

HEALTH AFFAIRS

THE ASSISTANT SECRETARY OF DEFENSE

1200 DEFENSE PENTAGON
WASHINGTON, DC 20301-1200

MEMORANDUM FOR UNDER SECRETARY OF DEFENSE, COMPTROLLER

SUBJECT: Revised Calendar Year 2023 Direct Care Inpatient Adjusted Standardized Amounts and Room and Board Billing Rates and Guidance

Reference: ASD(HA) memo, "Calendar Year 2023 Direct Care Inpatient Adjusted Standardized Amounts and Room and Board Billing Rates and Guidance," dated January 13, 2023 (**superseded**)

This guidance supersedes our previously issued memo (see reference). The attached "**Revised** Department of Defense Uniform Business Office Calendar Year 2023 Direct Care Inpatient Adjusted Standardized Amounts and Room and Board Billing Rates and Guidance" reflects revisions to Room and Board rates as summarized below and detailed in section 3.0 and Appendix C of the attachment.

- Occupied Bed Day rates – Updated using Fiscal Year 2022 Medical Expense and Performance Reporting System cost-based data.
- Inpatient cost categories – Exclude intensive care, pharmacy/vaccine, medical supplies, surgical services, and labor categories. These costs are either captured through professional fee charges or billed as separately on an itemized basis.
- Military medical treatment facilities (MTFs) are assigned a weighted value by geographic region.

Please replace the previously posted package on the Comptroller's Reimbursement Rates web site with the attached. Questions may be directed to Ms. DeLisa Prater, DHA UBO Program Manager, (703) 275-6380, or e-mail: delisa.e.prater.civ@health.mil.

Attachment:
As stated

REVISED
Department of Defense Uniform Business Office
Calendar Year 2023 Direct Care Inpatient Adjusted Standardized Amounts and Room and
Board Billing Rates and Guidance

This REVISION supersedes the previous guidance (dated 13 January 2023). Revisions are made to Section 3.0 below, and Appendix C.

1.0 Calendar Year 2023 Direct Care Inpatient Adjusted Standardized Amount and Room and Board Rates and Charges effective 1 January 2023.

Overview

The Calendar Year (CY) 2023 Direct Care Inpatient Adjusted Standardized Amounts (ASA) rates are computed based on the Military Health System (MHS) direct care standardized cost to provide a single Medicare Severity Relative Weighted Product (MS-RWP). The MS-RWP is a Medicare Severity Diagnosis Related Group (MS-DRG) based measure of the relative cost of a given discharge. The average standardized cost per MS-RWP for hospitals in locations with area wage rates greater than, less than or equal to 1.0, and overseas are published annually as inpatient ASAs shown in Table 1. This approach maintains compatibility with both Medicare and TRICARE ASA policies.

- As of January 1, 2022, release of the Defense Health Agency (DHA) Uniform Business Office (UBO) Direct Care Inpatient ASAs aligns with the change in release of the TRICARE DRGs—meaning that they will be released on a CY basis and be effective from January 1 – December 31 of a given CY.
- Between January 1, 2023 – December 31, 2023, the 2023 TRICARE DRG case weights will be used in conjunction with the CY 2023 ASA rates.

The Department of Defense (DoD) publishes this data annually for hospital reimbursement rates under TRICARE/Civilian Health and Medical Program of the Uniformed Services pursuant to title 32 Code of Federal Regulations, section 199.14(a)(1). Due to data system limitations, for military medical treatment facilities (MTFs), direct care adjustments are made for length of stay (LOS) outliers rather than high cost outliers.

Table 1 provides the average direct care inpatient rates for third party billing, interagency billing and International Military Education and Training (IMET) billing for high wage, low wage and overseas facilities.

Table 1. Average CY 2023 Direct Care Inpatient Billing Reimbursement Rates Per MS-RWP

| Wage Index | Average IMET Rate | Average Interagency Rate (IAR) | Average Full/TPC Rate |
|------------------------|--------------------------|---------------------------------------|------------------------------|
| Area Wage Index > 1.00 | \$10,197.23 | \$14,587.92 | \$15,391.35 |
| Area Wage Index ≤ 1.00 | \$10,919.69 | \$15,055.55 | \$15,938.55 |
| Overseas ^ | \$9,411.11 | \$20,856.50 | \$21,898.89 |

^ Hawaii and Alaska are not considered overseas for billing purposes.

The IMET program is a key funding component of U.S. security assistance that provides training on a grant basis to students from allied and friendly nations. Authority for the IMET program is found pursuant to title 22 United States Code (U.S.C.), section 2347. Funding is appropriated from the International Affairs budget of the Department of State. Not all foreign national patients participate in the IMET program.

The Interagency (IAR) ASA rates are used to bill other federal agencies.

The full/Third Party Collection (TPC) ASA rates are used to bill insurance carriers, pay patients, and other payers.

Each MTF providing inpatient care has its own applied ASA rates (shown in Appendix A). The MTF-specific ASA rates are the average ASA rates adjusted for indirect medical education costs, if any, for the discharging hospital. The product of the discharge specific MS-RWP and the MTF-applied ASA rate is the charge submitted on the claim and is the amount payers will use for reimbursement purposes. The individual ASAs are published on the DHA UBO Website (<https://health.mil/Military-Health-Topics/Access-Cost-Quality-and-Safety/Uniform-Business-Office>). Examples of how to calculate the reimbursement charges are shown in Section 2.0.

The ASA per MS-RWP used in the direct care system is comparable to procedures used by the Centers for Medicare and Medicaid Services (CMS) and TRICARE. The expenses represented by the ASAs include all direct care expenses associated with direct inpatient care.

- The inpatient ASAs includes the cost of both inpatient professional and institutional services.
- The ASA rates apply to reimbursement from TPC, IMET and IAR payers.
- The breakdown of total inpatient charges is: 93 percent for institutional charges; and 7 percent for professional charges.
- When preparing bills for inpatient services:
 - Professional fees are based on the privileged provider services.

- The hospital institutional fees are based on the costs for support staff, facility costs, ancillary services, pharmacy, and supplies.

MTFs without inpatient services, whose providers perform inpatient care in a civilian facility for a DoD beneficiary, may bill payers the percentage of the ASA/MS-RWP based charge that represents professional services.

In the absence of an MTF-applied ASA rate for the facility, the ASA rate used will be based on the average for the type of Core-Based Statistical Area in which the MTF is located—areas with wage rate indices greater than, less than or equal to 1.0, or overseas. The MTF UBO must receive documentation of care provided in order to produce an appropriate bill.

1.1 Family Member Rate (FMR)

The CY 2023 FMR is \$21.30 per day. The FMR is established by authority of 10 U.S.C. §1078.

2.0 Examples Applying ASAs to Compute Inpatient Stay Charges

The cost to be recovered is the product of the MTF applied ASA rate and the MS-RWPs specific to the inpatient medical services provided. This includes the costs of both inpatient institutional and professional services. Billing in the examples below is at the full/TPC rate.

For each MS-DRG, TRICARE establishes short stay and long stay thresholds. An inlier is any discharge with a LOS greater than the short stay threshold, equal to or less than the long stay threshold. An outlier is any discharge with a LOS less than or equal to the short stay threshold or greater than the long stay threshold. Example charge computations are provided below for inlier, outlier, and transfer discharges. The full list of TRICARE MS-DRGs with MS-DRG case weights, long stay thresholds, short stay thresholds and other information is provided by accessing the MHS UBO Site located on the MHS Secure Site LaunchPad available to authorized UBO Service representative users with a Government Common Access Card, or at the TRICARE Rates and Reimbursement website (<https://health.mil/Military-Health-Topics/Access-Cost-Quality-and-Safety/TRICARE-Health-Plan/Rates-and-Reimbursement/Diagnosis-Related-Group-Rates>).

Table 2 provides the information used in the billing examples for a non-teaching hospital (DMIS ID 0075 – Fort Leonard Wood Army Community Hospital, Fort Leonard Wood, Missouri) in an Area Wage Index ≤ 1.00 location for a discharge in MS-DRG 762 – Vaginal Delivery W Sterilization/D&C W MCC.

Table 2. Third Party Billing Examples

| MS-DRG | <i>MS-DRG Description</i> | MS-DRG Weight | <i>Arithmetic Mean LOS</i> | Geometric Mean LOS | Short Stay Threshold | Long Stay Threshold |
|---------------|--|----------------------|-----------------------------------|---------------------------|-----------------------------|----------------------------|
| 762 | Vaginal Delivery W Sterilization/D&C W MCC | 0.8741 | 2.9 | 2.4 | 1 | 13 |

| Hospital | Wage Index | Area Wage Rate Index | IME Adjustment | Group ASA | MTF-Applied TPC ASA |
|--|----------------------------|-----------------------------|-----------------------|------------------|----------------------------|
| General Leonard Wood Army Community Hospital | Area Wage Index ≤ 1.0 | 0.7805 | 1.0000 | \$15,938.55 | \$14,573.06 |

| Patient | Length of Stay | Days Above Threshold | Relative Weighted Product | | | TPC Amount |
|----------------|-----------------------|-----------------------------|----------------------------------|----------------|--------------|-------------------|
| | | | Inlier | Outlier | Total | |
| #1 | 7 days | 0 | 0.8741 | 0 | #1 | 7 days |
| #2 | 21 days | 8 | 0.8741 | 0.9615 | #2 | 21 days |

Example #1 provides the example for the inlier LOS discharge in MS-DRG 762. The MS-RWP for an inlier case is the TRICARE MS-DRG weight of 0.8741. The MS-DRG weight used is the CY 2022 Version 39 TRICARE DRG weight.

- The CY 2023 MTF-Applied TPC ASA rate is \$14,573.06 (0075 General Leonard Wood Army Community Hospital's TPC rate as shown in Appendix A).
- The MTF amount to be recovered is the MS-DRG weight (0.8741) multiplied by the MTF-Applied TPC ASA (\$14,573.06).
- The inlier cost to be recovered is \$12,738.31 as computed below.
TPC Amount Billed: MTF-Applied TPC ASA rate multiplied by the MS-DRG weight.

$$= \$14,573.06 \times 0.8741 = \$12,738.31$$

Example #2 provides the example for the outlier LOS discharge in MS-DRG 762. The total MS-RWP for an outlier case is a combination of the TRICARE MS-DRG weight plus additional MS-RWP credit for each day that the LOS exceeds the Long Stay Threshold. The charge is determined by multiplying the total MS-RWPs by the ASA amount. The outlier total MS-RWP value to be recovered is shown in the computation below.

- a) For the outlier MS-RWP value calculation, 33 percent of the per diem weight is multiplied by the number of outlier days. The number of outlier days is computed as the actual LOS minus the Long Stay Threshold. Per diem weight is determined by dividing by the MS-DRG weight by the Geometric Mean LOS.

- b) LOS Outlier MS-RWP value calculation

= 0.33 (MS-DRG Weight/Geometric Mean LOS) x (Patient LOS - Long Stay Threshold)

= 0.33 x (0.8741/2.4) x (21-13) = 0.33 x 0.36421 (carry out to five decimal places) x (21-13)

= 0.12019 (carry out to five decimal places) x 8 = 0.9615 (carry out to four decimal places)

- c) The total MS RWP is the MS-DRG weight (0.8741) added to the LOS outlier MS-RWP value.

Total MS-RWP: 0.8741 + 0.9615 = 1.8356

- d) The MTF amount to be recovered is the MTF-Applied TPC ASA rate (\$14,573.06) multiplied by the total MS-RWP.

TPC Amount Billed: MTF-Applied TPC ASA rate x Total MS-RWP

= \$14,573.06 x 1.8356

= \$26,750.31

3.0 Room and Board Rates

In April 2023, the methodology for calculation of the Room and Board Rates was updated necessitating revision and addition to this section. Room and Board rates were calculated using Occupied Bed Day (OBD) rates, but the following methodology changes have been incorporated into the calculation:

- **Updated OBD rates using FY 2022 Medical Expense and Performance Reporting System (MEPRS) cost-based data to use the most recent Fiscal Year of data.**
- **Excluded inpatient cost categories including intensive care, pharmacy/vaccine, medical supplies, surgical services, and labor categories, which are either captured through professional fee charges or billed as separate charges on an itemized basis.**

- Calculated a weighted average by dividing total inpatient costs less the cost exclusions by total OBD for each geographic region in order to assign MTFs a weighted value by total number of bed days within a geographic region.

The updates outlined above had the net effect of reducing the average Room and Board rate 42% on average per geographic region from the previously approved CY 2023 approved Room and Board rates. The below table outlines the updates by region:

| CDM Regional Grouping | Previously Approved CY 2023 Room and Board Rate | NEW (April 2023) Revised Room and Board Rate | Price Difference | % Difference |
|-------------------------|---|--|------------------|--------------|
| Alaska | \$2,764.00 | \$1,148.99 | -\$1,615.01 | -58% |
| Colorado | \$4,612.22 | \$3,723.14 | -\$889.08 | -19% |
| Florida | \$5,632.81 | \$3,698.52 | -\$1,934.29 | -34% |
| Georgia | \$5,552.72 | \$1,852.21 | -\$3,700.51 | -67% |
| Kansas | \$3,829.93 | \$3,325.12 | -\$504.81 | -13% |
| Kentucky | \$5,618.51 | \$1,961.34 | -\$3,657.17 | -65% |
| Mississippi | \$7,853.83 | \$3,075.46 | -\$4,778.37 | -61% |
| National Capital Region | \$5,404.98 | \$2,686.19 | -\$2,718.79 | -50% |
| Non-US | \$5,688.60 | \$3,135.56 | -\$2,553.03 | -45% |
| North Carolina | \$4,301.78 | \$2,365.89 | -\$1,935.88 | -45% |
| Puget Sound | \$7,008.63 | \$6,207.67 | -\$800.96 | -11% |
| Sacramento | \$7,822.15 | \$4,601.09 | -\$3,221.06 | -41% |
| San Diego | \$4,368.88 | \$4,504.47 | \$135.59 | 3% |
| Texas | \$5,027.54 | \$2,523.42 | -\$2,504.12 | -50% |
| Tidewater | \$8,739.38 | \$1,816.41 | -\$6,922.97 | -79% |

As of CY 2022, the legacy method of billing inpatient charges through ASA rates will no longer be utilized upon implementation of the MHS GENESIS Revenue Cycle billing system due to the switch to Itemized Inpatient Billing from DRG-based billing. Room and Board charges will be developed based on OBD Rates, and itemized billing will occur for all other captured procedures and services that previously rolled into the ASA DRG rate.

These updated rates are a direct result of the previous fiscal year's costs associated with providing care at the Inpatient level, and do not include medications, supplies, procedures performed, or any additional expenses other than providing a room and bed for the beneficiary. Professional services, medications, durable medical equipment, orthotics, supplies, and technical component of procedures performed other than the institutional cost of the room and board rate will be charged according to the methodology outlined in the Outpatient Rates policy letter.

Room and Board rates are the weighted average of OBD Rates at each MTF within a Regional Charge Table. Each MTF rolls up to a Regional Charge Table, which is documented in Appendix B and the final Room and Bed rates that will be utilized are shown in Appendix C. Final Room and Bed rates include rates for Intensive Care (1.2X) and Step-Down Care (1.1X),

Similar to ASA rates, regular Room and Board rates consist of the Full Cost rate, and adjustments are applied such as the Interagency Rate, the IMET rate, and the TPC rate. The interagency rate for CY 2023 consists of a 6.35 percent discount rate from the full rate, and the IMET rate for foreign military personnel consists of a 39.03 percent discount from full rate, while the TPC rate is equivalent to the Full Cost rate.

APPENDIX A: CY 2023 Adjusted Standardized Amounts (ASA) by MTF**Effective 1 January, 2023**

| DMISID | MTF NAME | SERV | FULL COST RATE | INTERAGEN CY RATE | IMET RATE | TPC RATE |
