not apply with respect to a member who is qualified in a skill related to special operations forces.

4.2.2. The USD (P&R) or the Principal Deputy, USD (PDUSD) (P&R) may waive the 25-year service limitation on eligibility with respect to a member who, during a period of active duty or service in an active status in a Reserve Component for which the bonus is being offered, is assigned duties in a skill designated as critical.

4.2.3. CSRB payments may not be made before the start of the active-duty service period for which the CSRB is being awarded, unless specifically authorized by the PDUSD (P&R).

4.3 Amount

4.3.1. A member may enter into an agreement, reenlist, or voluntarily extend enlistment more than once in order to receive a bonus under this section. However, a member may not receive a total of more than $200,000 in payments under this section.

4.3.2. A CSRB amount may not exceed $30,000, annually unless PDUSD (P&R) has granted an exception.

NOTE: The combined total of CSRB and Selective Reenlistment Bonus, in accordance with, ***DoD Directive (DoDD) 1304.21***, Policy on Enlistment Bonuses, Accession Bonuses for New Officers In Critical Skills, Selective Reenlistment Bonuses, and Critical Skills Retention Bonuses for Active Members, during an individual's career, shall not exceed $200,000, unless the PDUSD (P&R) authorizes it for the skill concerned as an exception to policy.

4.4 Method of Payment

A bonus under this section may be paid in a single lump sum or periodic installments.

5.0 PRIOR SERVICE REENLISTMENT BONUS

5.1 Eligibility

The Secretary of the Military Department concerned may pay an individual who reenlists in a regular component of a military service after a break in active duty. An individual must:

5.1.1. Not have previously received, or currently be entitled to, and SRB under section 3.0; or a CSRB under section 4.0;

5.1.2. Not have more than 16 years of total military service and have received an honorable discharge at the conclusion of all previous periods of service;

5.1.3. Not have been released, or currently be released, from active duty for the purpose of enlistment in a Reserve Component;

5.1.4. Provide either:

5.1.4.1. The original DD Form 214 (copy 1 or copy 4);

5.1.4.2. A reproduction of the DD Form 214 with a certified true-copy stamp and the appropriate Federal Government authenticating seal imprinted on the reproduction for any period of previous military service; or

5.1.4.3. Other official documentation verifying member's satisfactory participation for all periods of previous service in the Active Component and Selected Reserve;

5.1.5. Successfully complete any additional training or re-training required to become technically qualified in a designated critical skill for which the member is projected to occupy;

5.1.6. Reenlist for at least 3 years; and

5.1.7. Execute an agreement to serve as an enlisted member in the Regular or Reserve Component of a Military Service for a period of not less than 3 years upon acceptance of the agreement by the Secretary of the Military Department concerned that specifies the:

5.1.7.1. Amount of the bonus;

5.1.7.2. Method of bonus payment - lump sum amount or periodic installments;

5.1.7.3. Period of obligated service; and

5.1.7.4. Designated:

5.1.7.4.1. Military skill or specialty;

5.1.7.4.2. Career field;

5.1.7.4.3. Unit;

5.1.7.4.4. Grade; or

5.1.7.4.5. Such other condition or conditions of service imposed by the Secretary of the Military Department concerned.

5.2 Amount

The Prior Service Reenlistment Bonus amount must not exceed $20,000 for each year of obligated service in a Regular Component.

5.3 Method of Payment

5.3.1. The Secretary of the Military Department concerned must establish a method of payment for the bonus (lump sum or periodic installments). Payment should be disbursed based on training milestones, amounts, and length of enlistment. The Secretary of the Military Department concerned must not pay a person or member any portion of the bonus prior to completion of training.

5.3.2. Members already technically qualified in the skill for which the bonus is being paid will receive their first installment no earlier than 30 days after arrival at the first permanent duty station. The 30 days will start following entry into a Regular Component.

6.0 CONVERSION BONUS

6.1 Eligibility

The Secretary of the Military Department concerned may pay a conversion bonus to a member of the Armed Forces who executes a written agreement to convert to, and serve for, a period of not less than three years in, a designated military skill for which there is a shortage of trained and qualified personnel. The member must:

6.1.1. At the time the agreement is executed, be serving in a pay grade E-6 or below, with no more than 12 years of service as computed in accordance with ***37 U.S.C. § 205***.

6.1.2. Have completed all service obligations incurred for receipt of an enlistment bonus as prescribed in section 2.0, a retention bonus as prescribed in section 3.0, or CSRB as prescribed in section 4.0;

6.1.3. Meet all eligibility requirements prescribed in section 2.1;

6.1.4. Extend the existing enlistment contract to qualify for the bonus if he or she has less than 3 years of active duty or duty in an active status in the Selected Reserve.

6.1.5. Execute a written agreement with the Secretary of the Military Department concerned that specifies the:

6.1.5.1. Amount of the bonus;

6.1.5.2. Method of bonus payment - lump sum amount or periodic installments;

6.1.5.3. Period of obligated service; and

6.1.5.4. Designated military skill, career field, unit, grade, or such other condition or conditions of service imposed by the Secretary of the Military Department concerned; and

6.1.6. Not be in receipt of an enlistment bonus, a retention bonus, an affiliation bonus, or a transfer bonus for the same period of service.

6.2 Amount

The bonus payment will not exceed $10,000.

6.3 Method of Payment

6.3.1. The conversion bonus may be paid in a lump sum or periodic installments.

6.3.2. The Secretary of the Military Department concerned must not pay a member any portion of the bonus before completion of the conversion training.

7.0 BONUS FOR TRANSFER BETWEEN MILITARY SERVICES

7.1 Eligibility

The Secretary of the gaining Military Department may pay a bonus to an enlisted member who agrees to transfer and serve in another Military Service, for a specified period in a designated military skill, career field, unit, grade, or to meet some other condition or conditions imposed by the Secretary of the gaining Military Department. The member must:

7.1.1. Execute a written agreement with the Secretary of the Military Department concerned that specifies the:

7.1.1.1. Amount of the bonus;

7.1.1.2. Method of bonus payment - lump sum amount or periodic installments;

7.1.1.3. Period of obligated service, which must be for a minimum 3-year period; and

7.1.1.4. Designated military skill, career field, unit, grade, or such other condition or conditions of service imposed by the Secretary of the Military Department concerned;

7.1.2. Agree to serve for a specified period in at least one of the following reenlistment or extension categories:

7.1.2.1. A designated military skill,

7.1.2.2. Career field,

7.1.2.3. Unit,

7.1.2.4. Grade, or

7.1.2.5. Other condition or conditions imposed by the Secretary of the Military Department concerned;

7.1.3. Have satisfactorily completed any term of enlistment in a Military Service;

7.1.4. Qualify for reenlistment in the Regular Component of the Military Service to which the member is transferring;

7.1.5. Prior to the transfer, fulfill the requirements established by the Secretary with jurisdiction over the Military Service to which the member is transferring;

7.1.6. Not be in receipt of an enlistment bonus, retention bonus, an affiliation bonus, or a transfer bonus for the same period of service;

7.1.7. Not be in receipt of separation pay in accordance with 10 U.S.C. Chapter 59; and

7.1.8. Meet any additional military service specific eligibility criteria and quality standards established by the Secretary of the Military Department to which the member is transferring.

7.2 Amount and Method of Payment

The Secretary of the gaining Military Department may pay the transfer bonus in one $10,000 lump sum amount upon approval of the transfer by the Secretary of that Military Department. Alternatively, the bonus may be paid in annual installments, the total of which may not exceed $10,000.

8.0 BONUS FOR TRANSFER BETWEEN COMPONENTS OF A MILITARY SERVICE

8.1 Eligibility

The Secretary of the Military Department concerned may pay a bonus to an enlisted member who agrees to transfer from the Regular Component to the Ready Reserve or vice versa of the same service. The member must:

8.1.1. Execute a written agreement with the Secretary of the Military Department concerned that specifies the:

8.1.1.1. Amount of the bonus;

8.1.1.2. Method of bonus payment - lump sum amount or periodic installments;

8.1.1.3. Period of obligated service; and

8.1.1.4. Designated military skill, career field, unit, grade, or such other condition or conditions of service imposed by the Secretary of the Military Department concerned;

8.1.2. Agree to serve for a specified period in at least one of the following reenlistment or extension categories:

8.1.2.1. A designated military skill,

8.1.2.2. Career field,

8.1.2.3. Unit,

8.1.2.4. Grade, or

8.1.2.5. Other condition or conditions imposed by the Secretary of the Military Department concerned;

8.1.3. Not be in receipt of an enlistment bonus, retention bonus, an affiliation bonus, or a transfer bonus for the same period of service;

8.1.4. Have satisfactorily completed all terms of enlistment within their current component;

8.1.5. Qualify for reenlistment in the Regular Component of the Military Service to which the member is transferring;

8.1.6. Agree to remain in the component for which the transfer bonus is offered for a minimum 2-year period;

8.1.7. Have fewer than 15 years of active service time; and

8.1.8. Meet any additional military service specific eligibility criteria and quality standards established by the Secretary of the Military Department concerned.

8.2 Amount and Method of Payment

The Secretary of the Military Department concerned must establish the amount and method of payment for the bonus (lump sum or periodic installments). The bonus for transfer between components of a Military Service may not exceed $10,000 and is payable upon approval of the Secretary concerned.

CHAPTER 10

SPECIAL PAY - DUTY SUBJECT TO HOSTILE FIRE OR IMMINENT DANGER

1.0 GENERAL

1.1 Purpose

This chapter establishes DoD policy for payment of Hostile Fire Pay (HFP) and Imminent Danger Pay (IDP) and lists the areas where members are authorized to receive these entitlements.

1.2 Authoritative Guidance

The HFP and IDP policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code, section 351 (***37 U.S.C. § 351***). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ENTITLEMENT PROVISIONS

2.1 Policy

A member may be paid special pay for duty subject to hostile fire or imminent danger for any month when the member, while entitled to basic pay for active duty or compensation for inactive duty, also meets the qualifying criteria of this chapter. A member is not authorized to receive concurrent payments for hostile fire and imminent danger duty.

2.1.1. HFP. This entitlement is paid at the rate of $225 per month when, as certified by the appropriate commander, a member is subjected to hostile fire, explosion of hostile mines, or other hostile action (a hostile fire event) and who:

2.1.1.1. Performs duty in a hostile fire area;

2.1.1.2. Is exposed to a hostile fire event;

2.1.1.3. Is on duty during a month in an area in which a hostile event occurred that placed the member in grave danger of physical injury; or

2.1.1.4. Is killed, injured, or wounded by a hostile fire event.

2.1.2. IDP. This entitlement is paid on a daily prorated basis, not to exceed $225 per month, when a member is on official duty in a designated IDP area. IDP may be paid to a service member who is subject to the threat of physical harm or imminent danger based on civil insurrection, civil war, terrorism, or wartime conditions in a designated foreign area. See Table 10-1, or for the most current listings ***Imminent Danger Pay*** table on DFAS.MIL.

2.2 Payment

IDP is payable on a prorated daily basis not to exceed a monthly rate of $225. It is payable in addition to all other pays or allowances, except when receiving HFP, as stated in paragraph 2.1. The proration does not apply to the 31st of a month for Active and Reserve component members who are on active duty for 30 days or more. HFP will not be prorated. Members will receive the maximum monthly rate of special pay for the month in which the hostile fire or hostile fire mine explosion event occurred. Payment will be made for the full month, if a member is exposed to hostile fire or a hostile mine explosion on the 31st day of a month, and the member has not already received credit for the full monthly allowance. The following examples for payment on the 31st are provided:

Example 1: A member on active duty for more than 30 days in an IDP area for the period March 31 through April 29 will receive IDP only for the period April 1 through 29.

Example 2: A member on active duty for more than 30 days in an IDP area for the period March 31 through April 29, and who is exposed to hostile fire or a hostile mine explosion on March 31, will be entitled to HFP for the entire month of March and IDP for the period April 1 through 29.

Example 3: A member on active duty for less than 30 days in an IDP area for the period March 29 through April 20 will be entitled to IDP for the period March 29 through 31 and April 1 through 20 for a total of 23 days.

Example 4: A member on active duty for less than 30 days in an IDP area for the period March 29 through April 20, and who is exposed to hostile fire or a hostile mine explosion on March 31, will be entitled to the full monthly amount of HFP of $225 for the month of March, and daily IDP for the period April 1 through 20.

3.0 DETERMINATIONS OF FACT

3.1 Eligibility – HFP

The appropriate commander will certify that the member has met the requirements for entitlement to HFP for a given month. A death certificate or injury report may be substituted in place of the certification, if the document establishes the cause of the death or injury was due to hostile fire or a hostile fire event.

3.1.1. Certification of entitlement will be made at the lowest level of command that includes all the vessels, aircraft, or units subjected to the hostile fire or explosion of hostile mine incident. For example, in the case of a single vessel subjected to hostile fire or explosion of hostile mines, the vessel's commanding officer should certify payment eligibility for all members on board. If two or more vessels are involved, then the commanding officer of the unit that includes all of the vessels should certify eligibility.

3.1.2. Certification will include the name and appropriate payroll identification number of each member entitled to the HFP, a brief description of the incident, and when and where it occurred. The certification should be forwarded directly to the servicing financial support office, via the geographic Combatant Commander exercising operational control over the Service member(s) at the time of the hostile fire event.

3.2 Eligibility – IDP

3.2.1. When the airspace is specifically included in an IDP area designation, members who perform official duty while flying over the area are eligible for IDP, even if they do not land in the area. When airspace is not specifically designated, members who perform duty over the area are not entitled to IDP unless they land in the area.

3.2.2. A member who performs duty on a vessel performing operational duty while in an area designated for IDP is eligible for IDP payments.

3.2.3. A member is not considered to be on official duty in a designated IDP area, and therefore, is not eligible for IDP pay, if the member is in the area:

3.2.3.1. While on leave from a duty station outside the IDP area, even if the outside location is another IDP area;

3.2.3.2. While merely transiting (as distinguished from performing official duty) by any means (including vessel, aircraft, and land conveyance) through the IDP area as a consequence of traveling between two points, both outside the IDP area; or

3.2.3.3. Solely for personal convenience.

3.3 Administration

Any determinations of fact made by commanders in the certification of hostile fire are conclusive. Such determinations are not subject to review by any officer or agency of the government, unless there has been fraud or gross negligence. Such determinations, however, may be changed based on new evidence or for other good cause.

4.0 SPECIAL SITUATIONS

4.1 Member Captured or Missing

A member entitled to HFP and/or IDP immediately before entering a status of missing, missing-in-action, interned in a foreign country or captured by a hostile force will continue to be credited with HFP and/or IDP for each month while in such a status. See Chapter 34 for additional information.

4.2 Hospitalization

A member entitled to HFP and/or IDP who in the line of duty incurs a wound, injury or illness while serving in a combat operation or a combat zone; while serving in a hostile fire area; or while exposed to a hostile fire event (regardless of location), and who is hospitalized for the treatment of such a wound, injury, or illness, may continue to receive HFP and/or IDP. Members may be paid HFP and/or IDP for up to 12 months from the date of hospitalization under the Pay and Allowance Continuation (PAC) Program. See Chapter 13 for PAC entitlement eligibility.

4.3 Absences

The following examples are provided for absences from the IDP area:

4.3.1. A member who takes leave in the IDP designated area that the member is assigned for duty remains entitled to the payment of IDP.

4.3.2. A member who takes leave in an IDP area that the member is not assigned for duty is not eligible for the payment of IDP. See subparagraph 3.1.6.1.

4.3.3. A member who takes leave in an area not designated as an IDP area is not eligible for the payment of IDP for the period of the absence.

4.3.4. A member assigned for duty in an IDP area who performs temporary duty in an area not designated as an IDP area is not eligible for the payment of IDP for the period of absence.

5.0 Duration of Authority

HFP or IDP may not be paid to any person after the date on the through date in Table 10-1. No payments will be made after the termination date unless the person's entitlement to the HFP or IDP commenced prior to that date.

*Table 10-1. IDP Areas (Continued)
NOTES:

1. The designation of a land area encompasses all internal waters, unless otherwise noted. For HFP and/or IDP purposes, the term "internal waters" is defined as waters landward of the baseline, drawn in accordance with international law.
2. The designation of a water area (such as the Persian Gulf) includes the territorial seas of those waters, but not the internal waters of the coastal lands. For example, all waters of the Persian Gulf seaward of the baseline of the coastal states, drawn in accordance with international law, would be included in the Persian Gulf designation.
3. Unless otherwise specifically indicated, airspace is NOT part of the included area. When airspace is specifically included, it will normally be that space directly vertically above the approved land or sea area.
4. This table reflects all designated areas, which were active within the last six years.
5. Limited to Service members performing duties within the Joint Task Force Guantanamo Bay Detention Facilities.
6. Land area within a 20-kilometer radius from the center of Athens (38° 01' N, 23° 44' E).
7. Water area of the Mediterranean Sea extending from the North African Coast northward into the Mediterranean Sea, bounded on the east at: 26° 00' E longitude; extending north to: 34° 35' N latitude; and extending west to the East Coast of Tunisia.
8. Water area of the Somalia Basin with coordinates:
   -11°10'N-51°15'E;
   -06°00'N-48°30'E;
   -05°00'N-50°30'E;
   -11°30'N-53°34'E;
   -05°00'N-50°30'E;
   -01°00'N-47°00'E;
   -03°00'S-43°00'E;
   -01°00'S-41°00'E; and
   -06°00'N-48°30'E.
9. Excluding Izmir and the Turkish Straits (i.e., the Dardanelles; the Sea of Marmara; and the Bosporus Straits).
10. Airspace: south of 37°45'N; and east of 43°00'E.

VOLUME 7A, CHAPTER 11: "SPECIAL PAY – DIVING DUTY"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated September 2023 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated formatting to comply with current administrative instructions.	Revision
2.3	Removed obsolete "Suspension" subparagraph and renumbered subsequent subparagraphs accordingly.	Deletion
2.5	Updated the "Rates Payable" paragraph in accordance with the DoD Instruction 1340.09, dated January 26, 2018, Change 1, February 2, 2024.	Revision
2.8	Updated the termination date for the "Duration of Authority" table on DFAS.MIL in accordance with Title 37, United States Code (U.S.C.), Section 351(h).	Revision
3.7	Updated the termination date for the "Duration of Authority" table on DFAS.MIL in accordance with the Title 37, U.S.C., Section 353(i).	Revision
References	Updated statutes and supporting references.	Revision

CHAPTER 11

SPECIAL PAY - DIVING DUTY

1.0 GENERAL

1.1 Purpose

This chapter provides the policy governing special pay entitlements applicable to diving duty for all of the Military Services.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code (U.S.C.). The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DIVING DUTY HAZARDOUS DUTY INCENTIVE PAY (HDIP)

2.1 Entitlement

The Secretary concerned may pay HDIP to Service members required by competent orders to participate in diving duty as part of their primary duty.

2.2 Requirements

Service members entitled to basic pay may be eligible for HDIP for diving duty for periods during which they are:

2.2.1. Assigned by competent orders to the duty of diving,

2.2.2. Required to maintain proficiency as a diver by frequent and regular dives, and

2.2.3. They are either:

2.2.3.1. Actually performing diving duty while serving in an assignment for which diving is a primary duty, or

2.2.3.2. Meeting the requirements to maintain proficiency as a diver by frequent and regular dives while serving in an assignment that includes diving other than as a primary duty.

2.3 Conditions

See Table 11-1 for conditions which further affect entitlement to diving duty pay. Additional conditions of service may be imposed by the Secretary concerned.

2.4 Qualifications for Diving Duty

2.4.1. Army

Except as noted in Tables 11-2 and 11-3, an Army member must be a rated diver in accordance with ***Army Regulation (AR) 611-75*** and be assigned to:

2.4.1.1. A Table of Organization and Equipment or Table of Distribution and Allowance position in Skill Classification/Military Occupational Specialty, Special Qualification Identifier, or Additional Skill Identifier (ASI) specified in AR 611-75; or

2.4.1.2. A position designated as diving duty by the Deputy Chief of Staff Personnel.

2.4.2. Navy and Marine Corps

Members must be designated divers, assigned to diving duty under competent orders, and maintain their qualifications for diving.

2.4.3. Air Force

Service members must:

2.4.3.1. Successfully complete an approved DoD course for underwater swimmers,

2.4.3.2. Be under orders for diving duty as authorized by their Major Command, and

2.4.3.3. Meet the other qualification standards prescribed by current Air Force Instructions.

*2.5 Rates Payable

Service members who meet the eligibility criteria, but who do not participate in a full calendar month of dive duty, will receive a prorated HDIP payment, unless in accordance with DoDI 1340.09, paragraph 2.1.k, the Service Secretary concerned has requested to specifically designate the performance of this duty during the month as entitling the Service member to the full monthly rate of HDIP regardless of the duration of qualifying service during the month and such request has been approved by ASD (M&RA).

2.5.1. Service members assigned to diving duty are entitled to special pay for diving duty at a rate of not more than $240 per month.

2.5.2. Service regulations may not vary criteria or rates for payment of diving duty HDIP for officers and enlisted members.

2.6 Specific Rates Payable

See Tables 11-2 through 11-9. The most current rates are in the ***Diving Duty Pay Rates*** table on DFAS.MIL.

2.7 Restrictions on Payment

2.7.1. Although a Service member may perform more than three hazardous duties in a month, a Service member may not receive simultaneous payments for more than three HDIP duties in a month. Therefore, if a member receives diving duty incentive pay in a month, they may not receive more than two other HDIP payments from the hazardous duties listed in Chapter 22 and Chapter 24.

2.7.2. No member is entitled to receive special pay for performing diving duty after diving qualifications have lapsed. Upon requalification, no payments will be made for the period of the lapsed qualification.

*2.8 Duration of Authority

Unless authorized by Congress, no diving duty HDIP payment may be paid after the termination date on the ***Duration of Authority*** table.

3.0 MASTER DIVER SKILL INCENTIVE PAY (MDSIP)

3.1 Authority

Title 37, U.S.C. § 353 and the Under Secretary of Defense (Personnel and Readiness) (USD(P&R)) Memorandum, Master Diver Skill Incentive Pay, dated January 26, 2018, provides the authority for the Secretaries of the Military Departments to offer MDSIP to Service members who:

3.1.1. Are qualified in a critical diving specialty, and

3.1.2. Maintains proficiency as a diver through frequent and regular dives.

3.2 Eligibility

The Secretaries of the Military Departments may pay MDSIP to qualified Service members serving in critical diving specialties designated by the Secretary concerned. Qualifying Service members must be proficient in performance of one of the following critical diving skill areas:

3.2.1. Supervision and training of members who are qualified in the full spectrum of diving apparatus and gas mixtures;

3.2.2. Diving, salvage, and ship underwater repair operations;

3.2.3. Surface and underwater demolition operations for salvage, ship husbandry, or underwater construction operations;

3.2.4. Operation, maintenance, and certification of deep dive systems and equipment; or

3.2.5. Operation of special operations underwater vehicles requiring the use of an underwater breathing apparatus.

3.3 Additional Guidelines

3.3.1. In addition to being qualified in one of the critical skill areas listed in paragraph 3.2, a Regular or Reserve Component Service member must meet the eligibility criteria for diving duty (HDIP) outlined in section 2.0, and any additional criteria prescribed by the Secretary concerned.

3.3.2. Service members qualified solely in the use of a self-contained underwater breathing apparatus are not authorized MDSIP.

3.3.3. Reserve Component members entitled to compensation pursuant to ***37 U.S.C. § 206*** are eligible for MDSIP at the discretion of the Secretary of the Military Department concerned. The amount authorized will be equal to 1/30th of the monthly MDSIP authorized by the Military Department concerned for each period of inactive duty training.

3.4 Payment Method and Amount

3.4.1. Rates. In accordance with paragraph 3.1, the Military Departments may pay monthly MDSIP to qualified Service members who meet the MDSIP eligibility requirements. The amount may not exceed:

3.4.1.1. $340 per month for enlisted members, or

3.4.1.2. $240 per month for officers.

3.4.2. Multiple Payments.

3.4.2.1. Under the provisions of 37 U.S.C. § 353, a Service member may not be paid more than one skill incentive pay in any month for the same period of service or skill.

3.4.2.2. A member may not be paid a skill incentive pay under 37 U.S.C. § 353, and hazardous duty pay under ***37 U.S.C. § 351***, for the same period of service in the same career field or skill for which the payment is made.

3.4.3. Proration. If a Service member does not satisfy the eligibility requirements for MDSIP for an entire month, the Secretary concerned will prorate the payment to reflect the duration of the member's actual qualifying service during the month.

3.4.4. Repayment. Repayment of any unearned portion or overpayment will be in accordance with the provisions of Chapter 2; Volume 16, Chapter 3; and ***37 U.S.C. § 373***.

3.5 Restrictions

3.5.1. Service members temporarily unable to perform diving duty due to a physical or medical condition, not the result of the member's own misconduct, may continue to receive MDSIP for up to 6 months. After 6 months, MDSIP will be terminated and may not be reinstated until the condition resulting in the physical or medical restriction is corrected and the member is again certified for diving duty by a competent Medical Officer.

3.5.2. Service members permanently disqualified or otherwise determined to be no longer eligible to perform diving duty are not eligible for MDSIP in accordance with paragraph 3.1 or any additional criteria prescribed by the Military Departments concerned.

3.5.3. Service members are not authorized MDSIP for any period of unauthorized absences.

3.5.4. Service members who receive MDSIP and fail to satisfy the eligibility requirements for receipt of pay will be subject to having the pay terminated.

3.6 Written Agreement

The Secretary of the Military Department concerned will establish Service specific instructions for the administration of MDSIP in accordance with paragraph 3.1. The instructions may require a member to enter into a written agreement in order to qualify for MDSIP. The written agreement must specify the period for which the Service member will receive the skill incentive pay and the monthly rate of the pay.

*3.7 Duration of Authority

Unless authorized by Congress, no MDSIP payment may be entered into after the date on the Duration of Authority table.

Table 11-1. Diving Duty HDIP and MDSIP - Conditions of Entitlement

RULE	When a member entitled to diving duty pay	and	then diving duty pay
1	is removed from diving duty or the member's diving qualifications lapse		ceases on the date of removal or lapse.
2	is hospitalized as a result of a diving accident		may continue for a period of up to 6 months.
3	is hospitalized not as a result of a diving accident due to an injury or an illness that is not the result of the member's own misconduct		may continue for a period of up to 6 months.
4	is on leave in a pay status		accrues for the first 30 days
5	is on Temporary Additional Duty (TAD)/Temporary Duty (TDY) other than diving duty		accrues for the first 30 days
6	is on TAD/TDY for diving duty purposes		continues to accrue (note 1).
7	is in confinement awaiting trial by court-martial	is subsequently acquitted or charges are dismissed	accrues retroactively to date of confinement.
8	is in confinement awaiting trial by court-martial	is subsequently convicted	does not accrue from first day of confinement through the day before the date restored to a full duty status.
9	is in confinement under sentence of a court-martial		does not accrue from first day of confinement through the day before the date restored to a full duty status.
10	is reassigned Permanent Change of Station (PCS) and no TAD/TDY is required enroute to the new duty station	is ordered to and actually performs diving duty at the new duty station	continues to accrue (notes 1 and 2).
11	is reassigned PCS and no TAD/TDY is required enroute to the new duty station	is not ordered to diving duty at the new duty station	accrues through the date of detachment from the old duty station.
12	is reassigned PCS and TAD/TDY is required enroute to the new duty station	PCS orders require diving duty at the TAD/TDY station and new duty station, and actually performs diving duty	continues to accrue (notes 1 and 2).

Table 11-1. Diving Duty Pay - Conditions of Entitlement (Continued)

RULE	When a member entitled to diving duty pay	and	then diving duty pay
13	is reassigned PCS and TAD/TDY is required enroute to the new duty station	PCS orders require diving duty at the TAD/TDY station but not the new duty station	continues to accrue through the date of detachment from the TAD/TDY station (notes 1 and 2).
14	is reassigned PCS and TAD/TDY is required enroute to the new duty station	PCS orders do not require diving duty at TAD/TDY station	accrues through the date of detachment from the old duty station.
15	is a member of a Reserve Component	is released from active duty	ceases not later than the date the member departs for home from the last duty station.
16	is discharged and immediately reenlists at the same station without a break in service	diving duty orders are not specifically terminated	continues to accrue.
17	is discharged and immediately reenlists at the same station without a break in service	diving duty orders are specifically terminated	ceases on the date stated in the orders.

NOTES:

1. If the member is removed from diving duty, or the member's qualifications lapse during this period, then the member's entitlement to diving duty pay terminates on the date removed from diving duty or the date qualifications lapse.
2. If a member is reassigned PCS and takes leave enroute, then diving duty pay will continue to accrue up to 30 days, if the member has otherwise met the requirements for diving duty pay.

Table 11-2. Diving Duty Pay Rates - Army Enlisted

RULE	If an Army enlisted member is (note 1)	then the member may receive diving duty pay at the monthly rate of
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 2)	$110
2	Master Diver	$340
3	Diver First Class	$215
4	Salvage Diver	$175
5	Diver Second Class	$150
6	Combat Diver (note 3)	$215

NOTES:
1. Except as otherwise noted, eligibility commences on the date of assignment to diving duty under a listed category after graduation from the requisite diving course.
2. Eligibility commences on the date of first dive and continues through the date dropped from the course or the date of graduation, whichever is earlier.
3. The combat diver rating applies to members serving primarily in Special Operations Forces (SOF) units who are assigned to positions that require Special Forces Underwater Operations Systems qualifications and hold a combat diver rating in accordance with AR 611-75.

Table 11-3. Diving Duty Pay Rates - Army Officers

RULE	If an Army officer is (note 1)	and has a special identifying code	then the officer may receive diving duty pay at the monthly rate of
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 2)		$110
2	Marine Diving Officer	ASI 5V	$240
3	Combat Diver (note 3)		$215
4	Diving Medical Officer		$215

NOTES:
1. Except as otherwise noted, eligibility commences on the date of assignment to diving duty under a listed category after graduation from the requisite diving course.
2. Eligibility commences on the date of first dive and continues through the date dropped from the course or the date of graduation, whichever is earlier.
3. The combat diver rating applies to members serving primarily in SOF units who are assigned to positions that require Special Forces Underwater Operations Systems qualifications and hold a combat diver rating in accordance with AR 611-75.

Table 11-4. Diving Duty Pay Rates - Navy Enlisted

RULE	If a Navy enlisted member is (note 1)	with a Navy Enlisted Classification of	then the member is entitled to receive diving duty pay at the monthly rate of
	Dive HDIP		
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 2)		$150
2	Master Diver	MMDV	$340
3	Master Underwater Construction Diver	B18A	$340
4	First Class Diver	M1DV	$315
5	Underwater Construction Technician Advanced (includes Saturation Hospital Corpsman (HM))	B16A	$215
6	Underwater Construction Technician Basic	B17A	$150
7	Second Class Diver	M2DV	$215
8	Self-Contained Underwater Breathing Apparatus (SCUBA) Diver	839A/840A	$150
9	Fleet Marine Force (FMF)	L02A	$215
10	Reconnaissance HM Independent Duty Corpsman (IDC) FMR Reconnaissance HM	L11A	$215
11	Deep Sea Medical Technician	L27A	$215
12	Deep Sea Technician (IDC)	L28A	$215
13	EOD Apprentice	M00A	$150
14	EOD Apprentice (Student Status) (note 2)	M01A	$150
15	Basic EOD Apprentice Technician	M02A	$215
16	Senior EOD Apprentice Technician	M03A	$215
17	Master EOD Technician	M04A	$215
18	Ordnance Clearance Diver	M06A	$215
19	Naval Special Warfare Enlisted Operator	O19A-029A	$215

NOTES:
1. Except as otherwise noted, eligibility commences on the date of graduation from the requisite diving course, with assignment to diving duty under a listed category.
2. Eligibility commences on the date of first dive.

Table 11-5. Diving Duty Pay Rates - Navy Officers

RULE	If a Navy officer is	and has an additional qualification designator (AQD) or designator of	then the officer is entitled to diving duty pay at the monthly rate of
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 1)	various	$150
2	Diving Officer (SCUBA) (note 2)	various	$150
3	Diving Officer (note 3)	various	$240
4	EOD Officer (note 4)	114X, 119X, 648X, 748X	$240
5	Sea-Air–Land (SEAL) Officer (note 5)	113X, 715X	$240
6	Special Warfare Officer – Student (note 1)	118X	$150
7	Undersea Medical Officer (note 4)	6UD, 6UE, 6UF, 6UG, 6UM	$240
8	Diving Chief Warrant Officer (note 5)	720X	$240
9	Engineering Duty Officer, Civil Engineer Corps Officer	KL0	$240
10	Surface Warfare Officer	KL0, LOA	$240

NOTES:
1. Eligibility commences on the date of first dive.
2. Must have completed SCUBA course of instruction, Course Identification Number A 433-0023.
3. Eligibility commences in accordance with paragraph 2.1.
4. Except as otherwise noted, entitlement commences on the date of graduation from the requisite diving course, with assignment to diving duty under a listed category.
5. Eligibility commences on assignment of the designator.

Table 11-6. Diving Duty Pay Rates - Marine Corps Enlisted

RULE	If a Marine Corps enlisted member is (note 1)	and has a special identifying code of	then the member may receive diving duty pay at the monthly rate of
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 2)		$150
2	Combatant Diver	0324/0326/8024/ 8026	$215

NOTES:
1. Except as otherwise noted, eligibility commences on the date of assignment to diving duty under a listed category after graduation from the Combatant Diver course.
2. Eligibility commences on the date of first dive and continues through the date dropped from the course or the date of graduation, whichever is earlier.

Table 11-7. Diving Duty Pay Rates - Marine Corps Officers

RULE	If a Marine Corps officer is (note 1)	and has a special identifying code of	then the member may receive diving duty pay at the monthly rate of
1	assigned to diving duty under instruction at an approved Armed Services diving school (note 2)		$150
2	Combatant Diver	8024/8026	$215

NOTES:
1. Except as otherwise noted, eligibility commences on the date of assignment to diving duty under a listed category after graduation from the Combatant Diver course.
2. Eligibility commences on the date of first dive and continues through the date dropped from the course or the date of graduation, whichever is earlier.

Table 11-8. Diving Duty Pay Rates - Air Force Enlisted

RULE	If an Air Force enlisted member is	then the member may receive diving duty pay at the monthly rate of
1	SCUBA Diver	$110
2	Para rescue Diver	$150

Table 11-9. Diving Duty Pay Rates - Air Force Officers

RULE	If an Air Force Officer is	then the officer may receive diving duty pay at the monthly rate of
1	assigned to diving duty	$150

CHAPTER 12

PURPORTED MARRIAGES

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to establish policy for purported marriages and the related impact to military pay.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), Title 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in the reference section at the end of the chapter.

*2.0 VALIDATION OF PAYMENTS BASED ON PURPORTED MARRIAGES

2.1 Authority for Validation

A payment of an allowance based on a purported marriage that is made under ***37 U.S.C. § 423*** or prior laws, before the marriage is annulled or terminated is valid if:

2.1.1. A court of competent jurisdiction adjudges or decrees that the military member entered the marriage in good faith; or

2.1.2. In the absence of such judgment or decree, the Secretary of the Military Department concerned or a person designated by the Secretary of the Military Department concerned makes a finding of good faith.

2.2 Marriage Status Determination

Any case in which the validity of a Service member's marriage is questionable, is a case of a doubtful relationship. This paragraph outlines different types of relationships where validity is doubtful for housing allowance purposes. Submit requests for determination on validity of a marriage in doubtful cases or for validation of payments as specified in Table 12-1.

2.2.1. Remarriage Within Prohibited Period Following Divorce. Under the laws of some states, a marriage is not dissolved until a specified period has elapsed after a divorce decree is granted, and remarriage is prohibited within the specified period. In all states that grant an interlocutory decree before granting a final divorce decree, remarriage may not occur before the final decree is granted.

2.2.2. Marriage by Proxy. Forward claims of marriage by proxy to the DFAS Office of General Counsel.

2.2.3. Marriage by Telephone. A marriage by telephone is recognized only if a statute or court decision authorizes or recognizes telephone marriages in the jurisdiction where the marriage was performed.

2.2.4. Common Law Marriages. Under laws of certain states, persons who do not obtain a license to marry or go through certain other formalities may enter into a common law marriage. Common law marriages entered into in those states are valid if they are contracted in accordance with state law.

2.2.5. Foreign Nation Divorce. A foreign nation divorce may or may not be recognized as valid in the United States depending on several factors. These factors include place of residence of the parties involved, whether they appeared in person to obtain the divorce, and applicable state laws. Any claim involving the remarriage of a Service member following a foreign nation divorce and any claim by, or on behalf of, the spouse from whom the Service member has obtained a foreign nation divorce are cases of doubtful relationship. A claim based on a Service member's marriage to a person who has obtained a foreign nation divorce is also a doubtful case.

2.2.6. Void Marriage. If a Service member's marriage is void, for example, due to a preexisting marriage of the spouse, the Service member has no lawful spouse and is not authorized a housing allowance at the with-dependent rate due to the purported marriage. When marriage invalidity is discovered, no further housing allowance payments at the with-dependent rate may be made. See Chapter 26, Table 26-2 to determine when to stop housing allowance payments. The Service member may retain payments already received if they are validated, for DoD Services or Service written material for non-DoD Services. When validity of a marriage is questionable, submit the case to the office specified in Table 12-1 for a determination on the validity of the marriage and, if necessary, validation of payments already made.

2.2.7. Annulled Marriage. If a Service member's marriage is annulled by a court decree, no further housing allowance payments may be made. The Service member may retain payments received before the effective date of the decree. Retention of payment in some annulment cases based on legal factors must be validated, for DoD Services or Service written material for non - DoD Services. Submit all annulment cases to the office specified in Table 26-11 for review and, if necessary, validation of payments made.

2.3 Responsibility for Validation

Findings of good faith under subparagraph 2.1.2 are submitted to the offices listed in Table 12-1.

2.4 Payments Not Validated

Payments based on invalid marriages are erroneous payments or overpayments unless validated.

CHAPTER 13

ILLNESS OR INJURY PAYMENT PROGRAMS

1.0 GENERAL

1.1 Purpose

This chapter describes the payment programs authorized for military personnel, who, while serving in the line of duty, are either injured, wounded, or became ill, or who have a permanent catastrophic injury or illness and require a caregiver.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), Title 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

*2.0 PAY AND ALLOWANCE CONTINUATION (PAC) PROGRAM

2.1 General

Effective May 15, 2008, the Secretary of Defense authorized the PAC Program for Service members of the Regular or Reserve Components (RC) pursuant to ***37 U.S.C. § 372***.

2.2 Eligibility

2.2.1. To be eligible for the PAC Program, Service members must have been wounded, ill, or injured in a combat zone, a hostile fire area, or while exposed to a hostile fire event, and hospitalized, as defined in subparagraph 2.3.2 for treatment of such wound, injury, or illness.

2.2.2. Paragraph 2.2.1 includes Service members who are assigned to a medical or patient unit based on orders that confirm the assignment and who are determined as not fully fit to perform full military duties.

2.3 Entitlement

2.3.1. Service members of the Regular or RC who incur a wound, injury, or illness in the line of duty while serving in a combat operation or a combat zone, while serving in a hostile fire area, or while exposed to a hostile fire event (regardless of location), and are hospitalized for treatment of the wound, injury, or illness, will continue to receive the pay and allowances the member was receiving at the time of hospitalization. These pay and allowances include special and incentive pays, bonuses, and the daily incidental expense portion of the temporary duty allowance authorized for members deployed in a combat operation or combat zone.

2.3.2. Circumstances Involving Hospitalization:

2.3.2.1. A member who is evacuated for medical treatment will be considered "first hospitalized for treatment" at the time of the evacuation for the purposes of determining PAC eligibility.

2.3.2.2. After first hospitalization for treatment, a Service member may remain eligible for PAC during follow-on outpatient treatment and/or rehabilitation until triggering one of the three terminating reasons listed in paragraph 2.5.

2.3.2.3. The member may be authorized PAC beginning on the first day of the month following the date they were first hospitalized for treatment, and it may continue for up to 12 subsequent consecutive months.

2.3.3. For purposes of Hardship Duty Pay – Location (HDP-L), Service members serving on a temporary deployment, or attached duty of more than 30 days in a designated hardship duty location, and who are wounded, injured, or become ill within the first 30 days of serving in the designated area, will be considered eligible for HDP-L at the time the wound, injury or illness is incurred.

2.4 Commencement of Payment

Continuation of pay and allowances under the PAC Program begins on May 15, 2008, or the date of the member's eligibility, whichever occurs later. Begin PAC payment on the first month after hospitalization.

Example: If a member was medically evacuated from Iraq to Germany in July, August is the "first month" of PAC.

2.5 Termination of Entitlement

The pay and allowances for Service members that meet the PAC Program eligibility requirements will continue until the end of the first month beginning after the earliest of the following dates:

2.5.1. The date on which the Service member is returned for assignment to other than a medical or patient unit for duty (Note: The return to assignment is based on a determination that the member is fully fit to perform full military duties);

2.5.2. The date on which the Service member is discharged, separated, or retired (including temporary disability retirement) from the Uniformed Services; or

2.5.3. One year after the date on which the Service member is first hospitalized for the treatment of the wound, injury, or illness. The Principal Deputy Under Secretary of Defense (USD) for Personnel and Readiness (P&R) may extend the termination date in 6-month increments under extraordinary circumstances.

*3.0 SPECIAL COMPENSATION FOR ASSISTANCE WITH ACTIVITIES OF DAILY LIVING (SCAADL)

3.1 General

The provisions of the SCAADL Program apply only to those Service members with qualifying injuries or illnesses incurred on or after August 31, 2011. The Secretary concerned may pay special compensation to eligible Service members of the Active or RC who have incurred or aggravated a permanent catastrophic illness or injury in the line of duty, and require a caregiver who provides non-medical care, support, and assistance to the member. The DoD Instruction ***(DoDI) 1341.12***, "Special Compensation for Assistance with Activities of Daily Living Program," dated October 31, 2019, contains detailed instructions and procedures for initiating the SCAADL entitlement.

3.2 Eligibility

3.2.1. To receive the SCAADL compensation, the Service member:

3.2.1.1. Injury has been determined to have been incurred/aggravated in the line of duty;

3.2.1.2. Must have a certification made, by a licensed DoD physician or a Veterans Affairs (VA)-licensed physician, that the member has a permanent catastrophic injury and needs assistance from another person to perform the personal functions required by everyday living;

3.2.1.3. Must have a certification made, by a DoD or a VA-licensed physician, that the member requires hospitalization, nursing home care, or other residential institutional care in the absence of such assistance;

3.2.1.4. Be an outpatient and have identified a designated primary caregiver. The designated primary caregiver:

3.2.1.4.1. May be a Service member assigned to a RC and not serving on active duty. If the Service member designates a member of a RC as their primary caregiver, an alternate caregiver must also be designated. Members of the Active Component and RC assigned to active duty will not serve as designated primary caregivers;

3.2.1.4.2. Must not be receiving the VA Program of Comprehensive Assistance Caregivers stipend, or VA Aid and Attendance compensation, in accordance with subparagraphs 3.3.1.2 and 3.3.1.3;

3.2.1.4.3. May still be eligible to receive the respite benefit if they are qualified in accordance with TRICARE Operations Manual ***(TOM) 6010.56-M***; and

3.2.1.4.4. Must be at least 18 years of age. The exception to this requirement is if the Service member's spouse is under 18 years of age, he or she may be the primary or alternate caregiver;

3.2.1.5. Be an outpatient and not receiving federally funded in-home services (other than respite care), including TRICARE, to assist with activities of daily living (ADL) or provide supervision to avoid harm to self or others.

3.2.2. Service member receiving other home health services in accordance with TOM 6010.56-M remain eligible to receive SCAADL compensation, except as described in paragraph 3.3.

3.3 Restrictions

3.3.1. SCAADL is not paid to a Service member:

3.3.1.1. If any other federal agency is providing outpatient or in-home services to assist the member with ADL or provide supervision to avoid the Service member from harming themselves or others;

3.3.1.2. Who is a former member (veteran) and receives special monthly compensation from the VA in accordance with ***38 U.S.C. § 1114(r)(2)***;

3.3.1.3. If the Service member's primary caregiver receives a monthly caregiver stipend from the VA's Comprehensive Assistance for Family Caregivers Program;

3.3.1.4. If the Service member qualifies for and accepts in-home assistance with ADL, supervisory, or protection needs paid with supplemental health care program funds and provided by a TRICARE-authorized home health agency;

3.3.1.5. If the Service member enters hospice care. In accordance with TRICARE ***Reimbursement Manual 6010.61-M***, TRICARE will cover hospice care for those members. However, Service members in hospice care for the management of medication still qualify for the SCAADL Program; or

3.3.1.6. On the last day of the month during which a 90-day period ends after the Service member begins separation or retirement, even though the member has not begun to receive compensation pursuant to 38 U.S.C. § 1114(r)(2) before the end of such period.

3.3.2. Service member will be removed from the SCAADL Program:

3.3.2.1. If the Service member is returned to duty through rehabilitation, or is found fit by a Service physical evaluation board, or otherwise returned to duty status as unfit, but retained on active duty. The Service member will be removed from the SCAADL program in accordance with the Military Department's regulations. Termination effective date will be the last day of the month the Service member is no longer eligible under this provision; or

3.3.2.2. Pursuant to ***37 U.S.C. § 373***, Service members no longer satisfying SCAADL eligibility requirements will repay any SCAADL allowances received after the member is returned to duty or removed from the SCAADL program, except when:

3.3.2.2.1. The Secretary of the Military Departments concerned determines that the imposition of the repayment with regard to a Service member would be contrary to a personnel policy or management objective, would be against equity and good conscience, or would be contrary to the best interest of the United States;

3.3.2.2.2. The Service member dies or is retired or separated with a combat-related disability; or

3.3.2.2.3. The Service member receives sole survivorship discharge.

3.3.3. Service members or their designated representatives may appeal disapproval to receive SCAADL in accordance with respective Military Service appeal guidelines.

3.3.4. Qualifying payments to Service members, who receive SCAADL, in accordance with paragraph 2.3, will terminate as detailed in subparagraph 3.5.3.

3.3.5. Service members must complete a re-evaluation and recertification every 180-calendar days of eligibility for the SCAADL benefit.

3.3.6. Service members in receipt of SCAADL will recertify compensation upon a change in clinical status or geographical location.

3.3.7. All Service members hospitalized for 16 cumulative days or more of a month will be required to recertify upon release from the hospital.

3.4 Monthly Compensation

An online ***SCAADL Calculator*** is available to compute the approximate monthly SCAADL compensation. The military services will use the DoD ***(DD) Form 2948***, "Application for Special Compensation for Assistance with Activities of Daily Living (SCAADL) Eligibility," to document the Service member's eligibility for SCAADL. The following guidelines apply:

3.4.1. Monthly compensation is computed based on the Bureau of Labor Statistics (BLS) wage rate for a home health aide, using the 75th percentile of the hourly wage rate in the Service member's geographic area of residence. The BLS wage rates are updated annually and published effective January of each year. The amount of monthly compensation is calculated using the zip code of the geographic location where the Service member currently resides and the Service member's dependence level.

3.4.2. A three-tier system recognizing the variation in complexity of care required by the Service member and provided by the caregiver determines the monthly compensation. The

member's Primary Care Manager (PCM) will assess the Service member's dependency level and assign a point value corresponding to the number of hours of care the member requires each week.

3.4.2.1. High Tier. It is presumed that a Service member who scores 21 or higher will require at least 40 hours per week of caregiver assistance.

3.4.2.2. Medium Tier. It is presumed that a Service member who scores 13-20 will require at least 25 hours per week of caregiver assistance.

3.4.2.3. Low Tier. It is presumed that a Service member who scores 1-12 will require at least 10 hours per week of caregiver assistance.

3.4.3. Service members or their designated representatives may appeal a PCM's determination of dependency level to their Service headquarters. The dependency level may also change if the Service member's condition changes and a reevaluation of the member's level of dependency is conducted.

3.5 Payment Period

The following guidelines apply to the period that the SCAADL entitlement may be paid:

3.5.1. Service members become eligible for the SCAADL entitlement on the date a licensed DoD or VA physician certifies that the member meets the eligibility criteria. If the certification is not on the first of the month, and the entitlement is continuous for more than 1 month, the first month will be prorated based on a 30-day month computation. The 31st day of the first month will be excluded.

3.5.2. Service members entitled to SCAADL for a continuous period of less than 1 month will receive payment for the actual number of days at the rate of 1/30th of the monthly amount. The 31st day of a calendar month may not be excluded from this computation.

3.5.3. SCAADL entitlement stops on:

3.5.3.1. The last day of the month in which a 90-day period ends after the date the Service member separates or retires. (For example, March 15 (separation date) plus 90 days equals June 13 (last day of entitlement is June 30));

3.5.3.2. The last day of the month during which a Service member dies (See Note);

3.5.3.3. The last day of the month a physician determines that a Service member no longer meets the eligibility requirements for SCAADL; or

3.5.3.4. The last day of the month preceding the month during which the Service member begins receiving aid and attendance from the VA under 38 U.S.C. § 1114(r)(2), or the Service member's primary caregiver begins receiving a monthly caregiver stipend from the VA under ***38 U.S.C. § 1720G***.

Note: This last SCAADL payment should be paid to the beneficiary in the unpaid pay and allowances described in Chapter 36, section 3.0.

CHAPTER 14

INCENTIVE FOR QUALIFIED MEMBERS EXTENDING DUTY AT DESIGNATED LOCATIONS OVERSEAS

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to the incentive for qualified members extending duty at designated locations overseas.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 SPECIAL PAY OR BONUS

2.1 Eligibility

Members of the Armed Forces may be entitled to a special pay or bonus if they:

2.1.1. Are entitled to basic pay;

2.1.2. Have a specialty that is designated by the Secretary of the Military Department concerned for the purposes of this entitlement;

2.1.3. Have completed a tour of duty (as defined in accordance with regulations prescribed by the Secretary concerned) at a location outside the Continental United States (OCONUS) that is designated by the Secretary of the Military Department concerned for the purposes of this entitlement; and

2.1.4. At the end of the tour of duty, execute an agreement to extend that tour for a period of not less than 1 year.

2.2 Amount

When the Secretary of the Military Department concerned accepts the member's agreement to extend the tour of duty, the member becomes entitled, subject to the restrictions identified in paragraph 2.5, to receive one of the following benefits:

2.2.1. Special pay in monthly installments in an amount prescribed by the Secretary, but not to exceed $80 per month; or

2.2.2. An annual bonus in an amount prescribed by the Secretary, but not to exceed $2,000 per year. The Secretary may pay a bonus in either a lump sum or monthly installments.

2.3 Selection

Not later than the date the Secretary of the Military Department concerned accepts the agreement described in subparagraph 2.1.4 providing for the extension of a member's tour of duty, the Secretary of the Military Department concerned will notify the member regarding whether the member will receive special pay or bonus. The payment rate for the special pay or bonus will be fixed at the time of the agreement and may not be changed during the period of the extended tour of duty.

2.4 Repayment

A member who, having entered into a written agreement to extend a tour of duty described in subparagraph 2.1.4, and who receives a bonus payment but does not complete the obligated service in accordance with the agreement will be subject to the repayment provisions of Chapter 2.

2.5 Restriction

A member, who elects to receive one of the benefits specified in section 3.0 as part of the extension of a tour of duty is not entitled to the special pay or bonus authorized in this section for the period of extension of duty for which the benefit is provided.

3.0 SPECIAL REST AND RECUPERATIVE (SR&R) ABSENCE

3.1 Eligibility

A member who meets the eligibility requirements defined in paragraph 2.1 may in lieu of receiving the special pay or bonus, elect to receive one of the entitlements described in paragraph 3.2.

3.2 Entitlement

A member may elect, in lieu of a special pay or bonus, either:

3.2.1. A period of SR&R absence for not more than 30 days; or

3.2.2. A period of SR&R absence for not more than 15 days for members whose qualifying tour of duty is 12 months or less, and round-trip transportation at Government expense from the location of the extended tour of duty to the nearest port in the 48 contiguous States and return, or to an alternative destination and return at a cost not to exceed the cost of round-trip transportation from the location of the extended tour of duty to such nearest port; or

3.2.3. A period of SR&R absence for not more than 20 days for members whose qualifying tour of duty is longer than 12 months, and round-trip transportation at Government expense from the location of the extended tour of duty to the nearest port in the 48 contiguous States and return, or to an alternative destination and return at a cost not to exceed the cost of round-trip transportation from the location of the extended tour of duty to such nearest port.

NOTE: The provisions of SR&R are not effective unless the Secretary concerned determines that the application will not adversely affect combat or unit readiness.

3.3 Travel Time

Travel time from the CONUS port, or alternate destination, to the SR&R absence point, and return is included in the 15-day or 20-day SR&R absence. This period will begin the day after the member arrives at the aerial port of debarkation and continue until the day before the member returns to the designated port. The non-chargeable leave period will continue until the day before the date of return to the designated port. Travel time to or from the CONUS port, or alternate destination, and overseas location is non-chargeable and not included in the 15-day or 20-day SR&R.

3.4 Limitations

The 15-day or 20-day SR&R absence and round-trip transportation option may not be combined with any temporary duty or transportation entitlement that would result in the cost of the round-trip portion of the option exceeding the round-trip cost from the member's tour of duty station to the nearest CONUS port.

CHAPTER 15

SPECIAL PAY – ASSIGNMENT INCENTIVE PAY (AIP)

1.0 GENERAL

1.1 Purpose

This chapter prescribes guidance applicable to the payment of AIP.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with (IAW) the United States Code (U.S.C.), including Titles 10 and 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DoD AIP CRITERIA

2.1 Entitlement

The DoD may give AIP to eligible Active/Regular and Reserve Component (RC) Service members IAW ***37 U.S.C. § 352***, the ***DoD Instruction (DoDI) 1340.26***, "Assignment and Special Duty Pays," and regulations published by the Secretary of the Military Department concerned. The ability of the Secretary of the Military Department concerned to enter into a new agreement with a Service member for AIP is subject to the extension of such authority under 37 U.S.C. § 352.

2.2 Eligibility

The Secretary of the Military Department concerned may pay AIP to a member of an Active/Regular or RC who is entitled to basic pay under ***37 U.S.C. § 204***, or compensation under ***37 U.S.C. § 206***. The Secretaries of Military Departments will establish eligibility criteria based on Service-specific needs. Personnel shortages and the ability of a unit to meet mission requirements should be given primary consideration.

2.3 Written Agreement

2.3.1. Discretionary for Monthly Payments. The Secretary concerned may require a Service member to enter into a written agreement with the Secretary in order to qualify for the AIP payment on a monthly basis. If used, the agreement will specify the period for which the AIP will be paid and the monthly rate of the AIP.

2.3.2. Non-discretionary for Installment or Lump Sum Payments. The Secretary concerned will require a Service member to enter into a written agreement with the Secretary in order to qualify for installment or lump sum payments of AIP. The written agreement will specify

the period for which the Service member will receive AIP, the amount of each periodic installment or lump sum, and the repayment policy cited in ***37 USC § 373***.

2.4 Payment

AIP, paid under this section, is in addition to any other pay or allowance to which the Service member is entitled, except where otherwise stated in DoDI 1340.26 and 37 U.S.C.

*2.5 Limitations and Restrictions

The following limitations and restrictions, which affect the entitlement to AIP, apply to all programs listed in this chapter.

2.5.1. The Secretary of the Military Department concerned may increase, decrease, or abolish AIP for any assignment, location, or unit at any time and will establish restrictions and limitations to the pay through Military Service regulations. Payment of AIP in combination with other special duty pays may not exceed an average monthly amount of $3,500 unless authorized by the Assistant Secretary of Defense (ASD) for Manpower and Reserve Affairs (M&RA).

2.5.2. A member is not entitled to AIP during a period of terminal leave which ends upon discharge or release of the member from Active-Duty (AD).

2.5.3. Service members are not authorized to receive more than one AIP simultaneously for the same period of service. If a Service member is eligible for more than one AIP, the higher dollar value AIP will be paid.

2.5.4. The Secretary of the Military Department concerned will establish payment levels to be either monthly payments, installments, or a lump sum amount not to exceed a maximum monthly average of $1,500.

2.6 Special Provisions

The service of a member in a designated assignment will be considered continuous in any period of temporary absence during which the member is performing temporary duty pursuant to orders or on authorized leave other than transition leave.

3.0 ARMY AIP PROGRAMS

The Headquarters, Department of the Army (HQDA), Office of the Deputy Chief of Staff (ODCS) G-1 authorizes AIP programs. All HQDA authorized programs have a termination date. No new agreements may be entered into without DA reauthorization of the programs. The programs listed in paragraphs 3.1 through 3.15 are DA programs and fall under these guidelines. See applicable memorandums contained in the references for restrictions specific to a particular Army AIP described in paragraphs 3.1 through 3.15.

3.1 14th Missile Defense Battery (MDB)

3.1.1. Eligibility. Soldiers must:

3.1.1.1. Be permanently assigned to the 14th MDB at Kyogamisaki, Japan; and

3.1.1.2. Sign a written agreement acknowledging the limitations and restrictions as a condition to receive AIP. The agreement will specify the period for which the AIP will be paid and the amount of the monthly rate.

3.1.2. Payment

The maximum monthly rate payable to Soldiers serving in an approved assignment will not exceed $1,500.

3.1.3. Termination

3.1.3.1. The 14th MDB will terminate once the Life Support Area is established, or Soldiers are being subsisted (Government meals are provided) by or on behalf of the Government.

3.1.3.2. Unless reauthorized by Congress, AIP may not be paid after the date listed on the ***Duration of Authority*** table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.2 Army Cyber (ARCYBER) Command

3.2.1. Eligibility. Enlisted Soldiers, Warrant Officers, and Commissioned Officers must be fully trained and certified in a U.S. Cyber Command or ARCYBER work role. Soldiers must:

3.2.1.1. Have completed the appropriate training and have been awarded the appropriate certifications located inside the Cyber Mission Force (CMF) or those directly executing strategic to tactical level cyber missions required outside of the CMF; and

3.2.1.2. Enter into a written agreement to serve 1 to 3 years in an ARCYBER approved billet. The written agreement will specify the period for which the AIP will be paid and the amount of the monthly rate of the AIP.

3.2.2. Payment. The maximum monthly rate payable to any Soldier serving as a:

3.2.2.1. Basic under the ARCYBER AIP program will start at $200 and will not exceed $1,000;

3.2.2.2. Senior under the ARCYBER AIP program will start at $300 and will not exceed $1,250; and

3.2.2.3. Master under the ARCYBER AIP program will start at $500 and will not exceed $1,500.

3.2.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.3 Computer Network Operations (CNO)

3.3.1. Eligibility

3.3.1.1. Enlisted Soldiers, Warrant Officers, and Commissioned Officers must be fully certified in an U.S. Army Intelligence and Security Command (INSCOM) work role, assigned to a designated billet in support of the National Security Agency.

3.3.1.2. Soldiers must enter into a written agreement in order to qualify for CNO AIP. The written agreement will specify the period for which the AIP will be paid and the amount of the monthly rate of the CNO AIP.

3.3.1.3. Soldiers must not be permanently non-deployable per DoDI 1332.45. For this memorandum, "deployment" is defined as the movement of personnel into and out of an operational area or in support of operations. Deployment encompasses all activities from origin or home station through destination, specifically including inter-theater, and intra-theater movement legs, staging and holding areas.

3.3.2. Payment. The monthly rate payable to any Soldier serving as a:

3.3.2.1. Basic under this CNO AIP program will start at $200.00 and will not exceed $1,000.00;

3.3.2.2. Senior under this CNO AIP program will start at $300.00 and will not exceed $1,250.00; and

3.3.2.3. Master under this CNO AIP program will start at $500.00 and will not exceed $1,500.00.

3.3.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

*3.4 Department of the Army Select Recruiter (DASR) Tour Extension Program

3.4.1. Eligibility. All Soldiers must meet all the eligibility requirements below.

3.4.1.1. Must be permanently assigned to the U.S. Army Training and Doctrine Command as an on-production DASR assigned to the U.S. Army Recruiting Command (USAREC).

3.4.1.2. Must be serving on an initial 36-month tour as a DASR that is scheduled to end between October 26, 2023, and December 31, 2024.

3.4.1.3. Must be recommended for and selected for extension by their battalion and brigade chain-of-command.

3.4.1.4. Must be a high performing recruiting non-commissioned officer producing 11 or more contracts in Fiscal Year 23 and recommended for and selected for extension by their battalion and brigade chain-of-command.

3.4.1.5. Soldiers must be in good standing and not flagged for adverse action under ***AR 600-8-2***, "Suspension of Favorable Personnel Actions (Flag)," and must meet Army standards for retention (to include Army fitness and body composition program minimum standards) at the time of payment. Soldiers who are later cleared of any misconduct will be paid all AIP payments to which they might otherwise be entitled but were not paid while flagged for adverse action.

3.4.1.6. Must not have requested or been approved to convert to Military Occupational Specialty (MOS) 79R. Requests to convert to MOS 79R may be submitted upon completion of the extension period unless the Soldier voluntarily requests to terminate AIP entitlement under this program.

3.4.2. Payment

3.4.2.1. A Soldier who is extended under this program will be paid $1,500.00 per month.

3.4.2.2. AIP is only payable for the period of the extension. Extension and payments will begin on the first day of the month following the Soldier's original tour ending date.

3.4.2.3. Soldiers are not authorized to receive more than 12 monthly payments under this AIP program or previous DASR Tour Extension programs.

3.4.2.4. Payments will terminate on the day prior to an authorized leave period that ends with the discharge or release of the Soldier from active-duty, a permanent change of station outside of USAREC.

3.4.2.5. Payments will be suspended when the Recruiter fails to contract at least one Soldier during the recruiting month. Payments will resume after the Recruiter contracts an

applicant into the Army. Written agreements will be terminated when the Recruiter fails to write a contract for 3 months during the extension period.

3.4.2.6. In the event of misconduct, payments will terminate on the day the Soldier loses qualification to perform the duty to which they are receiving AIP.

3.4.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.5 Detachment Alpha (DET-A) at the Joint Defense Facility Pine Gap (JDFPG), Alice Springs, Australia

3.5.1. Eligibility. Soldiers permanently assigned to DET-A JDFPG who are authorized AIP must be:

3.5.1.1. Serving on AD;

3.5.1.2. In the grade of O-6 or below;

3.5.1.3. Permanently assigned to DET-A, JDFPG;

3.5.1.4. Within the first 90 days of arrival to the duty station; and

3.5.1.5. Must agree to serve the prescribed tour length (more than 24 months).

3.5.2. Payment. The monthly rates payable to any Soldier serving under this AIP program will be as follows:

3.5.2.1. Soldiers with MOS 42A and current Top-Secret clearance: $200 monthly;

3.5.2.2. Soldiers with MOS 35N/35S and no Additional Skill Identifier (ASI): $200 monthly;

3.5.2.3. Soldiers with MOS 35S with ASI Z8: $250 monthly;

3.5.2.4. Soldiers with MOS 35S with ASI M7: $275 monthly;

3.5.2.5. Soldiers with MOS 35S with ASI K2: $300 monthly;

3.5.2.6. Soldiers with MOS 352S: $200 monthly; and

3.5.2.7. Soldiers with MOS 35G: $200 monthly.

3.5.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.6 Drill Sergeant (DS)

3.6.1. Eligibility. All Soldiers must be:

3.6.1.1. Permanently assigned to the Training and Doctrine Command as DS in a Basic Combat Training, One Station Unit Training; Advance Individual Training, or Drill Sergeant Academy.

3.6.1.2. In their current position for a minimum of 6 months, but not more than 12 months under this program; and

3.6.1.3. Be recommended for and selected for extension by their battalion and brigade chain-of-command.

3.6.2. Payment

3.6.2.1. The maximum monthly rate payable to a DS will be $500.

3.6.2.2. AIP is only payable for the period of the extension. Payments begin on the first day of the month following the Soldier's original tour ending date.

3.6.2.3. Soldiers are not authorized to receive more than 12 monthly payments under this program.

3.6.2.4. AIP payments will terminate on the day prior to an authorized leave period that ends with the Soldier's discharge or release from AD.

3.6.2.5. In the event of misconduct, AIP payments will terminate on the day the Soldier loses qualification to perform the duty to which he or she is receiving AIP.

3.6.3. Repayment

Soldiers, with the exception of sole survivor discharges and those who die or are retired or separated with a combat-related disability, will repay an amount equal to the unearned portion of AIP if the Soldier fails to complete the extension period. Soldiers who fail to complete the extension period will not receive any unpaid AIP amounts.

3.6.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.7 Joint Special Operations Command (JSOC) Special Mission Unit (SMU)

3.7.1. Eligibility

3.7.1.1. Soldiers, including RC, must be permanently assigned to a JSOC SMU Operator billet.

3.7.1.2. Soldiers must be in good standing and not be under UCMJ action at the time of approval and must remain in good standing throughout the AIP tour.

3.7.1.3. Soldiers must have less than 35 years of active federal service in order to qualify for continued payment.

3.7.1.4. Soldiers must sign a written agreement to serve 1 to 3 years in a JSOC SMU Operator assignment. The written agreement will specify the period for which the AIP will be paid and the amount of AIP payment.

3.7.2. Payment

3.7.2.1. SMU Operators with less than 25 years of active federal service may apply for the following:

3.7.2.1.1. SMU Operators with less than 3 years of service in a SMU Operator billet may be paid $750 per month; or

3.7.2.1.2. SMU Operators with 3 years or more of service in a SMU Operator billet may be paid $1,000 per month.

3.7.2.2. SMU Operators with 25 years or more of active federal service may apply for the following:

3.7.2.2.1. SMU Operators with 3 years or more of service in a SMU Operator billet may be paid $500 per month. Agreements will terminate at 28 years of active federal service; or

3.7.2.2.2. SMU Operators serving in a specified Key Leadership/Development position may be paid $1,000 per month. Agreements will terminate at 35 years of active federal service.

3.7.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.8 Korea AIP (KAIP)

3.8.1. Eligibility. Soldiers:

3.8.1.1. Must be permanently assigned to Republic of Korea in the grades of O-3 and below.

3.8.1.2. Must not be serving in command select list positions.

3.8.1.3. Must be in good standing and not be under UCMJ action at the time of approval and must remain in good standing throughout the AIP tour.

3.8.1.4. Assigned to Korea for more than 40 months at the end of their current tour are not eligible to apply.

3.8.1.5. Serving on their initial assignment after graduating from initial entry training or newly appointed officers are not authorized to apply. Soldiers must be in a documented and authorized position by MOS and skill level and must remain in that position for the duration of the extension in order to qualify for KAIP.

3.8.2. Payment

3.8.2.1. The maximum monthly rate payable is $500. Payment will be made in a lump sum, payable upon approval of the AIP agreement extending the Soldier's assignment.

3.8.2.2. Soldiers are limited to a maximum 24-month extension under this AIP program. Payment for an extension beyond 24 months or a subsequent extension when combined with a previous extension(s) that exceeds 24 months is not authorized.

3.8.2.3. The commander determines the payment rate based on the needs of the Army and may be different for Soldiers serving in the same location but will not exceed the monthly rate of $500.

3.8.2.4. Lump sum payments will not exceed the maximum monthly rate authorized by the Commander at the time the Soldier enters into the written agreement multiplied by the number of continuous months in the period for which the AIP is authorized. Lump sum payments will be paid on the first date of the extension of the Soldier's assignment.

3.8.3. Written Agreements

3.8.3.1. Approval authorities will require a Soldier to enter into a written agreement in order to qualify for AIP. The agreement will specify the period for which the AIP will be paid and the amount of the lump sum AIP payment.

3.8.3.2. New AIP written agreements must adhere to this policy. Any approved AIP agreement in existence prior to October 2, 2023, will remain valid under its terms until the effective termination date of the agreement.

3.8.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

*3.9 National Training Center (NTC)

3.9.1. Eligibility

Soldiers permanently assigned to the NTC and Fort Irwin may request AIP provided they meet the following eligibility criteria.

3.9.1.1. Must be serving on active-duty.

3.9.1.2. Must be in the grade of O-6 or below.

3.9.1.3. Must be permanently assigned to the NTC and Fort Irwin as their first choice in the Assignment Interactive Module (AIM) and Assignment Satisfaction Key - Enlisted Module (ASK-EM) marketplaces to include those under U.S. Army Forces Command, Medical Department Activity, Dental Activity, and Army Materiel Command from a previous duty station other than Fort Irwin.

3.9.1.4. Must be within the first 90 days of arrival to the duty station.

3.9.1.5. Must be in good standing and not under the UCMJ process (to include Article 15 or courts-martial proceedings), investigations, and must meet Army standards for retention (to include Army Combat Fitness Test and Army Body Composition Program) at the time of approval and must remain in good standing throughout the AIP tour; and

3.9.1.6. Must not be permanently non-deployable per DoDI 1332.45. “Deployment” is defined as the movement of personnel into and out of an operational area or in support of operations. Deployment encompasses all activities from origin or home station through destination, specifically including inter-theater, and intra-theater movement legs, staging and holding areas.

3.9.2. Payment

Payment will be in the lump sum amount of $4,800, to be paid upon in-processing at Fort Irwin for any Officer or Non-Commissioned Officer that preferences NTC and Fort Irwin as their first choice of duty assignment in the AIM or ASK-EM marketplace.

3.9.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

*3.10 Nominative Assignment Program AIP

3.10.1. Eligibility

Soldiers must be approved for Commander, INSCOM designated military intelligence nominative assignment workforce (enlisted personnel, warrant officers, and commissioned officers) performing strategic-level duties in service of Army, DoD, or Intelligence Community efforts.

3.10.2. Payment

The following levels for this AIP program are based upon years of assigned in the nominative workforce.

3.10.2.1. Level 1 (3 years or less) - $900 per month.

3.10.2.2. Level 2 (3 years or more but less than 6 years) - $1,200 per month.

3.10.2.3. Level 3 (6 years or more) - $1,500 per month.

3.10.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.11 Operational Deployments (OD)

3.11.1. Eligibility

AD Soldiers who physically deploy and perform duties as part of a rotational force away from their permanent duty stations to U.S. Army Europe (USAREUR) and U.S. Army Pacific (USARPAC) areas of responsibility may be entitled to AIP-OD, subject to the criteria outlined in subparagraphs 3.11.1 through 3.11.7.

3.11.2. Payment

3.11.2.1. AIP-OD will be paid in monthly installments (lump sums are not authorized).

3.11.2.2. AIP-OD will be prorated for Soldiers who do not satisfy the eligibility requirement for an entire month to reflect the duration of the Soldier's actual qualifying service during the month. For Soldiers eligible to receive AIP-OD, proration will not apply to the 31st day of a month with more than 30 days.

3.11.2.3. Atlantic Resolve, Joint Multi-National Training Group Ukraine, and other qualifying deployments for a Soldier who is serving on Operation Force Rotations (OFR) in a field duty status are authorized $195 per month. Soldiers serving on OFR in a regular temporary duty status are not authorized AIP-OD.

3.11.2.4. Korea Rotational Force Soldiers serving on OFR in a field duty status are authorized $195 per month.

3.11.2.5. Soldiers serving on OFR in a regular temporary duty status are not authorized AIP-OD.

3.11.3. Absences

3.11.3.1. AIP-OD for USAREUR and USARPAC will continue when a Soldier is on authorized leave, other than leave authorized for a period ending upon the Soldier's discharge or release from AD.

3.11.3.2. When a Soldier entitled to AIP-OD is absent without leave (AWOL), AIP-OD payments will stop on the first day of AWOL through the day before the date the Soldier is restored to full duty, provided the Soldier remained eligible for AIP-OD.

3.11.4. Hospitalization

3.11.4.1. A Soldier who is deployed and requires hospitalization away from the permanent duty station is still considered operationally deployed and remains entitled to AIP-OD.

3.11.4.2. A Soldier who is deployed and requires hospitalization at the permanent duty station is not eligible for payment of AIP-OD for the period of hospitalization, unless otherwise qualified to receive the pay under 37 U.S.C. § 372.

3.11.4.3. If a line of duty investigation determines that the Soldier's injuries are due to his or her own misconduct, AIP-OD payments will stop on the first day of hospitalization through the day before the date the Soldier is restored to full duty, provided the Soldier remained otherwise eligible for AIP-OD.

3.11.4.4. If the member is wounded/injured/ill from a combat zone, combat operation, hostile file pay area, or as a result of hostile fire, reference Chapter 13.

3.11.5. Confinement

3.11.5.1. When a Soldier entitled to AIP is confined awaiting trial by court-martial, AIP-OD payments stop on the first day of confinement through the day before the date the Soldier is restored to full duty, provided the Soldier remained eligible for AIP-OD.

3.11.5.2. When a Soldier confined awaiting trial by court-martial is acquitted, or has charges dismissed, the Soldier will be entitled to AIP-OD retroactive to the first day of confinement, provided the Soldier remained eligible for AIP-OD.

3.11.6. Captured or Missing Status

A Soldier entitled to AIP-OD immediately before entering a status of missing, missing-in-action, interned in a foreign country, or captured by a hostile force will continue to be credited with AIP-OD for each month while in such a status.

3.11.7. Termination

The AIP-OD program is subject to congressional annual reauthorization of 37 USC § 352; therefore, no orders will be issued to start an AIP-OD payment after the termination date on the Duration of Authority table.

*3.12 Recruiting Duty Volunteer Program AIP

3.12.1. Eligibility. All Soldiers must meet all the eligibility requirements below.

3.12.1.1. Must volunteer for recruiting duty by completing a volunteer recruiter packet and submitting though Recruit the Recruiter program.

3.12.1.2. Must be fully eligible for and selected for recruiting duty.

3.12.1.3. Must ship to the Army Recruiter Course (ARC) before February 2024 and successfully graduate from the ARC.

3.12.1.4. Must successfully complete the Advanced Training Program (ATP) IAW ***USAREC Regulation 350-1***, Training and Leader Development, within the first 120 days of assignment to a recruiting station.

3.12.1.5. Must receive a satisfactory ATP quality score from the New Recruiter NCO Board IAW USAREC Regulation 350-1, Training and Leader Development.

3.12.1.6. Soldiers must be in good standing and not flagged for adverse action under AR 600-8-2 and must meet Army standards for retention (to include Army fitness and body composition program minimum standards) at the time of payment.

3.12.2. Payment

A Soldier who meets all the eligibility criteria listed in subparagraph 3.12.1 will be paid a one-time lump sum payment of $5,000.

3.12.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.13 Remote and Austere Conditions AIP (RAC-AIP)

3.13.1. Eligibility. All AD and RC Soldiers who are assigned to an approved RAC-AIP assignment may request RAC-AIP provided the Soldier meets the following eligibility criteria:

3.13.1.1. Must be in the grade of O-6 or below;

3.13.1.2. Must be permanently assigned;

3.13.1.3. Must be within the first 90 days of arrival to the assignment;

3.13.1.4. Must agree to serve the prescribed tour;

3.13.1.5. Must have not previously received RAC-AIP during the current tour or a previous tour within the last six years (Soldiers who extend their tour or agree to serve a consecutive overseas tour in a subsequent RAC-AIP assignment are not eligible);

3.13.1.6. Must enter into a written agreement in order to qualify for RAC-AIP. The written agreement will include an acknowledgement of the additional personal costs associated with the conditions of the remote and austere assignment, the specific terms and conditions for maintaining eligibility for RAC-AIP, the period for which the RAC-AIP will be paid, and the amount of the RAC-AIP.

NOTE: Members may file an exception to policy (ETP) for any of the eligibility requirements stated in subparagraph 3.13.1. The approval authority for the ETP is the Deputy Chief of Staff, G-1 and/or his/her designee.

* 3.13.2. Payment

3.13.2.1. RAC-AIP will be paid in a lump sum payment; monthly payments are not authorized. RAC-AIP is taxable.

3.13.2.2. The maximum lump sum payment will vary based on each assignment. The Army G-1 will approve RAC-AIP payment levels based on the additional costs one is reasonably expected to incur to prepare themselves, their family members, and their personal property for a remote and austere assignment outside the 48 contiguous United States.

3.13.2.3. RAC-AIP is authorized in addition to any other AIP program for which the Soldier may be eligible; however, in no case may a Soldier's AIP payments exceed the $18,000 annual AIP payment limit as set forth by the Under Secretary of Defense for Personnel and Readiness in DoDI 1340.26.

3.13.2.4. RAC-AIP will not be paid retroactively. The approval authority will base the RAC-AIP payment rate on the Soldier's eligibility at the time of approval.

* 3.13.2.5. Amounts are:

3.13.2.5.1. Level 1:

3.13.2.5.1.1. Without command sponsorship dependents, $500;

3.13.2.5.1.2. With command sponsorship dependents, $1,000;

3.13.2.5.2. Level 2:

3.13.2.5.2.1. Without command sponsorship dependents, $1,000;

3.13.2.5.2.2. With command sponsorship dependents, $2,000;

3.13.2.5.3. Level 3:

3.13.2.5.3.1. Without command sponsorship dependents, $1,500;

3.13.2.5.3.2. With command sponsorship dependents, $3,000;

3.13.2.5.4. Level 4:

3.13.2.5.4.1. Without command sponsorship dependents, $2,000;

3.13.2.5.4.2. With command sponsorship dependents, $4,000;

3.13.2.5.5. Level 5:

3.13.2.5.5.1. Without command sponsorship dependents, $2,500;

3.13.2.5.5.2. With command sponsorship dependents, $5,000;

3.13.3. Repayment

3.13.3.1. If the Soldier's commander determines that there is adverse information (as defined in Army Regulation 15-6) regarding the Soldier, the Soldier must repay their AIP for the prorated period that they were not in good standing.

3.13.3.2. Soldiers, with the exception of sole survivor discharges and those who die or are retired or separated with a combat-related disability, will repay an amount equal to the unearned portion of RAC-AIP, if the Soldier fails to complete the extension period.

3.13.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

*3.14 Security Force Assistance Brigade (SFAB)

3.14.1. Eligibility

3.14.1.1. Enlisted Soldiers who are fully trained and certified, are authorized AIP for assignments at their permanent duty stations.

3.14.1.2. Soldiers must enter into a written agreement to serve a minimum of 24 months in an SFAB approved billet. The written agreement will specify the period for which the AIP will be paid and the amount of AIP payment.

3.14.2. Payment

The maximum payment under this program is $5,000 for a minimum 24-month assignment to an SFAB.

3.14.3. Repayment

Soldiers, with the exception of sole survivor discharges and those who die or are retired or separated with a combat-related disability, will repay an amount equal to the unearned portion of AIP if the Soldier fails to complete the AIP period. Soldiers who fail to complete the AIP period will not receive any unpaid AIP amounts.

3.14.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

3.15 U.S. Army Special Operations Command (USASOC)

On September 18, 2020, the DA ODCS G-1 reauthorized USASOC AIP.

3.15.1. Eligibility

3.15.1.1. Soldiers must be permanently assigned to an authorized Major Force Protection-11 billet in the grade of E-5 and above.

3.15.1.2. Soldiers must be in good standing and not be under UCMJ action at the time of approval and must remain in good standing throughout the AIP tour.

3.15.1.3. Soldier must have less than 35 years of active federal service in order to qualify for continued payment.

* 3.15.2. Payment

3.15.2.1. The maximum monthly rate payable to a Soldier assigned to USASOC under this AIP program is $1,250.00 and the maximum monthly rate payable to a Soldier assigned to a Special Mission Unit (SMU) is $1,500. Payment under this program may be made in lump sum or monthly payments.

3.15.2.2. Payment rates are determined by the commander based on the needs of the Army and may be different for Soldiers in similar positions at the same location but will not exceed the amount authorized in 3.15.2.1.

3.15.2.3. Lump sum payments will not exceed the maximum monthly rate authorized by the commander at the time the Soldier enters into the written agreement, multiplied by the number of continuous months in the period for which the AIP will be paid, pursuant to the agreement. Lump sum payment will be paid on the approval of the AIP agreement.

3.15.3. Written Agreements

Approval authorities will require a Soldier to enter into a written agreement in order to qualify for AIP. The agreement will specify the period for which the AIP will be paid and the amount of the lump sum AIP payment.

3.15.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

4.0 NAVY AIP PROGRAMS

Consult the MyNavy HR website for a list of ***US Navy AIP***s.

5.0 AIR FORCE AND SPACE FORCE AIP PROGRAMS

*5.1 306 Fighter Squadron (FS), Atlantic City, NJ

5.1.1. Eligibility

Effective December 22, 2023, all members assigned to the 306 FS Atlantic City, NJ will receive AIP.

5.1.2. Payment

The monthly rate is $400.

5.1.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.2 315 FS, 367 FS, and 378 FS

5.2.1. Eligibility

The Secretary of the Air Force (SAF) authorized AIP for the members assigned to 315 FS Burlington, VT, 367 FS Homestead, FL, and 378 FS Madison, WI.

5.2.2. Payment. The monthly rates are as follows:

5.2.2.1. 315 FS Burlington, VT is $400;

5.2.2.2. 367 FS Homestead, FL is $500; and

5.2.2.3. 378 FS Madison, WI is $400.

5.2.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

*5.3 491st and 492nd Attack Squadrons (ATKS)

5.3.1. The SAF authorized AIP for the regular Air Force officers and enlisted airmen assigned to the 491st ATKS Air National Guard Base Hancock Field, NY and 492nd ATKS March Air Reserve Base, CA, effective January 18, 2024.

5.3.2. The monthly rate is $500.

5.3.3. Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.4 724th Special Tactics Group Incentive Program

5.4.1. Eligibility

Enlisted SMU members are eligible for this program.

5.4.2. Payment. Effective July 1, 2021

5.4.2.1. $750 per month for SMU Operators who have graduated and have a cumulative assignment time of less than 12 months;

5.4.2.2. $1,000 per month for SMU Operators who have a cumulative assignment time of 12-72 months;

5.4.2.3. $750 per month for SMU Operators who have a cumulative assignment time of 73-96 months;

5.4.2.4. $500 per month for SMU Operators who have a cumulative assignment time of 97-108 months; and

5.4.2.5. $0 per month for SMU Operators who have a cumulative assignment time of 109 months or more.

5.4.3. Restrictions. At any time during the authorized period, the SAF (M&RA) may terminate the 724th Special Tactics Group Incentive program if it is no longer required.

5.4.4. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.5 Air Force Special Operations Command (AFSOC), BP0VFX3H, Program

The SAF established an AIP program for enlisted and officers when assigned to the AFSOC unit designated by the Personnel Accounting Symbol (PAS) code BP0VFX3H. The SAF authorized the program for a period of 5 years subject to annual congressional approval of the pay authority, 37 U.S.C § 352. No AIP will be initially awarded (initial eligibility start date) after this date unless the program is officially extended/authorized beyond the date on the Duration of Authority table by an appropriate approving authority.

5.5.1. Eligibility Requirements

5.5.1.1. Officers and enlisted members must be assigned to operator positions within the PAS code BP0VFX3H.

5.5.1.2. Members must have successfully completed the unit's required operator training and certification.

5.5.2. Payment. Eligible personnel will be paid:

5.5.2.1. $750 per month for personnel who have a post-training cumulative unit assignment time of less than 36 months; or

5.5.2.2. $500 per month for personnel who have a post-training cumulative unit assignment time of 36 months or more.

5.5.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.6 Alice Springs, Australia

5.6.1. Eligibility

Air Force Officers and enlisted Airmen assigned to Alice Springs, Australia are eligible to receive AIP.

5.6.2. Payment

The monthly rate is $500.

5.6.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.7 Cavalier Space Force Station, ND

5.7.1. Eligibility

Regular Air Force Officers and enlisted Airmen, and Guardians assigned to the 10th Space Warning Squadron at Cavalier Space Force Station, ND are eligible to receive AIP.

5.7.2. Payment

The monthly rate is $700.

5.7.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.8 Extended Training Service Specialists (ETSS)

5.8.1. IAW DoDI 1340.26, and subject to annual congressional authorization and the availability of appropriated funds, Airmen assigned to identified hard-to-fill billets in the ETSS program support to Foreign Military Sales activities are eligible to receive AIP.

5.8.2. Airmen filling these billets will receive AIP at a rate of $1,500 per month, subject to the AIP rate ceiling established by the Deputy ASD for Military Personnel Policy.

5.8.3. Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.9 Intercontinental Ballistic Missile Field Operations Program

The SAF established an AIP program for officers assigned to Minot Air Force Base (AFB), Malmstrom AFB, or F.E. Warren AFB.

5.9.1. Eligibility Requirements

5.9.1.1. Missile and Nuclear Operations (13N), Missile Maintenance (21M), and Security Forces (31P) officers who are qualified to perform nuclear position duties are eligible.

5.9.1.2. Officers who are assigned to qualifying positions at Minot AFB, Malmstrom AFB, or F.E. Warren AFB and regularly perform duties in missile fields at these locations are eligible.

5.9.1.3. Officers whose “regular performance of duties” requires dispatch on orders to a missile field for a minimum number of hours within a 90-day calendar quarter (example: 210 hours out of a 90-day period) are eligible. This pay is not intended for those who go to the missile field sporadically.

5.9.2. Payment

Officers meeting the requirements will receive $300 per month. The unit commander will sign the AIP roster certifying the officer has met all the requirements.

5.9.3. Termination

Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.10 Kingsley Field, Klamath Falls, Oregon

5.10.1. Regular Air Force and Active Guard Reserve (AGR) Airmen permanently assigned to the 173rd Fighter Wing, Kingsley Field, Klamath Falls, Oregon will be eligible to receive AIP under 37 U.S.C. § 352. Air Force and AGR Airmen assigned to the 173rd Fighter Wing in a student status are not eligible for AIP.

5.10.2. Members who meet the eligibility provisions outlined in 5.8.1., will be authorized $400 AIP per month.

5.10.3. AIP must be terminated immediately if the member is AWOL, placed in confinement, or removed from field duties by the commander for cause. For officers, the termination is effective the day prior to promotion to the grade of Major. The effective date of termination is the last day the Airman met the requirements before removal.

5.10.4. AIP must terminate upon Permanent Change of Station to a location other than the 173rd Fighter Wing, Kingsley Field, Klamath Falls, Oregon or upon starting permissive leave in conjunction with terminal leave status.

5.10.5. Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.11 KAIP

5.11.1. All officers and enlisted personnel are eligible to receive KAIP under 37 USC § 352. Members will continue to receive AIP payments until the end-date specified in their agreements or their departure from Korea.

5.11.1.1. Airmen who are:

5.11.1.1.1. Selected for a 12-month unaccompanied tour in the Republic of Korea, and who execute a written agreement to serve either an additional 12- or 24-month unaccompanied tour, will receive $300.00 per month regardless of rank or Air Force Specialty Code (AFSC); or

5.11.1.1.2. Offered and have accepted a Command Sponsorship Program billet in the Republic of Korea and execute a written agreement to serve the 36-month accompanied tour, will receive $300.00 per month regardless of rank or AFSC.

5.11.1.2. The SAF reauthorized the continuance of KAIP through the termination date on the Duration of Authority table.

5.11.1.3. The AIP will be stopped upon termination of the contract or curtailment of the agreed tour of duty for any reason, either voluntary or involuntary. The entitlement to AIP will be terminated if the member is AWOL or enters confinement.

5.11.1.4. Airmen who elect AIP for Korea will not be eligible for Home Basing, Follow-on Assignment, or concurrent Overseas Tour Extension Incentive Program or In-Place Consecutive Overseas Tour.

5.11.2. The Under Secretary of Defense for Personnel and Readiness (USD(P&R)) memorandum establishes three categories of assignments applicable for AIP payments. All categories require a written agreement by the member. The categories are:

5.11.2.1. Members who volunteer for a 36-month initial assignment to Pyeongtaek, Osan, Daegu, Chinhae, or Seoul may be paid $300 per month in AIP, to be paid on a monthly basis, upon commencement of the assignment.

5.11.2.2. Members who volunteer for a 24-month initial assignment to Uijongbu or Dongducheon may be paid $300 per month in AIP, to be paid on a monthly basis, upon commencement of the assignment.

5.11.2.3. Members who accept an initial tour to Korea in any location and later elect to extend their assignment length for 12 or 24 months may be paid $300 per month, to be paid on a monthly basis, upon commencement of the tour with an extension agreement, or entering the extension, whichever is earlier.

5.11.3. Restrictions. At any time during the authorized period, the SAF (M&RA) may terminate the KAIP program if it is no longer required.

5.11.4. Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

*5.12 Turkey

5.12.1. Active-duty Airmen and Guardians assigned to Turkey serving an unaccompanied tour of 12-months who agree to serve a total of 24-months in Turkey, may elect, and will receive Turkey (TAIP) at a rate of $1,000.00 per month.

5.12.2. Members who meet the eligibility provisions outlined in 5.11.1 will receive TAIP at a rate of $1,000 per month effective on:

5.12.2.1. The effective date of payment for Airmen and Guardians electing TAIP at their losing base will equal:

5.12.2.1.1. Their Date Arrived Station; or

5.12.2.1.2. December 29, 2022, whichever is later.

5.12.2.2. The effective date of payment for Airmen and Guardians electing TAIP after arriving in Turkey will equal the date:

5.12.2.2.1. They sign the TAIP agreement; or

5.12.2.2.2. December 29, 2022, whichever is later.

5.12.3. Unless reauthorized by Congress, AIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless the AIP agreement was entered into prior to the date on the table.

6.0 MARINE CORPS AIP PROGRAMS

Consult with Headquarters Marine Corps Manpower and Reserve Affairs for a list of ***USMC AIP***s.

*7.0 AIP IN LIEU OF POST-DEPLOYMENT MOBILIZATION RESPITE ABSENCE (PDMRA) PROGRAM

The Secretary of Defense directed on January 19, 2007, that a program be established to recognize members who mobilize or deploy more frequently than established rotation policy goals. The PDMRA program was established to allow a member to earn days of administrative absence, not chargeable to the member's accrued leave account, dependent on the length of time the member deployed beyond the rotation policy goals. Effective May 24, 2007, the program also allowed members to receive monetary compensation in lieu of administrative absence days in certain situations. The authority to pay monetary compensation terminated October 1, 2014. Paragraphs 7.1 – 7.6 are included for historical information only.

7.1 USD (P&R) Memorandum, May 24, 2007

The USD (P&R) authorized the Secretary concerned to offer the option of payment of AIP in lieu of taking administrative absence under the PDMRA program in certain situations. RC members (as described in subparagraph 7.1.1) may elect to receive AIP for PDMRA days earned instead of taking the administrative absence. The programs are not effective until the Services publish their implementation instructions.

7.1.1. Eligible Members. RC members who are also federal, state, or local government civilian employees and precluded by law from being paid by two entities for simultaneously serving in an RC status and in their civilian government jobs may elect the payment of AIP instead of taking administrative absence.

7.1.2. Requirement. The member must elect to receive the AIP instead of the PDMRA administrative absence days before the PDMRA days are earned.

7.1.3. Payment. Members electing to be paid the AIP will receive $200 for each PDMRA day earned. Members are not authorized to be paid for any PDMRA days earned before an election is made.

7.1.4. Restrictions

7.1.4.1. Payment of the AIP will not exceed the monthly limit of $1,500.

7.1.4.2. The PDMRA payment benefit is not eligible for combat zone tax exclusion (CZTE).

7.1.5. Service Instructions. Effective dates for the implementation are:

7.1.5.1. Marine Corps: July 27, 2007;

7.1.5.2. Navy: August 2, 2007;

7.1.5.3. Army: August 7, 2007; and

7.1.5.4. Air Force: October 1, 2007.

7.2 Authority

Public Law 111-84, section 604, dated October 28, 2009, authorized the Secretary of Defense to prescribe regulations allowing the Secretary concerned to provide current and former members with payment for administrative absence days earned under the PDMRA program during the period January 19, 2007, through the date the Service implemented their respective PDMRA program. The USD (P&R) issued guidance on February 1, 2010, authorizing the Secretary concerned to issue implementing guidance. The authority expired on October 28, 2010.

7.2.1. Eligible Members

7.2.1.1. Former members who were discharged or released from the Armed Forces under honorable conditions are eligible.

7.2.1.2. Current Active Component (AC) and RC members, who qualified for PDMRA days during the period described in paragraph 7.2, are eligible.

7.2.2. Payment

7.2.2.1. Former members may receive $200 for each PDMRA day earned.

7.2.2.2. Current members, who earned PDMRA days during the period of January 19, 2007, through the date the member's service implemented the PDMRA benefits as stated in subparagraph 7.1.5., may receive either one day of administrative absence for each

PDMRA day earned or payment of $200 per day during that time frame as directed by the Secretary concerned.

7.2.2.3. Payment may be paid in a lump sum or installments, at the election of the Secretary concerned.

7.2.3. Restrictions

7.2.3.1. Payment of the AIP will not exceed the monthly limit of $1,500.

7.2.3.2. The PDMRA payment benefit is not eligible for CZTE.

7.3 Qualifying Deployments and Mobilizations on or After January 19, 2007

The following is the program guidance for qualifying deployment and mobilizations on or after January 19, 2007, but before October 1, 2011.

7.3.1. Frequency Thresholds

7.3.1.1. AC members deployed in excess of 12 months during the most recent 36-month period qualify for PDMRA.

7.3.1.2. RC members mobilized in excess of 12 months during the most recent 72-month period qualify for PDMRA.

7.3.2. Creditable Time

7.3.2.1. Creditable time for AC members includes the day of the member's arrival at the deployed location through departure of BoG.

7.3.2.2. Creditable time for RC members includes mobilizations under ***10 U.S.C. § 12301(a)***, ***10 U.S.C. § 12302***, or ***10 U.S.C. § 12304***. Mobilization for this purpose includes the day the member is mobilized through the date the mobilization is terminated.

7.3.2.3. The Secretary concerned may include other deployments or mobilizations in conjunction with an expanded program for the Service concerned.

7.3.2.4. For AC members, computation of creditable time commences 36 months prior to the member's deployment and continues during the deployment.

7.3.2.5. For RC members, computation of creditable time commences 72 months prior to the member's mobilization and continues during the deployment.

7.3.2.6. The Secretary concerned will establish policy on the crediting of time when court-martial or other adverse administrative actions have been initiated.

7.3.2.7. PDMRA days are authorized for each month or portion of a month that a member is deployed (AC) or mobilized (RC) beyond the frequency thresholds at subparagraph 7.3.1. The number of PDMRA days awarded to AC and RC members are:

7.3.2.7.1. One day of administrative absence per month in excess of 12 months during the qualifying period;

7.3.2.7.2. Two days of administrative absence per month in excess of 18 months during the qualifying period; or

7.3.2.7.3. Four days of administrative absence per month in excess of 24 months during the qualifying period.

7.3.2.8. The Secretary concerned may develop supplementary tables, including other non-monetary recognition programs, delivering comparable or greater benefits to members meeting the frequency thresholds at subparagraph 7.3.1.

7.3.2.9. RC members must be on AD during the days they take their earned PDMRA days.

7.3.3. Payment

7.3.3.1. Under current law, RC members who are also federal, state, or local government civilian employees are not permitted to receive their civilian pay on the same days they are serving on AD. Affected members may elect to receive AIP at $200 for each day of absence that otherwise would have been authorized, not to exceed $1,500 monthly, in lieu of being awarded administrative absence days.

7.3.3.2. There is no option to cash in administrative absence days already earned. The AIP election must be made by the affected RC member prior to the days being earned.

7.4 Qualifying Deployments and Mobilizations on or After October 1, 2011

The following is program guidance for qualifying deployments and mobilizations on or after October 1, 2011, including that portion of an ongoing deployment or mobilization that occurs on or after October 1, 2011.

7.4.1. Deployment and Mobilization Frequency Requirements and/or Thresholds

7.4.1.1. AC members, who on the first day of their current deployment, had deployed in excess of 12 months out of the previous 36 months, and who meet the other eligibility criteria contained in this section, qualify for PDMRA days.

7.4.1.2. RC members, who on the first day of their current qualifying mobilization, had been mobilized pursuant to 10 U.S.C. §§ 12301(a), 12302, or 12304 in excess of 12 months out of the previous 72 months, and who meet the other eligibility criteria contained in this section,

qualify for PDMRA days. The 12-month qualifying period may include service pursuant to 10 U.S.C. § 12301(d) when designated by the Secretary concerned.

* 7.4.1.3. The Secretary concerned may utilize the deployment-to-dwell ratio of 1:2 for AC members or mobilization-to-dwell ratio of 1:4 for RC members as the qualifying threshold for providing PDMRA benefits, as opposed to the requirements contained in subparagraphs 7.3.1 and 7.3.2.

7.4.2. Two Days PDMRA Accrual Conditions

7.4.2.1. AC Service members accrue 2 administrative absence days per month when the deployment threshold established in subparagraph 7.4.1 is exceeded, and the AC member is:

7.4.2.1.1. Deployed to Iraq or Afghanistan; or

7.4.2.1.2. Deployed to a CZTE area when the area has been designated as a 2-day per month PDMRA accrual location by the Secretary concerned.

7.4.2.2. RC Service members accrue 2 administrative absence days per month when the mobilization threshold established in subparagraph 7.4.1 is exceeded, and the RC member is serving:

7.4.2.2.1. In Iraq or Afghanistan pursuant to 10 U.S.C. §§ 12301(a), 12302, or 12304;

7.4.2.2.2. In Iraq or Afghanistan pursuant to 10 U.S.C § 12301(d) when designated by the Secretary concerned; or

7.4.2.2.3. In a CZTE area under the authority of 10 U.S.C. §§ 12301(a), 12301(d), 12302, or 12304 when the CZTE area has been designated as a 2-day per month PDMRA accrual location by the Secretary concerned.

7.4.3. One Day PDMRA Accrual Conditions

7.4.3.1. AC members accrue 1 administrative absence day per month when the deployment threshold established in subparagraph 7.4.1 is exceeded for deployments to a qualifying CZTE area when the CZTE area has been designated as a 1-day per month PDMRA accrual location by the Secretary concerned.

7.4.3.2. RC members accrue 1 administrative absence day per month when the mobilization threshold established in subparagraph 7.4.1 is exceeded, and the RC member is serving:

7.4.3.2.1. Outside of the United States pursuant to 10 U.S.C. § 12301(a), 10 U.S.C. § 12302, or 10 U.S.C. § 12304;

7.4.3.2.2. Outside of the United States pursuant to 10 U.S.C. § 12301(d) when designated by the Secretary concerned; or

7.4.3.2.3. In a CZTE area pursuant to 10 U.S.C. § 12301(d) when the CZTE area has been designated as a 1-day per month PDMRA accrual location by the Secretary concerned.

7.4.4. PDMRA Accrual Conditions

7.4.4.1. Service members, at a minimum, must meet PDMRA eligibility criteria contained in paragraphs 7.3 and 7.4 for 30 consecutive days in order to begin accruing PDMRA days.

7.4.4.1.1. PDMRA accrual for AC members includes the day that the member arrives at the deployed location through the day that the member redeploys.

7.4.4.1.2. PDMRA accrual for RC members includes the day that the member is ordered to duty pursuant to 10 U.S.C. §§ 12301(a), 12302, or 12304 through the date that the member's service is terminated under that same authority.

7.4.4.2. When designated as qualifying for PDMRA by the Secretary concerned pursuant to subparagraphs 7.4.2.2.2, 7.4.2.2.3, 7.4.3.2.1, or 7.4.3.2.2 include the day that the member enters service pursuant to 10 U.S.C. § 12301(d) through the date that the member's service is terminated under that same authority.

7.4.5. Extensions of Mobilization Orders to Utilize Accrued PDMRA Days. The Secretary concerned may extend the mobilization orders of RC Service members, within statutory limitations, to allow these members to utilize PDMRA days accrued during the mobilization. RC members do not accrue PDMRA days during the time that mobilization orders are extended for the purpose of utilizing PDMRA days.

7.4.6. Election of Payment for PDMRA Days

7.4.6.1. Under current law, RC members who are also federal, state, or local government civilian employees are not permitted to receive their civilian pay while on AD utilizing accrued PDMRA days.

7.4.6.2. To resolve this pay restriction, the Secretary concerned may offer such RC members a special PDMRA payment, which permits such members to elect to receive AIP in lieu of being awarded PDMRA administrative absence days.

7.4.6.3. If this option is offered, the AIP election must be made by the RC Service member prior to earning PDMRA days. The AIP would be valued at a rate of $200 for each day of administrative absence that otherwise would have been authorized under the PDMRA program, not to exceed the $1,500 monthly maximum limit of AIP. This option may not be used to cash in administrative absence days already earned.

7.4.7. Crediting PDMRA Time. The Secretary concerned will establish policy on crediting PDMRA time when court-martial or other adverse administrative actions have been initiated.

7.4.8. RC Use of Administrative Absence Days. RC members must be serving pursuant to 10 U.S.C. §§ 12301(a), 12301(d), 12302, or 12304 in order to utilize the administrative absence days accrued under the PDMRA program.

7.5 Public Law 112-120, Dated May 25, 2012

7.5.1. Public Law 112-120 clarified the entitlement to PDMRA days for RC members. The law allows for the Secretary of Defense to determine that provisions of entitlement outlined in ***DoDI 1327.06***, "Leave and Liberty Policy and Procedures" will not apply to RC members whose qualified mobilization commenced before October 1, 2011, and continued on and after that date until the date the mobilization terminated.

7.5.2. The USD (P&R) issued implementation guidance for Public Law 112-120 on July 11, 2012. The guidance stipulated that:

7.5.2.1. Each Secretary concerned will publish implementing guidance and establish an application process to allow qualifying current and former RC members to apply for benefits authorized by Public Law 112-120.

7.5.2.2. Benefits are only authorized for RC members who deployed Outside the Continental United States and whose qualified mobilization commenced before October 1, 2011.

7.5.2.3. Each Secretary concerned will provide qualifying applicants with a PDMRA day, or a payment of $200 for each PDMRA day that the individual would have qualified for had the October 1, 2011, guidance changes not applied to the individual.

7.5.2.4. Each Service's application for benefits will require qualifying RC members to elect to receive either a PDMRA day or payment of $200 for each qualifying PDMRA day. The application will caution members who are no longer mobilized in a status where they can use the PDMRA days and elect PDMRA days in lieu of payment that:

7.5.2.4.1. The PDMRA days will be banked and cannot be used until the next qualifying period of service; and

7.5.2.4.2. Banked PDMRA days will be lost if the member is separated from the military prior to using the PDMRA days. Banked PDMRA days cannot be subsequently sold.

7.5.2.5. Qualifying former RC members will only receive $200 per day for each PDMRA day.

7.5.2.6. Former RC members who were discharged or released from the Armed Forces under other than honorable conditions are not eligible for benefits.

7.5.2.7. Each Secretary concerned may elect to pay qualifying individuals a lump sum payment or installments.

7.5.2.8. The authority to provided benefits under Public Law 112-120 expires on October 1, 2014. This expiration does not affect PDMRA days earned prior to but used or paid for after October 1, 2014. The member must have elected the payment option before October 1, 2014.

7.6 Public Law 112-239, Dated January 2, 2013

7.6.1. Public Law 112-239 allows for the payment of $200 per day to individuals who were eligible to participate as a member of the Armed Forces in the PDMRA program, but who did not participate in 1 or more days in the program due to Government error. Those individuals must apply for payment of PDMRA days with an application for the correction of their military records pursuant to ***10 U.S.C. § 1552***, or other process as prescribed by the Secretary concerned.

7.6.2. A claim for a deceased individual, who would have been authorized to apply for the payment of $200 in subparagraph 8.6.1, may be submitted by the deceased individual's legal representative. Payment for a deceased member will be made pursuant to 10 U.S.C. § 1552 (c)(2), or other process as determined by the Secretary concerned.

CHAPTER 17

SPECIAL PAY – HARDSHIP DUTY

1.0 GENERAL

1.1 Purpose

This chapter prescribes the policy for payment of Hardship Duty Pay (HDP) and lists the areas where members are authorized to receive these entitlements.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code, section 352 (***37 U.S.C. § 352***). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 HDP

2.1 HDP – Location (HDP – L)

2.1.1. Purpose. HDP – L is designed to recognize service at locations where living conditions are substantially below those normally found within the continental United States and to provide equity across DoD for Service members assigned to these locations. Locations are contained in Table 17-1, and are listed on the ***Hardship Duty Pay - Locations*** table on DFAS.MIL.

2.1.2. Eligibility. All Service members permanently assigned or serving in a temporary additional duty/temporary duty (TAD/TDY), deployed, or attached status for over 30 consecutive days in a designated area, will receive HDP – L. Service members on permanent reassignment to the area are eligible for HDP – L from the day of arrival at the new station. The conditions for HDP – L are set forth in Table 17-2. The Assistant Secretary of Defense – Manpower and Reserve Affairs (ASD (M&RA)) will promulgate any additional eligibility criteria by issuing a policy decision memorandum.

2.1.3. Locations and Amounts. The ASD (M&RA) will promulgate locations and specific amounts for HDP – L at the rates shown in Table 17-1.

2.1.4. Restrictions. Service members performing duty temporarily in a designated area are not eligible for HDP – L during the first 30 days of consecutive duty in the area. On the 31st day, HDP – L is payable to the member retroactive to the date the member reported for duty at the location. The ASD (M&RA) will promulgate any additional restrictions for HDP – L.

2.1.5. Termination. HDP – L entitlement ends on:

2.1.5.1. The day the member departs the station as a result of Permanent Change of Station (PCS) reassignment; or

2.1.5.2. The last day of the effective period as stated in Table 17-1; or

2.1.5.3. The day specified in Table 17-1 for specific situations.

2.2 HDP – Mission (HDP – M)

2.2.1. Purpose. HDP – M is designed to recognize permanent or temporary assignment of Service members when conditions are deemed particularly arduous or require Service members to perform duties outside of normal military operations.

2.2.2. Eligibility. Eligibility criteria will be established by the ASD (M&RA) for Service members permanently or temporarily assigned to a designated mission. A member assigned to, on TAD/TDY with, or otherwise under the operational control of the Defense Prisoner of War/Missing Personnel Office, the Joint Task Force-Full Accounting, or the Central Identification Lab-Hawaii, may qualify for HDP – M based on performance of a hardship mission. Eligible members are entitled to receive HDP – M for each month in which they perform investigative or remains recovery duty in a remote, isolated area (including, but not limited to, areas in Laos, Cambodia, Vietnam, North Korea, Albania, Bulgaria, Bosnia-Herzegovina, Croatia, Egypt, Italy, Romania, Servia, Slovenia, and Yugoslavia) in the recovery of U.S. Service member remains.

2.2.3. Maximum Amount. HDP – M is payable to all members at the rate of $150 per month. HDP – M is payable at the full monthly rate, without prorating or reduction, for each month, during any part of which, the member performs a specified mission.

2.3 HDP – Tempo (HDP – T)

2.3.1. Purpose. HDP – T is designed to recognize extended or excessive amounts of time outside of a Service member's permanent duty station (PDS).

2.3.2. Eligibility. Secretaries of the Military Departments concerned will establish eligibility criteria based on Service-specific needs but will consider retention, quality of life, family separation, and other factors that contribute to a Service member's dissatisfaction when spending extended or excessive amounts of time away from the Service member's PDS.

2.3.3. Amount. Secretaries of the Military Departments concerned will establish monthly rates, but the maximum amount of HDP – T per month will not exceed $500.

2.3.4. Restrictions. The Secretary of the Military Departments concerned will prorate the monthly amount of HDP – T for a member who does not satisfy the eligibility requirements for an entire month.

NOTE: For periods of absence, consult with Service regulations to determine eligibility.

2.4 HDP – Restriction of Movement (HDP – ROM)

2.4.1. Purpose. HDP – ROM is designed for Service members ordered by their command to restriction of movement for self-monitoring due to exposure or suspected exposure to COVID-19.

2.4.2. Eligibility. Effective March 13, 2020, Service members ordered by their command:

2.4.2.1. To restriction of movement for self-monitoring due to exposure or suspected exposure to COVID-19; or

2.4.2.2. To restriction of movement for self-monitoring due to travel to, from or through a Center for Disease Control and Prevention Level 3 Travel Health Notice country;

2.4.2.3. That are directed to do so at a facility that is neither provided by the U.S. Government nor is their personal residence at the member's PDS; and

2.4.2.4. Are required to pay for the cost of their lodging without full or partial reimbursement.

2.4.3. Amount. HDP – ROM will be paid at the rate of $100 per day not to exceed $1,500 per month.

3.0 RESTRICTIONS ON PAYMENT

3.1 General Restrictions

When a member is in receipt of Hostile Fire Pay (HFP) or Imminent Danger Pay (IDP), then the maximum amount of HDP – L is $100. The total entitlement of HDP – L plus HFP or IDP in any 1 month may not exceed $325.

3.2 Concurrent Payments

The combination of HDP – M, HDP – L, and HDP – T entitlements and other assignment and special duty pays may not exceed an average monthly amount of $3,500 unless otherwise authorized by ASD (M&RA).

NOTE: As of the March 13, 2020, memorandum from ASD (M&RA), HDP – ROM may be paid in addition to all other HDPs and assignment and special duty pays such that the total combined HDP and assignment and special duty pays may not exceed the average monthly amount of $5,000 as prescribed in 37 USC § 352(b)(2).

RULE	When a member	and	and	then hardship duty location pay
8	is assigned to permanent duty in a location listed in Table 17-1 as a hardship duty area	official status is accompanied	leaves the area temporarily for reasons other than to perform more than 30 days of operational flight duty, TAD/TDY, or for hospitalization in one or more HDP – L areas	continues to accrue.
9	is assigned to permanent duty in a location listed in Table 17-1 as a hardship duty area	official status is unaccompanied	leaves the area temporarily for reasons other than to perform more than 30 days of operational flight duty, TAD/TDY, or for hospitalization in one or more HDP – L areas	continues for first 30 days.
10	is not assigned to permanent duty in a location listed in Table 17-1 as a hardship duty area		is on operational flight duty, TAD/TDY, or hospitalized in one or more HDP – L areas for a continuous period of more than 30 days (including date of arrival and date of departure)	accrues at the applicable area rate retroactive from the date of arrival (notes 1 and 4). Entitlement is limited to $100 when HFP or IDP is payable during the same month.
11	is entitled to hardship duty location pay for temporary assignment in an area listed in Table 17-1		leaves the area temporarily to perform more than 30 days of operational flight duty, TAD/TDY, or for hospitalization in one or more HDP – L areas	accrues at the higher area rate during the first 30 days at the follow-on assignment and then continues at the follow-on area rate until return to the original temporary area or through day of departure, if not returning (notes 3 and 4).
12	is entitled to hardship duty location pay for temporary assignment in an area listed in Table 17-1		leaves the area temporarily for reasons other than to perform more than 30 days of operational flight duty, TAD/TDY, or for hospitalization in one or more HDP – L areas	continues for first 30 days.

RULE	When a member	and	and	then hardship duty location pay
13	is entitled to hardship duty location pay for temporary assignment in an area listed in Table 17-1		leaves the area permanently	continues through day of departure (note 2).

Table 17-2. Hardship Duty Pay - Location Pay - Conditions of Entitlement (Continued)

RULE	When a member	and	and	then hardship duty location pay
14	is otherwise entitled to hardship duty location pay for assignment in an area listed in Table 17-1 as a hardship duty area		is in confinement awaiting trial by court-martial and is acquitted or has charges dismissed	accrues retroactive to first day of confinement.
15	is otherwise entitled to hardship duty location pay for assignment in an area listed in Table 17-1 as a hardship duty area		is in confinement awaiting trial by court-martial and is convicted	does not accrue from first day of confinement through the day before the date restored to full duty (note 5).
16	is otherwise entitled to hardship duty location pay for assignment in an area listed in Table 17-1 as a hardship duty area		is in confinement as result of court-martial sentence	does not accrue from first day of confinement through the day before the date restored to full duty (note 5).

Table 17-2. Hardship Duty Pay - Location Pay - Conditions of Entitlement (Continued)

NOTES:

1. If already in a location designated a hardship duty area, the day of designation starts pay for those on permanent duty. Absences from an HDP-L area of less than 24 hours do not break continuity. A member, on operational flight duty, TAD/TDY, or hospitalized in an area on the date it becomes designated for HDP – L, may count the number of consecutive days already served in that area immediately preceding the date of designation. Additionally, the member may count the number of consecutive days served in a different designated area or areas, if the member served in such area(s) immediately preceding arrival in the newly designated area. In any case, entitlement to payment for HDP – L cannot accrue for any area prior to the date it is designated.
2. Rule 3 applies when a medical evacuee has been reassigned on PCS from the designated area for medical treatment.
3. Any enroute TAD/TDY, travel time, or leave will accrue HDP-L at the PDS/prevailing area rate. HDP terminates if more than 30 days pass before a member (other than a member with accompanied status at an HDP – L PDS) reports for duty in another designated area.
4. If time from more than one designated area is combined to meet the 30-day qualifying criteria, pay the rate for the area at which the greatest time was earned during the first 30 days. After the first 30 days pay the applicable rate for the area in which duty is served, prorated if necessary.
5. Non-judicial punishment does not result in loss of HDP.

VOLUME 7A, CHAPTER 18: "SPECIAL PAY – CAREER SEA PAY (CSP)"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated May 2022 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated formatting to comply with current administrative instructions.	Revision
3.3	Added the "Duration of Authority" subparagraph in accordance with the National Defense Authorization Act (NDAA) for Fiscal Year 2024, Public Law 118-31, section 613, dated December 22, 2023. Also updated the termination date on the Duration of Authority table on DFAS.mil.	Addition
References	Updated statutes and supporting references.	References

CHAPTER 18

SPECIAL PAY – CAREER SEA PAY (CSP)

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to CSP and CSP-Premium (CSP-P).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Title 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 PROVISIONS

2.1 Entitlement

A member who is entitled to basic pay is entitled to CSP and CSP-P while serving on sea duty under regulations prescribed by the Office of the Secretary of Defense, Secretary of the Military Department concerned, and the provisions of this chapter.

2.2 Definitions

2.2.1. CSP. CSP is special pay for recognition of the greater than normal rigors of assignment to sea duty.

2.2.2. CSP-P. CSP-P is special pay that is in addition to CSP and is paid for unusually long periods of continuous sea duty. A member entitled to CSP who has served 36 consecutive months of sea duty is also entitled to CSP-P for the 37th consecutive month and each subsequent consecutive month of sea duty served.

2.2.3. Sea Duty. Sea duty, for the purpose of entitlement to CSP and CSP-P, is duty performed by a member under orders:

2.2.3.1. While permanently assigned for duty to a ship, ship-based staff, or ship-based aviation unit and serving on a ship with a primary mission that is accomplished underway (includes ships designated as destroyers or submarine tenders). Periods when the member is on temporary duty (TDY), on leave, hospitalized, or otherwise temporarily absent under orders, not to exceed the first 30 consecutive days of each occurrence, are also counted;

2.2.3.2. While temporarily assigned for duty to a ship, ship-based staff, or ship-based aviation unit and serving on a ship with a primary mission that is accomplished underway (includes ships designated as destroyers or submarine tenders);

2.2.3.3. While permanently or temporarily assigned for duty to a ship or ship-based staff and serving on a ship with a primary mission that is accomplished in port, but only during that period while the ship is away from its homeport. A ship is considered to be away from its homeport whenever it is at sea or is in a port that is more than 50 miles from its homeport; or

2.2.3.4. While serving as a member of the off-crew of a two-crewed vessel.

2.2.4. Cumulative Sea Duty (CSD). CSD is the total time a member has been assigned to qualifying sea duty during their service career, regardless of pay grade. Additionally, it will include all time during which a member is assigned to a ship or ship-based staff and actually served on a ship with a primary mission that is accomplished in port, regardless of whether the ship is at sea or away from homeport.

2.2.5. Ship. Ship, for the purpose of entitlement to CSP and CSP-P, means a self-propelled vessel in an active status, in commission, or in-service.

3.0 CONDITIONS OF ENTITLEMENT

3.1 General Conditions

The general conditions of entitlement to CSP are listed in Table 18-1. Additionally, entitlement to and the rate of CSP is dependent upon the branch of service, pay grade, and total CSD applicable to the member. All members in pay grades E-1 through O-6 are eligible for payment of CSP, except commissioned officers of the Army and Air Force with 3 or less years of CSD and enlisted members of the Air Force in pay grades below E-4.

3.2 CSP-P Conditions

The conditions of entitlement to CSP-P require the member to first be entitled to CSP. The CSP-P is in addition to CSP; however, for certain pay grades, it has been included in the CSP rate tables and is not payable as a separate item. When payable as a separate item, CSP-P accrues from the first day following the completion of the 36th month of consecutive sea duty and will be prorated if beginning on other than the first day of a calendar month.

> Example: A member beginning a period of sea duty on January 15, 2011 would accrue CSP-P beginning January 15, 2014. The CSP-P is payable for the 37th and each subsequent consecutive month of sea duty regardless of the member's pay grade when the sea duty began, provided the member is concurrently entitled to CSP.

3.2.1. The following members of the Navy and Marine Corps may become entitled to CSP-P as a separate item of pay:

3.2.1.1. All officers in pay grades O-1 through O-6;

3.2.1.2. All warrant officers;

3.2.1.3. All enlisted members in pay grades E-1 through E-4; and

3.2.1.4. All enlisted members in pay grades E-5 through E-9 with not over 8 years of CSD.

3.2.2. The following members of the Army may become entitled to CSP-P as a separate item of pay:

3.2.2.1. All officers in pay grades O-1 through O-6; and

3.2.2.2. All enlisted members in pay grades E-1 through E-3.

3.2.3. The following members of the Air Force may become entitled to CSP-P as a separate item of pay:

3.2.3.1. All officers in pay grades O-1 through O-6;

3.2.3.2. All enlisted members in pay grade E-4; and

3.2.3.3. All enlisted members in pay grades E-5 through E-9 with not over 5 years of CSD.

3.2.4. Members not addressed in subparagraphs 3.2.1, 3.2.2, and 3.2.3, have CSP-P already included in their applicable CSP rate table or are otherwise not eligible to receive a separate CSP-P payment.

*3.3 Duration of Authority

Unless authorized by Congress, no CSP or CSP-P payment may be paid after the termination date on the ***Duration of Authority*** table.

4.0 RATES PAYABLE

4.1 CSP

The Secretary concerned will prescribe the monthly rates for special pay applicable to members of each Military Service under the Secretary's jurisdiction. The monthly rate may not exceed $750.

4.1.1. The monthly rates of CSP for members of the Army are in Table 18-2.

4.1.2. The monthly rates of CSP and CSP-P (for E-5 through E-9 with over 8 years of CSD) for members of the Navy and Marine Corps are listed in Table 18-3.

4.1.3. The monthly rates of CSP for members of the Air Force are listed in Table 18-4.

4.2 CSP-P

The Secretary concerned will prescribe the monthly rate for CSP-P applicable to members of each Military Service under the Secretary's jurisdiction. The monthly rate may not exceed $350.

5.0 RESTRICTIONS

5.1 En route and Transport Restrictions

Do not credit time for sea duty and do not pay CSP or CSP-P to members en route to or from ships outside the Continental United States or onboard a ship for transportation, regardless of the length of the period. This restriction applies to the periods prior to a member reporting for permanent duty and after being permanently detached from duty onboard a ship.

5.2 Midshipmen and Cadet Members

Do not credit time for sea duty and do not pay CSP or CSP-P to midshipmen, aviation cadets, or academy cadets.

5.3 Navy and Marine Corps Members

Do not pay CSP-P to Navy and Marine Corps members entitled to CSP in Table 18-3 for duty if in pay grades E-5 through E-9 with over 8 years of CSD.

5.4 Army Members

Do not pay CSP-P to Army members entitled to CSP in Table 18-2 for duty:

5.4.1. Between October 1, 2002 and June 30, 2003 if in pay grades E-5 through E-9; or

5.4.2. On or after July 1, 2003 if in pay grades E-4 through E-9 or W-1 through W-5.

5.5 Air Force Members

Do not pay CSP-P to Air Force members entitled to CSP in Table 18-4 for duty if in pay grades E-5 through E-9 with over 5 years of CSD.

Table 18-1. CSP – Conditions of Entitlement

RULE	When an eligible member	is serving on a ship whose primary mission is accomplished		and	then CSP
		underway	in port		
1	reports for permanent duty defined as sea duty and	X			starts on reporting date.
2	reports for permanent duty defined as sea duty and		X	member is onboard when ship departs from homeport	accrues from departure date.
3	reports for permanent duty defined as sea duty and		X	member reports onboard while ship is away from homeport	accrues from reporting date.
4	is detached from permanent duty defined as sea duty and	X	X		terminates on detachment date, provided member is otherwise entitled on that date.
5	is discharged while on sea duty and	X	X	immediately reenlists onboard	continues to accrue, provided member is otherwise entitled.
6	on sea duty is entitled to CSP and		X	ship returns to homeport	accrues through the date the ship returns to homeport.
7	on sea duty	X		is on TDY, temporary additional duty (TAD), temporarily based ashore, under orders, or hospitalized ashore (note 1)	accrues during the first 30 days member is in such status.
8	on sea duty		X	is on TDY, TAD, temporarily based ashore, under orders, or hospitalized ashore (note 1)	accrues during the first 30 days member is in such status, provided member is otherwise entitled and ship remains away from its homeport (note 2).
9	on sea duty is on authorized leave and	X	X		accrues for the first 30 days of leave if otherwise entitled. There is no accrual during terminal leave.
10	is based on or stationed ashore and	X		the type of duty is TAD or TDY	accrues from reporting date through detachment date (note 3).

Table 18-1. CSP – Conditions of Entitlement (Continued)

RULE	When an eligible member	is serving on a ship whose primary mission is accomplished		and	then CSP
		underway	in port		
11	is based on or stationed ashore and		X		accrues as indicated in rules 2 and 3, as applicable, and terminates when the ship returns to homeport or detachment date if ship remains away from homeport.
12	is suspended or otherwise removed from duty or confined awaiting trial by court-martial and	X	X	is acquitted or charges are dismissed	accrues retroactively from first day of confinement, suspension, or removal from duty, provided member is otherwise entitled.
13	is suspended or otherwise removed from duty or confined awaiting trial by court-martial and	X	X	is convicted	does not accrue beginning first day of confinement, suspension, or removal from duty through day prior to date of return to duty (note 4).
14	is confined as a result of court-martial and	X	X		does not accrue beginning first day of confinement through day prior to date of release from confinement (note 4).
15	is permanently or temporarily assigned to duty on a ship which is undergoing alterations or repairs and	X	X (note 5)	ship remains in an active status (in commission or in-service) (note 6)	continues to accrue.
16	is permanently or temporarily assigned to duty on a ship undergoing inactivation processing and	X	X		stops when the ship reverts to inactive status.
17	is assigned to a Fleet Marine Force unit based on or stationed ashore and	X		the type of duty is TAD or TDY	accrues from the embarkation date through the debarkation date (note 3).

Table 18-1. CSP – Conditions of Entitlement (Continued)

NOTES:

1. "Temporarily based ashore" refers to a ship-based aviation unit or ship-based staff that has landed ashore with intent to return to a ship.
2. Entitlement terminates when the ship returns to the homeport.
3. Further TAD/TDY ashore from ship will not interrupt CSP entitlement for the first 30 days member is in such status, provided member is otherwise entitled and returns to the ship.
4. Where sentence is changed to restriction to ship and member performs duty, CSP is resumed. Nonjudicial punishment does not result in loss of CSP.
5. Entitlement accrues only when the ship is away from the homeport.
6. Chief of Naval Operations Instruction (OPNAVINST) 4700.8L series defines ship status assignments for U.S. Naval ships.

VOLUME 7A, CHAPTER 19: "FOREIGN LANGUAGE PROFICIENCY BONUS (FLPB)"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated March 2023 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current administrative instructions.	Revision
2.0	Revised the "FLPB Entitlement" section to include implementation of "Table 1 FLPB Monthly Payment Calculated by Critical Skill Modality Proficiency (Table 1)" to comply with DoD Instruction (DoDI) 1340.27, dated August 17, 2022.	Revision
2.4	Replaced the "FLPB Installment Rates" table with "Table 1" table on DFAS.MIL in accordance with the DoDI 1340.27, dated August 17, 2022.	Revision
3.5	Updated the termination date for the "Duration of Authority" table on DFAS.MIL to comply with the National Defense Authorization Act for Fiscal Year 2022, Public Law 118-31, dated January 3, 2023.	Revision
References	Updated supporting statutes and references.	Revision

CHAPTER 19

FOREIGN LANGUAGE PROFICIENCY BONUS (FLPB)

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to FLPB for members of an Active Component (AC) or Reserve Component (RC) of the Military Services (less the Coast Guard).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Title 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

*2.0 FLPB ENTITLEMENT

2.1 Eligibility for Payment

The Secretary of the Military Department concerned will pay FLPB, in accordance with ***Title 37, U.S.C., section 353(b)***, to a Service member who is:

2.1.1. Entitled to basic pay pursuant to ***37 U.S.C. § 204***;

2.1.2. A member of the National Guard who is not a Reserve of the Army or the Air Force, who is participating in full-time training, training duty with pay, or other full-time duty, provided by law, including participation in exercises or the performance of duty under ***10 U.S.C § 10302***, ***10 U.S.C. § 10305***, ***10 U.S.C. § 10502***, ***10 U.S.C. § 12402***, or ***32 U.S.C. § 503***, ***32 U.S.C. § 504***, ***32 U.S.C. § 505***, ***32 U.S.C. § 506***; or

2.1.3. Entitled to compensation pursuant to ***37 U.S.C. § 206*** (See Chapter 58, paragraphs 2.1 and 4.2 for Service-specific instructions and other criteria (other than drill pay) that satisfies qualifying compensation in accordance with 37 U.S.C. § 206); or

2.1.4. Determined to have and is maintaining certified foreign language or dialect proficiency in accordance with ***37 U.S.C. § 353(b)(1)(B)*** in a skill the Secretary of the Military Department designates as critical.

2.1.5. A critical language skill is:

2.1.5.1. Required by any Service language–related career field or military specialty, designated by a Secretary of the Military Department, where the Service member's primary duties require an Interagency Language Roundtable (ILR) skill level 2+ or higher level (ILR skill level 2 and higher for special operations forces (SOF) personnel, but only if the Service has those SOF language requirements) of proficiency in a foreign language that directly supports the national defense strategy or Service-specific language-related missions.

2.1.5.2. A foreign language on the DoD or Service Strategic Language List or any foreign language for which the Secretary of the Military Department has language-designated requirements.

2.1.6. The member must execute a written agreement with the Secretary concerned that includes:

2.1.6.1. The amount of FLPB awarded;

2.1.6.2. The period for which the FLPB will be paid;

2.1.6.3. The initial certification or recertification necessary for the FLPB payment; and

2.1.6.4. The repayment provision discussing repayment of the unearned portion of any remaining FLPB if the member does not satisfy the eligibility and certification requirements for the length of the written agreement.

2.2 RC Eligibility

2.2.1. In order to receive FLPB a member of an RC must:

2.2.1.1. Meet the eligibility and proficiency requirements outlined in paragraphs 2.1, 2.3, 2.6, and 2.7; and

2.2.1.2. Fulfill the minimum annual service requirements for retirement eligibility, as defined in ***10 U.S.C. § 12732***, unless waived by the Secretary of the Military Department concerned.

2.2.2. An RC member must earn a minimum of 50 retirement points, regardless of the RC source, in each full anniversary year to have that year count as creditable towards verification of the total years of qualifying service for non-regular retired pay and payment of FLPB.

2.2.2.1. A partial qualifying year is any period of less than 12 full months during which the RC member earns a prorated share of the required 50 retirement points and earns an identical prorated share (or smaller percentage of full FLPB annual payment) of FLPB.

2.2.2.2. An RC member who performs a partial qualifying year of less than 12 full months and earns less than 50 retirement points in a year will have their FLPB prorated at a value of 2 percent for each retirement point less than 50 points.

2.2.3. The total of FLPB paid to an RC member who is in good standing and has not been adjudicated as an unsatisfactory performer in the previous 12 months, must equal the annual FLPB paid to an AC member with the same certified language proficiency.

2.2.3.1. For RC members, the requirement to attain 50 retirement points is waived for FLPB calculation if the Service member separates before 12 months in the anniversary year. The RC member will be paid the standard FLPB monthly allotment for months in good standing, with the last month of service prorated if separation occurs before the last day of the month. A separating RC member who serves the entire 12 months of the anniversary year must earn 50 points to collect the last month of FLPB prior to separation.

2.2.3.2. RC members in a separation year, who are no longer in good standing will have their FLPB terminated in the month in which they are determined to be no longer "in good standing."

2.2.4. Members of the Ready Reserve who are transferred to the Standby Reserve, in accordance with DoDIs ***1200.07*** and ***1304.31***, will have their bonus suspended during this period and will not be entitled to any future bonus payments while in the Standby Reserve. This suspension period may not exceed 1 year. In cases with unusual and extenuating circumstances, the Secretary of the Military Department concerned may grant a one-time suspension up to 3 years on a case-by-case basis. If a member is transferred back to the Ready Reserve with the same skill for which they had previously contracted, they may be reinstated in the bonus program.

2.2.4.1. To qualify, Service members must extend their term of service, or service obligation, to serve the original bonus agreement period.

2.2.4.2. Subsequent payment entitlement will resume on the adjusted anniversary date of satisfactory and creditable Reserve service. The date must be adjusted for the period spent in the Standby Reserve.

2.2.4.3. Failure to report after a suspension period or not meeting reinstatement criteria in accordance with the bonus agreement will result in bonus termination and repayment of any unearned bonus money. See paragraph 3.3 for additional information.

2.3 Certification

2.3.1. Approved DoD Certification Method Associated with FLPBs

The Secretary of the Military Department must use the DoD-approved Defense Language Proficiency (DLP) System of tests in accordance with ***DoDI 5160.71*** to certify their Service members proficient in foreign language or dialect proficiency for FLPB payment.

2.3.2. Annual Certification Expiration Date Calculation of Foreign Language or Dialect Proficiency

2.3.3. In accordance with ***37 U.S.C. § 353(d)(2)***, the certification of a Service member's foreign language or dialect proficiency must expire 1-year from the first day of the first month beginning on or after the certification date, unless they are recertified or excepted.

2.3.3.1. For example, if a Service member certifies proficient for a FLPB payment on January 2, 2021, their recertification date is calculated to be February 1, 2022. First, the 1-year calculation is applied to reach January 2, 2022. The first day of the first month beginning on or after January 2, 2022, is February 1, 2022.

2.3.3.2. In the event that FLPB eligibility requires two or more modalities, the test date of the last modality received should be used to calculate the start payment date and the recertification (stop payment) date for FLPB. All testing should be completed within a consecutive 30-day period. For example, a Service member scores an L2+ on January 2, 2022, and an S2 on January 31, 2022. The effective FLPB start date would be January 31, 2022.

2.3.4. In accordance with ***37 U.S.C. § 353(d)(1)***, Service members receiving FLPB must recertify annually in the foreign language or dialect for which they are receiving a FLPB. (See exceptions and a waiver in paragraphs 2.6 through 2.8). The Secretary of the Military Department concerned may retest Service members in accordance with DoDI 5160.71, paragraph 2.6.h. (See DoDI 5160.71 for other Secretary of the Military Department concerned retest qualifying events).

*2.4 FLPB Pay Table

2.4.1. Table 1 incorporates must-pay and may-pay FLPB policies for the Secretary of the Military Department concerned to calculate and pay one monthly payment of FLPB based on the Service member's critical skill of possessing certified proficiency at and above ILR skill level 2+ (or 2 for SOF), by modality skill. (See ***Table 1***.) Specifically, Table 1 is grouped by ILR skill level proficiencies (from 1 to 4 or higher) and modalities (L, R, and S). Table 1 allows the Secretary of Military Department to calculate a single FLPB monthly payment, not to exceed $1,000, for any possible ILR skill level proficiency (except ILR skill 0 and 0+) and any single modality or combination of modalities (except for the writing modality) associated with critical skill requirements.

2.4.2. The Secretary of the Military Department must pay FLPB to their Service members serving in language professional career fields that require Service members to have certified foreign language proficiency at and above ILR skill level L2+, R2+, or S2 to perform their primary language related duties. Applicable DoD or Service instructions establish required FLPB-related modalities associated with these career fields.

2.4.2.1. Must-pay language professional career fields or military specialties include Service:

2.4.2.1.1. Cryptologic Language Analysts (CLAs).

2.4.2.1.2. Foreign area officers (FAOs).

2.4.2.1.3. Defense Threat Reduction Agency interpreters and translators.

2.4.2.1.4. Other select Service language professional career fields or military specialties designated by the Secretary of the Military Department concerned.

2.4.2.2. Additionally, the Secretary of the Military Department concerned must pay:

2.4.2.2.1. Service SOF personnel at and above ILR skill level 2 (but only if the Service has documented SOF language requirements at ILR skill level 2 and above). The applicable Service FLPB instruction establishes required FLPB payable modalities associated with SOF personnel.

2.4.2.2.2. All Service members who are ILR skill level S2 proficient or above in their primary language and have speaking as a required modality associated with their primary language-related duties.

2.4.3. For all other Service members with a certified foreign language proficiency below ILR skill level L2+, R2+, or S2 who are not designated as a must pay FLPB recipient, the Secretary of the Military Department may or may not pay FLPB.

2.4.3.1. If paid at ILR skill levels 1 or 1+ in any modality or at ILR skill level 2 in listening or reading, the Secretary of the Military Department may choose to pay only one of the monthly modality FLPB dollar amounts depicted in Table 1. For example, an L1+ modality and proficiency combination may either be calculated at one of the three payment amounts depicted for L1+ ($0, $50 or $80).

2.4.3.2. The Secretary of the Military Department has discretion to pay or not pay FLPB to their Service members who have additional or multiple certified foreign language or dialect proficiencies.

2.4.3.3. FLPB payment calculation for a certified S2 or higher score, to any Service member whose required modalities do not include speaking, is at the Secretary of the Military Department's discretion.

2.4.4. Pay table calculation and must pay, may pay or may not pay examples:

2.4.4.1. The Secretary of the Military Department has discretion to calculate a monthly FLPB payment for one, two or three skill modalities associated with the Service member's certified language proficiency in those modalities (L, R, and/or S) that the Service Secretary determines are critical to performing their language-related duties. In Table 1, ILR skill levels with a single dollar amount depicted are "must pay" and 2 or 3 dollar amounts depicted are "may or may not pay" FLPB policies for the Secretary of the Military Department.

2.4.4.2. A CLA scores L2+/R3 on a DLP Test (DLPT). The Secretary of the Military Department "must pay" FLPB for L2+($200) and R3+($300). Testing and payment of FLPB for S1-S5 is at the discretion of the Secretary of the Military Department.

2.4.4.3. Another CLA scores L2/R2 on a DLPT. The Secretary of the Military Department "may or may not pay" FLPB for L2 (at $0, $50 or $100) and R2 (at $0, $50 or $100) in accordance with Service FLPB policy. Testing and payment of FLPB for S1-S5 is at the discretion of the Secretary of the Military Department.

2.4.4.4. Similarly, a FAO scores L2/R2 on a DLPT and an S2+ on an oral proficiency interview (OPI). The Secretary of the Military Department "may or may not pay" FLPB for L2 (at $0, $50 or $100) and R2 (at $0, $50 or $100) in accordance with Service FLPB policy. In accordance with DoDI 1315.20, FAOs must take an OPI every 2 years. The S2 is "must pay" at $100.

2.4.4.5. A linguist scores L1/R1+ on a Very Low Range DLPT and an L1+/S1+ on a 2SOPI. Because of Note 2 in Table 1, the linguist's scores are now L1+ (inferred listening from the 2SOPI)/R1+/S1+. The linguist requires L and S proficiency as part of their military duties, so the Secretary of the Military Department "may or may not pay" FLPB for L1+ (at $0, $50 or $80) and S1+ (at $0, $50 or $80). FLPB payment for the R1+ (at $0, $50 or $80) is at the discretion of the Secretary of the Military Department.

2.4.4.6. Another linguist scores an L2/S2 on a 2SOPI. S2 is a "must pay" FLPB calculation requirement, so FLPB for the S2 is $100. The L2 is a "may or may not pay" at $0, $50, or $80.

2.4.4.7. A FAO scores L2/R2 on a DLPT and an S3 on an OPI. The FAOs scores are now L2/R2/S3. For the L2 and R2, the Secretary of the Military Department "may pay" $0, $50 or $100 for each L2 and R2 modality. In this example, the Secretary of the Military Department options to pay FLPB at $100 for both the L2 and R2 (or $200). Additionally, the S3 is "must pay" at $300, so this FAO's total FLPB is $500 per month.

2.4.5. Additional payment considerations:

2.4.5.1. For Service members who have a combination of must-pay and may-pay ILR skill proficiencies and modalities (e.g., L2+ (must pay) and R2 (may pay)), the Secretary of the Military Department must pay for the L2+ but may pay or not pay for the R2. If the R2 is not calculated in the monthly payment by the Secretary concerned, the Service member would only receive a monthly FLPB payment for the L2+ alone.

2.4.5.2. Pursuant to *37 U.S.C. § 353(c)(2)*, the Secretary of the Military Department concerned may not vary the criteria or rates for FLPB paid for officers and enlisted members.

Note: Upon publication of the chapter, the Military Department must cease use of FLPB pay table rates associated with cancelled DoDI 1340.27, dated May 21, 2013, and commence use of Table 1 for setting FLPB amounts upon certification or recertification by a Service member. Monthly FLPB rates set prior to or during the transition remain in effect until reset following recertification.

2.5 Maximum Amounts and Payment Methods

2.5.1. The FLPB may not exceed $12,000 per 1-year certification period. The Secretary of the Military Department concerned may pay a bonus in monthly installments (not to exceed an aggregate of $1,000 per month) or a lump sum during the certification period.

2.6 Waiver of Certification of Proficiency Recertification Interrupted by a Contingency Operation

2.6.1. The Secretary of the Military Department concerned may waive the annual certification requirements and pay a FLPB to a Service member who:

2.6.1.1. Is assigned to duty in connection with contingency operation.

2.6.1.2. Is unable to schedule or complete the certification test because of that assignment.

2.6.1.3. Except for the lack of such certification, satisfies the eligibility requirements cited in paragraphs 2.1 and 2.2.

2.6.2. The Secretary of the Military Department concerned may treat the date the Service member was assigned to duty in connection with the contingency operation as equivalent to a recertification date.

2.6.3. In the case of a Service member whose certification expires during such a contingency operation, the Secretary of the Military Department must authorize the Service member a 180-day period after returning as a mandatory grace period to recertify for an FLPB.

2.6.4. If a Service member fails to obtain the required certification by the end of the 180-day period, then the Secretary of Military Department concerned may require the Service member to repay all or a portion of the FLPB received in accordance with paragraph 3.3.

2.6.5. Service members who receive a wound, injury, or illness in the line of duty while serving in a combat operation or a combat zone, in a hostile fire area, or while exposed to a hostile fire event and is hospitalized may continue to receive an FLPB in accordance with *37 U.S.C. § 372*.

2.7 Exceptions to Recertification of Foreign Language or Dialect Proficiency Regarding Attendance at a Significant Language Training Event (SLTE)

In the case of Service members whose certification expires while they are attending an SLTE, their next 1-year certification period begins when they successfully retest after they complete the SLTE as follows:

2.7.1. The Service member's FLPB continues until they can complete the recertification requirements of paragraph 2.4.2. Further FLPB entitlement is based on the modality proficiency test scores resulting from that event.

2.7.2. If a Service member has an additional (e.g., second language) foreign language recertification date that will expire during the Service member's primary SLTE, the Secretary of the Military Department concerned may either:

2.7.2.1. Require the Service member to recertify in that additional foreign language before the primary SLTE begins; or

2.7.2.2. Extend the certification periods for each language not associated with the SLTE to a recertification date up to 45 calendar days after the SLTE graduation date.

2.7.3. To the maximum extent possible, the SLTE should be uninterrupted to give the Service member the greatest opportunity for SLTE success.

2.8 Annual DLPT Recertification of ILR Skill Level 3 – Proficient Personnel in All Required Modalities Exception

This ILR skill level 3 (and higher) exception applies to all the modalities to which the Service member is being paid FLPB, otherwise the exception does not apply.

2.8.1. If applicable, at the end of the Service member's 1-year annual recertification date, the Secretary of the Military Department concerned must recertify the Service member proficiency levels pursuant to Section 353(d)(1) of Title 37, U.S.C., which cites that FLPB payment proficiency is subject to annual recertification by the Secretary of the Military Department concerned. For individuals who are initially certified by a DLPT or OPI as proficient at levels L3, R3 or S3 or higher, the Secretaries of the Military Departments may extend certification for up to 24 months.

2.8.2. The Secretaries of the Military Departments must require recertification when necessary and establish a process to document and track a Service member's extended certification period.

2.9 Waiver of Certificate and Certification Duration

In accordance with ***37 U.S.C. § 353(d)(3)***, the Secretary concerned may waive the annual certification in paragraph 2.3 and the duration of certification requirements in paragraphs 2.6 and

2.7, if the Service FLPB regulation addresses the specific circumstances under which the Service Secretary may waive either or both of these certification requirements.

3.0 CONDITIONS OF ENTITLEMENT

3.1 Requirements

A member must qualify under any additional eligibility requirements prescribed by the Secretaries concerned, and is subject to Service specific certification requirements and amount of payment restrictions as outlined in these "pay-by-modality" DoD and Service references:

3.1.1. DoD: DoDI 1340.27, Military Foreign Language Skill Proficiency Bonuses and DoDI 5160.71, DoD Language Testing Program;

3.1.2. Army: ***Army Regulation 11-6***;

3.1.3. Navy: ***Chief of Naval Operations Instruction 7220.7H***;

3.1.4. Air Force and U.S. Space Force: ***Department of Air Force Manual 36-2664***, Attachment 10, and ***Air Force Instruction 36-4005***; or

3.1.5. Marine Corps: ***Marine Administrative Message 496/23***.

NOTE: Pay authorizing officials must access the current DoD SLL and the Component's unique foreign language bonus pay authorizations, additional eligibility rules, and certification requirements in order to ensure the correct FLPB payment is authorized.

3.2 Tax

FLPB is an item of pay subject to federal withholding tax. It is not subject to the Federal Insurance Contributions Act tax.

3.3 Repayment

A member who receives FLPB but does not satisfy eligibility and certification requirements specified in section 2.0 may be subject to repayment in accordance with Chapter 2.

3.4 Relationship to Other Pay and Allowances

A member may not be paid more than one Skill Incentive Pay or Proficiency Bonus in any month for the same period of service and skill. A member may be paid skill incentive pay or the proficiency bonus in addition to any other pay and allowances to which the member is entitled, except that a member may not be paid skill incentive pay or a proficiency bonus and hazardous duty pay, in accordance with Chapter 24, for the same period of service in the same career field or skill.

*3.5 Duration of Authority

Unless reauthorized by Congress, FLPB entitlement may not be paid after the date on the ***Duration of Authority*** table unless an FLPB agreement was entered into prior to the date on the table.

CHAPTER 20

AVIATION BONUS (AvB)

1.0 GENERAL

1.1 Purpose

The Secretaries of the Military Departments may offer an AvB to increase their respective Department's ability to attract and retain officers in a military aviation career. An AvB paid to an eligible officer is in addition to any other pay and allowance to which the officer is entitled, except that an officer may not receive a payment for the same skill and period of service.

1.2 Authoritative Guidance

The AvB policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code, section 334 (*37 U.S.C. § 334*). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DURATION OF AUTHORITY

Unless reauthorized by Congress, AvB may not be paid after the date listed on the ***Duration of Authority*** table unless an AvB agreement was entered into prior to the date on the table.

3.0 ELIGIBILITY REQUIREMENTS

3.1 General

The Military Departments may offer an AvB on a selective basis when there is a shortage or a projected shortage of Regular or Reserve-Component (RC) officers qualified in critical aviation specialties. AvBs will be limited to those periods in an officer's aviation career in which AvBs can be expected to affect retention trends for the Military Service concerned.

3.2 Qualifications

To qualify for an AvB, an officer, on active duty (AD) or in an active status, must:

3.2.1. Be eligible for Aviation Incentive Pay at the time of incurring the initial AvB contractual obligation;

3.2.2. Be in a pay grade of O-5 or below at the time of incurring the initial AvB contractual obligation;

3.2.3. Serve in an aviation specialty or skill designated as critical by the Secretary of the Military Department concerned;

3.2.4. Have completed or be within one year of completing any service obligation incurred for undergraduate aviator training. In accordance with ***10 U.S.C. § 653***, the minimum service obligation of any Service member who successfully completes training in the Armed Forces as a pilot is 8 years if the member is trained to fly fixed-wing jet aircraft, or 6 years if the member is trained to fly any other type of aircraft. The minimum service obligation of any member who successfully completes training in the Military Services as a combat systems officer or naval flight officer will be 6 years;

3.2.5. Execute a written agreement to remain on AD in the Regular Component or to serve in an active status in the selected reserve for at least one year; and

3.2.6. Meet such other additional criteria as the Secretary of the Military Department concerned may prescribe.

4.0 PAYMENT METHODS AND AMOUNTS

4.1 Payment Method

The Secretary of the Military Department concerned may pay an AvB to Regular or RC officers of a Uniformed Service who meet the qualification criteria in paragraph 3.2 in a lump sum or in periodic installments, as determined by the Secretary of the Military Department concerned.

4.2 Amounts

The AvB amount, covered by the written agreement, described in paragraph 5.1, between the Regular or RC officer and the Secretary of the Military Department concerned, for each 12-month period of obligated service specified in 37 U.S.C. § 334(c)(1)(B), will not exceed the following, unless otherwise updated by the Assistant Secretary of Defense Manpower and Reserve Affairs (ASD M&RA):

4.2.1. $35,000 per year of additional active obligated service for RC officers or RC Active Guard and Reserve officers performing qualified flying duty

4.2.2. $35,000 per year of additional active obligated service for RC officers or RC Active Guard and Reserve officers performing qualified flying duty related to Unmanned Aerial System (UAS) operators; or

4.2.3. $18,000 per year of additional active obligated service for all other RC officers performing qualified duty to include UAS operators.

Note: The ASD (M&RA) may update the AvB amounts, in accordance with the DoD Instruction ***(DoDI) 7730.67, Aviation Incentive Pays And Bonus Program, October 20, 2016***, paragraph 2.1.b.

4.3 Relationship to Other Pay and Allowances

Aviation pays and bonuses paid in accordance with DoDI 7730.67 will be in addition to any other pay or allowances to which the member is entitled, except as specified in the limitations and restrictions in DoDI 7730.67, paragraph 3.1.b.

5.0 TERMS AND CONDITIONS

5.1 Written Agreements

5.1.1. To receive an AvB, an officer must execute a written agreement with the Secretary of the Military Department concerned that specifies the amount of the AvB, the method of payment (lump sum or periodic installments), the period of obligated service (at least 1 year), and the type or conditions of service. No agreement may be executed that would take an officer beyond 25 Years of Aviation Service.

5.1.2. The Secretary of the Military Department concerned will not exceed the AvB amount covered by the written agreement for any 12-month period of obligated service specified in DoDI 7730.67, paragraph 4.2 or 37 U.S.C. § 334(c).

5.1.3. Bonus agreements awarded under ***37 U.S.C. § 301b***, that were approved before October 1, 2017, will remain in effect, and payments may continue through the agreed-upon date in the written agreement.

5.2 Acceptance

Upon acceptance of the written AvB agreement by the Secretary of the Military Department concerned, the period of obligated service and the total amount of AvB the Department will pay pursuant to the agreement will be fixed, unless otherwise renegotiated for a higher bonus amount in return for additional obligated service.

5.3 Death of a Member

If a member dies before receiving the full amount of the bonus due (including contracted future year anniversary payments) and death is not caused by the member's misconduct, the remaining unpaid bonus balance is payable as a lump sum for inclusion in the settlement of the deceased member's final military pay account. If death is determined to be the result of the member's own misconduct, termination of future payments and proration or repayment of the bonus, as applicable, must be made in accordance with procedures established by the Military Department concerned. See Chapters 2 and 36.

6.0 REPAYMENT

An officer, who fails to fulfill the eligibility requirements or service conditions specified in the written agreement for the AvB, will be subject to the repayment provisions of ***37 U.S.C. § 373*** and Chapter 2.

CHAPTER 22

AVIATION INCENTIVE PAYS

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to describe the policies for Hazardous Duty Incentive Pay (HDIP), Aviation Incentive Pay (AvIP), and Critical Skill Incentive Pay (CSIP).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with Title 37, United States Code (U.S.C.), section 334(a) ***(37 U.S.C. § 334(a))***, ***37 U.S.C. § 351(a)(2)***, and ***37 U.S.C. § 353***. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 HDIP FOR FLYING DUTY

The Secretary concerned may pay HDIP to Service members required by competent orders to participate in frequent and regular aerial flights as an aircrew member or to non-aircrew members who otherwise meet the requirements for flying duty.

2.1 Eligibility

To be eligible for flying duty HDIP, a Service member must be required by competent orders to participate frequently and regularly in sustained, powered, controlled aerial flights, and generally must complete 4 hours (or 2 hours for reserve component (RC) Service members) of aerial flights each month. Hours that are flown in excess of this requirement may be credited against this requirement for up to 5 subsequent, consecutive months. Additionally, a Service member who has a shortage of flying hours after crediting these excess hours may, under certain conditions established by the Military Departments, enter a 3-month grace period wherein hours flown in future months may be retroactively applied to earlier monthly requirements.

*2.2 Limitations and Restrictions

2.2.1. Officers, including aviation cadets entitled to AvIP under section 3.0, are not entitled to payments under this section for the same period of service.

2.2.2. Enlisted members receiving CSIP under section 5.0 are not entitled to payments under this section for the same period of service.

2.2.3. An officer receiving an incentive pay pursuant to 37 U.S.C. § 334, may not receive HDIP pursuant to 37 U.S.C. § 351(a)(2) for the same skill and period of service.

2.2.4. Service members receiving a skill incentive pay pursuant to 37 U.S.C. § 353(a), may not receive HDIP pursuant to 37 U.S.C. § 351(a)(2), for the same period of service in the same career field or skill for which the payment is paid.

2.2.5. Service members must be on competent orders to serve in the area or to perform the hazardous duty to qualify for an incentive.

2.2.6. To be eligible for select HDIP payments, a Service member must be in training, have successfully completed the qualifying training and technical qualification, or meet qualification requirements for the performance of the hazardous duty.

2.2.7. Although a Service member may perform more than three hazardous duties in a month, a Service member may not receive simultaneous payments for more than three HDIP duties in a month.

2.3 Definitions

2.3.1. Aerial Flights. Aerial flights are flights in military aircraft or spacecraft, and also flights in nonmilitary aircraft when Service members are required by competent orders to fly in such aircraft. A flight begins when the aircraft or spacecraft takes off from rest at any point of support located on the surface of the earth and terminates when it next comes to a complete stop at a point of support located on the surface of the earth.

2.3.2. Aviation Accident. Aviation accident is an accident in which a Service member, who is required to participate frequently or regularly in aerial flights, is injured or otherwise incapacitated as the result. The injury or incapacitation, as certified by the appropriate medical authority of the Uniformed Service concerned, may result from:

2.3.2.1. Jumping from, being thrown from, or being struck by an aircraft or spacecraft, or any part or auxiliary thereof; or

2.3.2.2. Participation in any duly authorized aerial flight or other aircraft or spacecraft operations. This term also means an incapacity incurred as the result, as certified by appropriate medical authority, of performance of flying duty, even though such incapacity is not the result of an actual aviation accident.

2.4 Flight Requirements

2.4.1. Minimum Flying Time Each Month

2.4.1.1. During 1 calendar month, 4 hours of aerial flight are required. If a Service member does not fly 4 hours in any month, any hours flown during the last 5 preceding months (which have not already been used to qualify for flight pay) may be applied to meet this 4-hour requirement.

2.4.1.2. During 2 consecutive calendar months when the requirements of subparagraph 2.4.1.1, have not been met, 8 hours of aerial flight are required.

2.4.1.3. During 3 consecutive calendar months when the requirements of subparagraph 2.4.1.2, have not been met, 12 hours of aerial flight are required.

2.4.2. Fractions of a Calendar Month. For fractions of a calendar month, calculate the percentage that the period in question is of the calendar month. The flying time required is that same percentage of the aerial flight time required for a full calendar month (see Table 22-1).

2.4.3. Fractions of 2 Consecutive Calendar Months. For fractions of 2 consecutive calendar months, consider the whole period in question. Calculate the percentage that the period in question is of the calendar month. The flying time required is that same percentage of the aerial flight time required for a full calendar month (see Table 22-1).

2.4.4. Application of Hours Flown. To the extent of hours available, hours flown in any month apply as follows:

2.4.4.1. First, to meet flight requirements for that month;

2.4.4.2. Next, if the Service member has entered a grace period for meeting flight requirements, to the prior month or months, as applicable; and

2.4.4.3. Next, in order, to the first, second, third, fourth, and fifth succeeding months, but only to the extent that the Service member fails, during each month, to fly the required 4 hours. (Hours available to meet requirements of later months are referred to as "excess" flight time.) See examples in Tables 22-2 and 22-3.

2.4.5. Military Operations or Unavailability of Aircraft. When under authority conferred by the Secretary of the Military Department concerned, the commanding officer certifies that a Service member is unable to meet normal flight requirements due to military operations (combat or otherwise), or the non-availability of aircraft in order to complete those requirements. The Service member may, however, comply with the minimum flight requirements by performing 24 hours of aerial flight over a period of 6 consecutive calendar months. The commanding officer will certify that only those conditions specified in this subparagraph prevented completion of normal flight requirements. The 24-hour flight requirement may be met at any time during the 6-calendar-month period and in any combination of flights.

2.4.5.1. If the Service member is in a 3-calendar-month grace period when military operations or aircraft non-availability prevents fulfillment of flight requirements, the 6-calendar-month period for meeting the 24-hour flight requirement under this subparagraph begins on the first day of the grace period.

2.4.5.2. If the Service member is not in a 3-calendar-month grace period, the first month in which military operations or aircraft non-availability prevents fulfillment of flight

requirements is the beginning of the 6-calendar-month period for meeting the 24-hour flight requirement under this subparagraph.

2.4.5.3. During the 6-calendar-month period, HDIP for flying may be paid for any single month, or for multiple months, when minimum requirements have been met.

2.4.5.4. At the end of the 6-calendar-month period, HDIP for flying may be paid for missed months in the period to the extent that the remaining hours flown are applicable. Excess hours are applied prospectively under subparagraph 2.4.4 if the Service member continues to fly under the same orders.

NOTE: For RC officers not on active duty for a period of more than 30 consecutive days, the requirement is half of the requirements contained in paragraph 2.4.

2.5 Determination of a 3-Calendar-Month Period

2.5.1. When 3-Month Period Starts and Ends. The 3-calendar-month period in which flight requirements must be met begins with the first month in which flight requirements are not met. If the Service member flies enough time in the second month to cover the first and second months, the period ends with the second month. If not, the period extends through the third month.

2.5.2. Deficiencies for a Fraction of a Month. If a Service member fails to qualify for a fraction of a month (because flying status or active duty began on an intermediate day of the month), the 3-month period ends on the last day of the second full month following the fractional month.

2.5.3. When Next 3-Month Period Starts

2.5.3.1. A new 3-month period starts with the first month in which flight requirements are not met following a month in which flight requirements were met.

2.5.3.2. For a new 3-month period to begin immediately after a prior 3-month period, flight requirements must have been met for the entire prior 3-month period, not merely for the last month.

2.5.3.3. If the requirements for the entire prior 3-month period were not met, a new period does not begin until flight requirements are met for at least 1 month after the prior 3-month period.

2.5.3.4. After a month when flight requirements are met, any month in which flight requirements are not met begins a new 3-month period. A new period may not start with the second or third month in which flight requirements are not met; nor may a new period start with the fourth month in which flight requirements are not met. There must be at least 1 month in which requirements are met before a new 3-month period begins. See Tables 22-2 and 22-3 for application of the rules listed in paragraph 2.5.

2.6 Entitlement to Pay When No Flights are Performed in the First Month of a 3-Month Period

Assume, for the purposes of this paragraph, that the Service member had no excess flight time from prior months.

2.6.1. Second Month. If a Service member performs no aerial flights during the first month of a 3-month period and, in the second month, performs at least 4 hours but less than 8 hours, he or she is entitled to pay only for the second month. For example: In January, no aerial flights are performed; in February, 5 hours of aerial flight are performed. Flight pay is payable only for February.

2.6.2. Third Month. If a Service member performs no aerial flights during the first 2 months of a 3-month period, he or she must perform 12 hours of aerial flight in the third month to be entitled to incentive pay for all 3 consecutive months. For example: If flight requirements are met for January and a Service member performs no flights during the months of February and March, he or she must perform at least 12 hours in April to be entitled to receive the incentive pay for the period February 1 to April 30. If the Service member performs 4 or more hours, but less than 12 hours in April, he or she is entitled to incentive pay only for April.

2.6.3. First and Third Months. If a Service member does not perform aerial flights during the first month and in the second month performs only sufficient flights to qualify for the second month, he or she must perform enough hours of flight during the third month to total 12 hours in order to qualify for the incentive pay for the first and third months of the 3-month period.

> Example: In January, no aerial flights are performed; in February, 5 hours of aerial flight are performed. The deficiency in January must be made up in March. If at least 7 hours are accomplished in March, flight pay for January and March is payable. If only 6 hours are flown in March, flight pay is payable only for March (the payment for February previously having been made) and incentive pay for January is lost.

2.7 Injury or Incapacity Resulting From Performance of Hazardous Duty

Service members qualified for HDIP, who are temporarily unable to perform a hazardous duty due to an injury or illness that is not the result of the Service member's own misconduct, may continue to receive HDIP for up to 6 months.

2.7.1. On a case-by-case basis, the Secretary concerned, or designee, may authorize an extension of HDIP payments for up to an additional 6-months, based on the recommendation of the appropriate medical authority. Under no circumstance will HDIP payments continue beyond 12 months from the date of injury or illness.

2.7.2. HDIP will be terminated for Service members permanently disqualified or otherwise determined to be no longer eligible to perform hazardous duty by a competent medical authority.

2.7.3. Service members reassigned to a new duty assignment or specialty not eligible for HDIP will have their HDIP payments terminated on the date of reassignment or reclassification.

2.7.4. If the injury or illness occurred while serving in a combat zone, hostile fire area, or imminent danger area, the Service member may continue to receive HDIP during the Service member's hospitalization and rehabilitation. See Chapter 13.

2.8 Right to Flight Pay Under Certain Conditions

See Table 22-4.

2.9 Determinations Affecting Entitlement to Flight Pay

2.9.1. Flight Pay From Date of Reporting for Duty. A Service member is entitled to flight pay on and after the date that he or she reports for and enters on duty under competent orders, subject to meeting flight requirements. A Service member in a non-duty status (such as on leave or sick) at the time that flying status orders are issued is not entitled to flight pay for any period before he or she reports for and enters on duty under such orders.

2.9.2. Excess Flight Time. When authorized under paragraph 2.5, flight time in excess of the time required or insufficient to qualify for a particular month may be applied to a later month in which minimum requirements are not met, provided that the orders under which flying time was logged remain in effect.

2.9.3. Change of Designation, Non-Crewmember to Crewmember or Vice Versa. A Service member whose status changes from non-crewmember to crewmember (or vice versa) within a month or other qualifying period may not combine time flown in both categories for pay purposes. The Service member is entitled to flight pay, as a non-crewmember for the period of time Service member held that status, if he or she met the pro rata requirements as a non-crewmember. The Service member is entitled to flight pay as a crewmember, for the period of time he or she held that status, if he or she met the pro rata requirements as a crewmember.

2.9.4. Change From One Crewmember Status to Another Crewmember Status. Flights as one type of crewmember may be combined with flights as another type of crewmember if the Service member remains on continuous active duty and continuous flying status. Total requirements may be met in either crewmember status or a portion may be met in each status.

Example: An aviation cadet is given a rating as a navigator and issued new flying status orders immediately following termination of Service member's former orders.

2.9.5. Missing or Missing-in-Action

2.9.5.1. A Service member assigned to flying duty who is declared missing by competent authority is entitled to HDIP during the entire period of absence and is entitled to HDIP

for hospitalization and rehabilitation after termination of missing status for an additional period, not to exceed one year.

2.9.5.2. Upon return from a missing status and completion of any required period of hospitalization and rehabilitation (not to exceed 1 year), entitlement to HDIP for flying duty will be contingent on a determination of continued eligibility under paragraph 2.1 and the applicable flight requirement provisions of paragraph 2.4.

2.9.5.3. A new 3-month grace period does not start when the missing status and hospitalization ends. The new 3-month grace period starts with the first month of deficiency, after entering a missing status.

2.9.5.4. If the missing status and hospitalization goes beyond the 6-month grace period, the Service member must meet flight requirements for at least 1 month to become entitled to flight pay again.

2.9.5.5. If the Service member does not meet flight requirements upon the completion of an authorized missing and hospitalization period, he or she is entitled to pro rata HDIP for flying duty through the date of such authorized period.

2.9.6. Death

2.9.6.1. Death Due to Aviation Accident. If death occurs on the date of an aviation accident, flight pay accrues to include the date of death. If, however, death occurs after the 3-month period has expired, flight pay is not authorized for any day after the expiration of that period. Flight pay for the month or period before the month in which the accident occurred is not authorized unless flight requirements were met for that period.

2.9.6.2. Death Due to Other Causes. If death occurs from causes other than an aviation accident, flight pay is payable to and including the date of death if the Service member has met pro rata flight requirements for the month of death and was on flying status.

2.10 Suspensions From Flying Status, Effect on Flight Pay

2.10.1. Flight Pay for a Period of Suspension. Except under subparagraphs 2.10.2 and 2.10.3, Service members are not entitled to flight pay for any period while suspended from flying status. Service members are considered suspended on the effective date of suspension. Service members are considered to be in a flying status on the day that the suspension is removed or terminated. Payment for a period of suspension cannot be made in any case until the suspension has been removed or terminated.

2.10.2. Suspension for Other Than Physical Incapacity for Service Members Required to Perform Minimum Flight Requirements. Service members are entitled to flight pay for a period of suspension from flying status, provided the suspension is removed or terminated and they meet flight requirements as prescribed in paragraph 2.4. If the Service member has excess flights

performed before suspension, the grace period specified in paragraph 2.4 begins on the first month of the period of suspension not covered by excess flights.

Example: A Service member was suspended from flying status on February 1. He had 16 hours excess flying time as of January 31. Flight pay is stopped on January 31. The suspension subsequently is removed (or terminated) on June 30. He flew 12 hours in the month of July. After removal of the suspension, pay flight pay for February 1 through May 31 on the basis of the 16 excess hours accumulated in the 5 months before February 1. The grace period, authorized as stated in paragraph 2.4, started on June 1. The hours that were flown in July qualify the Service member for flight pay for June and July.

2.10.3. Suspension for Physical Incapacity of Service Members Subject to Minimum Flight Requirements. A Service member is entitled to flight pay during a period of grounding due to physical incapacity if he or she meets the flight requirements stated in paragraph 2.4. The Service member also is entitled to flight pay during a period of suspension, if the suspension is removed or terminated and flight requirements are actually met. There are no flight requirements during the first 3 months of a period of incapacity incurred as the result of performance of an assigned hazardous duty. See paragraph 2.7.

2.10.4. Suspension Removed or Terminated. If a suspension is removed or terminated after the Service member can no longer qualify for flight pay under subparagraphs 2.10.2 and 2.10.3, there is loss of pay for any period that is not covered by paragraph 2.4. Flight pay accrues after the suspension is removed or terminated for Service members required to meet minimum flight requirements from the date of reporting for flying duty after the suspension is removed or terminated if flight requirements are met.

2.11 Payment of Flight Pay and Incentive Pay for Other Hazardous Duty

A Service member who qualifies for flight pay and incentive pay for one or more other types of hazardous duty may receive the flight pay and incentive pay only for two other hazardous duties for the same period. Dual HDIP is limited to those Service members required by orders to perform specific multiple hazardous duties necessary for successful accomplishment of the mission of the unit to which assigned.

2.11.1. Conditions of Entitlement. The hazardous duties for which dual incentive pay is payable must be an integral part of the Service member's assigned mission. Accomplishment of the assigned mission must require the Service member to perform specific multiple hazardous duties. A Service member must meet minimum requirements for each of the hazardous duties, except for injury or illness.

2.11.2. Types of Duties That Qualify Service Member for Dual Payment of HDIP. See Chapter 24, subparagraph 2.4.1.

2.11.2.1. Air Force pararescue team Service members placed on orders to perform duties as both crewmembers and parachutists.

2.11.2.2. Other combinations of hazardous duties for which dual payments of incentive pay are authorized by the Military Services concerned.

2.11.3. Injury or Incapacity as a Result of Performance of Hazardous Duty or Dual Hazardous Duties. If a Service member who is required to perform more than one hazardous duty becomes injured or otherwise incapacitated as a result of any of the duties, he or she is entitled to dual incentive pay during the incapacity, but for no longer than 6 months. If not entitled to dual incentive pay at the time of the incapacity, the Service member is entitled to the type of incentive pay that he or she was receiving at the time of the incapacity. The beginning date of the 6-month period will be determined separately for each type of incentive pay. See paragraph 2.7 to determine the 6-month period separately for each incentive pay.

2.12 Authority to Issue Orders

Authority to issue orders requiring the performance of flying duty, granting waivers of performance requirements, or extending time periods during which requirements may be met is delegated by the Secretary of the Military Department concerned to specific commanders within each Military Service. Such delegations are contained in the personnel administrative regulations of the respective Military Services.

2.13 Monthly Rates

See Table 22-5. For the most current rates see the ***HDIP for Flying*** table.

2.13.1. HDIP for aircrew members may not exceed $250 per month.

2.13.2. HDIP for non-aircrew members is $150 per month

2.13.3. Service members who otherwise meet the eligibility criteria, but who do not participate in a full calendar month of flying duty, will receive a prorated HDIP payment as follows:

2.13.3.1. Prorating the monthly HDIP is required for Service members who fail to satisfy the eligibility requirements for the pay for the entire month. The amount of HDIP authorized for qualifying service during a day or portion of a day will be the amount equal to 1/30th of the monthly amount of HDIP payable to a Service member.

2.13.3.2. Service members are first entitled to HDIP on the date they report for, and begin performing, an eligible duty in compliance with competent orders. HDIP ends on the effective date published in orders for termination of such duty or the date the Service member is detached from and is no longer required to perform the hazardous duty, whichever occurs first.

2.13.3.2.1. When a Service member begins hazardous duty on a date other than the first day of a month or terminates that duty prior to the last day of a month and otherwise meets the requirements of the pay for the month, the Service member is entitled to a prorated portion of HDIP for the month.

2.13.3.2.2. The prorated monthly amount is calculated using the daily rate to reflect the duration of the Service member's actual qualifying service during the month.

2.14 Repayment

An officer or enlisted member who fails to fulfill the eligibility requirements of DoD Instruction (DoDI) 7730.67, Aviation Incentive Pays and Bonus Program or other conditions of service specified by the Secretary of the Military Department concerned will be subject to repayment consistent with ***37 U.S.C. § 373***, Chapter 2, and Volume 16 Chapter 3.

2.15 Duration of Authority

Unless reauthorized by Congress, HDIP may not be paid after the date listed on the ***Duration of Authority*** table, located on DFAS.MIL.

3.0 AvIP FOR AVIATORS IN OPERATIONAL FLYING DUTY (OFD) OR PROFICIENCY FLYING DUTY (PFD) POSITIONS

3.1 General

The Secretaries of the Military Departments may offer AvIP(s) under 37 U.S.C. § 334(a) to increase their respective Department's ability to retain officers in a military aviation career and support the recruiting and retention of individuals with military aeronautical ratings or designations.

3.2 Eligibility

The Secretary concerned may pay AvIP to aviation officers performing in OFD or PFD positions. AvIP may only be paid to an officer who:

3.2.1. Is entitled to basic pay pursuant to ***37 U.S.C. § 204*** or to compensation under ***37 U.S.C. § 206***;

3.2.2. Maintains, or is in training to receive, an aeronautical rating or designation that qualifies the officer for OFD or PFD;

3.2.3. Engages in, or is in training to receive, frequent and regular performance of OFD or PFD;

3.2.4. Engages in or remains in aviation service for a specified period of time;

3.2.5. Achieves the minimum flight requirements of 4 hours during 1 calendar month or 24 hours during 6 consecutive months (the minimum flight hour requirement for RC officers not on active duty for a period of more than 30 consecutive days is 2 hours during 1 calendar month or 12 hours during 6 consecutive months). A certified flight simulator may be used to meet this requirement. The Secretary concerned may waive the minimum flight requirements:

3.2.5.1. For officers (except flight surgeons or medical officers) who meet the AvIP eligibility requirements in paragraph 3.2 while assigned to OFD or PFD positions; or

3.2.5.2. In extreme circumstances (e.g., military operations (combat or otherwise) or non-availability of aircraft), when the Secretary concerned may authorize a commanding officer to certify that an officer is unable to meet minimum flight requirements; and

3.2.6. Meets all applicable eligibility requirements and such other criteria, as the Secretary concerned determines appropriate.

*3.3 Limitations and Restrictions

3.3.1. Officers receiving HDIP pursuant to 37 U.S.C. § 351(a)(2) are ineligible for AviP.

3.3.2. Officers receiving AvIP pursuant to 37 U.S.C. § 334(a), may not receive HDIP pursuant to 37 U.S.C. § 351(a)(2), or skill incentive pay or proficiency bonuses pursuant to 37 U.S.C. § 353, for the same skill and period of service.

3.3.3. Service members temporarily medically incapacitated will be considered qualified for aviation service unless such incapacitation continues for more than 12 months. After 365 days of incapacitation, a Service member will be disqualified from aviation service and will not be requalified until the condition resulting in incapacitation is corrected or is subject to a waiver under regulations prescribed by the Secretary of the Military Department concerned. A competent medical authority must certify the Service member as medically qualified for operational flying duty (OFD) or proficiency flying duty (PFD). This guidance is only for the purposes of AvIPs and bonuses and does not otherwise restrict a Service's authority to place an aviator in an applicable flight status.

3.3.4. Service members permanently disqualified for aviation service or otherwise determined no longer eligible for aviation service, in accordance with DoDI 7730.67, and such additional regulations prescribed by the Secretary of the Military Department concerned, are ineligible for AvIP or CSIP.

3.3.5. Service members are not authorized AvIP or CSIP payments for any periods of unauthorized absence.

*3.4 Payments and Amounts

3.4.1. The maximum amount of monthly AvIP in 37 U.S.C. § 334(c)(1)(A) is not to exceed the rate of $1,500 per month to officers while serving in an OFD or PFD assignment. Unless otherwise updated by the Assistant Secretary of Defense (ASD) in accordance with DoDI 7730.67, paragraph 2.1.b, officers performing qualifying duty or performing qualifying duty relating to unmanned aerial systems (UAS) may receive up to $1,000.

3.4.2. The monthly Army Officer AvIP Rates are listed on Table 22-6. For the most current rates, see the ***Monthly Army Officer Aviation Incentive Pay Rates*** table.

3.4.3. The monthly Navy Officer AvIP Rates are listed on Table 22-7. For the most current rates, see the ***Monthly Navy Officer Aviation Incentive Pay Rates*** table.

3.4.4. The monthly Navy AvIP Rates for Officers in Administrative Milestone Billets are listed on Table 22-8. For the most current rates, see the Monthly Navy Aviation Incentive Pay Rates for ***Officers in Administrative Milestone Billets*** table.

3.4.5. The Air Force monthly AvIP rates are calculated based upon years of aviation service (YAS) established by the Aviation Service Date and are reflected in Table 22-9. For the most current rates, see the ***Monthly Air Force Aviation Incentive Pay Rates*** table.

3.4.6. The monthly Marine Corps Officer AvIP Rates are listed on Table 22-10. For the most current rates, see the ***Monthly Marine Corps Officer Aviation Incentive Pay Rates*** table.

3.4.7. The following are exceptions to the amounts in subparagraph 3.4.2 through 3.4.6:

3.4.7.1. Warrant Officers with over 22 YAS may continue to receive AvIP at the over 10 YAS rate until retirement.

3.4.7.2. Officers performing OFD or PFD while piloting UASs with over 14 YAS may receive AvIP up to $1,000 per month up to 22 YAS.

3.4.8. AvIP for officers in aviation training will begin on the later of these two dates and will be prorated based on the number of days remaining in the month:

3.4.8.1. The date when the officer first reports to the aviation activity in which he or she will receive flight training in a specific aircraft leading to an aeronautical rating, and is placed on aeronautical orders; or

3.4.8.2. The date of commission.

3.4.9. AvIP payments for all other aviators will begin the day an officer signs in to an OFD or PFD assignment. The initial payment amount will be prorated based on the number of days remaining in the month.

3.4.10. At the discretion of the Secretary of the Military Department concerned, RC officers entitled to compensation under 37 U.S.C. § 206 are eligible for AvIP. The amount authorized will be equal to $1/30^{th}$ of the monthly AvIP authorized by the Military Department concerned for each period of inactive duty training.

3.5 Repayment

An officer or enlisted member who fails to fulfill the eligibility requirements of DoDI 7730.67, or other conditions of service specified by the Secretary of the Military Department concerned, will be subject to repayment consistent with 37 U.S.C. § 373, and Chapter 2.

3.6 Duration of Authority

Unless reauthorized by Congress, AvIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

4.0 AvIP FOR AVIATORS NOT IN OFD OR PFD POSITIONS

4.1 General

The Secretaries concerned may pay AvIP to an officer who is otherwise qualified but who is not currently engaged in the performance of OFD or PFD, who meets each of the following three conditions:

4.1.1. The officer meets the eligibility criteria listed in subparagraphs 4.2.1 through 4.2.4;

4.1.2. The officer is assigned to a position listed in paragraph 4.4; and

4.1.3. The AvIP payment is in the best interest of the Military Service.

4.2 Eligibility

The Secretary concerned may pay AvIP to officers with an aeronautical rating (except flight surgeons or medical officers) with fewer than 25 YAS who are in non-OFD or PFD assignments and meet one of the following criteria:

4.2.1. Are eligible for AvIP continuously through 12 YAS;

4.2.2. Have performed at least 96 creditable months of OFD or PFD upon completion of 12 YAS. These officers are eligible for up to 18 YAS as long as they are assigned to a non-OFD or non-PFD assignment;

4.2.3. Have performed at least 120 creditable months of OFD or PFD upon completion of 18 YAS. These officers are eligible for AvIP for up to 22 YAS as long as they are assigned to a non-OFD or non-PFD assignment; or

4.2.4. Have performed at least 144 creditable months of OFD or PFD upon completion of 18 YAS. These officers are eligible for AvIP for up to 25 YAS as long as they are assigned to a non-OFD or non-PFD assignment. Aviation warrant officers may continue to receive AvIP beyond 25 YAS as long as they are assigned to an assignment in paragraph 4.4.

4.3 Limitations and Restrictions

See paragraph 3.3.

4.4 Non-OFD or Non-PFD Assignments

Qualified aviation officers (except flight surgeons or other medical officers) who meet the eligibility criteria in paragraph 4.2 may receive AvIP when assigned to any of the following non-OFD or non-PFD assignments:

4.4.1. A Joint assignment or position on the Joint Duty Assignment List;

4.4.2. Attending resident professional military education or a fully-funded graduate education program authorized by the Secretary of the Military Department concerned;

4.4.3. Aviation-specific positions that must be filled by officers with an aeronautical rating; or

4.4.4. Career-enhancing assignments outside of aviation or based on the needs of the Military Services for a period not to exceed 48 consecutive months.

4.5 Payments and Amounts

4.5.1. The Secretaries concerned may pay monthly AvIP to aviators who meet the YAS criteria in paragraph 4.2 and are serving in positions listed in paragraph 4.4.

4.5.2. At the discretion of the Secretary of the Military Department concerned, RC officers entitled to compensation under 37 U.S.C. § 206 are eligible for AvIP. The amount authorized will be equal to $1/30^{th}$ of the monthly AvIP authorized by the Military Department concerned for each period of inactive duty training.

4.6 Repayment

See paragraph 3.5.

4.7 Duration of Authority

Unless reauthorized by Congress, AvIP For Aviators Not In OFD Or PFD Positions may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL.

5.0 CRITICAL SKILL INCENTIVE PAY (CSIP)

5.1 General

The Secretary concerned may designate a career field or skill as critical for the purposes of offering a skill incentive pay. The following specialties are designated as critical and are eligible for CSIP:

5.1.1. Qualified career enlisted members who meet the eligibility requirements in paragraph 5.2; or

5.1.2. Enlisted UAS operators who meet the eligibility requirements in paragraph 5.2.

5.2 Eligibility

CSIP is payable on a monthly basis in accordance with 37 U.S.C. § 353 to a Regular or RC enlisted member who:

5.2.1. Is entitled to basic pay pursuant to 37 U.S.C. § 204 or to compensation under 37 U.S.C. § 206;

5.2.2. Serves in a military career enlisted aviation occupational specialty or rating designated as critical by the Secretary of the Military Department concerned;

5.2.3. Qualifies for aviation service under regulations prescribed by the Secretary of the Military Department concerned; and

5.2.4. Meets other criteria the Secretary concerned deems appropriate.

5.3 Limitations and Restrictions

In addition to the limitations and restrictions prescribed in this paragraph, see paragraph 3.3.

5.3.1. Enlisted members receiving incentive payments pursuant to 37 U.S.C. §§ 301(a)(1), 301(a)(2), 301(a)(13) or 320, are ineligible for CSIP.

5.3.2. Enlisted members receiving CSIP pursuant to 37 U.S.C. § 353(a), may not also receive HDIP pursuant to 37 U.S.C. § 351(a)(2), for the same period of service in the same career field or skill.

5.3.3. Enlisted members may receive only one skill incentive payment in any given month for the same skill and period of service, pursuant to 37 U.S.C § 353(a).

5.3.4. Enlisted members may not receive CSIPs and proficiency bonuses, in accordance with 37 U.S.C. § 353, for the same skills and periods of service.

5.3.5. Officers are not authorized CSIP.

5.4 Terms and Conditions of CSIP Written Agreements

The Secretary concerned may require a Service member to enter into a written agreement in order to qualify for a CSIP payment. The agreement must specify the period for which the Service member will receive CSIP and the monthly rate of pay.

5.5 Payments and Amounts

5.5.1. The Secretaries of the Military Departments concerned may pay monthly CSIP to eligible Service members who meet the CSIP requirements in an amount not to exceed $600 per month. See Table 22-11. For the most current rates, see the Monthly Critical Skill Incentive Pay Rates for ***Air Force Enlisted Flyers*** table.

5.5.2. If a Service member does not satisfy the eligibility requirements specified in paragraph 5.2 for an entire month, the Secretary concerned may prorate the payment amount to reflect the duration of the Service member's actual qualifying service during the month.

5.5.3. RC Service members entitled to compensation under 37 U.S.C. § 206 are eligible for CSIP at the discretion of the Secretary concerned. The amount will be equal to 1/30th of the monthly CSIP authorized by the Military Department concerned for each period of inactive duty training.

5.6 Repayment

See paragraph 3.5.

5.7 Duration of Authority

Unless reauthorized by Congress, CSIP may not be paid after the date listed on the Duration of Authority table, located on DFAS.MIL, unless a CSIP agreement was entered into prior to the date on the table.

Table 22-1. Time of Aerial Flight Required for Fractional Part of the Month

Days	Hours of Aerial Flight		Days	Hours of Aerial Flight	
	Active Duty	Inactive Duty		Active Duty	Inactive Duty
1	.2	.1	16	2.2	1.1
2	.3	.2	17	2.3	1.2
3	.4	.2	18	2.4	1.2
4	.6	.3	19	2.6	1.3
5	.7	.4	20	2.7	1.4
6	.8	.4	21	2.8	1.4
7	1.0	.5	22	3.0	1.5
8	1.1	.6	23	3.1	1.6
9	1.2	.6	24	3.2	1.6
10	1.4	.7	25	3.4	1.7
11	1.5	.8	26	3.5	1.8
12	1.6	.8	27	3.6	1.8
13	1.8	.9	28	3.8	1.9
14	1.9	1.0	29	3.9	2.0
15	2.0	1.0	30-31	4.0	2.0

Table 22-2. Flight Examples Involving Basic 3-Month Grace Periods

Month	Example 1		Example 2		Example 3		Example 4	
	Hours	Entitled	Hours	Entitled	Hours	Entitled	Hours	Entitled
January	4	Yes (note 1)	4	Yes (note 1)	4	Yes (note 1)	4	Yes (note 1)
February	0	No (note 2)	0	No (note 2)	0	Yes (notes 2 - 5)	0	Yes (notes 2 - 6)
March	4	Yes (note 1)	0	No	0	Yes (note 5)	8	Yes (note 1)
April	0	No (note 3)	4	Yes (note 1)	12	Yes (note 1)	0	Yes (notes 2 - 5)
May	0	No (note 4)	0	No (note 4)	0	Yes (notes 2 - 5)	0	Yes (note 5)
June	4	Yes (note 1)	0	No	0	Yes (note 5)	12	Yes
July	4	Yes (note 1)	4	Yes (note 1)	12	Yes (note 1)		
August	0	No (notes 2 - 8)	0	No (notes 2 - 8)	0	No (notes 2 - 8)		

Table 22-2. Flight Examples Involving Basic 3-Month Grace Periods (Continued)

Month	Example 5		Example 6		Example 7	
	Hours	Entitled	Hours	Entitled	Hours	Entitled
January	4	Yes (notes 1 - 7)	2	Yes (notes 7 - 9)	0	Yes (note 5)
February	0	Yes (note 9)	0	Yes (note 9)	0	Yes (note 5)
March	0	Yes (note 9)	0	Yes (note 9)	12	Yes (note 1)
April	0	Yes (note 9)	0	No (note 2)	4	Yes (note 1)
May	0	Yes (notes 2 - 5)	0	No (note 8)	0	No (notes 2 - 8)
June	0	Yes (note 5)	7	Yes (notes 1 - 11)	0	No (notes 2 - 8)
July	12	Yes (note 1)			11	Yes (notes 1 - 9 and 11)
August					5	Yes (notes 1 – 9 and 11)

NOTES:
1. Entitled to incentive pay based on that month's flights.
2. Begins a 3-month grace period.
3. New 3-month period does not begin, since this is last month of first 3-month period.
4. New 3-month period does not begin, since flight requirements were not met for previous entire period.
5. Entitled to incentive pay based on 3-month period.
6. Entitled to incentive pay based on 2-month period.
7. Injured in aircraft accident.
8. Not entitled to incentive pay, unless sufficient flights performed in following 1 or 2-month period.
9. Free entitlement period.
10. Two unused hours from January lost.
11. Excess hours available for application in 5 succeeding months as required.

Table 22-3. Flight Examples Involving 3-Month Periods and Excess Time

Month	Hours Flown	Entitle-ment	Based on Hours Flown During	End of Month Excess and Unused Hours		Pertinent Factors

Jun	30	Yes	Jun	26	26	Physically incapacitated
Jul	0	Yes	Jun 4	0	22	Jun 20
Aug	0	Yes	Jun 4	0	18	
Sep	0	Yes	Jun 4	0	14	
Oct	0	Yes	Jun 4	0	10 (note 3)	Suspended Oct 1
Nov	0	Yes	Jun 4	0	0 (note 3)	6 hours lost from Jun
Dec	0	No		0	0	
Jan	0	No		0	0	
Feb	0	No		0	0	
Mar	0	No		0	0	
Apr	9	Yes	Apr	5	5	Suspension ended Apr 1

NOTES:

1. No excess hours available from previous 5 months and deficiency not made up within 2 following months.
2. Insufficient excess hours available from previous 5 months. New 3-month period does not begin since requirements were not met for entire 3-month period of August-October.
3. Payment made after the suspension ended.
4. Three-month grace period expired before suspension ended.

Table 22-4. Entitlement to HDIP Under Certain Conditions

RULE	When a Service member in flying status is	and	and	then flight pay
1	sick in line of duty	flying status orders remain in effect	Service member meets or has met flight requirements or flight requirements do not apply	continues for the period of illness.
2	on authorized leave in pay status	flying status orders remain in effect	Service member meets or has met flight requirements or flight requirements do not apply	continues for the period of leave (note 1).
3	on Temporary Duty (TDY) or Temporary Additional Duty (TAD)	flying status orders remain in effect	Service member meets or has met flight requirements or flight requirements do not apply	continues for the TDY or TAD period.
4	in a travel status (including authorized delay en route) on change of station	flying status orders remain in effect	Service member meets or has met flight requirements or flight requirements do not apply	continues for the period of travel.
5	a Reservist released from active duty of more than 30 days	orders are not issued directing relief from all assigned duties	Service member has met flight requirements	continues for the period of allowable travel time home (note 2).
6	discharged and immediately reenlists at the same station without a break in service	flying status orders are not specifically terminated	Service member has met flight requirements	entitlement is determined as if there had been no discharge.
7	discharged and immediately reenlists at the same station without a break in service	flying status orders are specifically terminated	Service member has met flight requirements	ceases on the date stated in orders.

Table 22-4. Entitlement to HDIP, Under Certain Conditions (Continued)

RULE	When a Service member in flying status is	and	and	then flight pay
8	incapacitated as a result of performance of flying duty			is payable as indicated in paragraphs 2.6 or 2.7.
9	an enlisted crewmember whose flight orders include a termination date	is involuntarily removed from flying duty (note 3)	was given less than 120 days of advance notice of removal from flying duty (note 4)	continues either for 120 days after the date on which notified of such removal or until original flight orders termination date, whichever occurs first, without regard to the flight requirements of paragraph 2.3.
10	an enlisted crewmember whose flight orders do not include a termination date	is involuntarily removed from flying duty (note 3)	was given less than 120 days advance notice of removal from flying duty (note 4)	continues for 120 days after the date on which notified of such removal without regard to the flight requirements of paragraph 2.3.

NOTES:
1. Do not count flights performed while on leave for pay purposes.
2. Do not pay flight pay beyond the last day of the calendar month for which requirements are met.
3. A Service member is not considered to be involuntarily removed from flying duty upon separation, confinement, relief for cause, reduction in grade, medical unfitness, absence without leave, or transfer to ground duty at own request.
4. Advance notice of removal from flying duty will be issued by a competent authority in writing. Advance notice may be provided verbally if a suitable memorandum for the record is made and later followed by written notification.

CHAPTER 23

SUBMARINE DUTY PAY

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide policy pertaining to Submarine Duty Pay for members of the Navy, as authorized by law. A member of the Navy, who is entitled to basic pay, may be paid submarine duty incentive pay for the frequent and regular performance of operational submarine duty required by orders (including on a submarine of a foreign nation).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Title 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 INCENTIVE PAY FOR OPERATIONAL SUBMARINE DUTY

2.1 Purpose

Incentive pay for operational submarine duty is designed to recognize the arduous nature of submarine duty assignments. The Secretaries of the Military Departments concerned may establish an operational submarine duty incentive pay program to encourage volunteerism for submarine duty assignments.

2.2 Eligibility

The Secretaries of the Military Departments concerned will establish eligibility criteria based on Service-specific needs for submarine duty assignments not receiving continuous submarine duty pay (CONSUBPAY).

2.3 Amount

The Secretaries of the Military Departments concerned will establish monthly rates, based on level of responsibility and time of submarine service. The maximum amount of operational submarine duty incentive pay per month will not exceed $1,000. The monthly rates of submarine duty pay for commissioned officers, warrant officers, and enlisted members are contained in Tables 23-1, 23-2, and 23-3. For the most current rates, see the ***Submarine Duty Pay Rates*** table on DFAS.MIL.

2.4 Definition of Terms for "Operational Submarine Duty"

2.4.1. Operational submarine duty means duty performed:

2.4.1.1. While assigned under competent orders to a submarine;

2.4.1.2. While serving as an operator or crew member of an operational submersible (including an undersea exploration or research vehicle);

2.4.1.3. While undergoing initial submarine training prior to assignment to a nuclear-powered submarine;

2.4.1.4. While undergoing rehabilitation training after assignment to a nuclear-powered submarine;

2.4.1.5. In the case of members qualified for the submarine service, while assigned as a member of a submarine operational command staff whose duties require serving on a submarine during underway operations:

2.4.1.5.1. During 1 calendar-month: 48 hours, except that hours served underway in excess of 48 hours as a member of a submarine operational command staff during any of the immediately preceding 5 calendar-months and not already used to qualify for incentive pay, may be applied to satisfy the 48-hour underway time requirements for the current month;

2.4.1.5.2. During any 2 consecutive calendar-months when requirements of subparagraph 2.4.1.5.1 have not been met: 96 hours; or

2.4.1.5.3. During any 3 consecutive calendar-months when requirements of subparagraph 2.4.1.5.2 have not been met: 144 hours;

2.4.1.6. While receiving training and instructions for assignment to a submarine of advanced design; or

2.4.1.7. While receiving instructions to prepare a submariner for a position of increased responsibility on a submarine.

2.4.2. The term "submarine service" means the service performed by a member under regulations prescribed by the Secretary of the Navy. The years of submarine service are computed beginning with the effective date of the initial order to perform submarine service.

2.5 Submarine Duty Pay Start and Stop Dates

See Table 23-4.

2.6 Submarine Operational Command Staff Members

2.6.1. General rules for meeting underway time requirements, including determination of a 2- or 3-month grace period, are substantially the same as those for flying pay. (See Chapter 22.)

2.6.2. For the fractional part of a calendar month, or fractional parts of 2 consecutive calendar months (duty begins in 1 month and ends in the following month), the underway time required, based on the requirement of 48 hours for a calendar month, will be determined from Table 23-5.

2.7 Temporary Additional Duty or Authorized Leave

A member, who is entitled to submarine duty pay, retains entitlement during periods of temporary additional duty or authorized leave. However, a submarine operational command staff member is required to fulfill the underway time requirements to retain entitlement during such periods if not otherwise entitled to continuous monthly submarine duty pay in accordance with section 3.0.

2.8 Missing Status - Member's Entitlement

A member receiving submarine duty pay when declared missing by a competent authority is entitled to submarine duty pay during the period of absence and for the period, not to exceed 1 year, required for hospitalization and rehabilitation after termination of missing status. The member's entitlement to submarine duty pay, upon termination of the period of eligibility, will be contingent on a determination of continued eligibility.

2.9 Restriction

2.9.1. An officer who fails selection for assignment as an executive officer or commanding officer of a submarine, or who declines to serve in either such position, may not be paid submarine duty pay except for periods during which such officer is serving on a submarine during underway operations.

2.9.2. A Service member cannot receive both CONSUBPAY and operational submarine duty incentive pay at the same time for the same period of service. When CONSUBPAY eligibility is not met, personnel may be eligible for operational submarine duty incentive pay for any period attached under orders to operational submarine duty, whether temporarily or permanently assigned.

3.0 CONTINUOUS SUBMARINE DUTY SKILL INCENTIVE PAY FOR SUBMARINE SERVICE MEMBERS

3.1 Purpose

The Navy may offer CONSUBPAY to active-duty Service members who volunteer to serve in, and remain serving in, the submarine service on a career basis in a submarine duty designation or designator.

3.2 Eligibility

A member of the submarine service (as defined in subparagraph 2.4.2) may be eligible for CONSUBPAY if they meet the following requirements:

3.2.1. Hold a submarine duty designation or designator, or are in training to receive a submarine duty designation or designator;

3.2.2. Have a valid submarine service entry date and have obtained the prescribed amount of total operational submarine service (TOSS) at the completion of 12 and/or 18 years of submarine service. Prior to 12 years of service, there is no minimum TOSS requirement for CONSUBPAY;

3.2.3. Enlisted members serving ashore must maintain a sufficient period of obligated service as specified in the Office of Chief of Naval Operations Instruction (OPNAVINST) 7220.15 (including any extension of enlistment) to be able to be reassigned to submarine duty. Officers must remain qualified for follow-on submarine service while serving ashore;

3.2.4. Maintain physical qualifications for submarine service;

3.2.5. Have less than 26 years of service; and

3.2.6. Meet other applicable requirements outlined by the Secretary of the Navy.

3.3 Additional Eligibility Requirements

3.3.1. To remain eligible for CONSUBPAY through 26 years of service (excluding, in the case of an officer, any period of service as an enlisted member) a member must accumulate at least 6 years of TOSS in the first 12 years of submarine service, and at least 10 years of TOSS in the first 18 years of submarine service. However, if a member accumulates at least 8 but less than 10 years of TOSS after 18 years of submarine service, the member remains eligible for CONSUBPAY through 22 years of service (excluding, in the case of an officer, any period of service as an enlisted member).

3.3.2. If, upon completion of either 12 or 18 years of submarine service, it is determined that a member has failed to perform the minimum prescribed operational submarine duty requirements during the prescribed periods of time, the eligibility for continuous monthly submarine duty pay ceases. If continuous monthly submarine duty pay ceases upon completion of

12 years of submarine service, a member may be eligible to re-qualify for the pay if after the completion of 18 years of submarine service, the minimum operational submarine duty requirements have been met. At which time, the pay may resume for the period of time prescribed in this section. However, if entitlement to continuous monthly submarine duty pay ceases in the case of any member at the completion of either 12 or 18 years of submarine service or 26 years of service (as computed under Chapter 1, section 2.0), such member will only be eligible for operational submarine duty pay in the amount specified in section 2.0 for the performance of submarine duties while assigned to a submarine during underway operations.

NOTE: In the case of an officer, any period as an enlisted member, before initial appointment as an officer, is excluded.

3.4 Rates

The monthly rates of submarine duty pay are the same as indicated in Tables 23-1 through 23-3.

3.5 Missing Status - Member's Entitlement

The provisions of paragraph 2.8 are applicable to submarine duty pay entitlement under this section.

3.6 Restriction

3.6.1. Pursuant to ***Title 37, United States Code, Section 353(h)***, a Service member may not be paid more than one pay under the section in any month for the same period of service and skill.

3.6.2. Service members temporarily unable to perform submarine duty due to a physical or medical condition, not the result of the member's own misconduct, may continue to receive CONSUBPAY for a period of up to 6 months. After 6 months, CONSUBPAY will be terminated and may not be reinstated until the condition resulting in the physical or medical restriction is corrected and the member is again certified for submarine duty by a competent Undersea Medical Officer.

3.6.3. Service members permanently disqualified or otherwise determined to be no longer eligible to perform submarine duty, are ineligible for CONSUBPAY.

3.6.4. In accordance with the Memorandum for Assistant Secretary of the Navy (ASN) for Manpower and Reserve Affairs (M&RA), dated January 26, 2018 a Service member, who receives CONSUBPAY and fails to satisfy the eligibility requirements for receipt of the pay, will be subject to having the pay terminated. Repayment of any unearned portion or overpayment will be in accordance with the provisions of ***37 U.S.C. § 373***, Chapter 2, and Volume 16, Chapter 3.

*Table 23-4. Submarine Duty Pay - Start and Stop Dates

RULE	If member under orders for submarine duty is	and	then credit for incentive pay	continues
1	assigned to a submarine		begins on the day of reporting for duty, and	through day of detachment.
2	assigned as prospective crewmember of submarine under construction		begins on the day of reporting for duty, and	through day of detachment.
3	assigned to a nuclear-powered submarine manned by two crews or a crew and an augment crew (notes 1 and 2)		begins on the day of reporting for duty as on-ship or off-ship crew, and	through day of detachment.
4	undergoing instruction to qualify for duty on a submarine of advanced design or for duty with increased responsibility (note 3)		begins on the day class convenes, and	through last day of instruction.
5	injured or incapacitated as a result of performing submarine duty	remains assigned to submarine duty		through date of detachment.
6	injured or incapacitated as a result of performing submarine duty	is transferred to a medical facility on temporary duty orders for treatment, rehabilitation or medical board review		for not more than 6 months after date of incapacity, as determined by medical authorities.
7	injured or incapacitated as a result of performing submarine duty	is reassigned to limited duty for treatment or rehabilitation		for not more than 6 months after date of assignment to Limited Duty or until disqualifying condition is determined to be permanent, whichever is earlier.

NOTES:

1. Attachment to a submarine means duty as a crew member either on board the submarine, or on duty ashore during periods of rehabilitation after reporting for permanent duty as a crew member, whether to the on-ship or off-ship crew.
2. When an off-ship crew member, in a training and rehabilitation status, performs travel in connection with a change of home port of the member's submarine by means other than the submarine, member's entitlement to submarine pay continues during period in transit.
3. This rule also applies to officers, who previously qualified in submarines as enlisted members, while attending the following:
   a. Submarine Officers' Basic Course or Submarine Officers' Indoctrination Course, for the specific purpose of preparing for a position in a nuclear-powered submarine; or
   b. A course of instruction listed in the OPNAVINST 7220.15B, October 20, 2023, specifically preparing them for positions of increased responsibility in nuclear-powered submarines.

CHAPTER 24

INCENTIVE PAY - HAZARDOUS DUTY OTHER THAN AERIAL FLIGHTS

1.0 GENERAL

1.1 Purpose

The Secretaries of the Military Departments may offer hazardous duty incentive pay (HDIP), special warfare skill incentive pay (SWSIP), or Naval special warfare (NSW) skill incentive pay (SKIP) payments to Service members who under competent orders are required to perform duties designated as hazardous, based upon the inherent dangers of the duty and the risks of physical injury. This chapter establishes the policy pertaining to the monetary incentive to Service members who perform these duties.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), Title 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ENTITLEMENT

2.1 Eligibility

To receive HDIP, a Regular or Reserve Component Service member must:

2.1.1. Be entitled to basic pay under ***37 U.S.C. § 204*** or ***37 U.S.C. § 206***;

2.1.2. Be serving under competent orders to perform the hazardous duty; and

2.1.3. Be in training or have completed qualifying training and meet eligibility criteria for the performance of the hazardous duty.

2.2 Member of the Reserve Components (RC)

2.2.1. A member of the RC on extended active duty (EAD) as defined in Chapter 57, paragraph 2.1, who is ordered to perform any of the hazardous duties listed in sections 3.0 through 13.0, is entitled to pay based on the terms of this chapter.

2.2.2. A member of the RC on active-duty training (ADT), who is ordered to perform any of the hazardous duties listed in sections 3.0 through 13.0 is entitled to pay based on Table 24-1, rules 9 through 13 and Chapter 57, paragraphs 3.2 and 4.1.

*2.3 Payment Method and Amounts

2.3.1. Rates. A member who qualifies for HDIP under this chapter may receive a monthly amount up to the rate prescribed for the type of duty performed. The most current rates are in the ***HDIP Rates*** table on DFAS.MIL.

2.3.2. Payment Method. Service members are first eligible for HDIP on the date they report for, and begin performing, a qualifying eligible duty in compliance with competent orders, subject to meeting qualification requirements. HDIP ends on the effective date published in orders for termination of such duty, or the date the Service member is detached from and is no longer required to perform the hazardous duty whichever occurs first.

2.3.2.1. Proration. In cases when a Service member begins hazardous duty on a date other than the first day of a month or terminates that duty prior to the 30th of a month (28th or 29th of February, as appropriate) and otherwise meets the requirements of the pay for the month, the Service member is entitled to a prorated portion of HDIP for the month.

2.3.2.1.1. The prorated monthly amount for Service members serving on active duty is calculated by multiplying 1/30th of the monthly rate of HDIP by the actual number of qualifying service days during the month.

2.3.2.1.2. The prorated monthly amount for RC members entitled to compensation pursuant to 37 U.S.C. § 206, is calculated by multiplying 1/30th of the monthly rate of HDIP by the number of qualifying drill periods performed in the month.

2.3.2.1.3. The maximum incentive pay amount for a hazardous duty may not exceed the monthly HDIP rate or the specific hazardous duty.

2.3.2.2. Exception to Proration. Subparagraph 2.3.2.1 does not apply when the Secretary concerned has requested to specifically designate a hazardous duty as one which, when performed by a Service member in a month, entitles the Service member to the full monthly rate of HDIP for the duty regardless of the duration of qualifying service during the month and such request has been approved by ASD (M&RA).

2.3.3. Repayment of Unearned or Overpayment. A Service member receiving an incentive pay in accordance with this chapter and fails to satisfy the eligibility requirements for receipt of pay will be subject to having the pay terminated. Repayment of any overpayment will be in accordance with the provisions of ***37 U.S.C. § 373*** and DoD Financial Management Regulation, Volume 16, Chapter 3.

2.4 Multiple Payments of HDIP

Service members performing multiple hazardous duties may receive a maximum of three HDIP payments per month. Multiple HDIP is limited to those members required by orders to perform specific multiple hazardous duties necessary for successful accomplishment of the

mission of the unit to which assigned. Members must meet minimum requirements for each hazardous duty, unless excepted as provided in paragraph 2.6.

2.4.1. Aviation Incentive Pay (AvIP) and HDIP. Officers entitled to AvIP and enlisted members entitled to Critical Skill Incentive Pay (CSIP) are not eligible for flying duty HDIP. In addition to flying duty HDIP, Service members may receive two additional HDIPs under the provisions of this chapter provided the conditions for entitlement have been independently met.

2.4.2. Restriction With Regard to Parachute Duty. Only one type of parachute duty payment (regular or military free fall) is authorized for a qualifying period. When a member qualifies for both types of parachute duty, the higher rate of pay is authorized. Unless otherwise restricted by Military Service regulations (for example, restrictions on manning classification), a member who qualifies for a military free fall rate for a month in which the member earlier qualified for the regular rate of parachute pay will be entitled to the difference between the monthly rate of $150 and $225.

2.5 Injury or Incapacity Resulting From Performance of Hazardous Duty

Service members qualified for HDIP who are temporarily unable to perform a hazardous duty due to an injury or illness that is not the result of the Service member's own misconduct may continue to receive HDIP for up to 6 months. Appropriate medical authority determines the cause of the incapacity and the dates thereof.

2.5.1. Case-by-Case Exception. On a case-by-case basis, the Secretary concerned, or designee, may authorize an extension of HDIP payments for up to an additional 6-months, based on the recommendation of the appropriate medical authority. Under no circumstance may HDIP payments continue beyond 12 months from the date of injury or illness.

2.5.2. Termination of HDIP. HDIP will be terminated for Service members permanently disqualified or otherwise determined to be no longer eligible to perform hazardous duty by a competent medical authority.

2.5.3. Reassignment or Reclassification. Service members reassigned to a new duty assignment or specialty not eligible for HDIP will have their HDIP payments terminated on the date of reassignment or reclassification.

2.5.4. Combat Zone. If the injury or illness occurred while serving in a combat zone, hostile fire area, or imminent danger area, the Service member may continue to receive HDIP during their hospitalization and rehabilitation in accordance with ***37 U.S.C. § 372***. See Chapter 13, section 2.0 for additional details.

2.6 Authority to Issue Orders

Authority of the Military Departments to issue orders requiring performance of hazardous duty is delegated by the Secretaries to specific commanders within each Military Service. These

delegations are contained in personnel administrative regulations of the respective Military Services.

2.7 Missing Status - Member's Entitlement

A member who is receiving an HDIP listed in sections 3.0 through 14.0 when declared by competent authority to be missing (as defined in the Definitions Chapter) is entitled to HDIP during the period of absence and for any period, not to exceed 1 year, required for hospitalization and rehabilitation after termination of the missing status. The member's entitlement to HDIP, upon termination of any required period of hospitalization and rehabilitation or the 1-year period after date of return from missing status, whichever is earlier, will be contingent on a determination of continued eligibility under section 2.0 and the applicable requirements.

*2.8 Duration of Authority

Unless reauthorized by Congress, HDIP, SWSIP, and NSW SKIP may not be paid after the date listed on the ***Duration of Authority*** (DOA) table.

3.0 PARACHUTE DUTY

3.1 Entitlement

3.1.1. General. Qualified members are those who have received a designation as a parachutist, including those undergoing training for such designation, who are required by competent orders to engage in parachute jumping from an aircraft in aerial flight, and who meet the minimum performance requirements.

3.1.2. Performance Requirements. For eligibility, the member must meet the performance requirements for parachute duty HDIP set out in ***DoD Instruction (DoDI) 1340.09***, para. 3.4.d.

3.1.3. Military Free Fall

3.1.3.1. Service members who qualify for military free fall duty must perform duty involving parachute jumping, as an essential part of their military duties, in military free fall operations where parachute deployment by the jumper occurs without the use of a static line.

3.1.3.2. Qualifying members are those who have received a designation as a military free fall parachutist, including those undergoing training for such designation; who are required by competent orders to engage in parachute jumping from an aircraft in aerial flight; and who meet the requirements of paragraph 3.1. Performance requirements must be satisfied by military free fall jumps.

3.2 Parachute Jumps-Leave, Permanent Change of Station (PCS), Temporary Duty Travel (TDY)/Temporary Additional Duty (TAD), or ADT

Qualifying jumps for entitlement to parachute pay will be performed during a period of duty requiring parachute jumping as established by competent orders. Parachute jumps performed under the following circumstances do not qualify a member for entitlement to parachute pay:

3.2.1. Parachute jumps performed by any member while on leave or during PCS or TDY/TAD not requiring parachute jumping as an essential part of the duty; and

3.2.2. Parachute jumps performed by a member of an RC while on ADT that does not require parachute jumping as an essential part of the duty.

*3.3 Rates

The HDIP rates for parachute duty are:

3.3.1. HDIP for static line parachute jumping is $150 per month (see the HDIP Rates table for the most current rate).

3.3.2. HDIP for a military freefall parachutist is $225 per month (see the HDIP Rates table for the most current rate).

3.3.3. HDIP for parachute duty may be paid, provided prescribed requirements are met, only from the date of reporting for duty or training. Service members who arrive after the first day of the month or depart prior to the end of the month and are not on competent orders for a full calendar month will receive a prorated HDIP payment for those months, unless subparagraph 2.3.2.2 applies.

4.0 FLIGHT DECK DUTY

4.1 Entitlement

The Secretary concerned may offer flight deck HDIP (FDHDIP) to Service members who under competent orders perform flight deck hazardous duty (FDHD). Service members must be present, during flight operations at an assigned duty station on the flight deck of an aircraft carrier or a ship other than an aircraft carrier from which aircraft are launched and recovered during flight operations.

4.1.1. Performance Requirements. For eligibility, the member must meet the performance requirements for FDHDIP set out in DoDI 1340.09, para. 3.4.g.

4.1.2. Multiple Payments. Members receiving HDIP for any other type of hazardous duty are not entitled to FDHDIP for the same period.

4.2 Specialized Terms

4.2.1. Eligible Air Capable Ship. A ship having a flight deck that has been certified to launch or land aircraft under Chief of Naval Operations ship or helicopter facility certification program.

4.2.2. Flight Operations. The period of time during which launch and recovery of aircraft are in progress on the flight deck of an eligible air capable ship. It includes the turn-up and movement of aircraft preparatory to launch and the movement and shutdown of aircraft immediately following recovery.

4.2.3. Day of Flight Operations. One day of flight operations will consist of a calendar day during which any combination of aircraft takeoffs and/or landings takes place, as specified for each ship by class in OPNAV Instruction 7220.4 series. Four days of such flight operations, or the equivalent thereof, will constitute the basic calendar month qualification criteria.

4.2.4. Equivalent of 4 Days of Flight Operations. Any single day or combination of days during a calendar month in which the number of aircraft takeoffs and/or landings equals the monthly total requirement for that class ship in OPNAV Instruction 7220.4 series will constitute the equivalent of four days of flight operations.

4.2.5. FDHD Billet. A billet that requires frequent and regular participation in flight operations on the flight deck of an eligible (certified) ship as promulgated in the OPNAV Instruction 7220.4 series.

4.2.6. Participation. Service members must be present, during flight operations, at an assigned station on the flight deck of an aircraft carrier or a ship other than an aircraft carrier from which aircraft are launched and recovered during flight operations.

*4.3 Rates

FDHDIP is paid to eligible members at a rate of $150 per month (see the HDIP Rates table for the most current rate). Service members who meet entitlement criteria, but who do not participate in a full calendar month of flight deck operations, will receive a prorated FDHDIP payment in accordance subparagraph 2.3.2 for any portion of a calendar month, during which FDHD is performed under competent orders, unless subparagraph 2.3.2.2 applies.

4.4 Commencement and Termination of FDHDIP

Eligibility for entitlement to FDHDIP begins on the date a member is ordered to duty in an FDHD billet. Entitlement eligibility ends on the date the orders to such billet are revoked, or when a member is permanently detached from the aircraft carrier, other eligible air capable ship, or aviation unit, whichever occurs first. Orders may be terminated for other reasons but not for the sole purpose of providing FDHDIP for additional members.

4.5 Right to Pay Under Certain Conditions

See Table 24-1.

5.0 DEMOLITION DUTY

5.1 Entitlement

5.1.1. Condition of Entitlement. A member entitled to basic pay, who is required by competent orders to perform duty involving the demolition of explosives, as prescribed by Military Service regulations, as a primary duty (including training for that duty), is entitled to HDIP under the conditions stated in this section.

5.1.2. Duty Involving Demolition of Explosives. Demolition duty is duty performed by members who engage in the following activities under competent orders and as a primary duty assignment:

5.1.2.1. Demolish by the use of explosive objects, obstacles, or other explosives, or recover and render harmless, by disarming or demolishing, explosives that have failed to function as intended or which have become a potential hazard;

5.1.2.2. Participate as students or instructors in instructional training, including that in the field or fleet, for the duties described in subparagraph 5.1.2.1 provided that live explosives are used in such training;

5.1.2.3. Participate in proficiency training, including that in the field or fleet, for the maintenance of skill in the duties described in subparagraph 5.1.2.1 provided that live explosives are used in such training; or

5.1.2.4. Experiment with or develop tools, equipment, or procedures for the demolition and rendering harmless of explosives, provided that live explosives are used.

*5.2 Rates

HDIP for demolition duty is paid to eligible members at a rate of $150 per month (see the HDIP Rates table for the most current rate). Qualified Service members who are not on competent orders for the entire month receive a prorated payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

5.3 Performance Requirements

For eligibility, the member must meet the performance requirements for demolition duty HDIP set out in DoDI 1340.09, para. 3.4.e.

5.4 Right to Pay Under Certain Conditions

See Table 24-1.

6.0 EXPERIMENTAL STRESS DUTY

6.1 Entitlement

6.1.1. Condition of Entitlement. A member on active duty who is required by competent orders to perform experimental stress duty is entitled to HDIP under the conditions stated in this section.

6.1.2. Duty Involving Experimental Stress. Experimental stress duties are included in subparagraphs 6.1.2.1 through 6.1.2.4.

6.1.2.1. Human Acceleration or Deceleration Experimental Subject. Duty performed as human acceleration or deceleration experimental subjects utilizing experimental acceleration or deceleration devices.

6.1.2.2. Thermal Stress Duty. Duty performed as human thermal experimental subjects in thermal stress experiments.

6.1.2.3. Low-Pressure Chamber Duty. Duty performed within a low-pressure (altitude) chamber at physiological facilities as human test subjects, inside instructor-observer or inside observer-tender.

6.1.2.4. High-Pressure Chamber Duty

6.1.2.4.1. Duty performed within a high-pressure (hyperbaric or recompression) chamber or hyperbaric complex as a:

6.1.2.4.1.1. Human test subject for approved protocols applicable to the research, development, testing and evaluation of diving, hyperbaric and underwater-related tools, systems, equipment and procedures;

6.1.2.4.1.2. Human test subject in a recompression chamber/hyperbaric complex inside instructor-observer or inside observer-tender during the conduct of protocols; or

6.1.2.4.1.3. Human test subject in a recompression chamber/hyperbaric complex inside instructor-observer or inside observer-tender during the conduct of hyperbaric treatment or hyperbaric therapy procedures which include, but are not limited to, treatment of ailments incidental to diving and hyperbaric/hypobaric exposure.

6.1.2.4.2. For a Navy member to qualify as a human test subject, inside instructor-observer or inside observer-tender in a recompression chamber/hyperbaric complex, all of the following conditions must be met. The member must:

6.1.2.4.2.1. Possess one of the Navy Enlisted Classification/Navy Officer Billet Classification (NEC/NOBC) codes listed and be assigned by competent orders to a billet utilizing the following NEC/NOBC classifications:

Enlisted:	**NEC**
Special Warfare Operator (SEAL) Candidate	O20A
SEAL Delivery Vehicle (SDV) Operator	O23A
Special Warfare Operator (SEAL)	O26A
Basic Explosive Ordnance Disposal (EOD) Technician	M02A
Senior EOD Technician	M03A
Master EOD Technician	M04A
Master Diver	MMDV
First Class Diver	M1DV
Second Class Diver	M2DV
Underwater Construction Technician Advanced	B16A
Underwater Construction Technician Basic	B17A
Master Underwater Construction Diver	B18A
Fleet Marine Force Reconnaissance Independent Duty Corpsman	L02A
Fleet Marine Force Reconnaissance Corpsman	L11A
Medical Deep Sea Diving Technician	L27A
Deep Sea Diving Independent Duty Corpsman	L28A

Officer	**NOBC**
Undersea Medical (Diving) Officer	0107
EOD Officer	9230
EOD Mobile Unit Officer	9231
SEAL Officer	9293
Diving Officer (General)	9312;

6.1.2.4.2.2. Be ordered to perform additional duty as a human test subject, inside instructor-observer or inside observer-tender as described in subparagraphs 6.1.2.4.1, 6.1.2.4.2, or 6.1.2.4.3, or by the commanding officer having cognizance over the recompression chamber or hyperbaric complex; and

6.1.2.4.2.3. Either be instructing or operating Navy approved underwater breathing equipment, support systems, and recompression chambers; or observing the other individual(s) for symptoms of diving injuries/illnesses and providing appropriate treatment, as ordered by competent authority.

6.1.2.4.3. The following types of similar duties do not entitle Navy personnel to HDIP as recompression chamber/hyperbaric complex inside instructor-observers or inside observer-tenders:

6.1.2.4.3.1. Inside observer-tender and divers for surface decompression procedures incidental to the conduct of diving operations as this is considered a normal procedure related to the safe conduct of routine diving operations;

6.1.2.4.3.2. Under instruction either inside instructor-observer, inside observer-tender, or trainees that includes saturation diving procedures and hyperbaric medical related training which is considered a normal requirement to establish or maintain proficiency and/or qualifications;

6.1.2.4.3.3. Inside observer-tender or test candidates during pressure and/or oxygen tolerance tests;

6.1.2.4.3.4. Inside observer-tender, technicians or others involved in recompression chamber or hyperbaric complex preventive or corrective maintenance or during the use of a chamber or complex for the purpose of conducting preventive or corrective maintenance procedures; and

6.1.2.4.3.5. Patients undergoing hyperbaric treatment or therapy.

6.1.3. Restriction. A member is entitled to only one payment of HDIP for experimental stress duty during any 1 month.

*6.2 Rates

HDIP for experimental stress duty is $150 per month (see the HDIP Rates table for the most current rate). HDIP is payable for any full month or is prorated in accordance with subparagraph 2.3.2 for any portion of a calendar month, during which experimental stress duty is performed under competent orders, unless subparagraph 2.3.2.2 applies.

6.3 Performance Requirements

For eligibility, the member must meet the performance requirements for experimental stress duty HDIP set out in DoDI 1340.09, para. 3.4.f.

6.4 Right to Pay Under Certain Conditions

See Table 24-1.

7.0 TOXIC FUELS (OR PROPELLANTS) DUTY

7.1 Entitlement

7.1.1. A member is eligible for HDIP for duty involving the servicing of aircraft or missiles with highly toxic fuels or propellants when this duty is performed as a primary duty according to the requirements set forth in subparagraphs 7.2.1 through 7.2.4 and 7.2.7.

7.1.2. A member is eligible for HDIP for duty involving the servicing of aircraft or missiles with highly toxic fuels or propellants for the testing of aircraft or missile systems (or components of such systems) during which highly toxic fuels are used when this duty is performed as a primary duty according to the requirements listed in paragraph 7.2.

7.2 Performance Requirements

For eligibility, the member must meet the performance requirements for toxic fuel or propellants duty HDIP set out in DoDI 1340.09, para. 3.4.j.

*7.3 Rates

HDIP for handling of toxic fuels and propellants is $150 per month (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not participate in a full calendar month of duty involving toxic fuels and propellants, will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

7.4 Restriction

Authorization is based upon the performance of this primary duty that has the potential for accidental or inadvertent exposure to highly toxic fuels or propellants or related substances and not upon actual quantifiable exposure to such substances. Therefore, neither this construction of the term nor the receipt of the pay may be construed as indicating that any Service member eligible for such pay has been actually exposed to highly toxic fuels or propellants, or related substances contrary to the provisions of any statute, Executive order, rule, or regulation relating to health or safety which is applicable to the Uniformed Services.

8.0 TOXIC PESTICIDES DUTY

8.1 Entitlement

A member is eligible for HDIP for duty involving frequent and regular exposure to highly toxic pesticides when the member is assigned by competent orders to the entomology, pest control, pest management, or preventive medicine functions of a Uniformed Service for a period of 30 consecutive days or more.

8.2 Performance Requirements

For eligibility, the member must meet the performance requirements for toxic pesticides duty HDIP set out in DoDI 1340.09, para. 3.4.h.

*8.3 Rates

HDIP for duty involving exposure to toxic pesticides is $150 per month (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not

participate in a full calendar month of duty involving exposure to highly toxic pesticides will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

9.0 DANGEROUS VIRUSES (OR BACTERIA) LAB DUTY

9.1 Entitlement

A member is eligible for HDIP for duty involving laboratory work that utilizes live dangerous viruses or bacteria as a primary duty.

9.2 Performance Requirements

For eligibility, the member must meet the performance requirements for dangerous viruses or bacteria duty HDIP set out in DoDI 1340.09, para. 3.4.i.

*9.3 Rates

HDIP for laboratory duty involving dangerous viruses or bacteria is $150 per month (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not participate in a full calendar month of laboratory duty utilizing live viruses or bacteria will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

10.0 CHEMICAL MUNITIONS DUTY

10.1 Entitlement

A member is eligible for HDIP for duty involving the handling of chemical munitions (or components of such munitions) as a primary duty.

10.2 Performance Requirements

For eligibility, the member must meet the performance requirements for toxic pesticides duty HDIP set out in DoDI 1340.09, para. 3.4.k.

*10.3 Rates

HDIP for handling of chemical munitions is $150 per month (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not participate in a full calendar month of duty handling chemical weapons, will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

10.4 Restriction

The Secretary concerned is authorized to pay HDIP for the performance of this primary duty that has the potential for accidental exposure to chemical agents and not upon actual quantifiable exposure to such agents. Therefore, neither the construction of the term nor the receipt of pay provided for in this section may be construed as indicating that any person eligible for such pay actually has been exposed to chemical agents contrary to the provisions of any statute, Executive order, rule, or regulation relating to health and safety which is applicable to the Uniformed Services.

11.0 MARITIME VISIT, BOARD, SEARCH, SEIZURE (VBSS) DUTY

11.1 Entitlement

The Secretary concerned may offer an HDIP to members who under competent orders perform duty in VBSS billets that require frequent and regular participation in VBSS operations aboard vessels in support of maritime interdiction operations.

11.2 Performance Requirements

For eligibility, the member must meet the performance requirements for maritime VBSS duty HDIP set out in DoDI 1340.09, para. 3.4.l.

*11.3 Rates

HDIP for VBSS is a monthly rate of $150.00 (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not participate in a full calendar month of VBSS duty, will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

12.0 POLAR REGION FLIGHT OPERATIONS DUTY

12.1 Entitlement

A member is eligible for HDIP for duty involving the use of ski-equipped aircraft on the ground in Antarctica or on the Arctic Ice-Pack.

12.2 Performance Requirements

For eligibility, the member must meet the performance requirements for polar region flight operations duty HDIP set out in DoDI 1340.09, para. 3.4.m.

*12.3 Rates

HDIP for polar region flight operations duty is $150.00 per month (see the HDIP Rates table for the most current rate). Service members who meet the eligibility criteria, but who do not

participate in a full calendar month of polar region flight operations, will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

13.0 WEAPONS OF MASS DESTRUCTION CIVIL SUPPORT (WMDCS) TEAM

13.1 Entitlement

The Secretary concerned may pay HDIP to RC Service members assigned to WMDCS teams.

13.2 Performance Requirements

For eligibility, the member must meet the performance requirements for WMDCS team HDIP set out in DoDI 1340.09, para. 3.4.n.

*13.3 Rates

HDIP for RC Service members assigned to a WMDCS team is $150 per month (see the HDIP Rates for the most current rate). Service members who meet the eligibility criteria, but who do not participate in a full calendar month as a WMDCS team member, will receive a prorated HDIP payment in accordance with subparagraph 2.3.2, unless subparagraph 2.3.2.2 applies.

14.0 DIVING DUTY HDIP

See Chapter 11 for diving duty eligibility criteria, requirements, and rates.

15.0 SPECIAL WARFARE SKILL INCENTIVE PAY (SWSIP)

15.1 Entitlement

The Air Force may pay a monthly skill incentive pay to Airmen qualified and serving as an Air Force Special Warfare (AFSPECWAR) Airmen. AFSPECWAR Airmen conduct operations in the ground domain in contested, denied, operationally limited, and permissive environments under severe environmental conditions.

15.2 Performance Requirements

15.2.1. AFSPECWAR Airmen must serve in one the following seven critical Air Force Specialty Codes (AFSC):

15.2.1.1. Pararescue (1Z1XX);

15.2.1.2. Combat Control (1Z2XX);

15.2.1.3. Tactical Air Control Party (1Z3XX);

15.2.1.4. Special Reconnaissance (1Z4XX);

15.2.1.5. Special Tactics Officer (19ZXA);

15.2.1.6. Tactical Air Control Party Officer (19ZXB); or

15.2.1.7. Combat Rescue Officer (19ZXC).

15.2.2. The Air Force may offer skill incentive pay to AFSPECWAR Airmen who:

15.2.2.1. Are entitled to basic pay under 37 U.S.C. § 204, or 37 U.S.C. § 206.

15.2.2.2. Serve in one of the AFSPECWAR Airmen AFSCs listed in subparagraph 15.2.1.

15.2.2.3. Meet all applicable eligibility requirements for performance of skill incentive pay as outlined in the Assistance Secretary of Defense (ASD) Memo for Assistant Secretary of the Air Force for Manpower and Reserve Affairs (M&RA) and any other criteria established by the Secretary of the Air Force in accordance with Air Force publications:

15.2.2.3.1. ***Air Force Manual (AFMAN) 10-3500V1***, Air Force Special Warfare Training Program, dated June 1, 2022, Table A2.1 and A2.2 for critical skills (parachute, dive, demolition, and aerial flight); and

15.2.2.3.2. Department of the Air Force Guidance Memorandum to AFMAN 10-409-O, Support to Adaptive Planning, dated June 15, 2021.

15.2.2.4. Have completed the requisite training and maintain necessary qualifications for the performance of Special Warfare Airmen critical skills required by the Secretary of the Air Force in accordance with the Air Force "Force Generation and Force Presentation (AFFORGEN) model."

15.2.2.5. Meet medical and physical requirements for deployment or be granted a waiver for deployment purposes.

15.2.2.6. AFSPECWAR Airmen assigned to designated career-broadening assignments (e.g., Headquarters staff, recruiting, and instructor duties) may continue to receive SWSIP for up to 24 months as long as they meet SWSIP qualifications at the time they report to their career-broadening assignment. After 24 months, Airmen must recertify in their SWSIP skills within 180 days or SWSIP will be discontinued, and any payments received after 24 months will be subject to repayment in accordance with provisions of 37 U.S.C. § 373.

15.2.2.7. AFSPECWAR Airmen may continue to receive SWSIP provided they meet SWSIP eligibility criteria while attending Professional Military Education Courses, during contingency deployment, while on authorized leave, and while in route to their next AFSPECWAR duty assignment.

15.3 Rates

15.3.1. SWSIP is paid to eligible members at an amount not to exceed $615 per month. If a Service member satisfies the eligibility requirements only for part of the month, the Secretary of the Air Force will prorate the payment amount to reflect the duration of the member's qualifying service during the month. Reserve component members may be eligible for SWSIP at the discretion of the Secretary of the Air Force. The daily amount authorized will be equal to 1/30th of the monthly SWSIP rate for each period of inactive duty for training.

15.3.2. See SWSIP Tables 24-3 and 24-4 detailing how SWSIP will be paid.

15.4 Restriction

The following limitations and restrictions apply for receipt of SWSIP:

15.4.1. Service members may not receive a bonus or incentive pay pursuant to ***Subchapter I and Subchapter II of Chapter 5, of Title 37, U.S.C.***, for the same activity, skill, or period of service.

15.4.2. Service members receiving incentive payments pursuant to ***37 U.S.C. § 334*** or ***37 U.S.C. § 334a*** are not eligible for SWSIP for the same skill or period of service.

15.4.3. Service members may not be paid skill incentive pay or proficiency bonuses pursuant to 37 U.S.C. § 353, and hazardous duty pay under ***37 U.S.C. § 351(a)(2)***, for the same period of service in the same career field or skill.

15.4.4. Service members may not be paid more than one pay under 37 U.S.C. § 353, in any month for the same period of service and skill.

15.4.5. Service members temporarily unable to perform the skills of an AFSPECWAR Airman due to a medical restriction, not the result of the member's own misconduct, may continue to receive SWSIP for up to 12 months, provided the member met the eligibility criteria within the 30 days that occurred prior to the injury or illness. If the restriction persists beyond 365 days or the member is no longer certified to perform the AFSPECWAR Airman duties, SWSIP payments will terminate and may not resume until the condition resulting in medical restriction is corrected and the member is certified to resume AFSPECWAR Airmen duties by a competent medical authority. The Secretary of the Air Force may, on a case-by-case basis, authorize a one-time extension of SWSIP for up to 90 days (beyond the initial 365 days). Extensions beyond 90 days must be forwarded to the Assistant Secretary of Defense for Manpower and Reserve Affairs for approval. All extension requests will include a description of the injury, current prognosis and treatment technique, expected date of full recovery and resumption of AFSPECWAR Airman duties, as well as an endorsement recommendation from the Air Force Surgeon General or designee.

15.4.6. Service members permanently disqualified or otherwise determined to be no longer eligible to perform the duties of an AFSPECWAR Airman, are ineligible for SWSIP.

15.4.7. Service members are not authorized SWSIP payments for any periods of unauthorized absence.

*15.5 Duration of Authority

Unless reauthorized by Congress, no new agreements or payments for SWSIP may be offered after the date listed on the DOA table, but current payments will continue for the duration of the current agreement or until the Service member no longer meets the eligibility for the payment.

16.0 NAVAL SPECIAL WARFARE (NSW) SKILL INCENTIVE PAY (SKIP)

16.1 Entitlement

The Navy may pay a monthly skill incentive pay to Service members qualified and serving as NSW Operators pursuant to 37 U.S.C. § 353. NSW Operators perform clandestine paradrop, maritime, and land-based special operations in austere conditions in order to provide to the United States and its allies tailored capabilities. NSW SKIP will be used in lieu of hazardous duty incentive pays to minimize costly training interruptions in the NSW inter-deployment training cycle (IDTC), minimize the strain on force Personnel Tempo System during the IDTC and remove financial disincentives associated with NSW Operators seeking medical care.

16.2 Performance Requirements

16.2.1. The term NSW Operator encompasses the following critical Navy enlisted classifications (NECs) and officer designator codes:

16.2.1.1. Sea-air-land (SEAL) delivery vehicle (SDV), operator (023X);

16.2.1.2. SEAL special warfare operator (O26X);

16.2.1.3. SEAL special warfare officer (113X);

16.2.1.4. SEAL special warfare warrant operator (715X);

16.2.1.5. Special warfare combatant-craft crewman (SWCC) operator (052X); and

16.2.1.6. SWCC warrant officer (717X).

16.2.2. The NSW SKIP is payable to active duty, and training and administration of Reserve operators only, on a monthly basis, who meet all of the following criteria in subparagraphs 16.2.2.1 through 16.2.2.6.

16.2.2.1. Be entitled to basic pay under 37 U.S.C. § 204, or 37 U.S.C. § 206.

16.2.2.2. Be serving in one of the NSW operators NECs or officer designator codes listed in subparagraphs 16.2.1.1 through 16.2.1.6.

16.2.2.3. Completed all the required training and maintained eligibility for designation as an NSW operator.

16.2.2.4. Completed the requisite training necessary to perform parachute duty and (if necessary) qualification training for demolition and diving duty.

16.2.2.5. Meet the medical and physical requirements for deployment or granted a waiver by the Secretary of the Navy.

16.2.2.6. Be assigned to commands that complete NSW IDTC (e.g., SEAL team, SDV team, special boat team, NSW training detachment), or meet the minimum semi-annual currency requirements as listed by the rating and qualifications in the NSW SKIP Currency and Payment Levels table (Table 24-4).

16.2.3. NSW operators will continue to receive NSW SKIP while in school, NSW IDTC, on leave, or en route to next assignment as long as they continue to meet the eligibility criteria listed in subparagraphs 16.2.2.1 through 16.2.2.6. Contact the OPNAV, Naval Special Warfare Program Management Branch (N137) for partial payment information.

16.2.4. NSW operators who receive NSW SKIP under this guidance and fail to satisfy the eligibility requirements will be subject to having their pay terminated. Repayment of any overpayment will be in accordance with 37 U.S.C. § 373.

16.2.5. Reserve NSW operators (1135) will receive NSW SKIP if recalled to fulfill orders that are 1 year or longer. Jump, dive, and demolition payments may be paid to NSW reservists with orders under a year and have met currency requirements per the NSW SKIP Currency and Payment Levels listed in Exhibit 1.

16.3 NSW Pay Levels and Qualifications

Enlisted pay rates will be administered according to NECs and qualifications. Officer pay rates will be administered according to designators and qualifications. Pay will be stopped by the commanding officer's (CO) decertification, NEC or designator removal, terminal leave, or lateral transfer out of the NSW community. Levels and qualifications are as follows:

16.3.1. SDV Operator Holding NEC 023X

SEAL enlisted SDV operators must be qualified and current in all of the following duties:

16.3.1.1. Military parachuting operations including static line and or military free-fall,

16.3.1.2. Combat diving (open circuit self-contained underwater breathing apparatus (SCUBA) and or closed circuit) operations, and

16.3.1.3. Demolition and explosive breaching operations with live explosive material as an essential part of required duties.

16.3.2. Special Warfare Operator Holding NEC 026X, SEAL Warrant Officer Holding Designator 715X, SEAL Officer Holding Designator 113X

SEAL enlisted operators, SEAL Officers, and SEAL warrant officers must be qualified and current in all of the following duties:

16.3.2.1. Military parachuting operations including static line and or military free-fall,

16.3.2.2. Combat diving (open circuit SCUBA and or closed circuit) operations, and

16.3.2.3. Demolition and explosive breaching operations with live explosive material as an essential part of required duties.

16.3.3. Special Warfare Boat Operator Holding NEC 052X and Special Warfare Combatant-Craft Crewman Warrant Officer Holding Designator 717X

SWCC enlisted operators and SWCC warrant officers must be qualified and current in military parachuting operations including static line and or military free-fall.

16.4 Rates

The Navy may pay monthly NSW SKIP to qualified Service members who meet the NSW SKIP eligibility requirements in an amount not to exceed $715 per month. See the NSW SKIP Currency and Payment Levels (Table 24-4) for the monthly pay rate. If a Service member does not satisfy the eligibility requirements specified for an entire month, the Secretary of the Navy will prorate the payment amount to reflect the duration of the member's actual qualifying service during the month. Qualified Reserve Component members who meet the NSW SKIP eligibility requirements and are entitled to compensation pursuant to 37 U.S.C. § 206, may be eligible for NSW SKIP at the discretion of the Secretary of the Navy. The daily amount authorized will be equal to $1/30^{th}$ of the monthly NSW SKIP rate for each period of inactive duty for training.

16.5 Restrictions

The following limitations and restrictions apply for receipt of NSW SKIP:

16.5.1. Service members may not be paid NSW SKIP and jump, dive, or demolition duty pays for the same period of service.

16.5.2. Service members may not be paid more than one NSW SKIP in any month for the same period of service.

16.5.3. Service members temporarily unable to perform the skills of an NSW operator due to a medical restriction that is not the result of the Service member's own misconduct may continue to receive NSW SKIP for up to 12 months, provided the Service member met the eligibility criteria for the pay within 30 days prior to the injury or illness. If the restriction persists beyond 12 months or the Service member is no longer certified to perform the NSW operator skill, NSW SKIP payments will terminate and may not resume until the condition, which resulted in the medical restriction, is corrected and the Service member is certified to resume NSW operator duties by the appropriate medical authority. The Secretary of the Navy may, on a case-by-case basis, authorize a one-time extension of NSW SKIP for up to 90 days beyond the initial 12 months. Extensions beyond 90 days must be forwarded to the Assistant Secretary of Defense for Manpower and Reserve Affairs for approval.

16.5.4. Commanding Officers (COs) in the pay grade of O-5 or above may waive the jump requirements for one jump during a 12-month period due to non-availability of jump equipment or aircraft, inclement weather, or while attending a military education or training of less than 179 days. Service members must maintain their proficiency through refresher training in lieu of jumping in order to retain eligibility for NSW SKIP pay during the waived period.

16.5.5. COs in the paygrade of O-5 or above may waive jump, dive, and demolition currency requirements for joint individual augmentations and any global force management assignment that requires a member to deploy where operations or equipment do not permit execution of jump, dive, and demolition training.

*16.6 Duration of Authority

Unless reauthorized by Congress, no new agreements or payments for NSW SKIP may be offered after the date listed on the DOA table, but current payments will continue for the duration of the current agreement or until the Service member no longer meets the eligible for the payment.

Table 24-1. IP for Hazardous Duty-Entitlement Under Certain Conditions

RULE	When a member under orders to perform hazardous duty is	and the hazardous duty involved is	and	then IP entitlement
1	sick in the line of duty	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved remain in effect and the member performs the duty involved during the month involved, or when appropriate, performs the minimum performance requirements for the duty involved	continues for the period of the illness.
2	on authorized leave	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved remain in effect and the member performs the duty involved during the month involved, or when appropriate, performs the minimum performance requirements for the duty involved	continues for the period of leave (note 1).
3	on TDY or TAD	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved remain in effect and the member performs the duty involved during the month involved, or when appropriate, performs the minimum performance requirements for the duty involved	continues for the period of TDY or TAD.
4	reassigned PCS including TDY in conjunction with PCS	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved remain in effect and the member performs the duty involved during the month involved, or when appropriate, performs the minimum performance requirements for the duty involved	is not affected by the PCS (note 2).

Table 24-1. IP for Hazardous Duty-Entitlement Under Certain Conditions (Continued)

RULE	When a member under orders to perform hazardous duty is	and the hazardous duty involved is	and	then IP entitlement
5	on TDY or TAD	any type of hazardous duty listed in this chapter	orders to perform hazardous duty involved are in effect at the TDY station only. Member meets minimum performance requirements at the TDY station	begins on the date of reporting for duty at the TDY location and exists for the period of TDY.
6	discharged and immediately reenlisted at the same station without a break in service	any type of hazardous duty listed in this chapter	orders to perform hazardous duty involved are not specifically terminated	is determined as though there had been no discharge.
7	discharged and immediately reenlisted at the same station without a break in service	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved are specifically terminated	ceases on effective date shown in orders.
8	removed from hazardous duty		removal is for cause, disqualification, or the member's own request	ceases on the date that cause or disqualification is determined to exist or the date the member is removed per request, which will be the effective date established in orders terminating the hazardous duty. (See note 2 for pay proration.)
9	a member of an RC being released from active duty performed either: a. while member is part of strength accountability of the active military establishment (EAD); or b. while member is accountable to an RC (ADT) (note 5)	parachute	orders are not issued directing relief from assigned duties and requirements have been met for the period involved	continues for the period of allowable travel time (notes 3 and 5).

Table 24-1. IP for Hazardous Duty-Entitlement Under Certain Conditions (Continued)

RULE	When a member under orders to perform hazardous duty is	and the hazardous duty involved is	and	then IP entitlement
10	being released from active duty performed either: a. while member is part of strength accountability of the active military establishment (EAD); or b. while member is accountable to an RC (ADT) (note 4)	demolition, flight deck, experimental stress, toxic fuels, toxic pesticides, dangerous viruses, handling chemical munitions, maritime VBSS, or polar region flight operations	orders are not issued directing relief from assigned duties and requirements have been met for the period involved	ceases on detachment from last duty station.
11	on ADT for any number of weeks (with or without a unit of assignment) (note 4)	any type of hazardous duty listed in this chapter	orders to perform the hazardous duty involved are in effect at the ADT station. Member meets minimum performance requirements at ADT station	1. exists for the period of ADT. Entitlement for ADT is terminated per rules 9 or 10. 2. for IDT is determined under note 6.
12	on ADT for 20 weeks or more away from unit of assignment (note 4)		member is not ordered to perform the hazardous duty at the ADT station	1. does not exist for the period of ADT. 2. for IDT is determined under note 6.
13	on ADT for less than 20 weeks away from unit of assignment (note 4)		orders to perform the hazardous duty involved remain in effect at unit of assignment. Member is not ordered to perform hazardous duty at ADT station. Member meets minimum performance requirements during IDT at unit of assignment	1. exists for the period of ADT. Entitlement for ADT is terminated per rules 9 or 10. 2. for IDT is determined under note 6.

Table 24-1. IP for Hazardous Duty-Entitlement Under Certain Conditions (Continued)

NOTES:

1. Performance of hazardous duty while on leave cannot be counted for pay purposes.
2. Orders to perform hazardous duty remain in effect when member is being reassigned PCS successively to hazardous duty. If the member cannot be immediately assigned to a hazardous duty position at a new station, orders to perform such duty will be terminated effective the date of arrival at new duty station and HDIP stopped as of that date. When successive assignment does not require hazardous duty as an essential part of military duty at the new permanent duty station, orders to perform such duty will be terminated effective the date of departure from old duty station (or TDY point if performance of hazardous duty is required as an essential part of military duty at the TDY point) and HDIP stopped as of that date. When effective date in the orders terminating hazardous duty is other than the last day of a calendar month and that month's performance requirements have been met, the month's hazardous duty pay will be prorated per subparagraph 2.3.2.
3. Parachute pay may not be paid beyond the last day of the calendar month for which requirements are met.
4. ADT includes annual training, special tours of ADT, school tours, and the initial tour performed by enlistees without prior military service.
5. HDIP entitlement for ADT includes time allowed for necessary travel from home to first duty station (See Chapter 1).
6. HDIP for IDT is paid per Chapter 58.

Table 24-2. SWSIP - Enlisted

Parachute (Static Line (S/L)): $150
Military Free Fall (MFF)/HALO: $225
Demo: $150
Dive: $150
Air Crew Duty: $150

SWSIP AFSC	Operator Description	Critical Skill	SWSIP Pay
1Z1XX	Pararescue	MFF; Dive; Aircrew + 3-level	Tier 1 - $540
1Z1XX	Pararescue	MFF; Dive; Aircrew + 5-level	Tier 2 - $590
1Z1XX	Pararescue	MFF; Dive; Aircrew + 7-level	Tier 3 - $615
1Z2XX	Combat Control	MFF; Dive; Demo; + 3-level	Tier 1 - $540
1Z2XX	Combat Control	MFF; Dive; Demo; + 5-level	Tier 2 - $590
1Z2XX	Combat Control	MFF; Dive; Demo; + 7-level	Tier 3 - $615
1Z3XX	Tactical Air Control Party	Static Line; MFF; Dive; Demo; + 3-level	Tier 1 - $540
1Z3XX	Tactical Air Control Party	Static Line; MFF; Dive; Demo; + 5-level	Tier 2 - $590
1Z3XX	Tactical Air Control Party	Static Line; MFF; Dive; Demo; + 7-level	Tier 3 - $615

Table 24-2. SWSIP – Enlisted (Continued)

SWSIP AFSC	Operator Description	Critical Skill	SWSIP Pay
1Z4XX	Special Reconnaissance*	MFF; Dive; Demo; + 3-level	Tier 1 - $540
1Z4XX	Special Reconnaissance*	MFF; Dive; Demo; + 5-level	Tier 2 - $590
1Z4XX	Special Reconnaissance*	MFF; Dive; Demo + 7-level	Tier 3 - $615

*The Special Operations Weather Team (SOWT) Air Force Specialty (AFS) was replaced by the Special Reconnaissance AFS, which has the same requirements as Combat Control. The previous SOWT had a different pipeline and were paid in accordance with the skills gained. The SR pay tiers align with skills and pipeline associated with the career field.

Table 24-3. SWSIP – Officer

Parachute (Static Line (S/L)): $150
Military Free Fall (MFF)/HALO: $225
Demo: $150
Dive: $150
Air Crew Duty: $150

SWSIP AFSC	Operator Description	Critical Skill	SWSIP Pay
19ZXA	Special Tactics Officer	MFF; Dive; Demo; + 2-level	Tier 1 - $590
19ZXA	Special Tactics Officer	MFF + Dive + Demo + 3-level with advanced qualification for Static Line Jump	Tier 2 - $615
19ZXA	Special Tactics Officer	MFF + Dive + Demo + 4 level with advanced qualification for Static Line Jump	Tier 2 - $615
19ZXB	Tactical Air Control Party Officer	Static Line + 2-level*	Tier 1 - $590
19ZXB	Tactical Air Control Party Officer	Static Line + 3-level*	Tier 2 - $615
19ZXB	Tactical Air Control Party Officer	Static Line + 4-level*	Tier 2 - $615
19ZXC	Combat Rescue Officer	MFF; Dive; Air Crew; + 2-level	Tier 1 - $590
19ZXC	Combat Rescue Officer	MFF; Dive; Air Crew; + 3-level	Tier 2 - $615
19ZXC	Combat Rescue Officer	MFF; Dive; Air Crew; + 4-level	Tier 2 - $615

*May earn pays based on additional qualifications for MFF ($225), Demolitions ($150), and Dive ($150).

Table 24-4. NSW SKIP Currency and Payments Levels

NSW SKIP Currency Requirements and Max Payment Levels					
Level	**NEC/Designator**	**NSW Operator Description**	**Qualification**	**Semi-Annual Requirement**	**NSW SKIP Monthly Pay**
1	O52X or 717X	SWCC Enlisted/Warrant Officer	Static Line Jump (SL)	2 Jumps	$150
2	O52X or 717X	SWCC Enlisted/Warrant Officer	Military Free-Fall (MFF)	2 Jumps	$225
3	026X	SEAL Enlisted	SL + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$515
4	026X	SEAL Enlisted	MFF + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$590
5	113X or 715X	SEAL Warrant Officer / SEAL Officer	SL + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$540
6	113X or 715X	SEAL Warrant Officer / SEAL Officer	MFF + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$615
7	023X	SDV Enlisted	SL + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$640
8	023X	SDV Enlisted	MFF + Dive + Demo	2 Jumps, 4 Dives, 6 Demolition Shots	$715

Note 1: The SKIP requalification timeline is semi-annually and broken down into two blocks. Block 1 timeline is 1 January through 30 June. Block 2 timeline is 1 July through 30 December.

Table 24-4. NSW SKIP Currency and Payments Levels (Continued)

Note 2: In order to qualify for special pay for NSWSKIP, NSW operators are considered qualified if they have conducted minimum requirements in the previous block.

Note 3: SEAL enlisted operators who get commissioned will continue to receive the same NEC NSW SKIP pay level they received prior to commissioning until they complete the Junior Officer Training Course (JOTC). After completing JOTC and their officer designator is changed from 1180 to 1130, the officer will begin receiving the 113X NSW SKIP pay level.

CHAPTER 25

SUBSISTENCE AND BASIC NEEDS ALLOWANCES

1.0 GENERAL

1.1 Purpose

Each member of a uniformed service entitled to basic pay is entitled to Subsistence and Basic Needs Allowances subject to the conditions set forth in this chapter.

1.2 Authoritative Guidance

The policies and requirements established by DoD for the allowances in this chapter are derived primarily from and prepared in accordance with Title 37, United States Code, sections 402, 402a and 402b (***37 U.S.C. § 402***, ***402a*** and ***402b***). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 BASIC ALLOWANCE FOR SUBSISTENCE (BAS)

2.1 Eligibility

Unless otherwise restricted as described in paragraph 2.3, a member becomes entitled to one of the following monthly BAS rates based upon their rank and circumstances.

2.1.1. Officer BAS. A single rate of BAS applies to all officers.

2.1.2. BAS for Enlisted Members. An enlisted member is not entitled to BAS during basic training. Enlisted members are entitled to one of the following BAS rates.

2.1.2.1. Enlisted BAS. Enlisted BAS is the monthly standard rate that is payable to enlisted members unless they qualify for, and proper authority approves, BAS II.

2.1.2.2. Enlisted BAS II. Enlisted BAS II is the monthly rate that may be payable to members on duty at a permanent station and assigned to single (unaccompanied) Government quarters, which do not have adequate food storage or preparation facilities, and where a Government mess is not available, and the Government cannot otherwise make meals available. The BAS II rate is twice the rate of standard enlisted BAS. BAS II may be paid to enlisted members of the Navy assigned to vessels in a pre-commissioning status or who otherwise meet criteria set forth in the Military Personnel Manual (MILPERMAN) 7220-182. The Air Force has authorized payment of BAS II to members at specific locations.

2.1.3. Continuity of Enlisted BAS Entitlement

2.1.3.1. Enlisted members continue their existing BAS entitlement without interruption upon discharge or retirement, if reenlistment or recall to active duty is completed at the same station within 24 hours.

2.1.3.2. Enlisted members continue their existing BAS entitlement without interruption during weekends, holidays, administrative absence, pass, or liberty (not including leave).

2.2 Payment

2.2.1. Rates. The rates for BAS are listed in Table 25-1, for the most current rates, see BAS table on ***DFAS.MIL***.

2.2.2. Enlisted BAS in Specific Situations. The following policy will be used in determining whether BAS or BAS II applies in specific situations:

2.2.2.1. Enlisted BAS rates will be applied uniformly for all enlisted members under similar conditions permanently assigned to the same installation, station, base, or ship. The installation commander/commanding officer will ensure the uniform application of BAS rates for members under similar conditions, whether from a single Service or more than one Service. If there is conflict between Service directives that prevents uniform application of BAS, the commander/commanding officer will report the differences, through appropriate channels, to the Secretaries of the Military Departments concerned, who will confer to ensure uniform determinations on the authorized BAS rate.

2.2.2.2. Enlisted members on authorized leave (including proceed time, authorized delays enroute between duty stations chargeable as leave, and convalescent leave) are entitled to the standard enlisted BAS rate, regardless of the BAS rate authorized at their Permanent Duty Station (PDS).

2.2.2.3. Enlisted members performing Permanent Change of Station (PCS) travel (including Temporary Additional Duty or Temporary Duty (TAD/TDY)) enroute under orders away from their designated post of duty are entitled to the standard enlisted BAS rate, regardless of the BAS type authorized at their previous or subsequent PDS.

2.2.2.4. Enlisted members receiving BAS II at their PDS who are hospitalized or performing regular or permissive TAD/TDY (including field duty, sea duty, Essential Unit Messing (EUM), or members traveling together with limited or no per diem travel) under orders away from their PDS will revert to standard enlisted BAS for the period of hospitalization or absence from the PDS.

2.2.2.5. Enlisted members will be entitled to the standard enlisted BAS rate for any day they are under orders for leave or PCS travel. This includes the day of commencement and day of termination of the status under those orders.

2.2.2.6. Enlisted members who change BAS status at the direction or by permission of a commander, under blanket authority, or at the member's request will have the entitlement change take effect at the beginning of the day specified in writing by the commander.

2.2.3. Advance Payments. Specific circumstances for advance payment of BAS are contained in Chapter 32, paragraph 2.5.

2.2.4. Effect on Overseas Station Allowances. BAS is paid in conjunction with the overseas Cost-Of-Living Allowances (COLA) authorized by the Joint Travel Regulations.

2.3 Restrictions

2.3.1. Military members are not entitled to BAS of any type under the following conditions:

2.3.1.1. When undergoing Basic Military Training, including initial officer training (Officer Candidate School, Officer Training School), except when the member has continuous prior enlisted service (active or reserve). Members will be subsisted-in-kind while attending initial basic military training;

2.3.1.2. When in an excess leave status;

2.3.1.3. When in an absent-without-leave status, in excess of 24 hours, unless the absence is excused as unavoidable;

2.3.1.4. When on an approved educational leave of absence not exceeding 2 years;

2.3.1.5. When a member with no dependents is training for, attending, or participating in Pan American games, Olympic games, or other specifically authorized international amateur sport competitions and the sponsoring agency subsists them during that period; or

2.3.1.6. When a court-martial sentence imposes forfeiture of pay and allowances.

2.3.2. Enlisted members are not authorized BAS II when a government mess is temporarily closed for less than 14 days or when a member is on leave, assigned temporary duty (TAD/TDY), or in the hospital.

2.4 Government Provided Meals

2.4.1. A military member being paid BAS must pay for all meals or rations provided by or on behalf of the Government, except as provided in subparagraph 2.4.2. This is a personal obligation of the individual. Meals or rations may be paid with cash tendered to the Government mess by the member or, under certain circumstances, the amount owed may be collected/deducted from the member's travel per diem (a member under orders for EUM has no entitlement to

subsistence travel per diem), or from the member's pay account. When payment is made from a pay account, the payment is not considered a deduction from or reduction of the entitled BAS; rather it is a collection for a debt owed to the Government (see Table 25-2).

2.4.2. A member is not required to pay for meals provided while the member undergoes medical recuperation or therapy, or is otherwise in the status of continuous care, including outpatient care, at a military treatment facility for an injury, illness or disease incurred while the member was on active duty:

2.4.2.1. In support of Operation Enduring Freedom, Operation Iraqi Freedom, Operation New Dawn, Operation Freedom's Sentinel; or

2.4.2.2. In any other operation designated by the Secretary of Defense as a combat operation or in an area designated by the Secretary as a combat zone.

2.4.3. Mandatory pay account collection may be imposed for enlisted members in certain situations. These are circumstances where it is not feasible to control dining access or collect cash due to operational constraints or where efficiency of operation requires collection for all meals. When a commander/commanding officer requires mandatory pay account collection, the collection will be made for all meals available, whether the meals are actually eaten or not. Mandatory collections are made day-for-actual-day, not on a 30-day month basis. Unless the member is receiving a per diem for subsistence, the collection will be at the discount meal rate.

2.4.3.1. Mandatory pay account collection may be required in the following situations:

2.4.3.1.1. Field duty;

2.4.3.1.2. Sea duty;

2.4.3.1.3. Members traveling together with limited or no per diem travel;

2.4.3.1.4. Accession Pipeline Military Training;

2.4.3.1.5. EUM; or

2.4.3.1.6. Essential Station Messing (ESM).

2.4.3.2. Mandatory pay account collection for meals does not apply to the following:

2.4.3.2.1. Members on official leave, in a PCS status (including travel time and proceed time), in a military treatment facility, or on TAD/TDY other than TAD/TDY to another situation requiring mandatory pay account collection for meals. In these instances, pay account collections will be suspended or adjusted with a credit and the Government mess will be responsible for collecting from the member for any meals served.

2.4.3.2.2. Members who have missed more than 20 percent of meals on a monthly basis due to assigned duties, as certified by the commanding officer/commander or their designee. Collections will be suspended or adjusted with a credit.

2.4.3.3. Pay account collections will be at 25 percent of the discount meal rate for the first and last day of assignment in situations requiring mandatory collection. A member transitioning directly between two mandatory meal collection situations will be treated as though the collection period were continuous and will not receive the 25-percent reduced charge for the transition. The 25-percent reduced meal charge does not apply for leave periods. Full collections will be made on the duty days before and after the leave period.

2.4.4. In circumstances other than those requiring mandatory pay account collection, members receiving BAS will pay for meals provided by or on behalf of the Government by using cash or by collection/reduction of subsistence per diem from their travel claims. Members on Joint Task Force operations under per diem travel orders usually will have the subsistence portion of their per diem withheld or deducted from their travel reimbursement as payment for meals provided in theater. Members deployed on regular TAD/TDY travel who receive deductible meals (meals at "no cost") will have the subsistence portion of their per diem reduced as payment for meals provided by or on behalf of the Government.

2.4.5. The standard meal rate applies unless there is a specific exception allowing application of the discount meal rate. Members actually paid subsistence per diem for meals must pay the standard meal rate unless the per diem is withheld or disallowed as payment for the meals.

2.4.6. Members being subsisted by or on behalf of the Government, where no other collection means exists or where normal collections were not made, may have a collection for meals made through their pay account at the appropriate rate upon proper documentation for a debt owed to the Government.

2.4.7. Collections from individual pay accounts for meals and rations provided by the Government or on behalf of the Government will be credited to the appropriation specified by each Military Service.

2.5 Specialized Terms

2.5.1. ESM. Messing declared by the installation, base, or station commander responsible for single Government quarters that is essential to operate the Government mess efficiently and economically, or that is necessary for the health and safety of enlisted personnel permanently assigned to single quarters. Those categories of enlisted members included in ESM will be charged for all meals made available whether eaten or not, except for approved missed meals.

2.5.2. EUM. Group messing that is declared by an appropriate authority to be necessary for operational readiness, military operations, or effective training where members are required to eat Government–furnished meals. Members will be in a travel status and are entitled to travel reimbursement for incidental expenses, but not for subsistence. Designation for EUM will apply only to organizational units and to operational elements and detachments, not to individual

members. All members on duty under circumstances where EUM has been declared will be charged for all meals made available whether eaten or not, except for approved missed meals.

2.5.3. Field Duty. Any maneuvers, war games, field exercises, or similar operations where a member is assigned to a unit being subsisted in a dining facility operated by or on behalf of the U.S. Government or with an organization drawing field rations. Members may be on per diem orders.

2.5.4. Sea Duty. Service performed in a self-propelled vessel with berthing and messing facilities that is in an active status, in commission, or in service. This term applies to members who are either permanent party or aboard for TAD/TDY. All members on sea duty, not a member of an authorized private mess, will be charged for all meals made available whether eaten or not, subject to approved missed meals.

2.5.5. Government Furnished Meals. A condition in which meals or rations are furnished without charge by a government contractor or a foreign government, or through a fellowship, grant, or intern program while a member is receiving basic pay, either under the terms of a contract or agreement or on a complimentary basis. Unless a member is entitled to be subsisted- in- kind, subsistence provided on behalf of the Government must be charged to the member.

2.5.6. Subsisted-in-Kind. Meals or rations furnished at no charge to members not entitled to BAS from a Government Mess or who are subsisted at no charge on behalf of the Government.

3.0 FAMILY SUPPLEMENTAL SUBSISTENCE ALLOWANCE (FSSA)

3.1 General Provisions

The FSSA program was established to supplement a member's BAS to a level sufficient to remove the member's household from or eliminate the need for benefits under the U.S. Department of Agriculture (USDA) Supplemental Nutrition Assistance Program (SNAP), formerly known as the food stamp program. FSSA is payable at a monthly rate as determined by the Military Service concerned under the guidance provided by the Secretary of Defense and may not exceed $1,100 per month. FSSA is a nontaxable allowance payable in addition to, all other pays and allowances. Applicable definitions are found at ***DoD Instruction (DoDI) 1341.11, E2***.

3.2 Eligibility

FSSA is payable to any officer or enlisted member of the Armed Forces who meets all of the following criteria:

3.2.1. Is serving on active duty and receiving BAS;

3.2.2. Has a household income, including military income of the member, and any other household income that would make the member eligible for assistance under the USDA SNAP program for the member's household size;

3.2.3. Has at least one person in the member's household who is a military dependent;

3.2.4. Has made an application for and been certified at a specific payment level by the appropriate office; and

3.2.5. After September 30, 2016, is serving outside the United States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, or Guam.

3.3 Entitlement

FSSA is a monthly entitlement payable in whole dollar amounts not to exceed $1,100. It is not payable to any member, otherwise entitled, during periods in a non-pay status.

3.3.1. FSSA is payable in an amount that would bring the member's household income to 130 percent of the Federal poverty guidelines (FPG) as established by the USDA, but not to exceed $1,100.

3.3.2. For periods of less than a full month of entitlement, the FSSA is payable at 1/30 of the monthly amount for each eligible day served.

3.3.3. If an eligible member is receiving SNAP benefits and the amount of the member's SNAP allotment exceeds the amount of the FSSA calculated under subparagraph 3.3.1, the member's FSSA entitlement will be equal to the lesser of the value of the SNAP allotment or $1,100.

3.4 Military Income

3.4.1. For the FSSA program, the following sources of revenue will be counted as military income:

3.4.1.1. Basic Pay;

3.4.1.2. BAS;

3.4.1.3. Basic Allowance for Housing or cash equivalent for those who are living in Government–provided housing;

3.4.1.4. Overseas Housing Allowance (OHA). When a member lives in Government quarters while stationed overseas, the amount of the housing allowance to count as income for that member is the OHA ceiling for the local area;

3.4.1.5. All Bonuses. The monthly amount of military income attributable to a bonus will be the amount of the bonus, prorated over the period of time to which bonus is applicable; and

3.4.1.6. All special and incentive pays except those excluded in subparagraph 3.4.2.

3.4.2. The following sources of revenue will not be counted as military income:

3.4.2.1. Hostile Fire Pay;

3.4.2.2. Imminent Danger Pay;

3.4.2.3. Continental United States COLA;

3.4.2.4. Overseas COLA;

3.4.2.5. Family Separation Allowance;

3.4.2.6. Clothing Allowances; and

3.4.2.7. All travel and transportation related allowances and entitlements.

3.5 Application and Certification

Members must apply for the FSSA program with the appropriate organizational element as designated by their respective Service. The appropriate Service organization will make all decisions regarding eligibility and the amount of entitlement and will provide final certification for payment to include the entitlement start date.

3.6 Recertification and Termination

3.6.1. When any of the following events occur, in order to avoid termination of FSSA, a member receiving FSSA must report the event to the Service certifying organization within 30 days for recertification of FSSA eligibility:

3.6.1.1. Member's monthly gross household income (GHI) increases by $100 or more;

3.6.1.2. Member's household size decreases;

3.6.1.3. Member is promoted. The certification ends the day prior to the effective date of promotion;

3.6.1.4. Member executes a PCS move. The certification ends the day prior to the date the member officially reports for duty at the new duty station; and

3.6.1.5. Members are required to re-certify annually effective February 1 of each year.

3.6.2. The effective date of recertification will be the day following the last day of the previous certification period.

3.6.3. If during recertification it is determined that the member's monthly gross household income increased by an amount greater than $100 more than 30 days prior to reapplication, the difference between the amount of the current entitlement and the amount being recertified (if less) will be recouped. The recoupment amount is calculated on a pro rata basis for each day, following the date the increased income exceeded $100 through the effective date of the recertification.

3.6.4. When a member's eligibility is not timely recertified, eligibility for FSSA will be lost, and the date for termination of the entitlement will be the date of the event requiring recertification. An untimely recertification will be treated as an initial application.

4.0 BASIC NEEDS ALLOWANCE (BNA)

4.1 General

4.1.1. Applicability

This section applies to Military Departments (including the Coast Guard at all times, including when it is a Service in the Department of Homeland Security by agreement with that Department), the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of Inspector General of the DoD, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (referred to collectively in this section as the "DoD Components").

4.1.2. Policy

Pursuant to 37 U.S.C. § 402b, BNA must be made available to each member in accordance with the eligibility criteria specified in this section.

*4.2 Procedures

4.2.1. General

The BNA program provides a monthly allowance for Service members who voluntarily apply and whose GHI and household size place them below 200 percent of the FPG for their geographical location, effective May 12, 2025. See Table 25-3 for current and historical effective dates. The Department of Health and Human Services (HHS) periodically updates the FPG in the Federal Register in accordance with ***42 U.S.C. § 9902***. Refer to ***DoDI 1341.15*** for applicable definitions of GHI, household, and other terms used in this section.

4.2.2. Eligibility

4.2.2.1. Eligible Members. Active-duty members with dependents are eligible for BNA and may be certified if:

4.2.2.1.1. They have completed initial entry training (IET).

4.2.2.1.2. Their GHI during the most recent calendar year (i.e., the calendar year immediately preceding the year they apply for BNA) did not exceed 200 percent of the FPG for such year, as published by the HHS for their location and the number of individuals in their household.

4.2.2.1.3. They have voluntarily applied for the BNA and provided the required information to determine eligibility, and if found eligible, they will be considered a certified applicant.

4.2.2.1.4. They are not ineligible for the allowance pursuant to subparagraph 4.2.2.2 or subparagraph 4.2.2.3.

4.2.2.2. Ineligible Members. Active-duty members are ineligible for BNA if:

4.2.2.2.1. Their GHI during the most recent calendar year exceeded 200 percent of the FPG for such year, as published by the HHS for their location and the number of individuals in their household;

4.2.2.2.2. They do not have dependents;

4.2.2.2.3. They are a cadet at the United States Military Academy, the United States Air Force Academy, or the Coast Guard Academy; a midshipman at the United States Naval Academy; or a cadet or midshipman serving elsewhere in the Military Services;

4.2.2.2.4. They have not completed IET;

4.2.2.2.5. Having been notified of potential BNA eligibility, they fail to submit a BNA application within 180 calendar days, or a submission deadline established by the implementing guidance published by the Secretary of the Military Department concerned, or the Commandant of the Coast Guard, as applicable; or

4.2.2.2.6. They elect in writing not to receive the allowance.

4.2.2.3. Special BNA Eligibility Considerations

4.2.2.3.1. Households With Multiple Eligible Members. When a household contains multiple members determined to be eligible to receive BNA pursuant to subparagraph 4.2.2.1, only one allowance may be received. The household's members must jointly elect which eligible member must receive the allowance.

4.2.2.3.2. Automatic Ineligibility of Members Receiving Certain Income Increases. A member determined to be eligible to receive BNA pursuant to subparagraph 4.2.2.1 will be considered automatically ineligible if their monthly GHI increases as a result of a promotion or other permanent increase to pay or allowances, to include entry into active service, to an amount that, on an annualized basis, would exceed the limit described in subparagraph 4.2.2.1.2. If the member is receiving BNA, the Secretary of the Military Department concerned, or the Commandant of the Coast Guard must inform them that they are ineligible, and payment of the allowance must terminate 60 calendar days after the date of ineligibility. Pursuant to subparagraph 4.2.9, the certified member must report changes in GHI to the BNA certifying official to be reviewed and re-certified.

4.2.2.3.3. Ineligibility Due to Changes in Income as a Result of Disciplinary Action. If a member's previous calendar year GHI was reduced due to a fine, forfeiture, or reduction in rank imposed as a part of disciplinary action or an action in accordance with ***10 U.S.C. Chapter 47***, also known as the Uniform Code of Military Justice, they are not eligible for BNA solely due to the fine, forfeiture, or reduction in rank. A member described in this subparagraph who is:

4.2.2.3.3.1. Reinstated to the pay grade held before any reduction in rank may become eligible for BNA, provided they are otherwise eligible pursuant to subparagraph 4.2.2.

4.2.2.3.3.2. In receipt of BNA at the time of the fine, forfeiture, or reduction in rank may retain eligibility to BNA if they are otherwise eligible for the allowance pursuant to subparagraph 4.2.2., notwithstanding any fine, forfeiture, or reduction in rank.

4.2.2.4. Ineligibility Due to Certain Duty Status. Whenever a member is in a non- pay status for any reason, they are not eligible for BNA during the non-pay period. When the member is returned to a pay status, they may apply or reapply for BNA if they are otherwise eligible pursuant to subparagraph 4.2.2.

4.2.2.5. Ineligibility Due to Certain Changes in Household Size. A member will be ineligible for BNA if a change in the number of their dependents reported in the Defense Enrollment Eligibility Reporting System (DEERS) is such that the member's GHI exceeds 200 percent of the FPG for the member's geographical location and the new number of individuals in their household. If the member is receiving BNA, the Secretary of the Military Department concerned or the Commandant of the Coast Guard must inform them that they are ineligible, and payment of the allowance must terminate 60 calendar days after the date of ineligibility. If the certified member is receiving BNA when the change in number of dependents is reported in DEERS, pursuant to subparagraph 4.2.9, the certified member must report changes in the number of individuals in their household to the BNA certifying official to be reviewed and re-certified.

4.2.2.6. Eligibility Due to Certain Changes in Household Size. A member may become eligible for BNA if a change in the number of their dependents reported in DEERS is such that their GHI drops below 200 percent of the FPG for their geographical location and the new number of individuals in their household, and they are otherwise eligible pursuant to subparagraph 4.2.2.1.

4.2.3. BNA Eligibility Screening

4.2.3.1. Screening Requirements. The Secretary of the Military Department concerned, or the Commandant of the Coast Guard must:

4.2.3.1.1. Screen each member for BNA eligibility before the member completes IET;

4.2.3.1.2. Screen active-duty members, at least annually, for BNA eligibility after IET; and

4.2.3.1.3. Maintain documentation on members who were screened and the results of the screenings.

4.2.3.2. Informing Screened Members. Upon determining a screened member is eligible for BNA, the Secretary of the Military Department concerned, or the Commandant of the Coast Guard will, in writing:

4.2.3.2.1. Inform the member that they are eligible to apply for BNA, but that screening eligibility does not guarantee certification;

4.2.3.2.2. Inform the member that to receive BNA, they must submit a BNA application in accordance with instructions and procedures published by their Military Service;

4.2.3.2.3. Inform the member that submission of a BNA application, including substantiating documentation, and receipt of the allowance are voluntary;

4.2.3.2.4. Inform member of additional financial management and assistance programs for which they may be eligible;

4.2.3.2.5. Provide the member BNA application instructions;

4.2.3.2.6. Provide the member with deadlines for submitting BNA applications and substantiating documentation required under the member's Military Service implementing guidance; but Services must establish such deadlines no earlier than 60 calendar days and no later than 180 calendar days after the date of the written screening notification. For members undergoing IET at the time of the screening, the application deadline must be no later than 180 calendar days following arrival at their first permanent duty station;

4.2.3.2.7. Inform the member that if they do not submit a BNA application, with required substantiating documentation, by the established deadline, they will be deemed ineligible for BNA; and

4.2.3.2.8. As appropriate, inform the member on the counseling requirements specified in subparagraph 4.2.9 for applicants.

4.2.4. Application

DoD financial counselors, pay administrators, personnel services, community or family support services, or equivalent command organizations may assist in the application process, but will not grant any member final certification for BNA. Assistance may include reviewing documentation, helping members obtain necessary paperwork, and gathering information required for certification. The amount of BNA may be estimated and shared with the member. The eligibility and estimation is not binding or final until it is certified by the Secretary of the Military Department concerned or the Commandant of the Coast Guard.

4.2.4.1. A member seeking to receive BNA must submit a signed and complete application in accordance with this section and policy established by the Secretary of the Military Department concerned or the Commandant of the Coast Guard.

4.2.4.2. The Secretary of the Military Department concerned, or the Commandant of the Coast Guard must develop an application that will include, at a minimum:

4.2.4.2.1. Date of submission;

4.2.4.2.2. The member's name;

4.2.4.2.3. The member's DoD identification number;

4.2.4.2.4. The member's pay grade;

4.2.4.2.5. The member's years of service for purposes of payment of basic pay;

4.2.4.2.6. Pay entry date;

4.2.4.2.7. The member's permanent duty station or home port;

4.2.4.2.8. The member's current monthly GHI (includes lump sum payments converted to a monthly amount, e.g., a bonus prorated over the period of time to which the bonus applies).

4.2.4.2.9. Preceding Calendar Year GHI by Source. Military income can be obtained and verified through the personnel and pay systems;

4.2.4.2.9.1. The monthly amount of GHI attributable to a bonus must be prorated over the period of time to which the bonus applies. If applicable, the bonus will be prorated over the period of time for which the bonus is paid;

4.2.4.2.9.2. Sporadic, variable, or seasonal income must be counted only during the month(s) in which it is received. If sporadic, variable, or seasonal income causes the GHI of the member to exceed the $150 per month threshold specified in subparagraph 4.2.9, the member must report the sporadic income amount to a certifying official to be reviewed for eligibility under subparagraph 4.2.2.3.2;

4.2.4.2.9.3. Any GHI that is received in a foreign currency must be converted to U.S. dollars using the prevailing rate of exchange at the time of application;

4.2.4.2.9.4. Exclusions from GHI are specified in the definition of GHI in the DoDI 1341.15 Glossary; and

4.2.4.2.10. Number of individuals in the member's household.

4.2.4.3. The application should include a statement that the applicant's signature, including any digital signature, confirms that the information in the application is accurate, to the best of their knowledge.

4.2.4.4. To the extent practicable, in-place administrative processes must be used to support BNA. When necessary, each Military Service must help applicants of other Military Services submit their application to their own Service. This should be done where reasonable access to their own Military Service is not available, such as at joint commands.

4.2.4.5. Members may submit a BNA application without being notified after a screening. Members who believe they may be eligible for BNA may consult with DoD financial counselors or officials designated by their respective Military Department or Service to assist in understanding requirements for eligibility.

4.2.4.6. The application will include all required information and substantiating documentation to allow the Secretary of the Military Department concerned or the Commandant of the Coast Guard to determine eligibility.

4.2.4.7. The application will include all required information to allow the Secretary of the Military Department concerned or the Commandant of the Coast Guard to compute BNA.

4.2.4.8. A member receiving BNA must annually resubmit an updated, signed application, along with substantiating documentation, to the Secretary of the Military Department concerned or the Commandant of the Coast Guard.

4.2.5. Application Adjudication. The Secretary of the Military Department concerned, or the Commandant of the Coast Guard must establish procedures to determine eligibility and make

a determination of the amount of BNA for each certified applicant within 30 calendar days of receiving an application.

4.2.5.1. The Secretaries of the Military Departments and the Commandant of the Coast Guard must ensure adequately trained personnel are in position to process and certify applications. This includes submitting the transaction to the Defense Finance and Accounting Service or appropriate pay systems.

4.2.5.2. BNA is effective on the application's certification date.

4.2.5.3. The Secretaries of the Military Departments and the Commandant of the Coast Guard must ensure controls over information processing (e.g., cross-system consistency checks to compare data in different systems and safeguarding personal information) are implemented while processing BNA applications.

4.2.5.4. Secretaries of the Military Departments and the Commandant of the Coast Guard may reject a member's application if they have approved separation orders. Members receiving BNA and pending separation may continue to receive BNA until separation.

4.2.5.5. Upon determining a member's eligibility status, the Secretaries of the Military Departments and the Commandant of the Coast Guard must notify certified applicants in writing. At a minimum, the written notification must, as applicable, include:

4.2.5.5.1. A statement that the member is deemed eligible or ineligible for BNA;

4.2.5.5.2. A statement that if the applicant's eligibility determination could not be adjudicated, the applicant must be informed of why the application could not be processed;

4.2.5.5.3. If the applicant has been deemed ineligible, why the application was denied;

4.2.5.5.4. If the applicant is certified to receive BNA, the amount of the monthly BNA;

4.2.5.5.5. If an applicant is certified, a notification that they may elect to either receive or decline BNA. Elections to decline BNA must be in writing and must be provided to the certifying official by the member;

4.2.5.5.6. If an applicant is certified, applicable counseling requirements specified in subparagraph 4.2.9;

4.2.5.5.7. Additional financial management and assistance programs for which the applicant may be eligible;

4.2.5.5.8. Secretaries of the Military Departments and the Commandant of the Coast Guard must maintain documentation on:

4.2.5.5.8.1. Members who were notified;

4.2.5.5.8.2. Members who have applied for the BNA;

4.2.5.5.8.3. Members who were certified;

4.2.5.5.8.4. Members who have declined BNA and members who were deemed ineligible based on the criteria in subparagraph 4.2.2; and

4.2.5.5.8.5. The amount of the allowance for certified applicants opting to receive BNA.

4.2.6. Computation of Allowance

4.2.6.1. Standard Amount of the Allowance

4.2.6.1.1. BNA for certified applicants must be paid on a monthly basis. Member eligibility will be determined pursuant to subparagraph 4.2.2.

4.2.6.1.2. BNA must be computed as follows: Two times the most recently published annual FPG for the calendar year during which the allowance is paid based on the member's duty station and the current number of individuals in the member's household, including the member, minus the member's GHI during the preceding calendar year, divided by 12. The amount of the BNA must be rounded to the nearest whole dollar. The following example depicts how to compute BNA:

Example: BNA Computation

Assumptions: A member with the following:

1. A household size of five.
2. Assigned in the State of Ohio.
3. A prior calendar year GHI - $52,706
4. Applicable annual FPG - $37,650

Sample Computation:

BNA = ((2.0 x $37,650) – $52,706)/12

= ($75,300 – $52,706)/12

= $22,594/12

= $1,882.83 per month

NOTE: The applicable rate is 1.3 from January 1, 2023, to June 30, 2023; 1.5 from July 1, 2023, to May 11, 2025, and 2.0 effective May 12, 2025.

4.2.6.1.3. The amount of the decrease in household income resulting from a fine, forfeiture, or reduction in rank may not be used to increase the amount of BNA.

4.2.6.2. Alternate Computation of the Allowance for Duty Outside the United States. If a certified applicant is assigned to a duty location outside the United States, the Secretary of the Military Department concerned, or the Commandant of the Coast Guard must make the calculations described in subparagraph 4.2.6.1 using the FPG for the 48 contiguous States and the District of Columbia.

4.2.6.3. Proration. If a member is certified for BNA for less than a full month, the BNA must be prorated based on the number of days of the certified applicant's eligibility for the allowance during the month. Proration must be computed at the rate of 1/30th of the monthly BNA amount for each day of certification during the month.

4.2.7. Geographic Locations

4.2.7.1. The HHS maintains the following geographical locations for the FPG:

4.2.7.1.1. The 48 contiguous states and the District of Columbia.

4.2.7.1.2. Hawaii.

4.2.7.1.3. Alaska.

4.2.7.2. If a member receiving BNA executes a PCS and is reassigned from one FPG geographic location specified in subparagraph 4.2.7.1 to another, BNA must be recomputed based on the new duty location.

4.2.7.3. Members assigned to geographic locations outside the defined poverty guideline geographical locations in subparagraph 4.2.7.1 must use the FPG for the 48 contiguous states and the District of Columbia.

4.2.8. Other BNA Recertifying Requirements. The Secretary of the Military Department concerned, or the Commandant of the Coast Guard must review BNA eligibility, and if necessary, upon the member resubmitting an application, the amount of BNA must be recomputed pursuant to subparagraph 4.2.6:

4.2.8.1. Annually on the anniversary date of the original BNA application certification or annually on the date BNA was last certified, whichever is most current. Whenever a member;

4.2.8.2. Whenever a Service member provides substantiated information that their current monthly GHI increases by $150 or more per month;

4.2.8.3. Whenever a Service member provides substantiated information that the number of individuals in the household increases or decreases; or

4.2.8.4. Whenever a Service member receiving BNA executes a PCS and is reassigned from one FPG geographical location specified in subparagraph 4.2.7.1 to another FPG geographical location, BNA must be recertified. Recertification will occur upon arrival at the new duty location using the FPG of the new location. If the PCS is to or from the 48 contiguous States or the District of Columbia to or from a location outside of the United States, it is not necessary to recertify the amount of BNA.

4.2.9. Counseling Requirements. Upon certification, the Secretary of the Military Department concerned, or the Commandant of the Coast Guard must ensure applicants are counseled on the following:

4.2.9.1. During participation in BNA, the member must report any increase or decreases in recurring monthly GHI of $150 or more per month, or any increase or decrease in the number of individuals in their household, to the certifying official within 60 calendar days. Failure to report changes may result in termination of BNA eligibility;

4.2.9.2. Receipt of BNA may affect participation of the household in certain Federal assistance programs, such as subsidized school lunch programs; the Women, Infant, and Children program; FSSA; low-income utility assistance programs; day care programs; and other income-based assistance programs;

4.2.9.3. BNA is taxable income pursuant to ***26 U.S.C. § 61***;

4.2.9.4. That the publication of this section does not result in a retroactive application of benefits other than that which may result from any intervening time period between the effective dates DoDI 1341.15 and any further Military Service-specific guidance; and

4.2.9.5. The member may voluntarily discontinue BNA at any time.

4.2.10. Payment Processing. The monthly BNA is payable from the date the application is certified. The Secretary of the Military Department concerned, or the Commandant of the Coast Guard must establish procedures to ensure all eligible members will be paid the monthly BNA within 30 calendar days of certifying the application.

4.2.11. Effective Periods

4.2.11.1. BNA is payable to eligible members for months beginning on and after January 1, 2023.

4.2.11.2. Unless otherwise extended by the Congress, no BNA may be paid after December 31, 2027.

*Table 25-1. BAS Rates
For the most current rates, see BAS table on DFAS.MIL.

Effective Date	OFFICERS	ENLISTED	BAS II (Note 1)
January 1, 2025	$320.78	$465.77	$931.54
January 1, 2024	$316.98	$460.25	$920.50
January 1, 2023	$311.68	$452.56	$905.12
January 1, 2022	$280.29	$406.98	$813.96
January 1, 2021	$266.18	$386.50	$773.00
January 1, 2020	$256.68	$372.71	$745.42
January 1, 2019 (note 2)	$254.39	$369.39	$738.78
January 1, 2018	$254.39	$369.39	$738.78
January 1, 2017 (note 3)	$253.63	$368.29	$736.58
January 1, 2016	$253.63	$368.29	$736.58
January 1, 2015	$253.38	$367.92	$735.84
January 1, 2014	$246.24	$357.55	$715.10
January 1, 2013	$242.60	$352.27	$704.54
January 1, 2012	$239.96	$348.44	$696.88
January 1, 2011	$223.84	$325.04	$650.08

NOTES:

1. BAS II is the monthly rate that may be payable to enlisted members, in lieu of the regular BAS rate, when on duty at a permanent station and assigned to single (unaccompanied) Government quarters, which do not have adequate food storage or preparation facilities, and where a Government mess is not available, and the Government cannot otherwise make meals available. The BAS II rate is twice the rate of standard enlisted BAS and must be authorized by the Secretary of the Military Department concerned and the Commandant of the Coast Guard.
2. The BAS rate effective January 1, 2019 is the same as the BAS rate for January 1, 2018.
3. The BAS rate effective January 1, 2017 is the same as the BAS rate for January 1, 2016.

*Table 25-2. Meal Collection Rates
Effective January 1, 2025 (Notes 1 & 2)
For the most current rates, see ***Reimbursable Rates*** in Tab G at the Office of the Under Secretary Defense (Comptroller) website.

.

RULE	When a member receiving BAS also receives subsistence (meals or rations) from a Government mess or provided on behalf of the Government at the	and the meal received is	then the collection rate for calendar year 2024 is (note 2)	then the collection rate for calendar year 2025 is (note 2)
1	discount meal rate (note 3)	breakfast	$3.20	$3.25
2	discount meal rate (note 3)	lunch	$5.35	$5.40
3	discount meal rate (note 3)	dinner	$4.60	$4.65
4	discount meal rate (note 3)	daily total	$13.15	$13.30
5	standard meal rate (note 4)	breakfast	$4.35	$4.40
6	standard meal rate (note 4)	lunch	$7.00	$7.10
7	standard meal rate (note 4)	dinner	$6.05	$6.10
8	standard meal rate (note 4)	daily total	$17.40	$17.60

NOTES:

1. Collections from an enlisted member's pay account will be made when the member has not otherwise paid for meals provided by or on behalf of the Government (i.e., by cash, a personal check or charge, or by deduction/reduction of per diem). Collections from pay will be deducted from the member's pay account and credited to the appropriation specified by the Military Service concerned.
2. For the prior year rates, see: Office of Secretary of Defense (Comptroller) website.
3. The discount meal rate applies to meals and rations provided by or on behalf of the U.S. Government to a member not paid per diem or other travel reimbursement for subsistence who is performing duty in a U.S. Government vessel, a U.S. Government aircraft, on maneuvers, war games, field exercises, or similar operations, or to members traveling together with limited or no per diem travel status under EUM or assigned ESM. The discount meal rate also applies to meals and rations provided to a member assigned to Joint Task Force operations (for other than training) at temporary U.S. installations, or through a temporary dining facility.
4. The standard meal rate applies to meals and rations provided to any member not authorized the discount meal rate. This includes any member being paid per diem for subsistence, except those on Joint Task Force operations as described in note 3. Generally, when the standard meal rate is applicable, it will be collected in cash from the member by the dining facility.

CHAPTER 26

HOUSING ALLOWANCES

1.0 GENERAL

1.1 Purpose

This chapter establishes policy pertaining to housing allowances. Housing allowances include Basic Allowance for Housing (BAH), Overseas Housing Allowance (OHA), and Family Separation Housing (FSH) Allowance. Entitlement eligibility is subject to the conditions set forth in this chapter.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 INTRODUCTION

A Service member on Active Duty (AD) entitled to basic pay is authorized basic housing allowance (BAH or OHA) based on their grade, rank, location, and whether the Service member has any dependents. A housing allowance generally is not authorized for a Service member who is assigned to appropriate and adequate Government quarters (see section 8.0 for Government quarters). If a Service member is on excess leave, housing allowances do not accrue during the excess-leave period. If a Service member is absent without leave which is not excused as unavoidable, housing allowances are not authorized.

2.1 Definitions for Housing Allowances

2.1.1. Sharer. A sharer includes the following individuals residing with a Service member, excluding any dependent of the Service member:

2.1.1.1. Another Service member authorized an OHA or FSH, OHA based location (FSH-O).

2.1.1.2. A civilian employee, including any dependents of the civilian employee, who is also authorized a Living Quarters Allowance (LQA). Department of State Standardized Regulations (DSSR), section 130 ***(DSSR § 130)*** or cost of living allowance (COLA) in a non-foreign location Outside Continental United States (OCONUS) (see ***OCONUS COLA***).

2.1.1.3. Any other person, who contributes money toward the payment of rent, mortgage, or utilities.

2.1.2. Owner-Owned Multiple Occupancy Dwelling. The dwelling is a duplex, triplex, or other type of multiple occupancy dwelling that is designed for separate private-sector housing units for more than one household. The units within the dwelling ordinarily have separate addresses or entrances. For OHA or FSH-O purposes, it would include a dwelling where the Service member and any dependents occupy a single separate unit within the dwelling and the other units are rented out.

2.1.3. Permanent Duty Station (PDS) Vicinity

2.1.3.1. Member Assigned to PDS OCONUS. The PDS vicinity is the U.S. territory or possession, state when in Alaska or Hawaii, or the entire country (excluding the United States), where the Service member's PDS, as defined in the Definitions Chapter, is located. A dependent is considered to be residing in the PDS vicinity if residing in that same territory or possession, state, or country, even if not residing with the member. However, if the Service member is authorized or approved through the Secretarial Process to maintain separate households (one for the member and one for a dependent) and is maintaining a separate household in that same territory or possession, state, or country, then the dependent is not residing in the PDS vicinity for FSH purposes. A commander may submit a request for determination through the appropriate channels to the applicable Service Manpower and Reserve Affairs (M&RA).

2.1.3.2. Member Assigned to PDS in the Continental United States (CONUS). The PDS vicinity is the local commuting area of the PDS.

2.1.3.3. Member commutes to OCONUS/CONUS PDS. When a Service member resides with a dependent outside the applicable PDS vicinity as defined in subparagraph 2.1.3.1 or 2.1.3.2, and commutes to the PDS, the dependent is considered to be residing at or near the vicinity of the PDS.

Example 1: Member's PDS is in Germany. Member resides with dependents in France and commutes to the PDS. Member's dependents are considered to be residing in the PDS vicinity even though they are living outside of Germany. Member is not entitled to FSH-O even if other FSH criteria is met.

Example 2: Member's PDS is in San Antonio, Texas. Member resides with dependents in Houston, Texas, and commutes to the PDS. Member's dependents are considered to be residing in the PDS vicinity even though Houston is outside the San Antonio local commuting area. Member is not entitled to FSH, BAH-based locations (FSH-B) even if other FSH criteria is met.

2.1.4. Government Quarters

2.1.4.1. Government quarters include:

2.1.4.1.1. U.S. Government owned or leased sleeping accommodations or family-type housing;

2.1.4.1.2. Lodging or other quarters obtained by U.S. Government contract;

2.1.4.1.3. Dormitories or similar facilities operated by a cost-plus-a-fixed-fee contract;

2.1.4.1.4. Sleeping or housing facilities furnished by a foreign government on the Government's behalf; or

2.1.4.1.5. Quarters in a state-owned National Guard camp.

2.1.4.2. For housing allowance purposes, the term does not include privatized housing or transient facilities, such as temporary lodging facilities, guesthouses, hostess houses', or hotel-type accommodations built or operated by non-appropriated fund activities. Government quarters converted to privatized housing are no longer Government quarters.

2.1.5. Rental Charge. A rental charge is a fee for occupancy and does not include service charges for linens, cleaning, maintenance, or similar costs.

2.2 Housing-Allowance Applicable Dates

2.2.1. Housing Allowance Start and Stop Dates. The authorizing document for OHA and FSH-O is the DoD ***DD Form 2367***, OHA Report. Table 26-1 specifies the date to start BAH or OHA for a Service member with a dependent. Table 26-2 specifies the date to stop housing allowances based on changes in the status of a sole dependent. Table 26-3 specifies the date to stop BAH or OHA for reasons other than a change in the status of a dependent. Situations not covered in these tables are contained elsewhere in this chapter.

2.2.1.1. Start. Unless specifically authorized elsewhere in this chapter, PDS housing allowance eligibility starts on a Service member's reporting day to a new PDS. OHA and FSH-O start on the day a Service member incurs a financial obligation for private-sector housing (e.g., the lease start date), assuming all other criteria for OHA or FSH-O is met. If the Service member is authorized a monetary allowance in lieu of transportation (***MALT***) plus per diem (MALT Plus) on the reporting day, OHA eligibility starts on the day after the Service member's reporting day. When a home port change is involved, ordinarily a housing allowance based on the rate for the new home port starts on the effective date of the home port change.

2.2.1.2. Stop. Unless an extension is authorized or approved under paragraph 10.2, or the PCS move is a close proximity move as specified in paragraphs 10.1 and 10.2, the OHA, FSH-B and FSH-O allowances stop on any of the following:

2.2.1.2.1. The day the Service member's OHA, FSH-O, or FSH-B lease ends.

2.2.1.2.2. The day before the Service member departs due to a PCS order.

2.2.1.2.3. The day before the effective date a Service member's assigned ship or unit changes its home port from OCONUS. However, a Service member without a dependent is authorized a housing allowance based on the old home port until the day the Service member moves back aboard the ship under all of the following conditions:

2.2.1.2.3.1. The Service member is undergoing a home port change;

2.2.1.2.3.2. The ship does not depart from the old home port before or on the home port change effective date; and

2.2.1.2.3.3. Quarters on board the ship are not available (for example, because the ship is dry-docked).

2.2.1.2.4. Upon assignment to Government quarters.

3.0 DETERMINING DEPENDENCY

3.1 Dependent

3.1.1. Eligibility. In order to be eligible for a housing allowance at the with-dependent rate, a Service member must have an eligible dependent. The term "dependent" has the same meaning as defined in the Definitions chapter and is further defined in subparagraphs 3.1.1.1 through 3.1.1.2.3.

3.1.1.1. Primary Dependents. The following are considered a Service member's primary dependent:

3.1.1.1.1. Spouse. As defined in the Definitions chapter, except for a spouse who is a Service member entitled to basic pay as provided in section 4.0.

3.1.1.1.2. Child. As defined in the Definitions chapter, "Dependent," definitions 2, 3, and 4.

3.1.1.2. Secondary Dependents. An individual is a secondary dependent only in that a Service member's support of these individuals is never assumed. A Service member must provide evidence that a secondary dependent, as that term is defined below, is dependent upon the Service member for over one-half of the individual's support. Support has the meaning given in subparagraph 3.3.1. The following individuals may be considered a Service member's secondary dependent only if all requirements of relationship, age, marital status, educational status (if applicable), mental and/or physical incapacitation (if applicable), and support are proven:

3.1.1.2.1. College-Age Student. As dependent as defined in the Definitions chapter, "Dependent," definition 5.

3.1.1.2.2. Incapacitated Adult Child. A dependent as defined in the Definitions chapter, "Dependent," definition 6.

3.1.1.2.3. Parent, Including Stepparent. As dependent as defined in the Definitions chapter, "Dependent," definition 7.

3.1.1.2.3.1. A stepparent relationship ends upon divorce of the stepparent from the Service member's biological parent, but not necessarily upon the death of the Service member's biological parent. A stepparent may qualify as a secondary dependent after the death of the Service member's biological parent.

3.1.1.2.3.2. A person who has stood in loco parentis is an eligible secondary dependent.

3.1.1.2.4. Legal Ward. A dependent as defined in the Definitions chapter, definition 8.

3.2 Relationship Determinations and Certification Requirements

Dependency must be determined before a housing allowance or Uniformed Services Identification Privileges (USIP) card is authorized. After initial approval, the Services must maintain adequate levels of internal audit to assure the legality, propriety, and correctness of all housing allowance payments. See individual Service regulations for procedures.

3.2.1. Primary Dependent Relationship. In determining relationship or dependency for housing allowance eligibility, the appropriate officials must apply the rules in this section. The Service Secretary or designee makes all determinations of relationships or dependency for a primary dependent. The designee may re-delegate.

3.2.1.1. Spousal Relationship Determination. Table 26-8 specifies who determines a dependency relationship for the purposes of a housing allowance when the dependent claimed is a spouse and there is no evidence of a doubtful marriage. Any case in which the validity of a Service member's marriage is questionable is a case of a doubtful relationship. When the relationship status of a claimed dependent spouse is doubtful, submit a request for determination to the applicable office indicated on Table 26-9.

3.2.1.2. Parent-Child Relationship Determination. Tables 26-4 to 26-7 specify the rules for determining a dependency relationship for purposes of a housing allowance between an unmarried child and a Service member in the Army, Navy, Air Force, Space Force, or Marine Corps, respectively. Questionable claims that require legal review should be referred to the applicable office noted in Table 26-9.

3.2.1.3. Proof of Parentage. A Service member who claims a housing allowance for an adopted child, stepchild, or a child born out of wedlock must provide proof of parentage as follows:

3.2.1.3.1. For an adopted child, documentation showing the Service member is the child's legal parent;

3.2.1.3.2. For a stepchild, a marriage license showing the Service member is married to the child's legal parent and documentation showing that the Service member's spouse is the child's parent; or

3.2.1.3.3. For a child born out of wedlock, a birth certificate with the Service member's name cited is required. If the Service member's name is not stated on the birth certificate or on a court order, obtain a signed notarized affidavit of parentage from the Service member. If the child is not in the custody of the Service member parent, the case is treated as specified in the rules for BAH-Differential (BAH-Diff).

3.2.2. Secondary Dependency Relationship. Tables 26-10 to 26-13 specify who determines dependency for secondary dependents. Determinations of relationships or dependency for non-DoD Services is per Service regulations.

3.2.2.1. Parent Dependency Determination. A parent's dependency is determined based on an affidavit submitted by the parent and any other evidence required under applicable regulations. A legal guardian may complete the form for a mentally incapacitated parent.

3.2.2.1.1. A parent's residence in a charitable institution, public or private, does not alone prohibit the Service member from receiving a housing allowance for the parent when all other conditions are met. Failure to reside with the Service member does preclude a parent from a USIP card.

3.2.2.1.2. Table 26-11 specifies who determines a dependency relationship for the purposes of a housing allowance when the dependent claimed is a parent, including a person acting in loco parentis.

3.2.2.1.3. If there is a question as to whether the parent is or is not a dependent, then the authority in Table 26-11 submits a request through the appropriate chain of command to the authority in Table 26-9 for a dependency determination.

3.2.3. Dependent Status Certification. A Service member is required to provide information concerning the status of a dependent when certain conditions occur.

3.2.3.1. Change in PDS. Upon arrival at a new PDS, each Service member authorized a housing allowance for a dependent must recertify the status of the dependent to the Secretary concerned to support a housing allowance on the dependent's behalf. If a Service member fails to provide the certification, the housing allowance on the dependent's behalf stops at the end of the month in which the certification is due. A housing allowance at the appropriate partial or without-dependent rate is paid unless the Service member is not authorized that allowance for some other reason. A housing allowance at the with-dependent rate is authorized effective the date the Service member provides proper certification. The higher rate is not retroactive unless the Service member's commander certifies that the failure to recertify promptly was for reasons beyond the Service member's control.

3.2.3.2. Change in Dependent Status. A Service member must report any change in dependency status, including, but not limited to: death, divorce, legal separation, change in custody arrangements, or any change in support obligations for either a primary or secondary dependent. If a Service member fails to report a change in dependency status that makes them no longer entitled to a with-dependent housing allowance, the member will be indebted for any amount of with-dependent housing allowance received after the dependency relationship ended or in the case of failure to support, from the date in which the Service member cannot show evidence of required support.

3.2.3.3. Secondary Dependency Annual Certification. Annual certification of financial and relationship status is required for a Service member who claims a housing allowance for a secondary dependent, as defined in subparagraph 3.1.1.2.

3.2.3.4. Reserve Component (RC) Member. An RC member must recertify each dependent's status at least every third year from the previous certification or when a dependent's status changes, whichever is sooner.

3.2.4. Fraudulent Claims. Any Service member who submits a claim for a housing allowance that contains a false statement is subject to court-martial or criminal prosecution. Fraudulent acceptance of benefits may cause a civilian recipient to be subject to criminal prosecution. The law provides for severe penalties of imprisonment and a fine. For military personnel, it may include a punitive separation, total forfeitures, and confinement. In the absence of criminal prosecution, administrative collection of amounts to which the Service member was not entitled may be initiated.

3.3 Support Requirement

In order for a Service member to receive BAH at the with-dependent rate or a USIP card, for a dependent, the Service member must be providing support to an individual claimed as primary or secondary dependent.

3.3.1. Support Defined. Support is defined as it is in *26 C.F.R. § 1.152-1(a)(2)* except as otherwise noted in this paragraph. The term "support" includes food, shelter, clothing, medical and dental care, education, and the like. Generally, the amount of an item of support will be the amount of expense incurred by the one furnishing such item. If the item of support furnished is in the form of property or lodging, it is necessary to measure the amount of such item of support in terms of its fair market value.

3.3.2. Primary Dependents. A Service member is authorized a housing allowance on behalf of a primary dependent if the Service member contributes to the dependent's support in an amount that is at least equal to the applicable BAH-Diff rate. See subparagraph 3.4.1 for specific rules concerning computing support of a child. When BAH-Diff rates increase, the minimum amount of support required increases to the new rate. A Service member receiving a housing allowance on behalf of a dependent must, as applicable, increase the amount of support within 60 days of the rate increase to continue receiving the housing allowance.

3.3.2.1. Proof of Support. Proof of support of a primary dependent is generally not required. However, proof of support may be required by the Service in circumstances including but not limited to:

3.3.2.1.1. When the Service becomes aware of facts or evidence which suggest nonsupport or inadequate support; or

3.3.2.1.2. When an appropriate office receives a complaint from a dependent of nonsupport or inadequate support.

3.3.2.2. Interlocutory Decree of Divorce. If a Service member is divorcing a spouse, and an interlocutory decree of divorce does not require the Service member to pay support to the soon to be former spouse in an amount meeting the required level of support, the Service member is not authorized a housing allowance for the former spouse after the date of the interlocutory decree unless the Service member provides proof of support.

3.3.2.3. Legal Separation From Spouse. If a Service member is legally separated from a spouse, but not yet divorced, and a separation agreement or court order does not require the member to pay support to the spouse in an amount meeting the required level of support, the Service member must provide proof of support at the required level to continue to receive a housing allowance for the spouse.

3.3.2.4. Child Support. When a non-custodial parent Service member has a court-ordered child support obligation in an amount that is less than the required level of support and the Service member is not residing in, or assigned to, Government quarters, the Service member is authorized a with-dependent housing allowance for the child only if the Service member provides proof of support to the child at the required level. See section 4.0 for applicable rules when the Service member has a child with another Service member.

3.3.2.5. Additional Support Requirement. The support amount required to retain or receive a housing allowance for a dependent is not necessarily adequate to meet Service policies. The Service concerned may have additional requirements for support in the absence of a legal separation agreement or court order.

3.3.3. Secondary Dependents

3.3.3.1. Required Level of Support. To receive a housing allowance on behalf of an individual claimed as a secondary dependent or a USIP card for a secondary dependent, the individual must be dependent upon the Service member for at least one half of the individual's support in a calendar year.

3.3.3.2. Proving Financial Dependency. A Service member must prove the financial dependency of an individual claimed as a secondary dependent in one of the following ways:

3.3.3.2.1. Tax Return and DD Form 137. Complete and submit the DD Form 137, Secondary Dependency Application, including a tax return demonstrating the individual was claimed on the Service member's tax return as a dependent. The tax return may be for the tax year prior to the year for which the Service member is now claiming the dependency status. If a tax return is provided, the portion of the DD Form 137 containing the "Worksheet for Determining Support" is not required.

For example: If the Service member completes the DD Form 137 in November of 2023 and claimed the individual as a dependent on the Service member's 2022 calendar year tax return, this will be sufficient evidence of financial support in 2023. All other requirements of dependency must still be met for the duration of the calendar year of 2023 for the dependency to be approved.
