4.8.6. Administrative Stops. Allotments may be stopped because of the required deductions from retired pay listed in paragraph 4.2. When possible, the retiree is allowed to determine the allotments to be stopped. However, if the retiree involved refuses or is unable to identify which allotments should be stopped, then the allotments of that retiree will be stopped involuntarily in accordance with the order of precedence contained in Figure 19-1.

5.0 RIGHT TO ALLOTMENTS IN CASE OF DEATH

5.1 Death of Retiree

Entitlements to allotments end with the death of the member. No further allotment payments may be made after receipt of notice of the allotter's death. Deductions made from the retiree's pay, but not paid to the allottee, become part of the arrears of retired pay. Allotments paid after the retiree's death may not be collected from the allottee, except:

5.1.1. Allotments erroneously established after notice of death of the retiree; and

5.1.2. Unearned insurance premiums (insurance premiums are paid 1 month before the day payment is actually due).

5.2 Death of Allottee

An allotment check, even though endorsed, does not become part of an allottee's estate if it is not cashed or negotiated before the allottee's death. Allotment checks are not subject to expenses incurred by or on behalf of the allottee before or after death. All unnegotiated allotment checks must be returned to the office that issued the check. The returned checks are then credited to the retiree's account.

Figure 19-1. Order of Precedence

Precedence	Type	Letter Designation
1	Charitable contributions to Army Emergency Relief, Navy-Marine Corps Relief Society, or Air Force Assistance Fund	See Table 19-4

CHAPTER 22

.

FUNERAL HONORS DETAIL STIPEND FOR RETIREES

1.0 GENERAL

1.1 Overview

The Secretary of a Military Department is authorized to provide support for persons participating in a funeral honors detail, including retired military members, in the form of either transportation allowances (or reimbursement for transportation allowances) and expenses, or a daily stipend as prescribed by the Secretary of Defense. The prescribed daily stipend must be set at a single rate designed to defray the typical costs of transportation and other miscellaneous expenses for persons participating in a funeral honors detail who are members of the Armed Forces in a retired status and other persons who are not members of the Armed Forces or employees of the United States. See Volume 9, Chapter 4 for information regarding reimbursement for transportation allowances and expenses.

1.2 Purpose

This chapter provides policy for the entitlement, funding, and amount payable for funeral honors detail stipends.

1.3 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 37. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ENTITLEMENT TO STIPEND

Secretaries of Military Departments are asked to authorize stipend payments for retirees under ***10 U.S.C. § 1491(d)*** in lieu of authorizing an allowance under ***37 U.S.C. § 435(a)***. These stipends ensure uniform payments to all volunteers who assist in providing funeral honors. A member of the Armed Forces in a retired status, including a member of the Retired Reserves without pay, may receive a daily stipend payment, in addition to any payment of retired or retainer pay or other compensation to which they are entitled, for performing funeral honors detail. Only one daily stipend may be earned and paid for 1 calendar day.

2.1 Amount Payable

The Secretary of Defense is required to prescribe annually a flat rate daily stipend for certain individuals who volunteer to assist the active military in the delivery of funeral honors. The daily stipend payable to a member receiving retired or retainer pay, or a member of the Retired Reserves without pay, is currently $50.

2.2 Taxability

The daily stipend payment under 10 U.S.C. § 1491(d) is not reported as taxable income.

2.3 Funding

The approving Military Department must make the payment under this chapter from Operation and Maintenance funds for the fiscal year in which the payment is made.

2.4 Payments

2.4.1. Retirees considered for the stipend must be an authorized provider to participate in the specific honor detail and perform the honors as anticipated. The retirees that perform funeral honors should be a provider under the Authorized Provider Partnership Program (AP3). The DoD established the AP3 for the benefit of commanders who have the responsibility to provide funeral honors to active duty Service members, retirees, and veterans.

2.4.2. The Military Department concerned is responsible for processing claims for authorized providers (retirees). The authorized provider (retiree) must complete and submit Optional Form 1164, Claim for Reimbursement for Expenditures on Official Business, to the parent Service of the honored veteran.

CHAPTER 23

SPECIAL SEPARATION BENEFITS (SSB) AND VOLUNTARY SEPARATION INCENTIVE (VSI) PAY

1.0 GENERAL

*1.1 Purpose

The purpose of this chapter is to provide policy for the authorization, administration, and payment of the SSB and VSI programs to mid-career Service members of the military services in over-strength inventories. The applicable period for SSB and VSI was January 1992 through December 2001. Both programs required member affiliation with a Reserve Component. Voluntary Separation Pay (VSP) superseded SSB and VSI. The authority to separate a member in conjunction with VSP applies through December 31, 2025. See Chapter 4 and Volume 7A, Chapter 35 for more information on VSP.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 31. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 RESPONSIBILITIES

2.1 Defense Finance and Accounting Service (DFAS), Cleveland (CL)

DFAS-CL will:

2.1.1. Maintain the VSI account until all annual installments are paid, or until the death of the VSI member recipient. A member's entitlement to VSI is not transferable, except that the member may designate beneficiaries to receive the payments in the event of the member's death, in accordance with paragraph 5.0; and

2.1.2. Make all VSI annual beneficiary payments. Following the death of a VSI member recipient, DFAS-CL will provide customer service support for designated beneficiaries and be the primary source for VSI member beneficiary account assistance and maintenance.

2.2 Defense Manpower Data Center (DMDC)

DMDC will:

2.2.1. Maintain a personnel database that identifies and tracks participation in the VSI programs; and

2.2.2. Provide information concerning Reserve participation to DFAS-CL due to the requirement of Reserve affiliation.

2.3 Secretary of the Treasury

The Secretary of the Treasury administers the VSI Fund (hereafter referred to as the "Fund"). All VSI payments made by the Secretary of Defense after December 31, 1992, pursuant to ***10 U.S.C. § 1175***, are to be paid out of the Fund. The Fund is classified as a trust fund and has been designated as account number 97X8335. This fund consists of a receipt and expenditure account.

2.4 DoD Board of Actuaries

For each fiscal year (FY) after September 30, 1999, the Board:

2.4.1. Carries out an actuarial valuation for the Fund and determines any new unfunded liabilities arising from gains and losses to the Fund;

2.4.2. Determines an amortization schedule for liquidating these new unfunded liabilities; and

2.4.3. Determines for the upcoming FYs the amount of DoD contributions to the Fund necessary to comply with the amortization schedules for the Fund's original and new unfunded liabilities in sufficient time to be included in the FY budget requests.

3.0 PAYMENT PROCESSING

3.1 VSI Payments

3.1.1. Upon Separation. A Service member completed a DoD ***(DD) Form 2058***, State of Legal Residence Certificate, and Internal Revenue Service ***(IRS) Form W-4***, Employee's Withholding Allowance Certificate at the time of separation and a ***DD Form 2864***, VSI Beneficiary Designation in order to designate any beneficiaries if desired.

3.1.2. Annual Payments. DFAS-CL issues annual payments on the anniversary of the member's separation. In the event that the anniversary date falls on a weekend or holiday, DFAS-CL will make the payment according to the same rules followed for regular active-duty paydays. DFAS-CL will send annual VSI payments to the VSI recipient's bank via Electronic Funds Transfer (EFT). The Service member should complete an updated Standard Form ***(SF) 1199A***, Direct Deposit Sign-Up Form, as information changes. If an SF 1199A is not available, the VSI recipient must submit a signed and dated request with the address of the bank and a canceled check that shows account number and routing transit number.

3.2 Effect of Disability Compensation

A member receiving VSI must not be deprived of the VSI by reason of entitlement to

disability compensation under the laws administered by the Department of Veterans Affairs (VA).

3.2.1. Deduction. The amount of any such disability compensation concurrently received must be deducted from VSI payments.

3.2.2. No Deduction. No deduction is made from VSI for any disability compensation received because of an earlier period of active duty if the VSI is received because of discharge or release from a later period of active duty.

3.3 Withholding Requirements for Members

3.3.1. Federal Income Tax Withholding (FITW). FITW is withheld from VSI payments based upon the annual Percentage Method of Withholding Table. A valid IRS Form W-4 is required to compute the proper withholding amount under this method. If the member has not submitted an IRS Form W-4, the tax withholding is computed as if the member is single, with no withholding exemptions.

3.3.2. State Income Tax Withholding. VSI payments are subject to state income tax withholding for residents of states that have entered into an agreement with the Secretary of the Treasury. State withholding and reporting for the SSB and the initial VSI payment is based on the member's legal residence at the time of separation from active duty. For annual VSI payments, state income tax is withheld based upon the state of legal residence claimed on the member's DD Form 2058. See Volume 7A, Chapter 44 for those states that have entered into an agreement with the Secretary of the Treasury.

3.3.3. Withholding of Federal Insurance Contributions Act (FICA). FICA (or any other payroll taxes) is not withheld from VSI payments.

3.4 Recoupment of SSB or VSI

A member who has received SSB or VSI and who later qualifies for retired or retainer pay will have the amount of the SSB or VSI received deducted from each payment of such retired or retainer pay. SSB will also be deducted from disability compensation under the laws administered by the VA. See Chapter 4 for detailed information on recoupment.

4.0 DEBT COLLECTION

SSB and VSI initial payments were subject to offset for debt collection. If a Service member separated from active duty with debts due to the United States (including non-appropriated fund instrumentalities and non-DoD debts), the amount of the debt was subject to offset from the SSB and initial VSI entitlement. In the case of VSI, if the debt was greater than the initial payment, the remaining debt will be collected from subsequent installments. Collections are made according to the administrative offset provisions contained in ***31 U.S.C. § 3716*** and are subject to standard debt collection procedures and policies in Volume 16. Garnishment orders remain in effect for VSI recipients and must be transferred to DFAS-CL for administration.

5.0 BENEFICIARY PAYMENT

5.1 Designation of Beneficiaries

5.1.1. Service members may designate beneficiaries to receive VSI installments that remain unpaid after the death of the member using a DD Form 2864. The VSI recipient may designate different percentages for multiple recipients to receive. In the event percentage elections are not made, payments are divided evenly among the designated beneficiaries. The VSI recipient may change his/her beneficiary information by sending a signed and dated DD Form 2864 to DFAS-CL at any time after separation.

5.1.2. DFAS-CL will maintain beneficiary forms for all VSI accounts at least until the end of the VSI entitlement period. If the member dies before the end of the VSI entitlement period, the beneficiary forms will be retained and will not be disposed until after the settlement and payment of any claims made by beneficiaries and until after the retention periods in DFAS 5015.2M (Records Disposition Schedules for Administrative Records Manual) expire.

5.2 Notification of Death and Beneficiary Claim

5.2.1. DFAS-CL requires notification of a VSI recipient's death. Proof of death, such as a certified death certificate, is required. Upon receipt of proof of death, DFAS-CL will close out the member account and establish the beneficiary account. If the beneficiary is responsible for the death of the retiree, the annuity may not be paid to that person unless evidence is received which clearly absolves the beneficiary of any felonious intent.

5.2.2. No specific form is required for making a claim for beneficiary payments. A statement signed by the beneficiary claiming future VSI payments will be sufficient. A claim by a beneficiary for VSI payments will be settled in accordance with 31 U.S.C. § 3702 and therefore must be received within 6 years after the date the claim accrues in order to be timely. The statement should include the beneficiary's social security number. Mail beneficiary claims to DFAS-CL, Retired and Annuitant Pay (R&A):

DFAS Indianapolis
Attn: Voluntary Separation Incentive
8899 East 56th Street
Indianapolis, IN 46249-1300

5.3 Beneficiary Payment

5.3.1. Death of the Member. Upon the death of the member, DFAS-CL will make all remaining annual payments to the member's designated beneficiaries for the remainder of the deceased VSI recipient's entitlement period. If a valid designation was not made or received, payments will be distributed to the person highest on the list, living on the date of death (see ***10 U.S.C. § 2771***) as follows:

5.3.1.1. The Beneficiary designated by the member in writing, if the designation is received by the Military Department concerned before the member's death;

5.3.1.2. The surviving spouse;

5.3.1.3. The children and their descendants, by representation:

5.3.1.3.1. Adopted Child. An adopted child is a legal heir in every state and, therefore, is entitled to payment of unpaid pay and allowances, if otherwise proper. If others adopt the deceased member's child, the child is a beneficiary only in those states where an adopted child inherits from its natural parent.

5.3.1.3.2. Stepchild. A stepchild is not an eligible beneficiary unless adopted by the deceased retiree.

Note: In certain instances, evidence of paternity may be required to determine eligibility.

5.3.1.4. The father and mother in equal parts or, if either is dead, the survivor;

5.3.1.5. The legal representative; or

5.3.1.6. The person entitled under the law of the domicile of the deceased retiree.

5.3.2. Death of the Beneficiary. Upon presentation of a claim, payments will be distributed to a beneficiary's estate in the event a beneficiary dies after a VSI recipient's date of death. DFAS-CL will make such payments according to the laws governing the beneficiary's state of legal residence.

5.3.3. Withholding Requirements

5.3.3.1. A payment to a beneficiary is subject to FITW. The FITW is based upon the ***IRS Form W-4P***, Withholding Certificate for Pension or Annuity Payments, submitted by the recipient. If an IRS Form W-4P is not submitted, the DFAS site will calculate withholding as for a married person claiming three withholding allowances.

5.3.3.2. State income taxes or FICA will not be withheld from beneficiary payments.

5.3.3.3. DFAS-CL will issue an IRS Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., to each beneficiary recipient.

5.3.4. Garnishment of Beneficiary Payments. DFAS-CL will not honor garnishment orders against beneficiary payments.

5.3.4. Offset of Beneficiary Payments. Beneficiary payments generally are not subject to

offset. For instance, VSI beneficiary payments are not offset even though the beneficiary is entitled to receive Social Security on behalf of the deceased VSI recipient. However, if a beneficiary is indebted to the government, the debt may be collected from VSI installment payments.

CHAPTER 24

COMPUTATION OF WAGES SUBJECT TO FEDERAL INCOME TAX WITHHOLDING (FITW)

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide information on retired pay subject to FITW. FITW is based on payments actually or constructively paid, regardless of the date earned. Retired pay is constructively paid (or received) when credited to the account for a retiree or set apart for a retiree to draw on it at any time, although it is not actually reduced to possession. Retired pay must also have been credited to or set apart for the retiree without any substantial limitations or restrictions as to the time and manner of payment or condition under which it is to be made and brought within the retiree's control and disposition.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), specifically Titles 10 and 26. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 GROSS RETIRED PAY AND FITW

2.1 Subject to FITW

Retired pay is income and constitutes wages subject to FITW, except as otherwise indicated in this chapter. See Title 26 of the Code of Federal Regulations, section 31.3401(a)-1(b) (***26 CFR 31.3401(a)-1(b)***) for more information on collection of income tax at the source.

2.2 Not Subject to FITW

The gross retired pay of a member may not be subject to FITW if the member is on the Temporary Disability Retired List (TDRL) or Permanent Disability Retired List (PDRL), receiving disability retired pay and if:

2.2.1. On or before September 24, 1975, the member was entitled to receive retired pay computed on the basis of percentage of disability in accordance with ***26 U.S.C. § 104(a)(4)*** and 26 U.S.C. § 104(b)(2)(A);

2.2.2. On September 24, 1975, he or she was a member of the Armed Forces (or Reserve Component thereof) or under a binding written commitment to become such a member (26 U.S.C. §§ 104(a)(4) and 104(b)(2)(B));

2.2.3. The member is receiving disability retired pay because of a combat-related injury. The term "combat-related injury" means personal injury or sickness incurred as a direct result of armed conflict, or while engaged in extra hazardous service, or under conditions simulating war, or caused by an instrument of war. See 26 U.S.C. §§ 104(a)(4) and 104(b)(2)(C). The applicable Service makes the determination at the time of discharge. See DoD Instruction ***(DoDI) 1332.18***, Disability Evaluation System (DES); or

Note: The amount of disability retired pay described in subparagraph 2.2.3 not subject to FITW is the amount related to the combat-related injury, but in no circumstances, will the nontaxable amount be less than the amount the member would be entitled to receive from the Department of Veterans Affairs (VA) for that injury.

2.2.4. The member would be entitled to disability compensation from the VA. See 26 U.S.C. §§ 104(a)(4) and 104(b)(2)(D). For those members who have waived all or a portion of retired pay in order to receive disability compensation from the VA, subtract the amount of retired pay waived from the gross retired pay to compute the member's taxable income. Subtract the waived retired pay amount prior to subtracting other income reducing amounts, such as Survivor Benefit Plan (SBP) premiums. For members who receive retired pay computed based upon years of service and have a portion of retired pay that is tax exempt due to their retirement for disability under ***10 U.S.C., Chapter 61***, taxable pay is determined by reducing the gross retired pay by either the VA disability compensation entitlement or by the retired pay that would be exempt due to the percentage of disability, whichever is greater.

3.0 DISABILITY COMPENSATION NOT SUBJECT TO FITW

A member is entitled to exclude the disability compensation, additional amount, and retroactive disability compensation from the taxable portion of retired pay. In order to exclude retroactive amounts, a member must follow applicable Internal Revenue Service (IRS) procedures. Amended 1099-Rs are not provided for the retroactive period.

3.1 Disability Compensation

Disability compensation is the maximum amount that a member would be entitled to receive upon application to the VA.

3.2 Additional Amount

An additional amount is the difference between a prospective VA disability compensation award and the amount excluded under section 2.0.

3.3 Retroactive Disability Compensation

The retroactive disability compensation is the amount of a VA disability compensation award not previously excluded from retired pay.

4.0 GROSS RETIRED PAY PARTIALLY TAXABLE

For members who are entitled to have their retired pay computed based on both percentage of disability and years of service, a portion of their retired pay may be subject to FITW. Any reduction of wages subject to FITW for disability retired pay must meet one of the conditions set forth in paragraph 2.2. See also ***26 CFR 1.104-1*** for more information on compensation for injuries or sickness.

4.1 PDRL

If the member is placed on the PDRL, subtract retired pay based on the percentage of disability from retired pay based on the years of service. The difference is the amount of wages subject to FITW.

4.2 TDRL

If the member is placed on the TDRL, use one of these methods:

4.2.1. If the member's disability rating is 50 percent or more, compute as in paragraph 4.1.

4.2.1. If the member's disability rating is less than 50 percent on the TDRL and the member is receiving retired pay computed based on years of service, subtract the amount of retired pay the member would have received if retired pay were computed solely on the basis of the member's actual percentage of disability from the gross retired pay the member is receiving. The difference is the amount of wages subject to FITW.

4.2.3. If a member with 20 years or less of service is placed on the TDRL, has a disability rating of less than 50 percent, and elects to receive disability retired pay based on the percentage of disability, the retired pay received is not subject to FITW.

5.0 FITW WAGE REDUCTIONS

Deductions that reduce the amount of wages subject to FITW include participation in the Retired Serviceman's Family Protection Plan (RSFPP), participation in the SBP, and VA Disability Compensation.

5.1 RSFPP Participation

The amount of the member's retired pay subject to FITW is reduced by the full amount of the RSFPP costs deducted from the member's retired pay in order to participate in the RSFPP. Effective January 1, 1966, tax laws changed to permit a dollar-for-dollar reduction in taxable income. Prior to January 1, 1966, deductions did not reduce taxable income. See section 9.0 for information on tax implications for a member who pays for this protection by direct remittance.

5.2 SBP Participation

The amount of the member's retired pay subject to FITW is reduced by the full amount of the SBP costs deducted from the member's retired pay in order to participate in the SBP. See section 9.0 for information on the tax implications for a member who pays for this protection by direct remittance.

5.3 VA Disability Compensation

There is a waiver of military retired pay when a member receives disability compensation or a pension from the VA, unless the member is entitled to concurrent retirement and disability pay on or after January 1, 2014, as provided under ***10 U.S.C. § 1414***.

5.3.1. If the member's gross retired pay is fully subject to FITW, subtract the amount of the retired pay waived applied to wages. The amount of retired pay waived reduces the member's retired pay entitlement.

5.3.2. If a member has retired due to physical disability, reduce wages subject to FITW, if any, by the amount of retired pay waived or the portion of the member's retired pay based on the actual percentage of disability, whichever is greater.

6.0 U.S. CITIZENS ABROAD

The retired pay of members who temporarily or permanently reside in a foreign country is subject to FITW the same as if they resided in the United States or its possessions. The same withholding rules from section 2.0 apply.

7.0 ARREARS OF PAY

For information on taxation policies that apply to deceased members and their beneficiaries, see Chapter 30.

8.0 DELINQUENT FEDERAL TAXES

8.1 Voluntary Withholding

A retiree may, with the consent of the IRS, have deductions made from his or her retired pay to satisfy a debt due to tax delinquency. The class T, nondiscretionary allotment, allows a member to make payments to the IRS for this purpose.

8.2 Involuntary Withholding

If a retiree neglects or refuses to pay his or her federal income tax liability within 10 days after receiving notice of liability, the IRS District Director may collect the amount by placing a levy on the member's retired pay. The IRS is required to give the member 10 days' notice prior to levy execution. This notice is normally included with the notification of liability. For additional information on the collection of delinquent federal tax debts by tax levy, see Chapter 28 and ***26 U.S.C. § 6331***.

9.0 SBP/RSFPP PREMIUMS

For more information on the taxation of SBP premiums, see Chapter 45.

9.1 Paid by Deduction From Retired Pay

SBP/RSFPP premiums are deducted from a retiree's gross pay. This method reduces the retiree's amount of taxable income.

9.2 Paid by Direct Remittance

SBP/RSFPP premiums paid by direct remittance do not reduce the retiree's taxable income.

10.0 MILITARY CORRECTION OF RECORDS PAYMENTS

If a correction of military records results in payment to the retiree, the payment is processed according to whether or not it is subject to FITW.

10.1 Amounts Previously Paid and Reported

When amounts previously paid and reported as FITW wages are not subject to FITW as a result of the correction of record pursuant to ***10 U.S.C. § 1552***, the member may be provided a corrected ***IRS Form 1099-R***, Distributions From Pension, Annuities, Retirement or Profit-Sharing Plans, Individual Retirement Accounts, Insurance Contracts, etc., for the 3 calendar years before the year that the correction action is made, if such correction is appropriate in accordance with the Internal Revenue Code. Alternatively, the member may be provided a letter citing the previous amount taxed and the amount that would have been withheld based upon the record as corrected. The member may seek to obtain a tax refund, if any is due, from the IRS based on his or her total tax liability. Any additional claims for tax liability may be treated as a claim for pecuniary benefits under 10 U.S.C. § 1552.

10.2 Subject to FITW

When the member's retired pay is subject to FITW, the payment is reported as FITW wages for the current year and paid out of the Military Retirement Fund.

11.0 DISABILITY SEVERANCE PAY

For information on the taxability and withholding of disability severance pay, see Volume 7A, Chapter 35.

12.0 RETIRED PAY FOR FLEET RESERVIST/FLEET MARINE CORPS RESERVIST (FR/FMCR) NOT PHYSICALLY QUALIFIED FOR RETENTION

The retired pay of a member of the FR/FMCR, who is transferred to the retired list after being found physically unqualified for retention in the FR/FMCR, is subject to FITW. See Chapter 2.

CHAPTER 25

COMPUTATION OF FEDERAL INCOME TAX WITHHOLDING (FITW)

1.0 GENERAL

1.1 Purpose

This chapter provides information pertaining to Retired and Annuitant (R&A) pay that is subject to FITW and the computation of FITW.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with Title 26 of the United States Code (U.S.C.). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each section are listed in a reference section at the end of the chapter.

2.0 RATES FOR REGULAR AND ADDITIONAL WITHOLDING OF FITW

2.1 FITW

Federal income tax is withheld in accordance with the Department of the Treasury, Internal Revenue Service ***(IRS) Publication 15, (Circular E)***, Employer's Tax Guide. Taxable pay, as computed under provisions of Chapter 24, is subject to FITW.

2.2 Request Additional FITW

A member may authorize an additional monthly amount of federal income tax to be withheld.

2.3 FITW for an Annuitant

The gross monthly amount of the annuity, or the monthly amount of the Survivor Benefit Plan (SBP) annuity remaining after it has been reduced by a Dependency and Indemnity Compensation award and/or Social Security offset (as applicable), is taxable income and subject to FITW unless the annuitant elects no withholding. See also Chapter 37 for Retired Serviceman's Family Protection Plan Annuities and Chapter 46 for SBP Annuities.

2.4 Nonresident Alien

Federal income tax is withheld for a nonresident alien pursuant to ***26 U.S.C. § 871*** and Title 26, Code of Federal Regulations (CFR), section 1.861-4 (***26 CFR 1.861-4***). Taxable retired pay, as determined under Chapter 24, is subject to FITW at the rate of 30 percent, without being reduced by withholding allowances of personal exemptions, unless the member is a citizen of a country that has a tax treaty with the United States. Use the withholding rate specified in the treaty if the member files ***IRS Form W8BEN***, Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding and Reporting (Individuals), with the Defense Finance and Accounting Service (DFAS), Military Retirement Pay.

Note: When a member files an income tax return, the IRS will refund any excess tax withheld. A member who is not a U.S. citizen or resident alien is responsible for reporting the income to the country of the member's citizenship and paying any tax owed on this income.

3.0 RATES OF FITW FOR ONE-TIME PAYMENTS

3.1 One-Time Payments

When DFAS Retired Pay pays a one-time payment concurrently with a regular monthly payment, it separately identifies the one-time payment from the regular payment. As such, the same FITW computation rules apply if the one-time payment is made concurrently with or separately from the regular monthly payment. There are two computation methods, and the method that may be used depends upon whether federal income tax was withheld from regular monthly payments of retired pay made to the member during the current or immediately preceding calendar year. (See IRS Publication 15, section 7.)

3.1.1. When federal income tax was not withheld from regular payments during the current or preceding calendar year, the one-time payment must be combined with the wages paid for the last pay period (in the same calendar year) or with the wages paid for the current pay period. The amount of withholding is then computed as if this was a single payment, taking into consideration the member's claimed withholding exemptions. Compute the aggregate withholding amount. Subtract the amount of federal income tax previously withheld or the amount scheduled to be withheld from the regular wages for the current period. The excess amount would then be deducted from the one-time payment.

3.1.2. When federal income tax was withheld from regular monthly payments made during either the current or immediately preceding calendar year, there are two alternatives:

3.1.2.1. Use the procedure described in subparagraph 3.1.1; or

3.1.2.2. Withhold a flat 22 percent of the taxable portion of the one-time payment without regard to the withholding exemptions claimed. (See Revenue Ruling 66-190, 1966-2 CB 457.)

3.2 Blended Retirement System (BRS) Lump Sum Payments

BRS lump sum payments made under ***10 U.S.C. § 1415(b)*** are treated as supplemental wages for tax purposes. Federal income tax is withheld from BRS lump sum payments in the same manner as described in paragraph 3.1.

CHAPTER 26

STATE TAXES

1.0 GENERAL

1.1 Purpose

The state taxing authority of a member's residence(s) may tax the member's retired or retainer pay. The designated state must have a signed, standard written agreement with the DoD for the voluntary withholding of state income tax. This agreement will provide the Secretary concerned the authority to withhold state income tax from the member's monthly retired or retainer pay.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Title 10. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 WITHHOLDING

2.1 State Income Tax Withholding (SITW)

A retiree may request voluntary SITW from their retired or retainer pay. The request must include the member's full name, signature, Social Security number, the fixed amount withheld monthly from retired pay, the state designated to receive the withholding, and the member's current address of residence. The retiree may submit the request via letter, email, or fax to the address in section 4.0 or submit the request through the member's myPay account. If using myPay, the member's signature is not required. In the case of mental incompetence, the member's guardian or trustee must sign the request.

2.2 Amount

The withholding amount requested must be in a whole dollar amount and at least $10 or the state's minimum, if that amount is higher.

3.0 PAYMENTS AND REPORTS

3.1 Amounts Withheld

The Defense Finance and Accounting Service (DFAS) will disburse amounts withheld to the states in the month following the month of collection. Payment procedures and state income tax withholdings will follow the usual fiscal practices of the uniformed services.

3.2 Internal Revenue Service (IRS) Form 1099-R

The DFAS will provide each retiree an ***IRS Form 1099-R***, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., that indicates the total tax withheld for each state, following each calendar year end.

4.0 UNIFORMED SERVICES' RETIRED PAY OFFICE ADDRESSES

4.1 U.S. Military

Chapter 27

GARNISHMENTS

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide information unique to the collection of child support and/or alimony from military retired pay. The provisions of Title 42, United States Code (U.S.C.), section 659 (***42 U.S.C. § 659***) and Title 5, Code of Federal Regulations (CFR), part 581 (***5 CFR 581***) take precedence when in conflict with this chapter.

1.1.1. Pursuant to 42 U.S.C. § 659(h)(1)(A) and 5 CFR 581.103, remuneration for employment includes retired and retainer pay, including disability retired pay. These entitlements are hereafter referred to as "retired pay."

1.1.2. The processing of garnishment orders for child support and/or alimony from the pay of individuals receiving remuneration for employment from the United States is governed by 42 U.S.C. § 659 and 5 CFR 581.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the U.S.C., including Titles 15, 26, and 42. Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DEFINITIONS

2.1 Alimony

Alimony is defined as periodic payments of funds for the support and maintenance of a spouse or former spouse. Subject to and in accordance with state law, alimony includes separate maintenance, alimony pending legal process, maintenance, and spousal support. It also includes attorney fees, interest, and court costs when, and to the extent that they are, expressly made recoverable as such by a decree, order, or judgment issued in accordance with applicable state law by a court of competent jurisdiction. Alimony, as used in this chapter and Chapter 29, excludes payments or transfers of property made in compliance with any community property settlement, equitable distribution of property, or other division of property between the spouse(s) or former spouse(s).

2.2 Child Support

Child support is defined as periodic payments of funds for the support and maintenance of a child or children. Subject to and in accordance with state law, child support includes (but is not limited to) payments to provide for health care, education, recreation, clothing, or other specific needs. It also includes related attorney fees, interest, court costs, and other relief. Child Support, as used in this chapter and Chapter 29, excludes payments made in compliance with the satisfaction of child abuse garnishments under Chapter 29, paragraph 3.6.

2.3 Disposable Earnings

Disposable earnings are defined as an individual's gross retired pay less deductions for the following items:

2.3.1. Amounts withheld in payment of debts owed to the United States, except that an indebtedness based on a levy for income tax under ***26 U.S.C. § 6331*** will not be excluded in complying with legal process for the support of minor children if the legal process was entered prior to the date of the levy;

2.3.2. Deductions required by law (e.g., Survivor Benefit Plan and Retired Serviceman's Family Protection Plan cost deductions and deductions for Department of Veterans Affairs waivers); and

2.3.3. Regular Federal income tax withholding (FITW) and state income tax withholding, if required or authorized by law and amounts withheld are not greater than would be the case if the individual claimed all dependents to which he/she were entitled.

2.4 Legal Process

Legal process is defined as any writ, order, summons, or other similar process in the nature of garnishment. Legal process may be issued by:

2.4.1. A court of competent jurisdiction within any state, territory, or possession of the United States;

2.4.2. A court of competent jurisdiction in any foreign country with which the United States has entered into an agreement that obligates the United States to honor such process; or

2.4.3. An authorized official according to an order of such a court of competent jurisdiction or pursuant to state or local law.

3.0 DESIGNATED AGENT

The Defense Finance and Accounting Service (DFAS), Office of General Counsel, Deputy General Counsel of Garnishment Law Directorate, or his or her representative, is responsible for receiving and implementing all legal process concerning retired members. Legal process may be served by regular mail or by fax to:

DFAS Office of General Counsel
Attn: Garnishment Law Directorate
P.O. Box 998002
Cleveland, OH 44199-8002
Fax: 216-367-3675; Toll-Free Fax: 877-622-5930

Any legal process served on DoD entities other than the designated agent, for the purpose of enforcing payment of child support and/or alimony, will be forwarded to the designated agent for processing. For additional information or assistance call:

Garnishment Law Directorate Customer Service
Toll-Free: 888-DFAS411 (888-332-7411)

4.0 IMPLEMENTING LEGAL PROCESS

4.1 Legal Review

Once legal process has been served on the designated agent, the designated agent will review the legal process to determine if it is regular on its face, appears to conform to the laws of the jurisdiction from which it was issued, was issued to enforce a member's legal obligation to provide child support and/or alimony, and contains sufficient information to accurately identify the member.

4.2 Written Notification

The designated agent will notify the member within 15 days after valid service of legal process. The written notification will explain the potential effect of the legal process on the member's pay, including allotments, and advise the member that the member has the burden of raising any available defenses, such as violation of the member's rights under the Servicemembers Civil Relief Act or lack of personal jurisdiction over the member, to the court who issued the order. A copy of the legal process will be included with the written notice. The notice will be sent to the member's address of record in the retired pay system. When the designated agent has the capability to make notification through electronic means such as email, the notice will be made using those electronic means.

4.3 Response

Within 30 days of effective service, or such longer period as may be allowed by applicable state law, the designated agent will:

4.3.1. Determine the amount of the member's disposable earnings, as defined in paragraph 2.3;

4.3.2. Where required, file an answer to the legal process with the court in which the proceeding was brought and answer any interrogatories regarding the disposable earnings due the member (the designated agent may use its standard answer form for this purpose); and

4.3.3. Establish deductions from the member's disposable earnings. In accordance with 5 CFR 581.305(f), governmental agencies, including DoD agencies, are not required to vary their pay or disbursing cycles to comply with the legal process.

4.4 Maximum Percentage of Pay Subject to Garnishment

Unless a lower maximum garnishment percentage limitation is provided by applicable state or local law, the maximum part of disposable earnings for any pay period which is subject to legal process will not exceed:

4.4.1. Fifty percent of disposable earnings if the member concerned asserts by affidavit or other acceptable evidence that he or she is providing over half of the support for a spouse or dependent child (other than a spouse or dependent child with respect to whose support the legal process is issued);

4.4.2. Sixty percent if the member concerned is not supporting a spouse or dependent child as stated in subparagraph 4.4.1; or

4.4.3. If it appears from the face of the legal process that the member is in arrears for a period that is 12 weeks or greater, the maximum percentage under subparagraph 4.4.1 is 55 percent and under subparagraph 4.4.2 is 65 percent.

4.5 Allotments to be Discontinued

If the member does not have enough net pay available to comply with the legal process, then one or more of the member's allotments will be stopped in accordance with the order of precedence for items 1 through 14 in Figure 19-1 of Chapter 19.

4.6 Priority of Legal Obligation

If the designated official is served with legal process concerning more than one legal obligation owed by the same member, then the legal obligations will be satisfied from the available funds in the following order of priority:

4.6.1. Legal process to enforce current support will have priority over legal process to enforce support arrearages;

4.6.2. Legal process to enforce current child support will have priority over legal process to enforce current alimony; and

4.6.3. If the legal process is to enforce more than one child support obligation, and there are not enough funds available to fully satisfy all legal process served, then the available funds will be allocated among the obligations in proportion to the amounts of current child support due. Alimony obligations will be satisfied on a first-come, first-served basis.

5.0 APPEALS

Where notice is received that the member has appealed either the legal process or the underlying alimony and/or child support order, payment of money subject to the legal process will be suspended, i.e., money will continue to be withheld, but these amounts will be retained until the Government is ordered by the court, or other authority, to resume payments or otherwise disburse the suspended amounts. However, no suspension action will be taken where the applicable law of the jurisdiction wherein the appeal is filed requires compliance with the legal process while an appeal is pending.

6.0 GARNISHMENT OF RENOUNCED RETIRED PAY

6.1 Retired Pay Subject to Garnishment

Legal process, as defined in paragraph 2.4, must be honored even though the member has renounced receipt of retired pay. The member's refusal to receive retired pay does not permit the Government to deny satisfying a writ, order, summons, or other similar process in the nature of a garnishment. The entitlement to retired pay, even if renounced, continues to be treated as an amount "due from or payable by" the United States, which accrues to a member's retired pay account and is subject to garnishment.

6.2 Waiver of Retired Pay

The right to accrue retired pay may not be waived, except as authorized by law. See Chapter 12 concerning the waiver of retired pay.

7.0 INDEMNIFICATION

7.1 Liability for Payment

Neither the DoD, nor any disbursing officer or employee, will be liable for any payment made from money due from, or payable by, the DoD, to any individual pursuant to the legal process, if such payment is made in compliance with 42 U.S.C. § 659, 5 CFR 581, and this chapter.

7.2 Disciplinary Action, Civil or Criminal Liability, or Penalty for Disclosure of Information

DoD employees, whose duties include responding to relevant interrogatories, will not be subject to any disciplinary action, civil or criminal liability, or penalty for any disclosure of information made in connection with answering such interrogatories.

7.3 Liability for Failure to Comply With Legal Process

Neither the DoD, nor any disbursing officer or employee, will be liable to pay monetary damages for failure to comply with legal process.

CHAPTER 28

COLLECTION OF NON-DOD DEBT AND DELINQUENT FEDERAL TAXES BY TAX LEVY

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide guidance on the collection of non-DoD debt from the retired pay of members. Non-DoD debt discussed in this chapter include debts owed to other non-DoD federal creditor agencies and debt owed to the United States as a result of a civil judgment against a member. This chapter also provides guidance on tax levies issued by the Internal Revenue Service (IRS) in order to collect delinquent income tax debt from members. See Volume 16 for the collection of DoD debts from members.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 5, 26, 31, and 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 INVOLUNTARY COLLECTION

2.1 Recovery of Debt

Current pay is available for repayment of indebtedness without the member's consent only if such recovery is expressly authorized by statute.

2.2 Offsetting Retired Pay to Collect Debts Owed to Non-DoD Federal Creditor Agencies

Title 5, U.S.C., section 5514 provides authority to offset retired pay in order to collect debts owed to non-DoD federal creditor agencies.

2.2.1. Non-DoD Federal Creditor Agencies. A non-DoD federal creditor agency is a non-DoD federal agency to which an employee owes a debt. Examples of non-DoD federal creditor agency debts include debts owed by members for overpayments of civilian pay the member earned as an employee of a non-DoD federal agency or federal loan debts from non-DoD agencies. See section 3.0 for collection of delinquent federal tax by levy. See paragraph 2.4 for court judgments.

2.2.2. Offset Authority. Non-DoD federal creditor agency debts may be collected by offset of retired pay under 5 U.S.C. § 5514. When non-DoD federal creditor agencies identify members as having outstanding debts, those agencies must address their salary offset requests to the Secretary of Defense designee for such collection, which is the Defense Finance and

Accounting Service (DFAS). The following designated agent is responsible for receiving these collection requests:

Defense Finance and Accounting Service (DFAS)-AHADC
1240 E. 9th Street
Cleveland, OH 44199-8002

2.2.3. Due Process. A request for offset must include certification that due process rights have been afforded to an indebted employee by the non-DoD creditor agency. A federal tax levy takes precedence over other pay or salary offset deductions, pursuant to 5 U.S.C. § 5514. See also Volume 16, Chapter 3, paragraph 4.4.

2.2.4. Deduction Limitation. Collection may be made in monthly installments or at established pay intervals not to exceed 15 percent of disposable pay for any pay period, unless a greater percentage is authorized by written consent of the member. Unsatisfied debts at retirement must be deducted from subsequent payments of any nature due the member. See Volume 16, Chapter 3, subparagraph 3.6.2.

2.3 Administrative Offset of Debts Owed to Non-DoD Federal Creditor Agencies

Debts owed to non-DoD federal creditor agencies may be collected by administrative offset under ***31 U.S.C. § 3716***. See also Volume 16, Chapter 3, paragraph 4.4.2.3.

2.4 Collection of Other Debts

A member's retired pay may be subject to garnishment, tax levy, or a court judgment.

2.4.1. Garnishment or Levy

A retired member may not be deprived of pay by the civil process of garnishment or tax levy except as set out in Chapter 27 (garnishment of child support and alimony) or in section 3.0 (levy of delinquent federal taxes) of this chapter.

2.4.2. Judgments in Favor of the United States

Court judgments against a member, or retired member, in favor of the United States may not be collected under Public Law (P.L.) 97-276, section 124. However, such judgments in favor of the United States may be collected under 5 U.S.C. § 5514.

2.4.3. Judgments in Favor of Private Individuals

Court judgments ordered to be collected to pay private individuals are not debts owed to the United States government and cannot be collected by offset under 5 U.S.C. § 5514 or 31 U.S.C. § 3716.

3.0 COLLECTION OF DELINQUENT FEDERAL TAXES BY LEVY

3.1 General

When a member does not pay any federal income taxes due within 30 days after the IRS has issued a notice and demand for payment to the member, the IRS may collect the tax by levy on the member's salary or other income, including retired or retainer pay. IRS tax levies are requests on IRS Form 668-W, Notice of Levy on Wages, Salary, and Other Income, for a continuous levy from a member's retired pay to collect taxes owed. The effect of a levy on wages, salary, or other income payable to or received by the member will be continuous from the date such levy is first made until such levy is released by the IRS on Form 668-D, Release of Levy. Medal of Honor recipients are exempt from tax levy.

3.2 IRS Form 668-W

The IRS will transmit IRS Form 668-W or Form 668-W(c), in five parts (the letter "c" designates a computer-generated form which is the same as the version of the form without the "c"). The IRS Form 668-W will identify the member, specify the amount of the tax liability, give instructions for providing due process, show how to compute the levy based on input from the taxpayer, and give the payment address. The DFAS Retired and Annuitant Pay Office (hereinafter "Office") must follow the instructions on the IRS Form 668-W. In general, the Office must notify the taxpayer (see Figure 28-1 for an example of a sample letter), compute the amounts available for payment to the IRS, and make the payment. Currently, the IRS Form 668-W requires the employer to send to the IRS all of the taxpayer's net pay less what is exempt from levy. Net pay is gross retired pay less all deductions and allotments in effect as of the date of receipt of IRS Form 668-W. The Office must follow the instructions on IRS Form 668-W when computing exemptions.

3.3 Problem Cases

When the IRS has determined the taxpayer's case is a problem case, the taxpayer will be furnished with the IRS Form 668-W, a statement of the amount of delinquent taxes and a statement that "net pay" is not enough to pay the levy and that all available accrued pay should be sent to the IRS. Available accrued pay is gross retired pay less:

3.3.1 Withholding for current Federal taxes (statutory amounts only);

3.3.2. Amounts required to satisfy prior overpayments of pay;

3.3.3. Amounts waived in favor of compensation from the Department of Veterans Affairs;

3.3.4. United States Government Life Insurance/National Service Life Insurance premiums;

3.3.5. Deductions for Retired Serviceman's Family Protection Plan and/or Survivor Benefit Plan costs;

3.3.6. Voluntary child-support allotments to satisfy court orders, provided the court order is dated prior to the date of the levy from the IRS;

3.3.7. Pay attached or garnished for child support or alimony; and

3.3.8. The levy exemptions calculated under normal levy procedures.

NOTE: The main difference between a regular levy and a problem case levy is that, under the latter, the Office must stop the member's voluntary allotments of retired pay to satisfy the levy. If it is not necessary to stop all allotments, the Office should request the member elect which allotments to stop. If the member does not respond to the request, the Office must stop such allotments as are necessary, stopping any commercial insurance allotments last. See Chapter 19, Figure 19-1 for the order of precedence.

Figure 28-1. Example of Notification Letter for IRS Notice of Levy

Defense Finance and Accounting Service
Retired and Annuitant Pay

December 1, 20XX

CMSGT John Doe, U.S. Air Force (Retired)
1240 East 97th Street
Cleveland, OH 44199-2055

Dear CMSGT Doe,

The IRS has sent us the attached IRS Form 668-W, (Notice of Levy on Wages, Salary, and Other Income). Please read the IRS Form 668-W carefully, as it may be advisable to discuss it with your attorney or other tax adviser.

Complete the attached form and return it to us within 3 working days to claim your partial exemption. If we do not receive the completed form, we will compute your exemption for you, using the exemption for a married person filing separately with one personal exemption. Please note that the exemptions you claimed for tax withholding purposes are NOT the same and we will not use them to compute your exemption from levy.

This is a continuous levy against your retired pay to collect delinquent federal taxes. We will deduct the levy from your (month/year) retired pay. We will make a specified collection from your retired pay and continue the collection until the levy has been satisfied. This levy remains in force and effect until the IRS serves our office with IRS Form 668-D, (Release of Levy).

If you have been awarded the Medal of Honor, you are exempt from levy. Send us a copy of the citation awarding you the Medal of Honor to prevent the levy of your retired pay.

Please contact the IRS office that issued the levy for questions that you may have concerning the levy.

Sincerely,

Military Pay Technician
Retired and Annuitant Pay

CHAPTER 29

FORMER SPOUSE PAYMENTS FROM RETIRED PAY

1.0 GENERAL

1.1 Purpose

This chapter explains how a former spouse can apply for direct payments from a military member's military retired pay and how the former spouse's payments will be administered.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10, 15, 28, 31, 38, 42 and 50. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DEFINITIONS

2.1 Alimony

Alimony is a legal obligation where a member is ordered to pay an amount for the support and maintenance of a spouse or former spouse. This definition includes attorney's fees, interest, and court costs. Alimony does not include child support, property settlement, equitable distribution of property, or any other division of property.

2.2 Child Support

Child support is a legal obligation where a member is ordered to pay an amount for the support and maintenance of a child. This definition includes costs for health care, arrearages, attorney's fees, interest, penalties, and other related relief.

2.3 Court

Court means any court of competent jurisdiction of any state (in the United States), the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands and any court of the United States, as defined in ***28 U.S.C. § 451***. Court also includes a court of a foreign country with which the United States has an agreement requiring the United States to honor any court order of such country.

2.4 Court Order

Court order means a final decree of divorce, dissolution, annulment, or legal separation issued by a court, or a property settlement incorporated into such an order. Court order also includes orders issued incident to a divorce, such as an order dividing military retired pay or a domestic relations order (DRO) that divides military retired pay.

Note: A DRO is not required but will be accepted. A court order also includes a support order as defined in section 453 of the Social Security Act (***42 U.S.C. § 653(p)***).

2.5 Creditable Service

Creditable service means years and full months of military service creditable for the purpose of computing a member's retired pay entitlement if the member is on active duty or the Reserve retirement points creditable if the member is a Reserve component member. See ***10 U.S.C. § 1405*** and ***10 U.S.C. §12733***, and Volume 7B, Chapter 1 and Chapter 3.

2.6 Designated Agent

Designated agent is the agent authorized to review applications for direct payments made. See section 4.0 for specific designations.

2.7 Disposable Retired Pay

Disposable retired pay is defined in sections 7.0 and 8.0.

2.8 Entitlement

Entitlement is the legal right of a military member to receive military retired pay. The term refers to members who actually receive retired pay rather than those who qualify by completing the required years of service.

2.9 Final Decree

A final decree is an order from which no appeal may be taken or from which no appeal has been taken within the time allowed for taking such appeals under the laws applicable to such appeals, or a decree from which timely appeal has been taken and such appeal has been finally decided under the laws applicable to such appeals.

2.10 Former Spouse

Former spouse is the former husband or wife, or if the parties are legally separated, the current husband or wife, of a military member.

*2.11 Formula Award

A formula award computes a former spouse's property interest in a military member's retired pay based on the relationship of two periods of time. It is stated as a fraction in which the numerator and denominator are first divided and the result is multiplied by a percentage. The numerator may represent the length of the parties' marriage through the date of separation or length of total marriage through the date of divorce while the member was performing creditable military service, or a different time period as determined by the court. The denominator may represent the member's total service creditable toward retirement, or a different time period as determined by the court. The numerator, denominator, and percentage must be provided in the order.

2.11.1. For members qualifying for an active duty (i.e., regular service) retirement, the elements must be expressed in terms of whole months. The former spouse's award is usually calculated by multiplying the marital fraction (i.e. months of marriage divided by total months of creditable service) by one-half or 50 percent, or any other percentage amount as determined by the court and provided in the court order. See paragraph 6.7 for acceptable active-duty formula award language.

2.11.2. For members qualifying for a Reserve (i.e., non-regular service) retirement, the elements must be expressed in terms of Reserve retirement points. The former spouse's award is usually calculated by multiplying the marital fraction (i.e. number of reserve points earned while the parties were married divided by the total number of reserve points earned) by one-half or 50 percent, or any other percentage amount as determined by the court and provided in the court order. See subparagraph 6.7.2 for acceptable Reserve formula award language.

2.12 Garnishment Order

A garnishment order is an order directing the designated agent to issue payments from a member's pay to satisfy a legal obligation for child support, alimony, or division of property other than a division of military retired pay, or a monetary judgment rendered against a member for the physical, sexual, or emotional abuse of a child. See Public Law ***(PL) 115-91, section 534***.

2.13 Hypothetical Retired Pay Award

Hypothetical retired pay award is an award based on a percentage of retired pay that is calculated using variables provided in a court order that are different from the member's actual retirement variables (i.e., hypothetically what would the member's retired pay be if the member retired on this date). The retired pay calculated using the court ordered variables is called the member's hypothetical retired pay. A hypothetical award typically attempts to define the property interest in the retired pay as if the member had retired at the time the court divided the member's military retired pay based upon the member's rank, or high-3 amount, and years of service accrued to that point in time. Thus, the former spouse does not benefit from the member's pay increases due to promotions or increased service time after the divorce.

2.14 Member

A member is an individual who is on active duty, one who is a reservist, or one who is retired from military service.

2.15 Renounced Pay

Renounced pay is military retired pay to which a member is entitled, but which the member has waived receipt.

2.16 Retired Pay

Retired pay is the statutory entitlement due a member based on conditions of the retirement law, pay grade or high-3 pay amount, years of service, and the date of retirement. Retired pay includes "retainer pay."

Note: A Reserve member is generally not eligible to start receiving retired pay until they reach age 60. However, the National Defense Authorization Act (NDAA) for Fiscal Year 2008 enacted the Reduced Retirement Age for Reserve Component (RC) soldiers based on Active Duty (AD) performance. The NDAA for 2008 reduces the retirement age for RC members from 60 to a lesser age, but not below age 50, for those who have served on AD in an eligible status (qualifying service) after January 28, 2008.

2.17 Retired Pay Award

Retired pay award is a portion of a member's disposable military retired pay awarded to a former spouse or current spouse by a court of competent jurisdiction as a property division. The award must clearly reference military retirement or be contained within a military retirement subsection.

2.18 Standard Retired Pay Multiplier

The standard retired pay multiplier used to compute retired pay for members with a Date of Initial Entry into Military Service (DIEMS) prior to January 1, 2018, who have not elected to participate in the Blended Retirement System (BRS) is 2.5 percent times the member's years of creditable service. See Chapter 3. The retired pay or retainer pay multiplier for a member with a DIEMS on or after January 1, 2018, or a member with a DIEMS before January 1, 2018, who elected to enroll in the BRS, is 2 percent times the years of creditable service. See Chapter 3.

2.19 Uniformed Services Former Spouses' Protection Act (USFSPA)

PL 97-252, enacted on September 8, 1982, states that the section of Title 10 addressing former spouse protection may be cited as the "USFSPA." Therefore, USFSPA is used throughout and refers to the provisions of ***10 U.S.C. § 1408***.

3.0 AWARDS THAT CAN BE COLLECTED UNDER THE USFSPA

3.1 Child Support

A former spouse can collect child support if there is a court order that awards child support, and the former spouse and military member have ever been married to each other.

3.2 Child Support Arrearages

To collect child support arrearages, a former spouse must submit a recent court order that lists the total arrearages. The order cannot be older than two years from the date the designated agent receives it.

3.3 Alimony

A former spouse can collect current alimony under the USFSPA, but not alimony arrearages through the Defense Finance and Accounting Service (DFAS).

3.4 Retired Pay Award

A former spouse can collect current retired pay award payments, but not retired pay award arrearages through DFAS.

3.5 Property Other Than a Division of Retired Pay

A former spouse can collect a property division, other than a retired pay award, by garnishment if an order awards it to the former spouse and if the former spouse was also awarded alimony, child support, or a division of retired pay. A former spouse must be receiving at least one type of payment (i.e., division of property, alimony, or child support) from the designated agent and must provide the designated agent a garnishment writ to commence payments under this provision. See subparagraph 4.1.2 for more information.

3.6 Child Abuse Garnishments

Garnishment of a military retiree's retired pay in satisfaction of a judgment for physical, sexual or emotional abuse of a child under 18 years of age.

3.6.1. Subject to a court order, any payment of retired pay that would otherwise be made to a member shall be paid (in whole or in part) by the designated agent to another person as provided for in the terms of a child abuse garnishment order. The total amount payable under a child abuse garnishment order cannot exceed 25 percent of the member's disposable retired pay.

3.6.2. A court order providing for the payment of child support, alimony, or division of property, to the spouse or a former spouse of the member, is given priority over a child abuse garnishment order.

3.7 BRS Lump Sum Awards

3.7.1. A member who retires under the BRS has the option of electing to receive a lump sum of a portion of their retired pay (either 25 or 50 percent) as a "discounted present value of his or her retired pay." The lump sum amount is classified as retired pay and therefore is subject to division between a member and a spouse or former spouse pursuant to the provisions of a court order. A member has several options of how to receive the lump sum, including a number of annual payments. A spouse or former spouse who is entitled to receive a portion of those payments will be paid at the time the member receives each payment.

3.7.2. For a spouse or former spouse to receive a portion of lump sum payments made to a member pursuant to the member's election under the BRS, the designated agent must have received and approved the application for former spouse payments prior to the member's receipt of the lump sum amount. Lump sum payments will not be divided retroactively if the application for former spouse payments was not received prior to the members' receipt of the lump sum payment. For example, if the retiree elects to receive the lump sum amount in four annual payments, (June 2026, 2027, 2028, and 2029) but the former spouse does not submit an application for former spouse payments until January 2028, the designated agent upon approval of the application, will only divide the June 2028 and June 2029 annual lump sum payments. See ***10 U.S.C. § 1415*** and Chapter 3 for complete information on the BRS.

4.0 APPLICATION BY FORMER SPOUSE

4.1 Application Process

4.1.1. The former spouse must submit a completed DoD ***(DD) Form 2293***, Application for Former Spouse Payments From Retired Pay, and a certified copy of the court order awarding alimony, child support, or military retired pay. A court order for child support arrearages cannot be older than 2 years from the date the designated agent receives it. The court order must be certified by the clerk of the court that issued the order.

4.1.2. If the former spouse is applying for a property division other than a retired pay award, the former spouse must submit a garnishment order (writ of garnishment) in addition to the DD Form 2293 and the court order. To be eligible for payments under this section, a former spouse must be receiving at least one type of payment (i.e., division of property, alimony, or child support) from the designated agent.

4.1.3. The former spouse may mail the application to the appropriate designated agent given in paragraph 4.3 or may fax it to the number provided in paragraph 4.3. Please read the instructions and certification on the DD Form 2293 carefully.

4.2 Additional Documentation

4.2.1. A former spouse may need to provide additional documentation if the designated agent cannot determine whether the former spouse is eligible for USFSPA payments based solely on the DD Form 2293 and the court order. The designated agent may request additional

documentation to support the party's application or entitlement to continued eligibility for payment. Failure to timely submit additional documentation may result in suspension or termination of payments.

4.2.2. A person designated by the former spouse in a Power of Attorney (POA) form may assist the former spouse in completing the DD Form 2293 and in notifying the designated agent of address changes. However, a person designated in the POA form cannot change the payment account number. Only the former spouse can request such changes. Additionally, payments can only be made to the account in the name of the former spouse. A copy of a POA form that properly references entitlement of payments under USFSPA must be provided.

4.2.3. A person appointed by the court to hold fiduciary responsibilities over the estate and/or property of the former spouse may make address and account changes on behalf of the former spouse. A certified copy of the order (i.e., conservatorship and guardianship) must be provided within one year of the appointment or before the specified termination date.

4.3 Where to Send an Application for USFSPA Payments

The former spouse should send the application and all supporting documents to the following designated agent for the appropriate Uniformed Service.

4.3.1. For Army, Navy, Air Force, Space Force, and Marine Corps mail to:

DFAS Office of General Counsel
Attn: Garnishment Law Directorate
P.O. Box 998002
Cleveland, OH 44199-8002
Fax: 877-622-5930

4.3.2. For U.S. Coast Guard, Public Health Services, and National Oceanic and Atmospheric Administration mail to:

Commanding Officer (LGL)
Pay and Personnel Center
444 S.E. Quincy Street
Topeka, KS 66683-3591
Fax: 785-339-3788

4.4 When to Apply for USFSPA Payments

A former spouse may apply for payments any time after the court has issued a court order enforceable under the USFSPA. Although payments will not start under the USFSPA until after the member starts to receive retired pay, the designated agent can conditionally approve a former spouse's application prior to that, and retain the application pending the member's retirement.

4.5 Conditional Preapproval

4.5.1. If the former spouse applies prior to the member receiving retired pay, the designated agent will perform a legal review of the application, and may conditionally approve it based on information available at the time of the review concerning the member's duty status (active or Reserve).

4.5.2. At the time the member begins to receive retired pay, the designated agent will perform a second review prior to establishing the former spouse's direct payments. If the former spouse's award was based on a formula or hypothetical retired pay amount, and the member's status has changed since the initial legal review, it may be necessary to reject the application and require the former spouse to submit a clarifying order providing the necessary information. For example, if the formula or hypothetical award lists the Reserve retirement points, but the member retires from active duty, the designated agent will need a new court order that lists a valid active-duty formula. See paragraph 6.7 concerning formula awards and paragraph 6.8 concerning hypothetical retired pay awards.

5.0 NOTIFICATION

5.1 Notification to Former Spouse of Approval or Disapproval

Within 30 days of the date of receipt of a former spouse's application, the designated agent will notify the former spouse if his or her application has been approved or disapproved. If approved, the designated agent will state the month the former spouse's payments will tentatively begin. If the designated agent cannot approve the application, the notice will include an explanation regarding the reason(s) why.

5.2 Notification to the Member of Approval of an Application

If a former spouse's application is approved, the designated agent will notify the member affected within 30 days of the date of receipt of the application. The member will not be notified if the application is not approved.

5.3 Second Notice

If the designated agent notified the member as part of a conditional preapproval more than 90 days prior to the member's becoming entitled to receive retired pay, the designated agent will provide a second notice to the member when the designated agent establishes the former spouse's payments at the time the member begins to receive retired pay.

5.4 Contents of Notice to Member

5.4.1. The notice will explain that payments issued under the USFSPA cannot exceed 50 percent of the member's disposable retired pay (or 65 percent of the member's disposable pay when also withholding for an income withholding order issued pursuant to ***42 U.S.C. § 659***), and will contain the month that the payments will tentatively begin.

5.4.2. The notice will inform the member that he or she must notify the designated agent if the court order has been amended, superseded, or set aside.

5.4.3. The notice will inform the member that if he or she submits information in response to this notice, he or she consents to the disclosure of that information.

5.4.4. The notice will include a copy of the court order.

5.4.5. The notice will advise that the member's failure to respond within 30 days of the date that the notification is mailed may result in the payment of a portion of the member's retired pay to a spouse or former spouse as set out in the notice to the member.

5.5 How to Prevent USFSPA Payments From Starting

The member must provide documentary evidence that a former spouse's court order is legally defective or has been appealed, amended, or set aside. If the designated agent determines that the documentary evidence is sufficient to bar payments to a former spouse, the designated agent will not start the payments. The designated agent will then inform the former spouse that payments will not start and provide copies of the documentary evidence to the former spouse.

6.0 COURT ORDERS

6.1 Contents of Court Order

6.1.1. The court order must be regular on its face. This means that a court of competent jurisdiction issued the order and nothing on its face provides reasonable notice that it was issued without authority of law.

6.1.2. If the court order awarding child support or alimony appears on its face to conform to the laws of the jurisdiction from which it was issued, the designated agent will not be required to ascertain whether the court had obtained personal jurisdiction over the member.

6.1.3. The court order must award former spouse alimony, child support, or a retired pay award. There is no requirement in Federal law that specifies how military retired pay is to be divided.

6.1.4. If the order contains a retired pay award, that award must be expressed as a fixed dollar amount or as a percentage of disposable retired pay. A retired pay award expressed as a percentage will automatically receive a proportionate share of the member's cost-of-living adjustments (COLA), while one expressed as a fixed amount will not. There is no authority for a retired pay award to state a fixed dollar amount and also order COLAs. Retired pay awards phrased in that manner will be construed as a fixed dollar amount and will not receive COLAs.

6.1.5. The designated agent will construe percentage awards such as a percentage of gross retired pay, as a percentage of disposable retired pay regardless of the language in the order.

6.1.6. If the former spouse and the member were divorced before the member became entitled to receive military retired pay, the retired pay award may be expressed as a formula or hypothetical retired pay award in accordance with paragraphs 6.7 and 6.8. Since the computation of formula and hypothetical retired pay awards result in a percentage, they are considered a type of percentage award, and would automatically receive a proportionate share of the member's retired pay COLAs.

6.2 Divorces Finalized While the Member is Still on Active Duty

6.2.1. For court orders issued prior to December 19, 2003, the court order must show compliance with the member's rights under the Soldiers' and Sailors' Civil Relief Act of 1940 (50 U.S.C. Appendix 501 et. seq.).

6.2.2. For court orders issued on or after December 19, 2003, the court order must show that the member's rights under the Servicemembers Civil Relief Act ***50 U.S.C. § 3901*** et. seq. (formerly cited as 50 U.S.C. Appendix 501 et. seq.) were complied with.

6.3 Domestic Relations Order

There is no requirement in USFSPA that a former spouse submit a DRO, but the designated agent will accept one if it is submitted and if it meets the requirements of the USFSPA. If the divorce decree or dissolution order states a DRO was entered, it must be submitted to the designated agent unless a subsequent court order has been entered and provided.

6.4 Requirements Specific to a Retired Pay Award

6.4.1. In the case of a retired pay award, the designated agent must be able to determine from the court order that the court dividing military retired pay had jurisdiction over the member in one of the following ways:

6.4.1.1. The member resided in the territorial jurisdiction of the court at the time of the legal proceeding due to other than military assignment;

6.4.1.2. The court finds that member's domicile was in the territorial jurisdiction of the court at the time of the legal proceeding; or

6.4.1.3. The member consented to the jurisdiction of the court. If the court order does not "explicitly" state that the member consented to the court's jurisdiction, the designated agent will regard the member's participation in the legal proceeding, other than to contest the court's jurisdiction, as evidence of the member's consent to the court's jurisdiction in the proceeding dividing the member's military retired pay.

6.4.2. Also, in the case of a retired pay award, the designated agent must be able to determine from the application that the former spouse and the member were married for at least 10 years during which the member performed 10 years or more of service creditable toward retirement eligibility (the "10/10" requirement). The 10 years of creditable service is determined

exclusively by the designated agent upon the effective dates of marriage and divorce, dissolution, legal separation, or annulment. There is no "10/10" requirement for payment of alimony, child support awards, or child abuse garnishments under USFSPA.

6.5 State Law Jurisdiction

The satisfaction of state law jurisdictional requirements is not sufficient alone to satisfy the additional jurisdictional requirement stated in paragraph 6.4. If the court order states that it has USFSPA jurisdiction, it must state the basis for the finding, i.e., member's residence, member's domicile or member's consent. The designated agent will make a determination of whether the court order meets the additional jurisdictional requirements stated in paragraph 6.4.

6.6 Member's Consent to a Separation Agreement

If the member signed a separation agreement, the designated agent will presume that the member consented to the jurisdiction of any court that at any time incorporates the agreement into a court order.

6.7 Acceptable Formula Awards

6.7.1. If the former spouse's award is expressed in terms of a formula, all the variables needed to calculate the formula must be included in the court order, with the exception of a member's total number of months of creditable service or total number of Reserve retirement points, which the designated agent will provide in accordance with subparagraphs 6.7.2 and 6.7.3. If the order provides all the variables needed to do the calculation, including total months of military service or total Reserve retirement points, the designated agent will calculate the formula using the variables provided, even if the figure is different from the member's actual total. If the member disagrees with the number listed in the court order (i.e., the denominator), the member will have to petition the court to get the order corrected to show the member's actual total months or points of military service. If any needed variable besides the total number of months of creditable service or total number of Reserve retirement points is not provided in the order, the applicant will have to provide the designated agent with a clarifying court order, which provides the necessary variable. The designated agent will carry out any percentages derived from formulas to four decimal places.

6.7.2. If the court order requires the designated agent to supply the denominator of a marital or coverture fraction, and the member qualifies for an active duty (i.e., regular service) retirement, the formula award must be expressed in terms of whole months. The numerator and denominator of the formula fraction must specifically be provided in the court order. If needed, the designated agent will provide the denominator if the order states it represents the member's total number of months of creditable military service. If the denominator represents anything other than the member's total number of months of creditable service at the time of retirement (for example, number of months of creditable service as of the date of the separation or divorce), the designated agent is unable to provide it. Any days or partial months of service will not be considered. If the award is expressed in terms of years instead of months, the designated agent will convert years into whole months by rounding down to the nearest month.

6.7.3. If the court order requires the designated agent to supply the denominator of a marital or coverture fraction, and the member qualifies for a Reserve (i.e., non-regular service) retirement, the formula award must be expressed in terms of Reserve retirement points. In the case of a Reserve retirement, the numerator and denominator of the formula fraction must specifically be provided in the court order. If needed, the designated agent will provide the denominator if the order states it represents the member's total number of Reserve retirement points at the time of retirement. If the denominator represents anything other than the member's total Reserve retirement points at the time of the retirement (for example, Reserve retirement points as of the date of divorce), the designated agent is unable to provide it. The designated agent cannot honor a formula award for a member that qualifies for Reserve retirement that is expressed in terms of whole months, even if both the numerator and denominator are provided.

* 6.7.4. The sample Military Retired Pay Division Orders (see Figures 29-3, 29-4, 29-5, and 29-6) provide examples of acceptable formula award language. All the blanks in the sample awards represent variables that must be provided in the court order. The sample language is not required, but any award expressed using the applicable sample language will be acceptable.

Example of active-duty formula: The court order awarded the former spouse a percentage of the member's disposable retired pay calculated by multiplying 30 percent times a fraction, where the numerator is 151 months of marriage during creditable military service, and the denominator is the member's total months of active-duty service. The member later retired with 20 years (or 240 months) of creditable service. The former spouse's award would be computed as follows: 30% x 151 months/240 months = 18.8750%. The designated agent would pay 18 percent of the member's disposable retired pay.

Example of reservist formula: The court order awarded the former spouse a percentage of the member's disposable retired pay calculated by multiplying 50 percent times a fraction, where the numerator is 2560 reserve points, and the denominator is the member's total reserve points creditable toward retirement. The member later retired with 5899 total reserve points. The former spouse's award would be computed as follows: 50% x 2560 points/5899 points = 21.6986%. The designated agent would pay 21.6986% percent of the member's disposable retired pay.

6.8 Hypothetical Retired Pay Awards

6.8.1. Military retired pay is computed at the time the member retires, and it is based on two possible methods depending on when the member initially enters service. It will either be computed by using the member's rank and total years of service at the time of retirement, or the member's retired pay base, also known as high-3 (highest 36 months of earnings), and total years of service at the time of retirement. For members who entered military service before September 8, 1980, the member's rank is used. For members who entered military service on or after September 8, 1980, the member's retired pay base (high-3) is used.

6.8.2. A hypothetical retired pay award determines the amount awarded to a former spouse by using retirement information different from what will exist at the time a member actually retires. Typically, the court will use variables to determine the retired pay award as though the member

had retired at the time of the court order dividing military retired pay or some other date prior to the member's actual retirement. In this manner, the former spouse is awarded a portion of the member's retirement without accounting for promotions or service completed after the date of the order.

6.8.3. The hypothetical retired pay amount is calculated by multiplying the hypothetical retired pay multiplier (see subparagraph 6.8.4) times the hypothetical retired pay base (i.e., the member's active duty pay based on their rank and years of service or the average of their monthly pay for their highest 36 months of pay; their "high-3"). If the initial retired pay computation is not a multiple of $1, it is rounded down to the next lower multiple of $1. See Chapter 3 for retired pay calculations.

6.8.4. Retired Pay Multiplier

6.8.4.1. The standard retired pay multiplier is 2.5 percent multiplied by the member's years of creditable service. This means that a member will receive 2 ½ (2.5) percent for every year served (unless the member entered under, or switched to, the BRS).

For example, the retired pay multiplier for an active-duty member who serves 20 years will be 50 percent (2.5% x 20 years = 50%).

In the case of a hypothetical retired pay award, the hypothetical retired pay multiplier is determined by multiplying 2.5 percent times the hypothetical years of creditable service provided in the court order. The hypothetical years of creditable service must only include years and full months. If the figure provided in the court order includes days of service, the designated agent will round down to the nearest month. For example, if the hypothetical years of service provided is 14.57, since this figure includes more than 14 years, 6 months of service but not enough for 14 years, 7 months of service, 14 years, 6 months (or 14.5) will be used for the calculation. See paragraph 2.5. The resulting percentage is rounded to two decimal places. See Chapter 3 for retired pay calculations.

6.8.4.2. For members who retire under the BRS, the retired pay multiplier is 2 percent multiplied by the member's years of creditable service.

6.8.4.3. A hypothetical retired pay award for a reservist must be expressed in terms of Reserve retirement points rather than years of creditable service. The Reserve retirement points are converted into years of creditable service by dividing the Reserve retirement points on which the award is based by 360. The resultant figure is carried to three decimal places; then rounded to two. (See Chapter 3.) This resultant figure is used to compute the hypothetical retired pay multiplier. For example: 5,258 Reserve retirement points would convert to 14.61 years of service for multiplier purposes (5,258 points/360 = 14.61 years).

6.8.5. Retired Pay Base

6.8.5.1. For members entering military service before September 8, 1980, the retired pay base is the member's basic pay at retirement based on the member's rank and years of service for basic pay purposes. See Chapter 3. When computing a hypothetical award for one of these members, their hypothetical retired pay base would usually be their basic pay as of the hypothetical retirement date.

* 6.8.5.2. For members entering military service on or after September 8, 1980, the retired pay base is the average of the member's highest 36 months of basic pay at retirement (high-3 amount). See Chapter 3. For active-duty members, their hypothetical retired pay base would usually be the average monthly basic pay for the 36 months (whether or not consecutive) out of all the months of active service of the member prior to the hypothetical retirement date. For reserve members, their hypothetical retired pay base would usually be the average monthly basic pay for the 36 months preceding their hypothetical retirement date, as if the member had served on active duty during that entire 36 months (not necessarily the 36 months prior to the end of drilling as it is dependent upon the specified hypothetical date for the computation). Reserve members can consult published pay tables if they are not currently drilling to determine what their 36 months of pay would have been at the time of the hypothetical retirement date (i.e., date of division as determined by the court). If the court order provides the annual amount of retired pay base (high-3), the designated agent will convert it to a monthly amount by dividing the yearly amount by 12 to arrive at the monthly average.

Note: The retired pay base is not the member's actual monthly military retired pay amount.

6.8.6. In order to enable the designated agent to calculate the hypothetical retired pay amount, the court order must provide:

6.8.6.1. The percentage the former spouse was awarded;

6.8.6.2. The hypothetical years of creditable service, or, in the case of a reservist, the Reserve retirement points on which the hypothetical retired pay is to be based;

6.8.6.3. The hypothetical retired pay base (high-3). In the case of members entering military service before September 8, 1980, the court order may provide either the member's hypothetical retired pay base or the member's hypothetical rank and years of service for basic pay purposes; and

6.8.6.4. The hypothetical retirement date.

6.8.7. For members whose divorce, dissolution, legal separation, or annulment was effective on or before December 23, 2016, (the effective date of the NDAA 2017), if the court intends that the hypothetical retired pay be calculated based on the pay tables in effect at the time the member becomes entitled to receive military retired pay, the designated agent will use as the retired pay base either the basic pay for the hypothetical rank and years of service as of the date

the member becomes eligible to receive retired pay, or the member's actual retired pay base, whichever is lower. The court order must provide:

6.8.7.1. The percentage the former spouse is awarded;

6.8.7.2. The hypothetical years of creditable service, or, in the case of a reservist, the Reserve retirement points on which the hypothetical retired pay is to be based and the member's years of service for basic pay purposes;

6.8.7.3. The member's hypothetical rank; and

6.8.7.4. An unequivocal statement that the calculation is to be made as of the member's actual retirement date.

6.8.7.5. If the court order awards a Reserve hypothetical calculated as of the time the member attains age 60, but the reserve member begins to receive retirement pay earlier based upon the Reduced Retirement Age provision of NDAA 2008, the designated agent cannot pay the former spouse until the member turns age 60. Additionally, the designated agent cannot compute the award if the member has not turned 60 years of age because the pay tables for a future date are not published until that date.

The applicant will need to either wait until the member turns age 60 to start receiving the division of property award or obtain a clarifying court order.

6.8.8. If the award language is missing any necessary variables, the court will have to clarify the award. See the sample Military Retired Pay Division Order (Figures 29-1 and 29-2) for examples of acceptable hypothetical retired pay award language.

6.8.9. All percentage hypothetical retired pay awards will be converted into a percentage of a member's actual retired pay according to the following example:

> The court order awarded the former spouse 50 percent of the disposable retired pay the member would have received had the member retired with 17 years of creditable service, a retired pay base of $2,200.00 per month, and a hypothetical retirement date of June 1, 1999. The member actually retired on June 1, 2002, with 20 years of creditable service, a retired pay base of $2,400.00 per month, and an initial gross retired pay of $1,200.00 per month (2.5% x 20 years = 50%; 50% x $2,400.00 = $1,200.00).
>
> First, the designated agent will calculate the member's hypothetical retired pay multiplier, which in this example is 42.5 percent (2.5% x 17 years = 42.5%).
>
> Next, the designated agent will calculate the hypothetical retired pay amount, which in this example is $935.00 per month (42.5% x $2,200.00 = $935.00).

Then, the designated agent will apply retired pay COLAs to the hypothetical retired pay amount from the hypothetical retirement date to the date the member became eligible to receive retired pay. COLAs will only be applied to computations in cases in which the parties' legal separation or divorce were effective January 1, 2009, or later, unless the court order specifically states that COLAs are not to be added to the hypothetical computation (with the exception of NDAA). COLAs are statutorily required to be included in all NDAA cases, regardless of what the court order states.

This calculation will determine the present value of the hypothetical retired pay as of the member's actual retirement date. In this case, if the member had become eligible to receive retired pay on June 1, 1999, the hypothetical retirement date, the hypothetical retired pay, after adding the COLAs, would have been $1,008 per month on June 1, 2002, the actual retirement date.

In these examples, the addition of the partial annual COLAs would be as follows:

Year	COLA	Formula
12/1/1999	1.7 percent	$935.00 x 1.017 = $950.00 (rounded down)
12/1/2000	3.5 percent	$950.00 x 1.035 = $983.00 (rounded down)
12/1/2001	2.6 percent	$983.00 x 1.026 = $1,008.00 (rounded down)

Finally, the designated agent will convert the former spouse's percentage of hypothetical retired pay to a percentage of the member's actual retired pay as follows: 50% x 1,008.00/$1,200.00 = 42%. (All percentages derived from hypothetical computations will be carried out to four decimal places if applicable without rounding). In this example, 42 percent is the amount that the designated agent would enter into the retired pay system as the spouse/former spouse's retired pay award.

6.8.10. The military retired pay of a post-July 1986 member who has accepted a Career Status Bonus (CSB) is calculated using a reduced multiplier. (See Chapter 3.) However, when computing a retired pay award based on a hypothetical, the CSB member's hypothetical retired pay will be calculated using the standard multiplier. The retired pay of a member who has accepted a CSB will be recomputed using a standard multiplier effective the first day of the month after the member attains age 62. The former spouse's percentage will also be adjusted at the same time in accordance with subparagraph 6.8.8, using the member's recomputed retired pay in the denominator of the conversion fraction. This adjustment will result in a lower percentage being applied to a higher disposable pay figure, and will ensure that the former spouse continues to receive the amount intended in the court order.

6.8.11. When computing hypothetical awards for members under the BRS the former spouse's hypothetical award (percentage) will be calculated in accordance with subparagraph 6.8.8. However, since the actual military retired pay for members who retire under the BRS is calculated using the 2 percent multiplier, the BRS member's hypothetical retired pay will also be calculated using the 2 percent multiplier. Additionally, the designated agent will use the unreduced gross retired pay in the denominator of the conversion fraction, even if the member elects to receive a lump sum payment. Using the unreduced gross retired pay for the denominator

ensures that the numerator and denominator are computed in an equalized manner (i.e., the same variables are used and one is not reduced).

6.9 Orders Issued Before June 26, 1981, That Did Not Divide Retired Pay

Any court order that contains a retired pay award that was issued before June 26, 1981, will be honored if it otherwise satisfies the requirements and conditions shown in this chapter. If a pre-June 26, 1981 decree or property settlement incident to the decree did not divide the member's military retired pay, and did not reserve jurisdiction to divide it, the designated agent cannot honor an application for payment based on a subsequent order issued on or after June 26, 1981 dividing retired pay as property.

6.10 Survivor Benefit Plan (SBP) Premium

6.10.1. Pursuant to ***10 U.S.C. § 1452***, the SBP premium must be deducted from the member's retired pay. The SBP premium cannot be deducted from the former spouse's portion of the member's retired pay. Any provision in a court order stating that the premium should be deducted from the former spouse's portion is unenforceable by the designated agent. Any adjustments between the parties for the SBP premium payment will need to be made outside of the stated procedures. However, those adjustments will not be considered by the designated agent when computing the retired pay award.

6.10.2. SBP premiums for members who elect a lump sum payment, or payments will not be collected from the lump sum payment. Premiums will be deducted from the portion of retired pay that the member receives as regular retired pay after the lump sum payment. For more information on SBP premiums and BRS see Chapters 3, 42, and 45.

Note: A court order associated with a divorce that requires a retired member to establish former spouse SBP coverage is not self-executing. If a former spouse seeks to be deemed as the former spouse SBP beneficiary (to commence or continue SBP coverage after a divorce) (s)he must complete a DD Form 2656-10 ("Survivor Benefit Plan (SBP) Former Spouse Request for Deemed Election")) and submit it along with a copy of the relevant court order, within one year of the order requiring the member to elect former spouse coverage. See Volume 7B, Chapter 43, subparagraph 4.4.3 and paragraph 5.2.

6.11 Conflicting Retired Pay Awards

6.11.1. If the designated agent is served with court orders issued by different jurisdictions which contain conflicting valid awards enforceable under the USFSPA, the designated agent will deduct an amount equal to the largest amount required to be paid to the former spouse by either order, but will pay to the former spouse the least amount directed to be paid. The designated agent will retain the difference between the upper and lower ordered amounts until served with an order certified by the member and former spouse to be valid, and then pay the retained funds in accordance with the order.

6.11.2. If the designated agent is served with a court order containing conflicting retired pay award language within the same court order, or two orders issued on the same date that do not contain a time stamp, the designated agent will pay the former spouse the lower award amount; if the orders contain a time stamp, the order issued last controls. If the same court order contains valid award language and invalid award language, the designated agent will pay the former spouse in accordance with the valid award language. If one of the parties disagrees with the amount being paid, that party must provide the designated agent with a new court order stating the correct amount.

6.12 Court Orders Modifying Retired Pay Awards

6.12.1. If the designated agent is served with a court order containing valid award language in accordance with this chapter and the USFSPA, that modifies or clarifies a retired pay award, the designated agent will implement the order issued most recently. The order with valid award language issued most recently supersedes all prior orders.

6.12.2. If the designated agent is served with a court order containing valid award language that modifies or clarifies a retired pay award that was issued by a court of a state other than the state that issued the prior court order, the designated agent may implement the new order containing valid award language only if the court issuing this order had jurisdiction over both the member and former spouse in the manner specified in subparagraph 6.4.1.

6.12.3. If the designated agent is served with a court order containing invalid award language that modifies or clarifies a retired pay award and the order does not vacate or set aside a prior order with valid award language, the designated agent will enforce or continue to honor the prior valid court order. If the designated agent is served with a subsequent court order containing invalid award language that vacates or sets aside a prior order with valid award language, the designated agent will terminate former spouse payments until served with a subsequent order containing valid award language.

6.13 Conditional Awards

The designated agent cannot honor a court order that makes the former spouse's payments conditional on the occurrence of some other event. There is no authority for the designated agent to ascertain whether a condition in a court order has been satisfied. The former spouse will need to obtain a modified court order without the condition.

6.14 Awards Based on Retired Pay Accrued During Marriage

The designated agent cannot honor awards based on the value of the member's retired pay that has "accrued" during the marriage because military retired pay does not accrue over time. Military retired pay is not a pension. Rather, it is a statutory entitlement computed at the time the member retires and it is based on the member's rank and total years of service at the time of retirement, or member's high-3 and total years of service.

6.15 Awards of a Percentage of the Marital Portion

The designated agent cannot honor an award of a percentage of the "marital portion" or "marital share" of a member's retired pay or as of a particular date or time period, unless the court order also provides all variables necessary for the calculation of the marital portion/share/time period. See paragraphs 6.7 and 6.8 for examples.

6.16 Factual Errors in Court Orders

If a party submits documentary evidence that shows a factual error in a court order, this will not be sufficient to modify or stop payments being made pursuant to the court order. Subject to compliance with existing law, if a court order provides elements needed to calculate a former spouse award, including but not limited to, formulas, hypotheticals, and/or NDAA awards, the designated agent will use the elements provided even if the elements vary from the member's actual figures and result in a different percentage (higher or lower) than the parties set forth in the court order. The party asserting the error must petition the court to correct the order. The designated agent does not have the authority to correct errors in court orders.

7.0 DISPOSABLE RETIRED PAY

7.1 Disposable Retired Pay for Regular and non-Regular Retirements

7.1.1. Disposable retired pay is defined by the USFSPA as a member's total monthly retired pay (gross pay) entitlement minus authorized deductions. See 10 U.S.C. § 1408(a)(4).

7.1.2. If the former spouse and member were divorced on or before February 2, 1991, then USFSPA authorizes the following deductions:

7.1.2.1. Amounts owed to the United States;

7.1.2.2. Amounts withheld as Federal and state income tax withholding, consistent with the member's current actual tax liability;

7.1.2.3. Fines and forfeitures ordered by a court-martial;

7.1.2.4. Amounts waived in order to receive compensation under Titles 5 or 38 of the U.S.C.;

7.1.2.5. SBP premiums paid, but only if the former spouse applying for a retired pay award payment under USFSPA is the beneficiary of the SBP; and

7.1.2.6. The amount of retired pay for a member retired under Title 10, Chapter 61 computed based on percentage of disability.

7.1.3. If the former spouse and member were divorced on or after February 3, 1991, then the USFSPA authorizes the following deductions:

7.1.3.1. Amounts owed to the United States due to the overpayment of retired pay, or amounts required to be recouped due to the member's entitlement to retired pay;

7.1.3.2. Fines and forfeitures ordered by a court-martial;

7.1.3.3. Amounts waived in order to receive compensation under Titles 5 or 38 of the U.S.C.;

7.1.3.4. SBP premiums paid but only if the former spouse applying for a retired pay award payment under USFSPA is the beneficiary of the SBP; and

7.1.3.5. The amount of retired pay for a member retired under Title 10, Chapter 61 computed based on percentage of disability.

*7.2 Computing Disposable Retired Pay for Disability Retirements

Pursuant to the Defense Office of Hearings and Appeals decision in Claims Case Number 2016-CL-091608-3, military retired pay that is paid concurrently with Department of Veterans Affairs (VA) disability compensation, formerly referred to as "Concurrent Retired and Disability Pay, is disposable pay subject to division under the USFSPA.

7.2.1. Effective January 1, 2004, pursuant to PL 108-136, div. A, title VI, § 641(e) (November 24, 2003), codified at 10 U.S.C. § 1414 certain retired members may receive both disability compensation from the VA and military retired pay concurrently. When a retired member qualifies for concurrent payments, the military retired pay provided to the member must be included in the member's gross retired pay.

7.2.1.1. The retired pay paid concurrently with VA disability compensation pursuant to 10 U.S.C. § 1414(a),(b) is disposable retired pay and divisible under 10 U.S.C. § 1408(a)(4). See Chapter 64, paragraph 5.2.

7.2.2. Members who retired under Title 10, Chapter 61 but do not have a disability rating of 50 percent or higher as determined by the Secretary of Veterans Affairs or do not have at least 20 years of creditable service, are not entitled to payment of both retired pay and VA compensation under 10 U.S.C. § 1414 and their disposable retired pay is not divisible under 10 U.S.C. § 1408(a)(4).

7.3 Other Deductions Included in Court Order

If a court order directs the use of deductions other than those authorized in paragraph 7.1 to compute the former spouse's award, that provision of the court order is unenforceable. The designated agent will use only the deductions authorized in paragraph 7.1 for the computation of disposable retired pay.

8.0 DISPOSABLE RETIRED PAY UNDER NDAA FY 2017

8.1 Application of section 641 of the NDAA FY 2017

The NDAA FY 2017, PL 114-328 section 641, amended the 10 U.S.C. § 1408(a)(4) by clarifying that the division of property is to be calculated based on the date of the divorce decree, dissolution, annulment, or legal separation. This provision applies to divorces, dissolutions, annulments, and legal separations effective after December 23, 2016, that award the former spouse a retired pay award and:

8.1.1. That occur prior to an active-duty member becoming entitled to military retirement pay, or

8.1.2. That occur prior to a reserve member becoming entitled to retired pay (generally 60).

Note: If a member retires from active duty and divorces after he/she retires, NDAA does not apply. Additionally, if a reserve member has started to receive retirement pay or is eligible to start receiving retired pay (generally age 60) and divorces after this date, NDAA does not apply.

8.2 NDAA FY 2017 Disposable Pay Limits

In addition to the definition of Disposable Retired Pay in paragraph 7.1, and the authorized deductions in subparagraph 7.1.2, section 641 of the NDAA FY 2017 also limits disposable retired pay as follows:

8.2.1. The amount of retired pay is limited to that which the member would have been entitled using the member's retired pay base (rank or high-3) and years of service on the date of the final decree of divorce, dissolution, annulment, or legal separation; and

Note: The statute limitation is "no later than the date of the final decree of divorce, dissolution, annulment, or legal separation. For example, if the parties were divorced on October 1, 2024, but the court order states "the member's high-3 was $5,540 and had 17 years of service as of June 1, 2022 (date the parties separated)" this is acceptable.

8.2.2. Increased by any COLA awards added from the effective date of divorce, dissolution, annulment, or legal separation to the member's date of retirement. A provision in a court order purporting to restrict COLAs from being applied to a former spouse's award of retired pay is not enforceable and will not be honored.

8.3 Variables Required to Calculate the NDAA FY 2017 Disposable Retired Pay

In order to enable the designated agent to calculate disposable retired pay amount in accordance with the NDAA FY 2017, the court order must provide the variables listed in subparagraphs 8.3.1 or 8.3.2. See Figures 29-1 and 29-2 for examples of acceptable NDAA FY 2017 required language.

8.3.1. If the member entered the service before September 8, 1980:

8.3.1.1. The fixed amount, the percentage, the formula, or the hypothetical award that the former spouse is granted;

8.3.1.2. The member's pay grade (rank) at the time of divorce, dissolution, legal separation, or annulment; and

8.3.1.3. The member's years of creditable service, on the date of divorce, dissolution, annulment, or legal separation. In the case of a reservist, the Reserve retirement points, on the date of divorce, dissolution, annulment, or legal separation and years of creditable service for basic pay purposes.

8.3.2. If the member entered the service on or after September 8, 1980:

8.3.2.1. The fixed amount, the percentage, the formula, or the hypothetical award that the former spouse is granted;

8.3.2.2. The member's retired pay base (high-3) amount at the time of divorce, dissolution, legal separation, or annulment (the actual dollar figure); and

8.3.2.3. The member's years of creditable service, on the date of divorce, dissolution, annulment, or legal separation. In the case of a reservist, the Reserve retirement points, on the date of divorce, dissolution, annulment, or legal separation.

*8.4 Clarification Order

The variables necessary to compute a retired pay award (such as formulas, hypotheticals, and NDAA cases) must all be contained in the same court order. If the award language in the court order is missing any of the required variables, then the applicant will need to obtain a clarifying court order that provides the variables. The designated agent cannot combine elements from different court orders or agreements, unless incorporated, to compute the award as the order enforced must stand on its own.

9.0 STARTING PAYMENTS

9.1 Starting Payments

If the former spouse's application is approved, payments will start no later than 90 days after the date the designated agent received the former spouse's complete application, or no later than 90 days after the date the member becomes entitled to receive military retired pay, whichever is later.

9.2 Timing of Payments

Payments will be issued in conformity with normal pay and disbursement cycles, which mean that payments will be issued monthly. Payments will be deducted from the month's pay and paid on the first business day of the following month. For example, a payment issued for the month of March would be sent at the beginning of April.

10.0 PAYMENT AMOUNT

10.1 Limitations

10.1.1. If the spouse or former spouse applies for payments under the USFSPA only, the maximum amount a former spouse can receive is 50 percent of the member's disposable retired pay.

10.1.2. If the spouse or former spouse applies for payments under the USFSPA and there is also a garnishment order for support, the maximum amount that can be paid toward both obligations is 65 percent of the member's disposable earnings calculated in accordance with 42 U.S.C. § 659 (child and spousal support statute) and its implementing regulation.

10.1.3. For garnishments for property other than a retired pay award, the maximum amount payable is 25 percent of disposable earnings in accordance with ***15 U.S.C. § 1673***.

10.1.4. In the event a member receives a retroactive award for Disability Compensation (under Title 38 of the U.S. Code) or a retroactive award for Combat-Related Special Compensation (under ***10 U.S.C. § 1413a***), the payments of retired pay previously made to a former spouse pursuant to a valid court order that were proper when paid do not become erroneous overpayments.

10.2 COLA

If a retired pay award is expressed as a percentage of disposable retired pay, the former spouse will automatically receive a proportionate share of the member's COLAs regardless of any language in a court order to the contrary. Formula and hypothetical retired pay awards are considered a type of percentage award, and thus will automatically include a proportionate share of the member's COLAs. If the retired pay award is a fixed amount, COLAs cannot be added, even if awarded in the court order, and the former spouse's payments will remain fixed. In an NDAA applicable case, COLAs will be added to the disposable income calculation on all awards regardless of what the court order states. Also, the former spouse will automatically receive a proportionate share of the member's COLAs on all NDAA applicable cases in which the award is a percentage, formula, or hypothetical regardless of what the court order states.

10.3 Offset of Former Spouse's Payment for Garnishment or Other Obligation

A former spouse's payment cannot be offset or garnished by the designated agent for any legal obligation, including child support owed to the member.

11.0 PRIORITY OF PAYMENTS

11.1 Multiple Awards

If a court order includes multiple types of awards to a former spouse, the former spouse may designate the priority of payments on the DD Form 2293. If the former spouse does not specify otherwise, the designated agent will pay the retired pay award first, child support second and spousal support third.

11.2 Multiple Former Spouses

If the designated agent is served with applications from more than one former spouse, the designated agent will honor the applications on a first-come, first-served basis. Subsequently served USFSPA applications shall be satisfied out of the disposable retired pay that remains after the satisfaction of all previously served court orders, subject to the limitations of paragraph 10.1.

11.3 Garnishment Orders for Support and Applications Under USFSPA

If the designated agent is served with both a garnishment for support and an application under USFSPA, the designated agent will pay whichever is served first. If the garnishment is served first and is payable directly to the former spouse, the former spouse may reverse the priority of payments by instructing the designated agent to pay the division of property first and then pay the support under a non-IV-D agency order. The designated agent will not change the priority of payments between a division of property award and a support garnishment if the garnishment was served by an IV-D agency unless the agency agrees to withdraw (terminate) the support order in order to allow the division of property award to have priority over the support order.

12.0 STOPPING PAYMENTS

12.1 Erroneous Payment Information From Former Spouse

The former spouse has a continuing duty to provide the designated agent with correct payment instructions and current contact information. If a former spouse's payments are returned due to erroneous payment instructions (i.e., invalid address or incorrect account number for direct deposit payments), the designated agent will send notice to the last known correspondence address that, unless new payment instructions are received within 30 days of the date of the notice, payments will stop. If the former spouse submits new payment instructions after the payments have terminated, the designated agent will restart the payments on a current basis, and will not make up any missed payments.

12.2 Termination and Suspension of Retired Pay Award Payments

12.2.1. Unless the court order specifies a termination date or event, payments will stop upon the designated agent's receipt of notice of the death of either party. Payments will be prorated for the month of the death of either party.

12.2.2. Unless the court order specifies that payments terminate upon the former spouse's remarriage, retired pay award payments will not stop upon the designated agent's receipt of notice of the former spouse's remarriage. Please note, this provision does not apply to circumstances where the former spouse is receiving payments under 10 U.S.C. § 1408(h).

12.2.3. If the designated agent is served with an order staying payments, the designated agent will stop the payments until served with an order indicating that the former spouse's payments are to resume.

12.2.4. If the designated agent has already started payments and is served with documentation showing that an appeal of the order has been filed within the forum state's appeal timeframe, payments will terminate. The designated agent will not recoup any payments already issued. A former spouse can provide documentation evidencing finality of the appeal and any subsequent court orders, if applicable, for reestablishment of payments.

12.2.5. A former spouse may stop payments under USFSPA by sending the designated agent a letter with his or her signature notarized withdrawing their application for payments under the USFSPA. A former spouse can later reapply for payments by submitting a new DD Form 2293 and a certified copy of the court order that awards him/her the division of military retired pay.

12.2.6. If the designated agent has already started payments and the member goes into a non-pay status (thus is no longer receiving pay from DFAS), payments will stop. If the member goes back into a pay status, payments will resume.

12.3 Termination of Child Support Payments Under USFSPA

Child support payments will stop in accordance with the provisions of the court order. If the court order is silent as to when the payments should stop, payments will stop in accordance with the law of the state that issued the court order. The member has the burden of providing sufficient documentation to justify stopping payments on or before a child's age of majority. The former spouse has the burden of providing sufficient documentation to justify continuing payments after a child's age of majority.

12.4 Termination of Alimony Payments Under USFSPA

Alimony payments will stop in accordance with the provisions of the court order. If the court order is silent as to when the payments should stop, payments will stop in accordance with the law of the state that issued the court order, or upon receiving a court order terminating the alimony payments. (NOTE: The law of some states does not provide that an alimony obligation automatically terminates upon a former spouse's remarriage. For such states, a court order terminating the alimony will need to be provided.) If the designated agent does not already have sufficient documentation to stop payments, additional evidence such as a marriage certificate will be required.

12.5 Payments and Bankruptcy

Absent a court order, there is no authority to stop a former spouse's retired pay award, current and arrearage child support payments, and current spousal support payments, if a member files bankruptcy.

12.6 Certification of Eligibility

The designated agent may request that a former spouse submit a signed certification of continued eligibility to receive payments under USFSPA. The certificate of eligibility should include notice of a change in status or circumstance that affects eligibility, if any such change exists. If the former spouse fails or refuses to comply with the certification requirement, the designated agent may stop the payments after notice to the former spouse.

13.0 RETIRED PAY ARREARS OWED A DECEASED FORMER SPOUSE

13.1 Applicability

This section applies to the settlement of arrears of a retired pay award that may be due a deceased former spouse pursuant to a previous application for direct payment completed under section 4.0. Arrears of a retired pay award may result from prorating a member's disposable retired pay for the month of the former spouse's death, from checks not negotiated before the former spouse's death, or the designated agent's failure to establish and/or make payments to the former spouse in the correct amount prior to the former spouse's death for a period that the former spouse was entitled to a property division.

13.2 Processing of Death Notice

To settle the arrears of retired pay owed a deceased former spouse, the following documentation must be on file:

13.2.1. Copy of Death Certificate. A notification of death from any source (next of kin, post office, or neighbor) is sufficient to suspend future payment of the retired pay award. However, an official copy of a certificate of death for the former spouse is required before the arrears of a retired pay award are paid under this section.

13.2.2. Written Claim. A written claim must contain the claimant's signature and address, or that of the claimant's authorized agent or attorney. A ***Standard Form 1174***, Claim for Unpaid Compensation of Deceased Member of the Uniformed Service, is not required, but may be used for this purpose, as long as the claim specifies the claimant's relationship to the deceased former spouse and documents other living relatives of the deceased former spouse.

13.2.3. Additional Documentation as Required. A claimant may be required to submit any additional documentation the designated agent deems necessary to establish the claimant's status and entitlement to the retired pay award arrears including, but not limited to, marriage certificates,

birth certificates, divorce decrees, or other documentation that validates the living beneficiaries of a former spouse in any class of persons entitled to the arrears pursuant to paragraph 13.4.

13.3 Recoupment of Outstanding Payments

All outstanding checks or direct deposits (not negotiated before the former spouse's death or made after the former spouse's death) or the proceeds thereof must be returned to the designated agent before a settlement of arrears may be made.

13.4 Payment of the Arrears

Former spouse payments from retired pay are prorated for the month of the former spouse's death. When all documentation has been received and all outstanding payments have been recouped, payment of the arrears is made to the person living on the date of the former spouse's death who is highest on the order of precedence set forth in Chapter 30. For the purpose of payment of arrears under this paragraph, the provisions of Chapter 30, subparagraphs 2.4.3, 2.4.4, and 2.4.5 apply, and all references to a "retiree" in subparagraphs 2.4.1.2 through 2.4.1.6, 2.4.3, 2.4.4, and 2.4.5 should be considered as referring to a deceased former spouse rather than a retiree.

13.5 Indebtedness Resulting From Overpayment to a Former Spouse

Any indebtedness resulting from overpayment to a deceased former spouse must be liquidated before retired pay award arrears can be settled.

13.6 Claim for Arrears

A claim for arrears must be filed within the 6-year statute-of-limitation restriction. See ***31 U.S.C. § 3702(b)(1)***. Any claim received 6 years after the date of the former spouse's death is barred.

13.7 Taxability

In the case of deceased former spouses, one or more ***Treasury Department (TD) Forms 1099-R***, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., may be used. If no former spouse arrears are paid, one TD 1099-R will be issued in the former spouse's name to cover any entitlement through date of death. If arrears are paid, an additional TD 1099-R is issued to each claimant to whom the arrears were paid.

14.0 ADMINISTRATIVE APPEAL PROCESS

14.1 Either Party Disagrees

If either party disagrees with the designated agent's determination concerning a former spouse's entitlement to payments under the USFSPA, that party may request reconsideration by writing to the designated agent. If the party requesting reconsideration asserts that the designated

agent has erroneously overpaid the other party, the request for reconsideration will be considered a claim against the designated agent. An attorney will review the request and issue a decision in writing.

14.2 Party Requesting Reconsideration Disagrees

If the party requesting reconsideration disagrees with the attorney's determination, that party may submit an appeal to the designated agent, which must be received within 30 days of the date of the initial determination. The designated agent will forward the appeal to the Defense Office of Hearings and Appeals for their decision.

14.3 Additional Information

Parties are referred to DoD Instruction ***(DoDI) 1340.21***, Procedures for Settling Personnel and General Claims and Processing Advance Decision Requests, for additional information concerning the submission of claims and appeals.

15.0 LIABILITY

15.1 Payments Made in Accordance With the USFSPA

Neither the United States nor any employee of the United States shall be liable regarding any payment made from retired pay to a retiree or former spouse pursuant to a court order that is regular on its face, if such payment is made pursuant to the USFSPA.

15.2 Designated Agent Liability

If the designated agent processes a former spouse's USFSPA application and administers the former spouse's payments in accordance with the USFSPA and in accordance with all documentation in its files, the designated agent is not liable for any former spouse payments issued after a former spouse's eligibility to receive payments has ended. Nor is the designated agent liable for any payments that the former spouse may have been entitled to prior to the designated agent's beginning direct payments pursuant to the former spouse's USFSPA application.

Petitioner

_____
Respondent

MILITARY RETIRED PAY DIVISION ORDER

This cause came before the undersigned judge upon the petitioner/respondent's claim for a distribution of the respondent/petitioner's military retired pay benefits. The court makes the following:

FINDINGS OF FACT:

The Petitioner's Social Security Number is _____ and current address is _____.

The Respondent's Social Security Number is _____ and current address is _____.

The Parties were married on _____. Their marital status was terminated on _____ pursuant to a(n) _____entered in _____ County, State of _____. This current order is entered incident to the aforementioned order.

The parties were married for a period of ten or more years during which time the Petitioner/Respondent performed at least ten years of service creditable for retirement eligibility purposes.

If the military member was on active duty at the time of this order, Respondent/Petitioner's rights under the Service Members' Civil Relief Act, 50 U.S.C. App. 501-548 and 560-591, have been observed and honored.

This court has jurisdiction over the Respondent/Petitioner by reason of [**choose** those that apply] (A) his or her residence, other than because of military assignment, in the territorial jurisdiction of the court, during the [divorce, dissolution, annulment, or legal separation] proceeding, (B) his or her domicile in the territorial jurisdiction of the court during the [divorce, dissolution, annulment, or legal separation] proceeding, or (C) his or her consent to the jurisdiction of the court.

[Note: All awards expressed as a percentage of disposable retired pay, including formulas and hypothetical awards, will automatically include a proportionate share of the member's COLA regardless of any language in a court order to the contrary.

Additionally, if the former spouse is awarded a fixed dollar amount, she/he will not receive any cost-of-living-allowance (COLA) increases.

[The below examples apply to Decree of Divorce, Dissolution, Annulment, or Legal Separation]

CHAPTER 30

DEATH OF A RETIRED MEMBER

1.0 GENERAL

1.1 Purpose

This chapter provides policy on the death of a retired member. This includes but is not limited to: required documentation, arrears of pay (AOP), death gratuity, and taxable income.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10, 26, 31, and 38. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ARREARS OF PAY

2.1 Basic Information

Entitlement to retired pay terminates on the date of the retired member's death. The AOP is the retired member's final month of prorated retired pay and all unencumbered amounts due the deceased retired member. If the retired member waived retired pay in favor of a civil service annuity, there is no AOP due. A retired member who waived retired pay in order to receive disability compensation from the Department of Veterans Affairs (VA) may be due retired pay for the month of death because VA disability compensation entitlement terminates on the last day of the month before death. Upon the Defense Finance and Account Service (DFAS) being notified of a retired member's death, a retired member's account is placed in a suspended status until the date of death can be verified. The DFAS must attempt to obtain proof of death before closing an account. Acceptable forms of proof of death documentation include:

2.1.1. Death certificate,

2.1.2. ***DoD (DD) Form 1300***, Report of Casualty,

2.1.3. Funeral Director's Report,

2.1.4. VA Cemetery Files,

2.1.5. The Defense Enrollment Eligibility Reporting System,

2.1.6. Social Security Reports, or

2.1.7. Other forms of official notification of death.

2.2 Related Inquiries

The Military Department concerned advises the surviving spouse to contact the VA or the Social Security Administration on matters relating to entitlement benefits payable by those agencies.

2.3 Responsibilities

When the Military Department concerned receives notification of the death of a retired member, they will notify DFAS-Cleveland. The DFAS-Cleveland site:

2.3.1. Terminates payment of retired pay,

2.3.2. Reclaims outstanding retired pay checks or direct deposit payments,

2.3.3. Discontinues and collects overpayments of allotments,

2.3.4. Pays death gratuity if applicable,

2.3.5. Collects debts,

2.3.6. Provides claim forms to prospective beneficiaries, and

2.3.7. Prepares vouchers and tax statements for final account settlement.

2.4 Eligible Beneficiaries

Each Military Service and DFAS periodically advise retired members of their right to designate a beneficiary or beneficiaries to receive any AOP amount that may be available upon the retired member's death, and the disposition of AOP when no beneficiary or beneficiaries have been designated. Any person or persons, or legal entity, including the estate or trust of the retired member, may be designated. In order for the retired member's estate to be an eligible beneficiary, the estate must be established pursuant to the laws of the retired member's domicile after the retired member's death. If the estate is not established, the designation to the estate will fail.

2.4.1. Pursuant to ***10 U.S.C., § 2771*** upon presentation of a ***Standard Form (SF) 1174***, Claim for Unpaid Compensation of Deceased Member of the Uniformed Services, arrears of retired pay are to be paid to the person highest on the following list, living on the date of the retired member's death in the following order of precedence:

2.4.1.1. Beneficiary designated by the retired member in writing, if received by DFAS-Cleveland or the Military Department concerned before the retired member's death;

2.4.1.2. Surviving spouse;

2.4.1.3. Children and their descendants, by representation:

2.4.1.3.1. Natural Child;

2.4.1.3.2. Adopted Child. An adopted child is a legal heir in every state and, therefore, is entitled to payment of unpaid pay and allowances, if otherwise proper. If another person(s) adopts the deceased retired member's natural child, the child is a beneficiary only in those states where an adopted child may still inherit from a natural parent;

2.4.1.3.3. Stepchild. A stepchild is not an eligible beneficiary unless adopted by the deceased retired member;

2.4.1.4. Father and mother in equal parts or, if either is dead, the survivor;

2.4.1.5. Legal representative; or

2.4.1.6. Person entitled under the law of the domicile of the deceased retired member.

2.4.2. The retired member may change a designated beneficiary either in writing or electronically via ***myPay*** as long as the change is received by DFAS-Cleveland before the retired member's death.

2.4.3. Where payment is to be made to the person entitled under the law of the domicile of the deceased individual in subparagraph 2.4.1.6, DFAS may require the claimant(s) to submit evidence of entitlement under state law. This includes, but is not limited to funeral expense receipts, small estate affidavit, trust documents, court orders granting summary administration and where necessary, the deceased person's will.

2.4.4. A person may not profit from their own wrongful acts. It is against public policy to permit payment by the government of arrears of pay, compensation or other such benefits to an heir or beneficiary who feloniously kills the person upon whose death such payments hinge. No payment is authorized if the beneficiary is involved in the member's death, even in cases where that beneficiary has not been convicted of criminal charges, if the facts do not reasonably establish a lack of felonious intent on that person's part. Where the beneficiary or heir causes the member's death, before any payment can be made, there must be a showing that the claimant is entitled to the payment notwithstanding the claimant's actions, as opposed to the record having to establish felonious intent before payment will be withheld. Any indication that the beneficiary feloniously or wrongfully participated in the death the retired member bars payment to that beneficiary. The arrears are not paid to that person unless evidence is received which clearly absolves the beneficiary of any felonious or wrongful intent. The burden of proving the absence of felonious or wrongful intent falls on the beneficiary.

2.4.5. If the beneficiary dies after the retired member but before receiving final settlement, upon presentation of a SF 1174 claim form, the AOP may be paid to the beneficiary's estate. If the beneficiary does not have an estate established and the AOP is $3,000 or less, the AOP may

be paid to the deceased beneficiary's survivors in the order of precedence set out in subparagraph 2.4.1.2 through 2.4.1.5. If the AOP is greater than $3,000, DFAS may pay the AOP in accordance with laws of the domicile of the deceased beneficiary. If doubt exists as to entitlement, the DoD will settle the claim.

2.5 Substantiating Documents and Collection of Overpayments

2.5.1. Substantiating Documents. To effect settlement of AOP, the following documents must be a matter of record:

2.5.1.1. Completed SF 1174, Claim for Unpaid Compensation of Deceased Member of the Uniformed Services, from the beneficiary;

2.5.1.2. DD Form 1300 or a copy of the death certificate;

2.5.1.3. Retirement orders; and

2.5.1.4. Miscellaneous documentation (e.g., adoption papers; court orders of appointment; custodianship papers; ***Internal Revenue Service Form W-8BEN***; Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding and Reporting (Individuals) (for individuals who are not United States citizens or resident aliens)) as required.

2.5.2. Collection of Overpayments. Every attempt should be made to recover all outstanding checks or direct deposits (not negotiated before the retired member's death or outstanding checks forwarded past the date of entitlement) or the proceeds thereof. Unrecovered funds are treated as erroneous payments to the retired member or the withdrawer of funds with the indebtedness subject to the debt collection authority.

2.5.2.1. If the funds are not recovered, there is no AOP due until the arrears due to the retired member exceed the erroneous payment. In situations where the recipient of the retired member's erroneous payment is also the beneficiary for the AOP, the amount of arrears due the individual is offset administratively by the erroneous payments received by the individual. The remaining erroneous payment, if any, is still subject to the debt collection authority.

2.5.2.2. If there has been an erroneous payment of AOP made to an individual not entitled to the retired member's AOP, and another individual is entitled to the retired member's AOP, the payment of the amount due as arrears must be made to the appropriate payee, regardless of whether collection has been made from the recipient of the erroneous pay.

2.6 Questionable Date of Death

2.6.1. When the date of death is shown as a "found date," DFAS-Cleveland will verify whether an autopsy was performed. If an autopsy was performed, the date of death determined by the coroner is used. If the results of the autopsy are reported on the death certificate, a copy of the autopsy report is not required. If an autopsy was not performed, but the state has certified the date of death on the death certificate, that date is used. If two dates are shown, such as the retired

member died between 11:00 p.m. June 10, 2008, and 4:00 a.m. June 11, 2008, use the earlier date since that was the last date the retired member was known to be alive. If neither is available, obtain a statement from one or more disinterested persons attesting to the last known date that the retired member was alive. When this statement is received, the AOP is settled based on that date.

2.6.2. In claims involving missing persons, provided there is no evidence to the contrary, assume the date of death to be the presumed date established by state court decree.

2.6.3. If evidence exists that a retired member died on a particular date several years before the date of presumptive death declared by a state court, the AOP is payable only through the earlier date of suspected death.

2.6.4. A judicial decree is not necessary to establish Retired Serviceman's Family Protection Plan or Survivor Benefit Plan annuity payments if a person has been missing for more than 30 days under circumstances from which a reasonably prudent person would conclude that such person is dead and the Secretary of the Military Department concerned (or designee) makes a determination that presumes the retired member is deceased. See Chapters 37 and 42.

2.7 Doubtful Claims

2.7.1. In accordance with ***Title 32, Code of Federal Regulations (CFR), part 282.5***, cases involving questions of fact or law are submitted to the Defense Office of Hearings and Appeals (DOHA) for resolution. These include cases when:

2.7.1.1. Doubt exists as to the amount or validity of the claim, or

2.7.1.2. Doubt exists as to the person or persons properly entitled to the payment. Upon receipt of a doubtful claim, notify the claimant that the claim has been forwarded to DOHA for approval of settlement.

2.8 Six Year Statute of Limitations

2.8.1. Title ***31 U.S.C. § 3702*** provides general authority for settling claims against the United States. Section 3702 provides that any claim against the U.S. Government is barred forever unless such claim, bearing the signature and address of the claimant or authorized agent or attorney is received by the responsible agency within 6 years after the date such claim first accrued. Under authority delegated from the Secretary of Defense, the Director, DOHA, may waive the time limitation for late claims involving the pay, retired pay, and survivor benefits of military personnel. Any claim that became payable as a result of waiver of time limitation is limited to $25,000.

2.8.2. In any case where two or more beneficiaries are entitled to share a retired member's AOP equally, each claimant/beneficiary will become entitled to their own proportional share upon presentation of a timely claim. In the event that one (or more) of the claimant/beneficiaries fails to make a timely claim within 6 years, such claimant/beneficiary's claim will be barred under

31 U.S.C. § 3702 as untimely; however, the time limitation may be waived by DOHA if appropriate. In no event will the share of the untimely claimant/beneficiary be paid to the claimant/beneficiary who submitted a timely claim.

*2.9 Death of Mentally Incapacitated Retired Member

If retired pay was waived in favor of VA compensation, but compensation was withheld because the retired member's estate exceeded $1,500, contact the VA to ascertain periods and reasons for nonpayment of VA compensation and verify whether withdrawal of the waiver was made by guardian or trustee before the retired member's death. See Chapter 12 regarding withdrawal of waiver.

Note: Nonpayment of compensation could occur at any time from the effective date of VA waiver through the month of death and is not limited to the month of death.

3.0 DEATH GRATUITY

3.1 Basic Information

3.1.1. Death gratuity is payable when the military member's death occurs within the 120-day period which begins on the day after release from active duty or active duty for training. The VA must certify entitlement to death gratuity. The Secretary of the VA must determine that the decedent was discharged or released under conditions other than dishonorable from the last period of the duty of training that he or she performed. The Secretary of the VA must also determine that death resulted from an injury or disease that was incurred or aggravated during the period of service of active duty, inactive-duty training or travel directly to or from such duty. See ***10 U.S.C. § 1476***.

3.1.2. Death gratuity is not payable for a member who retires for non-Regular service (age and service) unless the member was on active duty the day before retirement.

3.1.3. Submit the application for Death Gratuity on a ***DD 397***, Claim Certification and Voucher for Death Gratuity Payment.

Note: For detailed information on Death Gratuity, see Volume 7A, Chapter 36.

3.2 Eligible Beneficiaries

3.2.1. Eligible Beneficiaries Prior to July 1, 2008. Before May 25, 2007, payment of a death gratuity was made to or on behalf of the deceased member's living survivors as prescribed by the statute in effect at the time. Beginning on May 25, 2007, and ending on June 30, 2008, a qualified member was able to designate another person to receive not more than 50 percent of the death gratuity payable upon the death of the member with any remaining amount not designated paid in the order prescribed by statute. The designated amount of the death gratuity had to be specified in increments of 10 percent. Death gratuity payments were made to the

deceased member's living survivors as prescribed by the statute at the time. (For order of precedence prior to July 1, 2008, please see the archived version of Chapter 30, dated July 2008).

3.2.2. Eligible Beneficiaries on and After July 1, 2008. Effective July 1, 2008, a qualified member may designate up to 100 percent of their death gratuity entitlements, in 10 percent increments, to any person(s) of their choosing. If the qualified member has a spouse, but designates a person other than the spouse to receive all or a portion of the amount payable, the Secretary concerned must provide notice of the designation to the spouse. If a qualified person does not make a designation or designates only a portion of the amount payable, then pay the amount of the death gratuity not covered by a designation as follows:

3.2.2.1. To the surviving spouse of the person, if any;

3.2.2.2. If there is no surviving spouse, any surviving children of the person and the descendants of any deceased children by representation. Surviving children without regard to age or marital status include:

3.2.2.2.1. Legitimate children,

3.2.2.2.2. Adopted children,

3.2.2.2.3. Stepchildren who were a part of the decedent's household at the time of death, or

3.2.2.2.4. Illegitimate children of the decedent (see subparagraph 3.3.1.4);

3.2.2.3. If there is no surviving spouse or children, the decedent's surviving parents in equal shares or the survivor of them. Surviving parents as prescribed by the following:

3.2.2.3.1. Parents include fathers and mothers through adoption;

3.2.2.3.2. Only one father and one mother may be recognized in any case;

3.2.2.3.3. Those who exercised a parental relationship on the date, or most nearly before the date of the member's death are given preference;

3.2.2.3.4. If there is no surviving spouse, child, or parent of the decedent, the duly appointed executor or administrator of the estate of the decedent; or

3.2.2.3.5. If there are no survivors as prescribed in subparagraphs 3.2.2.1 through 3.2.2.4, other next of kin of the person entitled under the laws of domicile of the person at the time of the person's death.

3.3 Documentary Evidence

3.3.1. In some cases, the beneficiary must furnish proof of relationship:

3.3.1.1. Lawful Spouse. Documentation may be required to substantiate the marriage or proof of termination of prior marriages entered into by the beneficiary or deceased member;

3.3.1.2. Legally Adopted Child. A copy of adoption papers;

3.3.1.3. Stepchild. Information to prove that the child was a member of the deceased member's household;

3.3.1.4. Illegitimate Child. Documentation is required as proof that the member was the parent of the child and must include one of the following:

3.3.1.4.1. An acknowledgement in writing signed by the decedent;

3.3.1.4.2. A judicial determination made before the decedent's death that the claimant is a child of the decedent;

3.3.1.4.3. Evidence that the Secretary of VA has determined the claimant to be the child of the decedent; or

3.3.1.4.4. A copy of the court order that ordered the parent to contribute to the child's support; or

3.3.1.5. Designated Relative

3.3.1.5.1. Designated relative must provide documentary evidence that any marriage entered into by the deceased member has been terminated and a notarized statement that there are no living children.

3.3.1.5.2. Persons in loco parentis must furnish satisfactory evidence of the relationship as deemed necessary by the Military Department concerned.

3.3.2. Custodianship documents or court orders of guardianship appointments must support all payments made for minor children.

3.4 Death of Eligible Survivor Before Receipt of Death Gratuity

If a person entitled to all or a portion of a death gratuity under subparagraph 3.2.2 dies before the person receives the death gratuity, it will be paid to the living survivor next in the order prescribed in subparagraph 3.2.2.

3.5 Determinations Affecting Entitlement

3.5.1. Death as Lawful Punishment. No death gratuity is payable in the case of a military member whose death is the result of a lawful punishment for a crime or military offense, except when such death was inflicted by any hostile force with which the armed forces of the United

States was engaged in armed conflict.

3.5.2. Military Member Killed by Beneficiary. No death gratuity is payable to a beneficiary or survivor who kills a military member, unless there is evidence that clearly absolves the beneficiary or survivor of any felonious intent.

3.6 Amount Payable

3.6.1. Deaths On or After October 7, 2001. For deaths on or after October 7, 2001, the amount of death gratuity is $100,000.

3.6.2. Debt Collection. Do not collect debts from death gratuity payments.

3.7 Erroneous Payment

An erroneous payment of death gratuity is one made because of administrative error to a person clearly not entitled to that payment, rather than a payment made reliant on statements of record made by the member about matters such as marital status and dependency status. Make a second payment to the rightful beneficiary when the error resulted from improper maintenance of records or administrative negligence. This payment should not be delayed pending recovery of the erroneous payment from the ineligible recipient. The respective DFAS site will follow the prescribed collection procedures in an attempt to recover an erroneous payment.

4.0 TAXABLE INCOME

4.1 Taxability of AOP

4.1.1. The AOP due the deceased retired member at time of death is taxable to the beneficiary who receives payment if the AOP was taxable to the retired member. The tax liability is in accordance with the Internal Revenue Code of 1986, as amended.

4.1.2. If AOP is paid, a Treasury Department (TD) Form 1099-R is issued to each beneficiary using the tax identification number of the beneficiary. If no AOP is paid, the retired pay activity issues one TD Form 1099-R in the decedent's name.

4.2 Taxability of Death Gratuity

4.2.1. Death Occurred Between August 20, 1996, and September 10, 2001. The amount of death gratuity payments made to survivors of military members who died after August 20, 1996, that is excludable from income may not exceed $3,000, regardless of the number of beneficiaries. If there are multiple beneficiaries, apply proportionately the $3,000 exclusion. All death gratuity payments are reported separately, using TD Form 1099-R. The total amount of the gross distribution is entered in Box 1. The appropriate taxable amount is entered in Box 2a. For members who died on or before August 20, 1996, the maximum exclusion amount is $5,000.

4.2.2. Death Occurred on or After September 11, 2001. The total amount of death gratuity is excludable from gross income for tax purposes.

CHAPTER 31

DEATH OF A SURVIVOR ANNUITANT

1.0 GENERAL

1.1 Purpose

This chapter addresses the settlement of the arrears of an annuity where the annuitant is a spouse (or former spouse) with no eligible child annuitant, the last remaining child annuitant, or a natural person with an insurable interest. In accordance with the procedures in section 2.0, the Defense Finance and Accounting Service (DFAS) pays the arrears of the annuity under Retired Serviceman's Family Protection Plan, Survivor Benefit Plan (SBP), and minimum income widow provisions of the SBP law.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 10, 26 and 31. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 SETTLEMENT OF THE ARREARS

2.1 Documentation

A notification of death from any source is sufficient to suspend future payment of the annuity. To settle (pay) the arrears of an annuity, the following documentation must be on file:

2.1.1. A copy of the death certificate;

2.1.2. A written claim containing the signature and address of the claimant or of the claimant's authorized agent or attorney; and

2.1.3. Proof of recoupment of outstanding payments. All outstanding checks or direct deposits (not negotiated before the annuitant's death or forwarded past the date of entitlement) or the proceeds thereof must be returned to DFAS Cleveland before a settlement of arrears of annuity may be made.

Note: Refer to the DFAS website on how to ***Report an SBP Annuitants Death*** for more information.

2.2 Payment of the Arrears

The annuity is not prorated for the month of the annuitant's death. Entitlement stops as of the last day of the month before the date of the annuitant's death. When all documentation is

received, payment of the arrears is made to the person living on the date of the annuitant's death who is highest on the order of precedence set forth in Chapter 30. For the purpose of payment of the arrears of an annuity under this section, the provisions of Chapter 30, subparagraphs 2.4.3 through 2.4.5 apply, and all references to a "retiree" in Chapter 30, subparagraphs 2.4.1.2 through 2.4.1.6, and 2.4.4 through 2.4.5 should be considered as referring to the deceased annuitant rather than a retiree.

*2.3 Claim for Arrears

A claim for arrears of an annuity must be filed within the 6-year statute-of-limitation restriction. Any claim received 6 years after the date of the annuitant's death is barred. The Standard Form 1174, Claim for Unpaid Compensation of Deceased Member of the Uniformed Services, should be used to claim the arrears of an annuity under this section and all references to a "member of the uniformed services" on the form should be considered as referring to the deceased annuitant rather than a retiree.

3.0 TAXABILITY

In the case of deceased annuitants, one or more Department of Treasury – Internal Revenue Service ***(IRS) Form(s) 1099-R***, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., may be used. If no arrears of an annuity are paid, then one Form 1099-R will be issued in the annuitant's name to cover any payments received by the annuitant before death. If arrears of an annuity are paid, then an additional Form 1099-R is issued to each claimant to whom the arrears were paid.

CHAPTER 32

RECOVERY OF PAYMENTS MADE TO A FINANCIAL ORGANIZATION

1.0 GENERAL

1.1 Purpose

This chapter provides information regarding the accountability of a financial organization for direct deposit payments returned to the Defense Finance and Accounting Service (DFAS) because of the death of a retiree or annuitant. By accepting a recurring benefit payment from the government, a receiving financial institution agrees to the provisions of ***Title 31, Code of Federal Regulations (CFR), Part 210***, including the reclamation actions and debiting of the financial institution's Federal Reserve Bank account for any reclamation for which it is liable. The government's right to reclaim funds is established in 31 CFR 210, section 210.10(a).

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 5, 12, and 31. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 LIABILITY OF FINANCIAL INSTITUTIONS FOR DIRECT DEPOSIT PAYMENTS

2.1 Liability of Financial Institution

A financial institution is liable for all benefit payments received after the death or legal incapacity of a recipient, or death of a beneficiary, unless the financial institution meets the qualifications for limiting its liability under paragraph 2.3.

2.2 Reclamation

Upon the notification of the death of a military retiree or annuitant, the DFAS Cleveland Disbursing Officer (DO) will contact the decedent's financial institution to request the return of all payments made since the retiree's or annuitant's death via a Notice of Reclamation in the amount of all post death payments.

2.2.1. The DO must initiate reclamation within 120 days after actual or constructive receipt of notification of the death of a retiree or annuitant. The financial institution is not liable for payments made more than 6 years prior to date of reclamation.

2.2.2. Effective January 2, 2008, the Department of the Treasury, Financial Management Service (FMS) established a policy for the reclamation of federal payments disbursed electronically through the Automated Clearing House. On October 7, 2012, the FMS and the Bureau of the Public Debt were consolidated into the Bureau of the Fiscal Service. See the Department of the Treasury's ***Green Book*** for detailed instructions on the reclamation procedures.

2.3 Limiting Liability

A financial institution may qualify to limit its liability by full compliance with the regulations if it:

2.3.1. Certifies it had no actual or constructive knowledge of the death at the time of the deposit of any post-death benefit payments;

2.3.2. Returns all post-death benefit payments it receives after it learns of the death of a retiree or annuitant; and

2.3.3. Responds to the reclamation notice to ensure that it is received by the DO within 60 days of the date on the notice.

2.4 Calculating Limited Liability Amount

If a financial institution qualifies for limited liability, the amount which can be debited from the financial institution is the amount of the account balance at the time it first receives notice of death plus the lesser of the outstanding balance of the reclamation notice amount (after any collection from the withdrawers) or the 45-day amount. The 45-day amount is the dollar amount of the post-death benefit payments received within 45 calendar days following the death. See the Department of the Treasury's Green Book for examples of calculating the limited liability amount.

3.0 LIABILITY OF DISBURSING OFFICER

The accountability of the financial institution does not affect the liability of the DO for any amounts not recovered. The DO may be relieved of liability for amounts not recovered when the officer has shown that he or she did not know and could not have known of a retiree's or annuitant's death prior to making payments after the date of death.

CHAPTER 37

RETIRED SERVICEMAN'S FAMILY PROTECTION PLAN (RSFPP) – ANNUITIES

1.0 GENERAL

1.1 Purpose

The purpose of the RSFPP was to permit members of the uniformed services who retired on or before September 20, 1972, to elect to receive a reduced amount of any retired pay in order to provide an annuity payable to eligible annuitant(s) upon that retired member's death. This election was subject to certain limitations specified in the law and elaborated in the regulations in this chapter. The Survivor Benefit Plan (SBP) replaced the RSFPP (see Chapters 42 through 49) as the primary military retired pay annuity protection plan on September 21, 1972. An annuity payable under the RSFPP is not assignable or subject to execution, levy, attachment, or garnishment, except for child support or alimony, or to collect a debt caused by an overpayment described in section 9.0. A debt to the United States or its instrumentalities incurred by the annuitant may be offset from the annuity. The annuity may be paid to a trustee through bankruptcy court proceedings.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10, 11, 26, 31, and 42. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 EFFECTIVE DATE OF ANNUITY

2.1 Annuity Accrual

Each annuity payable normally accrues as of the first day of the month in which the retired member dies. If the Secretary concerned makes a determination that a participating retired member is presumed dead, the annuity accrues from the first day of the month in which retired or retainer pay was suspended on the basis of the retired member's missing status. For retired members who elected coverage for spouse and children (often referred to as "Option 3"), an annuity is payable to the eligible children on the first day of the month in which the widow or widower becomes an ineligible annuitant. For a child who is at least age 18, but under age 23, and pursuing a full-time course of study at a recognized educational institution (see section 12.0 for more information), the annuity accrues:

2.1.1. As of the first day of the month in which the retired member dies, if the eligible child's 18th birthday occurs in the same or a preceding month; or

2.1.2. As of the first day of the month in which the child's 18th birthday occurs, if the retired member died in the preceding month; or

2.1.3. As of the first day of the month in which the child becomes or again becomes eligible, if that child's 18th birthday and the retired member's death occurred in a preceding month or months.

2.2 Application

2.2.1. A completed application is required for payment of the annuity.

2.2.2. Payments are made in equal monthly installments thereafter as long as entitlement exists. If a properly completed application was received, the first payment must be made no later than:

2.2.2.1. The 15th of the month after the month in which the retired member dies, or

2.2.2.2. The 15th of the month after the month in which the Secretary of the Military Department concerned (or designee) has made a determination that the retired member is presumed dead.

2.3 Annuitant Eligibility

No annuity accrues or is paid for a month in which all annuitants lose eligibility.

2.4 Special Circumstance

If a member retires and dies during the same month, the annuity is payable for the full month.

3.0 ANNUITY PAYMENTS

3.1 Upon Death or Presumption of Death

Upon official notification of death or Secretarial determination that a participating retired member is presumed dead, annuity accounts are established in accordance with the provisions of the election made by or on behalf of the retired member using DoD ***(DD) Form 2656-7***, Verification for Survivor Annuity to validate the annuity account. Payment of annuity is barred when the member is retired for disability before completing 19 years of service (18 years of service before October 1968) if beneficiaries are eligible for Veterans Affairs (VA) Dependency and Indemnity Compensation (DIC). Payments for a representative payee of an RSFPP annuitant follow the same requirements as payment under the Survivor Benefit Plan. See Chapter 46 for more information.

3.2 Additional Annuity Information

Annuities payable are in addition to any pension(s) or other payment(s) to which the beneficiaries may now or later be entitled by law, and may not be considered income under any law administered by the VA, except when the annuitant is entitled to DIC as a parent of a veteran. For additional information affecting annuity payments, see Table 37-1.

3.3 Settlement of Arrears

For information concerning the settlement of arrears of annuities, see Chapter 31.

4.0 CLAIMS FOR ANNUITY

The claim for annuity payments must be properly completed and signed by the person(s) authorized to receive the annuity.

4.1 Power of Attorney

An individual holding a valid power of attorney may complete (including the signature element) and file the annuity application form on behalf of an annuitant provided:

4.1.1. The payments are to be made directly to the annuitant; and

4.1.2. The annuitant has not been determined to be incompetent of managing their own affairs by a state court, physician, or psychologist.

NOTE: For additional information on annuity payments, see Chapter 46. An annuitant whose application is signed with an "X" must be witnessed (by two disinterested persons), notarized, or countersigned by the person holding the power of attorney. A copy of the power of attorney and explanation why the annuitant required assistance must be submitted with the annuity application.

4.2 Court Order

A claim signed by a legal representative must be accompanied by a copy of the court order of appointment.

4.3 Custodianship

A claim signed by the custodian of a minor child or children must be accompanied by a document evidencing custodianship.

4.4 Doubtful Claim

A doubtful claim must be submitted to the Defense Office of Hearings and Appeals (DOHA) for certification before payment.

4.5 Limitation

4.5.1. The Barring Act. This act bars payment of any claim not received within 6 years from the date it accrues. See ***31 U.S.C. § 3702***.

4.5.2. Denial of Claim. A claim not received within 6 years of the retired member's death must be denied as untimely pursuant to the Barring Act and Department of Defense Instruction (DoDI) 1332.42.

5.0 ANNUITY AMOUNTS

5.1 Single Option

5.1.1. Retirements Before November 1, 1968. The monthly annuity payable, as elected by the retiree, is one-eighth, one-quarter, or one-half of the retired member's reduced retired pay as computed on the date of retirement or effective date of election, whichever is later.

5.1.2. Retirements From November 1, 1968, Through September 20, 1972. The monthly annuity payable as elected by the retired member is:

5.1.2.1. One-eighth, one-quarter, or one-half of the retired member's gross retired pay on date of retirement; or

5.1.2.2. A specific dollar amount of not more than 50 percent, nor less than 12.5 percent of the retired member's gross retired pay on date of retirement, but in no case less than $25.

5.2 Multiple Options

5.2.1. Retirements Before November 1, 1968. The monthly annuity payable for each option, as elected by the retired member, is one-eighth or one-quarter of the retired member's total reduced retired pay as computed on the date of retirement or effective date of election, whichever is later. The combined amount of annuities cannot exceed 50 percent of the retired member's total reduced retired pay.

5.2.2. Retirements From November 1, 1968, Through September 20, 1972. The monthly annuity payable for each option, as elected by the retired member, is:

5.2.2.1. One-eighth or one-quarter of the retired member's gross retired pay on date of retirement; or

5.2.2.2. A specific dollar amount of not more than 25 percent, nor less than 12.5 percent of the retiree's gross retired pay on date of retirement, but in no case less than $25.

5.3 Cost-of-Living Adjustments for Annuities

Whenever retired pay is increased through a COLA, each annuity payable on the day before the effective date of that increase to a spouse or child of a member who died on or before March 20, 1974, is increased at the same time by the same percentage. Annuities payable on September 30, 1978, to a spouse or child of a member who died on or before March 20, 1974, were increased by 66.1 percent, effective October 1, 1978. The 66.1 percent increase was the percentage change in retired and retainer pay authorized by 10 U.S.C. § 1401a from September 21, 1972, to September 30, 1978.

5.4 Rounding

All monthly annuities to which a survivor becomes entitled on or after October 1, 1983, if not a multiple of $1, is rounded to the next lower multiple of $1. Annuities to which survivors were entitled on September 30, 1983 were not rounded until there was an adjustment made in accordance with ***10 U.S.C. § 1401a***; then, and with each subsequent adjustment, the amount as adjusted, if not a multiple of $1, is rounded to the next lower multiple of $1. All subsequent adjustments are based on the rounded amount.

6.0 PAYMENTS

6.1 Payments to Widow(ers)

For unique conditions affecting entitlement of annuity payments to widow or widower, see Table 37-2 for Comptroller General (Comp Gen) decisions.

6.2 Payment to Children

6.2.1. Whom Payable. Annuities for a minor child or children are paid to the legal guardian or, if there is no legal guardian, to the natural parent who has care, custody, and control of the child or children as the custodian, or to a representative payee of the child or children.

6.2.2. Majority Age. Annuities may be paid directly to the child when the law governing the state of residence stipulates the child to be majority age. The child is considered an adult for annuity payment purposes, and a custodian or legal fiduciary is not required. See Appendix H for majority age.

6.2.3. Equal Shares. The annuity is payable in equal shares to or on behalf of all eligible children. If there are no other eligible children, the annuity entitlement terminates when the youngest child becomes an ineligible annuitant.

6.2.4. Unique Conditions. For unique conditions affecting entitlement and payment of annuities for a child or children, see Table 37-3 for Comp Gen decisions.

7.0 CAUSES OF OVERPAYMENTS

One or more of the following situations may cause overpayments in annuity payments:

7.1 Failure to Notify

Failure of the annuitant, custodian, or guardian to notify the Secretary of the Military Department concerned (or designee) of:

7.1.1. Remarriage of the annuitant, before age 60 or death;

7.1.2. Youngest child reaching age 18;

7.1.3. Marriage or death of a child annuitant;

7.1.4. Recovery of an incapacitated child;

7.1.5. Termination of student status;

7.1.6. Erroneous computation; or

7.1.7. Correction of member's military records.

7.2 Concurrent Payment

Concurrent payment of RSFPP annuity and DIC if the RSFPP was payable based on the service of a member who retired for disability before completing 18 years of service after October 5, 1961, or before completing 19 years of service after November 1, 1968.

7.3 Presumption of Death

A Secretarial determination that a retired member is alive after the Secretary of the Military Department concerned (or designee) previously determined that the retired member was presumed dead. The retired member is liable for any indebtedness created where the annuity payments were made based on the presumption of such retired member's death. The retired member's indebtedness cannot be considered for waiver under ***10 U.S.C. § 2774*** or ***10 U.S.C. § 1442***. If the retired member dies before those payments are fully recovered, the annuitant may be liable for the indebtedness if the annuitant was the recipient of the annuity payments made under the presumption of death. (See Volume 16, Chapter 3 and Table 3-7, for collection of indebtedness from retired or retainer pay.)

8.0 RECOVERY OF OVERPAYMENTS

Upon discovery of an overpayment, recovery action will begin immediately. The annuitant will be advised of the debt and the method in which the overpayment is being, or may be, recovered, in accordance with Volume 16.

9.0 METHOD OF RECOVERY

One of the following methods will be used to liquidate the debt resulting from an annuity overpayment:

9.1 Direct Remittance

Send a direct remittance to the Defense Finance and Accounting Service (DFAS), Cleveland (CL) Center.

9.2 Future Payment Amounts

The DFAS-CL Center reduces the later RSFPP annuity payments, or withholding of future annuity payments until debt has been liquidated.

10.0 WAIVER OF INDEBTEDNESS

When applicable, the DFAS-CL Center advises the annuitant of the right to request a waiver of indebtedness.

10.1 Overpayment Recovery

Recovery of an overpayment of the RSFPP annuity is not required if, in the judgment of the DFAS Director or the Director's designee, there was no fault by the person to whom the amount was erroneously paid and recovery would be contrary to the purpose of the plan or against equity and good conscience. Proof of hardship is not required if the waiver otherwise is in order. Suspension of collection action may be authorized on receipt of a waiver request. Refund of an amount withheld before receipt of a request for waiver is not authorized. When a waiver is granted, refund amounts collected after receipt of the waiver request.

10.2 Failure to Withhold

Failure to withhold the cost of coverage from retired pay of a member cannot be considered an overpayment of annuity to a designated beneficiary to authorize waiver of recovery of the overpayment.

10.3 Correction of Records

RSFPP annuitants who obtain a correction of records for entitlement to additional survivorship annuity under a second election may not retain the benefits of the original election. A correction made under ***10 U.S.C. § 1552***, except when procured by fraud is final and conclusive on all officers of the United States. Recovery of overpayments that occur in these instances may not be waived under 10 U.S.C. § 1442. Repayment may be made over a reasonable period-of-time as determined by the retired pay activity.

11.0 TERMINATIONS

11.1 Time of Termination

Entitlement to the RSFPP annuity terminates as of the end of the month that precedes the month in which eligibility ceases.

11.2 Reasons for Termination of the RSFPP Annuity

11.2.1. Death of Widow or Widower. Payments are terminated the last day of the month that precedes the month in which widow or widower dies. If children are involved, see paragraph 12.2 for further information.

11.2.2. Remarriage of Widow or Widower Before Age 60. Payments are terminated the last day of the month that precedes the month in which widow or widower, younger than age 60, remarries. If children are involved, see paragraph 12.2 for further information.

11.2.3. Loss of Eligibility by Child Annuitant. Reasons for loss are:

11.2.3.1. The youngest child reaching age 18 and not incapable of self-support (applicable to children of members who retired before November 1, 1968);

11.2.3.2. The youngest child reaching age 18 and not pursuing a full-time course of study nor incapable of self-support (applicable to children of members retiring on or after November 1, 1968);

11.2.3.3. The youngest child who is pursuing full-time course of study, reaching age 23 and not incapable of self-support (applicable to children of members who retired on or after November 1, 1968);

11.2.3.4. The marriage or death of child annuitant;

11.2.3.5. The recovery of an incapacitated child over age 18. Annuity may be suspended if the annuitant becomes independently capable of earning amounts sufficient for his or her own particular personal needs through substantial and sustainable gainful employment. The annuitant will receive advance written notice from DFAS prior to suspension. The annuitant will be given an opportunity to submit rebutting evidence. The annuity may be reinstated (see subparagraph 12.2.2);

11.2.3.6. The termination of student status of a child over age 18 and under age 23 (applicable only to retirees who retired on or after November 1, 1968); or

11.2.3.7. The reinstatement to widow or widower of annuity previously terminated.

11.2.4. Secretarial Determination. Payments are terminated the last day of the month preceding the month in which the Secretary of the Military Department concerned (or designee) determines that a participating member previously presumed to be dead is now alive.

11.3 Due and Unpaid Annuity

If, upon death of the annuitant, an amount remains payable to the annuitant but is unpaid because the annuity checks were not negotiated or because payments had not been established, the account is settled in accordance with Chapter 31. There is no designated beneficiary for settlement of arrears of an annuity.

12.0 REINSTATEMENTS

12.1 Remarriage Before Age 60

The RSFPP annuity is not reinstated.

12.2 Reinstatement on Behalf of Children

12.2.1. If an annuity was terminated because of the death or remarriage of the widow or widower before age 60, and the member's election also included coverage for children, then the full annuity is reestablished in equal shares in favor of the eligible children (see section 6.0). The effective date is the first day of the month in which the death or remarriage of the widow or widower occurred.

12.2.2. An annuity to an incapacitated child over 18 years of age may be reinstated upon either a recurrence of the original disability that rendered the annuitant incapable of self-support or upon receipt of evidence from the annuitant that, although engaged in substantial and sustainable gainful employment, wages are not sufficient to cover his or her particular needs.

12.3 Annulment

12.3.1. Annulment of a Void Marriage

12.3.1.1. The annuity may not be reinstated for any period earlier than the date of separation after the discovery that the marriage was void. A void marriage is invalid and never existed therefore; it requires no formal termination.

12.3.1.2. The annuity may not be reinstated for any period in which annuity payments were made on behalf of children under paragraph 12.2. When notice is received that the widow or widower's remarriage was void, payment to these children is suspended pending resolution of the issues involved.

12.3.1.3. In the absence of a judicial decree terminating the marriage as void, the case be sent to the DOHA for a decision.

12.3.2. Annulment of a Voidable Marriage. The annuity may not be reinstated when a voidable marriage is annulled.

12.4 Reinstatement After Age 60 Remarriage

If the annuity was terminated because of remarriage, and the widow or widower was 60 years of age or older, the annuity may be reinstated not earlier than October 1, 1978. The annuity will be increased by the COLA, if appropriate, in accordance with paragraph 5.3.

*13.0 ANNUAL CERTIFICATE OF ELIGIBILITY (COE)

Effective August 2023, the annual COE was replaced by the Survivor Benefit Plan - Marital Status Update (SBP-MSU). See ***FMR Archives*** to reference previous COE policy. See chapter 46 for details on SBP-MSU.

*14.0 REPORT OF ELIGIBILITY (ROE)

Effective August 2023, the annual ROE was replaced by the Foreign Address Update for Mailed Check - Annuitants (FAUMC- Annuitants). See FMR Archives to reference previous ROE policy. See chapter 46 for details on FAUMC-Annuitants.

15.0 FEDERAL INCOME TAX

Annuities paid under the RSFPP are taxable for Federal income tax purposes. Refunds for coverage premiums are taxable income to the annuitant. The refund of premiums may result from administrative error, corrections of record, late receipt of withdrawal request, or youngest child attaining age 18.

16.0 FEDERAL INCOME TAX WITHHOLDING (FITW)

16.1 General Provisions

RSFPP annuity payments are subject to FITW. An annuitant has the right to elect no withholding. In the absence of such an election, or if the annuitant does not otherwise submit a withholding certificate, the DFAS-CL Center will withhold on a "married-three exemptions" basis. See Internal Revenue Service (IRS) ***IRS Publication 15-A***.

16.2 Notice Requirements

The DFAS-CL Center must advise the annuitant of the withholding requirement and the right to elect "no withholding" when making the first payment to the annuitant. Thereafter, the DFAS-CL Center must send an annual notice to the annuitant of the right to elect no withholding, to revoke an election, or to submit a new withholding certificate. An annuitant also may submit a withholding certificate at any time to elect no withholding, revoke such election, or request any rate of withholding.

16.3 One-Time Payments

RSFPP annuity payments, other than the regular monthly entitlement, are subject to FITW at the rate of 22 percent unless the annuitant has elected no withholding.

17.0 INCOME EXCLUSION

17.1 Gross Income Exclusion

The annuitant may exclude from gross income:

17.1.1. Premiums for coverage deducted from retired pay before January 1, 1966, not previously excluded from the member's retired pay; and

17.1.2. The amount of direct remittance for any RSFPP premiums not previously excluded from the member's retired pay.

17.2 Special Exclusion

In addition, the annuitant may exclude from the RSFPP annuity gross income an amount not to exceed $5,000 if the member retired on disability and dies prior to attaining retirement age (Public Law (PL) 89-365). As of August 20, 1996, PL 104-188, section 1402(a) repealed the $5,000 exclusion.

18.0 FEDERAL ESTATE TAX

The value of the annuity at the time of the member's death may be subject to Federal estate tax if any portion of the cost was paid by direct remittance, or if the value of the annuity exceeds the amount that may be excluded from the gross estate. The DFAS-CL Center may furnish the annuitant the current annuity amount and/or a summary of annual payments, and total cost paid (separate totals for deductions and direct remittances). For more information on the computation of the amount of an annuity that will be subject to the tax, if any, the executor of the member's estate may go to the ***IRS Pension and Annuity tax page***.

19.0 STATE TAXATION

Whether RSFPP annuities are subject to state inheritance or income tax and the method of calculating such tax depends upon the laws of the state concerned; however, the IRS Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc., information is furnished to the appropriate state tax authority.

20.0 FURTHER TAX INFORMATION

Survivors should be advised that further information concerning taxation of RSFPP annuities may be obtained from the District Director of Internal Revenue or the state tax authority (see Appendix J, for state tax reporting addresses).

Table 37-1. Comp Gen Decisions – Annuity Payments, General

#	Comp Gen Decision Number	Synopsis
1	35 Comp Gen 12 B-123191, July 13, 1995 and 41 Comp Gen 500 B-147403, February 1, 1962	Unpaid Cost for Coverage. Any unpaid RSFPP cost at time of a retiree's death, including nonpayment of direct remittance or erroneous computation of cost, must be collected before payment of any annuities.
2	34 Comp Gen 664 B-123189, June 8, 1995	Retired Pay Status Relinquished. Personnel who relinquish retired status (either voluntarily or involuntarily) are not permitted to pay RSFPP costs to entitle beneficiaries to annuities.
3	43 Comp Gen 125 B-151843, August 5, 1963	Effective Date of Payment. Annuity payments are paid under provisions of the RSFPP law as amended effective October 4, 1961, even though the election was made on October 4, 1961, before the hour in which the President signed the bill which amended the law.
4	34 Comp Gen 151 B-121144, October 4, 1954 and 38 Comp Gen 146 B-113387, August 25, 1958	Annuity Payment Adjustments. Annuity payments must be adjusted based on proper retired pay at the time the election became effective as though the member had actually been receiving such pay at that time. This applies to elections by members who elected while in a "saved pay" status, who later elected and received pay under the Career Compensation Act retroactive to October 1, 1949.
5	Comp Gen B-156862, June 30, 1965	Failure to Submit Valid Election Form. After a member's death, a copy of the RSFPP election is found in his personal effects. If it is not attested or notarized, and neither the original nor duplicate is located, it cannot be established that the member made an election. Based on information available, no annuity is payable.
6	43 Comp Gen 418 B-152520, October 25, 1963	Allocations of Annuity. The allocation of annuity payable under option 3 between the present spouse and the children of a former marriage applies to elections made before and after the October 4, 1961 RSFPP amendment. PL 90-485, August 13, 1968.
7	Comp Gen B-139217, June 29, 1959 and August 12, 1960	Withholding Annuity to Satisfy Members Indebtedness. Annuity payments may not be withheld to satisfy the member's indebtedness for overpayment of retired pay since the annuitant is under no obligation to the United States. However, the annuitant may voluntarily agree to repay the indebtedness by withholding from the annuity.

Table 37-1. Comp Gen Decisions – Annuity Payments, General (Continued)

	Comp Gen Decision Number	Synopsis
8	39 Comp Gen 481 B-141131, December 30, 1959	Valid Intent of Member to Elect Spouse and Child Coverage. Both the spouse and children are covered when it can be established that the member intended to cover the children listed on the election certificate even though the election was checked to show spouse only.
9	65 Comp Gen 621 B-221545, June 3, 1986	Annuity Payments. Should not be made payable to an agent acting under power of attorney when the annuitant is mentally incompetent even if a state statute had preserved the validity of a power of attorney executed before the annuitant was declared to be incompetent.
10	66 Comp Gen 340 B-226018, March 18, 1987	In the Absence of a Determination of Incompetence. Made by a state court, physician, or psychologist that an annuitant is incapable of managing his or her own affairs, payments may be made directly to the annuitant. An individual, in accordance with a valid power of attorney, may assist the annuitant in completing and filing the annuity application form. (65 Comp Gen 621, clarified).

Table 37-2. Comp Gen Decisions – Annuity Payments, Widow or Widower

#	Comp Gen Decision Number	Synopsis
1	Comp Gen B-158906, June 7, 1966	Validity of Annuitant's Marriage to the Member. Evidence must be of record to establish that a former marriage was legally ended. No annuity payments are authorized to be paid until legal proceedings are instituted to determine the validity of the marriage.
2	44 Comp Gen 480 B-155792, February 16, 1965	Foreign Divorce. The State of New York does not recognize a foreign divorce unless both parties appear personally or through authorized counsel in the country where the foreign divorce is obtained.
3	43 Comp Gen 567 B-153183, February 14, 1964	Foreign Divorce. A member's marriage to a woman who had previously obtained an illegal foreign divorce is not valid for annuity payment purposes.
4	Comp Gen B-154387, July 16, 1964	Interlocutory Decree of Divorce. An interlocutory decree does not end a marriage. A foreign divorce in the interim period is not valid. The final divorce decree terminates the marriage.
5	42 Comp Gen 112 B-149378, August 10, 1962	Divorce and Later Remarriage to Same Spouse. A spouse who divorces the member after retirement terminates eligibility for annuity. A later remarriage of the same people to each other does not reinstate eligibility to the annuity, even though deductions from pay are continued under terms of the member's election.
6	38 Comp Gen 208 B-136499, September 16, 1958	Annuity Elections at Time of Correction of Records. A member is regarded as having been in a retired status on November 1, 1953, effective date of the RSFPP law, if after that date a Correction of Records retired the member retroactive to a date before November 1, 1953. A spouse whom the member married after November 1, 1953 is not entitled to annuity since he or she was not the spouse on November 1, 1953.

Table 37-3. Comp Gen Decisions – Annuity Payments, Child or Children

#	Comp Gen Decision Number	Synopsis
1	47 Comp Gen 270 B-160939, November 14, 1967	Custodianship of Minor Child. Payment of RSFPP Annuity may be made to a natural parent having care and custody of minor child or children, without the appointment of a legal guardian, even though such payments might eventually exceed the sum of $1,000.
2	35 Comp Gen 521 B-126138, March 21, 1956	Custodianship of Minor Children. Payment can also be made to an adopting parent, as custodian of minor child since all rights and duties were acquired with the adoption.
3	47 Comp Gen 371 B-163102, January 18, 1968	Child Physically Incapacitated. A chiropractor's statement attesting to a child's physical incapacity is sufficient to substantiate eligibility as a beneficiary under RSFPP.
4	48 Comp Gen 167 B-165095, October 1, 1968	Ineligible Child. Child born May 1, 1950, became eligible for annuity benefits on May 1, 1968. Payment for month of April 1968 is proper.
5	Comp Gen, B-160876, April 18, 1967	Incapacitated Child. An incapacitated child does not have to meet that condition as of member's retirement date of November 1, 1953, if later (as required by Department of Defense Directive 1332.17, section 102c) to qualify as an eligible RSFPP beneficiary. In addition, proof of continued incapacitation of a child annuitant is required at least every 2 years after age 18.
6	Comp Gen B-158411, March 10, 1966	Mentally Incapacitated Child. Mentally incapacitated child who married and whose marriage was annulled is considered unmarried and an eligible contingent beneficiary.
7	44 Comp Gen 280 B-154831, November 10, 1964	Unmarried Child. The term "unmarried child" is defined as not having a husband or wife at time of member's retirement, and without regard to the fact that the child may have been previously married.
8	Comp Gen B-131677, June 3, 1957	Legitimate Child. Children born from illegal marriage (one spouse not legally divorced from prior marriage) may be considered legitimate children for RSFPP annuity payments.
9	Comp Gen B-132012, June 17, 1957	Clarification of Election Fraction. A member who elected option 2 with both 1/2 and 1/8 factors checked, who failed to clarify the fraction desired, and who later stated a wish not to participate in the plan, must be assumed to have elected the minimum of 1/8 rate.
10	36 Comp Gen 325 B-129194, October 18, 1956	Adoption of Child. Child of deceased retired member receiving annuity under option 2 who is adopted after death of a retired member, is entitled to continue receiving the annuity. An adoption before death of retired member, or divorce from wife in which member elected option covering stepchild constitutes basis for terminating reduction of retired pay if option 4 included, and likewise voids entitlement to annuity upon later death of retiree.

Table 37-3. Comp Gen Decisions – Annuity Payments, Child or Children (Continued)

#	Comp Gen Decision Number	Synopsis
11	35 Comp Gen 521 B-126138, March 21, 1956	Amendatory Birth Certificate. Amendatory birth certificate along with statement on election form is normally sufficient to substantiate date of birth and claimed relationship of adopted child.
12	62 Comp Gen 193 B-207764, February 8, 1983	Incapacitated Annuitant. Annuity payable to an incapacitated annuitant may not be suspended unless annuitant is capable of earning amounts sufficient for own particular personal needs through substantial and sustainable gainful employment. Advance written notice will be made prior to suspension and annuitant is given the opportunity to submit rebutting evidence.
13	62 Comp Gen 302 B-207626, April 13, 1983	Incapacitated Annuitant - Reinstatement of Annuity - Payment to Third Parties. An annuity may be reinstated upon the recurrence of original disabling condition. Annuity payments to incapacitated adult can be made to third parties only if appointed as guardian by court or under valid power of attorney. Power of attorney executed by mentally incapacitated annuitant may be invalid, even in absence of formal adjudication of incompetence. If annuitant suffering from mental illness has not been adjudged incompetent, and is considered by psychiatrist to be competent to manage annuity properly for personal maintenance, annuity may be paid directly to annuitant. If the annuity cannot be paid directly to annuitant or properly paid to third party, the annuity should accrue to annuitant's account until annuitant recovers or until guardian is appointed by court.

CHAPTER 42

SURVIVOR BENEFIT PLAN (SBP) - APPLICATION OF THE PLAN

1.0 GENERAL

1.1 Purpose

This chapter provides an overview of the establishment of the SBP (also referred to as the Plan), eligibility and benefits, and specialized terminology and definitions used when referring to the Plan.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 SBP OVERVIEW

2.1 Establishment of SBP

On September 21, 1972, Public Law ***(PL) 92-425*** established the SBP to provide a survivor benefit program for military personnel in retirement to complement the survivor benefits under Social Security laws. The Plan gives all retiring uniformed services retirees an opportunity to elect to have their retired pay reduced by a designated amount in order to provide their survivors an annuity payable after the retiree's death.

2.1.1. Under the Plan, a member who retired before September 21, 1972, and who had previously elected to participate in the Retired Serviceman's Family Protection Plan (RSFPP) had the option to retain or cancel the RSFPP coverage when electing to participate in the SBP.

2.1.2. The Plan provides, without cost, a minimum guarantee to an unmarried widow or widower of a member who died before March 21, 1974. For additional information, see Chapter 46. A surviving spouse of a member who died before November 1, 1953, is entitled to an annuity, which may be in addition to the annuity payable under the minimum income annuity provisions.

2.2 Additional Coverage

The Plan also includes:

2.2.1. Survivor benefits for the child, limited insurable interest, surviving spouse, or former spouse of a member who dies on active duty (See Chapter 46 regarding line of duty determinations);

2.2.2. A Reserve Component (RC) annuity on behalf of a member who is eligible to provide a Reserve Component Survivor Benefit Plan (RCSBP) Annuity and dies:

2.2.2.1. Before notification of retirement eligibility;

2.2.2.2. During the 90-day period following notification of retirement eligibility if the member had not made an election; or

2.2.2.3. After electing to participate in RCSBP following notification of retirement eligibility but before reaching the age of eligibility to receive retired pay; and

2.2.2.4. From an injury or illness incurred or aggravated in the line of duty during inactive duty for training.

2.2.3. An annuity calculated in the same manner as an annuity based on an active-duty death paid to the qualified survivors of a member who, under certain circumstances, dies in the line of duty during inactive duty training (IDT) (see Chapter 54); or

2.2.4. An annuity calculated in the same manner as an annuity based on an RC death paid to the qualified survivors of a member who, under certain circumstances, dies during IDT but not in the line of duty (see Chapter 54).

2.3 Death Presumption Authority

2.3.1. The Plan provides for annuity payments under a determination by the Secretary of the Military Department concerned (or designee) that a participating member is presumed dead. Upon application of the beneficiary of a participant in the Plan who is missing, the Secretary of the Military Department concerned may determine that the participant is presumed dead.

2.3.2. A determination of presumed death is a determination by the Secretary of the Military Department concerned (or designee) that a participating member is presumed dead if:

2.3.2.1. The member's retired or retainer pay has been suspended or would have been suspended had the member been in receipt of pay; and

2.3.2.2. The member has been missing at least 30 days under circumstances that lead to a reasonable conclusion that the member is dead.

2.4 Effects of Lump Sum Retirement Payment on SBP

A member covered under the Blended Retirement System (BRS) who chooses to receive a lump sum of retired pay, in accordance with ***10 U.S.C. § 1415***, will have their SBP premiums calculated using the full base amount of their unreduced retired pay without regard to a reduction in retired pay pursuant to the lump sum. The member may choose to lower the amount of coverage, with spousal concurrence, if married. Premiums are to be deducted from the portion of retired pay that the member continues to receive after the lump sum payment. For more information about SBP premiums, see Chapter 45.

3.0 ELIGIBLE MEMBERS

3.1 Members Eligible to Participate in the Plan

The following members are eligible to participate in the Plan:

3.1.1. Members entitled to retired pay; and

3.1.2. Members who would be eligible for non-regular retired pay, but have not yet become entitled to receive retired pay because of age. See Chapter 54.

3.2 Participants in the Plan

3.2.1. Standard Annuity Participants. The Plan applies to a person who is eligible to participate in the Plan under subparagraph 3.1.1 and who is married or has a dependent child when the member becomes entitled to retired pay, unless the member elects (with the spouse's concurrence, if required) not to participate in the Plan.

3.2.2. RCSBP Annuity Participants. The Plan applies to a person who is eligible to participate in the Plan under subparagraph 3.1.2 and is married or has a dependent child when the member is notified that he or she has completed the years of service required for eligibility for RC retired pay, unless the member elects (with spousal concurrence, if required) not to participate in the Plan. Note: If such member elects not to participate in the Plan (chooses option "A") upon becoming entitled to retired pay, the member may elect to participate in the Plan as a Standard annuity participant under subparagraph 3.2.1.

3.3 Exceptions

A member otherwise eligible according to subparagraph 3.2.1 or 3.2.2, except that:

3.3.1. The member does not have a spouse or dependent child and did not elect coverage for a former spouse (if applicable) at the time of eligibility for the program, may elect coverage for a person who has an insurable interest in the member; or

3.3.2. The member does not have a spouse or dependent child at the time of eligibility for the program, may elect SBP or RCSBP coverage upon notification to the Secretary concerned within the 1-year period after acquiring a spouse or dependent child. Such an election must be

written, signed by the person making the election, and received by the Secretary concerned. An election is effective as of the first day of the first month following the month in which the Secretary concerned receives the election.

3.4 Member on the Temporary Disability Retired List (TDRL)

A member's eligibility ends when the member is removed from TDRL without further entitlement to retired pay. The coverage continues when the member is transferred from TDRL to Permanent Disability Retired List (PDRL). If the member's retired pay is reduced to an amount less than the base amount originally elected, the full retired pay to which the member is entitled thereafter is considered the base amount.

3.5 Mentally Incompetent Member

If a person to whom the Plan applies is determined to be mentally incompetent, the Secretary of the Military Department concerned, upon request, may act on behalf of the member and elect other than the maximum automatic coverage. In the absence of an eligible spouse or children, the Secretary of the Military Department concerned, upon request, may elect coverage for a natural person with an insurable interest. The person applying to have an election made is not given preference in designation as the beneficiary.

3.6 Qualifying Member During an Open Enrollment Period

The Plan applies to any member who qualifies during an open enrollment period according to the provisions established by law. Open enrollment periods typically occur when there are major changes to the SBP program and must be specifically prescribed by law.

3.7 Retired Member After a Record Correction

3.7.1. A member whose military record is corrected on or after September 20, 1972, to show retirement before September 21, 1972, is not automatically covered under the Plan. Coverage may be established upon request of the member if the election is received within 18 months from the date of notification of the correction action.

3.7.2. A member who retroactively becomes entitled to retired pay on a date on or after September 20, 1972, generally, will be given automatic full SBP coverage. However, the member may elect reduced coverage or decline participation, (with proper concurrence of the eligible spouse, if applicable) within 18 months of the correction entitling the member to retired pay unless the member's Service Secretary or Service's Board for Correction of Military Records directs the member to do so within 12 months of the member's record correction.

4.0 DEFINITIONS

4.1 Base Amount

The base amount is the money amount selected by the member, with the concurrence of the member's spouse if required, or the amount selected on behalf of a member by the Secretary of the Military Department concerned (or designee), on which the annuity is based. The base amount may range from a $300 minimum up to full gross retired pay entitlement. The base amount is adjusted consistent with the cost-of-living increases in retired pay. For a member entitled to retired pay under a regular retirement, non-regular retirement, or disability retirement, the full base amount is the amount of money to which the member:

4.1.1. Was entitled to when he or she became eligible for retired pay without regard to any reduction in retired pay pursuant to:

4.1.1.1. An election of a lump sum of retired pay in accordance with ***10 U.S.C. § 1415***; or

4.1.1.2. An election of a Career Status Bonus (CSB) in accordance with ***10 U.S.C. § 1409(b)(2)*** and ***37 U.S.C. § 354***. NOTE: After December 31, 2017, CSB could not be elected. For more information concerning the selection of CSB refer to Volume 7A, Chapter 66; or

4.1.2. Later became entitled to by being advanced on the retired list, performing active duty subsequent to eligibility for retired pay, being transferred from the TDRL to the PDRL, or having his or her retired pay re-computed at age 62 due to credit for community service under Temporary Early Retirement Authority or a reduced retirement.

4.2 Change in Coverage

A change in coverage is an action taken because of a change in the retired member's family status that requires a change in beneficiaries.

4.3 Change in Election

A change in election is an authorized change in the type of beneficiary eligible for SBP coverage because of a change in the retired member's family status.

4.4 Consideration for Contract

The total amount of premiums paid by the participant member for the type of SBP selected is known as consideration for contract.

4.5 Cost of Coverage

The cost of coverage is the amount paid by deductions from retired pay, from the retired member's Combat-Related Special Compensation (CRSC), or by direct remittance when member is not receiving retired pay.

NOTE: Beginning April 2018, if a member's SBP premium cannot be deducted in the full amount required and the retired member has been awarded CRSC pay under ***10 U.S.C. § 1413a*** the deduction that would otherwise have been made from the retired pay will be taken from the retired member's CRSC for that period. See ***10 U.S.C. § 1452(d)(2)***. This new deduction is due to a change in the law (***PL 114-328, section 643***) which requires SBP premiums to be deducted from CRSC.

4.6 Cost Refund

A cost refund is the difference between cost paid by the member and the recalculated cost of the annuity after Dependency and Indemnity Compensation (DIC) reduction.

4.7 Date of Receipt

The date of receipt is the day of receipt of an election or election change by the office administering payment of retired pay. The postmarked date of an election may be considered as date of receipt when the validity of such election might be prejudiced because of a limited time factor.

4.8 Dependency and Indemnity Compensation (DIC) Offset

Prior to January 1, 2023, DIC offset reduced the SBP annuity due to compensation entitlement from the Department of Veterans Affairs to the widow or widower of a member who died from a service-connected or comparable disability. A multi-year phase out of the DIC offset of SBP annuities began January 1, 2021, and ended December 31, 2022. See Chapter 46 for details regarding the phase out periods and corresponding offset amounts.

4.9 Former Spouse

A former spouse is the surviving former husband or wife of a person who is eligible to participate in the Plan. For more information about former spouses, see Chapter 29.

4.10 Maximum Level

The maximum level is the full gross retired pay used as a base amount for coverage. For members who elect lump sums under the BRS, the full base amount will be equivalent to what full retired pay would have been without the lump sum. A member who elected to receive a CSB prior

to January 1, 2018, will, at the time of program election, have the maximum base amount computed as if that member had not been subject to the Military Retirement Reform Act of 1986 (referred to as REDUX) under 10 U.S.C. § 1409(b)(2).

4.11 Minimum Income Widow

A minimum income widow is a person who on September 21, 1972, was, or during the period beginning on September 22, 1972, and ending on March 20, 1974, became, the widow of a person who was entitled to retired or retainer pay when they died. This individual must have income below the threshold and meet the eligibility criteria in Chapter 46.

4.12 Natural Person With an Insurable Interest

A natural person with an insurable interest is a person who has a reasonable and lawful expectation of pecuniary benefits from the continued life of the participating member. For further information, see Chapter 44. Insurable interest for active duty or IDT death is limited to someone not otherwise covered by the law as an SBP beneficiary who has a Military Dependent Identification Card as the deceased member's dependent or would have qualified as the member's dependent in accordance with ***10 U.S.C. § 1072(2)***.

4.13 Pre- and Post-September 21, 1972, Retiree

A pre-September 21, 1972, retiree is a member who retired before September 21, 1972; a post-September 21, 1972, retiree is a member who retired on or after September 21, 1972.

4.14 Reduced Base Amount

The reduced base amount is an amount less than the member's full gross retired pay or what the full retired pay would have been if the CSB or lump sum retired pay had not been elected but not less than $300 unless the full gross retired pay (or what the full retired pay would have been) is less than $300.

4.15 Reduction Factor

The RCSBP reduction factor is a four-digit actuarially determined decimal used to compute the monthly cost for reservists who become entitled to receive retired pay before age 60.

4.16 RCSBP Annuity

The RCSBP Annuity is the annuity provided to the survivor(s) of a reservist, who completed the years of service required for eligibility for RC retired pay or was a member of a RC and died from an illness or injury incurred or aggravated in the line of duty during IDT. For additional information about the RCSBP, see Chapter 54.

4.17 Social Security Offset

Social Security offset means a reduction from the SBP annuity due to the widow's or widower's Social Security entitlements. Social Security offset was eliminated effective April 1, 2008.

4.18 Standard Annuity

The standard annuity is the annuity provided to a survivor(s) by virtue of eligibility of persons entitled to retired pay.

4.19 Supplemental Survivor Benefit Plan (SSBP)

An SSBP annuity is a type of annuity provided to a spouse or former spouse. SSBP was repealed effective April 1, 2008.

4.20 Surviving Spouse

A surviving spouse applies to:

4.20.1. The surviving husband or wife of a retired member:

4.20.1.1. Married to the member at the time the member became eligible for retired pay. Members of the RC become eligible for retired pay upon completion of the requisite years of service necessary to become entitled to retired pay at a later age; or

4.20.1.2. If not married to the member at the time the member became eligible for retired pay:

4.20.1.1.1. Was married to the member for at least 1 year before the member's death, or

4.20.1.1.2. Is the parent of issue by that marriage;

4.20.2. The surviving spouse of a member who dies on active duty or:

4.20.2.1. While in line of duty, on or after September 10, 2001; or

4.20.2.2. After becoming eligible to receive retired pay; or

4.20.2.3. After qualifying for retired pay except that the member has not applied for or been granted that pay; or

4.20.2.4. After completing 20 years of active service but before the member is eligible to retire as a commissioned officer, because the member has not completed the required years of active commissioned service (usually 10 years).

4.20.3. The surviving spouse of a member who is eligible to provide an RCSBP Annuity and dies:

4.20.3.1. Before being notified under ***10 U.S.C. § 12731(d)*** that the member has completed the years of service required for eligibility for RC retired pay, or

4.20.3.2. During the 90-day period beginning on the date the member receives notification under 10 U.S.C. § 12731(d) that they have completed the years of service required for eligibility for RC retired pay if an election to participate in the Plan was not made, provided:

4.20.3.2.1. That the parties were married at the time the member became eligible for retired pay; or

4.20.3.2.2. If not married at the time the member became eligible for retired pay, was married to the member for at least 1 year before the member's death, or is the parent of issue by that marriage.

4.20.4. The surviving spouse of a member of an RC not described in subparagraphs 4.20.2.1, 4.20.2.2, or 4.20.2.3 who dies before being eligible to elect to participate in the Plan from an injury or illness incurred or aggravated in the line of duty during IDT.

4.21 Threshold

The threshold amount is an alternative to the base amount that may be used to calculate the reduction in retired pay described in basic premiums. The original threshold amount was established on October 1, 1985, in the amount of $300. This amount has been increased by the same percentage as the annual increase in basic military pay for each year subsequent to 1985. The threshold increases at the same time and by the same percentage as the average increase in basic pay. Threshold increases are published in the annual ***DoD Retirement Cost of Living Adjustments (COLA) Memorandum***. For example, using the cost formula of 2.5 percent of the first $XXX.XX, plus 10 percent of the remainder of the base amount (see paragraph 4.1), the portion of the base amount upon which the member is charged 2.5 percent cost is the threshold. See Chapter 45, section 3.0.

CHAPTER 43

SURVIVOR BENEFIT PLAN (SBP) - ELECTIONS AND ELECTION CHANGES

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide information for SBP election options, changes to elections, coverage, and termination of coverage.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Titles 5 and 10. The ***Department of Defense Instruction (DoDI) 1332.42*** establishes and administers the policy. Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ELECTION OPTIONS

2.1 Base Amount

A member who participates in SBP must elect a base amount of maximum coverage or reduced coverage. The base amount at any level is adjusted with each cost-of-living increase after retirement. See Chapter 42.

The annuity amount is 55 percent of the base amount elected. See Chapter 46.

2.2 SBP Elections

In the case of a member electing a standard SBP annuity, the member must make such election before retired pay becomes payable, or if there is no eligible beneficiary at that time, within 1 year of acquiring an eligible beneficiary. All elections are irrevocable once the member is placed on the retired list, unless otherwise provided by law. See paragraph 3.1.

2.3 Reserve Component SBP (RCSBP) Elections

In the case of a member electing a Reserve Component annuity, the member must select either an immediate or deferred annuity. In the case where a Reserve Component member has elected an immediate annuity, or dies while being eligible to make such an election, the annuity to the beneficiary will commence the day following the death of the member. In the case of a member electing a deferred annuity, the annuity commences the later of the day following the member's death, or the date the member would have been age 60. See Chapter 54.

2.4 Special Rules Concerning Elections

2.4.1. In the case of a member electing SBP or RCSBP coverage for a spouse who was not married to the member at the time the member became eligible for retired pay, the surviving spouse must have been married to the member for at least 1 year immediately before the member's death or be the parent of issue by that marriage to be an eligible beneficiary.

2.4.2. A member who did not elect child coverage for a dependent child, either at the time of becoming eligible for retired pay (if applicable) or within 1 year of acquiring the first dependent child, may not elect child coverage for subsequently acquired child or children unless otherwise provided by law.

2.4.3. A member who elected insurable interest coverage under Chapter 42 may upon death of such beneficiary, elect to cover a new beneficiary who is a natural person with an insurable interest in the member. Such an election must be made prior to the end of the 180-day period beginning on the date of the death of the previous beneficiary. The member is required to pay, if applicable, an additional amount and interest. The additional amount is equal to the difference in the amount of the reduction in the member's retired pay for the previous beneficiary and the reduction in retired pay that would have been made had the previous beneficiary not died and been a covered beneficiary through the date of the new election. The interest on the additional amount is computed from the date on which the retired pay would have been reduced and charged at such rate or rates as determined by the Secretary of Defense.

2.4.4. In the case of a member who is already participating in the SBP and elects to change spouse coverage or spouse and child coverage to former spouse coverage or former spouse and child coverage, any such election terminates any previous coverage under the SBP.

2.5 Beneficiaries

Coverage may be provided for:

2.5.1. Spouse and/or child(ren);

2.5.2. Former spouse and/or child(ren); or

2.5.3. Natural person with an insurable interest (at maximum level of coverage only).

3.0 IRREVOCABLE ELECTIONS AND EXCEPTIONS

3.1 Irrevocability and Exceptions

An election is irrevocable, except under the following circumstances:

3.1.1. A member retired March 1, 1986, or later, who elected and received less than maximum SBP coverage without the spouse's concurrence, will have such coverage changed to full coverage if the Secretary concerned later determines that the spouse's concurrence in such election was required, but not obtained;

3.1.2. The Secretary concerned may revoke an election when necessary to correct an administrative error. Revocation or correction based on administrative error is a Secretarial prerogative and, except when procured by fraud, is final and conclusive on all officers of the United States;

3.1.3. A mentally incapacitated member who is later determined to be mentally competent may revoke or change the SBP election within 180 days after such determination of competence.

4.0 ELECTION COVERAGE

4.1 Spouse and/or Child

4.1.1. A member may elect coverage at the maximum level or at a reduced amount with spouse's concurrence, if required, for:

4.1.1.1. An eligible spouse only;

4.1.1.2. An eligible spouse and dependent child(ren); or

4.1.1.3. Dependent child(ren) only.

4.1.2. Every retiring member who is married at retirement is automatically enrolled in SBP for full coverage unless the spouse concurs in writing with the member's election to decline participation in SBP, to elect a reduced annuity for the spouse, or to elect an annuity for a dependent child, but not for the spouse, before the first day of eligibility to receive retired pay. See subparagraph 4.1.4.

4.1.3. A member with an eligible spouse and dependent child on the date of retirement who has obtained the concurrence of their spouse:

4.1.3.1. Declines coverage is prohibited from electing into SBP, even after obtaining a new spouse, except under section 8.0;

4.1.3.2. Declines coverage for an eligible spouse, and chooses to elect coverage for child only, is prohibited from electing spouse coverage at a later date, even after obtaining a new spouse, except under section 8.0; or

4.1.3.3. Declines coverage for the member's dependent child, and elects coverage for spouse only, is prohibited from electing child coverage at a later date.

4.1.4. A married member who is eligible to provide SBP may not, without the concurrence of their spouse, decline participation in SBP, elect a reduced annuity for the spouse, or elect an annuity for a dependent child, but not for a spouse, unless the member establishes to the satisfaction of the Secretary concerned that:

4.1.4.1. The spouse's whereabouts cannot be determined, or

4.1.4.2. Due to exceptional circumstances, a requirement that the member seek the spouse's concurrence would otherwise be inappropriate.

4.1.5. A member with a dependent child, who was unmarried on the date of retirement, may elect spouse coverage upon subsequent marriage regardless of whether coverage was elected for their dependent child. The election must be received by the Secretary concerned within 1 year of the marriage date.

4.1.6. A member with an eligible spouse who did not have a dependent child on date of retirement later may elect coverage for a dependent child. The election must be received by the Secretary concerned within 1 year of the date of acquiring their first dependent child.

4.1.7. If a member elects to provide an SBP annuity for a former spouse or a former spouse and child after the member has remarried, the member's spouse must be notified of that election. The member may make this election without spousal concurrence.

4.2 Same-Sex Spouses

4.2.1. Any claims to SBP spouse coverage for same-sex spouses of eligible SBP participants for periods before June 26, 2013, are not valid as the Defense of Marriage Act was still the law and in effect prior to June 26, 2013. As a result, no SBP premiums for such coverage will be charged prior to June 26, 2013. Further, no SBP annuity payments for such coverage will be paid for deaths occurring before June 26, 2013.

4.2.2. Effective on June 26, 2013, a person who becomes eligible to participate under ***10 U.S.C. § 1448(a)(1)*** and is married to a same-sex partner has the SBP program applied as for any other married couple under 10 U.S.C. § 1448, including the requirements for spousal concurrence for less than full annuity coverage of the spouse.

4.2.3. A person who was married to a same-sex partner upon becoming eligible to participate in the plan prior to June 26, 2013, and who had married that same-sex partner before June 26, 2013, had 1 year from June 26, 2013, to make a spouse election under

10 U.S.C. § 1448(a)(3). Such person may not participate at less than maximum coverage described in 10 U.S.C. § 1448(a)(3) without the concurrence of the person's spouse unless they already had provided an annuity for a dependent child. If an election was not received on or before June 25, 2014, full spousal coverage was entered, and the member was responsible for payment of premiums effective from June 26, 2013.

4.2.4. A person who was not married upon becoming eligible to participate in the plan, but who married a same-sex partner before June 26, 2013, had 1 year from June 26, 2013, to make a spouse election under 10 U.S.C. § 1448(a)(5). The election must have been received on or before June 25, 2014, or the person was prohibited by law from making such election.

4.2.5. Generally, a person who is a participant in the plan and is providing coverage under SBP for a spouse, who later does not have an eligible spouse beneficiary may, under 10 U.S.C. § 1448(a)(6), elect not to provide coverage for a new spouse in the event of a remarriage.

4.2.5.1. For a person who enters into a same-sex marriage after June 26, 2013, the election to discontinue participation under 10 U.S.C. § 1448(a)(6) must be made within 1 year of the remarriage. If a member does not discontinue participation, pursuant to 10 U.S.C. § 1448(a)(6), spouse coverage will resume effective on the first anniversary of the marriage.

4.2.5.2. If the remarriage took place prior to June 26, 2013, the participant has 1 year from June 26, 2013, to elect out of SBP. If a member does not make such an election within 1 year of June 26, 2013, pursuant to 10 U.S.C. § 1448(a)(6), spouse coverage will resume effective no earlier than June 25, 2014.

4.2.5.3. Any such person falling within the parameters of 10 U.S.C. § 1448(g), had 1 year from June 26, 2013, or the date of any marriage subsequent to June 26, 2013, to elect to increase the level of coverage under 10 U.S.C. § 1448(g).

4.2.6. A person who is married to a same-sex partner on June 26, 2013, and has insurable interest coverage under 10 U.S.C. § 1448(b) may terminate the insurable interest coverage as provided for in that section and, if eligible, elect spouse coverage under 10 U.S.C. § 1448(a)(5) as described in subparagraph 4.4.3.

4.3 Natural Person With Insurable Interest

An election for a natural person with an insurable interest may be made only when the member is not married and does not have any dependent children upon becoming eligible to participate. The Secretary concerned must receive the election before the first day of eligibility for retired pay. A member must elect full coverage when electing for a natural person with an insurable interest. If the member is retired for reasons of disability under ***10 U.S.C., Chapter 61***, refer to paragraph 7.3.

4.4 Former Spouse or Former Spouse and Child

When a member elects former spouse coverage, the member and the former spouse must complete and sign an election statement indicating whether the election is being made pursuant to the requirements of a court order or by a voluntary written agreement. If the member entered into a voluntary written agreement as a part of, or incident to, a proceeding of divorce, dissolution or annulment, the member must indicate on the written statement whether the agreement has been incorporated in, ratified, or approved by a court order. If the member has a spouse or child, a former spouse election prevents an annuity to that spouse or child (other than the child beneficiary under an election for a former spouse and child). If there is more than one former spouse, the member must designate which former spouse is to receive the annuity:

4.4.1. Upon Retirement (Retiring Members)

4.4.1.1. If a member becomes eligible to participate and has a former spouse and dependent child, who resulted from that marriage, member may elect former spouse or former spouse and child coverage.

4.4.1.2. If the former spouse is the member's former spouse at the time the member becomes eligible to participate in SBP, an election for former spouse must take place at or before the member's retirement.

4.4.1.3. If the former spouse is the member's former spouse at the time the member becomes eligible to participate in RCSBP (date of Notice of Eligibility (NOE)), an election for former spouse coverage must take place at or before the end of the 90-day period following receipt of the NOE.

4.4.1.4. If a member has a former spouse upon becoming eligible to participate but is not required by a court order or court-approved agreement to provide former spouse coverage, any subsequent court order that requires former spouse coverage will not be honored.

4.4.2. Following Retirement (Retired Members)

4.4.2.1. A member with spouse or spouse and child coverage may, within 1 year of date of the decree of divorce, dissolution, or annulment, whichever is later, change that election to provide an annuity to a former spouse or to a former spouse and child.

4.4.2.2. A member may elect coverage for a former spouse who the member acquired after becoming eligible for retired pay. The member and former spouse must have been married at least 1 year, or the former spouse must be the parent of a child or children born of that marriage in order for the former spouse to be an eligible beneficiary. For provisions regarding the effective date of former spouse coverage, see subparagraph 4.4.4.

4.4.3. Deemed Elections. Deemed elections are applicable in cases where a member enters, incident to a proceeding of divorce, dissolution, or annulment, into a written agreement to elect to provide an SBP annuity to a former spouse, and such agreement has been incorporated in,

ratified or approved by a court order, or has been filed with the court of appropriate jurisdiction in accordance with applicable state law. Deemed elections are also applicable in cases where the member is required by a court order to make a former spouse election. If such member fails or refuses to make such election, the member is deemed to have made such election if the Secretary concerned receives a completed DoD ***(DD) Form 2656-10***, SBP Former Spouse Request for Deemed Election, from a former spouse or the former spouse's attorney on behalf of the former spouse. A copy of the pertinent court order or agreement referring to the SBP coverage must accompany the DD 2656-10. See subparagraph 4.4.3.1. Effective September 27, 2008, use of the DD 2656-10 to make a deemed election is mandatory.

4.4.3.1. The former spouse will provide a copy of the court order, regular on its face, which requires such election, or incorporates, ratifies, or approves the written agreement of the member; a statement from the clerk of the court (or other appropriate official) that such agreement has been filed with the court in accordance with applicable state law; or for a deemed SBP election only, a copy of the court order which requires the SBP election. A court order which requires the member to elect SBP for a former spouse or former spouse and child or an agreement to provide former spouse or former spouse child coverage must be issued on or after November 14, 1986. If the member was ordered by a court to elect former spouse coverage before November 14, 1986, a second court order, issued on or after November 14, 1986, enforcing the original order which requires a former spouse election, constitutes a modification of the previous order and establishes a new 1-year period during which a request for a deemed election may be filed.

4.4.3.2. The Secretary concerned must receive the request from the former spouse within 1 year of the date of the first court order or filing that:

4.4.3.2.1. Requires the member to make a former spouse SBP election, or

4.4.3.2.2. Shows that the member entered into a written agreement to elect to provide an SBP annuity to the former spouse. (See subparagraph 4.4.3).

If an election of former spouse coverage was agreed to or ordered by an earlier court order, a subsequent order or modification that merely restates the previous provision and imposes no new obligation on the member does not begin a new 1-year period. A subsequent court order holding a member in contempt of court for failing to fulfill the prior agreement is not the type of court order that can be used to begin a new 1-year period to deem an election.

4.4.3.3. No election may be deemed to have been made which could never have been made by the member concerned.

4.4.3.4. If a member dies before making an election, a former spouse's request, which is otherwise qualified, must be honored even if the date of the request is after the date of the member's death. However, if the request for a court order was initiated with the court after the member's death, the order will not be honored.

4.4.3.5. If a member has more than one former spouse, the first request for a deemed election received with complete documentation will be the one honored.

4.4.4. Death of Former Spouse. The National Defense Authorization Act (NDAA) Fiscal Year (FY) 2016, Public Law (PL) 114-92, section 641, effective November 25, 2015, amended the SBP law to allow for members to elect spouse coverage after the death of a former spouse.

4.4.4.1. Married on the Date of Death of Former Spouse. The following applies when a person who is married at the time of the death of the former spouse beneficiary and elects to provide coverage to their spouse:

4.4.4.1.1. The election must be received by the Secretary concerned within one year from the date of the death of the former spouse beneficiary;

4.4.4.1.2. The effective date of election will be the first day of the first calendar month following the death of the former spouse beneficiary;

4.4.4.1.3. The level of coverage on the annuity base amount cannot be changed; and

4.4.4.1.4. An election under this paragraph is irrevocable.

4.4.4.2. Marriage After Death of Former Spouse Beneficiary. The following applies when a person who married after the death of the former spouse beneficiary elects to provide coverage to their spouse:

4.4.4.2.1. The election must be received by the Secretary concerned within 1 year from the date on which that person marries;

4.4.4.2.2. The effective date of the election will be the first day of the first calendar month following the month in which the election is received by the Secretary concerned;

4.4.4.2.3. The level of coverage on the annuity base amount cannot be changed; and

4.4.4.2.4. An election under this paragraph is irrevocable.

4.5 Federal Civil Service Retiree

4.5.1. A member with SBP coverage who: (1) retires under the civil service retirement program; (2) waives military retired pay to combine civilian and military service credits; and (3) elects survivor coverage, at any level, under the civil service retirement, has SBP coverage suspended while the waiver is in effect. If the waiver is terminated for any reason, SBP coverage resumes concurrent with the resumption of retired pay. The type of coverage and level of participation, as adjusted by any changes in retired pay during the period of waiver, is as first

elected. If the retired service member dies while the waiver of military retired pay is in effect, no SBP annuity becomes due and payable to either the surviving spouse and/or child.

4.5.2. An election in SBP with concurrent cancellation of previous Retired Servicemen Family Protection Plan (RSFPP) coverage is without force or effect if retired pay previously was waived for civilian retirement and survivor coverage from the civilian annuity was elected.

4.5.3. A member who elects SBP coverage, and who does not waive military retired pay for civil service retirement, may have survivor coverage under both retirement plans.

4.5.4. Provisions in subparagraph 4.5.1 do not apply to a member who retired under ***10 U.S.C. § 12731*** or who retired due to a combat-incurred disability as determined by the service.

4.5.5. The survivor of a federal civil service employee who was awarded military retired pay based on any period of military service and whose death occurs before separation from civil service, will receive a survivor annuity computed using military service. The survivor annuity from civil service will be reduced by any military survivor benefits payable. The survivor may elect not to be covered by this provision, which automatically uses military service credit in computing the federal survivor annuity.

4.5.6. Except for participation in federal service survivor annuity programs, SBP coverage does not terminate when a member participates in other survivor benefit plans administered by the United States Government such as under the Foreign Service or Federal Judges Retirement systems.

5.0 ELECTION DATA

5.1 Elections by the Member

The ***DD Form 2656***, Data for Payment of Retired Personnel, ***DD Form 2656-1***, Survivor Benefit Plan (SBP) Election Statement for Former Spouse Coverage, ***DD Form 2656-2***, Survivor Benefit Plan (SBP) Termination Request, ***DD Form 2656-6***, Survivor Benefit Plan Election Change Certificate, are available, for use by the member. Unless otherwise provided, elections in writing signed by the member, other than a request for termination, which contain all information necessary for establishing or declining coverage, are acceptable. Spousal concurrence of certain elections has been required since March 1, 1986.

5.1.1. Former Spouse Elections (Retiring Members). A member who is retiring and is electing former spouse coverage should complete the former spouse election on a DD Form 2656. In addition to the former spouse election, the member must also provide a separate written statement on a DD Form 2656-1 (when applicable), that is signed by the member and the former spouse certifying whether the former spouse election is pursuant to court order or a voluntary written agreement. Information concerning content of the separate written statement and the proper court order appears in paragraph 4.4.

5.1.2. Change in Election Coverage Spouse to Former Spouse (Retired Members). Members who are already retired should complete changes from spouse coverage to former spouse coverage on a DD 2656-1.

5.2 Deemed Elections Requested by the Former Spouse

A former spouse or former spouse's legal representative requesting the Secretary concerned to deem on his/her behalf must request the deemed election by completing the DD Form 2656-10. The DD Form 2656-10 must be accompanied by the decree of divorce, dissolution, or annulment and the first court order incident to the divorce, dissolution, or annulment that:

5.2.1. Requires the member to make a former spouse SBP election, or

5.2.2. Shows that the member entered a written agreement to elect to provide an SBP annuity to the former spouse.

Note: The first court order may be the decree of divorce, dissolution, or annulment. See subparagraph 4.4.3.

The DD Form 2656-10, the decree of divorce, dissolution, or annulment, and applicable court order must be provided. Information concerning content of the request by the former spouse or the former spouse's attorney and the statement from the clerk of the court, where necessary, appears in subparagraph 4.4.3.

5.3 Election Data Requirements

The election data requirements are:

5.3.1. Identification. Enter the member's name, social security number, birth date, and date of retirement.

5.3.2. Base Amount. The election form must specify full coverage, in lieu of a dollar amount, when maximum coverage is selected. When a reduced base amount is chosen, the dollar amount must be specified on the election form. The reduced base amount must not be less than $300. When retired pay is less than $300, the election form must indicate full coverage.

5.3.3. Beneficiary. Provide the name, birth date, and social security number for each beneficiary named.

5.3.3.1. If coverage includes a spouse, or former spouse, the member must provide the date of marriage and date of divorce, as applicable.

5.3.3.2. When the beneficiary is a natural person with an insurable interest, the address and relationship must be shown. For the natural person with an insurable interest, the

member must provide a signed statement to show proof of financial benefit if the person designated is a first cousin or anyone more distantly related than a first cousin if such statement is requested.

5.3.3.3. If the beneficiary designation is for a former spouse, then, in addition to the former spouse election, the member must submit in writing whether the election is being made pursuant to a written agreement previously entered into voluntarily by the member as a part of or incident to a proceeding of divorce, dissolution, or annulment and (if so), whether that voluntary written agreement has been incorporated in, ratified or approved by, a court order. This information should be provided on a DD Form 2656-1.

5.3.4. Signature. The member must sign and date the election. If the document is signed with an "X", two impartial persons must witness the signature. Note: An election made on behalf of the member through a power of attorney is not valid. Such an election is not binding and is without force or effect of law.

5.3.5. Spousal Concurrence. Written spousal concurrence is required when the member elects to decline coverage or provide the spouse with less than the maximum SBP coverage available, include electing child-only coverage, and when a member eligible for RCSBP declines coverage or elects coverage that provides less than a maximum immediate spouse annuity. The signature of the spouse must be notarized and must be dated on or after the member's election date. The requirement to have the spouse's signature notarized is not to suggest that the spouse has received additional counseling regarding the option being selected. It simply provides certification that the spouse signed the form and acknowledges the election made on the form.

5.3.5.1. If all requirements for an election needing the spouse's concurrence have not been satisfied prior to retirement, full spouse costs and coverage will be implemented, regardless of any request by the member to do otherwise. In such cases, when the member has requested any form of child coverage, full spouse and child coverage will be implemented. Any change in SBP election subsequent to retirement will be done through an administrative correction of records as permitted by law. The requirements for spousal concurrence do not affect any obligation or right of the member to provide coverage for a former spouse. If former spouse coverage is elected or deemed, the spouse's concurrence is not required; however, the spouse will be notified of that election.

5.3.5.2. The Secretary concerned may waive the requirement for spousal concurrence when the spouse's whereabouts cannot be determined or, when due to exceptional circumstances, requiring the member to seek the spouse's concurrence would otherwise be inappropriate. Exceptional circumstances, such as mental or physical incapacitation of the spouse, require appropriate documentation such as a physician's statement attesting to the spouse's incapacity. Exceptional circumstances will be evaluated on a case-by-case basis.

5.3.5.3. The Secretary concerned notifies the member's current spouse when a member who is eligible to provide an annuity to that spouse elects former spouse or former spouse and dependent child coverage.

5.3.5.4. The Secretary concerned notifies the affected beneficiary when a member elects to discontinue coverage for a former spouse or insurable interest beneficiary.

6.0 CHANGES IN ELECTION AND COVERAGE

6.1 Later-Acquired Spouse and/or Child

A member who acquires a new spouse and/or child after retirement must make an election within 1 year of the event with the exception that there is no time restriction on the election period for a change under subparagraph 6.1.2.5.

6.1.1. A member who is participating with spouse or spouse and child coverage and who does not have an eligible spouse beneficiary may, upon remarriage: resume coverage, increase the level of coverage up to and including full retired pay, or elect not to have spouse coverage resumed. Unless a member elects not to cover the new spouse within 1 year after the marriage, spouse coverage automatically resumes at the first anniversary of the marriage.

6.1.1.1. The member may not add child coverage by virtue of remarriage alone if child coverage was previously bypassed; and

6.1.1.2. The level of SBP coverage may not be reduced nor may child coverage be eliminated.

6.1.1.3. SBP elections become effective when the new spouse becomes an eligible beneficiary, and any increase in premium, plus interest, has been paid. When the level of SBP coverage is increased, the member must pay the difference between the present premium and the premium that would have been incurred had the higher level of coverage been elected originally, plus interest. Interest is compounded monthly using a factor equal to the 12th root of one plus the current annual interest rate approved by the DoD Board of Actuaries to calculate the retirement accrual costs. Interest is to be compounded monthly on the accumulated difference existing prior to any computation month. If payment of cost, plus interest is not completed before the spouse becomes an eligible beneficiary, the election becomes null and void and a refund of cost and interest and reinstatement of original election coverage occurs. Cost plus interest will be paid to member's estate should the member die before refund is completed.

6.1.1.4. If a member has spouse or spouse and child coverage and elects not to resume SBP participation for the spouse, the spouse must be notified. An election to terminate spouse coverage is irrevocable. If the member elects to change the level of spouse coverage to an amount less than full retired pay, the spouse must be notified.

6.1.1.5. Any newly acquired dependent child is automatically covered if child or spouse and child coverage was previously elected.

6.1.2. If, on date of retirement the member:

6.1.2.1. Has no eligible beneficiaries and does not elect to participate; the member may, within 1 year of the acquisition of a spouse or child, elect for that spouse and/or child. However, if the member does not elect spouse coverage within 1 year of acquiring their spouse and later has a child with that same spouse, the member cannot add the spouse coverage within 1 year from the birth of the child with that spouse; or;

6.1.2.2. Has no eligible spouse and elected for child only; the member may, within 1 year after marriage or remarriage, include the spouse with coverage previously elected for the child;

6.1.2.3. Has no eligible child and elected for spouse only; the member may, within 1 year of acquisition of a child, include the child with coverage previously elected for the spouse;

6.1.2.4. Has no eligible spouse and declines coverage for an eligible child; the member may, within 1 year of the acquisition of a spouse, elect for that spouse; or

6.1.2.5. Has elected coverage for a former spouse or former spouse and child, or has elected coverage for a natural person with an insurable interest; the member may later change the election to spouse and/or child, if not otherwise prohibited. See paragraph 6.2. The member is not required to change the election to spouse and/or child; however, if such a change is made, it permanently terminates the eligibility of the former spouse or the natural person with insurable interest. It is not necessary that maximum level coverage be elected for the spouse and/or child. See subparagraph 6.2.2 and paragraph 6.3, for additional information concerning changes in former spouse coverage.

* 6.1.2.6. Declining to elect spouse or child coverage for any of the situations described in subparagraphs 6.1.2.1 – 6.1.2.4 terminates eligibility for that spouse and/or child and any future spouse(s)/children, unless otherwise provided by law.

6.2 Change From Spouse or Spouse and Child

A member who elected spouse or spouse and child coverage may terminate that election for that spouse or spouse and child and provide an SBP annuity for a former spouse or former spouse and child, provided the child resulted from the member's marriage to that former spouse. If the member is married when the former spouse election is made, that spouse must be notified. See subparagraph 4.1.7. A former spouse may request that an election be deemed by the Secretary concerned (or designee).

6.2.1. Notification

The Secretary concerned must notify the former spouse of any changes to the former spouse election.

6.2.2. Changes to a Former Spouse Election

6.2.2.1. If a member was required to elect former spouse coverage by a court order, incident to a proceeding of divorce, dissolution, or annulment, the member may change to spouse or child coverage if the member furnishes, to the Secretary concerned (or designee) a certified copy of a court order that permits such a change. The court order, regular on its face, must modify the provisions of all previous court orders relating to the former spouse election so that the member is permitted to change the election. The member must certify to the Secretary concerned that the court order is valid and in effect. These same restrictions apply to the member who elected former spouse coverage pursuant to a written agreement that was incorporated in, or ratified or approved by, a court order.

6.2.2.2. In the case of a written agreement that has not been incorporated, ratified or approved by a court order, the member must furnish, a statement signed by the member and the former spouse that evidences the former spouse's agreement to an election change. The statement must be furnished to the Secretary concerned in a format prescribed by that Secretary. The member must certify that the statement is current and in effect.

6.3 Change to Former Spouse Coverage Under Insurable Interest

A member was allowed to change an election for former spouse coverage under the insurable interest category to former spouse coverage under the spouse category during the period November 8, 1985, through November 7, 1986. A member also could add child coverage to former spouse coverage provided the child was the result of the member's marriage to that former spouse and if the member was providing coverage for the former spouse under the spouse category. These election changes apply to elections effective before March 1, 1986.

6.4 Changed Retirement Eligibility

If a member elects the RCSBP coverage and subsequently becomes eligible for retirement under another law, thereby losing eligibility under 10 U.S.C. § 12731, the RCSBP election remains effective until the member actually retires. A member may make a new election as any other retiring member.

6.5 Mental Incompetency

The Secretary of the Military Department concerned may make an SBP or RCSBP election on behalf of a member who is declared incompetent by medical officers of the armed force concerned, by the Department of Veterans Affairs (VA), or by a court of competent jurisdiction. In the event the member is later declared competent by one of these authorities, the member may elect to revoke that election within the 180-day period following a determination of competency. There are no refunds of premiums paid for coverage during a period of declared incompetence. The Comptroller General has held the authority to make a SBP election is a personal choice that is a matter of the member's own choosing, and that authority cannot be delegated to an agent (such as through a Power of Attorney).

6.6 Correction of Administrative Error

The Secretary of the Military Department concerned (or designee) may correct any election or any change or revocation of an election when the Secretary considers it necessary to correct an administrative error. See Chapter 42.

7.0 DISCONTINUANCE OF PARTICIPATION

7.1 Discontinuance of SBP Participation on Second Anniversary

7.1.1. An SBP participant may choose to voluntarily discontinue SBP participation during a 1-year period which begins on the second anniversary of the date of commencement of retired pay. The date of commencement of retired pay is defined as the date that the retiree becomes entitled to retired pay. A recall to active duty following retirement will not alter this date.

7.1.2. An SBP participant who is eligible to discontinue participation must send a written request to the Defense Finance and Accounting Services (DFAS) on a DD 2656-2. A request for information or a request for termination that is not on a DD 2656-2 is not considered a valid request to discontinue.

7.1.2.1. A married participant may not discontinue spouse coverage without the spouse's written concurrence, unless it is established that the spouse's whereabouts cannot be determined, or that, due to exceptional circumstances, obtaining the spouse's concurrence would be inappropriate. In exceptional circumstances, such as mental or physical incapacitation of the spouse, DFAS requires the appropriate documentation such as a physician's statement, which attests to the spouse's mental or physical incapacitation. Additionally, the incapacity must exist continuously since the date of the member's request.

7.1.2.2. If the SBP participant is providing former spouse coverage based on a court order, an amended court order should accompany the request, even if the former spouse concurs with the request.

7.1.3. If termination is not otherwise prohibited by ***10 U.S.C. § 1448***, a spouse or former spouse who concurs in the request for termination is considered notified in accordance with the law. A spouse or former spouse who changes his/her mind after concurrence has 30 days from the date of the first request to submit a letter withdrawing their concurrence. If concurrence is withdrawn within 30 days, the request to withdraw from SBP participation is void. The concurrence of the former spouse is applicable even though the coverage may be currently in a suspended status due to the former spouse's remarriage. Child concurrence is not required when a member elects to discontinue SBP participation for child coverage.

7.1.4. DFAS must ensure that a natural person or former spouse who is not required to concur in the request for termination is notified of the termination of SBP coverage by sending a letter to such beneficiary at the address in the retired member's file.

7.1.5. A member's participation terminates on the first day of the month following the month in which DFAS receives a request for discontinuance. Any premiums deducted for periods on or after the effective date must be refunded and the member notified of the final action concerning termination of coverage.

7.1.6. A member may withdraw the request to discontinue participation within 30 days of having submitted such request to DFAS. The 30-day period begins on the date that DFAS considers the withdrawal request received. Generally, this is the received date stamped on the DD 2656-2 by DFAS.

7.1.6.1. To withdraw the request to discontinue SBP participation, the member must notify DFAS by a legible, signed, written notice. The request must identify the member by name and social security number and state that the member no longer wants to discontinue SBP participation. When available, the request should include a photocopy of the original DD 2656-2.

7.1.6.2. If the member withdraws a request to discontinue participation within the prescribed 30-day period, the member's participation will not be discontinued. If the withdrawal notice is received after the prescribed date, it will have no effect, and the member must be so notified within 30 days. If the member provides proof of the date of mailing and such date is favorable to honoring the member's withdrawal request, the date of mailing serves as the date submitted.

7.1.6.3. If the member effectively withdraws a request to discontinue participation, that member must be so notified within 30 days. If participation had already been discontinued, it must be reinstated as though no break in coverage existed. Premiums not collected or paid, or that were refunded will be collected from the member's retired pay and the member notified of the final action concerning participation.

7.1.7. Once participation is discontinued under this provision, no benefits may be paid in conjunction with the member's previous participation. No refund of any premiums properly collected will be made.

7.1.8. A member who discontinues SBP participation pursuant to this paragraph may not later resume coverage or elect SBP coverage upon acquisition of another class of beneficiary.

7.2 Voluntary Termination of Coverage

7.2.1. A member who is participating in SBP with coverage for a natural person with an insurable interest (not a former spouse) may voluntarily terminate their participation in SBP.

7.2.2. A member considering termination of insurable interest coverage under RCSBP should contact the responsible agent at DFAS or the Military Service Reserve Component Personnel Center (or an appropriately determined office for non-DoD Uniformed Services).

7.2.3. A member who is eligible and wants to terminate coverage may send a written request to the responsible agent identified in subparagraph 7.2.2. The request, signed by the

member, must identify the member and state that the member wants to terminate SBP participation. A request for information is not a request to terminate SBP participation.

7.2.4. When the responsible agent receives a request from an SBP participant eligible to terminate coverage, the agent will determine whether the request is for information or actually is a request to terminate participation. In either case, the member will be mailed two fact sheets that explain the procedures for terminating participation, the advantages and disadvantages of participation, and the disadvantages of terminating participation. If the request is determined to be a request for termination, the member will be advised in the cover letter that a request for termination can be withdrawn within 30 days of the date of that letter.

7.2.5. No premiums are refunded as a result of terminating coverage. No premiums will be charged after the effective date of termination unless the member had RCSBP coverage. See Chapter 54, for recomputation of the original "add-on" portion of the RCSBP premium when member terminates coverage before age 60.

7.2.6. A member who wishes to withdraw the request to terminate participation must notify the Secretary concerned (or designee) using a legible, signed written notice to the member's responsible agent in subparagraph 7.2.2. The notice must identify the member's name and social security number and state that the member no longer wants to discontinue SBP participation. Such requests are handled in accordance with the provisions of subparagraphs 7.1.6.2 and 7.1.6.3.

7.2.7. The member may only resume SBP participation by electing coverage for a spouse or dependent child within 1 year of acquiring the family member.

7.3 Invalidation of Certain SBP Elections Made by Disability

7.3.1. The SBP elections for a natural person with an insurable interest, other than for a person who is a qualified dependent, is void for members who retired for reasons of disability under 10 U.S.C., Chapter 61, if they die within 1 year after the disability retirement date with the cause of death being related to the disability for which the member retired.

7.3.2. For voided election, SBP deducted from the member's retired pay is refunded to the person to whom the SBP annuity would have been paid pursuant to such election.

7.4 Withdrawal by a Totally Disabled Member

7.4.1. Any person who elects to participate in SBP with a service-connected disability rated by the VA as totally disabling and is so rated for 10 or more continuous years (or, if so rated for a lesser period, at least 5 years from the date of last discharge or release from active duty) may request to discontinue participation in the Plan by submitting a request to the Secretary concerned (or designee). The initial date for determining the 5- or 10-year period is the effective date of the VA rating of total disability. Validation must be obtained from the VA if not available from the individual.

7.4.1.1. The request for discontinuance must be with the written concurrence of the beneficiary or beneficiaries under the Plan. Should that beneficiary be a dependent child, written concurrence may be accepted from a parent, stepparent, foster parent, guardian, or an individual appointed by a court of competent jurisdiction.

7.4.1.2. The Secretary concerned must furnish to each person requesting discontinuance a written statement of the advantages of participating and the possible disadvantages of discontinuing participation in the plan.

7.4.1.3. A person may withdraw the discontinuance request within 30 days of submission to the Secretary concerned.

7.4.1.4. Participation in the Plan and cost of SBP coverage is discontinued on the first day of the month after receipt of the request by the Secretary concerned.

7.4.1.5. If a member dies after the date that the request for withdrawal has been received by the Secretary concerned, but before the effective date of that request, the beneficiary is entitled to the annuity.

7.4.2. Upon the death of a person who has discontinued participation in the Plan who is a totally disabled member, a refund of SBP amounts deducted from retired or retainer pay without interest will be made to the widow or widower.

7.4.3. Any person who has discontinued participation in the Plan may again elect to participate if the VA reduces the disability rating to less than total and the person applies within 1 year to participate in the Plan and includes the required information determined by the Secretary concerned.

7.4.3.1. Participation in the Plan and reduction in pay is effective the first day of the month after receipt of the application to the Secretary concerned on the DD 2656. Documentation attesting to the less than total disability rating must accompany the application.

7.4.3.2. If the member applies for resumption of participation, but dies before the effective date, the beneficiary is entitled to an annuity on the date the election would have been effective.

7.4.3.3. Resumption of participation is limited to the type and level of coverage initially elected allowing for beneficiary changes as otherwise provided for in Chapters 42 through 54.

8.0 OPEN SEASON PERIODS

8.1 Regular Recurring Open Season for Enrollment and Discontinuation

There are no regular recurring open season periods. Open seasons must be specifically prescribed by law. The most recent SBP open season, which was authorized by

section 643 of PL 117-263, began December 23, 2022, and ended January 1, 2024. This open season allowed eligible members to participate or discontinue participation. For this open season, an "eligible member" is a retired member or former member who, on December 22, 2022, were entitled to retired pay, or would be entitled to retired pay but for the member or former member was under the eligibility age to receive retired pay. In the absence of such a legislatively prescribed period, members may only enroll or disenroll as specified in this chapter.

8.2 NDAA FY 2023 SBP Open Season for Enrollment

The SBP Open Season allowed for eligible members who, on December 22, 2022, were not currently enrolled in SBP or RCSBP to enroll. For a member who enrolled during the SBP Open Season, the law generally required the member to pay retroactive SBP premium costs that would have been paid if the member had enrolled at retirement (or enrolled at another earlier date, depending on the member's family circumstances). See the ***Implementing and Procedural Guidance for Section 643 of PL 117-263, December 23, 2022, Survivor Benefit Plan Open Season***, dated March 9, 2023.

8.3 NDAA FY 2023 SBP Open Season for Discontinuation

The SBP Open Season also allowed eligible members who were currently enrolled in either SBP or RCSBP to permanently discontinue their SBP coverage. The law generally required the covered beneficiaries to concur on the ***SBP and RCSBP Open Season Election to Discontinue Participation*** form in writing with the election to discontinue. Previously paid premiums will not be refunded. See the Implementing and Procedural Guidance for Section 643 of PL 117-263, December 23, 2022, Survivor Benefit Plan Open Season, dated March 9, 2023.

CHAPTER 44

SURVIVOR BENEFIT PLAN (SBP) – BENEFICIARIES

1.0 GENERAL

1.1 Purpose

The eligible beneficiaries under the SBP (also referred to as the Plan) are the spouse and/or dependent children, a former spouse and/or dependent children, or a natural person with an insurable interest, providing they meet certain eligibility requirements. The election, if required, must be received within the time period allowed. An individual may not receive more than one annuity as the surviving spouse or former spouse of different members (see Chapter 46); however, an individual may be the recipient of two or more annuities concurrently, as long as only one is a spouse or former spouse annuity. For example, the child of two members could receive an annuity from each parent, or an individual who was a spouse beneficiary of one member could also be a beneficiary of another member under the insurable interest category.

1.2 Authoritative Guidance

The pay policies and requirements established by the DOD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 10 and 38. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ELIGIBLE BENEFICIARIES

2.1 Spouse (Including the Spouse of a Common-Law Marriage)

2.1.1. If the spouse is married to a retiree on the date of retirement, the spouse is an eligible beneficiary. The spouse is automatically designated as the beneficiary even if the beneficiary data is not received before the date of retirement. However, the spouse is not automatically the beneficiary if prior to retirement the member elects, with the spouse's written concurrence, to not participate in SBP or to provide child, but not spouse coverage.

2.1.2. If the member elected spouse coverage at retirement and the member’s previous spouse has become ineligible for SBP due to death or divorce, the spouse who marries the member after the date of retirement is the eligible beneficiary. Spouse coverage is resumed upon the first anniversary of remarriage or birth of a child of that remarriage, whichever is earlier, unless the member elects not to resume spouse coverage within 1 year of the remarriage.

2.1.3. If the spouse marries the member after the date of retirement, and the member did not have a spouse at retirement and did not elect insurable interest coverage, the spouse is an eligible beneficiary only if the member elects to provide spouse SBP coverage within 1 year of the marriage. The spouse coverage is effective on the first anniversary of the marriage or birth of a child of that marriage, whichever is earlier.

2.1.4. If the spouse is married to a retiree at the time of retirement and the member elected spouse coverage, then divorced (and no former spouse coverage is established), and later remarried the same spouse, the spouse becomes eligible immediately upon remarriage provided spouse coverage was resumed. However, the member may elect to decline the resumption of spouse coverage within one year of remarriage.

2.1.5. If the spouse marries a retiree after the date of retirement (and spouse coverage is elected), then divorces (and no former spouse coverage is established), and later remarries the member, the spouse becomes eligible upon the first anniversary of remarriage or date of the birth of a child of that remarriage. However, the member may elect to decline the resumption of spouse coverage within one year of remarriage.

2.1.6. A spouse who is married to a member who dies in the line of duty while on active or inactive duty, or to a retirement eligible member regardless of the line of duty determination, is an eligible SBP beneficiary. See Chapters 46 and 54.

2.1.7. A member may change election coverage from a natural person with insurable interest to coverage for a spouse within 1 year of marriage. The spouse becomes an eligible beneficiary upon the first anniversary of the marriage or the date of birth of a child of that marriage, whichever is earlier, provided the member changes to spouse coverage. Until the spouse and/or child are eligible, the previously elected class of beneficiary remains eligible.

2.1.8. A member may change election coverage from a former spouse to coverage for a spouse in accordance with Chapter 43, paragraph 6.2 at any time following remarriage, provided the former spouse is still living at the time the Secretary concerned receives the member's election. The spouse becomes an eligible beneficiary on the date of the election receipt and the associated premium is effective on the first day of the month following receipt of election.

2.2 Children (Including Children of a Common-Law Marriage)

2.2.1. Child is an Eligible Beneficiary. The child is an eligible beneficiary only if the child is:

2.2.1.1. Unmarried and:

2.2.1.1.1. Under age 18 (including a child serving on active duty in the Uniformed Services);

2.2.1.1.2. At least 18 but under 22 and pursuing a full-time course of study in a recognized educational institution; or

2.2.1.1.3. Incapable of self-support because of a physical or mental incapacity, which existed before the child's 18th birthday or was incurred before age 22 while pursuing a full-time course of study; and

2.2.1.2. A child of the member, which includes:

2.2.1.2.1. A child determined by a paternity test or a court of competent jurisdiction to be a child of the member (documentation will be required to substantiate a claim);

2.2.1.2.2. An adopted child; or

2.2.1.2.3. A stepchild, foster child, or recognized natural child, if that stepchild, foster child, or recognized natural child lived with the retiree in a regular parent-child relationship.

2.2.2. Special Eligibility Rules for Child Seeking Full-Time Course of Study

2.2.2.1. A child whose 22nd birthday occurs before July 1st or after August 31st of a calendar year, and while regularly pursuing such a course of study or training, is considered to have become 22 years of age on the first day of July after that birthday.

2.2.2.2. The eligibility of a child over the age of 18 terminates if the child does not maintain a certified program of full-time course of study or training in a high school, trade school, technical or vocational institute, junior college, college, university, or comparable recognized educational institution. A recognized educational institution means the high school, trade school, state law compliant home school (effective May 8, 2013), technical or vocational institute, junior college, college, university, or comparable educational institution. The term also includes home schools that operate in compliance with the compulsory attendance laws of the states in which they are located, whether treated as private schools or home schools under state law. The term "home school" is limited to courses of instruction for grades kindergarten through 12 only. If the child resumes schooling as described, eligibility is reinstated (see Chapter 46).

2.2.3. Special Eligibility Rules for Foster Child. A foster child must have resided with the retiree at time of death, received over one-half of his or her support from the retiree, and not be cared for under a social agency contract.

2.2.4. Relatives or Grandchildren. A relative of the member (such as a grandchild) may qualify as an eligible child beneficiary if a foster parent/foster child relationship exists. Adoption of a grandchild is not required for the member to designate that child as an eligible child beneficiary.

2.2.5. Child of Former Spouse. A child of the member and the former spouse is an eligible child beneficiary, if the member elects former spouse and child coverage. If a member who elected spouse and child coverage later divorces, the child coverage continues after the divorce. However, if the coverage is changed to provide coverage for the former spouse only, the child coverage will not continue. The election of former spouse coverage will terminate the child coverage unless the new coverage elected includes both former spouse and child coverage.

2.2.6. Active or Inactive Duty. A child of a member who died on active or inactive duty is an eligible beneficiary provided:

2.2.6.1. There is no eligible former spouse established by a court order;

2.2.6.2. There is no eligible surviving spouse; or

2.2.6.3. The Service Secretary has determined the annuity is payable to the child(ren) in lieu of the surviving spouse. See Chapters 46 and 54.

2.2.7. Termination by Marriage. Child eligibility terminates by marriage of the child, regardless of whether the child is an incapacitated child entering into a valid marriage with another incapacitated individual. The termination of a child's marriage by death or divorce does not serve as a basis for reinstating child coverage, regardless of age or school attendance. An annulment of the child's marriage which renders the marriage void or invalid, or a judicial decree by a court of competent jurisdiction declaring the marriage void, may serve as a basis for reinstating child coverage.

2.2.8. Child Entering Active Duty. The child of a deceased member who is under 18 years of age and serving on active duty in a uniformed service is an eligible beneficiary until their 18th birthday even though they are provided pay, quarters, and subsistence by the Government.

2.2.9. Child Serving as a Cadet or Midshipman at Service Academy or Scholarship Student. The child of a deceased member who is under age 22 and serving as a cadet or midshipman at a service academy, or are enrolled in an institute of higher learning under a military scholarship program, is an eligible beneficiary even though they provided pay, quarters, and subsistence by the Government.

2.3 Spouse and Children

Eligibility requirements are as shown in paragraphs 2.1 and 2.2.

2.3.1. General. The spouse is the primary beneficiary with coverage passing to the children if the spouse remarries before age 55, dies, or otherwise becomes ineligible. If the spouse again becomes eligible due to a remarriage ending in death or divorce, the annuity to the spouse resumes.

2.3.2. Death on Active or Inactive Duty. If the annuity is payable because the member dies on active or inactive duty, and there is no eligible spouse or former spouse, the annuity will be paid to any dependent children. In the case of a surviving spouse and children, the Service Secretary may pay the annuity to the member's dependent children in lieu of an annuity to the spouse. See Chapters 46 and 56 and subparagraph 2.2.6.

2.4 Former Spouse

A former spouse is an eligible beneficiary if:

2.4.1. The former spouse was the member's former spouse when the member became eligible to participate in the Plan and the member elected the former spouse as beneficiary or the former spouse submits a valid deemed election (see Chapter 43); or

2.4.2. The former spouse was not the member's former spouse at the time the member became eligible to participate in the Plan, and the prior spouse election is changed to provide coverage for the former spouse or the former spouse submits a valid deemed election pursuant to Chapter 43. A former spouse acquired after the member became eligible to participate in the Plan may only be an eligible beneficiary if married to the member for at least 1 year or the parent of an issue of the marriage.

2.4.3. See Chapter 46, paragraph 3.1 if the annuity is payable because the member dies on active or inactive duty.

2.5 Former Spouse and Child

If coverage includes child, then the former spouse is the primary beneficiary with coverage passing to the children if the former spouse remarries before age 55, dies, or otherwise becomes ineligible. The child is an eligible beneficiary provided the conditions in subparagraph 2.2.1 are met and the child resulted from the member and former spouse's marriage.

2.6 Natural Person with Insurable Interest

An eligible natural person with insurable interest is:

2.6.1. A person who has a reasonable and lawful expectation of pecuniary benefit from the continued life of the member. This category may include parents, stepparents, grandparents, grandchildren, aunts, uncles, sisters, brothers, half-sisters, half-brothers, dependent or non-dependent child or stepchild, or any other person more closely related than cousin;

2.6.2. Any individual having a reasonable and lawful basis, founded upon the relationship of parties to each other, either pecuniary or of blood or affinity, to expect some benefit or advantage from the continuance of the life of the retiree. Proof of financial benefit from the continuance of the life of the member is required for persons other than those listed in subparagraph 2.6.1; or

2.6.3. In the case of a member who dies on active or inactive duty and no other beneficiary is eligible to receive an annuity, a person who is, as determined by the Secretary concerned, a dependent of that member as defined in ***10 U.S.C. section 1072(2)***.

2.7 Special Needs Trust (SNT)

Service members and retirees who elect child coverage may direct payment of a SBP annuity for a dependent child to a SNT. If a SNT was not designated as a beneficiary prior to the death of the Service member or retiree who had previously elected child coverage, the disabled dependent child's surviving parent, grandparent, or court-appointed legal guardian or fiduciary may irrevocably elect to designate a SNT as beneficiary. A SNT is also known as a supplemental needs trust. A SNT is a legal instrument that can be established by certain individuals in order to ensure that assets are retained that can be used for the supplemental needs of a certain disabled individual, without disqualifying that individual from other Federal or State benefits which that person may be entitled to receive. To be an eligible beneficiary, the SNT must be for the benefit of a person considered disabled under ***42 U.S.C. § 1382c(a)(3)*** and in accordance with the SBP statute. The SNT must also comply with ***42 U.S.C. § 1396p(d)(4)***. See Chapter 46 for further information regarding qualifying a SNT as a beneficiary.

2.8 Exception

If the beneficiary is responsible for the death of the retiree, the annuity may not be paid to that person unless evidence is received which clearly absolves the beneficiary of any felonious intent.

CHAPTER 45

SURVIVOR BENEFIT PLAN (SBP) PREMIUMS

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide information on premiums for SBP coverage based on the type of coverage, as well as the computation and payment of these premiums.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Title 10. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in the reference section at the end of the chapter.

2.0 PREMIUM

2.1 Premium Coverage

The Survivor Benefit Plan was designed as a contributory plan. In return for protection of their dependents upon their death, participating retirees contribute premiums normally through deductions from their retired pay. The amount of the monthly premium is based on the type of coverage and the base amount (maximum or reduced), as elected by or on behalf of the member. The types of SBP coverage are natural person with an insurable interest (also referred to as natural interest person or NIP), spouse, spouse and child, child only, former spouse, and former spouse and child. Coverage may also be directed to a Special Needs Trust for the sole benefit of certain dependent children. SBP premiums normally increase at the same time, and by the same percentage, as do increases for retired pay or retainer pay.

2.2 Premiums Not Specified

All premiums not specified in this chapter are calculated by the DoD using assumptions (as to mortality and economic conditions) consistent with those approved by the DoD Board of Actuaries for the Valuation of the Military Retirement Fund. The Director of Military Compensation approves these calculations and resulting premiums. For more information, refer to the ***Office of the Actuary*** site.

2.3 Effective Date of Premium

See Table 45-2 or Table 45-3 as applicable.

2.4 Cost of Living Adjustment (COLA)

SBP premiums normally increase at the same time, and by the same percentage, that retired pay increases by COLA. When the payment of increased retired pay resulting from a COLA is delayed, the increase to SBP premiums will occur at the same time the retired pay is increased rather than the effective date of the COLA increase (or the date that the retired pay would have increased if the retired member was currently in receipt of retired pay).

3.0 BASIC SPOUSE/FORMER SPOUSE PREMIUM CALCULATION

3.1 Initial Premium Calculation

There are two methods for calculating the initial premium for the standard SBP annuity coverage for a spouse or former spouse. These methods are:

3.1.1. An amount equal to 6.5 percent of the base amount (see Chapter 42, paragraph 4.1), and

3.1.2. An amount equal to 2.5 percent of a threshold-amount plus 10 percent of the difference between the base amount and the threshold-amount. The threshold-amount is adjusted at the same time and by the same percentage as the average increase in basic pay. See paragraph 3.4. The original threshold-amount of $300 has been increased by the same percentage increase as basic pay since October 1, 1985.

3.2 Premium Calculation Before March 1, 1990

3.2.1. A person who became a member before March 1, 1990, or who is entitled to disability or non-regular (Reserve) retirement, is entitled to whichever method is more favorable as described in subparagraphs 3.1.1 and 3.1.2.

3.2.2. For a person who first participates in SBP for spouse or former spouse coverage before March 1, 1990, the initial premium was computed on a standard cost formula of 2.5 percent of the threshold-amount, plus 10 percent of the base amount in excess of the threshold-amount. The threshold-amount is increased as set out in paragraph 3.4.

3.2.3. If the individual first became a member of a uniformed service before March 1, 1990, is providing spouse coverage, and the SBP premium exceeds 6.5 percent of the base amount, the SBP premium was recomputed effective March 1, 1990, on the flat-rate reduction formula of 6.5 percent.

3.3 Premium Calculation on or After March 1, 1990

Effective March 1, 1990, the initial SBP premium formula for spouse or former spouse coverage for a member who did not have a disability or non-regular (Reserve) retirement became 6.5 percent of the base amount as described in subparagraph 3.2.3.

3.4 Threshold-Amount Increase

The threshold-amount is increased by:

3.4.1. The same percentage as the increase in basic pay effective on or after October 1, 1985. The increase occurs at the same time. This applies to a retired member whose retired pay is computed on the basic pay rate in effect or after the effective date of such increase in basic pay; or

3.4.2. The same percentage as a COLA applied to the retired member's retired pay on or after October 1, 1985, if the retired member first participates in the SBP after the effective date of the COLA increase and after the effective date of the basic pay rates on which the retired member's retired pay is computed. This is in addition to the increase in subparagraph 3.2.1 and the increase occurs at the same time as the COLA increase.

4.0 COMPUTATION OF PREMIUMS

4.1 Spouse Only or Former Spouse Only

See Table 45-1, Rule 1.

4.2 Spouse and Child, Former Spouse and Child, or Child Only

If the SBP coverage is for spouse and child, former spouse and child, or child only, a formula must be applied against the base amount (or base amount times 55 percent before April 1983) to determine the charge for coverage of the child. The age of the youngest child is used to determine the premium. If there is an incapacitated child over 18 years of age and there also is a competent child over age 18 but younger than the incapacitated child, or there is an incapacitated child over age 22 who is eligible for SBP benefits and there are no other eligible children, then age 17 is used to determine the premium. The premium can be determined from the SBP Factor Tables by contacting Defense Finance and Accounting Service-Cleveland (DFAS-CL), Retired and Annuitant Pay Directorate. A cost computation can be obtained by contacting an SBP counselor at the nearest military installation. See Table 45-1, Rules 2 and 3.

4.2.1. The following steps are used to compute the premium:

4.2.1.1. Determine the age of the:

4.2.1.1.1. Retired member, spouse, and child for spouse and child coverage;

4.2.1.1.2. Retired member, former spouse, and child for former spouse and child coverage; or

4.2.1.1.3. Retired member and child for child coverage;

4.2.1.2. Determine the cost factor from the appropriate SBP Factor Tables;

4.2.1.3. Multiply the base amount by the factor to determine the child premium; then

4.2.1.4. Add the child premium to the spouse (or former spouse) premium.

4.2.2. The following are examples of computing premiums:

Example 1: A member retires on February 1, 2018, with 20 years of active service. The gross retired pay is $1,000.00. The retired member elects maximum coverage for spouse and child. Birth dates are February 1, 1979 (retired member); June 2, 1983 (spouse); and May 1, 2009 (child).

Step 1. Compute ages. Six months or more is considered a full year. Note: Months are computed in 30-day increments for pay purposes only.

Retired	20180201	Spouse	20180201	Child	20180201
Member	19790201		19830602		20090501
	390000		340729		80900
	(39)		(35)		(9)

Step 2. Using the SBP Factor Table as determined by the Department of the Actuary to locate the combination of a retired member age 39, spouse age 35, and child age nine. A cost computation can be obtained by contacting the DFAS-CL, Retired and Annuitant Pay Directorate or by contacting an SBP counselor at the nearest military installation.

Steps 3 and 4. Determine total premium:

Spouse premium:		
(Flat-rate formula)	$1,000.00	
	× .065	
	$ 65.00	$65.00
Child premium:	$1,000.00	
	x .00001	
	$ .01	+$ .01
Total Premium:		$65.01

Example 2: The spouse in Example 1 becomes an ineligible beneficiary on March 3, 2019. Coverage changes to child only.

Step 1. Recompute the ages for retired member and child.

Retired member	20190303	Child	20190303
	19790201		20090501
	400102		91002
	(40)		(10)

Step 2. The SBP Factor Table is used to locate the combination of a retired member age 40 and child age 10. The resulting factor is .0016.

Step 3. Determine total premium: $1,000.00 x .0016 = $1.60

Example 3a: The retired member elects spouse and child coverage (Example 1) at retirement on February 1, 2018. The spouse becomes an ineligible beneficiary (dies or divorces) and coverage changes to child only (Example 2) on March 3, 2019. The retired member marries a different spouse on May 14, 2019. The birth date for the new spouse is October 12, 1982. Spouse and child coverage resumes on May 14, 2020, unless the retired member elects not to resume spouse coverage. The new premium for spouse and child is effective on May 14, 2020. See Table 45-3, Rule 9 and Note 8.

Step 1. Recompute ages for retired member, spouse, and child.

Retired	20200514	Spouse	20200514	Child	20200514
Member	19790201		19821012		20090501
	410313		370702		110013
	(41)		(38)		(11)

Step 2. The SBP Factor Table is used to locate the combination of a retired member age 41, spouse age 38, and child age 11.

Steps 3 and 4. Determine the total premium:

Spouse premium:		
(Flat-rate formula)	$1,000.00	
	× .065	
	$ 65.00	$ 65.00
Child premium:	$1,000.00	
	× .00001	
	$ .01	+ $ .01
Total Premium		$ 65.01

Example 3b: The member elects spouse and child coverage at retirement on February 1, 2018 (Example 1). The spouse becomes an ineligible beneficiary and coverage changes to child only (Example 2) effective March 3, 2019. The retired member remarries on May 14, 2019. The birth date for the new spouse is October 12, 1982. Coverage would have resumed for the spouse and child on May 14, 2020, the first anniversary of the marriage; however, the spouse becomes the parent of issue by that marriage before the first anniversary. Coverage changes to spouse and child on the date the child is born of that marriage. The new premium is effective the first day of the month following the birth. See Table 45-3, Rule 9 and Note 8. Assume that the child is born March 27, 2019.

Step 1. Recompute ages for retired member, spouse, and child.

Retired	20190327	Spouse	20190327	Child	20190327
Member	19790201		19821012		20190327
	400126		360515		000000
	(40)		(36)		(00)

Step 2. The SBP Factor Table is used to locate the combination of a retired member age 40, spouse age 36, and child age 0.

Steps 3 and 4. Determine total premium:

Spouse premium:		
(Flat-rate formula)	$1,000.00	
	× .065	
	$ 65.00	$ 65.00
Child premium:	$1,000.00	
	× .00001	
	$.01	+ $.01
Total Premium		$ 65.01

Example 4: The retired member elects spouse and child coverage at retirement on February 1, 2018 (Example 1). The retired member divorces on March 3, 2019, and coverage changes to child only. See Example 2 for recomputation. The retired member elects coverage for former spouse and child based on a court order dated June 2, 2019, and received June 28, 2019. The premium for the former spouse and the child is effective July 1, 2018. The ages are recomputed on the date the election is received.

Step 1. Recompute ages.

Retired	20190628	Former	20190628	Child	20190628
Member	19790201	Spouse	19830602		20090501
	390427		350026		090127
	(40)		(35)		(10)

Step 2. Use The SBP Factor Table to locate the combination of a retired member age 40, spouse age 35, and child age 10.

Step 3. Determine the premium as in Example 1.

4.3 Natural Interest Person (NIP)

In some cases, the insurable interest category may include former spouse. The premium formula for the insurable interest category is 10 percent of retired pay plus 5 percent for each full 5 years the individual designated is younger than the retired member. However, the total insurable interest premium cannot exceed 40 percent and must be based on full retired pay. Refer to Table 45-1, Rule 4.

5.0 COLLECTION AND PAYMENT OF PREMIUM

Members electing SBP coverage must pay a premium for such coverage. Premiums are collected either through reduction of retired pay, deductions from the retired member's Combat-Related Special Compensation (CRSC), or direct remittance.

5.1 Payments

5.1.1. When Retired Pay is Sufficient. A retired member who receives enough retired pay to cover the premiums for SBP has those premiums withheld from his or her retired pay.

5.1.2. When Retired Pay is Not Sufficient or Not Paid

5.1.2.1. Not Sufficient. In the case of a person who has elected to participate in SBP and who has been awarded both retired pay and CRSC under 10 U.S.C. § 1413a, if a deduction from the person's retired pay for any period cannot be made in the full amount required, there shall be deducted from the person's CRSC in lieu of deduction from the person's retired pay the amount that

would otherwise have been deducted from the person's retired pay for that period. (See Chapter 42, paragraph 4.5).

5.1.2.2. Not Paid. If a person who has elected to participate in SBP has been awarded retired pay and is not entitled to that pay for any period, that person must remit the premium in the amount that would otherwise have been deducted from his pay for that period, except to the extent that the required deduction is made pursuant to subparagraph 5.1.2.1.

5.2 Waiver of Retired Pay

5.2.1. For any period in which the retired member is not receiving retired pay because of non-entitlement to or waiver of such pay or the pay received is not enough to cover the total cost of coverage, the payments are to be deducted from the retired member's CRSC or the retired member must remit the amount due to DFAS-CL. Premiums are due on the effective date of coverage. For example, member retires June 1; the first payment is due June 1, for the period June 1-30. A retired member who waives full retired pay for Veterans Affairs (VA) disability compensation may pay the premium by direct remittance or by deduction from the VA disability compensation payments (see Chapter 12, subparagraph 2.7.1).

5.2.2. If the retired member waives participation in the military SBP and elects participation in the civil service SBP, and the civil service waiver later becomes ineffective for any period for any reason, previous participation in the military SBP is resumed and military SBP premium is due from the retired member.

5.3 Emergency Officer's Retired List (EORL)

A retired member on the EORL may pay premiums by direct remittance or by deduction from EORL payments.

5.4 Active-Duty Recall

If a retired member is recalled to active duty for more than 30 days after a break in service, the retired member does not pay the premium while on active duty.

5.5 Active Judicial Duty

The retired member remains an SBP participant while on active judicial duty and is required to pay the SBP premiums while military retired pay is suspended.

6.0 SUSPENSION, CHANGE, AND TERMINATION OF PREMIUM

6.1 No Eligible Beneficiary

Premiums are suspended for spouse or former spouse coverage when there is no longer an eligible beneficiary. Premiums are also suspended for child coverage when there is no eligible child beneficiary (see Chapter 54 for Reserve Component Survivor Benefit Plan (RCSBP) child coverage).

6.2 School Nonattendance

If the SBP premium was adjusted or discontinued based on school nonattendance of the child beneficiary, the premium is adjusted retroactively to the first day of the month after the child resumed school attendance.

6.3 Premium Changes

The premium changes when:

6.3.1. Coverage is for spouse and child (or former spouse and child) and the last dependent child is no longer an eligible beneficiary. The premium for coverage is changed to spouse (or former spouse) only. The child coverage is suspended. See Table 45-3, Rule 8; or

6.3.2. Coverage is for spouse only, the covered spouse is no longer eligible, and the retired member remarries. Within 1 year after the retired member's remarriage, the retired member may:

6.3.2.1. Resume coverage;

6.3.2.2. Elect not to resume spouse coverage; or

6.3.2.3. Increase the base amount up to and including full retired pay for spouse or spouse and child coverage. The retired member may increase the base amount at any increment up to full coverage. An increase in level of coverage will result in an increased premium. When level of coverage is increased upon remarriage, a retired member must pay for premiums as if that level of spouse coverage had always been in effect. The retired member must pay for premiums which would have been charged had this level of coverage always been in effect less the amount of premiums already paid by the retired member. In addition, this amount owed will be charged with interest. Full coverage is based on full retired pay which means the spouse will receive 55 percent of the retirement pay. If lesser coverage is selected, then the spouse will receive 55 percent of the elected base amount. See Table 45-3, Rule 6;

Note: If no action is taken, coverage will resume at the same amount on the first day of the month following the first anniversary of the new marriage.

6.3.3. Coverage is for spouse and child and the spouse is no longer eligible or the coverage is for former spouse and child and the former spouse is no longer eligible. See Table 45-3, Rule 7, for computation for the child premium.

6.3.4. Coverage is for spouse at the time of the retired member's retirement (on or before March 21, 1974, for a pre-September 21, 1972, retired member), and the retired member subsequently divorces and then remarries that former spouse. The premium is effective the first day of the month following the remarriage, unless the remarriage is the first day of the month, then the premium is effective on the date of marriage;

6.3.5. Coverage is for spouse after date of retirement and the retired member subsequently divorces and then remarries that former spouse. The premium of coverage is resumed the first day of the month following the first anniversary unless the remarriage is the first day of the month, then the premium resumes on the first day of the first anniversary;

6.3.6. Coverage is for spouse or spouse and child and is changed to former spouse under Chapter 43. In the case of a person required to make the election by reason of a court order or the filing of which is after October 16, 1998, then the premium is effective the first day of the month after the date of that court order or filing. See Table 45-3, Rule 10; or

6.3.7. Coverage for spouse begins after the death of a covered former spouse. Upon electing coverage for a spouse after the death of a covered former spouse, the retired member may not increase or decrease the amount of coverage. The retired member must have been:

6.3.7.1. Married for at least 1 year on the date of former spouse's death. If the retired member had been married for at least 1 year on the former spouse's date of death, and the retired member makes a spouse election within 1 year of the former spouse's death, premiums will resume on the first day of the month following the death of the former spouse.

6.3.7.2. Married within the 1-year period preceding the date of death of the former spouse. If the retired member married within the 1-year period preceding the date of death of the former spouse and the retired member makes a spouse election within 1 year of the former spouse's death, premiums will resume on the first day of the month following the first anniversary of the marriage; or

6.3.7.3. Married after the death of the former spouse. If the retired member marries after the former spouse's date of death, and the retired member makes a spouse election within 1 year of the marriage, premiums will resume on the first day of the month following the first anniversary of the marriage.

6.4 Premium Termination

The SBP premium terminates for a NIP under the following circumstances:

6.4.1. When the beneficiary dies;

6.4.2. When the retired member terminates coverage for the NIP; or

6.4.3. On the date a spouse or child acquired after retirement becomes the eligible beneficiary if the retired member elected coverage for such spouse or child. The SBP premium is terminated as of the date shown in Table 45-4. See Chapter 43, section 7.0 for more information on termination procedures.

6.5 Voluntary Termination

If a retired member voluntarily discontinues SBP participation under Chapter 43, the premium terminates on the effective date of the election, which is the first day of the month following the date of the receipt of the request. Any premium deducted for periods on or after such effective date must be refunded and the retired member notified of the final action concerning termination of coverage.

6.6 Other Suspension and Termination Situations

See Table 45-4 for other suspension and termination of premium situations.

7.0 DELINQUENT SBP PREMIUMS

Interest is owed for any delinquent SBP premiums. The interest rate is a percentage that is compounded annually and based on assumptions approved by the DoD Board of Actuaries for the Valuation of the Military Retirement Fund. Any delinquent Retired Serviceman's Family Protection Plan (RSFPP) premiums existing on date of conversion to SBP continue with interest, until paid. Upon the death of a retired member, any delinquency, plus interest, is collected from the annuitant's benefits before payment of any annuity will commence.

8.0 PAID-UP SBP PREMIUMS AFTER 30 YEARS AND AGE 70

8.1 Paid-Up Premiums

8.1.1. Premiums for SBP participation are permanently paid up (no further reductions to retired pay or remittances) when a retired member attains age 70 and has paid 360 months of premium payments.

8.1.2. A retired member who became an SBP participant or increased the base amount coverage during April 1, 1992, through March 31, 1993, was required to pay the basic SBP premium and an additional premium, which was a percentage of the basic premium determined by the actuary. The additional premium accounted for the premiums the retired member would have paid if the

retired member had elected SBP at the earliest possible date. A retired member who paid the additional premium received credit towards the paid-up 360 months based upon the additional premium paid.

8.2 Coverage in Effect October 2008

Effective with the retired pay entitlement and SBP coverage in effect for the month of October 2008, SBP premium reductions will no longer be made if the retired member is a qualified SBP participant described in paragraph 8.3. Deposits of monthly SBP premiums made by an SBP participant during a period when the participant is not entitled to retired pay qualify as premium reductions.

8.3 Birthday Month

A retired member is a qualified participant for purposes of paid-up SBP coverage if the retired member is age 70 or older whose retired pay has been reduced for SBP coverage for 360 months or more. If the retired member's 70th birthday occurs later than the 360th month for which the retired member paid SBP premiums, no SBP premiums will be required for the month in which the member reaches age 70, regardless of the day on which that occurs in the month.

8.4 Effective Date

The first payment that can be affected is the payment for the period of retired pay entitlement beginning October 1, 2008 (due November 3, 2008).

*8.5 Open Season Buy-In Premium

8.5.1. A retired member who elected or changed SBP coverage during the open enrollment periods March 1, 1999, through February 29, 2000, and October 1, 2005, through September 30, 2006, was charged a one-time buy-in premium in addition to the prospective monthly premium. The buy-in premium was due and payable in a lump sum payment at the time the retired member filed the election. A retired member who paid the lump sum, buy-in premium received credit toward the 360 months as if the retired member's retired pay had been reduced monthly for SBP premiums.

8.5.2. A retired member who elected SBP coverage during the open enrollment period of December 23, 2022, through January 1, 2024, was charged a one-time buy-in premium in addition to the prospective monthly premium. The buy-in premium is the total amount by which the retired pay of the person would have been reduced if the person had elected to participate in the SBP at their first opportunity plus interest on such amount plus any additional amount necessary to protect the actuarial soundness of the DoD Military Retirement Fund. The buy-in premium was due and payable at the time a member filed an election to enroll in SBP, though members may have elected to pay a portion of the premium in installments over a 12-month period.

9.0 TAXABILITY OF PREMIUMS

A retired member whose pay is subject to tax reporting will, while in a pay status, receive the tax benefit through a reduction in the taxable income reported to the Internal Revenue Service. No reduction against the taxable income can be given for interest paid on the delinquent premiums.

10.0 INCOME EXCLUSION

For federal income tax purposes, premiums for SBP/RSFPP coverage are excluded from taxable income when they are directly withheld from the retired member's gross retired pay. Only premiums directly withheld from the retired member's pay qualify for this exclusion.

Table 45-1. Computation of SBP Premium on Establishment

RULE	If beneficiary is	the formula is
1	spouse or former spouse (spouse category)	6.5 percent of the base amount (Note 1) or 2.5 percent of the threshold-amount (Note 2), as adjusted, plus 10 percent of the remaining base amount. If gross retired pay is less than the threshold-amount, use 2.5 percent of gross retired pay.
2	spouse (former spouse-spouse category) and child (Notes 3 and 4)	determined under Rule 1, plus an additional premium for child computed by applying the factor from the SBP Factor Table against the base amount. See section 4.0 for examples.
3	child only (Notes 3 and 4)	shown in the SBP Factor Table, based on the ages of the retired member and youngest dependent child, against the base amount. See section 4.0 for example.
4	NIP or former spouse (NIP category)	10 percent of the retired member's gross retired pay if the age of the beneficiary is equal to or greater than retired member's age. If the beneficiary's age is less than retired member's age, the formula is 10 percent of the retired member's gross retired pay, plus an additional 5 percent of the gross retired pay for each full 5 years that the beneficiary is younger than retired member. Six months or more is not counted as an additional year. Total premium may not exceed 40 percent of gross retired pay.

NOTES:

1. Retired members who first became a member of a uniformed service on or after March 1, 1990, and receive a regular retirement will have their spouse premium computed under the flat-rate formula of 6.5 percent of the base amount. The following retired members are entitled to spouse premium computation under the formula that provides the lesser premium:
   a. A retired member who is entitled to retired pay based on disability;
   b. A retired member who is entitled to retired pay based on a non-regular service retirement; or
   c. A retired member who first became a member of a uniformed service before March 1, 1990.
2. The threshold-amount is subject to indexing equal to the percentage increases for active-duty basic pay rates.
3. Do not recalculate premiums when a child different from the child first established as the youngest child becomes the youngest eligible child.
4. For a dependent child the age of the youngest child is used in the formula. Exception: Use age 17 for an incapacitated child over 18 years of age when there is a competent child also over 18, but younger than the incapacitated child, or there is an incapacitated child over age 22 who is eligible for SBP benefits and there are no other eligible children.

Table 45-2. Effective Date of Premium - Initial Election

RULE	If on the date of election (pre-September 21, 1972, retired member) or date of retirement (post-September 21, 1972, retired member), the retired member has	the effective date of premium is first day of the month following			
		retirement	election by the Secretary of the Military Department concerned	receipt of the election	the first anniversary of the marriage
1	spouse, spouse and child, child only, or NIP (pre-September 21, 1972, retired member)			X	
2	spouse, spouse and child, child only, or NIP (post-September 21, 1972, retired member)	X			
3	no dependents, later marries (Note 1)				X (Note 4)
4	no dependents, later acquires dependent child (Note 1)			X (Note 2)	
5	no dependents, later marries and acquires dependent child (Note 1)			X (Note 3)	X (Note 5)
6	been declared mentally incompetent (Secretary may make election)		X		
7	former spouse (post-September 7, 1982, retired member) or former spouse and child (post-February 28, 1986, retired member)	X (Note 6)			

Notes:

1. Retired member must elect within 1 year of marriage or acquiring dependent child.
2. Compute the child premium using the ages of the retired member and the youngest child as of date of receipt of the election.
3. The child only premium is established and continues until the first of the month following the first anniversary of the marriage. Compute child only premium using the ages of the retired member and youngest child on date of receipt of the election. When the spouse becomes an eligible beneficiary, child only coverage is changed to spouse and child coverage and compute the new premium using the ages of the retired member, spouse, and the youngest child on the date the spouse becomes an eligible spouse beneficiary.
4. If the first anniversary is on the first day of the month, the premium is charged for that month.
5. If a child is born of that marriage before the first anniversary, the premium for spouse and child coverage is effective the first of the month following the birth of the child. If the birth or anniversary is the first day of the month, the premium is charged for that month.
6. The effective date of the premium for an election for a former spouse election made from September 8, 1982, through January 31, 1983, is February 1, 1983.

Table 45-3. Effective Date for Change of Premium

RULE	If on the date of election (pre-September 21, 1972, retired member) or date of retirement (post-September 21, 1972, retired member), the retired member has	the effective date of premium is first day of the month			
		following receipt of election.	following family status change.	following first anniversary of (re)marriage.	after the loss of eligibility or October 1, 1976, whichever is later.
1	spouse, no child, later acquires child (Notes 1 and 2)	X			
2	no spouse, child only, later acquires spouse (Notes 1, 7 and 8)			X	
3	NIP (or former spouse), later marries (Notes 1, 7, 8 and 11)			X	
4	NIP (or former spouse), later acquires child (Notes 1, 3, 8 and 11)	X			
5	NIP (or former spouse), later acquires spouse and child (Notes 1, 4, 7, 8 and 11)	X (child)		X (spouse)	
6	spouse, loses spouse, remarries (Notes 1, 7, 8 and 9)			X	
7	spouse and child (or former spouse and child), loses spouse (or former spouse), premium is recomputed for child (Notes 5 and 9)				X
8	spouse and child (or former spouse and child), loses child (Note 6)		X		X
9	(a) Spouse and child, loses spouse, premium recomputed for child, retired member later marries (Notes 4, 7, 8 and 11) (b) Spouse or spouse and child, divorces and changes to former spouse and child, loses former spouse, premium recomputed for child, retired member later marries (Note 12) (c) Former spouse and child, loses former spouse, premium recomputed for child, retired member later marries and was not married at retirement (Note 13)		X (child only until first anniversary)	X	X

Table 45-3. Effective Date for Change of Premium (Continued)

RULE	If on the date of election (pre-September 21, 1972, retired member) or date of retirement (post-September 21, 1972, retired member), the retired member has	the effective date of premium is first day of the month			
		following receipt of election.	following family status change.	following first anniversary of (re)marriage.	and after the loss of eligibility or October 1, 1976, whichever is later.
10	spouse and/or child, acquires former spouse, changes coverage to former spouse or former spouse and child	X			
11	former spouse or former spouse and child, loses former spouse, changes coverage to spouse or spouse and child	X			
12	elected former spouse deemed by Secretary concerned (Note 14).				
13	been declared mentally incompetent but later adjudged competent may, within 180 days, change a Secretarial election	X			

Notes:

1. Retired member must elect within 1 year of (re)marriage or acquiring the dependent child or child. If the election change is from former spouse coverage to spouse coverage, there is no time limitation on the election period so long as the former spouse is still living. If the retired member elects to change from former spouse to spouse coverage after 1 year of remarriage, the coverage is effective on the date of election receipt and the associated premium is effective on the first day of the month after election receipt.
2. Compute premium for additional child using ages of retired member, spouse, and youngest child as of date of receipt of election.
3. Compute premium for child using ages of retired member and youngest child as of date of receipt of election.
4. Child only premium is effective until the first of the month following the first anniversary of the (re)marriage. Compute child only premium using ages of retired member and youngest child on the date of receipt of the election or on the day after the date spouse eligibility is lost (Rules 5 and 8). When spouse becomes an eligible beneficiary, child only coverage is changed to spouse and child coverage and compute child premium using ages of retired member, spouse, and youngest child on date spouse becomes an eligible spouse beneficiary.
5. Compute child only premium using ages of retired member and youngest child as of the first date following the date the spouse (or former spouse) became an ineligible beneficiary or October 1, 1976, whichever is later. If eligibility was lost the first day of the month, the child only premium begins the following month.
6. If the retired member gives exact date of loss of last dependent child, the change in premium is effective the first of the month following date provided. If the exact date is not given, use first day of the month after receipt of notification.

Table 45-3. Effective Date for Change of Premium (Continued)

7. The premium for spouse coverage is effective on the first day of the month following the birth of the child of that marriage if earlier than first anniversary of the marriage.
8. If birth or anniversary is the first day of the month, the premium is effective that month.
9. Before enactment of PL 94-496, October 14, 1976, the deduction for spouse premium continued past the date spouse became an ineligible beneficiary.
10. The retired member must make election within 1 year of the date of a decree of divorce, dissolution, or annulment of marriage to spouse. Election for former spouse only may not be effective before September 24, 1983 (earliest day for premium is October 1, 1983). Election for former spouse and child may not be effective before March 1, 1986 (earliest date for premium is March 1, 1986).
11. An election to terminate coverage for a NIP premium, a former spouse, a spouse or spouse and child must be done in accordance with Chapter 43.
12. If a retired member elects former spouse (or former spouse and child) coverage, and if the retired member is married at the time the former spouse dies, the retired member may elect spouse coverage within 1 year of the death of the former spouse (10 U.S.C. § 1448(a)(7)(B)(ii)).
13. If a retired member elects former spouse or former spouse and child coverage at the time the retired member becomes eligible to participate (10 U.S.C. § 1448(b)(2)), but is not married when the retired member becomes eligible to participate and remarries after the former spouse dies, the retired member may elect spouse coverage within 1 year of the marriage to that spouse (10 U.S.C. § 1448(a)(5)).
14. The effective date of premium and coverage is on the later of: (a) retired member's retirement date; (b) the first day retired member could have voluntarily made such an election; or (c) the first day of month after the effective date of court order involved.

Table 45-4. Suspension and Termination of Premium

RULE	If a retired member	the premium is	with an effective date of the	and the retired member is
1	is deceased	terminated	date of the retired member's death.	
2	is recalled to active duty for more than 30 days	suspended	day before entry on active duty	not required to remit premium for coverage while on active duty.
3	waives retired pay for a civil service retirement	suspended	waiver as furnished by retired member	provided coverage elected under civil service retirement.
4	is removed from the Temporary Disability Retired List (TDRL) and retired pay is terminated (Note 1)	terminated	removal from the TDRL	not entitled to a refund of prior premiums.
5	elected for child and the last dependent child is no longer an eligible beneficiary (Note 2)	terminated	first of the month after loss of eligibility (Notes 3 and 4)	due a refund from first of month after loss of eligibility (Note 5).
6	who has been declared mentally incompetent is restored to competency and, within 180 days, revokes election made on his or her behalf	terminated	first of month after receipt of election	not due a refund for period of coverage.
7	elected for spouse (or former spouse) and spouse (or former spouse) becomes an ineligible beneficiary	suspended	first day of month after that in which spouse (or former spouse) became an ineligible beneficiary.	
8	elected coverage for a NIP (or former spouse in NIP category) who dies before the retired member	terminated	last day of month in which beneficiary dies.	
9	elected coverage for a NIP (not a former spouse) and retired member discontinues participation from the Plan (see Chapter 54, section 7.0 for the Reserve Component Survivor Benefit Plan participant).	terminated	first day of month after receipt of request.	

Table 45-4. Suspension and Termination of Premium (Continued)

RULE	If a retired member	the premium is	with an effective date of the	and retired member is
10	discontinues participation between the second and third anniversary of the date of retirement	Terminated	first day of month after receipt of request.	
11	is age 70 and has paid 360 monthly premiums	Terminated	later of: (a) The premium for October 2008; (b) First day of the month after the 360th monthly premium; or, (c) The first day of the month after the retired member reaches age 70.	
12	elected former spouse coverage (or former spouse coverage was deemed) after retirement or eligibility to participate and former spouse dies, and retired member did not change former spouse to spouse coverage while former spouse was still living (Note 6)	Terminated	last day of the month in which the beneficiary dies	no longer a participant in the SBP.
13	discontinues SBP participation due to a qualifying VA disability rating	Terminated	first day of the month following receipt of the retired member's request	not entitled to a refund of prior premiums. (However, after the member's death, prior premiums may be payable to a surviving spouse depending on the circumstances).

Notes:

1. If the retired member returns to active duty and is subsequently retired, a new election must be made. Any election in effect while on TDRL is void.
2. A child is no longer an eligible beneficiary when he or she dies, marries, is between ages 18 and 22 and not attending school, or has reached age 22 (see Note 3).

Table 45-4. Suspension and Termination of Premium (Continued)

3. A student whose 22nd birthday occurs before July 1st or after August 31st of any calendar year is considered age 22 on July 1st after that birthday and the premium is discontinued.
4. When the birthday is the first day of the month, the premium terminates the first day of that month.
5. If the retired member gives the exact date of loss of last dependent child, the cost is terminated the first of the next month. If the exact date is not given, use the first day of month after receipt of notification.
6. Once an election from spouse or spouse and child is changed to former spouse or former spouse and child, all previous coverage under the Plan terminates (10 U.S.C. § 1448(b)(3)). In that instance, if the retired member remarries, an election from former spouse coverage to spouse coverage can only be made while the former spouse is still living. However, if a retired member elects former spouse or former spouse and child coverage at the time the retired member becomes eligible to participate (10 U.S.C. § 1448(b)(2)), but is not married when the retired member becomes eligible to participate and remarries after the spouse dies, the retired member may elect spouse coverage within 1 year of the marriage to that spouse (10 U.S.C. § 1448(a)(5)).

VOLUME 7B, CHAPTER 46: "SURVIVOR BENEFIT PLAN (SBP) – ANNUITIES"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated June 2022 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current administrative instructions.	Revision
2.0	Removed references to Dependency and Indemnity Compensation (DIC) since it is repealed effective January 1, 2023. Updated in-text citations.	Revision
3.2	Updated and added clarification for "Qualified Annuitants."	Revision
5.0	Removed details as the DIC offset has been repealed. Provided instruction for finding archived rates.	Revision
12.0	Renamed and provided updated instruction for the verification of certain annuitants prior to August 2023.	Revision
13.0	Renamed and provided updated instruction for the verification of certain annuitants effective August 2023.	Revision
16.0	Relocated the legislative changes from section "1.0 General" to a new section "16.0 Legislative Changes."	Revision
Table 46-1	Updated to reflect repeal of DIC.	Revision
Table 46-4	Reinserted the "Taxability of Survivor Benefit Plan/Retired Serviceman's Family Protection Plan – Nonresident Annuitants Residing Outside of the United States."	Addition
References	Updated references as needed.	Revision

CHAPTER 46

SURVIVOR BENEFIT PLAN (SBP) – ANNUITIES

1.0 GENERAL

1.1 Overview

The SBP provides a monthly annuity of up to 55 percent of the annuity base amount with a cost-of-living adjustment (COLA), to an eligible spouse or children. The monthly annuity for a natural person with an insurable interest, which also includes a COLA, is 55 percent of the amount of the gross retired pay after the cost of participation is subtracted.

1.2 Purpose

The purpose of this chapter is to provide information for those eligible to receive annuities, how they are paid, and the amounts to be paid.

1.3 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), including Titles 10, 26, and 38. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

*2.0 ANNUITIES

2.1 Eligible Annuitants

2.1.1. Spouse or Former Spouse Only. The surviving spouse or former spouse may be eligible. The surviving spouse and former spouse cannot both be simultaneously eligible for the same annuity. For amounts payable prior to January 1, 2023, the SBP annuity for the eligible surviving or former spouse may be reduced by a percentage of Dependency and Indemnity Compensation (DIC) if the annuity was payable on behalf of the same member. See section 16.0 for recent legislative changes.

2.1.2. Child Only. If there is more than one eligible child, the annuity is paid in equal shares.

2.1.3. Spouse and Child or Former Spouse and Child. The annuity is paid to the spouse or former spouse as long as eligibility exists. If the surviving spouse or former spouse dies, remarries before age 55, or otherwise loses eligibility, the annuity is paid to the child annuitant(s). An election for the former spouse and child includes only the children that resulted from the member/former spouse marriage. The annuity amount for the spouse or former spouse is shown on Table 46-l. The annuity for children is divided into equal shares.

2.1.4. Natural Person With an Insurable Interest. The annuity is payable only to the natural person with an insurable interest as designated by, or on behalf of, the member. The initial annuity amount is 55 percent of the member's gross retired pay less the SBP premium cost at the time of member's death.

2.2 Payment of Annuity

2.2.1. Payments in General. Payment of an SBP annuity is not automatic. Before any claim for an annuity can be considered, it is necessary for the claimant to submit a claim in writing. The claim must minimally contain a signature and an address. Before the annuity can be paid, the claimant must submit a ***DD Form 2656-7, "Verification for Survivor Annuity***." The information on that form allows Defense Finance and Accounting (DFAS) to verify information necessary to start annuity payments.

The SBP annuity is paid monthly to the eligible annuitant. The SBP payment is effective the first day after the death of a member unless death occurs on the 30th day of a 31-day month. In that case, the annuity starts on the first day of the next month. Annuity payments end effective the last day of the month before the month in which the annuitant becomes ineligible.

2.2.1.1. Payments subject to offset:

2.2.1.1.1. When the payment of premiums is in arrears, no annuity may be paid until the unpaid premiums, with interest accrued at the rate approved by the DoD Board of Actuaries under ***10 U.S.C. § 1465*** for the purpose of determining the retirement accrual cost, has been recovered. See ***Office of the Actuary*** and subparagraph 6.2.3. For the establishment and collection of a debt for unpaid SBP premiums, see Volume 16, Chapter 2.

2.2.1.1.2. Debts to the United States or any of its instrumentalities incurred by the annuitant may be offset from the annuity.

2.2.1.2. Debts of a deceased member, other than for delinquent premiums, are not the responsibility of the annuitant and may not be offset involuntarily against the annuity.

2.2.1.3. The annuity is neither assignable nor subject to execution, levy, attachment, or garnishment (except for alimony or child support).

2.2.1.4. If the Secretary of the Military Department concerned (or designee) determines that a participating member is presumed dead, the annuity accrues from the first day after retired or retainer pay was suspended or would have been suspended had the member been in receipt of pay on the basis that the member is missing.

2.2.1.5. Checks are not mailed to an annuitant living in a currency-blocked country. See ***Title 31, Code of Federal Regulations (CFR), section 211.1*** for specific conditions for withholding the delivery of checks to addresses outside the United States.

2.2.2. Third Party Payees

2.2.2.1. Trustees in Bankruptcy. The annuity may be paid on behalf of an annuitant to a trustee in bankruptcy pursuant to an order of the bankruptcy court in a proceeding under ***Chapter 13 of the Bankruptcy Code*** since such proceeding is voluntary.

2.2.2.2. Incapacitated Annuitants. An annuity may be paid to a third party on behalf of an incapacitated annuitant only if the third party has been appointed as guardian, custodian, or other fiduciary pursuant to a state court order or has been designated a representative payee under subparagraph 2.2.3. Otherwise, the annuity may be paid only to the annuitant unless the annuitant has been determined to be incompetent of managing his or her own affairs by a state court, physician, or psychologist. If the annuity cannot be paid directly to the annuitant or to a third party, amounts will remain unpaid and credited on account until the annuitant is determined to be competent or until a third party has been properly appointed to receive the annuity on behalf of the annuitant. The annuity payment will still be treated as income to the annuitant. Regardless of whether the Representative Payee is a trustee (unless a trustee of Special Needs Trust as described in subparagraph 2.2.3.6), an Internal Revenue Service (IRS) Form 1099, Miscellaneous Income, will be issued in the annuitant's name.

2.2.2.3. Power of Attorney. An eligible annuitant who is physically or mentally incapacitated (but who has not been determined to be mentally incompetent by a state court, physician, or psychologist) may accept assistance from a person holding a power of attorney in completing (including the signature element) and filing the annuity application form. Benefit payments based on an annuity application signed by the person holding the power of attorney must be made payable directly to the annuitant.

2.2.2.4. Minor Child Annuitants. An annuity for a minor child is paid to the legal guardian or, if there is no legal guardian, to the natural parent who has care, custody, and control of the child as the custodian, or to a representative payee of the child. An annuity may be paid directly to the child when the child is considered to be of majority age under the law in the state of residence. The child is considered an adult for annuity purposes and a custodian or legal fiduciary is not required. See Appendix H for age of majority by state.

2.2.2.5. Surety Bonds. In cases where it appears necessary to protect the annuitant, the Secretary of the Military Department concerned may require a person receiving payments on behalf of the annuitant to provide a surety bond in an amount sufficient to protect the interests of the annuitant. The payee may pay for such bond(s) out of the SBP annuity. This is part of the periodic financial accounting by the payee. The Secretary of the Military Department concerned will determine the amount necessary in the surety bond(s) based on the amount of the SBP annuity payable. A surety bond ordinarily will not be required if the payee is a close family member or a government or financial institution.

2.2.2.6. Special Needs Trusts (SNT). A special needs trust is also known as a supplemental needs trust. A SNT is a legal instrument that can be established in order to ensure that assets are retained that can be used for the supplemental needs of a certain disabled individual, without disqualifying that individual from other Federal or State benefits that the disabled

individual may be entitled to receive. The NDAA for FY 15, PL 113-291, amended 10 U.S.C. §§ 1448, 1450, and 1455, to give Military Service members and retirees the option to direct payment of an SBP annuity for a dependent child to an SNT. An SNT is a legal instrument specifically designed for the benefit of a person considered disabled under ***42 U.S.C. § 1382c(a)(3)***. State law governs an SNT. In accordance with the SBP statute, an SNT must also comply with ***42 U.S.C. § 1396p(d)(4)***. If an SNT was not designated as a beneficiary prior to the death of the Service member or retiree who had previously elected child coverage, the disabled dependent child's surviving parent, grandparent, or court-appointed legal guardian or fiduciary may irrevocably elect to designate an SNT as beneficiary. The following documentation is required to establish an SNT as beneficiary:

2.2.2.6.1. A written statement of the decision to have the annuity paid to the SNT;

2.2.2.6.2. An attorney's SNT Certification, or, in the case of a pooled trust, a copy of the non-profit organizations' agreement to handle the trust; and

2.2.2.6.3. The name and tax identification number for the SNT by or before the time the beneficiary applies for their annuity. Certified SNT paperwork must be submitted to the following Defense Finance and Accounting Service (DFAS) address:

DFAS
U.S. Military Annuitant Pay
8899 East 56th Street
Indianapolis, IN 46249-1300

There are two types of SNTs that comply with 42 U.S.C. § 1396p(d)(4), a "First-Party SNT" prepared in compliance with 42 U.S.C. § 1396p(d)(4)(A), and a "Pooled Trust" prepared in compliance with 42 U.S.C. § 1396p(d)(4)(C).

2.2.2.6.3.1. First-Party SNT. A First-Party SNT is a type of SNT that is established by a disabled dependent child's parent, grandparent, legal guardian, or a court for the benefit of the disabled dependent child. Transfers into a First-Party SNT do not prevent a person with special needs from accessing government benefits. See 42 U.S.C. § 1396p(d)(4)(A).

2.2.2.6.3.2. Pooled Trust. A pooled trust is a type of SNT established by a non-profit organization, with individual beneficiaries creating accounts within the larger trust. Thus, the assets of many people with special needs are "pooled." Transfers into a pooled trust, like transfers into a First-Party SNT, do not prevent a person with special needs from accessing government benefits. See 42 U.S.C. § 1396p(d)(4)(C).

2.2.2.7. Accounting. Any person receiving payment on behalf of the annuitant is required to maintain and, upon request by the Secretary of the Military Department concerned, provide a periodic accounting of expenditures and investments of amounts paid to the payee. If the payee is a close family member or a government or financial institution, a periodic

accounting will not be required, but may be requested. In situations where a periodic accounting is required, it ordinarily will be submitted annually, unless the Secretary of the Military Department concerned determines that a more frequent submission is required.

2.2.2.7.1. Final financial reporting will be required upon the loss of a beneficiary's eligibility, a change of representative payee, or the determination later that an annuitant is competent to manage their financial affairs.

2.2.2.7.2. Major expenditures (i.e., those in excess of $1,000 or the value of the annuity for 1 year, whichever is less) from the payee's bank account for the annuitant require prior written approval by the Secretary of the Military Department concerned.

2.2.2.7.3. If the Secretary of the Military Department concerned has evidence to suggest that the annuity funds have been or are being misused by the payee, the annuity may be suspended. An investigation will be conducted to determine if a new payee should be appointed or if payments may be resumed to the payee.

2.2.3. Representative Payee. The SBP annuity due a minor who is a mentally incompetent, or otherwise legally disabled person for whom a guardian or other fiduciary has not been appointed may be paid to a representative payee who, in the judgment of the Secretary of the Military Department concerned, is responsible for the care of the annuitant. The representative payee is required to spend or invest the amount paid on behalf of the annuitant solely for the benefit of the annuitant. The representative payee must certify that SBP payments received on the annuitant's behalf are used for the annuitant's benefit.

2.2.3.1. An annuitant is determined to be incompetent if the Secretary of the Military Department concerned receives an actual determination of incompetency made either by a state court or by a physician or psychologist. A representative payee will not be established solely on the basis of a letter from a third party that an annuitant is incapable of handling financial affairs. The annuitant will be notified of actions being taken to make a determination of incompetency and will be provided an opportunity to review the evidence being considered. The annuitant will also have the opportunity to submit additional evidence before a determination is made.

2.2.3.2. If a court order provides for payment of a fee to the representative payee, or if the Secretary of the Military Department concerned determines that payment of a fee is necessary in order to obtain the fiduciary services of a representative payee, a monthly fee will be allowed. In such circumstances, a fee of 4 percent of the monthly SBP annuity will be allowed, unless a court order dictates a lesser fee. In the case of a spouse or former spouse annuitant, the fee will be no more than 4 percent of the adjusted annuity (gross annuity less any DIC offset). Any court order that provides for a fee in excess of 4 percent will be limited to 4 percent. The representative payee will be notified of the fee percentage allowed. The fee is not a separate payment mailed to a representative payee, but can be withheld by the representative payee from the monthly annuity payment. The fee is part of the periodic financial accounting by the representative payee.

2.2.3.3. The selection of a representative payee will be made on the basis of the individual annuitant's circumstances. Generally, the order of preference for appointing a representative payee is:

2.2.3.3.1. Spouse,

2.2.3.3.2. Son or daughter or legally adopted son or daughter,

2.2.3.3.3. Brother or sister,

2.2.3.3.4. Parents,

2.2.3.3.5. Head of federal or state institution,

2.2.3.3.6. Trustee of a private trust, or

2.2.3.3.7. Any other individual whose appointment appears to be in the best interest of the annuitant.

Note: If more than one person or institution requests to be named the representative payee of the annuitant, the Secretary of the Military Department concerned will determine which applicant is a more appropriate payee.

2.2.3.4. In addition to SBP annuity payments (including payments to Minimum Income Widows covered under section 15.0), annuity payments under the Uniformed Services Contingency Option Act Retired Serviceman Family Protection Plan (RSFPP), and Reserve Component (RC) RCSBP may also be made to a representative payee.

2.2.3.5. The representative payee will be required to submit an Annuitant Foreign Address Update for Mailed Check (FAUMC) and/or a Survivor Benefit Plan-Marital Status Update (SBP-MSU) as specified in section 12.0 or 13.0.

2.2.3.6. An annuity paid to a person on behalf of the annuitant in accordance with these provisions discharges the obligation of the United States for the payment to the annuitant in the amount of the annuity paid.

2.2.4. Rounding. Monthly annuities, if not a whole dollar, are rounded to the next lower whole dollar (for example, if a monthly annuity is calculated to be $500.99 the annuity paid will be $500).

2.2.5. COLA

2.2.5.1. Normally, SBP annuities increase at the same time and by the same percentage that retired pay increases. Exception: When the payment of increased retired pay due to a COLA is delayed by law, the increased annuity due to a COLA is not delayed. The COLA applies to the monthly gross annuity amount before any reductions, such as DIC.

2.2.5.2. See subparagraph 15.2.1 regarding COLA for the minimum income widow annuity.

2.3 More than One Annuity

A spouse or former spouse who is a potential SBP or RC-SBP beneficiary due to marriages to more than one member who participated in SBP may not receive a double SBP benefit and must choose which annuity to receive. Therefore, a surviving spouse may not receive more than one annuity concurrently as:

2.3.1. The surviving spouse of two different members;

2.3.2. The surviving former spouse of two different members; or

2.3.3. The surviving spouse of one member and also the surviving former spouse of a different member.

Example 1: An individual is the surviving spouse of a member and the surviving former spouse of a different member. The individual may only receive one annuity. In that circumstance, the surviving spouse must choose which annuity to receive. However, an individual may be the recipient of two or more annuities concurrently, as long as only one is a spouse or former spouse annuity.

Example 2: A child of two members could receive an annuity from each parent, or an individual who was a spouse beneficiary of one member could also be a beneficiary of another member under the insurable interest category.

3.0 DEATH OF MEMBER ON ACTIVE DUTY

3.1 Active Duty Deaths

3.1.1. SBP Benefits. SBP benefits under this section may be payable as provided in section 1.0 for:

3.1.1.1. A member who dies while on active duty after:

3.1.1.1.1. Becoming eligible to receive retired pay;

3.1.1.1.2. Qualifying for retired pay, except that the member has not applied for or been granted that pay; or

3.1.1.1.3. Completing 20 years of service but before the member is eligible to retire as a commissioned officer, because the member has not completed the required years of active commissioned service (usually 10 years); or

3.1.1.2. A member who dies on active duty in the line of duty on or after September 10, 2001. Active duty includes members on active duty for annual training. Reserve members on active duty are included whether or not their orders specify a period of more than 30 days. Limited benefits may be payable under this section when the death is not in the line of duty in the case of a member who is eligible to receive retired pay prior to the date of death.

3.1.2. Death in the Line of Duty. If the member was on active duty at the time of death and death is in the line of duty, the death qualifies for SBP benefits under this section.

3.1.3. Death is Not in the Line of Duty

3.1.3.1. If the member was on active duty and retirement eligible at the time of death, as described in paragraph 3.1 and death is not in the line of duty, the SBP base amount is equal to the member's retired pay. The retired pay is computed as if the member were retired for length of service under applicable law of the respective service of the deceased member.

3.1.3.2. If the member was not on active duty, or was on active duty but was not eligible for retired pay and death is not in the line of duty, the member's death does not qualify for SBP benefits.

*3.2 Qualified Annuitants

The annuity payment will be made based on the following priority:

3.2.1. Former Spouse Based on a Court Order or a Deemed Election. The annuity is payable to a former spouse if any of the following three circumstances exist:

3.2.1.1. The member is required under a court order or spousal agreement to provide an annuity to a former spouse upon becoming eligible to be a participant in the Plan and that court order or spousal agreement was entered into prior to the member's death; or

3.2.1.2. Prior to the member's death, the member made an election to provide an annuity to a former spouse; or

3.2.1.3. The Secretary receives a written request from the former spouse prior to the member's death that the member be deemed to have made an election to provide an annuity to a former spouse and the request meets the requirements of 10 U.S.C. §1450(f)(3).

Note: A court order (or modification of a prior court order) that is entered after a member's death that requires an already deceased member to provide an annuity to a former spouse is not effective to permit payment of an annuity to a former spouse or to change the annuity from a spouse to a former spouse.

3.2.1.4. If, pursuant to subparagraph 3.2.1.1, the member was required under a court order or agreement to provide an annuity to a former spouse at the time of death, then the annuity is payable to the former spouse and no payment may be made to a surviving spouse. In

this circumstance the former spouse is not required to have submitted a request pursuant to 10 U.S.C. §1450(f)(3). Pursuant to 10 U.S.C. §1448(d)(3)(B), the issuance of the court order or spousal agreement alone is sufficient. If there are multiple court orders ordering the member to elect former spouse SBP coverage, the court order with the earliest date will take precedence.

3.2.2. Current Spouse. The annuity is payable to a surviving spouse unless the annuity is payable to a former spouse.

3.2.3. Child. The annuity is payable to the dependent children of the member when:

3.2.3.1. There is no eligible former spouse and either there is no eligible surviving spouse or the surviving spouse later dies; or

3.2.3.2. For a member who dies on or after October 7, 2001, but before January 1, 2023, the Secretary of the Military Department concerned, in consultation with the surviving spouse, determines it appropriate to provide an annuity for the dependent children instead of paying an annuity to the surviving spouse.

3.2.3.3. Effective January 1, 2023, if after consultation with the surviving spouse, the service previously determined it was appropriate to provide an annuity for the dependent child(ren) of the member instead of the surviving spouse, the annuity will be restored to the surviving spouse if still eligible. If the surviving spouse is ineligible to receive SBP, the annuity shall continue to be paid to the eligible child or children, unless and until the spouse regains SBP eligibility.

3.2.4. Insurable Interest Deemed Election. If no annuity is payable under subparagraphs 3.2.1, 3.2.2, or 3.2.3, the Secretary of the Military Department concerned may pay an annuity to a natural person with an insurable interest in the member, if the person is a dependent of the member as defined in ***10 U.S.C. § 1072(2)***.

3.3 Annuity Amount

3.3.1. Qualified Death in the Line of Duty. The SBP base amount is equal to the higher of the retired pay of the member based on length of service, or the retired pay as if the member retired with a total (100 percent) disability equal to 75 percent of the appropriate retired pay base. The annuity is computed at 55 percent of the SBP base amount. For members of the RC who die while serving on active duty, the retired pay base will be computed as if the member had been entitled to basic pay for the 36 months preceding retirement or the entire period the member was a member of a uniformed service (if less than 36 months), regardless of whether the member served the entire period on active duty.

3.3.2. Qualified Death Not in the Line of Duty. The SBP base amount will be computed as if the member retired for length of service based on the final basic pay or high-36 average as applicable. However, for members who elected to receive the Career Status Bonus (see Volume 7A, Chapter 66), the SBP base will be computed using the Reduced Retirement (REDUX)

method with the prescribed reduced COLA. The annuity is computed at 55 percent of the SBP base amount.

3.3.3. Insurable Interest Deemed Election. If an annuity is payable pursuant to subparagraph 3.2.4., the SBP base amount is equal to retired pay computed as if the member retired with a total (100 percent) disability, which is equal to 75 percent of the appropriate retired pay base, less the cost of participation. The annuity is computed at 55 percent of the SBP base amount.

3.4 Line of Duty Determination

3.4.1. Purpose. For the purpose of determining eligibility for SBP benefits, a member's death will generally be considered to have occurred in the line of duty unless the death:

3.4.1.1. Occurred while the member was not serving on active duty;

3.4.1.2. Was the result of the member's own intentional misconduct or willful negligence; or

3.4.1.3. Occurred during a period of unauthorized absence.

3.4.2. Investigation to Determine the Cause of Death. The Military Services will conduct an investigation and make a written finding as to whether a member's death was in the line of duty while the member was on active duty. The written finding must describe the circumstances under which the member died, and it also must address whether the death was caused by the member's own intentional misconduct or willful negligence, or whether the death occurred during a period of unauthorized absence.

3.5 Responsibilities

3.5.1. Military Services. The Military Services must review the death of each member who died on active duty to ascertain whether the death was in the line of duty and whether there are any qualified survivors entitled to an SBP annuity. The Military Services will inform DFAS-CL of their line of duty determinations using the ***DoD (DD) Form 1300***, Report of Casualty; section 10 of the ***DD Form 261***, Report of Investigation Line of Duty and Misconduct Status; or any other form authorized under individual Service regulations. All in the line of duty determinations must be supported by a written finding describing the circumstances of death that support the line of duty determination.

3.5.2. DFAS-CL. DFAS-CL does not require a copy of the written finding, only an official communication from the Military Service to indicate the Military Service's determination that death is in the line of duty, i.e., "YES" or "NO." Once DFAS-CL receives the determination, they will compute and pay SBP annuities to qualified survivors for qualified deaths.

4.0 DEATH OF MEMBER ON IN-ACTIVE DUTY TRAINING (IDT)

An RC member who dies from injuries or illness incurred or aggravated while performing IDT is entitled to coverage under the SBP program if the death is determined to have occurred in the line of duty. See Chapter 54.

*5.0 DIC OFFSETS AND SPECIAL SURVIVOR INDEMNITY ALLOWANCE (SSIA)

5.1 DIC

A multi-year phase-out of the DIC offset of SBP annuities began on January 1, 2021. Effective January 1, 2023, the DIC offset was fully phased out. See section 16.0 for details regarding the phase-out periods and corresponding offset amounts. See ***FMR Archives*** for details regarding prior DIC offset and SBP premium refund policy.

5.2 SSIA

Prior to January 1, 2023, a surviving spouse who was entitled to ***DIC*** under 38 U.S.C. § 1311 and who was not collecting the full amount of SBP due to receipt of DIC may be entitled to SSIA. See 10 U.S.C. § 1450(m). Effective January 1, 2023, SSIA was fully phased out. See FMR Archives for details regarding prior years.

6.0 CAUSES OF OVERPAYMENTS AND SUSPENSION OF PAYMENT

6.1 General Causes of Overpayment

Generally, SBP annuity overpayments are caused by:

6.1.1. Failure to reduce an annuity by the amount of DIC;

6.1.2. Non-termination of annuity because of ineligibility;

6.1.3. Erroneous computation;

6.1.4. Insufficient or untimely information; or

6.1.5. A determination by the Secretary of the Military Department concerned (or designee) that a participating member is alive after the Secretary of the Military Department concerned previously determined that the member was presumed dead.

6.2 General Reasons for Suspension of Payment

Generally, payments are suspended for:

6.2.1. Non-receipt of a SBP-MSU or FAUMC;

6.2.2. Non-receipt of verification of school attendance;

6.2.3. An annuitant will not receive annuity payments while there are still premiums owed on the SBP account. Once all premiums (with interest accrued at the rate approved by the DoD Board of Actuaries under 10 U.S.C. § 1465 for the purpose of determining the retirement accrual cost) that are owed have been recouped, payment of the annuity will commence/recommence;

6.2.4. Adjustment of the annuity due to administrative error; and/or

6.2.5. An incapacitated child over age 18 becomes independently capable of earning amounts sufficient for his or her own particular personal needs through substantial and sustainable gainful employment. Once suspended, payments can be reinstated. See paragraph 11.2.

7.0 LIABILITY AND OVERVIEW OF ANNUITANT INDEBTEDNESS

The annuitant is liable for debts created from the overpayment of an annuity. The member is liable for any indebtedness created because annuity payments were made based on the presumption of such member's death. The member's indebtedness cannot be considered for waiver under ***10 U.S.C. § 2774*** or ***10 U.S.C. § 1453***. If the member dies before such payments are fully recovered, the annuitant may be liable for the indebtedness if such annuitant was the recipient of the annuity payments made under the presumption of death. See Volume 16, Chapter 2 for the collection of member's indebtedness.

8.0 LIQUIDATION OF DEBT

8.1 Debt Liquidation

Upon discovery of an overpayment, the annuitant must be provided with due process notice in accordance with Volume 16, Chapter 2, or in other regulations pertaining to debt collection found elsewhere. The due process notice must include the amount of the debt and the method in which the overpayment is being, or may be, liquidated.

8.2 Direct Remittance

The annuitant may liquidate the overpayment by making direct remittance to DFAS-CL.

8.3 Reduced DIC

The Veteran's Affairs (VA) may reduce DIC and remit the amount collected to DFAS-CL.

8.4 Reduced SBP Annuity

DFAS-CL may reduce later SBP annuity payments.

9.0 WAIVER OF INDEBTEDNESS

9.1 Request a Waiver of Indebtedness

When applicable, DFAS-CL advises the annuitant of the right to request a waiver of indebtedness. The right to request a waiver does not constitute removal of the responsibility for repayment of the debt. If a waiver request is granted, repayment of the debt is not required.

9.2 Receipt of Waiver Request

Collection action is not routinely suspended pending waiver determination. If requested, the waiver determination will be made under the standards found in Volume 16, Chapter 4. Refund of an amount withheld before receipt of a request for a waiver is not authorized. When a waiver is granted, any amount collected after the receipt of the waiver request is refunded to the annuitant.

10.0 TERMINATION OF ANNUITY

10.1 Time of Termination

Entitlement to an SBP annuity terminates effective as of the first day of the month in which eligibility is lost. The annuity is terminated immediately if a determination is made by the Secretary of the Military Department concerned (or designee) that a participating member is alive after it was previously determined that the member was presumed dead.

10.2 Reasons for Termination

The SBP annuity is terminated when:

10.2.1. The spouse or former spouse (spouse category) annuitant remarries before age 55 or dies. If the member also provided coverage for children, the full annuity is payable, in equal shares, to the remaining eligible dependent children effective on the first day of the month in which the spouse or former spouse dies or remarries;

10.2.2. The child annuitant(s) lose eligibility because of:

10.2.2.1. Child's attaining age 18 and not pursuing a full-time course of study;

10.2.2.2. Marriage or death of child annuitant;

10.2.2.3. An incapacitated child over age 18 becomes independently capable of earning amounts sufficient for his or her own particular personal needs through substantial and sustainable gainful employment. This termination is not automatic; an annuitant will be given an opportunity to submit rebutting evidence. This annuity may be reinstated; see paragraph 11.2;

10.2.2.4. Termination of student status (child over age 18 and under age 22). If the student reaches age 22 before July 1 or after August 31 of a calendar year, the child's annuity

terminates on the first of July after the student's 22nd birthday. If a student reaches age 22 between July 1 and August 31 (inclusive) of a calendar year, the student loses eligibility and the annuity terminates on the first day of the month in which the age of 22 was reached; or

10.2.2.5. Reinstatement of a spouse or former spouse (spouse category) annuity following divorce or annulment;

10.2.3. A natural person with an insurable interest dies. The termination is final because there are no provisions for designating a contingent survivor annuitant; or

10.2.4. The Secretary of the Military Department concerned (or designee) determines that a participating member is alive after it was previously determined that the member was presumed dead.

10.3 Death of Annuitant

For the payment of any unpaid annuity amounts, see Chapter 31.

11.0 REINSTATEMENT OF ANNUITY

11.1 Reinstatement of Spousal Annuity

11.1.1. Remarriage Before Age 55 Terminated by Death of Spouse. Reinstatement of the annuity is effective the first day of the month in which the death occurs. If annuity entitlement from the terminated marriage exists, the spouse or former spouse may not receive both annuities but must elect the one desired. If the spouse or former spouse elects to receive the annuity that had formerly been terminated, the annuity is updated by any COLA increases that occurred after termination.

11.1.2. Remarriage Terminated by Divorce or Annulment. Reinstatement of the SBP annuity is effective the first day of the month in which the marriage terminated by divorce or annulment. Legal review is appropriate if discrepant information or annotations result in doubt or if the divorce or annulment was granted by a court in a foreign country. If the spouse or former spouse elects to receive the annuity that had formerly been terminated, the annuity is updated by any COLA increases that occurred after termination.

11.1.3. Loss of DIC Entitlement Because of Remarriage Between Ages 55 and 57. For periods prior to January 5, 2021, the annuity is reinstated effective as of the date of the loss of the DIC entitlement, adjusted to reflect all COLAs. Effective January 5, 2021, 38 U.S.C.§ 103(d)(2)(B) was amended by reducing the DIC remarriage provision from age 57 to 55.

11.2 Reinstatement of Child Annuity

11.2.1. Reinstatement of Annuity to Incapacitated Annuitant. An annuity to an incapacitated child over 18 years of age may be reinstated upon the recurrence of the original

disability rendering the annuitant incapable of self-support, or if the annuitant furnishes evidence that, although engaged in substantial and sustainable gainful employment, wages are not sufficient to cover his or her particular personal needs.

11.2.2. Child Resumes School Attendance. The child's eligibility for an annuity that was terminated for school nonattendance is reinstated effective the first day of the month that the child resumes school attendance.

11.2.3. Child's Marriage Terminated by Annulment. An annulment of a child's marriage which renders the marriage void or invalid, or by a judicial decree by a court of competent jurisdiction declaring the marriage void, would serve as a basis for reinstating a child's eligibility for annuity prospectively from the date of the judicial decree. The termination of a child's marriage by death or divorce does not serve as a basis for reinstatement of annuity eligibility.

*12.0 ELIGIBILITY VERIFICATION PRIOR TO AUGUST 1, 2023

12.1 Certificate of Eligibility (COE)

Effective August 1, 2023, the annual COE was replaced by the SBP-MSU. See ***FMR Archives*** to reference previous COE policy. See section 13.0 for details on SBP-MSU.

12.2 Report of Eligibility (ROE)

Effective August 1, 2023, the annual ROE was replaced by the Foreign Address Update for Mailed Check - Annuitants (FAUMC- Annuitants). See FMR Archives to reference previous ROE policy. See section 13.0 for details on SBP-MSU.

*13.0 ANNUAL ELIGIBILITY VERIFICATION EFFECTIVE AUGUST 1, 2023

13.1 SBP-MSU

The ***SBP-MSU*** replaces the COE effective August 1, 2023. The SBP-MSU is required annually to confirm the marital status and continued eligibility for the SBP. In general, the SBP-MSU is due the first day of the month of the annuitant's birthday.

13.1.1. Affected Annuitants:

13.1.1.1. A spouse or former spouse under the age of 55.

13.1.1.2. A child annuitant between the ages of 14 and 17 who have not been documented as being incompetent.

13.1.1.3. An annuitant who has been determined incapable of managing their affairs who receives payments through either a court-ordered legal representative or representative payee.

13.2 FAUMC - Annuitants

The ***FAUMC-Annuitants*** replaces the ROE effective August 2023. It is a requirement for any annuitants receiving a check in the mail outside the United States if they do not need to submit a School Certification or an SBP-MSU. In general, the FAUMC is due the first day of the month of the annuitant's birthday.

13.2.1. Affected Annuitants:

13.2.1.1. Spouse and former spouse annuitants aged 55 and over receiving a check in the mail outside the U.S.

13.2.1.2. Child SBP Annuitants under 14 years of age receiving a paycheck in the mail to a foreign address.

13.2.1.3. Child SBP Annuitants documented as incapacitated under age 14 years and receiving a paycheck in the mail to a foreign address.

13.2.1.4. Spouse and former spouse annuitants documented as incapacitated will need to fill out the SBP-MSU form regardless if they are receiving mail inside or outside of the U.S.

13.3 School Certification

A ***DD Form 2788, Child Annuitant's School Certification*** and a Child Annuitant's Certification for Previous Attendance Letter are required annually to confirm full-time school attendance and marital status for continued eligibility for the Survivor Benefit Plan. In general, the School Certification and Child Annuitant's Certification for Previous Attendance Letter are due the first day of the month the annuitant's school year ends.

13.3.1. Affected Annuitants:

13.3.1.1. Student Child SBP Annuitants turning 18.

13.3.1.2. Student Child SBP Annuitants ages 18-22.

13.4 Failure to Return Annual Eligibility Verification

If the annuitant fails to return completed verification when it is due, DFAS will suspend payment until a properly completed document is received.

13.5 Annuity Mailing Address

All completed annuitant verification forms must be sent by mail, fax, or upload to:

Mail:	Defense Finance and Accounting Service U.S. Military Annuitant Pay 8899 E 56th Street Indianapolis, IN 46249-1300
Annuitant/Survivor Fax:	1-800-982-8459
askDFAS upload:	***askDFAS***

Note: The Director, DFAS or designee may temporarily suspend annual eligibility verification requirements when a Federal or State disaster, a pandemic, or any other natural emergency is declared. The Director, DFAS, or designee may also determine the amount of time of the suspension. The action to suspend annual eligibility verification takes into consideration audit and risk management protocols including the ability to validate the identity of the annuitant from other government sources.

14.0 TAXABILITY OF ANNUITIES

14.1 Taxability of SBP Annuity Payments

SBP annuity payments are taxable for Federal income tax purposes. See ***IRS Publication 525*** for exceptions. In the case of a representative payee receiving an annuity payment on behalf of an annuitant, the income is attributable to the annuitant and an Internal Revenue Service (IRS) Form 1099 will be issued in the annuitant's name.

14.2 Taxability of SBP Cost Refunds

A refund of SBP costs (i.e., SBP premiums), resulting from an administrative error, correction of records, or award of DIC may or may not be taxable income to the member or the annuitant. The taxability of an SBP cost refund depends on the source from which it is made, as discussed in this section (also see Table 46-3). The SBP cost refund:

14.2.1. Constitutes taxable gross income to the retired member or the annuitant when it includes premium deductions taken from the retired member's taxable retired pay in order to pay for the cost of SBP coverage;

14.2.2. Does not constitute taxable gross income to the retired member or the annuitant when it is made from the retired member's direct remittance payments (by check or electronic mechanism, i.e., Pay.gov or Electronic Fund Transfer) to pay for the cost of SBP coverage; and

14.2.3. Does not constitute taxable gross income to the retired member or the annuitant when it is made from the retired member's VA disability compensation or by deduction from nontaxable military disability retired pay.

14.3 Federal Income Tax Withholding (FITW)

14.3.1. Monthly or Periodic Payments. Monthly or periodic SBP annuity payments are treated as income for FITW purposes. An annuitant, however, may elect no withholding of Federal income tax. In the absence of an annuitant election, or if the annuitant does not otherwise submit a withholding certificate, DFAS-CL will withhold on the basis of "married, three exemptions." The annuitant may use Form W-4P, Withholding Certificate for Pension and Annuity Payments, or any substitute form furnished by DFAS.

14.3.1.2. Annuitants Who are US Citizens. An annuitant who is a U.S. citizen may elect no withholding of Federal income tax. In the absence of an annuitant election, or if the annuitant does not otherwise submit a withholding certificate, DFAS-CL will withhold on the basis of the default rate established under the Secretary of Treasury and published by the IRS. The annuitant may use Form W-4P, Withholding Certificate for Pension and Annuity Payments, or any substitute form furnished by DFAS.

14.3.1.3. Foreign Annuitants. In order for an annuitant who is a citizen of a country other than the United States to receive the SBP annuity they must provide DFAS an Individual Tax Identification Number (ITIN). If the annuitant is a citizen of the United States and another country (dual) they may provide their SSN. If an SSN is provided, the rules in subparagraph 14.3.2 apply.

14.3.1.4. SBP Annuity Payments. The SBP annuity paid to foreign annuitant is still subject to Federal Income Tax Withholding. The required withholding rate set by the IRS is 30%. There are certain countries who have a lesser rate due to tax treaties (see Table 46-4). In order to qualify for the lesser rate for those countries, the annuitant must file a W-8BEN with DFAS.

14.3.2. Notice Requirements. DFAS-CL must advise the annuitant of the withholding requirement, as well as the right to elect that no tax be withheld, when making the first monthly or periodic payment to the annuitant. Thereafter, DFAS-CL must provide annual notice to the annuitant of the right to elect no withholding, to revoke an election, or to submit a new withholding certificate. An annuitant also may submit a withholding certificate at any time to elect no withholding, revoke an election, or request any rate of withholding.

14.3.3. Lump-Sum (One-Time) or Non-Periodic Distribution Payments

14.3.3.1. SBP Cost Refunds. An SBP cost refund is a refund of premiums rather than a distribution of benefits. As a non-periodic distribution, an SBP cost refund is subject to FITW at the rate of 10 percent. The annuitant, however, may elect no withholding of FITW. The annuitant has the right to make an FITW election for this refund separately from any election already in operation for all other SBP annuity payments.

14.3.3.2. Other. Retroactive SBP annuity payments paid in a lump sum constitute periodic distributions and are subject to the tax withholding rules of subparagraph 14.3.1. Likewise, if the lump-sum payment of an SBP annuity is the result of administrative error or delay

in the start of an annuity, the payment is treated as a periodic payment subject to the withholding rules of subparagraph 14.3.1.

14.4 Income Exclusion

14.4.1. Consideration for Contract. The SBP annuitant is entitled to an income exclusion when, upon the death of the participant member, the "consideration for contract" has been excluded in whole from the member's gross income. The member's survivor receiving the annuity may exclude from gross income such annuity payments received until the total exclusion equals the portion of the "consideration of contract" not previously excluded from the member's taxable income. DFAS-CL will accomplish the applicable direct reduction in taxable income for the annuitant and report the residual amount as taxable income on the annuitant's IRS Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit Sharing Plans, IRAs, Insurance Contracts, etc. Contact the IRS for further assistance.

> Example: When a member dies, and $1,000 of the total "consideration for contract" was not excluded from the member's non-disability retired pay, DFAS-CL will report the taxable annuity less $1,000, and the surviving spouse will use this reported residual amount in his or her income-tax computation for the calendar year.

14.4.2. Direct-Cost Payments. The tax-free benefit on SBP premiums is not available to members who waived military retired pay to receive disability compensation from the VA. See Chapter 12. Instead, upon the member's death, the annuity paid to the member's survivor may qualify to be exempt from Federal income tax until the amount excluded equals the total of the member's direct-cost payments, as explained in paragraph 14.2.

14.5 Amount of Annuity Subject to Federal Estate Tax

The value of the annuity at the time of the member's death may be subject to Federal estate tax if any portion of the cost was paid by direct remittance, or if the value of the annuity exceeds the amount that may be excluded from the gross estate. DFAS-CL may furnish the annuitant the current annuity amount and/or a summary of annual payments, and total cost paid (separate totals for deductions and direct remittances). For a computation of the amount of an annuity that will be subject to the tax, if any, the executor of the member's estate can contact the IRS for further assistance.

14.6 State Taxation

The IRS Form 1099-R information is furnished to the appropriate state tax authority regardless of whether SBP annuities are subject to state inheritance or income tax. The method of calculating such tax depends upon the laws of the state concerned.

15.0 MINIMUM INCOME WIDOW/SURVIVING SPOUSE

15.1 Eligibility Criteria

An annuity under the minimum income widow/surviving spouse provision of the SBP law (see Chapter 42) is payable to surviving spouses who meet all of the following conditions:

15.1.1. The surviving spouse is not otherwise entitled to an annuity under other provisions of the SBP, or to DIC from the VA;

15.1.2. The surviving spouse is eligible for a widow's non service-connected death pension from the VA;

15.1.3. The surviving spouse has annual income from all sources (including amount of RSFPP annuity entitlement, but excluding the amount of VA pension), as determined by the VA, that is less than the annual income rate in Appendix R. If the surviving spouse previously was denied an annuity because of income in excess of income limitations, entitlement may exist upon notice from the widow or from the VA that his or her current yearly income, as determined by the VA, is less than the income limitation; and

15.1.4. The surviving spouse is a person who, on September 21, 1972, was, or during the period beginning on September 22, 1972, and ending on March 20, 1974, became, a surviving spouse of a person who was entitled to retired or retainer pay when he or she died. Remarriage by the surviving spouse bars entitlement to an annuity under this provision of law unless the remarriage is terminated by an annulment. If there are questions as to whether an annuity should be reinstated after an annulment, refer the matter to the appropriate legal office.

Note: The DD 1885, Survivor Benefit Plan – Minimum Income Claim, and DD 1895, Request for Veterans Administration Pension and Annual Income Information, are used in administering the minimum income widow annuity. These forms are not currently available electronically. Hardcopies may be obtained by contacting the ***DoD Forms Management Program*** office.

15.2 Amount of Annuity

The maximum annuity payable is shown in Appendix R. The VA determines the yearly entitlement and advises DFAS-CL. This amount is prorated by DFAS-CL and is paid on a monthly basis.

15.2.1. The amount of the annuity is neither rounded nor increased to reflect retired pay COLA however, the annual income rates (Appendix R) is increased by the same amount and has the same effective date whenever there is an increase in the limitation on annual income for the purposes of eligibility for pension benefits.

15.2.2. The annuity is subject to Federal income tax.

15.2.3. The annuity is neither assignable nor subject to execution, levy, attachment, or garnishment (except for alimony or child support).

15.3 Effective Date of Entitlement

The effective date of entitlement is the date on which the requirements of law are met, subject to the 6-year statute of limitations.

15.4 Annuitant, Mentally or Physically Incapacitated

15.4.1. If, for any reason, a minimum income surviving spouse is mentally or physically incapable of applying for or negotiating the payment of the annuity, a court-appointed guardian may act on his or her behalf. If no guardian has or will be appointed, the person having care, custody, and control of the incapacitated annuitant is authorized to act on his or her behalf.

15.4.2. An FAUMC is required when the annuitant receives payments through foreign postal channels, or through a third party if the annuitant is incapacitated. See section 13.0.

15.4.3. The yearly certificate of continued eligibility is not required.

15.5 Changes and Termination

Changes in the amount of the annuity payable or termination of the annuity must be in accordance with the effective date of change or termination as shown by the VA. If termination is due to death of the annuitant, entitlement ceases as of the first day of the month in which death occurs. Any amounts that are due and payable at the time of annuitant's death may, upon receipt of a properly executed and documented claim, be paid to the person living on the date of the annuitant’s death who is the highest in the order of precedence. See Chapters 30 and 31.

15.6 Reopened Claim

DFAS-CL will reestablish an annuity that has been temporarily suspended because of the excessive income or net worth of the surviving spouse as of the first day of the month in which the surviving spouse meets the income level for an annuity as determined by the VA. Notification of any change in income is the responsibility of the surviving spouse.

15.7 Causes of Overpayment

The following are possible causes of overpayments of an annuity, but such list is not exhaustive:

15.7.1. The minimum income annuity for the surviving spouse was not timely terminated when his or her annual income exceeded the applicable rates shown in Appendix R;

15.7.2. Erroneous computation; or

15.7.3. Insufficient or untimely information.

15.8 Liability

The annuitant is liable for debts caused by overpayment of the annuity. The annuity may not be used as an offset against an indebtedness incurred by the member. The debt may be liquidated by:

15.8.1. The annuitant by making direct remittance to DFAS-CL;

15.8.2. The annuitant authorizing the VA to reduce the pension and remitting the amount collected to DFAS-CL; or

15.8.3. DFAS-CL by reducing later annuity payments to minimum income widows.

15.9 Waiver of Indebtedness

The request for waiver consideration is handled under the provisions of section 9.0.

*16.0 LEGISLATIVE CHANGES

16.1 Public Law (PL) 114-328, Section 642 for Fiscal Year (FY) 2017

Effective December 23, 2016, PL 114-328, Section 642 of the National Defense Authorization Act (NDAA) for FY 2017, amended Title 10, U.S.C, §§ 1448, 1450, and 1451. The amendments expanded entitlement to the SSIA and updated the amount of the annuity payable and the processes for paying an annuity to the survivors of RC members who die in the line of duty and RC members who die after completing the years of service to be eligible for a non-regular retirement. See Chapter 54.

16.2 PL 116-92, Section 622 of the NDAA for FY 2020,

PL 116-92, Section 622 of the NDAA for FY2020, signed into law on December 20, 2019, amended 10 U.S.C. §1450(c). This legislation created a multi-year phase out of the SBP-DIC offset, beginning in FY 2021, as follows:

16.2.1. For amounts payable for all periods prior to and including the period ending on December 31, 2020, the full amount of DIC paid by the VA to the surviving spouse and former spouse will continue to offset the SBP. The spouse or surviving spouse will continue to receive SSIA, if eligible.

16.2.2. For amounts payable for the period beginning on January 1, 2021, but ending on December 31, 2021, two-thirds of the amount of DIC paid by the VA to the surviving spouse or former spouse will offset the SBP annuity amount. The spouse or surviving spouse will continue to receive SSIA, if eligible.

16.2.3. For amounts payable for the period beginning on January 1, 2022, but ending on December 31, 2022, one-third of the amount of DIC paid by the VA the surviving spouse or former spouse will offset the SBP annuity. The spouse or surviving spouse will continue to receive SSIA, if eligible.

16.2.4. For amounts payable for all periods beginning on or after January 1, 2023, there will be no reduction.

Example: A surviving spouse who is entitled to a $1,200 SBP annuity and $1,500 DIC paid by VA, will continue to have his or her SBP fully offset in 2020. Because DIC is greater than the amount of SBP, it results in a net SBP payment of $0 after offset for all months of 2020. Beginning in 2021, this same spouse would receive a $200 SBP payment, because only $1,000 of the $1,500 DIC paid by VA (i.e., two-thirds of the $1,500 amount of DIC) would be used to offset the SBP. In addition, this spouse would receive SSIA because he or she remains subject to the SBP-DIC offset. In 2022, this same surviving spouse would receive $700 for SBP, because only $500 DIC paid by VA (i.e., one-third of the $1,500 amount of DIC) would be used to offset the SBP. This spouse would remain eligible for SSIA. In 2023, the offset is lifted and the surviving spouse receives both SBP and DIC in full. In 2023, SSIA is no longer payable.

16.2.5. The SBP annuity is restored on January 1, 2023, to any eligible surviving spouse for whom the service previously determined it was appropriate to provide an annuity for the dependent child(ren) of the member instead of the surviving spouse in accordance with subparagraph 3.2.3.

16.2.6. Effective January 1, 2023, SSIA is discontinued.

*Table 46-1. Annuity for Surviving Spouse or Former Spouse

RULE	If member dies or is declared dead	and	and the annuitant	then the annuity is (Notes 2 and 6)	and is offset by (Notes 9, 10 and 11)
1	in a retired status	the member elected to participate in the program	was married to member on date of election or on date of retirement and is married to member at time of member's death (Note 1)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.
2	in a retired status	the member elected to participate in the program	was married to member a minimum of 1 year at time of member's death (Note 3)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.
3	in a retired status	the member elected to participate in the program	is the parent of a "living issue" of the marriage which occurred after the date of retirement (Note 4)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.
4	in a retired status	the member became eligible and elected to participate on or after September 8, 1982	is the former spouse of a member when member became eligible or the former spouse that a member acquired after becoming eligible to participate and who had been married to member at least 1 year or is the parent of issue of that marriage (Note 4)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.
5	on active duty	the member's death was found to be in the line of duty	is married to member on member's date of death, or was the former spouse of a member required under a court order or spousal agreement to provide an annuity upon becoming eligible to participate	55 percent of retired pay base to which member would have been entitled had they been retired for a 100 percent disability on the date of death	N/A effective January 1, 2023.

*Table 46-1. Annuity for Surviving Spouse or Former Spouse (Continued)

RULE	If member dies or is declared dead	and	and the annuitant	then the annuity is (Notes 2 and 6)	and is offset by (Notes 9, 10 and 11)
6	on active duty and was entitled to retired or retainer pay,	the member's death was found to be NOT in the line of duty	is married to member on member's date of death, or was the former spouse of a member required under a court order or spousal agreement to provide an annuity upon becoming eligible to participate	55 percent of retired pay to which the member would have been entitled at date of death based upon the member's years of active service	N/A effective January 1, 2023.
7	on active duty and qualified for retired pay but had not yet applied for or been granted such pay or after completing 20 years of active service, but before member is able to retire as a commissioned officer because member has less than 10 years of active commissioned service (Note 7)	the member's death was found to be NOT in the line of duty	is married to member on member's date of death, or was the former spouse of a member required under a court order or spousal agreement to provide an annuity upon becoming eligible to participate	55 percent of retired pay to which the member would have been entitled at date of death based upon the member's years of active service, in the case of a member who first became a member before September 8, 1980, use the rate of basic pay in effect for the grade in which serving at time of death, unless, as determined by the Secretary of the Military Department concerned, the member would have been entitled to be retired in a higher grade	N/A effective January 1, 2023.

*Table 46-1. Annuity for Surviving Spouse or Former Spouse (Continued)

RULE	If member dies or is declared dead	and	and the annuitant	then the annuity is (Notes 2 and 6)	and is offset by (Notes 9, 10 and 11)
8	while eligible to provide an RC annuity but: (a) before being notified of retirement eligibility, or (b) during the 90-day period beginning when member receives notification of retirement eligibility	the member had not made an RCSBP election	is married to member on member's date of death, or was the former spouse of a member required under a court order or spousal agreement to provide an annuity upon becoming eligible to participate	55 percent of retired pay to which the member would have been entitled on the date of death based upon the member's years of creditable service	N/A effective January 1, 2023.
9	before becoming eligible to provide an RC annuity	the member's death is in the line of duty from injuries or illness incurred or aggravated while performing IDT (Note 9)	is married to member on member's date of death, or was the former spouse of a member required under a court order or spousal agreement to provide an annuity upon becoming eligible to participate	55 percent of retired pay to which the member would have been entitled on the date of death based upon the member's years of creditable service	N/A effective January 1, 2023.

*Table 46-1. Annuity for Surviving Spouse or Former Spouse (Continued)

RULE	If member dies or is declared dead	and	and the annuitant	then the annuity is (Notes 2 and 6)	and is offset by (Notes 9, 10 and 11)
10	and retired from both military and civil service	the member elected to participate in the program and did not waive military service for civil service purposes	is the spouse or former spouse of a member when member became eligible or the spouse or former spouse that a member acquired after becoming eligible to participate and who had been married to member at least 1 year or is the parent of issue of that marriage (Notes 1, 2, 3, and 4)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.
11	and retired from both military and civil service	the member elected to participate in the program and waived military retired pay for civil service purposes, but did not elect survivor coverage at any level under the civil service retirement	is the spouse or former spouse of a member when member became eligible or the spouse or former spouse that a member acquired after becoming eligible to participate and who had been married to member at least 1 year or is the parent of issue of that marriage (Notes 1, 2, 3, and 4)	55 percent of base amount of coverage on date of member's death	N/A effective January 1, 2023.

Notes:

1. For a member married to the same spouse at time of retirement and date of death, the statute does not require that an intervening divorce be followed by 1 year of remarriage immediately before date of death.
2. An annuity ends for a spouse of former spouse if remarried before age 55. If the annuity is terminated because of remarriage, it is to be reinstated if the new marriage ends.
3. Minimum requirement for a marriage is 1 year.
4. "Living issue" means the "issue by that marriage" or a child of such marriage who dies shortly after birth (such child's birth is the criterion, not the duration of the child's life).
5. If member is required under a court order or spousal agreement to provide an annuity to a former spouse upon becoming eligible to participate in the SBP or if a member has made an election to provide former spouse annuity, the Secretary of the Military Department concerned may not pay the annuity to the surviving spouse.
6. All SBP monthly annuities if not a multiple of $1, is rounded to the next lower multiple of $1.
7. If the "forgotten widow" is entitled to an SBP annuity resulting from a subsequent marriage to a member, the individual may not receive the two annuities, but must elect in writing which to receive. The annuity for a "forgotten widow" is effective December 1, 1980.
8. An offset for DIC must be removed if, prior to January 5, 2021, an annuitant remarries subsequent to their 57th birthday. DIC offset must be removed when an annuitant remarries after 55 on or after January 5, 2021.
9. The Secretary of the Military Department concerned may determine, after consulting with the surviving spouse, if it is more advantageous to pay the annuity to the child instead of the spouse due to the DIC offset of spouse SBP. See 10 U.S.C. § 1448(f)(1) and (2), and Chapter 54 for additional information. Effective January 1, 2023, the option for a surviving spouse of a member who dies on active or inactive duty, in consultation with the Secretary concerned to transfer the annuity to a surviving child was discontinued. An eligible surviving spouse, who previously elected to transfer the annuity to a surviving child or children under the provisions of 10 U.S.C. § 1448(d)(2)(B), will have their eligibility restored. If the surviving spouse is ineligible to receive SBP, the annuity shall continue to be paid to the eligible child or children, unless and until the spouse regains SBP eligibility.
10. See 10 U.S.C. § 1448(f) for additional information.

11. Per the NDAA for FY 2020, SBP-DIC offset was phased out over multiple years beginning in FY 2021 and was fully phased out beginning January 1, 2023. See section 16.0 for specific details regarding the phase out.

Table 46-2. Refund of Monthly Premium for SBP Effective January 4, 1994

REFUND OF MONTHLY PREMIUM FOR SBP EFFECTIVE JANUARY 4, 1994 (See Note)

The refund of premiums due a spouse or former spouse is determined using the following defined values:

Current Basic Premium (CBP): The actual current premium amount for the basic SBP spouse coverage elected by the member. This does not include premiums for child coverage, SSBP premiums, open-enrollment premium additions, or any interest charges.

Current Recalculated Premium (CRP): The implied current premium associated with recalculated SBP basic annuity as reduced due to receipt of DIC. This does not include premiums for child coverage, SSBP premiums, open-enrollment premium additions, or any interest charges.

Total Premiums (TP): The Total Premiums paid by the member for basic SBP. (Lump sum open-enrollment buy-in premiums are not refundable). This does not include any premiums for child coverage, SSBP premiums, or interest charges. This amount may be obtained from historical pay files pertaining to the member and/or from a file of total spouse premiums to be produced under the Director of Compensation, Office of the Deputy Assistant Secretary of Defense (Military Personnel Policy) by the DoD Actuary and the Defense Manpower Data Center in coordination with DFAS-CL.

Premium Refund (PR): This is the premium refund amount. The premium refund is determined according to the following formula:

PR = (1 - CRP/CBP) X TP

For example: Member is a retired O-5, deceased July 1, 1993.
Data is for June 1994.

Retired Pay:	$2,297.00
Current Basic Premium (CBP):	149.31
SBP Spouse Annuity: .55 X 2,297 =	1,263.00 (Note 1)
DIC Annuity:	750.00 (Note 2)
Recalculated SBP Annuity	1,263.00 - 750.00 = 513.00
Implied Base Amount = $513.00/.55	= 932.73
Current Recalculated Premium (CRP)	= 60.63
Total Premiums (TP) from Data Files	= 10,153.08

Premium Refund (PR) is:

PR = (1 - 60.63/149.31) X 10,153.08
= (1 - .4060679) X 10,153.08
= .5939321 X 10,153.08 = 6,030.24

Table 46-2 is effective January 4, 1994 for deaths which occurred on or after January 1, 1993.

Notes:

1. SBP Spouse Annuity amount is rounded down.
2. Per the NDAA for FY 20, SBP-DIC offset was be phased out over multiple years beginning on FY 21 and was fully phased out beginning January 1, 2023. See section 16.0 for specific details.

Table 46-3. Taxability of SBP Cost Refunds

RULE	If the source of refunded cost is for	then it is taxable to the	
		member	annuitant
1	premium deductions from taxable retired pay	yes (Note 1)	yes (Note 2)
2	premiums paid from VA Disability compensation or premiums deducted from nontaxable military disability retired pay	no (Note 3)	no (Note 4)
3	premiums paid directly by member	no (Note 5)	no (Note 6)

Note:

1. Under ***26 U.S.C. § 122***, amounts deducted from military retired pay to fund an SBP annuity are excluded from income. Had the deducted amount been paid directly to the member instead, it would have been fully taxable. Consequently, refunded costs that were taken from military retired pay constitute gross income to the member.
2. Under ***26 U.S.C. § 691***, the refund is income in respect of a decedent. The tax status of the refund is the same to the annuitant as it would have been had it been refunded to the member. Since the refund of costs deducted from military retired pay would have been gross income to the member, it is also gross income to the annuitant.
3. VA disability compensation is exempt from taxation, as shown in ***38 U.S.C. § 5301***. Under certain circumstances, military disability retired pay is also nontaxable, as shown in ***26 U.S.C. § 104***. If the deducted amount had been paid directly to the member instead, it would have been exempt from taxation. Consequently, refunded costs that were taken from VA disability compensation or nontaxable military disability retired pay are also exempt from taxation.
4. Under 26 U.S.C. § 691, the refund is income in respect of a decedent. The tax status of the refund is the same to the annuitant as it would have been had it been refunded to the member. Since the refund of costs deducted from VA disability compensation or from nontaxable military disability retired pay would have been excluded from the gross income of the member, it is excluded from the gross income of the annuitant.
5. Amounts paid directly by the member to fund the SBP annuity were subject to tax before they were paid by the member. Direct payments by the member do not result in any tax benefit to the member. Consequently, refunds of premiums that were directly paid by the member constitute a nontaxable return of capital and do not constitute gross income.
6. Because the refund would have been a return of capital in the hands of the decedent (and would not have been includible in the decedent's gross income), it is also a return of capital to the decedent's beneficiary (and is not includible in the gross income of the beneficiary of the decedent).

*Table 46-4. Taxability of Survivor Benefit Plan/Retired Serviceman's Family Protection Plan – Nonresident Annuitants Residing Outside of the United States

RULE	If the SBP annuitant resides in the country of	and	then the SBP annuity is	at the rate of
1	Australia, Austria, Barbados, Cyprus, Czech Republic, Egypt, Greece, Israel, Kazakhstan, Morocco, New Zealand, Norway, Pakistan, Romania, Russia, Slovak Republic, South Korea, Sweden, Trinidad & Tobago, Tunisia, and Ukraine	is a citizen of the country in which residing	not taxable (note)	N/A
2	Bangladesh, Belgium, Bulgaria, China, Denmark*, Estonia, Finland, France, Germany, Hungary, Iceland, India, Ireland, Italy, Jamaica, Japan, Latvia, Lithuania, Luxembourg, Malta, Mexico, Netherlands, Portugal, South Africa, Slovenia, Spain, Switzerland, Thailand, Turkey, United Kingdom, and Venezuela	is a national of the country in which residing	not taxable (note)	N/A
3	Bangladesh, Belgium, Bulgaria, China, Denmark*, Estonia, Finland, France, Germany, Hungary, Iceland, India, Ireland, Italy, Jamaica, Japan, Latvia, Lithuania, Luxembourg, Malta, Mexico, Netherlands, Portugal, South Africa, Slovenia, Spain, Switzerland, Thailand, Turkey, United Kingdom, and Venezuela	is not a national of the country in which residing	taxable	30 percent
4	Canada	N/A	taxable	15 percent
5	South Africa	is a national of the country in which residing	not taxable (note)	N/A
6	South Africa	is not a national of the country in which residing	taxable	15 percent
7	Any country not listed above	N/A	taxable	30 percent

Note:
In order to claim entitlement to exemption from taxation based upon a tax convention or Treaty, a nonresident alien annuitant is required to file IRS Form W-8BEN (Certificate of Foreign Status of Beneficial Owner for United States Tax Withholding and Reporting).

*If the SBP annuitant is a national of or a resident of these countries, then the SBP annuity is not taxable.

CHAPTER 54

RESERVE COMPONENT SURVIVOR BENEFIT PLAN (RCSBP)

1.0 GENERAL

1.1 Purpose

This chapter provides information for RCSBP. RCSBP extends eligibility to the Survivor Benefit Plan (SBP) to Reserve Component members who completed the years of service to be eligible to receive retired pay but have not yet reached retirement age. RCSBP allows members to provide an annuity based on their retired pay to qualified survivors.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.). Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DEFINITIONS OF SPECIALIZED TERMS

2.1 Base Amount

The dollar amount selected by the member upon which the SBP premium and the annuity are calculated. A member may elect a full base amount or a reduced base amount. See paragraph 4.3 for base amount elections.

2.2 Date of Receipt of Election for RCSBP

The date of the receipt of the election by the member's records custodian, or the date of postmark on the envelope in which the records custodian received the election when the election intent may be prejudiced.

2.3 Date of Retirement

The first day the member is entitled to receive retired pay or the first day the member would have received pay if alive at retirement age.

2.4 The 90-Day Period

The 90-day period in which the member must complete an election for RCSBP begins on the date that the member receives notification that the member has completed the requisite years of service to be eligible for retired pay at a later age (usually age 60).

2.5 Eligible for Retired Pay

A member becomes eligible for non-regular retired pay upon completion of 20 qualifying years of satisfactory service. Often notification is provided by letter referred to as the "20-year letter" because it notifies the member that he or she has served the requisite years of service to be eligible for retired pay, but is not yet entitled to receive the pay because of his or her age. See Chapter 1, subparagraph 2.8.6.

2.6 Eligible to Participate in RCSBP

The date the member receives notice of eligibility for retired pay except for not having reached the age for entitlement to retired pay (usually age 60).

2.7 Entitled to Retired Pay

A person who has completed the requisite service and reached the requisite age (usually age 60) is entitled to receive retired pay for non-regular service.

2.8 Member

A member of a Reserve Component.

2.9 RCSBP

The RCSBP is a benefit plan that enables members who served in the Reserve Components to leave a benefit called an "annuity." An annuity is a monthly payment that normally lasts the lifetime of the beneficiary after the member passes away. The amount of the monthly payment is a percentage of the retired pay, and that percentage depends upon the election the member made when the member signed up for RCSBP.

2.10 SBP

The SBP is for members of the Uniformed Services. NOTE: SBP (see Chapter 42) and RCSBP share many of the same terms. Chapter 42, section 2.0 provides additional terms not specifically defined in this section.

2.11 SBP Premium

SBP Premium is the combination of the "Standard Premium," the "Reserve Component Premium," and the "Survivor's Annuity Premium Deduction."

2.12 Standard Premium

Standard Premium is the reduction in retired pay made to provide the member with SBP coverage for the period after a member becomes entitled to retired pay. The Standard Premium is

described in Chapter 45. It is distinct and separate from the Reserve Component Premium and the Survivor's Annuity Premium Deduction which are described in paragraphs 2.13 and 2.14.

2.13 Reserve Component Premium

When a Reserve member participates in the RCSBP after first becoming eligible based on 20 qualifying years of satisfactory service, coverage for the member's survivors commences but premiums are not paid until the member first becomes actually entitled to retired pay (usually age 60). Note: See also Chapter 1, subparagraphs 3.8.6.1 through 3.8.6.5 which reduces the eligibility age below 60 years of age for a reservist to receive retirement pay. At that time, reductions in the member's retired pay are made that are specifically related only to the RCSBP coverage that was already provided while the member awaited the requisite age of entitlement to retired pay. These reductions are the Reserve Component Premium. They are made after the member begins receiving retired pay for the RCSBP coverage that was provided before the member received retired pay. They are distinct from the Standard Premium (in paragraph 2.12) which are reductions made for the SBP coverage that is provided after the member becomes entitled to retired pay. They are also distinct from the Survivor's Annuity Premium Deduction.

2.14 Survivor's Annuity Premium Deduction

When an RCSBP participant dies, any annuity payable to a survivor is reduced for the RCSBP coverage provided while the member awaited the requisite age of entitlement to retired pay. This reduction is unique to RCSBP coverage. The DoD Office of the Actuary, herein referred to as the Actuary, sets the rate of the reduction of the survivor's annuity and the rate is currently set at .0001 of the base amount. The reduction in the annuity is known as the Survivor's Annuity Premium Deduction. The Survivor's Annuity Premium Deduction is distinct from the Standard Premium and Reserve Component Premium described in paragraphs 2.12 and 2.13.

2.15 Reserve Components

The following is a listing of the Reserve Components:

2.15.1. The Army National Guard of the United States,

2.15.2. The Army Reserve,

2.15.3. The Navy Reserve,

2.15.4. The Marine Corps Reserve,

2.15.5. The Air National Guard of the United States,

2.15.6. The Air Force Reserve, and

2.15.7. The Coast Guard Reserve.

3.0 ELIGIBLE BENEFICIARIES

Eligible beneficiaries under the RCSBP include spouse, child, former spouse, and natural person with an insurable interest. Members eligible to participate in RCSBP may elect coverage in one of the following coverage categories: spouse; spouse and child; child only; former spouse; former spouse and child; natural person with an insurable interest; or Special Needs Trust (SNT).

3.1 Spouse (Including the Spouse of a Common-Law Marriage)

A spouse is an eligible beneficiary if he or she:

3.1.1. Was married to the member on the date that the member became eligible to participate in RCSBP and was continuously married to the member through the date when the member died;

3.1.2. Married the member after the date the member became eligible to participate in RCSBP and, as set forth in Section 6.0:

3.1.2.1. The member had a spouse at the time the member became eligible to participate in RCSBP and elected spouse coverage;

3.1.2.2. The original spouse became ineligible due to divorce or death;

3.1.2.3. The member did not choose within one year of the marriage to not elect coverage for the new spouse and has no eligible former spouse beneficiary (i.e., defaulted to resuming spouse coverage); and

3.1.2.4. The spouse and member were continuously married for at least one year on the date the member died or the spouse is a parent of a child from that marriage.

3.1.3. Married to the member after the date the member became eligible to participate in RCSBP and, as set forth in Section 6.0:

3.1.3.1. The member had elected to participate in RCSBP when eligible (Option B or Option C);

3.1.3.2. The member had no spouse at the time of becoming eligible for RCSBP, but after marrying the spouse, the member elected spouse coverage within one year of the marriage (or, where former spouse coverage had been previously elected, within one year of the former spouse's death if occurring after the marriage, as set forth in Section 6.2); and

3.1.3.3. The spouse and member were continuously married for at least one year on the date the member died or the spouse is a parent of a child from that marriage.

3.1.4. Married to a member who completed the years of service required to be eligible for a non-regular service retirement but died before receiving notice of eligibility or during the 90-day period and had not made an RCSBP election.

3.2 Children (Including Children of a Common-Law Marriage)

Children are eligible beneficiaries if they are:

3.2.1. Children of a member who elected child coverage when he or she initially became eligible to participate in RCSBP. Note: Child age requirements are described in Chapter 44, paragraph 2.2;

3.2.2. Children of a member who elected child coverage within one year of first acquiring a dependent child after initially becoming eligible to participate in RCSBP;

3.2.3. Children of a member who died after meeting years of service requirements for a non-regular retirement, but before being notified of retirement eligibility or during the 90-day period immediately following such notification without having made an RCSBP election; or

3.2.4. Children of a member who elected spouse and child or former spouse and child coverage, if the spouse or former spouse dies, remarries before age 55 or otherwise becomes ineligible. If former spouse coverage is in place, only the child(ren) who resulted from the marriage to the former spouse are eligible beneficiaries.

3.3 Former Spouse

The former spouse is an eligible beneficiary if he or she:

3.3.1. Is the member's former spouse when the member becomes eligible to participate in RCSBP and was elected as the beneficiary by the member or an election of former spouse coverage was deemed to have been made by the Secretary concerned upon timely request by the former spouse;

3.3.2. Was not the member's former spouse when the member became eligible to participate in RCSBP and a prior spouse election is changed to provide coverage for a former spouse in accordance with subparagraph 7.2.3. A former spouse must have been married to the member for at least one year or be a parent of a child born of the marriage; or

3.3.3. Was the former spouse for whom coverage was provided under the insurable interest category for an election made before November 8, 1985. The former spouse will remain an eligible beneficiary following a remarriage, unless the remarriage is to a member who is providing the former spouse coverage.

3.4 Natural Person With Insurable Interest

A member may make an election for a natural person with an insurable interest only when there is no eligible spouse or dependent child(ren). A member must elect gross retired pay as the base amount under an election for a natural person with an insurable interest. Pursuant to 10 U.S.C. § 1448(b), any Reserve member who is not married and does not have a dependent child, may elect to provide RCSBP coverage for a natural person with an insurable interest. Additionally, a member

who is unmarried but who has one dependent child may provide coverage for that child under the insurable interest provision. The natural person with an insurable interest is an eligible beneficiary if the beneficiary that member designated is:

3.4.1. A person who has a reasonable and lawful expectation of pecuniary benefit from the continued life of the member. This may include parents, stepparents, grandparents, grandchildren, aunts, uncles, sisters, brothers, half-sisters, half-brothers, a dependent or non-dependent child or step-child, or any other person more nearly related than a cousin; or

3.4.2. Any individual having a reasonable and lawful basis, founded upon the relationship of parties to each other, either pecuniary or of blood or affinity, to expect some benefit or advantage from the continuance of the life of the retiree.

NOTE: Proof of financial benefit from the continuance of the life of the member may be required.

3.5 Special Needs Trust (SNT)

The National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2015, Public Law (PL) 113-291, amended 10 U.S.C. §§ 1448, 1450, and 1455, to give Military Service members and retirees the option to direct payment of an annuity for a dependent child to an SNT. See Chapter 46.

3.6 Same-Sex Spouses

See ***DoD Instruction (DoDI) 1332.42***, Section 4.3(d), December 30, 2020 and Chapter 43, paragraph 4.2.

4.0 ELECTION TO PARTICIPATE

4.1 90-Day Period

Any member who is notified of his or her completion of the years of service required for retired pay eligibility for non-regular retirement may elect to participate in RCSBP before the end of the 90-day period. A member who is married or has a dependent child, and who receives notice of eligibility for retired pay, after January 1, 2001, is automatically an immediate participant in RCSBP unless the member elects (with spousal concurrence, if required) not to participate or to defer the decision or delay coverage before the end of the 90-day period. See subparagraph 5.2.7.

4.2 Annuity Options

A member electing to participate must designate an immediate election, a deferred election, or indicate a decision to delay the election until reaching retirement age. These are described as Options A, B, or C.

4.2.1. Option A. The member defers a survivor annuity election or declines coverage until retirement age. There is no coverage for the years between becoming eligible for retirement and

reaching retirement entitlement age. If a member dies before reaching retirement age, no survivor annuity is payable. At retirement age, regardless if that age is before age 60, the member may elect to participate in SBP as any other member becoming entitled to retired pay. If a married member chooses Option A, spousal concurrence is required. See subparagraph 5.2.7.

4.2.2. Option B. The member elects to provide a deferred survivor annuity that begins on the date that the member would have attained the age of 60, or on the day after the member's death, whichever is later. If a married member chooses Option B, spousal concurrence is required. See subparagraph 5.2.7.

4.2.3. Option C. The member elects to provide an immediate survivor annuity beginning on the day after the member's death, whether before or after reaching retirement age.

4.3 Base Amount

A member who receives a 20-year notification of eligibility and who elects to participate in RCSBP must elect to cover:

4.3.1. One hundred percent of retired pay or a given dollar amount which is greater than or equal to $300, but less than 100 percent of retired pay;

4.3.2. One hundred percent of retired pay, if member's full retired pay computed as of the effective date of election, is less than $300.00;

4.3.3. One hundred percent of retired pay, if the member elects to cover a dollar amount greater than 100 percent of his or her retired pay as of the effective date of election; or

4.3.4. An elected dollar amount of retired pay, but which is not less than $300.00. However, any dollar election is converted to a percentage of retired pay as of the effective date of the election. A member who elects less than full base amount should be advised that his or her election will be converted to a percentage of retired pay as would be payable if he or she were of retirement age on the date the RCSBP election becomes effective. The base amount is that same percentage of retired pay regardless of the changes in the retired pay that may occur because of pay rate increases, additional points accumulated, promotion or longevity step increases. Note: Spousal concurrence is required when member elects spousal coverage for less than the maximum coverage. See subparagraph 5.2.7.1.

5.0 ELECTION DATA

5.1 RCSBP Election Certificate

The ***DoD (DD) Form 2656-5***, Reserve Component Survivor Benefit Plan (RCSBP) Election Certificate, is required for making an RCSBP election and is also required if the member defers the election under Option A in subparagraph 4.2.1.

5.2 Contents of DD 2656-5

The contents of the election document should show:

5.2.1. The member's name, Social Security number, date of birth, and date of retirement (if known);

5.2.2. If participating, the member has elected coverage for:

5.2.2.1. Spouse and/or children,

5.2.2.2. Former spouse or former spouse and children, or

5.2.2.3. Natural person with an insurable interest (at maximum level of coverage only);

5.2.3. If participating, the member has elected coverage amount or percentage;

5.2.4. If participating, the member's election must contain an election for Option B or Option C. See subparagraphs 4.2.2 or 4.2.3;

5.2.5. If participating, the member's designated beneficiary. Show the name, birth date, and Social Security number for each beneficiary named. If the coverage includes spouse, the member must furnish the date of marriage. Show the address and relationship when the beneficiary is a natural person with an insurable interest. For a natural person with an insurable interest, the member must provide a signed statement to show proof of financial benefit if the person designated is more distantly related than a cousin;

5.2.6. The member must sign and date the election. The member's signature must be witnessed. The witness may not be the member's spouse or beneficiary. The witness should not be a minor, but minority of a witness will not necessarily invalidate the member's election. In the event a member is unable to complete his signature and instead makes his mark (such as an "X"), two disinterested persons must witness the election form. An addendum to the DD 2656-5 will suffice in such situations. NOTE: An election made on behalf of the member through a power of attorney is not valid. Such an election is not binding and is without force or effect of law; and

5.2.7. Spousal concurrence in certain elections is a requirement. The spouse signature must appear on the DD 2656-5, the spouse's signature must be notarized, and the spouse must sign after the member has signed the form. If the spouse and member are not co-located, exception to the use of the DD 2656-5 to record the concurrence may be approved in accordance with DoDI 1332.42, Subsection 4.2.a.(3).

5.2.7.1. A retirement eligible Reserve member who elects RCSBP spouse coverage for less than maximum coverage when the member becomes eligible to participate must obtain the concurrence of the spouse in writing. With respect to members who receive notification of retired pay eligibility pursuant to ***10 U.S.C., Chapter 1223*** after January 1, 2001, a retirement eligible

Reserve member must obtain the concurrence of the spouse in writing. Spousal concurrence is required if the member declines coverage (Option A), elects deferred coverage (Option B), elects coverage for spouse at less than the maximum level, or elects coverage for a dependent child but not for the spouse. Without spousal concurrence, an election for less than maximum coverage is invalid.

5.2.7.2. If a member marries during the 90-day period (see paragraph 4.1), spousal concurrence is not required, but the spouse must be notified of the member's election. Note: The failure to retain evidence that the spouse was notified of the member's election will not invalidate the member's election.

5.2.7.3. If former spouse coverage is elected or deemed, the spousal concurrence is not required; however, a reasonable attempt will be made to notify the spouse of the former spouse coverage. Note: The failure to retain evidence that the spouse was notified of an election for coverage for a former spouse will not invalidate the former spouse election.

5.2.7.3.1. To elect former spouse coverage, the member must complete a ***DD Form 2656-1***, Survivor Benefit Plan (SBP) Election Statement for Former Spouse Coverage. If the member elects former spouse coverage, the election must include information setting forth whether the election was made pursuant to the requirements of a court order, or a voluntary written agreement previously entered into by the member as part of, or incidental to, a proceeding of divorce, dissolution, or annulment, and, if so, whether such agreement was incorporated, ratified, or approved by a court order.

5.2.7.3.2. In order for a former spouse to deem an election, the former spouse must, within one year of the date of the court order involved, complete and send a ***DD Form 2656-10***, Survivor Benefit Plan (SBP)/Reserve Component (RC) SBP Request for Deemed Election, and a copy of the court order, regular on its face, which requires the former spouse SBP election, or which incorporates, ratifies, or approves the voluntary, written agreement of such a person or a statement from the clerk of the court (or other appropriate official) that such agreement has been filed with the court in accordance with applicable State law. A deemed election will fail unless both the DD 2656-10 and a copy of the court order or written agreement are received in accordance with the applicable instructions in the form.

6.0 CHANGES IN ELECTION AND COVERAGE

In some circumstances, a member may make a change in RCSBP election or coverage after first becoming eligible for RCSBP (at the time of receiving notice of eligibility (NOE) of meeting service requirements for a non-regular retirement) and making an initial election. See DoDI 1332.42, Section 4.4.

6.1 Later-Acquired Spouse and/or Child

6.1.1. Remarriage of Participating Member. If a member participating in RCSBP with spouse or spouse and child coverage loses the spouse beneficiary through death or divorce, the member may, within one year of remarriage, increase the level of coverage up to and including full-retired pay if a reduced base amount was previously elected, or elect not to resume spouse coverage (child coverage, if previously elected, remains irrevocable). If a member takes no action, spouse coverage will automatically resume upon the one-year anniversary of the remarriage at the coverage amount originally elected. If the member elects not to resume spouse coverage or provides spouse coverage at a less-than-maximum level, the spouse must be notified. Note: The failure to retain evidence that the spouse was notified of the member's election will not invalidate the member's election.

6.1.2. Marriage Where No Spouse at NOE. A member who had no eligible spouse at NOE (and was not required to elect former spouse coverage) and later marries may elect RCSBP spouse coverage as follows.

6.1.2.1. Member Participating. If the member elected to participate in RCSBP at NOE (i.e., elected Option B or C for a child or insurable interest), the member may elect to add spouse coverage to child coverage or terminate an insurable interest beneficiary coverage in favor of spouse coverage. The election must be made on a DD Form 2656-6 and received within one year of the marriage. The level of coverage cannot be changed. The member is not required to have the concurrence of the new spouse to elect not to add spouse coverage. Failure to make the election within one year terminates eligibility for that spouse and any subsequent spouse. See section 6.3 regarding spouse elections where a former spouse election was made and the former spouse subsequently dies.

6.1.2.2. Member Not Participating. If the member deferred the SBP election and declined RCSBP coverage for a child at NOE (i.e., elected Option A), the member cannot elect RCSBP coverage for the spouse upon marriage. The one-year election requirement in subparagraph 6.1.2.1 does not apply. The member cannot elect to cover the spouse until making an election for SBP coverage upon reaching the age of eligibility to receive retired pay. Once reaching eligibility age, the member may not without the concurrence of the spouse elect- (i) not to participate in the Plan; (ii) to provide an annuity for the spouse at less than the maximum level; or (iii) to provide an annuity for the dependent child but not for the spouse.

6.1.2.3. Member Not Participating Because There Was Neither a Spouse Nor a Dependent Child at NOE. If the member had neither a spouse nor a dependent child at NOE and made no election to participate in RCSBP at NOE, the member may elect to participate with spouse coverage. The election must be made on a DD Form 2656-6 and received within one year of the marriage. Failure to make the election within one year terminates eligibility for that spouse and any subsequent spouse. The decision to cover or not cover the new spouse is the member's unilateral decision; the new spouse is not required to concur.

6.1.3. Dependent Child After NOE. A member who had no eligible dependent child at NOE, but subsequently has a dependent child, may elect RCSBP child coverage as follows.

6.1.3.1. Member Participating. A member already participating in RCSBP (i.e., election Option B or C at NOE for a spouse) may elect to add child coverage using a DD Form 2656-6. The election must be received within one year of acquiring the dependent child. The level of coverage cannot be changed. Failure to make the election within one year terminates eligibility for that child and any subsequent child.

6.1.3.2. Member Not Participating. If the member deferred the SBP election and declined RCSBP coverage for a spouse at NOE (i.e., elected Option A), the member cannot elect RCSBP coverage for the newly acquired child and must wait to make an election for SBP coverage upon reaching the age of eligibility to receive retired pay. The one-year election requirement in subparagraph 6.1.3.1 does not apply.

6.1.3.3. Member Not Participating Because There Was Neither a Spouse Nor a Dependent Child at NOE. If the member had neither a spouse nor a dependent child at NOE and made no election to participate in RCSBP at NOE, the member may elect to participate with child coverage. The election must be made on a DD Form 2656-6 and received within one year of acquiring the child. Failure to make the election within one year terminates eligibility for that child and any subsequent child.

6.1.3.4. Member Who Had a Dependent Child at NOE. A member who had a dependent child at NOE and who did not elect child coverage at that time cannot later elect child coverage for subsequent dependent children. Except as provided for in subparagraph 6.1.3.2, a member with no dependent child at NOE who subsequently acquires a dependent child and does not elect child coverage within one year may not later elect child coverage for subsequent dependent children unless otherwise provided by law.

6.2 Former Spouse or Former Spouse and Child Elections

6.2.1. General Rules.

6.2.1.1. A former spouse election prevents an annuity to the member's current spouse and child (other than a child beneficiary under a former spouse and child election).

6.2.1.2. If the member is married at the time of the former spouse election, a reasonable attempt must be made to notify the spouse of the member's election for the former spouse. Note: The failure to retain evidence that the spouse was notified of an election for coverage for a former spouse will not invalidate the former spouse election.

6.2.2. Former Spouse Elections When the Member Becomes Eligible to Participate.

6.2.2.1. A member who has a former spouse and/or dependent child when becoming eligible to participate may elect former spouse or former spouse and child coverage provided the child is the result of the member-former spouse marriage.

6.2.2.2. If there is no court order or voluntary written agreement requiring the member to elect former spouse coverage in place at the time the member makes the election, the former spouse's ability to retain former spouse coverage could be affected at a later date.

6.2.3. Former Spouse Elections After the Member Becomes Eligible to Participate but Before the Member Meets Age Requirements.

A member who elected spouse or spouse and child coverage when becoming eligible to participate in the RCSBP, may within one year of the date of the decree of divorce, dissolution, or annulment of that marriage, change that election to provide the RCSBP annuity to the former spouse or the former spouse and child.

6.2.4. Deemed Former Spouse Elections.

Upon written request of a former spouse or their legal representative, the Secretary concerned may deem an election for former spouse coverage when a member is ordered by a court or voluntarily enters into a written agreement, incidental to a proceeding of divorce, dissolution, or annulment, to elect former spouse SBP coverage, and the agreement has been incorporated in, or ratified or approved by the court, and the member fails or refuses to make the election. The provisions for deemed former spouse elections for SBP coverage contained in Chapter 43, paragraph 5.2 apply to RCSBP deemed former spouse elections.

6.3 Electing Spouse Coverage Upon Death of Covered Former Spouse

In accordance with Section 1448(b) of Title 10, U.S.C., as amended by Section 641 of Public Law (PL) 114-92, a retiree who is participating in SBP or RC-SBP with former spouse coverage, may, upon the death of that former spouse, elect to cover his or her spouse under certain conditions described in subparagraph 6.4.1 through 6.4.3.

6.3.1. Remarried Before Death of Former Spouse on or After November 25, 2015.

6.3.1.1. If the covered participant was married to a new spouse before the death of his or her former spouse, the participant may elect to cover his or her spouse if the former spouse died on or after November 25, 2015.

6.3.1.2. The election to cover the new spouse must be made by the participant in writing to the Secretary concerned within 1 year of the death of the former spouse. Coverage is not automatic.

6.3.1.3. The covered participant may not change level of coverage already in place.

6.3.1.4. Coverage for the new spouse is effective as of the first day of the first month following the month of the death of the former spouse beneficiary, or the first anniversary of the marriage, whichever is later.

6.3.2. Remarried After Death of Former Spouse on or After November 25, 2015.

6.3.2.1. If the covered participant marries a new spouse after the death of his or her former spouse, the participant may elect to cover his or her spouse if the former spouse died on or after November 25, 2015.

6.3.2.2. The election to cover the new spouse must be made by the participant in writing to the Secretary concerned within 1 year of remarriage. Coverage is not automatic.

6.3.2.3. The covered participant may not change the level of coverage.

6.3.2.4. Coverage for the new spouse is effective as of the first day of the first month following the month in which the election is received by the Secretary concerned, or the first anniversary of the marriage, whichever is later.

6.3.3. Special Provisions When the Former Spouse Died Before November 25, 2015.

6.3.3.1. In the case of a covered participant who was already remarried before November 25, 2015, and whose former spouse beneficiary died before November 25, 2015, there is a 1-year window to designate the new spouse as beneficiary, in accordance with PL 114-92. The enrollment window for such participants ended on November 24, 2016. While the level of coverage was required to remain the same, the effective date of coverage depended on how long the covered participants was married to the new spouse in relation to the death of the former spouse:

6.3.3.1.1. If the covered participant was married to the new spouse for at least 1 year at the time of the death of the former spouse, the effective date of spouse coverage is the first day of the first month after the death of the former spouse.

6.3.3.1.2. If the covered participant married the new spouse within the year immediately before the death of the former spouse, or after the death of the former spouse, the effective date of spouse coverage is the first day of the first month following the first anniversary of the remarriage.

6.3.3.2. If the former spouse died before November 25, 2015, but the covered participant was not yet married to the new spouse as of November 25, 2015, that covered participant has 1 year from the date of marriage to elect coverage for the new spouse. Coverage is not automatic.

*6.4 Regular Recurring Open Season for Enrollment and Discontinuation

From time to time, Congress approves limited “open enrollment periods” during which time persons who are not participating are allowed to enroll in the plan and persons who are participating are allowed to disenroll. There are no regular recurring open season periods. Open seasons must be specifically prescribed by law and each open season is unique to the law

establishing the open season. In the absence of such a legislatively prescribed period, members may only enroll in the plan as specified in this chapter.

The most recent RCSBP open season, which was authorized by ***Section 643 of PL 117-263***, began December 23, 2022, and ended at midnight (EST) on January 1, 2024, and allowed eligible members to participate or discontinue participation. For this open season, an "eligible member" was a retired member or former member who, on December 22, 2022, was entitled to retired pay, or would be entitled to retired pay but for the member or former member being under the eligibility age to receive retired pay.

*6.5 NDAA FY 2023 SBP Open Season for Enrollment

The 2023 SBP Open Season allowed for eligible members who, on December 22, 2022, were not currently participating in SBP or RCSBP to enroll. For a member who enrolled during the SBP Open Season, the law required that the member responsible to pay retroactive SBP premium costs that would have been paid if the member had enrolled at retirement (or enrolled at another earlier date, depending on the member's family circumstances). See the Implementing and Procedural Guidance for Section 643 of PL 117-263, December 23, 2022, Survivor Benefit Plan Open Season, dated March 9, 2023.

Note: The terms "participating" includes those retired members who previously elected to participate in SBP and have not terminated participation in any way allowed under 10 U.S.C. Ch 73), even if they no longer have an eligible beneficiary. This can occur when a beneficiary who was previously elected undergoes a life change. For example, a (previously elected) child beneficiary may reach adulthood, a (previously elected) spouse beneficiary may obtain a divorce, or a (previously elected) beneficiary may die. Unless otherwise terminated under one of the provisions allowed by law (e.g., electing to discontinue participation under the provisions of 10 U.S.C. § 1448a), an SBP participant without an eligible beneficiary is placed in a "suspended" status. As participants (even in a suspended status), such members are not eligible to make an election to enroll during the 2023 open season. Reference: Deputy Assistant Secretary of Defense for Military Personnel Policy memorandum "Clarification of Policy — 2023 Survivor Benefit Plan Open Season" of November 6, 2023.

*6.6 NDAA FY 2023 SBP Open Season for Discontinuation

The 2023 SBP Open Season also allowed eligible members who are currently enrolled in either SBP or RCSBP to permanently discontinue their SBP coverage. The law required the covered beneficiaries to concur on the SBP and RCSBP Open Season Election to Discontinue Participation form in writing with the election to discontinue. Previously paid premiums will not be refunded. If a reserve member discontinued their RCSBP coverage before receiving retired pay, then upon receiving retired pay, they are still responsible for paying premiums for the period in which they had coverage. The cost would be the rate charged based on the member and their beneficiary's age, pro-rated to the amount of time they had RCSBP coverage. See the Implementing and Procedural Guidance for Section 643 of PL 117-263, December 23, 2022, Survivor Benefit Plan Open Season, dated March 9, 2023.

7.0 IRREVOCABLE ELECTIONS AND DISCONTINUED PARTICIPATION

7.1 90-Day Period

Elections filed during the 90-day period referred to in paragraph 4.1 are generally irrevocable unless revoked before the expiration of the 90-day period.

7.2 Exceptions

Exceptions to the general rule on irrevocability occur under the following circumstances:

7.2.1. The member discontinues participation as a totally disabled member as described in Chapter 43, paragraph 7.4.

7.2.2. A mentally incapacitated member is later determined to be mentally competent and revokes or changes the RCSBP election within 180 days after such determination of judgment. See Chapter 43, subparagraph 3.1.3;

7.2.3. The member elected less than maximum coverage without spousal concurrence and the member fails to establish to the Secretary of the Military Department concerned (or designee) that spousal concurrence was not required, either because the spouse's whereabouts cannot be determined or other exceptional circumstances prevent obtaining the spouse's concurrence. In this instance, the member's election is invalid. See subparagraph 5.2.7.1;

7.2.4. The Secretary concerned revokes an election when necessary to correct an administrative error. Revocation or correction based on administrative error is a Secretarial prerogative and, except when procured by fraud, is final and conclusive on all officers of the United States;

7.2.5. A member may change the beneficiary election to provide former spouse coverage or to remove former spouse coverage as described in section 6.0 and Chapter 43, section 6.0; or

7.2.6. The member voluntarily terminates RCSBP coverage for a natural person with an insurable interest who is not a former spouse.

7.3 Changed Retirement Eligibility

If a member elects RCSBP coverage and subsequently becomes eligible for retirement under another law, thereby losing eligibility, the RCSBP election remains effective until the member actually retires under the law. A member may at that time make a new election as any other retiring member.

8.0 PREMIUMS

The Government does not subsidize the cost of providing RCSBP coverage under the immediate or deferred annuity option, but the members and beneficiaries who potentially will benefit

from the coverage share the cost. The cost to the retiree, known as the Reserve Component Premium, is in the form of an additional deduction from his or her retired pay beyond the Standard Premium. The RCSBP, unlike SBP, requires a reduction in the survivor annuity. That reduction, known as the Survivor's Annuity Premium Deduction, begins when the survivor begins to receive an annuity. The Reserve Component Premium and the Survivor's Annuity Premium Deduction increase at the same time and by the same percentage that retired pay increases by cost-of-living adjustments.

9.0 RCSBP COST RATE TABLES

The Actuary provides RCSBP rate tables to reflect military-specific death rates, to include remarriage and divorce rates and to incorporate dynamic actuarial assumptions. The tables are built on a "years younger or older than member" concept. The ages at the nearest birthday to date of election receipt are used. When ages expressed in years are the same, the table is determined by comparing months and days. Note: The tables for child only rates use the ages of the member and child; not years younger or older. If a member elects spouse and child or former spouse and child, the premium is based only on the member and spouse ages in the RCSBP cost tables; i.e., there is no cost for the child coverage.

10.0 CALCULATION OF THE RESERVE COMPONENT PREMIUM AND THE SURVIVOR'S ANNUITY PREMIUM DEDUCTION

10.1 Premium Description

The SBP Premium consists of a Standard Premium, Reserve Component Premium, and a Survivor's Annuity Premium Deduction. The Standard Premium is the reduction in retired pay made to provide coverage for the period after a member becomes entitled to retired pay. The Reserve Component Premium is the reduction in retired pay made for the RCSBP coverage that was already provided while the member awaited the requisite age of entitlement to retired pay. The Survivor's Annuity Premium Deduction is a premium applied to the survivor's annuity for the RCSBP coverage provided while the member awaited the requisite age of entitlement to retired pay. The premiums described in paragraph 10.2 pertain only to the Reserve Component Premium and the Survivor's Annuity Premium Deduction. The method to compute the Standard Premium may be found in Chapter 45. The amount of the Reserve Component Premium depends on the type of beneficiary option elected, the annuity type elected, and the ages of the member and the beneficiary.

10.2 Calculating the Premiums Based on RCSBP Coverage Amount

10.2.1. The member must elect a given dollar amount or full retired pay as the base amount. Convert any dollar election to a percentage of gross retired pay as of the effective date of an election to guarantee full indexing in proportion to member's retired pay.

10.2.2. Address questions to the Actuary about the methods and assumptions used to determine the RCSBP rate in calculating the Reserve Component Premium. Go to ***http://actuary.defense.gov/*** and select "Contact Us" and then "Survivor Benefit Plan."

10.2.3. The following table serves as an example for calculating the premium based on the RCSBP coverage amount:

Information at RCSBP election:	Calculation:
Member's age =	52
Spouse's age =	45
Election type	Option C – Immediate Annuity, Spouse Coverage
Member's elected monthly base amount =	$300.00
Member's estimated current monthly retired pay =	$1,000.00
Ratio =	300/1000 = .30 (30 percent)
Eight years later:	
Member's monthly retired pay at age 60 =	$2,000.00
Member's base amount at age 60 =	.30 (30 percent) x $2,000.00 = $600.00
RCSBP rate from RCSBP table =	.0161
Reserve Component Premium at age 60 =	$9.66 ($600.00 x .0161)
Survivor's Premium rate (determined by Actuary)	.0001
Survivor's Annuity	$330.00 (.55 X $600.00)
Survivor's Annuity Premium	$0.03 (.0001 X $330.00)

10.2.3.1. If the dollar amount elected by the member as the base amount exceeds 100 percent of the member's retired pay on the effective date of the election, the base amount is 100 percent of the monthly retired pay. If the given dollar amount is less than 100 percent of gross retired pay, but greater than $300.00 when computed against the retired pay, use the ratio against the gross retired pay entitlement at age 60, assuming the member has met age and service requirements.

10.2.3.2. To calculate the Reserve Component Premium, multiply the member's base amount at age 60 by the ratio of the elected base/retired pay of .30 (30 percent) and then by the applicable rate from the Actuary RCSBP table for the election and coverage type, here of 1.61 percent. See also subparagraph 10.2.2. The example in subparagraph 10.2.3 provides the member's base amount at age 60 as $600.00 ($2,000.00 x .30). Therefore, the Reserve Component Premium would be computed as follows: $600.00 x .0161 = $9.66.

10.2.3.3. To calculate the Survivor's Annuity Premium Deduction, first multiply the member's base amount by .55 to compute the Survivor's Annuity, next multiply the Survivor's Annuity amount by the rate of .0001. The example in subparagraph 10.2.3 provides the calculation for the survivor's annuity and the survivor's annuity premium. Therefore, the survivor's annuity would be $600 x .55 = $330 and the Survivor's Annuity Premium would be $330.00 x .0001 = $0.03.

11.0 INITIAL PREMIUM AND EFFECTIVE DATE OF THE RESERVE COMPONENT PREMIUM

11.1 Beginning Date

If a member has eligible beneficiaries, the Reserve Component Premium begins on the first day of the month after the member meets the age and service requirements necessary to be entitled to non-regular retired pay even if the member meets those age and service requirements before age 60. The payment of premiums will be required if the member chose Option B or Option C from paragraph 4.2. If the member meets the age and service requirements on the first day of the month, the premium is effective that month. If the member specifies a retirement date which is after the date the member meets age and service requirements, or if the member delays application for retirement, the premium is retroactive to the date that the member meets age and service requirements.

11.2 Member's Death

If a member who elected RCSBP (Option B or Option C) dies before reaching the age required to receive retired pay, the Survivor's Annuity Premium Deduction for the pre-eligibility age coverage begins with the immediate or deferred annuity as an actuarial reduction of the survivor's annuity.

11.3 Coverage Change

In some instances, a member may change the type of coverage before retired pay and premiums begin. See section 6.0 for allowable election changes. The initial premium for election changes is effective on the first day of the month after the member meets age and service requirements (or, if the member meets age and service requirements on the first day of the month, the premium is effective that month).

12.0 RESERVE COMPONENT PREMIUM

12.1 Changes in Reserve Component SBP Coverage

A change in the type of Reserve Component SBP coverage elected can impact the Reserve Component Premium that will be deducted from a member's retired pay. There are an extensive number of possible changes available under the law depending on changes to a member's individual family circumstances. The most prevalent election options and changes, and the impact of those elections and changes are reflected in Tables 54-1 and 54-2. Note: The premium deduction rules reflected on those tables pertain only to the Reserve Component Premiums.

12.2 RCSBP Premium Deductions

The Reserve Component Premiums are the deductions from the member's retired pay that are made for RCSBP coverage provided while the member waits to attain the requisite age necessary to become entitled to retired pay. Tables 54-1 and 54-2 do not reflect the Standard

Premium which is the reduction in the member's retired pay made to provide coverage for the period after a member becomes entitled to retired pay. Chapter 45 provides the method to compute the Standard Premium. The tables also do not reflect the Survivor's Annuity Premium Deduction which is a further premium applied to the survivor's annuity for the RCSBP coverage provided while the member awaited the requisite age of entitlement to retired pay.

12.3 RCSBP Premium Deductions for Qualifying Reservist Retired Pay Before Age 60

Pursuant to ***10 U.S.C. § 12731(f)***, after January 28, 2008, the eligibility age for non-regular retiree's to receive retired pay may be reduced below 60 years of age. When this happens, a reduction factor at Figure 54-1 is applied to the RCSBP premium. See also Chapter 1, subparagraph 3.8.6.

13.0 DEATH OF MEMBER ON INACTIVE DUTY TRAINING (IDT)

Effective December 23, 2016, section 642 of the NDAA for FY 2017 amended 10 U.S.C. §§ 1448, 1450, and 1451. The amendments changed the calculation of SBP annuities paid to the survivors of Reserve Component members who die in the "line of duty" while performing IDT to align that benefit with the annuity paid to the survivors of Reserve Component members who die on active duty. Additionally, the amendments allow the payment of an RCSBP annuity in certain circumstances to dependent children of covered Reserve Component members who die in the line of duty on IDT or after completing the years of service required for a non-regular retirement and clarifies how retired pay is calculated for those Reserve Component members who die after completing the years of service but prior to notification or prior to electing RCSBP coverage. See also Table 54-3 and Table 54-4.

13.1 Entitlement

A Reserve Component member who dies from injuries or illness incurred or aggravated while performing IDT in which the death is determined to have occurred in the line of duty is entitled to automatic coverage under the SBP program whether or not the member is retirement eligible.

13.1.1. Death in the Line of Duty

13.1.1.1. The Secretary concerned will make a written determination as to whether the member's death occurred while in the line of duty while performing IDT. A member who is determined to have died in the line of duty is one who is in an authorized duty status and whose death is determined not to be the result of his or her own intentional misconduct or willful negligence. A member is considered to be in a duty status as set forth in ***37 U.S.C. § 204(g)(1)***. The finding must describe the circumstances under which the member died.

13.1.1.2. In accordance with PL 114-328, the survivor of a Reserve Component member who died in the line of duty while performing IDT will receive an RCSBP annuity calculated as if the member was a fully-disabled retiree on the date of his or her death. Survivors of Reserve Component members who died in the line of duty on IDT prior to December 23, 2016, are entitled to prospective recalculation of future benefits beginning December 23, 2016, or the date the survivor annuity commenced, whichever is later. Note: These calculations are not retroactive for any payments made prior to December 23, 2016.

13.1.2. Not in the Line of Duty Death Prior to Retirement Eligibility. The death of a Reserve Component member who is not retirement eligible and whose death is determined to have occurred "not in the line of duty" does not qualify under this section.

13.1.3. Not in the Line of Duty Death After Retirement Eligibility But Before Notification. The survivor of a Reserve Component member whose death is determined to have occurred "not in the line of duty," and who had completed 20 qualifying years of satisfactory service but had not yet been notified of such completion as required by 10 U.S.C. §12731(d), is eligible for an RCSBP annuity. The annuity is computed based upon that member's or former member's years of service in accordance with 10 U.S.C. § 12733.

13.1.4. Not in the Line of Duty Death Within 90 Days of Notification. The survivor of a Reserve Component member whose death is determined to have occurred "not in the line of duty" after completing 20 qualifying years of satisfactory service and within 90 days of notification of such completion as required by 10 U.S.C. § 12731(d) but before making an RCSBP election is eligible for an SBP annuity. The annuity is computed based upon that former member's years of service in accordance with 10 U.S.C. § 12733.

13.2 Qualified Annuitants

In order of precedence, qualified annuitants are former spouse by court order, current spouse, and children.

13.2.1. Former Spouse by Court Order. The annuity is payable to the former spouse if the member was required under a court order or spousal agreement to provide an annuity to the former spouse upon becoming eligible to participate in the RCSBP or if the member has made an election to provide an annuity to the former spouse. No deemed election under subparagraph 6.2.4 is necessary.

13.2.2. Surviving Spouse. The annuity is payable to the current surviving spouse unless the annuity is payable to the former spouse.

13.2.3. Dependent Children

13.2.3.1. In the case the surviving spouse becomes ineligible to receive an annuity, the Secretary concerned may pay an annuity to the dependent children of that person under 10 U.S.C. §§ 1448(f)(2) and 1450(a)(2).

13.2.3.1.1. For deaths occurring prior to December 23, 2016, dependent children were not considered eligible annuitants if a surviving spouse lost entitlement to an annuity for a reason other than death. Note: Pursuant to NDAA FY 2017 and PL 114-328, December 23, 2016, dependent children became eligible annuitants if the surviving spouse lost entitlement to an annuity for reasons other than death.

13.2.3.1.2. For deaths occurring on or after December 23, 2016, if the annuity was suspended because the spouse became ineligible due to remarriage, that annuity may resume and be paid to a dependent child or children, if any. These payments may resume no sooner than December 23, 2016, or the date the annuity suspended, whichever is later.

13.2.3.2. If, in consultation with an eligible surviving spouse who has an eligible dependent child or children, the Secretary concerned determines it is more appropriate for the dependent child or children to receive the RCSBP annuity rather than the surviving spouse, the RCSBP annuity may be paid directly to a dependent child or children in lieu of payment to the eligible spouse.

13.3 Line of Duty Determination

The Secretary concerned will make a written determination as to whether the member's death occurred while in the line of duty while performing IDT. For the purpose of determining eligibility for SBP benefits, a service member's death will be generally considered being in the line of duty unless:

13.3.1. The death occurred while the member was not serving on IDT;

13.3.2. The death was the result of the member's own intentional misconduct or willful negligence; or

13.3.3. The death occurred from injuries or illness incurred or aggravated during a period of unauthorized absence.

14.0 ANNUITY AMOUNT

14.1 General

14.1.1. RCSBP Annuity. Compute the amount of RCSBP annuity payable to a surviving spouse, former spouse, or dependent child beneficiary in the same manner as the SBP (see Chapter 46) except that the annuity amount is 55 percent of the difference between the base amount and the cost of the Survivor's Annuity Premium Deduction. Compute the monthly annuity for a natural person with an insurable interest or former spouse (insurable interest category) as 55 percent of the member's retired pay as reduced by both the Insurable Interest premium (which continues for the lifetime of the annuitant) and the Survivor's Annuity Premium Deduction. The Actuary determines amount of the Survivor's Annuity Premium Deduction. See section 10.0. Round monthly RCSBP annuities, if not a multiple of $1.00, to the next lower multiple of $1.00.

14.1.1.1. If a member dies before attaining the eligibility age applicable to that member to begin receiving retired pay and elected the immediate annuity option, Option C, the initial annuity amount is payable beginning immediately following death and is computed on the basis of what the member's retired pay would have been on the date of the member's death using the basic pay rates on that date. Note: If a member retires before age 60 pursuant to 10 U.S.C. § 12731, and subsequently dies before what would have been his 60th birthday, the initial annuity amount is payable beginning immediately following death.

14.1.1.2. If a member dies before attaining the eligibility age applicable to that member to begin receiving retired pay and elected the deferred annuity option, Option B, the initial annuity amount is payable beginning the first day of the month following the date the member would have attained the age of 60. Compute the initial annuity amount based on the retired pay the member would have received at age of eligibility.

14.1.2. RCSBP Annuity - Death in Line of Duty. An annuity paid to the survivor of a member who died or who dies in the line of duty while performing IDT will be 55 percent of the retired pay the member was or would have been entitled to on the day the member died, computed as if the member was retired with a total (100 percent) disability under 10 U.S.C. § 1201.

14.1.3. Age 62 Offset. Prior to March 31, 2008, a spouse or former spouse incurred a reduction of RCSBP at age 62 because of entitlement to Social Security benefits. The age 62 offset was eliminated effective April 1, 2008.

14.2 Eligible Annuitants and Amounts

14.2.1. Spouse or Former Spouse. See Chapter 46, Table 46-1. The RCSBP annuity may be less than 55 percent, depending on the Survivor's Annuity Premium Deduction, which is deducted in determining the annuity amount.

14.2.2. Children Only. If there is more than one eligible child, pay the annuity in equal shares. The annuity for children is not subject to Dependency and Indemnity Compensation (DIC) offset.

14.2.3. Spouse and Child or Former Spouse and Child. Pay annuity to the spouse or former spouse, as long as eligibility exists. If the surviving spouse or former spouse loses eligibility due to death or remarriage before age 55, or otherwise become ineligible, pay the annuity to the child annuitants. A former spouse and child election includes only the children of the member's marriage to the former spouse. See also Chapter 42 for definition of a surviving spouse.

14.2.4. Natural Person With an Insurable Interest. The annuity is payable only to the natural person with an insurable interest as designated by or on behalf of the member. The annuity is not transferable to another person.

14.3 Payment of Annuity

The provisions in Chapter 46 for making annuity payments to representative payees also apply to the RCSBP program.

15.0 OFFSETS TO THE ANNUITY

See Chapter 46 for DIC offsets paid to a surviving spouse by the Department of Veteran Affairs. Public Law (PL) 116-92, Section 622 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2020, signed into law on December 20, 2019, amended 10 U.S.C. § 1450(c). This legislation created a multi-year phase out of the SBP-Dependency Indemnity Compensation (DIC) offset, beginning in FY 2021. Note: The information in Chapter 46, excluding the minimum-income annuitant material, applies to the RCSBP annuitant.

16.0 TAXABILITY OF ANNUITY

The provisions of Chapter 46 regarding the taxability of annuities also apply to annuities under RCSBP.

Figure 54-1. RCSBP Reduction Factors

Age	Spouse	Child
59	.8516	.8739
58	.7216	.7635
57	.6080	.6657
56	.5097	.5803
55	.4259	.5052
54	.3554	.4402
53	.2967	.3835
52	.2477	.3340
51	.2066	.2904
50	.1722	.2516

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage

The Premium deduction rules reflected on this table pertain only to the Reserve Component Premiums. The Reserve Component Premiums are the deductions from the member's retired pay that are made for RCSBP coverage provided while the member waited to attain the requisite age necessary to become entitled to retired pay. This table does not reflect the Standard Premium which is the reduction in the member's retired pay made to provide coverage for the period after a member becomes entitled to retired pay. The method to compute the Standard Premium may be found in Chapter 45. This table also does not reflect the Survivor's Annuity Premium Deduction which is a further premium applied to the survivor's annuity for the RCSBP coverage provided while the member awaited the requisite age of entitlement to retired pay. The method to compute the Survivor's Annuity Premium Deduction may be found in section 10.0.

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
1	Spouse Coverage	the spouse upon whom the initial election was based is still an eligible spouse beneficiary	full spouse premium deductions will be made until the earlier of: (a) the first day of the month in which the spouse is no longer eligible due to death, divorce, or annulment; or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.
2	Spouse Coverage	the spouse upon whom the initial election was based is no longer an eligible beneficiary due to death	no spouse premium deductions will be made for spouse coverage previously provided before the spouse died, subject to Note 1 where the member remarried.

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
3	Spouse Coverage	the spouse upon whom the initial election was based is no longer an eligible spouse beneficiary due to divorce or annulment	no spouse premium deductions will be made for the period that spouse RCSBP coverage was previously provided before the marriage ended; subject to Notes 1 where the member remarried and Note 2 where former spouse coverage is elected.
4	Former Spouse Coverage	the former spouse upon whom the initial election was based is still an eligible former spouse beneficiary	full former spouse premium deductions will be made until the earlier of : (a) the first day of the month in which the former spouse is no longer eligible due to death, (b) the first day of the month in which the former spouse coverage is suspended due to remarriage before age 55, or (c) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months. Note 3.
5	Former Spouse Coverage	the former spouse upon whom the initial election was based is no longer an eligible beneficiary due to death	no former spouse premium deductions will be made for the former spouse coverage previously provided before the former spouse died. Note 4.

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
6	Former Spouse Coverage	coverage for the former spouse upon whom the initial election was based was suspended due to remarriage before age 55	former Spouse premium deductions for the period that former spouse coverage was previously provided are suspended. No premium deductions are made during the period of suspension. Note 5.
7	Spouse and Child or Former Spouse and Child	the spouse or former spouse upon whom the initial election was based is no longer an eligible beneficiary	no spouse or former spouse premium will be deducted. Child premiums will be deducted. Child premiums will be deducted based on the ages of the member and youngest child at the time the spouse coverage was suspended until the earlier of: (a) the first day of the month in which all children for whom RCSBP child only coverage was previously provided are no longer eligible due to death, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months. Note 6.

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
8	Child Only Coverage	the member has any child who is still an eligible child beneficiary	child premium deductions will be made until the earlier of: (a) the first day of the month in which all of the children for whom RCSBP child only coverage was previously provided are no longer eligible due to death, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months. Note 6.
9	Child Only Coverage	the member has no living children for whom RCSBP coverage was provided	no child premium deductions will be made for the RCSBP child only coverage previously provided before the child(ren) died.

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
10	Child Only Coverage	all of the member's children have lost eligibility due to age or marriage	child premium deductions will be made until the earlier of: (a) the first day of the month in which all of the children for whom RCSBP child only coverage was previously provided are no longer eligible due to death, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months. Note 6.

NOTES:

(a) If the member subsequently remarried (i.e., acquired a subsequent spouse) before meeting the age and service requirements to become actually entitled to receive retired pay and spouse coverage was established for the subsequent spouse, full spouse premium deductions will be made in accordance with Rule (1) in Table 54-1. The premium rate is based on the ages of the member and the spouse for whom the initial election is made. If the base amount was increased, the premium rate is applied against the increased base amount.

(b) If, after the divorce from the spouse upon whom the initial election was based, former spouse coverage is elected by the member (or deemed to be elected by the former spouse) before the member meets the age and service requirements to become actually entitled to receive retired pay, full former spouse premium deductions will be made from the member's retired pay in accordance with Rule (4) in Table 54-1.

Table 54-1. Reserve Component Premiums for Spouse, Former Spouse, and Child Only Coverage (Continued)

(c)If premiums are suspended because the former spouse loses eligibility due to remarriage before age 55, in the event that marriage ends due to death or divorce, the former spouse regains eligibility and deductions will be restarted and made until the earlier of (a) the first day of the month in which the former spouse is no longer eligible due to death; (b) the first day of the month that the former spouse coverage is suspended again due to remarriage before age 55; or (c) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

(d) If, after the former spouse died and before the time the member met the age and service requirements to become actually entitled to receive retired pay, the member had a spouse for whom and spouse coverage was established, full spouse premium deductions will be made from the member's retired pay for the spouse in accordance with Rule 1.

(e)If premiums are suspended because the former spouse lost eligibility due to remarriage before age 55, in the event that the former spouse's marriage ends due to death or divorce, the former spouse regains eligibility and deductions will be started and made until the earlier of (a) the first day of the month in which the former spouse is no longer eligible due to death; (b) the first day of the month that the former spouse coverage is suspended again due to remarriage before age 55; or (c) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

(f) As long as one of the children for whom RCSBP coverage was provided is still living, premium deductions will be made until member has retired pay reduced for a total of 360 months. The child only deductions are made even after the child(ren)'s eligibility is lost due to age or marriage. See the "Special Rule for Certain RCSBP Participants" in 10 U.S.C. § 1452(b)(3). If a member acquires a new youngest child, the original Reserve Component Premium will remain.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage

The Premium deduction rules reflected on this table pertain only to the Reserve Component Premiums. The Reserve Component Premiums are the deductions from the member's retired pay that are made for RCSBP coverage provided while the member waits to attain the requisite age necessary to become entitled to retired pay. This table does not reflect the Standard Premium which is the reduction in the member's retired pay made to provide coverage for the period after a member becomes entitled to retired pay. The method to compute the Standard Premium may be found in Chapter 45. This table also does not reflect the Survivor's Annuity Premium Deduction which is a further premium applied to the survivor's annuity for the RCSBP coverage provided while the member awaited the requisite age of entitlement to retired pay. The method to compute the Survivor's Annuity Premium Deduction may be found in section 10.0.

RULE	**If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP**	**and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:**	**and after the member started to receive retired pay, the below listed condition occurs:**	**then the below listed Reserve Component Premium deductions will be made from the member's retired pay:**
1	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is still an eligible insurable interest beneficiary	no changes are made to the insurable interest coverage	full insurable interest premium deductions will be made until the earlier of: (a) the first day of the month in which the insurable interest beneficiary dies, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
2	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is still an eligible insurable interest beneficiary	the insurable interest beneficiary dies	full insurable interest premium deductions will be made until the earlier of: (a) the first day of the month in which the insurable interest beneficiary dies, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
3	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is still an eligible insurable interest beneficiary	the member voluntarily elected to terminate/discontinue insurable interest coverage under 10 U.S.C. § 1448(b)(1)(B)	full insurable interest premium deductions will be made until the earlier of: (a) the first day of the month in which the insurable interest beneficiary dies, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
4	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is still an eligible insurable interest beneficiary	the member voluntarily elects to change the insurable interest election to provide an annuity to a spouse or dependent child under 10 U.S.C. § 1450(f).	full insurable interest premium deductions will be made until the earlier of: (a) the first day of the month following the month in which the member voluntarily elects to change the insurable interest election to provide an annuity to a spouse or dependent child under 10 U.S.C. § 1450(f), or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
5	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is no longer an eligible beneficiary due to death	no subsequent changes are made to the insurable interest coverage	no insurable interest premium deductions will be made for the RCSBP insurable interest coverage previously provided before the insurable interest beneficiary died.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
6	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is no longer an eligible beneficiary because the member voluntarily elected to terminate/discontinue insurable interest coverage under 10 U.S.C. § 1448(b)(1)(B)	blank	prorated insurable interest premium deductions will be made until the earlier of: (a) the first day of the month in which the insurable interest beneficiary dies, or (b) the first day of the month following the month in which the member has retired pay reduced for a total of 360 months. The deductions will be prorated based on the number of months that coverage was in effect in accordance with the Note.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

RULE	If the member made the below listed RCSBP election (Options B or C) when first eligible to participate in the RCSBP	and at the time the member met the age and service requirements to become actually entitled to receive retired pay, the below listed condition also existed:	and after the member started to receive retired pay, the below listed condition occurs:	then the below listed Reserve Component Premium deductions will be made from the member's retired pay:
7	Insurable Interest Coverage	the insurable interest beneficiary upon whom the initial election was based is no longer an eligible beneficiary because the member voluntarily elected to change the insurable interest election to provide an annuity to a spouse or dependent child under 10 U.S.C. § 1450(f)	blank	premiums will be deducted for the spouse or dependent child coverage that was elected under 10 U.S.C. § 1450(f). The premiums will be established in accordance with Table 54-1 and will be based on the ages of the member, spouse and/or child at the time the coverage is elected. Additionally, deduction for Insurable Interest coverage will be deducted and prorated based on the number of months that coverage was in effect in accordance with the Note.

Table 54-2. Reserve Component Premiums for Insurable Interest Coverage (Continued)

Note: An RCSBP participant who voluntarily terminates coverage for a natural person with an insurable interest (not a former spouse) before the member meets the age and service requirements to become actually entitled to receive retired pay, will pay a prorated Reserve Component Premium based on the number of months for which coverage was effective. To calculate the prorated premium, multiply the original RCSBP rate by the number of full months during which the member had coverage, dividing the result by the number of full months the member would have had coverage if coverage had not terminated before age 60. The result, rounded to 4 decimal places, will serve as the member's prorated Reserve Component Premium.

Revised RCSBP Rate	=	Original RCSBP Rate	x	No. of months member had pre-age 60 coverage	÷	No. of months member would have had pre-age 60 coverage

Table 54-3. RCSBP – General Information

RULE	A reservist who is	and dies in the line of duty, then	dies not in the line of duty, then
1	serving on Active Duty with fewer than 20 creditable years of service	the RCSBP annuity is calculated as if the member is totally disabled in accordance with 10 U.S.C. § 1201, or	the member is not eligible to participate in the RCSBP.
2	serving on Active Duty with more than 20 creditable years of service	the RCSBP annuity is calculated as if the member is totally disabled in accordance with 10 U.S.C. § 1201, or	the RCSBP annuity is calculated based on years of active service in accordance with 10 U.S.C. § 1451 (c)(1)(A)(ii).
3	serving on Inactive Duty with fewer than 20 creditable years of service	the RCSBP annuity is calculated as if the member is totally disabled in accordance with 10 U.S.C. § 1201, or	the member is not eligible to participate in the RCSBP.
4	serving on Inactive Duty with more than 20 creditable years of service	the RCSBP annuity is calculated as if the member is totally disabled in accordance with 10 U.S.C. § 1201, or	the RCSBP annuity is calculated based on years of active service in accordance with 10 U.S.C. § 12733.

Table 54-4. Reservist Who Dies Not in the Line of Duty or Not in a Duty Status

RULE	If a reservist, who is not in the line of duty or not in a duty status, dies	and	then
1	after completing 20 years of service	has not yet received a letter of notification of eligibility to retire (NOE),	the RCSBP annuity is calculated based on years of active service in accordance with 10 U.S.C. § 12733.
2	after completing 20 years of service	within 90 days of receiving NOE, has not yet elected RCSBP coverage,	the RCSBP annuity is calculated based on years of active service in accordance with 10 U.S.C. § 12733.
3	after completing 20 years of service	received NOE and elected to participate in RCSBP,	the RCSBP annuity is calculated based on years of active service in accordance with 10 U.S.C. § 12733.
4	having not yet completed 20 years of service	blank	the member is not eligible to participate in RCSBP.

VICTIMS OF ABUSE - RETIREMENT-ELIGIBLE MEMBERS

1.0 GENERAL

1.1 Overview

Title 10, United States Code, section 1408(h) (***10 U.S.C. § 1408(h)***) authorizes various benefits for the spouses, former spouses, and dependent child(ren) of retirement-eligible members who lose eligibility for retired pay because of misconduct involving abuse of dependents. Generally, the spouses and former spouses are provided the same rights and benefits that they would have received had there been no abuse and the member had retired under normal circumstances.

1.2 Purpose

This chapter provides policy on benefits and payments of retired pay in compliance with a court order for spouses, former spouses, and dependent child(ren) of the retirement-eligible member or former member. A member or former member, while in the armed forces and after becoming eligible to retire from the armed forces on the basis of years of service, may have his or her eligibility to receive retired pay terminated as a result of misconduct involving abuse of a spouse and/or dependent child.

1.3 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the U.S.C., including Titles 10 and 42. Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DEFINITIONS

2.1 Court Order

A court order is:

2.1.1. A final decree of divorce, dissolution, annulment, or legal separation issued by a court;

2.1.2. A court ordered, ratified, or approved property settlement incident to such a decree (including a final decree modifying the terms of a previously issued decree of divorce, dissolution, annulment, or legal separation or a court ordered, ratified, or approved property settlement incident to such previously issued decree); or

2.1.3. A support order, as defined in ***Section 453(p) of the Social Security Act*** and ***42 U.S.C. § 653(p)***, which:

2.1.3.1. Is issued in accordance with the laws of the jurisdiction of that court; and

2.1.3.2. Provides for:

2.1.3.2.1. Payment of child support (as defined in ***42 U.S.C. § 659(i)(2)***);

2.1.3.2.2. Payment of alimony (as defined in 42 U.S.C. § 659(i)(3)); or

2.1.3.2.3. Division of property (including a division of community property), which specifically provides for the payment of an amount, expressed in dollars or as a percentage of disposable retired pay, from the disposable retired pay of a member to the spouse or former spouse of that member.

2.2 Dependent Child

In this chapter, dependent child means an unmarried legitimate child, including an adopted child or stepchild, of the member or former member who is:

2.2.1. Under 18 years of age;

2.2.2. Incapable of self-support because of a mental or physical incapacity that existed before 18 years of age and is dependent on the member or former member for over one-half of the child's support; or

2.2.3. Enrolled in a full-time course of study in an institution of higher education recognized by the Secretary of Defense for the purposes of this subparagraph, is less than 23 years of age and is dependent on the member or former member for over one-half of the child's support.

2.3 Disposable Retired Pay

Disposable retired pay is the total monthly retired pay to which a member is entitled, less amounts which:

2.3.1. Are owed by that member to the United States for previous overpayments of retired pay and for recoupments from entitlement to retired pay as required by law;

2.3.2. Are deducted from the retired pay of such member as a result of forfeitures of retired pay ordered by a court-martial or as a result of a waiver of retired pay required by law in order to receive compensation under Titles 5 or 38 of the U.S.C.;

2.3.3. Are equal to the amount of the member's retired pay under ***10 U.S.C., Chapter 61***, computed using the percentage of the member's disability on:

2.3.3.1. The date when the member was retired; or

2.3.3.2. The date on which the member's name was placed on the temporary disability retired list; or

2.3.4. Are deducted because of an election under ***10 U.S.C., Chapter 73*** to provide an annuity to a spouse or former spouse to whom payment of a portion of such member's retired pay is being made pursuant to a court order under section 2.0.

Note: Public Law (PL) 114-328, section 641, (National Defense Authorization Act, Fiscal Year 2017) and 10 U.S.C. § 1408(a)(4)(B), authorized a new definition of disposable retired pay which applies to divorces that occur after December 23, 2016, where the court awards the former spouse a division of property and the member has not yet retired. The disposable retired pay for these cases will be computed in accordance with Chapter 29, paragraphs 8.2 and 8.3. Since members under Chapter 59 would have been considered retirement eligible but for the court martial and revocation of retired pay, Public Law (PL) 114-328, section 641 will not apply.

2.4 Spouse or Former Spouse

The term spouse or former spouse means the husband or wife, or former husband or wife, respectively, of a member who, on or before the date of a court order, was married to that member.

2.5 Retired Pay

The term retired pay includes retainer pay.

3.0 ELIGIBILITY

3.1 Eligibility

The following individuals are eligible for payments by the Defense Finance and Accounting Service (DFAS):

3.1.1. Spouse or Former Spouse. A spouse or former spouse is eligible if the spouse or former spouse was married to the member for a period of 10 years or more, during which the member performed at least 10 years of service creditable in determining the member's eligibility for retired pay; and

3.1.1.1. Was the victim of the abuse and married to the member or former member at the time of that abuse; or

3.1.1.2. Is a natural or adopted parent of a dependent child of the member or former member who was the victim of the abuse.

3.1.2. Dependent Child. A dependent child is considered eligible if the other parent of the child died because of misconduct that resulted in the termination of the member's retired pay.

3.2 Court Order

3.2.1. The court order must specifically provide for the payment of an amount, expressed in dollars or as a percentage, from the disposable retired pay of a member to the spouse or former spouse of that member. The court order must satisfy the requirements of 10 U.S.C. § 1408(a)(2).

3.2.2. If a court order provides for the payment of child support from the disposable retired pay of a member or former member to an eligible dependent child of the member or former member, then the Secretary of the Military Department concerned (or designee) will:

3.2.2.1. Ensure payment of such amount is made to the dependent child; and

3.2.2.2. Ensure payments to the dependent child begin upon effective service of such court order.

3.3 Court-Martial

If a member of the armed forces receives a sentence by a court-martial that will terminate the member's eligibility to receive retired pay, then the member's eligibility to receive retired pay, as determined by the Secretary of the Military Department concerned (or designee), is terminated effective upon entry of judgment under ***10 U.S.C. § 860c*** (Article 60c of the Uniform Code of Military Justice).

3.4 Civilian Court Conviction

If a member of the armed forces is convicted by a civilian court of a crime involving abuse of a spouse or dependent child(ren), after becoming eligible for retirement on the basis of years of service, and the Secretary of the Military Department concerned (or designee) discharges the member from the armed forces as a result of that civilian court conviction, then the member's eligibility to receive retired pay is terminated effective upon the member's discharge from the armed forces.

4.0 APPLICATION FOR PAYMENT

An eligible spouse or former spouse must apply for payment from the supporting DFAS site in the same manner as an application for former spouse payments from retired pay, as described in Chapter 29, section 4.0.

5.0 CONDITIONS FOR PAYMENT

5.1 Payment

5.1.1. The court or an eligible spouse or former spouse, or an eligible dependent child, of a member or former member of the armed forces, may request the Secretary of the Military Department concerned (or designee) to provide certification of the amount of the monthly retired pay in connection with a civil action for the issuance of a court order.

The Secretary of the Military Department concerned (or designee) will determine and certify the amount of the monthly retired pay (including any cost-of-living increases to retired pay through the date of certification) to which the member or former member would have been entitled on the date of the certification if:

5.1.1.1. The member or former member's eligibility for retired pay had not been terminated as a result of misconduct involving abuse of a spouse or dependent child; and

5.1.1.2. In the case of a member or former member not receiving retired pay immediately before termination of eligibility for retired pay, the member or former member had retired on the effective date of that termination of eligibility.

5.1.2. When certifying retired pay of a member separated for misconduct involving abuse of a dependent, the Secretary of the Military Department concerned (or designee) will ignore reductions in grade and forfeitures of pay or retired pay resulting from the administrative separation or court-martial for the misconduct.

5.1.3. The amount certified by the Secretary of the Military Department concerned (or designee) will be deemed to be the disposable retired pay of the member for the purposes of this provision. The total amount payable under this provision may not exceed 50 percent of such disposable retired pay.

5.1.4. A court order may provide that whenever retired pay is increased under ***10 U.S.C. § 1401a*** (or any other provision of law), the amount payable under the court order to the spouse or former spouse will be increased at that time and by the percent retired pay would have increased if the member or former member were receiving retired pay.

5.1.5. Payments will not be made more frequently than once a month, and the Secretary of the Military Department concerned (or designee) will not be required to vary normal pay and disbursement cycles for retired pay in order to comply with a court order.

5.1.6. If a member's eligibility for retired pay is terminated as described in paragraph 3.3, then the effective date for computing retired pay will be the date that the sentence terminating eligibility for retired pay is approved by the appropriate official. If a member's retired pay eligibility is terminated as described in paragraph 3.4, then the effective date for computing retired pay will be the effective date of the member's discharge.

5.1.7. Payments made to an eligible spouse based on being the natural or adopted parent of a dependent child, who was the victim of abuse, will not cease solely because the dependent child is no longer considered a dependent child. Payment requires only that the child was dependent at the time of the abuse, and not necessarily at the time of payment.

5.1.8. Payments will be made from funds in the Department of Defense Military Retirement Fund or, in the case of the Coast Guard, out of funds appropriated to the Department of Homeland Security for payment of retired pay for the Coast Guard.

5.1.9. Payments under this chapter must be coordinated with Transitional Compensation benefits payable to an eligible spouse under Chapter 60, paragraph 4.1.

5.2 Termination of Payment

5.2.1. Payments from the disposable retired pay of a member will terminate pursuant to the terms of the applicable court order, on the date of death of the member or former member, or on the date of death of the spouse or former spouse to whom payments are made, whichever occurs first.

5.2.2. If a former spouse who is receiving payments under these conditions marries again after the payments begin, then his or her eligibility to receive further payments terminates on the date of the marriage. In the event of termination of that marriage by death, annulment, or divorce, payments resume as of the first day of the month in which the marriage is terminated. The monthly amount will be the amount that would have been paid if the continuity of the payments had not been interrupted by the marriage.

5.2.3. If the punishment that results in the termination of eligibility to receive retired pay is later remitted, set aside, or mitigated to a punishment that does not result in termination of eligibility, then benefits to the eligible dependent based on that punishment will cease. Such benefits cease on the first day of the first month after the month in which the Secretary of the Military Department concerned (or designee) notifies the recipient in writing that benefits will cease. The recipient will not be required to repay the benefits received prior to that effective date, excluding any erroneous payments.

5.3 Other Entitlements

5.3.1. A spouse or former spouse, while receiving payments under this chapter, will be entitled to receive medical and dental care, commissary and exchange privileges, and any other benefits a spouse or former spouse of a retired member may be entitled as if the member or former member was entitled to retired pay. This entitlement includes the right to the Survivor Benefit Plan if the spouse or former spouse is an eligible beneficiary pursuant to ***10 U.S.C. § 1448***.

5.3.2. A dependent child, who was a member of the household of the member or former member at the time of the misconduct, is entitled to receive medical and dental care, commissary and exchange privileges, and any other benefits provided to dependents of retired members of the armed forces in the same manner as if the member or former member was entitled to retired pay.

5.4 Accrual of Payments

No payments under this chapter will accrue for periods before October 23, 1992.

5.5 Taxability

The spouse or former spouse who receives payment under this chapter will be responsible for the tax liability. DFAS will withhold taxes and will issue the appropriate annual tax form, Form 1099-R, "Distribution From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRA's, Insurance Contracts, etc."

CHAPTER 60

VICTIMS OF ABUSE – NONRETIREMENT ELIGIBLE MEMBERS (TRANSITIONAL COMPENSATION)

1.0 GENERAL

1.1 Purpose

This chapter covers transitional compensation, a congressionally authorized program pursuant to ***Title 10, United States Code (U.S.C.), section 1059***, which provides temporary monetary payments and benefits to dependents or former dependents of Service members or former Service members who were separated from the military because they committed dependent-abuse offenses. It may be paid for a period of not less than 12 and not more than 36 months. For information on benefits for spouses and former spouses of retirement-eligible members who lose eligibility for retired pay because of misconduct involving abuse of dependents, see Volume 7B, Chapter 59.

* 1.1.1. Effective December 22, 2023, the existing transitional compensation provisions were expanded to additionally apply to members of the armed forces on active duty for a period of more than 30 days who are convicted of a dependent-abuse offense in a district court of the United States or a State Court and are separated from active duty pursuant to a sentence of a court martial or administratively separated from active duty, for an offense other than the dependent-abuse offense.

Note: For transitional compensation provisions prior to December 22, 2023, please see archived versions of Volume 7B, Chapter 60, which are publicly available at ***https://comptroller.defense.gov/fmr/archives.aspx***.

1.1.2. Transitional compensation is payable to dependents who qualify on or after November 30, 1993. No payment will be made for any period before November 30, 1993. In cases where a spouse or former spouse is receiving payments, and there is an eligible dependent child or children not residing in the same household as the spouse, former spouse, or member, transitional compensation is payable to the dependent children for periods on or after November 1, 1998. See paragraph 4.1 for detailed explanation.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the U.S.C., including Titles 10 and 38. Due to the subject matter in the chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 DEFINITIONS

2.1 Dependent-Abuse Offense

A dependent-abuse offense is conduct by a member of the Armed Forces, while on active duty for more than 30 days, that involves the abuse of a then-current spouse or dependent child of the member or an attempt or conspiracy to commit such abuse, and that is a criminal offense defined by ***10 U.S.C. §§ 801-940*** or other criminal code applicable to the jurisdiction where the act of abuse is committed. The term "involves the abuse of the then-current spouse or dependent child" means that the criminal offense is against the person of that spouse or a dependent child. Crimes that may qualify as dependent-abuse offenses include sexual assault, rape, sodomy, maiming, assault, battery, murder, and manslaughter. The aforementioned offenses are not an exhaustive or exclusive listing of dependent-abuse offenses.

2.2 Punitive or Other Adverse Actions

Effective December 22, 2023, punitive or other adverse actions are actions in which a member of the Armed Forces who has been on active duty more than 30 days is:

2.2.1. Convicted of a dependent-abuse offense that results in separation from active duty under a court-martial sentence or forfeiture of all pay and allowances under a court-martial sentence;

2.2.2. Administratively separated, voluntarily or involuntarily, from active duty according to applicable Military Service regulations, if the basis for separation includes a dependent-abuse offense; or

* 2.2.3. Who is:

2.2.3.1. Convicted of a dependent-abuse offense in a district court of the United States or State court; and

2.2.3.2. Separated from active duty pursuant to a sentence of court martial, or administratively separated, voluntarily or involuntarily, from active duty for an offense other than the dependent-abuse offense.

Note: For transitional compensation provisions prior to December 22, 2023, please see archived versions of Volume 7B, Chapter 60, which are publicly available at https://comptroller.defense.gov/fmr/archives.aspx

2.3 Cohabitation

Cohabitation is when the spouse, former spouse, or dependent child is residing in the same household as the former member after punitive or other adverse action is executed against the member or former member.

2.4 Dependent Child

A dependent child:

2.4.1. Is an unmarried child, including an adopted child or stepchild:

2.4.1.1. Who resided with the member or eligible spouse at the time of the dependent-abuse offense; or

2.4.1.2. As of January 2, 2013, a child who was carried during pregnancy at the time of the dependent-abuse offense and was subsequently born alive to the eligible spouse or former spouse. However, such child will not receive payment until after the child is born and is not entitled to payment for any period prior to the birth of the child; and

2.4.2. Meets one of the following age requirements:

2.4.2.1. Is under age 18;

2.4.2.2. Is age 18 or older and incapable of self-support due to a mental or physical incapacity that existed before age 18 and is (or, at the time a punitive or other adverse action was carried out in the case of the former member, was) dependent on the former member for over one-half of the child's support; or

2.4.2.3. Is age 18 or older, but less than age 23, is enrolled in a full-time course of study in an institution of higher learning approved by the Secretary of Defense, and is (or, at the time a punitive or other adverse action was carried out in the case of the former member, was) dependent on the former member for over one-half of the child's support.

2.5 Spouse or Former Spouse

The term spouse or former spouse refers to the individual who was legally married to the member at the time of the commission of the dependent-abuse offense resulting in separation from military service.

3.0 ELIGIBILITY FOR TRANSITIONAL COMPENSATION

3.1 Eligibility for Transitional Compensation Payment

The dependents of a member or former member who is separated on or after November 30, 1993, the basis for the separation which includes a dependent-abuse offense, are eligible for transitional compensation payments. If a recipient is incapable of handling his or her affairs, then payments are made only to a court-appointed guardian. In the case of a dependent child under 18 years of age, payments are made only to a court-appointed guardian or a parent who has legal custody of the dependent child and who is not also the abuser.

3.1.1. Spouse or Former Spouse

In the case of a separation from active duty under punitive or other adverse action, payments are made to the person who was the member's spouse at the time of the offense. The spouse or former spouse does not have to be the victim in order to receive transitional compensation.

3.1.2. Dependent Child

Payments may be made to a dependent child as prescribed in paragraph 4.1.

3.2 Exceptional Eligibility Authority

3.2.1. The Secretary of the Military Department concerned may authorize eligibility for transitional compensation benefits for a spouse, former spouse, or dependents of a member or former member of the Armed Forces who is not otherwise eligible for such benefits if the Secretary of the Military Department concerned determines that:

3.2.1.1. The member or former member engaged in conduct that is a dependent-abuse offense; and

3.2.1.2. The member or former member was separated from active duty in a manner other than those described in paragraph 2.2, on or after November 24, 2003.

3.2.2. The Secretary of the Military Department concerned may determine commencement and duration of payments in a manner similar to that described in paragraph 4.2.

3.2.3. For the purposes of the provision of benefits under this paragraph, a member will be considered separated from active duty upon the earliest of:

3.2.3.1. The date an administrative separation is initiated by the commander of the member;

3.2.3.2. The date the court-martial sentence is adjudged if the sentence, as adjudged, includes a dismissal, dishonorable discharge, bad-conduct discharge, or forfeiture of all pay and allowances; or

3.2.3.3. The date the member's term of service expires.

* 3.2.4. Effective December 22, 2023, the Secretary of the Military Department concerned may delegate exceptional eligibility authority to the first general or flag officer (or civilian equivalent) in the chain of command of the member.

3.3 Application

An individual can request transitional compensation through a Military Service representative. The Military Service representative:

3.3.1. Assists the applicant in filling out the ***DoD (DD) Form 2698***, Application for Transitional Compensation;

3.3.2. Approves payment;

3.3.3. Requests the applicant submit a ***Standard Form 1199A***, Direct Deposit Sign-up Form, completed by the applicant and the financial institution or a voided check/deposit slip with a written authorization for direct deposit of payments; and

* 3.3.4. Provides the Operation and Maintenance fund citation, and forwards the application and information for direct deposit to the Defense Finance and Accounting Service (DFAS) at the following address:

Defense Finance and Accounting Service
U.S. Military Retired Pay
8899 E. 56th Street
Indianapolis, IN 46249-1200

Facsimile Numbers:
DSN: 580-6470
Commercial Number: (216) 204-6470

4.0 PAYMENT

4.1 Recipients of Payments

Transitional compensation will be paid as follows:

4.1.1 If the member or former member was married at the time of the dependent-abuse offense, then compensation will be paid to the spouse or former spouse to whom the member or former member was married at that time. An amount will be included for each, if any, dependent child of the member or former member who resides in the same household as the spouse or former spouse.

4.1.2 If the spouse or former spouse is eligible to receive compensation and the member or former member has one or more dependent children who do not reside in the household of the spouse or former spouse, compensation is also paid to each of the dependent children who were residing in the household at the time of the abuse, but do not reside with the spouse or current spouse. This provision became effective November 1, 1998.

4.1.3. If a spouse or former spouse has forfeited his or her entitlement for reasons described in paragraph 4.5, then compensation will be paid only to each dependent child who was residing in the household at the time of the abuse, but does not reside with the spouse or former spouse.

4.1.4. If there is no eligible spouse or former spouse, then such compensation will be paid to each of the member's dependent children who do not reside in the member's or former member's household.

4.2 Commencement and Duration of Payment

* 4.2.1. Effective December 22, 2023, in the case of a member convicted due to a punitive or adverse action involving dependent abuse as defined in paragraph 2.2, payments begin:

4.2.1.1. As of the date that the court-martial sentence is adjudged if the sentence, as adjudged, includes a dismissal, dishonorable discharge, bad-conduct discharge, or forfeiture of all pay and allowances; or

4.2.1.2. If there is a pretrial agreement that provides for disapproval or suspension of the dismissal, dishonorable discharge, bad-conduct discharge, or forfeiture of all pay and allowances, as of the date entry of judgement under ***10 U.S.C. § 860(c)***, only if the sentence as approved, includes an unsuspended dismissal, dishonorable discharge, bad-conduct discharge, or forfeiture of all pay and allowances.

* 4.2.2. In the case of a member being considered for administrative separation due to a punitive or adverse action involving dependent abuse, as defined in paragraph 2.2, payment begins as of the date that the separation action was initiated by the commander under regulations determined by the Secretary of the Military Department concerned.

Note: For transitional compensation provisions prior to December 22, 2023, please see archived versions of Volume 7B, Chapter 60, which are publicly available at https://comptroller.defense.gov/fmr/archives.aspx

4.2.3. In the case of a total forfeiture of pay and allowances pursuant to a sentence of a court-martial, payment will not be made for any period for which an order:

4.2.3.1. Defers or suspends, in whole or in part, that part of a sentence that includes total forfeiture of the Service member's pay and allowance; or

4.2.3.2. Otherwise results in continuation, in whole or in part, of the Service member's pay and allowances.

4.2.4. Payments are made for a period of not less than 12 months, but cannot exceed 36 months, based on policies established by the Secretary of the Military Department concerned.

4.2.4.1. When the unserved portion of the member's obligated active duty service, as of the starting date of payment, is greater than 12 months and less than or equal to 36 months, the duration of payments will be no less than the unserved portion.

4.2.4.2. For enlisted members, the obligated active duty service is the time remaining on their term of enlistment. For officers, the obligated active duty service is indefinite unless the officer has a date of separation established, in which case it is the time remaining until the date of separation.

4.2.5. As long as the payee meets the eligibility criteria at the time payments begin, the payee is entitled to transitional compensation for the duration established by Service regulations even if the payee ceases to meet the definition of dependent child at some point during receipt of the compensation.

4.3 Amount of Payment

Use the monthly Dependency and Indemnity Compensation (DIC) rates to pay transitional compensation. The Veterans Affairs (VA) website provides information on DIC rates at ***http://benefits.va.gov/Compensation/current_rates_dic.asp***. DIC rates for prior years are located at the end of the VA webpage under "Historical Rate Tables."

4.3.1. A spouse or former spouse receives transitional compensation in an amount equal to the monthly rate currently in effect for DIC. See Table 60-1 for transitional compensation rates paid to a spouse or former spouse.

4.3.2. If the spouse or former spouse has custody of a dependent child or children of the member who resides in the same household as that spouse or former spouse, then transitional compensation is increased for each child by an amount equal to the monthly DIC amount payable for dependent children. See Table 60-2 for additional transitional compensation rates paid to spouse or former spouse with an eligible dependent child or children.

4.3.3. If transitional compensation is payable to a dependent child under paragraph 4.1, then payments are made in equal shares, in an amount equal to the monthly DIC amount payable for dependent children. When paying multiple children and the payment amount does not divide equally, the youngest child will receive the odd cent(s). See Table 60-3 for transitional compensation rates paid to an eligible child or children.

4.3.4. Payments will be prorated for months when payments start or stop in the middle of a month (e.g., if the former spouse receiving transitional compensation remarries, then compensation terminates effective as of the date of the marriage).

4.3.5. Transitional compensation payments will stop effective the date of death of the recipient. Arrears of compensation will not be paid.

4.3.6. Advance payment of transitional compensation benefits is not authorized.

4.4 Effect of Continuation of Military Pay

In the case of payment of transitional compensation by reason of a total forfeiture of pay and allowances pursuant to a sentence of a court-martial, payment of transitional compensation will not be made for any period for which an order, in whole or in part:

4.4.1. Suspends that part of a sentence that includes forfeiture of the member's pay and allowances; or

4.4.2. Otherwise results in the continuation of the member's pay and allowances.

4.5 Forfeiture Provisions

4.5.1. The following will result in the forfeiture of transitional compensation.

4.5.1.1. If, after a punitive or other adverse action has been executed, the former member resides in the same household as the spouse or former spouse or child who is receiving transitional compensation, compensation terminates as of the date the former member begins residing in the household. The spouse or former spouse must notify DFAS within 30 days of the date the member begins residing in the same household as them or any dependent children receiving compensation payments. Any compensation paid before the member resides in the household will not be recouped. Once terminated for cohabitation, the payments do not resume.

* 4.5.1.2. If the former spouse receiving compensation remarries, then compensation terminates effective as of the date of the former spouse's remarriage. If the former spouse remarries after the date of the dependent-abuse offense but prior to the date that transitional compensation payments would otherwise commence, the former spouse is not entitled to transitional compensation payments. The former spouse must notify DFAS within 30 days of the date of remarriage. Payments do not resume if the subsequent marriage is terminated. If the payments to the spouse terminate due to remarriage and there are dependent children not living in the same household as the spouse or member, payment will be made to each of those dependent children.

4.5.1.3. If the victim was a dependent child, and the competent authority designated by the Secretary of the Military Department concerned has found that the spouse was an active participant in the conduct constituting the dependent-abuse offense, or actively aided or abetted the member in such conduct against that dependent child, then the spouse or former spouse may not be paid transitional compensation.

* 4.5.2. To ensure compliance with subparagraphs 4.5.1.1 and 4.5.1.2, the following must be submitted to DFAS on an annual basis.

4.5.2.1. Spouse/Former Spouse Certification. A former spouse receiving transitional compensation must certify annually to DFAS that he or she has not remarried. A former spouse or spouse receiving transitional compensation must certify annually that he or she has not been cohabiting with the member. They must complete, sign, and return the Transitional Compensation Certificate of Eligibility (TC-COE) that was mailed to them. It can be submitted via mail to:

Defense Finance and Accounting Service
U.S. Military Retired Pay
8899 E. 56th Street
Indianapolis, IN 46249-1200

4.5.2.2. Parent or Court-Approved Guardian TC-COE. The parent or court-approved guardian will certify annually that the dependent child or children are not residing with the member or ineligible spouse via the TC-COE process. If the TC-COE is not received within 60 days of the date of the TC-COE, then payments will be suspended until verification of eligibility is received.

4.6 Termination of Payments

Transitional compensation is not payable when a member's court-martial sentence, which includes a dismissal, dishonorable discharge, or bad-conduct discharge, is remitted, set aside, or mitigated to a lesser punishment that does not include such punishment, or the administrative separation is disapproved. Any payment of transitional compensation that has started will stop effective the first day of the month after the Secretary of the Military Department concerned notifies the recipient in writing that payment will cease for such reason. The recipient is not required to repay transitional compensation received before the effective date of termination, excluding erroneous payments.

4.7 Taxability

Transitional compensation payments are considered benefits that are excludable from taxation and should not be reported on ***Internal Revenue Service Form 1099R***, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, Individual Retirement Accounts, Insurance Contracts, etc.

5.0 OTHER BENEFITS

5.1 Coordination of Benefits

5.1.1. Election of Benefits. A spouse or former spouse may not concurrently receive both payments of transitional compensation under 10 U.S.C. § 1059 and payments under ***10 U.S.C. § 1408(h)*** (see Chapter 59 for spouses and former spouses of retirement-eligible members who lost eligibility for retired pay as a result of misconduct involving abuse of dependents). If a spouse or former spouse has obtained a court order awarding compensation pursuant to 10 U.S.C. § 1408(h), then the spouse or former spouse will elect which benefit to receive. An application for payment under 10 U.S.C. § 1408(h), pursuant to the requirements of Chapter 59, will be considered an election to receive 10 U.S.C. § 1408(h) payments. See Chapter 59, section 4.0 for application requirements.

5.1.2. Effective Date. The election to receive benefits under 10 U.S.C. § 1408(h) is effective on the date that a complete application is received. If the applicant is not eligible to receive benefits under 10 U.S.C. § 1408(h) on the date the application is received, then the effective date will be the date the applicant becomes eligible for payments under 10 U.S.C. § 1408(h). Payments of transitional compensation under 10 U.S.C. § 1059 will be terminated and payments under 10 U.S.C. § 1408(h) will commence on the first day of the first month after the date the election to receive payments under 10 U.S.C. § 1408(h) is effective.

5.2 Commissary and Exchange Benefits

5.2.1. A recipient of transitional compensation payments is entitled to use commissary and exchange stores to the same extent and manner as a dependent of a member of the Armed Forces on active duty for a period of more than 30 days.

5.2.2. If the recipient is entitled to use commissary and exchange stores under another provision of law, then the entitlement is determined under the other provision of law rather than under this paragraph.

5.3 Medical Benefits

5.3.1. The Secretary concerned will determine appropriate medical and dental care eligibility for transitional compensation recipients and affected dependents. At a minimum, an abused dependent who is receiving transitional compensation, may receive medical and dental care, including mental health services, in facilities of the military services or through the TRICARE program as outlined in ***10 U.S.C. § 1076 - 1077***.

5.3.2. Dental care may be provided on a space-available basis in facilities of the Military Services.

5.3.3. Eligible dependents of a member who is retirement eligible, but who loses eligibility for retirement pay because of dependent-abuse misconduct, may receive medical and dental care in accordance with 10 U.S.C. § 1408(h).

*5.4 Lodging Expenses

Effective December 22, 2023, a dependent or former dependent entitled to payment of monthly transitional compensation is entitled to lodging expenses for a period not longer than 30 days.

*Table 60-1. Spouse or Former Spouse Transitional Compensation Rate

Effective Date	DIC Rate
December 1, 2014	$1,254.19

VOLUME 7B, CHAPTER 61: "ANNUITIES FOR CERTAIN MILITARY SURVIVING SPOUSES (ACMSS)"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated March 2023 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with current administrative instructions.	Revision
5.3	Replaced references to Report of Existence, Certificate of Eligibility and associated instructions with Foreign Address Update for Mailed Checks and Survivor Benefit Plan-Marital Status Update per section 605 of the National Defense Authorization Act for Fiscal Year 2022.	Revision
6.2.4	Removed references to Dependency and Indemnity Compensation offset since it is repealed effective January 1, 2023. Updated in-text citations.	Deletion
Table 61-1	Updated table to include new annuity amounts effective December 1, 2024.	Revision
References	Updated to include the memorandum from the Office of the Assistant Secretary of Defense for the "Fiscal Year 2024 Adjustments to Military Retired and Retainer Pay, Annuities and Premiums" dated November 14, 2024.	Revision

CHAPTER 61

ANNUITIES FOR CERTAIN MILITARY SURVIVING SPOUSES (ACMSS)

1.0 GENERAL

1.1 Purpose

The purpose of this chapter is to provide guidance, policy, delegation of authority, and assignment of responsibilities, as they apply to ACMSS.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with the United States Code (U.S.C.), including Title 10. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in the reference section at the end of the chapter.

2.0 ELIGIBILITY FOR PAYMENT

2.1 General

Effective November 18, 1997, ACMSS was established under Public Law (PL) 105-85 to provide annuity payments to certain qualified surviving spouses.

3.0 QUALIFIED SURVIVING SPOUSE AND DECEASED RETIRED MEMBER

3.1 Qualified Surviving Spouse

Only an individual who meets the following criteria qualifies for these annuity payments.

3.1.1. Is a surviving spouse of a deceased retired member, as defined in paragraph 3.2, who:

3.1.1.1. Was married to the retired member at the time the member became eligible for retired pay;

3.1.1.2. Had been married to the retired member for at least 1 year before the date of death; or

3.1.1.3. Is the parent of a child born of the marriage; and

3.1.1.4. Has not remarried.

3.2 Deceased Retired Member

A deceased retired member for the purpose of this annuity is one who:

3.2.1. Became entitled to retired or retainer pay before September 21, 1972, died before March 21, 1974, and was entitled to retired or retainer pay on the date of death; or

3.2.2. Died before October 1, 1978, and at the time of death, would have been entitled to retired pay under Title 10, U.S.C., Chapter 67 (renumbered to ***10 U.S.C., Chapter 1223*** by PL 103-337, effective December 1, 1994), but for the fact that he or she was under 60 years of age.

4.0 ANNUITY APPLICATION

4.1 General

An annuity application is required before payment will be made.

4.2 Application Procedure

4.2.1. Application. A ***(DD) Form 2769***, Application for Annuity Certain Military Surviving Spouses, must be submitted to the Military Service concerned.

4.2.2. Documentation. If information is unavailable from existing records, such as the Defense Enrollment Eligibility Reporting System, the applicant may be required to submit the following documentation to the Military Service concerned:

4.2.2.1. Certified copies of the retired member's death certificate and/or marriage certificate;

4.2.2.2. DD Form 214, Certificate of Release or Discharge from Active Duty;

4.2.2.3. Retirement order;

4.2.2.4. Retired pay statement; and

4.2.2.5. Any additional information needed to substantiate the claim.

4.2.3. Review and Approval. The Military Service concerned will then:

4.2.3.1. Review the claim and determine whether the applicant is qualified for an ACMSS annuity;

4.2.3.2. Notify the applicant on the disposition of the claim within 60 days; and

4.2.3.3. Forward approved claims to the Defense Finance and Accounting Service Cleveland site (DFAS-CL) for payment.

5.0 PAYMENT OF ANNUITY

5.1 Payment Effective Date

Payment to a qualified surviving spouse begins within 30 days upon receipt by DFAS-CL of a validated claim endorsed by the Military Service. The monthly payments begin not earlier than December 1, 1997, except where entitlement is under subparagraph 3.3.2, in which case entitlement begins not earlier than October 1, 1999.

5.2 Representative Payee

ACMSS payments due to a mentally incompetent or otherwise legally disabled person, for whom a guardian or other fiduciary has not been appointed, may be paid to a representative payee the same as the Survivor Benefit Plan (SBP). See Chapter 46.

*5.3 Report of Existence (ROE) and Certificate of Eligibility (COE)

The SBP-Marital Status Update (MSU) replaces the COE effective August 1, 2023, and is required annually to confirm the marital status and continued eligibility for the SBP, generally due the first day of the month of the annuitant's birthday. Similarly, the Foreign Address Update for Mailed Checks (FAUMC)-Annuitants replaces the ROE effective August 2023, requiring any annuitants receiving a check in the mail outside the United States, who do not need to submit a School Certification or an SBP-MSU, to submit the FAUMC, also generally due the first day of the month of the annuitant's birthday. The procedures for SBP-MSU and FAUMC-Annuitants on SBP annuity payments also apply to ACMSS payments. See Chapter 46.

5.4 Debt Collection

Overpayments of an annuity are subject to the same collection action as SBP. See Chapter 46.

5.5 Taxability

The taxability of ACMSS payments is similar to an SBP annuity. See Chapter 46.

5.6 Death of Annuitant

The annuity terminates the last day of the month before the date the annuitant dies. Any amounts that are due and payable at the time of the annuitant's death may be paid in accordance with the provisions of Chapter 31. The unpaid annuity will only be paid upon receipt of a properly executed and documented claim, approved by the Secretary of the Military Department concerned (or designee).

5.7 Remarriage

The annuity terminates the first day of the month in which the annuitant remarries, without regard to the age of the annuitant.

6.0 ANNUITY AMOUNT AND OFFSET

6.1 Amount

The annuity to a qualified surviving spouse was initially established at $165 per month. The amount is subject to the same cost-of-living adjustment (COLA) and effective at the same time as military retired pay increases. The first COLA was effective December 1, 1997, as shown on Table 61-1. The annual ***COLA memorandums*** are published to the Military Pay and Benefits Website that is sponsored by the Office of the Under Secretary of Defense for Personnel and Readiness. The provision for rounding monthly SBP annuity is not applicable.

6.2 Offset

The amount of annuity to which a surviving spouse is entitled under this section for any period is reduced (but not below zero) by any amount paid to the surviving spouse for the same period under any of the following:

6.2.1. Retired and Reserve Component SBP;

6.2.2. Retired Serviceman's Family Protection Plan;

6.2.3. Minimum Widows Income-SBP.

7.0 FUNDING

The approving Military Service must fund the annuities from operations and maintenance funds for the fiscal year in which the payment is made.

*Table 61-1. ACMSS ANNUITY AMOUNT
Table Revision Effective Date: December 1, 2024

Date of Increase	Percent	Amount
November 1, 1997		$165.00
December 1, 1997	2.1	$168.47
December 1, 1998	1.3	$170.66
December 1, 1999	2.4	$174.76
December 1, 2000	3.6	$181.05
December 1, 2001	2.6	$185.76
December 1, 2002	1.4	$188.36
December 1, 2003	2.1	$192.32
December 1, 2004	2.7	$197.51
December 1, 2005	4.1	$205.61
December 1, 2006	3.3	$212.40

CHAPTER 62: "ARCHIVED"

UNDER SECRETARY OF DEFENSE (COMPTROLLER)

VOLUME 7B, CHAPTER 63: "COMBAT-RELATED SPECIAL COMPENSATION (CRSC)"

SUMMARY OF MAJOR CHANGES

Changes are identified in this table and also denoted by blue font.

Substantive revisions are denoted by an asterisk (*) symbol preceding the section, paragraph, table, or figure that includes the revision.

Unless otherwise noted, chapters referenced are contained in this volume.

Hyperlinks are denoted by ***bold, italic, blue, and underlined font***.

The previous version dated May 2022 is archived.

PARAGRAPH	EXPLANATION OF CHANGE/REVISION	PURPOSE
All	Updated hyperlinks and formatting to comply with administrative instructions.	Revision
1.1.3	Subparagraph restructured to define CRSC relationship to other provisions for clarity.	Revision
3.2	Provided information to indicate that the member bears the responsibility to elect either CRSC or the Concurrent Military Retirement Pay and DVA Disability Compensation.	Revision
3.2 and 9.4	Updated the formerly used term, "Concurrent Retired and Disability Pay (CRDP)," to new term, "Concurrent Military Retirement Pay and DVA Disability Compensation."	Revision

CHAPTER 63

COMBAT-RELATED SPECIAL COMPENSATION (CRSC)

1.0 GENERAL

1.1 Purpose

CRSC provides special compensation to members of the Uniformed Services who have retired pay reduced because of receiving U.S. Department of Veterans Affairs (DVA) disability compensation where a portion of such DVA disability compensation is the result of disabilities that are combat-related as determined by the Military Department.

1.1.1. Effective Date

The CRSC program became effective May 31, 2003. Payments are made on the first day of the first month following the month in which the compensation accrued, provided the member is receiving DVA disability compensation for a disability that has been determined to be combat-related by the Military Department. No CRSC is payable for any month prior to June 2003.

1.1.1.1. For a member who qualifies on May 31, 2003, compensation accrues beginning in June 2003.

1.1.1.2. For an eligible member whose disability percentage is less than 60 percent, compensation is effective January 1, 2004.

1.1.1.3. For an eligible member who is retired under Title 10, United States Code, Chapter 61 (***10 U.S.C. Chapter 61***) with less than 20 years of active duty or with less than sufficient service and age to qualify for retirement under ***10 U.S.C. § 12731***, compensation is effective January 1, 2008.

1.1.1.4. For a member who did not meet the qualifications on June 1, 2003, January 1, 2004, or January 1, 2008, but who later meets the qualifications, entitlement accrues the first day of the following month.

1.1.2. Funding and Payment

CRSC is not military retired pay. It is a monthly entitlement that is paid only in whole-month increments. Prior to October 1, 2003, CRSC was payable from funds appropriated for pay and allowances payable by the Secretary of the Military Department concerned (or designee) for that fiscal year (FY). Effective October 1, 2003, the source of funding is the DoD Military Retirement Fund.

* 1.1.3. Relationship to Other Provisions

CRSC is not retired pay, and it is not subject to the provisions of ***10 U.S.C. § 1408*** relating to payment of retired or retainer pay in compliance with court orders. Additionally, CRSC payments are not subject to Chapter 13 bankruptcy court orders to pay a Chapter 13 trustee. However, CRSC is subject to other provisions for recovering debt owed by the retiree.

1.1.3.1. CRSC is subject to a Treasury offset to recover a debt owed to the United States as well as to garnishment for child support or alimony. In addition, debts due the government may be collected from CRSC, including overpayments of retired pay or erroneous payments of CRSC, by means of an administrative offset. An administrative offset of CRSC to collect a debt due the government is subject to the due process requirements of ***31 U.S.C. § 3716*** and ***31 Code of Federal Regulations (CFR), part 901***. Claims for overpayments of CRSC may be considered for waiver in accordance with ***10 U.S.C. § 2774***

1.1.3.2. CRSC is subject to a deduction of Survivor's Benefit Plan (SBP) premium, when retired pay is not adequate, for a person who has elected to participate in the SBP. See paragraph 8.3.

1.1.4. Tax Consideration

CRSC payments are considered tax exempt from Federal income tax under provisions of ***26 U.S.C. § 104***.

1.2 Authoritative Guidance

The pay policies and requirements established by DoD in this chapter are derived primarily from, and prepared in accordance with the U.S.C., including Titles 10, 31, and 37. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 ENTITLEMENT

2.1 Monthly Entitlement

CRSC is a monthly entitlement. A retiree is entitled to CRSC for each month during which, for the entire month, the member:

2.1.1. Has applied for and elected CRSC under these provisions (section 3.0),

2.1.2. Meets preliminary CRSC criteria (section 4.0), and

2.1.3. Meets final CRSC criteria (section 5.0).

2.2 Expanded Eligibility in 2008

As of January 1, 2008, section 641 of the FY 2008 National Defense Authorization Act and ***10 U.S.C. § 1413a*** provide special rules for CRSC-eligible retirees with fewer than 20 years of service, to include members who have waived their retired pay in order to receive DVA disability compensation. This expanded authority includes both 10 U.S.C., Chapter 61 (10 U.S.C. §§ 1201-1222) disability retirees and Temporary Early Retirement Authority (TERA) retirees. However, a Reserve Component retiree who receives retired pay for early retirement with physical disabilities under ***10 U.S.C. § 12731b*** is specifically excluded from entitlement to CRSC by 10 U.S.C. § 1413a(c)(1).

3.0 APPLICATION AND ELECTION

3.1 Application and Election

A member may not be paid CRSC unless he or she has applied for and elected to receive compensation under the CRSC program by filing an application on DoD (DD) Form 2860, Claim For Combat-Related Special Compensation (CRSC), with the Military Department from which he or she retired. A member may submit an application for CRSC at any time and, if otherwise qualified for CRSC, compensation will be paid for any month after May 2003 for which all conditions of eligibility were met, subject to any legal limitations.

*3.2 Election of CRSC or Concurrent Military Retirement Pay and DVA Disability Compensation

The law states that a member eligible for both CRSC, under 10 U.S.C. § 1413a, and Concurrent Military Retirement Pay and DVA Disability Compensation, under ***10 U.S.C. § 1414***, may not receive both, but must elect which compensation to receive. The Defense Finance and Accounting Service (DFAS)-Cleveland site will advise the member which of the two payments is being paid pursuant to such election. In addition, the DFAS-Cleveland site will provide an annual notice to the member of their entitlements under both programs. If the gross amounts payable change under either program, a member may then change their election during the annual open season period (normally between January 1 and January 31) as set forth by DFAS each year. The member will have one opportunity annually to reverse the current election. This will allow the member to assess the impact of annual adjustments to retired pay, DVA disability compensation, CRSC, and Concurrent Military Retirement Pay and DVA Disability Compensation. The DFAS-Cleveland site will advise members of their options and the procedures to make such elections. The member bears the responsibility for electing which benefit to receive. If the member makes no request to change the current election during the annual open season, the current election will be continued. See also Chapter 64 for more information.

4.0 PRELIMINARY CRITERIA

A retired member of the Uniformed Services must satisfy the following applicable conditions to meet the preliminary criteria to receive CRSC.

4.1 Years of Service Requirement

4.1.1. June 1, 2003 Through December 31, 2003

A retired member must have had 20 or more years of service for the purpose of computing retired pay.

4.1.2. January 1, 2004 Through December 31, 2007

Beginning January 1, 2004, and prior to January 1, 2008, a retired member must have had 20 or more years of service for the purpose of computing retired pay or have been entitled to Reserve Component retired pay under 10 U.S.C. § 12731 (other than by reason of § 12731b) to be eligible for CRSC.

4.1.3. Before January 1, 2008

For the purposes of both subparagraphs 4.1.1 and 4.1.2 the following apply:

4.1.3.1. The 20 years of service required for computing retired pay may be inferred from the retired pay multiplier. Thus, a member who retired for years of service (not for disability under 10 U.S.C., Chapter 61) who has a retired pay multiplier of not less than 50 percent, or a member retired under the Military Retirement Reform Act of 1986 (referred to as REDUX) who is still under age 62 with a retired pay multiplier of not less than 40 percent, may be presumed to have at least 20 years of service for retired pay computation purposes. The Military Departments are not bound by such presumption if there is documentary information to the contrary. In such cases the Military Departments shall base their determinations on the documentary information available. A member who retired under 10 U.S.C., Chapter 61 should be evaluated in terms of what the multiplier would be if the member had not retired for disability. See subparagraph 4.1.3.4.

4.1.3.2. A member retired under the provisions of section 4403 of ***Public Law 102-484***, October 23, 1992, as amended, and by section 504 of ***Public Law 112-81***, December 31, 2011 (commonly known as the TERA program) is generally not eligible unless the member is credited with sufficient service for a 50 percent multiplier or has been recalled to active duty long enough to accumulate 20 years or more of service in the Uniformed Services for the purpose of computing retired pay. Service in Public and Community Service positions under the provisions of section 4403 of Public Law 102-484, October 23, 1992, that is creditable for re-computation of retired pay at age 62 does not count for these purposes. A TERA retiree who has a retired pay increase of 10 percent granted on the basis of extraordinary heroism is not eligible under these provisions if the retired pay multiplier would otherwise be less than 50 percent.

4.1.3.3. Prior to January 1, 2004, a retired reservist had to have at least 7,200 points to be eligible for CRSC. Effective January 1, 2004, a retired Reservist with retired pay computed under 10 U.S.C. § 12731 is eligible for CRSC unless retired for disability under 10 U.S.C. § 12731b with more than 15 but less than 20 years as required under 10 U.S.C. § 12731(a)(2). Specifically, those retired under the Reserve TERA provisions, as prescribed in ***10 U.S.C. § 12731a***, who served fewer than 20 years, but were considered to meet the criteria of 10 U.S.C. § 12731(a)(2) are eligible under these provisions.

4.1.3.4. CRSC is payable to otherwise qualifying applicants receiving retired pay based on the DoD-assigned percentage of disability under 10 U.S.C., Chapter 61. For such members, the CRSC payment is subject to reduction as explained in paragraph 8.5.

4.1.4. On or After January 1, 2008

A retired member who meets the criteria of paragraphs 4.2 through 4.4 satisfies the preliminary criteria to receive CRSC, without regard to having 20 or more years of creditable service for computing retired pay.

4.1.4.1. A member retired for disability under 10 U.S.C., Chapter 61**,** with less than 20 years of service is eligible to receive CRSC, subject to reduction under subparagraph 8.5.2.

4.1.4.2. A member retired under the provisions of section 4403 of Public Law 102-484, October 23, 1992, as amended, and by section 504 of Public Law 112-81, December 31, 2011, (commonly known as the TERA program) is entitled to CRSC. The monthly amount of CRSC payable to qualifying TERA retirees will not be reduced under the special rules for CRSC-entitled disability retirees with less than 20 years of service that are applicable only to Chapter 61 retirees.

4.2 Retired Status

A member must be in a retired status (i.e., on the retired rolls), or have been transferred to the Fleet Reserve or Fleet Marine Corps Reserve. A member who is recalled to, or retained on, active duty is not in a retired status and therefore is not entitled to CRSC for such period of active duty.

4.3 Entitled to Retired Pay

4.3.1. A member must be entitled to retired pay, notwithstanding that such retired pay may be reduced due to receipt of DVA disability compensation. A reservist who has not reached the requisite age to receive retired pay (generally age 60) is not eligible to receive CRSC payments. See Chapter 1, subparagraph 3.8.6, for when the eligibility age of a reservist will be reduced below 60 years of age and become eligible for retired pay.

4.3.2. A member who waives retired pay in order to credit military service for the purposes of establishing eligibility for a civil service retirement, or for any reason other than to receive disability compensation from the DVA, is not eligible to receive CRSC payments. A member who

combines his military time with his civil service time for the sole purpose of enhancing his civil service retirement may be eligible for CRSC if the member is still eligible to receive military retired pay. Members should consult the Civil Service Retirement System (CSRS) and Federal Employees Retirement System (FERS) ***Handbook for Personnel and Payroll Offices*** for further information on eligibility.

4.4 Qualifying Disability Ratings (Percentages)

A member must be entitled to compensation for service-connected disabilities under ***38 U.S.C.***, as rated by the DVA. The rating must be awarded prior to the member's date of death.

4.4.1. Disability ratings by the Secretary of the Military Department concerned (or designee), as of the date on which the member retired, may be used to help make determinations of whether the member meets preliminary CRSC criteria.

4.4.2. The actual computation of the amount of CRSC payable to an eligible retiree is based solely on DVA disability determinations and the amount of DVA compensation paid, without regard to any disability that is not combat-related. Military retirement decisions may be used to determine whether such disabilities are combat-related.

5.0 FINAL CRITERIA

In order for the member to be entitled to CRSC, the member must meet all four preliminary CRSC criteria (as prescribed in paragraphs 4.1 through 4.4), and the appropriate Service must determine that the member has a combat-related disability or disabilities, as defined by paragraphs 5.1 and 5.2, that are compensated by the DVA.

5.1 Purple Heart Disability

Purple Heart Disability is a disability with an assigned medical diagnosis code from the DVA Schedule for Rating Disability (VASRD) that was attributed to injuries for which the member was awarded a Purple Heart.

5.1.1. If the member meets the preliminary CRSC criteria and has been awarded a Purple Heart, then the Military Department must determine which disabilities of the member, if any, are attributed to Purple Heart injuries. If the member was not awarded a Purple Heart, then no such determination will be made.

5.1.2. Determination that a disability is a Purple Heart Disability requires documentary information that there is a sufficient causal relationship between the disability and injury for which a Purple Heart was awarded to conclude that the disability is attributable to such injury. Such a disability will be classified as a Purple Heart Disability and will be included in any other CRSC determinations based on combat-related disabilities.

5.2 Other Combat-Related Disabilities

A combat-related disability is a disability with an assigned medical diagnosis code from the VASRD and which a Military Department has determined is combat-related based on the following criteria:

5.2.1. The disability was incurred as a direct result of armed conflict,

5.2.2. The disability was incurred while engaged in hazardous service,

5.2.3. The disability was incurred in the performance of duty under conditions simulating war, or

5.2.4. The disability was incurred through an instrumentality of war.

NOTE: The Department will record for each disability determined to be combat-related which of the criteria provided at subparagraphs 5.2.1 through 5.2.4 qualifies the disability as combat-related. A determination of combat-relatedness (see section 6.0) will be made concerning each separate disability with an assigned medical diagnosis code from the VASRD. A retiree may have disabilities that are not combat-related. Such disabilities will not be considered in determining eligibility for CRSC or the amount of CRSC payable. An uncorroborated statement in a record that a disability is combat-related will not, by itself, be considered determinative for purposes of meeting the combat-related standards for CRSC prescribed herein. CRSC determinations must be made based on the program criteria.

6.0 DETERMINATIONS OF COMBAT-RELATEDNESS

The following criteria, terms, definitions, and explanations will apply to making combat-related determinations in the CRSC Program.

6.1 Direct Result of Armed Conflict

6.1.1. The disability is a disease or injury incurred in the line of duty as a direct result of armed conflict. To support a combat-related determination, it is not sufficient to only state the fact that a member incurred the disability during a period of war, in an area of armed conflict, or while participating in combat operations. There must be a definite causal relationship between the armed conflict and the resulting disability.

6.1.2. Armed conflict includes a war, expedition, occupation of an area or territory, battle, skirmish, raid, invasion, rebellion, insurrection, guerilla action, riot, or any other action in which Service members are engaged with a hostile or belligerent nation, faction, force, or with terrorists.

6.1.3. Armed conflict may also include incidents involving a member while interned as a prisoner of war, while detained against his or her will in the custody of a hostile or belligerent force, or while escaping or attempting to escape from such confinement, prisoner of war, or detained status.

6.2 While Engaged in Hazardous Service

Hazardous service is service that includes, but is not limited to, aerial flight, parachute duty, demolition duty, experimental stress duty, and diving duty. A finding that a disability is the result of hazardous service requires that the injury or disease be the direct result of actions taken in the performance of such service. Travel to and from such service, or actions incidental to a normal duty status not considered hazardous, are not included.

6.3 In the Performance of Duty Under Conditions Simulating War

In general, performance of duty under conditions simulating war covers disabilities resulting from military training, such as war games, practice alerts, tactical exercises, airborne operations, leadership reaction courses, grenade and live fire weapon practice, bayonet training, hand-to-hand combat training, repelling, and negotiation of combat confidence and obstacle courses. It does not include physical training activities such as calisthenics, jogging, formation running, or supervised sport activities.

6.4 Instrumentality of War

6.4.1. There must be a direct causal relationship between the instrumentality of war and the disability. It is not required that a member's disability be incurred during an actual period of war. The disability must be incurred incident to a hazard or risk of the service.

6.4.2. An instrumentality of war is a vehicle, vessel, or device designed primarily for Military Service and intended for use in such Service at the time of the occurrence or injury. It may also include such instrumentality not designed primarily for Military Service if use of or occurrence involving such instrumentality subjects the individual to a hazard peculiar to Military Service. Such use or occurrence differs from the use or occurrence under similar circumstances in civilian pursuits.

6.4.3. A determination that a disability is the result of an instrumentality of war may be made if the disability was incurred in any period of service as a result of such diverse causes as wounds caused by a military weapon, accidents involving a military combat vehicle, injury or sickness caused by fumes, gases, or explosion of military ordnance, vehicles, or materiel.

6.4.4. For example, if a member is engaging in a sporting activity while on a field exercise and falls and strikes an armored vehicle, the injury would not be considered the result of an instrumentality of war (armored vehicle) because it was the sporting activity that was the cause of the injury, not the vehicle. On the other hand, if the individual was engaged in the same sporting activity and the armored vehicle struck the member, then the injury would be considered the result of an instrumentality of war.

7.0 SPECIAL MONTHLY COMPENSATION (SMC)

7.1 General

SMC, under ***38 U.S.C. § 1114***, is payable for anatomical loss or loss of use of specific organs or parts of the body as a result of service-connected disabilities. SMC is payable in addition to the basic rate of compensation otherwise payable on the basis of degree of disability, provided that the combined rate of compensation does not exceed the monthly rate set forth in 38 U.S.C. § 1114(k).

7.2 Special Determination

Each Military Department will make a special determination regarding whether a member entitled to CRSC who also receives SMC from the DVA under 38 U.S.C. § 1114(k) through (s) could receive increased CRSC as a result of an SMC determination. The Military Department will first determine whether all the member's DVA-compensated disabilities have been determined to be combat-related disabilities under the CRSC program. For members with DVA-compensated disabilities that are both combat-related and non-combat-related, the Military Department will classify each award of SMC as either Combat-Related SMC (CR-SMC) or Non-Combat-Related SMC (Non-CR-SMC), consistent with the corresponding determination of the diagnostic codes on which the SMC is based. The DFAS-Cleveland site will be notified of all such determinations and will include any CR-SMC in CRSC computations.

7.3 Grades Not Requiring SMC Determinations

The Military Department need not make a combat-related determination for any member who would not receive added compensation even if SMC was determined to be combat-related. Any SMC on such member will be passed to DFAS as "undetermined combat-relatedness."

8.0 CRSC AMOUNT

The monthly amount of CRSC is equal to the full monthly amount prescribed in paragraph 8.1, reduced as prescribed in paragraph 8.5 and limited in accordance with paragraph 8.2.

8.1 Gross Monthly Amount

The monthly amount of disability compensation the member would be paid by the DVA under the provisions of 38 U.S.C. if compensated solely for the disabilities determined to be attributable to an injury for which the member received the Purple Heart or determined to be otherwise combat-related. Applicable compensation is set forth in ***38 U.S.C., Chapter 11***. See section 5.0.

Example: A member with a spouse and two children has qualifying combat-related disabilities rated at 100 percent by the DVA. The member's current monthly DVA benefit amount is $3,537.49 which is the prescribed rate for a 100 percent disability for a veteran with a spouse and two children as of December 1, 2020. The gross monthly amount for CRSC purposes is based on this full rate and not just the veteran-alone amounts as applied to CRSC for periods on or after January 1, 2004.

8.1.1. Compensation of Dependents

Additional compensation for dependents is to be included as part of any applicable CRSC compensation. DFAS will use the same dependency rates for the combat-related compensation as DVA uses to determine the member's full disability compensation. For example, if a member is compensated by DVA at the 100 percent disability rate for a veteran with spouse and one child and the combat-related percentage is 60 percent, then the gross CRSC will be determined as the 60 percent rate for a veteran with a spouse and one child. The rates of such compensation are set forth in ***38 U.S.C. § 1115*** and are also located at ***https://www.va.gov/disability/compensation-rates/veteran-rates***.

8.1.2. SMC

The amount of SMC will be considered as part of gross CRSC compensation only if the SMC is paid on the basis of disabilities determined by the Military Department to be combat-related. See section 7.0.

8.1.3. Retired Members Considered Unemployable

Under the laws governing the DVA, members who qualify for the Individual Unemployability supplement to DVA Disability Compensation under the provisions of ***38 CFR 4.16*** are entitled to receive monthly DVA disability compensation payment equal to the amount that they would receive if rated by the DVA as 100 percent disabled. In such cases, DFAS will coordinate with DVA to determine the amount of DVA Disability compensation actually provided to the member, irrespective of the DVA schedule rating percentage. CRSC entitlement will be determined based on the amount of DVA Disability compensation actually paid by the DVA and the amount of military retired pay waived to receive DVA Disability compensation, subject to the other criteria and limitations found in this chapter. See paragraphs 8.2 and 8.5.

8.2 Adjusted Amount

The CRSC payment may not exceed the current reduction in retired pay applicable to the retiree under ***38 U.S.C. § 5304*** and ***38 U.S.C. § 5305***. Thus, CRSC is not payable if there is no reduction because the member is not receiving any monthly disability compensation from DVA, or because the member is not receiving retired pay (such as a reserve member before reaching retirement age at 60 or other reduced retirement age), or for other reasons (such as a member who waives military retired pay in order to credit military service for a civil service retirement). The amount of a member's CRSC entitlement will be adjusted to be the lesser of the gross CRSC from paragraph 8.1 or the reduction to the retired pay entitlement.

Example: The member, described in paragraph 8.1 is retired after 22 years of service with a high-three pay base of $4,500, resulting in retired pay of $2,475 monthly (55 percent of $4,500). The potential retired pay of $2,475 is reduced to $0 by receipt of the DVA disability compensation. Thus, the adjusted amount of CRSC is the $2,475 reduction in retired pay since it is less than the DVA benefit amount of $3,537.49 determined in the example in paragraph 8.1.

8.3 Deduction From CRSC When Retired Pay Not Adequate

Pursuant to 10 U.S.C. § 1452(d)(2), if a deduction from the member's retired pay for any period cannot be made in the full amount required to satisfy the SBP premium, the premium will be deducted from the retiree's CRSC in lieu of deduction from the member's retired pay in the amount that would otherwise have been deducted from the member's retired pay for that period.

8.4 SBP Premium Deduction From CRSC When Dependency and Indemnity Compensation (DIC) Offset is Applicable

Pursuant to 10 U.S.C. § 1450(e), the SBP premium deducted from CRSC of the deceased will be refunded to the surviving spouse when DIC offset is applicable. See Chapter 46.

8.5 CRSC Payment Reduction for 10 U.S.C., Chapter 61 Disability Retirees

The adjusted monthly amount specified in paragraph 8.2 will be reduced according to the provisions of subparagraph 8.5.1 or 8.5.2, whichever is applicable.

8.5.1. Reduction for Periods Prior to January 1, 2013

Provisions for CRSC payment reduction for periods prior to January 1, 2013, follow:

8.5.1.1. Members retired for disability under 10 U.S.C., Chapter 61 with 20 years or more of creditable service computed under section ***10 U.S.C. § 1208*** will have the maximum CRSC payment reduced by the amount, if any, by which the amount of the member's gross retired pay under Chapter 61 exceeds the applicable retired pay to which the member would otherwise have been entitled under any other provisions of law. A retiree who accepted the Career Status Bonus will have the reduced amount calculated based on retired pay that would otherwise have been computed under ***10 U.S.C. § 1409(b)(2)***.

Example: The member described in paragraph 8.2, who would have received $2,475 in retired pay had he retired for his years of service, was retired under 10 U.S.C., Chapter 61 with a disability rated at 60 percent. Thus, the member receives retired pay of $2,700 monthly (60 percent of $4,500). However, in this case, the member has a combined DVA rating of 100 percent, but combat-related disabilities rated at 60 percent. The member's current monthly DVA benefit amount is $3,537.49, of which $1,380.39 is combat-related. The member has a total offset of retired pay. The maximum CRSC entitlement under paragraphs 8.1 and 8.2 is $1,380.39. The maximum CRSC entitlement will be reduced by the

difference in the Chapter 61 retirement and the longevity retirement amounts, or $225 ($2,700 less $2,475). This reduction reflects the amount by which the member's disability retired pay exceeds his or her longevity retired pay. The member's CRSC benefit of $1,380.39 is reduced by $225 to $1,155.39. In this case, the member will receive $3,537.49 from the DVA and $1,155.39 in CRSC from DoD.

8.5.1.2. Members retired for disability under 10 U.S.C., Chapter 61 with less than 20 years of creditable service computed under 10 U.S.C. § 1208 and who initially qualify for CRSC on or after January 1, 2008, will have the maximum CRSC payment reduced by the amount, if any, by which the amount of the member's gross retired pay under Chapter 61 exceeds the amount that is equal to 2½ percent of the member's years of creditable service multiplied by the member's retired pay base under ***10 U.S.C. § 1406(b)(1)*** or ***10 U.S.C. § 1407***, whichever is applicable to the member.

NOTE: A retired reserve member, retired under the provisions of 10 U.S.C., Chapter 61 is entitled to CRSC. The gross amount of CRSC determined under paragraph 8.1 will be adjusted as required under paragraph 8.2 and then further reduced under paragraph 8.5. For Reserve Component members with less than 20 years of service as determined under ***10 U.S.C. § 12733***, reduce the adjusted CRSC amount by the amount, if any, by which the disability retired pay exceeds the amount equal to 2½ percent times the years of creditable service determined under 10 U.S.C. § 12733 multiplied by the member's applicable retired pay base. For Reserve Component members with 20 or more years of service as determined under 10 U.S.C. § 12733, reduce the adjusted CRSC amount by the amount, if any, by which the disability retired pay exceeds the retired pay to which the member would be entitled if the member were 60 years old.

8.5.2. Reductions for Periods On or After January 1, 2013

Provisions for CRSC payment reduction for periods after January 1, 2013, follow:

8.5.2.1. Members retired for disability under 10 U.S.C., Chapter 61 with 20 or more years of creditable service computed under section 10 U.S.C. § 1208 will have the maximum CRSC payment restricted to the amount, which when combined with any remaining retired pay after DVA offset, will not exceed the applicable retired pay to which the member would otherwise have been entitled under any other provisions of law. A retiree who accepted the Career Status Bonus will have the reduced amount calculated based on retired pay that would otherwise have been computed under 10 U.S.C. § 1409(b)(2).

Example: The same member, as described in paragraph 8.2, was retired under 10 U.S.C., Chapter 61, with a disability rated at 60 percent. Thus, the member receives retired pay of $2,700 monthly (60 percent of $4,500). However, in this case, the member has a combined DVA rating of 100 percent, but combat-related disabilities rated at 60 percent. The member's current monthly DVA benefit amount is $3,537.49, of which $1,380.39 is combat-related. The member has a total offset of retired pay. Since there is no residual retired pay after offset of the full DVA benefit amount, the member's CRSC entitlement of $1,380.39, is fully

payable as it does not exceed the applicable retired pay to which the member would otherwise have been entitled under any other provisions of law. In this case, the member will receive $3,537.49 from the DVA and $1,380.39 in CRSC from DoD.

8.5.2.2. Members retired for disability under 10 U.S.C., Chapter 61, with less than 20 years of creditable service computed under 10 U.S.C. § 1208, and who are qualified for CRSC, on or after January 1, 2013, will have the maximum CRSC payment restrictions. The CRSC payment amount, which when combined with any remaining retired pay after DVA offset, will not exceed the amount that is equal to 2½ percent of the member's years of creditable service multiplied by the member's retired pay base under 10 U.S.C. § 1406(b)(1) or 10 U.S.C. § 1407, whichever is applicable to the member.

NOTE: A retired reserve member, retired under the provisions of 10 U.S.C., Chapter 61, is entitled to CRSC. The gross amount of CRSC determined under paragraph 8.1 will be adjusted as required under paragraph 8.2. For Reserve Component members with less than 20 years of service as determined under 10 U.S.C. § 12733, the CRSC amount when combined with the amount of retired pay payable to the retiree after reduction for the full DVA disability compensation, if any, may not exceed the disability retired pay amount that is equal to 2½ percent (2 percent if under Blended Retirement System) times the years of creditable service determined under 10 U.S.C. § 12733 multiplied by the member's applicable retired pay base. For Reserve Component members with 20 or more years of service as determined under 10 U.S.C. § 12733, the CRSC amount when combined with the amount of retired pay payable to the retiree after reduction for the full DVA disability compensation, if any, may not exceed the disability retired pay to which the member would be entitled if the member were 60 years old.

8.5.3. Chapter 61 Disability Retiree Out-Year Deductions

In all cases, once established (based on date the member was first placed on either the Permanent or Temporary Disability Retirement List), the CRSC reduction amount will be increased by each increase in the retired pay cost of living allowance. It will not be re-computed using current pay tables unless the member otherwise qualifies for re-computation of retired pay by reason of recall to duty or correction of official records.

9.0 COMBINED DISABILITY RATING PERCENTAGE

9.1 The DVA Combined Ratings Table

The combined disability rating table combines multiple disability ratings as set forth in ***38 CFR 4.25***. The table is based on the consideration of an individual's efficiency, as affected by the most disabling conditions, if any, in the order of severity. Thus, a person having a 60 percent disability is considered 40 percent efficient. Proceeding from this 40 percent efficiency, the effect of a further 30 percent disability is to leave only 70 percent of the efficiency remaining after consideration of the first disability (70 percent of 40 percent), leaving 28 percent efficiency altogether. The individual is thus 72 percent disabled.

9.2 Multiple Combined Disability Ratings

When a retiree has two or more disability ratings, use the following formula to determine the combined rating of multiple disabilities:

9.2.1. Subtract each disability percent from 100 percent to obtain the remaining efficiency,

9.2.2. Multiply the remaining efficiencies together,

9.2.3. Subtract the result from 100 percent, and

9.2.4. Round to the nearest 10 percent (round upward for 5 percent and up, down for 4 percent and below) to determine the combined disability rating.

Example 1: Consider a retiree having three disabilities from DVA, rated 50 percent, 40 percent, and 30 percent. If added together, then the total would be 120 percent. Instead, the member's combined rating is determined as follows:

1. The three disabilities leave efficiencies of 50 percent, 60 percent, and 70 percent respectively;

2. Multiply the three efficiencies together:

.50 x .60 x .70 = .21 or 21 percent;

3. The disability is 100 percent less 21 percent = 79 percent; and

4. Adjust the result upward to a combined disability rating of 80 percent.

Example 2: Now consider what happens if the Military Department determines that only the 40 percent and 30 percent disabilities are combat-related, then the member's combined disability rating for CRSC would be:

1. The two disabilities of 40 percent and 30 percent leave efficiencies of 60 percent and 70 percent;

2. Multiply the two efficiencies together:

.60 x .70 = .42 or 42 percent;

3. The disability is 100 percent less 42 percent = 58 percent; and

4. Adjust the result upward to a combined disability rating of 60 percent.

9.3 DVA Retroactive Increase

When DVA makes a retroactive increase in a member's DVA disability compensation pertinent to a member's combat-related disabilities under CRSC, DFAS and DVA will exchange data to determine the additional retroactive amount that the member is entitled to receive as the result of CRSC. DFAS will compute the additional CRSC entitlement and advise DVA in order for DVA to pay the member the appropriate additional authorized DVA disability compensation. Any increase affecting CRSC qualified disabilities in the current month requires that CRSC be re-computed. No retroactive CRSC may be paid to a deceased member or to a survivor based on a retroactive DVA Disability compensation increase that was awarded after a member died.

*9.4 Impact to Uniformed Services Former Spouse's Protection Act Payments When a Military Retiree is Retroactively Awarded Disability Compensation or CRSC

CRSC payments that become payable to a retiree as a result of a retroactive DVA or CRSC award will be reduced by all amounts of the retired pay or Concurrent Military Retirement Pay and DVA Disability Compensation previously paid from the retiree's account, including payments to his or her former spouse. Payments of retired pay to a former spouse pursuant to a valid court order, but prior to a retroactive DVA or CRSC award, were not and do not become erroneous overpayments.

10.0 REVIEW PROCESS

10.1 Basis for Determination

10.1.1. Determinations of whether a disability is combat-related will be based on the preponderance of available documentary information where quality of information is more important than quantity. All relevant documentary information is to be weighed in relation to known facts and circumstances, and determinations will be made on the basis of credible, objective documentary information in the records as distinguished from personal opinion, speculation, or conjecture.

10.1.2. The burden of proof that a disability is combat-related rests with the applicant, who is required to provide copies of documents in his or her possession to the best of his or her ability. A record submitted by a member may be used in support of his or her application if that record appears regular on its face and is consistent with Military Service documents and procedures in use at the time, based on the best information available. Military Departments may compile a list of typical documents used in various time periods. If necessary, the Military Departments, under agreement with DVA may request copies of certain documents (i.e., DD 214, "Certificate of Release or Discharge From Active Duty", medical records, final DVA ratings) from DVA to support CRSC determinations.

10.2 Processing of Applications

Each Military Department will receive and process applications submitted by members retired from that Military Department on DD 2860, Claim For Combat-Related Special Compensation (CRSC). Applications will be reviewed, and an application will be approved only if the applicant satisfies both preliminary and final CRSC criteria. An application must be received by the military department prior to the member's death in order to be considered. An application for CRSC submitted by a member's survivors will not be considered. The DFAS-Cleveland site will be notified of each approved application for payment.

10.2.1. Initial Review

Each Service Department will review the member's application to determine if the member meets the preliminary criteria in section 4.0. If a member does not satisfy each of the preliminary CRSC criteria, then the application will be denied and no further consideration is necessary. The member may reapply when his or her ratings satisfy the specified thresholds and meet all four preliminary CRSC criteria in section 4.0.

10.2.2. Final Review

If the member meets all four preliminary criteria in section 4.0, then the Military Department will determine whether the member's disabilities are qualifying combat-related disabilities, as prescribed in section 6.0. The Military Department will record each disability determined to be combat-related with assigned medical diagnosis code from VASRD. The Military Department will forward the approved claims with VASRD codes categorized as either combat or Purple Heart to the DFAS-Cleveland site for payment.

10.3 Denial and Appeal

Provisions for denial and appeal processes follow.

10.3.1. Denial

When a Military Department denies a CRSC application, they will provide a letter to the member specifying the reasons(s) for the denial. The Military Department will inform the member that he or she may seek reconsideration by submitting additional, clarifying, or new documentary information to the Military Department in support of his or her claim. The Military Department will review the additional or new information and will inform the member of the results of the review. The Military Department will also inform the member that CRSC is subject to the same appeals and correction processes applicable to military pay and allowances, including application to the appropriate Board for Correction of Military Records (BCMR) under the provisions of ***10 U.S.C. § 1552***.

10.3.2. Appeal

The Military Department will provide the member a ***DD 149***, Application for Correction of Military Record Under the Provisions of Title 10, U.S. Code, section 1552, and the address of the BCMR, including its website.

CHAPTER 64
CONCURRENT MILITARY RETIREMENT PAY AND DEPARTMENT OF VETERANS AFFAIRS (DVA) DISABILITY COMPENSATION

1.0 GENERAL

1.1 Purpose

This chapter provides information on the implementation of ***Title 10 United States Code (U.S.C.), section 1414***. It includes the requirements for receipt of concurrent military retired pay and Disability Compensation from the Department of Veterans Affairs (DVA) (hereinafter "DVA Disability Compensation") pursuant to 10 U.S.C. § 1414. It establishes that except for certain Disability Retirees, qualifying members (and former members) who are entitled to military retired pay who are also entitled to DVA Disability Compensation are not required to waive military retired pay in order to receive DVA Disability Compensation. It clarifies the waiver requirement applicable to Career Disability Retirees with more than 20 years of service. The law provides authority for military retirees to receive military retired pay either without application of the waiver requirements set out in ***38 U.S.C. § 5304*** and ***38 U.S.C. § 5305*** or with only limited application of such waiver requirements. Additionally, this chapter provides examples clarifying the rule for determining disposable retired pay under ***10 U.S.C. § 1408*** when a qualified retiree receives concurrent military retired pay and DVA Disability Compensation.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from, and prepared in accordance with the U.S.C., including Titles 5, 10, and 38. Due to the subject matter in this chapter, the list of authoritative sources is extensive. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

1.3 Definitions

1.3.1. DVA Disability Compensation. A monthly tax-free benefit paid by the DVA to veterans (including retirees) found by the Secretary of Veterans Affairs to be at least 10 percent disabled per the DVA schedule for rating disabilities because of injuries or diseases that were incurred in or aggravated during active duty, active duty for training, or inactive duty training. The benefit amount is graduated according to the degree of the veteran's disability on a scale from 10 percent to 100 percent (in increments of 10 percent). This benefit is paid by the DVA.

1.3.2. Disability Retiree. This is a member who was retired under ***Title 10, U.S.C., Chapter 61*** by virtue of being unfit to perform the duties of his office, grade, rank, or rating because of physical disability.

1.3.3. Career Disability Retiree. This is a member who was retired under Title 10, U.S.C., Chapter 61 with 20 years or more of service creditable under *10 U.S.C. § 1405*, or at least 20 years of service computed under *10 U.S.C. § 12732*, at the time of the member's retirement.

1.3.4. Military Retired Pay. This is an amount computed under *Title 10, U.S.C., Chapter 71* and paid to those retired under Title 10, U.S.C., Chapter 61 (Disability), *Title 10, U.S.C., Chapter 63* (Age), *Title 10, U.S.C., Chapter 65* (Warrant Officers), *Title 10, U.S.C., Chapter 741* (Army), *Title 10, U.S.C., Chapter 841* (Navy) *Title 10, U.S.C., Chapter 941* (Air Force), or *Title 10, U.S.C., Chapter 1223* (Non-Regular Service). All references to military retired pay in this chapter, include the term Title 10, U.S.C., Chapter 61 Disability Retired Pay.

1.3.5. Title 10, U.S.C., Chapter 61 Disability Retired Pay. This is the type of military retired pay to which a member who was retired under Title 10, U.S.C., Chapter 61 is entitled. Disability Retired Pay is computed pursuant to Title 10, U.S.C., Chapter 71. It is determined by applying a percentage multiplier to the member's basic pay at the time of retirement. The percentage multiplier may be computed based on the number of years of creditable service or the disability percentage assigned by the Service (as elected by the member). See Chapter 3. It is paid by the DoD (or the Department who retired the member pursuant to Title 10, U.S.C., Chapter 61). It is not DVA Disability Compensation.

1.3.6. Hypothetical Longevity Retired Pay. This is the amount of retired pay to which the member would have hypothetically been entitled if the member had hypothetically been retired for reasons other than physical disability under Title 10, U.S.C., Chapter 61.

1.3.7. General Waiver Requirement. This is the general rule that a military retiree may not receive both DVA Disability Compensation and military retired pay simultaneously, but may waive military retired pay in order to receive DVA Disability Compensation. See 38 U.S.C. § 5304 and 38 U.S.C. § 5305. The General Waiver Requirement is always subject to the exception under 10 U.S.C. § 1414.

1.3.8. Exception to the General Waiver Requirement. This is the rule enacted in 10 U.S.C. § 1414 to make specific and limited exceptions to the General Waiver Requirement.

1.3.9. Qualified Retiree. This is a member or former member of the Uniformed Services who is entitled for any month to both retired pay and DVA Disability Compensation based on a service-connected disability (or combination of service-connected disabilities) that is rated by the Secretary of Veterans Affairs as not less than 50 percent disabling on the DVA schedule for rating disabilities. A Disability Retiree must be a Career Disability Retiree to be a Qualified Retiree.

1.3.10. Qualified Career Disability Retiree. This is a person who meets both the definition of Career Disability Retiree and Qualified Retiree.

2.0 ELIGIBILITY

2.1 Qualified Retiree

To qualify for the Exception to the General Waiver requirement and receive military retired pay concurrently with DVA Disability Compensation, the member must be a "Qualified Retiree" as defined in paragraph 1.3.9. Career Disability Retirees who are qualified retirees may receive concurrent Title 10, U.S.C., Chapter 61 Disability Retired Pay and DVA Disability Compensation, subject to certain limitations described in paragraph 2.3.4.

2.2 Qualifying Service-Connected Disability

A qualifying service-connected disability is a service-connected disability (or combination of service-connected disabilities) that is rated by the Secretary of Veterans Affairs as not less than 50 percent disabling on the DVA schedule for rating disabilities.

2.3 Physical Disability Retirement

2.3.1. Disability Retirees - Less Than 20 Years. Such members who do not have 20 years or more of service creditable under 10 U.S.C. § 1405, or 20 years of service computed under 10 U.S.C. § 12732, at the time of the retirement are not eligible to receive Title 10, U.S.C., Chapter 61 Disability Retired Pay and DVA Disability Compensation concurrently. Accordingly, such members are subject to the General Waiver Requirement and must waive Title 10, U.S.C., Chapter 61 Disability Retired Pay in order to receive DVA Disability Compensation.

2.3.2. Qualified Career Disability Retirees - 20 Years or More. Such members may receive concurrent Title 10, U.S.C., Chapter 61 Disability Retired Pay and DVA Disability Compensation but, in certain circumstances, may be required to waive a portion of the Title 10, U.S.C., Chapter 61 Disability Retired Pay.

2.3.3. Special Rules for Qualified Career Disability Retirees. The law limits the amount of Chapter 61 Disability Retired Pay that remains subject to the General Waiver Requirement. Specifically, a Career Disability Retiree receiving Title 10, U.S.C., Chapter 61 Disability Retired Pay must waive Chapter 61 Disability Retired Pay, but only to the extent that the amount of Chapter 61 Disability Retired Pay exceeds the amount of hypothetical longevity retired pay to which the member would have been entitled under any other provision of law if the member had not been retired for disability under Title 10, U.S.C., Chapter 61. After application of the limited general waiver requirement, a Qualified Career Disability Retirees will receive their Title 10, U.S.C., Chapter 61 Disability Retired Pay, but the amount received is equal to the dollar amount of hypothetical longevity retired pay. In cases where a Qualified Career Disability Retiree's hypothetical longevity retired pay computation exceeds their Title 10, U.S.C., Chapter 61 Disability Retired Pay (based on percentage of disability), the General Waiver Requirement does not apply.

Example 1. Qualified Career Disability Retiree Whose Title 10, U.S.C., Chapter 61 Disability Retired Pay Exceeds Hypothetical Longevity Retired Pay.

If a Qualified Career Disability Retiree who was retired for disability under Title 10, U.S.C., Chapter 61 is entitled to $1000 per month in Disability Retired Pay based on his/her percentage of disability, and that same retiree would hypothetically have been entitled to $800 per month in retired pay if (s)he had (hypothetically) been retired under Title 10, U.S.C., Chapter 741 (Army), Title 10, U.S.C., Chapter 841 (Navy) or Title 10, U.S.C., Chapter 941 (Air Force) based on completion of 20 years of service (i.e., length of service), then the amount of Disability Retired Pay that can be received concurrently with DVA Disability Compensation is $800. The remaining $200 in Disability Retired Pay is still subject to the General Waiver Requirement (i.e., the requirement that a member must waive military retired pay in order to receive DVA Disability Compensation). Assume DVA Disability Compensation paid by the DVA is $1,500. Table 64-1 illustrates this example.

Example 2. Qualified Career Disability Retiree Whose Hypothetical Longevity Retired Pay is Equal or Exceeds Chapter 61 Disability Retired Pay.

In some cases, a Qualified Career Disability Retiree's Hypothetical Longevity Retired Pay will either equal or exceed their Title 10, U.S.C., Chapter 61 Disability Retired Pay (based on percentage of disability). In such cases the General Waiver Requirement will not apply. Assume a Qualified Career Disability Retiree who was retired for disability under Title 10, U.S.C., Chapter 61 and who chooses the more favorable of the following two computation methods: either (a) $900 per month in Title 10, U.S.C., Chapter 61 Disability Retired Pay based on his/her percentage of disability, or (b) $1,500 per month in retired pay based on years of service. (As a reminder, for a Title 10, U.S.C., Chapter 61 retiree, the percentage multiplier may be based on the number of years of creditable service or the disability percentage assigned by the Service as elected by the member). Assume that same retiree would hypothetically have been entitled to $1,500 per month in retired pay if the member had (hypothetically) been retired under Title 10, U.S.C., Chapter 741 (Army), Title 10, U.S.C., Chapter 841 (Navy) or Title 10, U.S.C., Chapter 941 (Air Force) based on completion of 20 years of service (i.e., length of service). In such an instance, the amount of Title 10, U.S.C., Chapter 61 Disability Retired Pay that can be received concurrently with DVA Disability Compensation is $1,500. There is no amount that is subject to the general waiver requirement. Table 64-2 illustrates this example. (Assume DVA Disability Compensation paid by the DVA is $1,500).

2.4 Non-Regular Retired Pay

Members eligible for retirement for non-regular service are not eligible to receive both military retired pay and DVA Disability Compensation concurrently until they reach retirement age and have applied for and have become entitled to receive military retired pay. A member is generally not eligible for non-regular retired pay until they reach age 60. The eligibility age may be reduced in certain cases based on qualifying active duty in response to a national emergency after January 28, 2008.

2.5 Retired Pay Waived (Other Than for DVA Disability Compensation)

A member who waives retired pay in order to credit military service for the purpose of establishing eligibility for a civil service retirement, or for any reason other than to receive VA disability compensation, is not eligible to receive both military retired pay and DVA Disability Compensation concurrently. A member who combines his military time with his civil service time for the sole purpose of enhancing his civil service retirement may be eligible to receive both military retired pay and DVA Disability Compensation concurrently. Members who are in receipt of a civil service retirement and believe they may be eligible to receive both benefits simultaneously should consult the Civil Service Retirement System and Federal Employees Retirement System Handbook for Personnel and Payroll Offices for further information on eligibility. See also ***https://www.opm.gov/retire/pubs/handbook/hod.htm***.

3.0 APPLICATION

A member who has already met the requirements to receive military retired pay is not required to submit an application to receive military retired pay and DVA Disability Compensation concurrently. The Defense Finance and Accounting Service (DFAS) will establish procedures to ensure that qualified retirees receive military retired pay to which they are entitled pursuant to 10 U.S.C. § 1414. Members who believe they are entitled to military retired pay, but are not receiving it, should submit a written claim to DFAS to ascertain the reason they are not currently receiving military retired pay. The claim should be sent to DFAS, U.S. Military Retired Pay, 8899 East 56th Street, Indianapolis, IN 46249-1200 or use the askDFAS Online Tools for Retirees at ***https://www.dfas.mil/retiredmilitary/retiree-askDFAS-Online-Tool***. Any survivors seeking retroactive military retired pay, owed a deceased member as arrears of pay, must submit a written claim on a completed Standard Form 1174. See Chapter 30, paragraph 2.5 for additional information.

4.0 PHASE-IN-PERIOD

4.1 Phase-In-Period – 10 Year Period

The law that first allowed retirees to receive military retirement pay and DVA Disability Compensation concurrently was effective on January 1, 2004. It provided for a 10-year phase-in period (January 1, 2004 through December 31, 2013) in which, for most retirees, the amount of military retired pay that was not subject to the General Waiver Requirement would increase gradually each year until the retiree began receiving full military retirement pay simultaneously

with DVA Disability Compensation. There was no phase-in period for retirees with a VA disability rating of 100 percent. The limitations on Career Disability Retirees was applicable.

4.2 Phase-In-Period – Expired

The phase-in period ended on December 31, 2013. Effective on January 1, 2014, (with the exception of Career Disability Retirees who are still subject to the limitations in subparagraph 2.3.3), Qualified Retirees are eligible to receive military retired pay, in full, and concurrently with DVA Disability Compensation (formerly referred to as "Concurrent Retired and Disability Pay (CRDP)"). For historical information on the computation of the amount of military retirement pay that could be paid concurrently with DVA Disability Compensation during the phase-in period, see the archived version of Chapter 64, October 2020.

5.0 RELATION TO OTHER PROVISIONS

5.1 Relation to Combat-Related Special Compensation (CRSC)

Military retirees with disabilities that are attributable to a combat-related event may be eligible for CRSC under ***10 U.S.C. § 1413a***. Combat-related determinations are made by the branch of service from which the member retired. A retired member may receive either CRSC under 10 U.S.C. § 1413a or, in the alternative, military retirement pay and DVA Disability Compensation concurrently under 10 U.S.C. § 1414, but not both. If a retired member is already in receipt of military retirement pay and DVA Disability Compensation concurrently pursuant to 10 U.S.C. § 1414 and then subsequently receives a determination from the branch of service that the member has disabilities that are attributable to a combat-related event under 10 U.S.C. § 1413a, DFAS will compare the possible entitlements under both laws. Unless the member elects otherwise, the CRSC benefit under 10 U.S.C. § 1413a will be paid if it is found to exceed the gross military retired pay entitlement.

5.1.1. All members entitled to both (a) military retirement pay and DVA Disability Compensation concurrently pursuant to 10 U.S.C. § 1414 and (b) CRSC under 10 U.S.C. § 1413a, will be provided an annual open season period during which the member may elect to change between the two entitlement alternatives.

5.1.2. Eligible members will be notified of the opportunity to elect to change between the two alternative entitlements. The notification will be based on the entitlement information available at the time the notice is provided and will specify the date that an election change will be effective.

5.1.3. If a change in the entitlement amount under either alternative entitlement (under 10 U.S.C. § 1414 or 10 U.S.C. § 1413a) occurs after the close of an annual open season period, the change in the entitlement amount will not serve as a basis to alter the current election. The existing election may only be changed at the next annual open season period. This limitation applies to changes in a member's VA disability rating, which have a retroactive effective date specified by VA that precedes the date that DFAS is notified of the change.

Note: The limitation in the prior sentence does not apply if maintaining the member's most recent open season election would result in the establishment of a retired pay debt or result in the loss of the entitlement previously elected altogether.

5.2 Relation to Uniformed Services Former Spouses' Protection Act (USFSPA)

* 5.2.1. Title 10, U.S.C., § 1408, provides a mechanism for a former spouse to enforce a retired pay property award for direct payments from the member's disposable military retired pay. Disposable military retired pay is defined in Chapter 29 and equals a member's total monthly military retired pay (gross pay) entitlement minus certain authorized deductions. The disposable military retired pay of a retired member who is a Qualified Retiree (including Qualified Career Disability Retiree) is computed by taking the member's total monthly retired pay (gross pay) entitlement being received concurrently and reducing it by the authorized deductions pursuant to 10 U.S.C. § 1408. Military retired pay that is paid concurrently with DVA Disability Compensation, formerly referred to as CRDP, is disposable retired pay and subject to division under the USFSPA. This includes concurrent retired pay received by members retired under Chapter 61 of Title 10, U.S.C. pursuant to 10 U.S.C. § 1414.

* 5.2.2. Qualified Career Disability Retirees continue to receive Chapter 61 Disability Retired Pay, even when paid concurrently with DVA Disability Compensation under 10 U.S.C. § 1414. Chapter 61 Disability Retired Pay payable under 10 U.S.C. § 1414 (b)(1) is all disposable retired pay because it effectively removes the disability factor from the amount of retired pay payable limiting payment to the hypothetical longevity retired pay.

5.3 Relation to Other Laws and Processes

When a member is entitled to receive military retired pay and DVA Disability Compensation concurrently pursuant to 10 U.S.C. § 1414, the military retired pay that is paid is still military retired pay. As military retired pay, it remains subject to any other action or process, and to the same extent, that applies to military retired pay as described in law or this regulation. In all instances, when military retired pay is paid concurrently with DVA Disability Compensation pursuant to 10 U.S.C. § 1414 military retired pay, the nature of the military retired pay is not changed because the retiree is a Qualified Retiree under 10 U.S.C. § 1414.

5.3.1. Pursuant to ***10 U.S.C. § 1452***, premium deductions from military retired pay are made for participants in the Survivor Benefit Plan (SBP). Military retired pay which is paid concurrently with DVA Disability Compensation pursuant to 10 U.S.C. § 1414 is available for SBP premium deductions. If a member has sufficient military retired pay to cover SBP premium deductions, then SBP premiums will be deducted from the military retired pay. See Chapter 45.

5.3.2. The Treasury Offset Program allows military retired pay to be offset (reduced) to recover a debt owed to the United States. Military retired pay which is paid concurrently with DVA Disability Compensation pursuant to 10 U.S.C. § 1414 is available for collection of a debt through the Treasury Offset Program. See Volume 16.

5.3.3. Military retired pay which is paid concurrently with DVA Disability Compensation pursuant to 10 U.S.C. § 1414 is subject to any other action or process and is governed by the specific laws and regulations governing the other action or process, including but not limited to garnishment for child support or alimony allotments.

5.4 Taxability

5.4.1. A Qualified Retiree who is entitled to be paid Military Retired Pay concurrently with the DVA Disability Compensation is receiving Military Retired Pay. Military Retired Pay is taxable unless it qualifies for exemption to taxation under the Internal Revenue Code. See Chapter 24.

5.4.2. A Qualified Career Disability Retiree receiving Title 10, U.S.C., Chapter 61 Military Retired Pay concurrently with the DVA Disability Compensation pursuant to 10 U.S.C. § 1414, receives Title 10, U.S.C., Chapter 61 Military Retired Pay, which is subject to the taxation rules for Title 10, U.S.C., Chapter 61 Military Retired Pay found in ***10 U.S.C. § 1403*** and ***26 U.S.C. § 104***.

5.4.2.1. If a Qualified Career Disability Retiree's Title 10, U.S.C., Chapter 61 Disability Retired Pay exceeds Hypothetical Longevity Retired Pay, and the retiree is receiving Title 10, U.S.C., Chapter 61 Disability Retired Pay based upon percentage of disability, then all of Title 10, U.S.C., Chapter 61 Disability Retired Pay received concurrently with DVA Disability Compensation may be non-taxable if otherwise qualified to be excluded from gross income under 26 U.S.C. § 104. See Chapter 24, paragraph 2.2.

5.4.2.2. If a Qualified Career Disability Retiree has elected to receive Title 10, U.S.C., Chapter 61 Retired Pay based upon a percentage multiplier for number of years of creditable service because it exceeds the Title 10, U.S.C., Chapter 61 Disability Retired Pay they would have received based on percentage of disability, then only a portion of Title 10, U.S.C., Chapter 61 Disability Retired Pay received concurrently with DVA Disability Compensation may be non-taxable. In accordance with 10 U.S.C. § 1403, the amount of Title 10, U.S.C., Chapter 61 Disability Retired Pay that may qualify for tax exempt status cannot exceed the amount that equals Title 10, U.S.C., Chapter 61 Military Retired Pay based upon the disability percentage assigned by the Service at retirement. In order to be non-taxable, the Title 10, U.S.C., Chapter 61 Disability Retired pay received concurrently with DVA Disability Compensation must otherwise be qualified to be excluded from gross income under 26 U.S.C. § 104. See Chapter 24, Section 4.0.

> Example. Assume Qualified Career Disability Retiree is entitled to receive either $1,500 a month in Title 10, U.S.C., Chapter 61 Military Retired Pay based upon percentage multiplier for years of service or $900 a month based upon disability percentage and has elected to receive $1,500 a month in Title 10, U.S.C., Chapter 61 Disability Retired Pay. Only $900 a month of the $1,500 of Title 10, U.S.C., Chapter 61 Retired Pay of received concurrently with DVA disability compensation may be considered non-taxable if otherwise qualified to be excluded from gross income under 26 U.S.C. § 104.

Thus, in this example, $600 of Title 10, U.S.C., Chapter 61 Disability Retired Pay received concurrently with DVA Disability compensation is taxable and cannot be excluded from gross income under 26 U.S.C. § 104.

5.5 Relation to Individual Unemployability

5.5.1. Individual Unemployability (IU) is a supplement to the DVA's disability compensation program that allows the DVA to pay certain veterans disability compensation at the 100 percent rate, even though the DVA may not have rated the member's service-connected disabilities at the total level. A veteran qualifying for the IU supplement receives a monthly VA disability compensation payment equal to the amount that he or she would receive if rated 100 percent disabled.

5.5.2. Subject to the exceptions for Disability Retirees explained in subparagraphs 5.5.2.1 and 5.5.2.2, a member or former member of the Uniformed Services who is entitled for any month to both military retired pay and DVA Disability Compensation based on a service-connected disability (or combination of service-connected disabilities) which the Secretary of Veterans Affairs determines qualifies the member for the IU supplement may receive concurrent military retired pay and DVA Disability Compensation.

5.5.2.1. Disability Retirees (Less than 20 years)

Disability Retirees with less than 20 years of service creditable under 10 U.S.C. § 1405 or less than 20 years of service computed under 10 U.S.C. § 12732 at the time of the retirement are not eligible to receive Title 10, U.S.C., Chapter 61 Disability Retired Pay and DVA Disability Compensation concurrently even if the Secretary of Veterans Affairs determines that the member qualifies for the IU supplement.

5.5.2.2. Disability Retirees (More than 20 years)

Disability Retirees with 20 years or more of service creditable under 10 U.S.C. § 1405 or 20 years or more of service computed under 10 U.S.C. § 12732 at the time of the retirement and for whom the Secretary of Veterans Affairs determines that the member qualifies for the IU supplement are eligible to receive Title 10, U.S.C., Chapter 61 Disability Retired Pay and DVA Disability Compensation concurrently. However, the Special Rule for Qualified Career Disability Retirees applies. As a result, the retiree must waive Chapter 61 Disability Retired Pay to the extent that the amount of Chapter 61 Disability Retired Pay exceeds the amount of hypothetical longevity retired pay to which the member would have been entitled under any other provision of law if the member had not been retired for disability under Title 10, U.S.C., Chapter 61.

Table 64-1. Example 1 - Illustration to subparagraph 2.3.4.

Entitlement Type	Amount	Amount payable from VA	Amount payable from DoD
Hypothetical Longevity Retired Pay	$800	Blank	Blank
Chapter 61 Disability Retired Pay Entitlement based on percentage of disability	$1,000	Blank	$800 (Note 1)
Amount Disability Retired Pay Exceeds Hypothetical Length of Service entitlement	$200 (Note 2) ($1,000- $800)	Blank	Blank
DVA Disability Compensation Entitlement	$1,500	$1,500	Blank

Note:
1. This $800 amount is Chapter 61 Disability Retired Pay paid concurrently and is not subject to General Waiver Requirement as it is not required to be waived to receive it concurrently with DVA Disability Compensation. It is paid as Chapter 61 Disability Retired Pay concurrently with the DVA Disability Compensation.

2. This $200 amount is subject to the General Waiver Requirement as it must be waived to receive DVA Disability Compensation concurrently.

Table 64-2. Example 2 - Illustration to subparagraph 2.3.4.

Entitlement Type	Amount	Amount payable from VA	Amount payable from DoD
Hypothetical Length of Service Entitlement	$1,500 (Note 1)	Blank	$1,500 (Note 2)
Chapter 61, Disability Retired Pay Entitlement computed based on years of service (Note 1)	$1,500	Blank	Blank
Chapter 61, Disability Retired Pay Entitlement computed based on percentage of disability (Note 1)	$900	Blank	Blank
Amount Chapter 61 Disability Retired Pay that Exceeds Hypothetical Length of Service entitlement	$0 (Note 3)	Blank	Blank
DVA Disability Compensation Entitlement	$1,500	$1,500	Blank

Note:
1. Pursuant to ***10 U.S.C. § 1401***, a member retired under Chapter 61 is entitled have their Chapter 61 Disability Retired Pay computed based upon their disability percentage or their years of service. Assume the member elected the more favorable computation of $1,500.

2. This $1,500 is Chapter 61 Disability Retired Pay paid concurrently with DVA Disability Compensation and is not subject to general waiver requirement, as members are not required to waive this compensation to receive it concurrently with DVA Disability Compensation. See Paragraph 5.4 for taxability.

3. The amount the Chapter 61 Disability Retired Pay based upon years of service ($1500) that exceeds the Hypothetical Length of Service entitlement ($1500) is $0. Thus, there is no amount that must be waived to receive DVA Disability Compensation concurrently.

State	Age
Alabama	19
Alaska	18 (for the purpose of a parent paying child support, child support may be extended for an unmarried child, by order, until graduation from high school, or technical/vocational training or age 19, whichever comes first)
Arizona	18 (for the purpose of a parent paying child support, age 18; child support shall continue while the child is attending high school or equivalency program, but no later than age 19)
Arkansas	18 (for the purpose of a parent paying child support, age 18; if child is still attending high school at age 18, child support continues until high school graduation or end of the school year after child turns age 19, whichever comes first)
California	18 (for the purpose of a parent paying child support, age 18; if unmarried child is attending high school full-time, child support continues until child completes 12th grade, or age 19, whichever comes first)
Colorado	18 (for the purpose of a parent paying child support, age 19; if child is still in high school or equivalent program, support continues until the end of the month following graduation. If child ceases attending high school or equivalent program before graduation, and re-enrolls, child support continues until end of the month following graduation, but no later than age 21)
Connecticut	18 (for the purpose of a parent paying child support, age 18; if unmarried child is attending high school full-time, child support continues until child completes 12th grade, or age 19, whichever comes first)
Delaware	18 (for the purpose of a parent paying child support, age 18; if child is attending high school, support continues until graduation, or age 19, whichever comes first)
District of Columbia	18 (for the purpose of a parent paying child support, age 21, unless otherwise emancipated)
Florida	18*
Georgia	18 (for the purpose of a parent paying child support, age 18; or until the child graduates from high school or age 20, whichever comes first)

*AGE OF MAJORITY BY STATE AND UNITED STATES POSSESSIONS (Continued)

State	Age
Guam	18 (for the purpose of a parent paying child support, age 18 or graduation from high school, whichever comes later, not to exceed age 19)
Hawaii	18 (for the purpose of a parent paying child support, may be extended beyond age 18 if child is attending school full-time)
Idaho	18 (for the purpose of a parent paying child support, may be extended until the child discontinues high school education or age 19, whichever is sooner)
Illinois	18 (for the purpose of a parent paying child support, age 18; if child is 18 and attending high school, support terminates upon graduation or age 19, whichever comes first)
Indiana	18 (for the purpose of a parent paying child support, age 19; if age 19 and child is attending secondary school, support may be extended, upon petition, until graduation from secondary school)
Iowa	18 (for the purpose of a parent paying child support, age 19, if child is attending high school full-time and expected to graduate or obtain GED)
Kansas	18 (for the purpose a parent paying child support, age 18; if age 18 and child is still in high school, extended until June 30 of year child turns age 18)
Kentucky	18 (for the purpose of a parent paying child support, age18, but if child is not emancipated by marriage, child support will continue while child is in high school, but no later than end of the school year in which the child turns age19)
Louisiana	18*
Maine	18*
Maryland	18*
Massachusetts	18 (for the purpose of a parent paying child support, may be extended beyond age 18 if child is still in high school, or to age 21 or 23, under certain conditions)
Michigan	18 (for the purpose of a parent paying child support, may be extended to age 19.5 if the child is attending high school full-time with a reasonable expectation of graduating)

*AGE OF MAJORITY BY STATE AND UNITED STATES POSSESSIONS (Continued)

State	Age
Minnesota	18 (for the purpose of a parent paying child support, age 18 or until age 20, if child is attending secondary school)
Mississippi	21 (for the purpose of a parent paying child support, age 21, if child support order was issued by a Mississippi court)
Missouri	18 (for the purpose of a parent paying child support, 18, or until child completes secondary school program or age 21, whichever comes first. Child support may extend to age 21, if the child is enrolled in an institution of vocation or higher education and meets certain requirements)
Montana	18*
Nebraska	19**
Nevada	18*
New Hampshire	18 (for the purpose of a parent paying child support, age 18 or when the child graduates high school, whichever is later)
New Jersey	18 (unless otherwise emancipated, age 19, for the purpose of a parent paying child support)
New Mexico	18*
New York	18 (unless otherwise emancipated, age 21, for the purpose of a parent paying child support)
North Carolina	18 (up to age 20, for the purpose of a parent paying child support, if the child is still attending high school and has not graduated)
North Dakota	18 (for the purpose of a parent paying child support, child support continues beyond age 18 until child graduates from high school or age 19, whichever comes first)
Ohio	18 (for the purpose of a parent paying child support, child support continues beyond age 18 until child graduates from high school or age 19, whichever comes first)
Oklahoma	18 (for the purpose of a parent paying child support, if the child is attending high school, child support continues until graduation or age 20, whichever occurs first)
Oregon	18 (for the purpose of a parent paying child support, child support may be extended up to age 21 while the child is attending school)
Pennsylvania	18 (for the purpose of a parent paying child support, age 18 or until the child graduates from high school, whichever occurs later)
Puerto Rico	21 (for the purpose of a parent paying child support, age 21, unless otherwise emancipated)

*AGE OF MAJORITY BY STATE AND UNITED STATES POSSESSIONS (Continued)

State	Age
Rhode Island	18 (for the purpose of a parent paying child support, until high school graduation or age 19, whichever comes first)
South Carolina	18 (for the purpose of a parent paying child support, age 18 and has finished high school, or until the end of the school year after the child turns age 19, whichever is later)
South Dakota	18*
Tennessee	18 (for the purpose of a parent paying child support, age 18 and has graduated from high school, or until the class of which the child is a member when the child turned 18 graduates, whichever occurs first)
Texas	18 (for the purpose of a parent paying child support, age 18 or until graduation from high school, whichever occurs later)
Utah	18 (for the purpose of a parent paying child support, age 18, or graduation from high school during the child's normal and expected year of graduation, whichever occurs later)
Vermont	18 (for the purpose of a parent paying child support, age 18 or termination of secondary education, whichever occurs later)
Virginia	18 (for the purpose of a parent paying child support, child support continues until high school graduation or age 19, whichever comes first)
Virgin Islands	18
Washington	18 (for the purpose of a parent paying child support, support continues if child is participating full-time in a secondary school program and is under the age of 19)
West Virginia	18 (for the purpose of a parent paying child support, age 18 or until age 20 if enrolled in a secondary educational or vocational program)
Wisconsin	18*
Wyoming	18 (for the purpose of a parent paying child support, age 18, or until age 20 if attending high school or an equivalent program full-time)

*AGE OF MAJORITY BY STATE AND UNITED STATES POSSESSIONS (Continued)

Note: The age listed for the purpose of a parent paying child support is the age under the corresponding state's law, and presumes a child is not otherwise emancipated by military service, marriage, death, judicial decree, or self-support. Child support may also be extended due to disability.

*The age of majority in this state is age 18. However, for the purpose of a parent paying child support, this state dictates that child support is to continue until age 19 if the child is still attending high school or a secondary school.

**If a child under age 19 marries, child support ends.

APPENDIX P

DATA FOR PAYMENT OF RETIRED PERSONNEL

1.0 GENERAL

1.1 Purpose

This appendix provides for the administration and completion of the Department of Defense ***(DD) Form 2656***, Data for Payment of Retired Personnel, and ***DD 2656-1***, Survivor Benefit Plan (SBP) Election Statement for Former Spouse Coverage, if appropriate.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), Title 10. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

2.0 APPLICABILITY AND SCOPE

2.1 Establishing Retired/Retainer Pay Account

Those Service members requesting retirement, and former members who are entitled to retired pay under 10 U.S.C. Chapter 1223, must complete the DD 2656 and DD 2656-1, if appropriate, in order to be provided retired pay. The DD 2656 is the most important financial related document to complete in preparing for military retirement. The Defense Finance and Accounting Service Cleveland (DFAS-CL) will establish the Service member's retired/retainer pay account based on the data provided on the form(s) and retirement/transfer orders.

2.2 Required Data

The Service member's personnel office and SBP counselor will assist them in the proper completion and submission of the DD 2656 and DD 2656-1, if appropriate. See section 3.0. The data provided is required to establish a retired/retainer pay account, including:

2.2.1. The retirement plan under which the Service member is covered;

2.2.2. Direct deposit/electronic funds transfer information;

2.2.3. Designation of beneficiaries for unpaid retired pay;

2.2.4. Federal and state tax withholding information;

2.2.5. Information on dependents;

2.2.6. An election of SBP coverage; and

2.2.7. Lump sum payment election, when applicable.

Note: The DD 2656 replaced Navy Comptroller Form 2272, Department of Army Form 4240, and Air Force Form(s) 1266, 1267, and 1268.

3.0 RESPONSIBILITIES

3.1 DFAS Responsibilities

DFAS-CL is the primary source for information and technical guidance concerning the DD 2656 and DD 2656-1. DFAS-CL processes the documents for military retirement submitted by the Military Services.

3.2 Military Service Responsibilities

Each respective personnel activity will provide pre-retirement counseling to prospective retirees. As part of the counseling process, each personnel activity will ensure that the prospective retirees properly complete the DD 2656 and DD 2656-1, if appropriate. The personnel activity will forward the forms and appropriate documentation to DFAS-CL electronically, or mail to:

DFAS
U.S. Military Retired Pay
8899 E. 56th Street
Indianapolis, IN 46249-1200

3.3 Service Member Responsibilities

Members requesting retirement and former members who qualify under 10 U.S.C., Chapter 1223, will complete the DD 2656 and DD 2656-1, if appropriate. Completion of these forms is necessary to establish the retired/retainer pay account. See paragraph 2.2.

APPENDIX R

ANNUAL INCOME RATES FOR MINIMUM INCOME ANNUITIES UNDER SURVIVOR BENEFIT PLAN (SBP)

1.0 GENERAL

1.1 Purpose

A minimum income widow (MIW) is a person who on September 21, 1972, was, or during the period beginning on September 22, 1972, and ending on March 20, 1974, became, the widow of a member who was entitled to retired or retainer pay when they died. This individual must have income below the threshold and meet the eligibility criteria in Chapter 46. The widow's annual income from all sources (including the amount of Retired Serviceman's Family Protection Plan annuity entitlement, but excluding the amount of disability pension), as determined by the Department of Veterans Affairs (VA), must be less than the annual income rate reflected in the SBP/MIW Annuity Limitation table as determined by the VA. Annually, the VA will publish the most current ***SBP/MIW Annuity Limitation*** to the VA website. This amount, divided by 12, represents the maximum monthly payable to MIW annuitants. See Chapter 46.

1.2 Authoritative Guidance

The pay policies and requirements established by the DoD in this chapter are derived primarily from and prepared in accordance with the United States Code (U.S.C.), Title 10. The specific statutes, regulations, and other applicable guidance that govern each individual section are listed in a reference section at the end of the chapter.

*Table R-1. ANNUAL INCOME RATES FOR MINIMUM INCOME ANNUITIES UNDER SURVIVOR BENEFIT PLAN (SBP) (See Notes 1 and 2)
Table Revision Effective Date: December 1, 2024

MAXIMUM MONTHLY ANNUITY PAYABLE	MINIMUM ANNUAL INCOME	EFFECTIVE DATE

DEFINITIONS

1.0 General

The following list defines general terms of significance or importance relating to military retired pay policies for the DoD that are discussed in various chapters. These definitions are provided for general information; it is by no means an exhaustive list of all financial management terms, and it does not define terms when standard dictionary definitions apply.

2.0 List of Definitions

Active Duty

Fulltime duty in the active service of a uniformed service, including fulltime training duty, annual training duty, and attendance while in the active service at a school designated as a military service school by law or by the Secretary of the Military Service concerned (or designee).

Active Duty List (ADL)

A single list for the Army, Navy, Air Force, Space Force, or Marine Corps which contains the names of all officers of that Armed Force, other than officers described in Title 10, United States Code, section 641 (***10 U.S.C. § 641***), who are serving on active duty.

Active Service

Service on active duty or full-time National Guard duty.

Active Status

The status of a member of a Reserve Component (RC) who is not in the inactive Army National Guard or inactive Air National Guard, on an inactive status list, or in the Retired Reserve.

Actuarial

Relating to actuaries and their work.

Actuary

A professional with expertise in the measurement of future contingent events and risk relating to financial outcomes. An actuary is skilled in the application of mathematics, statistics, and economics.

Amendatory Birth Certificate

A birth certificate that has been corrected, changed, or revised.

Annuitant

The person receiving a monthly payment as a result of a Service member's specific survivorship plan.

Annuity

A monthly payment made to a person as a result of a specific survivorship plan.

Annuity Base Amount

The amount of retired pay that determines annuity payable to Survivor Benefit Plan (SBP) beneficiaries.

Armed Forces of the United States

A term used to denote collectively all components of the Army, Marine Corps, Navy, Air Force, Space Force, and the Coast Guard when mobilized to augment the Navy.

Basic Pay

The active duty pay rates prescribed for an officer or enlisted member according to pay grade and years of service.

Beneficiary

The term beneficiary means the recipient of certain benefits due as a result of a relationship to or designation by a member.

*Combat-Related Special Compensation (CRSC)

CRSC is special compensation to members of the Uniformed Services who have their retired pay reduced due to receiving Department of Veterans Affairs (VA) disability compensation where a portion of such VA compensation is the result of disabilities that are combat related as determined by the Service.

Common-Law Marriage

A marriage recognized by state law that is not solemnized by religious or civil ceremony as defined in pertinent state law.

NOTE: Marriages are legal relationships that are governed by state law. Most states no longer recognize marriages under common law. Merely being in a relationship with a member does not mean that a common law marriage exists. To have a common law marriage, there must be clear and convincing evidence that a common law marriage exists under the governing state law.

Concurrent Military Retirement and VA Disability Pay

Formerly known as Concurrent Retirement and Disability Pay. Regular or reserve members who are entitled to military retired pay based on either length of service or disability, and who are also entitled to disability compensation paid by the VA-based on a combined VA disability rating of 50 percent or greater and not subject to the waiver requirements of 38 U.S.C. §§ 5304 and 5305, may receive both military retired pay and VA disability pay concurrently. See ***10 U.S.C. § 1414***. Members retired under military disability provisions under 10 U.S.C., Chapter 61 must have at least 20 years of creditable service and otherwise be entitled to receive retired pay under another provision of law in order to be eligible for concurrent military retired pay and VA disability compensation.

Constructive Payment (or Receipt)

An accounting or tax term used for federal income tax purposes that provides that income is received by the taxpayer in the taxable year in which it is set aside for the taxpayer or credited to his/her account, regardless of whether or not it has been physically received or when it was earned. A constructive payment must be available to the taxpayer for use without substantial limitations or restrictions. See ***26 CFR 1.451-2***.

Cost-of-Living Adjustment (COLA)

The percentage change applied to retired pay and SBP annuities based on laws using the Consumer Price Index, Urban Wage Earners, and Clerical Workers-U.S. City Average, as published by the Bureau of Labor Statistics.

Currency-Blocked Country

A country specified by the U.S. Department of Treasury to which dollar instruments may not be transmitted.

Dependency and Indemnity Compensation (DIC)

Tax-exempt compensation paid by the VA to the eligible survivors of Military Service members who died after December 31, 1956, from a service-connected or compensable disability.

Entitlement

Legally established benefits available to any person meeting eligibility requirements established by law.

Fiduciary

A person, legally designated, who holds something in trust for another person.

Fleet Reserve or Fleet Marine Corps Reserve

A Component of the Regular Service to which members may be transferred and released from active duty after obtaining 20 or more years of active Federal service.

Foreign Address

An address outside of the United States, its possessions and territories, is a foreign address.

Former Member

See definition of Member. A person who was previously appointed or enlisted in, or conscripted into a uniformed service and who has been permanently separated from that service to civilian status is no longer in the service and is considered a former member.

NOTE: Former members may be entitled to retired pay for non-regular service under ***10 U.S.C., Chapter 1223***, if they have met the required age and service requirements. Deceased former members, who met the age and service requirements of 10 U.S.C., Chapter 1223, are not entitled to retired pay.

Inactive Duty Training

Inactive duty training refers to:

1. Duty prescribed for members of an RC by the Secretary of the Military Service concerned (or designee); or

2. Special additional duties authorized for members of an RC by an authority designated by the Secretary of the Military Service concerned and performed by them on a voluntary basis in connection with prescribed training or maintenance activities of the units to which they are assigned.

Member

A person is either in the service or out of the service. A person who was previously appointed or enlisted in, or conscripted into a uniformed service and has not been permanently separated from that service to civilian status is still in the service and is considered a member. Members who become entitled to retired pay do not lose their status as members of the service simply because they are entitled to retired pay. Member status is only lost through permanent separation from the service to civilian status. For purposes of retired pay, a member is a person who was previously appointed or enlisted in, or conscripted into a uniformed service, who has not been permanently separated from that service, who is entitled to retired pay and who is still living. Deceased members are not entitled to retired pay. See 10 U.S.C., Chapter 1223.

Military Departments

The Department of the Army, the Department of the Navy, and the Department of the Air Force. See ***10 U.S.C. § 101(a)(8)***.

Military Retired Pay (Includes Fleet Reserve and Fleet Marine Corps Reserve Retainer Pay)

The gross entitlement for a member based on conditions of the retirement law, pay grade, years of service for basic pay, years of service for percentage multiplier, percentage of disability (if applicable), and date of retirement (transfer).

Missing Status

Includes missing, missing-in-action, interned in a foreign country, captured, beleaguered, besieged by a hostile force, or detained in a foreign country against a member's will.

National Defense Authorization Act (NDAA)

The NDAA authorizes appropriations each fiscal year for military activities of the DoD, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

Non-Service Connected

With respect to disability or death, that such disability was not incurred or aggravated, or that the death did not result from a disability incurred or aggravated, in line of duty in the active military, naval, air, or space service (VA definition only).

Office of the Actuary

The Office of the Actuary provides actuarial expertise on matters relating to military benefits.

Overpayment

An amount paid to a retiree, annuitant, or legal fiduciary, which is more than that to which entitlement exists.

Parent of Issue

The biological parent, other than the member, of a child.

Pay Grade

The step or degree in a graduated scale to which members of the Uniformed Services are assigned or distributed for military pay and allowances purposes. See Volume 7A, "Comparable Grades."

Representative Payee

A person or organization designated to receive payments for a minor or an individual who is mentally incompetent or under other legal disability, for whom a guardian or other fiduciary has not been appointed.

Reserve Component (RC)

With respect to the Armed Forces, the Army Reserve, the Naval Reserve, the Marine Corps Reserve, the Air Force Reserve, the Coast Guard Reserve, the National Guard of the United States, and the Air National Guard of the United States.

Retainer Pay

Pay received by a member of the Fleet Reserve/Fleet Marine Corps Reserve.

Retired List

Any one of several lists of military members retired from active duty or a RC of the Armed Forces.

Retirement Date

The first day of entitlement to retired pay, not a day of active duty.

Saved Pay

Special pay provisions that allow retired members, under certain conditions, to retain entitlement to pay under prior laws when beneficial to the member.

Service Connected

With respect to disability or death, such disability was incurred or aggravated, or the death resulted from a disability incurred or aggravated in the line of duty in the active military, naval, air, or space service (VA definition only).

Surviving Spouse

A person who was legally married to the decedent on the date of the decedent's death and who survived the decedent is the surviving spouse. There may be additional requirements in order to qualify as a surviving spouse for certain entitlements.

Tower Amendment

A law providing that a member retiring after January 1, 1971, may not receive less retired pay than the monthly retired or retainer pay to which he or she would be entitled if the member had become entitled to retired or retainer pay at an earlier date. A member who fully qualifies for retirement on a date earlier than the actual retirement date receives the most favorable rate of pay as though the member actually retired on the earlier date.

Transfer Date (Fleet Reservists, Fleet Marine Corps Reservists)

Date of release from active duty (a day of entitlement to active duty pay and allowances).

Uniformed Services

The Army, Navy, Air Force, Space Force, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration, and Public Health Service comprise the Uniformed Services.

United States (U.S.)

The country includes the 50 states and the District of Columbia, unless otherwise qualified.

VOLUME 8

CIVILIAN PAY POLICY

1.0 GENERAL

1.1 Purpose

Volume 8 establishes the financial management policy governing the pay of Department of War civilian employees, including time and attendance; pay administration and computation; mandatory and voluntary deductions and allotments; leave and other absences; special category employees; and the collection of pay-related debts. It states the binding policy only; procedures, implementation guidance, definitions, and data tables reside in the companion documents identified below.

1.2 Authoritative Guidance

Please refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Please refer to the Glossary of terms document on the FMR webpage.

1.4 Procedures

Please refer to the procedures document listed throughout this volume.

2.0 INTRODUCTION AND OVERALL REQUIREMENTS

2.1 General

2.1.1. This section prescribes the principles, objectives, and requirements for DoW employee pay operations and systems. It applies to payments the Defense Civilian Pay System (DCPS) makes to employees paid from appropriated, revolving, or trust funds. The Under Secretary of War (Comptroller)/Chief Financial Officer has determined that DCPS is DoW's only approved standard payroll system. These requirements apply to computing payments, leave, and deductions and to maintaining records for permanent, temporary, full-time, part-time, irregular, and special category employees.

2.2 Overall Requirements

2.2.1. Overview

2.2.1.1. The Defense Finance and Accounting Service (DFAS) must maintain system requirements in compliance with all applicable laws and regulations and with guidance issued by OPM, the Department of the Treasury, the Department of State, the Department of Labor, and taxing authorities (federal, state, and local).

2.2.1.1.1. Any approved unique payroll system must be integrated or interfaced with other applicable systems, such as DCPS, general ledger systems, or installation-level general accounting systems.

2.2.1.1.2. The Director, DFAS must approve continued operation of any such unique payroll system.

2.2.1.2. DoW payroll operations and systems must meet the following objectives: Make timely and accurate payments to employees entitled to be paid, in compliance with appropriate statutes and regulations, with consideration being given to all authorized deductions from gross pay; Account for and disposition of all authorized deductions from gross pay; Control, retention, and disposition of all payroll related documents; Prepare adequate and reliable payroll records to support managerial responsibilities; Plan, prepare, execute, and review the budget; Prepare required internal and external reporting; Support effective communication between employing activities and employees on payroll matters in addition to timely, accurate, and responsive customer service action to resolve payroll related inquiries from employees; Control all phases of processing pay, leave, entitlements, and allowances; Interface the payroll function with general ledger, cost accounting, and personnel functions, with provisions for reconciling common data elements in DCPS and these interrelated systems; Provide capability to query current, historical, and/or archived data; Provide audit trails to permit the tracing of transactions through DCPS; Comply with accounting system development criteria specified in Volume 1; Comply with internal control requirements, including data security and prevention of data disclosure, as specified in Volume 1; and Comply with DoW direction to standardize data elements to promote cross-functionality and integration efforts.

2.2.2. Funds Control

2.2.2.1. Funds used to pay DoW employees are appropriated by Congress and apportioned to the Department by the Office of Management and Budget. At least monthly, the payroll obligation estimate must be made. As payments are made, estimates must be adjusted to reflect actual payment data.

2.2.2.2. DCPS must be integrated or interfaced with, and must support, the accounting systems. DCPS must consist of detailed accounts and records kept as a subsidiary to, or support for, controlling or summary accounts in the general ledger of the accounting systems. DCPS must produce the obligation and accrual data the accounting systems need.

2.2.3. The Director, DFAS is responsible for the overall planning and general direction of the pay, leave, and allowance functions and the related system requirements. This responsibility requires establishing and implementing adequate written procedures, adequately training all personnel in their functions, and installing sufficient internal controls and management oversight to ensure compliance with DCPS objectives. See DoW Directive 5118.05. The Director, DFAS must also ensure that DCPS meets legal criteria and the following requirements.

2.2.3.1. Payroll procedures must be: clearly written and be in accordance with applicable laws, regulations, and legal decisions; amended to reflect changes in applicable laws, regulations, and legal decisions; as uniform as possible throughout DoW; aistributed to payroll staff and be available to individual employees as needed to ensure efficient and effective operations; and reflective of clear assignments of responsibility, delegation of authority, and separation of duties for personnel who compute the payroll, certify payments, record payroll data in the accounts, distribute pay, review payroll transactions, and develop, test and maintain supporting computer systems.

2.2.3.2. Personnel engaged in pay, leave, and allowance activities must: be adequately trained and kept informed about the requirements of laws, regulations, and legal decisions; be adequately supervised to help prevent any unauthorized, fraudulent, or other irregular act; perform operations effectively, efficiently, and economically in accordance with laws, regulations, and legal decisions; review the operations, including internal controls, on an ongoing basis to ensure such performance; and identify and resolve inconsistencies in information submitted, processed, and reported during the various payroll cycles.

2.2.3.3. DCPS must be integrated or interfaced with: Personnel systems to obtain current information on which to process pay entitlements, leave, and allowances. Timely information is needed to minimize the possibility of fraud, waste, and mismanagement and maximize the accuracy of employee payments; the general ledger systems to provide information to prepare various financial statements; cost accounting systems to distribute and charge payroll labor cost data to appropriations, jobs, projects, programs, and departments. This also helps in properly evaluating operations and management; and to support budget formulation and execution; and other financial management systems to meet reporting and management objectives.

2.2.3.4. The interfaces in subparagraph 2.3.3 must be used to assist in timely reconciliation of data elements and discrepancies noted between systems.

2.2.3.5. Transactions recorded in the pay, leave, and allowance records must be adequately supported by properly authorized documents.

2.2.3.6. Continuity of Operations Plans and associated procedures must be established and maintained to back up data properly in the event of power failure, equipment malfunction, terrorist threat, natural disaster, or other hazard.

2.2.3.7. Persons not engaged in payroll operations must conduct external audits and internal examinations of those operations to determine whether they are efficient, effective, and economical and comply with laws, regulations, and legal decisions.

2.2.3.8. Payroll must be computed biweekly unless the law requires a different timeframe. Special payments are prohibited except as addressed in Section 9.1.2. Advances of pay are covered in Section 4.8. All employees must be informed of the designated payday, and pay should be made available on that payday. The payday lag between the close of the pay period and payday must not exceed 12 calendar days. When a payday falls on a holiday or an "in lieu of" holiday, the payday must be the first preceding business day.

2.3 Electronic Funds Transfer (EFT) for Federal Civilian Salary Payments

2.3.1. General

2.3.1.1. The Director, DFAS, with the Office of the Deputy Chief Financial Officer, must: publish EFT payment policy and implementation procedures for payment of all DoW civilian personnel; coordinate the presentation of issues and proposed exceptions in DoW's mandatory EFT policy to Treasury for approval; prepare appropriate reports for submission to Treasury; provide quarterly reports that reflect the level of EFT participation to DoW and non-DoW agencies serviced by DFAS (hereinafter referred to as "serviced agencies"); and furnish a report of employees paid by DFAS, who do not participate in EFT, to employing agencies at the end of each quarter.

2.3.1.2. DoW Component Personnel Directors must:

2.3.1.2.1. Directors or Commanders of all DoW Activities must:

2.3.1.2.1.1. Provide information for reporting purposes to DFAS sites when requested, including NAF personnel.

2.3.2. Financial institution charges from erroneous information the individual or the financial institution provided to the civilian payroll office (PRO) are not a government liability and must not be reimbursed. Reimbursement is authorized and limited to overdraft, minimum balance, or average balance charges the financial institution levies because of a government

administrative or mechanical error that causes pay to be deposited late or in an incorrect manner or amount, per 10 U.S.C. § 1594.

2.3.3. Each quarter, PROs must provide EFT participation and non-participation reports to the serviced agencies to manage EFT participation (see Section 10, subparagraph 3.4.6).

2.3.4. Payments Other Than EFT

2.3.4.1. The disbursing officer must mail checks to the non-work address the employee provided. On an exception basis, checks may be delivered to designated agents in the employing offices for delivery to employees at work locations.

2.3.4.2. When delivery of paychecks to individuals by designated agents is authorized, persons designated to deliver paychecks must not preparing, approving, or certifying vouchers and personnel action documents; maintaining the payroll; or handling time and attendance (T&A) records and leave records. Each employee must be known to, or identified by, the person who delivers the employee's paycheck. Checks not delivered within the time the disbursing officer specifies must be returned to the disbursing or issuing officer. All checks must be kept in a safe or locked fireproof cabinet pending distribution to the employee or return to the disbursing or issuing officer (see Volume 5).

2.3.4.3. If, under extraordinary circumstances, payments must be made in cash, employees must properly identify themselves and must acknowledge payment by signing a receipt form when they receive payment. Requiring receipts before actual cash payments is prohibited. Only persons authorized to perform disbursing functions, and who are not part of the pay computation process, may make these payments (see Volume 5).

2.4 Establishment and Control of Employees' Pay Records

2.4.1. Use of the SSN for Identification

2.4.1.1. DFAS must use the SSN to identify all employees it pays.

2.4.1.2. Civilians concurrently employed in more than one position must use the same identifier (SSN or ITIN) across every position. Person identifier data must support the capability to correct and update a person's identity information, per DoWI 1444.02, Volume 1.

2.4.2. Individual Employee Pay Records

2.4.2.1. Each employee must have an individual pay record maintained as part of the master pay record. Except for multiple appointments, only one pay record may be active at any time for each authorized position. If more than one pay record is maintained, the rationale

must be thoroughly documented and an audit trail maintained. Sufficient information on active pay records must be retained or accessible at the servicing PRO to support manual input, payment, and performance of other required administrative functions.

2.4.2.2. The pay record must contain all transaction information related to payments and deductions, with an audit trail to the authorizing source document, subject to paragraph 4.5. The pay record must contain information on rates of pay pertaining to the categories listed in this paragraph.

2.4.2.3. The pay records must be supported by T&A, leave records, and personnel records. T&A records contain all hours for a pay period based on the effective work schedule. All hours worked (regular and premium) and leave taken (paid and unpaid) are used to compute pay. Leave records include annual, sick, and any other leave earned, taken, lost, forfeited, restored, or advanced, including appropriate unused leave balances. The pay record must contain other information, such as year-to-date and quarter-to-date totals, as necessary, to compute pay and prepare reports.

2.4.2.4. Year-to-date information must be maintained for the current and prior pay years. Pay records must be dispositioned per the National Archives and Records Administration (NARA), General Records Schedule (GRS) 2.4: Employee Compensation and Benefits Records.

2.4.3. Payroll Substantiating Document File

2.4.3.1. Under a centralized civilian payroll function, separate document files are required and maintained for each employee. The servicing PRO must maintain documents applicable to PRO functions and responsibilities. The Customer Service Representative (CSR)/employing activity must maintain documents applicable to CSR responsibilities.

2.4.3.2. All source documents that substantiate the employee's entitlement to compensation, leave, benefits, and authorizations, or that support deductions, whether maintained in hardcopy or electronic format, must be safeguarded from improper or unauthorized access or use. Payroll-related documents, whether maintained by the PRO or the CSR, must be dispositioned per NARA, GRS 2.4. Each agency may establish a specific document retention policy; however, the policy must not impose a lesser retention requirement than NARA requirements.

2.4.3.3. All source documents must be readily available for research. Active and inactive files must be dispositioned per NARA, GRS 2.4 for current employees and NARA, GRS 2.5 for separated employees.

2.4.4. Retention sites must control source documents to ensure timely processing of payroll documents, auditing, and reconciliation of individual pay accounts. Local document control procedures may be used as long as appropriate control and access are maintained.

2.4.5. Personnel Actions

2.4.5.1. DCPS is integrated or interfaced with the personnel system the employee's agency uses. DCPS must use the information the personnel system authorizes as the basis for pay, leave entitlements, and some deduction calculations.

2.4.5.2. The servicing HRO must maintain source documentation for actions originating with the Human Resources Office (HRO). Where the systems do not permit interface of the actions, the servicing HRO must provide the servicing PRO a hardcopy or electronic copy of the document, which the servicing PRO also must maintain.

2.4.6. Appropriate controls must be established for all payroll functions.

2.4.6.1. The controls must ensure the timely, correct, complete, accurate, and properly authorized processing of payroll documents, including the items in paragraphs 2.4.6.1.1 through 2.4.6.1.5.

2.4.6.1.1. An authorized official must approve, in writing or through electronic signature (made by entering designated codes into an automated system under safeguards that prevent unauthorized use), corrections and other adjustments to data in official records, as set out in paragraphs 2.6.1.1.1 through 2.6.1.1.3.

2.4.6.1.1.1. Records of all changes made after records have been approved or certified must be generated and maintained.

2.4.6.1.1.2. Manual corrections to documents made after the documents have been approved or certified must be made in a way that does not obliterate the original entries. A designated authorizing official must approve the corrections.

2.4.6.1.1.3. Automated system changes to data must be made so that an audit trail is maintained to show, or reference, documents showing the original and new data and the authorization for the change. Such changes may be made only based on properly approved documents authorizing the changes.

2.4.6.1.2. Separation of duties applies to the PRO and system development personnel. To minimize opportunities for unauthorized, fraudulent, or otherwise irregular acts, the payroll duties listed in this paragraph must be separated so that no one person performs all phases of a transaction without the possibility of intervention or review by another person.

2.4.6.1.3. Access to the items listed in this paragraph must be restricted to authorized personnel.

2.4.6.1.4. Employees must not maintain or service their own payroll or personnel records. This internal control must be incorporated into the security system software that governs access to DCPS records. Employees may provide authorizing source documentation to the servicing CSR or input data using an electronic self-service application. The employee transactions maintained by the CSR or input by the employee through such an application are listed in this paragraph.

2.4.6.1.5. To detect inappropriate data at the earliest time and to the extent practical, data entered into DCPS must be subjected to computerized edits at the time of entry.

2.4.7. PROs must ensure that payroll data is complete and accurate. DCPS and the HRO must each reconcile employee records to ensure that shared data matches.

2.4.7.1. Reconciliation of common data (for example, work schedule, salary, and date of birth) between the human resources system and DCPS must be accomplished at least every 4 months. The servicing HRO reviews the reconciliation and annotates any mismatches. The servicing HRO resolves mismatches where possible and provides supporting documentation to the servicing PRO to resolve payroll record errors. The servicing PRO must ensure thorough reviews of and necessary corrections to the DCPS database. The servicing PRO must complete the payroll portion of the reconciliation within 10 workdays after receiving the annotated reconciliation documentation from the servicing HRO. The servicing PRO must maintain historic records to ensure timely compliance with this reconciliation requirement.

2.4.7.2. Based on the predetermined schedule, DCPS must generate and transmit reconciliation files to the appropriate personnel system host. The DCPS manager establishes and publishes the schedule in conjunction with the personnel system manager.

3.0 TIME AND ATTENDANCE (T&A)

3.1 Responsibilities of Employing Agency, Approving Officials, and Timekeepers

3.1.1. Approving Official Responsibilities

3.1.1.1. When approving T&A, all supervisors, other equivalent officials, or higher-level managers must certify, to the best of their knowledge, that work schedules are accurately recorded. The supervisor should be aware of an employee's work schedule, leave taken, and any absence from duty and must review and approve the T&A to ensure its accuracy. Supervisors must ensure that exceptions to the employee's normal tour of duty are recorded in a timely and accurate manner.

3.1.1.2. The supervisor may assign responsibility for observing daily attendance or accurately recording T&A data to a timekeeper or, in limited circumstances, to the individual employee. The supervisor remains ultimately responsible for the timely and accurate reporting of the T&A per applicable policies, regulations, instructions, and bargaining agreements. The supervisor must inform the timekeeper when an employee is on leave or has worked any type of premium work. The supervisor may assign an alternate timekeeper to maintain T&A during the absence of the primary timekeeper.

3.2 T&A Requirements

3.2.1. The period shown on the T&A must correspond to the length of a pay period. For example, if payment is made for a two-week period, then the T&A must cover a two-week period.

3.2.2. Work Schedules and Alternate Work Schedules (AWS)

3.2.2.1. The work schedule defines the basic work requirement as the number of hours, excluding overtime, an employee must work or account for by charging leave. Generally, a full-time employee's basic work requirement is 80 hours per pay period. Attendance and absence must be consistent with the individual's employment status. The agency must maintain an approved work schedule for each employee showing planned arrival and departure for each day. When an employee's work schedule differs from the agency-wide schedule or reflects an AWS, the supervisor, or the official most knowledgeable of the employee's schedule, must approve it before the period it takes effect. If not approved in advance, the supervisor must approve it as soon after the start of the pay period as possible.

3.2.2.2. Material variances or deviations, as determined by the flexible work schedule, must be approved by the supervisor before the change occurs, or promptly after if not feasible beforehand. Supervisors must verify that the dates and the material variances or deviations have been recorded in the T&A.

3.2.3. Temporary Assignment (TDY)

3.2.3.1. For an employee on TDY, the hours worked and hours of leave must be recorded on the T&A. All time actually spent away from the permanent duty station during the basic workweek must be recorded at the employee's permanent duty station as time worked or leave taken. The travel order must support entries on the T&A for regular time.

3.3 T&A Recording

3.3.1. Scheduled starting and ending times of the day for each employee or group of employees must be established and recorded. The day an employee's shift begins is designated as

the day of work for night and shift-differential purposes. These requirements are modified for employees working a flexible or compressed work schedule under the AWS plans.

3.3.2. T&A approvals must give management assurance that supervisors or other authorized officials know they are accountable for approving an employee's work time and absences. Employees must either initial or sign for indicated absences or submit an approved application for leave. A supervisor may require a medical certificate or other evidence of illness when granting sick leave. The employing activity must retain such certification.

3.3.3. All leave types are charged to the employee by days, hours, or fractions of hours. Timecards must clearly indicate whether annual leave taken is charged against the employee's current leave account or a separate account established for restored leave. The employee's regular leave account is charged unless the annual leave taken is identified as charged to the restored leave account.

3.3.4. Recording Daylight Savings Time

3.3.4.1. Civilian employees working a tour of duty when Daylight Savings Time begins are credited with the actual number of hours worked. The hour lost is charged to annual leave, compensatory time used, credit hours used, or leave without pay, as the employee requests. Employees may also be allowed to work one hour beyond the end of their shift.

3.3.4.2. Civilian employees working a tour of duty when standard time begins are credited with the actual number of hours worked. Time worked in excess of 8 hours, or the regular tour of duty hours, must be paid as overtime, compensatory time earned, or recorded as credit hours.

3.4 T&A Certification

3.4.1. All T&A and supporting documents must be reviewed and approved by the supervisor or designated alternate certifier. The supervisor or designated alternate certifier must understand the responsibility for ensuring report accuracy and must have knowledge of the time worked and absence of the employees for whom approval is given.

3.4.2. Certification, Controls and Approval of T&A

3.4.2.1. The certification of T&A constitutes authorization for the expenditure of Government funds. Each employee's T&A must be certified correct at the end of the pay period by the employee's supervisor, acting supervisor, other equivalent official, or a higher-level manager authorized to act as an alternate certifier. Certification ordinarily must not be made earlier than the last workday of a pay period. When an early cutoff is unavoidable, such as when a legal holiday falls on a Friday or Monday, additional controls must be in place, operating, and

demonstrated in the system design. If the certifier lacks personal knowledge of employees' presence and absence, the certifier must have a reasonable basis for relying on internal controls to ensure accuracy and legal compliance, which must include periodic testing of those controls. Certification of T&A documents must be based on knowledge from personal observation, work output, or timekeeper verification; checking data against other independent sources such as validating starting and ending times of work, using sign-in and sign-out sheets or time clock entries; reliance on other internal controls; or a combination of controls.

3.4.2.2. When an early cutoff is used, additional controls must ensure that any change in certified attendance or absence occurring after the cutoff date is identified and reported before pay computation, or reported for the next pay computation. The employee may initial the corrected entries or submit OPM Form 71, Request for Leave or Approved Absence, or a locally approved electronic leave request, as appropriate.

3.4.3. Approval

3.4.3.1. Approvals must be made individually for each employee, and a signature must accompany each T&A.

3.4.3.2. A single supervisory or designated alternate certifier signature may approve the information recorded for all employees listed on a multiple-employee T&A report only when three prerequisites are met:

3.4.3.2.1. The data elements required by the agency must appear on the report for each employee listed on the report;

3.4.3.2.2. Supporting documents required for the information on the report must be reviewed by the supervisor or designated alternate certifier; and

3.4.3.2.3. The supervisor or designated alternate must initial or sign each page of the report and either sign the last page or enter an approval code into an automated system.

3.4.3.3. When a paperless T&A system is used and T&A data is contained in an electronic file displayed on a terminal, the supervisor may enter a single automated code to approve the information in the file. Before approving the T&A, the supervisor, or designated alternate certifier, must review supporting documents and computerized files. The system must generate a record of any change made to a file when approved by someone other than the original approving official and send it to the original approving official or other designated person.

3.4.4. Certification of the T&A must not be delayed to obtain the employee's initials or signature for requested leave when the employee is unavailable. The employee must submit a

request for leave (OPM Form 71, when required) upon return to duty to confirm the requested leave.

3.4.5. Maintenance and Approval of T&A by Employee

3.4.5.1. Employees may maintain their own official T&A only in the following situations:

3.4.5.1.1. The employee is the timekeeper;

3.4.5.1.2. Employees work flexible hours outside the hours of the timekeeper and supervisor;

3.4.5.1.3. An employee is working alone at a remote site;

3.4.5.1.4. Employees are based at the same location as their supervisors and timekeepers but are frequently away during working hours; or

3.4.5.1.5. When the employing organization determines that individual timekeeping by all employees is warranted, it must maintain documentation demonstrating that the T&A reporting system has sufficient capacity and internal controls to ensure timely and accurate recording of T&A by these individual employees.

3.4.5.2. Employees are generally prohibited from approving their own T&A. Exceptions apply only when it is not feasible for an employee's T&A to be approved by a supervisor. In such cases, the Component head, or designee, must grant official written authorization for the employee to approve his or her own T&A. An employee may be authorized to approve his or her own T&A under the following circumstances: the employee works alone at a remote site for long periods; the employee is based at, but frequently away from, the location of their supervisor and timekeeper during working hours; or the employee is the head of an organization within an agency that has no supervisor on site.

3.4.5.3. To provide reasonable assurance that employees are working when scheduled, supervisors must take reasonable measures (such as occasional telephone calls during scheduled work times, or assessing the reasonableness of output for the time spent) to determine the accuracy of T&A data submitted by individuals who maintain their own T&A. The supervisor is responsible for the accuracy of that data.

3.5 T&A Reporting

3.5.1. T&A data must be transmitted to the payroll system, as required, using positive (100 percent) reporting or exception reporting. Under positive reporting, all T&A data is reported

to the payroll system for each employee. Under exception reporting, only exceptions to the employee's scheduled tour of duty are reported. When reporting to the payroll system by source-data automation, positive reporting is required for each employee.

3.5.2. Regardless of the reporting method, controls must ensure that all required T&A data, including current-period corrections and prior-period adjustments, is properly reviewed and approved by the supervisor and reported in a timely and accurate manner.

3.5.3. If any required T&A data is missing for an employee, the PRO generates a charge against the employee's annual leave balance. If the annual leave balance is insufficient to support the employee's regularly scheduled tour of duty, the PRO must charge any remainder to another leave category to fulfill the scheduled tour. The PRO must correct the employee's pay and leave record upon submission of the certified T&A data.

3.6 Adjustments or Corrections

3.6.1. Adjustments or corrections required because of changes after T&A information was approved must be processed promptly and be traceable to the pay period to which the correction applies. Electronic corrections for current-period corrections and prior-period adjustments must be made per the PRO's established procedural guidance. T&A corrections for pay periods no longer available electronically require a hard copy of the certified T&A for each pay period, certified by the supervisor and forwarded to the PRO, which processes the manual correction. An authorizing official must approve all changes.

3.7 Record Retention

3.7.1. Management may require employees and timekeepers, if any, to attest to or verify T&A information. T&A information that supports financial or cost reporting should be auditable. Employing activities must establish a uniform practice for the locations at which T&A reports and related supporting documentation are maintained. T&A reports, together with approved leave applications, overtime approvals, military orders, jury-duty certification, or other supporting documents, may be retained by the timekeeper or supervisor or sent to a designated storage location.

3.7.2. Sufficient internal controls must be established to prevent unauthorized changes to completed T&A, regardless of where they are retained.

4.0 PAY ADMINISTRATION

4.1 General Provisions on Pay

4.1.1. Pay and Payroll Data

4.1.1.1. Payroll computations must be based on statutorily authorized entitlements per Title 5 U.S.C., Title 5 C.F.R., and other statutory or regulatory requirements stated herein. Payment of any entitlement must be supported by one or more of the following source documents, as appropriate: Standard Form (SF) 50, Notification of Personnel Action and/or other similar personnel documents; certified copies of travel orders; T & A reports, including any necessary supporting documents such as sign-in and sign-out registers or OPM Form 71, Request for Leave or Approved Absence; and authorizations or approvals of overtime and compensatory time worked.

4.1.1.2. If the servicing Human Resources Office (HRO) electronically transmits pay entitlement data from source documents to the servicing PRO, the servicing HRO must send the source documents back to the PRO on request. The servicing HRO must ensure the integrity and accuracy of the pay computation data, establish effective controls, and ensure all data transmits successfully. The servicing HRO must retain source documents, with transmittal and control data, for audit purposes per the National Archives General Records Schedule 2.4.

4.1.1.3. The PROs must ensure an employee's compensation is consistent with their grade, position classification, other entitlements, and employment location. For example, an agency may not pay any foreign area allowances, regardless of authorizing documents, to an employee assigned to stateside duties; the servicing PRO must request the servicing HRO clarify or correct the documents.

4.1.1.4. The servicing PRO must ensure pay computations are based on the completed time and attendance records maintained for each employee. The servicing PRO must complete computations as soon as possible after the close of the pay period.

4.1.1.5. The servicing PRO, the servicing HRO, and the CSR must communicate to ensure all appropriate entitlement information is considered for each pay computation and that computations are supported by the appropriate documentation. At least every 4 months, personnel and pay data must be reconciled and discrepancies corrected. The functional area that entered the incorrect data has primary responsibility for reconciling discrepancies in common data. For additional information, see Section 2.

4.1.2. The servicing HRO must notify the servicing PRO of employee pay changes. The servicing PRO must inform each employee in writing of gross pay changes, total pay, allowances,

deductions, and net pay. The information may be included on the employee's Leave and Earnings Statement (LES).

4.2 Premium Pay

4.2.1. Each employing activity is responsible for controlling overtime. Supervisors must ensure funds targeted for their employing activity will cover overtime worked. Overtime approval or disapproval must be consistent with direction from the Deputy Secretary of War. The employee is paid only approved overtime as certified on the employee's time and attendance report. Normally, employees must request approval to work overtime in writing before performing the work (5 U.S.C. § 5542).

4.2.1.1. An employee must receive advance written approval for compensatory time worked, made per Section 3. Compensatory time off is an alternative form of payment for overtime work. For applying pay cap limitations or liquidating compensatory time, the dollar value of the compensatory time equals the overtime pay the employee would otherwise have received for the same number of overtime hours. Pay limitations apply as follows: Biweekly Premium Pay Cap. If invoking the biweekly cap, an employee cannot receive credit for compensatory time worked if the basic rate of pay equals or exceeds the maximum rate for grade GS-15, step 10, or Level V of the Executive Schedule. An employee whose basic rate is less than the maximum rate of GS-15, step 10, or Level V of the Executive Schedule, may earn compensatory time. However, it may only be credited to the extent that the monetary value of the compensatory time does not cause the total rate of pay to exceed the maximum earnings limitations under 5 CFR 550.106(c). Annual Premium Pay Cap. If invoking an annual premium pay cap, an employee may only receive credit for compensatory time to the extent that the monetary value of the compensatory time does not cause the total rate of pay to exceed the maximum earnings limitations. See 5 CFR 550.106(c). FLSA Considerations. The granting of compensatory time off in lieu of overtime pay under 5 U.S.C. § 5542 must not violate the overtime pay requirements of FLSA. For instructions on compensatory time off for nonexempt employees, refer to 5 CFR 551.531. For FLSA exempt employees, refer to 5 CFR 550.114.

4.2.1.2. When an FLSA exempt or nonexempt employee separates, dies, or transfers to another DoW Component, or moves to a non-DoW agency, the losing Component must pay for any unused compensatory time balances at the overtime rate in effect when the employee earned the compensatory time. Title 32 National Guard technicians are not paid for unused compensatory time. See DoWI 1400.25-V550, 5 C.F.R. 550.114, and 5 C.F.R. 551.531.

4.3 Foreign and Non-Foreign Allowances and Differentials

4.3.1. Foreign Area Allowances and Differentials

4.3.1.1. Within DoW, only three of the five FTA elements are authorized for payment: the miscellaneous expense portion, the lease penalty expense portion, and the subsistence expense portion. DoW does not authorize payment of the wardrobe expense portion or the pet shipment and required quarantine portion. The FTA standard is governed by DSSR Chapter 200, section 240 and DoWI 1400.25-V1250.

4.3.1.2. Within DoW, only three of the five HSTA elements are authorized for payment: the miscellaneous expense portion, the lease penalty expense portion, and the subsistence expense portion. DoW does not authorize payment of the wardrobe expense portion or the pet shipment and required quarantine portion. The HSTA standard, including the required 12-month service-agreement certification, is governed by DSSR Chapter 200, section 250 and DoWI 1400.25-V1250.

4.3.1.3. DoW does not authorize payment of the education allowance. DoW does authorize reimbursement of transportation costs for dormitory-student family members of eligible employees between the overseas duty station and the DoW Education Activity (DoWEA) approved school. The education-allowance standard is governed by DSSR Chapter 200, section 270, 5 U.S.C. 5924, and DoWI 1400.25-V1250.

4.3.1.4. Before a representation allowance is payable, the employee's position must first be designated as eligible by the Deputy Under Secretary of War for Civilian Personnel Policy. A voucher of expenses incurred is the basis for payment. The representation-allowance standard and allowable items are governed by DSSR Chapter 300 and DoWI 1400.25-V1250.

4.4 Other Pay, Differentials, and Allowances

4.4.1. Supervisory Differential

4.4.1.1. Authority to approve supervisory differentials under 5 U.S.C. § 5755 and 5 CFR 575, subpart D is delegated through the DoW Component and its chain of command to the official who exercises personnel-appointing authority (normally the head of an installation or activity). Only the Secretary or Deputy Secretary of War may approve a supervisory differential for an individual appointed to a Schedule C position, as defined by 5 CFR Part 213. The agency may authorize a supervisory differential for a GS employee who supervises one or more non-GS employees when a subordinate would be paid more than the supervisor absent the differential. The DoWI 1400.25-V575 contains additional guidance.

4.4.2. Defense agency employees required by law or regulation to wear uniforms during official duties may be reimbursed a uniform allowance at the rates posted in the DoWI 1400.25-V591. The agency's authorized management official must approve payment of a uniform allowance. Uniform allowances are not considered wages.

4.4.3. Government-Provided Home-to-Work Transportation

4.4.3.1. DoW employing activities must not report on a calendar-year basis. They must report for the 12-month period from November 1 through October 31. The value of benefits received in November and December is considered paid in the next year, as authorized by IRS Publication 15-B.

4.4.4. Under 10 U.S.C. §§ 1596 and 1596a, the Secretary of War may pay FLPP to eligible DoW employees performing intelligence or non-intelligence duties that require foreign language proficiency. FLPP is not basic pay for any purpose and does not count toward retirement, TSP, FEGLI, or any other basic-pay-related benefit, and is not pay for lump-sum leave payments under 5 U.S.C. §§ 5551 or 5552. FLPP is a discretionary, continuing payment for the aggregate limitation on pay. FLPP must not be paid if the employee is in LWOP or other unpaid status for more than 10 consecutive workdays, or in an extended paid absence for more than 30 consecutive workdays.

4.4.4.1. Under 10 U.S.C. § 1596, the Secretary of War determines the annual rate of intelligence FLPP. FLPP may be paid in addition to pay under 10 U.S.C. § 1602. See the DoWI 1400.25-V2016. The Secretary of War may pay special pay to a DoW employee who: has been certified as being proficient in a foreign language identified by the Secretary of War as being a language in which proficiency by civilian personnel of the DoW is important for the effective collection, production, or dissemination of foreign intelligence information; and is serving in a position, or is subject to assignment to a position, in which proficiency in that language facilitates performance of officially assigned intelligence or intelligence-related duties.

4.4.4.2. Under 10 U.S.C. § 1596a, the Secretary of War may prescribe special pay for a DoW employee, but the pay may not exceed 5 percent of the employee's pay. This special pay is in addition to any other pay or allowances to which the employee is entitled. See the DoWI 1400.25-V2016. The Secretary of War may pay this special pay to a DoW employee who: has been certified by the Secretary of War to be proficient in a foreign language identified by the Secretary of War as being a language in which proficiency by civilian personnel of the DoW is necessary because of national security interests, is assigned duties requiring proficiency in that foreign language, and is not receiving special pay under 5 U.S.C. § 1596.

4.5 Recruitment, Relocation, and Retention Incentives

4.5.1. Recruitment Incentive

4.5.1.1. The incentive must be included with regular salary payments and separately identified on the LES.

4.5.1.2. A demotion or separation for cause, or a rating less than "Fully Successful" or equivalent, terminates the service agreement. An employee who fails to complete the service period for these reasons, or otherwise fails to fulfill the agreement, must repay any portion of the incentive attributable to uncompleted service. The servicing PRO prorates the authorized recruitment incentive across the service period to determine the amount attributable to completed and uncompleted service, and must recover the amount owed per the debt collection regulations (see Volume 16). The servicing HRO must notify the servicing PRO of the recruitment incentive repayment or debt via SF 50 data.

4.5.1.3. The servicing HRO must document each recruitment incentive using information derived from an SF 50.

4.5.2. Relocation Incentive

4.5.2.1. The incentive must be included with regular salary payments and separately identified on the LES.

4.5.2.2. If the employee is demoted for cause, separates for cause, or receives a less than "Fully Successful" or equivalent rating, the service agreement terminates. An employee who fails to complete the service period for these reasons, or otherwise fails to fulfill the agreement, must reimburse DoW for all benefits received under the agreement in excess of the amount attributable to completed service. The servicing PRO must prorate the full authorized relocation incentive across the service period to determine the amounts attributable to completed and uncompleted service. The servicing PRO must recover the amount owed per agency debt collection regulations (see Volume 16). The servicing HRO must notify the servicing PRO of the repayment/debt via SF 50 data.

4.5.2.3. The servicing HRO must document each relocation incentive via an SF 50.

4.5.3. Retention Incentive

4.5.3.1. The incentive must be included with regular salary payments and separately identified on the LES.

4.5.3.2. If an employee is demoted for cause, separates for cause, or receives a less than "Fully Successful" or equivalent rating, the service agreement terminates. An employee who fails to complete the service period for these reasons, or otherwise fails to fulfill the agreement, must reimburse DoW for all benefits received under the agreement in excess of the amount attributable to completed service. The employee may retain any retention incentive payments attributable to completed service and is entitled to any portion owed by the agency for completed service. The amount owed must be recovered per agency debt collection regulations (see Volume 16). The servicing HRO must notify the servicing PRO of the repayment/debt via SF 50 data.

4.5.3.3. The servicing HRO must document each retention incentive via an SF 50.

4.5.4. DoW Student Loan Repayment Program

4.5.4.1. The servicing PRO must remit the student loan repayment directly to the lender under the terms, limitations, and conditions of the written service agreement. The payment is made in a lump sum, periodically, or in biweekly installments, and is in addition to basic pay or any other compensation payable to the employee.

4.5.4.2. DoW is not responsible for any late fees or penalties assessed by loan holders before, during, or after the student loan repayment agreement.

4.5.4.3. The servicing HRO must document each student loan repayment action via an SF 50 and must transmit the SF 50 and a copy of the service agreement to the servicing PRO to begin payments.

4.6 Lump-Sum Leave Payments

4.6.1. Computation of Lump-Sum Payment

4.6.1.1. DFAS must pay lump-sum leave at the end of the pay period in which it receives the separation transaction; the payment may or may not be combined with regular pay depending on receipt timing. DFAS must identify the payment separately and apply flat 25 percent federal withholding, except when the exemptions claimed on Form W-4 exceed the regular pay, in which case DFAS must combine the lump-sum leave with the regular pay and compute taxes as a single payment. Lump-sum annual leave payments are not subject to FEHB, FERS, FEGLI, or TSP deductions and are subject to offset for debts owed to the United States (5 CFR 550.1205).

4.6.2. DoW must make a lump-sum payment of restored annual leave under 5 U.S.C. § 6304(d)(3) to any DoW employee moving to a non-DoW federal agency or to a DoW position not located at an installation being closed or realigned, as required by 5 U.S.C. § 5551. The servicing HRO must notify the servicing PRO via SF 50 data when the employee is no longer authorized

restored leave under this authority. The lump-sum calculation uses the rate of pay at the time of separation or transfer to the non-BRAC installation.

4.7 Severance

4.7.1. Payments

4.7.1.1. The servicing PRO must pay authorized severance payments based on the information processed on an SF 50. Severance payments are subject to withholding for income and OASDI/Medicare taxes (5 CFR 550.709(b)).

4.7.2. Severance pay is taxable in the year the employee receives it, is included on the employee's Form W-2, and is subject to government and state withholding. If an employee dies, the servicing PRO must report any severance pay paid to beneficiaries on Form 1099-MISC.

4.7.3. If an agency reemploys a former employee in federal service, severance pay is discontinued effective on the date of reemployment. The losing agency must report the total amounts paid to the gaining activity or agency, which uses that information to track the lifetime severance cap of one year's pay at the rate received immediately before separation (5 U.S.C. § 5595(c)).

4.8 Advanced Pay

4.8.1. Foreign Post Assignment

4.8.1.1. The disbursing officer (or the officer's overseas agent) supporting the servicing PRO for the overseas area must pay foreign-post pay advances; outside the continental U.S., a disbursing officer who is a deputy to the continental U.S. office may pay. Payment may be included in the next regular biweekly pay or made as a single lump-sum. An employee may request an advance 3 weeks before the estimated departure date or up to 2 months after arrival, and must submit the request on the SF 1190, which serves as the request, authorization, and voucher document.

4.8.1.2. The HRO responsible for the employee must verify eligibility for an advance by confirming the travel orders and the pay grade and step at the foreign post. If the HRO does not confirm the foreign pay grade or step, the servicing PRO may use the employee's current gross pay at the time of the advance. The HRO must counsel each eligible employee on the authorized purposes of the advance, repayment requirements, anticipated expenses at the foreign assignment, and application procedures.

4.8.2. Collection of Advance Payments

4.8.2.1. Repayment is collected by payroll deduction over a maximum of 26 pay periods. Deductions must begin the first pay period after receipt of the advance or after arrival at the foreign post, whichever is later. The losing agency must forward a copy of the SF 1190 to the gaining PRO for collection.

4.8.2.2. The servicing PRO may accept partial or lump-sum repayments in addition to payroll deductions.

4.8.2.3. When an employee separates or transfers, the outstanding advance balance is due in full. Advances are recoverable from the employee or the employee's estate by deduction from accrued pay, retirement credit, other amounts due from the Government, or other methods provided by 5 U.S.C. § 5514 and 31 U.S.C. § 3716.

4.8.2.4. The Defense Debt and Claims Management Office, DFAS Indianapolis Center, may waive the Government's right of recovery of an erroneous pay advance per DoWI 1340.23 and 5 U.S.C. § 5584.

4.8.3. Other Requirements or Conditions for Advances

4.8.3.1. An employee is authorized only one outstanding advance at a time, regardless of how often assigned to a foreign area. An employee who becomes eligible for a second advance must liquidate the first advance before requesting the first payment of the second.

4.8.3.2. More than one member of a household may be eligible for an advance.

4.8.3.3. Allotments and assignments of advances are not authorized.

4.8.3.4. Advances are paid to employees of another federal agency on a reimbursable basis only if an agreement exists between that agency and DFAS to make similar payments to DoW employees.

4.8.3.5. The servicing office may require the employee to submit statements and documents establishing the need for, and use of, an advance.

4.8.3.6. Management must develop controls to ensure only authorized employees obtain an advance and that complete accountability procedures exist for the disbursement and collection of pay advances. Accounting records must include current, accurate, and complete records of obligations, receivables, and collections.

4.8.4. Agencies may authorize an additional advance payment when circumstances warrant and the employee has not received the maximum possible advance for the employee's pay grade. Exceptional circumstances include a substantial understatement of the maximum advance authorized, inadequate or inappropriate counseling on the purpose of the advance, and unforeseeable events significantly increasing the employee's cash-outlay needs at the foreign assignment location.

4.8.5. The head of an agency may provide for advance payment of basic pay to a newly appointed employee (5 CFR 550.203). DoW delegates this authority to officials who exercise personnel-appointing authority (normally the head of an installation or activity), through and subject to the DoW Component heads, to be used on a case-by-case basis (DoWI 1400.25-V550).

4.9 Awards

4.9.1. General Title 5 U.S.C., Chapter 45

4.9.1.1. A time-off award cannot be transferred between DoW Components or outside DoW. Managers and supervisors should ensure the employee can use the award before leaving the granting Component. DoW Components may establish procedures to accommodate the transfer of time-off awards within their respective Components. A time-off award cannot be converted to a cash award, and unused awards are lost when an employee separates or transfers to another agency or component (5 CFR 451.104(f)).

4.9.1.2. The servicing HRO must process awards on an SF 50 and issue them to the servicing PRO as authorization for payment of cash awards or granting of time-off awards. Awards are paid in the same manner as the employee's net pay and are not distributed to the worksite.

4.9.1.3. Time-off awards must be posted to the employee's record and reduced when the time off is taken or forfeited. Use of a time-off award reported before notification of the award must be reflected as a negative balance in the civilian payroll system. If the servicing HRO does not post a time-off award to the employee's record within two pay periods of a negative balance appearing in the civilian payroll system, the use is treated as a time-and-attendance error.

4.9.2. Payment of Awards

4.9.2.1. Cash award payments are subject to federal, state, and local income tax withholding. The civilian payroll system automatically applies the IRS supplemental-wage federal withholding rate (set by the IRS; see IRS Publication 15) to these special earnings. The servicing PRO must compute applicable state, local, and OASDI/Medicare withholding from the employee's

current master record, and must not withhold state and local taxes for employees assigned to overseas duty locations unless the employee requests it.

4.9.2.2. To pay an award to a separated employee, the agency must reestablish the employee on the payroll using the last known master account record information for applicable deductions and mailing address.

4.9.2.3. Cash award payments must be included on the employee's LES and Form W-2.

5.0 MANDATORY DEDUCTIONS

5.1 Mandatory Deductions

5.1.1. Mandatory payroll deductions withheld from a DoW employee's pay must include sufficient information to establish the deduction, adequate documentation and certification, payment to the appropriate recipient for the correct amount, and a provision of law or court order supporting the deduction.

5.1.2. DFAS must retain deduction authorizations in the PRO or at a designated storage site per National Archives General Records Schedule 2.

5.2 Order of Precedence

5.2.1. Available Pay

5.2.1.1. If the next deduction in the order of precedence is a mandatory deduction, the PRO must use the remaining available pay to make a partial deduction, and the employee's net pay is then zero.

5.2.1.2. If the next deduction in the order of precedence is a voluntary deduction, the PRO must not make that deduction or any later deduction, and must pay the employee's remaining available pay as net pay.

5.3 Retirement Deductions

5.3.1. Civil Service Retirement System (CSRS), CSRS-Offset, and Federal Employees Retirement System (FERS) Administration and Recordkeeping

5.3.1.1. When the PRO receives notification of an employee's death, the PRO must send the IRR to OPM within 5 days of the date final pay is computed. OPM must receive the deceased employee's records and associated applications within 30 days from the date of death.

5.3.1.2. IRRs not maintained in a mechanized manner must be stored in a lockable metal file cabinet or a secured facility with access limited to employees whose official duties require it. Manually maintained IRRs must be posted manually, then stored electronically and kept separately from the record itself, per OPM requirements.

5.3.1.3. Manual records must be disposed of by shredding.

5.3.1.4. More than one IRR may be submitted with an SF 2807/3103. The PRO must not delay transmitting completed retirement records while preparing other IRRs for forwarding to OPM.

5.3.1.5. When possible, correct any errors detected on the IRR before submission to OPM. If an error is detected after the IRR is sent to OPM, prepare an SF 2806-1 (CSRS) or SF 3101 (FERS), Notice of Correction of Individual Retirement Record.

5.3.1.5.1. If a retirement over-deduction occurs from a current employee's pay, the PRO must make an adjustment during the next payroll cycle: decrease the current retirement deductions from the employee's current pay-period earnings and make a corresponding adjustment in the employer's contributions.

5.3.1.5.2. If a retirement under-deduction occurs, or deductions were not made for a period when an employee was covered by CSRS or FERS, the employee must be afforded due process rights before being indebted for the erroneous pay (see Volume 16). If deductions were made for a non-appropriated fund (NAF) retirement plan when CSRS or FERS deductions were required, the PRO must adjust the NAF retirement and Social Security deductions and contributions in the next pay period, offsetting these amounts against what should have gone to CSRS or FERS to determine the net amount to withhold from the employee's current-period pay.

5.3.1.5.3. When excess retirement amounts have been deducted from a former employee's pay and the IRR SF 2806 (CSRS) or SF 3100 (FERS) has not yet been forwarded to OPM, the PRO must correct the amount in the current calendar year and correct the accumulated deductions posted on the SF 2806/3100 before forwarding to OPM.

5.3.1.5.4. If a retirement over-deduction is found after the SF 2806/3100 was sent to OPM, the PRO must prepare and submit the SF 2806-1/3101 to OPM.

5.3.1.5.5. If an over-deduction from a former employee's pay results in excess employer retirement contributions, the PRO must deduct the excess from the next pay period's submission of the Retirement and Insurance Transfer System (RITS) file.

5.3.1.5.6. When an insufficient retirement amount has been deducted from a former employee's pay and the SF 2806/3100 has not yet been submitted to OPM, the PRO must note the deficiency on the SF 2806/3100. If the SF 2806/3100 has been submitted, the PRO must prepare another SF 2806/3100 annotated "Supplemental" in the upper left margin.

5.3.1.5.7. When an under-deduction from a former employee's pay results in insufficient employer retirement contributions, the PRO must normally include the shortfall in the RITS file for the next pay period.

5.3.1.5.8. When excess retirement amounts have been deducted from a transferred employee's pay and the SF 2806/3100 has not been forwarded to OPM, the PRO must correct the amount in the current calendar year and correct the total accumulative deductions posted on the SF 2806/3100 before forwarding.

5.3.1.5.9. If a retirement over-deduction is found after the SF 2806 was forwarded to another PRO within DoW, the PRO must prepare and submit an SF 2806-1 to the gaining PRO.

5.3.1.5.10. When an over-deduction from a transferred employee's pay results in excess employer retirement contributions, the PRO must deduct the excess employer contributions from the RITS file for the next pay period.

5.3.1.5.11. When an insufficient retirement amount has been deducted from a former employee's pay and the SF 2806 has not yet been forwarded to another PRO within the same component, the losing PRO must note the under-deductions on the SF 2806. The losing PRO must prepare and forward a supplemental SF 2806 to the gaining PRO if the SF 2806 was previously submitted.

5.3.1.5.12. The PRO must correct the "Service History" portion of the SF 2806 if the error is detected before the record is sent to another PRO within the same component. If the error is detected after the record is submitted, the losing PRO must prepare and submit an SF 2806-1 to the gaining PRO.

5.3.1.5.13. The PRO must report CSRS or FERS deductions withheld from a retroactive salary payment for a separated employee by preparing a supplemental SF 2806/3100 and forwarding it to OPM on an SF 2807/3103.

5.3.1.5.14. For a current employee, the PRO must include CSRS or FERS deductions withheld from a retroactive salary payment in the current-year salary deduction on the SF 2806/3100 maintained for the employee.

5.3.1.5.15. A losing PRO must report CSRS or FERS deductions withheld from a retroactive salary payment for an employee transferred to another PRO within the same component by preparing a supplemental SF 2806/3100. The losing PRO must send the SF 2806 to the gaining PRO on an SF 2807. The losing PRO must send the SF 3100 to OPM on an SF 3103.

5.3.1.6. Employee deductions and employer contributions for CSRS or FERS must be reported separately to OPM each pay period. PROs reporting to OPM via the RITS must report deductions and contributions per the procedures in Section 10. Employer contributions must be charged to the appropriation(s) from which the employee's salary is paid.

5.3.2. DoW Employees Covered by Retirement Systems for Non-Appropriated Fund Instrumentalities (NAFI)

5.3.2.1. Employees who elect to retain coverage under a NAF retirement system must have their SF 50 annotated as "5-Other" for the retirement code. The SF 50 must state that the employee has elected to retain coverage under a NAF retirement system.

5.3.2.2. Employee retirement deductions, employer contributions, employee contributions to applicable 401(k) plans, and loan repayments must be made biweekly and submitted to the appropriate NAF employee benefit system. FICA contributions must be withheld and reported per current U.S. Department of the Treasury guidance.

5.3.3. Uniformed Services University of the Health Sciences (USU) Faculty Retirement

5.3.3.1. A total of 15 percent of the employee's total salary must be contributed to the employee's selected retirement plan (TIAA/CREF or Fidelity Investments): USU contributes 10 percent and the employee contributes a mandatory 5 percent through payroll deduction.

5.3.3.2. Part-time employees, visiting foreign employees holding H-1 and J-1 visas, faculty whose titles carry the prefix "Visiting," Visiting Scientists, and Postdoctoral Fellows are not eligible to participate in TIAA/CREF or Fidelity Investments upon employment with USU.

5.4 Federal Insurance Contributions Act (FICA) Tax

5.4.1. Authority

5.4.1.1. If an employee transfers between DoW Components, the gaining PRO must count Social Security and/or Medicare taxes already deducted by the losing PRO so as not to exceed the maximum Social Security and/or Medicare tax liability due for that payroll year. On a transfer, the PRO must include Social Security and/or Medicare year-to-date wages and taxes on the SF 1150, Record of Leave Data.

5.5 Federal Income Tax Withholding (FITW)

5.5.1. General

5.5.1.1. An EIN, assigned by the appropriate IRS District Director, identifies the tax accounts of employers. Only one EIN per Payroll Office (PRO) is authorized to report all federal and Social Security and/or Medicare taxes. The PRO must collect federal and Social Security and/or Medicare taxes from employee wages and report all taxes using IRS Form 941, Employer's Quarterly Federal Tax Return. For withholding and reporting guidance, consult the current Circular E.

5.5.2. If an employee submits a new W-4, the PRO must change the withholding effective the next pay period. Retroactive adjustments are not permitted, even if the employee claims the W-4 on file is erroneous and submits a corrected one.

5.5.3. As forms become superseded or obsolete, the PRO must move them from the active file to an inactive file. The PRO need not send IRS forms such as the 941 or W-4 to the IRS District Director, but must, on request, show that the information is on file as a supporting record.

5.5.4. Tax Payments - Payment of Withheld Tax

5.5.4.1. The PRO that makes the tax collection must prepare and issue the W-2 to the employee.

5.5.4.2. The disbursing office must disburse all withheld taxes based on the information the PRO provides and the payroll frequency. It remits federal income, Social Security and/or Medicare taxes withheld from wages, plus the employer's Social Security and/or Medicare contributions, through EFTPS.

5.6 State Income Tax Withholding (SITW)

5.6.1. Withholding Authority

5.6.1.1. DoW requires employees to complete a withholding certificate as the basis to properly withhold state taxes. The certificate must specify whether the employee is subject to the tax, the employee's residence and regular place of employment, and any exemptions and allowances. The certificate remains in effect until the employee submits a new one. If an employee does not furnish a withholding certificate for a designated state, the PRO must withhold the maximum amount applicable to the employee's annual compensation.

5.6.1.2. The state, city, or county income or employment tax withheld from the compensation of an employee or member of the Armed Forces must, at a minimum, approximate the tax required to be withheld. The PRO may accomplish withholding by one of the following methods: applicable tax withholding rate(s) specified in the state, city, or county instructions; any other percentage or formula method; or a calculated, fixed amount deducted each pay period from the compensation of the employee.

5.6.1.3. Reciprocal agreements between states may modify state withholding requirements; they generally relieve nonresident employees of tax liability to the state of employment and relieve the employer of the duty to withhold. Agencies must conform to the withholding provisions of applicable Treasury-state and reciprocal agreements. If an employee is subject to withholding in more than one state, the PRO must use separate deduction codes to identify the tax remittance for each state.

5.6.1.3.1. Reciprocal agreements between states may affect automatic withholding by duty station. In all disputed cases, the PRO must withhold tax and advise the employee to negotiate the tax liability directly with the proper taxing authority.

5.6.1.4. When a state provides for discretionary allotment withholding, the PRO must withhold state taxes only for employees who have a legal obligation to pay and who elect such withholding. This applies whether or not Treasury has a withholding agreement with the state.

5.6.1.4.1. Employees must request the allotment on a proper withholding certificate.

5.6.1.4.2. Employee tenure does not affect the allotment.

5.6.1.5. Employees located in foreign areas must determine the need for state and local taxes. Before submitting a request, the PRO must advise the employee to:

5.6.1.5.1. Obtain assistance from the employing activity legal staff available to him or her; or

5.6.1.5.2. Contact the appropriate state or local income tax office about the applicability of withholding taxes while on an overseas assignment, preferably before departure from the continental United States (CONUS). If the employee determines a withholding liability applies, the PRO must honor the request.

5.6.1.6. The PRO must comply with the agreement, regulations, and instructions of the state concerned.

5.6.1.6.1. The PRO must base the allotment amount on either the amount (in whole dollars) set by an employee; or the withholding certificate filed by an employee and the state withholding tables or formulas.

5.6.1.6.2. The PRO must pay withheld state income taxes to each state concerned as that state prescribes.

5.6.1.7. Employees are subject to mandatory withholding under Treasury-state withholding agreements, but an employee may claim exemption under certain conditions. The PRO must require the use of state-furnished tax exemption certificates, if available; and give the employee's name, SSN, and basis for the claimed exemption to the designated taxing state official.

5.6.2. The PRO must send W-2 copies to states that have negotiated agreements with the Secretary of the Treasury for employees subject to mandatory state withholding or who may elect withholding under state law (see TFM, Volume 1, Part 6, Chapter 5000).

5.6.2.1. The PRO must record the amounts withheld each pay period on the employee's pay record when a special payment occurs; otherwise, the system automatically updates the records.

5.6.2.2. The PRO must compute the total of withheld state taxes and deposit it per Treasury's Federal Account Symbols and Titles (FAST) Book II, crediting the appropriate deposit account regardless of the employee's employing activity.

5.6.2.3. The PRO must correct a clerical error from a prior pay period in the current calendar year if the employee is still on the payroll. For an under-deduction, the PRO must follow due process to collect the taxes paid on the employee's behalf; for an over-deduction, the PRO must refund the over-deducted amount on the next regular payroll cycle. The PRO must not make any adjustment if the employee is no longer on the payroll or the error was in a prior calendar year.

5.6.2.4. The PRO must comply with the state's current tax law on payment frequency (biweekly, monthly, or quarterly) and must not make payments more often than the state requires.

5.6.2.5. The disbursing officer must issue payment based on an approved voucher prepared by the PRO, and the PRO must prepare the required tax payment documents.

5.6.2.6. The PRO must balance the amounts reported on each state W-2 with year-to-date control totals for state taxes withheld and state taxable wages. These amounts must balance before the W-2s are distributed to employees and forwarded to the states.

5.6.2.7. Collection of a state or local government tax levy is authorized by 5 CFR Part 582. The DFAS Cleveland center is the designated agent to accept legal process for DoW civilian employees for state or local tax levies. Send all state income tax liens to: DFAS Garnishment Law Directorate, P.O. Box 998002, Cleveland, OH 44199-8002.

5.6.2.8. DoW Components must advise employees that information returns will be sent to the state and other taxing authorities of the employee's place of employment (and, in some cases, place of residence) when those authorities request the information. Components may release only information properly releasable under the Privacy Act of 1974 (5 U.S.C. § 552a) or the applicable notice of routine use.

5.6.2.9. The PRO must retain the following records of state tax deductions: the EIN assigned by the state; the amounts and dates of all payments and wages subject to state tax withholding; employees' names, addresses, and SSNs; and the dates and amounts of tax deposits made.

5.6.2.10. The HRO must retain the employee's state withholding allowance certificate, kept until superseded or canceled, and the dates of employment.

5.7 City and Local Income Tax Withholding

5.7.1. Withholding of city, county, or employment tax from federal employees subject to tax whose regular place of federal employment is within a city or county that has a proper agreement with the Secretary of the Treasury is authorized by 5 U.S.C. § 5520; withholding is also required if the employee is a resident of the city or county. Each DoW employee must complete a city or local tax withholding certificate as the basis for proper withholding, and an out-of-state employee's consent to withholding is required when applicable.

5.7.1.1. The PRO must apply the policies and procedures prescribed for each state when determining the employee wages subject to mandatory city and county withholding.

5.7.1.1.1. The PRO must withhold tax from the wages of federal employees who reside in cities or counties that have entered into withholding agreements.

5.7.1.1.2. The PRO must withhold tax from the wages of federal employees whose regular place of federal employment is within a city or county where they are subject to tax. Employees who reside in a state other than the state in which the city or county is located are exempt from mandatory withholding.

5.7.1.1.3. Where local ordinances tax only wages for services performed within the city or county (in most cases only for non-resident employees), an employee eligible to exclude part of annual income must submit a withholding certificate specifying the amount or

percentage, and the PRO must reduce withholding accordingly. If the employee does not file a certificate, the PRO must withhold tax based on the employee's total compensation. The PRO must not adjust withholding if the employee performs less than 25 percent of services outside the city or county.

5.7.1.2. Employees must submit withholding certificates and provide all information needed to deduct city or county income taxes. If an employee does not provide a certificate, the PRO must withhold tax at the highest level that applies to the employee's annual wages. The PRO must not withhold any tax from the wages of out-of-state employees until they present a form consenting to withholding.

5.7.1.3. Employing activities may use a withholding or exemption certificate furnished by a city or county only if it contains all required information. If the form is incomplete, employing activities may use Treasury's Fiscal Service (FS) Form 7311, Employee Withholding Certificate for Local Taxes (see TFM, Volume 1, Part 6, Chapter 5000).

5.7.1.4. An employee who does not reside in the state where the city or county (place of employment) is located is exempt from mandatory withholding; the PRO may withhold tax with the employee's consent, and the employee must submit a withholding certificate.

5.7.1.5. Employees may make discretionary allotments for the payroll deduction of taxes of their city or county of residence when employed outside that location. Withholding taxes for the city or county of employment does not affect the employee's discretionary allotment.

5.7.1.5.1. An employee may make a discretionary allotment for withholding even if the city or county does not have a withholding agreement.

5.7.1.5.2. The PRO must set the allotment amount by the city or county withholding method or deduct a whole-dollar amount set by the employee, and the employee must submit a proper withholding certificate.

5.7.1.6. The PRO must account for discretionary tax deductions as prescribed for mandatory withholdings.

5.7.1.7. The PRO must withhold tax by one of these methods: the city or county tax withholding rate set in the city or county instructions; the prescribed percentage or formula method; or a set amount computed and deducted from the employee's pay each pay period.

5.7.1.8. The PRO must deduct, at a minimum, an amount nearly equal to the tax required by the city or county.

5.7.2. The PRO must record amounts withheld each pay period in the employee's pay record when a special payment occurs; otherwise, the system automatically updates the record.

5.7.2.1. The PRO must compute the withheld city or county income tax (below state or territorial tax) and the total amount withheld each pay period, and credit the withheld tax to the appropriate deposit fund account for city and county tax.

5.7.2.2. The PRO must apply the same instructions used for the withholding of state taxes when correcting city or county tax errors.

5.7.2.3. The PRO must apply the same instructions used for paying out withheld state tax when paying out withheld city or county tax.

5.7.3. Recordkeeping

5.7.3.1. The PRO must keep all records of city or county income tax deductions, including the EIN assigned by the city or county; the amounts and dates of all wages subject to city or county tax withholding; employees' names, addresses, and SSNs; the dates and amounts of city or county tax paid; and copies of all returns filed.

5.7.3.2. The employing activity must retain city tax withholding authorization certificates for each employee until superseded or canceled. When a DoW employee's gross pay is not sufficient to permit all required deductions, deductions must be withheld in the order of precedence: (1) defined benefit retirement deductions (CSRS, FERS, CSRS-Offset, Title 32 National Guard, NAFI employee retirement contributions); (2) OASDI (Social Security, under FICA); (3) Medicare tax (under FICA); (4) federal income tax; (5) health insurance premiums; (6) basic group life insurance premiums (FEGLI, state life insurance); (7) state income tax; (8) local income tax; (9) collection of debts owed to the United States (continuous levy under the Federal Payment Levy Program, salary offsets); (10) court-ordered collection/debt (child support, alimony, bankruptcy, commercial garnishments); (11) optional benefits (see Section 12); (12) other voluntary deductions and allotments; and (13) IRS paper levies. The taxability of each compensation type and the annual FICA rates and maximum taxable earnings are set each calendar year by the Social Security Administration.

6.0 LEAVE AND OTHER ABSENCES

6.1 General Requirements and Responsibilities

6.1.1. PROs and payroll systems areas must meet the following objectives: maintaining leave records and balances for each employee as provided in paragraph 6.1.3, Recording accrued and accumulated leave. Accrued leave is leave earned by an employee during the current leave year that is unused at any given time in that year. Accumulated leave means unused leave

remaining to the credit of an employee at the beginning of the leave year, reporting all leave taken, and reporting accurate data on leave use and accruals in order to simplify the collection of leave-related debts and preparation of financial reports.

6.1.2. A leave record must be maintained for each employee to show: rate of accrual for each type of leave, hours or days accrued, and type of leave used, hours or days of leave advanced by leave type, and leave balances.

6.1.3. Rate of Leave Accrual

6.1.3.1. To ensure proper accrual rates, the civilian payroll system must contain accurate information on each employee's type of appointment and the types of leave hours or days to which the employee is entitled. The system must accurately record leave earned for each type of leave using the correct rates effective for the proper times.

6.1.3.2. Annual and sick leave earned for each pay period must be posted to the employee's leave record. The leave record must also reflect all leave used during the same pay period.

6.1.4. To support the time and attendance record, employees must request approval of leave. The supervisor or other designated official should approve leave before it is taken. If leave cannot be approved in advance due to an unusual or emergency situation, the supervisor should review it for approval or disapproval as soon as possible after it is taken. See GAO-03-352G, Maintaining Effective Control over Employee Time and Attendance Reporting. Supervisors designated to approve leave must document leave used in writing, showing the dates, times, and types of leave taken.

6.1.5. Heads of DoW Components and their designees may establish minimum charges for leave per DoWI 1400.25-V630. The minimum charge for leave is 1 hour unless an agency determines a need for a minimum charge of less than 1 hour or establishes a different minimum charge through negotiations. In any case, the agency may not charge for leave in increments of less than 6 minutes. See 5 CFR 630.206.

6.2 Annual Leave

6.2.1. General Annual

6.2.1.1. To ensure proper documentation of leave, any annual leave earned must be posted to the employee's record in a pay period before charging the leave taken during the same pay period.

6.2.2. Restoring Forfeited Annual Leave

6.2.2.1. If restoration is based on exigency of the public business, DoW must delegate the responsibility for determining that a need is important enough to prevent use of annual leave subject to forfeiture to the lowest practical level. Those who approve exigencies must establish termination dates for the exigencies. See 5 CFR 630.305, 5 CFR 630.306(a)(2), and DoWI 1400.25-V630.

6.2.2.2. The payroll system must maintain separate restored leave accounts for each calendar year. The servicing Human Resources Office (HRO) must identify the reason for restoration and the category of leave restored and provide that information to the CSR in writing. DoW must credit restored annual leave to a separate leave account that identifies the date of restoration, the date of forfeiture, the amount credited for use, the amount of usage, and the unused balance. Restored annual leave is not included in, and does not increase, the maximum annual leave carryover for an employee. See 5 U.S.C. § 6304(d)(2).

6.3 Administrative Leave (Excused Absence)

6.3.1. Employees serving as blood donors may be excused from work without charge to leave for the time necessary to donate blood, for recuperation after donation, and for necessary travel to and from the donation site. This provision does not cover an employee who gives blood for personal use or receives compensation for giving blood.

6.3.2. If an employee is unavoidably or necessarily absent for less than one hour, or tardy, the agency may, for adequate reason, excuse the employee without charge to leave.

6.3.3. An employee may be granted excused absence to take an examination (for example, the certified public accountant examination) in their functional area if securing the certification or license would enhance the employee's professional stature and benefit the DoW. This provision does not cover time spent preparing for such examinations.

6.3.4. Employees may be excused to attend conferences or conventions when it is determined that the attendance will serve the best interest of the Federal service. Such absences may be restricted to situations in which the employee is an official representative of the organization involved or is a contributor on the agenda. Employees may not be excused to attend conferences or conventions of political parties or partisan political groups or committees.

6.3.5. Representative leave hours must be reported using 4 separate categories: term negotiations, mid-term negotiations, dispute resolution, and general labor-management relations. Absence charged as representative leave may be subject to local negotiated agreements or supervisory approval.

6.3.6. Employees authorized a PCS move within DoW may be granted excused absence before departing the old duty station and after arriving at the new duty station to accomplish personal tasks resulting from the move (for example, to open or close personal bank accounts or to obtain driver's licenses or car tags). Employees coming to the DoW from other federal agencies may also be granted excused absence after being placed on the DoW employment roll. This provision does not cover time involved in complying with PCS requirements such as obtaining passports and vaccinations, meeting government housing authority requirements, or being present for packing and receiving household goods. Accomplishing tasks conditional to the PCS is considered official duty.

6.3.7. Employees under notice of separation or change to lower grade for any reason except personal cause may be granted excused absence for job searches and interviews. Employees competing for positions within DoW may also be granted excused absence for merit placement interviews.

6.3.8. Excused absence may be granted to permit an employee to attend the initial counseling session (for example, drug, alcohol, or financial) resulting from a referral under the Employee Assistance Program. This provision does not include the official duty status an employee is in during the initial referral to the Employee Assistance Program.

6.3.9. Excused absence may be granted to employees participating in management-sponsored volunteer projects (for example, education mentorship or tutoring programs). This provision does not apply to time spent on volunteer activities not sponsored by management. Volunteer activity not sponsored by management may be promoted through established leave programs and the flexibility offered through alternative work schedules.

6.3.10. Excused absence may be granted to employees to assist in emergency situations declared by, or requested from, authorized officials. This provision does not cover employees who respond to emergencies in National Guard or Reserve status.

6.3.11. Excused absence may be granted to an employee to undergo medical examinations required by appropriate military authorities for enlistment or induction into the Military Services. This provision does not cover travel time outside the commuting area or situations in which the employee receives military compensation, can use military leave, or undergoes additional tests, examinations, or treatments for conditions discovered or suspected as a result of the examinations.

6.3.12. Invited Medal of Honor holders may be granted excused absence to attend or participate in events such as the inauguration of the President of the United States, Congressional Medal of Honor Society conventions, and services on Memorial Day or Veterans Day.

6.4 Court Leave and Jury Duty

6.4.1. When an employee is called for court service as a witness or juror, the employee must present the court order, subpoena, or summons, if one was issued, to the supervisor as far in advance as possible.

6.4.2. Certificate of Attendance and Collection of Fees Paid

6.4.2.1. Unless otherwise allowable under this section, an employee in a pay status may not retain fees received for jury duty or witness services. The employee must submit any fees received to their employing activity by money order or personal check.

6.4.2.2. The employee must also submit a certificate of attendance from the clerk of the court to the employing activity. The certificate must show the dates of jury duty or witness service and the amount of fees the court paid, separately identifying fees and other allowances or expenses. If the certificate does not identify allowances separately, all monies received are treated as fees for jury duty or witness service and must be collected.

6.4.3. If fees are paid incorrectly to an employee serving in a nonofficial capacity, the employee may not retain the fees. The employee must turn the fees in to the CSR at the employing activity.

6.4.4. Monies submitted to the CSR for jury duty or witness service fees must be accounted for on a DoW (DD) Form 1131, Cash Collection Voucher. The servicing PRO must credit these monies to the appropriation and accounting classification that paid the employee's salary during the jury duty or witness service. See 5 U.S.C. § 5515.

6.4.5. Fees not submitted in a timely manner are subject to payroll deduction. The payroll deduction to collect the fees must be made in the next regular pay period. See 5 U.S.C. § 5515.

6.5 Shore Leave

6.5.1. The time and attendance report must reflect shore leave taken.

6.6 Military Leave

6.6.1. Military Leave

6.6.1.1. If a civilian employee changes their tour of duty from part-time to full-time in the middle of the FY, the servicing PRO must determine the number of days of military leave the employee used during that FY. For an employee who increases the hours in their workweek, the days of used leave are subtracted from the days authorized under the current tour of duty.

6.6.2. To substantiate all types of military leave charges, the employee must submit a copy of their military orders or other documentation directing them to report to active military duty. On return to civilian status from military leave, the employee must submit a certified verification of attendance. If an employee has separate sets of orders, or orders covering separate periods with a return to civilian status between them, military leave must not be charged for the time the employee is in civilian status.

6.7 Furlough

6.7.1. Shutdown Furlough

6.7.1.1. Public Law 116-92 authorizes employees to receive retroactive pay in a shutdown furlough. If a furlough occurs mid-pay-period and an employee receives a partial paycheck, the servicing PRO must apply deductions using the order of precedence in Section 5, Table 4-1. Furloughed employees receive pay for any hours worked before the lapse in appropriations.

7.0 MISCELLANEOUS ACTIONS (SPECIAL ACTIONS)

7.1 Unemployment Compensation for Federal Employees (UCFE)

7.1.1. Employing Activity Responsibilities

7.1.1.1. The PRO must provide exact wage data through the HRO to the SESA so the SESA can determine the former employee's weekly and maximum unemployment benefit amounts. The PRO must accurately report all monetary information affecting the claim, such as lump sum annual leave payments, severance pay, annuity pay, or incentive pay.

7.1.1.2. The servicing HRO is the central point of contact for all UCFE matters. The PROs must refer all inquiries they receive (such as state queries, telephone calls, and requests for UCFE documentation) to the servicing HRO. The servicing HRO must contact the PRO for any additional information.

7.1.2. On receipt of the ETA 931, the HRO must report the employee's non-pay status to the SESA, including the LWOP starting and ending dates and any other pertinent data. For non-pay status of more than 30 days, the SF 50 provides the LWOP information; for LWOP of 30 days or less, the biweekly interface extract provides it to the HRO. The HRO must indicate whether an employee on LWOP is awaiting an on-the-job injury approval or disability retirement from the Office of Workers' Compensation Programs (OWCP). If an employee is awaiting an OWCP determination, the SESA is responsible for contacting the OWCP for any data it needs.

7.2 Claims from Employees for Additional Compensation

7.2.1. Claims Submission

7.2.1.1. The PRO may approve and pay claims received from the claimant when there is no question of law or fact.

7.2.1.2. The PRO must act on any claim it receives from OPM, including claims originally received by the DCMO and forwarded to OPM for final review, per the instructions in the letter or order transmitting the claim. The PRO must pay any resulting amount as part of the regular payroll.

7.2.1.3. Claims not received through OPM that the PRO denies administratively must be returned to the claimant with a letter explaining in detail why the claim was disapproved. If the employee appeals, the PRO must forward the claim to OPM via the DCMO with a transmittal letter the PRO prepares.

7.3 Back Pay Under 5 U.S.C. § 5596 (The Back Pay Act)

7.3.1. General

7.3.1.1. The HRO must determine an employee's entitlement to back pay and document the determination in the Remarks section of the SF 50.

7.3.1.2. If a settlement agreement or order uses an undefined term of art like "back pay" without defining it, DFAS will apply the regulatory or statutory definition and process the back pay under the Back Pay Act unless the agreement or order expresses a contrary intent.

7.3.2. Correcting an Unjustified or Unwarranted Personnel Action

7.3.2.1. When an employee has been separated, DoW must complete corrective action on the date DoW reasonably sets for the employee's return to duty and must notify the employee of the return date in writing. Until that date, the erroneous action remains in effect. If the employee fails to report on the date set, DoW may charge annual leave, LWOP, or absence without leave from the date set for return until the employee returns to work. An employee who resigns instead of returning to duty is still entitled to back pay up to the date the employee is considered separated from federal service, since there is no requirement that the employee return to duty.

7.3.3. Deductions of Erroneous Payments From Back Pay

7.3.3.1. The PRO must transfer the recovered annuity amount to the retirement system.

7.3.3.2. The order of precedence for deducting erroneous payments from back pay awards, when the net amount of back pay is insufficient to cover all the deductions, is as follows: retirement annuity payments, refunds of retirement contributions, severance pay, then any lump sum payment for accrued annual leave.

7.3.4. Back Pay and Offsetting UCFE

7.3.4.1. If a reinstated employee is entitled to back pay, the HRO must determine whether the employee applied for unemployment compensation via the UCFE program within the last 52 weeks. If the employee applied for or received unemployment compensation, the HRO must promptly notify the SESA of the back pay payment date, the amount, and the period covered.

7.3.4.2. DoW will not deduct unemployment compensation paid during the back pay period from the back pay award unless state law requires the employer (rather than the employee) to reimburse the state for overpayments. A state agency may also determine an overpayment occurred and notify the federal government as the employing agency. See 65 Comp Gen 865 (1986) and DoWI 1400.25-V850.

7.3.5. Tax Withholding and Reporting in Back Pay Matters

7.3.5.1. A settlement or order may require an employing agency to issue a lump sum payment to the employee in lieu of back pay or as an award of damages. To ensure proper tax reporting and withholding, employing agencies must identify the nature of each lump sum payment as wages or non-wages. The PRO must review the nature of the payment before processing and must contact the agency if the identity or apportionment of the payment is in question.

7.3.5.1.1. If a settlement or order requires an employing agency to pay a lump sum and the payment is not clearly identified as damages or attorney fees, the payment is generally considered wages for tax purposes. A lump sum representing wages must be submitted to the PRO as an individual award to ensure proper processing. Federal and state taxes, OASDI, and Medicare taxes are withheld from wage payments, which are reported on IRS Form W-2, Wage and Tax Statement.

7.3.5.1.2. DFAS Vendor Pay (or other appropriate vendor pay office) processes lump sum payments of damages, which are reported on IRS Form 1099-MISC, Miscellaneous Income, with no taxes withheld.

7.3.5.2. Treasury operates the Judgment Fund under 31 U.S.C. § 1304, and back pay awards may be paid from it. Treasury regulations require the agency that submits the payment request to issue the tax reporting. For employees paid by DFAS, DFAS will issue the tax reporting

on behalf of the employing agency even when the award of back pay or damages is made from the Judgment Fund. See 31 CFR 256.51.

7.4 Continuation of Pay (COP) (Injury Compensation)

7.4.1. Buy Back of Leave

7.4.1.1. The PRO must recover any gross amount paid for leave used during a period retroactively covered by OWCP compensation. Certain deductions are recoverable by payroll adjustment. The amount recovered from the employee or OWCP depends on whether payment for leave is paid in the current or prior year.

7.4.1.2. The amount collected for leave payments made in the current calendar year is the net pay plus deductions for the following bonds, savings allotments, alimony/child support, rent, indebtedness to the United States, and other deductions the employee received value but not otherwise collected.

7.4.1.3. Current deductions reversed in the payroll system (if applicable and if the moneys are recovered) are: CSRS or FERS; OASDI and/or Medicare; Federal, state, and local taxes; FEHB (if the OWCP payment is for more than 28 days); FEGLI (basic and optional); TSP; union dues; charitable contributions; and military service credit deposits and civilian service credit deposits.

7.4.1.4. The PRO must adjust earnings-to-date in the payroll system for items other than the reversed deductions. Amounts collected from the employee or OWCP must be identified as a cash refund on a voucher for disbursement or collection.

7.4.1.5. The amount collected for leave payments made during a prior year is the gross amount less CSRS/FERS, OASDI or Medicare, TSP, FEHB (if the OWCP payment is for more than 28 days), and FEGLI (basic and optional). The PRO must post the credit to CSRS/FERS as a separate credit line item on the SF 2806, Individual Retirement Record CSRS, or the SF 3100, Individual Retirement Record FERS, fiscal side, indicating the year of the adjustment with an explanation in the "Remarks" column. Adjustments are unauthorized for federal, state, and local income taxes.

7.4.1.6. When an employee separates or at the end of the payroll year, the PRO must prepare a W-2, as appropriate, but may not include any tax adjustments for a prior year. The PRO must prepare a certified statement to accompany the current year's W-2 stating that a prior-year refund was paid in the amount of $XX.XX, but that the gross wages shown on the current year W-2 were not reduced by the amount of the refund.

7.4.1.7. If circumstances permit, the employee may repay the amount due (after recovery of the amount repaid by OWCP) through partial payroll deductions. The PRO must not reverse deductions under subparagraph 7.4.1.3 until the full amount is paid.

7.4.1.8. Credit the full amount of leave used during the buyback period to the employee's leave account. The PRO must not recredit leave bought back until the total amount is repaid.

7.5 Emergency Evacuation Payments

7.5.1. Purpose

7.5.1.1. The DD 2461, Authorization for Emergency Evacuation Advance and Allotment Payments for DoW Civilian Employees, authorizes and records emergency payments to employees and dependents. The PRO is responsible for maintaining this record of payments on the employee's permanent pay account. In appropriate cases, information on this form may be disclosed to other federal agencies (SSA, IRS, and OPM), to state and local taxing or welfare authorities, and to certain private organizations for crediting payments to the employee's account. The PRO must receive DD 2461 before making payment of amounts due the evacuated civilian employees or family members.

7.5.1.2. Compute the employee's payments at the rate they are entitled to immediately before the order of evacuation or departure. Adult family members or designated representatives may receive payments as allotments. The PRO must make all advance payments (and any necessary adjustments) per the DoW component's procedures.

7.5.2. Transmission of Data to Safe-Haven Post

7.5.2.1. After authorities issue an evacuation order, the PRO must immediately forward all significant payroll data from the evacuated installation to the safe-haven post.

7.5.2.2. The physical conditions and circumstances at the evacuation installation determine the method and timing for transmitting data. Safeguarding and preserving payroll, leave, and travel records is a primary concern because the records are still needed after the conditions that gave rise to the emergency evacuation are resolved. Take all necessary steps to safeguard and preserve the records at the safe-haven post.

7.5.3. To the extent possible and practicable, the PRO must pay employees and dependents remaining at the evacuated installation per the normal fiscal procedures of that installation. A special advance payroll may be prepared per normal payroll procedures and charged against the appropriate funds available to the evacuated installation for authorized advance payments.

7.5.4. Actions After Evacuation

7.5.4.1. The PRO with jurisdiction over the employee's account must review the account for necessary adjustments at the earliest possible date after the evacuation is terminated (or earlier if circumstances apply), after the employee returns to the duty station, or when the employee is officially reassigned. See 5 CFR 550.408.

7.5.4.2. The PRO must adjust the employee's pay based on the rates of pay, allowances, or differentials, if any, to which the employee would otherwise be entitled. Adjustments must reflect any advance payments the employee received. If the employee is indebted for any part of the advance payment(s) made to the employee, dependent(s), or designated representative, the PRO with jurisdiction over the account must recover the debt unless there is an approved waiver. See 5 CFR 550.408.

8.0 DEPARTMENT OF WAR EDUCATION ACTIVITY (DOWEA) EMPLOYEES

8.1 TP Pay Plan

Educators, administrators, and ISS employees who hold a Teaching Position (TP) as defined in 20 U.S.C. § 901 are governed by the policies and regulations the DoWEA prescribes. Educators (teachers, social workers, guidance counselors, school psychologists, and nurses) earn a school year salary based on 190 duty days and typically receive compensation over 22 or 26 pay periods per the employee's written election. Administrators (school principals and assistant principals) and ISS employees earn a school year salary based on 222 duty days, paid over 26 pay periods. These employees do not earn annual, sick, or home leave under Title 5 U.S.C., but are entitled to educator's leave under 20 U.S.C. § 904.

8.1.1. School Year Duty Days

8.1.1.1. The school year for educators consists of 190 duty days and includes no less than 175 days of classroom instruction. The 190 duty days include the days required before and after the first and last day of school when educators must prepare for the opening and closing of school. The school year calendar may be adjusted after the school year begins with no change in school year salary, as long as 190 duty days are required and no less than 175 days of classroom instruction are provided. If the school year extends beyond 190 duty days, the educator receives compensation at the appropriate daily rate as of the 191st working day. If an emergency precludes completion of a full school year at one or more schools, the educators must be furloughed, separated, or salary continued until the full school year salary has been paid out.

8.1.1.2. The school year for administrators consists of 222 duty days and includes no less than 175 days of classroom instruction. The 222 duty days also include any time services

are required for a majority of educators at the school. The school year calendar may adjust after the school year begins with no change in school year salary, as long as the required 222 duty days for principals and assistant principals and no less than 175 days of classroom instruction remain. If the school year extends beyond 222 duty days during a given school year, the administrator receives compensation at the appropriate daily rate as of the 223rd working day. If an emergency precludes completion of a full school year at one or more schools, the administrators must be furloughed, separated, or salary continued until the full school year salary has been paid out.

8.1.1.3. The school year for an ISS employee consists of 222 duty days, the same schedule as administrators. ISS employees coordinate their 222-day schedule with their supervisors at the start of the school year.

8.1.1.4. Overseas school year calendars DoWEA issues may vary due to local customs and holidays. The calendars identify the first and last duty days of the school year, instructional days, and exception days for educators and students. DoWEA must provide a copy of school calendars to the servicing PRO and to the DFAS Information and Technology (I&T) Office no later than 4 weeks before the first duty day of the new school year. Submit calendars and updates by email to the PRO (dfas.indianapolis-in.jfv.mbx.dodea@mail.mil) and DFAS I&T (dfas.indianapolis-in.ztb.list.cin-dcps-dodea@mail.mil) as soon as possible.

8.1.2. The Defense Civilian Personnel Advisory Service (DCPAS) Wage and Salary Division (WSD) establishes the rates of basic compensation for teachers and TP employees in the DoW. DCPAS WSD issues Pay Plan salary schedules in April or May of the current school year, effective retroactive to August 1 of the current school year (the prior calendar year). Use the prior school year salary schedules until the WSD issues salary schedules for the current school year. Separate salary schedules are issued for educator, management, specialist, and administrator overseas school year positions, further differentiated by step and academic salary lane.

8.1.3. Step increases for educators, administrators, and ISS employees are similar to step increases for General Schedule (GS) employees. Steps 1 through 14 are regular step increases and steps 15 through 18 are longevity steps. Substitute teachers are not eligible for step increases.

8.1.3.1. A full-time educator assigned to a 190-day position may receive a regular step increase (steps 1 through 14) if they have been in a pay status at least 150 duty days during their last previous school year as an educator.

8.1.3.2. A full-time educator assigned to a 190-day position may receive a longevity step increase (steps 15 through 18) if they have been in a pay status at least 150 duty days during each of the previous 4 school years as an educator.

8.1.3.3. A half-time educator assigned to a 190-day position may receive a regular step increase (steps 1 through 14) if they have been in a pay status at least one-half of 150 duty days during each of the previous 2 school years. A half-time educator may receive a longevity step increase (steps 15 through 18) after being in a pay status at least one-half of the 150 working day minimum during each of the previous 8 school years.

8.1.3.4. A full-time administrator assigned to a 222-day position may receive a step increase (steps 1 through 10) if they have been in a pay status at least 175 duty days during their last previous school year as an administrator.

8.1.3.5. A full-time ISS employee assigned to a 222-day position may receive a regular step increase (steps 1 through 14) if they have been in a pay status at least 175 duty days during their last previous school year as an educator.

8.1.3.6. A full-time ISS employee assigned to a 222-day position may receive a longevity step increase (steps 15 through 18) if they have been in a pay status at least 175 duty days during each of the previous 4 school years as an educator.

8.1.3.7. A half-time ISS employee assigned to a 222-day position may receive a regular step increase (steps 1 through 14) if they have been in a pay status at least one-half of 175 duty days during each of the previous 2 school years. A half-time educator may receive a longevity step increase (steps 15 through 18) after being in a pay status at least one-half of the 175 working day minimum during each of the previous 8 school years.

8.1.3.8. A full-time educator assigned to a 190-day position may receive an annual step increase (or service credit toward a longevity step) for the last satisfactory year of service, plus an additional annual step (or service credit) for the first year of absence, only upon return to duty after successfully completing a program of study or employment of one or more years under the Administrative Reemployment Rights Program.

8.1.3.9. Step increases take effect August 1 of each school year following completion of the school year. The step increase is not payable until the educator returns to duty for the subsequent year. When moving to a higher or lower salary schedule, there is no change to the effective date of step increases.

8.1.4. Arrival at Post

8.1.4.1. Newly recruited educators from the Continental United States are appointed with the understanding that they will serve for an entire school year or a specified partial month. When an educator arrives late to the post of assignment through no personal fault (for example, transportation or processing delays), the educator is administratively excused and paid as though the educator arrived on time and served during the lost time. DoWEA dates the offer letter 14 days before the reporting date. Educators not so described who arrive late at the post of assignment after the start of the school year do not receive compensation for the duty days before the day of arrival unless granted paid leave by a supervisor.

8.1.4.2. Educators who arrive at their post of assignment before the start of the school year normally are not entitled to compensation until the start of the school year. Educators who are required to report at their post of assignment and perform work before the start of the school year receive compensation at the daily salary rate from the prior school year salary schedule for each day worked. This salary is not subject to retroactive adjustment.

8.1.5. Educators who are unable to depart promptly after the end of the school year for personal reasons or because of circumstances beyond their control (for example, lack of available transportation) are not entitled to compensation for the period between the end of the school year and the date of departure. Educators who are required to perform work after the end of the school year are paid at the daily rate of their salary for each day worked.

8.1.6. While enroute during a permanent change of station (PCS) between school years, an educator is in a non-pay status and receives appropriate per diem payments per the DoW Joint Travel Regulations (JTR). While enroute during a PCS between school years, a principal or assistant principal otherwise in a non-pay, non-duty status remains in a non-pay status and receives appropriate per diem payments per the DoW JTR.

8.1.7. Work at More Than One Post of Assignment

8.1.7.1. When educators PCS during the school year, the servicing office must ensure that, after working the scheduled duty days during the remaining pay periods at the new post of assignment, the educator receives the full school year salary as entitled. If the total number of days actually worked during the school year (including paid leave at the former and new duty stations) exceeds 190 days, the educator receives compensation at the daily rate for any days worked in excess of 190 days.

8.1.7.2. When administrators or ISS employees PCS during the school year, the servicing office must ensure that, after working the scheduled duty days during the remaining pay periods at the new post of assignment, the administrator or ISS employee receives the full school

year salary as entitled. If the total number of days actually worked during the school year (including paid leave at the former and new duty stations) exceeds 222 days, the employee receives compensation at the daily rate for any days worked in excess of 222 days.

8.1.8. Substitute Teachers

8.1.8.1. A substitute teacher receives the flat daily rate prescribed under Salary Schedule A. The minimum increment paid for substitute work is one-half day.

8.1.8.2. The Salary Schedule for "Other Compensation" provides the daily rate for a summer school substitute teacher, which is two-thirds of the regular school year substitute teacher rate established for the prior school year. This salary is not subject to retroactive adjustment. The prior school year rate for a 2025 summer school substitute teacher, for example, is published in the 2024-2025 salary schedules. The minimum increment earned and paid is one-half day, the equivalent of one-third of the regular substitute teacher rate. Substitute teachers who teach an academic enrichment K-8 program during the summer recess period receive a stipend as authorized by the memorandum of understanding (MOU).

8.1.9. Educators, administrators, and ISS employees may be entitled to certain allowances and differentials, such as government quarters, living quarters allowance (LQA), temporary quarters subsistence allowance (TQSA), separate maintenance allowance (SMA), post allowance, post differential, or storage of household goods. An educator employed as a substitute is not entitled to government quarters, quarters allowance, post allowance, post differential, or storage of household goods.

8.2 Leave

8.2.1. Accrual of Leave

8.2.1.1. Under 20 U.S.C. § 904, educators (excluding substitute teachers) are entitled to cumulative leave with pay, also referred to as educator leave. If the school year consists of less than 8 months, the leave accrues at the rate of 1 day for each calendar month worked or partial month. If the school year includes more than 8 months, an employee who serves the entire school year is entitled to 10 days of cumulative educator leave with pay for the school year. The full school year accrual is credited to the employee's leave record when the school year begins (normally in August) or whenever the employee enters on duty under DS Regulation 5630.4, DoDDS Absence and Leave.

8.2.1.2. Administrators and ISS employees may earn 13 days of cumulative educator leave with pay under 20 U.S.C. § 904 and DS Regulation 5301.4. The credit reflects on the employee's leave record each year on August 1.

8.2.1.3. If an educator, administrator, or ISS employee separates for any reason before the school year ends, any leave credited but not earned is subtracted from the leave balance. If already used, the servicing office must establish a debt and take appropriate collection action.

8.2.1.4. Educators and ISS employees regularly employed on a part-time basis earn leave in an amount proportionate to the leave earned by a full-time employee. Part-time ISS employees, such as those in a job-sharing arrangement, earn 6.5 days per year (or one-half day (4 hours) per pay period if less than 8 months remain in the school year).

8.2.1.5. Substitute teachers employed on a temporary intermittent basis are not entitled to earn leave.

8.2.1.6. Educators and administrators who perform activities during the summer recess period do not earn leave.

8.2.2. Leave Usage

8.2.2.1. The minimum charge for educator leave is one-half day, and additional charges are in multiples of one-half day. An administrative authority may use discretion to excuse an occasional absence from duty of less than one-half day for adequate reasons without charge to educator leave. Report leave charges to the PRO and record them on the employee's timecard.

8.2.2.2. An educator, administrator, or ISS employee may use accrued educator leave during the school year with appropriate advance notice and prior supervisor approval, an educator, administrator, or ISS employee may use up to 3 days of leave in a given school year for any purpose. Educator leave used for any purpose normally may not be used during orientation week or the first or last week of the school year. An exception may be made when an employee is accepted for an educational program and must report before the end of the school year.

8.2.2.3. Using accrued educator leave during any summer recess period is not permissible. An absence during a summer recess period is without pay.

8.2.2.4. Except for unique tours of duty established by the host nation (for example, Bahrain), Saturdays, Sundays, regularly scheduled holidays (including U.S. and host nation holidays), and other administratively authorized non-workdays are not normally days of leave, per 20 U.S.C. § 904(b). Leave Without Pay (LWOP) is therefore not charged to an educator, administrator, or ISS employee who is in a non-pay status immediately preceding or following a scheduled holiday.

8.2.3. Under unusual circumstances, an educator, administrator, or ISS employee may receive up to 30 days of advanced educator leave (above the amount already credited for the current school year) for use on any scheduled duty day within the school year. Such an advance is subject

to subsequent earning of educator leave or repayment upon separation for leave advanced but not earned. The immediate supervisor may approve requests for up to 10 days of advance educator leave. Submit requests for more than 10 days to the Director for Student Excellence or District Superintendent, as appropriate. Submit approved requests to the PRO upon receipt from the approving official.

8.2.4. An educator's or ISS employee's immediate supervisor may approve an LWOP request of up to 3 days. The Director for Student Excellence or District Superintendent may approve LWOP requests over 3 days but less than 30 days. The Director for Student Excellence may approve LWOP requests of 30 days or more. For administrators, the District Superintendent must approve LWOP requests over 3 days but less than 30 days, and the Director for Student Excellence or their delegate must approve LWOP requests over 30 days.

8.2.5. Conversion of Leave

8.2.5.1. A federal or District of Columbia employee who transfers without a break in service from a different leave system to an educator, ISS employee, or administrator position receives credit for sick leave held immediately before the effective date of the conversion, transfer, promotion, or reappointment. Sick leave so credited is included in the employee's balance of educator leave.

8.2.5.2. No annual leave is credited to an educator, ISS employee, or administrator's balance of educator leave when the employee transfers without a break in service from a different leave system. The employee receives a lump-sum payment for accrued annual leave from the previous employer. Administrators who converted from GS or General Merit positions to Salary Schedules K and L on October 11, 1987, received annual leave credit during the initial conversion.

8.2.6. Transfer and Recredit of Educator's Leave

8.2.6.1. When an educator, administrator, or ISS employee is separated and reappointed to another educator, administrator, or ISS employee position without a break in service of more than 3 years, the employee's educator leave must be certified to the employing agency for credit as sick leave on the SF 1150, Record of Leave Data.

8.2.6.2. If an educator, administrator, or ISS employee accepts temporary federal employment in a non-educator position during a recess period, the educator-leave account must not be transferred to the summer position's leave account. Sick leave earned during the temporary summer employment must be credited, and any unused sick-leave balance must be transferred to the educator-leave account when the employee returns to duty in their regular educator or administrator position.

8.2.7. Liquidation of Leave Upon Separation

8.2.7.1. Any annual leave earned under a different leave system and remaining to the credit of an educator, administrator, or ISS employee on separation must be liquidated by a lump-sum payment per 5 U.S.C. § 5551 and 20 U.S.C. § 904(f).

8.2.7.2. Lump-sum payment to liquidate educator leave on separation is prohibited. Educator leave that may not be liquidated includes leave earned by an educator, administrator, or ISS employee, and the leave balance under subparagraph 8.2.5.1.

8.2.8. Sabbatical Leave

8.2.8.1. The Director for Student Excellence may authorize yearlong educator leave at half-pay (sabbatical leave) for an educator, administrator, or ISS employee for educational purposes when the Director determines the course of study is appropriate. An SF 50 is not required. The approved training request must reflect that the employee will be in an LWOP status for one-half of each day during the yearlong period.

8.2.8.2. Educators and administrators granted sabbatical leave at half-pay must continue to receive life insurance and health benefits coverage as if in full pay status. Retirement contributions are deducted for only one-half year, but the employee is entitled to a full year of retirement credit. Educator leave is neither earned nor deducted from the employee's leave account during the training period. Any pay step increase that would have been authorized must be processed as if the employee had worked a full school year.

8.3 Pay Status During School Year and Summer Recess

8.3.1. An educator's school year consists of 190 duty days. In most overseas locations these duty days fall on the normal workweek (Monday through Friday). An educator does not work every Monday through Friday during the school year because of exception days (for example, winter and spring recess, federal holidays, and certain host-nation holidays). As a result, the school year may include 22 pay periods spanning about 213 Monday-through-Friday days between the educator's first and last duty day, typically 21 full pay periods plus 3 additional days in the 22nd pay period.

8.3.2. During summer recess, while school is not in session, educators are ordinarily in a non-pay status. Educators returning to duty for the following full school year are entitled to continued LQA payments during summer recess while in non-pay status (see DSSR Chapter 100, Quarters Allowances, and Chapter 700, DoW Teachers). The servicing HRO must notify the servicing PRO of any change in an educator's status, such as transfer, resignation, or retirement.

8.4 Compensation

8.4.1. Educators With a 190-Day School Year

8.4.1.1. For an educator on non-paid absence, such as LWOP or absence without leave (AWOL), biweekly pay is reduced by 1/190th of the school year salary for each scheduled duty day in a non-paid status. Because educators are not paid for federal holidays or recess periods, biweekly pay is not reduced when the educator is in a non-paid status before or after an exception day.

8.4.2. Administrators With a 222-Day School Year

8.4.2.1. In addition to basic pay, administrators assigned to foreign areas where the cost of goods and services is substantially higher are entitled to a post allowance (see 20 U.S.C. § 906). To compute the foreign post allowance, divide the total annual amount payable by 365 calendar days (366 days in a leap year).

8.4.2.2. For an administrator on non-paid absence, such as LWOP or AWOL, biweekly pay is reduced by 1/222nd of the school year salary for each scheduled duty day in a non-paid status. Because administrators are not paid for exception days, biweekly pay is not reduced when the administrator is in a non-paid status before or after a federal holiday or recess day.

8.4.3. ISS Employees With a 222-Day School Year

8.4.3.1. ISS employees build their own calendar, scheduling 222 duty days within the 260-to-262-day school year. The remaining 38 or 39 days are considered non-workdays for this regulation. The ISS employee sets the schedule, then obtains supervisor approval. An ISS employee who schedules work on a federal holiday does not receive holiday pay and still has the same number of non-workdays (38 or 39). However, an employee who schedules work on a holiday or Sunday when normal school operations are in session is entitled to the appropriate premium pay. For example, if school is in session on Sundays by local custom and the employee's approved schedule includes Sunday, the employee is entitled to Sunday premium pay; if Sunday is not normally a workday for school staff, the employee is not. Calculate biweekly pay as follows: Duty Days and "Daily Rate" or "222 Rate" for ISS Employees. The number of duty days in the school year to ISS employees is 222. The ISS employee's daily rate, or "222-Rate," is the school year salary divided by 222 days. School Year Days and "School Year Rate" or "260 Rate" for ISS Employees. The school year days for ISS employees will total between 260 and 262 days, depending on the calendar year. Thus, the days during the school year include days that fall within and outside of the school year for educators. The school year days for ISS employees include 222 duty days and exception days that occur on Monday through Friday during the regular school

year. Exception days include federal holidays (e.g., Labor Day) and school recess days (e.g., spring recess) when ISS employees are not normally scheduled to work. However, due to the schedule flexibility, ISS employees may elect to work on a federal holiday (but will not receive holiday pay) and schedule non-workdays on days that other educators generally work. Use the number of school year days to determine an ISS employee's school year rate, or "260-Rate." The school year rate is the daily rate used to provide uniform payment for each biweekly pay period. Multiply the school year rate by 10 days to determine the ISS employee's biweekly basic pay amount. Formula for ISS Employee's Biweekly Pay. ISS employees typically receive compensation over 26 pay periods. Use the following to calculate the biweekly pay: School Year Salary ÷ (260, 261, or 262 School Year Days) = School Year Rate, and School Year Rate × 10 Days = Biweekly Pay.

8.4.3.2. In addition to basic pay, ISS employees are entitled to a post allowance under 20 U.S.C. § 906. To compute the foreign post allowance, divide the total annual amount payable by 365 calendar days (366 days in a leap year).

8.4.3.3. For ISS employees on non-paid absence (for example, LWOP or AWOL), biweekly pay reduces by 1/222nd of the school year salary for each scheduled duty day the ISS employee is in non-paid status. Because ISS employees are not compensated for scheduled non-workdays, no reduction of biweekly pay is needed when the ISS employee is in non-paid status before or after an exception day.

8.4.3.4. When an ISS employee separates (resigns, retires, or dies) before the end of a school year, the school year salary must be adjusted to the number of actual duty days worked, including any days in paid leave status, by multiplying the 222-Rate daily rate by duty days worked. Any difference between the adjusted school year salary and the salary already paid must be reconciled.

8.4.4. Premium Pay, Sunday Work, and Holiday Work

8.4.4.1. Educators and administrators are not eligible for overtime pay or compensatory time off.

8.4.4.2. Educators appointed to a 190-day position whose regular tour of duty requires Sunday work are entitled to basic pay plus a premium of 25 percent of the daily rate (190-Rate). Administrators on a 222-day position whose regular tour of duty requires Sunday work (where part of the 190-duty-day school year or within summer school session) are entitled to basic pay plus a premium of 25 percent of the regular daily rate (222-Rate). An ISS educator who works on a Sunday when normal school operations are in session is entitled to the appropriate premium pay.

8.4.4.3. Educators appointed to a 190-day position whose regular tour of duty requires work on a federal holiday are entitled to basic pay plus premium pay equal to the daily rate. Administrators on a 222-day position whose regular tour of duty requires work on a federal holiday (where part of the 190-duty-day school year or within summer school session) are entitled to basic pay plus premium pay equal to the daily rate. An ISS employee who schedules work on a federal holiday usually does not receive holiday pay; but an ISS employee who works on a federal holiday when normal school operations are in session is entitled to the appropriate premium pay.

8.4.5. Employment During the Summer Recess Period

8.4.5.1. Educators are in non-pay/non-duty status during the summer recess period but may receive pay for certain duties performed then. An educator who participates in a non-summer, school-related activity (for example, agency-sponsored and approved training, early return, and late departure) during summer recess is compensated at a daily rate of 1/190th of the prior school year salary. An educator who participates in a summer school-related activity (for example, teaching) usually receives two-thirds of the daily rate of the prior school year salary, though exceptions are possible and the notification for teaching summer school may state a different amount. The minimum increment earned and paid for summer recess activities is one-half day. Educators who work an academic enrichment K-8 program during summer recess receive a stipend as authorized by the MOU. This period of employment is exempt from dual-pay provisions per 5 U.S.C. 5533(d)(7)(D) and is not subject to CSRS, FERS, FEGLI, or TSP deductions (see DoWEA AI 5303.1).

8.4.5.2. An administrator or ISS employee who participates in a non-summer, school-related activity (for example, agency-sponsored and approved training) during summer recess in excess of the 222-day work year is compensated at a daily rate of 1/222nd of the prior school year salary. An administrator or ISS employee who participates in a summer school-related activity receives two-thirds of the daily rate of the prior school year salary. The minimum increment earned and paid for summer recess activities is one-half day. This period of employment is exempt from dual-pay provisions per 5 U.S.C. 5533(d)(7)(D) and is not subject to CSRS, FERS, FEGLI, or TSP deductions (see DoWEA AI 5303.1).

8.4.6. Post Allowance

8.4.6.1. Under 20 U.S.C. 906, full-time educators, administrators, and ISS employees assigned to a foreign area where the cost of goods and services is substantially higher are eligible, in addition to basic pay, to receive a post allowance. The amount is a flat rate based on the employee's basic salary, family size, and post assignment, and appears on the SF 1190, Foreign Allowances Application, Grant and Report. If an employee's annual salary is adjusted, the post allowance may also be adjusted, in which case the daily rate must be recomputed.

8.4.7. Extra Duty Program for Educators

8.4.7.1. The extra duty program applies to certain DoWEA employees under the pay plan who are assigned extra duty assignments, such as coaching or activity sponsorship, in addition to regular school duties (see DoWEA AI 1417.01, Extra Duty Assignments). Educators receive extra duty compensation only for assignments conducted and completed outside the educator's duty day. When a selected educator performs an extra duty assignment, the educator and school principal must sign an MOU identifying the assignment and stating the duties, hourly range, amount of compensation, and a prohibition on performing duties during regular duty hours. Administrators are not eligible for extra duty assignments; any extra duties an administrator performs are voluntary. Compensatory time and holiday pay are not authorized forms of extra duty compensation.

8.4.7.2. The DCPAS WSD publishes the compensation rate for completing an extra duty assignment as part of the yearly DoWEA salary schedules (Schedule for Other Compensation). Before receiving extra duty compensation, the educator must complete the activity and perform the minimum number of established hours for it. The administrator must certify satisfactory completion and authorize compensation, and must forward a memorandum to the PRO as soon as possible, no later than May 31, to enable payment by the end of the school year.

8.4.7.3. The Director of DoWEA determines an appropriate hourly range for completing each type of authorized extra duty activity. The DCPAS WSD establishes the hourly ranges for extra duty compensation.

8.4.7.4. If the administrator determines an extra duty assignment was completed satisfactorily in less time than the approved MOU identified, compensation must be reduced and the educator must be paid at the rate established for the appropriate lower hourly range. When the hours worked fall short of the original range, or completion is less than acceptable to the administrator, the educator is paid less than the approved MOU amount on a pro rata basis.

8.4.7.5. Substitute teachers are paid for completing an extra duty assignment at the rate published by the DCPAS WSD.

8.4.8. Accelerated Deductions

8.4.8.1. FEGLI and FEHB premium deductions for an educator on a 190-day work schedule accelerate so that the total annual premiums are deducted over 22 pay periods rather than 26 pay periods. This lets the employee maintain coverage and pay no additional premiums during the summer recess non-pay status. The coverage period usually runs from the first duty day of the

school year until the day before the first duty day of the next school year. Accelerated premium deductions are not required for an administrator or ISS employee on a 222-day work schedule.

8.4.8.2. If an educator resigns at the close of the school year and has elected FEGLI and/or FEHB coverage, the actual separation date is delayed so the employee keeps coverage throughout the period covered by accelerated premium deductions; coverage for an educator employed a full school year continues until the day before the first duty day of the next school year. If the educator separates before the end of the school year, the resignation must specify an earlier coverage-termination date and the employee must acknowledge that coverage continues only 31 days after separation. An educator who separates early is reimbursed proportionately if the separation date precedes the end of the prepaid FEHB coverage period. If an educator converts to or is appointed to a 222-day or calendar-year schedule, accelerated premium deductions may need to be refunded where the conversion takes effect during the prepaid coverage period and withholding in the new position causes duplicate premium payments.

8.4.8.3. Educators enrolled in the FSAFEDS Program and paid over 22 pay periods may elect to accelerate these allotments. The Federal LTC Program does not offer accelerated payments to educators paid over 22 pay periods. For periods of non-pay status, the educator receives a "Bill for Uncollected Payroll Premium."

8.4.9. Other Deductions

8.4.9.1. Allotments of pay for labor organization dues take effect the second pay period in October of each school year for an educator who is a bargaining unit member. The allotment is the dues amount the employee identifies on the SF 1187, Request for Payroll Deductions for Labor Organization Dues, or the amount on a list issued by each local or regional bargaining unit, divided by 12 full pay periods unless all parties agree otherwise.

8.4.9.2. Educators who enter the dues withholding agreement when fewer than 12 full pay periods remain in the school year have their dues allotments prorated over the remaining full pay periods within the dues withholding period.

8.4.9.3. An SF 1187 authorization for dues withholding remains in effect when a Not to Exceed (NTE) employee converts to an excepted service position in the bargaining unit before the NTE appointment expires.

8.4.9.4. After each pay period, the PRO must prepare and electronically forward the remittance to the designated labor organization, accompanied by a report listing the names and amounts withheld.

8.4.9.5. An educator's dues withholding authorization carries forward automatically to the next school year unless the employee notifies the PRO to stop the deduction. To cancel labor organization dues deductions, an educator must submit an SF 1188, Cancellation of Payroll Deductions for Labor Organization Dues, to the PRO no later than September 1. Proper completion and timely submission of the SF 1188 is the employee's responsibility. An SF 1188 received after September 1 processes for the next school year.

8.4.9.6. No later than 2 weeks before withholding is to begin, the local or area units of the labor organization must forward a list of employees who have requested dues withholding. The list must identify the bargaining unit name or number, location, address, points of contact, and phone numbers, and must include each employee's name, Social Security Number, location assigned, and amount of dues to withhold for that school year.

8.4.9.7. Savings and other allotments authorized in Section 12 deduct over the number of full pay periods in the school year.

8.4.9.8. An educator, administrator, or ISS employee may elect a percentage or a dollar TSP deduction per the guidelines in Section 12. If the employee elects percentage withholding, TSP deductions are also taken from the annual retroactive salary adjustment each year.

8.4.10. DoWEA employs retired military officers and noncommissioned officers as educators in its overseas JROTC program. The school year salary of JROTC instructors is set using the comprehensive Schedule for Educators and Specialist (Schedule C).

8.4.11. DoWEA employees may apply for a waiver of erroneous payments of pay and allowances by following the procedures in Section 9. The PRO must forward DoWEA employee applications to the DoWEA Human Resources Division, Classification and Compensation Section, for adjudication rather than to the Debt and Claims Management Office at DFAS.

9.0 UNDERPAYMENTS, COLLECTION OF NONDOW DEBTS, GARNISHMENTS, BANKRUPTCY ACTION, AND TAX LEVIES

9.1 Underpayments

9.1.1. General

9.1.1.1. All salary payments must be paid per the time and attendance reported and certified by the employee's supervisor. Reported time and attendance that is less than an employee's normal work schedule is presumed to accurately reflect the employee's hours of work and non-work. Any time and attendance errors must be corrected and certified to adjust underpayments.

9.1.2. Special Payments

9.1.2.1. An employing activity must submit a request to the PRO for a special payment. The PRO must request copies of substantiating and supporting documentation to process the special payment. The PRO makes the final determination on whether a special payment is appropriate and will process a special payment only under the following circumstances:

9.1.2.1.1. A special payment may be issued to correct a salary underpayment when an employee has received less than 90 percent of their regular biweekly pay and allowances. The request must be made by the commanding officer/director and must include a certified (or corrected) time and attendance report. PRO Directors may waive the 90 percent rule when extenuating circumstances exist.

9.1.2.1.2. A special payment may be issued to pay an employee erroneously omitted from the payroll. Before processing, the PRO must verify the individual's employment using the SF 50, Notification of Personnel Action. The request must be made by the commanding officer/director and must include a certified and corrected time and attendance report and any necessary source documents to support deductions.

9.1.2.1.3. A special payment may be issued to an employee placed in LWOP status for payroll processing when LWOP is approved for conversion to advanced annual, sick, or donated leave. The commanding officer/director may request the special payment after determining a financial hardship exists and that the employee has received less than 90 percent of their regular biweekly pay and allowances. The request must include a certified and corrected time and attendance report.

9.1.2.1.4. A special payment may be issued to a beneficiary entitled to receive a deceased employee's unpaid compensation under 5 U.S.C. § 5582. The PRO may issue the special payment only after the employing activity's human resources office submits sufficient documentation to support the payment. For computation and more on deceased employee unpaid compensation, see Section 11.

9.1.2.2. A special payment requested for the following reasons will not be processed:

9.1.2.2.1. The PRO will not honor a request for partial payment of salary before the regular pay date.

9.1.2.2.2. The PRO will not process a request for special payments for overtime or other premium pay earned but not reported, and therefore not paid in the corresponding

pay period. However, authorization for a special payment for other reasons will include payment of any unpaid premium pay for the corresponding pay period.

9.1.2.3. The PRO must compute special payments to current and former employees using the "gross-to-net" method. Gross-to-net payments represent the regular biweekly pay and allowances normally due the employee (plus unpaid premium pay for the corresponding pay period, if applicable) less required deductions and withholdings withheld from the employee's biweekly pay. Gross-to-net special payment computations apply as follows:

9.1.2.3.1. If the employee received less than 90 percent of their biweekly pay, the employee is entitled to the difference between what was paid and what should have been paid. The PRO will deduct additional amounts for applicable items unless previous payroll processing has satisfied those deductions. The employee is responsible for existing voluntary allotments not deducted during the previous processing. All deductions and withholdings must resume the following pay cycle, including voluntary allotments.

9.1.2.3.2. If the employee received no biweekly pay, the gross entitlements, less applicable deductions and withholdings, are payable to the employee. The PRO must exclude deductions for voluntary allotments. The employee is responsible for existing voluntary allotments. All deductions and withholdings must resume on the following pay cycle, including voluntary allotments.

9.1.2.3.3. An employee's final pay may be issued as a special payment. The gross entitlements, less required deductions and withholdings are payable to the employee. The employee is responsible for voluntary allotments. Under 5 U.S.C. § 5514, when an employee separates by resignation, retirement, death, or termination of appointment, the employee's final pay (including lump-sum leave payments) will be applied to the extent necessary to liquidate any previously established debt. See Volume 16.

9.1.2.4. Employees will receive special payment disbursements in the same manner as their net pay, by electronic funds transfer (EFT). If the employee has a waiver of the EFT requirement for payroll disbursements, the PRO will send a U.S. Treasury check via express mail to the employee's address of record. Payments are normally issued within 3 business days after the PRO receives the special payment request and required supporting documentation.

9.1.2.5. For special payments made after the last regular pay period of the tax year but before the end of the calendar year, the PRO must withhold federal, state, and local taxes and Social Security/Medicare from the special payments. When computing or deducting Social Security, the PRO must ensure the employee has not reached maximum withholdings for the year. The PRO must forward the withholdings to the applicable offices as soon as possible. The PRO

will include all deductions and contributions for Social Security/Medicare and federal, state, and local taxes for canceled checks or special payments.

9.1.2.6. The PRO will process updates to ensure special payments or canceled checks are included in the history totals. After the final pay period of the tax year, if the PRO identifies incorrect reporting on the W-2, the PRO will issue the W-2c and the IRS Form 941-X, Adjusted Employer's Quarterly Federal Tax Return or Claim for Refund, per IRS Publication 15, (Circular E), Employer's Tax Guide.

9.1.2.7. Special payments for TSP participants are subject to TSP deductions provided the employee has not reached the maximum contribution level established by law. TSP deductions withheld from special payments after the last regular pay period in the tax year, but before the end of the calendar year, will be combined with the next pay cycle for reporting and submission to the Federal Retirement Thrift Investment Board.

9.2 Collection of Non-DoW Debts by Salary Offset; Judgments Against Employees for Debts Owed to the Federal Government

9.2.1. Non-DoW Federal Creditor Agencies

9.2.1.1. When non-DoW federal creditor agencies (except the IRS or U.S. Courts) identify DoW employees with outstanding debts, those agencies must address their salary offset requests to the Secretary of War designee for such collection, DFAS Cleveland (CL): DFAS-AHADC/CL, 1240 East 9th Street, Cleveland, OH 44199-8002. A request for offset must include certification that due process rights have been afforded to the indebted employee by the non-DoW creditor agency. Debts established in the payroll system for non-DoW employees serviced by DFAS who later become DoW employees must be transferred systematically to the employing DoW agency for continued collection.

9.2.2. Government Travel Charge Card (GTCC) Contractor

9.2.2.1. The travel charge card contractor must forward delinquent debts to the DFAS-CL Salary Offset Project Office.

9.2.2.2. Undisputed 120-day-old delinquent accounts referred for salary offset must contain the full balance of the account, regardless of whether some individual charges relate to an official travel document. In addition to the delinquent charges, the amount referred for salary offset must include any late fees assessed and costs of collection.

9.2.2.3. The file must include the travel charge card contractor's financial institution and account routing information to facilitate electronic transmission of delinquent amounts collected.

9.2.2.4. Any delinquent debt the travel charge card contractor has already forwarded to a private collection agency must not be included in the salary offset process. Likewise, a travel charge card contractor must not refer any delinquent debt already submitted to DFAS for collection by salary offset to a private collection agency.

9.2.2.5. The Salary Offset Project Office must process the request for initiation of travel charge card delinquent debt salary offset in the same manner as federal salary offset requests from other federal agencies.

9.2.2.6. The Salary Offset Project Office must manage the debt balance during the salary offset process. If changes to the debt balance occur, the travel charge card contractor must immediately advise the Salary Offset Project Office of those changes.

9.2.2.7. The PROs must provide reports listing the collection transactions to the Salary Offset Project Office for each collection file to monitor amounts collected and remaining debt balances due.

9.2.3. Under 31 U.S.C. § 3716(h) and 31 CFR 285.6, a state may enter into a reciprocal agreement with the Department of Treasury to collect unpaid state debt by offset of federal non-tax payments. DFAS does not offset non-tax state debts from federal employee salaries.

9.2.4. When a U.S. Court determines that a federal employee is indebted to the United States and enters a judgment against the employee, PL 97-276, section 124 (published as a note to 5 U.S.C. § 5514) allows collection of the debt by deduction from the employee's current pay account. The employee's consent is not required. Any federal agency requesting salary offset under this authority must send a request for offset to the PRO with a copy of the judgment. The PRO may request DFAS Office of General Counsel (OGC) to review the judgment if questions arise. After confirming the validity or interpretation of the judgment, the PRO will:

9.2.4.1. Compute the amount to be collected each pay period using the percentage specified in the offset request. The maximum amount deducted for a pay period may not exceed 25 percent of the employee's disposable pay, unless a greater percentage is necessary to recover the amount owed within the time of anticipated employment. Deductions may be made from basic pay, special pay, incentive pay, or, for an individual not entitled to basic pay, other authorized pay.

9.2.4.2. Collect the total unpaid balance as specified in the offset request. This amount may include accumulated interest and administrative charges. The agency requesting offset should notify the PRO approximately 90 days before completion of the judgment offset with the final judgment amount, which includes the balance of accrued interest charges.

9.2.4.3. Forward a copy of the offset request to the employee with written notification of the deduction amount and the pay period the deduction will start.

9.2.4.4. Apply final pay (salary and lump-sum leave) to any unliquidated debt balance if the employee retires, resigns, dies, or if employment otherwise ends.

9.2.4.5. Forward payment each pay period to the agency requesting salary offset.

9.3 Child Support, Alimony and Commercial Garnishments

9.3.1. DFAS serves as the paying agency for DoW and for non-DoW federal agencies. In this capacity, DFAS-OGC, Garnishment Law Directorate, is the designated agent for service of the legal garnishment process for agencies paid by DFAS. Submit court orders, related documents, and forms for child support, alimony, and commercial garnishments to the Garnishment Law Directorate by mail, fax, or online through the askDFAS module: DFAS Office of General Counsel, Attn: Garnishment Law Directorate, PO Box 998002, Cleveland, OH 44199-8002. Upon review of the court order, DFAS will process the garnishment deduction in the payroll system. Cancellation of the order is automatic on the date of separation from DoW, upon death of the employee, or upon court notification that the garnishment is terminated. The employee cannot voluntarily stop court-ordered deductions.

9.3.2. Commercial Garnishments

9.3.2.1. Under 15 U.S.C. § 1673(a)(1), involuntary withholding for collection of a commercial debt is limited to a maximum of 25 percent of the employee's disposable earnings; state law prevails when it provides a maximum collection percentage less than 25 percent. If the employee already has a child support or alimony withholding order in effect, and the total deduction for child support and alimony equals or exceeds 25 percent of the employee's disposable pay, the PRO will not process any commercial debt deduction. Further limitations on the amount to be garnished are in 5 CFR 582.402. There is no limit on the percentage for garnishment for federal, state, or local tax obligations, or for bankruptcy court orders.

9.3.3. Involuntary state tax levies will be processed similar to commercial garnishments and are submitted to the Garnishment Law Directorate to begin legal review. The PRO can establish voluntary state tax levies as allotments.

9.4 Bankruptcies

9.4.1. This section applies to DoW employees who have filed a bankruptcy petition under 11 U.S.C., Chapter 7 or Chapter 13. The law waives the U.S. Government's sovereign immunity for compliance with payroll deduction orders issued by the bankruptcy courts (11 U.S.C. § 106); collections will be processed per the court order. DFAS serves as the paying agency for DoW and

non-DoW federal agencies, and DFAS-OGC, Garnishment Law Directorate, is the designated agent for service of personal bankruptcy cases for agencies paid by DFAS. Submit bankruptcy notices and Chapter 13 withholding orders to the Garnishment Law Directorate by mail, fax, or online using the askDFAS module: DFAS Office of General Counsel, Attn: Garnishment Law Directorate, PO Box 998002, Cleveland, OH 44199-8002.

9.4.1.1. Upon notice or actual knowledge of the filing of a bankruptcy petition, when the employee has listed the United States as a creditor, the PRO files a proof of claim with the bankruptcy court for all Chapter 13 filings and, if requested by the bankruptcy trustee, for Chapter 7 cases.

9.4.2. Chapter 13 Bankruptcies (The Plan)

9.4.2.1. Once the bankruptcy court confirms a Plan, it usually orders the employer to pay a specific amount of an employee's income to the trustee named in the order. Payment to the trustee will be made per the employee's normal pay cycle. Bankruptcy law authorizes withholding up to 100 percent of the employee's disposable earnings, as directed by the court-ordered wage order.

9.4.2.2. If the United States is both the employer and creditor when the individual files bankruptcy under Chapter 13, the government's priority under 31 U.S.C. § 3713 may be asserted absent a judicial determination to the contrary. The appropriate PRO must timely file Official Form 410, Proof of Claim, with the bankruptcy court.

9.5 Tax Levy for Unpaid Federal Income Tax

9.5.1. Authority

9.5.1.1. After the PRO receives a levy, the PRO must not allow employees to increase or add any voluntary allotments. Changes that increase existing voluntary allotments are authorized only after the total tax liability is paid or arrangements are made with the IRS.

9.5.2. When the IRS serves Form 668-W, Notice of Levy on Wages, Salary, and Other Income, the PRO will take immediate action to implement the levy. Once the PRO processes the levy, it continues in effect until the collection is complete or the IRS releases the levy.

9.5.2.1. The PRO must follow the instructions on the 668-W and provide notice to the employee that a levy has been received.

9.5.2.2. The levy attaches to the employee's take home pay minus the allowable exceptions. Unless the IRS instructs otherwise, the employee's payroll deductions in effect when the levy was received will be allowed when determining take home pay. However, a voluntary

allotment may be disallowed if the deduction is so large it defeats the levy. The IRS may notify the PRO when different procedures apply to specific employees. To determine take home pay, the levy attaches to the gross amount of the employee's accrued wages or salary, less the following deductions: Social Security/Medicare; retirement; FEHB; FEGLI; garnishments for child support or alimony; overpayments due the U.S. Government; and allowable personal exemptions on the 668-W.

9.5.2.3. After the PRO makes the first deduction for the levy against the employee's pay, the PRO must follow the instructions on the 668-W and return Part 3 of the form to the IRS.

9.5.2.4. If the employee has been reassigned to an organization serviced by another PRO, the losing PRO must inform the IRS District Director of the employee's new address. The losing PRO must mail the complete levy package to the new PRO for processing.

9.5.2.5. If the employee has moved from overseas, transferred to another federal agency, separated, or retired, the PRO will return the levy to the IRS District Director and provide the employee's new address on the 668-W.

9.5.2.6. If the PRO receiving the levy has no record that payroll service has been furnished for the employee, the PRO must annotate that fact on the bottom of the levy and return the levy to the IRS District Director.

9.5.3. An employee may arrange with the IRS to liquidate a delinquent federal income tax debt through voluntary biweekly payroll deductions. The IRS Form 2159, Payroll Deduction Agreement, must be submitted to the PRO to initiate the deduction process.

9.6 Pay Corrections and Tax Reporting

9.6.1. A payment made to correct an underpayment of earnings ("corrective payment") is reported as wages in the year the corrective payment is issued, even if the underpayment occurred in a prior calendar year. The PRO must process the corrective payment in the current pay cycle and report it as gross wages subject to Social Security/Medicare taxes on the employee's current year W-2. Social Security/Medicare tax must be withheld from the corrective payment. The gross wages must be reported as current quarterly earnings on the IRS Form 941, Employer's Quarterly Federal Tax Return. For separated employees, the PRO may be required to prepare the IRS Form W-2c, Corrected Wage and Tax Statement, if a W-2 was previously issued.

9.6.2. Tax Reporting

9.6.2.1. For active employees, the PRO must follow the debt collection procedures in Volume 16 to establish a debt for the overpaid earnings. If the employee repays the debt, in whole or in part, in the same year the overpayment occurs, the PRO must record the repaid amount

as a reversal in base pay, gross pay, net pay, or other pay as applicable. This action is required to recover income tax withholding and Social Security and Medicare taxes for the repaid wages and to correct the yearly gross income.

9.6.2.2. The PRO must follow the same procedures for active employees in subparagraph 9.6.2.1 but must reestablish the employee on the payroll before processing the required reversals. If a W-2 was previously issued to the separated employee, the PRO must prepare a W-2c.

9.6.2.3. If an active employee repays an overpayment of earnings paid in a prior year, Social Security/Medicare wages and taxes may need to be corrected. If the year of repayment is still within the 3-year statute of limitations for Social Security or Medicare tax refunds, the PRO must prepare a W-2c and W-3c for the prior year to reduce the gross wages subject to Social Security/Medicare (box 3). Wages reflected in box 1 of the W-2c must not be corrected. No adjustments are made for income tax withholding or additional Medicare tax withholding. Per Circular E, the PRO will prepare the 941-X to correct errors on the 941 and retain copies of the corrected forms. If the repayment is beyond the 3-year statute of limitations, the PRO will not make corrections to the prior year W-2 and the 941.

9.6.2.4. The PRO must prepare a tax certificate for the employee representing the repaid wages in the year of repayment. The amount entered on the certificate is the total of the reverse deductions plus the amount the employee repaid. The employee may be entitled to a deduction (or a credit, in some cases) for the repaid wages on the employee's income tax return for the year of repayment. For additional information, see 26 U.S.C. § 1341 and IRS Publication 525, Taxable and Nontaxable Income.

9.6.2.5. For separated employees, the PRO will follow the procedures for active employees but will retain copies of the W-2c and the 941-X to balance annual federal tax deposits.

10.0 RECORDS, FILES, AND REPORTS

10.1 Records and Files

10.1.1. Payroll Documentation

10.1.1.1. Deductions for CSRS and FERS, life insurance, and health benefit programs with employer contributions are paid to OPM each pay period. The PRO must submit a consolidated SF 2812-A to OPM biweekly through the Retirement and Insurance Transfer System (RITS) to report these deductions. For RITS, see subparagraph 3.3.3.

10.1.1.2. The PRO must reconcile payments to deduction recipients on a cyclical basis, at least annually, with the amounts withheld plus any related employer contributions shown

by the pay or other records, to confirm correct amounts are reported to those authorized to receive the deductions and contributions. Payroll records must provide a clear audit trail from the gross pay calculation to the employee's net pay, by pay period and year-to-date.

10.1.1.2.1. Each DoW PRO must keep a record, for each calendar year, of the total amounts withheld from employees' salaries and the total employer contributions for FEGLI. The PRO must keep these records in a ledger or other appropriate form, or as file copies of the vouchers used to report the information to OPM.

10.1.1.2.2. The PRO must keep a record of employee deductions and employer contributions for health benefits by each enrollment code number. The PRO and the health benefit carrier must submit the enrollee data in this record to the National Finance Center FEHB Centralized Electronic Enrollment Reconciliation Clearinghouse (CLER) system quarterly. The HRO and the PRO must review any error codes identified in CLER and resolve the discrepancies by comparing the coverage reported by the PRO, the coverage reported by the carriers, the SF 2809, and the SF 2810 sent in support of the coverage.

10.1.1.2.3. The HRO must maintain a record of traditional and Roth TSP deductions and agency contributions for each employee.

10.1.2. Retroactive Computations Involving Former PROs

10.1.2.1. When retroactive payroll computations involve one or more former PROs, the consolidated PRO holds overall responsibility for the adjustment process. If a former PRO is involved, the consolidated PRO must contact each former PRO to obtain the necessary information.

10.1.2.2. If the consolidated PRO cannot obtain the documentation needed to perform the retroactive calculation, it may take one or more of the following steps: Request Archived Documents From the National Personnel Records Center (NPRC). When copies of the SF 135, Records Transmittal and Receipt, are unavailable at the employee's former office, the current PRO must complete a National Archives and Records Administration (NARA) Optional Form 11, Reference Request - Federal Records Centers, with all available information. The employee's name, Social Security number (SSN), known places of employment, names and PRO numbers of applicable PROs, and year(s) for which the records are requested must be included in the description and remarks section of the form. Contact the appropriate HRO. If the NPRC cannot locate the records, the PRO must prepare a memorandum to the appropriate HRO requesting copies of the SF 50, Notification of Personnel Action, or other related pay and/or leave information. Since there may have been consolidations of both the PRO and the appropriate HRO prior to the Defense Civilian Pay System (DCPS) consolidations, it is imperative that both offices work together to obtain information that will assist in the determination of pay and leave

adjustments for the employee. Contact the Employee. If the PRO cannot locate documentation from the NPRC or the appropriate HRO, the PRO must contact the employee for the necessary documentation. If the employee has copies of the SF 50 and/or the Leave and Earnings Statement (LES), the PRO may accept this information and use it to reconstruct the pay and/or leave records. Contact OPM. If the transmittal letters to OPM and/or copies of the retirement records cannot be located, the PRO may submit a request to OPM in writing to procure the necessary copies of the records. The PRO may use the information on the retirement records for reconstruction of pay information for adjustments.

10.2 Reports

10.2.1. DoW civilian payroll systems must generate reports at regular intervals, as needed, or to meet special requirements. The PRO must support management by generating reports that provide the information needed to ensure the system's integrity. Individuals who create reports must correct errors caused by inaccurate reading or entry of data. Discrepancies in reporting, transmitting, or depositing funds must be resolved promptly. Per GAO-03-352G, Maintaining Effective Control Over Employee Time and Attendance Reporting, reports must be: prepared accurately, promptly, and distributed to the appropriate recipients to ensure receipt when the information will be of maximum benefit; based on, supported by, and periodically validated against appropriate detailed information in the payroll system; sent in a timely manner to officials who authorized, or were responsible for, processing payroll transactions, and reviewed by those officials for completeness and accuracy; discussed periodically with users and modified or eliminated as appropriate to meet user needs; and retained and disposed of in accordance with NARA General Records Schedule 2.0, Human Resources, which includes: NARA General Records Schedule 2.4, Employee Compensation and Benefits Records, and NARA General Records Schedule 2.5, Employee Separation Records, with sensitive data handled in accordance with the provisions of the Privacy Act. See 5 CFR Part 2606.

10.2.2. As-Required Reports

10.2.2.1. The losing PRO must prepare an SF 1150 at the time of the employee's separation if the employee transfers within DoW to another PRO or to another federal agency. All blocks on the SF 1150 must reflect accurate data. Besides transferred leave data, the form's Remarks section reports other employee information, including year-to-date wages for Social Security and Medicare tax purposes, year-to-date TSP deductions, the last deduction for FEHB and FEGLI, the date through which insurance deductions were made, and overseas or territorial differential data.

10.2.2.2. DFAS is responsible for:

10.2.2.2.1. DFAS must retain the employer's copy of the W-2c in the PRO.

10.2.2.2.2. DFAS must attach IRS Form 941-X, Adjusted Employer's Quarterly Federal Tax Return or Claim for Refund, to the current quarterly IRS Form 941, Employer's Quarterly Federal Tax Return, and enter the adjustment amount on the 941. The PRO must maintain copies of both forms.

10.2.2.2.3. DFAS must retain a copy of the W-2c and the Form 941-X in the current-year quarterly tax folder to balance annual federal tax deposits.

10.2.3. Biweekly Reports

10.2.3.1. The LES must show gross pay, deductions, net pay, and employer contributions for the current pay period and cumulative totals for the current year. The LES must reflect accrued and used leave balances for the pay period and year-to-date. The LES must be made available electronically through the DFAS myPay web application, or mailed to the employee's non-work address, every pay period.

10.2.3.2. To process RITS transactions, the PRO must provide the disbursing office with the payroll system-generated hardcopy of the payroll for personal services certification and summary, the SF 2812-A, and any disbursement vouchers for cash payments.

10.2.3.2.1. Cash payments received from employees, such as military deposits and health benefits payments, are current transactions, collected and disbursed from a holding account. The total of the payroll for personal services certification and summary plus cash disbursement vouchers must equal the total on the SF 2812-A. Cash collections for health benefit indebtedness from pay accounts not carried forward from former PROs must be reported to OPM separately on a supplemental SF 2812-A.

10.2.3.2.2. The disbursing office must ensure voucher amounts agree and the vouchers contain proper certifying signatures before authorizing transmission of the file to OPM. The delay between creating the system file and transmission is a necessary internal control for disbursing government funds. If the file is transmitted before the payment date, OPM must warehouse the data until the settlement date.

10.2.3.3. RITS can report on a regular biweekly basis and report adjustments in a supplemental off-cycle mode. Regular biweekly reporting is the preferred method, and the PRO must fully use the payroll system's automated capabilities to do so. Use of a supplemental reporting cycle must be limited to the greatest extent possible.

10.2.3.4. Adjustments for accounts not transferred to the consolidated PRO are accounts that were inactive on former PRO records and did not convert to the consolidated office. Responsibility for these adjustments now rests with the consolidated payroll operation under

DFAS PRO operations. These adjustments may involve correcting a retirement plan, cash collection for military deposits, or health benefit indebtedness.

10.2.3.4.1. The PRO must report these retirement-plan correction adjustments to OPM on a hardcopy SF 2812-A citing the PRO number that originally reported the deductions and contributions. The PRO must prepare and forward to OPM corrected retirement records and registers citing the former PRO. The PRO must forward copies of the SF 2812-A, registers, and records to the departmental reporter for the former PRO so cumulative balances can be adjusted.

10.2.3.4.2. The PRO must report cash collections for military deposits on a hardcopy SF 2812-A citing the PRO number that originally reported the deductions and contributions. The PRO must prepare and forward to OPM corrected retirement records and registers citing the former PRO. The PRO must forward copies of the registers, records, and SF 2812-A to the departmental reporter for the former PRO so cumulative balances can be adjusted.

10.2.3.4.3. The consolidated PRO must report cash collections for health benefit indebtedness via RITS as a supplemental SF 2812-A using the consolidated PRO number.

10.2.3.5. Adjustments for accounts transferred to the consolidated PRO are accounts that were active on former PRO records and converted to the consolidated office. These adjustments may be for accounts that have become inactive since consolidation or that are still active. As part of the consolidated payroll operation, the DFAS PRO is responsible for these adjustments. Records for both the former and consolidated PROs may need correction, depending on the effective date of the correction.

10.2.3.5.1. The adjustment may involve both hardcopy reporting via the SF 2812-A and reporting via RITS. The PRO must report adjustments effective before the transfer to the consolidated office to OPM via the SF 2812-A, citing the former PRO number, and must prepare and forward to OPM corrected retirement records and registers for the portion applicable to the former PRO. The PRO must forward a copy of the SF 2812-A, registers, and records to the departmental reporter for the former PRO so cumulative balances can be adjusted. The PRO must correct the portion applicable to the consolidated PRO through the payroll system and report it via the RITS regular biweekly cycle. The PRO must correct adjustments for accounts that have become inactive since consolidation through the payroll system by reactivating the account.

10.2.3.5.2. The PRO must report cash collections for military deposits via RITS during the regular reporting cycle. The PRO must correct collections for accounts that have become inactive since consolidation through the payroll system by reactivating the account. Correction through the payroll system is necessary to maintain the proper sequencing of system-assigned register numbers.

10.2.3.5.3. The PRO must report cash collections for health benefit indebtedness via RITS during the regular biweekly reporting cycle.

10.2.3.6. The PRO must forward a biweekly report to each creditor agency of the collections made for the pay period. This report must include, at a minimum, the non-DoW agency to which the collections apply, the PRO name and address, the employee's name, the amount collected for each employee, the period the collection applies to, and the total collections remitted to the non-DoW agency.

10.2.3.7. The PRO must forward a biweekly report of employees with salary offsets for non-DoW federal agencies to the DFAS site that originally forwarded the salary offset request to the PRO. This report must include, at a minimum, the employee's name, SSN, creditor agency, amount of the last biweekly collection, pay date of the last collection, and the debt balance. For employees with more than one debt to a non-DoW federal agency, the PRO must provide this information for each debt.

10.2.3.8. Each pay period, the PRO must prepare a listing for each recipient of withheld union dues. At a minimum, the listing must include the PRO's name and address, the labor organization or association the listing pertains to, employee names and the dues deducted for each, the total amount collected, and system-generated remarks that explain any lack of deductions.

10.2.3.9. The PRO must provide a transmittal report to the Central Campaign Administrator to include: The employing agency, e.g., Army, Navy, Air Force; the employee names and deduction amounts per individual employee; the pay period number; and the pay period date of the CFC data. See 5 CFR 950.801.

10.2.4. Quarterly Reports

10.2.4.1. Upon request, the PRO must furnish feeder data to the appropriate HRO on total wages paid to civilian employees for specific calendar quarters. The HRO must prepare and submit the final report.

10.2.4.2. The employing activity must report the parking fringe benefit valuation directly to the servicing PRO quarterly to ensure proper reporting of income and collection of taxable wages on the W-2.

10.2.4.3. The report must include the monthly value of the transportation fringe benefits and the reportable taxable benefit.

10.2.4.4. When directed, the PRO must furnish data to the appropriate functional organization on civilian employees participating in Direct Deposit/Electronic Funds Transfer

(EFT). DoW managers use this feeder information to report payment volumes and the percentage of payments made by EFT to the Bureau of the Fiscal Service within 25 days after the end of each quarter.

10.2.4.5. For SF 113-G, Monthly Report of Full-Time Equivalent/Work-Year Civilian Employment, the PRO must provide feeder data to the Defense Manpower Data Center for reporting to OMB.

10.2.5. Semiannual Reports

10.2.5.1. For the Report of Work Years and Personnel Cost, the consolidated PRO must provide feeder-type data on the leave data for part C. OMB uses this report to estimate the cost of proposed federal pay increases, evaluate the financial effects of proposed legislation on civilian compensation and benefits, and analyze federal employee pay and personnel benefits.

10.2.6. Annual Reports

10.2.6.1. The PRO must issue a W-2 to each employee no later than January 31st of the year following the applicable tax (calendar) year, including employees who died or separated during the year. If an individual requests the form earlier in writing, the PRO must issue it within 30 calendar days after receipt of the request or after the final payment, whichever is later. DoW PROs must use the DFAS-approved standardized W-2 each year.

10.2.6.2. Each DoW Component with Defense Civilian Intelligence Personnel System (DCIPS) positions must submit an annual report on its foreign language pay program to the Under Secretary of War for Intelligence through the Director, Human Capital Management Office, per DoW Instruction (DoWI) 1400.25-V2016. Each annual report must:

10.2.6.2.1. Include a copy of the Component's current foreign language pay policy or guidance, and copies of any related documents or communications issued on foreign language pay since the previous report.

10.2.6.2.2. Identify the total number of language-coded authorizations and official tasking that requests language and proficiency in support of mission requirements.

10.2.6.2.3. Identify the total number of DCIPS employees receiving foreign language pay and whether they are assigned to designated foreign language positions. Include a breakout of the number of DCIPS employees receiving foreign language pay by each language.

10.2.6.2.4. Identify the total amount of foreign language payments made in the past calendar year and a breakout of the amounts by language.

10.2.6.2.5. Identify, for Interagency Language Roundtable Level 3 proficiency and above (combined), the percentage of recipients paid, by language.

10.2.6.2.6. Discuss the current state of recruitment and fill of foreign language positions, including overages, trends, shortfalls, recommendations on foreign language pay policy, payment trends (by language and amount) from the previous year, and a brief statement on the effectiveness of incentive pay in recruitment.

11.0 SPECIAL CATEGORY EMPLOYEES

11.1 Overseas Employees

11.1.1. Canadian Employees

11.1.1.1. Canadian legal holidays are observed with no charge to leave. If an emergency requires work on a Canadian holiday, the employee must be paid premium pay at 1.5 times the regular rate of pay, plus either holiday pay equal to regular wages earned in the four weeks before the holiday divided by 20, or compensatory time off (subject to local labor laws per DoWI 1400.25-V1231). The legal Canadian holidays are listed in the FMM.

11.1.1.2. Canadian employees accrue sick leave at 4.25 hours each pay period, except 6.25 hours in the last pay period of the leave year. Total annual accumulation is 112.5 hours (15 days).

11.1.1.3. For Canadian employees, the workday is 7.5 hours and the workweek is 37.5 hours.

11.1.1.4. Canadian employees receive step increases until they reach the top step. A step increase requires the supervisor's written certification that the employee demonstrated an acceptable level of competence during the waiting period. The certification must be forwarded to the Human Resources Office before the effective date. Step increases are effective at the start of the first pay period after the anniversary date.

11.1.1.5. Retroactive pay adjustments for Canadian employees are based on the agreements covering Canadian Civil Service employees and are payable to employees separated during the retroactive period.

11.1.1.6. For Canadian employees, aggregate LWOP of more than 80 hours during the step-increase waiting period delays the increase. Extended LWOP also affects leave accruals.

11.1.1.7. Canadian national employees are eligible for all awards except quality step increases.

11.1.1.8. Employee Canada Pension Plan contributions are deducted from Canadian employees' salaries, and the U.S. Government pays the employer's contribution.

11.1.1.9. For Canadian employees, the U.S. Government pays an amount equal to the employee's contributions to the Registered/Retirement Pension Plan, up to the legal maximum of annual salary set under applicable Canadian law.

11.1.1.10. Canadian employees are paid a lump-sum severance amount per the schedule that follows.

11.1.1.10.1. Lay-off: two weeks of pay for the first complete year of continuous employment and one week for each additional complete year, to a maximum of 28 weeks.

11.1.1.10.2. Resignation: an employee who resigns with 10 or more years of continuous employment is paid one-half week of pay for each complete year, up to a maximum of 26 years, to a maximum of 13 weeks.

11.1.1.10.3. Retirement: an employee entitled on retirement to an immediate annuity (or an immediate annual allowance had the employee been under the Canadian Government Public Service Superannuation Act) is paid one week of pay for each complete year of continuous employment, to a maximum of 28 weeks.

11.1.1.10.4. Death: the employee's estate is paid one week of pay for each complete year of continuous employment, to a maximum of 28 weeks.

11.1.1.11. Canadian employees enrolled in the Ontario Health Insurance Plan are reimbursed an amount equal to the Canadian government contributions under the plan. Reimbursement claims must be supported by receipts and submitted annually by the end of the calendar year.

11.1.1.12. The U.S. Government participates in the Canadian Employment Insurance Program for Canadians employed in Canada by the DoW. DoW installations employing personnel in Canada must follow Canada Revenue Agency guidance. The U.S. Government contributes an amount equal to that paid by a Canadian government employer, and the employee's contributions are deducted from salary.

11.1.1.12.1. The PRO must use the Canada Revenue Agency T4001 Employer's Guide - Payroll Deductions and Remittances to determine insurable employment and earnings for withholding.

11.1.1.12.1.1. Funds must be withheld from the pay of all insurable Canadian employees at the rate set in the Canada Revenue Agency T4001 Employer's Guide.

11.1.1.12.1.2. The employer's share must equal 1.4 times the amount withheld from the employee's pay on each payroll voucher. The contribution is charged to the fund from which the employees' salaries are paid.

11.1.1.12.2. The DoW must not make retroactive payments of deductions to the Canada Revenue Agency if the employee has not given correct information to the employing installation. This includes adjudicated cases.

11.1.1.12.3. DoW records of deductions, contributions, and remittances are subject to audit by Canadian authorities. The PRO must send copies of records required by Canadian authorities on request; audit requirements may be met by sending copies of covered-personnel records and insurance remittance documents to the proper Canada Revenue Agency district office.

11.1.1.13. Canadian employees' income tax contributions are deducted from their biweekly salary.

11.1.1.14. Accidental life insurance is a voluntary contribution deducted from the Canadian employee's biweekly salary at the employee's request.

11.2 Reemployed Annuitants

11.2.1. Purpose

11.2.1.1. The Secretary of War has authority under 5 U.S.C. § 9902 to reemploy annuitants without a reduction in pay or annuity, as implemented in DoWI 1400.25-V300. A reemployed annuitant hired by DoW on or after November 25, 2003, may receive full annuity and salary upon appointment, with no salary offset for the annuity and no further retirement deductions. Exception: a discontinued service retirement (DSR) annuitant whose annuity is based on involuntary separation for reasons other than misconduct or delinquency, hired by DoW on or after November 25, 2003, may instead elect retirement contributions and earn further retirement credit rather than receive full salary plus annuity. See CSRS/FERS Handbook, Chapter 44.

11.3 Deceased Employees

11.3.1. Payment

11.3.1.1. When payment is to be made to the duly appointed legal representative of the estate or to a person entitled under the law of the deceased's domicile, the servicing PRO

may require the claimant to submit evidence of entitlement under state law. Such evidence includes, but is not limited to, funeral expense receipts, a small estate affidavit, trust documents, court orders granting summary administration, letters of administration, and, where necessary, the deceased person's will.

11.3.1.2. If the beneficiary's actions caused the death of the employee, the servicing PRO must not pay the employee's unpaid compensation to that person unless the PRO receives and determines that evidence clearly absolves the beneficiary of any felonious intent.

11.3.2. Computation

11.3.2.1. Allotment deductions for the pay period in which death occurred are not withheld.

11.3.3. The PRO does not deduct retirement, federal, state, or local income tax, health benefits, or life insurance from the lump-sum accrued-leave payment.

11.3.4. Death Gratuity Payments for Federal Employees

11.3.4.1. The gratuity payment is not wages for Social Security, Medicare, or federal, state, or local tax withholding. The Defense Finance and Accounting Service (DFAS) must prepare an IRS Form 1099-R, Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, and Insurance Contracts, and forward it to the personal representative.

11.3.4.2. Under 5 U.S.C. § 9904, DoW civilian employees assigned to certain activities outside the United States determined to be hazardous to life or health or that involve specialized security requirements may be eligible for benefits comparable to those the Secretary of State provides Foreign Service members under 22 U.S.C. § 3973. Per 22 U.S.C. § 3973, a death gratuity is paid when an employee dies from injuries received in the performance of duties. The gratuity amount equals Level II of the Executive Schedule under 5 U.S.C. § 5313 at the time of the employee's death. This gratuity must be paid as follows, regardless of other designated beneficiaries: First, to the widow or widower, as defined under 5 U.S.C. § 8101(6) and (11); or Second, to the child, or children as defined under 5 U.S.C. § 8101(9), in equal shares, if there is no widow or widower; or Third, to dependent parent, or dependent parents, defined under 5 U.S.C. § 8101(7), in equal shares, if there is no widow, widower, or child. If there are no survivors as indicated in subparagraph 5.9.2, the death gratuity must not be paid.

11.4 Legally Incapcitated Employees

11.4.1. The servicing HRO initiates an SF 50 action showing the employee's separation for mental incapacity, and may place the employee on extended leave of absence by an SF 50 action. Once the servicing PRO is notified that the employee is declared legally incapacitated, no

payments are made to the employee. A claim must be filed on the employee's behalf before the pay account can be settled. No specific form is required to claim amounts due mentally incapacitated or former employees, but the claim must be filed in writing over the signature of the person claiming on the employee's behalf. If the claimant is not a guardian or committee, the servicing PRO must consult its Office of General Counsel before making payment.

11.4.1.1. The initial claim filed by the guardian or committee of the estate of a legally incapacitated employee must include a court certificate showing the claimant's appointment and qualification as guardian or committee. After the first payment, subsequent recurring payments may be made to the same payee without further claim as long as the appointment remains in effect and the matter is otherwise free from doubt. Each subsequent payment voucher must cite the voucher on which the initial claim was paid.

11.4.1.2. If a guardian or committee has not been and will not be appointed, the initial claim must be supported by a sworn statement that includes the following information: the claimant's relationship to the legally incapacitated employee, if any; the name and address of the person having care and custody of the legally incapacitated employee; a remark that any amount paid to the claimant must be applied only to the use and benefit of the legally incapacitated employee; and a remark that no appointment of a guardian or committee is contemplated.

11.4.2. Claims for unpaid amounts owed to legally incapacitated employees may be paid once the claim and the claimant's entitlement have been verified.

11.5 Missing Persons, Captured or Interned

11.5.1. An employee in a missing status is entitled to receive or have credited to their account, for the period in that status, the same pay and allowances to which the employee was entitled at the start of that period or becomes entitled to after (5 U.S.C. § 5562). The servicing PRO retains responsibility for the employee's pay, leave, and retirement records.

11.5.2. Termination

11.5.2.1. If the employee returns from missing status, a statement of the special leave account balance must be furnished to the HRO. The employee must elect in writing to receive either a payment or a credit for the leave. If the employee requests payment, the payment is made using the employee's rate of pay in effect at the time the leave was forfeited.

11.5.2.2. If the employee returns from missing status, the agency must charge the pay adjustment or final settlement, including local allotment payments to dependents, to the employee's appropriated fund account.

11.6 Temporary and Term Employment

11.6.1. Purpose

11.6.1.1. Temporary and term appointments fill positions when there is no continuing need for the job. Employees in either category are not entitled to competitive status or reinstatement eligibility based on this service. Within DoW, temporary and term appointments may last longer than the time restrictions of 5 CFR Part 316 and may allow such employees consideration for permanent employment.

11.6.2. Temporary Employment

11.6.2.1. Per DoW policy, a component may make a temporary appointment to:

11.6.2.1.1. Noncompetitively fill a short-term position based on a critical hiring need not expected to last more than 1 year. A critical hiring need means the need to fill the position(s) to meet mission requirements brought about by circumstances such as extraordinary workload or unusual or unanticipated events creating the need to fill the position(s). Such appointment may be extended up to 6 additional months but must not exceed a total of 18 months and does not convey noncompetitive conversion to any other appointment. See Deputy Secretary of War Memorandum, "Noncompetitive Temporary and Term Appointments to Meet Critical Hiring Needs in the Department of Defense," dated July 14, 2017; and

11.6.2.1.2. Temporarily fill a position for less than 1 year and extend such appointment in increments of up to 1 year, not to exceed a total of 3 years. See the OUSD (P&R) Memorandum "Modification of Temporary and Term Appointments Within the Department of Defense," dated June 12, 2017 as modified by Deputy Secretary of War Memorandum "Extensions of Term Appointments in the Competitive Service in the DoW," dated August 10, 2018 and 5 CFR 316.401.

11.6.3. Term Employment

11.6.3.1. Per DoW policy, a component may make a term appointment to:

11.6.3.1.1. Noncompetitively fill a short-term position based on a critical hiring need expected to last more than 1 year. Critical hiring need means the need to fill the position(s) to meet mission requirements brought about by circumstances such as extraordinary workload or unusual or unanticipated events creating the need to fill the position(s). Such appointment must not exceed a total of 18 months and does not convey noncompetitive conversion to any other appointment. See Deputy Secretary of War Memorandum, "Noncompetitive Temporary and Term Appointments to Meet Critical Hiring Needs in the Department of Defense," dated July 14, 2017;

11.6.3.1.2. Fill a position initially for more than 1 year, but not more than 6 years. Components may extend term appointments beyond 6 years and up to 8 years in increments of up to 1 year according to policy. Under certain conditions prescribed in policy, an employee in a term position may be noncompetitively converted to a career or career-conditional appointment. See the OUSD (P&R) Memorandum "Modification of Temporary and Term Appointments Within the Department of Defense," dated June 12, 2017 as modified by Deputy Secretary of War Memorandum "Extensions of Term Appointments in the Competitive Service in the DoW," dated August 10, 2018; and

11.6.3.1.3. Per the direct-hire authority, initially appoint a current post-secondary student for a period expected to last more than 1 year and not to exceed the time limits stated in 5 CFR 316.301, to include any future legislative or regulatory modification to those limits. Within 120 days of successful completion of their academic program, the student may be noncompetitively converted into a career or career-conditional appointment. See the OUSD (P&R) Memorandum "Modification of Direct-Hire Authority for the Department of Defense for Post-Secondary Students and Recent Graduates," dated January 15, 2019.

11.7 Air Traffic Controllers (ATC)

11.7.1. Differential pay is authorized for certain DoW employees. The Secretary of War has authorized 5 percent ATC premium pay under 5 U.S.C. § 5546a(a)(1). Payment of the premium is mandatory for DoW ATCs in the GS-2152 occupational series who occupy a position no lower than GS-9 at air traffic control centers, terminal or flight service stations. The HRO provides this information to the servicing PRO via an SF 50.

11.8 Personnel on Long-Term, Full-Time Training

11.8.1. Leave

11.8.1.1. Personnel on long-term, full-time training continue to accrue annual leave. Ordinarily, an employee is charged annual leave during school vacation periods that fall on government workdays unless the employee returns to the work site or has made documented arrangements with their DoW point of contact to be actively involved in academic work. These documented arrangements should be made well in advance of the vacation periods. Annual leave charges are reported on the employee's time and attendance report. See OPM Training and Development Policy.

11.9 Emergency Medical Technician (EMT)

11.9.1. EMTs and paramedics work various schedules including the basic 40-hour workweek, compressed work schedules, and uncommon tours of duty. An uncommon tour of duty means an established tour of duty that exceeds 80 hours of work in a biweekly pay period. See

5 CFR 630.201. Schedules and changes to tours of duty for an EMT or paramedic working uncommon tours must be on file in the employing activity/timekeeper site. Sleep and meal time must also be documented. The EMT's hourly rate is multiplied by 40 hours, and base pay and premium pay are based on this weekly rate regardless of the hours in the scheduled tour of duty for that week.

11.9.2. The HRO determines the amount of premium pay for the irregular tour of duty and reports it on the SF 50. An EMT employed as an intermittent employee is not entitled to premium pay on an annual basis or to paid leave. An EMT is paid under regular overtime rules. Refer to 5 CFR Part 551 for additional guidance on pay administration for EMTs under FLSA.

11.10 Firefighters

11.10.1. Trade-of-Time

11.10.1.1. Both firefighters in a trade-of-time arrangement must be supervised by the same fire chief and must be capable of performing the core duties that could be required during traded hours. If one firefighter under an arrangement is at a lower grade than the other, the fire chief may withhold approval when the affected unit would not have the skills among those assigned to an affected shift to accomplish its mission.

11.10.1.2. Firefighters may trade only hours within the firefighter's regular tour of duty established for leave-charging purposes. Trading time is not restricted to the same pay period.

11.10.1.3. Firefighters may agree to substitute either entire shifts or a portion of a shift.

11.10.1.4. All trading time agreements must be in writing and signed by both firefighters and the fire chief before a trade can occur. The agreements must contain the elements required by OPM's Memorandum, Firefighter Trading Time Policy.

11.10.1.5. Proposed trade-of-time arrangements are not entitlements. Reasons for disapproval may include, but are not limited to:

11.10.1.5.1. The proposed arrangement would result in either firefighter having a balance of committed but not-yet-executed substitution hours, under one or more pending-completion qualified trade-of-time arrangements, in excess of 144 hours.

11.10.1.5.2. A proposed substitution would occur more than 1 year after the date the qualified trade-of-time arrangement was approved.

11.10.1.5.3. Either firefighter owes a debt of hours to the agency, as described in subparagraph 16.11.3.5.

11.10.1.5.4. The arrangement involves trading hours for which pay is computed using a different methodology. The pay of both firefighters must be determined using the same methodology.

11.10.1.6. If a substituting firefighter fails to work during the agreed-upon substitution period, the excused firefighter is entitled to credit for hours and pay as if the substitution had been made. The substituting firefighter becomes indebted to the agency and must later perform work outside the firefighter's tour of duty to satisfy the debt of hours, as assigned by an authorized agency official.

11.10.1.6.1. Debt-repayment hours are not credited as hours of work in determining the firefighter's pay entitlements in the pay period in which they are performed.

11.10.1.6.2. A substituting firefighter who, without authorization, fails to report when scheduled to substitute under a qualified trade-of-time arrangement is considered AWOL and subject to appropriate discipline, unless the DoW component retroactively approves the absence after reviewing the circumstances.

11.10.1.6.3. A firefighter who owes a debt of hours and, without authorization, fails to report when scheduled to perform work to satisfy that debt is considered AWOL and subject to appropriate discipline, unless the DoW component retroactively approves the absence after reviewing the circumstances.

11.10.1.7. A firefighter with a debt of hours may not enter into a new trade-of-time arrangement until the debt is eliminated.

11.10.1.8. A firefighter owing a debt of hours may be allowed to reduce or eliminate the debt by agreeing to adjustments in the firefighter's balances of annual leave, compensatory time off (for overtime work, travel, or religious observances), or paid time-off awards, if allowed by DoW component policies.

11.10.1.8.1. If a firefighter owes a debt of hours when separating from Federal service, transferring to a different agency, or moving to a position in the same agency in which the employee is no longer an eligible firefighter, the debt must be recovered to the extent possible by offsetting any balances of annual leave, compensatory time off (for overtime work, travel, or religious observances), or paid-time-off awards.

11.10.1.8.2. Any remaining hours debt must be converted to a monetary debt owed to the agency. The monetary debt is determined from the firefighter's pay entitlements

at separation and the hourly value of the hours using the same method used to compute the cash value of annual leave hours, except that no increase based on post-separation pay-rate increases applies (the increases that would otherwise apply in the lump-sum annual-leave payment based on projection of the lump-sum leave period). See 5 CFR 550.1204.

11.10.1.9. Credit for hours and associated pay for an excused firefighter must be determined as if the excused firefighter performed the work performed by the substituting firefighter; a substituting firefighter may not receive credit for hours and associated pay based on periods of substitution. Hours worked by a substituting firefighter under a qualified trade-of-time arrangement must be disregarded when determining that firefighter's eligibility for overtime pay or calculating such pay under 29 U.S.C. ch. 8 (Fair Labor Standards Act) and 5 U.S.C. 5542(h)(1)(A). Instead, the excused firefighter must be credited with hours worked by the substituting firefighter in determining the excused firefighter's overtime pay entitlements.

11.10.1.10. Hours worked by a substituting firefighter under a qualified trade-of-time arrangement are included in creditable service for leave accrual, retirement, and other purposes for the excused firefighter, not the substituting one.

11.10.1.11. A firefighter injured while substituting for another firefighter under a qualified trade-of-time arrangement is not, by reason of that substitution, affected in the substituting firefighter's possible entitlement to workers' compensation benefits.

11.10.1.12. A substituting firefighter is considered to be in the performance of duty during a period of substitution for workers' compensation purposes, except that any payments (such as continuation of pay) for the remainder of the affected biweekly pay period must be based on pay to which the substituting firefighter is entitled, without regard to pay for hours worked on behalf of an excused firefighter.

11.10.1.13. Excused firefighters are not considered to be in the performance of duty during the period when a substituting firefighter is working on their behalf.

11.10.1.14. If a firefighter had been scheduled, before the work injury, to work as a substituting firefighter during a future period when the firefighter is receiving continuation of pay or wage-loss compensation, the firefighter's leave status is considered to satisfy the firefighter's work-hours obligation, but only if the other firefighter under the affected qualified trade-of-time arrangement had already completed their part of the trade.

11.10.1.15. If neither firefighter had completed their respective parts of the trade before the work injury leading to workers' compensation benefits, the trade-of-time arrangement is automatically cancelled.

September 2026

11.10.1.16. DoW components must keep records of a qualified trade-of-time arrangement, including uncompleted arrangements, for 4 years after the last substituted work performed under the arrangement.

11.10.1.17. DoW components must keep current records showing pending-completion qualified trade-of-time arrangements for each firefighter, including the current balance of hours committed but not yet executed for substitution, as required to apply the rule in subparagraph 16.11.3.4.1.

11.11 Judges

11.11.1. Judges

11.11.1.1. Upon becoming eligible for retirement, judges may elect to receive a retirement annuity from the DoW Military Retirement Fund (MRF) in lieu of an annuity under CSRS or FERS; survivor and former-spouse annuities may also be elected. See 10 U.S.C. 945. The DFAS Indianapolis site serves as the payment-records office for retiree and survivor entitlements and must perform functions such as:

11.11.1.1.1. DFAS must maintain individual retirement records of individuals who elect annuity benefits under 10 U.S.C. 945.

11.11.1.1.2. DFAS must issue annuity payments from moneys in the DoW MRF, including collecting applicable federal and state income taxes and debts owed the U.S. Government.

11.11.1.1.3. DFAS must arrange with OPM for transfer of moneys, including interest payments authorized under 10 U.S.C. 945(a)(3)(A), from the Civil Service Retirement and Disability Fund (CSRDF) to the DoW MRF.

11.11.1.1.4. DFAS must withhold, as appropriate, contributions from the annuity for FEHB and FEGLI, make correct agency contributions, and transmit these moneys to the CSRDF.

11.11.1.1.5. DFAS must readjust the annuity payment when events change the retiree or survivor entitlements.

11.11.1.1.6. DFAS must account for retirement moneys received from OPM and disburse them to benefit recipients, insurance carriers, and federal and state tax entities.

11.11.1.1.7. DFAS must cease annuity payment if the employee elects judiciary retirement benefits under 10 U.S.C. 945(g).

11.11.1.2. Judges receiving an annuity under 10 U.S.C. 945 must notify WHS of their election of judicial retirement benefits under 10 U.S.C. 945(g).

11.12 Auxiliary Chaplains and West Point Military Academy Chaplains

11.12.1. Civilian clergy may be assigned to perform essential religious services of the chapel program beyond the staffing capabilities of commissioned officer Armed Forces chaplains. Auxiliary chaplains normally perform their services on military installations. To serve as auxiliary chaplains, civilian clergy must be ordained or accredited by a faith group recognized by the Armed Forces Chaplains Board and must meet any additional qualifications required by the Armed Forces.

11.12.2. Appointing and Paying Auxiliary Chaplains

11.12.2.1. Auxiliary chaplains may be appointed by the HRO on an intermittent basis. They are paid on a fee basis from the employing activity's appropriated funds for civilian personnel, such as Operation and Maintenance funds. The HRO may appoint auxiliary chaplains under the excepted service authority in 5 CFR 213.3101.

11.12.2.2. Auxiliary chaplains employed on an intermittent basis have no work schedule. They are paid for religious services performed.

11.12.2.3. Auxiliary chaplains have no entitlement to leave.

11.12.2.4. The employing activity's HRO determines the pay scale for auxiliary chaplains. Social Security, Medicare, and federal and state income tax withholdings are made per the tax documents the chaplain files. These withholdings do not apply to chaplains under non-personal service contracts.

11.12.3. Under 10 U.S.C. § 7437, the President may appoint a chaplain to serve at the United States Military Academy at West Point. The civilian chaplain is entitled to a monthly housing allowance equal to the basic allowance for housing (BAH) allowed a lieutenant colonel and to fuel and light for quarters. Because utility costs are already factored into the BAH rate, no separate allowance for fuel and light is paid. The chaplain's salary is taxable and subject to income, Social Security, and Medicare tax withholding. The BAH is not subject to income tax withholding under 26 U.S.C. § 107, which excludes from a minister's gross income the value of rental allowances received for a home. Social Security and Medicare taxes must be withheld from the BAH.

11.13 Service Secretaries

11.13.1. Time and attendance is not reported for Service Secretaries. Accrual or use of annual and sick leave is not authorized. Military Department Secretaries are not eligible for premium pay.

11.14 LEOS

11.14.1. Premium Pay

11.14.1.1. The HRO determines the rate of annual premium pay for standby duty and sends it via SF 50 to the servicing PRO. (See Section 5, Table 4-1 for the deductions withheld.) Standby duty pay is generally not used for federal law enforcement employees; for more information, refer to Section 4. Standby duty pay under 5 CFR 550.141 may not be paid to an LEO receiving availability pay. See 5 CFR 550.163.

11.15 Military Sealift Command (MSC)

The pay of officers and crew members of vessels must be fixed and adjusted from time to time as nearly as is consistent with the public interest per prevailing rates and practices in the maritime industry. See 5 U.S.C. § 5348. Hours of work and premium pay for MSC civil service mariners are covered by Department of the Navy Civilian Marine Personnel Instruction 610, Hours of Work and Premium Pay, approved by the Department of the Navy's Office of Civilian Human Resources. Base wage and premium pay scales for MSC civil service mariners are approved by the DoW Wage Setting Authority in coordination with OPM.

11.16 De Facto Employees

11.16.1. Payment of De Facto Employees

11.16.1.1. Payment of de facto employees for services rendered to the government depends on the facts of each individual's situation. The employing agency must make a determination identifying the employee as a de facto employee who acted in good faith and must convey that determination to DFAS. The employing agency must submit a payroll processing request to initiate payment of a de facto employee. An agency de facto determination invalidates any debt established for wages paid.

11.17 Highly Qualified Experts (HQES) and Highly Qualified Experts-Senior Mentors (HQES-SMS)

11.17.1. Employees hired as HQEs are given "Excepted Not-to-Exceed" appointments (up to 5 years) under an Experts Other pay plan. The HQE or HQE-SM must sign a written service agreement.

11.17.2. HQEs and HQE-SMs are not eligible to receive performance awards.

11.18 Research Positions in the Scientific and Technology Reinvention Laboratories (STRL)

The 2023 NDAA (PL 117-263) authorized the Secretary of War to carry out a program to fix the rate of basic pay, not to exceed 150 percent of Level 1 of the Executive Schedule, for certain research and technology positions in the DoW STRL. These positions are term and temporary appointments not to exceed 5 years. See 10 U.S.C. § 4094 and 87 FR 40200.

12.0 ALLOTMENTS AND VOLUNTARY DEDUCTIONS

12.1 Allotments

12.1.1. Mandatory Allotments

12.1.1.1. An employee may file an SF 1188, Cancellation of Payroll Deductions for Labor Organization Dues, to cancel an allotment. However, any written request signed by the employee that contains sufficient information may be acceptable. Unless the collective bargaining agreement states otherwise, the employing activity must furnish the SF 1188 to employees upon request.

12.1.1.2. If an employee is suspended or expelled from membership in the labor organization, termination of dues is effective the first pay period after the Defense Finance and Accounting Service (DFAS) receives written notification from the labor organization that the employee was suspended or expelled.

12.1.1.3. The agency must automatically terminate a labor organization dues allotment when the employee ceases to be a member of the bargaining unit. The employee need not submit a cancellation form or take any other action to terminate the allotment. If the agency does not terminate the allotment in a timely manner, the PRO must refund any erroneously deducted dues, without interest, to the employee. The agency has a claim against the labor organization for the overpayment amount.

12.1.1.4. If the salary is sufficient to cover the deduction, the PRO must deduct the full allotment amount each pay period even if the employee is in a pay status for only part of a pay period. The PRO must make no deduction if the salary is insufficient to cover the full allotment deduction.

12.1.1.5. The PRO must not make retroactive deductions for a period during which the employee's net pay was insufficient to cover the allotment, and must not make adjustments in future pay periods for amounts it failed to deduct during a current pay period.

12.1.1.6. Eligible employees enrolled in a high deductible health plan (HDHP) may establish a Health Savings Account (HSA) with a trustee or custodian and request allotments to fund it. The allotment continues until the employee revokes or modifies the election, and an employee may modify an HSA allotment at any time to effect a prospective change. Employees are responsible for ensuring their enrollment and contributions comply with IRS rules and stay within annual limits set under 26 U.S.C. 223. Payroll providers are not responsible for verifying employee eligibility or confirming that employee contributions are within annual limits.

12.1.2. Discretionary Allotments

12.1.2.1. An employee may elect to contribute voluntarily to the Military Welfare Societies (MWSs) as an authorized charitable campaign. The MWSs include the Army Emergency Relief Society, the Navy-Marine Relief Society, and the Air Force Aid Society. Except for the Combined Federal Campaign (CFC), MWSs must not solicit Federal civilian employees.

12.2 Federal Employees Health Benefits (FEHB)

12.2.1. FEHB Premium Contributions

12.2.1.1. The PRO must not deduct the regular biweekly FEHB premium withholding from an employee's lump-sum leave (LSL) payment. The PRO may collect from the LSL payment any previously established debt resulting from the employee's underpayment or failure to pay premiums.

12.2.1.2. When an employee transfers from one PRO to another without a break in service of more than 3 days, health plan enrollment and coverage continue without change. Each PRO is responsible for FEHB premium withholdings and contributions for the time the employee occupied a position it serviced. If the employee transfers to a different PRO other than on the first day of the pay period, the PRO must prorate the withholdings and contributions using the Daily Proration Rule (see paragraph 3.2.7).

12.2.1.3. If an employee retires and is eligible to continue enrollment as an annuitant, the PRO's responsibility for FEHB premium withholdings and contributions is based on the annuity start date. If the annuity starts after the end of the final pay period, the PRO makes withholdings and contributions for the entire final pay period. If the annuity starts before the end of the final pay period, the PRO makes withholdings and contributions through the day before the annuity start date using the Daily Proration Rule. OPM makes withholdings beginning with the annuity effective date.

12.2.1.4. If an employee dies and there is no survivor annuity, or the employee maintained self-only enrollment, the PRO must make full FEHB premium withholdings and

contributions for the pay period in which the employee dies. If a survivor annuitant is eligible to continue enrollment, the PRO must prorate the calculation using the Daily Proration Rule and the employee's date of death.

12.2.1.5. An employee restored to duty retroactively after an erroneous suspension or removal may elect to have enrollment retroactively reinstated or may enroll in the plan and option of choice as a new employee. If the employee elects retroactive reinstatement, the PRO must take premium deductions for the suspension or removal period from the retroactive pay adjustment (back pay award) and must make the government premium contributions as though the suspension or removal had not occurred.

12.2.1.6. If enrollment is terminated or reinstated because of an employee's entry into or return from military service, the PRO must apply the Daily Proration Rule. The effective date of the action is the date the employee entered or returned from military service.

12.2.1.7. During LWOP or insufficient pay, the employee remains responsible for paying the employee's share of the FEHB premium unless the employee terminates enrollment. The PRO must not withhold the employee's share for a pay period when the employee is on LWOP or has pay insufficient to cover the full premium. The PRO must continue to forward the full FEHB premium (government contribution and employee share) to OPM each pay period, must advance salary to cover the employee's share, and the employee incurs a debt for the advance.

12.2.1.8. The payroll system must be capable of identifying all employees on LWOP or with pay insufficient to cover premiums. The PRO must provide written notice to the employee as soon as it becomes aware that premium payments cannot be withheld from the employee's salary. The PRO must provide the notice per the FEHB Handbook and 5 CFR 890.502(b), sent by first-class mail or delivered in person; if mailed, the notice is considered received 5 days after its date. The notice must advise the employee of the following: Options for continuing or terminating enrollment; effect of termination; if the employee decides to continue coverage, the employee must agree to pay the premium directly, incur a debt, or pre-pay premiums; if the employee elects to incur a debt or fails to pay the entire amount due, the employee thereby agrees to repay the debt in full and allow the debt to be collected by salary offset. The notice should indicate that if the debt cannot be collected by salary offset, it will be recovered from a LSL payment, income tax refunds, retirement payments, or any other source available for the recovery of a debt due the government; and if the employee does not complete the election indicating whether the employee chooses to continue or terminate enrollment and return the notice within 31 days after receipt (45 days if the employee lives overseas), enrollment will automatically terminate.

12.2.1.9. If the employee elects to continue coverage, the employee may pay premiums directly to the employing agency while on leave (pay-as-you-go), incur a debt for unpaid premiums while on leave (catch-up), or pre-pay premiums before going on LWOP. The PRO must

notify the employee of the available choices (using the notice in paragraph 3.2.6.3) and must provide the employee a method to make direct premium payments. An employee who elects to incur a debt must repay it in full or be subject to debt collection. Pre-paid premiums may be deducted from pay or paid out-of-pocket; out-of-pocket payments are after-tax monies.

12.2.1.10. If the employee does not sign and return the written notice within 31 days of receipt (45 days for overseas employees), the PRO must terminate the enrollment on the SF 2810. The effective date of termination is retroactive to the end of the last pay period in which premiums were withheld from pay.

12.2.1.11. If the employee does not continue to make premium payments during LWOP, the PRO must recover the employee's share of the FEHB premium from the annuity or workers' compensation benefits payment. If the employee's share was paid during LWOP and withholding is also taken from the annuity or workers' compensation benefits for the same period, the PRO must refund the duplicate amounts to the employee. If the disability retirement annuity does not begin on the day after the last day of pay, the PRO must not refund premium payments until it receives an OPM notice that the disability retirement application is approved.

12.2.1.12. A temporary employee enrolled in FEHB must pay both the employee share and the government share of premiums during LWOP. If the employee accepts a temporary position with another employing office, the enrollment must transfer from the original office to the new office. If the employee is still in LWOP when the temporary position at the new office ends, the enrollment must transfer back to the original office. The original office must determine the remaining time the employee may continue FEHB coverage under LWOP and must terminate the enrollment if the original temporary position has expired. Both offices must coordinate so that withholdings and contributions are made timely.

12.2.1.13. The Daily Proration Rule is the formula used to calculate partial employee withholdings and government contributions for FEHB premiums. Unless otherwise provided, the PRO must make the full withholding and contributions for each pay period even if the employee is in pay status for only part of the period. The PRO uses the Daily Proration Rule to compute partial withholdings and contributions under the following circumstances: The employee transfers to a position serviced by a different PRO other than at the beginning of a pay period; The employee retires other than at the end of a pay period and is eligible to continue FEHB enrollment; The employee dies, and there is a survivor annuitant eligible to continue FEHB enrollment; or The employee terminates or reinstates enrollment because of entry into or return from military service.

12.2.1.14. Each PRO (gaining and losing) is responsible for FEHB withholdings and contributions for the actual time the employee occupied a position the PRO serviced. The PRO must compute daily FEHB premium withholding and contribution rates as follows.

12.2.1.15. The PRO must record payments received or payroll deductions withheld in the OPM deposit fund for FEHB withholdings. If the employee separates, the PRO must offset the amount owed against any entitlements due. If the employee retires and final pay does not cover the debt, the PRO must use OPM Form 1522 to offset against a CSRS or FERS annuity and annotate the SF 2806 (CSRS) or SF 3100 (FERS) that the separating employee was indebted. There is no minimum amount subject to offset. The PRO must refund any duplicate payments that are later offset.

12.2.1.16. When an employee with a debt for unpaid FEHB premiums transfers to a different PRO, the PRO must show the date of last withholding and amount due on the SF 1150, Record of Leave Data. The gaining PRO must collect amounts due, pay them to the former employing office, and report them to OPM.

12.2.2. Retroactive Changes and Adjustment of Errors

12.2.2.1. If an employee retroactively changes from self and family to self only, the PRO must make corrective adjustments to refund premiums back to the beginning date of the coverage change the employing agency provided. The Barring Act (statute of limitations) under 31 U.S.C. 3702(b)(1) does not apply to these changes.

12.2.2.2. If the PRO overdeducts the FEHB premium owed by the employee, the PRO must refund the overdeduction to the employee and adjust the government contribution in a subsequent pay period.

12.2.3. Temporary Continuation of Coverage (TCC)

12.2.3.1. Once the HRO establishes TCC eligibility, the HRO must forward the election form to the National Finance Center (NFC), which administers the TCC program for DoW. The NFC notifies eligible individuals, provides benefit information, processes enrollment changes and cancellations, collects premiums, and sends them to OPM.

12.3 Allotments for Federal Flexible Spending Account Program (FSAFEDS)

12.3.1. Allotments for FSAs

12.3.1.1. Allotments withheld from the employee's pay must be forwarded to BENEFEDS on the same date payroll is paid.

12.3.1.2. Upon the employee's return to pay status, the PRO must restart the allotment. FSAFEDS recalculates future allotment amounts based on the number of pay dates remaining in the benefit period so the employee reaches the annual election amount.

12.4 Federal Employees Group Life Insurance (FEGLI)

12.4.1. FEGLI Premium Withholdings and Contributions

12.4.1.1. During each pay period in which an insured employee is in pay status for any part of the period, the PRO must withhold the employee's share of the FEGLI premium from biweekly pay. Premium withholding is subject to the following requirements.

12.4.1.1.1. If the employee dies or separates during a pay period, the PRO bases the withholding on the amount of insurance in force on the date of death or separation.

12.4.1.1.2. If the employee's BIA changes during the pay period, the PRO bases the withholding amount on the BIA last in force during the pay period.

12.4.1.1.3. If the employee works less than 52 weeks per year, the PRO must convert the biweekly rate to an annual rate, then prorate the annual rate over the number of pay periods in the year to determine the withholding amount.

12.4.1.1.4. The PRO must report FEGLI withholdings and contributions to OPM each pay period as described in Section 10. See 5 CFR 870, subpart D.

12.4.1.2. Withholdings must be made from an employee's salary when the employee is in pay status for any part of a pay period. If salary is insufficient to permit all payroll deductions, the PRO must use the order of precedence for deductions in Section 5. After all other required deductions are made, if pay is not enough to cover the full life insurance premiums, the amount withheld must first apply to Basic insurance, then any remaining pay must apply to Optional insurance (first Option B, then Option A, then Option C). See 5 CFR 870.404(f).

12.4.1.3. The HRO must review and determine insufficient pay when an employee's pay, after all other applicable deductions, is expected to be insufficient to cover the premiums for 6 months or more, and must notify the employee. The employee may reduce or cancel other deductions or reduce FEGLI coverage to increase available pay, or may elect to make direct payments to the employing office for periods of insufficient pay. If the employee does not make direct payments, adjust, or cancel coverage, the HRO will terminate coverage as follows:

12.4.1.3.1. The HRO must terminate all coverage if pay is not sufficient for any premium withholding.

12.4.1.3.2. If the employee has pay available to cover part of the premiums, the HRO must administratively terminate as much coverage as necessary to allow premium withholdings in the following order: Multiples of Option C, Option A, Multiples of Option B, then Basic insurance.

12.4.1.4. If the HRO terminated coverage administratively, the HRO must automatically reinstate FEGLI coverage when the employee's pay becomes sufficient to cover the withholdings. If an employee paid premiums directly, the employing office must start withholding premiums as soon as the pay becomes sufficient.

12.4.1.5. Except as described at subparagraph 6.10.1, the PRO makes no FEGLI premium withholdings from back pay awarded to an employee determined to be erroneously suspended or terminated.

12.4.1.6. No insurance premium is withheld from the LSL payment when the employee separates from Federal service. If the employee has an established debt being collected for underpayment of premiums, the agency may collect the debt from the LSL payment.

12.4.2. PROs must cooperate with the OFEGLI when it requests pre-payment verification. The OFEGLI must obtain verification before paying beneficiaries of enrollees with $200,000 or more of FEGLI coverage, and will request the insured's current salary, annual salary (if different), and Optional insurance enrollment details, if applicable.

12.4.3. Retroactive Changes and Adjustment of Errors

12.4.3.1. If an employee receives a retroactive pay increase delayed beyond its effective date due to administrative error or oversight, and the increase raises life insurance premiums, the PRO must apply the increased premium deductions retroactively.

12.4.3.2. When the PRO erroneously overwithholds premiums from an employee's salary, the PRO must refund the erroneous withholding to the employee the next pay period. This automatically corrects the excess government contribution.

12.4.3.3. When less than the proper amount of FEGLI premiums is withheld from an employee's salary, the underdeduction is an overpayment of regular pay that must be collected as a debt (see Volume 16); collection may be exempt from due-process requirements under 5 CFR 550.1104(c). The agency must submit the uncollected amount due, including government contributions, to OPM within 60 calendar days after the agency discovers the underdeduction, regardless of whether collection from the employee has been made. Government contributions must be adjusted when payment is received from the employee.

12.4.3.4. When the PRO must adjust withholdings for a separated employee, it withholds the adjustment from the final salary payment to the employee (or, if deceased, to the employee's beneficiary or estate).

12.5 Disability Insurance for Employees of the Uniformed Services University of the Health Sciences (USUHS)

Full-time civilian faculty appointed to an Administratively Determined (AD) position of the USUHS School of Medicine receive mandatory long-term disability insurance coverage. To participate, the employee must be covered under the Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF) or the Fidelity Investments program. The employer and employee each contribute 50 percent of the premium. USUHS AD employees covered under FERS or CSRS are not eligible for the plan.

12.6 National Guard Association of United States (NGAUS) Insurance Trust (IT) Program

Army and Air National Guard Technicians (Title 32 Technicians) may choose to participate in the NGAUS Insurance Trust (NGAUS-IT), which provides disability and life insurance through its underwriter, ReliaStar Life Insurance Company. Participating Technicians agree on the NGAUS-IT enrollment form to have premiums deducted from their biweekly pay. ReliaStar confirms enrollment approval and notifies the CSRs of deduction start dates, amounts, and any revisions due to age or salary changes; CSRs enter the deduction information into the DCPS. The PRO deducts premiums for the entire pay period regardless of the day of termination, and proration is not required.

12.7 Thrift Savings Plan (TSP)

12.7.1. Correction of Late Contributions

12.7.1.1. The PRO must submit late contributions to TSP as soon as the error is discovered and must show the "as of" date for the contributions. TSP calculates breakage for both employee and agency contributions per 5 C.F.R. 1605.15.

12.7.2. Correction of Employing Agency Errors

12.7.2.1. The PRO must issue written notification to the employee acknowledging that an agency error caused a smaller amount of employee contributions than should have been made. The notification must advise the employee that they may, but are not required to, elect a schedule to make up the deficient contributions through future payroll deductions. The employee has 30 days from receipt of the notification to set up a makeup schedule.

12.7.3. Corrections Following

12.7.3.1. The employee receives the tax benefit in the year the contributions are made. The PRO must annotate retroactive employee contributions by year on the IRS Form W-2, Wage and Tax Statement.

12.7.4. Contributions Missed

12.7.4.1. The PRO must deduct USERRA makeup employee contributions from future pay. Employees must meet the conditions in 5 C.F.R. 1620.40. The allowable makeup amount is offset by amounts the employee contributed to TSP while performing military service, and total contributions must not exceed the IRS limit in effect for the year the contribution would have been made.

12.8 Post-56 Military Deposit

12.8.1. General

12.8.1.1. An employee may make a Post-56 Military Deposit in installments or a lump sum. Installments must be in whole dollar amounts of not less than $25 per pay period, except the last payment, which may be any amount to complete repayment. Unpaid balances accrue interest at the rate OPM sets through BALs. The employee must submit payments other than payroll deductions directly to pay.gov or to DFAS-Cleveland, ATTN: J3DCBB/559, 1240 East 9th Street, Cleveland, OH 44199. Payment must be a negotiable instrument payable to "Disbursing Officer." Mailed payments must reach the disbursing officer by the close of business on the last regular business day before the interest accrual date; the date of receipt by the disbursing officer, not the postmark, is the date of payment. The PRO computes interest on the unpaid balance on the employee's interest accrual date.

VOLUME 9

TRAVEL POLICY

1.0 GENERAL

1.1 Overview

The policies addressed in Volume 9 apply to all personnel traveling under orders funded by the DoW. The scope and provisions in the volume align with the Joint Travel Regulations (***JTR***) which is the overarching directive for travel and entitlements.

This includes military members, civilian employees, members of the Reserve Components, dependents on official orders, and travelers on DoW invitational travel authorizations. Individual DoW Component travel implementing guidance remains in use to provide direction for travel order preparation, administration and accounting. General policy guidance to official travelers on transportation allowances is also provided.

1.2 Authoritative Guidance

Refer to the authoritative guidance document on the AskDFAS webpage.

1.3 Definitions

Refer to the Glossary of terms document on the AskDFAS webpage.

1.4 Procedures

Refer to the procedures document listed on the AskDFAS webpage.

2.0 VOLUME INFORMATION

The policies addressed in this section apply to all personnel traveling under orders funded by the DoW. This includes military members, civilian employees, members of the Reserve Components, dependents on official orders, and travelers on DoW invitational travel authorizations.

2.1 Additional Guidance

2.1.1. Additional guidance pertinent to the U.S. Air Force and Space Force is in the Department of the Air Force Instruction 24-602, Volume 1, Passenger Movement.

2.1.2. Additional guidance pertinent to the U.S. Navy is available in the Navy Passenger Transportation Manual (OPNAVINST 4650.15C CH-1).

2.1.3. Additional guidance pertinent to the U.S. Marine Corps is in the Marine Corps Assignment, Classification, and Travel System Manual (ACTSMAN).

2.1.4. Additional guidance pertinent to the use of Nonappropriated Funds is in the DoW Instruction 1400.25, Volume 1405.

2.2 Exceptions

The Office of the Under Secretary of Defense (Comptroller) (OUSD(C)) is the approving authority for exceptions to policy. Requests for exceptions must include a justification, a recommendation and approval from the appropriate DoW Component command channel at or above the level of the Deputy Chief Financial Officer (DCFO), OUSD(C). Send requests through the appropriate DoW Component to the Defense Finance and Accounting Service (DFAS), Director, Accounting and Finance Policy Division (DFAS-ZPT), 8899 E. 56th Street, Indianapolis, IN, 46249. DFAS-ZPF will review and recommend approval/disapproval to the DCFO, OUSD(C), who will make the final decision.

2.3 Effective Date of JTR Changes

See the information on "EFFECTIVE DATE OF REGULATION CHANGES" in the Introduction to the JTR for explanations of JTR effective dates. The DFAS-ZPT may release policy memorandums affecting Volume 9 that implement PDTATAC determinations, if necessary. These policy memorandums remain in effect until published in a change to Volume 9.

2.4 Responsibilities

The OUSD(C) has ultimate responsibility for the policies contained in Volume 9. The DoW Components may submit requests for changes to DFAS-ZPT. The DFAS-ZPT will review requests and initiate recommended changes to Volume 9 if necessary.

3.0 TRANSPORTATION ALLOWANCES

This section provides general policy guidance to official travelers on transportation allowances.

3.1 Use of Privately Owned Vehicle (POV)

An Authorizing Official (AO) may authorize, but cannot direct a traveler to use a POV in connection with travel on official Government business. This limitation also applies to travel as a passenger in a POV.

3.2 When POV Use is More Advantageous to the Government

POV use on a temporary duty (TDY) assignment is not automatically considered to be advantageous to the government.

3.3 Allowable Travel Time Policy

The standard DoW procedure for administering travel time for all DoW travelers is based on the official distance, the type of transportation authorized, and the transportation used.

3.3.1. Day of Arrival at the TDY Point. When the traveler is required to perform duty at the TDY point on the day of arrival, that day is a day of duty. Travel time is granted prior to that first duty day. When the traveler performs no duty at the TDY point on the day of arrival, that day is a travel day.

3.3.2. Day of Departure From the TDY Point. When a traveler is required to perform duty at the TDY point on the day of departure, that day is a day of duty. Travel time is granted after that last day. When a traveler is not required to perform duty at the TDY point on the day of departure from the TDY point, that day is a travel day.

3.4 First Class Or Business Class Accommodations

It is DoW policy that travelers using commercial air carriers for official travel must use economy or coach accommodations. This does not preclude the traveler from accepting a complimentary seating upgrade offered by the carrier.

3.5 Unused/Lost/Stolen Transportation Requests Or Tickets

If a traveler does not use the ticket (paper or electronic) for Government-procured transportation, the traveler must return that ticket to the TO/TMC. Travelers utilizing electronic tickets for which they do not have an issued boarding pass must return a copy of their itinerary to the TO/TMC. The traveler must complete and have the issuing authority (i.e., TO/TMC) sign an original and one copy of a ***DD Form 730***, Receipt for Unused Transportation Requests and/or Tickets, Including Unused Meal Tickets. The ***Standard Form (SF) 1170, Redemption of Unused Tickets***, may also be used if its use is in accordance with Service regulations. The traveler must attach a copy of the DD Form 730/SF 1170 (or other receipt) to the travel claim. If a traveler loses a paper ticket or transportation request, the traveler must contact the TO/TMC for assistance. A traveler remains financially responsible to the Government for the cost of a lost or stolen paper ticket or transportation request, regardless of fault or negligence. See ***31 U.S.C.§ 3711*** and Volume 16. If the travel order directs use of Government-procured transportation, do not reimburse the traveler for personally procured transportation unless the AO provides a statement to allow reimbursement. See ***DoW Instruction 5154.31, Volume 2***.

3.6 Involuntarily Relinquished Airline Accommodations

Penalty payments or credits issued by air carriers under certain provisions of their tariffs for failing to furnish accommodations for confirmed reserved space belong to the U.S. Government, and not the traveler. Travelers must request that the transportation carrier show "Treasurer of the United States" as the payee on the compensation check and forward the payment according to Service/DoW Agency directives.

3.7 Reimbursement for the Cost of Damages to Commercial Rental Vehicles

Rental cars covered by the DTMO rental car agreement include full liability and vehicle loss, and damage insurance coverage in the Government rate. Reimbursement or payment to the rental agency for damages must be made by the Government, or by the traveler if it is determined that the traveler was not within the scope of employment when the loss occurred. When Government reimbursement is approved, and extra collision insurance is not purchased or included in the basic rental contract (e.g., in accordance with DTMO negotiated agreements), the traveler may be reimbursed for personal funds paid to the rental agency for the full amount of damage sustained, or the deductible amount (when contained in the rental agreement), for a vehicle properly rented and damaged in the performance of official business.

3.8 Prohibition on Self Approval

Appointed AOs and approving officials may not approve their own vouchers for payment of local travel.

4.0 TEMPORARY DUTY TRAVEL (TDY) AND TRAVEL ADVANCES

This section identifies the DoW financial management policies and guidance governing travel administration for travelers performing Temporary Duty (TDY) travel, and for travel advances.

4.1 Responsibilities

Departmental Accountable Officials (DAO) must be appointed and terminated using a DoW (DD) Form 577, Appointment/Termination Record - Authorized Signature.

4.2 Reviewing Officials

The person appointed as a reviewing official may not serve concurrently as a certifying or disbursing officer. Except where impracticable within afloat or tactical operating forces, persons appointed as reviewing officials must not be in the supervisory chain of command of a certifying or disbursing officer.

4.3 Certifying Officers.

Certifying Officers are pecuniarily liable under Title 31 United States Code (U.S.C.), section 3528 (31 U.S.C. § 3528). Also, see Title 41 Code of Federal Regulations (CFR) (41 CFR § 301-71.203) and Volume 5. Responsibilities for individuals appointed as Certifying Officers are applicable to both Defense Travel System (DTS) and non-DTS travel claims.

4.4 Responsibilities of Others Involved in the Travel Process

Government Travel Charge Card (GTCC) Agency Program Coordinators (APCs). APCs implement and execute the GTCC program. See DoW Instruction (DoWI) 5154.31, Volume 4 and the DoW GTCC Regulations for additional information and APC responsibilities.

4.5 Automated Information System (AIS) Administrators.

The AIS administrators operate and maintain systems to support travel management. They support the allowance, certifying, and disbursing systems.

4.6 Suspected False Claims Travelers

Suspected False Claims Travelers are liable under 18 U.S.C. § 287 and 18 U.S.C. § 1001, and the False Claims Act 31 U.S.C. §§ 3729 through 3731, if they knowingly submit false, fictitious, or fraudulent claims. When a suspected fraudulent claim is presented for payment, certifying officers or disbursing officers must follow the policies and procedures outlined in Volume 5.

4.7 Travel Orders

Travel orders are prepared in accordance with DoW Component management guidance and administrative instructions including the JTR, paragraph 010206 for Service members and civilian employees, and the JTR, paragraph 030501 for invitational travel authorizations. The travel order establishes in writing the conditions for official travel and transportation at government expense.

4.8 Funding

4.8.1. All orders, wherever possible, must be funded by the traveler's organization unless group orders or alternative methods are more efficient. If funding is to be provided by another office, the traveler's organization must obtain a fund cite from that office in an amount sufficient to pay for the travel prior to issuing travel orders.

4.8.2. In the event of a split-year funded trip, the traveler must return to his or her official duty station if no DoW Appropriation Act has been signed or continuing resolution has been enacted. Expenses incurred in returning to the traveler's duty station will be posted in the new fiscal year as necessary costs to close down operations.

4.9 Itinerary Variations

Variations Authorized. The authorization of travel variations should not be used in place of adequate advance planning, nor must they be used to grant an open travel authorization. Variations must be authorized in the order and are permitted only when considered mission essential in accordance with Per Diem, Travel, and Transportation Allowance Committee (PDTATAC) Travel Orders.

4.10 Object Classification Accounting

Object Classification Accounting for TDY travel is accomplished through the use of a single object classification code. All TDY orders must be issued using the single object classification code of 21, “Travel and Transportation of Persons.” Temporary exemptions to the

mandatory use of the two-digit (21) object classification code to accommodate component-unique accounting requirements may be permitted only with the advance approval of the Under Secretary of Defense (Comptroller) or designee.

4.11 Registration Fees

All registration fees incurred while DoW travelers are on TDY travel must be charged to object classification code 21, "Travel and Transportation of Persons."

4.12 Travel Advances

4.12.1. Policy. Advance payment of travel allowances may be issued to Service members (37 U.S.C. § 452) and civilian employees (5 U.S.C. §§ 5705 and 5724). However, travel advances must not be authorized unless an exemption to GTCC use is granted in accordance with the GTCC Regulations, section 0406. Personnel who are exempted from mandatory use of the GTCC may obtain travel advances only via EFT. See section 5.0 for limitations on advances. The Commander or supervisor, in coordination with the disbursing officer, may authorize cash advances in limited situations where no other process is available to accomplish the mission. See DoWI 5154.31, Volume 4 for additional guidance on the GTCC program. To determine if an individual is exempt from mandatory use of the GTCC, see the GTCC Regulations.

4.12.2. Cadets and midshipmen travel in accordance with the policies of the respective service academy. If a cadet or midshipman requires a travel advance or seeks settlement at a disbursing office.

4.13 Invitational Travel Authorizations

Travel advances may be authorized for travelers using invitational travel authorizations. The amount of the advance must be approved by the order-issuing AO and included on the invitational travel authorization. Limit advances to the authorized amount.

4.14 Travel Advance Limitations

When GTCC use is exempted in accordance with the GTCC Regulations, section 0406, DoW Components must limit travel advances to those estimated expenses that a traveler is expected to incur for authorized travel including travel incident to TDY, permanent duty travel (PDT) or civilian employee temporary change of station (TCS). This limitation applies to all advances. See Procedural Guide for more detailed information on advances.

4.15 Household Goods (HHG) Amount

4.15.1. Civilian Employees. An advance for the cost of HHG transportation must be limited to the cost of shipping the estimated weight of the civilian employee's HHG within the maximum weight for which a civilian employee is eligible at the applicable rate and distance shown in the commuted rate table. An advance for the cost of temporary storage must be limited

to the applicable commuted rate for the weight of HHG and period of storage, not in excess of 90 days and not in excess of the maximum HHG weight for which a civilian employee is eligible.

4.15.2. Service Members. An advance for the cost of HHG transportation is limited to 60 percent of the constructed cost of the personally procured move monetary allowance. See the JTR, subparagraph 051502.G.3.

4.16 Temporary Lodging Amount

4.16.1. Civilian Employees. Advances may be paid for Temporary Quarters Subsistence Expense (TQSE) in 30-day increments for subsistence expenses covered in the JTR, Table 5-84. The initial advance of funds for TQSE must not exceed the maximum amount allowable under the JTR, Table 5-85 for the first authorized period of 30 days or less. Thereafter, advances for subsequent 30-day periods may be paid as authorized by the DoW Component. When an advance is needed for the second and subsequently authorized 30-day periods, DoW Components should advise civilian employees to submit the request for advance in sufficient time to allow for processing, approval, and issuance of the advance. *

4.16.2. Service Members. An advance for the cost of Temporary Lodging Expense (TLE) may be paid for the average number of days that TLE is paid in connection with a PCS. See the JTR, paragraph 050602.

4.17 Dislocation Allowance (DLA)

DLA advance payments may be issued to Service members 30 days prior to travel rather than 10 days prior to travel as directed for other travel advances. All other conditions related to the advance payment and final settlement of travel allowances remain in effect.

4.18 Group or Charter Arrangements.

When payment for transportation under group or charter arrangements cannot be made to a carrier with Government-procured transportation documents, an advance may be paid based on the estimated cost of the transportation to be furnished.

4.19 Requesting an Advance.

4.19.1. Requesting an Advance. Subject to the conditions in subparagraph 4.19.2 an advance must, upon request, be paid to a civilian employee or Service member. The appropriate office must compute the amount paid. An exception to this requirement is authorized when individual travel orders are received via the Department of the Navy certified Automated Travel Order delivery system. An advance is subject to the conditions stated in the following subparagraphs:

4.19.2. Number of Advances Authorized. Ordinarily, only one advance may be paid for a specific purpose under the same travel order. An exception to this rule may be made for civilian employees or Service members on TDY in excess of 45 days aboard Navy ships or civilian employees or Service members on other TDY assignments under an individual travel order in

excess of 45 days at a place where there are no facilities available for processing travel vouchers. The total of the amounts advanced during the TDY assignment may not exceed the total amount authorized to be advanced in the traveler's orders.

4.20 Advance Repayment

4.20.1. General. A civilian employee or Service member who has received an advance must submit a travel claim voucher within 5 working days of the civilian employee's or Service member's return after the end of each trip so that settlement of the advance account can be made. The responsible settlement office that accounts for funds against which the advance is charged is responsible for settlement or collection action in accordance with the applicable Component's accounting or disbursing regulation. The DoW Components must implement internal controls to assure that:

4.20.1.1. Travelers with outstanding travel advances are notified of any delinquencies in filing vouchers and repaying outstanding travel advances, and

4.20.1.2. Outstanding travel advances and unpaid travel vouchers are reviewed and settled prior to an individual's separation.

4.20.2. Accounting for Advances. Accounting for advances for travel purposes, recovery, and reimbursements must be in accordance with procedures prescribed by the Government Accountability Office (GAO). See the GAO Policy and Procedures Manual for Guidance of Federal Agencies, GAO Title 7, Fiscal Guidance.

4.21 Advances for Service Member Separatees or Retirees

A Service member who is separating or retiring may be paid an advance through EFT incidental to separation/retirement no more than 10 days prior to the Service member and/or dependent(s) actual travel dates. Upon completion of the travel, a Service member who has received an advance must submit the travel claim to the appropriate settlement office.

4.22 Travel Status

4.22.1. General Travel. Status begins when a traveler departs the home or office and ends when the traveler returns to the office or home. See the JTR, paragraph 010203, and Appendix A.

4.22.2. Aircrew. Generally, aircrew travel status begins with take-off from the PDS and ends with landing at the PDS. See the JTR, subparagraph 010203.D.

4.23 Furnished Meals

4.23.1. Complimentary Meals Furnished by a Hotel. When a traveler is furnished a complimentary meal by a commercial lodging establishment for which a charge is not added in the lodging cost, that meal is not a deductible meal. There is no deduction from the M&IE rate regardless of whether the meal is consumed by the traveler. For rules concerning lodgings and

meals furnished by Government contract, see the JTR, paragraph 020304. Additional information on what constitutes deductible/non-deductible meals can be found in the JTR, Table 2-18.

4.23.2. Meals Furnished at Conferences. When some but not all meals are included in conference fees, the proportional meal rate applies on each day one or two meals are provided, except on travel days to and from the PDS. Light refreshments, including a continental breakfast, are a deductible meal when served at a mealtime (e.g., breakfast 0600-0800). Light refreshments served during a break (not at a mealtime) are not a deductible meal. See the JTR, subparagraphs 030201.B and 030201.C.

4.24 Government Quarters and Government Dining Facility Availability

Travelers are not required to obtain written non-availability statements before obtaining reimbursement for commercial lodging costs and the local M&IE rate. The availability of Government quarters, contract quarters, and dining facilities must be confirmed when a reservation request is made.

4.25 Temporary Duty (TDY) at an Installation

4.25.1. Military Personnel TDY to an Installation. Service members are required to check for Government quarters availability when TDY to a U.S. installation. Availability or non-availability documentation must be obtained per the JTR, paragraph 020303. Service members should use adequate available Government quarters when TDY to a U.S. installation; however, when adequate Government quarters are available on that U.S. installation and other lodgings are used, lodging reimbursement is limited to Government quarters cost. See the JTR, paragraph 020303.

4.25.2. Civilian Personnel TDY to an Installation. A civilian employee is encouraged, but not required, to use available Government quarters unless traveling to an ILP site. A civilian employee is required to use Government quarters at an ILP site. See the JTR, subparagraph 020303.B.2. If the electronic reservation system cannot reserve Government quarters, then make reservations through Department of Defense Lodging, or by contacting the Government quarters facility directly. In compliance with the requirement to exercise prudence when incurring expenses, civilian employees should exercise the same care in incurring expenses for Government travel that a prudent person would exercise if traveling at personal expense. An AO should request reduced per diem when a per diem rate is more than the amount necessary, based on known lodging or meal cost reductions in effect due to prearrangements, special discounts, or other reasons. The AO must request and authorize reduced per diem before travel occurs. Only a DoW Component head may authorize a reduced per diem rate for a civilian employee, except as otherwise specified in the JTR. See the JTR, paragraphs 010102, 020303, and 020308.

4.26 Special Status and Per Diem Rates

Reduced or zero per diem rates for a special status, such as field duty, sea duty, hospitalization, rehabilitation, and essential unit dining, take effect at 12:01 a.m. the day after the

traveler enters the status and ends at 12:00 a.m. the day preceding the day the traveler leaves that status. See the JTR, paragraph 020315.

4.26.1. Occasional Meals or Lodging. Occasional meals or occasional lodging may be authorized or approved when a traveler must either purchase meals from commercial or nonappropriated funds (NAF) sources, or obtain lodging through commercial, Government, or NAF sources when per diem is not otherwise authorized. See the JTR, paragraph 020305.

4.26.2. Travel Orders. Travel orders must identify the reduced per diem rates, availability or non-availability of Government quarters, authorization for Government or proportional meal rate as applicable, identification of special status, and reference to the letter or message in which they were established.

4.27 Consecutive TDY

4.27.1. Per Diem. Per diem is payable for the interval between two periods of TDY if the interval exists through no fault of the traveler and the traveler either remains at the first TDY location or travels to the next TDY location within the allowable travel time.

4.27.2. Authorized Delay En Route. A traveler may receive per diem if awaiting transportation at an authorized delay point between TDY locations. To attain savings to the Government, combine what would have been two separate TDY trips into one longer trip and provide for AD at an intermediate location. Per diem is payable for the interval between the two periods of TDY. The amount of per diem paid is based on the location of the AD.

4.28 Leave, Permissive TDY, or Administrative Absence In Conjunction with Funded TDY

4.28.1. Permissive/Administrative Travel Time. A traveler who takes leave, permissive travel, or an administrative absence before or after a funded TDY is entitled to travel allowances from the PDS to the funded TDY location and return to PDS. If the traveler takes leave, permissive travel, or an administrative absence between two TDY locations, the traveler is entitled to allowances for direct travel between the two TDY locations.

4.28.2. Travel Time When Using a POV. Permissive or administrative travel time is authorized when a traveler is authorized to travel by POV for personal convenience on funded TDY and reimbursement is based on a constructive schedule. Compute the allowable travel time based on the provisions of the JTR, paragraph 020302. Permissive or administrative travel time is not authorized when the orders direct a mode of transportation and that mode is available but not used. Per diem is not authorized for the additional period.

4.29 Return to the PDS During TDY

Authorized Return When a travel order authorizes return to the PDS, the traveler is authorized travel, transportation allowances, and per diem for travel from the TDY site to the PDS and return to the TDY site.

5.0 PERMANENT DUTY TRAVEL (PDT)

This section provides general policy for the preparation, submission, and processing of permanent duty travel (PDT) claims for travelers. There are a number of PDT benefits or allowances that DoW members and civilian employees may be authorized when traveling from one Permanent Duty Station to another at the direction of the Service or agency for which they are working.

5.1 Defense Travel System (DTS)

The DTS does not currently support PDT, and should not be used by DoW travelers for arranging travel or settling claims involving PDT.

5.2 Personally-Procured Move (PPM) Monetary Allowance

A Service member or a deceased member's next of kin may elect to personally-procure HHG transportation and be paid a monetary allowance of 100 percent of the Government's "Best Value" cost for the actual HHG weight transported up to the maximum authorized weight allowance. The member must have orders authorizing PDT, temporary duty (TDY) with HHG allowances, or a short distance HHG move in accordance with the JTR, section 0519. The TO will provide the member with a DoW (DD) Form 2278, Application for Personally Procured Move (PPM) and Counseling Checklist. This form shows the Government Constructed Cost (GCC) or contract cost for moving the HHG, based on a weight estimate provided by the traveler. A Service member, or next of kin who personally arranges for HHG transportation without going through a Government transportation office is responsible for all issues and costs related to circumstances outlined in the JTR, subparagraph 051502.A.

5.3 Actual Expense Reimbursement for Personally-Procured Shipment or Storage of HHG

5.3.1. Supporting Documents.

5.3.1.1. Receipts for expenses of $75 or more

5.3.2. Payment. If the claim is proper and supported by the appropriate documentation, the disbursing office must pay the claim.

5.4 Dislocation Allowance

DLA is paid to members as specified in the JTR, section 0505. If a change of grade occurs between the issue date of orders and the effective date of orders, a copy of the promotion/demotion orders may be submitted with the claim versus an amended order.

5.5 Effect of Assignment to Quarters

A member without dependents, who is above the pay grade of E-5, may receive DLA if the member elects not to occupy assigned quarters of the United States or a housing facility under the jurisdiction of a uniformed service, and the quarters or facility do not meet the minimum adequacy

standards established by the Secretary of Defense for members in such grade. Do not advance or pay DLA to a member under these circumstances without a statement from the gaining organization that assigned quarters do not meet the minimum adequacy standards. See the JTR, subparagraph 050505.B.

5.6 DLA Advance Payments

DLA advance payments may be issued 30 days prior to travel rather than 10 days prior to travel as directed for most other travel advances in Chapter 5. All other conditions related to the advance payment and final settlement of travel allowances as outlined in Chapter 5 remain in effect. Components may alternatively opt to authorize use of the Government Travel Charge Card (GTCC) for DLA expenses in accordance with the DoW GTCC Regulations, paragraph 040505.

5.7 Civilian Temporary Quarters Subsistence Expense (TQSE)

A DoW employee's PDT orders must authorize the initial TQSE period and specify whether the Lodgings Plus (LP) method or the Lump Sum (LS) method is authorized. Additional periods of TQSE (LP) require amended orders. The employee must provide a statement in advance selecting TQSE (LS), which certifies that TQSE expenses will be incurred. The disbursing office does not determine the number of TQSE days authorized. Receipts are required for all TQSE (LP) lodging expenses as specified in the JTR, Chapter 5, subparagraph 054206.C. Advances and payments for TQSE are based on the provisions of the JTR, Chapter 5, paragraph 054206.G.

5.8 Home Marketing Incentive Payment (HMIP)

The document submitted for payment of HMIP may be a locally-developed form used as an attachment to the travel settlement claim, DD Form 1351-2. The form, at a minimum, must contain the following information:

5.8.1. Employee’s name (last, first, middle initial);

5.8.2. Employee’s Social Security Number;

5.8.3. Employee’s present position, title, grade;

5.8.4. Employee’s current organization;

5.8.5. Employee’s current duty phone;

5.8.6. Computation of HMIP to include the final payment amount (the relocation services company must complete the amended sale transaction and submit the employee’s real estate invoice for payment before the computation can be completed);

5.8.7. Traveler’s signature; and

5.8.8. Order approving official’s signature.

5.9 HMIP Income Tax Considerations

HMIP is considered income, and a W-2 must be processed showing the taxes withheld and the employee income. No authority exists to pay either a withholding tax allowance (WTA), or a relocation income tax allowance (RITA) to offset the Federal, state, and local income taxes on the incentive payment. Payment offices must obtain an approved document (as described in paragraph 10.2) with a DD Form 1351-2 and a valid copy of PDT orders for payment.

5.10 Payment of Travel Vouchers Involving OCONUS Permanent Duty Assignment for DOW Civilian Employees

Proceeding To, or Round Trip Travel From, a PDS OCONUS. Reimbursement vouchers for travel to a PDS OCONUS under an original agreement, or for round trip travel from a PDS OCONUS under a renewal agreement, must be prepared upon completion of the travel and submitted to the travel computation office servicing the OCONUS station for payment.

5.11 Transfer From PDS OCONUS

When employees transfer from OCONUS duty stations, they must submit reimbursement vouchers to the travel computation office that supports the new duty station.

5.12 Returning From OCONUS Employment for Separation From the Service

5.12.1. General. Prior to departure from an OCONUS duty station, an employee who is being returned for separation for any reason must be furnished written instructions by the releasing activity on the following:

5.12.1.1. How to record trip itinerary,

5.12.1.2. Which travel expenses are reimbursable,

5.12.1.3. How to keep a record of these items, and

5.12.1.4. How to complete and sign documents that are to be forwarded for the purpose of finalizing pay and reimbursement of travel claims.

NOTE: Except as provided in subparagraph 11.3.2, the OCONUS releasing activity, in conjunction with the servicing travel computation office, must process final pay and settlement of travel claims for employees who are returned for separation.

5.12.2. Navy Employees. Travel claims of the following Navy employees must be submitted to the office that supports the location to which the employee returns:

5.12.2.1. Employees who are returned from OCONUS for separation under overseas agreements or for purposes of retirement, and

5.12.2.2. Foreign nationals who are returned to their places of residence in foreign countries for separation under employment agreements or for purposes of retirement.

5.12.3. Allowance Determination. The appropriate finance office must determine an employee's travel, transportation, and relocation allowances. The allowance determination must occur prior to processing the employee's separation. Travel, transportation, and relocation allowances previously furnished and/or to be furnished are computed by the activity where the violation occurred.

5.12.4. Statement of Liability or Credit. For each transportation agreement violation, the finance office must provide the employee with a statement of the employee's liability or credit that indicates in detail the liabilities, obligations, and credits (and an explanation of how the credits are used or applied). A copy is sent to the civilian personnel officer for inclusion in the employee's personnel folder. The employee must also be informed of the right to file a claim if he or she disagrees with the statement of liability or credit.

5.12.5. Collection. If the finance office determines that an employee is indebted to the Government, the office must immediately initiate collection action.

6.0 EVACUATION ALLOWANCES

This section provides general financial policy for evacuated military/uniformed member dependents and civilian employees and/or their dependents.

6.1 Orders

Copies of the departure orders support evacuation advances and payments. If departure orders are not available, refer evacuees to the local personnel organization. The Defense Travel System does not support evacuation travel. For more information see the Defense Travel Management Office's ***"Who may use the Defense Travel System"*** document.

6.2 Evacuation From Foreign Locations

6.2.1. Military Member Dependents. The JTR, Chapter 6, sections 0602 and 0603 cover allowances for the dependents of Service members authorized or ordered to evacuate from locations outside the continental United States. Uniformed members are not evacuated; however, they may be issued orders for temporary duty (TDY) travel as required.

6.2.2. DoW Civilian Employees and/or Families. Title 5, United States Code (U.S.C), section 5725 (***5 U.S.C. § 5725***) provides authority for transportation at the Government's expense for an employee's dependents and household goods to a safe haven location when an evacuation is authorized or ordered. The JTR, Chapter 6, section 0604 addresses regulations governing evacuations from foreign areas. ***Title 5 U.S.C. § 5522*** provides authority for advance pay, allowances, and differentials when an employee and/or their dependents are authorized or ordered to evacuate the employee's permanent duty station. The DSSR, section 600, "Payments During

An Ordered/Authorized Departure" relates to the evacuation of civilian employees of the United States and their dependents from or within any foreign area.

6.3 Evacuations From United States and Non-Foreign Outside the Continental United States (OCONUS) Locations

6.3.1. Military Member Dependents. The JTR, Chapter 6, sections 0602 and 0603 cover allowances for the dependents of Service members authorized or ordered to evacuate from locations within the United States. Uniformed members are not evacuated; however, they may be issued orders for TDY travel as required.

6.3.2. DoW Civilian Employees and/or Families. Evacuations within the United States and non-foreign OCONUS locations (including evacuations during a pandemic health crisis) are administered under authority cited in 5 CFR 550.401 through 550.409.

6.4 Finance Office Guidance

The finance office that supports the evacuation point or safe haven area must assist any evacuated traveler with all financial matters.

6.5 Claims

6.5.1. Claims Preparation. All claims for payment of evacuation allowances should be submitted to the appropriate supporting DoW component. The supporting finance office must assist evacuees with claim preparation.

6.5.2. Payment Method. Initial evacuation advance payments are usually mass evacuation payments. Finance offices are encouraged to use DoW ***(DD) Form 1351-6***, Multiple Payments List, as a supplement to ***DD Form 1351-2***, Travel Voucher or Subvoucher, to expedite payments. However, this alternative payment method does not lessen the need for proper documentation. Payments to dependents must be made only upon presentation of a valid travel order issued by a competent authority.

7.0 PROCESSING TRAVEL CLAIMS

This section provides general policy to travelers for the preparation, submission, and processing of travel claims for electronic submission through the DTS and for PDT and Temporary Duty Travel forms for hard-copy submission.

7.1 Payment Method

Electronic funds transfer is the mandatory travel-claim settlement method within DoW. Split disbursement -- direct EFT payment to the Government Travel Charge Card (GTCC) contractor for GTCC charges and to the cardholder for any residual amount -- is also mandatory. Supervisors may authorize an alternative payment method in limited cases where the traveler lacks access to a financial institution capable of receiving EFT transmissions.

7.2 Adjustments of $10 or Less

The Disbursing Officer (DO) must pay the traveler all amounts due on the original settlement claim. The DO is not required to collect amounts of $10 or less on final settlement or on an overpayment of $10 or less subsequently detected. The DO must process supplemental payments of $10 or less only when specifically requested by the traveler.

7.3 Over Advances

If upon a travel-claim settlement the DO determines that a traveler received an excessive advance and the excess is greater than $10, the DO must issue a letter of indebtedness and provide the traveler an opportunity to repay the excess immediately. If immediate payment is not made, the DO must initiate collection action per DoW FMR Volume 16.

7.4 Overpayments

If the DO detects an overpayment greater than $10, the DO must issue a letter of indebtedness requesting remittance. The traveler must pay the indebtedness within 30 calendar days of the notification date; otherwise, the DO must initiate collection action per DoW FMR Volume 16.

7.5 Income Taxation of Reimbursable TDY Allowances

When a civilian employee performs a TDY assignment at one location for more than a year, the Internal Revenue Service (IRS) considers the duty station to be permanent, and any reimbursement (e.g., per diem) is considered taxable income (see ***Title 26, United States Code (U.S.C), section 162(a)*** and ***Internal Revenue Ruling 99-7***). The IRS may consider a TDY assignment at one location for less than a year to be permanent, depending upon the specific circumstances. Travel Authorizing Officials must determine, IAW the JTR, paragraph 010206, that the assignment is not a Temporary Change of Station (TCS) or a Permanent Change of Station (PCS) move before authorizing a long-term TDY assignment away from the permanent duty station (PDS) for more than 180 days. When TDY reimbursements are taxable income, the travel office must compute all applicable tax withholdings, deduct them from the traveler's claim(s), and issue an IRS Form W-2, Wage and Tax Statement, to the traveler. The IRS Form W-2 must include income and the tax withholding amounts. Civilian employees who perform long-term TDY assignments for which TDY allowances are taxable are also authorized an Extended TDY Tax Reimbursement Allowance (ETTRA) IAW the FTR, Part 301-11, Subpart F. At a minimum, travelers will submit a DoW (DD) Form 1351-2, Travel Voucher or Subvoucher, a copy of their travel orders, and the IRS Form W-2 issued from the travel settlement office to claim the ETTRA. NOTE: The traveler must submit travel claims involving taxable TDY allowances on a DD 1351-2 to the appropriate travel settlement office. DTS does not compute claims involving income taxes; do not use DTS in these instances.

7.6 Claim Preparation

7.6.1. Completion. The traveler is responsible for preparing their DD 1351-2 to claim reimbursement for official travel. Even when another party prepares the claim, the traveler retains responsibility for the truth and accuracy of all information. When the traveler or a legally appointed designee signs the form, the traveler attests that all statements are true and complete and acknowledges liability for filing a false claim. All claims and attached statements must be completed in ink, by typewriter, or by computer-generated form.

7.6.2. Reimbursements for Other Traveler's Expenses. Reimbursement to travelers for expenses incurred by other travelers is prohibited. Travelers are reimbursed only for expenses they themselves incur. Approving Officials, Authorizing Officials, and Certifying Officers must deny all travel claims that include expenses of other personnel. Approving such a claim subjects the approving official to potential pecuniary liability (see Chapter 5, paragraphs 2.1 and 2.2).

7.6.3. Statements for Common Carrier Reimbursement. When a traveler claims reimbursement for common carrier transportation paid in cash, the traveler must include the following statement on the claim: "I hereby assign to the United States any rights I may have against other parties in consideration with any reimbursable carrier transportation charges described herein."

7.7 Other Instructions

The traveler must attach all lodging receipts regardless of amount and receipts for all other expenses of $75 or more to the claim. If a receipt is impracticable to obtain or has been inadvertently lost or destroyed, the traveler must provide a written statement explaining the circumstances.

7.8 Authorizing Official Responsibilities

7.8.1. The AO must confirm authorized travel and ensure the following before reviewing and signing a travel claim:

7.8.2. Approving Items. Before approving an item involving a transportation mode not authorized in a travel order, the AO must require the traveler to explain the necessity for that mode on the claim. When a traveler claims a POV expense under orders authorizing travel by common carrier or Government vehicle and the travel-approving official does not determine that POV use is in the Government's best interest, reimbursement is limited per JTR paragraphs 020210 and 020302. An AO may also approve:

7.8.3. Items Requiring Advance Authorization. The following items require advance authorization and may not be approved after the fact on the travel claim:

7.8.3.1. Use of reduced fares for group or charter arrangements,

7.8.3.2. Payment of a reduced per diem rate for subsistence expenses,

7.8.3.3. Acceptance of payment from a nonfederal source for travel expenses, and

7.8.3.4. Travel expenses related to attendance at a conference.

7.9 Review

7.9.1. The traveler must submit original lodging receipts regardless of amount.

7.9.2. The traveler must submit receipts for all single expense items of $75 or more.

7.10 Submission of Travel Claims

Travelers must submit all TDY and PDT travel claims within five working days of return to, or arrival at, the PDS. For extended TDY over 45 days, and for reservists on Annual Training, Active Duty Training, or Inactive Duty Training known to exceed 45 days, travelers must submit a claim for each 30-day period within five working days after that period ends.

7.11 Travel and Transportation for Funeral Honors Detail

Funeral honors duty travel allowances may be authorized for Reserve Component (RC) military members and individuals not employed by the Government per the JTR. Claims for the Funeral Honors Duty Allowance $50.00 stipend authorized in Volume 7A, Chapter 58, and Volume 7B, Chapter 22, are not travel allowances and must be submitted to and paid through the appropriate Military Pay office.

7.12 Separated or Retired Members

7.12.1. A separated or retired member who has not received an advance must forward the claim to the disbursing office responsible for that person's pay accounts before separation or retirement. The DO must pay all claims submitted within one year of separation or retirement. The disbursing office supporting U.S. Marine Corps separatees or retirees must pay all claims submitted within 60 days of the month of separation or retirement. Claims received after these filing periods must be forwarded to the applicable Service address:

Army: Defense Finance and Accounting Service (DFAS),
ATTN: Travel Pay, MilPCS,
325 Brooks Road, Rome, NY 13441-4501

Navy: Travel Processing Center at the separatee's or retiree's separation point

Air Force: Member's last servicing Financial Services Office (FSO)

Marine Corps: Member's last servicing Finance/Disbursing Office (FO/DO)

7.12.1.1. Officers. Travel allowances payable to a separating or retiring officer must be applied to offset any indebtedness to the Government when paid as an advance or settlement.

7.12.1.2. Enlisted Personnel. Travel allowances payable in advance to separating or retiring enlisted personnel for personal travel home may not be applied to offset any debts to the Government. Travel allowances payable to enlisted members after they have returned home must be withheld and applied against their debts.

7.12.1.3. Dependents and Household Goods Claims. Advances and settlements of dependent travel allowances and household goods allowances must be withheld and applied to indebtedness to the Government.

7.13 Deceased and Next of Kin

7.13.1. Attendance at a Deceased Member's Memorial Ceremony

7.13.1.1 Claims. ITAs must be issued to eligible family members attending a memorial service. The traveler must complete this trip within 2 years following the member's death, unless the Service Secretary waives the time limitation.

7.13.2. Unsettled Claims for Deceased Travelers. The individual designated by the Service to settle a deceased member's affairs is responsible for preparing the travel claim for the deceased member's travel. The finance official computes and forwards all claims to the supporting DFAS/Service site (see paragraph 6.6.4 for address) for payment or collection. For deceased civilian employees, the surviving spouse, legal representative, executor, or administrator must sign any outstanding travel claims; the travel office computes these claims locally. Travel settlements for GTCC holders are subject to split disbursement per 10 U.S.C. § 2784(a) and the DoW GTCC Regulation. Following payment to the GTCC issuer, any remaining expense reimbursement must be forwarded to the member's or civilian employee's pay activity for inclusion in the death claim payment. All reimbursements for non-card holders must likewise be forwarded to the appropriate pay activity for inclusion in the death claim payment.

7.13.3. Claims for Dependents of Deceased Members. If classification of a TDY order is necessary, the order must be classified, marked, and handled per the applicable DoW Component security regulation.

7.14 Travel Under Classified Orders

If classification of a TDY order is necessary, classify, mark, and handle the special order according to the applicable DoW Component security regulation.

7.14.1. Voucher Support. Distribute classified orders only to persons with the proper clearance who require a copy of the order. An unclassified extract from a classified order may support the payment voucher if it provides sufficient information, permitting an unclassified travel claim. For classified locations, the traveler must indicate each location in the travel claim itinerary

as site 1, site 2, and so forth. The DO must pay the claim when the per diem rate can be applied. If the disbursing official does not have knowledge of the location, or the traveler declines to show the location, the DO must process the travel claim and documentation per Service instructions.

7.15 Navy Oceanographic Office

The disbursing office of the ship must pay travel claims of civilian employees of the Navy Oceanographic Office for travel aboard survey ships when presented before completion of travel. The disbursing office of the traveler's duty station must pay travel claims filed after return to the traveler's duty station.

7.16 U.S. Coast Guard

7.16.1. Coast Guard members who travel on orders citing DoW appropriations must file travel claims using the same procedures as active-duty DoW members at the disbursing office of the unit whose funds are cited. Disbursing offices must settle these vouchers on the same basis as those of any other member. If excess travel time is involved, forward a copy of the settlement voucher to:

Commanding Officer (TVL)
U.S. Coast Guard Pay and Personnel Center
444 SE Quincy Street
Topeka, KS 66683-3591

7.16.2. U.S. Coast Guard Travel on Other Than DoW Appropriations When a Coast Guard member requests a travel advance or settlement payment on orders citing a non-DoW appropriation, the disbursing officer may provide payment and seek reimbursement from:

Commanding Officer
U.S. Coast Guard Finance Center
1430A Kristina Way
Chesapeake, VA 23326-1000

7.17 Travel and Living Allowance (T&LA) for International Military Students and Guest Instructors.

International Military Students and Guest Instructors paid Travel and Living Allowance (T&LA) as defined in DSCA Manual 5105.38-M (Security Assistance Management Manual), Chapter 10, must submit travel claims along with copies of their travel orders/authorization and required receipts to the appropriate travel settlement office per DSCA Manual, Chapter 10, Section C10.13.

7.18 Advance Decision, Doubtful Claims and Reclaim or Reconsideration Requests

7.18.1. Request for Advance Decision

A DoW (DO) or certifying officer may request an advance decision on any questionable claim presented for payment. Accountable officials and others with final adjudication responsibility may also request an advance decision on doubtful claims (those involving doubtful questions of law or fact) before a claim is prepared or presented. The request must be prepared and submitted per Volume 5. Submit the original request package and two copies to the DFAS Indianapolis office through the supporting DFAS site for the DoW Component funding the travel order. An accountable officer seeking an advance decision on a JTR interpretation issue must forward the request through the Per Diem Travel and Transportation Allowances Committee. Forward requests to the applicable address:

Army, Marine Corps, Navy, and all Defense Agencies:

DFAS-IN/JJFKCE, (ESS Travel Pay
8899 East 56th Street,
Indianapolis, IN 46249

Air Force: Member's last servicing Financial Services Office (FSO)

7.18.1.1. Amounts Over $250. The supporting DFAS site must review each advance decision request and contact the DO to resolve any questions. Requests for amounts over $250 require advance decisions by the Defense Office of Hearings and Appeals (DOHA) for Service members and the Civilian Board of Contract Appeals (CBCA) for DoW civilian employees. All requests for advance decisions must be forwarded through the General Counsel of the requesting Component or DFAS to the General Counsel, DoW, before referral to any authorized official outside DoW (see Volume 5, Chapter 12, Section 3.0).

7.18.1.2. Amounts Under $250. If the advance decision request is for $250 or less, the General Counsel, DoW, may refer the request to the General Counsel, DFAS. The General Counsel, DFAS, must review the request and issue an advance decision per DoWI 1340.21, Enclosure 8, paragraph E8.5.3.

7.19 Reconsideration Requests and Reclaims

When the travel office makes an allowance determination that the traveler disagrees with, the travel office must issue the traveler a written explanation and advise the traveler of the right to have the claim reconsidered. If the traveler does not accept the explanation, the DO must assist with resubmission of the claim. To have a claim reconsidered (see exceptions in paragraph 8.4), submit:

7.19.1. Submit a letter of position from the travel computation office, through the major Command, to the appropriate DFAS site. The DFAS site must respond to the DO or traveler. If the traveler does not accept the decision, the DFAS site may forward the claim as a reclaim or appeal to DOHA or the CBCA. A reclaim or appeal is forwarded because the claimant is

unwilling to accept the decision, not because the travel office or accountable official has doubts about whether the claim should be paid. The travel office or accountable official must forward such claims through the appropriate DFAS site to DOHA for Service members and to CBCA for DoW civilian employees at the following addresses:

Defense Office of Hearings and Appeals (DOHA), Claims Division
PO Box 3656
Arlington, VA 22203-1995

Civilian Board of Contract Appeals (CBCA)
ATTN: Clerk of the Board
1800 F Street, NW
Washington, DC 20405

7.20 Waivers

Travelers or Components must submit waiver requests for erroneous travel payments and transportation allowances to the DFAS Indianapolis site. See Volume 16, Chapter 4, for waiver processing procedures.

7.21 Unions and Third-Party Review

When a traveler's claim is covered by a collective bargaining agreement, neither the Department, the Office of Personnel Management, the CBCA, nor DOHA has jurisdiction over the claim unless the collective bargaining agreement explicitly excludes travel claims from its grievance procedure.

7.22 Claim for Late Payment Fee

7.22.1. Submission of Travel Claim. Travelers must submit a properly prepared travel claim to their supervisor/approving official within five working days after completion of travel. The disbursing office must pay the travel claim within 30 calendar days after the claim is signed and dated as received by the supervisor/approving official. The supervisor/approving official or the travel computation office has seven calendar days to notify the traveler if the travel claim is not proper or complete for payment.

7.22.2. Late Payment Fee and Charges. If the disbursing office does not pay a travel claim within 30 calendar days after the approving office receives it, that office may be required to pay a late payment fee. The fee accrues at the Prompt Payment Act interest rate beginning on the 31st day after the submission of a proper travel claim and ending on the date the Government disburses payment. No fee is required for amounts less than $1.00. Interest payment funding instructions are in Volume 10, Chapter 7, paragraph 2.9. The Government must also pay the traveler an amount equal to any late payment charge the card contractor would have been able to charge had the traveler not paid the bill. The IRS has determined that the late payment fee is reportable as interest and that the equivalent of the late payment charge is reportable as additional wages. Travelers must also be reimbursed for late fees imposed by the bank when the Government's untimely processing

caused the nonpayment; the bank does not assess late fees until 75 days following the billing statement.

7.22.3. Claims for Late Payment Fees. Late payment fees must be calculated and paid at the time the travel claim is processed. Travelers who believe late payment fees were not included in their travel claim calculation may submit supplemental travel claims for late payment fees. Claimants must submit each supplemental claim through the office where the claim is reviewed and approved. That office must annotate the claim with the date of receipt of the original travel claim.

7.22.4. Receipt of Travel Claim for Late Payment Fee. Upon receipt of a travel claim for a late payment fee, the travel computation office must review the claim and calculate the number of elapsed calendar days beginning with the supervisor/approving official's signature and date of receipt and ending with the date the claim was paid. The date the supervisor/approving official receives the proper travel claim counts as day 1; the payment date counts as the last day. If the elapsed days exceed 30 calendar days, the travel computation office must multiply the amount paid on the delayed travel claim by the daily Prompt Payment Act interest rate by the number of days in excess of 30. The disbursing office must pay the traveler by EFT, or by check if the previous payment was by check. The disbursing office must use the same accounting classification as the original travel claim for the supplemental claim amount. When required, the disbursing office must prepare IRS Form 1099-INT (Interest Income) for the traveler per IRS regulations.

7.22.5. Travel Claim Forwarded to Another Activity. When a travel claim requires review by another activity, the 30-day clock continues to run. If the travel computation office disallows a claim, the claimant earns no late payment fee. If the travel computation office allows part of the claim, that portion is subject to the late payment fee and earns interest from the original submission date. Claims returned to the traveler for errors or because the claim is incomplete do not earn interest. The 30-day clock begins when a corrected claim is submitted to the supervisor/approving official.

VOLUME 10

CONTRACT PAYMENT POLICY

1.0 GENERAL

1.1 Purpose

Volume 10 establishes the financial management policy for the entitlement, computation, certification, and disbursement of payments to vendors, contractors, and other payees under Department of War contracts and related instruments. It states the binding policy only; procedures, implementation guidance, definitions, and data tables reside in the companion documents identified below.

1.2 Authoritative Guidance

Please refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Please refer to the Glossary of terms document on the FMR webpage.

1.4 Procedures

Please refer to the Volume 10 Supplemental document listed throughout this volume.

2.0 FINANCIAL CONTROL OF VENDOR AND CONTRACT PAYMENTS

2.1 GENERAL

2.1.1. DoW officials must ensure DoW organizations maintain control of payments to vendors and contractors. Internal control and limitation requirements ensure payments are based on the terms and conditions in accepted purchase orders, contracts, and unilateral and bilateral modifications.

2.2 INTERNAL CONTROLS

2.2.1. Per the Federal Managers' Financial Integrity Act (FMFIA), the DoW Component Head must establish controls that reasonably ensure obligations and costs comply with applicable law; that funds, property, and other assets are safeguarded against waste, loss, unauthorized use, or misappropriation; and that revenues and expenditures are properly recorded to permit reliable financial reporting and accountability over assets.

2.2.2. Financial managers must develop detailed policies, procedures, and practices for contract and vendor pay entitlement operations and ensure they remain a continuous, integral part of ongoing operations, consistent with the Government Accounting Office (GAO) Standards for Internal Control in the Federal Government and Office of Management and Budget (OMB) Circular A-123, Appendix D.

2.2.3. DoW must make timely and accurate payments and collections per applicable laws and regulations, including requirements to identify, report, and reduce improper payments. Financial managers responsible for internal controls must:

2.2.3.1. Create, document, and maintain an organizational structure and business processes that appropriately segregate assigned duties, emphasize adherence to policies and procedures, and use sound internal accounting and system access controls.

2.2.3.2. Implement finance and accounting systems that comply with the federal financial management systems requirements, maintain accurate and complete accounting and entitlement records from contract execution through closeout, and monitor the causes of late payments and interest penalties. Subject any effort to develop or modify a critical financial management system to the compliance process.

2.2.3.3. Establish systematic controls that provide adequate audit trails to trace financial events from source documents to general ledger account balances through successive levels of summarization and financial reports and statements. Ensure all transactional data is accurately coded and errors are researched and corrected.

2.2.3.4. Use electronic processes and digital signatures, as prescribed by OMB Circular A-130, Appendix II, whenever possible and in the best interest of the Government.

2.2.3.5. Use systems that ensure the authenticity of electronically transmitted data, including the electronic signature. These controls must provide reasonable assurance that deliberate or inadvertent manipulation, modification, or loss of data during transmission is detected.

2.2.3.6. Ensure prevalidation and payment documentation to vendors and contractors is retained per Volume 1 and readily available to support future audits. Retain original payment documentation and associated supporting documentation per Section 8.0. The documentation must be of sufficient quality to let an independent third party understand and verify the basis of the prevalidation and the payments. Electronic record storage requires adequate controls to ensure digital images accurately represent the corresponding paper documentation and to detect changes to an original digital image. The certifying officer must retain documentation, both paper and electronic.

2.2.3.7. Implement finance and accounting data structures that comply with the Standard Financial Information Structure (SFIS) and the Standard Line of Accounting (SLOA).

2.2.4. Managers responsible for determining entitlements, authorizing, or executing payments and collections must:

2.2.4.1. Periodically (minimum annually) validate cash management and payment performance quality and effectiveness.

2.2.4.2. Periodically (minimum annually) test the effectiveness of internal controls, document the results, and take necessary corrective actions.

2.3 PREVALIDATION

2.3.1. General Prevalidation

2.3.1.1. Before payment, the undisbursed balance of each applicable obligation must be sufficient to cover the planned disbursement and all previously scheduled disbursements.

2.3.1.2. Prevalidation must validate the line of accounting on the planned disbursement against that on the obligating document before the financing or invoice payment is made.

2.3.2. The following prevalidation thresholds apply to Non-Mechanization of Contract Administration Services (non-MOCAS) and MOCAS payments.

2.3.2.1. All non-MOCAS payments must be prevalidated.

2.3.2.2. The following prevalidation thresholds must be used for MOCAS payments:

2.3.2.2.1. All dollar value payments on contracts awarded after fiscal year (FY) 2004 must be prevalidated.

2.3.2.2.2. For contracts issued during FY 2004 and prior, payments greater than $5,000 must be prevalidated.

3.0 DISCOUNT OFFERS AND REBATES/REFUNDS

3.1 POLICY

3.1.1. Discounts

3.1.1.1. Per 5 Code of Federal Regulations (CFR) 1315.7(a), when a vendor offers a DoW Component a discount, whether stipulated in the contract or offered against an invoice, the Component must take the discount if economically justified, but only after acceptance of the goods or services. Federal Acquisition Regulation (FAR) 32.111(b) requires FAR 52.232-8, "Discounts for Prompt Payment," in all fixed-price supply and service contracts. The contractor may extend the discount period or increase the discount percentage beyond a previous offer. The offer may be written or, for specific invoices, oral. For an oral offer, the entitlement office must attach to the invoice a conversation record showing the name, position, and telephone number of the person offering the discount, the discount terms, and the date of the offer. The entitlement office may require written confirmation of the oral offer.

3.1.1.2. Entitlement offices must schedule discounted payments as close to, but not later than, the last day of the discount period. Per 5 CFR 1315.4(h), payment is considered made on the date printed on the check or on the electronic funds transfer settlement date. If the payment office cannot apply the discount, it must make payment per the payment due date guidelines in 5 CFR 1315.4(g).

3.1.1.3. Components must take cash discounts when the discount terms applied in the conversion formula yield an effective annual discount rate equal to or greater than the Current Value of Funds Rate (CVFR), calculated with the Fiscal Service Discount Calculator. DoW Component payment systems must build in processes that take cash discounts as a matter of routine, without special handling.

3.1.1.4. When the discount terms in the contract and the invoice differ, DoW Components must take the most cost-effective discount.

3.1.1.5. Compute discounts on the approved gross amount of the invoice, except as follows.

3.1.1.5.1. Deduct separately listed taxes or freight charges.

3.1.1.5.2. Deduct taxes that are not proper charges under international or status-of-forces agreements.

3.1.1.5.3. Compute the discount on the actual cash balance due when there is a trade-in.

3.1.1.5.4. When the entitlement system can trace and pay individual line items on an invoice, the invoice may be split into multiple payments. Each line item must meet the receipt and acceptance requirements to take the discount offered against the invoice.

3.1.1.5.5. When a contract or purchase order modification changes or adds discount terms, take the discount on any later payment made by the new or revised discount date.

3.1.1.6. Discounts may be taken on amounts legally withheld and later released if related amounts were paid per the discount terms. The discount period for the released payment begins when the entitlement office receives notice of the release.

3.1.1.7. The following requirements apply when liquidated damages apply and a contract for supplies, services, research and development, or construction includes FAR 52.211 - 11, FAR 52.211-12, or DFARS 252.217-7009.

3.1.1.7.1. When liquidated damages apply and the contract or invoice offers a discount for early payment, compute the discount on the gross contract price without regard to the liquidated-damages amount.

3.1.1.7.2. When liquidated damages apply to a modified price and the contract offers a discount for early payment, compute the discount on the modified price without regard to the liquidated damages.

3.1.1.8. After a progress payment is made, the government is entitled to a discount on any part of delivery payments applied in liquidation of progress payments.

3.1.1.8.1. When the discount terms are met, take the discount against the gross amount of the invoice. If the discount date is not met, take the discount only against the liquidation amount.

3.1.1.8.2. If the contractor has had the use of these progress payments, the payment office is entitled to take a prompt payment discount on them when they are recouped.

3.1.1.8.3. If the discount is offered for the first time on an invoice and the contract has no discount clause, do not take the discount on the progress payment liquidation portion of the invoice.

3.1.1.9. A contractor may offer a voluntary discount after contract completion, including final payment. Voluntary discounts are discretionary with the contractor and do not reduce the amount obligated against the paying appropriation. Do not treat discounts received after contract completion as rebates; deposit them in the Miscellaneous Receipts Account of the Treasury.

3.1.1.10. When contracts have Free on Board Origin terms, payments made before delivery of supplies to the carrier or to the destination are entitled to the discount offered on the contract.

3.1.1.11. Components must track the amount of discounts lost, or not taken, as part of their overall payment operations. Entitlement or disbursement systems must be able to identify and periodically report discounts lost to management for assessment and appropriate corrective action.

3.1.1.12. Components must retain documentation supporting discount transactions per Volume 1 and keep it readily available to support audits. The documentation must let an independent third party understand and verify the basis of the entitlement and the determination of a discount.

3.1.2. Rebates/Refunds

3.1.2.1. Components must maintain internal controls and procedures to maximize sales/productivity refunds and to identify and collect corrective rebates. Components must retain documentation supporting rebate/refund transactions per Volume 1 and keep it readily available to support audits. The documentation must let an independent third party understand and verify the basis of the rebates/refunds.

3.1.2.2. Pay GPC billing statements as soon as administratively possible when the rebate offered exceeds the cost of funds defined in 5 CFR 1315.8. The Defense Finance and Accounting Service must determine and make available, as needed, GPC payment data comparing the Current Value of Funds to the rebate discount points for the payment cycle day. Components and the payment office must use this data for a cost-benefit analysis of the cost of early payment (the interest the DoW would earn at the CVFR for each day payment is not made), comparing the basis points offered by the card issuer against the corresponding basis points of the Treasury CVFR. DoW Components must forward approved GPC billing statements to the payment office in time to process the payment, receive a rebate for early payment, and avoid interest penalties per 5 CFR 1315.8.

3.1.2.3. The charge card issuer must calculate the rebate and return it to the DoW customer designated in the contract. DoW Component entities that receive and use rebates/refunds must employ internal controls and procedures to ensure rebates are received when due under their GPC contract and are calculated properly.

3.1.2.4. Per 10 U.S.C. 4754, DoW rebates attributable to GPC use may be credited to operation and maintenance and/or research, development, test, and evaluation accounts that are current when the rebates are received. For example, a rebate received in the new fiscal year against

a bill paid in September of the prior fiscal year may be credited to the account(s) current after October 1 of the new fiscal year. This includes the operational portion of a nonappropriated or working capital fund account.

4.0 CONTRACTUAL CLAIMS

4.1 INTERNAL CONTROLS

Internal controls must prevent duplicative or erroneous payments (for regulatory compliance, refer to Section 2.0). Managers responsible for determining entitlements, authorizing or executing payments, and performing collections must perform periodic (minimum annual) risk assessments per the GAO's Standards for Internal Control in the Federal Government and OMB Circular No. A-123, to ensure sufficient management controls keep DoW funds spent appropriately and per all applicable laws and regulations. Refer to Volume 4, for additional guidance on improper payments and related risk assessments.

4.2 RETENTION

The certifying officer must retain payment documentation, both paper and electronic. Electronic record storage requires adequate controls to ensure digital images accurately represent the corresponding paper documentation and to detect changes to an original digital image. Refer to Volume 1, Figure 9-1 for DoW financial records retention policy. Title 44, U.S.C. § 2909 prescribes the authority to retain records longer than specified in the U.S. National Archives and Records Administration, General Records Schedules.

4.3 ASSIGNMENT OF CLAIMS

4.3.1. Conditions

4.3.1.1. If an agency pays a party other than the assignee when a properly filed and approved assignment of claims is on record, the Government may incur liability to the assignee.

4.3.1.1.1. When such an error occurs, the agency remains liable to the assignee for the amount of the payment, subject to potential defenses.

4.3.1.1.2. The agency must initiate collection against the payee for any erroneous payment.

4.3.2. Actions Required for Assignment of Claims

4.3.2.1. If the Administrative Contracting Officer (ACO) determines the assignment is valid, the disbursing officer of the designated payment office must acknowledge the notice of assignment and take the following actions:

4.3.2.1.1. Authorize payment to assignees only after receiving the following assignment documents:

4.3.2.1.1.1. A copy of the notice of assignment acknowledged by the contracting officer.

4.3.2.1.1.2. A copy of the signed notice and a true copy of the instrument of assignment from the assignee.

4.3.2.1.1.3. A copy of the notice acknowledged from the surety or sureties, if any, or a copy received from the surety or sureties via the assignee.

4.3.2.2. Components and agencies must maintain procedures ensuring the appropriate payment office receives a copy of the instrument of assignment and the signed notice of assignment.

4.3.3. Letter Contracts

4.3.3.1. If a letter contract is assigned, definitization of the contract does not void that assignment.

4.3.3.2. Contracting officers and the disbursing officer of the designated payment offices must accept receipt for, and honor the assignment of, the proceeds of a definitive contract superseding a letter contract.

4.3.4. Assignment of claims under open-end, call-type, or indefinite-delivery-type contracts is authorized, provided orders of $1,000 or more are placed before the assignment, or the basic contract imposes a minimum obligation of $1,000 or more. When the designated payment office cannot determine whether an assignment of claims applies to an individual call or order under an indefinite-delivery-type contract, the office must withhold payments until the ACO determines the status and validity of the assignment. Refer to FAR 16.1 for information on contract types.

4.3.5. Release

4.3.5.1. The designated payment office must make remaining payments to the contractor only after it receives the following release documents:

4.3.5.1.1. A true copy of the instrument of release of assignment.

4.3.5.1.2. The original and two copies of the release notice.

4.3.6. If a contractor attempts to change the payee identity by changing Electronic Funds Transfer (EFT) or other information in the System for Award Management (SAM) without complying with the rules governing novation agreements and assignment of claims, the payment information will be incorrect within the meaning of the "Suspension of Payment" paragraph of the contract's EFT clause (FAR 4.1102(d)). Assignees must register separately in SAM to ensure the financial institution identified in the assignment meets the EFT requirement.

4.4 CONTRACT DISPUTES

4.4.1. The Bureau of the Fiscal Service (Bureau) administers and certifies payments from the Judgment Fund for the settlement and final judgment in a CDA case (Treasury Financial Manual (TFM), Volume 1, Part 6, Chapter 3100; 28 U.S.C. § 2517; and 31 U.S.C. § 1304). Reimbursement of the Judgment Fund is payable from funds current at the time the award is made by the activity accountable for the contract obligation, per 41 U.S.C. § 7108(c).

4.4.2. Questionable and Fraudulent Claims

4.4.2.1. Fraudulent and questionable claims must not be paid. For additional information, refer to Volume 5.

5.0 MISCELLANEOUS ADVANCE PAYMENTS

5.1 GENERAL

5.1.1. Title 31 U.S.C. § 3324 prohibits advance payments. Exceptions are authorized only by specific appropriation acts or other laws, or as granted by the President under 31 U.S.C. § 3324.

5.1.1.1. An electronic request for advance payment must contain all elements of a proper invoice (5 CFR § 1315.9(b)(1)). Electronic submission is preferred.

5.1.1.2. All claimants subject to the U.S. Internal Revenue Service code must provide a Taxpayer Identification Number (TIN) per 31 U.S.C. § 3325(d).

5.1.1.3. Advance payment requests must be submitted to the designated payment office per DoW and Component submission policies, using a vendor invoice, Standard Form (SF) 1034, Public Voucher for Purchases and Services Other Than Personal, or an electronic equivalent.

5.1.1.4. A designated approving official and a properly appointed certifying officer must approve all advance payments before disbursement, confirming the voucher information agrees with all supporting documentation. The certifying officer also certifies that the vouchers are correct and proper for payment from the appropriations or other funds cited, and that the proposed payments are legal, proper, and correct (Volume 5).

5.1.1.5. A copy of all supporting documentation must accompany each advance payment request to ensure auditability and validate entitlement systems' payment records. Certifying officers must retain all payment documentation (Volume 5).

5.1.1.6. A prevalidation process must match the proposed advance payment to the obligation of funds recorded in the accounting records before disbursement (Volume 3).

5.1.1.7. Agencies and organizations requesting and approving miscellaneous advance payments must ensure the advance does not exceed the value of the items or services being procured.

5.1.1.8. Components must establish controls for liquidating advance payments and assign responsibility for follow-up action. Before liquidation, internal controls must confirm validation and documentation show the items or services were received and met the organization's requirements. Components must resolve discrepancies promptly upon identification, which may include establishing and collecting debts from members, employees, or commercial, Federal, or state entities (see Volume 16 for debt collection).

5.2 STATUTORY ADVANCE PAYMENTS

5.2.1. Amounts may be paid in advance to licensed or regulated childcare providers for services to be rendered during an agreed period (40 U.S.C. § 590(g)(4) and 10 U.S.C. §§ 1791- 1800). Authorized advance payments for childcare in an approved program, in areas where DoW-provided childcare is not available, must include a copy of a signed contract between the family and the provider outlining the fees supporting the payment (DoD Instruction 6060.02).

5.2.2. Advance payment is authorized for subscriptions or other charges for newspapers, magazines, periodicals, microfilm libraries, and other publications for official use (31 U.S.C. § 3324(d)(2)). The total subscription cost is a valid charge to the appropriation for the

fiscal year (FY) current when the subscription is ordered. A subscription may extend beyond the current FY, but the authorized payment must not cover more than a 1-year (12-month) subscription from the same FY appropriation.

5.2.3. Tuition may be paid in advance. 5 U.S.C. § 4109 provides general authority for advance tuition payments for civilian and military personnel, and 10 U.S.C. § 2396(a)(3) authorizes them for military personnel of friendly foreign countries. Advance tuition payments are payable when an educational institution requires payment at enrollment.

5.2.3.1. The SF 182, Authorization, Agreement and Certification of Training, must identify the training facility by name and address, the amount payable to the facility for the tuition advance, and the amount payable to the trainee for books and library and laboratory fees. The SF 182 must be submitted to the entitlement office to support the advance payment and be signed by an approving official and certifying officer before payment.

5.2.3.2. Controls must be in place to liquidate the advance payment (subparagraph 1.2.10). For tuition advances, controls must include obtaining documentation that the student successfully completed the training paid in advance. If the student owes the DoW, the Component must collect any outstanding amount due and forward a DoD (DD) 1131, Cash Collection Voucher, to the designated disbursing office to complete liquidation.

5.2.4. Title 10 U.S.C. § 2396 authorizes advances of Federal monies for compliance with foreign laws, rent in foreign countries, tuition, public utility services, pay and allowances, and supplies and services of Armed Forces of friendly countries.

5.3 INTRA-GOVERNMENTAL ADVANCE PAYMENTS

5.3.1. Overview

5.3.1.1. Agencies may make intra-governmental payments in advance of performance only in the areas identified in this section. Unless specifically authorized by law, legislative action, or Presidential authorization, the DoW Component must not advance funds to non-DoW Federal entities or pay advance billings without receipt of goods or services. Where a specific appropriation or law authorizes DoW to advance funds, that appropriation or law must be cited on the obligating and interagency agreement documents and orders (Volume 11A).

5.3.1.2. Components must establish follow-up actions and controls to ensure receipt and acceptance of the items or services before liquidating the advance payment, as prescribed by the Treasury Interagency Agreement Guide and subparagraph 1.2.10. Intra-governmental advance payments are made through the Intragovernmental Payment and Collection

(IPAC) system or G-Invoicing; Fiscal Service requires federal entities to use G-Invoicing under 31 U.S.C. 3512(b) and 31 U.S.C. 3513.

5.3.2. With approval from the General Services Administration (GSA), one Federal agency may lease from another a portion of its leased office space (Federal Management Regulation, Subchapter C, section 102-73.60). The parties may agree to a lease payment in advance, or on another agreed basis, for the proportionate cost of the space, utilities, and services furnished (40 U.S.C. § 585).

5.3.3. Title 44 U.S.C. § 310 authorizes advance payments for printing, binding, or supplies ordered from the U.S. Government Publishing Office (GPO). The requesting agency must process these advance payments using IPAC to establish GPO deposit accounts.

5.3.4. Title 40 U.S.C. § 581(g) authorizes GSA to bill tenants for building rent in advance. The charge is a fixed rate per square foot of assigned space based on building operation and maintenance costs, and need not itemize separate cost factors for utilities, rent, or elevator service.

5.3.5. DoW authorizes annual advance payments to the U.S. Postal Service (USPS) for post office box rental (B-57828, 25 Comp. Gen. 834 (June 5, 1946)). Fees are for a six-month period and are payable for two periods at a time, not to exceed two consecutive six-month periods. Federal agencies whose payment period coincides with the Federal FY may pay box fees during the first quarter. USPS refunds a portion of the rental when the box is surrendered before the end of the rental period. Per 41 CFR 102-192.50, the following methods are available for advance payments for box rentals:

5.3.5.1. Payments to service providers other than USPS must use Fiscal Service payment methods, such as automated clearing house electronic funds transfer or another Fiscal Service approved means.

5.4 OTHER ADVANCE PAYMENTS

5.4.1. Attendance at Meetings and Conferences

5.4.1.1. Components may authorize payment of registration fees before attendance at meetings of technical, scientific, professional, or similar organizations.

5.4.1.2. DoW civilian employees and uniformed service members may attend and participate in conferences, meetings, and recognized professional organizations to maintain and improve professional competency at Government expense, subject to availability of funds, specific management approvals, and work responsibilities. Documentation supporting the approval must accompany the advance payment request (SF 182 or electronic equivalent), and a management official must approve the request before submission to the certifying officer.

5.4.1.3. If the payment is non-refundable and the individual fails to attend for reasons beyond their control, do not collect the registration fees from the individual. If the failure to attend is for a reason the DoW Component deems inexcusable, the individual must repay the amount advanced. If the individual does not voluntarily settle the indebtedness, the Component must act to collect the outstanding advance from money due the employee or member (salary offset policy is in Volume 16).

5.4.2. Advance payments to state and local governments for goods and services are authorized. Under FAR 32.409-3(e), the contracting officer may omit the requirement to deposit the advances in a special account if the approving official determines that other adequate security protects the Government's interest.

5.4.3. When submitting a petition for immigrant status for a person whose services are required, the fee must accompany the petition and is payable in advance to the U.S. Department of State (22 CFR 22.1-22.7). 22 CFR 22.3 prescribes remittances in the United States and 22 CFR 22.5 prescribes remittances to Foreign Service posts.

5.4.4. When approved, membership dues or fees in professional societies or associations acquired for the benefit of the DoW Component are payable in advance. Appropriated funds expended for membership must acquire services that benefit the Component, not an individual. The head of the agency or designee must determine the membership requirement, and the individual employee must provide verification of membership to validate the advance payment.

5.4.5. Components may authorize an advance payment for a license to use a patent or to purchase a copyright. The subject matter of the purchase must be within the authorization of the current FY appropriation (10 U.S.C. § 3793). FAR 27 and DFARS 227 prescribe the related patent, data, and copyright policies and contract clauses.

5.4.6. Payment of a utility service account activation fee or connection charge is allowable (FAR 41.1, FAR 41.2, and FAR 52.241-9). The U.S. Government pays connection charges, whether refundable or non-refundable, to the utility supplier for the required connecting facilities, which the supplier installs, owns, operates, and maintains. Refundable connection charges are an advance payment, and the Government recovers them through a specified monthly refund or a credit on the utility service billings.

5.4.7. Foreign Country-Related Requirements

5.4.7.1. Where a foreign country requires personnel to obtain motor vehicle driver permits to perform official duties, the permit fees may require an advance payment, and a tour of duty in a foreign country justifies the expenditure.

6.0 FEDERAL, STATE, LOCAL, AND FOREIGN TAXES

6.1 GENERAL

6.1.1. Authoritative Guidance

6.1.1.1. IRS-published regulations take precedence over DoW policy for resolving tax-related issues. Components must consult their designated legal counsel on legal questions or apparent conflicts between this section and IRS regulations.

6.2 RESPONSIBILITIES

6.2.1. Defense Logistics Agency-Energy (DLA-Energy) DLA-Energy

6.2.1.1. DLA-Energy must make any application for tax refunds applicable to DLA-Energy programs. If DLA-Energy supports a Federal civilian agency, that civilian agency must collect the data needed to apply for tax refunds.

6.2.2. DoW Components must take maximum advantage of exemptions from excise taxes.

6.2.3. Contractors, Vendors, and Individual Payees

6.2.3.1. Per FAR 29.304, a DoW Component may require contractors, vendors, and individual payees requesting payment to take certain action on payment, nonpayment, refund, protest, or other treatment of state and local specified taxes. The Component acts in consultation with the contracting officer, varying the action by tax consequences, nature of the purchases, and applicable contract clauses. An entitlement or disbursing office must elevate any concern about a contractor tax-related payment request or refund to the contracting officer for resolution.

6.2.3.2. Per 31 U.S.C. § 7701(c) and FAR 4.902, and subject to the Internal Revenue Code, all payees doing business with the DoW must furnish their Taxpayer Identification Number (TIN) as defined by 26 U.S.C. § 6109 (an SSN, Individual TIN, or Employer Identification Number). A payment office must not authorize payment without a TIN or SSN on record for the required payee, except as described in paragraph 6.5.

6.2.3.3. If a contractor or other payee believes a tax form (IRS Form 1099-MISC, 1099-INT, 1099-NEC, or 1099-C) was improperly issued or incorrect, the payee must provide written evidence to the appropriate tax office to obtain a correction.

6.2.4. The Fleet Card issuer (third-party payor) must work with DLA-Energy and DFAS to maximize excise tax reclamations; rules and procedures vary by state, and states generally

require reclamations after payment is made. Refer to the GSA SmartPay website for additional Fleet Card tax information.

6.2.5. For entitlement systems managed by DFAS, and ERP-managed systems that have coordinated with DFAS (except the Defense Health Agency and U.S. Army Corps of Engineers, where responsibility is otherwise assigned), DFAS must perform the duties listed in this paragraph.

6.2.5.1. DFAS must compute all appropriate tax withholdings, make deposits to the U.S. Department of the Treasury, and file the appropriate tax documents with the IRS.

6.2.5.2. DFAS must pay excise taxes as appropriate.

6.2.5.3. DFAS must reclaim Federal and state excise tax related to fuel purchases, based on data from DLA-Energy or Fleet Card issuers. DFAS reclamation responsibilities include filing for the National Guard.

6.2.5.4. DFAS must record any taxes recovered in the applicable accounting systems.

6.2.5.5. DFAS must review payment information to determine whether a payment is reportable under current IRS guidelines.

6.2.5.6. When DFAS serves as the disbursing office for entitlement or ERP systems it does not own, DFAS must perform the duties listed in this paragraph.

6.2.5.6.1. DFAS must issue annual instructions on the requirements for submitting necessary tax reports to DFAS for distribution to recipients.

6.2.5.6.2. DFAS must coordinate the issuance of hardcopy or electronic tax statements within the IRS-mandated timelines.

6.2.6. The Office of the Staff Judge Advocate or General Counsel must provide available payment data for all settlements of personnel cases. The document forwarded to the paying office must identify each settlement payment type (for example, compensatory damages, attorney fees, back pay, or interest) and the dollar amount for each type; the paying office uses this information to determine proper tax reporting. These offices must also provide the information required to report payments to attorneys under 26 U.S.C. § 6045(f), separate from the claims settlement payment.

6.2.7. Third-party payors must prepare and file IRS Form 1099-K, Payment Card and Third-Party Network Transactions, for certain payments they made, even if the items procured

were delivered to DoW. DoW is not responsible for filing an IRS Form 1099-MISC when third-party payors make the covered payments.

6.2.8. Convenience Check Account Holder

6.2.8.1. The convenience check account holder must perform tax reporting on the convenience checks they issue and obtain a signed IRS Form W-9, Request for Taxpayer Identification Number and Certification. Refer to the IRS instructions for Form 1099-MISC and 1099-NEC for detail on payment types that are not reportable to DFAS. As checks are written, the account holder must capture the following check recipient data.

6.2.8.2. For certain DoW agencies, DFAS must report to the IRS the miscellaneous and non-employee income paid to vendors and contractors. DFAS coordinates with the GSA SmartPay contract designated bank and the account holder to obtain the information needed to issue tax forms and report to the IRS. Section 18 contains additional policy on the use of convenience checks.

6.2.8.3. The convenience check account holder must perform all backup withholding actions required upon receipt of an IRS CP2100 notice (see the IRS website, Backup Withholding "B" program). See paragraph 6.5 for additional information on backup withholding.

6.3 FEDERAL EXCISE TAX (FET)

6.3.1. Except for IRC exemptions set out in FAR 29, the Government must pay FET on fuel purchases. If a contract does not specify that the contract price excludes FET, assume the price includes the tax and pay only the contract price. If the contract price specifically excludes the tax, FET for fuel purchases must be billed on the invoice as a separately identified item, distinct from the contracted fuel price.

6.3.2. Refund requests must be filed on IRS Form 8849, Schedule 1, Nontaxable Use of Fuels.

6.3.3. Quarterly FET Return

6.3.3.1. Unless the IRS District Director otherwise notifies the accounting office responsible for reporting DLA-Energy activity, that office must prepare and submit quarterly FET returns. DLA-Energy must submit a monthly report to DFAS of sales to taxable customers. File the return on IRS Form 720, Quarterly Federal Excise Tax Return, for the first calendar quarter when the tax liability is incurred and each subsequent calendar quarter until a final return is filed. Mark final returns "FINAL"; they apply only when no FET is owed or reportable in future quarters. See IRS Pub 510 for additional guidance.

6.3.3.2. The accounting office must prepare IRS Form 720 per the IRS Instructions for Form 720.

6.3.4. Collections for FET

6.3.4.1. FET collections are made to deposit fund accounts. Transfer collected excise taxes per the most current IRS instructions. Transfers are generally required semi-monthly and must be made electronically to the Treasury.

6.3.4.2. Report the amounts of FET collected and deposited for the sale of aviation fuel other than for the exclusive use of the DoW.

6.4 STATE AND LOCAL TAXES

6.4.1. State and Local Taxes

6.4.1.1. Unless the contract states otherwise, state and local taxes are presumed included in the contract price. When a valid fixed-unit-price contract has no clause to adjust prices if state taxes are imposed on the contractor, there is no authority to pay taxes above the stipulated unit price.

6.5 CUSTOMS DUTIES

6.5.1. U.S. Customs Duties on Foreign Purchases

6.5.1.1. If an importation is not duty-free, charge the duty to the same appropriation and fiscal year used to fund the purchase, even when the importation and purchase fall in different fiscal years (expired funding is available for such adjustments per Volume 3). Customs and Border Protection's classification of imports generates the amount due. Prepare payment vouchers showing the payment amount, annotated with the source and calculated duty, with remittance addressed to the Collector or Deputy Collector at the port of entry. Before payment, the entitlement office must obtain the ACO's approval to ensure the customs duties are not already covered in the contract price and that exemption certifications have not been issued for the items.

6.6 MISCELLANEOUS

6.6.1. If a local government levies an environmental assessment that is a fee, the payment is authorized. If the assessment appears to be a tax of questionable legality, the payment is not authorized. Consult the Component's legal counsel to determine whether to pay.

6.6.2. Backup Withholding

6.6.2.1. In most instances, under 31 U.S.C. 3325, DoW may not make a payment without a valid TIN. If payment is appropriate without a TIN and a signed IRS Form W-9, and no exception to backup withholding applies, backup withholding must occur. Backup withholding requirements are enforced payment-by-payment, regardless of payment size. When an individual or entity has not provided a TIN and a signed IRS Form W-9, the backup withholding requirements in 26 U.S.C. 3406 apply.

6.6.2.2. DoW activities must perform backup withholding on reportable payments when the IRS informs the paying office that the payee provided an incorrect TIN and reportable payments total $600 or more during the calendar year, when an information return was required concerning the payee for the preceding calendar year, or when backup withholding was required from the payee for the preceding year.

6.7 FEDERAL TAX REPORTING

6.7.1. Taxable Payments

6.7.1.1. At the end of each calendar year, payment or entitlement offices must report certain payments to the IRS. 26 U.S.C. 6041, 26 U.S.C. 6041A, 26 U.S.C. 6045(f), FAR 4.904, and current IRS instructions establish the reporting requirements. Payment or entitlement offices must provide payees with an IRS Form 1099 by the IRS-specified date.

6.7.1.2. Various payments to military members and civilian employees are subject to IRS reporting on Form W-2 (for example, military award payments), and some require tax withholding reported on Form W-2. The appropriate system must make these payments so accurate withholdings are applied and reported on the annual Form W-2 by the IRS-specified date. Payment through a vendor pay office is authorized only if the proper withholdings are computed, included, and presented for payment. At year-end, payment or entitlement offices must report these payments on Form W-2 per current Social Security Administration and IRS guidelines.

6.7.2. Tax Reporting

6.7.2.1. Each DoW Component must prepare an IRS Form 1099 on its contract or vendor payments for applicable services that total $600 or more, or royalties of $10 or more, in a calendar year to a single person or business entity, unless an exception applies. For DFAS-serviced Components, DFAS prepares, prints, and distributes the Form 1099 to the payee and forwards the same information to the IRS. If a Form 1099 needs correction, the paying office that maintains the underlying payment record provides the information to make it; if the payee believes the form

was improperly issued or incorrect, the payee must provide the written evidence needed for correction.

6.7.2.2. Consolidate payment data across the various payment systems for the same contractor to determine whether an entity was paid more than $600 in reportable payments.

6.7.3. IRS Form 1099 Information Reporting

6.7.3.1. When paying a complainant back pay on a claim that originated with a DoW activity whose civilians DFAS pays, forward the claim to a civilian pay office for payment and issuance of an IRS Form W-2. DoW activities must forward all claims representing back pay to their supporting payroll office.

6.7.3.2. The office forwarding personnel claims (see Section 11) for payment, such as taxable settlement awards, must provide the information required for tax reporting with the settlement documents. All settlement payments are presumed taxable unless the settlement agreement indicates otherwise or they meet a specific nontaxable category.

6.7.3.3. The total amount paid to an attorney for legal services, other than contractual legal services, must be reported on an IRS Form 1099 as required by 26 U.S.C. 6045(f). "Attorney" includes a law firm or other provider of legal services, such as a corporation. This requirement applies regardless of whether the legal services are provided to the Government and whether the attorney is the sole payee. For payment by check, payment is made to the attorney or law firm if it is named the sole, joint, or alternate payee. When a single payment requires two Forms 1099, issue one to the complainant and one to the attorney. The office forwarding the claim must provide information including payee name(s), payee TIN, amount paid, payee address(es), and settling-activity identification.

6.7.4. Filing Information Returns With the IRS

6.7.4.1. Activities preparing information returns must be able to reconstruct the data or records used to prepare the IRS Form 1099. Retain the data or records for at least three calendar years, plus the current calendar year, after filing the information return (see IRS General Instructions for Certain Information Returns). These records substantiate the reported amounts by showing all relevant payments, including payments from multiple contracts. The retention period for IRS Form 1099-C or backup withholding data is four calendar years after filing the information return. The issuing location must keep a copy of information returns or be able to recreate the tax document.

6.8 TAX ON CERTAIN FOREIGN PROCUREMENT PAYMENTS

6.8.1. Per 26 U.S.C. § 5000C and implementing regulations such as FAR 29.402-3, a 2% tax applies to certain foreign procurement payments unless an exemption in paragraph 6.8.2 applies. Inclusion of FAR 52.229-12 in the contract identifies the tax, effective for contracts issued after June 5, 2020 (date of the FAR final rule), and requires paying agents to withhold up to 2% of applicable payments.

6.8.2. Exemptions

6.8.2.1. If the vendor claims a full exemption in its offer, the vendor need not submit an IRS Form W-14 with each invoice, and the paying agent will not withhold the 2% excise tax. Per FAR clause 52.229-12, if circumstances change during contract performance and the full exemption no longer applies, the vendor must notify the contracting officer and begin submitting an IRS Form W-14 with each invoice.

6.8.2.2. If the vendor claims only a partial exemption, or no exemption, with its offer, FAR clause 52.229-12 requires the vendor to submit an IRS Form W-14 with each invoice, indicating the amount or percentage of the invoice that is exempt from the tax. The excise tax withholding is applied at the payment level, not at the contract level. The vendor must revise each IRS Form W-14 submission to reflect the exemption (if any) that applies to that invoice.

6.8.2.3. If the vendor has claimed only a partial exemption, or no exemption, in its offer and does not submit an IRS Form W-14 with an invoice, the default withholding percentage is 2% for that payment request.

6.8.3. Withholding Requirements

6.8.3.1. Unless the vendor has claimed a full exemption in its bid/offer, paying agents must withhold the tax from invoices per the IRS Form W-14 accompanying each invoice. Withholding is typically 2% of the invoice amount unless the vendor has claimed a partial exemption on the W-14 (for example, only a portion of the goods were manufactured, or services provided, in a country that has an international procurement agreement or tax treaty with the United States).

6.8.3.2. If the vendor has not claimed a full exemption in its offer and does not provide an IRS Form W-14 with an invoice, the default withholding is 2% of the invoice amount.

6.8.4. Responsibilities

6.8.4.1. The contracting officer must tell the paying agent whether the contractual payments are subject to the 2% Foreign Excise Tax by including the appropriate FAR provisions

and clauses (52.229-11 and 52.229-12), and must identify in the contract whether the vendor claimed a full exemption in the original offer/proposal.

6.8.4.2. The paying agent must withhold the 2% Foreign Excise Tax per the IRS Form W-14 that the vendor/payee submits with each payment request, file the reports to report tax withholdings to the IRS, and submit the withheld funds to the IRS.

6.8.4.3. The acquiring agency and paying agent must make every effort to identify, withhold, and report applicable tax withholdings to the IRS. Per IRS guidance, if the acquiring agency fails to withhold the tax, the foreign contracting party must file a U.S. income tax return and pay the tax due. The acquiring agency or the paying agent is not liable for any tax not withheld (see the U.S. Government Reporting section on the IRS webpage).

6.8.5. Refunds for Over-withholdings

6.8.5.1. The paying agent may not refund over-withholdings claimed by a vendor. Per 26 CFR 1.5000C-2(e), if the foreign contracting party (payee) discovers that amounts withheld on prior payments exceeded the amount required to satisfy its tax liability under section 5000C, it may request the acquiring agency to decrease withholding on future payments for which withholding is required under section 5000C. The request must be in writing, signed under penalties of perjury, state the amount by which the foreign contracting party requests to increase or decrease future amounts withheld under section 5000C, and explain the reason for the request.

6.8.6. Payments on Classified Contracts

6.8.6.1. Payments against classified contracts are subject to withholding of the 2% Excise Tax. The acquiring agency or paying agent must determine whether reporting such tax/withholdings will compromise national security. If so, the reporting may be scaled back or eliminated.

6.8.7. The paying agent/office must file the following reports and submit withheld taxes to the IRS.

6.8.7.1. Paying agents must submit/deposit withheld funds to the IRS via the Electronic Federal Tax Payment System within the timeframes required by 26 CFR 1.5000C-3(b).

6.8.8. The paying agent withholding applicable taxes must retain all documentation supporting the contract payments and all tax-related information supporting the withholdings, per Volume 1. This includes any documentation supporting the determination of whether to withhold, how much to withhold, and what was actually withheld, such as contracts, invoices, receiving reports, payment/Electronic Funds Transfer information, and the vendor's IRS Forms W-14, 1042, 1042-S, and W-9.

7.0 PROMPT PAYMENT ACT

7.1 PROMPT PAYMENT ACT POLICY

7.1.1. Payment terms ordinarily imposed by contract, or by the PPA and its implementing regulations, may be replaced by payment terms imposed by another governmental authority. In this section, days are calendar days unless stated otherwise. The PPA applies to the following, unless the payment meets an exemption:

7.1.1.1. Procurement Contracts. All payments for contracts for the procurement of goods or services;

7.1.1.2. Vendor Payments. All vendor payments and payments to persons, organizations, or business concerns engaged in a profession, trade, or business and any not-for-profit entity operating as a vendor; and

7.1.1.3. Utility Payments. All utility payments, including telephone service, are subject to the PPA. Where state, local, or foreign authorities impose generally applicable late payment rates for utility payments, those rates must take precedence, and PPA interest rates will not apply.

7.1.2. Before making an invoice or interest payment, DoW Components must ensure appropriate payment documentation is established and matched: the contract, receipt/acceptance report, and a proper invoice, unless not required by the contract. Subparagraphs 7.1.2.1 and 7.1.2.2 identify when an invoice or receipt/acceptance report may not be required. DFARS 232.70 prescribes DoW policies for submitting and processing payment requests and receiving reports electronically, specifies exceptions, prescribes Wide Area Workflow as the accepted electronic form, and permits the TRICARE Encounter Data System as the electronic format for receiving reports for health care services. Retain payment documentation per Volume 1, readily available to support future audits. Retain original payment documentation and associated supporting documentation per Section 8.0.

7.1.2.1. The contract is an enforceable agreement between the agency and the contractor or vendor that supports payment of invoices and interest penalties. Contracts must contain the data elements required under 5 CFR 1315.9(a) as part of the payment documentation. If errors in a contractual document affect payment processing, the entitlement office must notify the contracting office to request corrective action. The payment office must not change contract terms; terms may be changed only by formal contract modification.

7.1.2.2. DoW payments must be based on receipt of a proper invoice, unless an invoice is not required by the contract (e.g., monthly rental payments), and on satisfactory contract

performance. FAR 32.905(b) details the information required for a proper invoice. Per FAR 32.905(b)(2), an interim payment request under a cost-reimbursement service contract is a proper invoice if it includes all information required by the contract. The office designated by the purchase order, agreement, or contract to first receive and review invoices (the designated activity) must immediately annotate the receipt date and review invoices within 7 days after receipt. If an invoice is improper, the designated activity must return it to the vendor or contractor.

7.1.2.2.1. When the designated activity returns an invoice as improper, it must explain why and clearly mark the request to the vendor or contractor for a corrected invoice. Notification must be within 7 days of invoice receipt (5 days for perishable agricultural commodities, dairy products, and edible fats or oils and food products prepared from them; 3 days for meat, meat food, fish, and seafood products). If a DoW Component fails to notify within these timeframes, the days allowed to pay the corrected proper invoice are reduced by the days delayed beyond the allowable return-notification requirement. For example, a 30-day invoice returned as improper on the 11th day after receipt, minus 7 days allowed, equals a 4-day delay, reducing the corrected invoice payment due date by 4 days; the corrected invoice is payable in 26 days from receipt before interest accrues. Per FAR 32.906(b)(4), if a designated activity erroneously rejects a proper invoice, the original invoice receipt date is used to compute the payment due date and any interest penalties due.

7.1.2.3. Receipt of goods does not ordinarily provide a basis for payment. Payment must be based on acceptance of the goods or services, authenticated by the government official's signature. Acceptance must occur as a condition of payment except in the following instances.

7.1.2.3.1. For contracts incorporating the Fast Payment Procedure clause at FAR 52.213-1, payment offices may use the contractor's invoice submission as certification of delivery of supplies and as the basis for authorizing payment. Pay these invoices within 15 days after invoice receipt. Components must have policies and controls to follow up after payment to ensure receipt of acceptance documentation for the payment and contract files. Acquisition requirements governing the fast payment procedure are in FAR 13.4 and DFARS 213.4. Refer to paragraph 7.0 of section 9 for additional fast payment procedure financial management policy.

7.1.2.4. The agency receiving official must forward the receiving report, or other government documentation, to the designated payment office by the 5th working day after government acceptance or approval, unless other arrangements have been made.

7.1.2.5. Government acceptance is commonly deemed to occur constructively on the 7th day after the contractor delivers supplies or performs services per the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contractual requirement. A contract may specify a longer acceptance period; the date of actual acceptance or the date the acceptance period ends then substitutes for the 7th day after delivery (refer to DFARS 232.904).

The date the designated acceptance period ends is the constructive acceptance date. Constructive acceptance is used to calculate PPA interest and applies to both destination and source acceptance contract terms. Forward government proof of acceptance to the designated payment office.

7.1.2.5.1. If actual acceptance occurs within the constructive acceptance period, any interest penalty must be based on the actual date of acceptance.

7.1.2.5.2. If actual acceptance occurs after the constructive acceptance period, any interest penalty must be based on the constructive acceptance date.

7.1.2.5.3. The constructive acceptance requirement does not compel DoW Components to accept supplies or services or make payment before fulfilling their designated responsibilities and internal control activities.

7.1.2.6. If payments cannot be made due to non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office must follow up with the contracting or receiving office to ensure these documents are forwarded timely. Make these follow-up requests in time to prevent loss of economically justified discounts where possible and to avoid unnecessary late-payment interest penalties.

7.1.2.7. When authorized, the head of the contracting activity of an operational area, in consultation with the cognizant comptroller supporting the contracting activity, must determine whether a contract and related payment are subject to the requirements of FAR 32.9 and include the applicable payment clause in the contract.

7.1.3. The billing office designated in the contract to receive the invoice must record the receipt date on the invoice immediately upon receipt of the contractor's invoice or payment request. The annotation must be clearly identifiable to the designated activity processing the payment. The receipt date determines the payment due date, the date by which an improper invoice must be returned, and the date interest begins to accrue if payment is late. If the designated activity fails to annotate the receipt date, the invoice receipt date is the date the contractor placed on the invoice. For electronically transmitted invoices, the invoice received date is the date the designated activity receives a readable transmission, or the next business day if received after normal working hours. For invoices made electronically available in feeder systems such as the Government purchase card bank system or the transportation Third Party Payment System, the invoice receipt date is the date the invoice is made available to DoW, not when invoices are transmitted to the entitlement office (Section 18.0).

7.1.4. For payments subject to FAR 32.9, the payment due date is the date by which payment must be made to avoid paying PPA interest.

7.1.4.1. If the payment due date is not specified in the contract, the date by which a proper invoice must be paid is the later of:

7.1.4.1.1. Thirty days after the date the designated activity receives the proper invoice; or

7.1.4.1.2. Thirty days after government acceptance of supplies delivered or services performed, or the applicable date of constructive acceptance, whichever is earlier.

7.1.4.2. A contract modification may be required to determine the payment due date (e.g., an award fee). If a payment cannot be entitled without a contract modification, the payment clock starts with the effective date of the modification.

7.1.5. The PPA requires timely payment and proper cash management of government resources. DoW must make payments no more than 7 days before the payment due date, but as close to the due date as possible, unless the Secretary of Defense or designee determines, on a case-by-case basis for specific payments, that earlier payment is necessary (FAR 32.906). Use this authority cautiously, weighing early payment benefits against the good stewardship inherent in effective cash management (5 CFR 1315.4(j)).

7.1.5.1. Per 10 U.S.C. 3801(b)(1) and NDAA FY 2021 Section 815, for a prime contractor that is a small business concern, DoW must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due.

7.1.5.2. Per 10 U.S.C. 3801(b)(2) and NDAA FY 2022 Section 814, for a prime contractor that subcontracts with a small business concern, DoW must, to the fullest extent permitted by law, establish an accelerated payment date with a goal of 15 days after receipt of a proper invoice for the amount due if the prime contractor agrees to pay the subcontractor on the accelerated schedule, to the maximum extent practicable, without further consideration from or fees charged to the subcontractor.

7.1.5.3. Payment is considered made on the date printed on the check or on the Electronic Funds Transfer (EFT) settlement date. To avoid late-payment interest fees, the EFT settlement date (the date funds are credited to the vendor's financial institution) must be no later than the calculated due date.

7.1.5.4. Checks must be mailed or transmitted on the same day the check is dated.

7.1.5.5. Payments due (including discount periods) on Saturday, Sunday, or legal holidays may be paid on Monday or the next working day without interest; this does not change the official payment due date.

7.1.6. If a vendor or contractor offers a DoW Component a discount, whether in the contract or on an invoice, the Component should take the discount if economically justified, but only after acceptance has occurred.

7.1.6.1. When a discount is taken, payment must be made as close as possible to, but no later than, the discount date.

7.1.7. When DoW Components fail to make payment by the payment due date, interest accrues from the day after the payment due date through the payment date.

7.1.8. DoW must pay late-payment interest penalties from either the funds available for administering the program for which the penalty was incurred (refer to 5 CFR 1315.10(b)(5)) or the funds financing the operation of the Military Department or Defense Agency associated with the invoice or contract payment (refer to 31 U.S.C. 3902). Charge all interest payments to the fiscal year(s) in which they accrue. If interest accrues at the end of the fiscal year but is not paid until the next fiscal year, cite the prior year's funds. If interest accrues at the end of the fiscal year and additional interest accrues in the new fiscal year, fund the total penalty citing each fiscal year's funds where the interest accrued, so the interest fund cite represents the bona fide need of the year the obligation arises. If the appropriation otherwise charged is cancelled, charge the appropriation current on the date of payment per 31 U.S.C. 1553(b)(1).

7.1.8.1. Entitlement offices must maintain detailed records supporting their determinations and must make these records available on request of any activity determined to have caused a late payment.

7.1.8.2. A contractor may waive interest entitlement by returning the interest paid by separate check or by returning the government check and requesting payment only in the amount invoiced. Besides returning interest penalties already received, a contractor may waive the right to PPA interest by express written statement or by acts and conduct indicating intent to waive. Written requests must be submitted to the applicable payment office established in the contract, be specific to each invoice or payment, and be for interest already earned or accrued. A contractor may not request waiver of interest not yet accrued or a blanket waiver for a group of contracts or invoices. Retain interest-waiver request documentation with payment supporting documentation.

7.1.8.3. Interest retained or waived is collected as a refund to the appropriation originally cited for the payment of interest. Credit all refunds of interest or penalties from contractors to the same line of accounting classification (including fiscal year) charged when interest was paid. If the appropriation is cancelled or closed, apply refunds to Miscellaneous Receipts of the U.S. Department of the Treasury.

7.1.8.4. The Foreign Military Sales (FMS) Trust Fund must fund late-payment interest penalties for procurements financed by an FMS contract. Refer to Volume 15, section 7.0 for additional information on FMS pricing.

8.0 COMMERCIAL PAYMENT VOUCHERS AND SUPPORTING DOCUMENTATION

8.1 POLICIES AND REQUIREMENTS

8.1.1. Title 31 U.S.C. 3325 authorizes a DO to disburse money only when provided a voucher certified by a properly appointed certifying officer.

8.1.2. Title 31 U.S.C. 7701(c) requires all payees subject to the U.S. Internal Revenue Code who do business with DoW to furnish their TIN (which may be an SSN for individuals). DoW must not authorize payment without a TIN or SSN on record for required payees.

8.1.3. Payment Office Identification

8.1.3.1. MOCAS handles the most complex contracting and payment situations (financing payments, withholds, foreign currencies, and complex contract types and structures). Components must use their Enterprise Resource Planning (ERP) systems as the payment office except where a contract's complexity requires an alternative such as MOCAS. See the joint Deputy Under Secretary of Defense for Acquisition and Sustainment and Deputy Under Secretary of Defense (Comptroller) policy memorandum for more information.

8.2 SUPPORTING DOCUMENTS REQUIRED TO PROCESS PAYMENTS

When entitling and certifying a payment, DoW Components must establish and retain appropriate payment documentation to support payment of invoices and interest penalties. This documentation normally includes the contract/purchase order, receipt/acceptance report, and a proper invoice. Refer to 5 CFR 1315.9 for required documentation. Subparagraph 8.2.3 defines the exceptions in which receiving reports are not required before payment.

8.2.1. If contractor/vendor invoices cannot be entitled and certified due to non-receipt of receiving reports, copies of contracts, contract modifications, or other required documentation, the entitlement office must follow up with the contracting or receiving office to ensure these documents are forwarded timely. The entitlement office, contracting office, and receiving activity must act timely to prevent loss of economically justified discounts and avoid unnecessary late-payment interest penalties.

8.2.2. Contract

8.2.2.1. A contract is a mutually binding legal relationship obligating the seller to furnish supplies or services (including construction) and the buyer to pay for them (FAR 2.101). Contracts must contain the information prescribed by 5 CFR 1315.9(a) to support payment of contractor/vendor invoices. If the entitlement office discovers an error in a contractual document, it must notify the contracting office to request corrective action. The entitlement office may not change contract terms; terms may be changed only through a formal contract modification. FAR 4.5 requires use of electronic commerce in Federal acquisition whenever practicable or cost effective.

8.2.3. Receiving Report

8.2.3.1. Acceptance must occur as a condition of payment in all cases except contract financing payments, interim payments on cost-reimbursement contracts for the acquisition of services, and use of the fast payment procedure as defined in Section 9.0. These payment-processing requirements do not negate the documentation requirements established in Volume 4, section 9.0.

8.2.3.2. If payment cannot be made due to non-receipt of a receiving report, the entitlement office must follow up with the contracting officer or receiving office to ensure the documentation is forwarded timely.

8.2.3.3. When a shipment is short of the quantity ordered, the entitlement office must pay, per the PPA (5 CFR 1315), the invoice amount supporting the quantity received and accepted, unless prohibited by the contract.

8.2.3.4. When the receiving report or invoice indicates the shipment is final but undelivered items remain under the contract terms, the entitlement office must pay, per the PPA (5 CFR 1315) and the variation authorized in the contract, the invoice amount supporting the quantity received and accepted. The entitlement office must also collaborate with the contracting officer, as needed, to advise and assist in resolving the differences.

8.2.4. Invoice

8.2.4.1. When using contracting officer approved or designated electronic techniques to submit invoices and electronically certified vouchers, the payment office need not transfer paper documentation for examination if the same supporting data are readily available and accessible in electronic media or through an electronic process.

8.2.4.2. The certifying officer must ensure the transmitted data relied upon to entitle and certify a payment contain the PPA information required by 5 CFR 1315.9 and

FAR 32.905(b). Per Section 2.0, paragraph 2.0, the office must establish processes, controls, and routine testing to ensure the completeness, accuracy, authorization, and validity of electronic data received through system interfaces or transmission.

8.2.4.3. Contractors or vendors permitted to invoice non-electronically may submit invoices on any form that includes all required items of a proper invoice, unless their contract prescribes a specific invoicing form.

8.2.4.4. DoW payments must be based on satisfactory contract performance and receipt of a proper invoice, unless the contract does not require an invoice (for example, monthly rental payments). 5 CFR 1315.9(b)(1) and FAR 32.905(b) identify the items that must be included on a proper invoice.

8.2.4.5. If an invoice is improper or does not meet the contract requirements of FAR 32.905(b), the designated activity must return the invoice to the contractor or vendor and provide all details on the invoice deficiencies.

8.2.4.5.1. An invoice must be returned as improper if the entitlement office has not been provided a valid TIN for any designated payee subject to the U.S. Internal Revenue Code. If the TIN is not in the SAM, Corporate Electronic Funds Transfer, or supporting documentation (including the invoice or contract), the contracting officer must provide the contractor's TIN to the payment office (FAR 4.203(e)(2)).

8.2.4.5.2. An electronically transmitted payment request is treated the same as a paper payment request and must contain identical data elements (FAR 32.905(b)). Returned electronically transmitted payment requests must be returned in the same manner received, or in a manner practical for the entitlement system, accompanied by an electronic message stating the reason for return.

8.2.4.6. Non-electronic forms may be used as an invoice only if approved by the contracting officer and included in the contract. Such forms include the DD 250, SF 44, Delivery Ticket (refer to Section 7) and SF 1449.

8.2.4.7. Payments for services of a continuing nature (for example, rents or janitorial services) performed under agency-vendor contracts that provide for definite amounts at fixed periodic intervals may be made without contractor-submitted invoices or bills if the contract allows.

8.2.4.7.1. The contract must specify the payment due date. The voucher the payment office prepares to support these payments must show, at a minimum, the contract number, the period covered, the vendor name, the payment amount, and the account or

appropriation to be charged. The payment voucher must be certified the same as all other payment vouchers.

8.2.4.7.2. Per TFM Volume 1, Part 4A, Chapter 2000, Section 2060, the office must establish and periodically test internal controls to ensure recurrent payments are on unexpired contracts or agreements, for correct amounts, for services actually received or leased space actually under contract, and not duplications of previous payments for the same goods or services.

8.2.4.8. If an original invoice is lost or destroyed, a duplicate must be obtained from the original submitter to support the voucher and marked as a duplicate. A full explanation of the loss or destruction and a statement that steps have been taken to prevent duplicate payments must be placed on or attached to the duplicate invoice. If the invoice information is already in the entitlement system, payment may be made from that information before a duplicate is obtained. When a duplicate cannot later be obtained, an annotation must document that payment was made based on existing records, that a hardcopy duplicate could not be obtained, and that the original was lost or destroyed. The specific existing records relied upon must be identified and documented, and management review and approval of the payment must occur and be documented before the disbursement. Refer to TFM Volume 1, Part 4A, Chapter 2000, Section 2050.10.

8.2.4.9. The Defense Contract Audit Agency (DCAA) is the authorized representative of the ACO for approving interim contract payment vouchers for provisional payment, including interim vouchers for non-commercial and commercial Time and Material (T&M) and Labor Hour (LH) contracts, subject to final audit. Per DFARS 242.803, DCAA uses sampling to select interim vouchers for review before sending them to the payment office. Interim vouchers not selected for pre-payment review are provisionally approved and sent directly to the payment office. All provisionally approved interim vouchers are subject to later audit of actual costs incurred. DCAA does not provisionally approve the contractor's final voucher; the contracting officer must approve final vouchers. Refer to DoDD 5105.36 for DCAA's roles and responsibilities. The following invoices and vouchers require ACO approval before payment: completion vouchers under cost-plus, fixed-fee, or other cost-reimbursement type contracts; vouchers and invoices for termination costs under supplemental agreements, unless the termination modification specifies the costs to be paid; completion vouchers under T&M and LH contracts; invoices for progress and performance-based payments under fixed-price type contracts; vouchers and invoices where the contract requires ACO approval before payment; invoices for the release of "withhold" amounts previously instituted by the ACO; and any payment request where a DO requires an ACO signature.

8.3 DOCUMENT RETENTION

8.3.1. Original payment documentation and associated documents must be retained as government records in a format readily accessible to the entitlement office. Refer to Volume 1, section 9.0, Figure 9-1, for specific policy and timeframes on record retention. Electronic record storage requires adequate controls to ensure digital images accurately represent the corresponding paper documentation and prevent changes to an original digital image (FAR 4.805(a)). The certifying officer must retain both paper and electronic documentation.

8.4 FOREIGN LANGUAGE DOCUMENTS

8.4.1. Documents Prepared in a Foreign Language

8.4.1.1. Invoices and supporting documents prepared in a foreign language must be translated before payment to ensure their contents satisfy the contractual document's requirements. Refer to DFARS 225.1103 for additional policy on contracts that may involve foreign-language documentation.

8.4.1.2. The documents must be translated in enough detail-contract number, item identification, unit of measure, price, and extension-to enable someone unfamiliar with the language to determine that receipts of material or services satisfy the contract terms.

8.4.2. If several invoices share a similar format and wording, a single translation is adequate, provided the like invoices support the same payment voucher and the required certification shows that all data not translated on other identified documents are the same as that translated, all non-common data on all invoices are identified and translated in enough detail to allow an audit by persons not familiar with the language, and a separate translation is attached for each group of different invoices.

8.4.3. The translation may be entered over or under the corresponding foreign wording or in any available space on the document; if space is not available, the English translation may be copied on a separate sheet. The translator completes and signs the following certification on each translated document found satisfactory for payment: "I certify that I am familiar with the ____ language, and that I have made a true and correct translation of the _____." (Printed Name, Signature, Date, and Contact Information). This certification, which pertains only to the translation, may be inscribed on a separate sheet and attached if space is not available on the foreign language document. A duly appointed (via a DD 577) certifying officer must ensure payment requirements are satisfied based on the translation.

8.5 PROCESSING ALTERED DOCUMENTS

8.5.1. Prohibited Pen and Ink Changes

8.5.1.1. Pen and ink changes are prohibited on all contractual documentation. FAR 43.301(a) prescribes the SF 30 for changes to contractual documentation.

8.5.1.2. Entitlement office personnel are prohibited from making pen and ink changes to the following information on requests for payment, receiving reports, and invoices: payee identification (including name, address, banking information, Commercial and Government Entity code, and TIN); order numbers (including contract, modification, call, task, and delivery order numbers); monetary amounts (any dollar value on any of the documents); Line of Accounting (LOA) data (all information pertaining to the LOA on any of the documents); names of officials and officers (including the certifying officer, approving official, contracting officer, and other related information as typed or printed on the documents); and dates (any dates impacting PPA interest or discounts).

8.5.2. Allowable Pen and Ink Changes

8.5.2.1. Entitlement offices may make pen and ink changes for administrative-type errors not described in subparagraph 8.5.1 on requests for payment, receiving reports, and invoice documents.

8.5.2.2. Entitlement office personnel may accept pen and ink changes on supporting documentation attached to an externally certified payment request that an appointed certifying officer certified and submitted. When submitting a certified payment voucher with manually altered supporting documents such as requests for payment and invoices, a properly certified SF 1034 identifying the correct total amount and fund citations must be provided to the entitlement office.

8.6 EMERGENCIES AND CONTINGENCY OPERATIONS

8.6.1. In addition to a contract, receiving report, and invoice, certifying officers supporting emergencies and contingency operations must ensure the entitlement package contains the specific information needed for valid certification and payment when the payment is exempt from the PPA. Payments subject to the PPA fall within the requirements of Section 7.0. For payments in support of an emergency or contingency operation not subject to the PPA, Appendix 1, Matrix for Payments in Support of Emergencies and Contingency Operations, identifies the critical data elements necessary for a proper certification.

8.6.2. Where information identified in Appendix 1 is not present on all documents (contract, receiving report, and invoice), the certifying officer may certify the payment if they can

make a reasonable linkage among the documents. In certain circumstances explained in Appendix 1, the certifying officer may certify a payment missing a critical data element identified in the Appendix 1 matrix; however, they must justify in writing why they certified the payment.

8.6.3. All accounting offices that support emergencies or contingency operations must ensure that accounting and document-retention requirements are in place within 30 days of declaration of the operation. Adherence to these requirements is critical to DoW financial stewardship and control of funds.

9.0 PAYMENT VOUCHERS – SPECIAL APPLICATIONS

9.1 INTRA-GOVERNMENTAL PAYMENTS

9.1.1. Billing Processes

9.1.1.1. Intra-governmental transactions (IGT) between or within DoW Components for the purchase of goods must be processed through the interfund billing system when initiated and supported by both trading partners' supply and accounting systems. In the interfund billing system, the supplier reimburses itself at billing from appropriations the customer designates, sends an automated billing to the billed office, and reports to the U.S. Department of the Treasury a reimbursement of the supplier's funds with an offsetting charge to the customer's funds. Only the billing office or the Central Accounts Office may adjust or reverse reimbursements reported to Treasury on behalf of the billing office. Refer to DLM 4000.25, Volume 4 for interfund billing system procedures.

9.1.1.2. Unless specifically authorized by law, legislative action, or Presidential authorization, a DoW Component must not advance funds to non-DoW federal entities or pay advance billings without receipt of goods or services. The constructive delivery and drop from inventory methods in paragraph 2.4 are exceptions to this prohibition. Refer to Volume 11A, section 3.0 for advances to non-DoW entities via Economy Act Orders.

9.1.2. Completion

9.1.2.1. Work and shop orders must indicate the unit prices of articles or services furnished, or the actual value of personal services, materials, or other direct charges and overhead. When vouchers cover use of equipment, the itemized statement must carry the certification: "I hereby certify that the amount billed herein represents cost as determined under 31 U.S.C. § 1535 and 31 U.S.C. § 1536." When the account is billed on unit costs (for example, per hour, day, or mile) rather than itemization, those unit costs must include all expenses of operation and maintenance except depreciation. The purchase agreement between the entities determines the billing method.

9.1.2.2. An employee's services performed for another federal department or agency may be reimbursed to the providing agency only if a reimbursement agreement was made before the services were rendered. Copies of the agreement must be attached to the transfer voucher (SF 1080, 1081, or 1034) to support the payment.

9.1.2.3. The entitlement office must examine intra-governmental payment vouchers and supporting documentation to verify amounts and confirm required information and certifications are present (such as the equipment-use certification in subparagraph 9.1.2.1). The entitlement office must also verify accessorial charge rates when non-DoW Government activities levy them for issues, sales, and transfers of material, supplies, and equipment.

9.1.2.4. This verification must ensure charges do not include recurring reimbursement issues (sales) or non-reimbursable transfers of material to other DoW Components, except for sales and transfers under the military assistance grant aid program and Foreign Military Sales (FMS) programs. After the propriety review, the entitlement office must cite the accounting classification and verify the voucher is ready for payment.

9.1.2.5. Evidence of receipt and acceptance is required to support all intra-governmental and interfund transactions. DoW financial reporting entities must develop and implement internal controls to ensure receipt and acceptance is properly accomplished and documented for all IGT. Refer to Section 2 for internal control requirements and to Volume 4, section 9.0 for receipt and acceptance requirements.

9.1.3. Constructive Delivery or Drop From Inventory

9.1.3.1. Delivery is evidenced by completed shipping documents, material shipment status of shipping documents, or a list of deliveries to a post office. Constructive delivery also applies to billings for goods accepted by an authorized inspector of another DoW Component providing direct shipment to the consignee. Such billings must be supported with a DoD (DD) Form 250, Material Inspection and Receiving Report, or other authorized documents from the inspector showing shipment. Under constructive delivery, bills are issued when the carrier accepts the goods for transport.

9.1.3.2. Constructive delivery bills are accepted and paid without waiting for delivery of the goods to the final destination. Components must perform follow-up procedures to confirm the goods were received and accepted and must obtain the documentation supporting receipt and acceptance for later audit.

9.1.3.3. Drop from inventory is the reduction of the quantitative inventory balance. Billing for shipments from stock must be at the standard price in effect when the stock is dropped

from inventory. Refer to Volume 11B, section 15.0, paragraph 2.0 for inventory item pricing policy.

9.1.3.4. Following a supply activity requisition, reimbursable sales of material are billable after the material has been transferred using the drop from inventory method. Billing is based on drop from inventory or performance of services. Sales of bulk petroleum, oil, lubricants, and perishable subsistence, and FMS and military assistance grant aid shipments, are exceptions to this billing policy. Refer to DLM 4000.25, Volume 4, Chapter 2 for billing guidelines.

9.1.3.5. The supplying activity initiates a request for payment for items supplied to the DoW. Billings must, at a minimum, be supported by the document order number, description of the article or services, delivery or other performance date, quantity, and price. The document order number is normally the requisition document number, and the description is normally the National Stock Number. The supplying activity must notify the requisitioning activity of item substitutions and price or quantity changes. Refer to DLM 4000.25, Volume 4, Chapter 2 for billing procedures.

9.1.3.6. The requisitioning activity must record the amounts and quantities of items approved for payment at receipt and acceptance of the delivered items or services. The requisitioning activity must adjust the billing for unacceptable items or items unfilled by the supplying activity and reimburse only the adjusted amount. The requisitioning and supplying activities determine the disposition of unfilled items by mutual agreement.

9.1.3.7. If the requisitioning activity cancels requisitions, it is credited the amount billed, including accessorial charges. Accessorial costs are expenses incident to issues, sales, and transfers of materiel (packing, crating, and handling; transportation; and port loading and unloading; see Volume 11A, section 1.0, subparagraph 2.4.10). The alternate consignee for material diverted is billed the standard price and accessorial charges. If the Defense Logistics Agency (DLA) orders direct shipment of non-stocked items and the requisitioning activity cancels the order, the requisitioning activity is billed via the SF 1080 for contract termination costs from the cancelation. Refer to DLM 4000.25, Volume 4, section 2.0 for MILSTRIP cancelation procedures.

9.1.4. Payment for services rendered by DWCF activities is based on the prescribed rates, tariffs, and billing procedures. DWCF payments follow the same policy as the constructive delivery and drop from inventory payments (see paragraph 9.1.3).

9.1.5. GSA

9.1.5.1. Ordering activities receive bills from GSA biweekly, monthly, or quarterly, after the fact, or in advance (for example, rental payments), as determined in the

purchase agreement. Except for bills rendered in advance, GSA sends bills to Components only after evidence of actual delivery of material or services or receipt of evidence of shipment (constructive delivery). Components must perform follow-up procedures to confirm the goods were received and accepted and must obtain the documentation supporting receipt and acceptance for later audit. GSA may process requisitions of $1 or less without billing.

9.1.5.2. Payment for material is made through the IPAC system within 15 days after receipt of the GSA invoice. Bills are paid as rendered without pre-audit or receipt verification, subject only to availability of funds and adjustment for obvious significant errors in dollar amount. A follow-up process must be established to confirm the material paid for was received and accepted. Documentation supporting receipt and acceptance must be retained as billing support for future audit, per Volume 1, section 9.0 and the National Archives and Records Administration General Records Schedules.

9.1.5.3. Travel Pay sections process payments to GSA or contractors for vehicle rentals authorized by travel orders. The billing information must be compared to the obligation document; if an error is found, follow the applicable correction procedures. Payment is due within 30 days of the billing date (see subparagraph 9.1.2.5 for receipt and acceptance requirements).

9.1.5.4. GSA bills for federal telecommunication services are submitted monthly and paid in advance using the IPAC system, without pre-audit or receipt verification and subject only to availability of funds (see 10 U.S.C. § 2396 and 40 U.S.C. § 581(g)). These bills should be paid within 15 days after receipt of the GSA invoice. Components must perform follow-up procedures to confirm the services were received and must obtain the supporting documentation (receipt verification) for later audit.

9.1.5.5. Activities seeking credit from canceled requisitions for a material diversion must confirm the amount billed, including accessorial charges. The alternate consignee for material diverted is billed the standard price and accessorial charges. Activities canceling requisitions for material for which GSA ordered direct shipment of non-stocked items are billed by SF 1080 for contract termination costs from the cancelation. GSA promptly provides the bill to the activity cited in the canceled requisition.

9.1.6. Payments

9.1.6.1. DLA Document Services is the single DoW focal point for GPO ordering and management of document services per DoD Instruction 5330.03. An invoice is submitted to the requisitioning activity when printing services or supplies are furnished. The billed office prepares and processes the SF 1080 for payment and must attach an invoice to the SF 1080.

9.2 PARTIAL PAYMENTS

9.2.1. The entitlement office must maintain a separate partial payment record for each purchase order, contract, delivery order, or other obligation document requiring partial payments.

9.2.2. Payments made against blanket purchase agreements, call-type contracts, and blanket delivery orders, as defined by FAR Part 16, are not partial payments, except when more than one payment is required on an individual call or order.

9.3 CONTRACT FINANCING PAYMENTS

9.3.1. Progress Payments

9.3.1.1. Each contractor request for progress payment must be prepared and submitted through the WAWF module of PIEE as a separate progress payment document or SF 1443, Contractor's Request for Progress Payment, per DFARS 252.232-7003, with noted limited exceptions. The FAR and DFARS links provided cover progress payment computation, liquidation, reduction, suspension, and limitations.

9.3.1.2. When allocating progress payments across ACRNs, the payment office must establish controls to ensure disbursements do not exceed obligations at the ACRN level. To incorporate these controls, the office ordinarily charges progress payments, performance-based payments, and commercial item financing to an ACRN so the outstanding financing payment balance for each ACRN does not exceed that ACRN's Unliquidated Obligation (ULO) multiplied by the contractual liquidation rate. For ACRNs that fund both fixed-price and cost-type line items, the contract-financing allocation methodology applies only to the fixed-price portions (per FAR 32.501-3).

9.3.1.2.1. If the contract's ACRN allocation instructions, based on the DFARS PGI payment instructions, deviate from the allocation process in 9.3.1.2, allocations in entitlement and accounting systems may reflect payment instructions that direct liquidation of contract finance payments from ACRNs with a shorter remaining period of availability for expenditure. This may facilitate liquidation of obligations under 31 U.S.C. §1553 before closure of the appropriation account by operation of 31 U.S.C. § 1552. If payment instructions direct liquidation of ACRN balances above the ULO balance multiplied by the contractual liquidation rate, the payment office must establish controls to ensure mixed-type-funding ACRNs (fixed and cost) are not over liquidated and the overall contract ceiling of 80% of contract price (FAR clause 52.232-16) is not exceeded.

9.3.1.2.2. If the contracting officer determines an alternate ACRN allocation methodology will be used to liquidate payments for a specific contract, as described in

5.2.4.2.1, the contracting officer must incorporate the DFARS PGI payment instruction of "Other" (prescribed by DFARS PGI 204.7108(d)(12)) and negotiate a written agreement to that methodology with the payment office before it may be used. The contract file and the payment office files must retain a copy of the written agreement, or the contractual modification identifying the specific payment instruction, for audit support.

9.3.1.3. Shifting work between contracts of the same contractor must comply with DoW progress payment policy of taking offsets whenever possible. A disbursement adjustment between contracts is a bookkeeping entry, not a payment transaction. When work is shifted between contracts of the same contractor, the progress payment is the net amount of the transactions involved on the contracts. A modification to each affected contract orders any transfer of work from one contract to another.

9.3.1.4. Recoupments are not accomplished involving both U.S. and FMS funds unless both fund the payment of the deliverable item. For a deliverable payment against U.S.-funded ACRNs, progress payments are recouped only against the U.S. ACRNs. For a deliverable payment against FMS-funded ACRNs, progress payments are recouped only against the countries involved with the FMS deliverable.

9.3.2. Advance

9.3.2.1. Subsidiary records of individual advances must be maintained to support the amount recorded in the general ledger account. The subsidiary record must include the amount and date advanced, the applicable contract number, and the disposition of the advance. At least quarterly, the subsidiary record must be reconciled with the general ledger balance; see Volume 4, section 3.0.

9.3.2.2. The contractor request for an advance payment must be submitted to, approved, and certified for payment by the office(s) specified in the contract. The advance payment must cite a specific appropriation associated with the advance payment pool agreement. The approved request is forwarded to the payment or entitlement office cited in the contract for payment.

9.3.2.3. On receipt of a properly approved advance payment voucher, the entitlement office must review it for accuracy. If proper, the office entitles the voucher and forwards it to the disbursing office to be paid.

9.3.2.3.1. The payment must cite the appropriations identified on the contracts listed on the reimbursement voucher.

9.3.2.3.2. The entitlement office must maintain a record of all contract financing payments it makes.

9.3.2.3.3. Total payments must not exceed the total amount authorized on the contract.

9.3.2.3.4. Payments must be made within 5 to 10 workdays after receipt of a properly approved reimbursement voucher, but not earlier than the date specified in the pool agreement. These payments are a form of contract financing and are not subject to Prompt Payment Act (PPA) interest.

9.3.2.4. The payment office must establish controls (e.g., manual or electronic ledgers) to ensure cumulative payments, plus the amount advanced, do not exceed the ULO of all contracts awarded under the pooling agreement.

9.3.2.5. Do not make a non-advance contract payment when it would cause the ULO to fall below the advanced amount. If this condition occurs, notify the designated DoW Component and request further instructions. The Component will advise whether obligating documents are in transit or whether the payment must be processed to liquidate the amount advanced.

9.4 COST-REIMBURSEMENT-TYPE CONTRACTS

9.4.1. The Defense Contract Audit Agency (DCAA) has sole authority to verify claimed costs and provisionally approve interim payment requests under cost-reimbursement, non-commercial and commercial time-and-materials, and labor-hour type contracts. This authority may include, on request, cost verification and provisional approval for state and local government-submitted claims under 2 CFR 200. Per DFARS 242.803, DCAA uses sampling methodologies to select interim vouchers for review before sending them to the payment office. Interim vouchers not selected for pre-payment review are considered provisionally approved and are sent directly to the payment office. All provisionally approved interim vouchers are subject to later audit of actual costs incurred. A Contracting Officer's Representative (COR) may not be delegated authority to approve these payments. The COR may review contractor billings but is expected to coordinate with DCAA when any cost verification is necessary to support surveillance responsibilities. The ACO approves the final payment request on the contract.

9.5 FAST PAYMENT

9.5.1. Payment must be made no later than 15 days after receipt of a proper fast pay invoice. If the payment office does not meet the 15-day requirement, PPA interest accrues under

the procedures applicable to invoices to which the fast payment procedure clause does not apply. See section 7.0 for additional PPA policy and requirements.

9.5.2. The entitlement office, together with the contracting officer, must ensure the following conditions are in place when using the fast payment procedures.

9.5.2.1. A closed loop process must exist that matches payments to material receipts and resolves non-receipt or other discrepancies. This must consist of a management control or audit program by the entitlement office for the post-payment examination of payments made under fast pay.

9.5.2.1.1. Authorized personnel with direct knowledge of the receipt must document receipt of goods and services. This documentation, whether hardcopy or systemic, must be made available within the timeframe prescribed by a post-payment examiner when requested during audits. The audit must confirm receipt and acceptance and include matching with payment documents.

9.5.2.1.2. The first attempt to obtain missing receiving reports must be initiated no later than 45 days after payment. If the receiving report is not received within 45 days of the initial follow-up, the entitlement office must contact the contracting officer to verify receipt and acceptance, or issue a contract deficiency report to the contracting officer for non-compliance with contract terms so the entitlement office and the contracting officer can start collection actions.

9.5.2.2. Auditable evidence of receipt and acceptance of the goods or services must exist and be accessible. Audit evidence of receipt must show the date the items were delivered or the services were rendered, the printed authorizing official's name, and the authorizing signature or electronic/digital approval. Audit evidence of acceptance is the authorization that the receipt of goods or services matches the criteria identified on the originating order and acknowledges the items or services are of acceptable condition and quality.

9.5.2.3. An information flow must exist that links consignee (the post office, common carrier, or point of first receipt by the Government) receipt and discrepancy information to both the purchasing and bill entitlement offices.

9.5.2.4. A prevalidation process must exist that matches expenditures and obligations for fast pay transactions (see section 2.0 for additional information on prevalidation requirements).

10.0 PAYMENT AS REIMBURSEMENT FOR PERSONAL EXPENDITURES

10.1 PERSONAL EXPENDITURES

10.1.1. Military and civilian personnel must follow the standard personnel reimbursement procedures established by their Component or activity and must avoid using personal funds to pay Federal Government obligations. Personnel must be reimbursed only if the underlying expense was authorized, or an urgent and unforeseen public necessity existed, and the claim is legally payable. Personnel must not use this policy to avoid standard Component or activity reimbursement procedures or to circumvent other laws or regulations.

10.1.1.1. Electronic submission is preferred when requesting reimbursement for personal expenditures. The electronic claim must contain all elements of Optional Form (OF) 1164, "Claim for Reimbursement for Expenditures on Official Business," unless the Component's system captures the same data elements through other functionality that links directly to the claim and supports both internal and external audit requirements.

10.1.1.2. When submission is not electronic, OF 1164 is the authorized form for requesting reimbursement for personal expenditures under this section.

10.1.1.3. Claimants subject to the U.S. Internal Revenue Service code must provide a Tax Identification Number (TIN) for all payments per 31 U.S.C. § 7701, 31 U.S.C. § 3325(d), and Federal Acquisition Regulation subpart 4.9. For personnel, the TIN may be the claimant's SSN (26 U.S.C. § 6109(d)); an alternative identification number must be used whenever possible per DoDI 1000.30. Per DoDI 5400.11, "DoW Privacy and Civil Liberties Programs," Components must safeguard the privacy of all individuals and the confidentiality of all personally identifiable information (PII) and must protect any PII in a system of records used to conduct official business.

10.1.1.4. All claims for reimbursement must be submitted per DoW and Component submission policies and procedures (electronic or manual) and signed by the claimant, the appropriate approving official, and a properly appointed certifying officer before payment.

10.1.1.5. All claims for reimbursement require supporting documentation as proof of receipt, approval by a designated approving official, and certification by a properly appointed certifying officer before disbursement. Supporting documentation includes receipts, tickets, and invoices. Volume 1, section 9.0, Figure 9-1 prescribes the retention period for financial records supporting these payments; refer to 44 U.S.C. § 2909 for authority to retain records longer than disposal schedules specify.

10.1.2. Claim for Reimbursement for Expenditure on Official Business

10.1.2.1. Military and civilian personnel claiming reimbursement for personal-fund expenditures made without pre-approval must show an urgent and unforeseen public necessity existed. The claimant must prepare the claim and place on or attach to it the statement: "I certify this claim is true and correct. There was an unforeseen and urgent reason to spend my funds, and I have not received credit or payments." The claimant must sign and date the claim, and a designated Component or activity official must approve it before forwarding to the certifying officer.

10.1.2.2. Claims by non-Government personnel must carry signatures of the claimant, an approving official, and a properly appointed certifying officer. A certified copy of the document requesting the person to perform services, or documentation showing personally paid items, must support the claim.

10.1.2.3. Documents supporting certified vouchers must show the goods or services were received and essential. Mission-related expenses incurred while in travel status are not payable on a travel voucher or through the Defense Travel System. The JTR, sections 2.0, 3.0, and 5.0, prescribes items allowable for reimbursement in travel status for military members and DoW civilian personnel.

10.1.3. Reimbursement is authorized to Civil Air Patrol members for supplies, including fuel, lubricants, and other items required for vehicle and aircraft operations, through Air Force appropriations when the Patrol acts as an auxiliary of the Air Force. Reimbursement is also authorized to place equipment in serviceable condition or to improve and maintain equipment (including aircraft, motor vehicles, computers, and communications equipment) owned or leased by the Civil Air Patrol. Refer to 10 U.S.C. § 9494.

10.1.4. Conference Attendance

10.1.4.1. DoW requires specific approval to authorize and reimburse expenses for attending meetings of technical, scientific, professional, or similar private-membership non-Federal societies or organizations (JTR, Section 4, sections 0302 and 0321). Documentation supporting that approval must accompany the claim for reimbursement.

10.1.5. An employee required to serve as a notary public in connection with official duties is entitled to repayment of expenses incurred to obtain a notarial commission, as authorized by 5 U.S.C. § 5945. Reimbursable expenses include seals, embossing devices, recording and filing fees, and surety bonds required for notaries by state law. DoW Components must not reimburse claims for notarial professional-association dues or other non-essential services. The claim must include a statement that the notary commission is required to perform official duties as designated in Component or activity procedures, and a management official must approve the claimant's

statement before submission to the certifying officer. There is no statutory authority to pay these expenses to military members.

10.1.6. Reimbursement of expenses to obtain professional credentials may be authorized for application fees, examinations, and certifications. The authority for reimbursement of professional accreditation fees is prescribed by 5 U.S.C. § 5757.

10.1.7. Personnel Held Captive

10.1.7.1. U.S. military personnel held captive who barter personal valuables during escape and evasion may file a claim for reimbursement. The claim must list the value of each article and show its age and condition at the time of barter. The appropriate commander or management official must approve the claim before submission to the certifying officer.

10.1.7.2. Civilian personnel held captive who barter personal valuables during escape or evasion should consult their Component's legal counsel when preparing the claim. The designated Component official must approve the claim before submission to the certifying officer.

10.1.8. In limited circumstances, the cost of room and board is reimbursable to sponsors of dependent children who require room and board away from their domicile (not within commuting distance), as prescribed by 20 U.S.C. § 926(b). See DoD Directive 1342.20, DoD Education Activity (DoDEA), for eligibility requirements for educating dependent children in overseas areas or at non-DoW schools, including its definition of dependent. A receipt for the sponsor's actual payment of room and board must support the claimed amount. A signed statement is also required from the school superintendent or principal that the room and board charges are reasonable for the area and that no less expensive alternative was available to provide adequate education at a school within the same comparable distance.

10.1.9. When DoW-operated schools are unavailable overseas, the DoDEA coordinates placing students in local public or private schools or in boarding schools. In limited circumstances, reimbursement for the education travel of student family members is authorized by 5 U.S.C. § 5924(4). A travel receipt must support the claim for reimbursement.

10.1.10. Title 10, U.S.C. § 1094a prescribes continuing medical education requirements. Individuals enrolled in approved medical correspondence courses may be reimbursed for course costs before course completion. Refer to 5 U.S.C. § 4109 and section 5.0 for additional guidance. The claimant must timely provide satisfactory proof of course completion to the certifying officer through appropriate Component channels to avoid debt collection for perceived non-completion.

10.1.11. Appropriated funds may be used for official representation purposes as prescribed in DoDI 7250.13. The Heads of DoW Components may authorize authorized individuals, or their

designees, to expend Official Representation Funds only for official purposes. Receipts for personal expenditures must support the claim for reimbursement, and officials designated per DoDI 7250.13 must approve it before forwarding to the certifying officer for certification. See also the DoD Guidebook for Miscellaneous Payments (type payment codes OREV, ORGV, OREE, and ORGE) for additional policy.

10.1.12. Fees paid by award nominees, award recipients, and their supervisors and managers attending ceremonies may be reimbursed when the expenditures fall within the scope of the Government Employees Incentive Awards Act (5 U.S.C. §§ 4501-4506 and 10 U.S.C. § 1124). Fees may cover items such as meals, refreshments, plaques, and awards. DoW must not authorize advance payments. Individuals must request reimbursement on travel vouchers; if travel orders are not issued, the claimant must submit a claim with applicable receipts, approved by the designated management official, to the certifying officer.

10.1.13. Expenses for military attaché officers to maintain a suitable official residence are authorized, reimbursable, and may vary by location. The claimant must submit form DD281, "Voucher for Emergency or Extraordinary Expense Expenditures," to request and receive reimbursement. The Head of the DoW Component must approve claims before submission to the certifying officer. Title 10 U.S.C. § 127 prescribes policy for emergency and extraordinary expenses.

10.1.14. The JTR, Section 3, section 0206 prescribes allowable reimbursements for commonly incurred expenses for public or special conveyances used for transportation in and around duty stations. The claim for reimbursement must be supported by receipts and approved by the Component's designated approving official before submission to the certifying officer.

10.1.15. Military members assigned to a recruiting organization, or assigned recruiting duties as a primary or additional duty, are authorized reimbursement for actual and necessary expenses paid from personal funds. The JTR, Section 3, paragraph 020605 prescribes policy for reimbursement of actual and necessary costs. The claim must be supported by receipts and approved by the Component's designated approving official before submission to the certifying officer.

10.1.16. When local moves of military personnel's household goods are authorized per the JTR, Chapter 5, and made at personal expense, the claimant must submit a claim for reimbursement to the designated entitlement office. The claimant must support the claim with copies of the order directing the move, the authorization to move household goods at personal expense, and the paid receipt. The claimant must be reimbursed for documented receipts and expenses claimed per the JTR.

10.1.17. Expenses Incident to Death of Personnel

10.1.17.1. Specific Component regulations authorize and prescribe the services and expenses for the care of deceased personnel. Title 10 U.S.C. § 1482 authorizes payment for services, supplies, transportation, and other expenses incurred by the next of kin and establishes limitations on the amount of reimbursement. The claimant must submit a claim for reimbursement supported by receipts for personal expenditures, and the Component's designated approving official must approve the claim before submission to the certifying officer. The payment of expenses incident to the recovery, care, and disposition of a decedent's remains is covered by 10 U.S.C. § 1481.

10.1.17.2. A contract with a local mortuary may cover primary expenses for active duty military. The Government pays primary expenses covered by the Prompt Payment Act (5 CFR 1315) directly to the mortuary.

10.1.17.3. Secondary expenses may be assigned to a mortuary or reimbursed to the next of kin for expenses incurred. Secondary expense payments, whether assigned or not, must be expedited.

10.1.18. Reimbursement

10.1.18.1. TRICARE limits beneficiaries' private-sector out-of-pocket costs to plan-specific copays, cost shares, and deductibles based on beneficiary category and selected plan. Health providers generally bill any excess cost directly to TRICARE, and the Managed Care Support Contractor pays it. Beneficiaries whose out-of-pocket payments for private-sector care exceed their plan limits may submit a claim for reimbursement. The claim must include paid, itemized invoices from the service provider and signatures of the claimant, approving official, and certifying officer. Visit www.tricare.mil to download the proper claim form, which includes full completion instructions.

10.1.18.2. Title 5, CFR, Subpart 339.203 prescribes policy for authorizing physical examinations to determine an employee's fitness for duty when such requirements are essential for performing the duties, clearly documented in the position description, and directed by the commanding officer or supervisor. Examinations may be procured through an approved agency purchasing method, or the employee may arrange and directly pay for the examination. Procured examinations are processed like other contractor invoices, or the employee may submit a claim for reimbursement. The employee must submit the claim to the appropriate official for approval before submission to the certifying officer. The claim must contain a chargeable line of accounting and the amount payable, supported by a paid statement from the physician or other evidence of payment. The activity requiring the examination must charge the reimbursement to its operating funds.

10.1.19. Title 5, U.S.C. § 4109 authorizes reimbursement for necessary expenses such as tuition and matriculation fees, library and laboratory services, and other services or facilities directly related to training. The claim for reimbursement must include receipts for each payment of $25 or more, details of the expenditures such as services received and dates rendered, signatures of the claimant and approving official, and certification by a properly appointed certifying officer before payment.

10.1.20. DCSA agents are authorized reimbursement for investigative costs such as parking fees, police and court record checks, transcripts, photographs, or miscellaneous investigative fees. DCSA Headquarters must provide the servicing entitlement office the accounting classification citation for the reimbursement. The claim must cite the appropriate legal, statutory, or other authority authorizing the reimbursement. The claimant must submit a claim supported by receipts and approval signatures from designated DCSA management officials.

11.0 MISCELLANEOUS PAYMENTS

11.1 GENERAL

11.1.1. Purpose

11.1.1.1. A copy of all supporting documentation must accompany each payment request. Components must ensure the documentation is sufficient for an independent third party, such as an outside auditor, to understand and verify the basis of the entitlement, including the authority for the reimbursement as a liability of the DoW, and its value, timing, and funding source. The supporting documentation must clearly identify the parties approving and certifying the payment.

11.1.1.2. A designated approving official is appointed by the commanding officer, director, or designee, with oversight responsibility to ensure all payments or requests for reimbursement are necessary and for official Government purposes only. Components may also assign fiduciary responsibility to approving officials per Volume 5, section 5.0. Approving officials must provide information and data to certifying officers or disbursing officials in support of the payment, attesting to their accuracy. Approving officials must review all claims and verify that the request for payment or reimbursement of miscellaneous expenses was received per Component procedures.

11.1.1.3. All payment requests require supporting documentation for proof of receipt, approved by a designated approving official and certified by a properly appointed certifying officer before disbursement. Refer to Volume 5, section 5.0 for policy on appointing certifying officers via DD Form 577, Appointment/Termination Record - Authorized Signature, and distributing the form to the appropriate disbursing office. Certifying officers must make

supporting documentation available for review by authorized personnel, as stated in Volume 5, section 5.0.

11.1.1.4. Components must ensure all miscellaneous claims are paid from funds current and available to the accountable activity when the claim accrues, unless specifically authorized otherwise. All requests for payment or reimbursement of miscellaneous expenses must contain a valid line of accounting with funds obligated per Volume 3, section 8.0. Processing the request through a DoW payment system may require configuring unique standard document numbers.

11.1.1.5. Wage-related miscellaneous payments for awards and judgments must be submitted and paid through the civilian payroll office to ensure proper withholding of mandatory deductions. Refer to Volume 8, section 4.0 for mandatory payroll deductions.

11.2 FEES, CLAIMS, AND AWARDS

11.2.1. Attorney Fees Awarded

11.2.1.1. Attorney fees and other costs assessed in FOIA litigation are payable from operating funds of the Military Department, Defense Agency, Field Activity, or Combatant Command responsible for administering the initial FOIA determinations or contested record searches that are the subject of the litigation. The funding organization is not necessarily the organization named as a defendant. Components must make payments from funds current at the time of awarding attorney fees.

11.2.2. Attorney Fees Awarded under the Equal Access to Justice Act (EAJA)

11.2.2.1. Attorney fees and other expenses awarded to claimants under the EAJA are payable from funds available to the DoW activity at the time of the award. EAJA attorney fees are limited to $125 per hour (5 U.S.C. § 504), unless the adjudicating officer (deciding official), or the court in civil actions, determines the law allows a higher rate. Other expenses include those for expert witnesses and any study, analysis, engineering report, test, or project necessary to prepare the party's case. The amount payable is the amount approved by the adjudicating officer, or the court in civil actions, based on documentation from the adjudicating officer or the court.

11.2.3. Fiscal Service payments to the contractor will not include attorney fees payable in connection with an action filed by a contractor under the Contract Disputes Act of 1978 (41 U.S.C. §§ 7101-7109). Attorney fees awarded in these cases are payable from funds current at the time of award and available to the activity accountable for the contract obligation (28 U.S.C. § 2412(d)(4)).

11.2.4. Awards Made

11.2.4.1. Payment of the costs must occur within 30 days of their determination and acceptance by the contracting office. A copy of the decision, along with a statement of costs incurred and approved by the contracting officer, must support the certification of payment.

11.2.5. Counsel Fees and Other Expenses in Foreign Courts

11.2.5.1. When appropriate, contracts or letters of commission and understanding obligate the U.S. Government for payment of counsel fees, court costs, bail, and other expenses for obtaining copies of records, printing and filing fees, interpreter fees, witness fees, and other necessary and reasonable expenses. Payment of fines or civil damages is not authorized (32 CFR 845.5). Payment for bail is authorized when stated in an authorizing letter or message issued by the responsible officer citing 10 U.S.C. § 1037 as the authority. Members must sign an agreement to refund the U.S. Government the bail amount before posting bail (32 CFR 845.10). If the defendant forfeits bail, the individual must reimburse the DoW in cash or by payroll deduction via DD Form 139, Pay Adjustment Authorization.

11.2.6. Payment to Contractor When Contracting Officer Approves Claim under the Contract Disputes Act of 1978

11.2.6.1. If funds for the claim are available and the contractor does not appeal the contracting officer's decision, the responsible entitlement office must settle the claim from funds cited on the contract (41 U.S.C. § 7108 and 31 U.S.C. § 1304).

11.2.6.1.1. After final agreement with the contractor, the contracting officer must modify the contract using an SF 30, Amendment of Solicitation/Modification of Contract, to obligate the funds and document support for the payment, and must execute the modification before entitlement of the contractor's invoice.

11.2.6.2. If funds to pay the claim are not available, the contracting officer may refer the claim to the Armed Services Board of Contract Appeals (ASBCA) and request ASBCA approval of a settlement from the Judgment Fund. The Component must reimburse the Judgment Fund upon receipt of a bill from the Fiscal Service, from current and available funds or by obtaining additional funds (41 U.S.C. § 7108), as stated in section 2.11. Policy for payment of amounts under the Contract Disputes Act by the ASBCA or the Court of Federal Claims is in section 2.10.

11.2.7. Payments to Reimburse the Fiscal Service for Payments in Settlement of Contractor Claims Upon certification by the Fiscal Service (TFM, Volume 1, part 6, chapter 3100), the amounts of contractor claims settled under the Contract Disputes Act of 1978 may be paid to

the contractor by the Fiscal Service from the Judgment Fund. Amounts paid to contractors are reimbursable to the Fiscal Service from the appropriation available for the purpose of the contract or by obtaining additional funds for that purpose. If funds are not available in the proper account to cover invoices received from the Fiscal Service, the Component must request additional funds through appropriate channels. Amounts reimbursed to the Fiscal Service are not charged to the original fiscal year appropriation that funded the contract, unless the original appropriation was still current at the time of the judgment (Volume 3, section 8.0).

11.2.8. Interest Awarded Contractor

11.2.8.1. If claims involve antecedent liability, interest payments are chargeable to the appropriations current at the time the basic contract was executed (Volume 3, section 8.0), or by obtaining additional appropriations for reimbursement (41 U.S.C. § 7108).

11.2.8.2. This section excludes interest penalty claims related to the Prompt Payment Act (PPA) cited in 5 CFR part 1315. Per 31 U.S.C. § 3902, PPA interest must be paid from funds available for administering the program for which the interest was incurred, or from funds financing the operation of the Military Department or defense agency associated with the invoice or contract payment. All interest payments must be charged to the fiscal years in which they accrue. If appropriations are cancelled, any interest payment must be charged to the current fiscal year (31 U.S.C. § 1553(b)(1)).

11.2.9. Return

11.2.9.1. Rewards. Receipt of any authorized communication, oral or written, from a military or federal law enforcement officer or agency requesting active cooperation in apprehending or delivering to military control an absentee or deserter wanted by the Military Services constitutes the basis for a reward. A reward must not exceed the amount cited in 10 U.S.C. § 956 for apprehending absentees, deserters, or parole and mandatory supervised release violators.

11.2.9.2. Condition for Payment. A reward is payable only after notification is issued for the return to military control of the absentee, deserter, or escaped military prisoner. Notification consists of receipt of a DD Form 553, Deserter/Absentee Wanted by the Armed Forces, oral or written communication from military or federal law enforcement officials, or entry of the individual's name in the National Crime Information Center.

11.2.10. Cash Awards to Military Members

11.2.10.1. The award is payable against current funds available to the activity primarily benefiting, or the several funds or appropriations of the various activities benefiting

(10 U.S.C. § 1124(e)). Refer to paragraph 11.1.1.5 for requirements on submission, payment, and mandatory payroll deductions. The claim must be submitted on an SF 1034, or electronic equivalent, and must provide the military member's Home of Record for state tax reporting. The only exception to withholding taxes on cash awards is payment to an enlisted member serving in a combat zone. See the Combat Zone Tax Exclusions in Publication #3 (2020), Armed Forces Tax Guide.

11.2.11. Under 10 U.S.C. § 2252, certain rewards are authorized and paid as follows:

11.2.11.1. A Military Department must not pay a reward of more than $500 in any case. Rewards are payable from current funds available for the Component concerned. The payment voucher must be supported by a copy of the reward offer and a statement by the commanding officer or designated representative that all conditions for payment of the reward and accountability for the property have been met.

11.3 PURCHASES OF SPECIAL ITEMS AND SERVICES

11.3.1. Advertising

11.3.1.1. Per 44 U.S.C. § 3702 and FAR 5.502, contracting officers must obtain written authorization from the DoW Component head, or from a person with written delegation of authority from the head of a DoW Component, before advertising in newspapers, trade journals, and similar publications (5 U.S.C. § 302(b)). This delegation cannot be re-delegated. Newspaper advertisements are not payable unless the claim includes the advertising bill and a copy of the written authority. Requirements for payment and retention of documents follow.

11.3.1.2. The requirement for written advertising authority from the head of a DoW Component, or from a person with written delegation of authority, does not apply to radio advertising (FAR 5.502(b)) unless required by Component policy. The other restrictive advertising provisions in 44 U.S.C. § 3702 do not relate to radio advertising. No statutory restrictions exist on using appropriated funds for radio advertising to promote objectives. Claimants must submit payment claims on an SF 1034, or other approved Component form, with a copy of the invoice and an affidavit of publication furnished by the advertising agency (FAR 5.503(d)).

11.3.2. Arbitrator services under negotiated grievance procedures of management and labor union agreements are authorized. These services are normally acquired by issuing a DD Form 1155, Order for Supplies or Services, which specifies payment terms and conditions and requires coordination between the civilian personnel office and the contracting support office. Funds must be reserved and obligated before executing the ordering or contracting action. On completion of services, the civilian personnel office, or a designated official, must certify receipt;

this certification is the receiving report required for payment. Payment is made using this certification, the arbitrators' billing statement, and the terms in the completed DD Form 1155. These payments are governed by the PPA (5 CFR part 1315), unless the DD Form 1155 contains a specific payment due date.

11.3.3. Using appropriated funds to buy or lease passenger motor vehicles must be specifically authorized by an annual appropriation act or other law (see 31 U.S.C. § 1343). The purchase cost limitation in 31 U.S.C. § 1343 excludes articles used with a car but not permanently attached to it or not an integral part of it (for example, tire chains, fire extinguishers, safety flares, removable seat covers, transportation of the vehicle, and taxes). Motor vehicles should be acquired from the most cost-effective source: purchase or commercial lease through the General Services Administration (GSA), or any other method less costly to the Government as validated by a cost comparison (DoD Manual 4500.36).

11.3.4. Appropriated funds may be used to purchase blood supplies from donors (24 U.S.C. § 30) or through civilian contracts (DoDI 6480.04) per the policies of the respective Military Services for persons entitled to medical treatment at Government expense.

11.3.5. The Component's designated personnel must prepare and certify payment of civilian uniform allowances on an SF 1034 or electronic equivalent. DoDI 1400.25, Volume 591, prescribes the amount payable per year and other uniform allowance policies. The payment voucher may include more than one employee. The payment must be charged to the same appropriation and subsidiary accounting data normally charged for the salary of the personnel concerned. See the Guidebook for additional information and policy.

11.3.6. Confinement of Prisoners in Civil Detention

11.3.6.1. Prisoners may be confined in civilian facilities used by the U.S. Marshals Service when DoW confinement facilities are not available or do not provide for the separation of male and female prisoners per DoDI 1325.07. Transferring commanders must determine whether a military confinement facility, including military or security police detention cells, is not reasonably available. If a facility used or approved by the U.S. Marshals Service is not reasonably available, a military prisoner may be transferred to a facility accredited by the American Correctional Association or by the State for confinement.

11.3.6.2. The Provost Marshal's Office, which transfers prisoners, must provide the entitlement office a certified voucher and supporting documents itemizing the confinement expenses (10 U.S.C. § 956). After entitlement, the disbursing office remits payment to the civil confinement facility. All military prisoners must be provided supplies necessary for personal hygiene and maintenance of good health. The Military Services may also provide supplies for a prisoner's comfort, set monetary or quantity limitations on any supplies, and set other limitations

as Service corrections headquarters deems appropriate. Supplies issued to persons in a non-pay status are paid from appropriated funds. Health and comfort supplies provided to persons in a pay status are charged against their pay accounts or paid from their personal funds.

11.3.7. Fees required by local laws for certified copies or photocopies of public records, or documents required by a court or board, may be paid to the performing officials or legal entities. Current operation and maintenance funds may be used to purchase death certificates for deceased retired personnel. The claimant must sign a statement attesting that all resources to find beneficiaries were exhausted and none were found.

11.3.8. Discrimination Complaints

11.3.8.1. In discrimination complaint cases, attorney fees may be awarded under a no-fault settlement agreement, an informal adjustment, the decision of the Service director of Equal Employment Office (EEO), the Equal Employment Opportunity Commission (EEOC), the Merit Systems Protection Board, an arbitrator, a Federal court, or other appropriate authority. After legal counsel reviews and approves the award letter, the EEO manager of the legal office must initiate or authorize the reimbursement claim. The Component's reimbursement request must be a joint payment to the complainant and the complainant's representative, supported by an award letter and approval. The claim must cite current operating funds. Policy on allowable and reasonable attorney fees is in 29 CFR part 1614.

11.3.8.2. The EEOC assigns an EEO Administrative Judge to hold hearings on formal discrimination complaints and otherwise process individual and class complaints for the EEOC. The activity where the alleged discrimination took place must fund expenses associated with these complaints, using operating funds current when the services are requested. The EEOC bills the activity for authorized and required expenses (29 CFR part 1614). The activity's chief EEO manager, or assigned designee, must review and approve the EEOC billing.

11.3.8.3. The chief office of counsel typically arranges court reporter services by submitting a request to the DoW Component contracting office. The activity where the alleged discrimination took place must pay court reporter costs, using funds current when services are requested. The activity's chief EEO manager, or assigned designee, must review and approve payment requests.

11.3.8.4. Interest payments related to discrimination cases, when permitted by statute, must be charged to funds current at the time of the award. The Treasury establishes the rate, which is not the rate used to compute interest under the PPA.

11.3.9. Emergency Notification Service (9-1-1)

11.3.9.1. If the telephone company imposes a 9-1-1 fee for its own service, duly permitted by the tariff to which all utility customers are subject, the charge is proper and payable by the DoW; the DoW has no immunity from such fees. If a state or local government imposes the charge and merely uses the telephone company as its agent, the charge is a tax from which the DoW is exempt.

11.3.9.2. If a military installation receives an invoice for a 9-1-1 charge imposed by a state or local government, the tax is not payable. If fees were improperly paid, refer to the collection policy in Volume 16, section 5.0 to recover them.

11.3.9.3. If it is unclear whether such charges are taxes or service charges, the designated entitlement office, or responsible certifying officer, must contact the base communications officer or higher authority. This clarification must be included in the entitlement and certification documentation supporting the payment request.

11.3.9.4. Telephone service to on-base residents is a private contract between the resident and the local telephone company. Residents charged for 9-1-1 services may not claim exemption based on immunity. If a resident of base housing lives in an area where the base provides all fire, police, and other emergency services, the charge may be for services the resident does not receive, and a challenge may be possible. Regardless of the basis for challenging a 9-1-1 charge, it remains a private matter between the subscriber and the telephone company and is not a DoW reimbursable expense.

11.3.10. Hospital accreditation fees associated with the requirements in DoD Manual 6025.13, Enclosure 3 for medical facilities accredited by the Joint Commission on Healthcare Organization may be reimbursable. A deposit required for an initial customer may be reimbursable. Accreditation and certification on-site fees, invoiced 1 to 5 days after the survey event completes, are reimbursable for those requiring accreditation. Accreditation annual fees may also be payable, subject to the programs, services, volumes, and sites where service is provided.

11.3.11. If the loss was not caused by any fault or negligence of the Service member, reimbursement is authorized to compensate military personnel for clothing items destroyed, damaged, lost, abandoned, captured, or otherwise rendered unusable incident to military training or service (DoDI 1338.18). Personnel must submit an approved Service-specific Personal Clothing Claim form, or electronic equivalent. The Service member's activity billing office must prepare an SF 1034 or electronic equivalent for payment to the member.

11.3.12. Medical Services Provided by Civilian Non-Federal Sources

11.3.12.1. The military medical treatment facility (MTF) can refer members to civilian health care providers for diagnostic services, treatment, or both. On receipt of the civilian health care provider's itemized invoice, the claimant must submit a reimbursement request to their designated Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care. The same standards apply to an approved claim for services rendered in connection with care of a deceased member.

11.3.12.2. Dependents and retired personnel are authorized certain medical care and diagnostic services under 10 U.S.C. §§ 1071-1085. When an MTF managing the care of dependent and retired personnel must refer them to civilian facilities for care beyond the MTF's capability, payment for related supplemental care is authorized. The claimant must submit the health care provider's itemized invoice to their designated billing Component. The Component must prepare an SF 1034, or electronic equivalent, within 30 days from the later of receipt of an invoice or the date of acceptance of the care.

11.3.13. The DoW must not pay for any service required to be provided by the local government when that service is financed from revenues raised by state or local taxation from which the Federal Government is exempt. Common examples are police and fire protection (10 U.S.C. § 2465(a)). Refer to 10 U.S.C. § 2465(b) for exceptions of authorized payments.

11.3.14. Per DFARS subpart 241.1 and DFARS subpart 241.2, the DoW may pay on the same basis as private users of services, based on the quantity of direct services received (for example, water and sewage). Generally, the DoW will not pay for municipal services unless private citizens and businesses also pay a charge for the same services.

11.3.15. Appropriated funds available for making or procuring supplies may be used to acquire copyrights, patents, and applications for patents; licenses under them; design, process, and technical data and computer software; and releases for past infringement or unauthorized use of technical data or computer software, if the acquisition relates to supplies or processes produced or used by or for, or useful to, the DoW (10 U.S.C. § 3793).

11.3.16. Absent express Presidential exemption, DoW facilities must abide by state or local laws for abatement and control of pollution. Facilities may incur costs complying with these laws to obtain permits and pay the associated natural-resource management fees. Submit an SF 1034, or electronic equivalent, to pay these expenses. The payment request must include supporting documentation identifying the permit application fee and other related fees, approved by the base civil engineer or assigned designee.

11.3.17. Reciprocal Mutual Aid Agreements for Fire Protection

11.3.17.1. If the claims affect current funding for fire protection, FEMA will contact the installation during its claim processing and adjudication procedures. The DoW installation must provide the information requested, in coordination with the civil engineer, fire protection unit, and staff judge advocate, and must provide the complete name and address of the disbursing office, including the Disbursing Station Symbol Number, and an appropriation fund cite for fire protection funding so the Treasury can bill for reimbursement for approved claims paid.

11.3.17.2. All sums received as reimbursements for fire-protection costs incurred by any DoW activity must be credited to the appropriation or fund from which the fire-protection expenses were paid. If that appropriation's period of availability for obligation has expired, credit the fund or appropriation currently available for the same purpose (42 U.S.C. § 1856d(b)).

11.3.18. Representation and Contingencies Fund Use

11.3.18.1. This paragraph applies to disbursements against funds separately appropriated in the contingencies program, including representation, special expenses, and contingencies. Each fiscal year, Congress appropriates contingencies program funds under the statutory authority in 10 U.S.C. § 127 for use by the head of each DoW Component. Funding documents provide authority to obligate and expend contingency funds as approved, or as adjusted later during the fiscal year.

11.3.18.2. The head of a DoW Component must authorize the expenditure of Official Representation Funds by commanders for official entertainment or other official purposes, per 10 U.S.C. § 127 and DoDI 7250.13.

11.3.18.3. The Appropriation Act language for contingencies usually reads: "For emergencies and extraordinary expenses, to be expended on the approval of the Secretary of the cognizant Military Service, and payments may be made on their certificate of necessity for confidential military purposes." The following policies apply, depending on the type of payment involved.

11.3.19. Where water supply systems serving DoW organizations do not meet the standards in 40 CFR part 141, subpart C, special drinking water may be purchased with appropriated funds only when necessary from the Government's standpoint. The reimbursement claim requires a statement attesting the drinking water is non-potable, plus a public announcement or a copy of the water testing results. Examples include public water unsafe for human consumption, an emergency failure of the installation's water source, a temporary facility with no

drinking water available within a reasonable distance, or no water fit for drinking available without cost or at a lower cost to the Government.

11.3.20. Support of Armed Forces Personnel in Confinement

11.3.20.1. Purchase of health and comfort items for personnel confined on-base is authorized for all military prisoners, subject to DoDI 1325.07. Reimbursement must be claimed using an SF 1034 or electronic equivalent. Supplies issued to persons in a non-pay status are paid from appropriated funds. Health and comfort supplies provided to persons in a pay status are charged against their pay accounts or paid from their personal funds.

11.3.20.2. The Military Confinement Facility commander must provide suitable clothing, on a temporary loan basis, to a prisoner confined without essential clothing. Permanent issue items, except distinctive prisoner clothing, are subject to personal funds withdrawal if the prisoner is in a pay status. All necessary clothing for a prisoner confined in a non-pay status is provided at Government expense.

11.3.21. Telephone and Television Service

11.3.21.1. Appropriated funds normally must not be used to pay for telephone service to private residences, except as identified in 31 U.S.C. § 1348 and DoDI 1100.21. Long distance calls from private residences for official business may be paid from appropriated funds when supported by properly certified vouchers.

11.3.21.2. Charges for official telephone and metered services for a period beginning in one fiscal year and ending in another may be paid from the appropriation current at the end of the service period (31 U.S.C. § 1308). This rule also applies to leased wire and teletypewriter services.

11.3.21.3. Telephone services provided for Service clubs, motion picture service, military Exchange store activities, and officers' and non-commissioned officers' messes within the United States are subject to federal communications taxes (26 U.S.C. § 4251 and 26 U.S.C. § 4252).

11.3.21.4. The telephone service contract may provide for payment at legally established rates. Under such contracts, rate increases approved by rate-setting authorities may be paid. Increased rates billed before approval by rate-setting authorities may be payable, but are subject to adjustment if the increase is not approved.

11.3.21.5. The office designated to receive telephone company bills must coordinate preparation and certification of the SF 1034, or an electronic equivalent, for payment.

Local Component procedures must confirm the number and active status of the phone lines or numbers billed and ensure the related costs reflect charges for official or other authorized use.

11.3.21.6. Forward the SF 1034 to the designated payment office with the telephone company's summary billing statement, which includes totals for the monthly plan and long distance charges. The responsible office must retain the detailed listings and schedules supporting the bill and must not attach them to the payment voucher unless local procedures require. Components must follow established local ethical conduct and related personnel policies and procedures when addressing reimbursement of costs for unauthorized use. Handle any funds collected per the Component's appropriation and fund deposit rules and regulations.

11.3.21.7. Government communication systems and equipment are only for official use and authorized purposes. Non-official use of Navy communication systems and equipment is at the commanding officer's discretion, provided the Navy incurs no additional cost and mission readiness is not degraded (OPNAVINST 2060.8B). The communications officer must collect unauthorized or unofficial charges on a DD Form 1131, Cash Collection Voucher, from personnel using the ship's communication service in an unauthorized manner and must immediately turn over the amounts collected to the disbursing office. When the telephone company bills the ship, the designated payment office must pay the telephone company using an SF 1034 to substantiate the payment.

11.3.21.8. Tenant-paid charges for necessary telephone wiring maintenance in base housing may be reimbursable per 31 U.S.C. § 1348. Internal wiring repair charges in family housing are reimbursable from maintenance funds; charges for unaccompanied personnel housing are reimbursable from current base funds.

11.3.21.9. Appropriated funds may pay reconnection expenses when a move results from Government action beyond the member's control and is directed at Government expense. Exclude expenses incurred during a permanent change of station (PCS) that may be reimbursable under the PCS orders or other related regulations.

11.3.21.9.1. Payment is authorized, as directed by the base commander, for mandatory assignment to Government-owned housing facilities, involuntary relocation to Government or non-Government facilities because of base renovation or condemnation proceedings, or termination of assigned quarters because of death of qualifying dependents.

11.3.21.9.2. Members are not authorized reimbursement for moves involving voluntary termination of assigned quarters, termination due to demotion to an ineligible grade or adverse conduct by a member, termination due to family separation (no hardship involved), or the member's voluntary movement from off-base to on-base quarters.

11.3.21.10. Reimbursement of the member's claim or a direct payment to the contractor is chargeable against the appropriation covered by the service.

11.3.21.10.1. A Service member may submit the same documentation through the billeting officer or base civil engineer to the entitlement office for a direct payment to the contractor. These payments are not subject to the PPA. The payment voucher must contain the statement, "Payment is being made for the following individual(s) for reconnection services on the following dates." Activity controls and procedures must ensure no duplicate reimbursement is later paid to the Service member.

11.3.21.11. Support the reimbursement or direct payment to the contractor with the following:

11.3.21.11.1. The member's letter requesting reimbursement for reconnection charges already paid, or a direct payment to the contractor for charges not yet paid. The member must certify the invoiced amount includes only charges incurred restoring telephone or television services previously provided at the old location and includes no charges for new services or equipment.

11.3.21.11.2. A copy of the telephone or television company invoice, certified by the chief of services or base civil engineer, showing only reconnection charges. All other charges are the member's responsibility and must be paid separately.

11.3.22. Tuition and Training

11.3.22.1. Tuition and training reimbursements to employees are miscellaneous payments. 5 U.S.C. § 4109 authorizes reimbursing employees for necessary training expenses (for example, tuition and matriculation fees; library and laboratory services; purchase or rental of books, materials, and supplies; and other services or facilities directly related to employee training). Refer to DoDI 1322.25 for additional tuition and training guidance.

11.3.22.2. Tuition assistance for military personnel must be paid directly to the academic institution per that institution's contract terms. Reimbursing the member for other related expenses requires a properly certified SF 182, Authorization, Agreement and Certification of Training, or other Component-approved form. Component procedures must ensure specified annual and per-course-hour reimbursements do not exceed allowable limits and must prevent duplicate payments.

11.3.22.3. Direct reimbursements to employees for necessary training expenses, such as books and supplies, require a miscellaneous payment request. Employees must submit these requests on an SF 182 or other Component-approved form. Refer to DoDI 1400.25, Volume

410 for additional policies and procedures on training, education, and professional development activities for civilian employees.

11.3.22.3.1. The training must be a regularly scheduled, off-the-shelf course, training conference, or instructional service available to the public and priced the same for everyone in the same category (price per student, course, program, service, or training space). To minimize employee reimbursements, the preference is to pay the training provider directly.

11.3.22.3.2. Payments prohibited as tuition or other training expenses include overtime, holiday, and night differential pay, and membership fees, per DoDI 1400.25, Volume 410 and 5 U.S.C. § 4109.

11.3.22.4. Advance payment of tuition and other expenses is authorized (5 U.S.C. § 4109 and 31 U.S.C. § 3324) when the training facility renders, or refuses to render, a billing. The SF 182 must identify the training facility by name and address, the amount payable to the facility for the tuition advance, and the amount payable to the trainee for purchase of books, library, and laboratory services. Submit the SF 182 to the entitlement office to support paying the advance as a miscellaneous payment.

11.3.23. Tuition Refunds

11.3.23.1. When the DoD Education Activity (DoDEA) determines refunds are payable to sponsors of tuition-paying students at DoW-operated schools, refunds are normally a prorated tuition amount when enrollment terminates before the end of the grading period (DoDEA Administrative Instruction 7200.01). A refund of advance tuition payment is authorized only based on a full grading period. A grading period is any of the four periods established by the school and covered by student report cards.

11.3.23.2. The school administrator must ensure deposit funds are available and prepare an SF 1034 that includes the student's name, enrollment termination date, and the amount authorized for refund.

11.3.23.3. The entitlement office must pay the voucher only after reviewing it for propriety and confirming related funds are available in deposit fund accounts.

11.3.24. Contract quarters are reimbursable to the contractor for personnel traveling on official orders in connection with FMS. The Security Assistance Management Manual (DoD 5105.38M, Section 9), Volume 15, section 8.0, and other appropriate DoW Component regulations prescribe the applicable travel policy. The claimant must prepare an Optional Form (OF) 1164, Claim for Reimbursement for Expenditures on Official Business, an SF 1034, or other

Component-approved form or electronic equivalent, and submit it with a copy of the official orders for reimbursement.

11.4 PROFESSIONAL LIABILITY INSURANCE (PLI)

11.4.1. Certain civilian employees (law enforcement officer, supervisor, management official, or temporary fire line manager) may be eligible for PLI reimbursement up to one-half of the insurance premium costs incurred annually, not to exceed $150 per year (see 5 U.S.C., chapter 59, subchapter IV and DoDI 1400.25, Volume 885).

11.4.2. An employee must submit the insurance policy and proof of payment to the servicing Human Resource Office/Civilian Personnel Office (HRO/CPO), plus a completed OF 1164, SF 1034, or other Component-approved form or electronic equivalent, certified by the HRO/CPO approving official, and an invoice from the insurance carrier. The invoice must include the issuing company's name, the policy number, and proof of payment. If it is not evident to the paying office that the carrier's invoice or the policy itself is a qualified professional liability policy, the paying office must return the invoice to the employee and request evidence that the policy's sole purpose is liability insurance. The reimbursement is not reportable as taxable income and not subject to IRS Form W-2, Wage and Tax Statement, reporting.

11.5 GOVERNMENT CHARGE CARDS CENTRALLY BILLED ACCOUNTS (CBAS)

11.5.1. This section provides financial management policy for CBA billings ("invoices" in this policy). GSA's Government-wide SmartPay3 contract and applicable DoW-tailored task orders authorize CBA programs for DoW. The Government Travel Charge Card program has two types of travel cards: the Individual Billed Account (IBA) and the CBA. Section 18 contains the financial management policy for IBAs. CBA transportation accounts are issued to DoW activities and are restricted to purchasing air, rail, and bus tickets only for travelers not eligible for an IBA. Unit mission requirements determine CBA credit limits. There are two types of CBAs:

11.5.1.1. A unit travel card may be issued to an individual or unit for group travel only when cost-effective and in the mission's interest. Unit cards accommodate groups such as new recruits, prisoners, and foreign nationals participating in an official DoW-sponsored program or activity.

11.5.2. CBA contractors must furnish a monthly invoice or statement of account showing charges made during the billing cycle. The invoice must contain the elements specified in section 8.0. The date the Billing Office receives the invoice starts the PPA clock.

11.5.3. Officials must work together to ensure accuracy, propriety, and legality over centrally billed accounts and related payments. Volume 5, section 5.0 provides the roles and

responsibilities of accountable officials for CBA programs. The certifying officer must ensure only certified payment packages are forwarded for payment.

11.5.4. Accountable officials must maintain documentation at all levels to support the integrity of Government CBA programs and to facilitate reconciliation and payment of CBA transactions. Accountable officials must establish clear audit trails for CBA transactions by maintaining documentation supporting each purchase, such as travel orders/authorizations; requisitions, including cross-references to any related Blanket Purchase Agreements; telephone and mail order logs; receipt records; and credit slips (DoDI 5154.31, Volume 4). Certifying officers must review payment packages to ensure the information agrees with all supporting documentation before certification and submission to the entitlement office for payment. Volume 5, section 15.0 prescribes certifying officers' responsibility to make records and supporting documents accessible to authorized users.

11.5.5. Government CBA owners must dispute, or report as fraud, questionable transactions with the issuing bank per the timetable and provisions of the issuing bank contract and local procedures. Approving officials must notify the entitlement office by annotating the invoice or invoice package to show reductions for disputed charges, and must maintain records tracking disputed transactions to full resolution.

11.5.6. Designated entitlement office personnel rely on the certifying officer to ensure the validity, legality, and accuracy of certified invoice packages. The designated entitlement office must ensure all certified invoice payment packages undergo prevalidation to confirm funding availability, and must ensure a DD Form 577 is on file to verify all manually and electronically certified payment packages.

11.5.7. Approving officials in billing offices submitting CBA Billing Statements must ensure proper audit trails exist and documentation is available to support all charges and CBA payments. The certifying officer must retain documentation, both paper and electronic records. Refer to Volume 1, section 9.0, Figure 9-1 for statutory retention requirements.

11.6 PAYMENTS UNDER REAL PROPERTY LEASES

11.6.1. Leases are subject to the statutory and regulatory provisions applicable to DoW contracts and to lease-specific statutory provisions. A lease is a contract conveying the use of land or buildings for a specified time at a specified rate of compensation. Leases describe the premises, period, purpose, rent amount, payment method, special or operational services included (such as heat, light, water, and janitorial services), and any restoration provisions. If the lessor fails to provide the services the lease calls for, the lessee (DoW) may pay the cost and deduct the amount from the lease rental payments.

11.6.2. Rent

11.6.2.1. Recurring rental charges are paid without individual vendor invoices. At the end of each rental period, the using activity or designated payment office must prepare an SF 1034 or an electronic equivalent. The claim must identify the lease, confirm the property's use or availability during the rental period, include all relevant supporting documentation, and be processed per the lease provisions. Refer to the Guidebook for SF 1034 preparation instructions. Intra-Governmental lease or rental payment transactions must be processed using the Intra-Governmental Payment and Collection (IPAC) System or the G-Invoicing process, as prescribed by the TFM, Volume 1, Part 2, Chapter 4700, Appendix 5, Section 3, and Appendix 8.

11.6.2.2. At the end of each calendar year, report yearly rental payments of $600 or more to the IRS. Do not report payments to real estate agents. See the DFAS Tax Office website and section 6.0 for additional information and policy on 1099 reporting.

11.6.3. Party Entitled to Rental Payment

11.6.3.1. If DoW occupies land under a lease, the rental payment cannot be avoided because of any defect in the lessor's title at the time of entering into the lease agreement.

11.6.3.2. If DoW occupies land owned by several tenants-in-common under an agreement with one of them, and without objection by the others, that tenant-in-common is entitled to receive the rent.

11.6.3.3. If property leased to DoW sells on one day and the deed of conveyance is executed on another day, the grantee is entitled to receive the rental only from and after the date the deed is executed.

11.6.3.4. Rent liability does not become payable day-by-day; it becomes due in total on the dates set forth in the lease. The payment is not prorated among several owners who owned the premises for portions of the rental period. When leased property is sold, the seller must furnish a copy of the deed of sale for association with the lease contract. If the lessee is properly notified, payment is made to the titleholder on the due date.

11.6.4. Payment for leased land is not payable in advance. Payment for leases in foreign countries for periods of time is directed by the laws and ministerial regulations of those countries or local customs (10 U.S.C. § 2396).

11.6.5. DoW lease agreements must be clearly written regarding provisions for laying conduit and wires, making alterations, performing repairs, or making other improvements. Unless the lease clearly provides for such improvements at DoW expense, payment of any associated cost is not authorized.

11.6.6. Although taxes are not payable by DoW as the owner of real property, such taxes are properly payable as part of the rent when specifically included in the lease terms.

11.6.7. The lease terms determine the basis of payment. Leases with the standard U.S. Army Corps of Engineers termination clause require payment for the day after the termination notice is mailed plus 29 days. Analyze leases with other termination provisions individually, in consultation with local legal counsel, to determine the rent due upon termination.

11.7 PAYMENTS UNDER INDIVIDUAL SET-ASIDE CONTRACTS

Reimbursements to medical health service providers serving under ISAs may be subject to Federal tax and the Federal Insurance Contributions Act, depending on the contract terms. If required, DoW must report ISA payments at year end to the IRS on a Form W-2 per Social Security Administration/IRS guidelines (IRS Publication 15, Circular E). The DoW Tax Reporting Office must perform the W-2 reporting. Refer to Volume 8, section 9.0 for disbursements to taxing authorities.

11.8 PAYMENTS OF FEES FOR GUEST SPEAKERS, LECTURERS, AND PANELISTS

Payment of expenses associated with honoraria (guest speaker fees) is allowable for individuals who are not Government personnel. Honoraria are ex gratia payments to a speaker who has discretion over the content of the speech, presentation, or panel discussion on the general topic. Honoraria limitations do not restrict payment for presenting materials under a training contract involving a program of instruction. Per the Deputy Secretary of Defense, honoraria greater than $2,000 must be approved by the next higher organizational echelon. Approvals must follow the Component's established procedures.

11.9 INTRA-GOVERNMENTAL TRANSACTIONS

The TFM, Volume 1, Part 2, Chapter 4700, Appendices 5 and 8 prescribes policy for agencies to process intra-Governmental expenditure transactions through the IPAC system or the G-Invoicing process. IPAC is an electronic, internet-based collections and payment system. Refer to Volume 5 for additional policy on IPAC and G-Invoicing.

11.9.1. Border Clearance Inspectors Overtime Expenses

11.9.1.1. If border clearance inspectors must work overtime, or on Sundays and holidays, at a DoW installation, the installation must pay the overtime expenses incurred, including travel and subsistence, per 19 CFR 24.16 and 19 CFR 24.17. Border clearance officials regularly assigned to DoW installations receive no payment for travel and subsistence. When additional inspectors supplement the regularly assigned inspection staff, the DoW installation pays their overtime, travel, and subsistence.

11.9.1.2. If a DoW aircraft lands at a site other than a DoW installation, the aircraft's home station must pay the charges. When a DoW aircraft lands at another DoW installation, the installation providing the landing clearance services must accept the border clearance and inspection expenses. Financial managers must ensure funds are reserved to pay these claimed expenses. The DoW official designated to make the arrangements must maintain accurate records, submit overtime requests, certify receipt and acceptance of services, and forward billings for payment. Invoices from one agency may be consolidated and paid using a single IPAC or G-Invoicing transaction.

11.9.2. GSA

11.9.2.1. Except for normal wear and tear, DoW is pecuniarily liable for loss of or damage to GSA motor pool vehicles caused by negligence, misconduct, abuse, or inattention of military or DoW civilian personnel.

11.9.2.2. When damage occurs to a GSA vehicle, the vehicle operator must notify the GSA fleet management center, the operator's supervisor, and the state, county, or municipal authorities as required by law (41 CFR 101-39.401). GSA charges DoW for all costs resulting from damage, including vandalism, theft, and parking lot damage, case-by-case after reviewing the documentation required by 41 CFR 101-39.406. Upon receipt of GSA's damage assessment, use the IPAC system, G-Invoicing, or an SF 1080, Voucher for Transfers Between Appropriations and/or Funds, to pay GSA. The DoW Component to which the vehicle was assigned must provide the fund cite. The SF 1080 must identify the damaged vehicle and include the vehicle registry number, date of damage, register number of the SF 91, Motor Vehicle Accident (Crash) Report, and, when applicable, an SF 94, Statement of Witness.

12.0 COMMERCIAL TRANSPORTATION PAYMENTS

12.1 POLICY

12.1.1. Valid Line of Accounting (LOA). Every transportation shipment, when initiated, must have a valid LOA, including the Standard Document Number, or an associated Transportation Account Code (TAC) representing a valid LOA, before processing shipment requests, automating obligation recording, and certifying and paying invoices.

12.1.1.1. The Transportation Officer (TO) or Traffic Management Officer (TMO) must not provide transportation services without first obtaining proper supporting documentation, which at a minimum must include an authorization to use, and a citation of, a valid and funded LOA provided by a designated Fund Manager (FM) or financial management official.

12.1.1.2. If funding data supporting the shipment request fails validation when processed, the TO/TMO must suspend further processing until the shipping customer provides written (electronic or hardcopy) verification that the LOA is valid.

12.1.2. Funded Line of Accounting (LOA) and Associated Transportation Account Code (TAC). Shipping customers requesting transportation services must provide the TO/TMO the FM's written or electronic verification of a funded LOA (funding document), or the associated TAC, before the Government contracts with a carrier. The FM verification may be annotated on the Movement Request Order, usually a DD Form 1348-1A, Issue Release/Receipt Document, or DD 1149C, Requisition and Invoice/Shipping Document.

12.1.3. Anti-Deficiency Act (ADA). Any transportation shipment request processed without an authorized, valid, and funded LOA that obligates the Federal Government could violate the ADA under 31 U.S.C. § 1341. See Volume 14, sections 2.0 and 3.0 for additional information on appropriations and ADA violations.

12.1.4. Internal Controls. Internal controls must be in place to prevent duplicative or erroneous payments and to ensure DoW funds are spent appropriately and per all applicable laws and regulations. Refer to section 2.0 for additional policy on internal controls.

12.2 RESPONSIBILITIES

12.2.1. DFAS. DFAS maintains the software and database support for the Transportation Global Edit Table (TGET).

12.2.1.1. Each Component must update the TGET and ensure it contains valid LOAs and TACs.

12.2.2. Shipping Customers. Shipping customers can be individuals (Service members or civilian employees), units, or organizations within the Military Services, Defense Agencies, and other Government (non-DoW) agencies (federal, state, or local) requesting shipment of freight or personal property. The shipping customer must obtain and present to the TO/TMO, in written or electronic form, a valid and funded LOA from a designated FM.

12.2.3. Transportation Officer (TO) and Traffic Management Officer (TMO). TOs and TMOs are designated to process approved shipment requests for transportation or storage of military goods and other items entitled to be transported or stored at Government expense, and related accessorial or special services. The TO/TMO responsibilities include:

12.2.3.1. Suspending, and not accepting for shipment, any shipment request that is incomplete or not fully supported by the proper funding authorization; and

12.2.4. Fund Manager (FM). FMs are legally responsible for managing the appropriate use of funds and must assist and advise the TO/TMO on all financial-related matters. The FM must maintain and issue authorizations to use LOAs; coordinate and administer changes and modifications to LOAs and ensure updated data is uploaded to the TGET when necessary; provide a properly formatted LOA and associated TAC for input into the shipper system; resolve edit exceptions with the appropriate finance and accounting office; work with the TO/TMO and certifying officer to correct fund citation edit exceptions; provide the shipping customer documentation supporting funds availability and record the commitment/obligation appropriately; monitor execution of transportation costs and make adjustments as needed; and coordinate with the contracting officer and TO/TMO on transactions not yet certified for payment.

12.2.5. Certifying Officer

12.2.5.1. Ensuring the use of and certifying a SF 1113, Public Voucher for Transportation Charges, and ensuring the form includes the correct amount and fund cites when processing requests for payment, invoices, and other transportation documents;

12.2.5.2. Returning, and not certifying, vouchers that are inaccurate, inadequate, improper, incorrect, impermissible by law, or that contain invalid or inadequate funding information; and

12.2.6. Payment Office. Each payment office must:

12.2.6.1. Ensuring that a valid electronic record of the transportation obligation is posted in the accounting system before disbursing funds;

12.2.7. Contracting Officer

12.2.7.1. Including in the solicitation and contract all applicable services, provisions, clauses, and instructions concerning first destination transportation charges and electronic invoicing. The solicitation and contract must also identify a separate LOA for prepaid freight.

12.3 PAYMENT, AUDITS, AND COLLECTIONS

12.3.1. Request for Payment. The payment office must process a request for payment per the applicable commercial rates, fares, or charges for transportation by any common carrier of any property for the United States, or on its behalf, as approved by the TO/TMO, or designee, and certified by the certifying officer. The payment office designated in the contract must make transportation payments.

12.3.2. Prepayment Audit Title 31 U.S.C. § 3726

12.3.2.1. The DoW must forward all relevant electronic transportation billing documents to the GSA Transportation Audits Division as soon as possible after the end of the month; the TPPS contractor accomplishes this and provides all available shipping and payment data supporting DoW transportation payments (FAR 47.103-1 and 41 CFR 102-118.80).

12.3.2.2. The payment office must ensure, during its prepayment audit of a hardcopy (non-TPPS) TSP bill, that the TSP completed the SF 1113 fully, including the taxpayer identification number and standard carrier alpha code. An SF 1113 must accompany all hardcopy (non-TPPS) billings (41 CFR 102-118.100).

12.3.3. Prompt Payment Act (PPA). Transportation payments are subject to the PPA. PPA regulations require agencies to pay transportation bills within a set time period and pay interest penalties on late payments; the Secretary of the Treasury sets the interest rate under the PPA.

12.3.3.1. Unless the contract specifies differently, transportation charges must be paid within 30 days after the original completed BOL reaches the designated billing office and the carrier certification is completed on the document.

12.3.3.2. If an invoice or accompanying documentation is incomplete or incorrect, the agency must give the TSP written notice of an apparent error, defect, or impropriety within 7 days of receiving the bill. See FAR 32.905.

12.3.4. The Director of the GSA Transportation Audits Division may audit and settle all transportation-related accounts (31 U.S.C. 3726). When instructed by GSA, the payment office must offset, as appropriate, any overcharge amounts due the United States from an unpaid carrier's bill. GSA may audit but may adjudicate and settle only when there is a dispute between the contractor and a government party to the contract.

12.3.4.1. The payment office must inform GSA if it does not have, and is not likely to have, a subsequent voucher to collect an overcharge.

12.4 TRANSPORTATION PAYMENT DOCUMENTATION

12.4.1. DoW may receive payment requests for transportation and related services in various forms, such as paper or electronic BOLs or periodic billing statements. Transportation offices must use commercial payment practices and electronic processing to the maximum extent possible per DoW policy in DTR 4500.9-R.

12.5 TRANSPORTATION DELIVERY TERMS

12.5.1. Delivery Terms Delivery

12.5.1.1. If the shipping contract includes both FOB origin and FOB destination delivery terms, the payment office must process each payment per the assigned contract terms for the goods shipped. See FAR 47.304-1(b) when the contracting officer includes both options to obtain the most advantageous delivery point.

12.5.2. Prepaid Freight Contractor

12.5.2.1. Contractors must support prepaid transportation freight charges with a copy of the carrier's receipted freight bill or evidence of receipt from the carrier. Evidence of payment is a receipted freight bill or BOL stamped or marked "To Be Prepaid" showing the charges receipted by the carrier. If this is not present, the BOL must bear a notation of the contractor's check number, the date paid, and proof of shipment.

12.5.2.1.1. If a receipted freight bill is not available, the contractor may instead support the freight-charge reimbursement claim with a copy of the transportation company's pickup record or of the contractor's internal business document showing the contractor turned the material over to a particular shipper. The contractor must support either document with a copy of the transportation company's invoice and a statement that the charges have been paid.

12.5.2.2. The payment office must not adjust the amount of freight charges if deliveries are made to places other than the FOB point.

12.5.2.3. The payment office must not adjust freight charges when a contractor contends that it paid transportation expenses the Government was obligated to pay.

12.5.2.4. The payment office must not deduct for potential excessive freight charges paid by the Government. The payment office must submit such adjustments to the respective legal counsel for referral to GSA for direct settlement as claims.

12.5.3. Reimbursable Prepaid Freight Reimbursement

12.5.3.1. The contractor must list this expense as a separate item on the invoice.

12.5.3.2. Contractor prepaid freight is not authorized within overseas areas. A contractor may be reimbursed for prepaid freight within the United States to a stateside port of embarkation for further shipping by Government means to the overseas area.

12.5.4. Excessive freight charges are freight costs a contractor incurs that exceed costs from the FOB point specified in the contract, and they are not reimbursable. The contracting officer must determine whether to pay excessive freight charges and provide that determination to the payment office before the payment office may make any approved payment adjustments.

12.5.4.1. If a contractor prepays freight for a shipment contrary to the current contract terms, the payment office may pay the shipment charges after receiving a contract modification authorizing the prepaid shipment. The payment may not exceed the cost the Government would have incurred. The contractor must attach the prepaid freight receipt to the request for payment.

12.5.5. Funding Determination Guidelines

12.5.5.1. Transportation charges for material shipped from one U.S. Government installation to another are not part of the contract expense to buy the material.

12.5.5.2. Transportation charges incurred to transport exchange or commissary supplies are charged to the applicable exchange fund or to the Defense Commissary Agency.

12.5.5.3. If freight is damaged in shipment, transportation funds must not be used to pay for replacement or repair of the damaged goods, regardless of which entity is responsible.

12.5.6. The Government generally retains the risk of loss or damage to its property that is not the legal liability of the commercial carriers and generally does not buy insurance for its property in the possession of commercial carriers (FAR 47.102). Where loss or damage risk resides with the carrier under a contract, the payment office may deduct from amounts due the carrier as follows, per 10 U.S.C. 2636(a)(1) and (2):

12.5.6.1. If deducted due to loss of, or damage to, material in transit for a military department, the payment office must credit the amount to the proper appropriation, account, or fund from which the same or similar material may be replaced; or

12.5.6.2. If deducted as an administrative offset for an overpayment previously made to the carrier under any DoW contract for transportation services, or as liquidated damages due under any such contract, the payment office must credit the amount to the appropriation or account from which payments for the transportation services were made.

12.5.7. Non-DoW agencies that wish to use DoW transportation services must provide funds with the appropriate LOAs to the sponsoring DoW Component before services are provided. The sponsoring Component may set up a reimbursable account where the third-party billing system can continue to pay the TSP and may establish a Service/DoW LOA/TAC for the paying office to process. See Volumes 11A and 11B for additional reimbursable policy.

12.6 NON-TEMPORARY STORAGE (NTS) AND LOCAL DRAYAGE OF HOUSEHOLD GOODS (HHG)

12.6.1. An authorized DoW official must determine whether local drayage and storage of HHG is authorized when it provides the best value to the Government. TO/TMO responsibilities include obtaining these transportation services to meet operational needs.

12.6.1.1. All invoices for NTS services must be processed electronically through a TPPS using the policy in paragraph 12.9.

12.7 MISCELLANEOUS TRANSPORTATION PAYMENTS

12.7.1. DoW recruits, including Department of Homeland Security Coast Guard recruits, use meal checks while in transit from the Military Entrance Processing Stations (MEPS) to the Service training centers. Only an appointed MEPS Transportation Assistant (TA), or designated alternate, may issue meal checks, and only to DoW recruits traveling under JTR provisions.

12.7.1.1. Meal checks must not be used to buy alcoholic beverages, when travel is by commercial aircraft and passage rates include meal service, when an advance allowance of per diem has been received, when any portion of travel is OCONUS, or for payment of a gratuity.

12.7.2. Meal Tickets Meal

12.7.2.1. Meal tickets must not be used to buy alcoholic beverages, when travel is by commercial aircraft and passage rates include meal service, when an advance allowance of per diem is received, for travel of civilian employees, for travel of military dependents except when a dependent is authorized per diem to escort a deceased military sponsor, or for payment of a gratuity.

12.7.2.2. These payments are due 30 days after they reach the designated billing office. Late payments are subject to interest under the Prompt Payment Act (31 U.S.C. §§ 3901-3907).

12.8 CLAIMS BY TRANSPORTATION SERVICE PROVIDER (TSP)

12.8.1. If a TSP sends a claim to a payment office, the payment office must make every reasonable and legal effort to resolve the dispute directly with the TSP.

12.8.1.1. If the original payment office cannot resolve the claim, it must forward the claim to the GSA Transportation Audits Division.

12.9 DOW THIRD PARTY PAYMENT SYSTEM (TPPS)

12.9.1. All DoW Components using the TPPS service must implement local internal controls to prevent, detect, and report unauthorized transactions, as outlined in section 2.0, paragraph 2.2. Managers must ensure adequate separation of duties and limit system access to only those individuals necessary to accomplish assigned tasks. The annual-reconciliation policy in subparagraph 12.9.2.3 reinforces the DTR, Part II, Chapter 212, and Part V, Appendix A, which identifies the reviews and controls needed for timely, accurate processing of transportation bills. DoW Components and transportation offices must work closely with the DFAS to perform root cause analysis and develop automated tools and business process solutions to improve the reconciliation process, including use of Advanced Analytics where feasible. The infrastructure should also include performance metrics for Component accountability.

12.9.2. Certification, Reconciliation and Payment Processing,

12.9.2.1. The certifying officer must review and certify the monthly invoices, ensure each invoice contains valid and adequate funding information and is accurate, correct, and permissible by law, and identify any transactions that do not belong to their TPPS account. The certifying officer must apply the certification criteria in subparagraph 12.2.5, the DTR 4500.9-R, Part II, Chapter 212, and Volume 5, section 5.0.

12.9.2.2. The certifying officer, with the payment office, must reconcile the account activity section of each TPPS monthly summary invoice promptly to identify carrying-balance discrepancies, resolve past-due amounts, and verify that all fees and adjustments on each invoice are correct. Components must reconcile and pay all transportation accounts in full annually, by the end of the first quarter following the end of the FY; for example, charges incurred during FY 2021 must be reconciled and paid in full by the end of the first quarter of FY 2022. The certifying officer must communicate any reconciliation issues to the payment office promptly.

12.9.2.3. The certifying officer must return, and must not certify, any invoice that does not contain valid and adequate funding information or that is not accurate, correct, or permissible by law.

12.9.2.4. In addition to assisting the certifying officers when necessary, the payment office must ensure that the TPPS monthly invoice is paid on time. Late payments are subject to the applicable PPA interest penalty (31 U.S.C. §§ 3901-3907). All interest penalties paid appear in the next month's fees and adjustment section of the monthly summary invoice and must be reconciled with the total and interest payments previously made.

13.0 PAYMENT FOR POSTAL SERVICES AND SMALL PACKAGE DELIVERY COSTS

13.1 PAYMENTS

13.1.1. Methods of Payment for Postage

13.1.1.1. Payments to service providers other than the USPS must use Treasury payment methods, such as automated clearing house (ACH), electronic funds transfer (EFT), or another Treasury-approved means of paying the vendor.

13.1.2. Metered or permit-mail payments must use EFT transactions to commercial banks the USPS designates as its financial agents. Postage payments must not be held in postal vendor accounts unless the DoW Component has statutory authority or prior written Treasury approval.

13.2 INSTALLATION OFFICIAL MAIL MANAGERS (OMM)

13.2.1. OMM appointment must be in writing. OMM appointments are reserved for commissioned, warrant, and noncommissioned officers (Enlisted-6 or higher), or DoW civilians (General Schedule-9 or higher); this requirement may be waived when the activity has no personnel in the grades specified. The OMM function is inherently Governmental and must not be contracted out.

13.2.2. Each installation has an OMM who must plan and coordinate outgoing postal and delivery purchases. The OMM must work closely with facility personnel to minimize postage requirements and with managers to ensure the person who decides to send any significant volume of mail also controls the postage funds. The OMM is responsible for interpreting and carrying out the Private Express Statutes (USPS Publication 542) within the organization; the acquisition, use, or disposition of supplies and property; budgeting for and expending appropriated funds for postage and fees; overseeing the monthly reconciliation of trust and debit accounts; and reporting requirements.

13.3 CENTRALIZED TRUST AND DEBIT ACCOUNTS

13.3.1. CAPS

13.3.1.1. The GSA Smart Pay credit card may be used for all transactions for which the USPS accepts the card. When there is a choice, use the CAPS or CMRS trust account instead of a GSA Smart Pay card.

13.3.1.2. Advance deposit trust accounts at local post offices may be used when one of the preceding methods is not available. Advance deposit trust accounts are not authorized at military post offices.

13.3.2. CAPS account use is a local decision; CAPS accounts are not available at overseas military post offices. CAPS accounts may include customer meter, business reply mail (BRM), and permit imprint advance deposits. A payment into a centralized trust or debit account is an advance deposit payment to the post office. The OMM must monitor and reconcile each centralized trust or debit account to ensure receipt of services paid in advance. An OMM who establishes centralized trust or debit accounts must maintain a record of all transactions in each account and is responsible for each account balance.

13.3.3. Centralized Trust and Debit Account Payment Process

13.3.3.1. The OMM must request funds to set up or replenish each centralized trust or debit account by submitting a SF 1034, Public Voucher for Purchases and Services Other Than Personal. The OMM must ensure funds are available and approved by the designated approving official and a properly appointed certifying officer.

13.3.3.2. The OMM charges postal services against a trust or debit account as required. The USPS issues a receipt for each charge to a centralized trust or debit account. The OMM verifies services received on the postal receipt and reduces the advance by the amount shown on the receipts. The OMM must identify receipts to each trust or debit account.

13.3.3.3. One SF 1034 can establish or replenish more than one trust or debit account. The SF 1034 must identify the amount to be deposited into each centralized trust or debit account. Once the designated finance and accounting office makes a deposit into an account, the OMM has limited authority from the USPS to transfer funds between trust or debit accounts. If a transfer between accounts is necessary, the OMM must coordinate the transaction with the designated finance and accounting office and the USPS. The designated finance and accounting office must record the transfer using an Optional Form 1017-G, Journal Voucher, or equivalent.

13.3.3.4. The OMM must reconcile the trust accounts monthly with the USPS transactional documentation. The designated finance and accounting office confirms the balance in each centralized trust or debit account monthly with the OMM. The OMM must provide documentation supporting any unexplained difference and report those findings to the Comptroller of the designated finance and accounting office. The OMM and the designated finance and accounting office must jointly review any unresolved discrepancy. Service-specific or locally developed, automated or manual worksheets must be used to assist reconciliation and track postal expenditures. All Official Mail and Distribution Centers must maintain this information. The OMM must submit a written letter to the USPS to correct account errors.

13.3.3.5. Advance payments for any centralized trust or debit account are limited to the current quarter's postal requirements. The designated finance and accounting office and the OMM must review balances against the postal requirements monthly. When required, the OMM

must adjust balances by allowing the trust or debit account to decrease with use, or by submitting a request (SF 1034) to the designated finance and accounting office to deposit more funds for quarterly postal requirements.

13.3.3.6. When the USPS refunds cash for unused services in a trust or debit account, the OMM must submit a written request to the USPS to process the refund to the appropriate DoW Component account via IPAC or EFT. If the USPS cannot send the refund via IPAC or EFT, the OMM must request reimbursement by check from the USPS using a Postal Service (PS) Form 3533, Application for Refund of Fees, Products and Withdrawal of Customer Accounts. Each PS 3533 is uniquely barcoded and no longer available online; the OMM must contact the local Post Office to secure a PS 3533 for each refund transaction. The OMM must submit the USPS refund check to the designated disbursing office with a DD Form 1131, Cash Collection Voucher, for deposit as a collection.

13.4 MISCELLANEOUS PAYMENTS

13.4.1. The Defense Logistics Agency (DLA) Document Services is the DoW single manager for printing services (DoDI 5330.03). All DoW Components must procure official business envelopes and other document services from DLA at the DLA Document Services link.

13.4.2. All DoW activities must use only prepaid postage. When the environment will not support the electronic processes, an OMM that purchases postage stamps for official use from the local post office may use a Government purchase card. Responsible commanders or their designated representatives, postal officers, and Military Post Office supervisors must audit all working postal accounts advanced by the USPS at least monthly.

13.4.3. Postage Due Costs

13.4.3.1. Under normal circumstances, DoW mail rooms do not accept postage due mail; they return it to the sender at the sender's expense.

13.4.3.2. As an exceptional circumstance, DoW Components engaged in a hostile environment or operating under arduous conditions may send official matter through the USPS when postage is not available. The addressee must not refuse postage due penalty mail from military units engaged in hostile operations and must pay the cost of postage.

13.4.4. Costs for address correction in CAPS are an ancillary service and must be paid by EFT. Supporting documentation must accompany each payment request.

13.4.5. Payment for express mail is made with stamps, metered postage, or through an express mail corporate account, which is similar to a trust account officially authorized by the OMM. Payments into an express mail account are advances to the USPS, controlled similarly to

trust account payments; refer to section 13.3. The OMM submits PS Form 5639, USPSCA Application and Payment Authorization Form, to establish the account. The USPS provides the OMM a monthly statement. The OMM must reconcile this account with the USPS at least monthly. The designated finance and accounting office confirms the account balance with the OMM monthly.

13.5 SMALL PACKAGE DELIVERY COSTS

13.5.1. The approved method for billing and payment of commercial small package express shipments is the authorized electronic processes DoW uses for transportation. When the environment will not support the electronic processes, or business reasons preclude their use, a waiver may be requested from the Office of the Secretary of Defense (Transportation Policy) per the Defense Transportation Regulation, Chapter 212, section C.3. Waiver requests must contain detailed justification why electronic means cannot be used and a proposed date when the electronic requirement will be met.

14.0 PAYMENT PROVISIONS FOR GRANTS AND OTHER INSTRUMENTS OF ASSISTANCE

14.1 SUBMISSION AND PAYMENT RESPONSIBILITY

14.1.1. Administering Office

14.1.1.1. The award recipient must certify and forward payment requests for the performance period to the administering grants office or required payment request system. The responsibilities of the administering grants office for payment requests are specified in 32 CFR 22.810. When the DoW awarding office is not using a grant payment system as described in paragraph 2.1, payment requests must be submitted and authorized per section 22.810, and the administering grants office must review and certify that the payment request or electronic equivalent is legal, proper, and correct (Volume 5, section 5.0). The administering grants office must also ensure the payment request complies with the award terms and that the recipient will not have excess cash on hand, based on expenditure patterns.

14.1.2. The award must designate the specific payment office that will make payment (typically the Defense Finance and Accounting Service (DFAS)). The payment office must verify the propriety, adequacy, and completeness of any required documentation substantiating amounts to be paid by the DoW, and must retain all hardcopy award documentation, or have access to electronic award documentation, supporting the payment file.

14.2 INTERNAL CONTROLS

14.2.1. The agency head must establish controls that ensure obligations and costs comply with applicable laws. Safeguards must be in place to ensure DoW grants comply with the awarded purpose, are adequate to pay the request, and are expended within the constraints reflected in the grant. The Single Audit process, and an agency's procedures for resolving related audit findings, are controls that help assure these objectives, consistent with OMB Circular A-123 and the Single Audit Act (31 U.S.C. 7501-7507) and the post-award responsibilities in 32 CFR Part 22, subpart H.

14.2.2. Each DoW agency that provides Federal awards must review recipient audits to determine whether audit findings require corrective actions and must perform follow-up procedures to ensure those corrective actions are implemented (2 CFR Part 200, Subpart F, 200.513(c)(3) and 200.514(e)).

14.2.2.1. DoW must rely on and use single audits, which independent auditors conduct in the oversight of Federal awards provided to states, local governments, Indian tribes, institutions of higher education, and non-profit organizations. DoW may request additional audits of such awards when required by regulation or as needed to ensure effective use of the awards, and must plan and implement any additional audit effort to avoid duplication and separately fund it.

14.3 PAYMENT REQUEST

14.3.1. Payment Request Forms Except

14.3.1.1. A DoW Component must obtain approval for any variation from OMB-approved forms or formats, including the use of additional or electronic data elements, or modification of the associated instructions for recipient entities submitting the information. For non-construction programs with states, local governments, institutions of higher education, and other non-profit organizations, recipients may request advance payments or reimbursements on SF 270, Request for Advance or Reimbursement, or electronic equivalent, or other prescribed forms or formats as necessary (32 CFR 34.12(d)).

14.3.1.2. For construction programs, each Federal awarding agency must use the SF 271, Outlay Report and Request for Reimbursement for Construction Programs, as the standard form, or electronic equivalent (41 CFR 105-72.302(m)(2)). DoW may use the SF 270 in lieu of the SF 271 when the DoW-awarding agency determines it provides adequate information to meet Federal needs.

14.3.2. For payments to commercial recipients, the grants office may authorize recipients to use SF 270 or SF 271, or prescribe other forms or formats as necessary (32 CFR 34.12(d)).

14.3.3. When the administrative grants office must authorize payment requests per 32 CFR 22.810, it must review each payment request to ensure the request complies with award terms, available funds are adequate to pay the request, and the recipient will not have excess cash on hand based on expenditure patterns. To ensure timely payments, the administrative grants office must certify and forward the request to the designated payment office at least 3 working days before the end of the following periods:

14.3.3.1. No more than 7 calendar days after the administering office receives the recipient's request when electronic commerce is used (for example, Electronic Data Interchange to request the payment and EFT to make the payment).

14.3.3.2. No more than 30 calendar days after the administering office receives the recipient's request when it is not possible to use electronic commerce.

14.3.3.3. No more than 7 calendar days after each date specified by the award when payments are authorized in advance on a predetermined payment schedule, provided the designated payment office received the payment schedule at least 30 calendar days before the scheduled payment date.

14.4 DEBT COLLECTION FOR GRANTS AND COOPERATIVE AGREEMENTS

14.4.1. Funds paid to the recipient in excess of the amount to which it is entitled constitute a debt to the DoW. Grants officers must perform post-award administration of grants and cooperative agreements per the DoDGARs. Primary responsibility for collecting debt resulting from a grant or cooperative agreement rests initially with the grants office (see 32 CFR 22.820). DoW awarding offices must use the Debt Collection Office (DCO) of the designated payment office as the primary debt collection option. If DFAS is not the designated payment office, DoW awarding offices may use the Debt Management Office of DFAS for further debt collection and administrative offset opportunities, after first using the DCO. Refer to Volume 16, sections 1.0, 2.0, and 5.0 for additional detailed policy.

14.4.1.1. If the recipient has neither paid the amount due nor provided notice of intent to file an appeal within 30 days of the grants officer's decision, the grants officer must send a demand letter to the recipient, with a copy to the DCO (see Volume 16, section 2.0 for general policy requirements of debt letter notifications).

14.4.1.2. The DCO of the designated payment office must conduct any further debt collection activity, including issuing any additional demand letters (32 CFR 22.820). The DCO must follow collection policy in Volume 16, section 5.0 unless the DoDGARs, or the applicable grant or cooperative agreement, explicitly prescribes a different procedure.

14.4.1.3. Grants offices must obtain each grant recipient's TIN via the SAM to collect and report delinquent debts.

14.4.2. Collecting delinquent debts owed by the recipient may require administrative offsets per OMB Circular A-129. When taking an administrative offset, the DCO must follow the due process in 31 CFR 901.2, Demand for Payment, and 31 CFR 901.3, Collection by Administrative Offset (also see Volume 16, sections 2.0 and 5.0 for additional policy concerning offsets). Administrative offset is not required in every instance in which a source of funds may be available. Either the payment office or the accounting office must make a case-by-case determination, with the grants officer responsible for the award against which the offset will be applied. Per 32 CFR 22.820(e), the following are examples when an offset must not be taken:

14.4.2.1. Debt recovery by an administrative offset must not occur when the grants officer determines that the offset will substantially interfere with, or defeat the purpose of, the program for which the offset is contemplated.

14.4.2.2. Generally, grants and cooperative agreements paid in advance are not subject to offset. If in the best interest of the Government, the payment office may request that the issuing grants officer convert the agreement to a reimbursable method of payment to enable an administrative offset.

15.0 CONTRACT RECONCILIATION

15.1 RESPONSIBILITIES

15.1.1. Responsible Contract Reconciliation Agents (RCRAs) manage daily contract reconciliation operations and must complete contract reconciliations. The RCRA must review the reconciliation request, determine the appropriate level of effort, set the priority, coordinate assistance, accept or reject reconciliation results, approve adjustments, and ensure refunds or demands for payment are initiated. The User Manual for the Standard Contract Reconciliation Tool (SCRT) contains instructions on the RCRA's role.

15.1.2. The Director, Defense Finance and Accounting Service (DFAS), is the principal DoW executive for finance and accounting requirements and procedures per DoD Directive 5118.05, and must:

15.1.2.1. Assist in providing the specific instructions and computer-based tools needed to identify, analyze, reconcile, track, and correct differences among written contracts, entitlement, disbursement, and related accounting systems. The instructions must include criteria for determining the nature and scope of required analyses.

15.1.2.2. Provide entitlement and accounting system information to individuals participating in settlement negotiations.

15.1.2.3. Train and maintain a core group of individuals who meet the qualification requirements to perform the responsibilities prescribed by the SCRT manual, including RCRAs, reconcilers, and assistants.

15.1.2.4. Designate qualified DFAS personnel to be trained as part of the core group, and assign RCRA personnel to oversee and perform contract reconciliations.

15.1.2.5. Ensure that the Systems Support Office-DFAS Columbus supports the RCRAs and maintains the SCRT, a DoW-wide database listing RCRAs, core group members, and contracts being reconciled. SCRT users receive help-desk support at disa.global.servicedesk.mbx.application-ticket-request@mail.mil.

15.1.3. Heads of DoW Components that use ERP systems must provide data to support and coordinate contract reconciliation functions performed under DFAS direction.

15.1.4. All RCRA reconciliation partners (procurement contracting officers (PCOs), administrative contracting officers (ACOs), resource managers, and program managers) must perform their respective or combined duties as follows:

15.1.4.1. Participate in contract reviews and reconciliations, and assist in identifying and resolving differences among written contracts and entitlement, disbursement, and accounting systems.

15.1.4.2. Compare the contract ACRNs with data in the entitlement and accounting systems. When discrepancies occur, notify the appropriate entitlement and accounting office of any significant differences, and that office must provide the required supporting documentation.

15.1.4.3. Respond in a timely manner to reasonable requests for action, information, or documentation on a contract or modification.

15.1.4.4. Designate personnel from the DoW Components to be trained as part of the core group that oversees and performs contract reconciliations.

15.2 CONTRACT RECONCILIATION

15.2.1. Normally, at contract end, total payments to the contractor should match total funds obligated on the contract. When unexplained remaining or excess fund balances exist, reconciliation may be required to compare all source documents with the entitlement and accounting systems. MOCAS contracts must be forwarded to DFAS Columbus for reconciliation.

The designated entitlement office that administers payments must perform Non-MOCAS contract reconciliations. See the SCRT manual for reconciliation request guidance.

15.2.2. When a discrepancy between contract payments and accounting records is identified, the appropriate RCRA or designated entitlement office must perform a preliminary contract review to determine the needed corrective action. Qualified personnel must review and approve recommended adjustments before distribution to the appropriate locations for processing. Approved adjustments must be posted in a timely manner. The SCRT must identify reconciled records by registration, and any later adjustment of reconciled records must be based on a reconciliation registration per paragraph 3.5. All contract reconciliation actions must support the timely completion of funds review, deobligation of excess funds, and contract closeout under FAR 4.804. The related requirements for researching and correcting NULOs, UMDs, disbursements in suspense accounts, and disbursements in-transit are in Volume 3, section 11.0.

15.2.3. DoW Components must prioritize the analyses of discrepant conditions in view of applicable time limitations and other circumstances. High-priority conditions include those involving congressional or senior DoW management interest, potential ADA violations, prevalidation problems, insufficient funds for payment, suspected or identified overpayments, the highest-dollar-value transactions, and cancelling or closing-year appropriations.

15.2.4. Each contract nominated for reconciliation must be registered in the SCRT database of contracts being reconciled. Resources, procedural guidance, forms, and other reconciliation tools for the registration process are available from DFAS Columbus Accounts Payable - MOCAS, Reconciliation Division at dfas.dscc.jai.mbx.recon-maillog@mail.mil. For more on reconciliation tools, see paragraph 15.2.6.

15.2.5. The individual assigned to perform contract reconciliation, whether a Government employee or contractor, must compare databases; research differences among systems to determine whether errors exist, where they exist, the extent of those errors, and the required corrective actions; identify root causes; and recommend the adjustments needed to correct differences among contract, entitlement, and accounting records. The reconciler should make every effort to complete contract reconciliations within 90 days after initiation.

15.2.6. Documents accumulated during a contract reconciliation must be retained, made available for, and subject to internal review and audit.

15.2.6.1. The DoW Component responsible for reviewing and accepting recommended adjustments must retain adequate documentation to support any adjustment processed. Each completed adjustment file must include the preparer's identity, approval, and confirmation that the adjustment was posted.

15.2.7. All stakeholders must incorporate internal controls into their operations to maintain complete, consistent, and accurate data for contract files and related entitlement and accounting records throughout the life of the contract, as discussed in section 2.0.

15.3 STREAMLINED CONTRACT CLOSEOUT

15.3.1. Agencies and DoW Components must partner closely to identify potential contracts for closeout under the NDAA authority and must maintain a documented record of all contracts closed under that authority. The Deputy Chief Financial Officer policy memorandum, "National Defense Authorization Act Contract Closeout Authority (FPM 19-06)," dated May 14, 2019, contains procedural implementation guidance and is available on the Office of the Deputy Chief Financial Officer/Financial Management Policy and Reporting website under Dual Purpose Policy Memos & Other Information (Common Access Card-enabled).

15.3.2. After a contract is closed out by a negotiated settlement modification, the payment or accounting offices concerned must adjust and close any open finance and accounting records related to the contract.

16.0 JUNIOR RESERVE OFFICER TRAINING CORPS (JROTC) INSTRUCTOR PAY

16.1 REIMBURSEMENT RESPONSIBILITIES

16.1.1. The host school pays JROTC instructors, and the sponsoring Military Service reimburses the school 50 percent of the MIP. JSIPS sets the MIP the Military Services use to reimburse the host school.

16.1.2. The Secretary of the Military Department concerned (or designee) may pay additional instructor funds to a school when funds are available and the Military Department determines, following periodic reviews, that the school is in an educationally and economically deprived area and that such action is in the national interest.

16.2 REIMBURSEMENT REQUIREMENTS AND PROCESS

16.2.1. The JIRO authorizes reimbursement to schools only for instructors certified as qualified by the cognizant Military Service, for whom the Military Service has authorized funding, and who fill positions authorized by the Military Service.

16.2.2. School Reimbursement Process

16.2.2.1. The reimbursement to the school generally equals 50 percent of an instructor's MIP. The Secretary of the Military Department concerned may pay the school more than 50 percent of the amount the school paid the member if the needs criteria in paragraph 16.1.2

are met, as prescribed in 10 U.S.C. § 2031(d)(2). The JIRO must ensure documentation supporting these reimbursements is retained per Volume 1, section 9.0, is readily available to support future audits, and is of sufficient quality for an independent third party, such as an outside auditor, to understand and verify the basis of the reimbursement.

16.2.2.2. Schools must provide banking information through the System for Award Management when new to the JROTC program or when previously provided banking information changes.

16.3 JROTC UNIT ESTABLISHMENT AT SCHOOLS

16.3.1. An authenticated copy of the countersigned contract between a school and the Military Service must be provided to the JIRO to verify and document that schools requesting payment are active JROTC program participants.

16.3.2. Authorized officials occupying the positions stated in the contract between a school and the Military Service must supply the current address of the school employing each instructor.

16.4 JIRO

16.4.1. The school is the employing organization and pays the full amount due the JROTC instructor, not less than the MIP. Each JROTC instructor negotiates his or her own contract with the school. The Military Service JIRO authorizes reimbursement to the school for up to 12 months per academic year, only while the instructor is under a valid contract and receiving a salary at or above the MIP. Reimbursement generally equals 50 percent of an instructor's MIP (see subparagraph 16.2.2.1).

16.4.2. Each school must forward a copy of the DD 2767 to the JIRO within 30 days of the instructor's employment. Reimbursements for that instructor are withheld until the JIRO receives the form.

16.4.2.1. Each school must submit a DD 2767 annually for JROTC instructors continuing employment at the school in the upcoming academic year.

16.4.2.2. The form must be received before the end date of an instructor's current contract to ensure uninterrupted reimbursement.

16.4.2.3. Schools are reimbursed only when a current form is on file at the JIRO.

16.5 SEPARATIONS, TRANSFERS, DECERTIFICATIONS, AND DISESTABLISHMENTS

16.5.1. Each employing school must forward a DD 2767, or termination letter, containing the applicable date to the JIRO immediately upon the separation or death of an instructor. An instructor separates when he or she resigns the position at a specific school. If the JIRO does not receive timely notification, the JIRO must adjust future reimbursement to the school to reflect the actual period the instructor performed JROTC instructor duties and to collect any over-reimbursement.

16.5.2. An instructor transfers by resigning the position at one school and accepting a position at another. Transfers must be processed as a separation from one school and a new hire at another. Both the losing and gaining schools must forward a DD 2767 to the JIRO. The instructor must immediately forward an updated DD 2754 to the JIRO. Locality pay is adjusted per the JSIPS locality table for the new school. The pay scale for relocations and transfers is based solely on grade and highest academic degree held. Relocation assistance allowance may be available for JROTC instructors who relocate to fill hard-to-fill locations per 10 U.S.C. § 2031(e)(1).

16.5.3. A Military Service may, for cause, decertify a JROTC instructor for employment eligibility. The IMD must immediately notify the JIRO of decertified instructors currently under contract with a school. The JIRO must adjust future reimbursement to the school to reflect the actual period the instructor performed JROTC instructor duties and collect any over-reimbursement.

16.5.4. A JROTC unit is normally disestablished when the Military Service determines the unit will not meet its standards or cannot maintain the statutory minimum student enrollment. Disestablishment voids the contract between the Military Service and the school and terminates instructor pay reimbursements; the JIRO must authorize final reimbursement to, or initiate collection action from, the school.

16.6 FINANCIAL MANAGEMENT

16.6.1. Each Military Service holds and manages its JROTC funds. The JIRO concerned must authorize and assign the funds to the proper line of accounting and verify the accuracy of each JROTC instructor's pay computation and associated reimbursement amount for each school before disbursement by the designated paying office. The JIRO also monitors budget execution throughout the instructor's assignment.

16.6.2. Based on JIRO authorization and verification of fund availability, military pay operations certifying officers must certify payment and submit the certification to the designated

paying office for all school disbursements. Certifying officers must be appointed per Volume 5, section 5.0. Reimbursement to DoDDS must be made via a separate IPAC transfer citing the applicable appropriation provided for DoDDS.

16.6.3. Reimbursement to the school must be made only after the JIRO concerned has verified the payroll data, authorized fund availability, and received concurrence from the appropriate accounting office, and after military pay operations has provided certification. The DFAS designated paying office disburses funds for school reimbursements based on an SF 1034, Public Voucher for Purchases and Services Other Than Personal, for each Military Service payment to the school districts. Funds must be sent via EFT to the school's financial institution, except reimbursements to DoDDS schools, which are transferred via the IPAC system.

16.7 IDENTIFICATION AND COLLECTION OF JROTC-RELATED DEBTS

16.7.1. The JIRO must identify debts. A debt accrues when a school or school district is over-reimbursed for an instructor's pay, such as when an instructor transfers to another school, separates from the instructor program, or dies, or when a contract ending date is changed to shorten the contract period.

16.7.2. Debt Collection Process

16.7.2.1. A debt is collected by a fully documented adjustment to the school's reimbursement for the next calendar month, with one exception: when a debt is owed by a school that no longer has JROTC instructors and is not due further reimbursements, collection action must follow Volume 16, section 5.0.

16.7.2.2. When a school has no future reimbursement to adjust or offset, the JIRO must initiate collection action directly from the school through a demand letter. See Volume 16, section 5.0 for policy requirements and guidance. Amounts collected must be forwarded to the JIRO as the debt collection office.

16.7.2.3. After the JIRO completes all related actions specified in Volume 16, section 5.0, uncollected debts 90 days delinquent must be referred to the DFAS Debt Management Office, which refers debts delinquent over 120 days to the Bureau of the Fiscal Service for further collection action, as prescribed in 31 U.S.C. § 3716(c)(6)(A).

17.0 PAYMENT RECOVERY AUDITS

17.1 GENERAL

17.1.1. All programs or activities, as defined by OMB Circular A-123, Appendix C, with annual payments exceeding $1 million must implement and use a cost-effective recovery audit and

activities program to recover improper payments. Recovery audit requirements apply to all payment types except intra-governmental transactions.

17.2 DOW RECOVERY AUDIT AND ACTIVITIES PROGRAM

17.2.1. Applicability

17.2.1.1. If a Component concludes that implementing this review for a program or activity is not cost-effective, it must submit a quantitative justification to OUSD(C)/ODCFO/FMPR for approval.

17.2.1.2. When determining the cost-effectiveness of recovery audit contingency contracts, any DFAS resources used to assist the recovery audit contractor must be considered, including the cost of providing government records, researching claims, and recovering amounts due the government. See OMB Circular A-123, Appendix C, for cost-effectiveness criteria for a recovery audit and activities program.

17.2.1.3. Recovery audits must be implemented to ensure the greatest financial benefit to the Component. In most cases, combining payment recovery activities, predominantly internal controls, yields the most cost-effective results. Recovery audit and activities, coupled with the financial management roles and responsibilities for all PIIA-established programs, ensures timely overpayment corrective actions and streamlined recoupment.

17.2.1.4. Components must report the results of their recovery audit and activities program per section 17.3 and OMB Circular A-136, Financial Reporting Requirements.

17.2.2. Annual Plan Submission

17.2.2.1. Components expending $1 million or more annually for each program and activity must reassess their annual recovery audit plan to determine its validity and provide any updates or improvements no later than August 31 of each year, for use during the upcoming fiscal year (FY), to: OUSD(C)/ODCFO/FMPR, 1100 Defense Pentagon, Suite 3D150, Washington, DC 20301-1100.

17.2.2.2. At a minimum, this plan must include a cost-effectiveness analysis; the estimated total dollar amount of payments by program or activity for the current FY; any collection/recovery audits and/or risk mitigation activities the Component plans to use beyond its current DoW recovery audit and activities program; the dollar amount of payments the Component plans to review using these additional activities or audits; what entity will perform the recovery audits (internal, external, or contractor resources); the proposed methodology; and the period of review.

17.2.2.3. If the Component head determines that recovery audit activities are not cost-effective for certain categories of disbursements (see paragraph 17.4.2), this plan must include the quantitative justification.

17.2.3. Annual recovery targets must be set for each established recovery audit and activities program. DoW must establish annual targets for each Department-established PIIA program (Civilian Pay, Military Pay for each Branch, Commercial Pay, Travel Pay, Retired and Annuitant). Targets must be based on the rate of recovery (improper contract overpayments recovered divided by improper contract overpayments identified) and set to show an increase in recoveries over time. Each Component must provide its annual recovery targets to OUSD(C)/ODCFO/FMPR for review and approval (see paragraph 17.2.2). OUSD(C)/ODCFO/FMPR then submits targets to OMB for review as part of the annual approval of Agency Financial Reports (AFR) and Performance and Accountability Reports (PAR), with the OMB Annual PIIA Tables and Data call submission.

17.3 REQUIRED REPORTING

17.3.1. Components must report annually on their recovery audit and activities programs. Components must consult with DFAS Enterprise Audit Support & Compliance to ensure proper coverage of improper payments and payment recovery actions and to prevent duplicate reporting. Components must inform OUSD(C)/ODCFO/FMPR of any suspension or limitation in Component monitoring or oversight activities. To meet the AFR reporting schedule, this reporting is due no later than the dates established in the annual Consolidated DoW Recovery Audit and Activities Program Plan.

17.3.2. OMB Circular A-136 Required Reporting

17.3.2.1. DoW must report per the annual update to OMB Circular A-136, Financial Reporting Requirements. The AFR or PAR must address actions taken on auditor recovery recommendations and fraud reduction reporting; instances of potential fraud discovered through recovery audit activities must be reported per Volume 5, section 6.0.

17.4 SCOPE OF DOW RECOVERY AUDIT ACTIVITIES

17.4.1. All programs and activities expending $1 million or more annually, including grant, benefit, loan, and contract programs, must be considered for recovery audits. All classes of contracts and contract payments, and all other payment types (excluding intra-governmental transactions), must be considered for recovery audit activities. Components that disburse payments must review payment categories, identify those with higher potential for recoverable payment errors to ensure the greatest financial benefit to the government, and determine the overall cost-effectiveness of recovery audits.

17.4.2. Agencies may exclude payments from certain programs from recovery audit activities if the agency determines recovery audits are not cost-effective for identifying and recovering overpayments, or if other mechanisms to identify and recover overpayments are already in place. If an agency excludes a class of payments or contracts from payment recovery activities or audits, its annual plan and annual report must include the justification (see paragraphs 17.3 and 17.4).

17.4.3. Beyond identifying and documenting specific overpayments resulting from payment errors, any entity performing recovery audits must analyze why the payment errors occurred and, where appropriate, recommend cost-effective controls to prevent such overpayments. These results must be presented to management regularly. The Component should consider the analysis and related recommendations as part of its management improvement program. The Component must provide such information to DFAS, the DoDIG, and, where applicable, the Inspector General (IG) of the Military Service.

17.5 ROLE AND RESPONSIBILITIES OF THE DOW COMPTROLLER'S OFFICE

17.5.1. To facilitate compliance with OMB Circular A-123, Appendix C, the ODCFO assigned reporting responsibility for this function to the OUSD(C), FMPR Directorate. This function is part of OUSD(C) oversight responsibility for DoW's annual recovery audit reporting in the AFR.

17.5.2. The Comptroller's FMPR Directorate must serve as the Executive Agent (EA) for the DoW Payment Integrity program; provide oversight to the DoW Components to ensure compliance with the PIIA and/or OMB Circular A-123, Appendix C, requirements; review the Components' annual recovery audit plan submissions for completeness; review the annual submission of recovery audit reports to ensure the reporting requirements are met; prepare and submit Department-wide recovery audit results and mandatory reports as described in OMB guidance, and any related information, for submission to OMB, publication in the AFR, and other required reporting; and prepare the Department-wide recovery audit and activities plan reassessment, based on pertinent overpayment recovery methods or improvements identified by the Components during the FY, for submission to the DoDIG.

17.6 ROLE AND AUTHORITY OF THE OFFICE OF THE IG

17.6.1. Nothing in this policy may be construed to impair the authority of an IG under the Inspector General Act of 1978, as amended, or any other law. However, because the recovery audit program required by this policy is an integral part of Components' internal control over payments, and therefore a management function, independence considerations normally preclude the IG and other Component external auditors from carrying it out.

17.7 SOURCES TO PERFORM RECOVERY AUDITS

Recovery audits may be performed by Component employees, by any other Component, department, or agency of the U.S. Government acting on behalf of the Component, by private-sector contractors performing recovery audit services under contracts awarded by the Component, or by any combination of these options.

17.8 RECOVERY AUDIT SERVICES PERFORMED BY CONTRACTORS

17.8.1. When Components determine that using external post-payment recovery audit contractors (a recovery audit contingency contract) is the most cost-effective plan, they must update their recovery audit plan with the detailed cost-effectiveness breakdown, including the contract terms, and submit it to OUSD(C) FMPR for approval before executing the contract. These private-sector firms may, with the consent of the employing Component, communicate with the Component's contractors to verify potential payment errors they have identified. To avoid confusion with established accounts receivable and debt management processes, Components must coordinate with the DFAS, Enterprise Solutions and Standards, Accounts Receivable Office (JJA) at 8899 East 56th Street, Indianapolis, IN 46249 to determine whether direct communication with the Component's contractors is authorized.

17.8.2. Component contracts for private-sector recovery audit services are limited to contingency contracts that pay the contractor a negotiated percentage of the total amount collected by the United States for valid claims of overpayment. However, certain recovered payments may not be available to pay recovery audit costs (for instance, amounts recovered from interim improper payments under ongoing contracts if still needed to make subsequent payments under the contract, or amounts recovered from closed accounts). Components may allow contracted recovery auditors to establish a presence on, or visit, the property, premises, or offices of any subject of recovery audits.

17.8.3. The recovery audit contractor may, with the consent of the contracting Component, notify entities (including individuals) of potential overpayments made to those entities, respond to questions concerning potential overpayments, and take other administrative actions on overpayment claims made, or to be made, by the Component.

17.8.4. Beyond provisions describing the scope of recovery audits (and any other provisions required by law, regulation, or Component policy), any contract with a private-sector firm for recovery audit services must include provisions that prohibit the recovery audit contractor from having the authority to make a final determination on whether any overpayment occurred or whether to compromise, settle, or terminate an overpayment claim; requiring production of any additional records or information from the Component's contractors; using or sharing sensitive financial information not officially released for use by the general public, except for an authorized

purpose of fulfilling the recovery audit contract; and disclosing any information that identifies an individual, or could reasonably be used to identify an individual, for any purpose other than as authorized for fulfilling its responsibilities under the payment recapture audit contract.

17.8.5. Components must require the recovery audit contractor to safeguard the confidentiality of sensitive financial information that has not been released for use by the general public and any information that could be used to identify a person.

17.8.6. At a minimum, each contract for recovery audit services must require the contractor to, at least quarterly, provide reports to the DoW disbursing Component on the root cause conditions causing identified overpayments and recommendations to mitigate such conditions; notify the DoW disbursing Component of any identified overpayments pertaining to any Component beyond the scope of the contracts; and report potential instances of fraud immediately to the DoW disbursing Component for which it is performing the contract.

17.9 RECOVERY AUDIT COLLECTION ACTIVITY

Actual collection activity must be carried out by federal employees, or nonfederal entities expending federal awards, as appropriate. However, Components or nonfederal entities may use another private-sector entity, such as a private collection agency, to perform this function if permitted by the applicable laws and regulations governing collection of amounts owed to the Federal Government.

17.10 DISPOSITION OF AMOUNTS RECOVERED

17.10.1. Contingency fee contracts must preclude any payment to the contractor performing recovery audit services until the Component actually collects the recoveries.

17.10.2. All funds collected, and all direct expenses incurred, as part of the recovery audit and activities program must be accounted for specifically. The identity of all funds recovered must be maintained to facilitate crediting recovered funds to the correct appropriations, to identify applicable time limitations on the appropriated funds recovered, and to allow required reporting per OMB Circular A-136.

17.10.3. Overpayments identified by a recovery auditor, but subsequently determined not to be collectable or not to be improper, are not considered "collected" for the disposition purposes outlined in this section.

18.0 PURCHASE CARD PAYMENTS

18.1 GENERAL

18.1.1. Authoritative Guidance *

18.1.1.1. The Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)) and the DoW Component Program Managers (CPM) oversee the purchase card program, including policy formulation and procedural guidance. The Defense Contract Management Agency participates in operational oversight of the purchase card program DoW Components administer.

18.2 PURCHASE CARD POLICY

18.2.1. Overview

18.2.1.1. A purchase card charge authorizes the card-issuing bank to pay the merchant or contractor consistent with the GSA master contract and this Regulation. An authorized purchase satisfies a bona fide need at a fair and reasonable price and meets all legal and regulatory requirements. Individuals responsible for purchase card violations (abuse, delinquency, internal fraud, or misuse) are subject to administrative and disciplinary actions per DoW GPC Policy and Component personnel policies and procedures.

18.2.1.2. Purchase card open market transactions are limited to the applicable micro-purchase thresholds prescribed by FAR 2.101, 10 U.S.C. § 3573, and DFARS PGI 213.201(g). See DoW GPC Policy for current DoW micro-purchase thresholds. Any increase to a cardholder's delegated authority requires issuance and acceptance of a new Government Purchase Card Delegation of Procurement Authority Letter.

18.2.2. Per 10 U.S.C. § 4754(b)(14)-(15), the purchase card program is subject to periodic audits by the DoW Inspector General and the Military Services' audit agencies to determine compliance with agency policy.

18.2.3. Purchase Card Accountable Officials

18.2.3.1. Within DoW, purchase card accountable officials are military members or civilian employees appointed in writing as cardholders, approving/billing officials, and certifying officers. Such appointments, made per Volume 5, section 5.0 (10 U.S.C. § 2773a and 31 U.S.C. § 3528), establish pecuniary liability under the law governing accountable officials, other than those potentially liable under 10 U.S.C. § 4754(c). Accountable officials must provide information, data, or services to certifying or disbursing officers in support of the payment process and must attest to the accuracy of information and data supporting payment to the card-issuing

bank. DoW purchase card program accountable officials must be appointed within the Joint Appointment Module (JAM) of the Procurement Integrated Enterprise Environment (PIEE). JAM-issued certifying officer appointments satisfy the DD Form 577, Appointment/Termination Record-Authorized Signature, appointment and distribution requirements of Volume 5, section 5.0. If an Electronic Data Interchange-enabled invoice is rejected and converted to a manual payment, the JAM-rendered DD Form 577 validates the certifying officer's appointment.

18.2.3.2. Foreign national employees cannot serve as purchase card certifying officers or accountable officials unless they are direct hire employees of the United States Government. Before making such appointments, commanders must consider the potential consequences when Status of Forces Agreements or other treaties do not subject direct hire local nationals to the same pecuniary liability or disciplinary actions as other DoW employees. If such appointments are necessary, commanders must consider other management controls to compensate for the lack of pecuniary liability. Refer to Volume 5, section 1.0 for policy on accountable officials and foreign national personnel.

18.2.4. Per 31 U.S.C. § 3325, the head of an executive agency may delegate the authority to assign personnel to perform purchase card invoicing, reviewing, approving, and certifying responsibilities at the accountable official level. When authority is delegated, DoW Components must:

18.2.4.1. Designate each billing office, approving/billing official, and certifying officer within the Component's activities to receive the official purchase card billing statements; and

18.2.4.2. Delegate the authority to certify official purchase card billing statements per Volume 5, sections 1.0 and 5.0.

18.2.5. Purchase Card Refunds and Credits

18.2.5.1. The terms "rebate" and "refund" are used interchangeably throughout the CFR, OMB guidance, existing legislation, and this section. Purchase card billing statement payments must occur as soon as administratively possible when the refund offered exceeds the cost of funds as defined in 5 C.F.R. § 1315.8. DoW takes advantage of refund offers only when economically justified and advantageous to DoW, and follows the guidelines for taking discounts and refunds/rebates in 5 C.F.R. § 1315.8, FAR 32.906(e), and OMB Circular A-123, Appendix B, Section 7. Billing statements are paid for the amount certified. See section 3.0 for additional refund/rebate policy.

18.2.5.2. Refunds attributable to purchase card use may be credited to operation and maintenance and research, development, test and evaluation accounts of DoW that are current

when the refunds are received (see the statutory note "Crediting of Refunds" within 10 U.S.C. § 4754). Per OMB Circular A-123, Appendix B, Section 7, rebates/refunds can be used for any legitimate purchase by the appropriation or account to which they were returned, or as otherwise authorized by statute. Transaction credits - funds sent back to DoW from the contracted bank from returned items, billing errors, overpayments, duplicate payments, or erroneous payments - must be credited to the original appropriation from which they were disbursed. See the Guidebook, Chapter 9, for DoW GPC refund validation requirements.

18.2.6. If an account number is compromised, or a card is lost or stolen, the cardholder must notify the approving/billing official, certifying officer, agency/organization program coordinator (A/OPC), and the card-issuing bank to close the account immediately.

18.3 INTERNAL CONTROLS

18.3.1. All DoW Component purchase card program policies, implementing procedures, and enterprise risk management programs must include internal controls to prevent, detect, and report improper purchase card transactions. Refer to DoW GPC Policy and OMB Circular A-123, Appendix B, section 2.4.1 and Attachment 6, for terminology and definitions of improper or incorrect purchase card transactions.

18.3.2. Managers at all levels must maintain effective internal controls within the purchase card program and ensure adequate separation of duties of participants under their control. The management accountability and internal control requirements prescribed by DoW GPC Policy, and those in sections 1.0 and 8.0, apply to the operation of a DoW Component purchase card program.

18.3.3. Cardholder, approving/billing official, certifying officer, A/OPC, and Resource Manager (RM)/Financial Manager (FM) access to government and the card-issuing bank's purchase card data and processing systems must be limited to that necessary to accomplish required tasks while maintaining proper separation of duties. Refer to DoW GPC Policy for specific requirements when such personnel transfer to other duties or depart from the organization.

18.3.4. Commanders and supervisors at all levels must ensure compliance with this section and DoW GPC Policy. Military and civilian personnel who violate this section or DoW GPC Policy are subject to administrative and disciplinary action. When an official directs a cardholder to purchase items or services later determined to be violations, that official may be subject to personal financial liability and disciplinary action per OMB Circular A-123, Appendix B, Section 3, sections 2.5 and 2.10. See DoW GPC Policy for disciplinary action policies and requirements within the Government Charge Card Program.

18.3.5. Per 10 U.S.C. § 4754(b)(7), this Regulation, records management policies, and DoW GPC Policy, documentation must be maintained at all levels to support purchase card program integrity and facilitate reconciliation and payment of purchase card transactions.

18.3.5.1. Cardholders must establish clear audit trails for purchase card transactions by maintaining a purchase log with an entry containing all fields required in DoW GPC Policy for each purchase requirement, and by maintaining transaction supporting documentation in the card-issuing bank's Electronic Access System. This makes cardholder billing statements, purchase log entries, and supporting documentation available to the approving/billing official and certifying officer, fulfills electronic GPC disbursing office record retention requirements, and supports auditability.

18.3.5.2. On termination of a cardholder or approving/billing official account, management must ensure safeguards are in place to meet retention requirements.

18.3.5.3. Per the Guidebook, PIEE/JAM is the mandatory enterprise tool for issuing and retaining GPC program appointments.

18.3.5.4. The minimum supporting documentation for the DoW GPC program is account billing statements, cardholder purchase log, request to purchase or request for payment, verification of availability of funds as defined by the DoW Component's policy, proof of acceptance, vendor invoice, receipts, or order confirmations, approval documentation, cross references to any related contract, delivery or task order, or purchase order, and supporting documentation for any credit received (e.g., items returned).

18.4 RESPONSIBILITIES

18.4.1. Reconciliation and account certification of Statements of Account received from the card-issuing bank is a coordinated responsibility among the cardholder, approving/billing official, and certifying officer. Every individual involved in the purchase card process must report suspected purchase card non-compliances, improper transactions, or violations through the proper chain of command and per component policies (refer to DoW GPC Policy for definitions of these transactions). They must also complete required initial and refresher training per DoW GPC Policy, Component policy, and Volume 5, section 5.0, and comply with the additional responsibilities for contingency operations and contracting events in the Guidebook, Appendix A.

18.4.1.1. Commanders and supervisors at all levels have the authority and responsibility to ensure military and civilian personnel under their supervision use purchase cards only as authorized. They must address purchase card non-compliances, improper transactions, and violations.

18.4.2. The Heads of DoW Components (or their designees) may delegate their authority in writing to appoint cardholders, approving/billing officials, A/OPCs, component program managers (CPMs), and certifying officers (see Volume 5, section 5.0 for additional policy on appointments). Heads of DoW Components must also manage commanders, directors, or other designated officials and their delegated authority for performing their duties and responsibilities per DoW GPC Policy.

18.4.3. The CPM serves as the Service's or Agency's functional representative with the Program Management Office and must develop and maintain hierarchies, ensure subordinate CPMs and A/OPCs perform their functions and roles, and interface with DoW-level program offices on card-issuing bank performance issues per DoW GPC Policy.

18.4.4. A/OPCs serve as the Agency's functional representatives and, as identified in DoW GPC Policy, are appointed with responsibility for the management, administration, day-to-day operation, and integrity of the purchase card program. The A/OPC works jointly with the RM/FM to set and maintain cardholder spending limits based on estimated purchase requirements for the period or a budgetary limit. The A/OPC may also assist the RM/FM in providing guidance to the cardholder on any legal or regulatory restrictions on the funds provided.

18.4.5. Commanding Officer or Director

18.4.5.1. The military officer in command or the civilian director in charge of an activity has overall responsibility for implementing this section's purchase card financial management policies. They have disciplinary authority over cardholders and approving/billing/certifying officials and must investigate all allegations of purchase card violations. They must establish activity procedures permitting rapid investigation and resolution of purchase card violations, convene or order an investigation per Volume 5, section 6.0, and take all appropriate actions resulting from each investigation.

18.4.5.2. When the Head of the DoW Component has delegated authority, the commanding officer or director must appoint accountable officials per Volume 5, section 5.0.

18.4.6. The review official is an individual the commanding officer or director may appoint to perform pre- and/or post-payment reviews and other duties per Volume 5, section 5.0. The A/OPC may not be appointed as the review official.

18.4.7. The certifying officer is responsible for the accuracy of payments, including designation of the proper appropriation(s) or other funds, certified to the disbursing office and disbursing officer. The certifying officer is liable for any illegal, improper, or erroneous payment processed by DoW resulting from an inaccurate or misleading certification. The certifying officer's appointment must meet the minimum qualifications and eligibility requirements in

Volume 5, section 5.0. The certifying officer and approving/billing official duties may be performed by the same appointed person, as discussed in Volume 5, section 2.0. See Figures 23 - 1 and 23-2 for the monthly review checklist and certification statements. Purchase card certifying officers' responsibilities, identified in Volume 5, section 5.0 and DoW GPC Policy, include but are not limited to:

18.4.7.1. Ensure transactions meet the legal requirements for authorized purchase card purchases.

18.4.7.2. Ensure adequate documentation is available for individual transactions and cardholders have reconciled all transactions with purchase log entries.

18.4.7.3. Ensure the facts presented in documents for payment are complete and accurate, including designation of the proper appropriation(s) or other funds.

18.4.7.4. Verify the accuracy of computation of a voucher before certification.

18.4.7.5. Ensure internal controls exist to prevent submission of duplicate invoices for the same transaction.

18.4.7.6. Ensure all items and services have been received and procedures are in place to dispute, within the designated dispute timeline, transactions for items or services not received by the next billing cycle.

18.4.7.7. Ensure the cardholder is familiar with the servicing bank's dispute process and implement dispute procedures when warranted. Refer to subparagraph 18.5.3.4 on disputed transactions.

18.4.7.8. Ensure the cardholder billing statement and all original supporting documentation (receipts, logs, invoices, delivery orders, and approvals) is retained to comply with record retention requirements. This retention must capture and leverage the origination of electronic data in automated systems so it may be shared across DoW platforms.

18.4.8. The approving/billing official is the individual, appointed by the commanding officer, director, or designee, with oversight responsibility for cardholders to ensure all purchase card transactions are necessary and for official government purposes only.

18.4.8.1. Approving/billing officials must provide information and data to certifying or disbursing officers in support of the payment process and must attest to the accuracy of information and data provided to a purchase card certifying officer in support of a payment to the card-issuing bank. They are accountable and may be held pecuniarily liable for erroneous payments resulting from inaccurate information and data, including designation of the proper

appropriation(s) or other funds, provided to a purchase card certifying officer, if the erroneous payment results from negligence in performing assigned duties.

18.4.8.2. The approving/billing official must review each cardholder's billing statement monthly to verify the cardholder was authorized to purchase the items, the government received the items, and all accountable property (including pilferable items as defined by the DoW Component) has been properly recorded on government property accountability records per component property accountability policy and DoDI 5000.64, "Accountability and Management of DoW Equipment and Other Accountable Property." The capitalization threshold and accountability requirements for property, plant, and equipment purchased are in Volume 4, sections 24.0-28.0. Each approving/billing official must have a reasonable span of control over cardholders per DoW GPC Policy. The approving/billing official's responsibilities in DoW GPC Policy include but are not limited to:

18.4.8.2.1. Coordinate purchase card limits and MCC exclusions with the RM/FM and A/OPC for cardholders under their purview.

18.4.8.2.2. Ensure each cardholder fulfills the responsibilities identified in DoW GPC Policy.

18.4.8.2.3. Review and reconcile the cardholder's billing statements and approve the statement when the cardholder cannot perform this function. The approving/billing official and certifying officer may use the purchase card checklist (Figure 18-1 in the Procedures Supplement) to document due diligence in billing statement reviews.

18.4.8.2.4. Verify all transactions are legal, proper, and mission essential per the FAR, DFARS, and DoW policies and regulations.

18.4.8.2.5. Ensure monthly Statement of Account accuracy and forward it with all original supporting documentation (receipts, logs, invoices, delivery orders, and approvals) to the certifying officer.

18.4.8.2.6. Resolve any questionable purchases with the cardholder.

18.4.8.2.7. Notify the A/OPC of any personnel changes that may require cardholder or managing account closure.

18.4.8.2.8. Notify the A/OPC and certifying officer (if not the approving/billing official) of any planned approving/billing official reassignment to other duties or departure from the installation or activity.

18.4.8.2.9. Notify the A/OPC and certifying officer (if not the approving/billing official) of any lost or stolen cards, in addition to the cardholder notifying the card-issuing bank.

18.4.8.2.10. Complete service and agency-specific training.

18.4.9. Authorized Cardholder

18.4.9.1. A cardholder must ensure funds are available before making the purchase.

18.4.9.2. A cardholder must review the monthly cardholder Statement of Account as described in paragraph 5.2.

18.4.9.3. A cardholder who uses the card to make unauthorized transactions may be liable for any illegal, improper, or erroneous payment resulting from those transactions and may be subject to pecuniary liability (including reimbursing the Government for unauthorized or erroneous purchases through salary offset) or appropriate adverse personnel actions.

18.4.9.4. If an erroneous charge is not disputed timely, the cardholder may also be held accountable.

18.4.10. The convenience check account holder is a military member or civilian employee appointed as prescribed in DoW GPC Policy. In addition to the authorized cardholder responsibilities in subparagraph 18.4.9, the account holder must order, receive, store, safeguard, inventory, reconcile, and dispose of check stock. Convenience check account financial management policy is in paragraph 18.6. The account holder must complete tax reporting for the convenience checks they issue and obtain a signed IRS Form W-9, Request for Taxpayer Identification Number and Certification, so that an IRS Form 1099-MISC, Miscellaneous Information, can be issued to the convenience check payee. Reporting requirements are in subparagraph 18.6.2. The account holder must not perform the functions of approving/billing officials or certifying officers on the managing account for which they are a check writer. The commanding officer, director, or designee with oversight responsibility must cancel the convenience check privileges of cardholders who improperly use convenience checks.

18.4.11. The RM/FM is the individual designated by a component to record formal commitments and obligations in the accounting system. The RM/FM must establish commitments in advance in amounts no less than the periodic purchase limits authorized for commercial purchase cards or at the individual requirement level. The RM/FM, with the assigned A/OPC, establishes advance reservations of funds or commitments, which must be considered when setting office, managing account, or cardholder purchase limits. Policy for recording obligations for the

transactions in this section is in Volume 3, section 8.0. RM/FM responsibilities for the purchase card program, referenced in DoW GPC Policy, include coordinating funding and spending limits with approving/billing officials and A/OPCs, including advice on legal or regulatory constraints on the use of funds; providing approving/billing officials and cardholders official notification of funding; assigning default and alternate lines of accounting (LOAs) and ensuring they are entered into the card-issuing bank's system for electronic invoicing, receipt, and processing; providing reallocation authority to cardholders and approving/billing officials when necessary; receiving and correcting invoice rejects with the certifying officer's assistance; assisting with resolving delinquent accounts and providing payment information when requested; and coordinating with responsible officials to ensure unrecorded purchases are recorded in the period they occur and the miscellaneous obligation is reversed timely as referenced in Volume 3, section 8.0.

18.4.12. Entitlement Office

18.4.12.1. The entitlement office must verify the amount certified for payment on the invoice matches the amount certified on the certified disbursement voucher.

18.4.12.2. The entitlement office must validate that sufficient funds have been obligated in the accounting records.

18.4.12.3. The entitlement office must notify the certifying officer and RM/FM within one business day of invoices rejected, including a detailed reason for the rejection. Upon resubmission of the rejected transactions, processing must include the Standard Document Number or contract number of the original transaction.

18.4.13. The disbursing office verifies the certifying officer's DD Form 577 is completed in the PIEE/JAM and disburses payments to the card-issuing bank. The disbursing office must not replicate the reconciliation process before making payment on certified purchase card billing statements. The disbursing office makes an advice of payment available to the bank. See Volume 5, section 9.0 for additional disbursing policy.

18.5 STATEMENT RECONCILIATION AND CERTIFICATION

18.5.1. The cardholder must ensure receipt and acceptance and properly document all purchases. Independent acceptance by an individual other than the cardholder is required for accountable property purchases and self-generated purchases (purchases lacking a documented request to purchase from someone other than the cardholder). Accountable property, as identified in DoDI 5000.64, includes sensitive, classified, and pilferable property-type items. Refer to the Guidebook for additional circumstances that may require independent acceptance and the use of the Wide Area Workflow module within the PIEE when the purchase card is used as a payment method against a contract.

18.5.1.1. Local procedures may specify additional circumstances (for example, based on cost) requiring evidence of acceptance by an individual other than the cardholder. The approving/billing official must verify acceptance documentation exists and may also physically verify acceptance. Recording, tracking, and management of pilferable, sensitive, high-valued, or otherwise accountable property obtained with the purchase card must be per component property accountability policy and DoDI 5000.64.

18.5.2. Cardholder Review

18.5.2.1. Each cardholder must reconcile the Statement of Account, ensure a purchase log entry exists for each transaction or purchase, and retain supporting documentation as specified in DoW GPC Policy to ensure accurate and timely payments. Cardholders must review their statements to identify discrepancies and, as appropriate, attempt to resolve the issues with the merchant or, per bank procedures, dispute the transactions or report the external fraud (see subparagraph 18.5.3.4).

18.5.2.1.1. Under the billing discrepancy provisions of the GSA master contract, the cardholder must report fraud to the card-issuing bank, the A/OPC, the commanding officer or director, and the local procurement fraud investigative authority for investigation and adjudication. The cardholder must also comply with the bank's fraud reporting procedures.

18.5.2.1.2. Known or suspected fraudulent transactions not authorized by the cardholder must not be approved for payment. If the bank does not remove the fraudulent transaction by the end of the billing cycle, the invoice must be manually processed, excluding the transactions in question, and then certified for payment. If the transaction has already been paid, the bank issues a transaction credit on the next billing statement per the SmartPay contract. Cardholders must identify in the system the reason transactions are deemed fraudulent and the date they were reported to the bank. The cardholder must attempt to review and reconcile all transactions during the billing cycle in which they occur so that fraudulent transactions are never included in the corresponding cardholder Statement of Account.

18.5.2.2. If the cardholder cannot resolve the discrepancy by obtaining a credit from the merchant, the cardholder must officially dispute the transaction with the card-issuing bank per subparagraph 18.5.3.4.

18.5.2.3. The cardholder must sign and date the Statement of Account (preferably electronically) and forward it, with the necessary supporting documentation, to the approving/billing official for action. Figure 18-2 in the Procedures Supplement contains the language for the cardholder's certification statement.

18.5.2.4. If the cardholder cannot review the Statement of Account upon receipt, the cardholder must make the Statement of Account and supporting documentation available to the approving/billing official or certifying officer for timely review.

18.5.3. The approving/billing official must review each transaction made by cardholders under their managing account to ensure all supporting documentation is available and correct. The approving/billing official must ensure cardholder reviews were completed properly; ensure billing discrepancies were resolved with the merchant, disputed, or reported as fraud as necessary; ensure acceptance and documentation of all accountable property; verify all transactions were necessary government purchases; and perform any other functions required by DoW GPC Policy and other component policies and procedures.

18.5.3.1. Under billing discrepancy provisions of the GSA master contract, known or suspected fraudulent transactions not authorized by the cardholder must not be certified for payment and must be reported to the card-issuing bank, A/OPC, commanding officer or director, and the local fraud investigative authority for investigation and adjudication. Refer to subparagraph 18.5.2.1.2 for additional guidance on the review and handling of fraudulent transactions. If the cardholder has not done so, the approving/billing official should ensure fraudulent transactions are disputed per applicable card-issuing bank procedures and reported as fraudulent per the card-issuing bank and component fraud reporting procedures.

18.5.3.2. The Government is contractually obligated to pay the card-issuing bank for all purchase card transactions made by an authorized cardholder other than those successfully disputed or resulting from external fraud. This includes transactions made by an authorized cardholder in violation of purchase card policies (for example, unauthorized or incorrect as defined by OMB Circular A-123, Appendix B, section 2.4.1). Report these purchase card violations to the A/OPC, appropriate authorities, and management officials for investigation and corrective action per component policies and procedures.

18.5.3.3. For transactions determined to be purchase card violations, the approving/billing official must authorize payment for any items that cannot be returned and pursue corrective action by reporting the matter to the A/OPC and management officials per Component policies and procedures.

18.5.3.4. For questionable transactions, the approving/billing official must determine as rapidly as possible whether there is potential fraud or the transaction is otherwise disputable. Lack of supporting documentation alone must not trigger a finding of fraud or impropriety unless the identity of the item or service, or other facts, would lead a reasonable person to believe the transaction was fraudulent or unauthorized. If the transaction is determined not to be external fraud or otherwise disputable, it must be approved for payment. The approving/billing official must continue to follow up to obtain documentation sufficient to show the transaction is

no longer questionable. The follow-up should involve the cardholder, appropriate management, and bank officials, as necessary.

18.5.3.5. When the approving/billing official is appointed collaterally as the certifying officer, the official must also complete the requirements in subparagraph 18.5.4.1.

18.5.4. The certified billing statement is the official invoice for payment purposes.

18.5.4.1. The certifying officer must review and certify the billing statement (preferably electronic) and forward it to the designated entitlement or disbursing office for timely payment processing. Figure 18-2 in the Procedures Supplement contains the language for the certifying officer's certification statement. See Volume 5, section 5.0 for additional policy on certification requirements.

18.5.4.2. The certifying officer must not certify a known or suspected fraudulent transaction not authorized by the cardholder. The certifier must not certify payments for transactions generated by an unauthorized user, such as a merchant entering the wrong card number, or transactions occurring after the card or card number is reported lost or stolen. The certifying officer must follow agency procedures for addressing all fraudulent or abusive transactions or other purchase card misuse.

18.5.4.3. Under 31 U.S.C. § 3528, a certifying officer certifying a voucher (purchase card billing statement) is responsible for the information, computation, and legality of a proposed payment under the appropriation or fund. A certifying officer must ensure all transactions are legal, proper, correct, and satisfy a bona fide need per government policies, rules, and regulations. Because payments are made to the financial institution, the certifying officer must certify the legality and accuracy of the information on the amount owed the financial institution.

18.5.5. Per DoW GPC Policy, the DoW may certify invoices for payment of micro-purchases before verifying that all items billed have been received and accepted. As part of the monthly Statement of Account reconciliation, the cardholder must annotate instances of non-receipt of recently ordered goods or services on each statement. Each approving/billing official must establish a system and related procedures to flag and track all transactions certified for payment without verification of receipt and acceptance. These procedures must ensure receipt and acceptance of all transactions reconciled and approved for payment are verified no later than 45 days after the invoice date. If there is no documented evidence verifying receipt and acceptance after the 45-day period, the cardholder must protect the Government's rights by disputing the transaction. The cardholder must notify the bank of any item in dispute and has 90 calendar days from the date the transaction was processed or posted to the account. The cardholder must file a formal dispute.

18.5.6. The designated entitlement office must pay purchase card invoices (preferably electronic) upon receipt of the certified billing statement. The entitlement office must observe the prompt payment clock, which starts when the invoice is made available to the DoW on the card-issuing bank's website, not when invoices are transmitted to the entitlement office. The entitlement office must ensure only the amount certified for payment by the certifying officer is processed for payment.

18.5.7. A transaction dispute may occur when the Government questions the validity of a transaction on the cardholder Statement of Account. Transactions should be disputed only after all attempts have been made to resolve the issue directly with the merchant. Reasons to dispute a transaction include: the cardholder did not authorize the transaction, the amount is incorrect, the quality or service is unacceptable, the information is erroneous or duplicates an existing transaction, or the material was returned or service was cancelled and the merchant did not issue a credit within 30 days. The cardholder must dispute the transaction as soon as possible per the timetable and provisions in the tailored task orders with the card-issuing bank, the DoW GPC Policy, and local procedures.

18.5.7.1. For items billed but not received, the cardholder must contact the merchant to validate shipment. For non-shipment, items must be officially disputed only if the merchant fails to credit the account in the next billing cycle or the items are not ultimately received.

18.5.7.2. Approving/billing officials must monitor discrepancies between cardholder items billed and items received and accepted to ensure any remaining discrepancies are disputed.

18.5.7.3. Fraudulent transactions include those made on lost or stolen cards or compromised card numbers, or initiated by unauthorized third parties. They do not follow the dispute process and must be reported as fraudulent per the card-issuing bank fraud reporting procedures, DoW GPC Policy, and Component procedures.

18.5.8. To reduce transaction processing fees, DoW activities must summarize accounting data, where systems capabilities are available to prevent duplication of LOAs, before submitting certified billing statements and accounting data to the designated entitlement office. Specifically, DoW activities must "roll up" disbursing data by LOA to eliminate duplicate LOAs on one certified billing statement.

18.5.8.1. Approving/billing officials and certifying officers must ensure complete summarization of billing statements with no duplicate LOAs before certifying and submitting the billing statements for payment. The level of appropriation data summarization must be consistent with the advance reservation of funds and the data for entry into the accounts payable, disbursing, and accounting systems to maintain positive funds control, match each planned disbursement with

a recorded obligation (as described in section 2.0 and Volume 3, section 8.0), and prevent unmatched disbursements.

18.6 CONVENIENCE CHECKS

18.6.1. Convenience check use must be minimized and designated as a purchase instrument of last resort. Checks must be used only if the merchant offering the goods or services does not accept or cannot process the purchase card, no other merchant can reasonably be located, and paying for the items by the traditional procurement method is not practical.

18.6.1.1. A discrete account must be set up to issue convenience checks. Convenience checks and normal purchase card accounts may be issued under a single managing account but must not be commingled. Transactions reported during the billing cycle for the convenience check and purchase card accounts appear on the cardholder's Statement of Account.

18.6.1.2. Each component must issue instructions on convenience check use. Individuals delegated as convenience check account holders must be appointed in writing. At a minimum, the appointment letter must state the check writer's specific duties, any limitations on the scope of authority (including dollar limitations), and an acknowledgement of the check writer's duties and responsibilities. Convenience checks must not be used for employee reimbursements, cash advances, cash awards, travel-related transportation payments, meals, or payroll or salary payments. Refer to DoW GPC Policy for additional convenience check requirements and restrictions on use.

18.6.2. IRS Form 1099 Requirements

18.6.2.1. The Defense Finance and Accounting Service (DFAS) has tax-form issuance and IRS reporting responsibilities for the DoW convenience check program.

18.6.2.2. DFAS obtains the universe of DoW convenience check payment data from the GSA contracted bank responsible for convenience check accounts and provides it to the applicable A/OPC, Account Manager, and Convenience Check Account Holder to determine the tax reporting requirements and complete specifically identified data not available to, or captured by, the contracted bank. The Convenience Check Account Holder must ensure the data is completed and returned to DFAS.

18.6.2.3. A/OPCs, Account Managers, and Convenience Check Account Holders that do not return the requested information to DFAS are responsible for their own tax-form issuance and IRS tax reporting.

18.6.3. Requests to establish a convenience check account must be justified in writing and per the provisions in DoW GPC Policy. A specific individual must be designated as the account

holder responsible for that account via the proper application forms and delegation of authority letters. Those forms must be submitted through the DoW activity's existing purchase card hierarchical structure.

18.6.4. The authorized threshold for convenience checks is one half of the applicable micro-purchase threshold (41 U.S.C. § 1902, statutory notes). See DoW GPC Policy and FAR 2.101 for alternative thresholds for declared contingencies or emergency-type operations within or outside the United States. To maintain effective internal controls, approving/billing officials, payment review officials, and certifying officers must not perform the functions of convenience check custodian or cashier. Additional conditions on convenience check use are as follows:

18.6.4.1. Convenience checks must be issued for the exact payment amount. Purchases, payments, or other amounts must not be split among more than one check to keep amounts below the applicable micro-purchase threshold or other assigned limits.

18.6.4.2. Convenience checks must be used for official government purposes only.

18.6.4.3. Convenience checks must not be issued as an "exchange-for-cash" vehicle to establish cash funds.

18.6.4.4. If convenience checks are mailed to payees, local internal controls must be in place to avoid duplicate payments to them.

18.6.4.5. The issuing activity bears all administrative costs of convenience checks. Fees for convenience check use are specified in the GSA contract. At DoW Component election, the costs of purchasing convenience checks may be expressed as a (a) percentage, (b) number of basis points, or (c) fixed fee.

18.6.4.6. Convenience checks are negotiable instruments and must be treated like cash for security purposes. Local policies and procedures must safeguard against physical loss, theft, or potential forgery. Checks must be accounted for by recording transactions as they occur in the check register or purchase log to maintain control of number sequence.

18.6.5. The convenience check account holder must reconcile the Statement of Account against the holder's supporting documentation as part of the monthly billing cycle, per the standard purchase card payment practices in section 5.0.

18.6.5.1. Convenience check accounts and transactions must be reviewed per the Guidebook, which requires review and approval of each convenience check case (transaction) generated by the bank's data mining review tool; the tool identifies all convenience check transactions for review. Reviews must ensure each transaction was authorized, properly funded and approved, appropriate for Government use, does not exceed allowable limits, includes

supporting documentation, and meets any other requirement of Component policies. Suspected violations must be reported to the appropriate management and investigative authorities per established policies (see DoW GPC Policy for terminology and definitions of the specific categories of unauthorized or inappropriate transactions).

18.6.5.2. The dispute process is not available for convenience checks. Any concerns over a purchase made with a check must be resolved directly with the merchant. The account holder is solely responsible for securing restitution or credit on disputed purchases.

18.6.6. The military officer in command or the civilian director in charge of an activity responsible for implementing the purchase card financial management policies of this section must ensure each convenience check account is reviewed annually by an individual other than the convenience check account holder. The review must validate compliance with DoW and component policies and procedures for physical security of checks; timely and accurate completion of IRS Form 1099 tax reporting requirements by DFAS mandated deadlines; completion and effectiveness of data mining case reviews of convenience check transactions, including review of transaction supporting documentation; and minimization of convenience check use.

VOLUME 11

REIMBURSABLE OPERATIONS POLICY

1.0 GENERAL

1.1 Purpose

Volume 11 of the DoW Financial Management Regulation (FMR) provides guidance on reimbursement operations, including project orders and the assessment of fees for services provided by DoW Components. The authority for these reimbursable operations comes from the Office of the Under Secretary of War (Comptroller) and is authorized by U.S. law. It is important to note that this volume does *not* authorize sales to private parties or apply to user fees associated with the Freedom of Information Act (FOIA) or the Privacy Act.

Additionally, Volume 11 establishes the primary financial management policy for the DoW Defense Working Capital Funds (DWCF). It outlines the foundational rules for all DWCF activities, covering their establishment, financing, operation, and overall lifecycle management. This includes policies for budgeting, cost accounting, revenue, and specific requirements for major activities like Supply Management and Depot Maintenance.

1.2 Authoritative Guidance

Refer to Volume 11 authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to Volume 11 definitions in the Glossary.

1.4 Procedures

Refer to the Volume 11 Supplemental for procedures, tables, figures and appendices throughout this volume and sections.

2.0 REIMBURSEMENT GUIDANCE

2.1 General Guidance

2.1.1. A seller's reimbursements are amounts earned and collected for materials sold or services furnished because of a reimbursable agreement. A seller's reimbursable obligations are financed by offsetting collections. Components credit these offsetting collections to an expenditure account in payment for goods and services provided by that account. Credit the specific appropriation or fund account for the collection only when it is authorized by law. Refer to Office of Management and Budget (OMB) Circular A-11, Section 20 for further details.

2.1.2. The Treasury Financial Manual (TFM) provides the requirements for accounting, reporting, and reconciliation of Intra-governmental Transactions (IGTs).

2.1.3. The TFM provides the requirements for using G-Invoicing, a data exchange utility that facilitates the exchange of information between federal entities that includes lines of communication when sharing data and exchanging information on IGT Buy/Sell activity. It also serves as an agreement broker and mechanism by which federal entities arrange and negotiate the terms of the Interagency Agreement (IAA) electronically. All IGT Buy/Sell activity must have implemented G-Invoicing by October 1, 2025. Refer to the IPAC System Enforcement Control Timeline within the TFM, Volume 1, Part 2, Chapter 4700, for further details. Treasury requires G-Invoicing for recording and reporting on IGT Buy/Sell transactions unless other guidance (such as OMB policy) requires a completed agreement for certain IGT types, such as assisted acquisitions.

2.1.4. Non-Economy Act orders for intra-governmental work and services must be executed in accordance with the detailed guidance provided in Section 18 of this volume.

2.2 Disposition of Collections

2.2.1. Collections must be credited to the appropriation that procured the services or materiel being sold when specifically authorized by law as outlined in this volume. Statement of Federal Financial Accounting Standards (SFFAS) No.7

2.2.2. Collections for unfunded costs such as labor of military personnel, depreciation of capital assets and interest, must be deposited into the General Fund of the Treasury as miscellaneous receipts or by other DoW issuances.

2.2.3. Collections received after an appropriation cancels must be deposited in Treasury Account 3200, "Collections of Receivables from Canceled Accounts." Refer to Volume 4.

2.2.4. Disposition of collections for FMS must be in accordance with Volume 15.

2.3 Billing Standard

2.3.1. The price to be charged for goods and/or services furnished by the Department depends on whether that good and/or service is provided to, or for the benefit of a DoW Component, a non-DoW federal agency, a private party, or FMS customer. Therefore, the ordering DoW Component activity that requisitions or orders a good or service must inform the performing DoW activity of the identity of the intended recipient for the requisitioned goods or services. Volume 4 requires that the ordering activity must review all charges from the performing activity to ensure that amounts due agree with the reimbursable order and are supported with a copy of the order or contract and evidence of performance.

2.3.2. DoW Components performing work or services on a customer order must bill the ordering DoW Component, other federal agency, or the public for earned reimbursements (performance of work or services, or delivery from inventory) within 30 calendar days after the month in which performance occurred. The payment due date must not be more than 30 calendar days from the date of the invoice. Bills rendered are not subject to audit by the customer prior to payment.

2.3.3. The accurate reporting of reciprocal balances, and proper elimination of reciprocal activity between trading partners, requires accurate documentation of accounting events. Unreconciled items occur when federal entities or trading partners are unable to account for and reconcile differences when buying and selling goods and services. Volume 6 provides guidance for trading partner exchange of data, eliminating intra-governmental transactions from the DoW quarterly and annual financial statements, and providing Treasury elimination information for use in preparing the Government-wide financial statements.

2.4 Determining Amounts to be Reimbursed

DoW Components must adhere to the guidance when determining amounts collected as reimbursements. Components may use alternative reimbursement rules described in this volume and in other DoW issuances as applicable.

2.4.1. DoW Components providing prepaid or reimbursable support must require that cost information is quantifiable and provided to all parties. In addition, support must only be reimbursable when the specified support increases the seller's incremental direct costs and the seller's actual indirect costs of providing support. For any costs that apply to a customer order, DoW Components are prohibited from augmenting their appropriations by charging customers for costs that do not incrementally increase their direct cost. A seller can waive reimbursement from buyers that use or benefit from available support when charges would be less than the anticipated expense of billing and disbursing funds. DoW Components designated as a Combatant Command support agent will provide administrative and logistics support to Combatant Command headquarters and the subordinate unified command headquarters, as documented in agreements on a non-reimbursable basis, in accordance with DoD Directive (DoDD) 5100.03 "Support of the Headquarters of Combatant and Subordinate Unified Commands." Refer to DoD Instruction (DoDI) 4000.19 for additional guidance.

2.4.2. An order placed or agreement made under the Economy Act obligates an appropriation of the ordering entity. The amount obligated is deobligated to the amount of costs incurred and billed by the performing entity before the end of the period of availability of the appropriation. According to OMB Circular A-11 "Section 20 - Terms and Concepts," the Economy Act allows federal agencies or DoW Components to do work for each other. As costs for this work are incurred, the Economy Act authorizes the collections credited directly to the expenditure account that provided the goods and services for reimbursement. Refer to section 4 for further details.

2.4.3. A project order placed with and accepted by a separately managed DoW-owned entity for services, material, or the manufacture of material, provide support for a valid and

recordable obligation of the ordering entity. Project order appropriations remain available to pay an obligation in the same manner as appropriations remain available to pay an obligation to a commercial manufacturer or private contractor. Refer to Section 2 for further details.

2.4.4. Customers may not place orders with DWCF activities for the purpose of extending the life of their appropriations or avoiding any statutory limitation or restrictions pertaining to those funds. Additional guidance applicable to all working capital funds can be found in Volume 3.

2.4.5. As provided in Volume 13, Morale, Welfare, and Recreation (MWR) Utilization Support and Accountability (USA) and Uniform Funding and Management (UFM) are two mechanisms for provision of Appropriated Funds (APFs) support to Nonappropriated Fund Instrumentalities (NAFIs). The MWR USA and UFM practices involve use of NAFs for MWR expenses that, according to funding policies in DoDI 1015.15, should be borne by APFs. MWR USA enables NAFIs to use Nonappropriated Funds (NAFs) to execute such expenses, subject to subsequent APF reimbursement under MOAs. Unlike MWR (USA) practices (which involve reimbursement from APFs), under UFM practices, APFs may be transferred into NAF accounts prior to expenditure. Funds appropriated to DoW and available for MWR programs are treated as NAFs for all purposes under UFM MOAs and remain available until expended. Refer to Volume 13 supplemental guidance for more information.

2.4.6. Direct Civilian Labor

2.4.6.1. A DoW Component must be reimbursed for direct civilian labor costs when performing a service or furnishing materials to another entity. If the performing Component has appropriated funds for that purpose, then reimbursement is not required. Unless the organizations using appropriation are prohibited from directly charging civilian pay.

2.4.6.2. DoW Components, other federal agencies, and the public must be charged for civilian labor performed for their benefit.

2.4.6.3. Civilian personnel fringe benefit rates must be computed. These rates are updated annually and published by Office of Under Secretary of War, Comptroller (OUSW(C)), Deputy Comptroller Program/Budget (P/B) on the Financial Management Reports web page, listed by fiscal year (FY) under the DoW Reimbursable Rates heading. Refer to the Civilian Personnel Fringe Benefit Rates (Tab D).

2.4.7. Direct Military Labor

2.4.7.1. A DoW Component must fund the cost of direct and indirect military labor used to perform services for, or the furnish materials to, another DoW Component through their applicable military personnel appropriations. Under 10 U.S.C. § 2571, internal DoW support, including military labor, may be provided with or without reimbursement. DoW policy generally prohibits reimbursement of military labor between DoW Components. However, DoW Components must reimburse Defense Working Capital Fund (DWCF) activities for the cost of military labor as prescribed in this volume. U.S. Army Corps of Engineers (USACE) military labor supporting civil works activities or Support for Others Program activities must be charged

using the military composite rates applicable to non-DoW organizations, consistent with the Volume 11 Supplemental.

2.4.7.2. Public Law 11847, division A, section 8049 permanently authorizes the use of certain operation and maintenance appropriations to reimburse pay, allowances, and related expenses for National Guard and Reserve members who provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities. These activities fall within the National Intelligence Program (NIP) and the Military Intelligence Program (MIP). Intel reimbursement rates (Rate Billable to DoW Entities) are published annually by OUSW(C), Program and Budget under the subsection "DoW Reimbursable Rates."

2.4.7.3. Military labor provided in support of any non-DoW entity must be reimbursed unless there is explicit authority for the Department to provide such support on a non-reimbursable basis. This includes support to Federal, State, Territorial, Tribal, and local government entities; private organizations; foreign governments; and international organizations. Components must apply the reimbursement rules prescribed in the Volume 11 Supplemental and applicable statutory authorities.

Reimbursement for direct military labor is required under 10 U.S.C. § 277 for support provided to civilian law enforcement agencies, including support provided under 10 U.S.C. § 272 and 10 U.S.C. § 274 when military personnel perform labor associated with those activities, unless there is explicit authority to provide the support on a non-reimbursable basis. See Volume 11 Supplemental for details on military labor reimbursement for support to civilian law enforcement agencies and the required waivers. Reimbursement is also required under 10 U.S.C. § 2012 for military labor provided to non-profit organizations unless a statutory waiver applies. Interagency support provided under the Economy Act (31 U.S.C. §§ 1535–1536) must be reimbursed at full cost, including the cost of military labor. When DoW provides military labor or services of value to non-DoW entities, reimbursement must be collected consistent with 31 U.S.C. § 9701. Components must ensure reimbursement is collected in accordance with these statutory requirements and the Secretary of War's policy prohibiting discretionary non-reimbursable support to non-DoW entities.

2.4.7.4. Military labor charged to non-DoW organizations must use the applicable annual reimbursement rates published by the OUSW(C), Program and Budget. These include the Rate Billable to Other Federal Entities and the Rate Billable to Foreign Military Sales (FMS) Entities, each which contains distinct cost elements and reimbursable requirements. Rate application must follow the Department's compensation rules, including the 30-day month computation method and leave factors when applicable to Other Federal Entities, and time-worked billing rules and leave/holiday factors when applicable to FMS. Refer to OUSW(C), Program and Budget guidance published online under the subsection DoW Reimbursable Rates.

2.4.7.5. Military labor charged to non-DoW organizations must include full-cost recovery elements as required by law and regulation. For Other Federal Entities, reimbursement must include the medical acceleration factor. For FMS Entities, reimbursement must include both the medical acceleration factor and the Medicare-Eligible Retiree Health Care per-capita normal

cost, consistent with the Arms Export Control Act requirement to recover the full cost of providing the service. Refer to Volume 15 for FMS reimbursement procedures.

2.4.7.6. Military Services must furnish the data required to compute the DoW Reimbursement Rates annually, in coordination with the President's Budget submission, and must apply the reimbursement rules prescribed in the Volume 11 Supplemental, and applicable statutory authorities.

2.4.8. Temporary Duty Costs. Travel costs incurred by DoW civilian employees and military personnel incurred in performance of a reimbursable work order must be charged as a direct cost when such travel can be identified specifically to the order. Costs of supplies and other directly relatable expenses are also chargeable.

2.4.9. DoW Personal Property and Inventory.

2.4.9.1. According to DoDI 5000.64 "Accountability and Management of DoW Equipment and Other Accountable Property," personal property includes systems, equipment, materials, and supplies. Personal property normally expected to have a period of service of a year or more after being put into use meets the OMB Circular A-11 equipment definition. This equipment must be without material impairment of its physical condition or functional capacity. Personal property either held for sale, produced for sale, or used to produce goods for sale, or to provide a service for a fee, meets the OMB Circular A-11 inventory definition. This does not include records of the Federal Government and real property (land and improvements to facilities).

2.4.9.2. Reutilization and Marketing Materiel (Surplus)

2.4.9.2.1. DoD Manual 4160.21 defines a surplus as excess personal property no longer required by the federal agencies, as determined by the General Services Administration. The disposition of materiel by a Defense Reutilization and Marketing Office must be in accordance with this DoD Manual.

2.4.9.2.2. The general rules for the disposition of proceeds from the sale of scrap or excess personal property must be in accordance with Section 6.

2.4.9.3. Non-DWCF Materiel. The pricing of personal property for non-DWCF materiel depends on whether the item(s) being transferred or sold will be transferred to another DoW Component and would normally be replaced. DoW Components make this determination in accordance with the approved acquisition objective. If the sale will reduce assets required to meet the approved acquisition objective, then replacement is required.

2.4.9.3.1. Issues within or to another DoW Component with the exception of issues in support of NAFI Category C activities and USACE civil works activities, must be on a non-reimbursable basis as provided in 10 U.S.C. § 2571. Such issues require an accounting entry to reflect the transfer from the losing to the gaining activity. The accounting entry must reflect original acquisition cost and any accumulated depreciation. Issues in support of NAFI Category C

activities and USACE civil works activities must be priced in the same manner as issues to other federal agencies and private parties.

2.4.9.3.2. Issues to other federal agencies or private parties must be priced as material to be replaced or material not to be replaced.

2.4.9.3.2.1. Materiel to be Replaced. Materiel, including equipment, for which replacement (i.e., similar, but not exact) or replacement in-kind (i.e., exact) is required, must be transferred or sold at the estimated replacement cost, including the contract or production costs of the article less an adjustment for age and condition of the item being sold. This price is determined in three steps. First, determine the normal useful peacetime life of the item or equipment to be sold. Second, determine the percentage of useful life remaining on the item. Third, apply the percentage to the estimated (or actual) cost of the replacement item. The remaining amount is the base cost used in the sale price calculation. Under no condition must the sale price be less than the scrap value plus the cost of the last major overhaul or outfitting accomplished within 24 months before the sale. If it is imperative that the item be replaced through accelerated procurements and replacement cost cannot be adequately recouped by normal pricing policies, a request for an exception to DoW pricing policies must be submitted to OUSW(C), P/B. Normally, the exception would be to either add a replacement factor or delay final pricing until the contract for replacement items is financially complete.

2.4.9.3.2.2. Materiel Not to be Replaced. Material, including equipment, must be transferred or sold by a DoW Component to other federal agencies and private parties at its original acquisition cost, net of any accumulated depreciation/amortization (i.e., net book value). If the DoW Component cannot reasonably ascertain those amounts, the cost of the material will be its fair value at the time of transfer in accordance with Volume 4.

2.4.10. Contracts.

2.4.10.1. Contract costs incurred for contracts awarded as part of a reimbursable agreement must be billed to the benefiting organization.

2.4.10.2. Government-furnished materiel must be billed in addition to contract costs in accordance with this section.

2.4.10.3. If the contract is provided to meet the requirements of a non-federal organization, the contractor must be required to pay rent (at fair market value) to the Department for the costs incurred for the use of plant or production equipment utilized in manufacturing the item being sold.

2.4.10.4. The Federal Acquisition Regulation Subpart 52.232-17, “Interest,” provides that all amounts that become payable under the contract must bear simple interest from the due date until paid, unless paid within 30 days of becoming due. The Treasury’s Bureau of the Fiscal Service provides an online “Simple Daily Interest Calculator” for payments less than 31 days old and a monthly compounding interest calculator for payments more than a month late.

2.4.10.5. Contract administration charges must be charged to other federal agencies and private parties, in accordance with statutory or policy requirements. As allowed in 10 U.S.C. § 2571 contract administration costs are not charged within a DoW Component or to another DoW Component (except for support to NAFI Category C activities and support provided to USACE civil works activities) when funding for such costs is included in the mission funding of the performing DoW entity. Contract administration charges for support to NAFI Category C activities and support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.

2.4.10.6. DoW personnel services in support of contracts must be costed in accordance with this volume.

2.4.11. Accessorial Charges

2.4.11.1. Costs incurred for packing, crating, and handling related to sales or shipments of property are considered accessorial. Accessorial charges may be incurred by the DoW for direct delivery of items from contractor facilities or by DoW Components for items furnished from DoW stocks. Accessorial expenses for support provided to USACE civil works activities must be priced in the same manner as charges to other federal agencies and private parties.

2.4.11.2. Unless otherwise provided by law or regulation, accessorial charges must be billed to the following:

2.4.11.2.1. Non-DoW federal departments, agencies, or instrumentalities.

2.4.11.2.2. Non-federal entities, including DoW contractors.

2.4.11.2.3. NAFIs, when property is transported for DoW MWR activities unless reimbursement has been waived by DoDI 1015.15.

2.4.11.2.4. USACE for civil works projects or activities.

2.4.11.3. Accessorial charges must be reimbursed by non-DoW activities for the actual cost incurred and billed.

2.4.12. Asset Use Charge. A charge for the use of DoW assets (facilities and equipment, or both) is required to recoup depreciation and interest on investment. Amounts collected must be returned to the Treasury as miscellaneous receipts, unless otherwise provided for by statute or other DoW guidance. An asset use charge is a factor added to the base rate to recoup depreciation and interest on investments for use of DoW facilities and equipment. A four percent charge may be used. This rate is published annually by OUSW(C), P/B. Refer to the DoW Reimbursable Rates for details.

2.4.12.1. Depreciation is the systematic and rational allocation of the recorded cost of facilities and equipment (less its estimated salvage or residual value), as an operating expense

over the period in which these assets are expected to provide benefits or the estimated useful life, whichever is shorter. Depreciation must be charged using the straight-line method. For example, a general equipment or real property item with a recorded cost that equals or exceeds the applicable capitalization threshold and has a useful life of at least 2 years must be capitalized as an asset and depreciated over its useful life. The depreciation calculation is illustrated in Table 1-1 located in the Volume 11 Supplemental. Refer to Volume 4 for more details on general equipment depreciation.

2.4.12.2. Interest expense must be included in reimbursement billings to private parties to recognize the interest on investment in fixed assets when such assets are acquired or manufactured for the purpose of, or prepared for use in, providing materiel to private parties. The calculation of interest on investment is illustrated in the Volume 11 Supplemental.

2.4.13. Repair and Maintenance. When repair and/or maintenance of items occurs, costs from a cost accounting system or, in its absence, equivalent costs developed through cost- finding techniques must be billed. Labor, materiel and supplies, transportation, and overhead costs must be computed in accordance with this section.

2.4.14. Leased or Loaned DoW Equipment. When determining the charge for leased or loaned equipment, the following elements must be billed:

2.4.14.1. Depreciation is not applicable to federal agencies unless the billing activity is a DWCF. Depreciation must be based on cost-finding techniques for sales to private parties unless actual rates are known. Calculations must be in accordance with the guidance outlined in this volume.

2.4.14.2. Interest on investment in assets must be computed in accordance with this volume and as designated within the lease agreement.

2.4.14.3. Value of equipment not returned to the owning DoW Component must be a sale to the using organization. This sale must be priced in accordance with this section.

2.4.14.4. Accessorial expenses must be recognized in accordance with this section.

2.4.14.5. Repair costs to restore equipment or property to its condition at the time leased or loaned must be collected from the using organization. The amounts must be based on either actual job order cost accumulations or estimates of the cost incurred based upon past repair and maintenance experience for similar equipment. The amounts collected must be returned to the appropriation that financed the repair and maintenance in accordance with 10 U.S.C. § 2667.

2.4.15. Overhead

2.4.15.1. Overhead involves expenses necessary to run a business that are not directly tied to the production and delivery of goods or services, according to OMB Circular A- 11.

2.4.15.2. Overhead is typically referred to as general and administrative (G&A) costs or some combination of G&A and indirect costs which cannot readily or directly be identified to the performance of a specific customer order for reimbursable costing. Examples of such costs include central management, rent for office space, human resources, sales, building maintenance, office supplies and utility costs. Federal Accounting Standards Advisory Board (FASAB) Technical Release 15 clarifies the Statement of Federal Financial Accounting Standards (SFFAS) 6, for when accumulated indirect costs are not identified as costs incurred, to bring facilities and equipment to a form and location suitable for its intended use, they must be expensed.

2.4.15.3. DoW Components may use materiality to determine whether overhead costs should be included in reimbursable billings. This determination must be justified, documented, and able to stand up to audit scrutiny. If an organization has a material amount of reimbursable effort, overhead costs are accumulated in a cost pool and allocated to customers. In the absence of a cost accounting system, applicable costs may be estimated. done

2.4.15.4. Overhead charges may not be applied to reimbursable customer orders received from DoW activities when the provider realizes no incremental increase in overhead costs due to filling the customer order and for which the performing activity has received appropriated funds for overhead costs. However, APF activities will charge overhead on sales to other federal agencies, NAFI Category C activities, USACE civil works activities, and private parties.

2.5 Documentation Standards

2.5.1. General. Support agreements must comply with generally accepted government auditing standards as required in 31 U.S.C. § 3521 "Audits by agencies." These standards require establishing internal controls that provide reasonable assurance of achieving effective and efficient operations, compliance with regulations and applicable laws, and reliability of financial reporting. Support agreements must also contain documentary evidence as required in 31 U.S.C. § 1501, "Documentary evidence requirement for Government obligations." Such evidence must include a purpose or scope of agreement in writing as authorized by law. These agreements must be executed before obligational availability expires and prior to the initiation of reimbursable fund certification.

2.5.1.1. A support agreement with a term greater than 3 years must be reviewed and validated by a support agreement manager from the buyer and seller. This review and validation must occur by at least the mid-point of the effective date (e.g., at year 4 in an 8-year agreement). Support agreements expire at a maximum 10 years from the effective date unless there is legal authority for the agreement to continue beyond 10 years.

2.5.1.2. New signatures from all parties to the agreement are required to establish a new support agreement or modify an existing support agreement. This must take place even when the terms and conditions are the same as those in the prior agreement. Cost estimates within agreements that include reimbursable support services must be reviewed annually by the seller to ensure current year actual costs are identified for accurate customer billing and invoices.

2.5.1.3. Support agreements must include procedures for amending, terminating, reviewing, and transferring the agreement. This also applies to dispute resolution. For example, the agreement must specify that termination may occur by either party via written notice to the other party following an agreed upon termination time. Reporting entities unable to reach an agreement with respect to intragovernmental account balances must escalate the issue to the OUSW(C), Financial Improvement and Audit Readiness (FIAR) Directorate for resolution. At fiscal year-end, final adjustments must be completed prior to the issuance of the Agency Financial Report. Refer to Volume 6 for details. Add operational guidance to the procedure section.

2.5.2. FS Forms 7600A/B. G-Invoicing replaced the former 7600A/B reimbursable IAA between federal entities for Intragovernmental Reimbursable, Buy/Sell Activity. G-Invoicing provides the electronic origination, review, and approval of Buy/Sell IAAs. G-Invoicing is a Moderate rated application and approved to process and store Controlled Unclassified Information. Components must use G-invoicing for Buy/Sell transactions.

2.5.3. G-Invoicing. G-Invoicing is an online portal that supports the exchange of information in IGT activity by federal trading partners. G- Invoicing is not an accounting system nor a procurement system; instead, it serves as a gateway for federal entities to agree upon the funding terms and the accounting treatment of their reimbursable activity, and exchange that data for consistent financial reporting. Key changes from manual processes include a new set of data standards and the electronic submission and approval of necessary documentation. Federal entities must implement the entire transaction lifecycle which includes General Terms and Conditions (GT&Cs), Orders, and Performance Transactions that initiate fund settlement. These business events and their associated accounting activities should be agreed-upon by trading partners and managed through G-Invoicing. G-Invoicing is not required for transactions that are non-Buy/Sell IGT subcategory transactions, or intra-Treasury Account Symbol transactions. Federal entities will use G-Invoicing to reflect their agreement on the funding terms and the accounting treatment of their reimbursable activity and to exchange that data with one another for consistent financial reporting.

2.5.3.1. For logistical support overseas, in lieu of using the FS 7600A, DoW may enter a reimbursable Memorandum of Understanding (MOU) under 22 U.S.C. § 2695 where DoW support is not available for DoW personnel. A G-invoicing reimbursable IAA support agreement is not acceptable and will not be signed in these instances. An example of such is when the Department of State administers the International Cooperative Administrative Support Services (ICASS) system as the principal means that the U.S. Government provides and shares the cost of common administrative support needed to ensure effective operations at its more than 200 diplomatic and consular posts abroad. Consistent with the Department of State Foreign Affairs Handbook for ICASS, DoW may use a reimbursable MOU as the support agreement for logistical support overseas.

2.5.4. Principal Documents. The DoW Financial Statement Audit Guide allows the following key supporting documents for Reimbursable Work Orders: (a) MoU/ Memorandum of Agreement (MOA), (b) Standard Form (SF) 1080 and SF 1081, (c) DD Form 448 and DD Form 448-2, (d) DD Form 1155 and DD Form 1144, (e) GT&Cs, and (f) Order Requirements and Funding Information.

2.5.5. Preparation Standards. The following applies to document preparation:

2.5.5.1. A Buy/Sell agreement that defines the terms, conditions, scope, and responsibilities for trading partners during the exchange is referred to as the GT&C. That is 'open' G-Invoicing will assign a unique identifier for each GT&C for tracking purposes. Federal agencies maintain the ability to associate their own unique identifier to each GT&C in their internal accounting systems. Orders in G-Invoicing must reference an active GT&C.

2.5.5.2. Each federal entity will still be responsible for preparing its respective USSGL entries following appropriate attributes and guidance. However, IGT Buy/Sell activity documented in G-Invoicing will allow federal entities to accurately identify the respective accounting triggers. Further, each federal entity is still responsible for their own Anti-Deficiency Act monitoring.

2.5.5.3. Treasury's Bureau of the Fiscal Service requires all FPAs to use G-Invoicing under the authority of 31 U.S.C. § 3512(b), "Executive agency accounting and other financial management reports and plans" and 31 U.S.C. § 3513, "Financial reporting and accounting system" and in accordance with the TFM. All IGT Buy/Sell activity must be implemented into G-Invoicing by October 1, 2025. Refer to the TFM, Volume I, Part 2, Chapter 4700, Appendix 8 for details.

2.5.5.4. MOA and MOU. A MOA is used to document an agreement and execute or deliver support with or without reimbursement between two or more parties. When a support agreement involves reimbursement, it can be used to further detail terms and conditions. A MOU must only be used when there is agreement, among two or more parties, that payment is not expected; and when the parties do not rely on each other to execute or deliver on any responsibilities. DoDI 4000.19 provide examples of an MOA and MOU respectively.

2.5.5.5. SF 1080. Intra-governmental payments result from transactions between federal entities for sales, services, or transfers between such entities. DoW Components may use the SF 1080 voucher as support for bills to other DoW Components and non-DoW federal agencies when unable to utilize electronic data interchange methods.

2.5.5.6. SF 1081. DoW Components must use the SF 1081 voucher when a manual process is required to generate inter-agency payments and collections with non-DoW federal agencies. See Volume 10.

2.6 Non-Reimbursable Support

The Department does not provide non-reimbursable support of any kind to other federal, state, territorial, tribal, or local government entities; private groups and organizations; foreign governments; and international organizations. Non-reimbursable support may be provided if required by statute. When discretionary, non-reimbursable support is permitted but not required by statute, it must be authorized by the DoW Joint Ethics Regulation or DoW Public Affairs guidance; or is provided after approval of an exception.

3.0 PROJECT ORDERS

3.1 Treasury Guidance on Intra-Governmental Transactions

3.1.1. TFM Volume 1, Part 2, Chapter 4700 discusses the requirements necessary to properly report IGT resulting from business activities (i.e., buy/sell transactions) between two federal government entities, called trading partners. Reimbursable activity between trading partners, otherwise referred to as buy/sell activity. Buy/sell activity and the associated accounting activities must be agreed upon by the trading partners and managed through a formal buy/sell agreement. It also provides guidance on how to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

3.1.2. The TFM provides the requirements for using the standard IAA containing Treasury's Bureau of the Fiscal Service (FS) Form 7600A "General Terms and Conditions (GT&C)" and FS Form 7600B "Order Requirements and Funding Information (Order)." The data elements captured in these forms are necessary to (1) ensure the proper recording and reporting on intragovernmental buy/sell transactions, and (2) eliminate most of the federal-wide reporting deficiencies impacting the Financial Report of the United States (U.S.) Government.

3.1.3. The Treasury's G-Invoicing system is used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter and intragovernmental reimbursable transactions.

3.2 Recordable Obligation

3.2.1. A project order is a valid and recordable obligation of the issuing entity when the order is placed with and accepted by a separately managed DoW-owned establishment or the USCG, providing the obligation otherwise meets the criteria for recordation of an obligation contained in 31 U.S.C. § 1501.

3.2.2. All orders or contracts for work or material or for the manufacture of material pertaining to approved projects placed with DoW-owned establishments or the United States Coast Guard (USCG) must be considered as obligations in the same manner as prescribed for similar orders or contracts placed with commercial manufacturers or private contractors. Appropriations remain available to pay the obligations so created as in the case of contracts or orders with commercial manufacturers or private contractors. The performing activity must notify the ordering activity before costs exceed 75%.

3.3 Project Order Forms

3.3.1. Treasury has established a standard IAA form containing the GT&Cs (FS Form 7600A) and the Order (FS Form 7600B) for government-wide use in carrying out buy/sell transactions between trading partners. These forms must be issued by an authorized DoW or USCG entity and accepted for performance in a DoW-owned and operated establishment.

3.3.2. To properly document that the order for goods or services is a project order, the trading partners must ensure the proper statute (41 U.S.C. § 6307) is identified and cited on the FS Form 7600B for DoW project orders, or 14 U.S.C. § 712 for USCG-related project orders.

3.4 Work Description

3.4.1. A project order must include an adequate description of the goods delivered and/or work performed, to include the line item/sub-line item level, as well as the product service code on each requirement to ensure support for audit from obligation through performance, billing, and closeout. Without these required elements, the order is not sufficient to create a recordable obligation or document detailed performance/delivery, receipt and acceptance, and its' respective invoicing and settlement.

3.4.2. There may be repeat orders for which the performing installation has detailed and definite specifications available. Thus, if the performing activity has on file those elements that make a project order specific, definite, and certain, and those elements are in sufficient detail to enable the performing installation to proceed in carrying out the work ordered, then it is not necessary to also include those elements within the project order itself. In such cases, reference may be made on the project order that specification documentation is retained in accordance with component records management policy by the performing activity.

3.5 Use of Standard Line of Accounting

Buyers and sellers must use the Standard Line of Accounting (SLOA) and ensure it is properly annotated when generating or accepting a reimbursable order, as applicable and comply with the latest Treasury Governmentwide (GTAS) and Federal Intragovernmental Data Standards to "buyers and sellers must use SLOA. Refer to Volume 1 for additional details and requirements.

3.6 Advance Planning of Work Estimates to Performing DoW Establishments

3.6.1. Ordering DoW Components or the USCG must give performing DoW-owned establishments advance planning notice of future requests of goods and/or services expected to be placed with the performing DoW-owned establishment. A performing DoW-owned establishment, in the development of its operating budget, must use this advance planning detailed line/sub-line-item level data to draft order requirements. An operating budget can be revised as work requirements change.

3.6.2. At the appropriate time during project order negotiations, performing DoW-owned Components must give ordering DoW Components a cost estimate for each item produced or work performed under the project order.

3.7 Conditions governing the Issuance and Acceptance of Project Orders

3.7.1. A contractual relationship must exist (i.e., be created by the project order) between the parties involved.

3.7.2. A project order cannot be used to order work between two organizational units that report to the same activity commander.

3.7.3. Expiration dates of project orders must not extend beyond the point in time in which the appropriation funding the order cancels (generally 5 years after the appropriation expires for new obligations).

3.7.4. Project orders must be issued only to DoW-owned establishments (see examples in the Volume 11 Supplemental) that have been given the authority to operate a reimbursable program in an amount equal to or exceeding the project order amount(s). Those issued to the USCG under 14 U.S.C. § 712 would be issued in accordance with USCG established regulations. To determine whether the project order statute provides the statutory authority for an intra-DoW order, determine whether the order is being placed with a DoW-owned establishment. Also, determine whether the order is "entire" (also known as non-severable) under paragraph 3.7.9 and satisfies the other requirements identified in this section.

3.7.5. Payments

All payments made by an ordering DoW Component to a performing DoW-owned establishment must be based upon the payment schedule in the approved and accepted order (FS Form 7600B) which must be within the scope and conditions of the established agreement (FS Form 7600A). Unless modified by mutual agreement, documented through the applicable IAA amendment.

3.7.6. Specific, Definite, and Certain

Project orders are analogous to contracts placed with commercial concerns and, like such contracts, must be specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself. A project order must be accepted by the performing entity as a basis of obligation by the issuer.

3.7.7. Certification of Availability for Purpose

Project orders are subject to the same fiscal limitations that are contained within the appropriation from which they are funded. On the other hand, the performing entity may not be aware of all such appropriation limitations. Therefore, an official of the issuing entity must offer a certification on or attached to the project order stating that the funds cited on the project order are properly chargeable for the purposes cited in the project order. Certification must be retained as part of the official financial management records supporting the obligation.

3.7.8. Bona Fide Need

The issuing entity's project order must serve a bona fide need that exists in the fiscal year in which the project order is issued; otherwise, a valid obligation is not accomplished. It is not intended that the bona fide need of the fiscal year rule be construed to preclude procurement lead-time. Thus, where materials, for example, cannot be obtained in the same fiscal year in which they

are needed and contracted for, a provision for delivery in the subsequent fiscal year does not violate the bona fide need rule so long as the time intervening between contracting and delivery is not excessive and the procurement is not for standard commercial items readily available from other sources.

3.7.9. "Entire/Non-Severable" Versus "Severable"

To be eligible for project order financing, the need must be present in the fiscal year in which the project order is issued, require a series of actions over a period which may cross a fiscal year, and call for work or services that are reasonably not severable between fiscal years. For instance, an order for an "entire" end-item or service would call for a single or unified outcome or product, if any benefits would accrue if the work were terminated without completion at the end of the fiscal year in which it was placed.

3.7.9.1. A service is non-severable if the service produces a single or unified outcome, product, or report that cannot be subdivided for separate performance in different fiscal years. Whether the subdivision is feasible or not is a matter of judgment. The objective desired by the requesting customer must be used in the determination. The objective desired by the requesting customer must be used in the determination. If the customer supplies an item for overhaul or renovation and wants the entire item returned in a serviceable state, then a repair of a single component of the item when the item consists of many components needing repair, would not be a "severable" action. Conversely, if a customer desires an automated system that consists of multiple modules and some (or all) modules can be used independent of the entire system, then each module that can be used independent of the entire system is severable.

3.7.9.2. Examples of efforts that are not eligible for procurement as a project order are (1) custodial, housekeeping or fire protection services, (2) refusal of collections, (3) routine maintenance, and (4) services or efforts where the stated or primary purpose of the order is to acquire a level of effort rather than a specific, certain and definite end-product.

3.7.10. The following are examples of efforts in which an entire need generally exists and are eligible for project order financing:

3.7.10.1. Manufacture, production, or assembly of items including experimental prototypes or items manufactured and assembled for test.

3.7.10.2. Renovation, rebuilding, rehabilitation, reconditioning or overhaul of items, including such operations as are necessary to restore an item to a condition of serviceability equivalent to its original state.

3.7.10.3. Alteration or modification in design or assembly of an item to meet revised specifications or to correct defects.

3.7.10.4. Construction or conversion of items (including buildings and other structures), utility and communication systems, and other public works.

3.7.10.5. Development of software programs and automated systems when the purpose of the order is to acquire a specific, definite, and certain non-severable end-product that is achievable reasonably with the resources (financial, human, and plant) available to the provider rather than a level of effort over an extended period.

3.7.10.6. Production of engineering and construction related products and services; and

3.7.10.7. Education and training contracts for single training courses which are considered a single undertaking. Multi-year research study work order to produce a publishable report.

3.8 Commencement of Work

3.8.1. The work to be performed under project orders must be expected to begin within a reasonable time after its acceptance by the performing DoW-owned establishment or the USCG.

3.8.2. Although work on a project order is not required to commence in the year of project order acceptance, as a minimum requirement, evidence must exist at the time of project order acceptance showing the intention that work (or procurement if required prior to the beginning of work) must (1) begin without delay (usually within 90 days) and (2) be completed within the normal production period for the specific work ordered.

3.8.3. If work (or procurement if required prior to the beginning of work) financed from an appropriation that expired for obligation on September 30 on a project order does not begin, or is not expected to begin, before January 1 of the following calendar year, then the project order must be returned by the performing activity for cancellation. If it is documented that the delay is unavoidable and could not have been foreseen at the time of project order acceptance, and that documentation is retained for audit review, then the project order can be retained and executed.

3.9 Contingent Event Prohibition

A project order must not be issued if commencement of work is contingent upon the occurrence of a future event or authorizing action by the ordering entity.

3.10 Lawful Purpose

Project orders must not be used to contravene provisions of the law or accomplish by means of this device what regulations do not permit under commercial contracts.

3.11 Authorized Purpose

Project orders must not be issued for the primary (or secondary) purpose of continuing the availability of appropriations.

3.12 Project Order Modifications

3.12.1. The project order statute differs from the Economy Act at 31 U.S.C. § 1535 because it permits agencies to account for obligations for orders in the same manner as orders for similar work placed with commercial manufacturers and private contractors. Project orders, like commercial contracts, may contain special provisions and may be modified provided the modification complies with bona fida need, purpose, and time statutes. Unlike procurement contracts with commercial concerns where competition requirements limit permissible contract modifications, project orders may be changed or increased at any time to accommodate new or additional work so long as proper funding is available, and so long as the new work otherwise meets the general conditions governing issuance and acceptance of project orders.

3.12.2. If the appropriation used to fund the initial order remains available for new obligation, then use it to fund all modifications that are a bona fide need of that appropriation, even if the modification changes the scope of the project order. This applies only while the appropriation remains currently available.

3.12.3. If the appropriation used to fund the initial order has expired, then use it to fund only those amendments and modifications that are within the general scope of the initial project order.

3.12.4. All modifications that increase or change the general scope of work of the original order must be charged to a current appropriation. In cases where the original appropriation has expired and is no longer available for new obligations, and the modification or amendment changes the general scope of the original order, the amendment or modification must be funded from a current appropriation.

3.12.5. The appropriation cited on the project order must remain available for price increases and changes that are within the scope of the original order. These obligational rules apply equally to fixed price and cost reimbursable project orders.

3.12.6. Limitation of cost clauses in commercial cost-reimbursement contracts (See FAR Part 16) that are the obligational basis for the requirement to charge current appropriations for all ceiling increases, including those within the general scope of such contracts, are not applicable to cost-reimbursement project orders. Limitation of cost clauses govern the legal liability of the U.S. to third parties, whereas transactions within or between agencies are governed by principles of comity. Whether to structure such project orders on a fixed price or reimbursable basis is a matter of agency discretion and convenience, but not obligational relevance. Whether the work changes the general scope of the original order or otherwise satisfies an emergent bona fide need of the current fiscal period, governs whether current funds must be charged. Subject to the provisions in this volume, amendments to project orders which have the effect of partial or complete termination of such orders must provide for the inclusion of the costs of termination.

3.12.7. Volume 3 provides additional guidance on accounting requirements for expired and closed accounts.

3.13 Ability to Perform

Project orders must be issued only to those DoW-owned establishments that can perform substantially the work ordered. "Substantially" as used in this paragraph, means that the project order recipient must incur costs of not less than 51 percent of the total costs attributable to rendering the work or services ordered. Total costs to render the work or services ordered include the costs of goods or services obtained from or provided by contractors.

3.14 Subsidiary Ordering

3.14.1. The provisions of this section are not intended in any way to authorize one DoW-owned establishment to act as a general contracting or purchasing agent for another entity.

3.14.2. Subsidiary ordering (within the government) and contracting (with commercial firms) pursuant to a project order is authorized, given such subsidiary ordering and contracting is incident to, and is for use in, carrying out the purpose of the project order.

3.14.3. Project orders must contemplate the use of personnel and facilities (and may include the use of other resources) on the part of the project order recipient, but beyond those incidents to contract procurement. In this connection, it is not improper for a project order recipient to subcontract for component parts when the recipient later assembles those parts into the end-product ordered. The assembly operation includes the use of personnel whose technical skills are essential to completion of the job. In addition, the work expended in the assembly operation must be of such an extent that it avoids a perception of the project order being used for contract procurement. The performing activity will retain documentation demonstrating that contract support remains incidental to Government performance.

3.14.4. If a project order cannot be placed with another DoW-owned establishment because that establishment would fill the order by contracting with a commercial concern for performance of substantially the entire order, then it is possible the order could be placed pursuant to the Economy Act. This Act permits the agency or agency unit filling the order to provide or procure by contract the goods and services necessary to perform the order. See Volume chapter 4 for additional details.

3.15 Project Order Default

3.15.1. Where a recipient of a project order defaults or fails to perform work or services specified in the order, and a replacement project order is required as the result of such default, the following apply:

3.15.1.1. Defaulted work or services may be procured from another DoW-owned establishment or the USCG to the extent of any unobligated balance in the appropriation thus obligated.

3.15.1.2. Similarly, a project order also may be issued to a DoW-owned establishment or the USCG under an appropriation obligated by contracts with outside contractors

when such contract is terminated for default or failure on part of the contractor to perform work or services specified in the contract.

3.15.1.3. Replacement project orders resulting from defaults may be issued and obligated after the period of availability of the appropriation for obligation if the replacement project order is made without undue delay after the termination of the original contract or project order.

3.15.2. A replacement project order fulfills a bona fide need of the appropriation that had funded the contract or project order that was terminated for default. The replacement project order must be awarded on the same basis and be similar substantially to the original project order in its scope and size. The replacement project order must not extend beyond the point in time in which the ordering appropriation cancels (generally 5 years after the appropriation expires for new obligation).

3.16 Project Order Financing

A project order must be financed fully by the ordering DoW Component from obligational authority current at the time the project order is issued and accepted. Project orders may be issued for a research, development, test, and evaluation project which is not financed to completion (i.e., prepared on an incrementally programmed basis). A research, development, test and evaluation appropriation project or program financed on an incrementally programmed basis is one that is funded for the remainder of the funding appropriation's period of current availability or the current fiscal year vice a fully-funded-to-completion basis. Incremental funding authority applies only where specifically authorized by law.

3.17 Direct-Cite Prohibition

A DoW-owned establishment may only accept project orders on a reimbursable basis. Orders must not be made a subdivision of funds, like an allotment; nor the appropriations of the ordering entity be cited by the performing DoW-owned establishment when incurring and recording obligations incurred in performance of the order. Performance activities will record obligations against their own reimbursable authority rather than directly citing the ordering the appropriation.

3.18 Reimbursement of Costs Incurred in Performance of a Project Order

Reimbursement of costs incurred by a performing activity may be accomplished in the manner ordinarily used by that performing activity. Volume 5 recognizes that a disbursement may result from a transfer of funds from one appropriation or fund to another by a "no check drawn" transaction using a SF 1080, Voucher for Transfers Between Appropriations and/or Funds; SF 1081, Voucher and Schedule of Withdrawals and Credits; or by the Treasury's Intra-governmental Payment and Collection (IPAC) system. Volume 5 provides additional information on the IPAC system and identifies general requirements and technical specifications prescribed by the Treasury on the use of IPAC. Performance transactions processed through G-Invoicing initiate settlement through Treasury IPAC.

3.19 Conditions Governing Performance of Project Orders

After acceptance, project orders must be performed as expeditiously as possible according to the terms as accepted. Performing DoW-owned establishments are responsible for promptly advising ordering DoW Components of all goods delivered and/or service rendered, and of any changes in delivery schedules.

3.19.1. Summary of Costs

For cost-reimbursement project orders, performing DoW-owned establishments must give ordering DoW Components a summary of costs incurred to date and estimates of costs to complete the order no less than quarterly, but no more frequently than once a month. No special report forms are authorized for this purpose.

3.19.2. Expiration Dates

Expiration dates of project orders may be extended with the approval of the ordering DoW Component. Expiration dates of project orders may not extend beyond the point in time in which the ordering appropriation cancels.

3.20 Reimbursement to Performing DoW-Owned Establishments

Performing DoW-owned establishments must be reimbursed for work covered by project orders based upon fixed prices or costs incurred.

3.21 Fixed Price Project Orders

3.21.1. A fixed price project order must establish a firm price for purposes of reimbursement for the work or services ordered. A fixed price basis may be used when all the following conditions are present.

3.21.1.1. Work specifications are stable, specific, and definite; and they are made part of the order (or incorporated by reference) for each item when the project order is accepted for performance on a fixed price basis or amended for any changes in the scope of the work. This requirement is critical especially for project order-accepting activities financed by a direct appropriation. An activity financed by a direct appropriation must not accept a fixed price project order unless the activity can predict with a high degree of certainty the actual cost to complete the project order. Otherwise, the activity may violate the prohibition against inappropriately augmenting an appropriation and/or using an appropriation for a purpose not authorized.

3.21.1.2. When there is more than one item of work or service in a project order, including amendments for changes in scope, each item is made the subject of a separate price as shown by the order or in a list incorporated therein by reference. When the work to be performed is the subject of a work list (e.g., equipment overhaul) each entry on the work list must be an item.

3.21.1.3. No substantial contingencies are included in the price, nor involved in performance, so that cost variations in performance reasonably can be expected to be minor.

3.21.1.4. There is a satisfactory system of cost estimating used as a basis for establishing fixed prices. When cost standards are used in cost estimating for the purpose of pricing, they must be adjusted for this purpose to include expected cost variances.

3.21.1.5. The same cost elements are used in cost estimating and establishing fixed prices as would be required for use if reimbursements were based upon actual cost incurred.

3.21.2. The requirement to establish a firm price for purposes of reimbursement for the work or services ordered does not preclude the issuance of amendments/modifications to cover changes in scope of any item in the order.

3.22 Cost-Reimbursement Project Orders

3.22.1. The amount stated in a cost-reimbursement project order must be a sound estimate of the costs incurred in performance of the work or services ordered. Such estimates must be determined based upon the specific work performed. The estimate of costs must be the ceiling amount for purposes of reimbursement for the work or services ordered.

3.22.2. The performing DoW-owned establishment and the ordering DoW Component must undertake timely renegotiations for revisions of the ceiling amount of cost-reimbursement project orders. Such renegotiations must take place whenever cost performance indicates the need for adjustment of the ceiling amount upward or downward, but before the cost of performance has exceeded 75 percent, when compared with the current ceiling amount. Renegotiations need not be conducted when the probable cost of renegotiation is greater than the adjustment amount. In such cases, the performing establishment must absorb the difference, upward or downward. The performing activity will notify the ordering activity before costs exceed 75%.

3.22.3. Cost-reimbursement project orders may be converted to a fixed price basis provided all conditions governing the use of fixed price project orders are present. In addition, the conversion must occur prior to incurring either 50 percent of the total cost of the work, or 50 percent of the period of performance, whichever comes first.

3.23 Unfunded Costs

3.23.1. For purposes of this section, “unfunded costs” are costs that are not funded in the account or appropriation that funds the performing activity. Examples of unfunded costs are not universal. Some performing revolving fund accounts, primarily the working capital fund accounts, may fund costs that are unfunded by appropriated funds. Unfunded costs of a performing activity funded by an appropriation normally include labor of military personnel and depreciation of capital assets.

3.23.2. When an ordering DoW Component places an order on behalf of persons or agencies outside the U.S. Government (including reimbursable transactions pursuant to Foreign Military Sales) discussed in Volume 15 the ordering DoW Component must identify this circumstance on the project order. Under this circumstance, the amount of unfunded costs must be specifically identified and included in the amounts contained in the (1) project orders issued to

performing activities, (2) billings made by the performing activity to the ordering activity, (3) reimbursements by the ordering activity to the performing activity, and (4) reimbursements obtained by the ordering activity from the non-federal customer.

3.24 Reimbursable Costs

3.24.1. Reimbursable costs include the cost of machinery or equipment acquired specifically for the performance of a single project order.

3.24.2. Such costs must be specifically approved in the following circumstances: (1) in advance by the ordering DoW Component, (2) when the machinery or equipment legally could be acquired directly by the ordering fund or appropriation, or (3) approval is incorporated into the terms of the project order agreement or amendments thereto. When approval is incorporated into the terms, the approved costs must be segregated from other costs and shown as a separate item in the reimbursable billing. Such machinery and equipment are the property of the ordering DoW Component and must be disposed of in accordance with instructions from the ordering DoW Component.

3.25 Termination Costs

Costs incurred in the termination of a project order must be reimbursable to the performing DoW-owned establishment when the order is terminated by the ordering DoW Component, to the extent that such costs do not exceed the amount of the fixed price, or the current ceiling amount specified in the case of cost-reimbursement project orders. When ordering DoW Components and performing DoW-owned establishments cannot agree on the costs of termination, the case must be referred through Component financial management channels for settlement by the USW(C).

3.26 Billing

To the extent feasible, performing DoW-owned establishments must bill ordering DoW Components for work performed upon the basis of jobs completed or services rendered in accordance with the terms of the project order. Whenever a long period of time is required in the performance of a project order, periodic progress payments approximating costs incurred may be provided for in the order. Progress payments may be made to the performing DoW-owned establishment to cover the accrued cost (and other direct obligations incurred) of performance to the end of the fiscal year under an uncompleted project order. Reimbursement to a working capital fund activity for work performed prior to completion of the project order must be accomplished normally on either a progress payment or a percentage-of-completion basis.

3.27 Accounting for Cost Performance

Project orders are reimbursable orders and must be administered and accounted for as such. Therefore, project orders may not be administered or accounted for by performing DoW-owned establishments as separate subdivisions of appropriations or funds like an allotment. The appropriation type accounting for project orders must be performed by the ordering DoW Component in a manner like that performed for commercial contracts.

3.28 Obligation Authority

Project orders received and accepted are the source of reimbursable obligational authority, in the amount of the accepted project order, for the performance of services or delivery of goods requested.

3.29 Costs Accounts

Cost accounts must be maintained to accumulate the costs of performance for all project orders. Those cost accounts serve as a basis for determining the amount reimbursable for cost-reimbursement project orders and as a basis of determining a fixed price for similar future fixed price project orders.

3.30 Billings

Billings covering reimbursements must identify costs for each project line/subline item in accordance with the accepted project order (FS Form 7600A).

3.31 Exemptions

Requests for exemptions, along with appropriate justification, must be submitted to the OUSW(C), Deputy Chief Financial Officer (CFO).

4.0 ECONOMY ACT ORDERS

4.1 Legal Authority

4.1.1. 31 U.S.C. § 1535 establishes four basic statutory conditions for the use of Economy Act authorities. In accordance with the statute, the head of an agency or major organizational unit within an agency may place an order with a major organizational unit within the same agency or another agency for goods or services if (1) funds are available, (2) the head of the requesting agency or unit decides the order is in the best interest of the U.S. Government, (3) the agency or unit to be asked to fill the order can provide or obtain by contract the ordered goods or services; and (4) the head of the requesting agency decides that ordered goods or services are unavailable by contract as conveniently or economically by a commercial enterprise.

4.1.2. All orders citing the Economy Act must satisfy the statutory criteria under 31 U.S.C. 1535(a), be supported by a Determination and Findings (D&F), when required, to obtain supplies or services by an assisted acquisition or direct acquisition (i.e., procuring a contract), as defined under FAR 2.101, and FAR 17.502-2.

4.2 Reimbursements to Appropriations

10 U.S.C. § 2205 states to credit reimbursements made to DoW appropriations under 31 U.S.C. §§ 1535 and 1536 for services rendered or supplies furnished to the appropriation or fund of the activity performing the reimbursable work.

4.3 Limitations

Economy Act orders may not be used by an agency to: (1) circumvent conditions and limitations imposed on the use of funds, including extending the period of availability of the cited funds, (2) contravene provisions of the law or accomplish what regulations do not permit under commercial contracts, (3) make acquisitions conflicting with any other agency's authority or responsibility (see FAR 17.501) or for which the servicing agency is required by law to provide and for which it received appropriations; or (4) order work or services from another organizational unit under the same activity commander where the activity commander is able to fund the required goods or services through the use of direct funds.

DoD working capital funds, the Corps of Engineers Civil Works Revolving Fund, and other DoD revolving funds may not waive reimbursement of any amount. This does not preclude the identification of a central payment office by a DoW Component to pay small bills. Guidance on the financial management of working capital funds is in the Volume 11 Supplemental.

4.4 Uses of Economy Act Orders

Use Economy Act orders for any required goods, supplies or services that are appropriate and legal. Acquisition policies contained in the FAR, DFARS, and within individual DoW Component's implementation guidance govern the potential uses of Economy Act orders. Typical uses include base support (host-tenant) services such as administrative services, civilian personnel services, community services, environmental compliance, fire protection, food service, health service, mail service, police service, security/guard services, and warehousing.

4.5 Initiating an Economy Act Order

Each Economy Act order submitted to the servicing agency must include a copy of the determinations and findings (D&F) report as required by FAR 17.502-2(c). Specific D&F requirements are stated in AR 17.502-2(c) and DFARS 217.503.

4.6 Ordering Procedures and Requirements

FAR 17.503, DFARS Subpart 217.5, and DFARS Subpart 217.7 address the procedures that apply to all interagency acquisitions, including those made under the authority provided within the Economy Act.

4.7 Treasury Guidance on Economy Act Orders

4.7.1. The TFM Volume I, Part 2, Chapter 4700, Section 4750, "Intragovernmental Quarterly and Year End Requirements," discusses the requirements necessary to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two Federal government entities, called trading partners.

4.7.2. The TFM provides the standard IAA containing two Fiscal Service (FS) Forms: FS Form 7600A, GT&Cs, and FS Form 7600B, Order Form. Treasury has mandated the use of

these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoW Components must use the latest published versions of FS Forms 7600A/B when completing an Economy Act Order and these must comply with the Federal Intragovernmental Data Standards when using the Treasury's G-Invoicing system, DoW Ordering systems, Enterprise Resource Planning, or when completing the FS Forms 7600 A/B manually.

4.7.3. The system used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter and intragovernmental reimbursable transactions is Treasury's G-Invoicing system. This requirement is for all IAAs with a performance period extending to June 30, 2021, or later. In instances where G-Invoicing is not available, such as remote deployments or other austere conditions, DoW Components must use hardcopies of FS Forms 7600A/B. DoW Components must establish internal policies and procedures for designating signature authority for GT&Cs.

4.7.4. The requesting scope of work on the FS Form 7600A must cover relatively broad categories of goods or services when feasible. However, the FS Form 7600B must discretely describe the goods or services ordered with the associated FS Form 7600A. When practical and legally permissible, the agreement period on the FS Form 7600A must cover multiple years.

4.8 Policy

4.8.1. Economy Act orders must be specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself.

4.8.2. All Economy Act orders must be executed within the period of availability (POA) of the buyer's funds". Therefore, the requesting official must provide a certification of availability for purpose, on or attached to the Economy Act order, stating that the funds cited in the Economy Act order are properly chargeable for the purposes cited in the order.

4.8.3. Economy Act orders citing an annual- or multiple-year appropriation must serve a bona fide need arising, or existing, in the fiscal year(s) for which the appropriation is available for obligation (refer to 31 U.S.C. § 1502).

4.8.4. Appropriation Policy

4.8.4.1. Obligation. An Economy Act order obligates the applicable appropriation of the requesting agency or unit upon acceptance of the order by the servicing agency. The requesting agency obligates the entire amount of a reimbursable order when the servicing agency accepts the order.

4.8.4.1.1. DoW Components cannot use annual appropriations for requirements that are bona fide needs of a subsequent fiscal year, except as allowed by statutory authority. DoW Components that enter into Economy Act agreements with other organizations to satisfy requirements for severable services, non-severable services, and supplies must ensure that

obligations for the Economy Act agreements constitute a bona fide need of the annual appropriation charged. Consequently, the servicing agency must enter any supply or service contract before the end of the period of availability of the annual appropriation.

4.8.4.1.2. To constitute a bona fide need of the requesting activity's annual appropriation, any resultant contract for supplies or services entered by the servicing agency must satisfy the same obligational requirements outlined in Volume 3, as would any contract directly entered by the requesting activity. For example, an agency may issue a contract for severable services under an Economy Act agreement that crosses fiscal years only if the awarded contract satisfies the requirements of 10 U.S.C. § 3133, the contract period does not exceed 1 year, and the contract period begins during the availability period for the agency's appropriation(s).

4.8.4.1.3. DoW Components can obligate multiple-year appropriations for requirements that constitute bona fide needs during the multiple-year period of availability of the appropriation. Multiple-year appropriations obligated for Economy Act orders are subject to the same bona fide need standards as would a contract directly entered by the requesting activity. DoW Components must enter resultant supply and service contracts during the period of availability of the appropriation funding the Economy Act order, and these contracts are subject to the same budgetary full funding or incremental funding policies prescribed in Volume 2.

4.8.4.1.4. Agencies must support resultant contracts for non-severable services that cross fiscal years entirely with their appropriations available for new obligations at the time they award the contract.

4.8.4.1.5. Research, Development, Test and Evaluation (RDT&E) requirements are iterative in nature, RDT&E programs, projects, and activities are not subject to full funding policies. For example, DFARS 232.703-1 permits DoW organizations to incrementally fund a fixed-price contract for severable services if the contract is funded with research and development appropriations. Refer to DFARS 232.703-1 for additional guidance and restrictions. In Volume 2 of the DoW budgetary policy, budget estimates for RDT&E are prepared on an incrementally funded basis, requiring that only the funds necessary for work in a given fiscal year be included in the RDT&E request for that year. The DoW Components encourage fully funding RDT&E contracts for non-severable services.

4.8.4.1.6. Obligating funds for an Economy Act order where the resultant fixed length severable services contract will exceed the 1-year limit outlined in 10 U.S.C. § 3133 or will not commence until a subsequent fiscal year, may result in an Antideficiency Act violation under 31 U.S.C. § 1341.

4.8.4.2. De-obligation. Transactions undertaken in reliance on authority conferred by the Economy Act are subject to statutory requirements imposed by 31 U.S.C. § 1535(d) governing when excess funds must be de-obligated. The amount obligated by the requesting agency or unit must be de-obligated to the extent that the servicing agency has not incurred obligations before the end of the period of availability of the ordering appropriation. It is critical that activities reconcile the obligation status of Economy Act orders and de-obligate unused funds, as needed, before the end of the funds' availability. Funds must be de-obligated by both the

requesting and servicing agency to the extent that the servicing agency or unit filling the order has not (1) provided the goods or services, or (2) entered into an authorized contract with another entity to provide the requested goods or services before the end of the period of availability (fiscal year or multiple year period, as applicable) of the appropriation of the requesting or ordering agency.

4.9 Commencement of Work

Work performed under Economy Act orders must begin within a reasonable time after its acceptance by the servicing agency.

4.10 Contingent Event Prohibition

Economy Act orders must not be issued if the commencement of work is contingent upon the occurrence of a future event or authorizing action by the requesting agency.

4.11 Reimbursement of Appropriated Funds

4.11.1. The servicing agency determines the basis of the actual cost for reimbursement under the Economy Act. The requesting agency must pay the servicing agency the actual costs of the goods or services provided. Actual costs include all direct costs attributable to providing goods or services. The servicing agency's increased expenditures do not increase actual costs. Actual costs also include indirect costs (overhead) to the extent they have a significant relationship to providing the goods or services and benefit the requesting agency. Section 1 outlines how to calculate indirect costs (overhead). DoW activities not funded by working capital funds normally do not charge indirect costs to other DoW activities.

4.11.2. The servicing agency is not allowed to require a payment of any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) and the requesting agency is not required to pay any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled per FAR 17.502-2.d.(4). The general rules for DoW Components to follow regarding amounts collected as reimbursements are in Section 1 of this volume.

4.12 Working Capital Fund Activities

Reimbursable costs in the case of servicing DoW activities operating under a working capital fund must be determined in accordance with working capital fund policy. DoW policy and guidance for accounting of the operations of servicing DoW activities financed under a working capital fund is outlined in Section 20.

4.13 Accounting

4.13.1. Direct Fund Cite Orders. Economy Act orders may be issued as direct fund cite orders where the requesting unit identifies the appropriate fund citation for the servicing unit to place on the requested contract or reimbursable order. Servicing DoW activities must not administer or account for Economy Act orders as separate subdivisions of appropriations or funds

like an allotment. The Requesting DoW Component must account for appropriation type (e.g., annual, no-year, multiyear) Economy Act orders in accordance with Volume 3.

4.13.2. Obligation Authority. Economy Act orders received and accepted are the source of obligational authority in the amount of the order for the performance of the work requested.

4.13.3. Cost Account. Accumulate the costs of performance for all Economy Act orders with a cost account or other device. The cost account serves as a historical basis for determining the amount reimbursable for cost reimbursement Economy Act orders and as a basis for determining a fixed price for similar future fixed-price Economy Act orders.

4.13.4. Records. The servicing DoW Component must establish procedures that identify and retain a record of the requestor's appropriation accounting classification(s) for each order received. Establishment and compliance with these procedures will facilitate the auditability of the requestor's source of funding.

4.13.5. Billings. Billings covering reimbursements must identify costs by each item listed in the Economy Act order. Volume 10contains the DoW policy for executing intragovernmental payments.

4.13.6. Reconciliation and Elimination of Intragovernmental Transactions. Volume 6 contains DoW policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.

5.0 USER FEES

The Federal Government must assess user fees against each identifiable recipient for special benefits derived from Federal activities beyond those received by the public. The User Charge Statute, Title 31, U.S. Code, Section 9701 (31 U.S.C. § 9701), "Fees and Charges for Government Services and Things of Value,") establishes that it is the sense of Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by an agency (except a mixed-ownership Government corporation) to a person (except a person on official business of the U.S. Government is self-sustaining to the extent possible.

The DoW is authorized by legislation to establish user fees, in accordance with the guidelines that are defined by 31 U.S.C. § 9701. The Office of Management and Budget (OMB) Circular No. A-25 Revised, "User charges," and Chief Financial Officers Act of 1990 require federal agencies to review, on a biennial basis, the fees, royalties, rents, and other charges imposed by the agency for services and things of value provided to specific recipients, beyond those received by the general public. The purpose of this review is to periodically adjust existing charges to reflect unanticipated changes in costs or market values, and to review all other agency programs to determine whether fees should be assessed for Government services or the use of Government goods or services.

5.1 Under Secretary of War (Comptroller) (USW(C)) Responsibilities

The (USW(C)) will promulgate financial management policy governing user fees.

5.2 DoW Components Heads Responsibilities or their designees, will:

5.2.1. Identify the services and activities that will adopt and charge a user fee or accept an in-kind consideration.

5.2.2. Determine the extent of the special benefits provided as specified in this volume.

5.2.3. Apply the principles specified in this volume in determining full cost or market price.

5.2.4. Publish user fees charged for services on schedules, lists, or tables posted on publicly available websites.

5.2.5. Review user fees biennially in accordance with OMB Circular No. A-25 Revised, to include assurance that existing fees are adjusted to reflect unanticipated changes in costs or market values; and a review of all other programs where fees are not being assessed to determine whether special benefits are being provided and whether fees should be charged for Government services or goods.

5.2.6. Publish and describe the results of the biennial review of user fees and any resulting proposals, such as adjustments to fee schedules, in the annual DoW Agency Financial Report as required by the Government Management and Reform Act of 1994 and the Chief Financial Officers Act of 1990.

5.2.7. Ensure the requirements of OMB Circular No. A-123, "Management's Responsibility for Internal Control," the Government Accountability Office's GAO 14-704G, "Standards for Internal Control in the Federal Government (the "Green Book")," DoDI 5010.40, "DoD Enterprise Risk Management and Risk Management and Internal Control Program," and appropriate audit standards are applied to user fee collections.

5.2.8. Maintain readily accessible records of the services or activities charging user fees or accepting in-kind considerations, extent of special services provided, exceptions to the general policy, cost information used to establish or calculate fees, and the specific methods used in their determination, and the collections (i.e., cash or in-kind consideration) from each user fee imposed. This information must be provided upon request to OMB for the evaluation of the fee schedules in accordance with the requirements in OMB Circular No. A-11, "Preparation, Submission and Execution of the Budget."

5.2.9. Initiate exception actions outlined in this volume. All such actions must be coordinated with the USW(C) prior to forwarding to OMB.

5.2.10. Develop legislative proposals as outlined in this volume when there are statutory prohibitions, restrictions, or limitations on the implementation, assessment or retention of user fees.

5.3 General Policy

5.3.1. Collections are credited to the General Fund of the U.S. Department of the Treasury (hereafter referred to as Treasury) as miscellaneous receipts as required by 31 U.S.C. § 3302, or if specific statutory authority is available, may be retained by the Component for a specific purpose.

5.3.2. User fees should only be established and implemented if mandated by specific statutory authority, or when implemented under the authority of the User Charge Statute and the monetary benefits to the Federal Government of receipts collected significantly exceed the costs of collecting the fees.

5.3.3. Since generating and maintaining reliable cost data is expensive, consideration must be given to the cost of personnel and related data gathering requirements, and the costs of implementing, maintaining, and using financial management systems when determining the level of cost detail required and whether monetary benefits exceed costs.

5.3.4. It is DoW policy not to compete unfairly with available commercial facilities in providing special services or in the sale or lease of property to private parties and agencies outside the Federal Government. However, when a service (or privilege) provides special benefits to an identifiable recipient, beyond those that accrue to the public, a fee should generally be imposed to recover the full cost to the Federal Government for providing the special benefit (or the market price) except as otherwise approved by the USW(C) and authorized by the Director of the OMB. A special benefit will be considered to accrue, and a user fee should be imposed, when a government service:

5.3.4.1. Enables the beneficiary to obtain more immediate or substantial gains or values (which may or may not be measurable in monetary terms) than those which accrue to the public), or

5.3.4.2. Provides business stability or contributes to public confidence in the business activity of the beneficiary or

5.3.4.3. It is performed at the request of or for the convenience of the recipient and is beyond the services regularly received by other members of the same industry or group or by the public.

5.4 Applicability

None of the provisions in this section should be construed as giving authority for the sale or lease of property, or the rendering of special services. Actions to convey such special benefits must be authorized by separate authority. This user fee policy is applicable except when other statutes or directives specifically direct other practices or procedures, such as for:

5.4.1. Services to military personnel and civilian employees of the DoW provided in accordance with this volume.

5.4.2. Products and services provided to military personnel, their families, and civilian DoW employees by DoW Nonappropriated Fund Instrumentalities (i.e., morale, welfare, and recreation (military and civilian), Military Services exchanges, lodging, supplemental mission funds, and special purpose central funds). Fees for such services are governed by DoDI 1015.15, "Establishment, Management, and Control of Nonappropriated Fund Instrumentalities and Financial Management of Supporting Resources," and other OSW policy.

5.4.3. Sale or disposal of surplus property under specifically approved.

5.4.4. Services furnished to the public and representatives of the public information media relating to the interest and understanding of the Armed Forces recruiting program.

5.4.5. Armed Forces participation in public events. Fees for such participation are governed by the provisions of DoDI 5410.19, "Public Affairs Community Relations Policy Implementation."

5.4.6. Records made available to the public, under FOIA, pursuant to DoDD 5400.7, "DoD Freedom of Information Act (FOIA) Program." Fees for searches and copies of records are governed by Chapter 6 of DoDD 5400.7.

5.4.7. Services furnished to non-Federal audio-visual media. Fees for such services are governed by the provisions of 32 Code of Federal Regulations Part 238 (32 CFR Part 238), "DoW Public Affairs Assistance to Non-Government, Entertainment-Oriented Media Productions."

5.4.8. Pricing of performance by DoW Working Capital Fund activities which must be in accordance with Section 20 of this volume.

5.4.9. Foreign Military Sales of War articles and services which must be in accordance with Volume 15.

5.4.10. Records made available to requesters under the Privacy Act of 1974, pursuant to DoDD 5400.11.

5.5 Calculation of User Fees

All fees must be based on the full cost to the U.S. Government or market price, whichever applies. Additionally, whenever possible, fees must be set as rates rather than fixed dollar amounts to adjust for changes in costs to the Government or changes in market prices of the good, resource, or service provided.

5.5.1. Except as provided in paragraphs 5.0, 5.9, and 5.11 a user fee should be imposed to recover the full cost to the Federal Government of providing the service, resource, or good when the Government is acting in its capacity as sovereign. "Full cost" includes all direct and indirect

costs associated with providing a good, resource, or service. Full cost must be determined or estimated from the best available records, and new cost accounting systems should not be established solely for this purpose. These costs include, but are not limited to, an appropriate share of:

5.5.1.1. Direct and indirect personnel costs, including salaries and fringe benefits such as medical insurance and retirement. Retirement costs should include all (funded or unfunded) accrued costs not covered by employee contributions as specified in OMB Circular No. A-11.

5.5.1.2. Physical overhead, consulting, and other indirect costs including material and supply costs, utilities, insurance, travel, and rents or imputed rents on land, buildings, and equipment. If imputed rental costs are applied, they should include:(1) depreciation of structures and equipment (based on guidance contained in Volume 4, and an annual rate of return (equal to the average long-term Treasury bond rate) on land, structures, equipment and other capital resources used.

5.5.1.3. The management and supervisory costs.

5.5.1.4. The costs of enforcement, collection, research, establishment of standards, and regulation, including any required environmental impact statements.

5.5.2. User fees should be based on market prices when the Government is not acting in its capacity as sovereign and is leasing or selling goods or resources, or is providing a service (e.g., leasing space in federally owned buildings). Under these business-type conditions, user fees need not be limited to the recovery of full cost, must be based on market prices, and may yield net revenues.

5.5.2.1. When a substantial competitive demand exists for a good, resource, or service, its market price will be determined using commercial practices, for example by (1) competitive bidding or reference to prevailing prices in competitive markets for goods, resources, or services that are the same or like those provided by the Government (e.g., campsites or grazing lands in the general vicinity of private ones) with adjustments as appropriate that reflect demand, level of service, and quality of the good or service.

5.5.2.2. In the absence of substantial competitive demand, market price will be determined by taking into account the prevailing prices for goods, resources, or services that are the same or substantially similar to those provided by the Government, and then adjusting the supply made available and/or price of the good, resource, or service so that there will be neither a shortage nor a surplus (e.g., campsites in remote areas).

5.5.3. Fees established in advance of performance should be based on the estimated cost of performance. Projected amounts must be reviewed the earlier of biennially or whenever significant changes in cost or value occur.

5.5.4. Internal management controls must be established in accordance with OMB Circular No. A-123, GAO-14-704G, and DoDI 5010.40 to ensure that user fees are developed, published on a publicly available website, and adjusted using current, accurate, and complete data. These controls must also ensure compliance with cash management and debt collection policies promulgated in Volume 5.

5.6 Collection of User Fees

DoW Components should make every effort to keep the costs of collection to a minimum and collect fees electronically, via electronic funds transfer (EFT), and utilize, as applicable, the collection services provided by the Treasury's Bureau of the Fiscal Service (Fiscal Service) as described in Volume 5 and outlined in the Treasury Financial Management, Volume 1, "Federal Agencies," Part 5, "Deposit Regulations (1 TFM Part 5)."

5.6.1. In accordance with OMB Circular No. A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for services provided on a reimbursable basis.

5.6.2. Although fees must be collected in advance absent statutory authority to provide services or special benefits on a reimbursable basis, Components may collect advance fee payments incrementally if variable costs such as personnel or utility costs are incurred incrementally over time and if the services or special benefit is susceptible to being provided on a severable basis.

5.7 Disposition of User Fees

As required by 31 U.S.C. § 3302, an official or agent of the Government who receives money for the Federal Government from any source must deposit the money in the Treasury as soon as practicable. This law is generally referred to as the "Miscellaneous Receipts Statute." Accordingly, unless another statute provides otherwise, user fees collected under the authority of the User Charge Statute must be credited to the General Fund of the Treasury as miscellaneous receipts.

5.8 Exceptions or Waiving of User Fees

5.8.1. The Head of each DoW Component or designee may make exceptions to the general policy if the provision of a free service is an appropriate courtesy to a foreign government or international organization; or comparable fees are set on a reciprocal basis with a foreign country.

5.8.2. The Head of each DoW Component or designee may recommend to OMB that exceptions to the general policy be made when the cost of collecting the fees would represent an unduly large part of the fee for the activity or any other condition exists that, in the opinion of the agency head or his designee, justifies an exception.

5.8.3. All exceptions must be for a period of no more than 4 years unless renewed by the Head of each DoW Component or designee for exceptions or OMB for exceptions after a review to determine whether conditions warrant their continuation.

5.8.4. Requests for exceptions and extensions must be submitted to the Director of OMB.

5.9 Legislative Proposal to Retain User Fees

5.9.1. General Policy

If Components require modification of statutory prohibitions on assessment of user fee charges, they may propose remedial legislation to repeal the assessment prohibition or to authorize an exception. Similarly, Components may propose legislative authority to retain and use amounts collected as user charges. Such proposals are subject to requirements for preparation and submission established in DoDD 5500.01, "Preparing, Processing, and Coordinating Legislation, Executive Orders, Proclamations, Views Letters, and Testimony." For additional guidance on submitting legislative proposals for approval or authorization to implement or modify a user fee program or to authorize retention and use of user fee collections, refer to OMB Circular No. A-25.

5.10 Authorities

Under the User Charge Statute, a statutory authority is required for DoW Components to retain and use user fees. Proposals requesting such authority may be appropriate when a user fee is levied to finance a service that is provided on a substantially self-sustaining basis and thus is dependent upon adequate collections.

5.10.1. The authority to use fees credited to an appropriation is generally subject to limits set in annual appropriations language. However, it may be appropriate to request exemption from annual appropriations control, if a provision of the service is dependent on demand that is irregular or unpredictable (e.g., a fee to reimburse an agency for the cost of overtime pay of inspectors for services performed after regular duty hours).

5.10.2. Legislative proposals that permit fees credited to accounts must be consistent with the full cost recovery guidelines. Any fees collected more than full cost recovery (i.e., under business-type conditions in which user fees are calculated based on market prices) are credited to the General Fund of the Treasury as miscellaneous receipts.

5.11 Benefits for which no fee must be assessed

5.11.1. Documents and information requested by members of the U.S. Armed Forces, as required by such personnel in their capacity as Service members.

5.11.2. Documents and information requested by members of the U.S. Armed Forces, who are in a casualty status or requested by their next of kin or legal representative.

5.11.3. The provisions of the address of record of a member or former member of the U.S. Armed Forces when the address is readily available through a directory (locator) service, and when the address is requested by a member of the U.S. Armed Forces or by a relative or a legal representative of a member of the U.S. Armed Forces or when the address of record is requested by any source for the purpose of paying monies or forwarding property to a member or former member of the U.S. Armed Forces.

5.11.4. Services requested by, or on behalf of, a member or former member of the U.S. Armed Forces and civilian personnel of DoW (where applicable) or, if deceased, his or her next of kin or legal representative that pertain to the provision of (1) information required to obtain financial benefits regardless of the terms of separation from the Service, (2) documents showing membership and military record in the Armed Forces if discharge or release was under honorable conditions, (3) information related to a decoration or award or required for memorialization purposes, (4) information related to the review or change in type of discharge or correction of records, (5) personal documents, such as birth certificates, when such documents are required by the member, (6) services that are furnished free in accordance with statutes or Executive Orders, and information from or copies of medical and dental records or x-ray films of patients or former patients of military medical or dental facilities, when such information is required for further medical and dental care, and requests for such data are (a) submitted by an accredited medical facility, physician, or dentist; or (b) requested by the patient, his or her next of kin, or legal representative. Other requests subject to the Privacy Act of 1974 must be in accordance with DoDD 5400.11.

5.12 Services requested by and furnished to entities outside DoW:

5.12.1. A member of Congress for official use.

5.12.2. State, territorial, county, or municipal government, or an agency thereof, that is performing a function related to or furthering a DoW objective.

5.12.3. A court, when such services will serve as a substitute for personal court appearance of a military or civilian employee of DoW.

5.12.4. A nonprofit organization that is performing a function related to or furthering an objective of the Federal Government or that is in the interest of public health and welfare, including education.

5.12.5. Donors in connection with the conveyance or transfer of a gift to DoW.

5.13 Services

5.13.1. Occasional and incidental services (including requests from residents of foreign countries), that are not requested often, when it is determined administratively that a fee would be inappropriate for the occasional and incidental services rendered.

5.13.2. Administrative services offered by reference or reading rooms to inspect public records, excluding copies of records or documents furnished.

5.13.3. Services rendered in response to requests for classification review of DoW classified records, submitted under Executive Order 13526, "Classified National Security Information", and implemented by DoW Manual 5200.01 Volumes 1-3, "DoW Information Security Program." Such services consist of the work performed in conducting the classification review or in granting and completing an appeal from a denial of declassification following such review.

5.13.4. Services of a humanitarian nature performed in such emergency situations as life-saving transportation for non-U.S. Armed Forces patients, search and rescue operations, and airlift of personnel and supplies to a disaster site. This does not mean that inter- and intra-governmental agreements to recover all or part of costs should not be negotiated. Rather, it means the recipient or beneficiary will not be assessed a "user fee."

6.0 DISPOSITION OF PROCEEDS FROM DEPARTMENT OF WAR SALES OF SURPLUS PERSONAL PROPERTY

6.1 General Rules for Deposit and Use of Proceeds

6.1.1. According to 40 U.S.C. § 571, agencies must deposit net proceeds from sales of surplus property into the Treasury as miscellaneous receipts unless a law authorizes a deposit into an alternate appropriation. The law also requires that agencies pay the expenses of selling old material, condemned stores, supplies, and other public property from the proceeds of the sale, ensuring that only the net proceeds are deposited in the Treasury, or any other applicable appropriation authorized by law.

6.1.2. Under 10 U.S.C. § 2210, a working capital fund responsible for the disposal of property may retain proceeds from disposals that are necessary to recover the expenses incurred in disposing of that property. Therefore, the Defense Logistics Agency (DLA) Disposition Services will retain amounts sufficient to offset all expenses incurred in the disposition of excess/surplus personal property from the proceeds of sales of such property.

6.2 Legal Exceptions to the General Rules

The following authorizations permit the crediting of the proceeds of the sale to appropriations and/or funds of the Department.

6.2.1. Supplies, Material, Equipment, and Other Personal Property Not Financed by Stock Funds. In accordance with 10 U.S.C. § 2210, the DoW may credit the net proceeds from the sale or disposal of surplus property, after recovering necessary expenses, to current applicable appropriations. Therefore, any proceeds that remain after recovering disposal expenses will be credited to the current applicable appropriations of the Department (i.e., the appropriation currently available for purchasing such property).

6.2.2. Revolving Fund and Non-Appropriated Fund Property. In accordance with 40 U.S.C. § 574, when property is acquired with amounts either (a) not appropriated from the general fund of the Treasury; or (b) appropriated from the general fund of the Treasury but by law reimbursable from assessment, tax, or other revenue or receipts, the net proceeds of such a disposition or transfer of the property must be credited to the applicable reimbursable fund or appropriation; or paid to the federal agency that determined the property to be excess.

6.2.3. Contractor Sales of Surplus Government Property in the Possession of Contractors. The DFARS subpart 245.60, implements 40 U.S.C. § 574 (c) and provides overall direction for crediting proceeds from contractor-conducted sales of surplus government property in the possession of contractors. FAR 245.60 supplements by detailing specific plant clearance procedures, inventory schedules, and surplus property sales rules tailored to defense acquisitions.

6.2.4. Sales of Recyclable Material on Military Installations. The DoW or DLA Disposition Services distribute the proceeds from direct sales of installation-qualified recycling programs (QRP) on military installations, as outlined in 10 U.S.C. § 2577 and DoDI 4715.23.

6.2.4.1. The Director of DLA and DLA Disposition Services (under the USW for Acquisition and Sustainment) must establish procedures and controls to ensure that when installations consign recyclable materials for disposal to DLA Disposition Services on behalf of a qualified recycling program, they return 100 percent of any proceeds, minus the costs of sales and handling, to the installations in accordance with established accounting procedures.

6.2.4.2. Agencies must establish an accounting and control system for recycling programs that provides detailed management and audit information, tracks the quantity of material handled, calculates sales and handling costs for recycled material, and monitors expenditures made for appropriate projects and MWR programs. The integrity of the audit trail must be prioritized.

6.2.4.3. If a military installation has a QRP (as determined by the Secretary of the Military Department concerned or the Secretary of War) and a balance remains available after such funds are credited, then the installation may use no more than 50 percent of that balance for projects focused on pollution abatement, pollution prevention, energy conservation, alternative-fueled vehicle infrastructure support, and occupational safety and health activities. According to 10 U.S.C. § 2577, the project cannot exceed 50 percent of the amount established by law as the maximum for a minor construction project.

6.2.4.4. DoW Components must promptly deposit and record all recycling proceeds in the U.S. Standard General Ledger account 426600, which provides direct budgetary authority on line 1800 of the SF 132, Apportionment and Reapportionment Schedule, and SF 133, Report on Budget Execution and Budgetary Resources. They must obligate and disburse from the designated Treasury Account Symbol only for the purposes specifically authorized in 10 U.S.C. § 2577. The use of suspense accounts is prohibited, and any remaining balances must be transferred to the designated Treasury account.

6.2.4.5. A military installation may transfer the remaining balance available to its non-appropriated morale and welfare account for any morale or welfare activity. If the balance

exceeds $10 million at the end of any fiscal year, the installation must deposit the excess amount into the Treasury as miscellaneous receipts.

6.2.5. Lost, Abandoned and Unclaimed Privately-Owned Personal Property. The DoW may dispose of lost, abandoned, or unclaimed personal property after it has made diligent efforts to find the owner or the owner's heirs, next of kin, or legal representative, as prescribed by 10 U.S.C. § 2575.

6.2.5.1. When military installations find lost, abandoned, or unclaimed personal property, they must credit the net proceeds from the sale of the property to the operation and maintenance account of that installation and use to reimburse the installation for any costs incurred by the installation to collect, transport, store, protect, or sell the property; and to the extent that the amount of the proceeds exceeds the amount necessary for reimbursing all such costs, to support MWR activities under the jurisdiction of the armed forces at such installation.

6.2.5.2. Military installations must deposit the net proceeds from the sale of all other lost, abandoned, and unclaimed privately-owned personal property into the Proceeds of Sales of Lost, Abandoned, or Unclaimed Personal Property (X6001). After 5 years, military installations must transfer any unclaimed net proceeds from X6001 to Forfeitures of Unclaimed Money and Property (1060).

6.2.5.3. The owner(s) of personal property disposed of as described in this section may file a claim with the Secretary of War for an amount equal to the proceeds minus the costs incurred by the installation to collect, transport, store, protect, or sell the property. They must file the claim within 5 years of the disposal date of the property. To pay claims for property found on military installations, the installations must draw the amounts from their MWR account, into which the proceeds were deposited. For all other property, amounts to pay the claim must be from the Proceeds of Sales of Lost, Abandoned, or Unclaimed Personal Property account (X6001).

6.2.5.4. Refer to the Volume 11 Supplemental to identify, by type of surplus property, the collection and disposition of proceeds from the sale of surplus property.

6.3 Collection of Bid Deposits Collected Under the Card Acquiring Service

DoW Components establish policies governing acceptance under the Card Acquiring Service. These instances have transaction limits. Further guidance is contained within Volume 5, “Electronic Commerce and Deposit of Public Funds.” The OUSW(C) announces changes or additions to approved credit or debit cards in memoranda or through changes to the TFM. Treasury covers any fees normally charged to sellers, except for equipment and communication costs.

6.4 Disposition of Bid Deposits

If the sale requires a bid deposit, a DoW Component must initially deposit cash collected from bidders into account 097X6501, “Small Escrow Amounts,” until a successful bidder is determined, and a contract is awarded.

7.0 ANNUAL REIMBURSEMENT RATES

The DoW provides goods and services to meet military mission requirements. The Economy Act allows the Department to provide certain goods to DoW Components, other government agencies, and the private sector under specified conditions. The OUSW(C)/DoW Chief Financial Officer (CFO) publishes reimbursement rates, to provide a basis for the Department and its Components to be reimbursed for such goods and services provided. This guidance applies to all DoW Components and goods or services encompassed by or subject to reimbursement rates approved by the DoW CFO.

7.1 Deputy Comptroller (Program/Budget) Responsibilities

The OUSW(C) Deputy Comptroller (Program/Budget) (P/B) is responsible for reviewing, coordinating, and publishing reimbursement rates for the Department. Whenever feasible, reimbursement rates will be published prior to the start of the new fiscal year to ensure sufficient lead time for distribution and for updating billing systems.

7.2 Requirements for DoW Components

7.2.1. Maintain systems that apply generally accepted cost-accounting procedures to develop proposed reimbursement rates. Each DoW Component, in coordination with the Defense Finance and Accounting Service, must maintain a cost-accounting system capable of capturing the data required to formulate reimbursement rates for consumers of goods or services. These proposed rates must be based on generally accepted cost-accounting practices.

7.2.2. Submit reimbursement rate exhibits to the DoW Deputy Comptroller P/B that propose rates for the upcoming fiscal year. These exhibits must be prepared and submitted in accordance with the timelines in this volume and the formats prescribed in the Volume 11 Supplemental document.

7.2.3. Bill customers using the rates approved by the DoW Deputy Comptroller P/B. Goods or services provided during an academic or a fiscal year will be billed at the applicable approved rate, respectively, effective at the start of the academic year or on October 1 of the fiscal year, as appropriate, regardless of when those rates are loaded in the billing system.

7.2.4. Ensure that rates different from those approved by the DoW CFO are not issued or changed without the prior written approval of that official or the DoW Deputy Comptroller P/B.

8.0 INTERNATIONAL NARCOTICS CONTROL PROGRAM

The DoW's International Narcotics Control Program (INCP) directly supports the Foreign Assistance Act (FAA) of 1961. The FAA's key objectives are to suppress the illicit manufacturing and trafficking of narcotics and psychotropic drugs, money laundering, precursor chemical diversion, and to progressively eliminate the illicit cultivation of the crops from which narcotic and psychotropic drugs are derived. While the FAA addresses statutory responsibilities for

multiple agencies, the DoW is specifically tasked as a key partner in the training of foreign allies on illegal narcotics interdiction and the prevention of illegal narcotics trafficking.

8.1 Billing Support

Section 632 (c) of the FAA explains special pricing requirements when services, including training, are provided by the Department of War to the Department of State in support of the INCP. Billing must be made within 30 calendar days after the monthly services are rendered. The payment due date must be no more than 30 days from the date of the invoice. Bills rendered under this program are not subject to audit by the customer.

8.2 Pricing

The following rules must be followed by DoW Components when determining pricing amounts collected as reimbursements for orders from the Department of State that cite INCP financing.

8.2.1. INCP Training. The tuition rate for DoW training provided to support INCP is an incremental rate comparable to the International Military Education and Training (IMET) rate. Volume 15 provides a detailed explanation on tuition rates, direct and indirect costs of international student training, and IMET training price exceptions not covered in this section. The cost elements to include in the pricing are as follows:

8.2.1.1. Civilian Instructors and School Support Staff. It is anticipated that additional costs charged to the INCP for civilian instructors will be minimal for courses or groupings of courses when either the ratios of students to instructors or U.S. students to international students are high. Courses must be reviewed to determine the additional cost incurred resulting from international student attendance. Classroom or technical courses that are similar, or that utilize instructors who teach more than one course, may be grouped for computation purposes.

8.2.1.1.1. For groups of courses, an estimate must be made of the number of U.S. students in each course and the number of civilian instructors and civilian staff required. A second projection must be made of the total number of students enrolled in applicable courses, both U.S. and international, and the number of civilian instructors and civilian staff required. Base both projections on the maximum number of student output by civilian instructors or civilian staff rather than on optimum class size. The difference in the number of civilian instructors and civilian staff between the two projections represents the additional civilian instructors and/or civilian staff required. Applicable additional civilian instructors and civilian staff must be priced in accordance with this volume. This value, divided by the total number of INCP students, represents the additional cost per INCP student for the course (or courses).

8.2.1.1.2. When there is a one-for-one or one-for-two relationship of civilian instructors to students, the instructor in all cases is considered additional. If the entire class is composed of INCP students, the instructor, and staff must be considered additional in the pricing formula.

8.2.1.2. Military Instructors and Military School Support Staff. There must be no charges to the INCP program for military personnel conducting training courses.

8.2.1.3. Equipment Overhaul and Maintenance. The overhaul and maintenance of major items of equipment, when computed on an hourly use basis, must be considered additional resources to a course based on estimated utilization hours.

8.2.1.4. Simulators. Simulator hours must be considered additional costs. Simulator costs must include pay of the operators, supplies and equipment maintenance. Allocate simulator costs to the course using an equitable distribution across the total hours available.

8.2.1.5. Supplies, Materiel, Training Aids, Ammunition. Charge the replacement costs of items not returned or reusable (including petroleum, oil, and lubricants) expended in the conduct of training as an additional cost.

8.2.1.6. Lost or Damaged Equipment. If equipment was lost or damaged during training and it was found to be the result of an international student's negligence, the additional cost to be charged must be the actual costs of the repairs or replacement cost of the equipment.

8.2.1.7. Base Support (That Is, Indirect Student Costs). A standard weekly rate must be charged for INCP training conducted on DoW installations. The fixed weekly amount must be the same amount used for billing DoW appropriations reimbursed by the IMET program. See Volume 15 for additional details.

8.2.1.8. Food Preparation. Meal operating/food preparation costs are additive to other food costs. The weekly meal operating and food preparation costs for INCP students must be the same amount used in billing DoW appropriations reimbursed by the IMET program when courses are conducted on DoW installations and students use DoW appropriated dining facilities.

8.2.1.9. Instructor Training. Special courses provided on a non-routine basis to U.S. instructors and personnel are considered additional costs and must be charged accordingly. Charge the normal cost rate for all required training conducted at a U.S. training facility in direct support of the INCP program (i.e., the Department of State). Treat special courses conducted by a Management Service Team (MST) away from the normal training institution as dedicated service and charge the full cost billed to the INCP program.

8.2.1.10. Facilities and Equipment. The costs of any facilities or equipment acquired primarily for the support of international students enrolled in the INCP program are considered additional costs.

8.2.1.11. Field Studies Program (FSP). The full cost of the FSP to the U.S. Government is considered an additional cost.

8.2.1.12. Shipment of Retainable Instructional Materials (RIM). The shipment of RIM to students must be included in the tuition rate applicable to INCP students. Apply shipping

charges to the same DoW billing appropriations reimbursed by the IMET program. Refer to Volume 15 for additional details.

8.2.1.13. Travel and Per Diem. Instructor and student travel and per diem associated with the provision of training must be considered additional costs, to include transportation, living allowances, and medical expenses.

8.2.2. Other DoW Services

8.2.2.1. DoW Services Provided Incidental to Normal Mission Accomplishment. When support of the INCP is accomplished incidental to performance of a DoW mission requirement, there are no additional costs incurred. However, an extended mission or overall cost increase constitutes the reimbursement of the cost over and above the scheduled mission cost.

8.2.2.2. Scheduled DoW Transportation. Air and ocean transportation services performed by the U.S. Transportation Command on scheduled movements must be priced, where applicable, at current tariff rates for DoW Components.

8.2.2.3. Detailed Personnel. All costs incurred in connection with the detail of DoW personnel to the Department of State to support the INCP, both civilian and military, are considered additional expenses and must be priced at the normal rate charged to other Federal Agencies.

8.2.3. Supplies and Equipment. Section 482 of the FAA prohibits the procurement of weapons or ammunition from funds authorized for this program. Thus, any specific order for a weapon or ammunition that cites the appropriations provided to finance INCP either must be rejected or returned for a new fund citation. Supplies and equipment that can be provided must be priced in accordance with this volume. Additionally, this volume establishes pricing policy for excess and non-excess material.

8.3 Disposition of Proceeds

Section 632(c) of the FAA mandates that applicable collections from the Department of State must be reimbursed to the financing DoW appropriation account.

9.0 INTERNATIONAL ACQUISITION AND CROSS-SERVICING AGREEMENTS

The DoW strengthens key international partnerships through the acquisition and transfer of logistic support, supplies, and services (LSSS) between DoW and certain countries and regional organizations. These acquisitions and transfers are accomplished through Acquisition and Cross-Servicing Agreements (ACSA), on a reimbursement basis, or by replacement-in-kind (RIK), or by exchange of supplies or services of an equal value (equal-value-exchange (EVE)). The use of these agreements strengthens alliances and provides beneficial support for U.S. service members and respective members of foreign militaries when U.S. supplies are not readily available.

9.1 Liquidation of Credits and Liabilities

9.1.1. Monetary reimbursement occurs via a monetary instrument in the currency of the supplying nation as payment for LSSS. The recipient is responsible for the total cost of the order, including additional fees imposed by financial institutions for payment processing. Exchange/Replacement reimbursements use RIK or EVE transfers as the means of repayment where equal value is the actual, estimated, or negotiated price at the time of order approval. Signatures of the recipient and the supplier for the terms of the agreement are required and constitute approval.

9.1.2. Reimbursement Order Liquidation Method. The reimbursement due date is 30 days from the date of invoice, demand letter, or notice of payment due unless a specific due date is established by statute, contract provision, or notice of indebtedness (see Volume 16). The bill is then distributed by the Component or by the Accounts Receivable Office (ARO) as prescribed in Volume 4. Bills must be accompanied by the completed Form (usually, Form 1-3a generated in the Acquisition and Cross-Servicing Agreement Global Automated Tracking and Reporting System (AGATRS), or document containing all minimum essential data elements, used to document the issue and receipt of supplies and services. Payment due date must not be more than 30 days from the date of the invoice, unless terms of the ACSA agreement or Implementing Arrangement specify a different payment timeline. A payment extension of 30 to 120 days from the due date is permissible, if initiated by the recipient and based upon their processing capabilities, with mutual written agreement of all parties.

9.1.3. Exchange/Replacement Order Liquidation Method. Exchange/Replacement orders must be recorded and accrued in compliance with Generally Accepted Accounting Principles. Recorded Accounts Payables and Accounts Receivables related to the exchange of goods and services must be settled through the issue or receipt, as applicable, of the thing of equal value or replacement item, within 12 months of the original (initial) order date of delivery, or within 90 days of an agreed upon settlement conference documented via the authorizing signatory certifying authority to the ACSA agreement. If not settled within this period, the exchange/replacement order must convert to a monetary reimbursable order and then be settled according to Volume 16. The resulting accounts receivable or accounts payable must be liquidated, expeditiously, if possible. Upon conversion to a direct bill, any delinquency greater than 90 days will result in the termination of DoW support to the ACSA supported entity until delinquent orders are liquidated.

9.2 Prohibitions

9.2.1. Inventories of Supplies. Inventories of supplies for elements of the U.S. Forces must not be increased in anticipation of a request for support under the authority of 10 U.S.C. §§ 2341 – 2350 and DoDD 2010.09.

9.2.2. Prohibitions on Transfers. DoW Components, must not agree to or carry out: (1) transfers in exchange for property whose acquisition by DoW is prohibited by law; (2) transfers of source, byproduct, or special nuclear materials subject to 42 U.S.C. § 2011, the Atomic Energy Act of 1954; (3) transfers of LSSS to countries with which the DoW does not have a current ACSA pursuant to 10 USC. § 2342(d); or (4) transfers of chemical munitions.

9.2.3. Mandated Separation of Duties. Safeguards to ensure proper separation of Duties. Commands will ensure that proper safeguards are in place to include ensuring that a single individual performs only one of the following functions.

9.2.3.1. Initiation of the ACSA Transaction requirement.

9.2.3.2. Signing to authorize the ACSA Order as the Logistics Officer.

9.2.3.3. Receipt, inspection, and acceptance of the ACSA supplies or services that are transferred with the Order; and

9.2.3.4. Signing the ACSA Order as the Finance Officer confirming disbursement of payment or acceptance of the re-imbursement payment.

9.3 Obligation and Earned Reimbursement Limitations

9.3.1. Application. Apply the obligations and earned reimbursement limitations without regard to offsetting balances; that is, only the original gross values of sales and purchases are considered for purposes of the limitations. These limitations do not apply during periods of active hostilities involving the armed forces and are allocated by the Joint Staff.

9.3.2. Financial Obligation Recording. Duly appointed and trained financial personnel must record entries in the appropriate financial systems in accordance with DoDI 1300.26.

9.3.3. Authorized Personnel. Financial Personnel must have on file a DD Form 577, appointing them to the role as the financial certifying official. Persons authorized as ACSA Signature Officials must have on file an official delegation memo from higher authority.

9.3.3.1. Recording Obligations. Within 10 days of an order authorization, the corresponding obligation or reimbursable credit must be recorded in the appropriate financial system as prescribed in Volume 3.

9.3.3.2. Recording Accounts Payable (ACSA Monetary Buys). Obligations (and any adjustments) must be established and recorded in the appropriate financial system for the amounts of orders placed and contracts awarded that will require payment as prescribed in Volume 10 for the current or some future accounting period.

9.3.3.3. Recording Accounts Receivable (ACSA Monetary Sales). Amounts due to the DoW will be recorded as sales for the amounts of the orders that will establish a claim to cash, or other asset as prescribed in Volume 4.

9.3.3.4. Recording Accounts Payable (RIK/EVE Buys). Recognize the liability when the DoW and the partner nation complete the ACSA order. Record amounts in the appropriate financial system for the amount or negotiated number of orders placed that may require payment as prescribed in Volume 4 for the current or future accounting period.

9.3.3.5. Recording Accounts Receivable (RIK/EVE Sales). Amounts due to the DoW will be recorded in the appropriate receivables account in the financial system for the number of orders regardless of the method of reimbursement, as prescribed in Volume 4.

9.3.3.6. Aging of Accounts Payable and Accounts Receivable: Accounts Payable and Accounts Receivable will begin aging upon the acceptance and/or certification by both parties at the on-going reconciliation of support conferences. Until orders and settlement terms have been agreed to and certified, by both parties, Accounts Payables and Accounts Receivables will remain in a current non-delinquent 0–30-day category for financial reporting and management-monitored metrics.

9.3.4. Department Level Obligation Naming Standard

9.3.4.1. Standard Format. Within the respective Financial Systems, Services, Components and Agencies using the ACSA Acquire/Transfer process must establish, at the highest level, an ACSA identifier, more specifically a unique document type/entry code. This must be accompanied by a required field to document the AGATRS generated ACSA requisition number. In the absence of a unique document type/entry code, or in the interim during establishment, organizations will identify a free-text field for entry of a standard Department-wide format of the word "ACSA_" followed by the AGATRS generated ACSA Order Requisition Number. Example ACSA_JO-12345-001. An example is as follows: Example → ACSA (*word*)__AGATRS ACSA Order Requisition.

9.3.4.2. Standard Format Tracking. Services/Components/Agencies must communicate their accounting procedures, document type/entry code, in addition to their respective field choice back to the Office of the Under Secretary of War for Acquisition and Sustainment (OUSW(A&S)) and OUSW(C) and distribute to all subordinates for inclusion in all financial operating procedures regarding ACSA.

9.3.5. Obligation Limitations

9.3.5.1. Acquisitions from North Atlantic Treaty Organization (NATO) Countries, NATO Subsidiary Bodies, the United Nations (UN) Organization or Any Regional International Organization. The total amount that may be obligated by DoW for reimbursable orders (purchases) with NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization must not exceed $200 million during any fiscal year. Of the $200 million limitation, no more than $50 million in obligations may be incurred for the acquisition of supplies other than petroleum, oil, and lubricants (POL).

9.3.5.2. Acquisitions from non-NATO Member Countries. The total amount that may be obligated by the DoW for reimbursable orders (purchases) with a non-NATO member country (with which the U.S. has an acquisition or cross-servicing agreement) must not exceed $60 million during any fiscal year. Of the $60 million limitation, no more than $20 million in obligations may be incurred for the acquisition of supplies (materiel) other than POL.

9.3.6. Earned Reimbursement Limitation

9.3.6.1. Transfers to NATO countries, NATO subsidiary bodies, the United Nations Organization or Any Regional International Organization. The total amount of earned reimbursable credits (sales) to NATO countries, NATO subsidiary bodies, the UN Organization, or any regional international organization of which the U.S. is a member that DoW can accrue must not exceed $150 million during any fiscal year.

9.3.6.2. Transfers to Non-NATO Member Countries. The total amount of earned reimbursable credits (sales) to a non-NATO member country (with which the U.S. has an acquisition or cross-servicing agreement) that DoW can accrue must not exceed $75 million during any fiscal year.

9.4 Requests for Authorization to Use Limitations

Obligation/Earned Reimbursement Limitations are allocated and tracked by the Joint Staff. Each organization entering reimbursable purchases or sales under ACSA must request authorization. Requests must be accompanied by justification, including a prioritization of requirements. The requests must be submitted to the cognizant Combatant Command (CCMD) through the requesting organization's appropriate Component command. The authorizations do not increase the amount of obligational or apportioned anticipated reimbursable authority but rather allow use of existing budget authority to enter into purchases or sales under the authority of 10 U.S.C. § 2347. Refer to the Volume 11 Supplemental document.

9.5 Waiver During Contingency or Non-Combat Operations

When U.S. Forces are involved in a contingency operation or non-combat operation (including an operation in support of the provision of humanitarian or foreign disaster assistance or in support of peacekeeping operations under UN Charter VI or VII), the restrictions are waived for the purposes and duration of that operation.

9.6 Issuance of the Authorization

The cognizant CCMD must review and approve requests for authorization. If the total amount requested by all Component commands exceeds established limitations, the cognizant CCMD must review the justifications and make appropriate reductions to requested amounts as needed. Each cognizant CCMD must advise the Military Departments (MILDEPs) of authorizations distributed.

9.7 Distribution of Authorization Received

Upon receipt of an authorization from a CCMD, Component commands must authorize their activities to enter into reimbursable orders under 10 U.S.C. § 2342. No activity or unit may enter such orders without proper authorization. Recipients of an authorization must establish procedures to ensure that authorized dollar amounts are not exceeded.

9.8 Ratification of Unauthorized ACSA Orders

9.8.1. Ratification is the confirmation or adoption of an unauthorized act after the fact. Ratification, as used in this subsection, means the act of approving an unauthorized commitment by an official who has the authority to do so. An unauthorized commitment, as used in this subsection, can be procedural or funding related, or a mix of both. Procedural errors occur when the person who approved the ACSA order was not in possession of the required authority to approve the ACSA order. Funding errors occur when the funds required to cover the ACSA order are insufficient.

9.8.2. FAR 1.602-3 provides a useful guide on how to carry out ratification properly and avoid an Anti-Deficiency Act (ADA) violation under 31 U.S.C. § 1341 and Volume 14. The official with authority to ratify an ACSA order must work with the official's corresponding legal office and Financial Manager(s) (to include those at Higher Headquarters) to determine if ratification is available and the best course of action. If ratification is deemed appropriate, the official authorized to ratify the ACSA order must use the process laid out by their component to answer the questions identified in this section and investigate to capture necessary documentation for adjudication/approval. ACSA Ratification or similar form with the same information should be used to document and capture the questions:

9.8.2.1. Determine Why. The obligating party must document the reasons why the ACSA order was signed and why such an obligation is inappropriate.

9.8.2.2. Determine U.S. benefit. Document the benefit(s) to the U.S. Government provided by ratification of the unauthorized commitments. Include the bona fide U.S. Government requirement necessitating ratification.

9.8.2.3. Remedial Corrective Actions. Describe all remedial corrective actions, disciplinary actions, or both that were taken; describe all action(s) taken to preclude recurrence.

9.8.2.4. Determine Measures for Non-recurrence. Identify the measures undertaken to ensure that the obligating party and the foreign partner will not enter such orders in the future.

9.8.2.5. Determine Funding Availability. Determine that (1) proper funding was available at the time the obligation was incurred and (2) proper funding remains available at the time of ratification.

9.8.2.6. Adjudication Approval Determination. Investigate and conduct resolution at the lowest level possible. If unable to resolve, elevate and work in conjunction with the Commander, Director, and Comptroller/Budget Officer in preparation for General Officer or Senior Executive Service assessment and requirement for Legal review. If unable to resolve, elevate to higher headquarters. For orders greater than $1 million, forward findings through command channels to Joint Staff (J4 and Comptroller) for adjudication and approval. If disapproved, reverse the ACSA order under the unauthorized transfer and return the LSSS to the

original owning party or begin ADA violation investigation and reporting as outlined in Volume 14.

9.9 Reports on ACSA Orders

This section prescribes the requirement for the quarterly report required by DoDD 2010.09. This report is designed to advise the Chairman of the Joint Chief of Staff (CJCS) on reimbursable orders related to the purchase or sale of mutual logistics support, supplies, and services with a foreign entity. The reporting requirements apply to the Office of the Secretary of War, MILDEPs, the CJCS, the CCMDs, and the Defense Agencies. Amounts reported as reimbursable orders must be supported by country-to-country or multinational agreements for mutual logistics support between the U.S. and the Governments of other NATO countries, NATO subsidiary bodies, UN Organization, any regional international organization of which the U.S. is a member, and other eligible foreign countries.

9.10 Report Format

The quarterly report must be prepared in the formats outlined in the Volume 11 Supplemental document. The CJCS may modify the report formats as the Chairman deems appropriate, if the revised formats meet the minimum information requirements.

9.11 Frequency and Distribution

The quarterly report must be submitted as follows:

9.11.1. No later than 15 days after the end of the preceding fiscal quarter, the commanders of the CCMDs must submit to the CJCS, a detailed report, by fiscal year, for each country-to-country or multinational order entered under the authority of 10 U.S.C. §§ 2341 - 2350, that was in effect during the prior quarter, itemized by reimbursable order.

9.11.2. The MILDEPs and Defense Agencies must assist, as necessary, the CCMDs in preparing the quarterly report.

9.12 ACSA Global Automated Tracking and Reporting System (AGATRS)

AGATRS is the DoW system of record for the Joint Staff, CCMDs, and Services to manage ACSA orders. AGATRS is an unclassified, web-based system that provides a worldwide automated means of building, tracking, and managing orders throughout their life cycle. AGATRS will be used to fully document all transfers of LSSS under ACSA authorities to meet the filing, tracking, and reporting requirements. Refer to current versions of the Chairman of the Joint Chiefs of Staff Instructions (CJCSI) 2120.01E and DoDD 2010.09 for additional information and instruction regarding AGATRS use and responsibilities.

9.13 Documentation Forms

Forms used to document the issue or receipt of supplies and services under the authority of 10 U.S.C. § 2342 are subject to a bilateral or multinational agreement. The DoW standard form

for ACSA order/receipt/invoice is the Form 1-3a producible via AGATRS. For orders with NATO, the form found in the E-Library on the NATO Website, NATO Standardization Agreement 2034, "NATO Standard Procedures for Mutual Logistics Assistance" is often used. Any form used must include the information requirements outlined in the Volume 11 Supplemental document.

9.14 Accounting for Funds and Reimbursements

Any organization receiving an authorization to incur obligations or receive reimbursements pursuant to authority in 10 U.S.C. § 2344 for an activity or unit for which it provides accounting and finance support, must capture or obtain data on the use of this authority and must provide for the appropriate targets or limitations within the affected allotments. Similarly, receipt of the earned reimbursement authority requires the establishment of a customer order subsystem to capture data on the use of such authority. Source documents pertaining to the authorized dollar amount and its use, such as obligations (DoW undelivered orders for materiel or services and accrued expenditures based on receipt of the materiel or services ordered), disbursements (liquidation of unpaid accrued expenditures), accounts payable (the unpaid portion of accrued expenditures), accounts receivable (earned reimbursements), and collections (receipt of payment to liquidate accounts receivable) must be recorded promptly in the financial records. Accounting for reimbursable orders under these authorizations must be maintained within the appropriate accounting records to assure crediting of remittances in accordance with this volume.

9.15 Exchange Orders and History Files

Control over exchange orders must be established and maintained through use of an exchange order history file. Input to the history file must be made by submission of each individual order form which must include the minimum information prescribed in the Supplemental document. AGATRS will be used to fulfill this purpose, ensuring compliance with DoDD 2010.09.

9.16 Pricing Reimbursable Orders

10 U.S.C. §§ 2341 - 2350 authorize two methods for pricing reimbursable orders. The method used is dependent upon the ability of the SecWar to negotiate for the adoption of specific pricing principles for reciprocal application. Additional pricing information is found in Volume 15.

9.17 Reciprocal Pricing Principles

When a reciprocal pricing agreement is negotiated between the U.S. and another authorized party, pricing by the supplying country must be in accordance with the following:

9.17.1. For new procurements, the price charged to a recipient country by the supplying country must be no less favorable than that charged the armed forces of the supplying country by its contractors. The price charged must allow for differentials due to delivery schedules, points of delivery, and other similar considerations.

9.17.2. For supplies from inventories of the supplying country, or for logistics support and government services, the supplying country must charge the recipient country the same prices as it charges its own armed forces for identical supplies or services. When the DoW is the supplier, the price charged must be identical to rates charged by the DoW Components for cross-service logistics support or services. The DoW price charged is the price for type of sale "To Another DoW Component" as indicated in this volume. Where a price for a particular product or service is not otherwise specified, agreement on a price should be reached prior to execution. Failing that, a "not to exceed amount," establishing the upper limits of the financial liability of the receiving party, must be established.

9.18 Nonreciprocal Pricing Principles

To the extent that a DoW Component cannot achieve mutual acceptance by another country of reciprocal pricing principles, or in the case of a NATO subsidiary body, the following procedures must apply:

9.18.1. U.S. commanders delegated authority to negotiate, approve, or execute orders pursuant to DoDD 2010.09 must determine that the price for acquiring supplies or services is fair and reasonable. This determination must be supported by a price analysis based on prior experience and supporting data, and consideration of all applicable circumstances. If this determination cannot be made, no purchases or sales must take place.

9.18.2. Any transfer of supplies or services by U.S. Forces must be subject to the pricing provisions of 10 U.S.C. § 2344.

9.19 Disposition of Proceeds

Any payment for materiel or services provided by U.S. Forces and initially recorded as a sale order, must be credited to the appropriation, fund or account used in incurring the obligation. If such fund is expired, credit the payment into an appropriate appropriation, fund, or account currently available for the purposes for which the expenditures were made (see 10 U.S.C. § 2346). Payment for an order initially recorded as an exchange of materiel or services but converted into a sale due to non-receipt of replacement materiel or services, must be credited to the appropriation or fund currently available for the same purposes for which the expenditures were made.

9.20 Debt Collection Actions

The DoW policy is to conduct timely and aggressive debt collection action, with follow-up efforts as necessary, to ensure debt owed to the DoW by a foreign entity is collected and held to an absolute minimum. All collection activity must comply with the provisions of the applicable agreement between the DoW and the foreign entity, CJCSI 2120.01E, and Volume 16, which also contains elevations procedures for foreign indebtedness.

10.0 SUPPORT OF INTERNATIONAL MILITARY ACTIVITIES

10.1 Guidance

This section assigns responsibilities and establishes guidance for the support of international organizations, and for providing reimbursable and non-reimbursable support.

10.2 Responsibilities

10.2.1. Under Secretary of War (Comptroller) (USW(C))

The USW(C) provides financial policy regarding support agreements and designates the administrative agent responsible for arranging support for U.S. military elements at an international military organization. Geographic proximity to existing support infrastructure and mission compatibility is the primary criteria used to assign administrative agent duties. Current designations are provided in Volume 11 Supplemental. The Military Services must request updates to this table as needed to reflect changes in available support infrastructure within a geographic area.

10.2.2. Secretaries of the Army and the Air Force

The Secretary of the Army must program and budget the annual U.S. contributions to the various NATO bodies in the Army Operations and Maintenance (O&M) appropriation. The Secretary of the Army must program and budget for the annual U.S. contributions to other recognized multinational headquarters, such as the NATO Force Structure and the NATO Response Force in which the U.S. participates. The Secretary of the Air Force must budget for the NATO Airborne Early Warning Program Management Agency (NAPMA).

10.2.3. Administrative Agent

The administrative agent must:

10.2.3.1. Budget for the U.S. contributions to designated non-NATO international military organizations. When the Army is not the administrative agent for a NATO body or other multinational headquarters, the designated agent provides the Army with program and budget information on the annual contribution for inclusion in the Army's O&M appropriation. Budgeting for the NAPMA constitutes an exception to this policy.

10.2.3.2. Coordinate with appropriate U.S. representatives at the international military organizations to ensure that effective procedures and controls are prescribed for budgeting, obligating, disbursing, and receiving credits incident to administering the U.S. contributions.

10.2.3.3. Program and allocate resources in a manner that will provide the international organization with the highest possible level of support consistent with financial constraints that may be imposed through the normal program and budget process.

10.2.3.4. Support U.S. military elements attached to the designated international military organization on a non-reimbursable basis unless the support is an international budget cost or is a budget responsibility of another Military Department. The standards and directives of the administrative agent govern the level and type of support furnished. The level and type of support is consistent with the highest possible level of support allowable under this section while not violating those same governing standards and directives. Support requirements based upon input provided by the U.S. military element is included in the administrative agent's annual budget. The administrative agent must obtain support from the most efficient and economical source, including local sources, while ensuring that no parallel support facility is established (see DoDI 4000.19).

10.2.3.5. Provide U.S. military elements, which are TO&E or equivalent units, with replacement consumable and non-consumable material, obtaining peculiar items when necessary, from supply systems of the parent Military Service on a reimbursable basis.

10.2.3.6. Provide U.S. military elements, which are TDA or equivalent units, both with initial and replacement consumable and nonconsumable material.

10.2.3.7. Establish a table of allowances, unit allowance lists, base allowance lists, and other authorization documents for U.S. military elements attached to the international military organization.

10.2.3.8. Budget for the cost of civilian employees of the U.S. Government assigned to positions in international military organizations. These employees retain their status as U.S. employees and are paid from U.S. funds at the appropriate U.S. scale of pay and allowances.

10.2.3.8.1. The pay and allowances are budgeted at the appropriate international pay scale by the international military organization to which they are assigned. A sum equal to the amount of such pay and allowances at the international pay scale must be collected from the international organization and reflected in the reimbursable portion of the DoW budget. The DoW direct budget must absorb any differences.

10.2.3.8.2. The U.S. civilians who occupy positions in international military organizations on a direct-hire basis (not as U.S. Government employees), as provided for by DoDI 5210.60, will be governed by the provisions of that firm offer of employment and other applicable U.S. Government regulations that deal with such employment. The international military organization concerned will remunerate those U.S. civilians at the applicable international pay scale; however, these U.S. civilians will not be entitled to the same pay and allowances or benefits as those of U.S. Government employees, except for Military Postal Access (MPS) access benefits as defined in this section.

10.2.3.8.3. The U.S. civilians who are employed by the North Atlantic Treaty Organization (NATO) on a direct-hire basis (not as U.S. Government employees) and perform functions in support of the U.S. Armed Forces have access to the U.S. Military Postal Service (MPS) at locations outside of the continental U.S.. This policy allows NATO direct hires MPS access. In accordance with 39 U.S.C. § 406, "Postal Services at Armed Forces Installations", funds must not be obligated or expended to establish, maintain, or expand a post office established for the purpose described in this volume. Refer to the Military Postal Procedural Manual for implementing guidance on Military Postal Service support for U.S. citizens employed by NATO.

10.2.4. Secretaries of the Military Departments

The Secretaries of the Military Departments with military personnel assigned to a U.S. military element must:

10.2.4.1. Budget and fund for personnel costs of military personnel of that component included in the U.S. military element.

10.2.4.2. Budget and fund for personally assigned equipment provided to military personnel of that component included in the U.S. military element.

10.2.4.3. Make initial issuance to TO&E or equivalent units of that component assigned or attached to U.S. military elements.

10.2.4.4. Budget and fund component peculiar requirements, such as flying qualifications, medical examinations, personnel training and development, and social actions, for military personnel of that component.

10.2.4.5. Support other requirements. Costs are chargeable to the administrative agent on an interservice (reimbursable) basis.

10.2.4.6. Provide appropriate support to foreign military elements or to international military organizations unless identified in this volume as items of non-reimbursable support.

10.2.5. Head of a U.S. Military Element

The Head of a U.S. military element must support the international military organization on a non-reimbursable basis, except for the costs of a military member who is assigned to an international civilian position, or when such support requires augmentation of the element's normal manpower, equipment, or other resources from other U.S. sources.

10.2.6. Head of a DoW Component

The Head of a DoW Component must support the international military organization and participating foreign countries on a reimbursable basis, in accordance with the AECA or the NMSA and ensure the use of appropriate internal controls and oversight measures

(e.g., support agreements manager assignments) and documentation of reimbursable support agreements to support financial audits, in accordance with DoDI 4000.19 and DoDD 5015.02.

10.2.7. Commander of a Unified Combatant Command

The Commander of a Unified Combatant Command must coordinate the activities of the administrative agents concerned in implementing this section within the command theater of operations.

10.2.8. Head of an International Military Organization

The Head of an International Military Organization must support U.S. military elements on a non-reimbursable basis for those support areas set forth in the scope of the budget for international military headquarters and agencies.

10.3 Reimbursements

10.3.1. Reimbursements due the U.S. from International Military Organizations for U.S. Personnel (Military or Civilian) occupying international civilian positions are a sum equal to the pay and allowances established for the occupied positions at the international scale must be credited to the U.S. as an offset to the U.S. contribution to the international organization.

10.3.1.1. The administrative agent must determine the amount of credit due and initiate a quarterly SF 1080, Voucher for Transfers between Appropriations and/or Funds, to transfer funds from the U.S. contribution to the international budget to the applicable financing DoW appropriation.

10.3.1.2. As an exception to this offset credit procedure, international military organizations located in the continental U.S. (CONUS), to which contributions are made in U.S. dollars, must make direct reimbursement of the international pay and allowance equivalent to the administrative agent for any U.S. personnel assigned to international civilian positions.

10.3.1.3. The administrative agent must screen the personnel administration and payroll computations for U.S. employees, as performed by the international organization, to ensure the accuracy and sufficiency of data and credits granted.

10.3.2. Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to the AECA.

When DoW services are performed, articles delivered from inventory or new procurement initiated under the authority of the AECA, the pricing and billing must be in accordance with Volume 15.

10.3.3. Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Pursuant to NMSA.

When DoW services are performed or articles delivered from inventory under the authority of the NMSA, pricing must be in accordance with this volume and billing must comply with the international agreement negotiated in accordance with DoDD 2010.09.

10.3.4. Reimbursements Due the U.S. from International Military Organizations for Reimbursable Support Provided Under Authorities Other than the AECA, NMSA, or this Regulation.

10.3.4.1. Leases of real and personal property are authorized by 10 U.S.C. § 2667 and must be priced in accordance with Volume 2 and Volume 12. Property with a life expectancy of less than 3 years or a value of less than $1,000 and provided under the authority of the AECA or NMSA must be provided on a sales basis. If DoW services or materiel are provided under authorities other than the AECA, NMSA, or this Regulation, the DoW Component providing that support must obtain a legal opinion supporting the use of such other legal authority before providing the service or materiel. The legal opinion must be retained for audit verification.

10.3.4.2. The designated official of the DoW Component furnishing the support must (a)originate promptly and in detail an SF 1080 to bill the administrative agent or the designated coordinating agent, (b) prepare the invoice for reimbursable support based on constructive delivery (c) distribute the SFs 1080 by submitting two copies of the SF 1080, with supporting details, to the international military organization receiving the services or material for verification of the charge and forwarding the original (disbursement SFs 1080) and the collection copy (SF 1080), without supporting detail, to the administrative agent or the designated coordinating agent. The designated office must also retain additional copies, with supporting details as may be required by the billing office, pending receipt of executed vouchers.

10.3.4.3. The administrative agent or the designated coordinating agent must (1) request that the comptroller of the NATO command or the appropriate international organization concerned provide a monthly listing of charges that have been accepted, and (2) ensure that such charges are reflected as offset credits to the U.S. in the contributions to the international budgets.

10.3.4.4. The coordinating agent must match the monthly listing of accepted charges with outstanding SFs 1080 and process the SFs 1080 for accepted charges as payments to the billing office. Upon receipt of the validated SFs 1080, the billing office must process the collection.

10.3.4.5. The designated coordinating agent must verify that the offset credits are applied to the U.S. contributions to the international organization through a reconciliation of individual SF 1080 billings to the monthly list of accepted charges.

10.3.4.6. When materiel or services are furnished to international military organizations that are located within the CONUS and contributions are made in U.S. dollars, the U.S. military activity providing the support is responsible for billing the international military organization directly and obtaining reimbursement in U.S. dollars.

10.4 Scope of Budget for International Military Headquarters and Agencies

The international budget includes the types of costs, except as limited by exclusions in the following paragraphs, in such order and form as may be determined by the appropriate financial reviewing authorities. The following paragraphs are illustrative of the types of costs accepted by the NATO Military Budget Committee as an international charge. The comptroller of the international military organization concerned, and the U.S. representative must be consulted if there is doubt whether the cost of any article or service is properly an international charge.

10.5 Civilian Personnel, Administrative Staff

Pay and authorized allowances of personnel employed by an international headquarters for the performance of international functions, including secretarial, clerical, or technical assistance for U.S. military and civilian personnel.

10.6 Civilian Personnel, Operational Staff

Pay and authorized allowance of personnel locally hired for custodial, industrial, or operational purposes. This includes upkeep of the premises and fixed or movable equipment used by the headquarters or its support units or fixed installations; supervision or operation of headquarters fixed and movable equipment other than office equipment; and operation of headquarters enlisted mess facilities.

10.7 Rents and Maintenance

Rental of office space, barracks, warehouses, and other commercial-type buildings, including taxes; cost of utilities, liquid and solid fuels, sewage and garbage disposal service; supplies and material for janitorial and hygienic services (national support unit barracks excluded); and supplies, material, and contractual expenses for maintenance, repair, and minor alterations to buildings and facilities, including replacement of minor installations and fixed equipment when damaged or worn beyond repair.

10.8 Operation of General Services

Stationary and general office supplies for the headquarters and all units assigned in direct support; rental of office equipment required to supplement available equipment in accordance with internationally approved standards; printing, binding, and reproduction; purchase of maps, charts, and terrain models for peace time use; newspapers, periodicals, and library supplies; photo supplies and photographic processing; and drugs and other expendable medical supplies for first aid stations.

10.9 Communications

Procurement and installation of switchboards, radio transmitters and receivers, telephone exchanges, and mobile communications equipment including related signal vehicles; rental of commercial type equipment for additional requirements; repair and maintenance of

communications equipment, including supplies and spare parts; cost of commercial communications, including installation and reinstallation charges for leased or other use of local, national, and international telephone, telegraph, and teletype circuits; and postage and postal fees.

10.10 Transportation

Rental or purchase of passenger and cargo vehicles; petroleum, oil, and lubricant products for such vehicles and other equipment used in direct support of international headquarters; supplies and spares required for organizational maintenance of vehicles and related equipment; commercial freight, local hauling, and express charges for internationally procured supply and equipment items, including shipping charges for contribution-in-kind from member nations to place of receipt.

10.11 Travel of International Staff

10.11.1. Civilian Personnel. Transportation and per diem costs of temporary duty travel on official business.

10.11.2. U.S. Military Personnel. When traveling on official business under travel orders issued by an authorized international headquarters that directs payments charged to international funds, the costs of such travel are payable as follows:

10.11.2.1. From International Funds. Cost of transportation furnished by Military Airlift Command and/or a common carrier, to include taxi fares and privately owned conveyances under previously approved conditions.

10.11.2.2. From U.S. Appropriated Funds. Per diem and other expenses authorized by U.S. travel regulations, and the costs for personnel who are members of an international military headquarters that does not maintain a centralized international budget for such purposes.

10.12 Exercises and Maneuvers

When directly related to an allied command training exercise, the cost of commercial communication services and facilities provided solely to fill a requirement of the exercise on behalf of the participating nations; civilian labor hired in connection with the exercise by the interallied headquarters and not specifically for any one nation; temporary installations for interallied field headquarters not available from organic equipment of participating troops or the headquarters and not properly chargeable to the host nation; rental of additional commercial transportation required at interallied headquarters for the exercise; utility costs for interallied headquarters if at a place other than an existing military post; and reproduction of photographs and film strips, required by the directing staff for subsequent international training or critique purposes, when the source of production is other than a military unit.

10.13 Representational and Hospitality

Representational and hospitality expenses of the Supreme Commanders for international purposes.

10.14 Contingencies

Claims for losses by fire, theft, and other damages; and costs to employ legal representation in civil court actions.

10.15 Construction

Design and new construction of buildings and facilities, including housing, structures, utilities, modification; and alteration of existing buildings and facilities, including fixed equipment, sewage, gas, water, and electrical supply systems, roads, and approaches.

10.16 Furniture and Equipment

Office furniture and equipment procured within internationally approved standards for the direct support of international headquarters and agency activities; equipment for maintenance of kitchens, shops, heating electrical plants; and furniture used in barracks, messes, recreation rooms, and dining rooms and clubs.

11.0 SALE OF SPECIAL OR TECHNICAL SERVICES TO STATE AND LOCAL GOVERNMENTS

11.1 General Guidance

The purpose of this section is to provide the policy for the sale of special or technical services to both state and local governments and provide guidance on amounts that must be recouped when the DoW Components perform these services. This guidance supplements the standards for financial accounting for receivables, and budgetary accounting for reimbursements, discussed in Volume 3 and Volume 4.

11.2 Policy Requirements

It is the policy of the Department to cooperate to the maximum extent possible with state and local governments to provide specialized or technical services. Such services generally must supplement and not supplant any services provided under other authority.

11.2.1. Types of Services

Components specialized or technical services are as follows:

11.2.1.1. Any existing statistical or other studies and compilations, development projects, results of technical tests and evaluations, technical information, surveys, reports, documents, and any such materials developed or prepared in the future to meet the needs of the federal government or to carry out normal responsibilities.

11.2.1.2. Preparation of statistical or other studies and compilations, development projects, technical tests and evaluations, technical information, surveys, reports, documents, and assistance in the conduct of such activities, and in the preparation of such materials authorized by law to conduct or prepare (1) training of the type authorized by law to conduct for DoW personnel, (2) technical aid in the preparation of proposals for development and other projects, which provide grants-in-aid or other assistance, provided such aid primarily develops recipients' capability to prepare their own proposals or (3) technical information, data processing, communications and personnel management systems services, and technical advice on improving logistical and management services normally provided within the Department under existing authorities.

11.2.1.3. Any of the specialized or technical services provided by a Component to states and their political subdivisions under other authorities also may be provided under the authority of OMB Circular No. A-97.

11.2.1.4. If a Component receives a request for specialized or technical services consistent with the OMB Circular No. A-97, and which the Component has special competence to provide, the Component must forward the request to the Assistant Secretary of War (Sustainment) (ASW(S)) for submission to OMB for review. If the validity of a service request is in doubt, the Component should forward the request to the ASW(S) for review.

11.3 Conditions Under Which Services May Be Provided

Provide specialized or technical services, covered under OMB Circular No. A-97 at the discretion of the Component head, only under the following conditions:

11.3.1. Provide such services only to states, their political subdivisions, and combinations or associations of such governments, their agencies, and instrumentalities.

11.3.2. Provide such services only upon the written request of a state or its political subdivision. Requests normally must be made by the chief executive of such entities and must be addressed to the head of the Component involved.

11.3.3. Such services may not be provided unless the servicing Component maintains similar services for its own use under the policies and procedures set forth in OMB Circular No. A-76, "Performance of Commercial Activities", and subsequent changes thereto. In addition, in accordance with the policies set forth in OMB Circular No. A-76, the requesting entity must certify that procurement of such services cannot be reasonably and quickly made through ordinary business channels.

11.3.4. Such services may not be offered if they require any staff additions or involve expenditures for additional equipment or other facilities solely for the purpose of providing such services, except when the costs of such services are charged to the user.

11.3.5. Provide such services only upon payment or arrangement for reimbursement to the Component involved by the unit of government making the request. This includes salaries and all other identifiable direct and indirect costs of performing such services.

11.3.6. Do not disseminate technical service information to third party governmental entities or associations, unless expressly authorized by the originating Component.

11.3.7. When a Component denies a service request it must provide a statement to the entity making the request indicating the reasons.

11.4 Reporting Requirements

The head of each federal agency will furnish annually to the respective Committees of the Senate and the House of Representatives a summary report on the scope of the services provided under OMB Circular No. A-97. These reports will be prepared as of the end of each calendar year and will indicate the nature of the services rendered, the names of the States and political subdivisions involved, and the cost of the work. Do not include services provided under other authorities in the reports.

12.0 MAJOR RANGE AND TEST FACILITY BASE

12.1 General

The Major Range and Test Facility Base (MRTFB) is a national asset that is sized, operated, and maintained primarily for DoW acquisition programs to provide the necessary instrumentation, infrastructure, and workforce to support developmental and operational test and evaluation, but also available to non-DoW users having a valid requirement for its capabilities.

12.1.1. The MRTFB is operated and maintained primarily for DoW test and evaluation support missions under the oversight of the Director, Test Resource Management Center (TRMC). The MRTFB provides test and evaluation support to the DoW Components responsible for developing, testing, or operating weapons systems. It serves Federal, state, local, and allied foreign governments as well as commercial users when a valid requirement for range, lab, or installed system test facility capabilities exists.

12.1.2. MRTFB missions vary from testing missiles, aircraft, and integrated space capabilities to ensuring that electrical components can survive in various environments. The MRTFB is designed to assure the most cost-effective development and testing of materiel, and warfighting capabilities and provide for inter-service compatibility, efficiency, and equity without influencing technical testing decisions or inhibiting legitimate and valid testing.

12.2 Responsibilities

DoDD 3200.11 and DoDI 3200.18 established the following financial management responsibilities of MRTFB operations.

12.2.1. Under Secretary of War Research and Engineering (USW (R&E)) specifically, the Director, TRMC will review and provide oversight of proposed DoW budgets and expenditures for the MRTFB; and coordinate MRTFB decisions affecting financial policy and matters containing a monetary value (financial and non-financial) with the USW(C).

12.2.2. Chief Information Officer (CIO) of the DoW and the Secretaries of the Military Departments:

12.2.2.1. Plans, programs, and budgets for institutional costs of operation, maintenance, and sustainability of the MRTFB; and for capability improvements, modernization, and recapitalization; and

12.2.2.2. Implements a reimbursement system to define and collect user charges in accordance with this volume.

12.2.3 MRTFB Users

12.2.3.1. Plan, budget, and fund the MRTFB activities for applicable direct and/or indirect costs; and

12.2.3.2. Promptly fund(s) the activity managing the MRTFB facilities or ranges for expenditures of any consumable items, any damage to property or equipment caused by the user in the preparation for, or conduct of, any activity on the facility or range or for direct costs incurred or executed for aborted and/or canceled tests.

12.3 General Policy

The MRTFB is managed and operated under uniform financial guidelines across the DoW Components. Accordingly, all direct and indirect costs charged to MRTFB users must be uniform and applied consistently among all the MRTFB activities. DoW Components must work with the Director, TRMC, to ensure financial uniformity and consistency. MRTFB activities' costs are billed to (1) MRTFB users, (2) direct appropriations of the managing activity, or (3) other sources as directed by DoW.

12.4 MRTFB Costs

DoW Components (including DoW training) and Non-DoW Components use an MRTFB Activity. The MRTFB charges DoW Component users only direct costs. The MRTFB charges Non-DoW Component user direct costs plus an appropriate level of indirect costs. Non-DoW users must not increase the institutions' costs to the DoW to operate the MRTFB.

12.4 Accounting

12.4.1. Cost information sets fees and reimbursements. Each MRTFB activity must accumulate, and report as required, the costs of its activities for management and audit purposes. In accordance with the SFFAS 4, "Managerial Cost Accounting Standards & Concepts", costs must be accumulated by using cost accounting systems. Such systems must accurately capture full costs (i.e., direct costs or costs directly attributed to a specific user; and indirect costs or costs that cannot be directly attributed to a specific user) and determine user charges or standard rates.

12.4.2. Additionally, appropriate separation of duties and levels of authorization must be implemented into the cost-tracking process to protect vulnerable areas such as controls over automatic user billing and rate validation. All rates must be applicable to the specific product or service provided. Each MRTFB activity must validate standard rates at least annually and adjust them accordingly to reflect unanticipated changes in costs or market values.

12.4.3. In accordance with DoDD 3200.11, MRTFB activities are categorized as Army, Navy, Air Force, Space Force, or DoW CIO. Specifically, multiple assets comprise MRTFB activities, each of which is reported individually on its respective consolidated Balance Sheet under General Property, Plant, and Equipment and further disclosed in Note 10 to the financial statements.

12.5 Reimbursements for MRTFB Activity Usage

12.5.1. In accordance with DoDI 4000.19, MRTFB activities and DoW or Non-DoW, Federal Component users must use support agreements (MOA or MOU) to document and establish the GT&C between buyers and sellers for all inter- and intra-governmental reimbursable transactions. Additionally, in accordance with Volume 1, buyers and sellers must adhere to and properly annotate the SLOA when generating or accepting a reimbursable order (i.e., Military Interdepartmental Purchase Request). Moreover, reimbursement of direct costs incurred for prepositioning test instrumentation or assets for executed, aborted or canceled tests or for damages to property or equipment caused by a user in the preparation for, or conduct of, any activity on the facility or range; and consumables expended for an executed, aborted or canceled test must be pursued to the extent permitted by law and DoW policy.

12.5.2. For support agreements established during and or after FY 2017 and whose terms extend beyond FY 2017, MRTFB activities and DoW or Non-DoW Federal Component users must upload and store their agreements on the Department of the Treasury's G-Invoicing platform.

12.5.3. Working Capital Fund Activities. MRTFB activities using WCFs, fund operations through reimbursable inter-governmental orders and user fees collected from non-Federal users. Under the stabilized price standardized cost recovery method, Component managers of WCF activities must set rates/prices based on full cost recovery and must charge users in accordance with established pricing policies contained in Volume 2 and within the Working Capital section of this volume.

12.5.4. Non-Working Capital Fund Activities. MRTFB activities not using WCFs fund operations through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users.

12.5.4.1. DoW Component Users reimburse MRTFB activities for direct costs identifiable with a particular program or user order. MRTFB bills direct costs in accordance with this volume attributable to a job or function supporting a user order. One or more DoW users of an MRTFB activity, by mutual agreement, may fund investments in new or existing test and evaluation facilities. This agreement, however, must explicitly delineate responsibilities for asset ownership/capitalization, funding, staffing, operating, and maintaining the facility, and must be approved by all parties prior to obligating any funds for the project.

12.5.4.1.1. Investments made that change the composition of the MRTFB must conform to DoDI 3200.18.

12.5.4.1.2. Direct incremental costs (i.e., costs resulting from an increase in production) must be charged to DoW Component users.

12.5.4.1.3. Indirect Costs. MRTFB activity's must not charge DoW Component users for indirect costs. Overhead costs must remain fully borne by and paid for by the institutionally funded program element accounts comprising the MRTFB's budgetary structure. Indirect incremental costs are not charged to DoW Components.

12.5.4.1.4. Military Personnel Costs. As a rule, the applicable military personnel appropriations must fund the cost of direct (and indirect) military labor incurred in the performance of a service for, or the furnishing of materials to, another DoW Component user. Therefore, since a direct appropriation funds military labor, do not charge the cost of military labor for non-WCF activity. WCF activities must be reimbursed by their users for the cost of military labor as prescribed in this volume.

12.5.4.2. Non-DoW Component Users

12.5.4.2.1. Direct Costs. Charge non-DoW Component users for MRTFB direct costs readily identifiable with a particular program or user order. Charge military labor incurred by non-Working Capital Fund activities to non-DoW Component users based on the actual hours worked or assigned. Price military personnel costs at the composite standard military pay rates in accordance with this volume.

12.5.4.2.2. Indirect Costs. Non-DoW Component users are to be charged and must reimburse MRTFB activities for indirect incremental costs unless such support is required by statute or (1) is authorized by DoW Joint Ethics Regulation or DoW Public Affairs guidance; or (2) is provided after approval of an exception, in writing.

12.5.4.2.3. Requests for exceptions may only be approved by the SecWar, the Deputy SecWar, the Chief Management Officer (if authorized by existing policy), the

Secretaries of the Military Departments (if authorized by existing DoW policy), and the USW (if authorized by existing DoW policy).

12.5.5. Foreign Military Sales. Foreign Military Sales (FMS) users must reimburse MRTFB activities in accordance with Volume 15. Foreign user countries or foreign commercial entities must purchase services from MRTFB activities through FMS procedures authorized under the Arms Export Control Act.

12.5.6. Government-Furnished Services. When an MRTFB activity is included in a contractual agreement as government-furnished services, the user must be charged based on the category of the contracting government agency in this volume.

12.6 Disposition of Collections

12.6.1. Working Capital Fund Activities. WCF MRTFB activities are funded through inter-governmental orders and user fees collected from non-Federal users. 10 U.S.C. § 2208(h) provides general authority for retention and use of amounts collected under both inter-governmental orders and user fees. Reimbursable inter-governmental orders are valid budgetary resources available to an MRTFB activity for obligation; however, an MFTRB activity financed using WCFs must recognize user fees as a budgetary resource when collected from a non-Federal user.

12.6.2. Non-Working Capital Fund Activities. For an MRTFB activity not financed using WCFs, its operations are financed through direct appropriations, reimbursable inter-governmental orders, and/or user fees collected from non-Federal users. Inter-governmental orders under reimbursable statutory authorities such as the Economy Act increase available budgetary resources financing the MRTFB. If a statutory miscellaneous receipts exception is applicable to a reimbursable transaction with a non-Federal user, user charges collected may be credited to the applicable direct appropriation reimbursable program. 10 U.S.C. § 4175(d) authorizes certain transactions with commercial entities conducting MRTFB test and evaluation activities.

13.0 DOW SUPPORT TO UNITED STATES COMMERCIAL SPACE ACTIVITIES

13.1 General Policy

This section provides reimbursable policy for the provision of DoW support to U.S. commercial space activities. This section also applies to all DoW Components that provide support to the U.S. commercial sector in the development of U.S. commercial space launch operations and other related U.S. commercial space activities.

13.2 Pricing of DoW Space Launch Property and Services

13.2.1. Property Sale or Transfer

13.2.1.1. DoW space launch property that is excess or otherwise not needed for public use may be sold or transferred in lieu of sale to U.S. commercial sector launch vehicle

operators performing commercial space activities (e.g., payload retrieval services, payload processing services). The transaction must be priced to recover direct costs, as defined in this volume.

13.2.1.2. Lease/License. DoW space launch property that is excess or otherwise not needed for public use may be leased/licensed, on a non-interference basis, to U.S. commercial sector launch vehicle operators performing commercial space activities. The transaction must be priced to recover direct costs in this volume.

13.2.2. DoW Space Launch Services

13.2.2.1. The acquisition price represents an amount equal to the direct costs defined in this volume.

13.2.2.2. For commercial space launch services, customers will be charged direct costs and may be charged indirect costs.

13.3 Fixed Price Estimates

Commercial space launch operators may be offered fixed price quotes for the sale of DoW launch services based on reasonable estimates of direct costs only when there is a well-defined contractor requirement and a reliable cost history of similar previous sales. Indirect costs may also be included.

13.4 Billing

Invoices for support provided by DoW must be completed and transmitted to the U.S. commercial space activity within 30 calendar days after the month in which the performance occurred. The payment due date must be no more than 30 days from the date of the invoice.

13.5 Disposition of Collections

13.5.1. Proceeds from the Sale of DoW Launch Property

For non-DWCF activities, credit proceeds to the general fund of the U.S. Treasury as miscellaneous receipts when not replacing the launch property. If replacing the launch property, deposit proceeds to the DoW appropriation account or fund currently available for its procurement.

13.5.2. Proceeds Deposits for License of Launch Property and Leases

Deposit proceeds from the license of launch property into the DoW appropriation account or fund currently available to finance the direct costs incurred. Credit proceeds from leases to the general fund of the U.S. Treasury as miscellaneous receipts.

13.5.3. Proceeds Deposits from the Sale of Launch Services

Deposit proceeds from the sale of DoW launch services into the DoW appropriation account or fund that financed the provisioning of those launch services. Credit these proceeds to the fiscal year in which the DoW Component provided the services

14.0 DISPOSITION OF PROCEEDS OR FEES FOR SERVICES PROVIDED BY OR THROUGH THE USE OF A DOW LABORATORY, CENTER, RANGE, OR OTHER TESTING FACILITY

14.1 General Policy

The DoW promotes research and development within the commercial sector of the U.S. economy by transferring technology and information from the Department to the commercial sector. This policy strengthens both national and economic security by establishing a national technology and industrial base to sustain military superiority and increase U.S. production capabilities. The transfer of technology and information from the Department to the commercial sector enables critical research and leads to the development of both useful military and/or commercial technology.

14.2 Conditions Governing Selling, Renting, and Lending

Authorization to Sell, Rent, Lend, Give, or Charge an Appropriate Fee. 10 U.S.C. § 4892 authorizes the SecWar or the Secretaries of the Military Departments concerned, in the interest of national defense, to:

14.2.1. Sell, rent, lend, or give samples, drawings, and manufacturing or other information (subject to the rights of third parties) to any person or entity.

14.2.2. Sell, rent, or lend Department equipment or materials to any person or entity for use in IR&D programs subject to the condition that the equipment or material be used exclusively for such research and development, or use in demonstrations to a friendly foreign government.

14.2.3. Make available to any person or entity, at an appropriate fee, the services of any Department laboratory, center, range, or other testing facility for the testing of materials, equipment, models, computer software, and other items; and

14.2.4. Make available to any person or entity, through leases, contracts, or other appropriate arrangements, the facilities, services, and equipment of any Department laboratory, research center, or range, if the facilities, services, and equipment provided will not be in direct competition with the domestic private sector.

14.3 Fee Determination Policies

In selling or leasing property or providing services or in making facilities, equipment, and other items, the DoW should charge appropriate fees in a manner consistent with 10 U.S.C. § 4123, 31 U.S.C. § 9701, and OMB Circular No. A-25.

14.4 Fees for Defense Laboratories Research and Development

14.4.1. 10 U.S.C. § 4123 authorizes a director of a defense laboratory to charge customer activities a fixed percentage fee (not to exceed four percent of costs), above normal costs of performance, to obtain funds to carry out four authorized activities. The defense laboratory director must first consult with the science and technology executive of the military department concerned.

14.4.2. Activities eligible for funding are:

14.4.2.1. Innovative basic and applied research that is conducted at the defense laboratory and supports military missions.

14.4.2.2. Development programs that support the transition of technologies developed by the defense laboratory into operational use.

14.4.2.3. Development activities that improve the capacity of the defense laboratory to recruit and retain personnel with necessary scientific and engineering expertise that support military missions; and

14.4.2.4. Repair or minor military construction of the laboratory infrastructure and equipment, only if the SecWar notifies the congressional defense committees of the total cost of the project before the start date; and ensures the project complies with the applicable cost limitations in 10 U.S.C. §§ 2805(d) and 2811.

14.5 General Policy on Proceeds or Fees

14.5.1. 31 U.S.C. § 9701 gives DoW the authority to charge fees to be self- sustaining as much as possible for services, sales, and rentals provided to a person (except a person on official business of the Department). The word person includes groups, associations, organizations, partnerships, corporations, and other businesses. Accordingly, the SecWar is authorized to prescribe regulations establishing the charge for a service or thing of value provided by the Department.

14.5.2. The sales price, rental and service fees must be calculated in accordance with guidance outlined in this section. 10 U.S.C. § 4892 prohibits these fees from exceeding the full amount of all direct and indirect costs incurred by the Department. DoW WCF activities must establish stabilized rates and unit prices for goods and services.

14.5.3. Internal controls must be established in accordance with 31 U.S.C. § 3512, OMB Circular No. A- 123, GAO-14-704G and DoDI 5010.40. Managers of DoW Components must be able to identify, measure, and assess risks related to mission delivery in establishing, collecting and reporting sales price and fees. The determination as to the effectiveness of internal controls must be justified, documented, and be able to stand up to audit scrutiny in accordance with the DoW Financial Statement Audit Requirements and Overview Guide as amended (DoW Common Access Card enabled access only).

14.5.4. OMB Circular A-25 requires DoW to initiate and adopt user charge schedules. In addition, these schedules must be reviewed biennially to ensure the charges are properly applied and adequately adjusted for changes in costs or market values. Furthermore, the biennial review of user fees must be published and discussed in the annual DoW AFR. The CFO Act of 1990 requires the publication of the DoW annual AFR.

14.5.5. When a Department laboratory, center, range, or testing facility decides to sell, rent, lend or give samples, drawings, information, or equipment or charge a fee for services subject to DoDI 5535.11, then the financial management policy regarding calculation, collection, and disposition of proceeds or fees must be followed.

14.6 Calculation of Sales Price

14.6.1. In general, the sales price of samples, drawings, information, equipment, or materials will be calculated or determined prior to or at the time of the sale. When calculating or determining the sales price of such assets, consideration must be given to (1) fair value; (2) historical cost less depreciation book value; (3) replacement cost; (4) net realizable value; (5) discounted (Cash) price used when selling an asset to a state or local agency; (6) without charge when reutilizing an asset within DoW, transferring an asset to another Federal agency, or donating an asset to a state or local agency); and (7) the specific mission, goals, and/or objectives of the research and development project associated with a particular asset's sale.

14.6.2. Additional guidance on the sale (and disposal) of DoW property can be found on the website for DLA Disposition Services. Moreover, specific guidance regarding property disposal can be found in DoDM 4160.21-V1 and DLAI 4160.01.

14.7 Calculation of Fees

14.7.1. When DoW services, facilities, or equipment are made available, an appropriate user fee must be imposed by the DoW Component providing the service, facility, or equipment to recoup the total cost incurred.

14.7.1.1. In accordance with 10 U.S.C. § 4892, user fees may not exceed the amount necessary to recoup the direct and indirect costs incurred (i.e., total or full costs) by providing the service, facility, or equipment. However, DoDI 5535.11 allows for the elimination of indirect costs when approved by the director or commander, prior to providing the service or use of facilities and equipment.

14.7.1.2. Costs may include capital improvement costs, utility costs, depreciation, contractor support, salaries of personnel, and all other ancillary support costs. Refer to DoDI 5535.11.

14.7.1.3. Specific policy pertaining to the calculation (i.e., identification of specific costs) and reporting of fees for the provision of services, equipment, and facilities under the authority of OMB Circular A-25.

14.7.2. When approved by the laboratory directors, facility directors, and/or commanders, prior to providing the service or use of facilities and/or equipment, all or a portion of the indirect costs may be eliminated from the fee. Fees charged for services at less than total costs are permitted only when there is a compelling reason, or it is determined that it is to be in the best interest of national defense.

14.7.2.1. Special consideration as to recovery of less than full costs may be given when(1) the recipient of the benefit is engaged in a nonprofit activity designed for public safety, health, or welfare; (2) Payments of full fees by a state, local government, or nonprofit activity would not be in the Department's best interest; or(3) the laboratory directors, facility directors, and/or commanders have determined the administrative costs of determining and collecting the full fees would outweigh the benefits to the Component.

14.7.2.2. When less than full cost is charged, laboratory directors, facility directors, and commanders must maintain adequate documentation justifying or supporting each decision. Such documentation must address the criteria outlined in this volume and be available for audits or inspections and for review by higher authorities.

14.7.3. DoW WCF laboratories and facilities must use standard (stabilized) rates to establish fees in accordance with Volume 11, and DoW Components designated as MRTFBs must determine costs and fees.

14.8 Collection of Proceeds or Fees

14.8.1. DoW Components should make every effort to collect proceeds or fees electronically, (e.g., electronic funds transfer), and utilize, as applicable, the collection services provided by the Treasury's Bureau of the Fiscal Service (Fiscal Service) as outlined in the TFM and further described in Volume 5. Moreover, support agreements with DoW Components or other Federal Government agencies, contract agreements with private parties or entities that are established in conjunction with sales, rentals, or lending of property and fees received for services should include requirements to use, as applicable, the collection services provided by the Fiscal Service.

14.8.2. In accordance with OMB Circular A-25, user fees must be collected in advance of, or simultaneously with, the rendering of services unless appropriations and authority are provided to allow for reimbursable services.

14.8.3. All fees for services that incur variable costs over time, such as personnel or utility costs, may be collected incrementally over time.

14.9 Disposition of Proceeds or Fees Received

14.9.1. A DoW official or agent must safely keep public money in his/her custody or possession in accordance with 31 U.S.C. § 3302. The code prohibits lending, using public money, depositing the money in a bank, or exchanging it for other amounts. The code requires depositing the money in the Treasury not later than 3 days upon receipt. The Secretary of the Treasury may prescribe another timeframe requirement. The SecWar may allow an official or agent to incur expenses to collect, keep, transfer, and pay out public money.

14.9.2. Proceeds received from sales or rentals provided must be credited to the General Fund of the Treasury as miscellaneous receipts as required by 31 U.S.C. § 3302 and DoDI 5535.11.

14.9.3. Under authority of 10 U.S.C. § 4892, fees collected for services or when making facilities, equipment, and other items may be credited to the appropriations or other funds of the Component making such services, facilities, and equipment available.

14.10 Warranties and Liabilities

All transfers of property or services of whatever nature made pursuant to this policy must be without any express or implied warranty. This means the recipient of the property or services must agree in writing to hold harmless and indemnify the Department from any liability or claim for damages or injury to any person or property arising out of the property or services provided.

14.11 Liability for Loss of or Damage to Property of the Department

The written support agreement or contract with an individual, company, corporation, or organization must include a clause stating the Department will be reimbursed for any losses or damages arising out of or in conjunction with the use of DoW property. Refer to Volume 12, for guidance on how to assess financial liability.

15.0 TRAINING OF SPECIAL OPERATIONS FORCES WITH FRIENDLY FOREIGN FORCES

15.1 General Policy

This section provides accounting and reporting procedures to implement provisions of 10 U.S.C. § 322 that are related to the training of special operations forces with friendly foreign forces.

15.2 Payment of Training Expenses

15.2.1. Expenses of overseas training of U.S. special operations forces, to include civil affairs forces and psychological operations forces, assigned to the combatant commander in conjunction with training, and training with, armed forces and other security forces of a friendly foreign country.

15.2.2. Expenses of deploying such special operations forces, including civil affairs forces and psychological operations forces, for that training.

15.2.3. Incremental expenses incurred, in the case of training in conjunction with a friendly developing country, by that country as the direct result of such training. The term, "incremental expenses," with respect to a developing country, means the reasonable and proper costs of rations, fuel, training ammunition, transportation (except to and from the continental U.S. or from one country to another country), and other goods and services consumed by such country, except that the term does not include pay, allowances, and other normal costs of such country's personnel.

15.2.4. Purpose of Training

The primary purpose of the overseas training activities must be the training of special operations forces of the combatant commands. Training of foreign forces may not be the primary purpose.

15.3 Accounting Policy

Departmental funds expended to facilitate the participation of friendly foreign forces training with U.S. special operations forces must be incurred and reported under the following guidelines:

15.3.1. Funding for training of U.S. personnel may include amounts for training expenses authorized in 10 U.S.C. § 322. The funding source for these proposed payments must be funds made available to the applicable DoW Component for these purposes.

15.3.2. Prior to the commencement of the training, agreement on implementing arrangements should be reached in terms of the types and scope of non-financial support and financial contributions provided by the U.S. to a foreign country or by a foreign country to the U.S. To protect the interests of the U.S., the essential terms of the arrangement should normally be documented in writing and a copy of the document provided to the foreign country. In addition, the arrangement should request that each participating country identify both physical and financial contributions to the training effort and the amount of expenses paid related thereto. Formal foreign agreements, under the provisions of DoDI 5530.03, "International Agreements," are not required with respect to these implementing arrangements.

15.3.3. If the participating country is unable to identify its expenses in time to meet reporting requirements, then knowledgeable U.S. personnel will estimate that participant's contributions, and the value of expenses paid in U.S. dollar equivalents at the exchange rate in effect at the time of the

training. Estimates of a participating country's contributions may be calculated using relative factors of comparable costs for similar U.S. training activities.

15.3.4. Arrangements with a friendly developing country may provide for financial or in-kind payment to the developing country by the U.S. for incremental expenses incurred by that country as a direct result of such training. "Incremental expenses" are defined in the FMR glossary.

15.3.5. Arrangements with a friendly country also may provide for payment to that country by the U.S. for the costs of support provided to U.S. personnel by the host country. Expenses that may be paid under the terms of an arrangement with a friendly country for the support provided to U.S. personnel by that country are limited to those types of expenses included in the definition of incremental expenses.

15.3.6. For expenses that are paid to a friendly country, either incremental costs incurred by a developing country or support provided by a host country to U.S. personnel, the arrangement must stipulate that the host country provides, in advance of payment, appropriate documentation to support the payment. This documentation must include dates, quantities, units, and costs so that the senior U.S. official can determine the reasonableness and propriety of such costs, in U.S. dollar equivalents at current exchange rates, for the various types of authorized expenses incurred.

15.3.7. The annual report requires a determination of both financial and non-financial contributions to the training effort and the amount of related expenses paid by the participants in such training. Financial and non-financial contributions include all costs that are incurred because of the training. The accounting records from which the contributions are reported must include the separate identification of all the costs incurred, such as: (a) rations, fuel, and training ammunition, (b) personnel (including lodging and per diem costs) for other than normal pay and allowances, (c) costs associated with training areas, firing ranges, storage sites, and other similar items and facilities used during the training. These costs must be attributable directly to such training, and (d) all transportation of personnel, equipment and supplies to and from the training area.

15.3.8. The operations and maintenance funds expensed under 10 U.S.C. § 322, are not used to supplement other accounts, to circumvent budget ceilings established for other accounts, or to assume the mission of programs funded from other accounts.

15.3.9. 10 U.S.C. § 322 authorizes the Department to program and expend operation and maintenance funds to train U.S. special operations forces, including civil affairs forces and psychological operations forces, with friendly foreign nations. It does not provide authority to conduct any type of training activity that the Department otherwise cannot legally conduct. Any training activity funded under this statutory authority must be conducted in accordance with DoW directives, regulations, and instructions, and all other applicable interagency procedures.

15.4 Annual Report by U.S. Unified Combatant Commands

Funds expended under the authority of 10 U.S.C. § 322 must be reported by the appropriate combatant commands on a FY basis to the Assistant Secretary of War (Special Operations/Low Intensity Conflict (ASW(SO/LIC)) to arrive not later than February 1 of each year. Each FY report

submitted by the combatant commands must be organized by theater and presented for each country in alphabetical order with each joint combined exchange training (JCET) deployment listed in chronological order. The reporting of classified training activities, if any, must be properly classified and the classification prominently identified. Each report must specify the following:

15.4.1. All countries in which training was conducted

15.4.2. The type of training conducted in each country for each JCET, including whether such training was related to counter-narcotics or counter-terrorism activities; the date and duration of that training; the number of U.S. military personnel involved; and the total expenses paid by the U.S. Total expenses paid by the U.S. must be the total of (1) amounts paid for deploying and training U.S. special operations forces, including the costs listed in this section; (2) amounts paid to a foreign country for support provided to U.S. personnel, and (3) financial payments to a developing foreign country for incremental expenses.

15.4.3. The extent of participation by foreign military forces, including the number and service affiliation of foreign military personnel involved and the physical and financial contribution of each host nation to the training effort.

15.4.4. The relationship of that training to other overseas training programs conducted by U.S. Armed Forces, such as military exercise programs sponsored by the Joint Chiefs of Staff, military exercise programs sponsored by a U.S. unified combatant command, and military training activities sponsored by a Military Department (including deployments for training, short duration exercises and other similar unit training events).

15.5 Consolidated Budget Display for DoW Security Cooperation Programs

15.5.1. The DASW for Security Cooperation (DASW(SC)), must receive from ASW(SO/LIC) by August 1 each year budget request data for activities conducted in the subsequent fiscal year, including the specific country or region pursuant to 10 U.S.C. § 322 for the purpose of developing a Consolidated Budget Display in accordance with 10 U.S.C. § 381(a).

15.5.2. The Under Secretary of War (Policy) (USW(P)) must submit a consolidated budget for all security programs and activities of the DoW each year, consistent with the submission of the President's annual budget request.

15.6 Semiannual Report on Use of Funds for DoW Security Cooperation Programs

15.6.1. The Combatant Commands must transmit to the Director, Defense Security Cooperation Agency (DSCA), no later than 15 days after the end of each calendar quarter, the cumulative total of all obligations and expenditures related to 10 U.S.C. § 322.

15.6.2. The Director, DSCA must transmit to the appropriate subcommittees of Congress a report on the obligation and expenditure of funds for security cooperation programs and activities of the DoW in accordance with 10 U.S.C. § 381(b), by not later than August 31 for the first

six-month period of that year; and February 28 of each year for the second six-month period of the previous year.

15.7 Annual Report by the Secretary of War

15.7.1. The ASW(SO/LIC) must receive reports from the commander of the special operations command, and the commander of any other unified or specified combatant command, as described in this section, and compile those reports into a single document and forward it to the USW(P).

15.7.2. The USW(P) must, not later than April 1 of each year, submit on behalf of the Secretary of War the required annual report to the Armed Services and Foreign Relations Committees of the Senate and the National Security and Foreign Affairs Committees of the House of Representatives.

15.7.3. The annual report must cover training during the preceding fiscal year for which expenses were paid under 10 U.S.C. § 322.

16.0 ACCOUNTING FOR PRODUCTION AND SALE OF FOREST PRODUCTS

16.1 General Policy

This section establishes the policy to account for the production and sale of forest products. This section also assigns responsibility for DoW reimbursement and for the entitlement of a state to a share in the net proceeds derived from forest products sold from military installations or facilities.

16.2 Applicability and Scope

The policies established by this section:

16.2.1. Apply to the OSW and to the Military Departments (MilDeps, including their Reserve Components). The term "Military Services," as used herein, refers to the Army, Navy, Air Force, and Marine Corps.

16.2.2. Cover forest products production and sales programs on military installations or facilities in the U.S.

16.2.3. Do not apply to forestry activities within the civil programs of the U.S. Army Corps of Engineers (USACE) or to the state-owned National Guard installations.

16.3 Policy

16.3.1. DoW appropriations that incur obligations to fund the production and sale of forest products must be reimbursed from collections made because of the sale of those products.

16.3.2. Remaining collections are disposed of, as follows:

16.3.2.1. Distribute forty (40) percent of installation net proceeds to the state that includes the military installation or facility from which forest products were sold during a fiscal year. If the installation or facility is in more than one state, each state shares the proceeds proportional to the installation or facility area in each state.

16.3.2.2. Disburse to each state and transfer any remaining amount to the reserve account. If collections from the sale of forest products are inadequate, production and sale obligations may be financed either from the appropriation accounts or from transfers from the reserve account when other sources of funds are not available in a timely manner. If a disbursement to a state is rejected or cannot occur, then the transfer will be deposited into the Reserve account.

16.4 DoW Forestry Reserve Account (DoW FRA)

A DoW reserve account must be established. This account may be used for (1) improvements of forest lands; (2) unanticipated contingencies in the administration of forest lands and the production of forest products for which other sources of funds are not available in a timely manner; (3) natural resource management that implements approved plans and agreements; and (4) the balance must not exceed $4 million on December 31 of any calendar year. Unobligated balances exceeding $4 million on that date are deposited in the U.S. Treasury General Fund Miscellaneous Receipts Account.

16.5 Accounting and Reimbursements

16.5.1. Proceeds collected from forestry sales must be turned over to the supporting DoW disbursing officer. The MilDeps must use the Treasury Appropriation Fund Symbols (TAFS) identified in the Volume 11 Supplemental, Table 16-1, to ensure proper accounting and reporting of proceeds from the sales of DoW forestry products. 10 U.S.C. § 2665 provides complete guidance for collections and disbursements related to the Forestry Products Program. Annually, MilDeps must forecast and communicate requirements to their respective Forestry Program Manager and Budget Officer to facilitate the accurate apportionment of Forestry Program funding.

16.5.2. The Department of the Army is the only MilDep authorized to use special fund account 21*5285, “Forestry Reserve Account” (FRA), for its annual Forestry Products Program. The Army manages, on behalf of the OSW, the FRA separately from its annual apportionment and ensures the FRA balance within 21*5285 does not exceed the $4 million unobligated balance threshold by December 31 of each calendar year. The Department of the Navy and Department of the Air Force collect and execute (obligate and disburse) the Forestry Products Program proceeds using their General Fund (GF) and Operation and Maintenance (O&M) accounts. That portion of the proceeds used to finance reimbursable expenses must be transferred to the funding O&M or procurement appropriation in accordance with annual budget guidance. The Volume 11 Supplemental detail the applicable TAFS.

16.5.3. The MilDeps must validate the accuracy and completeness of their Forestry account transactions, maintain auditability of their Forestry account transactions, and transfer all residual funding to the DoW FRA by the first week of December of each calendar year. The MilDeps must obligate and disburse Forestry Program proceeds only for purposes specifically authorized in 10 U.S.C. § 2665.

16.5.4. All MilDeps are prohibited from using the Budget Clearing Account (suspense) F3875 to record and report forestry product proceeds. Each MilDep received instructions to develop standard operating Supplementaling their process to ensure all future collections and disbursements in the program are in accordance with this policy.

16.6 Compute Entitlements

16.6.1. Compute entitlements to each state in accordance with 10 U.S.C. § 2665(e). Determine these entitlements based on a separate calculation for each military installation or facility from which forest products were sold in that fiscal year.

16.6.2. Maintain records for each military installation or facility concerned to effect sales proceeds and reimbursable program obligations by fiscal year. If a military installation or facility is in more than one state, make payments proportional to the area of the installation or facility situated in each state. If an installation or facility is in more than one county within a state, a description of the areas (acres) of the installation or facility situated in each county may accompany that state's entitlement.

16.6.3. Disburse states' entitlements within 90 days after the end of the fiscal year. Pay by electronic funds transfer.

16.7 Distribute Net Proceeds

As directed by the USW (Acquisition and Sustainment) (A&S) or designee, in coordination with the OUSW(C), distribute net proceeds among the MilDeps to meet the overall funding requirements of the DoW forestry program.

16.8 Coordinating and Reporting Requirements

The Volume 11 Supplemental contains USW(A&S) coordinating and reporting requirements. The Forest Products Sales Program report has been assigned Report Control Symbol DD-A&T(Q&A)1649.

16.9 Responsibilities

16.9.1. The USW(A&S) or designee must issue and monitor policy on forest management of DoW lands in accordance with DoDI 4715.03, "Natural Resources Management and advise the MilDeps of potential downward adjustments in funding for the program during the year if timely receipt of anticipated proceeds becomes doubtful.

16.9.2. The Secretaries of the MilDeps must:

16.9.2.1. Prepare annual forestry program budgets for the coming fiscal year that include anticipated sales revenue, program obligations, states' entitlements, unfinanced requirements, and transfers. Refer to "Coordination and Reporting Requirements" in the Volume 11 Supplemental for due date and other reporting information.

16.9.2.2. Ensure that all proposed obligations are related directly to the economical production and sale of forest products, consistent with DoDI 4715.03.

16.9.2.3. Ensure that no unplanned program obligations are incurred simply to "exhaust" proceeds.

16.9.2.4. Adjust the program downward during the year by reducing planned obligations if actual proceeds do not materialize at anticipated levels and sufficient funding cannot be obtained from the reserve account.

16.9.2.5. Ensure that all program obligations are accumulated in DoW appropriation accounts and that reimbursements and distributions to states and the use of funds from the DoW Reserve Account conform to Economy Action limitations and justifications.

16.9.2.6. Coordinate approved budgets with the USW(A&S) or designee to assist in planning and trade-off analysis and to ensure the effective and efficient functioning of the overall DoW program.

16.9.2.7. Review the cumulative total obligations incurred, estimated program obligations, cumulative revenue, and realistic estimates of future revenue to determine whether DoW forests remain capable of economic production.

16.9.2.8. Identify to the DoW Supporting Agent (SA) the official who is authorized to transfer surplus funds and accept reserve funds.

17.0 OFFSETTING RECEIPTS

17.1 General Standards

This policy must be used in addition to the accounting principles, standards, and guidance established in Volumes 4, 6, and 12.

17.2 Budgeting Standards

17.2.1. Budgeting standards for offsetting receipts are prescribed by the OMB Circular No. A-11, Preparation, Submission, and Execution of the Budget.

17.2.2. Preparation of budget justification requirements is also prescribed in Volume 2. OMB adopted a single format to present information within the SF 132, SF 133 and Schedule P.

The realignment employs three common data sections, Budgetary Resources; Change in Obligated Balance; and Budget Authority and Outlays, Net. The SF 133, Schedule P, and Statement of Budgetary Resources (SBR) will use all three of the sections, and the SF 132 will use the common Budgetary Resources.

17.3 Accounting and Reporting Standards for Offsetting Receipts

17.3.1. Offsetting receipts within the Department are collections from the public that result from businesslike transactions such as sales of property, rental fees, or sales of services. These miscellaneous proprietary receipts are recorded using receipt account symbols prescribed by the Treasury FAST Book. The Transaction Library and Standard Reporting Chart of Accounts are available on the ODCFO Standard Financial Information Structure (SFIS) web page. The web page also provides the DoW U.S. Standard General Ledger (USSGL) proprietary accounting entries and transaction illustrations.

17.3.2. Offsetting receipts that are not readily classified into established categories must be temporarily accounted for in the Budget Clearing Account (suspense), F3875. All efforts must be made to identify and clear out suspense accounts and record these receipts properly into the applicable categories listed above within 60 calendar days as discussed in Volume 5.

17.3.3. All offsetting receipts must be recorded immediately upon receipt and deposited with the Department of the Treasury as soon as practicable. Any delays in borrowing or deposit preclude the use of the funds by the Treasury Department to benefit the U.S. Government through the avoidance of interest expense.

17.3.4. Offsetting receipt amounts reported by DoW Components must agree with the collections credited to receipt accounts maintained by the Department of the Treasury. Those DoW Components that prepare consolidated reports must obtain the required information from applicable organizations and ensure that the amounts reported agree with balances reflected by the Department of the Treasury.

17.3.5. FMS Form 1220. Actual offsetting receipts must be reported monthly on FMS Form 1220, "Statement of Transactions According to Appropriations, Funds and Receipt Accounts" in accordance with the TFX as prescribed in Volume 6.

17.3.6. SF 133 Report. Unless required by OMB, do not submit SF 133 reports for deposit funds, receipt accounts (including clearing accounts and suspense accounts), and closed Treasury Appropriation Fund Symbol (TAFS) (TAFS with canceled balances). Distributed offsetting receipts credited to Components must be included in the SBR. Undistributed offsetting receipts credited to the government-wide outlay totals should not be included in the SBR.

17.3.6.1. The SF 133 report is divided into four sections - Budgetary Resources; SBR; Change in Obligated Balance; and Budget Authority and Outlays, Net. Procedures on monthly budget execution reporting are prescribed in Volume 6." Submit these reports monthly to the Director for the OUSW(C) Program and Budget (P/B). Offsetting receipt amounts reported on these reports must equal the amounts deposited with the U.S. Treasury.

17.3.6.2. Submit a separate SF 133 report for each group of offsetting receipt accounts as part of the basic appropriation report. Separate SF 133 reports are required for Federal funds and trust funds aligned to the Military Functions, Civil Functions and Military Assistance functional groups.

17.3.6.3. Separate SF 133 reports are required within any of the foregoing groups if the receipts consist of proprietary receipts from the public (P), interfund receipts (ID), and/ or Federal intrafund receipts (IF), including those receipts in Budget Clearing Account (suspense), F3885.

17.4 Proprietary and Budgetary General Ledgers

17.4.1. Offsetting receipts must be recorded in the proprietary and budgetary general ledgers.

17.4.2. Volume 3 and Volume 4 prescribe the general ledger accounts to be used in recording offsetting receipts.

17.4.3. Source documents for the general ledger entries include cash collection vouchers, sales slips, rental receipts, and journal vouchers.

17.5 Use of Accounting Data for Budget Submissions

17.5.1. Budget requirements are established by OMB Circular No. A-11 and Volume 2.

17.5.2. Offsetting receipts deposited in receipt accounts are deducted as offsets to outlays and against budget authority at sub-function and agency levels. For instance, sub-function 051, "Department of War, Military," is the level at which proprietary receipts from the public are deducted from the Department's budget authority and outlays in arriving at total DoW Federal Funds in the budget.

17.5.3. The accuracy and timeliness of recording and reporting offsetting receipts and outlays are critical in the budget preparation process. Actual receipts for the prior year are reported in the budget submissions and are used as the basis for projecting estimates for the budget out-years.

18.0 NON-ECONOMY ACT ORDERS

18.1 General Policy

This section prescribes the financial management policy applicable to orders placed for goods or services from non-DoW Federal agencies under statutory authorities other than the Economy Act authority provided in 31 U.S.C. § 1535. These orders are referred to as non-Economy Act orders. Section 1 of this volume provides overall guidance and discussion of general reimbursement procedures and supporting documentation.

18.2 Legal Authority

18.2.1. Specific statutory authority is required to place a non-Economy Act order with a non-DoW agency for goods or services and to pay the associated cost. If specific statutory authority does not exist, the default is the Economy Act which is discussed in Section 3 of this volume.

18.2.2. The more commonly used non-Economy Act authorities include, but are not limited to:

18.2.2.1. Acquisition Services Fund. The Acquisition Services Fund was established by the General Services Administration (GSA) Modernization Act which merged the General Supply Fund and the Information Technology Fund to carry out functions related to the uses of the Acquisition Services Fund including any functions previously carried out by the Federal Supply Service and the Federal Technology Service managed by the GSA.

18.2.2.2. Franchise Funds. Franchise Funds were first established by the Government Management Reform Act of 1994 to provide common administrative support services on a competitive and fee basis.

18.3 Justification

Non-Economy Act orders may be placed with a non-DoW Federal agency for goods or services if (1) proper funds are available; (2) the order does not conflict with another agency's designated responsibilities (e.g., real property lease agreements with GSA); (3) the requesting agency or unit determines the order is in the best interest of DoW; and (4) the performing agency is able and authorized to provide the ordered goods or services.

18.4 Simplified Acquisition Threshold

Non-Economy Act orders greater than the simplified acquisition threshold must comply with FAR Part 7 and established DoW Components' procedures for the proper use of non-DoW contracts. The "Non-Economy Act Acquisition Package Checklist" will assist in ensuring that statute, policy, and regulation are complied with under non-Economy Act orders.

18.5 Prohibitions

Non-Economy Act orders may not be used to violate provisions of law or accomplish what regulations do not permit under commercial contracts or circumvent conditions and limitations imposed on the use of funds including extending the period of availability of the cited funds.

18.6 Treasury Guidance

18.6.1. The TFM Volume I, Part 2, Chapter 4700, Section 4750, "Intragovernmental Quarterly and Year-End Requirements," discusses the requirements necessary

to properly report intragovernmental transactions resulting from business activities (i.e., buy/sell transactions) between two Federal government entities, called trading partners. It further references the Intragovernmental Transaction Guide (Appendix 5) as containing the business rules and processes to properly record, report, and reconcile intragovernmental transactions, including the processes for dispute resolution.

18.6.2. The standard Interagency Agreement contains two Fiscal Service (FS) Forms: FS Form 7600A, General Terms and Conditions (GT&C) and FS Form 7600B, Order Form. (See the instructions form at Instructions for FS Form 7600A, and Instructions for FS Form 7600B respectively.) Treasury has mandated the use of these two forms to ensure the proper recording and reporting on intragovernmental buy/sell transactions, and to eliminate the Federal-wide reporting deficiencies impacting the Financial Report of the U.S. Government. Accordingly, all DoW Components must use the latest published versions of FS Forms 7600A/B when completing a non-Economy Act order and these must comply with the Federal Intragovernmental Data Standards when using the Treasury's G-Invoicing system, DoW Ordering systems, Enterprise Resource Planning (ERP) systems, or when completing the FS Forms 7600 A/B manually. Until DoW Ordering Systems and ERP systems are capable of processing the FS Form 7600B, DoW trading partners must continue to accept the current order forms (e.g., DoW (DD) Form 448, Military Interdepartmental Purchase Request). Individual orders must be placed against an FS Form 7600A.

18.6.3. The Treasury's G-Invoicing system must be used to negotiate, broker, and electronically store the GT&Cs and associated transactions between buyers and sellers for all inter- and intragovernmental reimbursable transactions as appropriate system capabilities come online for individual DoW Components. In instances where G-Invoicing is not available, such as remote deployments or other austere conditions, DoW Components must use hardcopies of FS Forms 7600A/B. DoW Components must establish internal policies and procedures for designating signature authority for GT&Cs.

18.6.4. The request scope of work on the FS Form 7600A must cover relatively broad categories of goods or services when feasible. When the systems capability becomes available to accept the FS Form 7600B within DoW Ordering Systems or ERPs, the FS Form 7600B must discretely define the goods or services for each order. When practical and legally permissible, the agreement period on the FS Form 7600A must cover multiple years.

18.6.5. For logistical support overseas, in lieu of using the FS 7600A, DoW may submit a reimbursable Memorandum of Understanding MOU under 22 USC 2695 where DoW support is not available for DoW personnel. A G-invoicing reimbursable IAA support agreement is not acceptable and will not be signed in these instances.

18.7 Best Interest Determination

18.7.1. Each requirement must be evaluated in accordance with DoW Components' procedures to ensure that non-Economy Act orders are in the best interest of DoW.

18.7.2. Factors to consider include: (a) satisfying customer requirements; (b) schedule, performance, and delivery requirements; (c) cost effectiveness, considering the discounts and fees; and (d) contract administration, to include oversight.

18.8 Fiscal Policy

18.8.1. For non-Economy Act orders greater than the simplified acquisition threshold, the requesting official must provide: (a) evidence of market research and acquisition planning; (b) a Requirements document that is specific, definite, and certain both as to the work encompassed by the order and the terms of the order itself; and (c) unique terms, conditions, and requirements to comply with applicable DoW-unique statutes, regulations, directives, and other requirements.

18.9 Reconciliation and Elimination of Intragovernmental Transactions

Volume 6 contains DoW policy and guidance for adjustments, eliminations, and other special intragovernmental reconciliation procedures.

19.0 DEFENSE SUPPORT OF CIVIL AUTHORITIES

19.1 General Policy

The DoW has several key missions, including defending the homeland and supporting civil authorities. In certain cases, national defense resources might be provided to assist civil authorities during disasters, emergencies, or other incidents. The Defense Support of Civil Authorities (DSCA) is typically initiated by a request from a Primary Agency (PA) like the Federal Emergency Management Agency (FEMA). According to DoW policy, DSCA begins with a request from civil authorities or authorized entities, or as directed by the President or SecWar. All DSCA support requests, except for Immediate Response Authority (IRA), must be in writing and include an agreement to reimburse DoW as per Title 42, United States Code (U.S.C.), Sections 5121-5208 (42 U.S.C. §§ 5121-5208) (Robert T. Stafford Disaster Relief and Emergency Assistance Act, (commonly called the "Stafford Act"), 31 U.S.C. § 1535 (commonly called the "Economy Act"), or other applicable laws. DoW can allocate resources upon approval from SecWar or direction from the President.

19.2 Responsibilities

19.2.1. Key DoW participants in DSCA activities mentioned in this section include, but are not limited to, the SecWar, Under Secretary of War for Policy (USW(P)), Under Secretary of USW(C), Chairman Joint Chiefs of Staff (CJCS), Commanders of Combatant Commands (CCDRs), Joint Staff (JS), and DoW Components and agencies.

19.2.2. The SecWar holds the top authority over the DoW and advises the President on DSCA matters. SecWar approves the use of forces, personnel, units, and equipment; oversees policy and actions for DSCA during domestic incidents; and has sole authority to waive reimbursement for DoW support.

19.2.3. The USW(C)/CFO sets policies and guidelines to ensure timely reimbursement to DoW for DSCA activities.

19.2.4. DoW Components ensure adherence to FM guidance for DSCA operations, including cost tracking and reimbursement; and plan, program, and budget for associated DSCA capabilities as per law, policy, and assigned missions.

19.2.5. The Secretaries of the Military Departments require that reimbursement requests for actual DSCA expenditures (including work performed, contractor payments, or inventory deliveries) start within 30 calendar days after the month when the performance took place. Final billing invoices must be sent to the supported departments and agencies within 90 calendar days following the last billable event.

19.2.6. The Chief, National Guard Bureau (CNGB), under the authority, direction, and control of SecWar and the Secretaries of the Army and Air Force, reports the use of National Guard assets for DSCA when using Federal resources, equipment, and/or funding to the National Joint Operations and Intelligence Center. CNGB will ensure that the National Guard appropriations are appropriately reimbursed for DSCA activities.

19.2.7. The JS allocates resources for DSCA requests and issues execute orders (EXORDs) to the responsible CCDR to carry out SecWar-approved actions.

19.2.8. The Assistant Secretary of War for Homeland Defense and Global Security (ASW(HD&GS)) advises SecWar and USW(P) on DSCA, coordinates policy with federal agencies and DoW Components, and recommends DSCA policy to USW(P). The ASW(HD&GS) ensures all requests for DoW assistance include reimbursement provisions and works with USW(C), JS, and CCDRs to ensure reimbursements are made and reported to SecWar.

19.2.9. CCDRs with DSCA responsibilities must collaborate with subordinate commands to ensure proper reimbursement for DSCA. They provide command and control of DoW personnel and resources coordinating DSCA operations as directed by SecWar.

19.3 Financial Management Augmentation Team (FMAT)

The supported CCDR may form an FMAT to aid in performing FM responsibilities during DSCA operations. The FMAT is composed of experienced FM experts from each Service and major Defense Agency. Under the CCDR's oversight of DSCA activities, aspects of the FMAT can be engaged in real-world events. FMAT members facilitate communication with their respective Services and Agencies and assist in integrating DSCA FM processes into existing financial procedures and policies. Additionally, Military Services and Agencies will designate an FMAT Office in writing and FMAT members take part in training and exercises with the supported Combatant Command.

19.4 Federal Emergency Management Agency

The Secretary of Homeland Security serves as the primary Federal authority for managing domestic incidents. According to 6 U.S.C. § 314, the Administrator of FEMA is tasked with overseeing the Federal assistance programs under the Stafford Act. FEMA requests assistance through Mission Assignments (Form 010-0-8 Mission Assignment Form). These MAs must include necessary details on funding and other management controls, like funding obligation limits, for the requested support. FEMA is responsible for coordinating federal plans and responses to civil emergencies at both national and regional levels and for providing federal assistance to states during such emergencies. Under the Stafford Act, the President may instruct any federal agency to use its legal authorities and resources, with or without reimbursement, to support state and local emergency and disaster response efforts. An RFA is only valid once approved by SecWar. RFAs from FEMA are also known as mission assignments (MAs), though they do not have a directive effect until SecWar's approval.

19.5 DSCA New Requests

The PA uses an RFA or FEMA MA to request goods or services from DoW for DSCA under the Economy Act or Stafford Act. DSCA is typically provided on a cost-reimbursable basis unless directed otherwise by the President or waived by SecWar.

19.6 Immediate Response Authority Support

Support under IRA must be cost reimbursable when appropriate or legally required but must not be delayed or denied due to the requester's inability or unwillingness to commit to reimbursement. Verbal emergency requests must be followed by a written request with an offer to reimburse the DoW as soon as possible. IRA support will end when the need is no longer present or when the approving DoW official or a higher authority directs it (DoDD 3025.18).

19.7 General Accounting Guidance

DSCA is provided on a cost-reimbursable basis. Exceptions include cases where the law mandates or allows non-reimbursable support, pending approval by the appropriate DoW official. Requests for DSCA can be submitted under the Stafford Act or other conditions.

19.7.1. Stafford Act

19.7.1.1. The Stafford Act grants the President the authority to direct the SecWar to use DoW resources to aid state and local governments in addressing emergencies and major disasters. A Governor can seek Federal assistance under this act. Once the request is submitted and meets the certification requirements outlined in the Stafford Act, the President has the discretion to declare an emergency or a major disaster.

19.7.1.2. The Stafford Act establishes a system for emergency preparedness to safeguard life and property in the U.S., distributing disaster assistance responsibilities among federal, state, and local governments. FEMA is primarily responsible for domestic disaster relief

efforts and manages aid under the Stafford Act. Federal departments and agencies, including the DoW, assist FEMA upon request and can receive reimbursement from FEMA for eligible costs incurred during their support.

19.7.2. Non-Stafford Act

19.7.2.1. A Federal entity that has the primary responsibility and legal authority for managing an incident (i.e., the requesting agency) and requires support or assistance beyond its usual operations can seek coordination and facilitation from the Department of Homeland Security through the NRF. Agencies offering disaster aid under their own authorities, without a declaration under the Stafford Act, use their own appropriated mission funds. Upon request, the DoW can assist other Federal departments and agencies by establishing inter-agency reimbursable agreements and requesting reimbursement from the requesting agency for eligible costs. Typically, the requesting agency provides funding to the DoW for the requested assistance in accordance with the Economy Act, unless other statutory authorities are applicable.

19.7.2.2. When an urgent situation arises and there is no time to seek higher approval, Federal military commanders, DoW Components, and responsible DoW civilian officials can exercise IRA to save lives, reduce severe property damage, and prevent human suffering (DoDD 3025.18).

19.8 Applicability

19.8.1. This policy applies to the Office of the SecWar, the Military Departments, the Office of the CJCS and the JS, the Combatant Commands, the Office of the Inspector General of the DoW, the Defense Agencies, the DoW Field Activities, and all other DoW Components.

19.8.2. This policy applies to the Army and Air National Guard when under Federal command. It also applies when the SecWar deems it necessary to use National Guard personnel for DSCA and obtains concurrence from the affected States' Governors.

19.9 Scope

19.9.1. This section outlines DoW financial policy for emergency or disaster relief when SecWar approves support requests to assist other Federal departments or agencies under DoDD 3025.18.

19.9.2. Under the Unified Command Plan, DSCA responsibilities are assigned to the Commander of U.S. Northern Command for the 48 contiguous states, the District of Columbia, Alaska, Puerto Rico, and the U.S. Virgin Islands; while the Commander of U.S. Indo-Pacific Command assumes these responsibilities in Hawaii, U.S. territories or insular areas, and possessions within their area of responsibility.

19.10 Funding

19.10.1. Disaster relief is not a budgeted program for DoW. Congress appropriates the Disaster Relief Fund (DRF) to FEMA for Federal and State disaster relief. The DRF supports the Stafford Act, providing FEMA a no-year base to direct, coordinate, manage, and fund eligible response and recovery efforts for major disasters and emergencies that exceed State resources. DoW Components may need to initially cover DSCA costs with existing funds, expecting reimbursement later. DRF funding is divided into disaster relief cap adjustment and base/non-major disasters.

19.10.2. Funding under the disaster relief cap adjustment is allocated for major disasters declared under the Stafford Act and must be designated by Congress for disaster relief according to section 251(b)(2)(D) of the Balanced Budget Emergency Deficit Control Act (amended by the Budget Control Act). The incremental costs incurred by the DoW beyond its usual mission are reimbursable by FEMA from funds allotted for disaster relief in this category. DoW Components must establish processes to identify and document these incremental costs to ensure reimbursement, as outlined in Volume 4.

19.10.3. Funding in the base/non-major disasters category encompasses Emergencies, Pre-disaster Surge Support, Fire Management Assistance Grants, and activities that are not specific to disasters, such as Disaster Readiness Support (e.g., distribution center operations, reservist training). Pre-declaration requests for DoW support in response to disaster events are reimbursed to DoW based on actual costs. Typically, the requesting agency provides funding for the incident in accordance with the provisions of statutory authorities available for this purpose. This funding is not subject to cost-sharing. When an emergency necessitates a DoW response without a major disaster declaration, this funding category is utilized to reimburse DoW for the actual expenses (i.e., full costs) incurred.

19.10.4. DRF funding cannot be used for activities related to incidents that need a coordinated Federal response before the disaster is declared. If a department or agency requires support beyond its usual operations, it can request PA coordination and facilitation via the National Response Framework (NRF). Federal departments and agencies can assist one another by setting up inter/intra-agency reimbursable agreements.

19.11 Reimbursable Support Agreement

FM units deliver similar capabilities during DSCA operations as in other missions. The primary concerns affecting DoW's response in providing DSCA are authorities and funding. Costs incurred are reimbursable according to the Economy Act and Stafford Act, unless otherwise directed by the President. Typically, cost reimbursement happens under the Economy Act (from the Federal agency requesting support) or the Stafford Act (from Federal funds following a Presidential declaration). Reimbursement should be sought for DSCA support provided under these acts. Per 31 U.S.C. § 9701, IRA support to non-Federal agencies is reimbursed to the U.S. Treasury, while IRA support to Federal agencies is reimbursed to DoW organizations per the Economy Act.

19.12 Advances

Advance payments to the DoW from the DRF are usually not permitted but may be required if DoW Components lack sufficient funds to deliver the requested support to the PA before the fiscal year ends.

19.13 Expenditures Eligible for Reimbursement

44 Code of Federal Regulations, part 206.8, allows for the reimbursement of costs incurred by the DoW when providing requested assistance. Only the SecWar can waive reimbursement under the Economy Act and Stafford Act. Examples of eligible expenditures for reimbursement include:

19.13.1. Overtime, travel, and per diem of permanent Federal agency personnel.

19.13.2. Wages, travel, and per diem of temporary Federal agency personnel assigned solely for the performance of services directed in the major disaster or emergency area.

19.13.3. Travel and per diem of Federal military personnel assigned solely for the performance of services directed in the major disaster or emergency area.

19.13.4. Cost of work, services, and materials procured under contract for the purposes of providing directed assistance.

19.13.5. Cost of materials, equipment, and supplies (including transportation, repair, and maintenance) from regular stocks used in providing directed assistance.

19.13.6. All costs incurred that are paid from trust, revolving, or other funds, and whose reimbursement is required by law; and

19.13.7. Other costs presented by an agency with written justification or mutually agreed upon in writing by the PA.

19.14 Requirements for Reimbursement

19.14.1. DoW Components operating under an approved RFA must submit reimbursement requests following SecWar-approved and Combatant Command's standing DSCA EXORDs. FEMA MAs should also follow FEMA's Mission Assignment Billing Reimbursement Checklist. Requests must reference the specific approved RFA/MA and the relevant disaster or emergency identification number.

19.14.2. Reimbursement requests for expenses from multiple orders cannot be combined. Components seeking reimbursement must keep all financial records, supporting documents, statistical records, and related records concerning the services or resources used by the Department.

19.14.3. A Component official knowledgeable about the original approved RFA must review reimbursement requests to ensure chargebacks outside the original scope are correctly adjusted.

19.14.4. Upon deployment to a supported Combatant Command following an approved RFA, units must report FM details to the Command or its designee until the order is closed. This requirement stands regardless of the unit's redeployment timing.

19.15 Fiscal Closure

Components must carry out RFA closeout procedures, and if excess reimbursable funding is found, notify the PA to deobligate it to the DoW.

20.0 DWCF GENERAL POLICIES

20.1 Treasury Fund Symbol

10 U.S.C. § 2208 establishes the DWCF. The U.S. Treasury Account Symbol for the DWCF is 097X4930. The Defense Counterintelligence and Security Agency WCF, Treasury account 097X4932, is also established pursuant to 10 U.S.C. § 2208 authority. For a table of specific sub-numbered account identifiers, refer to the Volume 11 Supplemental document, Section 20.

20.2 Charters

The DoW Component individual activity groups financed through the DWCF must be chartered under the DWCF to achieve the following objectives:

20.2.1. The DWCF is designed to create a cost-conscious culture by making both customers and providers mindful of and accountable for the costs of services. It provides a flexible financial framework to control costs, empowering managers to use resources efficiently. The fund encourages economical cross-servicing among DoW Components and formalizes relationships through contracts, ensuring cost-based reporting to clarify the financial consequences of decisions.

20.2.2. The specific objectives of the DWCF are to instill financial discipline in ordering agencies, making them build contractual relationships to balance the cost of goods and services against their benefits and critically evaluate price, quality, and delivery speed. The DWCF achieves this by enabling agencies to budget for "end-products," similar to commercial purchasing, and by establishing standard prices to aid in planning. For the DWCF activities themselves, the goals are to foster forward-looking financial management by making them dependent on customer reimbursements, equipping managers with modern tools, and improving cost control through the comparison of estimates to actual costs. This structure encourages producers to align their workforce and inventory with their activities and provides the flexibility to adapt to changes in supply and demand.

20.2.3. A charter must be prepared and submitted to the OUSW(C) Program/Budget (P/B), Director of Revolving Funds and Integration (RFI) for approval. Each DWCF business entity must

review its charter annually to assure it remains current. Changes must be prepared and submitted to the OUSW(C) RFI for approval.

20.3 Financing

20.3.1. The DWCF receives its initial working capital through an appropriation or a transfer of resources from existing appropriations of funds and uses those capital resources to finance the initial cost of products or services.

20.3.2. Financial resources to replenish the initial working capital and to permit continuing operations are generated by the acceptance of customer orders. After initial capitalization, a DWCF activity's operations are funded by the reimbursements it receives from its customers for the goods or services provided.

20.3.3. Customers may not place orders with DWCF activities for the purpose of extending the life of their appropriations or avoiding any statutory limitation or restrictions pertaining to those funds.

20.3.4. Amounts earned by the DWCF are available for financing obligations without fiscal year limitation, although receipt of contract authority, and/or cost authority, as documented in the annual operating budget, determines DWCF activity's obligation authority.

20.3.4.1. The Supply Management activity groups and the Capital Investment Program receive contract authority. Contract authority permits activities to incur obligations in advance of appropriations or in anticipation of receipts from customers, but in accordance with an apportionment, allotment, or other limiting authority.

20.3.4.2. Other than the Supply Management activity groups and the Capital Investment Program, all other DWCF obligations must be supported by budgetary resources that are immediately available for outlay even though the outlay may not occur until a future date.

20.4 Authorized Customers

Authorized customers of the DWCF include any DoW organization, office, or element, and non-DoW federal government agencies. When authorized by law, customers may also include foreign, state, and local governments, private parties, and certain U.S. manufacturers, assemblers, or developers as specified in 10 U.S.C. §§ 2208(h), 2563, and 7543.

20.5 Sources of Budgetary Resources

When an activity receives budgetary resources from more than one source (spending authority from offsetting collections, direct appropriation, contract authority), the receiving activity must maintain records that will enable it to control and separately report the transactions relating to each type of source (in accordance with OMB Circular No. A-11). Budgetary resources may be received at any level of an organization from the individual activity up to the Departmental level.

20.6 Annual Operating Budgets

Annual operating budgets for the DWCF provide official management cost goals to the Military Services and Defense Agencies for each individual activity group. The annual budget consists of two primary parts, which are the operating budget and the capital budget. The operating budget represents the annual operating costs of an activity or Component, including depreciation and amortization expenses. The capital budget represents the number of financial resources that are authorized for use in the acquisition of capital assets.

20.7 Customer Orders

Customer orders (funded requests for goods or services) provide budgetary resources necessary to finance operations for non-supply management activities, and to liquidate contract authority for supply management activities. Budgetary resources are recognized from anticipated customer orders that obligate budgetary resources of another federal government activity, and from cash advances from non-federal customers, to include orders from non-appropriated fund instrumentalities. To be valid, customer orders must be obligations of a federal government activity and cash advances from nonfederal customers. Cash advances may also be requested from federal government activities when directed and approved in advance by the OUSW(C). When accepted, customer orders create a quasi-binding contractual relationship between a DWCF activity and its customer since acceptance of a customer order requires that the performing entity agree in writing to perform the work for the customer entity. Except as authorized in Section 24, a DWCF business entity must not initiate work or services or incur obligations in excess of anticipated orders received unless specific authorization is provided by a signed annual operating budget approved by the OUSW(C) P/B RFI, to ensure other budgetary resources are available at the DWCF sub-account level. Customers may request a deobligation of their funds for goods or services ordered that were not provided. Return of customer funds is permissible only if the DWCF activity has not commenced work on the good or service ordered or incurred an obligation for those goods or services.

20.8 Stabilized Rates and Prices

The DWCF individual activity groups operate on a break-even basis in accordance with budgetary guidance contained in Volume 2. DWCF activities must establish rates during the budget process at levels estimated to recover the budgeted costs of goods or services to be provided including all general and administrative overhead costs, prior period gains and losses, and applicable surcharges. The budget process ensures that adequate resources are requested in the customers' fund accounts to pay the established rates and prices. Volume 2, Section 10 contains specific budget formulation requirements.

20.9 Restrictions on Use of Customer Appropriations

20.9.1. Customers must comply with statutory limitations and restrictions imposed on the appropriated funds charged when placing an order with the DWCF. A DWCF customer cannot use appropriated funds to do indirectly (i.e., through placement of an order with a DWCF activity) that which it is not permitted to do directly. Thus, the availability of an appropriation

funding an order cannot be expanded or changed by placement with an activity financed by the DWCF.

20.9.2. Appropriated funds cited on reimbursable orders are available only for the purposes permissible under the source appropriation and remain subject to the same restrictions. The ordering activity retains primary responsibility for determining the applicability of the appropriated funds cited on the order. However, if instances arise when it is apparent that the ordering appropriation is not appropriate for the purpose provided, then the DWCF activity should return the order with a request for an applicable appropriation to cite.

20.10 Financial Reporting

31 U.S.C. § 3515 and 10 U.S.C. § 2208(n) require the Department to have audited financial statements covering all accounts and associated activities of the Department. The DoW will include DWCF financial information in its Annual Financial Report. Specific financial statement reporting requirements are contained in OMB Circular No. A-136, "Financial Reporting Requirements." Volume 6 also identifies recurring reporting requirements applicable to the DWC.

20.11 Mobilization Capability

20.11.1 Each DWCF activity group must plan for and maintain the capability to expand or alter operations, or to provide extraordinary supply or other functional area support necessary, to satisfy mobilization conditions or an operational contingency as documented in Defense Planning Guidance or operational plans.

20.11.2. Financing the cost of a mobilization capability during peacetime requires a separate appropriation. These are not normal operating costs that are passed on to DWCF customers through rates. Direct appropriations will reimburse all costs related to maintaining a capacity. Volume 2 provides specific policy for the types of mobilization costs that can be funded by a direct appropriation. For detailed procedural guidance on funding, refer to the Volume 11 Supplemental, Section 20.

20.11.3. The SFFAS 4, "Managerial Cost Accounting Standards and Concepts," requires reliable and timely information on the full cost of federal programs, their activities, and outputs, which includes the total costs of supporting DWCF mobilization/surge activities.

20.11.4. DWCF Activity Management Agency or Command will budget and provide appropriated funds for the costs of maintaining unutilized plant and facilities being held for mobilization purposes at DWCF activities. Mobilization maintenance costs for unutilized plant and facilities include costs of labor, materials, contractual services, and overhead that were incurred for that purpose. Retention of facilities in excess of those necessary for current or planned workload must be in accordance with DoD Directive (DoDD) 4275.5, "Acquisition and Management of Industrial Resources." The acquisition, retention, or disposal of unutilized plants and facilities at transportation activities must be approved by the OUSW(A&S).

20.12 DWCF Systems and Control

DWCF accounting systems must have the capability to account for the status of budgetary resources on a continuous basis. Budgetary controls must be designed to prevent incurring obligations more than budgetary resources. System owners must ensure compliance with each new SFIS matrix that is updated based on guidance released from Treasury.

20.12.1. Financial Management System. Transactions are executed in accordance with budgetary and financial standards issued by OMB and Treasury and are reported in accordance with the FASAB and SFFAS. DWCF accounting systems must be SFIS compliant and have the capability to account for the status of budgetary resources on a continuous basis and controls must be designed to prevent obligations more than budgetary resources. With an effective DWCF financial management system:

20.12.1.1. Transactions are executed in accordance with all budgetary and financial standards and legal authorities.

20.12.1.2. Assets are properly safeguarded to deter fraud, waste, and abuse.

20.12.1.3. Performance measurement information is adequately supported.

20.12.2. Budgetary Resources. When an activity receives budgetary resources from more than one source (e.g., spending authority from offsetting collections, direct appropriation, and contract authority), the receiving activity must maintain records that will enable it to control and separately report the transactions relating to each type of source, in accordance with OMB Circular No. A-11.

20.12.3. Legacy Systems. Component Responsibility: DoW Components must bear all legacy system costs until they have fully transitioned to the replacement (emerging/migratory) system. If a Component operates both systems in parallel for testing or to retain access to prior-year data, it remains financially responsible for both systems. When transition delays are caused by Component-related implementation issues, the Component must continue to bear the legacy system costs, even if it is the sole remaining user on that legacy system.

20.12.3.1. DFAS Liabilities: If the delay in fully transitioning is directly caused by a DFAS implementation problem, the Component will not bear the direct legacy system costs. DFAS will incorporate any unabated legacy system costs into customer rates as overhead.

20.12.3.2. Residual Undepreciated Value. Upon the transition of all users and subsequent decommission of the system, any residual undepreciated value will be charged to the DFAS Accumulated Operating Result (AOR) in accordance with Volume 11 Supplemental.

20.12.3.3. Timeline and Constraints: Components must complete their transition to the migratory system prior to the beginning of a new fiscal year. To maintain budget integrity, legacy cost allocations among Components must not be adjusted during the year of execution.

20.13 Funds Management

Financial resources establishing a DWCF must be appropriated. Continuing operations are financed by reimbursements received. Anticipated reimbursements and anticipated customers' orders are not considered a budgetary resource. Obligations incurred (Undelivered Orders, Obligations, unpaid or Prepaid/Advanced and Delivered Orders, and Obligations, paid or unpaid) are claims against budgetary resources. A sufficient fund balance with the Treasury must support all DWCF cash outlays. Refer to Volume 3 for further guidance on funds management.

20.14 General Ledger Accounts

All DWCF activities must adhere to the United States Standard General Ledger (USSGL) published by the Treasury Bureau of the Fiscal Service. The USSGL Standard Financial Information Structure Transaction Library provides a decomposition of USSGL accounting transactions for DoW.

20.15 Auditing

Pursuant to 31 U.S.C. § 3515, the DoW activities, of which a DWCF is considered a component, are required to prepare audited financial statements. While preparing for and undergoing audit, DWCF activities must be able to provide documentation sufficient quality to allow an independent third party, such as an external auditor, to understand and verify the basis, value, and rationale for recorded amounts. The DWCF is subject to audit by the DoW Inspector General, the Government Accountability Office, and other parties when contracted or otherwise authorized.

20.16 Roles and Responsibilities

20.16.1. The OUSW(C) will:

20.16.1.1. Establish DoW policy on all DWCF operations and provide financial management oversight.

20.16.1.2. Authorize, approve, or rescind DWCF Charters.

20.16.1.3. Establish budget preparation, accounting, and reporting policies.

20.16.1.4. Review and approve operating and capital budgets and monitor budget execution.

20.16.1.5. Monitor compliance with all governing guidance.

20.16.1.6. Advise DWCF managers on accounting and reporting policies.

20.16.1.7. Exercise funds control responsibilities in accordance with congressional direction and OMB guidance.

20.16.2. The Director, Defense Finance and Accounting Service (DFAS), will:

20.16.2.1. Advise and assist the USW(C) in the development of financial systems and procedures.

20.16.2.2. Advise DWCF activities on accounting and reporting procedures and issue supplementary instructions as needed.

20.16.2.3. Review DWCF accounting systems for compliance with established requirements.

20.16.2.4. Prepare external and internal accounting reports for the DWCF.

20.16.3. The Military Department Secretaries and Defense Agency Directors will:

20.16.3.1. Manage their respective DWCF activities within approved funding limitations.

20.16.3.2. Designate a management agency or command to be responsible for the effective management of each DWCF activity.

20.16.3.3. Comply with, and recommend changes to, this and other governing regulations, and provide periodic financial and management information as required by the USW(C).

20.16.3.4. Submit proposed Charters for new DWCF activities, initiate change, as needed, or the rescission of existing charters to the USW(C).

20.16.4. The designated DWCF Activity Management command and individual activity managers will:

20.16.4.1. Assign responsibility and authority for the management and operation of DWCF activities.

20.16.4.2. Ensure all activities operate within approved funding limitations and determine compliance with established requirements.

20.16.4.3. Incur obligations and control costs in line with the approved annual budget to perform the activity mission.

20.16.4.4. Establish, monitor, and assess internal controls and resolve internal control weaknesses.

20.16.4.5. Identify to higher management any impediments in achieving performance goals and justify investments for future improvements.

20.16.5. DWCF Activity Customers will:

20.16.5.1. Budget for the cost of material, work, and services ordered from a DWCF activity.

20.16.5.2. Manage the budgetary resources provided for such orders.

20.16.5.3. As early as possible, notify the DWCF Activity Management to terminate a previously ordered service and incur liability for all costs incurred until termination.

21.0 DWCF ACTIVITY ESTABLISHMENT, TRANSFERS, AND CLOSURE

This section establishes the high-level policy for the establishment, transfer of functions, and closure of DWCF activities.

21.1 Establishment of DWCF Activities

21.1.1. Charter Requirement. Prior to financing, a proposed DWCF activity must be formally established through the submission and approval of a charter. For detailed guidance on charter format, required contents, support documentation, and the process for amendments or annual reviews, refer to the Volume 11 Supplemental, Section 21. The DoW Components must review DWCF operations each fiscal year to ensure that the charters are current. Any required changes must be submitted to the OUSW(C) P/B RFI.

21.1.2. Criteria for a DWCF Activity. For USW(C) to consider a Service or DoW agency organization, program, or function for inclusion in the DWCF it must meet all the following criteria:

21.1.2.1. Materials produced or services provided are shared or required by a group of customers or are common requirements of more than one major command, and/or DoW Component.

21.1.2.2. A cost accounting system is available that is capable of collecting costs of producing outputs. The activity must have the capability to charge prices or rates that are capable of recovering the full funded costs of the goods and services provided. For additional information on general cost concepts refer to Volume 4.

21.1.2.3. Activities that require and order products or services (i.e., customers) can be identified so that resources can be aligned in the account of the customer with the requirement. The demand for the goods or services to be provided by the program or organization must come from multiple customers within DoW and/or other federal government entities.

21.1.2.4. Identification of a buyer-seller relationship to the extent that the buyer can influence cost, workload, and the buyer has alternative sources that can provide the products or services. Operation of the program or organization as a DWCF business area should result in a

better identification of the full cost of operations and may also result in better quality goods/services and/or result in decreased costs to the federal government.

21.1.3. Procedural Guidance. For detailed guidance on charter format, required contents, support documentation, and the process for amendments or annual reviews, and commencing DWCF operations, refer to the Volume 11 Supplemental, Section 21.

21.2 Transfer of Functions

21.2.1. Core Principle. The transfer of all or a portion of the functions from one DWCF activity to another, or to an appropriation-funded activity, must be executed through a formal, negotiated agreement. Automatic transfers of budgetary or proprietary account balances are prohibited.

21.2.2. Requirements. The negotiated agreement must, at a minimum, identify the specific functions and resources to be transferred and establish the effective date. All accounts must be validated prior to transfer. For detailed procedures governing negotiations, account transfers, personnel actions, and system changes, refer to the Volume 11 Supplemental, Section 21.

21.3 Closure of a DWCF Activity

21.3.1. Funding. DWCF operating funds are not available for closure costs resulting from actions directed by higher authority, such as the Base Realignment and Closure (BRAC) Commission. Such costs must be financed through other authorized appropriations.

21.3.2. Residual Assets and Liabilities Upon closure, any remaining financial assets and liabilities must remain within the DWCF. All residual account balances must be reviewed, validated, and reduced to zero within one year from the date an activity ceases operations. For detailed procedures on handling closure costs and residual accounts, refer to the Volume 11 Supplemental, Section 21.

22.0 DWCF BUDGETARY RESOURCES

22.1 Sources of, Restrictions on, and Claims Against Budgetary Resources

Budgetary resources for the DWCF consist of collections from customers, which are credited to the fund's Treasury account. These resources are subject to apportionment and reapportionment by the OMB. Claims against these resources include undelivered orders, accounts payable, and accrued expenses. All obligations must be supported by available budgetary resources.

22.1.1. Apportionment and Administrative Limitations

22.1.1.1. If an apportionment is received by a sub-account or an activity group for a specific purpose, obligations must be kept within the apportioned limits even though the amount apportioned may be less than the total budgetary resources that otherwise would be available to the sub-account or activity group, in compliance with 31 U.S.C. § 1517(a).

22.1.1.2. An administrative limitation cannot be used to change or eliminate a statutory restriction. An administrative action can only further restrict the purpose, time, or amount for which budgetary resources may be used. An administrative limitation, if any, of budgetary resources provided to a DWCF Component, or subdivision, by the OUSW(C) or designated representative; and/or a subdivision, if any, of budgetary resources provided to a DWCF activity group or activity (operating unit) by a DWCF Component official must be followed. If an administrative limitation is received, the DWCF Component must keep obligations within the limitation even though the limitation may be less than the total budgetary resources that otherwise would be available. Administrative limitations may be provided in various formats but must be in writing, signed, and clearly state that it is a violation of the 31 U.S.C. § 1517(a) to incur obligations that exceed the limitation.

22.1.1.3. There are three forms of apportioned budget for the DWCF:

22.1.1.3.1. Direct Appropriation. Direct appropriated amounts are to be used for the specific purpose identified in the appropriations act or other legislation. Funds not appropriated specifically for the designated purpose are not available for that purpose. Unless specified otherwise, direct appropriations for the DWCF are no-year funds that do not expire.

22.1.1.3.2. Spending Authority from Offsetting Collections (Reimbursable Obligations). Reimbursable obligations are obligations financed by offsetting collections credited to an expenditure account in payment for goods and services provided by that account. The collection must be authorized by law to credit the specific appropriation or fund account. Anticipated reimbursements may not be used as a source of obligational authority until a customer order is accepted unless such use specifically is authorized in statute. Volume 3, Section 17 describes reimbursable obligations in detail.

22.1.1.3.3. Contract Authority

22.1.1.3.3.1. Contract is apportioned budget authority which can be legally obligated and may be used only for the purpose, time, and amount specified by statute relating to that contract authority. It is not funded and is apportioned and allocated without a supporting Treasury cash balance. Contract Authority must always be replaced or liquidated by subsequent or other budgetary resources and cash balances, more commonly within the DWCF, by offsetting collections credited to the DWCF. Unless otherwise specified by statute, contract authority is apportioned to the DWCF for the current fiscal year of the apportionment only, and closes for new obligations if not used within the fiscal year it is apportioned;

22.1.1.3.3.2. The OMB apportions contract authority at the beginning of a fiscal year for the amount of the DWCF program. It provides the authority to incur obligations in anticipation of the collection of receipts or offsetting collections that will be used to liquidate the obligation. Within the DWCF, contract authority is available for capital asset program obligations, i.e., all DWCF activity groups, and supply management operations. Supply Management activity groups include Supply Management, Distribution Depots, Defense Commissary Agency (Resale), and the Defense Reutilization and Marketing Service; and

22.1.1.3.3.3. There are no statutory restrictions placed on the obligational availability or availability to liquidate contract authority obligations of offsetting collections.

22.1.2. Claims Against Budgetary Resources

A DWCF Component must consider claims against budgetary resources in the determination of budget authority that is available for obligation. Claims against budgetary resources should be recorded in financial records of the DWCF entity. A DWCF Component should maintain financial records in sufficient detail to permit a segregation of budgetary resources and, within that segregation, an identification of claims against the budgetary resources.

22.1.2.1. In the event that budgetary resources available to a DWCF Component, activity group, or activity are not sufficient, a DWCF manager should not assume that sufficient budgetary resources exist elsewhere within the DWCF to fund obligations in excess of resources available. Rather, the manager of the DWCF Component, activity group, or activity, as applicable, must request, in writing, an increase in authority to incur obligations from its management command or responsible DWCF Component and must defer the incurring of additional obligations until budgetary resources are sufficient to fund them. The DWCF Component must document the authority to incur additional obligations in an Annual Operating Budget signed by the OUSW(C) P/B RFI.

22.1.2.2. Where a DWCF activity receives budgetary resources from more than one source, the receiving activity must maintain records which will enable it to control separately the transactions relating to each source and if the funds transferred are subject to restrictions different from those existing in the account to which transferred.

22.1.2.3. Of the three general availability restrictions of purpose, time, and amount, purpose should be determinable from administrative records while time and amount should be determinable from financial records.

22.1.2.4. A DWCF Component should have two primary types of financial accounts, proprietary and budgetary. The balance of budgetary resources available for obligation can be determined only from budgetary accounts. Proprietary accounts, by themselves, are not sufficient to determine budgetary resources.

22.1.3. Restrictions on Budgetary Resources

22.1.3.1. The DWCF is used to more effectively control and account for program costs and the work performed in the DoW. The Secretary of the Treasury establishes DWCFs upon request of the SecWar. A DWCF Component may only use amounts appropriated:

22.1.3.1.1. For the purpose stated in the appropriation act or other law providing the amounts, for no more than the amount appropriated or otherwise made available; and

22.1.3.1.2. Within the time period for which the funds are available for obligation and are subject to such other limitations and/or restrictions as may be stated in the applicable appropriation act or other law providing the amounts, and such other statutory restrictions, both express and implied, as may be relevant.

22.1.3.2. Budget Authority is the authority provided by law to incur financial obligations that will result in outlays.

22.1.3.2.1. Budget authority is available for obligation only in accordance with purpose, time, and amount restrictions imposed by statute, by apportionments imposed by the OMB, and by administrative limitations imposed by authorized officials within the OUSW(C) and the DWCF Components;

22.1.3.2.2. In addition to being subject to statutory restrictions, DWCF budget authority is apportioned and allocated to the sub-account level on the OMB's SF 132. WCF budget authority is administratively allocated to the activity group levels as appropriate. The allocated amounts may be further restricted through administrative action.

22.2 Supplemental Appropriation and Reappropriation

In instances where the DWCF requires additional capital beyond what is generated through customer reimbursements such as for major capital investments or to cover extensive losses, a supplemental appropriation may be requested from Congress. Similarly, unobligated balances from prior fiscal years may be reappropriated for new purposes, subject to congressional approval.

22.2.1. Receipt of the appropriation provides an immediate infusion of cash. The amount of the appropriation used must be accounted for and reflected in accounting records and financial reports.

22.2.2. Appropriation is a financing source against which expenses must be matched and reported on the Statement of Operations. If the amount of the appropriation is in excess of negative net and cumulative results of operations, the amount of the appropriation used must only be the amount sufficient to bring the total of accumulated operating results and net operating results to a zero-dollar ($-0-) position. The remaining amount of the appropriation must be used to offset any subsequent year net operating losses.

22.3 Customer Orders

22.3.1. Anticipation of Customer Order

22.3.1.1. The DWCF Component must estimate the dollar amount of reimbursable orders it expects to receive in the current fiscal year.

22.3.1.2 There must be a specific law that authorizes reimbursable work with non-Federal entities. A DWCF Component cannot cite the Economy Act as the statutory authority to perform work for non-Federal customer orders with or without an advance. A law must

specifically allow a DWCF activity to incur obligations against customer orders received from non-Federal sources with an advance.

22.3.1.3. Customer orders with advances from non-Federal sources are credited to a Treasury Appropriation Fund Symbols (TAFS) that is legally available for the work performed. Customer orders with advances from non-Federal sources are credited to a TAFS that is legally available for the work performed where the period of availability of the performing Federal agency TAFS is determined by the activity's general counsel.

22.3.2 Receipt of Customer Orders

22.3.2.1. Customer orders received are orders accepted for items to be furnished on a reimbursable basis. The amount of budgetary resources available for obligation from customer orders is the sum of orders received from Federal Government accounts that represent valid obligations of the ordering account, whether or not accompanied by an advance plus orders received from the public, including state and local governments, but only to the extent accompanied by a cash advance.

22.3.2.2. Throughout the year, unfilled customer order amounts should be adjusted to the extent that orders are filled, canceled, or new orders received.

22.3.3. Recognition of Reimbursement Earned (Revenue)

An earned reimbursement is the amount of the customer orders that have been filled, provided that in the case of orders from the public, including state and local governments, the amount is limited to the amount of the cash advance received. Earned reimbursements should not exceed the amount of individual customer orders as well as letters of intent, commanders' orders, congressionally mandated actions, and other emergency situations.

22.3.4. Treatment of Unearned Revenue

Unearned revenue consists of amounts received in advance for goods and services to be delivered at a future date. The appropriation language for DoW's DWCF permits the fund to receive advances for supplies and services. The DWCF business entities must be advanced funds identified in the DWCF customer orders during the fiscal year, as required, to enable the DWCF activity to pay for its costs of operation. The DoW Components receiving an advance must record the amount received as a liability until the payment is earned, i.e., goods or services have been delivered. After the payment is earned, the DoW Component must record the appropriate amount as revenue and reduce the liability accordingly.

22.4 Non-Expenditure Fund Transfers

22.4.1. Policy. Non-expenditure transfers may occur between the DWCF and other DoW accounts to adjust capital levels or transfer assets. These transfers do not represent an expenditure for the transferring account or a collection for the receiving account but rather a realignment of resources. All such transfers must be properly documented and approved by the OUSW(C).

22.4.2. Restrictions for Non-expenditure Transfers. Statutory restrictions on the purpose, availability, and use of appropriated funds require that no change be made to those restrictions through the use of a non-expenditure transfer into the DWCF unless such change is specifically authorized by law.

22.4.3. Procedural Guidance. For detailed procedures on executing non-expenditure transfers, refer to the Volume 11 Supplemental, Section 22.

23.0 DWCF COSTS AND COST ACCOUNTING

23.1 Working Capital Fund Costs

Working Capital Funds are designed to create a cost-conscious environment by making customers aware of the full cost of goods and services. Costs included in the stabilized rates and prices charged to customers must encompass all direct and indirect costs associated with the output. This includes direct labor, direct materials, and all overhead expenses. The goal is to operate on a break-even basis over the long term, where the rates charged recover the full cost of operations without generating a profit or a loss.

23.2 Cost Accounting Requirements for Depot Maintenance

23.2.1. Overarching Policy. DWCF depot maintenance activities that utilize a job order costing methodology must use formal cost accounting practices in compliance with the provisions of SFFAS 4. Activities must uniformly record, accumulate, and report job order costs to assist management and ensure compliance for all material types.

23.2.2. Managerial Cost Accounting. In accordance with SFFAS 4, DoD depot maintenance activities must:

23.2.2.1. Accumulate and report the costs of activities on a regular basis for management information purposes.

23.2.2.2. Establish responsibility segments, measure and report the costs of each segment's outputs, and calculate the unit cost of each output.

23.2.2.3. Determine and report the full costs of government goods and services, including direct and indirect production costs and G&A overhead costs.

23.2.2.4. Recognize the full costs of goods and services provided by other federal entities.

23.2.2.5. Use and consistently follow costing methodologies most appropriate to the segment's operating environment to accumulate and assign costs to outputs.

23.2.3. Procedural Guidance. For detailed procedures regarding the establishment of cost accounting modules, job orders, cost centers, and the specific handling of labor, material, and indirect costs, refer to the Volume 11 Supplemental, Section 23.

24.0 DWCF REIMBURSEMENTS AND REVENUE RECOGNITION

24.1 Reimbursement Principles

After initial capitalization, DWCF activities are financed primarily through reimbursements received from customers for goods and services provided. For non-federal customers, a cash advance is required before work begins. For detailed procedures on cash advances and the nature of reimbursements, refer to the Volume 11 Supplemental, Section 24.

24.2 Performance Under Project Orders and Economy Act Orders

DWCF activities may perform work for other federal agencies under the authority of Project Orders or Economy Act Orders. The DWCF activity must be reimbursed for the full costs incurred in the performance of such work. For detailed procedures regarding the de-obligation of excess funds upon completion of an order, refer to the Volume 11 Supplemental, Section 24.

24.3 Revenue Recognition

Recognize revenue when it is earned, not necessarily upon receipt of payment. Revenue is considered earned when goods are delivered or services are performed. SFFAS 7, "Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting," provides further guidance. For detailed procedures on the timing of revenue recognition and the treatment of unearned revenue, refer to Volume 11 Supplemental.

25.0 DWCF SUPPLY MANAGEMENT ACTIVITIES

25.1 Pricing of Inventory Items

25.1.1. The budgeting policy requirements for the budget development of prices for Supply Management Activities (SMA) items are in Volume 2, Section 10.

25.1.2. Standard Price

25.1.2.1. Charge DoW customers the standard price for DoW Inventory Control Point (ICP)-managed items (excluding subsistence), or Integrated Materiel Management (IMM) items. The Federal Logistics Information System (FLIS), accessible through WebFLIS, is the authoritative source of standard prices. Prices are computed based on factors, including replenishment cost of the item; surcharges for transportation, inventory loss, obsolescence, and maintenance; Capital Investment Recovery; and supply operations. Each cataloged inventory item with an assigned national stock number and, under DoW ICP management, must have a selling price for all authorized customers. See DoD Manual (DoDM) 4140.68 "Integrated Materiel Management of Nonconsumable Items," for non-consumable items standard pricing details.

25.1.2.2. Charge the standard price to non-DoW customers directly supporting DoW-related mission requirements. The selling price to other non-DoW customers is prescribed in Volume 2, Section 10.

25.1.2.3. DWCF activities must institute selling prices at the lowest practical item level to promote cost visibility/management and motivate cost effective customer/supplier behavior.

25.1.2.4. The SMA must determine the item standard price annually in advance of the execution year. The standard sales price is effective for billing purposes on the first day of the fiscal year. A standard price cannot change in the fiscal year without prior approval from the OUSW(C) P/B RFI. The dollar amount of unfilled customer orders accepted at the previous fiscal year's standard price must be adjusted (upon notification to and confirmation from the customer) to reflect the latest standard price when notice of the price change is received.

25.1.2.5. Catalog and assign all local procurements a standard price including any retail level cost recovery element. In accordance with the DoDM 4140.01, Volume 2, "DoD Supply Chain Materiel Management Procedures: Demand and Supply Planning," inventory retail level is the level below the wholesale, either at the consumer level for providing material to ultimate users or at the intermediate or region level. See DoDM 4140.01, Volume 2 for additional demand and supply planning guidance.

25.1.2.6. The DWCF establishes selling prices in the budget that are normally fixed during execution to mitigate the impact of unforeseen fluctuations on customers' ability to execute programs. See Volume 2, Section 10 for full recovery of costs and setting of prices.

25.1.2.7. The standard price must also contain the total materiel costs, see Volume 2, Section 10. Total materiel costs include:

25.1.2.7.1. Materiel costs (without inflation) for losses and gains from incoming and outgoing shipments, physical inventory adjustments, inventory losses as a result of shrinkage, theft, deterioration, damage contamination, defective items if not reimbursed by supplier, obsolescence, and adjustments to reconcile internal records.

25.1.2.7.2. Materiel Inflation (normal inflation) is the dollar amount of the inflation rate set by OMB. Materiel Cost Adjustments as outlined in Volume 2, Section 10 accounts for any anticipated price growth beyond normal inflation.

25.1.2.7.3. Loss/damage/washout/obsolescence are costs where a replacement unit is required. Activities that manage on an exchange carcass basis incur replacement cost for carcass losses and washouts. Lost carcasses, e.g., in transit to customer or supply system, must be investigated and necessary internal controls strengthened as required by Volume 12, Section 7. Carcass washouts are carcasses initially determined to be repairable but subsequently determined to be unrepairable and require replacement. If determined unrepairable due to customer-caused cannibalization or other malicious damage, charge the customer the difference between the exchange price and the current standard price, and this cost must not be

included in the surcharge element. Maintenance activities must maintain all documents, see Volume 1, Section 9.

25.1.2.8. In a system supporting exchange pricing, the price charged to customers returning a Depot Level Reparable part for repair and purchasing a serviceable (new or repaired) part, equates to the latest repair price plus wash out costs per item plus pricing elements necessary to recover other operating costs. If no carcass is returned, the customer must be charged the full standard price. See Volume 2, Section 10, for specifics on exchange pricing. Also, see Volume 4, Section 6, for information on supply turn-in.

25.1.2.9. Supply Management (SM) operations also incur non-materiel overhead and pricing adjustment costs, including adjustments for prior year operating results, approved surcharges, and other factors. The Cost Recovery Rate reflects the markup on total materiel costs required to recover operating costs, calculated by dividing total non-materiel costs by total materiel costs. This represents the percentage markup on materiel costs required to operate the supply activity. These cost elements are displayed on the SM-5a "Markup on Materiel Cost" exhibit in Volume 2, Section 10.

25.1.2.9.1. The provisioning cost element is provided when a weapon system was originally fielded under a contractor logistics support agreement. The component may fund the provisioning action in the standard item price if the contractor fails to perform or a component decision is made to transfer program management to a DWCF supply activity. The component may fund this action using contract authority without an immediate reimbursement if a funding source can be identified and used for reimbursement by the time of first delivery and the OUSW(C) P/B RFI, has preapproved the action. Preapproved reimbursable transactions of this type must be recorded as "other income" and not included in the standard price.

25.1.2.9.2. Inventory Augmentation. An anticipated inventory requirement that drives growth in inventory beyond replenishment, excluding appropriately resourced increases for mobilization. When required, the supply activity develops a financing strategy for the Program and Budget Review, or the Budget Execution Review if, in the year of execution, the activity must execute above its planned Unit Cost Ratio (UCR). When an activity internally augments inventory, regardless of the UCR, the activity provides a prioritization strategy in accordance with DoDM 4140.01, Volume 2. The Joint Logistics Resource Requirement Board co-chairs must approve the financing strategy. Recoup costs by direct appropriation or a cost recovery element in the pricing structure. See Volume 2, Section 10.

25.1.2.9.3. Unusual or nonrecurring losses, such as those due to armed hostilities, riot, or significant damage due to fire, flood, earthquake, storms, or other abnormal events, are not normal inventory losses and must not be included in the cost recovery element for inventory expenses. DWCF Activities must obtain approval from the OUSW(C) P/B RFI, to fund such losses.

25.1.2.10. The standard item sales price must include recovery of operating costs including payroll, personnel travel, transportation, defense agency billings, other DWCF

purchases, operating materials and supplies, rent/communications/utilities, depreciation, transportation, and other service contracts.

25.1.2.11. Other cost recovery elements, as approved by the OUSW(C) P/B RFI, during the budget review, may be added to the price and include Accumulated Operating Results adjustments, cash surcharges, and fund management adjustments.

25.1.2.12. The purpose of the cost recovery elements is to balance total revenues with total net operating costs. Total net operating costs must not include requirements funded by appropriations, such as war reserve materiel or national defense stockpiles (see Volume 4, Section 6). The costs within the recovery elements must account for the following as applicable:

25.1.2.12.1. The SMA finances the costs of wholesale ICPs and wholesale supply depot operations. Such costs include civilian labor and benefits, military labor, supplies, purchased services, and reimbursements to other defense agencies providing support. The cost of performing equivalent functions at the retail level (installation/area supply support) may be included in the cost assessed by the wholesale activities if the retail activity is managing the distribution of Defense Logistics Agency, General Services Administration, or any other government agency where an additional rate would not be applicable.

25.1.2.12.2. The SMA finances the costs of separate activities that exist primarily to benefit the wholesale ICP and/or a wholesale supply depot mission. Establish mission support overhead cost pools that identify civilian labor and benefits, supplies, purchased services, and other costs incurred in functions such as line management command and control, staff management and policy, centralized procurement, accounting, personnel, and automated data processing. The portion of overhead costs directly benefiting the SMA mission is allocated to, and reimbursed by, the SMA. The allocation must be prorated on the relationship of the cost of the benefits provided to the SMA, and to the cost for all activities or functions.

25.1.2.12.3. Shipping and transportation costs, including costs for packing, crating, handling, transportation, and, where appropriate, port loading, and unloading. Items may be shipped from a stocking point (issues) or to a stocking point (returns).

25.1.2.12.3.1. Transportation costs include SMA-issued items. To the extent that first destination transportation is not included in the acquisition cost, an estimate of the cost must be included. Second destination transportation (SDT) costs should assume average cost as adjusted by budget year projected changes. SMA generally finances SDT costs for transportation within the Continental United States (CONUS) and between overseas locations. Assess additional charges for expedited delivery.

25.1.2.12.3.2. The SMA must reimburse transportation and other shipping costs only for items approved by an item manager for return to the SMA from DoW customers.

25.1.2.12.3.3. Costs of shipping and transportation for customer return of reparable exchange carcasses. Accordingly, customers are not charged separately for the returns.

25.1.2.12.3.4. Shipping and transportation costs of item manager-directed Lateral Redistribution Orders (LRO) of stock. The ICP or IMM must reimburse the supplying/holding activity for packing, crating, handling, and transportation for ICP/IMM-directed materiel moves.

25.1.2.12.4. The costs of providing and managing commissary items, including related operating costs, must be identified as commissary operating costs. These costs include headquarters or regional-level costs. Commissary operating costs are reimbursed by appropriations for commissaries and the commissary trust revolving fund. See DoD Instruction 1330.17 for additional information.

25.1.2.12.5. If a SMA experiences a sudden decrease in volume of customer orders, it may require additional revenue to liquidate contract authority. Resources may be obtained through either transfer or direct appropriation, or by SMA establishment of a cost recovery element (or combination of both). The SMA will eliminate any cash surcharge once undelivered order stock levels have stabilized for the new volume of demand.

25.1.2.13. A cost recovery element used by a retail-level supply activity:

25.1.2.13.1. Will include inventory (materiel) expenses for retail-managed items which are the net of gains and losses, obsolescence, and shelf-life deterioration.

25.1.2.13.2. May include other cost recovery elements, when approved by the OUSW(C) P/B RFI.

25.1.3. Foreign Military and Private Party Sales. Per Volume 15, the DWCF must sell items to Foreign Military Sales customers at the current price. The current price is also applicable to private parties (state and local governments, and non-governmental entities not under a DoW contract) authorized SM support.

25.1.4. Lateral Redistribution of Stock. When another activity has stock to fill an order, a SMA may direct an LRO to that activity to issue stock directly to the customer. As provided in DoDM 4140.01, Volume 5, "DoD Supply Chain Materiel Management Procedures: Delivery of Materiel," LRO billing procedures ensure a supply holding activity is reimbursed for both the standard price of the materiel and standard packing, crating, handling, and transportation costs. The item manager will bill the customer for the standard price of the materiel and pay the supply holding activity via the ICP/IMM for the standard price of the materiel and the standard packing, crating, handling, and transportation costs. DoW Components facilitating LROs must record outlays of Fund Balance with Treasury (FBwT) as a disbursement. Recording a negative collection is prohibited. Since these are intra-agency transactions, trading partners must use the correct detailed transaction-level codes. See the Deputy Chief Financial Officer financial policy memorandum (FPM), "Accounting Treatment of Lateral Redistribution Activities (FPM 20-05)."

25.1.5. Authorized Changes of Standard/Exchange Prices. Prices cannot be changed during a fiscal year without justification to, and prior written approval of the OUSW(C) P/B RFI. The item manager will group all approved price changes and release for updates to the SMA's pricing catalog not to exceed once a month. The only exceptions to the price changes requirement

for prior approval are: Unit of issue changes; First time buys; and Contract modifications or new contracts for the same requirement.

25.1.6. Discount Pricing. Product prices must reflect the full cost of the product and the related management activity unless the following conditions are met, and approved by OUSW(C) P/B RFI:

25.1.6.1. Requests to discount item prices must include an impact analysis of the anticipated cost (profit/loss) and Component approval.

25.1.6.2. Reductions from standard prices may be made for an actual difference in item utility or desirability due to age, condition, or model for items being phased out of the system; and items no longer procured, with limited remaining shelf-life, in less-than "fully serviceable" condition, or in long supply, i.e., assets stratified as "potential reutilization stock."

25.1.6.3. See Volume 4, Section 6, for SMA development of exchange transaction prices.

25.1.7. Pricing for Additional/Premium Service. Components may establish and offer variable levels of service related to a product, at variable prices, to allow customers to economize according to needs. Appropriate fees may be established annually and may vary according to the item/class of items. Refunds (credits) are available when a customer paid but was not provided a level of service. Customers are authorized to pay for enhanced service; this policy does not authorize reduced charges. Individual orders may be assessed an additional cost based on the following elements:

25.1.7.1. Expedited delivery.

25.1.7.2. Delivery outside the CONUS based on destination.

25.1.7.3. Depot handling fees related to order issues only. The fee(s) includes a minimum charge for low priced orders, a standard charge for bin item issues, a standard charge for normal bulk item issues, and special charges for unusual bulk item issues, e.g., special handling and extraordinary quantities.

25.1.7.4. Other additional/premium charges as approved by OUSW(C) P/B RFI.

25.1.8. Capital Investment Recovery Reflects the estimated recoupment of all assets defined by the capital program in terms of recoupment of outlays. See Volume 2, Section 10 for details on recovering these infrastructure related costs.

25.2 Contract Authority for Supply Management Operations

25.2.1. Background

25.2.1.1. Based on 10 U.S.C. § 2210, obligations may be incurred against anticipated reimbursements, without regard to fiscal year limitations. OMB Circular No. A-11

defines Contract Authority as a type of budget authority permitting obligations in advance of appropriations, offsetting collections, or receipts to make outlays to liquidate the obligations.

25.2.1.2. Contract Authority is apportioned and allocated without a supporting Treasury cash balance. Consequently, contract authority must be replaced or liquidated by other budgetary resources. Contract Authority is apportioned to the DWCF Capital Programs and the SM Operating Programs for the current fiscal year of the apportionment only, and for no other fiscal year.

25.2.2. Budgetary Resources

25.2.2.1. SM budgetary resources available during the current fiscal year consist of congressionally appropriated and re-appropriated amounts made available; the net of any non-expenditure transfers and internal distributions of budgetary authority into and out of the SMA and other Federal Government accounts (cash transfers); and apportioned contract authority.

25.2.2.2. Liabilities (accounts payable) are typically payable from the FBwT within the terms of the Prompt Payment Act, 31 U.S.C. Chapter 39, as implemented under Title 5, Code of Federal Regulations, Part 1315. Unfunded (unliquidated) contract authority is a SMA long-term liability because budgetary resources required have not yet materialized through customer orders or Congressional appropriations.

25.2.2.3. Unobligated appropriation balances are not available for use in the subsequent year unless reapportioned as a new apportionment in the new fiscal year.

25.2.2.4. The OMB may approve and apportion contract authority in the amount of the approved SMA-operating program, which may include the amount of the requested variability target or a portion thereof.

25.2.2.5. The OMB apportions contract authority on the SF 132, “Apportionment and Reapportionment Schedule.” The Office of the Deputy Comptroller P/B allots contract authority on the Annual Operating Budgets.

25.2.2.6. Apportioned contract authority is either obligated or returned. Obligated contract authority is substituted with the receipt of customer orders and then liquidated with revenue collection from order fulfillment. With Congressional approval, appropriations can be used to liquidate contract authority rather than spending authority from offsetting collections.

25.2.2.7. Customer orders received are requisitions and other orders accepted for furnishing items on a reimbursable basis. Order-generated budgetary resources are available to fund obligations provided that, in the case of orders from the public, an advance has been collected. Contract authority must not be used to fulfill orders from the public unless an advance is collected and reflected in the SMA's FBwT, except when explicitly authorized by law.

25.3 Contract Authority and Cash Management

25.3.1 Components' activity groups are responsible for cash management (see Volume 2, Section 10). The liquidation of contract authority is only authorized by collections from customer orders or by an appropriation. SM cash collections are the primary funding source for liquidation unless otherwise approved in writing by OUSW(C) P/B RFI.

25.3.2. SM activities may also submit requests as part of the component's budget request, for appropriations to liquidate contract authority, if a change in customer demands warrants this action. Similarly, OUSW(C) P/B RFI, must pre-approve in writing any proposed budget negative surcharges, other than Accumulated Operating Results recovery.

25.4 Multiple-Year Contracts

25.4.1. Overview

25.4.1.1. SM activities are authorized to use multiple-year contracts to procure items from a single contractor and more than one annual program increment of items to obtain an Economic Order Quantity (EOQ).

25.4.1.2. The SMA determines if items with stable demand are sole sourced and/or acquired by a multiple-year contract.

25.4.1.3. SM activities fund advance EOQ procurement for manufacturing components, parts, and raw material in quantities exceeding the current annual requirement when it is cost effective to do so. Advance procurements may be funded fully in single-year increments on a termination liability basis or included in a multiple-year contract with the nonrecurring contract costs.

25.4.1.4. Pursuant to 10 U.S.C. § 3501, the DoW is authorized to enter into multiple-year contracts containing cancellation clauses that may include both nonrecurring and recurring costs. This law specifies congressional reporting requirements based on cancellation ceilings. Furthermore, annual DoW appropriations acts may limit the use of multiple-year contracts. The OUSW(C) P/B RFI, must approve, prior to contract award, a single contract in excess of $100 million or $10 million in estimated termination liability. Each separate contract option must be treated as a single contract event, with the dollar amounts determining whether OUSW(C) P/B RFI approval is required.

25.4.2. Obligations. The SMA must obligate the minimum amount required for the period of the contract.

25.4.2.1. If the contract provides for annual terms with options to extend the terms in subsequent years, the Government must obligate the amount required to be procured in the first year. The obligation for each option year must be recorded when the option is exercised.

25.4.2.2. If the contract provides for minimum quantities over a period of more than one year, the obligation must be recorded for the sum of the minimum quantities times the

agreed price. If the contract provides for minimum dollar amounts for a period of more than one year, the obligation must be recorded for the sum of the minimum dollar amounts.

25.4.2.3. The bona fide needs rule, derived from 31 U.S.C. § 1502(a), applies to appropriations limited to a definite period of time. Although the rule does not statutorily restrict a SMA from incurring obligations against contract authority for subsequent fiscal year requirements, contract authority may impose limitations on execution of obligations. Also, SM activities use contract authority to incur obligations to acquire stock or forecasted customer orders, and do not execute customer budgetary resources. Therefore, the timing of SMA's contract authority obligations does not govern, establish, or reflect the customers' appropriation bona fide need.

25.4.3. Cost of Items. The cost of items procured by multiple-year contracts must be the amount paid for each item. If termination costs are incurred or if minimum guaranteed amounts are not met for items procured, the additional costs paid under the terms of the contract must be recorded as SMA materiel obligations.

25.5 Budgetary Accounts

25.5.1. Overview. Budgetary accounts are used to control and account for obligation authority received from appropriations and contract authority apportioned by OMB. SM activities are subject to apportionment, as required by the ADA, in accordance with the procedures prescribed in OMB Circular No. A-11, "Instructions on Budget Execution" and Volume 3, Section 17.

25.5.2. Allotments. Annual Appropriation Act general provisions provide that, "Except in amounts equal to the amounts appropriated to DWCF in this Act, no obligations may be made against a DWCF to procure war reserve materiel inventory unless the Secretary of War has notified the Congress prior to any such obligation." Obligation authority for mobilization must be allotted and allocated separately as a direct program. Conversely, non-mobilization obligations must be allotted and allocated separately as a reimbursable program and accounted and reported separately.

25.5.3. Budget Execution Balances for budgetary accounts are displayed on the SF 133, "Report on Budget Execution and Budgetary Resources" and the Defense Finance and Accounting Service "Accounting Report (Monthly) 1307, part VII" (see Volume 3, Section 17).

FINANCIAL MANAGEMENT REGULATION

VOLUME 12: "SPECIAL ACCOUNTS, FUNDS, AND PROGRAMS"

UNDER SECRETARY OF WAR (COMPTROLLER)

Table of Contents

1.0 GENERAL 4
2.0 FUNDS 4
3.0 CONTRIBUTIONS FOR DEFENSE PROGRAMS, PROJECTS, AND ACTIVITIES 9
4.0 DIRECT LOANS AND LOAN GUARANTEES 13
5.0 GRANTS AND COOPERATIVE AGREEMENTS 16
6.0 FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY, LOST, DAMAGED, DESTROYED, OR STOLEN 21
7.0 FOREIGN NATIONAL EMPLOYEES SEPARATION PAY ACCOUNT, DEFENSE 24
8.0 INTERNATIONAL AGREEMENTS 25
9.0 FUNDING CIVILIAN SEPARATION INCENTIVES AND CIVILIAN PERSONNEL TRANSITION INITIATIVES 30
10.0 PRIVATIZATION OF WAR UTILITY SYSTEMS 31
11.0 ENERGY AND WATER SAVINGS AND REVENUE MANAGEMENT 32
12.0 FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT 34
13.0 TRANSFERRING, DISPOSING, AND LEASING OF REAL PROPERTY AND PERSONAL PROPERTY 36
14.0 EDUCATIONAL ASSISTANCE PROGRAMS 36
15.0 MILITARY PERSONNEL ENTITLEMENT PROGRAMS 38
16.0 DOW REWARDS PROGRAM 42
17.0 FOOD SERVICE PROGRAM RESPONSIBILITIES 44
18.0 MILITARY ACADEMY DINING HALL OPERATIONS 47
19.0 FINANCIAL MANAGEMENT FOR DEFENSE HEALTH PROGRAM RESOURCES 48
20.0 CONTINGENCY OPERATIONS 54
21.0 BURDENSHARING AND OVERSEAS RELOCATION CONTRIBUTIONS BY FOREIGN ALLIES 60
22.0 DISPOSITION OF NON-DOW PERSONAL PROPERTY 62
23.0 ADMINISTERING, USING AND ACCOUNTING FOR SEIZED AND/OR VESTED FUNDS AND PROPERTY DURING CONTINGENCY OPERATIONS 65
24.0 OPERATION AND USE OF GENERAL GIFT FUNDS 65
25.0 DOW BRANDING AND TRADEMARK LICENSING PROGRAM 68

26.0 COLLECTION AND RETENTION OF CONFERENCE FEES FROM NON-FEDERAL SOURCES 69

27.0 FINANCIAL INSTITUTIONS AND MILITARY BANKING FACILITIES ON DOW INSTALLATIONS 71

28.0 DIRECT ACCEPTANCE OF GIFTS BY MEMBERS OF THE ARMED FORCES, DEPARTMENT OF WAR EMPLOYEES AND THEIR FAMILIES AND SURVIVORS 76

VOLUME 12

SPECIAL ACCOUNTS, FUNDS, AND PROGRAMS

1.0 GENERAL

1.1 Purpose

Volume 12 is the Department of War's (DoW) authoritative volume for specialized financial matters that are not part of routine operations. It establishes the official policies for managing a variety of fund types, including General, Special, Trust, and Revolving Funds.

This volume provides the authoritative guidance for the financial administration of special-purpose accounts and programs, covering transactions like contributions and loans. It details the rules for specific initiatives such as contingency operations, base closures, international agreements, and personnel entitlements like the GI Bill and the Military Retirement Fund (MRF). The core purpose of this guidance is to ensure all specialized financial activities are conducted with legality, consistency, transparency, and accountability across the DoW.

1.2 Authoritative Guidance

Refer to the Volume 12 authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary on the FMR webpage.

1.4 Procedures

Refer to the Volume 12 Supplemental on the FMR webpage for sections listed throughout this volume.

2.0 FUNDS

2.1 Reference

Refer to the Volume 12 Supplemental for more information on Fund Groups and Symbols.

2.2 General Funds

2.2.1. Unless specific statutory authority authorizes a reimbursement to an appropriation account or fund (including special funds), DoW Components must credit all collections to the appropriate general fund receipt account. However, obligations incurred that result in, or as a result of, a general fund receipt account collection or receivable must be recorded in the budgetary accounts of a direct appropriation or fund. Such obligations may be recorded as reimbursable obligations only when authorized to be reimbursed independent of the general fund receipt collection.

2.2.2. DoW Components must record accounts receivable for the general fund receipt accounts whenever an event determines that money is owed to the United States (U.S.) Government. General fund receipt account receivables may be recorded at a summary level. Examples include:

2.2.2.1. A receivable must be recorded for general fund receipt account 2651, "Sale of Scrap and Salvage Materials, Defense," based upon the recording of an issue or the transfer of ownership of scrap or salvage material to a buyer. (Normally, a cash payment is required.)

2.2.2.2. A receivable must be recorded for general fund receipt account 3019, "Recoveries for Government Property Lost or Damaged, Not Otherwise Classified, Army, Navy, Air Force," based upon the receipt of an approved DoW DD Form 200, "Financial Liability Investigation of Property Loss."

2.2.2.3. The accounting for receivables and collection of those receivables in general fund receipt accounts are described in Volume 4.

2.3 Clearing, Default, and Custodial Accounts (3500-3885)

Temporary Account Requirement. Since accounts F36XX, F3875, and F3885 are temporary in nature, DoW Components must expeditiously transfer all monies to the proper account to minimize the balance. Use of these suspense accounts are valid if approved by the U.S. Department of the Treasury (Treasury) provided the suspense account transactions are reclassified to the correct line of accounting and properly reported in the accounting system within 60 days.

2.4 Management Fund Accounts (3900-3999)

2.4.1. A management fund must be used only to finance the costs of operations which are chargeable to appropriations or funds of a DoW Component. Projects may encompass participation by organizational units of one DoW Component or of two or more DoW Components.

2.4.2. A management fund may not be used to finance any activity that involves a continuing cycle of business-type operations, such as industrial or commercial-type activities, or to purchase materiel for stock. It may be used to finance the purchase of materiel for use in an operation or project operated under a management fund.

2.4.3. A management fund may not be used to finance a new operation or project, although eligible under paragraph 2.3, if other effective and efficient financing techniques are available. In general, appropriation reimbursements must be used. However, industrial funds must be used to finance industrial or commercial-type activities, and stock funds must be used to finance the acquisition of consumable (expense-type) materiel for stock.

2.4.4. Management fund accounts are subject to periodic internal audits.

2.4.5. Responsibilities

2.4.5.1. The Office of Under Secretary of War (Comptroller) (OUSW(C)) and Deputy Chief Financial Officer (DCFO) must:

2.4.5.1.1. Ensure that a management fund account is established or continued only when there is no other effective and efficient financing technique available to accomplish the proposed operation or project. The OUSW(C) DCFO will receive, review, evaluate and approve proposed management fund account charters. Refer to Figures 1-1 and 1-2 within the Volume 12 Supplemental.

2.4.5.1.2. Review and evaluate proposed management fund account charters or amendments and recommend to the Under Secretary of War (Comptroller) (USW(C)) the establishment or continuance of a management fund account.

2.4.5.2. The Heads of DoW Components must:

2.4.5.2.1. Propose use of a management fund as a financing technique, when considered appropriate, in accordance with the provisions of this section.

2.4.5.2.2. Oversee compliance with this section regarding the provision for budgeting, financing, accounting, and reporting for management fund accounts in use by their Component.

2.5 Revolving Funds (4000-4999)

2.5.1. Revolving funds subject to apportionment are apportioned on an obligation basis. The DoW Component must submit an SF 132, 'Apportionment and Reapportionment Schedule,' to the Office of Management and Budget (OMB) for approval of the budgetary authority needed for the operation of the revolving fund for a fiscal period. A fiscal period may be a quarter of a fiscal year or a full fiscal year. For more information regarding Revolving Funds, refer to Volume 12 Supplemental section 2.5.

2.5.2. Claims against budgetary resources, such as delivered and undelivered orders, are obligations of a revolving fund and must be subtracted from unobligated balances when incurred. Obligations for the procurement of inventories, as well as for the acquisition of other revolving fund assets, must be recognized, recorded, and reported along with other obligations.

2.5.3. Incurring obligations or authorizing the incurrence of obligations more than apportioned budgetary resources must be reported as an apparent violation of the administrative control of funds provisions contained in Volume 14. This reporting requirement applies whether a revolving fund has unapportioned budgetary resources or nonbudgetary assets greater than the amount of the deficiency.

2.5.4. Each revolving fund is required to submit a separate set of reports to the Treasury as described in Volume 6. Therefore, the data required for each revolving fund to prepare these reports must be identified within the DoW Component's accounting system.

2.6 Special Funds (5000-999)

Special Fund Expenditure Accounts. The accounting for special fund expenditure accounts must be in accordance with the provisions of this Regulation. However, each special fund must be viewed as a unique fund considering any special provisions in the enabling legislation.

2.7 Deposit Funds (6000-6999)

Deposit fund accounts are established to account for collections that are either held temporarily and later refunded or paid upon administrative or legal determination as to the proper disposition thereof, or held by the government as banker or agent for others and paid out at the direction of the depositor. Deposit funds are liabilities of the Federal Government. Deposit fund transactions are excluded from the budget totals because the amounts are not owned by the government, and therefore are not available for the incurrence of any Federal Government obligations or payment of any Federal Government obligations. This section identifies various types of deposit funds.

2.7.1. Unidentified Remittances. Unidentified remittances must be credited as suspense items outside the budget unless there is a reasonable presumption that they will be credited ultimately to a receipt, appropriation (expenditure), or other fund account within the budget, in which case amounts must be credited to the receipt clearing fund accounts. An example of a DoW deposit fund account is the Army's Group Life Insurance Fund, fund account symbol 021X6434.

2.7.2. Unclaimed Collections. On a quarterly basis, DoW Components must initiate action to clear unclaimed collections held in their trust, revolving, and deposit fund accounts for more than one year. Unclaimed collections are money held by the government for individuals whose whereabouts are unknown. Unclaimed collections of $25 or more are transferred to "Payment of Unclaimed Moneys" with the accounting citation 020X6133, if held for more than one year. This account represents money that, when claimed, is properly refundable to the legal owner of the funds. Unclaimed collections of less than $25 or amounts of $25 or more that have been held for more than one year for which the rightful owner can be neither identified nor located are transferred to R1060 unclaimed amounts.

2.8 Trust Funds (8000-8999)

2.8.1. Trust Fund Receipt Accounts. The Department credits trust fund receipt accounts with receipts generated by the terms of a trust agreement or statute that designates a fund as a trust fund. At the point of collection, these receipts are either available immediately or unavailable for expenditure depending upon statutory requirements. Accounting for trust funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund considering any special provisions in the trust agreement or the enabling legislation. Because of the unique nature and magnitude of impact of the deposits, advances, and Foreign

Military Sales (FMS) related to the Executive trust fund, special accounting requirements have been established in Volume 15.

2.8.2. Trust Fund Expenditure Accounts. Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

2.8.3. Trust Revolving Funds (8400-8499). Accounting for trust fund expenditure accounts and trust revolving funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund considering any special provisions in the trust agreement or the enabling legislation.

2.9 Available Receipts

Available receipts are special or trust fund receipts that, pursuant to law, are available as appropriations to a single agency for expenditure without further congressional action. However, in some fund accounts, use is restricted to investment only or is precluded by a limitation or benefit formula. An available receipt account carries the same symbolization as its corresponding expenditure account in that an "X" is inserted to indicate the period of availability of such funds for obligation. However, in special circumstances, available receipts that are earmarked for current year obligations and expenditures initially are placed in an unavailable receipt account until Fiscal Service prepares a warrant to move the funds to a current fiscal year expenditure account.

2.10 Unavailable Receipts

These are receipts that, at the time of collection, are not appropriated and not immediately available for expenditure. Unavailable receipts held in special and trust fund receipt accounts are unavailable for expenditure until appropriated pursuant to specific legislative provisions. Unavailable receipts are sometimes invested. In these circumstances, Treasury designates the fund as "available only for investment."

2.11 Transfer Appropriation Accounts

Fiscal Service establishes transfer appropriation accounts to receive (and subsequently obligate and disburse) allocations treated as nonexpenditure transactions. These accounts carry symbols identified with the original appropriation from which monies were advanced. A transfer appropriation account is symbolized by adding the receiving agency's department prefix to the original appropriation or fund account symbol. A bureau suffix identifies that the transfer is to a particular office or bureau within the receiving department. For example, 017-097 06 0100 represents a transfer of funds that was initially appropriated to Defense Agencies (097) and was transferred to the Department of the Navy (017) for execution purposes.

2.12 Patent Royalty Activities

2.12.1. Each fiscal year, Treasury will create a new three-year Treasury Account Symbol (TAS) to record collections and payments of expenses related to patent royalties. DoW Components should obligate and disburse directly from the three-year TAS for the purposes specifically authorized in Title 15, U.S. Code Section 3710c (15 U.S.C. § 3710c), which states that collections are only available for three years.

2.12.2. DoW Components must record the collections in the United States Standard General Ledger (USSGL) 426600 – Other Actual Business-Type Collections from Non-Federal Sources. USSGL 426600 provides direct budget authority on line 1800 of the Standard Form (SF) 132 and SF 133.

3.0 CONTRIBUTIONS FOR DEFENSE PROGRAMS, PROJECTS, AND ACTIVITIES

3.1 Defense Cooperation Account

A special account is established in the Treasury for receipt of monetary contributions and proceeds from the sale of real or personal property contributions accepted by the Secretary of War (SecWar), or designee under 10 U.S.C. § 2608.

3.2 Authority

3.2.1 SecWar. 10 U.S.C. § 2608 provides authority for the SecWar to accept, for use by the Department, from any business (or person), foreign government, or international organization, any contribution of money or real or personal property. It may accept from any foreign government or international organization any contribution of services.

3.2.2. Under Secretary of War (Comptroller) (USW(C)). Authority to accept such contributions has been delegated to the USW(C), who also serves as the single point of contact in the Department for the Departments of State and the Treasury with respect to all matters involving the receipt, administration, and distribution of contributions of funds from foreign countries for defense programs.

3.2.3. Military Departments (MILDEPs) and Defense Agencies. The Secretaries of the MILDEPs and the Directors of the Defense Agencies have authority to accept from any business (person) or international organization any contribution of real or personal property for use by their organizations.

3.2.4. Washington Headquarters Services (WHS). Given WHS responsibility for the management of property and physical assets at the Pentagon and to maintain consistency in property accountability, the Director of the WHS has authority to accept contributions of personal property offered to the Office of the Secretary of War (OSW) for use at the Pentagon.

3.2.5. Delegation of Authority. The USW(C) may provide additional delegations of authority to accept contributions of real and personal property or services on a case-by-case basis.

3.3 Policy on Contributions

3.3.1. Nonmonetary Contributions. These are contributions in the form of real property (fixed assets such as land, buildings, other structures, and facilities), tangible property (inventory or items held for sale, operating materials, supplies, and equipment), or services that would benefit the DoW, if accepted. Once the DoW accepts these contributions, the intent of the accounting standards (Statements of Federal Financial Accounting Standards (SFFAS)) is that the benefiting DoW organization should recognize the contribution in its financial statements. See Volumes 4 and 6 for accounting and reporting guidance.

3.3.1.1. The receiving DoW organization recognizes a change in inventory, stock, or plant, property, and equipment (PP&E) related records once transfer of the goods or services is made, thus making DoW the legal owner of said goods or services. An organization receiving donated general PP&E determines its fair value at the time it was acquired by the government. Donations of assets or services must be reported quarterly to the Defense Finance and Accounting Service (DFAS), Indianapolis, 8899 East 56th Street ATTN: Trust Fund Accounting Division, Column 203L, Indianapolis, Indiana 46249-1500 (see subparagraph 3.5.1).

3.3.1.2. The receiving organization must document and retain on file the details of each non-monetary contribution received. For audit purposes, the receiving organization must retain the supporting documentation in accordance with the National Archives and Records Administration – General Records Schedules.

3.3.2. Monetary Contributions. The USW(C) retains the authority to accept all monetary contributions. Monetary contributions are not generally accepted with restrictions, i.e., with designations for specific programs or purposes.

3.3.2.1. Contributions in Cash

3.3.2.1.1. Cash contributions, including proceeds from the sale of any contributed property, must be deposited into the Defense Cooperation Account (DCA) as soon as practical, but not later than the last day of the month.

3.3.2.1.2. Consistent with sound cash management practices, any cash accepted, under USW(C) authority, must be either converted into a check and forwarded to the DFAS using overnight delivery service or deposited into a Treasury General Account with funds transferred to the DCA via electronic funds transfer--whichever process results in the earliest deposit of funds into the DCA.

3.3.2.1.3. Any funds forwarded by electronic funds transfer (EFT) must be deposited within 24 hours into the DCA under ALC 9720010 and Account Number 97X5187.1. Additionally, the DFAS Trust Fund Accounting Division must be notified prior to forwarding any funds electronically.

3.3.2.1.4. Documentation associated with cash contributions, including copies of deposit tickets and the original correspondence from contributors, must be forwarded within 24 hours of the deposit using overnight delivery service to the DFAS Trust Fund Accounting Division.

3.3.2.2. Contributions by Check

3.3.2.2.1. Checks received by DoW officials must be made payable to the "United States Treasury." The reference line on the check should indicate the "Defense Cooperation Account."

3.3.2.2.2. Checks received by DoW officials must be forwarded to the DFAS Trust Fund Accounting Division. The DFAS must deposit such funds within 24 hours of receipt into the DCA under ALC 9720010 and Account Number 97X5187.1.

3.3.2.2.3. Documentation associated with check contributions, including the original of any correspondence from contributors must be forwarded with the check.

3.3.2.3. Contributions by Wire Transfer

3.3.2.3.1. Contributions by wire transfer eliminate delays in receiving deposits and provide the most efficient preliminary accounting information for investment purposes.

3.3.2.3.2. After approval by the USW(C), donors may make contributions to the DCA via EFT from commercial banks to "Account Number 1" in the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York must credit the Department accordingly, using the format in the Volume 12 Supplemental.

3.3.2.3.3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors must be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.3.2.4. Contributions in Foreign Currencies (Cash or Check). Upon notice of a planned large contribution ($1 million or more) to be made in foreign currency, the cognizant DoW official must:

3.3.2.4.1. Request the donor provide as much lead time as possible regarding the amount of the contribution and the estimated date the contribution will be made.

3.3.2.4.2. Advise the USW(C) and the DFAS Trust Fund Accounting Division of any planned contributions and continue to keep that office advised of the status until the donor makes the currency transfer.

3.3.2.4.3. Upon approval by the USW(C), request the donor credit the foreign currency contribution to the Federal Reserve Bank of New York "Account Number 1" via the donor's central bank. If the Federal Reserve Bank does not maintain an account with a particular donor, the DoW official should seek guidance from the DFAS Trust Fund Accounting Division for appropriate alternative arrangements.

3.3.2.4.4. Foreign checks received by DoW officials must be converted to a check denominated in U.S. dollars prior to being forwarded to the DFAS or transferred electronically into the DCA.

3.3.2.4.5. Cash and checks received by DoW officials in countries not served by a DoW disbursing officer must, upon approval by the USW(C), be delivered to the nearest U.S. Embassy within 24 hours of receipt for deposit in the DCA, under ALC 97200010 and Account Number 97X5187.1.

3.3.3. Policy on Acceptance of Contributions

3.3.3.1. Authorities that may accept contributions must use sensitivity and scrutiny when contributions are offered from prohibited sources and, if there is a question on propriety, must consult with their Ethics Counselor to determine whether accepting a contribution would violate any prohibition or reflect unfavorably on the Department. "Prohibited source" and "Ethics Counselor" must have the meanings set forth in DoD Directive (DoDD) 5500.07, "Ethics and Standards of Conduct."

3.3.3.2. Authorities that may accept contributions may pay all necessary expenses in connection with the conveyance or transfer of a contribution. Contributions should not be accepted if it would result in substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit.

3.3.3.3. Department personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a contribution.

3.3.4. Authorities that may accept contributions may acknowledge offers of future contributions and advise the donors that acceptance will occur after actual presentation of the contributions only when they determine that such acceptance will likely occur.

3.4 Reporting on Contributions

3.4.1. Reporting Requirements. Not later than 10 days after the end of each quarter, each DoW official that has accepted and received a nonmonetary contribution must submit a report to the DFAS Trust Fund Accounting Division that identifies elements cited within the Volume 12 Supplemental.

3.4.2. DFAS Reporting Requirement. Not later than 15 days after the end of each quarter, the DFAS must prepare and forward to the USW(C) a report to be submitted to Congress that provides information cited within the Volume 12 Supplemental.

3.5 Investing Contributions

3.5.1. General. Consistent with good cash management practices, funds in the DCA must be invested in securities of the United States or in securities guaranteed as to principal and interest by the United States.

3.5.2. Purchasing Government Securities. Refer to the Volume 12 Supplemental document for the DFAS requirements for purchasing Government securities.

3.5.3. Selling Securities. Refer to the Volume 12 Supplemental document for the DFAS requirements for selling Government securities.

3.5.4. Maturing Securities. The DFAS must maintain a tracking system that identifies impending maturities and collections of securities for the DCA and ensure appropriate reinvestment action is taken upon maturity of a security.

3.5.5. Payments or Transfers. The Congress must authorize payments or transfers from the DCA. The USW(C) will provide withdrawal notification to the DFAS, which must ensure appropriate action is taken.

3.5.6. Annual Reviews. The DFAS will conduct an annual review of the DCA operations and transactions, including the purchase and sale of investments. The objective of the review will include compliance with the DoW and the Treasury policies and procedures, and adequacy of internal controls.

4.0 DIRECT LOANS AND LOAN GUARANTEES

This section establishes the DoW policies for direct loans and loan guarantees for non-Federal borrowers. The policies for credit programs reflect the requirements of the ***Federal Credit Reform Act of 1990*** (FCRA) as amended. The major purposes of the FCRA are to: (a) measure more accurately the costs of Federal credit programs; (b) place the cost of credit programs on a budgetary basis equivalent to other Federal spending; (c) encourage the delivery of benefits in the most appropriate form to meet the needs of beneficiaries; and (d) improve the allocation of resources among credit programs and between credit and other spending programs.

4.1 Accounting Standards

4.1.1. Netting Subsidy Re-estimate Amounts (within Cohorts). To calculate subsidy costs, components begin by estimating the expected cash flows and inflows over the life of the loans for each cohort year. Expected cash flows are then discounted to the point of the loan disbursement to determine the net present value. The subsidy cost represents the net present value cost of making or guaranteeing new loans.

4.1.1.1. The data used for budgetary subsidy cost estimates are updated, or re-estimated, annually after the end of the fiscal year to reflect actual loan performance and to incorporate any changes in assumptions about future loan performance. Re-estimates must be made immediately after the end of each fiscal year, if any loans in the cohort are outstanding.

4.1.1.2. OMB Circular No. A-11, Part 5, Section 185.6 (f), "Reestimate Increases/Decreases," states that in cases where agencies execute a risk category on a loan-by-loan basis, increases or decreases in subsidy cost for different loans within the same cohort and risk category will be netted against each other. Loans that require increased subsidies should draw on the excess from any risk categories within the cohort where the re-estimate shows a subsidy decrease. A negative or downward subsidy re-estimate should be recognized as a direct reduction in expense, not as a revenue, gain, or other financing source.

4.1.1.2.1. If the netting within the cohort indicates a net increase in the subsidy cost of the cohort since the last estimate or re-estimate, an obligation in the amount of the net increase (plus interest) must be recorded against permanent indefinite budget authority available to the program account for this purpose.

4.1.1.2.2. If the netting within the cohort results in a net downward re-estimate, there is no overall increase in subsidy cost for the cohort, and hence no additional appropriated subsidy for the program account. To keep the correct balances in the financing account, an obligation and a financing disbursement in the amount of the net decrease (plus interest on the re-estimate) must be recorded in the financing account.

4.1.1.2.3. Within the financing account, any amounts borrowed for downward re-estimates for individual loans not needed for/transferred to loans with upward re-estimates are transferred to a miscellaneous receipt account.

4.1.1.3. The DFAS maintains separate accounting records for each loan and loan guarantee with all accounting transactions. All projects having a downward re-estimate, whether they are in a cohort with an upward re-estimate project, borrow the gross amount of their respective downward re-estimates from the Treasury's Bureau of the Fiscal Service. The borrowed funds received by a downward re-estimate project is transferred to the amount needed to fund an upward re-estimate project in the same cohort, with any net remaining funds paid to the Treasury.

4.1.1.3.1. The downward re-estimate project records such intracohort transfers as a credit to USSGL account 427100 "Actual Program Fund Subsidy Collected" with an offsetting debit to USSGL 427100 recorded by the upward re-estimate project. Consequently, the total re-estimate amount included in Line 4120 "Federal Sources" on the SF 133 "Report on Budget Execution and Budgetary Resources" is the sum of the net cohort balances.

4.1.1.3.2. The Treasury, primarily through the Fiscal Service, provides detailed accounting and reporting guidance for Federal credit programs through the Guide for Basic Accounting and Reporting for Direct Loan Programs without Collateral in Federal Credit Program and the Guide for Basic Accounting and Reporting for Loan Guarantee Programs without Collateral in Federal Credit Program.

4.2 Credit Reform Fund Controls

4.2.1. Fund Control. Leaders of DoW agencies must prescribe, by regulation, a system of administrative control of funds. For credit programs and resources, systems for administrative control of funds must ensure that internal controls include objectives specific to compliance with the Antideficiency Act (ADA). Additional detailed guidance can be found in OMB Circular No. A-11, Part 4, Section 150.

4.2.2. Antideficiency Act Violations. ADA violations for direct loans, guaranteed loans, and financing accounts are reportable to the President, through the Director of the OMB, to the Comptroller General, and to Congress. For additional information, refer to Volume 14. For examples of ADA violations refer to the Volume 12 Supplemental.

4.3 Credit Apportionment and Reapportionment

All Treasury Appropriation Fund Symbols (TAFS) and all program, financing, and liquidating accounts are required to be apportioned, except in the case of a TAFS that is exempt from apportionment per OMB Circular No. A-11, Part 4. Refer to Volume 3.

4.4 Report on Budget Execution and Budgetary Resources (SF 133)

4.4.1. Coverage. Unless otherwise specified by the OMB, the Report on Budget Execution and Budgetary Resources must be prepared to provide current data on each credit account, whether apportioned or not. Current reporting requirements are published in OMB Circular No. A-11, Part 4.

4.4.2. Timing of Reports. The SF 133 must be submitted electronically through the Treasury's Governmentwide Treasury Account Symbol (GTAS) Adjusted Trial Balance System at the end of November, July, August, and each quarter or such other time period specified by the OMB for each open TAFS. Optionally, the SF 133 is submitted through the GTAS for the additional monthly reporting in November, July, and August for expiring TAFSs. This facilitates analysis and ensures consistent presentation of budget execution information so that Government-wide totals are meaningful. A copy of the SF 133 for each calendar quarter must be submitted to the Committee on Appropriations, House of Representatives.

4.5 Direct Loans

The DoW Component must record an obligation of subsidy in the program account when it signs a binding contract, in accordance with the provisions of OMB Circular No. A-11, Part 5, 'Federal Credit.' Subsidy funds must be paid from the program account to the financing account when the direct loan is to be disbursed to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or a change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the Federal Credit Reform Act (FCRA) of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.

4.6 Guaranteed Loans

The DoW Component must record the obligation of subsidy in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular No. A-11, Part 5, "Federal Credit." The DoW Component must pay subsidy funds from the program account to the financing account when the third-party lender disburses the guaranteed loan to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, the DoW Component makes any change in the estimated subsidy caused by an interest rate change or a change in estimates for other components of subsidy cost at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f)

of the FCRA of 1990. If the subsidy amount decreases, the DoW Component must make a payment to a receipt account.

4.7 Computation of Interest Expense and Interest Income

Refer to the Volume 12 Supplemental for: Instructions for Computations of Interest Expense and Interest Income for Direct and Guaranteed Loan Programs; Frequency of Interest Computations; Weighted Average Interest Rate; and Procedure and Due Dates for Computing Interest Expenses and Income Related to Borrowing for Direct Loan and Guaranteed Loan Financing Accounts.

4.8 Credit Reform USSGL Accounts and Definitions

Credit reform accounts and definitions were established in the USSGL to implement requirements of the FCRA of 1990 (as amended) and are intended to account for direct loans and loan guarantees. DoW entities must follow the Standard Financial Information Structure (SFIS), which is based on the Treasury USSGL. For more complete information, visit the SFIS website.

5.0 GRANTS AND COOPERATIVE AGREEMENTS

5.1 DoW Statutory Authorities for Use of Grants

A DoW Component may use grants when the SecWar delegates the statutory authority, or when a statute grants the authority directly to the Head of the DoW Component. Title 32, Code of Federal Regulations (CFR) § 21.420 lists the types of statutory authority the DoW may use to award assistance instruments.

5.2 Grants Financial Management

5.2.1. Financial Management Information System

5.2.1.1. The DoW Component must ensure the availability of a financial management information system capable of recording and monitoring grant transactions and providing, by transaction, a delineation of the federal and grantee breakout of program costs.

5.2.1.2. The system must enable the DoW Component to quickly identify the basic categories of funds involved, along with the related obligation and expenditure rates, and provide for ensuring fund availability prior to awarding financial assistance and obligating funds.

5.2.2. Record Retention. The DoW Component must maintain grant-supporting financial management documentation in accordance with the requirements in its DoW Component records retention requirements.

5.2.3. Recording and Reviewing Commitments and Obligations. Accounting for funds under a grant must start with the commitment of funds prior to their obligation by an awarding official. The awarding official must be a DoW grants or agreements officer with a statement of appointment that meets the requirement in 32 CFR §§ 21.435-21.465. After funds commitment,

budgetary obligations must be recorded upon execution of the agreement or other obligating document approved by the awarding official that sets out the amount and purpose of the award, the performance period, the performance obligations of the parties to the award, and other terms. A legal obligation to disburse grant funds, in accordance with the terms of the agreement, occurs upon execution of an agreement or other obligating document. Refer to Volume 3 for more information.

5.2.4. Volume 10 provides detailed payment provisions for grants and other instruments of assistance.

5.2.4.1. Timing and Frequency

5.2.4.1.1. 32 CFR § 22.810 prescribes the timing and frequency of grant payments. In general, it is Governmentwide policy to minimize the time elapsing between any payment of funds to a grantee and the grantee's disbursement of the funds for program purposes. For States, payments are governed by Treasury-State Cash Management Improvement Act agreements and default procedures codified in 31 CFR § 205 and I Treasury Financial Manual (TFM) 4A - 2000 Overall Disbursing Rules for All Federal Agencies.

5.2.4.1.2. The assisting DoW Component must account for payments made to grantees to cover part or all their anticipated expenses or advance payments as advances. This accounting treatment continues until the grantee performs under the award, meaning the grantee meets the requirements to use the funds in accordance with the grant agreement. Refer to Volume 4 for more information.

5.2.4.1.3. The DoW Component should require payments as reimbursements when the grantee cannot meet the requirements in subparagraphs 5.2.4.1.1 and 5.2.4.1.2, when the DoW Component sets a specific grant condition per 2 CFR § 200.207, or when the grantee requests this payment method. The DoW Component may also use reimbursement for any construction grant, or if private market financing or Federal loans fund the major portion of the construction project, and the Federal award constitutes a minor portion of the project.

5.2.4.2. Method. It is a government-wide requirement to use EFT in the payment of any grant to the maximum extent practicable under 32 CFR § 22.810.

5.2.4.3. Process. Disbursing offices must follow the policies and procedures in Volume 10 for payment provisions for grants.

5.2.4.4. Withholding Payments. The DoW Component may withhold payments for allowable costs when:

5.2.4.4.1. The grantee failed to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award. If the grant is not otherwise suspended, the DoW Component must release the payment to the grantee upon the grantee's compliance. If the grant is suspended, the DoW Component will make payment adjustments according to 2 CFR § 200.342;

5.2.4.4.2. The grantee is delinquent in a debt to the United States as defined in OMB Circular No. A-129. In this situation, the DoW Component must provide reasonable notice to the grantee that payments will not be made for obligations incurred after a specified date until the indebtedness to the Federal Government is paid; or

5.2.4.4.3. The grantee has a sustained audit finding which resulted in amounts due to DoW. The DoW Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt and continues to accrue while an appeal is underway.

5.2.4.5. Interest from Advanced Payments. A DoW Component may allow grantees to retain interest earned up to $500 per year for their administrative expenses. Grantees must remit any additional interest earned on DoW advance payments, required to be deposited in interest-bearing accounts, annually to DoW using either an Automated Clearing House network or a Fedwire Funds Service payment.

5.2.5. Recording of Expense

5.2.5.1. When the grantee that received the advance has performed under the grant, the DoW Component must record an expense in an amount equal to the cost of the services performed or cost incurred and reduce the advance account by that amount. The grantee must provide sufficient documentation to support the cost of the services performed or cost incurred, consistent with the grant.

5.2.5.2. The DoW Component must account for payments to grantees for reimbursement of work performed or costs incurred as expenditures and expenses incurred, or as reductions of liabilities if the expenses were recorded previously.

5.2.6. Accruals. The DoW Component must recognize and report balances due or advanced to grantees at the end of the reporting period and apply cost-benefit considerations to the process of estimating and validating accruals.

5.2.6.1. Accrual estimates must be treated as follows:

5.2.6.1.1. Amounts issued as advances must be adjusted, even if grantees have not yet reported expenses incurred; and

5.2.6.1.2. Where there is no advance or no remaining advance, the DoW Component must estimate amounts payable to grantees.

5.2.6.2. The DoW Component must document and maintain support for the data and assumptions used to develop grant accrual estimates and follow internal control guidance in Federal Accounting Standards Advisory Board Technical Release 12.

5.2.7. Accounts Receivable

5.2.7.1. At the termination or closeout of a grant, the DoW Component must establish an accounts receivable for any disallowed expenses, improperly applied funds, unused funds, and any other amount due to the DoW according to the grant's terms and conditions.

5.2.7.2. When a grantee has a sustained audit finding that resulted in amounts due to DoW, the DoW Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the DoW Component notifies the grantee of the debt and continues to accrue while an appeal is underway.

5.2.8. Debt Collection. A DoW Component establishes a debt when it determines it has overpaid a grantee under the terms and conditions of the grant. Volume 10 and Volume 16 describe the treatment of debt collection.

5.3 Real Property and Equipment

5.3.1. Grantee Purchased Real Property or Equipment. A DoW Component must provide prior approval to grantees to purchase real property or equipment with federal funds. Generally, title to real property or equipment vests with the grantee upon the grantee's acquisition and DoW does not account for its reversionary interest in real property and equipment (32 CFR § 34.21(a) and (b)). The title must be conditional, subject to the following:

5.3.1.1. The grantee must use the real property or equipment for the authorized purposes of the grant until funding ceases, or until the property or equipment is no longer needed for the grant. Use in other projects must be limited to those under federally sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the DoW Component;

5.3.1.2. The grantee cannot encumber the property without approval of the DoW Component; and

5.3.1.3. The grantee must use the real property or equipment following the terms of the grant and dispose of the property or equipment following disposition instructions from the DoW Component, consistent with 32 CFR § 34.21(d) and (e).

5.3.1.4. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for any outstanding proceeds from the disposition of real property or equipment.

5.3.2. Federally-owned Property. Title to Federally-owned property remains vested in the DoW (32 CFR § 34.22) and:

5.3.2.1. The DoW Component must establish appropriate general ledger accounting controls and property records and include the assets in its financial statements. The

asset must be recorded at acquisition cost to the grantee and depreciated in accordance with guidance in Volume 4.

5.3.2.2. If DoW has no further need for the property, it must declare the property excess and report it for disposal following the instructions in Volume 4 for Excess Items Disposition, unless the DoW Component has statutory authority to dispose of the property by alternative methods.

5.3.3. Exempt Federally-owned Property. Exempt Federally owned property means property acquired under a grant when the DoW has chosen to vest title to the property to the grantee without further obligation to the Federal government, based on explicit terms and conditions of the grant. A DoW Component may exercise this option only when statutory authority exists.

5.4 Supplies

Title to supplies will vest in the grantee upon acquisition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other Federal award, the grantee must retain the supplies for use on other activities or sell them. In either case, the grantee must compensate DoW, following the requirements in 32 CFR § 34.24. The grantee may deduct and retain $500 or ten percent of the proceeds, whichever is less, for selling and handling expenses. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for compensation received from grantee residual inventory.

5.5 Intangible Property

Intangible property applies to a patent, patent application, copyright, or other intangible property acquired, but not developed or produced, under the grant. When the grantee no longer needs the intangible property for the originally authorized grant purpose, the DoW Component must arrange for the disposition of the intangible property, following the requirements in 32 CFR § 34.25. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for the remaining proceeds from disposition of intangible property.

5.6 Other Required Reporting

5.6.1. Improper Payment. An improper payment is any payment that should not have been made, or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements. An improper payment also includes any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments authorized by law).

5.6.1.1. Questioned costs, including those identified in audits, are not an improper payment until reviewed and confirmed to be improper as defined in OMB Circular No. A-123 Appendix C.

5.6.1.2. Grant programs are subject to the payment integrity requirements in Volume 4.

5.6.2. Public-Private Partnership Reporting. Grants which meet the definition of public-private partnerships (P3), risk-sharing arrangements or transactions with expected lives greater than 5 years between public and private sector entities, may be subject to disclosure under SFFAS 49. Volume 6 and SFFAS 49 provide detailed information about P3 reporting.

5.6.3. Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners. 1 TFM 2 - 4500 requires electronic submission of several reports pertaining to foreign obligors to the Treasury. Refer to Volume 6 and Volume 16 for more details.

6.0 FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY, LOST, DAMAGED, DESTROYED, OR STOLEN

6.1 Applicability

The requirements within this section apply to all government property regardless of whether the government property is recorded in an Accountable Property System of Record. This section does not apply to loss, damage, destruction, or theft of Government Furnished Property, Contractor Acquired Property, and property acquired by a contractor because of partial, advance, progress, or performance-based payments in the possession of a third party, to include contractors. Loss, damage, destruction, or theft of such property must be processed in accordance with the terms and conditions of the accountable contract or third-party agreement to which the lost, damaged, destroyed, or stolen property was accountable.

6.2 General Requirements

6.2.1. Initiation of General Inquiries and Investigations

6.2.1.1. Upon discovery of loss, damage, destruction, or theft of government-owned property (real or personal) of any value, the first line supervisor or, in the case of military, immediate superior within the chain of command, must conduct a general inquiry to determine if the situation warrants a formal investigation. A DD Form 200 is not required for general inquiries. Loss, damage, destruction, or theft of supply system materiel must be processed in accordance with paragraph 6.5.

6.2.1.2. An investigation must be conducted for all loss, damage, destruction, or theft of government-owned equipment with initial unit acquisition cost (value) of $5,000 or greater; all sensitive, classified, or leased (Refer to Volume 4) property regardless of initial acquisition cost; and any real property (see Department of Defense Instruction (DoDI) 5000.64 for more information). Investigations may also be conducted when circumstances warrant. For example, when the loss, damage, destruction, or theft of small amounts of property occurs frequently enough to suggest a pattern of wrongdoing, then an investigation may be warranted.

6.2.2. DD Form 200. The DD Form 200 is the required documentation for investigations and must be used to document the facts and circumstances of the loss, damage, destruction, or

theft. The person conducting the investigation must complete blocks 1 through 11 of the DD Form 200. Refer to the Volume 12 Supplemental.

6.2.3. Review. Upon completion of the investigation, the DD Form 200 must be forwarded to the appointing authority for review. The appointing authority must determine if a financial liability officer or a financial liability board is needed to investigate. The general criteria for appointing a financial liability officer or board and the responsibilities of a financial liability officer or board regarding inventory losses are contained within the Volume 12 Supplemental. General Counsel and/or the member's commander must be consulted before statements are taken from anyone if there is a suspected violation of the Uniform Code of Military Justice (10 U.S.C. §§ 801-806).

6.2.4. Evidence of Theft. Cases involving stolen government-owned property must be referred to local security and/or law enforcement officials, in accordance with agency procedures.

6.2.5. Notification and Examination. When financial liability is recommended, the individual must be notified and given the opportunity to examine the findings and recommendations, obtain representation, make a rebuttal statement, and present any mitigating factors that may have contributed to the negligence or abuse. If damage to government housing is involved, an individual also must be given the opportunity to request a waiver of the financial liability in accordance with 10 U.S.C. § 2775.

6.3 Approving and Appointing Authority

Due Process. The appointing and approving authorities must act on the DD Form 200 once an individual has been properly notified and given the opportunity to respond to the findings. Failure of individuals involved to respond to recommendations of financial liability is not a sufficient reason for the appointing and approving authorities to delay the approval process if the individuals were given a reasonable opportunity to reply, as discussed in the Volume 12 Supplemental.

6.4 Government Housing Liability

Military Personnel Liability for Government Housing Determination of Proximate Cause. A member of a Military Service must be held liable to the U.S. for the loss, damage or destruction of family housing or an unaccompanied personnel housing unit assigned to such member, including equipment and furnishings therein, when a determination is made that the loss, damage or destruction was proximately caused by the abuse or negligence of the member, a dependent of the member, or a guest either of the member or the member's dependent.

6.5 Supply System Material

This section applies to personal property defined as "supply system materiel" and contains procedures to be followed when inventory losses are discovered. The provisions of this section are applicable to all activities accountable for supply system material, including stock fund and other inventories (e.g., appropriated fund).

6.5.1. Inventory. Physical inventories must be performed in accordance with the provisions contained herein and in Department of Defense Manual (DoDM) 4140.01, Volume 5.

6.5.2. Causative Research. Causative research must be conducted for all inventory discrepancies that meet any of the criteria specified in Defense Logistics Manual (DLM) 4000.25, Volume 2. For inventory discrepancies that do not meet the criteria for performing causative research, a justification for adjusting the inventory and accounting records and relief from property accountability must be provided by means of an inventory adjustment document.

6.5.3. Resolved Inventory Losses

6.5.3.1. Accountability. The data developed by post count validation, pre-adjustment research, and causative research must be utilized to prepare correcting documentation so that the inventory accounting systems may be updated. These adjustments must be processed in accordance with this Regulation and DLM 4000.25, Volume 2.

6.5.3.2. Statistics. The type of inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25, Volume 2.

6.5.4. Unresolved Inventory Losses Not Meeting the Criteria for an Investigation

6.5.4.1. Accountability. Relief from property accountability and justification for the adjustment of the inventory and accounting records to the inventory on hand must be provided by means of an inventory adjustment document. The detailed data requirements and procedures for preparing and processing the inventory adjustment document must be as prescribed in the appropriate DoW Component implementing documents.

6.5.4.2. Authority for Adjustment. If the cause or probable cause of the discrepancy has not been determined, and the discrepancy does not qualify for causative research, this paragraph must be cited as authority for relieving the accountable officer of accountability.

6.5.4.3. Statistics. The type of inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25, Volume 2.

6.5.5. Unresolved Inventory Losses - Causative Research Indicates No Personal Responsibility

6.5.5.1. Accountability. See subparagraph 6.4.4.1.

6.5.5.2. Statistics. See subparagraph 6.4.4.3.

6.5.6. Unresolved Inventory Losses - Causative Research Indicates Evidence of Personal Responsibility

A financial liability investigation must be used to support the adjustment of the inventory and accounting records to the actual inventory on hand and to relieve the accountable officer of accountability.

6.5.7. Criteria for an Investigation. A financial liability investigation must be initiated on all unresolved inventory discrepancies for each stock number that meets any of the criteria identified in the Volume 12 Supplemental.

7.0 FOREIGN NATIONAL EMPLOYEES SEPARATION PAY ACCOUNT, DEFENSE

7.1 Authoritative Guidance

7.1.1. The National Defense Authorization Act (NDAA) for Fiscal Years 1992 and 1993 authorized a trust fund account to accumulate funds to finance obligations for separation payments to foreign national employees of the DoW. The NDAA for Fiscal Year 1995 extended this authorization to include foreign nationals employed by a foreign government, for the benefit of DoW, under any of the following agreements that provide for separation pay: (1) a contract, (2) a treaty, or (3) a memorandum of understanding with a foreign nation. 10 U.S.C. § 1581, "Foreign National Employees Separation Pay Account," provides for the establishment and operation of this account. The use of the term "foreign national employees" in this section is meant to apply to both foreign national direct and indirect hire employees. 10 U.S.C. § 1592 establishes that funds in the "Foreign National Employees Separation Pay Account, Defense" account may not be used to pay severance pay to a foreign national employed by DoW that provides for payment of separation pay if the separation of the employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States military facility in that country at the request of the government of that country.

7.1.2. This guidance applies to all DoW appropriations. This guidance does not apply to activities under the Defense Working Capital Fund (DWCF). DWCF activities must continue to make necessary foreign national employee severance payments under established DWCF procedures. This guidance also does not apply to the FMS Trust Fund. The FMS Trust Fund activities must continue to accrue and disburse separation pay to their foreign national employees from the FMS Trust Fund. Use of nonappropriated funds (NAF) to pay for severance or separation entitlements, accrued during periods of employment with appropriated funded (APF) entities is prohibited.

7.2 Policy

7.2.1. Calculations. Foreign national employees' separation pay must be determined and calculated at the installation level in accordance with applicable host country agreements. These amounts must be obligated in the full amount of the liability that accrues during the fiscal year, without regard to whether the amount is currently payable. Disburse these amounts from the Treasury "Foreign National Employees Separation Pay Account, Defense," 097X8165. The applicable Treasury receipt account is 097X8165.001, "Employing Agency Contributions,

Defense." Find additional guidance on obligations for separation allowances for foreign national employees in Volume 3.

7.2.2. The Director, DFAS, must administer the account as well as perform related accounting functions.

7.2.3. Transfers into the "Foreign National Employees Separation Pay Account, Defense" must be made following procedures in the procedures/guidance document.

7.2.4. Deobligations. Each DoW Component must notify its supporting DFAS site of all deobligation transactions, adjustments, and corrections, in a timely and accurate manner. The respective site will record adjustments and corrections in the accounting records.

7.3 Subsequent Disbursements

7.3.1. Validation of Funds Availability. Local disbursing offices and the Department of State (DoS) may continue to make disbursements for foreign national employee separation payments, when approved by DFAS, using DoW cross-disbursement procedures. Each DoW Component and non-DoW office (e.g., DoS) must coordinate its disbursement/cross-disbursement actions with the supporting DFAS site to validate the availability of funds prior to disbursement. A positive balance in the account is necessary prior to payment; therefore, both DoW and non-DoW activities will verify from the supporting DFAS site that sufficient funds are available prior to submitting vouchers to servicing disbursing offices for employee payments.

7.3.2. Cross-Disbursements. When cross-disbursement procedures are used, the appropriate DFAS site must be advised prior to each actual disbursement. Find additional guidance on cross-disbursement transactions in Volume 3.

7.4 Responsibilities

Refer to the Volume 12 Supplemental.

8.0 INTERNATIONAL AGREEMENTS

8.1 General

This section establishes the financial procedures that must be followed when DoW Components initiate, develop, and request formal review of international agreements and any annexes, appendices, amendments, or modifications thereto. It does not cover Foreign Military Sales (FMS) transactions and contracts entered into under the provisions of the Federal Acquisition Regulation or agreements associated with security assistance programs. Such transactions are implemented under provisions identified in Section 15.

8.1.1. International Agreement Document. This term includes any document, among others, identified as an international agreement, memorandum of understanding, memorandum of agreement, memorandum of arrangement, exchange of notes, exchange of letters, or technical

arrangement with one or more foreign governments (including their agencies, instrumentalities, or political subdivisions) or with an international organization.

8.1.2. International Agreement Design for Coordination. Each international agreement submitted for coordination must contain a fiscal, legal and policy memorandum in accordance with DoDI 5530.03, "International Agreements," paragraphs 5.2.b., or a Summary Statement of Intent (SSOI) in accordance with paragraph 5.2.b.(5). Refer to Volume 12 Supplemental for detail regarding these memoranda.

8.2 Legal Considerations

Legal authority information is critical to the preparation of an international agreement and is the basis for determining the legal authority for entering into the agreement and subsequent financial requirements. Any agreement that involves the obligation of U.S. appropriated funds must have an underlying legal authority for the use of such funds; the agreement itself cannot create such an authority. Refer to the Volume 12 Supplemental for detailed information regarding these legal considerations.

8.3 Fiscal Considerations

8.3.1. Availability of Financing Sources. There are two general prohibitions on the use of appropriated funds for international agreements. In addition, the legal section must identify any other applicable prohibitions. It is implicit in the identification of the financing sources set forth in the Volume 12 Supplemental that funds are available. It is desirable, however, to include in the fiscal information section a certification that all legal and policy prohibitions on the use of funds have been complied with. The general prohibitions are as follows:

8.3.1.1. No funds designated by the Congress for North Atlantic Treaty Organization (NATO) or major non-NATO cooperative research and development under 10 U.S.C. § 2350a may be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity (including NATO participants) to the agreement.

8.3.1.2. U.S. Government military assistance funds (i.e., Foreign Military Financing, FMS loans, and FMS credits) are not available to finance a foreign participant's share of the cost of a cooperative project authorized by section 27 of the Arms Export Control Act or a cooperative development project with a major non-NATO ally under 10 U.S.C. § 2350a.

8.3.2. Financial and Nonfinancial Contributions. A contribution to an international agreement may be financial, nonfinancial, or both. Nonfinancial contributions may be in the form of defense articles or defense services needed for the cooperative project. If the contribution is nonfinancial, a price analysis must be made to ensure the valuation assigned to such nonfinancial contribution is fair and reasonable. The fiscal information section must summarize the results of such an analysis. The price analysis must be based on prior cost experience for the nonfinancial contribution to be provided. When a foreign contribution is in the form of foreign currency or the awarding of a contract in a foreign country, the foreign currency contribution generally must be valued at the exchange rate current at the time that the agreement is prepared. There must be no

subsequent modification of the valuation because of changes in the currency exchange rate. The fiscal memorandum or SSOI must display the value of the currency in terms of U.S. dollars.

8.3.3. Valuation of Nonfinancial Contributions. The value of all nonfinancial (background data/information, software, services, military and civilian labor, materiel, equipment, and facilities) contributions to an agreement is to be determined and considered for the evaluation of equitableness of the proposed project. The fiscal memorandum or financial section of the SSOI must describe the nonfinancial contributions, indicate their value, and state the method used in determining the valuation. The nonfinancial contributions must also be valued in terms of U.S. dollars in the fiscal memorandum or SSOI. The alternatives for determining the value of nonfinancial contributions can be found in the Volume 12 Supplemental.

8.3.4. Reasonable and Necessary Expense. Any obligation of DoW appropriations under an international agreement must be supported by a showing that it is a reasonable and necessary expense required for the accomplishment of DoW missions, unless the use of DoW funds for other than a DoW mission specifically is authorized by statute.

8.4 Proposed Agreement

8.4.1. Financial Policies and Appropriate Cross References. An international agreement must contain language that implements the requirements established by U.S. law and regulation. This section discusses the financial policies that must be followed and provides appropriate cross references to other parts of this Regulation that provide more specific guidance.

8.4.2. Fund Availability Qualification. Because agreements may involve future years for which Congress has not yet appropriated funds, all agreements that require that DoW provide financial contributions must contain a funds availability clause to prevent a premature recording of an obligation against a future year's appropriation.

8.4.3. Reconciliation of Agreement Dollar Value to Financing Sources. An international agreement must set forth the dollar value of the agreement and portions of the dollar value that must be borne by each participant. This cost sharing may be in the form of monies or nonfinancial contributions. A preliminary requirement is to ensure that any obligations that the Department may be required to incur in implementation of the agreement have been identified in the fiscal information section. Nonfinancial contributions, described in the scope section, may be valued in the fiscal information section as part of the overall financial contributions, or described solely in the scope section without valuation in the financial information section. The financial information in the fiscal memorandum or SSOI will value all financial and nonfinancial contributions identified in the international agreement.

8.4.4. Adherence to Prescribed Pricing Rules

8.4.4.1. If an international agreement provides for nonfinancial contributions, there must be assurance that proper pricing procedures have been followed. Subparagraphs 8.3.2 and 8.3.3 discuss special requirements that may be applicable to certain agreements. The text of an agreement must be reviewed carefully to ensure compliance with these paragraphs. An area of

special pricing attention is charges for existing DoW technical data and computer software, or the use of equipment or facilities.

8.4.4.2. Equipment and facilities provided for use in the furtherance of the purpose of an international agreement should be based on an amortized rate. This amortized rate should be based on the cost and useful life of the equipment or facilities and applied to the length of time the equipment or facilities will be used in the furtherance of the purpose of the international agreement. Standard rates, if available, can also be used.

8.4.5. Determination of Program Equitableness

8.4.5.1. 2350a and 22 U.S.C. § 2767, and in accordance with DoDI 5530.03, international agreements involving cost sharing should be equitable. The United States and the other participants to an international agreement must contribute their equitable share of the full cost in funds or in defense articles or services needed to execute the cooperative project and must receive their equitable share of the results of the cooperative project in the form of defense articles or services. A participant's cost share must be proportionately equal to the benefits it receives. In many cases, "equitable" will mean equal, but the sharing need not be exactly equal to meet the equitable standard; minor deviations are permissible so long as the cost sharing is fair based on the totality of the circumstances involved, and not in contravention of other law or regulation. Any such deviation will be cited clearly in the SSOI and approved by the relevant DoW officials during their routine coordination of international agreements. Further details of meeting the requirements for equitability are provided in the Volume 12 Supplemental.

8.4.5.2. The SSOI or fiscal memorandum to a proposed international agreement, must clearly explain why the agreement is considered equitable. Prior to approval of all proposed international agreements, a determination of agreement equitability must be made by the approving DoW officials. It is critical that sufficient detail and information be provided to clearly demonstrate to approving officials that the proposed international agreement is equitable.

8.4.5.3. Calculation of Expected Contribution. In support of an equitability determination by DoW approving officials, the expected contribution must be calculated and presented in the SSOI or supporting documentation using one of the methods identified in the Volume 12 Supplemental:

8.4.6. Sales and Transfers of Technical Data Developed Under an Agreement – Refer to the Volume 12 Supplemental.

8.4.7. Taxes, Duties, and Similar Charges – Refer to the Volume 12 Supplemental.

8.4.8. Advance of DoW Funds

8.4.8.1. An advance constitutes a disbursement of DoW funds before an authorized DoW official has certified that materials have been delivered or ordered services performed. An agreement must not provide for DoW advance payments, unless the conditions for such advances, as set forth in Volume 4, are met. An advance to a foreign country is authorized only when

required for compliance with the laws and ministerial regulations of the foreign country and is further required by the agreement.

8.4.8.2. When possible, advances must be made for no more than the amount necessary to fulfill the DoW share of project expenses for one month. Advances and prepayments must not exceed the amount necessary to fulfill the DoW share of project expenses for a current fiscal quarter. If monies are paid in advance and deposited into commercial banks, provision must be made to ensure that the agreement requires: Payment of interest at competitive rates; Timely identification of interest earned by each party; and Interest disposition in accordance with the participants' instructions.

8.4.8.3. The DoW share of funding required to support an international project must be obtained in full by appropriation, and no part of such funding must be derived from interest earnings on U.S. contributions. In view of this policy, the U.S. Government share of interest earned on U.S. advance payments must be returned to the Treasury Miscellaneous Receipts Account 3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified." The interest must not be used to reduce a future call for funds, nor used for any project cost that would result in funding derived outside the appropriation process.

8.4.8.4. Advances of DoW funds in excess of 90 days or $5 million require consultation with the Treasury. Contact with the Treasury must be through the OUSW(C).

8.4.9. Billing Requirements. When payments are to be made, the agreement or subsequent financial arrangements must include information identified in the Procedures document.

8.4.10. Special Types of Agreements

8.4.10.1. Agreements for Reciprocal Exchange of Materials or Services. These agreements must set forth the time period allowed for exchange of materials and services. They also must set forth financial settlements that must be made if the exchange does not take place. DoW services or materials provided are priced in accordance with Volume 11.

8.4.10.2. Cooperative Research, Development, Test and Evaluation (RDT&E), Technical Data Exchange, Co-production, Licensed Production, and Related Standardization Agreements That Are Not Implemented through the Security Assistance Program. Full costs must be identified and shared equitably. Cost sharing may be accomplished through the following:

8.4.10.2.1. Pooling of monies and designation of a lead country to manage the program, collect cash, and award contracts. Specific shares of program cost are set forth in the agreement.

8.4.10.2.2. No pooling of monies or designation of a lead country. Specific efforts to be accomplished by each participating country and estimated costs of such efforts are set forth in the agreement.

9.0 FUNDING CIVILIAN SEPARATION INCENTIVES AND CIVILIAN PERSONNEL TRANSITION INITIATIVES

9.1 Overall Funding Policy

9.1.1. For this policy, the term "civilian separation incentives" means resignation and retirement incentives and outplacement subsidies that may be used to encourage designated civilian employees to separate voluntarily from DoW.

9.1.2. Available separation incentives include Voluntary Separation Incentive Pay (VSIP), VSIP Phase II, Voluntary Early Retirement Authority (VERA), and Voluntary Reduction in Force (VRIF). The DoW activities may pay up to $25,000 (before taxes and deductions) from appropriations, funds, or accounts available for such purposes for the voluntary resignation, early retirement, or optional retirement of a designated civilian employee.

9.1.3. Outplacement subsidies are used as an incentive for other Federal agencies to hire employees displaced by reduction in force (RIF) or transfer of function. DoW activities may pay up to $20,000 from appropriations, funds, or accounts available for such purposes. The payment is for Permanent Change of Station (PCS) costs incurred by another Federal agency when that agency hires any DoW employee in a surplus skill category who is subject to RIF. See the DoW FMR.

9.1.4. Audit Readiness/Internal Procedures. Each DoW Component must develop and implement internal operating procedures and/or guidance to implement this overarching policy in a manner that ensures accurate, timely, and relevant reporting of financial data. Relevant records supporting financial statements must be maintained and made available during financial statement audits.

9.1.5. Recording Funding Obligations. Funds for separation incentives and outplacement subsidies must be obligated when an employee accepts the offer of an incentive payment. The obligation must be recorded in DoW Standard General Ledger account 640000, "Benefits Expense," and reported as object class 13.0, "Benefits for former personnel" for separation incentive and object class 12.1 for outplacement subsidies. Refer to the Office of the DCFO SFIS for additional information on account descriptions, and OMB Circulars, Circular No. A-11, Section 83 for additional information on object class codes.

9.2 Specific Funding Policies for Different Types of Employees

9.2.1. Civilian Separation. A DoW Component that offers civilian separation incentives to an employee, to induce the voluntary separation of that employee to create a vacancy for another employee of the same DoW Component, must fund the resulting separation payments from the applicable appropriation, fund, or account that otherwise is available to pay for salaries and expenses of that DoW Component. The source of Voluntary Separation Incentive Payments funds may include a DWCF for employees of a DWCF-funded activity. DoW central account funding is not provided.

9.2.2. Foreign Military Sales Trust Fund – Refer to Volume 12 Supplemental.

9.2.3. Placements Outside the Department. DoW activities may pay up to $20,000 (subject to the availability of funds) in outplacement subsidy for Permanent Change of Station (PCS) costs associated with placement of a surplus DoW employee with another Federal Agency as authorized under 5 U.S.C. § 5724 and DoDI 1400.25, Volume 1702. When the gaining Federal agency accepts a DoW Component-offered outplacement subsidy, the DoW activity must notify the gaining agency that DoW funds may be billed up to $20,000 per employee or for the actual PCS costs, whichever is less. The notification must include the DoW fund citation to be billed and the address of the fiscal station paying the subsidy. Payment must be made by the applicable DoW activity based upon documentation of the amounts paid or to be paid to the employee by the gaining Federal Agency.

9.3 Controls over Available Funds

Controls must be established to ensure that sufficient funds are available to cover projected requirements for employee acceptance of incentive offers and outplacement subsidies each quarter. ADA provisions apply to the DoW Component appropriations, funds, and accounts. Therefore, if available funds are projected to be inadequate to cover anticipated incentive program acceptances and outplacement subsidies, appropriate action must be taken. In this regard, the DoW Components either must cancel or withdraw incentive offers prior to employee acceptance or obtain additional funds.

10.0 PRIVATIZATION OF WAR UTILITY SYSTEMS

10.1 DoW Utility Systems

As permitted under the authority of 10 U.S.C § 2925, the Secretary of a Military Department is allowed to transfer utility systems. This authority does not extend to utility projects operated by the Army Corps of Engineers under its civil works authority. The policy is driven by DoDI 4170.11, "Installation Energy Management," which establishes utilities privatization as the preferred strategy for modernizing and recapitalizing these critical systems. Consequently, the Military Services are mandated to attempt privatization of such utility systems at all Active and Reserve Component installations, both within and outside the United States. However, there are specific exceptions to this mandate: privatization is not required for installations scheduled for closure, for systems that the Secretary of the Military Department certifies as exempt for security reasons, or in cases where privatization would be uneconomical. The USW for Acquisition and Sustainment (A&S) is assigned primary responsibility for overseeing this instruction.

10.2 Conveyance of Utility Systems

10.2.1. Consideration and Determination. Subsection 2688(c)(1) of 10 U.S.C. provides that the Secretary of a Military Department concerned may require as consideration for a conveyance an amount equal to the fair market value (as determined by the Secretary) of the right, title, or interest of the United States conveyed. Such consideration may take the form of a reduction in charges for utility services provided or a lump sum payment. Subsection 2688 does not itself constitute authority for the Secretary of a Military Department to convey a utility system

without any consideration or cause to be inapplicable to authorities that govern disposal of DoW real property and personal property. The Secretary concerned may authorize a contract for utility services to have a term more than 10 years, but not to exceed 50 years. The determination of cost effectiveness must be made using a business case analysis that includes an independent estimate of the level of investment that should be required to maintain adequate operation of the utility system over the proposed term of the contract or contract renewal. The business case analysis must also demonstrate how a privatized system will operate in a manner consistent with energy resilience and cybersecurity requirements and associated metrics provided to the conveyee to ensure that the reliability of the utility system meets mission requirements.

10.2.2. Reduction in Charges. A reduction in charges for utility services provided is acceptable consideration when the services are provided by the utility or entity obtaining the utility, and the reduction in charges is provided to the military installation at which the utility system is located at the time of conveyance. In such circumstances, a reduction in charges for utility services provided is an exchange of dissimilar assets that does not result in a credit to an appropriation. The consideration (reduction) in such an exchange is considered an "Other Asset" (Account 199000), and the recorded asset is reduced by charges to "Operating Expenses/Program Costs" (Account 610000) over the life of the contract for utility services. Corresponding asset disposal losses must be recognized as described in Volume 4.

10.2.3. Lump Sum Payment – Refer to the Volume 12 Supplemental.

10.3 Conveyance Authorization and Agenda

10.3.1. Same Utility Service Procurements. Before utility conveyance proceeds may be used to procure the same utility services as those provided by the utility system conveyed, the organization receiving the funds must submit the proposed distribution of funds to Assistant Secretaries of the Military Departments' Financial Management and Comptroller (FM&C) for approval. The FM&C must notify the supporting DFAS site of approved funds distributions.

10.3.2. Savings and Conservation Projects and Improvements. Refer to the Volume 12 Supplemental.

11.0 ENERGY AND WATER SAVINGS AND REVENUE MANAGEMENT

11.1 Financial Management Policy, Incentives, and Revenues

The Congress has enacted a series of measures aimed at strengthening energy and water security, resilience, and sustainability within the DoW. This section establishes the financial management policy for identifying, retaining, and utilizing energy and water cost savings, as well as financial incentives and revenues derived from the sale of electricity. It provides comprehensive guidance on the receipt and use of utility incentives and water cost savings for conservation efforts; the availability and application of energy cost savings; the implementation of energy savings contracts and related activities; the sale of electricity generated from alternative energy and cogeneration facilities; and DoW participation in programs designed to manage energy demand or reduce energy consumption during peak periods. Refer to the Volume 12 Supplemental for more detailed steps and procedures.

11.2 Energy Savings and Incentives Received from Utilities

11.2.1. Extended Availability from Energy Savings. Energy savings amounts with extended availability must be transferred to extended availability accounts for execution.

11.2.1.1. An extended availability account must be established for each appropriation for which energy cost savings have been identified and for which a period of extended availability is established.

11.2.1.2. Transfers to extended availability accounts must be made by a SF 1151, "Nonexpenditure Transfer Authorization," or other authorized Service-specific method that incorporates all SF 1151 requirements (refer to Volume 14). Reprogramming actions will not be required in the case of such transfers.

11.2.1.3. The level that uses the accounts, such as the command, installation, Military Department, Defense Agency, and/or OSW level Accounting, must establish appropriate controls, and oversight for amounts in extended availability accounts to optimize funds executability.

11.2.2. Financial Incentives - Refer to the Volume 12 Supplemental.

11.3 Revenues from the Sale of Electricity

Refer to the Volume 12 Supplemental for Sale of Electricity; Use of Proceeds from the Sale of Electricity; and Congressional Notification.

11.4 Budgeting and Energy Savings on Utility Payments

Each military department must include the portion of the guaranteed savings due to the contractor for payment under an Energy Savings Performance Contract (ESPC) or to the utility for payment under an Utility Energy Service Contract (UESC) in its utility requirements submitted in budget requests for the length of the ESPC or UESC entered by that military department. The total utility requirements submitted as part of budget requests must include the entire amount of guaranteed savings provided in an ESPC or performance assurance savings provided in an UESC, including amounts for contract payments and amounts to be retained by installations. The total of the amounts requested must not exceed those that would have been requested in the absence of the ESPC. The Secretary concerned, or designee, must specify the procedures for identification of such amounts by installations, facilities, or operating locations at which ESPCs or UESCs for that military department are in existence. In accordance with the OMB Circular No. A-11, Appendix B, "Budgetary Treatment of Lease-Purchases and Leases of Capital Assets," the costs of ESPCs may be scored on an annual basis, consistent with the guidance provided in OMB Memorandum M-98-13, "Federal Use of Energy Savings Performance Contracting," and OMB Memorandum M-12-21, "Addendum to OMB Memorandum M-98-13 on Federal Use of Energy Savings Performance Contracts and Utility Energy Service Contracts."

11.5 Use of Balances Available Resulting from Energy Cost Savings

Refer to the Volume 12 Supplemental.

11.6 Accounting for Energy Cost Savings

11.6.1. 10 U.S.C. § 2912. The energy cost savings amounts realized in accordance with 10 U.S.C. § 2912 remain as unobligated balances available for obligation at the end of the fiscal year and the succeeding fiscal year.

11.6.2. Unobligated Balance Transfers. Unobligated balances covered by subparagraph 11.6.1 must be transferred to extended availability accounts on an SF 1151 or other authorized Service-specific method that incorporates all SF 1151 requirements (see subparagraph 11.1.1). The authority and policy to be cited for the transfer is 10 U.S.C. § 2912(e).

11.6.2.1. The SecWar may transfer amounts that remain available for obligation to other funding accounts of the DoW if the purpose for which such amounts will be used is specified in the Volume 12 Supplemental.

11.6.2.2. Amounts transferred to a funding account of the Department under subparagraph 11.5.2.1 will be available for obligation for the same period as amounts in that account.

11.6.2.3. At the end of each fiscal year, the SecWar must submit to Congress a report detailing any funds transferred pursuant to subparagraph 11.5.2.1 during that fiscal year, including a detailed description of the purpose for which such amounts have been used.

12.0 FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT

12.1 Policy

DoW Components are responsible for implementing all base closure and realignment action including preparation of an economic analysis in accordance with Volume 2, and must administer the allocations of base closure funds. DoW Components are to deposit the proceeds in the appropriate account authorized by law. If transfer funds were deposited into the wrong account, a suspense account, or other interim account, an SF 1080, "Voucher for Transfers Between Appropriations and/or Funds," must be used to transfer funds to the proper account. Refer to the Procedures document for: DoW Base Closure Account 1990 and DoW Base Closure Account 2005; DoW Overseas Military Facility Investment Recovery Account; and Reserve Account.

12.2 Budget and Accounting Responsibilities

12.2.1. Requests for Funds

12.2.1.1. DoW Components DoW Base Closure Account Financial Plan. The Military Departments and Defense Agencies, in cooperation with, and at the direction of, the USW

for A&S or designee, the Director, OSW Base Realignment and Closure (BRAC) Office, must submit a financial plan to the Director, Military Personnel and Construction, OUSW(C), Program/Budget (P/B), supported by a "DoW Base Closure Account Financial Plan," (Format 460-BC), to request allocations of base closure funds. Refer to the Volume 12 Supplemental for more information. Host DoD Components are responsible for coordination with all affected tenant activities, including Defense Agencies, Defense Medical Facilities Office, Reserve Components, and nonappropriated fund activities. Tenant activities must identify specific base closure program requirements to their host DoD Component.

12.2.1.2. Director, Military Personnel and Construction. This office must initiate the SF 132, "Apportionment and Reapportionment Schedule," for the appropriate base closure account for submission to the OMB for its approval.

12.2.2. Funds Distribution

12.2.2.1. Director, Military Personnel and Construction. Upon OMB approval of the SF 132 for the base closure account, this office must provide a Fund Authorization Document to the applicable component for recording in the agency-level accounting records.

12.2.2.2. Director, Defense Finance and Accounting Service. The Director of DFAS must obtain and record, in the departmental-level accounting records, a Financial Management Service 6200, "Appropriation Warrant," for the base closure accounts. Refer to the Exhibit in the Volume 12 Supplemental.

12.2.3. Plan Execution - Refer to the Volume 12 Supplemental.

12.3 Reporting Responsibilities

12.3.1. DoW Components. The DoW Components must prepare and submit reports to the appropriate DFAS site on the status of its allotments. At a minimum, these reports must offer detail for each subaccount specified in a Fund Authorization document provided by OSW (refer to the Volume 12 Supplemental). Submit these reports in accordance with a schedule of due dates to be provided by the DFAS.

12.3.2. Defense Finance and Accounting Service. DFAS must establish base closure accounts with the Treasury and manage associated transactions, such as posting SF 1151 "Nonexpenditure Transfer Authorizations." This function also requires the preparation of various departmental-level reports, including appropriation and fund status reports as mandated by Volume 6, and Chief Financial Officer (CFO) reports for all base closure accounts. Additionally, it involves offering the consolidation of financial reports to produce Treasury Index 97 financial reports on a pass-through basis. This guidance can be supplemented with additional procedures as necessary, subject to the approval of OUSW(C).

12.4 Administration of Base Closure Funds

12.4.1. Appropriated Fund Activities. Expenses, losses, or other events occurring at an appropriated fund activity as a direct result of a DoW base closure action, which result in a cash outlay, are eligible for reimbursement from the applicable DoW Base Closure Account. Expenses, losses, or other events not resulting in a cash outlay by an appropriated fund activity are not eligible for reimbursement. Expenses, losses, or other events that result in a cash outlay (vice expenses, losses, or other events that do not result in a cash outlay) are dependent largely upon the unique circumstances in existence at a particular activity subject to closure. Refer to the Volume 12 Supplemental for general guidance on Expenses that Ordinarily Result in a Cash Outlay and Losses that Do Not Ordinarily Result in a Cash Outlay.

12.4.2. Disposition of DoW Base Closure Assets - Refer to the Volume 12 Supplemental.

13.0 TRANSFERRING, DISPOSING, AND LEASING OF REAL PROPERTY AND PERSONAL PROPERTY

This section provides financial policy for the disposal, transfer, and leasing of real property, as well as the transfer and lease of personal property. Financial policy for the disposal of personal property is addressed in Volume 11.

13.1 Policy

Leases: Non-excess Property and Personal Property. The Secretary of a Military Department may lease non-excess real and personal property under its control that is not needed for a public use for the time that it is leased in accordance with 10 U.S.C. § 2667. 10 U.S.C. § 2667 provides the same authority to the SecWar with respect to property under the control of a Defense Agency. Throughout this section and the corresponding section in the Supplemental, the term "Secretary concerned" will mean the Secretary of a Military Department, with respect to matters concerning that Military Department; and the SecWar, with respect to matters concerning the OSW Components of Defense Field Activities. Refer to the Volume 12 Supplemental.

13.2 Reporting Requirements to Congress

Refer to the Volume 12 Supplemental

14.0 EDUCATIONAL ASSISTANCE PROGRAMS

14.1 Overview of Educational Assistance Programs

The DoW provides several Educational Assistance Programs that establish a legally binding entitlement for eligible individuals, including active-duty service members, reservists, survivors, and their dependents. These programs serve the dual purpose of aiding in military recruitment and retention while also facilitating the readjustment of service members to civilian life and providing educational support for their families. While the authorization of these entitlements constitutes a binding contract with the Federal Government, it may require a separate,

subsequent appropriation of funds. This section provides specific guidance on the financial operations, transaction recording, and accounting standards for managing these programs, and additional details can be found on the U.S. Department of Veterans Affairs (DVA) website.

14.1.1. Veterans' Education Assistance Program (Post-Vietnam). The Veterans' Education Assistance Program (VEAP) (38 U.S.C. § 3201) is an educational benefit for service members who entered service between January 1977 and June 1985. This program was terminated on April 1, 1987. However, the Services may be required to budget and submit payment for unfunded liabilities as determined by the DoW Board of Actuaries on a year-by-year basis.

14.1.2. Montgomery GI Bill – Active Duty. The Montgomery GI Bill – Active Duty (MGIB-AD) (38 U.S.C. Chapter 30), also known as "Chapter 30," provides education benefits to veterans and service members who have met the minimum requirements of their obligated period of active duty. Refer to the Volume 12 Supplemental for Eligibility Requirements; Benefits; and Budget Submission Guidance.

14.1.3. Montgomery GI Bill – Selected Reserve. The Montgomery GI Bill Selected Reserve (MGIB-SR) 10 U.S.C. Chapter 1606 program offers up to 36 months of education and training benefits. Refer to 10 U.S.C. § 16132(a). Refer to the Volume 12 Supplemental for Eligibility Requirements; Period of Entitlement; Benefits; and Budget Submission Guidance.

14.1.4. Post-9/11 GI Bill. The Post-9/11 GI Bill (38 U.S.C. Chapter 33) provides education and job training to qualifying Veterans or members of the Armed Forces who served on active duty after September 10, 2001, and have met the minimum requirements of their obligated period of active duty. The DVA funds the Post-9/11 GI Bill. Such members are also entitled to transfer the Kicker of this benefit to a spouse or dependent children if conditions to transfer the basic benefit are met. Refer to the Volume 12 Supplemental for Eligibility; Benefits; and Budget Submission Guidance.

14.2 Funding for Educational Assistance Programs

The Veterans Educational Assistance Act of 1984 established a trust fund to finance DoW education liabilities on an actuarially sound basis. The DoW Education Benefits Fund (EBF) is a trust fund used to accumulate funds for transfer to the DVA to cover the DoW share of benefits. The DoW funds the MGIB-AD benefits, the MGIB-SR basic and Kicker benefits, and the VEAP benefits. The DoW Office of the Actuary performs actuarial valuations and provides actuarial support and expertise for the EBF. Refer to the Education Benefits Valuation Report, which is updated annually. Refer to the Volume 12 Supplemental for more information and guidance on the fund; payments; transfers; deposits; and Table 14-1 for Active-Duty Critical Skill "Kicker" benefits.

14.3 Fund Transfers of Military Personnel Appropriations

Refer to the Volume 12 Supplemental.

14.4 Payroll Deductions

Refer to the Volume 12 Supplemental.

14.5 Refunds or Erroneous Deductions from Active-Duty Members

Refer to the Volume 12 Supplemental.

14.6 Collection of Educational Debts Owed to the Government by Selected Reserve

Refer to the Volume 12 Supplemental.

15.0 MILITARY PERSONNEL ENTITLEMENT PROGRAMS

Entitlement Programs are legally established benefits available to any person or unit of government meeting eligibility requirements established by law. Authorizations for entitlements constitute a binding obligation on the part of the Federal Government, and eligible recipients may have legal recourse if the obligation is not fulfilled. Legislation authorizing entitlements does not necessarily include a corresponding appropriation of funds, thus subsequent enactment of appropriations may be necessary. This section prescribes the accounting policy for two entitlement programs established for DoW military personnel. The entitlement programs are the MRF and the Medicare-Eligible Retiree Health Care Fund (MERHCF).

15.1 General Accounting Policy for Entitlement Programs

15.1.1. Payment of Benefits. Entitlement programs are divided into three categories according to the events that give rise to benefit payments: payments based on individual eligibility, payments required by law, and reimbursable events. These categories are accounted for as follows:

15.1.1.1. Individual Eligibility. When the program is administered by a federal agency, entitlement benefits based on individuals meeting eligibility requirements of a program must be recorded as a liability and an expense when the eligibility requirements are met (as determined by program officials). The recorded liability and expense must cover all expected payments for the current period of eligibility. Payments to recipients reduce the recorded liability.

15.1.1.2. Compliance with Statutory Laws. When payments are authorized (through appropriation and allotment of funds) for disbursement pursuant to legal requirements with no specific action required of the recipients, a liability and expense must be recorded when the appropriated funds are allotted to the applicable program. The recorded liability and expense must cover the total amount to be disbursed. As payments are made, the liability must be reduced.

15.1.1.3. Reimbursable Events. When payments are based on the occurrence of a specific event for which costs are reimbursable under an entitlement program, a liability must be recorded when the event occurs. If the reimbursement is based on end-of-period reports from program administrators, an estimated amount must be accrued at the end of a reporting period.

15.1.2. Identifiable Refunds. When the expense for payments made under an entitlement program exceeds the appropriation (permissible for certain programs under special statutory authority), the source of the related funds must be clearly identified. If the funds were borrowed, the appropriate liability account must be established.

15.1.3. Suspension of Payments. When substantiated doubt exists on the continued entitlement of a military retiree or annuitant to receive benefit payments and payments on an account are suspended, the DFAS must cease obligating on the subject account for retired pay, retainer pay, or annuitant benefits. Previously obligated amounts must be deobligated to the extent of recoveries on previous payments or amounts held in a suspense account. Although this procedure is directed primarily at suspected death status accounts, it applies equally to other situations that may terminate entitlement. Examples of other situations include (but are not limited to) employment by a foreign government, renouncing U.S. citizenship, remarriage of a surviving spouse, and certain student annuitants dropping out of school.

15.2 Accounting Policy for The Accrual And Investment of MRF

15.2.1. Retired Pay Entitlements

Retired military pay is a pension program established by 10 U.S.C. §§ 1461 – 1467 and administered by the Secretary of the Treasury. The MRF must be used for the accumulation of funds in order to finance, on an actuarially sound basis, liabilities of the DoW under military retirement and survivor benefit programs. As such, the program fits under the category of entitlement authority as defined by 2 U.S.C. § 622(9). Accounting Policy for the Accrual and Investment of MRF – Refer to the Volume 12 Supplemental.

15.3 Accounting Policy for the Accrual, Investment, and Transfers of MERHCF

15.3.1. MERHCF Purpose

MERHCF was established by the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, Public Law 106-398. Its purpose is to pay for the qualifying healthcare costs of Medicare-eligible beneficiaries, including uniformed service retirees, their dependents, and their survivors.

15.3.2. MERHCF Entitlements

The "Department of War Medicare-Eligible Retiree Health Care Fund" (MERHCF) is an OSW Special Fund and is classified as an entitlement authority as defined in 2 U.S.C. § 622(9). The MERHCF, administered by the Secretary of the Treasury, is mandated to accumulate funds to finance, on an actuarially sound basis, the liabilities of DoW under uniformed services healthcare programs for beneficiaries, as designated by 10 U.S.C. §§ 1111 – 1117.

15.3.3. Responsibilities

15.3.3.1. Assistant Secretary of War for Health Affairs (ASW(HA)). Approves and issues procedures for the management and operation of MERHCF and provides guidance and operational direction to the Defense Health Agency (DHA).

15.3.3.2. Director, DHA. Implements DoW policy for MERHCF, directs reviews of legislative changes for potential impacts, and oversees execution reviews.

15.3.3.3. Department of War Medicare-Eligible Retiree Health Care Board of Actuaries. Provides advice on actuarial matters, reviews actuarial valuations of MERHCF, and reports annually on its actuarial status to the Secretary of War, and not less than once every four years (quadrennial report), to the President and Congress.

15.3.3.4. Chief Actuary, DoW Office of the Actuary. The DoW Office of the Actuary (OATC), Chief Actuary, reports on the actuarial status of MERHCF, provides cost estimates to OMB and participating Services, and reviews legislative changes for actuarial impact.

15.3.3.5. USW(C). The USW(C) prepares the total unfunded liability amortization payment plus the total normal cost contribution for certification by the Secretary of War to the Secretary of the Treasury.

15.3.3.6. Director, DFAS. Manages MERHCF's investments, establishes the necessary accounts, develops financial management processes, performs accounting, reports financial activities for required financial statements, and supports financial audits.

15.3.3.7. Secretaries of the Military Departments. Provide personnel data as requested and conduct all fund transfers, accounting, reconciliation, and other administration relating to the operation of MERHCF.

15.3.3.8. Administering Secretaries for the Participating Uniformed Services. The Administering Secretaries for the participating Uniformed Services include the Secretary of Homeland Security (for USCG) and the Secretary of Health and Human Services for PHS and NOAA. The Administering Secretaries for the participating Uniformed Services calculate and transfer their normal cost contributions to MERHCF and provide personnel data as requested.

15.3.4. MERHCF Accounts

The DoW MERHCF (097X5472, "Department of War, Medicare-Eligible Retiree Health Care Fund") is classified as a Special Fund and uses specific receipt, expenditure, and investment accounts. Amounts deposited are immediately available for investment, payment of benefits, and administrative costs. DFAS is responsible for making amounts available from the fund to cover all qualifying expenses.

15.3.5. MERHCF Assets

15.3.5.1. Contributions. Payment from DoW appropriations and other uniformed services (USCG, NOAA, and PHS), and the Treasury to fund future benefits.

15.3.5.2. Unfunded Actuarial Liability Payment. Payments from a permanent indefinite general fund appropriation, 097X0850, to fund future benefits payable from MERHCF attributable to service rendered prior to October 1, 2002 (i.e., the unfunded actuarial liability), and to cover actuarial gains and losses.

15.3.5.3. Investment Income. Income earned on the invested portion of the fund.

15.3.5.4. Return of Prospective Payment Transfers. Amounts returned to the fund that were previously transferred but found to be in excess of what was needed.

15.3.6. Accounting for MERHCF Revenues

DFAS records investment earnings. All contributions from DoW, other uniformed services, and the Treasury must be based on determinations by the DoW OACT under methods approved by the DoW MERHCF Board. Prior to each fiscal year, the Secretary of War shall certify the amortization payment and normal cost contributions due to the fund.

15.3.7. Reimbursements of Medicare-Eligible Retiree Health Care

The Fiscal Year 2005 National Defense Authorization Act provides permanent, indefinite appropriations from the Treasury to finance the cost of Medicare-Eligible Retiree Health Care (MERHC) accruals beginning in fiscal year 2006, rather than from MILPERS annual appropriations. Therefore, the per capita normal cost for MERHC accruals is not billable to other DoW Agencies or Federal Agencies. However, under 22 U.S.C. § 2761(a)(1)(C) of the Arms Export Control Act, these costs must be included in the rate billed to foreign countries or international organizations for the sale of defense services. These reimbursements must be deposited into the Treasury Miscellaneous Receipts account 304100.

15.3.8. Investment of MERHCF Cash Balances

DFAS is responsible for investing cash balances of MERHCF not required to meet current withdrawals. Investments are limited to Market-Based U.S. Government Special Securities issued by the Treasury. The income on such investments must be credited to receipt account 097X5472.002, "Earnings on Investments, DoW Medicare-Eligible Retiree Health Care Fund," and form a part of MERHCF.

15.3.9. Accounting for MERHCF Outlays

15.3.9.1. DFAS must make amounts available from the fund for payment of qualifying expenses. These expenses fall into two categories:

15.3.9.1.1. Purchased Care. Healthcare purchased from non-DoW providers.

15.3.9.1.2. Direct Care. Healthcare services provided to Medicare-eligible beneficiaries directly in DHA MTFs.

15.3.9.2. DHA determines the annual prospective payment amounts required from the fund for these categories. These amounts are based on the estimated costs of providing services to Medicare-eligible beneficiaries. Throughout the year of execution, an execution review is conducted to compare prospective payments against the earnings from the actual care provided. An established 10% variance threshold governs this reconciliation. Variances falling within this +/- 10% threshold are mutually waived. For variances that exceed the threshold, only the amount of the variance in excess of the 10% band is reconciled through adjustments to future prospective payment calculations. The results of this review are used to inform future fund requirements, and funds determined to be in excess of requirements may be returned to the MERHCF in accordance with 10 U.S.C. § 1113.

15.3.10. MERHCF Financial Reporting Requirements

DFAS is responsible for preparing all required financial reports for MERHCF, including the SF 133 (Report on Budget Execution and Budgetary Resources), the Status of Funds report, and all Federal financial statements as required by OMB Circular No. A-136 to support the DoW Agency-wide financial statements. The financial statements must recognize a liability for the present value of future MERHC benefits for eligible participants.

16.0 DOW REWARDS PROGRAM

16.1 Responsibilities

Refer to the Volume 12 Supplemental.

16.2 Implementing the Program in the Field

16.2.1. Rewardable Information. Eligible persons may receive a reward for providing information or non-lethal assistance that benefits (1) an operational activity of U.S. or allied forces in combined operations against international terrorism outside the U.S. or (2) force protection of U.S. or allied forces in combined operations.

16.2.2. Payment Approval Amounts. Tactical Rewards Officers can authorize rewards up to $10,000. A Combatant Commander (CCDR) is permitted to approve rewards up to $1,000,000. For rewards greater than $1,000,000 and up to $2,000,000, approval from the USW Policy (USW(P)) is necessary. Rewards exceeding $2,000,000 but not surpassing $5,000,000 require the authorization of the SecWar or the Deputy SecWar, or, through a separate written delegation, the USW(P). Statutorily, if any proposed reward (whether pre-approved or otherwise) exceeds $2,000,000, consultation with the Secretary of State is mandated for the SecWar. Table 1 in DoDI O-3000.13 outlines these approval limits. Refer to the Volume 12 Supplemental for further

guidance on approving officials; approval level; rewards lists; payments; coordination; and requests for additional funds.

16.3 Policy

16.3.1. Allocation of Funds. The USW(C)/CFO will ensure DoW funds for the Rewards Program (RP) are correctly allocated to WHS for control and execution. Geographic combatant commanders will inform the Director, Joint Staff of any necessary inter-theater fund allocations.

16.3.2. Improper Usage of Funds. U.S. citizens, officers or employees of the U.S. federal, state, or local government, or employees of a U.S. Government contractor are not eligible for rewards under the DoW RP. CCDRs should be cautious about rewarding foreign security force members due to potential risks such as extortion, corruption, negative perceptions, or undermining U.S. law or DoW human rights policies related to training and equipping foreign security forces. The USW(P) can grant exceptions to this rule for specific countries and will review these waivers annually. Requests for such approvals should be directed to the Assistant Secretary of War for Special Operations/Low-Intensity Conflict (ASW SO/LIC). Previously approved waivers remained valid under this guidance.

16.3.3. Delivery, Transporting and Safeguarding of Funds. Any funds made available for the DoW RP will be delivered, transported, and safeguarded consistent with Volume 5.

16.3.4. Appointment of Paying Agents. The Disbursing Officer will appoint Paying Agents responsible for delivering funds under the DoW RP in accordance with Volume 5. Allied forces members will receive the same training as U.S. paying agents and sign a statement of understanding. Since the DoW cannot hold foreign nationals and other non-U.S. citizens pecuniarily liable for fund losses, the appointing authority must carefully consider the necessity and risk when appointing them as paying agents. The responsible agent must record all funds given to and returned by allied forces paying agents on DD Form 1081, "Statement of Agent's Officer's Account," as specified in Volume 5. Upon completing authorized payments, the paying agent must return the paid vouchers, negotiable instruments, and any remaining funds to the disbursing officer along with a properly filled out DD Form 1081.

16.3.5. Documentation of Payments. DoW RP payments will be executed and recorded in accordance with Volume 5 and Volume 10.

16.3.6. Circumventing Limits. The DoW prohibits circumventing monetary limits and approval requirements by dividing a single reward into multiple smaller rewards or by other methods. However, the DoW allows splitting payments of approved expenses for administrative purposes (for instance, paying a vendor 50 percent at the start of a project and the remaining 50 percent upon completion).

16.3.7. Clearance of Accounts. The DoW Component must clear accounts maintained under the RP consistent with Volume 5.

16.3.8. Certification of Payments. Payments made under the DoW RP will be certified in a manner consistent with Volume 5.

16.3.9. Audits and Program Reviews. The DoW RP will undergo periodic audits by internal bodies like the DoW Inspector General and other audit agencies, as well as external groups such as the Government Accountability Office and congressional oversight committees. Officials managing the RP must cooperate fully with these reviews, audits, or investigations.

16.4 Payments and Rewards through Government Personnel of Allied Forces

Execution of Rewards through Allied Government Personnel. The SecWar, geographic combatant commanders, and all delegated officials may use their authorities to offer and make rewards, acting through government personnel of allied forces. However, they may not pay rewards through allied government officials after the payment date authorized by 10 U.S.C. § 127b. Refer to the Volume 12 Supplemental for information on payment requests; appointments of paying agents; and limitations.

16.5 Information Dissemination

Refer to the Volume 12 Supplemental.

16.6 Reports and Notifications

16.6.1. Annual Report. According to 10 U.S.C. § 127b, by February 1 each year, the SecWar must report to the Senate and House Armed Services Committees on the administration of the RP for the previous fiscal year. Refer to the Volume 12 Supplemental.

16.6.2. Report on Designation of Countries for which Rewards may be Paid. Within 15 days of designating a country for operations or activities eligible for rewards under this section, the SecWar must report to the Senate and House Armed Services Committees. Refer to the Volume 12 Supplemental.

16.7 Waivers

16.7.1. Requests for Waivers or Exceptions to Law. A DoW Component must submit requests for waivers or exceptions to any provision of law that would otherwise prohibit, restrict, limit, or constrain the execution of the reward program through ASW SO/LIC, the USW(C)/CFO, and DoW General Counsel to the SecWar for approval.

16.7.2. Requests for Waivers or Exceptions to Guidance. A DoW Component must submit requests for waivers or exceptions to this guidance through ASW SO/LIC to the USW(C)/CFO for approval.

17.0 FOOD SERVICE PROGRAM RESPONSIBILITIES

In accordance with 37 U.S.C. § 1011, the SecWar must establish meal rates for all personnel authorized to dine at military messes, including uniformed members, civilian

employees, retirees, and their dependents. The OUSW(C) is responsible for the financial management policy herein and must establish these rates annually. The primary purpose of these rates is to ensure full reimbursement to the concerned appropriations for both food costs and operating expenses. However, the Secretary may reduce a meal rate by the amount attributable to operating expenses when the Secretary determines it is in the best interest of the United States. The policies in this section govern the specific meal charges for all classes of diners, and all DoW Components must implement them. DFAS is responsible for developing the necessary implementation procedures. DoW Components may not issue policies that supplement this guidance without prior written approval from the OUSW(C). The OUSW(C) publishes official rates on its reimbursable rates website.

17.1 Reimbursable Meals and Meal Service (Operating) Charges

The provisions of this section must be used to determine use of the DoW discount meal rate (the cost of the food only) or the DoW standard meal rate (the cost of both the food and the non-training/readiness food service operating expenses). Refer to the Volume 12 Supplemental for available meal services.

17.2 Meal Charges

Reimbursement charges for persons authorized to eat in an appropriated fund dining facility vary depending on the status of each person. Refer to the Volume 12 Supplemental for more information on the five major categories of personnel: officers; enlisted personnel; military dependents; Federal civilian employees; and others.

17.3 General Provisions

17.3.1. Personnel, Other Than Enlisted Personnel. Personnel, other than enlisted personnel, may receive a meal from an appropriated fund dining facility, provided no increase in direct resources results from feeding such personnel and appropriate meal charges are collected consistent with paragraph 17.2.

17.3.2. Commanding Officer Responsibility. The commanding officer of the DoW installation, at which an appropriated fund dining facility is located, is responsible for assuring that meals are provided only to authorized personnel within the capabilities and availability of existing appropriated fund dining facilities.

17.3.3. Temporary Duty Orders. Temporary duty orders must indicate the food allowance/per diem status of travelers to assist in determining the appropriate meal charge to be assessed.

17.3.4. Service Academies. Service academies (i.e., Army, Navy, and Air Force) are to use the food service charges contained within the DoW Reimbursable Rates, “Food Service Charges at Appropriated Fund Dining Facilities.”

17.3.5. Civilian and Military Personnel of a Foreign Government. Civilian and military personnel of a foreign government must furnish meals in accordance with specific arrangements

made between the U.S. Government and the foreign government. Charges for food costs and related food service operating expenses must be made on the same basis as they would be for U.S. Government personnel of equal rank.

17.4 Disposition of Funds

Each Military Service is responsible for the program, budget, and accounting for obligations, expenditures, revenues, and food service operating expenses and all meals in accordance with this section. Refer to the Volume 12 Supplemental for Recording; Collections; and Discounted and Standard Meal Rate Distribution.

17.5 Accounting for Food Allowances

17.5.1. Information Requirements. Information requirements have been established to ensure that data are maintained, and that information is reported for use in determining and administering food allowances. These requirements prescribe procedures for counting meals furnished to personnel in appropriated fund dining facilities under the daily food allowance and authorized reimbursable programs. They are designed to assist in monitoring food costs and allowances and making the accumulation of data more consistent throughout the Department under the Food Service Program established by DoDM 1338.10.

17.5.1.1. The recording and reporting of obligations/expenditures against the daily food allowance portion of the operations and maintenance appropriations are as set forth in Volumes 2 and 3.

17.5.1.2. The data reported must support budget requests based on furnishing meals to entitled enlisted personnel by each Military Service, after consideration of the absentee rate, without regard to the member's parent Military Service.

17.5.2. Counting the Number of Persons' Furnished Meals. Except for mass feeding situations as set forth in the Volume 12 Supplemental, all personnel authorized to eat in appropriated fund dining facilities must identify themselves with a meal card, DoW Common Access card, or travel orders issued by a DoW Component before receiving a meal from the dining facility. Enlisted personnel on Basic Allowance Subsistence or receiving the meal portion of per diem, as well as all officers, civilian employees, official visitors, dependents, and guests authorized to eat on a reimbursable basis, must be required to identify themselves as to the category of entitlement (authorized to eat on a reimbursable basis) and status (per diem or non-per diem). They must reimburse DoW at the appropriate meal rate before receiving a meal from an appropriated fund dining facility. Refer to the Volume 12 Supplemental for more information.

17.6 Food Service Operating Expense Reporting Requirements

The OUSW(C) P/B Office establishes meal rates annually for personnel authorized meals on a reimbursable basis. The Military Services are required, in coordination with OUSW(C), to report the cost of food served to service members and food service operating expenses.

18.0 MILITARY ACADEMY DINING HALL OPERATIONS

18.1 Policy

This section promulgates the policy that implements 37 U.S.C. § 422 which authorizes funding for the operation of cadet and midshipmen dining halls at the military academies and prescribes associated reporting requirements.

18.1.1. Authorization Determination: Each Military Department operates an academy dining hall to provide complete food service support to the cadets or midshipmen as an integral part of the activities of its academy.

18.1.1.1. The superintendent of each academy is authorized to determine who may be authorized to eat in the academy dining hall and the regulations incident thereto within guidelines issued by the secretary of the cognizant Military Department.

18.1.1.2. Charges for meals furnished to other than cadets and midshipmen will be established by the Under Secretary of War (Comptroller) (USW(C)) and the reimbursable rate for "Food Service" issued annually.

18.1.1.3. All collections for food costs must be deposited into the nonappropriated fund described in subparagraph 8.1.2.2. The charge for operating expenses will be collected and deposited under the same rules that are applicable to appropriated fund food service activities as prescribed by Section 17.

18.1.2. Subsistence Allowance Amount

18.1.2.1. The SecWar prescribes the amount of the subsistence allowance for cadets and midshipmen.

18.1.2.2. The amount prescribed is allocated by the Military Departments from the current military personnel appropriation to a nonappropriated fund at each academy based on the number of cadets and midshipmen present for training.

18.1.2.2.1. Each nonappropriated fund is used to procure the food and food products necessary to provide subsistence for the cadets and midshipmen.

18.1.2.2.2. Nonappropriated funds must be established as a NAFI and administered as a Program Group V – Supplemental Mission Fund in accordance with DoWI 1015.15.

18.1.2.2.3. The nonappropriated fund must be audited in accordance with DoWI 7600.06 if the annual revenues in the fund exceed the threshold established therein.

18.1.2.2.4. The nonappropriated fund must not be used for any purpose other than subsistence procurement. All other charges associated with dining service must be charged against appropriated funds.

18.1.3. Subsistence Allowance – Leave Status

The subsistence allowance that is not earned for any cadet or midshipman on leave or otherwise away from the academy, and not subsisted at Government expense, will be credited to the cadet/midshipman's pay account.

18.1.4. Subsistence Allowance – Temporary Duty Status

The subsistence allowance that is not earned for any cadet or midshipman on temporary duty, and subsistence-in-kind that is furnished at the temporary duty location, will not be collected by the nonappropriated fund.

18.2 Responsibilities and Reporting Requirements

18.2.1. Internal Control and Procurement Requirements. Under overall policy supervision by the secretary of the cognizant Military Department, the superintendent of each academy is responsible for:

18.2.1.1. Assuring the efficient and effective management of the academy dining hall and its NAF for the purchase of subsistence items. In connection with this responsibility, the superintendent must install an accrual accounting system that permits an objective, constructive evaluation of the dining hall operation.

18.2.1.2. Assuring that the procurement procedures maintain the same degree of integrity as those procurement actions taken in accordance with the Federal Acquisition Regulation (FAR). In the event any question arises regarding the proper procurement procedure, the FAR will be used as a guide.

18.2.2. Reporting Requirements. An annual report on meal operating expenses in the military academy dining halls should be submitted in accordance with the guidance contained in Volume 11.

18.3 Annual Reimbursable Rates

The annual reimbursable rates for military academy dining halls are located on the USW(C) public website, listed by Fiscal Year (FY) under the following headings: Financial Management, Reports, DoW Reimbursable Rates.

19.0 FINANCIAL MANAGEMENT FOR DEFENSE HEALTH PROGRAM RESOURCES

19.1 General

19.1.1. The Defense Health Program (DHP) appropriation (Treasury Federal Account Symbols and Titles (FAST) 0970130) funds medical operations of the Defense Health Agency

(DHA) and the Uniformed Services University of the Health Sciences (USUHS); and consists of Operation and Maintenance (O&M), RDT&E, and Procurement funds.

19.1.2. The DHP does not fund military medical personnel costs or operational healthcare for field/numbered medical units, hospital ships, and shipboard medical operations. Funding for operational healthcare remains the responsibility of the Military Departments.

19.1.3. Military Construction (MILCON) is a separate appropriation, however, the Assistant Secretary of War for Health Affairs (ASW(HA)) executes and reports on MILCON for medical facilities as part of DHP's financial statements.

19.2 Responsibilities

19.2.1. The ASW(HA) is the DHP funds holder. ASW(HA) allots budget authority, issues execution policy, develops the Unified Medical Program, and enters into reimbursable agreements with other federal agencies. The ASW(HA) exercises authority, direction, and control over the DHA and USUHS, and any other subordinate officials that may be assigned.

19.2.2. The Deputy Assistant Secretary of War, Health Resources Management and Policy, serves as the DHP Senior Accountable Official, overseeing financial reporting, internal controls, and execution policy in accordance with all applicable laws and regulations.

19.2.3. Military Departments and Combatant Commands (CCMD) are responsible for engaging with ASW(HA) for the advance planning and coordination of mission expansions or force restructurings that result in increased demand on DHP resources. Changes that were not programmed for within the DHP may result in requirements being under-resourced. Military Departments and CCMDs will generally be responsible for transferring sufficient funds to the DHP to support increased demands on DHP healthcare resources, documented in a corresponding Memorandum of Agreement, and properly integrated by the DHP during normal programming cycles.

19.3 Expenses Chargeable to the DHP

See Volume 12 Supplemental Procedures for additional items.

19.3.1. Civilian Payroll. Civilian payroll for personnel assigned to DHA and USUHS.

19.3.2. Communications and Utilities. Charge DHP for telephone services and other communication services that support the medical mission. Charge DHP for utilities obtained from commercial sources and all base-produced utilities. Utilities include fuel for heating and cooling.

19.3.3. Immunizations Funded with DHP:

19.3.3.1. Routine Vaccines: These are vaccines required to maintain warfighters (including expeditionary civilians) in a "Fully Medically Ready" status, in accordance with DoDI 6025.19, ASW(HA) policy, and DHA immunizations guidance. All warfighters are required to have these vaccines regardless of deployment status.

19.3.3.2. Directed (Pre-Deployment): These are vaccines directed by CCMDs and approved by ASW(HA) for an imminent deployment.

19.3.3.3. Immunizations for PCS: Vaccines required and approved by ASW(HA) for entry into a specific geographic Area of Responsibility (AOR) will be provided to warfighters and their eligible dependents.

19.3.3.4. Immunizations for Leisure Travel: Provided at no cost to Service members/ dependents. Provided on a reimbursable basis to civilian employees.

19.3.3.5. Immunizations for the Activated and Inactivated Reserve Component (RC): Effective FY 2027, RC Service members may obtain those vaccines required to maintain their "Fully Medically Ready" status, in accordance with DoDI 6025.19, ASW(HA) policy, and DHA immunizations guidance. MTFs must provide the vaccines on a non-reimbursable basis.

19.3.4. Autopsies and Forensic Pathology Investigations. The Armed Forces Medical Examiner, funded through the DHP appropriation, conducts autopsies and forensic pathology investigations under the authority of 10 U.S.C. § 1471 and in accordance with DoDI 5154.30.

19.3.5. TRICARE Contracts. 10 U.S.C. § 1079 authorizes TRICARE contracts for spouses' and children's medical care; 10 U.S.C. § 1086 authorizes health benefits for certain members, former members, and their dependents; 10 U.S.C. § 1097 authorizes medical care for retirees, dependents, and survivors (alternative delivery of healthcare). 10 U.S.C. § 1092 authorizes studies and demonstration projects relating to the delivery of health and medical care.

19.3.6. Sustainment, Restoration, and Modernization (SRM). SRM of DHA MTFs and USUHS.

19.3.7. Healthcare Services Contracts. Personal and non-personal healthcare service contracts supporting the DHA, MTFs, or USUHS. Healthcare provider personal service contracts follow the terms and restrictions in Defense Federal Acquisition Regulation Supplement (DFARS) 237.104 (b)(ii), and DoDI 6025.5, "Personal Services Contracts (PCSs) for Health Care Providers (HCPs)."

19.3.8. Hyperbaric and Hypobaric Chambers. Chambers used for clinical treatment. DHP does not fund chambers used for aircrew physiological training.

19.4 Expenses Not Chargeable to the DHP

Refer to the Volume 12 Supplemental for additional items.

19.4.1. Transportation of Human Remains.

19.4.2. Non-prescription Items. DHP does not fund non-prescription items such as sunscreen, hand sanitizer, lip balm, and tissue for distribution to non-DHP-funded organizations.

These are personal expense items. DHP can only fund these items (e.g., hand sanitizer, masks) for staff and patients within DHP-funded organizations.

19.4.3. Veterinary Services Provided to Privately-Owned Pets. Installation Veterinary Services' primary purpose is to provide healthcare to DoW working animals. DoW veterinary clinics may provide some services to pets but must ensure that costs for DoW working animals are segregated from those provided to pets. Typically, Non-Appropriated Fund Instrumentalities (NAFI) must cover the expenses related to pets and proportionately share in the costs of custodial services and utilities, consistent with DoDI 1015.15.

19.4.4. Clothing, Supplies, or Equipment for Contingency or Other Military Operations. Military Departments or other appropriations that fund the contingency must fund these expenses.

19.4.5. Contingency Support Medical Activities. Military Department or other contingency appropriations must fund:

19.4.5.1. Deployed medical facilities and biological/chemical warfare medical supplies deployed with personnel.

19.4.5.2. Pre-deployment, employment, and redeployment of medical combat support personnel, equipment, and supplies.

19.4.5.3. Immunizations carried by personnel for potential use during the deployment.

19.4.6. Medical Care at Deployed Locations for Exercises and Contingencies. Charge costs to Joint Chiefs of Staff (JCS)/CCMD exercise or contingency funds. Include medical care provided to members at local indigenous medical facilities, medical supplies (e.g., pharmaceuticals, orthopedic braces), and urgent/emergency care at the deployed location.

19.4.7. Medical Participation in JCS/CCMD Exercises. Charge JCS/CCMD Exercise funds for the deployment of medical personnel, the cost of supplies used during the exercise, shipping, and the resupply cost of supplies upon return.

19.4.8. Aeromedical Evacuation (AE) Airlift in Support of Peacetime and Contingency Operations. AE airlift is not a DHP expense. Per the FY 2021 President's Budget, these funds are managed by the Air Force for both peacetime (including Special Assignment Airlift Missions and contingency operations. During contingency operations, the appropriation funding the contingency will be charged for the AE contingency airlift (from contingency area to first overseas MTF). Air Force O&M funds pay only those AE contingency airlift costs billed by the Transportation Working Capital Fund (WCF) from the first overseas fixed MTF to CONUS. After the contingency designation is formally withdrawn, Air Force O&M funds then become responsible for all future AE airlift costs from that former contingency area.

19.4.9. Automated External Defibrillators and Naloxone. AEDs and Naloxone for installation use outside of the MTF (e.g., for fire and security personnel) are funded by the

requesting organization. Funds provided to the local MTF Medical Logistics office by the requesting organization enable the MTF to procure the item on behalf of the requesting organization on a reimbursable basis.

19.4.10. Humanitarian Assistance and Civic Assistance. Per 10 U.S.C. § 401 and DoDI 2205.02, in specific instances, humanitarian civic assistance activities may be provided in conjunction with authorized military operations of the Armed Forces. Commanders ensure that expenses providing humanitarian civic assistance to a foreign country are paid for out of funds specifically appropriated for such purpose.

19.4.11. Military Spiritual Resiliency Programs. The DHP does not fund Military Department chaplain resiliency programs and initiatives. Funding is the responsibility of the Military Departments.

19.4.12. Health and Wellness Centers, Fitness Staff, and Athletic Trainers. Military Department appropriations fund wellness center exercise equipment, appliances for healthy cooking demonstrations, supplies, facilities, maintenance, and support staff. Military Department also funds fitness staff, athletic trainers, health and wellness educators, health promotions staff, etc., assigned to units, installation gymnasiums, or health and wellness centers.

19.4.13. Miscellaneous Non-clinical Programs. The DHP does not fund Military Department non-clinical programs designed to enhance general readiness and performance. This includes activities like physical fitness, unit teambuilding, mindfulness training, and other resilience efforts that occur outside of a medical setting and are not part of a formal treatment plan for a health condition.

19.4.14. Tactical Combat Casualty Care. Military Department fully fund and support trauma training and skills sustainment platforms (hospital and pre-hospital) to include installation, workforce, equipment, and information technology. See DoDI 1322.24, "Medical Readiness Training."

19.5 Other Healthcare Accounting Matters

Refer to Volume 12 Supplemental for the full list.

19.5.1. Sexual Assault Prevention and Response (SAPR). The Director, DoW Human Resource Activity (DHRA) manages the Defense-wide O&M appropriation that funds the SAPR program. The Military Departments, OSW, JCS, DSCA, U.S. Special Operations Command, DHA, and DHRA are allocated funds supporting SAPR activities. Multiple Program Elements (PE) execute funds.

19.5.2. Integrated Primary Prevention. The Military Departments and DHA receive Defense-wide O&M to prevent self-directed harm and prohibited abusive or harmful acts including, sexual assault, harassment, suicide, retaliation, domestic abuse, and child abuse. These efforts include prevention strategy development, policy, oversight, manpower, research, programs, evaluation, and training.

19.5.3. Suicide Prevention. The Defense-wide O&M appropriation funds suicide prevention efforts. Military Departments and DHA receive funds. Multiple PEs fund these efforts.

19.5.4. Drug Demand Reduction Program/Urinalysis Program. The Defense-wide Counternarcotic appropriation funds routine drug testing of military personnel and civilian employees. The Deputy Assistant SecWar for Counternarcotics and Stabilization Policy within the OUSW for Policy manages the program. Multiple PEs execute funding.

19.5.5. Family Advocacy Program. The Defense-wide O&M appropriation funds the Family Advocacy Program (FAP). The FAP addresses domestic abuse, child abuse and neglect, and harmful behaviors between children and youth.

19.6 Uniform Billing Office Operations

19.6.1. The DHP has statutory authority to bill and collect for healthcare services. Collections stem primarily from three distinct reimbursement programs:

19.6.1.1. Third-Party Collections (TPC) Program. 10 U.S.C. § 1095 established the TPC program. For beneficiaries with health insurance other than TRICARE, MTFs and TRICARE submit claims to health insurance companies for care provided to DoW beneficiaries. Collections must be deposited in the current O&M appropriations of the MTF that provided the care.

19.6.1.2. Medical Services Account (MSA) Program. The MSA program involves billing and collection for medical and dental services provided to a wide range of patients, including other government agencies, DoW civilian employees and contractors, employees of NAFs or DoW schools, Secretarial designees, authorized foreign military members, and civilian emergency patients. The MSA is governed by multiple authorities, including 10 U.S.C. § 1074a, 10 U.S.C. § 1079b, 10 U.S.C. § 1085, 14 U.S.C. § 506, and 38 U.S.C. § 8111.

19.6.1.2.1. Collections from the U.S. Coast Guard. In lieu of the reimbursement required under 10 U.S.C. § 1085, the Secretary of Homeland Security, as per 14 U.S.C. § 506, makes prospective payment for the actuarial valuation of treatment that MTFs provide to current and former members of the Coast Guard, and their dependents.

19.6.1.2.2. Collections from the Department of Veterans Affairs. DoW and the VA established agreements under the authority of 38 U.S.C. § 8111 permitting the VA to reimburse DoW for healthcare services provided to VA beneficiaries. Collections must be deposited in the current O&M appropriations of the MTF that provided the care.

19.6.1.3. Medical Affirmative Claims (MAC) Program. 42 U.S.C. § 2651 – 2653 and 10 U.S.C. § 1095 govern the MAC program and authorizes DoW to recover expenses from liable third parties for medical care costs incurred on behalf of covered beneficiaries.

19.6.2. MHS Modified Payment and Waiver Program (MPWP). Pursuant to 10 U.S.C. § 1079b, the MPWP provides financial relief for medical bills incurred by civilian non-beneficiaries treated in MTF on or after June 21, 2023. The program features an income-based sliding fee scale, a catastrophic fee waiver to prevent severe financial harm, and a discretionary waiver based on the readiness value of the care provided. All patient applications for financial relief under this authority are centrally processed and adjudicated by the DHA's Debt Adjudication Office. Discretionary waivers of $600 or more require reporting to the Internal Revenue Service and issuance of a Form 1099-C (prepared by DHA).

19.7 DHP Budget Activity Groups (BAGS) and Program Elements (PE) Structure

Refer to the Volume 12 Supplemental.

20.0 CONTINGENCY OPERATIONS

20.1 General Guidance

20.1.1. This chapter promulgates financial policy for small, medium, and large-scale campaign level military contingency operations related to the Department of War (DoW). These might include, but are not limited to, support for peacekeeping operations, foreign disaster relief (FDR) efforts, and noncombatant evacuation operations (NEO). Note that the term "contingency operation," as used in this chapter, is more encompassing than the specific definition contained in 10 U.S.C. § 101(a), paragraph 13. Explicitly excluded from this chapter are peacetime civil emergencies occurring within the United States, the guidance for which is included in DoDD 3025.18, "Defense Support of Civil Authorities (DSCA)." Also excluded from this chapter are steady-state DoW humanitarian assistance activities.

20.1.2. Budgeting for Contingency Operations. DoW Components normally do not budget for contingency operations as discussed in this section. Therefore, DoW Components must accomplish directed contingency operations using funds available to the cognizant command or unit, independent of the receipt of specific funds for the operation. The SecWar issues the authority for DoW Components to expend available funds. Since the FY 2010 President's Budget, estimates for the Global War on Terror and Overseas Contingency Operations are included with the submission of the President's Budget.

20.1.3. An Execute Order from the SecWar. An execute order from the SecWar is both the authority for the commander of a Combatant Command (CCMD) to initiate military operations and the authority for DoW Components to expend available funds to carry out the order. Planning orders and alert orders from the Chairman, of the Joint Chiefs of Staff (CJCS) constitute authority for a commander of a CCMD to expend funds available to that commander of a CCMD and authority to direct a military component to expend funds available to that component for forces assigned to the commander of a CCMD. Refer to Joint Publication 5-0, Joint Operation Planning, for information on joint operation order types.

20.1.4. DoW Policy Requirements. DoW policy requires that controls, accounting systems, and procedures provide, in financial records, proper identification and recording of costs

incurred in supporting contingency operations. For such operations, data must be collected and records maintained to support bill development and the distribution of reimbursements to the applicable organizations.

20.1.5. Emergency Supplemental Funding

Refer to the Volume 12 Supplemental.

20.1.6. Elimination of Potential Duplicative Efforts. DoW officials having responsibility for reviewing and approving purchases for which the source of funding is derived from a transfer account like the Overseas Contingency Operations Transfer Fund (OCOTF) must, to the greatest extent possible, review transactions to: (1) eliminate the potential for duplicating the procurement of goods and services and (2) ensure that contractors are reimbursed for only those services and goods provided to the government.

20.1.7. Allowable Contingency Operations Cost. The funding derived from a contingency transfer account is available only for those incremental costs incurred in direct support of a contingency operation. As such, funds that are transferred into a Component's baseline appropriation are not to be used to finance activities and programs that are not directly related to the incremental cost of the contingency. In addition, the funds transferred to a Component's appropriation are not to be used to procure durable and expendable items in excess of what is required. Furthermore, those durable items procured with transferred funds are to be retained in support of the contingency even after the Component/unit has completed its tour of duty to support the contingency. Those durable items in the inventory, such as office equipment and expendable supplies that have not been consumed, should be made available to Components/units that are replacing the Component/unit that is departing the contingency operation area.

20.1.8. Fiduciary Responsibility. It is vital for civilian and military personnel authorized to obligate and expend funds in support of a contingency operation, using resources derived from the transfer of funds from a centrally funded transfer account (e.g., OCOTF), to employ a fiduciary approach to ensure that the funds are used in a prudent manner. Contingency funds are not to be used for purchases that are improper or are in excess of government requirements or which might bring embarrassment to the U.S. Government. Furthermore, special attention must be given by the Components' approving officials when the government purchase card is used for purchases to be funded with funds derived from a contingency operations transfer account. Approving officials are responsible for reviewing and reconciling cardholders' statements and for verifying that all transactions were necessary government purchases made in accordance with the FAR and all other government policies and procedures. See Volume 10 for more information.

20.2 Supplemental

Refer to the Volume 12 Supplemental for additional information on references, responsibilities, types of estimates, reporting, contingency-specific definitions, justification, and the COST estimate tool. Cost reporting requirements for submission, inclusions, and consolidation of cost reports are in the Supplemental. Guidelines to assist the DoW Components in determining baseline and incremental costs for contingency operations and the process for reimbursement and

distribution are provided in the manual. Details on base-funded overseas contingency operations and foreign disaster relief are also in the Supplemental.

20.3 General Funding Responsibilities

20.3.1. Service Component. Each service Component command must collect all applicable costs related to specific contingency operations and report these costs to the respective MILDEP Senior Financial Manager, who will then submit them to the DFAS for consolidation. If a contingency operation lacks financing, the Department will pursue all available options to obtain the additional funding required to ensure that participation in the operation does not reduce the readiness of U.S. Forces.

20.3.2. U.S. Transportation Command and the Defense Logistics Agency. Except as provided in paragraph 20.6 below, all requests for transportation or other services to a Working Capital Fund (WCF) Activity, such as the U.S. Transportation Command and the Defense Logistics Agency, must include a funding source. If a WCF activity receives a valid order (e.g., an execute or deployment order or a commander of a CCMD operations order) that directs action without a funding source, the parent MILDEP of the subordinate command receiving the services must provide funding to finance the request.

20.4 Special Funding Mechanisms

20.4.1. General. Congress revised 10 U.S.C. § 127a to include special funding mechanisms for operations that lack advance funding. The statute requires the SecWar to designate and identify such operations to Congress. When the SecWar designates an operation, DoW Components must immediately notify their subordinate organizations and establish procedures and controls for these special funding mechanisms.

20.4.2. Special Funding Mechanisms Participating Units. Under certain conditions, WCF organizations may not require units participating in such designated operations to reimburse (provide funded customer orders for) goods and services at the time the units order them. These procedures apply only to units participating in the covered operation, and only to requirements that are directly attributable to the operation; would not have been incurred but for the operation; and have not been financed previously through an appropriation, supplemental funding, reprogramming, or a reallocation of existing appropriations.

20.4.3. General Restrictions. The legal restrictions of the Anti-Deficiency Act (ADA) still apply to the Department, and WCF cash must remain positive under these restrictions. Therefore, the following general rules apply. Before a WCF activity accepts an unfunded customer order, its commander must determine that the activity can fill the order without violating the ADA. If filling the order without funded customer payment would violate the Act, the WCF activity must notify the requesting DoW Component to either issue a funded order or arrange to transfer sufficient cash to the supporting activity to cover the requested service or supplies.

20.4.4. WCF Activities. When a participating unit of the U.S. Armed Forces orders goods or services from a WCF activity and those goods or services meet the criteria addressed in subparagraphs 20.4.2 and 20.4.3, the unit providing the unfunded customer order to the performing

WCF activity must, in each such request, notify the performing WCF activity that the order, or specified portion thereof, is in support of a designated operations and that a funded customer order for the goods or services is not required.

20.4.5. WCF Activity Unfunded Customer Orders. The WCF activity filling the unfunded customer order must separately account for all such filled orders and report those costs monthly to the DoW Component Senior Financial Manager of the requesting activity. The DoW Component's Senior Financial Manager must, in turn, separately report the cumulative amounts of these unfunded orders to DFAS in accordance with this section's provisions. Pursuant to 10 U.S.C. § 127a, DFAS must account for these amounts separately, which the DoW will then use to determine the funds required for transfer to the WCF activities to restore their balances to previous levels.

20.4.6. WCF Priorities. To ensure the WCF activity uses its cash reserves for the highest priority requirements, the commander of the activity must notify the Principal Deputy USW(C), in writing, and wait 5 workdays before filling the unfunded customer order.

20.4.7. Guidance on Reporting. As needed, the OUSW(C) will provide additional guidance on reporting the use of this authority for designated operations that become eligible for the special funding mechanisms available under 10 U.S.C. § 127a.

20.5 Cost Collection

20.5.1. Special Program Codes. Upon being alerted of an impending contingency operation, each participating DoW Component must establish a unique special program code to capture costs. The OUSW(C) Operations Directorate must issue a Standard Financial Information Structure (SFIS) code for contingency operations. The SFIS Values Library Service webpage maintains a list of contingency codes. Additionally, the Joint Staff must issue a three-digit CJCS Project Code, which provides precedence for supply requisitions and facilitates cost capturing and reporting.

20.5.2. Accounting System(s). Each organization that supports a contingency operation must capture related obligations and disbursements in its accounting system(s) at the lowest possible level of the organization. This provides tracking of obligations and disbursements for affected appropriations.

20.5.3. Costs Related to Contingency Operations. Organizations may incur costs related to a contingency operation both in the area of responsibility and in other locations. The organization that incurs costs in support of the operation, whether directly or indirectly, must transmit information on all such costs to the appropriate DoW Component Senior Financial Manager.

20.5.4. Cost Accounting Systems. DoW Components must not establish cost accounting systems solely for the purpose of determining costs for contingency operations; instead, they must use the data from existing systems as applicable.

20.5.5. Incremental and Billable Costs. DoW Component Senior Financial Managers must determine incremental and billable costs.

20.6 Billing

DoW Components determine their billable incremental costs. Billable incremental costs will be less than the full incremental cost when the performing DoW Component has determined to supplement or enhance their support beyond the level agreed to by the requesting organization. The DoW Component headquarters are responsible for transmitting to DFAS, on a monthly basis, a Contingency Operations Cost Report, standardized SF 1080 for each UN Letters of Assist or incurred cost for which payment is requested, and sufficient supporting documentation such as receipts, invoices, copies of requisitions approved by the organization supported (e.g., UN, State Department, or other), when required by the billed organization. Refer to the Volume 12 Supplemental for billing requirements and procedures for DoW and Non-DoW Transportation Rates for the Contingency Operations and United Nations Process.

20.6.1. DFAS administers centralized billing and reimbursement distribution activities in support of contingency operations. For the billing function, DFAS must consolidate the bills from the Components for monthly transmittal to the U.S. Mission to the UN (USUN) or other organizations, as required, along with copies of the Component Contingency Cost Reports. In addition, DFAS must prepare a monthly status report on amounts billed and reimbursements received for each applicable peace operation. In accordance with the provisions of Sections 607 and 630 of the Foreign Assistance Act (FAA), other applicable U.S. statutes, and the requirements of the billed organization, DFAS must submit only billable costs to the applicable agencies or international organizations.

20.6.2. The DoW Components must transmit billing information with sufficient supporting documentation to satisfy the payee of the validity of the charges. They must also include detailed lists of transactions supporting the billed amount with each bill rendered.

20.6.3. With respect to services and commodities provided under section 607 of the FAA, the Department may spend only those reimbursements it receives within 180 days after the end of the fiscal year in which the costs were incurred. The Department cannot use payments received after this 180-day period to defray costs it has already incurred providing the requested assistance.

20.6.4. The responsible DoW Component must credit payments received for assistance under the UN Participation Act, and unsolicited payments from the UN for UN-Determined Costs for Participating Troops, to the account or accounts that incurred the costs or to the accounts currently available for such purposes.

20.6.5. Given the legal restrictions on using reimbursed expenses, each DoW Component must identify and report all reimbursable billable expenses to DFAS on a timely basis, including sufficient supporting documentation as required by the billed organization, to ensure the Department recoups its costs.

20.7 Noncombatant Evacuation Operations (NEO)

20.7.1. Protection of U.S. Citizens and Nationals

20.7.1.1. The DoW conducts Noncombatant Evacuation Operations (NEOs) to assist the Department of State (DoS) in evacuating U.S. citizens, DoW civilian personnel, and

designated host-nation (HN) and third-country nationals (TCNs) whose lives are in danger, moving them from a foreign nation to an appropriate safe haven. The United States Government (USG) will consider evacuating TCNs and host country nationals on a case-by-case, space-available, and reimbursable basis. Although the USG normally considers evacuations in connection with hostile action, it may also conduct them in anticipation of, or in response to, any natural or man-made disaster.

20.7.1.2. Upon receipt of a request from the President, or the DoS, the Department will protect U.S. citizens and nationals and designated other persons and assist in evacuating these persons from threatened areas overseas. In accordance with Executive Order 12656, as amended on February 9, 1998, the Department is authorized to deploy and use military forces to protect U.S. citizens and nationals and designated other persons in support of their evacuation from threatened areas overseas. The DoS has the lead responsibility for such evacuations.

20.7.2. Memorandum of Agreement (MOA). The MOA between the DOS and Defense, "DOS/DoW Cost Responsibility Matrix and Definitions," dated September 2, 1997, defines departmental cost responsibilities when an evacuation occurs. The content of the MOA is included in the Volume 12 Supplemental and must be used to determine all NEO cost responsibilities. In general, DoW will fund protection-related costs, and DOS will fund evacuation-related costs. The DoW Component supporting the protection operation must fund the costs of its deployment, unless otherwise specified.

20.7.3. Cost to Transport DoW Noncombatants. Pursuant to 31 U.S.C. § 1535 (the Economy Act), all costs that the DoW incurred to assist in evacuating personnel from threatened areas are billable and reimbursable, except for the costs to transport DoW noncombatants to safe havens. If, however, the DoS incurs costs for transporting DoW noncombatants to safe havens, the applicable DoW Component must reimburse the DoS for those costs.

20.7.4. Contingency Operations Cost Report. After the evacuation is completed, the finance and accounting office of the supporting DoW Component must collect the cost data and submit the following documents, through its Component Senior Financial Manager, to DFAS: an SF-1080 for all reimbursable evacuation costs, supporting cost documentation (e.g., flying hours, medical costs, or food for evacuees), and a Contingency Operations Cost Report. The DoW Component must work with the DoS and DFAS to submit the bills for reimbursement from the DoS, Attn: Bureau of Finance and Management Policy, Washington, DC 20520-7427.

20.8 Follow-Up

If billed organizations require additional information relating to submitted bill(s), DFAS must assist the billed organization to ensure that the necessary information is provided by the appropriate Component.

20.9 Large Scale Contingencies

20.9.1. Preparing Budget Estimations Guidance. DoW may be involved in a range of operations from very large to small-scale contingencies. The following guidance is to be used in addition to that found throughout this regulation for purposes of preparing budget estimations, cost

reporting and billing associated with large-scale, campaign level, contingency operations. Refer to the Volume 12 Supplemental.

20.9.2. Spending Constraints. Each DoW Component must ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs. The DoW Components are responsible for employing a fiduciary approach to ensure that the funds are used in a prudent manner. As operations mature, steps should be taken to evaluate and establish spending constraints.

21.0 BURDENSHARING AND OVERSEAS RELOCATION CONTRIBUTIONS BY FOREIGN ALLIES

21.1 Responsibilities

This chapter addresses burden-sharing, host nation, and mutually beneficial contributions provided under various statutory authorities. Pursuant to 10 U.S.C. §§ 2350j and 2350k, and NDAA FY 2016 § 2804, this section prescribes policy and responsibilities for the acceptance, receipt, use, and reporting of burdensharing and relocation contributions by foreign allies in the DoW.

21.1.1. Under Secretary of War for (Policy)

The USW(P) has policy and management responsibility for burdensharing agreements or arrangements. In addition, the USW(P) will work with the DFAS – Trust Funds Accounting and Reporting Division (TFAR) (DFAS-ESS/Trust Funds) on burden-sharing program requirements that impact DFAS responsibilities, as appropriate.

21.1.2. Under Secretary of War (Comptroller)

21.1.2.1. The USW(C) serves as the single departmental point of contact with the Departments of State and Treasury for all matters involving the acceptance, receipt, administration and distribution of contributions of funds from foreign countries and organizations for burdensharing, overseas relocation, and Kuwait mutually beneficial contributions.

21.1.2.2. The USW(C) is responsible for coordination and approval of military construction projects that are subject to 10 U.S.C. §§ 2350j and 2350k, and NDAA FY 2016 § 2804, as amended. In addition, the USW(C) is responsible for reviewing and submitting to the Congress those reports required by 10 U.S.C. §§ 2350j and 2350k, NDAA FY 2016 § 2804, as amended, and any reports required from annual authorization and appropriation acts.

21.1.3. Under Secretary of War for Acquisition and Sustainment (USW(A&S))

USW(A&S) has policy and oversight responsibility for Host Nation Funded Construction (HNFC) provided by burdensharing agreements or arrangements under 10 U.S.C §§ 2350j and 2350k, and NDAA FY 2016 § 2804, as amended. USW (A&S) is responsible for authority reviews

in locations with multiple HNFC agreements and technical reviews of HNFC Congressional notification packages, including project lists and project documentation.

21.1.4. Director of Defense Finance and Accounting Service (DFAS)

The DFAS Director is responsible for recording and reporting the collection of receipts for burdensharing, relocation, and mutually beneficial contributions, and for the distribution of receipts, as prescribed by the USW(C), in support of burdensharing, overseas relocation, and mutually beneficial programs.

21.1.5. Commanders of the Geographic Combatant Commands (CCDRs)

The cognizant CCDR with area of responsibility for the contributing country is responsible for financial management oversight and may delegate to another CCDR or subordinate commanders. This applies to burdensharing contributions for projects other than military construction, and military construction projects that are funded with burdensharing contributions. Refer to the Volume 12 Supplemental.

21.1.6. Assistant Secretaries for Financial Management and Comptroller (FM&C)

The cognizant Assistant Secretary (FM&C) has responsibility to review and approve the distribution of funds received from foreign countries and regional organizations for the purposes outlined in this Regulation. For funds supporting overseas geographic CCDR equities, the FM&C will ensure full distribution to the cognizant CCDR with area of responsibility for the contributing country or designated service component in that region. These responsibilities may be delegated below the Assistant Secretary level. Refer to the Volume 12 Supplemental.

21.2 Notifications of Monetary Contributions

The DoW Components must notify the DFAS-EASS/Trust Funds of all potential monetary contributions prior to acceptance of such contributions. All notifications must indicate the applicable statute (i.e., § 2350j for burdensharing contributions or 10 U.S.C. § 2350k for overseas relocation and FY 2016 NDAA § 2804, as amended, for mutually beneficial contributions). Refer to the Volume 12 Supplemental.

21.3 Accounting

21.3.1. Burdensharing Credits

Burdensharing contributions must be credited to one or more of the special fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the SecWar or designee under 10 U.S.C. §. 2350j . Refer to the Volume 12 Supplemental for a listing of the accounts.

21.3.2. Overseas Relocation

21.3.2.1. Relocation contributions must be credited to one or more of the trust fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the SecWar or designee under 10 U.S.C. §. 2350k. Refer to the Volume 12 Supplemental for a listing of the accounts.

21.3.2.2. The DFAS disbursing office or Financial Services Office must transmit copies of deposit tickets for these investments to the DFAS-Indianapolis (DFAS-IN)/EASS Trust Funds. DFAS-EASS Trust Funds manage and track the investments and earnings.

21.3.3. Mutually Beneficial

Mutually Beneficial contributions must be credited to the special fund account, which has been established in the U.S. Treasury for monetary contributions accepted by the SecWar or designee under the authority of FY 2016 NDAA § 2804, as amended. Refer to the Volume 12 Supplemental for a listing of the account.

21.4 Availability of Contributions

Contributions are available for the payment of costs specified in 10 U.S.C. § 2350j or § 2350k, or FY 2016 NDAA § 2804, as amended. Refer to the Volume 12 Supplemental for additional information regarding the availability of burdensharing and relocation contributions.

21.5 Reporting Requirements

As needed, the USW(C) will provide guidance to ensure necessary information is collected to comply with any congressional reporting requirements.

22.0 DISPOSITION OF NON-DOW PERSONAL PROPERTY

22.1 Disposition of Unclaimed Property General Policy

22.1.1. The Secretary of any Military Department, and the Secretary of Homeland Security, under such regulations as they may respectively prescribe, may each by public or private sale or otherwise, dispose of all lost, abandoned, or unclaimed personal property that comes into the custody or control of the Secretary's department, other than property subject to 10 U.S.C. §§ 7712, 8392, or 9712. Property subject to paragraph 22.3 is exempted from the requirements. Requirements for the disposition of personal property of deceased members of the Army and Air Force are in the Volume 12 Supplemental. Requirements for the disposition of personal property of deceased members of the Navy and Marine Corps are in the Volume 12 Supplemental.

22.1.2. Property may not be disposed of until a diligent effort has been made to find the owner (or the heirs, next of kin, or legal representative of the owner). A diligent effort to find the owner (or the heirs, next of kin, or legal representative of the owner) must begin, to the maximum extent practicable, not later than 7 days after the date on which the property comes into the custody

or control of the Secretary having immediate jurisdiction. The period for which that effort is continued must not exceed 45 days.

22.1.3. Notice of the time and place of the intended sale or other disposition must be sent by certified or registered mail to the applicable owner (or heirs, next of kin, or legal representative of the owner) at their last known address. If the owner (or the heirs, next of kin, or legal representative of the owner) is determined but not found, the property may not be disposed of until the expiration of 45 days after the date the notice is sent to the owner (or the heirs, next of kin, or legal representative of the owner).

22.1.4. When a diligent effort to determine the owner (or heirs, next of kin, or legal representative of the owner) is unsuccessful, the property may be disposed of without delay. If the property has a fair market value of more than $300, it may not be disposed of until 45 days after the date it is received at the point of storage designated by the Secretary.

22.2 Distribution of Proceeds

The proceeds from the sale of lost, abandoned, or unclaimed personal property found on a military installation must be credited to the operation and maintenance account that funds the operations of that installation and be used to reimburse the installation for any costs incurred during the collection, transportation, storage, protection, or selling of the property. Any proceeds which remain after the reimbursement of installation expenses must be utilized to support Morale, Welfare and Recreation (MWR) activities under the jurisdiction of the armed forces that are conducted for the comfort, pleasure, contentment, or physical or mental improvement of members of the armed forces at such installation. The net proceeds from the sale of other property under paragraph 22.1 must be deposited into the Treasury as miscellaneous receipts.

22.3 Restrictions

No property covered by this section may be delivered to the Armed Forces Retirement Home by the Secretary of a Military Department, except papers of value, sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes.

22.4 Claims for Proceeds

The owner (or heirs, next of kin, or legal representative of the owner) of personal property whose proceeds were credited to a military installation may file a claim with the SecWar for an amount equal to the proceeds less costs referred to in paragraph 22.2. Amounts to pay the claim must be drawn from the MWR account for the installation that received the proceeds. The owner (or heirs, next of kin, or legal representative of the owner) may file a claim with the SecWar for proceeds deposited at Treasury as well. Unless a claim is filed under this section within 5 years after the date of the disposal of the property to which the claim relates, the claim may not be considered by either the SecWar or a court. The responsibility of the SecWar to consider such claims has been delegated to the USW for Personnel and Readiness.

22.5 Army and Air Force Disposition of Personal Property of Deceased Members

22.5.1. General Policy

Upon the death of a person subject to military law and under the jurisdiction of the Army or Air Force, or upon the death of a resident of the Armed Forces Retirement Home; the commanding officer must permit the legal representative or the surviving spouse of the deceased, if present, to take possession of the effects of the deceased that are then in camp, air base, or quarters. If there is no legal representative or surviving spouse present, the commanding officer must direct a summary court-martial to collect the effects of the deceased that are then in camp, air base, or quarters. The summary court-martial may collect debts due the decedent by local debtors and pay undisputed local creditors of the deceased (to the extent permitted by the monetary assets of the deceased in the court's possession). Receipts for payments made from the estate of the deceased must be filed with the court's final report to the Department of the Army or Air Force.

22.5.2. Distribution of Personal Property

As soon as practicable after the collection of the personal effects and monetary assets of the deceased, the summary court-martial must, at the expense of the United States, send the personal effects and monetary assets to one of the living persons, in the order of precedence shown on the following list, whom the court finds:

22.5.2.1. The surviving spouse or legal representative.

22.5.2.2. A child of the deceased.

22.5.2.3. A parent of the deceased.

22.5.2.4. A brother or sister of the deceased.

22.5.2.5. The closest next of kin of the deceased.

22.5.2.6. The beneficiary named in the will of the deceased.

22.5.3. Time Limits

If the summary court-martial cannot dispose of the effects as stated in paragraph 22.5.1 because there are no persons in any of the categories listed, or because the addresses of such persons are not known or are not available, the court may convert the effects of the deceased into cash by public or private sale. However, the sale may not occur until 30 days after the date of death of the deceased. Items listed in paragraph 22.5.2 may not be sold.

22.5.4. Final Disposition of Personal Effects

As soon as practicable after the effects have been converted into cash, the summary court-martial must relinquish custody of all cash and all receipts relating to cash transactions to

the executive part of the Department of the Army or Air Force. Wills or other papers of value, an inventory of personal effects, and articles whose sale is not permissible also must be placed under the jurisdiction of the executive part of the Service of which the deceased was a member. All items received by the executive part of the Army or Air Force must be delivered to the Armed Forces Retirement Home.

22.6. NAVY AND MARINE CORPS DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

22.6.1. General Policy

The Secretary of the Navy must retain custody of money or other personal property of a deceased member of the Naval Service and make a diligent effort to determine and locate the heirs or next of kin of the deceased member. Property remaining unclaimed 2 years after the death of the member must be sold, and the proceeds, together with any other monetary assets of the member held in custody, must be deposited into the Treasury as miscellaneous receipts.

22.6.2. Recoupment

Within 5 years after the date the money and proceeds are deposited into the Treasury, any claim that is presented and supported by competent proof must be certified to Congress for consideration. After the 5 years, claims may not be accepted, and the requestor must be notified that the time limit for submitting a claim has expired.

23.0 ADMINISTERING, USING AND ACCOUNTING FOR SEIZED AND/OR VESTED FUNDS AND PROPERTY DURING CONTINGENCY OPERATIONS

Refer to the Volume 12 Supplemental.

24.0 OPERATION AND USE OF GENERAL GIFT FUNDS

The SecWar and Secretaries of the Military Departments have the authority to accept, hold, administer, and spend gifts made for the benefit or in connection with various institutions and individuals under their jurisdiction. These gifts include money, real property, personal property, or services for the establishment, operation, or maintenance of schools, hospitals, libraries, museums, cemeteries, and other institutions, as well as for the benefit of wounded or injured members of the armed forces (including members performing full-time National Guard duty), civilian employees, dependents, and survivors of members or employees who are killed.

24.1 DESIGNATIONS

The SecWar and the Secretaries of the Military Departments may approve additional Acceptance Authority designations under their jurisdiction. The Office of the Secretary of War (OSW) designations are as follows:

24.1.1. USW(C)

All authority and responsibility granted to the SecWar associated with the acceptance and use of gifts has been delegated to the USW(C).

24.1.2. USW(C) Designations

The USW(C) prescribes additional designations of gift Acceptance Authority to OSW Components. On behalf of the SecWar, the USW for Acquisition and Sustainment (A&S), USW Personnel and Readiness (P&R), Administration and Organization Policy, DoW Defense Agencies, Joint Staff, Commanders of Combatant Commands, and Washington Headquarters Services (WHS) have the authority and responsibilities associated with acceptance and use of such gifts of real property or personal property and may authorize the development of additional procedures for implementing policy in this chapter. The Director of the WHS also has the authority to accept such gifts of services for the benefit of individuals at facilities under his or her authority. All gifts over $500,000 must be accepted by the USW(C).

24.2 Responsibilities

Refer to the Volume 12 Supplemental.

24.3 Acceptance

24.3.1. Acceptance of Gifts for Military Musical Units; Accounting for Missing Persons; Museum Programs; U.S. Service Academies; and the USUHS can be found in the Volume 12 Supplemental.

24.3.2. Circumstances to Decline Acceptance. Acceptance Authorities must decline gifts under the circumstances identified in the Volume 12 Supplemental.

24.3.3. DoW Personnel. DoW personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a gift. Acceptance Authorities must not accept gifts offered contrary to this policy. Notwithstanding this general prohibition, the SecWar may solicit from a bona fide collector a gift for the use and benefit of a military museum program.

24.3.4. Related Expenses. Acceptance Authorities may pay all necessary expenses in connection with the conveyance or transfer of a gift.

24.3.5. Offers from Prohibited Sources. Acceptance Authorities must use increased sensitivity and scrutiny when gifts are offered from prohibited sources. Acceptance of gifts from prohibited sources may cause embarrassment to the DoW or the appearance of influencing official decisions or actions of the Department. Acceptance Authorities must consult with their appropriate Ethics Official before accepting such a gift valued more than $10,000 to determine whether the donor is involved in any claims, procurement actions, litigation, or other matters involving the Department that must be considered prior to gift acceptance.

24.3.6. Acknowledgment of Future Gifts. Acceptance Authorities may acknowledge offers of future gifts and advise the donors that acceptance will occur after the actual presentation of the gifts only when they determine that such acceptance will likely occur.

24.3.7. Acceptance through Intermediaries. Acceptance Authorities must not accept gifts offered indirectly through an intermediary if they cannot accept such gifts if offered directly from the source.

24.3.8. Accepting Gifts to Benefit Certain Members, Dependents, and Civilian Employees. - Refer to the Volume 12 Supplemental.

24.3.9. Acceptance of Property Gifts with Naming Rights.

24.3.9.1. The Secretary concerned may delegate the authority to accept gifts with the condition of naming rights only to a civilian Presidential appointee in a position requiring Senate confirmation. This authority may not be further re-delegated.

24.3.9.2. The Secretary concerned must issue uniform regulations governing the circumstances under which gifts conditioned on naming rights may be accepted, appropriate naming conventions, and suitable display standards. The naming conventions and suitable display standards must be in accordance with Unified Facilities Criteria (UFC) 3-120-01 and other implementing guidance issued under the purview of the USW(A&S).

24.4 Receipt

24.4.1. Monetary Gifts. All monetary gifts must be forwarded to the DFAS office servicing the Acceptance Authority via mail or an EFT. DoW officials must contact DFAS for EFT deposit information.

24.4.2. Gift Fund Accounts. - Refer to the Volume 12 Supplemental.

24.4.3. Accounting Transactions. Accounting entries for monetary, non-monetary, and service-type gifts are specified within the U.S. Standard General Library.

24.5 Records and Reports

24.5.1. Records. Acceptance Authorities must keep accurate, auditable, and timely records of all gifts and provide this information for periodic audits. The receiving organization must obtain and retain the required documentation and information for all gifts received, including the date non-monetary gifts were transferred to property records and the unique identifier or data element, if applicable (see property accountability requirements in paragraph 24.7). For audit purposes, the supporting documentation for monetary and non-monetary gifts must be retained in accordance with the policy in Volume 1. Refer to the Volume 12 Supplemental.

24.5.2. Reports

24.5.2.1. DFAS Standards and Compliance (Corporate Reporting) must develop and require a standardized report for Acceptance Authorities or designees to report the following information to DFAS on a quarterly basis. Refer to the Volume 12 Supplemental.

24.5.2.2. Acceptance Authorities must report the information in the reports for all monetary gifts and real property gifts along with personal property gifts and services with a unit value of $5,000 or more to the DFAS office servicing each Secretary (Defense, Army, Navy, and Air Force) not later than 10 days after the end of each quarter. Monetary, real property, and personal property gifts must be reported separately.

24.6 Investments

Refer to the Volume 12 Supplemental for DFAS responsibilities for investments.

24.7 Property Accountability

Acceptance Authorities must establish procedures for receiving, accounting, and disposing of real and personal property gifts. Property accountability procedures must be addressed or referenced in general gift acceptance procedures. Property accountability procedures must be consistent with policy prescribed in DoDI 4165.14, DoDI 4165.70, DoDI 4165.71, DoDI 4165.72, and DoDI 5000.64.

25.0 DOW BRANDING AND TRADEMARK LICENSING PROGRAM

25.1 Responsibilities

Refer to the Volume 12 Supplemental.

25.2 Accounting and Reporting

25.2.1. Accounting

25.2.1.1. Fees received in a fiscal year must remain available for obligation in such fiscal year and the following two fiscal years.

25.2.1.2. The excess of licensing fees collected over annual costs may be expended to support MWR activities. The law does not require that the excess be obligated in the fiscal year collected. The excess may be used in the following two fiscal years to offset those fiscal year costs of the licensing program or may be expended in support of the DoW Component's MWR activities.

25.2.1.3. Funds not obligated or made available to MWR activities before September 30 of the second fiscal year following the year collected must be reallocated (transferred) to TAS R3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified."

25.2.1.4. Additional TASs may be used to separately track unobligated funds carried forward from the fiscal year of collection through the following two fiscal years.

25.2.1.5. Each DoW Component must ensure that all royalty reports received from licensees and/or licensing agents are promptly reviewed, and any questions resolved. Copies of royalty reports must be retained in accordance with Volume 1.

25.2.2. Reporting. Each DoW Component operating a trademark licensing program must provide the Manager, DoW Branding and Trademark Licensing Program (BTLP), with the following financial reports. The Manager, BTLP, may issue guidance prescribing the required format of the reports and the specific information to be provided. For information on quarterly and annual reports, refer to the Volume 12 Supplemental.

26.0 COLLECTION AND RETENTION OF CONFERENCE FEES FROM NON-FEDERAL SOURCES

26.1 Policy

Federal Laws and Regulations. Although 10 U.S.C. § 2262 authorizes the retention of conference fees, all other applicable Federal laws and regulations must be followed regarding conferences and conference planning. These Federal authorities include the Joint Travel Regulations, the FAR, the DFARS, and the JER. This authority does not increase or affect any other currently existing conference authority. Guidelines related to determining conference fees are available on the DoW Cost Guidance Portal that resides on the DoW Costs Assessment and Program Evaluation web page. Access to the web page requires a DoW Common Access Card (CAC). Refer to the Volume 12 Supplemental for use of contracts, reimbursement, and ethics and fiscal guidance.

A "conference" is defined in the ***Joint Travel Regulations*** as a meeting, retreat, seminar, symposium, or event that involves attendee travel. The term conference also applies to training activities in accordance with 5 CFR § 410.404. Conferences subject to this authority are also often referred to as conventions, expositions, workshops, or exhibitions that typically involve topical matters of interest to, and the participation of, multiple agencies and/or non-governmental participants. The ***DoD Conference Guidance 4.0*** identifies exemptions to the defined list of conferences.

26.2 Responsibilities

Refer to the Volume 12 Supplemental for OUSW(C), DFAS, and DoW Component responsibilities.

26.3 Accounting and Reporting

26.3.1. Accounting

26.3.1.1. Accounting for collections into appropriations is covered in the DoW United States Standard General Ledger Transaction Library, on the Office of the DCFO SFIS web page.

26.3.1.2. Except when conference planning services at no cost to the government are used and the government entity does not directly collect fees, amounts collected in accordance with 10 U.S.C. § 2262 with respect to a conference must be credited to the appropriation or account from which the costs of the conference are paid and must be used to pay or reimburse those costs of the Department with respect to the conference. Record conference fees collected as an appropriation reimbursement.

26.3.1.3. The registration fees collected must remain with the year that funds for the conference are obligated. In the event registration fees are collected in one fiscal year, but the conference is conducted in the next, the fees collected must remain in the year the conference expenses were obligated and must be available for the same purpose and time period of the appropriation.

26.3.1.4. Components, agencies, and activities that collect conference fees into appropriations may not augment those appropriations. Accordingly, any fees collected that exceed actual conference costs must be deposited into the Treasury as Miscellaneous Receipts (i.e., Receipt Account 3210).

26.3.2. Reporting

26.3.2.1. In accordance with DoW's Conference Policies and Controls, all DoW-sponsored conferences are required to be reported through a central DoW Conference Tool. This data is used to generate the annual reports that are posted publicly and support the Department's ongoing oversight of conference activities. Conference fees are not reported as a separate entity; they are reported within conference expenses as a net of any fees or revenue received through the conference, not to include costs.

26.3.2.2. In accordance with OMB Memorandum M-17-08, "Promoting Efficient Spending to Support Agency Operations," agencies must report conference expenses on a dedicated space on their official website. Conference expenses are defined as all direct and indirect conference costs paid by the Government, whether paid directly by agencies or reimbursed by agencies to travelers or others associated with the conference, but do not include funds paid under Federal grants to grantees. Conference expenses include any associated authorized travel and per diem expenses, hire of rooms for official business, audiovisual use, light refreshments, registration fees, ground transportation, and other expenses as defined by the Federal Travel Regulations.

26.3.2.2.1. By January 31 of each year, the agency must describe all agency-sponsored conferences from the previous fiscal year where the net expenses for the agency associated with the conference were in excess of $100,000. This description must include:

26.3.2.2.1.1. Total conference expenses incurred by the agency for the conference.

26.3.2.2.1.2. The location of the conference.

26.3.2.2.1.3. The date of the conference.

26.3.2.2.1.4. A brief explanation of how the conference advanced the mission of the agency.

26.3.2.2.1.5. The total number of individuals whose travel expenses or other conference expenses were paid by the agency.

26.3.2.2.2. In addition, for any instances where the net expenses for an agency-sponsored conference exceeded $500,000, the website must include the agency-designated official's rationale and approval. The website must also include information in the appropriate format (e.g., narrative) about the total net conference expenses for the fiscal year incurred by that agency, as well as a general report about conference activities throughout the year.

26.3.2.2.3. In reporting this data, agencies must exclude any information that is considered to be sensitive, that is prohibited from public disclosure by statute or regulation, or that may jeopardize national security or the health, safety, or security of conference attendees, organizers, or other individuals.

27.0 FINANCIAL INSTITUTIONS AND MILITARY BANKING FACILITIES ON DOW INSTALLATIONS

27.1 Responsibilities

Refer to the Volume 12 Supplemental.

27.2 General Policy Provisions

27.2.1. Financial Institutions (FI) on DoW Installations

27.2.1.1. No more than one bank and one credit union are permitted to operate on a DoW installation except where they already existed as of May 1, 2000, or the installation was affected by BRAC. Refer to the Volume 12 Supplemental for information that pertains to installations affected by BRAC.

27.2.1.2. Upon the request of an installation commander and with the approval of the Secretary of the Military Department concerned (or designee), duly chartered FI may be authorized to provide financial services on DoW installations to enhance the morale and welfare of DoW personnel and facilitate the administration of public and quasi-public funds. Arrangements for the provision of such services must be in accordance with this section.

27.2.1.3. FIs may be established on DoW installations only after approval by the Secretary of the Military Department concerned (or designee), the appropriate regulatory agency as required, and in accordance with 32 CFR § 230.

27.2.1.4. Except in limited situations overseas, only banks insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund, or by another insurance organization specifically qualified by the Secretary of the Treasury, may operate on DoW installations. These FIs may either be State or federally chartered; however, U.S. credit unions operated overseas must be federally insured.

27.2.1.5. Military Banking Facilities (MBF) may be established on DoW installations when a demonstrated and justified need cannot be met through other means, pending the availability of FIs willing to perform these functions. Normally, MBFs are only authorized at overseas locations. MBFs may be considered for use at domestic DoW installations only when the cognizant DoW Component cannot obtain financial services from a state or federally chartered FI authorized to operate in the installation state. MBFs may be designated during mobilization as an emergency measure. The Director, DFAS, may recommend the designation of MBFs to the Treasury.

27.2.1.6. The installation commander must approve the expansion of financial services (to include in-store banking) requiring the out grant of additional space or logistical support. Any DoW activity considering expanding the availability of financial services must coordinate requests with the installation Banking Liaison Officer (BLO) prior to the commander's consideration.

27.2.1.7. No DoW Component must perform retail banking operations. Solicitations for such services must be issued, and proposals accepted, according to the policies identified in this section.

27.2.1.8. If an FI or MBF operates on a DoW installation, installation commanders must not seek financial services from any entity other than the on-base FI or MBF.

27.2.1.9. Military disbursing offices, NAFIs (including MWR activities and the Military Exchange Services), and other DoW Component activities requiring financial services must use on-base FIs and MBFs to the maximum extent feasible.

27.2.1.10. NAFIs (including MWR activities and the Military Exchange Services) that desire and are authorized to provide currency accommodation exchange services to individuals must acquire all foreign currency for this purpose from the servicing MBF at the MBF accommodation rate and sell it at a rate of exchange no more favorable than the customer rate available at the MBF.

27.2.2. Security

27.2.2.1. The installation commander (or designee), officials of the on-base FIs, and installation security authorities must establish an understanding of each entity's responsibilities on all matters of asset protection.

27.2.2.2. Establish a written agreement outlining the security procedures that the FI follows and the role that installation security authorities play regarding alarms, movement of cash, and criminal activity response procedures to be followed (e.g., vandalism or robbery).

27.2.2.3. Cash and other assets in on-base FIs are the property of those FIs. Except for MBFs operated under contract, maintenance of alarms and the guarding and/or escorting of cash is the sole responsibility of the on-base FI. The installation commander may decide that providing for the guarding or escorting of cash is desirable or necessary.

27.2.2.4. The use of armored vehicles for transportation of cash is the sole responsibility of the on-base FI and MBF, and use must be coordinated with the installation commander to permit access to DoW installations and facilities.

27.2.3. Central Locator Services. Military locator services will be provided per the Privacy Act guidelines contained within the Volume 12 Supplemental (Figure 33-1) and associated fees, if any, are to be paid by the FI in accordance with Volume 11. See the Locate Military Members website to obtain information on how to locate a military member, retiree, or facility. Refer to the Volume 12 Supplemental for information and guidance on Advertising and Personal Solicitation; Automatic Teller Machine (ATM) Service; Staffing; Departure Clearance; Operating Agreements; Installation Financial Services; In-Store Banking; and Domestic MBF.

27.2.4. Advertising and Personal Solicitation. Refer to the Volume 12 Supplemental.

27.2.5. ATM Service. Refer to the Volume 12 Supplemental.

27.2.6. Domestic and International Treasury General Accounts. In cases where authorization is required for the on-base FI or MBF to act as a Treasury General Account (TGA) domestic depositary (or, on overseas installations, an International Treasury General Account (ITGA) depository), the FI must satisfy the risk management standards established by the Secretary of the Treasury. On-base FIs and MBFs must accept deposits for credit to the TGA (or ITGA) when authorized.

27.2.7. Staffing. Refer to the Volume 12 Supplemental.

27.2.8. Departure Clearance. Refer to the Volume 12 Supplemental.

27.2.9. Operating Agreements. Refer to the Volume 12 Supplemental.

27.2.10. Installation Financial Services. Refer to the Volume 12 Supplemental.

27.2.11. Banking Liaison Officer. Each installation commander having an on-base FI or MBF must appoint a BLO. The BLO's name and duty telephone number must be displayed prominently at each FI and MBF location on the installation. The responsibilities of BLOs must be assigned to comptroller or resource management personnel. Employees, officials, or directors of a FI or MBF may not serve as BLOs. Refer to the Volume 12 Supplemental for BLO responsibilities.

27.2.12. In-Store Banking. Refer to the Volume 12 Supplemental.

27.2.13. Domestic MBF. Refer to the Volume 12 Supplemental.

27.3 Banks Operating on Domestic DoW Installations

27.3.1. General Policy. U.S. banks may operate on DoW installations, in accordance with this section, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations. Refer to the Volume 12 Supplemental for Establishment and Terminations.

27.3.2. Solicitations. The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), must conduct solicitations, to include pre-proposal conferences, for on-base banking. Subject to the criteria for selection outlined in the Volume 12 Supplemental, the preferred sources of on-base financial services at domestic installations are federally insured, state-chartered or federally insured, federally chartered banks operating in the local area. The Volume 12 Supplemental addresses distribution of the solicitation only and does not preclude any federally insured, state-chartered or federally insured, federally chartered bank from responding at any stage (from local distribution in the Volume 12 Supplemental to publication in SAM.gov and FI trade journals as outlined in the Volume 12 Supplemental) of the solicitation process. Do not commit to any bank regarding its proposal until the appropriate regulatory agency makes a designation if a designation is required. Refer to the Volume 12 Supplemental for more information on solicitations.

27.3.3. Termination. Refer to the Volume 12 Supplemental for more information.

27.3.4. Use of Space, Logistical Support, and Military Real Property for Banks Operating on Domestic DoW Installations.

27.3.4.1. Lease Terms. The consideration for a lease must be determined by an appraisal of fair market rental value in accordance with 10 U.S.C. § 2667. Periodic reappraisals must be based upon the fair market rental value exclusive of the bank improvements made. Coordinate with USW(A&S) or designee. Refer to the Volume 12 Supplemental.

27.3.4.2. Logistical Support

27.3.4.2.1. The bank must be housed in a building accessible to DoW personnel on the installation and in a location permitting reasonable security.

27.3.4.2.2. Banks must perform all maintenance, repair, improvements, alterations, and construction on the banking premises.

27.3.4.2.3. Banks must pay for all utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services including garbage disposal and outdoor maintenance (such as grass cutting and snow removal) at rates set forth in the lease, operating agreement or other written agreement between the installation and the bank.

27.3.5. Land Leases. A lease for the construction of a bank must be at the appraised fair market rental value. Charges must apply for the term of the lease not to exceed 25 years, subject to periodic review every 5 years to assess changes in fair market value. Refer to the Volume 12 Supplemental.

27.3.6. Construction. Banks may construct buildings subject to provisions found in the Volume 12 Supplemental.

27.4 FIs and MBFs Operating on Overseas DoW Installations

General Provisions of Financial Services Overseas. The Department acquires financial services overseas for use by authorized persons and organizations from the following sources.

27.4.1. MBFs operated under contract and authorized by the pertinent status of forces agreement, other intergovernmental agreements, or host-country law.

27.4.2. Domestic and foreign banks located on overseas DoW installations. Each such institution must be:

27.4.2.1. Chartered to provide financial services in that country.

27.4.2.2. A party to a formal operating agreement with the installation commander to provide such services.

27.4.2.3. Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law. Refer to the Volume 12 Supplemental for more information on Establishment, Terminations, Logistical Support, Operations, and other Overseas Banking Offices.

27.5 Credit Unions Operating on Domestic DoW Installations

U.S. credit unions may operate on DoW installations, in accordance with this section, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations. Refer to the Volume 12 Supplemental for more information on Establishment; Termination; Use of Space, Logistical Support, and Military Real Property for Domestic Credit Unions; Land Leases; Construction; and ATM service.

27.6 Overseas Credit Unions

27.6.1. Credit union services to authorized persons and organizations, as permitted by Status of Forces agreements, other intergovernmental agreements, or host-country law, may be provided by domestic on-base credit unions operating under a geographic franchise.

27.6.2. The extension of credit union service overseas must be in accordance with this section as it relates to domestic credit unions and aligned with applicable status of forces agreements or other intergovernmental agreements, or host-country law.

27.6.3. Where permitted by the status of forces agreements or other intergovernmental agreements, or host-country law, only federal credit unions or federally insured state-chartered credit unions may operate on overseas DoW installations. The ultimate decision to provide services overseas rests with the credit union itself. Refer to the Volume 12 Supplemental for more information on Establishment; Logistical Support Services; Travel; and Operations.

28.0 DIRECT ACCEPTANCE OF GIFTS BY MEMBERS OF THE ARMED FORCES, DEPARTMENT OF WAR EMPLOYEES AND THEIR FAMILIES AND SURVIVORS

28.1 Gift to Covered Employees

Pursuant to the authority in 10 U.S.C. § 2601(a), covered members of the armed forces in the DoW and covered employees of DoW, their family members, and their survivors may accept gifts directly from nonprofit organizations, private parties, and other sources outside the DoW when, while performing military duties or performing duties as a civilian employee on or after September 11, 2001, they incur an injury or illness: (1) as a direct result of armed conflict; while engaged in hazardous service; in the performance of duty under conditions simulating war; or through an instrumentality of war; (2) in an operation or area designated as a combat operation or combat zone by the SecWar; (3) that results in enrollment in a Warriors in Transition program, as defined in section 738(e) of the NDAA for Fiscal Year 2013 (Public Law 112-239, 10 U.S.C. § 1071); or (4) under other circumstances determined by the Secretary concerned to warrant treatment like members covered by the first criterion of this section.

28.2 Impermissible Gifts

The authority in 10 U.S.C. § 2601a does not apply to gifts from foreign governments or international organizations or their representatives, nor does it apply to gifts that: (1) are accepted in return for being influenced in the performance of an official act; (2) are solicited or coerced; (3) are accepted in violation of any other statute or regulation, including 18 U.S.C. § 201, 18 U.S.C § 209, 5 CFR § 2635 and 5 CFR § 3601; or (4) will reflect adversely on the DoW.

28.3 Criteria for Gift Acceptance

Refer to the Volume 12 Supplemental.

DEPARTMENT OF WAR

FINANCIAL MANAGEMENT REGULATION

VOLUME 12: "SPECIAL ACCOUNTS, FUNDS, AND PROGRAMS"

UNDER SECRETARY OF WAR (COMPTROLLER)

Table of Contents

1.0 GENERAL 4

VOLUME 12

SPECIAL ACCOUNTS, FUNDS, AND PROGRAMS

1.0 GENERAL

1.1 Purpose

Volume 12 is the Department of War's (DoW) authoritative volume for specialized financial matters that are not part of routine operations. It establishes the official policies for managing a variety of fund types, including General, Special, Trust, and Revolving Funds.

This volume provides the authoritative guidance for the financial administration of special-purpose accounts and programs, covering transactions like contributions and loans. It details the rules for specific initiatives such as contingency operations, base closures, international agreements, and personnel entitlements like the GI Bill and the Military Retirement Fund (MRF). The core purpose of this guidance is to ensure all specialized financial activities are conducted with legality, consistency, transparency, and accountability across the DoW.

1.2 Authoritative Guidance

Refer to the Volume 12 authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary on the FMR webpage.

1.4 Procedures

Refer to the Volume 12 Supplemental on the FMR webpage for sections listed throughout this volume.

2.0 FUNDS

2.1 Reference

Refer to the Volume 12 Supplemental for more information on Fund Groups and Symbols.

2.2 General Funds

2.2.1. Unless specific statutory authority authorizes a reimbursement to an appropriation account or fund (including special funds), DoW Components must credit all collections to the appropriate general fund receipt account. However, obligations incurred that result in, or as a result of, a general fund receipt account collection or receivable must be recorded in the budgetary accounts of a direct appropriation or fund. Such obligations may be recorded as reimbursable obligations only when authorized to be reimbursed independent of the general fund receipt collection.

2.2.2. DoW Components must record accounts receivable for the general fund receipt accounts whenever an event determines that money is owed to the United States (U.S.) Government. General fund receipt account receivables may be recorded at a summary level. Examples include:

2.2.2.1. A receivable must be recorded for general fund receipt account 2651, "Sale of Scrap and Salvage Materials, Defense," based upon the recording of an issue or the transfer of ownership of scrap or salvage material to a buyer. (Normally, a cash payment is required.)

2.2.2.2. A receivable must be recorded for general fund receipt account 3019, "Recoveries for Government Property Lost or Damaged, Not Otherwise Classified, Army, Navy, Air Force," based upon the receipt of an approved DoW DD Form 200, "Financial Liability Investigation of Property Loss."

2.2.2.3. The accounting for receivables and collection of those receivables in general fund receipt accounts are described in Volume 4.

2.3 Clearing, Default, and Custodial Accounts (3500-3885)

Temporary Account Requirement. Since accounts F36XX, F3875, and F3885 are temporary in nature, DoW Components must expeditiously transfer all monies to the proper account to minimize the balance. Use of these suspense accounts are valid if approved by the U.S. Department of the Treasury (Treasury) provided the suspense account transactions are reclassified to the correct line of accounting and properly reported in the accounting system within 60 days.

2.4 Management Fund Accounts (3900-3999)

2.4.1. A management fund must be used only to finance the costs of operations which are chargeable to appropriations or funds of a DoW Component. Projects may encompass participation by organizational units of one DoW Component or of two or more DoW Components.

2.4.2. A management fund may not be used to finance any activity that involves a continuing cycle of business-type operations, such as industrial or commercial-type activities, or to purchase materiel for stock. It may be used to finance the purchase of materiel for use in an operation or project operated under a management fund.

2.4.3. A management fund may not be used to finance a new operation or project, although eligible under paragraph 2.3, if other effective and efficient financing techniques are available. In general, appropriation reimbursements must be used. However, industrial funds must be used to finance industrial or commercial-type activities, and stock funds must be used to finance the acquisition of consumable (expense-type) materiel for stock.

2.4.4. Management fund accounts are subject to periodic internal audits.

2.4.5. Responsibilities

2.4.5.1. The Office of Under Secretary of War (Comptroller) (OUSW(C)) and Deputy Chief Financial Officer (DCFO) must:

2.4.5.1.1. Ensure that a management fund account is established or continued only when there is no other effective and efficient financing technique available to accomplish the proposed operation or project. The OUSW(C) DCFO will receive, review, evaluate and approve proposed management fund account charters. Refer to Figures 1-1 and 1-2 within the Volume 12 Supplemental.

2.4.5.1.2. Review and evaluate proposed management fund account charters or amendments and recommend to the Under Secretary of War (Comptroller) (USW(C)) the establishment or continuance of a management fund account.

2.4.5.2. The Heads of DoW Components must:

2.4.5.2.1. Propose use of a management fund as a financing technique, when considered appropriate, in accordance with the provisions of this section.

2.4.5.2.2. Oversee compliance with this section regarding the provision for budgeting, financing, accounting, and reporting for management fund accounts in use by their Component.

2.5 Revolving Funds (4000-4999)

2.5.1. Revolving funds subject to apportionment are apportioned on an obligation basis. The DoW Component must submit an SF 132, 'Apportionment and Reapportionment Schedule,' to the Office of Management and Budget (OMB) for approval of the budgetary authority needed for the operation of the revolving fund for a fiscal period. A fiscal period may be a quarter of a fiscal year or a full fiscal year. For more information regarding Revolving Funds, refer to Volume 12 Supplemental section 2.5.

2.5.2. Claims against budgetary resources, such as delivered and undelivered orders, are obligations of a revolving fund and must be subtracted from unobligated balances when incurred. Obligations for the procurement of inventories, as well as for the acquisition of other revolving fund assets, must be recognized, recorded, and reported along with other obligations.

2.5.3. Incurring obligations or authorizing the incurrence of obligations more than apportioned budgetary resources must be reported as an apparent violation of the administrative control of funds provisions contained in Volume 14. This reporting requirement applies whether a revolving fund has unapportioned budgetary resources or nonbudgetary assets greater than the amount of the deficiency.

2.5.4. Each revolving fund is required to submit a separate set of reports to the Treasury as described in Volume 6. Therefore, the data required for each revolving fund to prepare these reports must be identified within the DoW Component's accounting system.

2.6 Special Funds (5000-999)

Special Fund Expenditure Accounts. The accounting for special fund expenditure accounts must be in accordance with the provisions of this Regulation. However, each special fund must be viewed as a unique fund considering any special provisions in the enabling legislation.

2.7 Deposit Funds (6000-6999)

Deposit fund accounts are established to account for collections that are either held temporarily and later refunded or paid upon administrative or legal determination as to the proper disposition thereof, or held by the government as banker or agent for others and paid out at the direction of the depositor. Deposit funds are liabilities of the Federal Government. Deposit fund transactions are excluded from the budget totals because the amounts are not owned by the government, and therefore are not available for the incurrence of any Federal Government obligations or payment of any Federal Government obligations. This section identifies various types of deposit funds.

2.7.1. Unidentified Remittances. Unidentified remittances must be credited as suspense items outside the budget unless there is a reasonable presumption that they will be credited ultimately to a receipt, appropriation (expenditure), or other fund account within the budget, in which case amounts must be credited to the receipt clearing fund accounts. An example of a DoW deposit fund account is the Army’s Group Life Insurance Fund, fund account symbol 021X6434.

2.7.2. Unclaimed Collections. On a quarterly basis, DoW Components must initiate action to clear unclaimed collections held in their trust, revolving, and deposit fund accounts for more than one year. Unclaimed collections are money held by the government for individuals whose whereabouts are unknown. Unclaimed collections of $25 or more are transferred to “Payment of Unclaimed Moneys” with the accounting citation 020X6133, if held for more than one year. This account represents money that, when claimed, is properly refundable to the legal owner of the funds. Unclaimed collections of less than $25 or amounts of $25 or more that have been held for

more than one year for which the rightful owner can be neither identified nor located are transferred to R1060 unclaimed amounts.

2.8 Trust Funds (8000-8999)

2.8.1. Trust Fund Receipt Accounts. The Department credits trust fund receipt accounts with receipts generated by the terms of a trust agreement or statute that designates a fund as a trust fund. At the point of collection, these receipts are either available immediately or unavailable for expenditure depending upon statutory requirements. Accounting for trust funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund considering any special provisions in the trust agreement or the enabling legislation. Because of the unique nature and magnitude of impact of the deposits, advances, and Foreign Military Sales (FMS) related to the Executive trust fund, special accounting requirements have been established in Volume 15.

2.8.2. Trust Fund Expenditure Accounts. Trust fund expenditure accounts are established to record amounts appropriated or otherwise made available by transfer from a trust fund receipt account to be obligated and expended in carrying out the specific purposes or programs in accordance with the terms of the trust agreement or statute. Funds transferred or appropriated to a trust fund expenditure account are normally available for obligation and expenditure within the limits imposed by the trust agreement or authorizing statute.

2.8.3. Trust Revolving Funds (8400-8499). Accounting for trust fund expenditure accounts and trust revolving funds must be in accordance with the provisions of this Regulation. However, each trust fund must be viewed as a unique fund considering any special provisions in the trust agreement or the enabling legislation.

2.9 Available Receipts

Available receipts are special or trust fund receipts that, pursuant to law, are available as appropriations to a single agency for expenditure without further congressional action. However, in some fund accounts, use is restricted to investment only or is precluded by a limitation or benefit formula. An available receipt account carries the same symbolization as its corresponding expenditure account in that an "X" is inserted to indicate the period of availability of such funds for obligation. However, in special circumstances, available receipts that are earmarked for current year obligations and expenditures initially are placed in an unavailable receipt account until Fiscal Service prepares a warrant to move the funds to a current fiscal year expenditure account.

2.10 Unavailable Receipts

These are receipts that, at the time of collection, are not appropriated and not immediately available for expenditure. Unavailable receipts held in special and trust fund receipt accounts are unavailable for expenditure until appropriated pursuant to specific legislative provisions. Unavailable receipts are sometimes invested. In these circumstances, Treasury designates the fund as "available only for investment."

2.11 Transfer Appropriation Accounts

Fiscal Service establishes transfer appropriation accounts to receive (and subsequently obligate and disburse) allocations treated as nonexpenditure transactions. These accounts carry symbols identified with the original appropriation from which monies were advanced. A transfer appropriation account is symbolized by adding the receiving agency's department prefix to the original appropriation or fund account symbol. A bureau suffix identifies that the transfer is to a particular office or bureau within the receiving department. For example, 017-097 06 0100 represents a transfer of funds that was initially appropriated to Defense Agencies (097) and was transferred to the Department of the Navy (017) for execution purposes.

2.12 Patent Royalty Activities

2.12.1. Each fiscal year, Treasury will create a new three-year Treasury Account Symbol (TAS) to record collections and payments of expenses related to patent royalties. DoW Components should obligate and disburse directly from the three-year TAS for the purposes specifically authorized in Title 15, U.S. Code Section 3710c (15 U.S.C. § 3710c), which states that collections are only available for three years.

2.12.2. DoW Components must record the collections in the United States Standard General Ledger (USSGL) 426600 – Other Actual Business-Type Collections from Non-Federal Sources. USSGL 426600 provides direct budget authority on line 1800 of the Standard Form (SF) 132 and SF 133.

3.0 CONTRIBUTIONS FOR DEFENSE PROGRAMS, PROJECTS, AND ACTIVITIES

3.1 Defense Cooperation Account

A special account is established in the Treasury for receipt of monetary contributions and proceeds from the sale of real or personal property contributions accepted by the Secretary of War (SecWar), or designee under 10 U.S.C. § 2608.

3.2 Authority

3.2.1 SecWar. 10 U.S.C. § 2608 provides authority for the SecWar to accept, for use by the Department, from any business (or person), foreign government, or international organization, any contribution of money or real or personal property. It may accept from any foreign government or international organization any contribution of services.

3.2.2. Under Secretary of War (Comptroller) (USW(C)). Authority to accept such contributions has been delegated to the USW(C), who also serves as the single point of contact in the Department for the Departments of State and the Treasury with respect to all matters involving the receipt, administration, and distribution of contributions of funds from foreign countries for defense programs.

3.2.3. Military Departments (MILDEPs) and Defense Agencies. The Secretaries of the MILDEPs and the Directors of the Defense Agencies have authority to accept from any business

(person) or international organization any contribution of real or personal property for use by their organizations.

3.2.4. Washington Headquarters Services (WHS). Given WHS responsibility for the management of property and physical assets at the Pentagon and to maintain consistency in property accountability, the Director of the WHS has authority to accept contributions of personal property offered to the Office of the Secretary of War (OSW) for use at the Pentagon.

3.2.5. Delegation of Authority. The USW(C) may provide additional delegations of authority to accept contributions of real and personal property or services on a case-by-case basis.

3.3 Policy on Contributions

3.3.1. Nonmonetary Contributions. These are contributions in the form of real property (fixed assets such as land, buildings, other structures, and facilities), tangible property (inventory or items held for sale, operating materials, supplies, and equipment), or services that would benefit the DoW, if accepted. Once the DoW accepts these contributions, the intent of the accounting standards (Statements of Federal Financial Accounting Standards (SFFAS)) is that the benefiting DoW organization should recognize the contribution in its financial statements. See Volumes 4 and 6 for accounting and reporting guidance.

3.3.1.1. The receiving DoW organization recognizes a change in inventory, stock, or plant, property, and equipment (PP&E) related records once transfer of the goods or services is made, thus making DoW the legal owner of said goods or services. An organization receiving donated general PP&E determines its fair value at the time it was acquired by the government. Donations of assets or services must be reported quarterly to the Defense Finance and Accounting Service (DFAS), Indianapolis, 8899 East 56th Street ATTN: Trust Fund Accounting Division, Column 203L, Indianapolis, Indiana 46249-1500 (see subparagraph 3.5.1).

3.3.1.2. The receiving organization must document and retain on file the details of each non-monetary contribution received. For audit purposes, the receiving organization must retain the supporting documentation in accordance with the National Archives and Records Administration – General Records Schedules.

3.3.2. Monetary Contributions. The USW(C) retains the authority to accept all monetary contributions. Monetary contributions are not generally accepted with restrictions, i.e., with designations for specific programs or purposes.

3.3.2.1. Contributions in Cash

3.3.2.1.1. Cash contributions, including proceeds from the sale of any contributed property, must be deposited into the Defense Cooperation Account (DCA) as soon as practical, but not later than the last day of the month.

3.3.2.1.2. Consistent with sound cash management practices, any cash accepted, under USW(C) authority, must be either converted into a check and forwarded to the DFAS using overnight delivery service or deposited into a Treasury General Account with funds

transferred to the DCA via electronic funds transfer--whichever process results in the earliest deposit of funds into the DCA.

3.3.2.1.3. Any funds forwarded by electronic funds transfer (EFT) must be deposited within 24 hours into the DCA under ALC 9720010 and Account Number 97X5187.1. Additionally, the DFAS Trust Fund Accounting Division must be notified prior to forwarding any funds electronically.

3.3.2.1.4. Documentation associated with cash contributions, including copies of deposit tickets and the original correspondence from contributors, must be forwarded within 24 hours of the deposit using overnight delivery service to the DFAS Trust Fund Accounting Division.

3.3.2.2. Contributions by Check

3.3.2.2.1. Checks received by DoW officials must be made payable to the "United States Treasury." The reference line on the check should indicate the "Defense Cooperation Account."

3.3.2.2.2. Checks received by DoW officials must be forwarded to the DFAS Trust Fund Accounting Division. The DFAS must deposit such funds within 24 hours of receipt into the DCA under ALC 9720010 and Account Number 97X5187.1.

3.3.2.2.3. Documentation associated with check contributions, including the original of any correspondence from contributors must be forwarded with the check.

3.3.2.3. Contributions by Wire Transfer

3.3.2.3.1. Contributions by wire transfer eliminate delays in receiving deposits and provide the most efficient preliminary accounting information for investment purposes.

3.3.2.3.2. After approval by the USW(C), donors may make contributions to the DCA via EFT from commercial banks to "Account Number 1" in the Federal Reserve Bank of New York (as Fiscal Agent of the United States). The Federal Reserve Bank of New York must credit the Department accordingly, using the format in the Volume 12 Supplemental.

3.3.2.3.3. Documentation associated with wire transfer contributions, including the original of any correspondence from contributors must be forwarded within 24 hours of the deposit using overnight delivery service, to the DFAS Trust Fund Accounting Division.

3.3.2.4. Contributions in Foreign Currencies (Cash or Check). Upon notice of a planned large contribution ($1 million or more) to be made in foreign currency, the cognizant DoW official must:

3.3.2.4.1. Request the donor provide as much lead time as possible regarding the amount of the contribution and the estimated date the contribution will be made.

3.3.2.4.2. Advise the USW(C) and the DFAS Trust Fund Accounting Division of any planned contributions and continue to keep that office advised of the status until the donor makes the currency transfer.

3.3.2.4.3. Upon approval by the USW(C), request the donor credit the foreign currency contribution to the Federal Reserve Bank of New York "Account Number 1" via the donor's central bank. If the Federal Reserve Bank does not maintain an account with a particular donor, the DoW official should seek guidance from the DFAS Trust Fund Accounting Division for appropriate alternative arrangements.

3.3.2.4.4. Foreign checks received by DoW officials must be converted to a check denominated in U.S. dollars prior to being forwarded to the DFAS or transferred electronically into the DCA.

3.3.2.4.5. Cash and checks received by DoW officials in countries not served by a DoW disbursing officer must, upon approval by the USW(C), be delivered to the nearest U.S. Embassy within 24 hours of receipt for deposit in the DCA, under ALC 97200010 and Account Number 97X5187.1.

3.3.3. Policy on Acceptance of Contributions

3.3.3.1. Authorities that may accept contributions must use sensitivity and scrutiny when contributions are offered from prohibited sources and, if there is a question on propriety, must consult with their Ethics Counselor to determine whether accepting a contribution would violate any prohibition or reflect unfavorably on the Department. "Prohibited source" and "Ethics Counselor" must have the meanings set forth in DoD Directive (DoDD) 5500.07, "Ethics and Standards of Conduct."

3.3.3.2. Authorities that may accept contributions may pay all necessary expenses in connection with the conveyance or transfer of a contribution. Contributions should not be accepted if it would result in substantial expenditures or administrative efforts and maintenance that are disproportionate to any benefit.

3.3.3.3. Department personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a contribution.

3.3.4. Authorities that may accept contributions may acknowledge offers of future contributions and advise the donors that acceptance will occur after actual presentation of the contributions only when they determine that such acceptance will likely occur.

3.4 Reporting on Contributions

3.4.1. Reporting Requirements. Not later than 10 days after the end of each quarter, each DoW official that has accepted and received a nonmonetary contribution must submit a report to the DFAS Trust Fund Accounting Division that identifies elements cited within the Volume 12 Supplemental.

3.4.2. DFAS Reporting Requirement. Not later than 15 days after the end of each quarter, the DFAS must prepare and forward to the USW(C) a report to be submitted to Congress that provides information cited within the Volume 12 Supplemental.

3.5 Investing Contributions

3.5.1. General. Consistent with good cash management practices, funds in the DCA must be invested in securities of the United States or in securities guaranteed as to principal and interest by the United States.

3.5.2. Purchasing Government Securities. Refer to the Volume 12 Supplemental document for the DFAS requirements for purchasing Government securities.

3.5.3. Selling Securities. Refer to the Volume 12 Supplemental document for the DFAS requirements for selling Government securities.

3.5.4. Maturing Securities. The DFAS must maintain a tracking system that identifies impending maturities and collections of securities for the DCA and ensure appropriate reinvestment action is taken upon maturity of a security.

3.5.5. Payments or Transfers. The Congress must authorize payments or transfers from the DCA. The USW(C) will provide withdrawal notification to the DFAS, which must ensure appropriate action is taken.

3.5.6. Annual Reviews. The DFAS will conduct an annual review of the DCA operations and transactions, including the purchase and sale of investments. The objective of the review will include compliance with the DoW and the Treasury policies and procedures, and adequacy of internal controls.

4.0 DIRECT LOANS AND LOAN GUARANTEES

This section establishes the DoW policies for direct loans and loan guarantees for non-Federal borrowers. The policies for credit programs reflect the requirements of the ***Federal Credit Reform Act of 1990*** (FCRA) as amended. The major purposes of the FCRA are to: (a) measure more accurately the costs of Federal credit programs; (b) place the cost of credit programs on a budgetary basis equivalent to other Federal spending; (c) encourage the delivery of benefits in the most appropriate form to meet the needs of beneficiaries; and (d) improve the allocation of resources among credit programs and between credit and other spending programs.

4.1 Accounting Standards

4.1.1. Netting Subsidy Re-estimate Amounts (within Cohorts). To calculate subsidy costs, components begin by estimating the expected cash flows and inflows over the life of the loans for each cohort year. Expected cash flows are then discounted to the point of the loan disbursement to determine the net present value. The subsidy cost represents the net present value cost of making or guaranteeing new loans.

4.1.1.1. The data used for budgetary subsidy cost estimates are updated, or re-estimated, annually after the end of the fiscal year to reflect actual loan performance and to incorporate any changes in assumptions about future loan performance. Re-estimates must be made immediately after the end of each fiscal year, if any loans in the cohort are outstanding.

4.1.1.2. OMB Circular No. A-11, Part 5, Section 185.6 (f), "Reestimate Increases/Decreases," states that in cases where agencies execute a risk category on a loan-by-loan basis, increases or decreases in subsidy cost for different loans within the same cohort and risk category will be netted against each other. Loans that require increased subsidies should draw on the excess from any risk categories within the cohort where the re-estimate shows a subsidy decrease. A negative or downward subsidy re-estimate should be recognized as a direct reduction in expense, not as a revenue, gain, or other financing source.

4.1.1.2.1. If the netting within the cohort indicates a net increase in the subsidy cost of the cohort since the last estimate or re-estimate, an obligation in the amount of the net increase (plus interest) must be recorded against permanent indefinite budget authority available to the program account for this purpose.

4.1.1.2.2. If the netting within the cohort results in a net downward re-estimate, there is no overall increase in subsidy cost for the cohort, and hence no additional appropriated subsidy for the program account. To keep the correct balances in the financing account, an obligation and a financing disbursement in the amount of the net decrease (plus interest on the re-estimate) must be recorded in the financing account.

4.1.1.2.3. Within the financing account, any amounts borrowed for downward re-estimates for individual loans not needed for/transferred to loans with upward re-estimates are transferred to a miscellaneous receipt account.

4.1.1.3. The DFAS maintains separate accounting records for each loan and loan guarantee with all accounting transactions. All projects having a downward re-estimate, whether they are in a cohort with an upward re-estimate project, borrow the gross amount of their respective downward re-estimates from the Treasury's Bureau of the Fiscal Service. The borrowed funds received by a downward re-estimate project is transferred to the amount needed to fund an upward re-estimate project in the same cohort, with any net remaining funds paid to the Treasury.

4.1.1.3.1. The downward re-estimate project records such intracohort transfers as a credit to USSGL account 427100 "Actual Program Fund Subsidy Collected" with an offsetting debit to USSGL 427100 recorded by the upward re-estimate project. Consequently, the total re-estimate amount included in Line 4120 "Federal Sources" on the SF 133 "Report on Budget Execution and Budgetary Resources" is the sum of the net cohort balances.

4.1.1.3.2. The Treasury, primarily through the Fiscal Service, provides detailed accounting and reporting guidance for Federal credit programs through the Guide for Basic Accounting and Reporting for Direct Loan Programs without Collateral in Federal Credit Program and the Guide for Basic Accounting and Reporting for Loan Guarantee Programs without Collateral in Federal Credit Program.

4.2 Credit Reform Fund Controls

4.2.1. Fund Control. Leaders of DoW agencies must prescribe, by regulation, a system of administrative control of funds. For credit programs and resources, systems for administrative control of funds must ensure that internal controls include objectives specific to compliance with the Antideficiency Act (ADA). Additional detailed guidance can be found in OMB Circular No. A-11, Part 4, Section 150.

4.2.2. Antideficiency Act Violations. ADA violations for direct loans, guaranteed loans, and financing accounts are reportable to the President, through the Director of the OMB, to the Comptroller General, and to Congress. For additional information, refer to Volume 14. For examples of ADA violations refer to the Volume 12 Supplemental.

4.3 Credit Apportionment and Reapportionment

All Treasury Appropriation Fund Symbols (TAFS) and all program, financing, and liquidating accounts are required to be apportioned, except in the case of a TAFS that is exempt from apportionment per OMB Circular No. A-11, Part 4. Refer to Volume 3.

4.4 Report on Budget Execution and Budgetary Resources (SF 133)

4.4.1. Coverage. Unless otherwise specified by the OMB, the Report on Budget Execution and Budgetary Resources must be prepared to provide current data on each credit account, whether apportioned or not. Current reporting requirements are published in OMB Circular No. A-11, Part 4.

4.4.2. Timing of Reports. The SF 133 must be submitted electronically through the Treasury's Governmentwide Treasury Account Symbol (GTAS) Adjusted Trial Balance System at the end of November, July, August, and each quarter or such other time period specified by the OMB for each open TAFS. Optionally, the SF 133 is submitted through the GTAS for the additional monthly reporting in November, July, and August for expiring TAFSs. This facilitates analysis and ensures consistent presentation of budget execution information so that Government-wide totals are meaningful. A copy of the SF 133 for each calendar quarter must be submitted to the Committee on Appropriations, House of Representatives.

4.5 Direct Loans

The DoW Component must record an obligation of subsidy in the program account when it signs a binding contract, in accordance with the provisions of OMB Circular No. A-11, Part 5, 'Federal Credit.' Subsidy funds must be paid from the program account to the financing account when the direct loan is to be disbursed to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, any change in estimated subsidy caused by an interest rate change or a change in estimates for other components of subsidy cost is made at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant

to section 504(f) of the Federal Credit Reform Act (FCRA) of 1990. If the subsidy amount decreases, a payment must be made to a receipt account.

4.6 Guaranteed Loans

The DoW Component must record the obligation of subsidy in the program account when a binding contract has been signed, in accordance with the provisions of OMB Circular No. A-11, Part 5, "Federal Credit." The DoW Component must pay subsidy funds from the program account to the financing account when the third-party lender disburses the guaranteed loan to the borrower. Note that the subsidy is not recalculated at the time of loan disbursement. Rather, the DoW Component makes any change in the estimated subsidy caused by an interest rate change or a change in estimates for other components of subsidy cost at the beginning of the fiscal year after the fiscal year in which the loan is disbursed. If, at that time, the subsidy amount increases, permanent indefinite budget authority is available to fund the increase, pursuant to section 504(f) of the FCRA of 1990. If the subsidy amount decreases, the DoW Component must make a payment to a receipt account.

4.7 Computation of Interest Expense and Interest Income

Refer to the Volume 12 Supplemental for: Instructions for Computations of Interest Expense and Interest Income for Direct and Guaranteed Loan Programs; Frequency of Interest Computations; Weighted Average Interest Rate; and Procedure and Due Dates for Computing Interest Expenses and Income Related to Borrowing for Direct Loan and Guaranteed Loan Financing Accounts.

4.8 Credit Reform USSGL Accounts and Definitions

Credit reform accounts and definitions were established in the USSGL to implement requirements of the FCRA of 1990 (as amended) and are intended to account for direct loans and loan guarantees. DoW entities must follow the Standard Financial Information Structure (SFIS), which is based on the Treasury USSGL. For more complete information, visit the SFIS website.

5.0 GRANTS AND COOPERATIVE AGREEMENTS

5.1 DoW Statutory Authorities for Use of Grants

A DoW Component may use grants when the SecWar delegates the statutory authority, or when a statute grants the authority directly to the Head of the DoW Component. Title 32, Code of Federal Regulations (CFR) § 21.420 lists the types of statutory authority the DoW may use to award assistance instruments.

5.2 Grants Financial Management

5.2.1. Financial Management Information System

5.2.1.1. The DoW Component must ensure the availability of a financial management information system capable of recording and monitoring grant transactions and providing, by transaction, a delineation of the federal and grantee breakout of program costs.

5.2.1.2. The system must enable the DoW Component to quickly identify the basic categories of funds involved, along with the related obligation and expenditure rates, and provide for ensuring fund availability prior to awarding financial assistance and obligating funds.

5.2.2. Record Retention. The DoW Component must maintain grant-supporting financial management documentation in accordance with the requirements in its DoW Component records retention requirements.

5.2.3. Recording and Reviewing Commitments and Obligations. Accounting for funds under a grant must start with the commitment of funds prior to their obligation by an awarding official. The awarding official must be a DoW grants or agreements officer with a statement of appointment that meets the requirement in 32 CFR §§ 21.435-21.465. After funds commitment, budgetary obligations must be recorded upon execution of the agreement or other obligating document approved by the awarding official that sets out the amount and purpose of the award, the performance period, the performance obligations of the parties to the award, and other terms. A legal obligation to disburse grant funds, in accordance with the terms of the agreement, occurs upon execution of an agreement or other obligating document. Refer to Volume 3 for more information.

5.2.4. Volume 10 provides detailed payment provisions for grants and other instruments of assistance.

5.2.4.1. Timing and Frequency

5.2.4.1.1. 32 CFR § 22.810 prescribes the timing and frequency of grant payments. In general, it is Governmentwide policy to minimize the time elapsing between any payment of funds to a grantee and the grantee's disbursement of the funds for program purposes. For States, payments are governed by Treasury-State Cash Management Improvement Act agreements and default procedures codified in 31 CFR § 205 and I Treasury Financial Manual (TFM) 4A - 2000 Overall Disbursing Rules for All Federal Agencies.

5.2.4.1.2. The assisting DoW Component must account for payments made to grantees to cover part or all their anticipated expenses or advance payments as advances. This accounting treatment continues until the grantee performs under the award, meaning the grantee meets the requirements to use the funds in accordance with the grant agreement. Refer to Volume 4 for more information.

5.2.4.1.3. The DoW Component should require payments as reimbursements when the grantee cannot meet the requirements in subparagraphs 5.2.4.1.1 and 5.2.4.1.2, when the DoW Component sets a specific grant condition per 2 CFR § 200.207, or when the grantee requests this payment method. The DoW Component may also use reimbursement for

any construction grant, or if private market financing or Federal loans fund the major portion of the construction project, and the Federal award constitutes a minor portion of the project.

5.2.4.2. Method. It is a government-wide requirement to use EFT in the payment of any grant to the maximum extent practicable under 32 CFR § 22.810.

5.2.4.3. Process. Disbursing offices must follow the policies and procedures in Volume 10 for payment provisions for grants.

5.2.4.4. Withholding Payments. The DoW Component may withhold payments for allowable costs when:

5.2.4.4.1. The grantee failed to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award. If the grant is not otherwise suspended, the DoW Component must release the payment to the grantee upon the grantee's compliance. If the grant is suspended, the DoW Component will make payment adjustments according to 2 CFR § 200.342;

5.2.4.4.2. The grantee is delinquent in a debt to the United States as defined in OMB Circular No. A-129. In this situation, the DoW Component must provide reasonable notice to the grantee that payments will not be made for obligations incurred after a specified date until the indebtedness to the Federal Government is paid; or

5.2.4.4.3. The grantee has a sustained audit finding which resulted in amounts due to DoW. The DoW Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the grantee was notified of the debt and continues to accrue while an appeal is underway.

5.2.4.5. Interest from Advanced Payments. A DoW Component may allow grantees to retain interest earned up to $500 per year for their administrative expenses. Grantees must remit any additional interest earned on DoW advance payments, required to be deposited in interest-bearing accounts, annually to DoW using either an Automated Clearing House network or a Fedwire Funds Service payment.

5.2.5. Recording of Expense

5.2.5.1. When the grantee that received the advance has performed under the grant, the DoW Component must record an expense in an amount equal to the cost of the services performed or cost incurred and reduce the advance account by that amount. The grantee must provide sufficient documentation to support the cost of the services performed or cost incurred, consistent with the grant.

5.2.5.2. The DoW Component must account for payments to grantees for reimbursement of work performed or costs incurred as expenditures and expenses incurred, or as reductions of liabilities if the expenses were recorded previously.

5.2.6. Accruals. The DoW Component must recognize and report balances due or advanced to grantees at the end of the reporting period and apply cost-benefit considerations to the process of estimating and validating accruals.

5.2.6.1. Accrual estimates must be treated as follows:

5.2.6.1.1. Amounts issued as advances must be adjusted, even if grantees have not yet reported expenses incurred; and

5.2.6.1.2. Where there is no advance or no remaining advance, the DoW Component must estimate amounts payable to grantees.

5.2.6.2. The DoW Component must document and maintain support for the data and assumptions used to develop grant accrual estimates and follow internal control guidance in Federal Accounting Standards Advisory Board Technical Release 12.

5.2.7. Accounts Receivable

5.2.7.1. At the termination or closeout of a grant, the DoW Component must establish an accounts receivable for any disallowed expenses, improperly applied funds, unused funds, and any other amount due to the DoW according to the grant's terms and conditions.

5.2.7.2. When a grantee has a sustained audit finding that resulted in amounts due to DoW, the DoW Component must promptly record the amount due from the grantee upon entitlement as an accounts receivable, even if the decision to collect is subject to administrative appeal or litigation. Interest must begin to accrue no later than 30 days after the date the DoW Component notifies the grantee of the debt and continues to accrue while an appeal is underway.

5.2.8. Debt Collection. A DoW Component establishes a debt when it determines it has overpaid a grantee under the terms and conditions of the grant. Volume 10 and Volume 16 describe the treatment of debt collection.

5.3 Real Property and Equipment

5.3.1. Grantee Purchased Real Property or Equipment. A DoW Component must provide prior approval to grantees to purchase real property or equipment with federal funds. Generally, title to real property or equipment vests with the grantee upon the grantee’s acquisition and DoW does not account for its reversionary interest in real property and equipment (32 CFR § 34.21(a) and (b)). The title must be conditional, subject to the following:

5.3.1.1. The grantee must use the real property or equipment for the authorized purposes of the grant until funding ceases, or until the property or equipment is no longer needed for the grant. Use in other projects must be limited to those under federally sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the DoW Component;

5.3.1.2. The grantee cannot encumber the property without approval of the DoW Component; and

5.3.1.3. The grantee must use the real property or equipment following the terms of the grant and dispose of the property or equipment following disposition instructions from the DoW Component, consistent with 32 CFR § 34.21(d) and (e).

5.3.1.4. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for any outstanding proceeds from the disposition of real property or equipment.

5.3.2. Federally-owned Property. Title to Federally-owned property remains vested in the DoW (32 CFR § 34.22) and:

5.3.2.1. The DoW Component must establish appropriate general ledger accounting controls and property records and include the assets in its financial statements. The asset must be recorded at acquisition cost to the grantee and depreciated in accordance with guidance in Volume 4.

5.3.2.2. If DoW has no further need for the property, it must declare the property excess and report it for disposal following the instructions in Volume 4 for Excess Items Disposition, unless the DoW Component has statutory authority to dispose of the property by alternative methods.

5.3.3. Exempt Federally-owned Property. Exempt Federally owned property means property acquired under a grant when the DoW has chosen to vest title to the property to the grantee without further obligation to the Federal government, based on explicit terms and conditions of the grant. A DoW Component may exercise this option only when statutory authority exists.

5.4 Supplies

Title to supplies will vest in the grantee upon acquisition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other Federal award, the grantee must retain the supplies for use on other activities or sell them. In either case, the grantee must compensate DoW, following the requirements in 32 CFR § 34.24. The grantee may deduct and retain $500 or ten percent of the proceeds, whichever is less, for selling and handling expenses. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for compensation received from grantee residual inventory.

5.5 Intangible Property

Intangible property applies to a patent, patent application, copyright, or other intangible property acquired, but not developed or produced, under the grant. When the grantee no longer needs the intangible property for the originally authorized grant purpose, the DoW Component must arrange for the disposition of the intangible property, following the requirements in

32 CFR § 34.25. At grant close-out, the DoW Component must follow subparagraph 5.2.7 to account for the remaining proceeds from disposition of intangible property.

5.6 Other Required Reporting

5.6.1. Improper Payment. An improper payment is any payment that should not have been made, or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements. An improper payment also includes any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments authorized by law).

5.6.1.1. Questioned costs, including those identified in audits, are not an improper payment until reviewed and confirmed to be improper as defined in OMB Circular No. A-123 Appendix C.

5.6.1.2. Grant programs are subject to the payment integrity requirements in Volume 4.

5.6.2. Public-Private Partnership Reporting. Grants which meet the definition of public-private partnerships (P3), risk-sharing arrangements or transactions with expected lives greater than 5 years between public and private sector entities, may be subject to disclosure under SFFAS 49. Volume 6 and SFFAS 49 provide detailed information about P3 reporting.

5.6.3. Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners. 1 TFM 2 - 4500 requires electronic submission of several reports pertaining to foreign obligors to the Treasury. Refer to Volume 6 and Volume 16 for more details.

6.0 FINANCIAL LIABILITY FOR GOVERNMENT PROPERTY, LOST, DAMAGED, DESTROYED, OR STOLEN

6.1 Applicability

The requirements within this section apply to all government property regardless of whether the government property is recorded in an Accountable Property System of Record. This section does not apply to loss, damage, destruction, or theft of Government Furnished Property, Contractor Acquired Property, and property acquired by a contractor because of partial, advance, progress, or performance-based payments in the possession of a third party, to include contractors. Loss, damage, destruction, or theft of such property must be processed in accordance with the terms and conditions of the accountable contract or third-party agreement to which the lost, damaged, destroyed, or stolen property was accountable.

6.2 General Requirements

6.2.1. Initiation of General Inquiries and Investigations

6.2.1.1. Upon discovery of loss, damage, destruction, or theft of government-owned property (real or personal) of any value, the first line supervisor or, in the case of military,

immediate superior within the chain of command, must conduct a general inquiry to determine if the situation warrants a formal investigation. A DD Form 200 is not required for general inquiries. Loss, damage, destruction, or theft of supply system materiel must be processed in accordance with paragraph 6.5.

6.2.1.2. An investigation must be conducted for all loss, damage, destruction, or theft of government-owned equipment with initial unit acquisition cost (value) of $5,000 or greater; all sensitive, classified, or leased (Refer to Volume 4) property regardless of initial acquisition cost; and any real property (see Department of Defense Instruction (DoDI) 5000.64 for more information). Investigations may also be conducted when circumstances warrant. For example, when the loss, damage, destruction, or theft of small amounts of property occurs frequently enough to suggest a pattern of wrongdoing, then an investigation may be warranted.

6.2.2. DD Form 200. The DD Form 200 is the required documentation for investigations and must be used to document the facts and circumstances of the loss, damage, destruction, or theft. The person conducting the investigation must complete blocks 1 through 11 of the DD Form 200. Refer to the Volume 12 Supplemental.

6.2.3. Review. Upon completion of the investigation, the DD Form 200 must be forwarded to the appointing authority for review. The appointing authority must determine if a financial liability officer or a financial liability board is needed to investigate. The general criteria for appointing a financial liability officer or board and the responsibilities of a financial liability officer or board regarding inventory losses are contained within the Volume 12 Supplemental. General Counsel and/or the member's commander must be consulted before statements are taken from anyone if there is a suspected violation of the Uniform Code of Military Justice (10 U.S.C. §§ 801-806).

6.2.4. Evidence of Theft. Cases involving stolen government-owned property must be referred to local security and/or law enforcement officials, in accordance with agency procedures.

6.2.5. Notification and Examination. When financial liability is recommended, the individual must be notified and given the opportunity to examine the findings and recommendations, obtain representation, make a rebuttal statement, and present any mitigating factors that may have contributed to the negligence or abuse. If damage to government housing is involved, an individual also must be given the opportunity to request a waiver of the financial liability in accordance with 10 U.S.C. § 2775.

6.3 Approving and Appointing Authority

Due Process. The appointing and approving authorities must act on the DD Form 200 once an individual has been properly notified and given the opportunity to respond to the findings. Failure of individuals involved to respond to recommendations of financial liability is not a sufficient reason for the appointing and approving authorities to delay the approval process if the individuals were given a reasonable opportunity to reply, as discussed in the Volume 12 Supplemental.

6.4 Government Housing Liability

Military Personnel Liability for Government Housing Determination of Proximate Cause. A member of a Military Service must be held liable to the U.S. for the loss, damage or destruction of family housing or an unaccompanied personnel housing unit assigned to such member, including equipment and furnishings therein, when a determination is made that the loss, damage or destruction was proximately caused by the abuse or negligence of the member, a dependent of the member, or a guest either of the member or the member's dependent.

6.5 Supply System Material

This section applies to personal property defined as "supply system materiel" and contains procedures to be followed when inventory losses are discovered. The provisions of this section are applicable to all activities accountable for supply system material, including stock fund and other inventories (e.g., appropriated fund).

6.5.1. Inventory. Physical inventories must be performed in accordance with the provisions contained herein and in Department of Defense Manual (DoDM) 4140.01, Volume 5.

6.5.2. Causative Research. Causative research must be conducted for all inventory discrepancies that meet any of the criteria specified in Defense Logistics Manual (DLM) 4000.25, Volume 2. For inventory discrepancies that do not meet the criteria for performing causative research, a justification for adjusting the inventory and accounting records and relief from property accountability must be provided by means of an inventory adjustment document.

6.5.3. Resolved Inventory Losses

6.5.3.1. Accountability. The data developed by post count validation, pre-adjustment research, and causative research must be utilized to prepare correcting documentation so that the inventory accounting systems may be updated. These adjustments must be processed in accordance with this Regulation and DLM 4000.25, Volume 2.

6.5.3.2. Statistics. The type of inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25, Volume 2.

6.5.4. Unresolved Inventory Losses Not Meeting the Criteria for an Investigation

6.5.4.1. Accountability. Relief from property accountability and justification for the adjustment of the inventory and accounting records to the inventory on hand must be provided by means of an inventory adjustment document. The detailed data requirements and procedures for preparing and processing the inventory adjustment document must be as prescribed in the appropriate DoW Component implementing documents.

6.5.4.2. Authority for Adjustment. If the cause or probable cause of the discrepancy has not been determined, and the discrepancy does not qualify for causative research, this paragraph must be cited as authority for relieving the accountable officer of accountability.

6.5.4.3. Statistics. The type of inventory losses must be categorized and accumulated by category to identify trends or problem areas in accounting or supply system procedures in accordance with DLM 4000.25, Volume 2.

6.5.5. Unresolved Inventory Losses - Causative Research Indicates No Personal Responsibility

6.5.5.1. Accountability. See subparagraph 6.4.4.1.

6.5.5.2. Statistics. See subparagraph 6.4.4.3.

6.5.6. Unresolved Inventory Losses - Causative Research Indicates Evidence of Personal Responsibility

A financial liability investigation must be used to support the adjustment of the inventory and accounting records to the actual inventory on hand and to relieve the accountable officer of accountability.

6.5.7. Criteria for an Investigation. A financial liability investigation must be initiated on all unresolved inventory discrepancies for each stock number that meets any of the criteria identified in the Volume 12 Supplemental.

7.0 FOREIGN NATIONAL EMPLOYEES SEPARATION PAY ACCOUNT, DEFENSE

7.1 Authoritative Guidance

7.1.1. The National Defense Authorization Act (NDAA) for Fiscal Years 1992 and 1993 authorized a trust fund account to accumulate funds to finance obligations for separation payments to foreign national employees of the DoW. The NDAA for Fiscal Year 1995 extended this authorization to include foreign nationals employed by a foreign government, for the benefit of DoW, under any of the following agreements that provide for separation pay: (1) a contract, (2) a treaty, or (3) a memorandum of understanding with a foreign nation. 10 U.S.C. § 1581, "Foreign National Employees Separation Pay Account," provides for the establishment and operation of this account. The use of the term "foreign national employees" in this section is meant to apply to both foreign national direct and indirect hire employees. 10 U.S.C. § 1592 establishes that funds in the "Foreign National Employees Separation Pay Account, Defense" account may not be used to pay severance pay to a foreign national employed by DoW that provides for payment of separation pay if the separation of the employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States military facility in that country at the request of the government of that country.

7.1.2. This guidance applies to all DoW appropriations. This guidance does not apply to activities under the Defense Working Capital Fund (DWCF). DWCF activities must continue to make necessary foreign national employee severance payments under established DWCF procedures. This guidance also does not apply to the FMS Trust Fund. The FMS Trust Fund activities must continue to accrue and disburse separation pay to their foreign national employees

from the FMS Trust Fund. Use of nonappropriated funds (NAF) to pay for severance or separation entitlements, accrued during periods of employment with appropriated funded (APF) entities is prohibited.

7.2 Policy

7.2.1. Calculations. Foreign national employees' separation pay must be determined and calculated at the installation level in accordance with applicable host country agreements. These amounts must be obligated in the full amount of the liability that accrues during the fiscal year, without regard to whether the amount is currently payable. Disburse these amounts from the Treasury "Foreign National Employees Separation Pay Account, Defense," 097X8165. The applicable Treasury receipt account is 097X8165.001, "Employing Agency Contributions, Defense." Find additional guidance on obligations for separation allowances for foreign national employees in Volume 3.

7.2.2. The Director, DFAS, must administer the account as well as perform related accounting functions.

7.2.3. Transfers into the "Foreign National Employees Separation Pay Account, Defense" must be made following procedures in the procedures/guidance document.

7.2.4. Deobligations. Each DoW Component must notify its supporting DFAS site of all deobligation transactions, adjustments, and corrections, in a timely and accurate manner. The respective site will record adjustments and corrections in the accounting records.

7.3 Subsequent Disbursements

7.3.1. Validation of Funds Availability. Local disbursing offices and the Department of State (DoS) may continue to make disbursements for foreign national employee separation payments, when approved by DFAS, using DoW cross-disbursement procedures. Each DoW Component and non-DoW office (e.g., DoS) must coordinate its disbursement/cross-disbursement actions with the supporting DFAS site to validate the availability of funds prior to disbursement. A positive balance in the account is necessary prior to payment; therefore, both DoW and non-DoW activities will verify from the supporting DFAS site that sufficient funds are available prior to submitting vouchers to servicing disbursing offices for employee payments.

7.3.2. Cross-Disbursements. When cross-disbursement procedures are used, the appropriate DFAS site must be advised prior to each actual disbursement. Find additional guidance on cross-disbursement transactions in Volume 3.

7.4 Responsibilities

Refer to the Volume 12 Supplemental.

8.0 INTERNATIONAL AGREEMENTS

8.1 General

This section establishes the financial procedures that must be followed when DoW Components initiate, develop, and request formal review of international agreements and any annexes, appendices, amendments, or modifications thereto. It does not cover Foreign Military Sales (FMS) transactions and contracts entered into under the provisions of the Federal Acquisition Regulation or agreements associated with security assistance programs. Such transactions are implemented under provisions identified in Section 15.

8.1.1. International Agreement Document. This term includes any document, among others, identified as an international agreement, memorandum of understanding, memorandum of agreement, memorandum of arrangement, exchange of notes, exchange of letters, or technical arrangement with one or more foreign governments (including their agencies, instrumentalities, or political subdivisions) or with an international organization.

8.1.2. International Agreement Design for Coordination. Each international agreement submitted for coordination must contain a fiscal, legal and policy memorandum in accordance with DoDI 5530.03, "International Agreements," paragraphs 5.2.b., or a Summary Statement of Intent (SSOI) in accordance with paragraph 5.2.b.(5). Refer to Volume 12 Supplemental for detail regarding these memoranda.

8.2 Legal Considerations

Legal authority information is critical to the preparation of an international agreement and is the basis for determining the legal authority for entering into the agreement and subsequent financial requirements. Any agreement that involves the obligation of U.S. appropriated funds must have an underlying legal authority for the use of such funds; the agreement itself cannot create such an authority. Refer to the Volume 12 Supplemental for detailed information regarding these legal considerations.

8.3 Fiscal Considerations

8.3.1. Availability of Financing Sources. There are two general prohibitions on the use of appropriated funds for international agreements. In addition, the legal section must identify any other applicable prohibitions. It is implicit in the identification of the financing sources set forth in the Volume 12 Supplemental that funds are available. It is desirable, however, to include in the fiscal information section a certification that all legal and policy prohibitions on the use of funds have been complied with. The general prohibitions are as follows:

8.3.1.1. No funds designated by the Congress for North Atlantic Treaty Organization (NATO) or major non-NATO cooperative research and development under 10 U.S.C. § 2350a may be used to procure equipment or services from any foreign government, foreign research organization, or other foreign entity (including NATO participants) to the agreement.

8.3.1.2. U.S. Government military assistance funds (i.e., Foreign Military Financing, FMS loans, and FMS credits) are not available to finance a foreign participant's share

of the cost of a cooperative project authorized by section 27 of the Arms Export Control Act or a cooperative development project with a major non-NATO ally under 10 U.S.C. § 2350a.

8.3.2. Financial and Nonfinancial Contributions. A contribution to an international agreement may be financial, nonfinancial, or both. Nonfinancial contributions may be in the form of defense articles or defense services needed for the cooperative project. If the contribution is nonfinancial, a price analysis must be made to ensure the valuation assigned to such nonfinancial contribution is fair and reasonable. The fiscal information section must summarize the results of such an analysis. The price analysis must be based on prior cost experience for the nonfinancial contribution to be provided. When a foreign contribution is in the form of foreign currency or the awarding of a contract in a foreign country, the foreign currency contribution generally must be valued at the exchange rate current at the time that the agreement is prepared. There must be no subsequent modification of the valuation because of changes in the currency exchange rate. The fiscal memorandum or SSOI must display the value of the currency in terms of U.S. dollars.

8.3.3. Valuation of Nonfinancial Contributions. The value of all nonfinancial (background data/information, software, services, military and civilian labor, materiel, equipment, and facilities) contributions to an agreement is to be determined and considered for the evaluation of equitableness of the proposed project. The fiscal memorandum or financial section of the SSOI must describe the nonfinancial contributions, indicate their value, and state the method used in determining the valuation. The nonfinancial contributions must also be valued in terms of U.S. dollars in the fiscal memorandum or SSOI. The alternatives for determining the value of nonfinancial contributions can be found in the Volume 12 Supplemental.

8.3.4. Reasonable and Necessary Expense. Any obligation of DoW appropriations under an international agreement must be supported by a showing that it is a reasonable and necessary expense required for the accomplishment of DoW missions, unless the use of DoW funds for other than a DoW mission specifically is authorized by statute.

8.4 Proposed Agreement

8.4.1. Financial Policies and Appropriate Cross References. An international agreement must contain language that implements the requirements established by U.S. law and regulation. This section discusses the financial policies that must be followed and provides appropriate cross references to other parts of this Regulation that provide more specific guidance.

8.4.2. Fund Availability Qualification. Because agreements may involve future years for which Congress has not yet appropriated funds, all agreements that require that DoW provide financial contributions must contain a funds availability clause to prevent a premature recording of an obligation against a future year's appropriation.

8.4.3. Reconciliation of Agreement Dollar Value to Financing Sources. An international agreement must set forth the dollar value of the agreement and portions of the dollar value that must be borne by each participant. This cost sharing may be in the form of monies or nonfinancial contributions. A preliminary requirement is to ensure that any obligations that the Department may be required to incur in implementation of the agreement have been identified in the fiscal

information section. Nonfinancial contributions, described in the scope section, may be valued in the fiscal information section as part of the overall financial contributions, or described solely in the scope section without valuation in the financial information section. The financial information in the fiscal memorandum or SSOI will value all financial and nonfinancial contributions identified in the international agreement.

8.4.4. Adherence to Prescribed Pricing Rules

8.4.4.1. If an international agreement provides for nonfinancial contributions, there must be assurance that proper pricing procedures have been followed. Subparagraphs 8.3.2 and 8.3.3 discuss special requirements that may be applicable to certain agreements. The text of an agreement must be reviewed carefully to ensure compliance with these paragraphs. An area of special pricing attention is charges for existing DoW technical data and computer software, or the use of equipment or facilities.

8.4.4.2. Equipment and facilities provided for use in the furtherance of the purpose of an international agreement should be based on an amortized rate. This amortized rate should be based on the cost and useful life of the equipment or facilities and applied to the length of time the equipment or facilities will be used in the furtherance of the purpose of the international agreement. Standard rates, if available, can also be used.

8.4.5. Determination of Program Equitableness

8.4.5.1. 2350a and 22 U.S.C. § 2767, and in accordance with DoDI 5530.03, international agreements involving cost sharing should be equitable. The United States and the other participants to an international agreement must contribute their equitable share of the full cost in funds or in defense articles or services needed to execute the cooperative project and must receive their equitable share of the results of the cooperative project in the form of defense articles or services. A participant's cost share must be proportionately equal to the benefits it receives. In many cases, "equitable" will mean equal, but the sharing need not be exactly equal to meet the equitable standard; minor deviations are permissible so long as the cost sharing is fair based on the totality of the circumstances involved, and not in contravention of other law or regulation. Any such deviation will be cited clearly in the SSOI and approved by the relevant DoW officials during their routine coordination of international agreements. Further details of meeting the requirements for equitability are provided in the Volume 12 Supplemental.

8.4.5.2. The SSOI or fiscal memorandum to a proposed international agreement, must clearly explain why the agreement is considered equitable. Prior to approval of all proposed international agreements, a determination of agreement equitability must be made by the approving DoW officials. It is critical that sufficient detail and information be provided to clearly demonstrate to approving officials that the proposed international agreement is equitable.

8.4.5.3. Calculation of Expected Contribution. In support of an equitability determination by DoW approving officials, the expected contribution must be calculated and presented in the SSOI or supporting documentation using one of the methods identified in the Volume 12 Supplemental:

8.4.6. Sales and Transfers of Technical Data Developed Under an Agreement – Refer to the Volume 12 Supplemental.

8.4.7. Taxes, Duties, and Similar Charges – Refer to the Volume 12 Supplemental.

8.4.8. Advance of DoW Funds

8.4.8.1. An advance constitutes a disbursement of DoW funds before an authorized DoW official has certified that materials have been delivered or ordered services performed. An agreement must not provide for DoW advance payments, unless the conditions for such advances, as set forth in Volume 4, are met. An advance to a foreign country is authorized only when required for compliance with the laws and ministerial regulations of the foreign country and is further required by the agreement.

8.4.8.2. When possible, advances must be made for no more than the amount necessary to fulfill the DoW share of project expenses for one month. Advances and prepayments must not exceed the amount necessary to fulfill the DoW share of project expenses for a current fiscal quarter. If monies are paid in advance and deposited into commercial banks, provision must be made to ensure that the agreement requires: Payment of interest at competitive rates; Timely identification of interest earned by each party; and Interest disposition in accordance with the participants' instructions.

8.4.8.3. The DoW share of funding required to support an international project must be obtained in full by appropriation, and no part of such funding must be derived from interest earnings on U.S. contributions. In view of this policy, the U.S. Government share of interest earned on U.S. advance payments must be returned to the Treasury Miscellaneous Receipts Account 3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified." The interest must not be used to reduce a future call for funds, nor used for any project cost that would result in funding derived outside the appropriation process.

8.4.8.4. Advances of DoW funds in excess of 90 days or $5 million require consultation with the Treasury. Contact with the Treasury must be through the OUSW(C).

8.4.9. Billing Requirements. When payments are to be made, the agreement or subsequent financial arrangements must include information identified in the Procedures document.

8.4.10. Special Types of Agreements

8.4.10.1. Agreements for Reciprocal Exchange of Materials or Services. These agreements must set forth the time period allowed for exchange of materials and services. They also must set forth financial settlements that must be made if the exchange does not take place. DoW services or materials provided are priced in accordance with Volume 11.

8.4.10.2. Cooperative Research, Development, Test and Evaluation (RDT&E), Technical Data Exchange, Co-production, Licensed Production, and Related Standardization

Agreements That Are Not Implemented through the Security Assistance Program. Full costs must be identified and shared equitably. Cost sharing may be accomplished through the following:

8.4.10.2.1. Pooling of monies and designation of a lead country to manage the program, collect cash, and award contracts. Specific shares of program cost are set forth in the agreement.

8.4.10.2.2. No pooling of monies or designation of a lead country. Specific efforts to be accomplished by each participating country and estimated costs of such efforts are set forth in the agreement.

9.0 FUNDING CIVILIAN SEPARATION INCENTIVES AND CIVILIAN PERSONNEL TRANSITION INITIATIVES

9.1 Overall Funding Policy

9.1.1. For this policy, the term "civilian separation incentives" means resignation and retirement incentives and outplacement subsidies that may be used to encourage designated civilian employees to separate voluntarily from DoW.

9.1.2. Available separation incentives include Voluntary Separation Incentive Pay (VSIP), VSIP Phase II, Voluntary Early Retirement Authority (VERA), and Voluntary Reduction in Force (VRIF). The DoW activities may pay up to $25,000 (before taxes and deductions) from appropriations, funds, or accounts available for such purposes for the voluntary resignation, early retirement, or optional retirement of a designated civilian employee.

9.1.3. Outplacement subsidies are used as an incentive for other Federal agencies to hire employees displaced by reduction in force (RIF) or transfer of function. DoW activities may pay up to $20,000 from appropriations, funds, or accounts available for such purposes. The payment is for Permanent Change of Station (PCS) costs incurred by another Federal agency when that agency hires any DoW employee in a surplus skill category who is subject to RIF. See the DoW FMR.

9.1.4. Audit Readiness/Internal Procedures. Each DoW Component must develop and implement internal operating procedures and/or guidance to implement this overarching policy in a manner that ensures accurate, timely, and relevant reporting of financial data. Relevant records supporting financial statements must be maintained and made available during financial statement audits.

9.1.5. Recording Funding Obligations. Funds for separation incentives and outplacement subsidies must be obligated when an employee accepts the offer of an incentive payment. The obligation must be recorded in DoW Standard General Ledger account 640000, "Benefits Expense," and reported as object class 13.0, "Benefits for former personnel" for separation incentive and object class 12.1 for outplacement subsidies. Refer to the Office of the DCFO SFIS for additional information on account descriptions, and OMB Circulars, Circular No. A-11, Section 83 for additional information on object class codes.

9.2 Specific Funding Policies for Different Types of Employees

9.2.1. Civilian Separation. A DoW Component that offers civilian separation incentives to an employee, to induce the voluntary separation of that employee to create a vacancy for another employee of the same DoW Component, must fund the resulting separation payments from the applicable appropriation, fund, or account that otherwise is available to pay for salaries and expenses of that DoW Component. The source of Voluntary Separation Incentive Payments funds may include a DWCF for employees of a DWCF-funded activity. DoW central account funding is not provided.

9.2.2. Foreign Military Sales Trust Fund – Refer to Volume 12 Supplemental.

9.2.3. Placements Outside the Department. DoW activities may pay up to $20,000 (subject to the availability of funds) in outplacement subsidy for Permanent Change of Station (PCS) costs associated with placement of a surplus DoW employee with another Federal Agency as authorized under 5 U.S.C. § 5724 and DoDI 1400.25, Volume 1702. When the gaining Federal agency accepts a DoW Component-offered outplacement subsidy, the DoW activity must notify the gaining agency that DoW funds may be billed up to $20,000 per employee or for the actual PCS costs, whichever is less. The notification must include the DoW fund citation to be billed and the address of the fiscal station paying the subsidy. Payment must be made by the applicable DoW activity based upon documentation of the amounts paid or to be paid to the employee by the gaining Federal Agency.

9.3 Controls over Available Funds

Controls must be established to ensure that sufficient funds are available to cover projected requirements for employee acceptance of incentive offers and outplacement subsidies each quarter. ADA provisions apply to the DoW Component appropriations, funds, and accounts. Therefore, if available funds are projected to be inadequate to cover anticipated incentive program acceptances and outplacement subsidies, appropriate action must be taken. In this regard, the DoW Components either must cancel or withdraw incentive offers prior to employee acceptance or obtain additional funds.

10.0 PRIVATIZATION OF WAR UTILITY SYSTEMS

10.1 DoW Utility Systems

As permitted under the authority of 10 U.S.C § 2925, the Secretary of a Military Department is allowed to transfer utility systems. This authority does not extend to utility projects operated by the Army Corps of Engineers under its civil works authority. The policy is driven by DoDI 4170.11, "Installation Energy Management," which establishes utilities privatization as the preferred strategy for modernizing and recapitalizing these critical systems. Consequently, the Military Services are mandated to attempt privatization of such utility systems at all Active and Reserve Component installations, both within and outside the United States. However, there are specific exceptions to this mandate: privatization is not required for installations scheduled for closure, for systems that the Secretary of the Military Department certifies as exempt for security

reasons, or in cases where privatization would be uneconomical. The USW for Acquisition and Sustainment (A&S) is assigned primary responsibility for overseeing this instruction.

10.2 Conveyance of Utility Systems

10.2.1. Consideration and Determination. Subsection 2688(c)(1) of 10 U.S.C. provides that the Secretary of a Military Department concerned may require as consideration for a conveyance an amount equal to the fair market value (as determined by the Secretary) of the right, title, or interest of the United States conveyed. Such consideration may take the form of a reduction in charges for utility services provided or a lump sum payment. Subsection 2688 does not itself constitute authority for the Secretary of a Military Department to convey a utility system without any consideration or cause to be inapplicable to authorities that govern disposal of DoW real property and personal property. The Secretary concerned may authorize a contract for utility services to have a term more than 10 years, but not to exceed 50 years. The determination of cost effectiveness must be made using a business case analysis that includes an independent estimate of the level of investment that should be required to maintain adequate operation of the utility system over the proposed term of the contract or contract renewal. The business case analysis must also demonstrate how a privatized system will operate in a manner consistent with energy resilience and cybersecurity requirements and associated metrics provided to the conveyee to ensure that the reliability of the utility system meets mission requirements.

10.2.2. Reduction in Charges. A reduction in charges for utility services provided is acceptable consideration when the services are provided by the utility or entity obtaining the utility, and the reduction in charges is provided to the military installation at which the utility system is located at the time of conveyance. In such circumstances, a reduction in charges for utility services provided is an exchange of dissimilar assets that does not result in a credit to an appropriation. The consideration (reduction) in such an exchange is considered an "Other Asset" (Account 199000), and the recorded asset is reduced by charges to "Operating Expenses/Program Costs" (Account 610000) over the life of the contract for utility services. Corresponding asset disposal losses must be recognized as described in Volume 4.

10.2.3. Lump Sum Payment – Refer to the Volume 12 Supplemental.

10.3 Conveyance Authorization and Agenda

10.3.1. Same Utility Service Procurements. Before utility conveyance proceeds may be used to procure the same utility services as those provided by the utility system conveyed, the organization receiving the funds must submit the proposed distribution of funds to Assistant Secretaries of the Military Departments' Financial Management and Comptroller (FM&C) for approval. The FM&C must notify the supporting DFAS site of approved funds distributions.

10.3.2. Savings and Conservation Projects and Improvements. Refer to the Volume 12 Supplemental.

11.0 ENERGY AND WATER SAVINGS AND REVENUE MANAGEMENT

11.1 Financial Management Policy, Incentives, and Revenues

The Congress has enacted a series of measures aimed at strengthening energy and water security, resilience, and sustainability within the DoW. This section establishes the financial management policy for identifying, retaining, and utilizing energy and water cost savings, as well as financial incentives and revenues derived from the sale of electricity. It provides comprehensive guidance on the receipt and use of utility incentives and water cost savings for conservation efforts; the availability and application of energy cost savings; the implementation of energy savings contracts and related activities; the sale of electricity generated from alternative energy and cogeneration facilities; and DoW participation in programs designed to manage energy demand or reduce energy consumption during peak periods. Refer to the Volume 12 Supplemental for more detailed steps and procedures.

11.2 Energy Savings and Incentives Received from Utilities

11.2.1. Extended Availability from Energy Savings. Energy savings amounts with extended availability must be transferred to extended availability accounts for execution.

11.2.1.1. An extended availability account must be established for each appropriation for which energy cost savings have been identified and for which a period of extended availability is established.

11.2.1.2. Transfers to extended availability accounts must be made by a SF 1151, "Nonexpenditure Transfer Authorization," or other authorized Service-specific method that incorporates all SF 1151 requirements (refer to Volume 14). Reprogramming actions will not be required in the case of such transfers.

11.2.1.3. The level that uses the accounts, such as the command, installation, Military Department, Defense Agency, and/or OSW level Accounting, must establish appropriate controls, and oversight for amounts in extended availability accounts to optimize funds executability.

11.2.2. Financial Incentives - Refer to the Volume 12 Supplemental.

11.3 Revenues from the Sale of Electricity

Refer to the Volume 12 Supplemental for Sale of Electricity; Use of Proceeds from the Sale of Electricity; and Congressional Notification.

11.4 Budgeting and Energy Savings on Utility Payments

Each military department must include the portion of the guaranteed savings due to the contractor for payment under an Energy Savings Performance Contract (ESPC) or to the utility for payment under an Utility Energy Service Contract (UESC) in its utility requirements submitted in budget requests for the length of the ESPC or UESC entered by that military department. The total utility requirements submitted as part of budget requests must include the entire amount of guaranteed savings provided in an ESPC or performance assurance savings provided in an UESC, including amounts for contract payments and amounts to be retained by installations. The total of the amounts requested must not exceed those that would have been requested in the absence of the

ESPC. The Secretary concerned, or designee, must specify the procedures for identification of such amounts by installations, facilities, or operating locations at which ESPCs or UESCs for that military department are in existence. In accordance with the OMB Circular No. A-11, Appendix B, "Budgetary Treatment of Lease-Purchases and Leases of Capital Assets," the costs of ESPCs may be scored on an annual basis, consistent with the guidance provided in OMB Memorandum M-98-13, "Federal Use of Energy Savings Performance Contracting," and OMB Memorandum M-12-21, "Addendum to OMB Memorandum M-98-13 on Federal Use of Energy Savings Performance Contracts and Utility Energy Service Contracts."

11.5 Use of Balances Available Resulting from Energy Cost Savings

Refer to the Volume 12 Supplemental.

11.6 Accounting for Energy Cost Savings

11.6.1. 10 U.S.C. § 2912. The energy cost savings amounts realized in accordance with 10 U.S.C. § 2912 remain as unobligated balances available for obligation at the end of the fiscal year and the succeeding fiscal year.

11.6.2. Unobligated Balance Transfers. Unobligated balances covered by subparagraph 11.6.1 must be transferred to extended availability accounts on an SF 1151 or other authorized Service-specific method that incorporates all SF 1151 requirements (see subparagraph 11.1.1). The authority and policy to be cited for the transfer is 10 U.S.C. § 2912(e).

11.6.2.1. The SecWar may transfer amounts that remain available for obligation to other funding accounts of the DoW if the purpose for which such amounts will be used is specified in the Volume 12 Supplemental.

11.6.2.2. Amounts transferred to a funding account of the Department under subparagraph 11.5.2.1 will be available for obligation for the same period as amounts in that account.

11.6.2.3. At the end of each fiscal year, the SecWar must submit to Congress a report detailing any funds transferred pursuant to subparagraph 11.5.2.1 during that fiscal year, including a detailed description of the purpose for which such amounts have been used.

12.0 FISCAL POLICY FOR BASE CLOSURE AND REALIGNMENT

12.1 Policy

DoW Components are responsible for implementing all base closure and realignment action including preparation of an economic analysis in accordance with Volume 2, and must administer the allocations of base closure funds. DoW Components are to deposit the proceeds in the appropriate account authorized by law. If transfer funds were deposited into the wrong account, a suspense account, or other interim account, an SF 1080, "Voucher for Transfers Between Appropriations and/or Funds," must be used to transfer funds to the proper account. Refer to the Procedures document for: DoW Base Closure Account 1990 and DoW Base Closure

Account 2005; DoW Overseas Military Facility Investment Recovery Account; and Reserve Account.

12.2 Budget and Accounting Responsibilities

12.2.1. Requests for Funds

12.2.1.1. DoW Components DoW Base Closure Account Financial Plan. The Military Departments and Defense Agencies, in cooperation with, and at the direction of, the USW for A&S or designee, the Director, OSW Base Realignment and Closure (BRAC) Office, must submit a financial plan to the Director, Military Personnel and Construction, OUSW(C), Program/Budget (P/B), supported by a "DoW Base Closure Account Financial Plan," (Format 460-BC), to request allocations of base closure funds. Refer to the Volume 12 Supplemental for more information. Host DoD Components are responsible for coordination with all affected tenant activities, including Defense Agencies, Defense Medical Facilities Office, Reserve Components, and nonappropriated fund activities. Tenant activities must identify specific base closure program requirements to their host DoD Component.

12.2.1.2. Director, Military Personnel and Construction. This office must initiate the SF 132, "Apportionment and Reapportionment Schedule," for the appropriate base closure account for submission to the OMB for its approval.

12.2.2. Funds Distribution

12.2.2.1. Director, Military Personnel and Construction. Upon OMB approval of the SF 132 for the base closure account, this office must provide a Fund Authorization Document to the applicable component for recording in the agency-level accounting records.

12.2.2.2. Director, Defense Finance and Accounting Service. The Director of DFAS must obtain and record, in the departmental-level accounting records, a Financial Management Service 6200, "Appropriation Warrant," for the base closure accounts. Refer to the Exhibit in the Volume 12 Supplemental.

12.2.3. Plan Execution - Refer to the Volume 12 Supplemental.

12.3 Reporting Responsibilities

12.3.1. DoW Components. The DoW Components must prepare and submit reports to the appropriate DFAS site on the status of its allotments. At a minimum, these reports must offer detail for each subaccount specified in a Fund Authorization document provided by OSW (refer to the Volume 12 Supplemental). Submit these reports in accordance with a schedule of due dates to be provided by the DFAS.

12.3.2. Defense Finance and Accounting Service. DFAS must establish base closure accounts with the Treasury and manage associated transactions, such as posting SF 1151 "Nonexpenditure Transfer Authorizations." This function also requires the preparation of various

departmental-level reports, including appropriation and fund status reports as mandated by Volume 6, and Chief Financial Officer (CFO) reports for all base closure accounts. Additionally, it involves offering the consolidation of financial reports to produce Treasury Index 97 financial reports on a pass-through basis. This guidance can be supplemented with additional procedures as necessary, subject to the approval of OUSW(C).

12.4 Administration of Base Closure Funds

12.4.1. Appropriated Fund Activities. Expenses, losses, or other events occurring at an appropriated fund activity as a direct result of a DoW base closure action, which result in a cash outlay, are eligible for reimbursement from the applicable DoW Base Closure Account. Expenses, losses, or other events not resulting in a cash outlay by an appropriated fund activity are not eligible for reimbursement. Expenses, losses, or other events that result in a cash outlay (vice expenses, losses, or other events that do not result in a cash outlay) are dependent largely upon the unique circumstances in existence at a particular activity subject to closure. Refer to the Volume 12 Supplemental for general guidance on Expenses that Ordinarily Result in a Cash Outlay and Losses that Do Not Ordinarily Result in a Cash Outlay.

12.4.2. Disposition of DoW Base Closure Assets - Refer to the Volume 12 Supplemental.

13.0 TRANSFERRING, DISPOSING, AND LEASING OF REAL PROPERTY AND PERSONAL PROPERTY

This section provides financial policy for the disposal, transfer, and leasing of real property, as well as the transfer and lease of personal property. Financial policy for the disposal of personal property is addressed in Volume 11.

13.1 Policy

Leases: Non-excess Property and Personal Property. The Secretary of a Military Department may lease non-excess real and personal property under its control that is not needed for a public use for the time that it is leased in accordance with 10 U.S.C. § 2667. 10 U.S.C. § 2667 provides the same authority to the SecWar with respect to property under the control of a Defense Agency. Throughout this section and the corresponding section in the Supplemental, the term "Secretary concerned" will mean the Secretary of a Military Department, with respect to matters concerning that Military Department; and the SecWar, with respect to matters concerning the OSW Components of Defense Field Activities. Refer to the Volume 12 Supplemental.

13.2 Reporting Requirements to Congress

Refer to the Volume 12 Supplemental

14.0 EDUCATIONAL ASSISTANCE PROGRAMS

14.1 Overview of Educational Assistance Programs

The DoW provides several Educational Assistance Programs that establish a legally binding entitlement for eligible individuals, including active-duty service members, reservists, survivors, and their dependents. These programs serve the dual purpose of aiding in military recruitment and retention while also facilitating the readjustment of service members to civilian life and providing educational support for their families. While the authorization of these entitlements constitutes a binding contract with the Federal Government, it may require a separate, subsequent appropriation of funds. This section provides specific guidance on the financial operations, transaction recording, and accounting standards for managing these programs, and additional details can be found on the U.S. Department of Veterans Affairs (DVA) website.

14.1.1. Veterans' Education Assistance Program (Post-Vietnam). The Veterans' Education Assistance Program (VEAP) (38 U.S.C. § 3201) is an educational benefit for service members who entered service between January 1977 and June 1985. This program was terminated on April 1, 1987. However, the Services may be required to budget and submit payment for unfunded liabilities as determined by the DoW Board of Actuaries on a year-by-year basis.

14.1.2. Montgomery GI Bill – Active Duty. The Montgomery GI Bill – Active Duty (MGIB-AD) (38 U.S.C. Chapter 30), also known as "Chapter 30," provides education benefits to veterans and service members who have met the minimum requirements of their obligated period of active duty. Refer to the Volume 12 Supplemental for Eligibility Requirements; Benefits; and Budget Submission Guidance.

14.1.3. Montgomery GI Bill – Selected Reserve. The Montgomery GI Bill Selected Reserve (MGIB-SR) 10 U.S.C. Chapter 1606 program offers up to 36 months of education and training benefits. Refer to 10 U.S.C. § 16132(a). Refer to the Volume 12 Supplemental for Eligibility Requirements; Period of Entitlement; Benefits; and Budget Submission Guidance.

14.1.4. Post-9/11 GI Bill. The Post-9/11 GI Bill (38 U.S.C. Chapter 33) provides education and job training to qualifying Veterans or members of the Armed Forces who served on active duty after September 10, 2001, and have met the minimum requirements of their obligated period of active duty. The DVA funds the Post-9/11 GI Bill. Such members are also entitled to transfer the Kicker of this benefit to a spouse or dependent children if conditions to transfer the basic benefit are met. Refer to the Volume 12 Supplemental for Eligibility; Benefits; and Budget Submission Guidance.

14.2 Funding for Educational Assistance Programs

The Veterans Educational Assistance Act of 1984 established a trust fund to finance DoW education liabilities on an actuarially sound basis. The DoW Education Benefits Fund (EBF) is a trust fund used to accumulate funds for transfer to the DVA to cover the DoW share of benefits. The DoW funds the MGIB-AD benefits, the MGIB-SR basic and Kicker benefits, and the VEAP benefits. The DoW Office of the Actuary performs actuarial valuations and provides actuarial

support and expertise for the EBF. Refer to the Education Benefits Valuation Report, which is updated annually. Refer to the Volume 12 Supplemental for more information and guidance on the fund; payments; transfers; deposits; and Table 14-1 for Active-Duty Critical Skill "Kicker" benefits.

14.3 Fund Transfers of Military Personnel Appropriations

Refer to the Volume 12 Supplemental.

14.4 Payroll Deductions

Refer to the Volume 12 Supplemental.

14.5 Refunds or Erroneous Deductions from Active-Duty Members

Refer to the Volume 12 Supplemental.

14.6 Collection of Educational Debts Owed to the Government by Selected Reserve

Refer to the Volume 12 Supplemental.

15.0 MILITARY PERSONNEL ENTITLEMENT PROGRAMS

Entitlement Programs are legally established benefits available to any person or unit of government meeting eligibility requirements established by law. Authorizations for entitlements constitute a binding obligation on the part of the Federal Government, and eligible recipients may have legal recourse if the obligation is not fulfilled. Legislation authorizing entitlements does not necessarily include a corresponding appropriation of funds, thus subsequent enactment of appropriations may be necessary. This section prescribes the accounting policy for three entitlement programs established for DoW military personnel. The entitlement programs are the MRF, the Medicare-Eligible Retiree Health Care Fund (MERHCF), and the Voluntary Separation Incentive Fund.

15.1 General Accounting Policy for Entitlement Programs

15.1.1. Payment of Benefits. Entitlement programs are divided into three categories according to the events that give rise to benefit payments: payments based on individual eligibility, payments required by law, and reimbursable events. These categories are accounted for as follows:

15.1.1.1. Individual Eligibility. When the program is administered by a federal agency, entitlement benefits based on individuals meeting eligibility requirements of a program must be recorded as a liability and an expense when the eligibility requirements are met (as determined by program officials). The recorded liability and expense must cover all expected payments for the current period of eligibility. Payments to recipients reduce the recorded liability.

15.1.1.2. Compliance with Statutory Laws. When payments are authorized (through appropriation and allotment of funds) for disbursement pursuant to legal requirements with no

specific action required of the recipients, a liability and expense must be recorded when the appropriated funds are allotted to the applicable program. The recorded liability and expense must cover the total amount to be disbursed. As payments are made, the liability must be reduced.

15.1.1.3. Reimbursable Events. When payments are based on the occurrence of a specific event for which costs are reimbursable under an entitlement program, a liability must be recorded when the event occurs. If the reimbursement is based on end-of-period reports from program administrators, an estimated amount must be accrued at the end of a reporting period.

15.1.2. Identifiable Refunds. When the expense for payments made under an entitlement program exceeds the appropriation (permissible for certain programs under special statutory authority), the source of the related funds must be clearly identified. If the funds were borrowed, the appropriate liability account must be established.

15.1.3. Suspension of Payments. When substantiated doubt exists on the continued entitlement of a military retiree or annuitant to receive benefit payments and payments on an account are suspended, the DFAS must cease obligating on the subject account for retired pay, retainer pay, or annuitant benefits. Previously obligated amounts must be deobligated to the extent of recoveries on previous payments or amounts held in a suspense account. Although this procedure is directed primarily at suspected death status accounts, it applies equally to other situations that may terminate entitlement. Examples of other situations include (but are not limited to) employment by a foreign government, renouncing U.S. citizenship, remarriage of a surviving spouse, and certain student annuitants dropping out of school.

15.2 Military Retirement Fund

15.2.1. Overview of the Military Retirement Fund

The Military Retirement Fund (MRF) is a statutory trust fund established under 10 U.S.C. §§ 1461–1467 to finance, on an actuarially reasonable basis, the Department of Defense (DoD) and the Coast Guard liabilities for military retired pay and survivor benefit programs. The MRF constitutes an entitlement authority under 2 U.S.C. § 622(9). Authorization of these entitlements represents a binding obligation of the Federal Government and may require subsequent appropriations. This section prescribes the accounting policy applicable to the MRF. Additional statutory and programmatic details are available from the DoD Office of the Actuary (OACT) and the DoD Agency Financial Report.

15.2.2. Military Retirement Fund Structure.

The MRF finances retired pay and survivor benefit liabilities through normal cost contributions, Treasury contributions for unfunded liabilities, and interest earnings on its investments in Treasury securities. The DoD Board of Actuaries approves the actuarial methods and assumptions used to determine the required contributions.

15.2.3. Funding for the Military Retirement Fund

The MRF is financed through normal cost contributions—a combination of accrual payments from DoD's Military Personnel, Reserve Personnel, and National Guard Personnel appropriations, combined with payments from Treasury to finance concurrent receipt—along with Treasury contributions for unfunded liabilities and interest earnings on investments in Treasury securities. The DoD Office of the Actuary, under the direction and oversight of the DoD Board of Actuaries, performs actuarial valuations and determines contribution requirements to ensure the fund balance remains actuarially reasonable.

15.2.4. Normal Cost Contributions

Funds the present value of future pension benefits accrued during the year. Amounts payable to the MRF must be determined using actuarial methods and assumptions approved by the DoD Board of Actuaries. These contributions consist of accruing cost payments from DoD and contributions from Treasury to finance concurrent receipt. DoD Components must include sufficient funds in MILPERS budgets to meet their required contributions.

15.2.5. Unfunded Liability Contributions

Treasury contributions for unfunded liabilities must be determined using actuarial methods approved by the DoD Board of Actuaries and deposited to the MRF in accordance with statutory requirements.

15.2.6. Investment of Fund Balances

MRF balances not needed for current payments must be invested in Treasury securities, consistent with 10 U.S.C. § 1467.

15.2.7. Accounting Requirements

Liabilities must be recorded consistent with federal accounting standards, including SFFAS 5 and SFFAS 33. DFAS must prepare trust fund financial statements in accordance with Volume 6A.

15.2.8. Administrative and Operational Requirements

Additional guidance on accrual calculations, obligations, transfers, investment workflows, and reporting requirements is contained in the Volume 12 Supplemental

15.3 Medicare-Eligible Retiree Health Care Fund

15.3.1. MERHCF Purpose

Overview of the Medicare-Eligible Retiree Health Care Fund

The Medicare-Eligible Retiree Health Care Fund (MERHCF) is a statutory trust fund established under 10 U.S.C. §§ 1111–1117 to finance, on an actuarially reasonable basis, uniformed services retiree health care liabilities for Medicare-eligible beneficiaries, including

dependents and survivors. MERHCF constitutes an entitlement authority under 2 U.S.C. § 622(9). Authorization of these entitlements represents a binding obligation of the Federal Government and may require subsequent appropriations. This section prescribes the accounting policy applicable to MERHCF. Additional statutory and programmatic details are available from the DoD Office of the Actuary (OACT) and the DoD Agency Financial Report.

15.3.2. MERHCF Structure - MERHCF finances Medicare-eligible retiree health care liabilities through normal cost contributions, Treasury contributions for unfunded liabilities, and interest earnings on investments in Treasury securities. The DoD Medicare-Eligible Retiree Health Care (MERHC) Board of Actuaries approves the actuarial methods and assumptions used to determine required contributions.

15.3.3. Funding for the Medicare-Eligible Retiree Health Care Fund

MERHCF is financed through normal cost contributions from Military Personnel, Reserve Personnel, and National Guard Personnel appropriations; Treasury contributions for unfunded liabilities; and interest earnings on investments in Treasury securities. The DoD Office of the Actuary, under the direction an oversight of the DoD MERHC Board of Actuaries, performs actuarial valuations and determines contribution requirements to ensure the fund remains actuarially reasonable.

15.3.3.1. Normal Cost Contributions - Normal cost contributions must be based on per-capita rates developed by the DoD Office of the Actuary and approved by the DoD MERHC Board of Actuaries. DoD Components must include sufficient funds in MILPERS budgets to meet required contribution levels.

15.3.3.2. Unfunded Liability Contributions - Treasury contributions for unfunded liabilities must be determined using actuarial methods approved by the DoD MERHC Board of Actuaries and deposited to MERHCF in accordance with statutory requirements.

15.3.3.3. Investment of Fund Balances - MERHCF balances not needed for current payments must be invested in Treasury securities, consistent with 10 U.S.C. § 1113.

15.3.3.4. Accounting Requirements - Liabilities must be recorded consistent with federal accounting standards, including SFFAS 5 and SFFAS 33. DFAS must prepare trust fund financial statements in accordance with Volume 6A.

15.3.4. Administrative and Operational Requirements

Additional guidance on accrual calculations, obligations, transfers, reimbursements, investment workflows, and reporting requirements is contained in the Volume 12 Supplemental.

15.3.5. Responsibilities

15.3.5.1. Assistant Secretary of War for Health Affairs (ASW(HA)). Approves and issues procedures for the management and operation of MERHCF and provides guidance and operational direction to the Defense Health Agency (DHA).

15.3.5.2. Director, DHA. Implements DoW policy for MERHCF, directs reviews of legislative changes for potential impacts, and oversees execution reviews.

15.3.5.3. Department of War Medicare-Eligible Retiree Health Care Board of Actuaries. Provides advice on actuarial matters, reviews actuarial valuations of MERHCF, and reports annually on its actuarial status to the Secretary of War, and not less than once every four years (quadrennial report), to the President and Congress.

15.3.5.4. Chief Actuary, DoW Office of the Actuary. The DoW Office of the Actuary (OATC), Chief Actuary, reports on the actuarial status of MERHCF, provides cost estimates to OMB and participating Services, and reviews legislative changes for actuarial impact.

15.3.5.5. USW(C). The USW(C) prepares the total unfunded liability amortization payment plus the total normal cost contribution for certification by the Secretary of War to the Secretary of the Treasury.

15.3.5.6. Director, DFAS. Manages MERHCF's investments, establishes the necessary accounts, develops financial management processes, performs accounting, reports financial activities for required financial statements, and supports financial audits.

15.3.5.7. Secretaries of the Military Departments. Provide personnel data as requested and conduct all fund transfers, accounting, reconciliation, and other administration relating to the operation of MERHCF.

15.3.5.8. Administering Secretaries for the Participating Uniformed Services. The Administering Secretaries for the participating Uniformed Services include the Secretary of Homeland Security (for USCG) and the Secretary of Health and Human Services for PHS and NOAA. The Administering Secretaries for the participating Uniformed Services calculate and transfer their normal cost contributions to MERHCF and provide personnel data as requested.

15.3.6. MERHCF Accounts

The DoW MERHCF (097X5472, "Department of War, Medicare-Eligible Retiree Health Care Fund") is classified as a Special Fund and uses specific receipt, expenditure, and investment accounts. Amounts deposited are immediately available for investment, payment of benefits, and administrative costs. DFAS is responsible for making amounts available from the fund to cover all qualifying expenses.

15.3.7. MERHCF Assets

15.3.7.1. Contributions. Payment from DoW appropriations and other uniformed services (USCG, NOAA, and PHS), and the Treasury to fund future benefits.

15.3.7.2. Unfunded Actuarial Liability Payment. Payments from a permanent indefinite general fund appropriation, 097X0850, to fund future benefits payable from MERHCF attributable to service rendered prior to October 1, 2002 (i.e., the unfunded actuarial liability), and to cover actuarial gains and losses.

15.3.7.3. Investment Income. Income earned on the invested portion of the fund.

15.3.7.4. Return of Prospective Payment Transfers. Amounts returned to the fund that were previously transferred but found to be in excess of what was needed.

15.3.8. Accounting for MERHCF Revenues

DFAS records investment earnings. All contributions from DoW, other uniformed services, and the Treasury must be based on determinations by the DoW OACT under methods approved by the DoW MERHCF Board. Prior to each fiscal year, the Secretary of War shall certify the amortization payment and normal cost contributions due to the fund.

15.3.9. Reimbursements of Medicare-Eligible Retiree Health Care

The Fiscal Year 2005 National Defense Authorization Act provides permanent, indefinite appropriations from the Treasury to finance the cost of Medicare-Eligible Retiree Health Care (MERHC) accruals beginning in fiscal year 2006, rather than from MILPERS annual appropriations. Therefore, the per capita normal cost for MERHC accruals is not billable to other DoW Agencies or Federal Agencies. However, under 22 U.S.C. § 2761(a)(1)(C) of the Arms Export Control Act, these costs must be included in the rate billed to foreign countries or international organizations for the sale of defense services. These reimbursements must be deposited into the Treasury Miscellaneous Receipts account 304100.

15.3.10. Investment of MERHCF Cash Balances

DFAS is responsible for investing cash balances of MERHCF not required to meet current withdrawals. Investments are limited to Market-Based U.S. Government Special Securities issued by the Treasury. The income on such investments must be credited to receipt account 097X5472.002, "Earnings on Investments, DoW Medicare-Eligible Retiree Health Care Fund," and form a part of MERHCF.

15.3.11. Accounting for MERHCF Outlays

15.3.11.1. DFAS must make amounts available from the fund for payment of qualifying expenses. These expenses fall into two categories:

15.3.11.1.1. Purchased Care. Healthcare purchased from non-DoW providers.

15.3.11.1.2. Direct Care. Healthcare services provided to Medicare-eligible beneficiaries directly in DHA MTFs.

15.3.11.2. DHA determines the annual prospective payment amounts required from the fund for these categories. These amounts are based on the estimated costs of providing services to Medicare-eligible beneficiaries. Throughout the year of execution, an execution review is conducted to compare prospective payments against the earnings from the actual care provided. An established 10% variance threshold governs this reconciliation. Variances falling within this +/- 10% threshold are mutually waived. For variances that exceed the threshold, only the amount of the variance in excess of the 10% band is reconciled through adjustments to future prospective payment calculations. The results of this review are used to inform future fund requirements, and funds determined to be in excess of requirements may be returned to the MERHCF in accordance with 10 U.S.C. § 1113.

15.3.12. MERHCF Financial Reporting Requirements

DFAS is responsible for preparing all required financial reports for MERHCF, including the SF 133 (Report on Budget Execution and Budgetary Resources), the Status of Funds report, and all Federal financial statements as required by OMB Circular No. A-136 to support the DoW Agency-wide financial statements. The financial statements must recognize a liability for the present value of future MERHC benefits for eligible participants.

15.4 Voluntary Separation Incentive Fund

15.4.1. Overview of the Voluntary Separation Incentive Fund

15.4.1.1. The Voluntary Separation Incentive (VSI) Fund was established under Section 662 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Public Law 102-190) to finance VSI payments on an actuarially reasonable basis. VSI provides annual payments to eligible active-duty Service members with more than six but fewer than 20 years of service who voluntarily separate during authorized force-shaping periods. Authorization of these benefits constitutes a binding obligation of the Federal Government and may require subsequent appropriations. This section prescribes the accounting policy applicable to the VSI Fund. Additional statutory and programmatic details are available from the Department of Defense Office of the Actuary (OACT).

15.4.1.2 VSI Benefit Structure - VSI payments are annual installments paid for twice the number of years of active service. The DoD Board of Actuaries determines actuarial assumptions and required amortization payments to ensure the VSI Fund remains actuarially reasonable using OACT as the operational organization performing the calculations.

15.4.2. Funding for the VSI Fund

The VSI Fund finances VSI liabilities through amortization payments and interest earnings on Treasury securities. The DoD Office of the Actuary performs an annual actuarial valuation and determines the required amortization amount to ensure the fund remains actuarially reasonable.

15.4.2.1 Amortization Payments - DoD Components must include sufficient funds in Military Personnel appropriations to make required amortization payments to the VSI Fund. Amortization amounts must be determined using actuarial methods and assumptions set by the DoD Board of Actuaries and must be obligated and transferred consistent with statutory requirements.

15.4.2.2 Investment of Fund Balances - VSI Fund balances not needed for current payments must be invested in Treasury securities, consistent with statutory requirements governing DoD trust funds. Interest earnings must be credited to the VSI Fund and used to finance future benefit liabilities.

15.4.2.3 Accounting Requirements - Liabilities must be recorded consistent with federal accounting standards, including SFFAS 5 and SFFAS 33. DFAS must prepare trust fund financial statements for the VSI Fund in accordance with Volume 6A.

15.4.3. Administrative and Operational Requirements

Additional guidance on amortization payments, investment workflows, and reporting requirements is contained in the Volume 7 Military Pay Policy.

16.0 DOW REWARDS PROGRAM

16.1 Responsibilities

Refer to the Volume 12 Supplemental.

16.2 Implementing the Program in the Field

16.2.1. Rewardable Information. Eligible persons may receive a reward for providing information or non-lethal assistance that benefits (1) an operational activity of U.S. or allied forces in combined operations against international terrorism outside the U.S. or (2) force protection of U.S. or allied forces in combined operations.

16.2.2. Payment Approval Amounts. Tactical Rewards Officers can authorize rewards up to $10,000. A Combatant Commander (CCDR) is permitted to approve rewards up to $1,000,000. For rewards greater than $1,000,000 and up to $2,000,000, approval from the USW Policy (USW(P)) is necessary. Rewards exceeding $2,000,000 but not surpassing $5,000,000 require the authorization of the SecWar or the Deputy SecWar, or, through a separate written delegation, the USW(P). Statutorily, if any proposed reward (whether pre-approved or otherwise) exceeds $2,000,000, consultation with the Secretary of State is mandated for the SecWar. Table 1 in DoDI O-3000.13 outlines these approval limits. Refer to the Volume 12 Supplemental for further

guidance on approving officials; approval level; rewards lists; payments; coordination; and requests for additional funds.

16.3 Policy

16.3.1. Allocation of Funds. The USW(C)/CFO will ensure DoW funds for the Rewards Program (RP) are correctly allocated to WHS for control and execution. Geographic combatant commanders will inform the Director, Joint Staff of any necessary inter-theater fund allocations.

16.3.2. Improper Usage of Funds. U.S. citizens, officers or employees of the U.S. federal, state, or local government, or employees of a U.S. Government contractor are not eligible for rewards under the DoW RP. CCDRs should be cautious about rewarding foreign security force members due to potential risks such as extortion, corruption, negative perceptions, or undermining U.S. law or DoW human rights policies related to training and equipping foreign security forces. The USW(P) can grant exceptions to this rule for specific countries and will review these waivers annually. Requests for such approvals should be directed to the Assistant Secretary of War for Special Operations/Low-Intensity Conflict (ASW SO/LIC). Previously approved waivers remained valid under this guidance.

16.3.3. Delivery, Transporting and Safeguarding of Funds. Any funds made available for the DoW RP will be delivered, transported, and safeguarded consistent with Volume 5.

16.3.4. Appointment of Paying Agents. The Disbursing Officer will appoint Paying Agents responsible for delivering funds under the DoW RP in accordance with Volume 5. Allied forces members will receive the same training as U.S. paying agents and sign a statement of understanding. Since the DoW cannot hold foreign nationals and other non-U.S. citizens pecuniarily liable for fund losses, the appointing authority must carefully consider the necessity and risk when appointing them as paying agents. The responsible agent must record all funds given to and returned by allied forces paying agents on DD Form 1081, "Statement of Agent's Officer's Account," as specified in Volume 5. Upon completing authorized payments, the paying agent must return the paid vouchers, negotiable instruments, and any remaining funds to the disbursing officer along with a properly filled out DD Form 1081.

16.3.5. Documentation of Payments. DoW RP payments will be executed and recorded in accordance with Volume 5 and Volume 10.

16.3.6. Circumventing Limits. The DoW prohibits circumventing monetary limits and approval requirements by dividing a single reward into multiple smaller rewards or by other methods. However, the DoW allows splitting payments of approved expenses for administrative purposes (for instance, paying a vendor 50 percent at the start of a project and the remaining 50 percent upon completion).

16.3.7. Clearance of Accounts. The DoW Component must clear accounts maintained under the RP consistent with Volume 5.

16.3.8. Certification of Payments. Payments made under the DoW RP will be certified in a manner consistent with Volume 5.

16.3.9. Audits and Program Reviews. The DoW RP will undergo periodic audits by internal bodies like the DoW Inspector General and other audit agencies, as well as external groups such as the Government Accountability Office and congressional oversight committees. Officials managing the RP must cooperate fully with these reviews, audits, or investigations.

16.4 Payments and Rewards through Government Personnel of Allied Forces

Execution of Rewards through Allied Government Personnel. The SecWar, geographic combatant commanders, and all delegated officials may use their authorities to offer and make rewards, acting through government personnel of allied forces. However, they may not pay rewards through allied government officials after the payment date authorized by 10 U.S.C. § 127b. Refer to the Volume 12 Supplemental for information on payment requests; appointments of paying agents; and limitations.

16.5 Information Dissemination

Refer to the Volume 12 Supplemental.

16.6 Reports and Notifications

16.6.1. Annual Report. According to 10 U.S.C. § 127b, by February 1 each year, the SecWar must report to the Senate and House Armed Services Committees on the administration of the RP for the previous fiscal year. Refer to the Volume 12 Supplemental.

16.6.2. Report on Designation of Countries for which Rewards may be Paid. Within 15 days of designating a country for operations or activities eligible for rewards under this section, the SecWar must report to the Senate and House Armed Services Committees. Refer to the Volume 12 Supplemental.

16.7 Waivers

16.7.1. Requests for Waivers or Exceptions to Law. A DoW Component must submit requests for waivers or exceptions to any provision of law that would otherwise prohibit, restrict, limit, or constrain the execution of the reward program through ASW SO/LIC, the USW(C)/CFO, and DoW General Counsel to the SecWar for approval.

16.7.2. Requests for Waivers or Exceptions to Guidance. A DoW Component must submit requests for waivers or exceptions to this guidance through ASW SO/LIC to the USW(C)/CFO for approval.

17.0 FOOD SERVICE PROGRAM RESPONSIBILITIES

In accordance with 37 U.S.C. § 1011, the SecWar must establish meal rates for all personnel authorized to dine at military messes, including uniformed members, civilian employees, retirees, and their dependents. The OUSW(C) is responsible for the financial management policy herein and must establish these rates annually. The primary purpose of these rates is to ensure full reimbursement to the concerned appropriations for both food costs and operating expenses. However, the Secretary may reduce a meal rate by the amount attributable to operating expenses when the Secretary determines it is in the best interest of the United States. The policies in this section govern the specific meal charges for all classes of diners, and all DoW Components must implement them. DFAS is responsible for developing the necessary implementation procedures. DoW Components may not issue policies that supplement this guidance without prior written approval from the OUSW(C). The OUSW(C) publishes official rates on its reimbursable rates website.

17.1 Reimbursable Meals and Meal Service (Operating) Charges

The provisions of this section must be used to determine use of the DoW discount meal rate (the cost of the food only) or the DoW standard meal rate (the cost of both the food and the non-training/readiness food service operating expenses). Refer to the Volume 12 Supplemental for available meal services.

17.2 Meal Charges

Reimbursement charges for persons authorized to eat in an appropriated fund dining facility vary depending on the status of each person. Refer to the Volume 12 Supplemental for more information on the five major categories of personnel: officers; enlisted personnel; military dependents; Federal civilian employees; and others.

17.3 General Provisions

17.3.1. Personnel, Other Than Enlisted Personnel. Personnel, other than enlisted personnel, may receive a meal from an appropriated fund dining facility, provided no increase in direct resources results from feeding such personnel and appropriate meal charges are collected consistent with paragraph 17.2.

17.3.2. Commanding Officer Responsibility. The commanding officer of the DoW installation, at which an appropriated fund dining facility is located, is responsible for assuring that meals are provided only to authorized personnel within the capabilities and availability of existing appropriated fund dining facilities.

17.3.3. Temporary Duty Orders. Temporary duty orders must indicate the food allowance/per diem status of travelers to assist in determining the appropriate meal charge to be assessed.

17.3.4. Service Academies. Service academies (i.e., Army, Navy, and Air Force) are to use the food service charges contained within the DoW Reimbursable Rates, “Food Service Charges at Appropriated Fund Dining Facilities.

17.3.5. Civilian and Military Personnel of a Foreign Government. Civilian and military personnel of a foreign government must furnish meals in accordance with specific arrangements made between the U.S. Government and the foreign government. Charges for food costs and related food service operating expenses must be made on the same basis as they would be for U.S. Government personnel of equal rank.

17.4 Disposition of Funds

Each Military Service is responsible for the program, budget, and accounting for obligations, expenditures, revenues, and food service operating expenses and all meals in accordance with this section. Refer to the Volume 12 Supplemental for Recording; Collections; and Discounted and Standard Meal Rate Distribution.

17.5 Accounting for Food Allowances

17.5.1. Information Requirements. Information requirements have been established to ensure that data are maintained, and that information is reported for use in determining and administering food allowances. These requirements prescribe procedures for counting meals furnished to personnel in appropriated fund dining facilities under the daily food allowance and authorized reimbursable programs. They are designed to assist in monitoring food costs and allowances and making the accumulation of data more consistent throughout the Department under the Food Service Program established by DoDM 1338.10.

17.5.1.1. The recording and reporting of obligations/expenditures against the daily food allowance portion of the operations and maintenance appropriations are as set forth in Volumes 2 and 3.

17.5.1.2. The data reported must support budget requests based on furnishing meals to entitled enlisted personnel by each Military Service, after consideration of the absentee rate, without regard to the member's parent Military Service.

17.5.2. Counting the Number of Persons' Furnished Meals. Except for mass feeding situations as set forth in the Volume 12 Supplemental, all personnel authorized to eat in appropriated fund dining facilities must identify themselves with a meal card, DoW Common Access card, or travel orders issued by a DoW Component before receiving a meal from the dining facility. Enlisted personnel on Basic Allowance Subsistence or receiving the meal portion of per diem, as well as all officers, civilian employees, official visitors, dependents, and guests authorized to eat on a reimbursable basis, must be required to identify themselves as to the category of entitlement (authorized to eat on a reimbursable basis) and status (per diem or non-per diem). They must reimburse DoW at the appropriate meal rate before receiving a meal from an appropriated fund dining facility. Refer to the Volume 12 Supplemental for more information.

17.6 Food Service Operating Expense Reporting Requirements

The OUSW(C) P/B Office establishes meal rates annually for personnel authorized meals on a reimbursable basis. The Military Services are required, in coordination with OUSW(C), to report the cost of food served to service members and food service operating expenses.

18.0 MILITARY ACADEMY DINING HALL OPERATIONS

18.1 Policy

This section promulgates the policy that implements 37 U.S.C. § 422 which authorizes funding for the operation of cadet and midshipmen dining halls at the military academies and prescribes associated reporting requirements.

18.1.1. Authorization Determination: Each Military Department operates an academy dining hall to provide complete food service support to the cadets or midshipmen as an integral part of the activities of its academy.

18.1.1.1. The superintendent of each academy is authorized to determine who may be authorized to eat in the academy dining hall and the regulations incident thereto within guidelines issued by the secretary of the cognizant Military Department.

18.1.1.2. Charges for meals furnished to other than cadets and midshipmen will be established by the Under Secretary of War (Comptroller) (USW(C)) and the reimbursable rate for "Food Service" issued annually.

18.1.1.3. All collections for food costs must be deposited into the nonappropriated fund described in subparagraph 8.1.2.2. The charge for operating expenses will be collected and deposited under the same rules that are applicable to appropriated fund food service activities as prescribed by Section 17.

18.1.2. Subsistence Allowance Amount

18.1.2.1. The SecWar prescribes the amount of the subsistence allowance for cadets and midshipmen.

18.1.2.2. The amount prescribed is allocated by the Military Departments from the current military personnel appropriation to a nonappropriated fund at each academy based on the number of cadets and midshipmen present for training.

18.1.2.2.1. Each nonappropriated fund is used to procure the food and food products necessary to provide subsistence for the cadets and midshipmen.

18.1.2.2.2. Nonappropriated funds must be established as a NAFI and administered as a Program Group V – Supplemental Mission Fund in accordance with DoWI 1015.15.

18.1.2.2.3. The nonappropriated fund must be audited in accordance with DoWI 7600.06 if the annual revenues in the fund exceed the threshold established therein.

18.1.2.2.4. The nonappropriated fund must not be used for any purpose other than subsistence procurement. All other charges associated with dining service must be charged against appropriated funds.

18.1.3. Subsistence Allowance – Leave Status

The subsistence allowance that is not earned for any cadet or midshipman on leave or otherwise away from the academy, and not subsisted at Government expense, will be credited to the cadet/midshipman's pay account.

18.1.4. Subsistence Allowance – Temporary Duty Status

The subsistence allowance that is not earned for any cadet or midshipman on temporary duty, and subsistence-in-kind that is furnished at the temporary duty location, will not be collected by the nonappropriated fund.

18.2 Responsibilities and Reporting Requirements

18.2.1. Internal Control and Procurement Requirements. Under overall policy supervision by the secretary of the cognizant Military Department, the superintendent of each academy is responsible for:

18.2.1.1. Assuring the efficient and effective management of the academy dining hall and its NAF for the purchase of subsistence items. In connection with this responsibility, the superintendent must install an accrual accounting system that permits an objective, constructive evaluation of the dining hall operation.

18.2.1.2. Assuring that the procurement procedures maintain the same degree of integrity as those procurement actions taken in accordance with the Federal Acquisition Regulation (FAR). In the event any question arises regarding the proper procurement procedure, the FAR will be used as a guide.

18.2.2. Reporting Requirements. An annual report on meal operating expenses in the military academy dining halls should be submitted in accordance with the guidance contained in Volume 11.

18.3 Annual Reimbursable Rates

The annual reimbursable rates for military academy dining halls are located on the USW(C) public website, listed by Fiscal Year (FY) under the following headings: Financial Management, Reports, DoW Reimbursable Rates.

19.0 FINANCIAL MANAGEMENT FOR DEFENSE HEALTH PROGRAM RESOURCES

19.1 General

19.1.1. The Defense Health Program (DHP) appropriation (Treasury Federal Account Symbols and Titles (FAST) 0970130) funds medical operations of the Defense Health Agency (DHA) and the Uniformed Services University of the Health Sciences (USUHS); and consists of Operation and Maintenance (O&M), RDT&E, and Procurement funds.

19.1.2. The DHP does not fund military medical personnel costs or operational healthcare for field/numbered medical units, hospital ships, and shipboard medical operations. Funding for operational healthcare remains the responsibility of the Military Departments.

19.1.3. Military Construction (MILCON) is a separate appropriation, however, the Assistant Secretary of War for Health Affairs (ASW(HA)) executes and reports on MILCON for medical facilities as part of DHP's financial statements.

19.2 Responsibilities

19.2.1. The ASW(HA) is the DHP funds holder. ASW(HA) allots budget authority, issues execution policy, develops the Unified Medical Program, and enters into reimbursable agreements with other federal agencies. The ASW(HA) exercises authority, direction, and control over the DHA and USUHS, and any other subordinate officials that may be assigned.

19.2.2. The Deputy Assistant Secretary of War, Health Resources Management and Policy, serves as the DHP Senior Accountable Official, overseeing financial reporting, internal controls, and execution policy in accordance with all applicable laws and regulations.

19.2.3. Military Departments and Combatant Commands (CCMD) are responsible for engaging with ASW(HA) for the advance planning and coordination of mission expansions or force restructurings that result in increased demand on DHP resources. Changes that were not programmed for within the DHP may result in requirements being under-resourced. Military Departments and CCMDs will generally be responsible for transferring sufficient funds to the DHP to support increased demands on DHP healthcare resources, documented in a corresponding Memorandum of Agreement, and properly integrated by the DHP during normal programming cycles.

19.3 Expenses Chargeable to the DHP

See Volume 12 Supplemental Procedures for additional items.

19.3.1. Civilian Payroll. Civilian payroll for personnel assigned to DHA and USUHS.

19.3.2. Communications and Utilities. Charge DHP for telephone services and other communication services that support the medical mission. Charge DHP for utilities obtained from commercial sources and all base-produced utilities. Utilities include fuel for heating and cooling.

19.3.3. Immunizations Funded with DHP:

19.3.3.1. Routine Vaccines: These are vaccines required to maintain warfighters (including expeditionary civilians) in a "Fully Medically Ready" status, in accordance with DoDI 6025.19, ASW(HA) policy, and DHA immunizations guidance. All warfighters are required to have these vaccines regardless of deployment status.

19.3.3.2. Directed (Pre-Deployment): These are vaccines directed by CCMDs and approved by ASW(HA) for an imminent deployment.

19.3.3.3. Immunizations for PCS: Vaccines required and approved by ASW(HA) for entry into a specific geographic Area of Responsibility (AOR) will be provided to warfighters and their eligible dependents.

19.3.3.4. Immunizations for Leisure Travel: Provided at no cost to Service members/ dependents. Provided on a reimbursable basis to civilian employees.

19.3.3.5. Immunizations for the Activated and Inactivated Reserve Component (RC): Effective FY 2027, RC Service members may obtain those vaccines required to maintain their “Fully Medically Ready” status, in accordance with DoDI 6025.19, ASW(HA) policy, and DHA immunizations guidance. MTFs must provide the vaccines on a non-reimbursable basis.

19.3.4. Autopsies and Forensic Pathology Investigations. The Armed Forces Medical Examiner, funded through the DHP appropriation, conducts autopsies and forensic pathology investigations under the authority of 10 U.S.C. § 1471 and in accordance with DoDI 5154.30.

19.3.5. TRICARE Contracts. 10 U.S.C. § 1079 authorizes TRICARE contracts for spouses’ and children’s medical care; 10 U.S.C. § 1086 authorizes health benefits for certain members, former members, and their dependents; 10 U.S.C. § 1097 authorizes medical care for retirees, dependents, and survivors (alternative delivery of healthcare). 10 U.S.C. § 1092 authorizes studies and demonstration projects relating to the delivery of health and medical care.

19.3.6. Sustainment, Restoration, and Modernization (SRM). SRM of DHA MTFs and USUHS.

19.3.7. Healthcare Services Contracts. Personal and non-personal healthcare service contracts supporting the DHA, MTFs, or USUHS. Healthcare provider personal service contracts follow the terms and restrictions in Defense Federal Acquisition Regulation Supplement (DFARS) 237.104 (b)(ii), and DoDI 6025.5, “Personal Services Contracts (PCSs) for Health Care Providers (HCPs).”

19.3.8. Hyperbaric and Hypobaric Chambers. Chambers used for clinical treatment. DHP does not fund chambers used for aircrew physiological training.

19.4 Expenses Not Chargeable to the DHP

Refer to the Volume 12 Supplemental for additional items.

19.4.1. Transportation of Human Remains.

19.4.2. Non-prescription Items. DHP does not fund non-prescription items such as sunscreen, hand sanitizer, lip balm, and tissue for distribution to non-DHP-funded organizations. These are personal expense items. DHP can only fund these items (e.g., hand sanitizer, masks) for staff and patients within DHP-funded organizations.

19.4.3. Veterinary Services Provided to Privately-Owned Pets. Installation Veterinary Services' primary purpose is to provide healthcare to DoW working animals. DoW veterinary clinics may provide some services to pets but must ensure that costs for DoW working animals are segregated from those provided to pets. Typically, Non-Appropriated Fund Instrumentalities (NAFI) must cover the expenses related to pets and proportionately share in the costs of custodial services and utilities, consistent with DoDI 1015.15.

19.4.4. Clothing, Supplies, or Equipment for Contingency or Other Military Operations. Military Departments or other appropriations that fund the contingency must fund these expenses.

19.4.5. Contingency Support Medical Activities. Military Department or other contingency appropriations must fund:

19.4.5.1. Deployed medical facilities and biological/chemical warfare medical supplies deployed with personnel.

19.4.5.2. Pre-deployment, employment, and redeployment of medical combat support personnel, equipment, and supplies.

19.4.5.3. Immunizations carried by personnel for potential use during the deployment.

19.4.6. Medical Care at Deployed Locations for Exercises and Contingencies. Charge costs to Joint Chiefs of Staff (JCS)/CCMD exercise or contingency funds. Include medical care provided to members at local indigenous medical facilities, medical supplies (e.g., pharmaceuticals, orthopedic braces), and urgent/emergency care at the deployed location.

19.4.7. Medical Participation in JCS/CCMD Exercises. Charge JCS/CCMD Exercise funds for the deployment of medical personnel, the cost of supplies used during the exercise, shipping, and the resupply cost of supplies upon return.

19.4.8. Aeromedical Evacuation (AE) Airlift in Support of Peacetime and Contingency Operations. AE airlift is not a DHP expense. Per the FY 2021 President's Budget, these funds are managed by the Air Force for both peacetime (including Special Assignment Airlift Missions and contingency operations. During contingency operations, the appropriation funding the contingency will be charged for the AE contingency airlift (from contingency area to first overseas MTF). Air Force O&M funds pay only those AE contingency airlift costs billed by the Transportation Working Capital Fund (WCF) from the first overseas fixed MTF to CONUS. After

the contingency designation is formally withdrawn, Air Force O&M funds then become responsible for all future AE airlift costs from that former contingency area.

19.4.9. Automated External Defibrillators and Naloxone. AEDs and Naloxone for installation use outside of the MTF (e.g., for fire and security personnel) are funded by the requesting organization. Funds provided to the local MTF Medical Logistics office by the requesting organization enable the MTF to procure the item on behalf of the requesting organization on a reimbursable basis.

19.4.10. Humanitarian Assistance and Civic Assistance. Per 10 U.S.C. § 401 and DoDI 2205.02, in specific instances, humanitarian civic assistance activities may be provided in conjunction with authorized military operations of the Armed Forces. Commanders ensure that expenses providing humanitarian civic assistance to a foreign country are paid for out of funds specifically appropriated for such purpose.

19.4.11. Military Spiritual Resiliency Programs. The DHP does not fund Military Department chaplain resiliency programs and initiatives. Funding is the responsibility of the Military Departments.

19.4.12. Health and Wellness Centers, Fitness Staff, and Athletic Trainers. Military Department appropriations fund wellness center exercise equipment, appliances for healthy cooking demonstrations, supplies, facilities, maintenance, and support staff. Military Department also funds fitness staff, athletic trainers, health and wellness educators, health promotions staff, etc., assigned to units, installation gymnasiums, or health and wellness centers.

19.4.13. Miscellaneous Non-clinical Programs. The DHP does not fund Military Department non-clinical programs designed to enhance general readiness and performance. This includes activities like physical fitness, unit teambuilding, mindfulness training, and other resilience efforts that occur outside of a medical setting and are not part of a formal treatment plan for a health condition.

19.4.14. Tactical Combat Casualty Care. Military Department fully fund and support trauma training and skills sustainment platforms (hospital and pre-hospital) to include installation, workforce, equipment, and information technology. See DoDI 1322.24, "Medical Readiness Training."

19.5 Other Healthcare Accounting Matters

Refer to Volume 12 Supplemental for the full list.

19.5.1. Sexual Assault Prevention and Response (SAPR). The Director, DoW Human Resource Activity (DHRA) manages the Defense-wide O&M appropriation that funds the SAPR program. The Military Departments, OSW, JCS, DSCA, U.S. Special Operations Command, DHA, and DHRA are allocated funds supporting SAPR activities. Multiple Program Elements (PE) execute funds.

19.5.2. Integrated Primary Prevention. The Military Departments and DHA receive Defense-wide O&M to prevent self-directed harm and prohibited abusive or harmful acts including, sexual assault, harassment, suicide, retaliation, domestic abuse, and child abuse. These efforts include prevention strategy development, policy, oversight, manpower, research, programs, evaluation, and training.

19.5.3. Suicide Prevention. The Defense-wide O&M appropriation funds suicide prevention efforts. Military Departments and DHA receive funds. Multiple PEs fund these efforts.

19.5.4. Drug Demand Reduction Program/Urinalysis Program. The Defense-wide Counternarcotic appropriation funds routine drug testing of military personnel and civilian employees. The Deputy Assistant SecWar for Counternarcotics and Stabilization Policy within the OUSW for Policy manages the program. Multiple PEs execute funding.

19.5.5. Family Advocacy Program. The Defense-wide O&M appropriation funds the Family Advocacy Program (FAP). The FAP addresses domestic abuse, child abuse and neglect, and harmful behaviors between children and youth.

19.6 Uniform Billing Office Operations

19.6.1. The DHP has statutory authority to bill and collect for healthcare services. Collections stem primarily from three distinct reimbursement programs:

19.6.1.1. Third-Party Collections (TPC) Program. 10 U.S.C. § 1095 established the TPC program. For beneficiaries with health insurance other than TRICARE, MTFs and TRICARE submit claims to health insurance companies for care provided to DoW beneficiaries. Collections must be deposited in the current O&M appropriations of the MTF that provided the care.

19.6.1.2. Medical Services Account (MSA) Program. The MSA program involves billing and collection for medical and dental services provided to a wide range of patients, including other government agencies, DoW civilian employees and contractors, employees of NAFs or DoW schools, Secretarial designees, authorized foreign military members, and civilian emergency patients. The MSA is governed by multiple authorities, including 10 U.S.C. § 1074a, 10 U.S.C. § 1079b, 10 U.S.C. § 1085, 14 U.S.C. § 506, and 38 U.S.C. § 8111.

19.6.1.2.1. Collections from the U.S. Coast Guard. In lieu of the reimbursement required under 10 U.S.C. § 1085, the Secretary of Homeland Security, as per 14 U.S.C. § 506, makes prospective payment for the actuarial valuation of treatment that MTFs provide to current and former members of the Coast Guard, and their dependents.

19.6.1.2.2. Collections from the Department of Veterans Affairs. DoW and the VA established agreements under the authority of 38 U.S.C. § 8111 permitting the VA to reimburse DoW for healthcare services provided to VA beneficiaries. Collections must be deposited in the current O&M appropriations of the MTF that provided the care.

19.6.1.3. Medical Affirmative Claims (MAC) Program. 42 U.S.C. § 2651 – 2653 and 10 U.S.C. § 1095 govern the MAC program and authorizes DoW to recover expenses from liable third parties for medical care costs incurred on behalf of covered beneficiaries.

19.6.2. MHS Modified Payment and Waiver Program (MPWP). Pursuant to 10 U.S.C. § 1079b, the MPWP provides financial relief for medical bills incurred by civilian non-beneficiaries treated in MTF on or after June 21, 2023. The program features an income-based sliding fee scale, a catastrophic fee waiver to prevent severe financial harm, and a discretionary waiver based on the readiness value of the care provided. All patient applications for financial relief under this authority are centrally processed and adjudicated by the DHA's Debt Adjudication Office. Discretionary waivers of $600 or more require reporting to the Internal Revenue Service and issuance of a Form 1099-C (prepared by DHA).

19.7 DHP Budget Activity Groups (BAGS) and Program Elements (PE) Structure

Refer to the Volume 12 Supplemental.

20.0 CONTINGENCY OPERATIONS

20.1 General Guidance

20.1.1. This chapter promulgates financial policy for small, medium, and large-scale campaign level military contingency operations related to the Department of War (DoW). These might include, but are not limited to, support for peacekeeping operations, foreign disaster relief (FDR) efforts, and noncombatant evacuation operations (NEO). Note that the term "contingency operation," as used in this chapter, is more encompassing than the specific definition contained in 10 U.S.C. § 101(a), paragraph 13. Explicitly excluded from this chapter are peacetime civil emergencies occurring within the United States, the guidance for which is included in DoDD 3025.18, "Defense Support of Civil Authorities (DSCA)." Also excluded from this chapter are steady-state DoW humanitarian assistance activities.

20.1.2. Budgeting for Contingency Operations. DoW Components normally do not budget for contingency operations as discussed in this section. Therefore, DoW Components must accomplish directed contingency operations using funds available to the cognizant command or unit, independent of the receipt of specific funds for the operation. The SecWar issues the authority for DoW Components to expend available funds. Since the FY 2010 President's Budget, estimates for the Global War on Terror and Overseas Contingency Operations are included with the submission of the President's Budget.

20.1.3. An Execute Order from the SecWar. An execute order from the SecWar is both the authority for the commander of a Combatant Command (CCMD) to initiate military operations and the authority for DoW Components to expend available funds to carry out the order. Planning orders and alert orders from the Chairman, of the Joint Chiefs of Staff (CJCS) constitute authority for a commander of a CCMD to expend funds available to that commander of a CCMD and authority to direct a military component to expend funds available to that component for forces

assigned to the commander of a CCMD. Refer to Joint Publication 5-0, Joint Operation Planning, for information on joint operation order types.

20.1.4. DoW Policy Requirements. DoW policy requires that controls, accounting systems, and procedures provide, in financial records, proper identification and recording of costs incurred in supporting contingency operations. For such operations, data must be collected and records maintained to support bill development and the distribution of reimbursements to the applicable organizations.

20.1.5. Emergency Supplemental Funding

Refer to the Volume 12 Supplemental.

20.1.6. Elimination of Potential Duplicative Efforts. DoW officials having responsibility for reviewing and approving purchases for which the source of funding is derived from a transfer account like the Overseas Contingency Operations Transfer Fund (OCOTF) must, to the greatest extent possible, review transactions to: (1) eliminate the potential for duplicating the procurement of goods and services and (2) ensure that contractors are reimbursed for only those services and goods provided to the government.

20.1.7. Allowable Contingency Operations Cost. The funding derived from a contingency transfer account is available only for those incremental costs incurred in direct support of a contingency operation. As such, funds that are transferred into a Component's baseline appropriation are not to be used to finance activities and programs that are not directly related to the incremental cost of the contingency. In addition, the funds transferred to a Component's appropriation are not to be used to procure durable and expendable items in excess of what is required. Furthermore, those durable items procured with transferred funds are to be retained in support of the contingency even after the Component/unit has completed its tour of duty to support the contingency. Those durable items in the inventory, such as office equipment and expendable supplies that have not been consumed, should be made available to Components/units that are replacing the Component/unit that is departing the contingency operation area.

20.1.8. Fiduciary Responsibility. It is vital for civilian and military personnel authorized to obligate and expend funds in support of a contingency operation, using resources derived from the transfer of funds from a centrally funded transfer account (e.g., OCOTF), to employ a fiduciary approach to ensure that the funds are used in a prudent manner. Contingency funds are not to be used for purchases that are improper or are in excess of government requirements or which might bring embarrassment to the U.S. Government. Furthermore, special attention must be given by the Components' approving officials when the government purchase card is used for purchases to be funded with funds derived from a contingency operations transfer account. Approving officials are responsible for reviewing and reconciling cardholders' statements and for verifying that all transactions were necessary government purchases made in accordance with the FAR and all other government policies and procedures. See Volume 10 for more information.

20.2 Supplemental Information

Refer to the Volume 12 Supplemental for additional information on references, responsibilities, types of estimates, reporting, contingency-specific definitions, justification, and

the COST estimate tool. Cost reporting requirements for submission, inclusions, and consolidation of cost reports are in the Supplemental. Guidelines to assist the DoW Components in determining baseline and incremental costs for contingency operations and the process for reimbursement and distribution are provided in the manual. Details on base-funded overseas contingency operations and foreign disaster relief are also in the Supplemental.

20.3 General Funding Responsibilities

20.3.1. Service Component. Each service Component command must collect all applicable costs related to specific contingency operations and report these costs to the respective MILDEP Senior Financial Manager, who will then submit them to the DFAS for consolidation. If a contingency operation lacks financing, the Department will pursue all available options to obtain the additional funding required to ensure that participation in the operation does not reduce the readiness of U.S. Forces.

20.3.2. U.S. Transportation Command and the Defense Logistics Agency. Except as provided in paragraph 20.6 below, all requests for transportation or other services to a Working Capital Fund (WCF) Activity, such as the U.S. Transportation Command and the Defense Logistics Agency, must include a funding source. If a WCF activity receives a valid order (e.g., an execute or deployment order or a commander of a CCMD operations order) that directs action without a funding source, the parent MILDEP of the subordinate command receiving the services must provide funding to finance the request.

20.4 Special Funding Mechanisms

20.4.1. General. Congress revised 10 U.S.C. § 127a to include special funding mechanisms for operations that lack advance funding. The statute requires the SecWar to designate and identify such operations to Congress. When the SecWar designates an operation, DoW Components must immediately notify their subordinate organizations and establish procedures and controls for these special funding mechanisms.

20.4.2. Special Funding Mechanisms Participating Units. Under certain conditions, WCF organizations may not require units participating in such designated operations to reimburse (provide funded customer orders for) goods and services at the time the units order them. These procedures apply only to units participating in the covered operation, and only to requirements that are directly attributable to the operation; would not have been incurred but for the operation; and have not been financed previously through an appropriation, supplemental funding, reprogramming, or a reallocation of existing appropriations.

20.4.3. General Restrictions. The legal restrictions of the Anti-Deficiency Act (ADA) still apply to the Department, and WCF cash must remain positive under these restrictions. Therefore, the following general rules apply. Before a WCF activity accepts an unfunded customer order, its commander must determine that the activity can fill the order without violating the ADA. If filling the order without funded customer payment would violate the Act, the WCF activity must notify the requesting DoW Component to either issue a funded order or arrange to transfer sufficient cash to the supporting activity to cover the requested service or supplies.

20.4.4. WCF Activities. When a participating unit of the U.S. Armed Forces orders goods or services from a WCF activity and those goods or services meet the criteria addressed in subparagraphs 20.4.2 and 20.4.3, the unit providing the unfunded customer order to the performing WCF activity must, in each such request, notify the performing WCF activity that the order, or specified portion thereof, is in support of a designated operations and that a funded customer order for the goods or services is not required.

20.4.5. WCF Activity Unfunded Customer Orders. The WCF activity filling the unfunded customer order must separately account for all such filled orders and report those costs monthly to the DoW Component Senior Financial Manager of the requesting activity. The DoW Component's Senior Financial Manager must, in turn, separately report the cumulative amounts of these unfunded orders to DFAS in accordance with this section's provisions. Pursuant to 10 U.S.C. § 127a, DFAS must account for these amounts separately, which the DoW will then use to determine the funds required for transfer to the WCF activities to restore their balances to previous levels.

20.4.6. WCF Priorities. To ensure the WCF activity uses its cash reserves for the highest priority requirements, the commander of the activity must notify the Principal Deputy USW(C), in writing, and wait 5 workdays before filling the unfunded customer order.

20.4.7. Guidance on Reporting. As needed, the OUSW(C) will provide additional guidance on reporting the use of this authority for designated operations that become eligible for the special funding mechanisms available under 10 U.S.C. § 127a.

20.5 Cost Collection

20.5.1. Special Program Codes. Upon being alerted of an impending contingency operation, each participating DoW Component must establish a unique special program code to capture costs. The OUSW(C) Operations Directorate must issue a Standard Financial Information Structure (SFIS) code for contingency operations. The SFIS Values Library Service webpage maintains a list of contingency codes. Additionally, the Joint Staff must issue a three-digit CJCS Project Code, which provides precedence for supply requisitions and facilitates cost capturing and reporting.

20.5.2. Accounting System(s). Each organization that supports a contingency operation must capture related obligations and disbursements in its accounting system(s) at the lowest possible level of the organization. This provides tracking of obligations and disbursements for affected appropriations.

20.5.3. Costs Related to Contingency Operations. Organizations may incur costs related to a contingency operation both in the area of responsibility and in other locations. The organization that incurs costs in support of the operation, whether directly or indirectly, must transmit information on all such costs to the appropriate DoW Component Senior Financial Manager.

20.5.4. Cost Accounting Systems. DoW Components must not establish cost accounting systems solely for the purpose of determining costs for contingency operations; instead, they must use the data from existing systems as applicable.

20.5.5. Incremental and Billable Costs. DoW Component Senior Financial Managers must determine incremental and billable costs.

20.6 Billing

DoW Components determine their billable incremental costs. Billable incremental costs will be less than the full incremental cost when the performing DoW Component has determined to supplement or enhance their support beyond the level agreed to by the requesting organization. The DoW Component headquarters are responsible for transmitting to DFAS, on a monthly basis, a Contingency Operations Cost Report, standardized SF 1080 for each UN Letters of Assist or incurred cost for which payment is requested, and sufficient supporting documentation such as receipts, invoices, copies of requisitions approved by the organization supported (e.g., UN, State Department, or other), when required by the billed organization. Refer to the Volume 12 Supplemental for billing requirements and procedures for DoW and Non-DoW Transportation Rates for the Contingency Operations and United Nations Process.

20.6.1. DFAS administers centralized billing and reimbursement distribution activities in support of contingency operations. For the billing function, DFAS must consolidate the bills from the Components for monthly transmittal to the U.S. Mission to the UN (USUN) or other organizations, as required, along with copies of the Component Contingency Cost Reports. In addition, DFAS must prepare a monthly status report on amounts billed and reimbursements received for each applicable peace operation. In accordance with the provisions of Sections 607 and 630 of the Foreign Assistance Act (FAA), other applicable U.S. statutes, and the requirements of the billed organization, DFAS must submit only billable costs to the applicable agencies or international organizations.

20.6.2. The DoW Components must transmit billing information with sufficient supporting documentation to satisfy the payee of the validity of the charges. They must also include detailed lists of transactions supporting the billed amount with each bill rendered.

20.6.3. With respect to services and commodities provided under section 607 of the FAA, the Department may spend only those reimbursements it receives within 180 days after the end of the fiscal year in which the costs were incurred. The Department cannot use payments received after this 180-day period to defray costs it has already incurred providing the requested assistance.

20.6.4. The responsible DoW Component must credit payments received for assistance under the UN Participation Act, and unsolicited payments from the UN for UN-Determined Costs for Participating Troops, to the account or accounts that incurred the costs or to the accounts currently available for such purposes.

20.6.5. Given the legal restrictions on using reimbursed expenses, each DoW Component must identify and report all reimbursable billable expenses to DFAS on a timely basis, including sufficient supporting documentation as required by the billed organization, to ensure the Department recoups its costs.

20.7 Noncombatant Evacuation Operations (NEO)

20.7.1. Protection of U.S. Citizens and Nationals

20.7.1.1. The DoW conducts Noncombatant Evacuation Operations (NEOs) to assist the Department of State (DoS) in evacuating U.S. citizens, DoW civilian personnel, and designated host-nation (HN) and third-country nationals (TCNs) whose lives are in danger, moving them from a foreign nation to an appropriate safe haven. The United States Government (USG) will consider evacuating TCNs and host country nationals on a case-by-case, space-available, and reimbursable basis. Although the USG normally considers evacuations in connection with hostile action, it may also conduct them in anticipation of, or in response to, any natural or man-made disaster.

20.7.1.2. Upon receipt of a request from the President, or the DoS, the Department will protect U.S. citizens and nationals and designated other persons and assist in evacuating these persons from threatened areas overseas. In accordance with Executive Order 12656, as amended on February 9, 1998, the Department is authorized to deploy and use military forces to protect U.S. citizens and nationals and designated other persons in support of their evacuation from threatened areas overseas. The DoS has the lead responsibility for such evacuations.

20.7.2. Memorandum of Agreement (MOA). The MOA between the DOS and Defense, "DOS/DoW Cost Responsibility Matrix and Definitions," dated September 2, 1997, defines departmental cost responsibilities when an evacuation occurs. The content of the MOA is included in the Volume 12 Supplemental and must be used to determine all NEO cost responsibilities. In general, DoW will fund protection-related costs, and DOS will fund evacuation-related costs. The DoW Component supporting the protection operation must fund the costs of its deployment, unless otherwise specified.

20.7.3. Cost to Transport DoW Noncombatants. Pursuant to 31 U.S.C. § 1535 (the Economy Act), all costs that the DoW incurred to assist in evacuating personnel from threatened areas are billable and reimbursable, except for the costs to transport DoW noncombatants to safe havens. If, however, the DoS incurs costs for transporting DoW noncombatants to safe havens, the applicable DoW Component must reimburse the DoS for those costs.

20.7.4. Contingency Operations Cost Report. After the evacuation is completed, the finance and accounting office of the supporting DoW Component must collect the cost data and submit the following documents, through its Component Senior Financial Manager, to DFAS: an SF-1080 for all reimbursable evacuation costs, supporting cost documentation (e.g., flying hours, medical costs, or food for evacuees), and a Contingency Operations Cost Report. The DoW Component must work with the DoS and DFAS to submit the bills for reimbursement from the DoS, Attn: Bureau of Finance and Management Policy, Washington, DC 20520-7427.

20.8 Follow-Up

If billed organizations require additional information relating to submitted bill(s), DFAS must assist the billed organization to ensure that the necessary information is provided by the appropriate Component.

20.9 Large Scale Contingencies

20.9.1. Preparing Budget Estimations Guidance. DoW may be involved in a range of operations from very large to small-scale contingencies. The following guidance is to be used in addition to that found throughout this regulation for purposes of preparing budget estimations, cost reporting and billing associated with large-scale, campaign level, contingency operations. Refer to the Volume 12 Supplemental.

20.9.2. Spending Constraints. Each DoW Component must ensure that detailed guidance is disseminated to the appropriate subordinate organization levels to ensure the accuracy and reporting of costs. The DoW Components are responsible for employing a fiduciary approach to ensure that the funds are used in a prudent manner. As operations mature, steps should be taken to evaluate and establish spending constraints.

21.0 BURDENSHARING AND OVERSEAS RELOCATION CONTRIBUTIONS BY FOREIGN ALLIES

21.1 Responsibilities

This chapter addresses burden-sharing, host nation, and mutually beneficial contributions provided under various statutory authorities. Pursuant to 10 U.S.C. §§ 2350j and 2350k, and NDAA FY 2016 § 2804, this section prescribes policy and responsibilities for the acceptance, receipt, use, and reporting of burdensharing and relocation contributions by foreign allies in the DoW.

21.1.1. Under Secretary of War for (Policy)

The USW(P) has policy and management responsibility for burdensharing agreements or arrangements. In addition, the USW(P) will work with the DFAS – Trust Funds Accounting and Reporting Division (TFAR) (DFAS-ESS/Trust Funds) on burden-sharing program requirements that impact DFAS responsibilities, as appropriate.

21.1.2. Under Secretary of War (Comptroller)

21.1.2.1. The USW(C) serves as the single departmental point of contact with the Departments of State and Treasury for all matters involving the acceptance, receipt, administration and distribution of contributions of funds from foreign countries and organizations for burdensharing, overseas relocation, and Kuwait mutually beneficial contributions.

21.1.2.2. The USW(C) is responsible for coordination and approval of military construction projects that are subject to 10 U.S.C. §§ 2350j and 2350k, and NDAA FY 2016 § 2804, as amended. In addition, the USW(C) is responsible for reviewing and submitting to the Congress those reports required by 10 U.S.C. §§ 2350j and 2350k, NDAA FY 2016 § 2804, as amended, and any reports required from annual authorization and appropriation acts.

21.1.3. Under Secretary of War for Acquisition and Sustainment (USW(A&S))

USW(A&S) has policy and oversight responsibility for Host Nation Funded Construction (HNFC) provided by burdensharing agreements or arrangements under 10 U.S.C §§ 2350j and 2350k, and NDAA FY 2016 § 2804, as amended. USW (A&S) is responsible for authority reviews in locations with multiple HNFC agreements and technical reviews of HNFC Congressional notification packages, including project lists and project documentation.

21.1.4. Director of Defense Finance and Accounting Service (DFAS)

The DFAS Director is responsible for recording and reporting the collection of receipts for burdensharing, relocation, and mutually beneficial contributions, and for the distribution of receipts, as prescribed by the USW(C), in support of burdensharing, overseas relocation, and mutually beneficial programs.

21.1.5. Commanders of the Geographic Combatant Commands (CCDRs)

The cognizant CCDR with area of responsibility for the contributing country is responsible for financial management oversight and may delegate to another CCDR or subordinate commanders. This applies to burdensharing contributions for projects other than military construction, and military construction projects that are funded with burdensharing contributions. Refer to the Volume 12 Supplemental.

21.1.6. Assistant Secretaries for Financial Management and Comptroller (FM&C)

The cognizant Assistant Secretary (FM&C) has responsibility to review and approve the distribution of funds received from foreign countries and regional organizations for the purposes outlined in this Regulation. For funds supporting overseas geographic CCDR equities, the FM&C will ensure full distribution to the cognizant CCDR with area of responsibility for the contributing country or designated service component in that region. These responsibilities may be delegated below the Assistant Secretary level. Refer to the Volume 12 Supplemental.

21.2 Notifications of Monetary Contributions

The DoW Components must notify the DFAS-EASS/Trust Funds of all potential monetary contributions prior to acceptance of such contributions. All notifications must indicate the applicable statute (i.e., § 2350j for burdensharing contributions or 10 U.S.C. § 2350k for overseas relocation and FY 2016 NDAA § 2804, as amended, for mutually beneficial contributions). Refer to the Volume 12 Supplemental.

21.3 Accounting

21.3.1. Burdensharing Credits

Burdensharing contributions must be credited to one or more of the special fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the

SecWar or designee under 10 U.S.C. §. 2350j . Refer to the Volume 12 Supplemental for a listing of the accounts.

21.3.2. Overseas Relocation

21.3.2.1. Relocation contributions must be credited to one or more of the trust fund accounts which have been established in the U.S. Treasury for monetary contributions accepted by the SecWar or designee under 10 U.S.C. §. 2350k. Refer to the Volume 12 Supplemental for a listing of the accounts.

21.3.2.2. The DFAS disbursing office or Financial Services Office must transmit copies of deposit tickets for these investments to the DFAS-Indianapolis (DFAS-IN)/EASS Trust Funds. DFAS-EASS Trust Funds manage and track the investments and earnings.

21.3.3. Mutually Beneficial

Mutually Beneficial contributions must be credited to the special fund account, which has been established in the U.S. Treasury for monetary contributions accepted by the SecWar or designee under the authority of FY 2016 NDAA § 2804, as amended. Refer to the Volume 12 Supplemental for a listing of the account.

21.4 Availability of Contributions

Contributions are available for the payment of costs specified in 10 U.S.C. § 2350j or § 2350k, or FY 2016 NDAA § 2804, as amended. Refer to the Volume 12 Supplemental for additional information regarding the availability of burdensharing and relocation contributions.

21.5 Reporting Requirements

As needed, the USW(C) will provide guidance to ensure necessary information is collected to comply with any congressional reporting requirements.

22.0 DISPOSITION OF NON-DOW PERSONAL PROPERTY

22.1 Disposition of Unclaimed Property General Policy

22.1.1. The Secretary of any Military Department, and the Secretary of Homeland Security, under such regulations as they may respectively prescribe, may each by public or private sale or otherwise, dispose of all lost, abandoned, or unclaimed personal property that comes into the custody or control of the Secretary's department, other than property subject to 10 U.S.C. §§ 7712, 8392, or 9712. Property subject to paragraph 22.3 is exempted from the requirements. Requirements for the disposition of personal property of deceased members of the Army and Air Force are in the Volume 12 Supplemental. Requirements for the disposition of personal property of deceased members of the Navy and Marine Corps are in the Volume 12 Supplemental.

22.1.2. Property may not be disposed of until a diligent effort has been made to find the owner (or the heirs, next of kin, or legal representative of the owner). A diligent effort to find the owner (or the heirs, next of kin, or legal representative of the owner) must begin, to the maximum extent practicable, not later than 7 days after the date on which the property comes into the custody or control of the Secretary having immediate jurisdiction. The period for which that effort is continued must not exceed 45 days.

22.1.3. Notice of the time and place of the intended sale or other disposition must be sent by certified or registered mail to the applicable owner (or heirs, next of kin, or legal representative of the owner) at their last known address. If the owner (or the heirs, next of kin, or legal representative of the owner) is determined but not found, the property may not be disposed of until the expiration of 45 days after the date the notice is sent to the owner (or the heirs, next of kin, or legal representative of the owner).

22.1.4. When a diligent effort to determine the owner (or heirs, next of kin, or legal representative of the owner) is unsuccessful, the property may be disposed of without delay. If the property has a fair market value of more than $300, it may not be disposed of until 45 days after the date it is received at the point of storage designated by the Secretary.

22.2 Distribution of Proceeds

The proceeds from the sale of lost, abandoned, or unclaimed personal property found on a military installation must be credited to the operation and maintenance account that funds the operations of that installation and be used to reimburse the installation for any costs incurred during the collection, transportation, storage, protection, or selling of the property. Any proceeds which remain after the reimbursement of installation expenses must be utilized to support Morale, Welfare and Recreation (MWR) activities under the jurisdiction of the armed forces that are conducted for the comfort, pleasure, contentment, or physical or mental improvement of members of the armed forces at such installation. The net proceeds from the sale of other property under paragraph 22.1 must be deposited into the Treasury as miscellaneous receipts.

22.3 Restrictions

No property covered by this section may be delivered to the Armed Forces Retirement Home by the Secretary of a Military Department, except papers of value, sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes.

22.4 Claims for Proceeds

The owner (or heirs, next of kin, or legal representative of the owner) of personal property whose proceeds were credited to a military installation may file a claim with the SecWar for an amount equal to the proceeds less costs referred to in paragraph 22.2. Amounts to pay the claim must be drawn from the MWR account for the installation that received the proceeds. The owner (or heirs, next of kin, or legal representative of the owner) may file a claim with the SecWar for proceeds deposited at Treasury as well. Unless a claim is filed under this section within 5 years

after the date of the disposal of the property to which the claim relates, the claim may not be considered by either the SecWar or a court. The responsibility of the SecWar to consider such claims has been delegated to the USW for Personnel and Readiness.

22.5 Army and Air Force Disposition of Personal Property of Deceased Members

22.5.1. General Policy

Upon the death of a person subject to military law and under the jurisdiction of the Army or Air Force, or upon the death of a resident of the Armed Forces Retirement Home; the commanding officer must permit the legal representative or the surviving spouse of the deceased, if present, to take possession of the effects of the deceased that are then in camp, air base, or quarters. If there is no legal representative or surviving spouse present, the commanding officer must direct a summary court-martial to collect the effects of the deceased that are then in camp, air base, or quarters. The summary court-martial may collect debts due the decedent by local debtors and pay undisputed local creditors of the deceased (to the extent permitted by the monetary assets of the deceased in the court's possession). Receipts for payments made from the estate of the deceased must be filed with the court's final report to the Department of the Army or Air Force.

22.5.2. Distribution of Personal Property

As soon as practicable after the collection of the personal effects and monetary assets of the deceased, the summary court-martial must, at the expense of the United States, send the personal effects and monetary assets to one of the living persons, in the order of precedence shown on the following list, whom the court finds:

22.5.2.1. The surviving spouse or legal representative.

22.5.2.2. A child of the deceased.

22.5.2.3. A parent of the deceased.

22.5.2.4. A brother or sister of the deceased.

22.5.2.5. The closest next of kin of the deceased.

22.5.2.6. The beneficiary named in the will of the deceased.

22.5.3. Time Limits

If the summary court-martial cannot dispose of the effects as stated in paragraph 22.5.1 because there are no persons in any of the categories listed, or because the addresses of such persons are not known or are not available, the court may convert the effects of the deceased into cash by public or private sale. However, the sale may not occur until 30 days after the date of death of the deceased. Items listed in paragraph 22.5.2 may not be sold.

22.5.4. Final Disposition of Personal Effects

As soon as practicable after the effects have been converted into cash, the summary court-martial must relinquish custody of all cash and all receipts relating to cash transactions to the executive part of the Department of the Army or Air Force. Wills or other papers of value, an inventory of personal effects, and articles whose sale is not permissible also must be placed under the jurisdiction of the executive part of the Service of which the deceased was a member. All items received by the executive part of the Army or Air Force must be delivered to the Armed Forces Retirement Home.

22.6. NAVY AND MARINE CORPS DISPOSITION OF PERSONAL PROPERTY OF DECEASED MEMBERS

22.6.1. General Policy

The Secretary of the Navy must retain custody of money or other personal property of a deceased member of the Naval Service and make a diligent effort to determine and locate the heirs or next of kin of the deceased member. Property remaining unclaimed 2 years after the death of the member must be sold, and the proceeds, together with any other monetary assets of the member held in custody, must be deposited into the Treasury as miscellaneous receipts.

22.6.2. Recoupment

Within 5 years after the date the money and proceeds are deposited into the Treasury, any claim that is presented and supported by competent proof must be certified to Congress for consideration. After the 5 years, claims may not be accepted, and the requestor must be notified that the time limit for submitting a claim has expired.

23.0 ADMINISTERING, USING AND ACCOUNTING FOR SEIZED AND/OR VESTED FUNDS AND PROPERTY DURING CONTINGENCY OPERATIONS

Refer to the Volume 12 Supplemental.

24.0 OPERATION AND USE OF GENERAL GIFT FUNDS

The SecWar and Secretaries of the Military Departments have the authority to accept, hold, administer, and spend gifts made for the benefit or in connection with various institutions and individuals under their jurisdiction. These gifts include money, real property, personal property, or services for the establishment, operation, or maintenance of schools, hospitals, libraries, museums, cemeteries, and other institutions, as well as for the benefit of wounded or injured members of the armed forces (including members performing full-time National Guard duty), civilian employees, dependents, and survivors of members or employees who are killed.

24.1 DESIGNATIONS

The SecWar and the Secretaries of the Military Departments may approve additional Acceptance Authority designations under their jurisdiction. The Office of the Secretary of War (OSW) designations are as follows:

24.1.1. USW(C)

All authority and responsibility granted to the SecWar associated with the acceptance and use of gifts has been delegated to the USW(C).

24.1.2. USW(C) Designations

The USW(C) prescribes additional designations of gift Acceptance Authority to OSW Components. On behalf of the SecWar, the USW for Acquisition and Sustainment (A&S), USW Personnel and Readiness (P&R), Administration and Organization Policy, DoW Defense Agencies, Joint Staff, Commanders of Combatant Commands, and Washington Headquarters Services (WHS) have the authority and responsibilities associated with acceptance and use of such gifts of real property or personal property and may authorize the development of additional procedures for implementing policy in this chapter. The Director of the WHS also has the authority to accept such gifts of services for the benefit of individuals at facilities under his or her authority. All gifts over $500,000 must be accepted by the USW(C).

24.2 Responsibilities

Refer to the Volume 12 Supplemental.

24.3 Acceptance

24.3.1. Acceptance of Gifts for Military Musical Units; Accounting for Missing Persons; Museum Programs; U.S. Service Academies; and the USUHS can be found in the Volume 12 Supplemental.

24.3.2. Circumstances to Decline Acceptance. Acceptance Authorities must decline gifts under the circumstances identified in the Volume 12 Supplemental.

24.3.3. DoW Personnel. DoW personnel must not solicit, fundraise for, or otherwise request or encourage the offer of a gift. Acceptance Authorities must not accept gifts offered contrary to this policy. Notwithstanding this general prohibition, the SecWar may solicit from a bona fide collector a gift for the use and benefit of a military museum program.

24.3.4. Related Expenses. Acceptance Authorities may pay all necessary expenses in connection with the conveyance or transfer of a gift.

24.3.5. Offers from Prohibited Sources. Acceptance Authorities must use increased sensitivity and scrutiny when gifts are offered from prohibited sources. Acceptance of gifts from prohibited sources may cause embarrassment to the DoW or the appearance of influencing official decisions or actions of the Department. Acceptance Authorities must consult with their appropriate Ethics Official before accepting such a gift valued more than $10,000 to determine whether the donor is involved in any claims, procurement actions, litigation, or other matters involving the Department that must be considered prior to gift acceptance.

24.3.6. Acknowledgment of Future Gifts. Acceptance Authorities may acknowledge offers of future gifts and advise the donors that acceptance will occur after the actual presentation of the gifts only when they determine that such acceptance will likely occur.

24.3.7. Acceptance through Intermediaries. Acceptance Authorities must not accept gifts offered indirectly through an intermediary if they cannot accept such gifts if offered directly from the source.

24.3.8. Accepting Gifts to Benefit Certain Members, Dependents, and Civilian Employees. - Refer to the Volume 12 Supplemental.

24.3.9. Acceptance of Property Gifts with Naming Rights.

24.3.9.1. The Secretary concerned may delegate the authority to accept gifts with the condition of naming rights only to a civilian Presidential appointee in a position requiring Senate confirmation. This authority may not be further re-delegated.

24.3.9.2. The Secretary concerned must issue uniform regulations governing the circumstances under which gifts conditioned on naming rights may be accepted, appropriate naming conventions, and suitable display standards. The naming conventions and suitable display standards must be in accordance with Unified Facilities Criteria (UFC) 3-120-01 and other implementing guidance issued under the purview of the USW(A&S).

24.4 Receipt

24.4.1. Monetary Gifts. All monetary gifts must be forwarded to the DFAS office servicing the Acceptance Authority via mail or an EFT. DoW officials must contact DFAS for EFT deposit information.

24.4.2. Gift Fund Accounts. - Refer to the Volume 12 Supplemental.

24.4.3. Accounting Transactions. Accounting entries for monetary, non-monetary, and service-type gifts are specified within the U.S. Standard General Library.

24.5 Records and Reports

24.5.1. Records. Acceptance Authorities must keep accurate, auditable, and timely records of all gifts and provide this information for periodic audits. The receiving organization must obtain and retain the required documentation and information for all gifts received, including the date non-monetary gifts were transferred to property records and the unique identifier or data element, if applicable (see property accountability requirements in paragraph 24.7). For audit purposes, the supporting documentation for monetary and non-monetary gifts must be retained in accordance with the policy in Volume 1. Refer to the Volume 12 Supplemental.

24.5.2. Reports

24.5.2.1. DFAS Standards and Compliance (Corporate Reporting) must develop and require a standardized report for Acceptance Authorities or designees to report the following information to DFAS on a quarterly basis. Refer to the Volume 12 Supplemental.

24.5.2.2. Acceptance Authorities must report the information in the reports for all monetary gifts and real property gifts along with personal property gifts and services with a unit value of $5,000 or more to the DFAS office servicing each Secretary (Defense, Army, Navy, and Air Force) not later than 10 days after the end of each quarter. Monetary, real property, and personal property gifts must be reported separately.

24.6 Investments

Refer to the Volume 12 Supplemental for DFAS responsibilities for investments.

24.7 Property Accountability

Acceptance Authorities must establish procedures for receiving, accounting, and disposing of real and personal property gifts. Property accountability procedures must be addressed or referenced in general gift acceptance procedures. Property accountability procedures must be consistent with policy prescribed in DoDI 4165.14, DoDI 4165.70, DoDI 4165.71, DoDI 4165.72, and DoDI 5000.64.

25.0 DOW BRANDING AND TRADEMARK LICENSING PROGRAM

25.1 Responsibilities

Refer to the Volume 12 Supplemental.

25.2 Accounting and Reporting

25.2.1. Accounting

25.2.1.1. Fees received in a fiscal year must remain available for obligation in such fiscal year and the following two fiscal years.

25.2.1.2. The excess of licensing fees collected over annual costs may be expended to support MWR activities. The law does not require that the excess be obligated in the fiscal year collected. The excess may be used in the following two fiscal years to offset those fiscal year costs of the licensing program or may be expended in support of the DoW Component's MWR activities.

25.2.1.3. Funds not obligated or made available to MWR activities before September 30 of the second fiscal year following the year collected must be reallocated (transferred) to TAS R3210, "General Fund Proprietary Receipts, Defense Military, Not Otherwise Classified."

25.2.1.4. Additional TASs may be used to separately track unobligated funds carried forward from the fiscal year of collection through the following two fiscal years.

25.2.1.5. Each DoW Component must ensure that all royalty reports received from licensees and/or licensing agents are promptly reviewed, and any questions resolved. Copies of royalty reports must be retained in accordance with Volume 1.

25.2.2. Reporting. Each DoW Component operating a trademark licensing program must provide the Manager, DoW Branding and Trademark Licensing Program (BTLP), with the following financial reports. The Manager, BTLP, may issue guidance prescribing the required format of the reports and the specific information to be provided. For information on quarterly and annual reports, refer to the Volume 12 Supplemental.

26.0 COLLECTION AND RETENTION OF CONFERENCE FEES FROM NON-FEDERAL SOURCES

26.1 Policy

Federal Laws and Regulations. Although 10 U.S.C. § 2262 authorizes the retention of conference fees, all other applicable Federal laws and regulations must be followed regarding conferences and conference planning. These Federal authorities include the Joint Travel Regulations, the FAR, the DFARS, and the JER. This authority does not increase or affect any other currently existing conference authority. Guidelines related to determining conference fees are available on the DoW Cost Guidance Portal that resides on the DoW Costs Assessment and Program Evaluation web page. Access to the web page requires a DoW Common Access Card (CAC). Refer to the Volume 12 Supplemental for use of contracts, reimbursement, and ethics and fiscal guidance.

A "conference" is defined in the ***Joint Travel Regulations*** as a meeting, retreat, seminar, symposium, or event that involves attendee travel. The term conference also applies to training activities in accordance with 5 CFR § 410.404. Conferences subject to this authority are also often referred to as conventions, expositions, workshops, or exhibitions that typically involve topical matters of interest to, and the participation of, multiple agencies and/or non-governmental

participants. The ***DoD Conference Guidance 4.0*** identifies exemptions to the defined list of conferences.

26.2 Responsibilities

Refer to the Volume 12 Supplemental for OUSW(C), DFAS, and DoW Component responsibilities.

26.3 Accounting and Reporting

26.3.1. Accounting

26.3.1.1. Accounting for collections into appropriations is covered in the DoW United States Standard General Ledger Transaction Library, on the Office of the DCFO SFIS web page.

26.3.1.2. Except when conference planning services at no cost to the government are used and the government entity does not directly collect fees, amounts collected in accordance with 10 U.S.C. § 2262 with respect to a conference must be credited to the appropriation or account from which the costs of the conference are paid and must be used to pay or reimburse those costs of the Department with respect to the conference. Record conference fees collected as an appropriation reimbursement.

26.3.1.3. The registration fees collected must remain with the year that funds for the conference are obligated. In the event registration fees are collected in one fiscal year, but the conference is conducted in the next, the fees collected must remain in the year the conference expenses were obligated and must be available for the same purpose and time period of the appropriation.

26.3.1.4. Components, agencies, and activities that collect conference fees into appropriations may not augment those appropriations. Accordingly, any fees collected that exceed actual conference costs must be deposited into the Treasury as Miscellaneous Receipts (i.e., Receipt Account 3210).

26.3.2. Reporting

26.3.2.1. In accordance with DoW's Conference Policies and Controls, all DoW-sponsored conferences are required to be reported through a central DoW Conference Tool. This data is used to generate the annual reports that are posted publicly and support the Department's ongoing oversight of conference activities. Conference fees are not reported as a separate entity; they are reported within conference expenses as a net of any fees or revenue received through the conference, not to include costs.

26.3.2.2. In accordance with OMB Memorandum M-17-08, "Promoting Efficient Spending to Support Agency Operations," agencies must report conference expenses on a dedicated space on their official website. Conference expenses are defined as all direct and indirect conference costs paid by the Government, whether paid directly by agencies or reimbursed by

agencies to travelers or others associated with the conference, but do not include funds paid under Federal grants to grantees. Conference expenses include any associated authorized travel and per diem expenses, hire of rooms for official business, audiovisual use, light refreshments, registration fees, ground transportation, and other expenses as defined by the Federal Travel Regulations.

26.3.2.2.1. By January 31 of each year, the agency must describe all agency-sponsored conferences from the previous fiscal year where the net expenses for the agency associated with the conference were in excess of $100,000. This description must include:

26.3.2.2.1.1. Total conference expenses incurred by the agency for the conference.

26.3.2.2.1.2. The location of the conference.

26.3.2.2.1.3. The date of the conference.

26.3.2.2.1.4. A brief explanation of how the conference advanced the mission of the agency.

26.3.2.2.1.5. The total number of individuals whose travel expenses or other conference expenses were paid by the agency.

26.3.2.2.2. In addition, for any instances where the net expenses for an agency-sponsored conference exceeded $500,000, the website must include the agency-designated official's rationale and approval. The website must also include information in the appropriate format (e.g., narrative) about the total net conference expenses for the fiscal year incurred by that agency, as well as a general report about conference activities throughout the year.

26.3.2.2.3. In reporting this data, agencies must exclude any information that is considered to be sensitive, that is prohibited from public disclosure by statute or regulation, or that may jeopardize national security or the health, safety, or security of conference attendees, organizers, or other individuals.

27.0 FINANCIAL INSTITUTIONS AND MILITARY BANKING FACILITIES ON DOW INSTALLATIONS

27.1 Responsibilities

Refer to the Volume 12 Supplemental.

27.2 General Policy Provisions

27.2.1. Financial Institutions (FI) on DoW Installations

27.2.1.1. No more than one bank and one credit union are permitted to operate on a DoW installation except where they already existed as of May 1, 2000, or the installation was affected by BRAC. Refer to the Volume 12 Supplemental for information that pertains to installations affected by BRAC.

27.2.1.2. Upon the request of an installation commander and with the approval of the Secretary of the Military Department concerned (or designee), duly chartered FI may be authorized to provide financial services on DoW installations to enhance the morale and welfare of DoW personnel and facilitate the administration of public and quasi-public funds. Arrangements for the provision of such services must be in accordance with this section.

27.2.1.3. FIs may be established on DoW installations only after approval by the Secretary of the Military Department concerned (or designee), the appropriate regulatory agency as required, and in accordance with 32 CFR § 230.

27.2.1.4. Except in limited situations overseas, only banks insured by the Federal Deposit Insurance Corporation and credit unions insured by the National Credit Union Share Insurance Fund, or by another insurance organization specifically qualified by the Secretary of the Treasury, may operate on DoW installations. These FIs may either be State or federally chartered; however, U.S. credit unions operated overseas must be federally insured.

27.2.1.5. Military Banking Facilities (MBF) may be established on DoW installations when a demonstrated and justified need cannot be met through other means, pending the availability of FIs willing to perform these functions. Normally, MBFs are only authorized at overseas locations. MBFs may be considered for use at domestic DoW installations only when the cognizant DoW Component cannot obtain financial services from a state or federally chartered FI authorized to operate in the installation state. MBFs may be designated during mobilization as an emergency measure. The Director, DFAS, may recommend the designation of MBFs to the Treasury.

27.2.1.6. The installation commander must approve the expansion of financial services (to include in-store banking) requiring the out grant of additional space or logistical support. Any DoW activity considering expanding the availability of financial services must coordinate requests with the installation Banking Liaison Officer (BLO) prior to the commander's consideration.

27.2.1.7. No DoW Component must perform retail banking operations. Solicitations for such services must be issued, and proposals accepted, according to the policies identified in this section.

27.2.1.8. If an FI or MBF operates on a DoW installation, installation commanders must not seek financial services from any entity other than the on-base FI or MBF.

27.2.1.9. Military disbursing offices, NAFIs (including MWR activities and the Military Exchange Services), and other DoW Component activities requiring financial services must use on-base FIs and MBFs to the maximum extent feasible.

27.2.1.10. NAFIs (including MWR activities and the Military Exchange Services) that desire and are authorized to provide currency accommodation exchange services to individuals must acquire all foreign currency for this purpose from the servicing MBF at the MBF accommodation rate and sell it at a rate of exchange no more favorable than the customer rate available at the MBF.

27.2.2. Security

27.2.2.1. The installation commander (or designee), officials of the on-base FIs, and installation security authorities must establish an understanding of each entity's responsibilities on all matters of asset protection.

27.2.2.2. Establish a written agreement outlining the security procedures that the FI follows and the role that installation security authorities play regarding alarms, movement of cash, and criminal activity response procedures to be followed (e.g., vandalism or robbery).

27.2.2.3. Cash and other assets in on-base FIs are the property of those FIs. Except for MBFs operated under contract, maintenance of alarms and the guarding and/or escorting of cash is the sole responsibility of the on-base FI. The installation commander may decide that providing for the guarding or escorting of cash is desirable or necessary.

27.2.2.4. The use of armored vehicles for transportation of cash is the sole responsibility of the on-base FI and MBF, and use must be coordinated with the installation commander to permit access to DoW installations and facilities.

27.2.3. Central Locator Services. Military locator services will be provided per the Privacy Act guidelines contained within the Volume 12 Supplemental (Figure 33-1) and associated fees, if any, are to be paid by the FI in accordance with Volume 11. See the Locate Military Members website to obtain information on how to locate a military member, retiree, or facility. Refer to the Volume 12 Supplemental for information and guidance on Advertising and Personal Solicitation; Automatic Teller Machine (ATM) Service; Staffing; Departure Clearance; Operating Agreements; Installation Financial Services; In-Store Banking; and Domestic MBF.

27.2.4. Advertising and Personal Solicitation. Refer to the Volume 12 Supplemental.

27.2.5. ATM Service. Refer to the Volume 12 Supplemental.

27.2.6. Domestic and International Treasury General Accounts. In cases where authorization is required for the on-base FI or MBF to act as a Treasury General Account (TGA) domestic depositary (or, on overseas installations, an International Treasury General Account (ITGA) depository), the FI must satisfy the risk management standards established by the Secretary of the Treasury. On-base FIs and MBFs must accept deposits for credit to the TGA (or ITGA) when authorized.

27.2.7. Staffing. Refer to the Volume 12 Supplemental.

27.2.8. Departure Clearance. Refer to the Volume 12 Supplemental.

27.2.9. Operating Agreements. Refer to the Volume 12 Supplemental.

27.2.10. Installation Financial Services. Refer to the Volume 12 Supplemental.

27.2.11. Banking Liaison Officer. Each installation commander having an on-base FI or MBF must appoint a BLO. The BLO's name and duty telephone number must be displayed prominently at each FI and MBF location on the installation. The responsibilities of BLOs must be assigned to comptroller or resource management personnel. Employees, officials, or directors of a FI or MBF may not serve as BLOs. Refer to the Volume 12 Supplemental for BLO responsibilities.

27.2.12. In-Store Banking. Refer to the Volume 12 Supplemental.

27.2.13. Domestic MBF. Refer to the Volume 12 Supplemental.

27.3 Banks Operating on Domestic DoW Installations

27.3.1. General Policy. U.S. banks may operate on DoW installations, in accordance with this section, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations. Refer to the Volume 12 Supplemental for Establishment and Terminations.

27.3.2. Solicitations. The Secretary of the Military Department concerned (or designee), or the installation commander with advice from the cognizant Secretary of the Military Department (or designee), must conduct solicitations, to include pre-proposal conferences, for on-base banking. Subject to the criteria for selection outlined in the Volume 12 Supplemental, the preferred sources of on-base financial services at domestic installations are federally insured, state-chartered or federally insured, federally chartered banks operating in the local area. The Volume 12 Supplemental addresses distribution of the solicitation only and does not preclude any federally insured, state-chartered or federally insured, federally chartered bank from responding at any stage (from local distribution in the Volume 12 Supplemental to publication in SAM.gov and FI trade journals as outlined in the Volume 12 Supplemental) of the solicitation process. Do not commit to any bank regarding its proposal until the appropriate regulatory agency makes a

designation if a designation is required. Refer to the Volume 12 Supplemental for more information on solicitations.

27.3.3. Termination. Refer to the Volume 12 Supplemental for more information.

27.3.4. Use of Space, Logistical Support, and Military Real Property for Banks Operating on Domestic DoW Installations.

27.3.4.1. Lease Terms. The consideration for a lease must be determined by an appraisal of fair market rental value in accordance with 10 U.S.C. § 2667. Periodic reappraisals must be based upon the fair market rental value exclusive of the bank improvements made. Coordinate with USW(A&S) or designee. Refer to the Volume 12 Supplemental.

27.3.4.2. Logistical Support

27.3.4.2.1. The bank must be housed in a building accessible to DoW personnel on the installation and in a location permitting reasonable security.

27.3.4.2.2. Banks must perform all maintenance, repair, improvements, alterations, and construction on the banking premises.

27.3.4.2.3. Banks must pay for all utilities (i.e., electricity, natural gas or fuel oil, water, and sewage), heating and air conditioning, intra-station telephone service, and custodial and janitorial services including garbage disposal and outdoor maintenance (such as grass cutting and snow removal) at rates set forth in the lease, operating agreement or other written agreement between the installation and the bank.

27.3.5. Land Leases. A lease for the construction of a bank must be at the appraised fair market rental value. Charges must apply for the term of the lease not to exceed 25 years, subject to periodic review every 5 years to assess changes in fair market value. Refer to the Volume 12 Supplemental.

27.3.6. Construction. Banks may construct buildings subject to provisions found in the Volume 12 Supplemental.

27.4 FIs and MBFs Operating on Overseas DoW Installations

General Provisions of Financial Services Overseas. The Department acquires financial services overseas for use by authorized persons and organizations from the following sources.

27.4.1. MBFs operated under contract and authorized by the pertinent status of forces agreement, other intergovernmental agreements, or host-country law.

27.4.2. Domestic and foreign banks located on overseas DoW installations. Each such institution must be:

27.4.2.1. Chartered to provide financial services in that country.

27.4.2.2. A party to a formal operating agreement with the installation commander to provide such services.

27.4.2.3. Identified, where applicable, in the status of forces agreements, other intergovernmental agreements, or host-country law. Refer to the Volume 12 Supplemental for more information on Establishment, Terminations, Logistical Support, Operations, and other Overseas Banking Offices.

27.5 Credit Unions Operating on Domestic DoW Installations

U.S. credit unions may operate on DoW installations, in accordance with this section, when required by installation commanders to promote the morale and welfare of installation personnel and to help facilitate installation operations. Refer to the Volume 12 Supplemental for more information on Establishment; Termination; Use of Space, Logistical Support, and Military Real Property for Domestic Credit Unions; Land Leases; Construction; and ATM service.

27.6 Overseas Credit Unions

27.6.1. Credit union services to authorized persons and organizations, as permitted by Status of Forces agreements, other intergovernmental agreements, or host-country law, may be provided by domestic on-base credit unions operating under a geographic franchise.

27.6.2. The extension of credit union service overseas must be in accordance with this section as it relates to domestic credit unions and aligned with applicable status of forces agreements or other intergovernmental agreements, or host-country law.

27.6.3. Where permitted by the status of forces agreements or other intergovernmental agreements, or host-country law, only federal credit unions or federally insured state-chartered credit unions may operate on overseas DoW installations. The ultimate decision to provide services overseas rests with the credit union itself. Refer to the Volume 12 Supplemental for more information on Establishment; Logistical Support Services; Travel; and Operations.

28.0 DIRECT ACCEPTANCE OF GIFTS BY MEMBERS OF THE ARMED FORCES, DEPARTMENT OF WAR EMPLOYEES AND THEIR FAMILIES AND SURVIVORS

28.1 Gift to Covered Employees

Pursuant to the authority in 10 U.S.C. § 2601(a), covered members of the armed forces in the DoW and covered employees of DoW, their family members, and their survivors may accept gifts directly from nonprofit organizations, private parties, and other sources outside the DoW when, while performing military duties or performing duties as a civilian employee on or after September 11, 2001, they incur an injury or illness: (1) as a direct result of armed conflict; while engaged in hazardous service; in the performance of duty under conditions simulating war; or through an instrumentality of war; (2) in an operation or area designated as a combat operation or combat zone by the SecWar; (3) that results in enrollment in a Warriors in Transition program, as defined in section 738(e) of the NDAA for Fiscal Year 2013 (Public Law 112-239, 10 U.S.C. § 1071); or (4) under other circumstances determined by the Secretary concerned to warrant treatment like members covered by the first criterion of this section.

28.2 Impermissible Gifts

The authority in 10 U.S.C. § 2601a does not apply to gifts from foreign governments or international organizations or their representatives, nor does it apply to gifts that: (1) are accepted in return for being influenced in the performance of an official act; (2) are solicited or coerced; (3) are accepted in violation of any other statute or regulation, including 18 U.S.C. § 201, 18 U.S.C § 209, 5 CFR § 2635 and 5 CFR § 3601; or (4) will reflect adversely on the DoW.

28.3 Criteria for Gift Acceptance

Refer to the Volume 12 Supplemental.

DEPARTMENT OF WAR

VOLUME 13

NONAPPROPRIATED FUNDS POLICY

1.0 GENERAL

1.1 Nonappropriated Fund (NAF) accounting applies to all NAF Instrumentalities (NAFIs) and their supporting Accounting Offices (AOs). NAFs are separate from appropriated funds (APFs) of the U.S. Department of the Treasury (Treasury). NAFs must not be commingled with APFs and must be managed separately from APFs, even when used to support a common program.

1.2 Authoritative Guidance

Refer to the authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary of terms document on the FMR webpage.

1.4 Procedures

Refer to the Supplemental document listed throughout this volume.

2.0 INTRODUCTION TO NONAPPROPRIATED FUND ACCOUNTING

2.1 The chart of accounts for NAFs must be established to comply with Federal Accounting Standards Board (FASB) and Department of Defense Instruction (DoDI) 1015.15 reporting requirements and is maintained on the DoD NAF Accounting website. NAF accounting systems used by the Military Exchanges are exempt from using the NAF chart of accounts; the Exchanges use the separate Defense Resale Activities chart of accounts, available on the DoD NAF Accounting website.

2.2 For reporting purposes that require the level of materiality to be quantified, materiality must be defined as a minimum of one percent of the total assets in the Balance Sheet for each NAFI. The one percent threshold does not preclude entities from making necessary adjustments to financial statements for transactions that may fall below the threshold. For NAF activities required to report on a consolidated basis, the threshold of materiality must be a minimum of one percent of the assets in the consolidated Balance Sheet.

2.3 AOs must prepare an end-of-month trial balance of the general ledger accounts to ensure total debits equal total credits.

2.4 The annual accounting reporting period for DoD NAFIs begins October 1 of each year and ends September 30 of the following year. The Military Exchanges use the National Retail Federation reporting period and fiscal year that begins in February and ends the following January per DoDI 1015.15. This divides the year into four quarters of 13 weeks grouped into two 4-week "months" and one 5-week "month."

2.5 Financial reports must be prepared annually for each NAFI and must include notes to accompany the financial statements. The DoD Procedures, Guidance, and Instructions for Section 6 explains the following NAFI financial reports: Balance Sheet; Reconciliation of Net Worth; Statement of Income and Expense; and Statement of Cash Flows.

2.6 Financial reports must include full and adequate disclosure of financial and accounting information per Section 6 reporting requirements (for example, disclosure of fund equity adjustments and eliminating entry transactions between NAFIs); this includes Military Service Headquarters, Major Command or Region, and installation NAFIs.

2.7 Since NAFI business operations are similar to the private sector, financial statements are prepared and presented to comply with accounting standards promulgated by FASB. All other accounting literature not included in the Codification is considered non-authoritative.

2.8 NAFIs must use the accrual basis of accounting, by recognizing income and expenses when earned or incurred.

2.9 AOs provide centralized professional accounting services to NAFIs. AO responsibilities include maintaining the books of original entry, general ledger, and related subsidiary ledgers; maintaining fixed asset and payroll records; preparing disbursement vouchers and checks after assuring fund availability and paying NAFI liabilities; preparing and distributing required periodic financial reports; preparing an annual AO operating budget; reconciling supported NAFIs' bank accounts; computing and billing service fees to recover operating costs; reviewing documentation for completeness and accuracy; providing documentation to auditors; preparing aged accounts receivable reports; maintaining awareness of changes affecting financial reporting; and reviewing fund equity or net worth adjustment requests and forwarding them to the approval authority designated by each Military Service.

2.10 NAFIs must establish and operate internal control programs in accordance with the Office of Management and Budget Circular A-123, “Management’s Responsibility for Enterprise Risk Management and Internal Control,” and the statute it implements, the Federal Managers’ Financial Integrity Act of 1982.

2.11 Each Military Service is required by DoDI 7600.06 to have independent certified public accountants conduct an annual financial audit of NAFIs with annual income or expenses exceeding $10 million. NAFIs in Program Group VI – Special Purpose Central Funds, and NAFIs supporting highly sensitive operations, must have audits at least annually regardless of the dollar threshold of revenues and expenses.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see the Supplemental for Volume 13, Section 2.

3.0 NONAPPROPRIATED FUND STANDARD GENERAL LEDGER

3.1 This section prescribes policy for the NAF Standard General Ledger (NAFSGL), maintained on the DoD NAF Accounting website. The NAFSGL is a modified version of the United States Standard General Ledger used for accounting and financial statement reporting to ensure financial statement information is consistent for all NAFIs. The NAFSGL provides for standardization and traceability from the financial statements through the general ledger balances to the source documentation for audit purposes. At a minimum, the Office of the Under Secretary of War (Personnel & Readiness) must update and publish the NAFSGL before 1 October of each year. Policies in this section apply to all NAFIs and their supporting accounting offices, except the Military Exchanges, which include Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange.

3.2 The general ledger accounts are self-balancing (total debits equal total credits) and provide for accounting of business events. The NAFSGL contains a Chart of Accounts and basic common account code elements: the Installation, NAF, Activity, Cost Center, Site, APF/NAF, and General Ledger Account Code (GLAC). Each Military Department uses the accounts required for its particular financial operations. NAFIs and Military Departments may not have to use all accounts.

3.3 The NAFSGL uses an eight-digit account numbering system for the GLACs. Within the NAFIs, the NAFSGL supports financial statement reporting at the Program Group level and the consolidated Military Department level. All data must summarize to the four-digit DoW standard GLAC and be traceable to the NAFIs using subaccounts. The general ledger accounts are grouped into the following major summary categories: 1000 Assets; 2000 Liabilities; 3000 Net Worth/Equity; 4000 Operating Income; 5000 Operating Expenses; 6000 Non-Operating Income; 7000 Non-Operating Expenses.

3.4 Account for assets in the 1000 series of accounts. Current asset accounts consist of cash, investments, receivables, inventories, and other assets reasonably expected to be converted to cash or consumed during the normal operating cycle (12 months or less). Long-term asset accounts consist of NAFI-titled fixed assets, APF-titled fixed assets, and other long-term assets. Section 4 contains additional information on assets.

3.4.1. Cash and investments are liquid assets that can be quickly used to carry out operations. Cash consists of coins, paper currency and readily negotiable instruments, cash in bank, foreign currencies, revolving cash funds, cash held in petty cash or change funds, imprest funds, savings, restricted cash for current operations, and certificates of deposit with an original maturity of three months or less. Investments consist of interest-bearing deposits, certificates of deposit with an original maturity greater than three months but no more than 12 months, and marketable securities. NAFIs must exclude employee retirement cash and investments (employee 401K, employee retirement, and employee post-retirement medical) from a consolidated presentation, because they would distort available NAF.

3.4.2. Fixed assets are property, plant, and equipment purchased, donated, or transferred to NAFIs that have an expected life of two or more years. Fixed assets consist of buildings, land, land improvements, vehicles, aircraft, boats, furniture, fixtures and equipment, information

technology, livestock, assets in progress, fixed assets in-transit when ownership passes to the NAFI before receiving the asset, and accumulated depreciation. NAFIs must report material donations of assets and services in the financial statements. NAFIs must not include donated artifacts in the financial statements unless the NAFI: (1) uses or intends to use the artifact in its primary operations outside its educational function; or (2) sells or intends to sell the artifact and use the proceeds for something other than purchasing another artifact for educational purposes.

3.4.3. Other long-term assets are assets not identified in other asset categories. They consist of long-term pension benefit assets, receivables, long-term prepaid expenses, certificates of deposit (more than 12 months), marketable securities, long-term contributions, long-term franchise fees, intangible assets, and long-term royalty and trademark fees. Report pension benefit asset information when the pension plan is overfunded and classified as a long-term asset; refer to FASB Accounting Standards Codification (ASC) Topic 715, "Compensation-Retirement Benefits," and Section 8 for reporting guidance. NAFIs must classify and report cash and investments restricted for long-term purposes on the balance sheet as other long-term assets.

3.5 Account for liabilities in the 2000 series of accounts. Current liability accounts are due, or will become due, on demand within 1 year and consist of accounts payable, wages payable, interest payable, post-retirement benefit obligations (12 months or less), and other liabilities. Long-term liability accounts are due more than 12 months from the Balance Sheet date and consist of loan liabilities, capital lease liabilities, post-retirement benefit obligations (more than 12 months), and other long-term liabilities. Section 4 contains additional information on liabilities.

3.5.1. Report the current post-retirement benefit obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation) and classified as a current liability, as determined and provided by the pension provider. This includes any other post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to FASB ASC Topic 715 and Section 8 for reporting guidance.

3.5.2. Report the long-term post-retirement benefit obligation when the pension plan is underfunded (plan assets are less than the plan benefit obligation) and classified as a long-term liability, as determined and provided by the pension provider. This includes any other post-retirement benefit plan, such as retiree health care. The benefit obligation is the accumulated post-retirement benefit obligation. Refer to ASC Topic 715 and Section 8 for reporting guidance.

3.6 Account for Net Worth/Equity in the 3000 series of accounts. Net Worth consists of retained earnings, transferred equity, workers' compensation reserves, equity reserves, undistributed profits and net income, unrealized gains and losses, and other equity transactions. The pension cost liability account records any adjustment made to existing pension balances on the Balance Sheet. Post these adjustments as an offset to the equity account on the Balance Sheet, as either an addition or reduction to Net Worth. Account for these temporary adjustments in the Net Worth section of the Balance Sheet the same way as unrealized gains and losses on investments per FASB ASC Topic 320, "Investments-Debt Securities." Do not include these temporary adjustments in the net worth calculation. Refer to ASC Topic 715 for reporting guidance.

3.7 Classify income as either operating (4000 series) or non-operating (6000 series).

3.7.1. Account for operating income in the 4000 series of accounts. Examples of operating income accounts include gross sales income, participation fees income, concessionaire income, rental income, amusements income, gaming income, reimbursement income, and other operating income. Section 5 contains additional information on income.

3.7.2. Account for non-operating income in the 6000 series of accounts. Examples of non-operating income include interest income, rebates income, subsidy income, exchange dividend income, unusual or infrequent income, and other non-operating income.

3.8 Classify expenses as either operating (5000 series) or non-operating (7000 series).

3.8.1. Account for operating expenses in the 5000 series of accounts. Examples of operating expenses include purchases, cost of goods sold, depreciation expense, wage expense, tax expense, retirement expense, supplies expense, communication expense, utilities expense, travel expense, claims expense, entertainment expense, bad debt expense, unemployment compensation and other employee benefit expense, and other operating expense. Section 5 contains additional information on expenses.

3.8.2. Account for non-operating expenses in the 7000 series of accounts. Examples of non-operating expenses include interest expenses, unusual or infrequent expenses, costs incurred in acquiring historical artifacts, and other non-operating expenses.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 3.

4.0 ASSETS, LIABILITIES, AND NET WORTH

4.1 This section prescribes the accounting policy and related requirements for NAF assets, liabilities, and net worth. NAFI programs and facilities must be operated, maintained, and funded as an integral part of the DoW personnel and readiness program. Policies in this section apply to all NAFIs and their supporting AOs, including the Military Exchanges (Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange).

4.2 The NAFSGL chart of accounts, including definitions and GLACs for asset, liability, and net worth accounts, is maintained on the DoD NAF Accounting website. NAF accounting systems used by the Military Exchanges are exempt from this chart of accounts; the Military Exchanges use the separate Defense Resale Activities chart of accounts available on the DoD NAF Accounting website.

4.3 The NAFSGL contains eight asset categories: Cash; Investments (refer to DoDI 1015.15); Receivables; Inventories; Other Current Assets; NAFI-Titled Fixed Assets; APF-Titled Fixed Assets; and Other Long-Term Assets. Accounting requirements for these categories are in paragraphs 3.1 through 3.7.

4.4 Cash

4.4.1. NAF cash must be maintained in financial institutions that are U.S. federally insured or designated by the Treasury. Cash consists of coins; paper currency; readily negotiable instruments such as money orders, checks, and bank drafts on hand or in transit for deposit; demand deposits with banks or other financial institutions; and foreign currencies translated into U.S. dollars at the exchange rate on the financial statement date. All sales of merchandise or services using credit cards must be recorded as cash at the time of sale.

4.4.2. Designated accounting personnel must reconcile all bank statements or reports monthly and report any discrepancies immediately to NAFI management. To maintain separation of duties, the person performing reconciliations must not be anyone associated with the collection or disbursement of funds.

4.4.3. The AO must designate a custodian to maintain the records and control the blank check stock; for security, this person must not be a check writer. Checks must be sequentially pre-numbered and stored in a locked container that is either a built-in vault or a burglary-resistant safe with a minimum two-hour fire rating. For additional guidance on securing blank check stock, refer to Volume 5, Section 3.

4.4.4. Check signing equipment has three components: a signature plate, a machine key, and the machine. The signatory must maintain the signature plate, and a designated person other than the signatory must maintain the key and a usage log; the authorized operator must record the beginning and ending readings, date, and initials in the log for each use. Other media, such as digitized signatures, are acceptable. For comprehensive guidance on check signing, refer to Volume 5, Section 7.

4.4.5. When a signatory changes, the NAFI must destroy the signature plates and notify the bank. A certificate of destruction must be prepared, signed by two witnesses and the successor signatory, and maintained in the AO. Refer to Volume 5 for additional information on destroying signature media.

4.4.6. Increases to a change fund must be requested in writing from the NAFI custodian (see DoDI 1015.15 for the definition of NAFI custodian). The AO then issues a check for the approved amount and increases the appropriate asset account.

4.4.7. The NAFI manager or designee must replenish change funds at the end of the day with cash received from operations, provided all daily net receipts are deposited in total, and must ensure all checks cashed from these funds are deposited daily. The NAFI manager or designee must not exchange dollars for foreign currency except as provided in Volume 5, Section 13.

4.4.8. Each NAFI must comply with the following requirements when establishing a petty cash fund.

4.4.8.1. Each manager within a NAFI must appoint petty cash custodians in writing.

4.4.8.2. A petty cash fund must not exceed one month's requirements.

4.4.8.3. Any single transaction must not exceed $500, and transactions must not be fragmented to circumvent this limit. The Military Service proponent for NAF financial management may approve a higher limit for purchases made in foreign currency when currency rates warrant; this increase must be reviewed annually.

4.4.8.4. In foreign locations, a NAFI may maintain one petty cash fund in the local foreign currency and one in U.S. dollars. If a NAFI gives cash bingo prizes in both dollars and foreign currency, it must establish two bingo petty cash funds.

4.4.8.5. NAFIs must not use petty cash funds to cash checks or to pay salaries and wages.

4.4.8.6. The AO provides the fixed petty cash amount to the appointed custodian, who completes a petty cash voucher to support each disbursement. The custodian must submit a replenishment request with vouchers and receipts (or equivalent) to the AO as needed, but no later than the last day of each month, and the AO must issue a reimbursement check payable to the custodian by name.

4.5 Receivables

4.5.1. Receivables are amounts owed to NAFIs for sales of merchandise, services, or dues, and may arise from APFs, Uniform Funding and Management (UFM) processes, employees, members, customers, and organizations for dues, fees, charges, rentals, credit sales (except credit-card sales recorded as cash per paragraph 3.1), or travel advances. NAFIs must maintain receivable records that accurately identify each debt and its debtor and must reconcile receivable subsidiary records monthly to the general ledger control accounts. Refer to the NAFSGL for the complete listing of receivable accounts and their definitions.

4.5.2. NAFIs with internal credit systems must prepare an aged customer accounts receivable report that, at a minimum, identifies amounts over 30 days (second billing statement), over 60 days (third billing statement), and over 90 days (fourth billing statement).

4.5.3. NAFIs must create and use an allowance for doubtful accounts (credit losses), determining and recording the estimated uncollectible accounts receivable at the end of each reporting period based on a review of historical average write-offs, per ASC 326-20-30 and ASC 450-20-25-2. NAFIs must maintain supporting documentation for the calculation and associated adjustment for audit purposes and must adjust the allowance to cover accounts expected to become uncollectible during the next reporting period.

4.6 Inventories

4.6.1. Inventories must be valued and recorded at cost, per ASC 330-10-30. The DoW Components must prescribe the cost-determination method (for example, first in first out, last in first out, or moving average), apply it consistently, and disclose it in the notes to the financial

statements; the Military Exchanges must use the retail inventory method for retail merchandise. Costs that can be associated with specific items (freight, distribution, purchase charges, insurance, and handling) are included in merchandise cost; otherwise, they are recorded against the appropriate expense account. Purchase discounts must be deducted from the price billed and merchandise recorded net of discounts, with discounts lost and excise taxes recorded in the applicable operating expense account.

4.6.2. Immaterial losses of inventory resulting from spoilage, breakage, obsolescence, rejection, or constant customer complaint items are absorbed in cost of goods. Material losses are recorded in a Spoilage and Breakage expense account for the applicable operation.

4.6.3. Merchandise held on consignment is maintained and accounted for by the consignor; per ASC 606, NAFIs do not record this inventory in the general ledger and recognize revenue only once consignment tickets are sold to a third party, at which point selling costs and amounts due the consignor are expensed. NAFIs must physically inventory consigned merchandise for accountability monthly or at the end of an event for tickets, whichever comes first. Tickets purchased for resale must be recorded as inventory in the general ledger.

4.6.4. NAFIs must physically count inventories.

4.6.5. At least annually, an individual independent of the NAFI conducting the count must observe the physical inventory counts to verify the inventory and confirm the accuracy of the accounting records. Observations may be staggered throughout the year when observing all counts at once is impractical.

4.7 Other Current Assets

4.7.1. Other Current Assets are short-term prepaid expenses that are payments and expenditures made in contemplation of future benefits or performance. Other Current Assets also consist of prepayments for supplies, contracts, insurance, franchise fees, deposits, and advance payments that are not material enough for a separate line item disclosure. Prepaid expenses are accounted for in multiple accounts in the Other Current Assets category (refer to the NAFSGL for a complete list of accounts and definitions).

4.8 NAFI-Titled Fixed Assets and APF-Titled Fixed Assets

4.8.1. Fixed assets purchased with NAFs, donated, or transferred to a NAFI with a useful life of two or more years and an acquisition cost of $7,500 or more must be capitalized. Services with more stringent capitalization thresholds may follow their internal policy. This applies to a single item, or to multiple identical items purchased or transferred to the NAFI at the same time.

4.8.1.1. All Services must set the minimum capitalization threshold for assets purchased in quantity at a purchase cost equal to or greater than $7,500; Services with more stringent thresholds may follow their internal policy. The assets must be identical items with a useful life of two or more years and must meet all fixed-asset criteria in paragraph 3.6.1. Whole-

room capitalization and composite purchase capitalization are both permitted for assets purchased in quantity.

4.8.2. When an asset is traded in at the time of purchase, the new asset is recorded at the amount of the monetary consideration paid, plus the trade-in allowance for the old asset. The acquisition cost and accumulated depreciation of the traded-in asset are removed from the accounting records. If the trade-in allowance is less than the book value of the old asset, then a loss will result. These losses are recorded in the "Other Non-Operating Expense" GLAC of the NAFI. If the trade-in allowance is more than the book value of the old asset, then the difference is subtracted from the acquisition cost of the new asset. No gain is recognized.

4.8.3. Assets-in-progress include all costs attributable to a construction project, such as new building construction, renovation of existing buildings, and fixed assets purchased as part of the project. The DoW Components must use construction-in-progress to accumulate the cost of real property construction projects. The AO transfers the accumulated cost to the appropriate fixed asset account and begins depreciation on the date of receipt shown on the receiving document when no installation is required, the date installed when required, or the date the asset is available for use. NAFI management establishes facility depreciation periods per the guidance in Volume 4. Fully depreciated buildings remain on the NAFI accounting books until the asset is sold or retired.

4.8.4. Record donations of assets and services material to the financial statements. Assets donated or transferred without the expenditure of funds are recorded at the fair market value on the date the asset was donated or transferred. If the fair market value cannot be determined, then the amount recorded is the book value of the donated asset in the donor's accounting records. Donated artifacts should not be included in the financial statements unless the NAFI: 1) uses or intends to use the artifact in its primary operations outside of its educational function, or 2) the NAFI sells or intends to sell the artifact and use the proceeds for something other than purchasing another artifact for educational purposes.

4.8.5. When NAFIs exchange assets without monetary consideration (a nonmonetary exchange), the gaining NAFI records the assets received at the net book value of the losing NAFI, with the offsetting entry to the Realized Gains and Losses for Sale of Fixed Asset Income GLAC on both NAFIs.

4.8.6. APF property obtained for free is recorded separately from other fixed assets because title and control remain with APFs. For APF fixed assets expected to benefit more than one accounting period, acquisition-related costs (repairs, transportation, installation) and subsequent outlays that extend useful life are recorded and depreciated over the asset's useful life. For APF fixed assets held one year or less, all costs are expensed in the period the asset is held.

4.8.7. Fixed assets acquired through the Utilization Support and Accountability (USA) process, the UFM process, or 10 United States Code (U.S.C.) § 2492 authority are NAFI assets unless APF-titled, and proceeds from their disposition revert to the NAFI. Refer to DoDI 1015.15 for further information on the USA and UFM processes and 10 U.S.C. § 2492 authority.

4.8.8. Artifacts are historical treasures or heritage assets held primarily for educational purposes in a museum, with measures taken to preserve them. Costs incurred to acquire artifacts must be recorded as a non-operating expense and must not be recognized as part of asset value or depreciated.

4.8.9. A unique aspect of NAF accounting is that some assets, particularly buildings, are purchased with NAFs and used exclusively by the NAFI while title rests with the U.S. Government. NAF-procured property or facilities may be transferred to APF for maintenance when Military Service regulations allow. On receipt of approved documentation from NAFI management, record these items in the NAF property records and general ledger as APF-Titled Fixed Assets and begin depreciation. Assets acquired by Memorandum of Agreement that transfers title and maintenance to an APF are not depreciated in the NAF accounting records.

4.8.10. The NAFI may receive title to fixed assets and may make payment for fixed assets before the NAFI has physical possession of the property. Typically, this happens when property destined for a NAFI overseas is delivered to a stateside port for over-water transportation by government means. Payment is made based on the receipt at the port and is recorded in the appropriate fixed asset account. When asset reaches final transit location, begin depreciation on the date of receipt shown on the asset receiving document in cases where no installation is required, the date installed (if required), or the date the asset is available for use.

4.8.11. Disposal means the NAFI activity manager or custodian has physical control of an item and disposes of it. The NAFI activity manager or custodian must prepare and approve documents for the disposition of fixed assets. When property is transferred to APFs, the transfer must be evidenced on the form required by APFs.

4.9. A physical inventory of all fixed assets must be conducted at least annually and observed by at least one individual independent of the NAFI conducting the count, to verify the inventory and confirm the accuracy of the accounting records. When performing the inventory all at once is impractical, the NAFI may schedule and conduct it by area.

4.9.1. Property subsidiary ledgers serve as property control records and must, at a minimum, list each piece of property, its acquisition date, acquisition value, useful life, depreciation to date, and current book value. The ledger may be automated or manual, but automation must be used when available. The NAFI must prepare the documentation needed to change ledger data even when no general ledger entry is required, such as a fixed asset transferred between locations within the same NAFI.

4.10. DoW Components must use the straight-line method of depreciation and must prescribe and disclose the useful lives of assets in the notes to the financial statements. All tangible fixed assets except construction-in-progress must be depreciated over their expected useful lives, and all NAF activities recognize depreciation of their fixed assets as an operating expense. Refer to Volume 4 for the requirement to subtract salvage value from acquisition cost before computing depreciation.

4.10.1. For NAF capital assets whose titles transfer to APFs but that the NAFI still uses, continue to depreciate them on the NAFI books until fully depreciated. Fully depreciated assets still in use must be reported on the balance sheet until disposed of by sale or retirement.

4.10.2. In the case of constructed real property, depreciation will commence when the building is available for use, regardless of whether the building is fully occupied.

4.10.2.1. If an asset remains in use beyond its estimated useful life, the NAFI must retain it in the property accountability or management system and in the accounting records, reflecting both its recorded cost and accumulated depreciation until disposition.

4.10.2.2. Depreciation of real property must not be accelerated at installations approved for realignment, closure, or re-stationing. On actual closure of the facility, the NAFI must expense the undepreciated value in the applicable extraordinary expense account.

4.10.3. In accordance with ASC 350-40-35-4, internal-use software will be amortized on a straight-line basis unless another systematic and rational basis is more representative of the software's use. Software acquired for research and development with no alternative future use will be amortized over the period of the project as opposed to the normal life-cycle amortization. Refer to Volume 4 for detailed guidance.

4.11 Other Long-Term Assets

4.11.1. Other Long-Term Assets include those not identified in other asset lines of accounting that are held for longer than 1 year. Other Long-Term Assets consists of long-term pension benefit assets, long-term receivables, long-term prepaid expenses, long-term leases and capital leases, certificates of deposit (more than 12 months), marketable securities, long-term contributions, long-term franchise fees, intangible assets, and long-term royalty and trademark fees.

4.12 Accounting Requirements for Liabilities

4.12.1. The NAFSGL contains two liability categories: Current Liabilities and Long-Term Liabilities. Current liabilities are due, or will be due, on demand within one year; long-term liabilities are due over a period longer than one year from the balance sheet date. Accounting requirements for liabilities are in paragraphs 4.1 through 4.3.

4.12.2. Liabilities arise from the acquisition of goods or services. Accounts payable must be recognized upon receipt of services or when accepting title to goods. Under accrual accounting, accrued liabilities are recorded for goods or services which have been provided but for which invoices have not yet been received; and therefore, not yet included in accounts payable.

4.12.3. Contingencies are existing conditions involving uncertainty as to possible gain or loss that are resolved when one or more future events occur or fail to occur. Loss contingencies are accrued when the outcome is probable and the amount is reasonably estimable, and gain contingencies are not recorded, per ASC 450-20-25. When a contingency is identified, the AO

must footnote the year-end Military Service level consolidated financial statements to explain the contingency and the potential gain or loss.

4.13 Payment of Liabilities

4.13.1. The NAFI manager or designee is responsible for approving the disbursement of NAFs. The AO must not make disbursements without the approval of the NAFI manager or designee, or as otherwise authorized in this Regulation.

4.13.2. NAFIs must submit the following documents, properly prepared and authenticated, to the AO to support payment for procurements. A procurement document, e.g., purchase order (PO), contract, blanket purchase agreement, or similar documents; a DoD (DD) Form 250, Material Inspection and Receiving Report, or other signed document that provides evidence goods were accepted or services were received; and a vendor invoice or claim for payment.

4.13.3. For overseas shipments, the AO must receive a vendor invoice and proof of shipment before payment; these payments may be made before receipt or acceptance of the goods.

4.13.4. When a NAFI purchases goods or services from another NAFI, it must submit a DD 1149, Requisition and Invoice/Shipping Document, or similar form to the AO to support the transaction.

4.13.5. NAFI purchases of goods or services from the Government (for example, bills from APFs) are not usually supported by a procurement instrument; the NAFI must submit a DD 250 or other signed document to the AO to support payment.

4.13.6. A vendor invoice represents a claim against NAF. All invoices must be date-stamped at the time of receipt and must meet the Prompt Payment Act criteria in 5 Code of Federal Regulations 1315. Refer to Volume 10 for additional information on contract payments.

4.14 Accounting Requirements for Net Worth

4.14.1. Net Worth (Equity) consists of capital invested in NAFIs plus or minus net income or loss since inception. Transactions into and out of equity are limited to net income, net losses, entries associated with establishing the fund, and certain adjustments. Adjustments are rare and may include certain accounting principle changes, prior period adjustments greater than one percent of the assets in the consolidated balance sheet (or less than one percent but deemed material), and distribution of capital. The NAFSGL contains one net worth/equity category; accounting requirements are in paragraphs 6.1 and 6.2.

4.14.2. When a new NAF organization with preexisting capital is authorized, the capital is recorded as equity (for example, when a private association converts to a membership association). Equity is disestablished when a NAF organization is dissolved.

4.14.3. Equity may be distributed by declaring dividends to other NAF organizations (for example, dividends paid by installation restaurants) or through special grants for new construction

and facility improvements. The declaration of dividends by the Military Exchanges and the distribution of grants must be recorded and reported as decreases in equity. The receipt of Military Exchange dividends and of grants that support recurring operations must be recorded as non-operating income, while the receipt of grants for capital items must be recorded as equity transactions. Equity is transferred as cash or other assets.

4.13.4. Transfers into and out of the Other Equity or Earnings general ledger account are limited to the following: net income; net losses; declaration of dividends by Military Exchanges; prior year material corrections; components of other comprehensive income (loss) prescribed by ASC 220-10-45-10A; entries associated with the establishment, disestablishment, or consolidation of NAFIs; and distribution and receipt of capital.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 4.

5.0 INCOME AND EXPENSES

5.1 This section prescribes DoD NAF income and expense policies. NAFI programs and facilities must be operated, maintained, and funded as an integral part of the DoW personnel and readiness program. These policies apply to all NAFIs and their supporting AOs, including the Military Exchanges (Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps Exchange), except that Exchanges are not required to use the NAFSGL.

5.2 Income Standards

5.2.1. In accordance with ASC, Topic 605, Subtopic 10, Section 25, NAFIs must recognize revenue (classified as "income" in the NAFSGL) when it is realized or realizable.

5.2.2. The AO must record income in the appropriate NAFI's financial records on a consistent basis, in the appropriate cost center, and in the operating cycle in which the income is earned, per DoDI 1015.15.

5.3 Expense Standards

5.3.1. NAFIs must recognize costs as an expense in the period that the income with which they are associated is recognized (the matching principle).

5.3.1. Using the accrual method, AOs must record expenses on a consistent basis, in the appropriate cost center, and in the operating cycle in which the expense was incurred. Refer to Volume 4 for further guidance on accrual accounting.

5.4 Accounting for APF Support to NAFIs

5.4.1. Title 10 U.S.C. § 2241 is the basic statutory authority to provide APFs to support Morale, Welfare, and Recreation (MWR) functions. MWR USA and UFM are the two mechanisms for providing APF support to NAFIs. Both involve use of NAFs for MWR expenses that, per DoDI 1015.15, should be borne by APFs. Under MWR (USA), NAFIs use NAFs to

execute such expenses subject to later APF reimbursement under Memoranda of Agreement (MOAs). Under UFM, APFs may be transferred into NAF accounts before expenditure; funds appropriated to DoW and available for MWR programs are treated as NAFs for all purposes under UFM MOAs and remain available until expended (10 U.S.C. § 2491). Other statutory authorities available to NAFIs are 10 U.S.C. §§ 2492, 7459, 8478, and 9459.

5.4.2. MWR (USA) Recording

5.4.2.1. The AO must record funds received from appropriated sources for expenses covered by MWR (USA) as MWR (USA) income.

5.4.2.2. The AO must record authorized expenses (the amount subject to APF reimbursement), as they occur, in the applicable expense accounts so that MWR (USA) support is identifiable, per DoDI 1015.15.

5.4.3. UFM Recording

5.4.3.1. The AO must record UFM funds received in the cash account with a contra entry to the Unearned Income (liability) account identified as UFM.

5.4.3.2. The AO must record authorized expenses, as they occur, in the applicable expense accounts so that UFM support is identifiable, per DoDI 1015.15, and reduce the cash account as applicable in the same reporting cycle.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 5.

6.0 FINANCIAL REPORTING

6.1 These policies apply to DoD NAFIs and their supporting AOs. They apply to the Military Exchanges, except for policies related to the NAFSGL.

6.2 The DoW Components are responsible for the fair presentation in the financial reports of financial position, results of operations, and the program and personnel information included, and for compliance with NAF program laws and regulations.

6.3 The supporting AO is responsible for compiling the necessary information from accounting and payroll systems and for preparing financial statements and reports. The AO is also responsible for the integrity of those systems and the accuracy of the data produced. Refer to Section 2 for definitions, reporting requirements, and accounting standards.

6.4 The principal financial statements used to convey information to users are the Balance Sheet, Statement of Income and Expense, Reconciliation of Net Worth, and Statement of Cash Flows.

6.5 The NAFSGL Financial Statement Mapping to the financial statements is maintained on the DoD NAF Accounting website. The working versions of all statements and notes must include line numbers as shown there.

6.6 Retain all records relating to payments to individuals and firms according to the Internal Revenue Service (IRS) Topic Number 305, "Recordkeeping."

6.7 International Balance of Payments (IBOP) Program is an accounting of a country's international transactions for a particular period of time. NAFIs are subject to the IBOP reporting guidance prescribed in DoDI 4105.67, "Nonappropriated Fund (NAF) Procurement Policy and Procedure," and Volume 6.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 6.

7.0 NONAPPROPRIATED FUND PAYROLL

7.1 This chapter provides the standard NAF policy for DoD NAF payroll and applies to DoD NAF employees. NAF employees are not paid from funds appropriated by Congress but from funds generated by NAFIs. NAF employees are Federal employees, but they are not covered by most laws administered by the Office of Personnel Management (OPM), unless specifically provided by statute. Policy in this chapter applies to all NAFIs, NAF Human Resources (HR), NAF payroll offices, and their supporting AOs.

7.2 Payroll Oversight

7.2.1. Defense Civilian Personnel Advisory Service, NAF Personnel Policy Division is responsible for developing, coordinating, and publishing DoD-wide civilian HR policy concerning NAF employees. DoD NAF HR policy is found in DoDI 1400.25, with volumes in the 1400 series.

7.2.2. All NAF payroll systems, whether being designed, implemented, or in use, must operate per the authoritative guidance document on the FMR webpage and Volume 1.

7.2.3. AOs must ensure all payroll information (including accrued payroll and benefits) passes to the accounting system, whether systemically or manually; update the appropriate NAFSGL accounts; and meet the reporting requirements in DoDI 1015.15 and Volume 13, Section 6. AOs must also compile the financial statements.

7.2.4. The NAF payroll office has primary responsibility for all payroll processing and must work closely with the supporting NAF personnel office, NAFIs, and NAF employees.

7.3 Payroll Deductions

7.3.1. Payroll deductions or withholdings from an employee's pay must be properly authorized by the employee (or made per applicable laws), adequately documented, and paid when due to the appropriate recipient in the authorized amount.

7.3.2. The payroll office must withhold taxes from civilian employees' wages and remit them to tax jurisdictions wherever the Federal Government has entered withholding agreements. State and local taxes must be withheld from the pay of enlisted personnel compensated from NAF for off-duty work.

7.3.3. NAFIs located in foreign countries must neither pay to, nor collect for, any foreign country or political subdivision any tax unless the United States has consented to that levy by treaty, convention, or Executive agreement.

7.4.4. The payroll office will withhold a set percentage of an employee's salary each pay period to pay the employee's share of Federal Insurance Contributions Act (FICA) contribution. FICA also requires that the NAFI contribute a set percentage of an employee's salary to the Social Security Trust Fund and the Medicare Trust Funds.

7.5.5. If the gross salary of an employee is not sufficient to permit all deductions to be made, then deductions will be made in the order of precedence established by the OPM Personnel Policy Memorandum, PPM-2008-01, "Order Of Precedence When Gross Pay Is Not Sufficient To Permit All Deductions," dated July 30, 2008. NAFIs must consult policy, legal staff, and collective bargaining agreements to ensure the proper order of precedence is followed.

7.4 Employee Retirement Accounting

7.4.1. NAF HR/payroll offices are responsible for providing and processing forms for employees retiring under the Civil Service Retirement System (CSRS) or the Federal Employee Retirement System (FERS). OMB Circular A-130, Appendix II prescribes electronic processes and digital signatures whenever possible, and in the Government's best interest. NAF HR/payroll offices must fulfill the following CSRS or FERS responsibilities (for more on portability retirement, refer to Volume 8).

7.4.2. NAF HR/payroll offices must prepare and maintain a Standard Form (SF) 2806 (CSRS) or an SF 3100 (FERS), Individual Retirement Record, for each employee subject to CSRS or FERS. Each SF 2806/SF 3100 must be correct, complete, clear in every detail, and properly certified to ensure timely, accurate closeout when an employee separates or transfers to another agency's paying jurisdiction.

7.4.3. NAF HR/payroll offices must maintain adequate control over retirement records and associated monetary balances.

7.4.4. NAF HR/payroll offices must promptly send claims and records to OPM (CSRS/FERS Retirement Records, Office of Personnel Management, Retirement Operations Center, P.O. Box 45, Boyers, PA 16017-0045).

7.4.5. NAF HR/payroll offices must withhold retirement deductions from employees' salaries, make agency contributions, and send the deductions and contributions to OPM for deposit. Deductions begin on the day the employee acquires retirement-system coverage and must be prorated for partial pay periods. FICA contributions must be withheld and reported per current

Treasury guidance. Employee retirement deductions, employer contributions, employee contributions to applicable 401(k) plans, and loan repayments must be made biweekly and submitted to the appropriate NAF employee benefit system. Thrift Savings Plan (TSP) deductions and the employer's matching contributions must be forwarded to the TSP.

7.5 Leave Accrual

7.5.1. Annual leave accrual is material and must be recognized as a liability and expensed monthly in the individual NAFI's accounting records. The individual leave records or annual leave report, showing the accumulated leave balance for all employees, must serve as the subsidiary ledger to the appropriate NAFSGL account for each NAFI.

7.5.2. Monthly sick leave accrual is not a liability to the NAFI. The NAFI must recognize sick leave used as an expense monthly in its accounting records.

7.6 NAFIs must accrue the estimated liability for a business-based action when probable and accrue a separation allowance monthly where applicable. (DoDI 1015.15 requires NAFIs to set aside and invest funds regularly to ensure cash is available to pay severance benefits for U.S. and Foreign National employees on separation; DoDI 1400.25, Volume 1405 sets the eligibility criteria, exclusions, conditions, and computation and payment requirements.)

7.7 All payroll disbursements must be paid to NAF employees by electronic fund transfer (EFT) unless the head of the agency or designee grants a waiver. The head of the agency or designee may waive the EFT requirement on receipt of written certification from the employee stating that the employee has no account with a financial institution or describing another extenuating circumstance.

7.8 NAF payroll offices must keep records sufficient to support all NAF payroll transactions. Employment-tax records must be retained for 4 years after the tax due date or the date the tax was paid, whichever is later (IRS Publication 15). Aggregate records of payroll disbursed each pay period (base pay, additions to and deductions from pay, and leave balances) must be stored and transferred to the National Personnel Records Center for 56 years' retention (National Archives and Records Administration General Records Schedule 2.4).

7.9 All DoD NAF organizations must follow the internal control standards in OMB Circular A-123; DoDI 1015.15, subparagraph 6.7.3; DoDI 5010.40; and DoDI 7600.06 for payroll operations and for the methods and procedures adopted to process and audit payrolls.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 7.

8.0 ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS

8.1 This section provides requirements to account for single-employer defined benefit pension and other postretirement plans. Its policies apply to DoD NAFIs, their supporting Accounting Offices, and Military Services Exchanges. This section does not apply to Military Department

plans considered multi-employer. Each NAFI and its supporting Certified Public Accounting firm must fully review the exceptions and variables associated with pension accounting before implementation.

8.2 NAFIs must report pension plan assets and liabilities annually in conformance with FASB ASC Topic 715, "Compensation-Retirement Benefits." The current published version of ASC Topic 715 is the superseding authority for the accounting addressed in this section.

8.3 The Military Departments must calculate the funded status of a benefit plan as of the year-end statement date (measurement date). Funded status is the difference between the projected benefit obligation and the plan assets at fair value.

8.4 Temporary equity adjustments to pension balances must not be included in the net worth determination. Post these adjustments as an offset to the equity account, treated in the same manner as unrealized gains and losses on investments per ASC Topic 320, "Investments-Debt Securities."

8.5 At a minimum, the NAFI must disclose additional information about certain effects on net periodic benefit cost and the amount and timing of any plan assets expected to be returned to the Military Departments and NAFIs. See ASC Topic 715 for the full disclosure requirements.

Companion reference: For detailed procedures, implementation guidance, definitions, and the full data tables, see Supplemental for Volume 13, Section 8.

DEPARTMENT OF WAR
FINANCIAL MANAGEMENT REGULATION

VOLUME 14: "ADMINISTRATIVE CONTROL OF FUNDS AND ANTIDEFICIENCY ACT VIOLATIONS"

UNDER SECRETARY OF WAR (COMPTROLLER)

Table of Contents

1.0 GENERAL 3

3.0 ANTIDEFICIENCY ACT VIOLATIONS 16

4.0 ANTIDEFICIENCY ACT VIOLATION PROCESS 31

VOLUME 14

ADMINISTRATIVE CONTROL OF FUNDS AND ANTIDEFICIENCY ACT VIOLATIONS

1.0 GENERAL

1.1 Overview

This volume prescribes the Department of War (DoW) requirements for the administrative control of funds and compliance with the Antideficiency Act (ADA). It defines the statutory restrictions and the implementing executive branch requirements that govern fund control, explains the legal framework of the ADA, and establishes the consequences for violations.

The detailed policies, procedural guidance, and the complete ADA violation process are prescribed in this Volume. This volume establishes the authoritative, legally based policy for the administrative control of all DoW appropriations and funds. It defines what constitutes a violation of the ADA and related funding statutes and establishes the legal consequences of such violations. This volume serves as the foundational rulebook that all DoW implementation policies and procedural guides must follow.

1.2 Authoritative Guidance

Refer to the Volume 14 authoritative guidance document on the FMR webpage.

1.3 Definitions

Refer to the Glossary.

2.0 ADMINISTRATIVE CONTROL OF FUNDS POLICY

2.1 Defense-wide Appropriations

Unless otherwise specified, for purposes of this volume, the Office of the Under Secretary of War, Deputy Comptroller (Program/Budget) is considered a "DoW Component" for matters involving Defense-wide (Treasury Symbol "97") appropriations.

2.2 Administrative Control Systems

DoW Components must:

2.2.1. Design systems for the administrative control of funds so that formal administrative subdivisions of funds are placed at the highest practical organizational level consistent with effective and efficient management.

2.2.2. Restrict the use of limitations on available funds to those necessary to comply with statutory provisions, such as those imposed by the appropriate DoW Authorization or DoW Appropriations Act, or to address specific management requirements.

2.3 Reporting Requirements for Administrative Control Systems

DoW Components must establish a reporting system for the administrative control of funds process to provide data for reviewing the efficiency (e.g., obligation rate) with which funds are used. Reporting requirements must be established separately from a formal administrative subdivision of funds limitation when a need exists for accumulating data below the allocation level.

2.4 Delegations of Authority

All delegations or redelegations of authority or functions under this volume must be made in writing. Delegation or redelegation of authority or function is prohibited if the delegation or redelegation limits the capabilities of the Secretaries of the Military Departments, the Directors of the Defense Agencies, or designated officials of the Office of the Secretary of War to exercise the control necessary to discharge properly their responsibilities in accordance with this volume.

2.5 Statutory Limitations and Duties of DoW Officials

DoW officials are prohibited from authorizing or creating any obligation or making any expenditure beyond the amount permitted under any statutory limitation that modifies or restricts the availability of funds. The DoW Authorization or Appropriations Acts frequently impose special or recurring statutory limitations on DoW funds or may be imposed by other legislation. Specifically, DoW officials to whom funds are entrusted or apportionments or formal administrative subdivisions of funds are issued at any level must:

2.5.1. Limit any further subdivision of funds to the amount provided and currently available.

2.5.2. Limit the obligation and expenditure of funds provided to the amount currently available at the time of the obligation or expenditure, enforce those limitations, and ensure that all personnel involved in administrative control and use of available funds are knowledgeable of such limitations.

2.5.3. Limit the obligation and expenditure of funds provided to the purposes authorized by type of fund or account.

2.5.4. Ensure that the obligation and expenditure of funds provide for a bona fide need of the period of availability of the fund or account.

2.5.5. Preclude acceptance and use of voluntary services, gifts, and donations except in accordance with specified provisions of law.

2.5.6. Ensure that all personnel, including the actual fund users, contracting personnel, and other personnel involved in administrative control and use of available funds, are fully aware of, and comply with, the requirements of the ADA as described in this Volume and other applicable guidance. Potential ADA violation investigation and reporting requirements are also contained in this volume.

2.5.7. Ensure that decisions on the obligation of funds comply with the provisions of the ADA by careful review and examination of the facts involved in advance of the decision.

2.5.8. Enforce compliance with all the provisions of the ADA and other specific laws that limit the obligation and expenditure of funds.

2.5.9. Maintain internal control systems to ensure that:

2.5.9.1. All available funds are identified, controlled, and recorded in the official accounting records from the time received until subdivided to others or obligated and expended.

2.5.9.2. All available funds are identified with authorized purposes by account, period of availability for new obligations, and for the period of availability for expenditure.

2.5.9.3. All special and recurring provisions and limitations on the obligation and expenditure of funds are identified and documented for all available funds and accounts.

2.5.9.4. All proposed obligations of funds are reviewed to ensure that sufficient funds are available to cover the obligation, the purpose of the obligation is consistent with the authorized purposes of the fund or account, and the obligation does not violate any special or recurring provisions and limitations on the incurrence of obligations.

2.5.10. Issue and maintain appropriate delegations of authority.

2.5.11. Ensure that amounts reported to the Department of the Treasury (Treasury) are accurate, that is, recorded accurately and posted to the correct appropriation account.

2.5.12. Ensure that internal controls are in place and operating as required by DoD Instruction 5010.40, "DoD Enterprise Risk Management and Risk Management and Internal Control Program."

2.5.13. Ensure that appropriate training programs are in place to provide all personnel involved in administrative control and use of available funds with the knowledge of funds control and the skills and abilities to perform the duties specified in paragraph 2.5.6.

2.6 Apportionments, Allotments, Suballotments and Allocations

The administrative control of funds process restricts obligations and expenditures (disbursements) to the amount available at the apportionment, allotment, suballotment and allocation levels. Apportionments, allotments, suballotments, allocations and other formal administrative subdivision of funds designated by a DoW Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA.

2.6.1. Apportionments. An apportionment is a distribution made by the Office of Management and Budget (OMB) of amounts available for obligation in an appropriation or fund account into amounts available for specified time periods, program, activities, projects, objects, or any combination of these. The apportioned amount limits the obligations that may be incurred. An agency may further subdivide an apportionment into allotments, suballotments, and allocations.

2.6.1.1. When DoW appropriations or other funds are required to be apportioned under law by OMB to a DoW Component, a request for the apportionment or reapportionment must be prepared and submitted through the Under Secretary of War (Comptroller) (USD(C)) to the Director of OMB. A request for an apportionment must be in such form and at such time as the USD(C) may prescribe to conform to the requirements of the Director of OMB. See Volume 3 for the preparation of apportionment or reapportionment schedules and the accounting of DoW apportionments and reapportionments.

2.6.1.2. Obligations during any apportionment period must not exceed the amount of the apportionment available for that period or of any administrative subdivisions of the apportionment. Apportionments may include estimates of anticipated budgetary resources; however, these approved anticipated resources may not be obligated until realized.

2.6.1.3. Apportionments that anticipate the need for a deficiency appropriation or a supplemental under 31 United States Code (U.S.C.) § 1515 will be specifically identified on the apportionment request. To qualify as a deficiency apportionment, the request must be required by:

2.6.1.3.1. Laws enacted subsequent to the transmittal of the annual budget for the year to Congress;

2.6.1.3.2. Emergencies involving human life, the protection of property, or the immediate welfare of individuals; or

2.6.1.3.3. Specific authorization by law.

2.6.2. Allotments. An allotment is a subdivision of an apportionment that is made by the head of an agency (e.g., Secretary of War), or designee (e.g., USD(C)), to incur obligations within a prescribed amount. Formal distribution, i.e., subdivision of an allotment, must contain at least the same statutory and other limitations applicable to the original allotment (e.g., suballotments/allocations to operating agencies or installation-level accounting activities).

2.6.2.1. The USD(C) must make allotments of apportioned amounts, in writing, to the heads of DoW Components. The Secretary of a Military Department, or designee, must make further allotments of apportioned amounts, in writing, to the heads of operating agencies.

2.6.2.1.1. The original signed document or an authenticated copy bearing a signature or an electronic equivalent of a signature must be forwarded to the recipient of the allotment. This does not preclude the use of an automated system to communicate and record fund subdivisions as long as a confirmation copy bearing an authenticated signature or an electronic equivalent of a signature is available to the recipient via the automated system.

2.6.2.1.2. At a minimum, this document must contain the following basic information:

2.6.2.1.2.1. Amount available;

2.6.2.1.2.2. Funding source;

2.6.2.1.2.3. Time period of availability;

2.6.2.1.2.4. Position and title of the responsible official and other agency limitations; and

2.6.2.1.2.5. Justification for changes in allotments.

2.6.2.1.3. A suballotment is a subdivision of an allotment. It is a formal distribution that must contain at least the same statutory and other limitations and requirements applicable to the original allotment. Amounts allotted may be suballotted to major subordinate operating commands.

2.6.2.2. Allotments/suballotments must not exceed the amount available for use for each apportionment period.

2.6.2.3. The use of an electronically reproduced equivalent of an original signature is considered an acceptable implementation of the requirement for a document containing an authenticated signature. However, in accomplishing electronic transmission of fund authorizations

through linked computer systems, internal controls for electronically transmitted allotments and suballotments must have the following minimum characteristics:

2.6.2.3.1. Fund control systems must provide validation of fund authorities by using access codes and lockout techniques.

2.6.2.3.2. One set of access codes must be used to issue fund authorizations.

2.6.2.3.3. Other controlled access codes must be used to process a signature section of fund control documents for transmission to funded activities.

2.6.2.3.4. The authentication, signature element, and symbol must be included as part of electronically produced funding documents.

2.6.2.4. Anticipated transfers or other items of anticipated receipts may be allotted/suballotted/allocated only when realized.

2.6.2.5. Allocations are subdivisions of suballotments, or subdivisions of allotments that are not required to be suballotted (reference subparagraph 2.6.3).

2.6.2.6. DoW Components must not authorize or incur an obligation or make a disbursement against anticipated transfer authorizations until the transferred resources are realized. Such actions must be delayed until the completed Standard Form (SF) 1151, "Nonexpenditure Transfer Authorization," is received and the resources are realized. Nonexpenditure Transfers are processed using the Agency Transaction Module within the Central Accounting Reporting System (CARS). For information and guidance on using the CARS, see the Treasury Financial Manual (TFM) Volume 1, Part 2, Chapter 2000.

2.6.2.7. DoW Components must not authorize or incur an obligation or make a disbursement against anticipated reimbursements. Such actions must be delayed until the applicable customer order is received from Federal Government activities and funds are collected from public activities. See Volume 11 for reimbursable policy.

2.6.3. Allocations. Allocations are subdivisions of suballotments or subdivisions of allotments that are not required to be suballotted.

2.6.3.1. The recipients of allotments or suballotments, or their designees, must make allocations in specific amounts to the heads of installations or organizational units of DoW Components, as required. The total of the amounts allocated must not exceed the amount of the allotment/suballotment available for each period.

2.6.3.2. A suballocation is a subdivision of an allocation. The recipients of allocations may make suballocations to the heads of other organizational units, including those of other DoW Components, as required. The total of the amounts suballocated must not exceed the amount of the allocation available for use for each period.

2.6.3.3. Allocations and suballocations must be made in writing and the recipient's copy must either be signed by the fund-issuing authority or be an authenticated copy bearing an authorized authenticated signature or an electronic equivalent of a signature. At a minimum, the document must contain the following basic information:

2.6.3.3.1. Name or title of the allocation/suballocation recipient.

2.6.3.3.2. Amount of the allocation/suballocation and the period of availability.

2.6.3.3.3. Legal restrictions or limitations on the obligation and disbursement of the allocated/suballocated funds.

2.6.3.3.4. The amount of anticipated reimbursements specified to the organizational level responsible for receiving the reimbursable orders.

2.6.3.4. In emergency circumstances, it may not be possible to provide a formal allocation or suballocation document before incurring obligations. Under such emergency conditions, it may be necessary to use expedited means of communication pending formal confirmation.

2.6.3.4.1. A telephone or other electronic means may be used to make arrangements to indicate that funds will be provided. However, the official allocation or suballocation of funds does not occur until the substantiating documentation of the issuance of funds has been transmitted by the issuer and received by the recipient.

2.6.3.4.2. In such cases, both the issuer and recipient must document the funding transaction showing action taken, the date, amount involved, authorizing official, and method of communication. The issuer must immediately provide a copy of the documentation to the recipient and request acknowledgment of receipt. The recipient must confirm receipt and acceptance to the issuer. The issuer must sign the same documentation and return the document containing both signatures. The official funds issuance does not occur until this final double-signed (issuer and recipient) document has been received by the recipient of the funds.

2.6.3.4.3. The recipient is not authorized to issue funds to others or authorized to incur obligations with the funds received until after receipt of the double-signed document.

2.7 Other Fund Management

2.7.1. Centrally Managed Account (CMA). The head of an operating agency that has specific written approval from the head of a DoW Component may establish CMAs. A CMA is a formal administrative subdivision of funds (allotment, suballotment, or allocation) that is managed at the highest practical level and allows officials at a lower echelon to incur obligations or charge expenditures to the CMA for authorized purposes without further determination or certification of fund availability for the individual transactions. Fund balances at the allotment/

suballotment/allocation level are subject to the provisions of 31 U.S.C. § 1517(a)(1). Fund authorization documents forwarding budget authority to the CMA must include the following statement: "Authorizing or incurring obligations in excess of the cumulative allotment/ suballotment/allocation amount, contained herein, is a reportable violation of 31 U.S.C. § 1517."

2.7.1.1. These accounts must be established only when it is impractical to administer decentralized allotments/suballotments/allocations under normal operating procedures. The head of an operating agency, usually a general officer or Senior Executive Service level, is responsible for establishing adequate controls to ensure CMA managers are expeditiously informed of obligations and expenditures at the lower echelon levels to prevent the CMA from becoming over-obligated/expended. Before approval, a specific written determination must be made that adequate controls have been established to avoid over-obligating/expending the CMA.

2.7.1.1.1. The amount of the CMA must be within the amount and terms of the allotment/suballotment/allocation.

2.7.1.1.2. Requests for the establishment of a CMA must fully justify the need, delineate possible alternatives, and clearly demonstrate why the CMA method is the only practical administrative procedure.

2.7.1.1.3. The official who establishes or continues the use of a CMA must be held responsible, to the extent prescribed by law, directive, and regulation, for ensuring that obligations are not incurred, or expenditures made, beyond the amount available under each CMA.

2.7.1.1.4. The establishing or continuing official is responsible for the administration of each CMA and must prescribe an adequate system of financial and nonfinancial control. The system must:

2.7.1.1.4.1. Designate the name or position of specific individuals authorized to incur obligations or make expenditures against each CMA.

2.7.1.1.4.2. Establish suitable limitations on the numbers, quantities, or volume for which obligations may be incurred or expenditures made.

2.7.1.1.4.3. Provide accounting and reporting at least monthly.

2.7.1.1.4.4. Ensure timely notice to prevent the CMA from being over-obligated/expended by taking necessary management action. This may include (a) increasing the amount of the CMA; (b) terminating the CMA; (c) terminating new obligations or disbursements; and/or (d) taking other necessary management actions to prevent an over-obligation/expenditure.

2.7.1.1.5. Each CMA must be reviewed annually to determine whether its operation should be continued. This determination must be made by the head of the DoW Component concerned, or designee. The annual review must include an evaluation, by an internal audit group, of the adequacy of control procedures established to prevent violations of

31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, and a recommendation to the head of the DoW Component concerned, or designee, whether continuation of the CMA is justified. DoW Components must provide certification as to the adequacy of controls of the CMA. This certification must be submitted with the annual evaluation as required by paragraph 2.12.

2.7.1.2. Components are required to maintain documentation supporting their assessment and produce it on request. At a minimum, Components must maintain records on the following:

2.7.1.2.1. Appropriation and dollar value of the CMA.

2.7.1.2.2. Rationale for establishing a CMA and why it is preferable to other methods of managing the appropriation.

2.7.1.2.3. Individuals primarily responsible for managing the CMA and ensuring fund controls are properly implemented.

2.7.1.2.4. Organizations authorized to make obligations against the CMA.

2.7.1.2.5. Fund controls in place to establish limits on the amount and type of obligations that may be charged to the CMA.

2.7.1.2.6. Monthly execution monitoring and procedures.

2.7.1.2.7. Date and method of testing of internal controls.

2.7.2. Reimbursable Orders. A reimbursable order is an order for services, supplies, material, or equipment placed by a requiring DoW Component (or Federal Agency) and furnished by another DoW Component (or Federal Agency) without separate identification of the items, or separate citation of the funds of the requiring DoW Component; and with subsequent delivery to and reimbursement by the requiring DoW Component. The requiring DoW Component records the reimbursable order as an obligation when the procuring DoW Component accepts the reimbursable order in writing. See Volume 3 for recording standards.

2.7.2.1. DoW organizations may be authorized by law to accept reimbursable orders for services provided or goods sold to other Federal Government-funded customers and authorized private parties.

2.7.2.2. Apportioned reimbursements must not be allotted/suballotted/allocated unless there is reasonable assurance that orders will be received. Even though apportioned and allotted/suballotted/allocated, these estimates must not be considered budgetary resources available for obligation unless the following two conditions are met:

2.7.2.2.1. Valid orders, including written agreements, have been received from and obligated by Federal Government-funded customers.

2.7.2.2.2. Advance payment has been collected, in the case of orders from the public.

2.7.2.3. Officials responsible for incurring obligations and making expenditures must be particularly cognizant of reimbursable authority received. Controls must be established and carefully followed to avoid obligating or expending in excess of the amount of appropriated funds available, plus the amount of reimbursements that ultimately will be earned and collected.

2.7.2.4. Under certain circumstances, and only with the prior written approval of OMB, immediate and automatic apportionment of the amounts of reimbursable orders received and accepted may be authorized.

2.7.2.5. Reimbursable orders received from state or local governments, recognized international bodies such as the United Nations and North Atlantic Treaty Organization, foreign governments, corporations, or individuals are subject to special controls.

2.7.2.5.1. These orders are to be recognized as reimbursable orders received only to the extent that cash has been received and deposited with the Treasury. The exception is Foreign Military Sales (FMS) orders. Contract authority may be recognized for FMS orders based upon a dependable undertaking when cash advances are not provided for the full amount of the order from a foreign government or international body. Bills are then presented for payment from the account established in the FMS Trust Fund for the applicable country.

2.7.2.5.2. FMS disbursement controls must be established to ensure that disbursements are not made until the cash is actually received from the foreign country and deposited in the Treasury FMS Trust Fund. Expenditure authorizations are used to ensure that funds are available in the account for the country involved before disbursements are made.

2.7.2.6. Reimbursable orders that are financed by appropriated or revolving funds of Federal agencies provide expenditure as well as obligational authority.

2.7.3. Revolving Funds. A revolving fund is an account authorized by specific provisions of law to finance a continuing cycle of business-type operations and to incur obligations and expenditures that generate receipts.

2.7.3.1. General. Obligations and expenditures of a revolving fund, whether subject to, or exempt from, apportionment, must be controlled under applicable provisions of this volume.

2.7.3.2. Cash Balances. The disbursement of amounts in excess of the Department of the Treasury cash balance of a revolving fund is a potential ADA violation. Additionally, the disbursement of amounts in excess of the balance of sub-numbered cash accounts or other subdivisions of cash within a revolving fund is a potential ADA violation when such sub-numbered accounts or subdivisions have been specifically designated as being subject to the provisions of the ADA.

2.7.3.3. Apportionment. A revolving fund may be subject to apportionment, or it may be exempt from apportionment, depending upon the type of fund.

2.7.3.3.1. Revolving Funds Subject to Apportionment. An apportionment limits the obligations that may be incurred to the apportioned amount. The incurring of obligations in excess of apportioned budgetary resources is a potential ADA violation without regard to whether a revolving fund has additional unapportioned budgetary resources or other assets equal to or greater than the amount of the deficiency.

2.7.3.3.2. Revolving Funds Exempt from Apportionment. A revolving fund that is exempt from apportionment may not incur obligations in excess of available budgetary resources. The incurring of obligations in excess of available budgetary resources is a potential ADA violation.

2.7.3.4. Budgetary Resources. The incurring of obligations in excess of budgetary resources is a potential ADA violation. The concept of "budgetary resources" is defined and explained in OMB Circular A-11, "Preparation, Submission, and Execution of the Budget." Budgetary resources available to revolving funds are composed of the same elements as budgetary resources available to appropriated funds. Further, while budgetary resources available for obligation for reimbursable work differ depending upon whether a reimbursable order is accepted from a Federal Government account or from the public, such budgetary resources are determined in the same manner for a revolving fund as they are for an appropriated fund.

2.7.3.4.1. Orders from other Federal Government Agencies. Funded orders from other Federal Government agencies that represent valid obligations of the ordering account provide a budgetary resource without regard to whether an advance payment accompanies them.

2.7.3.4.2. Orders from the Public. Orders from the public (except FMS orders) including local and state governments and international organizations (e.g., United Nations), provide a budgetary resource only to the extent that the order is accompanied by an advance payment of cash received and credited to the account.

2.7.3.5. Organizational Level for Revolving Fund Potential Violations. Systems for the administrative control of revolving funds should be placed at each organizational level at which budgetary resources may be received, held, transferred, obligated, or expended. The lowest organizational level for administrative control purposes generally should be the level, frequently a single site, at which an obligation may be incurred or expenditure approved. In the case of a revolving fund account that encompasses operations at multiple sites, responsibility for potential ADA violations generally should not be assigned to an organizational level lower than the level at which the administrative control system is adequate to prevent and detect a potential violation of the ADA.

2.8 Obligations and Expenditures

Available funds are used by the incurrence of obligations and expenditures. An amount must be recorded as an obligation or expenditure when incurred, as supported by documentary

evidence of the occurrence of the event. A verbal order or agreement must be formalized in writing or conform to prescribed electronic standards in order to provide proper support and an audit trail for an obligation. Verbal orders executed in this manner without a formal commitment of funds run a high risk of violating the ADA and should be avoided if possible. See Volume 3 to determine the amount and accounting period in which commitments and obligations must be recorded.

2.8.1. Once incurred, all obligations and expenditures must be recorded, accurately and promptly, as of the date incurred even if recordation results in a negative amount in the accounting records for an appropriation or fund, or a formal administrative subdivision of an appropriation. (For this purpose, negative amount means that obligations or disbursements exceed the amount of funds that are appropriated or otherwise available.) A violation resulting from a negative amount is caused by the actions of the individual(s) who caused or created the obligation. The recording of the obligation in the accounting system merely records an obligation that already exists.

2.8.2. Adjustments in obligations may consist of recording changes to obligation amounts that existed in a prior period that may or may not have been identified and recorded during that period. If an adjustment causes total obligations for a prior period to exceed the amount that was available for obligation for that prior period after consideration of all known valid obligations and deobligations, violations of 31 U.S.C. § 1341(a)(1), 31 U.S.C. § 1517(a), or both, may have occurred.

2.8.3. A within-scope contract adjustment is properly chargeable to the funds that funded the original contract. Such adjustment must be charged to those funds even if sufficient funds are not available. If sufficient funds are not available, a potential violation may have occurred.

2.8.4. An increase-in-scope adjustment to a contract is properly chargeable to funds currently available at the time the change was made.

2.9 Reconciliations

DoW managers at all levels must ensure that accounting records for receipt and use of budgetary resources are reconciled. Obvious accounting errors must be corrected immediately, and negative account balances must be researched and reconciled promptly with appropriate source documents.

2.9.1. Transactions or adjustments must be recorded in accounting records only when supported by appropriate source documents or electronic equivalents. Managers must not permit identified errors to go uncorrected for extended periods of time, inaccurate transactions to be recorded, or failures to record transactions in a timely manner. Due diligence is necessary in order to avoid the appearance of a potential ADA violation that occurred because of careless record keeping.

2.9.2. An ADA investigation must be initiated by the applicable DoW Component and reported to the Office of the Under Secretary of War (Comptroller) (OUSW(C)) as required by this volume if a manager suspects that a potential ADA violation may have occurred. However, investigations of potential ADA violations are not required merely to force correction of erroneous records.

2.10 Records

2.10.1. The Defense Finance and Accounting Service (DFAS), working with other DoW Components, must ensure that accounting records are maintained that provide full disclosure and support of the financial operations and resource utilization applicable at each successive organizational level. The accounting records must show the amounts of funds received at each organizational level, funds issued to others, current available balances, and funds committed, obligated, and expended.

2.10.2. These fund control records must constitute an integral part of the official accounting records maintained for each successive organizational level for the DoW Component. Financial reports reflecting funds received, issued, available, and utilized must be prepared from the official accounting records.

2.10.3. DoW Components must maintain key records and documents on appropriations, allotments/suballotments, allocations/suballocations, and budgetary data for the funds for which they are responsible.

2.10.4. DoW Components must retain, for 6 years and 3 months, work papers and documentary evidence developed and/or obtained during an investigation of an actual or potential ADA violation.

2.11 Financial Management Systems

In addition to effective and efficient administrative funds control systems established by the DoW Components, the DFAS and/or DoW Component must be responsible for establishing accounting and finance systems. The accounting and finance systems must be established for reporting commitments and obligations by the DFAS and/or DoW Component. Such systems of accounting and internal controls must comply with the requirements of 31 U.S.C. § 3512(b) and (c).

2.11.1. Federal agencies must maintain systems of accounting and internal controls that ensure:

2.11.1.1. Complete disclosure;

2.11.1.2. Adequate financial information;

2.11.1.3. Effective internal control over and accountability for assets;

2.11.1.4. Obligations and costs comply with applicable laws;

2.11.1.5. Revenues and expenditures or expenses applicable to DoW operations are accounted for properly so that accounts and reliable financial and statistical reports are prepared, and accountability of assets is maintained;

2.11.1.6. Suitable integration of DoW accounting with the central accounting and reporting responsibilities of the Secretary of the Treasury under 31 U.S.C. § 3513; and

2.11.1.7. All assets are safeguarded against waste, loss, unauthorized use, and misappropriation.

2.11.2. Specifically, financial management systems must be:

2.11.2.1. Designed to assist responsible officials in restricting authorization or incurrence of obligations to the proper amount and authorized purpose for which obligational authority is available.

2.11.2.2. Capable of providing timely disclosure of the authorization or creation of an obligation and the disbursement of funds in excess of amounts available in both expired and unexpired accounts.

2.12 Annual Evaluation

The OUSW(C) requires DoW Components to conduct an annual evaluation of their overall administrative funds control processes as well as the processing of ADA violations. The DoW Components are not required to submit an annual evaluation memorandum if the DoW Components do not have CMAs or are not reporting a potential ADA violation. The applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller or the Senior Financial Manager for other DoW Components will provide an annual evaluation memorandum addressed to the OUSW(C). The memorandum must address the following information in subparagraph 2.12.1 and be submitted by October 31:

2.12.1. Memorandum Certification Statements.

2.12.1.1. "For Fiscal Year 20xx, the internal controls over centrally managed accounts were in place and effective. Monthly accounting and reporting processes are adequate to reduce the risk of over-obligations."

2.12.1.2. "Corrective actions are being implemented and/or sustained and adequate evidentiary documentation is available to support this certification."

2.12.1.3. A statement that provides the number of key fund control personnel identified and trained.

3.0 ANTIDEFICIENCY ACT VIOLATIONS

3.1 Statutory Requirements

3.1.1. The ADA, prescribed in 31 U.S.C. §§ 1341–1342, and 31 U.S.C. § 1517, prohibits obligations and expenditures in excess of an appropriation or before an appropriation is available. 31 U.S.C. § 1517 is the primary foundation for the administrative control of funds set forth in paragraph 2.0

3.1.1.1. Amount Limitation. 31 U.S.C. § 1341 stipulates that any officer or employee of the United States Government or of the District of Columbia government may not:

3.1.1.1.1 Make an obligation, expenditure, or authorize an obligation or expenditure of funds that exceeds the amount available in an appropriation or fund.

3.1.1.1.2. Involve the Government in any contract or obligation for the payment of money before an appropriation is made available, unless the law authorizes such contract or obligation.

3.1.1.2. Voluntary Services Limitation. 31 U.S.C. § 1342 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not accept voluntary services on behalf of the Government or employ personal services in excess of that authorized by law, except as it may be necessary in emergencies involving the safety of human life or the protection of property.

3.1.1.3. Administrative Control of Funds, Amount Limitation. 31 U.S.C. § 1517 stipulates that an officer or employee of the United States Government or of the District of Columbia government may not make an obligation or expenditure or authorize an obligation or expenditure that exceeds an apportionment or amount permitted by a regulation prescribed for the administrative control of an appropriation, including any other formal administrative subdivision of funds designated by a DoW Component. See paragraph 2.0 for DoW administrative control of funds policy.

3.1.2. 31 U.S.C. § 1301, 31 U.S.C. § 1502(a), and 31 U.S.C. § 3302(b) are additional funding statutes. Noncompliance with these statutes may result in an ADA violation.

3.1.2.1. Purpose Statute. 31 U.S.C. § 1301 stipulates that appropriations must be applied only to the objects for which the appropriations were made, except as otherwise provided by law.

3.1.2.2. Time Limitation. 31 U.S.C. § 1502(a) stipulates that the balance of a fixed-term appropriation is available only for payment of expenses properly incurred during the period of availability or to complete contracts properly made and obligated within that period. See Volume 3 for obligation policy and for expired and closed account policy.

3.1.2.3. Miscellaneous Receipts Statute. 31 U.S.C. § 3302(b) requires an official or agent of the Government to deposit money received for the Government from any source into the miscellaneous receipts account of the U.S. Treasury without deduction for any charge or claim if the retention of the money is not authorized or exceeds authorized levels.

3.1.3. If sufficient amounts were available in the proper account for the proper fiscal year at the time of the obligation, and the amount is properly recorded as an obligation, then the use of the wrong appropriation (purpose) or the wrong fiscal year funds (time limitation) generally will not result in an ADA violation. It may be possible to adjust the accounts to replace the erroneously

obligated funds with the proper funds. Under these conditions, the error can and should be corrected.

3.1.3.1. The use of the wrong appropriation (purpose) can be corrected if the proper funds (appropriation, year, and amount) were available at the time of the erroneous obligation, available during the entire period from the time of obligation until the time of correction, and available at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 2.2, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest level of the appropriation, apportionment, allotment, suballotment, or allocation at which the ADA violation occurred.

3.1.3.2. The use of the wrong fiscal year funds (time limitation) can be corrected if the proper funds (appropriation, year, and amount) were available during the entire period from the time of obligation until the time of correction, at the time of the erroneous obligation, and at the time of correction. In other words, to correct the error, not only must amounts have been properly available at the time of the error and be available at the time of correction, but the correct amount must be properly recorded as an obligation in the proper account, consistent with paragraph 2.2, thereby requiring accounting adjustments going forward from the time of correction to account for the change in balance. Funds must be available at the lowest level of the administrative subdivision of funds, i.e., the lowest of the appropriation, apportionment, allotment, suballotment, or allocation level at which the ADA violation occurred.

3.1.3.3. See Volume 3 for Bona Fide Need recording requirements.

3.2 General Violations

General ADA violations occur when:

3.2.1. Statutory limitation was exceeded for the amount authorized in an appropriation or fund, to include special and recurring statutory limitations or restrictions on the amounts for which an appropriation or fund may be used.

3.2.2. Statutory limitation on the purposes authorized in an appropriation or fund was violated and, upon correction into the proper appropriation or fund, funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper appropriation or fund.

3.2.3. Funding authority was issued in excess of the amount available in an appropriation or fund, and the excess amount was obligated or expended. The issuance of funds by means of a formal administrative subdivision of funds (apportionment, allotment, suballotment, allocation or other formal administrative subdivision of fund), in an amount that exceeds the amount currently available, would result in an ADA violation if those excess funds distributed are obligated or

expended. The issuance of a reimbursable order in excess of available funds may also result in an ADA violation.

3.2.4. Obligations or expenditures are authorized or incurred in excess of the amount of funds available at the formal administrative subdivision of funds level. Apportionments, allotments, suballotments, allocations, and other formal administrative subdivision of funds designated by a DoW Component are subject to the provisions of the ADA; therefore, obligations and disbursements of funds that exceed these limitations are violations of the ADA. Incurring an obligation or disbursement in excess of a target versus a formal administrative subdivision of funds does not in itself create an ADA violation; however, if exceeding a target causes the governing formal administrative fund subdivision level or limitation to be breached, then a potential ADA violation arises. Errors that require correction by obtaining additional funds at a formal administrative subdivision of fund level cannot eliminate the fact that a violation likely has occurred and must be investigated. An exception applies when funds are required at the formal administrative subdivision level. However, funds were returned to higher headquarters as the result of the customary practice of sweeping up funds near the end of a fiscal year.

3.2.5. Obligations were made or authorized in advance of funds being available.

3.2.6. Obligations or expenditures of funds did not provide for a bona fide need of the fund or account (time violation). Upon correction into the proper fund or account, proper funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper fund or account.

3.2.7. Obligations charged against a current account that would otherwise be properly chargeable (except as to amount) to an expired account, but sufficient funds did not exist in the applicable expired account to fund the obligation.

3.2.8. Obligations that otherwise would have been properly chargeable (both as to purpose and amount) to a canceled appropriation exceeds the limits specified in Volume 3.

3.2.9. Voluntary services were accepted, or personal services were employed, except as authorized by law.

3.2.10. Funds were retained without authority and were not deposited into the miscellaneous receipts of the U.S. Treasury but instead augmented an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

3.3 Recording Obligations/Expenditures

A violation may not be avoided by declining to record valid obligations or expenditures in the official accounting records. All obligations or expenditures must be recorded accurately and promptly, even if the recording results in a negative amount in the appropriation, fund, or at the formal administrative subdivision of funds level.

3.4 Recording Errors/Omissions

An ADA violation is not considered to have occurred when an over-obligation or over-expenditure results solely from recording a transaction in an erroneous account or recording an incorrect amount for a transaction. In each instance, the potential violation status is eliminated by correcting the erroneous transaction or by posting the omitted transaction. These actions must not include the deletion or adjustment of any valid transactions. If, after the proper recording of the transactions, an over-obligation or expenditure of the appropriation, fund, or amount limited by a formal administrative subdivision of funds remains, then a potential ADA violation has occurred.

3.5 Causes of Violations

ADA violations occur for several reasons. The following is a list of the most frequent causes of DoW ADA violations:

3.5.1. Inadequate or obsolete internal controls and standard operating procedures;

3.5.2. Internal controls and standard operating procedures that are ignored;

3.5.3. Lack of appropriate training; and

3.5.4. Inadequate supervisory involvement or oversight.

3.6 Preventing Violations

3.6.1 Requirements

Inadequate supervisory involvement and oversight combined with a lack of appropriate training are common throughout most DoW ADA violations. Therefore, supervisors of DoW personnel who have responsibility for control and use of DoW funds must ensure that their personnel receive proper oversight, support, and training to prevent violations. To assist in the prevention of ADA violations, DoW personnel must be knowledgeable of requirements in this volume. The following subparagraphs provide specific actions that must be taken to reduce or prevent violations.

3.6.1.1. Heads of DoW Components must:

3.6.1.1.1. Use the internal management control programs as required by DoW Instruction 5010.40, "DOW Enterprise Risk Management and Risk Management and Internal Control Program," to periodically assess the reliability of internal controls to prevent ADA violations.

3.6.1.1.2. Develop a full spectrum of DoW formal education programs for all military officers, from staff officer courses to executive development courses, and incorporate relevant aspects of this volume to highlight the potential pitfalls and risks associated with the ADA.

This volume must be used as source material to conduct seminars and workshops targeted to general and specific audiences including financial, program, and project managers; engineers; contracting, information system, and comptroller personnel; commanders; supervisors; and managers.

3.6.1.1.3. Develop formal education structures to educate personnel about the ADA. Formal courses can be used to alert personnel to common violations and high-risk business transactions and decisions that can result in a violation. Course materials will clearly state that taxpayer funds should not be spent when the requirement is no longer needed, i.e., the requirement is no longer a bona fide need at that time. The DoW financial management community sponsors professional development courses that include discussions on ADA violations. These courses include the Army Comptroller and Advanced Resource Management Programs at Syracuse University (NY); the Naval Post Graduate School at Monterey, California; and the Defense Financial Management and Comptroller School at Maxwell Air Force Base, Alabama. In addition, the U.S. Army Judge Advocate General School at Charlottesville, Virginia, includes a fiscal law course in its curriculum. Both the Enhanced Defense Financial Management training course hosted by the Society of Defense Financial Management and the USW(C) Defense Financial Management Certification Program include fiscal law in their accreditation programs.

3.6.1.2. DoW commanders, supervisors, and managers must:

3.6.1.2.1. Be aware of the ADA, related funding statutes, types of violations, and causes of violations as described in this volume.

3.6.1.2.2. Provide appropriate ADA training to financial, program, and project managers; engineers; and contracting, information system, and comptroller personnel. Provide fiscal law training to educate DoW personnel with regard to their fiduciary and legal responsibilities to prevent wasteful spending of appropriated funds. The focus of this training must include the basics of fund control, the ADA statute, and related funding statutes; the types of violations that can occur; the most frequent types of violations that occur within the DoW and their causes; the necessary training, supervision, and oversight of personnel who perform financial management or programmatic functions; and methods for preventing violations. Require that all executive development and financial management course content be updated to ensure proper use and good stewardship of appropriated funds. The training must be maintained to ensure the information remains current. Videos, computer courses or handbooks may be used for such training.

3.6.1.2.3. Identify key fund control personnel, incorporate the provisions of this volume into key fund control personnel training programs, require that key fund control personnel receive appropriations law training at least every 3 years, maintain the documents that identify key fund control personnel, and maintain documents that confirm completion of the appropriations law training. Key fund control personnel are those responsible for the proper assignment of funding on a commitment or obligation document before the obligation is incurred. Examples are resource managers, fund holders, funds certifying officials, and authorizing officials. Key fund control personnel should inquire with their individual DoW Components as to the appropriate source of training that satisfies this requirement. Appropriations law training requirements for certification of fund availability are separate from training requirements for

certification for payment. Personnel that certify vouchers for payment must adhere to additional requirements as prescribed in Volume 5.

3.6.1.2.4. Ensure key fund control personnel coordinate with requiring officials, such as program managers, contracting officers, and engineers, to verify that requests comply with funding statutes applicable to the assignment of funding on a commitment or obligation document before the obligation is incurred. This coordination should include ensuring delivery of supplies and/or the period of performance for services aligns with the lifecycle of the associated funds such that the obligation meets the bona fide need rules laid out in Volume 3. Key fund personnel must review and verify on a continuous basis that the goods and/or services are still needed. Key fund control personnel must not spend taxpayer funds when goods and/or services are no longer needed.

3.6.1.2.5. Ensure that their employees receive the necessary training and experience in the control and use of funds at levels that correspond with their responsibilities. Furthermore, supervisors must perform oversight and validation checks to ensure that established internal controls and standard operating procedures are adequate and are being consistently followed by their subordinates. Inadequate supervisory involvement or oversight combined with lack of appropriate training is common in DoW ADA violations.

3.6.1.2.6. Ensure regular reviews of fund status type reports are performed. If the amount of commitments and obligations (undelivered orders and delivered orders unpaid or paid) exceed the total amount available in an appropriation or the total amount of funds available at the formal administrative subdivision level, a violation could occur if all or some of the commitments eventually become valid obligations.

3.6.1.2.7. Take proactive measures specifically tailored to address the causes and corrective actions required to prevent violations. See section 3.0 for causes of violations.

3.6.2. Common Violations

To prevent ADA violations, DoW personnel must be knowledgeable of the most common and frequent types of ADA violations, including the following:

3.6.2.1. Exceeding an Appropriation.

3.6.2.1.1. All DoW commanders, managers, and personnel whose duties include obligating and/or managing funds must be aware of this type of violation and causal factors. This violation often occurs when obligations from an obligation document are not timely or accurately recorded, thus causing the official accounting records to reflect an inflated (and incorrect) availability of funds. Since personnel use those records to certify funds are available for other obligations, a violation can easily occur because the records do not reflect the correct amount of funds available for obligation. This violation also occurs when obligations are charged against a current account that would otherwise be properly chargeable (except as to the amount)

to an expired account, but sufficient funds do not exist in the applicable expired account to fund the obligation.

3.6.2.1.2. This type of potential violation is commonly discovered when an unmatched disbursement is recorded in the accounting system when correcting inaccurately recorded obligations, or when a reprogramming action requests additional funds for an expired account. To help prevent this type of violation, DoW funds managers (for example, Comptrollers) must require that all organizations that incur obligations and record obligations maintain strict and absolute positive controls over-obligating documents (or their electronic equivalents) to ensure that none are lost or misplaced and all transactions are recorded accurately and in a timely manner. Such controls include batch totals of transactions and dollar amounts incurred, transmitted, received, processed, and recorded.

3.6.2.1.3. The establishment of a funds control system is also essential to ensure that all obligations are reconciled properly against available funds and authorized before they are incurred. This process must include reserving available funds for authorized obligations that are not immediately recorded as an obligation. The reservation must be made by means of a formal commitment or an informal reservation record that contains an estimated amount. The documented estimated reservation must closely approximate the obligation when incurred and recorded. Also, when recording estimated obligations, it is important to record the initial obligation based on the most current data available and adjust the estimated obligations as conditions change to avoid making an obligation or expenditure that exceeds the amount available in an appropriation or fund.

3.6.2.2. Exceeding Statutory Limitations on the Use of Operations and Maintenance (O&M) Funds.

3.6.2.2.1. Military Construction. To prevent an ADA violation, engineering and contracting personnel must be advised of the provisions of 10 U.S.C. §§ 2801–2802, and 10 U.S.C. § 2805; and DoW rules and regulations that cover minor construction projects. Engineering personnel and those who authorized the construction are frequently identified as responsible for violations involving construction projects exceeding statutory construction limitations and administrative construction limitations placed in engineering regulations. The following is a summary of some of the provisions of 10 U.S.C. §§ 2801, 2802, and 2805; and DoW rules and regulations on minor projects.

3.6.2.2.1.1. Congress establishes by statute the amount of O&M funds that may be used for a minor construction project. From time to time, that limit is increased by Congress. If the specified limit is exceeded, Military Construction funds must be used for the entire project, including planning and design. A violation of 31 U.S.C § 1341(a)(1)(A*)* may occur when the limitation is exceeded. The limitation applies to the use of O&M funds for a minor construction project even though there is sufficient obligational authority available in the O&M account at the time that the project is authorized and approved.

3.6.2.2.1.2. A military construction project includes all work necessary to produce a complete and usable facility, or a complete and usable improvement to an

existing facility under provisions of 10 U.S.C. § 2801(b). Incremental construction, which is the planned acquisition of, or improvement to, a real property facility through a series of minor construction projects, is prohibited. See Volume 3 for military construction project requirements.

3.6.2.2.1.3. Engineering and contracting personnel must be familiar with the statutory limitation, under the provisions of 10 U.S.C. § 282**5**, on the maintenance and repair funds that may be used for a family housing unit. That limit may not be exceeded without prior notification to Congress. When that limit is exceeded for any reason during the completion of a family housing maintenance and repair project, and the conditions specified in the law for a waiver of the statutory limitations have not been met, a violation of 31 U.S.C. § 1341(a)(1)(A) may occur.

3.6.2.2.1.4. The misclassification of construction costs as alterations by engineering personnel may result in an ADA violation. A potential violation may occur if the amount of the misclassification, when added to construction costs (if any), exceeds a statutory limitation. For example, an engineering project that has a minor construction cost close to the statutory limit, but which also has related maintenance and repair costs, could cause a violation of the statutory limit if the maintenance and repair work later is proven to be construction. Likewise, a maintenance and repair project exceeding the statutory construction limit could be a potential ADA violation if the maintenance and repair later is determined to be construction.

3.6.2.2.2. Equipment.

3.6.2.2.2.1. Congress designates an amount above which acquisitions of equipment must be funded from a procurement fund (expense versus investment threshold rule). Using O&M funds to acquire equipment items that exceed the designated threshold amount for the mandatory use of procurement funds could be a potential ADA violation. For instance, O&M funds are used to purchase a computer system when Other Procurement funds are required. Expense versus investment criteria is in Volume 2.

3.6.2.2.2.2. Similar problems also frequently occur when acquiring low dollar value equipment items that are estimated to cost less than the congressionally designated amount for procurement funds but actually cost more than that amount when acquired.

3.6.2.2.2.3. An ADA violation does not occur automatically in the situations outlined in subparagraphs 3.6.2.2.2.1 and 3.6.2.2.2.2 because the obligation can be moved from the O&M account to the applicable procurement account. If proper funds were available in the proper procurement account at the time of the erroneous obligation of O&M funds and funds are available when the obligation is recorded in the procurement account, including all other known valid obligations and deobligations, then a potential ADA violation has not occurred. However, if proper procurement funds were not available at the time of the erroneous obligation or were not available when the obligation is recorded in the procurement account to cover the obligation in the procurement account, a potential ADA violation may have occurred.

3.6.2.2.2.4. DoW decision makers, such as program managers, information systems managers, and contracting personnel, must be knowledgeable of the expense

versus investment rules to prevent this type of violation. Program managers and information systems, contracting, and comptroller personnel must be trained on this issue. Such training should help reduce the incorrect application of the expense versus investment rule and the resulting ADA violations.

3.6.2.3. Exceeding a Formal Administrative Subdivision of Funds. If a formal administrative subdivision of funds level is exceeded, then a potential violation must be reported. The receipt of additional funds before the end of a reporting period does not mitigate a limitation violation or eliminate the potential violation reporting requirement. Also, failure to record a valid obligation or expenditure as of the date incurred does not avoid the incurrence of, and the requirement to report, a potential ADA violation if, upon recordation, available funds in the appropriation fund or other formal administrative fund subdivision level are exceeded. For example, the Military Departments historically have experienced problems with over-obligated Reserve Component (RC) personnel accounts. Funds in these accounts are used to pay RC personnel for such items as weekend drills, travel, special tours, or other training. RC unit commanders who control a formal administrative subdivision of funds level are subject to the ADA and must, in advance of the incurrence and recording of these obligations, budget and reserve against available funds the amounts estimated for weekend drills and other scheduled training.

3.6.2.4. Obligating Funds in Advance of Availability.

3.6.2.4.1. A common scenario is the use of current year funds to procure goods or services that properly are funded only with a subsequent year appropriation. An ADA violation occurs when an individual obligates funds before those funds are authorized and appropriated by Congress. For example, signing a facility or equipment operating lease using one-year authority funds and agreeing to pay, or obligating the funds, for a two-year lease during the first year would constitute an obligation in advance of the availability of the funds for the amount associated with the second year of the lease. Similarly, agreeing to pay or obligating the funds for a two-year equipment maintenance agreement using one-year authority funds would constitute an ADA violation related to the amount associated with the second year of the agreement.

3.6.2.4.2. To help prevent this type of violation, training programs must include specific focus on the importance of ensuring funds are authorized and available before obligating the Government to contracts for future fiscal years' expenses.

3.6.2.4.3. For guidance on determining whether a violation may be properly corrected, see subparagraph 3.1.3.

3.6.2.5. Providing Funds to Servicing Agencies Before or Past the Period of Availability.

3.6.2.5.1. A common scenario occurs when funds cited on an Economy or non-Economy Act order do not meet the bona fide need arising or existing in the fiscal year (or years) for which the appropriation is available for obligation. When an erroneous obligation is moved to the applicable fiscal year, and proper funds were not available at the time of the erroneous obligation or were not available when the obligation was recorded in the proper fund or account, a potential ADA violation may have occurred.

3.6.2.5.2. To prevent this type of ADA violation, DoW personnel with the responsibility to control the use and type of funds used must be aware of the fiscal limitations of providing funds to servicing agencies before or past the period of availability. See specific policy for Economy Act orders and non-Economy Act orders in Volume 11.

3.6.2.6. Retaining Funds Without Authority.

3.6.2.6.1. This violation often occurs when funds are retained without authority and are not deposited into the miscellaneous receipts of the U.S. Treasury but instead augment an appropriation and, as a result, obligations or expenditures exceed the amount appropriated by Congress.

3.6.2.6.2. This violation is often discovered when new personnel arrive and raise concerns over accepting and retaining unauthorized funds. Therefore, it is essential that DoW decision makers, such as DoW Commanders and Comptrollers, are knowledgeable of this type of violation and that financial managers be trained on this issue and understand the authority related to funds under their control to preclude augmenting an appropriation.

Table 1. Potential Violations

A VIOLATION MAY OCCUR WHEN	DESCRIPTION OF POTENTIAL VIOLATION	TITLE 31, UNITED STATES CODE SECTION
Any military member or DoW employee:	1. Makes or authorizes an obligation or expenditure that exceeds: a. The available amount of any appropriation or fund.	**1341(a)(1)(A)**
	b. Any statutory restriction imposed on the use of an appropriation or fund, such as limits on the use of O&M funds for unspecified minor construction or for purchase of investment items.	**1341(a)(1)(A)**
	c. The available amount of any apportionment or reapportionment.	**1517(a)(1)**
	d. The available amount of any formal administrative subdivision.	**1517(a)(2)**
	e. Any limitation imposed by an authorized official of the DoW or a DoW Component that is intended to restrict obligations of apportioned appropriations or funds.	**1517(a)(2)**
	2. Involves the Government in any contract or other obligation for the payment of money for any purpose before appropriations are made for such purposes, unless the law authorizes such contract or obligation.	**1341(a)(1)(B)**
	3. Makes or authorizes an obligation or expenditure against an appropriation account that was closed pursuant to 31 U.S.C. §§ 1552 or 1555 or the period prescribed in an appropriations act for making expenditures as authorized by 31 U.S.C. § 1557.	**1341(a)(1)(A)**
	4. Accepts voluntary service or employs personal service in excess of that authorized by law, except in cases of emergency involving the safety of human life or the protection of property.	1342

Table 1. Potential Violations (continued)

A VIOLATION MAY OCCUR WHEN	DESCRIPTION OF POTENTIAL VIOLATION	TITLE 31, UNITED STATES CODE SECTION
Any military member or DoW employee:	5. Expends a working capital (revolving) fund established under 10 U.S.C. § 2208 in excess of amounts available in Fund Balance with Treasury, whether apportioned or not. (Recurring provisions of annual DoW Appropriations Acts that establish cash balances (Fund Balance with Treasury) in working capital funds may be maintained only in such amounts as are necessary at any time for cash disbursements to be made from such funds. This provision allows working capital funds to incur liabilities in excess of available fund balances with Treasury.)	1341(a)(1)(A)
	6. Obligates a working capital (revolving) fund established under 10 U.S.C. § 2208 or a part of the fund, whether subject to or exempt from apportionment, in excess of the available amount.	1517(a)(1)
	7. Obligates a working capital (revolving) fund established under 10 U.S.C. § 2208 in excess of the available amount of budgetary resources.	1517(a)(2)
In Fund Distribution:	1. Total allotments, or operating budget authorities for O&M type funds exceed the amount available for each apportionment period.	1517(a)(1)
	2. Total suballotments, allocations, or operating budget authorities, and centrally managed accounts (CMAs) exceed the amount of the allotment or operating budget authority for each period.	**1517(a)(2)**
	3. Total allocations or operating budget authorities and CMAs exceed the amount of the available suballotment.	1517(a)(2)
	4. Total suballocations exceed the amount of the allocation.	1517(a)(2)

Violation Examples

A. GENERAL. Most of the examples described in items B – D are taken from actual violations that occurred within DoW. However, these violations are fact-specific, and in other circumstances a potential violation may or may not be incurred. These examples are supplied for information only and are not intended to imply that in all similar but not identical circumstances a violation would have been incurred.

B. TITLE 31, UNITED STATES CODE, SECTION 1341

1. 31 U.S.C. § 1341(a)(1)(A)

a. Obligated O&M funds for site preparation construction costs on a relocatable building project. The project was incorrectly scoped into multiple projects, and the cumulative costs of the construction exceeded the minor construction threshold and should have been authorized by Congress and funded with military construction funds. This unauthorized obligation of O&M funds instead of military construction funds resulted in a violation.

b. Obligated O&M and Working Capital funds on a single military construction project. The project amount exceeded the minor construction statutory limitation and resulted in a violation. The Government Accountability Office takes the position that a violation of a funding restriction in an authorizing statute (such as 10 U.S.C. § 2805) results in a violation of the ADA (31 U.S.C. § 1341). The use of funds to finance the project is not consistent with the authorized purpose of the appropriation and resulted in an incurable violation of the "purpose statute" (31 U.S.C. § 1301).

Note: Although the circumstances described herein constitute a violation of 10 U.S.C. §§ 2802(a) and 2805(b), the Department of Justice (DOJ) Office of Legal Counsel (OLC) has concluded that "a violation of a statutory restriction on spending does not violate the ADA where the restriction is not "in an appropriation." See also: DOJ OLC opinion, "Use of Appropriated Funds to Provide Light Refreshments to Non-Federal Participants at EPA Conferences," April 5, 2007 (online at: http://www.justice.gov/sites/default/files/olc/opinions/2007/04/31/epa-light-refreshments13.pdf); and DOJ OLC letter, "Re: Whether the Federal Aviation Administration's Finalizing and Implementing of Slot Auction Regulations Would Violate the Anti-Deficiency Act," October 7, 2008.

c. Obligated O&M funds rather than Procurement funds for recapitalization of a system, and Procurement funds were not available when the obligation was recorded, which resulted in a violation.

d. Failure to promptly record valid obligations in a reserve personnel appropriation resulted in valid obligations that exceeded the available amount in the appropriation and resulted in a violation.

2. 31 U.S.C. § 1341(a)(1)(B)

a. Obligated O&M funds in advance of the appropriation when a 14-month severable services contract was awarded that exceeded the 12-month limit set forth in section 10 U.S.C. § 2410a, and resulted in a violation.

b. Obligated O&M funds for two- and four-year severable equipment leases in advance of an appropriation which resulted in a violation.

c. Obligated O&M funds for equipment with phased deliveries into subsequent fiscal years in advance of an appropriation, which resulted in a violation.

C. TITLE 31, UNITED STATES CODE, SECTION 1342

Apparently, at the urging of the Chairman, a member of a Federal Commission agreed to waive his statutory entitlement to $100 per day while involved in Commission business. The year after the Commission was disbanded, the former member changed his mind and filed a claim for a portion of the compensation he would have received had it not been for the waiver. Since the $100 per day was a statutory entitlement, the purported waiver was invalid, and the former commissioner was entitled to be paid. By accepting the waiver and allowing the commissioner to conduct Commission business without pay, the provision against acceptance of voluntary services was violated, and a violation of the ADA occurred.

D. TITLE 31, UNITED STATES CODE, SECTION 1517

1. Obligated O&M funds in excess of the Continuing Resolution Authority allocation, which resulted in a violation.

2. Obligated O&M funds for information technology equipment in excess of the investment threshold. When correction was made, Procurement funds were not available at the suballotment level, which resulted in a violation.

3. A DoW activity used O&M funds, rather than Other Procurement funds, to purchase a data processing local area network (LAN). Even though the hardware components and LAN operating system software were purchased separately, the components and the software together constituted a system with an aggregate cost in excess of the expense/investment threshold specified by Congress for the required use of procurement appropriation funds. A violation occurred because the DoW activity did not have the required amount of Other Procurement funds at the time of the purchases.

4. A funds holder at a formal administrative subdivision of fund level erroneously distributed more funds than available at the subdivision level. The activities receiving the funds incurred obligations and expenditures in excess of amounts available to the fund holder but below the amount distributed. The funds holder incurred an ADA violation because the obligations and expenditures exceeded the total amount in the formal administrative subdivision of funds.

4.0 ANTIDEFICIENCY ACT VIOLATION PROCESS

4.1 INTRODUCTION

This section describes the Antideficiency Act (ADA) violation process from initial discovery to formal investigation and final report. If an activity suspects an ADA violation and validates those concerns with an internal review, the activity must conduct an in-depth investigation. The structured investigation process consists of two phases, a preliminary review and, if required, a formal investigation. Generally, the preliminary review must establish that a potential ADA violation occurred before a formal investigation begins. The preliminary review gathers facts and establishes by adequate evidence whether an uncorrectable deficiency has occurred. The formal investigation determines the event(s) that "more likely than not" caused the potential violation, the responsible individual(s), and action(s) taken to ensure that a similar violation does not reoccur. To ensure efficiency, it is important that those involved in the investigation of, and reporting on, ADA violations are adequately trained and qualified. Investigators are provided specific authority to collect and evaluate relevant information as well as obtain direct support from subject matter experts and personnel throughout the process.

4.2 Purpose

This section addresses potential and actual violations of statutes discussed in Sections 1 and 2. The policy directs conducting initial reviews, structuring investigations, and other requirements to report an ADA violation properly. It also establishes training requirements for individuals assigned to investigate potential and actual ADA violations. Additionally, this chapter provides organizational corrective and disciplinary actions for civilian and military employees.

4.3 REPORTING SUSPECTED VIOLATIONS

4.4 Initial Discovery

A review is initiated if there is adequate information to suspect a potential ADA violation may have occurred. An event marks the date of discovery, such as the release of internal review findings suggesting an ADA violation may have occurred, or receipt of a status of funds report showing irregularities. The activity may conduct an inquiry to confirm that the information is accurate, complete, and sufficient, suggesting that an ADA violation occurred.

4.5 Initial Report

4.5.1. Fund holders must ensure their funds are properly executed in accordance with applicable laws and regulations. Consequently, fund holders must report all suspected violations of the ADA. The professionals administering the funds, other than the fund holders, must also alert proper officials to suspected violations.

4.5.2. Within two weeks of discovering a potential ADA violation, the activity holding the allegedly misused funds conducts an initial review and prepares an initial report. The review aids in preparing the initial report. It determines whether a suspected violation may have occurred –

even when the suspected violation is curable. Where the activity identifies a potential cure, note the cure in the report. However, do not cure a potential ADA without concurrence from the authorities identified in 4.5.3.

4.5.3. The activity/command channels must submit initial reports to the applicable Office of the Assistant Secretary of the Military Department for Financial Management and Comptroller, Combatant Commands, or the Senior Financial Manager for other Department of War (DoW) Agencies and Field Activities (referred herein as DoW Component).

4.5.4. The initial report does not determine responsibility for causing the potential ADA; it merely notifies leadership that a suspected violation may have occurred. The initial report template is located at Figure 2. If the following information is available and pertinent to the potential ADA at issue, the report must contain the following:

4.5.4.1. Accounting classification of funds allegedly misspent;

4.5.4.2. Name and location of the activity where the alleged violation occurred;

4.5.4.3. Name and location of the activity issuing the fund authorization;

4.5.4.4. Amount of the alleged violation;

4.5.4.5. Nature of the alleged violation;

4.5.4.6. Date the alleged violation occurred, and date discovered;

4.5.4.7. Means of discovery; and

4.5.4.8. Description of the facts and circumstances of the case.

4.5.5. Initial reports addressing potential voluntary services ADA violations must include all items listed in subparagraph 4.5.4 (except subparagraphs 4.5.4.1 and 4.5.4.3).

4.6 Evaluation

The DoW Component must evaluate the initial report for validity and completeness. If this evaluation determines a suspected violation may have occurred, the DoW Component must assign a case number for tracking purposes and direct the initiation of a preliminary review. If the DoW Component determines that the suspected violation is curable, the impacted activity/command must provide all the necessary correcting information and documentation to the DoW Component, correct the error, and implement appropriate internal controls to prevent a recurrence of similar violations. There are no additional ADA violation requirements.

4.7 DOD COMPONENT INVESTIGATION ADMINISTRATION

4.7.1 Timeframes for Investigation

4.7.1.1. Complete the preliminary review within four months from the date the DoW Component directed it.

4.7.1.2. Complete the formal investigation within nine months from the date the DoW Component directed it.

4.7.1.3. The Office of the General Counsel (OGC) (Fiscal) completes the advance decision legal review within three months from the date the draft formal investigation report is submitted to the Office of the Under Secretary of War (Comptroller) (OUSW(C)), Deputy Chief Financial Officer (DCFO), requesting an advance decision.

4.7.1.4. The DoW Component must consider appropriate disciplinary action and document any disciplinary action taken. The DoW Component completes a final summary report within two months from the Office of the Secretary of War (OSW) OGC (Fiscal) receipt of an advance decision concurring with the formal investigation report. However, DoW Components may request additional time from the DCFO to complete disciplinary actions, if required.

4.7.1.5. The DCFO completes and submits the letters required by Office of Management and Budget (OMB) Circular No. A-11, Exhibit 145A within one month after receiving the final investigation report from the DoW Component. Complete the total process for investigating and reporting potential ADA violations within 15 months from the start of the formal investigation. The preliminary review is not part of the 15 months' timeline.

4.7.1.6. All appointing officials must stipulate a due date for the ADA violation investigation report in the investigating officer appointment memorandum. The due date must conform to the timeframes stipulated in paragraphs 4.7.1.4 through 4.7.1.5 regardless of the scope or amount of the potential violation.

4.8 Approving Exceptions to Timeframes

The DCFO may approve an exception to the timeframes on a case-by-case basis. Upon request, this responsibility may be delegated to the DoW Components. This responsibility may not be redelegated. The DoW Components must provide sufficient justification for the extension. The DCFO notifies the DoW Components of any extension that is approved.

4.9 Special Interest Investigations

Special interest investigations include potential violations that are the subject of a news release; requested by the Secretary of War, Deputy Secretary of War, or the USD(C); or involve a high-level DoW official. When necessary, special interest investigations may deviate from the timeframes stipulated in paragraphs 3.1.1 through 3.1.5; however, the DoW Components must notify the DCFO when such deviations are necessary. If the DCFO agrees, the timeframes may be extended.

4.10 Involvement of the OUSW(C)

The OUSW(C) may supervise the progress of an investigation when the nature of the violation or the implication of individuals in the violation warrants such involvement. Such supervision may include requirements for oral and written progress reports and may require a team of investigating officers (IOs) and compressed timeframes.

4.11 Investigation Costs

When investigating outside the major activity/command to which the IO is assigned, identify and accumulate incidental costs (e.g., temporary duty, local travel). In accordance with Volume 11A and Volume 11B, the activity/command under investigation must reimburse costs.

4.12 PRELIMINARY REVIEWS

4.12.1. Purpose

4.12.1.1. The preliminary review gathers facts adequately supporting the conclusion that an ADA-reportable violation has occurred. It does not identify responsible officials or recommend corrective actions to prevent similar violations.

4.12.1.2. The DoW Component must assign the responsibility for conducting the preliminary review to the activity where funds were potentially misused.

4.13 Investigating Officer Appointment

4.13.1. The DoW Component official must appoint the IO. The appointing official is at the DoW Component level unless the Component delegates this authority to a senior Commander or director of the organization responsible for conducting the investigation. The official appoints a qualified IO assisted by an expert review team, if necessary. The official issues an appointment letter within two weeks after the DoW Component's evaluation of the initial report concluding that a potential reportable violation has occurred. An appointment orders template is located in Figure 3-3.

4.13.2. The appointing official certifies that the IO has been trained in fiscal law or appropriations law within the last three years and can conduct a complete, impartial, and unbiased review. Each DoW Component ensures that its ADA investigators are properly trained and that the training is current and documented.

4.13.3. Select the IO from an organization external to the activity/command being reviewed.

4.13.4. The IO does not need to be senior in grade to the persons potentially under investigation.

4.13.5. The IO must be competent and capable of gathering evidence, establishing facts, documenting findings and recommendations, and preparing investigation reports of violation.

4.13.6. The IO must manage time and meet the investigation timeframes established. The appointing official may prescribe additional training as required.

4.13.7. Appointing officials must ensure the investigation receives the appropriate level of activity/command emphasis and the IO has adequate time and resources to conduct a thorough investigation.

4.13.8. The appointment orders must certify that investigators are free of personal, external, and organizational impairments. Retain the document(s) in the ADA case file.

4.13.9. Submit the appointment orders to the DoW Component. The appointment orders are part of the case files for the investigation.

4.14 Conduct of the Investigation

4.14.1. Checklists. Figure 4 contains a template for the preparation of the preliminary review report.

4.14.2. The investigator gathers facts, establishes a narrative of events, and determines what should have happened before the preliminary review is concluded. The investigator may review funding documents, contracts, and other key documents, as well as interview key witnesses during the investigation.

4.14.3. The investigator must check for accounting errors such as duplications or other errors in recording the applicable obligation and/or expenditure; obligations and/or expenditures charged to invalid and/or improper fund accounts; and inaccurate fund status at the time the applicable transaction occurred. If the preliminary review determines that an accounting error occurred, the investigator must coordinate the appropriate accounting correction.

4.14.4. When an IO determines that a reportable violation can be cured, the fund holder must attempt to correct the accounts. Complete corrections with the concurrence of the DoW Component, and only after the DoW Component receives appropriate supporting documentation.

4.15 Obligations Charged to the Wrong Appropriation or Wrong Year

For information on obligations charged to the wrong appropriation or wrong year, see Section 3, subparagraph 3.1.3.1.

4.16 Obligations Incurred in Advance of an Appropriation

For information on obligations incurred in advance of an appropriation, see Section 3, subparagraph 3.1.3.2.

4.17 Review Results

The IO documents the findings of the preliminary report and accompanies the report with a legal review. Forward this report and legal review for approval to the applicable DoW

Component and coordinate with the applicable DoW Component's General Counsel. If the DoW Component involved determines that there is no violation, the preliminary report completes the required ADA violation investigation.

4.18 Preliminary Reviews Initiated by the OUSW(C)

When an audit report informs, or the OUSW(C) otherwise learns of a potential violation, the OUSW(C) may direct the DoW Component to initiate a preliminary review of the circumstances surrounding the potential violation. The date the OUSW(C) directs the DoW Component is the discovery date for reporting purposes, and the DoW Component must follow processes in Sections 2.0 and 3.0.

4.19 Oversight Entities

4.19.1. In some cases, the Government Accountability Office, DoW Office of Inspector General (DoW OIG), a military department audit agency, or other organizations external to a DoW Component report that a potential violation may have occurred and recommends a preliminary review be conducted. The DoW Component must review the finding(s) and recommendation(s) provided in the report. The DoW Component may have to conduct an informed inquiry.

4.19.2. If the DoW Component agrees that a potential violation may have occurred and a preliminary review is warranted, then the starting date for the investigation is the discovery date for reporting purposes. The DoW Component must follow the processes in section 4.0. It must supply the preliminary review status as requested by the applicable external organization.

4.19.3. If the DoW Component disagrees that a potential violation has occurred and believes a preliminary review is not warranted, the DoW Component must provide applicable written comments to the report outlining the disagreement consistent with policy prescribed in ***DoW Instruction 7650.03*** "Follow-up on General Accountability Office, DoW OIG, and Internal Audit Reports."

4.19.4. If the DoW Component and the oversight activity disagree as to whether a preliminary review is warranted, the DoW Component may request assistance from the DCFO.

4.20 Evaluation

The DCFO may routinely examine open or closed preliminary review cases.

4.21 ROLES OF THE DOD INSPECTOR GENERAL (DoW IG)

4.21.1. The Inspector General Act of 1978 (P.L. 95-452), as amended, gives the DoW IG the authority to conduct investigations of violations of the ADA.

4.21.2. The DoW IG reserves the right to initiate investigations of potential ADA violations, depending upon the type, amount, or significance of the violation.

4.21.3. The DoW IG may elect to conduct investigations not requested by the OUSW(C) or another DoW official.

4.21.4. When the DoW IG conducts such investigations, the resultant report must constitute the official DoW report on the matter; no other DoW Component must conduct parallel or supplemental investigations unless directed to do so by the Secretary of War, Deputy Secretary of War, or OUSW(C).

4.22 FORMAL INVESTIGATIONS

4.22.1 Overview

4.22.1.1. Once a preliminary review concludes that a reportable and incurable violation of the ADA has occurred, a formal investigation must be opened. Report the violation to the DCFO within 2 weeks of the determination. The DCFO assigns the DoW Component a unique tracking number and due date.

4.22.1.2. The formal investigation determines the event that caused the potential violation, the responsible individual(s), and action(s) taken to ensure that a similar violation does not occur in the future. Additional evidence discovery, re-interviewing witnesses or interviewing new witnesses, re-examining documents, or discovery of new documents may be required.

4.22.1.3. During a formal investigation, the DCFO may request periodic status reports.

4.22.1.4. The DoW Component generally assigns the investigation to the activity that performed the preliminary review. The DoW Component may request another organization to conduct the investigation to eliminate potential conflicts of interest, or to leverage the expertise of another activity/command.

4.23 Investigating Officer Appointment

4.23.1. The DoW Component official must appoint IOs. The appointing official is at the DoW Component level unless the Component delegates this authority to a senior activity/commander or director of the organization assigned responsibility for conducting the investigation. A qualified IO may be assisted by a review team with expertise in the areas being investigated, if necessary. A template for appointment orders is located in Figure 3. The formal investigation may be conducted by the same IO who conducted the preliminary review.

4.23.2. The appointing official certifies that the IO/review team lead has been trained in fiscal law or appropriations law within the last three years and can conduct a complete, impartial, and unbiased review. Each DoW Component must ensure that its ADA investigators are properly trained and that the training is current and documented.

4.23.3. The IO must be selected from an organization external to the activity/command being reviewed.

4.23.4. The IO does not need to be senior in grade to the persons potentially under investigation.

4.23.5. IOs must be competent and capable of interviewing witnesses, gathering evidence, establishing facts, documenting findings and recommendations, and preparing violation reports. They must also manage time and meet established investigation completion timeframes. The appointing official may prescribe additional training as required.

4.23.6. Appointing officials must ensure that the investigation receives the appropriate level of activity/command emphasis and gives the IO adequate time and resources to conduct a thorough investigation.

4.23.7. The appointment orders certify that investigators and/or review team leads are free of personal, external, and organizational impairments. Retain the document(s) in the ADA case file.

4.24 Conduct of Investigation and Preparation of Formal Report of ADA Violation Investigation (ROI)

4.24.1. Checklists

4.24.1.1. Figure 1 contains a checklist for use in the conduct of the Formal Investigation.

4.24.1.2. Figure 5 contains a template for the preparation of the formal report.

4.24.2. Examination of Physical Evidence

During the investigation, the IO expands upon the findings established in the preliminary investigation or makes new findings. The IO may revise dollar amounts based on witness statements, or, as more information is obtained, facts and conclusions also may be revised. The formal investigation finds the root cause(s) for the violation and identifies the individual(s) making or authorizing the improper obligations or expenditures, and the corrective action(s) implemented to reduce the risk of similar violations in the future.

4.24.3. Identifying Circumstances and Assigning Responsibility

4.24.3.1. Fully investigate all relevant aspects of the case, including all individuals and records connected with the event. Interview key personnel involved in a violation. If an employee to be interviewed is a member of a bargaining unit, comply with appropriate statutory and collective bargaining agreement protections for such employee.

4.24.3.2. Examine and document key event facts leading to the potential violation in the report and address any conflicts. If a series of events at several levels led to the violation,

then the report clearly must identify what happened at each level and how the events contributed to the violation.

4.24.3.3. Where the subject matter of the potential violation is beyond the expertise of the IO, a subject matter expert must evaluate the evidence along with statements from personnel interviewed and provide an opinion on whether the key facts are correct and the conclusions reasonable. For example, when a potential violation involves the question of whether a military construction project results in a complete and usable facility, a civil engineer must analyze the facts and provide an opinion.

4.24.3.4. The IO must find facts supporting all conclusions reached in the investigation. A preponderance of the evidence must support all fact findings leading to a conclusion of an ADA violation. A preponderance of the evidence is created when the evidence collected makes the existence of a fact more likely than not. If the IO cannot establish a fact by the preponderance of the evidence, that fact may not be used to support a conclusion that an ADA violation occurred or that an individual is a responsible official.

4.24.3.5. Where the IO concludes that a reportable ADA violation occurred, the IO must find facts and conclude that the responsible official(s), the individual or individuals made or authorized the improper obligations or expenditures pursuant to 31 U.S.C., §§ 1341(a) and/or 1517(a). Determine facts supporting an individual's responsibility for the violation by a preponderance of the evidence. A conclusion that an individual is a responsible official does not, by itself, result in pecuniary liability of an accountable official under 10 U.S.C., § 2773a.

4.24.3.6. Any report that concludes an ADA violation occurred must identify one or more responsible officials. A conclusion that no individual was responsible for the violation is not acceptable.

4.24.3.7. The same individuals may be responsible for more than one violation under the auspices of a single investigation. In these cases, the report must specifically clarify how they contributed to each discrete violation.

4.24.3.8. The responsible official is usually the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken and awareness of the possible risks.

4.24.3.9. To establish responsibility, the IO must conclude, based on findings of fact, that the act or omission was the proximate cause of the violation. An act or omission is the proximate cause when it sets into motion a chain of events that directly leads to the violation, and the violation would not have happened but for the act or omission. A violation may have more than one proximate cause, and therefore more than one responsible official.

4.24.3.10. In some cases, the IO establishes that an individual had a duty to take an action that may have prevented the ADA violation, knew or should have known of that duty, and failed to take that action. In such cases, collateral evidence, such as Position Descriptions, may be used as evidence of the individual's scope of duties. If used, such evidence must be included in the ROI.

4.24.3.11. Activity/commanding officers, directors, budget officers, or fiscal officers may be named because of their overall responsibility or position, or the fact that they are designated as the holder of a subdivision of funds if they failed to exercise their responsibilities properly. Responsible officials may also include Information Technology specialists, program managers, facility engineers, and acquisition personnel.

4.24.3.12. The ROI must clearly identify the involvement of each individual and the acts or omissions that were the proximate cause(s) of the violation. The following questions must be considered:

4.24.3.12.1. Did the violation occur because an individual carelessly disregarded instruction?

4.24.3.12.2. Did the violation occur because an individual was inadequately trained or lacked knowledge to perform their job properly? If so, was the individual or a supervisor at fault?

4.24.3.12.3. Did the violation occur because of an error or mistake in judgment by an individual or a supervisor?

4.24.3.12.4. Did the violation occur because of a lack of adequate procedures and controls? If so, who was at fault?

4.24.3.12.5. Did the violation occur because of other reasons? If so, who was at fault?

4.24.3.13. If at any time during an investigation the IO believes there may be a criminal issue(s) involved, then the investigation must be stopped immediately. The IO must consult with legal counsel to determine if the issue must be referred to appropriate criminal investigators for resolution. The IO must notify the DoW Component of the outcome of this consultation.

4.24.3.13.1. If at any time the IO suspects that the ADA violation was knowing and willful, then the IO must submit all available information to the DoW Component, which considers the case, in conjunction with the applicable Office of the General Counsel, for submission through DoW channels to the Department of Justice pursuant to 31 U.S.C., §§ 1350 or 1519, as applicable.

4.24.3.13.2. The case closes to avoid duplication of effort or interference with a criminal investigation. If appropriate, a new formal investigation opens at the conclusion of the criminal investigation.

4.24.4. Rebuttal Statements

4.24.4.1. Individuals found potentially responsible for the violation are provided a draft ROI detailing the facts and circumstances leading to the determination of their responsibility and given two weeks to issue a rebuttal statement.

4.24.4.2. The IO grants the individuals named potentially responsible this opportunity even if they no longer work where the violation occurred or have retired or separated from the DoW.

4.24.4.3. The ROI documents the steps taken to notify the proposed responsible officials and provide them an opportunity to submit a rebuttal statement. Certified mail and/or email with tracking may be used to verify a good faith attempt was made to deliver the draft report to the proposed responsible official.

4.24.4.4. Where proposed responsible officials may have separated and left no valid forwarding address, make a reasonable attempt to contact them. The report must be annotated accordingly. Summarize attempts to contact the proposed responsible official in the report.

4.24.4.5. Include the declination statement as their response if the proposed responsible official declines to give a statement in writing.

4.24.4.6. Note if they refuse to receive the report or submit a statement of any kind in the report. Summarize attempts to solicit a response in the report.

4.24.4.7. Support any oral statements with a memorandum for record.

4.24.4.8. The proposed responsible officials must acknowledge that they read the draft ADA report and understand that the draft ROI names them as being responsible for the violation. They may introduce any additional information they believe to be pertinent to the violation case.

4.24.4.9. The IO must evaluate the rebuttal statements of the proposed responsible officials to determine if they clarify certain facts, provide mitigating information that might alter the draft's conclusions, or provide additional leads that require follow-up. If rebuttal statements result in material changes to the draft ROI, the responsible official must have an opportunity to review the report again.

4.24.4.10. The final ROI includes the rationale for naming the individual as a responsible official, a synopsis of the rebuttal statements, and the IO's assessment. The IO must ensure the report is clearly written, and the rationale for assigning responsibility to an individual is fully justified.

4.24.4.11. Summarize the salient points of the rebuttals in the ROI. Verbatim statements must be submitted as an exhibit. The IO assesses the accuracy of the rebuttal statements, following up on new leads, addressing questions regarding the responsibility of other personnel not named, and any other issues introduced by the rebuttal statements.

4.24.5. Corrective Actions

4.24.5.1. The ROI must state what actions were taken to request the proper funding. A report stating funds are requested is not sufficient. The report must state the year, type

of funds, and the amount used to make the correction. As an example, if Operation and Maintenance (O&M) funds were improperly used for a minor construction project costing more than the limitation for minor construction, funds must be obligated from the Military Construction appropriation and the O&M appropriation restored to the proper balance.

4.24.5.2. When the IO determines the causes and the individuals responsible for the violation, officials of the DoW Component or the activity holding the funds that were misused, must develop lessons learned and implement internal control enhancements necessary to reduce risks for future similar nature violations. Those specific actions must be included in the formal report.

4.24.5.3. Corrective actions must be concrete actions that have been implemented, or that are in the process of being implemented.

4.24.5.4. Corrective actions must address the act or omission by the responsible official(s) that led to the violation.

4.24.5.5. Investigations resulting in no reportable violation are nonetheless permitted to recommend corrective actions, as appropriate, to address any deficiencies or practices documented during the investigation.

4.25 Reinvestigation

If the DCFO requests a reinvestigation, then after the reinvestigation is completed or other requested action has been taken, the applicable DoW Component must submit the revised report to the DCFO according to applicable procedures in paragraph 6.3. The DoW Component must submit the revised ROI within two weeks following completion of the reinvestigation or other requested action.

4.26 Formal Investigation Results

4.26.1. The IO must ensure the ROI is clearly written and that a preponderance of the evidence supports each fact and conclusion.

4.26.2. The DoW Component must carefully review the ROI and all enclosures.

4.26.3. The complete report must include:

4.26.3.1. Legal review;

4.26.3.2. Witness statements;

4.26.3.3. Responsible official notification;

4.26.3.4. Responsible official rebuttal or declination statement/proof of delivery/statement from IO regarding inability to contact;

4.26.3.5. Evaluation of responsible official statements;

4.26.3.6. Ongoing/completed corrective actions;

4.26.3.7. For ADAs susceptible to accounting adjustments, fund certifications supporting conclusions that the ADA is/is not correctable; and

4.26.3.8. SME functional reviews decisions that drove fund determinations, especially with respect to Military Construction, information technology procurements, and covered Defense Business Systems.

4.26.4. An incomplete ROI must be returned to the activity/command for rework. A firm suspense must be given to the activity/command to resubmit a legally supportable report.

4.27 DOD COMPONENT ROI

4.27.1. Preparation of the ROI

4.27.1.1. The DoW Component ROI must follow the same general format as described in Figure 3-5. However, it is generally a stand-alone product without enclosures or attachments. Remove extraneous information not supporting conclusions from the report. The DoW Component must keep these records and provide them on request.

4.27.1.2. Remove or clarify confusing information. Verify key dates mentioned in the report. Numbers in tables, graphs, and text must be accurate, consistent, and easy to follow. Unnecessary tables and photographs may be removed.

4.27.1.3. Personally Identifiable Information must be redacted, and superfluous argument(s) not supporting the findings must be removed. Witness names must be replaced with position titles where practicable, to avoid potential Personally Identifiable Information concerns.

4.27.1.4. The ROI must be concise and avoid unnecessary historical background or references to external documents. Highlight salient points and address gaps in the narrative, utilizing extant supporting documentation.

4.27.2. Legal Coordination

4.27.2.1. Prepare the DoW Component ROI in close coordination with counsel and verify all information in the IO's report and compare it to information in the exhibits. When in doubt, staff the changes with the activity/command to ensure there are no material misstatements of fact and to ensure any factual gaps in the record are closed.

4.27.2.2. When the violation is incurable, the type of ADA violation is ultimately 31 U.S.C. §1341 (exceeding an appropriation or in advance of an appropriation), 31 U.S.C. §1517

(exceeding apportionment or formal subdivision) or 31 U.S.C. § 1342 (accepting voluntary services for the United States, or employing personal services not authorized by law).

4.27.2.3. Remove proposed responsible officials if facts do not support responsibility and legal concurs. Identify additional responsible individuals and coordinate adding them to the report with the IO. Proposed responsible officials are generally the highest-ranking individual in the decision-making process with actual or constructive knowledge of the actions taken.

4.27.2.4. If the formal investigation was materially incomplete, or the facts do not support the conclusions, return the ROI to the activity/command for revision and/or reinvestigation. Give the activity/command a firm suspense to resubmit a legally supportable ROI.

4.27.2.5. Coordinate with the appropriate stakeholders and annotate the ROI accordingly if the ADA violation involves the funds or personnel of another DoW Component.

4.27.2.6. Prepare an ROI if the results of a formal investigation led to a determination by the DoW Component that there was no violation. The ROI must contain appropriate justification that supports a revised finding that no violation occurred.

4.28 REQUEST FOR ADVANCE DECISION

4.28.1. Advance Decision Package Submission

4.28.1.1. Submit the ROI, to include the individual(s) responsible for the potential violation, to the DCFO with a copy to the DoW Office of the Deputy General Counsel (Fiscal) (OGC (Fiscal)) requesting an Advance Decision for a determination of whether the case is or is not an ADA violation.

4.28.1.2. Advance Decision is the pre-decisional OGC (Fiscal) review of the DoW Component ROI and determination that evidence substantiates the ADA violation and the naming of responsible officials. The Advance Decision examines the role of the proposed responsible officials. It determines whether they may be legally held accountable in accordance with 31 U.S.C. §§1341(a), 1517, and 1342.

4.28.1.2.1. If the OGC (Fiscal) determines that no violation is substantiated, then the DoW Component is notified that no further action is required, and the investigation is closed.

4.28.1.2.2. If the OGC (Fiscal) concurs that the proposed responsible officials are correctly identified and a preponderance of the evidence substantiates the violation, then the DoW Component is notified and informed that discipline against one or more individuals named in the report may proceed.

4.28.2. OUSW(C) DCFO Review

The DCFO must review each ADA violation report for completeness, clarity, and compliance with reporting requirements. If the report is determined incomplete by the DCFO or OGC (Fiscal), then the ROI must be returned to the applicable DoW Component. The DoW Component must provide additional documentation, modify the report, or accomplish other actions as requested within the period specified by the DCFO.

4.29 DISCIPLINARY ACTION

4.29.1. Disciplinary Actions

4.29.1.1. Following OGC (Fiscal) concurrence and receipt of an advance decision from the OUSW(C), the DoW Component sends a tasking memorandum from the DoW Component to the appropriate organization or individual for potential administration of adverse action, as deemed warranted, along with a copy of the report.

4.29.1.2. The individual imposing discipline must be independent and free of external influence.

4.29.1.3. The disciplinary officer(s) must follow the appropriate disciplinary procedures applicable to the military member or civilian employee who has been determined in the ADA investigative process to be a responsible individual. The disciplinary officer consults with the staff judge advocate or servicing legal office, as well as the civilian personnel office (in the case of a civilian employee).

4.29.1.4. The IO is prohibited from also being appointed as the disciplinary officer. The IO does not have a role in recommending or determining discipline.

4.29.2. Imposing Discipline

4.29.2.1. Administrative Penalties

4.29.2.1.1. Document disciplinary action taken in the individual's personnel file in accordance with established policies.

4.29.2.1.2. Administrative discipline for a civilian employee may include, but is not limited to, written/oral counseling, written/oral admonishment or reprimand, reduction in grade, suspension from duty without pay, or removal from office.

4.29.2.1.3. Military personnel may be subject to appropriate administrative discipline or to action under the ***Uniform Code of Military Justice*** (Common Access Card required).

4.29.2.1.4. In general, individuals no longer on active duty or employed by a DoW Component may not be disciplined. However, disciplinary actions may still be imposed against some retired individuals who have separated from military service if it is warranted by

circumstances and determined to be legally appropriate by counsel. DoW has no authority to discipline retired or former civilian employees.

4.29.2.2. Criminal Penalties

4.29.2.2.1. An officer or employee found responsible for committing a violation knowingly and willfully may be subject to criminal penalties. The IO consults with legal counsel to determine if the investigation must be referred to the appropriate criminal investigation organization for action.

4.29.2.2.2. 31 U.S.C. § 1350 prescribes that an officer or employee of the United States Government who knowingly and willfully violates 31 U.S.C., §§ 1341 or 1342 must be fined not more than $5,000, imprisoned for not more than 2 years, or both. 31 U.S.C. § 1519 discusses the violation of 31 U.S.C., § 1517 and provides the same level of punishment. Criminal penalties for military personnel may include punishment under ***Article 15*** of the Uniform Code of Military Justice or trial by Courts-Martial.

4.29.2.2.3. Include in the ROI a statement from the DoW Components to the DCFO that criminal penalties may be required.

4.29.3 Documentation of Discipline Imposed

4.29.3.1. A suggested template for use by the disciplinary officer is located at Figure 3-6. In documenting discipline, the officer imposing discipline must acknowledge the following:

4.29.3.1.1. An ADA violation is a violation of federal statute;

4.29.3.1.2. ADA violations constitute misuse of DoW funds, even if the misuse was not knowing or willful and the misuse was not ultimately harmful to DoW, or the DoW Component;

4.29.3.1.3. DoW is required to report violations of the ADA to the President (via the Director, OMB), the U.S. Congress, and the Government Accountability Office;

4.29.3.1.4. An unwilful or unintentional violation alone does not justify a decision not to administer disciplinary action; and

4.29.3.1.5. Disciplinary actions must consider the severity of the violation.

4.29.3.2. Moreover, the officer imposing discipline must provide a written statement addressing why the disciplinary penalty imposed, or not, is commensurate with the severity of the violation.

4.30 SUBMISSION OF THE FINAL REPORT

4.30.1. Submission to DCFO

Submit the original or an electronic copy of the final ROI, including a discussion of the disciplinary actions taken, to the DCFO and include a copy of all pertinent documents referenced in the body of the report.

4.30.2. ROI Due Date

The ROI is due to DCFO within 14 months from the date the formal investigation began.

4.31 NOTIFICATION TO EXTERNAL AUTHORITIES

4.31.1. Letter Preparation

Following receipt of an acceptable final ADA violation report from the applicable DoW Component, the DCFO prepares the required letters, in accordance with OMB Circular No. A-11, Exhibit 145A, that report an ADA violation to the President through the Director of the Office of Management and Budget, the President of the Senate, the Speaker of the House of Representatives, and the Comptroller General of the United States. The notification letters must be coordinated with the OGC (Fiscal), Office of the Assistant Secretary of War for Legislative Affairs, and Office of the Deputy Comptroller (Program/Budget).

4.31.2. Letter Content/Submission

These letters are submitted to the USD(C) for signature and forwarded to the external authorities identified in paragraph 4.31.1. The letters and the attached ROI notify the external authorities of the violation, its cause(s) and circumstances, the names of the individual(s) responsible for the violation, and the disciplinary action taken.

Figure 1. Checklist for Formal Investigations

Initial Phase
Open formal investigation
Assign case control number for tracking
Notify DCFO
Direct activity to appoint an investigating officer
Provide appointment memo to the DoW Component
Name support team
Conduct in-brief session
Determine the scope of the investigation
Consult legal counsel
Review the results of the Preliminary Review
Familiarize the team with a legal basis for potential violation
Consult governing statutes and regulations
Meet with staff requesting or reporting investigation
Compile a list of witnesses and questions
Make travel arrangements

Phase II
Examine for physical evidence
Assemble and analyze evidence
Trace and document transactions and funding documents
Determine the roles and responsibilities of participants and decision-makers at each echelon
Develop a chronology of events
Consult subject matter experts and have them prepare written opinions, as required
Interview witnesses
Determine specific acts or decisions leading to the violation
Assign responsibility for making/authorizing violation
Make an initial assessment of whether anyone appears to have intentionally violated the ADA with knowing and willful intent. If so:
Halt investigation and notify appointing official
Consult with a legal advisor
Prepare initial draft of findings

Phase III
Notify proposed responsible officials
Allow two weeks for submission of rebuttal statements
Document delivery of report via email tracking or certified mail
Make a reasonable effort to locate former officials or employees
Provide draft report
Analyze rebuttals to determine if they necessitate new interviews and follow up on new leads if required
Incorporate salient points from rebuttals in the revised report

Insert assessment on the impact of the rebuttal statements, if any, on conclusions

Enclose verbatim rebuttals as an enclosure to report

Phase IV
Engage activities involved to develop corrective actions to reduce the risk of similar violations recurring:
Document corrective actions that have already been put in place
Quantify enhanced controls being implemented
Obtain a listing of planned corrective actions and milestones
Incorporate lessons learned and corrective actions in the report
Finalize Formal Report
Obtain legal review

Phase V
The appointing official verifies the following information before endorsement and release:
Is a copy of the investigating officer's appointment memorandum included in the report?
Does the report include the case control number, title of the appropriation/fund involved, Treasury symbol, amount, date of occurrence, date discovered, a description of how the potential violation was identified, the name and title of the investigating officer, the dates, place, and scope of the investigation?
Is the evidence clearly documented in the report, and is the evidence relevant to the case?
Does the evidence appear to be complete, or are significant factors missing that should be considered? Do there appear to be relevant unanswered questions?
Are the findings clearly stated, logical, supported by the evidence, and relevant to the case?
Is each finding that is based upon testimony properly cross-referenced to the testimony?
Do the evidence and testimony fully substantiate the findings and conclusions?
Were all conflicts in testimony addressed in the report?
Does the report include a clear description of the causes and circumstances surrounding the violation?
Transmit report to DoW Component

Final Phase
DoW Component reviews report
DoW Component initiates the summary report
Coordinate with counsel
DCFO review of report
Obtain an Advance Decision
Complete Investigation – Insert discipline imposed into the report.
Send notification letters to external authorities
Complete closure

Figure 2. Template for Initial Reports

Activity/command Letterhead
Initial Memorandum

MEMORANDUM FOR (DoW Component)

SUBJECT: Alleged Antideficiency Act Violation (Location and Subject Matter)

Reference: DoW Financial Management Regulation, Volume 14, Section 4.

In accordance with the reference, the initial report of an alleged Antideficiency Act Violation (ADA) follows:

Accounting classification of funds allegedly misused:

Name and location of the activity where the alleged violation occurred:

Name and location of the activity issuing the fund authorization:

Amount of fund authorization or limitation that was allegedly exceeded:

Amount and nature of the alleged violation:

Date the alleged violation occurred:

Date of Discovery:

Means of Discovery:

Description:

Signature Block of
Activity/commanding Officer or
Head of Activity

Figure 3. Template for Appointment Orders

Investigating Officer Appointment

MEMORANDUM FOR (Investigating Officer's Name)

SUBJECT: Appointment as Investigating Officer, Case Number.

References:

Department of War (DoW) Financial Management Regulation Volume 14, Section 4.

Cite Initial Report.

2. You are hereby appointed as an investigating officer to conduct a preliminary review/formal investigation of a potential Antideficiency Act (ADA) Violation that allegedly occurred at (location or activity) in Fiscal Year xx.

3. I certify that you have received qualifying fiscal law training within the previous three years and are qualified to perform this investigation. You are free of any known conflicts of interest and able to perform an independent review. You will be assisted by (names of legal advisor and support team subject matter experts).

4. A report detailing the results of your preliminary review/formal investigation will be submitted no later than (suspense date). Your report must include the facts surrounding the alleged violations and include a legal review, which supports the conclusion that an ADA violation did or did not occur.

5. Provide any additional instructions to the investigating officer.

6. The point of contact for this report is xxx, who can be reached at (phone), or (email)

Signature Block of Appointing Official

Figure 4. Template for Preliminary Review

Preliminary Review

Department of the xxx
Report of Antideficiency Act Violation
Name of Component/Agency and Case No.

Appropriations(s) Involved/Title, Symbol, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (9710100)

Where Violation Occurred.

Name and Location of Activity Issuing the Fund Authorization.

Amount of Violation.

Date Violation Occurred.

Type of Violation(s). Provide the 31 U.S.C. section violated and a brief description of the violation, and state whether the violation was an over-obligation of an appropriation, an apportionment, or an allotment. Example: 1341(a)(1)(A), exceeded the amount available in appropriation or fund.

Effect of Violation on the Next Higher Level of Funding. State whether the violation affected the next higher level of funding.

Date and Description of How Violation Was Discovered. Provide the date and who/how the violation was discovered.

Causes and Circumstances Surrounding the Violation. Provide a detailed description of the violation. Include the following:

A detailed summary of what caused the violation and the associated circumstances; what actions should have been, but were not, taken by specific individuals; what actions were taken that should not have been taken; and why the violation happened.

The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated, number of people interviewed, mitigating circumstances surrounding the violation, issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.

Figure 4. Template for Preliminary Review (continued)

If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted because of a memorandum or letter directing an investigation, then reference that document and attach a copy to the report.

Conclusion. Summarize your findings in a paragraph to support your conclusion that a violation has occurred or that a violation did not occur.

Additional Information. Provide details not covered above.

Figure 5. Template for Formal Report

DOD COMPONENT OR AGENCY
REPORT OF ANTIDEFICIENCY ACT VIOLATION INVESTIGATION
Name of Component/Agency and Case No.

Appropriation(s) Allegedly Exceeded.

Treasury Symbol or Fund Account, and Apportionment Status. Example: Fiscal Year (FY) Operation and Maintenance, Defense-wide (97 20102010 0100)

Where Violation(s) Occurred.

Name and Location of Activity Issuing the Fund Authorization.

Amount of Violation.
Provide total and breakdown, if applicable.

Date Violation(s) Occurred.

Type of Violation(s).
Provide the section(s) of Title 31, U.S.C. that were violated. For example, 31, U.S.C. §§§ ***1341(a)(1)(A)***, ***1342*** or ***1517(a)(2)***.

Effect of Violation(s) on the Next Higher Level of Funding.
State whether the violation(s) influenced the next higher level of funding.

Exceeding an administrative subdivision at the local level can lead to the next higher level exceeding its subdivision of funds and to the DoW Component's apportionment and appropriation being exceeded.

For instance, if an installation exceeded an amount in operating budget authority or an allotment, did this cause the higher activity/command operating budget authority or allocation also to be exceeded? If the higher activity/command operating budget authority or allocation is exceeded, also state why the DoW/Component apportionment or appropriation was also exceeded.

Name and Position of Responsible Individual(s).

If a violation(s) involves a centrally managed allotment, then the head of the operating agency at the time the violation was incurred must be named responsible.

Include the position description of the proposed responsible official as a backup to the report.

Signed Statement(s) of Responsible Individual(s).
State whether a statement(s) was received from the individual(s). If so, enclose the verbatim statement. The ADA report must summarize salient points of the proposed responsible official's

statements and an evaluation of their relevance by the investigating officer. The introduction of new witnesses and new evidence in the rebuttal statements must be addressed. Each individual named responsible for the violation(s) must be given the opportunity to state any circumstances believed to be extenuating. If the proposed responsible official could not be located or refused to provide a statement, the report must detail measures taken to contact them and solicit a response. The individual(s) found responsible for the alleged violation must be:

Allowed to consult with legal counsel.

Advised that a violation(s) has been determined to have occurred, and that he or she is named a responsible individual for the violation(s) and must be allowed to review the report and examine evidence on which the determination was based.

Allowed to submit a sworn or unsworn statement regarding the alleged violation(s) after reviewing the report and evidence.

The report must include an evaluation of any facts or circumstances and the effects on the report when the statement of the responsible officer(s) or individual(s) differs from the report itself. If the statement has no effect on the report, state the reason(s) why. Material changes in findings as they relate to the role of the proposed responsible official must be staffed with the proposed responsible official a final time.

Date(s) and Description of How Violation(s) Was Discovered.

Provide date(s) and who/how violation(s) was discovered.

Causes and Circumstances Surrounding the Violation(s).

Provide a detailed description of the violation(s). Include the following:

A brief, clear description of the causes and circumstances surrounding the violation(s); what caused the violation(s) and the associated circumstances; what actions should have been, but were not, taken by a specific individual(s); what actions were taken that should not have been taken, but were; and why the violation(s) happened. The description must state clearly what the individual(s) responsible for the violation(s) did, or failed to do, that caused the violation(s). State whether the violation(s) was due to careless disregard of instructions; an error; a lack of adequate training, procedures, or controls; or due to other reasons. The report must not be so brief that it does not clearly convey the essential facts and circumstances of what happened.

Clearly state in sufficient detail what happened. If the violation(s) involved an appropriation with a negative balance, then state whether the cause of the negative balance was systemic or a unique situation.

The scope of the investigation and the methods used to accomplish the investigation, for example, face-to-face interviews; research of legal, financial, and management issues; and written explanation of the facts of the potential violation. Discuss the evolution of the issues investigated,

number of people interviewed, mitigating circumstances surrounding the violation(s), issues that could or could not be proven during the investigation and the supporting rationale, any issues that cannot be agreed upon by those individuals involved, and any other comments that are pertinent to the investigation.

Results of interviews of individuals involved in the violation(s) and a summary of how the area(s) procedures and processes operated that were involved in the investigation. Discuss the issues and the areas or functions that were reviewed, evaluated, and investigated; the names, ranks, and titles of the individuals that were interviewed; and a discussion on any related areas and matters that were not investigated and the rationale for omitting them from the investigation.

If the investigation has been undertaken because of an audit report, then identify that report by title, number, date, and issuing audit organization. If the investigation was conducted because of a memorandum or letter directing an investigation, then reference that document and attach a copy to the report. To ensure all essential items are discussed, use the results of the checklist in Figure 3-1.

Evidence of Willful Intent to Violate.

State whether the ADA was knowingly and willfully violated. If the violation was willfully committed, was the case referred to appropriate criminal investigators? If criminal investigators or the Department of Justice declined to pursue the case, clearly state the outcome.

Disciplinary Action Taken.

The investigating officer does not use this section and must have a statement that discipline will be implemented only after DCFO review.

The DoW Component will complete this section only after discipline is implemented and documented.

Corrective Action Taken.

State what procedural actions were taken and completed to preclude violations from happening in the future. This must include a description of specific action(s) taken to correct the violation. State what funds were used to make necessary accounting corrections, such as appropriation, title, and fiscal year. Include any procedural changes or new safeguards established to prevent the recurrence of the same type of violation. Describe actions in detail so that the adequacy of the corrective action(s) may be evaluated. This includes improvement of overall and specific policies, procedures, and processes used by the functional areas involved in the violation; revised statutes or regulatory guidance that may have been involved; established or improved internal procedures; and assurance that a similar violation will not occur in the future. Reference documentation of corrective actions in an enclosure.

Administrative Control of Funds.

Name and position of the holder of the funds and an evaluation of whether their exercise of fund control responsibilities contributed to the violation.

Component or Agency Coordination.

State steps taken to coordinate the report with the other components or agencies involved (if applicable).

Additional Information.

If applicable.

Figure 6. Template for Discipline Confirmation

OFFICE SYMBOL

MEMORANDUM FOR DoW Component

SUBJECT: Disciplinary Action imposed on Mr./Ms._____, Antideficiency Act Violation Case XX-XX

An ADA violation occurred when Mr./Ms._____, while assigned to (activity or installation) issued/authorized _____. This resulted in an uncorrectable violation of the Antideficiency Act.

I understand that (a) an Antideficiency Act violation is a violation of Federal statute; (b) Antideficiency Act violations constitute a misuse of DoW funds even though the misuse may not have been knowing or willful, and despite whether the disciplinary officer considers the misuse harmful to DoW, the Military Department or Service, or to the Defense Agency; (c) the Department is required to report the violation to the President (via the Director, Office of Management and Budget), the U.S. Congress, and to the Government Accountability Office; (d) an unwilful or unintentional violation does not justify a decision to not administer disciplinary action; and (e) disciplinary action must be commensurate with the severity of the violation, and factors leading to the violation or its resolution may be considered.

As identified in the formal investigation, Mr./Ms._____ is an individual primarily responsible for this violation. Mr./Ms._____ caused an uncorrectable violation of the ADA when he/she (state specific actions). As the officer charged with imposing discipline in this case, I issued (state actions) to Mr./Ms._____. While I considered _____, I have determined that _____ is appropriate for the following reasons: _____. No further discipline against Mr./Ms. _____ will be taken.

4. My point of contact for this action is xxx, who can be reached at (xxx) xxx-xxxx, email: xxx.

VOLUME 15

SECURITY COOPERATION POLICY

1.0 GENERAL

1.1 Purpose

Volume 15 provides Department of War (DoW) policy on the financial management of security cooperation (SC) programs. This Volume directs statutory and regulatory financial management requirements for a wide range of activities, including appropriated and non-appropriated working capital, revolving, and trust fund activities. Volume 15 policy applies to all organizational entities within the DoW and covers topics such as general SC information, finance, accounting, cash management, case files, pricing, billing, and reimbursement for Foreign Military Sales (FMS) and Building Partner Capacity (BPC) programs.

1.2 Authoritative Guidance

Refer to the Volume 15 authoritative guidance document on the Financial Management Regulation (FMR) webpage.

1.3 Definitions

Refer to the glossary on the FMR webpage.

1.4 Procedures

Refer to the Defense Security Cooperation Agency (DSCA) Security Assistance Management Manual (SAMM) listed throughout this Volume.

2.0 SECURITY COOPERATION PROGRAMS

2.1 Overview

2.1.1. This section provides DoW accounting policy for SC transactions to ensure compliance with all requirements for the administrative control of SC programs. Unless specifically exempt, SC transactions must adhere to DoW accounting policy within Volume 15, as well as existing laws and regulations governing accounting of federal funds. Proposed changes to this Volume must be submitted to the Financial Management Policy and Reporting Directorate at the Office of the Deputy Chief Financial Officer (ODCFO) as soon as practicable for consideration. However, DoW Components must first submit proposed changes through the DSCA Office of Business Operations. All proposed section updates must be submitted to the appropriate approving authority and, if approved, will be incorporated into the DoW FMR as soon as possible.

2.1.2. SC. SC refers to activities undertaken by the DoW to encourage and enable international partners to work with the U.S. to achieve strategic objectives. It includes all DoW interactions with foreign defense and security establishments, including all DoW-administered security assistance programs, that: build defense and security relationships that promote specific U.S. security interests, including all international armaments cooperation activities and security assistance activities; develop allied and friendly military capabilities for self-defense and multinational operations; and provide U.S. forces with peacetime and contingency access to host nations.

2.1.3. Security Assistance (SA). SA refers to a group of programs authorized by Title 22 of the U.S. Code, or related annual foreign operations appropriations legislation under which the U.S. provides defense articles, military training, and other defense-related services by grant, loan, credit, cash sales, or lease, in furtherance of national policies and objectives. The DoW administers some, but not all, SA programs, on behalf of the Department of State. Those SA programs administered by DoW are a subset of SC. The SAMM provides guidance on the major Title 22 programs DoW administers: FMS; Foreign Military Construction Services; Foreign Military Financing; Leases; Military Assistance; International Military Education and Training (IMET); Presidential Drawdown Authority; Peacekeeping Operations; and Special Defense Acquisition Fund (SDAF).

2.1.4. BPC Programs. BPC programs refer to SC and SA activities funded with U.S. Government (USG) appropriations. The DoW may enter into agreements for the provision of defense articles and/or services with other USG departments and agencies when executing BPC programs:

2.1.4.1. Building the capacity and capabilities of partner nation security forces to conduct authorized military, stability, and counter-threat operations in alignment with U.S. national security interests in accordance with 10 U.S.C. §333, Foreign Security Forces: authority to build capacity. See SAMM, Chapter 15; or

2.1.4.2. Supporting U.S. military and stability operations, multilateral peace operations, and other programs. See SAMM, Chapter 15 or Chapter 15 - Legacy, for a detailed discussion of BPC programs.

2.2 Accounts of the U.S. Department of Treasury (Treasury)

The Foreign Affairs/Foreign Relations Committees of the Congress (rather than the Armed Services Committees) appropriates SA funds. The Executive Branch, Office of the President, identified by Treasury Index (TI) 11, receives SA funds. Funds and accounts authorized by Acts originating in the Armed Services Committees of Congress and appropriated to DoW are identified by: TI 97, "Defense Department;" TI 17, "Navy;" TI 21, "Army;" and TI 57, "Air Force." Additionally, BPC programs are funded from either a DoW Title 10 or Department of State Title 22 appropriation depending on the specific legislative authority. See SAMM, Appendix 10 for other treasury accounts used in SC for BPC cases.

2.2.1. Treasury Accounts Applicable to FMS Trust Fund Operations. Treasury account 11X8242, "Advances, FMS, Funds Appropriated to the President," is the FMS Trust Fund account

used for centrally recording contract authority and collections authorized under the FMS program. Under Section 3 of Executive Order No. 13637, responsibility for the execution and administration (e.g., obligations and disbursements) of the FMS Trust Fund was delegated from the President, identified by TI 11, to the Secretary of War (SecWar), identified by TI 97. The complete fund cite 97 11X8242, though not required for execution of consolidated financial statements and reports, identifies funds under the control of the DoW. Only 11X8242 is reported to the Bureau of Fiscal Service (Fiscal Service) and the Office of Management and Budget. Fiscal Service has established trust fund receipt and expenditure accounts to account for cash collections, budget authority (BA), and cash disbursements resulting from the FMS program.

2.2.2. For procedures related to cash receipts, budget authority, cash expenditures, and miscellaneous receipts, see SAMM, Appendix 10.

2.3 SDAF

The SDAF, established under the authority of 10 U.S.C. § 114, is a DoW-controlled revolving fund used to acquire defense articles and services in anticipation of their sale to eligible foreign countries and international organizations. Pursuant to 10 U.S.C. § 114(c)(1), the balance of the SDAF may not exceed $3.5 billion. In accordance with 22 U.S.C. § 2795(c), the size of the fund includes funds acquired through FMS sales, also known as offsetting collections. For procedures pertaining to the SDAF, see SAMM, Appendix 10.

2.4 Treasury Accounts Applicable to Credit Sales, Guarantees, and IMET

2.4.1. For procedures related to the receipt and utilization of appropriations, as well as cash collections, see SAMM, Appendix 10.

2.4.2. Security Assistance and International Programs (SAIP) Deposit Account. Account 11X6147, "Security Assistance and International Programs, Deposit Account," was originally established in 1978 to support the North Atlantic Treaty Organization E 3A Program deposit account. Subsequently, additional activities have used this account for purposes such as recording collections received from foreign governments to reimburse the DoW for goods and services not acquired through the FMS program, or FMS customers to use the Air Force Parts and Repair Ordering System and Worldwide Warehouse Redistribution System to acquire nonstandard items, and to provide advance funding to support acquisitions. Since fiscal year (FY) 2021, the SAIP Deposit Account has been included in the SA Accounts financial statements.

2.5 Other Treasury Accounts

For a list of other Treasury accounts used in SC, see SAMM, Appendix 10.

2.6 Types of Financing

There are two types of financing associated with the FMS Trust Fund: reimbursable and direct citation. For procedures concerning these topics, as well as accounting classification codes of the FMS Trust Fund, see SAMM, Appendix 10.

2.6.1. Reimbursable Financing. Sales under 22 U.S.C. §§ 2761 and 2762, for which the President has determined it is in the National interest to defer payment (bill for defense articles and services on or after delivery), must be accomplished using reimbursable financing. When deferred payment is authorized under 22 U.S.C. § 2761 for 120 days, and for all authorized deferred payments for 22 U.S.C. § 2762 sales, an appropriation is required to finance any outlays until the purchaser makes payment. The appropriation cited must have reimbursable authority.

2.6.2. Direct Cite Financing. New procurements initiated because of FMS orders under 22 U.S.C. §§ 2762 and 2769 (except as exempted in paragraph 3.1) must be accomplished, to the maximum extent feasible and appropriate, through direct citation of the FMS Trust Fund (97 11X8242 or 97 11X6147) on applicable contractual documents.

3.0 FMS BUDGET AND OBLIGATION AUTHORITY

This section provides policy guidance for FMS Trust Fund BA, including FMS Trust Fund obligational authority (OA) for implemented cases, the FMS administrative surcharge budget, and contract administration services (CAS) surcharge budget. BA is the U.S. legal authority that empowers U.S. Government agencies to spend federal funds. BA allows the DoW to enter into obligations that will result in immediate or future outlays from Federal Government accounts. For procedural guidance on BA execution, see SAMM, Appendix 10. For BPC programs, BA is derived from specific USG appropriations (such as DoW Title 10 or Department of State Title 22) rather than partner nation funds. Title 10 BPC BA is provided to Implementing Agencies (IAs) via Funding Authorization Documents (FADs) or Military Interdepartmental Purchase Requests (MIPRs) and is strictly subject to the statutory purpose and period of availability of the underlying appropriation. Title 22 BPC BA is derived from Interagency Agreements (IAAs) or Memoranda of Agreement (MOAs) under Section 632(b) of the Foreign Assistance Act.

3.1 Responsibilities

3.1.1. DSCA must prepare the annual budget request for the FMS Trust Fund obligational and outlay authority to support the FMS Trust Fund program. DSCA reviews, approves, and distributes funding for the FMS Administrative surcharge, BPC, SDAF, and the FMS CAS surcharge accounts. DSCA is also responsible for establishing the annual safety level amount to be maintained in the FMS Trust Fund administrative surcharge, the CAS surcharge, and transportation cost clearing accounts. For procedures related to the establishment of the annual safety level amount, among other topics related to the FMS Trust Fund administrative surcharge account, see SAMM, Chapter 9.15 and Appendix 10.

3.1.2. IAs and Performing Agencies must prepare data for Letters of Offer and Acceptance (LOAs), fulfill FMS Trust Fund orders, and submit FMS administrative and CAS budget requests annually.

3.1.3. The Defense Finance and Accounting Service (DFAS) Security Cooperation Accounting (SCA) must obtain cash advances from FMS Trust Fund purchasers to liquidate obligations resulting from the use of OA created by the FMS Trust Fund.

3.2 BA

3.2.1. Recognition of OA by the FMS Trust Fund. To establish OA, FMS Trust Fund purchasers must return all accepted LOAs, Amendments, and processed Modifications to the IA. For procedures related to the establishment of an FMS Trust Fund OA, as well as Trust Fund Direct Citations, see SAMM, Appendix 10.

3.2.2. The OA Request must be used to request commitment/OA for direct citation of the FMS Trust Fund. The OA Request is used as a control device, and commitments/obligations must be limited to the dollar value of the approved OA Request. For procedures related to Trust Fund Direct Citations, see SAMM, Appendix 10.

3.2.3. Contract Authority. Contract authority is the statutory authority to incur obligations with liquidation of obligations dependent on a future act, such as receipt of an appropriation. For procedures that enable the execution of this authority, see SAMM, Appendix 10.

3.2.4. Recognition of FMS Reimbursable OA in DoW Appropriation or Fund Accounts. The LOA, Amendment, or Modification does not represent a reimbursable order to the performing DoD Components. The approved OA Request is the reimbursable order. The OA Request includes the reimbursable portion of the order that may be credited to appropriations by a DoD Component for each line within a case for a FY. The OA amount for each line within a case cannot be exceeded. For procedures related to FMS Trust Fund orders and apportionments for reimbursable orders, see SAMM, Appendix 10.

3.3 Planning Directives and OA Requests

Planning Directives and OA Requests are required for all new cases that have been submitted to FMS Trust Fund purchasers for acceptance and for all cases in the process of implementation. For all procedures related to the preparation of Planning Directives and OA Requests, see SAMM, Appendix 10.

3.4 OA Requests for Budgeted FMS CAS Costs and Funds Reimbursed

OA Requests for Budgeted FMS CAS Costs and Funds Reimbursed by the FMS CAS Surcharge Account. For procedures related to the FMS CAS surcharge budget and FMS CAS OA Requests, see SAMM, Appendix 10.

4.0 FMS ACCOUNTING

This section addresses accounting requirements designed to: (1) assure proper DoW control and accountability of cases implemented in the FMS Trust Fund; (2) provide accounting information that can be used for the preparation of the Agency Financial Report required by the Chief Financial Officer Act of 1990 and the Government Management Reform Act of 1994, quarterly bills to FMS purchasers, and financial status reports to DoW case managers and DSCA staff; (3) integrate with physical delivery (logistics) reporting systems; (4) serve as a basis for timely identification and reporting of financial management problems; and (5) establish internal controls to assure compliance with the payment requirements of the Arms Export Control Act (AECA), Public Law 90-629, codified at 22 U.S. Code Chapter 39.

4.1 Accounting Practices Procedures

For procedures on related accounting practices, see SAMM, Appendix 10.

4.2 Responsibilities

4.2.1. DSCA is responsible for providing oversight and monitoring usage of the FMS Trust Fund, including periodic reviews of funding levels and unused balances.

4.2.2. DFAS performs the accounting, billing, disbursing, and collecting functions for the FMS Trust Fund, as well as provides financial management and accounting support for SC programs. DFAS ensures entries in the accounting systems have audit trails to the source documents and generates financial statements. DFAS must:

4.2.2.1. Monitor for compliance with the centralized FMS case-line level accounts prescribed in this section, and the Fiscal Service, "U.S. Standard General Ledger (USSGL)." The DoW Standard Chart of Accounts is in the Standard Financial Information Structure, DoW USSGL Transaction Library, and Volume 1. Use information accumulated in the accounts when preparing billing statements to FMS purchasers and financial management reports to DoW case managers and DSCA staff;

4.2.2.2. Maintain FMS Trust Fund budget execution records;

4.2.2.3. Identify and notify DSCA when an FMS Trust Fund arrearage occurs as required in Volume 16;

4.2.2.4. Summarize all case-line level accounts at the FMS Trust Fund level, reconciling the summary cash accounts to Treasury's records per Treasury guidance, and using the summary accounts as the basis for required reports on FMS Trust Fund operations;

4.2.2.5. Maintain audit trails and supporting documentation for entries made to the accounting system; and

4.2.2.6. Prepare monthly, quarterly, and annual statements as required in Volume 6.

4.2.3. IAs must:

4.2.3.1. Fulfill FMS Trust Fund orders using these financing techniques:

4.2.3.1.1. Issue and accept reimbursable orders into a financing appropriation or Defense Working Capital Fund (DWCF) account,

4.2.3.1.2. Issue allotments/OA of the FMS Trust Fund to the performing DoW Components, or

4.2.3.1.3. Authorize direct citation of the FMS Trust Fund (11X8242);

4.2.3.2. Ensure appropriation/fund budget execution records accurately reflect the status of the reimbursable FMS Trust Fund program;

4.2.3.3. Perform and/or ensure the completion of the Dormant Account Review Quarterly (DAR-Q) of obligations and unfilled customer orders as described in Volume 3;

4.2.3.4. Maintain audit trails between source documents and entries to the accounting system; and

4.2.3.5. In coordination with DFAS, maintain within the IAs' respective accounting system of record the centralized FMS case-line level accounts prescribed in this section and in the USSGL.

4.2.4.4. Allotment Holders for Actual FMS Administrative Expenses. A DoW Component that receives a DSCA allotment of FMS administrative surcharge BA must:

4.2.4.4.1. Maintain obligations and expenditures within the limitations of the allotment;

4.2.4.4.2. Ensure obligating documents and accrued expenditures meet the requirements contained in this Volume;

4.2.4.4.3. Return unobligated OA to DSCA at the end of each FY; and

4.2.4.4.4. Perform the DAR-Q of obligations and unfilled customer orders as described in Volume 3.

4.3 SC Management Controls

For management controls, SC activities will follow the guidance in DoD Instruction 5010.40.

4.4 FMS Trust Fund Accounting Requirements

4.4.1. FMS Trust Fund. The FMS Trust Fund is a single account that is authorized to be credited with receipts that may be obligated and expended in accordance with the AECA. FMS Trust Fund receipts must be apportioned prior to obligation and expenditure; however, an Official, designated under 31 U.S.C. § 1513, and as per 31 U.S.C. § 1516, may exempt trust funds from apportionment.

4.4.2. For procedures related to the FMS USSGL, accounting for receivables, accounting for inventory, accounting for the FMS program, processing accounting transactions, DFAS SCA analysis of FMS case accounting data, and DFAS SCA surcharge transactions, see SAMM, Appendix 10.

4.5. Accounting Requirements for FMS

For procedures related to allotments for direct citation, allotments for reimbursable orders, and FY-end reporting requirements, see SAMM, Appendix 10.

4.6 Actual Administrative Expense Accounting Requirements for FMS

For procedures related to reimbursement for FMS administrative expenses, control of FMS administrative and SC Organizations (SCO) budget allotment authority, control of FMS administrative and SCO prior FY OA, control of unliquidated balances, administration and implementation of the monthly and end-of-year closeout guidance, and DFAS responsibilities for expired and canceled accounts, see SAMM, Appendix 10.

4.7 FMS Budget Execution

4.7.1. This section establishes the budget execution requirements that are applicable to the FMS program, with the specific objectives to ensure that: (1) mandatory budget execution reports that accurately reflect data recorded in accounting records are submitted to Treasury in a timely manner; (2) unnecessary FMS OA is withdrawn officially from all organizations participating in the execution of FMS cases at the end of each FY; and (3) FMS case records maintained by IAs are in agreement with DFAS SCA at the case line level throughout the life of each FMS case. For BPC budget execution, see Volume 15 sections 3.0, 4.7.2.3.6, and 4.12.2.4.

4.7.2. Responsibilities

4.7.2.1. DFAS must provide accounting data on FMS Trust Fund operations to the DoW Components.

4.7.2.2. DSCA must monitor the FMS program and submission of required FMS Trust Fund Budget Execution reports in accordance with requirements outlined in Volume 6.

4.7.2.3. IAs and the supporting DoW Components must:

4.7.2.3.1. Conduct year-end reviews of the unobligated FMS reimbursable program to ensure unnecessary BA is identified and returned to the FMS Trust Fund;

4.7.2.3.2. Ensure that the FMS reimbursable program is properly reported in appropriation or DWCF budget execution reports;

4.7.2.3.3. Submit financial Budget Execution reports accurately and timely in accordance with section 8.0;

4.7.2.3.4. Reconcile IA FMS case records to DFAS SCA case-line level accounting transactions on a periodic basis;

4.7.2.3.5. Partner with DFAS to resolve any variances or out-of-balance conditions in support of monthly FMS financial reporting; and

4.7.2.3.6. Prepare Case Closure Certificates signifying IA completion of all actions necessary for DFAS SCA to close the case as soon as possible after the case supply/services are complete. For cases applicable to countries participating in Accelerated Case Closure Procedures (ACCP), this should occur no longer than 24 months after such occurrence, and no longer than 36 months for training cases. See the SAMM, Appendix 7, "Case Reconciliation and Closure Guide (RCG)," for the Case Closure Certificate format, and SAMM Chapter 16 for case closure information. For case closure procedures required for non-ACCP, including BPC program cases, refer to SAMM Chapter 16.

4.8 FMS Trust Fund Budget Execution Reports and Financial Statements

For procedures related to Budget Execution Reports, see SAMM, Appendix 10. For financial statement guidance concerning the reporting of FMS amounts, see Volume 6. The Security Assistance reporting entity also provides GTAS submissions as a Significant Entity per Volume 6.

4.9 FMS Case Execution

For guidance on FY end procedures, reimbursement of appropriations and accounts, and DD 2061, "Foreign Military Sales (FMS) Planning Directive", see SAMM, Appendix 10.

4.10 FMS Case Closure Requirements

For procedures covering general topics, case closures, closure certification, billings after case closure, reopening FMS cases, and BPC funds return, see SAMM, Appendix 10.

4.11 Resolution of FMS Case Imbalances through Obligation Procedures

An IA that determines unresolved reconciliation issues exist for a case may resolve those imbalances through obligation procedures that provide reconciliation to valid obligations using current-year appropriations where necessary. The IA is responsible for providing all vouchers it prepares, citing the FMS Administrative Surcharge account to DFAS SCA. See SAMM, Appendix 10, for procedural guidance related to resolution.

4.12 Antideficiency Act (ADA) Violations and Adverse Financial Condition Reports

4.12.1. For purposes of the ADA (see Title 31 of the U.S.C. and Volume 14), appropriated funds are not limited to those funds specifically appropriated by Congress to federal agencies from the general funds of the Treasury. Funds available to agencies are considered appropriated if made available for collection and expenditure pursuant to specific statutory authority, regardless of their source. In applying the ADA, the FMS Trust Fund is considered to be appropriated funds. Therefore, the ADA applies to transactions involving the FMS Trust Fund.

4.12.2. Potential violations may occur in FMS Trust Fund transactions when:

4.12.2.1. Issuing OA or awarding an FMS contract without a signed LOA;

4.12.2.2. Obligating or expending FMS case funds for an unauthorized purpose, including purposes not provided for by law or those outside the scope of the signed LOA;

4.12.2.3. Violating apportionments or indemnity clauses; or

4.12.2.4. Incurring obligations on a BPC case where the financing appropriation's period of availability to incur new obligations has expired. Refer to Volume 14 for additional information on potential violations of the ADA.

4.12.3. Detailed guidance for identifying, investigating, and reporting violations under the ADA is in Volume 14. Due to the complexities of provisions in the AECA, it is important to consult with appropriate legal counsel and comptroller officials on potential violations of the ADA for FMS.

4.12.4. Adverse Financial Conditions. For procedures related to reporting other reportable financial events, see SAMM, Appendix 10.

5.0 FMS CASH MANAGEMENT

This section provides policy guidance to ensure cash is available to liquidate FMS Trust Fund obligations, as disbursements are due. Funds appropriated by Congress for defense purposes cannot be used to liquidate obligations resulting from the use of FMS Trust Fund contract authority, except as authorized by law. The FMS purchaser, USG appropriation made available to finance FMS Trust Fund purchases, or a third-party payer, must meet the cash requirements (outlay authority) of each FMS Trust Fund purchaser.

5.1 Responsibilities

5.1.1. Executive Order 13637 delegates authority and responsibility for the administration and functions for FMS, from the President, to the SecWar and the Secretary of State. The authority of the SecWar is further delegated in the November 7, 2025 memorandum "Unifying the Department's Arms Transfer and Security Cooperation Enterprise to Improve Efficiency and Enable Burden-Sharing" to the Under Secretary of War for Acquisition and Sustainment, and finally, to the DSCA Director under DoD Directive 5105.65, "Defense Security Cooperation Agency", dated October 26, 2012.

5.1.2. DSCA Responsibilities

5.1.2.1. Ensure adequate cash availability in the FMS Trust Fund to meet DoW's financial requirements;

5.1.2.2. Identify the specific issue and remedy should cash flow problems arise in an FMS Trust Fund account (e.g., collection of additional funds or other alternative financial arrangements, adjustments to ordered values, delivery timeframes, or ordered quantity);

5.1.2.3. Approve Standby Letters of Credit (SBLCs), Federal Reserve Bank of New York (FRBNY) accounts, and Commercial Bank Accounts (CBAs) as they may pertain to FMS financial requirements; see SAMM Appendix 10 and Chapter 9 for more detail on SBLCs, FRBNY, and CBAs;

5.1.2.4. Calculate and approve, on a quarterly basis, the Termination Liability (TL) reserve amounts required to protect the USG against liability if a particular FMS-funded contract (or contract line item number (CLIN)) is terminated prior to completion;

5.1.2.5. Perform follow-up actions on SA Program arrearages;

5.1.2.6. Construct standard payment schedules (to include any contract termination costs); and

5.1.2.7. Prepare special bills for those customers with approved special billing arrangements (SBAs).

5.1.3. DFAS Responsibilities

5.1.3.1. Post purchaser cash deposits within 2 business days of notification when the Defense Integrated Financial System (DIFS) is available. When DIFS is unavailable due to scheduled maintenance, update upon availability;

5.1.3.2. Post disbursements by the 20th day of the following month to FMS case accounting records;

5.1.3.3. Reconcile summary trust fund-level account balances in DIFS with the Treasury balance in the Account Summary from the Governmentwide Treasury Account Symbol Adjusted Trial Balance System;

5.1.3.4. Assure that approved cash expenditure authority (EA) requests do not exceed the FMS purchaser's cash available balance in the FMS Trust Fund; and

5.1.3.5. Work with the accounting activities, contract payment offices, and certifying officers as appropriate to:

5.1.3.5.1. Ensure sufficient cash is available and approve EA requests above a country threshold prior to disbursing FMS funds, when requested;

5.1.3.5.2. Facilitate resolution, or resolve all rejects of EA to lessen Prompt Payment Act interest payments;

5.1.3.5.3. Resolve situations where EA was approved but returned without a disbursement; and

5.1.3.5.4. Ensure EA is obtained prior to processing a transfer, correction of charges against, or credits to the FMS Trust Fund using Standard Form (SF) 1080, Voucher for Transfers Between Appropriations and/or Funds, or SF 1081, Voucher and Schedule of Withdrawals and Credits.

5.1.4. IAs' Responsibilities

5.1.4.1. Provide information needed to the DSCA (International Operations Office, Case Writing Division) for payment schedule preparation at the line-level, in the Defense Security Assistance Management System (DSAMS). The IA will approve the schedule as part of the Letter of Offer and Acceptance (LOA) document coordination/signature process. Additional information on payment schedule preparation is in the SAMM, Chapter 9, paragraph C9.9.1;

5.1.4.2. Develop progress payment schedules or historical cost curves systematically for DoW major weapon systems (used to determine payment schedule distributions for procured materiel requiring progress payments to contractors), and review the schedules or curves when the acquisition strategy changes;

5.1.4.3. Review all case payment schedules, at least annually, in preparation for a formal review with the FMS purchaser, or when the case value adjusts by ten percent or more;

5.1.4.4. Request and receive EA approval prior to processing a disbursement citing the FMS Trust Fund;

5.1.4.5. Resolve unmatched disbursements, negative unliquidated obligations, and in-transit disbursements using the authorities found in Volume 3;

5.1.4.6. Validate obligations in accordance with the requirements found in Volume 3; and

5.1.4.7. Perform case reviews including reviewing and reconciling general case and delivery-related data, expenditures/disbursements, and USG financial requirements.

5.1.4.7.1. If payment schedules are inadequate to meet USG financial requirements, the IA must promptly notify the responsible DSCA Country Financial Director, DFAS Security Cooperation Accounting (SCA), and the FMS purchaser of the additional requirements. The IA must also follow up on this notification by issuing a revised payment schedule via an LOA modification.

5.1.4.7.2. During the annual review of the case, if payment schedules overstate USG financial requirements due to delays in contract award, delivery slippages, or other reasons, the IA must issue a revised payment schedule via an LOA modification or amendment. The IA is responsible for ensuring that the USG does not prematurely collect customer funds.

5.1.4.7.3 For additional information on format and procedures related to payment schedule revisions via Modification and Amendment, see SAMM Chapter 9.9.3.

5.1.5. Payment Activities Responsibilities

Payment Activities are defined as the entities responsible for the payment of invoices either to commercial vendors or payees, or for executing intragovernmental payments or collections. Payment Activities are responsible for requesting and receiving EA approval prior to the certification to a disbursing officer of a voucher for a commercial payment, or an intragovernmental payment or payment refund, which cites the FMS Trust Fund.

5.2 FMS Cash Management Characteristics

5.2.1. For procedures related to cash in advance, SBLC, FRB accounts, CBAs, and disbursements, see SAMM, Appendix 10.

5.2.2. FMS Trust Fund. The FMS Trust Fund is managed as a single cash entity, regardless of the source of the deposits. All FMS Trust Fund deposits are accounted for at purchaser and case level by source of financing. Examples of funds include FMF (FMS Credit and FMS Credit (non-repayable)) and the Military Assistance Program (MAP) Merger. Examples of other types of funds are a purchaser's national funds, which include third-party funds, and other DoW appropriated funds.

5.2.3. Funds. Under the AECA, the USG may provide funds annually to certain allied or friendly countries to finance the purchase of U.S. defense articles and services. See SAMM, Appendix 10.

5.3 FMS Payment Schedules

For procedures related to payment requirements, timing of payments, initial deposits, and payment schedule revisions, see SAMM, Chapter 9.9 and Appendix 10.

5.4 FMS Cash Requirement Calculations

For procedures related to the calculation of initial estimate of cash needed, administrative surcharge included in initial deposit, estimate of cash needed to collect Nonrecurring Cost (NC) recoupment charges, and forecasting procedures, see SAMM, Appendix 10.

5.5 FMS Quarterly TL Reserve Requirement

TL Reserve is the amount of prepayments placed in reserve on a quarterly basis. For FMS purchasers with an FRB account, the TL Reserve is maintained in their FRB account, provided sufficient funds are on deposit in the FRB to cover the TL reserved amount. Otherwise, the FMS purchaser's Trust Fund TL Reserve Account will be utilized. The TL Reserve is not an additional charge or cost. These funds are fenced for potential termination costs; however, they do not necessarily represent the entire cost to cancel the contract. These funds cannot be used for normal disbursement activities (e.g., to pay for articles/services, administrative surcharges, or accessorial charges). For procedures related to the TL Reserve, see SAMM, Appendix 10.

5.6 Contractor Request for Progress Payments and Reimbursement of Costs

Contractor Request for Progress Payments and Reimbursement of Costs Under Contracts Including FMS Requirements. For procedures related to contractor allocations, allocation of payments on contracts, and contract payment offices, see SAMM, Appendix 10.

5.7 Deposit of Purchaser Cash Into Treasury Accounts

For procedures related to wire transfers and checks, see SAMM, Appendix 10.

5.8 EA

EA is an FMS country-level authority, which allows payments to be made against obligations previously recorded against a country's trust fund account. EA is the formal segregation of trust fund cash in the FMS Trust Fund, making the cash no longer available for any other purpose.

5.8.1. Cash Advances. A cash advance to an appropriation account must be obtained when a cash disbursement for an FMS contract would result in the applicable appropriation account being placed in a negative cash position. The amount requested must be equal to anticipated disbursing demands for a 30-calendar-day period. Liquidation of outstanding advances (earning the advance through payment to contractors) must be reported to DFAS SCA monthly. The objective is to limit the amount and length of time that outstanding advances remain against the trust fund.

5.8.2. Cash Flow Problems. DFAS SCA notifies the DSCA Country Financial Director when sufficient, unencumbered cash is not available for DFAS SCA to provide cash advances or EA, and contractor billings cannot be paid by the due date. The DSCA Country Financial Director then takes appropriate action as outlined in subparagraph 5.1.2.2.

6.0 SC CASE FILES

6.1 Case File Documents Policy

This section establishes policy to maintain documents for case files and is designed to facilitate uniform standards for maintaining case files to ensure that all necessary documentation is readily available and retrievable by the appropriate activities. This policy applies to all case files, regardless of storage media (i.e., electronic or hard copy).

6.2 National Archives and Records Administration (NARA)

Within the Federal Government, NARA is responsible for promulgating procedures for the disposal of all USG records. The NARA Records Management Program provides guidance and assistance for the management and disposition of Federal records in the General Records Schedules (GRS).

6.3 DoW Records Management Program

The DoW Records Management Program outlines records management policy and responsibilities. Within DoW, there are 26 Records Management Programs, each with an appointed Federal Agency Records Officer, Records Management Manual, Instruction or Regulation, and Records Disposition Schedules (RDS). DoW's RDS must comply with NARA guidelines and may include additional financial records used in DoW business operations that are not listed in the NARA GRS. For procedures related to records management, see SAMM, Appendix 10.

6.4 Concepts and Requirements

6.4.1. For procedures related to management and maintenance of case files, see SAMM, Appendix 10.

6.4.2. Each DoW Component, IA, and the DFAS, in its role as an accounting service provider, is responsible for maintaining its respective portion of the case file as required in section 3.0.

6.5 Uniform Case Documentation

For procedures related to case documentation requirements and case documentation maintenance and disposition, see SAMM, Appendix 10.

7.0 FMS PRICING

This section provides policy for articles, services, and training and to ensure the DoW Components engaged in SC uniformly and consistently apply pricing methodologies that recoup current period costs and a reasonable contribution to nonrecurring Research, Development, Test, and Evaluation (RDT&E) and production costs. Nonrecurring RDT&E and production costs represent historical decisions to expend RDT&E funds to develop new equipment or to purchase assets or facilities. FMS customers benefit from the investment decision, although it is based entirely on DoW requirements when they purchase related equipment or when the use of the assets and facilities is necessary to provide ordered services or to deliver ordered material.

7.1 Responsibilities

7.1.1. Price Establishment. The DoW Components that sell defense articles or services under FMS LOAs must:

7.1.1.1. Ensure defense articles and services provided to foreign partners are priced in accordance with the policies established in this section; and

7.1.1.2. Establish a single selling price for defense articles and services. A single selling price includes the additional charges for nonrecurring RDT&E and production costs, costs for recurring procurement support efforts, transportation costs when the use of DoW transportation is approved, and other applicable surcharges.

7.1.2. For procedures related to additional price information, transportation of material, case management, and buy-backs, see SAMM, Appendix 10.

7.2 Estimating Prices and Billed Values for an LOA

7.2.1. FMS pricing policy for an LOA stipulates how costs are determined when the FMS purchaser is billed and establishes how to develop a price estimate. An essential difference between the billed price and the estimated price on an offer is the degree of certainty associated with each pricing method. 22 U.S.C. § 2751 states that foreign military sales are approved only when they are consistent with the foreign policy interest of the United States and the purpose and principles of the United Nations Charter.

7.2.2. Per 22 U.S.C. § 2761(a)(1), the President may sell defense articles and defense services from the stocks of the DoW and the Coast Guard to any eligible country or international organization if such country or international organization agrees to pay in U.S. dollars for specific instances. For a list of such countries and international organizations, as well as a list of charges applicable to the Sale of War Articles or Services, see SAMM, Appendix 10.

7.2.3. For procedures related to LOA values and FMS billing values, see SAMM, Appendix 10.

7.3 Accessorial Costs

Accessorial Costs represent certain expenses incidental to issues, sales, and transfers of material that may or may not be included in the standard price or contract cost of material. The various types of accessorial costs that may be applicable to FMS shipments include packing, crating, and handling (PC&H); transportation; port loading and unloading; and staging.

7.3.1. PC&H. PC&H includes the costs incurred at DoW facilities for labor, materials, or services in removing requisitioned articles from storage locations, preparing them for shipment from the storage or distribution points, and processing necessary material release confirmation documents. For procedures related to PC&H costs and rates, see SAMM, Appendix 10.

7.3.2. Transportation. Transportation costs include DoW-supplied or DoW-financed transportation (land, air, inland and coastwise waterways) within and outside the U.S. and overseas transportation by vessel or air. This includes parcel post via surface or air. For procedures related to Non-DWCF, DWCF, and pricing transportation, see SAMM, Appendix 10.

7.3.3. Port Loading and Unloading Costs. Port loading and unloading costs include DoW-supplied or DoW-financed labor, materials, or services for loading, unloading, and handling at ports of embarkation or debarkation.

7.3.4. For procedures related to staging costs, see SAMM, Appendix 10.

7.4 FMS Administrative Surcharges

FMS Administrative Surcharges must be added to all FMS cases (unless waived pursuant to legal authority, see SAMM 9.6.1.) to recover DoW expenses. SAMM C9.T4 gives further guidance on the current FMS administrative surcharges and how they are applied. For procedures related to standard FMS administrative surcharges, DoW component administrative expenses, FMS administrative surcharge on cases closed at reduced or no value, and waived FMS administrative surcharge, see SAMM, Appendix 10.

7.5 Logistics Support Charge (LSC)

For procedures on charges for LSC, see SAMM, Appendix 10.

7.6 Program Management Services

For procedures related to level of service and cost allocation, see SAMM, Appendix 10.

7.7 CLSSA

For procedures related to CLSSA management, general pricing, FMS administrative surcharges, storage costs, normal operating inventory loss, unusual inventory loss, obsolete material, and purchaser equity, see SAMM, Appendix 10.

7.8 Storage, Repair, or Modification of Purchaser Owned Material

For procedures related to storage, repair, or modification, FMS administrative surcharge, and special instructions applicable to DWCF activities, see SAMM, Appendix 10.

7.9 Use or Expansion of DoW Facilities and Equipment for FMS

7.9.1. All costs of construction, or expansion of facilities, desired by and for the exclusive use of the foreign government must be financed and funded by the foreign government. Charges by the USG for labor, material, or services must be reimbursed in accordance with the provisions of paragraphs 7.14 and 7.19. Any expansion of facilities or equipment required for DoW use, which may also be available for FMS, must be funded through the normal DoW budget process.

7.9.2. For procedures related to reimbursement of proportionate share, work at DoW test facilities and laboratories, and Embedded Computer Software (ECS) facilities, see SAMM, Appendix 10.

7.10 Costs Allocable for Jointly Used Facilities.

For procedures related to joint use of office or storage space and joint use of satellites, see SAMM, Appendix 10.

7.11 Periodic Review and Rates/Surcharge Revision

Procedures related to periodic rate reviews and rate revision, see SAMM, Appendix 10.

7.12 FMS Cost Recoupment Waivers and Exclusions

7.12.1. A cost recoupment waiver is the exercise of legal authority to partially or totally waive the recoupment of incurred costs. A cost recoupment waiver is not an exception to the pricing policy.

7.12.2. Waiver of NC Recoupment Charges

7.12.2.1. 22 U.S.C. § 2761(e)(2)(A) authorizes the President to reduce or waive the NC recoupment charge or charges, which would otherwise be considered appropriate under 22 U.S.C. § 2761(e)(1)(B) for particular sales that would, if made, significantly advance USG interest in North Atlantic Treaty Organization (NATO) standardization; standardization with the Armed Forces of Japan, Australia, the Republic of Korea, Israel, or New Zealand, in furtherance of the mutual defense treaties between the U.S. and those countries; or foreign procurement in the U.S. under coproduction agreements.

7.12.2.2. 22 U.S.C. § 2761(e)(2)(B) authorizes the President to waive NC recoupment charges for a particular sale if it is determined that: (a) imposition of the charge or charges likely would result in the loss of the sale; or (b) the waiver of the charge or charges for MDE would result in savings to the U.S. that substantially offset the revenue due to this waiver.

7.12.2.3. 22 U.S.C. § 2761(e)(2)(C) gives the President the authority to waive, for particular sales of MDE, any increase in a charge or charges previously considered appropriate under 22 U.S.C. § 2761(e)(1)(B). This authority is given if the increase results from a correction of an estimate (reasonable when made) of the production quantity base that was used for calculating the charge or charges for purposes of such paragraph.

7.12.2.4. The authority to waive NC recoupment charges has been delegated to the Director, DSCA. All waiver requests must be coordinated with the Office of the Under Secretary of War (OUSW) for Policy (P) for loss of sale, and OUSW(Comptroller).

7.12.3. Special Waiver Authority for NATO Airborne Warning and Control System (AWACS). Notwithstanding subparagraph 5.4.1, 10 U.S.C. § 2350e authorizes the SecWar in carrying out the NATO AWACS program to:

7.12.3.1. Waive reimbursement for the costs of the following functions performed by personnel other than personnel employed in the U.S. Air Force AWACS program office: Auditing; quality assurance; codification; inspection; contract administration; acceptance testing; certification services; and planning, programming, and management services;

7.12.3.2. Waive any surcharge for administrative services otherwise chargeable; and

7.12.3.3. Assume contingent liability for: (1) any program losses resulting from the gross negligence of any contracting officer of the U.S.; (2) identifiable taxes, customs duties,

and other charges levied within the U.S. on the program; and (3) the U.S. share of unfunded termination liability.

7.12.4. Waiver of CAS and Cataloging Services

22 U.S.C. § 2761(h) authorizes the President to provide (without charge) quality assurance, inspection, CAS, contract audit defense services, cataloging data, and cataloging services. For a list of scenarios where 22 U.S.C. 2761 applies, see SAMM, Appendix 10.

7.12.5. Special Waiver Authority for NATO Cooperative Projects

7.12.5.1. 22 U.S.C. § 2767(e)(1) stipulates that the President may reduce or waive the charge or charges in connection with cooperative projects or agreements entered into under the authority of that section. The charges that may be reduced or waived are those that are otherwise considered appropriate under 22 U.S.C. § 2761(e) (see subparagraph 13.1.2) for sales of defense articles and services from stocks or new procurements when the other participants agree to waive or reduce such charges.

7.12.5.2. Waiver authority of the President under 22 U.S.C. § 2767 has been delegated to the Director, DSCA.

7.12.5.3. For procedures related to administrative surcharges, exclusions of Cost of Military Pay and Entitlements, exchanges of unit training and related support, and fair pricing, see SAMM, Appendix 10.

7.12.6. Special Authorities In accordance with the administration of the European Air Defense Agreements, the SecWar is authorized under the International Security and Development Cooperation Act of 1985, Section 132 (see 22 U.S.C. § 2767(e)) to (1) waive any surcharge for administrative services otherwise chargeable under 22 U.S.C. § 2761(e)(1)(A); and (2) waive any charge not otherwise waived for services associated with contract administration for the sale (under the AECA) of Patriot Air Defense Missile Fire units to the Federal Republic of Germany contemplated in the agreements.

7.13 Exception to Pricing Policies

For procedures related to pricing policy exceptions, see SAMM, Appendix 10.

7.14 Cash Sales of War Articles Issued from Stock

For procedures related to sale of defense articles, excess defense articles, quotation of firm prices, and returns, see SAMM, Appendix 10.

7.15 Cash Sales of War Articles and Services from Procurement for Direct Delivery and New Production

For procedures related to cost principles, nonrecurring RDT&E and nonrecurring production costs, CAS costs incurred in support of new procurements for FMS, CAS costs incurred in support of foreign country commercial contracts, costs for Government Furnished Material (GFM), other DoW-funded services in support of FMS procurements, customization costs, items to be replaced by later production, production by foreign governments, recoupment of interest penalties due to the Prompt Payment Act, and price codes, see SAMM, Appendix 10.

7.16 Leasing of War Articles

For procedures related to the pricing of leased defense articles and replacement costs, see SAMM, Appendix 10.

7.17 Technology Transfer

For procedures related to Technical Data Packages (TDPs) and pricing of TDPs, see SAMM, Appendix 10.

7.18 Publications

For procedures related to publication terms, publication/software pricing factors, development of per-copy selling prices, and other applicable costs, see SAMM, Appendix 10.

7.19 FMS Pricing of Personnel Services

For procedures related to pricing civilian personnel, Military Personnel (MP), foreign national personnel, travel and living allowances, and special instructions applicable to DWCF, see SAMM, Appendix 10.

7.20 Training of International Students

For procedures related to international student training price exceptions, see SAMM, Appendix 10.

7.21 Standard Guidelines for Tuition-Based Training

For procedures related to types of training, courseware development, liability for damages, training obligations, annual publication of tuition rates, adjustments to tuition rates and training obligations, training cancellations, student costs, Field Studies Program (FSP), and Retainable Instructional Materials (RIM), see SAMM, Appendix 10.

7.22 Pricing of Tuition-Based Training

7.22.1. Cost Categories. The pricing of FMS training tuition rates falls under one of two costing schemes – full cost or incremental cost. Within each cost scheme, costs are segregated into three categories: direct costs, indirect costs, and other billable costs.

7.22.1.1. Direct Cost. A direct cost is any cost that is identified specifically with the training of a student. Direct costs also include directly associated costs that would not have been incurred had the other direct costs not been incurred (e.g., costs that are allocated on a specific measurable basis - cost per student week, cost per flying hour/sortie, costs per steaming hour, costs per range hour).

7.22.1.2. Indirect Cost. Indirect costs are costs of resources that are jointly or commonly used by all activities at an installation but are not specifically identifiable with any of the users. These costs are not directly related to training but instead are associated with a variety of activities and services.

7.22.1.3. Other Billable Cost. Other billable costs are those required by legislation or policy that are additive to the cost of training an international student (e.g., FMS administrative surcharge, FSP, attrition, and RIM.

7.22.2. For procedures related to pricing of personnel, pricing of full cost of training (tuition rates A and B), and pricing of additional cost training under SC and SA authorities (rates C, D, and E), see SAMM, Appendix 10.

7.23 Specialized/Dedicated Training Programs

A specialized/dedicated training program is a training program developed or provided solely for the training of international students (one or more countries).

7.23.1. When pricing specialized/dedicated training programs, full cost-pricing principles (refer to subparagraph 7.22.2) must be applied. Appropriate legislative authority and terms of the reciprocal pricing agreements between the United States and foreign partner must be taken into consideration. General guidelines for other types of training events are found in the SAMM Chapter 10.

7.23.2. For procedures related to specialized/dedicated training programs offered by the U.S. Army, Navy, and Air Force, personnel composition, inflation factors, start-up costs, direct costs, indirect costs, and other billable costs, see SAMM, Appendix 10.

7.24 Pricing of Training Teams

See SAMM, Appendix 10 for procedures related to pricing for training teams funded under various SC and SA programs.

8.0 BILLING AND REIMBURSEMENT

This section establishes the standard policies for use when DFAS, SCA Directorate bills foreign governments and international organizations (hereafter referred to as FMS purchasers) for costs related to defense articles and services sold pursuant to the Arms Export Control Act (AECA) under the FMS program (note: AECA starts on page 427 of Legislation on Foreign Relations, Volume 1-A); the DoW Components report FMS deliveries of materiel and services, contractor progress payments, and other related costs to DFAS SCA to obtain reimbursement or to report performance under an allotment of FMS Trust Fund budget authority; and the DoW Components request reimbursement from the other DoW Components for costs associated with inter-service support of FMS cases.

8.1 Responsibilities

For procedures covering responsibilities of DSCA, DFAS, IAs, and supporting DoW components, see SAMM, Appendix 10.

8.2 FMS Billing Statement

For procedures related to billings for cases with payment upon delivery, case final statements, and FMS delivery listings, see SAMM, Appendix 10.

8.3 FMS Purchaser Requests for Billing and Supply Adjustments

Procedures related to adjustment reply codes and reply listings, see SAMM, Appendix 10.

8.4 IA Performance Reports or Requests for Reimbursement

For procedures related to reporting deliveries, interfund transfers, and DFAS SCA computations, see SAMM, Appendix 10.

8.5 Transportation Cost Look-Up Table

The purpose of the Transportation Cost Look-Up table is to provide DoW Components with estimated transportation costs for items normally shipped in the Defense Transportation System (DTS) (e.g., sensitive/hazardous end items) when costs using standard transportation percentages are significantly different from actual charges. This table is in the SAMM, Appendix 2, and is used to compute an estimate of the actual transportation costs for the items listed.

8.6 Billing for Specific Costs

For procedures related to actual administrative costs, actual FMS CAS costs, actual transportation costs, and actual PC&H, see SAMM, Appendix 10.

8.7 Supporting DoW Component Performance Reports/Requests for Reimbursements

For procedures related to processing requisitions, see SAMM, Appendix 10.

8.8 Performance and Delivery Reporting

For procedures related to pertinent DFAS reports, Reject Codes, and reconciling reports, see SAMM, Appendix 10.

VOLUME 16:

DEBT MANAGEMENT POLICY

1.0 GENERAL

1.1 Overview

This volume provides an overview of the policies and requirements for collection and management of debt owed to the DoW by any person, organization, or entity (to include civilian employees, Service members, retired personnel, foreign entities, and contractors). It does not provide policy and requirements for collection and management of debt owed by another Federal agency. Debt Collection Offices (DCO) must follow this volume's policy in the collection of public debts owed to the DoW. This volume also specifically provides policy and requirements pertaining to the submission and processing of petitions for hearings or requests for review in order to dispute debt owed by individuals, as well as waiver and remission/cancellation applications. Furthermore, this volume establishes policy and requirements for the DoW Components for the accounting and reporting of interest, penalties, and administrative charges on delinquent debts and debts repaid via installment agreement or salary offset.

1.2 Purpose

Volume 16 establishes the financial management policy for the collection and management of debt owed to the Department of War by any person, organization, or entity. It states the binding policy only; procedures, implementation guidance, definitions, and data tables reside in the companion documents identified below.

1.3 Authoritative Guidance

Refer to the authoritative guidance document on the FMR webpage.

1.4 Definitions

Refer to the Glossary of terms document on the FMR webpage.

1.5 Procedures

Refer to the Supplemental document listed throughout this volume.

2.0 GENERAL PROVISIONS FOR DOW DEBT MANAGEMENT

2.1 Overview

2.1.1. Policy and requirements in this volume apply to administrative actions associated with the collection and disposition of debts that are owed to the DoW by any person, organization, or entity except another Federal agency. Policy and requirements regarding debts owed to the DoW by Federal agencies, as well as requirements for recording and reporting accounts receivable, are contained in Volume 4.

2.1.2. This volume does not establish policy for billing and collecting for non-Foreign Military Sales (FMS) fuel debts, foreign fuel exchange agreement debts, foreign direct bills, or FMS fuel debts. Unpaid debts related to fuel agreements, to include Replacement-in-Kind/Equal Value Exchange settlements, foreign direct bills, and FMS, should be billed and elevated through the Defense Logistics Agency - Finance Energy (paragraph 7.2 is not applicable).

2.1.3. Where specific statutory authority applies to the collection of a particular category of debt, the provisions of the applicable statute will determine the appropriate debt collection procedures. For additional information on what this volume does and does not pertain to, review the DFAS Procedures, Guidance, and Instructions (PGI).

2.1.4. Payments of amounts owed to DoW by organizations, businesses, and individuals must be made in accordance with the terms specified in contracts, agreements, or demand letters.

2.1.5. Volume 16 must not be interpreted in a manner that would impair DoW's ability to collect debts under common law using any available statutory authority.

2.1.6. Nothing in Volume 16 or the Federal Claims Collection Standards (FCCS) (Title 31, Code of Federal Regulations (CFR), parts 900-904) requires the omission or duplication of administrative proceedings associated with debt collection that may be required by other laws or regulations. DoW's failure to comply with this volume or the FCCS does not create any right or benefit, substantive or procedural, enforceable by law or in equity by a party against the United States, its agencies, its officers, or any other person. Refer to 31 CFR 900.7-900.8.

2.2 Debt Management Program

2.2.1 Each DoW Component must establish and maintain a debt management program to identify, recover, and collect debts owed by individuals to the United States. DoW Components must clearly designate the DCOs responsible for recovery and collection of debts within the Component. Components must recover debts promptly, using a strategy determined to result in the maximum recovery of debt. DoW Components must ensure debtors are afforded due process, in the form of proper debt notification and the right to review, per Volume 16 and applicable U.S. Department of the Treasury regulations and guidance. DoW Components must

establish guidance that clearly assigns responsibilities for processing, monitoring, reporting, and closing out delinquent debts.

2.3 Debt Prevention and Monitoring

2.3.1. DoW Components must institute procedures and assign responsibility to designated personnel (including contractors and vendors), as necessary, to ensure that appropriate personnel and organizations (personnel, entitlement, payroll, finance and accounting, disbursing, and legal offices) are promptly notified and kept apprised of activities that could give rise to indebtedness by any member, employee, or other personnel. Such indebtedness could result from an employment or other financial or contractual relationship between DoW and the debtor. DoW Components must maintain continuous communication and follow up to prevent indebtedness from remaining unresolved for an extended period.

2.3.2. DoW officials must establish procedures to identify the causes of indebtedness, delinquencies, and defaults, and must take corrective action to mitigate those causes and thereby reduce the number of debts subject to collection.

2.4 DCOs must share information concerning debtors. DCOs must cooperate with each other and with other Federal agencies, including any private debt collection agencies and credit bureaus working on behalf of such agencies. DCOs must take all actions necessary to facilitate collection of delinquent debts owed by current and former DoW civilian employees and military members, as well as other debtors.

2.5 DoW officials, including contracting officers, contractor/vendor pay offices, disbursing officers, and AROs, must cooperate with each other to ensure that debts are collected, properly recorded in the accounting systems, and accurately reported in the agency's financial statements.

2.6 The DCO must document all debt collection activities, including how the debt was established, due-process procedures, installment payment plan agreements, collection activity, and the basis for debt compromise, suspension, or termination of collection action. The DCO must also document bankruptcy activity if applicable. The DCO should retain documentation in individual debtor files and provide it to the office responsible for recording and reporting the related accounts receivable.

2.7 DoW Components must use automated debt collection and reporting systems to the extent feasible and cost effective for recording, processing, and controlling debts. The Deputy Chief Financial Officer created the DDMG, signed August 31, 2012, which defines the end state of debt management through incorporation of Services' and Agencies' ERP systems. Components must use these systems to the fullest extent possible in compliance with the DDMG.

2.8 Internal Controls

2.9 DoW Components involved in the collection and management of debts owed to the DoW must adhere to the basic internal-control standards prescribed in DoW Instruction 5010.40, "Managers' Internal Control Program Procedures." DoW Components will establish and maintain internal controls to ensure that debts owed to DoW are recorded, reported, managed, and aggressively collected.

2.10 Major categories of receivables must be maintained to facilitate clear and full disclosure (disclose the debtor, the amount, the age, and the type of debt). Subsidiary records must be reconciled to the control accounts at least monthly. DoW Components must document the date of a debt so that timely and appropriate collection and follow-up action can be accomplished. Refer to Volume 4, Section 3 for guidance on recording and reporting accounts receivables.

3.0 GENERAL INSTRUCTIONS FOR COLLECTION OF DEBT OWED TO THE DOW

3.1 DCOs must promptly and aggressively initiate collection action on all established debts owed to the DoW and must complete follow-up actions to ensure successful repayment to the DoW. DCOs may use Treasury-designated debt collection centers to pursue collection. For additional information, refer to Fiscal Service's Centralized Receivables Service.

3.2 Statute of Limitations for Collecting Debts

3.2.1. The DoW may refer a debt to the Department of Justice (DOJ) for litigation against a debtor in order to enforce collection or obtain a judgment in favor of the DoW. Federal law limits the period of time within which an agency may file a lawsuit to collect a debt. In accordance with 28 U.S.C. § 2415, the statute of limitations for filing a lawsuit to pursue debt collection is generally the later of 6 years from the date the right of action accrues (date of delinquency), or 1 year after a final decision has been rendered in an administrative proceeding, such as an action before the Armed Services Board of Contract Appeals. For additional guidance on referring debts to DOJ for litigation, refer to section 13.0.

3.2.2. Time Limit for Collection by Administrative Offset. Section 14219 of P.L. 110-246 amended 31 U.S.C. § 3716(e) to eliminate the 10-year statute of limitations on collection by administrative offset. In 2016, Section 671 of P.L. 114-328 amended 37 U.S.C. § 1007 and provided a new statute of limitation for the collection of certain debts incurred on or after December 23, 2016, by a member of the uniformed services. As a result, time limits on the collection of debts differ for civilians and members of the uniformed services. Reference the DFAS Implementation Guidance for further instruction.

3.3 Nothing in this volume precludes the DoW from demanding the return of specific Government-furnished property or payment of the value of the property.

3.4 Recovery Tools for Debts

3.4.1. Common Debt Collection Methods Used

3.4.2. Whenever possible, the DoW should collect a debt in a single lump-sum payment from the debtor. A debtor may request to pay by installment agreement or may permit the withholding (offset) of funds payable to the debtor by the United States. Voluntary repayment by direct remittance or offset is the preferred method for collecting debts.

3.5 Due Process

3.5.1 In the context of Federal debt collection, the constitutional right of "due process" requires an agency to provide debtors with written notice of the debt and an opportunity to dispute the debt. Due process is required prior to an involuntary salary offset (5 U.S.C. § 5514) or administrative offset (31 U.S.C. § 3716). Except under certain limited circumstances, debtors must receive due process prior to the initiation of debt collection. Written debt notifications must adhere to the requirements at section 5.0. The requirements for disputing a debt are set out in Section 4.

3.5.2. Due-process requirements do not preclude a debtor from repaying the debt before or during due process, and such payment does not waive any due-process right. A debtor may repay at any time after receiving the initial notification of indebtedness, the DCO's reconsideration or review results, a hearing official's determination, or a decision on a request for waiver or remission of the overpayment. Repayment may also be accepted while any of these actions are pending. If payment is received and the debt is later determined invalid, a full or partial refund (including interest and fees) may be necessary depending on the circumstances.

3.6 Requirements for Routine Pay Adjustments

3.6.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances from Federal employees and Service members through routine intra-agency pay adjustments that have occurred within the four pay periods preceding the adjustment, or for any adjustments that amount to $50 or less. The debtor must be provided with a written notice of the nature and the amount of the adjustment, as well as a point of contact for questions regarding the adjustment, by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. Notice of the routine adjustment is typically provided on the debtor's leave and earnings statement.

3.7 Debt Notification Letter

3.7.1 General Requirements for Debt Notification Letter. The FCCS requires the issuance of one debt notification letter to the debtor. This letter must include the due process notification requirements listed in the Fiscal Service's, "Managing Federal Receivables," Appendix 8. The

requirements for the notice of indebtedness can be found in 5 U.S.C. § 5514, 5 CFR 550.1104(b) and (d), 31 CFR 901.2, and 31 CFR 285.7(d)(4).

3.7.2 When to Issue a Debt Notification Letter

3.7.3. DCOs must issue the initial debt notification letter to the debtor within 5 working days after final confirmation of the existence and validity of the debt, the basis of indebtedness, and the amount of the debt. Only one due-process debt notification must be issued. DCOs may issue additional demand-for-payment letters at 30-day intervals after the initial debt notification letter when the DCO deems it appropriate.

3.7.4. DCOs must ensure the debt notification letter is dated the same day it is mailed, via the U.S. Postal Service (USPS), to the debtor's last known address, or hand-delivered to the debtor. The DCO must retain a copy of the debt notification letter in the debtor's file. Salary or administrative offset may begin only after due process has been provided. A DCO may issue a written demand for payment before the more formal due-process debt notification letter; a demand for payment is an abbreviated written request for voluntary repayment and is not sufficient notice of due process. A demand for voluntary repayment may be issued electronically, while the formal debt notification must be delivered by USPS.

3.7.5 Sample debt notification letters are available at Exhibit 2-1 (DFAS Civilian Pay DCO) and Exhibit 2-2 (Military Pay DCO). DCOs outside DFAS may modify the sample letter as needed; however, all debt notification letters must contain the following information.

3.7.6. The debt notification must include an explanation of the amount and reason for the indebtedness, the authority for establishing the debt, and the basis on which the determination of indebtedness was made.

3.7.7. Request for Lump-Sum Payment. A request for a lump-sum payment is a request that the debt be repaid in a lump sum by check, money order, or electronic funds transfer.

3.7.8. The payment due date is the date by which payment must be made to avoid incurring interest, penalties, administrative (IPA) fees, and enforced collection. The due date must not be more than 30 days from the date of the initial debt notification letter, unless otherwise mandated by statute, contract provision, or another notice of indebtedness. A due date more than 30 days out may also be allowed based on unusual circumstances as determined by the agency (for example, medical-related debts where insurance is billed first).

3.7.9. The debt notification must include a statement that, if the debtor wishes to dispute the existence or amount of the debt (or contest the repayment schedule for collection by salary offset), the debtor may do so by submitting a written request for review or hearing petition. See Section 4 to determine whether the debtor is eligible for a hearing or review. The notification must

advise the debtor of the method and period for filing the request, typically 30 days from the date of the debt notification letter. It must also state that timely filing of a request for review or hearing petition stays the beginning of collection proceedings and that interest and penalty charges will not be collected until and unless a determination is issued in favor of collection. This process does not apply to contractor debts; for the contractor debt dispute process, refer to Section 5.

3.7.10. The debt notification must advise the debtor that, if a review or hearing is granted, the debtor has the right to a written decision from the reviewer or hearing official within 60 days after filing the request for review or hearing petition. For a hearing, the hearing official may grant a request to delay the proceedings.

3.7.11. The debt notification must advise the debtor of the right to inspect and copy the DoW records relating to the debt.

3.7.12. The debt notification must advise the debtor of the opportunity to set up a voluntary repayment schedule through an installment payment plan if the debtor claims, and can support, an inability to repay the debt in a single lump sum.

3.7.13. If applicable for individual debtors, the debt notification must include a statement on the right to request a waiver or remission of the indebtedness per the applicable statutory authority for waiving or remitting a debt. Detailed waiver application instructions may be provided to the debtor online.

3.7.14. The debt notification must include a statement that, if the DCO cannot collect a debt, other collection methods may be used, such as referral to a private collection agency, reporting to a credit bureau, garnishment of non-Federal wages, or referral to DOJ for litigation. The notice must inform the debtor that debts delinquent more than 120 days must be transferred to Treasury for collection, and in some cases sooner. Components that follow the Enterprise Delinquent Debt Management Guidance must refer delinquent debts older than 90 days to the Fiscal Services Debt Management Services for further collection action where appropriate.

3.7.15. The debt notification must include a statement that any portion of a debt remaining at separation may be collected from the debtor's final pay and allowances.

3.7.16. The debt notification must contain a statement explaining the requirements under 31 CFR 901.9 to assess interest, penalties, and administrative charges, including:

3.7.16.1. An explanation that if the debt is not paid by the due date, then interest will be charged from the date of delinquency, or from the date specified in the repayment agreement, if applicable (refer to the Definitions Section for a definition of date of delinquency). Include a statement indicating that the interest rate will be calculated pursuant to 31 CFR 901.9;

3.7.16.2. An explanation that if the debt is not paid in full by the due date stated in the debt notification letter, then the DCO will assess administrative costs for the processing and handling of the delinquent debt; and

3.7.16.3. An explanation that if the debt is delinquent for more than 90 days, then the DCO will assess a penalty, not to exceed 6 percent per annum, on the unpaid portion of the debt accruing from the date of delinquency.

3.7.17. The debt notification must include a statement identifying the name, mailing address, email address, fax number, and telephone number of a point of contact the debtor may contact about the debt.

3.7.18. The debt notification must provide the address where payment is mailed or delivered (including Pay.Gov or EFT instructions, where applicable) and state that the check, money order, or wire transfer must be made payable to Treasury.

3.7.19. The debt notification must state the consequences of knowingly providing false or frivolous statements, representations, or evidence, which include:

3.7.19.1. Disciplinary procedures for Federal employees under 5 U.S.C. Chapter 75, 5 CFR 752, or any other applicable statutes or regulations;

3.7.19.2. Penalties under the False Claims Act (31 U.S.C. §§ 3729-3733) or any other applicable statutory authority; or

3.7.19.3. Criminal penalties under 18 U.S.C. §§ 286-287, and 18 U.S.C. §§ 1001-1002, or any other applicable statutory authority.

3.7.20. The debt notification must include a statement that the debtor is responsible for notifying the DCO if the debtor files or has filed for bankruptcy.

3.7.21. The debt notification must include a statement that amounts paid or deducted for the debt that are later waived or found not owed to the Government will be refunded promptly to the debtor, unless prohibited by law.

3.7.22. Tax Filing. Provide notice that for joint income tax filers, the spouse should file Internal Revenue Service (IRS) Form 8379, Injured Spouse Allocation, with the IRS to claim his or her share of the tax refund.

3.7.23. Where applicable, the debt notification must state the DCO's intent to collect a Federal employee's debt by payroll deduction (salary offset) if payment is not received within 30 days, and must identify the amount, frequency, proposed beginning date, and duration of the deductions.

3.8 When a debtor has previously been provided due process for a debt, the DCO need not duplicate due-process requirements before initiating administrative offset for the same debt, except as provided under 31 U.S.C. § 3716(e). DCOs must implement salary or administrative offset as funds become due and payable to a debtor.

3.9 Responding to Debtor Inquires

The DCO should respond promptly to debtor questions, normally not later than 30 days after receiving the debtor's correspondence. The DCO must provide copies of relevant documents the debtor requests.

3.10 Voluntary Repayment of Indebtedness

3.10.1 Lump-sum repayment in full is the preferred collection method. DCOs must encourage debtors to repay by lump-sum payment through EFT (for military personnel and contractors), personal check, money order, or Pay.Gov. Lump-sum collection by offset from current pay or salary cannot exceed the percentages in subparagraph 9.2.3 or any other applicable regulation, unless the debtor voluntarily agrees.

3.11 Voluntary Repayment by Installment

3.11.1. If the Component determines the debtor is financially unable to pay a debt in a lump sum, the DoW may accept voluntary repayment in regular installments rather than proceed with involuntary salary or administrative offset. Installment agreements must be in writing as specified in paragraph 8.2. DCOs must include a copy of a voluntary repayment agreement in the debt notification issued to the debtor. Refer to Exhibit 2-1 and Exhibit 2-2 for a sample agreement.

3.11.2. The size and frequency of installment payments should bear a reasonable relation to the size of the debt and the debtor's ability to pay. Installment payments should be at least $50 per month unless the debtor proves financial hardship. Payments should be sufficient to liquidate the debt in 3 years or less, though more time may be appropriate based on the size of the debt and the debtor's ability to repay. An installment plan is typically appropriate only if the total debt is at least 5 percent of the individual's annual disposable pay. Unless the debtor voluntarily agrees, installment payments from current pay or salary must not exceed the offset percentages in subparagraph 9.2.3.

3.11.3. Applying Receivables. When a receivable is collected by installment payment, apply amounts received first to contingency fees, second to outstanding penalties, third to administrative costs, fourth to interest, and last to principal. Contingency fees are defined as administrative costs resulting from fees paid by one Federal agency to other Federal agencies or private collection contractors for collection services rendered when the fees are paid from the amounts collected from the debtor.

3.12 Considering and Processing Installment Agreements

3.13 Installment Payment Agreement Terms

3.13.1. Individual Debtors. If the DCO determines a proposed repayment agreement from an individual debtor is unacceptable, the DCO must notify the debtor in writing. The debtor then has 30 days from the date of the written notice to request a special review by the DCO or file a petition for a hearing (or review for military members) to contest the repayment schedule under Section 4, sections 3.0 or 6.0.

3.13.2. Contractor/Vendor Debtors. The DMO must obtain consent from the creditor DoW Component's senior financial manager or designee before denying a contractor's request for an installment agreement. Refer to Section 5 for additional contract debt guidance.

3.14 Installment Payment Delinquency. If a debtor does not make an installment payment by the due date, the entire balance of the debt becomes delinquent from the due date of the missed payment. A debt being repaid under an installment plan is not delinquent if payments under the installment agreement are current. Interest will be assessed on a debt being paid by installment until the debt is paid in full. Penalties may be assessed on any portion of the debt that is outstanding for more than 90 days.

3.15 Involuntary Collection of Debt by Salary and Administrative Offset

3.15.1 General. When a debtor does not pay a debt voluntarily, agencies have the right to offset monies otherwise owed to a debtor in order to extinguish a debt. Where specific statutory authority exists for the collection of a particular debt by offset, the provisions of the statute and its implementing regulations must be used in determining the applicable collection procedures (for example, specific statutory authority exists under 5 U.S.C. § 5705, 5 U.S.C. § 5512, 10 U.S.C. § 2775, and 37 U.S.C. § 1007). However, when a more specific statute does not exist, DCOs must use the general collection authority under 5 U.S.C. § 5514 for salary offset from the current pay of individuals employed by the DoW, or 31 U.S.C. § 3716 (covered in paragraph 9.3) for administrative offset of other payments from the Government that are due a debtor. Refer to Section 3 for more specific instructions on involuntary collection of debt for Service members and civilians.

3.15.2 DCOs may initiate salary offset to collect indebtedness by installment deductions under 5 U.S.C. 5514 for debtors receiving pay from the DoW. This statute authorizes involuntary collection from the current pay or salary accounts of Service members, DoW civilian employees, and Nonappropriated Fund Instrumentality (NAFI) employees. Use 5 U.S.C. 5514 as the salary-offset authority when offset is not authorized or required by a more specific statute. If the debtor is not currently employed by the DoW and owes a DoW debt, the DCO must forward the debt to the DCMO for collection by administrative offset under paragraph 9.3. If the debtor is a separated

Service member and the debt is not subject to salary offset, the DCO must forward the debt to the DCMO for administrative offset under paragraph 9.3.

3.15.2.1. When a debtor has failed to pay the debt in one lump sum, has not agreed to a voluntary one-time payroll deduction, or has not entered an installment agreement, the DCO must recover the debt by involuntary salary offset. Before initiating involuntary salary offset, the DCO must ensure the debtor was given due process per section 4.0 and either did not exercise the rights listed in the debt notification letter or, having exercised one or more, was determined to be indebted.

3.15.3. The following debts are not authorized for collection by salary offset:

3.15.3.1. Collection of debts to private creditors, except as authorized by P.L. 103-94, Hatch Act Reform Amendments of 1993;

3.15.3.2. Contributions to charities;

3.15.3.3. Payment of commercial life insurance premiums, international agreements, or arrangements with foreign governments;

3.15.3.4. Payment of dues to civic, fraternal, or other organizations; or

3.15.3.5. Collection of state and local/city tax indebtedness.

3.15.4. Disposable pay is the current pay remaining after any legally required deductions from earnings are withheld (see 5 CFR 550.1103 for the definition). All involuntary salary offset under 5 U.S.C. 5514 is limited to a maximum of 15 percent of the debtor's disposable pay unless the debtor gives written consent to a greater percentage. Involuntary salary offset is normally established at this maximum rate. If salary offset mistakenly exceeds 15 percent of disposable pay when the debtor has not consented to a greater percentage, the DCO must refund the difference upon the debtor's request. DCOs should refer to 5 CFR 550.1103 for instructions on computing the disposable pay available for salary offset.

3.15.5. Debtor Disagrees With Amount to be Withheld. If the debtor contends that the rate of salary offset proposed, or already established by the DCO, would produce an extreme financial hardship, then in accordance with 5 U.S.C. § 5514, the debtor may:

3.15.5.1. Petition for a hearing with a hearing official to contest the amount of the salary offset (civilian debtors) within the timeframe noted on the debt notification. Military members whose debts are collected under 37 U.S.C. § 1007 may request a review of the repayment schedule by the DCO within the noted timeframe. Refer to Section 4 for guidance on hearing or review requests; or

3.15.5.2. Request a special review by the DCO of a proposed or established salary offset amount. The request must be based on the debtor's materially changed circumstances, such as catastrophic illness, divorce, death, or disability.

3.16 Collection by Administrative Offset Under 31 U.S.C. § 3716

3.16.1. Administrative offset under 31 U.S.C. § 3716 allows the Government to withhold or intercept funds from monies payable by the United States to a person, organization, or entity in order to satisfy a debt owed to the Government. Administrative offsets may occur against tax refund payments, salary payments, military and civilian retirement pay, contractor payments, grant payments, benefit payments, travel reimbursement, and other Federal payments.

3.16.2. Exclusions. Administrative offset under 31 U.S.C. § 3716 does not apply to:

3.16.2.1. Offset against Federal salaries if the FCCS are inconsistent with regulations implementing salary offsets under 37 U.S.C. § 1007 or 5 U.S.C. § 5514;

3.16.2.2. Offset under 31 U.S.C. § 3728 against a judgment obtained by a debtor against the United States;

3.16.2.3. Offset or recoupment under common law, state law, or Federal statutes specifically prohibiting offset or recoupment of particular types of debts; or

3.16.2.4. Offset in the course of judicial proceedings, including bankruptcy.

3.17 Collection Under Common Law. Debts not subject to administrative offset under 31 U.S.C. § 3716 may still be collected by offset under the common law or another applicable statute.

3.17.1. If a DCO cannot collect a debt through salary offset under 5 U.S.C. 5514 (or another statute authorizing offset from pay) and the debtor has not paid in lump sum or by installment agreement, the DCO should refer the debt to the DCMO for administrative offset under 31 U.S.C. 3716. The DCMO offers debt management and collection assistance to DoW Components for delinquent debts owed to the DoW.

3.17.1.1. Due Process Requirements Prior to Administrative Offset Under 31 U.S.C. § 3716. Before initiating administrative offset under 31 U.S.C. 3716, a debtor must receive due process (notice of the debt and an opportunity for review). The DCO must complete all due process requirements under sections 4.0 and 5.0 before sending the debt to the DCMO for collection. If the debtor requested a hearing or review, the DCO must follow Section 4 before transferring the debt to the DCMO.

3.18 Additional Statutory Authority for Offset

3.18.1. Under 5 U.S.C. 5705, a Federal employee entitled to per diem or mileage allowances may receive a travel advance, and any amount not used for allowable expenses must be collected back. DCOs must inform debtors of the requirement for immediate repayment of unearned per diem and mileage advances at the time advances are made.

3.18.2. When collecting unused advanced per diem or mileage allowances, DCOs must give DoW debtors the opportunity to pay the amount due in a lump sum. If the debtor does not pay in a lump sum, salary or administrative offset must be made immediately against accrued pay, retired pay, travel reimbursement, or any other amount due the debtor from the United States. Hearings are not required before salary offset under 5 U.S.C. 5705, but DCOs must give the debtor a notice of the debt and must informally reconsider or review the debt on the debtor's request. If no amount is available for salary offset and the debt must be collected by administrative offset, the DCO must follow the requirements for administrative offset under 31 U.S.C. 3716.

3.18.3. Offset From a Service Member’s Pay for Damage to Military Housing Under 10 U.S.C. § 2775. Under 10 U.S.C. 2775, a debt may be collected from a Service member's pay for the cost of repair, replacement, or cleaning of military housing necessitated by abuse or neglect by the member. Debtors are not entitled to a hearing for debts collected by administrative offset under this statute, but DCOs must give the debtor a notice of the debt and must reconsider or review these debts on the debtor's request. If no amount is available for salary offset and the debt must be collected by administrative offset, the DCO must follow the requirements for administrative offset under 31 U.S.C. 3716.

3.18.4. Offset from a Member’s Pay for Administratively Determined Debts Under 37 U.S.C. § 1007. Under 37 U.S.C. 1007, a debt administratively determined to be owed to a DoW Component by a Service member may be collected by offset from the member's pay.

3.18.5. Administrative Offset to Recover Public Funds Under 5 U.S.C. § 5512. Under 5 U.S.C. 5512, administrative offset is authorized against the pay of an accountable official in arrears to the DoW for all sums for which the official is liable, when the debt results from being held liable for a loss of funds. DCOs must withhold the pay of individuals in arrears to the DoW until the debtor has paid all sums for which the debtor is liable.

3.19 Cooperation With Other Government Agencies

3.19.1. If a non-DoW Federal agency determines a debtor works for a DoW agency, then the non-DoW agency may submit a request directly to the DoW for administrative offset from the debtor’s pay. The non-DoW Federal agency is responsible for determining the validity and amount of the debt. The DoW is not authorized to determine the merits of the debt for which administrative offset is requested. Refer to Volume 8, Section 8 for additional guidance regarding these debts.

3.20 Reporting Debt to Credit Bureaus

3.20.1 Authority to Report Debts. The DCMO (or other DCO as appropriate) must implement procedures for reporting delinquent debts to credit bureaus and other automated databases per the Treasury "Guide to Federal Credit Bureau Reporting." Reporting of any non-delinquent debt must comply with the Bankruptcy Code and the Privacy Act of 1974 (5 U.S.C. 552a). Per 10 U.S.C. 2780(b), debts incurred by Service members must not be reported to credit bureaus while a decision on waiver or remission/cancellation of the debt is pending, unless the Secretary concerned determines that disclosure pending the decision is in the best interest of the United States. Refer to the PGI for information on reporting delinquent debts to credit bureaus.

3.20.2 Maintenance of Debt Records. DCOs must retain records for debts reported to credit bureaus in accordance with guidelines of the National Archives and Records Administration General Records Schedule. Bankruptcy information can be reported for 10 years. The credit bureau will only maintain accurate, negative information on a credit report if it is less than 7 years old.

3.21 Referral to The Treasury

3.21.1. Treasury has broad collection responsibilities for delinquent debts. Unless otherwise authorized by law, pursuant to Treasury Financial Manual (TFM), Volume 1, Part 3, Chapter 5000, Federal agencies are required to refer eligible and legally enforceable debts more than 180 days delinquent to the Treasury Cross-Servicing Program for debt servicing. Agencies are also required to refer any debts more than 120 days delinquent to TOP for recovery by centralized administrative offset. Refer to 31 U.S.C. § 3711(g), 31 U.S.C. § 3716, and the PGI for information on referring debts to TOP.

3.21.2. Components that have implemented the DDMG processes must refer delinquent debt older than 90 days and greater than $25 to the DMS for further collection action where applicable. At the DoW Component's discretion, debts may be referred sooner to protect the DoW's interests.

3.21.3. In most instances, DCOs refer uncollectible debts to the DFAS DCMO for debt servicing first, and the DCMO refers the debts to Treasury for cross-servicing and to TOP. Only those DCOs with specific authority may refer delinquent debts directly to Treasury. Before making a referral directly to Treasury, a DCO must consider the DFAS DCMO debt program and procedures in Section 3 to determine whether referring the debt to DFAS first would offer more cost-effective service, debt management control, and reporting.

3.21.4. DoW Components that do not refer debts to one of the DCOs authorized to make referrals to Treasury must negotiate an agreement with Treasury for debt referrals.

3.22 Cross-Servicing

3.22.1. The DCO must complete all due process procedures before referring a debt to Treasury for cross-servicing. At least 60 days before a debt is referred to Treasury, the DCO must issue the debtor a debt notification that meets the requirements of paragraph 5.5.

3.22.2. Pursuant to Treasury's "Managing Federal Receivables," a debt is not eligible for referral to Treasury for cross-servicing if the debt:

3.22.2.1. Is not past due or legally enforceable;

3.22.2.2. Is owed by a debtor who has died;

3.22.2.3. Is owed by a debtor who has filed for bankruptcy protection or the debt has been discharged in a bankruptcy proceeding;

3.22.2.4. Is owed by a Federal agency;

3.22.2.5. Is the subject of an administrative appeal, until the appeal is concluded and the amount of the debt is fixed; or

3.22.2.6. Is less than $25 (including IPA costs).

3.22.3. A debt may be referred for cross-servicing, but is not required to be referred, if the debt:

3.22.3.1. Is in litigation, meaning the debt has either been referred to DOJ for litigation or is the subject of proceedings pending in a court of competent jurisdiction, including bankruptcy and post-judgment matters;

3.22.3.2. Is in foreclosure, which means the debt is secured by collateral that is being foreclosed, either through a court proceeding or non-judicially;

3.22.3.3. Will be disposed of under an approved asset sale program within 1 year after becoming eligible for sale, or later than 1 year if consistent with an asset sales program;

3.22.3.4. Has been referred to a private collection contractor for a period acceptable to Treasury;

3.22.3.5. Is at a Treasury-designated debt collection center for a period acceptable to Treasury;

3.22.3.6. Will be collected under internal offset procedures within 3 years after the debt first became delinquent;

3.22.3.6. Is exempt from this requirement based on a determination by Treasury that exemption for a certain class of debt is in the best interest of the United States (the DoW may request that Treasury exempt specific classes of debts);

3.22.3.7. Is owed by foreign governments or a NAFI;

3.22.3.8. Is less than $100 and belongs to a debtor without a known TIN; or

3.22.3.9. Is otherwise exempt from the statutory referral requirement by law or official action of Treasury.

3.23 Referral to PCA

3.23.1 Authority to Use PCA. The DCMO is the designated DoW entity that may refer debts to PCAs.

3.23.2 Contracts for PCA Services. To minimize collection costs and avoid duplication, the agency should refer debts to Treasury for cross-servicing to obtain a PCA's services. Under 31 U.S.C. 3711 and the FCCS, an agency may refer a debt directly to a PCA by contract instead of through Treasury; to avoid double submission when a debt is also transferred to Treasury, the agency must make Treasury aware of the direct referral. Agency contracts with PCAs to locate delinquent debtors and recover delinquent debts must define the services and must conform to the following terms.

3.23.3. The DCO retains the final authority to resolve disputes, compromise debts, suspend or terminate collection activity, refer debts to credit bureaus, and refer debts to DOJ for litigation. If the debt was referred to the PCA as part of Treasury's Cross-Servicing Program, then Treasury retains authority to compromise debts.

3.23.4. The PCA must not offer the debtor, as an incentive for repayment, the opportunity to pay the debt minus the PCA's fee, unless the DoW authorizes it in advance.

3.23.5 Debts referred to PCAs are not subject to the requirement to transfer debts to Treasury.

3.24 Referrals to the DOJ for Litigation

3.24.1. Unless an agency has specific statutory authority to litigate its own debts, an agency must refer debts to DOJ for litigation. Debts based on conduct in violation of antitrust laws or involving fraud, or the presentation of a false claim or misrepresentation on the part of the debtor, or any party having an interest in the claim, must be referred to DOJ for action. Before referring a debt to DOJ, the DCO should consult with its Office of General Counsel for guidance. Also, prior to referring a debt to DOJ, a DCO must take aggressive collection action in accordance

with this section for legally enforceable debts and ensure the debt cannot be compromised, suspended, or terminated. Refer to the PGI for additional guidance on referring debts to DOJ.

3.24.2. The Defense Security Cooperation Agency (DSCA) determines whether to forward a Foreign Military Sales (FMS) arrearage to DOJ for litigation. For guidance on referring FMS arrearage, refer to Section 6.

3.25 Debt Compromise, Suspension, and Termination

3.25.1. Under 31 U.S.C. 3711 and the FCCS, an agency keeps the authority to compromise, suspend, or terminate collection action. The DCO, DCMO, DMO, fund holder, or other entity involved in debt collection may prepare a request for compromise, suspension, or termination and submit it to the appropriate authority for approval. The approving authority may be DFAS, the DoW Component, DOJ, or Treasury depending on the debt amount. The referring office submitting the request must keep supporting documentation, and may take no further action on debts referred for approval. Refer to the DFAS Procedures Manual for additional information on processes and determining when to compromise, suspend, or terminate collection action.

3.25.2 Compromise

3.25.2.1. General. Compromise is the acceptance of less than the full amount of the debt in satisfaction of the entire amount of the debt. The debtor is released from liability on the full amount of the debt if the compromise amount is paid in full. The debtor (or debtor's representative) should submit offers of compromise to the agency in writing and should include all additional information requested by the approval authority. Refer to the DFAS Procedures Guide for information on approval authorities.

3.25.3 Suspension of Collection Action

3.25.3.1. General. Pursuant to 31 CFR 903, suspension of collection action is a determination by the agency to temporarily cease collection action. Refer to the DFAS Procedures Guide for information on approval authorities and 31 CFR 903.2 for a list of circumstances under which suspension may be considered.

3.25.3.2. Per 37 U.S.C. 1007(c)(4), if a Service member, through no fault of their own, incurs a wound, injury, or illness in the line of duty in a Presidentially or SecDef-designated combat operation or combat zone and is overpaid pay or allowances while recovering, the DCO must not collect the overpayment from the member's pay until the criteria in Section 3, subparagraph 3.5.3 are met.

3.25.3.3. Per 37 U.S.C. 1007(c)(3)(B), Service members subject to deductions from pay under that section may request a delay in the start of repayment. Before beginning salary offset, the DCO must consider the member's stated reasons, including the member's financial

ability to repay and the hardship that immediate collection would impose on the member and dependents.

3.26 Termination of Collection Action

3.26.1. Termination of collection action is a determination to cease active collection because such action is not economically worthwhile or is otherwise inappropriate. Before terminating collection, the agency should have pursued all appropriate means of collection and determined the debt is uncollectible.

3.26.2. Termination ceases active collection, but an agency may still pursue passive collection action (for example, when the debt remains secured by a judgment lien or lien interest, or is being collected through TOP). Termination results in the removal of the debt from the active collection files. Termination does not preclude the agency from retaining a record of the account. Refer to the DFAS Procedures Guide for approval authorities. Refer to 31 CFR 903.3 for circumstances under which termination may be considered. Refer to Volume 4, Section 3 for guidance on writing off debts upon termination of active collection.

3.27 Debts Involving Violation of Antitrust Laws or Fraud. The compromise, suspension, and termination policy in this section does not apply to a debt based in whole or in part on conduct violating the antitrust laws, or to a debt involving fraud, a false claim, or misrepresentation by the debtor or any interested party. Only DOJ may compromise, suspend, or terminate collection on such debts. On identifying a debt meeting these criteria, the DCO must promptly refer it to DOJ for action. DOJ may return the debt to the DCO for further handling.

3.28 Debtors Involved in Bankruptcy Proceedings

Debtors Involved in Bankruptcy Proceedings. If the DCO learns that a bankruptcy petition has been filed by a debtor, the DCO must take immediate action to ensure prompt termination of debt collection or processing of bankruptcy orders.

4.0 COLLECTION OF DEBTS OWED BY INDIVIDUALS TO THE DOW

4.1 Collection of Debt From Current, Separating, Transferring, and Retired DOW Civilian Employees

4.1.1 Reasons for Overpayment of Civilian Pay and Allowances. Overpayments to employees may be the result of various payroll errors or adjustments. Examples include errors in computing federal withholding tax, Civil Service Retirement System (CSRS) or Federal Employees Retirement System (FERS) deductions, Social Security and/or Medicare deductions, improper rates of pay, errors in reporting time worked, or erroneously accrued and paid annual leave. The head of each PRO maintains overall responsibility for ensuring that an overpayment is recovered expeditiously or that another appropriate disposition of the debt is carried out, such as

waiver of the indebtedness. The head of each PRO is responsible for ensuring that employees are afforded all legal rights relative to the collection of indebtedness. Responsibilities may be delegated, in writing, to another appropriate official within the financial community.

4.1.2 Procedures for Debt Establishment. Generally, a debt is "established," or comes into existence, when the government agency to which it is owed determines that there is a debt and identifies the exact amount of the debt. This initial determination by the agency triggers the debt collection process. PROs should refer to the PGI for information on how to establish a debt and prepare for collection.

4.1.3 Overview of Debt Collection from Current DoW Employees

4.1.3.1. After determining the amount owed to the United States by a current DoW employee and establishing a debt, the PRO must determine if collection may be made using a routine pay adjustment under paragraph 2.5. If the PRO cannot use a routine adjustment to collect a debt, then the PRO must contact the debtor by issuing a written debt notification that satisfies due process requirements. Refer to Section 2, sections 4.0 and 5.0 for guidance on debt notifications. Also refer to the PGI for additional information on debtor rights.

4.1.3.2. If the civilian employee does not respond to the debt notification by voluntarily repaying the debt or submitting a request for a review or waiver, then the DCO must initiate collection by salary offset under 5 U.S.C. § 5514, or under other specific statutory authority set out in Section 2, section 9.0. Refer to the PGI for case examples of routine adjustment, voluntary repayment, and salary offset.

4.1.4 Procedures for Routine Pay Adjustments

4.14.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment or amount to $50 or less. Routine adjustments may be necessary due to overpayments attributable to clerical errors, administrative errors, delays in processing pay documents, corrected or late time and attendance data, underdeduction of premiums, or incorrect personnel actions. Refer to the PGI for information on notification and collection of routine pay adjustments.

4.2 Processing Debt Repayments

4.2.1. The DCO must record a cash collection (personal check, money order, or other negotiable instrument) on DD Form 1131, Cash Collection Voucher. The accounting data must include the appropriation or fund that funded the overpayment.

4.2.2. One-Time/Lump-Sum Deduction (Salary Offset). If an employee voluntarily requests to have the indebtedness deducted from pay, then the DCO must arrange for the employee to complete and sign a voluntary repayment agreement as shown in Section 2, Exhibit 2-1 indicating payment by lump-sum deduction. The DCO must retain the original signed agreement. If requested by the employee and agreed to by the DCO, then the DCO can defer remittance for up to two pay periods and change the agreement to reflect that adjustment. An employee may also combine a one-time deduction with a cash payment as a means of liquidating the indebtedness. If a one-time deduction does not fully liquidate the indebtedness, then the DCO must adjust the agreement accordingly.

4.2.2. Installment Deductions (Salary Offset). If an employee is unable to repay the debt in one lump-sum repayment, then installment payments may be acceptable. The employee should complete a voluntary repayment agreement indicating repayment by salary offset using installment payments. The DCO must retain the original signed agreement. Refer to Section 2 for additional guidance pertaining to requesting and approving installment payment plans.

4.2.3. When a debtor has either failed to pay the debt in one lump sum, has not agreed to a voluntary, one-time payroll deduction, or has not entered into an installment agreement, the DCO must recover the debt by involuntary salary offset.

4.2.3.1. Before initiating involuntary salary offset, the DCO must ensure the debtor was given due process pursuant to Section 2, section 4.0, and that the debtor has not exercised the rights listed in the debt notification letter or, having exercised one or more of those rights, was determined to be indebted. The DCO may initiate collection of a debt from final pay and lump-sum leave payments before granting due process if failure to do so would substantially prejudice DCO's ability to collect the debt. In such cases, the DCO must afford the debtor due process as soon as practicable. For additional guidance on salary offset, refer to the PGI.

4.3 Collection

4.3.1. Under 5 U.S.C. § 5514, when an employee separates by resignation, retirement, death, or termination of appointment, the employee's final pay (including lump-sum leave payments) will be applied to the extent necessary to liquidate a previously established debt. The 15 percent disposable pay limitation does not apply to the offset. To recover the debt, other payments due from any source (such as amounts claimed for travel and transportation) should be applied to the debt.

4.3.2. Due process is not necessary if debt collection is already in process when the employee separates and the employee was previously notified of the debt and given an opportunity for review. For deceased employees, any unpaid compensation due must be applied to liquidate the indebtedness with no limit on the maximum rate of collection. If a debt balance remains after collecting from the deceased employee's final pay, the DCO must forward the debt case to the Debt

and Claims Management Office (DCMO) for collection against the estate. The DCO must not pursue collection of the debt from any of the employee's beneficiaries named under 5 U.S.C. 5514.

4.3.3. Collection of a Newly Established Debt. When an employee separates by resignation, retirement, death, or termination of appointment, and a debt is newly established (not previously established and not already collected under 5 U.S.C. 5514), the DCO must collect it using administrative offset under 31 U.S.C. 3716. The DCO must apply all money payable to the employee with no limit on the maximum rate of collection. As soon as practicable, the DCO must give the debtor notice of the debt and an opportunity for review under Chapter 2 (31 CFR 901.3(b)(4)(iii)(C)).

4.3.4. Collection of a Debt from Severance Pay. Collection of a debt from an employee's severance pay issued under 5 U.S.C. § 5595 is permissible under 31 U.S.C. § 3716. If an employee has not previously received notification of the debt and an opportunity for review (due process) under Section 2, the DCO must grant notice of the debt to the debtor as soon as practicable. Refer to 31 CFR 901.3(b)(4)(iii)(C) for additional guidance. There is no limit on the maximum rate of collection, and all money due and payable to the employee is subject to offset.

4.4 Collection of Indebtedness from Transferring DoW Employees

4.4.1. All actions continue when the employee separates. Hearings on the amount of involuntary offset must terminate at separation, but hearings on the validity or amount of a debt must continue and a written determination must be issued. If later events nullify the indebtedness, the DCO must refund amounts withheld from both current and final pay. Refunds must be made without requiring a claim from the former employee.

4.4.2. Per 5 CFR Part 550, Subpart K, the losing PRO must ensure the gaining PRO is aware of specific information, which is found in the PGI.

4.4.3. Transfer to Another Federal Agency. When an employee transfers to another federal agency outside of DoW, the PRO/DCO should forward the debt case to the DCMO pursuant to the instructions in section 5.0 and the PGI.

4.5 Collection

4.5.1. General. If an employee is still indebted to DoW at retirement, and the amount withheld from final salary and lump-sum payments under paragraph 2.8 is inadequate to satisfy the debt, the DCO may take the following actions.

4.5.2. Refer the debt to DCMO. In most cases, after providing the employee the due-process rights in Section 2, the PRO must submit the debt to the DCMO for collection action that may offset retirement funds via referral to the U.S. Department of the Treasury (Treasury) Offset Program.

4.5.3. Refer the debt to OPM. The PRO may request that OPM offset the debt against money due the separated employee from CSRS or FERS basic benefits. The request is a debt claim the DCO submits to OPM for recovery of the debt by OPM. This practice does not apply to Nonappropriated Fund Instrumentality employees. For collection of debts from retirement funds, refer to 5 CFR Part 831, Subpart R (CSRS retirees) and 5 CFR Part 845, Subpart A (FERS retirees).

4.5.4. Notice to the Employee. Before sending a debt claim to OPM, the DCO must notify the employee in writing that a debt claim is being sent to OPM to offset the employee's CSRS or FERS basic benefits. The letter must state the debt amount at separation, the amount recouped from final pay and other sources, and the balance due. The letter must inform the employee that full payment of the balance due stops the debt from transferring to OPM. This notice is in addition to any previous due-process notice.

4.5.5. Due Process. The DCO must provide due process to the debtor before submitting the debt to OPM for collection, unless the DCO submits an incomplete debt claim.

4.6 Collection of Indebtedness from Former DoW Civilian Employees. PROs and DCOs must refer debts of former personnel who are no longer DoW civilian employees (out-of-service debtors) to the DCMO. See section 6.0 for Components using Treasury's Centralized Receivables Service (CRS), as authorized by an appropriate DoW authority.

4.6.1 Collection. Per 5 CFR 550.1109, DoW Component organizations outside the PRO (such as employing agencies) may request the PRO recover debts from current component employees by salary offset. Such debts originate outside the PRO and are not overpayments of pay or allowances. The PRO will generally not review the merit of a debt originating outside the PRO. For information on requesting involuntary salary offset for various types of debts, refer to the PGI.

4.6.2. Collections of Unused Travel Advances (Unearned Advance Per Diem and Mileage Allowance) and Unearned Temporary Quarters Subsistence Expense. In addition to 5 U.S.C. § 5514, additional statutes authorize salary offset. The PRO should follow any specific requirements under these statutes for offset. When a statute does not provide other procedures, prior to any involuntary offset, debtors should be provided with notice of the debt and an opportunity for review. See 64 Comptroller General (Comp. Gen.) 142 (1984). For additional guidance on the collection of these travel-related debts, refer to the PGI.

4.6.3. Excess Costs Due to Shipment of Personal Property. A debt for excess cost is created when an employee's shipment of personal property exceeds the authorized weight allowance. A DD 2481 must be issued to the employee's PRO to request collection under 5 U.S.C. § 5724(a)(2). The collection of the excess costs from an employee's pay is considered a voluntary salary offset since the employee agreed to repay the excess costs when he or she signed DD 1299, Application for Shipment and/or Storage of Personal Property, before the actual shipment of the property. Refer to the PGI for information on the reconsideration of transportation-related debts.

4.6.4. When an employee fails to fulfill a training agreement, and he or she does not voluntarily repay the employing activity, collection of training expenses from the employee's pay account is authorized under 5 U.S.C. § 4108. In accordance with 5 CFR 410.309, the employing activity must give the employee the opportunity to request a reconsideration of the amount to be recovered or to request a waiver of the activity's right to recover. Refer to the PGI for information on the initiating collection via salary offset.

4.6.5. The negotiation of an original Treasury check that was replaced by a recertified check is an illegal and improper payment for purposes of pecuniary liability. The disbursing officer who issues a duplicate payment is responsible for collection of the duplicate payment from the payee. Refer to the PGI for procedures associated with repayment.

4.6.6. Collection of Dishonored Personal Checks. Collect for dishonored personal checks in accordance with Volume 5, Section 4.

4.7 Collection of Debt From Active and Reserve Members

4.7.1. General. This section pertains to the collection of debt owed to DoW by active and reserve military members, hereafter referred to as members. Debt collection authority for members exists both under the common law and various statutes. Much of this section discusses the authority for collection under 37 U.S.C. § 1007 and 5 U.S.C. § 5514; however, there are other debt collection authorities listed in Tables 3-1 through 3-6.

4.7.2 Due Process Requirements. The head of the military pay office (typically the DCO) must ensure members receive all legal rights for collection of a debt from overpayment of pay and allowances. Unless a statute directs otherwise, members are entitled to due process, consisting of a notice and an opportunity for review, before debt collection begins. Refer to Section 2 for due-process requirements and to Section 4, section 6.0 for member review opportunities.

4.8 Collection From Member’s Pay

4.8.1. General. General statutory authority for collection by salary offset from a member's pay exists under both 37 U.S.C. 1007(c) and 5 U.S.C. 5514. Debts established by DoW agencies are collected under 37 U.S.C. 1007, and debts a non-DoW agency has administratively determined to be owed the United States are collected under 5 U.S.C. 5514. Routine adjustments are authorized under 5 U.S.C. 5514. Other statutory authority may authorize collection of specific classes of debts (Comp. Gen. B-230865 (1990); United States v. Tafoya, 803 F.2d 140 (1986)).

4.8.2. Voluntary Repayment Encouraged. Members indebted to the United States should be encouraged to discharge the debt through lump-sum cash payments. When a lump-sum payment would create a financial hardship given the member's ability to repay, installment payments may be accepted. Members are encouraged to voluntarily accept liability and to agree

to a repayment schedule that adequately protects both the United States and the member. A member may authorize or request collection in amounts greater than could be collected involuntarily.

4.8.3. Current pay is available to repay a debt by involuntary offset (without the member's consent) only if such recovery is expressly authorized by statute. Refer to Tables 3-1 through 3-5 for guidance and statutory authority on involuntary collection from the member's pay.

4.8.4. Final Pay. When a member receives final pay on separation, indebtedness to the United States may be collected under the common-law rule of offset, subject to the limitations in subparagraphs 3.3.3.2.1 through 3.3.3.2.3 and Table 3-6. Even debts collectible from current pay only with the member's consent may be collected from final pay and allowances without consent. Amounts owed to a Service relief society (Army Emergency Relief, the Navy-Marine Corps Relief Society, the Air Force Aid Society, or Coast Guard Mutual Assistance) may also be collected from final pay without consent per 37 U.S.C. 1007(c) and (h). Except as specified in Table 3-6, amounts are generally collectible as follows:

4.8.5. Officers of any Service. No limitation applies to the amount that may be deducted from an officer of any Service from his or her final separation pay.

4.8.6. Army and Air Force Enlisted Members. An amount due from an enlisted member of the Army or Air Force may be deducted from final separation pay. Per 37 U.S.C. 1007(d), the appropriate rate of collection in subparagraph 3.5.2 applies to collection from the member's final separation payment.

4.8.7. Navy and Marine Corps Enlisted Members. No limitation applies to the amount that may be deducted from an enlisted member of the Navy or Marine Corps from his or her final separation pay.

4.9 Collections by Salary Offset Under 37 U.S.C. § 1007(c). Section 1007(c) of Title 37 authorizes deducting from a member's current pay an amount that the Secretary of the Military Department concerned administratively determines is owed to the United States, or any of its instrumentalities, due to overpayment of pay and allowances. Debts collected under 37 U.S.C. 1007 are subject to due-process requirements. Two-thirds of the member's disposable pay is the maximum that may be deducted from monthly pay, except as provided in subparagraph 3.5.2 or 3.3.3 for final separation. Collection at two-thirds is not the default rate; it applies only where the overpayment is the fault of the member (see subparagraph 3.5.2.1). Where a member of one Military Service owes a debt to another and the creditor Service makes an administrative determination of indebtedness, the creditor Service may forward that determination, with certification of compliance with this section, to the military pay office servicing the member for collection. Refer to Section 2, subparagraph 14.5.5 for delaying the start of the repayment requirement.

4.9.1. Due Process Requirements Under 37 U.S.C. § 1007. Debt collection officers must use the procedures in Section 2 for debts that require due process. The field office must initiate due process after receiving a management notice from the pay system, and any subsequent collection must be based on an appropriate repayment schedule.

4.9.2. Collection When Member is at Fault. When the military pay office determines that an overpayment of pay or allowances is the fault of the member, the office may recover the debt in monthly installments of up to two-thirds of the member's disposable monthly pay. The member may consent to a greater percentage. Note: two-thirds is not the default rate; it applies only where the overpayment is the fault of the member. In most cases the rate in subparagraph 3.5.2.2 applies.

4.9.3. Collection When Member is Not at Fault. When the military pay office determines that an overpayment of pay or allowances is not the fault of the member, the office is authorized to recover the debt in monthly installments.

4.9.3.1. Overpayments Made On or Before October 28, 2009. If an overpayment was made to a member on or before October 28, 2009, the military pay office recovers it in monthly installments not exceeding 20 percent of the member's disposable pay each month. The office may deduct a greater percentage with the member's consent.

4.9.3.2. Overpayments Made After October 28, 2009. If an overpayment was made to a member on or after October 29, 2009, the military pay office recovers it in monthly installments not exceeding 15 percent of the member's disposable pay each month. The office may deduct a greater percentage with the member's consent.

4.9.3.3. Requests for Delayed Collection. For overpayments in this subparagraph made on or after October 29, 2009, the military pay office must give the member a reasonable opportunity to request a delay in the repayment requirement. Before beginning collection, the

office must consider the member's stated reasons, including the member's financial ability to repay and the hardship that immediate collection would impose on the member and the member's dependents.

4.9.3.4. If a member, through no fault of the member, incurs a wound, injury, or illness in the line of duty in a combat operation or combat zone designated by the President or the Secretary of Defense, any overpayment of pay or allowances made while the member recovers may not be deducted from the member's pay until:

4.9.3.4.1. The member is notified of the overpayment; and

4.9.3.4.2. The later of the following occurs:

4.9.3.4.2.1. The end of the 180-day period beginning on the date of the completion of the tour of duty of the member in the combat operation or combat zone, or

4.9.3.4.2.2. The end of the 90-day period beginning on the date of the reassignment of the member from a military treatment facility or another medical unit outside of the theater of operations.

4.9.3.5. After receiving notice of the overpayment, a member may request that collection begin earlier. The military pay office must determine the appropriate rate of collection per subparagraph 3.5.2.2 and follow the due-process requirements in Section 2.

4.10 Collection by Salary Offset Under 5 U.S.C. § 5514

4.10.1. Debt Determination. A federal agency, other than the DoW, may determine that a member is indebted to the United States and that collection action against the member’s monthly pay under the authority of 5 U.S.C. § 5514 is warranted. The collection of a debt owed to departments and agencies other than DoW (including its instrumentalities or other uniformed services) resulting from a court judgment is included under this collection authority. The non-DoW agency must forward the request for offset through Treasury’s Cross-Servicing Program.

4.10.2. Amount of Collections. The military pay office may make collections not exceeding 15 percent of disposable pay for any pay period, unless the member authorizes a greater percentage in writing. Unsatisfied debts at discharge or retirement will be deducted from subsequent payments due the member. For additional guidance on salary offset, refer to Section 2, paragraph 9.2.

4.10.3. Due Process. The creditor agency to which the debt is owed must provide due process to the member and must certify due process was completed if the debt is submitted to the Defense Finance and Accounting Service (DFAS) for collection. For due process procedures, refer to Section 2.

4.10.3.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have either occurred within the four pay periods preceding the adjustment, or amount to $50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, delays in processing pay documents, or underdeduction of premiums, for example. The DCO must provide the debtor with written notice of the nature and amount of the adjustment, as well as a point of contact for questions regarding the adjustment. This information should be provided by the payday for the pay period in which the adjustment is processed, or as soon thereafter as practical. An appropriate notice on the LES meets the requirements for notification.

4.10.3.2. The actual overpayment must have occurred after April 26, 1996.

4.10.3.4. The amount deducted may not exceed 15 percent of disposable pay unless the debtor consents in writing to a higher amount. The servicing military pay office must generate a 'no pay due' management notice when a debt creates a no-pay-due situation.

4.10.4. IPA Costs. Interest will be charged beginning from the date of delinquency. IPA will be assessed and calculated pursuant to Section 7, 31 U.S.C. § 3717, and 31 CFR 901.9.

4.11 Indebtedness Incurred in National Guard or Reserve. When a member re-enters active Military Service, the military pay office must collect from active pay and allowances any indebtedness the member incurred while in a National Guard or Reserve status.

4.12 Member Dies after Receiving Advance Salary Payment. Advance payday payments made per Volume 7A, Chapter 32 are not considered indebtedness if the member dies before the date through which the pay was computed and paid.

4.13 Centralized Processing

4.13.1. This section governs collecting in-service debts owed to the Army and Air Force Exchange Service, the Navy Exchange Command, and the Marine Corps Exchange Command (the Exchange Commands). It applies when active-duty, reserve, and retired military members are delinquent in repaying a dishonored check or their credit plan. Under 37 U.S.C. 1007(c), an amount that a member of the uniformed services is administratively determined to owe the United States may be deducted from the member's pay in monthly installments. For specific procedures related to collection of Exchange Command debts, refer to the PGI.

4.13.2. DFAS collects the amounts requested as long as the total monthly amount collected, including any other debt collected under 5 U.S.C. 5514, does not exceed two-thirds of the member's disposable pay. The military pay office must reduce monthly collection amounts if the pay due a member is insufficient to cover authorized deductions or collections. Debt collection

is subject to Table 3-5 and to the priority of pay deductions and collections in Volume 7A, Chapter 52.

4.13.3. Exchange Commands must certify that they provided the member due process per Section 2. Exchange Commands must maintain due-process documentation (debt notification letters and supporting documentation) on individual delinquent debt accounts.

4.13.4. When a member enrolls in a credit plan, the Exchange Command must advise the member of the maximum deduction for delinquent accounts under subparagraph 3.5.2. DFAS, or the field finance office, must ensure collections do not exceed two-thirds of the member's monthly disposable pay.

4.13.5. Exchange Commands must respond to all member inquiries about debts and deduction amounts.

4.13.6. Exchange Commands may not deduct any amount from a member's pay account to cover a dishonored check written by a dependent without the member's consent.

4.13.7. Exchange Commands must use a listing of basic pay rates, plus income data received from the member, to determine an amount that is equal to or less than two-thirds of the member's pay.

4.13.8. If a member separates from active duty, or if retired pay is suspended, and the debt was not fully collected, the Exchange Command must collect any remaining debt. The military pay office must advise the Exchange Command that the member has separated or that the retiree's pay has been suspended.

4.13.9. Exchange Commands are responsible for overpaid debts. When a member overpays a debt, the Exchange Command must immediately refund the overpayment to the member.

4.13.10. Exchange Commands must honor a repayment agreement under which a member voluntarily agrees to repay the debt. If the member voluntarily repays the debt off-line, the Exchange Command must cancel the offset request and immediately notify DFAS.

4.13.11. For audit purposes, Exchange Commands must maintain and ensure the availability of all documentation pertaining to these debts.

4.13.12. If the deduction amount input by the Exchange Command exceeds two-thirds of the member's disposable pay (subparagraph 3.4.2), DFAS or the military pay office must change the deduction amount or return the debt to the Exchange Command for adjustment. After the deduction is processed, DFAS must notify the Exchange Command of any adjustments.

4.13.13. The Exchange Command manages the entire debt amount internally and must notify the member of the debt balance and encourage the member to submit payments voluntarily. DFAS provides management notices (listing) to the servicing military pay office, where applicable, identifying the member's pay account to which the deduction is charged.

4.14 Collection of Debt from Military Retirees and SBP Annuitants

4.14.1 General. This section pertains to the collection of debt owed to DoW by military retirees, Retired Serviceman's Family Protection Plan (RSFPP) annuitants, or SBP annuitants due to the overpayment of annuity payments. A debt may be the result of an overpayment to the military retiree, or an amount owed to the Government but unpaid by a military retiree. A debt may be for an overpayment of military retired pay, Concurrent Retirement and Disability Pay, Combat Related Special Compensation (CRSC), an overpayment of active duty pay and allowances, or other indebtedness arising from service on active duty.

4.14.2 Due Process Requirements. The head of the military retiree pay office, DFAS - Retired and Annuitant Pay, must ensure that military retirees receive all legal rights relative to indebtedness arising from overpayments of pay and allowances, including due process under Section 2. This includes giving the military retiree the opportunity to request a delay in collection of the debt under 37 U.S.C. 1007(c)(3)(B).

4.14.3 Routine Pay Adjustments Under 5 U.S.C. § 5514

4.14.3.1. In accordance with 5 U.S.C. § 5514, DCOs are not required to provide due process procedures prior to collecting overpayments of pay and allowances using routine intra-agency pay adjustments. To collect by routine adjustment, the overpayment must have occurred within the four pay periods preceding the adjustment or amount to $50 or less. Routine adjustments may be necessary due to an overpayment attributable to clerical errors, administrative errors, or delays in processing pay documents. Routine adjustments include retroactive U.S. Department of Veterans Affairs (VA) increases that may result in retirement benefit debts. Refer to the PGI for additional information on routine pay adjustments.

4.14.3.2. The actual overpayment must have occurred after April 26, 1996.

4.14.3.3. The amount deducted must not exceed 15 percent of disposable pay unless the debtor consents in writing to a higher amount. The servicing pay office must generate a 'no pay due' management notice when a debt creates a 'no pay due' situation.

4.15 Debt Collection

4.15.1. Authority for Involuntary Collection. A military retiree's pay is available for involuntary offset of indebtedness without the retiree's consent, provided the retiree is afforded due process under Section 2, as follows:

4.15.1.1. Debts to the DoW, or any of its instrumentalities or other uniformed services, will be deducted from pay under 37 U.S.C. § 1007(c);

4.15.1.2. Debts determined to be owed to another federal agency will be collected by salary offset under the authority of 5 U.S.C. § 5514;

4.15.1.3. Debts determined to be owed to another federal agency will be collected by administrative offset under the authority of 31 U.S.C. § 3716; and

4.15.1.4. Routine adjustments are authorized under 5 U.S.C. § 5514.

4.15.2. Limitation on Amount of Deductions. Debt collection amounts are subject to the limitations in the authorizing debt-collection statute. The maximum monthly amount collectible under 37 U.S.C. 1007(c) is subject to the limitations in subparagraph 3.5.2.

4.15.3. "No Pay Due" Notice. To prevent avoidable hardship to the military retiree, the pay office must generate a 'no pay due' RAS when collection of a debt results in 'no pay due.'

4.16 Debts incurred while the military retiree was on active duty must transfer on retirement to the military retiree pay office, and collection resumes from retired or retainer pay. It is not necessary to repeat the due process procedures before resuming collection.

4.17 Debt Owed to Another Military Service. When a military retiree of one Military Service owes a debt to another Military Service and a DCO of the creditor Service makes an administrative determination of indebtedness, the DCO may forward that determination, with certification of compliance with due process requirements, to DFAS Retired and Annuitant Pay for collection action.

4.18 Priority of Deductions and Collections. When the pay due a military retiree is not enough to cover all authorized deductions and collections, DFAS Retired and Annuitant Pay must use the following priority sequence for deductions and collections from pay:

4.18.1. Reduction of pay entitlement, which takes precedence over all other items for deduction or collection. These reductions include:

4.18.1.1. Readjustment pay,

4.18.1.2. Separation pay,

4.18.1.3. Severance pay,

4.18.1.4. Variable Separation Incentive,

4.18.1.5. Special Separation Benefit,

4.18.1.6. Reserve Special Separation Pay,

4.18.1.7. Forfeiture of pay, and

4.18.1.8. VA compensation.

4.18.2. Reimbursement to the United States, to include:

4.18.2.1. FITW,

4.18.2.2. TRICARE – Dental Plan,

4.18.2.3. RSFPP premiums,

4.18.2.4. SBP and Supplemental SBP (SSBP) premiums, and

4.18.2.5. Reserve Component (RC) SBP (RCSBP) premiums;

4.18.3. Involuntary repayment of indebtedness to the United States, which includes:

4.18.3.1. Routine adjustments and automatic collections;

4.18.3.2. Other overpayments of retired pay and CRSC;

4.18.3.3. Delinquent RSFPP, SBP, SSBP, or RCSBP costs;

4.18.3.4. Debts arising from active duty;

4.18.3.5. Debts to DoW appropriated fund activities;

4.18.3.6. Hospital rations issued to a member;

4.18.3.7. Excess cost of shipment of household goods;

4.18.3.8. Unpaid hospital bills for medical services furnished a dependent;

4.18.3.9. Court-martial fines; and

4.18.3.10. Debts from other departments or agencies outside DoW, including court judgments.

4.18.4. Garnishment for alimony and child support payments and Uniformed Services Former Spouses' Protection Act payments;

4.18.5. Court-ordered bankruptcy payments under Section 13 of the revised Bankruptcy Code;

4.18.6. Indebtedness to a nonappropriated fund activity; and then

4.18.7. SITW.

4.19 Collection of Debt from SBP Annuitants

4.19.1. Liability. An SBP annuitant is liable for any debt resulting from overpayment of an annuity. A military retiree is liable for a debt resulting from erroneous annuity payments made based on the presumption of the member's death. If the member dies before such payments are fully recovered, the annuitant who received the annuity payments made under the presumption of death is liable for the indebtedness.

4.19.2. Collection of Debt. Upon discovering an overpayment, the DCO must provide the annuitant due process as required under Section 2. The DCO must advise the annuitant of the debt and the method by which the overpayment is being, or may be, liquidated. Refer to the PGI for a list of liquidation methods.

4.20 Collection of Debt from Former Employees, Former Members and Other Non-DOW Related Debtors

4.20.1 This section covers debts owed by individuals no longer employed by DoW or no longer on active duty, and by persons who were neither DoW employees nor active-duty members but are indebted to DoW ("out-of-service" debt). If a Component's DCO cannot collect a debt through salary offset because DoW does not pay the debtor, and the debtor has not agreed to pay in a lump sum, the DCO must obtain debt collection services from the DCMO. The DCMO operates the Defense Debt Management System (DDMS) to provide centralized, automated debt servicing and collection assistance to DCOs on delinquent debts owed to DoW by individuals DoW no longer pays. For Components using Treasury's CRS, see section 6.0. Refer to the PGI for potential reasons for out-of-service debt.

4.20.2. The DCMO may provide collection assistance for other debts only as specifically agreed in each Service's mission work agreement.

4.20.3. The DCMO must comply with 31 U.S.C. 3701 through 3720E and all applicable laws and regulations, including the FCCS. Per paragraph 5.4, the DCO, not the DCMO, is responsible for all due process requirements under the FCCS.

4.21 Advanced Education Assistance Debts Under 10 U.S.C. 2005

4.21.1. Advanced education assistance, including Reserve Officers' Training Corps scholarships and payments, require the recipient of such assistance to enter into a written agreement with the Secretary concerned. Under 10 U.S.C. 2005, the terms of the agreement must state that if the recipient does not complete the period of active duty, or other such terms as

specified in the agreement, the recipient will be subject to the repayment provisions of 37 U.S.C. 303a(e) or 37 U.S.C. 373, under which the obligation to repay the United States is, for all purposes, a debt owed to the United States.

4.21.2. If a Service cannot collect the repayment debt under the written agreement and the debt becomes delinquent, the Service may transfer the delinquent debt to the DCMO for further collection. The DCMO collects the delinquent debt owed to the United States per 31 U.S.C. 3701 through 3720E, regardless of the terms of the original agreement, and assesses interest, penalties, and administrative costs as stated in the DFAS debt notification, irrespective of the original agreement terms. Interest, penalty, and administrative-charge rates are set by Treasury under 31 U.S.C. 3717. Refer to the PGI for guidance on obtaining service from the DCMO.

4.22 The DCO must:

4.22.1. Initiate debt collection and ensure due process requirements (notification and opportunity for review) are met. The DCO must issue the initial bill, invoice, or debt notification letter to the debtor and take appropriate follow-up action. The DCO may use bills and invoices as an initial collection attempt, but bills and invoices generally do not meet due process requirements. The DCO must issue a debt notification letter setting out the debtor's due process rights before submitting the debt to the DCMO for collection services. Although only one due process notification is required, a DCO may issue additional written demands for payment as appropriate. Refer to Section 2 for guidance on issuing the debt notification letter.

4.22.2. Complete any previously initiated actions, such as reclamation, appeal, litigation, or foreclosure, before referring delinquent, individual, out-of-service debts to the DCMO.

4.22.3. Research and verify the military or civilian status of debtors so that only individual out-of-service debts are referred to the DCMO, or ensure other transferred debts comply with established procedures.

4.22.4. Refer delinquent, individual, out-of-service debts of $225 or greater to the DCMO no later than 60 days after the payment due date when the DCO has not collected the debt or established a repayment schedule with the debtor. If an individual has multiple debts all under $225, the DCO may consolidate them and refer them to the DCMO as one debt package. Components that have implemented the Delinquent Debt Management Guidance (DDMG) processes must refer eligible, legally enforceable, delinquent, individual out-of-service debt over $25 to Treasury's Bureau of the Fiscal Service Debt Management Services for further collection where applicable. Refer to Volume 4, Section 3 for guidance on clearing out-of-service debts below the referral threshold.

4.22.5. For manually submitted debts, use a transmittal letter to refer eligible debts to the DCMO and to ensure that the debts are received by the DCMO (refer to paragraph 5.7 for systemic

referral of debts to the DCMO). Prepare the transmittal letter in duplicate and send it to askDFAS, along with all substantiating documentation, or to the DCMO, DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis, IN 46249-3300, or via email to dfas.indianapolis-in.jaa.mbx.oosdebt-debtmgmt-baselevel@mail.mil. Send new debts with transmittal letters as often as required, but at least weekly. Identify on the transmittal letter all attached debt case files by name, social security number, and amount. Include the name, email address, and telephone number for the DCO point of contact and the name and location of the office accountable for the debt. Attach a copy of all documentation and background material in the debt case files. The required documentation includes:

4.22.5.1. A copy of the original bill, invoice, and/or debt notification letter. In order for the DCMO to accept the debt, the debt notification letter must comply with the requirements under Section 2;

4.22.5.2. The original debt principal amount with complete accounting classification and fiscal year to credit with any collections. Include a copy of the original disbursement voucher when the debt is the result of a previous payment;

4.22.5.3. The date the debt became known;

4.22.5.4. The date the debt was due;

4.22.5.5. The date the debt became delinquent (usually 30 days from the date of the debt notification letter);

4.22.5.6. The amount of accrued IPA;

4.22.5.7. Copies of any follow-up correspondence between the debtor and the DCO;

4.22.5.8. Amounts and dates of any prior collections and the accounting classification credited. Include a copy of the collection voucher when the collection was not processed through salary offset;

4.22.5.9. The debtor's branch of service or agency where formerly employed;

4.22.5.10. The debtor's, sponsor's, or beneficiary's social security number;

4.22.5.11. Military status and date of separation for members or employees whose period of service or employment ended with indebtedness;

4.22.5.12. Copy of DD 139 for military pay debts;

4.22.5.13. Copy of DD 2481 for civilian employee debts; and

4.22.5.14. Any other relevant documentation or information regarding the debt;

4.22.6. Include in each transmittal package a certifying statement that the referred debt amounts are correct and that the debts are delinquent, valid, and legally enforceable, and confirm that the DCO provided the debtor all due process requirements. DCOs referring debts electronically must also submit a debt certification statement. Exhibit 3-2 is a sample debt certification statement.

4.22.7. Maintain names, official addresses, and contact information for all witnesses to the events leading to the debt, and copies and location of physical evidence relating to the debt, for payroll debts involving fraud, misrepresentation, or credibility, and for all non-payroll debts. Retain all investigative reports. This information is necessary if the debt must be referred to the Department of Justice (DOJ) for litigation.

4.22.8. Mail any payments received from a debtor after the debt was referred to the DCMO to DFAS-IN, Department 3300 (ATTN: Case Management), 8899 East 56th Street, Indianapolis, IN 46249-3300. Include the debtor's name and social security number so the DCMO can credit the proper account.

4.23 The DCMO must:

4.23.1. Assist DCOs in the centralized management of debts, including automated, centralized processing, referral to private collection agencies or to Treasury, reporting, and accounting of debts.

4.23.2. Return uncollectible debts, debts requiring additional DCO collection action, and debts with incomplete documentation to the DCO with an explanation of the reason for the return.

4.23.3. Determine the effective date for entering the debts into DDMS, annotate the effective date on the duplicate copy of the transmittal letter, and return the duplicate copy of the transmittal letter to the DCO;

4.23.4. Pursue collection action once debts are entered in DDMS. Exhibit 3-3 illustrates a general overview of the individual, out-of-service, delinquent debt collection steps. The DCMO debt services provided to the DCO include the following: issuing written demands for payment to the debtor; collecting debts via lump sum or agreed-upon installment payments; referring delinquent debts to private collection agencies for collection; reporting debts to credit bureaus; referring uncollectible, delinquent debts to Treasury for offset (see Section 2); and referring uncollectible debts to the DOJ for litigation. The DCMO may also process debts for compromise, suspension of collection, or termination of collection. In the case of deceased debtors, the DCMO must use DD 2840, Request for Information Regarding Deceased Debtor, to seek information from state probate courts concerning the establishment of an estate in order to pursue collection;

4.23.5. Provide the data recorded in DDMS monthly to DFAS departmental accounting offices.

4.23.6. Retain all pertinent debt documentation. On request, provide feedback on the status of debt collection to the applicable DoW Component.

4.23.7. Provide PROs the data on collections from former civilian employees so the PRO can make necessary changes to applicable records (for example, SF 2812, Report of Withholdings and Contributions; SF 2806 or SF 3100, Individual Retirement Record; IRS Form W-2, Wage and Tax Statement; and IRS Form 941, Employer's Quarterly Federal Tax Return).

4.24 DFAS Departmental Accounting Offices. DFAS departmental accounting offices must use DDMS to establish and maintain accountability at the departmental level for all debts referred to the DCMO. These offices must report the transfer-out and transfer-in of these debts on Part I, Section A, Line 5.A, "Reclassified/Adjusted Amounts" on the Treasury Report on Receivables (TROR), with the required footnote. Components that have implemented the DDMG processes must maintain accountability in their systems and submit TROR data directly to Treasury. Volume 4, Section 3, contains more specific reporting requirements.

4.25 Collection Assistance

4.25.1. Uncollected debts over $225 on the Master Military Pay Account of Active and Reserve Component members that are due on separation or retirement, debts for offset from retired or annuitant pay, and some other out-of-service debts are systemically referred to the DCMO. Referred debts must be correct, valid, and legally enforceable, and the DCO must have provided all due process requirements unless an agreement provides that the DCMO will provide due process. Once entered in DDMS, these system-generated debts are serviced the same as debts referred by the DCOs under paragraph 5.5. Defense Retiree and Annuitant Pay System (DRAS) debts arise when payments are made after entitlement to retired pay has ended and are transferred to the DCMO monthly through a DRAS-DDMS interface.

4.25.2. Components that have implemented the DDMG processes must refer eligible, legally enforceable, delinquent, individual, out-of-service debt over $25 directly to Treasury for further collection where applicable. See Section 2 for guidance on referring delinquent debts to Treasury.

4.26 Refunding Previously Collected Debts and Late Payment Charges

4.27 Refunds of collected debts may be required when a debt is determined invalid or should have been forgiven under applicable law or regulation. Payments received from debtors for principal and IPA must be refunded when a debt is found not due to the Government, for example when waiver or remission is granted, when a post-collection clarification changes the debt amount, or as a result of an administrative or judicial order. If an offset mistakenly exceeds 15 percent of disposable pay and the debtor has not consented to deductions at a greater percentage, the DCO must refund the difference upon the debtor's request. Refer to the PGI for procedures associated with issuing a refund.

5.0 HEARINGS, INFORMAL DISPUTES, WAIVERS, AND REMISSIONS/CANCELLATIONS OF DEBT OWED BY INDIVIDUALS

5.1 Non-Waiver of Rights By Payment

A debtor's involuntary payment of all or any portion of a debt must not be construed as a waiver of any rights that the debtor may have under 5 U.S.C. § 5514 or any other provision of a contract or law unless there are statutory or contractual provisions to the contrary. 5 CFR 550.1104(o) provides additional information.

5.2 HEARINGS UNDER

5.2.1. Debtors Under This Section. For the purposes of section 3.0, a debtor is an individual, other than an active duty, reserve, or retired Service member (unless otherwise indicated), who owes a debt to DoW, subject to involuntary offset under 5 U.S.C. § 5514 and 31 U.S.C. § 3716.

5.2.2. Requirement for Hearings. Hearings conducted by a hearing official are required prior to salary offset under 5 U.S.C. § 5514. Prior to administrative offset under 31 U.S.C. § 3716, a review by an agency official is legally sufficient, unless a hearing before a hearing official is granted under subparagraph 3.3.3.2.1, pursuant to 31 CFR 901.3(e). Defense Finance and Accounting Service (DFAS), in its sole discretion, may perform hearings in other circumstances, as it deems necessary.

5.2.3. Active Duty, Reserve, and Retired Service Members. Due process review procedures for the debts of active duty, reserve, or retired Service members are set out at section PGI for Financial Liability Investigation of Property Loss (FLIPL) hearing procedures for FLIPL debts involving active duty Service members.

5.2.4. Due Process Requirement. Granting a debtor the opportunity for a hearing is a due process requirement of 5 U.S.C. § 5514 and 31 U.S.C. § 3716. Debtors must be afforded the opportunity to dispute a debt prior to the initiation of involuntary offset to collect indebtedness due

the U.S. Government, except in those instances listed in subparagraph 3.1.8. See 5 CFR 550.1104, 31 CFR 285.5, and 31 CFR 901.3. A debtor who repays a debt in part or in full, either before or after the filing of a timely hearing petition, does not waive their right to a hearing. Debtors may petition for a hearing to contest the validity or amount of the debt, or the involuntary repayment schedule. Generally, all issues requiring a hearing will be consolidated and decided in one hearing.

5.2.6. Hearing Petition. To request a hearing, the debtor must submit a timely hearing petition that meets the requirements of subparagraph 3.2.2. Timely filing of a hearing petition stays the start of collection procedures until the hearing results are rendered, unless collection is needed to protect the Government's interests.

5.2.7. Upon receipt of the hearing petition, the Debt Collection Office (DCO) must perform a reconsideration of the debtor's records to validate the debt. Reconsideration is an informal examination of internal debt records by the DCO to validate the debt without appointing a hearing official and is the first step in the hearing process; it is not the formal hearing (see subparagraph 3.2.3.2). The DCO must issue the written reconsideration results to the debtor. After receiving the results, the debtor must notify the DCO of intent to continue with a formal hearing within 30 days from the date of the reconsideration or by the date in the reconsideration letter. If the debtor proceeds, a hearing official must make a written determination on the validity or amount of the debt or the proposed involuntary repayment schedule.

5.2.8. Exception to Requirement for Formal Notice, Hearing, Reconsideration Results, and Final Decision. Pursuant to 5 CFR 550.1104(c), a debtor is not entitled to a formal notice, hearing, written response, or a final decision under certain circumstances. Refer to the PGI for additional information.

5.3 Hearing Petitions

5.3.1. The debtor must file a written petition to request a hearing to contest the validity or amount of the debt or the involuntary repayment schedule (see 5 CFR 550.1104(e) and 31 CFR 901.2(b)(1)). The debtor must file the petition per the instructions in the DCO's debt notification letter, no later than 30 calendar days from the mailing date of the debt notification or by the date stated in the notification.

5.3.2. A debtor contesting an involuntary repayment schedule must file a hearing petition no later than 30 calendar days from the mailing date of a notice rejecting an unacceptable voluntary repayment agreement, or by the date stated in the notice.

5.3.3. If the debtor first makes a written request for records related to the debt, the debtor must file a hearing petition within 45 days after the date the records are distributed to the debtor by mail, electronically, or in person.

5.3.4. Content of Hearing Petition. A hearing petition must identify and explain, with reasonable specificity, the facts and evidence the debtor believes support the debtor's position. There is no standardized format, but the petition must be in writing and contain the information listed in the PGI.

5.4 The Hearing Process

5.4.1. All hearings are conducted in accordance with 31 CFR 901.3(e) and 5 CFR 550.1104. Refer to the PGI for additional information on the hearing process.

5.5 Hearings for Administrative Wage Garnishment (AWG)

The U.S. Department of the Treasury (Treasury) may request that DCMO hearing officials conduct hearings requested by individuals who owe debts to DoW when the Treasury is attempting to collect from the debtor using AWG procedures pursuant to 31 U.S.C. § 3720D and 31 CFR 285.11. DFAS adopts by reference, and conducts AWG hearings consistent with, 31 CFR 285.11.

5.6 Hearings for Government Travel Charge Card Debts

Inquiries or disputes regarding the debt and the 90-day demand notice received by the travel charge card contractor before the debt is forwarded to DFAS for collection must be handled and resolved by the travel charge card contractor. A debtor who wants to negotiate an installment agreement before referral of the debt for salary offset must make that agreement with the travel charge card contractor. A debtor not satisfied with the contractor's disposition of the dispute may submit a petition for a debt hearing to the DCMO.

5.7 Reviews for Active Duty, Reserve, and Retired Service Members

5.7.1 Due Process Under 37 U.S.C. § 1007 and 5 U.S.C. § 5514. Active duty, reserve, and retired Service members are entitled to due process, consisting of a notice and an opportunity for review, prior to the initiation of debt collection unless otherwise required by statute. See Section 2 for due process requirements for routine pay adjustments and Section 3 for debts transferred from other agencies.

5.7.2 Requesting a Review. A Service member who questions the validity or amount of a debt may request review and validation of the debt by the DCO. A Service member may also contest the involuntary repayment schedule.

5.7.2.1. Time Limit For Requesting a Review. The review request must be received no later than 30 days from the mailing date of the debt notification, or by the date the notification indicates. A Service member who fails to submit a timely request waives the right to a review. The DCO may accept a late request if the Service member shows the delay was due to

circumstances beyond the Service member's control. Refer to the PGI for additional information on reviews of Service members' debts.

5.7.3 Written Review Results. Written review results should be provided within 60 calendar days and must contain the following:

5.7.4 Appeal of Final Determination. The DCO's determination on review is final. There are no provisions to review or appeal the DCO's decision on salary or administrative offset. However, Service members may exercise any other waiver, remission/cancellation, or review right provided by other statute or regulation. For example, DOHA considers appeals of claims for uniformed services pay and allowances. Refer to 32 CFR 282.5(b)(2) and 32 CFR 282, Appendix E for appeal-right information.

5.8 Informal Debt Disputes

5.8.1 At the debtor’s request, the DCO may perform an informal courtesy review of a debt. This informal review is typically not intended to satisfy due process requirements and is in addition to such procedures. The informal courtesy review of a debt by the DCO typically occurs when the debtor submits a written “debt protest” or “debt dispute” to the DCO after the time period for filing a hearing petition has expired. The purpose of the courtesy review is to allow the DCO to validate the debt and respond to the debtor’s questions. Section 5 contains guidance on contractor debt disputes.

5.8.2 Processing Informal Debt Disputes

5.8.3. A written request from the debtor is required before a debt may be placed in disputed or protest status. Refer to the PGI for procedures related to debts placed in dispute.

5.9 Waiver of Indebtedness

5.9.1 Title 5 U.S.C. § 5584, 10 U.S.C. § 2774, and 32 U.S.C. § 716 provide the head of an executive agency with the authority to waive an indebtedness that is the result of an erroneous payment of pay or allowances, or an erroneous payment of travel, transportation, or relocation expenses and allowances. Title 10 U.S.C. § 1453 provides authority to waive indebtedness that is the result of an erroneous payment of Survivor Benefit Plan (SBP) annuity.

5.9.2. The Under Secretary of Defense (Comptroller) delegated waiver authority to the DFAS Director by memorandum dated January 29, 1992, upheld in DoW Directive 5118.05, "Defense Finance and Accounting Service (DFAS)." The DFAS Director re-delegated this authority to the DFAS-Indianapolis (IN) Director. The authority is subject to the dollar-value limits in paragraph 8.2, and its exercise must be coordinated with the affected DoW Component where appropriate. The DCMO exercises waiver authority for DoW military and civilian employees,

except authority specifically delegated to the Director, DoWEA; the Director, NSA; and the heads of non-DoW Components.

5.9.3. Policies and Procedures. Policies and procedures for considering applications for waivers of indebtedness resulting from erroneous payments to or on behalf of Service members and civilian DoW employees are set forth in DoWD 1340.22, "Waiver of Debts Resulting from Erroneous Payments of Pay and Allowances," which is codified at 32 CFR 283. Detailed waiver procedures for debts resulting from erroneous pay and allowances are set forth in DoW Instruction (DoWI) 1340.23, "Waiver Procedures for Debts Resulting from Erroneous Pay and Allowances," which is codified at 32 CFR 284. Also refer to the PGI for procedures associated with submitting and reviewing debt waivers.

5.10 The DCMO's, or other designated waiver authority's, authority to grant or deny a waiver depends on the aggregate amount of the debt. The aggregate amount is the total debt before deductions for repayments or withholding for taxes.

5.10.1. Under 5 U.S.C. 5584, the DCMO or other designated waiver authority may grant a waiver of debt aggregating to not more than $1,500 for civilian employees. Under 10 U.S.C. 2774 and 32 U.S.C. 716, the DCMO or designated waiver authority may grant a waiver of debt aggregating to not more than $10,000 for military or National Guard members. There is no threshold limiting the DCMO or designated authority's ability to deny a waiver for civilian employees or military members.

5.10.2. If the aggregate debt is greater than $1,500 for civilian employees or greater than $10,000 for military or National Guard members, authority to grant the waiver resides with the Director, DOHA, or a designee under the DoW OGC. All requests should be submitted to the DCMO, which forwards relevant requests to DOHA for consideration.

5.11 Submission of Request for Waiver

5.11.1. DoWEA and NSA civilian employees must forward waiver applications to the DoWEA and NSA designated waiver approval authorities.

5.11.1.1. Civilian Employees. DoW civilian employees must submit a waiver application within 3 years from the date the erroneous payment was discovered. The date of discovery is the date an appropriate official first determines an erroneous payment was made. This timeframe cannot be extended or waived.

5.11.1.2. Military Members. Military members (active, reserve, retired, and National Guard) must submit a waiver application within 5 years from the date the erroneous payment was discovered. The date of discovery is the date an appropriate official first determines an erroneous payment was made. This timeframe cannot be extended or waived.

5.11.2. Contesting the Debt. By submitting a waiver application, an individual acknowledges that he or she does not intend to dispute the validity or amount of the debt. Waiver is not the proper forum to contest validity or amount; to contest validity or amount, an individual must petition for a hearing under section 3.0. A waiver application that includes arguments about validity or amount may be returned without action or denied.

5.11.3. Application Filed by a Representative. A waiver application submitted by the debtor's agent or attorney must include a duly executed power of attorney or other documentary evidence of the agent's or attorney's right to act for the debtor.

5.11.4. Application Filed by a Guardian for Minor/Incompetent Debtors. If a guardian or committee has been appointed for a debtor who is a minor or incompetent person, the waiver application filed on the debtor's behalf must include a court certificate showing the appointment and qualification of the guardian or committee. If no guardian or committee has been appointed, the application submitted on the debtor's behalf must:

5.11.4.1. State the applicant’s relationship to the minor or incompetent person;

5.11.4.2. Provide the name and address of the person having care and custody of the minor or incompetent person; and

5.11.4.3. Include an affirmation that any money received will be applied to the use and benefit of the minor or incompetent person and that the appointment of a guardian or committee is not contemplated.

5.12 Suspension of Debt Collection Pending Waiver Determination. Collection of a debt should not routinely be suspended pending a waiver determination (refer to 31 CFR 903.2(c)(2)). The DCO must determine, in each case, whether suspension of collection under 31 CFR 903.2, or a delay in collection action, is appropriate based on the following criteria:

5.12.1. Waiver will likely be granted,

5.12.2. Erroneous payment can be recovered if waiver is not granted, or

5.12.3. Collection of the debt would cause undue financial hardship.

5.13 Standards for Reviewing Requests for Waiver. Standards for determining the appropriateness of a waiver are in DoWI 1340.23. Appropriateness depends on the facts of each case. Generally, a person who receives an erroneous payment from the U.S. Government acquires no right to the money and is bound in equity and good conscience to make restitution; if the payment was made by mistake, however careless the Government's act, the recipient must make restitution. A waiver is not a matter of right and is available only as equitable relief when warranted by the individual case. Economic or financial considerations play no role in the determination.

5.13.1. Indication of Fraud, Misrepresentation, Fault, or Lack of Good Faith. A waiver may be granted only when collection would be against equity and good conscience and not in the best interests of the United States. There must be no indication the erroneous payment resulted, in whole or in part, from the applicant's fraud, misrepresentation, fault, or lack of good faith.

5.13.1.1. Generally, a waiver is precluded when the individual, or another person with an interest in obtaining a waiver, receives a significant, unexplained increase in pay or allowances, or otherwise knows or reasonably should know an erroneous payment occurred and fails to inquire or notify appropriate officials. A waiver may be inappropriate even if the recipient inquires or notifies appropriate officials and is mistakenly advised the payment is proper. A Government administrative error is not, by itself, a sufficient basis for granting a waiver.

5.13.1.2. An individual does not acquire title to amounts paid erroneously and should hold the excess for eventual repayment to the U.S. Government. DOHA has held that a waiver will not be granted if the debtor had records (such as LESs) that, if reviewed, would have indicated an overpayment, and the debtor failed to review them for accuracy or otherwise failed to take corrective action. Such failure renders the debtor partially at fault and ineligible for a waiver.

5.14 Action of the DCMO or Designated Waiver Authority

5.14.1. If the aggregate debt is not more than $1,500 for civilian employees or $10,000 for military or National Guard members, the DCMO may grant or deny part or all of a waiver application.

5.14.2. If the aggregate debt is more than $1,500 for civilian employees or $10,000 for military or National Guard members, the DCMO must do the following:

5.14.2.1. Deny the waiver application in its entirety; or

5.14.2.2. Refer the waiver application to DOHA for its consideration, along with a recommendation that part or all of the debt be waived.

5.15 Appeal of Waiver Denial. Per DoWI 1340.23, a debtor may appeal the denial of a waiver application. The appeal must be submitted to the DCMO, or the designated waiver authority that made the determination, within 30 calendar days of receipt of the written denial. The DCMO may extend this period up to an additional 30 calendar days for good cause; no appeal will be accepted after that time expires. The DCMO must review the appeal and forward it to DOHA, and the debtor must submit the appeal to the DCMO rather than directly to DOHA. DOHA will review the appeal and affirm, modify, or reverse the DCMO's initial determination.

5.16 Waiver of SBP Overpayments

5.16.1. Authority. Recovery of debts resulting from erroneous SBP payments may be waived under 10 U.S.C. 1453. The Under Secretary of Defense (Comptroller) delegated this waiver authority to the DFAS Director by memorandum dated February 1, 1991 (see DoWD 5118.05). The DFAS DCMO exercises this authority on behalf of the Director. Refer to the PGI for information on submitting and reviewing requests for waiver due to SBP overpayment.

5.16.2. Debts Not Eligible for Waiver. Debts resulting from unpaid SBP premium payments are not eligible for waiver under this provision.

5.16.2.1. Time Limit for Filing Application. Debtors must submit a waiver application within 3 years from the date the erroneous payment was discovered. The date of discovery is the date an appropriate official first determined an erroneous payment was made, typically the date the debt notification was issued. This timeframe cannot be extended or waived.

5.16.2.2. Contesting the Debt. By applying for waiver of a debt, an individual acknowledges no intent to dispute the debt's validity or amount. A waiver is not the forum to contest validity or amount; to contest validity or amount, an individual must petition for a hearing under section 3.0. A waiver application that argues validity or amount may be denied as ineligible for consideration.

5.16.2.3. Application Filed by Representative. If an annuitant has a representative payee authorized to receive payments under Volume 7B, Chapter 46, paragraph 2.2, the representative may submit a waiver application if the representative also holds legal authority to act for the annuitant. The representative must submit additional documentation the DCMO requires, such as a power of attorney or other evidence of the right to act for the debtor.

5.16.3. Suspension of Collection Pending Waiver Determination. Collection of a debt should not routinely be suspended pending a waiver determination (see 31 CFR 903.2(c)(2)). The DCO will determine case-by-case whether a formal suspension of collection under 31 CFR 903.2 is necessary or whether an informal delay in collection action is appropriate, based on the following criteria:

5.16.3.1. Whether the waiver will likely be granted,

5.16.3.2. Whether the erroneous payment can be recovered if waiver is not granted, or

5.16.3.3. Whether collection of the debt would cause undue financial hardship.

5.16.4. Standards for Reviewing Requests for Waiver. Waiver of the recovery of an SBP annuity overpayment may be appropriate when the debtor is not at fault, and recovery of the overpayment would be contrary to the purposes of SBP, or against equity and good conscience. The appropriateness of granting a waiver will depend on the facts of each particular case. Pursuant to Comptroller General (Comp. Gen.), B-133142 (1978), B-178696 (1978), the standards for reviewing a request for waiver of SBP annuity overpayment are the same as those used for considering waiver requests under 10 U.S.C. § 2774 and 5 U.S.C. § 5584. DFAS DCMO uses the standards set out in DoWI 1340.23 for considering waiver applications for debts resulting from SBP annuity overpayments. Refer to paragraph 8.5 for a discussion of the standards used in waiver application determinations.

5.16.5. Refund of Amounts Collected. Any amount collected before DFAS-IN receives the debtor's waiver application will not be refunded. A refund is not authorized by law. If a waiver is granted, amounts collected after DFAS-IN received the completed waiver application from the annuitant may be refunded to the annuitant. Refer to Comp. Gen. B-184532 (1975) for information on when refund is appropriate.

5.16.5.1. Who May Appeal. A waiver applicant may appeal the DCMO's denial of all or part of a request to waive SBP annuity overpayments under 10 U.S.C. 1453. An applicant may also appeal the denial of a waiver application not received by DFAS within the required time limit.

5.16.5.2. Determining Official. The determining official on all appeals is a DFAS official assigned to review the DCMO's initial waiver determination. Under subparagraph 8.2.1 and 10 U.S.C. 1453, DFAS has delegated full authority to consider all waivers, including appeals and requests for reconsideration. Refer to the PGI for information on submission and adjudication of appeals.

5.16.5.2.1. Time Limit for Requesting Reconsideration. An applicant may ask the determining official to reconsider the final written determination of the appeal. A request for reconsideration must be received within 30 days from the date of that determination. This period may be extended up to an additional 30 days for good cause. The determining official must review any rebuttal submitted in support of the request and issue a written determination. Refer to the PGI for information on the review of requests for reconsideration.

5.16.5.2.2. The reconsideration response is a final action.

5.17 Other Waiver Authority. Other waiver authority may apply to payments that were not erroneously paid. The agency component generally exercises this authority. A debt from a non-erroneous payment may be eligible for waiver under the following statutory authorities:

5.17.1. Voluntary Separation Incentive Payment and Reemployment (5 U.S.C. § 3524(c)),

5.17.2. Employee Agreements, Service after Training (5 U.S.C. § 4108(c)),

5.17.3. Student Loan Repayments (5 U.S.C. § 5379(c)(3)),

5.17.4. Recruitment and Relocation Bonuses (5 U.S.C. § 5753(e)),

5.17.5. Quarters Allowances (5 U.S.C. § 5922(b)),

5.17.6. Physicians Comparability Allowances (5 U.S.C. § 5948(e)), or

5.17.7. Payments to Dependents of Missing Civilians (5 U.S.C. § 5566(g)).

5.18 Remission or Cancellation of Indebtedness

5.18.1 Remission or Cancellation of Indebtedness Due From Military Members. Title 10 U.S.C. 7837, 10 U.S.C. 8271, and 10 U.S.C. 9837 authorize remission or cancellation of indebtedness due from a military member. Remission or cancellation is limited to debts from overpayments of active duty pay and is not available for debts from overpayments of military retired pay. This authority may be exercised for any debt incurred on or after October 7, 2001. Title 32 U.S.C. 710(c) provides remission or cancellation for National Guard members. Remission or cancellation under these statutes is not available to DoW civilian employees.

5.18.2 Submission of Request for Remission or Cancellation. Requests for remission or cancellation from members of the Army, Air Force, Navy, Marine Corps, National Guard, or Space Force must be submitted on forms the respective Services designate and forwarded to the Service for processing. DFAS does not process remission or cancellation requests for any Service.

5.19 Indebtedness Which May Be Remitted or Cancelled

5.19.1. Debts to the United States. Generally, any indebtedness may be considered for remission or cancellation. Denial of a waiver under 10 U.S.C. 2774 does not preclude a member from applying for remission or cancellation of the debt. Debts arising from an erroneous payment of basic pay due to non-collection of court-martial forfeitures may not be remitted or cancelled.

5.19.2. Debts Within Jurisdiction of Military Service Concerned. The debt must be a debt over which the Military Department concerned has jurisdiction. For example, the Secretary of one

Military Department may not remit a member's indebtedness for liability for damage to property of another Military Department.

5.20 Additional Options for Debt Relief

5.20.1 Claim for Refund. A military member may file a written claim on a DD Form 827, Application for Arrears in Pay, for any amounts considered erroneously collected from the member's pay account. The member must submit the form to the member's pay office or, if separated for more than a year, to DFAS-IN/JFEC, Department 3300 (ATTN: Claims), 8899 East 56th Street, Indianapolis, IN 46249-3300, or submit a ticket. If the claim is denied in whole or in part, the member may appeal to DOHA under 32 CFR 282, Appendix E.

5.20.2 Correction of Military Records. The Secretary of a Military Department, under procedures that Secretary establishes and the Secretary of Defense approves, and acting through boards of civilians of the executive part of that Military Department, may correct any military record of that department when the Secretary concerned considers it necessary to correct an error or remove an injustice. If an individual is owed money from a record correction, any earnings from civilian employment, self-employment, or an income-protection plan for that employment during the period active duty pay and allowances are payable must be deducted from the settlement. To the extent authorized by law and regulation, a settlement must be reduced by the amount of any existing indebtedness the individual owes the Government arising from military service. See Volume 7B, Chapter 10 for additional guidance on correction of records.

6.0 COLLECTION OF DEBTS OWED BY CONTRACTORS

The term Debt Collection Office (DCO), as used in this section, refers to vendor pay offices, contracting offices, and any other office that processes contractor debts. The DCO does not refer to the Defense Finance and Accounting Service (DFAS) Debt Management Office (DMO).

6.1 Collection Actions

6.1.1 Contract Debts. Contract debts result from amounts that have been paid to the contractor, to which the contractor is not entitled under the terms and conditions of the contract, or amounts otherwise due from the contractor. For a list of what is considered a contract debt, refer to the PGI.

6.1.1.1 Once a contractor might be indebted to the DoW, the contracting officer or the payment office must issue a demand for payment to the contractor, provide an opportunity to inspect relevant records, and provide an opportunity to request a review of the debt as set forth in Section 2.

6.1.2. Demand Letters. Demand letters must comply with the requirements in Section 2. The notice of indebtedness to a contractor must state that, per OMB Circular A-123, Appendix C, Part III, high-dollar overpayments may be reported on the Federal Government's improper payment website. Refer to Volume 4, Section 14 for the definition of a high-dollar overpayment.

6.1.2.1. The contracting officer has primary responsibility for determining the debt amount and ensuring collection for most types of contract debts, except debts resulting from payment-office errors. Refer to the PGI for a list of required suppoting documentation, and dollar referral thresholds, for debts referred to the DCO or DMO.

6.1.2.2. When a contracting officer or other authorized official requests that a payment office collect a debt and provides a copy of the contract, including the payment dates and amounts due from the contractor, the payment office must collect the debt.

6.1.2.3. If the contracting officer or other designated official receives the contractor's payment, that official must immediately forward the payment to the disbursing office with a request for confirmation of receipt.

6.1.2.4. The appropriate DoW Component contracting officer, or other designated official, must determine the debt amount and demand repayment for debts pursuant to FAR 32.6 and DFARS 232.6.

6.1.2.5. The contracting officer must send a copy of each demand for payment, and documentation identifying the line of accounting for distribution of the principal amount of the debt, to the payment office cited in the contract so the Accounts Receivable Office (ARO) applies the funds correctly.

6.1.2.6. The contracting officer must periodically follow up with the DCO, ARO, or supporting accounting office to ensure contract debts are collected and credited to the proper appropriations.

6.1.2.1. Payment offices are designated to make payments under a contract and to receive payments for amounts due to DoW. Payment offices must determine the amount of contract debts resulting from overpayments or erroneous payments and initiate collection action on those debts.

6.1.2.2. The payment office must also collect contractor debts when the amounts due and payment dates are in the contract and a copy of the contract has been furnished to the payment office with notice to collect as amounts become due.

6.1.2.3. When a contract modification (downward adjustment) issued after the date of a disbursement causes a contract to be in overpayment status, the result of that modification is not an erroneous payment for purposes of this Section. The payment office must contact the

procuring or administrative contracting officer who issued the modification to ensure a demand letter is sent to the contractor for collection of funds.

6.2 Administrative Offset

6.2.1 To the extent practicable, debts must be collected by voluntary lump-sum repayment or by administrative offset of payments the DoW owes the contractor, unless an installment agreement is in place or a deferment of collection has been approved (FAR 32.607). If 30 days have elapsed since the due date in the demand for payment and no payment has been received, the DCO must offset the contractor's indebtedness against other monies owed to the contractor.

6.2.2. FAR 32.606 allows offsetting contractor payments to liquidate debts owed by the contractor. If additional payments are scheduled under the same contract, the DCO must administratively offset against those payments first. The DCO must coordinate with the payment office to apply administrative offsets against amounts due the contractor under other contracts if offset against the contract that gave rise to the debt cannot be accomplished. The disbursement voucher must be approved and the accounting classification charged for the total entitlement amount without regard to the deduction. The DCO must prominently annotate the face of the voucher, or the electronic equivalent, with the amount withheld and the accounting classification credited so that only the net amount is paid to the contractor, and the voucher must adequately inform the payee of the reason for the deduction.

6.2.3. Administrative offsets normally will not be taken when there is a valid assignment of claims, under the Assignment of Claims Act of 1940 (31 U.S.C. § 3727 and 41 U.S.C. § 6305), associated with the contractor. DCO personnel should seek guidance from their legal office, as appropriate, in determining whether an administrative offset may be taken when an assignment of claims exists.

6.2.4. Pursuant to 31 U.S.C. § 3716, and in accordance with 31 CFR 901.3(b)(2), a DCO must process an administrative offset to collect a debt when the name and TIN of a payee matches the name and TIN of a debtor, and all other requirements for administrative offset have been met.

6.3 Credit Invoice

6.3.1. A contractor may request to liquidate a debt against existing unpaid bills due to the contractor. As an exception, DCOs may accept a credit invoice only under special circumstances, and only when a current payable invoice exists to which the credit can be applied. On request, the contractor should furnish the DCO an invoice number, date, and the amount of the debt to be offset against the invoice, per the credit invoice.

6.3.3. If a contractor does not state that the credit-invoice amount can be deducted from other amounts due, the DCO must determine the most effective manner to collect the debt. In

making this determination, DCOs must weigh both the relative costs DoW would incur under various options and the method expected to liquidate the debt at the earliest date. That latter factor depends on the expected volume and frequency of incoming invoices susceptible to administrative offset, and whether that option is more effective and efficient than a credit invoice.

6.3.4. DCOs must acknowledge receipt of the credit invoice and inform the contractor of its disposition. If direct remittance is required, the acknowledgment must state that DoW cannot accept the document as liquidation of the indebtedness and must ask the contractor to remit a check to the applicable address. The contractor may instead identify an invoice to offset. Receipt of a credit invoice by the due date stated in the demand letter does not preclude charging interest and administrative charges.

6.4 Installment Payment Plans

6.4.1 General. Whenever possible, payment to liquidate a debt, including a deferred payment, must be made in one lump sum. When a contractor establishes sufficient justification, the DCO may approve a series of installment payments to liquidate the debt within a reasonable period. Per 31 CFR 901.8, installment payments should be sufficient in size and frequency to liquidate the debt within 3 years. If the contractor requests a repayment term of more than 3 years, the DCO must refer the request to the DMO for a determination.

6.4.2 Installment Payment Approval Authority. The DMO is the approval authority for a contractor's installment-agreement request. The DMO may not deny a request without first obtaining consent from the creditor DoW Component's senior financial manager (FM) or designee. In that case, the DMO must send the request to the creditor Component's senior FM or designee within 3 working days after receiving the request.

6.4.3 Installment Payment Notification. The DMO must make installment agreements available to the office that referred the debt and to the creditor DoW Component's senior FM or designee.

6.5 Referral of Delinquent Debts to DMO

6.5.2 Delinquent Debts

6.5.2.1. DCOs must refer valid and legally enforceable debts that are equal to or greater than the thresholds in paragraph 5.1, individually or in aggregate, to the DMO no later than 90 days after the date on the debt notification. The DCO must validate debts before referral to the DMO. The DMO must annotate acceptance of the debt in the appropriate system, making the information available to the DCO and the supporting accounting office that maintains the official accounting records. Administrative charges may be assessed for the expenses of referring the debt.

Delinquent debts incurred under FAR 51.102 may be referred back to the authorizing agency if not satisfied by the contractor. Refer to the PGI for a list of required supporting documentation.

6.5.2.2. When referring a debt to the DMO, DCOs must submit the documentation listed in the PGI.

6.5.2.3. After referral, the DMO has full responsibility for collecting the delinquent debt. Accounting and reporting do not transfer to the DMO; they remain with the servicing accounting office, which uses status information the DMO provides. The DMO maintains only a memorandum accounts receivable record. Any office other than the DMO that receives a payment after referral must notify the DMO of the receipt and disposition within 3 business days. The ARO must notify the FM representative of the cognizant DoW Component when the debt should be closed. For dual-negotiated checks, the DMO must also notify the accountable payment office.

6.6 Referral of Debts to Treasury

6.6.1. The DMO must refer valid and legally enforceable debts delinquent more than 120 days to Treasury for debt collection and cross-servicing. While a debt is at Treasury, the DMO retains overall responsibility for tracking and monitoring it and must recall any uncollected debt with enough time to refer it to the Department of Justice for potential litigation or to write it off and close it out.

6.6.2. Components that have implemented the DDMG should refer delinquent debt over $25 directly to Fiscal Service, Debt Management Services for further collection action where applicable.

6.7 DISPUTES AND DEFERMENTS UNDER THE CDA

6.7.1 Under the Contract Disputes Act of 1978 (41 U.S.C., Chapter 71), a contractor may appeal a decision of indebtedness to the Armed Services Board of Contract Appeals (ASBCA) or through the U.S. courts. Actions filed under the Disputes Clause do not suspend or delay collection unless the contractor has been granted a deferment under paragraph 6.3 or has entered an installment payment plan under section 4.0. Interest, penalties, and fees continue to accrue on uncollected debts that have been formally disputed.

6.7.2 Crediting Collections in Dispute

6.7.2.1. When an amount, including interest and administrative fees, is collected from a contractor and the contractor formally disputes the debt, DoW must not account for the collected amount as settlement of the debt. The disputed amounts must remain available pending disposition of the dispute, and interest, penalties, and fees no longer accrue because the debt has been collected. The collection must be documented as a disputed contract collection; for example, debts collected by DFAS are coded as disputed in the Contract Debt System.

6.7.2.2. The payment office typically handles collection of a debt. If another office, including the ARO, supporting accounting offices, the DMO, contracting officers, contract administration officers, or legal offices, receives a payment against an existing debt, that office must forward the payment to the relevant DCO immediately.

6.7.2.3. The DCO and the responsible payment office must notify the contracting officer, the contract administration officer if applicable, the Service or agency contract finance officer, or another authority of any matters affecting the disputed collections. Those officers or offices must also inform the responsible payment office and the DCO of any actions taken that affect the disputed collection.

6.8 Deferments

6.8.1. Under the CDA of 1978, a contractor may appeal a decision of indebtedness to the ASBCA or through the U.S. court system. In accordance with FAR 32.607, the contractor may request, in writing, deferment of debt repayment until the appeal is decided.

6.8.2. In accordance with FAR 32.607, the contractor must submit the request for deferment to the contracting office.

6.8.3. The contracting office must promptly forward the deferment request to the appropriate DoW Component's senior FM or designee. The senior FM or designee must approve or deny the request and notify the contracting office and the DMO of the decision.

6.8.4. Collection of the debt must continue until the date the deferment is granted.

6.9 Write-Off and Close-Out of Accounts Receivable

6.9.1. Tax Reporting. The DFAS Tax Office will obtain information on all closed-out, uncollected public contractor debt. Per 26 U.S.C. 6050P, the Tax Office must issue debtors an Internal Revenue Service Form 1099-C, Cancellation of Debt, if the closed, uncollected debt is $600 or more for the calendar year.

6.10 BANKRUPTCY

6.10.1. Within DoW, the DFAS Office of General Counsel (OGC) will file contractor bankruptcy proofs of claim. DFAS-OGC is not responsible for litigating contractor bankruptcies; the litigation function remains with the DoW Component and is accomplished by the Department of Justice through the responsible U.S. Attorney. Per FAR subpart 42.9, the actions detailed in paragraphs 8.1 through 8.6 will be taken when the procuring contracting office or contract administration office receives notice of bankruptcy from the contractor or another source. Refer to the PGI for additional guidance on bankruptcy, to include notification requirements.

7.0 DEBT OWED TO THE DOW BY FOREIGN ENTITIES

7.1 DoW policy is to conduct timely, aggressive debt collection action, with follow-up as necessary, to ensure debt owed to the DoW by a foreign entity is collected and held to the absolute minimum. All collection activities related to foreign-entity indebtedness, including all Acquisition and Cross-Servicing Agreement (ACSA) debt, must comply with the applicable agreement or treaty with the foreign entity.

7.2 For purposes of this section, a foreign entity does not include foreign individuals or foreign vendors and will only refer to the following definitions:

7.2.1. Any government of a foreign country, and any subdivision, agency, or instrumentality thereof, including all foreign "official" institutions, even those located in the U.S.;

7.2.2. Any private relief, philanthropic, or other organization of a multinational or regional character with headquarters abroad; and

7.2.3. Any official multinational organization, defined as any international or regional organization (or affiliated agency thereof), created by treaty or convention between sovereign states.

7.3 Foreign-entity indebtedness means financial obligations owed to the U.S. Government by a foreign entity, as defined for purposes of this section. Foreign-entity indebtedness includes Foreign Military Sales (FMS) arrearages, accounts receivable for goods and/or services provided (where specified, includes goods and/or services provided through the ACSA program), and erroneous payments made to foreign entities. Foreign-entity indebtedness does not include principal payments or interest on short-term and long-term loans and credits.

7.4 This section establishes policy for DoW Components to identify, bill, collect, and manage foreign-entity indebtedness, including FMS and non-FMS. It does not establish policy for non-FMS fuel debts, foreign fuel exchange agreement debts, foreign direct bills, or FMS fuel debts. Unpaid debts related to fuel agreements, including Replacement-in-Kind/Equal Value Exchange settlements, foreign direct bills, and FMS, must be billed and elevated through the Defense Logistics Agency - Finance Energy (subparagraph 3.1.3.2 and paragraph 3.2 do not apply).

7.5 Billing AND FOLLOW-UP ACTIONS

7.5.1 Non-FMS, Foreign-Entity Debt

7.5.2. Due Date. All non-FMS foreign-entity debt is due 30 days from the date of the bill/demand letter, unless otherwise stated in the bill, contract, or agreement between the DoW

Component and the foreign entity. The bill/demand letter must include a 60-day grace period. The debt becomes delinquent 91 days from the date of the bill/demand letter.

7.5.2.1. The ARO must prepare and send initial billings and notifications for goods and services for all non-FMS foreign-entity debt. The ARO must include the information listed in subparagraph 7.5.2.2 in the initial debt notification accompanying the bill.

7.5.2.2. The ARO must prepare and send the initial demand for non-FMS foreign-entity debts (see Exhibit 6-1 for a sample demand letter). The demand letter must include, at a minimum, the following information:

7.5.2.2.1. The basis for and amount of the indebtedness;

7.5.2.2.2. The date by which payment must be made in full;

7.5.2.2.3. The address where payment should be sent or information regarding submission of electronic payment;

7.5.2.2.4. The name, address, and telephone number of a point of contact in the ARO who can discuss alternative methods of payment; and

7.5.2.2.5. Any available documentation that substantiates the debt.

7.6 FMS Accounts Receivable

7.6.1. For sales from stock, AECA Section 21(b) (22 U.S.C. 2761) requires DoW to collect payments from foreign purchasers in advance or, if the President determines it to be in the national interest, upon delivery of a defense article or rendering of a defense service. After such a Presidential determination to bill upon delivery, interest must be charged under AECA Section 21(d) (22 U.S.C. 2761(d)) on any net amount due and payable that is not paid within 60 days after the date of billing.

7.6.2. The President delegated authority to determine if billing upon delivery is in the national interest in Executive Order 13637, and the Secretary of Defense further delegated the authority to the Director, DSCA, in DoW Directive 5105.65. The President may extend the period to 120 days upon determining that emergency requirements of the purchaser will exceed the ready availability of purchaser funds within the 60 days, submitting a determination with a special emergency request for authorization and appropriation of additional funds to finance such purchases under the AECA.

7.6.3. For sales from procurements (items sent directly from the source, not from DoW inventories), when the country is authorized a dependable undertaking, AECA Section 22(a) (22 U.S.C. 2762(a)) requires DoW to collect payments from foreign purchasers in time to meet

contractual payments, including any damages and costs that may accrue from cancellation of such contracts. AECA Section 22(a) requires interest to be charged on any net amount by which a foreign purchaser is in arrears, considering all of its outstanding unliquidated dependable undertakings.

7.6.4. Due Date. Refer to Volume 15, Section 8 for policy regarding FMS billing due dates.

7.6.5. Initial Billing. DFAS SCA is responsible for issuing FMS billing documents. Billings for financial requirements must be initiated using the DD 645 or the special billing statement approved by DSCA. These billings must, at a minimum, identify the financial requirements, amount paid, and amount due. Specific policy on FMS billings is in Volume 15, Section 8.

7.6.5.1. When the amount due per the DoW billing statement is not paid by the due date, that amount is considered delinquent, but that does not necessarily constitute an arrearage.

7.6.5.2. For FMS cases authorized to include a term of sale of "Payment on Delivery," and for FMS purchasers authorized “dependable undertaking” terms of sale, an arrearage occurs when the FMS purchaser’s total cash resources on deposit with the U.S. Government are insufficient to cover all its outstanding, billed amounts, unliquidated dependable undertakings, considered collectively. Reference Volume 15, Section 4, subparagraph 3.1.2 for information on dependable undertaking.

7.6.5.3. FMS purchasers are required to pay in advance of performance unless the President determines it to be in the national interest to collect upon delivery of the defense article or the rendering of the defense service. Refer to 22 U.S.C. § 2761. Therefore, in the FMS program, an arrearage is an unusual event.

7.7 INTEREST, ADMINISTRATIVE CHARGES, AND PENALTIES FOR FMS ARREARAGES

7.7.1 Interest must be charged on FMS arrearages under 22 U.S.C. 2761(d) and 22 U.S.C. 2762(a). The final determination on assessing interest on FMS arrearages resides with DSCA. The interest rate is the rate set by the Secretary of the Treasury under the AECA (not less than a rate based on the current average market yield on outstanding short-term U.S. obligations as of the last day of the month preceding the net arrearage), computed from the date of net arrearage; the applicable rate is published by Treasury (see the FMM). For disposition of interest collected, refer to Volume 4, Section 3. Non-FMS foreign debts owed by any sovereign state are exempt from interest, administrative charges, and penalties. Refer to the PGI for additional information on assessing interest.

7.8 REFERRAL OF FMS INDEBTEDNESS

7.8.1 Authority to Refer FMS Indebtedness. DSCA must determine if an FMS arrearage will be forwarded to DOJ for litigation.

7.9 Preservation of Evidence. The ARO, DFAS PM, DoW Component, and DSCA must retain all files and records that may be needed by DOJ to prove the case in court. Refer to Volume 1, Section 9 for additional information on record retention.

7.10 COMPROMISE, SUSPENSION, OR TERMINATION OF COLLECTION ACTIONS FOR FMS ARREARAGES DFAS SCA,

In cooperation with the DoW Component, must coordinate proposals to compromise, suspend, or terminate collection actions on FMS arrearages with DSCA. Refer to Section 2 for policy on compromise, suspension, or termination of collection actions.

7.11 WRITE OFF AND CLOSE OUT OF FMS ARREARAGES DSCA

DSCA is responsible for initiating and coordinating all actions necessary to write off and close out FMS arrearages. Refer to Volume 4, Section 3, paragraph 4.7 for write-off and closeout requirements.

7.12 REPORTING FOREIGN INDEBTEDNESS

7.12.1. Foreign indebtedness must be uniformly and accurately reported through appropriate reporting channels to Treasury and Commerce.

7.12.2. Required Reports

7.12.2.1. Grants, Loans, Credits, and Contingent Liabilities Involving Foreigners. The TFM, Volume I, Part 2, Chapter 4500 requires electronic submission of several reports on foreign obligors to Treasury by the 45th day following the end of the reporting quarter, if applicable. DFAS Security Assistance Accounting (SAA) Departmental prepares and submits these reports, extracting the data from the DSCA FMS Credit System. The TFM, Volume I, Part 2, Chapter 4500 provides detailed guidance, report formats, and submission instructions.

7.12.2.2. Data Editing. DFAS SAA Departmental must complete the quarterly data editing and approval process using Treasury's Foreign Credit Reporting System (FCRS) within 2 weeks after receiving notification that the reporting period data is available for editing. The FCRS Web Site Overview and Data Editing Guide for Agency Users contains instructions for the quarterly data editing and approval process. A list of the required reports may be found in the PGI.

7.12.3. Preliminary Case Analysis Report of FMS Arrearages. The National Advisory Council (NAC) monitors major foreign arrearages. A major foreign arrearage is any country-program arrearage involving the sum of $250,000 or more. Periodically, DSCA will request a Preliminary Case Analysis Report (PCAR) from DFAS to satisfy NAC requirements. DFAS submits the PCAR directly to DSCA by email. The report must reflect any foreign arrearages so a determination can be made on whether interest should be charged.

7.12.4. Collecting and Reporting Foreign Debts Under Long-Term Loans and Debts. DSCA is responsible for administering FMS long-term loans and credit programs authorized by 22 U.S.C. 2763 and for determining foreign arrearages against these programs.

8.0 INTEREST, PENALTIES, AND ADMINISTRATIVE (IPA) CHARGES

8.1 INTERNAL CONTROLS

All organizations that collect and manage IPA charges must follow the internal-control standards in DoW Instruction 5010.40, "Managers' Internal Control Program Procedures," to ensure IPA charges owed to the DoW are managed and collected per this section and other applicable regulatory and statutory requirements.

8.2 APPLICATION OF CHARGES

Title 31, CFR, section 901.9 contains guidance on assessing IPA charges. Unless prohibited by law, IPA charges will be applied accordingly. Refer to Volume 4, Section 3 for requirements on the disposition of IPA charges.

8.3 All debts owed to the Government and not paid in full by the due date specified in the debt notification letter will accrue IPA charges back to the original date of the debt notification, and in accordance with 31 U.S.C. § 3717. These charges will continue to accrue until the debt is paid in full or otherwise resolved through suspension, compromise, termination, or the IPA charges are waived. Debts owed by any federal agency, or nonappropriated fund instrumentality, are exempt from IPA charges.

8.4 Interest Charges

Per to 31 U.S.C. 3717, interest rates must be established for each loan receivable and overdue debt from the public. The factors that affect the variability of interest rates (e.g., legislation, type of contract, an occurrence of an event, passage of time, debtor's income level, or federal funds rate) must be identified. In the absence of specific authority embodied in statute, regulation required by statute, contract, or other public notice, the interest rate, at a minimum, will be the same rate as the Current Value of Funds Rate (CVFR) established by the Secretary of the Treasury. Interest may not be compounded or assessed on administrative costs or penalties.

8.5 Penalty Charges

DoW Components must accrue and assess a penalty charge, not to exceed 6 percent per annum, on any portion of a debt delinquent more than 90 days from the date of the debt notification, including interest and administrative charges. A debt becomes delinquent if not paid by the established due date; therefore, penalty charges must be applied to those accounts reported in the aging category 91-180 days delinquent and beyond. This does not include current payments made under an agreed-upon installment plan or through salary offset. Components may determine what percentage, up to the maximum 6 percent, to apply to delinquent accounts. A Component must document its rationale for charging a lesser amount and make it part of the official debt file.

8.6 Administrative Charges

Components must calculate administrative charges based on the actual costs incurred to process and handle delinquent debt. If actual cost is not available, a Component may base the administrative charge on other historical costs or cost analyses, as long as the method used supports the charge and is documented in the official debt file. An administrative charge will be applied to all delinquent debts with due regard given to the length of time the debts are delinquent.

8.7 WAIVER OF ACCRUAL OF IPA CHARGES

8.7.1 Under 31 U.S.C. 3717(h), the DCO may waive IPA charges in whole or in part, either using the compromise standards in 31 C.F.R. 902.2 or when collecting IPA charges is against equity and good conscience (such as when charging IPA would cause the debtor undue financial hardship) or is not in the best interest of the United States (see also 31 CFR 901.9(g)). A DCO may waive IPA on its own or at a debtor's request, and may waive IPA only in part. For example, circumstances may justify waiving penalties, which penalize untimely payment, but not interest and administrative costs, which compensate the Government. A DCO must make a decision on whether or not to waive IPA charges in accordance with the guidelines in paragraph 4.2.

8.8 Guidelines

8.8.1. IPA charges may be waived only after the DCO determines that a waiver is appropriate, including at the time the debt is terminated or compromised.

8.8.2. DoW Components must decide whether to waive the accrual and assessment of IPA charges on a case-by-case basis. Blanket waivers that waive IPA on an entire class of debts are not appropriate. Decisions on IPA waivers must be documented, include an explanation as to the reasons for the waiver, and retained as a part of the official debt file.

8.8.3. The same organizational level, or the same designee, authorized to approve compromises, write off indebtedness, or approve requests for waiver or remission of indebtedness,

depending on the disposition of the basic debt, is authorized to approve waiver of the accrual of IPA charges.

8.8.4. Accrued IPA charges will be collected, reported, compromised, or written off in the same manner as the basic debt.

8.9 Write-Ooff of Accrued IPA Charges

When a debt is written off, the accrued IPA charges must also be written off. Write-off must be done in accordance with Office of Management and Budget Circular A-129. Volume 4, Section 3 contains additional requirements on debt write-off.
